OVERLAPPING.

The question raised at the annual meeting of the Gloucester and Bristol Diocesan Association with reference to the overlapping of ringing organisations is a very important one to many societies. In the case of the Gloucester and Bristol Association we learn that forty per cent. of the membership of the overlapping society is drawn from the diocesan area, and if these ringers are not members of both societies, it can readily be realised that this position of affairs must seriously affect the numerical and financial strength of the Diocesan organisation. Although no action appears to have been taken, it was suggested that the Central Council might take this matter up, so that overlapping might be prevented.

Such action by the Council would bristle with difficulties, and in the present stage of the development of ringing organisation would probably do more harm than good. There are many areas in which more than one society operates, and for the most part, what rivalry there is, is of a most friendly type. Instances could, of course, be mentioned where the official feeling between the societies thus placed is not altogether cordial, but any outside interference in the direction of delimiting spheres of operation or influence would not be taken kindly. Unless there are clear-cut geographical boundaries, there is always risk of the 'offence' of poaching, even in cases where each society recognises the presence of the other upon its territory, and whatever action was taken by way of arranging existing cases of overlapping there would be no future guarantee that new societies would not from time to time spring up.

Where there now exist two societies covering one area, to the detriment and not to the mutual support of one another, our view is that the safest and most hopeful line to follow is to seek amalgamation. Whether such a step is possible in the diocese of Gloucester and Bristol we are not in a position to say, but action upon this basis was successful in Lancashire, where the Liverpool Diocesan organisation joined forces with the Lancashire Association. On the other hand, we have such cases as the Leeds and Sheffield district societies thriving within the borders of the Yorkshire Association, supported by leading members of the county organisation, and carrying on together in the most amicable fashion. When, however, the position is otherwise, it is lamentable to find two bodies, which might form one strong whole, suffering from the actions of each other, to the detriment, often, of membership and finance, and most certainly to the art of ringing. Unity is strength in this as in other matters, and it should be the object of all to see that weakness, brought about by the division of strength, does not harm the cause which both have at heart.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL.

Orders may be placed now for delivery at a future date to suit the convenience of clients.

CLEVELAND AND NORTH YORKSHIRE ASSOCIATION. SUPPORTING THE CENTRAL COUNCIL'S DECISIONS.

The annual meeting was held at Thirsk on Whit Monday, when members attended from Ripon, Thirsk, Wath, Northallerton, Middlesbrough, Darlington St. John and Holy Trinity, West Hartlepool, St. Aidan's, Shildon; Stockton, and Sharow. The bells, a peal of eight, with tenor of 17 cwt., were kept going practically all day, Kent Treble Bob Minor, Grandsire and Stedman Triples, Bob Major, Kent Treble Bob, Double Norwich and Superlative Surprise Major being rung.

A committee meeting was held at which a considerable amount of business and discussion took place, followed by a short service in the church, there being a good gathering of members and friends. The address was given by the Rev. N. P. H. Austin, Vicar of Thirsk, who gave the association a very warm welcome to Thirsk.

Dinner was held at the Three Tuns Hotel, presided over by the Rev. A. Simpson, president, supported by the Rev. G. F. Amies (curate of St. Mary's, Cockfield), the hon. secretary, Mr. T. Metcalfe; vice-presidents, W. Pick (Sharow), J. Stott (Thirsk), J. W. Passman (Middlesbrough).

At the business meeting which followed, the Secretary submitted the annual report showing, amongst other things, that ten peals had been rung during the year by 45 members in the following methods: Grandsire Triples, Bob Major, Kent Treble Bob Major and Double Norwich Court Bob Major. The year had begun with £30 14s. 11d. in hand, and closed with £33 14s. 10d.—The report and balance sheet were unanimously adopted.

The president (the Rev. A. Simpson), vice-presidents, Messrs. W. Pick, J. Stott, G. F. Alexander, J. W. Passman and the Rev. J. L. Kyle; hon. secretary and treasurer, Mr. T. Metcalfe; auditors, J. W. Whittle and J. C. Pollard were re-elected, and were unanimously thanked for their past year's services.

The President moved a vote of thanks to the Vicar of Thirsk for conducting the service and giving the address and the use of the bells; also the Vicar of Felixkirk for granting the use of the bells, and to Mr. A. J. Todd, the organist.

The President explained there had been a movement amongst various associations to back up the Central Council in their work and suggestions. He suggested that the association should fall into line by passing a resolution that they would abide by the decisions of the Central Council. This would give them a moral support, and help them in their undertaking.

The resolution was adopted unanimously.

The committee's recommendations of meetings for the year are:—September, Bedale; Easter Monday, 1923, Robin Hood's Bay; annual meeting, Whit Monday, 1924, Middlesbrough.

The President also suggested that the vice-presidents should try and arrange other meetings at various towers and send invitations to the members and officials. He thought this would do a great deal of good and stir up more interest in the art of change ringing.

86, NOT OUT.

ROMNEY MARSH GUILD CELEBRATE A BIRTHDAY.

A meeting of the Romney Marsh and District Guild, held at Aldington on Saturday, May 26th, was arranged specially to celebrate the 86th birthday of Mr. Charles Slingsby, the father of the Guild, and captain of the Aldington ringers. Mr. Slingsby rang the treble to the first touch of Bob Minor, and also in a subsequent touch. Stedman and Grandsire Doubles were also rung. Service was conducted by the Rector, who gave a very nice address, based on the words, 'Honour to whom honour is due.' He referred to Mr. Slingsby as one particularly to whom honour was due, as he was always to be found in his place in the belfry, and afterwards at the services.

At the conclusion of the service a tablet was dedicated to commemorate a 720 of Bob Minor which was rung at Aldington on Mr. Slingsby's 85th birthday. The members were then invited to the Rectory, where a splendid tea awaited them on the terrace, Mrs. Slingsby and Mrs. Sherwood assisting the Rector's wife and his family. There were two fine birthday cakes, one being Mr. Slingsby's, the other for the Rector's youngest daughter, whose birthday it was as well.

The meeting was held on the terrace immediately after, the Rector presiding.—New Romney was fixed as the place for the next meeting, on June 16th.—It was decided to have an annual outing in July, and the Master, Mr. C. W. Everett and Mr. O. Tribe were deputed to make the necessary arrangements, the route proposed being Tunbridge Wells, East Grinstead, Edenbridge, etc.

The good wishes of the Guild were accorded to Mr. Slingsby upon his birthday, and the hope expressed that he might, like his father, reach a century.

A hearty vote of thanks was accorded the Rector for permission for service, and for his generous hospitality, with thanks also to his wife and family, and the ladies who had assisted.

A course or two of Grandsire Triples were then rung on the handbells by C. Tribe, H. Baker, F. S. Macey and G. Johnson, and thus ended a very pleasant and enjoyable meeting.

BELFRY GOSSIP.

The ancient peal of bells at Holy Trinity Church, Gidleigh, have just been removed from the tower. Three of them are by Robert Norton, 1430; the other bell by W. Bennington, 1641. They are to be tuned, and a new bell added. These bells being of such a good age and shape, Messrs. W. Aggett and Sons have recommended that they should be saved by tuning and adding a new bell to make the peal. They will be rehung on modern principles.

During the next fortnight the old bells at Withiel, Bodmin, Cornwall, will be removed to Messrs. Aggett's Bell Works. Two of the bells fell through the tower floor, three are still in the bell frames. All are to be recast, and a new tenor bell added, and the whole rehung in new fittings.

On June 9th, 1850, the first peal in America was rung. This was a peal of Grandsire Triples (Holt's ten-part) called by Henry Haley at Philadelphia. There were two tenormen, one of them, a one-legged man, ringing the bell for the first 24 hours.

Believed to be the first peal of Grandsire Maximus out of London, a peal in this method was rung at Birmingham on June 12th, 1815.

Mr. C. Wallater writes with regard to the footnote to the peal of Stedman Triples at Barton-under-Needwood, Staffs, that he received a letter from Mr. F. J. Cope, of Lichfield, stating that he rang in a peal of Stedman Triples at Barton-under-Needwood on Oct. 13th, 1906, by the Burton branch of the Midland Counties Association, and that he is under the impression that there had been a peal in this method rung there previously by the Burton men.

The time of the peal rung at St. Andrew's, Holborn, on May 26th, published in our last issue, should have been given as 3 hrs. and 22 mins.

The St. John-the-Baptist Society, Leytonstone, have held their customary two days' excursion, and set about it with the same energy that always marks these annual excursions. Amongst other ringing, they brought round eighteen complete 720's of Surprise Minor!

Winchcombe bells, Gloucestershire, have been rehung by Messrs. Bond, of Burford, Oxon, and were opened on Sunday week by members of the Gloucester and Bristol Association. They are a peal of six, with tenor of 12 cwt.

The peal of Cambridge Surprise Major at St. Margaret's, Leicester, on May 24th, was the first peal of Cambridge rung in the city by a local band.

ROWLEY REGIS BELLS.

AN APPEAL.

To the Editor.

Dear Sir,—I take the liberty of appealing through your columns for help towards reinstating the peal of bells of the ancient parish of Rowley Regis, Staffordshire.

The church was destroyed by fire in June, 1913 when so many other churches and public buildings were being sacrificed in a political campaign of that period.

After lying in ruins for ten years the church is now being rebuilt. The tower has been built as high as the nave roof, but the Church Council being already in debt to the extent of over £2,000 cannot undertake the completion of the tower and installing the bells.

A public effort is being made by the four daughter churches of Blackheath, Old Hill, Cradley Heath and Tividale to complete the tower, and also help toward the £400 to rehang the bells. Rowley Regis is one of the poorest parishes in the Black Country, where there are practically no industries.

The bells, undamaged by fire, were augmented to eight in 1887 by James Barwell. The original five were by Matthew Bagley, of Chalcombe, 1694. The tenor, 15 cwt., was recast in 1848 by Mears, and again in 1881 by Blews.

On behalf of the poor parishioners, who are yearning to hear their bells again, I ask all large-hearted clergy, laity, and ringers to help. Subscriptions will be gladly received and duly acknowledged through your columns, and may be sent to Lloyds Bank (Rowley Bells Account), Old Hill, or to me.—Yours, etc.,

A. E. PARSONS.

Beauty Bank, Old Hill, Staffs.

FALSE PEALS.

CENTRAL COUNCIL'S PLAIN BOB COLLECTION.

To the Editor.

Dear Sir,—The question of false peals having been brought forward at the recent meeting of the Council, I would point out that the following peals have been duly notified as false, through the ringers' Press:—

Page 145, peal No. 2 (J. Carter), can only be five times repeated, producing 4,032 changes (not 8,064); page 213, peal No. 149 (A. Craven); page 217, peal No. 156 (A. Craven); page 222, peal No. 167 (H. Dains).

Bob Royal Group.—Page 242, peal No. 21 (H. Dains).

Double Oxford Group.—Page 254, peal No. 1 (H. Dains).

It really seems a pity that the Royal Group does not contain the first-class compositions which had been rung years before the collection was printed.—Yours truly,

J. HUNT.

Taunton.

THE CENTRAL COUNCIL.

(Continued from page 347.)

LITERATURE AND PRESS COMMITTEE.

Mr. W. Willson presented the following report on behalf of this committee, many of the quotations from newspapers in reference to bells and ringing, causing the members of the Council considerable amusement: "During the past year, numerous comments upon bells and bell ringing have found their way into the public Press. A strike or 'lock-out' of a band of ringers in the North was sufficient to cause the Sunday newspapers to broadcast the information that the ringers' 'Trade Union' had withdrawn its men for a 'living wage.' On behalf of the committee, it was pointed out to the various Editors that the statement was absurd that no such union existed, nor was likely to exist, that the ringers on strike were outside the pale of the Exercise of change ringing, and that their status was that of the itinerant organ grinder compared to a church organist. The coming of the carillon has also helped to bring the bell question before the public. An article in the 'Daily Mirror' of March 27th, on 'Chimes,' remarked: 'On the Continent, especially in Flanders, bells have a much mellow and more stirring ring than in England, and church carillons, although melancholy, are wonderfully soothing. Cromwell and his Puritans were responsible for the melting down of ancient and beautiful toned bells, but those now being manufactured have a dry and sharp sound. Are some secrets of bell founding lost? or is there no demand for perfect chimes?' Also in the 'Morning Post' of April 16th, a 'leaderette' dealt in a most interesting manner with the same subject. The writer was obviously well versed in bells and ringing. The article was headed 'Singing Towers.' After describing the high state of efficiency in the ringing of to-day, the writer proceeded: 'The music they provide is a noble accompaniment to the people's emotions: it decorates the passing time with arabesques of stately sound which, according as the mood of the listeners colours them, may be far-flung litanies of lamentation, or, on joyous occasions, the veritable 'laughter of music.' We shall never cease to take delight in the intricate sequences of 'change ringing,' even though we welcome a higher form of bell music—that which is possible only where a keyboard carillon, such as exists in every tower of Belgium and Holland, has been installed. . . . We are now on the eve of a new and significant development—the creation of a school of carillon players and composers under the auspices of the University of Birmingham.' Now, while every one with an ear for music will appreciate tune-playing and its recognition, it would be unfortunate for our art if carillons were to be preferred to bells hung for ringing. The carillon has come to stay, and we must adapt ourselves to what it may entail. Your committee suggest that when a carillon is about to be installed, influence should be brought to bear, so that out of the many bells a ring of eight or ten be hung for ringing, on the ground that a carillon cannot express public or national sorrow or rejoicing as does a ring of bells hung for ringing. Thus provision would be made for both forms of bell music. The question of ringing defence has cropped up in a new guise. A mixed band from various parts of the country, arranged to attempt a long peal and permission was granted by the authorities concerned. When the 'Ringing World' announced it, other ringers took umbrage, wrote letters to the local Press and induced the authorities to cancel the permission on the ground of possible damage to the tower and bells! While it is admitted that there may be reasonable and just objections to long peals, and the public have a right to be considered it is scarcely 'playing the game' for ringers within the ranks to incite a protest and thus bring about an embargo. Any 'backdoor' influence to suppress the legitimate aspirations of a band—whether local or not—is to be deplored. Such objections should be made through the Ringing Press, and weighed for what they are worth.'

Mr. Willson emphasised the feeling of the committee with regard to the action taken to prevent the long peal attempt at Evesham, and pointed out that while objection was taken to this peal attempt, another band rang a peal in the same tower the next week.

Rev. C. B. Matthews seconded the report.

Rev. F. L. Edwards pointed out, with regard to carillons, that it was a mistake to suppose that carillons abroad took the place of church bells for ringing. They did nothing of the kind, they were only a supplement.

Mr. G. P. Burton, who is a member of the committee, said they ought to be glad that the Press was showing greater sympathy if not greater intelligence as regards bell ringing. The 'Daily Mail,' in connection with the Stedman Cinques record at Southwark on the previous day, had announced to the world the amazing news that ringers preferred to ring in their shirt sleeves (laughter). He suggested that some member of the Council or committee should be asked just to leave the official 'card' of the Council so to speak, at the editorial office of one or two of the important papers. They had a friend at court at the office of the 'Morning Post,' who was most friendly to ringing generally, and he suggested they might with advantage get into touch with some of the other papers.

Alderman Pritchett said he wanted to remove one misapprehension.

They had no professor of carillon music at Birmingham University, and he did not think it was likely they would have one.

Mr. Pryce Taylor said he believed money had been left for the purpose of instructing students at Birmingham University in carillon music.

The report was adopted.

METHODS COMMITTEE.

The Rev. H. Law James, on behalf of the Methods Committee, said they were authorised last year to print the collection of Plain Major Methods. His part of the business was done, and so was Mr. Trollope's part, and the papers were at the present moment in the hands of Mr. E. H. Lewis, who was an extremely busy person. He had been carrying them about with him from one hotel to another all over the country, dealing with them piecemeal as he could, and Mr. Lewis had suggested that he should give it up and resign from the committee. That, said Mr. James, was the very last thing they wanted. Mr. Lewis was one of the best members of their committee, and doing good work. It was work that was of importance, and he suggested that the Council should have patience and let them get it done as soon as they could. They could not hurry Mr. Lewis, who was up to his eyes in work.

The Council agreed.

THE PEALS ANALYSIS.

The report of the Analysis Committee was read by the Rev. A. T. Beeston. Practically the whole of it had previously appeared in 'The Ringing World,' and the members got rather tired of the repetition of a mass of statistics, but, when questioned as to the necessity of going through already published details, Mr. Beeston said he was merely carrying out the request of the chairman of the committee, who was not present at the meeting.

When the report had been read, the Rev. B. H. T. Drake humorously suggested, amid laughter, that it be referred back for further details.

The President said they were greatly indebted to the committee for the enormous labour they had expended upon the report. All he could say was that they had infinitely more leisure than he had (laughter).

Mr. W. A. Cave called attention to the inclusion in the Analysis of peals of Triples rung on seven bells, and said he understood that the Council had decided that these should not be recognised.

The Rev. A. T. Beeston said the decision of the Council was that they should not be 'countenanced.'

Canon Baker asked how the Council could discountenance them except by omitting them from the records.

METHOD NOMENCLATURE.

The report was adopted, and later the same committee's report on method nomenclature was brought up by the Rev. A. T. Beeston, who moved its adoption. This report has already been published in these columns.—The motion was seconded by Alderman Chambers, and had been declared carried, when the Rev. H. Law James intervened to point out that the committee had taken upon itself to change the names of methods which had been applied by the Methods Committee, and published in 1907. He mentioned as instances College Single and Canterbury Pleasure, and added that by their action the Analysis Committee wanted to say that a reverse method was a single method—in other words, that black was white. He moved that the matter be referred back.—Mr. J. A. Trollope seconded, and added that he would also like to see a revision of some of the names. The only safe plan in naming methods was to name them after towns.

Mr. J. W. Parker said the committee had the highest respect for the opinions of Mr. James, and they recognised what he had done with regard to the publication of methods, but in this matter they could not agree with him. The object of the committee was to indicate as clearly as possible what the method in the collection really was. The method of College Single Minor had been rung for over 200 years. It was the method in which, when the treble got down into 3rd's place, the bells from the front made 4th's, and went back to lead. The method in the collection was that method reversed, and as the old method was that rung as College Single the committee thought by putting it down as College Single Reverse they were indicating to the Exercise what exactly the method was. Continuing, Mr. Parker said the committee either wished the report to go through as it stood or that the matter should be placed in the hands of some other committee.

The Rev. H. Law James said this matter was not a question of opinion: it was a question of what was right and what was wrong.

Mr. G. P. Burton said some ringers were much concerned about the absurd names the committee had given to some of the methods. They did not want to make the Exercise a laughing-stock.

The Rev. E. S. Powell asked if the committee had not gone beyond their powers, in renaming these methods. He understood they were asked only to find names for the unnamed methods.

PRIORITY OF USE.

The Rev. A. T. Beeston said the question arose out of the difficulty experienced by the Analysis Committee. When methods were rung bearing two names, they were not aware which method had been rung, and it was to get rid of that confusion that it was de-

ecided that any claim to the name of a method should be sent in to the librarian within a certain period. At the Council's last meeting it was decided that the Analysis Committee should take up the work of clearing up this confusion. That being the case, it was necessary to go back and find out what names had been given to methods that were being rung, and in the search they had to make they came across methods bearing certain names which were in the collection, bearing other names. In dealing with the matter they found it necessary to go, as they stated they should do, on priority of use. Acting on that principle they embodied these changes in their report, and they stood by it.

Mr. Trollope said the names of the two methods referred to by Mr. James were put into the collection deliberately by the Methods Committee. There was a principle behind the action. The method to which the Methods Committee gave the original name of College Single was being rung as such in many places, and the name of College Single as applied to the old method would die out. If there was any point in the argument about confusion, he believed it was only a question of a few years before it would be eliminated entirely. What the Analysis Committee were now doing was setting back a matter that had long been going steadily forward, and which had been entirely approved by the Exercise.

Referring to the point raised by the Rev. E. S. Powell, the President read the minute of the meeting by which it was decided that the committee should after a certain date name the unnamed methods.

The Rev. E. S. Powell: Does that give them power to give a new name to a method which already had a name printed in the collection?

The Rev. A. T. Beeston said the Methods Committee, when they published the collection, gave the name of Stedman Slow Course to a method which they acknowledged to be a mistake. Had the Methods Committee power to take the name given to a recognised method and give it to one of their own?

The Rev. H. Law James said if they accepted the Analysis Committee's recommendation, the Council, to be consistent would have to say that Cambridge Surprise must lose its name, and that Double Norwich Major should be Norwich Court Bob.

Mr. C. T. Coles said the committee seemed to have gone beyond the terms of the reference.

The Rev. A. T. Beeston said the Council, at their last meeting, accepted the principle on which the committee had acted, namely, the question of priority of use.

The Rev. H. Law James said the subject was a technical one which should have been settled. He had been trying his best for the last month or six weeks to bring the committee to see it in its true light, and that was why he was prepared to fight (laughter).

Mr. Cave pointed out that members might refrain from voting for the amendment because the committee had threatened to resign. It would be a great regret to many of them if the question was not decided on its merits.

The Rev. F. Ll. Edwards moved that the matter be adjourned until next year's Council meeting.

Mr. A. F. M. Stewart seconded.

Mr. W. Willson moved, and Mr. J. Parker seconded, that the Council proceed to the next business.

On being put to the meeting this was carried by 28 votes to 20.

CENTRAL NORTHANTS ASSOCIATION.

ANNUAL MEETING.

The annual meeting of the Central Northamptonshire Association was held in Northampton on Whit-Monday.

The service was held in St. Edmund's Church at noon, when the Vicar (the Rev. A. M. Johnson) preached a very practical sermon.

Luncheon was served at the Cinema Cafe, Market Square, the company of guests including the Rev. J. P. Friend (president of the Association), the Rev. A. M. Johnson (Vicar of St. Edmund's), the Rev. E. C. Channer (Northampton), the Rev. C. H. L. Hopper (Weekley), the Rev. J. White (Pitsford), the Rev. J. O. Hichens (Guilsborough), vice-presidents; Mr. W. T. Wilson (treasurer), Mr. D. J. Nichols (general secretary), Messrs. R. Black, F. Barber, S. J. Lawrence, and W. Bott (district secretaries), Miss C. Hepburn (secretary Ladies Guild), Mr. W. Martin (Nuneaton), Mr. H. Wood (London), Mr. W. R. Drage (Long Eaton), and about 50 others.

The business meeting followed, presided over by the president. The election of officers resulted in the president, treasurer and general secretary all being unanimously re-elected, with thanks for past services. Mr. M. Hobbs and Mr. J. Saddington were also re-elected auditors.

Representatives to serve on the Central Council for 1924, 1925 and 1926 were elected as follows: Messrs. D. J. Nichols, F. Hopper, E. M. Atkins and F. Wilford.

Grants of three guineas were made from the Belfry Repairs Fund to the Desborough and Doddington Bell Restoration Funds.

It was decided to hold the next annual meeting at Kettering.

Arrangements were made to hold a special meeting of the Association on Saturday, June 9th, at Wellingborough, when the Lord Bishop of Peterborough will address the members.

The President proposed a very hearty vote of thanks to the Vicar of St. Edmund's for conducting the service, and to the clergy of Northampton for placing the various rings of bells at the disposal of the ringers during the day.

The Vicar of St. Edmund's, in replying, said how pleased he was to meet the ringers, and promised to do all he could to help the Association.

Some excellent ringing was enjoyed in a variety of methods by a representative gathering during the day.

NORTH WALES ASSOCIATION.

The annual meeting was held at Llandudno on Whit Monday, when members from the following towers were present: Buckley, Wrexham, Rhyl, Portmadoc, Hawarden, Bangor, Gresford and Llandudno. A service was held at Holy Trinity Church, when the Rev. Canon Ll. R. Hughes gave an excellent address, dealing with the origin and development of bell ringing as a means of calling people to the worship of God.—Mr. Hughes presided at the organ.

The business meeting was held in the Church House, the chair being taken by the Rev. Canon Hughes. Mr. A. J. Hughes, of Rhyl, spoke of the recent bereavement of the Rev. T. Lewis Jones, of Bangor, president of the association, by the death of his wife, and it was unanimously resolved that a letter of sympathy be sent to him.

The following officers were all re-elected: President, Rev. T. Lewis Jones, Bangor; Master, Mr. A. J. Hughes, Rhyl; hon. treasurer, Mr. Edw. Rowlands, Wrexham; hon. secretary, Mr. C. H. Jones, Buckley; district secretaries: Bangor, Mr. Wm. Pegler, Rhyl, Mr. B. R. Collis; Wrexham, Mr. H. Moore, junr.; Buckley, Mr. C. H. Jones. It was decided to hold the half-yearly meeting at Bangor on Saturday, Sept. 1st, and the next annual meeting at Rhyl on Whit Monday, 1924.

New members were proposed from Portmadoc, Buckley, Wrexham and Bangor, and a hearty vote of thanks was passed to the Rev. Canon Hughes for presiding at the meeting, and also for his address at the service.

After the meeting, the ringers were entertained to an excellent tea, provided by Mr. Hughes.

Touches in various methods were rung during the day both before and after the meeting.

DURHAM AND NEWCASTLE DIOCESAN ASSOCIATION.

The Whit Monday meeting was held at Morpeth in ideal weather. A company of 25 sat down to an excellent dinner at the George and Dragon Hotel, Mr. Story (the president) presiding, supported by Mr. E. Ferry (hon. secretary), Mr. A. M. Hall (hon. treasurer), Messrs. G. Holmes and R. Parkinson (vice-presidents of the Northern and Eastern Districts, respectively), Mr. J. E. Gofton, Northern District secretary, and others. The agendas for the committee and general meeting were very short, and the party were soon out enjoying the country, but not before they had had the pleasure of hearing the Whitley Bay band tap off a course of Stedman Caters on the handbells, and three courses of London Surprise Major by the Gofton brothers. The Whitley Bay band arrived in style, with 'Elizabeth,' and T. T. G. as 'chefonier.' As well as walks round the Castle Grounds and the country in the immediate district, touches of Plain and Treble Bob Minor, Stedman Triples, Bob Major, Cambridge Surprise Major, etc., were rung on the ancient watch tower bells, situated in the Market Place. The parish church, for the services of which the watch tower bells ring, is about a mile further south. In the ringing chamber is a slab bearing the lines:—

Have you heard the Morpeth Wonder,
Church and steeple a mile asunder?

The tower has two stone watchmen on its battlements. The bells are rung thrice daily, and the curfew is still rung here.

The clock is said to be a very old one, brought from Bothal Castle. For many years it had only one pointer which made it, if not a Morpeth wonder, a Morpeth curiosity. The late Alderman Cranston supplied the necessary works for the second pointer. The fact that the clock had only one pointer, stamps it as an ancient one for, as most people know, the first clocks had only one hand, the hour hand, the minutes had to be guessed.

The Roman Catholic Church in Oldgate, Morpeth stands in what was part of the gardens of Collingwood House, the residence of Lord Collingwood. The pastures round the Castle are full of oak trees planted by Lord Collingwood, when he feared there would be a shortage of oak to build the men-of-war.

Until quite recently there was a strap and long heavy rope some 25ft. or 30ft. long kept in the Watch Tower belfry, which was used in the old days of bull baiting; it is now in the Town Hall Museum. It was a law of the ancient Corporation that no butcher should kill a bull, the flesh of which was to be sold for human food, unless the bull had been publicly baited in the market place. In the museum are many interesting relics of the past, including 'The Branks,' or bridle, for punishing scolding women.

ESSEX ASSOCIATION.

SUCCESSFUL GATHERING AT CHELMSFORD.

The 44th annual meeting of the Essex Association was held on Whit Monday, at Chelmsford, and proved one of the most successful in its history. There was a large gathering of ringers from all parts of Essex, together with distinguished visitors from outside the county, which testified to Chelmsford being the most suitable venue for Essex ringers. Chelmsford, with its ring of twelve at the Cathedral, and the number of eight-bell towers in the neighbourhood is recognised as one of the best ringing centres in the Eastern Counties. Proceedings opened with service at the Cathedral in the morning.

The Rev. Canon Lake, Rector of Chelmsford, conducted, and the lesson was read by Mr. C. H. Howard, J.P. (Braintree), Master of the Association.—The Rev. W. H. Pelham, Vicar of Taving, gave the address.

The annual meeting followed in the Vestry Hall. The Master presided over a crowded attendance, among those present being Canon Lake, the Rev. W. H. Pelham; Mr. F. J. Pitstow (Saffron Walden), hon. secretary and treasurer; the Rev. H. T. W. Eyre (formerly hon. secretary and treasurer); Messrs. W. J. Nevard, Master, N.E. Division; W. H. Dyson, Master, N. Division; A. Edwards, Master, S.E. Division; P. Timson, secretary, S.E. Division; W. H. Theobald, secretary, S.W. Division; F. Dench, secretary, N.W. Division; and the following well-known ringers: Messrs. W. and G. R. Pye, Romford; D. Elliott, Great Henny; Mr. and Mrs. Ilains, Clapham; Miss Parkins, Peterborough; Mr. J. Souter, Diss; Mr. Rupert Richardson, Surfleet; Messrs. W. Hewitt and E. Pyke, London; T. R. Dennis, Cambridge; T. and W. G. Faulkner, C. Fenn, Barking, etc.

THE MASTER'S REPORT.

The Master, in his report, stated: Although the total membership is slightly reduced, it does not indicate any slackening of interest, but is rather due to the difficult times through which we are passing. A considerable number of names have been removed from the list, due to non-payment of subscriptions, some not of their own choice, but from a necessity arising out of lack of regular employment. The membership now stands at 989, showing a decrease on the year of 32, which is undoubtedly temporary, and will again show improvement when the revival in industry is more apparent. The income of £58 2s. 4d. is smaller by £5 11s. 9d. than last year, and expenditure amounts to £53 12s. 1d. showing a balance in hand of £23 14s. 0½d., resulting in a net gain of £4 10s. 3d., which would have been greater had all subscriptions due been paid. The five-bell tower of Shalford has again been affiliated and has an enthusiastic young band, making 99 towers in union with the Association which constitutes a record. Forty-eight peals all on tower bells have been rung as follows: Stedman Cinques, 1; Bob Royal, 2; Stedman Caters, 2; Grandsire Caters, 1; London Surprise, 2; Cambridge, 4; Superlative Surprise, 1; Double Norwich Major, 2; T. B. Major, 4; Bob Major, 3; Stedman Triples, 2; Grandsire Triples, 4; Surprise Minor, 4; Minor in various methods, 14; and Doubles, 2. Thirty-one members shared in the conducting, and forty-two rang their first peal.

The new ring of eight, hung in a steel frame in the triangular tower at All Saints', Maldon, has been dedicated and opened. The ring of eight at Romford has been rehung in a steel frame. A new treble has been added to each of the rings of five at Kirby-le-Soken and Ingatestone. It is proposed to recast some of the Rayleigh bells and hanging the whole ring of eight. Necessary repairs have also been carried out at Halstead and Thaxted. An appeal for funds is being made to rebast and rehang in a new frame the ancient ring of eight at Great Baddow. Although the past year may be described as uneventful, we can congratulate ourselves that good work has been accomplished. It is gratifying to know that in an increasing number of parishes the bells are regularly sending out their message, inviting all to public worship, which as church workers is our first duty. In conclusion, the Master expressed thanks, on behalf of the Association, to the honorary secretary, district officers and auditors for their zealous work to promote the interests of the association during the past year.

OFFICERS RE-ELECTED.

The report and balance sheet were unanimously adopted.—Mr. G. Faulkner raised the question of advertising the meetings of the Essex Association in the 'Ringing World,' and the Master stated that arrangements had now been made for the notices to be regularly published in the 'Ringing World.'

The election of officers followed.—Canon Lake, who temporarily took the chair, said it was a great pleasure for him to propose the re-election of Mr. C. H. Howard as Master, and the Essex Association were very fortunate in having a Master who took such a keen interest in its affairs (hear, hear).—Mr. Caleb Fenn (Barking) seconded, and the motion was carried unanimously amid applause.

Mr. C. H. Howard, in reply, said he was extremely obliged for the renewed confidence (this being his fourteenth successive appointment to the office), and so long as it was the wish of the members that he should occupy the position he would endeavour to continue to carry on the business of the association in a proper manner (hear, hear).

The Master proposed the re-election of Mr. F. J. Pitstow (Saffron Walden) as hon. secretary and treasurer, and said he had entered with enthusiasm into his work, which he was carrying on in a most satisfactory manner.—Mr. G. Faulkner seconded, and the motion was carried unanimously.—Mr. Pitstow, in reply, acknowledged the good work done by the district Masters and secretaries, and said he should be pleased to carry on for another year.

Messrs. G. A. Black and G. W. Faulkner were re-elected auditors, and thanked for their services. Messrs. G. R. Pye, W. J. Nevard, E. J. Butler, and the Master, were again appointed representatives to the Central Council.

The question of association property was discussed and it was agreed that the handbells should be kept in the ringing chamber at the Cathedral, and the peal books and other property in the hands of the general secretary.—Mr. T. Faulkner very kindly undertook to write the peal book up to date free of cost.

The question of the utility of the peal analysis published by the Central Council in the 'Ringing World' was discussed, and the Master stated that it was interesting to a great many ringers and associations, and entailed a large amount of labour upon those who compiled it.

A number of new numbers from Harwich and Braintree were enrolled.

RECOGNISED BY CHURCH AUTHORITIES.

Mr. T. Faulkner proposed thanks to the Master for presiding, and acknowledged the good work of the district officers for the association.—The motion was carried unanimously.

The Master, in reply, returned thanks for himself and the district officers, whose work he always recognised in the annual report. The Essex Association was now recognised in the county as an authority on bells, and during the past year he had been applied to over a score of times from different parts of the diocese for advice. The Master of the Association and district officers were often written to from parishes where there were proposed restorations of church bells, and there were frequent journeys to parishes where meetings were held to consider such matters. In the last ten years the Essex Association had become recognised by the church authorities in such matters, and there was scarcely a restoration going on in the county where the association had not been asked for advice. Very often the association had been the means of preventing patched up jobs being made of bells restorations, and sometimes work had been put off for a year or two, so that it could be done well. The influence of the Essex Association was always to see that work was properly carried out (hear, hear).

Mr. F. J. Pitstow proposed, and Mr. W. H. Dyson seconded, thanks to Canon Lake and the Rev. W. H. Palham.

Canon Lake, in reply, said the church authorities at Chelmsford regarded it as a great compliment to have the Essex ringers there, and they could always be assured of a warm welcome.

After a luncheon at Hicks' Restaurant the ringers adjourned to the Cathedral and various towers in the district, where some excellent touches were brought round. On the Cathedral bells there was some very fine ringing, including Stedman Cinques and Cambridge Royal. At the other towers methods ranging from Grandsire Triples to London Surprise were successfully brought round by mixed companies. Every opportunity was given to young ringers to try their hands on twelve bells and in advanced Major methods. The Essex Association has held many successful meetings during its long history, but it was agreed that this gathering at Chelmsford was the most successful and enthusiastic ever experienced, and spoke well for the advance of the art in Essex.

POINTS FOR PEALS.

Sooner or later the Central Council will have to drop the allocation of points for peals in the Analysis which they annually publish. As a tabulated record of the peal performances of the various associations, the table is an exceedingly interesting one, and the historical records of the Exercise, to say nothing of the immediate interest, would lose a great deal if the analysis were abandoned altogether, but with the allocation of points it is a totally different matter. No member of the Analysis Committee would, we think, endeavour to claim that points can be any true criterion to the 'value' of all peals. In order that the points may be considered as in any way a reflection of the peals rung by an association something much more than a flat rate for each method and length is necessary. Under the present arrangement it is not possible to take into account weight of metal, 'go' of the bells, 'first peals,' good ringing or bad ringing, or anything of that kind which contributes towards the true worth of a performance, and ringers are recognising more and more that the points allotted may have no real relation to the merit of a peal. Without any reflection upon the county of cream and cider, a peal of Grandsire Triples, rung by a Devonshire band under the conditions which exist there, is of equal, if not greater, merit than a peal of London Surprise rung by the leading lights of, say, the Middlesex Association. But none of these things are, or can be, taken into account in dealing with peal points, and to that extent these points are worthless, if not misleading.

Then there is the question of handbell peals. Recently we published a letter from one of the Birmingham band (who know as much about twelve-bell ringing both on tower and handbells as anyone), expressing surprise at the paucity of points allowed for the peal of Sextuples, and calling attention to the disparity of points between Grandsire and Stedman Cinques. Mr. Alfred Pulling, whose authority and experience in handbell ringing is well known, points out other anomalies in his letter in this issue, and his opinion is but one in the gathering feeling of discontent among ringers, who seriously study the peal point question.

The scale of points, even within its present scope, is by no means satisfactory. Add to this that there is now no competitive spirit acknowledged by the Analysis, that many important factors are perforce ignored, and that the allocation of points greatly increases the work of the committee, and we have weighty reasons why 'points for peals' should be dropped from the table compiled on behalf of the Central Council.

ROWLEY REGIS BELLS.
AN APPEAL.

Dear Sir,—I take the liberty of appealing through your columns for help towards reinstating the peal of bells of the ancient parish of Rowley Regis, Staffordshire.

The church was destroyed by fire in June, 1913, when so many other churches and public buildings were being sacrificed in a political campaign of that period.

After lying in ruins for ten years the church is now being rebuilt. The tower has been built as high as the nave roof, but the Church Council being already in debt to the extent of over £2,000 cannot undertake the completion of the tower and installing the bells.

A public effort is being made by the four daughter churches of Blackheath, Old Hill, Cradley Heath and Tividale to complete the tower, and also help toward the £400 to rehang the bells. Rowley Regis is one of the poorest parishes in the Black Country, where there are practically no industries.

The bells, undamaged by fire, were augmented to eight in 1887 by James Barwell. The original five were by Matthew Bagley, of Chalcombe, 1694. The tenor, 15 cwt., was recast in 1848 by Mears, and again in 1881 by Blew.

On behalf of the poor parishioners, who are yearning to hear their bells again, I ask all large-hearted clergy, laity, and ringers to help. Subscriptions will be gladly received and duly acknowledged through your columns and may be sent to Lloyds Bank (Rowley Bells Account), Old Hill; Blackheath Branch of Lloyds Bank, or to me.—Yours, etc.,
A. E. PARSONS.

SQUIRE PROCTOR'S VETERANS RINGING AT BENNINGTON.

A very enjoyable meeting was held on Saturday at the old-world and, from a ringer's point of view, interesting village of Bennington, upwards of forty making the journey through the by-lanes and roads. Those who attended for the first time expressed the pleasure it had given them to be at Bennington, which 60 years ago was a famous ringing centre, as the numerous peal boards testify. There were ringers from many places, including Cheshunt, Hertford, Ware, Hitchin, Tottenham, Ilford, Hatfield, Walkden, Great and Little Munden, and last, but by no means least, the Edmonton band, who, together with several ladies, arrived in a charabanc and were a welcome addition to the company. The Rector received and welcomed the visitors very heartily, and provided tea free to all.

At the business meeting, held afterwards, he presided, and was accorded a very hearty vote of thanks for his kindness and generosity. Touches were rung in all the standard methods London and Bristol Surprise included.

One very interesting feature was to see two of the veterans of the old Squire's band of 60 years ago, Mr. S. Page and Mr. L. Chapman, both between 70 and 80 years of age, the former ringing a faultless course of Superlative Surprise, and the latter a course of Stedman Triples.

NEWCASTLE CATHEDRAL GUILD.

On Saturday afternoon, June 9th several members of this Guild, including Mr. W. Storey (president), Mr. A. M. Hall (hon. treasurer), of the Durham and Newcastle Association; Messrs. J. E. R. Keen, J. Rowell, W. H. Barber, A. F. Hillier, J. Foreman, and G. R. Pickering, journeyed by motor-car and bus to Cramlington for one of their periodical visits to the church tower, where touches of Kent, Cambridge, Double Court and Bob Minor were rung on the six bells.

Mr. Oswald Simms, the indefatigable Ringing Master of the tower, received the party, and joined in the ringing. Afterwards he entertained the members at his house to tea, where they were joined by the Rev. Hughes (curate), whose genial company added much to the enjoyment of the outing.—After tea ringing took place on handbells, accompanied by the organ.—Mr. Storey thanked Mr. and Mrs. Simms, on behalf of the members, for their very kind hospitality. Had the weather been more favourable a friendly game at cricket, with some of the local talent, would have formed part of the day's outing.—It was indeed gratifying to note that Mrs. Simms' health had been restored after her illness.—The party returned to Newcastle about 10 o'clock, after a most successful and enjoyable day's excursion.

MUFFLED RINGING.

On Monday, June 4th, after the funeral of the late Mr. J. A. Lambert, a well-known member of the Surrey Association, a quarter-peal of Grandsire Caters was rung, with the bells half-muffled, at St. Peter's, South Croydon: Miss Ellen E. Hardcastle 1, Miss Elsie E. Chapman 2, T. A. S. Bloxham 3, Miss Freda E. Orr 4, F. W. Larbey 5, T. Banister 6, W. J. Rundle 7, C. Dean (conductor) 8, J. E. Cooper 9, S. W. Holdaway 10. The ladies are from Clapham Park, the ringer of the 7th from Plymouth; of the 9th from St. John's, Croydon; the rest of the local church.

SUSSEX COUNTY ASSOCIATION.

The meeting of the Central Division, held at St. Nicholas', Brighton, June 2nd, proved successful, about 60 being present. Ringing commenced at 2.30, and continued until 4.30, when the visitors proceeded to St. Nicholas' Hall, where tea had kindly been provided by the Vicar (Canon H. M. Hordern), who welcomed all as they entered.

The business meeting which followed was mostly of a routine nature. Messrs. A. Backshaw (Keymer), E. E. Bish (London) and Chas. Dean (Croydon), were elected members. A very hearty vote of thanks was passed to the Vicar for the use of the bells, the service, and for his most generous hospitality. The members then attended choral service in the church, the address being given by the Vicar. The collection taken for the Association's Benevolent Fund amounted to £1 0s. 7d.

The tower was again visited until about 8.30 p.m., rounds to Cambridge Royal being rung, many ringing on ten bells for the first time.

The following towers were represented: Aldrington, Angmering, Brighton (St. Nicholas and St. Peter's), Burgess Hill, Eastbourne, Heene, Henfield, Hurstpierpoint, Keymer, Lewes, Lindfield, New Shoreham, Rotherfield, Steyning, Twineham, Uckfield, Waldron, and non-resident members from London, Croydon and Portsmouth.

Best thanks are due to the organist and choir, and to the St. Nicholas' branch, who did much towards making the meeting a success. The next meeting will be held at Henfield.

DURBAN'S YOUNG BAND.

To the Editor.

Dear Sir,—It was with the greatest pleasure that we read in 'Belfry Gossip' in 'The Ringing World' for April 15th, that Mr. John Prickett, of Chesham, was leaving the old country for Durban. No doubt there will be many who will miss him sadly, but their loss will, I hope, be our gain. We are sadly in need of skilled assistance, and a very warm welcome awaits him at St. Mary's, Greyville, if he cares to join us. It may interest ringers to know that, excepting the writer, none of our band had heard or handled bells before, and their keenness and constant attention to their work is an object lesson. The band contains four young ladies, and six boys, the ages ranging from 14 years to 21, the oldest being a young lady. A little bird whispers that one of the boys is preserving his 'Ringing World' with a view to having it bound for the tower.

The correspondence on 'Simpson Tuning' has been closely followed by us, and we can only say that we are very well pleased with our bells which are tuned on the five-tone principle.—Yours faithfully,
H. Oblate Road, Durban. F. SIMPSON.

DEATH OF A WESTMINSTER ABBEY RINGER.

MR. JAMES WILLSHIRE'S SUDDEN END.

All London ringers, and many in the country also, will learn with deep regret of the death of Mr. James Willshire, who passed away on May 22nd. About forty years ago, when the Rochester Row band was formed, the deceased began his ringing career under the late Mr. J. M. Hayes, and he was always to be found at his post at St. Stephen's Church on Sundays. He was one of those selected to form the Abbey company, and was ringing there on Whit Sunday. On Whit Monday he and his family paid a visit to Brighton. When retiring to bed that evening he was in his usual health but passed away apparently in his sleep, about six o'clock on the Tuesday morning, from heart trouble.

The funeral took place on the following Monday at Wandsworth Cemetery, Canon J. Perkins, of the Abbey, representing the Dean and Chapter, conducted the service, and gave a very touching address to about thirty ringers who were present. Among the many wreaths was one in the form of a church bell swinging in its frame sent by his Abbey comrades. A course of Stedman Triples was rung over his grave by H. R. Newton, H. R. Pasmore, W. H. Pasmore and J. N. Oxborrow.

In the evening the usual 'whole pull and stand' was rung at St. Stephen's Church by J. N. Oxborrow, J. Rowbotham, A. A. Hughes, H. Ellis, H. R. Pasmore, A. Macdonald, W. H. Pasmore and A. B. Peck. The deceased took part in many peals on eight ten and twelve bells, the last three being the wedding peal of Cambridge at the Abbey, a peal of Maximus, and one of Bristol Surprise. He will be greatly missed by his Westminster comrades.

WINCHESTER GUILD.

A very successful quarterly meeting of the Basingstoke district was held at Andover on June 9th, those present including the Rev. C. D. P. Davies (hon. secretary of the Division), Mr. G. Williams (Master of the Guild), Mr. W. T. Tucker, and about 50 members from Woolton Hill, Winchester, Whitchurch, Swindon, Ringwood North Stoneham, Hightclere, Dene, Bramley, Bishopstoke, Basingstoke and Andover.

At the business meeting which followed the tea in the Church Rooms, the Rev. Barlow (Andover) was elected an honorary member, and Mr. Gardiner (Swindon) a compounding member.

During the afternoon and evening, good practice was had in the four standard methods.

The next meeting will be held at Bramley in September, of which due notice will be given in the 'Ringing World.'

BELFRY GOSSIP.

The first peal of Stedman Caters on handbells was rung by the College Youths on June 15th, 1851.

On June 20th, 1756, a peal of 'Carathan's Triples' was rung at St. Peter-at-Arches, Lincoln, and it is pretty well recognised now that this peal was Garthorn's peal of Grandsire Triples, the name of the composer having become wrongly spelt in handing it on.

Jasper Snowdon, to whom ringers owe so much, was born at Ilkley, Yorks, on June 18th, 1844.

The will has just been proved of the Rt. Hon. Richard Robert Cherry, K.C., formerly Lord Chief Justice of Ireland, and President of the Irish Association. He left estate valued at £53,439.

It falls to the happy lot of few ringers to conduct peals of Cambridge Surprise Royal and Bristol Surprise Major on one afternoon. This was accomplished on Saturday last at Loughborough, by Harold J. Poole, of Leicester. More strength to his elbow!

The first Surprise peal in the City of Leicester by an entirely 'local' band still remains to be rung. Verb. sap.

GRAVESEND BELLS.

NEW PEAL OF EIGHT DEDICATED.

A mixed lot of bells at St. George's, Church, Gravesend, have now been recast into a fine peal of eight by Messrs. J. Taylor and Co., of Loughborough. The bells were dedicated at a special service on May 30th by the Bishop of Rochester, the event being one of joy and general congratulation in the town. The service was the consummation of two years' persevering efforts, in which the Mayor and Corporation lent a hand by subscribing one hundred guineas, the Mayoress (Mrs. Thomas) raised a similar sum, and Mr. E. Hadlow, one of the ringers, collected no less than £500. One bell was recast at the charge of the children of the late Mr. William Russell, J.P., and another at the charge of Mr. G. Sandford. The cost of the peal is about £790, but other expenses have raised the total cost of the improvements to about £900.

The inscriptions on the bells give their history:—

Treble: Several gentlemen strangers gave this bell 1736. Recast at the charge of the Parish 1793. John Tucker A.M. Rector. Geo. Thompson and James Kirk Ch. Wardens. Thos. Mears of London fecit. Recast 1923.

2nd: Cast by John Warner and Sons, Ltd. London 1900. This bell was recast and the peal rehung in 1900. E. Lionel Gedge Rector. William Fletcher, J. R. Croft, Wardens. Recast 1923.

3rd: Geo. Arnold, Esqr., Mayor. Thomas Killick, John Haies, Ch. Wardens. T. Mears of London fecit. Recast 1923.

4th: Mears and Stainbank, founders, London. Robt. Joynes Rector. E. F. Jewell, John Paine, Churchwardens 1871. Recast 1923, at the charge of George Sandford, Esq., J.P. Ring out sweet memories of the past.

5th: Recast by John Warner and Sons Ltd. London 1902. Jno. Joynes, Wat. Nynn, Wm. Lance, Anth. Ireland, Wm. Myers, Jno. Fox, Jno. Bolger, Jno. Hughes, Ja. Roe, Geo. Clarke trustees for the subscription money, gave this bell 1736. John Applebee and Richard Phelps made these eight bells. In loving memory of William Russell, J.P., who died November 26th, 1920, aged 78 years, for 13 years a warden of this church, also of Jane, his wife, who died July 6th, 1914, aged 67 years. Recast 1923, at the charge of George Ireland, Gertrude and William Beaumont, children of the above.

6th: James Wade, Mayor, Esqr., Gaynham Rackstraw, George Thompson, Ch. Wardens, 1771. Recast 1923. Mrs. W. E. Thomas, Mayoress of Gravesend, raised one hundred guineas towards this peal. Edward Hadlow, a ringer of this tower, collected the greater part of the subscription money. Labor omnia vincit.

7th: Mears and Stainbank, founders, London. Frederick Beckley Nettlingham, Mayor, gave this bell, A.D. 1879. Robt. Joynes, Rector, James Davies, James Turner, Churchwardens. Recast 1923. In memory of ringers of this tower who fell in the Great War, 1914-1918. Charles Edward Constant, Walter James Crowhurst, Wilfred Randall Clarke.

Tenor: The Corporation gave £50 towards these bells. William Man, Esq., Mayor 1736. This bell was recast at the charge of the parish 1793. John Tucker, A.M. Rector. Geo. Thompson and James Kirk, Churchwardens. Thos. Mears of London fecit. 1923. This peal was recast and rehung in a new frame by public contribution. The Town Council subscribed the sum of one hundred guineas. William Evan Thomas, Mayor, Edward Lionel Gedge, Rector, William Henry Archer, James Everden, Churchwardens.

The Mayor and Corporation and other dignitaries attended the service of dedication, which was of an impressive nature, and the Bishop gave an appropriate address. After the dedicatory prayers, rounds were rung on the bells by E. Hadlow 1, R. Tall 2, R. Constant 3, Miss D. Tall 4, R. Smith 5, J. Constant 6, A. Constant 7, W. Parris 8. After the service, which concluded with the Te Deum, the Benediction and the Hallelujah Chorus, a touch of Grandsire Triples was rung.

The bells, tuned on the Simpson principle, are hung on ball bearings. The cast iron frame is carried on heavy steel girders, and Messrs. Taylor and Co. have carried out their work with their usual efficiency. The tenor is 18½ cwt. in E.

THE CENTRAL COUNCIL.

(Continued from page 363.)

A VALUABLE REPORT.

The Rev. C. W. O. Jenkyn moved that the Council adopt the report issued by the joint conference of the Towers and Belfries Committee and the Society for the Protection of Ancient Buildings. This report, upon the preservation of ancient towers and bells and advice as to bell restoration, was the outcome of conferences between the two bodies, and a summary has already appeared in our columns. Mr. Jenkyn said the outstanding personality at these conferences was Mr. E. H. Lewis.—Major J. H. B. Hesse seconded the adoption of the report.

The President said it was the most valuable report they had ever issued, and would do immense good from the ringers' as well as architects' point of view. It was a happy augury for the future that architects and ringers had come to agree upon such an important subject.

Canon Elsee said it would be remembered that there was recently a case where ancient bells had been mutilated by having the cannons removed. It was at a tower with only three bells, but there was a great deal of indignation expressed by authorities in the diocese concerned that this mutilation had been done without proper authority, and it was sometimes assumed that ringers, as such, cared only about the 'go,' and, to some extent the tone of their bells, and nothing about the history or preservation of ancient bells. He was, therefore, especially glad to see this report signed by representatives of the Council as well as by the Society for the Protection of Ancient Buildings. It emphasised the need for care for their old bells. Modern bells were far more musical in nearly every case than ancient bells. Old bells were, however, priceless, as evidence of the bell founders' work in the past, and ringers as a rule knew too little about the history of the bells in their tower. Every care should be taken to preserve any ancient bells that they still had. The difficulty was that many were in towers which scarcely came under that Council, but he was glad that it should be distinctly recognised by that Council that ancient bells should be treated with the greatest possible care (hear, hear).

Mr. T. H. Beams asked if the report had been submitted to the Royal Institute of Architects, if they could be got to agree to it, it would be of still greater weight.

The President said the architects had been largely circularised with this report.

BALL BEARINGS FOR BELLS.

The Rev. H. Drake pointed out that since the report was drawn up Major Hesse (one of the Council's signatories) had publicly stated that he had changed his mind with regard to ball bearings for bells, and asked what his position now was.

The Rev. C. D. P. Davies said the report merely said that the advantages of ball bearings was doubtful. Personally he was very much against ball bearings.

Major Hesse said his opinion was that they were cheaper and better both for the user and bell hanger. To renew them every ten years even would be cheaper than renewing plain bearings every forty years.

The Rev. C. W. O. Jenkyn said the conference was careful not to overstate facts, and, if they were not sure, they would not pretend that they were. They all felt, and Major Hesse felt, at the time the report was drawn up, that nobody could be quite certain about ball bearings. He thought Major Hesse had been more convinced as to their utility since, and it was quite possible that everybody's opinions might change as time went on. Continuing, the Librarian said, with regard to the distribution of the report, he thought they ought to play up to the society who were selling it where they could to cover the cost of printing and giving it away in cases where it might be given with advantage. That Council had provided £5 towards the cost of printing, and he suggested that copies of the report should be sold at 4d. each. He thought, however, that if associations or diocesan authorities desired to print it they should be allowed to do so, but he was most anxious that if it were printed it should be printed in full.

The report was adopted, and on the motion of the Librarian, it was also resolved: 'That this Council does not desire to exercise any rights of copyright on the report of the conference between representatives of this Council and the S.P.A.B.'

THE YEAR'S NEW RECORDS.

The Rev. A. T. Beeston presented the report of the Records Committee, and submitted a list of the records of first peals in new methods and of progressive lengths rung since the last Council meeting. He said they were glad to notice that the new methods, both of Major and Royal, were of the highest order. The list included the first peal of (1) Kent Treble Bob Royal in the 'Ilkeston' Variation by the Midland Counties Association; (2) Kent Treble Bob Royal, in the 'Granta' Variation by the Middlesex Association; (3) Stedman Sextuples (in hand) by the St. Martin's Guild; (4) Lancashire Surprise Major by the Lancashire Association; (5) Cambridge Court Bob

Major (in hand) by the Cambridge University Guild; (6) Middlesex Surprise Royal by the Middlesex Association; (7) three spliced Major methods (in hand) by the Cambridge University Guild; (8) Princess Mary Surprise Royal by the Midland Counties Association; (9) Double Oxford Bob Major (in hand) by the Ely Association. Progressive lengths have been rung as follows: 21,363 Stedman Caters by the Oxford Diocesan Guild; 5,376 and 5,408 Yorkshire Surprise Major by the Chester Diocesan Guild; 5,040 Clifton Surprise Royal by the Gloucester and Bristol Diocesan Association; 7,003 and 12,896 Cambridge Surprise Major by the Midland Counties Association. The committee thought it advisable to direct the attention of the Exercise to the necessity of adding a claim by footnote or otherwise to the announcement of any performance which was known or believed to be a record. No claim, for instance, was attached to the 7,000 Cambridge Surprise Major rung during the year. Such omissions increased the likelihood of these performances being overlooked. The committee awaited the Council's instructions respecting the publication of the schedule they had prepared of first and record performances in all methods. Mr. Beeston added the committee were of opinion that it would be unwise to print it until it had been subjected to examination by the Exercise and any mistakes pointed out.

The report was adopted, and on the suggestion of the hon. secretary it was decided to have typed copies of the schedule placed in the library for circulation among ringers.

SOUTH KENSINGTON MUSEUM EXHIBIT.

The Hon. Secretary, reporting for the Museum Exhibit Committee, said the committee had not achieved very much so far, but they had broken a lot of ground, and come to one or two tangible points. The committee had had an interesting meeting with the authorities of South Kensington Museum, and they were unanimous as to the lines which they should follow. The authorities were not spending any money on them, but they would give them the use of a glass case and a certain amount of wall space. When they considered what they should put into the case, the great thing focussed upon everyone's attention, especially the experts', was Mr. John Carter's famous machine, with which the authorities were very much impressed. Without that machine the exhibit would lose 90 per cent. of its value. Mr. Carter had expressed his willingness to loan the machine for a period of five years. With the machine (which he wanted some auxiliary exhibits, and he (the hon. secretary) had himself had made a model, showing a ring of six bells hung in a teak frame. That was at the museum, but Mr. Carter's machine was not. Then, they had had very kind offers on the part of one or two of the founders to see what they could do, in the way of putting in one or two models of bells. If and when they got these, they would be making a start, but until they had Mr. Carter's machine they could not fully represent the science of ringing in the splendid case which had been placed at their disposal. The reason why the machine was not yet there was that before Mr. Carter deposited it, he wished to ring, officially and in a proper manner, a peal on it, and also desired a certain gentleman to call that peal. As to the wall space, the committee agreed it would be wisest to utilise it by having diagrams printed and framed. Then came the question whether the Council was prepared to pay for the printing and framing, or were they to fall back on the private munificence of their members, or to make a collective effort. He was tempted to suggest that they should have some diagrams printed and sell them to towers, where they might be very useful, to defray the cost.

The Rev. C. D. P. Davies said it was exceedingly important that they should have something to show at the South Kensington Museum as soon as they could. They had been in conference for something like two years, and it was time they did something, however little.

Mr. James George said he should deplore printing diagrams for belfries, because they had plenty of lazy ringers now. The place to learn methods was at home, but if these cards were used in belfries the lazy ones would come to the belfry to learn the methods.

The Rev. H. Law James suggested that they should use the diagrams from Snowdon's 'Standard Methods' for the purposes of the exhibit.

Mr. A. Hughes said the great idea of having the cards, and having them large, was in order that they could be easily seen. If they put up the small diagrams on the big wall space they would be too small to be seen by anyone passing through the museum.

The proposal to use 'Standard Method' diagrams was carried by 27 votes to 17.

The Rev. H. Drake then moved that both the large and small diagrams should be used. He believed the large cards would be of use in a belfry.

The Hon. Secretary said if the diagrams were to be in scale with the exhibit they must be large. If they had the cards and the small diagrams, any person whose interest was aroused by the large diagrams would be able to look at the smaller ones, and they would have the whole thing.

Mr. W. A. Cave offered to print the large diagrams for the Council, and this offer was accepted with thanks.

This concluded the business of the committees.

NORWICH, ST. EDMUNDSBURY & IPSWICH ASSOCIATION. THE PROPOSED NEW TITLE.

The general meeting of the Norwich and St. Edmundsbury and Ipswich Diocesan Association was held at Pulham St. Mary Magdalene, on Saturday, June 2nd, when, by kind permission of the Rectors of Pulham St. Mary Magdalene and Pulham St. Mary-the-Virgin, the rings of eight bells at those parish churches were placed at the disposal of the members throughout the day.

Luncheon was served in the School Room, the president (the Dean of Norwich) being in the chair, supported by the Ven. A. R. Buckland (Archdeacon of Norfolk), the Rev. T. J. Perowne (Rector of Starston), and the following members of the committee: Messrs. F. R. Borrett, G. P. Burton, R. J. Goate, A. L. Coleman (general secretary), and between 30 and 35 representatives from the borderland of Norfolk and Suffolk.

The President eloquently proposed the toast of 'The King,' which was cordially honoured.

The President said before the business of the meeting was transacted, he would like to move a vote of thanks to the Ven. A. R. Buckland for his kind welcome to the association to Pulham, and also, on behalf of the members, to thank the Archdeacon and the Rector of Pulham St. Mary-the-Virgin (the Rev. E. W. Field) for the use of their bells. To that motion he would also like to add the names of Mr. F. R. Borrett, Mr. Chambers, Mr. and Mrs. Whiting, for the splendid arrangements they had made for the luncheon and meeting.—The motion was carried with acclamation, and the Ven. A. R. Buckland, in a few well-chosen words, responded.

The General Secretary submitted the following 18 nominations for membership: The Rev. T. J. Perowne, hon. member; Mr. David Vincent, Tunbridge Wells, hon. member, non-resident; Messrs. William Musk, George Barrett, James Fairweather, Charles Catchpole, Corbett Snelling, Charles Hubbard, Robert Harry Amis, Walter Newell Ashby, Walter J. Cunston, Thomas Kerridge, Hector Dennington, Charles Spurgeon Robert Warman, Harry Barrett, Arthur Corbyn, and Mr. William Steggall (re-election).—The President, after putting the nominations for membership before the meeting, declared all duly elected.

The general secretary having moved that the date of the annual general meeting of the association be fixed at this meeting, the Dean of Norwich very kindly invited the association to hold their annual service in the Cathedral. This invitation was gladly accepted by the members, and it was resolved that the annual meeting be held at Norwich on Thursday, October 4th, and that the arrangements be left in the hands of the Dean of Norwich, the general secretary (Mr. A. L. Coleman) and Mr. G. P. Burton.

The General Secretary submitted a brief report on the present position of affairs, in so far as it concerned the Suffolk members, and supported the recommendations of the general committee of April 26th, as published in 'The Ringing World' of May 11th, 1923. He said he would not take up the time of the meeting by going any further into detail, but leave it to the discussion of the members present. The matter was one of vital importance, and needed their most careful thought and consideration.

BORDERLAND VIEWS.

A long discussion, ably opened by Mr. F. R. Borrett, then took place on the future title of the association. There was a strong feeling on the part of many of the borderland members present for retaining some reference to Suffolk in the title, in view of so many members in East Suffolk having decided to continue their membership either as life members (non-resident) or hitherto as annual subscribing members, and it was strongly urged that the association should not, therefore, dissociate Suffolk entirely from its style, apart from which, the borderland ringers would be seriously inconvenienced if they were left out in drawing the new boundary, and in framing the new title. It had also to be remembered that a large portion of East Suffolk (the whole of Lothingland Deanery—the Lowestoft hinterland) remains definitely in the area of the Diocese of Norwich.

Mr. F. R. Borrett proposed, and Mr. G. H. Cross seconded, that the future title of the association be the Norfolk and Suffolk Association.

Mr. A. L. Coleman (general secretary) said such a title as the Norfolk and Suffolk Association would rather complicate the present position of affairs than lessen difficulties, the meeting having provisionally accepted the committee's recommendation with regard to discontinuing the district organisations in Suffolk. Suffolk members would retain their membership either as life members (non-resident) or as annual subscribing members, as they pleased, the latter receiving a free annual report. If no organisation was to be carried on in Suffolk, the title should be confined to Norfolk only, otherwise the position in Suffolk would appear somewhat anomalous with organisation in Norfolk and none in Suffolk, and should have further consideration.

Mr. G. P. Burton took the same view, and gave reasons for a change of title, rather than reverting to the old style, 'The Norwich Diocesan Association,' as some wished, which was not acceptable to many in Suffolk, especially the Suffolk clergy. He proposed as an

amendment (which Mr. Ben S. Thompson seconded), that the title be the Norfolk Guild for the Diocese of Norwich.

This amendment, however, was lost by a large majority, and on the chairman putting the substantive motion, it was carried by an overwhelming majority.

The Chairman, replying to a question as to whether the title selected was a wise one, said he could only reply with that well-worn phrase, 'Wait and See.'

As all motions passed at the meeting must come up for ratification at the annual general meeting on October 4th next, it will allow time for development and consideration.

SUFFOLK MEMBERS' FUTURE POSITION.

Mr. G. P. Burton moved, and Mr. Ben S. Thompson seconded, 'That this Association wishes well to the newly-formed Suffolk Guild, but in view of the intimate relations existing for so many years past between Norfolk and Suffolk the Association will continue to welcome Suffolk ringers as members.'

The motion, on being put to the meeting, was carried nem. con.

Mr. F. R. Borrett moved, and Mr. R. J. Goate seconded, as a recommendation to the annual general meeting of the Association, 'That all East Suffolk members of 20 years' standing should be excused any further subscriptions, and ipso facto become life members (non-resident).—Mr. A. L. Coleman moved as an amendment, and Mr. G. P. Burton seconded, a term of 25 years instead of 20 years.—The amendment, on being put to the meeting, was lost, and on the chairman putting the substantive motion, it was carried by a majority.

Seeing that the figures had not been gone into, and that calculation must be made of the effect of the proposal on the association's finance, the general secretary (Mr. A. L. Coleman) was instructed to do so, and report to the annual general meeting.

On the motion of Mr. A. L. Coleman, a hearty vote of thanks was passed to the Ven. A. R. Buckland for presiding over the second part of the meeting, the president (the Dean of Norwich) having had to leave for Norwich.

THE PEALS ANALYSIS.

THE 'FARCE' OF POINTS.

To the Editor.

Sir.—The more experience one gets the more one realises the fæce of points for peals. The Exercise cannot expect the Analysis Committee to be able to judge performances, yet is it fair to allot the same number of points to a band who may have been struggling for months to ring a peal of Grand sire 'in hand' as if our company here at Guildford rang one? Again, take compositions; in my humble opinion the finest thing yet recorded 'in hand' was the silent Carter's Odd-Bob One-Part by the College Youths, but they only received the same number of points as if they had rung the Four-Part, conducted by that master of Stedman, Mr. Winney. You cannot compare the two things. The writer of the letter in your issue of May 18th mentions Stedman Sextuples. Anyone who has had any experience at all of handbells must realise what a performance that was. It does not matter how remarkable the band may be in ringing Cinques, when it comes to two more bells it is a wonderful thing. The least the Analysis Committee could have done was to have written to the conductor and found out what he and his band considered a fair number of points for the performance.

The suggestion is made to have different points for tower and hand-bell peals, and I agree, if you are to have points at all, although I do not think the Exercise at large takes much notice of points. Handbell peals are a different thing altogether from tower bell peals, and should be treated separately. Take eight men on tower bells and four on handbells, of the same ability, give them exactly the same amount of practice, and who would ring a peal of Stedman first? I should advise some of our friends who do not think much of handbell ringing to try it, and they may find out there is something more than simply bringing the bells up and down.—Yours etc.,

A. H. PULLING.

TWO SUGGESTIONS AND A CORRECTION.

Sir.—In looking through the interesting 'Analysis of Peals rung during the year 1922,' on page 297 of 'The Ringing World,' I find a difficulty which I think will be experienced by many whose eyesight, like my own, is not what it once was, of connecting the grand totals of points and averages with the associations to which they belong, owing to a tendency to 'get off the metals' in tracing the long lines of figures backwards, this being especially the case with the middle figures half-way down the list. May I suggest to the Analysis Committee the advisability of, in future, printing the list of associations after the table of figures as well as before it, as is often done with the lists of stations on the time-tables printed in broad sheet form, which one sees at railway stations? Another help would be to divide the list into sections of five or six associations each, by means of horizontal lines extending from end to end, the entire width of the table.

In the analysis of handbell peals (page 300) the Ely Diocesan Association is credited with an average of 8.88 points per peal. If the other figures are correct, the average should be 11.55.

Rodwell, senr., 4, J. Rodwell, junr., 5, C. Cousins (conductor) 6.—For evening service, 120 Bob Doubles, with A. A. Bunting. Rung by an entirely local band.

WEST BROMWICH, STAFFS.—On Sunday evening, April 29th, at Christ Church, a quarter-peal of Grandsire Triples, in 46 mins., as a farewell to the Rev. F. W. Jones (curate), who has taken an appointment at Stafford: C. Williams 1, A. Pickering 2, H. F. Baraclough 3, J. W. Walker 4, A. Edward Reeves 5, J. Screen (conductor) 6, R. Hall 7, J. Reed 8.

DUDLEY AND DISTRICT GUILD.**HON. SECRETARY RESIGNS.**

A quarterly meeting of the above Guild was held on Saturday, June 2nd, at the Old Church, Smethwick, in very favourable weather. The bells (eight) were placed at the disposal of the members, and were set merrily going from 3 o'clock until service time in various methods. The service was conducted by the Rev. Stanley Astbury (son of the esteemed Vicar of Smethwick), who also gave a very interesting and inspiring address. An adjournment was afterwards made to the Parish Hall, where a substantial tea was in readiness, the party numbering about 40 from various towers affiliated with the Guild.

At the business meeting which followed, the Vicar (the Rev. Canon Astbury) presided, and gave the members a right hearty welcome to Smethwick.—The Hon. Secretary announced his decision to resign office. Much persuasion was used in trying to get him to reconsider his decision, and to hold office until the end of the year, but was of no avail, and on the proposition of Mr. Harry Mason, seconded by Mr. Arthur Spittle, and supported by Mr. Ben Gough, the former secretary, Mr. Herbert Sheppard, was prevailed upon to fill the gap during the remainder of the year. In future, therefore, all correspondence concerning the welfare of the Guild should be addressed to him at 113, Himley Road, Dudley.

The place and date for the next quarterly meeting were left in the hands of the secretary.

Other business of a routine character having been transacted, a hearty vote of thanks was, on the proposition of Mr. Harry Mason, seconded by Mr. Arthur Spittle, accorded to the Rev. Canon Astbury, for readily granting permission for the Guild to hold its meeting at Smethwick, for the use of the tower and bells and Parish Hall, and for presiding at the meeting; to the Rev. Stanley Astbury for conducting the service in church, and his address. Thanks were also accorded to the Vicar for the bountiful tea, to Miss Pigott and her assistants for having everything in readiness; to Miss Astbury for kindly presiding over the tea, and to all who had assisted to make the meeting a successful and happy one.

In replying, on behalf of those concerned, the Vicar said how pleased he was to welcome the Guild again, and hoped that it would not be long before they paid Smethwick another visit.

A LINK WITH THE PAST.

On Thursday, June 7th, was laid to rest in the pretty little village churchyard at Apsley, Herts. all that was mortal of Mrs. M. A. Smith, mother of two well-known London ringers, Messrs. W. D. and G. J. Smith, old members of the Ancient Society of College Youths.

Mrs. Smith celebrated her 88th birthday last March, and had enjoyed fairly good health right up to her very peaceful end, on Sunday, June 3rd. Her father, George Marriott, who died in 1837, was a prominent member of the Royal Cumberland Society for many years. He rang the 9th in the 7,746 Stedman Cinques at St. Michael's, Cornhill, on the 5th May, 1851, the then greatest number of changes ever rung in that method by twelve men only. He also assisted at the funeral peal of Malachi Channon (the ringer of the 9th bell in the 12,000, at Shoreditch, in 1784). Her husband, David Smith, was also a member of the Royal Cumberland Society. On Thursday, 6th December, 1866, at St. John at Hackney, a peal of Grandsire Triples (5,040 changes) was rung in 3 hrs. 17 mins. by the St. James' Society, conducted by Henry Booth: C. Jarvis 1, J. Pettit 2, E. Horrex 3, R. Richardson 4, H. Booth 5, J. M. Hayes 6, G. Marriott 7, D. Smith 8. Mr. Horrex is the last surviving member of the band.

It used to be a standing joke with the late Mr. John Cox to say to Mr. W. D. Smith, 'I called your grandfather's first peal, a week before your mother was born.' This peal was rung on the 12th of March, 1835, at St. Botolph's, Bishopgate.

LADIES' GUILD.

A very pleasant afternoon was spent at Corston, near Bath, on Saturday last by members and friends of the Western District of the Ladies' Guild, who were made very welcome by the Rev. C. C. and Mrs. Parker, and the Corston band of ringers. All attended service in the beautiful church at 4.30, and tea was served immediately after in the Village Hall. The Guild are very grateful to the Rector and Mrs. Parker, to the organist and choir boys, and to the ladies who so kindly arranged the tea. After tea a short business meeting was held, at which six new members were elected, and Wraxall, Somerset, was chosen for the September meeting, the secretary to try to arrange for this on the third or fourth Saturday in the month.

COUNCIL DEBATES.

Two incidents in the Central Council meeting indicated what, to outsiders, may appear as a certain lack of good spirit. The first occurred when the discussion arose on the Analysis Committee's report on the nomenclature of methods. Two objections were raised to this report as it stood, one by the Rev. H. Law James upon the committee's action in altering certain names which had been deliberately given to methods by the Methods Committee when they compiled and published the Collection of Minor Methods, and the other voiced by Mr. G. P. Burton on the question of the absurd names given to some methods by the Analysis Committee. When asked to take the report back for further consideration the committee adopted a 'take it or leave it' attitude, and, holding up the bogey of having nothing further to do with the subject unless the report was adopted in toto, persuaded the Council into accepting the report unaltered, mainly from fear of offending the committee. There was no desperate need for its immediate adoption, for the report is of little importance until the Council reprint the method collection. Moreover, it does not strengthen the ground of anybody to threaten to resign a task if he cannot have his own way; and many members must have felt with Mr. Cave that they would like to see these questions settled on their merits. It is a moot point whether the committee did not go beyond their powers in changing existing names, and when they introduced a brief report last year stating what were to be their guiding principles, few people imagined they proposed to deal with existing names as well as with methods which were unnamed. On the point of the new garden titles for some of the methods, persistence in them is but adding to the terms which may bring ridicule upon the art. The committee had an excellent opportunity of doing something to raise the dignity of the names applied to methods and to set a precedent for future action; instead they chose to go back to the antiquated ideas of a century ago and to take up an attitude, when their choice was questioned, which a little backbone on the part of the Council could have defeated.

The second point on which the Council showed lack of spirit was when they carried 'the previous question' in regard to the motion on the subject of the demolition of City churches. If a topic of this kind is outside the purview of the Council it should be for the President to rule it out of order before it is discussed, but 'the previous question' is a poor way of getting rid of any matter. It excludes any further discussion until disposed of, and members who may have had views to ex-

AN IRISH PEAL OF SIX RE-OPENED.

PEPPERY'S TRIP TO BLESSINGTON.

The Parish Church of Blessington, in the county of Wicklow, is dedicated to St. Mary, and contains a peal of six bells all dated 1682, some of them bearing the founder's name, Thomas Bartlet, and the foundry mark of the Whitechapel Foundry. There is in the chancel a very fine tablet inscribed in Latin, and surmounted with the arms of Archbishop Boyle, of Armagh, to whose memory it was erected. The translation runs: "Michael Boyle, D.D. Archbishop of Armagh and Primate of All Ireland, chancellor for 20 years, and frequently acting as judge in ecclesiastical causes. Among his many praiseworthy acts for the good of church and country he erected at his own expense the Church of Mary, Blessington, and the cemetery (for the glory of God, the worthy carrying out of Divine worship, and for the convenience and use of the parish), and provided all the necessary sacred vessels and church furniture, and added a bell tower with a chime of six bells. He solemnly dedicated the above to God, and the service of Religion on the 24th day of August, 1683. This memorial stone, with the inscription thereon, has been set up as a memorial of his munificence by his son, Morough, Viscount Blessington.

Go thou and do likewise."

The title of Viscount Blessington is now extinct, but time seems to lay its hands lightly on Blessington, as all the ancient stones and buildings which the writer saw were as fresh as when put in by the pious Blessington folk now passed to their rest more than two centuries ago. Even the bells which are beautiful castings show no signs of corrosion, each one bearing a beautiful medallion with the arms of the donor.

Saturday, May 12th, was a real red-letter day in the Wicklow Hills, as the bells were to be reopened, after a more than usually long silence. They had been rehung by Master Matthew O'Byrne, of Dublin; in a new steel frame and fittings, with the firm's patented slide rest. "The 'go' of the bells is all that could be expected," was the unanimous verdict of the numerous ringers who took the eventful trip (on a train which might have conveyed our forbears to meet Goode Master Bartlet in 1683), to open the new peal.

'Twas not necessary for me to adjure Goode Mistress Peppery to call me early on the eventful 12th (not of August, Goode reader, though the 'grouse' were getting it hot up there), for, 'i' faith, ye Goode Dame was as ready as her liege to take the glorious air and feast her eyes on the superb Wicklow Hill scenery. We boarded ye Goode 'Rocket Express' at Terenure Terminus, near a score of faint hearts and fair Ladies. Goode Mistress Peppery did adjure some of us to tie knots in our lower limbs ere we ventured on the top deck as ye roof was so low and ye sides 'non est.' Ye gent from Christ Church did call it 'Electric.' As to that I had 'mae doots,' for on disembarking we did all resemble prime smoked Yarmouths, but he did assure me that that was where the 'trie' came in. Punctually at 2.0 p.m. our fiery dragon emitted a smoke screen and tried to emulate a swallow, but had to stick to the rails in the end, and off we sailed up the hills, past the old stone house, yelept 'Hell fire club,' where the Fenians of old held their deliberations. We did not stop to seek election, though Goode Mistress Peppery did assure me I was qualified these long years. At the next stop the Railway Hotel had its windows broken, and the frames covered with wire netting, and ye Goode Captain of St. Pat's did affirm 'twas to keep the tourists from stealing the glass as souvenirs, but Goode Dame Peppery did venture that 'twas to keep their own thieves in, not others out.

At Tallaght there is a fine old church tower, partly ruined, amid beautiful scenery and a small inviting emporium, equipped with a quaint old painted sign of two foxes rampant, which informs all and sundry that 'this foxe's covert never draws blank.' This last I can vouch for the accuracy of; but, good readers, 'with bated breath,' I did arrive just in time to hear ye Captain of Pat's explaining to Goode Mistress Peppery that 'Tallaght' was Irish for 'burying place,' and ye Goode Spouse did confide in him that she knew Peppery had long thought of settling down, and that such a sylvan retreat would be ideal for him. I did then ponder long which of the two coverts would be drawn most often for my graceless self.

At the next junction the gent from Christ Church retired below decks. I murmured 'mal-de-mer,' but Mrs. P. blamed the hailstorm then in its pomp. I did opine 'twas cold enough for snow, but a gent from St. Pat's granted that if it did the smoke screen emitted by our chip machine was effective to hide us from any snow yet snown, an we had the pluck to brave the top deck of the first car.

But all things end some time, even conjugal smoke screens, and I arrived in Blessington with my bows stove in and my patent log out of action, but needless to relate ye Beste of Pilots was, as usual, triumphant.

We were greeted on arrival by the Rector, the Rev. Wm. Reeves Scuyll, with a hearty welcome that touched all with its spontaneity, and we were at once at home. His arrangements for our comfort were perfection itself, and when he piloted us to the tower to try the bells we were met by Mr. Matthew O'Byrne, of the Fountain Head Bell Foundry, which has been in existence for more than two hundred years, and does a very flourishing trade in bells. We were shown his firm's work, which he described with a verve that only one of his own genial personality can. We rang them, and we changed hands and listened to them, and everyone was satisfied with the various 240's of Minor, 120's of Doubles, and call changes with the local ringers, and our praise was unstinted. Then we were shown the church and its famous tablet by the Rector, who piloted us down to tea in an old-world room in this beautiful old-world Wicklow atmosphere, where the tables groaned 'neath their load of good honest Wicklow cheer, and the ladies were all smiles as they welcomed us and pressed upon us dainties after dainties, till even ringers could do no more, good trenchermen though they always are.

Our votes of thanks to all concerned are of the heartiest, especially to those Wicklow ladies who surely 'had the way with them.' Need I say that 'train' time came all too soon after more ringing, and a pleasant hour with Mr. Byrne.

It is worthy of note, that in 1798, the time of the Fenian Rebellion, a rebel attack was repulsed from the church tower, and at the present day Blessington is again in the limelight as a centre for rounding up the Republican troops; indeed, a sharp skirmish took place the very evening after our visit, but it is pleasing to find that during this time all places of worship are immune from the attentions of both parties—and the local band are taking up change ringing.

PEPPER & HISSELF.

FAIRFORD.—At St. Mary's Church, on June 13th in 50 mins., a quarter-peal of Triples: G. Law 1, O. G. Farmer 2, B. Guy 3, G. J. Winter 4, H. Acock 5, J. Hope (conductor) 6, G. W. Hasting 7, A. King 8. First quarter-peal of Triples for ringer of the tenor, and first quarter-peal of Triples with all local Sunday ringers inside. The ringer of the tenor hails from Lechlade.

BARNET, HERTS. — On Saturday, May 26th, a quarter-peal of Stedman Triples (Thurstans): R. Roffey 1, F. A. Milne, J.P., 2, H. Eldred 3, G. M. Kilby 4, C. V. Ebberson 5, H. Kilby 6, J. Armiger Trollope (conductor) 7, J. W. Langley 8. Rung after meeting too late for a peal.

OVERLAPPING.

To the Editor.

Sir,—In your issue of June 1st I see that at a meeting of the Gloucester and Bristol Association the secretary complained of overlapping, and stated that a neighbouring society in one of its branches had 40 per cent. of its members from the Gloucester Diocese. Now, if he means the Worcestershire Association (Southern Branch) let me point out that the fault lies entirely with themselves. A few years ago the members of two bands in the Winchcombe district approached me about joining an association, and I advised them to join their own county association. I also saw a prominent ringer from Cheltenham, and gave him the address of the secretary of each band. I also gave the address to another ringer in Gloucester, but it appears that no action was taken to rope in these ringers, so they attended one of our quarterly meetings, and made application to join our association. Since then another band from near Tewkesbury made application at a quarterly meeting. Can anyone blame us that we accepted these bands as members?—Yours, etc., F. J. JOHNSON.

LOCAL BANDS.

To the Editor.

Sir,—In your last issue you have an inspired note in 'Belfry Gossip,' which says: 'The first Surprise peal in the city of Leicester has yet to be rung (by a local band).'

In your issue of June 17th, 1921, was a peal of Superlative rung at St. John-the-Divine, Leicester, in which every ringer was a member and exclusively attached to the tower. The footnote stated that 'this is the first Surprise peal rung in Leicester by an entirely local band.'

I am not aware of anything to invalidate the claim.

THE A. T. KING MEMORIAL.

To the Editor.

Sir Dear,—I have to acknowledge, with grateful thanks, 10s. from the Rev. E. W. Carpenter, and 5s. from Mr. A. Miller of Winnipeg, Canada, towards the above fund. The total received for this fund, which is now closed, is £33 18s. 6d., and, as will be seen on reference to your notice column, the memorial tablet will be unveiled at Barnet on Saturday, July 14th. I trust that all members of this association, and also others who so kindly subscribed to the fund, will endeavour to be present.—Yours faithfully,

C. T. COLES,

Hon. Secretary to the Fund Committee.

BELFRY GOSSIP.

Members of the Society of Royal Cumberland Youths wishing to join the St. Mark's-in-the-Field's company for their annual outing on September 1st can have full particulars by forwarding stamped addressed envelope to the Secretary, Mr. J. W. Cornford, 7a, Morgan Mansions, Holloway Road, N.7.

Many ringers who attended the recent meeting of the Central Council in Salisbury were loud in the praises they bestowed on the local committee, especially on the man in charge. That his efforts in other matters is no less appreciated is evinced by the fact that last week he was the recipient of a gold demi-hunter watch, given him by the West Dorset teachers as an acknowledgment of his work as hon. treasurer and secretary for the past ten years, with the sincere wish that he may continue in office for many years to come.

The peal of six at Kingswinford, Staffordshire, is being augmented to eight by the addition of two trebles, and will be dedicated on Sunday, July 1st. The work is being carried out by Mr. J. E. Groves.

An interesting little booklet, entitled 'Why are you a ringer?' has been written by a ringer and published at 2d. by Mr. W. J. Southwood, 14, St. James' Road, Exeter. It is suitable for distribution by clergy among bands, and twelve copies can be obtained post free for 6s. 6d.

LONDON COUNTY ASSOCIATION.

The Southern District of the London County Association held a very successful and enjoyable meeting at St. John's, Croydon, on Saturday last. Upwards of 30 ringers were present from various places, including Beckenham, Camberwell, Chelsea, Beddington, Ealing, Lambeth, Roehampton, Putney, Streatham, Westminster, Addiscombe, Walton-on-Thames, etc.

The heavy peal of eight (tenor 30 cwt.) were made full use of, and the following methods were rung: Grandsire and Stedman Triples, Kent, Double Norwich, Cambridge and London Major. Several of the youthful members ascended to the top of the tower to enjoy the view, and probably this may account for the wonderful appetites shown later.

An excellent tea was partaken of at the Hare and Hounds, and was very much appreciated and enjoyed.

At the subsequent business meeting, four new members were made.—A very hearty vote of thanks was accorded to Mr. and Mrs. A. W. Clark for the splendid arrangements made, to the Rev. P. McCormick for the use of the bells, and to 'mine host' for the splendid tea supplied. The next meeting was announced to take place on July 7th at All Saints', Fulham.

The tower was re-visited, and a further hour's ringing took place. At the kind invitation of 'mine host', the party again adjourned to the Hare and Hounds, and a pleasant social evening was spent. Good-humour was abundant, and everyone was merry. Several present rendered some songs, the general secretary being in his element as the accompanist. Stedman Caters and other methods were rung on handbells, and all items received the applause deserved. 'Time flies,' and this particular evening went all out to prove it, it seemed, and the ringers reluctantly dispersed at 'the correct time.'

It is hoped that these social evenings may occur more regularly at meetings, although, of course, accommodation is not often available.

RINGERS IN A CHESHIRE VILLAGE.

The village of Capenhurst, in the Wirral Peninsula, was visited on Saturday, June 16th, by 80 ringers and friends, including the Master and general secretary of the Chester Diocesan Guild.

The war memorial ring of six bells were kept going from 3 p.m. until 9 p.m., in a good variety of methods from Plain Bob to London Surprise. The quaint old church was well filled for the service, and the Rev. A. T. Beeston gave a short address. After service, the Rector kindly provided tea at the Rectory. The wife of the Rector and willing helpers kept their guests well supplied with good things.

A short business meeting followed, and a vote of thanks was enthusiastically accorded the Rector and all those who had done so much for the ringers and friends.

SURPRISE PEAL IN LEICESTER.

To the Editor.

Dear Sir,—Would you please insert the following reply? 'Re Surprise peal in Leicester. The peal of Cambridge Surprise Major rung on the 24th May, 1923, was the first peal of Cambridge Surprise rung in the city of Leicester by a LEICESTER band.' This is not an affiche, as the writer is not au fait on such things. As for sending it 'local' instead of 'Leicester,' there are various lectures to many pars, if the reader wishes it. Therefore, I stick to my statement above, that it is accompli.—Yours truly,
BASTA.

THE CENTRAL COUNCIL.

(Continued from page 377.)

PROPOSED DEMOLITION OF CITY CHURCHES.

The Rev. F. Li. Edwards then moved the first of the motions on the agenda: 'That this Council, meeting in the Diocese of Salisbury, in which Sir Christopher Wren was born and baptized, expresses the fervent hope that no sanction will be given to any further demolition of the churches, with which he adorned the City of London, and which bear such a valuable witness to the Christian religion in the world's busiest centre of secular activities.' The mover said he considered the motion was appropriate in point of time and of place. In point of place it was appropriate because Wren was born in the diocese of Salisbury. As to it being appropriate in point of time, he mentioned that two or three years ago, a motion, not on similar lines but the same in principle, was passed at a meeting of the Council, but missed because it was sent to the secretary of a committee which it was subsequently discovered had ceased to exist. The same question of the demolition of churches in the city was to be brought forward again by another committee appointed by the Bishop of London.—Major Hughes D'Aeth seconded.

Mr. J. A. Trollope opposed the motion, remarking that the majority of the churches it was proposed to demolish were worth nothing at all, and were a dead weight on the London diocese. For the site of one of the churches at the back of Lombard Street Barclays Bank were prepared to give a quarter of a million. The committee that recommended the removal of these churches consisted of eminent Churchmen who knew a good deal more about the churches than did those who agitated against their removal from a craze for preserving things because they were old.

Mr. G. P. Burton, who supported the motion, protested against Mr. Trollope's statement that these churches were worth nothing. Every time he (the speaker) went into St. Michael's, Cornhill, it was an inspiration to him. All Hallows', Lombard Street, was a beautiful church. If from a business point of view these churches were worth so much money, were they not worth ten thousand times more to the country? It would be a scandal if that Council did not let it go forth that they protested against the demolition.

Canon Baker said he felt the motion was out of place there. They were Churchmen met for a special purpose, to discuss matters relating to bell ringing, and if they discussed matters outside the scope for which they were met it seemed to him there was no limit to the subjects they might put down on the agenda. Next year they might have a resolution on the question of Prayer-Book revision, and fancy that Assembly passing a resolution about Vestments or Reservation, or that sort of thing. He thought the question of the city churches was an architectural one or an artistic question, and not one that was within the scope of their proceedings. He proposed 'the previous question.'

The Rev. C. E. Matthews said this was largely a motion of sentiment and to bring it down to a point where that Council was concerned with it directly, it ought to be stated in the resolution what churches containing peals of bells it was proposed to demolish.

The Rev. C. D. P. Davies said he partly agreed with Canon Baker, but not altogether. He thought they might pass some resolution on the towers that contain bells, which was what they did at Northampton. There, it was held that it was outside their province to express opinions about churches which had no bells, but as a congress of ringers they might express their opinion about churches which had peals of bells.

Alderman Pritchett said he did not think they could logically distinguish between churches with bells and churches without. They were equally sacred, and if they preserved one, they should preserve the other, but he thought the Council was going outside its functions in debating a question of that kind.

The motion of 'the previous question' having been seconded, was put to the meeting, amid some protest against this method of closing discussion, and carried.

FIRST AND RECORD PEALS.

The Rev. H. Drake had given notice to move 'That this Council recommends that first or record peals should not be rung for a society outside the limits of that society's area. He said the objection raised to it in 'The Ringing World' was not one which that resolution was intended to meet, and he, therefore, suggested that he should be allowed to amend it so that it was in positive instead of negative form, viz., 'That this Council recommends that first or record peals should be rung for a society within the limits of that society's area.'

The President: Are you going to alter that now?

The Rev. H. Drake: I am going to ask the meeting to allow it to be put in the positive form.

The alteration having been agreed to, the Hon. Secretary seconded the motion pro forma.

The President: Does anyone wish to speak on it?

The Rev. H. Law James: Yes. I will move 'the previous question' (laughter).

Mr. W. Willson opposed the resolution, and pointed out the difficulties of applying it. Suppose, he said, eight men travelled from one county to the next for a peal, who was going to elect them as members of that association, when there was no one else in the belfry? They were not competent to elect themselves, therefore they would be bound to ring the peal for their own association.

The Rev. H. Drake: The resolution only recommends.

Mr. James George said he agreed with Mr. Willson, and, although he belonged to pretty well every society in the kingdom, and the resolution would not make much difference to him, why should he be compelled to join a society when he went into some other area for a peal, and who would elect visiting ringers unless there was a majority of the band belonging to the society?

The Rev. F. J. O. Helmore pointed out that the resolution did not refer to all peals, but only to first and record peals.

Alderman Pritchett put his opposition to the resolution very concisely. 'In the first place,' he said, 'it is unnecessary, in the second place it is unreasonable; in the third place unworkable, and in the fourth place unintelligible, and I am going to vote against it' (laughter).

Mr. E. M. Atkins: What is the 'area' of a society like the Cambridge University Guild?

A Member: Or the College Youths?

The Rev. H. Drake said he had discussed the resolution with Mr. Willson, and altered it to meet his objection, but it did not seem to have done so (laughter). As it stood, the resolution was simply an expression of pious opinion that ringers should not go out and ring first or record peals in the area of other societies, but that they should preferably ring them at home.

The motion, on being put, was lost by a large majority.

MORE DETAILS NOT REQUIRED.

The next motion was also in the name of the Rev. H. Drake: 'That the Peals Analysis Committee be asked if they can add a column showing the ratio between the number of members and the points gained by each society.' He said that after the very heavy report which they had heard that morning he was unwilling to add to the committee's labours but if they were to have anything said as to which was the first society there should be some account taken of the number of members. It seemed rather absurd, for instance, for the Salisbury Guild, which was in fairly low place in the analysis, to be contrasted with an association like the Norwich or Midland Counties—there was not a fair chance of comparing the two. If they could have another column showing the ratio between the number of members and the points gained they would be able to get some further value out of the analysis than they had at present.

The motion found no seconder, and, therefore, was declared lost.

SPLICED-METHOD PEALS.

The Rev. C. D. P. Davies proposed 'That in compositions of 5,000 changes or upwards on seven or any higher number of bells in which the plan of splicing various methods is adopted it is essential that there should be no repetition of any row throughout—that is to say, that the whole composition shall be "true" in the universally accepted sense of that word.' He said that years ago, when he was young, it was a great thing, not very often accomplished, for a peal of 42 six-scores of Grandsire Doubles, or seven 720's of Minor to be rung. Then the practice grew of ringing six bell peals in seven different methods, and those things, he thought, were most laudable. It was a great thing for those who had only got six bells to make the utmost use of what bells they had got, but when it came to the question of eight-bell towers, where they could ring peals of Triples or Major, the question assumed a different aspect. He was led to put this motion down on the agenda by a letter which he received a little time ago, in which his opinion was asked upon a proposal to ring a quarter-peal each of London, Bristol, Cambridge and Superlative Surprise, each coming round at back stroke and going off into the next method at hand. To his mind that was a very different question from that of the six bell ringers whom he had mentioned. All honour and credit to them for making the best use of the bells they had. They had only 720 changes to work upon, and could not help repeating them. But when they had got eight bells, if they permitted repetition, they would be striking at the root of what had always been the main object in every peal ever composed from the beginning of change ringing, namely, that it should be true. He was rather old-fashioned, and he could not say that he 'cottoned' very warmly to splicing at all, but if they wished to have splicing let them have, on eight or more bells, a true peal.

The Rev. E. S. Powell seconded the resolution.

The Rev. H. Law James asked if the resolution was necessary. The rules of the Council already laid it down that every peal on seven bells and upwards must be true, and therefore, he thought, the motion was needless.

Mr. J. A. Trollope said he believed the original suggestion was made between himself and Mr. Davies in the course of corre-

spendence. His feeling at the time was that it was a thing worth doing, and if they did not like to call it a 'peal' they could call it a 'performance.' The band that could ring four quarter-peals in this way would be doing something worth doing. They could not splice the methods together, so they would have to ring it in quarter-peals.

Mr. J. Parker said he should not think anyone would attempt to ring four quarter-peals that were not true. He was not so sure it was impossible to get a true composition. It was not necessary to change from one method to the other at a lead end.

Mr. W. Willson asked if one of the rules of the Council did not already provide that in peals on 8, 10 or 12 bells there should be not less than 5,000 true changes rung without interval in any one method.

The President: The motion is absolutely in order.

Mr. E. M. Atkins: The effect of the motion is simply to enlarge that rule, to cover a number of methods spliced together in one true peal.

The resolution, on being put, was carried nem. con.

(To be continued.)

POINTS FOR PEALS.

To the Editor.

Sir,—Ringers generally will agree with the text of Mr. Pulling's letter of last week re 'Points for Peals,' what concerns ringers more than points (or no points), for peals is the number of hand-bell peals rung without a competent umpire or referee being employed, I believe the Central Council many years ago made some recommendation on the subject. Apart from the findings of the Central Council, it seems quite the proper thing to have a referee in close proximity to the ringers of the peal with a copy of the composition at hand, ready to tick off any or all of the course ends of the peal as they come up, or should one come where it should not be, call stand. Unless a peal is rung under usual conditions this rule (I consider) should apply, or the peal be not included in the Guild or Association's record under whose auspices the peal is supposed to have been scored.

JOHN BEAMS.

West Ewell, Surrey, June 16th, 1923.

OXFORD DIOCESAN GUILD.

NORTE BUCKS BRANCH.

The annual meeting of the North Bucks Branch was held at Newport Pagnell on Saturday, June 9th, when a very large gathering was present from Blechley, Beachampton, Calverton, Chichelev, Emberton, Feuny Stratford, Great Henwood, Great Linford, Linslade, Maids Morton, Newton Longville, Old Bradwell, Olney, Stony Stratford, Simpson, Stoke, Goldington, Sherrington, and the local ringers. Visitors from neighbouring societies included representatives from Northants and Towcester and district. The bells, a fine peal of eight were set going at 2 p.m., and service was attended by over 100 ringers. The chairman of the branch (the Rev. L. Moxon) officiated, and an instructive address was given by the brother of the chairman (the Rev. Moxon, of Stewkley). After service, tea was partaken of, and was followed by the business meeting.

The balance sheet was accepted, together with the treasurer's report, showing that the branch was financially sound, having a balance of £21 18s 3d, to its credit, £10 of which was invested in War Loan.

The Rev. L. Moxon was re-elected chairman, and Mr. W. Sear was elected secretary and treasurer.

The Master (the Rev. C. W. O. Jenkyn), together with the Guild sec. (Mr. R. T. Hibbert) attended, and both addressed the meeting, expressing their entire satisfaction with the healthy condition of this North Bucks Branch, which reflected credit on those who worked in its interests.

The Secretary stated that they had 30 towers in union with the Guild, with a membership of about 240, and continued to grow which made it very difficult for him to get round them all frequently, but while they placed confidence in him he would endeavour to do his best.

A letter from the late chairman (the Rev. J. R. Vincent), who was in Italy, was read, expressing the hope that the meeting would be a success, and the secretary was asked to write and thank Mr. Vincent for his kind letter, and say how all regretted that he was not amongst them.

Various discussions took place on matters relating to the interest of the branch, and then the usual votes of thanks were given to the chairman for making arrangements, the choir for attending the service, and the ringers for having things all ready and arranging for the tea.

Two ladies from the Oxford Guild were among those present, viz. Miss Robinson and Miss Davis, and both took part in the ringing. The methods rung during the day were Grandsire and Stedman Triples and Major methods from Plain Bob to Cambridge Surprise.

A PETERBOROUGH DIOCESAN ASSOCIATION.

BISHOP SUGGESTS A FEDERATION.

A federation of ringing societies in the diocese of Peterborough, which covers the counties of Northampton, Leicester and Rutland, was suggested by the Bishop at a meeting of the Central Northants Association held at Wellingborough on Saturday week, and a resolution suggesting a conference on the subject was carried.

The meeting had been arranged in order that the Bishop might meet the ringers, and one of the largest gatherings in the history of the association took place.

The Kettering District was represented by 57 members, Wellingborough by 51, Northampton by 22, Thrapston by 22, Peterborough by six, Guilsborough by seven, and Weedon one. The Central Association officers present included the Rev. J. P. Friend (president), Mr. W. T. Wilson (treasurer), and Mr. D. J. Nichols (secretary); the Wellingborough District by Mr. F. Barber (secretary); the Kettering District by Mr. Black (secretary); the Northampton District by Mr. S. J. Lawrence; the Thrapston District by Mr. J. Nickerson; the Weedon District by Major C. O. E. Nicholson; and the Ladies' Guild by Miss Hepburn. Amongst the clergy present were the Rev. R. G. W. Smeaton, Rev. V. F. Honnibal (Wellingborough Parish Church); Rev. E. J. W. Nesbitt (West Haddon), Rev. C. F. Westacott (Wilby), Rev. C. H. L. Hopper (Weekley), Rev. Cole-Hamilton (Desborough), Rev. J. White (Pitsford), Rev. H. J. Atkins (Isham), and Rev. D. McVarish (Wollaston).

It was a very hearty service in the Parish Church, familiar hymns being sung, with Mr. E. Head at the organ, the Vicar taking the prayers in the early part of the service, and the Bishop the special prayers at the close of the service. The collection for the bell restoration of Peterborough Cathedral realised £3 0s. 10d.

MESSAGE OF THE BELLS.

The Bishop founded his address on the words, 'O come, let us worship,' a sentence which contained in the fewest words the message of the bells. They in that diocese, and not the least in that county, had a peculiar interest in bells. One of the earliest of bells so far as the actual date was concerned, came from Cold Ashby, and was dated 1317. The history of church bells was part and parcel of the history of English Churchmen through the centuries, and how they had tried to make the worship of God the centre of their life. One of the earliest bell foundries was connected with that county, and they also knew there was one at Leicester, where the maker used to put on bells the head of the reigning king. After sketching the history of Taylor's, of Loughborough, which in 1731 had a foundry at Kettering, and telling of some of the famous bells that they had cast, the Bishop went on to speak of how the bells entered into the life, especially on great national occasions. The bells marked the occasions of joy and also of sorrow, and he supposed there were more muffled peals rung during the last ten years than for five centuries before. They were outward and audible signs of their duty towards God, and bell ringers were the instruments by which that call to worship was made far and wide, a call which, alas, often met with little response on the part of those who heard it, a call which, none the less, was responded to by thousands and thousands every Sunday and often on weekdays as well. Though the call to worship had never been responded to as it should be, it had never ceased to be sounded, and he ventured to say that there was no class of people who ought more fervently to realise their duty of the call to worship than the ringers themselves, who might reasonably be expected to practice what they preached. He once remembered reading of a blind lamplighter who went about the town and lit the lamps, but he never saw the light himself, nor did the light ever bring any benefit to him. That would be rather a parallel case to the bell ringer who sounded the call to worship and yet, though himself a worker in the House of God, never realised the privilege and joy of uniting in worship with his fellow Christians. Let them be an example in that respect, and realise that they belonged to a big family circle. In these days the greatest need of Europe and of their own country was an acknowledgement of God, both in public and private affairs, and, therefore, the ringers' work should be one taken with great solemnity, for the bells were a continual reminder to those who had ears to hear to remember God and His worship. The Bishop concluded by expressing the hope that in the meeting that was to follow some kind of federation would be formed that would link the ringers in the three counties of the diocese in one great family.

Service over, an adjournment was made to the Church Hall, where 170 sat down to tea. The Rev. Friend presided, and the Bishop also honoured the gathering with his presence.

The Chairman, with the opening observation that ringers were reasonable people, went on to say that they had improved enormously. When he started to ring 31 years ago he found the members of the team attending practices more regularly than on Sundays, and discovered that the reason for that was an enormous stone jar in the belfry (laughter). He then pointed out that the belfry was part of God's House, though it had not always been looked upon as such. As a Rural Dean he always took care to visit the belfry of churches and look at the bells.

THE SUGGESTED FEDERATION.

Mr. D. J. Nichols observed that the presence of the Bishop that day would help to stimulate all matters connected with bells and ringers. He felt sure that the suggestion of the Bishop of the formation of a Diocesan Ringers' Association was welcomed by a large number of ringers. It was suggested that the association should be called the Peterborough Guild of Church Bell Ringers, and should embrace all the associations. They would still have their own district organisations.

The President moved the following resolution: 'That in the opinion of this meeting it is desirable that a Peterborough Diocesan Guild of Ringers should be formed; and that the president and secretary of this association be asked to confer with representatives of other associations in the counties of Northamptonshire, Leicestershire, and Rutland, to report to our committee, for the information of the Bishop.'—This resolution was carried unanimously.

Following upon a general discussion, the Bishop said it was a very great pleasure to find himself at so large a gathering of that association, and welcomed the idea of a federation of the associations of the whole diocese. He used the word federation instead of amalgamation, as it left each association freedom of movement, but it linked up the ringers from all parts of the diocese. Incidentally Dr. Woods observed that the bell ringers of the diocese were not limited to the male sex. If the federation was formed no one would be more pleased than the Bishop of the diocese.

Mr. F. Wilford (Northampton) moved thanks to the Vicar of Wellingborough for allowing the use of the bells, and to Mr. Nichols and Mr. Barber (of the Wellingborough District) for making the local arrangements.—This was seconded by Mr. Wilson, and heartily carried.—Major Nicholson also initiated a hearty vote to the Bishop for his presence and interest.

The Vicar of Wellingborough, responding, first told of his difficulty in getting to be a proficient bell ringer, and went on to say that a year ago he ventured to make a remark about how desirable it was that ringers, who called other to church, should first set the example, and, in spite of its unpopularity, he said it again (laughter).

The Bishop's brief reply terminated this part of the proceedings, and several touches on the bells followed.

LINCOLN DIOCESAN GUILD.
NORTHERN BRANCH.

A meeting of the Gainsborough District was held at Messingham on Saturday, June 16th, ringers being present from Gainsborough, Stow, Scotter and Scunthorpe, in addition to some of the local company. The bells were available and kept going in various five bell methods. A short service was held at 4 p.m., at which the ringers' form of office was used, amongst those present being Canon Hicks, Messingham, and the Rev. J. Barber, Stow.

The Vicar (the Rev. A. Peirce) officiated, and gave a most instructive and profitable address to those present. Tea was provided in the Schoolroom, and followed by the business meeting, at which the Rev. J. Barber presided in place of Canon Hicks, and the Vicar, who, owing to other duties, were obliged to leave early.—Mr. E. Dalingwater was proposed district secretary pro tem. for the remainder of the year as successor to Mr. F. S. W. Butler, who resigned the office owing to just recently having been elected secretary for the Northern Branch.

Mr. C. H. Baker seconded the proposition, and at the same time moved a vote of thanks to the late secretary for his past services. Both these were carried unanimously.—Votes of thanks were also accorded to the Vicar for the use of the bells and his very able address, the organist for his assistance at the service, the ladies for their excellent catering and assistance at the tea-table, Mr. A. Loughton for having made the necessary arrangements, and the Rev. J. Barber for presiding.

During the interval previous to the business meeting, Mr. A. Loughton and his brother, who is over on a visit from California, entertained the members with some interesting items, consisting of songs and sleight-of-hand tricks, which were very much appreciated and acknowledged by a hearty vote of thanks.

HERTFORD COUNTY ASSOCIATION.

A successful meeting was held at Barkway on Saturday, 16th June. Ringers were present from Royston, Barley, Cambridge, Fulbourn, Letchworth, Hitchin, and the local company. Tea was served at the Wheatsheaf, followed by the meeting at which three new members were elected. During the afternoon and evening good practice was had in the four standard methods. The tower, which was rebuilt in 1851, contains eight musical bells, and is in the fifteenth century style of architecture. The ancient step ladder which originally gave ascent to the belfry (up which many a ringer has trod) is still preserved in the belfry as a specimen of mediæval carpentry.

A MISSING REPORT.

Members of the Worcestershire Association may have wondered that no report of their annual meeting on Easter Monday appeared in our columns.

To make the matter clear we desire to say that the responsibility originally lay with no official of the association. A report was, it appears, sent to this office, enclosed with another communication, and both by some means were accidentally destroyed. It was only when inquiries were made about four weeks later as to the non-appearance of the report, that the Editor was aware that it had ever reached this office. An immediate request for a further brief report and subsequently for a copy of the minutes, from which a summary of the proceedings at the meeting could have been written, were refused. Had either of these requests, which were accompanied by a private explanation, been complied with, the members of the Worcestershire Association would not have been entirely without a report of their annual meeting, abridged though it might have been. We regret that we were the original cause of any disappointment which they may have felt, and also that the refusals with which we met, prevented our doing anything further in the matter.

FEDERATION IN PETERBOROUGH DIOCESE

The appeal made by the Bishop of Peterborough, at the recent meeting of the Central Northamptonshire Association, for a federation of the ringing organisations in the diocese of Peterborough, is one that will find a great deal of support among the ringers in that area. It strikes a new note in regard to the lines upon which ringers should unite their forces, and the executive of the Central Northants Association has shown a readiness to forward the Bishop's desire by appointing representatives for a conference on the subject with the other associations whose areas extend within the boundaries of the diocese. The societies affected, in addition to the Central Northants, are the Peterborough and District, the Towcester and District, and the Midland Counties Association, for, in addition to Northamptonshire, the counties of Leicester and Rutland are concerned.

When the modern ringing associations were first formed, they mapped their areas on differing lines. Some followed the county areas, others the diocesan, while some took in territory whose boundaries were only vaguely defined. Among the last named was the Midland Counties Association, which has its centre in Leicestershire, a sphere of powerful influence in Nottinghamshire and Derbyshire, and embraces Rutland and part of Warwickshire. The Midland Counties Association has, despite its wide area, been a consistently homogeneous whole, and, in its more than forty years' existence, has established a position which we feel sure its members would be loath to break. The Bishop of Peterborough is doubtless fully aware of this feeling, for his suggestion is for federation in his diocese as distinct from amalgamation. The resolution passed by the Central Northants Association voices the desirability of a Diocesan Guild, but we imagine that that ideal will be one for future adoption, and that the Bishop's proposal will probably be found the first and best step to its ultimate realisation.

The greatest factor in the success or otherwise of the scheme will be the attitude of the ringers in the Leicestershire area. Without their co-operation a Diocesan Guild for Peterborough can be only a partial success. It is hardly to be expected that Leicestershire ringers will lightly sever their connection with the association to which they have so long been affiliated, and a scheme by which they can retain their membership of the Midland Counties while giving support to a federation for their own diocese is, we think, one that is much more likely to appeal to them. Such a position would be a new departure in ringing organisation, but a workable scheme

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL.

Orders may be placed now for delivery at a future date to suit the convenience of clients.

ought to be quite within the range of possibility. Among the objects which all our associations seek to promote is that of increasing the recognition of ringers as church workers, and by no means can this be better achieved than by gaining diocesan status. Any proposal which helps this forward deserves full and serious consideration by all concerned, and when, as in the case of Peterborough, the suggestion emanates from the Bishop of the Diocese, no stone should be left unturned to secure its eventual adoption, thus setting the seal to a claim which in some areas it has been very difficult to maintain. The course of the conference will be watched with interest by all ringers.

LEICESTER SURPRISE PEALS.

To the Editor.

Dear Sir,—The item published in Belfry Gossip on June 15th, re the first Surprise peal in the city of Leicester, has brought two replies, a courteous one from Mr. Wm. Willson, and an elaborated conglomeration of fancy words from: 'Basta.' The word 'local' seems to be the word that is causing this ink slinging, may it not degenerate to a mud-slinging contest! Neither of the peals under discussion can be claimed as rung by local men. In both these were ringers taking part whose place of residence is outside the city boundary. The fact that all their ringing is done with Leicester men, whilst perhaps bringing them under the heading of Leicester ringers cannot bring them under the term 'local.' I understand that in some places the term 'local' is taken to cover a tower to which all the ringers belong—not merely 'attached.' The peal at St. Margaret's has not been put forward on this ground. The one at St. John's has. Mr. Willson will find, if he cares to take the trouble, that one of the ringers in his band was still a member of the staff of ringers at another Leicester church at the time his peal was rung. There are in Leicester at present ringers enough and to spare to ring Surprise peals at about three churches in one afternoon. Why not get together and do it? It would be much better, at any rate, than designing footnotes and replies to same. This, at least, is the opinion of

KEEP SMILING.

SILENT BELLS.

To the Editor.

Dear Sir,—It is my privilege every Sunday to assist at one of the most beautiful churches in England, St. Mary's, Crocombe, Somerset, but alas! one of its chief glories is silent. I refer to its bells.

After doing yeoman service for centuries the whole peal has had to be sent away to be cleaned, quarter-turned and tuned. But in addition to this the old wooden bell-cage is so decayed as to need entire replacement, and extensive repairs to the belfry itself are necessary.

The work is being done by the famous firm of bell founders, Messrs. Taylor and Son, of Loughborough. The total cost is at least £700, of which only about £400 has been raised, much of it in the little parish itself, leaving some £300 still to be found.

Now I have heard that there is a custom amongst belfries of having a 'whip round' amongst the members to assist other belfries whose bells have fallen on evil days, and I am writing this letter in the hope that it will catch the eye of sympathetic members of other belfries.

If the belfries of this diocese alone were to send a contribution it would be a great help. Further, I know that Crocombe has always responded to appeals of this kind.

If, as I hope, this appeal kindles a response from all those who have the welfare of all belfries at heart, will they please send their contributions to the Rev. G. Freeman, The Rectory, Crocombe, Somerset?—I remain, yours faithfully,

OSCAR STANWAY.

RINGING IN AMERICA.

To the Editor.

Dear Sir,—In two or three months I expect to leave England for America—most probably New York.

Will anybody who can give me information about ringable bells, or the names and addresses of any ringers living out there, please do so by writing either to 'The Ringing World,' or to me direct. I shall be very grateful for any information.—Yours truly, TONY PRICE
Shouldham Vicarage, King's Lynn, Norfolk.

RINGING INTERFERES WITH TENNIS.

To the Editor.

Sir,—The Rector having received a complaint from the wife of one of our churchwardens that she cannot play tennis owing to the horrible noise of the bells going on for hours, and that it is sheer physical pain to endure, there will be no ringing here until further notice.

Will all friends who have applied for the use of the bells from time to time and have been disappointed with the reply, please accept my sympathy and regrets?—Yours sincerely,

WILLIAM T. BEESON, Senr.

St. Mary's Thorne, Godstone.

OLDEST PEAL OF SIX.

To the Editor.

Dear Sir,—The account in last week's 'Ringing World' of the Blessington six bells, all dated 1682, has made me wonder if there are many peals of six older than that date, and whether the peal of six here may be nearly, or quite, the oldest. This Martley (Worcestershire) six, tenor 14 cwt., are all dated 1673, so that this year is their quarter-millenary, or 250th year of existence; they were cast by Rich Keene (and by tradition close to the church) the 5th bell being inscribed 'Rich Keene caste this Ringe,' 1673. They are good-shaped bells, but their tone was much improved by the late Mr. A. Hughes in 1914, who tuned them in situ. They were refitted and quarter-turned (for the first time since being cast) in 1895, by Blackburn, of Salisbury. The frame, a strong structure of oak, is also dated '1673. C.C.' and rests upon still more massive timbers, which show, from brass sockets, that they were the bearing timbers of still older bells.

I should be much interested if any of your readers know of an older complete six. I rang on one at Ipswich (by Miles Gray, dated 1636, I think) some years ago, but I fancy they are now eight. Yours faithfully,

JAMES F. HASTINGS.

Martley Rectory, Worcester, June 23rd, 1923.

THE LATE MR. WILLIAM GRIMES.

To the Editor.

Dear Sir,—The following further donations are acknowledged with many thanks: W. G. Crickmer, 5s.; D. Collins, 2s.; W. E. Maulden, 2s. 6d.; previously received and acknowledged, £7 8s., making a total of £7 17s. 6d. It is now the wish of the widow that the fund should be closed, and she desires me (through the medium of your journal) to convey her grateful thanks and appreciation to all who have helped in connection with the appeal.—Yours faithfully,

W. C. KUMSEY.

BEQUEST FOR MUFFLED PEAL.

TESTATOR LEAVES PROPERTY TO BELL RINGERS.

A singular bequest made by Mr. James Messenger, Middle Park, Victoria, Australia, who left £1,668 in this country, is announced.

Subject to a few small legacies, the testator leaves all his property to the bell ringers of Upper Froyle Parish Church, Hampshire, in trust, to keep in repair the graves of his father and mother, and on January 22nd in each year to ring a muffled peal of bells, after which they may pay one-eighth of the current half-year's income for providing themselves a supper, or otherwise for division between them.

The balance of the income is to go to the maintenance in alternative half-years of the oldest poor man and the oldest poor woman in Froyle, the choice to be at the discretion of the bell ringers.

THE SURREY ASSOCIATION.

The Western district held a most successful and enjoyable meeting at St. Nicolas' Church, Guildford, on Saturday last. The bells were kept going in various methods from 3 p.m. until 4.30 p.m., when a short service was held in the church. An address was given by the Rev. A. Palmer. After service about 30 members partook of an excellent tea. The towers represented were Leatherhead, Dorking, Crawley, Reigate, Shere, Twickenham, Thames Ditton, Worplesdon, Finchampstead, Clapham Park, and the local company.—At the business meeting seven new members were proposed and elected. — A hearty vote of thanks was accorded to the Rector for the use of the bells, to the Rev. A. Palmer for conducting the service, and to the organist. The tower was again visited, where further ringing was indulged in until 8 p.m.

SILVER WEDDING.

The members of the Monmouth Cathedral Guild met in the belfry on Monday, June 18th, to celebrate the 25th anniversary of the marriage of Mr. and Mrs. Richard Thompson, senior verger of the Cathedral, and father of the Guild's 'prodigy.' A peal of Erin Cinques had been arranged, but a concert in the Town Hall opposite restricted our time of ringing to a quarter-peal of Erin Caters (1,261 changes), in 51 minutes. This was followed by 'firing' the bells one stroke for each year of their happy married life—25 in all: G. A. Pickering 1, J. Rowell 2, C. L. Routledge 3, J. W. Parker 4, W. Story 5, Richard Thompson, junr., 6, A. F. Hillier 7, W. H. Barber (conductor) 8, J. Foreman 9, A. M. Hall 10.

Mr. and Mrs. Thompson kindly invited the company over to supper. Mr. Joe Keen also taking part in this interesting stage of the performance.—The Ringing Master (Mr. Routledge) proposed the health of the bride and bridegroom of 25 years ago, and wished them at least another 25 of the same peaceful happy years. He thanked them for all their many acts of kindness and consideration towards the Guild and its members—times out of number the path had been made smooth for them by Mr. Thompson in his tactful way. The Guild was also grateful to them for providing 'Dickie' to the belfry—he, too, had always had the interests and best traditions of the belfry at heart.—Mr. Thompson thanked the ringers for their kindly congratulations. He hoped to continue, both himself and his wife, in that deep interest they had always had in the belfry, and now their second son was one of the band, they understood the conditions and difficulties of ringing more than ever they had before, and naturally were more in sympathy. The handbells were brought into play, also the gramophone, and some singing brought a very happy and enjoyable evening to a close.

**WINCHESTER DIOCESAN GUILD.
GUILDFORD DISTRICT.**

A district meeting was held at Ewhurst on Saturday, June 16th, about thirty being present. The bells were available at three o'clock. A short service was held in the church at 4.30, conducted by the Rev. R. L. Leatherdale, of Cranleigh, who also gave an address. Tea was provided at the Crown Inn and was followed by a short business meeting, presided over by Mr. W. R. Melville (chairman of committee).—Two new members were elected, and it was decided to hold the summer outing at Rannmore on August Bank Holiday, if permission could be obtained.—The usual vote of thanks for the use of church and bells was passed, after which the party returned to the tower and indulged in touches in various methods till nine o'clock.

ST. PETER'S SOCIETY, CAVERSHAM, AT WATLINGTON.

The members visited Watlington last week in order to bid farewell to the Rev. C. W. E. Cleaver (who for 17 years was Vicar of Caversham, and a good friend to his ringers) and Mrs. Cleaver, who are leaving Watlington for Lincolnshire. Some good Stedman Triples were rung, and a touch of Bob Major. Tea was partaken of, and Mr. A. D. Gullum, in a few well-chosen words, thanked the Vicar for all his kindnesses that day, and in the past.—Mr. Cleaver thanked the band for going over, and said that of all the farewells nothing had touched him like the letter did to say his old ringers were coming to bid him good-bye. It was one of the things that would add to his memories of Caversham, and to hear Watlington bells rung that day in Caversham style had given him great delight. He was also glad to see among the Caversham men that day some young blood, who he remembered in the infant school. On the return journey a short halt was called at Nettledred, and whilst the engines were cooling and the sparking plug renovated, permission was granted to ring on the little six in that village tower, a 720 of Bob Minor being rung in 18 minutes. Some Grand sire Doubles to interest the local men finished the ring for the day, the famous 'Berry's Corner' being reached at 9.45 p.m.

**SUSSEX COUNTY ASSOCIATION.
EASTERN DIVISION.**

A well-attended meeting was held at Hellingley on Saturday, June 23rd, the following towers being represented: Christ Church, St. Leonard; Christ Church, Blacklands, and St. Clement's, Hastings, Chiddingfold, Mayfield, Westham, Shoreham, Heathfield, Eastbourne, St. Mary's and St. Saviour's. Mr. R. Stredwick, of Brighton, and Mr. Pipo, of Eastbourne, unattached members, were also present.

The members were welcomed by the Vicar (the Rev. T. Wood Robinson), and also by the local ringers.

Good practice was had in various six-bell methods during the afternoon and evening. Following the service, which was conducted by the Vicar, about 36 members sat down to tea at the Village Hall.

At the short business meeting, Mr. W. D. Smith occupied the chair. The minutes of the last meeting having been read and confirmed, the place for the next meeting was discussed, Rye and Heathfield being proposed by Mr. Kennett and Mr. A. R. Miles, respectively. On being put to the vote Rye was chosen.—The Chairman (Mr. W. D. Smith) then proposed a hearty vote of thanks to the Vicar (the Rev. T. Wood Robinson) for the use of the bells and for his presence amongst them that afternoon, and also to Mr. T. Stroud, who presided at the organ during the service.—This was seconded by Mr. A. C. Pankhurst.—The usual vote of thanks to the chairman terminated the meeting.

BELFRY GOSSIP.

'I have read with great interest your neat little book entitled "Why are you a Ringer" (by a ringer). It is excellent, and cannot but do much good. It should be read by all incumbents and ringers,' writes a clergyman. Send 2d. stamps for specimen copy to Southwood, Printers, Exeter.

The first peal of Grandsire Cinques 'in hand' was rung at Birmingham on July 2nd, 1886.

In connection with the record peal of Stedman Cinques at Southwark, which we mentioned as being the longest peal on twelve bells, this was so in point of time, but it did not exceed in number of changes the record of Grandsire Cinques which is 13,001 rung at Painswick.

Ringers as a rule are ready to respond to an appeal made in a worthy cause. We hope there will be a generous response to Mr. A. E. Parsons' appeal for the restoration of the bells of Rowley Regis Church.

The peal of Double Norwich rung and published last week for the Norwich, St. Edmundsbury and Ipswich Association took place at St. Margaret's, Lowestoft, Suffolk.

The death has occurred at Crawley, Sussex, of Mrs. J. Rice, widow of the late Mr. John Rice, who passed away only a few weeks ago. Many ringers who have visited Crawley have enjoyed the hospitality of Mrs. Rice, and will join in sympathy with the bereaved family.

THE CHESTER DIOCESAN GUILD.

STOCKPORT BRANCH.

It is the usual practice of ringers, when together, to talk in ringer's jargon, but in one compartment of the 2.10 p.m. Stockport to Wilmslow, on Saturday, June 23rd, it is quite possible that certain ringers were mistaken for gardeners, and if the old adage is correct, certain critics of the names of some of the Treble Bob Minor methods ought to have suffered from burning ears. After the 'fiddler' had done his usual fiddling round the bells, and a course of Oxford had been rung, three courses of 'Marigold' (the first) were nicely tapped off.

The church service was conducted by the curate (the Rev. A. H. Powell, B.A.), who, in the course of his short address, welcomed the members to Wilmslow. Tea was served in the Parish Hall, to which about forty members and friends sat down. During the business meeting which followed, with the branch chairman in charge, many items of branch affairs were discussed. Notice was given of the annual festival, to be held at Hyde on July 28th, and it was also intimated that those intending to be present for dinner would have to purchase tickets beforehand, or otherwise make their own arrangements.—Five new members were elected, and Lower Peewer fixed as the place of the next meeting on August 25th, at which members of the Northwich branch are invited to join.—The usual votes of thanks concluded the meeting, after which the bells were again requisitioned, call changes, Grandsire Doubles, Bob Minor and Treble Bob, which included choice bits from the 'garden,' being rung.

YORKSHIRE ASSOCIATION.

SOUTHERN DIVISION.

The quarterly meeting was held at Wortley, near Penistone, on Saturday, June 16th, when upwards of 30 members and friends attended. The towers represented were Sheffield Cathedral; St. Maries', All Saints', Ranmoor; Rawmarsh, Handsworth, Treeton, Arksey, Hoylandswaine and Bolsterstone. At the service at 4.30 the Vicar (the Rev. T. L. Brashaw) officiated, and gave his listeners some very interesting information concerning the great poets and church bells.

Tea was provided at a cafe near the church. After tea the business meeting was held. The minutes of the last meeting were read and confirmed, and Messrs. J. Evinson, C. Lake (St. Maries') and F. Wadsworth, G. Wadsworth, A. Sellars, P. Downing and J. Dronfield, of the local company, were elected members of the association. It was very pleasing to see Mr. Dronfield again taking up ringings. He said the young members of the Wortley band were so very enthusiastic he could not stay away any longer. Some discussion took place as to the next quarterly meeting, which, by rule, should be held in September, but in view of the association dinner being held in Sheffield in September it was decided to defer the meeting until October, and an invitation being forthcoming from Dore it was decided to have the meeting at that place on October 20th.—The Vice-President, Mr. F. Willey, gave a brief summary of the committee's plans for the annual dinner, and urged all who possibly could to attend, remarking in passing that if ringers could come from places as far off as London and Newcastle, surely those living on the doorstep could make an effort and help to make it a huge success.—Votes of thanks to the Vicar and churchwardens for the use of the bells were proposed and carried.—In replying, the reverend gentleman thanked all the members for their presence, and gave a hearty invitation to visit Wortley any time they found it convenient.—Mr. Wooler also responded on behalf of the local band. This concluded the business, after which the members indulged in further ringing. The secretary would like to place on record his best thanks to Mr. Wooler for so kindly conveying him to the car terminus in time to catch his train from Sheffield.

THE CENTRAL COUNCIL.

(Continued from page 395.)

CARE AND USE OF BELLS.

The Hon. Secretary presented a draft copy of a proposed card of instructions on the care and use of bells, suitable for hanging in a tower. This had been based upon cards issued by founders, and also upon a set of 'instructions' and a circular of 'advice' which had been supplied by the Rev. H. Drake. The paragraphs were considered serialim, and when the Council had expressed their views on each, the whole was provisionally adopted, and the hon. secretary asked for instructions as to the printing, which he estimated would cost about £5.

Mr. T. H. Beams suggested the printing should be deferred until the funds of the Council permitted the 'instructions' being published.

Replying to the Rev. M. Kelly, the Librarian said the Council's publication on 'the care and use of church bells' was out of print. The idea of this card was to bring the matter up to date, and put it into a simple and short form. He proposed that the hon. secretary be authorised to have the cards printed so far as the instructions related solely to the care of bells.

Canon Elsec seconded, and it would be really valuable to have such a card in many bellfries, where perhaps no work had been done to the bells for some time.

The Rev. H. Law James said that in every steeple where there was a real live band, the card was not necessary, and where there was not a real live band they might just as well not have the card, because nobody would take any notice of it.

Major Hesse asked if the bell founders did not issue a card which covered all the instructions which they had heard upon the mechanical side.

The Hon. Secretary: I have taken these instructions from their cards.

Major Hesse: Then is it necessary to have the card at all?

The President said the founders' cards were only placed in towers where they had recently done work. One tower in fifty might have a card; the Council wanted to get the card into the other forty-nine.

Canon Baker said he knew a tower where they had a set of 57 rules (laughter). He asked if the rules were observed, and was told the ringers never looked at them (laughter). If the 'instructions' read by Mr. Young could be condensed and boiled down to something short, he thought it might be useful, but it would require a great deal of condensation from what they had heard.

The Rev. H. Drake thought they should print the card and circulate it as a sort of missionary propaganda, where bells were not properly looked after. The reason why it seemed so long was because two different cards were read, and, therefore, a good deal appeared twice over; when they were boiled down he did not think the card would be found at all long. Since the last meeting of the Council several cases had come before his notice where bells had been clocked, and some destroyed as a result. They ought to let people know that that sort of thing was wrong. It ought to be known in every tower in the kingdom, and, therefore, they should make reference to it on the card. They ought also to have a reference to the local association so that people might know to whom to refer when bells needed overhauling, or when it was proposed to add to them. He was willing to defray the cost of the card if it would go forward in the way suggested (applause).

The proposal to adopt the 'instructions' as the basis of a card for hanging in the belfry was carried, and the Rev. H. Drake's offer was accepted with thanks.

THE NEXT MEETING.

The next meeting of the Council will be held in London, and it was resolved to apply to the Dean of Westminster for the use of the Jerusalem Chamber at the Abbey.

MULTI-METHOD PEALS.

Mr. W. A. Cave called attention to the decision of the Council that peals on eight bells and over should consist of one method. Last year, he said, there was a peal rung, consisting of Little Bob and Plain Bob spliced, and it had been included in the Analysis. He contended that it should not be recognised by the Council as a peal.

The Rev. H. Law James urged that the motion by the Rev. C. D. P. Davies, which they had already carried, covered the point.

No action was taken.

THE RECORD PEAL OF STEDMAN CINQUES.

Mr. C. T. Coles said before the Council separated he thought they should pass a vote of congratulation to the College Youths upon the masterful performance on the preceding day at Southwark. As one of the listeners, he could say it was most excellent ringing, and he thought they could say it was the most wonderful performance ever accomplished in Stedman Cinques.

Mr. W. Willson said he had great pleasure in seconding. He had never heard such striking on twelve bells in his life. It was a gigantic undertaking, and commanded the admiration of all men (hear, hear).

The motion was carried by acclamation.

The President proposed a vote of thanks to the Dean and Chapter for permitting the Council to meet in the Chapter House, and he was sure he was voicing the views of the Council when he said that at no place during the last 30 years of their meetings had they ever received such a welcome, and had such excellent arrangements made for them as had been made by the Salisbury Diocesan Guild (applause). The remembrance of the drive they had on the previous day, the ringing they had, and the nice fellowship would remain a memory with them all their lives. For these excellent arrangements they had specially to thank Major D'Aeth, the Rev. F. Ll. Edwards, Mr. Hervey Beams and Mr. Stewart.

The motion having been carried,

Major D'Aeth replied, and said it had been a great privilege to have the meetings of the Central Council in that beautiful cathedral. He believed it would do a great deal for the art of ringing in that large and scattered diocese. It would show the clergy, who did not visit them very often, that the church bell ringers were a body of churchmen before they were ringers.

Mr. Beams, who also replied, said Mr. Edwards and Major D'Aeth did most of the work, he (Mr. Beams) had only been the 'ginger.' He saw that they did it (laughter).

The Rev. F. Ll. Edwards also responded, and the meeting terminated with a vote of thanks to the president for presiding, proposed by Canon Baker.

SOCIAL GATHERING.

The members were entertained to tea at the Church House by Archdeacon and Mrs. Carpenter, to whom the President proposed a cordial vote of thanks.

A party was afterwards conducted round the Cathedral, and later in the evening a social gathering was held at the Cathedral Hotel, a company of about 70 being present. In addition to being welcomed by the officers of the Salisbury Diocesan Guild, their patron, the Earl of Shaftesbury, was also present. The Rev. F. Ll. Edwards, presented the president, the honorary secretary, and one or two of the leading ringers to his lordship, who then extended his good wishes and a hearty welcome to the visitors. He said that he feared he knew little of the actual science of ringing, to which consequently he would not refer, but he knew that many famous ringers were present, and he offered all a hearty welcome. He pointed out that change ringing was both an art and a science, and it was important for good ringing that there should be knowledge and enthusiasm. He felt that it was an excellent thing (from many points of view) for lads and young men to take up, including as it did the rudiments and discipline of good citizenship. He referred to the importance of experienced ringers going from parish to parish to help those affiliated to the Guild. In reference to their meeting in the Chapter House, he said that he felt they must have been deeply impressed by the beauty of the Cathedral. He hoped they had all enjoyed their sojourn, and would carry away a lasting and happy impression of their visit.

Canon Coleridge, in reply, said they had never had extended to them such a wonderful reception as that which they had met with at Salisbury. He referred to the very kind way in which they had been received at other meetings in previous years, and particularly to the last meeting in London, when the Dean of Westminster received them on the occasion of service at the grave of the Unknown Warrior. Though they had thus in the past been received by high dignitaries of the church, never before had they been welcomed as here in Salisbury, where they found the Dean, the Archdeacon of Sarum and the Bishop, who had each addressed words of welcome to the Council that morning. But in addition to the Lords Spiritual, they had that evening the special distinction also of being welcomed by a representative of the Lords Temporal. He assured the Earl of Shaftesbury, upon behalf of the 40,000 ringers of England, of whom they had many of the elite present, of their sincere appreciation of his kindness in coming there, to grace by his presence their meeting that evening, and in their name he thanked him most heartily for welcoming them.

During the evening a course of Grandjean Calers was rung on hand-bells, and his lordship, who was found to have an excellent tenor voice, sang some charming ballads. The Rev. C. W. O. Jenkyn also gave a humorous song, and in response to a general request the president gave one of his humorous tales. The evening will be long remembered by all present as a very happy and enjoyable one.

RINGERS FROM IDLE AT KILDWICK.

On Saturday, June 16th, the Idle company of ringers, with two friends and four ringers from Shipley, visited Kildwick. Arriving at the grand old church at Kildwick about 3.30, it was not long before the bells were up and going to Superlative Surprise. The company were subsequently joined by Mr. J. McKell, of Gargrave, and Mr. Garlick, of Skipton, and the bells were kept going to the following methods: Superlative, Double Norwich, Kent Treble Bob, Stedman Triples, and 360 Violet Minor. The party desire to take this opportunity of thanking the Vicar of Kildwick for the use of the bells which are a beautiful peal, also to the local company for having everything in readiness.

MIDLAND COUNTIES ASSOCIATION.**NOTTINGHAM DISTRICT.**

The June monthly meeting of the above association was held on Saturday, June 23rd, at Daybrook, when nearly 40 members attended from the following towers: Beeton, Bottesford, Bulwell, Cotgrave, Ilkeston, Mansfield, Ratcliffe, Worksop, Nottingham, with visitors from Treeton and Derby, and the local band were there in full force.

Tea was provided in the local Social Centre. The Vicar (the Rev. Wilkinson) presided, and gave the ringers a hearty welcome. — A hearty vote of thanks was passed for his kindness.

After tea the business meeting took place, and Mr. A. Coppock, local vice-president, presided.—The Secretary read the minutes of the previous meeting, which were passed as read. A lengthy discussion then took place with regard to holding meetings at six and eight bell towers alternately, but it was decided to carry on as at present. The next meeting was decided to be held at West Hallam on July 21st.

An interesting event took place in the form of a presentation to the late district secretary, Mr. T. H. Kirkby, who had held the position for about seven years, the presentation being made by the vice-president, Mr. A. Coppock, who spoke of the work Mr. Kirkby had done whilst holding office, the position being an honorary one. It was decided, on the suggestion of one of the members, that his services should be recognised. The presentation took the form of a gold bell pendant, suitably inscribed, and a gold brooch for Mrs. Kirkby. The gifts were presented to Mr. Kirkby, and he was asked to accept them with the best wishes of all the members.

Mr. Kirkby replied, saying how their kindness had taken him by surprise, and remarking he had always tried to do his best for the association, thanking all for the tokens of appreciation on behalf of Mrs. Kirkby and himself.

The ringers then returned to the tower, where the bells were kept going until 8.30 in Grandsire, Plain and Treble Bob Major, Stedman, Cambridge, Superlative and Double Norwich.

DEATH OF A FRAMPTON (LINCS) RINGER.**MR. HERBERT TAYLOR'S SUDDEN END.**

All members of the Eastern Branch of the Lincoln Diocesan Guild will learn with deep regret of the death of Mr. Herbert Taylor, who passed away on June 20th. He retired to bed apparently in his usual health on the Wednesday evening. Upon giving him his usual call on Thursday morning his sister, with whom he lived, received no answer, and on going upstairs to ascertain the reason she was horrified to find him dead. He had passed away in his sleep, from heart trouble.

The funeral took place on Saturday, 23rd June, in the Parish Churchyard, Frampton. He was borne to his last resting-place by four members of the local band, viz., G. Coleman, F. Batterham, J. Young, and W. Barker. Ringers were also present from Benington, Boston, Butterwick and Kirton. Immediately after the funeral, at the request of his relatives, a 720 of Bob Minor, with the bells half-muffled, was rung by the following: W. Young 1, F. Batterham 2, W. E. Clarke 3, J. Young 4, W. Barker (conductor) 5, G. Coleman 6; and also a touch of Bob Minor by the following: — Bishop 1, W. Lukin, senr. (conductor) 2, P. Lakin 3, J. Phillips 4, C. Flatters 5, W. Carlton 6.

In the evening a peal of Bob Minor (5,040 changes), an account of which occurs among the peal records, was rung in 3 hrs. 12 mins., by the following: J. Betts (conductor) 1, F. Batterham 2, J. Phillips 3, J. Young 4, W. E. Clarke 5, G. Coleman 6. The striking was very good all through, and great credit is due to the ringers of the 2nd and 4th bells, it being their first peal, and also first attempt.

DEATH OF AN OLD BENNINGTON RINGER.

It is with deep regret that we have to record the death of Mr. John Kitchener, of Bennington, one of the old squire's band. Deceased will be remembered by many of the older generation of ringers, especially those of the old school of fifty years ago that are now living. A musician as well as a ringer, he had been organist at Bennington for 42 years, and filled that capacity until three weeks ago, his end being unexpected, not having taken to his bed until a few days before. He was ill at the time of the Herts meeting on Saturday week, and was asked if the bells disturbed him and he said no, he wanted to hear them.

He rang his first peal at Bennington (Stedman Triples) in 1865, London Surprise in 1870, and Cambridge Surprise in 1873, thus connecting these days of great strides and wonderful feats with the old days when Bennington village was the Mecca of many of the celebrated men of that time. Haley, Lobb, and many others visited there for the purpose of practising the Surprise methods, which were rung regularly for Divine service as well as practice. He was laid to rest in the old churchyard on Thursday last, amidst manifestation of the respect in which he was held, and in addition to his widow and family, and many friends, the two remaining veterans of the squire's band, Messrs. S. Page and L. Chapman, followed their old comrade to his last resting-place. Thus ends the life on earth of a man who will be missed in the life of the old and interesting village of Bennington. While o'er his grave the bells so softly shall their music pour till the end of time. Deceased was 75 years of age.

ROWLEY REGIS BELLS.**AN APPEAL.**

Dear Sir,—I take the liberty of appealing through your columns for help towards reinstating the peal of bells of the ancient parish of Rowley Regis, Staffordshire.

The church was destroyed by fire in June, 1913, when so many other churches and public buildings were being sacrificed in a political campaign of that period.

After lying in ruins for ten years the church is now being rebuilt. The tower has been built as high as the nave roof, but the Church Council being already in debt to the extent of over £2,000 cannot undertake the completion of the tower and installing the bells.

A public effort is being made by the four daughter churches of Blackheath, Old Hill, Cradley Heath and Tividale to complete the tower, and also help toward the £400 to rehang the bells. Rowley Regis is one of the poorest parishes in the Black Country, where there are practically no industries.

The bells, undamaged by fire, were augmented to eight in 1887 by James Barwell. The original five were by Matthew Bagley, of Chalcombe, 1694. The tenor, 13 cwt., was recast in 1848 by Mears, and again in 1881 by Blews.

On behalf of the poor parishioners, who are yearning to hear their bells again, I ask all large-hearted clergy, laity, and ringers to help. Subscriptions will be gladly received and duly acknowledged through your columns, and may be sent to Lloyds Bank (Rowley Bells Account), Old Hill; Blackheath Branch of Lloyds Bank, or to me.—Yours, etc.,

Beauty Bank, Old Hill, Staffs.

A donation of £1 ls. has been received from S. Martin's Guild Sunday Service Band, per Mr. A. Walker.

ELY DIOCESAN ASSOCIATION.

A quarterly meeting of the Archdeaconry of Wisbech Branch was held on Saturday, June 2nd, at Sutton, Ely. A good number of ringers from neighbouring towers was present. Ringing was indulged in during the afternoon. Service was held, the Vicar (the Archdeacon of Wisbech) officiating. After welcoming the association, the reverend gentleman spoke of uses of bells, both religious and secular. The organist and full choir attended, and the association form of service was used. Afterwards a capital tea was provided by the Vicar and lady helpers, which was much appreciated by all present.

The business meeting followed, the Archdeacon presiding. Four ringing members were enrolled, and Wilburton was chosen for the next meeting.—A hearty vote of thanks was accorded to the Vicar for providing the tea, taking the service, and lending the bells; to the lady helpers; the organist, choir, and the local band, for having all things ready, and making everyone welcome.

THE WARWICKSHIRE GUILD.

On Saturday, June 16th a very enjoyable time was spent by about 40 members of the Guild, and several friends, at the village of Berkswell. They came from Allesley, Chilvers Coton, Coventry, Exhall, Nuneaton, Stoke, and the local band. The Rev. C. A. H. Russell, Rector of Whitnash, was also present.

This annual gathering at the Rectory, by the kind invitation of the president and Mrs. Back, is always looked forward to with pleasure.

The tower was open for ringing at 3 p.m., and at 4 o'clock tea was provided in the Rectory.

The Archdeacon of Warwick, in a few well-chosen words, welcomed the Guild to Berkswell once again, and said it was a pleasure both to himself and Mrs. Back to see so many present. It was a function they both looked forward to year by year.

In the course of his remarks, he said he felt sure the Guild was progressing; the type of ringers to-day reached a much higher standard than a few years ago, and were taking their proper places as church workers. He would like to see more of the clergy interest themselves in the ringers, and attend the meetings when held in their district. He hoped some day to see a peal of eight at Berkswell.

Mr. H. Argyle, senr., proposed a hearty vote of thanks to the Archdeacon and Mrs. Back for their kind hospitality. He hoped it would be Mr. and Mrs. Back's pleasure to invite them to Berkswell for many years to come.—Mrs. Back having suitably replied, the proposition was carried with acclamation. Several members availed themselves of a visit to the park, where a fete was being held, others adjourned again to the church for more ringing. The methods rung during the afternoon and evening included Grandsire and Stedman Doubles, Oxford and Kent Treble Bob, College Single, Cambridge and London Surprise.

The falling of the bells in peal brought the ringing in the tower to a close, after which the handbells were brought into use and some excellent touches brought round.

CHELTENHAM AND DISTRICT BRANCH.

The summer meeting of the above branch was held at Winchcombe on Saturday, the 16th inst. The bells (a ring of six) were started going at three o'clock.

Service was held in church at 4.30, conducted by the Rev. F. M. Wickham (Vicar), assisted by the Rev. A. D. Pennington (Rector of Alderton), and was attended by about 50 members from the following towers: Alderton, Ashchurch, Prestbury, Cheltenham (St. Mark), Leigh, Leckhampton, Swindon, Tredington, Twinning, Beckford, and the local tower. After service, the party adjourned to the Institute for tea, kindly provided by the Vicar, and was here joined by the people's warden, Mr. A. W. Smith.

The business meeting followed in the same hall, the Vicar taking the chair. About thirty new members were elected including the Rev. Canon H. A. Wilson, R.D. (Rector of Cheltenham), the Rev. Collins Ashwin, R.D. (Rector of Dumbleton), the Rev. H. A. Cooke (Rector of Swindon), the Rev. A. Stephens (Vicar of Deerhurst), hon. members: Mr. C. W. Dyson and Mr. G. Watts (Leigh), associate members. Beckford was the place chosen for the next meeting in September.—It was pointed out that several towers needed instructors, and several members volunteered to help.

A hearty vote of thanks was accorded the Vicar for his helpful address in church, and for providing the tea.—The Vicar responded, and said how pleased he was to welcome the association to his church, and hoped that a return visit would be paid at an early date.—A vote of thanks was also passed to the organist and choir. Afterwards the bells were made good use of in various methods, and instruction given.—This concluded a highly successful meeting.

COLLEGE YOUTHS AND CUMBERLANDS IN KENT.

On Saturday, June 16th, members of the Ancient Society of College Youths and the Royal Cumberland Society resumed the friendly rivalry initiated by Mr. F. M. Mitchell of the former, and Clr.-Sergt. J. Bennett, of the latter society. On the previous occasion peals were arranged to be attempted in Kent at Northfleet and Swanscombe, respectively, the methods to be Double Norwich and Stedman Triples, and both peals were successfully rung, and it was agreed that the methods and towers be reversed at some future date. The above date was chosen for the re-gathering, and the societies met as arranged, the College Youths at Northfleet to attempt Double Norwich, and the Cumberlands at Swanscombe for Stedman Triples, and both bands were again successful, as will be seen in another column. Tom Groombridge, junr., calling 'that's all' to Double Norwich after 2.53, and J. H. Cheesman likewise to Stedman after 2.47. The ringers met at Northfleet after the peals. The handbells were brought into use, and Grandsire Cinques, Stedman Caters and Triples and Bob Major were rung by mixed bands, neither society claiming any appreciable superiority in peal ringing, handbells, etc.—Mr. Percy Clark, on behalf of the College Youths, congratulated the Cumberlands on their success, and said he was pleased to see the whole of the ringers that day were members of the Kent Association, with one exception, and commented on the excellent spirit that was shown, and hoped that further meetings could be arranged. He was pleased to note that the Cumberlands had the same band that was in the previous peal, and was sorry the College Youths, for various reasons, were not able to muster the same but a representative band had been got together.—Clr.-Sergt. J. Bennett, in true Royal Marine fashion, responded on behalf of the Cumberlands, and reciprocated the kind remarks of his late fellow, Sergt. Clark.

HEREFORD DIOCESAN GUILD.

The quarterly meeting of the Ludlow and Church Stretton District was held at Church Stretton, when the attendance included the District Master (the Rev. H. S. T. Richardson, of Hopesay), and the Rev. H. J. Scott, of Clun. The Guild service was conducted by the Rector (the Rev. H. T. Dixon, D.D.), who also gave an interesting address, and afterwards hospitably entertained the company to tea in the Parish Hall.

At the business meeting which followed, the Secretary reported that the Rev. H. T. Dixon had kindly agreed to become an hon. member, and had also promised to use his efforts in persuading the local ringers to join the parent organisation.

Two honorary, four ringing members, and six probationers from Stokesay Church, and six honorary, two ringing members, and three probationers from St. Lawrence, Ludlow, were elected.

A vote of thanks was accorded the Rector for his kindness in granting the use of the bells, providing tea, and also for presiding at the business meeting, and to the organist for the musical part of the service.

It was agreed to hold the next quarterly meeting at Wistanstow (if convenient) towards the latter end of August.

June 15th was the anniversary of the first peal on the bells at Winchester Cathedral, rung in 1885, and June 14th of the first on the bells at Lincoln Cathedral, rung in 1886. Both were conducted by Mr. F. E. Dawe.

MULTI-METHOD PEALS.

Among the subjects debated by the Central Council was that of multi-method peals on eight bells and over, and we do not think anyone is likely to quarrel with the decision that, when a peal is rung in more than one method, there must be no repetition of changes. It was to ensure this that the Rev. C. D. P. Davies moved the resolution which was carried, thus amplifying the existing rule regarding true peals which was framed in the days before method-splicing was seriously thought of. The motion, as was made clear in the mover's speech, was prompted by the fact that there had been in contemplation the ringing of four quarter peals in four Surprise methods, linked together by a row of rounds between each. Such a performance would be unique, but we do not think it would present any difficulties to an experienced Surprise company, and it is as well that the Council should have settled the question as to its qualification to be counted as a 'peal' before it has been rung, instead of waiting until a claim had been made.

Peal ringing has reached such a stage in these days that any step which will add increased merit to a performance deserves encouragement, and just as multi-method peals on six-bells are to be desired in preference to seven extents in one or even seven methods, so we look forward to seeing on eight bells and upwards frequent peals in which numerous methods are combined. At the moment there are difficulties in regard to the composition of peals of this character in the Surprise methods, simply because the latter are, for the present, very limited in number, but in due time we may hope to have available a collection similar to the Minor methods, and it is probable that there will then be as much scope for spliced peals on eight bells as there is at present on six.

Nothing should be done to discourage investigation, and advance in this direction, although a suggestion at the close of the Council's meeting, that a peal rung in two Major methods should not be recognised, rather points to a feeling that not all ringers favour peals upon this principle. What the objection to spliced method peals can be we are at a loss to understand. On six bells they are eminently to be preferred to, say, a peal in fourteen methods coming into rounds at the end of each 360, and no one can deny that the introduction of a number of methods into one true extent adds infinitely to the difficulty and to the interest of the ringing. While there can be no question of admitting a repetition of rounds or any other change in a peal on eight bells, the same features of difficulty and interest are introduced by splicing on the higher numbers, and when we come to the limit of intricacy in one-method peals, we ought to welcome any other legitimate manner of widening the scope.

HALIFAX AND DISTRICT ASSOCIATION.

'CONTEST' AT HALIFAX.

In connection with the above Association, an eight bell contest of 672 changes, any method, was held at the Halifax Parish Church tower on Saturday, June 9th, by the kind permission of the Vicar (Bishop Frodsham) and churchwardens. The following companies took part, and the whole of them rung Kent Treble Bob Major: No. 1, Mirfield; No. 2, Binfall; No. 3, Batley; No. 4, Earlsheaton; No. 5, Lightcliffe Parish. Ringing commenced about three o'clock, and the last set finished about seven o'clock. Tea was provided in the Schools. Later in the evening the annual meeting was held. The following officials were selected for the next twelve months: President, Mr. J. Hardcastle (Bradford); vice-presidents, Messrs. J. H. Hardy, W. Frith, J. Lawson and J. E. Carter; treasurer, Mr. F. Salmons (Halifax); secretary, Mr. L. Hargreaves (Halifax); trustee, Mr. J. Lawson (Lightcliffe).—A hearty vote of thanks was accorded the Vicar (Bishop Frodsham), and churchwardens, for allowing the association the use of the bells, and for being present at the meeting.—Proposed by Mr. J. Lawson, seconded by Mr. J. Cotterell, Bishop Frodsham, in replying, expressed his pleasure at seeing such an excellent gathering, which numbered about eighty. It was a long time since a contest was held at Halifax, but he hoped it would not be so very long before they would pay another visit to Halifax. He said it was in the 'Church Memoir' that on the first of April, 1631, Samuel Smith, bell founder, cast the Halifax bell called 'Stancliffe,' in his own house at York. It weighed 22 cwt 1 qr. 17 lb., and he said it was no mean effort to ring such bells. The art of bell ringing had several different versions by legal men, but in his opinion the ringing of bells each told its own story, and quoted the following:—

Men's death I toll,
By doleful knell,
'Lightning and Thunder,
I break asunder.
On Sabbath all
To Church I call,
The sleepy head,
I raise from bed.
The musick so fierce
I do disperse,
Man's cruel rage
I do assuage.

The Halifax tower was finished 1470, and had taken twenty years to build the church. The oldest bell was put in in 1472, and recast 1639. The bell, which was known as the 'priest bell,' was called such, because it rings five minutes before the service begins, just to warn the priest that it is time to put on his surplice. In Vicar Ashburn's time it was lent to a Brearby Church, but was fetched back 40 or 50 years later about 1626.

The judges, consisting of Mr. J. Broadley (Bradford), Mr. D. R. Smith (Halifax), aged 76, with Mr. C. E. Carrington (Halifax), marker, gave their decision as follows:—

No. 1, 436 faults, 10 penalties, total 446.

No. 2, rang out.

No. 3, 227 faults, 10 penalties, total 237.

No. 4, 248 faults, 0 penalties, total 247.

No. 5, 290 faults, 0 penalties, total 290.

The No. 3 company, Batley, were declared winners and Bishop Frodsham presented the cup to Mr. Scholey, the conductor, who, in replying, said it was the first time they had tried at an eight bell contest since they had their new peal put in. — Mr. Nightingale (churchwarden) spoke of the very enjoyable time he had spent among the ringers.—A vote of thanks to judges and chairman closed a very successful meeting.

WIMBORNE.—At the Minster, on the back eight, on Thursday, June 28th, a quarter-peal of Stedman Triples, in 48 mins.: F. Townsend, H. Baverstock, W. Cheater (first in the method), A. F. Martin Stewart, A. Bradley, Rev. C. Carew Cox (conductor), Rev. E. V. Cox, F. Hart. Arranged for the Rev. E. V. Cox, who was on a visit.

REV. F. J. O. HELMORE HONOURED.

TABLET IN CANTERBURY CATHEDRAL BELFRY.

An interesting little ceremony took place in the belfry of Canterbury Cathedral on a recent evening, when the Rev. Canon T. G. Gardiner unveiled a handsome marble tablet placed there by the Dean and Chapter in honour of the 200th peal of the Rev. L. J. O. Helmore, Precentor of the Cathedral, and for thirty-eight years president of the Cathedral Band of Ringers, and who is also treasurer and secretary of the Kent Association.

Canon Gardiner remarked that owing to the absence of the Dean and Vice-Dean it became his good fortune to be allowed to unveil that tablet. Having been for a good many years now in Holy Orders, he had met many bands of ringers in different parts of the country, and had learned to respect highly the services which they rendered to the churches. Ringing was not so fashionable as it once was, but he was confident that the services which ringers rendered, almost wholly without fee or reward, reflected the greatest credit on their loyalty to what might be described as their great craft, their loyalty to the church, and loyalty to the purpose for which the bells were rung. For that reason it was a great privilege for him to be there, but there was a more personal side. Those of them who knew the belfry far better than he did knew how much they were indebted to Mr. Helmore for the very great services he had rendered. Since Mr. Helmore first became associated with ringing in that Cathedral in 1882 he had given of his best, and had succeeded not only in maintaining a high reputation in the craftsmanship of ringing, but in keeping before their minds and the minds of others who associated with him the purpose for which bell ringing existed. His name was known not only throughout the diocese, but through England wherever ringers congregated, and that tablet would perpetuate for all time the memory of his services as a bell ringer. In some respects, however, Mr. Helmore was only a child of the steeple, as he understood there was one there who had rung in the New Year for fifty-one years on that peal of bells. Canon Gardiner then, on behalf of the Dean and Chapter, unveiled the tablet placed there as a tribute and in appreciation of the long services Mr. Helmore had rendered.

Mr. Helmore said he felt his words would be very inadequate to express his feelings to the Dean and Chapter for the very unusual way in which they had shown their appreciation of his long-continued but humble services. He began there in 1882, and rang his first peal in 1884. Since then the number had gradually increased, and he would have completed his 200th peal in 1914 or 1915 but for the war. After the war he set out to complete his 200, and told his friends that would be the extent of his ringing, but he had not been a man of his word (laughter), and had gone beyond that already, and he hoped, if spared in health and strength, perhaps to go on towards 220. He thought that tablet was not only a great compliment to himself personally, but also to their company, and he thought they ought to render the Dean and Chapter due thanks for the notice they had taken of them. A ringer could do nothing of himself, he must have the rest of the band, and he always thought that was a great lesson to them of mutual self-help and co-operation. In conclusion, Mr. Helmore mentioned that they hoped within the next month or two to have the two additional bells (making a peal of twelve) as a memorial to those of their Association who had fallen in the war.

Canon Gardiner then read the tablet, which bears the following inscription:

'Kent County Association of Change Ringers.

'On February 3rd, 1923, in 3 hours 25 minutes, a peal of Stedman Caters, 5,031 changes, was rung in this tower by the following members of the Cathedral Company: Walter H. Andrews treble, Henry G. Fairbrass 2, Fredk. G. Brett 3, Edwin G. Buesden 4, Charles W. Brett 5, Rev. F. J. O. Helmore 6, Fredk. A. Fairbeard 7, George G. Jenkins 8, Morton W. Pierce 9, George H. Simpson tenor. Conducted by the Rev. F. J. O. Helmore. The Dean and Chapter have caused this tablet to be erected to commemorate this, the 200th peal, rung by Rev. F. J. O. Helmore, Precentor of the Cathedral and for 38 years president of the Cathedral Band of Ringers.

'NON NOBIS, DOMINE, NON NOBIS, SED NOMINI TUO DA GLORIAM. Henry Wace, D.D., Dean.'

The tablet is of statuary and Purbeck marble. The tablet rests on corbels with heavy moulded bases, fluted pilasters and heavy cornices, and bears the Cathedral and county arms. The work was carried out by the Cathedral workmen.

BRENTWOOD.—On the occasion of the unveiling of the war memorial by Brig-General Wigan, and its dedication by the Lord Bishop of Chelmsford, a quarter-peal of Grandsire Triples: R. Wild 1, H. Turner 2, A. Rainbird 3, H. Tredgett 4, E. Furbank 5, E. D. Baker 6, W. Leggett 7, S. Carroll 8. First quarter by ringers of treble and 2nd. First quarter-peal by local members of the Essex Association. First quarter conducted by A. Rainbird. First quarter conducted by a service ringer at St. Thomas's Church.

RINGERS' OUTINGS.

A LANCASHIRE ASSOCIATION TRIP.

About 50 members and friends of the Bolton branch of the Lancashire Association had their second annual outing on May 26th. A circular tour had been arranged through the East Lancashire and West Yorkshire district. Two charabanc loads left at 2 p.m., and before Bury was reached a heavy shower necessitated 'hoods up.' Heywood was the first stop, and the party received a hearty welcome from the Rector. The fine ring of eight by Gillett and Johnston (tenor 22½ cwt.) are beautiful in tone, and the 'go' is all that is desired; in fact, many of the party considered them the cream of Lancashire. An hour was spent here with touches in various methods. Brighter weather prevailed for the rest of the run, and passing through Rochdale the excursionists struck into the Pennine Range, with its variety of moorland, hills and valleys. The ride over Blackstone Edge will not be forgotten. At Ripponden, a small hamlet in the Calder Valley, a splendid tea was provided by the local ringers and their friends, after which the church bells were set going. These are a light ring, with tenor 16½ cwt., and were kept going until 7.15 p.m., when a start was made for Christ Church, Todmorden. Late arrival caused the time allowed at Christ Church to be curtailed somewhat, but many would have liked a longer stay for ringing on the fine peal (tenor 23½ cwt.). Home was reached about 11 p.m. A set of handbells was taken and kept going in various places en route.

Everybody voted the outing a success, and suggested another before the season was over. The party wish to thank the authorities for the use of the bells, and the local ringers for their preparation and presence during the stay, and especially the ladies at Ripponden for their kind attentions at tea.

LONDON RINGERS AMONGST SUFFOLK BELLS.

The St. John-the-Baptist's Society, Leytonstone had their annual outing on Saturday and Sunday, May 26th and 27th. Amongst the party were Messrs. T. Faulkner and A. Hardy, of Barking, and W. J. Nevard, of Great Bentley. Making Saxmundham their headquarters they arrived there at 8 a.m., and brought round during the two days eighteen complete 720's of Surprise Minor, as well as other touches. Ringing began at the Church of St. Peter and Paul, Feltham, with 720 each of Surfleet and York Surprise. At Ufford, on the handy ring of eight, 576 Superlative Surprise was rung, conducted by T. Faulkner, and touches of Treble Bob and Grandsire, in which the Rev. H. Drake took part. At Wickham Market, London and Cambridge were rung, and this was followed by a visit to Tunstall, where 720 of Lincoln was brought round before returning to headquarters for lunch. In the afternoon a move was made for St. Peter and Paul's Church, Aldeburgh, where Beverley and Durham were tapped off, and then the visitors moved on to St. Margaret's, Leiston, where the local ringers had everything in readiness (including a splendid tea at the White Horse). A good touch of Cambridge Surprise Major and short lengths of Stedman Triples and Double Norwich were brought round. Peasenhall was next visited, where, after ringing Cambridge and Lincoln, a social half-hour was spent with the local ringers, and handbell ringing was indulged in.

On Sunday, 720's of Chester and York Surprise were brought round for the 8 a.m. service at St. John-the-Baptist's Saxmundham. After breakfast, a walk through the fields brought the party to Berhali, where Newcastle and Ipswich Surprise were rung for 11 o'clock service. In the afternoon Reham and Sweffling were visited. At the former place, Durham and Cambridge were rung, and at the latter Lincoln and Wells. Tea over, Norwich was rung at Saxmundham, and this concluded the ringing programme. Those who took part in the 720's were: A Prior, 13 (conducted 4); W. Miller, 12 (conducted 8); G. Dawson, 12 (conducted 2); W. Theobald, 12; E. D. Smith, 11; W. J. Nevard, 11; T. Faulkner, 9; A. Hardy, 8; J. Monro, 8; P. H. Avey, 8; F. Watling, 2; C. F. Bailey, 2. The members join in thanking Mr. Watling, of Saxmundham, who made all arrangements, Mr. C. F. Bailey and the local ringers, who met the visitors and made them so welcome at Leiston, and last, but not least, Mr. J. Forsdike, of the White Hart Hotel who catered for them in first-class style, and made the brief stay so thoroughly enjoyable.

On Saturday, June 3rd, a merry party of ringers, with their wives and sweethearts, set out from Bonvilston, South Wales, the destination being the Mumbles. Favoured with fine weather, the drive was much enjoyed, and everyone did justice to the dinner awaiting them.

The afternoon was pleasantly spent in exploring the headland. After an early tea, a start was made for Swansea, where arrangements had been made for ringing on the beautiful peal of eight at the Parish Church. The ringers were delighted with the tone and the 'go,' and were sorry they had not more time at their disposal. The visitors went on to Aberavon, where arrangements had again been made for ringing, but this had to be curtailed owing to a concert in an adjacent hall.

The drive back to Bonvilston was much appreciated, after the heat of the day, which, however, was voted a most enjoyable one. The ringers wish to thank the incumbents for use of bells, and also those who made the arrangements.

LIVERPOOL RINGERS VISIT STOCKPORT.

A most successful and enjoyable motor trip was undertaken by a company of Liverpool ringers on Whit Monday, Stockport being the venue. At Lymm, touches of Grandsire and Stedman Triples and Treble Bob Major were rung on this magnificent peal. St. George's, Stockport, was reached at 12 o'clock, and the visitors were received by Messrs. Gordon, H. and W. Jackson, Warburton, and others. After ringing touches of Grandsire and Stedman Caters and Treble Ten, an adjournment was then made to the White Lion Hotel, where an excellent lunch was partaken of. Afterwards several touches were rung on the peal of ten at St. Mary's, and Stockport ringers have good reason to be proud of possessing two such fine peals of ten. On the return journey calls were made at Cheadle and Bowdon. Touches of Stedman, Grandsire and Double Norwich were rung at the former place, and Stedman, Bob Major and Cambridge Surprise at the latter. The company would like to thank the clergy for granting permission to ring at the respective towers and the tower keepers, particularly Messrs. Gordon, Jackson, Carr, Ollier and Bradburn, for so kindly having everything ready. It was also a special pleasure to have the company of Mr. J. P. Fidler to Cheadle, and Mr. R. Davies (Manchester) to Cheadle and Bowdon, as well as at Stockport. Mr. H. Jackson, of St. George's, Stockport, accompanied the party to all the towers except Lymm, and the success of the outing was largely due to him for his excellent arrangements.

WINDSOR RINGERS' PICNIC.

The ringers of the Parish Church, Windsor, had a most enjoyable annual outing on Saturday, May 26th, when the party, accompanied by the Vicar (the Rev. C. H. Hamilton), Mr. Churchwarden Burns, of the Parish Church; Mr. Churchwarden Foreman, of All Saints' Church, and the verger (Mr. Ponder), went for a charabanc tour. The ringers assembled at 7.30 a.m. to ring in honour of Her Majesty the Queen's birthday, and after two excellent touches, conducted by Messrs. Stilwell and Harman a start was made by charabanc for Henley, through the lovely scenery via Twyford. On reaching Henley, the ringers adjourned to the church, where some excellent touches of Grandsire Triples and Oxford Bob were rung, whilst the Vicar and churchwardens viewed the celebrated regatta course and riverside scenery. A start was then made for Watlington, where the party was met by the Rector and steeplekeeper, the former showing the visitors over the fine old church. Some excellent ringing took place, and after expressing thanks to the Rector a start was made for Dorchester, where the party were met by Mr. William Hutton, steeplekeeper, and some excellent ringing took place upon what is probably one of the finest and most historic peals in the country. Afterwards Mr. Hutton kindly explained some of the interesting features of the Abbey church. The Abbey is well worth a visit, it dates from the very early ages, although in a wonderful state of preservation, the date of the Abbey foundation being 1140—parts of it probably existed even before this date. The stained glass windows and frescoes are very beautiful, as is also some old stonework, dug up in the neighbourhood and placed on exhibition. Three stone monuments believed to date from the reign of Edward I. are also worthy of note; but one deplores that these beautiful figures are mutilated by visitors carving their names on them, truly doing damage in these educated times to edifices probably overlooked by the soldiers of Oliver Cromwell. On the way to Benson a halt was called 'somewhere in Oxfordshire' for lunch. This was served in picnic fashion. Mrs. Smith, wife of the steeplekeeper, having provided an excellent meal. At Benson the bells were found to be very noisy, the ringing chamber being just underneath them. However, some very good touches were brought round, although the conductor had to assume the vocal powers of a drill sergeant to make himself heard. After a wayside halt for tea, Newbury was made the last point of call. Here the party, much to their surprise, were met by the Rev. Deacon, who was at one time curate at Windsor. Mr. Quinton and other ringers at Newbury were in the tower, and excellent touches of Grandsire, Oxford Bob, Stedman, etc., were successfully brought round, and amid hearty wishes a start was made for home, but a halt was made by the roadside for supper.—Mr. Burns thanked the steeplekeeper, Mr. Smith, and Mrs. Smith, for the excellent arrangements that had been made. He also thanked the ringers for their kind invitation, on behalf of himself, the Vicar, and Mr. Foreman, and said how much they had all enjoyed the outing.—Mr. Smith suitably responded, and the journey resumed via Reading and Slough to Windsor, which was reached shortly after 11.30 p.m. During the day 3,500 changes were rung, conducted by Messrs. Stilwell, Cross, Harman and Farr.

The Mereworth band of ringers held their annual outing on Saturday, 16th June, journeying by motor to Snodland for the first ring, and then visiting the following towers: Halling, Cobham, Meopham, Ash, Wrotham, Seal Chart and Shippourne, ringing touches in Kent and Oxford Treble Bob, Plain Bob and Grandsire Minor, and Bob Major. The total amount of changes rung during the day numbered 7,272. The band wish to thank the clergy and ringing members of each tower for having everything ready for them.

NORTH NOTTS ASSOCIATION.**MEETING AT BARLBOROUGH.**

The members of the North Notts Association held a meeting at Barlborough, and the proceedings were of an exceptionally interesting character.

Ringers were present from Anston, Eckington, Killamarsh, Treeton, Harthill, Shireoaks, Norton Cuckney, West Retford, Ordsall and Worksop, along with a full muster of the local company, bringing the total up to 40.

Some good ringing was done on the fine peal of six bells put in by Taylor's in 1914. Service was held in the Parish Church, and an address was given by the Rector (the Rev. J. D. Griffiths) based on the words, 'O magnify the Lord with me; let us exalt His name together.' The hymns, 'O God, our help in ages past' and 'Ye servants of the Lord,' were sung, with accompaniment on a sweet-toned peal of handbells by the Barlborough ringers, who also gave further selections in the Church Institute, which were much appreciated.

Tea was provided by the lady workers, and was presided over by the Rector.—At the business meeting which followed, E. Dalingwater and J. Dixon, of Gainsborough, were elected non-resident life members, and Messrs. J. Wilson and E. Shirman and Miss Emie Bunting, of Barlborough, as efficient members.

The next meeting will be held at Sutton-on-Trent on August Bank Holiday, when fine weather and a good attendance is desired.

Votes of thanks were proposed by the Hon. Sec. (Mr. H. Haigh), and seconded by F. Hargreaves, to the Rector for the use of the bells, for presiding over the tea and meeting, and also for his admirable address in church; also to the lady workers for providing such an excellent tea, and the Barlborough ringers for the excellent arrangements made for the welfare and happiness of the ringers, and their selections on the handbells.

The Rector briefly replied. He had very little knowledge of the art of bell ringing, and he had often wondered why the bell ringers at Southwark Cathedral locked themselves up for nearly twelve hours in the belfry on such a beautiful day as Whit Monday. But he wondered no longer now he had become enlightened a bit, and if all their attempts at new methods and long peals were successful the first time, their interest would wane. He realised that it was an important branch of church work that always kept them interested, and would do so until the end of time.

The following methods were rung during the afternoon and evening: Plain Bob, Sandall, Oxford, Kent, Violet, Duke of York, Kill-

marsh, London and Cambridge Surprise. The conducting was done by the junior 'G.T.' of Anston. He rang his bell in London and Cambridge Surprise very cleverly indeed.

SUSSEX COUNTY ASSOCIATION.**WESTERN DIVISION.**

A quarterly meeting of the above division was held at Fittleworth on Saturday, June 23rd. Thirty members and friends were present, including a lady member.

The following towers were represented: Shipley, Heene, Pulborough, Steyning, Shoreham, West Grinstead, and the local band; also Miss K. Willers from Cambridge.—The Rev. A. C. Luedy welcomed the members at the church, and invited them to tea at Church Room. Touches of various methods were rung during the afternoon.

At the business meeting which followed tea, presided over by the Rector, one new member was elected—Miss K. Willers.—It was proposed to hold the next meeting at Shoreham, in September. — A hearty vote of thanks was given the Rector for granting the use of the bells, and also for providing the tea.—The Rector, in responding, said how pleased he was that the association had paid them a visit, and also gave an account of how a previous Rector (Canon Simpson) had chipped the bells to get that well-known principle out of them. The meeting then closed, and the members again paid a visit to the belfry, and after various touches made their way to Pulborough, where, thanks to Mr. P. Doick, the members were able to enjoy some very good Major ringing.

DISPUTED PEAL.*To the Editor.*

Sir,—In reference to the peal of Bob Minor rung at Tilney All Saints, on May 23rd, this was false. In the first 720 a bob was missed, and the bells were brought round, after ringing only 604 changes, and then went on for the second 720. As you will remember, it was the same 720 repeated, but instead of repeating it seven times they finished up with repeating it only six times. They may well say it was the quickest peal on the bells. The tenor was recorded as 17 cwt., but it is 22½ cwt. With a draft of 75 ft, the quickest peal rung on the bells so far is 3 hrs, 6 minutes, but it looks as though the weight was cut down to accord with the time. The tenor is in F sharp, and not in E flat as stated.—Yours truly,
WM. ROSE.

BELFRY GOSSIP.

Loughborough's war memorial, which appropriately consists of a tower and carillon of bells, will be opened by Field Marshal Sir William Robertson on Sunday, July 22nd. There are 47 bells of a total weight of 21 tons.

The largest bell, weighing $4\frac{1}{2}$ tons, has been given by Mr. E. Denison Taylor, of the Loughborough Foundry, in memory of his three nephews, the sons of the late Mr. John W. Taylor, who fell in action.

Mr. Conor O'Brien, one of the ringers at St. Patrick's, Dublin, has just left Ireland, with two companions, upon a voyage round the world in a twenty-ton yacht. He proposes to sail via Madeira, Cape Town and Tasmania, and between the two latter places may not see land for three months. He will return by way of Cape Horn, and hopes to be home again in September, 1924. He will carry with him the good wishes of his ringing friends.

Mr. Ernest Jenkins, of Stratton, under whose conductorship much good work has been done in Cheshire, has, unfortunately, been debarred by his doctor from doing any ringing for three months.

Deprived of their leader, the band encouraged a young conductor, and Mr. J. E. Bibby, has now called a peal of Cambridge Surprise Major—his first peal as conductor. Another young member of the band is also showing his worth, and any success which may attend their efforts will in a large measure be due to Mr. Jenkins for the time and pains he has bestowed in initiating the younger members of the band in this department of the art.

On July 8th, 1817, James Barham, whose fame in connection with the 40,320 of Bob Major at Leeds, Kent, is well known, rang his last peal, a peal of Leeds Treble Bob. He was then 91 years of age.

A peal of Grandsire Triples was rung at St. Lawrence's, Reading, on July 8th, 1734.

Among the peals rung by John Holt, was a 6,000 of Bob Major, at St. Margaret's, Westminster, on July 9th, 1749.

Mr. J. Cherry, who is following in the footsteps of his father, the late Lord Chief Justice of Ireland, as a ringer at St. Patrick's Cathedral, Dublin, won four events at St. Stephen's Green School Sports the other day.

The names of the ringers of the treble and fourth in the peal rung at Ilkeston on June 14th should be Edmund for Edward and Gilbert for George.

LONDON'S THREATENED CHURCHES.

To the Editor.

Dear Sir,—I have read with keen appreciation your apposite remarks on the use made of that artifice in debate known as 'the previous question' to dispose of the resolution against the demolition of Wren's Churches. Permit me to add a few words on the subject.

First let it be said that the proposer and seconder of 'the previous question' at Salisbury were both gentlemen well known to me, and for whom personally I have the highest regard. Their point of view I can quite well understand—that the Central Council meets purely and simply to deal with matters affecting the interests of ringers, and consequently anything outside that category is ipso facto outside the Council's province. If I had had the opportunity of replying to objections, I could have cited instances, in which the Council has on previous occasions passed resolutions on matters of public interest, so that it would have constituted no violation of any established principle to do so in this case. As it was, the form of procedure adopted deprived me of such opportunity. As you rightly observe, sir, 'the previous question' is a poor way of getting rid of any matter, and as it transpired in the course of proceedings that neither our esteemed president nor that distinguished luminary of the legal world, whose presence graced our assembly, could explain what the said 'previous question' really means, it will be all to the good, if in future this practice be recognised by tacit consent as a discredited device for 'hitting below the belt.'

To turn for a moment to the subject of the resolution, many arguments could—and would—have been adduced in support of it both by me and by others. Suffice it for the present purpose to state two concrete facts. The list of city churches threatened with destruction—and desecration of the sites—contains two names well known to ringers. One is St. Dunstan's-in-the-East—a thoroughly 'live' and well ordered Parish Church, with a stately tower and eight magnificent bells. The other is St. Magnus—a church almost perpetually used for private worship, and often filled, not once a week, but on three or four days in the week, with a devout congregation. At a recent festival a hundred people or more were unable to find standing room half an hour before the service. The church rises as a monument of grace and dignity in one of the most squalid parts of London. From its tower the Angelus rings out thrice daily, and ringers are heartily welcome to the use of its ten bells.

If churches such as these were ever demolished for the commercial value of their sites, it would be an act of sacrilegious infamy without parallel since the days of Cromwell.—Yours truly,

F. LI. EDWARDS.

OLDHAM'S BELLS.**BIG PEAL IN A SMALL TOWER.**

Great interest was taken in the reopening last Saturday of the peal of twelve at Oldham. Messrs. Taylor and Co., of Loughborough, have recast the whole peal, the new tenor being just over 35 cwt., compared with the 32½ cwt. of the former bell.

The peal has been hung in entirely new fittings of the latest type in a new strong and massive iron framework, specially designed and constructed to suit the peculiarities of the tower, which is very small to carry such a large peal of bells, the internal dimensions of the bell chamber being approximately 13ft. square.

The bells are of beautiful tone, and the large number of ringers from Lancashire and Yorkshire who were present at last Saturday's gathering were delighted with Oldham's new possession. Messrs. Taylor and Co. have provided a magnificent peal.

SAFFRON WALDEN TERCENTENARY.

The unique history of the Saffron Walden Ringing Society, which is probably the oldest ringing organisation extant, reached a memorable milestone on Wednesday of last week, when the three hundredth anniversary of its foundation was celebrated.

Throughout all this long period there has been a 'ringing day' and an annual sermon preached, to commemorate the deliverance of one of Saffron Walden's townsmen, who, being lost in the forest, was guided to safety by the sound of the bells. He left a sum of money for the commemoration, and at last Wednesday's event the ringers and visitors, who attended in large numbers, were entertained to tea by the Mayor and Corporation, while the townfolk at large entered into the spirit of the celebration.

DONCASTER & DISTRICT ASSOCIATION.

A successful meeting of the Doncaster and District Society was held at Haxey last Saturday. Members were present from Arksey, Adwick-le-Street, Doncaster, Thorne, Hatfield, Treton, Gainsborough and Retford. Touches of Grandsire and Stedman Doubles, Plain Bob, Kent and Oxford Treble Bob, were rung on the beautiful toned peal of six bells, with tenor of 28 cwt. The visitors found the bells very difficult to ring at first, but all went well when they had got used to the ropes.

A short service was conducted by the Vicar of Haxey (the Rev. W. H. Sheppard).

At the business meeting, which was held in the vestry, it was decided to hold the next meeting at Rawmarsh.

A resolution was carried expressing regret that it had been found necessary to stop all ringing on the bells of St. Mary's, Tickhill.

Tea was partaken of in the Schoolroom, and afterwards Grandsire Triples were rung on the handbells. Many of the visitors accepted the Vicar's kind invitation to look round his grounds and to inspect his collection of old relics, etc.

LLANDAFF AND MONMOUTH DIOCESAN ASSOCIATION.

The quarterly meeting was held at Sully, near Barry, on Saturday, June 30th, and was well attended. The musical ring of bells was made good use of during the afternoon and evening. Service was conducted by the Rector (the Rev. John Evans), and immediately followed tea, kindly provided by the Rector. At the subsequent business meeting in the Parish Hall, instructors' report were received, and a report of the Central Council meeting was given by the representative (Mr. J. W. Jones).—New members were elected, proposed restorations discussed, and St. Andrew's, Dinas Powis, was chosen for the place for the next quarterly meeting. A pleasant and successful afternoon and evening were spent.

TETBURY BELLS.

The bells at St. Mary's Church, which have been unringable for some months, owing to one of the bells breaking from the canons, have been thoroughly overhauled and rebung by Messrs. Llewellyn and James, of Bristol. On Sunday, June 24th, on the invitation of Mr. F. Tyler, a few members from Cirencester journeyed to Tetbury, and the following touches were rung for evening service: 672 Grandsire Triples: F. J. Lewis 1, F. W. Bond 2, H. Lewis 3, F. Edwards 4, A. Townsend 5, S. R. Hicks 6, H. O. Bond (conductor) 7, F. Tyler 8. After service, 504 Stedman Triples: F. W. Bond 1, F. J. Lewis (conductor) 2, H. Lewis 3, H. C. Bond 4, S. R. Hicks 5, F. Tyler 6, A. Townsend 7, F. Edwards 8. 336 Bob Major: F. Edwards 1, F. W. Bond 2, H. Lewis 3, S. R. Hicks 4, F. J. Lewis (conductor) 5, F. Tyler 6, A. Townsend 7, H. O. Bond 8. 447 Grandsire Triples: F. W. Bond 1, F. Tyler 2, A. Townsend 3, F. Edwards 4, F. J. Lewis (conductor) 5, H. C. Bond 6, S. R. Hicks 7, H. Lewis 8. The ringers found the bells in splendid going order, and congratulated Mr. Tyler on the excellent job he had made.

LOCAL PEALS.*To the Editor.*

Dear Sir.—I do not agree with 'Keep Smiling's' definition of the word 'local.' To be strictly accurate, the local is born, not made, but there is no credit in boasting of one's birthplace, since no man can control his origin. Everyone knows what is meant by a village local, yclept 'yokel,' who, far from the madding crowd, pursues the noiseless tenor of his way, but when we come to large towns and cities, the word takes on a wider meaning. It is not confined to borough or parish boundaries. If it were otherwise, then few mayors and aldermen of our cities would be local men, but he would be a bold man who asserted that they were not! Not everyone can live within a borough boundary, and in its wider range, a 'local' is a resident in the locality.

In the peal of Superlative rung at St. John's, Leicester, seven of the band were living well within the boundary. The eighth had settled in Leicester, and had lived in lodgings in the city for some time. Unable to rent a house, he bought one, ten minutes' walk from the tram terminus. He attached himself to St. John's Church, and rang there regularly. Query for 'Keep Smiling': If he or I take a house similarly, shall we cease to be local men? I think not.

If a man works within the boundary and sleeps outside it—or vice versa, or of two men (both from elsewhere); is the one fortunate enough to obtain a house within the boundary more entitled to locus standi than the other (unfortunate) one?

What credit is there anyway? There is credit to a band ringing their first intricate peal unassisted.

The latter part of your correspondent's letter: 'Why don't they get together and do it?' I am unable to answer, having been at all times willing to co-operate; but I presume the reason is because 'they' have not been asked, and since the M.C.A. reports show that not a single Surprise peal except that under discussion, has been rung unassisted either in or out of the city, that fact tells its own story.

Moreover, I doubt whether it would be a good thing to ring all the bells in a city at one time, except for some public reason. As I grow older I see two sides to the question, and am under the impression that, much as we love change ringing, we can ride our hobby to death, and peal ringing that becomes too common loses its charm and its value.—Yours truly,

W. WILLSON.

P.S.—In my previous letter the word 'tower' should have read 'town.'

Dear Sir,—I am not aware who your informant is who raised the dispute re the first Surprise peal rung by a local band in Leicester. The idea of most ringers is that a local band means actual residents of the place where the peal was rung. If the surrounding villages contribute towards the band, where do we stop? A local Leicester band could be made to include ringers from Melton Mowbray, Market Harborough, etc. Recently a peal of 'Princess Mary' was rung at St. Martin's by nine residents, and one member from outside the city area. Although this one member is a regular Sunday Service ringer at St. Martin's the peal was not and could not be claimed as being rung by an entirely local band. The same applies to Mr. Willson's claim. The other claimant for the honours was so very sure, that he has emphasised his claim in large capitals, then most modestly crawled under a non-de-plume. The fact still remains that the first Surprise peal by a resident band of Leicester ringers in the City of Leicester has yet to be rung.—Yours truly,

F. H. DEXTER.

'Locumitis' writes: Surely in the case of a city, 'local' can only mean residents in the parish to which the church belongs. The fact that a ringer does all his ringing in Leicester does not make him a Leicester ringer any more than the man selling Spanish onions is a Spaniard. So far as my knowledge goes there has been no peal of Surprise Major or Royal by a Leicester band. Certainly St. John's claim comes as near as any, but it is not quite sufficient.

REOPENING AT WIGMORE, HEREFORDSHIRE.

The bells of St. James' Church, Wigmore, after being silent for upwards of 20 years, were reopened on June 21st.

The bells are a musical peal of six (tenor 9 cwt. in A flat), cast by Rudhall in 1721. The 5th was recast by Taylor in 1889. The work of restoration has been most ably carried out by Mr. A. Bowell, of Ipswich, who fitted new wheels, bearings, headstocks, and strengthened the frame. The service was attended by a large congregation. The opening ceremony was performed by the Rev. Preb. S. Cornish Watkins, Rural Dean, and the bells were rung for a minute by ringers representing six towers in the Guild. The Rural Dean preached a most appropriate sermon, in the course of which he paid a warm tribute to the influence of the Hereford Diocesan Guild of Ringers. After the service, a supper was served to the clergy, ringers and choir.—The Rural Dean, on behalf of the clergy and ringers, thanked those who had provided the supper. — The Vicar responded, on behalf of his people, by thanking those who had taken part in the service.

ARCHDEACONRY OF STAFFORD SOCIETY.

The annual meeting was held at Lichfield on June 16th. Members who availed themselves of the opportunity to visit Messrs. Bridgeman's works were well repaid—the specimens of carving, both in wood and stone, being exquisite. The bells of St. Mary's (8) and St. Michael's (6) were made good use of until tea-time. At the general meeting which followed, protests were made at not being able to ring on the bells of the Cathedral.—The Chairman (the Rev. Canon Penny) intimated that if it was their wish to pass a vote of censure on the Dean and Chapter, he, as one of that distinguished body, would vacate the chair, as he felt that he could not remain in that capacity under the circumstances. The Rev. C. H. Barker (clerical secretary) advised that discretion should be used rather than a drastic resolution. 'That we proceed to the next business' was moved, and seconded, and upon a vote being taken was carried by a strong majority. The balance sheet was read and passed, and ordered to be printed, together with the report. The officers were re-elected, with the exception that W. and J. Evans take the places of A. Law and E. J. Tyler as auditors, and T. J. Elton in the place of W. Fisher as representative at the Central Council. The following places were chosen for the coming meetings: Cannock in September, Wood Green in January, Tipton in April, and Lichfield (annual) in June. Several new members were elected.

A vote of thanks to the chairman concluded the business.

COMMITTEE'S REPORT, 1922-23.

During the year 24 new ringing members have been admitted.

The number of peals rung was 32, made up as follows: Grandsire Doubles (on handbells), 1; Grandsire Triples, 4; Grandsire Cinques, 1; Stedman Triples, 13; Stedman Caters, 6; Plain Bob Minor, 1; Kent Treble Bob Major, 1; Double Norwich C.B. Major, 1; Cambridge Surprise Major, 3; London Surprise Major, 1; total, 32.

Restorations are taking place at Cannock and Kingswinford, where each ring of six are being augmented to eight. At the former tower the bells have been unringable for about 30 years, and the local ringers are to be congratulated upon the result of their untiring efforts. It is hoped that the ring of eight at Tettenhall will also be put into working order in the near future.

We are glad to take this opportunity of thanking the Ven. Hugh Bright, Archdeacon of Stafford, for consenting to be our president. We feel sure we can count on his support of our work. We acknowledge with gratitude the hearty welcome we receive as a rule when we ask permission to hold a quarterly meeting in most parishes of the Archdeaconry. We look upon the readiness with which permission to use the bells is given, and the trouble expended on the service and tea, as an appreciation and encouragement of the work of the society. It is unfortunate that the one exception should be the authorities of the Mother Church of the Diocese. It rests with the Dean and Chapter, who are the custodians for the time being of the Cathedral bells, to give or withhold permission to use them. They, of course, have good reasons for the decisions they make, but it is none the less difficult for the ordinary ringing members of our society to understand why one recognised ringing society for the whole Archdeaconry should be refused permission to ring once a year.

MIDDLESEX COUNTY ASSOCIATION.

Members of the North and East District attended the meeting held at Northaw.—The President of the Association, the Rev. F. R. Bousey (Vicar of Northaw), gave the visitors a hearty welcome.

A short service was held at 5 p.m., followed by tea in the village hut. After tea, the business meeting was held. The president (in the chair) was supported by the hon. treasurer (Mr. F. A. Milne), hon. secretary (Mr. C. T. Coles), Master (Mr. W. Pve), District Master (Mr. G. B. Lucas), and members from Clapton, Tottenham, Barnet, Hadley, Finchley, Hatfield, etc., and included Mr. J. B. Williamson, of Ventnor, I.W.—Five new members having been elected, the Hon. Secretary announced that arrangements were being made for the memorial tablet to the late president to be unveiled on Saturday, July 14th, at Barnet, when it was hoped that all members of the association would make an effort to attend. The fund, which it was proposed to close, amounted to £33 18s. 6d., which was sufficient to cover the cost of both tablets and sundry expenses.—Mr. Milne gave an explanation of the difficulties in obtaining the necessary faculty for the erection of the tablet in Barnet Church, and the work of cutting the inscription was now in hand.—A vote of thanks to the president was unanimously passed, and Mr. Bousey suitably replied.

The ringing done during the day was generally good, and in a large number of methods, including Grandsire and Stedman Doubles, Oxford and Kent Treble Bob, College Single, Double Court, Cambridge Surprise, and a 720 of Bob Minor, conducted by the president.

SIDDINGTON, GLOS.—Recently for practice, 720 Bob Minor: A. Parsons first 720) 1, H. Lewis 2, F. J. Lewis 3, C. Martin 4, W. C. Guss (conductor) 5, V. R. Williams 6—720 Kent Treble Bob: W. G. Cook 1, H. Lewis 2, F. J. Lewis (conductor) 3, C. Martin 4, W. C. Guss 5, V. R. Williams 6. First 720 Kent by all except conductor.

YORKSHIRE ASSOCIATION.

The third quarterly meeting of the Eastern District of the Yorkshire Association was held on Saturday, June 23rd, at Beverley, the ancient capital of the East Riding. Viewed from the park-like expanse of Westwood, the town presents a picturesque appearance, with its two great churches towering high above the red tiled roofs below. On the left, the graceful turrets and open-work battlements of St. Mary's Church are seen through the trees; and to the right the lofty fretted towers of the Minster, dedicated to St. John of Beverley.

The bells of Beverley Minster have always been famous. They are now thirteen in number, three of them in the south-west tower, 'Brithnuns' and 'Peter,' Pre-Reformation bells, being the second and tenor of a ring of four mentioned in the Chapter Act Book of the fourteenth century. The other, 'Great John,' was founded by Messrs. Taylor, of Loughborough, and was given by the then Vicar, Canon Noloth, in 1931, as a thankoffering for 21 years of happy work in Beverley Minster and its parishes. Its note is G, the octave below the sixth bell in the peal, and weighs 7tons 3qr. 1lb. The diameter is 7ft. 2½ins.; thickness at the sound-bow, 6½ins. It is hung in an iron frame, and swings on roller bearings, and is rung every Sunday on the ceasing of the peal for five minutes, without causing the slightest vibration in the tower.

The north-west tower contains the fine peal of ten, with a tenor of 4½ cwt. in C. The clock is a very powerful one, by Messrs. Smith, of Derby, and is, we believe, the only clock in the world which strikes upon bells in two towers.

By kind permission of the Vicar of the Minster (the Rev. W. H. Rigg, D.D.), these splendid bells were placed at the disposal of members, as were also the bells of St. Mary's (10), by the courtesy of the Vicar (the Rev. E. Hope, M.A.), an honorary member of the association, and fullest use was made of the opportunity so readily granted.

Service was held in the choir of the Minster, an address being given by the Rev. Dr. Rigg, which was greatly appreciated by those present. A short voluntary was given by the Minster organist, Mr. J. Canidge, on the fine four-manual organ, which contains 68 stops, and is a notable instrument, both for the power of the full organ and for the sweetness and variety of the softer stops.

Tea was afterwards served in the Minster Parish Room, at which no fewer than 70 sat down, hailing from Goole, Hemingbrough, Hull, Market Weighton, Selby, Sutton-on-Hull, and York, and also several members of the Lincoln Diocesan Guild, from Barton Grimsby and Thornton Curtis.

The business meeting followed, Dr. Rigg occupying the chair.—Letters of apology were received from the Rev. R. G. Pyne, M.A., Rector of St. Cuthbert's, York, who had hoped to be present, and also Mr. H. Fairlam, Ringing Master.

It was decided that the next quarterly meeting be held at Hemingbrough, on the invitation of the Vicar and ringers.

Five new members were elected, viz.: Mr. C. R. Woodard, Selby; Mr. F. Thornton, Sherburn-in-Elmet; Mr. H. Cowton, Barton-on-Humber, Lincs; Mr. J. Atkinson and Mr. G. Atkinson, Thornton Curtis, Lincs. The Rev. Dr. Rigg was also elected as an honorary member.

A vote of thanks to the clergy for the use of the bells, was proposed by Mr. A. E. West (vice-president), and seconded by Mr. A. M. C. Field.—Dr. Rigg, in responding, spoke of the great pleasure it gave him to have the association at Beverley, and said that they would always be welcome at any time during his vicariate.

Great credit was due to Mr. W. Gibson and the local company for their excellent arrangements, and also the ladies who prepared and served tea. Thus another pleasant meeting was brought to a close, the glorious day contributing no little to the enjoyment of all.

EALING RINGERS' EXCURSION.

The ringers of St. Mary's Parish Church, Ealing, together with a few friends, held their second annual outing on Whit Monday. Hand bell ringing was indulged in en route, and the party commenced their programme at St. Mary's, Slough, in good spirits. The methods rung here and the two other towers visited were Grandsire and Stedman Triples, Plain Bob, Kent and Double Norwich Court Bob Major. An excellent lunch was partaken of at Messrs. Lidstone's. An hour's ringing at St. John's, Windsor, was greatly enjoyed, and the party then dispersed for a while, roaming over the castle and town. Messrs. Lidstone's was again visited to dispose of an appetising tea.

A pleasant motor journey to Burnham was accomplished, and the tower of St. Peter visited. The 'bus' returned all too quickly, and the pretty little village reluctantly left. The train journey from Slough to Ealing was as jolly as a rail journey could be, and when 19 people (!) travel in one compartment some fun could be expected. Thanks are due to the local ringers for so kindly arranging things and assisting in the general ringing.

THREE HUNDRED YEARS.

The ringing festival at Saffron Walden was an event of unique interest in the annals of ringing. The tercentenary of any Society is a historic occasion, and no ringing organisation has previously had the opportunity of celebrating a record of three hundred years of continuous existence. Therefore there is cause for special congratulation. Bells there were and ringers there were, for hundreds of years before 1623, but the foundations of the Saffron Walden Society were laid before the days of change-ringing as we now know it. The society came into existence eight years before Fabian Stedman was born at Cambridge, and fourteen years before the College Youths were established, and its history is authenticated by the curious bequest which has perpetuated the 'annual ringing day.' Thomas Turner, who owed his deliverance to the bells of Saffron Walden, did greater service than he knew, when he showed his gratitude by bequeathing a sum of money for an annual sermon to the ringers and the ringing of the bells. He was the means of building up a society which has not only kept his memory green, but which, in turn, has played its part in the building up of the Exercise.

Saffron Walden was one of the first among provincial towers to adopt scientific change-ringing, and from time to time the society has been among the foremost exponents of the art. In confirmation of this we have only to turn to the fact that Holt's Original was rung there in the year 1753, conducted by one of the ringers taking part—a feat which stands as almost, if not quite, the first on record in regard to this peal. Coming to later days, we associate with Saffron Walden the great family of the Pitstows. Fred—and ringers thus speak of him affectionately—is still the Ringing Master, after 65 years' connection with the belfry; and who, among the older generation of ringers to-day, does not recall the genius of his gifted brother Nathan, one of the greatest composers the Exercise has known, and one of the gentlest and most modest of men? Another composer, whose association with the tower goes back for half a century, is J. F. Penning, who in his day has rendered great service in the field in which he worked.

We recall these facts so that Saffron Walden's contribution to the art of ringing shall not be lost sight of in the brighter glare in which, at the moment, the Society is now basking. The three hundredth milestone is an interesting epoch in the onward march of any organisation, but the part that the Society has played in the progress of events is of more importance. For a provincial tower, Saffron Walden, largely by the men it has produced, has left its mark more deeply than most, and the Exercise will hope,

MISCELLANEOUS PERFORMANCE.

STANTON SHROPSHIRE.—On Saturday, May 5th, six members of the Salop Guild attempted a peal of Minor in seven methods, but owing to the indisposition of the ringer of the second, the bells were allowed to run round after two 720's (Double Court and Oxford Treble Bob) had been rung: W. Clay 1, J. E. Lilley 2, W. B. Kynaston 3, C. R. Lilley (conductor) 4, R. Polo 5, E. V. Rodenhurst 6.—After tea, 720 Oxford Treble Bob was rung: A. Shotton (first 720 of Minor) 1, C. R. Lilley 2, W. B. Kynaston 3, R. Polo 4, W. Clay (first 720 of Treble Bob) on a bob bell 5, E. V. Rodenhurst (first 720 of Treble Bob as conductor) 6.

WEDDING BELLS.

Kynaston 4, G. Jones 5, W. Fairhead 6, C. R. Lilley (conductor) 7, D. J. Boucher 8. Also 504' Stedman (from Washbrook's 10-part peal): W. B. Kynaston 1, J. E. Lilley 2, R. Polo 3, W. Fairhead 4, D. J. Boucher 5, C. R. Lilley (conductor) 6, G. Jones 7, J. Ewan 8.—500 Bob Major: J. Griffiths 1, J. E. Lilley 2, R. Polo 3, W. B. Kynaston 4, G. Jones 5, D. J. Boucher 6, W. Fairhead 7, C. R. Lilley (conductor) 8. Also two courses of Double Norwich on handbells.

A NEW PEAL FOR RUTLAND.

IMPRESSIVE DEDICATION AT GREETHAM.

Just an old-world village out of the beaten track, miles from a railway station, and in the heart of the country where only the motorist disturbs the peace of the pastorate—such is Greetham, in the county of Rutland. Here on June 30th, the sound of bells broke the silence of a century. More than a hundred years ago, the steeple of the village church collapsed, and buried beneath boulders of stone, the old four bells, three of which were broken in pieces—therefore the oldest inhabitant had never heard the village bells.

The idea of a restoration as a war memorial occurred to the Rector (the Rev. J. D. Massey), himself a ringer, and one time a curate of Aylestone, near Leicester. The idea grew into tangible shape, and Messrs. Gillett and Johnston, of Croydon, were given a contract to recast the old bells, adding another to make a ring of five. This the firm has done with its accustomed ability, hanging the bells on latest principles, with iron H frames, on steel girders anchored in the walls, with gudgeons and rollers on ball bearings, the result being a most musical ring of bells.

The dedication and opening ceremony was fixed for Saturday, June 30th, at 3 p.m., and shortly before that time, the village brass band paraded and marched to the church. Many of the rustics wore 'the red badge of courage,' and decorations won on the fields of Flanders, and the sight of these humble heroes back from a world-war paying their homage to those comrades who have 'marched on' into the Unknown, revived the waning spirit of patriotism.

In the absence, through illness, of the Lord Bishop of Leicester, the service was taken by the Rev. J. H. Charles, M.A., Rural Dean and Rector of Oakham, and commenced with Psalm 31 followed by the usual prayers. Significant was the one for the local men who had fallen, and as their names were read out—'who gave their lives to defend us, accept, O Lord, their self-sacrifice and grant them a place of Peace where the Light of Thy countenance shines for ever, and where all tears are wiped away'—in that old church that would know them no more, down many a wrinkled face a furtive tear found a furrow. The hymn, 638 (A. and M.), might have been written for an occasion such as this, with its wonderful pathos for those who have passed on:—

Not spilt like water on the ground,
Not wrapped in dreamless sleep profound,
Not wandering in unknown despair,
Beyond Thy Voice, Thine Arm, Thy care;
Not left to lie like fallen tree,
Not dead, but living unto Thee.

The address by the Rural Dean followed descriptive of the message of the bells to all men, after which the well-known bell hymn, 'Lift them gently to the steeple,' was sung. Then the Blessing, and, after a minute's tense silence, from beneath the tower at the west end came the strident tones of 'The Last Post,' blown splendidly by a grizzled warrior wearing the Boer War medal, and with the 1914 and numerous other ribbons 'up.' Many of the men stood to 'Attention' with the memories of other days, while those who had never before figured in the last tribute to a soldier, waited in wonder and shuddered as the bugle-call wound its way to the weird finale, sounding as it does like the cry of a lost soul—'Are you there? are you there?'

It was over, and the bells spoke for the first time as ringers from St. John-the-Divine, Leicester, and from Oakham pulled off. Three six-scores of Doubles were rung, and then the bells were 'freed.' The congregation was loath to move, and when it was seen that a lady was ringing with the ease of the men, others came in to see, until all were satisfied that Greetham had really got a peal of bells of its own again!

After tea, ringing was continued, and the unanimous opinion was that Messrs. Gillett and Johnston had given of their best, and the utmost satisfaction, the sweetness of the bells being excellent, and the workmanship leaving nothing to be desired. As the frame is made for six bells, the time may come when a treble will be added, and if so the pleasure will be thereby increased.

DEATH OF A SHIPLEY RINGER.

We regret to announce the death of Mr. Job A. Ross, who passed away at his residence, Bradford Road, Shipley, Yorks on May 26th, at the age of 73 years. The deceased was a service ringer at the Parish Church for upwards of 40 years, but owing to ill-health retired from ringing about two years ago. The funeral took place at Pudsey Cemetery on May 30th, Mr. Thomas B. Kendall representing the local company.

On Saturday, June 2nd, a half-muffled peal of Grandsire Triples was attempted, but after 1 hr. 50 mins.' ringing a bob was missed, and stand was called. The ringers taking part were: S. Palfreman 1, H. Davison 2, A. Gill 3, T. B. Kendall 4, R. Umpleby 5, F. Hopwood 6, E. H. Simpson (conductor) 7, J. Broadley 8.—For Sunday morning service, a 1,008 of Grandsire Triples was rung half-muffled by the local company. His many ringing friends extend their deepest sympathy to the bereaved family.

RINGERS' OUTINGS.**A TRIP INTO SHROPSHIRE AND STAFFORDSHIRE.**

On Saturday, June 23rd, the King's Norton ringers met for their annual outing. They were accompanied by a few friends, ringers and otherwise, amongst whom were Mr. Moore, one of the churchwardens, Mr. Boffey (late churchwarden), and Messrs. James George, Sam Grove, and Ernest Allaway.

A good run of about 30 miles brought the party to that fine old town of Bridgnorth, where they were met by Mr. Overton, one of the local veterans. The bells (a beautiful peal of eight, with a 19½ cwt. tenor) were soon raised in peal, and going to the tune of Cambridge Major, a two course touch being successfully brought round, followed by touches of Double Norwich Major and Stedman Triples, after which the bells were lowered in peal. The Rector was thanked for the use of the bells.

Coalbrookdale was reached after a delightful run through some of the valleys of the River Severn. The party were met by the Rector and Mr. William Saunders, of the local men, who conducted them to the belfry. The local band are certainly to be congratulated on the way they keep their ringing chamber. The bells (a very good peal of eight, with a tenor weighing 19½ cwt.) having been raised in peal, a touch of Cambridge Major was then rung in excellent style, followed by three courses of Stedman Triples. Mr. Saunders taking part in the latter touch. Shrewsbury was the next stop, and was reached about one o'clock.

Here permission to ring was only obtainable at St. Chad's, and while some of the party, accompanied by Mr. Lilley, captain of the St. Chad's ringers, went to prepare lunch at the Parish Room, the rest spent the time in looking round the church, which is rather peculiarly built, being round in shape in the classic style. In plan it consists of two unequal circles intersecting each other, the larger forming the nave and chancel, and the smaller an inner vestibule. It is interesting to note that wherever one sits in this church they face the pulpit.

After lunch, Mr. Churchwarden Moore, during the course of a few remarks, said how pleased he was to be with the party again, and thanked them for inviting him. He also, on behalf of the ringers, thanked Mr. Percy O. Laffin, who had had all the arrangements in hand, for the most efficient way in which he had carried them out.—Mr. Boffey also expressed his pleasure at being with them once more.—Mr. Laffin replied, mentioning Mr. William Ball and Mr. and Mrs. Harry Williams, who had helped in no small way towards making the outing a success.—Mr. James George thanked the King's Norton ringers for inviting him.

A move was made to St. Chad's belfry to 'try' that fine peal of twelve, with a 39½ cwt. tenor, by Taylor. At the church the ringers met Mr. Pryce Taylor, who took part in the subsequent ringing when the bells had been raised. Stedman Cinques was attempted, but unfortunately lost. Then followed a touch of Stedman Caters, which, if it did not come round, was well struck. With the help of Mr. Lilley and three of his young pupils, three leads of Treble Bob Maximus were, more or less, successfully brought round, and after some well-struck Cambridge Major (which was the first Cambridge on the bells) the party adjourned to the Parish Room for tea. Tea being finished, the party boarded the old bus, and started for Brewood the last place to be visited. At Brewood the bells are of a very nice tone (tenor about a ton), and they were soon ringing out Cambridge and London Surprise Major, Double Norwich Major and Stedman Triples, the bells being lowered at about 3.45 p.m.

The ringers take this opportunity of thanking the various incumbents and local men, and all who helped to make this outing such a great success.

100 MILES AND 6 TOWERS.

On Thursday, June 21st, the ringers of St. Mary's Church, Ambleside, Westmorland, had their outing, through West Cumberland, via Coniston, Seascale, and St. Bees. At St. Bees a short touch of Grandsire was rung. The next stop was Egremont, a peal of eight, where a 504 Grandsire was rung, conducted by T. Newton. After dinner the party journeyed to Cleator Moor, another handy ring of eight (tenor 21 cwt.). This tower suggested another 504, which was tapped off in good style, conducted by T. F. Hewertson. Next to Kensington, where there is a very handy ring of eight tenor about 13 cwt., a 350 and two touches of Bob Minor were rung, with the local ringers. Tea was partaken of at Cockermouth, where the tower was visited after tea. Here a very handy ring of eight (tenor 13 cwt.) has been rehung. Time was allowed for a quarter-peal, which was tapped off in 50 minutes, conducted by W. Robinson; then a course of Stedman with Mr. T. W. Holme, who had made all ready for the visitors. Keswick was reached at 8.15, where three of the local hand were waiting. A short touch of Grandsire was rung, conducted by E. L. Bennett. A short touch of Stedman was attempted, but after two attempts was given up, and this concluded the day's ringing. Ambleside being reached about 11 o'clock. The party expressed themselves well satisfied with the day's outing, having covered 100 miles and rung in six towers.

A TRIP ON THE WOLDS.

On Whit Monday members and friends of the All Saints' Guild, Gainsborough, numbering 24, had a very enjoyable outing, by charabanc, Louth, Waltham, Caister and Bigby being visited. At Louth a 2½ hours' stop enabled the party to look round the town and have some good ringing on the fine peal of eight bells (tenor 30 cwt.) at the Parish Church. At Waltham some excellent six-bell ringing was done, everybody getting a short touch. At Caister they met Mr. Segar, of Retford, who was on his way home by motor-cycle from Clæthorpes, and who stopped for a pull on the peal of six.

Caister was one of the first towers to take up change ringing in North Lincolnshire. On arrival at Bigby at 5 p.m., the visitors were welcomed by the local company, who joined them at tea.

Afterwards the Rev. H. T. Parry invited the party to look round his gardens, and took several photographs of them. Several good touches were brought round on the light ring of six bells. Home was reached at 9.20 p.m., everyone having had a happy time. The methods rung were: At Louth, Grandsire and Stedman Triples, Plain Bob, Kent Treble Bob, Double Norwich and Superlative Surprise Major; at the six-bell towers, Grandsire and Stedman Doubles, Plain Bob, Kent and Oxford Treble Bob, Double Court and Cambridge Surprise Minor.

RINGERS WEDDED.**MR. RUPERT RICHARDSON AND MISS A. PARKINS.**

The wedding of Mr. Rupert Richardson, of Sufleet and Miss Annie Parkins, of Woodston, Peterborough, took place at Woodston Church on Tuesday of last week. Mr. Richardson, who is well known throughout the Exercise, is a prominent member of the Lincoln Diocesan Guild, which he represents on the Central Council. Miss Parkins is also a well-known ringer, and the marriage has created the greatest interest throughout ringing circles. The Rev. H. Law James assisted at the ceremony, and gave an impressive address, the service being attended by a number of ringing friends of the happy pair.

NEW PEAL OF EIGHT IN CORNWALL.

St. Stephen's-by-Launceston is now in possession of a peal of eight bells, which were dedicated on Thursday, June 28th. Messrs. Taylor and Co. refound the six old bells, added two trebles, and have hung the octave on ball bearings in a frame constructed on the latest engineering principles. The bells, with a tenor of 16 cwt. in E, have been tuned on Messrs. Taylor's reinforced harmonic principle, doing away with harshness close to the tower, and giving the sound a greater carrying distance.

The Vicar, in the absence through indisposition of the Archdeacon of Bodmin, dedicated the bells, and the founders were represented at the ceremony by Mr. Pryce Taylor.

Subsequently there was a public luncheon in the Church Hall, presided over by the Mayor, who was accompanied by the town clerk and members of the Corporation.

The Mayor, who is a Nonconformist, proposed the toast of 'The Bishop and Clergy and the Ringers of St. Stephen's,' and in a broad-minded speech urged that the churches should minimise their differences and co-operate with all their sympathies in fighting the enemies of the church universal.

Canon Lewis (St. Neots) replied, and Canon Drews submitted the toast of 'The Mayor, his chaplain, and the members of the Town Council.'

'The Health of the Vicar' was also drunk, and testimony to Canon Drews's work in the parish and the universal affection, respect and love in which he was held was paid by the proposer.

Later there was a public tea, followed by evensong in the church, and afterwards the parishioners entered spiritedly into various amusements which concluded with a dance.

GRANDSIRE CATERS AT CHELMSFORD.*To the Editor.*

Sir,—In your report of a peal of Grandsire Caters at St. Mary's, Chelmsford (now the Cathedral), on Saturday, June 30th, this is called the 'first of Grandsire Caters on the bells.' The first peal of Grandsire Caters on the Chelmsford bells, to which I rang the 8th, was on May 21st, 1888, conducted by the late Mr. G. Newson. The next was conducted by Mr. J. W. Washbrook on Feb. 25th, 1889, in which I also took part, with the Revs. J. F. Hastings and F. E. Robinson; Mr. Arthur Edwards (then a member of our Writtle company) ringing the treble, and Mr. W. Lincoln the 9th. It will hardly be contended, I suppose, that since the church has become a Cathedral, and the bells have been increased to twelve, an entirely fresh belfry start has been made?—Yours faithfully,

T. L. PAPILLON,

Formerly Vicar of Writtle, Essex.

P.S.—May I congratulate Mr. Edwards upon this peal, in which no fewer than seven members rang their first of Grandsire Caters?

WINCHESTER DIOCESAN GUILD. THE PROPOSED DIVISION OF THE DIOCESE.

The ancient city of Winchester was on Saturday the meeting-place of members of the Diocesan Guild for their annual festival, and the event was memorable from the fact that the Bishop took a share in the proceedings. Something like eighty ringers were present, representing many towers in this widespread diocese, Surrey and Isle of Wight bellfries contributing their quota, as well as the Hampshire branches. The Cathedral, now in possession of a ring of twelve bells, was the centre of attraction to the visitors as they arrived, and many of the members had their first pull on this number. The business meeting was held in the Oddfellows' Hall, and was well attended. The Rev. C. E. Matthews (vice-president) occupied the chair, and was supported by Mr. G. Williams (Master) and the Rev. N. C. Woods (hon. secretary and treasurer).

The general balance sheet showed that the receipts amounted to £81 2s. 10d., and the expenditure to £45 18s. 2d., the balance in hand having increased from £33 0s. 3d. to £48 4s. 11d. The accounts had been audited by Mr. G. Smith, and were adopted.

THE PRESERVATION OF HISTORIC BELLS.

The Rev. C. E. Matthews was re-elected vice-president, and in thanking the members, said that was the 29th year he had been connected with the Guild, and it had been a great pleasure to him, ever since he had been in the diocese, to be associated with the members of the Guild. Referring to some of the work of the past year, he said he had had the honour of dedicating the new peal at Hursley, and he thought those who had heard them would agree that the bells were a very musical lot. He had also inspected the bells at Farnborough, and was going on the morrow to Sopley to confer with the Vicar upon restoration work, a serious crack having developed in the south-west corner of the tower owing to the condition of the bell frame. Continuing, the Vice-President said he was a member of the Advisory Committee for the diocese, and was giving special attention to any application in connection with church bells. He regarded the agreement reached between the Central Council and the Society for the Preservation of Ancient Buildings as a very important one. They had only to look at the Rev. W. E. Colchester's record of the bells of that county to be persuaded that the ancient bells should be protected and taken care of and not recast unless it was absolutely necessary. He was quite sure most of the members would agree with that. There had been a great inclination on the part of modern bell founders to recast old bells in order to make them more tuneful. In some cases that might be absolutely necessary, but it was a very wise recommendation that really historic bells that represented a period of bell founding of which specimens were rare, should not be recast at all, but kept either in a museum, or locally as objects of ecclesiastical art, and that new bells should be supplied to take the place of the old (hear, hear). He hoped the report of the conference would be read by all incumbents and churchwardens, who in many towers did not always realise the value of the bells they had got (applause).

Earlier in the proceedings the chairman had stated that the report of the conference had appeared, in a watered down condition, in the 'Canterbury Diocesan Chronicle,' and would appear in the 'Winchester Diocesan Chronicle' next month.

The Rev. C. D. P. Davies, one of the representatives of the Central Council at the conference with the S.P.A.B., said their great desire was to come to a united statement that they could both back, because the society looked at things from rather a different point of view to that of the Central Council. The whole object was to avoid anything like friction between them. It, therefore, followed that one could not say anything very decided either on the side of wood or metal frames, and they drew up a schedule of the advantages and disadvantages of each kind of material.

JOINT SECRETARIES ELECTED.

Mr. George Williams was re-elected Master. The Chairman said he had been unable to get the services of a person to fill the office of general secretary, and the committee recommended that Mr. George Williams and Mr. George Pullinger be elected to act jointly for the year.—This was unanimously agreed to, and the Rev. N. C. Woods, who had temporarily carried out the duties of hon. secretary and treasurer, was re-elected hon. treasurer.—Mr. F. W. Rogers (Portsea) was appointed Recorder of Peals, in place of Mr. Pullinger, and Mr. George Smith (Twyford) was re-elected auditor, with thanks for his services in the past year.

The following were elected to represent the Guild on the Central Council: Rev. C. E. Matthews, Messrs. G. Williams, A. H. Pulling and H. Barton.

DIOCESAN DIVISION.

The Chairman said the committee had that morning discussed at length the proposed division of the Diocese, and its effect upon the Guild, and the committee came to the conclusion that the best course to pursue was to hold a special meeting when the result of the deliberation in the National Assembly in the following week, was known. As the members were aware, the National Assembly would decide the matter one way or the other, and a Bill would then go

through Parliament to make the scheme legal. The committee thought it would be premature to discuss any question of the possible division of the Guild until they knew exactly what the division of the diocese was going to be. Personally he would be very sorry to see the Guild split up, but if the diocese should be divided into three, it was for ringers in each of the new dioceses to say what they would like. If the ringers in a new Guildford diocese were to wish to have a diocesan guild of their own, there would be nothing to stop them from having it. The same would be true of a new diocese of Portsmouth and the Isle of Wight, but the committee felt that no decision should be arrived at until the various districts had been sounded as to their wishes, and until they knew exactly what was going to happen. When they knew how matters stood they would call a meeting of the committee to go into the whole question.

Mr. W. Andrews (Winchester) said the ringers in Hampshire would very much regret losing any part of the present membership of the Guild. The visit of Surrey men was always looked forward to, and they would feel their loss very much. He hoped, if the diocese were divided, that it would be possible to carry on the Guild as it was at present. He thought a division would not make for efficiency, but rather the reverse, and he should personally very much regret it, if old associations were broken. The Gloucester and Bristol Diocesan Association had continued, in spite of the division of the diocese with very satisfactory results, and he saw no reason why their own Guild should be divided, even if the division of the diocese took place (applause).

Mr. J. J. Jones (Guildford) said Surrey members would feel a severance as much as, and probably more than, Hampshire members, because they would miss the grand old Cathedral and the hearty welcome they met in Winchester. But if they did form a separate Guild he was sure by far the greater portion of the present Surrey members would remain as 'compounding members' of the Winchester Guild, and would come to their meetings whenever possible (applause).

Mr. W. T. Tucker (North Stoneham) said Portsmouth district had passed a resolution that in the event of a division of the diocese they recommended that the Guild be called the Winchester, Guildford and Portsmouth Diocesan Guild, and continue the same as before with a different name (hear, hear).

The Chairman said he thought that would be the best solution. Mr. Whittington (Cranleigh) urged that the matter should be discussed at the district meetings, so that they might have some tangible scheme when the division did come.

The Chairman said the question was a most important one, and he hoped the members would go back to their different districts and discuss the question.

The matter then dropped.

OTHER MATTERS.

Mr. A. H. Pulling moved that the Guild record on the minutes a vote of congratulation to Mr. George Williams upon his having rung one thousand peals. He looked upon Mr. Williams as a great ringer, not simply because he had rung a thousand peals, but because, although he could ring anything, he did not mind ringing the lowest methods to help the less advanced ringers (applause). By doing this Mr. Williams had been doing a lot of good.—Mr. R. Brown seconded, and the motion was carried by acclamation.

Mr. J. J. Jones proposed that the next annual meeting be held at Farnham, whether the diocese had been divided or not. It would perhaps be the last meeting under the present Bishop.

The Rev. W. E. Colchester seconded. He said they would be transgressing the rule which laid it down that the annual meeting be held in Winchester, but as an exception, under special circumstances, he thought they might take this course.

The Chairman said it was a most charming idea, and the motion was agreed to, the first Saturday in July, 1924, being selected.

The Rev. W. E. Colchester explained the reason for his sudden resignation of the treasurer'ship during the year. He held it an unpleasant thing to do in the middle of the year, but the reason was that he had a letter from an official, telling him that a resolution, which had been passed by the Guild at its general meeting, had been absolutely negated by the action of certain members of the Guild. He felt that after that he could not act as an official of the Guild any longer. He wanted to make that explanation, but hoped nothing further would be said of the matter.

This concluded the business, and the members then attended the beautiful choral evensong in the Cathedral, being provided with seats in the choir. The Bishop of Winchester was the preacher, and based his address upon words of the 150th Psalm. He enlarged upon the connection between material and spiritual things, as illustrated by the bell, and exhorted his hearers not to neglect their duty of attending worship after they had rung the bells for service.

Tea was served in the Oddfellows' Hall, and the Bishop afterwards looked in, and expressed the great pleasure which it gave him to meet the members of the Guild. He added words of counsel and encouragement, and was interested to hear from the Rev. C. E. Matthews (who proposed a vote of thanks to his lordship), the attitude of the members relating to the division of the diocese, as shown in the annual meeting.

There was further ringing in the evening at the Cathedral.

CENTRAL NORTHANTS RINGERS IN BEDFORDSHIRE.

On Saturday, June 16th, the ringers of St. Peter's Church, Irthlingborough, with friends from Finedon and Wollaston (all ringers) held their first but very successful whole day's outing, visiting five churches in Bedfordshire.

A start was made from Irthlingborough at eight o'clock, and after a good run of about thirty-two miles, the first stop was made at Barton-in-the-Clay. The bells were pulled up, and a course of Kent Treble Bob rung. After a good touch of Double Norwich, a course of London Surprise was thought to be the first in the method on the bells. Mr. Kendall, a local ringer, took part in a short touch of Stedman Triples, and the bells were then lowered in peal. The Vicar very kindly provided light refreshments.

Luton was reached about 12 o'clock. Several of the local band welcomed us. Stedman and Double Norwich were rung on the fine peal of eight, but London Surprise wouldn't go at all, and after two attempts the bells were lowered. At Dunstable luncheon was served. Mr. A. Sharman, secretary of the Bedfordshire ringers, joined the party. Dunstable has a beautiful church, and contains a fine peal of eight bells, tenor weighing about 26 cwt., and those trying this bell thought it the best, considering the metal, that they had ever handled. At all five of the belfries there were several ringers to welcome and assist the company. Double Norwich, Kent Treble Bob and Superlative Surprise were rung. London Surprise unfortunately came to grief in the last lead. The Rev. Canon Baker was thanked for the use of the bells, and the ringers for their assistance.

A pleasant time was spent at Woburn with several local men. The church is a fine new building. The ring of eight bells were taken from the old tower and hung in the new one, after being recast, and are a very musical peal. Several methods were rung, including London and Cambridge Surprise. After tea, arranged by one or two of the local ringers, the handbells were brought into use.

Newport Pagnell was the next place. Half an hour's good ringing was enjoyed on the peal of eight, a well-struck course of Cambridge Surprise finishing a good day's ringing.

After a long stop at Olney, Irthlingborough was reached about 12 o'clock. All agreed that the first outing was a huge success.—Thanks were accorded to all the clergy for the use of their bells, the ringers who so kindly welcomed and assisted at the various towers, and Mr. A. Sharman for his great help with the splendid arrangements.

THE DISPUTED PEAL.

To the Editor.

Dear Sir.—Being one of the ringers in the peal of Bob Minor at Tilney All Saints I contradict the remarks made by Mr. W. Rose in his letter published in 'The Ringing World' of July 6th. I am not quite an infant in the art of ringing, and should know if a peal were false. The first 720 (9 bobs and 8 singles) was perfectly correct, as were also the following six (one with 22 singles and five with 18 bobs and 2 singles from the tenor).

Mr. Rose mentions they were called alike; therefore, if he says a bob was missed in the first, how was it he did not know the second was a different calling? The answer is that he knows very little about ringing. The tenor is 45 ins. (17 cwt. approximately in E flat). Mr. Rose is wrong in claiming it to be 22½ cwt.—Yours truly,
FRED C. WIGMORE.

Mr. Tony Price asks Mr. Rose to say what the calling of the first 720 was (or should have been), and say which bob was left out, so that it may be known what did happen. Bob Minor cannot come home at the 604th change, because the treble is striking her back-stroke in fifth's place at the 604th change. Mr. Price adds: Mr. Rose says they only repeated it six times. Doesn't that make seven? Tilney tenor was cast by Thomas Norris, of Stamford, in 1661, and is 45 5-8 in. in diameter, the note being E flat. I tremble when I think of the sound resulting from anybody striking a bell (?) 22½ cwt. in F sharp, as Mr. Rose says it is. I should be surprised if she weighs more than 17 cwt. Will some expert please tell us the approximate weight? There is a good draft of rope, but nothing like 75ft. Some new ropes they had were only 75ft. total length, and they have yards to spare. This is only the third peal on the bells, so nobody can say for certain what is the fastest they can be rung. In conclusion, everybody who heard the peal (except Mr. Rose) said it was quick ringing and good striking. Mr. W. Rose is a Tilney ringer, and your correspondent is not the W. Rose of Thornham Magna, in Suffolk.

We have also received a letter from 'Magna est veritas, et prævalebit,' dealing with the same points.—Ed. 'R.W.'

'Why are you a ringer?' This little booklet, written with the sole object of impressing on ringers the sacred part of the church work which they are called upon to perform is being widely inquired for. Copies are twopence halfpenny each, or twelve for 1s. 6d., including postage, and can be obtained from Mr. W. J. Southwood, 14, St. James' Road, Exeter.

BELFRY GOSSIP.

Mr. E. Alexander Young, the hon. secretary of the Central Council, has scored his first peal—Stedman Triples on handbells. Although he has been connected with ringing for many years, and keenly interested, Mr. Young has never been an ardent peal ringer, but he has now 'broken his duck's egg' in a worthy manner.

Mr. W. Prickett, formerly of Chepstow, has reached Durban, and has joined the ringing society there, to which he is a valuable addition.

Cannock bells have just been rehung and augmented to eight by Messrs. Taylor and Co. They are to be dedicated to-morrow, and on Saturday week there is to be an 'open' day for ringers. An announcement in our columns gives particulars.

Emiskillen Church tower, which contained a peal of eight, cast in 1841 by the Whitechapel Foundry, was destroyed by fire on Thursday of last week, and, according to the 'Dublin Evening Herald,' the bells were damaged by becoming red hot.

According to a correspondent this was not the only disaster in an Irish belfry, for on the same day a peal of Bob Royal was destroyed at Christ Church, Dublin, through the conductor singing 'As pants the hart for cooling streams,' instead of calling a bob.

We understand that the Chester Guild men intend making an attempt for the postponed long peal of Kent Treble Bob Major at Over, on July 21st.

The St. Mary Abbots, Kensington, Society, travelled to Winchester on Saturday for their annual outing, and their visit coincided with the annual festival of the Winchester Diocesan Guild.

The opening peal at St. Chad's, Shrewsbury, was rung by the College Youths on July 18th, 1798—just a century and a quarter ago.

Two well-known Guildford ringers made an early excursion last week in order to attend the wedding of Mr. Rupert Richardson and Miss Parkins at Peterborough. They rose at 2.30 a.m., and, making the journey by road, were in Peterborough before 9 a.m.

Mr. George Williams, Master of the Winchester Guild, who was in charge of the ringing at the annual festival at Winchester on Saturday, first rang at the Cathedral exactly fifty years ago.

A Ladies' Guild is in process of formation in Exeter. The organisation has been taken up by Mr. W. J. Southwood, the enthusiastic hon. secretary of the Exeter Branch of the Devon Guild. Already splendid support has been accorded the effort, and a most suitable tower, St. Petrock's, with its recently rehung light peal, has been placed at the disposal of the ladies for practice, while the Vicar promises to become the first president. We presume that later on, this band will become affiliated to the larger Ladies' Guild, which covers the whole country.

The ring of ten bells at Hanley Parish Church, which have been silent for some years, have been recast and rehung by Messrs. Gillett and Johnston. The old bells did not go well for some time before ringing upon them was stopped, and the tone was always poor. The new bells have been tuned on the five-tone principle, and hung in a new frame on ball bearings. As stated in our Notice columns they will be dedicated on Saturday week by the Bishop of Stafford.

Very useful 'pocket information' is issued by the Devon Guild. It sets out the objects of the Guild, and gives a list of the branch secretaries and the practice nights of all the towers affiliated, the object being to encourage inter-tower visits.

COLLEGE YOUTHS' CERTIFICATE.

ORIGINAL ENGRAVINGS NOW AVAILABLE.

Considerable attention has been given by a special committee towards the interesting position arising from the discovery of the great value attaching to their certificate, inasmuch as it is a verified work of the famous Italian engraver, Bartolozzi. Arising from this is the important fact that for a long period of years the certificates have been produced by photolithography, and have thus lost much of the grand beauty of the original.

At a recent meeting of the society various prints in different shades of colour, including the well-known Bartolozzi tint, were shown, each having been taken direct from the plate itself. These, especially when contrasted with the lithograph prints, were the subject of the highest commendation, and the members present expressed not only delight, but considerable astonishment that such beauty and such a treasure should have remained practically dormant for so many years.

It was felt that an opportunity should be given to all members to obtain original engravings and the plate having been carefully renovated by one of the most expert engravers in England, and steel-faced for the production of these works of art, new certificates may be obtained by existing members on application to the hon. secretary with an enclosed postal order for 2s. 6d.

Entries on old certificates should be supplied when ordering, also whether a 'Black and white,' or 'lined' is required. New members will be supplied with an ordinary print unless otherwise stated when the above amount must be charged.

The Saffron Walden Tercentenary.

ESSEX TOWN'S GREAT FESTIVAL.

PUBLIC DINNER AND RECEPTION.

There was a notable gathering of ringers at Saffron Walden for the Tercentenary of the local society, which was celebrated on June 27th, as already briefly reported in our columns. The Saffron Walden Society has an authentic history throughout these three hundred years, for on June 27th, 1623, they were left a legacy by Thomas Turner, a merchant of the town, in gratitude for a deliverance from danger. He had lost his way in the woods at Audley End (doubtless a terrifying experience in those days), and was saved from his desperate plight by the bells of Saffron Walden, whose sounds guided him to his home. He bequeathed a yearly sum to the ringers with the stipulation that on that date each year they should ring the bells of the parish church, and have a sermon preached to them. He also left a suitable sum to the minister who preached the sermon, and to the church clerk who opened the church.

That was three centuries ago, and regularly ever since the annual 'ringing day' has been observed.

In order that the tercentenary might be fittingly commemorated a local committee was formed to collect subscriptions and make the necessary arrangements for entertaining the local ringers and their visitors, the committee consisting of Dr. J. P. Atkinson (chairman), Mrs. Hughes, Miss Clayden, Messrs. J. S. W. Leverett and H. Trigg (churchwardens), F. Pitstow (Master of the ringers), J. F. Penning (hon. treasurer), and R. A. Strong (hon. secretary). The local ringers taking part in the festival were Messrs. F. Pitstow (Master), E. Pitstow, F. J. Pitstow, A. E. Pitstow, H. N. Pitstow, L. Pitstow, F. Dench, J. F. Penning, A. Evenett, A. Coe, A. F. James, W. Parish, C. Freeman and R. A. Strong. Among the visitors were Dr. L. Taylor (Clapton), Miss Shorter (Cambridge), Messrs. W. Pilman (Canterbury Cathedral), W. Lawrence (Little Munden), A. E. Austin (Great Shelford), H. Tucker and H. Dew (Bishop's Stortford), W. J. Hazell, Green, Hibbins and T. R. Dennis (Cambridge), J. Waaghorn (East Ham), T. Prior (King's Lynn), Rivers (Drayton), Beach (Woodford Green), A. Prior (London, E.), G. Dent (Harlow), G. H. Elliott (Sudbury), W. J. Nerard (Great Bentley), W. Prior, T. Jordan (Stansted), T. Fitzjohn (Grimsby), Oldacre (Great Chesterford), W. H. Fussell (Slough), Chalk (Maldon), Buttress (Fulbourn), King (Royston), H. Sworder (Epping, late of Johannesburg), Saddler (Baintree), C. H. Howard (Baintree, Master of the Essex Association), G. H. Hills (Waltham Abbey), Richardson (Brockley), etc.

The bells were rung throughout the day in a number of touches, including Stedman and Grandsire Cinques and Gaters and Superlative, Cambridge and London Surprise Major.

A festival service was held in the Parish Church at noon, the congregation numbering about 250. A full choir attended, and the singing was very heartily rendered by all present. The service was conducted by the Vicar (the Rev. Dr. L. Hughes), assisted by the Rev. A. J. Gillson and the special preacher was the Rev. A. H. F. Boughey, Fellow of Trinity College, Cambridge. The opening hymn, 'We love the place, O God,' was sung as a processional, and the service included the chanting of the 150th Psalm, special prayers, the reading of a lesson from Numbers c. 10, and the hymn, 'Angel voices, ever singing.'

THE GOSPEL OF SYMPATHY.

The Rev. A. H. F. Boughey took for his text the words 'Rejoice with them that do rejoice, and weep with them that weep,' Romans xii. 15.

He said that in those peaceful and beautiful words St. Paul had preached the gospel of sympathy, a sympathy manifested in acts and not merely in talk. The gospel of sympathy had a wider power and greater need than perhaps many realised. It applied to everything. They had met that day to do honour to the Saffron Walden Ringing Society for the useful and splendid work it had done for three centuries. There could be no association of men like this without sympathy, both to start and maintain it. Men would not join together and form an association unless they had fellow-feeling and were ready one and all to give up their own individual way for the sake of joining with others, taking their point of view, and having true and real sympathy; and no association could be maintained for long unless that sympathy and fellow-feeling existed. Whilst this was needed in all associations it had a special fitness for a guild or society which had to do with bells. Bells themselves conveyed to them the gospel of sympathy. No one knew the date great bells first began in their churches to give out their beautiful music and lift up men's hearts to God; but they knew they were the product of Christianity. For change ringing they had to go back 300 years, to the founding of this society at Saffron Walden. They wondered what England was like in 1623, when Thomas Turner died and left his legacy to the ringers here. Change ringing had

hardly come into existence then, and he expected all that the members of their society could do at that time was to ring out some score, or two dozen, changes; but it was the dawn of scientific change ringing. Five years after the founding of this society came the birth of one who was destined to give the first and greatest impulse to change ringing, Fabian Stedman, the father of scientific change ringing. During the 300 years which had passed since then enormous and wonderful progress had been made, marvellous feats had been performed, and better still, beautiful music in change ringing had been produced. The year 1623 came between two very important periods in the history of England. The English Bible had been translated into the authorised version, bringing the gospel of peace just before that date, and soon after came the beginning of the most dreadful civil war England had ever known. There was no doubt that when peace came after that horrible war the bells rang out the gospel of sympathy and love. Let the message of the bells always be the gospel of sympathy and love, rejoicing with those that rejoiced, and sharing the sorrow of those that wept.

The service concluded with the hymns, 'When morning gilds the skies' and 'Now thank we all our God,' the latter being sung as a recessional.

MR. FRED PITSTOW'S JUBILEE.

At one o'clock the local ringers and their visiting friends, to the number of 70, were given a dinner in the Parish Room, subscribed for by the townspeople in honour of the event. Dr. Atkinson, chairman of the committee, presided, supported by the Vicar, also the Rev. A. J. Gillson, the Rev. A. H. F. Boughey, the Mayor, Messrs. J. S. W. Leverett and H. Trigg (churchwardens), Mr. F. Pitstow (Master), Dr. L. Taylor, etc. The gathering was a very pleasant one, the greetings of old ringing friends who had not met for years giving a decidedly happy touch to the proceedings.

The usual loyal toast having been submitted from the chair and duly honoured.

The Chairman read a telegram from Mrs. Edward Taylor, as follows: 'Best wishes and congratulations to Saffron Walden Bell Ringers on their Tercentenary Festival' (applause). Mrs. Taylor, they would remember, was the widow of Mr. Edward Taylor, a former Master of Ringers, and mother of Dr. Leonard Taylor, whom they welcomed amongst them again that day (applause). Mr. W. A. Alps had also written saying how much he regretted being unable to come.

The Vicar, in proposing the toast of the Saffron Walden Society of Change Ringers, said he was proud to be there that day to welcome so many guests on behalf of the authorities of the Church, and still more to propose the toast of the Saffron Walden Society of Ringers. Saffron Walden was proud of its old associations and records. That day they were celebrating the ringers' tercentenary, and shortly they would be celebrating the quincenary of Saffron Walden School. They were also celebrating on this occasion the fiftieth year of Mr. Pitstow's conductorship of the ringers (applause). Mr. Pitstow had already seen six vicars out. He had taken their 'middle-stump,' for they could not stand up to his bowling and he expected to see his own wicket fall before Mr. Pitstow's time was up. On one occasion Mr. Pitstow had a class of lady ringers, and he said they disappeared because they got married, but his (the Vicar's) own theory was that the ladies disappeared because their conductor got married (laughter). His only fear was that with regard to their ringers they would not be able to live up to the splendid traditions they had inherited, and he would feel more comfortable if he saw a number of young men coming on to continue the traditions of bell ringing in Saffron Walden before Mr. Pitstow took his 'middle-stump.' He expressed to the ringers his hearty thanks for their work, and would like to thank their worthy Mayor for all the trouble he had taken in connection with the tercentenary (applause). Dr. Atkinson had been chairman of the committee, and it was good news when he was told that the Mayor had consented to join the committee, and would give a reception in the Town Hall. He felt when that was the case and they secured Mr. Boughey as their preacher that the tercentenary could not fail to be a success. He gave them the toast of the Saffron Walden Guild of Ringers, and coupled with it the name of Mr. Pitstow (applause).

The toast was accorded musical honours. Mr. F. Pitstow, in reply, expressed his thanks to the Vicar and all who had assisted in making the festival such a success. He was pleased to see so many old friends whom he had known as ringers for many years. So far as the Saffron Walden company was concerned he thought it a body of ringers their Vicar might be proud of, and as a company he believed they could hold their own against any company, certainly in any town of the size of this in England. He agreed with the Vicar in his remarks about getting more young

ringers, but as Mr. Boughey and other old ringers knew, they could not get them 'cast' (laughter). They got lads on to a certain extent, and then they either went away from the town or some little thing 'fixed' them, and they would not come any more. They had one or two young ringers, and he hoped to get some more, so that their company would continue to carry on. For 65 years he had been a member, and several younger members of his family also belonged to the company, so he hoped they would continue the work. He thanked Dr. Atkinson, Mr. Strong and Mr. Penning for the way they had worked in organising their festival, and the ladies and gentlemen of the town who had contributed towards the cost, and, above all, their worthy Mayor for what he was doing for them (applause).

Mr. J. F. Penning, who said he had been a member of the Saffron Walden Society for fifty years, proposed the toast of 'The Visitors.' To his mind, he said, the chief event was to see so many old faces around them, which showed that Saffron Walden was still thought a little of in the ringing world.—Mr. H. J. Tucker, who first attended the festival 45 years ago, and had only missed three occasions since, Mr. W. E. Pitman, and the Rev. A. H. F. Boughey responded.

MAYORAL RECEPTION.

Later in the afternoon the Mayor and Mayoress (Mr. and Mrs. Miller) gave a public reception in the Town Hall. A number of the townspeople, including the wives of the local ringers, were invited to meet the visitors, the company numbering about 200. The hall had been tastefully decorated and furnished for the reception, and the names of the guests were announced by the Sergeant-at-Arms and the Mace Bearer, wearing their quaint and picturesque uniforms. The Mayor and Mayoress were assisted in making the arrangements for the reception by their daughter (Miss Miller), and by Miss Leverett, Miss Gilling and Miss Rolfe. Afternoon tea was served, and songs were contributed by Mr. and Mrs. J. A. S. Baily, Mrs. Kett, Miss Guy, Dr. Atkinson and Mr. T. A. Barrett, and handbell selections by Messrs. F. J., A. E., H. and L. Pitstow.

The Mayor, in the name of the Corporation and burgesses of the town, extended a hearty welcome to the ringers, their wives and friends, and the visitors who had come to support them on that unique occasion. The Saffron Walden Society claimed to be the oldest in England, and no one had come forward to dispute that claim. Saffron Walden in years gone by had not been behind in many things. They moved slowly, but surely. Three hundred years ago their forefathers might have been slow, but they laid the foundations of something which had stood the test of time: and to-day they were justly proud of their traditions. It was said that all the Pitstows were born with a bell rope in one hand and a musical instrument in the other (laughter). He congratulated the ringers on their proud record, and hoped they and their visiting friends would live to come again and enjoy many hours with the bells of their beautiful church (applause).

The Master thanked the Mayor and Mayoress for the welcome and hospitality given them, and said the ringers had never had such a festival and reception before.

Mr. W. H. Fussell (Slough) endorsed Mr. Pitstow's remarks, and said it was very gracious on the part of the Mayor and Mayoress, seeing they were not church people, to have given them such a reception. It showed how broadminded the Mayor was in all the affairs of the town (applause).

Ringing was afterwards again indulged in, and brought an enjoyable day to a close.

DEPTFORD RINGER WEDDED.

The marriage took place at St. Nicholas' Parish Church, Deptford, on June 24th, of Mr. Sydney Ernest Daynes, second son of Mr. G. H. Daynes (churchwarden of St. Nicholas) and Mrs. Daynes, of 66, Ashburnham Grove, Greenwich, and Miss Nellie Pattenden, youngest daughter of the late Captain and Mrs. K. Pattenden, of 'Duluth,' Whitstable, the Vicar (the Rev. T. W. Pitman) officiating. The service was fully choral. The bride was given away by her brother, Mr. Edward F. Pattenden, B.Sc., and was attended by Miss Grace Daynes (sister of the bridegroom). Mr. William H. Daynes was 'best man.' The bridegroom and his father and brother being members of the St. Nicholas' Bellingers' Society, the bells were rung before and after the service by their brother members. The reception was held at the residence of the bridegroom's parents, and Mr. and Mrs. Daynes afterwards left for Whitstable.

NEW BELLS FOR ELTHAM, KENT.

The bells at Eltham, Kent, are to be recast and augmented. Put in originally in the 15th century, they have been recast from time to time, and the present six were placed in the tower in 1794. Three were now cracked and it has been decided to recast the whole, and, with additional metal, make them into a peal of eight. At the same time a new clock is to be installed with automatic electric winding and an electric striking apparatus. The work, which is expected to cost over £1,000, is to be entrusted to Messrs. Gillett and Johnston.

OLDHAM BELLS.

'NO PARTING OF THE WAYS.'

The reopening of Oldham bells, as briefly reported in our last issue, was a great success, and all the visitors were delighted with the splendid peal of bells which Messrs. Taylor and Co. have installed. In tone they are one of the finest rings of twelve in the country, while the 'go' is perfection, indeed, turning upon ball bearings, the bells went too easily for some of the ringers, who had previously had no experience of this form of bell hanging. Touches of Grand sire and Stedman Cinques and Caters and Kent Treble Bob Maximus were rung by numerous hands, ringers being present from Sheffield, Manchester, Huddersfield, Preston, Chester, Ashton-under-Lyne, Wakefield, and other places.

The visitors and others were entertained to tea by the Oldham ringers, to whom a vote of thanks was proposed by Alderman Houghton (chairman of the Bell Fund Committee). He said the day would figure very largely in the history of the new bells, and he was sure it would do so in the minds of the ringers. He was merely voicing the opinion of practically the whole of the inhabitants when he said they were all heartily glad that they had surmounted the difficulties which had presented themselves, and that they had a splendid peal of bells as their reward. He hoped that as far as ringers were concerned there would be no parting of the ways. Musical people were prone to fall out. He supposed that was in consequence of their being highly strung (laughter). Bell ringers were probably not immune from the rest of the musical community. That was why he asked them to see that there was no parting of the ways, but that all should pull together in harmony (hear, hear). They must remember that all the brains were not in one head, and different men looked at things from different points of view. Each must try to get the other's point of view and if the methods were pure to shake hands over differences. If that spirit was adopted the bells would go on ringing merrily. He was glad to be with them and to give them the assurance that if his help was needed in the future it would readily be given (applause). A peal of bells such as they had gave tone to the town. Bards might come and go, but they failed to thrill the hearts and minds of the people as a peal of bells. It was not to one set or one section, but to the whole community that the bells made their appeal, and he would go so far as to say that they struck a soft cord in the heart of the listener, even if he would be a sceptic or an agnostic. They were justly proud of their bells, and indebted to the ringers for their services. He paid a high tribute to the work of that committee, and particularly to the work of Mr. J. Cox, the ringers' secretary, who had been untiring in his efforts.

Dr. Martland, who seconded the vote, endorsed Alderman Houghton's remarks, and hoped that all who subscribed would be satisfied with the bells. Visitors had expressed to him their great admiration of the peal, and he was glad they had such a good set of ringers.

Mr. Taylor (representing the bell founders) said the committee had asked them to do their best, and they had done so, and he was glad the result was satisfactory.

Mr. Taylor (architect), Dr. Wilson, the Rev. R. R. Mackintosh (Vicar of Shaw), ringers from Manchester and Preston also spoke, the two latter speaking in high praise of the bells, and the vote was carried with acclamation.

Mr. J. Cox, who replied for the Oldham ringers, said it was his jubilee year in connection with the Oldham Church and Sunday School, and that was one of the proudest moments in his life.

FLORAL NAMES IN A MATHEMATICAL SCIENCE. CONFIRMING AN ABSURD NOMENCLATURE.

For Sunday services, at Norbury (Hazel Grove), Cheshire, on June 3rd, 1923, the extent each of No. 16 and 17 Treble Bob was rung. For practice on June 7th, the extent of No. 20, June 21st No. 21, June 28th No. 22 July 5th No. 24. For Sunday services, July 8th, No. 27 and 28. All the above are Treble Bob methods, and appear in the C.C. Collection except Nos. 27 and 28.

It is believed the extents have never previously been rung, and the band wish them to be known by the names they bear in the report of the committee of the Central Council which was published in 'The Ringing World,' March 30th, 1923.

The following ringers took part: Rev. A. T. Beeston James Fernley, senr., James Fernley, junr., William Fernley, John P. Fidler, John W. Hartley, Harold Hallworth, Harry Langley and W. W. Wolstencroft.

No. 16 is Shamrock, No. 17 Bluebell, No. 20 Daffodil, No. 21 Fuchsia, No. 22 Foxglove, No. 24 Marigold, No. 27 Dahlia, No. 28 Geranium.

By confirming this absurd type of name for scientific methods, the Norbury band, who have done so much to raise the standard of six-bell ringing, have we are convinced, taken a retrograde step, for nothing is more likely to bring the art under ridicule than the use of terms of this description. They sound pretty in nursery stories, but in a serious science they are altogether out of place. The next namer of methods may prefer vegetable culture to floriculture and we suppose the Exercise would have to accept such names as Onion Delight or Beetroot Surprise if they were foisted upon them in the way these titles have been.

THE BISHOP AND BELL RINGING.

The Bishop of Bath and Wells, in his charge recently delivered, spoke generally of the care and loving pride of the clergy and laity in the preservation of the churches of the diocese, and added that it was good, too, to find enthusiasm in the villages for the bells, and gratitude was due to those who maintained the fine old English art of ringing with all its demands on time, skill and endurance. The ringers were the Lord's remembrancers, and played no small part in the worship of God.

DISPUTED PEALS.

Those who desire to dispute the validity of a peal have to be very sure of their ground. There have been one or two recent instances in which performances have been brought into question, but in which the doubt has not, in the end, been substantiated. When a band publishes the report of a peal it does so, by an unwritten law, upon its honour, and any reflection upon a peal performance is a reflection upon the honour of the ringers, or, at all events, upon the conductor. For that reason especially no one should lightly assert that a peal claimed to have been rung was a false peal. When the assertion is made, he who casts the doubt should be able to prove his case up to the hilt, or, failing this, should honourably withdraw his statements.

It is, of course, possible, under certain circumstances, for a genuine disagreement to occur with regard to the bona fides of a peal, for ringers may have differing opinions as to the amount of clashing or the number of errors that may be allowed before a peal is disqualified. The best ringers permit very little latitude in this direction, but there are, unfortunately, a few who, so long as they can keep the bells more or less together, will claim anything as a peal provided rounds come up in the appointed place. Between these two extremes are many degrees of perfection and imperfection, and what ought, or ought not, to be admitted as a peal, is left to the honesty of those taking part. After all, peals are rung principally for the gratification of the ringers themselves, and quality—by which we mean good ringing, whether the method be Grandsire Triples or London Surprise—not quantity, should be the aim, for what satisfaction can there be to look back upon a badly rung peal? Quite certain it is that a number of indifferent performances are recorded as peals, but on the question of the striking, it is for the band to say whether or not a peal claim should be made.

When, however, it is a question of the truth or otherwise of a performance, there can be no question. A performance which, by any chance, falls short of the stipulated five thousand, in which there has been a repetition of changes, or a shift in the coursing of the bells, is rigidly ruled out, and it is flagrant dishonesty to claim it as a peal. It is, therefore, a serious reflection, especially upon a conductor, to say that he has published as a peal a performance which has been 'cooked.' We make these remarks without any special reference to the peal at Tilney All Saints, although it is the correspondence on this matter that has prompted us to put forward these views. Ringing history can furnish numerous instances of bitter controversy over the legitimacy of peals, but

short of having an official umpire for every attempt, the Exercise must accept the word of the ringers, unless there are exceptional grounds for dispute. And then those who challenge a peal must be able to prove their case. Mere assertions without proof recoil upon the heads of those who make them.

DEVON GUILD.

BIG MEETING AT EXETER.

The quarterly meeting of the Exeter branch of the Guild of Devon-shire Ringers was held at St. Thomas', Exeter, on Saturday, July 7th. A service was held in the Parish Church, conducted by the Vicar (the Rev. H. G. Chalk). Tea was subsequently held in the Buller Hall, provided by a few friends in the parish, about 100 members being present, representing the following bands: St. Sidwell's, St. Davids', St. Thomas's, Heavitree, Clyst St. George, Christow, Honiton Clyst, Keun, Littleham, Topsham, Wilycombe, Sow-ton, Newton St. Cyres, Thorverton.

The business meeting followed, Mr. E. Shepherd being in the chair, while among those present were Mr. W. J. Southwood, hon. secretary and treasurer; Mr. J. C. Oke, assistant secretary; the Rev. H. G. Chalk, the Rev. H. B. Clarke, the Rev. J. B. Ball, and Mr. Walter King. The following were elected honorary members: Sir Robert Newman, Bart., M.P., the Revs. E. C. Burkill, E. A. Jullian, G. O. Apthorpe, Messrs. E. S. Plummer, A. C. Thomas, W. W. Westlake, A. C. Harbottle, L. H. Westaway, J. I. Pengelly, R. G. Purnell and Walker King. Twenty-two performing members and one life member were also admitted.

It was decided to hold the next meeting at Littleham (Exmouth), on Saturday, Sept. 29th.

Mr. E. Shepherd made an appeal for more members to take up 'The Ringing World,' pointing out the importance of the paper to the Exercise.

Mr. W. J. Southwood announced that an Exeter and District Ladies' Guild had been formed, and temporary officers elected.

Mr. E. Shepherd proposed that a hearty vote of thanks be accorded to the Vicar for conducting the service, and for the excellent address, which was much enjoyed, and also to Mr. Western for presiding at the organ.—The donors of the tea were also accorded a hearty vote of thanks, on the motion of Mr. Southwood.

The bells of the Cathedral, St. Davids', St. Sidwell's, St. Petrock's, St. Thomas's, and Heavitree, were rung by the various bands during the afternoon and evening.

A SERVICE RINGER'S CENTURY.

CLERK-SERGEANT BENNETT'S ACHIEVEMENT.

The peal of Stedman Triples rung at Swanscombe, Kent, on Saturday, June 16th, for 'the Society of Royal Cumberland Youths,' and published in our issue of June 22nd, was the 100th in which Clr.-Sgt. J. Bennett, of the Royal Marines, has taken part.

Clr.-Sgt. Bennett has been in the service just over 18 years, and is, we believe, the first ringer to complete a first 100 peals whilst serving with the Forces. There are others serving, or who have served, who have rung more, Flight-Sergt. Fred Holden, for instance, has rung over 250, and 'tops' the list of active service ringers, but he rang 63 peals before he enlisted.

Owing to the exigencies of the service, Clr.-Sergt. Bennett had practically 'to turn down' ringing for the first five or six years, and then, of course, there were over five years of war, etc., during which time he had no opportunity, while there have been several other periods when it has been almost impossible for him to do any peal ringing, so that it has taken him from the 10th April 1912, to 16th June, 1923, to complete his first century.

The following is his list: Minor: In one method, rung 2 (conducted 1); two methods, 1 (1); three methods 4 (1); four methods, 2 (1); five methods, 2 (2); six methods, 1 (1); seven methods, 9 (2); Grandsire Triples, 6; Stedman Triples, 13; Bob Major, 8 (3); Kent Treble Bob Major, 14 (3); Oxford Treble Bob Major, 6; Double Norwich Court Bob Major, 17; Superlative Surprise Major, 2; Cambridge Surprise Major, 4; Grandsire Caters, 1; Stedman Caters, 4; Bob Royal, 1; Kent Treble Bob Royal, 3; total, 100 (conducted 15).

The peals of Bob Major include the first peal ever rung by a navy and army band of ringers. Rung in four counties, for five associations, in forty-eight towers, from ninety-one bells, and with 198 ringers.

RESTORATION OF BENENDEN BELLS.

The peal of eight at Benenden, Kent, will be in ringing order again in about three months' time. Mr. A. Bowell's estimate has been accepted, and the whole of the money is available. Viscount Rothermere gave £50, and that veteran and active ringer, Mr. W. H. Lambert, with the assistance of a few others, collected £30 by hand-bell ringing. A fête was held recently, and proved to be a great success, the profits being nearly £200. Mr. Lambert and his son gave selections on handbells, and Mr. and Mrs. H. Baker of Pritfield, kindly lent their fine peal of handbells. The sum at the command of the committee exceeds the estimate, and the surplus is to be devoted to other useful church purposes.

RINGERS' OUTINGS.**BRAINTREE RINGERS VISIT CAMBRIDGE.**

On Saturday, July 7th, the St. Michael's Guild of Ringers, accompanied by their wives and friends, had their annual outing. Starting at 8.45 a.m. by charabanc, they called at Radwinter, Saffron Walden, and Sawston, ringing touches at each tower. Luncheon and tea were served at the Dorothy Cafe, Cambridge. After lunch the members dispersed, some to visit the colleges, others for ringing at the Roman Catholic Church and the Anglican Church of Great St. Andrew, assisted by Messrs. Dennis, Rivers and Kempton. The homeward journey was made via Bishop's Stortford and Dunmow, Braintree being reached at 9.45 p.m., and the total mileage covered being over 80 miles. After lunch, a vote of thanks was proposed by Mr. W. H. Dyson, seconded by Mr. H. E. Hammond, to Mr. C. H. Howard, J.P., the Ringing Master, for making all the arrangements of a very enjoyable outing. The touches rung during the day included Double Norwich, Stedman and Grandsire Triples and Treble Bob Major. The Guild wish, through the medium of 'The Ringing World,' to express their appreciation to all the incumbents and steeplekeepers, and for placing the bells at their disposal.

BRISTOL RINGERS BY THE THAMES.

The annual outing of the St. Michael's (City), Bristol, was held on Saturday, June 30th, when an excursion by rail and river to Windsor and Bray-on-Thames was enjoyed. The Castle was visited at Windsor, and the united ringers of St. Michael's, Bray, and St. Michael's, Bristol, by kind permission of the Vicar of Bray, had tea on the vicarage lawn, and enjoyed a good view of the regatta which was taking place that day. The secretary (Miss E. Smith) was presented by the Rector (the Rev. W. G. Arrowsmith) with a very beautiful prayer and hymn book given her by her fellow ringers.—Touches were rung on the tower bells during the evening, and tunes on handbells on the lawn, and the outing was voted a great success.

ISLEWORTH RINGERS' OUTING.

The Isleworth band, together with their wives and friends, and including their respected vice-president, Mr. T. Beadle, held their outing on Saturday, June 30th. Boyne Hill was reached at 10 a.m., and ringing indulged in for an hour. From thence the party visited Twyford and Sonning, and would also have rung at Wargrave, but unfortunately a funeral made this impossible. From Sonning they proceeded to Henley, where a most sumptuous meat tea awaited them. Afterwards a pull on the bank and a lovely view of the Thames Valley from the top of the tower were enjoyed. Slough was reached at 7.45, where the day's ringing was concluded. This opportunity is taken of thanking the various Vicars and Rectors for so kindly allowing the use of the bells, and also to the steeplekeepers for having everything in readiness.

ST. CLEMENT YOUTHS.

This society had a pleasant re-union and excursion on Saturday, June 30th, when, meeting outside St. Clement's Church in the Strand, the party of about 25, which included the Rector (Mr. W. H. Pennington Bickford) and his wife, proceeded by charabanc to Windsor. Arrangements had been made for ringing at the old church, and also after tea, and on the return journey at Farnham Royal, all three items being much enjoyed, as was also a visit to the State apartments of the Castle by a few of the party. In addition to Mrs. Bickford, the party was graced by the presence of Mesdames Young, Fardon, Sergisson, Davis and Clements, and of five other ladies not saddled with wifely cares, but more or less intent on the art of ringing in which they show great promise. The afternoon and evening went all too soon, and at 10 p.m. when the party were again at St. Clement's, after a most enjoyable outing.

A TRIP IN CHESHIRE.

Middleton ringers and friends visited a number of Cheshire towers for their annual outing. The first call was at Bowden, where Grandsire Treble Bob and Plain Bob were rung. The party had tea at Nantwich, followed by ringing on the recently restored bells in the Parish Church. Going on to Tarporley they spent a pleasant time, and returned to Northwich, where the bells are rung in reverse order. The ringers wish to thank the clergy for the use of their respective bells and the members of the various towers for having everything in readiness. Especially do they wish to thank Mr. W. Hardman for making such perfect arrangements for a most enjoyable day.

BISHOPWEARMOUTH RINGERS' OUTING.

On Wednesday, June 27th, the choir and bell ringers of Bishopwearmouth Church had their annual excursion, and visited Harrogate, Bolton Abbey and Ilkley. The party, numbering 22, including eight ringers, travelled by saloon carriage, and reached Harrogate at 10.34 a.m. After a meal they proceeded by charabanc to Bolton Abbey, where they inspected the ruins of the ancient abbey, one

portion of which is now used as the parish church. The younger members of the party had a game of cricket, while the remainder enjoyed the beautiful wild scenery at the Strid, about three miles from the Abbey. The party then rejoined their charabanc, and proceeded to Ilkley, where, by the kind permission of the Vicar (Canon Hamar), the ringers had the use of the bells of the Parish Church, which added much to the enjoyment of the outing. On returning to Harrogate, a much appreciated meal was partaken of and the remainder of the evening was spent in admiring the beauties of the valley gardens, etc. Sunderland was safely reached at 11.47 p.m., after a very enjoyable day.—A hearty vote of thanks was passed to the Rector and churchwardens for providing the trip, and the Vicar of the Parish Church, Ilkley, is heartily thanked for so kindly granting the use of the bells.

IN LEAFY WARWICKSHIRE.

The Nuneaton parish church ringers spent a pleasant half-day in South-East Warwickshire, on June 30th. Leaving at 1 o'clock they first visited Daventry, 25 miles away, where they were met by Mr. Moore, and touches of Stedman Triples, Double Norwich and Cambridge Surprise rung on the bell of the parish church. The tenor is about 20 cwt., but the bells are hung backward. Southam, 11 miles distant, was reached through fine wooded country, and after an excellent meat tea at 'The Black Dog,' Mr. Berry was ready with a hearty welcome at the parish church. Here there is a good ring of bells, with a 17 cwt. tenor, but the ringing chamber is very small. Stedman Triples, followed by London and Superlative Surprise, Cambridge Court Bob Major, and Grandsire Triples, in which the local ringers took part, were rung. The 23 miles' journey home completed a splendid circular tour through leafy Warwickshire. The best thanks of the party are due to Mr. Moore, of Daventry, and Mr. Berry, of Southam, for their kindness.

NORTH SHIELDS EXCURSION.

The ringers of Christ Church, North Shields, had their outing on June 28th, when they visited Blackhill and Consett, two towers separated by a pleasant park. Ringing was enjoyed in both belfries, and tea partaken of at the Railway Hotel, Consett. The visitors are grateful to Messrs. Sinclair and Wilkinson for making arrangements, and to the respective incumbents for the use of the bells.

STAFFORDSHIRE RINGERS IN CHESHIRE.

On Saturday, June 30th, the Bucknall and Burslem ringers joined forces, to the number of twenty, and paid a visit to the famous 'splicing' area of Norbury.

En route a call was made at Poynton, where, met by Mr. J. P. Fidler, the visitors rang a touch of London Surprise on the beautifully toned bells. At Norbury a splendid tea was provided for the party by the wives of the Norbury ringers, after which Mr. Fernley and his band gave the ringers a most enjoyable coaching in the art of splicing methods which they are not likely to forget. A social at the Red Lion Hotel terminated a very happy and interesting outing.—Thanks are extended to the Norbury ringers for their kindness, and Mr. J. P. Fidler in particular, for personally seeing to all arrangements for the comfort of the visitors.

WORCESTERSHIRE ASSOCIATION.

The quarterly meeting of the Northern branch was held at Oldswinford on Saturday, June 30th, when about 30 members and friends attended. The service was conducted by the Rector (the Rev. H. H. Williams), assisted by the curate (the Rev. W. J. North). The Rector gave a short but interesting address to the ringers on making themselves worthy of their calling. Tea was provided in the Parish Room. The Rector presided over the business meeting which followed. Mr. G. N. Cockin gave an invitation to the association to visit Hales Owen for the annual meeting of the branch, and on the proposition of Mr. Short, seconded by Mr. Heathcock, and supported by Mr. H. Mason, the invitation was cordially accepted, the meeting to take place on September 15th.—The Rector and his colleague were elected hon. members of the association.

The Ringing Master (Mr. W. B. Cartwright) proposed a very hearty vote of thanks to the Rector for the use of the bells, and the very bright service and address, also to the organist and choir. This having been seconded by Mr. A. E. Parsons, and carried, the Rector replied. He remarked that his first connection with bells happened while serving with the troops in Palestine when, for use of his services, a friend presented him with a set of tubular bells, which were admired by all the people for miles around.

NEW ZEALAND RINGER IN QUARTER-PEAL.

At Iffracombe on Tuesday, July 3rd, members of the Devon Guild rang at the Parish Church a quarter-peal of Grandsire Triples (1,263 changes): F. J. Reed 1, W. Hookway (New Zealand) 2, J. Sprague 3, C. W. Filer 4, W. Phillips (Newport, Mon.) 5, W. Shepherd (Hersham, Surrey) conductor, 6, F. Blackmore 7, R. Dadds 8. First quarter-peal and first attempt by Messrs. Hookway, Filer and Blackmore.

RINGERS' ROLL OF HONOUR.

To the Editor.

Dear Sir,—I wish to make an appeal, through your columns, to the Exercise at large for help in compiling this roll.

Below will be seen two lists of names which I have denoted A and B.

In list A, certain names are grouped together which bear a similarity to each other.

I want to know how many persons are described in each group, and, if only one, which place or tower out of two or three has the right to claim that one. To take an instance: Were there two ringers of the name of 'Attwater, E.' killed? If there was only one, should he be described as coming from Streatham or Cuckfield?

In list B, there are certain names given as belonging to Guilds or Associations, but the place or tower is left blank. I want if possible to be able to fill up this blank space.

Secretaries of Guilds and Associations have done their best in the matter, and I now appeal to the friends of these fallen ringers to send me such information—as some of them surely must have—as will enable me to come to a decision in each case.—Yours truly,

CYRIL W. O. JENKYN,

Hon. Librarian, Central Council.

Broadlands, Caversham, Reading.

THE LADIES' GUILD.

The Midland District held a meeting at Evesham on Saturday, July 7th. Members from Solihull, Smethwick, Handsworth and friends from Walsall and Birmingham, journeyed from Birmingham to the fine old bell tower, where they were met by the local ringers and other members of the Guild.

The Rev. W. A. Huband conducted the service. Tea was provided by Miss E. Johnson and Mr. J. Johnson, and was most thoroughly enjoyed by a party of about 30.

At the business meeting after tea, five new ringing members were elected, and a hearty vote of thanks was accorded to Miss Johnson and her brother, who both said how pleased they were to entertain the visitors, and expressed the hope that this would not be the last visit of the Guild to Evesham.

In spite of the heat wave, a very enjoyable time was spent.

The previous meeting of the district was held at Lye, Worcestershire, where it is to be found the lightest peal hung for ringing.

Tea was provided by the Vicar (Canon Stuart King) and the churchwarden.

The spiral stairs were rather a problem to some of the ladies, especially to one who made several attempts merely to see how to get down again. Eventually she got to the top, and helped to make the little peal of eight go merrily.

ESSEX ASSOCIATION.

A by-meeting of the South-Western Division was held at Orsett on June 30th, attended by members from Barking, Bentley, Brentwood, Romford, Dagenham, Stamford-le-Hope and Leytonstone. Touches in methods from Plain Bob to London Surprise Minor were brought round. Tea was kindly provided by Mrs. A. Keeling at Vine Cottage, and thoroughly enjoyed.—The Vicar (the Rev. J. Eidell) officiated at the service, in which the Bishop of Barking also took part, and gave a most interesting and helpful address.

The members would like to convey, through 'The Ringing World,' their best thanks to all who assisted to make this meeting a success, especially the genial steeplekeeper, Mr. A. Neeling, for making arrangements, and having everything ready.

The Northern Division held their summer meeting at Felsted on Saturday, June 30th. A service was held in the Parish Church, the Rev. E. J. Doherty, Vicar, officiating, an inspiring address on 'The message of the bells' being given by the Rev. H. Jordan, Vicar of Finchingfield, who is a ringer and ardent supporter of the association. An excellent tea in the old Schoolroom was followed by the meeting. The District Master, Mr. W. H. Dyson (Braintree), presided, supported by Messrs. W. T. Farrow, R. C. Goodman, C. H. Howard, J.P. (Master of the Association), A. H. Shoobridge (an old Felstedian), and 30 members from Stebbing, Dunmow, Rayne, Finchingfield, Braintree, and Felsted. Several new members were elected.

It was decided to hold the next meeting at Witham, and the annual meeting at Braintree.

Thanks were accorded the Vicar and preacher, and those who provided tea.

Touches of Double Norwich Court Bob Major, Treble Bob Major, Bob Major, Stedman and Grandsire Triples were rung upon the bells during the afternoon and evening. Felsted now possesses an enthusiastic band of change ringers.

GRANDSIRE CATERS AT CHELMSFORD.

To the Editor.

Sir,—In answer to Canon Papillon, I was quite aware when I sent the report for publication, that at least four peals of Grandsire Caters had been rung on the old peal of ten at Chelmsford having taken part in two of them myself, viz., May 30th, 1903, and again on Sept. 3rd, 1905. Are the bells now hanging in Chelmsford Cathedral tower the same as those on which Canon Papillon and I rang our respective peals years ago?—Yours truly,
H. W. KIRTON.

LAVENHAM ANNIVERSARY.

On Saturday, June 30th, the 112th anniversary of Lavenham bells was celebrated, and the event drew a large number of ringers to this interesting old Essex town. The Suffolk ringers present were Messrs. E. Ambrose, H. Richold (Long Melford), H. Lister, K. Whittell (Bildoston), A. Catterwell, F. Kemp, P. Johnson (Caveudish), T. Reed (Hadleigh), J. King (Polstead), W. Burges (Shelley), B. Brundle, J. Rose, C. Woodcock (Ipswich). Those hailing from Essex included A. Shuffebotham and W. Sadler (Braintree), E. Beckwith, W. Howell, C. Norfolk (Coggeshall), J. Waghorn (East Ham), W. Arnold, F. Claydon, J. Fluely, J. Turner, S. Warn (Earls Colne), R. E. Fisher, G. Hayward, W. Keeble, W. Kuopp, G. Mays, J. E. Newman, R. Porter, C. Rogers (Feering), J. Elliott, W. Elliott (Kelvedon), H. Warn (Fordham Heath, Colchester), A. Saunders (Greenstead), J. Sadler (Great Tey), W. Ives (Pentlow), W. Cross, B. Pettitt (Sible Hedingham), and F. G. Symonds (London), C. W. R. Grimwood (Footing). The methods rung were Grandsire and Stedman Triples, Bob Major, Double Norwich and Kent Treble Bob Major, Superlative, Cambridge and London Surprise, the conductors being W. Keeble, J. Rose, R. Grimwood, F. Claydon and S. H. Symonds. A most enjoyable day was spent.

BINGHAM BELLS.

A meeting of the Nottingham District of the M.C.A. took place recently at Bingham to test the newly augmented ring of eight. Fifty or more ringers assembled from all parts, at the invitation of the Rector (the Rev. H. R. M. Hutt), and the visitors were entertained to tea in the Rectory Grounds. The business meeting was held afterwards under the presidency of Mr. A. Coppock. A very valuable acquisition to the fold of hon. membership of the M.C.A. was the name of the Rector, who was delighted to welcome such an organisation.

The work has been carried out by Messrs. Mears and Stainbank, and the Rev. H. R. M. Hutt is to be congratulated upon his successful effort in getting the octave. The parishioners, who number barely 2,000, responded nobly to his appeal, and the Rector himself provided the 2nd bell. The tower is a massive structure, which would accommodate twelve bells. The church contains some ancient carving in a splendid state of preservation, dating back to the thirteenth century.

The visitors thoroughly enjoyed ringing on the augmented peal, the touches including Stedman, Plain, Treble Bob and Surprise Methods.

BELFRY GOSSIP.

The people of Vancouver evidently appreciate the bells on public occasions, for just prior to President Harding's visit, the Press, in typical Western manner, was demanding that the bells should play their part on the auspicious occasion.

'Change Ringing Championship' was the heading under which one London daily newspaper announced the unveiling of a peal tablet at Southwark Cathedral, on Tuesday, commemorating the record peal of Stedman Cinques.

Mr. A. Bowell has recently executed repairs to the peal of eight at Rolvenden, Kent. The tenor needed much attention, and has been rehung with all modern fittings. New bearings, gudgeons, stays, pulley blocks, nearly all new wheels, etc., constituted the chief part of the work to the remaining seven, and the peal is now in first-class ringing condition. The bells have been examined and tested by members of the Kent County Association. They were perfectly satisfied that the work had been efficiently executed, and the 'go' of the bells was all that could be desired.

It is seldom that the funds collected for bell restoration exceed the amount required, but this happy circumstance has occurred at Benenden Kent, where an overhaul is to take place. The balance is to be devoted to other church purposes.

Mrs. R. J. Wilkins, of Bristol, was, on Saturday, elected President of the Ladies' Guild for the ensuing year.

It is said that even the Guild meeting could not pass off without a discussion on hats.

The first peal by a band of ladies was rung eleven years ago today. May we not soon expect the first peal by a band of married ladies? There are more than sufficient for the purpose, if they can tear themselves away from their domestic duties.

The ringer of treble in peal at Whittle on July 7th should read 'Alfred,' not Adam Blogg.

A tidy belfry or a well-kept ringing chamber is not always found in our country towers, and especially in Devon, writes a correspondent. Not only are there few seats, or even hat pegs, but the floor is rarely swept, windows and walls are dirty, ringing rooms ill-ventilated or often draughty, and appear too often more like a tool house than a respectable meeting room for a band of men. If we would induce young and especially an intelligent grade of fellows to take up our art, we should gain much by pleasing surroundings.

St. Sidwell's (Exeter) peal of 10 has just been restored at a cost of over £200, and the opportunity was taken to colour the walls and ceiling, frame up old relics, renovate peal boards, add more seats and linoleum, at a cost of £22, and now it gives a homely appearance to all who ring—especially the many visitors who remark upon its tidy appearance.

TEXT BOOK ON SURPRISE METHODS.

To the Editor.

Sir,—It is well known that the late Brothers Snowden intended to compile a book on the Surprise Methods of Cambridge, Superlative and London, but through death, the Exercise was robbed of a valuable addition to the Snowden series. I submit that a text book on Surprise methods is badly needed at the present time. The six-bell ringers are well catered for both in 'Standard Methods' and the C.C. Collection, but when we come to eight and ten bells, the case is totally different. Take such methods as Norfolk, Bristol, Northampton, Suffolk, Lancashire, Yorkshire, and Guildford, etc.; and on ten bells, Princess Mary, Clifton, Middlesex, and no doubt there are several others. Assuming that all these methods are worth ringing, one is forced to the conclusion that the information concerning them is in a very few hands. Supposing our band wished to practise one of these methods, it would mean that the leader would have to write to Mr. X for the figures. Then he would have to draft skeleton courses for his band, or get them each to do their own, and even then it is not everyone who can put ringing information into plain language. The question now arises, who would write such a book as I have indicated? I do not think it is a job for the Central Council to tackle, but I do think there is a golden opportunity for some capable member of the Exercise, and there is no doubt we have such men. Probably some ringers will belittle this suggestion and say, 'Where there's a will there's a way,' etc.; also, finance would be a stumbling-block. But if such a book were produced it would be a valuable one, and we could not grumble at the price, whether it was 7s. 6d. or 10s. The convenience of having a book embracing all the Surprise methods on 8, 10 and 12 bells would be inestimable, and a crowning triumph to the Snowden books, which have taught thousands of ringers the art of change ringing. — Yours faithfully,
'LANCASTRIAN.'

TEN-BELL TOWERS.

ST. ANDREW'S, NORWICH.

(By J. R. JERRAM.)

With regard to the early history of the bells at St. Andrew's, Norwich, we find that there were six at the time of the Inventory, taken in the sixth year of Edward VI.; also a 'sants bel of half a cwt.'

In Kirkpatrick's MS., taken from church accounts, and copied by Mr. L'Estrange, and published by him in his 'Church Bells of Norfolk' in 1874, we find the weights of the bells and names of the donors, when they were 'new yotten,' in 1567. From this it appears the 'lytle belle' was given by the executors of Mr. John Cooke Draper, and weighed 7 cwt. The second, given by the same, weighed

ST. ANDREW'S, NORWICH.

7 cwt. 1 qr. 21 lb. The third (present sixth) was not broken, and weighed 9 cwt. 3 qr. 23 lb. The fourth was recast at the cost of the parish, and weighed 12 cwt. 2 qr. 23 lb. The fifth was given by Mr. Robert Gardener and Mr. Nicholas Cowbyche, and weighed 15 cwt. 3 qr. 26 lb. The tenor was bought of the Prior of Black Friars at the dissolution of the monastery, and then (1538) she weighed 25 cwt. 12 lbs. She 'brack & was yotten agayne & made moche bigger' in 1567, and then weighed 26 cwt. 3 qr. 7 lb. The inscription on the original bell was, 'Laudo Deum verum, plebem voco, convococo clerum, defunctos ploro, pestem fugo, festa decoro.' The new bell cast in 1566 was inscribed, 'Campana ista facta erat. Sancta quidem non sum, sanctos conservor in usus.' The last part was evidently intended as a fling at the Romanists.

The old fourth bell was recast by Wm. Brend in 1608,

and was inscribed, 'Blessed be the Lord our God both now and evermore.' She weighed 13 cwt. 3 qr. 12 lb. He was paid £4 for the recasting. The fifth was also recast by him in 1621, for which he was paid £5 10s. This bell is the present tenor. We have already noticed the old tenor, and we find further that—

At the making of the new frames for the bells which was in anno 1633, the sixth and greatest Bell was taken down and new yotten to be made tuneable to the rest of the 5 bells and wayghed 26 cwt. or ther about, which being new cast by Will. Brend Belfounder and of 21 c. weight, it proved to little and upon the 16th day of April, 1634, was new cast againe by him made bigger and wayghed then 24 cwt. and 11 lb., butt then proving somewhat too big to accord with the rest of the bells and otherwise defective in the casting it was first skivred and then afterward some part of the head, viz., the upper part of the mayne Connell brake of, by wch skivring and breaking off thirty six pounds of the weight of merral was taken away, and then it wayed 24 c. 2 qr. 3 lb., unto which was added when it was cast again the third time 7 lb. of pewter being 18 Decem, 1635, by John Brend, and now it wayes according to our own weight being wayghed in Christmas Hollidays 1635 here at our church 23 c. 1 qr. 10 lb., and there remayne in Mottall wch was sold to John Brend 1 c. 1 qr. for £4 12. The said great Bell hath these Latin verses written about it, made by Mr. John Chappell our Minister.

'Horas enumero; Conventus aggrego sacros.
Casibus humanis accino, condoleo.'

When the peal was increased to eight in 1705, this tenor was cast into two trebles, leaving the old fifth for a tenor. The present eighth bell was originally the tenor at St. John, Timberhill, and was purchased of the churchwardens of that church after the fall of the tower in 1784, to replace a cracked bell at St. Andrew's. She weighs 8 cwt. 1 qr. 21 lb., and cost £29 10s. 7 3/4d. The trebles of the present peal of ten were given by Thomas Hurry, bell hanger, of Norwich.

In inscription: on the present peal of ten are as follows:—

- Treble. T. MEARS OF LONDON FECIT, 1825.
 - Second. T. MEARS OF LONDON FECIT, 1825.
 - Third. HENRY PLEASANT MADE ME, 1705.
 - Fourth. THO. NEWMAN MADE ME, 1713.
 - Fifth. JOHN DRAPER MADE ME, 1634.
 - Sixth. Anno Domini, 1623.
 - Seventh. MICHAEL DARBIE MADE ME, 1661.
 - Eighth. Per Me Fideles Invocantur Ad Preces. Anno Domini, 1617.
 - Ninth. THO. NEWMAN MADE ME, 1713.
 - Tenor. LET VS TEWNE AND SOVND TOGETHER
INGLANDS SWETE PEACE FOR EVER, 1621.

The position of the ropes in St. Andrew's belfry is rather peculiar. The frame made for six bells in 1633 was an octagonal one; two bells being hung in the two middle pits, and the other four on the four sides thereof. When the peal was made eight in 1705 the two trebles were hoisted in a frame above in the centre. The additional trebles added in 1825 to make ten were hoisted in frames above these, forming a kind of pyramid. The result is, if I am not mistaken, that the ropes fall in the following order: 1, 3, 2, 7, 10, 5, 4, 6, 9, 8. If I am wrong in my description I hope that some local ringer will correct me.

The following tables are in the belfry:—

The splendid Church of Andrew's, Norwich, prior to the year 1825, had only a peal of 8 bells, at which time Mr. Thos. Hurry, one of St. Peter's ringers, presented to it two new trebles cast by Mears and Son, of Whitechapel; and the ten were rung for the first time on 19th July, in the above year. On which occasion Mr. Sam. Thurston (by trade a stonemason) made a tablet and placed it on the north wall of the belfry. On May 5th, 1842, here was rung Mr. John Reeve's one-course peal, consisting of 5,040 changes of TREBLE BOB ROYAL, in three hours and twenty-seven minutes, called by Henry Hubbard. It was in the KENT Variation, and has the 6th 24 times each way; it was rung by the following persons:—

T. HURRY	Treble	J. TRUMAN	Sixth
R. BURRELL	Second	R. COLE	Seventh
J. GREENWOOD	Third	T. BURRELL	Eighth
G. WATERING	Fourth	G. SMITH	Ninth
W. GAUL	Fifth	H. HUBBARD	Tenor

The above is the first peal on the ten bells.

Another tablet commemorates the following:—
On 15th of Sept., 1842, was rung in this steeple a peal of CATERS on STEDMAN'S principle, consisting of 5,295 changes, in three hours and twenty-nine minutes. This also was called by Henry Hubbard, and rung in capital style by the following band, stationed thus:—

T. HURRY	Treble	J. TRUMAN	Sixth
R. BURRELL	Second	G. SMITH	Seventh
J. GREENWOOD	Third	R. COLE	Eighth
C. MIDDLETON	Fourth	H. HUBBARD	Ninth
W. GAUL	Fifth	W. FREEMAN	Tenor

It should also be added that the first peal of London Surprise Major was rung at this church in 1835, conducted by Samuel Thurston. The peal tablet commemorating it is at St. Giles' tower, Norwich.

We are indebted to Mr. G. H. Cross for the photograph of the tower, which he took specially for this article.

TROUBLESOME LITTLE QUESTIONS.

To the Editor.

Dear Sir,—Just recently there seem to have cropped up lots of little questions which want settling, such as, for instance:—

- What is a 'local' peal?
- What is the first peal in a method on the bells?
- What's in a name?

And sundry other minor matters, to say nothing of those greater subjects (still a source of difference, even between friends) which I dare not mention—for various reasons.

The Central Council will not meet again for nearly a year, and in the meantime these lesser topics will be left simmering unless someone—perfectly unbiassed of course—sets about the task of laying down the law. Therefore, as I am a perfectly disinterested person (in proof whereof I have never rung a peal in Leicester or Chelmsford, and I have never rung in the first 700 of a new method)—here goes.

The difficulty that confronts me, however, is the knowledge that always in these matters you can never get both sides to agree, and the individual who butts in (we know the old saying about fools and angels) usually 'gets it in the neck.' But nevertheless—here goes.

This sounds rather like a nervous bather standing on the bank of a chilly stream trying to screw up courage enough to take the plunge! You can almost hear my teeth chattering. But, believe me, I am really almost as bold as those doughty fighters, 'Peppery' and 'W.W.'

That peal at Leicester has created quite a pother, and it is time we had some definition of a 'local' peal, but it would be better still if we dropped the use of the term altogether. It is just one of those words which may mean any old thing. To prove this let me air my Latin (culled from an inexpensive dictionary). 'Local' is derived from 'locus,' meaning 'a place'—no relation to 'locusta,' a lobster. Now a place may be of unlimited size, and need not necessarily be 'within the meaning of the Act'; it may be as large as a parish, as large as Leicester, or as large as Leicestershire. So where are we? Every correspondent who has written to 'The Ringing World' upon this subject may be right. My dictionary tells me that 'local' means 'confined to a spot, place, or definite district.' Therefore, it seems as if a 'local' band may come from anywhere as long as they prescribe the definite district from which they come. But as I have already said, I do not expect anyone to agree with me, and I suggest that this would be a nice little topic for the Council to deal with. It would probably provide them with a subject of discussion for years.

Then, what about the first peal of Grandsire Caters on the bells at Chelmsford Cathedral? I fancy I can see the peg on which the band that rang the peal on June 30th hang their claim. Since Canon Papillon rang his peal at the Essex county town, the bells have been 'new cast.' Now when a ring of bells go into the melting pot and get poured out into some new moulds, are they new bells, or what are they? The more you ponder on it the more you begin to wonder whether a recast peal is a new peal. When a lady remakes a hat, is it a new hat? She likes her friends to think it is, but is it? When the old metal goes into the furnace and comes out again it is still the same metal but we like our friends to think we have got a new peal of bells. But have we?

What's in a name! My pet poet wrote, 'A rose by any other name would smell as sweet,' but there is a saying, 'Give a dog a bad name and hang him.' A method remains the same method whatever you call it, but some names are bad enough to kill it, although it must be admitted that some extraordinary titles have survived—our dear old friend 'Grandsire' for instance. I often wonder where that name was dug up, and who were the sponsors? What fun has been poked at the Exercise by outsiders when they have had

occasion to refer to it! We all know the gibe of 'Grandfather's Triplets.' Now we are apparently to give them (the public, not the triplets) the opportunity of casting more ridicule upon us, if they wish.

The horticulturist who went round his garden, and, seeing a geranium, promptly selected the name for No. 28 of the Treble Bob methods, or, spotting a marigold, bethought him to apply it to No. 24, may have imagined he had an inspiration. But to think that a whole committee should have swallowed such rubbish almost passes belief; while the fact that they should elect to take up an attitude of 'do as we tell you or we throw up the job,' is really astounding. In my opinion anybody who acts like that has got a bad case. Now that one of the committee has helped to get these methods rung under the flowery titles, ringers may expect to hear little of them in the future, unless, mayhap, other ringers with other notions take upon themselves to call them by more rational titles. And, after all, what is to prevent them? In fact, I am inclined to be a rebel myself, get my own band to ring 720 in some of these methods call them by other names, and see what happens. I wonder whether we should merely be excommunicated, or whether there would be something with boiling oil in it?

I do not suppose, after all, that I have settled to anyone's satisfaction the irritating little questions with which I began this letter. Perhaps I may have irritated rather than pacified; and that I may dodge the bricks, I must remain, yours truly, CRITICUS.

SURPRISE PEALS IN LEICESTER.

To the Editor.

Dear Sir,—'Keep Smiling' tells us that in the peal quoted by Mr. Willson, a ringer from a church other than St. John's assisted. Mr. Willson also tells us that seven of the band lived well inside the boundary; the 8th, of course, lived outside. Well, well, you cannot have the tenors together and parted at the same time.

On looking up the Surprise peals arranged by the secretary of St. Martin's since the war, I find that there have been about 80 successes, representing over 80 per cent. of attempts; also that Mr. Willson is correct in saying that in every one, one or more ringers from elsewhere assisted. What, however, struck me as more remarkable was the number of those who assisted in them who had 'stars' to their name, denoting their first Surprise peal, or their first peal in the method. Verily this does tell its own story.—Yours truly, F. H. DEXTER.

P.S.—The only Surprise peal to date by all residents of Leicester was rung at South Wigston in 1913, and conducted by the late G. H. Fowler.

Dear Sir,—In reply to your correspondent F. H. D., I think he is quite aware of the identity of the writer he refers to in his letter. He says that if the ringers do not live within the city boundary they are not local, or Leicester ringers! Why then, publish the peal of Bristol at South Wigston as 'rung by a band of Leicester ringers'? The foregoing peal has the same disqualification as the peal under discussion, which was based on the assumption that if the ringer was a Leicester man in that case, he could also be one in the other. Apparently then it was a misconception when I made the first statement in connection with the peal. In future, perhaps, there will be more truth in 'their' footnotes to peals.

'Locumitis' says that 'local' means all residing in one parish! Yet F. H. D. makes it cover the whole town area. Also he states that to the best of his knowledge there has been no peal of Surprise rung by a Leicester band (his statement covers the peal at Wigston). He must have overlooked the peal of Bristol, which is very unlikely if he is interested in Leicester doings.—Yours very truly, E. R. WHITEHEAD.

Dear Sir,—Having read Mr. Willson's latest communication, I still hold to the opinion that a man is local only to the place where domiciled, and that no amount of argument can make him otherwise. His remark re peals rung outside the city is entirely beside the point at issue. Having mentioned them, however, I beg leave again to point him in error. After making such careful investigations how came he to miss the peal rung at South Wigston on Oct. 11th, 1913, the first and only peal rung by an undisputable band of Leicester locals? KEEP SMILING.

This correspondence is now closed.—Ed. 'R.W.'

MEMORIAL TO MR. J. THACKRAY.

Campanologists of Armley and Bramley met in the belfry at Christ Church, Armley, on Sunday, July 1st, to take part in the unveiling ceremony of a memorial to the late Mr. John Thackray, who for 50 years (1872-1922) was a bell ringer in the above tower. The memorial (which was given by a brother ringer) was unveiled by the Rev. F. Nichols, who was supported by the two churchwardens.

Rung at St. Saviour's Cathedral, Southwark, on Whit Monday, May 21st, 1923, in 9 hours 47 minutes by the Ancient Society of College Youths, conducted by H. Langdon.

SUFFOLK GUILD.

A meeting of the Lavenham District of the Suffolk Guild was held at Great and Little Waldingfield, members attending from six parishes as follow:—A. Symonds (district secretary), S. H. Symonds, W. R. and F. A. Poulson and F. Turner (Lavenham), E. Ambrose, T. Chenery and H. Richold (Melford), H. Catterwell, P. Johnson and F. Kemp (Cavendish), A. Scott (Sudbury), D. Gridley, (Clare), G. Golding and S. Gooday (Great Waldingfield). At Little Waldingfield 120's of Plain, Stedman and Old Doubles were rung, and the party then proceeded to Great Waldingfield, where Oxford Bob, Single Court, Double Court, College Single, Plain Bob, Kent and Oxford Treble Bob were rung, the conductors being S. H. Symonds and J. Poulson. It is a great pity that the frame in this tower, holding an historical peal of bells, cast by H. Briant, of Hertford, is in such a bad state, making ringing almost impossible.

KENT TREBLE BOB MAJOR RECORD.

An attempt for a record peal of Kent Treble Bob Major will be made by members of the Chester Diocesan Guild at Over, Cheshire, on Saturday, July 21st, commencing at 8.30 a.m., provided that the church is not required for any occasional service at present unforeseen.

A NEW DEPARTURE IN SOMERSET.

The Bath and Wells Diocesan Association has much to congratulate itself upon in the progress revealed at the annual meeting. The extension of the art in the South-Western counties of England has always been a laborious task, and ringing in Somerset was especially badly hit by the war, a loss of individual members—the common experience of all ringing organisations—being accompanied by a serious falling off in the number of affiliated towers. The wastages of the war are, however, now being made up, and not the least gratifying part of last year's work was the rejoining of no fewer than thirteen towers, in addition to the bringing in of two new ones. This is eloquent testimony to the zeal which has been displayed in rebuilding the association, and, with the acquisition of numerical strength, further progress in the technical side of ringing may be confidently looked forward to.

In the management of its finances, the association has introduced a principle which others might copy. In addition to the yearly contribution which has to be paid by members, a modest annual affiliation fee for each tower is charged, and it is urged that this fee should be paid by the church authorities. With the growing recognition of ringers as part of the church organisation, this method of affiliation, apart from the financial assistance which it gives, has much to commend it. It is a binding link between a parish and the central diocesan body, it emphasises the association's connection with the Church far more than does the individual subscription of a ringer, and it maintains, whatever the size of a band may be, a full and equal recognition of all towers.

It is hardly to be expected that the ringers should be asked to provide this affiliation fee. In a considerable number of cases the annual subscription is as much as the ringer can afford, but a five-shilling or ten-shilling fee from the Parochial Council is not an extravagant demand to make, even upon a poor parish. The difficulty arises in levying a new charge of this description, and a parsimonious Council might possibly hesitate before dipping into its pocket for the purpose. Proper representations, however, would go far to remove the opposition, which would possibly be found greatest in those parishes where the role of the ringer is placed on a lower level than that of other church workers. It is very largely to emphasise the ringers' position in the church that we say that such a scheme of affiliation is a desirable one. To many associations, with difficulties in making ends meet, this new source of revenue should be a very welcome one, and we imagine the example set by Bath and Wells is likely, in course of time, to be copied by many other ringing organisations covering diocesan or county areas.

THE LATE MR. ARTHUR T. KING.**UNVEILING OF MEMORIAL TABLET.**

The memorial to the late President of the Middlesex County Association and London Diocesan Guild (Mr. Arthur T. King, I.S.O.) was unveiled on Saturday, July 14th, at St. John the Baptist's Church, Barnet. The service, conducted by the Rector (the Rev. Canon Manning), which was fully choral, was a most impressive one, and was attended by a large number of members of the Association, including Messrs. E. A. Milne and T. Beadle (vice-presidents), W. Pye (Master), G. B. Lucas (District Master), C. T. Coles (hon. secretary), W. J. Kemp (assistant hon. secretary), C. Martin, J. Wagborn, B. Foskett, I. G. Shade, G. R. Pye, W. Pickworth, J. E. Miller, H. A. Barnett, and many others of the older members who had known the late President for a considerable period. There were also present Messrs. P. L. and W. King (sons), and several Barnet friends of the late Mr. King.

The service opened with a processional hymn, 'How blessed, from the bonds of sin,' which was followed by Psalm xv. The lessons were read by Mr. F. A. Milne (Diocesan lay reader). The Magnificat also was sung. After the 3rd collect, the clergy and choir proceeded to the font, close to which the memorial had been erected. Mr. Milne then unveiled and dedicated the tablet with these words:—

'In the name of the Father and of the Son and of the Holy Ghost. Amen. In the Faith of Jesus Christ, we dedicate this tablet to the Glory of God and in pious memory of His Servant, Arthur Thomas King, sometime Diocesan lay reader, President of the Middlesex Association, and member of the Guild of Bell Ringers in this Church.'

AN APPRECIATION.

Mr. Milne then addressed the congregation as follows: 'Fellow members of the Middlesex County Association and London Diocesan Guild of Change Ringers, in the unavoidable absence of our president it has fallen to my lot to unveil the tablet we have erected in memory of our late revered president, Arthur Thomas King. I could have wished that Mr. Bonsey had been here to perform the ceremony, but he has told me that in any event he would have preferred that I should do so, as I had for so many years and in so many ways been associated with Mr. King—and, like him, am an Old Wykehamist. At the annual meeting of the association, held in April last year, in speaking of Mr. King, I said that he was a man upon whose word you could absolutely rely, and in whose judgment you could implicitly trust; a man who never in my experience said an unkind word or did an unkind action. I do not think it would be possible to give a better appreciation of his character; and I am convinced that every word I said was true. What a tower of strength he has been to the association you all know. When he first became a member things were at a very low ebb; and it was entirely owing to his tact and infinite patience that the two wings of the association, N. and E. and S. and W., were brought together, and that the association rose to a position second to none in the United Kingdom. And it is peculiarly appropriate that a memorial to him should have been erected in this church, for during the whole of the 20 years or more that he was resident in Barnet he was a lay reader in the parish, and few who had the privilege of hearing him will forget the impressive way in which he read the lessons. May he rest in peace, and may we all be inspired by his example to follow in his steps.'

The choir then sang the hymn, 'Ring out, wild bells,' and returned to their stalls. After the Rector had said prayers, the hymn, 'For all the Saints,' was sung, and the service was concluded with the Benediction and Recessional hymn, 'Through the night of doubt and sorrow.'

The memorial tablet is of white Sicilian marble, mounted on a white marble background, the dimensions of the latter being 2ft. 4ins. by 1ft. 10ins. The inscription, which is cut and painted Venetian red, reads as follows:—

'In gratitude to God for the life and work of Arthur Thomas King, I.S.O., loyal disciple of the Lord Jesus Christ and devout Churchman, the members of the Middlesex County Association and London Diocesan Guild of Change Ringers have placed this tablet in memory of his example and devotion, and of his service to the art of bell ringing.'

Great satisfaction was expressed at the neatness of the work and at the way it had been carried out generally. Prior to the service the bells were rung with half-muffled clappers, the 'service touch' being a well-struck course of Bristol Surprise Major. After the service the bells were rung, open, whilst the bells at Hadley were also available, and members made full use of them.

MEMORIAL PEAL TABLET.

At St. Matthew's Church, Upper Clapton, on Thursday, July 19th, a tablet recording a half-muffled peal of Stedman Triples rung on the day of the funeral of the late Mr. King was unveiled and dedicated, the ceremony in this instance being performed by the President of the Association (the Rev. F. R. Bonsey).

The Vicar, who was unfortunately absent, was represented by his curate (the Rev. R. J. Goodwin), and the churchwardens also were present.

(Continued on page 470.)

BATH & WELLS DIOCESAN ASSOCIATION.**A SATISFACTORY YEAR: THIRTEEN TOWERS REJOIN.**

The annual meeting of the Bath and Wells Diocesan Association was held at Yeovil, when the following towers were represented: Wells, Bath Abbey, Bridgwater, Ilminster, Trull, Martock, Taunton St. James', Clapton-in-Gordano, Midsomer Norton, Bishop's Hull, and Templecombe, whilst visitors from towers in other dioceses who were heartily welcomed included Messrs. T. Hervey Beams and C. H. Jennings (Salisbury Guild), Braven and Gregory (Bristol), J. W. Jones and C. Greedy (Newport), S. Hillier (Devizes), J. A. Wilson (Wootton Bassett), F. Stuckey and G. Belts (Devon Guild). The local arrangements were made by Mr. Jno. Goodchild (steward), and Mr. J. E. Baker (secretary and conductor of the Parish Church Guild). Before the meeting touches of Grandshire Caters were rung on the bells of the Parish Church, and in the evening touches of various methods, including Grandshire Caters, Stedman Caters, Grandshire Triples, and Bob Royal. The Ringing Master appointed for the day was Mr. J. E. Baker, secretary of the Yeovil Parish Church company. The visitors were loud in their praises of this very fine peal of ten, the tenor of which weighs 45 cwt.

The business meeting was held in the vestry of the Parish Church, under the presidency of the Master (the Rev. Claud C. Parker, of Corston Rectory, Bristol), who was supported by the hon. secretary and treasurer (Mr. E. R. Burgess, of Taunton). The Master's report stated that, perhaps, the most important event of the year was the addition of two bells to St. Mary's tower, Taunton, making a ring of twelve—the only one in the Diocese. The addition had been made with such skill that, with improved methods, it had been conclusively shown the strain on the tower was less than when there were only ten bells. Those who had been the moving spirits in carrying out that work were to be heartily congratulated on the success of their efforts, and on the beautiful peal of which they were now the proud possessors. He thought the example of Taunton showed that an increased number of bells need not in any way endanger the stability of a tower, and where expert opinion was first sought and careful attention was paid to the character of the frame, as in that case, and, so far as he knew, as had been done in the great majority of cases, ringers need have no hesitation in promoting an improvement of the kind. He thought it was a great satisfaction to all to find that their Bishop took a keen interest in the welfare of the Association, and had spoken such kindly words about ringers and their work in the charge made on the occasion of his first visitation.

AN ANNUAL AFFILIATION FEE.

Continuing, the Master said he was again going to press upon them the importance of securing the annual affiliation fee from the church funds of each parish where the tower was attached to the Association. If once established throughout the Diocese it should bring in a sum of about £20, and would be of a permanent nature. They did not ask for a collection, but for the very small sum of 5s., and surely the benefit of the Association to any parish was worth that. Every band of ringers should make a point of seeing that this matter was brought prominently before the incumbent, churchwardens, and Church Council of their own parish. He had had the privilege of being present at a meeting of the Ladies' Guild of Ringers, and the question arose as to headgear for ladies while ringing. He felt himself that, inasmuch as the tower was a part of the church, a head covering of some kind should be worn. He understood that the matter would be referred to the Central Committee of the Ladies' Guild. He was very glad to be able to report a year of satisfactory progress by the Association. A number of towers had rejoined, and there were many new members. Financially also the position was good, and he hoped it might now again be possible to allow a grant towards the fees, at all events, at quarterly meetings of the Association. The towers in the Association numbered 124 (including 13 rejoined and two new towers), and the membership was 1,380. The peals rung had been: Stedman Caters, 1; Cambridge Surprise Major, 1; Bob Major, 5; Stedman Triples, 5; Grandshire Triples, 9; Bob Minor, 10; Minor in 2 Methods, 1; Doubles in 3 Methods, 1; Doubles in 2 Methods, 2; Grandshire Doubles, 2; total, 37.—The report was adopted, Mr. D. G. Taylor, of Ilminster, commenting upon the satisfactory number of towers that had rejoined the Association. It showed, he said, that they only left previously through the exigencies of war.—The balance sheet was presented by Mr. Burgess, and showed the total sum standing to the credit of the Association to be £106 3s. 2d.—The statement, which had been audited by Mr. D. E. Taylor (hon. auditor), was unanimously adopted.—A discussion ensued upon a suggestion by Mr. J. Hunt that the statement should in future contain the income of the various branches, in addition to the balances now given. It was pointed out that each branch held its own annual meeting, when the detailed accounts were presented, and the Chairman said he did not think it a question arising out of the adoption of the Association's statement.—It was resolved to grant the same honorarium to Mr. Burgess as last year.—The Chairman said they had come through troublous times, and this was the first year the Association had been working so satisfactorily. He thought the grant was due to the secretary for the excellent work he had done.

The Bishop of the Diocese, as president, and the Archdeacons of Wells, Bath, and Taunton as vice-presidents, are ex-officio officers, and their formal re-election was not necessary. Preb. S. A. Boyd (Bath) and the Rev. J. E. W. Honnywill (Leigh-on-Mendip) were re-elected vice-presidents.—The Rev. C. C. Parker was re-elected Master, Mr. D. G. Taylor hon. auditor, and Mr. Burgess hon. secretary and treasurer, tributes being paid by several speakers to their past services.—Three new members, Miss Campbell and Messrs. J. Blackmore and A. Paul were elected.

In a brief report on the Central Council meeting, Mr. A. E. Coles said the outstanding feature was the whole-hearted welcome given by the officers and members of the Salisbury Diocesan Guild. Mr. Hervey Beams, who they had with them that day, was one of the most prominent figures in organising that welcome.—In thanking Mr. Coles for his report, the Chairman said it should be known that he went without any expense to the Association.—Mr. Hervey Beams, thanking Mr. Coles for his references to the Salisbury Diocesan Guild, said they felt if visitors were invited it was a duty to make them welcome.—Mr. J. W. Jones declared it was one of the best gatherings ever held by the Central Council.

SUGGESTED BELFRY REPAIRS FUND.

The Rev. Freeman, of Croscombe, briefly addressed the gathering. At the outset he made it clear that he had only recently gone to live at Croscombe and he had made the discovery that his ringers were not affiliated to the Association. He promised that should be speedily remedied if they allowed Croscombe to join. The reverend gentleman went on to outline a suggestion that all affiliated branches should contribute to a fund to assist parishes faced with heavy expenses in restoring towers and bells. He pointed out that Croscombe had a very ancient and beautiful church with six bells. The ringing of these had had to be stopped through the condition of the cage, and until a restoration scheme costing something like £700 had been carried out. By tremendous 'slogging' the villagers had raised £500, and other parishes near were promising some help. He did not suggest the bellmen should be the material supporters—they already gave their services—but if some scheme could be arranged whereby the hat could be passed round for parishes needing such help as Croscombe did it would be a tremendous thing. There were people in their churches who he felt sure would be willing to pay for the credit of their Church, and he promised that whenever the appeal came to Croscombe the parish would do the same.—The Chairman said Mr. Freeman had their heartiest sympathy, and he hoped they might be able to give some help in that way.

Mr. J. Hunt moved that in future the accounts should be made up to the 31st December, instead of May 31st. He pointed out that practically all Church accounts were now made up for this period, and if the motion was adopted there would not be the rush to get the financial statement completed for that meeting. — Mr. Taylor seconded.—The Chairman mentioned that the committee supported the proposal.—In answer to a question he stated that he did not think the alteration of any rule was involved. They could not do that. He should put it on this assumption, and if it turned out otherwise it would become inoperative.—For the motion there voted 25, and against three.—The Chairman declared it carried.

The Chairman moved a very hearty vote of thanks to the Vicar of Yeovil (the Rev. H. C. Sydenham) for the use of the vestry and the beautiful bells of the church; to Mr. Jno. Goodchild (the Vicar's warden) and to Mr. J. E. Baker (local secretary and Master of the Yeovil Guild), who had done everything possible to make the meetings successful.—Mr. Goodchild, in acknowledging the vote, said it was a great delight to them to receive a visit from the Diocesan Association.

In the Parish Church Divine service was conducted by the Vicar of Yeovil, the whole of the party attending. The singing was led by the choir, and Mr. F. R. Risdon (organist and choirmaster) presided at the organ. The lesson was read by Mr. J. W. Pearson (headmaster of Yeovil County School), and immediately after the singing of the 'Ringers' hymn, the Vicar gave an address to the Association from the text 'I have finished the work Thou gavest me to do.' He pointed out the holiness of the service the ringers had undertaken, and said they must realise they were the instruments through which God called His people to the Sanctuary. The Church to-day was more full of life and vitality than it had ever been. Differences and difficulties over Prayer Book Revision and such like merely pointed to the life and vitality in Church and people. Their Sunday Schools were increasing, and in many places their congregations and communicants. The ringers called them to this holy service. The time was passed when it was good enough for the ringers to ring and then leave the House of God. If their lives were to be successful, and if they wanted to be able to say when it closed and the last pull had been made, 'I have finished the work Thou gavest me to do,' then not only must they be ringers, but worshippers in the Sanctuary, too.

In the Schoolroom the party sat down to tea, excellently served by Mrs. Goodchild, Mrs. Standing, Mrs. Oridge, Mrs. F. Beel, and Mrs. C. E. Newis.

RINGERS' ROLL OF HONOUR.

To the Editor.

Dear Sir,—I wish to make an appeal, through your columns, to the Exercise at large for help in compiling this roll.

Below will be seen two lists of names which I have denoted A and B.

In list A, certain names are grouped together which bear a similarity to each other.

I want to know how many persons are described in each group, and, if only one, which place or tower out of two or three has the right to claim that one. To take an instance: Were there two ringers of the name of 'Atwater, E.' killed? If there was only one, should he be described as coming from Stratham or Cuckfield?

In list B, there are certain names given as belonging to Guilds or Associations, but the place or tower is left blank. I want if possible to be able to fill up this blank space.

Secretaries of Guilds and Associations have done their best in the matter, and I now appeal to the friends of these fallen ringers to send me such information—as some of them surely must have—as will enable me to come to a decision in each case.—Yours truly,

CYRIL W. O. JENKYN,

Hon. Librarian, Central Council.

Broadlands, Caversham, Reading.

The President, after unveiling the tablet, dedicated it with these words: 'In the Faith of Jesus Christ, we dedicate this mural tablet to the Glory of God, and in memory of His Servant, Arthur Thomas King, in the Name of the Father, and of the Son, and of the Holy Ghost. Amen.'

A short service of prayer followed, the proceedings ending with the Benediction.

This tablet is also of white Sicilian marble, 1½ inches thick, and a little over 1ft. 7ins. square. The inscription, which is surrounded by a black border line, and headed 'In Memoriam,' proceeds to record the peal rung with half-muffled bells on March 30th, 1922, after the funeral at Stevenage, stating in bold black letters to whose memory the peal was rung; full details of the peal itself following.

TANFIELD'S VETERAN VICAR.

Five members of the Durham and Newcastle Diocesan Association journeyed out from Newcastle to Tanfield, Co. Durham, to join the local ringers, and one from Black Hill, on Thursday, July 12th, to do honour to the Vicar (the Rev. Canon T. H. Archdale), who has been an honorary member of the Durham and Newcastle Association since 1890, and was that day celebrating his 4-score summers. It was intended to ring a peal, but it was the hottest day of the summer, and the tower was like an oven. The band contented themselves, therefore, with touches of Grandsire and Siedman Triples-Plain Bob and Kent Treble Bob Major, with some local ringers taking part, after which they were most hospitably entertained on the lovely lawn of the Vicarage by the venerable Canon himself, who was so agile and full of humour that he would pass very well for 3-score summers instead of four. He offered anyone parrot's eggs who could get them out of the nest; a vain search was made in the 'green' peacock's nest on the lawn.

Among the party was the local 'bishop,' who is running the Vicar close with his summer score.—The Vicar gave the ringers an invitation to come back and ring his diamond wedding peal. In the 'Ringing World' his golden wedding peal was recorded. The ringers sincerely hoped they would be able to accept that invitation. After a stroll round the beautiful garden, with its 1,400 rose trees, and congratulations to the Canon, the gathering terminated.

LINCOLN DIOCESAN GUILD.**EASTERN BRANCH VISIT BUTTERWICK.**

The quarterly meeting of the Eastern Branch was held at Butterwick on Saturday, July 14th. The bells of the parish church had recently been augmented to six and rehung in a new cast-iron frame with steel girders by Messrs. Taylor and Co., of Loughborough, who had also supplied all their latest improvements in bell hanging. This, no doubt, was the main reason for such a goodly number being present.

After the afternoon's ringing a short service was held, conducted by the Vicar of Freiston-with-Butterwick (the Rev. J. R. Trotter), who afterwards entertained the company to a splendid 'knife and fork' tea at the Five Bells Inn.

After tea the usual business meeting was held, the Rev. J. R. Trotter being in the chair.—The Rev. C. V. Campkin Cogan, Vicar of Sibsey, resigned his position as president of the branch, and the Rev. J. R. Trotter was unanimously elected to the vacancy.

Out of the funds of the branch £5 were voted to the Butterwick Church Bells Fund, and £3 to the fund for providing four new trebles to be placed in Lincoln Cathedral to the memory of the ringers of Lincolnshire who gave their lives in the great war.

The Master of the Guild (the Rev. H. Law James) was present, and spoke very strongly on this subject, urging the members of the branch to try and raise at least 10s. per rope throughout the district.

A return to the belfry was again made after the meeting concluded, and various methods of Minor and Doubles were rung until 9 p.m. Several members journeyed on bicycles to Freiston, and rang touches on the bells there. Members were present from Benington, Boston, Butterwick, Frampton, Freiston, Stickney, as well as a party from Pinchbeck, who were making a day's excursion. They visited Frampton in the morning, came on to Butterwick in the afternoon, and called at Freiston on the way home.

Many complimentary remarks were passed on the splendid 'go' of the bells, and also on the excellent splice Messrs. Taylor had made in adding the new treble.

The next meeting was fixed to be held at Old Bolingbroke in the autumn.

NORTHERN BRANCH.

A meeting of the Gainsborough District was held at Willingham on Saturday, July 14th, and attended by members from Gainsboro', Corringham, Stow and Lincoln, in addition to some of the local company. The bells were available during the afternoon and evening, and kept

going in various methods, including Cambridge Surprise Minor; a 720 Bob Minor was also rung.

A short service was held, at which the Rev. R. Malkinson (Rector) officiated, assisted by the Rev. A. Mitchell, of Mumby, who gave an interesting address.

Tea was provided at the Half Moon Inn, followed by the business meeting, at which Mr. F. F. Linley presided.—The election of Mr. Harry Reville, of Ordsall, as a non-resident life member at Gainsboro', before starting for a peal, was confirmed.

There being no further business, Mr. F. F. Linley gave a most instructive and interesting address.

Voices of thanks to the Rector and churchwardens for the use of the bells, Mr. Plowright for arranging the tea, the organist for his services, and Mr. F. F. Linley for presiding, were unanimously passed.

These were duly responded to, and concluded the business.

BARNESLEY & DISTRICT ASSOCIATION.

The summer meeting was held at Barnsley on Saturday, July 14th. Members, with their wives and lady friends, had previously been invited by the Rector (the Rev. H. E. Hone) and Mrs. Hone to make the Rectory and grounds a rendezvous for the gathering. The Rector is possessed of the kindest heart, and has done duty for the Church in Australia and other parishes at home, which has enabled him to acquire great knowledge of men and things. Moreover, Mrs. Hone is overflowing with smiling goodness, and with such a reception in view the success of the meeting was assured beforehand. The welcome, which was gracefully offered was greatly appreciated. The bells at St. Mary's Church were set going at 3 p.m. and members also wandered at pleasure between such points as the church, the markets, and the spacious Rectory grounds, etc. The tea-tables were spread in the Parish Room, and a very happy company assembled. The handbells were put into use, courses of Grandsire Triples and Bob Major being brought round. One local lady, of 92 summers, entered the room purposely to see and learn what ringers are and can be.

Royston was selected out of three offers for the next place of meeting, which will be Saturday, August 11th.—A hearty vote of thanks was passed to Mrs. Hone for the tea, solely managed by herself, and also to the willing hand of helpers, including her daughters. Thanks were also accorded to the Rector and churchwarden for their kind help.

Evensong followed, which most of the company attended. An address was given by the Rector. Further ringing followed, and thus ended the brightest and best of meetings.

BELFRY GOSSIP.

Many happy returns of the day to Mr. J. W. Washbrook, who was born on July 27th, 1864.

The first peal in Ireland (Grandsire Triples) was rung at Waterford Cathedral on July 27th, 1872.

At Aston, Birmingham, on July 30th, 1792, a peal of 7,552 Grandsire Major was rung by St. Martin's Guild.

The peal of Grandsire Doubles, at Combe Martin, North Devon, recorded this week, is a performance upon which the band are to be congratulated. The bells at this church were recast and made into eight by Messrs. Mears and Stainbank last July. Mr. A. H. Hayward then took in hand the instruction of a band, and they have now rung their first peal under Mr. Hayward's conductorship. We look forward to seeing a peal of Triples before long.

The St. Martin's-in-the-Fields' Company will be visiting Painswick on September 1st. Any member of the Royal Cumberland Youths desirous of joining the party may obtain particulars from J. Cornford, 7d, Morgan Mansions, Holloway, N.7.

The peal of Bob Major rung at SS. Peter and Paul's Church, Fressingfield, on June 13th, 1923, and published in our issue of the 22nd ult., should have been credited to the Norwich and St. Edmunds. bury and Ipswich Diocesan Association. This fact was omitted from the report sent to us.

The National Assembly has decided upon the division of the Diocese of Winchester, and the members of the Diocesan Guild of Ringers will now have to consider what the future of its organisation shall be.

Oxford Guild members should note that the practice previously announced to take place on Saturday, at Beaconsfield will be held instead at Farnham Royal.

THE SUFFOLK GUILD.

OVER 500 MEMBERS.

The annual meeting of the Suffolk Guild was held at Ipswich last Saturday. After a service in the Tower Church, at which Archdeacon Farmiloe preached, tea was provided in the Co-operative Hall, at the cost of some of the clerical members in East Suffolk.

At the meeting which immediately followed, with Archdeacon Farmiloe in the chair, it was decided to re-elect all the officers en bloc.

The Secretary read out the list of towers which had sent in a total of 442 ringing members, 21 honorary members, and two life members. These were all elected, with the addition of seven new members then proposed.

The Secretary explained that, although he had sent out all these forms at the beginning of June, it was only during the last few days that the greater number had been returned; he had therefore, had no opportunity of ascertaining how many there were on the former which had not been entered on these returns, but he knew there were sufficient to bring the total names already enrolled to over 500, and there were all the names in three districts yet to come in.

The Secretary reported that eleven towers had compounded: only one of these was an old tower, on which the Guild accordingly lost 2s. The other ten were new towers, none of which would probably have joined the Guild, bringing in 71 shillings and 82 new members.

It was decided to hold the annual meeting in future on Easter Monday.

The meeting closed with the usual votes of thanks.

TEXT BOOK ON SURPRISE METHODS.

To the Editor.

Sir,—The suggestion of 'Lancastrian' in last week's issue that a book containing the Surprise Methods on 8, 10 and 12 bells should be published for the Exercise is not premature. A perusal of the peal column during the past year is a clear proof of the advancement of ringers in the Surprise Methods. A few years ago the three Surprise Methods in 'Standard Methods' were sufficient for the average Surprise band to tackle, and occasionally Bristol was rung by these ringers, but London and Bristol are now so widely practised that peals in these methods have increased enormously. This alone shows that the Exercise is improving, and if such methods as 'Lancastrian' mentions could be published on similar plans to the Snowdon series a great service would be done to the great body of Surprise ringers who are seeking new pastures. If the cost is too prohibitive to publish a text book like Snowdon's letterpress, surely a book containing skeleton diagrams of these methods, and, perhaps, the first treble lead, could be published at a price reasonable to the members of the Exercise. It is a book that is sorely needed. If the job could not be undertaken by the Central Council, surely they would show their approval to the enterprising person who offers to do it. There must be many of our ringers in the printing trade. What do they think about it?—Yours faithfully,

Portsmouth.

F. W. ROGERS.

THE RECORD PEAL OF STEDMAN CINQUES.

COMMEMORATIVE BOARD UNVEILED AT SOUTHWARK CATHEDRAL.

A board, recording the 12,675 Stedman Cinques rung in 9 hrs. 47 mins. on Whit Monday by the Ancient Society of College Youths, was unveiled at Southwark Cathedral last week. The photograph shows the band, with Mrs. Robert Frank, who performed the ceremony, and Mr. Robert Frank, the Rector's warden (who presented the board, and is second on left of picture).

On Tuesday, July 17th, before the usual practice in the tower of Southwark Cathedral, a board giving particulars of the record peal of Stedman Cinques, accomplished by members of the Ancient Society of College Youths on Whitsun Monday, was unveiled by Mrs. Robert Frank, wife of the Rector's warden. There was a large attendance of ringers, including the whole of the peal band, and Mr. Frank, who had generously given the board.

Mrs. Frank, in a happy speech, apologised for her presence in the tower, and suggested that it might have been more seemly if one of the five youthful lady members of the society had been called upon to perform the ceremony. One thing which made her reticent was her lack of knowledge of campanology. She had, however, found a good friend in Mr. Hughes, of Messrs. Mears and Stainbank, who had proved an efficient teacher. She was very proud that the record peal had taken place in the tower of Southwark Cathedral, a church very dear to her and to Mr. Frank, the Rector's warden. For the benefit of visitors she might explain what had happened on Whitsun Monday. Twelve members of the Ancient Society gathered in the tower and began to ring at 8.30 a.m. They rang Stedman Cinques for nearly 10 hours, and accomplished nearly 13,000 changes. More changes had been rung on one occasion at Painswick, but the bells there were infinitely lighter, and consequently the performers rang

for a much shorter time. The ringing at Southwark was the longest ring on twelve bells, and an epoch-making achievement in the ringing world. It was a great physical and mental test, and those who took part should feel proud of their success which fortunately had no bad after effects. She felt she must congratulate the College Youths, that honourable company of ringers which had 300 years of history behind them. They had chosen Southwark some 200 years ago for their first outstanding performance. It was not surprising that so worthy a body had charge of almost all the towers in the City of London.

Mr. W. E. Garrard, Master of the College Youths, thanked Mr. and Mrs. Frank for their keen interest in the society, and he accepted, on behalf of the members, the board which Mr. Frank had so kindly presented. He was glad to see that the names of the twelve ringers had been set out on the memorial, and he knew that in years to come men in the ringing world would look back and honour those who had the keenness and physical endurance to accomplish so much.

Photographs were then taken for the Press, and afterwards the band who rang the peal gave an exhibition of their art.

In the heading to the composition which was printed in our last issue the first two figures were transposed, the length of the peal was, of course, 12,675 and not 21,675.

THE LATE BISHOP OF CHELMSFORD.

At Chelmsford, on Thursday, July 19th, immediately after the funeral of the Right Rev. the Lord Bishop of Chelmsford (Dr. J. E. Watts-Ditchfield, D.D.), at the Cathedral, with the bells half-muffled, a quarter-peal of Grandsire Caters (1,277 changes) in 50 mins.: H. Cutter 1, C. Gentry 2, P. Timson 3, A. Saltmarsh 4, H. Cooper 5, J. Clarke 6, C. H. Howard 7, H. Kirton (conductor) 8, C. Pease 9, J. Wood 10.

Mr. Howard represented the Essex Association at the funeral.

A muffled peal was rung at Prittlewell.

At Feering, on Saturday, July 14th, 1,280 Oxford Treble Boh Major: W. Keeble (conductor) 1, J. C. Newman 2, E. W. Beckwith 3, F. Claydon 4, J. Sadler 5, G. Hayward 6, W. Elliott 7, A. Saunders 8.

At Kelvedon, on Sunday, July 15th, for morning service, two 360's of Plain Bob by F. Dale, junr., 1, F. Dale, senr., 2, J. C. Newman 3, J. Elliott 4, E. Bone 5, W. Elliott 6, W. Keeble 7.

OXFORD DIOCESAN GUILD.

THE ANNUAL MEETING-PLACE.

FEELING AMONG SOUTH BUCKS MEMBERS.

The Oxford Diocesan Guild, at the annual meeting at Oxford on Saturday, decided to hold next year's meeting at Oxford. It was formerly the practice to visit each of the three counties in the diocese (Oxford, Berks and Bucks) in turn for the festival, but in recent years the meeting has been held at Oxford.

Some feeling has arisen among a section of the members on the subject, and subscriptions have been withheld as a protest.

As a result of last Saturday's decision, the position has become more acute, and at a meeting of the members of the High Wycombe belfry, the following resolutions were unanimously adopted:—

1.—The All Saints' High Wycombe Society, learns with regret of the decision made to again hold the annual meeting (1924) at Oxford, contrary to Rule 13, as defined during the 33 years of the Diocesan Guild's existence previous to the great war. Custom creates common law: in the same way custom has created a common rule whereby the annual festival shall be held, in turn, in the three Archdeaconries, at a place to be decided in accordance with Rule 13. The East Berks and South Bucks Branch, the premier one of the Diocesan Society, at its successive meetings, has passed resolutions unanimously against the continuous breach of the constitution; and the All Saints' Society, after serious consideration, can no longer associate itself with the same, under existing conditions. It, therefore, with much regret, secedes from affiliation with the Oxford Diocesan Guild of Church Bell Ringers from the 31st December next.

2.—Copies of this resolution shall be sent to the Master and the general secretary of the Guild; also to the chairman and secretary of the branch; and for publication in the 'Ringing World.'

RALPH COLES, Foreman.

GEO. TWITCHEN, Hon. Secretary.

THE LADIES' GUILD.**THE QUESTION OF HEAD COVERING.**

The annual general meeting of the Ladies' Guild was held on Saturday, July 14th, at St. Giles-in-the-Fields, London. The members present were Miss D. Atkins (president), Miss E. K. Parker (hon. secretary), Miss C. Hepburn (secretary of the Northamptonshire district), Miss H. Mills (secretary of the Southern district), Misses Chapman, Harcourt and Orr, of Clapham Park; Misses B. Mills and E. Fisher, of Alderhot; Mrs. Hardy and Miss H. Willson, of Leicester; Mrs. E. M. Atkins, London; Miss D. Feltham, Hillingdon; Mrs. Pulling, Guildford; Miss E. Steel, Bedford; Mrs. J. Thomas, Ponders End; Miss R. Thomas, Mersham; Miss E. Upsher, Edmonton; and Mrs. Wilkins, Bristol.

The members were welcomed by the Rector, the Rev. W. H. Davies, who conducted a short service, and gave a helpful address. The organ was played by Mrs. Hardy.

Tea was prepared in the Church Schools by Mrs. Davies. The business meeting followed, when the chair was taken by the president.

The Secretary reported that the Guild was still progressing, and good work had been done in the various districts.

Mrs. Wilkins, of Bristol, was elected president for the year, and Miss Parker re-elected honorary secretary and treasurer.

It was decided to issue a report on the year's work, a small charge to be made to help to cover expenses.

The formation of a Devon branch of the Guild was discussed, and the secretary was requested to give all possible assistance to the organisers, who had previously approached her on the subject.

A suggestion was made that a special form of head covering to be worn in the belfry be adopted, but it was decided that owing to diversity of opinion amongst members and elsewhere, no rule could be made.

Bristol was chosen as the place for the next annual meeting.

A hearty vote of thanks was passed to the Rector for his great kindness in allowing the Guild the use of the bells, for conducting the service, and arranging tea.

Various methods were rung on the bells during the afternoon and evening.

RINGERS MARRIED.**BRIDE, BRIDEGROOM AND BRIDESMAID TAKE PART IN WEDDING 'PEAL.'**

The marriage took place at St. Mary's Church, Peterborough, on Thursday, July 19th, of Mr. J. Northam and Miss Elsie Brandon, both members of St. Mary's band. The ceremony was performed in the presence of a large number of friends, and the service was choral.

After the reception a visit was paid to the belfry, where the captain (Mr. F. Rawlinson) arranged a touch of Bob Minor by the following: The Bridegroom 1, the Bride 2, the Bridesmaid (Miss A. Dale) 3, Miss D. Dale 4, Mrs. Rupert Richardson 5, Mr. Rupert Richardson 6. The touch was conducted by the bride.

Afterwards touches of Double Court, Kent and Oxford Treble Bob and Cambridge Surprise Minor were rung, the other ringers taking

part being Miss K. Jutson, Messrs. Herbert Hoare, T. Tilley, G. Williamson, W. Waldren, J. Jutson and F. Rawlinson.

In the evening the happy pair left for their honeymoon at Hastings, and as they departed the bells of St. Mary's were ringing merrily.

A NEW TREBLE BOB MAJOR RECORD.**SUCCESS OF THE CHEESHIRE MEN AT OVER.**

Members of the Chester Diocesan Guild were successful in their attempt at St. Chad's Church, Over, Cheshire, on Saturday, to beat the Treble Bob Major record, and they will receive the heartiest congratulations of the Exercise upon the outcome of the effort.

The peal was Mr. Joseph W. Parker's 17,280, published some time since in these columns, and the bells went into changes at 9.50 a.m. The striking was excellent, and a competent listener informs us that there were no trips throughout the peal. The bells kept a steady beat throughout the day, and came round at 7.50 p.m., exactly ten hours after the start. The average speed was thus 28.8 changes per minute.

Considerable excitement prevailed in the village as evening drew near, and a crowd listened to the finish. At the conclusion of the peal the bells were 'fired' and lowered in peal—a fitting termination to a great performance.

The band were kindly entertained to tea at the Vicarage by the Vicar (the Rev. W. H. Stables), and desire to thank him for his hospitality. They also desire to thank him and his churchwardens for the use of the bells, and Mr. Saddler, the secretary, for the considerable help which he gave.

The bells at Over were recast, augmented from five to eight, and rung in 1915 by Messrs. Taylor and Co. They ran perfectly throughout the peal.

Over Church is surrounded by fields, and stands quite away from the village, so that it was an ideal place for the attempt.

Record lengths of Treble Bob Major have been set up previously as follows:—

12,320 in 7 hrs. 15 mins., at Otley, August 27th, 1814.
14,016 Kent, in 7 hrs. 25 mins., at Oldham, Feb. 12th 1821.
15,368 Kent, in 8 hrs. 45 mins., at Elland, Dec. 26th 1831.
15,840 Kent, in 9 hrs. 12 mins., at Bethnal Green, April 27th, 1868.
16,608 Kent, in 9 hrs. 48 mins., at Mottram, May 18th, 1883.
16,633 Oxford, in 10 hrs. 32 mins., at Debenham, June 6th, 1892.
16,800 Kent, in 9 hrs. 40 mins., at Mottram, June 8th 1906.

THE FOUNDATION OF COMPOSITIONS.*To the Editor.*

Dear Sir,—I have for a long time been considering the question of composition and the advanced stage to which the art has reached. We see week by week peals of 'Arran Chief' and 'Orange Blossom' labelled as 'this composition is now rung for the first time, IS IT?' The professors of mathematics in the Exercise will tell us that 2 plus 2 make 4, and that a rotative family is the result thereof until infinity is reached. I quite agree that the gentleman who first found out that 2 plus 2 equal 4 was not a genius, because he only pointed out a fact which existed before he pointed it out, but I give far less credit to the gentleman who said that 4 plus 4 equal 8. Any fool can find the sixpence after the candle has been lit, always assuming that a sixpence has been mislaid.

To quote a fair example, Annable's peal of Bob Major used as a root peal is capable of variation and extension to the limit of Bob Major, but whose peal is it? We often see the Family Tree of (his or that person) showing the descent of the said person from Noah, let us say. Any peal of Bob Major could be just as easily linked up to Annable's peal. And when a genius like Mr. J. Carter, of Park Lane, published a broad sheet of Stedman Caters many years ago one would have thought that our 'Composers' would have at once said, 'Oh well, if that is possible where 2 plus 2 is concerned and where Stedman Caters is concerned, then it must also be possible with all methods.' I know that there is in existence a book containing 279,000 peals of London Surprise Major (5,024 5,056 and 5,088 changes only), all obtained from one simple scale; simple when someone else has put his finger on the key to the system but who is entitled to claim the credit for the 4 plus 4 equal 8 after the Bob Major candle was once lit? Dear old Euclid told us many useful things, none of which have ever been equalled. He told us that 'Two straight lines cannot enclose a space.' If some 'genius' came along and said 'two double straight lines cannot enclose a space' he would soon be told that he was *mons* late, but people keep on publishing peal (or composition) after peal of Bob Major when we have proof that tables are to be had which embrace ALL possible ways of permuting any method from a lead to its extent. I know nothing of composition, but I do know that it is time our Parliament stopped christening early potatoes, and faced the problems re 2 plus 2 and their square root.—Yours very sincerely,

ONCE A BEGINNER.

P.S.—I must say that these few notes were prompted by the footnote to the peal rung at Surfleet on July 4th, 1923. Those who don't know what it was should BUY and READ our paper. Large type for those two words, Mr. Editor, an it please ye.

LOUGHBOROUGH WAR MEMORIAL.

A GREAT CARILLON.

About 50,000 people, it is estimated, were present on Saturday at the opening of Loughborough's unique war memorial.

As befitting a town renowned for bells, the feature of the memorial is a carillon, the finest in England. There are 47 bells, covering four octaves, and ranging in weight from four tons to 20 lbs. They hang in a lofty tower erected in Queen's Park, and are the product of the Loughborough Foundry. The largest bell is the Taylor memorial bell, which adds greatly to the richness of the carillon, and is inscribed:—

In proud and loving memory
of his three nephews
killed in action in France

JOHN WILLIAM TAYLOR Courcelette 1916
GERARD BARDSLEY TAYLOR St. Quentin 1918.
ARNOLD BRADLEY TAYLOR Contalmaison 1916
sons of John William Taylor (1853-1919)
grandsons of John William Taylor (1827-1906)

Edmund Denison Taylor
the founder of these bells
gives this the largest
1923.

The opening ceremony was performed by Field-Marshal Sir William Robertson, Chevalier Denyn, the famous Belgian carillonneur, of Malines, who gave concerts on the bells during the day, described the carillon as the most perfect modern instrument of its kind in the world. The programme included a special memorial chime composed by Sir Edward Elgar.

Concerts are being given daily during this week.

At Barking, Essex, on July 19th, after the memorial service for the Bishop of Chelmsford, a quarter-peat of Stedman Triples (1,260 changes) was rung muffled, in 54 mins.: C. Fenn (conductor) 1, W. Beard 2, F. Russell 3, A. G. Hardy 4, W. G. Jackson 5, A. K. Harrison 6, E. G. Cottis 7, E. H. Parker 8.

IN THE SHIRE OF JOUSTS.

ILKESTON RINGERS' OUTING.

Gadzooks! 'Dies Colloquid Dietus Est' and Zooks! On July 7th there was such a gathering of the 'Clans in Ilkestone'—when—

The bus roll'd up with a name Elite,
In climb'd the tall, and the petit!

'All aboard?' 'Yes, sir, first stop the bell foundry, Loughboro.'

After an hour's run we arrive, and are conducted around 'The most up-to-date,' when one of the party started to count the many peals which lay in every conceivable portion of the great foundry, but when our guide (Mr. Stubbs) quite accidentally knocked some music out of a carillon intended for 'Andover, U.S.A.,' our enumerator was so charmed that he lost all count. Irrespective of the new bells we saw, here, there, and everywhere lay the foissam and jefsam of the old founders. Yes, there they lay, tired and weary of waiting to be cast into the fiery nest of Phoenix, and to rise again into their lofty homes to another life of centuries.

Bidding farewell to this motley mob of 'good old has-beens,' and 'never-wassers,' which bore the authentic trade devices of the Norwich Brasyers, Newcombe, Daud, Oldfield, Mears, Motts, Potts and Jack Rudhalls! we turned our attention to a pharmaceutical phial, clobber full of soothing medicine, and we gleaned from the inscription that it had been made to the order of a Derby specialist.

Then we tried the tricky ten in the foundry campanile, where the 'big 'uns are little 'uns,' which insist in dodging fast and furious on the front, and knowing that convocation did not permit this in the Stedman Principle, the party adjourned (after a lively time) to the 'kennel of the Greyhound,' where the good hostess served up an excellent lunch, and be it known to all, we know the young ladies partook of salads containing the aromatic perfume of garlic!

Time and tide wait not even for Campanites. Confound the bus! No longer it waits, but speeds on to the Roman station of 'Ratae,' and, by the way, we chatted about 'Hunting'—while—

'Honk, honk, pap, pap, went the merry horn,
As the Elite lally-hoed through Quorn!

Tempus Fugit! But to economise and to save a little, our driver put the bus in top gear, and we stopped the timekeeper's watch. Still, sad to relate, the Elite was much overdue when she was slowed up at a place ycleped by our Saxon fathers Legerecaestre, and softened by us locals (pardon! yokels) in the 20th century to Lester. After a long dodge with an electric car in front, we made another Bob, up a back street this time, where we spotted the smiling face of 'Old Bill,' peeping out of the 'Better 'Ole' (we knew he couldn't find a better) awaiting our belated arrival. Yes, we got the same old greeting 'Cheerio!' but still in fear and trembling we were led up to 'the place of Execution,' commonly known as St. John's Divine. Verily, the warm reception we received soon convinced the writer (who had grave fears) that a reprieve had been granted. Still, in spite of this, things were hot and flushed, especially faces which paled somewhat when they gazed upon the cold, glittering steel blade of 'Ye Battle-Axe'! Happily this one was not intended for severing the upper portion of the vertebra, or for scalping purposes. 'Twas surely the ceremonial axe! of the great 'Gulielmus-de-Legria.' Such knowledge made one feel quite comfy, so we just set 'em going, and we had some stuff which is ycleped 'Mixed'; then we had some 'Sforzando, Allegretto Stedman' which, strange to say, shook not any 'flies' off those glorious bells! Matter-of-fact, one thinks they get dusted too often for any to settle on 'em. Talk about bells! these are bells! One can even stand in the street and emulate the classical poise of 'Eros,' without the slightest fear of being knocked down, and without 'lying,' the writer drank deeply of the beautiful medicine. And in Leicester they talk about Surprise, really the first we locals got in Leicester was, 'Not a man lost his head' (that's the first we got!) the chief reason, I believe is the residence of John o' Gaunt is reserved for, and shall only be adorned with the 'Boney-fied Heads of Locals' (to be swallowed with 'Unus Mica Salis').

After our brief but pleasant stay we depart congratulating one another on retaining all the tentacula members of our Dexter paws after bidding 'Old Bill,' farewell!

The nose of the Elite is now turned in the direction of Whitwick.

Oh! and in front of the bus,
Wag De-Go-by did ride,
With De-Straw, packed behind him,
And De-George on each side.

Here we were met by Mr. Fearn, who gave us a cordial welcome, and conducted us up into the belfry of St. John-the-Baptist, where a nice handy ring of eight were soon on the swing; the music is not quite so delicious as the other St. John's at Leicester. Yet—

One great feature in connection with the belfry of this grand old 13th century church at Whitwick is the extreme darkness, which afforded no less than four of the party the opportunity to acquire a

change of raiment—a change of course—only of those bipennate garments ycleped jackets, and considering the very high atmospheric pressure no great surprise would have been occasioned if some of the party had divested themselves of their bifurcated nether garments, and they had got swapped over.

Again we are on the move, rolling along now on the fringe of the beautiful forest of Charnwood, in which stands the Cistercian abbey of St. Bernard, founded in 1835, the first Catholic abbey built and continuously used as such in England since the Reformation.

Od-zooks! We arrive at Ashby-de-la-Zouch, the scene of many a romantic 'Passage of arms,' where the party are expected (but not to grace the lists. Alas! the warrior we had left at home, we are sad to relate very indisposed). Odds-fish! Like Charley's Aunt, the old bus kept running till she had run past the cafe where a most sumptuous and welcome tea was laid all ready for us. With a bit of shunting the old chariot was brought to a standstill in the garage connected with the hospitable cafe, and after a bit of a 'rinse,' externally in the medicated waters of 'Ivanhoe' and internally by an excellent cup of tea, the party adjourned, and were conducted by Mr. Beardmore, to that noble embattled edifice of stone known in 'De-la-Zoo' as the church of St. Helen, where hangs an octave fit to summon any congregation in the land, but owing to the terrific heat little ringing was done upon the tower bells. Some good 'double-handed,' however, was done upon a fine set of handbells, the property of the locals. On looking round the interior we found some splendid monuments, amongst them an altar tomb to Francis, 2nd Earl of Huntingdon, K.G., ob. 20th June, 1561. In the north aisle, under a stone canopy, lies an alabaster effigy of a 'Pilgrim,' supposed to be unique. How these escaped the Cromwellian despoilers one can only conjecture. Another relic of a barbarous age stands at the S.E. corner of the tower arch, in the form of a finger pillory in which two of the visitors were found imprisoned by their Paws! Yes, Pawal reader, Paws! for on leaving the church our attention was centred on the many shields carved around the western portal and emblazoned with so many devices. One interesting shield received much attention by one who had made some little study of heraldry, but never before had he seen a shield emblazoned with 'Three Frogs' in pale, proper upon the field. Birds, ejaculated the interested one, such as Martlets are common upon coats-of-arms. But—but! a frog is a funny bird, for when it stands, it sits—and when it sits, it hops on that which it has not got, almost!—And when it hops, it flies! Almost, nearly! It's true! There, on the south of the church stands the ruins of a once stately castle founded in the reign of Edward IV., by Sir William (afterwards Baron Hastings), and was used as a residence by him and his descendants for about two hundred years, and in which the ill-fated Mary Queen of Scots was for some time imprisoned, the only portions that remain are of the hall, chapel and kitchen.

With a few more handshakes we embark for the homeward spin through acres of ripe strawberries. On, on, we go to the county town of Derby, where the 'Father' of the Ilkeston Youths 'dropt off.' He wasn't hurt, so we drove on, and did not stop to pick him up again, feeling sure that he would find shelter for the night somewhere, for he was in possession of a miniature set of house-breaking implements. We hope that he was not entertained at the county boarding establishment of 'George Five.' Of that we had no great fear, so we made a final spurt, passing through the pleasant vale of Depedale, where, amid ruin, stands one solitary arch. At one time here stood a magnificent and stately house of God, dedicated by the whiterobed canons of Premontra to the Blessed Virgin Mary.

Now alas! the only incense rising
Is the sweet perfume of flowers.
Monks no longer tread the greensward,
Save as shades in evening hours.

Ah! And 'twas in the cool shade of evening when the Elite discharged her cargo in the ancient market place of Ilchestune, after a sojourn in the land of jousts and hunting, and through the medium of 'The Ringing World' we herewith tender our grateful thanks to all who contributed their quota to our entertainment and comforts, viz., Messrs. Stubbs, Fearn, Hatton, Beardmore; and last, but not least, 'W. W.', who is the possessor of a divorcing machine of 'Henry ATE' period.

NOMENCLATURE OF MINOR METHODS.

To the Editor.

Dear Sir.—Following the remarks made by 'Criticus' in your issue of 20th July, we should like heartily to endorse your footnote of the 13th, which we think to be very much to the point. Further, we consider the wish expressed above it to be out of place, and are sorry to see the name of one of the committee associated therewith. In the course of correspondence with the Revs. C. W. O. Jenkyn and A. T. Beeston, dating from 30th November, 1921, to 8th August, 1922, we conclusively proved that we had prior right to name Surprise No. 7 (known as Whitley), and also Third's Place Delight, No. 33 (as published in your columns). Our claims were not allowed, being out of date, and yet, nearly twelve months later an attempt is made to foist names upon the Exercise BY RIGHT OF PRIORITY IN RINGING THE EXTENTS OF THE METHODS.

The letter published in your columns by the Rev. C. W. O. Jenkyn, giving the numbers of those methods not named (to which the Council took exception), followed our request, to him of the 30th November, 1921, and had there been any chance that his excellent idea would have been allowed to bear fruit, we think that few methods would have been left to be rung at this late hour.

We fully appreciate the difficulties of the committee, and cheerfully would ring methods under the names of 'Onion Delight' or 'Beetroot Surprise' had the Council taken its duty seriously, but it appears generally to have been otherwise.

We think six-bell ringers would do well to ignore names entirely, and in time methods would universally be known as 'Twenty-four Treble Bob,' 'Seven Surprise,' and so on.

We have no guarantee that this question will be settled in 1924, and in the meantime we ring a method first as Lancashire and then as Immanuel; we, at Leytonstone, ring amongst others, six of the Surprise Minor methods, taking pride in properly recording the complete extents we ring, and rightly, we think, we resent the Council's attitude, and also that taken by the gentleman aforementioned.

Let us ignore the Lancashires and Immanuels, and call them 'Twenty-two's.'—Yours faithfully,

GEO. DAWSON,
S. John Baptist Association, Leytonstone.

SHIPLEY RINGER'S DEATH.

We regret to record the death of another old Shipley ringer, in the person of Mr. Geo. A. O. Nettleton, who died on July 6th, in his 63rd year. The deceased had been attached to Shipley Church for over 40 years, and joined the Yorkshire Association in 1880. He was also curator of Salfaire Institute for over 20 years. This position kept him from ringing many peals, his total being 31.

He was interred at Hurst Wood Cemetery, the Vicar of Shipley taking the service both in church and at the graveside. After the funeral 360 of Oxford Treble Bob Minor was rung, with half-muffled bells by: J. Wotton 1, J. Cotterell 2, J. Broadley 3, E. H. Simpson 4, W. Feather 5, T. B. Kendall (conductor) 6. Also on Sunday morning, 720 Oxford Treble Bob Minor: H. Hutley 1, T. B. Kendall 2, H. Haigh (conductor) 3, E. H. Simpson 4, H. Stott 5, J. Joyce 6.

ORIGINALITY IN COMPOSITION.

Although written in a jocular vein, there is much truth behind the letter on the subject of the foundation of compositions, which appeared in our last issue. Many claims are made to original peals which, were they investigated, would quickly be demolished, and yet, for want of some means of inquiry, these compositions go down in the records as belonging to this or that composer when, perhaps, the same figures may have been obtained years ago. Moreover, the same thing will repeat itself in the future, and 'composers' yet unborn will seek to claim as original what is being produced to-day—unless there is some machinery set up by which claims can be tested.

It is now, we believe, a more or less recognised fact that an individual cannot actually be held to be the creator of a method, because all methods are the outcome of the application of mathematical formulæ. The man who hits upon a method, happens to strike, unknown perhaps to himself, one of these formulæ, and he gives out his work as a method of his own production. But when men of wider knowledge set out upon a similar task of production, they obtain not one but, may be, hundreds of methods—bad ones as well as good—and they do it, not by a laborious construction of row upon row, but by the application of a mathematical process which gives them the whole of the possible methods in the class they are working upon, thus including all that have ever gone before or can ever come hereafter. This goes to show that the casual producer does not actually create a method but simply discovers it.

To a large extent the same thing may be said of compositions. They exist in infinitely greater variety than methods, but there are certain basic rules upon which one must work, and there is very little produced to-day that can really be claimed as an 'original' creation of the composer. He may take credit, perhaps, for piecing together in a fresh way certain existing formulæ, but it is undeniable that to produce anything which is absolutely new in those methods, which have been rung for so long, is almost impossible. To take only the examples of Stedman Caters and London Surprise Major, mentioned by our correspondent. 'Compositions' in these methods exist literally in hundreds of thousands, and a man who can obtain something which is not a variation of one of these peals, is either extremely clever or extremely lucky or both. Apart, however, from the general aspect of obtaining peals 'in bulk,' such as Mr. John Carter and Mr. Gabriel Lindoff have done, there is the question of the enthusiastic young composer who sets assiduously to work to obtain a peal in this or that method. When he is

successful, very little opportunity is open to him to ascertain whether some previous composer has obtained the selfsame figures, let alone finding out whether it is not merely a variation of something already produced. The mere publication of the figures is not always sufficient to elicit whether the composition is new or not. What is wanted, as a beginning, is the reference file, which we have so often advocated, and this is one of the things which the Central Council will have to undertake sooner or later.

Ringers' Outings—(Continued from page 485).

tenor weighs 57½ cwt. The bells are altogether a magnificent peal of ten. The party were also conducted over the Cathedral, and the many points of interest explained to them. The oldest portion of this wonderful structure dates back to 1148, and the lectern to the 13th century. Another item of much interest was the 24-hour clock, with its quaint striking apparatus.

After a brief stay in the precincts of the Cathedral, the homeward journey was commenced, Weston-super-Mare being reached at 11 p.m., everyone having thoroughly enjoyed the trip, which, it was unanimously agreed, was the best the company had ever had. The ringers desire to record their hearty thanks to all those gentlemen concerned who obtained the use of bells for them.

LINSLADE RINGERS' OUTING.

On Saturday, July 28th, the Linslade ringers had their outing. Motoring to Hardwick they rang Grandsire Doubles and Bob Minor for about an hour, and then went on to Aylesbury, where they had tea. Proceeding to Wendover, several of the local band were waiting to welcome the visitors, and the bells were soon going to Grandsire Doubles, Plain Bob, and Kent Treble Bob Minor some of the local band taking part. The party were also joined by Mr. F. Reeve, of Tring, who invited the Linslade men to go on to Tring. Motoring through Halton R.A.F. Camp, Tring was reached at 7.50 and touches of Grandsire Triples finished the ringing for the day. The Linslade band take this opportunity of thanking the Vicars and foremen ringers of the respective churches for allowing them the use of the bells.

The Mangotsfield Guild visited Bournemouth for their annual outing. The party numbered 40, and travelled in a special saloon. The day was spent on the sea front, while some of the party enjoyed a boat trip to Swanage.

BROMSGROVE.—On Saturday, July 14th, at the Church of St. John, a quarter-peal of Stedman Caters (1,299 changes), in 48 mins.: R. G. Knowles 1, W. B. Cartwright 2, T. J. Salter 3, W. Ranford 4, J. Hemming 5, J. R. Newman 6, W. Page (conductor) 7, J. D. Johnson 8, C. Camm 9, T. Allbutt 10.

RINGERS' OUTINGS.**DUNSTABLE RINGERS VISIT OXFORD.**

On Saturday, July 21st, Dunstable Priory Church band, with the choirmen, and accompanied by the Rector (Canon W. W. C. Baker) and both churchwardens, had their annual outing, Oxford being the destination, the journey being performed by charabanc. A fine run to Thame, 26 miles distant, brought the first stop. Permission had been given to ring at the Parish Church, and a well-struck touch of Double Norwich, followed by a touch of Stedman Triples, was rung. A quick run to Oxford was made, the 15 miles being covered in 35 minutes, and Oxford being reached at 11.5 a.m. The party then dispersed, some to service, and others sight-seeing, to meet again to dine in the glorious dining hall at Christ Church, with the members of the Oxford Diocesan Guild.

After dinner a 'snap' of the ringers was taken outside the Cathedral, and some of the members visited the belfry to take part in touches of Treble Twelve and Stedman Cinques; New College was also visited, and Stedman Caters, Superlative and Cambridge Major rung. Several of the six bell towers were also visited the fine-toned ring at Carfax being much enjoyed. Several methods were rung, four Dunstablians taking part in a well-struck touch of Cambridge Surprise. At 9.15 the 40 miles run home was begun, Dunstable being reached just before midnight, after a most enjoyable and happy day's outing. Best thanks are given to the Rev. G. Bowyer for so readily granting permission to ring at Thame; to the officials of the Oxford Diocesan Guild for the welcome given to the visitors; and, lastly, the church authorities for enabling the party to have such a fine day's outing. A. E. S.

BEDFORD DISTRICT RINGERS' TRIP.

The members of the Bedford District of the Beds Association had an outing on Saturday, July 14th. The party, numbering 19, journeyed by motor to Eaton Socon, where they were met by one of the local ringers, and touches of Oxford, Kenf, Plain Bob and Cambridge Minor were rung. The party then made their way to St. Neots, and touches of Bob Major were rung on the fine peal of eight by Taylor. An excellent tea was then partaken of, and a move was afterwards made to Lynesbury, where the visitors were met by Mr. S. Peck, and touches of Plain Bob, Woodbine and Cambridge Minor were rung. On the way home a halt was made at Roxton, and several 120's of Grandsire and Plain Bob brought round, the party arriving at Bedford at 9.30, after an enjoyable day.

STOWMARKET MEN'S TOUR.

The Stowmarket company had their annual outing on Saturday, July 14th. Starting at 7.30 by charabanc, the first call was at Bury, where they were met by Mr. Woods. Several touches were brought round on this nice little ring of eight. Lowestoft was then reached, after a pleasant run of about 50 miles, thunderstorms being met with en route. The handy little ring at St. Margaret's was set going, and some good touches were brought round. Dinner at the Crown Hotel was much enjoyed. After a stroll to the beach the homeward journey was begun via Beccles. Here Mr. Goate had made excellent arrangements. Although the Beccles company were also on their outing everything was in readiness for the visitors, who were sorry their friends were away so that they could not try their hand on the grand old ten bells, but several good touches were brought round on eight, and everyone was pleased with the tone and go. Tea was served at the King's Head Hotel. Calling at Redenhall just to try the celebrated handbells, a course of Grandsire Caters was rung for the benefit of those who had not seen these large handbells. Stowmarket was reached about 10.15 after a most enjoyable outing. The ringing during the day included touches of Double Norwich Grandsire Triples, Bob Major and Treble Bob. The company wish, through the 'Ringing World,' to thank all the incumbents and the steeplekeepers, and all those that helped to make their outing such a success.

DEBENHAM RINGERS' 18-HOUR TRIP.

On Monday, July 16th, Debenham ringers, with their wives, had their annual outing. A start was made about 6.45 a.m., by motor-bus, and a run of 22 miles brought the party to Halesworth, where Mr. F. C. Lambert had everything in readiness. The bells (or ropes, rather) hang in irregular order, viz., 1 7, 2, 6, 4, 5, 3, 8, but this was scarcely noticeable except when in rounds and a couple of good touches of Double Norwich were rung, Mr. Lambert taking part in the second. Beccles was the next objective, and was reached at 10 o'clock. Messrs. Goate met the visitors, and Treble Bob Royal was brought round, also two courses of Stedman Caters. A course of Cambridge on the back eight concluded the ringing, and the party left for Yarmouth. Dinner and tea were provided at the London Hotel. During the afternoon St. Nicholas Church was visited, and a touch of Double Norwich rung on the back eight. Afterwards a course of Stedman Caters and some rounds on the full ring of twelve. Mr. W. Bason, of Fakenham, and Mr. Joyce, of Leytonstone met the ringers, and assisted in these performances. Mr. Hammond, one of

the local men, escorted the visitors to the top of the tower, and pointed out several objects of interest. On the return journey Lowestoft was on the programme, and here some capital touches of Cambridge, Stedman Triples and Superlative were brought round. Debenham was reached at 12.30 a.m., after a full day's enjoyment. The thanks of the ringers are due to the various authorities for granting the use of the bells; also the local men who met them and assisted to make the outing a success.

THROUGH THE WEALD OF KENT

On Wednesday, July 18th, St. Mary's Society, Dover had a day's outing in the Weald of Kent. Touches were rung on the bells at Appledore, where the first halt in the motor tour was made. Then on to Tenterden for luncheon, followed by a short touch on the bells at the Parish Church, also at Cranbrook and Biddenden. Tea was partaken of at Headcorn, after which the party was met by the Rev. G. P. Dale, Vicar of Headcorn, who at one time was curate at St. Mary's, Dover, and who had granted permission for a short touch on the bells. On the homeward trip the beautiful country through Charing and Chilham was much enjoyed. A halt was made at Canterbury Cathedral, but as the bell hangers were there first, the ringers had to content themselves with inspecting the method of tuning church bells. A short convivial took place at the halfway house, where vocal and handbell items were indulged in, Dover being reached about 10.15 p.m., after a very enjoyable day.

A VISIT TO WINCHESTER.

With prospects of a glorious day, a charabanc with its full complement of ringers of St. Mary Abbots, Kensington, their wives and friends, including the Rev. Spackman and Churchwarden Reginald Carter, left the church at 7 a.m. on a Saturday morning for Winchester, arriving at 11 o'clock, after a halt at Farnham for refreshments. Piloted by the churchwarden, a visit was paid to St. Cross Hospital, where the usual horn of beer and piece of white bread, given on demand at the Porter's Hatchway, was partaken of by all. This is one of the last remaining instances of that olden time charity which could make provision for all comers.

A brother, wearing the cross, acted as guide. Passing from the forecourt through the noble tower gateway, one enters the spacious quadrangle, around which are arranged the Brethren's Hall, the quaint dwellings of the brethren, the lofty church, in which things of great interest and antiquity were pointed out.

A move was afterwards made to Holdaway's Restaurant, where a splendid luncheon was partaken of. The next item was Winchester Cathedral, where the visitors rang on the twelve bells and joined afterwards in the service held in the choir.

After tea the return journey was made via the Hog's Back, the view from which is beyond description. St. Mary Abbots was reached about 11.30 p.m., after a most enjoyable and jolly day. Best thanks are tendered to those who helped to make it so.

A SOMERSET EXCURSION.

On Thursday, July 12th, the Weston-super-Mare ringers held their annual outing, which, in addition to other pleasures, consists of visits to various churches for the purpose of campanology, whilst the ringers do not forget to fully appreciate the kindness of the local lady who contributes in no small measure to make these tours such a success. The party, numbering about 20, left Weston-super-Mare by charabanc at 8.15 a.m., the weather being ideal. At Keynsham the parish church bells were requisitioned, and merry touches, mostly Grandsire Triples, rung thereon, after which the party made for the picturesque village of Corston, a few miles distant, where they were welcomed by the Master of the Bath and Wells Diocesan Association. Corston Church contains a very musical light peal of eight, and these were rung for half an hour. The company then proceeded to Bath, where a splendid luncheon was partaken of at the Old Red House. After a ramble around the city, the party made for Twerton, where they received a cordial welcome from Mr. Tom King. Here again the bells were soon pealing forth to Grandsire Triples for about an hour. Mid-somer Norton was the next place on the programme, the scenery en route being delightful.

Tea was partaken of at the Greyhound Hotel, and the company subsequently enjoyed a short musical programme, contributed to by members of the band. The church was the next objective, the ringers being joined by Mr. Joseph T. Dyke, well known in campanology circles. Several touches of Stedman and Grandsire Triples were the tit-bits of the evening, all the band being in good form, and even the 'recruit' exceeding expectations. Despite the climatic conditions, the 'campans' were still in the mood for another 'Turkish bath,' and on arrival at Wells they made for the Cathedral tower, being met there by Mr. Walter Farley, whose kindness in securing the use of the bells was greatly appreciated. Mr. Dyke also motored over from Norton, and joined with the others in several good touches of Grandsire. The majority of the 'fraternity' know something of the far-famed bells at this noble edifice. The framework, which supports them, consists of 33 tons of metal, whilst the

WARWICKSHIRE GUILD.**ANNUAL GENERAL MEETING.**

The sixteenth annual general meeting of the Warwickshire Guild was held in the Birmingham District on Saturday, July 21st. Members were present from Birmingham, Coventry, Stoke Exhall, Erdington, Nuneaton and Sutton Coldfield, together with a number of the Aston ringers. The towers of Aston Parish Church (10 bells) and Erdington R.O. (8), were open for ringing during the afternoon and evening. The Guild's special service was conducted in the Parish Church by the Rev. — Holmes, who also gave an interesting address.

The tea and business meeting followed in the Parish Room by kind permission of the Vicar, the Rev. Canon W. J. Cole. The tea was specially arranged and served by a number of ladies, with Mrs. Phillips at their head, and who kindly assisted.

In the unavoidable absence of the president (the Ven. Archdeacon of Warwick) the Ringing Master, Mr. A. Roberts, presided.—The Hon. General Secretary (Mr. A. Wilkerson) read a report of the Guild's activities during the year, and presented a summary of accounts, which showed a balance in hand of £10 4s. 5d.

The officers were all re-elected, and on the motion of Mr. H. Argyle, seconded by Mr. Jos. Pemberton, were accorded a hearty vote of thanks for their services.

A discussion ensued with reference to the cost of printing the report, the hon. treasurer intimating there were not sufficient funds to meet it.

A resolution was moved asking members who wished for a report to contribute the sum of 6d. towards the cost. A member thought this meant increasing the subscription to 2s., and stated he knew some members could not afford it. He also mentioned two other associations who gave their members the report.

It was pointed out that up to now the Warwickshire Guild had done the same, but it was obvious, with a report costing 1s. 4½d. per copy to print, the working of the Guild could not be maintained at 1½d. per member. It had also to be borne in mind that one of the largest associations had for some years charged 1s. for its report, although it had a balance at the bank running into three figures.—Ultimately the resolution was carried by a large majority.

Stoke-in-Coventry was selected for the next quarterly meeting in October, and five new members were duly elected.

Votes of thanks were accorded the clergy for the use of the bells, to Canon Cole for the use of the Parish Room and arranging the service; to the ladies for providing the tea, and to Mr. Bernard Witchell, district secretary, for his excellent arrangements.

The ringing generally was not up to the Guild's usual standard, the tenor at Aston going badly, while for some reason Major would not 'go' at Erdington. Nevertheless the meeting was enjoyable, and exceeded in several ways the last annual meeting in Birmingham.

THE ANNUAL REPORT.

The Hon. Secretary's report stated that quarterly meetings had been held at Nuneaton, Leamington and Stratford-on-Avon. It was very gratifying to be able to report a meeting at Stratford, after repeated refusals since the year 1909. A very pleasing incident occurred in the tower at Leamington Parish Church, when the new Bishop of Coventry was introduced to a good number of members by the president. The Bishop has also consented to act as patron of the Guild. The monthly meetings on the whole were well attended. During the year 16 new members had joined the Guild, viz., 19 ordinary, five non-resident and one honorary (the Rev. J. L. White, Vicar of Nuneaton). The total membership of the Guild now stood at 281, this number being made up as follows: Hon. life members, 6; hon. members, 8; non-resident ringing members, 89; ordinary ringing members, 178. It was with very great regret that they recorded the death of the Ven. Archdeacon of Coventry Dr. Arbuthnot, and Canon Deed, of Nuneaton, both of whom were honorary members for some years; also of Mr. Geo. Roberts, an active member of the Sutton Coldfield band. There had been a falling off this year in the number of peals accomplished, 19 having been rung, against 33 last year, but that need be no cause for regret as many unsuccessful attempts had been made. The list was as follows: Stedman Cutters 1, London Surprise Major 1, Cambridge Surprise 1, Superlative Surprise 2, Double Norwich 4, Cambridge Court Bob Major 1 (the first in the method on tower bells), Oxford Treble Bob Major 1, Bob Major 1, Stedman Triples 3, Grandsire Triples 2, Treble Bob Minor in two methods 1, Grandsire Double 1. The total number to date was 243. Seven members rang their first peal 26 their first peal in a new method; two their first as conductor in a new method.

DIMINISHED BALANCE.

The accounts showed a balance in hand of £10 4s. 5d., as compared with £22 10s. 6d. two years ago. The four bells at Bulkington were to be overhauled in the near future, and augmented to six by Messrs. Taylor and Co., and it was understood that Coleshill would shortly be augmented to the octave. The Vicar of Bulkington had invited the Guild to open the bells at the dedication. He pointed out that there was still a good sum required for the ob-

ject, and hoped the members of the Guild would do their best to assist with funds. It was a very great pleasure and satisfaction to record the appointment of the president of the Guild as Archdeacon of Warwick. Whilst congratulating the president, they could not disguise the fact that his new office was sure to make great inroads upon his time, and if any young clergyman would assist him with the work of the Guild, he would no doubt feel very grateful. Messrs. H. Argyle and A. Roberts, the representatives on the Central Council, both attended the Council meeting at Salisbury on Whit Tuesday, and thanks were due to them. Thanks were also due to Messrs. F. W. Ashbourne, T. W. Chapman, J. B. Fenton, F. E. Pervin and B. W. Witchell for their work as hon. district secretaries, and to the other officers and members of the Guild for their support and work during the past year; also to the clergy who had placed their towers and bells at the members' disposal, both for peals and meetings, particularly the president and Mrs. Back, and the Rev. and Mrs. Russell, of Whitnash, for their kind hospitality when the meetings were held there. The fascination of change ringing must always be a powerful factor in uniting members together but they had to remember that, as a Guild, their object was to see that the bells were regularly rung for the services of the church, so that they as ringers might thus become more and more recognised as office holders in the church.

PROGRESS AT CONSETT.

A deputation from Newcastle Cathedral Guild, consisting of Messrs. W. H. Barber, Alf. Hillier and A. M. Hall, paid a fraternal visit to Consett tower on Saturday, July 28th, to give a helping hand to a most willing and persevering band of ringers.

The ringing members turned up in very good numbers, and several touches of Grandsire and Stedman Triples were accomplished.

Excellent progress was shown, and the members being eager to accomplish greater things, it was decided to make their first attempt at a peal of Grandsire Triples on Saturday, August 25th, to be conducted by Mr. Barber.

During the afternoon ringing, the party had the assistance of Mr. W. Sinday, the Ringing Master at Blackhill Church where there is a new peal of eight bells, and where great things are expected.

Another ringing enthusiast, the Rev. A. W. Lister, of Tanfield Church, joined the happy party at Consett later in the evening, and help to make the gathering a great success.

KENT COUNTY ASSOCIATION.**TONBRIDGE DISTRICT AT GOUDHURST.**

The summer meeting of the above was held at Goudhurst on Saturday, July 21st, and was attended by over 30 members. Besides the members of the district, the following from other districts were present: Messrs. W. Haigh (Gillingham), G. Pound (Boxley), W. E. Pitman (Canterbury), C. Tribe (hon. secretary, Ashford district). Ringing commenced about three o'clock, and the usual service was held, conducted by the Vicar (Canon Raikes). Tea was partaken of the Star and Crown Hotel, the Vicar presiding, and a vote of thanks was passed to him for the use of the bells, for conducting the service, and for presiding at tea.—The Vicar responded expressing his pleasure in meeting the members.—The business meeting followed. Mr. G. Edwards (Penhurst) in the chair, Canon Raikes having to leave.—Three new members were elected.

The District Secretary (Mr. W. Latter) announced that the work of rehanging the bells at Benenden and Lamberhurst would shortly be commenced.

Votes of thanks to Mr. W. E. Pitman, Mus.Bac., for his services at the organ for the service, and to Mr. G. Edwards for presiding at the meeting concluded the business, and the members adjourned to the tower for further ringing.

The heavy going of the back bells and the hot weather made Major ringing rather difficult work, but some good practice at Stedman and Grandsire Triples was obtained. These bells are a fine peal (tenor 27 cwt.), but they sadly need the attention of a bell hanger.

TUNSTALL'S NEW TREBLES.

Two new trebles have been added to the ring of six at Tunstall, Kent, the new bells being the gift of Mr. Charles E. Homewood, of Uffon Court, Tunstall, in commemoration of his eightieth birthday. Ten years previously Mr. Homewood presented to the church the turret clock, and also had the existing ring of bells tuned.

Mr. Homewood, who, despite his advancing years, enjoys good health, took part in the dedication service. The opening touch on the bells was rung by W. Spice, senr., 1, E. H. Spice 2, Miss M. Harris 3, J. Webb 4, G. H. Spice 5, P. J. Spice 6, H. Lambkin 7, W. E. Spice 8. Afterwards touches of Grandsire and Stedman Triples and Kent Treble Bob Major were rung by mixed bands.

The augmentation was carried out by Messrs. Mears and Stainbank and who have hung the two new bells in a steel frame. The work has been done in a most efficient manner, and great satisfaction has been expressed both with the 'splice' and the excellent go of the bells.

NEW BELLS AT CANNOCK. DEDICATION AND OPENING.

A peal of eight has been added to Staffordshire by the augmentation of the bells at St. Luke's Parish Church, Cannock. Of the old six, two have been recast, and a new treble and tenor added, as part of the church memorial to those of the parish who fell in the war. Messrs. Taylor and Co., of Loughborough, who carried out the work, have rehung the whole ring in the latest fittings, and Cannock has a peal of bells of which it can be proud.

The dedication ceremony was performed by the Very Rev. the Dean of Lichfield, at a choral service which was largely attended.—Mr. R. E. Murphy, who has acted as hon. secretary for the fund for the restoration of the bells, and as the representative of the subscribers, asked the Vicar's acceptance of the gift of the bells. The Vicar then formally placed the bells under the care and guardianship of the churchwardens of the parish, Mr. W. E. Jackson (people's warden) having accepted the charge of keeping and preserving the bells and using them only for the purpose for which they have been given, the Vicar called upon the Dean to dedicate them. Several prayers followed, and the clergy then proceeded to the choir vestry at the foot of the tower, where the Dean offered up a dedicatory prayer, and followed by tolling one of the bells. After a 'prayer of remembrance' by the Dean, the 'Te Deum' was heartily sung.

The Vicar explained that the total cost of the work was £775, and they had £725 in hand prior to that day.

The Dean, in his address, referred to the history and uses of bells, and asked what did bells mean in the early days of Cannock? The place was then a vast stretch of forest land, and was known as Cankbury. The district was wild and as unsafe as Ireland was a year or so ago. In 1259 Henry III. licensed the holding of a market in the place on Tuesdays, and he also signed the statute for the holding of a fair on three days in October each year. This fair was associated with the dedication feast of their church and was fixed for October 15th, 16th and 17th. Legends and inscriptions on bells became the custom in the 18th century. The Dean said he was glad the inscriptions on the old Cannock bells had been wisely preserved. Their bells stood as a token of God and they had a definite message to those who worshipped in that church. The bells told them that all the needs of the people were remembered. It was well that we should by the 'In Memoriam' bells keep sacred the memory of those of the parish who gave all for the sake of right.

The offertory, which was in aid of the Bells Restoration Fund, amounted to £12 6s.

Immediately following the dedication service in the church, rounds were rung on the bells. Amongst those present was Mr. Fryce Taylor, representing the founders. The ringers were all members of the Stafford Archidiaconal Association, and were under the direction of Mr. Herbert Knight, of St. Peter's, Wolverhampton, and included Messrs. E. Mitchell and J. D. G. Harris (St. Peter's, Wolverhampton), T. J. Elton and W. Powell (St. Matthew's, Walsall), Chris. Wallater (St. Giles's, Willenhall), J. Perry (St. Mary's, Brewood), Wm. Fisher (St. Martin's, Coseley), A. Fallon (St. Luke's, Wolverhampton), M. Simfield (St. Paul's, Burton-on-Trent), Bert Horton (St. Lawrence's, Darlaston), R. Pickering (St. Michael's, Tettenhall), W. Bayliss (St. Martin's, Bradley), and Wm. Devey (St. Benedict's, Wombourn, and formerly parish church clerk and vergier at Cannock). They were assisted by Mr. T. Benton, Mr. G. Benton, and Police-Sergt. T. Heath, of Cannock.

The methods rung included Grandsire Triples, a quarter-peal of Stedman, Double Norwich, Plain Bob and Kent Treble Bob Major. Great satisfaction was expressed with the bells, which have the following inscriptions:—

Treble.—'1914-1918. In Memory of Those Who Fell I call to Prayer and Praise, 1923.'

2nd.—'O and G. Mears Founders London 1849.'

3rd.—'John Biddulph Esquire Benefactor Thomas Brown : M and I B : 1747.'

4th.—'Francis Stubbs Edward Salt Matthews and James Bailey made this Ring 1747.'

5th.—'Joseph Willington Gentleman John Tyrear William Maston M and I B : 1747 Recast 1923.'

6th.—'Richard Nickliss Churchwarden Edward Wilson Esquire : M and I B made Me 1747.'

7th.—'William Egington Curate George Blythe Thomas Taylor Church : Wardens : M and I B : 1747 Recast 1923.'

Tenor.—'In Memoriam 1914-1918. Grant Peace on Earth and after We have Striven Peace in Thy Heaven. L. J. Price, M.A., R.D., Vicar. Wm. E. Jackson, Saml. Watkiss, Churchwardens 1923.'

TONBRIDGE.—On July 28th, in connection with the Skinners' Day festivities, at SS. Peter and Paul's Church, 1,312 Double Norwich Major: D. Findley (first in method) 1. W. Latter 2. E. Last 3. H. Harrington 4. G. Thompson 5. D. Vincent (first in method) 6. W. Steed 7. S. H. Treen (conductor) 8. Ringers of 1st, 2nd, 5th and 8th are from St. Peter's, Tunbridge Wells, the rest are Tonbridge men.

BELFRY GOSSIP.

To-morrow is the anniversary of the opening of the little peal of twelve at the Waterloo Tower, Quex Park, Kent. They were erected by Mr. John P. Powell, solely for his amusement, and to attain the art of change ringing, having an eminent tutor for the purpose, who, in patronising this manly art, has evinced a considerable ability in this very abstruse science.

Both the College Youths and the Cumberlands were invited to the opening, and each took a twelve-bell band. The Cumberlands (including William Shipway) rang a peal of Grandsire Cinques (conducted by George Gross), but the College Youths contented themselves with touches during the two days of their stay.

Being in the neighbourhood of Margate, the event attracted a considerable concourse of fashionables, booths having been erected, and the park and pleasure grounds opened to the assembled auditors.

What was probably the first true peal of Grandsire Royal, was rung at Painswick on August 6th, 1815. It is described in the Painswick Youths' peal book as 'Titium Grandsire Royal.'

The peal of Double Norwich Royal rung at Aylsham on Saturday, stated to be the first in the method in the county since the peal at St. Peter Mancroft, 1769, recalls the fact that there is no authentic record left to us of this early peal. In the 'Clavis,' however, the following passage occurs, in connection with the ten-bell ringing in this method: 'The first peal that was rung in the above method was by the St. Peter's company in the City of Norwich on the old peal of ten bells, which formerly occupied that steepole.'

Jasper Snowdon went to considerable pains to verify the record, and although no information was obtainable in Norwich itself, the Osborne MSS. in the British Museum states that the Double Norwich Court method was invented by Thomas Porter, a trunk maker, residing in the Market Place, Norwich, and that the first performance was a peal of Ten-In rung in Norwich in 1769. The actual date of this peal being given, says Mr. Snowdon, strengthens the evidence in favour of its performance.

It was in connection with the practice of Court Ten-In, at St. Peter's at 6 a.m. on Sundays during the summer season, that John Twiddy, the parish clerk who resided near the church, wrote the following lines, which were published in the 'Norwich Mercury':—

Ye rascally ringers, inveterate foes,

Disturbers of those who are fond of repose.

I wish for the peace and quiet of these lands,

That ye had round your necks what ye pull with your hands.

Any ringers, staying in Blackpool, between August 6th and 11th, who would like to try for a peal, should communicate with Mr. C. Sharples, 3, Rutland Gate, Blackpool.

It will be seen from the list appearing on another page that the Central Council's Librarian is still awaiting information with regard to a number of names of the Ringers' Roll of Honour. There are ringers who can clear up these queries, and they will be rendering useful service if they will do so promptly.

Ringers visiting Grimsby or Cleethorpes will be welcome at St. Andrew's Church, Freeman Street, Grimsby, on Sundays, 10.15 a.m. and 5.50 p.m., also on Thursdays, 7.30 p.m.

Congratulations to Mr. F. G. Woodiss on the birth of a son and heir.

The peal of Stedman Triples at Banstead, Surrey, on Saturday, was Mr. T. Benney's first attempt for a peal since the year 1881, prior to which date he was closely associated, and rang numerous peals with many of the most famous men of the College Youths. He rang remarkably well considering his long absence from the ringing world.

A peal was rung at Martley, Worcestershire, on Sunday to celebrate the 250th anniversary of the bells. This ring of six was cast by Richard Keene, of Woodstock, in 1673, each bell having this date cast upon it. The oak frame is also dated 1673. It is supposed that they are the oldest complete original peal of six in the Kingdom. It is most unusual for any old peal to have escaped breakage or recasting for 250 years.

Mr. and Mrs. Rupert Richardson wish to thank all ringers who have sent their kind wishes and congratulations on their recent marriage, and trust they will accept this acknowledgment, as it is impossible to write to each one individually.

A big fete in aid of the bell restoration fund at Sutton-on-Trent is to be held on Bank Holiday, and special arrangements have been made for visiting ringers. A meeting of the North Notts Association is to be held in conjunction with the fete.

THE LIMITS OF FACETIOUSNEES.

To the Editor.

Sir,—Your correspondence columns are, for the present, happily free from displays of bumptious arrogance on the part of controversialists who only succeeded in discrediting themselves by their tone towards those with whom they disagreed. But are we not in some danger of having too much of a very different style, the flippantly facetious? A little of that is all very well, but if overdone it becomes a bore. Will our 'funny' friends please take note?—Yours, etc.

A COMING LEADER.
ONE OF LEICESTER'S BRILLIANT YOUNG MEN.

MR. HAROLD J. POOLE, OF LEICESTER.

That brilliant young Leicester ringer, Mr. Harold J. Poole, recently completed his first 100 peals, and his achievement is really an extraordinary one. Still under 21 years of age, he did not ring his first peal until July 3rd, 1920, so that he very rapidly climbed the campanological ladder. He reached his century inside three years, and crowned many excellent performances by calling the record length of Cambridge Surprise Major. Mr. Poole has a great ringing future before him.

His 100 peals are as follows:—

DONCASTER AND DISTRICT SOCIETY.

The usual monthly meeting of the above society was held at Rawmarsh on Saturday last, July 28th. In spite of wretched weather conditions there was a good attendance of members, those present representing Arksey, Badsworth, Doncaster, Adwick-le-Street, Thorne, Barnsley, Rotherham, and Wath. The bells of the Parish Church of St. Mary were rung at intervals during the afternoon and evening, touches of Stedman and Grandsire Triples, Bob Major, Oxford and Kent Treble Bob Major, and Double Norwich Court Bob Major being brought round in excellent style.

Tea was provided by the wives of the local ringers, and was partaken of in the Institute.

At the business meeting which followed, the chair was taken by the vice-president (Mr. G. Halksworth).

The Secretary reported that the bells of St. Mary's Tickhill, were to be restored, and that the order for the work had been given to Messrs. Taylor and Co., who were to do all necessary repairs and rehang the bells in ball bearings.

A vote of thanks to the Rector for the use of the bells and to the local band for the kind welcome they had given the visitors was proposed by Mr. Halksworth seconded by Mr. C. D. Potter, hon. secretary of the Barnsley and District Society.—Mr. Slocks and Mr. A. Mitchell replied on behalf of the Rector and local ringers.

A new clock with chimes has recently been installed in the tower at Rawmarsh at a cost of £250, and this proved to be an item of interest to the visitors, who expressed the opinion that it was a fine piece of work.

The next meeting of the society will be a joint one with the Sheffield and District Society at Doncaster in September.

WINCHESTER DIOCESAN GUILD.

Despite the inclement weather on Saturday last, a very successful meeting for combined practice was held at North Stoneham, where the handy ring of eight were used to full advantage during the afternoon and evening. Members, representing three districts of the Guild, were present from Bishopstoke, Bournemouth, Portsmouth (St. Mary's), Southampton, Ringwood, Winchester, Upham, and the local company.

A generous tea was provided for the ringers at the adjoining institute, presided over by the curate, in the absence of the Rector, and Mr. G. Williams (Master), at which 25 ringers sat down. After this, more ringing was indulged in, methods up to London Surprise Major being rung.

Thanks are due to Messrs. Tucker and Pullinger for making the necessary arrangements, and also to the ladies who provided the tea.

EALING VICAR'S SILVER WEDDING.

On Saturday, July 28th, the Vicar of Ealing (the Rev. C. J. Sharp), and Mrs. Sharp, celebrated their silver wedding. The members of the Middlesex Association will always recall the warm welcome extended to them by the Vicar and his wife, and it was quite fitting that the bells should be rung in honour of the occasion. Eight members, therefore, assembled in the tower of St. Mary's, and a quarter-peal of Kent Treble Bob Major (1,264 changes) was rung in 46 mins. by L. H. Page (conductor) 1, R. Holloway 2, J. E. Churchill 3, R. A. Fardon 4, J. H. Hunnisett 5, H. J. Hunnisett 6, F. W. Goodfellow 7, H. A. Folkard 8. This was followed by 288 of Stedman Triples, conducted by R. A. Fardon. The bells were lowered in peal, and the ringers adjourned to the Vicarage, where a garden party was being held. The company present were then delighted and surprised by some handbell ringing. Several courses of Grandsire Triples were rung by W. Lawrence 1—2, R. A. Fardon 3—4, F. W. Goodfellow 5—6, H. A. Folkard 7—8. A very pleasant evening was then spent, several playing their first game of bowls.

On Sunday another quarter-peal was rung for evening service. This was 1,260 of Grandsire Triples, and occupied 45 minutes: Miss G. Baker 1, G. W. Stevens 2, J. E. Churchill 3, H. J. Hunnisett 4, J. H. Hunnisett 5, L. H. Page 6, F. W. Goodfellow (conductor) 7, F. S. Palmer, senr., 8.

LADIES' GUILD.
SOUTHERN DISTRICT.

A quarterly meeting was held at Cranleigh on Saturday week, when members and their friends spent an enjoyable time. Ringing commenced about 5.30, and with the help of the ringers from St. Peter's, Croydon, who stopped on their way to Horsham, several touches were rung. The service was conducted by the Rector (the Rev. P. Cunningham), whose inspiring address was much appreciated.

A very welcome tea was served in the Church Hut, and was followed by the business meeting.

It is hoped to hold the annual meeting at Ranmore, and the next quarterly meeting at Sandhurst in December.

The ladies take this opportunity of again thanking the Rector for his kindness and Mrs. Whittington for arranging the tea.

The following towers were represented: Aldershot, Billingshurst, Cranleigh, Crawley, Dorking, Guildford, Pulborough, Seale and Shere.

HANLEY PARISH CHURCH BELLS.**STAFFS PEAL OF TEN RECAST.**

A great acquisition to Staffordshire bells is the recast peal of ten at the Parish Church, Hanley, which were opened on Saturday, July 21st. The bells had been practically unused for five years, but the parishioners cheerfully faced the great effort of carrying out a complete restoration. The cost has been about £1,300 and all but about £65 has now been raised. Messrs. Gillett and Johnston, of Croydon, were entrusted with the work, and they have installed a peal of ten bells, of which Hanley is now justifiably proud, and with which the large body of ringers attending the opening were completely satisfied. The bells, with a tenor of 17½ cwt. have been tuned on the five-tone principle, and hung in a new steel and iron frame, with new fittings and ball bearings throughout. Their position in the tower is lower than that of the old bells, and the improvement in tone that has been effected has greatly delighted the parishioners. At the same time Messrs. Gillett and Johnston have installed a new electric self-winding chime clock, the gift of Mrs. Mountford, in memory of her husband. The clock has four 7ft. skeleton dials fitted centrally in the louvre windows, ten feet higher than the old dials were placed. This clock the first of its kind to be erected, is similar to that at present being installed at the Royal Exchange, London, and in four other churches in the country by Messrs. Gillett and Johnston. There is only one weight and that a small one, attached to the going train, but the most remarkable feature about the clock is that it rewinds itself automatically every 20 minutes, which means a great saving in expense, and obviates the necessity for heavy weights suspended from pulleys at the top of the clock tower. Incidentally, there is more room in the belfry. Compared with the size of the normal weight-driven clock, it has considerably more power.

The dedication of the bells and clock tower took place on Saturday week, the ceremony being performed by the Bishop of Stafford. There were 73 ringers present, representing no fewer than twenty towers, visitors coming from Manchester, Crewe, Burton, Mansfield (Notis), and Braintree (Essex). The opening ringing was done by the local band, assisted by Stoke ringers, viz., Messrs. Hanley, Churton, Alcock, Corner, Cordall, Dale, Cordell, Prohett, Sargeant, Degg and Page. The first touch of change ringing was a course of Stedman Caters by Messrs. Morley, Smith, Aldersea, Page, Ailman, Cordell, G. Clawley, A. Clawley, Fitchford, Miller, this band being picked from the Stoke Archidiaconal Association.

The Church Council entertained the visiting ringers to tea at the Lichfield Street Schools, and after tea, Mr. Sargeant (conductor, Hanley ringers), who has been a ringer at the church for many years, spoke feelingly of the satisfaction all the ringers felt at the reopening of the bells, and the beautiful tone and easy 'go.' He praised the Rector and churchwarden for their efforts in connection with the restoration, and their endeavour to have everything done in the best possible way by a thorough and careful investigation of the various difficult technical questions which had cropped up within the last few months. He heartily welcomed the visitors in the name of the Hanley ringers, and appealed for help to keep the new bells ringing until the local band were strong enough to carry on.

He was supported by Mr. Corner who especially thanked the Stoke and Newcastle ringers for help at handbell practice, and for opportunity to ring in their towers.

Mr. Churton (Stoke) proposed a vote of thanks to the Rector for use of the bells, and to the Council for the excellent tea provided. This was supported by the Ringing Master, Mr. Fitchford (Wolstanton), who said that Hanley had now the finest peal of bells in the association's area.

The Rector (the Rev. H. A. Tamplin), replying, thanked the numerous ringers who had come from all round and helped to make the opening a success. He also wished to thank the ladies who had so kindly looked after them at tea. He especially expressed his satisfaction with the work of Messrs. Gillett and Johnston, whose staff had laboured most strenuously to get everything ready so that the opening should be a success.—Mr. C. F. Johnston suitably replied.

After tea the ringers again visited the church, and touches of Grandsire, Stedman and other methods were rung.

ANCIENT BELLS AT HARWELL.

To the Editor.

Dear Sir,—In reference to the recent inquiry by the Rev. J. F. Hastings as to old rings of six, we have six bells here, the most modern of which was cast in 1615.

The 2nd and 5th were cast in 1590 and 1597, respectively, by Joseph Carter, of Reading, while his son-in-law, William Yare at the same foundry cast the treble and 3rd in 1611, the tenor (diameter 3ft. 10½in.) in 1612, and the 4th in 1615.

They are a fine ring, the tenor being between 18 and 19 cwt. in E, and it is our great ambition to increase them to a full octave. Any contributions however small, will be gratefully received and acknowledged in this paper. A fund was started a year ago.—Yours, etc.

R. G. RICE.

DEATH OF A KENT RINGER.**A PIONEER OF CHANGE RINGING.**

We regret to record the death, on July 16th, after an illness of some months, of Mr. Hubert J. Blackwell, of Chelsfield. He was a well-known ringer in West Kent, and in pre-war days was one of the most enthusiastic and energetic ringers in the Lewisham district.

Sixty-two years of age, and a native of the Weald of Kent, he commenced ringing at Biddenden, when apprenticed in the village. Afterwards he migrated to Penshurst, Mereworth, and then to St. Mary Cray, subsequently taking up a business at Chelsfield, where he had lived for the past thirty years. Most of his early work in the belfry was instilling the art of change ringing into the local bands wherever he was. At St. Mary Cray and Chelsfield he was the pioneer of half-pull ringing, and at each place got the bands far enough to ring several methods of Doubles. Although as in other villages, the bands did not last many years, he had the satisfaction of seeing some of his pupils attain a certain degree of proficiency, among them Mr. A. T. Verrals, of Brighton; Mr. R. Morgan, of Dartford; Mr. J. Emery, of Hershham; and Mr. I. Emery, of Bromley. After a lapse from ringing for a few years, owing to business, he started again about 1905, ringing and travelling considerably.

He rang about 60 peals in various methods up to Superlative, most of them for the Kent County Association. He was also a member of the Ancient Society of College Youths, the Oxford Guild, and the Surrey Association. His busiest time of ringing was when the Lewisham district Surprise party was active, under the conductorship of Mr. F. Bennett. He then rang the treble to many Surprise peals, and many times have that band enjoyed the hospitality, both of Mr. and Mrs. Blackwell at their home at Chelsfield and of his people at the old home at Hawkhurst and Benenden. Prior to the war the deceased was an hon. member of the SS. Peter and Paul's band, Bromley, and for years cycled the seven miles, winter and summer, to practice and Sunday morning ringing, but since the war he stayed at Chelsfield, and devoted himself to good works in the village.

The deceased was secretary of the Village Sports Club, and was mainly instrumental in obtaining a splendid recreation ground for the parish. He was also on the Parish Council, and engineer of the local Fire Brigade. Thus, it will be seen, he was a man of many activities, but he was of such a good and generous disposition, that he never made an enemy, and he died beloved and regretted by all who knew him, especially by those who had been in closest contact with him. His place in the life of the village will be difficult indeed to fill.

He was buried on Friday, July 20th, in the pretty village churchyard, amidst signs of deepest sympathy from the whole inhabitants of the parish. Mr. T. Groombridge, senr., and Mr. I. Emery, two of his oldest ringing friends, attended to represent the Kent County Association, and tender their sympathy with the bereaved.

At a meeting of the Kent Association, held at Crayford on the 21st, a vote of condolence was passed to the widow, and on Saturday, July 28th, a half-muffled peal of Stedman Triples was rung at Eynsford, as a last tribute to his memory by eight members of the Kent County Association. Eynsford is the adjoining parish to Chelsfield, and the tower in which he had rung most peals.

RINGERS AT CRICKET.**CRAMLINGTON BEAT NEWCASTLE.**

On Saturday, the 14th July, the members of the Newcastle-on-Tyne Guild again visited Cramlington to take part in a friendly game at cricket with the ringing members of Cramlington Church, who were championed by Mr. Oswald Simms.

For four hours a well-contested game was fought out in true sportsmanlike fashion, Cramlington eventually coming out winners with a total of 105 runs against the Newcastle Guild 57.

With a little more practice in fielding the losers would put up a very good show, in spite of the varied ages of their team.

As future matches are in store for them it is hoped the suggestion will not be overlooked. Youth will tell.

Tea was kindly provided, presided over by the Rev. T. W. A. Allen (Vicar), who welcomed the members, and trusted the happy gathering would be the precursor of many others.

He was supported by the Rev. Hughes, who is always a host in himself.

Previous to the cricket match the Cramlington band placed a wreath of beautiful white flowers at the base of the village war memorial, in grateful and affectionate remembrance of Brodie John Riseborough, U.F., of whose death in the great war this was the 7th anniversary.

By request, Mr. Wm. Story, president of the Diocesan Association, with a few words in appreciation of the great sacrifice of the deceased, deposited the wreath, and the Vicar offered up prayer, after which silence was kept for a few moments, and then a course of Grandsire Triples was rung on the handbell.

Before returning to Newcastle, several touches on the church bells were rung, which were much appreciated.

RINGERS' ROLL OF HONOUR.

To the Editor.

Dear Sir,—I wish to make an appeal, through your columns, to the Exercise at large for help in compiling this roll.

Below will be seen two lists of names which I have denoted A and B.

In list A, certain names are grouped together which bear a similarity to each other.

I want to know how many persons are described in each group, and, if only one, which place or tower out of two or three has the right to claim that one. To take an instance: Were there two ringers of the name of 'Attwater, E.' killed? If there was only one, should he be described as coming from Streatham or Cuckfield?

In list B, there are certain names given as belonging to Guilds or Associations, but the place or tower is left blank. I want if possible to be able to fill up this blank space.

Secretaries of Guilds and Associations have done their best in the matter, and I now appeal to the friends of these fallen ringers to send me such information—as some of them surely must have—as will enable me to come to a decision in each case.—Yours truly,

CYRIL W. O. JENKYN,

Hon. Librarian, Central Council.

Broadlands, Caversham, Reading.

MIDLAND COUNTIES ASSOCIATION.
NOTTINGHAM DISTRICT MEETING.

On Saturday, July 21st, a meeting of the Nottingham District was held at West Hallam, about 30 members being present from Beeston, Bottesford, Bulwell, Barton, Cotgrave, Ilkeston, Nottingham, Sutton-in-Ashfield, Southwell, Derby, etc. The bells in this tower have recently been rehung and augmented to six with frame trebles for two trebles to complete the octave, Messrs. Taylor having carried out the work in a very satisfactory manner. Tea was provided in the village inn. The Rector (the Rev. A. E. Wicks) presided, and gave a hearty welcome to the visitors. He mentioned that there was still a balance on the wrong side of the bell fund, but he hoped to get this wiped off, and soon to commence to get the octave completed.

The business meeting was presided over by the vice-president (Mr. A. Coppock). Mr. W. E. White suggested that the presentation made to Mr. T. H. Kirkby, the late secretary, should be entered in the minute book.

For the place of the next meeting, Southwell received five votes and Colston Bassett 14 votes, the latter place, therefore, being selected, the meeting to be held on August 25th.

The secretary had received a letter from the president, respecting the Bishop of Peterborough's proposal for a federation of ringers in the Diocese of Peterborough, but the matter was left in abeyance, the members to decide for themselves, as only one tower in this district was affected.

Four new members were elected, viz., two from Eastwood, one from Greasley, one from Shelford.

A very hearty vote of thanks to the Rector for kindly granting the use of the tower and bells, and for placing his gardens at the disposal of the members, was proposed by Mr. A. Moss, and unanimously carried.—The Rector replied.—Some of the ringers returned to the tower, while others sat on the Rectory lawn to listen. A variety of six bell methods was rung on the bells during the afternoon and evening.

NOMENCLATURE OF MINOR METHODS.

To the Editor.

Sir,—Being one of the authors of the 'Lancshires' and 'Immanuels,' it is with much fear and trembling that I admit this great offence of giving a name and number instead of a number. Perhaps if I tell the story of how these two numbers got such outlandish names your correspondent, Mr. Dawson, will understand my fear, etc. Many years ago there was a company of ringers at Immanuel Church, Oswaldtwistle, Lancashire, who, after struggling on in an uphill fight for seven years, were surprised to find they could ring Surprise. This was in 1902. Four years of ebb and flow regarding Surprise, and behold I discovered Immanuel. A few minutes later another of our company discovered Lancashire. The author of Lancashire is Mr. Isaac Whalley. We rang both these numbers on Sunday, May 27th, 1906. Immanuel was named after the church we rang at, Lancashire was given its name, perhaps, because what Lancashire rings to-day someone else will ring to-morrow. The two numbers were then sent to 'The Bell News,' where it was pointed out that Lancashire already had a number, and Immanuel was a new number. The method Oswald Treble Bob I sent to 'The Bell News' a year or two before, and it was found that it was already numbered. I have often wondered if other six bell companies had ever found the two Surprise numbers of interest, never dreaming that they were in such an exalted atmosphere as near London.—
Yours sincerely,
Blackpool. C. SHARPLES.

ENJOYABLE MEETING AT HARLINGTON.

Members of South and West District held a most successful meeting on Saturday, July 14th, at the ancient Parish Church of Harlington, which dates from early in the twelfth century. It has a noble Norman doorway (cir. 1130), the finest of its kind in Middlesex, and an interesting font of transitional character (cir. 1190). The Easter sepulchre—a fine piece of Tudor work (1545) is one of the comparatively few examples which escaped destruction in Puritan times. There are some good windows by Kempe, and the magnificent yewtree in the churchyard, though of untold age, is still in vigorous health. There are six bells dating from 1799, which were last rebung in 1904.

Ringing was indulged in during the afternoon, when a short choral service was held, conducted by the Rector (the Rev. H. Wilson).—The Rector welcomed the association, and dealt at length on the good the Guild meetings did. It helped to foster brotherhood among ringers, and oftentimes, when some were at variance, it helped to renew the spirit of harmony which is essential to make these meetings a success.

After service, the party adjourned to the Schoolroom for tea, to which 45 ringers, the choir and organist sat down. The Rector presided over a merry party of over 60. Harlington strawberries were in abundance.

At the meeting which followed, the usual vote of thanks was accorded to the Rector and all who assisted to make the meeting such a success.

The Rector was elected an honorary life member, with a promise of the tower and members to be affiliated later, providing the hon. secretary sent an instructor to assist them. On the secretary's appeal to the meeting a volunteer was found at once.

Handbell ringing on the lawn, and later another visit to the tower brought a red-letter day at Harlington to a close.

'ONE-MAN' JOBS.

From time to time instances come to light emphasising the great disadvantage, we might almost say the folly, of relying upon one man for the discharge of offices connected with ringing matters. We have often pointed out how, sooner or later, ringing is bound to suffer in those towers where all the conducting is left in the hands of one man, either through the selfishness of the conductor or the indifference of the other members of the band, who, having no ambition, are content to leave matters to a single individual. After a time the inevitable happens. The conductor moves away to another district, or from some other cause, it may be illness or death, his connection with the tower ceases. Then comes the collapse of the band as a competent change-ringing unit, for it seldom happens that in such cases the need of the hour produces the man capable of carrying on from the point where his predecessor stopped.

When a similar state of affairs arises in connection with an association the position is much more serious. More than once of late a ringing organisation has found itself without an occupant for a secretaryship. The most recent instance is in the Salisbury Guild, where Mr. C. H. Jennings, who took a leading part in founding the Dorchester District twelve years ago, and has been its hon. secretary ever since, has found it necessary to resign office on account of his removal from the district, following upon a long illness arising out of his war experiences. For two years past, we are told, he has been asking his fellow-members to find a successor, but apathy or lack of interest all the while the secretary remained in office led to nothing being done. Now the district has come to the definite resignation of its chief official it is unable to find anyone willing to undertake the duties. The spade work which Mr. Jennings did before the war, and resumed for a time afterwards, has largely been lost during his enforced absence from the district, which goes to prove how quickly a retrograde movement can set in when the 'mainspring' is removed. It is hardly creditable to the Dorchester District that they should be unable to find a successor to the late secretary, for the work that lies before the branch should be surely an incentive to some member of the Guild to shoulder the task. At the same time there is a lesson to be learned by all who are responsible for the organisation of ringing associations. There ought always to be available an understudy for the essential offices of an association, and wherever there is a secretary there should be an assistant secretary who could take over the duties in any emergency, even if in normal times his position may be a sinecure. In our view, however, an assistant secretary might always find some useful work to do.

PETERBOROUGH AND DISTRICT ASSOCIATION.

The annual meeting was held in Peterborough on August Bank Holiday, when members attended from Chatteris, Wisbech, Fleet, Crowland, Alwalton, etc. with the local hands. Also amongst those present were Mr. and Mrs. Rupert Richardson (Surfleet), Mr. and Mrs. Frank Hairs (London), Mr. W. J. Nevard (Great Bentley), Mr. A. J. Trappitt (Beddington), and friends from Loughborough, Cambridge and Collingham.

The President (the Dean of Peterborough) presided over the business meeting, supported by Canon A. C. Neely, R.D.

Fourteen new members were elected, and the officers were re-elected, except the secretary (Mr. J. J. Jutson), who stated that he must retire owing to other duties.—Mr. J. Carman was elected to the office.

Canon A. C. Neely conducted the service, and gave an address. Miss K. A. Jutson presided at the organ.

The methods rung during the day included Superlative and Double Norwich Major and London and Cambridge Minor.

ESSEX ASSOCIATION.

A meeting of the North-Eastern Division of the Essex Association was held at Tendring on Saturday, May 12th, when 24 ringers from nine towers attended, and ringing was kept up during the afternoon and evening. Choral service was held, conducted by Canon Tollington, and the ringers were entertained to tea through the kindness of the Vicar and churchwardens.—After the business meeting was over, Mr. Nevard (Master) proposed a hearty vote of thanks to the Vicar and wardens.—This was seconded by the hon. secretary (Mr. R. W. Stannard, of Colchester), and the parish warden responded.

THE EDITOR'S SWORD OF HONOUR.

IRENÆUS AS ARMOURER.

'Irenæus Pistor' has been at it again! Established as Armourer-in-Chief to the Exercise he has now presented the Editor with a new sword, a neatly fashioned instrument wherewith to let the blood of 'hot heads' among the Exercise. It hangs in the editorial sanctum, ready for duty.

It arrived in company with an 'address,' the latter duly sealed with tape and wax, and providing a further illustration of the humour of 'Irenæus.'

Greetings and Salutations to all at ye Goldsmith Kastle.

For ye worthy hands of my Lord of Woking.

These—

By ye honoured conveyance of ye King's Postal Service—

Whereas—

We have been informed by your Lordship's Master of Horse that at ye investiture of Sir Peppery, Your Lordship's worthy sword didst suffer greatly by ye laying ye same on ye 'Hot Stuff.' We regret to learn that ye sword is become soft, and that ye temper is drawn at ye spot where it came in contact with ye other NITE aforesaid.

Wherefore with hast—post haste—we didst comand ye King's Armourer to proceed without loss of tempus to fabricate, make, and manufacture ye enclosed weapon to replace ye damaged one.

Therefore, my Lord of Woking—your sword—we pray that your Lordship Haxcept ye same, trusting in ye fidelity of my Lord that ye same be used to preserve (ye piece) for many years. And further, it is our one will, wish and command that Your Lordship will not let ye trusty blade become tarnished, but with a vigour as of yore ye will let it go with a Whirr, Hum, Boom, Ring, Twang, Bang, Clang, Clink, Tingle, Jingle, and with a Rattle, Clatter, Chatter, Patter, on ye whole Hexersize.

Given at our Castraorum.

Under our hand and seal (ye Simpson Ring).

IRENÆUS WRECKS.

PERSEVERANCE NOT REWARDED.

I was one day visiting a member of our band of ringers, who was noted for his laxity in ringing matters, and who also kept a large quantity of fowls.

Noticing one hen very closely 'sitting,' I ventured to hold her up as an object lesson to illustrate how the desired accomplishment in change ringing could be attained by diligence and perseverance.

Look at that hen, I exclaimed, see how patiently she 'sits,' knowing full well she will be rewarded by a fine brood of young chicks at the end of her labours. That hen's patience, he exclaimed, will never be rewarded if she sits from now till doomsday; she is sitting on a Pitcher egg.

THE CRITICISMS OF 'CRITICUS.'
MUSINGS ON DIVERS TOPICS.

The period of the year upon which we are entering is known to many people as the 'silly season,' because it gives rise in the Press to discussions on a variety of subjects, some of them sensible and wise, many of them lame and ridiculous. All the rest of the year the newspapers rigidly exclude these controversies—they have not room for them, their columns are filled with something more interesting (perhaps!) if often as silly. Now that the judges and lawyers have gone for their long holiday, and Parliament is, or soon will be, 'up,' these two founts of material are temporarily dried up, and the opportunity is provided for the big gooseberry growers, the champion mangold wurzel merchants, and a multitude of cranks, to let themselves go in the newspapers. It is the one time in the year when their contributions are welcomed—well, perhaps not welcomed, but tolerated by editors in the effort to keep things alive.

Being one among the multitude above referred to and having noticed that the dog days and holidays have had a visible effect on the number of peals which usually fill so many of the columns of our own journal, it has occurred to me that the Editor might possibly 'tolerate,' if not welcome, the outcome of some further musings of an amateur penman.

One of the subjects which I have long been tempted to express my views upon is that much debated topic of peal points. Probably the Exercise doesn't want to know what my opinions are, and certainly will take little notice of them, but the Central Council has soon got to do one of two things, either make the peal points what they were originally intended to be—a competitive standard—or do away with them altogether. Personally I am for wiping them out, and mainly for two reasons. In the first place competition in peal ringing is out of place in connection with something which we like to associate with church work. The Council have to some extent eliminated the spirit of rivalry, which point scoring creates, by publishing the analysis in alphabetical form; why, therefore, bother about points at all? And after all the competition, such as it is, is really fictitious, and must be unless every ringer is to be compelled to confine his peal activities to one association and one only.

Some ringers in London, for instance, ring peals for five or six different societies in the course of a year. Where, then, is the competitive value of their performances? A footballer is not allowed to score goals for one team one week and for another team in the same competition the next week, and then revert to the first club or go on to a third in the following week. This would be absurd, but it would be no more absurd than the present practice of ringing peals for a number of different societies — if the peals are to be treated on a competitive basis; and what is the use of a scale of points if they are not?

My second objection to points for peals is that they do not, and, indeed, cannot represent the true value of a performance in the majority of cases. Eight points are allowed for a peal of Bob Major. Are these points intended to represent a peal of maximum quality or minimum quality in regard to the striking? I shall probably be told that they represent all qualities—but if I am, it is an argument in favour of my statement that points do not represent the true value of the majority of the peals rung, because, if points are to be of any value, they must represent a standard. I could multiply the illustrations of the futility of the present point system, if it were necessary to do so, such as the worth of a peal where all or a large proportion of the ringers are 'first pealers,' the question of the weight of the bells, or even of their good or bad 'go.'

There is, however, one other feature in which the allocation of points is unsatisfactory, and that is in the comparison which is made between one method and another. A method may not present anything like the same difficulty to one band that it does to another. Some people I know look upon Bristol Surprise Major as a method as terrible as London to ring. Having rung a good many peals of both, my opinion is that Bristol is more to be compared with Superlative than with London and to me it never presented any more difficulty. I just refer to this, to show that a peal of, say, Bristol, may be a much bigger task to one band than to another, although, in all round ability, the men may be practically equal. Moreover, points for peals on higher numbers seem to be allocated by rule of thumb. The committee have, I suppose, to adopt some method when confronted by a fresh performance, and rule of thumb is the easiest, but we have read from the opinions of those who know, because they have rung the method that the number of points for Stedman Sextuples, compared with Cinques, is not commensurate with the increase in the value of the performance. Double Norwich Maximus is another method about which those who have rung it say there are by no means adequate points allowed.

Then there are the handbell peals. Can anyone of experience contend that a peal of Stedman Triples does not want more ringing than a peal of Stedman Caters? If Stedman Caters were all turning courses it would be different, but there are only two courses in an ordinary peal of Stedman Caters that are of any real difficulty to an accomplished hand. And again, ought not Carter's Odd-Bob peal of Triples rung non-conducted to count for more than Thurstans

composition with a conductor, or a short course peal of Stedman Cinques more than a peal in the titlums throughout? These and many other points illustrate how little real value there is in peal points, and bring me back to my first assertion, that the Central Council should make them represent what they are supposed to indicate—which, I contend, is practically impossible—or drop them altogether.

Let us continue to have the annual analysis by all means. It is a useful and valuable compilation, which is of more than passing interest, for it sets out in compact form what has been done during the year, and brings together under one comprehensive review all the doings of all the peal ringers. But the points—phut!

A paragraph in 'Belfry Gossip' last week gave me cause to think. Court Ten-In was rung in Norwich in 1769, we were told. Now, where did this name come from? The prefix of Norwich we can understand, but whence came the designation 'Court,' and how and when did 'Ten-In' become Royal? I raised a similar question in a letter published in 'The Ringing World' a week or two ago. And why 'Surprise'? One can guess how this may have crept into the ringing vocabulary, but 'Rob,' and 'Court,' and 'Royal,' whence came they? Many of these odd names have become such an integral part of our ringing language that we seldom stop to think of their origin. Cannot someone among the learned in our art tell us how we got these queer names for we must admit they are queer? They are just as quaint to outsiders as, for instance, such words as stymie and niblick in golf are to me. We are still adding to the outlandish and unsuitable terms which we are applying to our art, but when are we going to bring into common usage those terms which the Council many years ago adopted, in completing the series from Treble Bob and Delight, to Surprise—Passalatera and Passalatera? I cannot pronounce them, and I am not sure that I have spelt them rightly, but some day, perhaps, we shall read of a peal of New Geranium Passalatera Maximus. It is quite possible, but what a name!

Everyone must have been interested last week in the compliment paid to that brilliant young Leicester ringer, Harold Poole, by the publication of his photograph. His ringing record is one of great achievement, but had he been less fortunate in the company to which he is attached his genius would likely have been effectively quenched. There are many centres, even to-day, where only one Caesar is permitted to reign, where the recognised bob-caller sees to it that no other is given a chance to become a conductor. Such an attitude is more than short-sighted, and Leicester ringers will probably be enjoying the fruits of their policy long after many hands, with the 'one and only' on the box every time, have disappeared. It is necessary to have a leader, but the leader's duty is not only to lead, but to train others to the task. There are among the ringers of to-day many brilliant young men. Some, like Harold Poole, are given their opportunity, others are held in leading strings. Jealousy has no place in the belfry, but ability and ambition need to be encouraged.

TORQUAY.—On April 30th, at the Church of St. Mary Magdalene, Upton, Torquay, a quarter-peal of Grand sire Doubles, in 52 mins.: W. Dilling 1, J. Olding 2, F. Plymsol 3, G. Browning 4, A. W. Bowers (conductor) 5, J. Mayne 6, J. Hawes 7, J. Mathews 8. J. Mathews belongs to the local band, the remainder to Cockington. Rung with 6, 7, 8 covering.

RINGERS' OUTINGS.

BURGHILL RINGERS' EXCURSION.

On Saturday, July 28th Burghill ringers, Herefordshire, had their first annual outing, the funds for which were collected by Mr. Ivor Probert and his handbell party last Christmas. The party included Mr. O. Edwards, the Guild Ringing Master, and tutor of the band, who had been invited to accompany them, and to make arrangements for towers and refreshments. The proceedings commenced with a practice at Burghill on the preceding evening when, with the help of the brothers Taysom, of Hampton Bishop, Stedman Triples were rung. Leaving Burghill at 7 a.m. on Saturday, Kington was the first stop, and Grandsire and Stedman Doubles and Bob Minor were rung, the local men having everything in readiness even at this early hour. The next call was at Old Radnor, for a pull on this fine peal of six (tenor 15 cwt., by Rudhall, which require no Simpson tuning). Grandsire Doubles and Bob Minor were rung at New Radnor, where there is a peal of five, with a tricky lot of guides (which are unnecessary) just above the ringers' heads. These caused some difficulty, but after several attempts two 120's were scrambled through. The party then proceeded to Rhayader, for lunch, and afterwards went on to see the Birmingham Waterworks, which are a marvellous sight, and a feat of great engineering skill. On the return journey a halt was made at Builth Wells for tea, and a pull on the six bells there, the local men having everything in readiness. A call was made at Glasbury for a pull on the eight, Grandsire Triples being rung, with Mr. J. P. Hyett, who had cycled over to meet the party. Home was reached at 10.30 p.m., after a pleasant and successful outing.

THE VAGARIES OF 'LIZZY.'

On Saturday, July 21st, All Saints' Youths, Worcester, set out to Shakespeare's country, Warwick and Leamington, for their outing. A pleasant run of 25 miles brought them to Stratford-on-Avon. Here the party broke up for a short stroll round the town to view Shakespearean monuments, the poet's house, and the church, the only regret being that the visitors were not able to ring on the bells. Reassembling at 11.15, a start was made for Leamington. This proved a slow journey, 'Elizabeth' showing a strong objection to hustle. Arriving eventually, however, a ramble round the town, the public gardens, etc., was much enjoyed, as was the performance of the band of the K.O. Scottish Borderers. Dinner was nicely served at the Victoria Cafe, Regent Street, after which a visit was paid to All Saints' tower, where there is a very handy peal of eight. Touches of Bristol, Cambridge and Stedman were successfully rung, before proceeding to St. Mary's, Warwick. On the very fine peal of ten, Stedman Caters and Treble Ten were indulged in, and a longing created to attempt a peal on them. After tea St. Nicholas' Church was visited, and London, Stedman and Double Norwich rung. A move was next made to Henley-in-Arden, the ride embracing many hills and beautiful views, and 'Elizabeth' was put on its metal taking nearly an hour to cover eight miles. The party were met and heartily welcomed by Mr. Colley, London and Cambridge Minor and Grandsire Doubles were rung before a hurried call was made at Wooten Wawen. There are a strange medley of bells, two being cracked one flat, and three decent bells. A short touch of Cambridge Minor was all time allowed for, and the party then prepared to make tracks for home, but they had reckoned without 'Lizzy.' She had a voice in the matter, or rather she refused to give voice without a great deal of winding, much inspection, and many anxious looks. She did eventually break into song amidst much cheering and devoutly expressed wishes that she could afford to keep it up. But alas and alas, the effort seemed almost too much for her. Progress was mostly 'in the slow,' and at most of the hills she seemed to lose all sense of direction, the whole party having to dismount and show her the way up. Eventually home was reached in the small hours of Sunday, and wound up what will be a memorable outing by dispatching two of the party on their ten-mile cycle ride, and three others to the Malverns in another motor. The writer being due in Shrewsbury at 9 a.m. on the Sunday, was only able to have the proverbial 'forty winks.'

SOUTHGATE RINGERS' TRIP.

The annual outing of Christ Church Society, Southgate, took place on Saturday, July 21st, when a party of fourteen left by charabanc for Herefordshire and Bedfordshire. St. Nicholas' Church, Harpenden, the first tower on the programme, was reached, via Hatfield, at 3.15 p.m., and an hour's ringing took place. Mr. Jarman, of the local band, and two visitors, taking part. The journey was then resumed to St. Mary's Church, Luton. Here the party were met by Mr. A. King, local secretary, and an excellent meat tea was served at Plimmer's Restaurant. Afterwards ringing took place at the parish church, several of the local hand joining in the touches. The journey was then continued to the Priory Church of St. Peter, Dunstable where a good hour's ringing ensued on these beautiful bells. During the day the

methods rung ranged from Grandsire Triples to London Surprise Major. The homeward journey was commenced at 9.15 p.m., via St. Albans, and Southgate was reached at 11 p.m., all having had a most enjoyable time.

The band desire to express their thanks to the respective local ringers, who so kindly met them or made the necessary arrangements, also to the incumbents of the three churches visited for granting permission to ring on their bells.

ST. ALBANS RINGERS IN ESSEX.

A most enjoyable and successful charabanc trip into Essex was undertaken by St. Albans Cathedral Society, on the occasion of their annual outing. The party, numbering 15, set out at 8.30 a.m. for Bishop's Stortford, which was reached about 10.30 after a pleasant journey through Hatfield, Hertford and Ware, the spot where the rain greeted them. At St. Michael's, Bishop's Stortford, the party were met by Messrs. H. J. Tucker and Springham, of the local hand, and touches of Stedman Caters and Triples and a course of Double Norwich were rung on the very fine bells. The party then left for Braintree, where they were met by Mr. C. H. Howard (Master of the Essex Association), but who was unable to stay with them owing to business claims. Lunch at the Nag's Head Hotel was followed by a visit to the church tower, where the handy ring of eight were set going to touches of Stedman and Double Norwich. Several of the local hand visited the belfry during ringing. At St. Mary's, Bocking, which was the next call, the party were met by Mr. L. W. Crow, of the local hand. The bells, a ring of eight do not go as well as some would like, and the visitors found a difficulty in settling down to good ringing, owing to the bells being rung anticlockwise. Not many of the party having experienced this before, courses of Stedman and Bob Major were all that were attempted before departing for Sible Hedingham. Here the party were met by Mr. L. Wiseman, and the good peal of eight were rung to Stedman, Double Norwich and Treble Bob, the visitors being assisted by members of the local company. After ringing, the party adjourned to the Chapel House for tea, hastily prepared and served by Mrs. Brett, a close friend of one of the party. After tea, handbells, kindly lent by Mr. L. Wiseman, were brought into use, and a short touch of Grandsire Caters and a course of Grandsire Cinques were successfully brought round. A start was then made for Saffron Walden, which was reached, after a delightful run in the cool of the evening. Reaching Saffron Walden an hour and a half after the prearranged time, the visitors had been 'given up' by Mr. Pitstow, but this gentleman readily returned to the tower to welcome the party, when acquainted of their coming. The bells were soon raised and set going to Stedman Cinques, which, however, came to grief. With the help of Mr. Pitstow, Mr. Penning, and another member of the local company, another touch was attempted, but this too soon came to grief, as also did a course of Grandsire Cinques, but a short touch of Stedman Caters and a course of Double Norwich were successfully brought round. At 9 o'clock a start for home was made, and all went well until Bishop's Stortford was reached, when fog was met with, which considerably hampered the journey. St. Albans not being reached until about 12.30 a.m. One and all agreed that a good day had been well spent, and wish to thank the respective incumbents for the use of the bells, and those gentlemen who met the party and had their towers in readiness for use.

TAUNTON RINGERS' OUTING.

On Saturday, July 7th, St. James' Guild, Taunton, had their annual outing, accompanied by a few friends. The party, numbering 22, left Taunton at 7 a.m. in a charabanc and motor-car, and a run was made to Yatton, where the eight bells were raised in peal, and several touches of Grandsire and Stedman Triples brought round. After an hour's stay, tracks were made for Portishead, where the genial Ringing Master, Mr. Gillingham, had everything ready. Grandsire and Stedman Triples, Plain Bob and Double Norwich Major were struck in admirable style on the handy eight bells, which are in a thorough going order. After lunch a visit was paid to Emmanuel Church, Clifton, to reach which the famous Suspension Bridge was crossed, and some splendid views of the surrounding neighbourhood were obtained. After a few touches of Grandsire, Stedman and Bob Major, the journey was continued to Long Ashton, where the visitors were met by Mr. Yeo. The heavy ring of eight, with a 31 cwt. tenor, were raised in peal and several touches including Kent Treble Bob Major were excellently rung. Barrow Gurney was the next call, and here Mr. Clements met the ringers. Several touches were tapped off in first-class style, and after lowering the bells, the visitors inspected the pre-Reformation bell, which rests on the belfry floor. This bell was very much admired, as was also the most beautiful church. The last place on the programme for ringing was Wraxall, where there is a fine peal of eight bells, with a 25 cwt. tenor. Touches of Grandsire, Stedman and Bob Major having been brought round, the bells were lowered in peal. After tea, the homeward journey began, Taunton being reached at 10.30, after a thoroughly enjoyable campanological out-

ing. The ringers wish, through the medium of the 'Ringing World,' to thank the incumbents for the use of the bells, the steeplekeepers for having everything ready, and all others who assisted in making the day such a splendid success.

A TRIP (THROUGH DORSET.

The ringers of All Saints' Church, Castle Cary, with their wives, had an enjoyable charabanc outing on Saturday, July 21st. Weymouth was their destination, but several belfries were visited en route. Leaving Castle Cary at 8 a.m., the party proceeded to Marston Magna, where the bells were raised, and a course of Grandsire Doubles rung. Yetminster was the next call, where after a ring, the party were shown over the church and Memorial Hall by the Vicar and Mrs. Morgan, who kindly supplied refreshments. Journeying through some of the most beautiful scenery in Dorset, the company arrived at Fordington St. George, where some of the local band received the visitors, and gave them a very pleasant time, both on the bells and conducting the party around the church. The last ringing place was Upwey, where there is a light peal of six and a very quaint old church. The short ring there was much appreciated alike by visitors and villagers, who nearly filled the church. Weymouth was reached at 3.30 p.m., and a busy time was spent till 6.30, when the return journey was begun, Cary being reached at 10.20 p.m., after a most interesting day.

AMONG SUFFOLK BELLS.

On Wednesday, July 4th, the ringers of Thornham Magna, Suffolk, had their annual outing by motor. Ringing took place on the peal of six bells at Finborough, the six at Monks Eleigh, and the six at Preston. At the latter place the visitors were met by Mr. A. Symonds, who had assisted with the arrangements. After dinner at Lavenham, and ringing on these famous bells, the party went on to Sudbury, but were unable to ring at All Saints' Church owing to illness. Touches were, however, rung on the peal of eight at St. Gregory's, before going on to Boxford and Hadleigh. After tea the journey was continued to Stowmarket, where further ringing was done. The methods rung on six bells were Oxford, Kent and Cambridge Surprise, and on eight bells, Oxford, Kent, Double Norwich Major and Stedman Triples, the touches being conducted by F. F. Poppy, G. Cattermole and J. Souter (Diss). The rest of the company included E. Youngs, A. J. Berry, C. Nunn, J. Betts, H. Moss, G. Kemp, F. Hayward, G. Brown and B. Chilvers, together with the Rector of Thornham Magna (the Rev. E. F. Bingley).

MINOR WITH DOUBLE BOBS.

A further step in extending the interest of Minor ringing has been made by a peal, which we recorded in our columns a few weeks ago, in seven Treble Bob Methods, in each of which bobs are called with the treble behind as well as in front, sometimes with bobs in one place only; sometimes with them 'doubled,' that is to say, a bob behind followed in the next half lead with a bob in front. The composition is the result of the ingenuity of Mr. J. W. Parker, of Sunderland, and it was rung, as will be remembered, by the band of Minor experts at Norbury, Cheshire.

BELFRY GOSSIP.

On August 12th, 1776, a peal of 6,012 Grandsire Caters was rung at Leicester, and on August 17th, 1812, a 5,000 Oxford Treble Bob Royal was rung at Coventry upon the famous bells of St. Michael's Church—now, alas, no longer hanging in the steeple.

The first peal of Cambridge Surprise Maximus was rung at Ipswich on August 15th, 1908, and the first peal of Double Norwich Major in Wales, at Rhyl on August 13th, 1883.

Strange conditions exist in some belfries. At Ellesmere, Salop, a paid band of call-change ringers, ring for Sunday services, but a young and enthusiastic band are permitted to practise change ringing for a short time each week. The latter have just rung their first quarter-peal.

Mr. F. S. Wilson's many friends in the ringing world will be pleased to hear that his wife, who had to undergo a very serious internal operation some six weeks ago, is now making good progress towards recovery. It is hoped that she will in the near future be able to leave the nursing home in Norwich and return home.

Chevalier Denyn, the great carillonneur of Malines, who has been in England for the opening of the Loughborough carillon, visited Cattistock, Dorset, and gave a farewell recital on the carillon in the church tower. Several hundred people visited the small village to hear the bell music, which was rendered in the master's inimitable style.

There are still names in the Ringers' Roll of Honour about which the Central Council's Librarian is awaiting information. Will those who are able to help in this matter please do so at once?

The ringer of the 5th in the peal of Bob Major at Willesden on July 24 was R. A. Fardon, not Farndon, as stated.

ST. ANDREW'S, NORWICH.

To the Editor.

Sir,—The interesting article on St. Andrew's bells in your issue of July 20th, led me one morning recently to pay a visit again to the deserted belfry—one of our numerous Norwich wrecks. I speak, of course, of the bells, and not of the church, which has had of late years much care lavished on it, and which is not only the second largest of our ancient parish churches of Norwich, but next in point of interest to St. Peter Mancroft.

In the early days of my acquaintance with our art, and shortly before the bells became derelict—some time in the 1890's—I recollect ringing on the ten bells. In those days a ringer usually went once to St. Andrew's, and once only. The story goes that the late Jasper W. Snowdon, on being taken to the belfry, exclaimed, 'Is this the place where they rang London Surprise? Well, let's be getting back to St. Peter's.' The bells are rather 'a wild lot,' and in this connection, it is not without significance that so long a period as 17 years elapsed after the opening in 1825, before a peal was accomplished on the ten.

But my object in going the other day to this half-forgotten belfry was to see what I might of those details, as to which your correspondent seeks information up to date.

First, as regards the order of the ropes. Alas, there are no longer any ropes, beyond those belonging to a chiming apparatus. Mr. C. E. Borrett, who has kindly looked up his records, assures me that the ropes did fall in the unusual order named, viz., 1, 3, 2, 7, 10, 5, 4, 6, 9, 8.

Then as to tablets. There are only three tablets on the belfry walls—one of stone recording (as stated in your article), the augmentation of the ring to ten in 1825; and two others of wood, of but indifferent workmanship. Of these latter, the one records a peal of 7,360 Oxford Treble Bob, Nov. 16, 1837, and the other, two peals—(a) 5,088 Treble Bob, Dec. 5th, 1823, and (b) 5,040 'Grandsire Tripples,' Feb. 23rd, 1824. There are no tablets in the belfry to the two peals on the ten bells—Treble Bob Royal, May 5th, 1842, and Stedman Caters, Sept. 15th, 1842—and I do not think there ever were tablets to these peals.

In the 'East Anglian,' an archaeological journal, the first number of which appeared in 1858, and which contains complete records of all the ancient 'steeple-boards' in the Norwich belfries, I find records of the St. Andrew's tablets in volume 1, No. 28, but only the two tablets to the 8-bell peals are there noted. It would be most interesting, therefore, to learn whence Mr. Jerram heard of those tablets to the ten-bell peals. By the way, it has always been reported that the composition of that peal of Stedman Caters in 1842 was false.—Yours very truly,

GEORGE P. BURTON.

THE FIRST PEAL OF NORWICH ROYAL.

AUTHENTICATED BY OLD NEWSPAPER EXTRACTS.

Referring, last week, to the first peal of Court Ten-In, rung at St. Peter Mancroft in 1789, we said that there was no authentic record left to us of this early peal, except that it was referred to in the 'Clavis' and in the Osborne MSS. in the British Museum. Mr. T. E. Slater, of Hunts Hill, Glensford, Suffolk, however, sends two extracts from 'The Norwich Mercury,' which should certainly set at rest any doubts upon the matter.

In his 'History of Double Norwich Court Bob,' the late Mr. Jasper Snowdon wrote with regard to Royal, that 'the first mention of a peal of Royal is the one said to have been rung on the old ring of ten bells at St. Peter's, Norwich. Although nothing beyond what has already been stated concerning this peal (summarised in 'Belfry Gossip' last week) is known to me, and I am informed by more than one old Norwich ringer that there is now no further knowledge in Norwich of its having been performed, I am unwilling not to let it have the benefit of the doubt and, therefore, give it a place

'Christ Church, Spitalfields. This drawing is in commemoration of an excellent peal rung in this church by a friendly society, on Saturday, Feb. 28th, 1801, consisting of 5,040 changes of Court Bob Royal in 3 hrs. and 37 mins. This great performance (being the first in this intricate method) is highly esteemed for the correct striking and harmony it produced, and cannot be equalled but by the same exertion and perseverance, which must ever reflect honour and credit to the performers: Thomas Smith 1, James Purser 2, Joseph Ladley 3, William Beard 4, John Reeves 5, Anthony Cavalier 6, William Troup 7, Charles Barber 8, John Noonan 9, Edward Bartell 10. The above peal was composed and conducted by Mr. Noonan.'

The second peal referred to by Shipway was recorded on a tablet in Shoreditch belfry in the following terms:—

'Cumberland Youths. This inscription will hand to posterity the unparalleled abilities displayed in the performance of a peal that was rung in this steeple, on Tuesday, 7th April, 1801, of 5,220 changes of Court Bob Royal in 3 hours 37 minutes, being the first ever rung

ST. PETER MANCROFT, NORWICH.

In this famous tower many historic peals have been rung, among them the first of Norwich Court Bob Royal and Maximus referred to in the accompanying article.

in these records. I also wish to place it upon this list, so that by keeping it still before the eyes of the public, if any corroborative evidence of its accomplishment yet exists, it may be brought forward.'

'Shipway,' adds Mr. Snowdon, 'mentions two peals of Royal rung in his time.'

'This and the following peal of Royal were rung in 1801. The 5,040 at Christ Church, Spitalfields, by a band selected from the principal societies of ringers in the Metropolis, and on a tablet in that steeple it is stated to be the first peal ever rung in that intricate method. The 5,200 was rung at St. Leonard's, Shoreditch, by a band of the Society of Cumberlands; consequently by that Statement, they are the first and only Society that has accomplished so arduous an undertaking.'

The tablet recording the peal at Spitalfields was destroyed in the fire of 1836, but a copy of it is preserved in the Osborne MSS. The board was surmounted by a drawing of the church, and the inscription was as follows:—

by any society in that intricate method. Composed and called by Mr. George Gross, senior, Mr. George Lassigned, junr., Master; Mr. William Thompson, Mr. John Baker, Churchwardens; Geo. Gross 1, Geo. Gross, junr., 2, James Nash 3, W. Shipway 4, J. Poulden 5, John Hints 6, M. Channon 7, T. Reeves 8, Samuel Bowling 9, W. Stephens 10.'

Mr. Slater now gives us the following extract from the 'Norwich Mercury,' which seems to have recorded pretty faithfully all the important doings of the Norwich ringers:—

'St. Peter Mancroft.—On Monday, April 17th, 1789, 5,040 changes of Porter's Peal of Court Bob upon Ten Bells was rung at St. Peter of Mancroft by the Ringers of that Parish, which they completed in 3 hours and 29 minutes.'

Unfortunately no names are given with the record. In the year 1816, the year in which Shipway published his 'Art of Ringing,' in which appeared the extract given above, another notice of the Norwich peal was inserted in the 'Norwich Mercury,' the Norwich Scholars, apparently, being annoyed when they found that Shipway

had omitted all reference to their peal. Mr. Slater gives us the extract as follows:—

Notice.—Norwich, November, 1816.—In a recent publication on the intricate science and ingenious art of change ringing it states that Court Bob Royal a peal of 5,040 was rung at Christ Church, Spitalfields, London, by a band chosen from three of the London Societies in the year 1801. This musical and intricate peal was composed in this city by Mr. William Porter in the year 1751, and rung by the Norwich company on the old ring of ten bells at St. Peter Mancroft Church, a complete peal, 5,040 changes, on Monday, April 17th 1769, and called Norwich Court Bob Royal, which performance continued 3 hours and 29 minutes.

This evidence, we think, will fully establish the peal of 1769 at Norwich as the first in the method, and provides the corroboration which Jasper Snowdon hoped might be forthcoming.

It is interesting to note that in addition to the first peal of Royal, the first peal of Norwich Court Bob Maximus was also rung at St. Peter Mancroft; this was on January 20th, 1817. The tablet recording the peal is as follows:—

Monday, January 20th, 1817, were rung in this steeple 5,016 of that most ingenious and intricate peal, Norwich Court Bob Maximus, in 4 hrs. and 2 mins., without the miss of a bell, or repetition of a single change. This peal very much resembles Norwich Court Royal on Ten; there being very short dodging on the bells before and behind, and tenth's place at the bob. The ingenuity of its composition, and the bold and regular striking reflect great credit on the company, and are allowed by judges to be a performance which, if ever equalled, can never be surpassed. It is the first peal ever accomplished in England in that intricate method on twelve bells; was conducted by Robert Chesnut and rung by the following persons: Robert Chesnut treble, Peckover Hill 2, John Giddens 3, Charles Gittings 4, Samuel Havers 5, Charles Kelf 6, George Hames 7, John Trowse 8, Joseph Lubbock 9, Thomas Hurry 10, Nathaniel Beales 11, Samuel Thurston and Matthew Smith tenor.

HERTFORD COUNTY ASSOCIATION.

A very successful meeting took place at Great Wymondley on Saturday, July 28th. Members were present from Kington, Hatfield and Hitchin to meet the local band. At the meeting which followed tea at the Green Man, Mr. G. E. Croft was voted to the chair, and one new member (Mr. Lindsey) was elected. Owing to the Rev. Gallop being away on holiday, no service could be arranged for, but he returned home in time to greet the members in the tower before they dispersed.

The usual votes of thanks, together with more ringing in the Minor methods, well struck, ended a pleasant half-holiday with the bells.

The tower is considered a good example of the Perpendicular period, and was restored, together with the church, in 1884. One of the bells dates back to 1595. Some of the Norman windows remain in the apsidal chancel. The chancel arch and the south doorway are good Norman specimens. F. R. B.

KENT COUNTY ASSOCIATION.

LEWISHAM DISTRICT MEETING.

The quarterly meeting of the Lewisham district was held at Crayford on Saturday, July 21st. The bells which were recently rehung by Messrs. Mears and Stainbank, were made good use of during the afternoon and evening, touches in methods from Grand sire Triples, to London Surprise Major being accomplished. Service was held at 5.30 p.m., the association form being used, and an interesting address was given by Canon Gustavus Jones (Rector).

The members then adjourned to the Parish Room, where tea, kindly provided by the churchwarden, and others, awaited them. Nearly fifty sat down, including the Rector, churchwarden and organist. The business meeting followed, the Rector presiding.

The election of Miss M. Nye, previous to a peal, was confirmed, and Lewisham was selected as the place of the next meeting.

A vote of condolence was passed by all standing in silence, with the widow and family of the late H. J. Blackwell, of Chelsfield, whose funeral took place the previous day, and the district secretary was asked to convey the same to Mrs. Blackwell.

A hearty vote of thanks was accorded the Rector for the use of the bells, his address, and presiding; to Mr. Docker, F.R.A.M., for his services at the organ; to the churchwarden and others for the splendid tea they had provided, and the ladies who had waited at table.

The Rector, replying, said it had given him great pleasure. He had intended being away, but had put off going in order to be with them (applause).—Mr. Docker also said it had been a pleasure to him; he enjoyed the music of the bells, and it might interest them to know that he played the first tune on the bells of St. Andrew's, Wells Street, previous to their being rung.

This concluded the business, and a course of Stedman Caters and Grand sire Cinques were rung on the handbells, before the tower was again visited.

THE BELLS OF ST. MICHAEL'S MOUNT.

Mr. J. R. Jerram writes: There are six bells in the tower at St. Michael's Mount, Cornwall, but only the tenor is hung, and this 'dead' in the middle of the bell chamber, for the clock to strike upon. The other bells are lying useless on the floor, and two of them are cracked.

The original peal consisted of five pre-Reformation bells, with 'black-letter' inscriptions. In 1785 they were augmented to six, by recasting the second, which was cracked, and adding another bell between it and the treble, which was fully a note sharp with the old second. The following are the particulars and inscriptions, as taken by Mr. Dunkin in 1873.

Treble.—'Ordo Potestatum.' In black-letter with Lombardic capitals. Diameter 24-inch. Lying on the floor, but apparently sound.

Second.—'Come away, make no delay 1785.' In Roman capitals, with inverted Vs for As. Broken and lying on the floor. By Rudhall. Diameter 26½ inches.

Third.—'Charles and John Rudhall fecerunt.' In Roman capitals. Broken, and lying on the floor. Diameter 27½ inches.

Fourth (on the crown).—'Spiritus Sanctus est Deus' (round the shoulder). 'Gabriel Sancte Paule, Ora Pro Nobis' (on the waist: Ordo Virtutum—Maria'). In black-letter, with crowned Lombardic capitals. Lying on the floor, but apparently sound. Diameter 30 inches.

Fifth (on the crown).—'Filius est Deus' (round the shoulder). 'Raphael' 'Sancta Margareta Ora Pro Nobis' (on the waist) 'Ordo Archangelorum.' All in black-letter, with crowned Lombardic capitals. Lying on the floor, but apparently sound. Diameter 33 inches.

Tenor.—'Soli : Deo : deuter : (sic for 'detur') Gloria : 1640 : O O O O (4 coins of Charles I.) I : P.' By John Pennington. In large Roman capitals. The G in 'gloria' is reversed. Diameter 35½ inches. Hung 'dead' for the clock to strike upon.

Evidently the original tenor was inscribed 'Pater est Deus,' and probably the name 'Michael.' From Dr. Borlase's MS. we find that the old second was inscribed: 'Sancte Nicholae Ora Pro Nobis'—'Ordo Precipatum.'

Not only are the disused bells lying on the floor, but the whole of the bell frame has been taken away. Can anything be more deplorable than the present disgraceful condition of these bells?

RINGERS' ROLL OF HONOUR.

To the Editor.

Dear Sir,—I wish to make an appeal, through your columns, to the Exercise at large for help in compiling this roll.

Below will be seen two lists of names which I have denoted A and B.

In list A, certain names are grouped together which bear a similarity to each other.

I want to know how many persons are described in each group, and, if only one, which place or tower out of two or three has the right to claim that one. To take an instance: Were there two ringers of the name of 'Waite,' killed? If there was only one, should he be described as coming from Twickenham or Bishop's Cannings?

In list B, there are certain names given as belonging to Guilds or Associations, but the place or tower is left blank. I want if possible to be able to fill up this blank space.

Secretaries of Guilds and Associations have done their best in the matter, and I now appeal to the friends of these fallen ringers to send me such information—as some of them surely must have—as will enable me to come to a decision in each case.—Yours truly,

CYRIL W. O. JENKYN,

Hon. Librarian, Central Council.

Broadlands, Caversham, Reading.

SALISBURY DIOCESAN GUILD.

DORCHESTER BRANCH SECRETARY'S RESIGNATION.

Prolonged absence from the district through ill-health prevented the hon. secretary of the Dorchester Branch of the Salisbury Diocesan Guild from calling a meeting in the district until a temporary return enabled him to arrange a meeting at short notice on Saturday week in order to transact the annual business. The meeting was held at St. Peter's Institute, Dorchester, and was presided over by the chairman of the branch (Mr. R. N. Dawes), supported by the hon. secretary (Mr. C. H. Jennings). The towers represented were Dorchester St. Peter's, Fordington St. George, Buckland Newton, Wyke Regis, Wool, Swanage, and Bridport, and there were also visiting ringers from Bridport (Mr. T. Hervey Beams, assistant general secretary of the Guild) and Bristol (Mr. W. A. Cave).

The Rev. G. C. Niven, R.D. (Rector of St. Peter's), and his warden (Mr. F. G. Longman) were also present, and the last named extended a hearty welcome to the branch, but regretted that they were that day to receive the resignation of their hon. secretary. A number of apologies for non-attendance were received. Major C. C. Hughes D'Aeth (Master of the Guild) wrote that he should like to have been present to have thanked Mr. Jennings for the good work that he had done for the Guild, and the Rev. F. Ll. Edwards (general secretary), in his letter, referred to the successful work of Mr. Jennings, whom he described as a standing model of the energetic type of secretary. Appreciative tributes to Mr. Jennings' services were also read from the Rev. E. S. Field (Buckland Newton), Rev. A. L. Helps (Puddletown), Rev. C. A. Phillips (Wimborne branch secretary), and Mr. Martin Stewart (late Master of the Guild). Apologies for absence were also announced from Messrs. J. T. Godwin (Dorchester), W. Bedford (Bere Regis), and Williams (West Lulworth).

The annual report was presented as follows: 'Unfortunately the secretary has been out of the district, in hospital since May last, and since his departure we have held no further meetings. Two quarterly meetings were held—the first at Wool, where some excellent practice in change ringing was obtained; the second at Hilton, but owing to inclement weather this meeting was not well attended. The secretary paid three visits to Bere Regis, during February and March, to give the local band an insight into the art of change ringing. Unemployment among our ringers has taken them to other districts, and particularly the tower of Wyke Regis has suffered heavily, and we have lost the assistance of Mr. Wiffen a most valuable change ringer, which is greatly regretted. We also regret that Mr. John Bengor, owing to pressure of work, has resigned the deputy mastership. We are pleased to still retain his assistance, and we trust in the near future to see him at his old post again. We thank our honorary members for their continued support, also the Rev. H. A. Caryl, and the Rev. J. G. L. Anderson and his Church Council for providing tea at the meetings and the great assistance they gave; also Major D'Aeth and our chairman who assisted in the absence of the secretary, and Mr. Bedford (Bere Regis), who has given great assistance to the Guild. Our sympathy is extended to one of our old and respected members, Mr. T. Page (Upwey), in his late illness. In conclusion, the secretary would like to thank all the members for their kindness in writing to him while he was away.'

The financial statement showed a balance in hand on the year's working of the branch of £4 17s. 3d., in addition to which savings certificates of the value of £27 are held.

The election of officers resulted as follows: Chairman, Mr. R. N. Dawes; Ringing Master, Mr. G. T. White; Deputy Master, Mr. Runyard (Wool).

The meeting next received with much regret the resignation of Mr. Jennings as hon. secretary, a position which he has filled with distinct credit for twelve years, and relinquished on account of his removal to Bristol.—The Chairman voiced the regret of the members at losing the services of Mr. Jennings, and he eulogised his valuable work for the branch, and also for bell ringing in general.—Mr. T. Hervey Beams also added his tribute to the work of Mr. Jennings.

Mr. W. A. Cave made a special appeal to the members to find a secretary, as he knew it was a great worry to Mr. Jennings that he should be left with the responsibility of the district while living away from it. It would be a load off his mind if someone would come forward and carry on the work.

Several of the members were invited to take over the duties of hon. secretary, but as no one would accept the office it was left in the hands of the chairman and Mr. Jennings to try to get someone to fill the vacancy.

Mr. Jennings, in expressing his thanks to the members for their kindly sentiments, mentioned that he was the means of forming the branch twelve years ago, and no one regretted more than he did that he had to leave the district. His great ambition was to see the bells in some of the lovely towers in Dorset augmented to eight in number. Heartily did he thank his brother ringers for the great kindness they had shown to him, and the splendid fellowship that had existed among them during the past twelve years would be one of his happiest memories and never be forgotten. If at any time he

could be of assistance to the Guild he should be only too pleased to do all he possibly could. Mr. Jennings having mentioned that his wife had carried on the secretarial work during the time that he was laid aside in hospital, the Rev. G. C. Niven said that she was deserving of a special vote of thanks (applause).

It was reported that at the annual meeting of the Salisbury Diocesan Guild, the suggestion was brought forward from the Dean of Salisbury that the Guild should associate itself with the diocesan war memorial by providing oak panelling for the screen in the memorial chapel in the cathedral with an inscription commemorative of those ringers who gave their lives in the war. The branch unanimously decided to subscribe £2 2s. towards the fund, and also £1 1s. towards the expenses in connection with the reception of the Central Council at Salisbury last Whitsun.

In response to the kind invitation of the Rev. B. S. Field it was resolved to hold the next meeting of the branch at Buckland Newton.

Votes of thanks were passed to the Rector of St. Peter's for granting the use of the institute for the meeting, and to the chairman for presiding. Both before and after the meeting ringing took place on the bells of St. Peter's and Fordington St. George.

AMONG THE FLOWERS.

AN EXTRACT FROM THE DIARY PEPYS DID NOT WRITE.

Monday.—Being somewhat dismay'd at the action of the Central Council towards the naming of the Minor Methods, did seriously think of writing to the Editor of 'The Ringing World' relative to the deplorable fiasco, which impels one to ask oneself the question, who is more fit to name the methods, those who have the practical ringing of them, or those who only bother with the theory? when the mayd brought in a note from that gaye batchelor: 'The Walrus,' stating 'that the tyme hade come to talke of many things.'

Like the 'tyke' he is, I knew he was again indignant with the Council, which had classed many of his favourite Yorkshire methods as unsuitable for the C.C.C., for failing to see eye to eye with the Methods Committee in the naming of certain Treble Bob methods after flowers. I found him more soberley inclin'd than was once hys wont. He talk'd to me with deep feeling on the troubles of the Methods Committee, and complain'd bitterly of the ridicula metted out to the names of flowers, which are much nicer than the names of many places. Says he, 'the old Yorkshire methods which bear the names of flowers are still being rung in preference to the more modern ones, it is not the name of it which takes, but its work.' If a method bore a good name, but was of poore construction, it would never be rung. The critics to be taken notice of, were those who ringe the six-bell methods, and not those who deliberate round a table. The rope end is the place to criticise, and why is nothing sayd about a name like 'Superlative,' which, according to my dictionary, means 'Implying or expressing the highest degree.' This is neyther a flower nor a place, and as a method, is not in the highest degree.

After we had drunk our tay, he begg'd me to excuse him smooking a cigar, as he prefer'd a pipe, it was also, he sayd, more economic, and he bemoan'd the money he had wasted on idle luxury in the past. Knowing him so well, I ask'd him to shew me his latest methods and compositions, he having a specially fine taste in this matter, and much zeal in pursuing his hobbie, when—'Lord, Mr. Pepys,' says he a trifle pettishly, 'I have abandon'd such follies, and I hope to spend my tyme to more advantage and godliness.' 'How, for example?' asked I. 'Gardening is a very worthy and healthy pastime,' says he very gravely, 'and although I have never yet had a spade or a trowel in my hande, I contemplate growing flowers and other things, and so passing away my hours usefully when not ringeing.'

'Walrus,' says I, rising and giving him my hand in true sympathy, 'I understand all the signs and portents. They never vary. The reform'd rake gets rid of all the incriminating evidence. He takes to a pipe and cheap tobacco, and prattles about gardening . . . when is the wedding?'

'Next month,' says he with a sheepish smile. 'Right,' says I, 'we will ring a peal of flowers, and then have a jolly night together, smoking Coronas, and discussing the merits of "Dandelion" as compared with "Wigan." And so to bed.

SAM PEPYS, HIS GHOST.

STAVELEY, DERBYSHIRE.—On Sunday evening, for Divine service, a quarter-peal of Bob Major (1,264 changes), in 47 mins.: A. Markwell, senr., 1, D. G. Palmer 2, S. Smedley, senr., 3, A. E. Parsons 4, H. Stow 5, W. T. Palmer 6, F. Smith (conductor) 7, W. Allwood 8. This was also rung to commemorate the 50th anniversary of the birth of Mr. F. E. Parsons, the local secretary, who was unfortunately prevented from taking part at the last moment. The ringers of 6th, 7th and tenor belong to the Chesterfield company.

HEMEL HEMPSTEAD.—At St. Mary's Church, for evening service on Sunday July 8th, 720 Bob Minor: N. Walker 1, W. H. Newell 2, H. Gates 3, J. Floyd 4, W. Shephard 5, H. Golding (conductor) 6, E. Lee 7.

YORKSHIRE RINGERS BUSY.

The following ringing took place by arrangement kindly made by Mr. A. E. West, of Sutton, near Hull. On Tuesday, June 19th, a visit was made to Kirk Ella, where touches of Oxford and Kent were brought round. These are nice toned bells (tenor about 20 cwt.), but 5th and 6th require overhauling, as they go badly. From here the journey was continued in Mr. West's motor to Hessle, where there is a very handy ring of six, which go like 'tops.' Oxford, Kent, Cambridge Surprise and Woodbine were brought round. On Wednesday, June 20th, the motor was again brought into use, the destination being North Cave, with its splendid peal of six. A 720 of Cambridge Surprise was rung here, followed by touches of Oxford, Kent and Woodbine Minor, and Bob Doubles, the latter included so that the Vicar of North Cave could take a rope. While ringing the Cambridge a visitor appeared, in the person of Mr. Robbins, formerly of Wortley, Sheffield, who took part in the Oxford and Kent. On Friday, June 22nd, at Sutton, touches of Killamarsh, Cambridge Surprise, Oxford, Kent and Woodbine were rung. The ringers who took part in the above were Messrs. H. Howell G. P. Williams, Thos. Morton, G. T. Miller and J. Jackson, of Hull; A. E. West, J. Calvert, H. Rodmell L. Rodmell, and another, of Sutton; and J. Heckingbottom, of Denton, Manchester. The thanks of the visitors is hereby extended to the respective Vicars for the use of the bells.

THE OXFORD DIOCESAN GUILD.

The subject which has for some time past agitated the minds of certain members was again before the annual meeting of the Oxford Guild, as will be seen by the report which has just been furnished to us. The question of holding the annual meeting in Oxford for a succession of years has led to a strained feeling, which has developed, in some cases, into "passive resistance" action by the withholding of subscriptions, and, in the case of one tower, as has already been reported in these columns, to a definite determination to withdraw from the Guild. The whole question of where its annual meeting shall be held is, of course, purely a domestic one for the Oxford Guild to decide, but recent action of some of the members does introduce a question of policy which, if generally followed, might eventually lead to the disintegration of ringing societies. The fixing of Oxford as the venue of the annual meeting has been perfectly constitutional, for the rules provide that the members shall in annual meeting each year fix the place of the meeting for the following year, and withholding subscriptions or seceding from the Guild is not the democratic way of getting an alteration made in the practice which has been adopted. Instead, it is the first step to revolution, which might end in the disruption of an organisation that, for more than forty years, has been doing excellent work, not only in the interests of its members, but in the advancement of the Art which it was established to promote.

As we have more than once pointed out, there is much to be said in favour of changing the place of meeting in an area with wide boundaries and few facilities of intercommunication, and where this policy has been adopted it has usually been attended by success, although this is not always the case. Whether it would be so in the Oxford Diocese is a matter that only experience would prove, and it is for the members of the Guild to decide whether they will make the experiment. What we desire to do, however, is to urge the members of the Guild who may feel aggrieved that Oxford has once more been selected for the annual festival to take steps to test the feeling of all the branches before resorting to secession or "passive resistance"—the logical outcome of the latter is only loss of membership. A resolution placed upon next year's agenda and moved in reasoned terms would in all probability enable a postal vote to be taken which would ascertain the views of every affiliated band. Indeed, we can hardly believe that, knowing the feeling which exists in parts of the diocese, those who assemble next year at Oxford would refuse such a demand. At any rate, the exercise of patience, and the application of all the constitutional means open to members, should be resorted to before any steps, which might lead to a split, are adopted.

A NORTH NOTTS VETERAN.**DEATH OF MR. WILLIAM HARGREAVES, OF SHIREOAKS.**

By the passing away of William M. Hargreaves, perhaps the most interesting personality in the village of Shireoaks, Notts, becomes a memory—but a memory that will be lasting and fragrant. Had he lived until October 11th he would have been 93 years of age, being the oldest inhabitant of the parish. The North Notts ringers particularly will miss him very much, for he was one of the most popular men in the association. No greater proof of this is needed than the immense number who assembled at the church and graveside to pay their last tribute of respect to the veteran. Mr. Hargreaves' chief hobbies were gardening and bell ringing, in both of which he took the greatest interest and pleasure. How delightful it was to see him wheeling home in his harrow his garden tools and produce in his 90th year. At six-bell ringing he was a splendid striker and safe conductor.

He had visited all the principal towers in North Notts and Derbyshire, and would walk from Shireoaks to Beighton and back (just after the six bells were installed in the Shireoaks tower in 1864) to get an insight into the art of change ringing. The writer of these lines well remembers the little anecdotes he told of meeting Jim Kitchin and Harry Banks, and other old members of that place. They invited him as he stood in the doorway inside the tower, to come in and ring and asked him if he 'could do owt. If so, tak off the coat, lad.' With this little introduction he and his brother John worked assiduously to establish at Shireoaks one of the best six-bell companies in North Notts. He succeeded in ringing and conducting his first peal of 5,070 changes in seven Treble Bob methods at the age of 66 years—a splendid performance at that period of life. This was the first six-bell peal by all the company, and also the first six-bell peal by the association.

There are three survivors of that band left, Messrs. Fitzjohn, Hall, and F. Hargreaves (a nephew), who ring regularly for Sunday services. The deceased veteran rang and conducted well until his 88th year, and then loss of memory compelled him to retire when he could not conduct a 720. The writer walked 22 miles on a Sunday 33 years ago, and Mr. Hargreaves succeeded in getting him through his first four Treble Bob, 720's during the day, for he was always pleased to help all young ringers.

The deceased was laid to rest on Monday, July 30th in Shireoaks Churchyard, on the south side of the old grey town. He thus fittingly reposes beneath the sound of his own beloved ring of bells.

NORWICH, ST. EDMUNDSBURY & IPSWICH ASSOCIATION.

A general meeting of the Norwich Diocesan Branch of the Norwich, St. Edmundsbury and Ipswich Diocesan Association was held at Swaffham on Bank Holiday, when, by kind permission of the Rev. F. Keeling Scott (Vicar), the ring of eight bells of the parish church of SS. Peter and Paul was placed at the disposal of the members.

Luncheon was served at the George Hotel, the general secretary (Mr. Arthur L. Coleman) being in the chair, in the absence of the president (the Dean of Norwich). The chairman was supported by Mr. W. J. Howson (district secretary for East Dereham), and representatives from Gressenhall, North Elmham, Diss, Dereham, Fakenham, King's Lynn, Shouldham, Shropham and Waddington.

The Chairman proposed the toast of 'The King,' which was cordially honoured.

The General Secretary said before the business of the meeting was transacted he would call upon the members to elect a chairman to preside over the business meeting, and Mr. F. R. Wilby was voted to the chair.

The general secretary submitted the following nominations for membership: Mr. William Pickworth, Southgate, London, life member (non-resident); Mr. Ernest Naylor, Miss Gertrude Berwick, Mr. Fredk. H. Crook (re-election). The following elections prior to peals rung were ratified: Mr. Charles Bunting, of Wisbech; and Mr. Samuel Bird, of Rumburgh.

The General Secretary reminded the members that he had to prepare a financial statement to lay before the annual general meeting on October 4th next, and appealed to those members who had not paid their subscriptions for 1923 to do so as soon as possible, either to their respective district secretaries, or direct to himself.—Mr. Coleman said before leaving this important matter he would like to add that subscriptions were due on the 1st January of each year, and he trusted that all outstanding subscriptions would be paid in before the annual general meeting.

The meeting then closed with a vote of thanks to the Vicar of Swaffham for his kind permission for the use of the bells of the parish church.

BELFRY GOSSIP.

Many are the ringers who have taken part in peals on the famous ring of twelve at St. Martin's, Birmingham, and a few more were added to the number on the Tuesday following August Bank Holiday, when the band included H. E. Audsley, of Crayford, Kent, J. T. Dyke, of Midsomer Norton, Somerset, S. J. Hector, of Trowbridge, Wiltshire, and W. Knight, of Bristol. Another visitor was W. H. Barber, of Newcastle-on-Tyne, but this was not his first visit to the Bull Ring. After the peal a very pleasant social hour was spent, when upwards of thirty ringers and friends were busy renewing old friendships and making new ones.

The Rev. R. H. Hart-Davis, who has just resigned the treasurership of the Oxford Diocesan Guild, was one of the founders of that organisation. He was hon. secretary for many years, succeeding the Rev. Dolben Paul, and filling the office with much success until 1911. Since then he has been an equally able 'Chancellor of the Exchequer.' Although advanced in years, he still retains an active interest in the Guild, of which he has for over 40 years been one of the pillars.

We hear that a certain well-known ringing clergyman is shortly to join the ranks of the benedicts. No, do not ask us who it is—wild horses will not drag the name from us.

The first peal of Stedman Caters rung by the Cumberland Youths was performed at Shoreditch on August 23rd, 1788. It is described in the society's peal book as 'a true peal of 5,184 Grand sire Caters on Stedman's principle, in 3 hrs. 47 mins., being the second peal ever performed in that method.'

The peal was composed and called by John Reeves, and was the first which William Shipway rang with the society, he having come to London in the year 1785.

It was John Reeves who composed and called the first peal of Stedman Caters, rung at Horsleydown, by the College Youths in 1787, so that he must have left the Ancient Society to join the Cumberlands.

CHESTER DIOCESAN GUILD.

ANNUAL FESTIVAL AT HYDE.

REV. A. T. BEESTON'S RESIGNATION.

If bells, as ancient records say, were dispersers of storms, they have apparently lost their power, for they failed to drive away the rain on the occasion of the annual festival of the Chester Diocesan Guild, held at Hyde. The attendance, in consequence, was comparatively small.

Service was held in the Parish Church, and the Vicar (the Rev. H. J. Graham) gave an address. Dinner followed, and afterwards the general meeting was held. It was rather a memorable one in the Guild's history, many items of importance being considered, the chief of which was the resignation of the Rev. A. T. Beeston from the hon. secretaryship after sixteen years' service. It is regrettable that his services in this capacity are no longer available. He has, however, not wholly severed his official connection with the Guild, but will act as hon. treasurer and representative on the Central Council.

Mr. E. W. Elwell, of Capenhurst, was unanimously elected to fill the vacancy. Mr. H. Fairclough was re-elected to the Mastership, and Mr. Ashmole (Northwich) as the other representative on the Central Council.

Much discussion arose over the curtailed report. Such curtailment was found to be imperative, and the committee referred to the matter as follows: 'In view of the serious financial state of the Guild, we realise the necessity of reducing our usual expenses as much as possible. This will explain the curtailed form in which our report appears. We have taken this step with real reluctance, and very much regret its necessity. This is a time of stress and strain which is being universally felt, and, therefore, such as claims an united effort to "carry on." We feel it is incumbent upon us to say this, and to urge our fellow-members loyally to further the objects for which we stand in every possible way. We are certain this alone is the surest and quickest way to return to normal and easier conditions.'

On the recommendation of the committee, £5 each was granted to the Nantwich and Macclesfield bell funds. With reference to the latter, notice was given that the bells were to be dedicated by the Lord Bishop of Chester on Sept. 12th, and that it was hoped that a 'ringers' opening' would follow in due course.

Mr. J. Norbury, retiring representative on the Central Council, gave a brief summary of the meeting at Salisbury.

Following upon the resolution of the Crewe branch for the revision of the branch areas, a special committee was formed to go into the matter, and also to take necessary steps towards making some suitable acknowledgment of the services of the retiring hon. secretary.

Macclesfield was fixed as the place of the next annual festival, to be held on August Bank Holiday, 1924.

After a vote of congratulation to the band which rang the record peal of Treble Bob Major on the previous Saturday, the usual votes of thanks were accorded to the authorities and all who helped to make the meeting as enjoyable as possible under the weather conditions which obtained.

NORTH NOTTS ASSOCIATION.**PRESENTATION TO THE HON. SECRETARY.**

Sutton-on-Trent was en fete on August Bank Holiday, when the sports and gala day, in aid of the Church Bells Restoration Fund, was held. An interesting feature was the visit of the North Notts ringers, who were present from Anston, Shireoaks, Southwell Cathedral, Blyth, Cuckney, Chesterfield, Treeton, Gainsborough, Mistoron, Collingham, East and West Retford, Ordsall, Gamston, North Collingham, Wigan, Worksop, and also the local company. A great variety of methods was rung on the new peal of six bells, including 720 each of Oxford, Kent, and Plain Bob, Touches of College Pleasure, Single Court, Duke of York, Graudsire and Stedman Doubles, and London and Cambridge Surprise were also rung during the day.

A substantial tea was provided for the ringers in the Church Institute, presided over by the Rev. C. T. Bartley, Vicar of Sutton.

The business meeting which followed was of an interesting character. Mr. Hopkins, of Lancham, reported that Laxton wished to become affiliated, and it was unanimously decided that they be accepted, on making application in writing to the hon. secretary.—It was decided to hold the next meeting at East Markham on September 1st.

At this point, Mr. Hargreaves, of Shireoaks, called upon the Vicar to make a presentation to the hon. secretary (Mr. H. Haigh, of Worksop), in recognition of his 36 years' good work on behalf of ringing. For the last twelve years he had been hon. secretary of the association, and during his tenure of office seven new towers had been added to the roll, and the finances doubled.

The Vicar said he had not known Mr. Haigh very long, but he recognised him to be a hard and conscientious church worker. It was a difficult task for a secretary to please everybody, and very often a hard worker received more kicks than ha'pence. He had every pleasure in asking Mr. Haigh to accept, in recognition of his services, a new Humber cycle, subscribed for by 160 members of the association. He (the speaker) had ridden his own machine for 29 years, and it was still in good condition, and he hoped that he and the secretary would have the best of health, and would be riding their 'bikes' another 30 years (applause).

Mr. Haigh said the presentation did not come to him as a total surprise. He had every reason to believe that his work had been appreciated for many years, because they were never in a hurry to kick him out of office, or find fault at the annual general meeting. He would greatly value the gift, and would value still more the hearty and spontaneous manner in which the ringers had answered Mr. Hargreaves' call for subscriptions to the presentation. He would also realise, whenever the ringers saw him on his machine, that they were all shareholders, but if they asked him for a ride on the new 'bike' they must not be offended if he declined to give them one (laughter). He thanked Mr. Hargreaves and his small committee for the way in which they had undertaken the work of collecting the subscriptions (applause).

Mr. Hargreaves, in reply, said it had been a labour of love, and he thanked the members for their response.

Ringing was afterwards continued in the tower until 8.45 p.m., when the bells were lowered in peal; meanwhile, the lady ringers from North Collingham had acquitted themselves very creditably at the bell ropes. The day was looked upon as one of the most successful in the annals of the association.

CANTERBURY CATHEDRAL BELLS.**NEW TREBLES ARRIVE.**

The two new trebles, to make a peal of twelve at Canterbury Cathedral are now in the tower. They have been cast at the Whitechapel Foundry, and, as is well known, are being given by the Kent County Association in memory of the 56 members who gave their lives in the war.

The bells were taken to the Cathedral on August 1st, and deposited on the floor under the south-west tower. A little ceremony took place after evensong, when the Precentor (the Rev. F. J. O. Helmore), as hon. secretary of the Kent County Association, requested Dr. Mason, as Vice Dean, to receive the bells on behalf of the Dean and Chapter. Dr. Mason duly accepted the memorial, and added a short prayer and blessing.

On the treble bell is the following inscription: 'A.D. 1923. Kent County Association of Change Ringers. To the Glory of God and in memory of the members who fell in the Great War 1914-1918.' The second has only the date of casting and the initials, K.C.A.C.R., 1914-1918.

It is hoped that the Archbishop of Canterbury will dedicate the bells when he returns from his holiday.

Reports of a number of outings are held over until next week.

GRAVESEND BELLS.**A RINGER'S LABOUR OF LOVE.**

Out of the total of £932 9s. 9d. which has been the cost of restoring the bells at St. George's, Gravesend, and carrying out other necessary work, Mr. Hadlow, one of the ringers, has collected £500, as a labour of love, and in recognition of his efforts he has been presented with a chiming clock.

The presentation was made at a meeting of the committee when a statement with regard to the bell fund was made. Of the amount to be raised £718 16s. 2d. had been collected up to June 11th, and 100 guineas had been promised by the Town Council. The present deficit was £21 9s. 1d., and it was proposed to devote the harvest festival offertory to the fund.

Mr. Everden, who presented the statement, complimented Messrs. Taylor and Co. upon the new bells which they had provided, and said the tone and 'go' was a high testimonial to their work. He added that with part of the money realised from the sale of the wood in the old bell frame and collections made by himself and Mr. Luff, a valuable clock with Westminster chimes had been purchased, to be presented to Mr. Hadlow in recognition of his work in connection with the fund.

Engraved on a silver plate attached to the front of the timepiece are the words: 'Presented to Edward Hadlow from the Rector, Church Council and congregation of St. George's, Gravesend, in recognition of his enthusiastic assistance for the restoration of the parish bells May 30th, 1923.'

Mr. Everden, in presenting the clock, said that those who felt their indebtedness to Mr. Hadlow for what he did in restoring the peal, wished the timepiece to be an expression of the esteem with which he was regarded.

Mr. Hadlow, in tendering his thanks, said it had been a labour of love to collect the money.

Mr. Everden said that ever since Mr. Hadlow started, just over two years ago he had been a thorough nuisance (laughter). It had been 'bells, bells' all through the day and the night, too. After he had done his work he had been tramping the streets for money. During the day, too, he had been at the same game on the ships in the river, and from that source had collected £29. Altogether he had collected £500 from over 2,000 people (applause). If Mr. Hadlow had not loved the work he would not have done it. He had saved the church many pounds by the work he had done when he was 'pottering about' in the tower. He hoped that Mr. Hadlow would in his old age, in 50 years' time, lean back in his chair when the clock chimed and think of the work he had done for St. George's.

Mr. Hadlow replied that it was Mr. Everden who had made him stick to the work, and he had been assisted by many. Miss Tall, one of the ringers, collecting £30. Mr. Hadlow then handed the Rector a photograph of the bells, to be hung in the Council room.

In reply to a question, Mr. Everden stated that the clock belonged to the Corporation as long as they kept it in repair. The bells, however, belonged to the church, and when they were taken away from the Corporation's clock the church felt bound to attach them again to the clock. The cost of the adjustments had been £25. The clock had gone splendidly for eight weeks.

RINGERS' ROLL OF HONOUR.*To the Editor.*

Dear Sir, — I should like to convey, through your columns, my thanks for the many letters I have received in reference to my lists A and B, which you have now published for four weeks, together with my letter. I will not trouble you to publish them further, but I will refer members of the Exercise to your last issue, and will ask them to take note that in list A I am still wanting information concerning the following groups:—

Lee, W. C.
Smith, A.
Saunders, H.
Waite, S.

In list B I have only information concerning McKiever, V.C., and it does not seem that any more will be forthcoming.—Yours truly,

CYRIL W. O. JENKYN.

Hon. Librarian, Central Council.

ST. ANDREW'S, NORWICH.*To the Editor.*

Sir,—I was glad to see the letter of Mr. G. P. Burton in your issue of to-day, and am very sorry to hear that St. Andrew's bells are in such a neglected condition. Can nothing be done to restore them?

With regard to the peal boards, my information was obtained from copies of 'Bellry Tablets' published in 'Church Bells' in the years 1878 and 1879. I should be much obliged if your correspondent would furnish us with copies of the other tablets which he mentions.—Yours truly,

J. R. JERRAM.

THE OXFORD DIOCESAN GUILD.**THE ANNUAL FESTIVAL MEETING-PLACE.
A CONSTITUTIONAL PRACTICE.**

One of the most important matters discussed at the annual meeting of the Oxford Diocesan Guild at Oxford was the selection of a place for the next annual. There had been dissatisfaction in the East Berks and South Bucks Branch at the fact that the festival had been held for several successive years in Oxford, and the question was raised on the motion for the 'place of next annual meeting.' Constitutional practice under the rules leaves the selection of the place to the annual meeting, and by a large majority Oxford was decided on for next year.

The festival proceedings began with service in the Cathedral, at which the Master of the Guild (the Rev. C. W. O. Jenkyn) officiated, the address being given by Canon W. W. C. Baker, Rector of Dunstable, and President of the Bedfordshire Association.

Every branch of the Guild was represented among the 115 members who attended the business meeting in the Chapter House. The Master presided, and was supported by Bishop Shaw, Canon Coleridge, the Rev. R. H. Hart-Davis (hon. treasurer), the Rev. W. J. Palmer, and Mr. R. T. Hibbert (hon. secretary).

The meeting received with regret the news that its veteran member and instructor, Mr. W. Newell, of Reading, had found ringing rather too exacting at 84. Mr. Newell will continue however to take an active interest in the Guild.

THE MASTER'S REVIEW.

In his annual report, the Master said there were now thirteen branches in the Guild, and these took in all the towers in union with the Guild. This did not mean, however, that the area of the Diocese was effectively covered. It was, nevertheless, quite useless, in his opinion, to start a branch unless there was a real Guild nucleus, small though it might be to start with. He had attended meetings of all the branches, and could report favourably of the general condition. A new branch had been started for Oxford and District. In the East Berks and South Bucks Branch Mr. Harman in conjunction with Mr. Coles, had taken on a big job from Mr. Fussell, who had felt obliged to resign the secretaryship after seven years' hard work. Restoration work had been carried out at Benson, Boyne Hill, Culham, Hley, and Kimbury. Culham had now a ring of five, and Hley, one of the first towers to join the Guild, after struggling for years with five badly going bells, had now a beautiful ring of eight. He had visited and had given advice at Beeton, Binfield, Bletchley, Boyne Hill, Great Brickhill, Brightwalton, Compton, Newton Longueville, Waddesdon and Wootton. He was asked to represent the Central Council, together with the Rev. C. D. P. Davies and Messrs. J. H. B. Husse, E. H. Lewis, and E. A. Young, in conference with the Society for the Protection of Ancient Buildings; and they had several long and interesting discussions. Amongst those who passed away during 1922 was Mr. W. Mynard, an attractive personality and a faithful servant of the church, who was for sixty years a ringer at Emberton.

The accounts for 1922 showed a balance in hand of £51, compared with a balance of £48 last year. The branch subscriptions had amounted to £79 and hon. members' £2 6s. The printing of the annual report had cost £33, and general printing, postage, etc., £11 9s 7d. The annual festival had cost £29 14s. 6d., towards which members had paid £20 9s.

The Treasurer said he had been committeeman, secretary, and treasurer for forty-three years, and, while he was not as old as Mr. Newell, he was not far behind, and he felt, therefore, that he must resign his office. He was prepared, however, to nominate a good man as his successor, and was himself quite ready to serve as trustee. There was a very urgent need for economy, the calls on the Guild having been so heavy in recent times as to leave the Guild without any balance at all. It was to be observed that of the 203 honorary members 123 were parsons, and branch secretaries might look round their villages for laymen and lay women who were interested and would help.

'DISLOYAL AND FOOLISH.'

The Secretary said the year had been a pleasant one and if they found themselves at Oxford again it was by their own decision. The Master and he were quite ready to go to any other place, and it was for members to speak and vote as they felt. He felt that the decision of some of the members of one branch not to pay any more subscriptions so long as the festival was held at Oxford was not only disloyal, but very foolish, because after the first year their membership would lapse, and they would no longer have any voice in the affairs of the Guild. During 1922, continued the Secretary, he had visited every branch except the 'Vale of the White Horse,' and had found the branches in a healthy condition. He desired to point out that working a straggling district was no sinecure, and invited bands of ringers or individual members living on the fringe of an area where there was no strong nucleus of change ringers, to go over the border sometimes and give a helping hand. The peals for 1922 were double the number in 1921, and had ranged again from 'London' to

'Grandsire,' a good number of young ringers scoring their first peal, or their first in an advanced method. They deplored the loss of two towers, but welcomed the inclusion of Brightwalton, Great Linford, Marcham, Lewknor, Long Crendon, Cumnor, Chilton and Wolvercote. It was much to be desired that subscriptions be paid early in the year.

The Master, who was re-elected with acclamation, nominated Mr. A. J. Wright, Reading, as successor to the Treasurer. The Guild owed a very great deal to Mr. Hart-Davis, and they hoped that at those moments when he was not in the Thames he would sit in the armchair they presented to him a few years ago and write English verse and Greek verse, perhaps on the Guild itself. Mr. Wright had been a member of the Guild for many years, and before that an active member of the Devon Guild.

Mr. Evans seconded the nomination, and Mr. Wright was unanimously elected.

The committee was re-elected as follows: Messrs. Barlow, Candwell, Holfield, Humphrey, Hibbert, Parker, Newell, Webb, Cullun, Sear, Evans and Wilkins.

Canon Coleridge, presenting his report of the annual meeting of the Central Council, said it would be some time before the Council would be entertained so well as it had been at Salisbury. Canon Coleridge, the Rev. C. W. O. Jenkin and Messrs. F. Hoppood and J. Evans were re-elected representatives of the Council.

OXFORD'S BIG MAJORITY.

Three places were proposed for next year's festival, and the voting which decided the question was as follows: Oxford, 79; High Wycombe, 10; Buckingham, 3.

The question of a ballot of the whole of the Guild was raised, but the Master said the rule on this point was quite explicit. The annual meeting must decide the place of next year's annual meeting. They could alter the rule but not without notice in the usual way. For 42 years the rule read as follows: 'A general annual meeting shall be held in July, for the purpose of electing officers, and for united practice in change ringing; place to be fixed by the members in general meeting assembled, but the arrangements for the festival, including the time and the service in church, shall be left in the hands of the committee. The East Berks and South Bucks general meeting in the winter is open to the whole Guild.' As revised it now read: 'The annual festival and general meeting shall be held in July at the place selected at the previous annual festival, all the arrangements to be left in the hands of the committee.'

A member urged that the preponderance of votes in favour of Oxford was not so convincing as it seemed at first sight because those who lived near Oxford naturally found it easier to attend, and they were there in force to decide on Oxford next year. If they had a ballot it would give the people who lived in distant parts of the diocese opportunity to say what they thought. Some of them could not get to Oxford and back the same day.

The Master said he thought Oxford was by far the most central place, though he was prepared to hold the festival wherever they liked. He thought, however, that they could not break in upon the rules in that way.

GRANTS TO BELL FUNDS.

A grant of six guineas was made to the West Wycombe Augmentation and Restoration Fund, on the recommendation of the committee.

An application from Bletchley, where a large fund has occupied the attention of the members for some time, and where £500 has been raised, came up for discussion.

Mr. Cullum said this had not arrived in time for the meeting of the committee in April, and had not, therefore, been considered. Splendid work had been done, however, by the Bletchley members, and they had never been assisted by the Guild. There was no money in hand to make a payment, but he moved that £10 be earmarked for Bletchley, to be at the disposal of the fund as soon as it was available.

This was carried unanimously, the Secretary adding that at Bletchley they had some of the best members in the Guild.

Lunch was served in the hall of Christ Church, 158 sitting down. Ringing took place during the day at the Cathedral, and many of the other towers in the city.

WEDDING BELLS AT HORSMONDEN.

BLESSINTON Y'GORRAH.

BREVITY—IN EXCELCIS. FLIPPANCY—NON EST.

Dear Editor,—Ye good Captain of Pat's did call ye faithfull together on August of that ilk for to try a peal on ye newly rehang bells in ye lovely Wicklow hills, and did adjure me, an' I loved him, to cut out ye flipping. Faith an' 'twas not necessary, ye bell hangers cut that out for me, for a peal at Blessinton is the ideat way to mortify the flesh and imagine 'twas pleasure. Did ye good Captain of Pat's but call together ye faithfull to try four hours on a bed of epikes or eating thistles—I honestly believe they would try it. I did relate to good Mistress Peppery how I did see, on the voyage out, that great rarity, a dead donkey, and she did retaliate with 'and there were nearly seven. How did the other six escape?' How ever, I did have orders to be brief, concise and to flipp not, so here goes.

11.0 a.m. boarded ye train, date 1682 (foundry mark obliterated by A.D.), boarded Blessinton 11.30 noon. Boarded Murphey's hotel and Murphey's festal board in the same breath. Pulled up ye tenor 1.30 p.m. Conductor of Pat's called 'go Grandsire Doubles.' 1.45 p.m. tenorman had enough. 1.50 p.m. result of peal attempt, 3 hours exquisite 'mortifying of ye flesh,' three six-scores of Grandsire, three six-scores of Plain (very), three six-scores of Canterbury (after which ye fifth ringer did assure me that tho' the 'Canter' was off, ye 'bury' would have been assured had he rung another), three six-scores of Stedman all sorts, in which ye tenor was 'aliso ran (g)', and three issues of call changes with ye local ringers whose kindly welcome was ye feature of ye journey, topped off with three times three issues of—well, be brief Samiwell. Time lays its hands lightly on all things in Blessinton; would that time alone had visited it, an it had ye bells might, at least, have gone round and round. I did read again ye stones with dates, etc., as legible as when carved in 1616 and 1692, to which we have added

Here lie the remains of our tenorman's muscle:

With Blessinton tenor he had a short tustle.

Aetat 120 changes!!

SAMIWELL PEPPERY

SHEFFIELD DISTRICT SOCIETY AT BOLSTERSTONE.

A CHURCHYARD MEETING.

The usual monthly meeting of the Sheffield District and Old East Derbyshire Society was held on Bank Holiday at Bolsterstone. Glorious weather prevailed, and it seemed rather a pity that the seaside resorts should have claimed the presence of so many members on this occasion, as the opportunities for making a real holiday in the country, with enough ringing to satisfy the most ardent enthusiasts, are unlimited at this country village. However, visitors rolled up from Ashton, Barnsley, Dore, Handsworth, Hoylandswaine, Kilmarsh, Norton, Norbury, Sheffield (Cathedral, St. Marie's and All Saints'), Wortley and Worksop, and ringing was indulged in until tea-time.

The business meeting was held in the churchyard, Mr. F. Watkinson (president) being voted to the chair, whilst Mr. C. Harrison carried out the duties of secretary in lieu of Mr. Chowng, who was unavoidably absent.

The secretary's report on the opening of Castleton bells was read, and reference was made to the forthcoming meeting of the society, which is to be held in conjunction with the Doncaster and District Society at Doncaster on September 1st. The question of having the use of Arksey bells at the meeting in question was debated, and ultimately left to the discretion of the Doncaster friends.

In moving a vote of thanks to the Vicar, churchwardens and members of the local company, Mr. C. Potter, of Barnsley, made a very apt reference to the interest which both clergy and churchwardens are now taking in bells and ringers, and Mr. F. Willey (Sheffield) seconded, with some well-chosen words.—Replying to this, Mr. Steel, churchwarden, mentioned how interested he was in bells and bell ringers, incidentally stating that he was one of those who took part in securing the peal for Bolsterstone, the district having subscribed over £600 in six weeks, and the money being in the bank before the bells were delivered. He was delighted to be with the ringers, and it gave him great pleasure to be able to convey their thanks to the Vicar for the use of the bells.

Ringing was then further indulged in, the methods rung being the four standard methods and Double Norwich Major.

SHREWSBURY.—At St. Chad's on July 11th 224 Double Norwich: 315 Stedman Caters: G. Byolin (conductor) 1, J. Griffiths 2, C. R. Lilley 3, J. E. Lilley 4, R. Pole 5, W. Page (Worcester) 6, D. J. Boucher 7, W. Fairhead 8, E. V. Rodenhurst 9, J. Evans 10. Also 168 Stedman Triples.—On August 1st, 630 Grandsire Caters: F. Lyeft 1, J. Griffiths 2, A. Pritchard 3, J. E. Lilley 4, R. Pole 5, A. Griffiths 6, W. B. Kynaston 7, W. Fairhead 8, C. R. Lilley (conductor) 9, D. James 8. Rung as a farewell to A. Pritchard, who is leaving the district. He is only 14 years of age.—On July 29th, 252 Stedman Triples and 287 Grandsire Caters.

100 TOWER BELL PEALS OF STEDMAN CINQUES.

Last Saturday Mr. James George rang his 100th peal of Stedman Cinques on tower bells. During the week he rang the tenor at St. Martin's, Birmingham, and at Cripplegate the 11th. To do this within four months of one's 70th birthday, and in the middle of an August heat wave, is another evidence of the vitality and stamina of this still youthful veteran. The twenty-one towers in which Mr. George has rung these one hundred peals of Stedman Cinques are as follows: Birmingham, St. Martin, 40; Shrewsbury, St. Chad, 1; Oxford, Christ Church Cathedral, 1; Halifax, St. John-the-Baptist, 1; Sheffield, St. Peter, 3; Cornhill, London, St. Michael, 7; Birchington, Quex Park, Waterloo tower, 6; Ipswich, St. Mary-le-Tower, 2; West Bromwich, Christ Church, 4; Cripplegate, London, St. Giles, 7; Cheapside, London, St. Mary-le-Bow, 4; Painswick, St. Mary, 1; Southwark, London, St. Saviour's Cathedral, 8; Wolverhampton, St. Peter, 3; Shoreditch, London, St. Leonard, 1; Bristol, St. Mary Redcliffe, 1; Worcester Cathedral, 1; Waltham Abbey, St. Lawrence, 5; Chelmsford, St. Mary's Cathedral, 1; Newcastle-on-Tyne, St. Nicholas' Cathedral, 2; High Wycombe, All Saints', 1.

THE POINT AND PARRY.

To the Editor.

Sir,—Last Friday morning I was just peeping down the barrel of my hemstitched hip-pocket howitzer, and thinking to myself how awfully 'bored' I should be—if the postman failed to bring my copy of the 'Ringing World,' but he brought it, and one is bound to congratulate you, sir, on your good taste in serving out to me—and the whole Exercise—such an excellent dish of 'Gooseberry-fool' dished up in the current issue by 'CRITICUS'—Congrats Crit—that's the stuff to give us! especially the 'PINTS.' Yes, do away with 'em, and let's have GLASSES, No. and I wasn't bored when I read the extract from the diary of the 'NUISANCE-IN-SPECTRE,' when he was masquerading among the flowers! but I had a chilly feeling run all down the spine, and kind-o'-got the 'wind up' when the 'flipping' thing started bowing at a dandelion clock to ascertain whether it was time for bed! an' we only just got up! Oh, you two naughty boys! How dare you send such flippy-floppy contributions to add to the gaiety of the 'Ringing World?' But like many more who read the doings of ringers you realise that if our paper is robbed of this source of life it would eventually evolve into something resembling the 'Gravedigger's Journal,' wherein to publish only the plaintive, mournful notes of the 'De Profundis' along with the 'Miserere Mei' and a special request for no flowers!

Avant! dull care! begone, and let's have some more 'flowers' from the pen of the composers, the antiquary, the genius, and the funny 'uns! Bunch 'em together, Mr. Editor, into the weekly 'BOW-K,' because, you above all, will realise that the Exercise is composed of all sorts and conditions of tastes, some sour, some sweet, which all help to make the editorial position one of embarrassment. Yes, sir, a bit of fun drives away melancholy, and a 'lot' refreshes the brain, and if it's overdone, well! it warms up and invigorates the whole system. Laugh and grow 'fat'—don't go to the butcher's for it! And that's that!

Oh! yesterday I was reading that Oliver Cromwell is to be dug up again to make room for some water pipes, 'the vandals,' 'the ghouls!' Now one can look out for another 'civil war!' running contemporary with the present 'wars of the roses,' A.D. 1923. But don't worry, I hear the Editor is doing the 'POINT and PARRY' with his new tickling iron, and singing 'O-LIVER! O-LIVER!'

You'll have to 'ave it,
Whether facetious or not!
You've got to taste it,
This thing touches the spot!

Just like our Tommy did when he probed Fritz under his thirty-third rib with his bayonet—any sed—it's no exaggeration Fritzie—'me old sport'—this FACETIE drives away dull care, it's just like Brasso! it puts the polishing touch on any dull thing—But, remember this, my funny friends (and others), it won't wash 'Close!'—for the time being.

IRENÆUS.

P.S.—With kindest regards to 'Sammy' and 'Crit,' and any other funny 'uns! not forgetting' Ole Bill, who caught me on the funny-bone with his atchit, which caused—such! a sensation!

BUCKINGHAM.—On Monday, August 6th, 1,862 Grandfire Triples: R. R. Lewis 1, M. Smith 2, J. Butler 3, F. J. Lewis (conductor) 4, J. Simon 5, R. G. Rice 6, E. Hims 7, T. Impey 8.

EASTBOURNE.—At All Saints' Church, on Friday, July 27th, a quarter-peal of Stedman Triples, in 43 mins.: W. D. Smith 1, J. W. Jones 2, F. G. Waymark 3, A. C. Pankhurst 4, B. Hobbs 5, G. W. Stokes 6, E. Gower (conductor) 7, T. Deadman 8. The quarter-peal was specially arranged for Mr. J. W. Jones, of Newport, Mon., who was on a visit to Eastbourne.

RECRUITING.

Although summer, by the calendar, is still with us, it is not too early for those bands which are below strength to look round for 'material' to bring their numbers up to a quota, not only sufficient to ring all the bells for Sunday services, but to create a reserve so that bells shall not be silent when there are absentees. Summer months, which provide many ringers with longer hours of labour—in the garden or harvest field—or hold out to others inducements to find recreation in the open air, often play havoc with belfry companies, and not infrequently many weeks are lost in early autumn in getting back into the stride. Where a band has, in addition, to fill up gaps this loss of time is additionally detrimental to progress, and those who are responsible for the organisation of ringing companies should, therefore, seek out their pupils without delay.

Sometimes, we are afraid, in the desire to draw in new ringers, the right material is not always selected. Our art has advanced a long way from where it was even twenty-five years ago, and those with whom it rests to enlist recruits should see to it that they get the right type of men. No one with an enthusiasm to learn to ring should be excluded, but there is no room for the half-hearted and lukewarm. With these it is hardly worth while to waste time in endeavouring to get them interested; they will always be a drag on the wheel. Even if eventually they learn to ring a bell in changes, they will likely enough be a source of annoyance to the rest, for these are the men who become the cause of 'meeting short.' But in addition to men who are keen, it is not too much to suggest that men of quick intelligence should be enlisted. Ringing, when its mysteries are revealed, is a fit subject for study by brains of the highest calibre, and it will appeal to men of this type if once their interest can be gained. Then there is another qualification which ought not to be overlooked, and that is that a new ringer should, for obvious reasons, be a good Churchman.

If these points were borne in mind and acted upon, a further contribution would be ensured in the effort to raise the status of the ringer and advance the art, and we believe they could be combined with success, particularly if the person responsible for organising a band would discuss the subject and work in conjunction with the incumbent and churchwardens, whose influence would be of great value. And while dealing with this question let us add this: Too often the numerical strength of a band is insufficient, and when 'recruiting' is in progress, enough members should be enrolled to give a margin in order that the service and practice ringing may not suffer when, from any cause, one or more members may be absent from the tower.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL.

Orders may be placed now for delivery at a future date to suit the convenience of clients.

DEATH OF MR. A. T. MORRIS.

A GENIUS AT PEAL 'TAPPING.'

The death occurred on August 7th, at the Cottage Hospital, Dovercourt, after only a brief illness, of Mr. Arthur T. Morris, of Harwich. The deceased will be remembered principally for his exceptional gifts in peal 'tapping,' for he succeeded in executing peals by this means in methods ranging from Grandsire to London Surprise. A good deal of controversy raged round his performances, but whatever else may be said of them, they were exceedingly clever, and involved a vast amount of concentration and practice.

At Harwich, where he had taught many young men to ring, he will be much missed. On Saturday, August 11th, several touches were rung on the parish church bells, with muffled clappers, and, on the following day the bells were rung half-muffled for service.

Councillor T. A. Bernard, of Harwich, writes of the deceased ringer that his death will be regretted among a large circle in the Exercise.

'More especially will he be missed,' adds Mr. Bernard, 'by the local band and those ringers throughout the country (and there are many) who owe the foundation of their ringing knowledge to his teaching.'

'On the tapping of peals, of which the late Mr. A. T. Morris was one of the greatest exponents, I shall not dwell, except to state that this was a safety valve for his overbounding enthusiasm for ringing. He had not hundreds of peals to his credit, for his opportunities, like those of many another ringer, were few. Harwich is not an industrial town, and there is, consequently, no encouragement for ambitious young men to stay there. It is, therefore, very difficult to keep a first class band in Harwich, which accounts for the fact that the late Mr. A. T. Morris invariably had three or more pupils, who, in most cases, as soon as they had a fair knowledge of ringing, left the place. This would have discouraged most people, but not so Mr. Morris. A lad had only to express his desire to learn the art and he was at him "hammer and tongs" every available minute. Thus he did a tremendous amount of good for the Exercise.'

'In his life, as in his ringing, Mr. Morris set a great example. He was deeply respected by all who were fortunate enough to know him, and for these reasons he will indeed be greatly missed.'

DATE TOUCH.

At Kingsley, Staffs, on Saturday, August 11th, a date touch of 1,923 changes was rung in 1 hr. and 8 mins. in the five following Treble Bob methods: 720 Oxford, 360 each of Duke of York, Woodbine and Kent, and 123 of Violet; J. E. Wheelodon (conductor) 1, A. Edwards 2, J. Berrisford 3, H. Carnwell 4, J. Walley 5, E. Edwards 6. Messrs. Wheelodon and Walley hail from Norton-le-Moors.

A WEEK-END IN WALES.

O land of my fathers, O land of my love,
Dear mother of minstrels who kindle and move.

At midsummer last the Worcestershire question arose, 'Shall we go?' and when some half-dozen 'Ayes' responded this tour from its beginning seemed most promising. A trio of 'Brum Boys' and another of Stourbridge stalwarts, induced Old Tom Salter, of Kidderminster and the writer to complete the team, and then began the task of organising the venture. Mr. J. P. Hyett, of Hay, and Mr. Wm. Evans, of Brecon, were applied to for information and assistance, as well as the Superintendent of the Line, G.W.Ry.; and between them, travelling, bed, and board, were ultimately fixed up to our satisfaction, and a most enjoyable, varied and economical holiday was the result.

Assembly at Kidderminster Station at 10 a.m. on Saturday, Aug. 4th, was ordered, but not carried out until an hour later. I am used to holiday crowds in and near London, but I found that Birmingham and the many large industrial towns around can grow a 'crowd or two,' and after several trains in 'triplicate' had passed outwards, we began our journey for Presteign, in Radnorshire, via Bewdley, Tenbury, and Leominster. The guard, finding us to be tourists travelling 'en bloc,' furnished us with a first-class compartment, wherein, between touches and tunes on the handbells, we discussed the improbability of any peal attempt for Saturday. In common with several hundreds of other passengers we were left stranded at Wofferton Junction Station, and no train for Presteign available till late in the evening, and no Sunday service to Brecon. Of what use was Superintendent Nicholas' special passport for our team to travel by a Midland route not usually permitted? Optimism is a really good thing at times, even hope 'Withers,' when there is no refresher in sight, and so an hotel was sought where we might eat our pocket lunch and quench the thirst on a hot day with ale, Johnny or 'Bass.' The Council of operations sat at one o'clock, and suggested going on direct to Brecon, cutting out Presteign—14 miles distant, and no return train after 6 p.m. At the dangerous cross-roads in front of our inn stood a uniformed scout of the A.A. on duty. By appealing to him we were able to secure a four-seater Ford from the neighbouring village of Brimfield, and into or on to this we were stowed with Salter as a centerpiece. We reached the church at 2.30 p.m., and were met by Mr. A. Talbot, district secretary. The latter half of this drive was very beautiful, the Black mountain range of hills 18 miles away being on our left, backed by the distant 'Sugar Loaf' at Abergavenny at one end and the Brecon beacons at the other, whilst on our right rose Radnor Forest with Plynlimon, and further on Snowdon, a name we method ringers will remember so long the mountain stands.

The Rector of Presteign, the Rev. H. S. Kewley, is a practical ringer, and we owed him a threefold debt of gratitude, but fate denied us the opportunity of personally offering him our sincere thanks. He gladly consented to our attempt, and hoped we should set up a record, met our train at the station due in 1.30, and arranged for tea for us at the Bull Hotel. It was much regretted by everyone that no time was available to enjoy the welcome so kindly provided, and we made for the station at once, contenting ourselves with the first peal of Surprise in the county; but, that doesn't fill the aching void of the inner man. More than once the loss of our tea was referred to, a sore point in more than one bosom, because nobody had the chance of getting a square meal between early breakfast and our arrival at Hereford, via Leominster, at 8 o'clock. At Hereford Station we learnt that three of the staff were bell ringers—like the late Mr. Potter, general manager of the G.W. Ry., who learnt to ring as a choirboy in Dorsetshire—Mr. A. L. Annetts, of Shrewsbury, whose two sons are helping to make progress at Abergavenny; Mr. F. Downes, of Holmer, who with his four brothers, has greatly assisted the restoration fund for rehangng the peal of five bells, and adding a treble; and the guard of our train, an old member of the Brecon Society. I may also add, re Holmer, that all the money required has been raised, and the order placed with Mr. J. Groves, of Birmingham. Resuming our journey at 8.45 via Hay, we again won first-class honours and the applause of onlookers en route to Brecon, where we arrived at 10.30 p.m., and were met and welcomed by Mr. Wm. Evans, a resident and tradesman for 28 years who has consistently done his best to keep St. Mary's bells 'mouth-upwards,' especially on Sundays. He politely escorted us to the head-quarters for two nights, 'Rutland House,' and he having previously reminded us of the Welch Sunday closing of licensed houses we were prepared accordingly; in fact, one of the station staff informed me he had conveyed a case of 'glass cylinders,' with screw stoppers at one end, to our house.

Sunday, August 5th. Breakfast at 8, ringing at the Parish Church at 10 o'clock. London and Cambridge for 11 a.m. matins, the local band present and introductions made. After the service we had an early dinner, hot and well served by Mrs. Woods, the ordered motor-

car arriving at one o'clock to convey us five miles out to Llanfagan Church, through a picturesque valley of the River Usk away under the Brecknock Hills, the highest peak, known as Brecon Beacon, 2,907 feet, and, on the opposite hand, Lord Hereford's Knob, 2,263 feet high. We were made welcome by the Rector (the Rev. T. A. Davies, M.A., a Welsh scholar who often preaches in the native tongue), and handed the keys of the church and tower. 'Go, Cambridge,' was called at 2.25, and rounds came at 5.35 and the octave lowered 'in peal.' Indeed, at each tower we visited the bells were raised and lowered in this way. The privilege of ringing the first peal of Surprise in the county was again enjoyed, and it was also the first 8-bell peal in the newly-formed Diocese of Swansea and Brecon.

The church, with its quaint name of an early British saint, is a beautiful little model of Welsh architecture, consisting of nave, chancel and western tower, north aisle and south porch. The tower arch is open to the nave, and on the left-hand side is a stone inscribed: 'This tower was restored, the bells recast and relung and four new ones added to complete the octave by John Llewellyn Morgan in memory of his father, David Morgan, of Llandaff, 1920-1921.' The bells are a sweet little peal, the work of Taylor and Co., of Loughborough, not tuned on the full-toned Simpson principle, and almost a replica of the bells of Northam, Devonshire. Of the tower itself I would add a note. There is a raised pointed central roof in the middle of the lead flat on the top, giving a three feet gangway all round clear of the battlemented walls. On each side of the square, some two to three feet high, are fitted oak horizontal louvres, which enable sound to go out and upwards, a feature which ought to be copied in many of the towers in our crowded towns. At Llanfagan the only houses near are Church Cottage, the Rectory, half a mile off, and one or two farms more distant. It is an ideal place for a summer picnic, where the band could ring all day long, or roam the hills and gaze upon the 'land of my fathers.' As regards the latter, our timekeeper, Mr. Evans, did so in preference to ringing the treble, which was heartily offered to him. As an instance of the love for our old church that our Nonconformist friends have, I may mention that the Morgans, of Cardiff, carry on a large drapery emporium there, and are the leading Dissenters of that city. Our tea at the adjoining cottage was prepared by Mr. and Mrs. Kendrick and their bonnie family of three pigeon pairs. The delight of the children when handbells were rung to several tunes was well worth carrying the bag full of metal (not Brummagon scrap) up the mile of steep incline.

Returning to Brecon, our unloading was effected at the Priory Church, a most spacious and beautiful cruciform building. Here we met the Rev. E. A. D. Roberts, Vicar of St. Mary's, and the vergier, who gave us an hour's enjoyment. One was really glad when they said, 'Let us go up into the house of the Lord.' The noble building, said to be the finest in Wales, has just been raised to the dignity of a cathedral, and only on the previous Tuesday Dr. Bevan, of Swansea, a former Vicar of St. Mary's, Brecon, was elected first Bishop of Swansea and Brecon. The tower was open for our inspection, and a long, difficult climb was experienced in gaining the belfry, a room 40 feet square, the passages, formed in the solid walls of masonry, not giving room enough for some of the well built ringers whom I know. The bell-loft contains a ruinous set of bells, cast by Rudhall. Originally six, one is reputed to have been stolen, and two of the five left are badly cracked. The east end of the north aisle has recently been restored as a memorial chapel to the South Wales Borderers, and the 5,777 men of those regiments who fell in the Great War are remembered in an illuminated volume bound in leather. A new stained glass east window has yet to be erected, and a few days previous to our visit an ancient banner belonging to the Borderers and sent to Windsor Castle, had been presented by his Majesty the King. This will be hung with others now to be seen in the chapel.

For a week the St. George's ensign was flown from the flagstaff on the central tower, which was also illuminated at night by numbers of electric lamps placed round the battlements and seen for many miles around, to mark the historical accomplishment of a new Sec, in spite of the Welsh Disestablishment Act. A sum of £8,000 and upwards had to be assured before the project could proceed, and this financial difficulty has been overcome. Better far than all the outward rejoicing was the impressive effect of masses of wild flowers, the common harebell self-sown, blooming in profusion upon the grey old walls of the tower, regardless of moisture, sweet emblem of faith. Their bright blue heads were silently nodding in the wind, prophesying those larger bells that will eventually be placed here, and — who knows? — perhaps the first ring of twelve for the Principality.

Here is a quite modern instance of unexpected interest in church bells by a Brecon resident. The late Alderman Thomas Williams, who died in 1922, left by will land for a recreation ground and stained glass windows for the parish church of St. David's (a growing suburb of Brecon on the Swansea road), also money to provide a peal of six bells. It remains for the cathedral authorities to furnish a ring of ten, and the Brecon ringers will then have to get busy training young hands to man the bells of Brecon.

(To be continued.)

RINGERS' OUTINGS.**ROMNEY MARSH GUILD**

This society has had an annual outing for a number of years, and the 1923 trip that took place on the first Saturday in August can be termed better than its predecessors. The Master (Mr. C. W. Everett) and Mr. C. Tribe fixed up the travelling arrangements, and Mr. Tribe conducted the correspondence to obtain permission for ringing at the various churches required, and hearty thanks are due to these gentlemen. Two charabancs were chartered, one starting from Ashford, and the other from Appledore. The first destination, St. Peter's, Tunbridge Wells, was reached shortly before nine o'clock. Here Mr. W. Latter met the party, and continued with them for the remainder of the day. Great satisfaction was expressed with the light Simpson-tuned eight at St. Peter's, and several touches in the standard methods were tapped off. About three attempts, however, had to be made for a touch of Stedman, but perhaps someone derived good from the failures, which provided practice for one still in the infancy of calling. On loading up again, the charabancs soon invaded Sussex by way of Withyam, where ringing was not practicable owing to tower repairs. Not far distant, the peal of six at Hartfield was at the party's disposal. Here the bells took a bit of managing, the ropes and sallies being rather clumsy—quite large enough for ladies' hands. However, Grandsire Doubles and short pieces of Bob and Kent Treble Bob Minor were rung, and the ringers had consolation in the fact that a nice-going ring of eight awaited them at Holy Trinity, Coleman's Hatch, where the Vicar welcomed the society. This light peal, Simpson-tuned—perhaps not quite so good as Tunbridge Wells, yet very musical—were soon set going, and the members thoroughly enjoyed their touches at this tower. It was somewhere around mid-day when they left, and sped away along several miles of pretty Sussex country to East Grinstead. On approaching the town, the slated tower of St. Swithun could be seen and the excursionists wished they could have had a ring on the fine eight contained therein, but owing to ringing complaints, permission could not be obtained. There was one thing, however, which they did enjoy at East Grinstead, and that was the luncheon, the Master having made arrangements for this. In the afternoon there was a delightful trip back into Kent, and a call was made at Edenbridge where Mr. Steddy and other Edenbridge ringers, and Mr. Edwards (Penshurst), kindly met the party, and what a beautiful peal of eight they found: medium weight, Simpson-tuned, and the best peal heard during the day. They were loath to leave, but there were other towers to visit. Mr. Edwards accompanied the visitors to the remaining places, Hever (six bells) being the next halt. In this church they were shown the tomb containing the remains of the father of Anne Boleyn, and just opposite the church is an interesting old inn, named Henry VIII., in the grounds of which the ringers partook of a splendid tea, Mr. Edwards having kindly arranged this. The chief feature of the ringing at Hever was a touch of Bob Minor rung entirely by members of the Stone contingent. The evening towers included in the tour were Chiddingstone and Penshurst. The party did quite well at the former place, but could not ring at Penshurst owing to choir practice. The route home was via Tonbridge, where the two charabancs parted company. This report would lack completion without making reference to all who contributed in any degree, large or small, to the organisation of the day's pleasure, including those ringers outside the Guild who rendered great assistance, and thanks are given to them all. The methods rung were Grandsire, Stedman Plain Bob, Kent Treble Bob and Double Norwich.

BARLBOROUGH RINGERS' BIG PARTY.

On Saturday, July 28th the Barlborough ringers had their annual outing. The party, which consisted of ringers and their friends, to the number of 62, journeyed through Derby to Shardlow. There a touch of Kent and Oxford Treble Bob was successfully brought round. The party then journeyed to Loughborough where dinner was partaken of at the King's Head Hotel. After dinner, Messrs. Taylor and Co.'s bell foundry was visited, where the various processes of bell founding were a source of great interest. The new war memorial—a wonderful carillon of bells—was visited at the time when a recital was being given by M. Gustaf Nees, of Molines, and his playing was much enjoyed. Nottingham was the next place visited, and a much-needed tea was partaken of at Morley's Cafe. The rest of the evening was spent at Nottingham, and Barlborough was reached at 12.15 a.m. The outing was a jolly one, and much enjoyed by all.

WEST WALES' EXCURSION.

St. Catherine's, Gwynion, and St. John's, Morriston, members of West Wales Association, held their annual outing on Monday, August 6th, when they visited Aberdare, which was reached after a pleasant ride. The church, with its fine tower and spire, was immediately visited. Mr. Roberts had the bells in readiness, and a few good touches of Grandsire Triples and plain course of Stedman Triples and Grandsire Doubles for the juniors were rung. The Vicar came

to the belfry and welcomed the party, who were shown over the church. Afterwards 504 Grandsire Triples was tapped off in good style, conducted by Mr. J. Williams, the bells being lowered in peal. This was very much appreciated after call changes. After dinner a most enjoyable time was spent in the beautiful park. A move was then made to Merthyr to try a fine peal of 8 (tenor about 20 cwt.), which were raised in peal, the 'go' being found to be splendid. Some of the local ringers joined the visitors, and touches of Grandsire Triples and Stedman Triples and Grandsire Doubles rung. A very enjoyable day was spent, and home was not reached until after midnight. Best thanks of the band are due to the respective Vicars for permission to ring and to the local ringers, who assisted to make a most successful outing.

HARWICH RINGERS' OUTING.

On Saturday, August 18th, St. Nicholas Guild, Harwich, had their outing, and, accompanied by a few friends, visited Hadleigh, Suffolk, by charabanc, the party numbering 21. Hadleigh was reached about 3 o'clock. The tower of the fine old church, with its beautiful stained glass windows, was first visited, but the ringers were greatly disappointed to find that the tenor rope had gone out for repairs. They had, therefore, to be content with touches of Plain Bob and Kent Treble Bob Minor and Grandsire Doubles on the front six. Afterwards the company sat down to a capital cold spread at the King's Head Hotel, with their veteran, Mr. Job Brewster, in the chair. Tunes on the handbells, also Grandsire Triples, double handed, were very much appreciated. The journey was then resumed to Stratford St. Mary, to the accompaniment of a thunderstorm. Mr. Featherstone, one of the local ringers, met the party, and had everything in readiness. Touches of Kent, Oxford and Plain Bob were brought round on this fine peal of six, and then the homeward journey was commenced, the company having spent a most enjoyable time. The ringers wish, through the medium of 'The Ringing World,' to thank the respective incumbents for the use of the bells, the steeplekeeper at Hadleigh, and Mr. Featherstone at Stratford St. Mary, and all others who assisted in making the trip a success.

NOMENCLATURE OF MINOR METHODS.*To the Editor.*

Sir.—We read with interest Mr. Sharples' letter of the 3rd inst., but if it is intended to have any bearing upon ours of the previous week, we are sorry that we miss his point. If our view is correct, we hasten to write that we have no objection to names relative to numbers, and we think our previous letter should be quite clear.

We were dealing only with those methods numbered in the Collection, and we believe that No. 22 has been named 'Lancashire' and again 'Immanuel,' and as the matter stands now there may be still further alteration.

For more than twenty years we have been ringing and recording 'Surprise' Minor methods, many of which have since been relegated to other classes and changed names. There are now a certain number in the Collection, and the Surprise class were named in the Press some time back. The committee have revised these names, and still no definite law is laid down by what is supposed to be a governing body. We are sorry if it is possible that Mr. Sharples has misconstrued the text of our letter, and in passing would be glad to know what is the latest name given to his 'Lancashire Surprise' if 'Immanuel Surprise' is No. 22?—Yours faithfully,

GEO. DAWSON,

St. John Baptist Association, Leytonstone.

LADY RINGER MARRIED AT FYLINGDALES.

On Saturday, August 3rd, the marriage of Miss Betina Wellburn, daughter of Mr. George Wellburn, of Mount Pleasant Robin Hood's Bay (a churchwarden of St. Stephen's Church), to Captain Wm. Beedle, took place at the Parish Church of St. Stephen, Fylingdales, in the presence of a large congregation. The service was fully choral, Mr. Wm. Conyers, an old ringer of this church, presided at the organ, and the Rev. A. M. Bury, M.A., the Vicar of Ravenscar, officiated. As the happy couple left the church the bells rang out merrily, and at intervals during the day touches of Grandsire Triples were rung. Later, with the good wishes of a crowd of friends, Capt. and Mrs. Beedle left for Wales, where the honeymoon is being spent.

The bride has been one of the ten lady ringers at St. Stephen's Church since 1919, and took part in a number of quarter-peals, including one of Grandsire Triples on handbells (double-handed).

A peal attempt by some of these ladies was arranged some months since, but abandoned owing to the sudden serious illness of the Vicar. Unfortunately, no further opportunity has presented itself. Miss Wellburn was a reliable ringer and an excellent striker, always rang at the heavy end, was always present for service ringing, and regular in attendance at practices. She carries with her the good wishes of her fellow-ringers in her new sphere.

MUFFLED BELLS FOR PRESIDENT HARDING RINGING AT BOSTON, U.S.A.

Americans in Boston, U.S.A., were impressed by the muffled ringing done at the Church of the Advent, on August 10th, on the occasion of the funeral of the late President Harding.

The following description of the ringing was given by 'The Boston Herald':—

'Bells, fully muffled, sounded from the tower of the Church of the Advent for half an hour before and for 15 minutes following the solemn high requiem mass celebrated at that church yesterday morning. The bells were tolled by eight bell ringers, who had performed the same service many times before at the death of a British king.

'The bells, cast after the British fashion, in sets of eight, rang touches of Grandsire, doubled and Bob Minor, sounding the changes at the church at 9.45 and 10.30 a.m. and at 11.30 and 11.45 a.m. They were also rung at the Perkins Institution for the Blind between 2 and 3 o'clock in the afternoon.

'Mrs. Margaret Shurtleff, president of the Boston Guild of Bell Ringers, which was formed by the English bell ringers several years ago upon their arrival in the United States, led the ringing of the bells, assisted by Richard Newton, Philip J. Alfry, James Laker, William Bashford, Alexander Matthews and Joseph Goodhead. The bells were tolled at 5 o'clock in the evening, the hour when President Harding was buried at his home in Marion, O.'

MEMORIAL RINGING IN LONDON.

In memory of President Harding, a quarter-peal of Stedman Triples, from Thurstans' Four-part, was rung at St. Clement Danes, Strand, in 50 minutes with the bells half-muffled, six hours after the President's death: E. Alex. Young 1, T. Benney 2, A. B. Peck 3, C. F. Winney (conductor) 4, E. F. Pike 5, J. D. Mathews 6, W. Rushton 7, F. G. Symonds 8.

'FLIPPANTLY FACETIOUS.'

To the Editor.

Sir,—My gentle remonstrance with your would-be 'funny' correspondents seems only to have stimulated them to fresh exertions, and I am sorry that I spoke! I can appreciate real humour as well as most people. But if such 'humour' as that of 'Samiwell Peppery' and 'Ireneus' in your last issue satisfies the majority of your readers, I am content to remain in a minority; and minorities, we know, must always suffer.—Yours,

CONSTANT READER.

MR. J. W. PARKER'S 5024 CAMBRIDGE SURPRISE.

It has been suggested by a well-known ringer that the following transposition of the original peal, with the odd-course first, should be published, and the figures are given below, for this form is likely to prove the more popular for this original composition:—

DEATH OF VETERAN KENT RECTOR.

An honorary life member of the Kent County Association and 55 years Rector of Horsmonden, the Rev. Hugh Forbes Smith Marriott has passed away at the advanced age of 82 years 10 months. The funeral took place on Saturday at Horsmonden, when the deceased was interred by the side of his late wife. The respect and endearment in which the veteran rector was held was evinced by the large number present at the last sad rites.

After the funeral, the 'whole pull and stand' was rung by the local ringers with muffled bells, and this was followed by 720 of Oxford and 720 of Kent Treble Bob Minor.

BELFRY GOSSIP.

August 26th is the anniversary of the first peal of Grandsire Triples on record. It was rung in 1718 at Norwich, and the peal board, with its quaint wording, is still in existence.

It runs: 'On the 26th of August, 1718, was rung that Harmonious Peal called Grandsire Triples, which have been ye study of ye most ingenious men of this Age, who delight in ye art of Variations, but all their projections have proved errors, until it was undertook by John Garthou, who, with long Study and Practice, have perfectly discovered those Intricate methods which were hidden from the eyes of all the ringers in England; the extent of this peal being 5040 changes; have oftentimes been rung with changes alike, but the first time that it was ever rung true was in three hours and a half, without any changes alike or a bell out of course, by these men, whose names are underwritten against their Bells as they rung.'

Then follows the names of the band: James Brook, John Briggs, William Palmer, Robert Crane, Henry Howard, William Callow, Tho. Melchior and Tho. Barrett.

On August 26th, 1751, John Holt took part in a peal of Double Bob Major with the Union Scholars. In that year Holt rang no fewer than nine peals with the society. He was in every peal rung by the Union Scholars from the time he joined in 1745 until he left them in 1752.

'A complete peal of Bob Major St. George,' was rung by the College Youths at the Church of St. George the Martyr, Southwark, on August 27th, 1750, 'being the first that was done upon the bells.' This 5040 was conducted by Benjamin Aunable.

At Otley, Yorks. on August 27th, 1814, a peal of 12,320 Treble Bob was rung in 7 hrs. 15 mins., 'being the longest peal in that method rung in England.' William Woodhead, of Wakeford, was one of the band, and the fact is recorded on a peal board in Wakeford tower, recording a 6030 Grandsire Caters rung in 1820.

'On Monday, August 24th, 1868, eight veteran change ringers, whose united ages amounted to 553 years, ascended the Parish Church of Guiseley, near Leeds, and rang in masterly style a true peal of Kent Treble Bob Major, consisting of 5088 changes, in 3 hrs. 4 mins. 30 secs.'

'Bell's Life,' which was the ringer's journal of that day, recorded the above interesting performance, and added the further details: 'The following are the names and ages of the men: J. Hanson, of Huddersfield, aged 78, treble; J. Kendal, of Otley, 73, 2; C. Hes, of Leeds (formerly of Otley), 74, 3; W. Senior, of Earlsheaton, 68, 4; H. Hubbard, of Leeds (formerly of Norwich), 64, 5; T. Dawson, of Bradford, 62, 6; I. Illingworth, of Bradford, 66, 7; W. Dumbleton, of Pudsey, 68, tenor. The peal was ably conducted by Mr. H. Hubbard, and witnessed by various ringers from different places.'

The recasting of the bells at Senford, Sussex, with the addition of extra metal, and the rehangings of the peal in a new frame is to be taken in hand at once. The work is to be done by Messrs. Mears and Stainbank.

Appropos to our reference last week to the peal of Stedman Caters rung at Shoreditch on August 23rd, 1788, it will be of further interest to know that the board recording the performance, which now hangs in the belfry at St. Martin's-in-the-Fields, has just been thoroughly renovated, through the generosity of Mr. E. A. Young, secretary of the Central Council.

At Kington Magna, on August Bank Holiday, on the occasion of the wedding of Miss Florence Hannam, daughter of Mr. Frederick Hannam, three generations of the bride's family took part in ringing the five bells: Fred Hannam, aged 61; William Hannam, aged 33, and Harry Hannam, aged 12.

Mr. G. H. Daynes writes that the peal of Grandsire Triples rung at Cubitt Town on June 26th should have been credited to the Middlesex County Association and London Diocesan Guild. The report was sent in without the name of the association, and the omission has only just been brought to his notice.

Ellesmere, Salop, is not alone in having two bands of ringers. At Loughton (Essex) a similar state of affairs exists. The Sunday ringing is done by a band of paid call change ringers, but a voluntary change ringing band has been permitted to practise one night a week (except during the war) since 1883.

For forty years, therefore, this arrangement has been going on and the change ringing band has rung peals of Grandsire, Stedman, Plain Bob, Treble Bob and Double Norwich. There have, of course, been the usual losses by removals, etc., but with help from West Ham, Leytonstone and Woodford, the band has kept going, and now there are several young ringers coming along, who have reached the Grandsire and Stedman stage.

'Doubtful' is informed that all peals of Treble Bob will run true to Bristol Surprise, but all peals of Bristol will not be true for Treble Bob.

The ringer of the 3rd in the peal at Linton on August 11th was Tom Saunders, not Sanders, as published.

Where the Record Peal of Major was Rung.

ST. CHAD'S CHURCH, OVER, CHESHIRE.

It was at this church, standing in the fields at Over, Cheshire, that the record peal of Kent Treble Bob Major was rung in 30 hours on July 21st last by the Chester Diocesan Guild. The 17,280 changes constituted the longest length ever rung on eight bells by one set of men, the previous record having been the 17,104 Double Norwich Major at South Wigston in 1904.

FATALITY TO A RINGER.

It is with much regret we have to record the death of Mr. C. G. Earl, a ringing member of the Leigh-on-Mendip Church (Somerset). The deceased, who has been a ringer for 25 years at the above church, met with a fatal accident, being knocked down by a motor while on holiday.

The funeral took place on August 16th, deceased being carried to his last resting-place, which is close to his beloved tower, by his fellow-ringers. Deep respect and sympathy were shown, ringers from Douling being present, also Mr. J. W. Pemberton, who conducted the deceased's first and only peal, and happened to be on holiday not far away.

Muffled touches were rung on the bells after the funeral. Mr. Earl will be sadly missed by his colleagues in the belfry.

MIDDLESEX COUNTY ASSOCIATION.

The usual monthly meeting of the South and West District was held at St. Peter's, Staines, on Saturday, by permission of the Vicar (Rev. F. Marrott), who also entertained the company to tea. Unfortunately the weather was against a large attendance, but there was a muster of 35, of whom 29 arrived for tea. The Ringing Master was an absentee (on holiday) for the first time. A short service was held, conducted by the Rev. Huscley Williams.

Mr. C. S. Bird presided at the business meeting, when Heston was selected for the October meeting.

The usual vote of thanks was accorded to the Vicar for the use of his bells and his kind hospitality, which was very much appreciated; to the Rev. H. Williams; to the organist; to the Misses Riggs and Griffen, for the able way they attended to the ringers' needs at the tea table; also to Messrs. Parker and Preston of the local band.

Ringling again took place at St. Peter's until 7.30 p.m., when a messenger arrived asking that the bells should cease, owing to illness in the vicinity. Fortunately the hon. secretary had previously obtained permission to ring at St. Mary's, where the bells were soon set going to Cambridge, etc., until, at 9.15 p.m., a rope broke, and suddenly brought the ringing to an end.

With a vote of thanks to the Vicar of St. Mary's a most pleasant meeting terminated.

OFF TO AMERICA.

Mr. G. R. Turner, who has been a ringer at East Crompton, Lancashire, for 17 years, is off to New Jersey, U.S.A., and, as a farewell service touch 720 New London Pleasure was rung on Sunday morning by: G. R. Turner 1, S. Heywood 2, J. Ogden (first in the method) 3, H. Oates 4, C. Howarth 5, J. Butterworth (conductor) 6. Mr. Turner carries with him to his new sphere the best wishes of a large circle of friends.

720's IN SUFFOLK.

At Preston St. Mary, Suffolk, on June 25th, 720 Oxford Treble Bob was rung by L. Poulson 1, M. Symonds 2, H. Lister 3, K. Whittell 4, R. J. Poulson 5, C. W. R. Grimwood (conductor) 6. Also 720 of New London: A. Symonds 1, J. Poulson 2, H. Lister 3, K. Whittell 4, L. Poulson (first in the method) 5, C. W. R. Grimwood (conductor) 6.—At Monks Eleigh, on Wednesday, June 26th, 720 Double Court: H. Whymark 1, K. Whittell 2, H. Lister 3, L. Poulson (first in the method) 4, R. Grimwood (conductor) 5, R. J. Poulson 6.—Also 720 of Double Oxford: P. Whittell 1, K. Whittell 2, R. J. Poulson 3, A. Symonds 4, H. Lister 5, R. Grimwood (conductor) 6. First in the method by all, also first on the bells.—At Finborough on June 26th, an attempt for 720 of Oxford Treble Bob came to grief within one lead of the last hob, standing as above, except T. Sparrow, of Combs, at the 3rd. These 720's were rung to oblige Mr. Grimwood, who was spending his holiday at his native place of Hitcham.

LINSLADE, BUCKS.—On Saturday, July 23th, at St. Barnabas Church, touches of Grandsire and Stedman Triple were rung for the marriage of Mr. J. Child (nephew of the late Cecil Valentine), one of the Linslade ringers, to Miss B. L. Lancaster. The Linslade ringers were assisted by Messrs. J. Nicholls, T. Seabrook, A. Butler, and J. Arnold, of All Saints', Leighton Buzzard.

LOUGHBOROUGH.—At All Saints' Church, 672 Superlative Surprise Major, for morning service: W. Pervin 1, E. Cartwright 2, J. Saddington 3, W. Smith 4, Pryce Taylor 5, J. Hutchby 6, E. Reader (conductor) 7, John Oldham 8.

THE OXFORD GUILD ANNUAL MEETING.

WYCOMBE SECRETARY REVIEWS PAST ACTIONS.

To the Editor.

Dear Sir,—It is always a pleasure to read your well-reasoned leading articles, and the recent one with reference to the Oxford Guild is equally acceptable. But if you will allow me, in justice to the Wycombe ringers, to give, as briefly as possible, a resume of the tactics adopted by them prior to their decision to sever connection with the Guild, it will be seen that all constitutional methods you suggest in your 'leader' have been tried, but found wanting.

At a previous annual meeting of the Guild a resolution from High Wycombe, strongly supported by the then branch secretary (Mr. W. H. Fussell), was proposed, asking for the festival to be held at a place other than Oxford. This was defeated; the result being received with ironical cheers. Nothing daunted, the Wycombe men framed another resolution to the effect that the three Archdeacons be visited in turn, and a referendum of towers taken. This was submitted to a largely attended branch meeting, under the chairmanship of the master, and carried with only two adverse votes by unattached members; and the general secretary undertook to place the same on the agenda for the ensuing meeting at Oxford. This motion, with its recommendation from the branch, was duly submitted to the annual meeting at Oxford. What was the result? One parson characterised this resolution from the largest branch of the Guild as 'hunkum'; while another brilliant cleric termed it 'an insult to the committee,' both these comments being allowed to pass unchallenged from the chair. The height of absurdity was reached when one of the parsons suggested, with regard to financial difficulties, that members unable to pay their expenses 'should ask their wives for the money.'

At the last annual meeting the Wycombe men refrained from attending, partly from disgust, and also not to prejudice in any way another resolution to alter the venue, thinking that as the feelings of this part of the district were well known, the generally-accepted British axiom of fair play might prevail. But again failure, or rather selfishness! Now, sir, I think you will agree that all constitutional methods have been tried; or, if you prefer it, the 'gloves kept on.' Now they must be discarded, for exceptional diseases demand exceptional remedies. You say you fear disruption or a 'split.' Quite so. Great as the regret at severance after a membership of 20, 30, 40 years, or even a longer period in the Guild, we feel that there is a penitence of ringers in this district to form a strong and healthy Guild of its own, and whose festivals could be held at various venues without fear of stagnation.

Our dear old friend, Tom, in his annual report, speaks of 'foolishness,' but the fool's part of the business is a continued obstinacy which prevents clear insight into the future. The Master expresses his anxiety to hold the meeting wherever the members wish it, which is, of course, Oxford, because of the excess of votes on that particular occasion. Why was the custom of over 30 years' standing altered? Was it to gratify a passing whim, or what was the reason? I have been as brief as consistent with a statement of facts, but, owing to space, there are many points necessarily not touched upon, but after a 'leader' and giving a couple of columns 'with the wind up,' perhaps you will kindly indulge us with this reply.—Yours truly,

GEO. TWITCHEN.

LONDON COUNTY ASSOCIATION.

ENJOYABLE MEETING AT BECKENHAM.

The Southern District of the above association held an enjoyable meeting at Beckenham on Saturday last. The clerk of the weather could not have known that a meeting was arranged, or he surely would have been more generous in his selection on this date. The rain commenced to fall in the morning, and ceased only at short and very infrequent intervals. The attendance, in consequence, was not as large as was expected. However, shortly after three o'clock, the bells of St. George's were set in motion, to the tune of Cambridge Minor. This was followed by some Stedman Triples, and Double Norwich, Superlative, Cambridge and London Surprise Major were also rung during the afternoon and evening.

A special service was arranged for the ringers, and the Vicar delivered a very interesting and instructive address.

In this connection it may be suggested that a weekly choir practice for ringers would do much good, and then, at these services, the organ would no longer play hymn solos!

Tea was partaken of at the Greyhound Hotel, and was greatly enjoyed by the comparatively small number who sat down. The business meeting was afterwards held, and the next meeting announced to take place at Fulham on September 1st.

The tower was again visited, and touches in various methods were rung. The thanks of the members were accorded to the Vicar for the use of the bells and for the special service; also to Mr. W. Smith for making the visitors so welcome and for the excellent tea arrangements.

Ringers attended from Chelsea, Roehampton, Camberwell, Lambeth, Southwark, Streatham, Beddington, Ealing, etc.

WINCHESTER DIOCESAN GUILD.

PORTSMOUTH DISTRICT.

A quarterly meeting of the Portsmouth District was held on Saturday last at Bishop's Waltham, and was attended by members from Curdrige, North Stincham, Portsmouth (St. Mary's), Ringwood, Swanmore, Wickham, Winchester and the local band. The methods rung on the peal of six comprised Grandsire and Stedman Doubles, Bob, Kent and Oxford Treble Bob and Cambridge Surprise.

Tea was served in the White Swan Hotel. The business meeting was mostly of a routine nature, the local tower becoming affiliated to the district through some members rejoining the Guild. Owing to Mr. F. W. Rogers, one of the representatives on the Guild Committee, having been elected recorder of peals, it was necessary to elect another member, Mr. W. Tate, being chosen.

It was decided by vote to hold the annual district meeting at Fareham in November, due notice of which will appear in 'The Ringing World.'—The usual vote of thanks to the Vicar and those concerned for the use of the bells concluded the meeting.

THE DIVISION OF THE DIOCESE.

The quarterly meeting of the Yorktown District was held at Chertsey on Saturday, August 4th. Unfortunately no ringing could be done owing to serious illness very close to the church. Members and friends attended from Camberley, Ealing, Guildford, Hersham, Putney, Stoke Poges and Old Windsor. Tea was served in the Parish Room, followed by the business meeting, at which the Rev. J. Smith occupied the chair. The Vicar welcomed the members, and explained the reason for their being unable to ring. One honorary member and one compounding member were elected.

Several members expressed their views on the future of the Guild as affected by the division of the diocese, and it was then resolved that the secretary write to all towers in the district and ask them to give their opinion on the subject to the representatives attending the next Guild committee meeting.

A vote of thanks was accorded to the Vicar for presiding. A few courses of Grandsire Triples and Caters on handbells by Mr. and Mrs. Barker with the young members of their band from Stoke Poges concluded the meeting.

LINCOLN DIOCESAN GUILD.

NORTHERN BRANCH MEETING.

A meeting of the Gainsborough District of the Northern Branch was held at Corringham on Saturday, August 11th, and was not so successful as had been anticipated, members being present from Gainsborough, Stow and Messingham, in addition to one of the local company.

The bells were kept going in various methods during the afternoon and evening. Tea was provided at Mrs. Prescott's house, and was followed by the business meeting, at which Mr. F. E. Linley presided.

Votes of thanks to the Vicar and churchwardens for the use of the bells, also to Mrs. Prescott for providing the tea were unanimously passed, after which the members had the pleasure of listening to some interesting remarks from the President in connection with St. Lawrence, the patron saint of Corringham.

A vote of thanks was passed to the president for taking the chair and for the address which everybody had enjoyed.

The members then adjourned to the church for evensong, which was said by the Rev. R. Thornton, Vicar of Corringham, and afterwards further ringing took place until about 8 p.m., when a pleasant meeting was brought to a close.

'ALL BUT THREE.'*To the Editor.*

Dear Sir,—'Criticus' suggests that at some time we may have to use the strange words 'Pasallatria' and 'Pasallatessera' as names of methods. I think not: they are already and deservedly obsolete. I remember when the Central Council was asked to pass the report in which these words found an experimental place, the late Mr. A. T. King asked what they meant. The perpetrator of the 'crime,' who at this distance of time shall be nameless, told the astonished and amused Council that they were three Greek words meaning 'all but three,' and three others meaning 'all but four.'

When Mr. King replied that they certainly were not, we were told, to our further amusement, that there was such a thing as 'dog-Latin,' and so one might suppose that these words were dog-Greek. As Greek is still spoken by the Greeks, it is nonsense to talk about dog-Greek: nor did dog-Latin ever mean false use of words such as this.

In Greek Passallatria means either (1) 'Universal slavery' or (2) 'The playing with pegs.' Passallatessera can only mean 'Four things furnished with pegs, or gags.'

But why go to Greek for ringing terms? Of all languages Greek is the most unsuitable. In this case an epithet is not required, merely a column heading: the English words 'All but three' and 'All but four' answer all requirements, and will no doubt always be used.—Yours, etc.,

HERBERT DRAKE.

Uford Rectory, Woodbridge

SUNDAY SERVICE TOUCHES.

BLEWBURY, BERKS.—On Sunday, August 19th, for the morning service, a quarter-peal of Grandsire Triples: H. Greenough 1, W. Lawrence (Ealing) 2, F. James (conductor) 3, C. Gregory 4, R. Prior 5, B. Cordery 6, A. Webb 7, T. Busby 8. For evening service, at East Hagbourne, a 504 of Stedman Triples: W. E. Napper 1, W. Lawrence 2, J. Butler (conductor) 3, A. Webb 4, W. Webb 5, T. East 6, R. Rice 7, W. Goodenough 8, followed by 504 Grandsire, conducted by R. Rice, in which Miss Butler took part. During the singing of the hymn, 'Onward, Christian Soldiers,' the clergy, choir and congregation went in procession to the ancient village cross, which stands at some little distance from the church. Here the remainder of the service was held. The Vicar preached an eloquent sermon from an elevated position on the topmost stone of the base of the cross, and the closing hymn was heartily sung by a large number of villagers and visitors, accompanied by an harmonium.

WILLENHALL, STAFFS.—On Sunday, July 29th, at St. Giles' Church, for morning service, 504 Stedman Triples: H. Pountney 1, I. Evans 2, C. Wallater 3, H. Coley 4, A. Ward 5, F. Ward 6, J. Davis (longest touch as conductor) 7, A. E. Reed 8.

DURHAM AND NEWCASTLE ASSOCIATION.

The August meeting of the Durham and Newcastle Diocesan Association was held at Bishop Auckland and Shildon, and sat down to an excellent tea in the Mission Room of St. Andrew's, Auckland, kindly provided by the Vicar (the Rev. A. B. Parry Evans), who, unfortunately, was unable to be present, as he was away for his well-earned holiday. The Rev. G. O. Williams acted as host, in the absence of the Vicar. There were ringers present from Holy Trinity, St. John's and St. Cuthbert's, Darlington, St. Ignatius, Sunderland, Houghton-le-Spring, Tanfield, Chester-le-Street, the Cathedral, Newcastle, and St. George's, Jesmond. A postcard was read from the president, Mr. Storey, from Sutherland, expressing sincere regret to be unable to be present. In his absence the vice-president for the Southern District (Mr. G. W. Park) presided over the meeting, and proposed a very hearty vote of thanks to the Vicars of Auckland and Shildon for the use of the bells, especially to the Rev. A. B. Parry Evans for so kindly providing such an excellent tea.

The Rev. G. O. Williams, who is in charge of the parish in the absence of the Vicar, responded. He apologised for the absence of the Vicar, and said the Vicar will be very pleased to welcome the ringers at any time.

The Rev. G. O. Williams was elected an honorary ringing member, the Rev. A. Brown, of Houghton-le-Spring, a ringing member, and Mr. S. Bryant, of Shildon, who was elected in the belfry previous to starting a peal, had his election confirmed.

This not being a business meeting, there were no minutes to be read, but the certificate for the first place for the six-bell towers for the Sunday service ringing for 1921 and 1923 was presented to Mr. G. W. Park, who received it on behalf of St. John's, Darlington, by the Rev. G. O. Williams. The ringers then adjourned to the tower for more ringing. The bells were kept going during the afternoon and evening to the tune of Grandsire and Stedman Triples, Plain Bob and Kent Treble Bob Major. This brought a very successful gathering, in most glorious weather, to a close.

OFF THE BEATEN TRACK.

A very pleasant time was spent on August Bank Holiday by a few members of the Western Branch of the Worcestershire Association, on the southern borders of the county. The first place visited was Longdon, where a peal in seven methods was attempted, but after ringing nearly two 720's the holiday spirit crept in, causing a stand. The Vicar had provided lunch, and afterwards a start was made, an hour in advance of scheduled time, to Forthampton which is in Gloucestershire. Here two local ringers joined the party, and attempted, with success, some of the more advanced methods. The next place of call was Chaceley, the young ringers again taking advantage of the opportunity to ring something out of their ordinary routine. After a stop at a friendly farmer's, Eldersfield was reached, and more ringing done. Mr. H. Price, of Longdon, who is a worthy son of the late Mr. C. Price, well known to the older Black Country ringers, acted as pilot, and also took part in most of the ringing.

The methods rung during the day consisted of London and Cambridge Surprise, Treble Bob, College Single, Oxford Bob and Stedman Doubles. The party included Messrs. J. J. Jefferies (who was chosen Ringing Master for the day), J. Bayliss, Sidney T. Holt, W. Ransford, C. Camm and R. G. Knowles. These towers all contain some excellent peals of six, the tone being grand, though some need the attention of a bell hanger.

Being situated out of reach of train or bus service, the 'push bikes' were useful.

Bidding good-bye to one of the party at Eldersfield and dropping the pilot on the way, Upton was reached about eight o'clock, when Mr. and Mrs. Camm provided a welcome cup of tea, and thanks are due for their hospitality on this and previous occasions. The band also wish to thank the respective Vicars for the use of the bells, and hope in the future to visit some of them for peals.

LONDON.—On Friday, August 10th, at St. George the Martyr, Southwark, a quarter-peal of Stedman Triples: A. H. Keighley 1, H. Winter (first quarter inside) 2, S. Anoye 3, H. Taylor 4, G. W. Harris 5, T. W. Taffender (conductor) 6, T. H. Taffender 7, W. Hardy (first quarter-peal) 8.

ABERDARE.—At St. Elvan's Church, on August Bank Holiday, 504 Grandsire Triples: Geo. Lewis 1, J. T. Williams 2, Wal. Dobbins 3, R. Baird 4, A. Sluman 5, W. Dobbins 6, J. Williams (conductor) 7, Geo. Roberts 8. Ringers of 1 and 2 from Morrision, 3, 4, 5, 6, 7 from Gorseinon, 8 from Aberdare.

LOUGHTON, ESSEX.—A quarter-peal of Grandsire Triples in 47 mins.: J. Rann, jun., 1, G. Perry 2, W. S. Carter 3, W. H. Hayes 4, E. A. Bacon (conductor) 5, W. Shute 6, G. Carter 7, W. Clark 8. First quarter-peal by the ringers of 1 and 3, and first quarter-peal by an entirely local band for over 20 years.

PEALS OF THE PAST.

Is it not time that something was done to compile a record of all the early peals that were rung, so far as information is still available? This question is prompted by the reference made in our columns last week to the first peal of Grandsire Triples, the record of which is still happily preserved to us in that tower of many historical performances, St. Peter Mancroft, Norwich. There are in existence in numerous towers ancient peal boards recording most interesting performances of a bygone age; among the manuscripts now in the custody of the British Museum, and in the old peal books of such societies as the College Youths, the Cumberland Youths, the Painswick Youths and St. Martin's Guild there is a further source of information concerning the doings of early ringers, but hitherto no steps have been taken to bring all this information together. Jasper Snowdon is, perhaps, the Exercise's greatest historian, for in his patient, painstaking, methodical manner, he collected a mass of particulars, much of which he gave to the world in the various ringing books of which he was the author. His work was invaluable, and it is probable that but for his researches ringers generally would know little of the history of their art.

Of a large proportion of the peals that were rung in the first hundred and fifty years of change ringing, no record, of course, remains; but we do think that the time has now arrived when all that can be ascertained of past peal performances should be collected, and brought together into one comprehensive record. Is there not here a really useful and valuable work which the Central Council might do? and what more fitting place for the retention of this record than the Central Council's library? The ringing publications of the last fifty years are already to be found in the library, and they may be taken to cover practically all the peals, at any rate of any note, which have been rung during this period. What we would suggest is that the Central Council should undertake to compile a record, in the fullest detail available, of all the peals, about which information can be got, rung prior to this period. The nucleus could be obtained by extracts from the peal books mentioned, from the museum manuscripts, and from the late Mr. Snowdon's papers. Ringers could then be requested to provide copies of all old peal boards, and others who have the possession of private peal books and records could be asked to help. In this way, we believe, not only an interesting but an almost invaluable history of peal ringing could be compiled. Moreover, it would serve the further purpose of providing a duplicate record of existing ancient peal books and boards, which, though

they may now be well cared for, might at any time, through fire or other cause, be irretrievably lost, as many have been in the past. We believe that this suggestion is a perfectly practicable one, and one which, if properly tackled, could be achieved without great difficulty, albeit considerable time and labour might be involved.

CHESTER DIOCESAN GUILD.

FAR FROM THE MADDING CROWD.

- ' Higher Peever kettles,
- ' Lower Peever pans,
- ' Knutsford's sweet music,
- ' Rosthern's great drones.'

So runs an old Cheshire ditty, relative to the bells of various churches. Higher Peever has only three, whilst the others have six each, and are in the area of the Stockport branch of the Chester Guild, which held its quarterly meeting at Lower Peever on Saturday last. It is one of those out-of-way places, often heard about, but seldom seen, except by the very curious. The writer formed one of a party which unwittingly, had a circular tour on 'shank's pony.' Inquiries, on leaving the train, elicited that four miles was the distance; two hours after, the 'locals,' whom we asked, were sure it was a 'good four moiles,' and rain was coming down. However, Lower Peever was reached in time for tea, and when this was over some commenced the journey home; those who did not arrived back early on Sunday morning. The person who said fishermen were made had never met those who went to Peever from the Stockport side.

Altogether about twenty-five members and friends were present in, eluding those from the Northwich branch, who were heartily welcomed. Nothing untoward happened at the business meeting. Den-ton was fixed as the place for the next gathering, to be held on Saturday, November 24th. The hon. secretary was thanked for his address in church, and the authorities for permitting the meeting to be held.

Cheshire is famous for its quaint old buildings, but none so effectively rivets the attention as do those of the Black and White, or 'Magpie' style. They are reminiscent of the days when the districts in which they are situated were covered with forests, the wood from these being the cheapest and handiest material for their construction.

Of the 'Magpie' Churches, Lower Peever is considered to be the best example. Originally built in the 13th century and several times restored, it is an interesting and curious ecclesiastical rarity. The interior is almost entirely constructed of oak, black with age, and the wood pillars supporting the roof are roughly hewn. In the Shakerley Chapel there is an oak chest which surely belongs to an age when giants were in the land. Tradition has it, that if a maiden failed to raise its lid and throw it back with one hand, she was not a fit wife for a Cheshire yoman.

The Western tower was built in 1582, the bells were recast and rehung in 1911, by Warner, and are rung from the ground floor. They were well requisitioned throughout the afternoon and evening, in a variety of methods, then the best method home was tackled and successfully accomplished in four hours. Then to bed. J. P. F.

THE FIRST TRUE PEAL OF GRANDSIRE.

To the Editor.

Sir,—In last week's issue you announce, 'August 26th is the anniversary of the first peal of Grandsire Triples on record. It was rung in 1718 at Norwich.' The peal board asserts that a 'Mr. John Garthon, who, with long study and practice, have perfectly discovered those intricate methods which were hidden from the eyes of all ringers in England, it being the first time that it was ever rung true,' etc. Can any of our Norwich ringers supply, through your columns, a copy of the original composition? Jones, Reeves and Blakemore, in their 'New Campanologia,' page 57, say: 'Ever since Grandsire Triples hath been discovered, or practised, 5,040 changes manifestly appeared to view.' Further on it says: 'Hardham, Condell, Annable, etc., exhausted all their skill and patience in this grand pursuit.' Yet seemed convinced that the task 'itself was an utter impossibility, or their united efforts were unequal to it.' Holt's famous one-part peal was performed on Sunday, July 7th, 1751—33 years later than the recorded Norwich peal.

Our ancient 'College Youths' record states that 'Mr. Ben, Annable composed the first peal of Grandsire Triples, containing 194 Sobs and 46 singles,' and yet we must bear in mind Mr. Ben, Annable was contemporaneous with Mr. John Holt. If those leading lights of this noble science failed to discover, in 'their united efforts'—years after the 'Norwich peal'—according to the Gospel of Jones, Reeves, etc., to accomplish a solution of the difficulty, Mr. John Holt's one-part peal, in my opinion, must be accepted as the 'first true peal' of Grandsire Triples.

I hope, sir, that readers of the 'Ringing World' will accept this letter in the same tranquil spirit in which it is written, and that no aspersions will be cast upon any of those 'noble pioneers' of the art mentioned in this letter. Nay, I pay a lasting tribute to the merits exemplified, in imparting to others that brilliancy of talent, emitted through those imperishable monuments, erected to their memory, on tablets, in almost every sacred steeple in England.—Yours, etc., BOB MINOR.

A WEEK-END IN WALES.

(Continued from Page 533).

Bank Holiday, August 6th. Breakfast at 8, peal attempt at St. Mary the Virgin at 9 a.m., so arranged early that we might catch the 1.10 train to Hay. 'Go, London,' resulted in 1 hour 25 minutes ringing. At lunch it was suggested to try again in the afternoon, as a train at six would allow us to reach Clifford. The afternoon's attempt lasted 1 hour 30 minutes. Any further deviation from the programme was not permissible. However, the editor of the 'Brecon Times' was kind enough to suggest, when reporting our doings, our visiting the town again and staying till we did ring it.

There's no accounting for the vagaries of peal ringing. The one performance most needed was, as it happened on this occasion, the only failure, and then at the lower end of the ropes. It is only fair to say that our conductor, 'Bobbie,' was never in better bobbing form. Members of our party brought picture postcards and knick-knacks to take home for 'mother,' before entraining for Hay and Clifford. They quickly regained their holiday spirits amongst the crowds of trippers at the station. With a hearty farewell to and from Mr. Evans, who, it is hoped, will some day attain the distinction of being 'grandfather' of the ringers in Brecon.

The church at Clifford, situated in a lofty tableland, overlooking the famous Golden Valley and the valley of the River Wye, which meet at Hay, two miles distant, is well worth a visit for the scenery alone, and to hear the bells—by Mears and Stainbank, of London—without a peal, true and complete, thrown in as a sort of change ringers bonus. The sound of the bells is nicely regulated by pairs of porches on each face of the square tower. There are no ugly louvres to deflect the sound downwards, and, like the belfry at Llansfagan, ought to be referred to by the Central Council as an object lesson in dealing with noisy bells and towers.

Mr. Hyett met us at Hay Station. Our train being late, he wisely arranged a car to get us up to our tea room quickly, and we retrieved ourselves from reproach by humble apologies to the host and the many friends there to welcome us, and regretting the absence of the Ringing Master of the Hereford Guild. An enjoyable evening was spent, with the Rev. Walwyn Trumper in the chair, and church ladies to attend to our wants and to pour out 'another, please.'

Messrs. Grove, Matthews, Short and Bass rendered their twelve-bell airs to perfection, and courses of Caters 'in hand' delighted the company. Mr. T. Salter proposed the thanks of the visitors to the Parochial Church Council and the Vicar for hospitality, and to all those who had done their best to make the last hours of the holiday visit so happy. The church tower was not visited, but kind permission was graciously accorded our team 'to try London' in the morning, and 'good-nights' were said with some hope of the 'hat trick' being accomplished after all.

On the way to our hotel, 'The Swan' at Hay, we heard several Black Country anecdotes, and our Tom, whose salt had not lost its flavour, had to admit that 'tis the pace that kills. We were way-laid by Mr. and Mrs. Hyett, who had prepared supper for us. The handbells brought down the younger Hyetts, and we were joined by two of the team who rang in the first peal in the new diocese the previous Saturday. Messrs. Rackham and Williams, who had cycled over from Gilwern for the day. And 'so to bed,' as Mistress Peppery would say, at 11.30 p.m., but in our case the landlady was Mrs. Powell, who did not appear to understand why ten men only wanted the 'feather.' Gilwern found them in No. 9. Brum in 5, and Stourbridge in 4, according to the rooms allocated—a house full of ringers, and a parish church adjoining without bells, and that in a busy market town of some importance!

Tuesday, August 7th. 'Yes! yes! Samuel and his seven boys will be along soon! Well now, we will quickly hear the bells, I tell you!' Spoken with the singing voice of a man of Wales, the above words were the only relics of our Western brothers met with. The picturesque costume of the natives was not seen, not even a 'tall hat,' one of which we were keenly seeking to take home with us. Breakfast at 8. Car 8.30 a.m. We gave Mrs. Powell a handbell selection before leaving, and, in return, partook of a Welsh decoction possessing an 8-7-8 flavour—metheglin, a sound tonic for methodmen. Reaching Clifford Church at 9.15, we began business preparations in earnest, and for the fourth time every rope and every bearing was examined by the organiser. An hour of good London found the hand well settled down to their task. The keen eyes cast at each other, as pieces of the method had to be accurately fitted in to time and compass, were never relaxed, and the welcome 'that's all' came at 12.40 p.m.

Once again our kindly host, the Vicar, presided at the board that cheers, a cider luncheon enjoyed and thanks tendered; ever flying time urging us onward. Leaving Whitney-on-Wye at 2.16, we broke the homeward journey at Hereford for an hour, and visited the Church of All Saints. Here we were met by Mr. Gwynne with open belfry, who inquired of me, 'Are you all there?' I ventured to say 'I thought so,' after my experiences of the past few days with the Worcester wasps. Explanations revealed the cause of the question—the Newcastle men, with Mr. J. W. Jones, of Newport, were to have the bells from 3 to 4 p.m., and our party were mistaken for

Northerners. Unfortunately our train went on at 4.17, and the fraternity of teams from the borders of Scotland and Wales was frustrated by the absence of Mr. Ferry's lads.

RINGERS' OUTINGS.

BEDFORDSHIRE RINGERS IN HERTFORDSHIRE.

Through the kindness of the Vicar and churchwardens, the Luton Parish Church bell ringers had their annual outing on Saturday, Aug. 18th, by motor charabanc. A start was made from the 'straw hat town' at 9 a.m., and travelling via Whitwell, St. Paul's Walden (the home of the Duchess of York), and Knebworth, Bennington was reached at 10.30 a.m., after a somewhat exciting journey along the country lanes. The Luton men were welcomed to this world-wide village by the Rector (the Rev. W. E. Mills), and the veteran campanologist, Mr. Samuel Page, one of Squire Proctor's famous Surprise band, who rang a couple of touches with the visitors on the musical ring of eight. A familiar figure, however, was missed by the writer in the person of the late Mr. John Kitchener, who is greatly missed by all at this pretty village.

Bidding adieu to the Rector (who is taking up the art of campanology) and 'Sam,' the journey was resumed at 12 o'clock for Hertford, via Watton. Hot lunch at the Dimsdale Hotel was served in first-class style. During this time a very heavy thunderstorm passed over Hertford, a deluge of rain following for nearly an hour. After lunch an hour's ringing was enjoyed at All Saints' Church, containing a peal of ten. The vergier welcomed the visitors, on behalf of the Vicar (the Rev. T. G. Smith), who, with his ringers, was having an outing at Brighton. These bells go well, but are a little noisy in the ringing chamber. The party next made their way to Barkway, via Ware and Braughing, and were welcomed at the tower by the locum tenens to the Rev. W. T. Stubbs, who was on his vacation, and Mr. W. Machon. The bells, which are a very handy ring of eight, have a grand tenor, weight 16 cwt. As tea could not be obtained in this village, the journey was resumed to Royston, about five miles distant, where at the Bull Hotel a substantial repast was partaken of. All were interested in a young fox of four months old at the hotel. As Royston was not in the programme for ringing, Baldock was the next stopping-place, the ringers being met by Mr. John Cawdell, who welcomed them on behalf of the Vicar. Ringing was indulged in on this fine peal of eight, with a tenor of 28 cwt., from 7.30 to 8.45 p.m. At 9 o'clock tracks were made for 'Strawopolis,' via the Garden City, and Hitchin, Luton being reached about 10.30 p.m., after a most enjoyable time. The following methods were rung at the various towers during the day: Bristol, Cambridge and Superlative Surprise Major, Double Norwich, Stedman and Grandsire Triples, Stedman and Grandsire Caters Oxford and Kent Treble Ten. The members of the Luton band wish to thank the incumbents of the various churches for the use of the bells and the local ringers for their many kindnesses and welcome, which were greatly appreciated.

TOUR IN DEVON.

St. Mary's Guild, Taunton, accompanied by Messrs. Cozens and Young, churchwardens, made a tour of part of Devon by charabanc on August 18th. Leaving at 7.15 a.m. Exeter was reached at 9 a.m., where a brief halt was made. From there the journey was continued to Moretonhampstead, where the Parish Church was visited, and the bells raised in peal, some good Stedman Triples being then rung. The bells are a very musical peal by Gillett and Johnston of Croydon. Chagford was the next place of call, and the ringers were met by the Rector and the foreman of the ringers, who conducted them to the belfry. Touches of Stedman Triples were rung in fine style. The bells have recently been rehung by Messrs. Aggett and Sons, of Chagford, and they 'go' splendidly. The tenor is about 21 cwt. After leaving Chagford, a most pleasant drive over Dartmoor was experienced, and this beautiful part of Devon was admired by all. The next stop was at Buckfastleigh, where lunch was partaken of at the Golden Lion. The parish church was visited, and some Treble Bob Minor and Stedman Doubles were rung. From there the ringers walked to Buckfast Abbey, the real object of the day's journey. Here they found a peal of twelve bells cast by Messrs. Warner and Co., of London, and hung by Messrs. Aggett and Sons. Owing to the unavoidable absence of several ringers at the last moment only round on the twelve and Stedman and Grandsire Caters could be rung. After the bells had been lowered in peal, the ringers were kindly shown over the Abbey by one of the monks. The Abbey itself can only be described as magnificent, when it is remembered the work has all been done by unskilled labour by the monks themselves. On the homeward journey a halt was made at Ashburton, and the last ringing for the day, a few touches of Stedman Triples was done here. Afterwards the journey was continued to Exeter, and tea was partaken of at Deller's. Taunton was reached about 11 p.m., and everybody agreed the day was one of the most interesting ever spent by the Guild.

HEREFORD DIOCESAN GUILD.

LUDLOW AND CHURCH STRETTON DISTRICT.

The quarterly meeting of this district, held at Wistanstow on Aug. 18th, was well attended and very enjoyable. The company numbered 27, and the following towers were represented: Bitterley, Bromfield, Clunbury, Leintwardine, Ludlow, Norbury (Cheshire) and Stokesay. The Rector (the Rev. W. D. La Touche) together with the local ringers, welcomed the visitors on their arrival, when the bells were raised, and useful practice obtained in Grandsire Doubles and Triples.

Service was held in church, conducted by the Rector, who also addressed the members, and exhorted them to spare no effort in an endeavour to attain proficiency in whatever they undertook.

The Rector had kindly made all arrangements in regard to the tea, which was partaken of in the Schoolroom. The business meeting was afterwards held, with the Rector in the chair.—Seven full members and one probationer from Wistanstow tower were duly elected.

A pleasing feature of the meeting was the number of young ringers assembled, who, if they act upon the sound advice given by the Rev. La Touche, will be of great service to the Guild in the future.

Courses of Grandsire Caters and Triples were rung upon handbells, and also a 720 of Bob Minor in 19 minutes by the following: P. Lane 1—2, G. Randle 3, A. R. Harrison 4, Rev. H. S. T. Richardson (conductor) 5—6. This was the first 720 Bob Minor by ringers of 3 and 4.

Ludlow was chosen for the next quarterly meeting to be held on 10th November, if convenient.

MEETING AT OLD RADNOR.

The summer quarterly meeting of the Presteign and Leominster Districts Branch of the Hereford Diocesan Guild was held at Old Radnor on Saturday, August 18th. The proceedings commenced with the business meeting at the Vicarage, the Vicar (the Rev. T. Lloyd) presiding.—One new member was elected, and it was decided to hold the next quarterly meeting at Pembridge, in November, and combined practice at Dilwyn in September, and Eye in October, the dates to be fixed by the district secretary.

The meeting also passed a vote of sympathy with the parents and friends of Mr. E. B. Fitz-Patrick, a member of the Kingsland band, and a promising member of the Guild, who died last month.

The Vicar and Mrs. Lloyd very kindly provided tea, and attended to the wants of the company, 22 members sitting down. A hearty vote of thanks was accorded to the Vicar and his wife for their kindness, Mr. Lloyd expressing his great pleasure in welcoming the visitors, and hoping to meet them all again next summer.

The party then proceeded to the church, a distance of about a mile and a half, where they found other members had already assembled. The bells, a fine ring of six, with tenor about 16 cwt., were kept going till 8.30 p.m. to Grandsire and Bob Doubles and Bob Minor.

The church, dedicated to St. Stephen, which is situated on a hill commanding a lovely view, and contains a very finely carved screen, is well worth a visit. This was the first meeting held there by the association, and was very successful, members attending from Almeley, Hay, Kington, Kingsland, Knighton, Lyonshall, Staunton-on-Arrow, Stoke Prior and the local band. Handbell ringing was carried on at intervals. The last item of the evening was 'The land of my fathers,' played by four members.

BRIDGEND RINGERS' LONG EXCURSION.

On August 7th, the Bridgend ringers had their annual outing by charabanc. 'Go' was called soon after 7.30 a.m., and after a nice run via Cardiff and Newport, the first stopping-place, Llangibby, was reached. Here a nice handy ring of eight were soon set going to Grandsire Triples. After a look round the church, the party proceeded through Usk, Monmouth, etc. to Ross where they were met by Mr. J. Clark, who had everything in readiness. Short touches of Grandsire were the order, and then an hour's lovely drive brought the excursionists to Hereford. After dinner at the City and County Restaurant, All Saints' Church was visited, and a few good touches brought round. The return journey was made via Abergavenny, where tea was partaken of at the Victoria Cafe. Time would not allow a long stop here, but the journey was again broken at Llangibby, where a pleasant hour was spent with one or two of the local ringers. Bridgend was eventually reached about 12.30 a.m., everyone having had a royal time. The ringers take this opportunity of thanking the various clergy for the use of the bells and all who helped to make the outing such a success.

BELFRY GOSSIP.

The new tower and bells at Rowley Regis are to be opened on Sept. 29th. Mr. J. E. Groves is hanging the bells. It is not too late for ringers who desire to help in this work of restoration to send their contributions to the Rector, or to Mr. A. E. Parsons, Beauty Bank, Old Hill, Staffs.

The three peals at Poole, Swanage, and Southampton, last week, were rung by West Country ringers, who were staying in the Bourne-mouth district. One other attempt was made, Stedman Caters at Wimborne, but a missed bob put an end to the ringing.

Mr. James E. Groves has added a new treble at Holmer, Hereford, and overhauled the old ring of five bells. The new bell was dedicated on August 24th by the Dean of Hereford.

In our reply to 'Doubtful' last week, as to peals of Treble Bob running true to Bristol, it ought to have been added, that this applies when the tenors are kept together.

The peal of six at Coleshill, Warwickshire, are shortly to be augmented to eight through the generosity of a gentleman, who, for the present, desires to remain anonymous.

Bertram Prewett was killed in action on August 31st, 1918.

The anniversary of the longest peal rung on handbells falls to-day, or rather, it was begun on August 31st, 1912. It extended over part of two days, two weeks and two months, for the bells came round after midnight on Sunday, Sept. 1st. The length was 19,738, the time 9 hrs. 32 mins., and the place—Guildford.

August 31st is also the anniversary of the first ten bell peal in Scotland, which was Grandsire Caters rung at St. Mary's Cathedral, Edinburgh, in 1886.

The first peal in Salisbury was rung at St. Martin's Church on Sept. 3rd, 1887.

On Sept. 6th, 1897, a peal of 6,140 Bobb Major Royal was rung at St. Michael's, Coventry, in 4 hrs. 23 mins.

The peal of Cambridge Surprise Minor rung at Willesden on Aug. 14th, which brought Mr. I. G. Shade into the small circle of ringers who have rung peals of Cambridge from Minor to Maximus, also completed the quartette for the Middlesex County Association.

Incidentally the peal was Mr. Shade's 1,223rd, and, like 'Charley's Aunt,' he is 'still running.'

THE OXFORD GUILD ANNUAL MEETING.

To the Editor.

Sir,—As a member of some thirty years' standing, I take at least a speculative interest in the affairs of the Oxford Guild. It appears to me that the members in the more remote parts of the diocese have a real grievance. As was very logically pointed out at the annual meeting, the fact of holding the festival at Oxford one year practically ensures its being held there the next, since the great majority at the meeting are just those to whom Oxford is easily accessible. It is simply in the nature of things that they should continue to vote for Oxford year after year.

That being so, the only way to give the other parts of the diocese a chance is to take a vote by ballot unless the annual meeting could be induced by a strong recommendation from the committee to impose a self-denying ordinance and vote for another centre. But does the rule as now revised preclude an appeal to a ballot next year? It specifies 'the place selected at the previous annual festival,' but it does not define the precise mode of selection—whether by a show of hands or otherwise. As far as I can see, the terms of the rule would be satisfied by a general ballot of all members, the votes being counted and the result declared at the annual meeting, just as well as by a show of hands on the part of those actually present. The old rule required the place to be fixed by the members 'in general meeting assembled,' which implied that only those present could vote, but the rule as since revised simply provides that the selection shall take place at the festival.

It may be of interest to state, what is the practice in the Salisbury Guild, which also covers a wide area. The entire arrangements are in the hands of the committee, and they ensure that all members shall have due consideration by holding the festival at Salisbury once in three or four years, and in the intervening years taking the different districts of Dorset and Wilts in turn. The two cases are not parallel, as the change ringing facilities of Salisbury are not to be compared with those of Oxford—except for Oxford's dearth of eight-bell towers—but the principle might be adopted in a modified form. And the outlying parts of the Oxford Diocese offer greater attraction for ringers now than thirty years ago.—Yours truly,

Kington Magna.

THE CRITICISMS OF 'CRITICUS.'

MORE MUSINGS ON SUNDRY TOPICS.

The question of the meeting-place of the Oxford Diocesan Guild for its annual festival seems likely to lead, not merely to 'strained relations'—it has reached that already—but to actual breaking point, if the matter is not very carefully handled. Knowing something of the feeling which has been growing in Buckinghamshire during the last year or two, I can say this much, that some of the ringers there are smarting under what they honestly consider to be a real grievance, and it is probably because members of the Guild in other parts of the diocese have failed to realise this, that they have, more or less lightly, outvoted the proposal to make the annual festival a 'perambulating' one. I am a peace-loving subject, and I like constitutional methods of doing things; but there are times when it must be realised that drastic action may be necessary, and it is quite obvious that the Wycombeites, and those who think with them, intend to force matters by a step which, once taken, may well prove a serious breakaway for the Oxford Guild.

To be quite candid, I doubt if the majority of those who voted 'Oxford' at the last meeting, fully realised what their action might mean. To them it was merely a case of 'the majority has it,' and they voted as they did because they believed that Oxford is the best centre for the festival. In that they may be right, but the views of minorities cannot always be ignored, and what they are heading for, if they do not look out, is a rival association in Buckinghamshire. I doubt if this possibility occurred to them. Such a split, above all things, would be most regrettable, but members of the Guild in other parts of the diocese ought to be alive to this probable result of persisting in a course which, though constitutionally justifiable, is a source of grievance to a strong section. There is time yet to save the worst, and I have the greatest admiration for the tact of the Master of the Oxford Guild. If there is a way out no doubt he will find it, but it will not do to adopt a policy of drift, in the hope that the feeling aroused will die down with the passage of time.

The letter of the Rev. Herbert Drake last week did several things. In the first place it put my spelling right, although I had only gone astray in the number of 's', and an ending or two, but principally it showed how, even in the enlightened days of the twentieth century, the Exercise can have freak (as well as Greek) words foisted upon it, although, for that matter the progress of twenty years since 'Passallatria' and 'Passallatessera' were coined, has not, apparently, brought men to more rational views, when they can adopt such absurdities in nomenclature as—but, no; let us try to forget them. I tremble, however, to think what abnormalities the Peals Analysis Committee will inflict upon us when they come—if ever they do—to name the hundreds of new Major methods, which, some day, the Council will publish. And that opens up another question: Why the Peals Analysis Committee? The Council have got a Methods Committee; the Methods Committee provided the methods, and why on earth they were not given the task of selecting names for their own productions passes comprehension. A Carpenter may be a good gardener, but it is quite certain that an Analysis Committee makes a poor hand at christening methods.

But I have got rather away from my subject. These words 'Passallatria' and 'Passallatessera,' Mr. Drake tells us, are already and deservedly obsolete. There I do not quite agree with him. That they ought to be, there is no doubt, but their absence of use, I imagine, is more because there are at present no methods practised which contain 'all but three' or 'all but four.' When there are, the legislator who was the originator of these tongue twisters will no doubt pop up and refer us to Clause 3 of Section 4 of the Act—I mean Rules and Decisions—of the Central Council, 1903 or whatever the clause, section, and year may have been, and say that, as it has not been repealed, it must be applied and the New Spring Onion Maximus must be classified under the Passallatessera head to distinguish it from the Surprise, Passallatria and other classes. No, these things do not become obsolete—they just hibernate, and then, when a succeeding generation comes up against a method rung for the first time, someone dives into the archives of ringing (if the original perpetrator has passed beyond the stage of diving) and says 'Here you are, our grandfathers named this a "Passallatessera" method, and we must use that name because of tradition. Moreover, this method does not belong to the vegetable class; it belongs to the zoological group, and as it is obviously a cross between Kangeroo Surprise and Hippopotamus Delight, we ought to call it "Kangerotamus Passallatessera Maximus." That's the kind of thing we do in ringing.

But seriously, Mr. Drake's exposure of the way these terms were adopted goes to prove that we have altered very little for the better, in that respect, at any rate, in the last hundred years. This dog-Greek, or pussy-English, or whatever you like to call it, ought to have no place in ringing terminology, and here is another little job for the Central Council: let them overhaul their rules and decisions and clear out some of these absurdities. By the way, I wonder how many ringers know what the words 'Passallatria' and 'Passal-

latessera' really indicate? Mr. Drake told us what they are intended to mean, and what they really do mean; but what do they convey in ringing? We know our old friends 'Treble Bob,' 'Imperial,' and 'Surprise.' Well, for the benefit of those who have not studied the subject, I may just explain that the 'all but three' and 'all but four' relate to the cross-sections of methods with Treble Bob hunts, and that, just as a Surprise method has a place made at every cross-section and Treble Bob at none, so 'Passallatria' and 'Passallatessera' have places made at 'all but three,' and 'all but four' cross-sections respectively.

There is still a band of ringers within reach of Boston, U.S.A. What a struggle dear old Dr. Nichols made to plant change ringing on the American continent, but how little result did he see for his efforts! True he had round him for the last few years of his long life a limited company of men imported from England, but all his labour to induce change ringing to take root among the Americans themselves ended in almost entire failure. Reading the report of the muffled ringing in Boston for the late President Harding one realises that the American Press knows as little about the subject as do the English newspapers. Apart from the fact that the ringers rang 'Grandsire doubled' (that is not an impossibility, I imagine, though I don't think the Boston men rang Double Grandsire), what amused me most—if one may allow amusement to enter into such a solemn matter as muffled ringing—was to read that these ringers 'had performed the same service many times before at the death of a British king.' Happily British monarchs do not often need muffled peals, and these ringers would have to be fairly old in the teeth if they had rung at the death of more than one British king, seeing that Edward VII was the only king for whom muffled ringing has been done since William IV. died in 1820! But I suppose the American reporter wanted his readers to know that in Boston the ringing was really done by men of experience, and experience gained in ringing muffled for kings sounds more imposing than ringing for common clay—even in a democratic country.

Which reminds me that last week some English reporter must have had his leg well pulled. I was much interested in an article—an instructive article up to a point—published in a London daily newspaper advocating a great carillon for London. It enlarged upon the music which such a set of bells would provide for a vast audience, and described quite accurately the methods of modern tuning. It was in advancing the claims of the carillon as compared with bells hung for ringing that the writer began to get out of his depth, and, while he quite rightly explained that a carillon could be manipulated by one man, where one man was required for each bell when bells were rung in the ordinary way, he went off the deep end when he concluded with the statement that there used to be a peal of twelve bells which required a platoon of sixty men, all engaged at the same time, to ring them. They must have been some bells! I suppose they have been relunged by now, as the writer spoke of them in the past tense; but I think I know one gentleman who, despite the necessity of the platoon to keep the twelve going, would have been quite ready to tackle the tenor single-handed.

CRITICUS.

A REVIVAL IN DURHAM.

INTERESTING GATHERING AT CONSETT.

The proposed attempt at a peal of Grandsire Triples on August 25th, as announced in our issue of August 3rd, had unfortunately to be postponed to a date to be fixed in October, owing to the unavoidable absence of the conductor, Mr. W. H. Barber, of Newcastle Cathedral, on urgent business. However, two of the Cathedral ringers, Messrs. Alf. Hillier and A. M. Hall, had made the journey to Consett, so they advised an attempt for a half peal of the same method. This was accomplished in an hour and 30 minutes, in good style, and conducted by Mr. G. H. Wilkinson, the secretary of the Consett band.

This was Mr. Wilkinson's first attempt at conducting, and every credit is due to him for his pluck and resource. He is of a retiring nature, but has great hopes of adding one or two peals to the credit of the local band before many months are over. He has the making of a capable conductor, which the association is in great need of these times, and it will not be his fault if he does not get his first peal as conductor this year.

It was a pleasant surprise to meet several ringers from the neighbouring towers, and to hear that the prospects of a happy and united body of ringers at Blackhill, Benfieldside and Consett not forgetting Tanfield, were never so bright, and that a healthy sense of rivalry is springing up in the district.

The local band kindly provided refreshments for the visitors, for which they returned thanks, and after a short discussion on future developments the company broke up at 8 o'clock, looking forward eagerly to their next meeting in October.

It is very encouraging to know that the Vicar of Consett (the Rev. W. C. D. Fedden) welcomes these periodical meetings, and throws no obstacles in the way of the association having the use of the church bells to carry on, and further improve the art of change ringing in his deanery.

THE PRESERVATION OF ANCIENT BELLS AND TOWERS.

The 46th annual report of the Society for the Protection of Ancient Buildings is a record of a year of valuable work.

Reference is made to the conference on bells and bell hanging which took place between the Society and the Central Council's Committee, and the report adds:—

'For some years before the war the Society for the Protection of Ancient Buildings and the Central Committee of Ringers misunderstood each other. Particularly was this the case with regard to the treatment of old bells and bell cages and in regard to the material of which new bell cages should be made and the form they should take.

'The agreement resulting from this conference will be most useful, and in proof of this fact we are able to state that it has been adopted by the Central Committee for the Protection of Churches and their Treasures, and by that authoritative body, has been sent to the Diocesan Advisory Committees.'

The following letter accompanied copies of the report of the conference, sent out by the Central Committee:—

'The Central Committee for the Protection of Churches has received from the Society for the Protection of Ancient Buildings the enclosed memorandum on the conference between that Society and the Central Council of Church Bell Ringers.

'The Central Committee considers it a most valuable and helpful document, and would suggest that all Diocesan Committees should endeavour to make it as fully known as possible by sending it for publication to the Diocesan monthly paper, and the local press at their discretion together with this covering letter.

'In the judgment of the Executive Committee it is desirable to emphasise most strongly the danger that may accrue to our ancient church towers by the addition of more bells, unless they are hung under skilled advice. Ancient towers were not built to contain the more recent type of heavy bell used for change ringing. The great majority of mediæval bells were not only fewer and lighter than those of a later period, but it is highly doubtful if they were ever swung round as in change ringing. It is only now that we are beginning to see the effect of the large number of additions of heavy ringing bells improperly hung and of unsuitably designed frames placed in ancient towers, especially in the nineteenth century. Those concerned with ringing should bear in mind that while some ancient towers can stand such additions there are many which cannot.

'As a general rule it would seem that wooden frames should be used in ancient towers, and wooden headstocks on bells which have canons. Canons should not be cut off, save under most exceptional circumstances and never in the case of a mediæval bell. Experiments with untried materials and methods of hanging should be confined to modern towers.

'The Central Committee would suggest that Diocesan Committees should not advise the granting of faculties for repairs to bells without a definite understanding as to whether or not tuning according to the Simpson or five-tone method is proposed: that no Simpson tuning should be advised on bells dating from before 1700 and only under special circumstances on bells dating from before 1800. No opinion is here expressed on the desirability of tuning new bells according to the Simpson method, though it may be pointed out that technical opinion is by no means agreed as to its merits.

'The Committee would also advise that no agents or representatives of bell founders should be allowed to inspect or report upon bells on their own initiative save in cases where the bells have been rehung by the same firm within the previous five years.

'The Central Committee is seriously concerned by information received as to the condition of certain ancient towers in the country which are of priceless, artistic and architectural value. It is not without reason that they would urge upon Diocesan Committees the desirability of inspecting and watching towers and the need of obtaining reports by competent architects in as many cases as possible.

'No additions or alterations to rings of bells or their hangings should be made without asking the advice of the Diocesan Committee.'

**ESSEX ASSOCIATION.
SOUTH-WESTERN DIVISION.**

The quarterly meeting of the South-Western Division was held at St. Mary's, Prittlewell, on Saturday. Ringing, which commenced at 3 o'clock, was followed by a service, kindly arranged by the Vicar (Canon Ellis N. Gowing), who gave an inspiring address. Tea, kindly provided by the ladies, was partaken of at St. Mary's Hall, and at the succeeding business meeting, at which the Vicar presided, it was decided to hold the district annual meeting at St. Mary's, Walthamstow, in December. It was also decided to hold a meeting at Woodford, on a date to be arranged by the secretary.

The Master (Mr. A. Prior) proposed a hearty vote of thanks to the Vicar for granting the use of the bells, for the service, and for presiding at the meeting.—This was seconded by Mr. G. F. Margetson, and carried unanimously.—Thanks are also accorded to the organist and choir-boys, and to the ladies who helped at tea, and all who assisted to make the meeting a success.

DEATH OF VETERAN YORKSHIRE RINGER.

A MEMBER OF THE 'ALL ENGLAND' COMPANY.

On Monday, August 20th, there passed away another of the old school of change ringers, in the person of Mr. Tom Stead, of Blackmoorfoot Road, Crosland Moor, Huddersfield. He was a member of what was once known as the 'All England Company of Change Ringers,' and helped to win, among many other prizes eight firsts on both six and eight bells. He was also a member of the Huddersfield Parish Church company for many years, and took part in a non-conducted peal of Kent Treble Bob Major at Dewsbury, a record of which was placed in the Parish Church tower there.

Mr. Stead was proud of this feat, as it is recorded by the umpires that no word was spoken from calling 'go' to 'that's all,' which all must agree was a great feat of concentration for the whole eight men who took part.

He was laid to rest in the pretty cemetery at Kirkheaton, and a muffled ringing took place on the village church bells. Included in the company of ringers who took part was the only surviving member of the 'All England company,' Mr. J. Pickering, who is now 86 years of age. He rang the third bell, which was the actual bell on which Mr. Stead learnt to ring 60 years ago.

By trade the deceased was a farrier and smith, and he was followed to the grave by about 50 relatives, fellow-farriers, and ringers.

ESSEX ASSOCIATION.

NORTHERN DISTRICT MEETING AT WITHAM.

A well attended meeting of the Northern Division of the Essex Association was held at Witham on August 18th, when there were ringers present from Braintree, Dunmow, Maldon, Earls Cote, Kelvedon, Broomfield, Great Totham, Black Notley, Greenstead Green, and Hull. During the afternoon and evening various touches were rung upon the bells of the Parish Church, where also a shortened form of evening service was held. The Rev. G. A. Campbell, Vicar of Witham, conducted the service, the Rev. N. Hagger, curate, was at the organ, and Mr. C. H. Howard, J.P. (Braintree), Master of the Essex Association, read the lesson.—The Vicar gave a suitable address, in the course of which he emphasised that bells should be rung above all else to the glory of God.

Tea followed at the Church House, where the Rev. H. T. W. Eyre (formerly for many years hon. secretary to the Essex Association) and Miss Eyre kindly entertained the ringers.

After tea the Vicar of Witham warmly welcomed the ringers, and at an informal meeting Mr. P. Ashcroft, Witham was admitted a member of the Association.—Mr. C. H. Howard proposed thanks to the Vicar for kindly arranging the service and allowing the use of the bells, to the Rev. N. Hagger for playing the organ, and to the choir boys. He remarked that visiting ringers always had a hearty reception at Witham, where he was pleased to know the church bells were regularly rung for matins and evensong by the local band of enthusiastic ringers. He also thanked the Rev. H. T. W. Eyre (who maintained his interest in the Association after many years in office), and Miss Eyre.—Mr. W. H. Dyson, the District Master, seconded, and Mr. Eyre responded.

WHO OWNS ME ?

COMPOSED BY A. B. E. GINNER.

Prompted by receiving a variation of Annable's peal of Bob Major as a new composition.

Through Grandsire Triples Primeval Wood,
Holt's calf walked home, as good calves should;
And left a trail all bent askew—
A crooked trail, as all calves do,
Since then some hundred years have fled,
And I infer Holt's calf is dead,
Leaving behind a Single.

The trail was taken up next day;
Thurstans' sheep dog passed that way.
Next Tom Day's fine bell-wether sheep,
Followed the trail o'er vale and steep,
And drew the flock behind him, too;
As E. B. James is sure to do,
When he dispenses 'Hot Tom.'

So from that day when peals were made;
Through the wood of figures a path was made;
And many men wound in and out,
And bobbed and changed and dodged about,
But still they followed—do not laugh—
The early pattern of Holt's calf,
Who'd never heard of Q sets.

Holt's forest path became a lane,
Which Vicars and Taylor used again.
Their well-worn lane became a road,
Which Snowdon made a village street,
And this, before men were aware,
Thompson's chartered thoroughfare,
Of countless compositions.

And soon the central street was this,
Of Parker's 'twelve-part' masterpiece,
Composers, through an age and half,
Trode in the footsteps of Holt's calf;
They followed still his crooked way,
With variations day by day,
Trying to improve Holt's pattern.

A moral lesson this might teach,
Were I ordained and called to preach,
For men are prone to go it blind,
Varying the calf-paths of their minds.
They toil away from sun to sun,
The net result has long been spun,
Where's their sense of humour?

All that's required is 'set a seal';
'Originals' no man can steal,
Let's not get up and proudly call,
Figures which are known by all
As nothing else than calf tracks.
And don't let wise old wood-gods laugh,
Who saw John Holt's primeval calf,
Trace out the Pure Original.

SOURCES OF REVENUE.

Finance is a subject that troubles most, if not all, ringing organisations, but the Midland Counties Association have found such an excellent way out of money difficulties that they have just decided to invest in eighty pounds' worth of Savings Certificates. This is a very practical proof of the Association's excellent financial position, but it would not be possible upon the ringing members' contributions alone. Thanks largely to the energy and powers of persuasion exercised by the President, they have built up an honorary members' list of imposing proportions, the names including some of the most influential in the society's area.

This solution of the monetary problem is one which most other associations profess to seek, but which few successfully achieve. The clergy in most parishes are sought out, but in the majority of the associations honorary membership is very largely limited to the parsons. If the example of the Midland Counties Association were followed, the honorary roll would be much wider in scope, and, after all, there is every reason why it should be. Personal influence and tact go a long way in these matters, and while every association may not have at its head a President so influential as Alderman Chambers, yet in every parish the ringers ought to be able, either directly or through their incumbent, to bring in their leading Churchfolk. An ordinary appeal coming from an official of an association might have little or no result, but personal approach through local channels is more than likely to meet with success. We have often wondered why some of the associations, whose finances are a source of perpetual anxiety to its officers, do not organise a really active campaign for increasing the ranks of honorary members. The Midland Counties Association has shown that it can be done.

Again, to supplement the funds, there is another course open, a course to which we have previously drawn attention. Why should not each tower pay an affiliation fee—apart from the individual member's contribution? This fee ought to be provided in each case out of the general church funds, and we believe would in most instances be readily contributed through the churchwardens or parochial councils if the proposal were adopted and properly brought before those concerned. Only recently we advanced several reasons why such a course should commend itself to associations, and we believe it would prove an important contribution to the revenue if adopted. Several associations have recently declared the greatest embarrassment in regard to funds, but the two methods advocated

above—the expansion of the hon. members' roll and the institution of an affiliation fee—seem to us to offer far more promising prospects of replenishing depleted coffers than schemes for peal booking fees or a charge for annual reports. Even if there be any hesitation over the adoption of a new policy by the institution of affiliation fees, there can, at any rate, be nothing to prevent an intensive campaign in enlisting new honorary members.

AT THE LOUGHBOROUGH CARILLON.

THE MIDLAND COUNTIES ASSOCIATION.

Where are the brave, the strong, the fleet?

Where is our English chivalry

Wild grasses are their burial-sheet

And sobbing waves; their threnody.

O loved ones lying far away,

What words of love can dead lips send?

O wasted dust! O senseless clay!

Is this the end? Is this the end?

Oscar Wilde.

Among the plethora of war memorials throughout the length and breadth of the country, no other stands out in such bold relief as that of Loughborough, Leicestershire. Still in its infancy as a borough town, Loughborough has raised such a monument to its sons who are sleeping their last long sleep in the soil of France, and in other lands, that the whole Press of the nation applauded the action. Known only by its staple industry of bell founding, what better memorial could be devised than a carillon in a tower and a place which become holy ground in its association with those who made the great sacrifice, for so long as the bells remain, so long will their memory be kept green, and rightly so—lest we forget.

At the dedication of the tower and bells on Sunday, July 22nd, never had been seen such a mighty concourse of people in the history of Loughborough, and in all probability, never will again. Chevalier Deunyn, of Malines, Belgium, the reputed premier carillonneur of the world, 'opened' the bells, and continued a series of concerts throughout the following week to the delight of thousands.

It was arranged that the quarterly meeting of the Midland Counties Association should synchronise with the carillon festival, and it was held accordingly on Saturday, July 28th. Although at all times when held at Loughborough the association can rely on a bumper meeting—the previous best being 250 visitors—on this occasion, no less than 375 sat down to an excellent tea, given entirely free by the generosity of Messrs. Taylor, in honour of the occasion. The Fearon Hall was packed; not an inch of room was wasted and the stairways were called into requisition to accommodate the multitude of ringers that came from all parts of the kingdom, and it is highly probable that this constitutes a record for any ringers' meeting.

After grace had been lustily sung at the close, the business meeting was proceeded with. The chair was occupied by the president (Ald. R. B. Chambers, J.P.), who was supported by Ald. W. Moss (Mayor of Loughborough) the Mayoress, the Ven. Archdeacon of Loughborough, Mr. Denison Taylor Mr. Pryce Taylor Mr. A. C. Wright, hon. secretary, and other officials of the society.

In welcoming the association to Loughborough, the Mayor paid a tribute to Messrs. Taylor and Co. saying that the carillon might not have become an accomplished fact but for their loyal co-operation, the largest bell of the 47 forming the carillon, and weighing no less than four tons, being their gift, in memory of the sons they had given to the country and lost. His Worship intimating his willingness to become an honorary member, his name was put to the meeting, and carried with acclamation.

The president, as usual, handed in another batch of new honorary members for election, and about twenty ringing nominations were also accepted.

The financial position was commended, and it was decided to invest a portion of the large balance at the bank in £20 worth of War Savings Certificates, these maturing to the value of one hundred pounds in five years.

Grants of three guineas each to the bell funds of West Hallam and Oyston were made, the opinion being that the money was well spent in assisting deserving cases of restoration.

In this connection it may be intimated to other associations that have financial difficulty, that no better way of augmenting their resources exists than the creation of a large honorary members' list, pointing out to them that a portion of the balance may be applied to the relief of necessitous cases of bell restoration.

For the places of next meetings, Bakewell and Ilkeston were decided upon.

Hearty votes of thanks were passed to Messrs. Taylor and Co. for their unbounded hospitality, and this was responded to by Mr. Denison Taylor.—Thanks were also accorded to the ladies present, the Mayoress and Mrs. R. B. Chambers, and to the local branch for their great help in handling the problem of catering.

As may be expected the bells of All Saints were in evidence all the afternoon—and during the business meeting too much so—as were also the bells of the foundry. The majority had come however, to hear the bells of Queens Park, where thousands had gathered to listen to the famous carillonneur, who showed an amazing skill in a varied repertoire, ranging from Chopin's 'March Funebre' and 'The Wedding March' from 'Lohengrin,' to old English ballads.

The carillon has undoubtedly done much to popularise bell music, whether it will affect change ringing adversely remains to be seen.

At present true ringing is a delight to the musical ear, and the 'carillon meeting' at Loughborough will be a day to be long remembered.

ANCIENT DURHAM BELLS.

On Thursday August 23rd, a party of ringers from Darlington visited the village of Heighington and rang on the bells of St. Michael's Church, 288 Kent Treble Bob Minor, 120 Bob Minor, 120 Stedman Doubles, 120 of Grandsire Doubles, and a second touch of 288 of Kent Treble Bob Minor; also a course of Grandsire Triples, 120 of Grandsire Doubles, and a 120 of London Surprise Minor on the handbells.—On Saturday, August 25th, 180 Bob Minor and a 360 of Bob Minor were rung, the following ringers taking part: Messrs. W. D. Lister, of St. John's; F. W. Lupson G. W. Park W. N. Park, Roland Park, W. Oliver and F. Cooke, of Holy Trinity, Darlington; Mr. C. S. Burdon of London; and Mrs. Blenkinsopp, J. Beck, H. Hall, of the local band.

These bells are a ring of six, the first three being pre-Reformation bells dating from about 1430. The treble has the arms of the Neville family, and the figure of the Virgin and the Child in bold relief, and the following inscription:—

'O Mater Dia Me Sana Virgo Maria.'

The second and third bells have also Latin inscriptions on them. They were augmented to six in 1883 by the addition of three larger bells cast by Taylor and Co., of Loughborough, the tenor weighing 15½ cwt.

Two peals have been rung on them, one in seven mixed Minor methods on January 23th, 1896, and one of Surprise Minor in seven methods on January 22nd, 1910, by visiting bands.

'ARRANGED,' NOT 'COMPOSED.'

To the Editor.

Dear Sir,—Are not composers, wasting your space when they ask you to publish such peals as those of Stedman Caters by Mr. Daltry, which appeared in your last issue? There are thousands of this class of peal; in fact, Henry Johnson and John Carter have had them for years. By all means let us have original compositions but such peals of Caters as you published last week are merely 'arranged,' and not 'composed.'—Yours, etc.,
ALBERT WALKER.

THE FIRST TRUE PEAL OF GRANDSIRE.

To the Editor.

Dear Sir,—If the writer 'Bob Minor' consults the late J. W. Snow, don's 'Grandsire,' pages 122 to 125 he will find what he requires, and on page 64 the figures of the peal.

LONDON COUNTY ASSOCIATION.**SUCCESSFUL MEETING AT FULHAM.**

The Southern District of the London County Association held a very enjoyable meeting at All Saints', Fulham, on Saturday. The beautiful ring of ten bells attracted a large number of ringers from all parts, including Canterbury, Hillingdon, Croydon, Chiswick, Ealing, Willesden, etc. A number of kindred associations were represented, especially the Middlesex County Association, the secretary of the South and West District (Mr. W. H. Hollier), Messrs. Trollope, Hewett, etc., and last, but not least, a member of the fair sex from Hillingdon being present.

It is very gratifying to notice how members of these associations intermingle at each other's meetings, showing the true brotherhood of the belfry.

The secretary (Mr. F. W. Goodfellow) took charge of the proceedings in the absence of the Master (Mr. H. Mance), who was on holiday. Some good ringing took place, and the following methods were rung: Double Norwich and Superlative Surprise Major Grandsire and Stedman Caters, Kent Treble Bob, and Cambridge Surprise Royal.

Mr. J. W. Driver is to be thanked for welcoming the association, and for contributing to make the meeting such a success.

WINCHESTER DIOCESAN GUILD.

The quarterly meeting of the Winchester District of the Guild was held at Hursley by kind permission of the Vicar (the Rev. J. R. Husband) on Saturday week. The bells were available during the afternoon and evening, and kept going to Grandsire and Stedman Triples, Bob and Double Norwich, Superlative and Cambridge Major. Tea took place at the Club Room, near the church, the Vicar being in the chair. Members were present from Dibden, Romsey, Ringwood, Portsea, North Stoneham, Southampton, Winchester, St. John's, Hillingdon and the local band.—Apologies were received from Mr. Geo. Williams, Mr. Pullinger, and Mr. W. Andrews.

Three probationers from the local band were elected members.—A vote of thanks was passed to the Vicar for the use of the bells, and to the local band for having everything ready.—The Vicar, replying, said he hoped that some of those present would come over to Hursley and score the first 5,000. If they did he would place a board in the tower recording the event.

Afterwards the bells were kept going till 8.15. The annual meeting will take place at Southampton on Saturday, Nov. 3rd, due notice of which will be given in the 'Ringing World.'

BELFRY GOSSIP.

Our leading article last week brings us the information that Mr. W. H. Fussell has for nearly forty years been collecting information with regard to old peals. He has extracts (kindly handed to him by Mr. R. A. Daniel) from the British Museum records of the London Scholars and the Union Scholars, and he has procured particulars of the early peals of the principal London and Birmingham Societies, as well as the peals of Samuel Lawrence, of Shifnal; James Barham, of Leeds, and William Rayner, of the Isle of Wight.

Here, then, the Central Council have a splendid opportunity of securing what we suggested last week by making Mr. Fussell their official peal historian.

Occasionally there is a joke against ourselves, and we can laugh with those who laugh at us. Most of our readers noticed the recent advertisement for a set of handbells, 'tenor 15 cwt.,' and many humorously pointed out the obvious mistake. Now we have got into 'Punch,' whose terse comment is 'Hefty fellows, these campanologists.' After all, it is something to have added to the gaiety of the nations.

Secretarial posts are usually difficult to fill, but two nominations have been received for the post of ringing secretary to the Lancashire Association, and the members will have to make their choice when they meet at Kendal on Sept. 15th.

For a youth of 15, Wilfred Taffender's performance last week was not a bad one. He cycled the 75 miles from Camberwell to Ipswich, and rang a peal of Cambridge Surprise Major, within the space of 13½ hours, finishing off the evening by taking part in touches on handbells.

A few of the old Sussex boys are arranging to get together for a ringing week in mid-October, making Brighton the centre.

We have been requested to ask our readers if there is any possibility of ascertaining where and when the first six-score of Grand-sire or Bob Doubles was accomplished.

It is said that Mr. I. G. Shade, having now retired from business, is contemplating taking up ringing in earnest. By George!

A peal of Bob Triples, in which John Holt took part, was rung at St. George's, Southwark, on Sept. 9th, 1750.

An old tablet in the belfry at St. Mary's, Coddensham recorded the fact that on Thursday, September ye 10th, 1741, was rung in this steeple, by ye Crowfield Society of ringers, a compleat peal of five thousand and forty of Gathrine's Triples, being the first true peal that ever was pricked with two Doubles only.

This peal is presumed to be Garthon's peal of Grandsire Triples, to which reference was made in a recent issue.

The first peal of Superlative Surprise Major in Wales, was rung at Llangollen, on Sept. 13th, 1907, conducted by the late Bertram Prewett.

RICHARD F. DEAL'S 150 PEALS.

Mr. R. F. Deal, despite a lengthy sojourn in Australia and service overseas in the war, has several interesting performances among the 150 peals which he has completed:—

	Rung.	Conducted.
Minor (3 methods)	1	1
Grandsire Triples	10	9
Stedman Triples	48	6
Bob Major	1	
Kent Treble Bob Major	21	9
Double Norwich Major	15	
Cambridge Surprise Major	2	
Superlative Surprise Major	4	
Grandsire Caters	1	1
Stedman Caters	25	2
Double Norwich Caters	1	
Double Norwich Royal	1	
Forward Royal	2	
Kent Treble Bob Royal	6	1
Stedman Cinques	8	1
Cambridge Surprise Maximus	1	
Kent Treble Bob Maximus	3	1
Total	150	31

The Stedman Cinques include the record (12,675) at St. Saviour's, Southwark on Whit Monday, May 21st, 1923; also a peal at St. Paul's Cathedral, London on Feb. 13th, 1909, in honour of the 90th birthday of the late Dean Gregory. The Cambridge Maximus was the first to be rung in the Metropolis, at Cornhill, on January 28th, 1911.

THE OXFORD DIOCESAN GUILD.

To the Editor.

Sir,—Every member of the Oxford Diocesan Guild must feel that your article devoted to the subject of the Guild's annual festival and the publishing of the letters from Mr. Twilchen and Mr. Edwards, will greatly assist the desired end of obtaining equal privileges for all. My certificate of membership is No. 305 dated June 14th, 1882, and I call to mind the year previous when the East Berks and South Bucks Society joined forces with the Oxford Society thus forming the Diocesan Guild. Now, Sir, I would ask members to peruse any report of the annual meetings, held during its existence, successively in the various places in Berks, Bucks and Oxon, and discover any reason for not continuing that procedure. On the contrary, they show how successful they were because of being recognised as part of a valuable Guild operating in the whole diocese. If this is not the case, I am open to correction. Therefore, as loyal members let us see that common rights be enjoyed so that the Guild may continue to flourish as of old.—Yours sincerely,
J. W. WILKINS.
Hughenden Road, High Wycombe.

NORTH BUCKS BRANCH DISCUSSES FESTIVAL MEETING-PLACE.

A quarterly meeting of the North Bucks Branch was held at Buckingham on Saturday, when quite a large gathering attended representing the following towers: Bletchley, Beachampton, Calverton, Emberton, Linslade, Maids Moreton, Newport Pagnell, Stony Stratford, Great Horwood, and the local ringers. The bells, a grand peal of eight, were set going at 2.30 p.m. until 4 p.m., when the members adjourned for tea. After this had been partaken of the secretary (Mr. W. Sear) reported that he had no special business to bring before the meeting, but a general discussion took place with reference to the work of the branch, and various opinions were expressed on the controversy that had arisen in the other part of the county in regard to holding the annual festival of the Guild at Oxford each year. It was hoped that some satisfactory arrangement would be arrived at without causing any ill-feeling throughout the various branches that all helped to uphold the tradition of the Oxford Guild.

The Secretary said that he did not wish to voice his personal opinion on the matter until he knew what was actually going to take place, but whatever happened he would have to do what the members wished whether it was in favour of the annual festival being always held at Oxford, or in the three counties, Oxon, Berks and Bucks, respectively, each year.

After the discussion, a presentation was made to Mr. W. Sear in recognition of his services to the branch as secretary for nearly 10 years. The gift was in the form of a sum of money, and the presentation was made by Mr. W. Smith, of Newport Pagnell, in the absence of the chairman (the Rev. L. Moxom).

The Secretary, in accepting the present, said how glad he was to receive a small remuneration, but what he appreciated most was the action of the members rather than the value of the present, because it showed that what he had done in the interests of the branch during the past had been done to the satisfaction of its members and that he would continue to try and serve them to the best of his ability. While such loyalty continued amongst them he felt sure that the North Bucks Branch would always be one of the prominent branches of the Oxford Guild. It was the hearty co-operation that he received from all towers that had built the branch up to what it was, consisting of 29 towers in union with a membership of nearly 200.

The usual votes of thanks were accorded to all those who helped to make the meeting a success.

A short service was afterwards held, conducted by the Rector (the Rev. C. C. T. Naters), and further ringing took place the methods rung varying from Grandsire and Stedman Triples to Cambridge Surprise Major.

SUSSEX COUNTY ASSOCIATION.

CENTRAL DIVISION AT HENFIELD.

A very successful meeting of the Central Division was held at Henfield on Saturday, August 26th, when close on 60 were present. Ringing commenced at 2 and continued until 4.45, when all assembled at the Parish Hall, where a most generous tea had been provided by the Misses Dixon Brown at which they presided, supported by the Master (Mr. J. T. Rickman), the Revs. B. J. Boodle (curate), C. P. Williams (Vicar of Ditchling), F. G. Beddard (Vicar of Burgess Hill), and the churchwardens.

The usual business meeting followed, and was mostly of a routine nature. The following were elected members: George Mansbridge, Hurstpierpoint; Stafford H. Green and John S. Goldsmith, non-resident; the Rev. F. G. Beddard (Vicar of Burgess Hill), hon. member.

Votes of thanks were passed to the Misses Dixon Brown for their great kindness in providing tea, and for their presence; the Rev. B. J. Boodle for conducting the service in the absence of the Vicar; and

the Vicar of Ditchling for his eloquent address. The Vicar of Burgess Hill also assisted at the service.

A collection for the benevolent fund amounted to £1 2s. 4d. Ringing was then resumed until 8 o'clock, Superlative, Cambridge, London, Bristol, New Cumberland and Yorkshire Surprise being amongst the methods rung.

The following towers were represented: Brighton (St. Peter's and St. Nicholas'), Burgess Hill, Bolney, Heene, Henfield, Hurstpierpoint, Lindfield, Shipley, Shoreham, Steyning, and independent and non-resident members were also present.

The best thanks of the association are due to the Henfield branch, who made such excellent arrangements, and worked hard to make the meeting a success.

A PEAL IN THE TRAIN.

CUMBERLAND YOUTHS' NEW RECORD.

A unique performance appears in our peal columns this week, the Cumberland Youths, while travelling down from London to Painswick upon an excursion, having rung a handbell peal in the train.

There have, we believe been previous attempts by various handbell parties to achieve this, but never with success, one such effort, we recollect, having been extinguished through the train running into a tunnel.

As will be seen from the footnote, the peal last Friday was begun at Paddington, and finished after the train had passed Stroud, having thus been rung in six counties, viz., Middlesex, Bucks, Berks, Oxford, Wilts, and Gloucester.

A peal on the sea and peal in the train have been rung: When may we expect to read of a peal in a travelling motor-car or a flying aeroplane?

A BIRTHDAY PEAL.

PLEASANT WEEK-END IN SUSSEX.

As recorded elsewhere, a peal of Stedman Caters was rung at Lewes on Saturday, to celebrate the 77th birthday of Mrs. Goldsmith, of Southover, a lady well known to a large number of ringers who have visited the tower there from many parts of the country. There have been bells at Southover for over two centuries; and for something like a hundred years succeeding generations of Goldsmith were ringers at this tower. Mrs. Goldsmith has been a worshipper at the church for over fifty years, but her connection with it has been even more intimate than that of an ordinary member of the congregation, for it is here that she was married, and, after the death of her husband in 1884, she carried on for sixteen years the duties of parish clerk, which office her husband and his father before him had long occupied. Few outside the actual ranks of ringers have surpassed her interest in ringing, with which her family have been so closely connected, and it was, therefore, not without fitness that her birthday should be honoured by a peal.

The band was gathered from a wide area, a contingent from London and beyond making the journey by road. 'Elizabeth,' with the main party, left the Monument at 1 p.m., but the traffic out of the Metropolis, and obstructed roads about Croydon, put a curb upon her paces, with the result that the County Town of Sussex was not reached as soon as was anticipated. This party, consisting of Messrs. G. K. Pye (Romford), C. T. Coles (Walthamstow), C. Pease (Chelmsford), J. E. Davis (Westminster), and I. G. Shade (Greenwich), found the rest of the company awaiting them in the tower, the band being completed by Messrs. R. J. Dawe and A. J. Turner (Lewes), W. J. Kemp (Clapton), J. A. Hart (Uckfield) and J. S. Goldsmith (Woking). Without waste of time on preliminaries, except to elect to the Sussex Association those who were not already members, the bells went off into Stedman Caters, and came home at the end of 3 hrs. 53 mins. of excellent ringing, the peal, specially composed by the Woking member of the party, consisting of seventy-seven times seventy-seven changes. This number was considered the most fitting, in the absence of sufficient time to ring what was originally spoken of, namely, 7777. And here it may be added that the composer, who learnt to ring at this church, desires to express his thanks to the band, and especially for the assistance given by Messrs. R. J. Dawe and C. T. Coles in making the arrangements. Incidentally the peal also formed a birthday celebration for Mr. J. A. Hart, and it is the longest peal on ten bells rung in Sussex.

After the peal the ringers had 'high tea,' at which they were waited upon by Mrs. Goldsmith, and Mrs. J. S. Goldsmith and Mrs. Kemp (who was touring with her husband) also joined the party.

On Sunday morning there was a full muster for service ringing, courses of Bristol and Cambridge Surprise Major, and touches of Stedman Caters, in which some of the local men took part, being rung.

In the afternoon, 'Elizabeth' went off loaded above her recognised capacity, over some hilly Sussex roads. But she behaved well, and brought her cargo safely to Heathfield, where a capital peal of Cambridge Surprise Major was rung, and concluded a quite enjoyable week-end's ringing.

RINGERS' OUTINGS.

ACROSS THE BRISTOL CHANNEL.

On August 25th, St. John's ringers, Cardiff joined with the All Saints ringers, Newport, for their annual outing, when Ilfracombe was visited. Together with several of the wives, they crossed the Bristol Channel, and a nice trip was made, the few who were rather upset soon making amends on reaching terra firma. On arrival, the party were met by that genial Ilfracombe ringer, Mr. R. Dadds, who had made the necessary arrangements for lunch. Time was rather limited, which did away with any speech-making, and tracks were made for the Parish Church, where the bells were quickly raised and sent off into changes. After several touches a hasty move to the street below, where a charabanc was waiting to take the visitors to Coombe Martin, and the drive was much enjoyed. A hearty welcome was received at Coombe Martin, and at once the bells were requisitioned, and found to be a light musical ring of eight recently installed. After all had tried their hand, the return journey was made through the picturesque village back to Ilfracombe. A sharp thunderstorm was encountered, but did not mar the spirits of those who had made the trip. Time would not permit of a stay to sample the ring of six, which shortly, it is stated, will be increased to a ring of eight. The steamer was again boarded, where a fine spread was done justice to on the way back. Home was reached in good time, after a thoroughly good day's outing, and opportunity is now taken of thanking Mr. Dadd, for his kindness, and to the incumbents for the use of the bells.

EALING RINGERS' RIVER TRIP.

On Saturday, August 18th, the ringers of the above-named church (strengthened by several friends from London) held their annual outing, which this year took the form of a river trip, ringing being a secondary thought. The party, 18 in number (with a suspicious-looking hamper), left Ealing by the 9.30 a.m. train, and arrived at Maidenhead at 10.15 a.m. No time was lost in reaching Boulter's Lock, where a steam launch was boarded en route for Caversham. As soon as the company had settled down the contents of the hamper were revealed, and also greatly appreciated. During the journey, handbells were brought out and good practice put in. Henley was reached at 2 p.m., and here the party went 'ashore,' and made their way to the Little White Hart Hotel, where arrangements had been made for dinner. Time was limited, and at 3 p.m. the launch was again making its way up river, the scenery, which was magnificent, being greatly admired. Caversham was reached at 4.30 p.m., and having gathered up all the 'dead' ones, a move was made to the Central Cafe, Reading, for tea. Mr. J. R. Mackman joined the company here, and later piloted the ambitious ones to the tower of St. Laurence's, where two touches of Stedman Caters were brought round. A move was then made to St. Peter's, Caversham, where, through the kindness of Mr. R. T. Hibbert, the key of the tower was obtained, and a touch of Stedman Triples rung. After light refreshment, steps were turned to the station, and Ealing reached at 9 p.m., thus ending a day long to be remembered by all who had the pleasure of taking part in it. The band take this opportunity (through 'The Ringing World') of thanking the Rev. W. Fothergill Robinson for the very great privilege extended to them, the Vicar of St. Peter's, Caversham, Mr. J. R. Mackman, and that good friend, Mr. R. T. Hibbert for their kindness and the trouble taken in making the day such a great success.

WICKWAR RINGERS' OUTING.

On Saturday, August 11th, the Wickwar (Glos.) ringers had their outing, accompanied by the Rector and a few friends. Starting at 8 a.m. by charabanc, in delightful weather, the first stop was made at Marshfield, where the party was met by Mr. Lewis the local captain. After touches of Doubles and Minor, with tenors covering, a move was made for Bradford-on-Avon, through pretty country. The 'go' of the eight bells here was disappointing, the dry weather having affected the wooden frame. After ringing some unnamed 'Surprise' in an attempt to raise them in peal, short touches of Doubles and Minor were rung on the front six. Proceeding to Trowbridge, which was reached at 12.15, dinner was found to be ready. This over, the party was met by Mr. Sam Hector, who after showing them over the tower and pointing out objects of interest, helped to raise the splendid ring of ten. The 'go' of the bells was 'topping'. A move was then made for Westbury, where the eight bells, were 'it' absolutely, and were only left at 4.30 with many expressions of regret. Up to this time the time-table had been kept almost to a minute, but owing to the majority of the party desiring to go to Chippenham by the longer but prettier route, which took them close under the Westbury White Horse, Chippenham was reached much later than the scheduled time. After a meat tea it was intended to visit both towers, each with a ring of eight, but time would only permit a pull at the Parish Church. Here, thanks to the help of the

locals, the best ringing of the day was indulged in, touches of Stedman and Grand sire Triples and Bob Major being brought round in fine style. Chippenham was left about 8.15, and home reached just before 10 o'clock, everybody having thoroughly enjoyed themselves. The ringers, through the medium of 'The Ringing World,' wish to thank the incumbents of the various churches for the use of the bells, and to the tower keepers and others for so kindly meeting them and having everything ready, which to a great extent was responsible for making the outing so enjoyable and successful.

NATAL'S FIRST LADY RINGER.

WEDDING AND PRESENTATION AT DURBAN.

On Saturday, August 4th, at St. Mary's Church, Greyville, Durban, the wedding was solemnised between Mr. Alec. Booth and Miss Mary Hume, who was the first lady ringer in Natal, and probably in south Africa. After the ceremony the ringers 'fired' the bells 21 times (the bride's age), and rang a merry peal.

On Thursday, August 9th, a pleasant social evening was spent at the residence of Mr. Simpson, leader of St. Mary's Guild, the occasion being a presentation to the bride, by the St. Mary's band, of a handsome dinner gong in the form of a church bell, mounted on a beautifully polished teak stand, and suitably inscribed, the inscription reading as follows: 'Presented to Miss M. R. Hume (first lady ringer in Natal) on the occasion of her marriage, August 4th, 1923, by her fellow-ringers of St. Mary's, Greyville.'

The whole of the work entailed by the making of the present, with the exception of the inscription, was done by members of St. Mary's Church.

Mr. Simpson, who made the presentation on behalf of the ringers, said he hoped that now she was married Mrs. Booth would not be lost to the tower altogether. The bride, in responding, thanked the ringers for their present, and said it was not her intention to leave them altogether.

Songs and musical items were rendered by Miss Daisy Wright, Miss Olive Clements, Miss Clarkson and Miss Enid Prickett.

10,400 SUPERLATIVE SURPRISE.

A PEAL WITH DOUBLE BODS.

By E. H. DEXTER.

The following is the composition rung at the Bell Foundry, Loughborough, on May 6th, 1922, and is interesting from the fact that it is the greatest number of changes ever rung in Superlative Surprise.

RINGER'S ESCAPE FROM DROWNING.

PLUCKY RESCUE BY HIS WIFE.

A cool head and courageous effort by Mrs. Elsie Hairs, saved the life of her husband, Mr. Frank I. Hairs, while bathing near Surfleet a week or two ago.

Mr. and Mrs. Hairs went for a swim, and while in the water Mrs. Hairs noticed her husband in difficulties. Swimming rapidly to his assistance she was just in time to prevent him going down for the last time. By almost superhuman effort, she dragged him to the side of the river, and her calls for assistance were answered by two men at work not far off. By the time they arrived, and were able to pull Mr. Hairs on to the bank, Mrs. Hairs herself had almost reached the point of exhaustion. Mr. Hairs was soon brought round again, and is happily no worse for his unpleasant experience. He undoubtedly owes his life to his wife's plucky rescue, Mrs. Hairs being an excellent swimmer. The accident was witnessed by their only child, who was on the river bank.

DURHAM AND NEWCASTLE ASSOCIATION.

CHESTER-LE-STREET TOWER REOPENED.

St. Cuthbert's Church, at Chester-le-Street, the ancient and now growing town about midway between Durham and Newcastle, dates from the 11th century, and is on the site of the original wooden church built about 885. For some months the fine peal of eight bells have not been rung owing to repairs being required at the base of the spire, but these repairs have been almost completed and to celebrate the reopening a joint meeting of the Eastern and Western Districts of the Durham and Newcastle Association was held there on Saturday last. Members attended from Darlington, Shildon, Tanfield, Gateshead, Sunderland, and Houghton-le-Spring. Touches of Stedman and Grandsire Triples, Kent Treble Bob Major and Bob Major were rung, and during the afternoon the Rector (the Rev. Dr. F. H. Jackson) dedicated a very handsome peal board, commemorating the first peal rung by a lady member of the association. The peal referred to was rung on May 13th, 1922, being 5,056 of Kent Treble Bob Major in 3 hours and 17 minutes, the treble being rung by Miss Ada Donnison a member of the local band. The board has been made to match three others, already erected, and was supplied by Mr. J. Thompson builder, Chester-le-Street, the beautifully carved canopy being added by Mr. F. Sheraton, the secretary of the branch.

Tea was partaken of in the Parish Hall, and the Rev. A. W. Lister, of Tanfield, on behalf of the members, thanked the Rector for his kindness in inviting the association, and the local members for the hearty welcome received.—The Rector, in replying said he hoped that many such happy meetings would be held there in the near future.

Mr. James Anderson expressed, in a few well-chosen words, the thanks of the Ringers' Guild to the Rector and churchwardens for their kindness in providing the very handsome addition to the belfry which had been unveiled that afternoon. Ringing was kept up until a late hour.

CAERLEON RINGER'S BEREAVEMENT.

We regret to record the death of Herbert Watts, son of Mr. George Watts, of Caerleon, Mon. Mr. George Watts is a regular service ringer at the parish church, and the bells were rung muffled on Saturday, August 11th as a mark of respect. The deceased was at camp at Porthcawl with the Monmouthshire Territorials, and was seized with neurisy on August 4th, and passed away suddenly on the 7th. He was interred at Caerleon Churchyard on Saturday, Aug. 11th. The sympathy of all ringers will go out to the parents and family in their sad loss.

A 'SPLASH' IN THE NORTH.

The young London ringer, Reginald D. Marshall, made quite a 'splash' when at Sunderland for a fortnight, not only in the sea at Roker, although he did a deal of that, but in the way of peal ringing. Six attempts were definitely arranged, and of these five were accomplished. The other, Cambridge Royal at North Shields, could not be started for, owing to the late arrival of the pair from Sunderland. However, some good ringing was done on the bells, including 720 of Cambridge Royal. A further attempt was made to get a bob and single peal of Stedman Triples, but was not successful. In addition to peal ringing, Mr. Marshall did three Sunday's service ringing at St. Ignatius, including touches of Superlative and Cambridge Major, Stedman Triples, and a quarter-peal of Double Norwich.

THE COUNCIL AND ITS DECISIONS.

A correspondent this week endorses the suggestion made by our contributor "Criticus," that the time is more than ripe when the Central Council should overhaul its so-called "Rules and Decisions," and with this, we think, most ringers will agree. The early resolutions passed by the Council were embodied in one of their publications, which is still on sale, but, as the Rev. H. Drake points out, this booklet contains no record of the Council's doings in the last twenty years or so, so that, despite one or two supplementary pamphlets that have been published, members of the Exercise who really wish to know what the Council have done, or to consult their ruling on any point raised in recent years, have very little, if any, possibility of finding out, except by searching the files of the ringing press. It would hardly be fair to the Council to say that these years have produced nothing to place on record, and their "decisions," however few, ought to be available, as Mr. Drake says, to all who desire to have them. Under present conditions we doubt if even the Hon. Secretary could say what the Council has resolved on any specific point without making an exhaustive search of the minutes. From time to time the Council have adopted reports of its committees containing recommendations, and have passed resolutions of general importance to the Exercise, but all these, since about the year 1903, lie buried in the archives of the Council. Moreover, it is, we believe, a fact that some of the "decisions" arrived at years ago, need serious revision in the light of more recent knowledge, and it is therefore high time that the Council brought this part of their work up to date.

When originally formed, the Council came into existence largely upon sufferance, by which we mean that it was started and maintained by the united goodwill of the associations. Its value to the Exercise has now been established, and despite the view held by some as to its lack of usefulness—an opinion for which the Council cannot hold itself blameless in the past—without the Council the Exercise to-day would be like a ship without a rudder. But there is no question that the Council have been slow to keep ringers in touch with what they have been doing. It was not until we agitated for action that the Council took any step to bring its proceedings officially before the affiliated societies; and certainly upon all subjects appertaining to ringing, on which the Council has come to any decision, ringers ought to have at their disposal an up-to-date and concise reference. Perhaps the Council, when next they meet, will see that something is done in this direction, and we would also suggest that they should, at the same time, adopt some scheme to keep ringers acquainted with the contents of the library.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

First quarter-peal of Stedman Triples on the bells since rehanging.

WINCHESTER CATHEDRAL BELLS.

FIRST PEAL ON THE RING OF TWELVE.

The first peal on the ring of twelve bells at Winchester Cathedral was rung on Saturday last, by a band gathered from a wide area. The first twelve-bell peal in a tower is always something of an event, and when to this is added the fact that that tower is the belfry of a Cathedral, and that no other twelve-bell peal had been rung in the county or on tower bells in the whole diocese, the interest in the performance at any rate for those taking part, is greatly enhanced. So when the band coming from Hampshire, Surrey, London, Somerset and Birmingham, turned their faces towards the ancient city, which for many hundred years played an important part in the history of this country, it was with high hopes and keen desire for success. Rail, motor and cycle brought the ringers to the point of concentration, and the picture of the old-world town, with the massive grey pile of the Cathedral bathed in the sunshine of a glorious September morning, and rising in all its impressive grandeur from the centre of the city, as the view burst suddenly upon the eye on rounding a shoulder of the hills above Winchester, is a memory that will long remain with the writer.

But the tower and not the view was the objective, and about eleven o'clock the band were welcomed in the great old belfry, reached by tortuous stairs and narrow passages, by Mr. Elkins, the Dean's vergier. A start for the peal was eventually made at 11.30, but after a quarter of an hour the tenor rope slipped wheel, and put an end to the attempt. Another start, and the same thing happened with less than two courses rung. The prospect of a peal, gloomy after the first incident, looked almost hopeless the second time, but nothing daunted, and with a bare four hours in which to ring, a further attempt was made. Course after course slipped by, with nothing untoward to mar the ringing, and eventually after 3 hrs. 55 mins. Mr. F. E. Dawe had the satisfaction of calling 'This is all' to the first twelve bell peal at Winchester, as he had done nearly forty years ago on June 13th 1885, to be exact, to the first peal on the old eight bells. Mr. Challis Winney, it is interesting to note, also took part in both peals.

The band take this opportunity of tendering their grateful thanks to Mr. J. W. Elkins, the courteous and ever-obliging Sacristan and Dean's vergier, for obtaining permission for the peal and also for the excellent arrangements made by him for a substantial meal afterwards near at hand.

Subsequently, in the lovely summer evening, Mr. F. E. Dawe piloted some of the party to the various places of interest and beauty in this delightful and historical old city including King Alfred's statue, the much-admired Mayor's Recreation Gardens, with the many streams of crystal-like water, together with the old ruins and grounds, with its more modern structure of Wolvesey Palace. Then they paid a hurried visit to the Dean's garden, from which the finest view of the grand old Cathedral is obtained. Here the conductor thanked the ladies present who were interested in the ringing, and caused a message to be conveyed to the Dean, thanking him for granting permission for the peal, and expressing best wishes for a speedy recovery from his present indisposition.

A walk along the side of the River Itchen, flowing through the peaceful meadows, amid pretty surroundings, and by the College playing fields, brought the party to the ancient and stately structure of St. Cross, where, although after closing time, they had the good fortune to encounter the Reverend Master, who at once, with the aid of a private key, kindly allowed the visitors to go round this most interesting and imposing pile.

The bells of Winchester Cathedral are a mixed lot, and originated, presumably, in a heavy peal of six cast by Richard Phelps, of the Whitechapel Foundry, in 1734. To those Thomas Lester, his successor, added two trebles in 1742, making a peal of eight. At different times the treble, fourth and sixth were recast by Robert and James Wells, respectively, of the Aldbourne foundry. In 1891 the tenor was cracked and recast by Mears and Stainbank, who, in the following year, added two trebles to make a peal of ten, one bell being given by the citizens of Winchester and the other by the Winchester Diocesan Guild. The old fifth, cast by Phelps, became cracked in 1903, and was recast at Whitechapel. In 1921 two more bells, cast by Gillett and Johnston were given by the Winchester Guild as a memorial to the members who fell in the war.

NORTH NOTTS ASSOCIATION.

MEETING AT EAST MARKHAM.

The autumn meeting of this Society was held at East Markham on Saturday last. East Markham is a considerable and pleasant village on a declivity $1\frac{1}{2}$ miles north of Tuxford. The church is a neat Gothic edifice, with chancel and side aisles, and a lofty embattled tower, containing six sweet toned bells, the two trebles having been added by Taylor and Co. in 1905. There is also a commodious ringing chamber. The church, dedicated to St. John-the-Baptist, has several ancient monuments and armorial paintings of the Markham, Cressey, Meering, and other families. Sir John Markham, who was knighted by Edward IV. and made Lord Chief Justice of the King's Bench in room of Sir John Fortesque, was a native of this parish, and lies interred in the chancel under a tomb which bears the date 1409. He was as learned and as upright a judge as ever sat on the Bench and Fuller calls him and his predecessor 'the two Chief Justices of the Chief Justices for their singular integrity, for though one of them favoured the House of Lancaster, and the other of York, in the titles to the Crown, both of them favoured the house of justice in matters betwixt party and party.' When Sir Thomas Cook, Lord Mayor of London was arraigned for high treason, on a charge of having supplied Margaret of Anjou with money during the War of the Roses his life and lands were saved, by Judge Markham directing the jury to find it only misprison of treason. This so offended Edward IV. that the honest Chief Justice was ousted from office and lived privately during the rest of his life.

The place being easy of access, by road or rail there was some surprise at the small number who attended, but the day being fine, the ingathering of the harvest and two other ringing meetings in the near locality provided an explanation, and the meeting was as well attended as could reasonably be expected. The following towers were represented: East and West Retford, Ordsall, Worksoop, Southwell Cathedral, Sutton-on-Trent, Dunham, Laxton and the local company. A variety of well-struck touches were rung during the afternoon and evening. Tea was provided in good style by Flossess Chapman at the Queen's Hotel, and a word of praise is due to Mr. Page for making all the arrangements.

The business meeting followed, presided over by Mr. Page. The Rev. S. B. Blean of Laxton, was elected a member with three toilers from East Retford, and Laxton tower for the first time becomes affiliated to the association. The members hope to hold a meeting at that place in the summer next year.

The next meeting will be held at Norton Cuckney early in November, and will be advertised in due course in the 'Ringing World.'

A vote of thanks was accorded to the Rev. J. D. Crosse for the use of the bells, and also to Mr. H. E. Page for presiding over the meeting, in the unavoidable absence of the Vicar.—Mr. Page suitably responded, and gave the ringers a hearty welcome to East Markham.

After ringing had finished the members from the Northern district, on their cycles, had a pleasant vision from the top of Markham Hill in watching the fireworks display at the Ordsall fête and gain, some six miles away. A pleasant ride home brought 'the end of a perfect day.'

NORTH WALES ASSOCIATION.

AN EFFORT TO REVIVE INTEREST.

The half-yearly meeting of the North Wales Association was held at Bangor on Saturday, Sept. 1st. The president (the Rev. T. Lewis Jones) was in the chair, and the Rev. Wm. M. Morgan-Jones and members from Bangor, Portmadoc, Rhyl and Buckley were present.

The association having become re-affiliated to the Central Council, the hon. secretary (Mr. C. H. Jones) was appointed as representative of the association on the Council.

A number of towers in the district having lapsed membership of the association since the war, means of reviving interest in the art of change ringing at these places were discussed, and it was decided to arrange ringing meetings at the various places, whenever possible, and to invite the ringers of the district to attend.

The President expressed the hope that there would be an increase in the number of peals rung by the association in the near future.

It was unanimously decided to present the late Master of ringers (Mr. W. T. Pegler) and the hon. secretary with an honorarium of £1 each in recognition of their services.

A hearty vote of thanks was passed to the Rev. T. Lewis Jones for his services, past and present, to the association, and also to the Rev. Wm. M. Morgan-Jones for assisting at the meeting.

The Rev. Wm. M. Morgan-Jones was elected a vice-president of the association, and the Rev. Canon Ll. Hughes, of Llandudno, was elected an honorary member and a vice-president.

A short service was held in St. David's Church before the meeting, when an excellent address was given by the Rev. T. Lewis Jones.

The members were entertained to tea after the meeting by the president and the Bangor ringers.

Touches in various methods were rung during the day.

OXFORD DIOCESAN GUILD FESTIVAL.

HOW THE MEMBERS ATTENDED.

To the Editor.

Dear Sir,—It has been maintained that Oxford members are responsible for voting the festival at Oxford. Concerning this I would say that I have examined the attendance roll of the last meeting at Oxford and that I find from this that the Archdeacons were represented as follows: Oxford 21, Bucks 21, Berks 62; also that Oxford City was represented by 5; the ten-mile radius round Oxford by 18; outside 10 and within 20 miles by 30; outside 20 and within 30 miles by 22; outside 30 by 24. The majority in favour of Oxford was about 60.

CYRIL W. O. JENKYN,
Master.

DOUBLE NORWICH CATERS.

To the Editor.

Dear Sir,—On Aug. 10th, you published two peal compositions of Double Norwich Caters, which come round at hand. The figures of the method in my possession under that name start off 214365879; to come round at hand the change before rounds is also 214365879, so the method that I have will not allow homing at hand. Probably there is another method under that name; 9, 1, 5, 1, 7, 3, 9, 5, 9 are the places for the half lead, 3rd's or 7th's place bob, treble in 5th's at the call. If this is correct, then the figures published must be false.—Yours truly,
Leicester, F. H. DEXTER.

THE LADIES' GUILD.

SOUTHERN DISTRICT ANNUAL MEETING.

The fourth annual meeting of the Southern district was held on Saturday, Sept. 1st, at Rammore, Surrey. Ringing commenced at 3 o'clock, and Grandsire, Stedman and Plain Bob were rung before service. The Vicar conducted the Guild service, and gave the visitors a warm welcome. A good tea was enjoyed, and the business meeting followed, at which two new members were elected, viz. Miss Hastie, of Leatherhead, and Mrs. Baker, of Frittenden.

The hon. secretary (Miss Mills) and the committee were re-elected, and Guildford was chosen for the next annual meeting.

The tower was afterwards re-visited and further touches rung. Thanks are due to Mr. A. Dobinson for having everything in readiness.

YORKSHIRE RINGERS' ALARMING EXPERIENCE.

CHURCH STRUCK BY LIGHTNING DURING SERVICE.

The quarterly meeting of the Eastern District of the Yorkshire Association was held at Hemingbrough on Saturday, Sept. 1st, by kind permission of the Vicar (the Rev. H. P. Peacock), and the handy ring of six in St. Mary's Church was kept going to various methods during the afternoon. Service was held at 4 p.m., at which an alarming experience befel the ringers, who were listening to an address by the Vicar. A heavy thunderstorm was in progress, when a loud crash of thunder, which sounded like a terrific explosion, shook the church, and outsiders stated afterwards that a ball of fire was seen to descend the conductor of the spire, which is 180ft. in height. The organist had his face slightly scorched, and the verger also felt a shock in one of his legs. The Vicar's sermon was naturally interrupted for some minutes, and one or two ringers left the church. It is feared that damage has been done to the spire, and an examination is to be made. About two years ago the weathervane was damaged by lightning.

Tea was afterwards partaken of in a hall in the Vicarage grounds, to which a company of 30 sat down, representing the towers at Beverley, Howden, Hull, Market Weighton, Selby, Sherburn-in-Elmet and York.

The business meeting followed, the chair being taken by the Vicar, in the absence of the vice-president (Mr. A. E. West). Three new members were elected: Mr. H. Hatfield, Mr. W. Terry, and Mr. F. Terry, all of Hemingbrough.

It was decided that the next meeting be held at Selby, subject to the usual permission being obtained.

A vote of thanks was passed to the Rev. H. P. Peacock for the use of the bells and also for his excellent address, which was so unfortunately interrupted.—In replying, the reverend gentleman spoke of the great pleasure it gave him and the people of Hemingbrough to have the association there that day. They were apt to get rather quiet in the country, and that meeting had infused a little enthusiasm for which they were very grateful.

The ladies, who prepared and served the very excellent tea, and the local ringers who had made such desirable arrangements, were also accorded a hearty vote of thanks.

Several members, after the meeting, took train to Selby where, by kind consent of the Vicar (the Rev. Canon Solloway, D.D.), the Abbey bells were available until 9 p.m.

BELFRY GOSSIP.

The first peal by the Society of St. Martin's Youths was rung at St. Philip's, Birmingham, on Sept. 16th, 1755. This was a peal of Bob Major.

Next Monday is the anniversary of the 11,328 London Surprise Major, rung in 6 hrs. 6 mins., at Drayton, by the Oxford Diocesan Guild on Sept. 17th, 1896.

Charles Middleton, composer of the peal of Cambridge Surprise Major, died on September 14th, 1886.

Ringers visiting Winchester will be welcomed for service ringing at the Cathedral on Sundays at 10.20 and 2.30, but it is desirable that they should communicate beforehand with Mr. Wilfred Andrews, 11, Culver Road, on account of the difficulty that may be experienced in getting up into the tower.

Ringers who had intended visiting Hatfield on Saturday for the meeting of the Herts Association are informed that the meeting is cancelled.

The bells of Haslemere, Surrey, which have been recast by Messrs. Taylor and Co., are to be opened on Wednesday, Oct. 3rd, at 3.30 p.m.

The ringer of the fourth in the peal of Stedman Cinques at Painswick on Sept. 1st was Albert C. V. Gasson, not Groom, as published. Messrs. Herbert Spencer and John Neal were the umpires of the peal of Stedman Cinques rung at Birmingham on August 30th.

CENTRAL COUNCIL DECISIONS.

To the Editor.

Sir,—The suggestion made by 'Criticus' in 'The Ringing World' for August 31st is certainly a good one. It is both timely and opportune that the Central Council should 'overhaul their rules and decisions.'

At the Northampton meeting an agitation culminated which had for its object to get the different Associations to observe the decisions of the Central Council. Now that some of us have got a number of associations to make this observance one of their rules (and there is little doubt that the remaining associations will do the same at the next opportunity) it is up to those who agitated for this to see that these decisions are so arranged and published that they can be known, in order that they may be obeyed.

The pamphlet advertised in your columns as 'Rules and Decisions of the Council' is now twenty years old, as it only goes up to 1903. Moreover, it takes the form more of a report or synopsis of the first twelve years of the Council's work, than of clearly cut and well-arranged decisions, which can be readily referred to when wanted.

It should be possible so to codify and bring up to date what the Central Council have done, that a concise summary could be put into the hands of every ringer who cared to know of it, or at least of the members of those associations which have made it a rule to observe such decisions.

Before, however, any move can be made in this matter it would be necessary to know what is the general opinion of the Exercise about it, and especially to hear if any other members of the Council are willing to support such a movement.

MIDDLESEX COUNTY ASSOCIATION.

SUCCESSFUL MEETING AT FINCHLEY.

Although not largely attended, the meeting of the North and East District of the Middlesex County Association and London Diocesan Guild, held at Finchley on Saturday last, was a very pleasant one, and was undoubtedly a success from an educational standpoint. From just before 4 p.m. until 5.30 the pretty peal of six bells was kept going to various Minor methods, and at the latter hour Divine service was held, conducted by the Rev. E. C. Dodderil, in the absence of the Rector on holiday.

Tea in the Mission Hall was followed by the business meeting, at which two members were elected; Mr. E. Morris (Leicester) previously provisionally elected prior to ringing a peal at Willesden, and Master C. T. W. Coles, son of the hon. secretary.

It was decided to hold the next meeting at Edmonton on Nov. 3rd. Votes of thanks were accorded the Rector (the Rev. W. St. Hill-Bourne) for the use of the bells; the curate for his very eloquent address at the service; the organist; and Mr. E. H. Tubb for so ably arranging the meeting.

The Hon. Secretary stated that, it having been asked when the balance sheet of the A. T. King memorial fund would be published, he would like to state that they were waiting to hear what the fee for the faculty would be. As soon as that was paid the balance sheet would be issued. It was anticipated that there would be a small balance on the right side.

After the meeting the bells were again rung, the methods practised being Grandfire Doubles, Plain Bob, Oxford and Kent Treble Bob, Double Court, Double Oxford, and Cambridge Surprise Minor.

ANCIENT PEAL BOARDS.

To the Editor.

Sir,—I would thank Mr. J. R. Jerram for his letter in your issue of the 17th August. Having paid meanwhile yet another visit to this belfry, I am able to give below exact details of the three tablets which are on the north wall, and to which reference was made in my letter in your number of 10th August. It does not appear to have been previously noticed that the composition of the peal of 7,360 Oxford Treble Bob is recorded on the tablet; at any rate, the writer of the notes in the 'East Anglian' in 1863—and he presumably an archeologist—failed apparently to observe the figures which are somewhat inconspicuously placed on a scroll in the pediment of the tablet:—

The 2 following inscriptions are on tablets of wood:—

On November 16th, 1837, was rung in this Steeple a true and complete Peal of Oxford Treble Bob, comprising 7,360 Changes, and contains only 50 Bobs; the time occupied in ringing was 4 hours and 44 minutes. It was composed and ably conducted by SAMUEL THURSTON, and rung by the following persons.

F. WATERING Treble	G. THURSTON	5

S. LOVELESS	3	JAS. TRUMAN	7

On Decr. 5th, 1823, was rung in this Steeple 5,088 changes of treble bob, it contain 27 bobs, and the first long peal ever rung in this steeple, it was well struck and completed in 3 hours and 10 minutes, conducted by SAMUEL THURSTON.

Also Feby. 23rd 1824, was Rung in this steeple 5,040 changes of that ingenious composition of grandier tripples, it was allowed by Judges to be an excellent peal and completed in 3 hours and 10 minutes conducted by SAMUEL THURSTON.

On a tablet of stone.

On Thursday July 28,
1825.

This peal of ten bells was opened And rung for the first time with the Addition of the two smallest bells Which were Given by MR. THOMAS HURRY who was many years one Of the Ringers of this Parish.

This tablet is Placed here as a Tribute of Respect by SAML. THURSTON one of his Brother Ringers.

And now a further peal on the ten bells has come to light. Mr. T. E. Slater, of Glemsford, has kindly sent the following newspaper account from his collection:—

St. Andrew's, Norwich.

On Friday night, November 24th, 1843.

St. Peter's Society of Ringers Ascended the Tower of St. Andrew's Church and rang Shipway's Celebrated Peal of Caters on Steadman's Principle, comprising 5,295 changes in 3 hours and 30 minutes, which for bold and regular striking was highly admired by all who heard it. This Intricate Composition has the Peculiar Properties of 5th and 6th bells their full extent behind the 9th. The harmonious effect of these positions are well known to persons who are skilled in this difficult science. The peal was conducted by Henry Hubbard and we believe it is the first time this Intricate Peal was ever performed, and rang by the following persons:—

JOSHUA HENRY Treble	CHARLES MIDDLETON... ..	6
ROBERT BURRELL	2	GEORGE SMITH	7
JOHN GREENWOOD	3	JAMES TRUMAN	8
WILLIAM GAUL	4	HENRY HUBBARD... ..	9
ELIJAH MASON	5	ROBERT COLE Tenor

This correspondence points to the necessity on which your leading article of the 31st August lays, very properly so much emphasis, of compiling as quickly as may be, a list of all known ancient peal records. It is unlikely that copies of many of the old 'steeple-boards,' as is the case with the Norwich tablets, are safely in print. Many of the older boards, must be approaching a state of decay, and their inscriptions becoming illegible, and apart from this vital consideration, a close scrutiny might reveal details of interest, such as the figures of the methods or of the compositions. Inquiries should also be made if any boards have been taken down and removed from the belfry.—Yours very truly,
G. P. BURTON.

LLANDAFF AND MONMOUTH DIOCESAN ASSOCIATION.

A FINE EXAMPLE OF DETERMINED EFFORT.

A quarterly meeting was held at Peterstone, Mon., on Saturday, Sept. 8th when quite a good number attended, representing towers of both dioceses. The bells, a light musical ring of eight, were available, and raised early in the afternoon, and kept going until 5 o'clock, when a service was conducted by the Vicar, the Rev. Hubert G. Stanley, who gave a most interesting address, touching upon the history of bells and ringers.

Following the service, the business meeting was held, the Vicar, at the outset, welcoming the association to the parish.

Various routine items were dealt with, including instructors' reports, restorations, and election of new members. The whole of the ringers of Llanarth were elected, thus bringing into the association the affiliation of one more tower.

The Hon. Secretary explained the reason why the meeting, as originally proposed, could not be held at Penhow.—The Vicar humorously replied that if similar circumstances again arose he would be only too pleased to fill the second place, if desired. The bells were afterwards rung during the evening.

It is worth mentioning here that this parish provides a fine example of what can be done if an effort is made in real earnest. When the present Vicar came to Marshfield his two churches each possessed a ring of six bells in a deplorable state. He got to work, and it was not long before Marshfield was restored and the octave completed; this was followed by the taking in hand of Peterstone with the same result. Both churches are situated midway between Newport and Cardiff (six miles), and the bells are always available for a peal by any visiting ringers.

The next meeting will be held at St. Andrew's, Dinas Powis, on Saturday, October 13th if it can be arranged.

DUDLEY AND DISTRICT GUILD.

ANOTHER ENTHUSIASTIC MEETING.

A quarterly meeting of the Dudley and District Guild was held at the beautiful village of Kingswinford, Staffs. on Saturday, Sept. 1st. The bells, which have recently been augmented to eight by Mr. J. E. Groves, were at the disposal of the members from three o'clock. Service was held, the Guild form of service being used, conducted by the assistant priest, who also gave a very eloquent and helpful address on 'service.'

Afterwards the members adjourned to the Schoolroom, where a bountiful tea awaited them, upwards of forty members sitting down, representing, among others, the following towers: Bradley, Dudley, Netherton, Sedgley, Rowley, Tipton, Old Hill, Wombourne, Handsworth, and the local band.

At the business meeting which followed, Mr. John Goodman, junr. (Ringing Master), presided, and sixteen new members were added to the roll.

It was proposed to hold the next meeting at the Lye if the usual permission is obtained. Other business of a routine character being finished, a vote of thanks was passed to the Vicar of Kingswinford (who was unavoidably absent) for his kindness in granting permission to the Guild to hold this meeting at his church, also for the use of the bells and Schoolroom in which to hold the meeting; to the Rev. Norman Hemmingway for his great kindness in coming to conduct the service; for his address, and for presiding at the organ for the musical portion of the service; to the ladies for preparing and serving the tea, and for attending to the comfort of the members; also to Mr. Eric A. Lownes and the local ringers for making the necessary arrangements, and to all who had contributed in any way in making the meeting a happy and successful one.

After the meeting some strolled round the village, while others kept the bells merrily going until 8.30, when the gathering dispersed, after a most enjoyable afternoon.

RINGERS' OUTINGS.

BUSHEY AND OXHEY SOCIETIES.

For the fourth year in succession, the Bushey and Oxhey Societies, on Sept. 1st, held a combined outing. Leaving Bushey at 8 a.m., in a commodious 'National' charabanc, a brisk run through Hemel Hempstead and over part of the Chiltern Hills, brought the party to Leighton Buzzard. Mr. Nicholls, the genial local conductor, here awaited them, and the fine peal at All Saints was soon going to the tune of Grandsire and Stedman Caters, and Superlative on the back eight. Those who desire a comparison between Simpson tuning and the other method will find a strong argument for the latter in this tenor (27 cwt.) and peal generally. After a little argument with the car engine, a sharp run brought the excursionists to Woburn, where Messrs. Herbert welcomed them. This magnificent church, built by the Duke of Bedford, was much admired. Its massive tower contains a fine peal of eight bells (tenor 24 cwt.). A touch of Stedman Triples and a course each of Superlative and London Surprise comprised the ringing. Leaving Woburn, with regret, the journey, part of it through the Duke of Bedford's magnificent park, was continued to Bedford. At dinner, at The Silver Grill, the visitors were joined by their old friend and tutor Mr. W. H. L. Buckingham. The afternoon was spent in various ways, and the homeward journey was commenced after tea, the only call being at Hitchin, where Messrs. Foster, Elise, etc., were waiting as well as an old Bushey member lost sight of for 11 years. Touches of Stedman Triples, Superlative and London Surprise were rung here, a lumpy peal, tenor 28 cwt. The tower is very massive and roomy, and requires another 100ft. on top to take off its squat appearance. Bushey was reached about 10.45 p.m., after a most enjoyable time had been spent. The best thanks of the party are tendered to the incumbents for permission to ring, and the aforementioned friends for meeting the visitors and helping to make the outing a success.

AMONG SIX-BELL TOWERS IN KENT.

A most enjoyable trip into the heart of Kent was taken by the Charlwood (Surrey) and district ringers on Saturday, August 18th. The party, 14 in number, under the guidance of Mr. O. Sippetts, set off by motor charabanc, at 7 a.m., for Shipbourne, which was reached at 9.45 after a very pleasant journey through the hop gardens and orchards of Kent. Time did not permit of much ringing here, but touches of London Surprise, Kent and Oxford Treble Bob were brought round. The Vicar greeted the party, and a visit was paid to the war memorial under his guidance. A start was then made for Mereworth, where they were met by a local gentleman, who conducted them to the tower. The bells were soon set going to Beverley Surprise, Cambridge Surprise, College Exercise, and Kent and Oxford Treble Bob. The next stop was Watringbury and here the Vicar conducted the visitors to the tower. A nice light peal of bells were found, but the ringing chamber and the circle are sadly in need of improvement, a rather large staircase to the upper regions taking up a great deal of room. The ringer of the 4th stands on this staircase above all his fellows, and the 5th man is on the edge of a trap-door and expecting to disappear below every moment. However, touches of Plain Bob, Oxford Treble Bob, London and Cambridge Surprise were successfully accomplished, the bells lowered, and a start made for Yalding. After lunch, provided by Host Ditcher, of the Two Brewers Inn, the tower was visited, and here was found the best peal of the day. The bells, with a tenor approximately 19 cwt. in E, from the Whitechapel Foundry, beautifully hung by Bowell, were soon being turned in to Cambridge, York and London Surprise and Kent Treble Bob, and the visitors were sorry to leave, but a funeral made a longer stay impossible. The next stopping-place was East Farleigh, and here they were met by Mr. S. Hayzelden. The bells, although light, required some little handling, and there was more bad than good ringing here. Cambridge, Oxford and Woodbine were rung, and it was then time for tea, which had been arranged at the Schoolroom. After tea, instructions were taken from Mr. Hayzelden as to the best way to get to East Malling, which was the next stopping-place and he informed the excursionists that they would go up by the North Pole, and they subsequently found this all right. East Malling was reached, the tower visited, and the bells soon going to Cambridge and Chester Surprise, Violet and Oxford Treble Bob. This nice peal go exceedingly well. After refreshments, Ightham was visited. Here there are some very old bells, with a tenor about 8 cwt.; a long draught, and locally made ropes, but some good ringing was accomplished, including Carlisle and Canterbury Surprise, Violet Treble Bob, London Scholars etc. The bells were lowered, and a start was then made for home, which was reached about 11.30 p.m. The conveyance behaved very well except on a very steep hill after leaving Yalding. Here she stopped half-way up, and had to unload and make the ascent herself. A few miles from home there was also a little trouble, but nothing really serious. A most happy and successful day had been spent, seven towers had been visited, over 5,000 changes had been rung, and over

100 miles had been traversed. The conducting throughout the day was shared by Mr. O. Sippetts and Mr. A. Ellis. The thanks of all are due to the local clergy for the use of the bells, and to the local ringers for having all in readiness and for meeting the party at the various places.

ST. MARY'S SOCIETY, READING.

On Saturday, Sept. 8th, the band from St. Mary's tower, Reading, together with a few friends, enjoyed their annual outing. Soon after 1 p.m. a charabanc started from the church, and running to the east end of the town picked up the rest of the party. Once all were aboard a quick run was made to Warfield, where Mr. G. Higgs met the party, and conducted them to the tower. Here, short touches of Stedman and Bob Major were rung, the first touch of the afternoon being absolutely perfect, and an omen of the enjoyable afternoon to follow. With the aid of Mr. W. Pole-Routh's map the driver found his way to Windsor Great Park, which was crossed till Old Windsor was reached. The river was followed as far as Staines, where a further halt was called. At St. Mary's Church, Stedman was the order for half an hour, and then, after re-loading, the party went on to St. Peter's Church, which is pleasantly situated by the side of the Thames' tow-path. The 'go' of these bells was well-nigh perfect, and they were soon tapping Stedman, Kent and Double Norwich, the party being joined by Messrs. Greenwood and Parker, of Staines. The party then adjourned for tea, previously arranged for by Mr. F. W. Hopgood. After tea, it was all aboard for Bagshot. So perfect were Mr. Hopgood's arrangements that once again the party was welcomed by a local ringer. This time it was Mr. Nye. Good touches of Stedman and Kent were rung here, and very soon the party was speeding towards Yately. While Mr. Harry Simmonds was getting his coat off and anxiously hanging on to the tenor rope (which nothing would induce him to release) the rest of the party was shown the two historical and valuable chalices in the church, one plentifully encrusted with diamonds, pearls and turquoises, and the other of silver-gilt and crystal which is practically priceless. The band was dragged to the tower at last, and Stedman, Bob Major and Grandsire finished the day's touches. At 8.45 p.m. the party once more loaded on the bus, and at 9.21 (according to Mr. Harry Simmonds' watch) Reading was reached. Everywhere the ringing was good, and therefore, enjoyable, but the fine weather, a carefully-chosen route, an excellent drive and a pleasant company made it all the more enjoyable.

A VISIT TO THE PEAK.

The ringers of St. Leodegarius Church, Old Basford, had their second annual outing on August 18th, when they visited the Derbyshire Peak district by charabanc. Starting at 8.30 a.m., they proceeded by way of Langley Hill and Ripley to 'Holmesford Coltage,' High Peak Junction, where a right royal breakfast of ham and eggs, with other good things, was waiting to assuage the keen appetites of the early risers. 'Icanhopit' then pursued its way to Darley Dale Church, where the visitors rang touches of Stedman and Grandsire Triples. Continuing the journey through the glorious scenery of Chatsworth Park, Baslow, Hathersage, Castleton, the ultimate destination was reached about 3 p.m. The wonderful caves, and the well of ice-cold water, which overflows at the rate of some 2,000 gallons per minute were visited, and the return journey was made through Eyam and Middleton Dale, with its scenery of beauty and grandeur. Dinner was provided at High Peak Junction, and home was reached at 10.30 p.m., after a most enjoyable day.

FARNHAM RINGERS VISIT HENFIELD AND BRIGHTON.

The ringers of St. Andrew's Church, Farnham, together with their wives and a party of friends, numbering 31 in all, had their annual outing on August 11th, when they visited Brighton. Leaving Farnham at 7 a.m., by charabanc, they proceeded through Farncombe, Bramley and Horsham, to Henfield, Sussex, where the first stop was made. Here the whole party were cordially welcomed and entertained by Mr. Alfred Baigent (an old friend and ringer of Farnham), who was awaiting their arrival. A visit was paid by the ringers and some of their friends to the beautiful old Church of St. Peter, where touches of Grandsire and Stedman Triples were rung on the grand-toned peal of bells, permission for the use of which had been previously obtained by Mr. Baigent. After a stay of about an hour the journey was resumed the party being augmented by Mr. Baigent, and Brighton was safely reached at about 11.45 a.m., where the party broke up to enjoy themselves in their own way. At 6 p.m. the return journey was commenced, a stop being again made at Henfield, where a very pleasant half-hour was spent and the journey continued, halts being made at two more stages before Farnham was again reached at 10.30 p.m., everyone having thoroughly enjoyed themselves and the weather conditions having been splendid. This is the first outing the Farnham ringers have had since the war, but it is hoped that it will now become an annual event.

ON S'AMUSE.

'SIR' SAMUEL ACKNOWLEDGES HIS 'KNIGHTHOOD.'

To the Editor.

Sir,—Not having seen our paper for the last four weeks it has taken me all my time to become 'au fait' on all points of interest, but first let me say that when ye best of spouses informed me that at last my many virtues had their reward and I was mentioned in the 'birthday honours list,' I asked whose birthday: hers or mine? She did say, 'No dolt, the King's, for you are knighted, Benighted oft hast thou been, but—the accolade at last!!'

But when I saw the announcement in our own Court Journal I did wink and say, 'That little rascal I. Pistor, bless his heart, he was sure to be in it, I know.'

But, good Sir, I misdoubt me about that trusty blade of yours, which curled up o'er my feckless pate: it could not have been the real Toledo brand. Don't trust the Simpson-tuned variety, Mr. Editor; stick to the real old M'Kie; only those can tackle a cranium like mine with impunity.

I am sorry that I have raised the ire of 'a constant reader,' but you know, Mr. Editor, how hard it is to please even a few. However, I take unto myself the consolation that ye good Mr. Imitation is my sincerest flatterer. Two years ago we had little to enliven our journal, but now it is full of interest each week, and such people as 'Criticus' and 'I. Pistor' do their honest best to make it so. Might I remind 'A.C.R.' that the 'Ringing World' is entirely made up of what ringers themselves send to it; supplemented by the very excellent matter written by its Editor, who inserts only the best of what he receives; so if the matter is not much good who is to blame? We ourselves, of course. So come along, Mr. 'A.C.R.,' send up some better than the best, and we shall all be pleased.

I agree with 'Criticus' in his article of August 17th, the 'dog days' are now on top, and so let's all have a bite, but there are so many tempting calves about that one does not know where to begin.

I might explain that there are three sorts of calves, those terminating in dainty chaussons, those that are the pride of Mullinga's heifers, beef to the heel; and the bucolic sort who when in an epicurian mood, seek out the modest dandelion as a tit-bit for after dinner with the nuts and wine. But why not call that method 'Tripe and Onion,' beloved of Mr. Jiggs; that would be easy to digest if we did not like its sound.

Points for peals never were agreeable to all parties, principally to those who had not earned any; but do away with them—all who want to know could keep a copy of the 'Ringing World,' with the last 'points list' by them, and use it as a ready reckoner to tot up the points of what interested them.

I pointed out the words Passalators, etc., to Mistress Peppery, and she said it was no doubt 'soldier hat' for 'passez les pommes de terres.' Just one word more, re ve beste of spouses, She can't help being Peppery, no ringer's wife can. You see she was born 'Pepper,' and in childhood's days, if dame rumour speaks correctly, was one of Pepper's corns. Those days now past, she has, I tell her (when of good courage), acquired the sting of real cayenne.—I am, Sir, yours in deep humility,

SIR SAMIWELL PEPPERY.

P.S.—I know I am the whole suite in the bumptious arrogance line, so no one need bother to write you to that effect.

A JOINT MEETING OF YORKSHIRE SOCIETIES.

FRATERNISING AT DONCASTER.

A joint meeting between the Sheffield District and Old East Derbyshire Society and the Doncaster and District Society was held at St. George's, Doncaster, the headquarters of the latter society, on Saturday, Sept. 1st. Members of the two societies were present from Arksey, Adwick-le-Street, Badsworth, Sheffield, Rotherham, Wortley, Leeds, Hatfield, Fishlake and Ecclesfield.

The beautiful heavy ring of eight bells (tenor 30½ cwt.) of the Parish Church were rung during the afternoon and evening, touches of Stedman, Grand sire, Double Norwich and Plain Bob being brought round.

At the business meeting, the President of the Sheffield Society, Mr. G. Lewis, took the chair. Miss O. Lumley, of Leeds, and S. Walker, of Rawmarsh, were elected members of both societies.—A vote of thanks to the Vicar of Doncaster for the use of the bells, was proposed by Mr. S. Briggs, to which Mr. G. Halksworth responded.

Business being concluded, the handbells were brought into use, and a course of Stedman Caters was rung, followed by one of Bob Major.

WEST NORWOOD SURREY.—On Sept. 7th, at the residence of Mr. G. N. Price a quarter-peal of Stedman Triples from Carter's Odd Bob one-part: G. N. Price 1—2, H. Langdon (conductor) 3—4, C. F. Winney 5—6, E. Alex. Young 7—8.

BELLS, CARILLONS, CLOCKS.

THE PASSING OF THE PIONEERS.

The death of Mr. Charles Herbert, of Woburn, removes from the Bedfordshire Association one of its founders and one of the pioneers of change ringing in the county. Mr. Herbert had reached an advanced age, and, therefore, his name was not so well known to ringers of the present generation, but those whose memory goes back forty or fifty years will recall the enthusiasm and energy with which Mr. Herbert assisted in fostering the art.

The passing of these veterans, whose death it is our melancholy duty from time to time to record, reminds us that the Exercise is gradually losing a body of men to whom it owes much more than is often realised. It was between thirty and fifty years ago that the majority of our diocesan and county associations were formed. Prior to that time the only societies were those like the College and Cumberland Youths and the St. James' Society in the Metropolis, who had members in various parts of the country, and provincial societies, like the St. Martin's Guild and the Painswick Youths. Then came the time when change ringing began to be more widely practised, and when there arose a desire to reform the belfries and put the ringers on a better footing. In the different counties and dioceses men of standing and zeal became interested in the movement, and gradually there evolved the modern associations which we know to-day.

It must not be imagined that the organisation and development of these associations was always an easy matter. It was a simple thing for a few enthusiasts to meet and pass a resolution to establish a county or diocesan body, but to bring the ringers in all the towers in the area within the fold and to gain their adhesion to the principles for which these associations were formed, was a totally different task. The tone of the belfries, as a whole, was then a very low one, the art of change ringing, except in a few places, was largely unknown, and the pioneers of those early days had not only to break down prejudice, but to carry reforms which many of the ringers at that date did not welcome. Moreover, in their efforts to promote change ringing, it has to be remembered that they had not quite the same type of men to deal with that we now find in the belfries. Education was at a far lower ebb, and consequently the average ringer was less intellectually equipped for grasping the mysteries of an art which, after all, requires an alert mind. The struggle of the pioneers of a generation and more ago was an uphill one, with many discouragements and rebuffs; but they persevered, and the outcome of these labours is to be seen in the healthy and vigorous ringing organisations which to-day carry on the work which they began and the foundations of which they so well and truly laid.

CLEVELAND & NORTH YORKS ASSOCIATION

THE CONDITION OF BEDALE BELLS.

The autumn meeting of the Cleveland and North Yorkshire Association was held at Bedale on Saturday, Sept. 8th members attending from Saltburn Shildon, Middlesbrough, Darlington (St. John and Holy Trinity), Northallerton, Sharow, Ripon, Stockton-on-Tees and Wath Bedale. Several short touches of Double Norwich, Kent Treble Bob Major, Grandsire and Stedman Triples were rung, but good ringing was out of the question on account of the condition of the bells. They are a beautiful peal of eight, placed in a magnificent, spacious tower, with tenor about 24 cwt., but are greatly in need of the attention of a bell hanger. Tea was provided by Migson's Cafe, and laid out in the chantry room, kindly lent by the Rector of Bedale, over twenty sitting down. The Rector of Bedale presided, in the absence of the president (the Rev. A. Simpson) who was away from home, and was supported by the vice-presidents (Mr. W. Pick) and the secretary (Mr. T. Metcalfe).

During tea the bad condition of the bells was explained to the Rector.

The Rector gave the association a most hearty welcome to Bedale, saying that it was about twelve years since the association visited them. He hoped they would see their way to visit Bedale again soon. He had been told that since the association last visited them the bells had got into a very bad condition, and did not go well. If that was the case he hoped the secretary would send a report to him. He would bring it before his parochial council to see what could be done to remedy the state of affairs. He was very sorry to hear these things said about Bedale bells, as they prided themselves very much upon them, but he hoped the ringers would make the best use they could of them. He wished the association every success.

The Rector was assured that a report of the condition of the bells would be sent him as soon as it could conveniently be got ready, and it is hoped it will have the desired effect.

A NEW SPLICED EXTENT.

At Norbury, Cheshire, on Thursday, Sept. 13th, a 'spliced' 720 (Fotheringay Castle, Skipton Castle, Queen Victoria and Chepstow Castle): J. Fernley, junr., 1, J. P. Fidler 2, W. Fernley 3, W. W. Wolstencroft 4, J. Fernley, senr., (conductor), 5, J. W. Hartley 6. First extent in these methods yet rung. Also 720 Dover Castle (No. 42, 3rd's Place Delight), being the first extent rung.

PEALS OF STEDMAN CATERS.

To the Editor.

Dear Sir,—Whether the publication in the 'Ringing World' of my two compositions was a waste of space, is a question of whether the space would have been better left blank or what else there was to fill it. Fortunately the decision was not with Mr. Walker, but with someone more sympathetic, who desired to make the paper useful. If thousands of such peals have been composed, that is a good precedent, and no harm has been done by my adding two more. They are original and equal in merit with the others excepting the first produced on the plan. It is nonsense for Mr. Walker to say such peals are merely arranged and not composed, as an arranged composition must have a composer, and very often a re-arranged peal is superior to the original production. The two peals are sufficiently divergent from published compositions to give me a good title to them, so far as I know, or I should not have published them.—Yours faithfully,
G. T. DALTRY.

A TRIP IN THE POTTERIES.

These men are all as brothers,
And may they never fall,
Till God the Great Conductor,
Shall cry to them—'That's all!

These lines (author unknown) are symbolical of the great brotherhood of ringers, and indicate the spirit which makes their outings so enjoyable and invariably a success. It is always the predominant feature on these occasions, when old friends reunite for an all too brief period, and new friendships formed. Some weeks ago as already recorded in these columns, the combined companies of Bucknall and Burslem, visited Norbury, and in response to a hearty invitation from these two bands, the Norbury men and friends spent half a day in the 'smoky Potteries,' on Saturday, Sept. 1st.

Two charabancs were commissioned to convey the party, which totalled thirty-three. 'Go' was given at 1.15 p.m., and although rain was falling heavily everyone was in good spirits. Burslem was reached some three hours later, Mr. Wm. Wheeldon, senr., who had made all arrangements, being there to meet them. Without loss of time he conducted them to the church, and soon the bells were going to a variety of methods. After ringing, Mr. T. Hilditch (Burslem) photographed the party.

Tracks were then made for Bucknall, where a 'Ringers' Delight,' in other words, a good meal, was awaiting the party. No pains whatever had been spared to make the visitors welcome, and the sight of a nice fire in the room, after travelling some thirty odd miles on a wet day, was much appreciated. Not only can they ring, but they can 'stoke.'

The Rector of Bucknall (the Rev. — Birch), with his warden, was present at the festive board, and the former expressed his pleasure at being able personally to welcome the visitors.—Mr. H. Langley replied, on behalf of the visitors, thanking the Rector for his kindness and the use of the bells also the Burslem friends for the use of theirs. The tower was then visited, and items from the extensive repertoire of the visitors were rung.

After a quiet half-hour in a cosy corner, the return journey was commenced at 8.15 p.m., Bullock Smithy (alias Hazel Grove for these not up in the history of this locality) being reached soon after 10.30 p.m.

ESSEX ASSOCIATION.

MEETING AT HARWICH.

A very successful meeting of the North-Eastern Division was held at Harwich on Saturday, Sept. 8th. A short service was held in the Parish Church of St. Nicholas. The Vicar (the Rev. E. A. Mills) officiated, and gave an excellent address. The lesson was read by Mr. C. H. Howard, J.P. (Master of the Association). By the kindness of the Vicar, tea was provided at the Norfolk Restaurant. Forty members were present from Mistley, Great Bromley, Tendring, Ipswich, Thorpe, Great Bentley, Colchester, Braintree, and Harwich.

The meeting was subsequently held in the same room. The Master presided, supported by the Vicar, Mr. W. J. Nevard (Master, N.E. Division), Mr. E. W. Stannard (hon. sec. N.E. Division) and Mr. W. H. Dyson (Master N. Division).

Mr. R. W. Stannard made feeling allusion to the death of Mr. A. Morris, and complimented the Harwich band on their reorganisation, mentioning the pleasure it gave him to hear that the bells were now rung regularly by a promising young band, assisted by older members who had rejoined the band.

On the proposition of Mr. Ellis, a vote of condolence with the widow of the late Mr. Morris was passed.

The Master thanked the Vicar for the use of the bells, for his excellent address, and for the tea.—The Vicar in responding, said it gave him a great pleasure to welcome the association to Harwich, and spoke in high terms of his ringers.

During the afternoon and evening touches of Grandsire and Stedman Triples, Treble Bob and Double Norwich Court Bob were rung. The local band possess a very fine-toned set of handbells, and several touches were rung upon these.

THE CRITICISMS OF 'CRITICUS.'

'What's the use of anyfink?' the late Albert Chevalier used to sing; and he answered it himself, with the comment, 'Why, nuffink!' And that is what occurred to me when I saw the opinion expressed by Mr. Albert Walker upon the publication of some peals of Stedman Caters. Now what is the use of spending one's time composing, compiling, concocting, arranging, or adapting peals in any method, only to be told that you are in a queue containing thousands? Why, it is worse than waiting for a quarter of mace in war time. When we know that there are actually hundreds of thousands of peals of Stedman Caters in existence, I should not be surprised to learn that the two which we saw in print the other day, were already classified somewhere in the list. It would be a mystery if they were not, however 'original' they might be as the creation of the new claimant. Stedman Caters, above all things, seems to have been done to death, what with John Carter's broadsheet of over seven thousand, and Gabriel Lindoff's collection of a hundred and 'umteen thousands. Here, however, is a recipe for the would-be aspirant in the collection of courses of Stedman Caters:

Mix the bobs in a starting course to make a merry jingle.
Add other courses, twenty-three and don't forget the single.
Borrow the final twenty-four, they are easy to be found,
And splice the lot together so that presently they come round.

But what applies to Stedman Caters, applies with almost equal force to the majority of other common methods. It is not an unusual thing to see, for instance, a footnote to a peal of Double Norwich. 'This composition is now rung for the first time.' I have always got my doubts whether it is strictly correct. It may be the first time it has been rung as the composition of that particular composer, but the 4-5-6 combination and the 6th twenty-four times at home stunt—well, neither is new. Some of the older generation knew all about this business, and as the variations have their limitations, it would surprise me if there is anything to be got on these lines that has not been obtained before. But this leads to that other question, which the Editor has pressed more than once: who is really to be the judge, and where shall we look for reference? Unless the man who claims a composition to-day has some place accessible to all in which to put his claim on record, others will come and filch the credit from him in future, when they 'discover' the same figures and ring them as an original composition, in the same way that he may have arrogated to himself—quite honestly, of course—the credit which originally belonged to some past master in the art. That reference list of compositions will have to come, and I would add my small voice in urging the Central Council to get on with the job.

And this reminds me of those two other recent compositions in a method not so frequently rung. Why is it we see so few peals of Double Norwich Caters or of Double Norwich upon any number above eight for that matter? Ringers will ring Grand sire or Stedman Caters, 'till the cows come home,' as I have heard it said; but why not ring Double Norwich Caters? Is it that the music is not good enough, or is it only that hide-bound conservatism that prevents ringers striking out into anything a little bit off the beaten track? Personally I do not think the ringing of this kind of thing is encouraged enough, or else it is there is no enterprise among ringers. Perhaps it is both, although I must admit I am a little at a loss to suggest who should do the encouraging. Double Norwich Caters, as a method, is hurried in 'Shipway,' and very few ringers have a copy of that century old work. Moreover, I know of no ringing publication since Shipway's time that has troubled to give the Exercise any collection of methods above the eight-bell limit. Could not the Central Council—it is always the Central Council—give us a little pamphlet with Cater and Royal methods, including the Surprise Royal methods, so that ringers could have something to get on with? There are many hundreds, if not thousands, of ten-bell ringers, or men capable of ten-bell ringing, to-day, and I believe some such little publication would find a ready sale.

The letter, published the other day in these columns which emanated from the Central Committee for the Protection of Churches and their Treasures, must have been read with somewhat mixed feelings by ringers. With much of this letter all who care for the preservation of ancient towers and bells will agree, but the general effect of that letter, if it is accepted wholly as it stands by Diocesan Committees throughout the country, seems to me likely to put obstacles in the way of effective bell restoration in many places. With the object lesson of Taunton before us, where, with the best expert advice possible, the task of converting the powers that be to the practicability of increasing the number of bells was well-nigh insuperable, I can easily foresee the trouble that will arise in the future in some of the old towers, when it is sought to add a couple of trebles. As well as informing church authorities of the dangers of augmentation, the Central Committee for the Protection of Churches and their Treasures would have done an additional service if they had pointed out that a properly designed bell frame would not only prevent damage to an old tower, but would add to its strength, and that,

under proper conditions, an increase in the number of bells could be made with advantage, where this said additional strength could be combined with the augmentation of the bells. But somehow, in these official documents no one sees—or cares—that this kind of information is given. And so this particular letter goes out to uninstructed church officials, and effectually frightens them from touching a dilapidated peal in an ancient tower. Ah me!

ROMNEY MARSH GUILD.

A WELCOME TO RYE.

The above society held their September meeting at Rye (East Sussex). Most of the local ringers attended and welcomed the party, which numbered about thirty. Mr. and Mrs. E. Curd and their daughter kindly invited the members to tea at the Railway Hotel. The Vicar (the Rev. J. Fowler) occupied the chair, supported by the Deputy-Mayor (Councillor J. L. Deacon, J.P.). The Mayor (Councillor A. Truelove) had promised to be present, but was unable to keep the appointment. Following the meal came the business meeting, and the writer feels that in summing up the speeches, he is not penning too elastic a phrase when he says that during the four-and-twenty years of his ringing career he has never listened to more suitable addresses to a company of ringers, and others who were present, if asked to express an opinion, would take a similar attitude.

The Vicar took the lead, and commenced by voicing thanks to Mr. and Mrs. Curd and their daughter for their kind hospitality. On concluding his references to the donors of the tea, the Vicar welcomed the Guild to Rye, and there was no doubt about the genuineness of that welcome. Kind, sincere and homely were his sentences, and everyone present realised to the full that it was a great pleasure to the Vicar to allow the Guild to come to his church.

The Deputy-Mayor supported the Vicar in his thanks to Mr. and Mrs. Curd and their daughter, and he, too, in turn, extended a very cordial welcome to the members, and said he was proud to be a member of the society. His announcement that he was presenting each tower in union with the society with his latest illustrated book of Rye, was received with applause, and later on in the proceedings, the books, autographed by the donor, were handed to the representatives of the towers represented at the meeting. The speaker also invited the members to come and spend a day at Rye and he would be pleased to show them over the places of interest in the ancient town, including the town hall. In explaining how this little town, noted for its antiquity, attracted visitors, he mentioned that thousands of people come to Rye in the summer season.

Mr. Curd suitably acknowledged the vote of thanks on behalf of Mrs. Curd, himself and their daughter.

The following were admitted into the Guild: Honorary members: Mrs. Curd (Rye) and Mr. G. Capeling, Ashford; practising members: Mr. Hodrau, Frampton and Farr, Rye; and Mr. Jordan, Wye.

Thanks were accorded to the Deputy-Mayor for his gifts, and the Deputy-Mayor moved a vote of thanks to the hon. secretary (Mr. H. J. Balcombe) for his services, which was carried unanimously, and to which Mr. Balcombe made a suitable response.

Unanimous thank, to the chairman concluded the meeting.

After further ringing, which finished about eight o'clock, the party disbanded, returning home to their respective parishes with pleasant and happy recollections of their visit to Rye and the hearty greetings and kind hospitality extended to them will remain in their memories.

BACK FROM AFRICA.

REV. CANON RIDOUT VISITS GAINSBOROUGH TOWER.

On Monday evening, Sept. 10th, the ringers of All Saints', Gainsborough, met in the ringing chamber for the purpose of welcoming the Rev. Canon G. H. Ridout, Vicar of St. Albans, Ferris, Johannesburg, S.A., and formerly assistant priest at St. John-the-Divine, Gainsborough. This is his first visit to England for over 17 years, and although it is between 23 and 24 years since he left Gainsborough, the names of the ringers at that time (some of whom have since passed away) are still fresh in his memory.

In spite of having been a thousand miles from the nearest peal of bells, while on the African Continent, he still retains his campanological abilities and love for the art of change ringing. During the evening touches were rung in various methods, and recollections of bygone days brought back to memory, a very pleasant two hours being spent by all.

Only three of the old company are now connected with the tower, but they are supported by a strong band of the younger generation, who are real enthusiasts and capable of proving their ringing abilities in the future.

THE LADIES' GUILD.**WESTERN DISTRICT ANNUAL MEETING.**

The annual meeting of the Western District was held on Saturday, Sept. 15th, at Wraxall, near Bristol. Ringing began at 3 o'clock, and touches in various methods were rung. The captain of the tower extended a hearty welcome to all the visitors. A good tea was enjoyed, and was followed by the business meeting.

Mrs. Wilkins (Bristol), president of the Guild, presided, and the following officers were elected: Secretary, Miss E. E. Emm, Evercreech, Somerset; committee, Mrs. Edwards, Portishead; Mrs. Knight, Clapton; Miss Smith and Mrs. Wilkins, Bristol; district representatives, Mrs. Harvey, Portishead; Miss Williams, Bath.

It was proposed to hold the next meeting at Portishead on December 8th.

Many thanks are due to Miss Smith, who has so successfully fulfilled the office of hon. secretary for the past four years and great regret was expressed at her inability to continue in that post.

BATH & WELLS ASSOCIATION.**ILCHESTER DEANERY BRANCH.**

A meeting was held at Limington, near Ilchester on Saturday, Sept. 15th. The service in the Parish Church was conducted by the president of the branch (the Rev. G. W. Saunders, Vicar of Martock). The Rev. E. Glanfield (Rector of Limington) gave an address, in which he said it was the first time he had heard the bells rung. They were rung on his wedding day, in June, and that he believed was the only time they had been rung for about two years. He hoped the practices would be resumed this winter, and that the ringers would join the association.

There are in the tower six bells, which go fairly well. They are hung in two tiers, all swinging one way, causing considerable movement of the tower. During the ringing a stone fell from between the wall and a beam on to the floor of the belfry with a bang, which rather 'put the wind up' some of the ringers present.

The president presided over a short business meeting, at which the Rector of Limington was elected an hon. member, and Curry Rivel was chosen as the next place of meeting.

A vote of thanks to the Rector concluded the business.

Midsomer Norton, Yeovil, Stoke-sub-Hamdon and Martock were the towers represented, and the methods practised were Grandsire, Stedman and Plain Bob.

HISTORIAN AND REGISTRAR REQUIRED.

To the Editor.

Dear Sir,—I note, with pleasure, your suggestion that Mr. Fussell should be 'Official Peal Historian,' and heartily commend the idea. No one could do the job better; W. H. F. is thorough in all he undertakes.

At the same time the Ringers' Parliament might get on with the job of appointing an official Registrar of Births and Deaths of compositions. Week by week your pages show more and more how urgently it is needed.—Yours faithfully,

ONCE A BEGINNER.

YORKSHIRE ASSOCIATION.**NORTHERN DIVISION.**

The annual meeting of the Northern Division was held at Carlton-in-Cleveland, where the bells, a fine peal of eight, are a joy to ring. Most of the towers in the district were represented, and the meeting proved a great success in every way.

During the afternoon a short service was held in the church, and the Rev. I. L. Kyle, Vicar of Carlton, and former president of the Cleveland Association, addressed the ringers, encouraging them in their work, and emphasising particularly the need for unity and goodwill amongst them in their own belfries as well as in the wider circle of their association work.

A business meeting was held immediately after tea, the vice-president, the Rev. E. Drage, presiding.

Miss A. L. Henderson was unanimously re-elected as secretary of the division for the next three years.—In thanking the ringers for the confidence shown in her, Miss Henderson spoke of the loyalty and ready help she had always received from her fellow ringers, and trusted the next three years would continue to show the increasing number and the marked progress that had been made in the Northern Division of the Association since its reorganisation in 1920.

The following committeemen were also elected: Mr. Barker, Mr. Blakiston (Middlesboro'), and Mr. G. Peck (Saltburn).

The meeting concluded with a vote of thanks to the Rev. I. L. Kyle for the many kindnesses he had shown the ringers, and the warm welcome he had given them to Carlton.—In replying, the Vicar, in his jovial manner, had some amusing anecdotes to tell.

Provided necessary permission is obtained it is hoped to hold the next meeting at Thirsk on October 20th.

BELFRY GOSSIP.

There is every prospect of a large and representative gathering at Sheffield on Saturday, on the occasion of the second dinner in memory of Jasper Whitfield Snowdon and Past Officers of the Yorkshire Association.

Ringers who are visiting Plymouth for the Church Congress will find in our notice columns particulars of ringing which may be had.

Those who propose to attend the Winchester Guild meeting at Old Woking on Saturday may be glad to know that motor-buses leave Woking Railway Station (up side) at three minutes past each hour, and return from the White Hart, Old Woking, at 40 minutes past the hour.

The Sussex Association (Western District) meeting which was to have been held at Shoreham to-morrow, has been postponed on account of illness near the church.

The death took place last week of Mr. S. Wesley, a well-known Midland Counties ringer, who was steeplekeeper at Holy Trinity, Lenton, Nottingham. The deceased was 74 years of age, and had rung a large number of peals. The funeral took place on Saturday.

The first peal of Double Norwich Court Bob Caters was rung at St. Stephen's, Bristol, on Sept. 22nd, 1894.

A peal of Dublin Complex Major was rung for the first time on Sept. 27th, 1913, at Gosforth.

Matr. Wood, of Bethnal Green, was born on Sept. 22nd, 1826. He lived to be nearly 86, and many still living recollect him as one of the leading ringers of the Metropolis.

The first peal on the bells at Bootle has just been rung, and we are told that the band that puts up a better show will have to train on 'stewed horseshoes,' and that is what the bells are made of.

These bells are of cast steel, and were put in by Vicars of Sheffield, over forty years ago. There are, happily, very few rings of this material, but there is a peal of eight steel bells at St. Clement's, Hastings.

'Why is it,' asks the author of the peals of Double Norwich Royal, printed in another column, 'that more peals in this musical ten-bell method are not rung? Perhaps some of your readers can explain.'

Sussex week is fixed for October 13th to 20th, both Saturdays included. Four of the old Brighton 'veterans' will be among the gathering—Messrs. G. Williams, F. Bennett, K. Hart and R. J. Dawe.

COMPOSITIONS OF STEDMAN CATERS.

THE MOST MUSICAL POSITIONS.

To the Editor.

Dear Sir,—I venture to think that you would be doing a service to composers, conductors, and the Exercise at large, if you would give a fuller publicity to the late Sir Arthur Heywood's conclusions on the above subject, as published by him in 'Duffield.'

Reviewing the most musical combinations and positions on different numbers, he says:—

'Coming to nine bells, the best positions for Caters ringing are known, so far as regards 7, 8, 9, these bells giving incontestably the best effect when in the titum position. If 6 is after 9 the finest Cater music is obtained; the next best being with 5 after 9. Of the four remaining bells there is little to choose between 2, 3 and 4, as all these three harmonise with 9, but 1 after 9 should be avoided as a most discordant interval. In the Stedman method particular attention is necessary, as the sequences are different when the bells come behind in the middle of the course, to those arranged for the course-ends. Owing to the lack of attention to this point composers have, almost without exception, fallen into the grievous error of fixing the treble in 2nd's place throughout their peals. The result of this is that 1 is behind 9 in the middle of the course, and thus the most disagreeable discord of which nine bells are capable is made to recur continually. A little examination will show that if 1 is replaced by 6, not only will 9-6 be behind together in every course, but also 6-8; the latter being a beautiful combination otherwise unattainable at backstroke (at which a musical termination is most effective), and indeed only coming at handstroke at rare intervals. Having fixed 6 in 2nd's place, 5 will be the best to place after 9 at the course-end. The next best music is had by placing 5 in treble's place, when the sequence 9, 7, 5 will come at backstroke in the middle of the course. This, finished by the tenor, is one of the finest terminations obtainable. Of all methods on nine or more bells, Stedman Caters, when properly treated, lends itself to produce the best variety of musical combinations. As commonly rung, with the treble a fixed bell, it is small wonder that critics decried the music as inferior to that of Grandsire.'—Yours faithfully,

W. A. CAVE.

CHESHIRE'S FIRST RING OF TWELVE.**IMPRESSIVE SCENES AT MACCLESFIELD.**

The scene presented at Macclesfield Parish Church on the occasion of the dedication of the new ring of twelve bells by the Lord Bishop of Chester, on Wednesday, Sept. 12th, was one that will not be forgotten by those who were present. Although the time for service was not until 7.30 p.m., a queue of the public seeking admission had formed by six o'clock, and eventually the church was filled to its utmost capacity; whilst in the Market Square opposite a huge crowd eagerly waited to hear the first ringing of the bells. During the singing of the opening hymn, the Mayor and Corporation, with full insignia, walked in procession, and took up position in the nave, followed by the choir, clergy, and the Lord Bishop of the Diocese.

A shortened evensong comprised the service, and the formal dedication took place at the foot of the tower, the ringing loft being open to the south aisle. His Lordship preached a most eloquent sermon, in keeping with the occasion. Following the dedicatory prayers, the bells rang 'Queen's' until the procession returned to the chancel.

A collection was taken for the bell fund, which amounted to £34 15s. 5d.

As the congregation dispersed the bells were again rung in rounds and queens, the Rev. A. C. Clements (Rector of Grappenhall) and Mr. Denison Taylor (taking part with the local ringers. Afterwards 395 of Grandsire Caters was rung by the following: J. Swinfield (Burton) 1, J. Oldham 2, G. Bottomley 3, S. Dean 4, W. Walmsley 5, A. Burgess 6, Pryce Taylor 7, T. Mottershead 8, J. Norbury (conductor) 9, J. P. Fidler 10. A plain course of Kent Treble Bob Major brought the ringing to a close.

After service, the bells were again rung until 10 o'clock, 'Rounds' and 'Queen's' on the twelve, Grandsire Caters and Treble Bob Major on the back bells.

The Bishop and Vicar visited the ringers to thank them for their services. His Lordship particularly inquired from which parishes the various ringers present hailed. Beside the local men there were some from Burton-on-Trent, Bollington, Grappenhall, Norbury, etc., also Mr. E. D. Taylor, representing the founders.

Some fourteen years ago, the old tenor at Macclesfield cracked so it was resolved to have it recast and the number increased to twelve, but various causes prevented the accomplishment of this plan. At a public meeting held in the Town Hall on July 11th 1922, it was decided to have the ten bells recast, a treble and tenor added, and the whole hung in a massive cast-iron frame. Messrs. J. Taylor and Co. were entrusted with the work, which has been carried out with their usual thoroughness. The bells are of splendid tone, and the tenor is worthy of special note. For its weight (28 cwt.) it is exceptionally fine.

To the listener outside, the peal is evenly heard; to the ringer each bell is audible, chiefly owing to an arrangement whereby the trap-door in the ceiling can be raised or lowered at will.

Besides the restoration of the bells, the tower has been repaired, the clock overhauled, a new flagstaff set up, and the weather vane improved, bringing the total of the amount required to at least £2,700. An effort to clear the debt will be made in November when a grand bazaar will be held in the Town Hall.

After much patience and with no little courage in facing a big task, Macclesfield is thus at last rewarded by having a peal of twelve as perfect as they well can be.

It is hoped to have an open ringing day on October 13th, of which due notice will be given in 'The Ringing World.'

The weight of the new tenor is 28 cwt. 0 qr. 13 lb. and the inscriptions on the bells are as follows:—

Treble.—In memory of the old scholars of Duke Street and Beech Lane Schools who fell in the great war, 1914-1918.

2nd.—The gift of W. Whiston, Esq., Langley, April 1891, recast 1923.

3rd.—The gift of David Clarke, Esq., Park House April, 1891, recast 1923.

4th.—Praise the Lord.

5th.—Fear God, honour the King.

6th.—Lift up your hearts.

7th.—We lift them up unto the Lord.

8th.—Glory to God in the Highest.

9th.—On earth peace.

10th.—O come let us worship (on bells No. 4 to 10, 'recast 1923').

11th.—Ring out the false, ring in the true. Cast 1822 recast 1923.

Tenor.—Presented by the ringers: J. Norbury, leader; H. E. Paget, Bishop of Chester; E. Eaton, Mayor; H. E. Stevens, Vicar; J. H. Hughes and T. Cartwright wardens. The peal increased from 10 to 12, and old bells recast 1923.

ROWLEY REGIS BELL RESTORATION FUND.

Previously acknowledged, £3 2s. 6d.; Worcestershire Northern Branch meeting, collection, Halesowen, £1 11s.; Mr. Hector Bird, Old Hill 2s. 6d.; James George, 5s. Contributions should be sent to Mr. A. E. Parsons, 'Elma,' Beauty Bank, Old Hill, Staffs.

THE SUFFOLK GUILD.**NEARLY 600 MEMBERS.**

A most successful practice meeting of the Woodbridge district of the Suffolk Guild was held at Ufford on Saturday, Sept. 15th. By permission of the Rector, the bells (8) were at the disposal of ringers during the afternoon and evening. The bells were first set going to Stedman Doubles, and it was noted that the band included the Rector (the Rev. H. Drake), one churchwarden, the parish clerk and a sidesman, the touch being successfully brought round. After this, in spite of the fact that Ufford is on one side of the district (by the way, there is no other tower containing a peal of bells between this one and the East Coast, a distance of about ten miles in a direct line), ringers began to turn up in force, and Grandsire and Stedman Triples, Kent Treble Bob Major, Double Norwich and Cambridge Surprise being indulged in. When tea-time came there was something in the nature of a crowd for this rather remote part, and 'more chairs, please,' was the order of the day. Tea was very kindly provided and served in the Church Hall by Mrs. Drake, assisted by lady friends, to which full justice was done.

The District Secretary proposed a vote of thanks to Mrs. Drake for providing tea. Afterwards the Rector, who is also the general secretary, welcomed the ringers, and briefly described the work and progress of the new Guild which was satisfactory to all.

It was learned during a friendly talk that one band consisting of sixteen performing members, had by their energy secured twelve honorary members, an example of what can be done.

Ringings were afterwards resumed, and it was a pleasure to listen to the excellent striking in various methods, including Double Norwich, Superlative, Cambridge and London Surprise by mixed bands. Everyone seemed to have spent a most enjoyable time while the enthusiasm which abounds for the new Guild is most noticeable. There are now 570 members enrolled.

HERTFORD COUNTY ASSOCIATION.**NORTHERN DIVISION VISIT ROYSTON.**

One of the most successful meetings ever held at Royston took place on Saturday. Ringing commenced about 3 p.m., and a short service was conducted by the Vicar (the Rev. J. Harrison), who gave a stirring address on bells and ringers. Afterwards the Vicar conducted those who wished over his church, showing them some interesting photos of the building as it was when he first became Vicar some 48 years ago. He informed the party that the chancel was modern, and that the church originally ended where the present nave began. This seems to infer that the church originally was much larger, and probably what is now the nave was the choir or chancel, and the present tower might have been a central tower with the nave westward beyond. The oldest remains consist of portions of an arcade, and a window of the 13th century, with clustered columns, and tooth ornament between the mouldings of the arches, and these have been exceedingly well copied in the modern chancel. There are traces of a chapel or chantry on the north side of the church, but unfortunately (as the Vicar said) no history or records about the building can be found.

Tea was served at Beale's Restaurant, and was followed by the meeting, over which the Vicar presided.—One new member was elected, and a vote of condolence was expressed with Mrs. F. Furr and family, of Hitchin, in their bereavement. The late Mr. Furr was for years a member of the association and an old chorister.

Thanks were expressed to the Vicar for his presence, for his excellent address, and for the use of the bells; also to the organist for supplying the music at the service.

This meeting was honoured with the presence of the Rev. B. H. Tyrwhitt Drake the association's representative on the Central Council, and formerly district secretary for this division. In all, some 29 members were present, and the ringing, which included Cambridge Surprise and the standard methods, terminated at 9 o'clock.

DOUBLE NORWICH CATERS.*To the Editor.*

Dear Sir,—Mr. Dexter is evidently confusing the coming round at hand of the above method with that of Stedman Caters. If he will examine his course of the method (which is the same) he will find when the treble leads at hand 5th's place is made, which gives the homing change 123457698 not 124365879, as he implies. The method is very false internally, there being 13 false rows against each lead. I may add that in the peals in question the bob is made in 3rd's when the treble is in 5th's hunting up.

21, Warleigh Road, Brighton.

F. BENNETT.

Mr. F. H. Dexter has now written that it has been pointed out to him that, although the places given in his letter last week are correct, they will, if reversed, 'home' at hand from the last 5th's. On again looking at the lead he quoted from, or at least the last half-lead, he found that the last 3rd's and 5th's had been omitted, giving the lead end 129785634, which, of course, would not allow homing at hand.

RINGERS' OUTINGS.

ST. GILES' SOCIETY, READING.

On Saturday, Sept. 15th, the members of the St. Giles' Society, Reading, together with their wives and sweethearts, numbering 24 in all, had their annual outing. Meeting at 8.20 a.m. they journeyed by charabanc to Basingstoke, which was reached at 9.30, and a visit paid to St. Michael's. The bells were soon tapping off a first-rate touch of Stedman Triples. Other touches in this method and Bob Major followed, and the party left at 11 a.m. for Winchester, which city was reached soon after 12 noon. Before dinner the visitors had a look round the ancient and beautiful cathedral, and in the afternoon were very kindly received and conducted to the tower which, without the aid of a guide, they would not have been able to find. After a most arduous climb, which several of the ladies were obliged to abandon, while others remarked 'never again,' they found themselves in the tremendous belfry, with its most noble peal of twelve. After pulling up the tenor, a fine bell of 30 cwt., ringing commenced with rounds on the twelve, most of the party never having heard twelve bells before. This was followed by a touch of Grandsire Caters and Stedman Triples, and Bob Major were also rung. After tea the visitors had a short look round the city, and left at 6 p.m. for Basingstoke, where, at All Saints' Church, with its very handy ring of nine bells (what a pity it is there are not ten!) the best ringing of the day was indulged in. Some first-rate touches of Stedman Triples, Bob Major, Oxford Treble Bob and Double Norwich were brought round. The ringing terminated with a splendid touch of Grandsire Triples, by the local ringers, to enable the visitors to hear the bells outside. This was conducted by Mr. J. Ballard, of Basingstoke. After refreshments, Mr. G. Cook proposed a hearty vote of thanks to all concerned for the splendid arrangements made for the day's outing.—Mr. H. Egly also added thanks to the Basingstoke friends, and to those at the Cathedral of Winchester for granting permission to ring on such a noble peal. Reading was eventually reached soon after 10 p.m., after an enjoyable and successful day.

A VISIT TO CHICHESTER.

On Saturday, Sept. 15th, the ringers of North Stoneham had their annual outing, under the able conductorship of Mr. G. Williams, and accompanied by the Vicar and curate who are both ringers. The trip was made by charabanc, and the first tower visited was Soberton, where touches of Grandsire and Stedman Triples, Double Norwich and Cambridge were rung. Hambleton was the next tower, and touches of Stedman Doubles, Kent and Cambridge Minor brought round on the nice-toned ring of six by Mears. Chichester was the next objective, where a splendid tea was enjoyed at the Anchor Hotel. After tea a move was made to the campanile, where the party found Messrs. Rogers and Tate, of Portsmouth, waiting for them, and touches of Stedman Triples and London, Cambridge and Double Norwich Major were rung on the Cathedral bells. Havant was the last tower on the programme, and Grandsire and Stedman Triples and Superlative and London Surprise Major rung. Home was reached at 10 p.m., after a most enjoyable outing. The best thanks of the party are tendered to the various incumbents and ringers who helped to make the outing so enjoyable, particularly to Mr. Blake, who made all arrangements for the tea.

ROTHERHAM RINGERS AT BEVERLEY.

On Saturday, Sept. 8th the Rotherham Parish Church company, and friends from the neighbouring tower of Rawmarsh spent a most enjoyable day on a trip to Beverley, the journey being made by motor. The route lay through Doncaster, Askern and Selby. Here the Abbey was admired, but time being short the party pushed on to Beverley, arriving there at 12 o'clock. After dinner, the visitors were met by the Minster ringers, who, after showing them round the interior of this grand edifice, led the way up to the belfry, where the bells were soon going to Grandsire and Stedman Triples and Caters. Everyone having had a pull, the party made their way to St. Mary's Church, where further ringing took place. Tea followed, and a quiet hour was spent with a few Beverley friends who had been with the visitors during the afternoon. Touches of Grandsire Caters, Triples, Bob Major and Stedman Triples on handbells completed the all too short visit. Rotherham was eventually reached at 11 p.m., after a most enjoyable outing. This opportunity is taken of thanking the incumbents of the Minster and St. Mary's for the use of the bells, and also Beverley friends who helped to make the outing a real success.

ALDEBURGH-ON-SEA RINGERS' OUTING.

On Saturday, Sept. 8th, the ringing company of SS. Peter and Paul, Aldeburgh, Suffolk, had their first annual outing. Starting at 1.15 p.m. the charabanc made for Knodishall and Leiston, where the other members and friends were taken aboard. The happy party then proceeded to Winhaston where some nice touches of Cambridge Treble Bob and Bob Minor were rung on the good toned old peal of six. Some of the party then amused themselves with the handbells. Much time was also spent in surveying the very many items of interest in this quaint old church, before starting for St.

Edmund's, Southwold. Here the band were met by other ringers from the district, and touches of Bob Major and Treble Bob were greatly enjoyed. Much fun was caused by the chauffeur's remarks after his visit to the bell chamber. A substantial tea, the generous gift of a kind friend, was much appreciated, in the fullest sense of the word, and the car was then steered for Wrentham. Here a course of London touches of Cambridge and Bob Minor, were rung. After enjoying a few moments on the handbells, at the residence of Mr. Naunton, the homeward journey was begun in the cool air of the beautiful evening. On reaching Aldeburgh all agreed that this outing was one that would be remembered for many years to come. Chief thanks are due to the 'clerk of the weather' and those friends who met the party and had everything in readiness; also to the incumbents for the use of the bells.

A TRIP TO LEICESTER.

The idea originated quite a long time ago with the wish to ring a peal with some of the 'cracks' of the Midland Counties Association, some of those whose exploits of the past year or more have added to the many fine performances put up by that society. The good offices of Mr. Ernest Morris were sought and eventually permission was obtained to ring a peal on what is undoubtedly one of the finest rings of twelve bells in the world. 'Don't forget to ask Fred Dexter, Harold Poole, Harry Broughton, etc.,' was the pertinent request, but alas! the first named was unable to take part owing to a domestic bereavement, and his disappointment was shared by the whole of the band, who also sincerely sympathise with him in his trouble.

However, it is an ill-wind, etc., and the champion 'peal merchant' from Birmingham, having heard there was a 'twelve-bell peal on,' wired asking if the band was made up, and luckily fell into the vacant place. Of course the band was not complete without him, and the omission to invite him in the first place is really surprising.

Punctually at 4 p.m. 'go' was called, and a fine peal of Stedman Cinques was rung in 3 hours and 46 minutes.

'What do you think of the bells?' was the query of the local (dare we use the word!) men. 'Very fine indeed,' was the general reply.

After the peal a move was made to another sort of 'local,' where a room had been reserved, and quite a large number of ringers met for handbell ringing, reminiscencing, etc. Stedman Triples, Caters and Cinques were the order of events, and the company was further entertained by the Birmingham globe-trotter, who appears to excel not only at ringing, but at such widely different games as bagatelle, bowls, and goodness knows what else.

Sunday morning at 10 found the company at St. Martin's, where two courses of Cambridge Royal and a touch of Stedman Caters were rung, the conducting being shared by Mr. Harold Poole and Mr. C. T. Coles. A motor-bus ride to Anstey passing en route the scene of Old Bill's 'night out' by almost exactly two years ago was followed by a well-struck peal of Bristol Surprise. A hurried tea very kindly prepared by Mrs. Elkington, and a return ride to Leicester, brought the time of parting, after a very pleasant but all too short outing.

Sincere thanks are due to the incumbents of the two churches for allowing the peals to be rung, and to Messrs. Morris Poole, Broughton and Elkington for their excellent arrangements and hospitality.

CONCRETE FLOORS IN BELFRIES.

To the Editor.

Dear Sir,—I should be glad if any of your readers could give me any information with regard to the laying in of a concrete floor in a tower, about 20 feet above the ringing chamber.

Would this prevent the bells being heard in the belfry, or would the sound penetrate through the trap door, through which the bells would be taken up, and also the rope holes? Would the weight of the floor be of any danger or risk of any kind?

Perhaps some of your readers may know of the existence of a floor of this kind.—Yours faithfully,

Minchhead, Somerset.

THE OXFORD GUILD FESTIVAL.

To the Editor.

Dear Sir,—The figures given by the Rev. O. W. O. Jenkyn in your last issue are confusing. The total number he gives is 201. The secretary's report in 'The Ringing World' states: '115 members attended the business meeting in the Chapter House.' Thus there is a difference of 86. The Master states that Oxford, Bucks and Berks were represented by 104. If the radius figures are meant to show how this total is made up there is a discrepancy of 7; if they are in addition then, as I have pointed out above, there is a wide margin. The reverend gentleman says the majority in favour of Oxford was 60. The report gives the number of votes recorded, as 92—which means that, if we take the secretary's figures, 23 votes were unaccounted for; if the Master's figures are accepted, 109 non-voters; or if the grouped counties only, 12. Perhaps a more lucid explanation may be forthcoming. There are, I believe, somewhere about 2,000 members of the Guild, and however big a majority at Oxford, surely one would hardly contend that 79 votes is representative of the feelings of the whole. Why not a referendum?—Yours truly,
High Wycombe, GEO. TWITCHEN.

BEDFORDSHIRE ASSOCIATION.

A successful meeting of the Bedford District was held at Harrold on Saturday, Sept. 8th. The bells were set going about 2.30, and after tea, at the Wheatsheaf, to which 30 sat down the business meeting was held with Miss E. Steel in the chair. Members and friends were present from Bedford, Biddenham, Clapham, Kempston, Turvey, Roxton, Dunstable, Risely, Olney, Desborough, Finedon, Irthlingborough, Bozeat, Wollaston, Cambridge, Easton-Mauditt, and the local company.

It was proposed to hold the next meeting at Willington, and a vote of thanks was passed to the Vicar for the use of the bells. Northampton friends then gave a selection on tunes on the handbells, and a course of Grandsire Caters and a course of Bob Major were rung. During the afternoon, touches from Doubles to London Surprise were brought round on the bells, and a pleasant time was spent.

OBJECTORS TO CHURCH BELLS.

It is refreshing to find a newspaper of the importance and wide influence of the *Daily Chronicle* devoting a leading article to the defence of church bells, albeit that defence is made with qualifications. The circumstance which gave rise to this article, which we reprint in another column, is an attempt by residents of Welwyn Garden City to secure the prohibition of church bells in their midst, and one cannot but be gratified that a journal like the *Daily Chronicle* has expressed views with which, in the main, the majority of English people will agree. If the facts which they give are not, in every respect, accurate, the conclusions will command the approval of large numbers of people.

The attitude taken up by the community at Welwyn Garden City is one which, at different times, has been adopted in sundry places by a minority of folk who have an objection to church bells, and so far as this action relates to the garden city itself, ringers need be little perturbed. But there is a general principle at stake behind the question, and if church bells can be suppressed at Welwyn, there will doubtless be attempts in other places to silence the bells. This is a matter upon which ringers should ever be on the alert, and it is therefore not out of place to recall the fact that the Central Council have a special committee ready to help in questions of this kind, and they should be made acquainted with any attempt that is started with the object of silencing church bells.

"Bells," says the *Daily Chronicle*, at the conclusion of the article above referred to, "have a fine and romantic history, and if really musical in tone, could, even in these prosaic days, bring some joy to the ear, and perhaps solace to the soul." May we add that bells well rung, do this, and more. They are a constant reminder of the higher things of life; of the call to worship, which many who hear do not heed. If we were asked, we should say that it is probable that in a place like Welwyn Garden City the opposition to bells is not so much that they annoy the ears of the inhabitants, as that they disturb their consciences. These modern mushroom cities, which even the *Daily Chronicle* describes as "puckish," are often largely composed of people who look upon Sunday merely as a day for physical recreation, and the call of the church bells is to them too harsh a reminder of higher things neglected in seeking only the pleasures of the world. Men and women to whom Sunday has a meaning and purpose above that of a weekly holiday, are not people who object to church bells, but rather welcome their sounds, and so long as bells are rung primarily for their true object, find

them no "nuisance." But such actions as that taken at Welwyn require to be carefully watched, lest they lead to wider steps, which might eventually be detrimental to the use of church bells throughout the country.

GLOUCESTER & BRISTOL ASSOCIATION.

CHELTENHAM AND DISTRICT BRANCH FORGING AHEAD.

The autumn meeting of the Cheltenham and District Branch was held at Beckford on Saturday, September 22nd, and attended by 40 members from Alderton, Ashchurch, Dumbleton, Charlton Kings, Cheltenham (St. Mark's), Leigh, Leckhampton, Prestbury, Swindon, Twining, Winchcombe, and the local tower. The service held in the fine old church was conducted by the Rev. W. J. Margrett, assisted by the Rev. A. D. Pennington (Rector of Alderton), Miss Smith kindly presiding at the organ. The association's form of service was used, and a collection taken for the association's newly started belfry repair fund.

A bountiful tea was partaken of in the Village Hall kindly provided by the Vicar and numerous friends of Beckford.

The business meeting was held immediately after tea. Mr. J. W. Smith (churchwarden) presiding, supported by Mr. J. F. Ballinger (branch chairman), Mr. C. W. Dyson (branch representative), and the hon. secretary.—Apologies were received from the Rev. A. Stephens (Deerhurst), the Rev. F. M. Wickham (Winchcombe), and Mr. Wakeford (Ashchurch), the latter having recently lost his father.

The Secretary, in the course of a brief review, said the branch was making great strides.—Tewkesbury was chosen for the annual meeting, in January.

The following members were elected: Honorary: Rev. Baghot De le Bere (Vicar of Prestbury), and Mr. J. W. Smith (Beckford). Performing members: Messrs. Tom and Ted Harris (Ashchurch), F. Murden and A. Pulley (Dumbleton), A. Darke (Twining), L. Harrison and J. Hall (Toddington) and J. K. Armstrong (Prestbury).

On the motion of Mr. F. C. Griffiths, seconded by Mr. W. Dyer, a hearty vote of thanks was accorded the Vicar for his address; the Rev. Pennington; Miss Smith for presiding at the organ, and the Misses Smith, Mrs. Cole and Mr. Green for presiding at the tea.

A vote of thanks to the chairman concluded a very happy meeting.

The tower was again visited, and it was pleasing to see so many 'young hands' probably ringing their first six-score, and the Masters, Ted and Tom Harris, of Ashchurch, ringing in a good touch of Bob Minor. The ringing was kept up in various methods until 9 o'clock.

DEATH OF MRS. H. T. HOWELL, BRISTOL.

The funeral took place on Saturday, Sept. 15th, of the late Mrs. H. T. Howell, of 77, Summerhill Road, St. George, Bristol, who passed away on Sept. 11th, after a long and painful illness, patiently borne. Her genial and happy disposition had gained for her a large circle of friends during her 38 years' residence in the parish, the deceased having been a regular attendant at the parish church for the greater portion of that time, where her husband had been connected with the bell ringers for about 33 years, in addition to having held the office of parish warden for two years and for two years was Master of the Gloucester and Bristol Diocesan Association.

Service was held at St. Leonard's Church, Blackworth Road, the Rev. T. C. Fowler, assisted by the Rev. M. E. Thorold, Vicar of SS. Philip and Jacob officiated, both of these gentlemen having been closely identified with Bristol ringers and their friends for a number of years. The hymn, 'Let saints on earth in concert sing,' was sung, and the 'March Funebre' was played by Miss Fowler, who presided at the organ.

The interment took place at Avonview Cemetery, and there were a large number of relatives and friends present, including Mr. H. T. Howell (widower), Mr. J. H. Howell (son), Mrs. F. H. Howell (daughter-in-law), Mr. W. Wall (brother), Messrs. F. K. Howell and H. Newton (brothers-in-law), Mrs. A. Wall, Mrs. Pyman Mrs. Newton, Mrs. F. K. Howell (sisters-in-law), Messrs. C. Wall, T. Goscombe, F. Lovell, G. Lovell (nephews), Dr. R. F. Healey, Miss Churchhill (housekeeper), Mr. and Mrs. C. Beckett, Mr. and Mrs. W. Lansdown, Mr. and Mrs. W. Stafford, and Mr. C. H. Palmer.

There were a number of beautiful floral tributes from relatives and friends, including the Bristol Branch of the Gloucester and Bristol Diocesan Association, SS. Philip and Jacob's bell ringers, and the late ringers of St. George's Parish Church. A muffled peal was rung at SS. Philip and Jacob's Church in the afternoon.

A DAY IN THE WEST RIDING.

'BOZER' MEN VISIT YORKSHIRE TOWERS.

Know all men by these presents, at 7.40 of the clock in the forenoon on Sept. 15th, XI anno regni Georgius V. The Bolsover campanists left the Norman Keep of William Peveril to the tender mercies of the marauder. What cared they for the familiar 11th century of the natural son of the Conqueror?

They were out for 'a day in the West Riding' in a 16-scater, which was accompanied by a pilot of the taxi tribe. Both ran as well as well conducted 'buses' should run—viz., on four wheels—into the beautiful Derbyshire village of Norton, where they stopped near the spacious Church of St. James, a building in late Norman and Perpendicular styles. Upon arrival the 'Peverilites' got out, and wended their way 'neath the shade of oak, yew, beech and sycamore, to the tower wherein hangs a most noble octave by Taylor (tenor 16 cwt.). For one full hour these glorious bells poured out rich music over the sleeping dust of Norton's favourite son, 'Sir Francis Chantry'—whose romantic career appeals to our love of the marvellous. This child of a small farmer and joiner became the chosen sculptor of monarchs and statesmen; this Derbyshire boy—who each Saturday before his mother washed the stone flags of the kitchen floor for Sunday was permitted to cover them with sketches and drawings. Chantry did not stop at that, but lived to mould the 'sleeping children' of Lichfield Cathedral with such feeling, that their somnolent beauty cannot be denied our tears and panegyric utterances!—Yes, Chantry was

'Darbyshire born, and Darbyshire bred,
Strong in the arm, and weak in the 'ead!'

But his works are sufficient to refute the untruthfulness of these old lines, and in further proof we have here at this early hour the 'Peverilites', who are Darbyshire 'Tups' also—making the very heavens reverberate with rich and well-struck music. At the expiration of the hour allotted to Norton they had successfully brought round touches of Rutland, Cambridge, Superlative Norfolk and Double Norwich, the first items which we are permitted to record for the day (talk about weak in the 'ead!') Here the party was increased by the addition of two from over the Yorkshire border, and upon arrival at Handsworth three more joined the party, which was complete, and numbered 23.

Upon arrival at Handsworth tracks were made to set in motion the memorial peal at St. Mary's, erected to keep green the memory of 51 sons of Handsworth and Richmond. These are a truly magnificent little peal by Taylor (tenor 12 cwt.). Over the octave hangs (dead and chimed only for Curfew) a maiden bell cast by Hy. Oldfield, of Notts, in 1599, simply looking on while her more harmonious sisters (which are Simpson-tuned) successfully flattened out four slices of Surprise, which were duly consigned to the 'bag,' viz., Bristol, New Cambridge, London, and Yorkshire.

At 11.15 we glided away, on to the straggling village of Whiston, where we found a grand little peal in which are two mediaevals by Danyell, of London, 1450-1461, and another 17th century bell cast by Thos. Hancox. These three were augmented by Taylor into the octave a truly concordant blending of the old with the new! But, alas! a most deplorable state of affairs exists, both trebles had broken stays, and the ropes were apologies, but with careful handling the bells were raised and a fine touch of Norfolk tapped off, followed by Cambridge, which came to grief owing to the breaking of the tenor rope. The writer strongly advises the genial Rector to place his apathetic ringers in the ancient stocks, which stand in the churchyard, and subject them to the gaze and ridicule of the passer-by until such time as he (the Rector) is satisfied that the punishment meted out, will have the desired effect upon those who are culpable!

Rather more than disappointed the party retired to the Golden Ball, where they with malice aforethought vigorously assaulted lunch, and, with great precaution, took small quantities of alcoholic fuel. After getting 'outside lunch,' a dash was made for Rotherham, where they found at St. Stephen's a handy ring of eight by Warner, which go well but, but!—the quality of tone is incomparable with the bells in the three former towers visited. Apart from that, the party had the pleasure of adding Bristol, New Cambridge and Yorkshire to the bag.

Then away we sped upon the bipennate wings of 'Pegasus' to Rawmarsh, where another musical treat was in store. A 'champion' little peal by Taylor (tenor 12 cwt.), which is rather spoiled by the noise in the belfry. However, after an introduction to the successor of 'Marwood' (Ahem!) the party successfully tapped off fine courses of Superlative, Norfolk, Rutland and Bristol which also were reverently consigned to the bag!

But when the clock pointed to 4.25 we were landed at a place called Conisbro, where Conan had his Burgh about the end of the 3rd century, and where some years later the castle was built and there can be very little doubt that the real architect was Hengist the Saxon, who had a pretty daughter, Rowena, immortalised by Scott in 'Ivanhoe.'

As we stand and gaze at the stately ruin of the Castle Keep of Hengist, with its almost precipitous flight of stone steps leading up to the low portal, which served as the main entrance on the south side of the tower, in our imagination we perceive the shades of King Richard followed by his faithful Ivanhoe ascending. But wait, we shall in reality find the 'Sword of Damocles' descending on the head of the writer if he fails to record the fact that the crowning glory of the ancient fane of Conisbro is the 'Tailor,' made diapason, surely they would 'suit' anybody. Yes, the tenor is approximately 14 cwt. and the peal is a most fitting jewel in the majestic church of St. Peter, which crowns the hill and overlooks the Castle of Hengist. The present church is reputed by good authorities to be 800 or 900 years old, and is built on the site of a still older edifice. It is most probable that there was a church here in the days of Conan.

But that has nothing to do with the local greengrocer's boy! who was quite up to date when he sang, 'Yes, we have no bananas,' and said to his mother, 'Those visiting campanists have just rung five good touches of Bristol, London, Cambridge, Rutland and Stedman. We don't get that stuff every day in Conisbro, do we sir?' No, we should assume they don't. But after the party had lowered the bells they adjourned to the Fox Inn, where a most sumptuous tea was partaken of. Having done full justice to the good things placed before us, we loaded up the chariot, and struck out for Arksey—and by the way we burned some tobacco. At Arksey we found the genial locals awaiting us. Here they have a fine peal for their weight, which have been recently augmented by Taylor by the addition of two trebles to make up the octave (the Arksey War Memorial). The finishing touches of the day were rung upon these bells, viz., London, New Cambridge Forward and Stedman. Strange to say the excellence of striking was not maintained here at Arksey. Perhaps it was the good tea, pi'haps not! The writer is inclined to think that over-concentration alone was to blame, which is quite feasible when one considers that during the day the party had rung 26 touches 22 of which were Surprise in eight different methods, with two touches of Stedman and one each of Double Norwich and Forward thrown in for luck.

But according to plan, and in conjunction with the excellent pre-arranged time-table, the party embarked for the homeward spin. The pilot was requisitioned by a party of six, and struck out for the 'smokeopolis,' where she discharged her cargo. The remainder of the party took a different route for 'Bozer,' via Worksop. However, before the final parting, the writer received orders to rigorously refrain from mentioning in dispatches the name of any individual, and with the Editor's permission I am commanded to tender our grateful thanks to the clergy, churchwardens and ringing friends who contributed their quota towards making a success of this most enjoyable day of days we had in the West Ridin', an' ringin'. RAT.

TAUNTON RINGER'S WEDDING.

Mr. A. S. Boar, late of the famous St. Mary-le-Tower Society, Ipswich but now residing at Taunton, and a member of St. James Guild, was married at Ipswich on Sept. 20th to Miss Gwendoline Bruce Sheldrake. Among the gifts which the happy couple received was a case of carvers with the best wishes of the St. James' band.

Mr. Boar has accepted the managership of a chemist's shop in a Devonshire seaside town.

It was intended to attempt a peal at St. James' on Sept. 22nd, in honour of the wedding, but at the last minute this had to be abandoned, to the regret of all, through the indisposition of one of the band. As time did not admit of the finding of a substitute a quarter of Grandsire Triples was rung by T. Doble 1, J. Hunt (conductor) 2, W. J. Tarr 3, W. Doble 4, F. Millard 5, H. Bosley 6, E. Priddle 7, W. H. Tarr 8.

THE OXFORD GUILD FESTIVAL.

To the Editor.

Dear Sir.—The figures as given in my letter under this heading are intended to be two ways of considering the representation, as shown by the attendance roll. They are the result of an examination made shortly after the festival and in the first place for my own interest. My reason for publishing them was for the consideration of those who were under the impression that Oxford 'swamped' the meeting. There were apparently seven names that I omitted to place within any 'radius.' I had not noticed the discrepancy in the two totals and I am obliged to Mr. Twitchen for pointing it out.—Yours, etc.,
CYRIL W. O. JENKYN.

WOBURN, BEDS.—On 10th September, at St. Mary's, 1.120 London Surprise Major: F. Gilby 1, D. Jones 2, A. V. Goode 3, D. Harris 4, A. Markwell 5, Cyril Herbert 6, E. Herbert 7, E. J. Hobbs (conductor) 8. This is the longest length of London Surprise in the county and by all.

'ARE CHURCH BELLS A NUISANCE?'

Under this heading, the 'Daily Chronicle' on Saturday last had the following pertinent leading article:—

'In this age when so many ancient customs are passing and so many ancient institutions tottering, we must not be surprised at anything. But we confess to being a little taken aback at first on hearing that the residents of Welwyn Garden City consider that the ringing of church bells is an intolerable nuisance, and have passed a resolution, requesting the authorities concerned to prohibit them altogether in the locality. Garden cities have always been the home of what is known as advanced ideas—have always been Puckish places, so to speak. There is apparently something in their fresh brick atmosphere which is destructive of all tradition. One would not, for example, expect Kensington to suggest the abolition of church bells.

'On reflection, however, we are not inclined wholly to disagree with Welwyn in the matter of church bells. But we would not go so far as they go. Rather we would say that most and not all church bells are unmusical, and would urge that as far as our particular city was concerned only musical bells should be installed. A sound and pleasing bell should be capable of three good notes. Yet few bells have any two of those notes, and hardly any all three in unison. The great bell of St. Paul's and that of Beverley Minster are notable exceptions; the chiming of Westminster and the bells of certain Oxford churches might, too, be cited at random as examples of successful musical attainment.

'In the latter half of the 19th century—a period at which the complaint was made that the parsonage and the belfry were too closely allied—there began a revival of the bell ringing, and down to to-day much genuine interest is taken in the art, particularly in country districts. Only too often the ringers have poor material to handle, and the sounds which they produce are altogether at discord with the religious nature of the services to which they summon the devout. But if we are not always grateful for the bells we cannot be unmindful of the service to architecture that they have rendered. For had there been no bells there would have been none of those fine old towers which were everywhere erected for their accommodation. It is true that the use of clocks and watches has to some extent diminished their secular importance, and that they are now required mainly for purposes connected with religious worship. But they have a fine and romantic history, and if really musical in tone could even in these prosaic days bring some joy to the ear, and perhaps solace to the soul.'

YE RYNGING AND YE SPOUSES.

To the Editor.

Sir,—I agree with 'Sir' Sammy that we must laugh and grow fat, aye, as fat as ye gentleman from Manchester (No, no prize is offered for guessing his name). Are not ringers' gatherings more often than not, 'made' by the humorous anecdotes of those present and the technical side left alone? Apropos of such gatherings did recently come across an article re a booke on ye gentle art of 'Choosing a Wife,' published 1654. Hade goode Mister Stedman, when he first produced his workes on change ringing, refer'd hys readers to this booke, so that all ryngers could kill two byrds wyth one stone, those of to-day would have no need to ryunge ye changes on ye excuses for arriving home wyth ye mylk.

You saye no rynger's wife can help being 'Peppery'; accordynge to ye author, ryngers are at fault for not choosing a correct spouse. Let us see what he sayes on the subject; firste he lays stress on the importance of obtayning a satisfactory wife. To this we all agree. Secondly, he considers her qualities under six heads: '1. Report. 2. Looks. 3. Speech. 4. Apparel. 5. Companions. 6. Education,' which are pulses that shew the fitness and godliness of any party with whom he ought to marry. His ideal family constitutes '(a) The Governour' (N.B.—That is the husband) and (b) the governed,' which are the wife and children, but under certain conditions, the former 'maye attayne the rauk of assistant-governour' (unpaid).

'The duty of a husband is wisely to maintaine and manage hys authority.' 'Ye gods, Sam! what doth "her ladyship" saye to this? I do hope she is not like "Maggie," wife of ye "Tripe and Onion" merchant. But stave, let us look at the duties of a wife: 1. That she be in submission to her husband (phew!). 2. That she be a helper to him all her days. 3. That she be meek, gentle and obedient. 4. She must learn and labour to forecaste, contrive and manage household affairs and businesse within doors.'

In conclusion, the writer promiscs, provided the conditions are carried out, 'A Happy Family and a Colledge of quietness,' thus there would be no asking 'why did you stay at the "Coffee Pot" after practice, instead of coming straight home?'

Well, goode 'Sir,' seeing that A.C.R. objectis to so much 'Pepper,' ye nuisance-in-spectra dyd roll in ye brine of Cheshire and came out, very SALTY.

P.S.—Here is a bit of goode advice. If courting interferez with ringing, give up courting.

BELFRY GOSSIP.

A tablet to the memory of the late Mr. Raymond John Wilkins has been erected in the ringing chamber at St. Stephen's Church, Bristol, and will be unveiled next Tuesday at 7.30 p.m. Shipway was born at Bath on Sept. 29th, 1760. On Oct. 1st, 1793, a peal of 15,360 Bob Major was rung at Aston, conducted by Joshua Short.

The first recorded 'silent' peal of Kent Treble Bob Major was rung at Liversedge on October 3rd 1863.

All Saints' Fulham, has been one of the best known ten-bell towers in the country during the past century. The first peal of Stedman Caters on the bells was rung there on Oct. 3rd, 1819.

The first peal of Bristol Surprise on handbells was rung at Romford on October 1st, 1907.

The Archbishop of Canterbury will dedicate the two trebles at Canterbury Cathedral on Saturday, Oct. 13th. The bells are being provided by the Kent County Association as a memorial to the members who fell in the war.

Mr. T. H. Naisby, of the Sunderland (St. Ignatius) band, having decided to emigrate to the States, his brother ringers and friends on Wednesday week made him a parting gift of a beautiful mahogany timepiece. An attempt for a farewell peal of Cambridge Surprise Major unfortunately came to grief after an hour and three-quarter's good ringing.

Mr. E. Alex. Young, the hon. secretary of the Central Council, has not been long in following up his first peal, rung on handbells, with a peal on church bells. Mr. Young made his first tower bell attempt at St. Clement Danes, Strand, on the bicentenary of the bells, in 1893, and did not, we believe, make another peal attempt in a tower until his success at Lavenham the other day. We hope he will not be so long before he rings the next.

STEDMAN CATERS.

To the Editor.

Dear Sir,—The Criticisms of 'Criticus' are generally apt and to the point; in last week's issue, however, he is misleading. The statement, 'Stedman Caters, above all things, seems to have been done to death,' does not by any means convey the truth.

Possibly, if he is referring only to peals with a bell fixed in second's, he is not far wrong. However, to the composer with the qualifications needed to enable him to explore away from this safe path, there is plenty of scope. For instance, what about the extent of the musical position referred to by Mr. W. A. Cave—the 6th behind the 9th? I ask 'Criticus' how many peals of Stedman Caters he has seen between 5,000 and 5,100, in ordinary courses with two Singles only, the 6th undisturbed throughout and forty course-ends behind the 9th in the Tittums?—Yours sincerely,
Sunderland. JOSEPH W. PARKER.

MUSICAL POSITIONS—ANOTHER VIEW.

Sir,—It is too surprising to read our friend W. A. Cave's letter on the music of Stedman Caters. One would have thought in these enlightened days, our experts would have written with more wisdom and learning. Of course it is understood that the words are those of the late Sir A. P. Heywood, to whom all honour and respect, but, how many others still think in the same groove?

The treble of a peal of ten, as all ringers in the real sense of the word should know, is a note an octave higher than that of the 8th, and the 'handstroke home' position is held by a large number of ringers to be equally musical with the 'tittum' position.

How, then, can 9, 1, 10, be unmusical, when there is only this difference?

Again, in Major ringing, the 2nd in a peal of eight bells, is one to avoid putting in 6th's place, or, causing it to dodge behind with the tenor. Now, whilst a large number of Major ringers can understand this, as soon as they get on ten bells, they lose sight of the fact that the 2nd in eight bells is the 4th on ten, and immediately want peals of Caters with the 4th in second's place or behind the 9th or the 4th in 6th's place in Royal. ARAB.

AN ESSEX VETERAN'S RECORD.

A peal of Double Norwich at Feering, Essex, last week, was a double birthday compliment, for it was in celebration of the 70th birthday of both Mr. and Mrs. John Sadler. Mr. Sadler took part in the peal, which was rung without a blow out of place or a word spoken, except the conductor's calls—a grand performance for a man of 70 years. Mr. Sadler still walks over eight miles a day to and from work, and has done so for the last 24 years. In addition he has walked something like 15,000 miles to and from Coggeshall Parish Church where he has rung for 48 years. The congratulations of the Exercise will go out to Mr. and Mrs. Sadler coupled with the hope that they may be spared for many years yet, with good health.

THE LATE MR. CHARLES HERBERT. BEDFORDSHIRE'S G.O.M. OF RINGING.

The death occurred on Wednesday, Sept. 12th (as already briefly announced), of Mr. Charles Herbert, at his residence 20, Bedford Street, Woburn. Mr. Herbert was in his 80th year and for the last two years had been in delicate health. He came to Woburn from Sudbury, Suffolk, and was a pioneer of change ringing in Bedfordshire. With the help of Canon (then the Rev.) W. W. C. Baker, Mr. Edwin Ransom and the late Mr. Isaac Hills, the Beds Association was formed in 1882, and Mr. Herbert acted as honorary secretary, a position he held until 1889, when he was made a vice-president.

He was not a great peal ringer, only taking part in about a dozen in all, as he was not able to spare the time from business in those days, but he was whole-hearted in his endeavours to keep the science of change ringing and belfry reform to the fore, both by precept and practice, and his residence was 'open house' at all times for handbell practice, with the result that the local band acquired quite a proficiency in this branch of the art culminating in a peal of Plain Bob Maximus, in which he himself rang the tenors. This still remains the only peal of Maximus ever rung in the county.

As evidence of Mr. Herbert's enthusiasm for the art of change ringing, to convince a sceptic he once wrote out the full peal of 40,320 of Plain Bob Major, a performance which is surely unique, and which is probably the only one of its kind in existence.

He it was who prevailed upon the Duke of Bedford to add two trebles to the peal of six in the old tower of St. Mary's Woburn, in 1877, and wrote a most eloquent plea to the late Duke for the removal of the bells to the tower of the new church which, though not successful at the time, was eventually the means of getting the present Duke to place the magnificent peal of eight in this church in 1910.

Mr. Herbert took part in the first 720 ever rung in the county at Woburn, and rang his last peal on his 60th birthday.

The funeral took place at Woburn on Friday, Sept. 14th the Vicar of Woburn (the Rev. W. V. G. White) and Canon Baker, president of the Bedfordshire Association, officiating. Before the service, 532 Grandsire Triples were rung with the bells fully muffled, and 768 Kent Treble Bob Major after the service, half-muffled. The following took part in the ringing: D. Harris, M. Lane, E. Hobbs, H. Smith, G. Matthews, M. Matthews, D. Janes and A. E. Sharman (hon. secretary, Bedfordshire Association). On Monday Sept. 17th, a muffled peal was also rung on the bells of St. Mary's, Woburn.

AN APPRECIATION.

Mr. Charles Herbert may truthfully be described as the 'father of change ringing' in Bedfordshire. When he came to Woburn from Sudbury, Suffolk, in 1865, there was not a change ringer in the county. Keen and enthusiastic, he soon began to interest the young men of Woburn in the art, and persevered in spite of many obstacles and much good-humoured ridicule from the old 'stone' ringers of the neighbourhood. Some of the opposition he experienced sounds strange to us to-day. One man would not believe that it was possible to produce 5,000 different changes. To convince him Mr. Herbert wrote out the whole peal of Bob Major at full length.

The first effect of his ardour was seen in 1877, when largely owing to his enterprise two trebles were added to the ring of six at Woburn—the gift of the Duke of Bedford—and the whole peal overhauled and rebung. On April 16th in that year the augmented ring was opened by Squire Proctor and his band from Bennington. Among other touches they rang 448 Superlative Surprise Major. In the account of the opening in the 'Woburn Monthly Advertiser' for May, 1877, this is referred to as being 'one of the most intricate and beautiful specimens of the art, and rarely attempted by any but the elite of the ringing fraternity.' The elite are a much more numerous band nowadays.

The addition of a Seage's apparatus made more frequent practices possible at Woburn, and Mr. Herbert strove manfully to get a good eight bell band, though some time elapsed before his ambition was realised.

In the meantime interest in change ringing had been aroused in Bedford, and the late Mr. Isaac Hills began the task of building up a company there. There was great rivalry between the Woburn and Bedford companies as to which should have the honour of ringing the first 720 Bob Minor in the county. Mr. Herbert had the gratification of taking part in one rung at Woburn two days before the Bedford men were successful.

The spread of interest in the county seemed to warrant the starting of an association, and the Bedfordshire Association was launched on March 13th, 1882. Mr. Herbert was obviously the right man to become hon. secretary, and he continued to hold that office for many years with great success. On his retirement he was elected a vice-president, and continued to hold that office to the time of his death.

On account of falling health he had done little ringing of late years, but his two sons, Mr. Cyril Herbert and Mr. Ernest Herbert,

worthily maintain the family tradition. Mr. Charles Herbert rang comparatively few peals, but only those who have encountered the difficulties attendant on the introduction of change ringing in a district where it is totally unknown will appreciate the services he rendered to the Exercise. In the Bedfordshire Association his name will always be gratefully remembered.

All Bedfordshire ringers, and many in a wider circle will tender their sincere sympathy to Mrs. Herbert and her two sons in the loss of one whose love of bells and ringing was profound and lifelong.—R.I.P. W. W. C. B.

THE YORKSHIRE COMMEMORATION DINNER. BIG GATHERING AT SHEFFIELD.

A representative company of 120 attended the second dinner organised by the Yorkshire Association in memory of the late Jaspar Whitfield Snowdon and Past Officers of the Association and which was held on this occasion at the King's Head Hotel Sheffield. The Ven. J. Russell Darbyshire, Archdeacon of Sheffield presided, and a very enjoyable evening was spent, the gathering including representatives of no fewer than 49 different towns.

After the loyal toast, Mr. C. D. Potter (Barnsley) proposed 'The Church and State,' to which the Archdeacon responded.

Mr. F. Willey (Sheffield) submitted 'The Memory of Jaspar Whitfield Snowdon and Past Officers,' and devoted an interesting speech largely to recalling the great services rendered to the Exercise by the late Mr. Charles Henry Hattersley.

Mr. P. J. Johnson (Leeds) gave 'Kindred Societies,' to which Mr. Albert Walker (St. Martin's Guild Birmingham) and Mr. J. Rowbottom (College Youths) responded.

Other toasts were honoured, and an enjoyable musical programme was carried out.

A full report will appear next week.

DEATH OF MR. SAMUEL WESLEY, OF NOTTINGHAM.

As briefly recorded in our last issue, the death took place on Sept. 11th of Nottingham's most prolific peal ringer, Mr. Samuel Wesley, who passed away, after a long illness, at the age of 74 years. The deceased had made ringing a strong hobby, and upwards of 278 peals are placed to his credit under various associations, chiefly the M.C.A. and the Yorkshire Association. Having associated himself with the late Rev. F. E. Robinson in many of his ringing tours, the number of peals is hardly surprising, and contain a good number of Stedman, which may be considered his favourite method. A very careful and good striker, he was in demand for the treble position in many peals in higher methods, although it is to be regretted that not a single peal 'inside' in methods from and including Double Norwich was accomplished by him. The methods rung with a working bell include Grandsire, Plain Bob, Little Bob, Treble Bob in various forms, Oxford Bob, Darlaston Bob and Stedman. As a conductor, he has 13 peals to his name, apparently all Grandsire.

During his 37 years as steeplekeeper at Lenton, he was also a chorister, and this double help to the service of the church is an example worthy of emulation. Naturally after such long service he will be greatly missed.

The interment took place on the 15th inst., when the deceased was laid to rest beneath the tower with which he was so long connected, and the service with the Vicar of Lenton officiating, was fully choral, the hymn, 'Now the labourer's task is o'er,' being sung over the open grave after the committal ceremony. Then a course of Grandsire Triples was rung on handbells by two of his former pupils, Messrs. A. Coppock and H. R. Cobbin, with whom were two of his oldest friends, Messrs. W. E. White and A. Knights (Chesterfield). A quarter-peal of Stedman was rung on the tower bells during the afternoon.

Mr. Wesley's wife predeceased him about 18 months and he leaves four daughters, two being married to ringers. Sam Wesley and Lenton tower will always remain synonymous terms. One cannot, and never will, think of the one and not the other. A. C.

RINGER'S SILVER WEDDING.

The silver wedding of Mr. and Mrs. Isaac Evans of Willenhall, Staffs, was celebrated last week by a peal of Stedman Triples at St. Giles' Church, where the wedding was solemnised on Sept. 18th, 1898. Mr. Evans, who took part in the peal, has been a church worker at St. Giles for 22 years being at the present time a sidesman and member of the Church Council. Mrs. Evans also takes a great interest in the social life of the church. They have been the recipients of many congratulations, in which members of the Exercise will join.

WORKSHOP.—At the Priory Church, on Sept. 8th 720 Bob Minor on the back six: W. Robert 1, Miss Taylor 2, W. H. Johnson, V.C., 3, G. Tansley 4, A. Johnson (conductor) 5, G. Hardwick 6. Rung for the dedication festival.

CONCRETE FLOORS IN BELFRIES.**CONCRETE FLOORS AN ADVANTAGE.***To the Editor.*

Sir,—In reply to Mr. Stacey's letter, the concrete floor would not prevent the sound of the bells being heard below. It would soften the effect, but not unduly muffle it, thin concrete slabs being very resonant.

I do not know of such a floor, but I have long urged the great advantage of concrete being used in towers. A series of reinforced concrete floors, properly designed and executed, would be of the greatest advantage, especially in weak towers. The above also applies to cages or frames; the time has long passed when one of the latter should have been done.

The weight of one concrete floor should not be detrimental to the tower. The general question, however, requires expert advice and control, as it is one which has many pitfalls.—Yours faithfully,

155, Rushey Green, S.E.

E. ALEX. YOUNG.

A TYPICAL EXAMPLE.

Sir,—In answer to the query put forward by Mr. Geo. Stacey, re concrete floors in belfries a typical example is to be found at St. Mary's, Ilkeston, Derbyshire where the main girders supporting the modern H frame are elevated and built into the masonry approximately 3ft. above a concrete floor, the latter resting upon a stone corbel—or offset—which runs all around the tower. The ends of 6in. girders, set approximately 2ft. apart, rest on the east and west corbeling, short lengths of girder form the hatchway and are braced to the longer girders which run across the tower and form the sides of trap-door.

The intersections between each girder are filled in with concrete, forming one solid fire and water proof mass which is bonded into the webs of the girders and rests upon the supporting offset corbel all round the walls of the tower acting as a kind of diaphragm which, without question, has a steady and strengthening effect upon the masonry at that point. The hatchway is elevated 6in. or 8in. above the concrete floor, and is covered with wood and, if my memory serves me correctly, I believe the wood is covered with sheet lead. A floor laid on this plan is safe and durable, and Mr. Stacey may rest assured and content that it will never be in danger of falling, while the corbeling remains intact—in short, while the tower stands. Further there is no fear of clappers or bells coming through where a floor is made of concrete.

Concerning the sound of the bells, no doubt some people hold a belief that a concrete floor would adversely affect the resonance of the bells; such an idea is very erroneous! For example the ringing chamber of St. Mary's refutes any such suggestion. It is situated 30ft. below the concrete floor of the bell chamber. An intermediate floor of wood, forming the clock room floor, is laid on wood joints the underside of which is matchboarded. In between the joists are stuffed with hair. The height of the ringing chamber is approximately 14ft., and through the concrete floor and the clock room floor (which is hair stuffed) the sound of every bell in the octave is distinctly audible, a feature which visiting ringers seldom fail to eulogise and pronounce "Ideal." By adjusting the door in the ringing room a fine effect is produced by the sound which traverses the spiral staircase ranging from the softest pianissimo to loudest fortissimo! Trusting that my crude details will be sufficiently clear and comprehensive for your correspondent to follow, I beg to subscribe myself

NICHOLAS DE CANTILUPE.

WORCESTER BAND'S PROGRESS

Under the enthusiastic leadership of Mr. W. Page the band at Worcester have gone forward with rapid strides since the war, and have now added their first peal of Bristol Surprise. In three years and a quarter, the band have scored the first peal of Spliced Treble Bob ever rung (June 20th, 1920), the first peal of Double Norwich Major in the city by a local band (August 28th, 1920), the first Surprise peal (Cambridge) by the Western Branch (Feb. 26th, 1921), the first peal of Superlatives by the Western Branch (Oct. 22nd, 1921), Surprise Minor peal first by the association (Jan. 10th, 1922), Cambridge Surprise Royal first by all and in the city, and the second for the association (June 5th, 1922), London Surprise Major, first in the city, and by all the band except one (Nov. 11th, 1922), a fourteen method Minor peal first for the association and by all the band Nov. 21st, 1922), Stedman an Caters, first by all the band except two, and first for the Western Branch (May 10th, 1923) and now Bristol Surprise Major, first by all the band, in the city, and by the Western Branch.

This is not a homogeneous band, two having to cycle twenty miles on each visit, two having a fourteen-mile journey each time, and one having a twelve-mile ride on each occasion. Practices have only been fortnightly on eight bells, monthly on ten bells, and weekly on six bells, with as much Sunday ringing as can be got in. The band would be glad to know how this compares with other companies' progress.

WINCHESTER DIOCESAN GUILD.**GUILDFORD DISTRICT AND DIOCESAN DIVISION.**

A Guildford district meeting was held at Old Woking on Saturday last, and was well attended, ringers being present from Aldershot, Chertsey, Craleigh, Godalming, Holy Trinity and St. Nicolas', Guildford, Shere, Worplesdon and Woking. Various methods were practised during the afternoon, and a service was held in the church, conducted by the Vicar (the Rev. G. W. Askwith), who also gave an address. Tea was held in the working men's club, 32 sitting down.

At the business meeting, which was presided over by the Vicar, three full members were elected.

The members then discussed the question of the desirability or otherwise of forming new Guild for the new diocese. After several members had expressed their opinions, it was decided to call the representative of the different towers together and go thoroughly into the matter and report to the annual meeting of the district. It was also decided to get into touch with the members of the Yorktown district if possible.

The usual vote of thanks to the Vicar and organist was passed, after which the members returned to the tower, and several touches in various plain and Surprise methods were brought round.

LINCOLN DIOCESAN GUILD.**NORTHERN BRANCH ANNUAL MEETING.**

The annual meeting of the Northern Branch was held at Grimsby on Saturday, September 15th, when about 60 members and friends were present from various places, including Barton-on-Umber, Bigby, Brigg, Burton Stather, Gainsborough, Lincoln, Scotchbone, Scotter and Worksop, in addition to the two local towers. The bells of St. James' and St. Andrew's were available during the afternoon and evening, and kept going to the standard methods and Double Norwich. Superlative was also attempted, but did not prove successful. A short service, at which the Guild office was used, was conducted by the Rev. E. V. Clapton (one of the assistant clergy). The preacher was the Rev. H. T. Parry (Rector of Bigby), who took for his text St. John xiii. 15 and 17, and gave a most excellent discourse on the subject of humility.—Mr. H. Rushby, one of the local ringers, presided at the organ.

Tea was provided at the Church House, Bull Ring, after which a very hearty vote of thanks was accorded to the caterers for the efficient manner in which they had attended to the wants of those present.

The business meeting followed, at which Mr. F. F. Linley took the chair. The following officers were elected: President and treasurer, Mr. F. F. Linley; honorary secretary, Mr. F. S. W. Butler; hon. auditors, Messrs. F. W. Stokes and J. R. Sharpe; Ringing Master, Mr. J. A. Freeman; two members to serve on the Guildford committee, Messrs. Geo. Chester and J. A. Freeman.

Mr. C. H. Baker proposed that the Ringing Master be an ex-officio member of the Guild committee, but this was ruled out of order. Mr. Baker then withdrew his proposition, and it was agreed that the secretary be instructed to write to the Guild secretary, stating that a suggestion had been made by the branch, that the Ringing Master of each of the branches should be an ex-officio member of the Guild Committee.

There were three nominations for the two representatives on the Central Council—Mr. Geo. Chester, the Rev. H. T. Parry and Mr. F. W. Stokes. After a show of hands the first two were elected.

Stow was proposed as the place for the half-yearly meeting, and Sleaford, as an amendment, the object being to try and create enthusiasm and revive the interest of the Guild in that part of the branch. Eventually Sleaford was selected.

In regard to the 1924 annual meeting (due to be held at Lincoln) a question was raised as to whether it would be possible to obtain the use of the city bells for the occasion, seeing that the Guild meeting is held at Lincoln every year.—The Rev. R. Bond, Rector of St. Peter-at-Arches, stated he did not think it would be altogether possible, and as an alternative Harmston and Washingborough were mentioned, but after some discussion it was agreed that the meeting be held at Lincoln.

Referring to the fact that the rules of the branch were badly in want of revision, Mr. Linley remarked that he had drafted a new copy, and was handing it round to the members of the committee for their inspection. He also gave a resume, as far as possible, of the amounts collected by the branch members for the Cathedral Bell Fund.

Apologies for absence, along with all good wishes, were read from the Very Rev. the Dean of Lincoln Canon W. Hicks Messingham; the Rev. C. G. Bartou, St. Andrew's, Grimsby; and Mr. C. W. P. Clifton, Lincoln.

Votes of thanks to the incumbents for the use of the bells; Mr. W. H. Heyhoe for making the necessary arrangements; the Rev. H. T. Parry for his address; Mr. H. Rushby for his services at the organ; and Mr. F. F. Linley for presiding, were unanimously passed, and duly responded to.

LANCASHIRE ASSOCIATION.

NEW RINGING SECRETARY ELECTED.

The annual meeting was held at Kendal with Ambleside on Sept. 15th, but owing to the day trips having been withdrawn the week previous, the number attending was reduced, but nevertheless 80 were present. Although the bells at Ambleside were not much used, those who stayed over the week-end rang an hour for morning and evening service on Sunday, which gladdened the heart of Mr. Robinson.

Owing to the distance most had to travel, the proceedings commenced an hour earlier than usual, with a service at Kendal. The Archdeacon of Westmorland officiated, and Canon H. J. Elsee (president of the association) preached.

Tea was followed by the business meeting, the contested offices being decided by ballot to save time.

Canon Elsee gave a short address, and also read the committee's report, balance sheet and auditors' report.

Thanks were accorded to the Archdeacon (the Rev. Lefone) for the use of the church, bells and institute, and, in reply, he welcomed the association, and hoped they would not be long before coming again.

The committee of the association had sent a letter to the Bishop of Liverpool on his retirement, and Canon Elsee read the reply.

Canon Elsee also gave a report of the Central Council meeting, and Mr. W. E. Wilson supplemented it.

Wigan and Oldham were nominated for the next annual meeting, and Oldham won, on the show of hands, by 40 to 28.

The scrutineers by this time had finished their work, and the Chairman announced the result as follows: Vice-president, Mr. J. R. Taylor; ringing secretary (in place of Mr. J. H. Banks resigned), Mr. A. Tomlinson; Central Council representatives, Canon Elsee, Messrs. W. E. Wilson, J. R. Taylor and H. Chapman.—A vote of thanks to the local ringers closed the meeting.

The association has now 1,328 members, and saved during the year £1 10s.

WORCESTERSHIRE & DISTRICTS ASSOCIATION.

NORTHERN BRANCH OFFICERS.

The quarterly meeting of the Northern Branch was held at Halesowen on Saturday, Sept. 15th. The proceedings opened with a service in church, at which there was a large attendance, and an interesting address was given on bells by the Rector (the Rev. H. C. A. Colville). Tea, which was kindly provided by the local band, was served in the Rectory House.

The business meeting followed, at which the Rector presided, supported by Mr. A. E. Parsons, and Mr. W. B. Cartwright (Ringing Master) with the secretary, Mr. A. J. Skelding. Representatives were present from Brierley Hill, Cradley Kidderminster, Hartlebury, Aldswinford, Stourbridge, Wollaston, Old Hill, Rowley Regis, King's Norton, Northfield, Selly Oak, Oldbury, Dudley, Nether-ton and Smethwick.

Mr. A. E. Parsons proposed, and Mr. G. N. Cockin seconded, the re-election of Mr. W. B. Cartwright (Selly Oak) as Ringing Master, and Mr. A. J. Skelding (Stourbridge) as secretary, and this was carried unanimously.—Mr. R. Matthews was elected representative on the Central Committee.

Mr. Parsons spoke of the efforts which were being made to rehang the bells at Rowley Regis Church, and said there was every possibility of the bells being rung again on Sept. 29th when the new church would be dedicated.

A collection was taken for the Restoration Fund, and this realised £1 11s., which Mr. Parsons acknowledged.

The Vicar of Rowley Regis (the Rev. F. J. Cheverton) was elected an honorary member, and the Rowley Regis bell ringers were re-elected performing members.

The next meeting is to be held at Smethwick. Mr. Cartwright moved a hearty vote of thanks to the Rector and officials of the church; the organist and the local band of ringers for entertaining the members; and to the ladies who had waited upon them.—Mr. Parsons seconded the motion, which was carried, Mr. W. H. Webb, local Ringing Master, replying.

Touches of Grandsire and Stedman were rung before the service, and after the meeting London, Cambridge and Double Norwich were rung. The bells were lowered, and this ended a very enthusiastic meeting.

DEATH OF AN I.O.W. RINGER.

We regret to record the death of Mr. P. C. Vincent Einhorn, on the 17th September, at Newport, I.O.W., at the age of 58. Though not a skilled ringer he had for many years taken the keenest interest in ringing, especially with its history in the island. He was interred at Carisbrooke on the 20th inst., when the Newport ringers, with Mr. E. Alex. Young from London, rang a course of Grandsire Triples on handbells at the graveside. The deceased's MSS. have been acquired by one of the Newport ringers.

NOISY BELLS.

The article on this page last week referred to one phase of the objection which from time to time is raised against church bells, and in this issue will be found mention of the fact that in other places, beside Welwyn Garden City, there have recently been complaints against ringing. We are glad to know that they are being dealt with, where they have arisen, by a member of the Central Council's Press Committee, whose function it is on these matters to act as a Vigilance Committee. Objections of the kind referred to usually come from a minority, but in this, as in other things, minorities, if persistent and loud enough in their demands, can sometimes gain concessions, and more than one good peal of bells is silent because an incumbent is anxious to avoid offending some individual or small section of his parishioners.

At the same time it behoves those responsible for bellfries to use their utmost endeavours to mitigate any possible cause of annoyance from bells. There are, it must be admitted, towers where the bells hurl down into the streets and adjoining houses almost a deafening noise, and there are many others where a reduction of the sound might, with reason, be made. There are various plans by which this modulation of the sound can be effected, and frequently it can be done at comparatively small expense. Where new peals are being put in or where new frames are being installed, steps are now usually taken by the bell-hangers to secure this desirable end, either by placing the bells well below the windows, or by blocking up the louvres and letting out the sound by openings in the roof. When ringers have to meet a condition of affairs which does not involve the lowering of the bell frame, much may be done by blocking the louvres, either by brickwork, or felted boards, or even sandbags, where expense is a consideration.

Other ways of reducing the noise outside the tower are also possible, and what we would urge is that in every tower where there is the slightest reasonable ground for objection the ringers should consider this question and bring it before the notice of the Incumbent, Churchwardens, and Parochial Council; who might even be invited to judge of the matter for themselves by specially visiting the vicinity of the church when the bells are being rung. It should be remembered that noisy and untuneful bells are as much a source of irritation to the public as to the ringers themselves, indeed, probably more so, for ringers derive some pleasure from the fact that, whatever the bells may be like, they are following their art, while the public, having no knowledge of campanology, have no such compensation. Wherefore it behoves all concerned to do their best to allay any cause for complaint, even before complaint is made.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL,

Orders may be placed now for delivery at a future date to suit the convenience of clients.

MIDDLESEX COUNTY ASSOCIATION.
 SOUTH AND WEST DISTRICT.

Another successful and pleasant meeting of the South and West District was held at Sunbury on Saturday, Sept. 8th. Ringing commenced about 4 p.m., when short touches of Grandsire Triples, etc., and a course of Cambridge Surprise were rung. Tea was served in the Parish Hall by the hostess, Mrs. Warne, about 40 sitting down. Mr. T. Beadle, vice-president, presided, supported by the Vicar (the Rev. P. Sydney), the Ringing Master and the hon. secretary. After tea Mr. Beadle vacated the chair in favour of the Vicar, who welcomed the association to Sunbury, remarking what a pleasure it was to meet such a good gathering of ringers, and extending an invitation for another visit in the near future.

Acton was selected for the November meeting. Handbell ringing was indulged in, after which a vote of thanks was accorded to the Vicar, and all who so kindly assisted to make the meeting a success.

The tower was again visited, and courses of London, Bristol and Superlative were rung, the number having increased to over 50, including several lady ringers.

MIDLAND COUNTIES ASSOCIATION. NOTTINGHAM DISTRICT.

A monthly meeting of the Nottingham District was held at Greasley on Saturday, Sept. 29th to commemorate the first anniversary of the reopening of the bells, after being rehung and increased from five to eight. Between 30 and 40 ringers attended from Beeston, Bulwell, Breaston, Basford, St. Peter's, Nottingham, Sutton-in-Ashfield, Southwell, Ilkeston, with visitors from Derby, Selston, South Normanton (two from the latter being elected members), and the local band. A most sumptuous tea was provided by the local men and their wives, which was much appreciated by those present.

The business meeting was presided over by the local vice-president (Mr. A. Coppock).

Wollaton was selected for the next meeting, to be held on Oct. 27th. — Three new members were elected from Greasley (1) and South Normanton (2), and a vote of condolence was passed by all the members, standing on the death of Mr. S. Wesley, of Lenton, who had passed away since the last meeting, and who had been a member of the Association for a number of years.

It was agreed to hold a 'W. D. Croft's' dinner again this year, and Messrs. F. Johnson, W. A. James and G. Goodship were elected a committee to draw up arrangements and report at the next meeting.

The Vicar promised to become an hon. member of the association. The President then proposed a very hearty vote of thanks to the Vicar for granting the use of the bells, and also to the local ringers and ladies for so kindly entertaining the members.—Mr. J. Hobbs, leader of the local men, extended a hearty welcome to the visitors to Greasley, and hoped the meeting would become an annual event.

A short service was held in the church, the Rev. S. J. Galloway thanking the members for coming, and wished the association every success.—Mr. A. Coppock rendered an excellent solo, Mr. W. Taylor, one of the local ringers, presiding at the organ.

Ringling was kept up until 8.30, and the following methods were rung during the day: Grandsire, Stedman, Plain and Treble Bob, Double Norwich and Cambridge Surprise.

A pleasant hour was spent with the handbells, and several musical items were given by Mr. A. Coppock and friends.

Will members please note that it is hoped to commence practising at St. Mary's Nottingham in a few weeks, with the hope of having a change ringing band at this church again? Ringers visiting or staying in Nottingham will receive a hearty welcome from Mr. A. Lambert at this tower on Sundays at 10 and 6 o'clock.

LADIES' GUILD.

NEW BRANCH FORMED IN DEVON.

The inauguration of the Exeter and District Branch of the Ladies' Guild took place on Saturday, Sept. 22nd. Among the visitors were Miss Edith Parker (London), Mrs. Wilkins (Bristol), president of the Ladies' Guild; Miss Williams (Bath), and Mrs. Harvey (Portsmouth), also ladies from Tiverton, Topsham, Torquay, Paignton, Washfield, and Clevedon, etc.

The proceedings commenced at St. Thomas' Church, on the new ring of eight, after which the visitors were entertained to luncheon by Mr. and Mrs. E. S. Plummer. This was followed by ringing at St. Petrock's (6), the Ladies' Guild tower in Exeter. Service was then held at the Cathedral, and the business meeting took place immediately afterwards. The officers elected were: Chairman, Mrs. Walker King (Exeter); vice-chairmen, Miss Hanson (Tiverton), Miss C. Goodman (Topsham); committee, Mrs. H. Read (Exeter), Miss Knight (Exeter), Mrs. Knowles (Tiverton), Mrs. Gover (Torquay); assistant secretary, Miss G. Davey (Exeter).

Mr. W. J. Southwood, who has acted as organising secretary, was responsible for the arrangements during the day.

Tea was kindly provided by Mr. and Mrs. A. C. Thomas, the donors of the new trebles at the Cathedral, which was afterwards visited. A ladies' band rang the 'Thomas' eight: Mrs. Wilkins (Bristol) 1, Miss Austin (Paignton) 2, Mrs. Gover (Torquay) 3, Miss Williams (Bath) 4, Miss Snell (Washfield) 5, Mrs. Knowles (Tiverton) 6, Mrs. Harvey (Portsmouth) 7, Miss Parker (London) 8. Stedman and Grandsire Cinques were rung by the Cathedral band, three of the ladies assisting.

A most eventful day was thus brought to a conclusion, and it is hoped the Ladies' Guild will make great progress in the district.

NOMENCLATURE OF MINOR METHODS.

To the Editor.

Sir,—Now that Mr. Sharples has written from Blackpool, and admitted that it was he who named method No. 22 'Immanuel,' may we ask him to select some more appropriate title? He is probably aware that this is one of the Divine Names. To use it in such a way is a grievous shock to some, and very offensive to others; moreover we do not wish to give the profane the excuse to say that ringers worship a Method!

Ufford Rectory, Woodbridge Suffolk.

BELL RINGING CONTEST AT MELTHAM.

BIG ENTRY AND LARGE GATHERING.

The quarterly meeting and six-bell contest of the Halifax and District Association was held on Saturday, Sept. 29th, at Meltham. Prior to the contest, a committee meeting was held. Seven hundred and twenty changes in any method had been sanctioned previously, but owing to there being no fewer than ten entrants, it was thought that the length had better be shortened somewhat, as the ringers covered a large area. It was decided that 800 changes be rung, any method.

Ringling commenced shortly after three o'clock, and continued till 9.15 p.m. An excellent tea was provided by the Meltham company, and about 130 ringers enjoyed the fare provided. Owing to the lateness of the hour a hurried meeting took place in the school adjoining the church, at which a hearty vote of thanks was accorded the Vicar of Meltham (the Rev. H. F. T. Barter) and churchwardens, for the use of the bells and for the way the arrangements had been part in the success of the contest.

The Vicar replying, said how pleased he was to welcome such a fine assembly to Meltham. One feature of the contest he said, was the large number of youths taking up ringling. He added that he thought everyone would agree that the ladies had played no small part to the success of the contest.

The judges, Mr. J. Broadley (Bradford) and Mr. J. Barforth (Earlsheaton) gave their decision as follows:—

	Faults.	Penal-ties.	Tl.
Huddersfield (Oxford T.B.)	153		153
Lightcliffe (Kent T.B.)	333	10	343
Shelley (Oxford)	373		373
New Mill (Oxford)	140		140
Birstal (Kent)	226		Rung out
Holmfirth (Oxford)	243		243
Low Moor (Kent)	400		Rung out
Mirfield (Kent)	196		196
Batley (Oxford)	148	10	158
Liversedge (Kent)	226		Rung out

New Mill were accordingly declared winners. The Vicar presented the cup to Mr. Biltcliffe, the conductor. He said he hoped that at some future date other towers in Longwood and Marsden would attempt to win the cup.

A vote of thanks to judges and chairman closed a very successful meeting.

SUFFOLK GUILD.

On Saturday, Sept. 22nd a meeting of the Saxmundham District was held at Leiston, and despite the inclement weather was fairly well attended by members from various towers in the county. The hardy ring of bells at the parish church were kept going in various methods, from three o'clock till five p.m., when at the invitation of the Rector (the Rev. F. W. Morgan Jones), an adjournment was made to the Council Schools, where a sumptuous tea was spread.

The Rector expressed pleasure at meeting the ringers especially as they were a united body, and he hoped to meet them annually.

To show how popular the Suffolk Guild is becoming, twelve hon. members were reported to have joined in the district, and great pleasure was expressed when Mrs. Morgan Jones, the wife of the Rector, expressed a wish to become an hon. member.

A vote of thanks to the Rector and Mrs. Morgan Jones for their kind welcome, and to the ladies who so kindly assisted at the tables was accorded, on the motion of Mr. C. E. Fisher.

The methods rung during the day were Stedman Triples and Major methods from Plain Bob to London Surprise.

CONCRETE FLOORS IN BELFRIES.

To the Editor.

Dear Sir,—In reply to Mr. Stacey's inquiry about concrete floors in towers, a concrete floor was laid in the belfry at St. Mary's Church, Ambleside, Westmorland when the new peal of eight was put in in 1901. The height of the ringing chamber is 15ft. 8in., and the floor 2ft. thick. It consists of top concrete 10in. thick, then boxes of silicate of batten 6in. deep, then 8in. hollow space. The floor has an area of 16ft. 3in. by 16ft.

The bells are rather noisy in the ringing chamber, but in 1912, acting on the advice of Mr. A. W. Brighton, of London, the whole of the concrete floor was covered with bags of sawdust about 4in. thick, which reduced the sound wonderfully. The bells are a heavy peal the tenor being 32 cwt. 2 qr. 2 lb.—Yours faithfully,

Church Street, Ambleside.

ESSEX ASSOCIATION.

FESTIVAL AT DUNMOW.

Some thirty ringers responded to the invitation to the ringing festival at Dunmow on Saturday, Sept. 29th. Great Bardfield, Stebbing, Felsted, Chelmsford, Woodford and Braintree were represented, and among the company were Mr. C. H. Howard, J.P. (Master of the Association), Mr. W. H. Dykon (District Master, Northern Division), and Mr. G. A. Black (one of the association's auditors). A short service was held in the Parish Church of St. Mary, at which the association office was used.

A sumptuous tea was provided in the Parish Hall. The Vicar (the Rev. W. J. House, M.A.) presided, supported by his churchwarden.

The Master expressed the thanks of the visitors to Mrs. House and to the ringers' wives and friends who had so generously provided tea, and to the Vicar for his hearty welcome.—This was seconded by the District Master, who gave a very interesting account of the history of the church, with its very fine tower and bells.—The Vicar and Mr. H. W. Smith responded, the latter stating the idea of the gathering was for the purpose of stimulating a closer spirit of brotherhood among the neighbouring towers.

A social hour followed with songs and tunc ringing by the Stebbing ringers. Touches of Bob Minor, Kent Treble Bob and Cambridge Surprise were rung upon the very fine tower bells, the heaviest ring of six in the county. It is hoped that at some near date two trebles will be added to complete the octave.

PRESENTATION TO VETERAN RINGER.

A very successful meeting was held at St. Nicholas' Wallasey, by the Wirral Branch of the Chester Diocesan Guild on Saturday, Sept. 29th, and the opportunity was taken to make a presentation to Mr. William Hughes. This took the form of a nicely printed peal card, recording a peal of Grandsire Triples at St. Mary's, Liscard, on Sept. 22nd. Mr. William Hughes, who received the gift at the hands of the Vicar, has been a ringer for nearly 40 years at Liscard. The peal was rung in his honour on his 70th birthday, his golden wedding and also his son's silver wedding day. Mr. Hughes rang the treble and his son the tenor.—In thanking the Vicar and ringers for the kind words and kinder thoughts which had prompted them, he said he would treasure the picture as long as he lived.

PEALS OF STEDMAN CATERS.

To the Editor.

Dear Sir,—In reply to Mr. Daltry's letter in your issue of September 21st last, I do not for one moment wish to deprive him of any title to the two peals of Stedman Caters published in your issue of August 31st, and concerning which I expressed my opinion in your issue of September 7th. But I am still convinced he has not added two more to the thousands which already exist. If there is any space in our excellent weekly ringing journal for compositions, let us, I say again, have something off the beaten and well-worn track. Peals of Stedman Caters and Cinques, short course and long course, have been rung in Birmingham and elsewhere, especially during the last 20 years, both on tower and handbells, with the front six bells in various possible combinations, and the large bells in the tittums, inverted tittums, backstroke and handstroke home positions, these containing musical qualities not to be obtained on the ordinary plan where the treble or 6th is fixed in second's place.

I agree with Mr. Joseph W. Parker in his letter in this week's issue of the 'Ringing World' that there is still plenty of scope for this class of composition which would give added interest to peal hands and conductors. What is more wanted than a reference file containing this class of compositions up to date? It should be taken in hand by our Central Council at the very earliest opportunity, and then added to the list of publications so that it could be within the reach of all those interested by applying for same.

I shall be pleased to send to conductors peals of Stedman Caters or Cinques by reputed composers, which I have in my possession, and which are off the beaten track.—Yours faithfully,

ALBERT WALKER.

THE ATTACKS ON CHURCH BELLS.

There appears to be an epidemic of opposition to the ringing of bells, and Welwyn Garden City is not alone in its antagonism. A few weeks ago the Leicester newspapers were alive with correspondence against the bells of St. John-the-Divine—a most musical and modulated ring! Fortunately, the originator of the 'Ringing Defence Committee' (Press) of the Central Council is attached to St. John's, and the opponents were 'up against it.' Scarcely had that subsided when an attack was made on change ringing at Ludlow, in Shropshire and the local society requested the aid of Mr. W. Willson to defend their interests. W. W. has fallen upon the opposition with his battleaxe and laid about him in right good earnest.

BELFRY GOSSIP.

At a recent meeting of the Salisbury Diocesan Guild, the Master (Major Hughes D'Aeth) informed those present that his motor-cycle registered just over ten thousand miles, travelled in the cause of the Guild since he took office in 1919.

Some half-dozen members of the Ancient Society of College Youths were invited to attend on Tuesday the commemoration of the 500th anniversary of the death of Sir Richard Whittington, the ceremony taking place at St. Michael Royal, College Hill. Whittington will always be associated with Bow bells, and his name has been given to a change well known to ringers.

A peal of Kent Treble Bob Minor has been rung at Liversedge, Yorks, by a band whose average age is 17½ years. What makes the performance the more meritorious is the fact that it was the first peal by all, and was rung at the first attempt.

Mr. John Carter has returned to London from the Isle of Man, and his activities will doubtless be once more turned to ringing.

The peal at Over, Cambs, on Sept. 19th was rung for the Ely Diocesan Association, a fact that was omitted by the sender of the report.

The first peal of Stedman Cinques on record was rung by the College Youths at St. Martin's-in-the-Fields on Oct. 6th 1788. They did the thing properly, for the length was 6,204 (rung in 4 hrs. 47 mins.), and this stood as the longest length in the method until 1806, when the Cumberlands rang a 6,334 at Spitalfields.

Holt's Ten-part was rung for the first time on Oct. 12th, 1754, at Shoreditch.

In memory of his father, Alderman George Cadbury is extending the carillon at Bourneville by the addition of 15 bells making the total up to 37, giving a chromatic scale of three octaves. It will then rank as second largest in England.

Gloucester and Bristol Diocesan ringers should note that the meeting announced for Dursley to-morrow cannot be held, owing to illness, and is, therefore, postponed to Oct. 13th, when it will take place at Berkeley.

Macclesfield bells, Cheshire's first peal of twelve, will be open for ringing on Saturday, Oct. 13th when all ringers will be welcome. Particulars will be found in our notice columns.

Mr. T. R. Butler, of Ellesmere, Salop, has made an unusual start in peal ringing. His first peal was on handbells, when he rang 1-2 to Stedman Caters, and his next was a peal of Stedman Cinques at St. Martin's, Birmingham. He is the first Shropshire ringer to run a pair of handbells to a peal Stedman. His friends anticipate for him a highly successful ringing career, given the opportunity.

The following was posted on the door of a country church some time back: 'This is to give notice that no person is to be buried in the churchyard but those living in the parish. Those who wish to be buried here are desired to apply to me.—J. B., parish clerk.'

We are informed that the peal of Bob Major rung at St. Mary's, Putney, on Sept. 19th, should not be credited to the Ancient Society of College Youths.

The peal of Stedman Triples at Lavenham on Sept. 17th was A. Symonds first in the method away from the tenor, and not his first peal away from the tenor.

THANKS.

To the Editor.

Dear Sir,—Will you allow me, through your columns, to thank all ringers and friends who responded to my appeal on behalf of Mrs. Hayes, widow of the late Frederick Hayes, of Milton-next-Gravesend, Kent, a ringer for over 40 years, who is in straitened circumstances? Thanks are due to the Benevolent Fund Committee of the Kent Association for a grant of £23 5s., and I am grateful to all whose names appear on the following lists: Per M. P. E. Clark, Ealing, £6 14s. 6d.; Mr. F. M. Mitchell, Milton-next-Gravesend, £3 17s. 6d.; Gravesend Ringers, £1 2s. 6d.; Old Pals, per Mr. W. Raveney, £1 1s. 6d.; Northfleet Ringers, 10s. 6d.; Rochester St. Margaret's, 8s.; Frindsbury Ringers, 8s.; Chatham Ringers, 5s.; total (including grant), £17 11s. The list will shortly be closed, and any further contributions to the appeal will be thankfully received and acknowledged by—Yours faithfully,

FRED M. MITCHELL.

FIRST COURSE OF GRANDSIRE IN NATAL.

The first plain course of Grandsire Triples ever rung in Durban, Natal, was rung for morning service on Sunday, Sept. 9th, by the following band: Miss Daisy Clarkson 1, Cyril Howard 2, Thos. Nash 3, Harold Howard 4, F. L. Simpson 5, T. E. Prickett 6, John Prickett 7, Joe Hume 8. This is the first Grandsire Triples by all but the ringers of 6 and 7 and the first in Natal.

The Yorkshire Commemoration Dinner.

INTERESTING SPEECHES AT SHEFFIELD GATHERING.

As briefly reported last week, the second annual commemoration dinner to the memory of the late Jasper Whitfield Snowdon and past officers of the Yorkshire Association was held at Sheffield. The dinner is celebrated in successive years at Leeds, Sheffield and York, and on this occasion the 'Steel City' had the honour of 'fathering' this great gathering in the capacious dining-room of the King's Head Hotel. Visitors were present from 49 different towns, and altogether a most distinguished party of 120 sat down to dinner, the Venerable J. Russell Darbyshire, M.A., Archdeacon of Sheffield, being in the chair. Among the many well-known ringers present were Mr. J. Rowbottom (London, representing the College Youths), Mr. Albert Walker and Mr. James George (Birmingham), Rev. C. C. Marshall (President of the Yorkshire Association), Mr. Frank Willey (Vice-President, Sheffield), Mr. P. J. Johnson (hon. secretary of the Association, Leeds), Mr. J. Cottrill (Halifax), Mr. Chas. Davies (Liverpool), Mr. Smallwood (Derby), Mr. C. D. Potter (Barnsley), and Mr. A. A. Hughes, Mr. Pryce Taylor and Mr. Cyril Johnston, representing the bell founders; in addition to members from Leeds, Elland, Doncaster, York, Horbury, Halifax Grimsby, Wortley, Bradford, and the local districts.

Letters of apology were received from Mr. George Lewis (President of the Committee), the Lord Bishop of Sheffield, the Rev. W. P. Wright, Mr. J. G. Groves (Birmingham), Mr. Jas. T. Raw, Alderman J. S. Pritchett (Birmingham), Alderman Cattell and Mr. J. S. Goldsmith (Woking).

After grace had been sung and an excellent menu served, the evening's entertainment was opened by a pianoforte solo by the Rev. B. F. Sheppard who rendered a masterly performance of one of Mendelssohn's 'Songs without Words.' The reverend gentleman was 'at the piano' for the remainder of the evening, and for the very effective way in which he accompanied the various artists is to be heartily thanked.

After the loyal toast Mr. C. D. Potter (Barnsley) proposed 'The Church and State.' He said that whatever the nation may be he hoped at this moment it stood higher than it had ever done, and that its word was more respected.

With regard to the church, he said that in times past it was always there to preach the gospel, tend the sick and needy; but allowing for all this work, well and truly done, there were other duties which the church had, and for which it was well fitted. He alluded to its part in the arts and sciences.

They might take building, and the church offered the best that ever was done. They could instance manufacturing, chemistry, the smelting of iron which were done at a very early date; all these works were theirs. Coming nearer, they found that as refinement came along the church was still always the patron of music, painting, and all other arts which had made great the name of our country. To-day the Church had taken a new lease of life and from the Archbishop downward, all were working for the good of the State (applause).

Miss Kathleen Jackson (herself a ringer) having rendered a humorous song entitled 'The Ringers.'

The Archdeacon of Sheffield replied. He said the toast which they had drunk, was one which was most suitable for such an occasion when ringers were assembled, for there was no part of the Church which made itself so much felt on State occasions as the belfry. It took various forms. As Vicars, they spent quite a considerable portion of their time reading letters of complaint, regarding the volume of sound produced, from all kinds of people who did not happen to be ringers, and who therefore did not appreciate the result of the ringers' labours. At the same time, he supposed there was no great occasion which arose in that city, but the Church acclaimed it through the medium of the bell ringers. He hoped that association would continue for many centuries. He also trusted that as their associations grew more and more (he understood there were 49 towns represented there that evening), they would be able to bring about a greater appreciation by the public of the peals which were rung in the church towers, and thus cause complaints, on the score of noise to diminish. He understood that the activities of the bell founders at the present time were particularly directed to the improvement of the tone and harmonics of the bells which they cast. On the other side, whether or not the day should ever come, when the Church was disestablished and could no longer be spoken of as 'by law established,' he hoped that the sentiments of perfect loyalty which had always distinguished the Church in times past, would survive the catastrophe, and that public events would always be acclaimed by the loyal efforts of the ringers. In conclusion, the Chairman thanked the gathering for the loyal sentiments expressed both to the Church and Realm.

CHARLES HENRY HATTERSLEY.

The life of the late Mr. Jasper Whitfield Snowdon having been fully recounted by the Rev. C. C. Marshall at Leeds last year, Mr. F. Willey (Sheffield), who proposed the toast of the evening, devoted his speech mainly to the life of the late Mr. Chas. Henry Hattersley, and said: 'In proposing the toast of the Yorkshire Association of Change Ringers and the memory of Jasper Whitfield Snowdon and past officers of the Association, I cannot help but bring before you many other notables of the Exercise, and as our president, the Rev. C. C. Marshall gave you a good outline of the founder of this association and his works, I trust that if I should trespass on anything that has already been said by the reverend gentleman he will not take it as any act of piracy on my part. Passing before my imagination I see many faces and think of the great work those men have done for our association, but none stand more plainly in my memory than Charles Henry Hattersley, who was very accurately described in the 'Ringing World' as the G.O.M. of change ringing. In recalling many interesting details of this eminent gentleman's ringing career, I must briefly introduce to you some other names of ringing celebrities, notably one, Mr. W. Booth, Mr. Hattersley's grandfather, from whom he received his early instruction, and to such effect that at the age of eleven years we find him pricking out Treble Bob. It was, however, many years after this when he found out the internal false changes in this method, a thing unknown in Sheffield in the early days of Mr. W. Booth (who died in 1849), and Mr. W. Hudson (who died in 1851). Mr. Hattersley was born on Sept. 12, 1844, and from his earliest days took a deep interest in the art of change ringing, good striking being one of his greatest fortes, and when this was not forthcoming he often intervened with caustic remarks, which were quite understandable by those who had erred. At a very early stage in his career he used to attend our dear old Cathedral and ring for morning prayers, and as years passed on we find our pioneer together with the indefatigable founder of this, our association, making rapid strides at the very early age of 18 years. He rang his first peal of Stedman Caters at Chesterfield in 1862, and a year later a peal of Bob Royal with the famous Robert Daft, thus linking himself and the present generation with the giants of the art a century ago. It is not for me to recall all the notable performances of this worthy chieftain, either in the art of ringing or in the study of composition. He was always to the fore in vigorous discussion concerning the merits and otherwise of published peals through the ringing Press, and woe betide any man who claimed anything beyond his right. In ringing he stood out for the best, and I have shared with others his severe chastisement, when making errors, missing dodges, or becoming hopelessly lost. Amongst his most notable ringing feats all of which stood out as the best of that period, I may casually instance a 6,006 in five different methods, rung at Rotherham in 1881, and in the following year we find him conducting a 6,595 Stedman Caters of his own composition, and also taking part in a silent peal of Stedman Triples at Burton-on-Trent. In 1887 he rang in a 13,041 Stedman Caters at Cheltenham, and the following year at the same place in a 15,227 Grandsize Caters. However, his outstanding performance was with his bosom friends at Birmingham when he rang a 9,238 of Stedman Cinques. Mr. Hattersley and myself were very close friends, and he often related to me with pride and honour the details of the many occasions upon which he had rung for hours with various companies without a word of correction being spoken. As a composer, he has to his credit a peal of 5,056 Superlative Surprise, containing all the possible positions with the sixth and tenors together, with the second never in sixth's place. He also evolved a new eleven-course set of Stedman Caters which is also applicable to other methods by researching composers. In London Surprise he composed peals with the fourth and sixth the extent in sixth's, and the fifth and sixth the extent in fifth's, these ranking amongst the first ever composed in this precarious method. As a conversationalist and expounder of the art of campanology, he was to all who met and heard him most impressive with his words of wise counsel and sound advice, which could not fail to be of the utmost value for their future guidance. His fund of recollections and anecdotes was most entertaining, and doubtless there are many people present who will recall enjoyable days and evenings spent in his company. And here we will leave him, as a stalwart of our association more fully realising that he had lived a life fully up to the tradition of a famous Admiral of our Fleet when he cried out, 'England expects ———.' Well could he also say with Carlyle, 'What faults you see in me, try to avoid, search your own hearts and you'll be well employed.' I will ask you to drink to the me-

A LOVING CUP.

The Archdeacon then made allusion to the fact that he had noticed in the Cathedral ringing chamber a massive silver jug, presented to the Cathedral company by the ringers of Ashton-under-Lyne about 50 years ago. It struck him that that was a suitable occasion on which this might serve as a loving cup, and accordingly, at his request, the jug was filled with cider, and during the course of the evening, the cup being several times refilled, everyone present was enabled to drink therefrom. This incident will no doubt be of interest to the original donors, should any of them be alive, or their successors.

Then followed a capital course of Stedman Cinques: C. Harrison 1-2, J. Thorpe 3-4, S. Palmer 5-6, S. Briggs 7-8, A. Walker 9-10, W. Chown 11-12. Mr. Albert Walker (Birmingham) is to be thanked for kindly filling the breach at the last moment by ringing 9-10, one of the original band having been compelled to leave Sheffield during the day on business. It is noteworthy that this was the first occasion on which Stedman Cinques on handbells had been performed in Sheffield.

'Kindred Ringing Societies' was proposed by Mr. P. J. Johnson, hon. secretary of the Yorkshire Association, who said they had with them that night representatives who had performed for their various societies some of the greatest feats in change ringing. He noted that one of the previous speakers, referring to the performances of Mr. Chas. H. Hattersley, emphasised the long peal of Stedman Cinques at Birmingham. He (the speaker) was very pleased to see with them that night representatives of the Birmingham Society. They also had with them representatives of the Ancient Society of College Youths. They had a specially warm corner in their hearts for the College Youths, for he believed he was correct in saying that when it was proposed that the Yorkshire Association should be a society, it was suggested that instead of a County Association, they should form a branch of the College Youths in Sheffield. It was owing to that momentous decision not to do so, that the Yorkshire Association became the pioneer of County Associations in the United Kingdom. Whilst they did not regret this, they heartily welcomed the College Youths that night, and he took that opportunity of offering them their very hearty congratulations upon the feat of ringing the 12,000 Stedman Cinques with a tenor of 50 cwt. That stood a chance of becoming a record for all time. Continuing, Mr. Johnson said they also had with them representatives of the Lancashire, Midland Counties and Surrey Associations, and he had great pleasure in extending to them the heartiest welcome. In Mr. Albert Walker they had a worthy successor to the famous masters of Birmingham, who had, he thought, conducted the greatest variety of Stedman Cinques of any man living. They had an extra warm regard for the representative of the College Youths in Mr. J. Rowbottom. There were very few men in that room who could state that they had a direct association with Jasper Whitfield Snowdon, but Mr. Rowbottom was one of that now rapidly diminishing band. They trusted he might be spared to honour them with his presence at those gatherings for many years to come, and thus link them up with the giants of the past. He coupled the names of Mr. Albert Walker and Mr. Rowbottom with the toast.

(To be continued).

BATH & WELLS DIOCESAN ASSOCIATION.

HONORARY MEMBERS' SUBSCRIPTIONS.

A quarterly meeting was held at Dunster on Saturday, Sept. 22nd, members being present from Ilminster, Huntspill, Old Cleeve, Dunster, Minchhead, Taunton, Timberscombe and Bridgwater. The business meeting was held in the Memorial Hall, presided over by the Master (the Rev. C. C. Parker), who was supported by the Rev. W. T. Reeder, R.D., Vicar of Dunster, and Preb. A. C. Harman, Rector of Old Cleeve. Two honorary members were elected, and Congressbury selected for the next meeting to be held in December.

A discussion arose as to whether the local branches could be allowed to spend a portion of the honorary members' subscriptions. It was pointed out that to do this a rule would have to be altered, and a resolution giving three weeks' notice must be sent to the secretary.

Mr. Stacey, the local secretary, promised to do this.

A hearty vote of thanks was accorded the Rev. W. T. Reeder for the hearty welcome he gave to the association, and for the use of the bells; also to the ladies among whom was Mrs. Reeder, who had undertaken the arrangements for tea. After the Vicar had replied tea was partaken of, and a short service was held in the Priory Church.

Ringing took place in various methods during the afternoon and evening.

CLUTTON SOMERSET.—On Thursday, Sept. 20th a quarter-peal of Grandsire Doubles: R. Brimble 1, C. Cook 2, J. Owen (conductor) 3, H. Blacker 4, C. Blacker 5, H. Parsons 6. Rung in 40 minutes. First quarter by all.

CHAGFORD FIRM'S ACTIVITY.

During the last month the peal of six bells at Stoke Damerel, Devonport, have been under restoration, and are now placed in perfect ringing order. The tenor is 17 cwt., and this is one of the finest peals of six in Plymouth. The work has been most efficiently executed by Messrs. W. Aggett and Sons, Bell Works, Chagford.

Orders have also been placed with Messrs. Aggett and Sons, for the restoration of the following peals: Dunsford (peal of six, also new clock gear and chimes), St. Gluvias, Penryn, Cornwall (peal of six), Roborough, N. Devon (peal of six), Gidleigh (peal of five bells, new second bell to be added), new peal of six for Withiel, Bodmin, Cornwall.

NEW PEAL OF SIX FOR ESSEX.

A COMPLETE RESTORATION AT KIRBY-LE-SOKEN.

Kirby-le-Soken, Essex, a very pretty village, near Clacton-on-Sea, is now in possession of a peal of six bells, the dedication of which took place on Monday, Sept. 17th. About two years ago the old five bells were in such a condition as to be unsafe for ringing, the crown of two bells having a large piece broken out, and one other cracked. The framework was also beyond repair and unsafe. Thanks are due to the Vicar and members of the Parochial Council for the raising the necessary funds for a complete restoration, which included recasting the old treble, 2nd and 4th bells, and the addition of a new treble bell to make six, also the re-hanging of the whole peal in a new steel frame for eight.

The bells were dedicated at a special service in the afternoon by the Bishop of Colchester, who preached an appropriate sermon. The service ended with a collection in aid of the restoration fund, generous response being made.

After the service tea was kindly provided for the congregation and ringers on the vicarage lawn by the Vicar (the Rev. A. Gledhill) and the Parochial Council. During the tea the Bishop gave a short address concerning the uses of bells, which was listened to with great interest.

Tea over, the ringers adjourned to the tower, and touches of Double Court, Plain Bob, Kent Treble Bob and Cambridge Surprise were rung, visitors being present from Thorrington, Great Bromley, Great Bentley, Weeley, Thorpe-le-Soken, Frinton-on-Sea, Tendring, Ipswich, Chadwell Heath and Edmonton.

Everyone expressed great satisfaction with the tone and 'go' of the bells, which though rather light, the tenor is only 8½ cwt., are a very musical peal and it is hoped the empty spaces will be filled before many years. The local band of ringers, if given help and instruction in change ringing from the neighbouring towers, will open up a little-heard-of part of Essex—in the campanological sense.

The work of restoration has been carried out by Mr. Alfred Bowell, of Ipswich.

RINGERS AT PAINSWICK FEAST.

ANCIENT CUSTOM CELEBRATED.

On Saturday week, the members of the Bristol United Guilds, to the number of 28 (including four lady ringers), visited Painswick, where the local 'feast' was being held. Leaving Bristol at 7 p.m. three ringers from Bath were picked up at Fishponds, so that the charabanc had its full complement. The route lay through delightful scenery via Stroud, where the first halt was made. Mr. Orchard met the party, and piloted them to the beautiful Parish Church of St. Lawrence with its fine peal of ten bells, where Mr. Scriven awaited them. The bells were raised in peal, and were soon off to the tune of Stedman Caters, followed by Cambridge Royal. When Painswick situated among the hills, was reached, the chief attraction of the 'feast' had already started for the glorious ring of twelve bells was pealing forth, rung by members from Gloucester and Swindon. The party enjoyed high tea at the Institute, where they were joined by the ringers from Gloucester, Swindon, and the local band, making a party of about 60, arrangements having been made by Mr. Albert Wright.

Following tea the Vicar (who presided) gave the ringers a hearty welcome to Painswick feast, and he was followed by Mr. Wright, who showed the company the 'puppy' they had ready for the occasion. The 'puppy' happened to be a china one. Painswick Youths know the story of how the puppy was substituted for the pie!

Messrs. J. Austin and W. A. Cave thanked the Vicar, on behalf of the visitors.

The Bristol party then took over the ringing, which opened with a touch of Stedman Cinques, followed by Caters and Cambridge Royal (Maximus was on the programme, but two of the stalwarts went picking mushrooms) until 8 p.m. Everyone was loud in praise of these famous bells.

The return journey to Bristol, started about 8.30, was by another route, a stop being made at Falfield, presumably to let the engine cool. Bristol was reached just before 11, every one of the party having had a happy time.

The feast continued throughout Sunday, when the 'clipping' of the church took place.

SUNDAY SERVICE TOUCHES.

DEPTFORD, KENT.—At the Church of St. John-the-Evangelist, on Sunday, Sept. 30th, for evening service, a quarter-peal of Grandsire Triples: E. J. Pannett 1, F. S. Bacon 2, H. James 3, W. J. RINGERS' OUTINGS.

ALL SAINTS' SOCIETY, HIGH WYCOMBE.

The annual outing of the members of the Parish Church Beltry took place on Saturday, Sept. 8th, in glorious weather. Leaving Wycombe by the 1.3 train, Reading was reached soon after 2, and a move was made to St. Giles's, where the party were 'snapped' by the 'camera fiend.' Here the Reading ringers and the Vicar of Wycombe were awaiting the party; and the bells were soon set going to various methods. After a few touches, the next item on the programme was a visit to the delightful old-world village of Sonning, which nestles on the banks of the Thames—picturesque and peaceful—a striking contrast to the noise and bustle of the crowd-thronged streets of the biscuit town. Tea was in readiness at the French Horn Hotel. A visit to the church tower proved equally enjoyable, the tone and 'go' of the bells being everything that could be desired. By bus to Reading, and tram to St. Peter's Church, Caversham, was the next order, and though the party (owing to the charms of dear old Sonning proving so attractive) were late, the Caversham ringing colleagues were patiently waiting to welcome them. Here, again, the bells went beautifully, and the touches concluded with a couple of courses of Double Norwich. Owing to lack of time, the Wycombe men were unable to take advantage of a pull at St. Lawrence, which had been kindly offered them.—The visitors wish to thank the incumbents and ringing friends who helped to make the visit so enjoyable.

LAVENHAM RINGERS' OUTING.

On Saturday, Sept. 8th the Lavenham ringers held their annual outing. Travelling by motor-bus, the party, numbering 14, under the 'care' of Mr. S. H. Symonds, set off from what was, once known as the 'Town of Eight-eights,' at 8.8 a.m. for Mildenhall, which was reached after a fine run of 23 miles. Here they were met by Mr. P. Fordham and his 'campanologist' wife; also Mr. F. Salter, of Thetford. Touches of Grandsire Stedman, Bob Major and Superlative were rung Messrs. Saller and Fordham taking part, and Mrs. Fordham ringing the treble to the Bob Major. After inspecting the carving in the church, especially the oak organ loft in Gothic style, the work of Mr. Fordham, a journey was made to Brandon, a village of flint-built cottages and once famous for its 'flint works.' Here Plain Bob, Double Court, Kent and Cambridge Surprise were tapped off. The next stopping-place was Crispe's Temperance Hotel, Thetford, where a splendid dinner was partaken of, at which Mr. Salter was present. Afterwards the handbells were used and then the visitors moved to the church of St. Peter, where they were met by Mr. T. Stagg, and touches of Grandsire, Stedman and Bob Major were rung. Unfortunately the treble rope broke in the touch of Bob Major. A run was then made to Elveden. Here Grandsire and Sledman were rung, also two courses of Bob Major with four of the local men standing in, and Mr. F. Salter as conductor. The bell tower and cloisters, erected by Earl Iveagh in memory of the late Viscountess Iveagh, were then inspected, also a splendid silver and enamel memorial to the late Dhulep Singh and his wife, and two memorial tablets, one in memory of the men who fell in the war, and the other in honour of those who returned; this while the party's carillonneur 'agonised' his fellow travellers with tunes on a peal of tubulars in the old church tower. A visit was then paid to the impressive memorial erected in memory of the fallen men of Elveden Estate. This monument is a magnificent Corinthian column rising to an imposing height of 127 feet. Built chiefly of Weldon stone it is surmounted by a Portland stone urn, 11ft. 6in. in height. The pedestal is 20ft. by 11ft., and the shaft is 88ft. in height and 8ft. in diameter tapering to 7ft. There is an interior circular stair, way of 146 steps lighted by vertical incisions. The column stands at a point where the three parishes—Elveden, Eriswell and Jockingham—merge, so that each of the huge panels of Hopton Wood with the names of the fallen is in the particular parish indicated. The noble structure weighs 500 tons, and took over 18 months to erect.

After refreshments, the 'budding' conductor ordered the party to 'look to' while he tried to 'smash' a 'kodak.' A visit was then made to the Norman tower, Bury St. Edmunds, where several friends were met, here Grandsire and Stedman Caters Kent Royal and Major and Double Norwich were rung, and concluded the programme Lavenham, alias Eight-eights, was reached at 9.10 p.m.—The company wishes, through the 'Ringing World,' to thank the respective incumbents for use of the bells; the friends for having everything in readiness; and Mr. F. Salter, who, on his motor 'bike,' acted as pilot from Mildenhall to Elveden. S. H. S.

A DATE TOUCH.

At Denholme, Yorkshire, on Monday, Sept. 24th, a date touch of 1,923 Kent Treble Bob Major was rung in 1 hr. 8 mins. by G. Denny 1, A. Birstow 2, H. Atkinson 3, A. Smallbones 4, W. Foster 5, J. Rawnsley 6, M. Harrinson 7, V. Birstow (conductor) 8. Longest length by ringers of 1, 2, 3, 4 and 6.

THE NORFOLK GUILD.

The long and sometimes acrid controversy which arose in ringing circles through the formation of the new diocese of St. Edmundsbury and Ipswich, and the consequent desire of ringers in Suffolk to have an association of their own, is now, we hope, at an end, for on Thursday of last week the old Norwich Diocesan Association, which for a time has been carrying on as the Norwich and St. Edmundsbury and Ipswich Diocesan Association, passed resolutions which, in effect, formally adopts as its area of operations the present diocese of Norwich. This termination of the sharp division of opinion which existed in the eastern counties will, we think, give general satisfaction, and is proof of the good sense which has ultimately guided the action of the ringers in Norfolk. They have realised, as the President pointed out, that the Association has to face altered conditions, and by deciding to restrict their title, and ipso facto, their area, they will be promoting that good feeling between the two counties which it is the desire of everyone should exist.

The new official title of the Association, 'The Norfolk Guild of Ringers for the Diocese of Norwich,' is rather lengthy and cumbersome — but it is no more so than that of the new Guild for Suffolk, whose style Norfolk seems to have adopted. Although name is not everything, there is something to be said for adhering as far as possible to an old title, and for that reason we think it rather a pity that the members did not revert to that well-known name, with such fine ringing history behind it, 'The Norwich Diocesan Guild.' We do not mention this point for the sake of criticism, but we like simple names, especially when they stand, as in the case of the old Norwich Diocesan Association, for such fine traditions, and have been synonymous with progress. There will be a feeling of regret among many ringers throughout the country, we are sure, that the old established title is to disappear, for while the diocesan connection is retained in the descriptive words, the Association will become, for short, 'The Norfolk Guild.'

The main factor at the moment, however, is that the old diocese and the new have each their own organisation. Each is strong enough to stand upon its own feet, and the decision of the men of Norfolk to confine their efforts to their own county, will not only remove friction, but will restore the feeling of brotherhood between the ringers of the two counties. The Suffolk men, who formerly owed allegiance to Norwich, will by no means lose their affection for the old Association, and the anticipation that the majority of them will retain membership as non-residents is almost certain to be fulfilled. BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL,

Orders may be placed now for delivery at a future date to suit the convenience of clients.

ALL MATERIALS CHEMICALLY AND MECHANICALLY TESTED.

At Kimpton, Herts, on Thursday, Sept. 27th 120 Bob Doubles was rung, followed by the whole pull and stand 87 times: D. Luck 1, A. Gillings (conductor) 2, T. Cann 3, J. Wells 4, H. Fellows 5, G. Gatward 6; and on the Sunday following, for morning service, 240 Bob Doubles. The bells were half-muffled as a tribute of respect to the late Mr. John Barker, who had served as churchwarden in the parish of Kimpton for 43 years under five successive Vicars, relinquishing office less than two years ago.

**DEDICATION OF A PEAL TABLET.
HERTFORD RINGERS' GATHERING AT
KING'S LANGLEY.**

Although only a brief notice had been given of the unveiling of a tablet in King's Langley Church to commemorate the first peal rung upon the bells by the local company, and also the first peal by every member of the band, over thirty ringers from Tring, Hemel Hempstead, Berkhamsted, Watford and St. Albans, assembled on Saturday week to pay tribute to the perseverance of the King's Langley ringers in the accomplishment of their first peal on January 22nd, 1922.

The dedication was preceded by a short service, conducted by the Vicar, the Rev. J. P. Haythornthwaite, consisting of the Lord's Prayer and versicles, Cantate, lesson and Nunc Dimittis. He then unveiled the tablet written in black, with the following statement:

In the Faith of Jesus Christ, and to the Glory of God, we unveil this tablet, and have placed it in the tower of the Parish Church, as a memorial of the zeal and devotion of those whose names are inscribed thereupon, and for the encouragement of efficiency in the service of God, through the ministry of bell ringing, whereby worshippers may be summoned to God's House of Prayer, and the hearts of the careless may be awakened to their duty to God. After prayer and a hymn, the Vicar proceeded to the aisle, and gave a most homely and practical address from Col. iii. 23, 24, 'And whatsoever ye do, do it heartily as to the Lord, and not unto men: knowing that of the Lord ye shall receive the reward of the inheritance: for ye serve the Lord Christ.' He commenced by saying that it was sometimes thought and sometimes openly stated that bell ringers did not take their work so seriously as other church workers. Whilst venturing the opinion as to the correctness of this idea, he wished them always to remember that there was a very definite standard of work in bell ringing. We are all called upon to use to the fullest extent any talents we have to the advancement of God's kingdom, and bell ringing is a service in which we can use our talents in the service of Christ. This tablet, for the unveiling of which they had assembled that day, was a permanent record to the fact that the King's Langley ringers do take their work in this right spirit. He welcomed the visiting members of the association, and asked them always to take this high view of what was their special way of honouring God. He then briefly touched upon the history of bells, remarking that from extreme antiquity they had been associated with the worship of God. In England, in the days when watches and clocks were unknown, the ringing of the church bells was the only way whereby the villagers could know the time of Divine worship — what a

privilege was this for the bell ringers of those days! Conditions are not so to-day; but nevertheless bell ringers have a very special and splendid part in the performance of public worship.

At the conclusion of the service, an invitation was extended to all to partake of tea in the adjoining hall at which the Vicar presided, supported by Dr. Fisher (churchwarden), Mr. G. W. Cartmel, hon. secretary of the Hertford County Association, Mr. R. S. Cooke, and others.

The Vicar, after giving a most hearty welcome to the assembled company, called upon Mr. R. S. Cooke (deputising for Mr. Walker, who, to the regret of all was detained at business) to give an account of the doings of the local band. This Mr. Cooke did most successfully, mentioning the valued efforts of Mr. G. N. Price, and others, and the first peal attempt on Dr. Fisher's wedding day; how Mr. Fisher had promised a peal board if the peal was successful. Although failure marked the first attempt Mr. Fisher generously allowed his offer to stand. As a token of the appreciation of Dr. Fisher's activities Mr. Cooke, on behalf of the band, presented him with a framed portrait of the team, the frame being made from a portion of the old bell frame.

Dr. Fisher thanked Mr. Cooke and his fellow ringers for their kind gift, and related many reminiscences of the peal and the history of the bells.

Mr. G. W. Cartmel, on behalf of the visitors, thanked the Rev. J. P. Haythornthwaite, and the local company for their invitation to the service and to the tea. He reminded them that enthusiasm in ringing brought success; it was the man with the 'bee in his bonnet' who succeeded in ringing. He congratulated the local men on their past achievements, exhorting them to work together as a band, and not as individuals, emphasising the fact that in every band there were those who would advance more rapidly than others.

The ladies were also thanked for their efforts in connection with the tea.

The gathering, like all ringers' meetings, was most enjoyable — the happy fellowship demonstrating that ringing associations are a real brotherhood of men who offer their meed of praise in the ringing of the church bells for Divine service, and in times of patronal joy.

The president of the association, at the last moment, owing to indifferent health, deemed it prudent not to be present, but was ably represented by his son, Mr. George Dobenheim. G. W. C.

KENSINGTON.—On Sunday evening, Oct. 7th, for harvest festival, at St. Mary Abbots Church, 1,299 Stedman Caters: W. E. Garrard 1, G. W. Frayne 2, H. Dyas 3, C. W. Roberts (conductor) 4, P. L. Miles 5, A. E. Bradlee 6, W. E. Judd 7, A. V. Selby 8, H. G. Miles 9, P. J. Redknapp 10.

BELFRY GOSSIP.

The old peal of six bells at Hollingbourne, Kent, cast by Samuel Knight in 1723, have just been rehung in a strengthened frame, with modern fittings. The work has been done by Mr. A. Bowell to the complete satisfaction of the ringers who have tried them. A peal in seven Minor methods was rung on the bells on Saturday.

The first peal of Cambridge Surprise Major in Hampshire, and by the Winchester Guild was rung at Soberton, Hants, on Oct. 3rd, 1898, and by an unpremeditated coincidence the 25th anniversary was commemorated by a peal in the same method on the same bells on Saturday. Mr. George Williams conducted both.

On Oct. 4th and 5th, 1898, two other peals of Cambridge Surprise were rung—one at Privett and the other at Petersfield—by the same band. The peal at Privett was described by the late Rev. F. S. Robinson in his book, 'Among the bells,' as one of the most perfect ever rung, and it was the more noteworthy from the fact that when the bells were being lowered the 4th rope broke.

The Officers of the Worcestershire Association have rung a peal of Stedman Caters. The band was made up of the Master, the general secretary, two Central Council representatives, three Branch Masters, two branch secretaries, and a committeeman. Thus has been achieved a desire which has been expressed for many years.

Forty years ago next Tuesday a peal of 10,176 Grandsire Major was rung 'in hand' at Birmingham.

Oct. 16th is the anniversary of a peal of 6,030 Grandsire Caters rung at Wakefield.

A peal of Bob Maximus at Southwark (the first by the London County Association) celebrated the 30th anniversary of the wedding of Mr. and Mrs. F. E. Dawe, who were married at St. Bride's, Fleet Street, on Oct. 7th, 1893, when a peal of Stedman Cinques was rung by the College Youths, of which Mr. Dawe was then Master. He was at the time thought to be the first Master of the Society married during his term of office.

It will be noticed that Mr. James George has again 'turned in' the weighty tenor, and he is within a few weeks of his 70th birthday!

In our obituary notice of the late Mr. Wesley, of Nottingham, it was stated that deceased had not rung an 'inside' bell in Double Norwich and the higher methods but it now appears that he rang three or four peals of Double Norwich 'inside.' The error arose owing to his peal records being incomplete, and this correction is made in order that there may be no injustice done to an old and valued member of the Exercise.

Sussex week commences to-morrow (Saturday), 13th, at St. Peter's, Brighton, at 3 o'clock. There will be a social for members of the C.A. and friends at 7.30 p.m. at the King and Queen Marlborough Place—private room—which will be the visitors' headquarters for the eight days.

Samuel Lawrence, of Shifnal, died just a century ago. The inscription on his tombstone is now indecipherable. It is proposed to ring a commemoration peal for him before the year 1923 closes.

The 'Windsor Youths' rang a peal at Denham over a century ago—the present day Youths rang two hours at Warfield for a peal in the same method—Grandsire—last Thursday week.

An interesting peal was rung at Bristol on Saturday, when eight employes of the Great Western Railway Co. 'got home' with a peal of Stedman Triples.

The death occurred on Sept. 30th of Mr. Arthur Edwards, of Boreham, Essex, Master of the South-East District of the Essex Association, a valued officer, and enthusiastic ringer.

The figures of the new method, Rochester Surprise, rung at Leiston last Saturday, will be given next week.

LANCASHIRE ASSOCIATION.

FYLDE BRANCH STAGNATION.

A meeting of the Fylde Branch was held at Lytham Parish Church on Saturday week, and was rather better attended than usual. Touches in the four standard methods were rung, a novel feature in this branch being a touch of Stedman Triples 'drummed' by a lady ringer from St. John's, Lytham. Previous to ringing, the Vicar had a chat with a few ringers present, and hoped that the next time the branch held a meeting at the Parish Church the ringers would be provided with tea.

At the business meeting the secretary read the annual report of the branch, showing that only nineteen members had paid their subscriptions, against thirty-one the year before. No new members had been elected during the year, against ten in the previous year. Ten meetings had been held, and an average attendance of twelve showed an average increase of two.

The appointment of secretary showed there was no competition for the post, and the retiring secretary was asked to continue with the duties for another twelve months. He was thanked for doing so much spadework during the past two years.

A presentation was made to Mr. J. Tipping, of Lytham, as a practical expression of the sympathy of the members in his affliction in having a foot amputated.

The next meeting will be held at Poulton in November.

The Norfolk Guild of Ringers for the Diocese of Norwich.

NORWICH ASSOCIATION'S NEW TITLE.

The last meeting of the Norwich and St. Edmundsbury and Ipswich Diocesan Association, under its old title, was held at the Criterion Restaurant, White Lion Street, Norwich, on Thursday, Oct. 4th. Earlier in the day a committee meeting was held at the Deanery, the President (the Dean of Norwich) presiding. Supporting him were the following members of the committee: The Rev. W. C. Reason, Messrs. G. P. Burton, C. E. Borrett, F. R. Borrett, W. L. Duffield, G. Hawes, F. Knights, C. S. Tuthill, and the general secretary (Mr. A. L. Coleman).

Divine service was held at 12.30 p.m. in the choir of Norwich Cathedral, conducted by the Dean, when Canon F. J. Meyrick, Vicar of St. Peter Mancroft gave a sublime address on Jean Francois Millet's great religious picture, 'The Angelus,' and on the voice of the Angelus bell calling us into the divine presence of God.

Luncheon was subsequently served at the Criterion Restaurant. The president was in the chair, and he was supported by the members present at the committee meeting in the morning, and the Rev. R. Copeman (hon. secretary of the Ely Diocesan Association), the Rev. R. Bukstrode (Vicar of St. John's, Lowestoft) Mr. D. O. Holme, Mr. S. R. Roper, of Croydon, and 36 representatives from Norfolk and Suffolk.

The President, in eloquent terms, proposed the toast of 'The King,' which was loyally honoured.

Mr. G. P. Burton submitting the toast of 'The Bishop and Clergy,' said he was sure they felt satisfied in having the Bishop of the Diocese as their patron, while in the Dean of Norwich they had an admirable president.—The Rev. R. Bukstrode suitably replied.

The toast of 'The Association' was submitted by the Rev. R. Copeman, who heartily hoped it would have a long life, and that the pearl record would still be kept up, even if the area of the association was curtailed.—In reply the President welcomed those present, and said although the association's area was to be curtailed in territorial activities, yet it was never more thoroughly alive than it was to-day. He added that the general secretary had received letters of apology from the following members who were unable to be present: The Bishop of Thetford, the Archdeacon of Norfolk, the Archdeacon of Norwich, Canon F. J. Meyrick, the Rev. A. G. Blyth, Messrs. Denison Hayward, E. E. Diaper, F. O. Lambert, R. J. Goate, G. E. Symonds and J. A. Godfrey.

A SUCCESSFUL YEAR.

Mr. Arthur L. Coleman (general secretary) read the report for the past twelve months, which stated that the position of the association might fairly be regarded as a subject for congratulation. A powerful clerical influence in Suffolk had operated somewhat strongly during the present year which would have the effect of diminishing the number of annual subscribing members. So far, with the exception of two, all their Suffolk clerical honorary members had resigned, but there appeared to be a general desire on the part of their Suffolk ringing members to retain their connection in some form or other with the old association. That particular matter had been carefully considered by the committee, and would be placed before the meeting for the decision of the members. During the past twelve months, 75 new members had been elected (hear, hear), but they had to record the loss of six by death, and 46 by resignation. The lapsed membership was an unknown number until the revision of the register of membership, but they had a margin of 23 to leave the total number at 970 members, as last year. They had to express the deep regret of the association in the loss sustained by the death of the late Mr. James Motts, of St. Mary-le-Tower Society, Ipswich on January 21st last. He was not only an outstanding figure in their own association, but to the whole Exercise. To him was due in no small measure the high prestige the association gained by his glorious self-sacrificing efforts to bring change ringing to its highest pitch of perfection. He was an original member of the association and had taken part in 559 association peals. The memory of such an accomplished brother ringer would long remain cherished by all members of the association. They also regretted the death of another Suffolk pioneer, the late Mr. William Grimes, of Debenham; the Rev. Canon J. Gurnea Hoare, and Messrs. Geo. Blowers, William Havers and Frederick Housego.

Mr. Coleman then presented the financial statement, which showed an expenditure of £286 9s. 9d. The estimated receipts (including available outstanding subscriptions) were £76 9s. 9d., leaving a deficit of £210.

On the motion of Mr. F. R. Willby, seconded by Mr. C. E. Borrett, the report and financial statement were adopted.

On the motion moved by Mr. C. S. Tuthill seconded by Mr. A. L. Coleman the officers were re-appointed en bloc, viz., the President, the Very Rev. the Dean of Norwich; the general secretary and

treasurer, Mr. Arthur L. Coleman; the hon. auditor, Mr. G. P. Burton.

Mr. A. L. Coleman moved, and Mr. Edgar Hunt seconded, the election of Mr. Herbert Mason, as district secretary for Thetford. Messrs. Charles E. Borrett, G. P. Burton and Arthur L. Coleman were elected representatives on the Central Council of Church Bell Ringers.

Two life members (non-resident), three honorary members, and fourteen performing members were elected as follows:—Thomas Wilfred Taffender and W. J. Rogers, life members (non-resident); Arthur Blaxcell, performing member; new members; Rev. C. Hugh Hanning, Rev. F. G. Mitchell and Miss Bertha Tuthill (honorary), Edward Etheridge, Arthur C. Blackburn, Donald E. Saunders, Sydney J. Downes, Cecil H. Downes, Percy W. Goldsmith, Reginald R. Goldsmith, William Walpole, Baden Barber, Redford Knights, Herbert Young, and Miss Jessie Cooke (performing).

THE CHANGE OF TITLE.

The President next rose to speak on the 'thorny question' of the change of title. Some change, he declared, was necessary for the last four or five years, since the formation of the Diocese of St. Edmundsbury and Ipswich, the matter had been in debate. The association had to face altered conditions. He was not responsible for the decision taken with regard to the name at Pulham last June, and wished to disassociate himself from it. It was decided there that the title should be the Norfolk and Suffolk Association. It seemed to him they were arrogating to themselves what was unjust. They were not in a position to call themselves by that title. At the committee meeting held that morning it was decided by a bare majority that the title to be recommended for adoption should be 'The Norfolk Guild of Ringers, for the Diocese of Norwich.' It was felt that it would then be a very easy matter to add the word Suffolk if those who were strayed and lost were to come back.

Mr. G. P. Burton said they had got to be careful, for they had the eyes of all the ringers in England on them. It was thought that they were too big and too arrogant. He supported the proposition that they should fall back on a more modest title.

Mr. C. E. Borrett doubted the wisdom of the present step. His one single thought in the controversy had been to do the best for the ringers themselves in both counties. Any idea of arrogance on the part of Norfolk was an entirely mistaken one.

Mr. A. L. Coleman said the title recommended for adoption by the committee would greatly ease the present complications, and make it possible for Suffolk members to become non-resident life members.

Mr. F. R. Borrett proposed, and Mr. R. N. Copeman seconded, that the title be 'The Norfolk and Suffolk Association.'

Mr. G. P. Burton proposed, and Mr. W. L. Duffield seconded, that the title be 'The Norfolk Guild of Ringers for the Diocese of Norwich.'

The President, on putting the motions before the meeting, declared the new title, 'The Norfolk Guild of Ringers for the Diocese of Norwich,' agreed to by 18 votes to 7.

A motion was moved by Mr. B. S. Thompson, and seconded by Mr. G. P. Burton, 'That Suffolk members who, having paid their annual subscriptions for 1923, pay an additional subscription of 2s. for 1924: small become, ipso facto, life members (non-resident), but such members shall not be entitled to a copy of the annual Report of the Guild except on paying a fee of one shilling.'—The motion on being put to the meeting was carried unanimously.

The Rev. W. C. Pearson proposed a vote of thanks to Canon F. J. Meyrick for his address at the Cathedral and also for the use of the ring of twelve bells of St. Peter Mancroft; also to the Vicar of St. John de Sepulchre and the Rector of St. Michael Coslany for the use of their bells.

Mr. D. O. Holme proposed, and Mr. C. E. Borrett seconded, a vote of thanks to the Dean of Norwich for presiding over the meeting; and at the close of the meeting Mr. Arthur L. Coleman was heartily thanked for his great services as general secretary and treasurer.

The meeting then closed, and ringing was resumed at the various bellries. Touches of Steadman Triples, Caters and Cinques Double, Norwich Court Bob Major and Royal, Treble Bob Major and Royal and Plain Bob Major were rung during the day. With visitors and late comers the total number present at the annual meeting was between 50 and 60.

A PRACTICAL SUGGESTION.

In proposing the toast of 'The Bell Founders,' the Rev. C. C. Marshall gave an interesting survey of the history of the ancient craft of bell founding from the time of John of York down to the present-day renowned firms of Messrs. Mears and Stainbank, Taylor and Co., and Gillett and Johnston, representatives of each of which were present. He dwelt upon the high level of workmanship which had always been attained and maintained, and laid particular stress on the honour and esteem in which the craft had always been held both by those engaged in it, and by those who use the bells. He humorously referred to the only instance he knew of a dishonourable bell founder, quoting the old legend, which, however, was now to many present, of the founder who having received silver to be mixed with his molten metal in order to sweeten the tone of a certain bell, kept the silver, replacing it by tin. When the day came for the ringing of the bell, in spite of every effort scarcely any sound could be produced, and, in desperation, seizing the rope, the founder endeavoured to bring forth sound himself. As it happened, under the strain of his energy, the clapper fell out on to his head and killed him (laughter). After referring to the many beautiful peals at the disposal of the Yorkshire Association, he said that he failed to see where much improvement could be made in the actual making of the bells, but he did think something could be done in the direction of reducing the volume of sound in the immediate vicinity of a tower, suggesting that if in future towers no openings were made below the level of the bells, possibly this feature would be remedied to the benefit of all concerned, and that in this way complaints might be minimized.

Mr. A. A. Hughes, Mr. C. Johnston and Mr. Pryce Taylor responded to this toast, the last named remarking that he once had the pleasure of meeting Mr. C. H. Hattersley, who proceeded to enlighten him on ringing matters and tell him various tales, but he was afraid he was too much taken up in admiring Mr. Hattersley's silk hat and listening to his racy anecdotes to gain the full benefit of the instruction, being then at a very early stage in his teens (loud laughter).

'FRIENDS IN A GOOD CAUSE.'

Mr. S. F. Palmer (hon. secretary of the Sheffield Committee) proposed 'The Visitors,' and remarked that it gave the committee and himself the greatest pleasure in seeing such a large gathering. On behalf of that committee, he offered them the heartiest of welcomes to the City of Sheffield, and to that gathering in particular. They were proud of the large number that had responded to the invitation, and sincerely trusted that all would carry away many pleasant recollections of their visit. As they knew, the first dinner was inaugurated at Leeds in September of last year when there were 117 present, and he was pleased to say that they have just topped that number with a total of 120 diners that night. As they were also aware, the next dinner was to take place at York and he would just like to give a word of encouragement to their York friends present, to go one better and beat the record. On looking round the room he observed that the majority did not, strictly speaking, come within the category of 'visitors,' for most of them were members of the parent society, the Yorkshire Association. When members of one association frequently met in various places and with one object in mind—the furtherance of their noble art, and the good fellowship associated with it—they could not be strictly called visitors, but friends in a good cause; therefore, the toast did not apply to everyone there that night. In addition to the numerous friends, however, they had a fair number of real visitors who had honoured them with their presence, gentlemen, who, although not actual participants in the art of change ringing, were sympathetic and interested in them as bell ringers, and in their work for the Church. First and foremost they had the honour of receiving for the first time their noble chairman, the Archdeacon of Sheffield. He had only been with them in Sheffield for a few months, but he (the speaker) wanted them all to know that before the Archdeacon preached his first sermon and before he conducted his first service, he ascended the tower and made the acquaintance of his ringers (cheers). Since then he had still found time to pay them an occasional visit, and to bring other clergymen with him (applause).

In replying to the toast Mr. J. F. Pearce, one of the wardens of the Cathedral, spoke feelingly of the good relationship which existed between the Church authorities and the ringers of the Cathedral, and said how pleased he was to have the honour of being amongst such a distinguished gathering.

Mr. C. Harrison briefly proposed the vote of thanks to the chairman, and expressed the hope that the impressions he would have gained by that gathering, would be similar to the Bishop's, who said at a recent meeting that 'the fraternity which existed

among ringers was a wonderful thing, and he always felt a distinct happiness whenever he was fortunate enough to be with them.'

The Archdeacon briefly responded, and trusted he would have the pleasure of coming amongst them more as time went on.

The company were much indebted to the following ladies and gentlemen who rendered very acceptable vocal items during the course of the evening, which did much to enhance the enjoyment of the proceedings: Miss K. Jackson, Miss E. Hague, Mr. R. Dixon and Mr. H. Crookes. With the singing of 'Auld Lang Syne' a memorable evening was brought to a close, and if the comments of the visitors may be taken as a criterion, Sheffield may pride itself on having scored a noteworthy success in her first venture at housing such an important gathering.

At the close the company parted, some to midnight trains and long journeys, others to their homes, permanent or temporary in Sheffield, a fair proportion of visitors electing to stay overnight and participate in ringing here on the Sunday morning.

The toast of 'Kindred Ringing Societies' having been cordially honoured,

Mr. Albert Walker, who first replied, said he was proud to stand there as Ringing Master of St. Martin's, Birmingham, and to follow such eminent men as his predecessors had been. These were very difficult men to follow, for they set a very high standard of ringing, not only in Birmingham, but throughout the country. The foundations of composition and conducting were due to these giants of the past. Continuing, he said he had listened to the peal of Stedman Cinques rung at Southwark last year by the College Youths, and in his opinion it was a remarkable record, as it was impossible to ignore the weight of metal handled.

Mr. J. Rowbottom said that it gave him the greatest pleasure to represent the College Youths at that gathering, and he heartily thanked Mr. P. J. Johnson for his very kind references to his society. He did not think that the present generation of London ringers personally knew Jasper Whitfield Snowdon, and he (Mr. Rowbottom) was probably the only man in London who had such an intimate association with him, having rung two peals with Mr. Snowdon many years ago. He spoke in the warmest terms of his own personal association with the late Mr. Chas. Henry Hattersley, whom he said he had to thank both for his early instruction in his own business and also his knowledge of ringing. He also referred to the fact that the preceding Saturday was the birthday of Mr. Mat. Wood, of London—an occasion worth mentioning at such a gathering. The College Youths sent their warmest wishes for the success of that function.

The course of Stedman Cinques rung 'in hand' at the dinner was not the first in Sheffield, as mentioned in our last issue, and in this connection the following old records are interesting:—

On February 11th, 1839, at Sheffield, a new peal of handbells (No. 19, tenor C) was opened with a course of Stedman Cinques by the following Sheffield youths: 1—2, J. Sandford, aged 16; 3—4, J. Taylor, aged 17; 5—6, J. Lomas, aged 16; 7—8, T. Whaley, aged 19; 9—10, C. Andrews, aged 16; 11—12, W. Booth, aged 18.

Also on May 21st, 1811, the following Sheffield Independent St. Peter's Youths rang a course of Grandsire Cinques and a course of Stedman Cinques on the top of Staveley Church tower to celebrate the coming-of-age of the 5th Duke of Devonshire: 1—2, Williams Hudson; 3—4, William Booth; 5—6, William Rowin; 7—8, John Woodhead; 9—10, Henry Grayson; 11—12, George Hudson.

Among the distinguished ringers at the dinner was Mr. George Bolland, of Tong, the senior vice-president of the Yorkshire Association, who often rang peals with the late Jasper Snowdon and C. H. Hattersley.

THE RECORD PEAL OF CAMBRIDGE.

DEDICATION OF PEAL TABLET AT STONEY STANTON.

On Saturday week the peal tablet erected in Stoney Stanton Church to commemorate the long length of Cambridge Major was dedicated by the Rector (the Rev. A. E. D. Disney), in the presence of a large number of ringers and friends. The tablet consists of a centre panel of old mahogany, surrounded by a frame of oak surmounted by an oak cornice, highly French polished with letters of gold, the tablet is a beautiful piece of work. It was designed and made by Mr. Wm. Clarke, a ringer at St. Saviour's Leicester, who is to be congratulated on the result.

After the ceremony a farewell peal was rung for the Rector, who is retiring through ill-health, after 38 years in the parish.

It is interesting to record that he is the third Rector of Stoney Stanton in 100 years.

The event coincided with the birthday of Mr. Harry Briggs, 'father' of the Stoney Stanton ringers, who has been a ringer at the church for the long period of 57 years.

THE BELLS OF HASLEMERE.

A NEW PEAL OF EIGHT.

Surrey has gained a delightful little peal of eight by the recasting of the bells of Haslemere. This little town situated among the fir-clad hills, not far from the Hampshire border, has a church very picturesquely situated. In the squat tower there was formerly a ring of six, cast in 1882, which were afterwards augmented to eight. Previously there had been a peal of five cast by Richard Phelps in 1710, four of them, however, having been subsequently recast at various dates.

The new peal owes its inception to Major J. H. B. Hesse, who resides at Haslemere, and whose great-uncle, the Rev. James Legrew Hesse, was formerly Rector of Haslemere for thirty-six years. Major Hesse's enthusiasm for good bells led him to move actively in raising funds for a finer peal than his parish church possessed, and the new peal, the product of the Loughborough Foundry, is the outcome. The weight of the bells has been increased; they have been tuned on the five-toned principle, and hung in two tiers, with such delicacy of adjustment that they can be rung with the proverbial 'piece of cotton.'

The dedication service took place on Wednesday of last week when, despite a drenching downpour of rain, there was a large congregation to witness the ceremony performed by the Rector (the Rev. W. Wragge). The other clergy present were the Rev. Canon F. G. Coleridge (President of the Central Council), the Rev. C. W. O. Jenkyn (Master of the Oxford Diocesan Guild), the Rev. E. J. Newill (Rural Dean of Godalming), and the Rev. G. C. B. D'Arcy (Haslemere). Ringers were present, in addition to the local band, from Guildford, Godalming, Portsmouth, North Stoneham, Woking and Swindon, including Mr. G. Williams (Master of the Winchester Diocesan Guild), and Mr. J. H. Shepherd. Mr. Pryce Taylor represented the founders.

The service was short, and after the dedicatory prayers, the following local men rang the opening rounds: J. H. B. Hesse 1, T. Mack 2, W. Millard 3, F. White 4, W. Eldridge 5, J. Goodchild 6, F. Bowden 7, R. Hayes 8.

Canon Coleridge preached the sermon, his text being taken from Psalm xl 3, 'He hath put a new song in my mouth,' and from these words and the context—'He brought me up out of an horrible pit, out of the miry clay, and set my feet upon a rock and established my goings, and He hath put a new song in my mouth, even praise unto our God'—he gave an eloquent as well as an instructive and impressive address, showing how closely the casting and setting up of a peal of bells followed the Psalmist's words and applying the lessons of the bells to the conduct of Christian life.

At the conclusion of the service, a touch of 504 Stedman Triples was rung by J. H. B. Hesse 1, G. Williams 2, Canon Coleridge 3, A. H. Pulling (conductor) 4, J. S. Goldsmith 5, G. Steere 6, Rev. C. W. O. Jenkyn 7, W. R. Melville 8. Subsequently touches of Grandsire, Double Norwich, Treble Bob Superlative and Cambridge Surprise were rung, and the beauty of the bells was much admired.

Major and Mrs. Hesse very kindly entertained the local and visiting ringers to tea at their beautiful home, 'The Lodge.'

It is interesting to note that it was at Haslemere that Alfred Tennyson lived. It was in the Parish Church that he worshipped, and Haslemere bells of old probably prompted some of those beautiful lines which are familiar to all lovers of poetry.

Messrs. Taylor and Co. have recast and rebung the old peal of eight bells, to which 7 cwt. of new metal has been added thus increasing the weight of the whole peal, the new tenor being 13 cwt. 6 lb. in 'F' sharp.

The old inscriptions have been reproduced on the treble, second and tenor bells:

Treble.—'Ring out the darkness of the land' with the initials 'E.C.' (this bell originally was the gift of Mrs. Collingwood, of Haslemere).

Second.—'Ring in the Christ that is to be' with the initials 'E' and 'G.A.H.' (this bell was the gift originally of the late Rector and his wife, Mr. and Mrs. Aitken).

The other bells have the date and founder's name only.

The Tenor.—'Peace and good neighbourhood' with the present Rector's name and his churchwardens, and underneath a crest with the motto, 'Solo Deo Sahu.'

In this bell there are a few pounds of metal that came off with the canons from the ninth bell at Wrington, also off the tenor bell at Rowberow, in Somerset, two places that the Hesse family have been closely connected with.

The bells are in two tiers, 1, 2, 3 up, in a side frame, the rest below in an 'H' frame. The whole peal are now about 9 feet lower in the tower than originally; 1, 4, 5, 8, swinging east and west, 2, 3, 6, 7, north and south. They are mounted on steel girders running north, south, east and west, so as to bind all walls together, and each bell pit is very efficiently cross-braced. All the bells are mounted on ball bearings, as are also the rollers, and all are fitted with grease cups. In addition grease cups are fitted to the crown staple pins of the clappers.

The whole job is carried out on efficient engineering lines, and gives

thorough satisfaction to those concerned. The bells themselves are in perfect tune on the five-tone principle, and are much admired by all, the tone being very full for their weight. Much more could be said on this point, but the bells are in the tower to speak for themselves.

MIDLAND COUNTIES ASSOCIATION. IN THE DERBYSHIRE PEAK.

Bakewell, a very ancient town in North Derbyshire, is beautifully situated on the west bank of the River Wye, and an ideal place for the tourist. The parish church is peculiar in shape, being one of the very few that possess an octagonal tower. The nave is of Saxon architecture, but some of the other parts are of later date, the whole having been restored about 1846. A ring of eight bells by Mears and Stainbank hang in the tower, and make merry music, especially to the ear of ringers. Here on Saturday, Sept. 29th, the Midland Counties Association held the second quarterly meeting of the year. Ringers came from Derby, Leicester, Loughborough, Burton, Chesterfield, Bolsover, while among the visitors was espied 'the Fat Chap' of Manchester, with quite a contingent, chief among whom was friend Washbrook, with Councillor Amos Trippier (to give the party tone!).

In all about thirty-five turned up, and made the meeting a success. Methods from Grand sire to London Surprise were rung during the afternoon and evening, and as on this occasion the usual official tea was dispensed with, every one had his or her fill, nor went any away disappointed for want of a pull.

The business meetings—committee and general—were held in the Church Institute and were of an informal character. A grant of £5 was made to St. Peter's, Belgrave, Leicester bell fund, the ring of eight being at the moment at the Loughborough foundry, for rehanging in iron frame, while a grant to Castle Donington was held in abeyance.

Eight ringing and ten honorary members were duly elected, among them being the Vicar of Bakewell, to whom a hearty vote of thanks was passed for the use of the bells.

A similar vote to the president (Ald. R. B. Chambers) for his presence, was carried, on the proposition of the hon. secretary (Mr. A. C. Wright), seconded by Mr. Pryce Taylor.

When ringing ceased many found their way to the many 'dispensaries,' where in these modern days provision is made for man and motor to talk over old times as compared with the new, and a suggestion was made that may bear fruit in the near future, that it would be a good thing at the annual meetings to substitute a dinner for the tea, thus giving a much greater opportunity for ringing, and for social intercourse. We shall see! W. W.

PROGRESS IN MINOR.

No branch of ringing has advanced faster in recent years than six-bell practice. Limited in the extent of changes that are possible, the scope of Minor ringing has been rapidly widened in a variety of directions, first by the publication of the Collection of Methods by the Central Council, then by the ingenious arrangement by which several methods are introduced into one true seven hundred and twenty. Old-time six-bell ringers used to find numerous methods with which to exercise their art, but many of these methods were of very poor quality from a constructional point of view. The Central Council's publication, however, changed all this and gave ringers a choice which provides a wide range of regular and really good Minor methods.

Until recent years Minor ringers who wanted a peal in more than seven methods had perforce to ring a round touch in each of a number, with the result that some changes might be repeated, say fourteen times—where a peal in fourteen 360's was rung—while other changes might not appear at all. This has been rendered avoidable by scientific splicing, so that it is possible to put something like thirty methods into a peal and still have each possible change only seven times. Moreover, these peals are produced without the tenors coming up together behind in an inverted coursing order, a position which is the *bête noir* of the majority of ringers. In many of the methods practised in the past the tenors were as often brought up the wrong way as not, but the progressive Minor ringer of to-day has provided for him considerable choice of methods which escape this limitation.

Now we have reached yet another stage in the advancement of Minor composition. Hitherto one of the drawbacks to ringing peals of Cambridge Surprise Minor has been the fact that seven differently composed 720's had not been obtained without sometimes having the tenors the wrong way. The Rev. E. Bankes James has constructed an ingenious 5040 by producing seven distinct 720's, which keep the tenors the right way together when behind. He has done it by a plan which discards the convention of joining them together at the rounds change. An examination of the figures will show that the extents start variously from 234, 423 and 342, but each seven hundred and twenty is true in itself. We do not know what some of the 'purists' will say to this plan, although we do not see how they can quibble with it when the peal begins and ends with rounds and contains seven true extents. At any rate it provides another instance of the genius of the Master of Seafield, and it is not unlikely we may see the plan applied to other Minor methods in the future.

The bells were kept constantly going from 3.30 till 9 o'clock, the methods including Double Norwich Stedman, Kent Oxford and Bob Major, Grandsire and Surprise Methods.

The next meeting will be held at St. Thomas', Helmshore, on a date to be arranged, probably the 3rd or 17th November.

ARMISTICE DAY.

To the Editor.

Sir,—As Armistice Day falls on Sunday this year, will it be proper to ring with muffled bells as a mark of respect to the fallen; or with open bells, or should they be rung according to the Vicar's wish?

Perhaps a little space in your correspondence columns to air the matter might give some ideas about it, and at the same time help those in doubt.—Yours truly,

Charing, Kent.

CHAS. F. GOOD.

DEATH OF A PROMINENT ESSEX RINGER.

MR. ARTHUR EDWARDS, DISTRICT RINGING MASTER.

A gloom has been cast over ringing circles in South-East Essex by the unexpected death of Mr. Arthur Edwards, of Boreham, Master of the S.E. District of the County Association. The sad event occurred on Sunday Sept. 30th, at the Chelmsford Isolation Hospital, from acute septicaemia followed by nephritis. The deceased, who was 53 years of age, had been ill for about a fortnight, but was taken suddenly worse on the Saturday, and died on Sunday. He was head gardener, and had been employed at Boreham Manor for about 17 years by the late Canon Hulton. He took a keen and active part in the affairs of the parish, where he will be greatly missed. He had been hon. secretary of the local Bowling Club since its formation, and had always taken an active interest in the Cottage Gardeners' Association. He was also associated with the Chelmsford Gardeners' Association. He was a sidesman at the church and a member of the Parochial Church Council. He leaves a widow and family of six sons and three daughters, with whom much sympathy will be felt.

His connection with ringing extended over a great many years, and he was a great enthusiast in the art. He had rung a considerable number of peals, including one by a band of 'Arthurs,' but he was never so happy as when instructing a young band or getting them through their first touch in a new method. Such men are the salt of the Exercise, and the death of Mr. Edwards leaves a gap which it will be difficult to fill.

The funeral took place at Boreham Churchyard, amid many signs of esteem and regret. The service was conducted by the Rev. A. E. Hall (Vicar), assisted by the Rev. G. Colley, of Chelmsford. The cortege was led from the deceased's residence by the members of the local band and other ringers, the bearers also being ringing friends. The chief mourners were: The widow; Harold Hirzel, Leonard, Stanley, and Horace, sons; Mrs. A. Bicknell (Chelmsford), the Misses Bernice and Margery Edwards, daughters; Mrs. A. Edwards (Writtle), mother; Messrs. Percy, Alfred, Albert and Fred Edwards, brothers; Mrs. A. Pettitt (Dunstable), sister; Mesdames F. A. and E. Edwards, sisters-in-law; Mrs. H. Edwards, daughter-in-law; R. and C. Edwards, nephews; Mr. G. Sach, friend of the family. Others present at the graveside included Miss Hulton, Boreham Manor; the Rev. A. E. Negus, Great Leighs; Mr. C. H. Howard, J.P., Master of the Essex Association of Change Ringers; Messrs A. Head, F. Radley, F. W. Edwards, and T. B. Fairhead, of the Writtle company of ringers; W. Allen W. Allison, and Mrs. Allison, B. Timson, C. Gentry, and J. Wood (St. Mary's Guild of Ringers); J. Walden (Coggeshall), J. E. Page, H. W. Smith, D. Emery, W. E. Wisbey (Chelmsford), Mrs. Everard, Miss Gibbons, and many others. Among those who sent wreaths were ringers at Boreham, Writtle, and the St. Mary's Guild.

Two short touches of Kent Treble Bob and Grandsire Triples were rung with the bells half-muffled by the following: Messrs. C. H. Howard, P. Timson, A. Church, S. Letch, A. Joslin, R. C. W. R., and L. H. Thrift, J. Walden and J. Wood.

In the evening, at Writtle Church, where the deceased learned to ring under the tuition of Mr. W. Lincoln, a quarter-peal of Stedman Triples was rung with the bells half-muffled: T. Lincoln 1, T. W. Edwards 2, H. W. Kirton 3, F. G. Radley 3, H. Head 4, A. Head 5, W. Lincoln (conductor) 7, W. E. Emery 8, and at the Cathedral, Chelmsford, a quarter-peal of Grandsire Triples: F. Talworthy 1, C. Gentry 2, A. Saltmarsh 3, A. Head 4, J. Clark 5, C. Pease 6, P. Timson (conductor) 7, J. Wood 8.

OXFORD DIOCESAN GUILD.

WITNEY AND WOODSTOCK DEANERIES BRANCH.

The annual meeting of this branch was held on Saturday, October 6th, at Ducklington. Bob Minor was rung on the bells before service, which was held in the Parish Church, the preacher being the Rev. C. Tristram Rector of Ducklington. There was not a large attendance, but the following towers were represented: Witney, Ducklington, Eynsham, Bampton, Yarnton, Kidlington and Stanton Harcourt. The Rev. C. W. O. Jenkyn (Master of the Guild) was present, also Mr. J. H. Shepherd, of Swindon and Mr. F. M. Green, churchwarden, of Witney. Tea was served in the Village Hall, and was followed by the business meeting. — Mr. J. Monk (secretary) presented his report and the balance sheet, which showed an appreciable balance in hand.—Both were considered quite satisfactory.

The Rev. A. C. R. Freeborn was re-elected chairman and Mr. J. Monk secretary and treasurer, with expressions of gratitude for the way they had filled these offices in the past.

Messrs. N. Spindlow, G. A. King and G. Rose were elected branch representatives on the Guild Committee, and Woodstock was selected as the place for the spring meeting.

The Master spoke on the matter of Guild finance and on the importance of the attendance of members at committee meetings.

Votes of thanks were passed to the preacher for the service and his sermon, and to Mr. Steptoe for his kind services as organist.

This concluded the business, and the company returned to the tower to ring Grandsire and Stedman Doubles.

CAMBRIDGE SURPRISE MINOR.

A PEAL WITH TENORS ALWAYS THE RIGHT WAY.

Peals of Cambridge Surprise Minor are showing an increase, but one of the factors that has acted against a more general practice is the fact that seven different 720's could not be obtained without sometimes having the tenors the wrong way.

The following 5,040 has been put together by the Rev. E. Bankes James on a plan that was indicated in 'The Ringing World' some time ago. There are seven distinct 720's, but they do not come round at the end. The first seven hundred starts from the row 23456, and finishes at 43265 (the handstroke of 34256). The advantage of the arrangement is that it gives seven different callings for Cambridge Surprise Minor, and the tenors always come up the right way. This peal was rung at Grendon on Oct. 6th.

A peal in this method was rung for the first time at Leiston, Suffolk, on Saturday, Oct. 6th, and this enterprising and accomplished band have thus added yet another to the numerous Surprise methods which they have rung.

The divisions are placed at the conventional ends of each 720 as a guide to the conductor.

The two new trebles which have been added to the ring at Canterbury Cathedral, as a memorial to the members of the Kent County Association who fell in the war, were dedicated on Saturday, and one more is thus added to the peals of twelve.

Another new method has been added to the Surprise list, the first peal of Rutland Surprise Major having been rung at Holsover.

Very few men have conducted peals from Doubles to Maximus, but by calling a peal of Stedman Cinques at Wolverhampton on Saturday Mr. Robert Matthews has completed the circuit.

An interesting peal is recorded in our columns this week, eight members of the Metropolitan Police Force having rung a peal of Bob Major at St. Giles-in-the-Fields. It was a farewell to P.S. Jas. Bennett, of E. Division, after 25 years' service.

A peal of Minor, the first on the bells was rung at Croscombe, Somerset, on Wednesday of last week. The total distance travelled by the band was 154 miles, and some, at least, could not have arrived home before 12.30 a.m. on a dark, stormy night. There's enthusiasm for you!

In connection with the double-handed peal of Oxford Treble Bob Royal rung at Ipswich last week, it is interesting to recall that the first 'in hand' was rung at Sheffield on Dec. 3rd 1811, by a band who about that time rang Major, Royal and Maximus on handbells.

One of the earliest peals of Treble Ten was rung at St. Leonard's, Shoreditch, on Oct. 19th 1766. This was the first 6,000 in the method, and was scored by the College Youths.

The only peal of Grandsire Cinques which John Holt rang with the Union Scholars was at St. Bride's, London, on Oct. 20th, 1751.

The Cambridge Youths rang a peal of Grandsire Triples at Great St. Mary's on December 22nd, 1734.

The first recorded peal of Stedman Triples, albeit a rival company threw doubts upon its truth, was rung at St. Peter Mancroft, Norwich, on Oct. 25th, 1751.

Oct. 25th is also the anniversary of the first peal of Stedman Caters rung out of London, viz. 5,292 at Birmingham in the year 1790.

A peal of 15,124 Bob Major was rung in 8 hr. 46 mins., at St. Paul's, Oldham, on Oct. 24th, 1807.

We hear an attempt is to be made shortly in a Midland county for a peal of Stedman Triples by eight members of the Ladies' Guild. The best of luck to them.

DEVON GUILD

REV. E. V. COX AT EXMOUTH.

The quarterly meeting of the Exeter and District Branch of the Guild of Devonshire Ringers was held at Littleham (Exmouth), on Saturday, Sept. 29th, when about 70 members were present from St. Sidwell's, St. David's, St. Thomas', and Heavitree (Exeter), Littleham, Withycombe, Raleigh, Topsham, Clyst St. George, Sowton, Otterton, Christow, Thorverton, Newton St. Cyras, together with the Paignton band, who were on their annual outing.

A service was held in Littleham Church, the Vicar (the Rev. E. V. Cox) and the Rev. J. E. B. Ball officiating. The Vicar preached, and dwelt on the necessity for realisation of the duties of the ringers' office, and the offering of the best work, especially for Sunday services.

Tea, kindly provided by Littleham friends, including the ringers, was held in the Church hut, where Mesdames Cox, Bell and Dobbis, and Miss Ball and the ringers' wives, attended to the wants of the visitors.

Mr. E. Shepherd presided at the meeting which followed.

Mr. W. J. Southwood (the hon. secretary) spoke of the pleasure it gave them to have the Rev. E. V. Cox in the district, and congratulated him on his appointment to the living at Exmouth. Before coming there he was the hon. secretary of the North-East branch, and did splendid work in that district in encouraging campanology.—Rev. E. V. Cox, in response, said he was sorry to leave the North-East branch, and he congratulated the Exeter branch on its enthusiasm, as shown by the splendid attendance that day.

It was decided to hold the annual meeting at St. Sidwell's (Exeter), on Saturday, December 1st.

Mr. E. Shepherd moved a hearty vote of thanks to the Vicar for the beautiful service, also to the organist and vergers; thanks were also extended to the Rev. J. E. B. and Mrs. Ball, and to ladies and ringers' wives who had provided tea.—The Rev. J. E. B. Ball, in reply, expressed great pleasure at seeing the ringers at Littleham, and said they were heartily welcome. They had a splendid body of workers in the ladies, and the ringers, who had worked whole-heartily to make the gathering a success.

Some excellent touches of Stedman and Grandsire were rung on the bells of Littleham and Withycombe Raleigh.

LLANDAFF AND MONMOUTH DIOCESAN ASSOCIATION SUCCESSFUL MEETING AT FIVE-BELL TOWER.

There was an excellent muster on Saturday last at St. Andrew's, Dinas Powis, on the occasion of the quarterly meeting of the Llandaff and Monmouth Diocesan Guild, although the bells are a ring of five, and the 'go' anything but good. Undoubtedly it was the enthusiasm of Mr. Cram, the leader of the ringers, who at a previous meeting invited the association to hold a meeting there that brought the large gathering together, and it was most gratifying to see what a response was made to the invitation by members from even the extreme end of the diocese. The bells were started soon after three o'clock, and the first 120 included the two most energetic lady ringers of the association, Mrs. Jenkin, of St. Athan, and Miss Pacey, of Rumney. Service was conducted by the Rector (the Rev. Edward Davies), and was followed by a sumptuous tea in the Parish Hall, very kindly provided and arranged by Mr. Cram, who had left nothing to chance, and to whom, at the conclusion, the heartiest thanks of the visitors was accorded.

The business meeting followed, presided over by the Rector, including instructors' reports, reports on restorations, applications for instruction, notices of motion for the annual meeting, and new members, including one hon. member, Miss Alexander of St. Andrew's, a lady who takes great interest in the local ringers.

The next meeting is the annual, to be held at All Saints', Newport, Mon., on Boxing Day, December 26th.

It was arranged to hold the next Glamorgan quarterly meeting at Llanishen: failing there, Llantwit Major.

At the conclusion of the meeting a most enjoyable hour was spent with the locals. A more pleasant, better attended, and more successful meeting could not possibly have been held, even if the attraction had been a ring of twelve bells.

NEW PEAL OF TEN AT DERBY.

ST. ANDREW'S BELLS RESTORED AND AUGMENTED.

The dedication service in connection with the reopening of the peal of bells at St. Andrew's Church, Derby, which have been augmented to ten by the addition of two new trebles, the gift of Mr. C. E. Hart and family, and Mr. A. H. Ward and family took place on Sunday morning, Sept. 30th, and was performed by the Vicar (the Rev. J. T. Mumford, M.A.), those present including the Mayor of Derby (Ald. Oswald Ling), Ald. R. B. Chambers, President of the Midland Counties Association, and other members of the Corporation, who, together with the churchwardens and a few members of the congregation, proceeded to the belfry for the dedication ceremony. Whilst this was in progress, the organist (Mr. W. J. Baker) and choir rendered the anthem, 'Ring out, wild bells,' very effectively.

After the service, and during the time the congregation was leaving the church, the ten bells were started and produced a very fine effect, after a silence of over three years.

A few rounds and call changes were first rung, followed by a course each of Stedman Catech, and Treble Bob Royal. St. Andrew's is fortunate to have been able to gather together all the old members of the band who were serving three years ago.

Messrs. Taylor and Co., of Loughborough, have carried out the work of rehangings and providing the new bells, and although many obstacles have had to be surmounted they have fulfilled the contract exceedingly well. St. Andrew's can now boast of a peal of ten bells which are a credit to the church and town.

A new iron frame on steel girders has been substituted for the old wood frame, and the bells have been lowered about eight or nine feet below the tower louvres, producing a much more musical effect, which it is hoped, will avoid complaints re 'Noisy Bells.'

The thanks of the Bells Restoration Committee are tendered to Messrs. E. A. Lewis and E. Alexander Young for their advice on the bells and tower, respectively, which greatly enabled the committee to decide on the thorough overhauling of the bells. The committee also thank those ringers who have subscribed to the restoration fund.

MEMORIALS TO BRISTOL RINGERS.

On Tuesday, October 2nd St. Stephen's Church tower, Bristol, was visited by many of the friends of the late Raymond J. Wilkins. The Rector (the Rev. W. Heber Thomas), after suitable prayers and reference to the good work of the late Mr. Wilkins, unveiled the memorial tablet, erected by the Gloucester and Bristol Diocesan Association and inscribed as follows:—

'In loving memory of Raymond John Wilkins who died Oct. 30th, 1921, for over 35 years a member of the Gloucester and Bristol Diocesan Association of Church Bell Ringers.'

This was followed by the unveiling of a similar tablet by the Rev. M. E. Thorold (Vice-President of the Gloucester and Bristol Diocesan Association) to the memory of William James Hinton which is inscribed as follows:—

'To the memory of William James Hinton, founder and for 15 years a member of the St. Stephen's Guild of Ringers.'

THE WHITTINGTON COMMEMORATION. ATTENDED BY THE ANCIENT SOCIETY OF COLLEGE YOUTHS.

The Whittington celebration briefly referred to in a previous issue, was held at the Old City Church of St. Michael Paternoster Royal, on October 2nd, being the 500th anniversary of the death of the great Sir Richard Whittington, four times Lord Mayor of London.

Any such celebration would, of course, be incomplete without the presence of the Lord Mayor, the civic dignitaries, and the Masters and Liveries of the Old City Companies, and still more incomplete to the laity, especially ringers, without some recognition of Whittington's association with English folk-lore. In view of this, the Rector, the Rev. Canon Bullock-Webster, extended an invitation to the Ancient Society of College Youths to be present, and also to make tribute in its due place with their handbells. Owing to the limited accommodation available, the Rector was only able to allot seven tickets, and the following were elected to represent the society at the service, viz., the Master, Mr. W. Garrard, and Messrs. W. D. Smith, A. A. Hughes, E. Fenn, T. Walker, J. Howell and E. A. Young.

Students of the history of the Ancient Society of College Youths will remember that they were wont to make an annual procession to one of the city churches, headed by their beadle carrying the mace. It is interesting, therefore, to note that after a lapse of perhaps 200 years this procedure was revived, in a modified form on this occasion. The delegation formed up on College Hill, on the site of the College, from which the society obtained its name, and the Master wearing his badge of office, and preceded by Mr. W. D. Smith, carrying the mace, led the party in procession, to the church.

During the assembly of a full congregation, most of whom wore their traditional robes of scarlet and gold, Messrs. Smith, Garrard and Young, gave illustrations on handbells of ringing as practised in the earlier days, such changes as Whittington would probably have heard in his own lifetime. Six large size bells were used, and the effect, with the organ accompaniment, was singularly impressive and most appropriate having regard to the fact that Whittington himself, with his wife, were resting close by.

Several past Lord Mayors were present, together with the Lady Mayoress, the Acting Lord Mayor, Sir Charles Johnstone (who has himself been Lord Mayor), and the sheriffs and aldermen. The Master and Wardens of the Mercers Company (of which Whittington himself was Master), and the Vintners and other companies were represented, and amongst the very distinguished gathering, mention must be made of the 'Father of the House of Lords,' Lord Coventry, who, despite his advanced years, came as the direct descendant of John Coventry, the friend and executor of Whittington.

The beautiful order of service, the soft music of the organ, with the bells, together with the gorgeous robes of the congregation, the latter blending with the dim softness of the light from the stained glass windows, gave an impression of solemnity not easily forgotten by those who were privileged to be present on this historic occasion.

At the end of the service, and as a voluntary, a course of Grand-sire Triples, to an organ accompaniment, were given by Messrs. Fenn, Garrard, Smith and Young, this bringing a memorable ceremony to a fitting termination, and the Rector has since written to express his deep appreciation for the attendance and help given by the Ancient Society.

'TEMPLE BAR.'

BEDFORDSHIRE ASSOCIATION.

A meeting of the Bedford District was held at Willington on Saturday last when members were present from Bedford, Turvey, Kompston, Biddenham, Roxton, Clapham, Cambridge and the local company. Tea was served in the new hall by Miss W. Endersby and Mrs. Eastwell, two of the local ringers.

At the business meeting, with Miss E. Steel in the chair, it was proposed to hold the annual district meeting at Bedford, on Saturday, Nov. 17th, notice of which will appear in 'The Ringing World.'

Four members rang their first course of Cambridge Surprise Minor and others their first of Treble Bob.

The Vicar thanked the members for their kind invitation to tea, but was sorry he could not attend.—A vote of thanks to the Vicar and to the ladies for tea, brought a good meeting to a close.

THE FIRST PEAL OF STEDMAN DOUBLES.

CAMBRIDGE YOUTHS CELEBRATE A JUBILEE.

On September 25th 1873, five junior members of the Society of Cambridge Youths, whose charter dates back to 1724, rang a peal of 5,040 changes, consisting of forty-two 120's of Stedman Doubles, on the bells of the Parish Church, Old Chesterton. This was believed to be the first peal of Stedman Doubles. The ringers were Y. Green 1, G. Taylor 2, J. Dunn 3, C. Stanbridge 4, H. Mansfield 5. Present members of the society celebrated the jubilee of the event by ringing 720 Kent Treble Bob Minor in first-class style, followed by 120 of Stedman Doubles on the bells on Tuesday evening last week. The following took part: W. B. Kempton 1, H. Mansfield 2, W. Welch 3, P. Taylor 4, T. R. Dennis 5, F. E. Kempton (conductor) 6.

THE SOCIAL SIDE IN DERBY.

With the object of encouraging younger ringers in Derby to take up handbell ringing, and also to provide facilities for ringers connected with the various towers to meet for social intercourse and handbell ringing, weekly meetings have been arranged to take place every Wednesday. About half a dozen meetings have already been held with a fair amount of success, the youngsters having shown a keen interest and a strong determination to tackle and master the intricacies of double-handed ringing.

In order to create still stronger interest a musical evening, arranged by Mr. J. F. Smallwood, the secretary was held on Wednesday, Oct. 10, at the Rising Sun Hotel. There was a splendid muster of ringers and friends, numbering about 60. Mr. W. Wallace presided, and songs were rendered by Miss Wilman, Messrs. Wright, Billington, Bell Calford, Fletcher, Brentnall and Alldridge. Mr. A. Poyser (ventriloquist) also contributed a welcome part of the programme. Mr. Saunders was at the piano.

Mr. Maurice Swinfield, that extraordinary young man from Burton, gave a wonderful display of cleverness by tapping a touch of Stedman Triples, which was conducted by Mr. J. F. Smallwood.

A most enjoyable evening was spent, and it is hoped to arrange another similar evening in the near future.

ARCHDEACONRY OF STAFFORD SOCIETY.

A successful meeting of the Society for the Archdeaconry of Stafford was held at Cannock on Saturday week, when upwards of 60 members and friends attended. A short service was held in church, conducted by the Rev. O. H. Barker (clerical secretary and treasurer), and an interesting address was given by the Rev. L. J. Price (Vicar). A capital tea was laid in the Co-operative Hall, which was much appreciated. Touches in various methods were rung during the afternoon and evening, from Grandsire Doubles to Cambridge Surprise Major.

A vote of thanks to the Vicar for his address and use of the church and bells, to the organist for his kindly assistance, and to the local ringers for making comfortable arrangements, was carried with applause.

The next meeting is provisionally arranged to take place at Wood Green on January 12th.

**THE LADIES' GUILD.
MIDLAND DISTRICT.**

The annual meeting of the Midland District was held at Solihull on Saturday, October 6th. Members were present from Smethwick, Evesham, Netherton, Derby and Handsworth. Miss Parker (the general sec. of the Guild) being also present. Mrs. White, of Coventry, was unable to attend owing to illness, and Miss Thatcher, of Clent, was also absent. With the help of the gentlemen, amongst whom was Mr. J. F. Smallwood, Mr. G. Fletcher, Mr. A. Walker and Mr. J. E. Groves ringing was done during the afternoon. The local gentlemen did not put in an appearance till after tea but one of them had placed a lovely bunch of flowers in the ringing chamber. The ladies were delighted with them, and appreciated the kind thought.

The Rev. Harvey Brookes conducted the service, the Guild form being used. He also gave a very interesting address on the need of cheerfulness and helping one another in everything. After service, Mr. and Mrs. Martineau conducted the visitors to Dascombe's Cafe, where they had generously provided tea. A party of 38 sat down, and were joined by the Rector and Mrs. Harvey-Brookes. When tea was over, Mrs. Groves proposed, and Miss Pigott seconded, a hearty vote of thanks to the Rector and Mr. and Mrs. Martineau.

At the business meeting which followed, all the officers were re-elected.—One new ringing member was elected, and Harborne was chosen for the next place of meeting, if the bells are available, if not, St. John's, Deritend.

On the motion of Miss Parker, it was resolved to send a letter of congratulation to Mrs. F. I. Hairs, upon being the first lady to ring a Surprise peal on handbells.

A vote of thanks to the local ladies and to Miss Parker for taking the chair brought the meeting to a close.

HALESWORTH'S ANCIENT BELLS.

A practice meeting of the Halesworth district of the Norwich, St. Edmundsbury and Ipswich Association was held at Halesworth and Chediston on Saturday, Sept. 8th. Members were present from Saxmundham, Framlingham, St. Cross, Bungay, Croydon, Wissett, Chediston and Halesworth. The bells at Halesworth, a good old peal of eight, were kept going during the afternoon in the standard methods, and after tea the members visited Chediston Church, and practice in various minor methods was maintained until 9 o'clock, the visitors enjoying a very pleasant day in the country.

It may interest some readers to know the dates of Halesworth bells. Treble and second 1770; 3rd, 1759; 4th, a pre-Reformation bell about 1460; 5th 1627; 6th, a pre-Reformation bell about 1460; 7th, 1611; tenor, 1624. The old sanctus bell was recast in 1826, and is now used as a clock bell.

EAST DERBYSHIRE ASSOCIATION.**PRESENTATION TO THE PRESIDENT.**

A meeting of the East Derbyshire Association was held at North Wingfield on Saturday, Oct. 6th, when 22 members were present from Blackwell, Clay Cross, Denby, Derby, Sutton, Teversal, Mansfield Woodhouse, Swanwick and North Wingfield. The Rector conducted a short service, and welcomed the association to North Wingfield. After a splendid tea, the business meeting was held. The president (Mr. T. Allibone) presided, supported by Canon A. J. B. Ellerton (Rector), Mr. T. Stimpson (treasurer), Mr. J. P. Tarlton (churchwarden), and others.

It was resolved to hold the next meeting at Affretton in December, and that all future meetings be notified in 'The Ringing World.'

Hearty votes of thanks were accorded the Rector for use of bells and service in church, and the ladies for their services at the tea table.—Mr. J. Allibone responded for the ladies.

The bells were kept going to a late hour in Grandsire, Stedman, Plain Bob and Oxford Treble Bob Major.

On Tuesday, Oct. 9th, in the lower, the Rector (Canon Ellerton) presented Mr. T. Allibone (president) with a week-end case and Treasury notes as an appreciation of his long and sustained efforts on behalf of the association. Canon Ellerton hoped Mr. Allibone would be spared to make good use of the case now he had retired from his occupation on the railway.—Mr. Fretwell (secretary) said the gift was subscribed to by nearly 130 members of the association who hoped to have Mr. Allibone with them as often as he could come.—Mr. W. Wain also spoke of Mr. Allibone's services.

Mr. Allibone said the present was such a surprise that he could not say more than 'Thank you.' He asked the secretary to thank the members for him, and to be assured he was with them as he had ever been.

His many friends will wish Mr. Allibone a good and speedy recovery from an operation he is about to undergo.

YORKSHIRE ASSOCIATION.**OPENING OF A NEW PEAL OF EIGHT.**

The Western District of the Yorkshire Association held a quarterly meeting on Saturday, Sept. 15th, at Bramley, near Leeds, on the occasion of the dedication of the new peal of eight bells, with a tonor 12 cwt, 15 lb. in F sharp (which have just been installed by Messrs. John Taylor and Co., Loughborough), and a new clock, with Cambridge quarter chimes, and fitted with an automatic switch for illuminating the dials (supplied by Messrs. Wm. Potts and Sons, of Leeds).

A special service was held, conducted by the Vicar (the Rev. J. Hinton Knowles, R.D.) the lessons being read by the Rev. C. C. Marshall, Vicar of St. Chad's, Far Headingley, and president of the Yorkshire Association. A dedicatory prayer was offered by the Bishop of Knaresborough, who also gave an appropriate address upon the message of the bells.

After the service, a party of over two hundred, of whom 150 were visiting ringers, were entertained to tea in the Schoolroom.—The Vicar welcomed the church workers, and thanked them for their help in getting the new bells started.

The Rev. C. C. Marshall responded, on behalf of the ringers, and expressed his gratitude to the Bramley people for entertaining them so well.

The following towers were represented: Armley, Bolton (Bradford), Bradford Cathedral, Batley, Birstal, Bingley, Calverley, Guiseley, Headingley (St. Chad's), Headingley (St. Michael's), Huddersfield, Holbeck St. Francis (R.C.), Horbury, Idle, Keighley, Leeds, Lightcliffe, Mirfield, Northowram, Otley, Pudsey, Pontefract, Rothwell, Shipley, Selby, Silsden and Tong; Mr. J. Oldham represented the bell foundries; Mr. J. Broadley acted as Ringing Master. Numerous companies rang various methods up to a late hour, and all spoke very highly of the 'go' and tone of the new bells.

DEATH OF A SURREY RINGER.**MR. H. PEDERICK'S DISTINCTION.**

We regret to announce the death of Mr. Henry Pederick, who passed away on Wednesday, Sept. 12th, at the age of 76. Deceased was a member of the Parish Church Ringers' Society, Ewell, Surrey, for 35 years, also a member of the Surrey Association for many years. He rang 16 peals for the association, two of which he was never tired of talking of, namely, that he was the only Surrey ringer to take part in the last peal of the 19th century, and the first peal in the 20th.

On Sunday, Sept. 16th, special hymns were sung at both services at the Parish Church, and the bells were also rung half-muffled.

Several ringers from Ewell, Epsom and Ashted attended the funeral on the following day, when the bells were rung half-muffled. Deceased was a regular Sunday service ringer, and was very keen at practices.

Not far from the church well within the sound of the bells, he lies—at rest from his labours.

KENT COUNTY ASSOCIATION.

ASHFORD DISTRICT MEMBERS AND TRAVELLING EXPENSES.

The Ashford District annual meeting, held at Appledore on the last Saturday in September, was attended by nearly 40 members, and good practice was obtained on the church bells in Grandsire and Stedman Triples, Bob and Kent Treble Bob Major. The Vicar (the Rev. A. O. Scutt) conducted the service, and Mr. W. E. Pitman, Mus. Bac. (of Canterbury), an association member, presided at the organ.

Tea, provided by the association, was partaken of at the Swan Hotel with the Vicar in the chair.

At the business meeting which followed, Mr. C. Tribe (Tenterden) was unanimously re-elected hon. secretary, with a special vote of thanks for his services during the past twelve months.—Mr. Tribe returned thanks for the confidence they had again reposed in him, but he reminded them that the time would come when he would have to retire, so he strongly advised them to look around for a successor during the next twelve months, although all the time he could do the work he would stick to it.

Mr. G. Paine (Mersham) announced his intention of not seeking re-election as one of the two district representatives on the committee, and, in his remarks, said he thought more could be done in obtaining honorary members.

Mr. Paine was at the meeting at Mersham over 40 years ago, when the association was formed, and he has done much useful work.

Messrs. E. S. Ruck (Mersham) and P. H. Peiree (Brabourne) were chosen as the district representatives, and Mr. Ruck, in returning thanks, said that when matters relating to their division came before the committee, he would always be ready to fight for the Ashford district. With regard to honorary members, he thought Mersham had more than any other parish. In naming a few, he mentioned that the late Mr. C. Bates was an honorary member for 39 years, and Mr. T. Filcher for something like a quarter of a century. He felt quite certain that if members would look around more honorary members could be obtained. This would make a considerable difference, not only with regard to the funds, but would get people to take more interest in ringers and ringing.

A hearty vote of thanks was passed to Mr. Paine for his long and splendid service as a district representative.

Places for meetings were selected as follows: Rolvenden in November; Ashford in February, and if Ashford is unobtainable Wye to be arranged; Stone-in-Oxney in June, and the annual meeting at Folkestone in August or September.

Mrs. W. Buton (Rolvenden), Miss Want (Tenterden) and Mr. K. Pattenden (Rye) were admitted as members.

The association pays half travelling expenses, with a maximum of 2s., at one meeting in each district every year, and this subject formed an interesting debate, the point at issue being whether or no this should be announced in 'The Ringing World' advertisement. The allowances have always been paid each year, and the district secretary takes the view that if members are really interested enough in ringing to come to a meeting, they would turn up without an allowance notice to draw them there.

Some present appeared to favour it being inserted in the advertisement, and others preferred the district secretary's views. There were, however, no sharp words over the question, and no desire, as it were, to 'Pierce' one another with the bayonet, or to use any of 'Mills' bombs. Each speaker proved himself to be a courteous 'Player' for what he advocated, being careful not to 'Ruck' any feathers, or cause any 'Pain(e)' to be endured. There was no fear of the ship being 'Scutt'led, for everybody, including the 'Baker,' kept a cool 'Head,' but as no definite solution was forthcoming, the chairman asked for a show of hands of those in favour of announcing the travelling allowance in the advertisement. Result, no votes, and a similar result when the chairman asked if the members approved of an advertisement not incorporating the allowance. It made one begin to wonder what the members did 'Want.' Did it look as if they hardly cared a 'Button' what happened? Not so; for when the chairman sought their opinion respecting leaving the matter in the hands of the district secretary to act at his discretion nearly all the members 'Rose' to the occasion, and practically the whole 'Tribe' signified their assent to this course which received the support of a strong 'Castle.'

A hearty vote of thanks to the Vicar for presiding and allowing the meeting to be held at Appledore; to Mr. Pitman for his services at the organ, and to Messrs. G. and A. Johnson for assisting in arranging the meeting, concluded the business.

The Recast Tenor (30 cwt.) at
ROCHESTER CATHEDRAL.
New Ring of Ten opened May 14th, 1921.

BELLS, CARILLONS, CLOCKS.

THAT MUCH-NEEDED REGISTER.

Another instance has occurred of an old method being rung as a new one. A fortnight ago we published the report of a peal of Rochester Surprise rung by the enterprising Leiston band, and last week we gave the figures of the method. Now, it appears, the method is none other than Lancashire Surprise, first published in 1907, reprinted in our columns in July, 1921, and subsequently published as Leek Surprise. The latter name was, of course, withdrawn when the prior claim to authorship was put forward, and 'Rochester' will, we are sure, be similarly surrendered under the circumstances. That the method should have been thrice independently produced does not detract from the skill of the separate composers, but the credit goes to the first in the field, and Mr. Arthur Craven has the right of authorship.

The point which we want to make, however, is that such a position of affairs ought to be avoidable. It may be said that it is an author's duty to investigate, before he puts forward a method or a composition as his own, to see if his production is original or a copy of something already in existence. To some extent this is true, but the difficulty that confronts an author is that the material through which he should search is so widely scattered that effective investigation is a practical impossibility. Just as we want a reference file of compositions, so is it necessary to have a complete register of all existing methods in order that authors could have at their hand a ready means of ascertaining what has, and what has not, been produced. In the case of the compositions the work of arranging and indexing them will be a very considerable task, for there are in all methods many thousands, and a good deal of work in wading through the last fifty years of ringing publications for figures by bygone composers would be necessary to make the file of the real value that it ought to be. At the same time there is a growing need for the work to be undertaken, and the longer it is delayed the more formidable will be the task when it is attempted.

With methods the work involved would be nothing like so arduous. Methods are not only much fewer in number, but we already have a fairly comprehensive collection of Minor methods and a big collection of plain Major methods in existence. What is required is to get together the figures of Minor and Major methods outside these two groups, and to add all the known Treble Bob and Surprise methods on eight bells, and the more restricted variety of methods on the higher numbers. This is a task to which the Central Council could set their hands without delay, and we hope to see them put it in hand at their next meeting, making it a proviso that in future all new methods must be registered with the Council before any right of authorship can be established in the event of a rival claim.

THE EARLIEST CHANGE RINGER.

To the Editor.

Sir,—Can any of your ringers give me the name of the earliest change ringer that has been recorded, or the earliest pricked figures of changes?

In Buxhall Church, Suffolk, there are engraved or scratched on a pillar in the ringing chamber (i.e., the central tower) the 'plain changes' on four bells with the tenor covering. These appear to have been signed by 'John Gboch, Bellringer,' between 1580 and 1620. For these facts, suggestions, and dates I am indebted to Mr. Vincent B. Redstone, the antiquary, of Woodbridge.

This seems to be certainly the earliest record extant unless there can be found any other as early or more certain. Until now, the earliest I have come across is that in Stedman's Tintinnologia of 1687. He there states absolutely that no changes were known or thought possible within fifty or sixty years of that date. This would barely take us back to 1619; and it is pretty certain that Stedman knew what he was talking about.

Ufford Rectory,

HERBERT DRAKE.

**LONDON COUNTY ASSOCIATION. —
SUCCESSFUL MEETING AT ISLEWORTH.**

The Southern District of the above association held another successful meeting at All Saints', Isleworth, on Saturday last. The fine ring of eight by Taylor's, were set going shortly after 3 p.m., and ringing continued until tea-time. A pleasant interval was spent at the 'London Apprentice,' and the excellent tea was much appreciated. The business meeting was afterwards held, and this over, Mr. F. G. T. A. Goddard's handbells were made use of Stedman and Grandsire Triples and Grandsire Caters being rung.

The tower was again visited, and further ringing indulged in. The methods rung during the afternoon and evening were Grandsire and Stedman Triples, Plain Bob, Kent and Double Norwich, and Cambridge Major.

The attendance was very good, and it was pleasing to note the number of visitors especially from the Middlesex Association. Ringers were present from Bath, Battersea, Chelsea, Camberwell, Coggeshall, Ealing, Hillingdon, Hounslow, Heston, Isleworth, Lambeth, Ludlow, Old Windsor, Rehampton, Thames Ditton, Walton-on-Thames and Willesden. Four ladies were present: Miss Baker (Hillingdon), Miss Moss (Uxbridge), Miss N. Shorter (Walton-on-Thames) Miss Williams (Bath).

At the conclusion of the ringing a social hour was spent at the 'London Apprentice,' and some tune ringing on handbells accomplished.

The very best thanks of all who attended were accorded to the Vicar for the use of the bells, and to that sturdy veteran, Mr. Tom Beadle, for extending such a hearty welcome to the association.

The next meeting is at All Saints', Fulham on Saturday, Oct. 27th, when the beautiful peal of ten will be at the service of the members from 5 to 8 p.m. All ringers will be heartily welcomed.

ROWLEY REGIS RESTORATION.

DEDICATION OF CHURCH, TOWER, CLOCK AND BELLS.

It was a great day for Rowley Regis, the 'Black Country' parish, near Birmingham, on Saturday, Sept. 29th, the occasion being the completion and opening of the new church, together with the tower, clock and bells.

The church was burnt down in June, 1913, but the tower and bells escaped. The tower, however, was afterwards found to be unsafe, and was taken down. So Rowley was without a church, until the present Vicar, Lieut.-Col. the Rev. F. J. Cheverton was appointed to the living about two years ago. He at once set to work with a committee to rebuild the church at the cost of over £14,000 and this great undertaking has now been completed.

The bells, a ring of eight, with the tenor about 13 cwt., have been installed by Mr. J. E. Groves. Modern fittings, cast-iron headstocks, dust-proof ball bearings, have been provided, and the bells hung in a frame of steel H sections, on rolled steel joists. The steel joists were built in the tower walls during the progress of the building and are fixed some three feet above a 7in. concrete floor. The result is a most excellent and up-to-date job, and no bells could possibly go better. This work has been carried out without taking the bells away from the church.

Not half the people who assembled for the dedication could be accommodated in the church the ceremony being performed by the Bishop of Birmingham. On the Sunday evening the crowd was even greater. The collections on both days amounted to £320 but in spite of this excellent addition to the funds much more is still needed, and contributions may be sent to the Vicar or to Mr. Albert Parsons, Old Hill, Staffs.

The first church at Rowley Regis, dedicated to St. Giles, was erected in the reign of King John, between A.D. 1199 and 1216. In 1840 a much larger edifice was erected in its stead but the tower remained. The tower was eventually rebuilt in 1858. The church was rebuilt in 1904, but the new tower remained until the fire, caused by political incendiaries, in 1913.

ROWLEY REGIS BELL FUND.

Previously acknowledged, £11 17s.: Worcestershire Association, Southern branch meeting at Badsey, per Mr. J. Hemming, 14s.: K. P., Cradley Heath, 2s. 6d. Further contributions will be gratefully received by Mr. A. E. Parsons, 'Elma,' Beauty Bank, Old Hill, Staffs.

RINGERS WEDDED.

MR. R. F. DEAL AND MISS E. TONGE.

Another wedding between ringers has taken place, the marriage having been celebrated at Miles Platting, Manchester on Tuesday, October 16th of Mr. Richard F. Deal, now residing in London, and Miss Emma Tonge, a member of the band at Miles Platting Church. Mr. Deal who, after some time spent in Australia, returned after service in the war, to Manchester, and did a great deal of ringing in the North. His bride has done yeoman service in her own tower, and both will be missed in Lancashire ringing circles.

The wedding was celebrated by a peal of Stedman Triples at Miles Platting, and the band, with other ringing friends, were afterwards entertained to supper by the bridegroom.

Mr. W. Brown spoke in eulogistic terms of the services rendered by Mr. and Mrs. Deal, and the 'Health of the Bride and Bridegroom' was proposed in a felicitous speech by Mr. J. W. Washbrook, and supported by Mr. W. H. Cooper.

It is proposed to present the happy pair with an illuminated address to mark the auspicious event, and to show the appreciation of his friends of the services rendered to ringing by Mr. Deal.

MIDDLESEX COUNTY ASSOCIATION.

The monthly meeting of the South-West District was held at Heston on Saturday, October 13th. The bells were kept going from 3.30 till 5 p.m. with various touches, and a service was then held conducted by the Vicar (the Rev. F. Wilkinson), with his daughter presiding at the organ. The service was very bright, thanks largely to a band of young ringers from Stoke Poges, under the tuition of Mr. and Mrs. A. D. Barker, and the scout band from Old Windsor, under the guidance of Mr. W. Welling (Scoutmaster pro tem.), whose voices helped considerably with the singing.

After service tea was served in the Parish Hall, when over 40 sat down to a sumptuous repast, with the Vicar presiding.—The hon. sec. and Ringing Master offered a hearty welcome to the visitors, who are always welcome at these meetings.

At the business meeting which followed, the usual vote of thanks was accorded to all who had assisted in making the meeting such a success, after which another visit was paid to the tower where standard methods were practised till 9 p.m.

St. Paul's tower, Hounslow, was open after tea, and a good many took the advantage of having a pull on these bells. During the evening the attendance increased to over 50.

A vote of thanks was accorded to the Vicar of St. Paul's for allowing the use of the bells, and to Mr. C. Tricker, steeplekeeper. The meeting proved a most enjoyable and pleasant one.

MACCLESFIELD'S NEW BELLS.

' OPEN ' RINGING MEETING.

An open day for ringers at Macclesfield, where the bells have just been increased to twelve, was held on Oct. 13th and a great day it proved to be. There were about 120 ringers present, including several ladies, from Cheshire, Lancashire, Derbyshire, Staffordshire and Yorkshire, and Mr. E. H. Lewis of Glasgow, who happened to be coming south for a few days' holiday. Ringing started at 2 o'clock, and continued until 5 p.m., when an adjournment was made to the school for tea, kindly provided by the church officials, and prepared by the ladies connected with the ringers' stall. The Vicar (the Rev. H. E. Stevons), the warden and other church officials were present to welcome the visitors. After tea the Vicar expressed his pleasure at the opportunity of extending a welcome to the ringers on behalf of the parish. Macclesfield was honoured by the presence of more than a hundred men skilled in the art of ringing from five counties and his own church officers and ringers were grateful for the spirit of comradeship which had drawn together so many enthusiasts to give a fuller demonstration of the qualities of the new peal. They had suffered loss through the enforced silence of the Parish Church bells, but now they felt that great occasions would be worthily commemorated by the ringing of this peal which, though it had cost so much, was a great asset to their noble church.

Mr. H. Fairclough, Master of the Chester Diocesan Guild, responded on behalf of the visitors, and proposed a vote of thanks to the Vicar and church officials for their invitation, and to the ladies for providing tea.

Mr. J. W. Washbrook said Macclesfield ought to be proud of their bells, which, for their weight, could not be beaten. — One of the ringers from Oldham also expressed his pleasure with the bells, and Mr. E. H. Lewis and Mr. J. Norbury, conductor of the local company, also made a few remarks.

The Secretary had a letter from Mr. Pryce Taylor expressing his regret at not being able to be present, as he had caught a chill, and had to spend a few days in bed.

Afterwards the bells were kept going until 9.30 by different bands, and touches of Grandsire Triples, Caters and Cinques, Stedman Triples, Caters and Cinques, Treble Bob Major, Royal and Maximus, and Cambridge Surprise Major were rung during the day.

When parting time came the visitors went away expressing the pleasure they had derived from their visit to Macclesfield and ringing on the first peal of twelve in the county. All were loud in their praise of the tone and 'go' of the bells.

WORCESTERSHIRE ASSOCIATION.

' OVERLAPPING ' DISCUSSED.

A most successful and well-attended quarterly meeting of the Southern Branch was held at Badsey on Saturday, Oct. 13th. Opportunities for eight-bell ringing being somewhat limited in the district, those present made full use of the octave at their disposal throughout the afternoon and evening, and quite a number of members rang their first touch in methods ranging from Grandsire Triples to Cambridge Surprise. Service was held in the Parish Church the association's special form of service being used. Taking for his text Psalm xix, 3, 'There is no speech nor language where their voice is not heard,' the Vicar, the Rev. W. C. Allsbrook, gave a most interesting and original address.

A collection for Rowley Regis Bell Restoration Fund realised 14s.

Tea, provided through the generosity of several Badsey friends, was partaken of in the Old Schools, and at the subsequent business meeting, the Vicar presided, supported by the Rev. D. Fitzmaurice (Vicar of Hampton), Messrs. J. Sladden and J. Pethard (churchwardens), and Mr. C. A. Binyon.

Several new members were elected and it was decided to accept the invitation of the Rev. H. B. S. Fowler to hold the next meeting at Elmley Castle.

It was also decided to attempt the quarterly peal at Badsey with as many of the local band as possible.

The question of 'overlapping' was open to debate, and was responsible for an animated discussion. Several members expressed their views, the result being that the 'districts' members expressed renewed confidence in the association.

Heartly votes of thanks to the Vicar for the use of the bells, his address, and presiding at the meeting; the Rev. D. Fitzmaurice and the churchwardens for their presence; to the donors of the tea, and the ladies who so ably attended to the tables; and to Messrs. C. A. Binyon and J. Pethard for the work they had done in connection with the meeting were carried with applause. — These gentlemen briefly replied, Mr. J. Sladden expressing the hope that the next visit of the association to Badsey would be in the summer, when he should be pleased to provide tea on his lawn. In this connection it is most refreshing and encouraging to note the increasing interest taken in ringing activities by the various incumbents and churchwardens, evidence of which was well to the fore at this meeting.

In addition to ringers from the branch towers, visitors were present from Worcester, Upton-on-Severn, Madresfield, Malvern, Wootton Waven and Ilmington.

BELFRY GOSSIP.

Eleven peals were attempted during the Sussex tour and ten were successful, viz.: Triples 1 Major 6 Caters 2 and Royal 1. Details will be published in our next issue.

The method rung as Rochester Surprise by the band at Leiston is not, after all, a new method. It is Lancashire Surprise, by Mr. Arthur Craven, and was first published in 1907. It was subsequently published under the name of Leek Surprise, and withdrawn when Mr. Craven's prior claim was made known.

The College Youths set out for something of a 'field day' in peal ringing on Saturday. It had been hoped to arrange four twelve-bell peals at four different churches by four different bands. Only three twelve-bell towers were, however, obtainable and, therefore, one ten-bell tower was substituted.

But the result was not all that could be desired, and only one peal was successful, Stedman Cinques being rung at Southwark, as recorded elsewhere. Young Ted Horrex was in this peal.

At Bow, Cheapside, Treble Twelve was lost after about an hour; at Stepney one of the band had to give up, but the worst luck of all was experienced at Cripplegate, where Treble Twelve 'went west' after about four hours' ringing!

How easy it is to make a slip in a footnote to a peal without careful research, is again illustrated by the fact that in sending the report of the handbell peal of Oxford Treble Bob Royal at Ipswich, Mr. G. E. Symonds said the only other peal in method rung on handbells in the county was that at Ipswich on January 30th 1890. He entirely overlooked the three peals rung at Leiston in 1920, and conducted by Mr. C. F. Bailey.

In this connection it is interesting to note that the first double-handed handbell peal ever rung was Oxford Treble Bob Major at Sheffield on October 30th, 1811.

On Oct. 31st 1791, a peal of 7,002 'Grandsire Quarters' was rung at Great St. Mary's, Cambridge.

'Parish ringers' of Dartford rang a peal of Grandsire Triples on Oct. 30th, 1749—a good performance in those days when 'local hands' of change ringers were few and far between.

St. Paul's Cathedral bells were opened 45 years ago—on Nov. 1st, 1878.

Ringers are invited to an 'open' day at Derby on Nov. 3rd, when the bells of St. Andrew's now augmented to ten, will be available.

The report of a peal at Deekleburgh has been sent without the date.

DEATH OF MR. J. WHITAKER, OF HEADINGLEY.

A LINK WITH GIANTS OF THE PAST.

The Exercise has lost by the death of Mr. John Whitaker, of Headingley, Leeds, a link with the giants of the past. The deceased was born in Leeds in the year 1842, and took up change ringing at the age of 17, at the Parish Church of Burley, Leeds, soon after the light peal of six were installed there in 1854. He began to have higher ambitions, however, and soon became a familiar figure at Leeds Parish Church, in company with such celebrities as the Snowdon brothers, Messrs. J. and T. Lockwood and Henry Hubbard, senr., who were then attached to that tower, and it was during this time that Mr. Whitaker took part in what was probably the only peal of Treble Bob Maximus ever rung with the back bells in the titium position. Mr. Whitaker also conducted the first peal of Double Norwich in Leeds in the year 1894, and about this time was associated with Messrs. H. Williams, the Brothers Thackray and A. Craven, in making history locally, by taking part in the first handbell peals in the district of Grandsire, Bob Major, Canterbury Pleasure, and Kent Treble Bob. His genial disposition and enthusiasm caused him to be in great request among ringers, and every tower in Leeds has benefited by many hours spent in trying to encourage young ringers, and helping older ringers in more advanced methods.

His interest in ringing continued up to the last, he being a constant ringer at St. Michael's, Headingley, until Sunday, Oct. 7th, when arrangements were made to ring a quarter-peal of Double Norwich in honour of his 81st birthday. Before that date, however, the remains of a previous attack of influenza asserted itself, and he passed away on Friday, October 12th, after a short, but severe attack of bronchial pneumonia.

The funeral took place on Tuesday, October 16th, the service at Burley Parish Church and at Lawnswood Cemetery (where the interment took place) was conducted by the Rev. C. C. Marshall, the President of the Yorkshire Association. A plain course of Grandsire Triples was rung on handbells at the graveside by Messrs. G. B. Bolland, J. Thackray, P. J. Johnson and G. Robinson. Half-muffled ringing in various methods took place at St. Chad's, Far Headingley, in the evening, while his colleagues at St. Michael's rang a half-muffled peal of Double Norwich, which will be found recorded in its proper place, to the memory of a dear old friend and comrade, whose kind and genial disposition endeared him to a large circle of friends. Mr. Whitaker took part in 67 peals for the Yorkshire Association, and his death leaves the Exercise the poorer, by the loss of so enthusiastic and sound a ringer.

CANTERBURY CATHEDRAL BELLS.

DEDICATION OF THE NEW TREBLES BY THE ARCHBISHOP.

Canterbury Cathedral is now in full possession of a peal of twelve bells, the two trebles which have been added, at a cost of about £250, as a memorial to the members of the Kent County Association who fell in the war having been dedicated by the Archbishop of Canterbury. The augmentation has been carried out by Messrs. Mears and Stainbank, who have made a most excellent splice.

About a hundred ringers assembled for the dedication, which was performed after evensong on Saturday week. The service was simple but impressive, and will long be remembered by those privileged to take part in it. The surpliced clergy present, in addition to the Primate, were the Dean of Canterbury, Dr. S. Bickersteth (Vice-Dean), Dr. A. W. Robinson, Minor Canons F. J. O. Helmore (Precentor and hon. secretary of the Kent County Association), A. H. Partridge (Sacrist), and R. J. W. H. Potter, the Rev. C. Eveleigh Woodruff, and the Rev. Henry de Candole (Domestic Chaplain). Dr. C. Charlton Palmer (Cathedral organist) presided at a small organ placed by one of the pillars, and the Cathedral choir was also present.

'Soldiers of Christ, arise,' was sung as a processional hymn, and the Archbishop read opening sentences from the service of the Burial of the Dead. After Psalm xxiii. had been chanted, the Dean read prayers, including one that they might be worthy of those who had given their lives for their country. His Grace dedicated the bells in the following words: 'In the faith of Jesus Christ, we dedicate these bells to the glory of God and in memory of those members of the Kent County Association of Change Ringers who fell in the great war, in the name of the Father, and of the Son, and of the Holy Ghost.—Amen.' The Precentor having read a prayer for the work of the association, a few rounds were rung on the twelve bells. The Archbishop's address was preceded by the ringers' hymn 'Unchanging God Who livest.'

THE CATHEDRAL BELLS.

Nothing that we do, said the Archbishop, in this, the noblest of our cathedrals, could fail to have historical significance. Nearly every great episode in English history from Saxon days to our own had in some way or other a mark there or connection with those witness-walls. We knew a good deal about the bells which were successively hung or rehung there in centuries gone by. Association with the bells belonged to not a few of the great names connected with our church history. Dunstan, Ernuif, Wibert, Eastry, Arundel, and Chillenden were all of them to do with our bells and their placing or replacing there. If we looked at the dates of the various bell incidents, especially in the eleventh, fourteenth and fifteenth centuries, it would be difficult to connect with great public events what was done there in that steeple. And so it was in every way right and in every way natural that in connection with the great war our bells should be handled and dealt with afresh. Never were they in more competent hands; never were they under a keener or wiser control than now. We rejoiced to think that the bells to-day augmented should carry over the centuries to come a reminder not merely of the great war—wherein among our English Cathedrals, Canterbury, of course, was closest to the fighting line—but also of the memory of those Kentish men and men of Kent who, belonging to our association, gave their lives in the great war for the cause of honour, liberty and truth.

ARMISTICE DAY RINGING.

To the Editor.

Dear Sir.—Mr. C. F. Good asks for some ideas about ringing on Armistice Day: here is one. Now that the time for service has been fixed for 10.30 or 10.45 I would suggest that the bells be rung open for service, and that a short pause take place in the service about five minutes to 11, say, after the singing of a hymn and during the pause the bells be rung 11 rounds with the clappers muffled at back stroke, finishing as near 11 as possible (not later). Then ring 'open' for about half an hour after the service is finished.—Yours truly,
Scarborough. BELLRINGER.

NOT A DAY FOR GLOOM.

Dear Sir.—Your correspondent, Mr. C. F. Good, raises a question that up to now has never been thrashed out in your columns. In past years a letter has appeared suggesting that bells should be rung muffled, and some towers have carried out the suggestion and at others peals have been rung muffled by visitors to the towers. Where this has been done by the expressed wish of the incumbent (who has the power at all times to direct how the bells shall be rung) I have nothing to say, but apart from this I hope the day may never come when Armistice Day will be kept with that solemnity and gloom always associated with muffled bells.

There is a tendency to turn what should be a happy and joyful

'You know,' went on His Grace, 'that by adding these two bells we have reached the maximum, I believe, of the equipment which any belfry can usefully hold for the highest development of our change ringing. We have learnt better in the last 50 years than ever before how to use our bells to their fullest power of harmony, of beauty and of suggestion. When they sound out over our old city and the hills which encircle it, the familiar message will now be enriched by new thoughts and new associations as we recall the brave men, some 56 in number, who, belonging to our association, ringers in our Kentish parishes, gave their lives.'

AN OFFICE OF HIGH TRUST AND PRIVILEGE.

The office of bell ringer, continued the Primate, was one of high trust and privilege and of great responsibility. He rejoiced to see so many there that day, and he wished them godspeed. To every thoughtful man, whether he was a musician or not, bells had a glamour and a meaning. Some present would recall the strong voice of Ruskin, who, after dealing with music in its various forms, said, 'I have fallen back on the most sacred of all musical instruments—the bell. Whether the cattle bell of the hills or from the cathedral tower, monitor of men, I believe the sweetness of its prolonged tones to be the most delightful and helpful for the ear and mind of all instrumental sound.' At some periods of our history, bells—church bells among them—had a special, practical and simple use as a means of spreading the news of great happenings in our lives—victories, the births or deaths of princes, or common danger. To some extent that was still done, and even now bells had the power, as nothing else had, of making us, a great multitude scattered over a large area, sharers of the same emotions as others—joy or sorrow, sympathy or gratulation, thanksgiving or hope. They rejoiced in that solemn dedication, and felt that it not only meant something to themselves, but was also an added inspiration to the ringers. They rejoiced in gratitude and hope, trusting that it would come into their common weekday life, and bid them thank God and take courage.

The hymn, 'Ten thousand times ten thousand,' was followed by the Blessing.

Subsequently the Precentor entertained the members of the Association present to tea at Gaywood's Rooms.

The company included four of the six district secretaries—Messrs. T. Groombridge (Lewisham), C. Tribe (Ashford), F. Mitchell (Rochester), and E. Buesden (Canterbury). Mr. A. A. Hughes represented the founders, and Messrs. W. T. Cockerill, W. D. Smith and J. Rowbottom, of the College Youths, were also present.

A vote of thanks to the host was proposed by Mr. F. White (Tunbridge Wells), Minor Canon Helmore suitably replying.

The members of the Cathedral company of ringers who rang the bells at the dedication were Messrs. W. Andrews 1, E. Buesden 2, F. Brett 3, C. Brett 4, H. Fairbrass 5, P. J. Payne 6, G. Jenkins 7, F. Jenkins 8, F. Fairbeard 9, A. Andrews 10, M. Pierce 11, and G. Simpson 12. Ringing continued on the twelve bells until after 8 p.m.

The new treble bell has the following inscription: 'A.D. 1923, Kent County Association of Change Ringers. To the Glory of God, and in memory of the members who fell in the great war, 1914-1918.'

The second has the date of casting and the initials K. C. A. C. R., 1914-1918.

anniversary into a second Good Friday. Why should this be? On Good Friday we commemorate a death: the death of our Lord and Saviour Jesus Christ. On Armistice Day we commemorate the day when the greatest war in history came to an end, surely a cause for joy and thankfulness to millions, and especially to all those serving their country, on sea and land, and in the air; whether they were in front line trenches, cold, and muddy and wet; back in rest billets waiting their turn to 'go up,' or here in England training for the business to be done 'over there.'

I remember the excitement of the day well. The battalion I was with was a new formation a 'Tanks' Bridging Battalion, one of three who were due to go overseas in a month's time. They were largely made up of men who had 'had some,' and didn't want any more. What a happy day that first Armistice Day was for them! The band paraded the town in the afternoon, and the men danced in the streets, and there was no one to say them 'nay.'

His Majesty has ordained that a two minutes' silence shall be kept at 11 o'clock on that day in memory of those who fell and how impressive that is taking place, as it does, in the midst of our ordinary work-a-day life. How much it would lose if we kept the whole day in the same spirit!

November 11th is a happy anniversary, and should be kept as such, always remembering the fallen by those solemn two minutes at 11 o'clock. Others will have other views, and I will respect them, but these are mine, and I am not ashamed of them: therefore, I will sign myself.—Yours truly,
W. A. CAVE.

THE ESSEX ASSOCIATION.

RECORD GATHERING AND INTERESTING PROCEEDINGS AT BRAINTREE.

On Saturday, October 20th a meeting of the Northern Division of the Essex Association was held at Braintree, and proved what is believed to be a record in attendance for a district meeting in the county. There were 80 members present from Bocking, Braintree, Dunmow, Witham, Stebbing, Rayne, Malden, Sible Hedingham, Belchampt St. Paul, Saffron Walden, Writtle, Cavendish, Felsted, Springfield, Boreham, Chelmsford, Feering, Black Notley, Earls Colne, Greenstead Green, Heybridge, Stisted, Kelvedon.

Service was held at Braintree Parish Church in the afternoon, the Rev. D. B. Barclay (Vicar) officiating, the ringers' service being used. The lesson was read by Mr. C. H. Howard, J.P. Master of the Association. An address was given by the Rev. A. Negus, Rector of Great Leighs, from the words, 'Let us praise famous men . . . such as found out musical tunes.' He spoke of the perfect music of the full-toned bell, and said people in England had reason to be proud of their bells. Bell ringing as an art was peculiar to England. The preacher spoke of the good work continually rendered by the thousand members of the Essex Association in regularly summoning people to church all over the county. The men who pulled the bells were ought of sight, but the work they undertook gave great joy in big cities and small towns and villages all over the country.

Tea followed at the Masonic Hall, kindly provided by the Master of the Essex Association who presided, supported by the Rev. A. Negus, the Rev. H. T. W. Eyre (former secretary to the Essex Association), the Rev. J. A. Evans (Sible Hedingham), the Rev. R. Williams, Braintree; Mr. F. J. Pitstow (Saffron Walden) secretary of the Association; Mr. F. Dench, secretary of the North-Eastern Division; Mr. P. Timson, secretary of the South-Eastern Division; and Mr. W. H. Dyson, Master of the Northern Division.

The Master thanked the Rector of Great Leighs for his appropriate address, and mentioned that Great Leighs possessed a nice ring of five bells, believed to be a maiden peal by Miles Gray.—The Rector replied, and congratulated the Essex Association on having such an enthusiastic Master and the Master such keen colleagues.

INTERESTING REUNION.

Mr. W. H. Dyson, Master and hon. secretary to the Northern Division, said the goodly attendance of 80 members was a record for a district meeting in Essex and he welcomed visitors from the Malden and Chelmsford and other areas. As his term of office as District Master was finished he was gratified to find such a good meeting at Braintree during that term. That meeting was interesting, because it was the first time for 45 years that the three surviving original members of the Braintree company had come together—Messrs. F. Rudkin, T. Edwards and W. H. Dyson. Mr. Edwards had retired from ringing, but Mr. Rudkin turned up to ring occasionally. Change ringing was first introduced to Braintree Church tower on Whit Sunday, 1879. Some little misunderstanding arose, and the ringers were banned from Braintree Church tower, and they exercised their art at Bocking Church. There was a vacancy in the living, and the Rev. J. E. Seaman took charge of Braintree, and proved a great friend to the ringers. A number of young fellows used to ring 'Churchyard Bob' on the Braintree Church bells. A meeting was held at the vestry, at which the wardens, Messrs. J. Rust and R. Crickmore, were very favourable towards the ringers and change ringing was revived. On Whit Monday 1879 the Essex Association was formed at Writtle, and Messrs. Rudkin, Edwards and Dyson went from Braintree to help to form it, and those three original members of the Essex Association were present that day (applause).

The Rev. H. T. W. Eyre: And I was there also (hear, hear).

Mr. Dyson said change ringing progressed in Braintree, which became known in the country as ringing a great variety of six-bell methods. In those days there were no cycles or motors and people used to walk long distances to ring. Mr. T. Barker and others used to walk seven miles each way from Stebbing to ring at Braintree, and Mr. S. Hammond used to walk ten miles from Braintree to Great Tey to get a ring on the eight bells there. Members of the College Youths used to visit Braintree for ringing. In 1884 Mr. F. Rudkin conducted a peal in 14 methods on six bells at Braintree, and this was the first six-bell peal recorded in the College Youths' peal book (hear, hear).

MR. HOWARD'S SERVICES TO ESSEX RINGING.

Feering and Halstead were proposed for the next meeting-place, and on a vote Halstead was carried by 19 to 11.—The Master reported that Mr. W. H. Dyson was secretary and Master of the Northern Division and he was willing to continue either office.—Mr. L. W. Wiffon (Braintree) was elected Master, and Mr. W. H. Dyson secretary.

The Rev. H. T. W. Eyre proposed thanks to the Vicar of Braintree for the use of the bells and arranging the service to Miss Williams for playing the organ, and to the Braintree members for the kind welcome.—The Rev. R. Williams suitably responded.

Mr. F. J. Pitstow proposed thanks to Mr. C. H. Howard for his hospitality in providing the tea, and said it was hardly appreciated

the great work Mr. Howard did for the County Ringers' Association. They would never find another Master like him who could give the time to attend meetings as he did in all parts of the county. In hundred years' time people would read about what Mr. Howard had done during his long term of office for ringing in Essex. Mr. Pitstow said Mr. Howard was continually advocating the augmentation of bells in other parishes, and he suggested that two new trebles should be added to the Braintree ring of eight, and that Mr. Howard's name should be inscribed on one of the new bells (hear, hear).

Mr. C. H. Howard, in reply, said he appreciated the large attendance of members at that meeting as a compliment to Braintree. Braintree was not an extraordinary place for ringing but it was on the map (laughter), and it had eight bells, and the local ringers performed their duties in the right spirit. The Master said he would bear in mind Mr. Pitstow's suggestion to add two more new bells to Braintree tower. He remembered when the last two bells were added to the ring to celebrate the 700th anniversary of Braintree Church in 1899 and those bells were hung and paid for six months before the dedication festival, although it had been said he would never get the money for them (laughter). The Master went on to speak of former big meetings of ringers at Halstead and Kelvedon, and said the interest now shown augured well for the future Essex Association. The bells at Methersfield Church, which had been on the floor five or six years were now to be rehung, and he hoped they would also be retuned and he heard again. Other rehangers were going on, and at a church a few miles from Braintree it was possible a new treble would be added to the ring of five. There would not have been so many augmentations of bells in the county in recent years but for the Essex Association, the officers of which were generally consulted when such works were contemplated (applause).

In the evening the bells of the Braintree and Bocking Churches were rung in the following methods: Cambridge and Superlative Surprise, Double Norwich and Treble Bob Major, Stedman and Grand-sire Triples.

CAMBRIDGE SURPRISE MINOR.

'A WONDERFUL PRODUCTION.'

To the Editor.

Dear Sir,—I should like, with your permission, to congratulate the Rev. E. Bankes James on his peal of Cambridge Minor. It is a wonderful production even for a master mind. It is difficult to see how even the most bigoted purist can find a fault. If rounds is taken as the initial change of the first 720, each extent is complete without repetition. The fact that the rows 123456 are not 720 changes distant from each other does not affect the purity of the composition. In any peal of Minor rows are bound to repeat in a succeeding extent before 720 changes have been rung, and as a row, rounds is no different to any other.—Yours faithfully,

Sunderland,

JOSEPH W. PARKER.

A SILVER WEDDING.

PRESENTATION TO MR. AND MRS. TOM GOFTON.

On Monday night, October 8th, the ringers of St. Paul's Church, Whitley Bay, met to do honour to their conductor and his wife, Mr. and Mrs. T. T. Gofton. The occasion was their silver wedding, and a presentation was made to them, consisting of a beautiful hanging clock, which strikes the Cambridge chimes and the hour on delightfully toned gongs. Mr. George Holmes, who made the presentation, on behalf of the ringers, eulogised Mr. Gofton as a master ringer, teacher and conductor and mentioned the good friendship which Mr. Gofton always maintained with the whole band how he welcomed visitors, and the care and patience which he exhibited in the teaching of new young ringers. The progress of the members of the bell-ringing in the many difficult peals which they have rung, had been due chiefly to the ambition and hard work of their conductor. Mr. Holmes also referred to the excellent qualities of Mrs. Gofton, who had been honoured and esteemed not only by the ringers, but by the whole district inasmuch as over four years ago she was elected unopposed as the first and only lady member of the local District Council, a position which she still holds to-day, with credit to herself and the entire satisfaction of her electors. Mrs. Gofton entered whole-heartedly into her husband's hobby and gave him every encouragement in the art.

Mr. Gofton who is a man of few words, but immediate action, suitably replied, and was splendidly backed up by his entertaining wife.

LINCOLN DIOCESAN GUILD.

THE APPEAL FOR TWELVE BELLS AT THE CATHEDRAL.

The quarterly meeting of the Eastern Branch was held at Old Bolingbroke on Saturday, Oct. 20th. Members attended from Benington, Butterwick, Croft, Frampton, Freiston, Stickney and Wrangle. The Rev. H. Law James, Ringing Master of the Guild was present, as was also Mr. G. Ladd, hon. secretary Eiloe Deaneries Branch, the former having cycled from Surfleet, and the latter from Pinchbeck, two miles further. A short service was held, conducted by the Rector, the Rev. E. C. Pain. Tea was partaken of at the Duke's Head Inn. Following this the usual business meeting was held, the Rector being voted to the chair.

The Rev. H. Law James again spoke very strongly on the matter of raising funds for placing four new trebles to the existing ring of eight in St. Hugh's tower of Lincoln Cathedral, to the memory of those members of the Guild who gave their lives in the great war, and in connection therewith the secretary was instructed to issue collecting cards to all towers where there are members of the branch.

Frampton was unanimously chosen as the place for the next meeting (the annual meeting).

The Rector was heartily thanked for the use of the bells, for his able address at the service, and for presiding over the business meeting. After the meeting the tower was again visited and the bells, a nice-toned peal of six in F sharp, one of the first to be tuned on the Simpson principle, were kept going in the following five and six-bell methods: Stedman Doubles, Plain Bob, Double Court Oxford and Kent Treble Bob. A course of Cambridge Surprise was also successfully brought round. Although only about 15 or 16 ringers were present, yet a very enjoyable meeting took place.

ELY DIOCESAN ASSOCIATION.

A meeting of the Archdeaconry of Huntingdon was held at Somersham on Saturday last, when members were present from Ramsey, Godmanchester, Chatteris, Cambridge, Dry Drayton, Newmarket, Sutton, Longstanton, Willingham, and the local ringers. Service was held in the church, with a short address by the Vicar, the Rev. H. P. D. Pinkey. Tea was served in the boys' room at the Vicarage.

At the business meeting which followed, the Vicar took the chair. A letter was read from the district secretary, the Rev. H. B. Woolley, Longstanton, expressing regret at being unable to be present, through illness, and wishing the meeting every success. Mr. T. R. Dennis was, therefore, asked to act in his place.

The Rev. H. P. D. Pinkey was unanimously elected as hon. member and Messrs. J. Ransome and R. Lowe (Somersham) as ringing members.

It was decided to hold the next meeting at Huntingdon in January next year.

Votes of thanks to the Vicar for the use of the bells and taking service, and Miss Pragnall (organist) concluded the meeting.

During the afternoon and evening touches of Plain Bob, Kent Treble Bob and Cambridge Surprise Minor, and two 120's of Stedman Doubles were rung, many ringers getting their first touches in the various methods.

A BERKSHIRE AUGMENTATION.

On Saturday, October 13th, a new treble bell was dedicated at the Parish Church, Neasmore, Berks, to the memory of George Hedges, who had served the church as chorister for 55 years and bell ringer for 45 years, 32 years of which he was a member of the Oxford Diocesan Guild, and foreman of the local band. The ceremony took place at special evening at 3.30. The 19th Psalm was chanted, the first lesson being read by the Vicar of Cheysey, and the second lesson by the Rector of Welford. A procession then was formed, and headed by the crossbearer, marched to the tower, where the dedication ceremony was performed by the Rev. C. W. O. Jenkyn, Master of the Oxford Diocesan Guild. A short peal was rung by the local band as the procession returned, and after the special prayers the ringers' hymn, 'Ring forth, holy bells,' was very heartily sung. The Master preached an especially appropriate sermon from the words, 'Thou mayest add thereto.' The preacher said that, like David, their dead friend was not permitted to see the completion of the work so near his heart. That was to be done after, as a memorial to him, who was a good English Churchman. During the singing of the hymn, 'The sacred bells of England,' a collection resulted in a considerable addition to the bell fund. Tea was served in the Church Room, the Rector (the Rev. C. L. Jeaves) and Miss Strange Brown, with many lady helpers providing a bountiful repast. The bells were kept going afterwards with touches of Stedman, Grandsire and Bob Doubles, Cambridge Treble Bob and Bob Minor. All were well pleased with the tone and 'go' of the bells, which are now an exceptionally well-balanced and tuneful ring, with tenor 8 cwt. in B flat. Most of the towers in the Newbury Branch were represented, the hon. secretary (the Rev. E. W. Thorpe) and the general secretary of the Guild (Mr. R. T. Hibbert) being among those present.

Messrs. Mears and Stainbank have carried out the work, which included the provision of three large iron girders to sustain the weight of the bells, as the main beams showed signs of decay.

RUTLAND SURPRISE.

By ARTHUR CRAVEN.

In introducing this useful and musical method to the Exercise, I must first of all explain that it is one of the 'Cambridge' and 'Yorkshire' Surprise family, and is the outcome of my endeavours to clear the false rows and the adjoining places in 1-2 from these methods. I think an examination of the method rung at Bolsover will prove that I have been successful. The musical qualities are equal to those obtainable in such methods as Bob Major or Double Norwich. The bob is made in 4th's place. There is only one false course in Major with the tenors together, i.e., 24365 and when a bob Before is used the lead where this occurs is cut away. The method extends perfectly to any number of bells and in Royal and Maximus carries a clear proof with tenors together. I append the extension of the method to 10 and 12 bells, and recommend Surprise ringers to give it their attention, which I am certain they will not regret.

DEATH OF MR. H. BROOKE.

WINNER OF MANY PRIZES.

The death has taken place of Mr. H. Brooke, of Liversedge, who has passed away at the age of 67 years. Deceased who was well known in Yorkshire ringing circles, had won between 50 and 60 first prizes in tower bells and handbell contests. He had also been successful at Belle Vue, Manchester, with the Liversedge Albert handbell ringers. In these competitions he helped to secure five first prizes and three seconds. Among the many peals he had rung were five of Cumberland Exercise Major and five of Violet Treble Bob Major. One of his best performances was in September, 1891 when he won the first prize at Belle Vue, Manchester, handbell contest, and on the following day won the first prize with the Liversedge company at Almondbury on tower bells, an achievement he was always proud of.

The funeral took place on September 29th at Liversedge Parish Church, the bearers being seven of his ringing colleagues. Muffled ringing took place on Saturday, Oct. 13th, 2,688 changes being rung in 1 hr. and 45 mins. by the following: Ben Cooke 1, Sidney Goodall 2, Edward Crabtree 3, Walter Knott 4, F. Hodgson 5, Ernest Gatts 6, Edward Crowther (conductor) 7, Herbert Peel 8.

BISHOPSTOCK HANTS.—On Sunday, Sept. 30th, for service in the evening, on the occasion of the harvest festival, 1,008 Grandsire Triples: E. Wilson 1, C. H. Giles 2, G. Pullinger 3, W. G. Edwards 4, E. Ayliffe 5, G. Grant 6, W. T. Tucker (conductor) 7, C. Ayliffe 8.

THE DAY OF REMEMBRANCE.

What is the right thing to do with the bells on Armistice Day? It is one of the occasions when the bells have their part to play in a national commemoration, a commemoration, by the way, which recent controversy has shown is deep set in the hearts of the people. No other anniversary throughout the year touches the spirit of the nation as does the eleventh of November, and nothing out of harmony with the feelings of the public should be done in any tower. Various views have been expressed in our columns, but we think those which are given in this issue are those which, on reflection, ringers everywhere will agree are most consistent with the commemoration. The Durham and Newcastle Association has issued a general request that, at the churches in its area, ringing before the service at which the Silence is to be observed, shall be half-muffled, and that subsequent ringing shall be with open bells. That, too, is the trend of other opinions, and we think this is the most expressive way in which the bells can be used.

Unquestionably the anniversary of the conclusion of the most terrible war in history, is a day for rejoicing, but we cannot overlook the fact that the day is also a Day of Remembrance. We shall all go to our churches or our war shrines on that morning, filled with the thoughts of those brave dead, who gave everything, even life itself, for their country, and bells that ring for such a service would, we feel, not be in sympathy with the feeling of the moment unless they were half-muffled. At the conclusion of the service of remembrance, however, it is fitting that the spirit of rejoicing should prevail, for never, surely, in the world's history was there a moment which brought greater relief to millions of mankind than the hour of the Armistice. The strain of more than four years of war, with its suffering and anguish, was lifted, and it is with a feeling of thankfulness that we can celebrate the anniversary.

To adopt the suggestion made by the Durham and Newcastle Association, which other correspondents' letters support, will not tend to make the occasion the day of gloom, which Mr. Cave is desirous of avoiding, but in our view the least ringers can do as their contribution, publicly made to the celebration of the Day of Remembrance, is to ring the bells half-muffled for the service at which the most impressive feature of the anniversary will be observed. What we hope is that there will be unanimity of action, and that in every tower throughout the land the same practice will obtain. The opportunity of taking part in a national commemoration presents itself to ringers in a unique way on Armistice Day, and we trust it will not be lost. Associations might do as the Durham and Newcastle has done—give a lead to their towers in this matter. There is yet time.

LISTENING IN!

An unexpected and rather delicate problem, says the 'Morning Post,' is arising in many localities where the parish church possesses a peal of bells and a keen body of bell ringers. Equally keen listeners-in are protesting that much of their pleasure is spoilt by the noise of the bells on practice nights. Yet bells are not of much use if they are not rung, and in order to be rung properly the ringers must practise. With a little give-and-take on both sides there seems to be no reason why listeners-in should not be able to have their full enjoyment and the bell ringers their accustomed practice.

**THE WARWICKSHIRE GUILD.
OVERLAPPING DISCUSSED.**

The October quarterly meeting was held at Stoke-in-Coventry. Upwards of 30 members were present from Allesley, Birmingham, Coventry, Exhall, Rugby, Stoney Stanton, Chilvers Coton, Warwick, Higham, Monks Kirby, Nuneaton and the Stoke band. The bells were open at 3 p.m., and the Guild's special service was held in church, conducted by the Rector (the Rev. C. C. Potts) assisted by the curate (the Rev. C. D. R. Sharpe). The Rector gave an interesting address. After the service a capital meat tea was provided in the Parish Room, at which the following ladies kindly gave their assistance: Mrs. Potts, Mrs. Sharpe, Mrs. Abbott, Mrs. Morris and Mrs. A. Roberts. It need hardly be said that full justice was done, and the members are greatly indebted to the Stoke friends for their kind hospitality.

The business meeting followed, and in the unavoidable absence of the president (the Archdeacon of Warwick), the Rector presided. He was supported by the Rev. C. D. R. Sharpe, the Rev. Frank Melville (Vicar of Exhall), Mr. A. Roberts (Ringing Master), and between 30 and 40 members.

Messrs. H. Argyle and A. Roberts were re-elected representatives on the Central Council. The Rev. F. Melville (Vicar of Exhall) and the Rev. Robert L. E. Oliver (Vicar of Monks Kirby) were also elected honorary members of the Guild. Three other gentlemen were elected ringing members.—Chilvers Coton was selected for the next quarterly meeting in January.

A discussion took place with reference to holding the annual meeting earlier in the year, and eventually a notice of motion was given to move at the next quarterly meeting, 'that the annual meeting be held in April instead of July.'

Another subject that provoked a deal of discussion was 'Why does the Midland Counties Association hold meetings in Warwickshire?' Ultimately a motion that the matter be allowed to drop was carried.

Votes of thanks were accorded the Stoke friends (including the ladies) for the splendid tea, to the Rector for the use of the bells, for arranging the service, giving the address and for the Parish Room for the meeting.

The Guild's hearty congratulations were accorded the Stoke band on ringing the first peal of Bristol for the Guild.

The ringing during the afternoon and evening included Grand sire and Siedman Triples, Plain Bob and Double Norwich Major, London, Bristol, Cambridge and Superlative Surprise. Some excellent double-handed ringing was also accomplished. The falling of the bells in peal brought the ringing and a very pleasant meeting to an end.

**FOUR SHIRES GUILD.
A COMPETITION MEETING.**

The 'Four Shires Guild' held their half-yearly meeting and competition at Wootton-Wawen on Saturday, Oct. 27th, when competitions in rising and falling, call changes and method ringing, took place. Owing to the very wet day, the attendance was not so large as usual. Ringers were present from Moreton-in-Marsh, Ilmington, Campden, Ebrington, Quinton, Stratford-on-Avon, Aston-Cantlow, Henley-in-Arden, and the local band. The judging was ably carried out by Mr. Walter Large, Stretton-ou-Posse, and Mr. James Hemming, of Hampton, and they awarded the points per cent., as follows: Ilmington, Rising and Falling, 98; Call Changes, 99; Method, 100. Moreton-in-Marsh, Rising and Falling, 96; Call Changes, 95; Method, 98. Ebrington, Rising and Falling, 71; Call Changes, 74; Method, 68. Quinton, Rising and Falling, 50; Call Changes, 69; Method (did not compete). The home team is not allowed to compete, but is awarded the average number of points on the day's ringing, namely, Rising and Falling, 78; Call Changes, 87; Method, 85.

At the close of the competitions a service was held, and a most impressive sermon was preached by Mr. E. T. Boyd-Wilson, Diocesan lay reader. After the service, about 60 members and friends sat down to an excellent meat tea, provided by friends in Wootton-Wawen.

At the business which followed, the handsome challenge shield of the Guild was presented to Ilmington, this tower having gained the greatest number of points on the year's ringing, namely, 573 out of a possible 600. The judges spoke of the great improvement in the ringing at this meeting, and congratulated the young towers on the plucky way in which they rang in this, their first competition.

The Secretary advised the young towers to put their shoulders to the wheel and get on with method ringing, and also urged the older towers to try and advance a little farther along the campanological road. He impressed upon them the fact that, if they could but realise it, the competitions were lost and won in their own towers.

The Secretary also spoke of the great loss to the Guild by the death of Brother Samuel Marshall Russell, who died from the effects of wounds, gas and hardships, which he endured while a prisoner of war.

The company showed their sympathy and respect by standing for a minute in silence.

This brought the meeting to a close, and after the National Anthem had been sung the belfry was again visited for further ringing.

BELFRY GOSSIP.

Good wishes to Mr. William Newell, of Reading, who will reach his 85th birthday on Thursday next. Few people have done the spadework for ringing that the 'father' of the Reading ringers has done.

The 'Bury Post,' of Nov. 5th, 1788 recorded a handbell peal of Bob Major at Nowton, in which the tenor was rung by a girl of 13.

The first peal of Superlative Surprise was rung at Huddersfield on November 5th, 1821.

Thirty-five years ago next Thursday the Burton-on-Trent men rang a 6,720 London Surprise Major.

The first 'name' peal was rung by a band of Williams at St. Martin's-in-the-Fields on November 3rd, 1796. This was a peal of Grandsire Caters and William Shipway was one of the band.

Milton-next-Gravesend, Kent, band are out for something in the way of a local record, if not extending beyond 'local.' At present only three 720's London Surprise have been rung on the bells, and all by the same band, with three different conductors. They hope before long to record six different conductors with the same band in the first six extents in the method.

During matins at St. Clement Danes, Strand, on Armistice Day, a procession of clergy, choir and congregation will proceed to the war shrine, there to lay Offerings of Remembrance. A wreath will be placed on the war shrine from ringers. The service will begin at 10.45 a.m., and details of the ringing will be found in our notice columns.

The little booklet entitled 'Why are you a ringer?' written with the sole object of impressing on ringers the sacred part of the church work which they are called upon to perform, has been in big demand. Copies are twopence halfpenny each, or twelve for 1s. 6d., including postage, and can be obtained from Mr. W. J. Southwood, 14, St. James' Road, Exeter.

The centenary of Samuel Lawrence, one of the greatest ringers of his day, was celebrated by a peal at his native place at Shifnal, Shropshire on Saturday.

A number of peal reports are unavoidably held over until next week.

BIRTHDAY CELEBRATION AT LEICESTER.

PRESENTATION TO MR. HAROLD J. POOLE.

The whisper went round the belfry, 'the youngster's twenty-one on October 21st, and a feed would be an excellent way of celebrating the event; shall us?'

The reply was short and to the point: 'Yes, let's.'

The 21st falling on Sunday meant that another day would have to be found for the gathering, and Tuesday, the 23rd, was selected. The detective-sergeant was detailed to make the necessary arrangements, his knowledge of the capabilities of the various houses in the city 'within the meaning of the Act' being unique. At 7.30 prompt on the day appointed, the ringers and friends assembled. It was quite a ringers' 7.30, the last one strolling in only twenty minutes late: All who had promised to attend turned up, with the melancholy exception of the organiser, who unfortunately was ordered to bed by his doctor the previous day. The sympathy of all went out to him. His wife made a good substitute, however, and brought up the number to the full total. At the word 'go' nineteen knives and forks got busy on the excellent fare provided to which full justice was done. A convivial evening followed. The 'dairyman' was appointed to the chair. Tunes and changes on handbells were the first items on the programme followed by songs by Messrs. Wm Webb, H. W. Needham and A. Martin.

The Chairman after making a short and appropriate speech, handed to Mr. H. Poole a framed photograph of the record Cambridge Major band, with the best wishes of the St. Martin's Society, and wishing him 'many happy returns.'—Mr. Poole made a short and breezy reply.

The whole party then drank to his health, after which Messrs. Webb and Broughton most successfully slaughtered the well-known duet, 'Larboard Watch.' One had forgotten the words and the other the tune. The pianist, R. F. Elkington, alias 'Anstey' for short—did not help matters by attempting to play the piece with the score upside down! The old St. Martin's Birmingham, man who was present had something to be thankful for, in the fact that he is as deaf as the proverbial stone.

Recitations by the worthy host and Mr. Weeks and a song by Mrs. Weeks then followed. The funny man of St. John's—sometimes known as 'A Flat'—gave a striking representation of a zoological garden in a fit. Further handbells ringing brought a most successful evening to a close.

The only fly in the ointment in connection with the celebration was that a specially arranged attempt for Cambridge Royal at St. Martin's on the previous Saturday came to grief owing to a rope breaking after 23 hours' excellent ringing. The disappointment was the keener for the fact that the previous twelve attempts for Surprise Royal which had been arranged for nothing in particular, were successful. Still thirteen always was considered to be unlucky.

ARMISTICE DAY RINGING.**DURHAM AND NEWCASTLE ASSOCIATION DECISION.**

At the annual meeting of the above Association, held on Saturday last, the question of Armistice Day ringing was fully discussed.

It was unanimously decided that the bells be rung half-muffled 'as a tribute to the fallen' (it being a day of remembrance as well as of rejoicing), for the morning service, be it at 10.30 or 10.45, or thereabouts. After the two minutes' silence, the bells to be rung open for the remainder of the day for whatever ringing takes place.

All bands of ringers connected with the Durham and Newcastle Association are asked to fall in line with this decision.

The programme for ringing at Newcastle Cathedral is ringing half-muffled for the 10.45 a.m. service. Ringing open directly after the service, during the afternoon, and for the evening service.

'FOLLOW THE WAY OF THE CHURCH.'

Sir,—Is it not best to follow the way of the church in this matter? The joy of her festivals is preceded by the sorrow of the vigil or fast in order to remind us of our Lord's words, 'Your sorrow shall be turned into joy.' Let the bells give out the same message. Before the Silence let the bells ring muffled, or a Requiem peal. After it the loud peal of thanksgiving. This ringing could be either immediately before and after the service which accompanies the Silence or on the preceding and following days (or even weeks). Such a method of ringing would I think, be both understood by people generally, and appreciated.

A DAY OF REMEMBRANCE.

Sir,—While there is much in Mr. Cave's letter which will appeal to many, I regret that I cannot go all the way with him in his argument. He says he hopes it will not become a second Good Friday. Well, Good Friday is a movable date, and is fast losing its significance, and after all, although our Lord gave up His earthly life—these men did the same, and 'Greater love ———' You know the rest.

The first Armistice day was an orgy of riotous liberty from the nightmare of four and a half years. There was then no cenotaph or war memorial anywhere. Since that time the day has been set apart—as far as is practicable—as a day of remembrance. The two minutes' silence was intended to be universal Empire homage, but is any honour too great for the men who died? To my mind, if any ringing is done at all, it ought to be muffled for the memorial service.

The recent public outcry against the cancellation of the cenotaph service has caused the Government to reinstate it. This shows the hold the day has upon the people, whether sacred or secular at other times. To ring 'open' for the memorial service would be equal to rejoicing on Good Friday over the murder of Christ—though there are some sects who 'glory' in the death of Him. Armistice Day service has become an institution and it makes men think. Even if by adding our quota of muffled bells, it brings back the sorrow of other days: better that than callousness. When a nation forgets the horrors of war, it is ready to embark again. May we never forget.—Yours sincerely,

W. WILLSON.

AN EFFECTIVE REMINDER.

Dear Sir,—Will you please give me a little space in your widely read paper to 'broadcast' these few lines. Armistice Day is essentially a day of remembrance.

With proud thanksgiving, a mother for her children,
England mourns for her dead across the sea.

Flesh of her flesh they were spirit of her spirit,
Fallen in the cause of the free

The most appropriate service ringers can render on Armistice Day as an act of thanksgiving, and also as a tribute to the immortal memory of the fallen is to ring a quarter-peal for the morning service with the bells half-muffled. There cannot be a more fitting prelude to the impressive memorial services which will be held in our churches on that day. There is the open note of praise and thanksgiving, and then the muffled tone, resembling, as it does, a divine answer of the departed, echoing from the heavens—a common communion with them. It is not given to any other instrument of music to sound to all mankind such an effective reminder of this sacred day. For the remaining services of the day the bells should be rung open.

It is not necessary to make this day a second Good Friday, neither is it necessary to remind your readers that so long as the great war remains within living memory those gallant brothers who 'paid the price' of victory will not be forgotten. One recalls many of them—ringers, choristers, and others—who, had they lived, would have done much in the service of the church.

These were His servants, in His steps they trod,
Following through death the martyr'd Son of God.

This then is the reason why various sections of the community will not be denied paying their acts of remembrance in their own particular way—apart from the official two minutes' silence—and very rightly so, too.

I am sure ringers will welcome the opportunity of paying this beautiful token of affectionate regard to the memory of those who ungrudgingly gave their lives for the land they loved.

For an hour, then, before the appointed time of service let the towns and countryside be flooded with this eloquent and sacred music; and, if I may suggest it, a record of these acts of thanksgiving and remembrance be filed in the columns of this journal.—Yours faithfully,

R. A. HORNSBY,

Hon. Secretary of the Towcester and District
Green's Norton Association.**MUFFLED RINGING APPRECIATED.**

Dear Sir,—May I be allowed to say, in answer to Mr. W. A. Cave, that I can hardly agree that 'Armistice Day' should be more a joy day than anything else. In the first place, my original suggestion was that 'the bells should be rung half-muffled, the open side in joy and gratitude for the blessing of victory, and the muffled side in proud and grateful remembrance of those we loved and lost.' As you sir, truly said in your issue of Nov. 3rd last year, the occasion for rejoicing occupies only a secondary place, and that it is primarily as a Day of Remembrance that this anniversary occupies first place in the hearts of the British people. And as the Archbishop of Canterbury said as reported in your last issue, "that bells had the power as nothing else had of making us all sharers of the same emotions as others in joy or sorrow, sympathy or gratulation, thanksgiving or hope."

With these expressions I am in hearty agreement, and I contend that the most appropriate and impressive manner of carrying out the thoughts and wishes of the public generally is by ringing the bells either half or fully muffled on that day, and I have good reason to know that such ringing is greatly appreciated. While thanking my fellow-ringers for what they have done in this direction for the past two or three years, may I again appeal to them to do their best to 'carry on.'—Yours faithfully,

Wellingborough.

BRISTOL UNITED GUILDS.**ENJOYABLE SOCIAL EVENING.**

A social evening, arranged by the Bristol United Guilds, was held on Tuesday, October 23rd in the St. Thomas' Parish Room. It was a stormy evening, and the weather probably kept many away who would (and should) have been there. The fair sex were very well represented, not all ringers, of course, although there were about seven of those present, four of whom, with Mr. E. J. Brown, gave selections on a peal of 20 handbells, and here we may make a note of the fact that at last we are able to listen to other tunes upon handbells, apart from the well-worn 'Lassie,' 'Soldiers' Joy,' and 'Harvest Home.' They gave a very good performance, and their instructor is to be congratulated on the result of his painstaking efforts. The other items on the programme, all of which were well received, were supplied by Miss Ivy Baker, Mr. W. S. Emery, Mr. Rawlings (cello solo), Mr. Tiley and Mr. Rudman (the two latter also combined in a couple of duets), and last, but by no means least, Mr. Guise's Orchestra, a really first-rate combination of musicians, of whom it was said by one who has had a wide experience that it was the best band he has danced to outside of London. There was an interval for refreshments, coffee, sandwiches and cakes being on sale practically at cost price, and that they were appreciated was shown by the fact that everything was cleared.

The Rev. T. Fowler, president of the United Guilds was the chairman, and he voiced the thanks of the gathering to all who had contributed to the programme, and to the authorities at St. Thomas' for lending the room. The artistes had given their services freely, and the company were all very grateful.

In addition to the Vicar of St. Thomas' (the Rev. M. Paterson) his two churchwardens were both present with their wives, both of whom were seen joining in the dancing, which took place after the interval, and up to 10.15, when 'God save the King' brought a happy evening to a close. A collection taken at the door realised £2 3s. 1½d.

The thanks of all are due and are hereby tendered to all the ladies who were responsible for the refreshments, and also to Mr. Guise for arranging such an enjoyable evening.

DOUBLE NORWICH BY SHROPSHIRE BAND.

On Saturday, Oct. 27th the St. Chad's Society, Shrewsbury, added to their laurels by scoring a peal of Double Norwich. It is only three months since the band began to practise the method, and they are proud of being the first Shropshire band to ring a peal in the method in the county. All are at present members in the Archdeaconry. It is now hoped that higher methods will follow. St. Chad's band will be glad to see any Surprise ringers at practice on Wednesdays at 8 p.m. or Sundays 10 and 5.30 p.m.

MR. REUBEN HALL, OF OLDBURY. AN ACTIVE MIDLAND VETERAN.

In celebration of the 71st birthday of Mr. Reuben Hall, of Oldbury, a peal of Grandsire Caters, in which Mr. Hall rang the tenor, was rung at West Bromwich on October 13th as already recorded in our columns. Born at Bourton-on-the-Water Gloucestershire, Mr. Hall went to the Oldbury district as a young man, and worked at Messrs. Lee's saw mills, Swan Village, for nearly 50 years. He began his connection with Oldbury Church when the bells were installed in 1887 to commemorate the Jubilee of Queen Victoria, and for 30 years Mr. Hall was tower keeper. He also held the position of clock winder, and the clock and chimes did not cost the officials anything during this period.

The peal at West Bromwich was by an interesting coincidence Mr. Hall's 200th, and he was congratulated both upon this and upon his birthday, as well as upon the excellent way in which he rang the 25 cwt. tenor.

MR. REUBEN HALL IN THE BELFRY.

After the peal, ringers and friends adjourned to the Plough Inn, where an excellent spread awaited them, kindly provided by Mr. Hall. After justice had been done in the evening was spent in selections on the handbells, Messrs. Jaggar, Screen and Hall playing a prominent part.

The best thanks of those present were passed to Mr. Hall for so kindly entertaining them, and the sincere hope was expressed that he might enjoy good health to take part in change ringing for many years to come.—Thanks were also tendered to Mr. and Mrs. Reeves for the kind and able manner in which they catered for the party, also to Mr. Edward Reeves for making the arrangements.

The following is the list of Mr. Hall's peals:—Stedman Cinques, 5; Stedman Caters, 14; Stedman Triples, 44; Grandsire Cinques, 2; Grandsire Caters, 61; Grandsire Major, 2; Grandsire Triples, 41 (conducted 2); New Grandsire Caters 1; New Grandsire Triples 2; Bob Royal, 1; Bob Major, 14; Bob Triples, 1; Kent Treble Bob Royal, 1; Kent Treble Bob Major, 3; Forward Major, 2; Canterbury Pleasure Major, 1; Erin Cinques, 1; Darlaston Bob Triples, 3; Oxford Bob Triples, 1. Total 200; conducted, 2.

Among the peals of Grandsire Caters was one of 11,563 at St. Peter's, Wolverhampton, and another, half-muffled, of over 9,000 changes, the longest half-muffled peal on record.

PRESENTATION TO WILLIAM LAWRENCE.

Mr. William Lawrence, of Ealing, has recently retired, on a pension, on reaching the age limit from the Fire Brigade section of the Architect's Department of the London County Council. The appointment which Mr. Lawrence held was gained in open competition, and the esteem in which he was held by his colleagues has been shown by a presentation made to him, consisting of a solid silver, bell-shaped inkstand, accompanied by a cheque. The inkstand was supplied by Mr. G. Langford, Woking, and was finely engraved with the following inscription: 'Presented to William Lawrence on his retirement, as a token of esteem from his colleagues in the Architects' Department of the London County Council.'

YORKSHIRE ASSOCIATION.

SOUTHERN DIVISION MEETING AT DORE.

The quarterly meeting of the Southern Division was held (by kind permission of the Midland Counties Association) at Dore on Saturday, October 20th. A nice bright day, a place easy of access, and a beautiful little peal of eight bells, all helped to attract visitors, upwards of 40 being present, the towers represented being Arksey, Barnsley, Ecclesfield, Eastwood, Handsworth, Horbury, Rotherham, Sheffield (the Cathedral, St. Maries' and All Saints), and Wortley, also out-county members from Bolsover, Chesterfield, Norton, Killamash and Treeton. A short service was held in the church, at which the Vicar (the Rev. W. R. Gibson) officiated, and gave a short address. The organist and choir-boys also attended, and helped to make the service a very bright and cheerful one. A splendid tea was provided in the Schoolroom by the local company and their ladies.

Prior to the meeting the gathering was entertained by the Sheffield Cathedral company, who rang a course of Stedman Cinques on the handbells in faultless style. The Vicar was so delighted that he engaged them on the spot for a concert on Shrove Tuesday next.

At the business meeting which followed, Messrs. F. Garner (Arksey) and H. Revill (Ordsall) were elected to membership of the association, and Rawmarsh was selected for the next meeting if the necessary permission can be obtained. This is to be held on Dec. 8th.—Votes of thanks were passed to the Vicar for his address, the churchwardens, the organist and choir-boys; the ladies for their services at tea; the steeplekeeper for having everything in readiness; and last but not least to Mr. J. E. L. Cockey for the very able manner in which everything had been arranged for the welfare and comfort of the visitors.

It is very pleasing to note that during the day several of the local company were successful in getting through their first touch of Kent Treble Bob Major.

NORTHERN DIVISION GROWTH.

A quarterly meeting of the Northern Division was held at Thirsk on Saturday Oct. 20th. The meeting was well attended by members from that part of the division, and the weather being exceptionally fine everybody had a very pleasant day. It was the first time the association had visited Thirsk, and members who were not present will be pleased to know that the whole of the Thirsk band were elected members of the association, and the Vicar of Thirsk became an honorary member.

A service was held in the church, when the Rev. K. P. H. Austen welcomed the ringers to Thirsk, and spoke to them on the pleasures as well as the usefulness of their art.

A business meeting took place immediately after tea the Rev. E. Drage, vice-president of the association, being in the chair. The ringers were also pleased to welcome as their guest Canon England, of Hessle. Ringing friends, who are interested in the work of the association in this large and scattered district of the North of Yorkshire will be gratified to learn of the increased number of ringers in this district. Fifteen new members were elected at this meeting, making a total of 12 since the reorganisation of the Northern Division in 1920.

It was decided to hold the next meeting at Saltburn on the third Saturday in February and it is hoped ringing friends in the North will make a note of this date, and where possible, make an effort to attend the meeting.

LINCOLN DIOCESAN GUILD.

BETTER ANNUAL REPORT WANTED

A meeting of the Gainsborough District was held at Kirton-Lindsey on Saturday, October 20th, but was poorly attended members being present from Gainsboro' and Brigg, in addition to some of the local company. The bells were kept going in various methods during the afternoon and evening. Tea was followed by the business meeting, at which Mr. E. Dawber of Gainsborough, presided. An apology of absence was read from Canon Hicks, of Messingham.

Mr. F. W. Atkinson proposed, and Mr. C. H. Baker seconded, that a better annual report be published by the Guild, something after the pre-war style, giving the names of the officials in the branches, also the names of the members in every tower in the branches, the district secretaries' names etc.

The district secretary was instructed to write the general secretary of the Northern Branch and express their views on the matter.

It was also resolved that the secretary write to the Rev. Parry, of Bigby, congratulating him on ringing a peal at Bigby.

Regret was expressed that Mr. F. S. W. Butler, of Gainsboro', was unable to be at the meeting owing to an illness, and the secretary was asked to convey the meeting's sympathy to him.

Votes of thanks to the Vicar and churchwardens for the use of the bells and also to the ladies for providing the tea, concluded the meeting.

LANCASHIRE SURPRISE.

Dear Sir,—Please withdraw all claims to the method we rang at Leiston as Rochester Surprise. It was quite an oversight, and we wish it to be called by the original name, as first published, Lancashire Surprise.—Yours truly

C. F. BAILEY.

SURPRISE METHODS.

To the Editor.

Sir,—Now what is the Central Council of Church Bell Ringers to do with that 'Collection of Legitimate Methods'? On page viii it is stated:—

'(5) Delight method, having places made at all but one cross-section.

'(6) Surprise having places made at all the cross sections.'

The Rev. E. Bankes James published a method called 'Bristol Surprise.' Now, Mr. A. Craven publishes a method called Rutland Surprise. Both methods are against the ruling laid down in the book, as they do not contain places at all cross-sections. Are we to condemn the book, or are we to condemn the method? The Major, Royal and Maximus are three different methods.

JOHN CARTER.

THE PEAL AT LIVERPOOL.

This peal was the 1st on twelve bells by the 2nd and 3rd ringers, and the first peal of Maximus by the treble, 4th, 5th, 6th, 8th and tenor ringers. Half an hour before the peal Mr. Sperring had never seen twelve ropes hanging down in one tower much less rung on twelve, and the conductor had never previously called 'go' on twelve. The band much regret the absence of the genial Ringing Master of St. Nicholas, who should have called the peal but was prevented at the last moment. Messrs. G. R. Newton Jones, Fisher and Pickett were elected members of the Chester Guild, and Mr. Pickett was elected a member of the Lancashire Association before starting for the peal, which was the first of Maximus by the Chester Guild.

WEDDING BELLS.

ROYAL CUMBERLANDS MARRIED.

Once again it is our pleasure to record the marriage of a pair of ringers—this time from the Royal Cumberlands. On October 21st, at the Church of St. Martin, Gospel Oak, Mr. C. J. Matthews (eldest son of the Master) was united to Miss Kitty Smith (eldest daughter of a past Master), the ceremony being performed by the Vicar, in the presence of a goodly assembly of relatives of both families. A reception was afterwards held at the home of the bride's parents, whilst the peal of six were ringing out merrily, the ringers afterwards joining the party to wish the newly-wedded couple 'all the best.' Mr. F. Smith gave away his daughter, who was simply dressed in fawn, and carried a bouquet of chrysanthemums. Mr. C. Smith acted as best man. The couple afterwards left for Eastbourne.

On the following evening a peal of Double Norwich was rung to mark the occasion at Highgate, where the bride learned her ringing, and has taken part in a few peals.

ELY DIOCESAN ASSOCIATION.

Although numbers were smaller than usual, owing to the rough weather, a very successful meeting was held at Littleton on Oct. 27th. Members were present from Royston, Melbourn, Cambridge, Newmarket, Sawston and Trumpington. Methods rung included Stedman Doubles, Plain Bob, Double Court, Kent and Oxford Treble Bob, Oxford Delight, Cambridge and London Surprise.

NOTICE.

BARNESLEY AND DISTRICT ASSOCIATION.—The next meeting will be held on Saturday, November 10th, at Eastwood, near Rotherham. Bells ready early. Members must make own arrangements for tea.—C. D. Potter, Secretary.

KENT COUNTY ASSOCIATION. ROCHESTER DISTRICT ANNUAL MEETING.

The annual meeting of the Rochester district was held at Tunstall on Saturday, October 20th, and over 40 ringers put in an appearance. The bells at this tower have recently been augmented by two new trebles, through the generosity of Mr. Chas. Homewood, to commemorate attaining his 80th year. The work has been most satisfactorily carried out by Mears and Stainbank with their customary thoroughness.

Ringling in various methods was indulged in until 5 o'clock, when the association service was held in the beautiful little church, which was prettily decorated for the harvest festival, the Rector (the Rev. G. H. Green) taking the service, and giving an excellent address on 'The ideals of men.' Mr. W. E. Pitman, Mus. Bac., of Canterbury, proved himself equally as accomplished at the organ as he is at the rope's end, and the choir helped to brighten the service.

Forty-one members sat down to an excellent tea in the Village Hall, and the business meeting followed, presided over by the Rector.

The Secretary read an interesting report of the year's work. They had lost one tower, and gained 11 practising members and deplored the fact that they had, he thought, the smallest number of hon. members in any district in the county. Bell restoration had been going on. Cliffe-at-Hoo had been rehung. Gravesend had an entirely new peal, two more bells had been added to the peal in the tower they were at that day, and the two tenors at Frindsbury had been recast and were hoped to be in by November 1st. Their war memorial was now an accomplished fact, as the two memorial bells were dedicated at Canterbury the week previous by his Grace the Archbishop of Canterbury, and the contributions from the district to date amounted to £11 11s. 11d., of which sum £7 17s. 5d. was collected at church services on the occasion of their meetings. He thanked all for their response to his appeal on behalf of Mrs. Hayes, widow of one of their old district ringers, which had realised £14 8s. Financially, they finished the year, after paying all district expenses with over £16 in hand. Of the peals rung he was pleased to record the first that had been rung on the new peal of ten at Rochester, and while appreciating the efforts of members in peal ringing, he was fully aware of their knowledge that the primary use of the bells was for Sunday service ringing, and he was pleased to see the district well to the fore in that respect.

The report and balance sheet were unanimously adopted.—Three new practising members were elected, and the Rector of Tunstall became an hon. member.

The election of officers followed, and Mr. E. H. Spice (Tunstall) said they were thankful to their district secretary for the way he conducted their business, and he proposed that Mr. F. M. Mitchell (Milton-next-Gravesend) be re-elected.—This was carried unanimously, and Mr. Mitchell in responding, said anything to further the interests of their association and district was a pleasure to him.—On the proposition of the district secretary, the district representatives to the Central Committee, Messrs. Haigh (Rochester) and W. Spice (Tunstall), were unanimously re-elected.

Mr. Haigh conveyed the thanks of the members to the Rector for his address at the service for the use of the bells and for presiding over their meeting, to the choir for their services and to Mr. Pitman for presiding at the organ.—The Rector and Mr. Pitman briefly responded.

The tower at Sittingbourne was open after the meeting, and Tunstall was quite deserted after a course of Superlative, the ringers wending their way through the orchards (the fruit had alas! all been picked), and good use of the bells at Sittingbourne was made with methods up to Cambridge Surprise.

This can be recorded a thoroughly representative meeting as members from the remotest districts put in an appearance, and judging by the way the business was conducted, thorough harmony prevails in the Rochester district of the Kent Association.

MIDLAND COUNTIES ASSOCIATION.

On Saturday, October 20th a most successful meeting was held at Whitwick, Leicestershire. The ancient church, situated in the heart of the Charnwood Forest, with a record of rectors dating back to the ninth century, was visited by some twenty or more ringers from Ugglescote, Loughboro', Whitwick, Shepshed, Burton-on-Trent and Netherseal. The ringing commenced with a touch of Stedman Triples. Further methods were indulged in, including Bob Major and Grand-sire. The bells are rather an ancient lot, and not so very musical, but although it is quite thirty years since they were rehung by Messrs. J. Taylor and Co. the 'go' is excellent.

One new member was elected at the business meeting, viz., Mr. Harry Kirby, of Shepshed, where it was decided to hold the next meeting.

A DATE TOUCH.

On Monday, October 22nd, at Garston Parish Church, a date touch of Grand-sire Triples (1,923 changes): C. Turner 1 R. Kelly 2. J. Hooley 3. W. E. Hughes 4. J. W. Rawlinson 5. W. Hughes (conductor) 6. S. Millership 7. C. Packer 8. Rung in celebration of Mr. and Mrs. J. W. Rawlinson's silver wedding.

LONDON'S NEGLECTED BELLS.

Not without cause, a correspondent calls attention to the neglected state of some of the rings of bells in London and the suburbs. There never was a time, probably, when more rings in the Metropolis were in pealable condition, and yet there are to-day far too many which are left silent because they have gone beyond the point when ringing upon them is practicable. The causes which have led to this state of affairs are those with which ringers are only too familiar. With some it is a case of indifference; sometimes it is lack of funds and opportunity of raising money; in a few isolated instances, perhaps, it is the outcome of a direct desire to keep the bells from being rung.

Greater London is well covered by ringing societies, and there is a fine opportunity for a united effort to bring about an improved condition of affairs in those belfries where restoration is needed. There are few things in which the ringing societies who spread over the Metropolis ever combine, but we believe they might, by united action, bring about an improvement in some, at any rate, of the towers. First of all, it is necessary to remove the indifference where it exists. That is not always easy, but steady endeavour would, we believe, eventually have the desired result, and it is in such cases as these that combined effort is more likely to succeed than the individual action of any one society. Is it possible, we wonder, to form a joint committee of all the societies in and overlapping London to consider this question of the more or less derelict rings, and endeavour to move the authorities concerned? Where mere indifference is the cause such a representative committee ought to be able to awaken interest. In those cases where lack of means is put forward as the obstacle, they would be able, tactfully, to advance reasons why, even for the bells, special efforts should be made to put them in as good an order as the other possessions of the church. Of one thing we may be certain: if a committee speaking in the name of all the societies in London could not induce church authorities to put their bells in order, no body less representative would do so, so that nothing would be lost, while much might be gained.

Moreover, if such a committee could be brought into existence, it might, if it included acknowledged experts in regard to bell hanging as well as to bell ringing, eventually become of permanent service, by remaining as a consultative body in regard to bells in and around London. Their views might also be of value in cases which come before the Diocesan Advisory Committees. At present there seems to be little, if any, means of bringing before

the Diocesan boards evidence of the kind which could be given by a committee such as we suggest. The ringers' view is presented, if at all, only casually, and now that these Diocesan bodies will practically have in their hands the decision in all cases of augmentation or restoration, it would be as well if ringers were able to put their views, where desirable, officially through their own acknowledged experts. It is necessary to tread warily in this matter, but it is one which we commend to the consideration of associations throughout the country, and in which London ringing societies might well take the lead, for they, at any rate, would have a definite task to begin upon.

OXFORD DIOCESAN GUILD.

**CHIPPING NORTON DEANERY WANTS MORE
HON. MEMBERS.**

The Chipping Norton Deanery Branch of the Oxford Diocesan Guild held their autumn meeting at Leafield on Saturday, November 3rd. Upwards of twenty ringers were present for ringing before service from Chipping Norton, Churchill, Charlbury, Witney, Leafield, and also the Rev. C. W. O. Jenkyn Master of the Guild, and Mr. J. H. Shepherd, of Swindon. Touches of Plain Bob and Grandsire were rung. The Guild's special form of service was conducted by the Vicar (the Hon. Rev. N. F. W. Balfour), with the assistance of the Rev. R. H. Hall, of Ramsden, who gave an interesting address. Tea was next partaken of in the Schoolroom, and at the business meeting which followed the Rev. J. W. Palmer (chairman of the branch) presided. He announced that they were all the guests of Mr. Hewitt, who was providing the excellent meat tea free of all cost (applause).

The usual votes of thanks were accorded to all those who helped towards the success of the meeting, especially Mr. Hewitt.

The members made a grant of £3 to the Spelsbury Bell Restoration Fund.

The hope was expressed that more would become hon. members to help to build up a surplus for these needs.

Further ringing afterwards brought a most enjoyable meeting to an end.

SOUTH OXON BRANCH.

The autumn meeting of the South Oxon branch was held on Saturday, Oct. 27th, at Chalgrove, and was fairly well attended, considering the rough weather. Service was held in the Parish Church and a practical address on the history and message of church bells was delivered by the Rector of Great Haseley (the Rev. Bown). After service tea was provided at the Hampden Hall by the kindness of the Vicar of Chalgrove (the Rev. T. O. Floyd). The annual business meeting followed at which the officers were elected, and it was decided to hold the spring meeting on May 31st, 1924, at Long Crendon, Bucks.

The tower was then again visited, and some good touches of Kent Treble Bob and Bob Minor, Stedman and Grandsire Doubles were brought round, with the kind help of the Rev. C. W. O. Jenkyn (Guild Master) and three others from Caversham.

Sympathy was expressed at the absence of the hon. secretary (Mr. P. Wilson, of Warborough), who had to undergo an operation for appendicitis on the preceding Wednesday.

GLOUCESTER & BRISTOL DIOCESAN ASSOCIATION.

The Cirencester Branch of the Gloucestershire and Bristol Diocesan Association held its quarterly meeting at Tetbury, when about thirty members attended, the following towers being represented: Cirencester, Fairford, Wotton Bassett, Dursley, Wotton-under-Edge, South Cerney, Chippenham, Coin St. Aldwyns, Down Ampney, and Tetbury. A good opportunity was thus afforded of trying the recently rung bells at Tetbury, and a very favourable opinion was expressed as to the manner in which the work had been done.

Rev. Dr. Thomson, Vicar of Tetbury conducted a service held in the Parish Church during the afternoon, an appropriate address being given by the Rev. J. R. Foster, Rector of Leighterton.

Tea was afterwards partaken of and was followed by a business meeting. Mr. H. C. Bond, chairman of the Cirencester Branch, presided, and was supported by Mr. F. J. Lewis, Master of the Diocesan Association, and hon. secretary of the branch. Several new members were elected; the recently formed band of Tetbury ringers were congratulated on their progress; and thanks were accorded to the Vicar and churchwardens for the work done in connection with the rehanging of the Parish Church bells.

It was decided to hold the annual meeting at Cirencester in January.

During the afternoon and evening some good touches of Grandsire and Stedman Triples and Bob Major were brought round and several of the learners were helped through their first courses of Triples.

GLOUCESTER BRANCH NEW SECRETARY.

The annual meeting of the Gloucester branch was held at Barnwood on Oct. 6th when about 14 towers were represented. Several methods were rung during the afternoon, and a short service was held, conducted by the Vicar (the Rev. T. H. V. Paton) who also gave an address. Tea followed in the Schoolroom, the chairman of the branch (Mr. W. B. Wood) presiding, and 40 members sitting down. At the business meeting Mr. W. B. Wood was unanimously re-elected chairman of the branch.

The hon. branch secretary (Mr. H. Austin) resigned owing to his work taking him away from the city, and Mr. W. H. Harris was elected to fill the vacancy.

Mr. J. Austin was elected on the management committee, in place of Mr. G. Smith, resigned.

A hearty vote of thanks to the chairman (Mr. W. B. Wood) for his kindness in entertaining the members to tea concluded the meeting.

BELFRY GOSSIP.

When referring a fortnight ago to Lancashire Surprise, we said it had been separately composed three times. We now learn that there has been yet a fourth composer, for in February, 1911, the same figures (unnamed) were sent by the Rev. E. E. James to Mr. A. H. Pulling, of Guildford.

October is a lucky month for the Prittlewell company. The first peal on the eight was rung in October, 1896, the first on the ten in October, 1902, and the first peal of Treble Bob Royal in October, 1923.

Three generations of the Symonds family, of Lavenham, have taken part in a handbell peal.

Curiously enough we also record this week a tower bell peal in which three generations of one family took part. This was at Beddington last Saturday and the ringers included three generations of the Trappitt family, the ringer of the 5th being the father of the treble ringer, and son of the ringer of the 9th. Canon Ridout, who also took part, has since sailed again for South Africa. All will wish him a safe voyage.

Visitors to London for the College Youths dinner will find plenty of opportunity for ringing, both to-morrow afternoon and on Sunday. In addition to the usual arrangements, there is Sunday ringing at St. Clement Danes, which has already been notified, and Bow and Cripple-gate Churches will be open at 5.15 p.m.

Mr. William Rock Small of Tipton, 'father' of the Black Country ringers, will be 84 on Monday, and his many friends throughout the Exercise will extend their good wishes to him. Unfortunately Mr. Small is far from well, and birthday congratulations will, therefore, be joined with wishes for his better health.

The ringer of the 8th in the peal at Wrexham was Arthur Watkin, and not as printed last week.

A Guild of Ringers, has been formed for the new Welsh Diocese of Swansea and Brecon. The new Guild was founded on October 27th, and the first peal rung on October 29th.

A century ago there was at Huddersfield one of the best ringing companies in the kingdom. Among their performances was a peal of 'New Treble Bob Major, 10,080 changes, consisting of thirty-six courses in five hours and forty-five minutes,' rung on Nov. 13th, 1820. The old peal board recording the performance is one of the rare examples which give the figures of the peal.

Recorded in the Junior Cumberlands peal book is a peal of 6,003 'Grandsire Caters on Stedman's principle,' which was rung at Christ Church, Spitalfields on Nov. 13th, 1797. It was 'the greatest number ever achieved in that method,' and, so the record proceeds, 'will remain a lasting honour to the society and an example worthy to be imitated by posterity.' Unhappily, after the figures had been published by Shipway in 1816 they were found to be false.

ARMISTICE DAY RINGING.

On the question of muffled ringing the Rev. H. Law James, Master of the Lincoln Diocesan Guild, sends the following views which he set out in his annual report for 1921:—

'During the war Lincolnshire ringers kept clear of the morbid desire to ring muffled peals, but since the Armistice was signed I notice that muffled peals have been rung on Armistice Day and for the dedication of war memorials, and I feel sure that this mistake is simply due to thoughtlessness. It is an old custom to ring a muffled peal for a funeral, but as soon as the muffled peal was over an open peal for the resurrection always used to follow it; and ringing muffled bells on Armistice Day is really a relapse into heathenism; but far worse than this is the actual ringing of the muffled peals on Sunday. Sunday is the weekly commemoration of our Blessed Lord's Resurrection, it is always a feast day, and muffled bells on Sunday are absolutely out of place.

'Open bells on Sunday, open bells on Armistice Day, because we believe in the resurrection of the dead.

'In our day of thanksgiving one psalm let us offer,
For the Saints who before us have found their reward;
When the shadow of death fell upon them, we sorrow'd,
But now we rejoice that they rest in the Lord.'

The Midland Counties Association have issued an official notice suggesting to all towers in their area, half-muffled ringing for the morning service, and open bells for the remaining services.

An official notice of the Suffolk Guild also requests muffled ringing before the 11 a.m. Silence on Sunday.

In view of the special ringing which will be done on Sunday, in connection with the observance of Armistice Day, we will do our best to publish reports of quarter-peals and over rung on eight bells and upwards, and 720's on six bells, but we regret it will not be possible to find space for shorter lengths. Moreover, in order to save disappointment, the reports must reach us not later than first post on Tuesday next.

A NEW GUILD IN WALES.**DIOCESAN ASSOCIATION FORMED FOR SWANSEA AND BRECON.**

At a meeting held at the Church House, Brecon, on Saturday, Oct. 27th, a Guild of ringers for the new diocese of Swansea and Brecon was formed. The diocese includes the counties of Brecon and Radnor, and that part of the county of Glamorgan which forms the Gower peninsula. Hitherto the towers in the two counties have been affiliated to the Hereford Guild, and those in Glamorgan to the West Wales Association.

Among the towers represented at the meeting were Brecon St. Mary's, Builth, Talgarth, Glasbury St. Peter's, Crickhowell, Llangattock, Llanelly, Brongllys, Clyro, Cwmdu, Llanfagan etc. Letters of apology for non-attendance but in full sympathy with the movement, were read from places as far apart as Knighton, Sketty, Swansea and Llangorse, while several towers in the vicinity of Neath, although not in the diocese, sent a message of approval, testifying to their willing co-operation in that district.

The Lord Bishop of Swansea and Brecon presided, and the title chosen, and approved, for the new society was 'The Swansea and Brecon Diocesan Guild of Church Bell Ringers.'

The officers appointed were: The Lord Bishop, president; the Sub-Dean (Canon E. A. T. Roberts, Vicar of Brecon), the Archdeacon of Brecon (Ven. H. J. Church Jones) and the Archdeacon of Gower (Ven. H. S. Williams), vice-presidents; Master of the Guild, Rev. T. R. J. Jones; hon. sec., Mr. W. R. Howells, 95, Street, Brecon; hon. treasurer, Mr. Chas. Powell, Brecon.

The following were appointed as a committee, to act with the officers of the Guild: Messrs. W. T. Hargest Brecon; W. Bicknell, Builth; S. T. Rackham, Llanelly (Breconshire); W. D. Griffiths, Talgarth; C. Powell Llangattock; C. Morse, Sketty; J. Hoare (St. Mary's), Swansea; D. J. Williams, Gorseinon; J. Hammond, Neath.

The first annual meeting has been provisionally fixed for Saturday, 28th June, 1924, at Brecon.

For the present the rules now operating in the Hereford Guild, were adopted, with the exception of Rules 14, 15, 16 and 20, to be drawn up at the first committee meeting to be held early in the New Year.

At the close of the meeting, the Bishop entertained the company to tea, and the members afterwards adjourned to St. Mary's tower, where touches of Plain Bob, Grandsire and Stedman were rung.

NEGLECTED LONDON TOWERS.*To the Editor.*

Dear Sir,—Week after week I read in your columns the interesting announcements of bells having been restored, and, in some towers, additions having been presented, which opens up to the young aspirant an opportunity to progress in the art of change ringing. In that respect they have my sincere congratulations. London, per se, was apparently the 'Cradle of campanian fame'—as old chronicles affirm; and yet there are in London and suburbs peals of from six to ten bells still remaining in a neglected condition, bells for the erection of which our forefathers subscribed. In some districts, representatives of the church do not seem to exhibit that fraternal tenderness and liberality which forms a striking feature in the character of a devout and Christian spirit. They might at any rate display a more intimate acquaintance with the requirements and comfort of the belfry and with the ringers, who devote their services gratis to the familiar 'call' to Divine worship.

'At Homes' and 'Afternoon Teas' are preferable to a cold and draughty belfry, I admit; but if this beautiful and interesting art could be grafted more closely into the minds of some of our ministers, much good would be done for the church and the science. To those eminent divines who have passed away, as well as those reverend gentlemen who are still 'in the hunt' who embrace the belfry as they do the vestry, to the glory of God, and to the good of their fellow creatures, the science owes a debt of gratitude.—Yours, etc.,

BOB MINOR.

A NEW TREBLE.

The first 720 on the bells at the Parish Church of Deeping St. James, Lincolnshire, since Messrs. Taylor and Co. added a new treble, was rung on Saturday, Nov. 3rd, when the extent of Double Court Bob Minor was brought round by A. E. Sneath 1, T. R. Oldham (first in the method) 2, H. W. Day (conductor) 3, J. Landon 4, W. Tilley 5, G. H. Wells 6. Messrs. Taylor's work has been carried out in a most efficient manner, and has given great satisfaction.

THE LATE MR. BONAR LAW.

At All Saints', Newport, as a last tribute of respect, a half-muffled peal of Stedman Triples was attempted on the day of the funeral of the late Mr. Bonar Law. Unfortunately a shift occurred just before the half-way single, after an hour and thirty-five minutes' ringing.

SHARNBROOK BELLS.**'UNFORTUNATE EVENTS.'**

The recent removal of the bells at Sharnbrook, Beds, for restoration (including the recasting of four of them) without first obtaining the necessary faculty, led to strong comments, being made by the Worshipful Kenneth Macmorran, Chancellor of the Diocese, sitting at a Consistory Court at St. Albans Cathedral.

The petitioners, the Vicar and Parochial Church Council of Sharnbrook, were represented by Mr. Nelson Tebbs, Bedford, who admitted that the clock and bells had been removed from the church and sent to the foundry of Messrs. Gillott and Johnston, Croydon, before application was made for a faculty. There were six bells—the first modern, the fifth by one of the Newcomes (seventeenth century), and the rest by Henry Bagley, 1638. The tower and spire are of the Northamptonshire type which prevails in the north of Bedfordshire.

The Chancellor (as reported in 'The Church Times') said he would go fully into the case in giving judgment, because it was desirable that certain unfortunate events should not be repeated. It had been admitted that the bells and clock had been removed without a faculty. A letter had been written suggesting that a faculty was a mere formality. It was his duty to impress upon the petitioners, and all in whom Church property is vested, that churches and their contents must not be interfered with unless with the formal approval of the Bishop's Court. The bishop was the ultimate guardian of the fabric of the church; the churchwardens were his officers with legal ownership, but whose powers were exercised, subject to well defined rules and limitations. If the bishop could not trust his officers, the whole of this part of the parochial system would fall to the ground. While the bishop was the only authority who could give permission for additions and alterations to churches and their contents, that authority was exercised by the Diocesan Court, and the judge there must consider whether proposals were lawful, and if lawful, whether they were desirable.

The Chancellor then read an extract from a report by his learned predecessor and two other Chancellors in 1914 wherein they traced the present consistorial jurisdiction over church fabrics, etc., back to 1237, and in which the system was fully explained. During the short time he had held the office, he regretted to find that in the Archdeaconry of Bedford there seemed great laxity in the way in which the fabrics of churches had been interfered with, without the authority of that Court. The churchwardens of Sharnbrook had been guilty of an ecclesiastical offence of no light character—namely, the alienation of the Church's goods, an offence for which they could be prosecuted. By this very wrong act they allowed a firm of bell founders to remove the Church's property, regardless of the trust placed in them. They were trustees not only for the present parishioners, but for future generations, and for the diocese. The learned judge said he could conceive of no terms too severe or too strong in which to condemn the action of these churchwardens. One of them had aggravated his offence by writing a most improper letter, in which he said that the Parochial Church Council 'strongly objected' to the report of an expert sent by the Advisory Committee; maintaining that he was 'not in a position to offer advice,' and threatening not to raise money for the diocese if the Court refused a faculty, and referring to bad feeling caused locally.

The Chancellor wished it to be known that the Court would not be deflected from its duty by any such bad feeling, and that it was most improper that an officer of the Church should write to the judge threatening not to do his duty. Matters, he added, would have turned out differently had the proper course been pursued. The Diocesan Advisory Committee ought to have been consulted first of all. While the committee had no legal claim to be consulted, and the Chancellor was not bound by their advice, nevertheless, if petitioners did not consult them in the first place, he had arranged that all such applications should come before them later on, as he had done in that case.

The Advisory Committee had taken an enormous amount of trouble over Sharnbrook, and had even incurred some expense in order to advise him properly.

In conclusion, the Chancellor rather reluctantly allowed the recasting of three seventeenth century bells on account of their very bad condition; but he made it a condition that the frame should be erected to the satisfaction and under the supervision of Mr. A. R. Powys, the architect called in by the Advisory Committee.

A 'SILENT' PEAL OF STEDMAN.

Congratulations to the Bristol band who, last Saturday, rang a 'silent' peal of Stedman Triples, as recorded in another column. It was originally intended to attempt the peal on September 29th, but seven men and the umpire met at one church, and one waited in vain at another! But the ultimate meeting has resulted in well-earned success. It is worth noting that of the 'inside' men Messrs. Leaker, Guise and Brown, have not yet conducted a peal of Stedman Triples.

NORBURY'S ANCIENT BELLS.

CHESHIRE PEAL TO BE AUGMENTED.

A fund has been opened for the restoration of the ancient bells of Norbury Church, Hazel Grove, Stockport. The restoration comprises recasting the existing bells, the addition of two new bells to complete the octave and rehanging the whole in a cast-iron frame. The work will not be carried out until the fund is complete. Each bell is to be cast for a different object, which prevents the restoration being carried out at once.

The six bells came from Disley Parish Church in 1837. The two oldest bells are Nos. 3 and 4, and were cast in 1617 by Henry Oldfield, of Congleton and Nottingham. Each has, in addition to their inscriptions, the crest of the Leghs of Lyme—a ram's head issuant out of a ducal coronet.

No. 6 was cast in 1632, and bears the very quaint inscription: 'May all people behold and see the works of goode Sir Peter Legh,' along with two crests, one as on Nos. 3 and 4, the other being a dexter arm, embowed, wielding a sword.

Nos. 1 and 2 were cast in 1748 and 1750 respectively by Daniel Hedderley, of Bawtry (Yorks) and Nottingham, and bear the name of 'Peter Lee, Lord of Lime.'

No. 5 was cast in 1837 by Thomas Mears, of London. It has on it the name of 'Thomas Legh, Esq., Lyme Park.'

LANCASHIRE SURPRISE.

To the Editor.

Sir,—That the name 'Rochester Surprise' is to disappear in favour of 'Lancashire Surprise' leaves me with one regret—Rochester is a pretty name, while, for that purpose Lancashire, I venture to suggest, is not. I hope my Lancashire friends will forgive my saying so. Whenever I see it I am at once reminded of such commodities as Worcestershire sauce, Cheshire cheese, etc., which smack of the shires. What a contrast is offered by the concise and euphonious 'Surprise' names to which we are accustomed—London, Bristol, Cambridge, Gloucester, Brighton, Rutland, etc.! Would our friends in Lancashire, therefore, consider, before it is too late—and the present juncture seems a favourable opportunity for doing so—the advisability of substituting 'Lancaster' for 'Lancashire'? And, would our Methods Committee take a note, and use their influence in the cause of uniformity and euphony?—Yours very truly,

Manor House, Bracondale, Norwich.

G. P. BURTON.

ANOTHER VARIATION.

Writing in reference to this method having been rung as 'Rochester,' Mr. Arthur Craven, the author, says:—

I am very sorry for the Leiston band and Mr. Lindoff, because it carries a certain amount of disappointment when one finds that his production is old instead of new. The first peal was rung at Oswaldtwistle, Lancashire, conducted by Jas. Houldsworth in August, 1922. All the Double Methods on this plan have been discovered well over 20 years. There is still one more that has not been published.

It is allied to 'Lancashire' as 'Dublin' is to 'Bristol.'

WINCHESTER DIOCESAN GUILD.

THE COMING DIVISION OF THE DIOCESE.

The annual meeting of the Winchester district of the Winchester Diocesan Guild was held at St. Mary's, Southampton on Saturday, by kind permission of the Rector. The fine peal of eight by Taylor (tenor 22 cwt.) were kept going during the afternoon and evening to Grandsire, Stedman Triples, Bob, Double Norwich Superlative Cambridge and London Surprise Major. A short service was held, the Guild service being conducted by the Rector (Canon Lovett), who gave an excellent address. Mr. D. C. Williams presided at the organ.

The tea and business meeting followed with the Rector in the chair. Apologies were received from the Rev. C. E. Matthews (vice-president), the Rev. W. C. Woods (hon. treasurer), and the district chairman (the Rev. Canon Braithwaite).

The balance sheet for the year ending 31st October was presented by the hon. secretary (Mr. W. T. Tucker). The receipts were £15 1s. 2d., and expenditure £4 11s. The sum of £9 10s. had been paid to the Guild treasurer, leaving a balance in hand of £1 0s. 2d.—The balance sheet was adopted.

The retiring officers were re-elected en bloc viz.: Chairman, Canon Braithwaite; hon. secretary, Mr. W. T. Tucker; representatives on Central Committee, Mr. W. Andrews and Mr. J. W. Faithfull; hon. auditor, Mr. G. Smith.

The following meetings were arranged for the year 1924: Alton on Feb. 2nd; Sheffield English on May 3rd; Twyford and Owslebury on August 30th; and the annual meeting at Winchester on Nov. 1st.

Messrs. Curtis Newman and White, of St. Mary's, Southampton, and Miss Iris Giles, of North Stoneham, were elected full members.

The next business was the consideration of the division of the diocese as affecting the constitution of the Guild.—A letter from the general secretary was read, and after considerable discussion, Mr. Pullinger proposed, and Mr. Faithfull seconded, a resolution to the effect that the Winchester district is very strongly in favour of the Guild continuing as hitherto, when the diocese is divided, and that the title be changed to 'The Winchester, Guildford and Portsmouth Diocesan Guild.' Also that the ringers in the new dioceses of Guildford and Portsmouth be invited to remain in unity with Winchester, and to help carry on the great work and great name of the Winchester Diocesan Guild.

This resolution was carried unanimously.

The Secretary proposed a hearty vote of thanks to Canon Lovett for the use of the bells, for conducting the service, for the use of the school for tea and meeting, also for presiding.—Canon Lovett, replying, said he was pleased to do anything he could for the ringers.

The towers represented were Bishopstoke, Bishop Sutton, North Stoneham, Diphden, Romsey, Ringwood, Fareham, Curdridge, Portsea, Winchester, Bournemouth, Southampton, Hursley, and Messrs. Barton and Jennings from the Isle of Wight.

HERTFORD COUNTY ASSOCIATION.

WESTERN DISTRICT.

The quarterly meeting of the Western District, held at Hemel Hempstead on Saturday, Nov. 3rd was a very successful one, members being present from Harpenden, St. Albans, Watford, Bushey, Tring, Berkhamstead, Dunstable, and the local company. The service was taken by the Vicar (the Rev. A. F. Robson) who accorded a hearty welcome to the visitors, and gave a very helpful and impressive address.

Immediately afterwards all adjourned to the St. Mary's Hall, where tea was partaken of the Vicar and his wife kindly inviting the visitors to be their guests.

At the meeting which followed, the Vicar was unanimously voted to the chair.—One new member was elected from Tring, and, with cordial approval, the Rev. A. F. Robson was elected an hon. member.

For the next meeting King's Langley was chosen, subject to the necessary permission, the date being fixed for the second Saturday in January.

A very hearty vote of thanks was accorded the Vicar and his wife for their generosity; the Vicar for the use of the bells, and the organist for his services.

On behalf of the company present the secretary offered all good wishes and godspeed to Mr. George Debenham, who sails shortly for the Malay States.

Courses of Grandsire and Stedman Triples and Bob Major were rung on handbells after which all adjourned to the tower to continue ringing Grandsire and Stedman Triples, Plain Bob, Oxford and Kent Treble Bob and Double Norwich Major.

Thanks are offered to all who contributed towards another successful meeting.

WEDDING BELLS.

The marriage took place at Old Basford, Notts, on Oct. 18th, of Mr. H. Lewin and Miss M. Poyser, both members of the local band of ringers and in honour of the event 504 Stedman Triples were rung by the following: T. Jennison 1, *L. Hooton 2 *F. Barks 3, *A. Marsh, *R. Widnall 5, F. Johnson 6, G. R. Goodship 7, *A. Hooton 8. * The first 504.

EIGHT HUNDRED MILES FOR A PULL.

A successful meeting of the Central District of the Surrey Association was held at Epsom on Saturday, Oct. 20th when upwards of 50 members made good use of the bells at St. Martin's and Christ Church during the afternoon and evening. A short service was held at Christ Church with an instructive address by the Vicar, the Rev. F. H. Hooke. Tea and the business meeting followed at the Church Room, at which the Vicar presided, supported by the Master (Mr. J. D. Drewett, J.P.). Among the visitors was Canon G. H. Ridout, of Johannesburg, who was on his first visit to England for 18 years, and amused the members by saying that in South Africa he had to travel 400 miles each way to get a pull.

Six new members were elected, including the Vicar who, in responding to a vote of thanks, expressed the hope that the association would pay another visit in the near future. The next meeting of the district will be held at Benhiton, Sutton in January.

NOTICES.

DIFFICULTIES IN THE METROPOLIS.

The College Youths' dinner on Saturday was again the occasion of an enjoyable gathering of ringers from many parts of the country. Each year seems to bring a bigger 'invasion' than ever of visitors from distant centres, until the event has become almost national in character. The Ancient Society has behind it some fine traditions in ringing, and there was never a time when the College Youths had greater prospects before them. No longer are they that 'one company' organisation which, in years gone by, they seemed to be, but they combine now among their active members the experience of age, and the enthusiasm of youth so essential to future success. Indeed, the promising young material to be found in the ranks of the College Youths in and around the Metropolis must be one of the most gratifying features to the older members.

Our article on this page last week seems to have been not inaptly timed, for it served to give the Master of the Royal Cumberland Youths, in responding to the toast of London and Provincial Societies, the cue for a serious speech on the difficulties which in these days confront London ringing societies. His remarks, in our view, give point to what we said with regard to joint action among the Metropolitan organisations. Quite frankly, Mr. Matthews said that the fact that some Metropolitan towers are closed to-day may be due to the action of ringers themselves in the excessive use they have made of them for peals in the past. Here, surely, is one strong reason why an effort should be made to get derelict rings put in order, so that the peal ringing may be spread over more towers, and thus reduce the risk of outrunning the welcome at the churches at present used.

Another of the points which Mr. Matthews made was that it was almost, if not quite, impossible to maintain any Sunday service ringing at the London churches. Here again, we think, the suggestion of our article might be utilised. Joint action by all the London ringing societies is just the method by which such difficulties could be met. There are examples to be found, even in the Metropolis, of the successful inauguration of Sunday ringing companies—not for every service probably, but, at any rate, once a day. St. Clement Danes, with its own Society of Youths, is, we believe, a case in point. We can quite understand how reluctant men, who have met with constant rebuffs and disappointments in their efforts, may be to make some new attempt, but if only the initial difficulties between the societies themselves can be overcome, we believe, some such course as we suggested last week might, in the process of time, have valuable and lasting results, because there are many subjects, beyond the actual restoration of dilapidated bells, which might be taken in hand.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

DURHAM & NEWCASTLE ASSOCIATION.

MR. W. STORY RESIGNS THE PRESIDENCY.

The 46th annual meeting of the Durham and Newcastle Diocesan Association was held on Saturday, Oct. 27th, in Darlington. The bells of the three churches in the town were kindly placed at the disposal of the ringers for the day by the respective vicars. The committee meeting was held at 12 noon, the service in Holy Trinity Church at 1 o'clock, and dinner at the King's Head Hotel at 2 o'clock following which the annual meeting took place, which lasted until 4.30, so very little ringing was done until the evening, when the bells were kept going in various methods.

The service was conducted by the Rev. P. H. Hill, curate, and a most interesting and breezy address was given by the Vicar (the Rev. Canon W. F. Cosgrave, Rural Dean of Darlington). The Canon welcomed the ringers to the service. Taking for his text, 'We are fellow-workers in Jesus Christ,' he referred to the long past days when a fellow student at Trinity College, Dublin, R. R. Charry, afterwards Lord Chief Justice of Ireland, had taught him to ring at St. Patrick's Cathedral. They then revived the ringing on a peal of eight at St. George's, Dublin, and from that time on the ringing had been continued there. Canon Cosgrave pointed out that the ringers were not only workers for God, giving to the parish an outside voluntary like the organist's voluntary within, but hard workers, too. Few, who were not ringers knew the work involved in being a change ringer. They were also fellow-workers with the clergy, another illustration of how the Church of England insisted on clerical and lay co-operation.

Dinner was served at the King's Head Hotel, 46 sitting down. Mr. W. Story, the president, was in the chair, and was supported by the Rev. P. H. Hill, Messrs. G. W. Park and R. Parkinson, vice-presidents; A. Hunter and H. Tyson district secretaries; E. Ferry, general secretary; A. M. Hall, treasurer; C. L. Routledge auditor; J. W. Parker, C. Todd, and others.—Apologies were offered for the three Vicars of Darlington, who were unable to accept the invitation to dinner as there was a Ruri-decanal meeting at Durham that day. Canon Cosgrave had very kindly put off an important meeting to give the address.

After the toast of 'The King' had been duly honoured, Mr. Story proposed the 'Bishop and Clergy of the two Dioceses.'

The business was then proceeded with, and the treasurer presented the balance sheet which showed a credit balance of £1 odd. Mr. Hall explained that there were a few items of expenditure in the past year which did not occur every year, such as the Sunday Service Ringing Certificates. All four had been won outright, so four new certificates and wood and glass for four new frames had to be purchased. Someone who preferred to remain anonymous 'black-legged' the frame maker, and made the frames, or they would have cost more. The printing of the reports was another heavy item, and he impressed upon all the importance of paying their subscriptions promptly, and so save much time and letter writing and postage.

THE YEAR'S PROGRESS.

The Secretary reported that it was again his sad duty to mention the loss of one of their hon. members, the Rev. T. T. Michael, Vicar of Newburn, who died very suddenly on Saturday, Jan. 23rd, 1923. The Sunday Service ringing returns showed Whitley Bay at the head of the poll for the 8, 10 and 12 bell towers for the 4th year in succession with 1,786.52 points to their credit; St. Ignatius, Sunderland, was a good 2nd, with 1,332.376; Newcastle Cathedral 3rd with 856.80. Of the six bell towers, Holy Trinity, Darlington, took first place for the 2nd year in succession, with 493 points; Houghton-le-Spring second, with 353.95; Newburn third, with 342.9. Whitley Bay was to be congratulated upon their magnificent Sunday Service ringing sheet, and upon being top for the 4th year in succession. St. Ignatius, Sunderland was also to be congratulated upon running Whitley Bay so close. Twenty-three peals had been rung during the year, 66 members taking part. Ten members had rung their first peal during the year, and eight conductors had conducted the peals: W. H. Barber, 7; J. W. Parker, 6; T. T. Gofton, 5; E. B. Ferry, 2; G. W. Peveral, W. H. Parks, C. L. Routledge, J. A. Gofton and W. Story, one each. The first peal of Maximus on Newcastle Cathedral bells was rung during the year, that of Little Bob, the first peal of Little Bob Maximus ever rung. It was composed and conducted by Mr. W. H. Barber. The first peal of Cambridge Surprise Royal by the association was rung at All Saints' Gosforth, by the Whitley Bay band, conducted by Mr. T. T. Gofton.

The report was adopted, on the motion of the President.

Very encouraging reports had been received from the district secretaries. Mr Taylor of the Eastern district, reported that they had four well attended and successful meetings during the year, as well as a combined meeting with the Western district and Southern district.—Mr. H. Tyson of the Western district, reported four good and successful meetings, and a combined meeting with the Eastern district.—Mr. C. G. Symm of West Tyne district, also reported four good and successful meetings.

ELECTION OF OFFICERS.

Mr. C. Todd, of Darlington, who was formerly for some years secretary of the association, was unanimously elected president, Mr. Story having stated he could not take office another year having held office three years. Mr. E. E. Ferry was re-elected hon. secretary, and Mr. A. M. Hall was re-elected hon. treasurer.

The vice-presidents were unanimously elected as follow: Northern district, Mr. J. E. R. Keen; Western district, the Rev. A. W. Lister; Southern district, Mr. G. W. Park; Eastern district, Mr. R. Parkinson. The district secretaries for the various districts were next elected: Northern, Mr. J. E. Gofton; Eastern, Mr. G. S. Taylor; Southern, Mr. A. Hunter; Western, Mr. H. Tyson; West Tyne, Mr. C. Symm; honorary auditor, Mr. C. L. Routledge; representatives on the Central Council, Messrs. W. H. Barber, W. Story and T. T. Gofton. The peal referees were also re-elected. Thirty-eight new members were elected, viz., three honorary, three honorary active, and 32 active.

Mr. Routledge proposed a vote of thanks to the Vicars of the various churches, saying how difficult it would be to hold a ringers' meeting without the bells. He especially mentioned the Rev. Canon Cosgrave for his very interesting address and making the arrangements for the service; also Mr. G. Holland Fox for kindly presiding at the organ, and the choir-boys who helped so splendidly.

It is with very great regret that a vote of thanks to the retiring officers was omitted. Since the meeting a great many members have supported the sentiments outlined below, which it is felt will be shared by all members of the association. To Mr. William Story: The members of the Durham and Newcastle Diocesan Association of Change Ringers wish to place on record their full appreciation of the valuable services you rendered as president of the association during 1921, 1922 and 1923. We realise that during the difficult years of the period following the war you have achieved great results in consolidating the position of the association. Your tact and genial spirit has enabled us to avoid many disasters, and you have gathered around you a band of workers attracted by your unselfish devotion to duty, which will be of great value in ensuring that advancement of the work which you have so much at heart. We deeply regret that circumstances make it advisable for you to resign the position of president, and we trust that at some subsequent period we may again have the opportunity of enjoying your leadership.

SWANSEA & BRECON ASSOCIATION.

A PROTEST.

To the Editor.

Sir,—With great surprise and disgust do I find that the above association has been formed without the sanction of West Wales Association. I don't know if our friends in the Brecon district have taken it for granted, because a few members of West Wales Association have written in favour of the formation of a Guild for Swansea and Brecon, that this is the general opinion of West Wales Association. Another point that must be remembered is that there are members in the area belonging to Llandaff Association. How do these stand? Have the Swansea and Brecon Association had the sanction of the Llandaff Association to take over these members who are outside the diocese of Swansea and Brecon? And, lastly, I should like my name to be withdrawn from the committee of the Swansea and Brecon Association until such time as the West Wales Association go over as a body into the Swansea and Brecon Diocesan Guild of Bellringers.—Yours truly,
D. J. WILLIAMS.
Gorseinon.

LANCASHIRE SURPRISE MAJOR.

To the Editor.

Sir,—With reference to Mr. Burton's letter in last week's 'Ringing World,' I may say that we at Oswaldtwistle are placed in a rather awkward position, for though we have got the consent of the author, Mr. A. Craven, to do as we wish in naming the method, and in no way desire to oppose improvements, yet we are unable to take steps to follow Mr. Burton's advice, without first seeking the feelings of the many Lancashire ringers from different parts of the county, who pressed the Oswaldtwistle company to take the method up. I trust we shall be able to put things right.—For the Parish Church Ringers, Oswaldtwistle, JAMES HOULDSWORTH (Capt.).

SILVER WEDDING.

At Knaresborough Parish Church, on Tuesday, Nov. 6th, a quarter-peal of Grandsire Triples was rung in commemoration of Mr. F. Seely's silver wedding: T. Allen 1, A. M. C. Field 2, W. Morrell 3, E. C. Field 4, G. Smith 5, F. Seely (conductor) 6, F. Heathcote 7, F. Smith 8.

BELFRY GOSSIP.

On November 16th, 1820, a 5,040 Treble Bob Royal was rung at Soham, 'in honour of the Queen's acquittal.'

The first peal of 'Real Double Norwich Major,' that is, with bobs both in front and behind, was rung at Woolwich on Nov. 16th, 1848. The band was that which came into existence through the efforts of the Banister family four of whom took part in the peal which was composed and conducted by Wm. Banister.

A peal of London Surprise Major (5,230 changes) was rung for the first time on Nov. 17th, 1835, at St. Andrew's, Norwich. It is recorded on a tablet in one of the other Norwich Churches beneath the record of the first peal of Superlative Surprise Major, which had been rung earlier in the same year. Having referred to the method as 'the most difficult system in the art of campanologia,' the tablet proceeds, 'This almost insurmountable task was accomplished in 3 hrs. and 24 mins. The bold and regular striking of both peals must ever reflect great credit on the company. They were conducted by S. Thurston, and are the first peals ever rung in the above variations.'

St. Giles' Norwich, was the belfry in which the first peal of Imperial Treble Bob Major was rung. This was on Nov. 17th 1760, and immediately after the ringer John Webster, who had rung the 6th, dropped dead.

This John Webster it was who wrote in 1753 to Dr. Mason, of Trinity College, Cambridge, informing him that he (and presumably the rest of the Norwich men) could not subscribe to Holt's broadsheet. 'I must Confess' (he says), 'Our Company Seem Intirely to slight it, though I must Own it is not a generous Way of Treating Mr. Holt's performance, but I believe they are Induc'd to this by that Ingenious Ringer, Mr. Anable's not Encouraging of it; had he Approved of it, his Influence on the College Youths I presume would have been sufficient to have sent it to the Press without any Further Subscriptions.'

He goes on to observe 'that 'tis almost twenty years Since I sent to the Revd. Mr. Windhall a Whole peal' of Ten with two Inferior Changes Only. Fully Explaining by an Infallible rule how to make any proper peal on all numbers that go with a Quick Hunt.'

A family peal by eight Tebbits was rung at Soham on Nov. 20th, 1809, the method being 5280 Oxford Treble Bob.

The first 'silent' peal of Stedman Triples was rung at Burton-on-Trent on Nov. 20th, 1886. John Carter, Joseph Griffen and John Jaggard, of that band, are still amongst us, although the peal was rung nearly forty years ago.

The peal of Treble Bob Major at Netherton, Worcestershire, for Mr. W. R. Small's birthday included two veterans, namely, Mr. Reuben Hall who has just attained his 71st birthday; and Mr. Richard Round, who attains his 69th on December 24th next. Mr. Round, if spared will, on December 31st next, complete 51 years as a Sunday Service ringer at Netherton, a record of which he is greatly proud. His wish was also gratified on Saturday last by ringing with son, the ringer of the treble, in his first peal of Treble Bob.

The sympathy of the Exercise will be extended to Mr. James George in the loss of his sister, Mrs. Norris, of Chalfont St. Peter, who passed away at the age of 73 years, on Saturday last.

Mr. George is now the sole survivor of a family of nine, of which he was the third.

Mr. George will himself reach the age of 70 years on the 27th of this month and we understand the event is to be celebrated by a peal attempt at St. Martin's Birmingham.

WORLD'S BIGGEST BELL ORDER.

MESSRS. GILLETT AND JOHNSTON'S RECORD CONTRACT.

The carillon which Mr. John D. Rockefeller, junr., is installing in the beautiful Gothic tower of Park Avenue Church, New York, in memory of his mother, is to be increased in size and number of bells.

Some of the best brains in the architectural and engineering world of America have been engaged for some months in devising better accommodation for the bells than that which had been possible so far.

The result is that New York will possess the largest and most important carillon that the world has yet seen or heard. The bells will be 53 in number. The bass bell is to weigh 9 tons, whilst the total weight of the bells—apart from the gigantic framework (which will be in five sections) and the fittings—is to be over 50 tons.

The premier carillon hitherto has been the famous one at Malines, where there are 45 bells and the bass bell weighs 7½ tons.

Many of the bells for the new carillon are already cast and in readiness at the Croydon Bell Foundry of Messrs. Gillett and Johnston, who secured the contract in the face of keen international competition. This is the largest order for bells that has ever been placed.

The College Youths' Anniversary Dinner.

PRESENTATION TO CANON COLERIDGE.

The London Tavern, Fenchurch Street, was the scene of the 286th anniversary dinner of the Ancient Society of College Youths on Saturday, and rarely has there been a more representative gathering present upon the festive occasion. Ringing took place at various city churches during the afternoon, and a company, numbering about 180, afterwards sat down together, presided over by the Master (Mr. W. E. Garrard). He was supported by the Rev. Canon Coleridge (President of the Central Council), the Rev. G. W. O. Jenkyn (Master of the Oxford Diocesan Guild), the Rev. F. W. Simpson (Rector of Stepney), the Rev. E. M. Roberts (Vicar and Rural Dean of Kensington), the Rev. H. Fynes-Clinton (Rector of St. Magnus), the Rev. C. C. Child, the Rev. Canon Perkins (Westminster Abbey), Rev. W. Pennington Bickford (St. Clement Danes), the Rev. F. L. Edwards (hon. secretary of the Salisbury Diocesan Guild), the Rev. S. A. Spackman (curate of Kensington), Mr. Martin Routh (Reading), Mr. E. A. Young (hon. secretary of the Central Council), Mrs. Wilkins (President of the Ladies' Guild), Mr. J. D. Matthews (Master of the Royal Cumberland Youths), Mr. R. Carter (churchwarden of St. Mary Abbots), Mr. J. F. R. Stainer, Mr. Skinner (Dean's Verger at St. Paul's), etc. The vice-chair was taken by Mr. G. R. Fardon, and among those also present were the hon. secretary (Mr. W. T. Cockerill), Mr. A. A. Hughes (treasurer), Messrs. T. Hibbert and P. E. Clark (stewards), G. F. Winney and W. Prime (trustees), and visitors from many parts of the country, including Mr. C. H. Howard (Master of the Essex Association), Mr. J. W. Jones (hon. secretary of the Llandaff and Monmouth Diocesan Association), C. Dean (hon. secretary, Surrey Association), J. Bullock (hon. secretary, London County Association), Mr. A. Walker (Ringing Master), and Mr. A. Paddon Smith (hon. secretary, St. Martin's Guild, Birmingham), Messrs. J. E. Groves, J. George, J. Allaway (Birmingham), J. F. Smallwood and J. Pagett (Derby), E. H. Lewis (Glasgow), S. F. Palme (Sheffield), Pryce Taylor (Loughborough), Captain J. H. R. Freeborn (Chalfont), Major J. H. B. Hesse (Haslemere), Messrs. W. A. Cave (Bristol), W. Lawrence (Little Munden), W. T. Pates and G. H. Phillott (Cheltenham), T. F. King, A. Prince and G. H. Harding (Bath), W. J. Nevard (St. Bentley), J. Truss (Marlow), J. Evans (Beaconsfield), F. M. Mitchell (Milton), W. J. Jefferies (Deptford), T. Groombridge (Chislehurst), T. Groombridge, junr. (Crayford), W. Hoad (Reigate), J. T. Dyke (Midsomer Norton), W. Rogers (Portsmouth), W. Farley (Wells), G. N. Price, E. C. Goldsmith (Clapham), J. S. Goldsmith (Woking), etc. Parties also came from Barking, Oxhey, and other places adjacent to the Metropolis, while the London members of the society were in strong force.

An excellent repast was admirably served in the handsome banquetting hall a feature of the decoration of which is the tiled panels depicting scenes from 'The Idylls of the King.'

THE SUPPORT OF THE CLERGY.

The Master, having submitted the loyal toast, next proposed 'The Church,' a toast which he said, was always welcomed by bell ringers, who realised their responsibilities and the seriousness of the duties which they carried out. They appreciated the privilege which was given to them of ringing on the numerous peals of bells—many of them famous peals—and they also appreciated very much the kind support and assistance which they received from the clergy and churchwardens.

The Rural Dean of Kensington, in responding, first paid a tribute to the services which were rendered at St. Mary Abbots by Mr. Garrard, and went on to say that threatened institutions had a wonderful way of surviving the threats that surrounded them. The Church was to-day threatened and criticised, and sometimes ignored, but it was very necessary to the nation's life. It was still respected and was even loved by some people, and he would say to that gathering, who were members of the Church, and who he was sure would echo the words, 'God bless the Church' (applause).

Rising again the Master said he had a pleasing duty to perform, and one which was not upon the printed programme. They always had their festival on the first convenient date after Nov. 5th, which was Guy Fawkes Day, and it had been said that Guy Fawkes was their patron saint (laughter). But that also happened to be the birthday of one of their most esteemed members and they felt they could not let it pass without some recognition of their feelings towards Canon Coleridge (applause). It had been intended to keep the matter quite secret, but somehow the Canon got to know what was going on, and he told them that all he wanted was their good wishes. But he also said that if they persisted in giving him something else he would suggest one of three things. The first was a

pair of binoculars another was a badger-hair shaving brush (laughter) and the third was a big bath sponge (loud laughter). 'We had no hesitation,' continued the Master, 'in giving him all; they gave him their good wishes, they intended to give him the binoculars, and also the shaving brush and sponge (laughter and applause). They hoped the binoculars would be useful to him, and that he would enjoy their use for many years to come (applause). Canon Coleridge gave up his binoculars when an appeal was made in war time for field glasses for the troops, and he had not had them back. Their gift would replace these, and the society and friends had much pleasure in presenting him with the articles he had mentioned, together with their very best wishes for many happy returns of the day (applause).

GOODWILL GIFTS.

Canon Coleridge, who was down to propose the next toast, that of 'The Ancient Society of College Youths,' was received with the singing of 'For he's a jolly good fellow,' and, on rising to speak, said that was the thirtieth year he had been in that identical place, and it gave him unbounded pleasure to be with them again and do what he had done so often before, propose the toast of the evening, which was the toast of their worthy selves. Mr. Cockerill would later be giving them an account of what had been done during the year, and he would not refer to it except to say that at the Central Council meeting one of those who took part in the record peal of Stedman Cinques on the previous day was present, and he (who was president) did not even know that that man had rung in the peal, for the ringer said not a word about it. That spoke very well for the modesty of the ringers who took part in that wonderful performance (hear, hear). Proceeding, Canon Coleridge became reminiscent, and referring to a visit to London for the College Youths' dinner some years ago, said on leaving St. Saviour's tower with Mr. Winney—both of them confirmed bachelors—the latter said there was a very nice service in the Cathedral, and invited him to go to it. They went and Mr. Winney and himself found themselves the only two males among a diocesan association of girls with a special service (laughter). He could assure them the sermon they heard was highly profitable, but it put women on such a high pedestal that neither Mr. Winney nor himself had ever attempted to aspire to the possession of a wife (laughter). They heard a good deal nowadays, continued the speaker about people becoming 'shirty' about the ringing of bells, but that afternoon near St. Magnus, they had heard three men expressing their pleasure at hearing the bells rung at that church, for although they worked near by they had not heard them rung for months, and, if there were three men like that found casually near St. Dunstan's, there were probably three hundred thousand more like them in London who felt bereft if they did not hear the bells (applause). Continuing, Canon Coleridge thanked the members for their beautiful and useful gifts. Why they had given them to him he could not imagine, except from goodwill. It was not that he had rung many peals for the College Youths. He remembered the first one very well. It was 39 years ago that very day and he could see before him now, in mind every member of that band. John Rowbottom rang the treble, and he (the speaker) rang the second, very appropriately, because in those days Mr. Rowbottom was a callow youth, and he (Canon Coleridge) more like a Kentish hop-pole (laughter). Frank Dawe rang the third, and their old friend, Challis Winney, the fourth. The 5th was rung by a veteran in those days, William Weatherstone, the 6th by Herbert Baker, who afterwards became a Colonel and Mayor of Hertford. The Rev. F. E. Robinson was the conductor, and rang the seventh, Dick French was on the eighth, W. D. Smith another old friend, was on the ninth, and it was his first peal. The tenor was rung by the post-laureate of the Exercise, Mr. W. H. Judd. His last peal for the society, continued the speaker, was rung in the spring before the outbreak of war, when he succeeded in doing what he had longed to do for forty years or more, namely ring a peal at St. Mary-le-Bow Church. They put him on the tenor, and Ted Horrex was on the treble. He had heard that night that there was to be another peal at Bow in February next, and that he might, if he wished be included in the band. Mr. Horrex would then be 86. If he (the speaker) did take part he should take care that on that occasion they changed over, and that Ted should ring the tenor while he rang the treble (laughter). Canon Coleridge added that he certainly could not claim to have been a conductor, as he had never aspired to it. He had called seven seven-twenties and his hundredth peal, which was a peal of Double Norwich Major, but he

put himself in the same rank as Benjamin Anable—he 'called the bobs.' If anyone had gone wrong he could not have put them right (laughter). The funniest he ever got in composing was in endeavouring to convince a man down in Devon that it was possible to get 5,049 changes on seven bells. This man said to him, 'Well sir, I always believed you before, but I believe you be a liar now' (laughter). Canon Coleridge added that to show the man what was possible he started to write out Holt's Original, row by row. He did not think he got to the end of it, but he wrote out enough to prove to the old man that what he had said was possible. It was not, therefore, as a ringer of peals, or as a conductor or composer that the College Youths had made him those gifts that evening, and it could only be out of their goodwill and affection, and to mark the fact that that day was the day on which he arrived at the mature age of 66 (applause). He thanked them most sincerely for those gifts which were a token of their loving kindness, although he did not deserve them (applause).

A fine course of Stedman Cinques was then rung on handbells by Messrs. J. Thomas, A. Walker, J. E. Groves, J. F. Smallwood, H. R. Pasmore and W. A. Cave.

A SERVICE NEXT YEAR.

Mr. W. T. Cockerill in replying to the toast proposed by Canon Coleridge, said letters of apology had been received from Canon Haldane the Rev. J. H. Ellison, the Rev. Prebendary Isaacs, Col. Baker (Hertford), Alderman Pritchett (Birmingham) and Mr. John Carter. The next named was ill, but he sent them his good wishes. Continuing, Mr. Cockerill said that during the year they had lost eight members by death: Mr. F. Hayes, Mr. James Motts, Mr. G. Woodiss, Dr. Nichols Mr. Jas. Willshire, Mr. A. J. Lambert, Mr. R. Forward and Mr. Blackwell. The number of new members elected was 43, and 68 meetings had been held at the twelve bell towers, St. Magnus and St. Andrew's, Holborn, which had been attended by 103 members. There had been 38 peals rung as follows: Grandshire Triples on handbells 1; Stedman Triples 6 and two on handbells; Stedman Caters, 6; Stedman Cinques, 7; Kent Treble Bob Major, 2; Kent Treble Bob Maximus, 1; Double Norwich Major, 1; Cambridge Surprise Major, 4; Cambridge Royal, 1; Superlative Surprise Major, 1; Bristol, 2, and London, 2. The notable peals were the seven-part peal of Stedman Triples, conducted by Mr. Maurice Hibbert (applause), and 12,675 Stedman Cinques at Southwark, conducted by Mr. H. Langdon (applause), and the peal of Stedman Cinques on Oct. 20th last, in which Mr. Horrex rang at the age of 85 years (applause). They were very much indebted to Capt. Yorke for having ferreted out the fact that the copper plate from which their certificates were printed was an engraving by Bartolozzi. Capt. Yorke took a great deal of trouble and went to the British Museum, where he consulted the authorities and eventually discovered the College Youths' certificate in the catalogue of Bartolozzi's works, date about 1780. The charge which the society made for these certificates, viz., 2s. 6d., just about covered the cost of the printing, and 75 black and white and 25 tinted certificates had been purchased. Proceeding Mr. Cockerill said it had been decided that next year a service should be held in some city church about 5 or 5.30 o'clock in the hope that everyone attending the dinner would join in that service (applause).

(To be continued).

SURPRISE METHODS.

To the Editor.

Dear Sir,—For a long time I have been at a loss to understand how it was that Mr. Carter failed to grasp what I meant in the definition of a Surprise Method that has been accepted by the Central Council; but I now believe that I have solved the difficulty.

In all my previous articles on the subject I have always indicated the positions at which the treble passes over a cross section by ruling a line between the two rows on either side of the position at which she is crossing; and I rather fancy that Mr. Carter must have thought that I intended these lines for the cross sections; but they are not.

I herewith enclose a lead of Bristol Surprise in which the three cross sections are ruled in, and it is easy to see that an internal place is always made when the treble passes over either of them.

—Yours truly,

E. BANKES JAMES.

MIDDLESEX COUNTY ASSOCIATION.

PRESIDENT'S PENDING DEPARTURE.

The North and East District members of the Middlesex County Association and London Diocesan Guild held a very pleasant meeting at Edmonton on Saturday, Nov. 3rd when they were given a hearty welcome by the local ringers. Some excellent practice in many methods was obtained, ranging from Grandshire Triples for the benefit of Master Coles, son of the hon. secretary, to London and Bristol Surprise for the benefit of those who find these meetings provide excellent opportunities of getting some good Surprise ringing. Some 30 members attended the service, at which the Vicar (the Rev. R. C. Evill) officiated. In his sermon he said: 'I give you in all sincerity a cordial welcome. I am glad to be able to greet you in the name of the Lord, and to welcome you to this house of prayer. As an association of bell ringers your work is most important and very responsible, and in the name of the Church it is my privilege to thank you. Yours is a high art, requiring years of practice, and the good work of each ringer is essential to the perfection of the whole. This is a lesson for to-day. After five years of peace we find we have failed to work together. Let us work and pray that employers and employed will work for the good of all. For ourselves, let us see that the call we give to others is answered by us. I thank you and pray that God may bless you and your work.'

After a good tea had been partaken of, the business meeting was held in the Mission Hall, presided over by the Vicar.

The Hon. Secretary announced that the President of the Association much regretted his absence from the meeting, but his time was fully taken up prior to his departure to take up his duties at Wrentham in Suffolk, which living he had accepted. This would necessitate his resignation as president, for which they would all be very sorry. Mr. Milne, too, was sorry he could not attend that day, but important duties at Barnet kept him away.

Five members were elected, including the Vicar of Edmonton and Mr. E. A. Crusha as hon. members, whose names were brought forward by Mr. James Parker. Both gentlemen thanked the members present for electing them.

Armistice Day ringing was discussed, and the Hon. Secretary stated that he thought that they could hardly pass resolutions or issue instructions, as the clergy always, and rightly, had the last word. He said, however, that they as members might offer suggestions, and he thought the best proposals put forward were those that ringing before the two minutes' silence should be muffled, and afterwards open.—Mr. J. Parker agreed with this, which the Vicar termed 'an admirable suggestion,' adding that it always remained with the clergy to ask the advice of their ringers.

A vote of sympathy, and wishes for a speedy and complete recovery, was passed to Mr. G. B. Lucas, who met with a nasty accident when out cycling a few weeks ago; and a vote of condolence was passed to the relatives of the late Mr. A. Edwards, of Boreham, a life member of the association, who died on Sept. 30th.

It was decided to hold the next meeting at South Hackney, on December 8th if possible.

A hearty vote of thanks was passed to the Rev. R. C. Evill for his inspiring address at the service, and for the use of the bells; also to Mr. Crusha, the organist; to Miss Parker and the other ladies who had prepared tea; and to the local ringers who had given the members such a hearty welcome.—Mr. Evill replied both on his own behalf, and on behalf of the ladies, saying how welcome the association was at Edmonton. A great debt of gratitude was owed to ringers for work done, and he realised this, and thanked them for it.—Mr. Parker also replied on behalf of the local ringers, and said he hoped everybody had enjoyed the meeting.

Courses of Stedman Caters and Stedman Cinques on the handbells followed, the latter being rung by G. M. Kilby G. W. Fletcher G. R. Pye Miss E. K. Parker, J. Armstrong and W. J. Hazell.

Another visit was paid to the tower, where more Grandshire, and still more Surprise, was rung until 8.30 brought a very pleasant meeting to an end.

WORCESTER & DISTRICTS ASSOCIATION.

Visits have been made by members of this association to the following places: Trysull Staffs, where Oxford Treble Bob and Stedman Doubles were rung; Kinver, Staffs, 756 Stedman Triples; Bolbroughton Worcester 720 Cambridge Surprise Minor; Hartlebury 720 London Surprise Minor, with tenor covering; Chaddesley Corbett, 924 Stedman Triples; Bromsgrove, Grandshire Triples; also two courses and three courses of Stedman Caters. Those taking part in the above were J. Lloyd E. Lloyd, W. J. Bretherton, W. H. Cooper, W. Gibbs, J. Bass, R. Matthews, W. Short — Martin and T. Wilson, of Blackburn, several of the above ringing their first touches or longest lengths in the methods.

BELL RESTORATION AT FELKIRK.

On Wednesday evening of last week the dedication service took place in connection with the restoration of the Parish Church bells at Felkirk near Barnsley. In the unavoidable absence of the Rev. C. Exham, Vicar Choral of York Minster the dedication was performed by the Rev. A. Richardson, Rural Dean and Vicar of Cudworth, assisted by the Rev. P. Hedley, Vicar of Felkirk, and the Rev. H. Cogill curate-in-charge, Erierley.

Two years ago it was found that owing to serious decay the wood beams supporting the bell chamber floor were unsafe, and it was necessary to cease ringing, moreover the fittings of the bells themselves had become very worn and defective.

A committee was formed to deal with the work of restoration, experts in this class of work consulted, and by means of public subscription whist drives, teas, etc., augmented by donations from Miss Cordeux, Brierley, and of £50, the gift of Mr. and Mrs. Dymond, of Burnwood Hall, whose father gave three of the bells and fully restored the remainder at their last restoration in 1876, the whole of the necessary money was raised before any repairs were put in hand and thus the bells again commence their call to this very scattered parish free of debt. It is a matter for congratulation that much financial assistance was willingly given by friends of other denominations in the parish.

The work carried out comprised the strengthening of the floor by steel girders stiffening the ancient oak frame, complete rehanging of the peal of six bells in ball bearings on the latest principles, and general renewal of fittings.

The cost of the work has been £200, and the contract has been carried out by Mr. T. Groombridge, Jun., church bell hanger, of Crayford, Kent. Mr. H. Denton, of South Hindley, acted as hon. architect for the work.

At the reopening ceremony touches of various methods were rung by a few members of the Barnsley and District Society, viz., Messrs. Ricketts, Chamberlain and Gill, of Wath-on-Dearne; Thickett and Rowley, of Horbury; F. Atkinson, of Wragby; W. A. Wooler, of Wortley, Sheffield with their secretary, Mr. C. D. Potter, of Barnsley. The all-round improvement was most pronounced and pleasing, and the opinion was generally expressed that the work had been most satisfactorily carried out by the bell hanger.

CONDUCTORS ALL.

At Milton-next-Gravesend, Kent, on Tuesday, Oct. 20th, 720 London Surprise was rung by Fred A. Mitchell 1, Fred M. Mitchell 2, J. Burles 3, L. Beckett 4, H. Argent (conductor) 5, G. Morrad 6. H. Argent's first 720 in any method as conductor. On the same evening by the same band, a further 720 in the same method conducted by L. Beckett, first in the method. On Tuesday, Nov. 6th, 720 London Surprise by the same band, conducted by Fred A. Mitchell, first as conductor. This band has now rung the first six extents of London Minor on the bells, with six different conductors. F. M. Mitchell conducted the first on February 13th; J. Burles the second on October 25th; G. Morrad the third on Oct. 28th; the remaining three as recorded above. Messrs. F. M. Mitchell and J. Burles have rung the bells round in the method from the 2nd to tenor.

It would be interesting to know if any six-bell band had previously accomplished this performance.

AN OLD YORKSHIRE CHALLENGE.

**KIRKHEATON AND CALVERLEY MEN TAKE UP
KIRKBURTON GAUNTLET.**

There was published in 'Bell's Life,' in October, 1866, the following challenge:

'The Kirkburton ringers will ring any set in Yorkshire three peals for £50 or £100 aside, or they will ring the Holmfirth set on their own bells for a similar amount. An answer through "Bell's Life" will be attended to.'

Two answers were forthcoming to this challenge, for in a later issue appeared the following:—

'Having seen a challenge in "Bell's Life," sent by the society of ringers of Kirkburton to ring any set of ringers in Yorkshire three true treble peals O. Rowbottom of Kirkheaton and his party, will accept the challenge and meet them at W. Senior's, the Flowerpot Inn, Feany Bridge, to draw up articles and make a deposit on Saturday, November 3rd, from 7 to 8 o'clock in the evening.'

'Mr. Editor, having seen in your paper of Saturday last a challenge in the art of change ringing for all Yorkshire by the Kirkburton company of change ringers, we the society of change ringers of Calverley, beg to accept their challenge for a home and home match for any amount they may think proper to name. A reply through your valuable paper or to Mr. J. Ross, change ringer, at Mr. J. Northrop's New Inn, Pudsey, will receive immediate attention.—Yours, etc., John Ross, Change Ringer, Pudsey.'

We wonder what was the outcome. Can any of our readers tell us?

METHOD NAMES.

Lancashire ringers evidently do not relish the suggestion made by Mr. Burton that the method which has been named after their county should have its title changed to that of the county town. We are not surprised at the attitude which has been taken up by those whose opinions are voiced through the letters in our columns—and we happen to know that our correspondents' views are very generally shared in the County Palatine. Mr. Burton's suggestion was prompted, we feel sure, by the best of motives, but what we like most about the discussion is the fact that ringers are, after all, really interested in the names which are given to methods. About many things connected with the Exercise, members are often inarticulate, but Lancashire ringers, at any rate, are proud to have a method named after their county, and will make their voices heard when a proposal is put forward to change it.

We had begun to think that ringers cared nothing at all for the nomenclature of methods, but since it is pretty obvious that they do, we should like to recall to their minds the fact that the Central Council, jockeyed into the acceptance of a report by the threat of resignation on the part of one of their committees, foisted upon the Exercise at their last meeting a batch of names for methods that are out of place and stupid in a science based on mathematics. The committee entrusted with the naming of the Minor methods had a splendid opportunity of purging ringing of some of those ludicrous names which have come down to us from the past, and have frequently made the Exercise a laughing-stock. Instead, they emphasised and perpetuated them, by adding to a class of titles which are positively silly when applied to ringing.

As to whether we call a method Lancashire or Lancaster, Yorkshire or York, is of little importance while we have such titles as Marigold or Geranium. Happily the resolutions of the Central Council are not as unalterable as the laws of the Medes and Persians, and we yet hope we may see the whole collection of garden, and other equally unsuitable names, swept away. After all, ringing has passed beyond the nursery stage, and it is due to those who treat the science seriously that, when they want to ring a new method, they should be able to publish their performance under some title that will not bring ridicule upon them or upon the art they seek to foster. And there is danger in the future. If the Exercise is going to swallow the kind of thing that was foisted on it at the last Council meeting, worse may follow when the Major methods come to be dealt with, but it would be a simple thing for the Council to wipe out those present titles, and substitute something more rational and more in accord with the seriousness of the art.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

CORRECTIONS TO PEAL COLLECTION.

AMENDMENTS TO SECTION II.

The following amendments to Section II, of the Central Council's Peal Collection are to be issued as a Corrigenda, but for the benefit of those who already possess a copy of this publication, the details are here given so that ringers may make the alterations in the copies already in their hands:

Page 145, No. 2.—For 'single halfway and end,' read 'single for bob at M in 6th and 12th parts.'

Page 153, No. 21.—For 'fifth course-ends,' read 'fifth course.' Omit the following note: 'If the 4th and 5th courses 5088.' This calling produces rounds at the first part-end.

Page 170, No. 65.—FALSE (5200 by J. H. Pilkington). The peal will be true if M be substituted for R in the calling throughout the Peal, and the figures be altered, as follows:

23456 W B M

53462	—	1	—
45236	—	—	—
24653	—	—	—
62345	—	—	—
42356	—	1	—
34625	—	—	—
63542	—	—	—
58234	—	—	—
35264	—	—	—

Page 182, No. 90.—For '5043,' read '5040.'

Page 184, No. 95.—For '5088,' read '5040.'

Page 185, No. 97.—The calling of the last course but one should read '64235, 4 B M,' not '4 B R.'

Page 190, No. 104, and Page 198, No. 122.—In footnotes, for 'course-end' read 'course.'

Page 201, No. 125.—In 16th course omit Bob at W, and add Bob at M, thus: '42356 5 4 M R.'

Page 208, No. 139.—Add Bob under R in 7th course, thus:—'53462 M R.' In 15th course, read '24536' for '23536.'

Page 211, No. 145.—For '5005,' read '5024.'

Page 212, No. 146.—In calling of 12th course, read 'W,' not '5 W.'

Page 213, No. 149.—FALSE (5056 by Arthur Craven). Page 217, No. 156.—FALSE (5120 by Arthur Craven).

Page 217, No. 157.—Add Bob under M in 9th course, thus:—'53426 W M H.'

Page 222, No. 167.—FALSE (5024 by H. Dains).

Page 228, No. 180.—In 8th line put Bob at W instead of at M, thus:—'26435 1 W, 2 R.'

Page 228, No. 181.—In last line remove Bob at M, thus:—'23456 1 W, 3 R.'

Page 239, No. 13.—Add Bob at R in 6th course of reverse, thus:—'26354 W M R.'

Page 242, No. 21.—FALSE in both variations (5040 by H. Dains).

Page 243, No. 24.—This is the same as No. 23.

Page 246, No. 29.—In last line after 'call B twice,' add 'omitting Bob at M.'

Page 246, No. 31.—For '642357088,' read '642357089.' For '236457088,' read '236457089.'

Page 251, No. 14.—In line below rounds, 'for '08795243xy,' read '087952436xy.' Twelve lines below, for '54326,' read '54236.'

Page 254, No. 1.—FALSE (5008 by H. Dains).

Page 255, No. 2.—For 'W B M R,' read 'M B W R.'

Page 261—265.—For 'H. H. Wilde,' read 'H. W. Wilde.'

Page 267, No. 26.—FALSE (7008 by A. P. Heywood). But a true peal of 7392 is had by calling the first part as the second. For a true 7008 call the Peal as printed except for the 1st and 9th courses, the calling of which must be transposed, thus:—

M B W R

First course 42356

Ninth course 52364

The opening course of all the remaining parts will have one call at R only, as shown.

A FALSE PEAL.

DISCOVERED AFTER 35 YEARS.

To the Editor.

Dear Sir.—As it has been found that the composition of our peal No. 186, 7,008 Double Oxford Bob Major, rung at Duffield on April 23rd, 1887, is false, we have no option but to withdraw the peal from our records.—Yours faithfully,

A. C. WRIGHT.

Hon. Sec., Midland Counties Association.

LANCASHIRE SURPRISE.

To the Editor.

Dear Sir,—Will you allow me to make a few remarks in reply to Mr. Burton, in your issue of November 9th, in which he advocates changing the title of the above method to Lancaster. Firstly, the Lancashire Association has no power either to name or re-name a method. Secondly, in this case the right to re-name rests either with, or by consent of the author. No doubt Mr. Craven's idea was to give Lancashire ringers a method named after their own county and association, as with Yorkshire Surprise, which seems quite logical, as appealing to ringers in its broadest sense. Mr. Burton appears to cast ridicule on the shires. Well, Lancaster is noted for its ancient 'jail,' its asylum, and its total indifference in matters pertaining to change ringing. After this we can have another method named after the county town if necessary, but that Lancashire Surprise should remain as it stands is the wish of, Yours truly,
J. MARTIN.

12, Bankfield Street, Liverpool.

WHAT'S IN A NAME?

Dear Sir,—I do heartily agree with good Mr. Burton when he says 'Rochester' is a pretty name, but I don't agree with him when he says 'Lancashire' is not pretty. I would remind good Mr. Burton that from a Lancastrian's point of view 'Norfolk' is not as pretty as Lancashire, and that's that in a nutshell. Opinions in all quarters differ on the subject of 'Names for Methods,' but, after all, does it matter? We all know why things have names, and perhaps if methods could speak they would be as wroth with their sponsors as some of those mortals who are condemned to go through life with 'Jezebel Jane' and 'Mafeking John' tacked to their necks. I, on my part, did venture to read ye paragraph by ye good Squire Bracondale to Good Mistress Peppery who did remark—yes, Worcestershire sauce is good, so is ye Cheshire cheese, especially ye one hard by St. Bride's, noted for its steak puddings, but ye good Squire has forgotten that Yorkshire relish is great as a Surprise. Norfolk dumplings are a real delicacy (I have one and I know how nice they are), and ye good Method of Double Norwich, of which I did prate so often did at once call to her mind ye delicacy known as 'Coleman's Mustard.' So what's in a name after all? And did wind up by reminding me to remind ye good Squire that Lancashire is also noted for its clogs, and the finesse with which ye denizens of ye County Palatine can use 'em to displace over-prominent shirt buttons.—Yours very sincerely,
SAMIWELL PEPPERY.

GLOUCESTER & BRISTOL ASSOCIATION.

The Bristol branch of the above Association held its quarterly meeting on Saturday, November 10th. Ringing took place at St. Nicholas' Church in the afternoon, several lady members taking part. Service, at which the Rev. W. Parton officiated, was followed by tea at the C.E.M.S. House, St. Stephen Street. At the meeting over 40 members were present, representing the following towers: St. Nicholas, St. Stephen's, S. Werburgh's, SS. Philip and James', St. Matthew's, St. Michael's, St. Thomas', S. James', S. Leonard's, Henbury, Mangotsfield, Coalpit Heath, Olveston, Winterbourne, and Westbury-on-Trym. The Rev. E. J. Phillips presided. — Miss Dorothy and Miss Bertha Gordon, of St. Philip's, and Mr. G. Gihben, of St. Michael's, were elected members. The meeting for December was fixed for Brislington on Saturday, the 8th, while the annual meeting of the branch is to take place at St. Philip and St. Jacob on Saturday, January 26th.

The Rev. T. C. Fowler proposed a hearty vote of thanks for the use of the bells, and to the Rev. W. Parton for his address, also to the authorities of the C.E.M.S. House for kindly allowing the use of the rooms.

This concluded the business, which was followed by a meeting of the Bristol United Guilds in connection with the third annual dinner, which is to take place at the Grand Hotel, Broad Street, Bristol, on Saturday, January 12th.

CONDUCTORS ALL.

To the Editor.

Dear Sir,—In your last issue a correspondent from Milton, Kent, asks if six extents of London Surprise Minor have ever been called before by six separate conductors. I answer in the affirmative. When I was a member of the band of ringers at Bucknall, Staffs, we not only rang London Surprise in this way, but other Surprise and Treble Bob Methods. On Tuesday, August 25th, 1896, we rang a hand-conducted Surprise peal (5,040 changes) in seven methods, the tenor man calling the first 720 and the last one. And on Saturday, April 6th, 1897, we rang a silent peal of Surprise in seven methods. Now that there are so many conductors in the Milton hand I would suggest they try to emulate the above two peals, the latter especially will provide them with occasion for practice for some time to come. Wishing the band every success, and hoping they will continue to make progress in the noble art of bell ringing,
Yours truly,
Milton, Staffs.

BELFRY GOSSIP.

The one hundredth peal of Stedman Cinques by the Middlesex County Association and London Diocesan Guild was rung at Bow, Cheapside, on Saturday. Probably the only two other societies which have this distinction are the College Youths, and the St. Martin's Guild, Birmingham. Of the Middlesex Association's peals, 39 have been on handbells.

It will not be long before the one hundredth peal of Stedman Cinques on the famous bells in the Bull Ring will be rung. This is quite a unique record for any church.

It is interesting to note that the peal of Stedman Cinques rung at High Wycombe, the report of which was published last week, was the first by parishioners of Wycombe. A week previously the All Saints' Society rang the first peal of Stedman Triples by Wycombe men.

The report of a peal rung at Radstock, Somerset, has been sent without the time.

In the long history of record peal attempts is a peal which was rung on November 23rd, 1732, at St. Giles', Cripplegate. This was 8,012 Grandsire Caters rung by the Society of City Scholars, a long defunct organisation, in which it took three men to ring the tenor.

The same length in the same method was rung at Southwark on November 28th, 1735.

On November 25th, 1737, one of the earliest and longest peals of Bob Major was rung at West Ham. This was a 15,120 rung by the Eastern Scholars, and although a similar length was rung at Oldham in 1807, we believe it is still the longest peal rung in the method.

To-morrow is the anniversary of the first peal of Oxford Treble Bob Maximus on handbells, which was rung at Sheffield on November 24th, 1816. It is also the 80th anniversary of a peal of 5,295 Stedman Caters rung at St. Andrew's, Norwich.

Recorded on a tablet in the tower of St. Chad's, Shrewsbury, are particulars of a peal of 6,006 Grandsire Cinques rung on November 25th, 1799, by the old Union Society. This, of course, was not the longest length in the method at the time, for the same length had been rung more than 70 years earlier by the London Scholars, and an 8,008 was rung in 1735 at Southwark, but it was a good performance for a provincial tower in those days.

The centenary of a peal of Treble Bob at St. Andrew's, Norwich, will occur on December 5th. From the present condition of affairs in that tower, there is, we are afraid, no likelihood of an anniversary celebration at St. Andrew's, at all events.

The Rev. F. R. Bonsey, president of the Middlesex County Association and London Diocesan Guild, has been appointed Rector of Wrentham, Suffolk, and on Saturday a peal of 'welcome' was rung for him.

His many friends throughout the Exercise will learn with regret that Mr. John Carter, who was unable to attend the College Youths dinner on account of ill-health, is still very unwell.

SALISBURY DIOCESAN GUILD.

The monthly meeting of the Devizes Branch was held at Bratton on Saturday, October 27th. After ringing during the afternoon, the usual Guild service was held, conducted by the Vicar, the Rev. W. A. Jeayes. The bells of Edington Church were also available during the afternoon, and a goodly number assembled there. About 20 sat down to tea, including the Vicar and Dr. Locket (Bratton). The following towers were represented: Trowbridge, Bradford-on-Avon, Westbury, Devizes, St. John's and St. Mary's Keovil; Holt, Rowde and Bratton. — The Branch Chairman (Mr. C. D. Heginbotham) heartily thanked the Rev. Jeayes for his kindness, to which the Vicar suitably replied. A hearty welcome was also given to Dr. Locket. Further ringing was afterwards indulged in.

DEATH OF MR. JAMES FAITHFULL.

For 35 years steeplekeeper at St. Mary's, Acton, Mr. James Faithfull has passed away. Locally known as 'Jimmy, the Bellringer,' he was every Sunday 'faithful' in name and faithful to his calling in ringing the faithful to the church.

He was buried on Thursday of last week, and in the evening a quarter-peal of Grandsire Triples was rung with the bells half-muffled: F. Goodfellow 1, W. Lawrence 2, S. D. Breeze 3, Miss P. Moss 4, H. Wincote 5, R. Fardon (conductor) 8, G. W. Coulson 7, J. W. Fruin 8.

COLLEGE YOUTHS' NEW MASTER.**MR. TOM HIBBERT'S ELECTION.**

At their meeting last week the College Youths elected Mr. R. T. Hibbert as Master for the ensuing year. Mr. A. A. Hughes was re-elected hon. treasurer; Mr. P. E. Clark was elected senior steward; Mr. W. Hibbert junior steward; Messrs. C. F. Winney and Walter Prime were re-appointed trustees, and Mr. W. T. Cockerill hon. secretary.

Mr. W. E. Garrard, the retiring Master, is the leading spirit among the ringers at the famous Church of St. Mary Abbot, Kensington, where since 1893, he has laboured assiduously in the art. At that time the bells were rung by a 'stone' band, but Mr. Garrard trained a company of change ringers, and for the last twenty-six years the bells have been rung every Sunday for morning and evening service. What that has meant in labour to the man responsible is known only to those who have carried out a similar task, and in Mr. Garrard, London ringing has one of its most able as well as one of its most modest exponents.

The election of Mr. Tom Hibbert, of Reading, as Master of the Ancient Society, is a notable event, for it is long since a 'provincial' member, residing as far from London as Reading, has filled the principal office. But Mr. Hibbert is an old member of the Society, he has taken part with them in more than one memorable performance, and during the period he has served as steward, he has been constant in his attendance, despite the journey that has been involved.

There are many in the long list of Masters of the Ancient Society of College Youths who have made a distinct contribution of personality in attaining to this high office, but none more so than he who has just been elected for the ensuing twelve months. A true son of the Berkshire Downs, he is strongly attached by many ties to the little village of East Ilsley, his native place, where greatly to his joy, and very largely to his credit, there is now a beautiful little ring of eight bells replacing the old peal of five upon which he commenced his ringing career.

His work for the G.W.R. Company has taken him into various parts of the country, where he has always made friends, and where he has left behind him a reputation of as fine a handler of a bell, big or little, as one could wish to see.

A member of many associations, his longest connection has been with the Oxford Diocesan Guild, of which he is the valued secretary, and that society of which he is now Master. He has for many years resided at Caversham, where he is a staunch member of the St. Peter's Society, and deputy foreman. Chief among his many ringing achievements are perhaps the record peal of Stedman Cinques at Southwark, and the longest peal ever rung by ten men (Stedman Caters at Appleton).

Mention may also be made of the fact that he has rung peals at the heavy end on the three heaviest rings of eight, ten, and twelve in the kingdom.

His speeches are plain, straight and vigorous, with occasional touches of a quaint humour which is absolutely his own. He is possessed of a frown which has been known to alarm strangers; it is, however, merely indicative of concentration of thought and tenacity of purpose, except when the ringing is bad, when it signifies a state of feelings quite beyond words.

He is known to all his friends as 'Old Tom,' and to know him is to love him.

MIDLAND COUNTIES ASSOCIATION.

A meeting of the Hinckley District was held at Earl Shilton on Saturday, November 3rd, a large number attending from Barwell, Croft, Chilvers Coton, Earl Shilton, Hinckley, Leicester, Sharnford, Stoney Stanton, Stockingford and Wigston.

A short service was held in church, conducted by the Vicar (the Rev. H. V. Williams), and an interesting address was given by the Rev. R. P. Farrow (Rector of Stoney Stanton). Tea was partaken of in the Schools, the Vicar and his wife kindly inviting the visitors to be their guests.

The business meeting was presided over by the vice-president (Mr. C. H. Webb), supported by the Vicar.—One new member from Earl Shilton was elected to the association.

A vote of condolence with Mr. and Mrs. J. Needham, of Barwell, in the loss of their son was carried, the company showing their sympathy by standing for a minute in silence.

It was decided to hold the next meeting at Barwell.

Votes of thanks were accorded to all who assisted in arrangements for tea, especially the ladies, and thanks were also given to the Vicar for the use of the bells, and to the Rev. R. P. Farrow for his interesting address.

The Vicar afterwards delivered an address on bell ringing, from the viewpoint of a non-ringing clergyman. Members then visited the belfry and rang touches in Standard Methods, including Grand-sire and Stedman Triples, Erin Triples, Bob Major, Double Norwich Major, and Kent Treble Bob Major.

WINCHESTER DIOCESAN GUILD.**PORTSMOUTH DISTRICT SECRETARY'S RESIGNATION.**

The annual meeting of the Portsmouth district was held at Fareham on Saturday last, when 30 members were present from Alverstoke, Bishops Waltham, Curdridge, Fareham, Gosport, Portsmouth, Southampton, Swanmore, Titchfield and Wickham. Messrs. F. S. Bayley, G. Williams (Master) and Rev. E. Bankes James were also present; an apology for absence was received from the general secretary (Mr. G. Pullinger). A short service was held in the church, the Guild's form of service being used, at which the Vicar of Fareham (the Rev. J. E. Tarbat) officiated.

An excellent tea awaited the company at Foster's Restaurant, where the business meeting was also held, Mr. W. Tate occupying the chair. The balance sheet was presented by the auditor (Mr. H. G. Reynolds), and was unanimously adopted.—One new member and two probationers were elected.

The election of officers was the next item, and the hon. secretary (Mr. E. J. Harding, sen.) informed those present that he had made up his mind to relinquish the post. He had been an officer of the district for the past 18 years, and had found during recent years that he could not pay attention to the affairs of the district as he would like. At the present time the district was in a healthy condition, and he thought that by retiring now he would be doing it honourably.—He was urged by the members and also by the Master to reconsider the question, but he thought the time had come when a young enthusiastic secretary was what the district required. It was with regret that the members accepted his resignation, and thanked him for his past services. At the request of the members Mr. F. W. Rogers was asked to fill the vacancy.

As he is Recorder of Peals for the Guild he thought it was not in order, but said that if he could do the Guild more good by accepting he would do so. The work of the Peal Recorder was rather a tame one, and at the members' request he decided to accept.

The rest of the officers were elected en bloc, viz. Hon. auditor (Mr. H. G. Reynolds); representatives on Central Committee, Messrs. H. J. Smith and W. Tate.

It was decided to hold the next meeting at Curdridge on March 1st, due notice of which will appear in the 'Ringing World.'

SUGGESTED NEW TITLE FOR THE GUILD.

A letter from the general secretary with reference to the division of the diocese was next placed before the meeting for consideration and discussion.

The Chairman mentioned that a resolution had already been forwarded from the district to the effect that the district was strongly in favour of the whole Guild continuing as such, and the meeting endorsed that resolution.

The Rev. E. Bankes James thought it would be a disastrous thing to contemplate a splitting up of the Guild. He had attended the meeting especially to place before the members a title which he thought would cover the whole area of the present Guild. The full title which he proposed was 'The Wessex Association for the Dioceses of Winchester, Guildford and Portsmouth.' The Guild would then be known in short as 'The Wessex Association.' Continuing, he said that if we looked back in history we would find that Winchester was the capital of ancient Wessex, which latter covered the proposed three dioceses, and he thought that 'The Wessex Association' would be an admirable title for the Guild to accept.

This proposed title was accepted unanimously, the Rev. E. Bankes James being thanked for his fine suggestion.

The Chairman proposed the usual vote of thanks to the Vicar for the use of the bells and for conducting the service, after which the ringers returned to the tower. The methods rung were: Grand-sire and Stedman Triples, Bob and Double Norwich Major, Superlative, Cambridge and London Surprise.

THE ARTHUR T. KING MEMORIAL FUND.*To the Editor.*

Dear Sir,—Will you kindly publish the balance sheet of the above-mentioned fund, which I append? My committee wish to convey to the numerous friends of the late Mr. King, who subscribed to this fund, their sincere thanks for enabling us to erect two permanent and appropriate tablets to his memory. It is very gratifying to know that many, other than members of his own association, wished to identify themselves with his memorial, and to them, as well as to our members, we are grateful.—Yours faithfully,

C. T. COLES.

Hon. Sec. to Memorial Sub-Committee.

THE COLLEGE YOUTHS' DINNER.

(Continued from page 731.)

Mr. G. R. Fardon next proposed the toast of 'The London and Provincial Ringing Societies,' and referred to the feeling of brotherhood which existed between the College Youths and the kindred organisations of the country. He threw out the suggestion that it would be nice if the College Youths could be given the opportunity of ringing a peal occasionally at St. Martin's, or some other tower of the Cumberland Youths in London. He went on to express regret at the disappearance from among the ringing societies of London of the old Waterloo Society, which formerly was the means of bringing on many young ringers. Mr. Fardon added that while in the Isle of Wight last year he and some other ringers visited the grave of William Raynor, who founded the society of Union Youths in the Isle of Wight about the year 1777. They rang the handbells round the tomb, which he regretted to see was in a sad state of decay. He suggested that the Winchester Guild might consider the restoration of this memorial, as the Kent County Association had dealt with the tombstone of the great James Barham at Leeds.

INCREASING DIFFICULTIES.

Mr. J. D. Matthews, who first responded, said he looked upon their chairman and himself as the godfathers of the ringing brotherhood, by virtue of the position which they held as Masters of the two old London Societies (applause). They were the two oldest ringing societies in existence, and all the county associations and diocesan guilds were more or less offshoots of them. With regard to inviting the College Youths to ring peals in Cumberland towers, he would be very glad if Mr. Fardon would tell him how he could get one of the Cumberland towers for a peal for his own society, much less for someone else (laughter). Continuing, Mr. Matthews said an article had appeared that week in 'The Ringing World' telling them how to put their house in order in London, but he was afraid the difficulties in connection with ringing in London were not fully appreciated by those outside the Metropolis. The officers of the College Youths would know that the difficulties were increasing in regard to the twelve bell towers in London. People complained about the bells being rung for peals, and it was impossible to keep a regular Sunday company going at many of these towers. When some of the towers had been shut up, it had been the towers where peal ringing had been most frequent, and it behoved them to consider whether the closing of some of these towers had not been due to their own selfish action. Directly a peal of bells was put into order, if they were asked to furnish a Sunday band they would not be able to do so, but the Vicar would be flooded with applications for permission for peals. He thought this was a position which they as London ringers ought to safeguard and in their own interests see that these towers did not get closed through over-use for peal ringing. In view of the difficulties which they were experiencing, he thought the next best thing they could do was to try and ring peals together on handbells (applause).

The Rev. F. L. Edwards responded for the Provincial Societies, and referred to the courtesy which country ringers always experienced when they visited the London Societies in their towers. He trusted that this spirit of good fellowship would ever continue, and that the time would never come when London ringers would fail to give such a hearty welcome and fraternal greeting to their brothers from the country (applause).

Mr. C. H. Horton submitted the toast of 'The Visitors,' and read some amusing extracts from ancient records, showing how visitors were sometimes treated in olden days. The Ancient Society of College Youths was proud that evening to welcome so many guests, and he assured those connected with the various churches in London that the Society was always ready to help them in any way connected with the bells of their churches, for they recognised that it was by the kindly courtesy of the church authorities that they were able to progress and to accomplish those peals, of which they had the records in their peal books (applause).

THE BELLS AS A PARABLE.

The Rector of Stepney replied in a thoughtful speech, which was lit up by many touches of humour. Briefly referring to some of the historical associations between his church and the city, he mentioned that the tenor bell at Stepney was cast for the Monastery in the Minorities, in 1346. In thanking the Society for their invitation to the visitors, he remarked that the clergy appreciated the opportunity once a year of thanking the ringers for what they did. He was very much indebted to Mr. Langdon for his personal help, and he also wanted to thank Mrs. Hughes for the great assistance she gave him, by her handbell ringing, at a parochial soiree. Personally, he continued, he would love a peal at Stepney every week, but that was not possible on account of the inhabitants and the shopkeepers who had to carry on their business right under the walls of the tower. They had to admit that constant peals would be a little difficult for those people who lived close to the bells. At the same time, even if business was carried on round the tower there

was something wonderful in the ringing of the bells which permeated the whole commercial life going on beneath it. Through it all there was the sounding of a note which, by awakening a religious consciousness, created an atmosphere that must raise the tone of the secular life going on around. It was indeed a parable of what religion ought to be at any time, permeating the whole secular life of the nation, raising it to heaven, as the notes of the bells raised the thoughts of them all to higher things. For that he rendered them most cordial thanks (applause).

Mr. W. D. Smith proposed the toast of 'The Press,' and referring to 'The Ringing World,' expressed regret that in so many towers the ringers were content to take only one copy for the whole band instead of supporting it by taking a copy each, and thus enabling the scope of the paper to be extended by the fact of its much larger circulation.

Mr. J. S. Goldsmith (Editor of 'The Ringing World'), responded, and remarked upon the increasing notice which was being taken of bells by some of the leading journals in the land, articles having appeared which were likely to encourage public appreciation of ringing. With regard to the College Youths, he said he felt sure that the members of the society throughout the country, and ringers generally, would like to see published more details of what the society was doing. At present very little was ever heard of them except for the peals they rang, and on the occasion of that gathering, but some more frequent notice of their activities would be greatly interesting, for there was no need for such an ancient and honourable society to hide its light under a bushel.

This concluded the speechmaking, and the very pleasant gathering came to a close with 'Auld Lang Syne' and the National Anthem.

The musical programme included two fine songs by Capt. Freehorn, 'Songs of Araby,' and 'I pass by your window,' sung in response to the demand for an encore. Mr. James Bullock was also encored for the song 'Down Vauxhall Way,' and sang 'Come to the Fair.' Mr. H. Castell, the accompanist, also sang. The feature of this part of the programme was, however, again the handbell playing of Mrs. A. A. Hughes, who, to harp accompaniment by Mr. E. A. Young, played 'Meditation' (Bach-Gounod), of which she gave a beautiful rendering, and an old favourite in 'Ash Grove,' in which her skill in handling the large number of bells was fully manifested.

KENT COUNTY ASSOCIATION.

The Central Committee of the Kent County Association held their autumn meeting at Tonbridge on Saturday. Among other business, it was decided to hold the annual general meeting on Whitsun Monday, either at Sevenoaks or Westerham.

Grants from the Bellry Repairs Fund were made to Eltham, Lamberhurst, Cheriton, Teynham, and S. Nicholas-at-Wade.

The secretary was authorised to settle Messrs. Mears and Stainbank's account for the erection of the two trebles at Canterbury; and it was decided that by permission of the Dean and Chapter a marble tablet should be placed in one of the panels under the tower recording the fact that the two bells were hung in the tower above as a memorial to the fifty-six members of the association who fell in the war.

LEWISHAM DISTRICT SECRETARYSHIP.

The annual meeting of the Lewisham District was held at Lewisham on Saturday, Oct. 27th. During the afternoon and evening, touches of Grandsire and Steadman Triples, Treble Bob, Double Norwich, and Cambridge Surprise Major were accomplished, London Surprise Major failing. Owing to the illness of the Vicar (Canon Roseveare) the Rev. J. H. A. Chanvel (curate) officiated at the service, and gave a very interesting address on church workers.—Mr. W. Whitehead (organist) kindly presided at the organ.

Tea followed in the Schools, the Rev. Chanvel joining the party, and a hearty vote of thanks was accorded him for taking the service and giving the address.

The business meeting followed, Mr. W. J. Jeffries presiding.—Twelve new members were elected, and Dartford was selected as the place of next meeting on the last Saturday in January.

The District Secretary (Mr. T. Groombridge) then read his annual report, which was adopted.

The Chairman announced that Mr. T. Groombridge wished to be released from office, and it had been hoped Mr. H. Audsley would have filled the post, but he stated that he found it would be impossible, and no one seemed anxious to take it on. Mr. A. G. Hill, of Erith, volunteered to act as assistant secretary, and thereupon Mr. T. Groombridge was re-elected, with Mr. A. G. Hill as assistant, to carry on for the year.

Mr. W. J. Jeffries and Mr. I. Emery were re-elected as representatives on the Association Committee.—The assistant secretary was asked to write a letter of sympathy to Canon Roseveare, who had undergone an operation, and also to thank him for granting permission to hold the meeting at Lewisham.

A hearty vote of thanks to the organist, Mr. H. Warnett, the caretaker of the schools, and the chairman, concluded the meeting, the members returning to the church for ringing until 9 p.m.

RUTLAND SURPRISE.

Dear Sir,—I am rather surprised at the contents of Mr. Carter's letter, regarding the definition of Surprise. Mr. Carter was one of the members of the committee (and all the other members with the exception of Mr. Dains are still living) that framed the definition. Mr. Carter does not make himself very clear regarding his objection to 'Bristol' and 'Rutland,' but I imagine he thinks an internal piece should be made at the treble's whole pull behind. I do not take that position as a cross section of the treble's path. It is like the whole pull at lead. A dead end, the only way out is to go back. It is the starting and finishing place.

Mr. Carter also states that 'Rutland' Major, Royal and Maximus are three different methods. I must respectfully inform him that he is mistaken, and I ask him to extend the same on to 14 and 16 bells, when he will find that on all numbers where there are an odd number of pairs of bells (i.e., Royal 5 pairs, 14 bells 7 pairs) the pivot place will be made in 3rd's place instead of 1st's place, as is the case on all numbers with an even number of pairs of bells. The odd pair of bells dodge in 1-2. This is a new feature and I expected some comment.—Yours truly,
ARTHUR CRAVEN.

Stannington near Sheffield, Nov. 5th, 1923.

GILBERT.—On November 14th, at Rainham, Kent, to the wife of C.Q.M.S. Geo. Gilbert, R.E., a son.

ANOTHER PEAL OF SIX IN DEVON.**SHUTE BELLS REHUNG.**

Shute, a Devon village, between Axminster and Honiton, has just had its ring of bells increased to six. This has been made possible by the efforts of Mr. Arthur S. Hutchinson (Diocesan reader, and captain of the ringers), who raised funds for the addition of a new treble and the rehanging of the whole. The dedication was performed by the Bishop of Exeter, who, in the course of an interesting address, said a peal of bells was absolutely English. "When you listen to a peal of bells," said the Bishop, "it is not merely the sound you hear, but the notes, that tell of England's greatness, from those iron tongues." There was a time when they were going to take down the bells in some towers, and put up things which would make a clanging noise. There were still some towers where the bells were not rung as they should be. In every town he would like to see the bells properly rung, according to the good old custom of England—rung round in full peal. Concluding, his Lordship appealed to ringers to ring the bells with reverence—with a double reverence—for, firstly, they were a part of the country—with all its peculiarities, with all its greatness—and, secondly, because they were a part of the worship of God, and preached a sermon. "As you ring, whether it be at a practice or before a service, whether you toll for a death or ring a merry peal after a marriage, say a prayer that the peal you ring may bring to the hearts of people that message of penitence to the sinner, a thought to the careless, peace to the troubled, and, above all, to true-hearted worshippers, carry a message to come to God's house, and there sing those praises which the bells had begun."

Ringings afterwards took place, by teams from Taunton, Honiton, Clyst, East Budleigh, Chaffcombe, Colyton, Bucknell, Uplyme, Cotleigh, Northleigh, Seaton, Offwell, Widworthy, Musbury, Dalwood, Kilmington, and members of the old Colyton band of ringers. A notable visitor was the Rev. E. V. Cox.

Tea was served in the Schoolroom, and a large company sat down at the tables.—The Vicar extended a cordial welcome to the Bishop, and voiced the pleasure felt at his Lordship's presence at the church service. The Vicar also paid a tribute to Mr. A. Hutchinson, to whose energy the improvements in the belfry were entirely due.—The Bishop, in reply, said Mr. Hutchinson was of the type of men who, by their unselfish work, had made England great.

The whole of the restoration was entrusted to Messrs. T. Doble and Son, Taunton, who have carried out the work in a highly satisfactory manner. Great satisfaction was expressed with the 'go' of the bells by the large number of ringers present.

A RESTORED WELSH RING.**Haverfordwest Bells Dedicated.**

St. Mary's Parish Church, Haverfordwest, is now in proud possession of a melodious ring of eight bells. Up to some years ago there hung in the belfry eight old bells, in a dilapidated timber framework. The fittings were quite worn out, and unable to carry the bells with safety. It was, therefore, decided to send the bells to the famous foundry of Messrs. Mears and Stainbank, who are to be congratulated on the excellent quality of their work. The bells are now of splendid tone. The tenor has been recast, and is worthy of special note. Its weight is one ton; and it bears the inscription, 'I will do my best for Haverfordwest.' The other seven bells have been returned, and hung with self-aligning ball bearings in totally enclosed dustproof housings. The old oak frame has been bolted together, and the 'go' of the bells is now most satisfactory.

The dedication was performed by the Very Rev. the Archdeacon of St. Davids on November 8th. Special hymns were sung, and the Archdeacon gave a very interesting and inspiring address to a large number of the inhabitants of the town and district who had assembled to witness the ceremony. After the Blessing, the band of St. Catherine's, Gorsemon, made their way to the ringing chamber, raised the bells in peal, and rang a well-struck touch of 616 Grand-sire Triples: C. Willis 1, R. Baird 2, J. Williams 3, H. Willis 4, A. Sluman 5, W. Dobbins 6, J. Williams (conductor) 7, W. Dobbins 8. The Vicar and churchwardens came, and congratulated the band on their fine ringing and striking. The bells had not previously been rung since 1890. The ringers were entertained to dinner at the Mariner's Hotel, and afterwards further ringing took place in several methods, including two 504 of Grand-sire Triples by R. Dobbins 1, H. Willis 2, J. Williams 3, R. Baird 4, A. Sluman 5, W. Dobbins 6, J. Williams (conductor) 7, W. Dobbins 8. The bells were lowered in peal. Afterwards an excellent tea was enjoyed by the ringers.

A hearty vote of thanks was passed to the Vicar and churchwardens for their welcome and hospitality.

It is interesting to note that these old bells are the same that rang Oliver Cromwell to Haverfordwest.

A PLEA FOR STRUGGLING BANDS.

Speaking generally, ringing has made a wonderful recovery since the war, bands have not only been rebuilt, but a great advance has been made in the methods rung. Probably there are very few associations that are not now back at pre-war strength, and feeling that they have fully recovered from the position into which nearly five years of upheaval forced them. Yet we make bold to say that there are a number that, were they to face the question squarely, would have to admit that there is much more that might be done to encourage the art of ringing among the towers which stand within their area. Is there any county or diocesan association which can say that every tower within its borders, with a ringable peal of bells, has got its own company, and that company affiliated to the association? This is, of course, an ideal, but it should be the aim of every organisation, and no society which professes to cover an area should be content until that ideal is reached. Moreover, are all the affiliated towers receiving the assistance that is necessary to help them to progress?

It is a simple matter to keep in touch with towers and bands which are easy of access from ringing centres; it is the cause of the isolated towers that we would plead. Some bands in out-of-the-way places struggle for years with practically no outside help, and, while they plod on patiently, they receive little assistance or encouragement from their association, except, perhaps, by the holding of an occasional meeting in the neighbourhood. Combined practices, which we have constantly urged, have had most successful results in places where this method has been tried, but what is wanted in many instances is something more, even than this, to give a real stimulus to ringing. We should like to see specially organised assistance given to the less fortunately placed towers, not by occasional help, but by a series of visits paid by ringers capable of giving real aid. In the winter months that are before us, little, perhaps, can be done in this direction, but ringers are slow to move, and the period intervening before the longer hours of daylight could well be used by association ringing-masters and secretaries in drawing up a scheme for rendering practical assistance to some of the less fortunately situated towers.

The Durham and Newcastle Association has realised the necessity for a forward policy, somewhat on these lines, and the appreciation which is forthcoming, when such action is taken, was evinced at West Hartlepool, where last week a visit resulted in a revival of interest, both in ringing and in the Association. The point to be remembered about this kind of missionary work is that the association will benefit as well as the company which receives the assistance.

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL.

Orders may be placed now for delivery at a future date to suit the convenience of clients.

ALL MATERIALS CHEMICALLY AND MECHANICALLY TESTED.

Makers to St. Paul's Cathedral, Westminster Abbey, Imperial Institute, Canterbury, Edinburgh, St. Albans, Lincoln, Durham, Peterborough, Melbourne (Australia), Rochester, Dublin St. Patrick's, Manchester and Worcester Cathedrals, etc.

Any interest which may be raised by the help given is bound to be reflected by a stronger support for the association, indicated not merely in membership, but in raising the level of ringing in that area. Too much importance can be placed upon the practice of holding district meetings. Good and necessary as these are for the vitality of an association, they cannot provide the same valuable encouragement to change ringing that would be given by properly organised and systematic visits paid, if only by a few capable ringers, to towers where interest is flagging, or where a band is struggling against difficulties which they are unable to surmount.

Rung as a silver wedding peal for James Waghorn, and a birthday peal for A. Relfe. It was also rung as a farewell peal to the Rev. D. W. W. Carmichael, who is exchanging livings with the Rev. H. B. Langton, Rector of Ickenham.

THE SUSSEX WEEK.We'll sing the song, as we march along,
Of good old Sussex by the Sea.

Our ringing tour this year, I am told, was one of the most successful outings known, and, although belated, a review of the week's doings may be interesting. Some have said that London and Bristol Surprise should have been included in the methods rung, but in eleven peal attempts ten were successful, as duly reported in the 'Ringing World' of November 2nd, the first seven having been scored straight off the bat. I regret to trouble our Editor with a correction re the Burgess Hill performance. Taking the list of names, as printed, the men actually stood in the order of 1-3-5-7-2-4-6-8; 'Queen's,' and not as shown. The error is mine, and I apologise to the band who are all loyal subjects of Her Majesty. This year I had less secretarial work in arranging the meeting, due to assistance of local veterans, Messrs. Bennett, Stone and Hart, whilst the foremen of the towers visited took considerable pains to fit in the week's programme. Mr. Challen, of Shoreham, owing to illness in the locality, had to refuse our coming, and this gap was kindly filled at short notice by Mr. Hammond, of Rotherfield. Letters of regret were received from Messrs. Evans, Bishop, George, Edwards (Hereford), Cheesman, Barton, Trollope, Walker, Buckland, and our Editor, who were unable to join the party; a certain septuagenarian being too busy migrating to his new nest instead of waiting till April, like the cuckoo usually does.

One sorrowful event arose in the course of my correspondence. Mr. Edwards, of Boreham, wrote me, saying: 'I should very much like to ring at Brighton and its neighbourhood. What is the latest date you can take yes or no?' The next letter I had came from his son to say that his father was dead, and was buried a few days previously. This was somewhat of a shock to me, since I am no chicken, whilst our departed brother was only 53 years of age when he made his last set change.

Only half the members had a programme, with order to copy it, and send original on to another member, and I wondered how this would work out. Therefore, I was glad on the afternoon appointed to see several couples come up to St. Peter's tower, Brighton, about 3 p.m., and so a businesslike start was made. On completion of the Royal here we were most agreeably surprised to find Mr. and Mrs. J. C. Truss, with a number of Brighton men, awaiting below to offer congratulations. We held a conversazione at the King and Queen, when song and handbells sweetened our temperament, and hastened old 'tempus fugit' more than ever.

On Sunday our forces were divided, one half going to St. Peter's tower, and the other to St. Nicholas', to ring for the morning and evening services. Amongst the touches scored were Cambridge and Double Norwich Royal, Treble Ten, London, Superlative, Yorkshire and Cambridge Major. We enjoyed the excellent dinner provided at our hotel, the famous boiled L.O.M. looking, as usual, more like a scrag when we had finished with it, and it cannot be said we were greedy with only one leg amongst 24. A happy Sunday evening together—after Divine service at the respective churches—was spent by visitors and friends alike, many ladies honouring our gathering, and enjoying the handbell ringing. An agreeable chat with a Worcestershire Vicar—formerly at Eye—who joined us, brought memories of the late J. Motts, the Rev. W. Pearson, W. Rose and the Poppy, and Messrs. Day and Son, and other Suffolk ringers. Our Ladies' Guild was represented by Mesdames Williams, Truss, Stone, Bennett, W. and K. Hart, Golding, Merrett, and the wife of our reverend brother. It is due to the ladies to add that our tourists were most comfortably housed, during their stay, in private quarters—'twas just like coming home after a good day's work to find 'Mother' with supper all ready. The railway company was good to us as well, issuing return tickets at single fares to all the local stations to which we wished to travel, and the weather—that old fellow of many costumes—was generous, Friday being the only time that macs and 'brellas were needed.

For Monday, Wednesday and Friday, we had 'doubles on,' as follows: Cuckfield and Lingfield from Haywards Heath Station, Hurstpierpoint and Burgess Hill from Hassocks, and Rotherfield and Buxted from Uckfield. On each occasion we found 'a winner,' because trains, towers, and times were manipulated to a nicety, and we had a good trainer. We peal ringers have much to be thankful for. We can follow the practice independent of the elements. We lose no 'gate' money if a match is abandoned, neither forfeit the rent of an unused sports field. At Rotherfield we saw the damage to the base of the tower done quite recently by lightning, yet the spire and bells remained for us safe and sound.

Certain association business was transacted, Messrs. W. Novard, A. E. Sharman and C. C. Mayne being elected life members of the S.C.A. in St. Peter's tower on Saturday, and Messrs. William Mead and J. C. Truss at Cuckfield on Monday, by the usual show of hands before we pulled off. I have since ascertained that the necessary entrance fees have been paid over to the hon. secretary.

After our Lewes visit on Tuesday we held another social on returning to Brighton. It was almost destroyed by mine host of the

King and Queen, who had relet our reserved room over our heads. My disappointment may be imagined when I found some thirty-six gentlemen and eight ladies standing 'homeless' in the Old Steine Gardens, rather resembling a stranded theatrical company. I have military reasons for supposing that more men during the war found out the value of 'The Canteen' than all the pussyfoots put together. A house of that name, well known to ringers of yore, gave us private accommodation for the evening. Here John Jay—and there's still a 'John Jay, junior'—rendered in good style 'Sussex by the Sea.' Mrs. J. C. Truss gave us an old favourite, accompanied by her husband. Mr. W. Hart sang a couple of good songs, and the verger of St. Nicholas also sang, accompanied by his son, an expert pianist; and handbell tunes by Messrs. Truss, Hart and Fussell, were also given.

On Thursday we found our failure at St. Peter's, Brighton, Cambridge Royal falling to pieces, after 40 minutes. However, this meeting was turned into a practice for Yorkshire Royal (2 courses), and touches of London Major—Messrs. Merrett, Groves, Smart, and others, making up a double team.

We were the guests of Messrs. Mead and Shepherd, on Wednesday to tea and lunch, whilst Mr. Nevard gave similar hospitality on Saturday as a terminal to the week. Our final attempt at St. Nicholas began at 2 o'clock, which suited the departure of several members on breaking up. We all took tea together at the Imperial Hotel, with a 'nip in the cup,' to the health of the host, and that warmed up the question, 'what about next year?' Ah, well! let us get over Christmas first.

Before leaving Brighton we saw the county challenge bell, never claimed by the last winners, now safely stored in St. Peter's tower. We also called on the veteran method builder, Mr. George Baker, looking hearty and well, and there, in a small inner room, we found bundles of papers covered with masses of figures and diagrams enough to fill a small portmanteau, and still he keeps on with the permutations. The late John Jay was discussed: also the little room at the Canteen, where Bill Gifford used to draw him out. The late Rev. F. E. Robinson, and the Rev. A. T. Beeston, Messrs. Hodgetts, Price, Attree, Rickman and Eden, were all with us—in our thoughts—even George King, of Canada, down at Sussex by the Sea. W. H. F.

KENSINGTON.—On Monday, Nov. 19th, for practice, at St. Mary Abbots, 1,260 Grandsire Triples: Miss A. Bolton 1, E. G. Locke 2, H. Dyas 3, A. B. Bennett 4, W. E. Judd 5, C. H. Roberts 6, W. E. Garrard (conductor) 7, P. H. Smith 8. First quarter-peal by the treble and second ringers.

NEW BELLS AT RADCLIFFE.

DEDICATION OF A LANCASHIRE PEAL.

The bells of Radcliffe Parish Church, Lancs, have been recast, and a new frame installed by Messrs. J. Taylor and Co., of the Loughborough Foundry. The dedication took place on Saturday last, when, despite the dense fog which enveloped South-East Lancs, there was a large congregation. The Bishop of Manchester (Dr. Temple) should have dedicated the bells, but, unfortunately the motor-car which was sent to bring his lordship got lost in the fog, a wire being received from him half-way through the service that the car had not arrived to fetch him.

The bells were, therefore, dedicated by the Rector (the Rev. J. Bamber), and the sermon was preached by the Rev. Canon Elsee, President of the Lancs. Association, who gave a very interesting address on the history of bells and their meaning.

The Rector afterwards explained to the congregation that that day saw the completion of the third of the war memorials, the first, the lych gate, as a thanksgiving for the safe return of the men who came back, and the new organ and the bells, and also a new hoy table, which it is intended to dedicate on the Sunday before Christmas Day, to the memory of the men who gave their lives.

The bells were raised in peal after the dedication by the local band, and rung in rounds after the service. The bells, which have been increased in weight, having now a tenor of 15 cwt., are an example of Messrs. Taylor's best work. The framework, which is of their low side pattern, is strong and massive in construction, and rests on heavy rolled steel girders firmly bolted together by diagonal wrought iron tension bars. The fittings have all their latest improvements, including ball bearings. The old inscriptions have been reproduced, and on the tenor in addition, 'In memory of the brave men who gave their lives in the great war, 1914-1918.'

Owing to the weather conditions not many visiting ringers were expected, but they turned up from Bolton Parish, Bury, Pendleton and Prestwich Churches. Canon Elsee had a pull after the service, and spoke in terms of high appreciation of the tone and 'go' of the bells, as, indeed, did all the other visitors. Radcliffe has now got one of the best peals in the country at the weight.

It is intended to have a ringers' day early in the new year, probably in the second or third week in January, of which due notice will be given through 'The Ringing World,' when it is hoped that there will be a good muster of visitors from the towers in the county.

BELFRY GOSSIP.

With a view to stimulating ringing in the neighbourhood of Carmarthen a visit was paid on Saturday last by a few enthusiasts, which included the leaders of Gorseinon and Aberavon towers, and the hon. secretary of the Llandaff and Monmouth Association. A hearty welcome was accorded by the Vicar and late churchwarden. Grandsire Triples and Bob Minor were rung, and an effort is to be made to re-form a band, the bells not having been rung for four years.

A visit was then paid to Llanstephan tower, some eight miles distant, where it was found call changes are rung. A hearty welcome was also accorded here, and a move is to be made in promoting change ringing. Triples, Minor and Doubles were rung. No peal has been rung on these bells since they were opened over forty years ago by the College Youths, but it is suggested that a peal will be attempted there before the next forty weeks are over by those who were there on Saturday.

Congratulations to the band who, at Great Hampton, have rung a handbell peal of Kent Treble Bob Maximus, the first of Maximus by all and by the Worcestershire Association. Mr. F. J. Johnson must be proud of his son and daughter.

The conductor of Holt's Original at Carshalton on Saturday is 18 years three months old. Are there any younger ringers who have called this composition?

We wonder how many ringers of to-day can claim to have had ancestors who were ringers nearly 200 years ago. Mr. Robert T. Evans, of Oswestry, Salop, called a peal in his native town last week, and there are records showing that members of his family rang in peals in Oswestry in 1731 and 1785.

On December 3rd, 1811, the first peal of Oxford Treble Bob Royal on handbells was rung at Sheffield.

The College Youths rang their first peal of Stedman Triples on December 4th, 1803. This was at St. Mary Abbots, Kensington, and was a peal on the multi-bob plan, having been composed by one, Thomas Edwards. The peal contained altogether 722 calls!

A peal of Grandsire Triples was rung at Stroud, Gloucester, on December 4th, 1722.

It is on record that a peal of Stedman Triples was rung at St. Michael Coslany, Norwich, on December 6th, 1731. This was proclaimed as the first peal of Stedman Triples, thus disputing the claim of the St. Peter Mancroft company to the first peal in the method which they rang on October 25th of the same year.

There was much feeling between the companies at this time, and it was reported in the 'Norwich Daily Press' that a little before the peal at St. Michael's was completed they (the Mancroft ringers) 'had the impudence to swear we should not ring it out, and so did fling stones up the church leads and against the doors, and did cause the boys in the streets to cry huzzas: nay, one of them was so impertinent as to open the window of the church to have got in, but was prevented by the people that stood to hear the peal, and were sent home to their shame with bloody noses.'

Ringers who intended visiting Ickleton for the Ely Diocesan Association meeting to-morrow are informed that owing to illness, the meeting is postponed to December 15th.

LANCASHIRE SURPRISE.

To the Editor.

Sir,—It was worth while to have raised this question of the nomenclature of methods, if only to have obtained, as a result, your excellent leading article in your issue of the 23rd; and there is also the gain, you point out, that it transpires a real interest is at last being taken in this important question of naming new methods. Apart from all this, it is indeed gratifying that the subject has been noticed by that ingenious ringer, 'Samiwell Peppery.'

While it is meet and right that our pioneers, when introducing a new method should have a voice in naming it, there arises at the same time the question as to what extent that right should be exercised. Reflection will show it is necessary that the right of choice should be limited.

When the time comes—and the sooner the better—to define the limits within which this choice is to operate, it should be definitely laid down that only single place names are to be adopted for new methods. And, so, automatically, we shall get what I would now have, and what I am confident will prove to be the proper course—the avoidance of that terminological superfluity—the 'shires.'—Yours very truly,

G. P. BURTON.

PROPOSED PETERBOROUGH DIOCESAN ASSOCIATION.**SCHEME TO GO FORWARD.**

A special general meeting of the Central Northamptonshire Association was held at Kettering on Saturday last, when a company, numbering about 60, sat down to tea at the Cross Keys Cafe, presided over by the president (the Rev. J. P. Friend), who was supported by the Rev. E. C. Thursfield (Cranford), the Rev. C. H. L. Hopper (Weekley), Mr. W. T. Wilson (treasurer of the association), Mr. D. J. Nichols (general secretary), Messrs. F. Barber, T. Tebbutt, R. G. Black, J. Nickerson, and Mr. J. Bott (district secretaries), Mr. and Mrs. R. Richardson (Surfleet), Mr. F. Rawlinson (Peterborough) and Mr. A. King, of Luton.

The business before the meeting was the report of the sub-committee, with reference to the proposed formation of a Peterborough Diocesan Guild of Church Bell Ringers.

The President, in presenting the report, stated that letters were written to the following six associations: The Peterborough and District, the Oundle and District, the Towcester and District, the Weedon and District, Brackley I. Deanery, and the Midland Counties Association, inviting them to send representatives to a meeting to consider the formation of a Guild for the diocese of Peterborough. At the meeting held at the Hall Memorial Buildings, Bridge Street, Northampton, on Saturday, October 23rd, representatives were present (in addition to those of the Central Northants Association) from the Peterborough, Oundle, Towcester and Brackley I. Deanery. A letter was received from the Midland Counties Association stating that the matter was brought forward and duly considered by their committee and members at their meeting on July 28th, when the following resolution was unanimously passed: 'That the members of the Midland Counties Association, having carefully considered the proposal of the Bishop of Peterborough as to the formation of a Peterborough Diocesan Guild of Ringers, are unable to recommend that their members residing in the diocese of Peterborough should as a body join the proposed Guild. For forty years they have been members of the Midland Counties Association, and they have no desire to sever themselves from that body. At the same time, if individual members who live in the said diocese wish to become members of the Peterborough Guild, the committee of the Midland Association have no desire to place obstacles in their way, but they trust such members will continue to remain members of their old association.'

In addition to the resolution it was pointed out that certain changes will take place in the area covered by the Peterborough diocese, and that only a small portion of the territory covered by their association may remain in the Peterborough diocese.

A draft scheme of rules was submitted for the proposed Guild, and after a very lengthy discussion, the President moved the following resolution, which was seconded by the General Secretary, and carried:—

That this meeting urges the committee to go forward with the formation of a Diocesan Guild of Ringers, and to report to the Bishop in accordance with the resolution passed at Wellingborough on June 9th, 1923.

During the afternoon and evening the bells of the Parish Church were rung by mixed companies, and some very good touches of Grandsire and Stedman Gaters, Treble Bob Royal, Bob Royal and Cambridge Surprise Royal were rung, which brought a pleasant meeting to a close.

PEALS IN 'THE BULL RING'*To the Editor.*

Dear Sir,—May I correct a slight error which appeared in last week's issue of your valuable journal?

It occurs in what I, and doubtless many others, regard as one of the most interesting features of the paper, viz., 'Belfry Gossip,' wherein it is stated that 'It will not be long before the one hundredth peal of Stedman Cinques will be rung on the famous bells in the Bull Ring.'

May I point out that this was accomplished many moons ago, even before the Great War, the one hundredth peal of Stedman Cinques on these bells having been rung on February 24th, 1914.

The total number of peals of Stedman Cinques rung at St. Martin's to date is 152.

This figure refers to tower bell peals only; it does not include peals 'in hand,' or peals rung by the St. Martin's Guild on other rings of twelve. A small matter perhaps, but in the interests of historical accuracy, on which I know you are personally very keen, just worth noting.—Yours faithfully,

A. PADDON SMITH.

LONG PEAL ATTEMPT.

An attempt for 10,440 Cambridge Surprise Royal will be made (D.V.) at Duffield, Derbyshire, on Saturday, December 1st, by members of the Midland Counties Association, start 12.45 p.m. Copies of the composition have been sent to the hon. secretary of the association, and to the Editor of the 'Ringing World.'

WINCHESTER DIOCESAN GUILD.**NO DIVISION OF THE DIOCESE IN IMMEDIATE FUTURE.**

The Guildford District has always been one of the most thriving parts of the Winchester Diocesan Guild, and in the past year it has well maintained its ground. At the annual meeting at Guildford the area, including Aldershot, Chertsey, Cobham, Craulcigh, Dorking, Farnham, Godalming, Holy Trinity and S. Nicolas', Guildford, Haslemere, Shere, Woking and Worplesdon, and ringing was enjoyed during the afternoon at both S. Nicolas' and Holy Trinity Churches. Service was held at the former church, and the Rector (the Rev. G. M. Wheeler) gave a stirring address, his subject being 'Enthusiasm.'

The business meeting was held after tea at Brett's Restaurant, Mr. A. Harrison (churchwarden of S. Nicolas') presiding, supported by Canon Kirwan (Rector of Holy Trinity), Rev. G. M. Wheeler, Mr. Marsh (churchwarden of S. Nicolas'), Mr. C. Hazelden (District Ringing Master), Mr. E. Raddon (hon. secretary), etc.

The Hon. Secretary reported that five successful meetings had been held during the year, and that the balance on the year's working was £7 14s. 3d.

The Ringing Master, in his annual report, stated that 44 peals had been rung during the year, which was the same as in 1922. The proportion of handbell peals had, however, changed. Whereas in 1922 they had 24 handbell peals and 20 church bell peals; in 1923 they had 20 on handbells and 24 on tower bells. Also, in this year they had no six-bell peals, while in 1922 they had two. He mentioned this as a hint to their six-bell friends to 'keep their end up.' Although this total of 44 peals was reasonably satisfactory on the surface, an analysis, continued Mr. Hazelden, would reveal the fact that the peals were performances of a comparatively small number of ringers. This should not be so, and he wished that more of their local companies would go for a peal occasionally. As a matter of fact, only three local bands in the district had rung a peal this year. In this connection he was, of course, aware of the changes which were slowly taking place in ringing, as in other church matters. They seemed to be turning more and more to the ideas and ideals of the 15th and 16th centuries and the age before change ringing began to be seriously practised; when ringers became included in the church's nine orders of ministers. He felt sure that this privilege was not granted merely because bells were used to call people to worship or because the ringers were so expert as to command respect, but because of the considerable use which the Church then made of bells in the actual performance of the services. For instance, the use of the Sanctus bells in the Mass, and for announcing the Church's canonical hours made it necessary to maintain guilds of persons who could be at hand to perform the office at the proper hours. We, however, had to deal with an age in which, happily, change ringing was practised. They might wish and work for the reunion of the bells and altar, but if their part was to be a worthy one, there was no practice that he knew of to equal the occasional ringing of a peal. In conclusion, the Ringing Master paid a tribute to some of their members, who, through good and ill, just carried on. They could, he said, always hear about the first-class performers, but there was in nearly every tower one or more who, year after year, went on teaching young people, first to handle a bell and then perhaps to ring Doubles, before the youngster left his native village, without thanks and without recognition. Some of these men had grown grey without ever knowing the joy of having a good band, yet they went on patiently teaching, serving the Church faithfully, and their Guild loyally (applause).

The reports were adopted.

Mr. Raddon was re-elected hon. secretary, with thanks for his past services.

Mr. Hazelden and Mr. A. H. Pulling were proposed for the office of Ringing Master, but the latter declined to stand, and Mr. Hazelden was then unanimously re-elected.

Messrs. R. Whittington and J. J. Jones were re-elected on the Central Committee of the Guild, and six new members and probationers were elected.

THE DIVISION OF THE DIOCESE.

The next business on the agenda was the question of the division of the Guild, in connection with the proposed splitting up of the Diocese of Winchester.

In introducing the subject, the Chairman first congratulated the members on the attendance at the service. He could not help thinking that it was too often forgotten that bell ringers were a vital and integral part of church organisation. As far as his experience went, they seemed in the past to have been considered outside the Church organisation, but the more they could hold their services in the church and feel that they were part and parcel of the Church organisation, the better it would be for the Church and the better for the ringers (applause). With regard to the subject of the division of the diocese, he thought it would hardly be worth spending a lot of time upon it, as if it were imminent. Canon Kirwan would prob-

ably be able to tell them that the division of the diocese was possibly further off than it was considered to be at that time last year, the principal reason being that there was a considerably larger amount of money to be provided than was anticipated, and in these hard times it was likely to make the division of the diocese much longer delayed.

Canon Kirwan said that originally they were asked to raise £51,000 in connection with the scheme, and he believed, if they had started last November, they might have raised that amount by June, 1924, but in July of this year, as the result of the decision of the Ecclesiastical Commissioners, the amount to be raised before the division could take place, was increased to £106,000. In addition, there had been a considerable amount of opposition, led by the Bishop of Gloucester, and many people, who previously may have been lukewarm on the subject, were probably now hostile. Personally he was convinced that the scheme would go through, but it might be a long time. It depended mainly upon their collecting the full sum. A further cause of delay was this. The decision of the National Assembly had not yet received the approval of the Ecclesiastical Committee of Parliament, and he did not think he would be disclosing any secret when he told them that this committee was going to turn down the measure, not on its merits, but on account of a certain rider which was attached to the Bill as to the appointment of the Bishops. The measure, therefore, would have to go back to the National Assembly, for the elimination of the rider, then to come again before the Ecclesiastical Committee for approval, and afterwards having to be passed by Parliament. He thought it would probably be at least three or four years before it became a matter of practical politics. He thought, with the chairman, that they need not that night discuss a new society, at any rate on the ground that there was likely to be a new diocese of Guildford in the near future.

The Ringing Master called attention to the suggestion made at the Portsmouth district meeting that, in the event of the diocese being divided, the present Guild should be continued under the title of the Wessex Association. As Winchester was formerly the See of the ancient Bishopric of Wessex, he thought it was an excellent idea.

In view of Canon Kirwan's statement, Mr. Whittington moved that the meeting pass on to the next business, and this was agreed to.

Thanks were accorded to the chairman for presiding: to the Rev. G. M. Wheeler for the service and his address, and to the organist.

The Rev. G. M. Wheeler, in replying, referred to the bells of S. Nicolas' Church, and said they had before the parish a scheme for their improvement, for which Messrs. Taylor and Co. had submitted an estimate. About £320 was required to put the bells into the condition they ought to be in, and he wondered if Major Hesse could come to Guildford and tell them how to raise the money, seeing how successful he had been in Haslemere (laughter and applause). However, the church had this scheme to contemplate, and he looked forward to the day when they could say, 'Come and hear what a really fine peal of bells we have got' (applause).

This terminated the business, and further ringing then took place at S. Nicolas' Church.

BASINGSTOKE DISTRICT FAVOURS DIVISION.

At the annual meeting of the Basingstoke District, held at Basingstoke on Saturday, Nov. 17th, a letter was read from the assistant hon. secretary of the Guild (Mr. G. Pullinger) asking for the opinion of the district upon the question of the future position of the Guild, contingent upon the passing of the measure for the Division of the Diocese. Eventually, it was proposed by the President, and seconded by the hon. secretary, and carried unanimously, that in the event of the measure receiving parliamentary sanction, the Winchester Diocesan Guild ought to be similarly divided.

More than 50 per cent. of the performing members in this wide and scattered district were present, and a most successful meeting was held.

With regard to the division, 'A local member' writes: 'This question has already been discussed by the Central Committee, and by one or two districts, but I believe the Basingstoke district is the first body of members to give a decision favouring division, and, therefore, as a member of that district, I should like to give reasons for the course I and my fellow members took. In the first place, I think the raising of the question at all is extremely premature, as it will probably be a very considerable time yet before the division is an accomplished fact, and even then I do not see why the parent Guild should make the initial move. Surely the initiative should come from the offspring. If they feel they can develop fresh life and energy by having their own Guild—and I firmly believe they can—then it is not the duty of the parent Guild to act selfishly and endeavour to hinder their aspirations, but rather to encourage them and grant them their 'allotted share,' and at the same time welcome them back as compounding members at a nominal fee. In this respect, no doubt, the younger Guilds would be glad to return the compliment, and the result would be a real fellowship such as ringers delight in.

The desirability for division was especially brought home to me at the last annual festival of the Guild, when the Bishop asked the Surrey members present to hold up their hands, and it turned out that there were only ten present, and I don't think Portsmouth and the Isle of Wight could have shown many more. But if either of these areas which are to form the new dioceses had its own Guild it would probably get nearer a hundred members at its annual festival, and thus create a far more widespread interest in the work. Lastly, there is the great point so cogently put forward by our hon. secretary, that of church organisation. We recognise the Diocese as the unit of Church life, and the Bishop as the head of each unit, and, therefore, as loyal Churchmen, ringers ought to place themselves under the control of their own Bishop. But a very awkward situation might arise at any time in a Guild of combined dioceses with a Master belonging to one diocese, a secretary to another, and other officials in yet another. It is for this reason that I, for one, regret the growth of county associations in connection with church bell ringing, and I believe I read in 'The Ringing World' a few months ago of an effort by the Bishop in Peterborough to bring all the ringers in that Diocese into one Guild, but federated to their own associations, thus showing that he undoubtedly wished to have undivided control over his own church workers. In conclusion, may I express the earnest hope that whatever conclusions are finally arrived at there will be no recriminations, but that all will continue to work together heartily and in a right spirit as Christians and true Churchmen.

GLOSSOP CHURCH BELLS.**VICAR'S TRIBUTE TO FOUNDERS AND RINGERS.**

In the 'Glossop Parish Church Monthly Notes,' for November, the Vicar (the Rev. W. Dudley Dixon, M.A.) writes:—'The Patronal Festival this year was, on the whole, well kept. Having only half a church, our services were necessarily simple. We opened out on All Saints' Day with the dedication of the bells. There was an excellent congregation, and the service was solemn and very impressive. The Rev. A. T. Beeston (himself a well-known ringer) preached the sermon. After the dedication of the bells by the Vicar the ringers rang a merry peal. Everyone who heard the bells was delighted with their beauty of tone. Messrs. Gillett and Johnston, the bell founders, have given us a notable peal. We certainly expected a good peal from our old bells, for the metal was there, but we have got one better than ever we had hoped for. The founders are to be heartily congratulated on a very notable performance. It is a peal to be proud of.'

'The whole peal has been recast and rehung with new fittings, ball bearings, and all the latest improvements; and with the new framework in the upper tier and the extensive strengthening of the lower tier, the ringers report that the ease with which the bells can be rung is remarkable. The tenor weighs over 17 cwt., and the key of the peal is F.'

'It is a heavy peal—all the better for that as far as richness of tone is concerned. Tuned on the five-toned Simpson Principle, the music of the bells is beautiful and melodious. The clock is to strike on the tenor bell, not on No. 2 as before. The Angelus will be rung on the tenor also, not on No. 6 as before. The chiming apparatus is going back as before.'

'I should like to say a word about the firm of Gillett and Johnston. They have put us in a beautiful peal, which we are proud of, and which they have every right to be proud of, and they have put our bells back again very quickly considering the magnitude of the task. In all our dealings with them we have received the greatest courtesy and consideration from the firm and from their bell erector, who has done the work here, and has been most thoughtful in reducing inconvenience to the services in church to a minimum. It is a pleasure to be able to say this.'

'It is also a pleasure to record the generosity of our ringers. They have, at their own cost and by their own labour, transformed the ringers' chamber in the tower. A good deal of the floor had to be relaid—dry rot having destroyed the boards—this they have done. They have covered the floor with new lino, and have fixed a light in the floor. They have also boarded up part of the air space in the bell tower—an immense improvement. We are most grateful to them for their generosity. Before very long, we hear, there is to be a Ringing Festival, when ringers from all over the country will come here to try our bells and try to break ringing records. We shall look forward to this with keen anticipation.'

CONDUCTORS ALL.

To the Editor.

Sir,—We read with interest Mr. Wheelton's letter of the 23rd, and hasten to pay tribute to the performance of the Bucknall band, and also we would wish the Milton band every success.

Are we in error in thinking that the first 'true' silent peal of Legitimate Surprise Minor has yet to be rung? We do some 'silent' ringing in various Surprise methods at Leytonstone, and, naturally, we are interested in this question. Perhaps Mr. Wheelton, or another correspondent, would care to enlighten us.—Yours faithfully,

(for) ST. JOHN BAPTIST ASSOCIATION, LEYTONSTONE.
GEO. DAWSON.

SURREY ASSOCIATION.

A meeting of the Western District was held at East Molesey on Saturday, when members attended from Thames Ditton, Isleworth, Clapham Park, Beddington, Chelsea, Walton-on-Thames, together with several of the local band. A short service was held in the church, and a most interesting address given by the Rev. Le Masurier. After tea the business meeting was presided over by the Vicar, and three new members were elected (including the Vicar).

It was decided to hold the next meeting at Chertsey.—A hearty vote of thanks was accorded to the Vicar for the use of the bells, and for conducting the service, also to the steeplekeeper for having everything in readiness.

The tower was then again visited, and the bells kept going in various methods. A most useful and pleasant afternoon was spent.

STANTON, SHROPSHIRE.—On Friday evening, Nov. 23rd, 720 Bob Minor, in 25 mins.: H. Clay 1, R. Turner (first 720 Bob Minor) 2, W. Lycett 3, S. France 4, W. Clay 5, E. V. Rodenhurst (conductor) 6. All are regular Sunday Service ringers at the above church except the conductor, and this was the first 720 of Bob Minor on the bells with five local men taking part.

DURHAM & NEWCASTLE ASSOCIATION'S FORWARD POLICY.

A HAPPY WEST HARTLEPOOL MEETING.

For some time past it has been felt that certain ringing towers in the Counties of Durham, and Northumberland, have been left to look after themselves by the Durham and Newcastle Diocesan Association. On Saturday, November 24th, therefore, through the happy thought of one of the Newcastle Cathedral members, a 'beat up' of ten ringers journeyed, some by motor-cars, and others by excursion train, to West Hartlepool, where they were welcomed by the ringers of St. Oswald's, St. Aidan's, and All Saints' Churches. Representatives also came from Darlington, Middlesbrough, Stockton and Sunderland. Good ringing took place at St. Oswald's and All Saints' Churches up till 9 o'clock.

At 5 o'clock a break was made, to partake of tea provided by the ladies at St. Oswald's Church Hall, the Vicar (the Rev. Chute) presiding, with Mr. Todd, president of the association, in the vice-chair.

After tea the Vicar gave a very hearty welcome to all the ringers present, and thanked those gentlemen who had come from a distance to 'put a little ginger' into them, as it was only by such fraternal visits they could rouse the ringers to carry out their duties as good Churchmen, and make change ringing a success. He was fully in sympathy with their good work, and would do all in his power to further it. Although not a ringer himself, he was heart and soul with their movement.

The President proposed a hearty vote of thanks to the ladies for all the trouble they had taken to provide them with such an excellent tea.—This was carried with acclamation.

The President also thanked the respective Vicars for the use of their bells, especially the chairman, for the kind way he had received them. The warmth of the meeting had so touched him that he could safely say that it would not be very long before they were amongst them again to give them a little more 'ginger.' Their late president, Mr. Wm. Story, who had kindly brought a party over from Newcastle by motor, asked him to state that it would give him much pleasure to repeat the dose again, and at no distant date.

It was certainly in the minds of several members present that these fraternal meetings were productive of much good to ringers in general, as well as to the association, and it could not be too strongly impressed on the district vice-presidents and secretaries to do their utmost to get better ringing established, more meetings among their brethren, and to work their own districts as much as they could.

It would be a help, if, when arranging meetings, they would advertise in 'The Ringing World,' the costs of which are always paid by the association. This fact may not be generally known among the local secretaries.

The late war certainly held up good change ringing for a time, and many members drifted apart from the diocesan organisation, but now the association was fully alive to the fact that different methods will have to be adopted in these changed times, to make it a living testimony of its good work in the church, they looked to the vice-presidents and district secretaries to help them in the matter.

It will interest members to know that the difficulty of the outlying churches in Northumberland has been met by dividing it into two districts: (1) Newcastle Area, comprising churches contiguous to the River Tyne from Whitley Bay to Scotswood; and (2) Northern District, with churches from Cramlington to Bamburgh, the latter with Mr. Wm. Story as secretary. It is expected that this change will meet many complaints, coming from the affected areas, whose towers have not received a visit from the association for some time, and would gladly welcome them.

SOUTHERN DISTRICT.

The Southern District of the Durham and Newcastle Association held a very pleasant meeting at Barnard Castle on Saturday last, when twenty-three members met from Bishop Auckland, Newcastle, Shildon, Staindrop and Stockton, in wintry weather. The handy peal of eight were kept going during the afternoon and evening, useful practice being obtained in Grandsire and Stedman Triples, Plain Bob, Oxford, and Kent Treble Bob Minor and Major.

After tea a short meeting was held, presided over by Mr. C. Todd (President of the Association), supported by Messrs. W. Story, E. E. Perry, A. M. Hall, W. H. Barber, the Rev. F. J. Amies, and others. In a few well-chosen remarks, the President expressed pleasure in seeing there that day so many members, especially Mr. Story and the Cathedral men, and also proposed that a hearty vote of thanks be accorded to the Vicar of Barnard Castle (the Rev. J. G. Bircham, M.A.) for the use of the bells, and to Mr. T. Chatt who so kindly had everything ready.

After a short discussion, Heighington was selected for the next district meeting, the date being left to the vice-president and district secretary. Due notice will appear in 'The Ringing World.'

SHREWSBURY.—On Wednesday, Nov. 21st, 576 Double Norwich: F. Lycett 1, J. Griffiths 2, J. E. Lilley 3, W. B. Kynaston 4, G. Jones 5, D. J. Boucher 6, A. L. Short 7, C. R. Lilley (conductor) 8.

SUFFOLK'S OLDEST RINGER.

DEATH OF MR. CHARLES SOUTER.

We regret to record the death of one of Suffolk's oldest ringers, in the person of Mr. Charles Souter, who passed away in his 85th year. Deceased was a member of the Stowmarket company for 37 years.

He had been a member of the Norwich Diocesan Association since 1886, but he rang for many years previously at Mendham and Redenhall. At the former place he was also a member of the choir for over 20 years. After leaving there he went to Badley 37 years ago, and worked on the same farm until just recently. It was the deceased and his three sons who helped to build up the Stowmarket company, as at that time only Plain Bob Minor and Triples were rung. 'Father,' as he was familiarly called, used to walk from Badley, which is about two miles from Stowmarket, twice on Sundays, and was at the belfry on the Sunday before he died. He was seized with a chill on the Monday, and passed away as stated. He had only rung four peals for the association, but what he did was worth recording, as he was an excellent striker, and always said he would rather ring a peal of Bob Major well-struck than a badly struck peal of Stedman, such as a noted Stedman ringer had recorded as a peal at Stowmarket several years ago.

The funeral took place at Stowmarket Cemetery on Wednesday, November 21st. The first part of the burial service was held at the Parish Church, conducted by the Vicar (the Rev. F. L. Fawcett), who was assisted by the curate (the Rev. C. Morgan). Among many floral tributes was one sent by the Stowmarket company.

Although the deceased's fellow ringers could not get together to ring for the funeral, they met on Saturday evening and rang a quarter-peal of Grandsire Triples (1,260 changes), with the bells half-muffled: W. Welham 1, W. Souter (conductor) 2, T. Sparrow 3, S. Sparrow 4, F. Allard 5, E. Davey 6, A. Grimwood 7, H. Copland 8. Longest touch in the method by the ringers of the 3rd and 5th.

It is estimated that Mr. Souter walked quite 15,000 miles to attend Sunday Service ringing and practices! It is men such as he who, working out of the limelight, but with patience and earnestness, are the backbone of the Exercise.

FORGING THE DIOCESAN LINK.

The steps that are being taken to form a guild for the Diocese of Peterborough appear likely to lead to success. The scheme that is now being worked out is something more than a federation of existing societies in the diocese; it will, if carried through, result in the amalgamation of the Central Northants Association and the other smaller organisations in the area into one complete whole. Investigation has shown that an independent existence, with membership of an organisation which would have little beyond a title, would have, for those societies which joined hands, many drawbacks and none of the advantages of a properly constituted diocesan guild. In their decision to formulate a scheme of amalgamation, therefore, we think the associations concerned have done rightly.

The attitude of the Midland Counties' Association in this matter is a very straightforward one. It can be readily understood that an association, which has for forty years had the allegiance of certain towers, would not wish wholly to part with them, but they place no obstacles in the way of those towers, which are in the diocese of Peterborough, joining the proposed diocesan association if they desire to do so. All they ask is that they shall not sever themselves from the Midland Counties' Association. It has to be remembered that the number of towers in the area of the Midland Counties' Association which are affected is comparatively few, and even if they do not come into the scheme, they are not likely to jeopardise the prospects of carrying it to a successful issue.

What strikes us as the most gratifying feature about the new proposal is that it emanated from the Bishop of the Diocese, thus showing in yet another direction that Church recognition of ringers is becoming more and more an actual fact—becoming, indeed, a thing that is real instead of merely an ideal. In the days when many of our associations were formed, ringers were so far apart from church organisation that many of them failed to identify themselves with their dioceses. They established themselves within territorial boundaries, which may or may not have been coterminous with a diocese, and adopted county or district titles. The passing years have witnessed a growing tendency for ringing organisations to become more and more recognised as a definite branch of church work, and it is certainly a big step in that direction when a Bishop gathers round him the representatives of a number of societies and asks them to form a diocesan federation. The future of the art of bell ringing will be more and more locked up in the care of the Church, to whom, indeed, we may, in time to come, have to look to safeguard our interests. Anything, therefore, which tends to draw tighter the bonds between us may be of inestimable value in the future.

BELLS! BELLS! BELLS!

'THE YOUNG MAN' OF BIRMINGHAM.

MR. JAMES GEORGE A SEPTUAGENARIAN.

Like Peter Pan, who refused to grow up, James George refuses to grow old. The years seem to pass him by and the whirligig of time leaves him apparently as young as ever. Last week he celebrated his seventieth birthday—reached, in fact, the allotted span—but he remains a man in the prime of life. At an age when most ringers seek out the light end in a peal, Mr. George is clamouring for something heavier and yet more heavy than anything he has yet rung, and while there is, at present, no truth in the rumour that the back eight of the Loughborough carillon are to be hung for ringing, the man for the four-ton tenor, if the bells are made pealable within the next twenty years, is James George, of Birmingham!

This last statement may perhaps be a little flight of fancy, but one wonders where Mr. George would stop in the worlds he seeks to conquer were it not for the limitations which the size of existing bells and ringing restrictions impose upon his efforts. Within a week or two of his seventieth year he has turned in Southwark tenor and rung Bow tenor to a peal of Stedman Cinques, and that, too, within practically a few days of another not unknown ringer giving up the job at Cheapside. After these two performances in London, Mr. George's task on his 70th birthday, which was to ring the eleventh at St. Martin's, Birmingham, was comparative child's play.

Mr. George's ringing career is a story that has more than once been told, and there is no need to repeat it here. He continues to range at large over the country 'seeking what he may devour' by way of heavy bell jobs, and, if it were the practice for ringers to advertise their qualifications, well might he announce 'no undertaking too large and none too small.' It has become almost a regular thing for Mr. George to ring a peal in some distant part of the country on a Saturday evening, travel to Birmingham through the night, and, arriving home with the milk on Sunday, be in his place for service ringing in the morning. We do not know who holds the record for mileage covered in pursuit of peal ringing, but few men can have a bigger average than Mr. George, who can still claim, we believe, to have rung peals in more than twelve bell towers than any other ringer.

His seventieth birthday was, as already indicated, fittingly celebrated among his own friends at Birmingham. A peal of Stedman Cinques, specially composed for the occasion by his old friend, Mr. John Carter, and consisting of 5,070 changes, was rung, visitors taking part in the peal, being Messrs. W. H. Fussell, of Slough, who by a coincidence celebrated the fortieth anniversary of his first peal at Birmingham; J. H. Shepherd, of Swindon, although, perhaps, he hardly comes within the designation of 'visitor,' and Ernest Morris, of Leicester.

Afterwards the band enjoyed the hospitality of the septuagenarian (yes, despite his youth, we may now really and truly call him that), and Mr. George was the recipient of many good wishes. His ringing friends throughout the country will join in the congratulations, and all we can add is, 'more power to his elbow!'

The conductor of the birthday peal, Mr. Albert Walker, will send the composition to anyone desiring to have it, if they will apply to 81, Baker Street, Sparkhill, Birmingham.

PAYHEMBURY CHURCH BELLS.

A RESTORED PEAL.

A large congregation assembled at St. Mary's Church, Payhembury, Devon, on Saturday afternoon, November 10th, on the occasion of the reopening of the bells. These six bells have been rehung in a new iron frame, and the tenor has been recast by Messrs. Gillett and Johnston, of Croydon.

The Rev. L. B. Stallard, Vicar of Ottery, and chairman of the East Devon Branch of the Devonshire Guild, gave a splendid address. In the course of his remarks, he said that the bells, in the words of an old parishioner of his, belonged to all of them. He thought it was a splendid work the villagers had undertaken.

The bells were opened by the Ottery St. Mary band. Subsequently bands of ringers from Uffculme, Sidmouth, Clyst Hydon, Broadhembury, Honiton, Buckerell, and Plymtree, tried the bells, and all expressed their satisfaction with the 'go.' The Rev. H. L. Parry, Vicar of Payhembury, gave a welcome to the various bands.

The rehanging of the bells has been most satisfactorily carried out by Messrs. Gillett and Johnston. The ringing throughout the day was greatly appreciated, and the striking was good. The day was brought to a close by the members of the Payhembury band ringing the last touch.

After tea the Exeter men gave a good demonstration of handbell ringing. Amongst those present was Mr. E. Shepherd, president of the Exeter Branch of the Guild.

LANCASHIRE SURPRISE.

To the Editor.

Dear Sir,—After testing the feeling of Lancashire ringers generally, the Oswaldtwistle company feel they have no option but to let the name of Lancashire Surprise Major remain, though in naming new methods, the Exercise ought to have some guidance. For the Parish Church Ringers,
JAMES HOULDSWORTH, Captain.

'SILENT' SURPRISE MINOR.

To the Editor.

Sir,—In reply to Mr. Dawson's query, I would say at the outset that he is not in error in thinking that the first true and legitimate 'Silent' Surprise peal has yet to be rung. On Saturday, April 6th, 1897, we rang at Bucknall, Staffs, what was considered at that time a genuine Surprise peal, silent, in the following methods: London, Chester, Cambridge, York, Superlative, Worcester and Bristol. But in the year 1906 the committee of the Central Council came along, laid hold of Worcester and Bristol by the scruff of the neck and bundled them out of the Surprise class, and also issued a very grave threat to Superlative, if it didn't behave itself. However, they allowed it to remain under sufferance where, I am sure, it must feel an alien. It would have been far more kind to have packed it off with the other two. This was nine years after our peal was rung, and was a very serious matter for us, as it relegated our peal from a Surprise to a Treble Bob category. Had we rung a couple of twin methods, say, Wels with London and Durham with York, we should have been within the pale of the Surprise class, but we purposely avoided this, as it is almost equivalent to ringing one method twice over. Then again, compare Worcester and Bristol with Norwich and Ipswich. This latter is simplicity itself, yet these two methods belong to the Surprise class. I only point out this to show that it is possible to select a much easier peal from amongst the Surprise Methods than the one rung at Bucknall with two 'mongrels' in it. Notwithstanding the Council's findings, it detracts not one iota from the pride we feel at this performance at Bucknall. I shall be delighted to see from 'The Ringing World' in the near future a record of the first silent peal of true and legitimate Surprise Minor, either at Milton, Leytonstone, or any other tower.

It would, perhaps, be not amiss at this juncture to say what constitutes a 'silent' peal, as it may not be generally known, and it is well to put it before the Exercise occasionally.

1. There should be no intimation whatever given as to when the bobs should be made.
2. If a ringer should happen to make a slip, the others are not allowed to help him, as it would be a disqualification.

This is, as I understand, a 'silent' peal; no sound whatever, except that caused by the bells and ropes. It is very trying to the nerves; in fact, my brother swore he wouldn't go through the ordeal again. He said it was like being in a vault.—Yours sincerely,

Milton, Staffs.

JOHN E. WHEELDON.

DOUBLE 'JUBILEE' AT MANSFIELD.
STORY OF A RINGERS' 'STRIKE.'

Two ringers at the Parish Church, Mansfield, have each completed fifty years of service. They are Mr. George Hardstaff and Mr. Frank May. The former joined the church choir as far back as 1868, and two years later, when the ringers went out on strike, he found a place in the belfry. Mr. Frank May became a ringer in the year following the strike, and since then they have continued with great loyalty to the church. The other day each was presented with a handsome pipe in case and a leather tobacco pouch, as a mark of the esteem in which they are held by their fellow ringers.

The presentations took place at a supper at the Church House, at which the ringers entertained the Vicar and churchwardens.

The Vicar referred to the wonderful record of faithful church work and membership by Mr. Hardstaff and Mr. May, and Mr. Carr, in handing them the gifts, said these two ringers had formed a great link between past and present ringers. Both had been unfailing in their attendance, and had set a good example to the younger generation.

One can smile in these days at the story of the strike, which resulted in these two veterans taking up bell ringing.

The ringers of that day 'came out' for an increased payment from 15s. to 20s., and Canon Bennett, who had then become Vicar, said he would give them the increase, if they would attend the service on a Sunday. It hurt the Vicar to see the ringers troop out of the church into the Ram Inn as soon as their bells had ceased to clang, so he made the proviso mentioned. The ringers, however, preferred the cosy corner of the 'Ram' to the interior of the church, listening to the theology of the Vicar, and they would not conform to his wish so they 'downed tools.' Canon Bennett set about gathering another band of ringers around him, and here are the names of a few of them: Matthew Blanksby, Bob Issett, George Sibsey, Charley James, Sampson Jones and George Jones, together with the two men recently honoured. Old Mr. Gosling, who was ringing for nearly 70 years, and who died but a few years ago, was one of the ringers who came out with the others, but after a time he returned and taught the youngsters the art of ringing. Mr. Hardstaff, in his young days, over fifty years ago, whilst at work on a building, Hermitage Mill, fell a distance of 40 feet. His head was cut open, and from the 19th of December until the following March he lay in a state of unconsciousness. He gradually recovered and once having got well again suffered no disability from the effects of the injury.

Among the other ringers at Mansfield who have long records are Messrs. Allsop, Carr and David Smith.

BELFRY GOSSIP.

Owing to illness, it has been found necessary to change the venue of the annual meeting of the Wimborne branch of the Salisbury Guild. The meeting is to be held at Wimborne Minster to-morrow, instead of at Poole, but the programme will remain the same.

The centenary of the London County Association next year is to be celebrated by a dinner, of which a preliminary announcement is made in our notice columns.

The genial hon. secretary of St. Martin's Guild, Birmingham, is the latest member of the Exercise to achieve the proud distinction of having rung one hundred peals of Stedman Cinques. Mr. A. Paddon Smith completed the 'century' in the peal rung at St. Martin's Church last week.

The advertisement of Mr. T. Milligan, turret clockmaker, of 713, London Road, Derby, appears in this issue. Ringers, we have reason to know, loyally support advertisers in our columns, and we are sure that when their church clocks need overhaul they will remember that Mr. Milligan will welcome inquiries.

The report of the handbell peal of Stedman Triples at Leiston in November has been published twice.

The new peals of eight at Nelson, Lancs. and Seaford, Sussex, which are being cast by Messrs. Mears and Stainbank, will shortly be opened.

The bells at Bridport, Dorset, a peal of eight, are to be recast and relung in new framework by the Whitechapel Foundry.

The letter of the hon. secretary of St. Martin's Guild, Birmingham, last week, correcting an error in this column with regard to the number of peals of Stedman Cinques rung on the famous bells in the Bull Ring, did not tell us what the previous paragraph ought really to have said.

The interesting forthcoming event at Birmingham is not the one hundredth peal of Stedman Cinques on the bells, which as Mr. Smith pointed out was rung before the war, but the two hundredth twelve-bell peal on the bells. This, indeed, is a more notable record than ever, and is a wonderful testimony to the consistent maintenance of a twelve-bell company in Midlandopolis for something like a hundred and fifty years.

The number of peals rung on the twelve bells at St. Martin's is now somewhere up in the 190's.

Mr. Alfred Bowell has recently been giving attention to the peal of eight (tenor about a ton) at Benenden, Kent. The estimate included quarter turning, new steel headstocks, new wheels, stays, sliders, gudgeons, bearings, pulley blocks, etc. In addition the sixth has been recast. The whole work has been carried out in a thoroughly efficient manner, and ringers who have had the pleasure of ringing at Benenden since the restoration, are all agreed that the peal is now in perfect ringing condition.

Our list of long peals is gradually being made more complete. Recently we referred to the 15,120 Bob Major at West Ham, in 1737, being a record held jointly with Oldham, where the same length was rung in 1807. Mr. Tom Russam, of Birmingham, now informs us of a 15,360 rung at Aston in October, 1793, in 9 hours 31 mins., conducted by J. Short. In 1893 Mr. Russam had the honour of conducting a centenary peal.

Forty years ago to-morrow the Collage Youths rang a peal of 11,111 Stedman Caters at All Saints', Fulham, then the longest peal in the method. No fewer than six of that band are still amongst us, viz., Messrs. F. E. Dawe (2), J. W. Rowbotham (4), C. W. Winney (5), E. Gibbs (6), E. Horrex (8) and W. Prime (10).

December 9th is the ninetieth anniversary of the peal of 10,224 Kent Treble Bob Maximus rung at Painswick. The peal in 1833 (composed and conducted by William Estcourt) long stood as the record length in the method; in fact, it was not beaten until the 12,240 was rung at Ashton-under-Lyne in 1911.

John Cox, one of London's famous old ringers, was born on Dec. 9th, 1813—just 110 years ago.

One hundred and thirty years ago next Monday, a peal of Grand-sire Caters was rung by the Junior Cumberland Society, at St. Sepulchre's, Snow Hill. At that time there was serious rivalry between the senior and the junior societies.

The first peal at St. Paul's Cathedral was rung on Dec. 10th, 1881, and we believe Mr. Ted Horrex is the only survivor of that band.

To celebrate the 65th birthday of a famous old Sussex ringer and pioneer, Mr. Harry Burstow, a 6,720 of Canterbury Pleasure Major was rung at Horsham on December 11th, 1891. Harry Burstow lived to a ripe old age, and he had a most wonderful memory. He could sing something like 400 songs, most of them of folk lore type, and many running into scores of verses.

St. Martin's Society, Birmingham, captured the then record length of Stedman Cinques on December 12th, 1848.

THE 'SMACKING OF THE SHIRES.'

To the Editor.

Dear Sir,—Lancashire and Yorkshire Surprise are both methods of at least average quality, and had they been first rung in Norfolk and Suffolk and christened Norfolk and Suffolk, no doubt the 'Euphoniacs' would have been satisfied, and nobody would have been able to insult those names by saying that 'they smack of the shires.' We Northern Shiresmen bestowed those names as an honour to those methods, we christened them after great and glorious counties; the like of which exist nowhere else in the universe; counties which from historical, clerical, commercial, or in fact, from any point of view, have honourable association with everything which has made history, both in Church and State, and painted those large patches of red on the map of the world; and the fact that these two names contained the 'terminological superfluity,' shire did not bother us one whit. We are proud of being Shiresmen of the two greatest shires the world has known, and the committee that would dictate to us as to what we should call our methods will have but short shrift and shorter term of office. Committees are elected to forward the welfare of their electorate, not in frittering away their terms of office in promulgating ways of breeding dissent and sowing irritants. Names we bestow are those we know to be the names borne by places with honoured associations or incidents connected with the history of our Church and State. We can christen our own methods; let committees carry out the duties they were elected to do; 'define limits' within which a Shiresman's choice shall operate they never shall. I know to what extent our rights of sponsorship shall be exercised if Mr. Burton does not—to the last jot—no less. If our names team with 'terminological superfluities' those who object had better get a move on, and ring and christen the remainder of the unrung methods. Then we shan't have to offend any further the tender feelings of the 'Northfolk' in the south-east. And, by the way, what about writing to the commanding officers of the Lancashire and Yorkshire Regiments and telling them that they possess superfluities, to which the Euphoniacs object, and to 'get a hunch on' and change these ancient and honourable names.

At this stage of my discourse, Mr. Editor, my implied ingenuity did fail me, so I did appeal to ye beste of spouses, who did remind me that kings had lost their crowns; nay, their heads as well, through their overweening autocracy; parliaments had been dissolved for abusing the powers reposed in them by their electorate, and that no doubt campanological pussypoos could be given 'the bird,' and they tried to tighten the prohibition screws on our 'ancient lights.' Our Northern fastnesses breed the right to do as you like with your own.

My letter, sir, may not be overcharged with euphony, it may seem with 'terminological superfluities,' but as Christmas is coming I will be easy, and just tell you that I am voicing the opinions, strongly expressed, of some five hundred ringers and churchmen, whom I have discussed this matter with since it came up.

'Here's to all on us, may we niver want nowt, noan on us, nor me noather,' and that 'smacks of one shire' if the undersigned does not.

SAMIWELL PEPPERY.

LONG PEAL ATTEMPT.

The attempt at Duffield on Saturday to ring a long peal of Cambridge Surprise Royal was unfortunately not successful. The peal came to grief too late to make another start, but sufficient time remained to ring a five thousand, and this was brought round, as recorded elsewhere.

THE LADIES' GUILD.

A quarterly meeting of the Southern District of the Ladies' Guild was held at Sandhurst on Saturday. Touches of Kent and Oxford Treble Bob and Plain Bob Minor were rung before the service, six ladies taking part in each. An extremely impressive service was conducted by the Rector (Rev. Newhouse), who, in his address, gave the ringers a double welcome, one as ringers and the other as workers in the church.

A welcome tea was served in the Schoolroom, where the business meeting was afterwards held.

Two new members were elected, viz., Miss Newhouse and Miss Oldham, both of Sandhurst. Aldershot was chosen for the next meeting, on April 5th, 1924.

Miss Robinson proposed a hearty vote of thanks to the Rector for his kindness, to the organist, and to the local ringers for preparing the tea. The tower was afterwards revisited.

BURSLEM RINGER'S DEATH.

Burslem ringers have lost a valued friend and colleague by the death of Mr. A. Lees, who was a faithful member of the band at St. John's Church, always regular and punctual in his attendance. In memory of the deceased, 720 Oxford Treble Bob Minor was rung on Sunday evening, November 25th, with the bells half-muffled: E. Gater 1, F. Shuker 2, T. Hurd 3, H. Box 4, P. Kelsale 5, T. Hillith (conductor) 6. First 720 in the method by ringers of treble and second.

A RELIC OF JAMES BARHAM. HARRIETSHAM'S VALUABLE POSSESSION.

An old peal board of really priceless interest hangs in the tower of Harrietsham, Kent. It was erected in 1794, and records a number of peals rung during the preceding fifty years, and its especial value lies in the fact that it gives us the names of the men who, with James Barham at their head, founded the Leeds Society.

We give below a copy of the board, kindly supplied to us by Mr. E. Hadlow, of Gravesend, who is a native of Harrietsham, and as will be seen it is particularly appropriate at the moment inasmuch as it records a peal of 10,080 Bob Major rung on December 8th, 1746.

What the present condition of this ancient board is, we do not know, but we hope that its preservation will not be neglected.

In this tower was completely rung by the Lenham Company the following 8-bell Peals, December 8th, 1746, was rung 10,080 changes of that admired Peal called Bob Major in 7 hours by

John Epps	...	Treble
Sam Grayling	...	2nd
Thos. Barham	...	3rd
Jas. Barham	...	4th
Abram. Barham	...	5th
Will Hunt	...	6th
John Freeland	...	7th
John Hunt	...	Tenor

March 5th, 1743, was rung a musical Peal of 6,720 changes of Oxford triple bob in 4 hours 21 minutes, including Jacob Blundell and Ben. Walker. June 13th, 1743, was rung 6,720 Bob Major, 4 hours 31 minutes, including Will Eagles. N.B.—Here was also rung 5,040 Bob Major, including Nicolas Grayling and Iden Plane; also 5,040 Bob Major triples, 5,040 plain Bob Triples, 5,040 Fulham triples, 10,080 Bob Major and 5,040 Bob Major Double Reverse. The above ringers first instituted the Leeds Society, whose performance in ringing has not been equalled by any society of ringers, and there is now surviving Sam Grayling, John Freeland and James Barham and John Hunt, who newly erected this inscription: these 6 ringers, with the assistance of S. Lacy and Will Davis, rung at Leeds, January, 1793, 5,040 Bob Major in 3 hours 12 minutes, whose ages, when added together, is 577 years, and it is remembered that this peal completed 100 peals rung at different places not less than 5,040 each by the above James Barham. 1794

OXFORD DIOCESAN GUILD. NORTH BUCKS BRANCH.

A quarterly meeting of the North Bucks Branch was held at Old Bradwell on Saturday, when a fairly representative gathering of branch members attended, although the weather was somewhat unsettled, and the place a little difficult to reach. The following towers were represented: Bletchley, Beachampton, Penny Stratford, Linslade, Stony Stratford, and Skenley, together with the local ringers. This meeting was the first that the North Bucks branch had held at lade, Stony Stratford, and Shenley, together with the local ringers, who are making good progress in the art of change ringing, 'ane bells, a nice ring of six, were utilised before service, which all the members attended.—The Vicar (the Rev. J. H. Walton) officiated, and the choir was in attendance. It was noticed that numerous parishioners were also present. The Rev. H. A. Attwater (Vicar of Gt. Linford, and an hon. member of the branch) was unable to attend, but unfortunately, through illness, was unable to attend, and the Rector gave a most interesting and instructive address. Thanks to the ringers' wives and friends a splendid tea was provided in the Schoolroom.

The Secretary reported that no special business had to come before the meeting, and referred to the fact that the meeting was the first to be held at Old Bradwell. The real enthusiasm that was shown fully repaid those who had made a special effort to attend.

The usual votes of thanks were passed to the Rector, choir, and others, who had made the meeting such a success, the Rector responding.

Further ringing then took place, and touches of Grandsire and Stedman Doubles, Plain Bob, Kent Treble Bob, Cambridge and London Surprise Minor concluded the meeting.

CONDUCTORS ALL.

To the Editor.

Dear Sir,—Mr. Wheeldon, of Milton, Staffs, very kindly answered a query under the above heading in your issue of the 16th November, but it was not quite answered to the point. The question raised was this: 'Has any six-bell band rung the first six extents of London on the bells, being the first by all the band, with different conductors?' Thanking Mr. Wheeldon for his very good wishes, Yours sincerely,
FRED M. MITCHELL.

**CHESTER DIOCESAN GUILD.
STOCKPORT BRANCH MEETING.**

Denton, like other places of note, possesses a handle, which members of neighbouring townships are fond of turning. They say 'that Denton folk are always in a fog,' and they certainly were on Saturday, November 24th, when the last meeting of the year for the Stockport Branch was held at the Church of St. Anne. The fog was of the 'pea soup' variety, for which Manchester is famous, consequently, travelling was very difficult, road traffic groped about in the gloom, and trams changed their way through the hidden streets, taking about two and a half hours to do half an hour's journey. It is no wonder, therefore, that the majority of the branch members decided 'to keep the home-fires burning,' rather than attend the meeting, but those who did brave the elements, were compensated for their trouble by a splendid tea, to which about twenty members and friends sat down, among them being 'George' and 'John,' from Yorkshire. Mr. E. W. Elwell, of Capenhurst, hon. secretary of the Guild, later on joined the company, after having had a most difficult task in locating the place.

The Rector (the Rev. — Hobday), in the absence of the branch chairman, presided over the business meeting, in the course of which the branch hon. secretary (the Rev. A. T. Beeston) extended a hearty welcome to Mr. Elwell, this being the first meeting of the branch he had attended.

Reference was made to the small number of peals to the credit of the branch this year, the number not being at all satisfactory. Mention was also made of the proposed branch annual dinner, which will be discussed further at a meeting of tower secretaries, to be held at an early date.

The Rector was elected an honorary member, and six ringing members were elected from Bowdon, and one from Disley.

The next meeting, which is the annual one, will be held at Stockport (St. George's) on Saturday, February 23rd.

Votes of thanks were accorded to the Rector for his address in the church, also with the wardens, for permitting the meeting to be held and for the use of the bells; to the organist; and to the local ringers and their 'better halves' for providing a splendid tea.

**NORTH NOTTS ASSOCIATION.
MEETING AT NORTON CUCKNEY.**

A cordial welcome was given to the members of the North Notts Association when they visited Norton Cuckney. The bells, a handy peal of six, were placed at the disposal of the ringers from 2 to 3 p.m. by the new Vicar (the Rev. H. R. Peel), who was in the tower to welcome the first arrivals, and showed his interest in their work by remaining to watch them ring touches in various methods. Ringers were present from Barlborough, Sutton-in-Ashfield, Mansfield, Ordsall, Workson, and the local company. There was only a moderate attendance, wretched weather preventing many of the keenest supporters, who have to rely chiefly on the 'push bike,' from making the journey. Nevertheless, what was lacking in numbers was made up by good ringing throughout the afternoon and evening. The methods included Plain Bob, Oxford, Kent, Violet and Killamarsh Treble Bob, the junior ringer from Ordsall, Mr. H. Revill, conducting his first 720 of Oxford.

Tea was served in the Church Institute, and was presided over by the Vicar, who subsequently took the chair at the business meeting. —The hon. secretary (Mr. H. Haigh) made allusion to the death of James Fitzjohn, of Shireoaks, one of the association's oldest ringers. Mr. Fitzjohn was a Sunday Service ringer of nearly 40 years' standing, one of the best of comrades, quick to learn any new method, either by diagram or figures, a splendid striker, and a ringer who always rang with a tight rope and graceful pull. There was no slovenliness about 'Jim Fitch,' as he was familiarly called. He did his work thoroughly, and it was a pleasure to watch him ring his bell, occupying as little room in the tower as any ringer, he (the speaker) had ever seen. He was always a keen sportsman from youth upwards, and would be much missed by the people of Shireoaks.

The members stood for a few moments in silence, and the Vicar offered a short prayer for the departed brother.

The next meeting will be at Shireoaks early in the new year, and will be advertised in 'The Ringing World.'

A vote of thanks was accorded to the Vicar for the use of the bells and the Institute, and for presiding over the tea and meeting.

The Rev. H. R. Peel, in reply, gave the members a hearty welcome, and invited them to come again in the summer-time. He also gave an interesting account of church bells of the villages where he had ministered, and spoke in the highest terms of the work of the bell ringers.

Afterwards the tower was again visited, and further ringing indulged in. One company which shall be nameless, performed the 'hat trick.' Their 'bus broke down on the journey, causing two hours' delay; while ringing they broke the stay of the second bell, and afterwards the shank of the clapper of one of a new peal of hand-bells, for which 'performances' they had a hearty 'reception.'

H. H.

ELY DIOCESAN ASSOCIATION.

THE ARCHDEACONRY OF WISBECHE BRANCH.

A quarterly meeting was held at Whittlesea, Cambs, on Saturday, November 24th, ringers being present from Cambridge, Ramsey, Chatteris, March, Wisbech, Peterborough, and the local band. Some good touches of Grandsire and Stedman Triples, Treble Bob Major, and Plain Bob, were rung, several making the first attempt on eight bells. The Church of St. Mary is a grand edifice, with a stately tower and spire, 186 feet high, a landmark for miles around. Although the bells were augmented from six to eight in 1803, there is no record of a peal having been rung on them till 1904, when 5,040 Grandsire was rung by a party of visitors. The bells are not mentioned in the parish register since the time of King Edward III., so all that is known of the present ring and the previous one of six is the dates on them. On the present sixth bell the date is 1738, the third, fourth and seventh, are of the same date. The inscription on the third is 'Joseph Eayers, St. Neots, fecit.' The treble, second, fifth, and tenor are by Osborne and Dobson, of Downham, 1803.

The Vicar (the Rev. L. I. Chaplin) presided at the tea and business meeting, for which he had kindly lent St. Mary's Church Room.

Wisbech was chosen for the next meeting.

Mr. J. Pulett, of March, who very kindly acted as secretary, in the absence of the district hon. secretary, said he was pleased to see a good number present, and hoped by their gathering that day some good might be done. They appreciated the kind welcome extended to the association, and he was glad to meet the local band, who, he trusted, would persevere in the standard methods. He thanked the Vicar for presiding and for the use of the bells and parish room, and Mr. Neave for having the bells ready.—Mr. Willis, of Ramsey, seconded the proposition, which was carried.

Service was afterwards held in church, the association form being used.—The Vicar, who officiated, gave the members a very hearty welcome to his parish.

Ringing was carried on during the evening, the visitors being very pleased with the fine old bells.

WINCHESTER DIOCESAN GUILD.

YORKTOWN DISTRICT ANNUAL MEETING.

The annual meeting of the Yorktown District was held at Bagshot, when members attended from Camberley, Chertsey, Egham, Farnborough, Reading, Sandhurst, Worplesdon, and the local band. The Rev. Canon R. Stewart dedicated a peal board, recording the first peal on the bells by a local company, and members then attended the short service, at which the Rev. R. M. Curwen, of Yorktown, gave an interesting address.

An excellent tea had been arranged by Mrs. Nye and other lady ringers at the Parish Room.

The business meeting followed, the Rev. Canon Stewart occupying the chair. Among those present were Miss Middleton (Yorktown), Mr. H. G. Tidd, and Mr. G. Miles.

The officers for the year were elected as follows: Mr. J. B. Hessey (hon. secretary), Mr. H. J. Chaffey (Ringing Master); representatives on the Central Committee, Mr. Smith (Camberley) and Mr. H. J. Chaffey.

The hon. secretary's report and balance sheet were accepted, and the Ringing Master gave an account of the ringing done in the district. The proposed places for meetings in 1924 are: Pirbright, Weybridge and Yateley, and the annual meeting at Hershaw.

A hearty vote of thanks was given to Canon Stewart for the use of the bells, and for arranging with the choir-boys to be present; also for presiding at the tea and meeting.

The ringers afterwards again visited the tower, and various methods were rung.

SURPRISE METHODS.

MR. CARTER'S REPLY.

Dear Sir,—In reply to the Rev. E. Bankes James, in your issue of Nov. 16th, the Method should be called 'Bristol Delight,' as the 'C.C.' Book says:—

- (5) Delight Methods — having places made at all but one cross section.
- (6) Surprise Methods — having places made at all cross sections.

By referring to the half lead, it will be seen that

- at No. 1 — 4th place is made,
- at No. 2 — 6th place is made,
- at No. 3 — 5th place is made,
- at No. 4 — no place whatever is made.

If you condemn the 'C.C. Legitimate Methods' Book, what are you going to do with London, Cambridge and Superlative?—Yours faithfully,
JOHN CARTER.

FIFTY YEARS A RINGER.

Mr. Benjamin Morris, of Rushden, who has been a ringer for fifty years, passed away on Saturday, Nov. 24th, at the age of 67. Mr. Morris was a native of Stanwick, Northants, and until ten years ago used to walk to Stanwick, a distance of four miles each way, twice on a Sunday to ring for service. Afterwards he was a member of the Higham Ferrers' company, and was very regular in attendance. He has been a member of the Central Northants Association since it was founded.

The funeral took place at Rushden, on Thursday, Nov. 29th. The service was conducted by the Rev. J. B. Dollar, of Stanwick, who had known Mr. Morris for a number of years. The ringers of Stanwick were represented, and the Higham Ferrers band was represented by Mr. A. Smeathers, of Rushden. A wreath was also sent by the ringers.

In the evening the Higham Ferrers bells were rung deeply muffled to several touches, and a quarter-peat of Stedman Triples was brought round by A. Smeathers 1, A. Everatt 2, W. Gray 3, W. Hall 4, L. Chapman 5, G. Brown 6, W. Garrett (conductor) 7, W. Croft 8.

DEATH OF A HORLEY RINGER.

We regret to record the death of an old Surrey ringer, in the person of Mr. Albert Songhurst, of Horley, who passed away on Nov. 28th, after a very short illness. Deceased, who was 80 years of age, was secretary to the local ringers for over 30 years, and was very regular in his attendance for Sunday Service ringing and practice. He rang his last touch of Bob Major as recently as Sunday evening, November 18th.

The funeral took place at Horley, on Saturday, when his brother ringers of Horley, and Mr. E. Dewey, of Redhill, attended the service. Afterwards a quarter-peat of Grandsire Triples was rung with the bells fully muffled: F. Sadler 1, P. Etheridge 2, G. Illman 3, S. Kenward (conductor) 4, A. J. Bull 5, F. Voice 6, G. Hollingsbee 7, G. Welch 8.

HERTFORD COUNTY ASSOCIATION.

A successful meeting of the Northern Division was held at Hitchin on Saturday, November 17th. Ringers arrived from Baldock, Graveley, Kimpton, North Mymms, Long Stanton, Royston and St. Albans, to meet the local band. Service was held in Trinity Chapel, when for the first time most of those present saw their secretary (Mr. G. W. Cartmel) robed in his capacity as lay reader, accompanied by the Vicar (the Rev. L. B. Ashby). On this occasion Mr. Cartmel came specially to address the meeting, as one ringer addressing another, and his inspiring words will long be remembered by many of his hearers.—Mr. J. R. Foster (captain of the local band) presided at the organ.

Tea was served at the Grange, and was honoured by the presence of three honorary members, a fourth honorary member, Mr. Times, regretting his inability to be present.

At the brief meeting, the Vicar was voted to the chair.—One new life member was elected, and Mr. Cartmel spoke of the remarkable progress the association had made during his long connection with it.

The bells were kept going during afternoon and evening, in standard methods, also Superlative and Cambridge Surprise.

A WOLVERHAMPTON PEAL BOARD.

Sir Robert Bird unveiled a peal board at St. Peter's Church, Wolverhampton, on Saturday, November 17th, recording two peals, one rung on Feb. 13th, 1922, half-muffled, as a mark of respect to his deceased father, Sir Henry Bird, M.P., who was accidentally killed at Hyde Park Corner, on Feb. 7th, 1922, and the other on March 24th, 1923, as a peal of welcome to the Rev. Prebendary Stockley (Rector) upon his return from India. The first was a peal of Grand-sire Caters, and the second a peal of Stedman Caters. The board is the gift of Mr. H. J. Haddock.

Sir Robert Bird, who was accompanied by his mother and sister, spoke of the tribute paid to his father in that the latter's name was given a place in the noble and beautiful church of St. Peter; and the Rector said what a pleasure it was to him, on his return from India, to hear the bells of the old church ringing out again.

The Rector then dedicated the gift, following which Sir Robert expressed thanks to the donor and to the ringers, and said if a special peal were rung on the occasion of the Armistice, and it had not been commemorated on the walls of the belfry, he should like very much to be allowed to do this.

THE BEDFORDSHIRE ASSOCIATION.**DISTRICT SECRETARYSHIP GOING BEGGING.**

The annual meeting of the Bedford District was held at St. Peter's, Bedford, on Saturday, Nov. 17th. Tea at St. Peter's Hall was followed by the business meeting, with Miss D. Steel in the chair. Members were present from Thurleigh, Clapham, Biddenham, Bromham, Kempston, Harrold, Roxton, Olney and Bedford.

The committee were re-elected en bloc.

Some discussion arose over the district secretaryship. The district secretary is resigning, but could not get another to fill the office. The appointment was, therefore, left over until the next meeting, to be held at Clapham on December 15th, of which notice will appear in 'The Ringing World.'

Mention was made of the late Charles Herbert, of Woburn, and the Rev. J. E. Gilbert, Rector of St. Peter's, the members standing in silence.

A vote of thanks to the church officials for the use of the bells, to the chairman, and to the ladies for waiting at the table, brought the meeting to a close.

240 GRANDSIRE DOUBLES.**NEW CALLING FOR SIX SCORES.**

Mr. A. J. Pitman of Port Talbot, writes as follows: I feel sure that the following 240 of Grandsire Doubles, which I obtained some time ago, will be found useful to conductors of peals etc., in this method who would like further variety in calling, as it is certainly monotonous, having only ten 120's to call four times at least.

The 240 will be found to consist of two distinct 120's combined, counting 12345 and 13245 as the first changes of first and second 120 respectively.

There are also twelve variations to be obtained by commencing the calling as from each lead end in the usual way.

MULTI-METHOD PEALS.

The peal in thirty-five methods rung last week at Norbury, Cheshire, leads us once again to urge a much wider practice among six-bell ringers of ringing multi-method extents. We have emphasised the matter on more than one occasion, but we make no excuse for returning to it. The Norbury band, who are heartily to be congratulated on ringing a record number of methods in seven true seven hundred and twenties, stand in a unique position among six-bell ringers. They have reached the top of the ladder in that particular department of ringing, but they have done it only by patience and perseverance, coupled with enthusiasm and determination. It is difficult, and often dangerous, to make comparisons, but we venture to say that nothing finer in method ringing has ever been accomplished on tower bells. It may be there are some ringers who will disagree with us on this point, but they will be very few in number. But while the Norbury band seem to be far in advance of any other company in this special phase of Minor ringing, what they have achieved is equally open to others.

There are many accomplished six-bell bands up and down the country, and we would like to see a much more general application of method splicing in the peals they ring. We are sure they would find that it gives an added interest to their ringing, and it is certainly another step in raising the standard of performances on six bells. No one would expect a band to strike out at once into the splicing of thirty-five methods. The Norbury men have only reached that number by stages, but a small expansion of the repertoire of a six-bell company would quickly enable them to include multi-method extents in their peals. As Mr. Wheeldon aptly pointed out in his letter in our last issue, it does not follow that a Surprise Method is necessarily more difficult than others which are included in a different classification, and some of the methods included in spliced extents give a ringer all the mental exercise he desires. Surprise method companies, therefore, need not think that they are dropping to any lower standard, so far as methods are concerned, when they take up multi-method peal ringing. On the contrary, they will probably find it not only more interesting, but a good deal more difficult, than a peal in seven, or even fourteen, Surprise methods each starting from rounds. There is a big scope for enterprising ringers in this attractive field. Minor ringing is opening out upon a very large but little explored region, and there is a great opportunity for pioneers. For those who desire to make a start, the material is already provided, for the methods are to be found in the Central Council Collection, and 'spliced' compositions are available for the asking.

BELLS! BELLS! BELLS!

The band thank Mr. and Mrs. Parsons for their very kind hospitality and entertainment after the peal.

ST. MARY'S, ACTON, OUTING.

Owing to circumstances the St. Mary's ringers have to make their outing in two half-days, and late in the year. For the first trip a Saturday afternoon journey was made to Maidenhead, where an hour's ringing was thoroughly enjoyed, the methods successfully brought round on this lovely peal of eight being Grandsire and Stedman Triples, Bob and Kent Treble Bob Major. The next move was to Marlow, where the party were met by their old friend, Harry Collins, who joined them at tea. Afterwards a move was made to the tower, where some excellent ringing in the above-mentioned methods was enjoyed with the Marlow ringers. Wooburn Green was the final call, and Acton was reached near midnight. On the following Saturday the party visited Reading, where their esteemed friend, Mr. J. R. Mackman, piloted them to St. Lawrence Church, where they rang some Grandsire and Stedman Caters with the local band and Mr. Osborn, and the party were welcomed by the veteran, Mr. W. Newell. Tracks were made for St. Giles', and an hour there with standard methods went all too soon. After this the band split up for tea, some being the privileged guests of Mr. and Mrs. Mackman. The last pull was at Caversham, where a jolly time was spent in ringing various methods until 9.30. Best thanks are returned to the various Vicars for the use of the bells, to Mr. Harry Collins, to friends at Maidenhead, Mr. East, of Wooburn, Mr. and Mrs. Mackman and daughters for their hospitality, Mr. Osborn, and Mr. Simmonds, of Reading.

DEVON GUILD.**SUCCESSFUL MEETING OF EXETER BRANCH.**

The fourth annual meeting of the Exeter Branch of the Guild of Devonshire ringers was held at St. Sidwell's Institute, Exeter, on Saturday week. A well-attended service was held in the Parish Church, and conducted by the Rev. J. B. Ball (curate of Littleham) and the Rev. E. V. Cox (Vicar of Littleham-cum-Exmouth). Tea and meeting were subsequently held in the Institute, and among those present were Messrs. E. Shepherd (chairman of the branch), W. J. Southwood (hon. secretary and treasurer), J. C. Oke (assistant secretary), the Rev. Maitland Kelly (President of the Guild), Mr. T. Bartlett (hon. treasurer of the Guild), the Revs. E. V. Cox, J. B. Ball, F. Knight, and E. A. Julyan. Letters of apology for inability to attend were read from the Revs. E. S. Powell (hon. secretary of the Guild), Frob. Smith-Dorrien, E. P. B. Weber, G. H. Mallett, and A. Poulton, and Mr. S. Hull. About 120 members attended, and included representatives from the following bands: St. Sidwell's, St. David's, and St. Thomas' (Exeter), Heavitree, Thorverton, Topsham, Newton St. Cyres, Littleham, Honiton Clyst, Upton Pyne, Withycombe Raleigh, Sowton, Clyst St. George, Christow, and Alphington.

A vote of sympathy was passed to the Rector of St. Sidwell's (the Rev. F. Jones), who is seriously ill, and to the relatives of the late Mr. J. Richards, a very old and respected member of the Guild. The hon. secretary was asked to write a letter in each case on behalf of the branch.

It was decided to hold a combined meeting of the Exeter and South Devon Branches at Chudleigh on Saturday, January 19th, to celebrate the augmentation and re-opening of the peal of eight now being installed by Messrs. Gillett and Johnston, of Croydon.

The following officers were re-elected: Mr. E. Shepherd, chairman; Mr. W. J. Southwood, hon. secretary and treasurer; and Mr. J. C. Oke, assistant secretary.

It was decided to hold the next quarterly meeting of the branch at Alphington on Saturday, March 1st.

It was gratifying to find new members still being elected. Four were admitted at this meeting.

Mr. Shepherd proposed a vote of thanks to the Revs. J. B. Ball and E. V. Cox for conducting the service; the organist, vergers and ladies, for kindly presiding at the tea tables.

An interesting event took place during the ringing, after the meeting, when two octogenarians, namely, the President of the Guild (the Rev. Maitland Kelly) and Mr. H. Payne, took part in a touch on the bells of St. Petrock's.

YE COMPLEAT CONDUCTOR.

We met for a peal of Cambridge Minor at a strange church in a strange village, at least, it was strange to we three. Our conductor met us at the gate, with the other members of the band, and, admitting us to the church, bade us beware the step near the lectern. We have still to find that step, but after a deal of shuffling we struck the ringing room, also minus a step. This we found to be 'illuminated' by a single flat-flame burner, 12ft. up the wall. Our cicerone, nothing daunted, produced from a hand-bag a complete incandescent fitting, remarking that he had 'pinned it from the front room.' By the aid of 'long Fred' and a bit of agility, the burner was soon 'in situ,' and the peal ran merrily until near the end of the third 720, when another step occurred, over which two tripped badly, and the tenors came up wrong way. Result, peal 'Napoo.'

After carefully removing the gas fitting, and hanging up the mantle (for future possible use) out of harm's way by means of a hook ingeniously fashioned from a hair-pin, we repaired to a place described by our official French linguist as a 'Estimate.' There we regaled all and sundry with courses of Triples, Major and Caters on the most weird set of handbells in existence. These bells are truly effeminate, having their tongues made of clothes-pegs with springs from the ubiquitous hair-pin. They have a nasty knack also of occasionally flying off the headstock, and proved most disconcerting to the waiters, who each kept recognising his own particular bell and answering it.

However, we three had a long way to go home, and our conductor volunteered to show us a near cut across the fields to the point where we could take a bus. After floundering about the first field in the inky darkness of war-time, the conductor mentioned quite casually that he had not been this way for years. Fortunately, we three were all 'old sweats,' and, with the ex-bandsman heading the ex-battalion, we made fair progress, until we found ourselves in a field with an unclimbable iron fence. 'We ought to ha' went through higher up,' quoth the conductor, but we climbed the fence and marched on.

Gravellyacre was soon reached, and here the conductor consoled us with 'There'll be a bus any minute now.' There was, and we got in and soon found we were making for quite a different point to what was desired, but after about 20 minutes of execrable road we struck a 'chaser,' which landed us in Waxton safely. We wonder if our conductor, who has a penchant for wrong trains, conducted himself home safely. Anyway, we shall give him the 'go by' next trip.

BELFRY GOSSIP.

The six-bell band at Norbury, Cheshire, who are without question the premier company in spliced method ringing, have added yet further to their laurels, by ringing a peal in which no fewer than 35 methods have been linked up in seven true extents. This is really a wonderful performance, and the whole Exercise will congratulate this enterprising band upon their unique achievement.

On his departure for Brecon, the Rev. T. R. J. Jones, curate of Knighton, was presented by the ringers with a solid silver inkstand as a mark of their respect and esteem. The presentation was preceded by an excellent dinner, generously given by the Ringing Master (Mr. P. Jones).

Mr. R. Palmer, of Hatherleigh, North Devon, has died at the age of 94, in the house in which he was born and had lived all his life. As vergor of the parish church and the captain of the bell ringers up to recent years, he had rung the curfew at 8 o'clock each evening.

Leatherhead bells are to be restored by Messrs. Mears and Stainbank. They have already been taken to the Foundry, where the 9th is to be recast. They will be rehung in complete new fittings.

Mr. B. Fullwood, of Sedgley, offers for sale the rights to manufacture a patent locking device for bells. Such a preventive against accident when bells are up is most desirable, and sooner or later is likely to be added as a sort of 'standard' equipment in belfries.

Both born on December 5th, 1865, in the county of 'Glaster,' Mr. J. W. Jones, the hon. secretary of the Llandaff and Monmouth Diocesan Association, and Mr. W. B. Biss, of Cardiff, have several times rung a birthday peal together. They added another to those successful celebrations by ringing in a peal of Grandsire Caters last week.

A record which stood for over 150 years was set up by the College Youths on December 15th, 1735, when they rang 8,008 Grandsire Cinques at Southwark. This is supposed to be the first peal on the bells, and the length was not beaten until 1887, when 9,020 was rung at Birmingham. At Southwark, 'Mr. Benjamin Annable call'd bobs,' and the peal was 'the longest that ever was done.'

On the old peal of twelve at Spitalfields on Dec. 20th, 1806, 'a peal of 6,334 Cinques upon Stedman's Principle' was rung by the Senior Cumberlands, 'being the most ever rung in that method.' Only five days before the Junior Cumberlands had rung 5,886 in the same method on the same bells, and these two performances coming so close together are all the more noteworthy from the fact that previously only two other peals of Stedman Cinques are known to have been rung.

The first peal of Stedman Triples 'in hand' was rung at the 'Three Kings,' Clerkenwell, London, seventy years ago next Wednesday by the Cumberland Youths. The record of the performance says the peal was brought round in fine style, the ringers being John Cox, Thomas Powell, Henry Haley and Thomas Brittan. The ringing took place in the presence of 19 members of the College Youths and Cumberland Societies, some of whom checked the sixes as they were rung. Later on, we believe, Cooter condemned the peal as false. This is a point, perhaps, upon which some of our readers can give us definite information.

On December 15th, 1904, the first peal in South Africa was rung at Woodstock.

The first peal of Canterbury Pleasure Major was rung at Warnham, Sussex, on December 17th, 1838.

A meeting of the London County Association (Southern District) has been arranged at short notice for Saturday next at St. Luke's, Chelsea.

The question raised in this column recently as to the youngest conductor of Holt's Original seems to be settled by the performance of a young Leicester ringer, Walter Whitehead, who last week called the peal before reaching the age of 18.

Last Saturday the first peal was rung on the bells at Westoning, Bedfordshire. Originally a ring of five, they were recently made into a peal of six by the gift of a treble by Mr. H. Spensley, of Westoning Manor, in memory of his mother. The work was carried out by Messrs. Mears and Stainbank. The back five bells are dated respectively as follows: 1672, 1743, 1829, 1722, 1743.

ONE HUNDRED 720's IN A YEAR.

From December 24th, 1922, to December 2nd, 1923, St. James' ringers, East Crompton, Lancs, rang one hundred complete 720's in 13 Minor methods, 71 extents having been rung for service, as follows: Oxford and Kent Spliced, 3; Oxford, 9; Kent, 17; Violet, 17; New London, 6; Duke of York, 10; Woodbine, 11; Merchants Return, 6; London Scholars Pleasure, 10; College Bob IV., 7; Plain Bob, 2; Kingston, 1; Sandal, 1. There are two bands at this church who take Sunday ringing in turn.

TEN BELL TOWERS.

TEWKESBURY ABBEY.

By J. R. JERRAM.

Tewkesbury Abbey recently celebrated the eight hundredth anniversary of its foundation.

This fine view of Tewkesbury Abbey is from a photograph kindly loaned by Mr. P. E. Dawe.

At the present time this noble pile possesses a peal of ten bells, tenor 51 inches diameter, 24 cwt. The inscriptions are as follow :

Treble. AD MAJOREM DEI GLORIAM ET IN PIAM MEMORIAM ELIZABETHÆ POTTS, MATRIS DESIDERATISSIMÆ, DONO DICAVERTUNT OSWALDUS ET EDITHA WARDELL-YERBURGH, A.S. MCMXIII,
(By Mears & Stainbank.)

Second. AD MAJOREM DEI GLORIAM ET IN PIAM MEMORIAM FRANCISCI GULIELMI GODFREY, MDCCCL—DONO DICAVERTUNT FRANCISCUS ET CONSTANTIA GODFREY.
(By Mears & Stainbank.)

Third. IAS PEACE & WILLIAM HATHAWAY CHURCH W. AGR 1743.

Fourth. PROSPERITY TO THIS TOWN 1725

Fifth. ABRA: RUDHALL. JOHN CALE, 1696

Sixth. ABRA: RUDHALL CAST VS ALL 1696

Seventh. CAST AT GLOUCESTER BY T. MEARS 1837.
(N.B.—Mears used Rudhall's border ornament.)

Eighth. PEACE & GOOD NEIGHBOVRHOOD. AMEN.

Ninth. PROSPERITY TO THIS TOWNE & CHVRCH. ABRA: RUDHALL OF GLOUCESTER BELL FOUNDER. 1717.

Tenor. REV. CH: WHITE, VICAR. HENRY BRIDGES & HUGH MARTIN CHURCH W. 1837. T. MEARS FECT.

These bells were originally a peal of eight by Abraham Rudhall, sen., in 1696—probably one of his earliest works—the two trebles being added by Mears and Stainbank in 1913.

There was originally a detached campanile at Tewkesbury, of which Mr. H. B. Walters gives an illustration, in his 'Church Bells of England' (p. 63). The following tablets are in the belfry:—

'In the year 1837 this peal had two bells recast and all the others tuned, with new frame and hangings by Mr. Cull; and on the 16th of October in that year an opening took place, upon which occasion the Cheltenham Society succeeded in obtaining a true and compleat peal of Kent Treble Bob Major, containing 5184 changes, in 3 hours 6 mins., by:

JAMES LLOYD	<i>Treble</i>	WILLIAM PROSSER	<i>Fifth</i>
THOMAS SMITH	<i>Second</i>	WILLIAM CRUSER	<i>Sixth</i>
CHAS. GILLMAN	<i>Third</i>	RICHARD HUGHES	<i>Seventh</i>
CHARLES FREEMAN... ..	<i>Fourth</i>	THOMAS TURNER (cond.)	<i>Tenor</i>

'MACTE NOVA VIRTUTE. On these bells, January 15th, 1877, in 3 hours 3 mins., was rung by Tewkesbury Abbey Society, a true and compleat peal of 5040 Grandsire Triples, in 6 parts; the whole containing 194 bobs and 46 singles. The first rung here by a local Society:

GEO. CLEAL (age 15)	<i>Treble</i>	JNO. WATHER	<i>Fifth</i>
C. D. P. DAVIES, ESQ.	<i>Second</i>	J. WATHER	<i>Sixth</i>
G. HAINES	<i>Third</i>	E. WALLIS	<i>Seventh</i>
E. INSALL	<i>Fourth</i>	W. HAINES	<i>Tenor</i>

Weight of the tenor 24 cwt.'

MIDDLESEX COUNTY ASSOCIATION.

The last meeting of the year of the North and East District of the Middlesex County Association and London Diocesan Guild was held at St. John of Jerusalem, South Hackney, on Saturday last, and was a very enjoyable one in every respect. Some 36 members attended, and a large number of methods, including Bristol, London and Cambridge Surprise, were rung.

A short service was held at 5 p.m., at which the Rev. J. Meeser (curate) officiated, in the unavoidable absence of the Rector (the Rev. G. T. McLean). The sermon was especially noticeable for some words of real wisdom, which it is hoped were taken to heart in these very troublesome days.

After tea a short business meeting was held, at which three new members were elected, and a hearty vote of thanks passed to the Rector for the use of the bells; to the Rev. J. Meeser for his great assistance and helpful words; and to Mr. A. Riley for his efforts to make this meeting a pleasant one, in which, it should be recorded, he succeeded. Thanks are also due to Mr. H. W. Strickland, a member of the Tottenham band, for valuable help rendered at the harmonium during the service.

Ringling was again indulged in until nearly 9 o'clock, in which the younger generation was well to the fore; and, judging by the interest taken by little Ernest Pye in what was going on, it will not be many years before he begins to make an attempt on some of his father's records.

THE LADIES' GUILD.

The quarterly meeting of the Western District was held on Saturday at Portishead, and there was a good attendance. Ringling began shortly after 3 p.m., and touches of Grandsire and Stedman Triples were rung. An excellent tea was provided at the White Cot Dairy, and a business meeting followed, Miss Smith being in the chair.

Two new members were elected, viz., Miss G. Broad, and Miss G. Dobbs, of Portishead.

It was proposed to hold the next meeting in Bath early in March. The meeting was brought to a close with a hearty vote of thanks to Mr. Gillingham, the captain of the tower, and to Miss Smith for presiding. A return to the belfry was made by those able to remain, and a most successful meeting was brought to a close.

EDINBURGH SURPRISE MAJOR.

ANOTHER NEW METHOD.

The Leiston ringers have rung another Surprise method. It has been named Edinburgh Surprise, and is a product by Mr. Gabriel Lindoff. The band found the method interesting to ring, and something different to existing ones. A composition on the 'in and 5th's' plan shortens the courses and increases the musical features.

YORKSHIRE ASSOCIATION.

EASTERN DISTRICT AT SELBY.

A quarterly meeting of the Eastern District was held at Selby on Saturday, December 1st, and by kind permission of the Vicar (the Rev. Canon Solloway, D.D.), the abbey bells, a fine ring of ten, were placed at the disposal of ringers throughout the afternoon and evening. At choral evensong the address by the Vicar of Selby was much appreciated.

Tea was afterwards held in the Co-operative Hall, and about 35 sat down, representing towers at Doncaster, Hemingbrough, Hull, Market Weighton, Leeds, Sherburn-in-Elmet, Thorne, Wetherby, Wortley and York.

The business meeting followed, Dr. Solloway presiding. An apology for absence was received from Mr. A. E. Wert (vice-president), who was unfortunately laid by with a severe cold.

It was decided to hold the annual district meeting at Pontefract in March, 1924.

Two new members were elected to the association, viz., Mr. A. D. Clegg, of York, and Mr. T. Leask, of Fishlake.

On the motion of Mr. P. J. Johnson (hon. gen. secretary), a hearty vote of thanks was accorded Dr. Solloway for the use of the bells, and also for his address at the service.—The Vicar, responding in a humorous and happy vein, spoke of the great pleasure it gave him in having the association at Selby.

A vote of thanks was also passed to the choir and organist for their services, and to the local company for having made such excellent arrangements.—This was responded to by Mr. F. Ellis (assistant organist) and Mr. T. Morgan.

The members afterwards adjourned to the tower for further ringling.

DEATH OF AN OLD SMETHWICK RINGER.

Mr. Joseph Hughes, at one time a ringer at the Old Church, Smethwick, and in his early days at Leighton, near Welshpool, passed away very suddenly on December 2nd, in his 73rd year. The interment took place at the Old Church, Smethwick, on December 6th, the Rev. Canon Astbury officiating. Many wreaths were sent by relatives and old friends, and kind sympathy was freely expressed by those of the local ringers who remembered him. His death is mourned by the widow, and daughters and sons, Messrs. J. Hughes, of Bangor, and A. J. Hughes, Rhyl.

The deceased came of ringing stock, his father and grandfather having been ringers before him. He was not a great change ringer, but had rung a few peals of Grandsire Triples, mostly for the Society for the Archdeaconry of Stafford.

WEDDING BELLS.

On Saturday, December 1st, at Pattishall, Northants, a quarter-peal of Grandsire Doubles (1,260 changes), in 50 mins.: W. Wise (first quarter) 1, J. W. Haynes 2, P. C. Asplin 3, J. M. Gray 4, J. A. Townsend (conductor) 5, A. Birch 6.

This quarter-peal was rung after the wedding of Miss A. Whitehead to Mr. Leslie Payler. The bride is the daughter of Mr. John Whitehead, who has for many years been a ringer and chorister at the Parish Church. The ringers were entertained to tea by the bride and bridegroom.

THE STEEPLEKEEPER'S DAUGHTERS.

On Saturdays, Nov. 17th and 24th, the two remaining daughters of Mr. G. T. Leader, of Slough, were respectively married at the Parish Church of St. Mary by the Rector (the Rev. A. G. P. Baines, M.A.), Miss May Leader being wedded to Mr. W. H. Jacques, and Miss Dorothy M. Leader to Mr. David Patey. Mr. Leader gave his daughters away, a quiet pretty wedding in each case, with relations and friends aroused, terminating with a honeymoon spent at Brighton.

Both ladies were change ringers, taught by their father, Dorothy having rung a couple of quarter-peals of Grandsire Triples, and they helped to keep the Sunday Service ringling going during the war and afterwards.

On November 24th the Slough ringers and friends held an enjoyable practice at the church to honour the double event, when several touches of Stedman Triples and Bob Major were rung by Messrs. Hooper, Henley, Bateman, Smith, Farr, Leader, A. and T. Harding, Perryman, Welling, Bedford, Franklin, and the towerkeeper. An adjournment to the Reindeer Hotel, at the invitation of Mr. and Mrs. Leader, enabled the company to drink to the health of the brides and the bridegrooms, and to taste the cake.

During his long connection with Slough tower, Mr. Leader has spliced many ropes, but few steeplekeepers can say they have 'spliced' four bonnie daughters.

DUBLIN.—At St. Patrick's Cathedral, on December 3rd, 1,368 Grandsire Caters, in 57 mins.: David Gibb 1, G. Lindoff (composer and conductor) 2, Joe Atkinson 3, Richard Lynch 4, W. H. Wilson 5, Wm. Lynch 6, A. Murray 7, J. Cherry 8, G. Wilmot 9, Wm. Gibson 10.

CAMBRIDGE ROYAL RECORD.**MIDDLESEX ASSOCIATION TO ATTEMPT LONG LENGTH.**

Quickly after the unsuccessful attempt for a long peal of Cambridge Surprise Royal at Duffield by the Midland Counties Association comes the announcement that on Boxing Day, Wednesday, Dec. 26th, members of the Middlesex County Association and London Diocesan Guild will (D.V.) attempt the same length (10,440 changes) at St. Mary's, Walthamstow, starting at 9.30 a.m.

The composition is by the Rev. H. Law James, and was published in 'The Bells News' on Dec. 31st, 1910, page 574.

DURHAM & NEWCASTLE ASSOCIATION.

A very successful meeting of the Eastern District of the Durham and Newcastle Diocesan Association was held at Durham on Saturday. About 20 members, including the president (Mr. C. Todd) and the ex-president (Mr. W. Story) attended from Darlington, Newcastle, Sunderland, Houghton-le-Spring, West Hartlepool, etc., and the bells of St. Oswald's and the fine peal of eight at the Cathedral were kept going during the afternoon and evening.

It was arranged to hold the next district meeting at Jarrow about the middle of January.

ESSEX ASSOCIATION.

The annual meeting of the South-Western Division was held at St. Mary's, Walthamstow, on Saturday, December 1st. Tea at the Nag's Head was followed by the business meeting, the Master (Mr. A. Prior) being in the chair. Members were present from Romford, Brentwood, Woodford, Longlton, West Ham, Leytonstone, and the local band. It was decided to hold a by-meeting at Wanstead early in March. The next quarterly meeting will be held at Loughton in April.—The retiring Master and secretary were re-elected.

The bells were kept going during the afternoon and evening in various methods, including Double Norwich and Superlative.

A hearty vote of thanks was given to the Vicar for the use of the bells; also to Messrs. J. H. Wilkins and J. Adams for making the necessary arrangements, which added to the success of the meeting.

'SILENT' SURPRISE MINOR PEALS.

To the Editor.

Dear Sir,—It may interest Messrs. Dawson and Wheeldon, and also other members of the Exercise, to know that at least two 'silent' peals have been rung in seven legitimate Surprise Minor methods. The first was rung at Oswaldtwistle, Lancashire, on February 16th, 1913, in 2 hours 46 minutes, and the methods were: Canterbury, London, Wells, Durham, York, Lancashire, and Stamford. The second one was rung at Walton-on-the-Hill, Liverpool, on Nov. 4th of the same year in 2 hours 39 minutes, and the methods were: London, Canterbury, Chester, Carlisle, Beverley, York and Cambridge.

I have every reason to believe these were two excellent performances, and rung strictly according to the rules that govern silent peal ringing. In giving this information I in no way wish to detract from the high merit of the Bucknall men's achievement in 1897, but rather regret that the Central Council rulings were against them in later years.—Yours faithfully,

GEORGE R. NEWTON.

A FALSE METHOD.

Sir,—After reading Mr. Wheeldon's reply to Mr. Dawson's query, may I ask which Superlative was rung in the peal he refers to: Cambridge Surprise reverse, or the Superlative, No. 42 in 'C.C.C. Methods' P. If No. 42 was rung I cannot understand why it was allowed to remain, as I am quite sure it is an alien, it being impossible to get a 720 true with calling W.R.W., 32465 being a false row. Perhaps some other gentleman has pointed this out before, but not recently. To make it more plain here is a 720 by the lead ends showing the false rows.

	23456		34256		42356
	23564	—	34562	—	42563
A 1 x	36245	B 2 x	46325	C 3 x	26435
2 x	64352	3 x	62453	1 x	63254
	45623		25634		35642
	45236		25346		34526
	45362		25463		35264
	56423		56234		56342
C 62534		A 63542		B 64523	
	23645		34625		42635
	34256		42356		23456

1 x is false with 1 x, when treble is in 3-4, and the same applies to 2 x and 3 x. 32654 is also a false row. A 1 x is false with A. B 2 x is false with B, and C 3 x with C, also when treble is in 3-4. Cambridge Surprise Reverse is given as Superlative in William Banister's book.

IMPORTANT NOTICE.

On account of the Christmas Holidays, *The Ringing World* for December 28th will have to be sent to press two days earlier than usual in that week.

Matter intended for publication in that issue should reach us as early as possible, but notices and reports relating to events on Saturday, December 22nd, will be accepted up to first post on Monday, December 24th.

We hope that all peals rung up to the 22nd will be sent to us by that date, so that they may not overload our columns in the following week, when we have to deal with the extra pressure of holiday ringing.

SPADE WORK IN CHESHIRE.

The peal of Cambridge Surprise Major at Port Sunlight recorded last week is worthy of special note. The achievement can be attributed almost wholly to the efforts of Mr. H. Ludkin, who, however, would, in his modesty, be the last to claim such credit. Here are the facts. The treble ringer was first introduced to a belfry early this year, another has been barely two years a change ringer, while in May of this year more than half the band had not rung Treble Bob Major inside.

In a district where change ringing was at a low ebb and peals by residents almost impossible, Mr. Ludkin's efforts have been responsible for the following successes since the early summer: 'Resident' peals of Treble Bob Minor and Major and Surprise Minor and Major. Several other peals have been rung, and on each occasion one or more 'first peelers' have taken part.

Such labours as Mr. Ludkin has put in in the cause of ringing merit recognition.

A MUFFLED HALF-PEAL.

At Christ Church, Pendlebury, Lancashire, on Sunday, Dec. 9th, for evening service, with the bells fully muffled, a half-peal of Grandsire Triples (2,520 changes) was rung in 1 hour 30 minutes by Wm. Walton 1, A. Wallwork 2, Geo. Morriss (conductor) 3, T. Lingard 4, J. Brockbank 5, S. Bradley 6, C. Sedden 7, J. Edge 8. This half-peal was rung as a mark of respect to the late Mr. W. E. Chapman, whose funeral took place on December 6th at Swinton Cemetery. He had been connected with Christ Church for a number of years, having occupied the offices of churchwarden, sidesman and Sunday School teacher, and the loss of his services will be much felt by all connected with the church.

THE PEAL AT GAINSBOROUGH.

The peal of Bob Major at Gainsborough on Saturday was arranged for Miss C. Hepburn, of Isham, Northamptonshire, who was on a visit to Gainsborough, and is the first lady ringer to take part in a peal on these bells. It was also a farewell compliment to the Rev. K. J. McFarland, of New Zealand, who for the past three months has been assisting in the parish of All Saints, and, to the sincere regret of the parishioners, is taking his departure for other dioceses in England before returning to his native country.

LONG LENGTHS OF ROYAL.

The attempt which is to be made on Boxing Day for a peal of 10,440 Cambridge Surprise Royal is a reminder that among the many long lengths that have been rung, peals of "Ten-In" are by no means numerous. Peals of Major, in which the changes ran into five figures, could be literally numbered by the dozen—there are records of more than a score over 12,000 in length—and yet we believe the peals of more than ten thousand of Royal could be numbered on the fingers of one hand. Stedman and Grandsire Caters have been methods over which for nearly two centuries ringers have striven for records. No fewer than five times in the last thirty-five years the Stedman Caters' record has been broken, while half a dozen new records were made in Grandsire Caters during last century. But long lengths of Royal seem to have had little attraction for ringers during all this time; indeed, the record of 12,000 put up in 1784 by the Royal Cumberland Youths remained unbroken, as far as can be ascertained, until the Ashton-under-Lyne men rang a peal of 14,000 in the year 1914. The earlier record was the culmination of an interesting struggle for supremacy between the two great rival London societies, which began with a round ten thousand of Treble Bob Royal at Shoreditch by the College Youths in 1777 and ended with the Cumberlands' 12,000 seven years later. And that, so far as we are aware, was the end of record making with ten-in for a hundred and thirty years, although there was more or less constant effort on all other numbers, with the exception of Maximus, in which a 10,224, rung at Painswick in 1833, waited until 1911 before being beaten—also at Ashton-under-Lyne. As far as we can trace, and should it be otherwise we should be glad to be informed, all the long lengths of Royal and Maximus have been Treble Bob, and herein perhaps lies the explanation of the absence of attempts to make new records. Has it been due to the uninteresting nature of Plain Bob and the monotony of Treble Bob that ringers have been loth to set out upon those herculean tasks that have marked the progress of record peals in other methods? If this be so, the advent of Surprise Royal ringing, as a more or less regular feature of present-day practice, is likely to change this state of affairs. The limitations which may be found even in Cambridge Surprise disappear in some of the newer methods, which are not only more difficult, and therefore more interesting, but, having a cleaner proof scale, will lend themselves to the composition of longer lengths without parting the big bells. We look upon this long peal of Cambridge Royal, by whoever it is first rung—and the Leicester men were unfortunate in not pulling it off—as the precursor of an attempt, or, maybe, series of attempts, to set up a new record in Royal ringing.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

DINNER & PRESENTATIONS AT BLACKHILL.

On Thursday, December 6th, the members of St. Aidan's Guild, Blackhill, held their first annual dinner in St. Aidan's Church Hall, Blackhill. The chair was taken by the President (the Rev. Jenkin Jones, M.A., Vicar), Mr. G. W. Brydon being in the vice-chair. About 40 guests sat down to an excellent repast, amongst those present being Mr. Chas. Todd, of Darlington, the President of the Durham and Newcastle Diocesan Association; Mrs. Jones, Mr. and Mrs. J. R. Brodie, Miss Mudge, Mrs. Lee (the donor of St. Aidan's bells), Mr. and Mrs. F. W. Marshall, Mr. and Mrs. J. Siddell (vice-presidents), Mr. W. W. Sinclair (the Ringing Master) and Mrs. Sinclair, together with the ringers and their wives.—After dinner the Chairman proposed the toast of the Durham and Newcastle Diocesan Association of Change Ringers, saying how much St. Aidan's Church was indebted to the association for having provided ringers when the bells were dedicated a year ago, and for their assistance and advice in all matters pertaining to ringing; also for recommending a practical ringer in Mr. Sinclair as instructor.—Mr. Todd, who replied, thanked the chairman for his kind remarks, and said that by assisting in the way referred to the association was carrying out one of the objects for which it was intended, while another was to improve the quality of ringing for Sunday services.—'St. Aidan's Guild of Change Ringers' was proposed by Mr. Marshall, and responded to by Mr. Macfeggan.

Mr. J. Siddell proposed the health of the founder of the feast, Mrs. Lee, and referred to her great generosity in giving the bells to St. Aidan's Church.

Mr. Brydon proposed the health of the ladies.

Harmony was supplied by Messrs. P. Watson, N. Johnson, and others, the ringers adding their share to the proceedings by ringing a plain course of Grandsire Triples and 120 Bob Doubles, etc., on the handbells.

During the evening, Mr. Sinclair presented each ringer with a certificate of membership of the Durham and Newcastle Association, and also with the association badge to wear on their watch chains.

Perhaps the most pleasing item on the programme was when the chairman, on behalf of the members of the Guild, presented Mr. Sinclair with a gold Albert and pendant, as a slight mark of esteem and regard for the way in which he has carried out his duties as Ringing Master. The pendant bears this inscription: 'Presented to Wm. W. Sinclair by St. Aidan's Guild of Change Ringers, November, 1923.'

In making the presentation, the Vicar referred to the hard work

Mr. Sinclair had put in, in teaching a band of ringers who were all novices.

Mr. Sinclair, in thanking the members for their gift, said it was a pleasure to help and teach those who were willing to learn the art of bell ringing, and he hoped before another year passed, to have the best band of ringers in the district for eight bell towers.

'Auld Lang Syne' and the National Anthem brought a most enjoyable evening to a close.

BEDFORDSHIRE ASSOCIATION.

The annual meeting of the Biggleswade District was held at St. Swithin's, Sandy, on December 8th. Tea was followed by the business meeting, at which Mr. W. G. Cope presided. Members were present from Biggleswade, Everton, Clifton, Roxton, Northhill, Sandy and Cambridge. The committee were re-elected en bloc.

Mr. C. J. Ball was elected district secretary.—One new member was elected, and it was proposed to hold the next meeting at Old Warden.

A hearty vote of thanks to the Rector for the use of the bells, and to the chairman, brought the meeting to a close.

Some good touches were rung during the afternoon, including Oxford and Kent Treble Bob, Woodbine, Plain Bob and Grandsire Doubles. The bells were run down before 7 o'clock by request of Mr. Rust, whose wife was ill. Mr. Rust wishes the secretary to thank all the ringers who were present for acceding to his request.

BEDFORD DISTRICT.

A successful meeting of the Bedford District was held at Clapham on Saturday. Ringing started at 3 o'clock. Tea was served in the reading-room, and was kindly provided by the churchwardens. At the business meeting, the Vicar (the Rev. E. Barton) was in the chair, supported by Mr. T. Yeomans (churchwarden). Members were present from Bedford, Kempston, Turvey, Biddenham, Roxton and the local company.

Miss E. Steel was asked to carry on the office of secretary pro tem. to the next meeting, to be held at Cardington early in the new year, notice of which will appear in 'The Ringing World.'

The Vicar welcomed the members to Clapham, and was thanked for the use of the bells. Hearty thanks were also accorded to the churchwardens for the tea, and to the ladies who waited at table.

The tower was again visited, when the Vicar unveiled a peal board recording a peal of Doubles rung by an entirely local company, with the exception of the conductor.

IMPORTANT NOTICE.

On account of the Christmas Holidays, *The Ringing World* for December 28th will have to be sent to press two days earlier than usual next week.

Matter intended for publication in that issue should be sent at once, but notices and reports relating to events on Saturday, December 22nd, will be accepted up to first post on Monday, December 24th.

"The Ringing World" will be published as usual on Friday.

BELFRY GOSSIP.

The Venerable the Archdeacon of Swindon has accepted the invitation of the Bristol United Guilds to be present at their third annual dinners as 'guest of the evening.' Musical items will be given this year between the toasts. There is, we are informed, a little surprise for the committee, which will be very much appreciated, being in the nature of a return for 'Honour Bestowed.'

The Middlesex Association are, we believe, the first society to ring a hundred peals of Bristol Surprise. To the fact that their leading Surprise ringers took the method up with such keenness is largely due the popularity which Bristol has attained to-day. Outside the three old Surprise Methods, no other has been practised to anything like the same extent as the Rev. E. B. James' creation. The Middlesex 'hundred,' it is interesting to note, includes the only three hand-bell peals in the method, and the 15,264 at Hornchurch in 1912.

The new peal of eight at Nelson, Lancs, installed by Messrs. Mears and Stainbank, were opened on Saturday.

Seaford (Sussex) bells which have been recast, and rehung in a new frame, are to be dedicated to-morrow (Saturday).

The very first peal of Treble Bob on record was rung on December 27th, 1718. This was a performance by the Union Scholars, and the peal was rung at St. Dunstan's-in-the-East, City. Following the custom prevailing at that time the society called the method after their own name, viz., Union Treble Bob, but, although the title clung to it for a while, other ringers gave it the name of Oxford, by which we know it to-day.

To all our Readers,

"A MERRY CHRISTMAS."

An interesting fact about this peal is that the composition is preserved to us. It is a five-part, with a before in every course, and two bobs Wrong and one Home in every fourth course.

The Christmas Holidays have been a favourite time for long peals, and among the noteworthy peals have been the following: On Dec. 26th, 1831, 15,168 Kent Treble Bob Major at Elland; 1885, 8,064 Double Norwich at Leiston by College Youths; 1894, 9,312 Superlative Surprise at Crawley; 1901, 11,111 Stedman Cinques at Birmingham; 1901, 10,176 Kent Treble Bob Major at Beeston, Notts; 1910, 9,728 Superlative Surprise (record) at Clent, Worcestershire.

On December 27th, 1904, 17,104 Double Norwich at South Wigston; 1909, 10,176 Double Oxford Bob Major, Brierley Hill.

Miss Nancy Denyer, at the age of 13 years, has just rung her first peal at Aldershot, where the local band, including four ladies, have just scored their 'first.' The method was Bob Major. The band would like to know if they possess the youngest lady who has ever rung a peal of Major on tower bells. Miss Denyer rang her bell exceptionally well throughout the peal, and the Ladies' Guild have every reason to be proud of the latest recruit to their peal ringers' ranks.

It will be noticed that a handbell peal rung in London by Cumberland and College Youths last week, was rung under the auspices of the Oxford Guild.

With regard to the peal of Cambridge at Port Sunlight on November 26th, it should have been recorded as the first peal of Surprise Major by a band residing in the Wirral Peninsula.

The peal of Doubles at Barlaston, Staffs, on November 24th, was rung in 2 hours 50 minutes, not 3 hours 50 minutes, as published.

The new trebles to make a peal of eight at West Wycombe and the new peal of eight which Messrs. Taylor and Co. have placed in the tower at Newchurch, Lancs, were dedicated on Saturday. No time was lost in putting the bells to the proof, for in each case a peal was rung on them on the following day.

A letter from Mr. A. Craven with regard to Edinburgh Surprise is unavoidably held over till next week.

Six mats used by bell ringers at Chertsey Parish Church—where the curfew has been rung for 600 years—have been stolen from the belfry. This is one of a series of thefts from churches in West Surrey, the belief being that the person who carried them off used a motor-car.

DEDICATION OF NEW PEAL AT NEWCHURCH.

A SPLENDID PRODUCTION FROM LOUGHBOROUGH FOUNDRY.

On Saturday, December 15th, the new peal of bells at the Parish Church, Newchurch, near Warrington, were dedicated by the Ven. Archdeacon Howson (Archdeacon of Warrington). The service was, indeed, very impressive, and there was a large attendance, which included many bell ringers from various parts of the country, and Mr. Taylor, representing the founders.

The recast bells are a beautiful ring of eight, cast by Messrs. John Taylor and Co., the famous Loughborough foundry. The tenor bell is a fine-toned bell of just over 12 cwt., in F sharp, and the whole peal have been tuned on Messrs. Taylor's latest reinforced system of harmonical tuning. Undoubtedly to the listener the peal sounds wonderfully melodious, quite a contrast to the original bells, and upon all sides, as the congregation were leaving the church after the dedication ceremony, one heard nothing but praise for the wonderful tonal results obtained.

Then with regard to the fittings, these contain all those improvements in bell hanging which Messrs. Taylor have introduced in recent years, including, of course, ball bearings in which the bells swing.

The strong and massive iron framework which carries the bells is so designed by the bell founders that the least possible amount of strain is placed upon the tower walls, and this framework is even a source of strength to the tower, as the main foundation girders are arranged and fixed so as to form a bond to the tower walls. The ringers were entranced by the splendid 'go' of the bells, and everyone is to be congratulated upon the achievement of so magnificent a result.

The inscriptions upon the bells are as follows, together with the founders' mark—Recast by Taylor, Loughborough—on each bell:—

Treble.—To the memory of their nephew, Robert Leigh, who died at Trinity Hall, Cambridge, Nov. 14th, 1911, aged 22 years.

2nd.—The gift of the Misses Leigh, Leigh Hall, Kenyon.

3rd and 4th bells blank.

5th.—Three bells, the gift of M. M. S. Marsh, High Peak, Kenyon. In memory of her brothers.

6th.—To the memory of Ann Allen, Brooklyn, Culcheth. The gift of her sister.

7th.—To the memory of Thomas Ellames Withington. The gift of his son and daughter, Arthur and Cecelia.

Tenor.—To the memory of the fallen in the war, 1914-1919. Rev. E. W. Whittenbury-Kaye, Rector. R. Grimshaw and R. Overton, Churchwardens, 1923.

After the ceremony, the ringers and visitors were invited to the Schools for tea, over which many reminiscences were recalled. However, as may be imagined, the ringers were eager to return to the belfry, and the first touch of Superlative Surprise was rung on the bells by the following: Messrs. A. Barnes, P. Taylor, T. B. Worsley, A. F. Baily, J. Potter, T. Barlow, J. W. Washbrook and H. Openshaw. Many other methods were rung during the evening by various ringers.

The Newchurch band consists of Messrs. J. Leatherbarrow (leader), F. Reynolds, J. Yates, W. Hampson, J. Orms, G. Pounall, W. Gould and E. Leatherbarrow. There are two understudies, E. Thomason and H. Thomason.

On Sunday next a carol service is being held in the church, the special feature being the ringing of hymn tunes upon the bells.

'THE BIG BELL OF BOW.'

The famous tenor at Bow, Cheapside, is justly considered by musical experts, and by ringers generally, to be unexcelled for richness and purity of tone. It is also, perhaps, the most historical and valued bell in existence. The 'Big Bell at Bow' is versed in nursery rhyme, and well known in all parts of the world! It cannot, therefore, be wondered at, that it is the ambition of many men to ring it for a peal. Up to about a century and a half ago, the records show that it always required two and sometimes three ringers to achieve this, but in 1787, Philip Pilgrim was the first man to do so single-handed.

A lengthy search of all the records show that up to the present moment exactly 21 ringers have accomplished this performance, which number includes two well-known ringing parsons. We venture to think, however, that none can appreciate the distinctive honour of doing so more than F. E. Dawe, who called a peal of Stedman Cinques from it on Saturday, December 8th, within measurable distance of his 62nd birthday!

Many peals of Stedman Cinques have now been called from the tenor, but Mr. Dawe was the first to do this when he called the famous 'Bachelor's Peal' at St. Bride's, Fleet Street, City, on 7th February, 1891.

The earliest recorded mention of a bell at Bow Church is in 1334, when the city ordered that no one should wander about the streets 'after the hour of curfew rung out at the Church of our Lady at Bow.' The Great Fire of 1666 destroyed the old bells, and eight new bells were installed in 1669. In 1762 the peal was recast and two trebles added, while later they were made into the ring of twelve which we know to-day.

LONG PEAL ATTEMPT.

A peal of Cambridge Surprise Royal, 10,440 changes, will be attempted (D.V.) at St. Mary's, Walthamstow, by members of the Middlesex County Association and London Diocesan Guild, on Wednesday, December 26th, starting at 9.30 a.m. The composition is by the Rev. H. Lav James, and will be found in 'Bell News' for Dec. 31st, 1910, page 574.

BELLS IN THE COUNTRY.

AN APPRECIATION BY RONALD D. WHITTENBURY-KAYE.

To the Editor.

Dear Sir,—After weary months of waiting, we, in a little country parish, have at last got a peal of bells in our village church. Imagine a country district on a Sunday morning. No bells to call us to prayer in the House of God—no clock to tell the time. No sweet music during the week. How we existed without, one only knows—perhaps it was because we were living in a state of joy—knowing that eventually we could boast of a peal of bells which no place for many, many miles around could possess.

Dedication day arrived, the village was in a state of excitement, and thronged the church to the number of about 500. After the dedication prayers had been read, what did we hear—why, the most delicious sound of the sweetest music imaginable. Eight bells harmonising perfectly one with another. Ah! how great, we had waited for that moment for many years, just prior to the war, when a fund was opened for a new peal to consist of eight bells.

Just one word about the ringers. Few know how hard our ringers have worked for this great day. We have the finest band of ringers in the country (dubious ringers please note, and if in complete doubt visit Newchurch to learn the honest truth). Before long we shall be breaking every record imaginable. The ringers have started practices already, and although it is but two days since we have had the bells dedicated, the ringers have improved wonderfully.

We have only praise to give to Messrs. John Taylor and Co., of Loughborough, but that I think is all they require. If we are satisfied they must be, and they will look up to us now to show the rest of the ringing world how to ring bells, under the leadership of Mr. Joe Leatherbarrow.—Believe me, Sir, only an onlooker.

RONALD D. WHITTENBURY-KAYE.

A PEAL AT 86.

REMARKABLE FEAT BY AN OLD RINGER.

The ringer of the third bell in the peal at Kirkburton Parish Church on December 8th, a report of which will be found on another page, accomplished a feat which ringers in the Huddersfield district are proud to place on record.

Mr. Joseph Pickering was 86 years of age on August 1st last, and we cannot do otherwise than pay a tribute of admiration to the old gentleman for his pluck and endurance in standing under a bell for 3 hrs. and 10 minutes for a peal of Kent Treble Bob Major. The writer is pleased to say that when he went to Kirkburton last Sunday evening to congratulate Mr. Pickering on his performance he found him at his usual place ready to take part in the Sunday Service ringing, which he had done intermittently for the long period of 71 years at this church.

Wonderful feats of endurance by old ringers are often related in these columns, but this, it is believed, will constitute a record, as also in long service as a ringer at one church.

Mr. Pickering is the only surviving member of the 'All England Company of Change Ringers,' to which Mr. T. Stead, whose obituary was published last August, also belonged.

Mr. Pickering helped to win a good number of prizes in his day, and these include 12 first and 13 second prizes, of which he was justly proud. His first success in prize ringing was gained in a competition in 1862, when he assisted to capture the fifth prize.

Mr. Pickering acted as judge on many occasions at ringing competitions, and was appointed judge to the old United Counties Association. He has taken great interest in local affairs, and acted as chairman of the old Local Board, and for nine years as chairman of the Urban District Council, his connection with the two bodies extending over a period of 35 years. Mr. Pickering was for 45 years corresponding secretary for the Kirkburton district of the Manchester Unity of Oddfellows.

The ringer of the second bell in the peal at Kirkburton was the third generation of Armitages as service ringers with Mr. Pickering.

During the evening a dinner was served in the Masonic Hall, and a social evening followed, at which a pleasant ceremony was performed, a framed enlargement of his own photograph being presented to Mr. Pickering as a token of regard from ringers, choir and friends. It is hoped that Mr. Pickering will be spared many years in as good health as he is at the present to carry on his good work.

LIMPSFIELD, SURREY.—On Friday, Nov. 30th, at St. Andrew's Church, for evening service, a quarter-peal of Oxford Bob Minor (1,260 changes), in 42 mins.: T. Firmaker 1, H. Tidy 2, C. Clinch 3, P. Tidy 4, E. Tidy 5, L. Tidy (conductor) 6.

ACCIDENT AT OAKHAM BELFRY.**TENOR BELL BREAKS.**

An alarming accident occurred at Oakham Parish Church on Sunday week while the bells were being rung for 10 o'clock Eucharist.

The bells were being raised in peal when the tenor, which weighs about a ton and was being rung by Mr. W. E. Higgs, stopped suddenly, with a heavy thud. On going to see what had happened the ringers found that the bell had broken at the crown. The top was still attached to the headstock, but the rest of the bell had become wedged in the frame. Had it come through the floor, of course, the damage would have been much more serious.

LONDON COUNTY ASSOCIATION.**SOUTHERN DISTRICT MEETING ENDS A SUCCESSFUL YEAR.**

The Southern District of the above Association wound up a successful year, by a very pleasant meeting at St. Luke's, Chelsea, on Saturday. It was regretted that such short notice was given, and attendance under the circumstances was very good. Ringers attended from Beddington, Camberwell, Croydon, Ealing, Hammersmith, Islington, Kensington, Streatham, Uxbridge, and the local band. Two ladies were among the company: Mrs. R. F. Deal and Miss P. M. Moss, from Uxbridge. The methods rung during the afternoon and evening were Grandsire and Stedman Caters, Kent and Cambridge Royal, S'edman Triples, Superlative and Cambridge Major.

A very hearty vote of thanks was accorded to the Ven. Archdeacon Bevan for the use of bells, and to Mr. Hinds, and the local company, for having same in readiness.

The officers desire to thank the members for their loyal support during the year, and wish them a very happy Christmas, and in the coming year continued good progress.

WORCESTERSHIRE AND DISTRICTS ASSOCIATION.**ENJOYABLE MEETING OF SOUTHERN BRANCH.**

A successful and well-attended meeting of the Southern Branch was held at Elmley Castle, on December 15th, when, in addition to branch members, visitors were present from Worcester, Crowle, Hanley Castle and Upton-on-Seven. The bells, a peal of six on the heavy side, were utilised throughout the afternoon, the methods ranging from Grandsire Doubles and Plain Bob to Treble Bob and Cambridge Surprise. The Association's special form of service was held in the Parish Church, the Vicar (the Rev. Harcourt B. S. Fowler) officiating. Going somewhat off the beaten track, he gave an original address, indulging in what he termed 'plain speaking,' a course most acceptable to those present.

A second appeal on behalf of Rowley Regis Bell Restoration Fund realised 15s.

Through the generosity of the Vicar, tea was provided in a private room at the Queen's Head, and he subsequently presided at the business meeting.

Several new members having been elected, it was decided to hold the spring meeting at Overbury, subject to the approval of the Rev. W. Lea, and to attempt the quarterly peal on Elmley bells, with Mr. R. Harris as conductor.

The retiring branch officers (viz., Mr. J. D. Johnson, Master; Mr. J. Hemming, secretary and treasurer; Mr. J. Hall, Central Committee representative) were re-elected en bloc for the ensuing year.

Votes of thanks to the Vicar for the welcome he had given the branch, the use of the bells, officiating at the service, and his splendid address, his generosity in providing tea, and for presiding at the meeting; to the Rev. D. Fitzmaurice (Vicar of Hamton) for his presence; to the organist and Mr. W. Bennett for their services; and to the ladies who attended to the tea tables, were carried in an unusually hearty manner, those concerned replying briefly.

The Vicar then sprang a pleasant surprise on the members, in announcing that he had arranged a social evening, and had obtained the services of Mr. G. Crook, of Pershore, as pianist. He himself was the life and soul of the party, giving pieces from his extensive repertoire from 'Three Blue Bottles' and 'The Bassoon' to 'The Lads of the Old Brigade,' while his unlimited store of witty anecdotes kept the company in uncontrollable mirth and good-humour. Mr. Crook, in his inimitable manner, gave as recitations, 'The Major,' 'The Butcher's Boy,' and others.

A new composition dealing with local personnel and branch events, was now r(s)ung for the first time by Mr. G. Ashley, and caused much merriment, while Mr. F. J. Johnson contributed his usual quota with his 'Pack of Lies,' 'Quipps, the Quaker,' 'Bacon and Greens,' and 'Blue-Haired Boy.' Others to contribute to the evening's enjoyment were Messrs. J. Hall ('Old Iron'), and 'Hall's Variation of the Farmer's Boy'. G. J. Hemming ('Me and My Wife'), with Mr. F. Poole at the piano, and J. D. Johnson ('The Trumpeter'). The handbells were also requisitioned, and Treble Twelve being out of the question (owing to the unavoidable absence of Miss Johnson), Treble Ten and Grandsire Caters were rung. A novel feature was introduced by Messrs. G. J. Hemming and J. D. Johnson, who gave handbell selections with piano accompaniments by Mr. Crook. The singing of 'Auld Lang Syne' and the National Anthem, brought to a close what was unanimously voted by all present to be the most successful and enjoyable meeting ever held by the branch.

BATH & WELLS DIOCESAN ASSOCIATION.

A meeting was held at Yatton on Saturday, when about 14 towers were represented. The bells were raised in peal, and touches of Stedman Triples rung before the business meeting, which was held in the Church House. The Master (the Rev. C. C. Parker) presided, supported by the Rev. F. E. Peart (Vicar of Yatton).

At the outset the Master said the meeting should have been held at Congresbury, but owing to the illness of the Vicar (Canon Law), who had since died, it could not be held there, and he moved that a vote of sympathy with the relatives be sent. — This was carried by the members standing.

The ordinary business was then proceeded with, one honorary and 27 performing members were elected.

It was announced that the next meeting would be held at Frome.

Two resolutions with regard to alterations of rules—one from the Dunster branch and one from the Ilchester branch—were read. After some discussion it was decided to refer the matter to the committee, and after they had met, to call a special meeting to deal with the matter.—The Master then proposed a vote of thanks to the Rev. F. E. Peart for kindly allowing the association to come to Yatton at so short a notice, and for making the arrangements for service, and the use of the bells.—The Vicar briefly replied.

Tea was then partaken of, after which a short service was held in the Parish Church.

During the evening touches of Stedman and Grandsire Triples and Bob and Treble Bob Major were rung.

ELY DIOCESAN ASSOCIATION.**ARCHDEACONRY OF ELY.**

A district meeting was held at Ickleton on Saturday, Dec. 15th, when, in addition to the local band, ringers were present from Newmarket, Cambridge, Wendens Ambo, Elmdon, Castle Camps, Great Chesterford, and Stapleford. A short service, conducted by the Vicar (the Rev. P. H. Cooke) was held in the church, followed by tea and meeting at the Duke of Wellington. Two ringers from Wendens Ambo were elected as non-resident members, and the Rev. R. Routh, Rector of Castle Camps, was elected as a resident member.

The Rev. R. Routh, who has recently been appointed to the living of Castle Camps, cycled a distance of 12 miles to attend the meeting, and took part in several touches.

The Ickleton Society of Ringers generously defrayed half the cost of the tea, which was presided over by the Vicar. The methods rung during the day included Grandsire Doubles, Kent and Oxford Treble Bob on the lower bells, and Bob Major, Grandsire Triples, and Bob Minor on handbells. The Ickleton ringers also played a number of tunes, including carols, on the handbells.

THREE HOURS OF ROUNDS.

In connection with the peal at Westham, Sussex, recorded this week, it is interesting to note that the bells were first hung in the tower in 1789 by the Whitechapel firm, the tenor being about 8 cwt. In 1921 they were recast by Messrs. Gillett and Johnston, with additional metal, as a memorial to those killed in the war, their names being inscribed on the bells.

About 20 years ago the ringers of Christ Church, Eastbourne, attempted a peal of Bob Minor, which was lost in the sixth extent, and so far as is known, no other attempt has ever been made to ring a peal on the bells, while only for a short time has there ever been a change ringing party in this tower. The peal now rung was attempted at the invitation of the captain of the Westham band—the tenor man, and the Pevensey five, who can all ring Bob Minor, hope to attempt a peal of Minor shortly.

The time of the peal is not, however, the longest time these bells have been rung. About 40 years ago the newly-appointed Vicar told his ringers that in London peals were rung which lasted three hours. They did not believe him, but in order to test it, six men rang rounds for three hours. What about that for a record?

YORKSHIRE ASSOCIATION.

A very enjoyable and successful meeting of the Southern Division was held at Rawmarsh on Saturday, December 8th, when members attended from Sheffield (All Saints' and St. Maries'), Rotherham, Wath, Handsworth, Tickhill, Badsworth, Darfield, Wortley and Arksey.

Touches in various methods were brought round previous to a short service at 5 o'clock, conducted by the Rector of Rawmarsh (the Rev. F. Scovell), who based an interesting and inspiring sermon on 'Time, life and God.'—The Rev. C. Wooler, of Warsborough, himself a ringer, very kindly officiated at the organ.

A splendid tea, provided by the local company, was much appreciated, and was followed by the business meeting, which was presided over by the Rector, and supported by his curate (the Rev. L. H. Hecley).

On the proposal of Mr. F. Willey, vice-president of the association, all present stood in silence as a mark of sympathy with the victims of the Nunnery Pit disaster.

Votes of thanks to the Rector and churchwardens for the use of the bells, and to the local company for the tea, were heartily carried.

HANDSWORTH RINGERS AT DINNER.

ENJOYABLE GATHERING AT SHEFFIELD.

The third annual dinner and social of the St. Mary's company of ringers was held in the Parish School, Handsworth, Sheffield, on Saturday, December 15th. No dust was allowed to settle on the 'memorial peal' during the afternoon. In the evening a company of about 50 sat down to the festive board, which groaned under the weight of the good things placed thereon by Host and Hostess Turner, of the Old Crown. After full justice had been done to the homely viands, the Rector (the Rev. W. A. Baker), president of the Guild, took the chair, supported by Mr. P. Berley, churchwarden. Among the visitors were Mr. P. Johnson (Leeds), secretary of the Yorkshire Association, Mr. Brothwell, Mr. and Miss Fox (Treeton), Miss Butcher (Richmond), Miss Barker (Harworth) and Miss Sharp (Derby).

The President, in eloquent terms, submitted 'The King,' which was loyally honoured.

Next Mr. F. Cardwell proposed 'The Clergy,' and paid a glowing tribute to the Lord Bishop of Sheffield, who he described as 'one of the best,' and farther pointed out that the work of their own Rector had become part and parcel of their daily lives in Handsworth (applause).

Rising to respond, amid further applause, the President remarked that he was proud to say that the lives of his ringers in Handsworth were most certainly in harmony with the message which they as ringers sent out from the bells. Continuing, the speaker said that ringers in many other towers might take from them (the Handsworth ringers) an example. He added that the Bishop was overworked; he was wearing himself out in their service, and it was up to the clergy to do all in their power to see that the Bishop should not overwork himself. He (the speaker) expressed a hope that the clergy in the diocese would be more considerate in the claims they made upon him. The Bishop of Sheffield, continued the speaker, is a man who is very broadminded, and who overflows with humanity. Concerning himself, the Rector facetiously remarked that he would not stay in Handsworth till the parishioners wished to sing the 'Te Deum' over his grave. Concerning the vexed question, 'Is the church a failure?' he condemned the small vision of the clergy where the church did not succeed. Some of the guilt, however, lay at the door of the laity.

Mr. P. Johnson submitted 'The Guild,' and spoke most encouraging words of counsel and advice to this young organisation. No arts in the church called for such patience, self-denial and perseverance as the art and science of change ringing. They had in Mr. Watkinson a leader with great patience and mental ability, and they as a Guild should stand loyally by him, and give him every encouragement. He reminded them that, as a Guild, it was the speed of the slowest that made the pace. In conclusion, the speaker implored their not to ring for amusement alone, but to continue to cultivate the true spirit of patience and kind consideration one with another (applause).

The toast was honoured in a very appropriate manner. The Guild being holders of the Sheffield and District challenge cup for best Sunday attendance, this massive silver trophy was filled with the 'wine of bells,' and handed round as a 'loving cup,' from which all present drank to 'The Guild.' After which, the unassuming Mr. Watkinson, in a brief response, implored the Guild to take note of Mr. Johnson's words, and said if they, as a Guild, put the church 'first' and change-ringing 'second,' and aim at unity, with enthusiasm and patience, progress would be their reward! On behalf of the Guild, he expressed his gratitude and thanks to Mr. Johnson for honouring them with his presence that evening, and for the common-sense advice and good counsel contained in his remarks.

'Our Visitors' was ably submitted by Mr. W. H. Taylor, who commented upon the debt which the Guild owed to Mr. J. Brothwell who had rendered them great assistance when they were first struggling with the primary intricacy of the art.

Mr. Potter, of Barnsley, was down on the toast list to respond, but unfortunately the dinner clashed with a meeting of the Barnsley and District Society, of which Mr. Potter is secretary, and he was prevented by duty in connection with the meeting from being present. Mr. Brothwell was 'called,' but could not be prevailed upon to fill up the vacant 'place,' at the 'front.' Even though 'half-pulls' and 'whole-pulls' were applied, that gentleman would persist in 'dodging' 'behind!' Happily, one of the 'Press Gang,' a 'prentice reporter,' came to the front and filled up the 'place' in a kind of roundhand, shorthand, offhand staccato return of thanks for the kind hospitality shown to the visitors present, also for those who, by force of circumstances, were compelled to leave early.

The speeches were interspersed with musical items. The Rector's wife kindly acted as accompanist at the piano; Mr. H. Wilson, senr., contributed two songs, 'The great, great world,' and 'An old man's treasure'; Messrs. J. Taylor, F. Watkinson and W. H. Taylor gave an excellent rendering of 'Hark! the Sabbath bells,' upon handbells retained in hand. A very amusing address on babies was given by the Rector, who caused roars of laughter with his why's, don'ts and do's.

Miss Fox gave a selection on the mandoline, which was received with applause. A course of Grand sire Caters was rung in faultless style by Messrs. J. Taylor 1—2, H. Wilson 3—4, F. Watkinson 5—6, W.

Godden 7—8, H. Taylor 9—10. Misses E. Lakin, I. Sidgett, E. Sidgett and A. Dixon contributed songs; Mr. H. Buckler gave a monologue, 'I "had" a little motor-car,' which called for an encore. The Rector gave his humorous rendering of 'No. 1,' in which Mr. J. Taylor joined, with a few extempore skits at different members of the Guild, whose names were introduced. Duets were contributed by Misses J. and E. Sidgett, Messrs. J. E. and W. H. Taylor, which were highly appreciated. A course of Bob Major was tapped off by Messrs. Watkinson, Wilson, Godden and W. H. Taylor, and Mr. J. E. Taylor added to the harmony of the evening also with songs. Games, dancing, and 'Auld Lang Syne' brought to a close a most enjoyable gathering.

A WEST SOMERSET GATHERING.

PEAL OF EIGHT IN PROSPECT FOR WATCHET.

At the invitation of the Vicar of St. Decuman's, the Rev. W. Burgess, the Dunster Deanery Branch of the Bath and Wells Diocesan Association, held their quarterly meeting at Watchet last Saturday. The attendance was an excellent one, there being about sixty members and visitors present, including the Revs. W. Burgess, T. S. Dawson (chairman of the branch), W. G. McTaggart (Rector of Monk-silver), and the Rev. and Mrs. Billington (St. Audries), Messrs. J. H. Shepherd (Swindon), Coles Bros. (Taunton), J. R. Hensley (Williton), W. Hoyle, Ringing Master (Minehead), and G. Stacey, hon. secretary (Minehead). The towers represented were Stogumber, Selworthy, Porlock, St. Audries, Chipstable, Wootton Courtenay, Monksilver, Carhampton, Minehead and St. Decuman's.

The members, who were accorded a hearty welcome by Mr. Burgess, assembled in the church, where the afternoon's proceedings commenced with a selection of music, played by the Vicar, on the new organ, which effectively demonstrated the qualities of the instrument, and was much enjoyed. Subsequently the usual form of service was held, conducted by Mr. Dawson and the Vicar, who gave an inspiring address, in the course of which he remarked that some people had an idea that those who ring the bells do not take the same part as others, such as the organist and choristers, in the worship of God, but he held a different view, as he knew many ringers who were loyal church workers. He reminded those present that while as riggers they had such duties to perform as ringing in the New Year, and ringing for weddings, muffled peals, etc., their main duty was in calling people to worship the great God.

Mrs. Hulland presided at the organ during the service, and at its conclusion the company made their way to Snell's Cafe at Watchet, where they were entertained to tea by the Vicar.

The usual business meeting followed, Mr. Dawson presiding. Letters of apology were read from Preb. A. C. Harman (Old Cleeve), the Rev. G. L. Fitzmaurice (Brompton Ralph), and Mr. A. Tout. The business included the election of three ordinary members and one honorary member, and the selection of the next place of meeting. Minehead and Carhampton were proposed, and on a show of hands being taken, the decision was in favour of Carhampton, and it was left to the chairman and hon. secretary to fix a date.

The Chairman proposed a hearty vote of thanks to the Vicar of St. Decuman's for the cordial welcome which he had given the members, and for providing tea for such a large number. — The vote was heartily endorsed, with applause, and in acknowledgment Mr. Burgess said he was very pleased to have them there. He liked the ringers, and being a ringer himself he knew what it was to take his coat off. He intimated that the association would always get the same reception so long as he was at Watchet, and he hoped on their next visit that he would have eight bells in the tower instead of six (applause).

Votes of thanks were also accorded to Mrs. Hulland and to the ringers' wives, who had helped in the reception.—Mr. Stacey also proposed a vote of thanks to the visitors. It added to the pleasure of their meeting, he said, to be honoured by the presence of visitors such as were with them that day, including Mr. and Mrs. Billington and Mr. McTaggart.—Mr. Billington, in response, said they would like the association to hold a meeting at St. Audries as soon as convenient.

Mr. McTaggart moved a vote of thanks to the chairman, and this concluded the proceedings. Afterwards the ringers adjourned to the tower of St. Decuman's, and carried on briskly with the ringing until 8.30 p.m., the methods comprising Grand sire and Steadman Doubles, Kent and Oxford Treble Bob Minor, and Bob Minor.

HERTS COUNTY ASSOCIATION.

A meeting of the Eastern District was held at Hoddesdon on Saturday, when the bells were kept going during the afternoon and evening, and good practice in various methods was enjoyed. Members were present from Hertford, Ware, Widford, Hunston, Deptford, Bennington, Hatfield, Little Munden, and Edmonton, besides members of the Hoddesdon band.

A hearty vote of thanks was passed to the Vicar for kindly allowing the use of the bells, and to Mr. G. Paice, of Edmonton, for presiding at the business meeting.

RURAL RINGING ASSOCIATIONS.

The difficulties of organisation which have to be met by those responsible for running ringing associations which cover scattered country districts, with little or no means of railway communication, can be fully appreciated only by those who have had to do the work. From the campanological point of view, these areas are, and from the nature of the conditions must inevitably be, the most backward, so that the obstacles to progress are increased by a greater ratio than the difficulties to be met with in more compact and better favoured districts. The very isolation of the towers is a reason not only for lack of progress, but for actual retrogression, for bands, even if they have once mastered the rudiments of change ringing, soon slip back to the 'stony' stage—unless they possess exceptional talent and enthusiasm—if they do not receive inspiration and encouragement from contact with other ringers. Even where the art does get a precarious hold, the task of an association is an extraordinarily difficult one if it seeks, as it should do, to extend a helping hand to its branches. It is not always the question of distance which proves the handicap; it is the inaccessibility from the absence of railway communication which is the chief drawback.

At the moment the Salisbury Diocesan Guild is endeavouring to solve a problem of this kind. Covering as it does nearly the whole of the two counties of Wilts and Dorset, which are largely rural, and are intersected by few railways, the Guild has always had an uphill struggle, and change ringing in this big area would have been in a bad way had it not been for the patience and perseverance of a handful of stalwarts, who have kept the flag flying in a few centres and carried the good work into the towers around. The Wimborne District, which takes in a big piece of Dorset, has been considering whether the cause of ringing will not be better advanced by splitting the area and forming a new branch for the northern portion. The working of the existing wide district has been a formidable task, and the scheme for the division is to go ahead in order to reduce the unwieldy dimensions of the Branch. Whether the proposal will have the result of improving the position of affairs in North Dorset remains, however, to be seen, for it was pointed out that the area in which the new Branch is to be established will have only two places on a railway line, and no tower with a ringable peal of eight bells. This is not much of a prospect for a newly-formed Branch. It will need an organising genius and officers of more than average enthusiasm to make a success of a district of this kind. We only hope they will be forthcoming.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

THE FIRST PEAL OF KENT MAXIMUS.

INTERESTING FIND AMONG LUMBER.

An unusual record of a peal, the first peal of Kent Treble Bob Maximus ever rung, has come to light in Birmingham in a curious way. The peal is recorded on a tablet in the belfry, but the following account of it was evidently printed for private circulation. The copy, which has come into the hands of Mr. Tom Russam, is mounted on wood, and is brown with age.

A SUPERLATIVE ACHIEVEMENT IN THE ART OF RINGING.
Birmingham, April 17th, 1820.

The Society of St. Martin's Youths having for some time contemplated a Peal of Changes on 12 Bells, which should exceed in number any peal ever rung in the United Kingdom, appointed Monday, the 17th inst., for the attempt; and although there were very high odds (say 100 to 1) against any band ringing a 'plain' peal at the first onset, yet by an anxious attention to, and a superior possession of, this great science, they succeeded in completing the Herculean task in 5 hours and 8 minutes. The peal comprised 7,200 changes of new Treble Bob Maximus; and what eminently combines to enrich this performance is that it was rung at the first attempt, was the first peal of new Treble Bob Maximus ever performed, and the greatest number of changes ever rung on 12 bells.

Another generation may rise up to eclipse this, but the present will in all probability suffer it to remain a 'standing dish untouched.'

Note.—Mr. James Dovy, of Stourbridge, and many other Auditors, expressed their high approbation of the above performance.

The first considerable peal of Treble Bob Maximus, and which created much emulation in the Exercise, was performed at Norwich, by St. Peter's Company, in the year 1778, comprising 6,240 changes. The next by the College Youths, London, in the year 1784, being 7,008 changes; 18 years afterwards, viz., in 1802, the Cumberland Youths rung two leads more than the preceding peal, making theirs 7,104 changes; 18 years subsequently to this, viz., in 1820, the St. Martin's Youths, Birmingham, exceeded this latter peal by two leads, making their peal 7,200 changes.

The record which has now come to light thus gives the history of record peals of Treble Twelve and is, if only in that respect, unique among old documents. The manner in which it came into the hands of Mr. Russam is also rather remarkable. The mother of a friend, in turning out a collection of lumber that had accumulated through long residence in one house, found this ancient 'peal board' among the rubbish, and thence it passed through the hands of the friend to Mr. Russam. Enquiry elicited the fact that the original finder was the granddaughter of Alex Sanders, the ringer of the fifth in the peal. Alex Sanders, according to the peal book of the St. Martin's Youths, apparently rang his first peal in 1809, and was evidently a ringer of some merit, for he was one of the band that went from Birmingham to Liverpool, and won the cup that has since disappeared. But that is another story.

Naturally the old record is of great interest to St. Martin's Guild, into whose possession, it is hoped, it may eventually come.

SOMETHING NEW IN STEDMAN COMPOSITION

The two following peals, by Mr. Joseph W. Parker, are, so far as is known, new in the plan of composition, and should be of interest to conductors.

STEDMAN CATERS.

The following are two peals of Stedman Caters by the late George Newson, which possess the quality of having only the 5th and 6th in 2nd's and behind the ninth. The blocks b. r. b. will be well understood by conductors.

5256	5222
231456	123456 (last of quick six).
352461 2, 4, 6, 8, 10, 11, 12, 16.	461253 2, 4, 6, 10, 12, 13, 16.

164352 b. r. b.	351462 b. r. b.
231456 2, 4, 6, 7, 10, 13.	231456 3, 5s, 6, 8.

The first (reduced to 5040 by omission of three consecutive bobs at 16) was the peal rung at Bristol on Oct. 20th and the second (reduced to 5,006 in a similar way) was rung at Trowbridge on Oct. 27th both conducted by W. A. Cave.

It is interesting to note that Henry Johnson had peals on this plan and here is one, a 5,256, composed in 1860:—
231456

463152 2, 3, 6, 10, 13, 16.
463251 a. r. a.
251364 3, 5, 7, 10, 14.
251463 a. r. a.
231456 2, 4, 7, 13, 15, 16.

This can be rung as a 5,265 by calling the last course 4, 10, 12, 14, 16, or it can of course, be reduced by omitting three consecutive calls at 16.

HEREFORD.—On Sunday, December 16th, for evening service, at All Saints' Church, 1,344 changes of Grandsire Triples, in 50 mins.: E. Trehearne 1, A. Gwynne 2, W. H. Williams (conductor) 3, G. Giblin 4, W. H. Symonds 5, C. Sparkes 6, H. E. Hurcombe 7, J. Husbands 8.

SALISBURY DIOCESAN GUILD. NEW BRANCH FOR NORTH DORSET.

There was a large gathering of members of the Wimborne Branch of the Salisbury Diocesan Guild at Wimborne on the occasion of the annual district meeting. The visitors enjoyed ringing during the afternoon on the bells at the Minster, and touches of Grandsire and Stedman Caters and Double Norwich were rung. The customary Guild service was held, at which the Vicar (the Rev. A. L. Keith) officiated, and gave an address.

An adjournment was next made to the Church House, where, following tea, the annual business was transacted, under the presidency of the Rev. H. L. Phillips (Rector of Poole).

The Vicar of Wimborne cordially welcomed the visitors, observing they might rest assured that they could always depend on a very hearty welcome whenever they came to Wimborne to ring, because he for one, as well as a great many others, had the highest appreciation of the art of bell ringing and the admirable service which the bell ringers did to the church (applause).

It was announced with regret that Major Hughes D'Aeth, who had been Master of the Guild, had left the neighbourhood, having gone to Worthing.

DEPARTURE OF THE GUILD MASTER.

The Hon. Secretary (the Rev. C. A. Phillips, Bournemouth), in his annual report, observed that the first words of it should express their special share in the common sorrow of the Guild at the departure of the Master from the neighbourhood. Major D'Aeth resided close to the centre of that unwieldy diocese, and in a wonderful way attended most of the branch meetings. He was a Dorset man, the practices he and his brother started were mainly in that branch, and he had done more than any other man for change ringing in Dorset, especially among the beginners in the Exercise. They could best appreciate his long work among the bells of Dorset by spreading it more widely and carrying it on more perseveringly and faithfully in the spirit of his message to them that day. The programme of meetings had been only partially carried out for various reasons. Meetings were held at Corfe Mullen, Iwerne, and Swanage, and though not large were representative and keen, and good work was done. Practices were held at Swanage, Poole, Wareham, and Henstridge. At the former good progress was made with Treble Bob and Double Norwich. A peculiarly happy, keen, and united competition seemed to be going on between Poole and Swanage for the honour of carrying on the most advanced ringing in the branch and county. Good work was also being done at Corfe, assisted by Wimborne, and Child Okeford, helped by Shroton. The question of the sub-division of the branch referred to North Dorset from the last annual meeting was thoroughly discussed at Iwerne Minster and unanimously approved. It would be inaugurated and followed by the good wishes, and also the continued good help wherever possible or desired of the members of the south.

The report was adopted, on the proposition of the Rev. F. Ll. Edwards (Kington Magna), secretary of the Diocesan Guild, seconded by the Rev. R. H. Gundry (Shroton).

Mr. Phillips also, as treasurer, gave particulars of the financial statement, which disclosed a small balance in hand. There were 204 ringing members.

The balance sheet also was accepted, on the proposition of the Rev. A. D. H. Allan (Wimborne), seconded by Mr. M. Stewart (Ferndown).

PROPOSED SUB-DIVISION OF THE BRANCH.

Some discussion took place regarding the proposed sub-division of the branch, which the Secretary explained would affect all the towers north of Blandford, or very nearly half the members.

A member expressed the opinion that the division would mean the ringing of the death-knell of the North Dorset branch, as he claimed there were not sufficient members to carry on the good work, and he thought it would be better to wait, perhaps, until they had arrived at more advanced methods.

Mr. Edwards emphasised the difficulties of transport in North Dorset, apart from Sturminster Newton and Shillingstone there not being a tower on the line. At present, too, no 8-bell towers were usable, although he hoped an effort would be made to rehang the Blandford bells, which meant that the new branch would be confined to 5 and 6 bell towers.

Mr. Gundry held that the difficulties created by separation were not insurmountable. At present the absolutely unwieldiness of the size of the branch, with the various companies of ringers scattered at such wide-apart places, rendered the working of the branch very difficult.

Mr. Martin Stewart endorsed Mr. Gundry's opinion, and claimed that in North Dorset there was a great field for enterprise, and 6-bell towers offered wonderful possibilities.

The Secretary said that there were several keen 6-bell towers on the border of the division, which should add greatly to the strength of the branch.—Eventually the meeting confirmed, on the proposition of Mr. Gundry, the formation of the North Dorset branch.

All the officers for the Wimborne branch were re-elected on the initiative of Mr. Edwards, with the addition of Mr. F. W. Townsend, of Poole, as Ringing Master, and the Rector of Poole acknowledged, as president, the compliment.

THE GUILD WAR MEMORIAL.

The Rev. F. Ll. Edwards drew attention to the proposed Diocesan Bellsingers' War Memorial, explaining that under the present scheme for the Memorial Chapel in the Cathedral it was intended to restore one of the old side chapels. There was already in existence stone screen work, and it was suggested that the blank spaces should be filled in with oak panelling, and the Guild should associate themselves definitely with the memorial by providing the panelling for either both or one side of the screen, which could be decorated with suitable designs and any inscription they liked to submit. There was no particular difficulty in regard to the expense. A desire had been expressed that there should be a little more detailed knowledge of what the work would be, and he wrote to the Dean of Salisbury accordingly, and suggested the easiest way would be if the sub-committee appointed by the Guild at the last annual meeting to deal with the matter were to consult with the Dean on the subject at Salisbury regarding the designs, etc. — The Hon. Secretary mentioned that members at some branches had intimated they would have preferred putting in an extra bell or two somewhere, as had been done in other dioceses, but it was felt that such a scheme was too big to undertake. All the branches, excepting Bridport, had given approval of the proposed scheme, and Wimborne now signified its assent, on the proposition of Mr. Edwards, seconded by Mr. K. Gundry.

The towers of Wimborne St. Giles, St. John's, Bournemouth, and Wareham, were selected as meeting-places for the coming year.

OFFICE FOR USE IN BELFRIES.

Mr. Edwards mentioned that recently there had been printed a brief office for use in belfries, not only at Guild meetings, but before ringing. It had been drawn up by the committee appointed by the Guild, with the assistance of the Dean of Salisbury. The idea was that the incumbent or one of the clergy should at such times as arranged by him and the ringers go in the belfry and conduct this office before the ringing commenced, or it could be done by one of the ringers if he or she was willing to do so.

LOCAL RINGERS' REMARKABLE RECORDS.

The Hon. Secretary observed that a word of thanks and congratulation was due to three ringers of that neighbourhood, who, that Christmas, he believed, would each have completed very nearly, if not quite, 50 years' service in the belfry. They were Messrs. A. J. Osman and George Hart (Wimborne) and Fredk. Holloway (Corfe Mullen). Although the latter was unable to do very little ringing now, he (the secretary) hoped that he would be able to continue to ring for some years longer (applause).

Parties afterwards visited the towers of the Minster and Corfe Mullen Church.

DEVIZES BRANCH ANNUAL MEETING.

The annual meeting of the Devizes Branch was held at Trowbridge on Saturday, December 15th, when a good company was present. The Guild service was held in the church, conducted by the new Rector (the Rev. Canon A. S. Weatherhead). Tea followed, to which about 50 sat down, including the Rev. Canon Mogg, of Bishop's Cannings, and the Rev. A. H. T. Clarke, of Devizes, both hon. members of the Guild, and Mr. C. H. Jennings, hon. secretary of the Dorchester branch. The following towers were represented: Bradford-on-Avon, Warminster, Westbury, Bratton, Molt, North Bradley, Keevil, Rowde, Trowbridge, Melksham, Devizes, St. John's and St. Mary's, and Bishop's Cannings, also ringing visitors from Swindon, Bristol, Bath and Clippenham.

The business meeting followed, Mr. C. D. Heginbotham being in the chair.

Mr. Heginbotham reported on the year's work, which showed that a steady increase had been made in the membership, both among the ringing and hon. members, and also that more members were learning the art of change ringing. Two towers were receiving instruction this winter. Mr. Heginbotham said he had visited 27 of the towers in the branch during the year, and had found them in very good order. Four towers were silent owing to repairs being necessary. The first peal of ten bells in the branch was opened on Easter Monday at Trowbridge, when nearly 300 ringers were present. Twelve peals had been rung during the year, thanks to the untiring efforts of Mr. S. J. Hector (Branch Ringing Master), Mr. S. Hillier and Mr. J. T. Dyke. Three towers had rejoined the branch—Steeple Ashton, North Bradley and Market Lavington.

The statement of accounts to date was read. Although the expenses had been heavy there was a small balance on the right side.

Mr. Heginbotham and Mr. F. Green were re-elected as chairman and secretary, respectively, with many thanks for their past services.

Thirteen new ringing members were elected to the branch.

The meetings decided on for the next three months were at Bradford-on-Avon, in January; Market Lavington, in February; and the quarterly meeting at Devizes, in March.

After the meeting some double-handed work on handbells was done. The tower bells were soon going again, and some good touches of Caters, Double Norwich, Stedman and Grandsire Triples were rung during the afternoon and evening.

THE FIRST PEAL OF DOUBLE NORWICH ROYAL.
A FURTHER DISCOVERY.

By G. P. BURTON.

From some files of old Norwich newspapers, which have recently come into my possession, further information is forthcoming as to the first peal of Double Norwich Royal, which it will be recollected, was the subject of a special article in the issue of your valuable paper of 10th August last.

Turning to the 'Norfolk Chronicle' or the 'Norwich Gazette' (which latter is its sub-title), there is found in the number for Saturday, April 22nd, 1769, a much fuller, and fortunately, more explicit, account of the peal, than appeared contemporaneously in the columns of the other Norwich paper—'The Norwich Mercury.' And what is

St. Peter Mancroft Church, as it appeared at the time the first peal of Double Norwich Royal was rung. This picture is reproduced from an old print kindly let by Mr. G. P. Burton.

of greatest interest, the names of the ringers are recorded in this account now brought to light, thus filling that gap in our previous knowledge of the peal, and incidentally, furnishing the last link in confirmation of the performance, if that were needed. The following is the extract in question—

'On Monday, April 17th, 1769, was rung at St. Peter's Mancroft in this city, a compleat 5040 of that most ingenious peal called the Court Bob. It was performed in three hours and 29 minutes, without a bell being out of course; and from the harmony and regularity of its changes, filled every lover of the art of ringing with the most pleasing wonder and astonishment. This incomparable peal was invented in the year 1751 by Mr. Wm. Porter, one of the ringers belonging to St. Peter's company, and tho' from that time it has been annually practiced, yet never was perfectly gone through with, without bells being out of course, till now; so that it may be affirmed, that this is the first compleat 5040 that ever was rung in the known world—Performed by

John Chamberlin ... Treble	Charles Jarvis 6

Published by desire of the Churchwardens, W. Creasey and C. Copping.'

Notice the peculiar use of the word 'annually,' here employed in the present-day sense of continually; and the expression 'the first compleat 5040,' where obviously the words 'in that method' are intended to be understood.

Of the ringers, who took part in the peal, it may be worth noticing that James Watling called the 5170 of Grandsire Cinques rung on Nov. 23rd, 1775—the first peal on the present ring of twelve; while James Watling, Simon Watling, John Peak, John Havers, John Dixon, John Dye, and Thos. Barton took part in the 6240 of Oxford T.B. Maximus, which followed on March 16th, 1778, 'which excelled every attempt hitherto known on 12 bells,' as the peal board has it. But all these worthies had apparently vanished from the scene when the peal of Norwich C.B. Maximus was rung in 1817, at any rate their names henceforth disappear.

May I add that on consulting the files of 'The Norwich Mercury'

(Saturday, 22nd April, 1769) I find that the account of the peal of Double Norwich Royal is not verbatim as given in your article. The paragraph actually reads:—

'Monday afternoon 5040 Changes of Porters Peal of Court upon ten bells, was rung at St. Peter's of Mancroft by the Ringers of that Parish; which they completed in three hours and twenty-nine minutes.'

These old newspapers were weekly publications of 4 pages, and the scraps of ringing news appear in a miscellaneous collection of local items. Here are a few tit-bits from the same column, which throw a side-light on the doings of those days:—

'Yesterday nine convicts under sentence of transportation were sent from the castle for London, in order to be forwarded to the plantations.'

Interior of St. Peter Mancroft Belfry in the 18th century. From a water colour sketch by Nisnam.

'Lately died at Bury, Mrs. Wright—a widow lady of an exemplary character.'

'A lady of great consequence lost the sum of 5000 L a few nights ago at Hazard.'

'On Monday last a woman at Acle was committed to Bridewell, there to be kept to hard labour for 14 days, and to be once publicly whipt, for reeling false and short yarn.'

As regards Wm. Porter, the inventor of the method of Double Norwich Royal, it may be of interest to mention that the 'trunk'—a box of wood covered with skin or leather—made by him and bearing his initials to which reference is made in Snowdon's 'Double Norwich,' is still in existence here at Norwich.

A HAPPY & PROSPEROUS NEW YEAR.

Thirty-five years ago on the last day of December, the Oxford Diocesan Guild put up a record peal of Stedman Caters, which stood until 1909. Twice before in the year 1888 the Stedman Caters record had been broken, and then the Oxford Guild rang a 15,041 on the famous bells of Appleton. The time was 9 hours 16 minutes.

Four years later the Oxford Guild captured another record, 12,098 Double Norwich Major, rung in 7 hours 10 minutes at Maidenhead on December 31st, 1892.

January 1st will be the 150th anniversary of James Barham's one hundredth peal. To have made such a score as that in those far-off days was a marvellous performance, and the peal was noteworthy from the fact that the combined age of the band totalled 582 years. Barham lived twenty-five years after that, for he died at the age of 93 on January 4th, 1818.

One of the first occasions on which Holt's Original was called by a ringer taking part in the peal was at Saffron Walden on January 1st, 1754.

A peal of Norwich Court was rung at Soham on the first day of 1795.

The first peal of Halifax Treble Bob was rung on January 1st, 1866, at Huddersfield. It was composed by William Sottenstall.

At Wrentham, on January 3rd, 1824, was rung '59 peals of Grand-sire and Old Doubles, which was performed in a most masterly manner in four hours.' This made up 7,080 changes, and, all being well, a centenary peal of Minor will be attempted at Wrentham on Thursday.

A correspondent to the 'Western Gazette' inquires where are Houghton bell ropes. He says: 'Over four years have elapsed since sufficient money was raised to buy bell ropes for the church. Perhaps one of your readers could tell me where the money is. Is it deposited in a bank, invested in a company, or used for other purposes? Surely it is time we had merry peals at Christmastide.'

The inaugural meeting of the Peterborough Diocesan Guild will be held at Wellingborough on January 5th.

CHRISTMAS BELLS.

O Christmas bells, O silver bells,
Chimes pealing glory unto God on high,
Bear sweet, as ever your music swells
And sweeps in beauty down the midnight sky,
A message of good-will to men,
Peace upon earth
For the Christ's birth,
Bending all hearts to love His law again!

O joyous ringing in the night,
O glad carillons of the holy dawn,
Be sign that charity shine white,
And all the veils of darkness be withdrawn,
So loveliness of God may pour
From a Manger-place,
To nil with grace
Hearts worshipping within a stable door!

TEN-BELL TOWERS.

AYLSHAM, NORFOLK.

By J. R. JERRAM.

In the will of John Betts the elder, of Aylsham, shoemaker, dated 1529, is the following bequest:

"Item J will ther be bought a tribill bell to the V bellys in the steple of Ailish'm by the advyse of Ed. With of Ailish'm and John With his sonne of and for the s'm of Xli. And if it may be bought better chepe J bequethe to the seid Edmu'de With and John for ther labor iche of them vis. viij*d*. And the rest if any be to be bestowed about the frame of the same bell to hang yn."

This bequest, however, seems not to have taken effect, for it appears from the Inventory of the sixth year of Edward VIth that there were then only five bells in the steple.

These two founders appear to have been employed when the peal was augmented to eight in 1700. They were paid £23 17s. 6d. in cash and £19 13s. 6d. in bell metal for casting four new bells in that year.

In 1726, John Stephens, of Norwich, recast the sixth (now the eighth) bell, at a cost of £17 3s. 3d.

In 1741 the present ninth bell (then 7th) was recast on the spot by Thomas Newman, of Norwich, at a cost of £18, besides various items for bricks for the furnace, clay, carting materials, building furnace, stocks and ironwork, ale for the men, and cleaning up the church after the work was done, amounting altogether to £31 1s. 0d.

The peal seems to have been augmented to ten bells in 1775 by Thomas Osborn, in conjunction with Edward

AYLSHAM CHURCH, NORFOLK.

A tablet in the belfry is inscribed: "John Curtis and Thomas Coulson Churchwardens when this Ring was made into eight, 1700."

Previous to this we find in the accounts for 1647-8, "Pd for ye Bricke carrying wch was used about the new running ye great bell, 4s. 0d.," and in the following year occurs: "Paid John Long for his hempe stryng at the greate bell shooting, 10s. 0d.;" and, further, "Pd. for the vse of the barne and making it good againe, £1 0s. 0d."

Among the documents in 1653-4 are two bonds of John Draper and John Brend in £50 each for "well shootinge the great bell." From these items it appears that the tenor was recast on the spot at that time.

In 1677-8 Samuel Gilpin, of Norwich, was paid £35 for some recasting, and in 1683 he was paid £1 18s. 10d. for recasting the saint's-bell, and for the third bell £14 14s. 6d. In 1685 he recast the fifth bell. This work he appears to have carried out in conjunction with Edward Tooke, with whom he worked.

Arnold, of St. Neots, before T. Osborn established the foundry at Downham on his own account. They appear to have recast the two existing trebles and added two above them, and were paid £43 1s. 10d. for the same in two instalments.

The present seventh was recast by G. Mears in 1860 and weighs 9 cwt. The former bell was cast by Edward Tooke in 1677.

The inscriptions on the bells are as follows (all in Roman capitals):

- Treble.* George Hunt Holley and John Soame, C.W. Osborn & Arnold fecit, 1775.
- Second.* John Soame and George Hunt Holley, C.W. Osborn & Arnold fecit, 1775.

- Fourth.* John Soame and George Hunt Holley. Osborn & Arnold fecit, 1775.
- Fifth.* 1700 (by Samuel Gilpin and Edwd. Tooke).

MIDLAND COUNTIES ASSOCIATION.

A most enjoyable meeting of the Loughborough District was held at Stanford-on-Soar, where, on the beautiful peal of eight some well-struck touches of Grandsire Triples, Stedman and Bob Major were brought round during the afternoon. The members then proceeded to the bell foundry tower, where, by kind permission of Messrs. Taylor and Co., the little peal of ten (6½ cwt. tenor) were set going to Stedman Caters, Grandsire Caters and Treble Bob Major. Some thirty or more members were present from Ugglescote, Shepshed, Neatherseal, Long Eaton, Leicester and Loughborough.

Mr. J. Saddington was again elected district secretary for the ensuing year; Messrs. J. H. Dear and H. Whittle were elected on the committee.

ANOTHER SURPRISE METHOD RUNG.

OSWALDWISTLE RINGERS' SUCCESS.

One of the Surprise methods by Mr. Arthur Craven, of which a half lead was published in our issue of November 9th, has been rung by the enterprising company at Oswaldtwistle, Lancs, and they have named it 'Palatino.' The peal was rung at the first attempt, and it is noteworthy that the band included two ladies.

The following is the method and the composition of the peal:—

'EDINBURGH SURPRISE.'

To the Editor.

Dear Sir,—While congratulating the Leiston men on their achievement in ringing a peal of the above, I must object to them calling it a new method. It is rather an arrangement, consisting of half of each of two different Double Surprise methods, viz., Bristol and Peterborough Surprise, spliced together at the quarter sections by the use of adjoining places in 1—2. I think this is a very unfortunate thing to do with two such perfect methods. Bristol Surprise has stood 25 years as the only Surprise method which contains none of these adjoining places, and I append two more Surprise methods to share this distinction with Bristol.

FROM CALL CHANGES TO METHOD RINGING.

At All Saints' Parish Church, Broseley, Shropshire, on Tuesday evening, December 18th, a quarter-peal of Grandsire Doubles (1,260 changes) was rung, consisting of ten and a half 120's, each called differently, in 45 minutes: J. Smith 1, W. J. Garbett 2, A. J. Garbett 3, W. Saunders (conductor) 4, A. H. Meredith 5, J. Hartshorne 6. First quarter-peal by all except the conductor. First quarter-peal on the bells. Also three 120's, with C. E. Smith ringing the 4th.

Until April of this year only call changes had ever been rung by local men at Broseley. The Rector (the Rev. W. Warner) joined the Hereford Guild as an honorary member, and all his local ringers as probationers, at a quarterly meeting of the Bridgnorth district of the Hereford Guild, held at Broseley in April. All who have heard the ringing since change ringing started at Broseley, are highly pleased with the improved sound of the bells. A lot of the instructive work has also been done on handbells.

A VETERAN'S WEDDING ANNIVERSARY.

Mr. William Shepherd, 78 years of age, for many years a well-known ringer at Emmanuel Church, Streatham Common, has just celebrated the fifty-sixth anniversary of his wedding by taking part in a quarter-peal of Grandsire Triples (1,260 changes), on Monday, Dec. 17th: W. Shepherd 1, Miss E. E. Chapman 2, Miss F. E. Orr 3, T. Welbourne 4, C. W. R. Grimwood 5, J. Lee 6, J. W. Chapman (conductor) 7, W. J. Anscombe 8.

BEDFORDSHIRE ASSOCIATION. SUGGESTED CHANGE OF TITLE.

The annual meeting of the Luton district was held at Dunstable on Saturday, December 15th, when the following towers were represented: Aspley Guise, Barton-le-Cley, Luton, Leighton Buzzard, Linstead, Woburn, and Houghton Regis, together with a full muster of the local band. Among the visitors was Mr. E. G. Benson, of the Cambridge University Guild. The bells were utilised from 3 to 4.50 p.m., when a short service was held, conducted by the Rector (Canon W. W. C. Baker, president of the Bedfordshire Association) who gave a short address, which was highly appreciated by the members present.

The tea and business meeting was held at the C.E.M.S. Club, the arrangements having been in the capable hands of Mr. F. Hardy, the club steward, who is also verger of the church. The tea was generously provided by Canon Baker.

The annual meeting followed, with the president in the chair. On the proposition of the Chairman, Mr. A. King, of Luton, was elected president of the branch for the ensuing year; Canon Baker remarking that he thought the office should go round.—Mr. Cyril Herbert, of Woburn, was elected vice-president, to fill the vacancy caused by the elevation of Mr. A. King.

The hon. secretary was re-elected, on the proposition of Mr. J. Marks, and Messrs. J. Nicholls and H. H. Smith were elected on the Central Committee.

An interesting discussion was raised by Canon Baker, who brought the matter forward for the consideration of the members, a suggestion that the time had come when the name of the association should be changed to 'The Bedfordshire Association of Church Bell Ringers,' and to rescind the rule stating that a member must be able to ring 120 changes before being eligible for membership. All ringers in the county, whether method ringers or not, would then be eligible for membership.

Several members expressed their views on the subject, and all present were asked to give the matter due thought and consideration before the annual general meeting.

The usual votes of thanks were accorded, and the tower again visited until 8 p.m. Some excellent striking in various methods was heard during the day, the methods rung including Stedman Triples, Bob Major, Double Norwich, Superlative, Cambridge, and Bristol Surprise Major. Members of the local band took part in each of the Surprise methods rung.

SHREWSBURY'S OLDEST RINGER.

On Sunday, December 9th, at St. Chad's Church, Shrewsbury, 381 Stedman Caters: G. Byolin (conductor) 1, J. Griffiths 2, W. B. Kynaston 3, J. E. Lilley 4, R. Pole 5, A. Short 6, G. Jones 7, D. J. Boucher 8, C. R. Lilley 9, J. Evans 10. Also 180 Bob Royal. Rung on Mr. G. Byolin's 70th birthday. On Wednesday, December 12th, a peal of Double Norwich was attempted also in honour of the event, but was not successful. The members taking part were F. Lycett 1, J. Griffiths 2, G. E. Lilley 3, W. B. Kynaston 4, G. Jones 5, D. J. Boucher 6, E. Dale 7, C. R. Lilley 8. Mr. Byolin is the oldest ringer in Shrewsbury, and revived change ringing there 30 years ago. Believing it is never too late to learn, Mr. Byolin took up Double Norwich ringing about six months ago.

1. Can any of your readers give me the correct name for this method, and also tell me if 16 six scores is the greatest possible number to be obtained in it?

2. In the preface to 'Legitimate Methods' the number of six-scores obtainable in Carter's is given as 10. Having only been able to obtain 5 by means of the single given there, by calling single once in each part, I should like to know how others are obtained.

3. Can anyone give me the name of any work on change ringing in which the calling of six-scores in Original is explained?

DOUBLES RINGER.

PRIZE RINGING 80 YEARS AGO.

AT MOTTRAM-IN-LONGDENDALE, CHESHIRE.

BROTHER RINGERS,—

We beg leave to inform you that there will be a Prize Ringing, AT MOTTRAM, ON TUESDAY, JAN. 2nd, 1844,

For the following prizes, viz.,

For the best true Peal of Kent, or old Treble Bob Major, consisting of 2,528 changes; the first prize of £8.

For the second best Peal of Kent, or old Treble Bob Major, consisting of 2,528 changes; the second prize of £4.

For the third best Peal of Kent, or old Treble Bob Major, consisting of 2,528 changes; the remaining prize of £2.

Each company of ringers will be allowed two courses for practice, on Monday, January 1st, 1844, and no practice peal will be allowed previous to that day, nor after 9 o'clock in the evening.

Each company must provide their own ceusors. All companies are requested to repair to the house of Mr. Miles Goddard, the Hare and Hounds Inn, where some of the ringers will be in attendance to direct them to their respective quarters.

We are, Gentlemen,

Yours most Respectfully,

THE COMMITTEE OF MANAGEMENT.
COMMITTEE.

James Shaw, Chairman.	William Shaw, Treasurer.
Simeon Sandiford.	John Cooper.
Thomas Shaw.	Charles Shaw.
William Harrison.	Robert Shaw.

THE PEAL (2,528 CHANGES).

The above is a copy of an old circular which was unearthed by Mr. A. Sidebottom, and will be read with much interest in these days when prize ringing for money is a practice long since condemned and abandoned.

The prize ringing contests in the Glosopdale and Longdenale district in years gone by attracted the best performers from Lancashire, Yorkshire, Cheshire and Derbyshire.
