### STOCKTAKING.

It is a customary task with the first issue of a journal in a new year to do a little stocktaking, and to hazard a guess as to the future. While the former may be of use, if it reveals our weaknesses, and may give us satisfaction, if it shows us any gains, the latter is generally a rather profitless speculation, albeit one which is difficult to resist. Looking back over the year which has just closed, we think it may safely be said that, on the whole, 1924 was a period of general progress in the ringing Exercise. In the practice of our art there were features which mark a general forward tendency. There has been an 'expansion,' if one may use the term of twelve-bell ringing, if not in the actual number of peals rung, at any rate, in the number of ringers who have been able to participate in twelve-bell ringing, which in the past used to be reserved for a much narrower circle than is now the case. Opportunities are still somewhat limited, but we believe an analysis of the twelve-bell peals rung this year would show that more individuals and more towers were included than in almost any past year. There has not, perhaps, been much expansion on other numbers, but a useful standard has been maintained, with a band at Willesden breaking new ground with plain Major methods—an example which many more might follow with advantage.

For the most part the meetings of the various associations have demonstrated a sustained interest on the part of members, but there have been instances in which a slacking off of enthusiasm has called forth comment. The apparent loss of interest by ringers in the doings of their own association is, of course, a matter for regret; but so long as those in office realise the position and take steps to revive the flagging zeal of the members, there is no cause for despair. At the same time facts should be looked in the face, and, as this is a time for good resolutions, it is an opportunity for special effort to pull things together. Without doubt there is room for increasing the attractiveness of the average meeting, and unless the arrangements are adequate there is always the risk that they may be a disappointment to many, from the sheer lack of opportunity for ringing which a large attendance may impose.

There is still much in front of our associations to be done. Although they may be counted successful from the point of numbers, they have not accomplished their mission by just adding to their membership, and we are not sure that they are all sufficiently well organised to carry on efficiently the work which should be theirs. There is spade work to be done everywhere, both in re-

gard to ringers and bells, and associations might do more than is often done at present in getting dilapidated rings restored and preventing others from reaching the last stages of deterioration. It ought to be the business of each association to see that all the rings of bells in its area are maintained in good ringing order, but it must be admitted that the efforts made in this direction are not always as definite and determined as they might be. It is in this direction, particularly, that we should like to see more enthusiasm displayed in the coming year. Where the policy of 'drift' has been permitted to creep in let it be exchanged for a campaign attacking all those centres where neglect and indifference prevails in regard to the belfry. Energy in this direction would bring its reward in more ways than one. It would stir members to new effort, bring in more ringers, and awaken a wider interest in the association's doings. It is a policy that would pay good dividends, and we hope that some of the results of its more general adoption may be seen in the year 1925.

**YORKSHIRE ASSOCIATION.**

The quarterly meeting of the Southern Division was held at St. Stephen's, Eastwood, Rotherham, on December 20th. The attendance was very poor, the towers represented being Rawmarsh, Killamarsh, Handsworth, Doncaster, Conisboro', Headingley, Arksey and Rotherham Parish Church. A short meeting was held in the ringing chamber, at which Messrs. A. Stamp and J. Adams, of Rotherham, and P. Gledson, of Conisboro', were elected members of the association, and an invitation to hold the annual meeting of the division was received from All Saints', Sheffield. This was accepted, the date being fixed for March 21st.

**PEAL BOARD UNVEILED AT WEST WYCOMBE.**

CEREMONY PERFORMED BY THE MAYOR.

At West Wycombe Church, on Sunday, December 21st a board was unveiled and dedicated, commemorating the first eight-bell peal rung in the tower—Stedman Triples on December 16th, 1923. The ceremony was performed by the Mayor of High Wycombe, in the presence of a large congregation which gathered to honour the memory of the late Mr. Thomas Martin, who devoted a long life to public work in the parish. The board was presented by his son in memory of his father, and is a handsome piece of work carved out of fine old English oak. It is surmounted by eight bells, and the inscription in gold letters is as follows:—

'Oxford Diocesan Guild of Church Bell Ringers. This tablet commemorates the first eight-bell peal rung in this tower, 16 December, 1923. 5,040 Stedman Triples, Thurstan's Four-Part: Fred Hayes Treble; G. Twitchen, 2; Ralph Coles, 3; Arthur J. Hoing, 4; Edward Markham, 5; Sidney T. Goodchild, 6; John Evans, 7; Wm. Coles, tenor. Conducted by John Evans. Presented November, 1924, by Thomas G. Martin, in memory of his father, Thomas Martin, of Downley. Ob.: August 30th, 1919. Rev. H. Pickles (Vicar), Sir John Dashwood, Bart., W. A. Day (churchwardens).'

The Mayor eulogised the work done for West Wycombe by the late Mr. Martin, who, he said, spent a good and profitable life devoted to the service of doing his best for his fellow men.

The Vicar (the Rev. Harold Pickles) also referred to the great esteem in which Mr. Martin was held, and remarked that it was a coincidence that the last two bells added to their tower were dedicated to the memory of the Mayor's ancestor, and now the peal tablet to the memory of Thomas Martin. They would notice that at the top of the peal board there were carved eight bells, representing the number which they had in their tower, and he had no hesitation in saying that the whole was a splendid piece of workmanship, and the gift, unselfishly made, would be a credit to their belfry. He saw there that day members of the High Wycombe belfry, and many others would have been present had it been possible. But the presence of that great congregation showed that the memory of Thomas Martin still lived amongst them. They had been privileged to take part that afternoon in the dedication of a memorial not only to their Parish Church, but above all to do honour to the memory and unselfish spirit of Thomas Martin.

The Vicar then recited the dedicatory prayers, and after the service many of the congregation inspected the tablet as it stood in the chancel.

## BELFRY GOSSIP.

The old Union Youths' jug which played a conspicuous part of the old Bristol Union Youths Society will be on view at the Bristol United Ringing Guilds' Dinner on January 10th by kind permission of the owner. Those who desire to attend this dinner should make immediate application, as there are only a few tickets left.

At the advanced age of 75 years, Mr. George Williams, senr., the towerkeeper at Gresford, Denbighshire, has rung his first peal of Major. In ringing, it is never too late to begin, and it would be interesting to know if anyone else has rung his first peal of Major at this age.

The peal of Stedman Caters at Sheffield Cathedral on Boxing Day was rung after short for Treble Bob Maximus. The band, through some oversight, also had the novel experience of ringing the peal by candlelight, as all the other lights had been switched off in the Cathedral, which was locked up.

A peal of 14,480 Bob Major was rung at St. Paul's, Oldham, in 8 hours 24 minutes on January 4th, 1784.

St. Martin's Youths rang a round 8,000 of Grandsire Major, at St. John's, Deritend, Birmingham, on January 4th, 1794.

January 4th is the anniversary of the death of James Barham, the famous old ringer of Leeds, Kent, who died in 1818 at the age of 93 years.

The first 'John' peal was rung on January 2nd, 1904. It was a peal of London Surprise Major at St. Stephen's, Rochester Row, London.

On January 6th, 1851, a peal of 7,524 Stedman Cinques, then the longest length, was rung at Cripplegate, London.

What was claimed to be the first true peal of Norwich Court Bob in London was rung at Bethnal Green on January 7th, 1788.

The first peal on the bells (Grandsire Cinques) at Cirencester was rung by the College Youths on January 7th, 1767. Cirencester's bells were the second ring of twelve in the country.

## THE WASHBROOK MEMORIAL.

To the Editor.

Sir,—In your 'Leader' of this week's issue on the above subject you state, 'The further alternative of Kidlington has been put forward.' I would like to point out that Kidlington was the original suggestion by Mr. W. Brown on February 22nd.

With reference to the Rev. C. W. O. Jenkyn's letter: Had the decision of the committee met with anything like the unanimous approval of the large number of fingers interested, 'no good purpose could have been served' by my previous letter.

## SHUNTING.

To the Editor.

Dear Sir,—At last the murder is out. And it is neither caused by loss of blood, nor, I hope, by a 'cut.'

The Rev. C. D. P. Davies says that from the days of his boyhood he has always understood by the railway 'shunt,' the operation of causing a vehicle or train to run from the pair of rails along which it was going, on to another pair.

But this is not a shunt at all, the right name for it is 'switching.' A 'switch' is a piece of parallel rails hinged at one end, and with points at the other. As these points are 'switched' or moved on their hinges, from one pair of lines to the other, so the train running over them is switched over, or left to run straight on. If the new pair of rails is another line, there is no shunt at all. If, however, they lead only to a siding, then a train, diverted by the switch, is shunted, in order to let something else pass.

It will be seen that there are three essential parts to the idea of a shunt. (1) That which is shunted must have its course broken, but not altered or transferred to another line; (2) something else must be allowed to pass; (3) that which is shunted must resume its former course, after the shunt, exactly as it would have done had there been no shunt.

No explanation of a shunt that has yet appeared in your columns fulfils any of these requirements. It is clear that Mr. Davies is thinking of something quite different. Mr. Powell says the shunted train is ready as a whole to start off 'on another set of rails.' And Mr. Baker says, 'We are doing the same thing all the time.' How can a train be shunting 'all the time'?

I do not think Mr. Davies can be really blamed, as he modestly calls it his 'private name,' showing some doubt as to its correctness. And I think he would be the first to agree, that if he really meant a 'switching Bob' when he wrote a 'Shunting Bob,' on page 196 of 'Grandsire,' he describes actually a different operation from that which he intended to explain.

## TEN BELL TOWERS.

## STONHAM ASPAL, SUFFOLK.

[By J. R. JERRAM.]

The tower contains a peal of ten bells, tenor 24 cwt., note E. They were given by Theodore Eccleston, of Crowfield Hall, in 1742, but several of the bells have been since recast. Their history is fully set forth in the inscription on the ninth bell. These bells bear the following inscriptions at the present time:

- Treble, Second and Fourth.* T. MEARS OF LONDON FECIT, 1826.  
*Third.* DANL. WADE. AGED 80 YEARS. WM. LAST, TWO OF THE PARISH RINGERS. T. MEARS OF LONDON FECIT, 1826.  
*Fifth.* WM. BANYARD & SAML. DAVIE. CH: WARDENS. PACK & CHAPMAN OF LONDON FECIT, 1770.  
*Sixth.* JOB ROPER, JOHN BLONFIELD. T. MEARS OF LONDON FECIT, 1826.

STONHAM ASPAL CHURCH.

- Seventh.* REVD. THOS. METHOLD. RECTOR, WM. TAYLOR & SAML. FORD, CHURCHWARDENS. T. MEARS OF LONDON FECIT, 1826.  
*Eight.* THOMAS LESTER MADE ME, 1746.  
*Ninth.* IN THIS TOWER HUNG 5 BELLS, THE TENOR WEIGHING 10 HUN. 2 QRS. 0 LB. IN THE YEAR 1742 THEY WERE TAKEN DOWN & WITH YE ADDITION OF 3 TONS 10 HUN. OF METTLE WERE RECAST INTO TEN AT YE EXPENCE OF THEODORE ECCLESTON, ESQRE., OF CROWFIELD HALL, AGED 27 YEARS. HE GAVE ALSO A NEW FRAME ATT YE SAME TIME, 1742. THOMAS LESTER MADE US ALL.  
*Tenor.* THEODORE ECCLESTON, ESQRE., GAVE ME, 1742. THOMAS LESTER OF LONDON MADE ME, 1745. JOHN WILLIAMS HANGED ME. THE END CROWNS THE WORK.

Theodore Eccleston also gave several, if not all, the bells at Coddendenham; also two bells to Fulham, and two to Winchester Cathedral.

The Rev. W. C. Pearson published a short sketch of his life in 'The Ringing World' in August, 1912, from which it appears that he was born September 11th, 1715. He was married at Mortlake to Catherine Jacomb, on April 24th, 1746. They had only one child, who died in infancy.

He was a member of the Society of Eastern Scholars, and rang the tenor at St. Saviour's, Southwark, in a peal of 6,012 Grandsire Caters on November 28th, 1735; just after the new peal of twelve, cast by Samuel Knight, had been hung there. He was elected a member of the College Youths in 1744, and served the office of Master in 1750.

His name appears on an old peal board at Coddendenham in a peal of 5,040 Bob Major, November 9th, 1742. He died in 1753, and was buried at Mortlake on January 14th in that year.

It may be added that he also gave a treble and second to Mortlake Parish Church in 1746, thereby augmenting the peal to eight. The treble was afterwards recast by Robert Catlin in 1784.

I have no record of any peal boards at Stonham Aspal. If there are any it would be interesting if some correspondent would furnish copies of them.

## DEATH OF MR. W. CRANE, Jun., OF BANGOR.

It is with deep regret we record the death of Mr. William Crane, junr., which took place on Sunday, December 7th, at 2, Lanygraig Glanadda, Bangor, North Wales, at the early age of 40 years. Deceased was the son of Mr. W. Crane, an esteemed member of St. David's Society. In his early days he was a member of the Cathedral

choir, and was 'top boy' for many years. From his early days he was interested in bells, and was a regular member in the belfry. His peals, numbering 41, comprised Grandsire Doubles, 1; Minor in 4 methods, 1; Grandsire Triples, 16; Stedman Triples, 6; Bob Major, 7; Treble Bob Major, 6; Double Norwich Major, 2; Superlative Surprise Major, 2. He was of a quiet and unassuming disposition, and will be sadly missed in the belfry.

He leaves a widow and two sons, with whom much sympathy has been shown.

The funeral took place on December 11th, at Ginnadda Cemetery. His fellow workmen were the bearers from the house to St. David's Church, while the ringers carried the coffin from the church to the cemetery. The Rev. T. Lewis Jones, M.A., Vicar, and the Rev. W. M. Morgan Jones, officiated at the impressive choral service, at which the Nunc Dimittis was sung to a chant composed by the Vicar. The organist played the Dead March in 'Saul' at the conclusion of the service; at the graveside a course of Grandsire Triples was rung on handbells by W. T. Pegler 1-2, J. H. Midwinter 3-4, A. J. Hughes 5-6, A. E. Pegler 7-8. Afterwards, a half-muffled peal of Grandsire Triples on the tower bells failed, after one hour's ringing, owing to a miss call. The whole 'pull and stand' was afterwards rung. The bells were also rung muffled for the services on the following Sunday, and reference was made to the deceased by the Rev. W. M. Morgan Jones in his sermon at the English service at 7 o'clock.

**LLANDAFF & MONMOUTH DIOCESAN ASSOCIATION.****THE ANNUAL MEETING.**

The annual meeting of the Llandaff and Monmouth Diocesan Association was held at Cardiff on Boxing Day, when the bells of St. John's were available for ringing from mid-day, full advantage being taken of the opportunity thus afforded. The committee meeting took place in the vestry prior to the service at 4 o'clock, the latter being conducted by the curate, in the unavoidable absence of the Vicar.

The business meeting followed in the Schoolroom, presided over by the Rev. D. McGregor (curate). After the minutes had been read, he mentioned that he regretted having to leave to keep an appointment. Mr. Evan Davies, the first Master of the Association, who was on a visit from Carmarthen, was, therefore, unanimously voted to the chair.

The officers for the ensuing year were then elected as follows: Mr. W. Phillips, of Newport, Master; Mr. J. W. Jones re-elected hon. secretary, and Messrs. Atwell and Greedy, auditors; Mr. F. Atwell, Mr. W. Bolton, Mr. G. Cooke, Mr. R. Cooke, Mr. R. Evans, Mr. S. Jones, Mr. A. Lewis, Mr. S. Rackham and Mr. Taylor, were elected on the management committee.

Meetings were arranged as follows: The annual to be at St. Woolos, Newport; the Llandaff Archdeaconry quarterly meeting to be held at Gantwit Major; the Monmouth Archdeaconry quarterly meeting to be held at Trevechin, Pontypool.

Instructors' reports were dealt with, good progress being reported from Machen, where Mr. A. Slatter is the instructor.

It was reported that the necessary renovation had been carried out at Merthyr, and all was now in first-class order.

Quite a number of new members were elected. The visitors included Mr. Geo. W. Stokes, of Eastbourne.

The Hon. Secretary then introduced the question of the proposed memorial to the late Mr. James W. Washbrook, and after a few remarks touching on the extraordinary abilities of Mr. Washbrook, read out the circular letter sent out by the Oxford Diocesan Guild. It was unanimously carried that the sum of five guineas be subscribed to the fund.

The bells were afterwards rung until late in the evening.

**OXFORD DIOCESAN GUILD.****A BOXING DAY MEETING.**

The ringing meeting of the East Berks and South Bucks branch on Boxing Day was favoured by the weather, the sun being very much on the scene. Old Windsor, Clewer, Braywood, Bray, White Waltham and Boyne Hill, Maidenhead, were visited, and the following methods were rung and well struck: Grandsire and Stedman Doubles and Triples, Plain Bob Minor and Major, Kent Treble Bob Minor and Major, Kent and Oxford Treble Bob Spliced Minor, Cambridge Surprise Minor and Major, Double Norwich, and Superlative Surprise Major.

That great explorer and tenor historian from 'somewhere in Wilts' was present, and his infectious chuckle was greatly in evidence, after his first touch of Spliced Minor.

An exceptionally well-laid table awaited the party at Boyne Hill, and tea was served by Mr. L. W. Copsey, ably assisted by his youngest daughter.

After ringing, the company returned to the hall, where the remainder of the provisions were disposed of, and an impromptu concert was kept going for about two hours. The excellent singing of the Cookham band was a great feature, whilst the handbell ringing of the Stoke Poges party 'passed with a push.'

Those members who were unable to be present missed a most enjoyable day.

**ESSEX ASSOCIATION.****SOUTH-WESTERN DIVISION.**

The annual meeting of the South-Western Division was held at Brentwood on Saturday, December 13th, about 40 members attending from the following towers: Prittlewell, Romford, Efield, Bentley, Braintree, Maldon, Leytonstone, and the local company. Ringing commenced at 3 o'clock, and service was conducted by the Vicar (the Rev. E. Lees), who also took the chair at the tea and meeting which followed at the Church Hall. Two ringing members were elected and one honorary life member.—The election of three non-resident members previous to a peal was confirmed.—The Vicar was elected an hon. member.—It was decided to hold the next meeting at West Ham.

Mr. A. Prior was re-elected Master, and Mr. E. J. Butler was elected secretary for the ensuing year.

Mr. C. H. Howard (Master of the Association) proposed a vote of thanks to the Vicar for his excellent address, and for presiding at the meeting. He also thanked the retiring officers for their services during the past year.

The retiring Secretary moved a hearty vote of thanks to Mr. F. G. Ringe for arranging the meeting, and to Miss M. Crow for the excellent tea which was provided.

The tower was again visited, and various touches were brought round, including a course each of Cambridge and Superlative Surprise.

**THE TASK OF THE INSTRUCTOR.  
HELPING YOUNG BANDS.**

The monthly 'fraternal' and smoking concert of Devon ringers took place on Saturday, December 13th, at Franklin Hall, Exeter, after the Cathedral Guild practice. This was the third of the series, which Mr. W. J. Southwood, hon. secretary of the Exeter district, has organised, and these gatherings have met with great success. The Rev. K. A. Luke (Vicar of Heavitree) presided, and an enjoyable programme of music was provided, Mr. H. E. Kingdon contributing some Devonshire yarns and ditties. Mr. T. Laver opened an interesting discussion on 'How best can we instruct our young bands?' and some most helpful suggestions were put forward out of the experiences of the speakers. The chairman ably summed up the discussion from his own standpoint, adding some useful advice.

The debate was opened by Mr. T. Laver, honorary secretary of the Exeter Cathedral company, who dealt with the difficulties of teaching change ringing to the two classes of beginners; the existing round ringers with their prejudice against scientific change ringing; and the young hand who come fresh to the belfry without any such prejudice. He urged the necessity for breaking the 'round ringers' of their hurdy-gurdy style, which gave no open leads, the advantage of black-board illustration on the methods of producing changes and of handbell practice, although, he added, that if one had to start from the beginning with the handbell ringing it would probably not be worth doing, for round ringers did not take readily, as a rule, to handbells. Lads of 14 to 16 gave an instructor a better chance of turning out a good band, as they had nothing to unlearn, and were generally more tractable and willing to be taught than older men. Handbells could be made a great help in the instruction of lads.

With round ringers, a good deal of persuasion and coaxing would be necessary on the part of the instructor, but with youngsters a more peremptory manner was possible, although with all it was necessary to have tact, and make a careful study of the temperament and ability of the pupils. Practice should be made as attractive as possible, because nothing hindered progress so much as irregular attendance, and at certain stages one absentee could spoil a night's practice for all the others. Mr. Laver went on to emphasise the importance of impressing pupils with the necessity of regular attendance in the belfry, and the steady of change ringing at home. The instructor's task would not always be an easy one, but if he carried on his work impartially and considerably many of his difficulties would smooth themselves out. He would need to be endowed with much patience and discernment, and should not too hastily form an opinion as to the ability of an apparently backward pupil. Seemingly dull-witted ones have been known to blossom out all at once into quite brilliant ringers, as if a sudden revelation had come to them, like a dream or the opening up of a dormant brain cell. Therefore, the instructor should not be too ready to reject a dullard as a useless adjunct to his band, without giving him a fair trial. There were, however, some who could never make ringers, although they did not generally realise their disability themselves, and it would only be wasting time to go on trying to teach them. The instructor must use his discrimination, and if he could afford to do so, give such a one a hint to drop out of the band. The instructor would meet with disappointments and set-backs, but should not be discouraged. If he kept steadily on he might have the satisfaction of turning out a band who were a credit to his Guild, and when the day came that he could hear his pupils striking a touch faultlessly, then he might well be proud of the result of his efforts—something akin to the pride a gardener might feel when he got a good crop from his own efforts at cultivation. Even if the band never reach fruition, but only got so far and then became dispersed, he might have been the means of turning out one or two ringers who might go away and be a help in some other tower.

**LADIES' GUILD.**

The Midland district of the Ladies' Guild had a very good meeting at Coseley on Saturday, December 13th. Members were present from Smethwick, Solihull, Netherton, Old Hill and Handsworth. The local ringers had the bells going when the visitors arrived, and helped the ladies to keep them moving throughout the afternoon. Mr. E. T. Allaway and Mr. J. E. Groves also helped to give the ladies some practice.—The Vicar (the Rev. Jones) gave a very helpful address at the service, at which the Guild's form was used. Afterwards a rush was made to the Schoolroom, where a splendid tea was waiting, and to which ample justice was done by the company of 35 who sat down.

A new life member was elected, in Mrs. J. Price, of Coseley.

A hearty vote of thanks to the Vicar and Miss Law for her service at the organ to Mr. and Mrs. Gough, and the other ladies, brought a pleasant meeting to a close.

## METHOD CONSTRUCTION.

To the Editor.

Dear Sir,—The Rev. E. S. Powell is wrong once again. If he will look up what I have written of London Surprise Royal and Maximus he will find I have stated that London Royal is a seven-part touch, London Maximus a five-part touch, and I can prove the truth of these facts just as easily as I have proved that the Minor and Major are one and the same method.

Some methods will extend with coursing order lead heads, some will not, and the most that I have ever claimed is, to have discovered the nearest possible to what London Royal and Maximus should be, and I have still another method that more nearly approximates to the real method, than anything discovered previously.

I am pleased that Mr. Trollope agrees I am wasting my time in arguing with people of the calibre of the great little We. This being mutually understood, I shall now have leisure to give the Exercise some results of my discoveries during the past thirty years, and these will be practical results, not theoretical.

When your readers have scanned what follows, I think they will realise, if my opponents do not, that the poor ignorant 'Mr. —', who has just brains enough to write down figures, and no eyes to see anything further, is not quite as ignorant as he has been made out to be.

The great little We, the clever men with logical minds, they make mystery where there is no mystery, they formulate arbitrary definitions, and then talk and write of mathematical truth and progression, of the cyclical path of the treble among the working bells, of coursing order, of constructional shunts, etc., etc., they have studied double shunts to the exclusion of single shunts, and they have but a very vague idea of how the double shunts are produced.

The following 6 shunts can be made in the Quick Principle or in the Treble Bob Principle, either as single shunts or in pairs:—

Lead head.

Quick 4th's over the Treble going up produces 12547386  
Quick 3rd's under the Treble going up produces 16325478  
Slow 5th's over the Treble going up produces 12547683  
Slow 4th's under the Treble going up produces 18325476  
Quick 6th's over the Treble going up produces 12547638  
Quick 5th's under the Treble going up produces 17325486

If we want to find the result of pairing the single shunts all we have to do is to transpose the first by the second, the third by the fourth, the fifth by the sixth.

12547386 transposed by 16325478 produces 13527486  
12547683 transposed by 18325476 produces 13527486  
12547638 transposed by 17325486 produces 13527486

The above double shunts are those that produce the first half-lead of Double Dublin Court Bob.

When the great little We reach this far they come to a full stop, and they think and say they have discovered all there is to be discovered in the matter of method construction; in some curious fashion of their own they want to treat every method as though it were produced by double shunts, whether there are any double shunts in it or not.

Have they discovered all? We shall see. We will take the first two shunts again.

12547386 transposed by 16325478 produces 13527486  
12547386 transposed by 13567284 produces 15738264  
12547386 transposed by 15738642 produces 17856342  
12547386 transposed by 17854326 produces 18674523  
12547386 transposed by 18472563 produces 16482735  
12547386 transposed by 14286735 produces 14263857  
12547386 transposed by 12643857 produces 12345678

If the first transposition 13527486 is a constructional shunt, perhaps the great little We will explain to the Exercise the category the remaining five coursing rows come under?

The two following rows 15327486 and 12537486 are the 10th and 12th shunts of first variation of London that I gave, they are also the 10th and 12th shunts of London Surprise Major and London Thorpe.

15327486 transposed by 12537486 produces 15738264, so we only require two shunts out of twenty-two to bring up the lead head of the first Variation of London given, but 15738264 is not the only coursing row that can be got by transposing 15327486.

15327486 transposed by 13245678 produces 13527486  
15327486 transposed by 12537486 produces 15738264  
15327486 transposed by 15728364 produces 17856342  
15327486 transposed by 17856243 produces 18674523  
15327486 transposed by 18674532 produces 16482735  
15327486 transposed by 16483725 produces 14263857  
15327486 transposed by 14362857 produces 12345678

Again, I have no doubt the Exercise would like it explained, if the first row is a constructional shunt, what category do the remaining five coursing rows come under?

Here is something for the great little We to ponder over; there is not a single shunt that can be made in the Primary Principles or the Treble Bob Principle that cannot be transposed similarly. —

Yours faithfully,  
GEORGE BAKER.

## CHRISTMAS BELLS.

**LITTLE MUNDEN, HERTS.**—On Christmas morning, at 6.30, 720 Oxford Delight: W. Williams 1, S. Carter 2, A. Woolston 3, A. Phillips 4, G. H. Carter 5, W. H. ## GREAT TEW BELLS RE-OPENED.

## RETUNED AND REHUNG.

An impressive service took place at the Parish Church of St. Michael and All Angels, Great Tew, on Sunday, December 21st, when the Right Rev. Bishop Shaw, Archdeacon of Oxford, rededicated the bells.

The beautiful peal of eight has been retuned and rehung in a double tier of cast-iron and steel frames by the well-known firm of Messrs. Mears and Stainbank, of Whitechapel, under the able superintendence of Mr. Jesse B. Tyler. The work has been carried out according to the most approved and up-to-date principles, the ball bearings, which have been fitted, making the ringing of the bells much easier.

It is interesting to note that the greater number of the bells were cast in 1709 (in the reign of Queen Anne), a time noted in church history as being full of promise for the spiritual life of the church until the deadening effects of the Whig administrations under the early Georges cast its blighting effects on the Church of England, suppressing her vocations and paralysing her efforts.

The dedication of the bells took place after the second lesson, which was read by Canon Carrol, of Barton, the service being intoned by the Vicar, and prayers read by him. The Bishop, preceded by the two churchwardens (Mr. Singleton and Mr. Legge), then proceeded to the base of the tower, where the bell ropes were hanging. Mr. Tyler, representing the firm of Mears and Stainbank, then handed the ropes to the churchwardens, who, in their turn, handed them to the Bishop with a request to dedicate the bells to God's service. The Bishop, after the prayers of dedication, placed the ropes in the hands of the incumbent, giving the bells into his charge.

This part of the service was immediately followed by the ringing of the bells for two or three minutes, in the presence of the congregation.

The Bishop took for his text, 'Rejoice in the Lord always,' from Philip. iv. 4, being part of the epistle for the day. The Bishop said it was not only at Christmas and other great festivals they were told to rejoice, but always. The work of the Redeemer should always give us cause for thanksgiving and rejoicing. They especially rejoiced that day because of the restoration of the tower and the rehanging and retuning of their splendid peal of bells. They possessed a beautiful church in a picturesque village. The ringing of those bells reminded them of their duty as Christians to assemble together and rejoice in their public worship. The bells awoke pleasant memories, and though they were also used on sad occasions, yet their prevailing notes were those of joy and gladness. The work they had undertaken to bring about such a happy result had, he said, been a considerable effort for a small place; £1,100 had been required, and there yet remained £180 to complete that sum. They fortunately had been greatly assisted by kind benefactors living outside the parish.

After the service, some change ringing was carried out by visiting ringers, including members of the Chipping Norton band.

## BLACKPOOL RINGER'S DEATH.

We regret to report the death, at Blackpool, on December 15th, of Mr. J. R. ('Joe') Winter, at the age of 74 years.

Mr. Winter had been a ringer at St. John's Church, Blackpool, for 53 years, and will be well remembered by a large number of the ringers who have visited Blackpool. He always rang the tenor bell, and so recently as August, 1923, he rang his first peal. He continued to take an active part in ringing until about a month before his death. Mr. Winter was not a noted peal ringer, but nevertheless, his heart was in the pursuit. He will be much missed by his brother ringers at St. John's Church.

A wreath in the form of a bell was sent by the wardens, sidesmen, and ringers of St. John's. The ringers also attended the funeral, and a plain course of Grandsire Triples was rung on handbells at the graveside.

## NEW YEAR'S GREETINGS.

Dear Editor,—I trust you will not be 'exceeding wroth' with ye graceless one, and I venture again to trespass on your space to publish my best wishes for '25, and my hopes that for the whole Exercise it will prove a glorious vintage. I did discuss ye vintage '24 with ye Bests of Spouses, and ye battles fought and won in its course, and did hope for more progress in '25. But ye goode Dame did but opine—Yes, Peppery, you have walked many distances after your bent, but an ye get some of your friends, one at least, to show you how to call Sledman Cinques for Miles it would save your legs an aching. Ye have done some trifling things no doubt, so just get someone to show you how to Peck big lumps off Twelve Bell records, and indeed 'twould be to your benefit if someone will Nudge your ability to ring light bells through long peals without getting the Umph! And let ye year of grace '25 bring its own reward to those who remember that years only make men older. 'Tis great doers that make years memorable, so this coming year—

Here's twall on us;  
May we niver want nowt,  
Noan on us,  
Nor me noalther.

SAMIWELL PEPPERY.

## BELL RESTORATION AT HORBURY, YORKS.

On Saturday, December 13th, the bells of SS. Peter and Leonard's Church, Horbury, were again set in motion, after a silence of about six months. They have been thoroughly overhauled, put on latest type of ball bearings, and all modern improvements installed. In the carrying out of this work, Messrs. Mears and Stainbank have upheld their reputation.

A service of thanksgiving was held in church, when the Vicar (Canon Hill) gave a most interesting address, showing how a modern peal of bells could well be the ideal of all mankind, that is each being strictly in tune and true to itself, and also just as strictly in tune and true to its neighbours.

This was preceded by some excellent ringing by the Batley company. Tea followed in the Parish Hall, of which about 70 partook. Ringing in various Major and Minor methods was the order until half-past nine, ringers from Sandal, Kirkthorne, Huddersfield, Crofton, Wath, Pontefract, Wortley, Rawmarsh, Osselt, Mirfield, and the local company, all of whom expressed their approval of the excellent 'go' of the bells.

### RINGERS AND CHURCH COUNCILS.

A letter which appears in another column, from the Hon. Secretary of the Central Council (who, all will hope, will have a speedy recovery from the results of his recent accident), is a reminder to ringers of their duty to ensure that their names are on the electoral roll of their respective parish churches. Since the passing of the Act, which set up the new representative organisations of the Church, the management of church affairs has become much more a matter for the laity, who now have a greater voice in the concerns of the church than formerly, and as ringers are responsible for what is recognised as an important piece of church work, and have charge of valuable church property, it is wise that they should be represented on the Parochial Councils.

This matter has been urged before, but it needs emphasising again, for there are doubtless many parishes where no representative of the ringers has a place upon the Council. It is true that the appointment of ringers to the belfry is still a matter entirely in the hands of the incumbent—it was specially so left by an amendment to the original Bill—but that does not alter the fact that important matters affecting the belfry may come before these Councils, and unless the ringers are directly represented their point of view may be entirely lost sight of.

Another reason why ringers ought to be directly represented on these Councils is that those responsible for the affairs of the church would thereby be reminded that the ringers are a recognised part of the church organisation—a point which is apt to be overlooked. A representative on the Parochial Council would add dignity to the ringers' position. It is also the first step towards securing that in all matters in which the bells or the ringing are likely to be affected, the voice of the ringers shall be heard in the Ruri-Decanal and Diocesan Conferences, and, indeed, in the National Assembly itself. But the primary essential is that ringers should see that their names are on the electoral roll of their parish, and Mr. Young's letter comes as a timely reminder that the opportunity for doing so is before Easter.

Another subject indirectly connected with this matter is that of securing representation on Diocesan Advisory Boards. The Central Council took this matter up at their last meeting, but it is not at all certain that in every diocese there is a person with a knowledge of bells and ringing sitting on these important bodies. By working through their Parochial Councils and Ruri-Decanal Conferences, ringers can help to bring about such an appointment where it has not already been made.

**NORTH NOTTS ASSOCIATION.**

A most interesting gathering of ringers took place at Ordsall and East Retford on Boxing Day, to keep up the old custom of ringing these bells for the Christmas festival. Ringers attended from Auston, Workson Sutton-on-Trent, Scotter, Gainsborough, Stockwith, Rotherham, Ordsall and East Retford. Five from Gainsborough, with the writer of these notes, met early at Ordsall for the purpose of attempting a 5,040 on the bells in honour of the hon. secretary's 31st wedding anniversary, this being his birthplace. In consequence, however, of a wedding taking place at 10.30 a.m., and having to wait 90 minutes, the attempt was abandoned. Nevertheless, a nice 720 of Kent Treble Bob was rung, commencing as the newly-wedded couple were leaving the church. The following methods were rung up to 12.30 p.m., when the bells were lowered in peal: Plain Bob, Kent Treble Bob, Stedman, Oxford and Cambridge Surprise. A visit to East Retford at 1.30 p.m. found Mr. J. Segar in attendance ready to welcome the visitors. He tapped a course of Bob Major and Grand-sire Caters on the handbells, and also took part in some touches of Stedman Triples, Grandsire Triples and Caters, and Kent Treble Bob Royal. Stedman Caters and Double Norwich refused to go, and the ten bells were lowered in peal. The members were pleased to welcome the appearance of two lady ringers, and Mr. Briggs, of Rotherham, and Mr. H. Warburton, late of East Retford, all of whom took part in the ringing. A most enjoyable day was spent, and the ringers accord their hearty thanks to the Vicar of East Retford and the Rector of Ordsall for placing the bells at their disposal. H.H.

**DURHAM & NEWCASTLE ASSOCIATION.**

A very successful meeting of the Eastern District of this Association was held at South Shields on Friday, January 2nd. Members were present from Sunderland, Gateshead, North Shields, and the local band.

Mr. J. W. Parker (in the absence of Mr. R. L. Patterson, vice-president) presided over a short meeting after tea, and a vote of thanks was passed to the Vicar of St. Hilda's for the use of the bells. Gateshead was suggested as the place for the next meeting.

**WEST HAM.**—On Christmas Day, for morning service, 512 Grandsire Triples: J. Waghorn (conductor) 1, A. Ssambler 2, J. Scholes 3, — Easter 4, F. Newman 5, A. Baynes 6, G. Hayden 7, G. Potter 8.

**MR. W. POSTON'S 100 PEALS.**

Mr. W. Poston has rung his first century of peals, chiefly as the result of pioneer work for the Hereford Diocesan Guild in the Ross district, where formerly the mere idea of turning the tenor in to Minor was looked upon as absurd by the majority of ringers. In the 75 peals conducted, 19 ringers have been put through their first peal of Doubles, 35 through their first peal of Minor, and 10 through their first peal of Triples. At Bridstow, in 1910, the scheme for adding a 6th bell and recasting four old bells was initiated, and all the funds personally collected. All the band at Bridstow were taught from handling a rope to ringing a 14 method peal, including London and Cambridge Surprise. In 1924 the scheme for adding two trebles to complete the peal of eight was initiated, and has been successfully carried through.

## BELFRY GOSSIP.

A 'double-handed' peal of Surprise Minor in seven methods was rung on Monday at Long Stanton, Cambs, in which the Vicar's two talented sons, John and Christopher Woolley, took part, with Mr. G. W. Cook.

The hon. secretary of the Central Council (Mr. E. Alex. Young) is still in Lewisham Hospital as the result of his accident. His injuries, which were extremely painful, were caused through a plank giving way while he was inspecting a building, and precipitating him into a trench.

The accident happened at exactly twelve o'clock on the 12th day of the 12th month of '24—a singular coincidence—and a correspondent who has visited Mr. Young, and found him cheery and progressing favourably, hopes that he may be discharged from hospital on the 12th of this month.

His many friends will be pleased to learn that Mr. Young is making good progress, although it will probably be some time before he fully recovers from the effects of the accident.

The St. Mary's company of ringers, Durban, South Africa, of which Mr. C. Clarkson, of 78, Windermere Road, Durban, is secretary, will be glad to correspond with any ringer who contemplates going out to Durban.

A 'long' peal of Stedman Triples is contemplated. No one, let us hasten to say, has yet found more than 5,040 changes, and the 'long' refers to the ringers and not to the number. A band of 'six-footers' has been organised for a peal at St. Giles-in-the-Fields. It is not true, however, that some of the ringers are so tall that wells will have to be sunk in the floor for them to stand in so that their hands will not come in contact with the ceiling, when the bells go up at back stroke!

The Sheriff of Nottingham, a leading solicitor in the city, replying to an invitation to attend the W. D. Crofts Memorial Dinner, has written, 'I shall be pleased to take advantage of an opportunity of meeting the gentlemen who ring the changes much more pleasantly than is the case when I meet them professionally.'

Mr. Philip Hodgkin writes that the peal of Oxford 'Treble Bob Royal' at Maidstone, recorded in our last issue, was not the first in the method on the bells. The first was accomplished on Nov. 15th, 1784, when the College Youths rang 5,040 Old Oxford Treble Bob Royal in 3 hours 40 minutes.

The weight of Chard tenor is 28 cwt., not 23, as recorded last week.

Those who follow the development of change ringing in the West will read with interest of the first 720 of Cambridge Minor rung by a resident Devon band. This is a promising, if small beginning, for the 2nd half-century of the Guild's history, and is we hope, the precursor of a new development in ringing in the county of cream and cider.

Mr. C. H. Howard, Master of the Essex Association, has the proud record of having now rung for 40 consecutive years (with one exception when D.O.R.A. was in operation) for the early celebration of Holy Communion on Christmas Day, and on New Year's Eve.

The first known peal on ten bells was rung at St. Bride's, Fleet Street, London, on January 11th, either in the year 1716 or 1717. This was Grandsire Caters, but the ancient board recording the performance disappeared when the church was repaired in 1796. The peal was rung by the London Scholars, and was supposed to be the only peal of Caters rung while St. Bride's contained ten bells.

A peal of 6,048 'Imperial the Third' Treble Bob was rung at St. Michael Coslany, Norwich, on January 13th, 1772.

Samuel Thurston, of Norwich, conducted a peal of 5,280 Oxford Treble Bob Major at Redenhall, on January 13th, 1838, 'on the 102nd anniversary of the Ancient Ringing Society.'

The first peal of Forward Maximus was rung on January 13th, 1903, at St. Martin's, Birmingham.

On January 15th, 1774, a peal of 7,040 Oxford Treble Bob Major was rung at St. Peter's, Nottingham.

The dedication of the bells of St. Peter's Church, Burnley, which have been recast and rehung in a new frame by Messrs. J. Taylor and Co., of Loughborough, will take place on January 17th.

As far as records have been kept, we believe that Mr. Frank Bennett is the sixth ringer to reach the one-thousand-peal mark. The others were the late Rev. F. E. Robinson, Mr. William Pye, Mr. I. G. Shade, the late Mr. Ernest Pye, and Mr. George Williams.

Listeners throughout the British Isles, and, doubtless many on the continent, heard the New Year heralded by the bells of St. Martin's-in-the-Fields. The ringing at this church, after midnight, was broadcasted very successfully, and although other things were superimposed upon it, the bells made a most appropriate background for the occasion. This was, we believe, the first time that St. Martin's bells have been broadcasted when actually rung, although their chiming has frequently been heard.

## RINGERS AND THE NATIONAL ASSEMBLY.

To the Editor.

Dear Sir,—At the last Central Council meeting, it was held to be very desirable that ringers should take every opportunity to secure that representatives, conversant with bells and their hanging, and also change ringing, be elected to the various Councils, conferences, etc., to do with the above.

As the time for action is between the New Year and Easter, organised ringing centres, throughout the country, should now take such steps as will attain the desired result.

The Church of England Assembly (Powers) Act, 1919, provides for the administration and government of the Church. There are constituted three 'Houses,' i.e., Bishops, Clergy and Laity. In respect to the last named the following extracts may be of use, viz. :—

1.—The laity shall meet in Parochial Church Meetings, and be represented (1) in Parochial Church Councils; (2) in Ruridecanal Conferences, where they exist; (3) in Diocesan Conferences; and (4) in the House of Laity of the Assembly.

2.—All representatives must be actual lay communicant members of the Church of England of twenty-one years of age and upwards, but, except in the case of Parochial Church Councils, need not be qualified electors in the area by or for which they are elected. No candidate may be elected at any election who has not previously consented to serve in the capacity for which he or she is a candidate. All representatives may be of either sex.

Section 3 provides for an electoral roll, a copy of which should be fixed to the church door. On this roll all regular attendants at the church, whether resident or non-resident, are entitled to be placed (being over 18 years of age). Ringers should at least a fortnight before the annual parish meeting, see that their names are on the roll. They should then endeavour to elect some of their number to the Church Council, and further to see to be represented upon the Ruridecanal Conference. From these, latter members are elected to form the important Diocesan Conferences, and, again, from these latter are elected the members of the House of 'Laity.'—Yours faithfully,

E. ALEXR. YOUNG,

Hon. Secretary and Treasurer.

## MR. JOSEPH JOYNES.

## DEATH OF AN OLD EAST RETFORD RINGER.

By the death of Joseph B. Joynes, the ringers of East Retford and district lose one of the most amiable and the kindest of men that ever handled a bell rope. His uprightness and honesty of character, his bright and cheerful disposition, endeared him to all with whom he came in contact. The deceased was a ringer of marked ability. He joined the East Retford ringers in the early eighties, and confined all his good ringing to his own native town. His many ties caused him to give up ringing in the year 1911, when he conducted his last peal. In 1890, when the East Retford bells were rehung and two new trebles added to make a ring of ten bells, a new band of ringers was formed by the Vicar, the late Canon Elsworth, and Mr. Joynes became its first captain, a position he held up to 1893. Some of his best ringing performances on the bells he loved so well were the conducting of the first peal of Grandsire Caters by an East Retford company, and the funeral peals of Queen Victoria and King Edward VII.; also the conducting of Holt's Original, of which peal he was very proud. By his death, the Northern Rubber Company also loses one of its oldest employees, he having served them for over 47 years. He was a foreman in the lathe department, and was universally respected.

The deceased, who was in his 60th year, had taken a great interest in religious and social matters in the town, of which he was a native. As a boy he sang in East Retford Church choir. On the opening of the new church of St. Alban, London Road, where he resided, he became a sidesman, a teacher in the Sunday School, and a member of the Parochial Church Council. He belonged to the Victory Lodge of Oddfellows (M.U.), and was, up to his death, a sick visitor of the juvenile section. He was also a member of the old St. Swithin's Cricket Club, and had played for the club connected with the rubber works, while in later years he acted as an umpire in the Bassetlaw League. He leaves a widow and five sons and three daughters to mourn the loss of a good husband and loving father. The funeral took place at Ordsall on Monday week the Rev. A. Morris (assistant curate of East Retford Church) and the Rev. E. Collett officiating.

A muffled quarter-peal of Grandsire Triples (1,260 changes) was rung on the bells of East Retford Church by eight of his old colleagues: A. Swannock, E. Collingburn, R. Miles, H. Haigh (conductor), A. T. Winter, H. Warburton, T. Spurr, G. W. D. Metcalfe. The ringers named above, together with Mr. G. R. Winter and Mr. T. Hercy Denman, were all members of the old company formed in 1890, and Mr. Joynes's death is the first among the band of that day. link is broken. R.I.P.

## THE LANCASHIRE ASSOCIATION.

## MEMBERS' UNPAID SUBSCRIPTIONS.

The annual report of Lancashire Association, which covers the year to the end of August last, is an interesting publication with a mass of information. There were on the books 1,332 members, including 84 honorary life; 21 honorary; 208 non-resident, and 1,069 performing members, of whom 109 were elected during the year.

The financial statement shows a loss on the year's working of £11 9s. 9d., the total receipts being £67 1s. 11d., and the expenditure £78 12s. 8d. The largest part of this is incurred in printing the annual report, £51 9s. 9d. The real cause for the deficit is, however, that a large number of nominal members fail to pay their annual subscriptions. Last year, out of 1,069 on the books, only 698 paid their subscriptions. The accumulated fund of the association is rapidly diminishing. The association now possesses a balance of £10 3s. 6d. in the bank and £20 in war script, besides a stock of diagrams, whose estimated value is £11 7s. 6d. The total worth is, therefore, £41 11s.

The number of peals rung was 117, one less than the previous year's total, but in variety of methods equal if not superior to any previous record. Forty-one members rang their first peal, and 164 their first in a method.

## DEATH OF MR. JAMES WOOD.

## FAMOUS PEALS RECALLED.

It is with regret that we inform the Exercise of the death of Mr. James Wood, of Ashton-under-Lyne, which occurred on Dec. 9th. He was in his 73rd year, and was Ashton's oldest ringer. A son of the late Mr. James Wood, and brother of Mr. Samuel Wood, also of Ashton-under-Lyne, the deceased commenced ringing at an early age, and had nearly 60 years' ringing to his credit. He had taken part in upwards of 200 peals, three of which constitute records. These were the famous long peal of Treble Bob Major at Mottram on May 18th, 1883, in 9 hours 48 minutes (16,608 changes); also a peal of Grandsire Cinques at Ashton Parish Church on May 29th, 1886, in 6 hours 55 minutes (10,075 changes), and the peal of Treble Bob Maximus also at Ashton Parish Church on April 17th, 1911, in 3 hours 39 minutes (12,240 changes).

Mr. Wood had a severe illness some five years ago, from which he never fully recovered. He leaves a widow and a grown-up family of four sons and five daughters.

The funeral service was conducted by the Rev. S. Lane, curate of Ashton Parish Church, and the coffin, over which were hung the handbells, was borne by his brother ringers. After the service, a course of Grandsire Caters was rung over the grave on the handbells by Joseph Mellor 1—2, James Adams 3—4, Samuel Wood (brother of deceased) 5—6, Benjamin Thorp 7—8, Samuel Booth 9—10.

With the bells deeply muffled, a touch of 571 Grandsire Cinques was rung at Ashton Parish Church after the funeral, by H. Stansfield 1, C. Bower 2, J. Mellor 3, W. Brammer 4, J. Shaw 5, G. Goringe 6, S. Wood (conductor) 7, B. Thorp 8, J. Leigh 9, A. Adams 10, S. Booth 11, T. Jackson 12.

## A CUMBERLAND EXCURSION.

On Saturday, December 27th, seven members of the Egremont (Cumberland) band visited Broughton-in-Furness and Millom. The previous evening a gale of wind and rain spread over the north-west of the county, and the outlook for the morrow looked anything but promising. Anyhow, all braved the elements at 6.30 a.m., the rain having abated somewhat, but the wind was so great along the sea coast that after a certain distance had been covered a second engine had to be attached to the train to help. Arriving at Broughton some three-quarters of an hour late, the party were met by Mr. J. P. Barker, who conducted them to the church, and pointed out various interesting old-time items. The belfry is beautifully painted, and the bell chamber scrupulously clean, no grease or even dust was visible. Great credit is due to Mr. Barker, who, it was learnt, is responsible for this. The bells (eight, tenor 10 cwt.) were soon going to Bob Major, 336 being rung, followed by 576 Kent Major, Mr. Barker taking a rope in both touches. Before leaving, 360 Woodbine was rung on the back six. The party then pushed on to Millom, where full justice was done to dinner, as the last meal the visitors had had was somewhere between 5 and 6 a.m. Wending their way to the belfry, where hangs a nice ring of six (tenor 13 cwt.), the party were met by some of the local men, and Bob Minor was attempted with some of them standing in. A 720 Woodbine was successfully brought round. Ringers from Broughton and Kirby had by this time turned up, amongst them being Mr. Clark, and 360 Kent Minor was rung. Touches of Plain Bob followed by ringers from Broughton, Millom and Kirby. Violet Minor was also attempted, but couldn't be persuaded to go, but 720 Bob Minor was rung, in which ringers from Broughton and Millom took part. This concluded the ringing for the day, and tracks were made for the station, home being reached about 8 p.m. The ringers wish to thank the incumbents of both Millom and Broughton for the use of the bells, also to Mr. Brown, of Millom, for making the necessary arrangements, and to all ringers who contributed in any way to making the outing one of the most successful they have had.

## NEW BELL AT EYTHORNE, KENT.

DEDICATION BY THE ARCHBISHOP OF CANTERBURY.

An event of much importance to the inhabitants of Eythorne, near Dover, took place on Wednesday afternoon, Dec. 17th, when the Archbishop of Canterbury dedicated the new treble bell recently added to the old peal of four bells, the work having been carried out by Mr. T. Groombridge, junr., of Crayford, and the cost defrayed by public subscription of the parishioners and friends.

When the present Rector came to Eythorne, 30 years ago, one bell only, the tenor, was hung in the tower, two others being housed in outbuildings. In 1896, he had a new treble added, and the whole hung for ringing in a new frame, which was found large enough to take the new bell just installed.

The church was well filled for the dedication service, and probably no parishioner now living could remember any previous occasion when an Archbishop of Canterbury had taken part in a service in Eythorne Church.

A shortened form of service was used, conducted by the Rector (the Rev. Basil Burrows), Miss Burrows presiding at the organ. Other clergy present were the Rev. Canon Thomas (Northbourne), the Rev. J. D. Bevan (Chillenden), and the Rev. A. T. Harre (Tilmanstone). At the conclusion of the hymn, 'When morning gilds the skies,' the choir and clergy, followed by the Archbishop, moved in procession to the church porch, where the new bell was dedicated, and rounds were rung on the five bells by local men, whilst the procession returned. The hymn, 'Hark, hark, my soul,' was sung, after which the Archbishop gave a short address. His Grace said that the bells of our churches were really more important to people outside the church than to those inside. Whether they came or neglected the summons to God's house to worship, they were reminded that prayers were being offered to Him who cared for them all. He said he had daily to deal with those who came from other lands, settlers from the Colonies, and elsewhere, and he was struck with the way they always said what they missed most was the sound of the bells on Sundays and days of public rejoicing, and how they welcomed them on their return.

The concluding hymn was 'Angel voices ever singing,' and the Archbishop concluded an impressive service with the Blessing.

As the congregation left the church, the bells were again rung by Messrs. H. Palmer, G. Merryfield, F. Brittenden, F. Windle and W. F. Elliott. In the evening, the first change ringing was performed by T. Groombridge, junr., W. E. Pitman, G. Merryfield, H. Palmer and W. F. Elliott.

The inscriptions on the bells are as follows: Treble, weight 4½ cwt., 'Te Deum Laudamus,' Mears and Stainbank, 1924; 2nd, 5½ cwt., 'Venite Exultemus Domino,' John Warner and Sons, 1896; 3rd, 6½ cwt., Joseph Hatch made me, 1862; 4th, 8 cwt., 'Sancta Katherina Ora Pro Nobis,' W. Jordan, 1470; tenor (approximately 10 cwt. in A, 'Nomen Magdalena Campana,' W. Jordan, 1470.

It would be interesting to know if any two bells which have never been recast exist in any other tower of earlier dates.

## THE WASHBROOK MEMORIAL.

To the Editor.

Sir,—Referring to the correspondence which has appeared recently in your columns on the subject of the Washbrook Memorial, I was not aware, when I wrote to you three weeks ago, that the tower in which the memorial bells are to be hung had been definitely chosen. This knowledge might not, however, have prevented me from supporting Mr. Maurice Smith's suggestion, which I consider most appropriate.

I cannot help wondering if the suitability of Kidlington as the home of the memorial was considered by the committee, and I regret that I did not follow earlier developments which would have given me an opportunity of pressing the claims of Kidlington.

As the matter is irrevocably settled, I can only express my hope that all those who, like myself, would have preferred to see the memorial bells hung in another place, will sink their personal opinions and support to the best of their ability the fund, the object of which is to perpetuate the memory of one of our greatest ringers.—Yours truly,

HOWARD FREEBORN.

Chalfont, Dec. 31st, 1924.

## STONHAM ASPAL.

To the Editor.

Dear Sir,—There are no peal boards in the above tower, although, of course, several peals have been rung there in recent years. The earliest of which I have any account is a peal of Kent Treble Bob Major on May 14th, 1894. I should say, however, that some were rung prior to this, and possibly Mr. Theodore Slater, of Glemsford, might be able to supply the information.

The bells are scarcely pealable at present, as the 8th goes very badly.—Yours sincerely,

W. C. RUMSEY.

## LANCASHIRE RINGERS' SOCIAL.

On Saturday, December 13th, the fourth annual social, held in connection with the Preston branch of the Lancashire Association, took place at Preston. In the afternoon, there was ringing at the Preston Parish, Preston St. Mark's, and Penwortham towers, where the following methods were rung: Plain Bob, Kent and Oxford Treble Bob, Double Norwich, Grandsire and Stedman.

Ringers and friends, to the number of 140, then had tea together in the Parish Church Schools, the catering being carried out by Mr. R. Broughton, who is also a Preston ringer. He was ably assisted by the Preston ringers, their wives, and lady friends.

After full justice had been done to an excellent meal, a slight alteration to the programme was made, as a Preston concert party who came to entertain the gathering, had another engagement later.

Immediately after tea, therefore, the quartette sang 'Comrades in Arms,' which they rendered in the best professional manner, and the party had to respond to an encore. This was followed by songs by Miss Heald, 'Another Day,' and 'A Devonshire Wedding,' which were sung in excellent style. Miss Heald is a daughter of the captain of the Preston ringers. The quartette then gave another item 'O peaceful night.'

Mr. E. R. Martin proposed that the heartiest thanks of the gathering be given to the party for their excellent entertainment, and this was carried with loud applause.

The gathering then divided, some taking part in a whist drive in an adjoining room, while the rest went on with the concert and dance, during which Mr. J. Watkinson delighted those present with humorous items, entitled 'The Egg,' 'The rest of the day's your own,' and 'Pilgrims of the night.' Mr. Wm. Nelson also sang.

The music for the dance and concert was provided by three of the Leyland Parish ringers, Messrs. W. Clements (pianist), J. Watkinson (violin) and P. Watkinson (clarionette).

Ringers were present from most of the towers in the branch, as well as Bolton and Wigan branches, and the evening was thoroughly enjoyed. The thanks of the gathering are extended to the Preston ringers, the artistes, and all who in any way assisted in maintaining the high standard set at the previous socials.

## PRESENTATION AT SITTINGBOURNE.

A very interesting ceremony took place in the belfry of St. Michael's Church, Sittingbourne, on Thursday evening, December 18th.

In the presence of a number of the ringers of the Sittingbourne district, Mr. William Spice who is well known in Kentish ringing circles, was presented with a case of pipes, a tobacco pouch, and a set of razors, 'in recognition of his untiring energy and valuable assistance towards the promotion and advancement of the art of campanology in the district.'

The presentation was performed by the captain of the Sittingbourne band, Mr. H. E. Simpson, who, in a few well-chosen words, referred to Mr. Spice's ringing career. He had known Mr. William Spice, he said, for over twenty years, and whenever he had needed any assistance he had found in Mr. Spice a ready and willing helper. They were indebted to him for having arranged for them many evenings of enjoyment, and in order to show their appreciation of his efforts among them, they had assembled to ask him to accept that tangible expression of their gratitude and esteem. They hoped that Mr. Spice would live many years to continue his work among them.

Mr. Spice was, of course, completely taken by surprise. Expressing his thanks for the handsome gifts, he assured them that all he had done for the advancement of bell ringing had been to him a real 'labour of love.' It was indeed pleasing to feel that what small assistance he had given was so much appreciated.

During the evening, touches of Stedman and Grandsire were brought round, but in spite of repeated attempts, the ringers could not reach the end of a course of Cambridge Surprise, although that method is by no means 'foreign' to the ringers of the district to which Mr. Spice belongs.

## THE FIRST 'JOHN' PEAL.

To the Editor.

Dear Sir,—In your 'Belfry Gossip' of January 2nd, you state that the first 'John' peal was rung on January 2nd, 1904, at St. Stephen's, Rochester Row, but in the old peal book of the Society of Bromley Youths there is a record of a 'John' peal as far back as 1828. The following is a copy of the entry:—

October 15th, 1828.

A select band, whose Christian names were John, rang at Lewis-ham Church a complete peal of Grandsire Triples (5,040 changes), in 3 hours 12 minutes.

## ONE THOUSAND PEALS.

## MR. F. BENNETT'S ACHIEVEMENT.

Mr. Frank Bennett, of Brighton, rang, on December 27th, at Chiswick, his one-thousandth peal, and thus became a member of that very limited band of men whose peals run into four figures. A thousand peals is a proud record, and as will be seen by the list given below, Mr. Bennett's collection covers a great variety of methods.

Mr. Bennett began his ringing at Basingstoke, Hants, where he was a pupil under the late Mr. Harry White, in 1885. In 1887 he removed to Guildford, where he rang at St. Nicolas' Church, and was one of the new company formed there in the following year. Mr. Bennett rang his first peal, with three others of the band, on March 2nd, 1889, this being conducted by Mr. George Williams, with whom he was later so closely associated at Brighton, and who, it may be remarked, is himself also one of the few to score a thousand peals. Mr. Bennett's first peal as conductor was a peal of Grandsire Triples on October 3rd, 1889—the first peal by the local band. In the following year the first local peals of Bob Triples, Bob Major and Union Triples were added to the list. In 1894 two new trebles were placed at St. Nicolas' tower, and a peal of Grandsire Caters rung on them. The following year Mr. Bennett went to live at Brighton, where he became a member of St. Peter's company, at that time one of the leading Surprise bands in the kingdom. During the twelve years he remained in Brighton, Mr. Bennett rang no fewer than 409 peals, including the first peals of Oxford, Norfolk, Westminster and Bristol Surprise ever rung.

In 1907, Mr. Bennett removed to London, where he organised a 'Surprise' band, which met with great success. Mr. Bennett was for some years hon. secretary of the Society of Royal Cumberland Youths, which he represented on the Central Council. After a lengthy spell in the Metropolis, Mr. Bennett once more returned to Sussex, where he is continuing his peal ringing activities.

Appended is the list of Mr. Bennett's peals:—

Rung in 298 towers, in 21 counties, and for 18 societies. This list does not include one peal of Grandsire Major, one of Kent Treble Bob Major, one of Waterloo Reverse Bob Major and four of Stedman Caters, the compositions of which were afterwards found to be false.

It must have been a matter of considerable pride and gratification to Mr. Bennett that one of his pupils, his own daughter, was able to take part in his one-thousandth peal. Mrs. F. I. Hairs inherits much of her father's great ability, and her performances, both upon tower bells and handbells, have placed her in the forefront among ringers (of both sexes).

## LYONSHALL RESTORED PEAL.

On Saturday, December 13th, a thanksgiving service was held, when the Bishop of the Diocese preached to a large congregation. About 10 or 12 years ago over £300 was spent on these bells, the work then being entrusted to a local man, but the Hereford Diocesan Guild has since that greatly enlightened the ringers and the parishioners on what was really necessary, and too much praise cannot be bestowed on the subscribers and the collectors (Mr. J. Bell and Mr. J. Bowen), who both worked with a real zest to collect the £350 required to carry out the complete restoration. This consisted of new steel frame, ball bearings and new rubber studded clappers, the work being carried out by Messrs. Mears and Stainbank.

After the service, the bells were rung for a short time by the local band; then the assembled ringers all adjourned to tea at the Memorial Hall, about 50 sitting down, representing ten different towers, viz., Clifford, Eardisley, Almeley, Kington, Staunton-on-Arrow, Eardisland, Dilwyn, Weobley, Kimbolton, Madley, and the local band. Among those present were the Rev. G. W. Turner (hon. secretary of the Hereford Guild) and Mr. C. Edwards (Guild Master).

After tea, the visitors returned to the tower, where various methods were rung until 8 p.m. For the purpose of testing the 'go' of the bells, a band met at the tower on Sunday, the 14th for a peal of Treble Bob, and after ringing three 720's of Oxford and nearly three of Kent, a trip occurred, which brought the peal to grief: J. P. Hyett 1, C. W. Taysom 2, T. H. Taysom 3, W. E. Williams 4, C. Edwards (conductor) 5, F. Smith 6. All agreed that this fine old peal by Rudhall (tenor 12 cwt.) could not be improved upon either in tone or 'go'.

## DEDICATION OF A NEW PEAL OF BELLS AT PENISTONE

On Saturday, December 20th, the dedication of the new peal of bells and clock took place (as already briefly reported), at Penistone, in the presence of a crowded congregation. The Vicar conducted the service, assisted by the curate. The Ven. Archdeacon Harvey, of Sheffield, dedicated the new clock, which takes the place of a very old one that had become the worse for wear, after many years of 'marking time.' The bells were then dedicated, after which suitable prayers were offered. Archdeacon Harvey gave a most interesting talk on ringing, which would, no doubt, clear away many queer notions held by the uninitiated.

After the Benediction, the Vicar announced that the old Penistone ringers would be the first to open the new bells, which they did by ringing a six-score of Oxford Treble Bob Minor. This was followed by touches by visiting ringers.

The bells, a musical ring of eight, tenor 14½ cwt., by Taylor's, were much appreciated by all, the tone and 'go' being perfect.

Tea was generously provided by the Vicar and wardens. The first peal, as announced in the peal records, was rung by a mixed band, treble, 2nd, 4th and 6th ringers being from Bolsterstone; 3rd and 7th from Ecclesfield; 5th from Ashton-under-Lyne, and tenor, the enthusiastic and energetic leader of the young Penistone band. The peal, which was rung slowly, and well-struck, brought out the full music of the bells. The 2nd ringer deserves every praise, he being only 16 years of age. After the peal, the band was entertained to tea by Mr. Geo. Hill. The heartiest thanks are due to Mr. Hill for his untiring labours in arranging all the details, and bringing a memorable event to a successful conclusion.

The general opening of the bells will take place on Saturday, Jan. 24th.

**NOTICES.**

**BEDFORDSHIRE ASSOCIATION.**—Biggleswade District.—A meeting will be held at Tempsford, on Saturday, Jan. 17th. Bells (6) ready at 3.30. Tea at 5. All ringers welcome—C. J. Ball, Dis. Sec., 2, Tempsford Road, Sandy.

**HERTFORD COUNTY ASSOCIATION.**—St. Albans District.—A meeting will be held at Hatfield on Saturday, Jan. 17th. Bells available at 3 p.m. All ringers and others welcome.—W. Nash, Dis. Sec., North Mymms, Hatfield.

**CHESTER DIOCESAN GUILD.**—Chester Branch.—The Annual branch meeting will be held at the Cathedral on Saturday, Jan. 17th. Service 4.15. Tea 5 p.m. Tower open 3 p.m. Will members intending to be present please notify me by Wednesday, Jan. 14th?—J. W. Clarke, Hon. Sec., School House, Aldford, Chester.

**RAYNE RINGERS.**

The All Saints' Guild of Ringers, Rayne, Essex, held their second annual supper in the Old Schoolroom on Saturday. The Ringing Master (Mr. H. Redgwell) presided, and the health of the Rector was drunk.—The Rector, in reply, thanked the ringers for their excellent services.

Mr. H. Redgwell was again elected Master for the ensuing year.

**BATH AND WELLS DIOCESAN ASSOCIATION.**

A quarterly meeting was held at Chewton Mendip on Saturday, December 20th, when thirty members attended, representing towers from Bristol, Bath, Ilminster, Chewton Mendip, Chew Magna, Long Ashton, Shepton Mallet, Radstock, Midsomer Norton and Taunton. Mr. C. H. Jennings of Wyke Regis, was also present. Ringing started soon after 3 p.m. Tea was partaken at the Waldegrave Arms, after which the business meeting was held.

The Vicar (the Rev. J. A. Bensley) presided, in the absence of the Master, through illness. At the outset, the Chairman gave a hearty welcome to the members, expressing his regret that illness prevented the Master from being present.

Six new members were elected.

The place for the next meeting is Milborne Port, on April 18th, if possible.

Mr. W. A. Cave mentioned that in the current number of 'The Ringing World' it was reported that Mr. E. A. Young, the secretary of the Central Council, had met with an accident which necessitated his removal to Lewisham Hospital, and moved a vote of sympathy with him, wishing him a speedy recovery.—This was carried unanimously.

A vote of thanks to the Vicar for presiding, and the use of the bells and arranging the service, brought the meeting to a close.

Service was then held in the Parish Church, the Guild office being used. The organist and choir boys were present. During the afternoon and evening, London and Cambridge Surprise, Double Norwich, Stedman and Grandsire, were rung.

**COALBROOKDALE BELLS.**

The bells of Holy Trinity Church were rung on the last night of the old year, and they will not be rung again until they have been completely restored. During the early part of the evening several of the local ringers visited the Wesleyan Chapel, and rang selections on the handbells in the musical portion of the programme at the entertainment for the old people of Coalbrookdale, given by members of the Women's Institute.

At seven o'clock, the ringers met at the tower and rang several short touches of Grandsire and Stedman Triples, also touches of Bob Major. It was arranged to meet again at 11 'to ring the old year out and the new year in.' This has been the custom ever since the bells were put in the tower in the year 1854, only missing during the years of the Great War. Special arrangements were made on Wednesday evening for all ringers who came to have a ring. At 12.30 on New Year's morning the bells were lowered in peal. During the week-end the ropes will be taken off, and the bells will be chimed for the services until they have to be taken down for rehanging, etc.

A big effort is to be made to raise the necessary funds in the near future. About £130 has already been collected. Will ringers or other friends interested please take a £1 collecting stamp book of twenty 1s. tickets? They should apply to Mr. William Saunders, Institution House, Coalbrookdale, Shropshire.

#### THE 'EDUCATION' OF THE RINGER.

The subject of 'lectures' for ringers, which has been referred to once or twice recently in our columns, and to which another correspondent returns to-day, is a matter which is really worth serious consideration by those responsible for promoting the art of ringing. At present such teaching as is officially given by associations is limited almost entirely to the most elementary features of the art, and time and again we have pointed out the inadequacy of the system which is generally adopted. What usually happens when a band is placed under official tuition is that a competent ringer is sent to the tower to instil into a band of beginners the first principles of change ringing, which generally carries them to the length of ringing plain Doubles or Minor, and, in exceptional cases, perhaps, as far as, say, a peal of Grandsire. But when they have reached this fringe of the subject no more is done for the band 'officially.' Often, of course, the instructor will carry on, especially if he has a promising band not too difficult of access, but what we are now referring to is the 'official' attitude usually adopted. The point where most bands of beginners are left is about the equivalent to that of a child who has been taught how to spell simple words and is then told that, having been given a-start, he must now create his own enthusiasm and go on and learn by himself. For every band that goes on from the official instruction stage to become competent ringers in advanced methods there are a dozen who 'stick' just about where they are left.

What is wanted is a policy that will introduce 'continuation' classes, whereby beginners may be led on to greater things, and 'lectures' on various phases of ringing given at district meetings might well be one feature of this advanced education. There are many sides to our pursuit, among them the historical and the engineering, as well as the mathematical and the practical application of our art, and knowledge on all these could well be spread by means of papers read at meetings, and discussions upon the subjects dealt with. Such features could not but add to the general interest of meetings, as well as being of benefit to the individual. Something on these lines is being carried out successfully in the Exeter District of the Devon Guild—where, at the periodical 'fraternal' gatherings, there is always a discussion on some subject of mutual interest connected with ringing. The whole question, as we said at the beginning of this article, is well worth serious consideration by all associations, and doubtless there could be found connected with most, if not all, of our big societies men capable of preparing a paper on one of the many topics of interest to ringers.

**THE CUMBERLAND ASSOCIATION.**

The annual general meeting of the Cumberland Association was held at Cockermouth on Friday, January 2nd. Owing to the inclement weather it was impossible for the outlying towers to be represented, but there was a fair attendance from Keswick, Bridekirk and Cockermouth. The meeting was presided over by the president (the Rev. Canon Parker), supported by the hon. secretary (Mr. W. T. Holmes, Cockermouth).

The statement of accounts showed a balance in hand of £5 8s.

Mr. J. W. Brandwood (auditor) was elected a vice-president, and two performing members from Keswick were also elected.

It was decided to hold the annual ringing contest on Easter Monday at Crosthwaite Church (Keswick) for the 'Rawnsley' shield and medals.

A hearty vote of thanks was accorded to the Vicar for presiding, and for the use of the bells and room.

Afterwards there was some good practice on the tower bells of All Saints' Church, Cockermouth, Plain Bob Minor and Major, Kent Treble Bob Major, Grandsire Triples and Woodbine Treble Bob being rung by mixed bands of the towers represented.

**LEYTONSTONE'S RECORD FOR 1924.**

The following is a list of eighty-two 720's rung at St. John's Church, Leytonstone, by the members of the St. John-the-Baptist Association, Leytonstone, and visiting friends, during 1924:—

Cambridge Surprise 7, Canterbury 5, Carlisle 5, Newcastle 5, Southwell 5, Beverley 4, Ipswich 4, London 4, Surfleet 4, York 4, Chester 3, Lincoln 2, Munden 2, Norfolk 2, Norwich 2, Primrose 2, Wearmouth 2, Wells 2, Alnwick 1, Berwick 1, Durham 1, Coldstream 1, Hexham 1, Lightfoot 1, Morpeth 1, Nethersale 1, Wooler 1, Oxford Treble Bob 1, Kent Treble Bob 1, Plain Bob 7.

The ringers were: W. Miller 78, E. D. Smith 66, W. Theobald 63, A. Prior 54, G. Dawson 53, P. H. Avey 48, J. Moule 41, G. L. Joyce 30, D. Vincent 11, W. Pyc 9, E. J. Butler 8, R. Molton 6, A. Reeve 5, C. T. Coles 4, E. Edwards 2, W. Arnold 2, G. A. Black 2, G. Hayden 2, W. Keeble 2, W. F. Sermons 2, W. Mansfield 2, J. Horwood 1, W. Brown 1.

The 720's were conducted by W. Miller 44, A. Prior 14, A. L. Joyce 12, G. Dawson 5, E. D. Smith 2, W. Keeble 2, J. Moule 1, C. T. Coles 1. One 720 of London was rung non-conducted. The total number of changes was 59,040.

**LADY RINGER'S WEDDING AT BUCKNALL**

On Christmas Day, at St. Mary's Church, the wedding took place between Miss Alice Wheeldon, a member of the local company, and Scoutmaster William T. Clarkson, of the 1st Bucknall Brigade. Immediately after the ceremony the bells rang out merrily, short touches of Plain Bob and Firing and Cross changes being indulged in. After an interval of 45 minutes, while other weddings took place, 720 of Plain Bob was rung: R. Preston 1, C. Bowen 2, H. Billings 3, Alice Preston (conductor) 4, W. Fradley 5, C. Preston 6.

Tea was then partaken of by the ringers, as the guests of the bride's parents, Mr. and Mrs. W. Wheeldon. A few short speeches were made, wishing the happy couple the best of luck in their married life.

Returning to the bellfry, 720 of Kent and Oxford Treble Bob (spliced) was rung by R. Preston 1, W. Wheeldon, junr., 2, D. Preston 3, C. Preston 4, J. E. Wheeldon (Norton) 5, W. Wheeldon, senr. (conductor), 6. Later in the evening, a 720 of Violet Treble Bob was brought round: R. Preston 1, Alice Preston 2, C. Preston 3, C. Bowen 4, J. E. Wheeldon (conductor) 5, W. Wheeldon, senr., 6. The ringers then joined the wedding guests, and made merry until a late hour.

**CROYLAND ABBEY.**

Mr. J. R. Jerram, writes in reference to his recent article on the bells of Croyland Abbey, that Mr. C. R. Lilley, of Shrewsbury, has forwarded to him the following particulars of the first and only peal rung on these bells:

'On Saturday, November 28th, 1894, was rung by members of the South Lincolnshire Association, in 2 hours and 48 minutes, 5,040 changes, viz., 4 six-scores of Canterbury, 4 six-scores of Bob Doubles, 24 six-scores of St. Dunstan's, and 10 six-scores of Grandsire Doubles, each called differently, by P. Cherrington 1, W. Ambrose 2, R. Wyche 3, Rev. H. Law James 4, C. R. Lilley 5. The first peal ever rung on these bells.'

**MUFFLED BELLS.**

At Cropwell Bishop, Notts, on December 27th, with the bells half-muffled, as a mark of respect to John Walker, one of the Cropwell band who was buried on that day, a quarter-peal (1,260 changes) of Grandsire Doubles: W. Clarke 1, W. F. White (conductor) 2, T. Squires 3, W. White 4, L. Shelton 5. L. Shelton is one of the Cropwell band; the others are from Cotgrave.

## BELFRY GOSSIP.

The recent references to Stonham Aspal bring from Mr. F. E. Dawe the intimation that he took part there, on Whitsun Monday, 1884, in a 5,000 Keat Treble Bob Royal, which was called by the late Mr. W. L. Catchpole. The brothers Motts were in the band, which was composed mainly of Ipswich men, and the tenor, which was not going well at the time, was rung by the oldest member of the party, Mr. Edward Reeve. At the time, it was said to be the first peal on the ten bells.

The College Youths rang the first peal of Cinques on the 19th January, 1724. The peal—Grandsire—was rung by a band which included Benjamin Annable, and Robert Catlin, the bell founder, and was 'ye first that was ever done.'

A peal of 'Garthings Trebles' was rung at St. Margaret's, Lynn, on January 20th, 1740.

On January 20th, 1777, the Cumberland Youths rang a peal of 6,240 Treble Bob Royal at Shoreditch.

The first peal of Norwich Maximus was rung at St. Peter Mancroft Church, Norwich, on January 20th, 1817.

The Cambridge Youths rang a peal of 6,600 Bob Maximus at the Church of St. Mary-the-Great on January 21st, 1788.

A peal of Cambridge Surprise Royal was rung at Cheltenham on January 21st, 1898. At that time it was believed to be the first, but a few years ago 'The Ringing World' was able to publish the record of a peal rung at Wakefield in 1822.

The anniversaries of the deaths of two noted ringers occur next week. Harry Bastable, Ringing Master of St. Martin's Guild, Birmingham, for eleven years, died on January 19th, 1899, aged 50; James Motts, of Ipswich, died on January 21st, 1923.

The 'Lynn Advertiser' of January 2nd, 1875, recorded the following: 'On Saturday, Robert Pamment, the chimner at St. Nicholas chapel, performed for two hours without intermission on the peal of eight bells, chiming a large number of changes in a very regular manner by pulling cords attached to the clappers of the bells.'

'According to custom,' said a Sittingbourne paragraph in a Kentish paper, 'our crack change ringers had a glorious time during the Christmas holidays. On Boxing Day the bells of St. Michael, Borden, and Tunstall, were pealing for hours. Darkness alone brought the ringing to a standstill.'

Now we know why Messrs. Cheesman and Co. did not ring all night. They cannot ring when darkness sets in.

In ringing the extra bell in the tower at Newcastle Cathedral on Saturday, January 3rd, in a peal of Stedman Triples, Mr. W. H. Barber has now rung a peal on every bell in the tower hung for ringing. This was the first peal of Triples on the light peal of eight, the only other peal rung on them having been one of Double Norwich at 'Peace' time.

## LECTURES FOR RINGERS.

*To the Editor.*

Dear Sir,—I have read with interest the various letters on the subject of composition and construction, and though these are all very interesting, and are necessary for the benefit of the Exercise, they are far above the heads of the average ringers who fail to grasp their meaning. The most lucid I have as yet seen is Mr. Trollope's most recent contribution on Q-sets. It is really a masterpiece in its explanatory sense. The suggestion thrown out in your issue of December 26th is no idle jest. If your experts would give lectures at meetings on 'How to call or conduct' by position, instead of looking to see if the ropes fall in their places, and the theory of 'in and out of course,' and then the construction of methods, it would greatly benefit the young Exercise, and the lecturer would be sure of an audience.—Yours sincerely,

ONCE A BEGINNER.

## PRESENTATION AT ACTON.

After ringing for evensong on Sunday, the St. Mary's Guild of Ringers, Acton, showed their appreciation of the happy hours they had spent in the tower with their captain (Mr. Robert Holloway), who has held the position now for 14 years.—Mr. Fruin, the oldest member, in presenting, on behalf of the band, an umbrella with a heavy silver band with initials, said their captain was one of the very best, and they all appreciated to the full what he had done for them, and the jolly times they have all had together.

Mr. Holloway, who was taken completely by surprise, replied by thanking everyone for the kind spirit shown in the gift. He hoped it was a good omen, and that the weather would improve. It was a curious thing, but only on the previous day his wife complained of the 'whiskers' developing round his old umbrella (laughter). He thanked them very much indeed, and at the same time assured the band that what had been done was a real pleasure, and a labour of love.

A vote of thanks was afterwards passed to Mr. Fruin for making the presentation.

## BRISTOL UNITED GUILDS.

### GREAT GATHERING OF RINGERS.

Attended with success equal to that of any previous year, the fourth annual dinner of the Bristol United Guilds took place on Saturday at the Grand Hotel. There was again a large gathering of ringers, and in addition to the numerous representatives of bands in the diocese of Gloucester and Bristol, there were visitors from London, Newport, Loughborough, Bridgend, etc. The arrangements had been made by a committee, consisting of Messrs. F. G. Leaker (chairman), W. Knight (vice-chairman), P. C. Williams (hon. treasurer), W. A. Cave, L. Gowing, H. T. Howell, J. G. G. Jefferies and Miss E. Smith (stewards), Messrs. S. Abraham, U. Braven, E. J. Brown, J. A. Burford, J. Gould, J. R. Jones, W. Stafford, G. Trow and W. S. Emery, with Mr. Edgar Guise, hon. secretary, who worked indefatigably to secure the success of the proceedings. The decorations of the dining hall were appropriate to the occasion, and prominently displayed was the old 'ringers' jug,' which was used in Bristol thirty or forty years ago by the Society of Union Youths.

Mr. F. G. Leaker presided over the gathering, at which the Bishop of Bristol was the principal guest. There were, in addition, many clergy present. An excellent dinner was served, and, after the loyal toast, the Chairman proposed 'The Church.' He said that at no time did the Church need help more than at the present. He also referred to the parochial roll, and expressed the hope that ringers would fulfil their responsibilities in connection with this. In a reference to the new University buildings, the speaker remarked upon the close alliance between the churches and the universities, and said that it was through the universities that they got the splendid sermons that they heard in church. In the magnificent tower that was growing to completion a mammoth bell would soon be erected. As soon as a bell entered a tower it immediately converted a dead tower into a live tower, and the message of the bells should be an inspiration to all. The speaker added that the Lord Bishop, who was the guest of the evening, was loved by all, no matter to what denomination they belonged.

### BISHOP AND RINGERS.

The Bishop, in replying to the toast, said he often felt there was a danger of ringers feeling that they, in the belfry were away from the centre of the church, that they were not part of the congregation, the church, or the worship. The ringers were really a very important part, and he was sure that they would make their place in the church all that was best, not only in the conduct of the bells and their ability to use them, but also in other phases of the life of the church. They as clergy, were open to criticism, he knew. They were not up to the standard that they ought to be, or as sympathetic as they might be. They knew the reason. There was only one quarter from which they could draw clergy, and that was the laity (laughter). The Bishop, whose eloquent response was touched with many passages of humour, in a reference to the sense of humour that he remarked, must exist in the lives of those like the ringers who were helping to bring the message of joy and harmony into the lives of others, recalled a conversation with an old Wiltshire farmer, who remarked, 'Yes, I've seen three Bishops of Bristol, your reverence, and I never want to see another' (laughter). His lordship went on to say that he felt he ought to say something about bells that evening. Certainly as he looked round the tables he saw many belles (laughter). There was nothing so inspiring on a beautiful summer's evening as the sound of a peal of bells across the fields, inviting the people to come into the church, sounding a message of encouragement and affection—the Christian message—into the ears and to the hearts of all those who were within hearing distance. Some of these bells had beautiful inscriptions, and it was quite as interesting to collect these as it was the curious epitaphs that they found over churchyard graves. Probably there were many wireless enthusiasts there that evening, remarked his lordship. He had heard handbell ringing on the wireless only a short while ago, and he thought that if some of their splendid experiments could be broadcast it would convey a great deal of pleasure to countless homes (applause). He wished the Guild every success.

### SILENT BELLS.

'The Bristol United Ringing Guilds' was proposed by Mr. Ernest Bishop, of Swindon, who remarked that they had some excellent Guilds in the city of Bristol, including St. Stephen's, which had created records of which they might be proud. The whole of the city was full of beautiful towers and bells. He felt sure that it would be good for the Guilds if the clergy and ringers became better acquainted. They did not often see them in the towers, but a gathering of that kind helped to do a great deal. He felt that Bristol ringers had a great deal they could do, not only in Bristol, but in the surrounding districts.

Mr. Edgar Guise, responding, said that if all the Guilds did as much for the bells as they did in Swindon he was sure that all the bells would be in excellent order. In Bristol and district they had 26 peals of bells. The Bristol Guilds were in their infancy, but during the past year they had put their work into excellent use. As years went on they would find the organisation more and more useful. Mr. Guise also made an allusion to the non-use of certain bells in the city.

The Bishop, referring to this, said that if the bells were to be transferred to a new church they would have to ensure that there would be adequate accommodation. It would be extremely difficult at the present moment to raise the necessary sums for this purpose. Another difficulty was that these churches were under vestries, and there was no more reactionary body than a select vestry (laughter). It would be extremely difficult to persuade them to part with any portion of their property, and there were legal difficulties also. His lordship would be pleased to convey the remarks made to the members of the vestries.

Dr. Alexander, churchwarden of St. Mary-le-Port Church, Bristol, asked that he might be allowed to say a few words as a 'select vestryman' (laughter). He quite appreciated the suggestion made, that with suburbs rapidly growing the need for churches should be considered. Why not send these bells to give their message if they had no further message to give in their present position?

### CATHEDRAL WITHOUT BELLS.

'We are bound together in one great object of promoting change ringing and the fellowship and good conduct of the belfry,' said Mr. William Knight, in proposing 'Kindred Guilds and Associations.' Bristol was supposed to be the city of churches and bells, said the speaker, but the Mother Church was without a peal of bells. He would rather see a peal of bells at the Cathedral than a new bell at Bristol University.

Mr. Pryce Taylor, of Loughborough (who represented the Midland Counties Association), said that as he travelled about the country he saw an enormous number of young fellows who had taken up ringing and were sticking to it. These gatherings were of great assistance. The speaker referred to the great bell, weighing ten tons, that had been cast for Bristol University tower, mentioning that it was already cast and tuned and ready for dispatch. With Great Peter of York it as the third heaviest in England. He added that several names had been suggested for the new bell, such as 'Yellow Peril' and 'Gold Flake' (laughter), but he did not know what name it would eventually receive. It had a Latin inscription, but, amid humorous retorts, he said he would not divulge its translation; he would leave that for Bristol ringers to do when they read it.

Mr. A. A. Hughes, of London, who also responded, remarked that ringers' gatherings did a wonderful amount to consolidate the Guilds' position. They created links that were not easily broken between Bristol and London and the various districts.

The Rev. R. H. Whitford, in proposing the toast of 'The Press,' made reference to the amount of usefulness which journals dealing with special subjects could be put to.

Mr. J. W. Jones, in submitting 'The Artists,' paid a great tribute to Mr. H. V. Spiller, saying that he singled him out because he (Mr. Jones) being a Welshman knew what a baritone was. He would be going into the Rhondda Valley in the next few days, and he would tell them that they would have to go to Bristol United Ringing Guild's banquets to hear better baritone singing than they had in Wales.

He (Mr. Jones) added: 'We have all heard a lot about Bristol Surprise, but everyone in that room had had Bristol Surprise that night. He had attended all four dinners of the Guilds, and it was his emphatic opinion that that one was the best.'

Mr. C. Read, in responding, said that it gave them all real pleasure to come to the Bristol United Ringing Guilds' dinner, and that they all hoped to be associated with it for many years to come. He was surprised at the number of diners that evening, there being 131 present. He had a lot to do with dinners, and knew what a struggle there usually was to get 80. It showed, he said, the enthusiasm of the ringers.

During the evening handbell selections were given by Messrs. Brown and Misses Jordan, songs were contributed by Mr. Lloyd Williams, Miss Edith Hill, Mr. E. H. Cooke, Mr. H. Spiller and Mr. Val Davies; Messrs. Spiller and Williams sang a duet; Miss Dorothy Hill and Mr. A. Stowell gave recitations, and Miss Read played some delightful 'cello solos. The programme, which was a most enjoyable one, and of high musical merit, was arranged by Messrs. W. S. Emery and E. Guise, and the accompanists were Mrs. W. Sowden and Mr. C. Read, I.S.M.

During the afternoon ringing had been indulged in at various Bristol Churches, a peal attempt at St. James' being unfortunately lost about half-way.

### BULWELL RINGER'S DEATH.

It is with regret we announce the death of an old ringer, in the person of Mr. Enoch Foster, of Bulwell, who died on Tuesday, Jan. 6th, at the age of 63 years. He was interred in Bulwell Churchyard on Saturday, January 10th.

The deceased, who had been a ringer at the Parish Church of St. Mary, Bulwell, for over 40 years, will be greatly missed. Four of his brother ringers rang a course of Grandsire Triples on handbells at the graveside, and a touch of 546 Grandsire Triples was rung on the tower bells for morning service on Sunday, January 11th, with the bells half-muffled, as a last token of respect.

## THE ITINERANT BELL FOUNDER AND THE BEER ACCOUNT.

An interesting little article headed 'The Thirsty Bell Founder,' written by Jean L. Durrant, appeared in last Friday's issue of 'The Daily News.' The information it contains is largely based upon the records of that itinerant founder, John Waylett (who was in business from 1714 to 1727), which appear in Dr. A. D. Tyssen's 'Church Bells of Sussex.' We are not so sure, however, that the inference that the beer provided on various occasions was all for the founder. In all probability the ringers had their full share of it—and, perhaps, parson and churchwardens, too, for the official expenditure on the beverage was apparently only on 'ceremonious occasions.' Be that as it may, the writer, we think, is a little wide of the mark in saying that Waylett was probably of the gipsy type. She has not realised the fact that in those days—two centuries ago—the lack of means of transport made it imperative in many cases for the bell founder to go to the bells instead of the bells going to the founder. But the article is none the less interesting reading. She says:—

All over Sussex from the little village churches come the climes of the bells cast by old John Waylett, the tinkering bell founder of the 18th century. Sussex possesses forty of his bells, and during his wanderings he repaired the peals throughout the county.

Probably he was of the gipsy type, loving the open road, making friends as he tramped from place to place, and choosing to make his fires in the open and work in the fields instead of in a foundry. His bells still chime from every quarter, and the old parish records prove that he drank beer as he worked, plenty of it.

His method was simple. He would call on the Vicar of the Parish, and inquire if new bells were wanted, or if the old ones needed repairing; when he received an order he would dig a mould in a field near the church, make his fire, collect the metal he needed, and cast his bell or repair the cracked one on the spot.

In 1724 he was at Lewes, where he built his furnace, and mended the peals for all the outlying villages. It was in that year he cast the Steyning peal, made a new treble bell for Mayfield, and recast the old one. Three of his bells are now in old Withyham Church, the little village associated with the Sackville family, who have owned Buckhurst Park since the reign of Henry II. The church was partially destroyed by lightning, but the vaults where the Sackvilles were buried escaped injury. A large window gives their genealogy, now represented by Earl De La Warr. The Latin inscription reads: 'The noble family of Sackville here awaits the Resurrection.'

John Waylett's work on the bells evidently made him thirsty, and the old parish records show the amount spent on beer during his visits. When he was at Withyham the churchwardens paid 3/6 for his beer, and the price per gallon was less than for a pint now. At Mayfield, according to the old parish accounts, the expenditure on beer in connection with his visit was as follows:—

|  |        |
|--|--------|
| Beer to the ringers when the bell founder was here ..... | 2/6    |
| When the bell was weighed .....                          | 3/8    |
| When the bell was loaded .....                           | 2/0    |
| When the bell was carried to Lewes and back .....        | 1/10/0 |
| When the bell was weighed and hung .....                 | 3/0    |
| Beer for the officers and others hanging the bell .....  | 18/0   |
| Beer for the ringers when the bell was hung .....        | 6/6    |

The ringers of the little village of Burwash on one occasion refused to ring the bells when George IV. passed through on his journey back to Brighton after a visit to Etchingham. They had rung him in to the village on his way there, but solidly refused to ring him out on his return.

No persuasion would move the Sussex men, so the bells were silent, because the First Gentleman in Europe had not mentioned beer.

## PRESENTATIONS AT SHROPHAM.

On Saturday evening a farewell half-peal was rung by members of the Norfolk Guild, consisting of seven six-scores each of Canterbury Pleasure, Grandsire and Plain Bob. Before lowering the bells, Mr. C. Hewitt, on behalf of the Shropham company, presented their conductor with an inkstand, and Mr. W. Allen, conductor of Rockland All Saints' company, presented him with a fountain pen. They remarked that Mr. Mason deserved some recognition of his unsparing efforts for the 18 years (except during the war) during which he had spent many hours in teaching young ringers, and making the ringing of much higher standard. They felt sure that the ringers of Martham would be the gainers by what would be lost in that belfry.—Mr. Mason, in reply, thanked both companies for their unexpected gifts. He should look at them and remember the happy hours he had spent in practice, and also in ringing for service. He had always thought how nice it was for anyone to be able to return to his native village, but he had suddenly realised that was not so entirely pleasant as one might think.

Members taking part in the ringing were J. Peck 1, W. Allen (Rockland) 2, E. Hunt (Freshingfield) 3, Fred Shingfield (Rockland) 4, Herbert Mason (conductor) 5.

## RINGERS' SUPPER AND PRESENTATION AT STANMORE.

A pleasant evening was spent at Zion House, Stanmore, on Thursday, January 8th, when the Stanmore ringers held their annual supper. The Rector (the Rev. W. A. Hewitt) presided, and was supported by Mr. C. T. Coles (hon. secretary, Middlesex County Association), Mr. F. A. Edwards (Bushey), Mr. J. Milner (Isleworth), and 10 members of the local band. A letter of apology was received from the Rev. S. F. L. Bernays (Rector of Finchley, and late of Stanmore), explaining his inability to be present.

After supper had been disposed of, and the loyal toast honoured, Mr. G. Hughes (Master) proposed the toast of 'The Rector and Churchwardens.'—Mr. Hughes expressed the pleasure of the ringers at having the Rector with them, and regretted the unavoidable absence of the churchwardens. He also mentioned that as a society they had made good progress during the last twelve months, which was due to the great help given to them by Mr. Edwards and Mr. Milner, and he assured the Rector that the society was stronger now than it had ever been. — The toast was then drunk with musical honours.

The Rev. W. A. Hewitt, in reply, thanked the members for inviting him to their annual supper. He was glad to meet them, and also to hear the bells rung, and he especially thanked them for the peal rung on the eve of his induction in December.

Mr. F. Hill (secretary) proposed the toast of the visitors. He thanked the hon. secretary of the Middlesex County Association for being present with them, at which they felt honoured. To Messrs. Edwards and Milner he expressed heartfelt gratitude for the immense amount of trouble they had taken to help them at Stanmore.

This toast having been honoured, the Rector presented Mr. Edwards with a fountain pen as a small token of the regard felt for him by the local ringers. It was the intention to present Mr. Milner with a suitably engraved bell, but the jeweller having failed them, this part of the proceedings had to be postponed.

Mr. Edwards briefly thanked the Stanmore ringers for their gift to him, and said it was a pleasure to help them. They had themselves given him every encouragement by attending the practices regularly, and he was glad that some of them had achieved their ambition of ringing in a peal of Grandsire Triples.

Mr. Coles expressed his thanks at being invited, and said he was very pleased at the progress made by the Stanmore ringers during 1924. He hoped they would go on until they were able to ring a peal with an entirely local band. On behalf of the Middlesex Association he thanked Messrs. Edwards and Milner for the help they had so freely given to the Stanmore ringers.

Mr. Milner also expressed his thanks, and said it was a pleasure to help such a fine lot of fellows as he met at Stanmore.

Songs by Messrs. G. Hughes, F. Edwards, F. Hill, W. Lancelley and H. Moxom were interspersed between the various toasts, and a pleasant evening came to an end all too soon.

## OLD CUSTOM AT SALEHURST.

Following the usual custom, the Salehurst (Sussex) ringers met at the tower at 11.30 p.m. on Old Year's Day, and rang out the old year. On the stroke of 12, the bells were fired, and then started off into a well-struck touch of Grandsire Triples to usher in the new year. The ringers met again at 10.30 a.m., and at intervals throughout the day rang several touches of well-struck Grandsire Triples and Bob Major. At six o'clock they adjourned to the 'Old Eight Bells,' where an excellent dinner was provided for them by Host and Hostess W. Foreman.

In the absence of the Vicar and churchwardens, the chair was taken by Mr. W. Hoad, of Glottenham. After the usual loyal toast had been given, and a verse of the National Anthem sung, Mr. Hoad proposed 'The Health of the Bell Ringers.'—This was responded to by Mr. T. Booth, the captain, who thanked the ringers for their support, and hoped they would attend in future as well as they had done in the past. He also hoped they would attend the practices as well as on Sunday.

A letter was read from Mr. L. J. Hodson, churchwarden, regretting he was unable to be present, but thanking the ringers for their services, on behalf of himself and the worshippers, who, he was sure, appreciated very much what the ringers did.

Mr. W. Franks, of Battle, thanked the Salehurst ringers for their kind invitation to him, and said he was pleased with the way the band had stuck to ringing. The way they struck their peals did them great credit.

The rest of the evening was spent in harmony, songs being rendered by Messrs. W. Franks, T. Hoad, J. Goodsell, W. Foreman, and F. Ballard, Mr. W. Stevens presiding at the piano.

The evening concluded with 'Auld Lang Syne,' and a hearty vote of thanks to Mr. and Mrs. Foreman for an enjoyable evening.

**TURNER'S HILL, SUSSEX.** — On Saturday, December 27th, a quarter-peal of Bob Minor, in 44 mins.: G. Oliver 1, E. Stoner 2, A. C. V. Gasson 3, C. J. E. Gasson 4, C. Holman 5, A. E. T. Gasson (conductor) 6. This is the first quarter-peal on the bells, which were opened on October 18th, 1924. The ringers belong to the Balcombe band.

## RINGERS AND CHURCH COUNCILS.

## WHAT TO DO AND WHEN TO DO IT.

## To the Editor.

Dear Sir,—In your leading article, and in Mr. Young's letter, it is stated that the 'time for action is between the New Year and Easter.'

In our Diocese, I do not know what happens in others, we are advised to hold the annual Parochial Church meeting (at which members of the Church Council for the ensuing year are elected), as early as possible in the New Year, now that the financial year ends with the civil year. This being so, ringers should, at once, see that their names are on the roll. If there is any doubt about it, and the roll is not posted at the church, procure a form from the incumbent—if they are not placed somewhere in the church—and fill it up, or ringers may suddenly wake up to the fact that the annual meeting is announced, and there is no time to get their names on 'a fortnight before the annual meeting.'

Having got this far, the next duty is to attend the meeting in force and plump for their representative by giving him the three votes allowed to any one candidate. The regulations provide that any voter may give three votes to one or more candidates provided that they do not give more votes in all than they are entitled to. The number of votes each elector has is the same as the number of members to be elected. Supposing that 18 members are required, each voter will have 18 votes, and may give up to three each to the candidates he wishes to vote for, but not more than 18 in all. Of course, if the number of members to be elected is other than 18, the number would be different.

It may be thought unnecessary to go into this here, but at the meeting this point may be overlooked, so it is just as well to know about it beforehand.

If a band of ringers, with their wives and relations, who have votes will attend the meeting and each give the ringers' candidate three votes his election is in most cases assured. I do not suggest that they should not vote for any others, but do not plump for more than the ringers who are up for election.

D. G. TAYLOR.

Under the Church of England Assembly (Powers) Act, the following rules are laid down:—

Section III.—Electoral Roll . . . . 1 (1) It shall be annually revised not less than twenty-eight days before the Annual Parochial Church Meeting. Notice of such revision shall be affixed at the place or places hereinafter prescribed with respect to notice convening the said Parochial Church Meeting (i.e., at or near the principal door of the church) fourteen days at least before such revision takes place.

(2) The roll shall be published by being affixed at or near to the principal door of the church in such manner as the Parochial Church Council shall appoint, and the roll shall be open for the enrolment of new voters continuously up to fourteen days before the day of the Annual Parochial Church Meeting.

## 'RING OUT THE OLD, RING IN THE NEW.'

LISCARD, CHESHIRE.—On Wednesday, Dec. 31st, for the Watch-night service, at St. Mary's Church, a quarter-peal of Grandsire Triples (1,260 changes), in 50 mins., with the bells half-muffled: W. Simpson (longest touch and first attempt as conductor) 1, A. Woosnam 2, J. Hughes 3, F. Woosnam 4, D. Hughes 5, W. Woosnam 6, H. Williams 7, F. Winstanley 8.

## MR. HARRY CHAPMAN'S 500 PEALS.

## A LIST WHICH INCLUDES SOME RECORDS.

Mr. Harry Chapman, of Manchester, is the latest among ringers to score his five hundredth peal.

Harry Chapman, than whom there is no better known or more popular ringer in the Exercise, was born at Bythorn, in Huntingdon, on Nov. 12th, 1863, and commenced to pull a bell at the age of nine years, his father being at that time parish clerk. It was, however, not until he was 19 years old that he took up change-ringing, and visited Raunds, Northants, for the purpose. Later he came in contact with Mr. C. W. Clarke, of Bedford, and on August 14th, 1886, he rang his first peal. This was at Cardington. In 1888, Mr. Chapman went to reside at Manchester, where his first peal was Treble Ten at the Cathedral. He took part in the first peal of Stedman by the Lancashire Association (at Eccles on December 28th, 1891), and conducted the first peals of Oxford Treble Bob, Superlative and Cambridge Surprise in Lancashire. He was the first to ring Manchester Town Hall tenor single-handed to a peal, and a month after ringing it he helped to Grandsire Caters, turned in this bell (52 cwt.) to Treble Ten.

Among other memorable performances, Mr. Chapman took part in the record 12,240 Kent Treble Bob Maximus, and the 14,000 Kent Treble Bob Royal at Ashton-under-Lyne, and the record 14,112 London Surprise Major at King's Norton.

For many years, Mr. Chapman has been a member of the committee of the Lancashire Association, which he has represented on the Central Council, which latter body honoured him, during a period when he was not an elected representative, by making him an honorary member. Of his peals, considerably over 300 have been rung for the Lancashire Association. The following is his list of 500:—

|                              | Rung. | Conducted. | Longest Length. | On Handbells. |

## SHUNT v. SWITCH.

## To the Editor.

Dear Sir,—I observe that the Revs. Davies and Drake are likely to join the list of those who are at variance in your columns. If they elaborate upon the above words, our knowledge will be enlarged, and it will be of interest to see with what polite deference they will agree to differ. They will thus give a lead to many who appear to see in a difference the rarely missed chance to abuse the opposite party.

As regards the two words, it will be found that like 'Railway' and 'Railroad,' 'Points' and 'Switches,' 'Station' and 'Depot,' etc., the first are English and the latter American. If we are adopting them, it is probably due to the capture of the film trade by America; which indeed boasts that it will Americanise the world thereby.—Yours faithfully,

'TEMPLE BAR.'

### PRESERVATION OF OLD MSS.

Such interesting information as that which we are able to give this week concerning the bells and ringing in days gone by at Stonham Aspal, leads one to wonder whether some really determined attempt cannot be made to collect, catalogue and, where desirable, publish the records which must exist in various parts of the country, in the shape of MSS. (such as that from which Mr. Slater has compiled his article this week), the peal books of old ringers, and other material which may at present be available, but which in the future, if not carefully guarded, may disappear and be lost for ever to the Exercise. In the hands of men like Mr. Theodore Slater such papers are jealously cared for, but in the hands of some future owner they may be looked upon as worthless and consequently destroyed.

Some old papers of historic value, like the Osborn MSS., have from time to time found their way to the British Museum; the MSS. of Mr. Charles Hattersley have been placed in a specially formed library at Sheffield Cathedral, and the future of some others have, perhaps, been secured. But there is much else which may well entirely disappear unless an effort is made to secure it for the Exercise, and, in this connection, it should be remembered that interesting as these documents may be to-day, they will increase both in interest and value as the generations go by. We should like to see some scheme initiated by the Central Council for cataloguing all these papers as far as it is possible to trace them, so that they may know where to look for them in future, and at the same time steps should be taken to ensure that when present owners (or their heirs) have done with them, these papers will pass to the custody of the Council.

Unfortunately in the past the Council had an unhappy experience with one of its committees in work of this description, but the 'lineal descendant' of this committee is a much more 'live' body, and perhaps it could be induced to take up the task of acting as an inquiry agent to gather particulars of existing MSS. of interest, and to make suggestions for the preservation of the papers. Such work would not only be of present interest, but future generations would appreciate the effort made to save those historical records which, once destroyed, could never be replaced. In addition to these MSS., there is also the question of compiling information as to old peal records. The Council possesses now the ringing publications of the last fifty years. The history of our art could be made much more complete if such particulars as exist of all previously rung peals could be collected and placed in the Library.

**SALISBURY DIOCESAN GUILD.****DEVIZES BRANCH VISIT EDINGTON.**

On Tuesday evening, January 13th, a combined practice of members from Trowbridge and Bratton, with some of the regular ringers, was held at the beautiful Church of St. Mary, St. Catherine, and All Saints, Edington, Wilts, by the kind permission of the Vicar (the Rev. F. Sprent). Touches of Grandsire and Stedman Doubles were rung. Good striking was very difficult on account of the noise, and the 'go' of the bells. The bells, six in number, tenor about 24 cwt., are sadly in need of the attention of the bell hanger.

Edington possesses one of the finest churches in the county of Wilts, being built between 1,351 and 1,361 by William of Edington, Bishop of Winchester, and Chancellor of England, who also founded the monastery, and at the special request of Edward the Black Prince founded a college of Augustine Monks, called the Bonshommes, there. There were only two houses of this Order in England, the other being at Ashbridge, Bucks. The Monastery remained until the Dissolution, in 1539, when Paul Bush, the Prior or Rector, was made the first Bishop of Bristol.

The church was very extensively repaired at the cost of about £7,000 about 35 years ago. The bells till then were rung from the floor of the church.

It is to be hoped that something will be done to put this peal in order, as Edington would then have one of the finest peals of six in the county. The parish, however, is purely agricultural, and possesses no endowments.

**LADIES' GUILD.**

A quarterly meeting of the Southern District was held at Ash on Saturday, January 10th, and a small party, including eight ladies, had a very enjoyable time. The Rector (the Rev. Lambrick) conducted the Guild service, and gave an interesting address. Tea was served in the Parish Room, and then followed the short business meeting.

It was decided to hold the next quarterly meeting, if possible, at Yateley, in April.

A vote of thanks was accorded to the Rector and to all who had helped to make the meeting a success.

The service touch, 120 Grandsire Doubles, was rung by Miss Nancie Denver 1, Mrs. Melville 2, Miss Nye 3, Miss Avenall 4, Miss H. Mills 5, Miss G. Manfield 6. Later, 240 Kent Treble Bob was rung by Miss Nancie Denver 1, Miss B. Mills 2, Miss Nye 3, Miss Avenall 4, Miss A. Fisher 5, Miss H. Mills (conductor) 6.

**C.-Q.-M.-S. GILBERT'S CENTURY.**

With a peal of Grandsire Triples at Aldershot on the last day of 1924, C.-Q.-M.-S. Gilbert, R.E., completed his 100 peals, of which the following is a list:—

|                                  | Rung.      | Conducted. |

| <b>Total .....</b>               | <b>100</b> | <b>20</b>  |

\* Includes first peal ever rung by Army and Navy band. These peals were commenced in 1903, with a break of nine years, and another of five years, during which no peals were rung; 191 ringers took part (24 first peals). Rung in 6 counties, 47 towers, and under 6 associations.

C.-Q.-M.-S. Gilbert wishes (through the medium of 'The Ringing World') to express his thanks to the following for their untiring patience and valuable help, during his spasmodic stages of ringing: 1903-4, Mr. J. H. Champion and W. J. Walker (still walking), Rainham, Kent, and Mr. William H. B. Wilkins, Tunstall, Kent (now at Oxford); 1913-14, Mr. Charles Edwards, Farnham, Surrey (now at Hereford), and the redoubtable A. H. P., also of Surrey; 1920-24, Mr. Alfred H. Pulling (still pulling), who was personally responsible for the Surprise methods, and one or two other 'firsts in the method.'

Lastly, all ringers with whom he has come in contact for the very pleasant hours that have been spent in scoring, and also losing peals and service touches.

## BELFRY GOSSIP.

'Fifty six-scores of Grandsire Doubles, each rung differently.' How did they do it? This is the question which the reader will naturally ask himself when perusing the report of the peal at Radstock. The footnote will enlighten him. Each of the five bells was used in turn for ten six-scores as the plain hunt bell.

A peal has been rung at Weybridge, Surrey, the first since Sept. 12th, 1900, when the Rev. F. E. Robinson called a peal of Stedman Triples.

Forty years ago to-morrow, viz., on January 24th, 1885, the Sussex Association was established, and there can now be very few of the original founders left.

Two days later the first peal by the Association was rung by the Brighton branch at Uckfield, conducted by J. Jay, senr. Of that band there are, we believe, only two survivors: Charles Tyler, of Henfield; and George King, now in Canada.

Six other peals were rung in the same year, and in those days a marble tablet was put up for each peal! But that practice soon became too costly.

There was a singular coincidence on January 25th, 1842. On that day a peal of 8,105 Stedman Caters was rung at Painswick, and a peal of 8,081 Grandsire Caters at Stroud. Both, however, afterwards turned out to be false.

On January 28th, 1751, a peal of 5,094 Grandsire Caters was rung at St. Sepulchre's, Holborn, London.

The Oxford Diocesan Guild rang a peal of 10,080 Double Norwich at Appleton on January, 1888.

The same date in the year 1911 saw the first peal of Cambridge Surprise Maximus rung in London. This was by the College Youths, at Cornhill.

The first peal of Double Bob ever rung, 'with bobs behind and before alternately,' was performed at St. Mary's, Whitechapel, on Sunday, January 29th, 1769, composed and conducted by George Gross.

Henry Haley, the famous London ringer, died at Bethnal Green on January 29th, 1886, at the age of 66 years.

The peal of Grandsire Triples, rung on December 20th, and published under the heading of Biddenham, Kent, was rung at Biddenham, and the composer was A. E. Barnes, and not Barnes, as printed.

The peal rung at Isham last Saturday was finished in complete darkness at 5.10 p.m. owing to the omission of lighting lamps, and this explains why Plain Bob was substituted for the last method and rung twice in the peal. It was the treble ringer's first peal, and great credit is due to him on this account. The peal also celebrated the christening of David Edward Atkins by his grandfather, which took place at this church on the following day.

There is merit in a peal such as that rung at Marshfield, Gloucester, last week, as the footnote reveals.

The ring of six bells at St. Mary's Church, Old Leake, which have been silent for some years owing to their unsafe condition, are to be rehung with entirely new fittings by Mr. A. Bowell, of Ipswich. The work is to be finished by Easter.

We are not certain who rang most peals in the year 1924, but the ringer who exceeded Mr. I. G. Shade's total of 84 made a good score. We said some time ago that Mr. Shade, who was then a long way past the thousand mark, had given up work to go in for ringing, and, by George, he has not belied the prophecy.

Apocryphal the 'long' peal at St. Giles', a correspondent suggests there might be a 'bow-legged' peal at Bow.

## DEATH OF WELL-KNOWN STEPNEY RINGER.

We regret to announce the death of Mr. George Barrell, of Stepney, which took place on December 31st, after a long and painful illness, from cancer, in his 68th year.

Mr. Barrell was a regular service ringer at St. Dunstan's Church, Stepney, for many years, and rang the tenor there and at various other churches in the East of London, to many peals, a record of which is not available. Being of splendid physique, he was the ideal man for a heavy or difficult tenor, his perfect timing being a great feature of his ringing.

Born at Rittenden, in Essex, on December 17th, 1856, Mr. Barrell came to London to join the Commercial Brewery Co., Stepney, where he was a contemporary of Mr. Emanuel Hall, now residing in Toronto, Ontario, Canada. Elected a member of the Ancient Society of College Youths on November 13th, 1890, he always maintained the greatest interest in the society.

On Wednesday evening, January 7th, the 'whole pull and stand' was rung by the following members at St. Dunstan's Church: H. Langdon, T. Bennet, W. Tanner, W. G. Barrell (son), T. Langdon, A. R. Macdonald, J. Scholes, R. F. Deal, J. Bullock, W. T. Cockrill; and afterwards Stedman Caters and Cambridge Surprise Major, with F. G. Symonds taking part.

Here the news was regrettably received that Mr. Emanuel Hall had lost his wife, after a short illness, at Toronto.

## STONHAM ASPALL BELLS.

## INTERESTING HISTORY OF THIS OLD SUFFOLK RING.

We are indebted to Mr. Theodore E. Slater, of Glemsford, for the following further particulars concerning the bells at Stonham Aspell, Suffolk, Mr. Slater having copied them from the MSS. compiled by his father.

Extract from the 'Ipswich Journal' for 1743:—

'Samuel Grimwood, Innkeeper, of Stonham Aspell, gives notice to all lovers of ringing that on Monday, the twenty-third of May next, the new peal of ten bells, lately cast by Mr. Thomas Lester, of London, and now hanging there by Mr. John Williams, will be rung for the first time by any company that will do themselves the pleasure of coming. The Norwich and Aylsham ringers have hired lodgings at Stonham Pye and the neighbouring houses, intending to be in the steeple early on that date abovementioned.

'N.B.—Mr. John Williams who has hung most of the peals in and about London hangs church and chapel bells in the best manner, and at the cheapest rates, and may be spoken with at any time at his house in Stonham Aspell Street.'

It will be seen by the foregoing that the new peal of ten bells was opened on Monday, May 23rd, 1743. They remained thus until 1826, when they were all taken down and entirely rebung by Thomas and Joshua Hurry, of Norwich, and six of them recast. They were opened on Thursday, December 28th, 1826, when the two Hurrys and some of the Norwich Scholars, with William Leach, of Ipswich, started for a 5,400 of Bob Royal. When they had rung about 3 hours, Leach set his bell, the tenor, and said to Thomas Hurry, who was calling the peal and ringing the treble and had made a false call: 'No! No! Mr. Hurry, there is scope enough on ten bells without ringing changes over again. I never rang a false peal yet, and never will, if I know it.'

The first account of a peal being rung on the bells is copied from the files of the 'Ipswich Journal,' but it is thought that it was not the first peal rung on the bells.

'On Sunday, the 22nd of September, 1751, was rang upon the eight largest bells at Stonham Aspell, in the county of Suffolk, a complete peal of Five Thousand and Forty Bob Major Doubles, in 3 hours and 20 minutes, by the persons undermentioned: Henry Gray third, Daniel Heasham fourth, Richard Wade fifth, James Gardiner sixth, Joseph Alexander seventh, John Sharp eighth, William Walker ninth, James Wilson tenor.'

No conductor's name is given in the 'Ipswich Journal.'

The next peal is without doubt Holt's Original, and this was the first time that it was rung out of London, and the second time that it was rung at all.

'On Friday, January 31st, 1752, was rang at Stonham Aspell, in the county of Suffolk, by their own Society of Ringers, a Five Thousand and Forty Grandsire Tripples, it being the second time ever rang with two Doubles only. This true peal has been very lately found out by Mr. John Holt, of London, and the Bobbs were called by Mr. William Walker. It was completed in 3 hours and 10 minutes by the eight following persons:—

'Henry Gray, treble; Daniel Heasham, 2nd; James Gardiner, 3rd; Richard Wade, 4th; William Banyard, 5th; John Sharp, 6th; Richard Moysse, 7th; John Thurlow, tenor. Note.—It is thought impossible for a man to ring one of the bells and call the Bobbs at the same time, the peal being so intricate.'

The following are records of other peals:—

'On Thursday last, February 11th, 1752, was rang at Stonham Aspell, in the county of Suffolk, a complete peal of 6,160 Bob Major on the eight largest bells, in 4 hours and 2 minutes:

'Henry Gray, third; Daniel Heasham, fourth; Richard Wade, fifth; John Sharp, sixth; William Banyard, seventh; John Plourman, eighth; Richard Moysse, ninth; William Walker, tenor. N.B.—John Sharp call'd the Bobbs.'

'Stonham Aspell.—A true peal of Five Thousand and Forty Bob Major that was rang at Stonham Steeple by ye Stonham Society on Monday, ye 4th of January, 1768. It was completed in three hours and fifteen minutes by ye people on ye other side written: Henry Gray, treble; Richard Wade, 2nd; William Banyard, 3rd; James Wilson, 4th; and called ye peal Joseph Alexander, 5th; Daniel Wade, 6th; Richard Moysse, 7th, younger; Richard Moysse, tenor, elder.'

This last peal record is copied from Daniel Wade's MS. book, which is still in my possession. The others were copied from the 'Ipswich Journal,' by Samuel Slater.

There is no record of any more peals being rung upon the bells until 1884, when ten members of the Norwich Association rang on Whit Monday in that year Ben Annable's 5,000 Kent Treble Bob Royal, to which reference was made in your last issue.

The inscriptions on the bells before recasting were:—

On treble and second: 'Theodore Eccleston, Esq., 1742. Thos. Lester, of London, made me.'

On the old third:

'At proper times my voice I'll raise,  
Unto my Benefactor's Praise.

Theodore Eccleston, Esq., 1742.'

The following is a description of the tower and bells made by

Samuel Slater: 'The steeple of the Parish Church, Stonham Aspell, is placed on the south side of the church, and forms the principal entrance to the church, this being a great curiosity. In the year 1742, Theodore Eccleston, a gentleman, residing at Crowfield Hall, decided to take down the old ring of five bells and replace them with a ring of ten. It appears that after he took down the old ring of five and got the new ring of ten, he had never thought how and where they were to be hung, as the steeple is a small one, being built only to receive the old ring of five. The room necessary for the ring of ten was found thus: The old steeple was taken down to the floor where the frames were to rest on, and a frame was made nearly the size of the steeple, and the bells hung on the walls, and the upper part was studded up, boarded and surmounted with four wooden pinnacles, and altogether has a very handsome appearance. The old ringing room was also very tastefully decorated and fitted up. It was about ten feet from the ground, and the walls and ceiling were plastered, and a boss with a gold and blue ring for each rope to come through in the ceiling. In the centre was a golden pineapple, from which hangs the beautiful brass chandelier with its six or eight branches, and round the boss was engraved the name of the donor, "Theodore Eccleston, Esq., 1742." The floor was fixed so that the ringers of the treble and second and the fifth and sixth bells could stand under the west and east arches in the steeple. The window comes down to the floor, and used to be opened to hear the trebles from the outside, as they hang quite on the wall. Then could be heard the ten bells to perfection. But now, alas! the ringers are placed higher up in the steeple, and the window already mentioned above cannot be opened, and so the trebles of this fine ring cannot now be heard in the ringing room, thus making it very awkward for the ringers to strike the ten bells, but they can be heard outside.'

Tradition tells us that the bells were taken first to Crowfield Hall barn, and there John Williams made the frames for them, the timber having grown on the estate.

When John P. Powell, of Quex Park, published his broadsheet and gave one to every existing band of ringers in the kingdom he sent one to Daniel Wade, and that along with Wade's MS. book, are in my possession in a good state of preservation.

The view of the church, shown in 'The Ringing World,' is a north view.

## NORTH NOTTS ASSOCIATION.

## EAST MARKHAM'S NEW BELLS.

The first meeting of the new year of the North Notts Association was held at Tuxford on Saturday last, and proved a very successful and representative gathering. Members were present from Anston, Blyth, Gainsborough, Dunham, Shirecoats, Treton, Ordsall, East Retford, Laxton, Lincoln, East Markham, Worksop, Sutton-on-Trent, and the local company, numbering 28 in all. Usually at this place the Vicar has been in attendance to welcome all on arrival, but illness prevented him doing so, and his deputy was Mr. Smith, one of the wardens, who also arranged to have the bells in fair going order, considering that two or three of them require the services of a bell hanger. Mr. Smith promised to draw the attention of the Church Council to this, with a view to rehanging.

The following methods were rung: Oxford, Kent, Violet, Loudon Scholars' Pleasure and Bob Minor, a 720 being rung in this last-named method by a mixed band. At 4.15 p.m., a gentleman, who shall be nameless, volunteered to give some of the visitors a run in his large motor-car before tea to East Markham for the purpose of testing the two new bells which have recently been put in by Messrs. Taylor to augment the ring to eight. These bells were given by the late Mr. Henry Couleshaw as a memorial to himself and wife, who died quite recently. The bells are a beautiful 'splice' to the old six, and are another specimen of this well-known firm's good workmanship, the tone and 'go' being everything desired. The new clock being put in by Mr. Hopps, of Leamington, nephew of the late Mr. Couleshaw, is being arranged in the ringing chamber in one corner so as not to impede the view of the ringers, and the ropes fall in a beautiful circle. An intermediate floor has also been put in by this gentleman to deaden the sound, which has made a great improvement in the ringing chamber. The new bells will be dedicated on Sunday, Feb. 1st, at 2 p.m. by the Lord Bishop of Southwell, after which the bells will be at the disposal of the visitors during Sunday afternoon and for evening service. Three short touches of Kent Treble Bob Major were rung to give everybody a chance, and all expressed their appreciation of the sweetness and purity of the tone and good splice of the ring.

Returning to Tuxford at 5.30 p.m., tea was served to 28 at Mrs. Jones' Temperance Hotel, after which the usual business meeting followed, with Mr. Hargreaves in the chair, in the unavoidable absence of the Vicar.

Cecil Rushby, of Blyth, was elected a member.—The next meeting will be held at Blyth on Easter Monday, and will be advertised later in 'The Ringing World.'—A hearty vote of thanks was accorded to the Vicar for the use of the bells, and congratulations were also extended to him and his wife on their recent marriage, wishes being expressed for their health, long life and happiness.

The tower was again visited, and the bells were rung until 8.15 p.m., when they were lowered in peal. H. H.

## WARWICKSHIRE GUILD. ALTERATIONS TO RULES.

The Guild's first quarterly meeting of the year was held at Bedworth on Saturday last. Members were present from Allesley, Coventry, Bulkington, Chilvers Coton, Exhall, Nuneaton, Stoke and Wolvey, and included several ladies.

On account of the indisposition of the Rector (Canon F. R. Evans), together with the loss of his curate, by death, the usual service could not be held.

The tea and business meeting was held in the Schoolroom with the Rector's kind permission, Mr. H. Argyle being voted to the chair, in the unavoidable absence of the president.

The chief business was the adoption (with one or two exceptions) of the committee's recommendations of the revised rules. Several alterations were made, including the deletion of Rule 4, which deals with the qualification of members, it now being possible for any person to join the Guild on being nominated by two members at any meeting.

In view of the ordinary ringing members' subscription being raised from 1/6 to 2/-, it was also decided to increase the subscription of non-resident ringers to 5/-, and to include the presentation of the Guild's certificate.

It is hoped to have the new rules printed in the report, to be ready for distribution at the next annual meeting to be held at Rugby, in April.

Stoke-in-Coventry and Stratford-on-Avon were proposed for the next quarterly meeting, in July, Stoke being selected.

Mr. Allan Sanders (Exhall) was duly elected an hon member, and five others as ordinary ringing members.

The hon. general secretary brought forward the appeal for the Washbrook Memorial Fund, and, after some discussion, the scheme was commended to the members personally, in view of the financial position of the Guild.

The Hon. General Secretary (Mr. A. Wilkerson) intimated a desire to be relieved of the office, and hoped the members would be prepared with a new nomination at the annual meeting.

Some excellent ringing was successfully accomplished in the tower, and included Bob Doubles for the learners, Grandsire and Stedman Triples, Bob Major, Double Norwich, Kent Treble Bob, Superlative, Cambridge, Bristol, and London Surprise.

## PRESENTATION AT SHREWSBURY.

On Monday week, January 12th, an interesting presentation was made in the belfry of St. Julian's Church to Mr. D. J. Boucher, on his leaving the town for Germany. The gift consisted of a cigarette case and a box of cigarettes, subscribed for by St. Chad's band, of which the recipient is an esteemed member. The presentation was made by Mr. J. Evans, the oldest member of St. Chad's Society, who spoke of the valuable services rendered to the society by Mr. Boucher. Mr. C. R. Lilley, the conductor, also added a few words, and Mr. Boucher briefly thanked the members for their kind appreciation. Mr. Boucher leaves Shrewsbury with best wishes for his success in his new sphere. Mr. Boucher rang all his first peals with St. Chad's Society, viz., Grandsire, Stedman, Bob Major and Double Norwich Major, Kent Treble Bob Maximus and Grandsire Caters, all being the first rung on St. Chad's bells. He also took part in the first peal in seven methods in the county at St. Julian's, and has rung peals on all numbers from 5 up to 12 bells, except Royal and Cinques.

Various farewell touches were rung at St. Julian's, including 360 Double Court, 360 Kent Treble Bob, 240 Bob Minor and 240 Stedman Doubles.

On the following evening, at St. Chad's Church, 168 Stedman Triples, followed by a quarter-peal in the same method, in 51 mins.: J. Griffiths 1, J. E. Lilley 2, R. Pole 3, D. J. Boucher 4, W. B. Kynaston 5, W. T. Goodfellow 6, C. R. Lilley (conductor) 7, H. Jones 8.

## FREISTON RINGER'S DEATH.

We regret to announce the death of Mr. J. Sharpe, who died on Wednesday, January 7th. He was a ringer at the Parish Church, Freiston, near Boston, Lines, for over 40 years, and had conducted many peals.

The bells at Freiston were rung half-muffled, after the funeral on Saturday, January 10th, and on Sunday, January 11th, at St. Nicholas' Church, Skirbeck, after evening service, 720 Bob Minor was rung with the bells half-muffled, as a token of respect, by S. G. Lovell 1, F. Battram 2, J. Kirk 3, F. Leggott 4, H. Palmer 5, A. H. Palmer (conductor) 6.

The deceased had been a member of the Eastern Branch of the Lincoln Diocesan Guild for forty years, and will be greatly missed.

## MR. R. D. MARSHALL'S 50 PEALS.

Grandsire Triples, 11; Grandsire Caters, 5; Grandsire Cinques, 1; Bob Major, 5; Bob Maximus, 1; Double Norwich Major, 2; Superlative Surprise, 1; Oxford Bob Triples, 1; Stedman Triples, 4; Stedman Caters, 3; Stedman Cinques, 2; Kent Treble Bob Major, 9 (conducted 3); Kent Treble Bob Royal, 3; Cambridge Surprise Major (treble), 1; London Surprise, 1. Rung in 26 towers, under 7 associations, in 8 counties.

## ROYAL SOCIETY OF CUMBERLAND YOUTHS

The annual general meeting, at St. Martin's-in-the-Fields, on Saturday, January 17th, was well attended, and it was pleasing to see many provincial members on this occasion.

Many touches were rung on the beautiful peal of bells, which were kept going until 6 p.m. Tea was then served, after which the business meeting was held in the Church Room.

The balance sheet and report for the year were very satisfactory.

The following officers were elected for the ensuing year: Master, Mr. J. D. Matthews; secretary, Mr. J. Sparrow, 84, Meadvale Road, East Croydon; treasurer, Mr. J. W. Cornford; stewards, Messrs. C. Matthews and T. Bovan; trustees, Messrs. F. Smith and A. Hardy.

At the conclusion of the meeting, touches were rung on the hand-bells, and brought to a close a very pleasant and enjoyable gathering.

## LONDON COUNTY ASSOCIATION.

The Southern District held their annual meeting last Saturday at St. Andrew's, Wells Street, W. The bells were set going at 4 o'clock, and a service was held for the ringers, the Rev. C. B. Marshall giving a short and interesting address. Tea followed in the Church Room, where over twenty members sat down. The business meeting followed the tea, with Mr. H. Mance (the Master) in the chair. The balance sheet was adopted.—It was proposed by Mr. Essery, and seconded by Mr. Mackrill, that Mr. H. Mance should be re-elected as chairman, a decision which met with applause and entire approbation.—Mr. H. Mance agreed to accept office, and re-occupied the chair.—Messrs. Mitchell, Wood and Essery were again re-elected to the posts of hon. secretary, treasurer, and steward, respectively.—The usual hearty vote of thanks was accorded to the retiring officers, who had carried out their duties so effectually during the past year, and this vote of appreciation was duly acknowledged by those concerned.

It is the most earnest desire of all the ringers to tender their most sincere thanks to the Rev. C. B. Marshall, and to Mr. H. Dvas for their assistance in placing the tower and meeting-room at the disposal of the members.

After the meeting, the bells were set going again, and the most popular methods rung until nine o'clock.

## ROMNEY MARSH GUILD.

### SECRETARY RETIRES AFTER TEN YEARS' SERVICE.

The annual meeting of the Romney Marsh Guild was held at Appledore on Saturday, January 17th, about 40 members being present, representing 11 towers. During the afternoon touches of Grandsire and Stedman Triples, Plain Bob and Kent Treble Bob Major were rung, and at 5 p.m. a short service was held in the church, conducted by the Vicar (the Rev. Scutt), Mr. Capeling being at the organ. Tea, given by the Guild, was partaken at the Swan Hotel. At the business meeting which followed, the Rev. Scutt was again elected president, and Mr. C. W. Everett, Master. Mr. Balcomb, who has carried out the duties of hon. secretary and treasurer for the past ten years, to the great disappointment of the members wished to resign, and on the proposition of Mr. Youngs, seconded by Mr. Page, Mr. C. W. Franklin was elected in his stead.

The committee were elected, with the addition of Mr. Pattenden. Three new members, namely, Mrs. Pattenden, Mr. Birch and Mr. Wratton, were entered on the list, bringing the number of members to eighty.

Mersham was selected for the next meeting-place on Feb. 21st.

Mr. C. Tribe, in thanking Mr. Balcomb for his services, stated that in the past ten years he had raised the number of members from 36 to 77. That alone spoke for the grand work he had done, and he hoped the new secretary would follow in his footsteps.

A vote of thanks was passed to the Vicar for the use of the bells, also for presiding at the meeting.

This concluded the business, after which the members settled down to one of the most enjoyable of social evenings, with Miss Neaks at the piano. Songs were rendered by Messrs. Youngs, Parsons, Franklin, Tribe, Pattenden, Johnson and Capeling, and recitations by Messrs. Balcomb, Franklin and Parsons. The evening concluded with 'Auld Lang Syne' and the National Anthem, and the members then turned homeward, some fortunate ones by car, others by cycle and motor-cycle, all having had a really good time.

## SOCIETY FOR THE ARCHDEACONRY OF STAFFORD.

### SUPPORT FOR THE WASHBROOK MEMORIAL.

A successful meeting was held at Tattenhall on January 10th, when some 60 members and friends assembled from affiliated towers in the Archdeaconry, and such distant places as Chester, Croydon, North Wales, Wellington, etc. A short service was held in the Collegiate Church of St. Michael, and a helpful address delivered by the Vicar (the Rev. W. Goode), who also gave the assembly a hearty welcome. A good tea was provided at the Mitre Inn.

It was agreed to support the Washbrook Memorial project by sending subscription sheets round to the several towers.—Votes of thanks were accorded the Vicar for his address, the use of the bells, etc.; the Rev. R. N. Lawson for presiding at the organ; and to Mr. R. Pickering, the local captain, for getting things ready. The next meeting is provisionally arranged to take place at Shenstone on April 25th.

## OXFORD DIOCESAN GUILD. THE SONNING DEANERY BRANCH.

The annual meeting of the Sonning Deanery branch of the Oxford Diocesan Guild took place at St. Paul's, Wokingham, on January 10th. A service was held at St. Paul's Church, the address being given by the Rev. E. E. B. Grant, of Sunninghill. Prior to the service touches were rung on the bells, and after the service the company adjourned to St. Paul's Parish Room, where some 98 ringers sat down to tea.

The business meeting followed. The Rev. Canon G. F. Coleridge, R.D., chairman of the district, was supported by the Rev. B. Long (Rector of All Saints', Wokingham), the Rev. H. M. Walter (Rector of St. Paul's, Wokingham), the Rev. P. H. Ditchfield (Barkham), the Rev. Canon Newhouse (Sandhurst), the Rev. C. W. O. Jenkyn (Master of the Guild), the Rev. R. H. Hart Davis, the Rev. E. E. B. Grant, Mr. R. T. Hibbert (general Guild secretary), Mr. A. J. Wright (Guild treasurer), Mr. F. Dentry (hon. secretary and treasurer, Sonning branch), Mr. E. S. Barry and Mr. A. H. Lusty.

The hon. treasurer produced the balance sheet, which showed a balance in hand of £16 13s. 1d., an increase of 30s. on last year. The Hon. Secretary reported that the branch had made steady progress, not so much by ringing peals as by the number of practices, and so educating the beginners. The membership was 194, compared with 173 last year. The honorary members had been increased by four, thanks to the efforts of Miss Walker and Miss Robinson.

The Secretary made sympathetic reference to the late Mr. Broome, and spoke in high terms of the deceased gentleman's efforts on behalf of the bellringers. He also regretted to report the death of Mr. Arthur Guy. They all wished Mr. Arthur Jones (Wokingham) a speedy recovery from his long illness. One peal had been rung during the year at Finchampstead. He expressed his thanks to the foremen of towers for their help in connection with the combined practices.

The Chairman read a letter from Mrs. Broome, and a vote of condolence was passed with her, all standing.

The Chairman also announced the death of the former Vicar of Binfield, the Rev. R. A. C. Bevan.

The Secretary read several proposed amendments to rules, which were passed without comment.

The Rev. Canon G. F. Coleridge was unanimously re-elected chairman, and Mr. F. Dentry secretary and treasurer of the branch. The following were elected to serve on the branch committee: Mr. S. Embien, Arborfield; Mr. W. Cook, Barkham; Mr. J. Rance, Binfield; Mr. W. Newton, Easthampstead; Mr. W. Goddard, Finchampstead; Mr. Joseph White, Hurst; Mr. J. Moth, Sandhurst; Mr. G. J. Wright, Sonning; Mr. F. Dentry, Twyford; Mr. W. Mortimore, Wokingham St. Lawrence; Mr. W. H. Easterling, Wargrave; Mr. W. J. Brooks, Wokingham All Saints; and Mr. W. Houlton, Wokingham St. Paul's.

Mr. Wright reported on the combined practices, which he considered had been an improvement on last year; the highest attendance was 32, and the lowest 11.

Mr. Moth said he did not agree that the practices had been more successful, as they had been poorly attended at the eight bell towers. They wanted ringers to attend and ask for a method to be tried.

Mr. Houlton moved 'That the railway fares of branch representatives to the General Guild Committee be repaid from the funds of the branch.'—Mr. Wright (Sonning) seconded, and the resolution was passed unanimously.

The following were elected to serve as branch representatives: Messrs. J. Moth, G. J. White, W. J. Paice and J. Rance.

The following were elected to serve on the Combined Practice Committee: Messrs. Moth, White, Brooks, Rance, Darrville, Nash and Paice.

### PRESENTATION TO THE REV. R. H. HART DAVIS.

The Chairman said it was his pleasing duty to propose 'That the Rev. R. H. Hart Davis should be elected president of the branch.' No other branch had a president. He considered it would be a very honourable thing if they asked their old chairman of some thirty years' standing to accept the presidency of that branch.—The proposition was carried with acclamation.

The Chairman said they could not speak too highly of the excellent work their late chairman had done. Mr. Hart Davis had also been Guild secretary for a number of years. It was his pleasant duty to ask him to accept as a slight token of their appreciation a blotting pad. He had noticed that Mr. Davis' present pad was worn out (laughter), so he thought a blotting pad would remind him of his old friends. The pad was bound with sealskin, with corner pieces of solid silver, and gold lettering, bearing the words, 'Presented to the Rev. R. H. Hart Davis, of the Sonning Deanery branch of the Oxford Diocesan Guild of Church Bell Ringers, 10th day of January, 1925.'

The Rev. R. H. Hart Davis, in acknowledging the honour they had conferred upon him in electing him as their president, thanked them for the most useful gift. He greatly appreciated their kindness, and would value the blotter exceedingly. He had handed the chairmanship over to a noted bell ringer. He considered what he had done to be very little.

The Master of the Guild (the Rev. C. W. O. Jenkyn) stated that

he had visited a large number of towers, and a great deal of restoration work had been carried out during the past year.

Mr. Hibbert (general secretary) expressed a hope that every tower would collect subscriptions for the Washbrook Memorial Funds.

Mr. Houlton remarked that the late Mr. Washbrook rang his first peal in 1881 at St. Paul's (Wokingham) tower.

A sum of two guineas was voted to the memorial scheme from the branch funds.

The Rev. P. H. Ditchfield proposed a hearty vote of thanks to the Rev. H. M. Walter for placing the church and parish room at their disposal, to the preacher, also to the ladies who had provided tea, especially Mrs. Houlton, who was responsible for the catering.

The Rev. H. M. Walter said the meetings of the bell ringers brought back many happy memories.

## GLOUCESTER & BRISTOL ASSOCIATION. WORK IN THE CHELTENHAM BRANCH.

The annual meeting of the Cheltenham branch was held at Prestbury on Saturday, January 10th, and was attended by over 40 members from eight towers. Ringing commenced at 3 o'clock, with the genial captain of the tower, Mr. Pendry, in attendance. Service was conducted by the Vicar (the Rev. Baghot de la Bere), who also gave an excellent address on 'The good bells of Old England.'

Tea was partaken of in the Institute, kindly provided by the Vicar, who had many willing helpers.

The Vicar having to leave after tea to take a service, Mr. G. H. Phillot was voted to the chair.

The Secretary, in his report, referred to the continued interest taken in the association. He was sorry to say they had only rung three peals for the branch, but that was no indication of the work done; in fact, a great deal had been accomplished, especially in the outlying districts.

A very satisfactory balance sheet was presented, and the branch would be able to send a larger amount for the Association Belfry Repair Fund than last year.

The following officers were unanimously elected: Chairman, the Rev. A. D. Kennington; branch representative, W. Townsend; hon. secretary, W. Yeend.—A very hearty vote of thanks was accorded those gentlemen for their past services.

Dunblaton was selected as the venue for the next meeting, to be held early in May.

Several new members were elected.

Following a discussion, it was decided that Rule III. (general rules) and Rule I. (branch rules) required altering, and would be brought before the general meeting at Tewkesbury.

Mr. W. Hale proposed a hearty vote of thanks to the Vicar and lady helpers for their generosity at tea, also that the best thanks be accorded Mr. G. H. Phillot for taking the chair.

A return was then made to the tower, and good practice obtained.

## RINGER'S DEATH FROM ACCIDENT.

It is with regret we announce the death of Mr. John Moore, who was born at Preston, Suffolk, on November 2nd, 1858, and died at Chelmsford Hospital on Jan. 7th, three hours after admission, from injuries by accident at the Marconi Works, where he was employed as a shunter. Deceased began to ring in the early 'eighties,' under the tuition of his old friend, Mr. A. Symonds, and after migrating to Lavenham he learnt to ring Grand sire, Bob Major, Oxford and Kent Treble Bob Major, his favourite method being Kent. He rang his first peal at Lavenham on Saturday, December 19th, 1896 (5,008 Bob Major). In this he rang the 4th, and he rang the same bell to the longest length of Bob Major yet rung on the bells, viz., 6,240 in 3 hours and 55 minutes, on December 27th, 1909. Deceased, who was highly respected by all who knew him, was interred in Lavenham Cemetery on Monday, January 12th, the Rev. G. H. Lenox Conyngham officiating. In the evening, the SS. Peter and Paul's company rang, with deeply muffled clappers, J. J. Parker's quarter-peal of Stedman Triples as a last token of respect: M. T. Symonds 1, L. Poulson 2, W. R. J. Poulson 3, F. A. Poulson 4, F. F. Mortlock 5, S. H. Symonds (conductor) 6, W. Faiers 7, A. Symonds 8.

Some beautiful floral tributes were placed on the grave by the widow and family, also one from the Marconi employees.

## CAMBRIDGE ROYAL, 'DOUBLE-HANDED.'

The peal of Cambridge Surprise Maximus, rung at Southwark Cathedral on Saturday last, was the first touch in the method (on twelve bells) by the Brothers Gofton, for whom, with Messrs. Morris and Poole, the peal was specially arranged. A handbell peal of Stedman Cinques on Sunday, January 18th, was preceded and followed by some excellent double-handed practice in Surprise methods, including what is believed to be the first course of Cambridge Surprise Royal ever rung on handbells, by G. R. Pye 1-2, W. Pye 3-4, H. J. Poole 5-6, T. T. Gofton 7-8, J. A. Gofton 9-10.

**SUFFOLK GUILD.****SUCCESSFUL MEETING AT LONG MELFORD.**

A quarterly meeting of the above Guild was held on Saturday, Jan. 10th, at Long Melford, when upwards of 50 ringers attended from the following towers: Ipswich, Sudbury, Lavenham, Sproughton, Polstead, Cornard, Cavendish, Wormingford, Assington, Raydon, Tuddenham, Foxearth, Sible Hedingham, Earls Colne, Gestingthorpe, Grinstead Green, Castle Camps (Rev. E. F. Routh) and Swindon (Mr. J. H. Shepherd). Many of the local band were also present. Tea was served at the Rectory, and was followed by a short business meeting, the president (Archdeacon Farmiloe) being in the chair, supported by the assistant secretary (Mr. S. H. Symonds) and Mr. C. Sedgley (Ringing Master). The Rev. H. Drake, general secretary, was unable to attend, through illness.

Four new members were elected, and Mr. A. Symonds' proposition, that the next quarterly meeting be held at Sudbury on Saturday, April 25th, was agreed to.

The Ringing Master gave a brief report on the 87 peals rung for the Guild during the last year.

A vote of thanks was passed to the Archdeacon for presiding, to the Rev. Bree for the use of the bells and also to the waitresses.

Mr. E. Ambrose said it was a pleasure to see so many ringers at a quarterly meeting, especially the company from Ipswich.—The Archdeacon and Rector both responded, saying how pleased they were to see so many church workers there that day.

The methods rung were Grandsire and Stedman, Plain Bob, Kent, Oxford Double Norwich and Superlative.

**OVERTON, FLINTS.**—On Thursday, Dec. 18th, a quarter-peal of Stedman Doubles (being 104 six-scores each called differently), in 44 mins.: T. Butler, senr., 1, W. S. Higginson 2, G. H. Edwards 3, J. F. Sharp 4, T. R. Butler (conductor) 5, W. Higginson, senr., 6. The first quarter-peal on the bells.

### WAITING TO BE PAID!

There are still, it seems, towers where ringers can only be found if payment is made for their services. It reads strangely in these days, to find, set out in the cold print of a county newspaper, the offer of a correspondent to 'raise a side of ringers to start at once,' if some other person will raise a fund to pay the ringers £1 a year each. In the old Oxfordshire town of Dorchester the Abbey bells were silent on New Year's eve, and apparently there has been a general desire on the part of the inhabitants to know why the time-honoured custom, to 'ring out the old, ring in the new,' was not observed. In enlightening the public a ringer resident in the town gave two reasons. The first, which was a good, if not an entirely sufficient one, was that 'there are no recognised ringers at the Abbey tower, although there are plenty in the parish.' The second was in the form of a question, which asked if there was one person in the district that contributes one single farthing towards the help of a side of ringers in Dorchester? And then comes the conditional offer referred to above, with the promise that there shall be no more grumbling about not hearing the bells.

Now, as we have ever been ready to agree, there are circumstances under which payment to ringers can be justified—especially in cases in large towns and cities where their presence in the belfry to ring for the services actually involves out-of-pocket expenses—but there seems to us something radically wrong somewhere when in a country town, with 'plenty' of ringers, a peal of bells hangs silent in an ancient abbey for the sake of a pound a man. The men who hold aloof on the ground that they will not ring without pay, are evidently not men who love the art for the art's sake, and yet they are prepared to ring the bells (presumably twice each Sunday) if someone will guarantee them something less than twopence halfpenny per ringer for each attendance! It is almost staggering to think that men who are 'ringers' can stand out over a quibble of this kind. One could understand the 'mercenary' attitude better if the demand were something more commensurate with the time involved—assuming that the men want to be recompensed for their services. As a 'remuneration,' a pound a year per man is absurd, as an obstacle to the ringing of Dorchester Abbey bells it is a folly. Surely there must be among the 'plenty in the parish' at least one ringer who realises the opportunity which is presented, to raise a band who will give their services to the church and count it a privilege to be allowed to fulfil the duty. In thousands of country towns and villages throughout the land, there are companies of ringers (not all of them versed in the practice of scientific change ringing) who gladly give their services

## GLOUCESTER & BRISTOL ASSOCIATION.

### A SUGGESTION TO BELL FOUNDERS.

The annual meeting of the Cirencester Branch was held at Cirencester on Saturday, January 24th, when members and visitors to the number of 25 being present from Cirencester, Fairford, Lechlade, Cole St. Aldwyn, Down Ampney and Swindon, and also an old Cirencester ringer, in the person of Mr. Wilfred Andrews, from Winchester Cathedral. Ringing commenced at 3 o'clock at Holy Trinity Church, Watermoor, touches of Grandsire and Stedman Triples and Bob Major being rung till service time.

The service was conducted by the Vicar (the Rev. L. Westmacott), and tea was served at Messrs. Viner's Restaurant. At the business meeting which followed, the chairman of the branch (Mr. F. Edwards) presided. The treasurer's report was submitted, and was considered satisfactory.

The following officers were elected: Chairman, Mr. F. Edwards; secretary and treasurer, Mr. F. J. Lewis; member on management committee, Mr. J. Hope.

Mr. Edwards, in returning thanks, remarked that while the bell founders had brought the art of casting and hanging to perfection, they had not troubled to perfect a really good silent apparatus, so that ringers could practise without annoying people outside.

Two honorary and three performing members were elected, and Tetbury was chosen for the next meeting.

A vote of thanks was passed to the Rev. L. Westmacott for taking the service, and for the use of the bells.—In replying, the Vicar said that he did get complaints about the ringing, but that the complainers were always in the minority, and if the bells were not rung the complaints would be very great.

Owing to illness, the bells at the Parish Church could not be rung, and Watermoor was, therefore, again visited, and further touches of Triples and Major rung. The secretary made it a special point to see that everyone had a pull.

### BRISTOL BRANCH.

The annual meeting of the Bristol branch was held at St. James's, Bristol, on Saturday last. Ringing began soon after three p.m., and service was held in the church, at which the Vicar (the Rev. S. E. Swan) officiated, and gave a very helpful address. Tea was kindly arranged by Mr. and Mrs. Way, and friends, at the Church Institute.

The business meeting followed, and nearly 50 members were present, including the Rev. E. J. Phillips (vice-president) and the Rev. S. E. Swan.

Mr. J. Gould, on taking the chair, referred to the sad bereavement sustained by Mr. C. Hornell, of Wormley, in the loss of his wife, and asked the members to stand in sympathy.

The hon. secretary's report showed that twelve meetings had been held during the year, with an average attendance of 25, which was a falling off on the previous year. He did not think it was owing to lack of interest, but to the very inclement weather of the past summer. Thirty-five members had been elected during the year. The Secretary thanked the tower secretaries for the prompt way they had sent in their subscriptions, and remarked it would be a great help to the branch if some of the more advanced ringers would visit the country towers. The peal at Marshfield by all local men reflected great credit on Mr. W. Lewis for the way he had worked, as it was practically an isolated district with no help near.

The balance sheet was presented, and passed, showing a balance in hand of £17 ls., which was considerably more than last year.

Mr. W. A. Cave moved that a letter of congratulation from the meeting be sent to Mr. W. Lewis and the ringers at Marshfield.

The officers were re-elected, amid applause, as follows: Mr. J. Gould, chairman; Mr. P. E. Williams, secretary; Mr. J. G. Jefferies

on management committee; Mrs. G. Williams was elected an associate member; and Messrs. H. Baguley and E. Guest, of Henley, and Messrs. Smart, H. Marsh, T. Marsh and C. Jefferies, of Mangotsfield, were elected performing members.

The quarterly meetings were fixed as follows: Wormley in February; Coalpit Heath in May; Mangotsfield in August; St. Warburghs in November.

It was decided that, after the quarterly meeting at Wormley, which was fixed for February 21st, all meetings of the branch should be held on the last Saturday in each month.

It was also decided that £5 of the balance in hand be used for the benefit of members attending the annual meeting at Tewkesbury on Easter Monday. All applications for seats in the charabanc are to be in the committee's hands by March 28th.

The Rev. E. J. Phillips moved a hearty vote of thanks to the Rev. S. E. Swan for the use of the bells and for conducting the service; also to the organiser for his assistance, and to the ladies for arranging the excellent tea.

Mr. C. H. Jennings proposed a hearty vote of thanks to the chairman and secretary for the excellent way they had carried out their duties during the year (applause).

This concluded the business, which was followed by the annual meeting of the Bristol United Ringing Guilds.

## ESSEX ASSOCIATION.

### THE IMPROVEMENT OF GREAT BADDOW BELLS.

A meeting of the South-Eastern division of the Essex Association was held at Great Baddow on Saturday, January 17th. Ringing commenced about three o'clock, and service was held at St. Mary's, the Rev. D. G. Douglas officiating. Mr. C. H. Howard (Master of the Association) read the lesson.

Tea and meeting followed in the Parish Room, the Vicar presiding over an attendance of about 50 ringers, including Mr. C. H. Howard, Mr. L. W. Wiffen (Master of the Division), and Mr. W. H. Dyson (secretary).

Five new members were elected, and Dr. Spencer Phillips was elected a probationary member.

It was decided to hold the next meeting at Danbury and Sandon, with a view to getting these towers into the association.

Mr. Howard proposed a vote of thanks to the Vicar for arranging the service, to the organist and choir for their services, and to the ladies for providing tea. He also complimented the wardens and Parochial Church Council on the excellent results of the rehanging and recasting of the bells, the tone of which was now the admiration of all visiting ringers.

The Vicar responded, and said he would like to visit the tower and see some change ringing.—Touches of Superlative and Cambridge Surprise, Double Norwich, Stedman and Grandsire Triples were rung throughout the afternoon and evening.

Members present represented Writtle, Chelmsford, Maldon, Boreham, Broomfield, Springfield, Kelvedon, Feering, Braintree, Rotten-ton, Swindon, Romford, and the local company.

## LIGHTEST PEAL OF EIGHT IN KENT.

### NEW BELLS AT CHERITON.

On Saturday last, two new trebles were dedicated at Cheriton, Kent. The ceremony was performed by the Rector (the Rev. G. A. Lewis, M.A.), at special evensong. After prayers, the choir and Rector proceeded to the belfry, where the dedication took place. As the choir returned to the chancel the bells were rung in rounds by the local ringers, and the Rector then gave a short address on bells and their uses.

The new bells were obtained by local subscription, the work being carried out by Messrs. Mears and Stainbank.

Cheriton now possesses the lightest peal of eight in Kent, the tenor being 7½ cwt. The bells, previously a peal of four, were made six in 1881 by the same firm.

Tea was kindly provided by the Parochial Church Council, about 35 members of the Kent Association being present, representing the Ashford, Canterbury and Maidstone districts. The ringers afterwards again visited the tower, where touches of Grandsire, Stedman, Kent and Oxford Treble Bob, and a course of Double Norwich, were brought round.

### MR. E. F. POPPY'S 250 PEALS.

Stedman Cinques, 2; Stedman Caters, 3; Stedman Triples, 23; Grandsire Caters, 1; Grandsire Triples, 4; Kent Treble Bob Maximus, 7; Kent Royal, 6; Kent Major, 24 (conducted 3); Oxford Treble Bob Minor, 37 (conducted 4); Bob Maximus, 1; Bob Major, 15 (conducted 9); Bob Triples, 1 (conducted 1); Double Norwich Major, 50 (conducted 2); Superlative Surprise Major, 45 (conducted 1); Cambridge Surprise Major, 8 (conducted 1); New Cambridge, 2; Bristol Surprise, 2; London Surprise, 2; Minor in three methods, 1; in four methods, 1; in five Treble Bob methods, 1; in six Treble Bob, 2; in seven Treble Bob, 2; in seven Surprise Minor methods, 9; in fourteen Surprise Minor methods, 1.

**ROUND THE FESTIVE BOARD.****KING'S NORTON RINGERS' GATHERING.**

On Saturday, January 17th, the King's Norton ringers were invited to dinner at the Navigation Inn by their esteemed Ringing Master (Mr. F. B. Yates). A goodly number sat down, including the Vicar, the churchwardens, and the following members of the St. Martin's Guild, Birmingham: Messrs. A. E. Walker, A. Paddon Smith, T. Russam, J. Neal and E. Mansell. Good Christmas fare had been provided, consisting of roast turkey, plum-pudding and mince pies, of which everybody heartily partook.

After the cloth had been removed, several toasts were given, including 'the President,' 'the St. Nicolas' Guild,' 'the St. Martin's Guild,' 'the Visitors,' and 'the Chairman.' This last was entrusted to the Vicar's warden, Mr. W. E. Moore, who spoke in high praise of the good work Mr. Yates was doing for bell ringing in King's Norton.—The toast was accorded musical honours.

Mr. Yates, in reply, expressed the great pleasure it gave him to associate himself with the ringers, and his great appreciation of the honour of being their Ringing Master.

The toast of 'the Visitors' was responded to by Messrs. Walker and A. Paddon Smith.

A musical programme was carried out, including songs by Messrs. Dowding and Avery, and selections upon the handbells.

Altogether a most enjoyable evening was spent.

**LAVENHAM RINGERS' DINNER.**

On Wednesday evening, January 7th, the SS. Peter and Paul Society of Ringers were entertained to dinner by Mr. J. C. King. The Rector (the Rev. G. Lennox Conyngham) and Mr. W. Turner also attended. After a very enjoyable repast, the evening was spent with musical items. Two of the ringers, Messrs. L. Poulson and F. A. Turner, proved good vocalists, and sang some of the 'good old songs.' Selections were given on the handbells by Messrs. S. H. Symonds and F. A. Turner. The following methods were also rung: Grandsire, Stedman, Plain Bob and Kent, the handbells being much appreciated by the host and the ladies present. At the conclusion, the Rector, on behalf of the ringers, thanked Mr. King for the enjoyable evening spent.—Mr. W. Turner endorsed the Rector's words, and Mr. King, in responding, said it had given him the greatest pleasure to have the ringers with him that evening.—Mr. W. R. J. Poulson, as one of the ringers, said he was sure everyone there had enjoyed themselves im-

mensely, and laughingly remarked that he hoped such a jolly gathering would be repeated another year.—The evening closed with the singing of the National Anthem.

**FELSTED RINGERS ENTERTAINED.**

On Tuesday, January 6th, at the Old School House, Felsted, through the kindness of a few friends, the Felsted Guild of Ringers were given a supper, at which Canon H. C. T. Weatherhead (Vicar) presided. A very enjoyable evening was spent. Touches of Grandsire Triples, Bob Minor, Kent, Oxford and Double Court Minor were rung on the bells.

**MUFFLED BELLS.**

At St. John's Church, Portmadoc, N. Wales, on Monday evening, January 19th, a half-muffled quarter-peal of Grandsire Triples (1,280), in 50 minutes, rung as a last tribute of respect to the late Canon Llewelyn R. Hughes, of Llandudno, formerly Vicar of St. John's, Portmadoc, and a vice-president of the North Wales Association: R. Richards 1, R. McMillan 2, H. McMillan 3, P. Roberts (first as conductor) 4, F. J. Williams 5, H. Owen 6, H. Roberts 7, E. Brown 8. This was followed by the 'whole pull and stand.'

At Ottery St. Mary, Devon, at the Parish Church, on January 20th, a quarter-peal of Stedman Triples, in 50 minutes: C. Turner 1, K. G. Godfrey 2, J. H. Godfrey 3, H. Stuckey 4, W. Burrow 5, Rev. E. S. Powell (conductor) 6, G. Burrow 7, J. Lovering 8. Rung with the bells half-muffled in token of respect for the late Mr. W. Warden, ex-churchwarden, who was buried the same afternoon. First quarter of Stedman on the bells by the local band.

On Sunday afternoon last a band of ringers from Honington visited Honington, by special request, and rang a quarter-peal of Grandsire Doubles (1,300 changes), in 50 minutes, with the bells half-muffled, on the occasion of the funeral of the Rev. — Dickens, Rector of Idlicote, and of Honington, who died suddenly on Monday, January 19th. The deceased gentleman was taken ill while conducting evening service in Honington Church on the preceding Sunday, and died the following day. He was interred at Idlicote. There being no bells at Idlicote Church, the ringing was done at Honington, one mile away. The ringers were: C. Matthews 1, H. Terry (conductor) 2, W. Large 3, L. Hawcutt 4, F. Smith 5, H. Baker 6. Honington bells have been manned by Honington ringers ever since the late Rector was inducted to the living.

## BELFRY GOSSIP.

It is interesting to note, writes Mr. R. G. Rice, in connection with the peal of Bob Major rung at Hagbourne, Berks, on the 12th January, that the only previous peal in the method on these bells was rung on April 21st, 1772, by eight members of the Oxford City Society (founded 1737), in three hours twenty minutes, conducted by J. Baker. This was also the first peal on the bells.

Mr. Rice also replies to an inquiry made by a correspondent in our issue of January 9th as to whether any tower possesses two older bells than the two at Eythorne, cast in 1470. He points out that there are two much older bells at Dorchester Abbey, Oxon. The 7th was cast in London in 1320, and the tenor at Wokingham in 1380.

The peal at Wilton, Taunton, on January 10th was rung in two hours 54 minutes, and not two hours 45 minutes, as printed last week.

The Swindon Parish Church Guild has, after many attempts, succeeded in ringing the first peal on the fine new ring of ten. The conductor, who was so intimately associated with the scheme for providing this noble church on the hill with a new ring of ten, rang his first peal of Caters at the fine old Church of St. Lawrence, Reading, in 1884.

What would have been the first peal of Stedman Triples for all except the conductor was lost on Saturday evening at All Saints' Church, Newport, in the last half-course of the peal, after 2 hours 58 minutes' ringing. The attempt was in honour of the newly inducted Vicar, and those taking part were regular service ringers at the church.

Although Mr. I. G. Shade's 84 peals in 1924 is a wonderful total, it is by no means an individual record for a year's ringing. In 1913 the late Mr. A. W. Grimes rang 136 peals, which followed on a total of 114 in the preceding year, and set up the unique performance of 250 in two years. In 1912 the late Mr. Bertram Prewett also rang 100 peals.

It would be interesting to know, writes Mr. C. V. Elberson, at which tower the greatest number of peals and methods were rung in 1924. At Willesden, he adds, eighteen peals were rung in fourteen methods during the year.

Benjamin Annable, one of the outstanding figures of the early days of ringing, died on February 1st, 1756. He was buried at St. Bride's, Fleet Street.

Harrison's peal of 10,176 Treble Bob Major was rung at Warnham, Sussex, in the Kent Variation, on Feb. 2nd, 1891.

'Composed by Mr. Holt, of the London College Youths,' a peal of Grandsire Triples was rung at St. Mary's, Nottingham, on Shrove Tuesday, February 3rd, 1761.

A peal of 10,032 Grandsire Major was rung in 6 hours 18 minutes, at Walsall on Feb. 4th, 1881.

The Cambridge University Guild was founded on Feb. 4th, 1879.

On Feb. 5th, 1783, a peal of 12,672 Bob Major was rung at Bromley. The time was 7 hours 48 minutes. On the same day, in 1838, the then record length of Stedman Caters, 12,041, was rung in 7 hours 26 minutes, at Appleton. The last long peal in this method on these bells was nearly twice the length.

## CROWLAND ABBEY BELLS.

The peal of Doubles which was recently mentioned as being the first peal on the bells at Crowland Abbey, Lincs, was not the only peal that has been rung there. On Feb. 20th, 1913, the Peterborough Association rang a peal of Bob Minor, conducted by G. Juston: A. Holland 1, E. Tilley 2, W. Waldron 3, J. Jutson 4, I. Bennett 5, G. Jutson 6. We have to thank Miss K. A. Jutson for sending us this information. It is interesting to note that there is 90ft. draught of rope, with only one floor between ringers and bells.

## BATH & WELLS DIOCESAN ASSOCIATION. ILCHESTER DEANERY BRANCH.

The annual meeting was held at Martock on Saturday. A service was held in the Parish Church, conducted by the Vicar (the Rev. G. W. Saunders), who is also president of the branch. About 50 sat down to tea in the Church House. Amongst those present were the Rev. Rhys James (Vicar of Drayton), Mr. E. E. Burgess (general secretary), and Mr. C. D. Heginbotham (Devises).

At the meeting which followed, all officers were re-elected, viz.: President, the Rev. G. W. Saunders; secretary, Mr. F. Farrant; Ringing Master, Mr. D. G. Taylor; general committee representative, Mr. J. E. Baker.

It was suggested that an extra office be made, that of vice-president, and on the proposal of Mr. D. G. Taylor, this was agreed to.—Mr. T. Gale then proposed that the Vicar of Drayton, who is an accomplished change ringer, be vice-president.—This was carried unanimously.

Ringings commenced about 3 p.m., and continued up to 8.30.

## MIDDLESEX COUNTY ASSOCIATION. NORTH AND EAST DISTRICT MASTER RETIRES.

The annual meeting of the North and East District of the Middlesex County Association and London Diocesan Guild, was held at Edmonton on Saturday last, and was attended by some 40 members. Ringing commenced at about 3 p.m., and continued in various methods until 5 p.m., when a short service was held, at which the Vicar (the Rev. R. C. Evill), an hon. member of the association, gave the ringers a hearty welcome.

Tea was served at the Rose and Crown, and was followed by the business meeting. The president, Mr. F. A. Milne, J.P., took the chair, and after the usual preliminaries, the balance sheet, which showed a balance of £2 7s. on the year's working, was adopted.

Six new members were elected, including four young ringers belonging to the Stamford Hill band.

It was with great regret that the meeting heard of the resignation of Mr. G. B. Lucas as District Master.—The President proposed that a hearty vote of thanks be passed to Mr. Lucas for his services to the association, spread over many years.—This was seconded by the Hon. Secretary (Mr. C. T. Coles), who stated that the reason of Mr. Lucas' resignation was the after-effects of his accident of a year or more ago, which had caused him almost to give up ringing.—The vote of thanks was supported by Mr. J. Waghorn, Mr. Armstrong, and others, and was carried unanimously.

Mr. Norman A. Tomlinson, of Southgate, was then elected as District Master, and the other officers were elected as follows: Treasurer, Mr. F. A. Milne; hon. secretary, Mr. C. T. Coles; assistant hon. secretary, Mr. W. J. Kemp; Central Committee, Messrs. R. E. Geare, G. B. Lucas and W. H. Oram; auditors, Messrs. J. E. Miller and W. Pickworth.

The members adopted the committee's recommendation to circularise the affiliated towers for donations to the Washbrook Memorial Fund. The hon. secretary would be glad to receive any donations from members of the association, and would forward them to the proper quarter.

It was decided that the next annual meeting of the district should be held at St. Giles-in-the-Fields, whilst the arrangements of the next district meeting were left to the hon. secretary.

Hearty votes of thanks were accorded to the Vicar (the Rev. R. C. Evill); to Mr. Grove, the organist; and to Mr. G. Paice, Mr. J. Parker, and others, for services rendered, coupled with an expression of regret at the absence of Mr. J. Parker, through illness, and a hope of a quick recovery.

Prior to the meeting a course of Stedman Cinques was rung on handbells by E. G. Trimmer, Miss E. K. Parker, W. Pye, G. R. Pye, J. Thomas and C. W. R. Grimwood. Ringing until 9 p.m. on the tower bells, in various methods from Grandsire Triples to Cambridge, London and Bristol Surprise, brought a pleasant meeting to a close.

## DEATH OF VETERAN ESSEX RINGER.

### A FOUNDER OF THE COUNTY ASSOCIATION.

We regret to record the death of Mr. Charles Bearman, of Bocking, which took place on Saturday, January 17th. Deceased, who was in his 88th year, was a native of the parish, and life-long member of St. Mary's Church. He had been a member of the choir and a bell ringer over 50 years, and was the last survivor of the old Bocking company. He joined the Collegio Youths in 1875, was one of the founders of the Essex Association in 1879, and had been a member continuously ever since. He took part in the first peal on Bocking bells, after their augmentation to eight.

The funeral took place on Thursday, January 22nd, the Very Rev. Dean Brownrigg officiating, assisted by the Rev. A. E. Hawkes, senior assistant priest. Among those present, in addition to the deceased's son and three daughters, were Mr. C. H. Howard (Master of the Essex Association), Mr. L. W. Crow (Bocking), Mr. F. Rudkin (Braintree), and a large number of parishioners. In the evening, with the bells half-muffled, 1,280 Kent Treble Bob: F. Webb 1, F. Radley 2, W. H. Dyson 3, C. H. Howard (conductor) 4, L. W. Wiffen 5, F. Ely 6, W. H. Hammond 7, E. Wiffen 8.

## WEDDING BELLS.

At All Saints' Church, Chilver's Coton, Nuneaton, on Thursday, Jan. 22nd, on the occasion of the wedding of Mr. Alastair Gustavus Baillie, eldest son of the Dean of Windsor, and Miss Susan Theodora Newdegate, younger daughter of Sir F. A. Newdegate-Newdegate, G.C.M.G., late Governor of Western Australia, and the Hon. Lady Newdegate-Newdegate, of Arbury Hall, Nuneaton, 336 Grandsire Triples and 224 Plain Bob Major. An attempt was made in the evening for a peal of Grandsire Triples, which unfortunately came to grief, after nearly an hour's excellent ringing. The following members took part in the ringing: Miss G. M. Dodds, Miss D. E. Lewis, Miss M. V. Godderidge, Messrs. J. E. Moreton, A. H. Beamish, H. Wright, R. Moreton, W. Badger and C. Rayson.

## TOO MUCH MONEY?

### M.C.A. QUARTERLY MEETING AT LONG EATON.

Saturday, January 17th, saw the members of the Midland Counties Association assemble for the quarterly meeting at the Derbyshire town of Long Eaton, where ringing took place at the Parish Church from 2.30 to 9 p.m. Although not numerically large, the gathering comprised ringers who rang nearly everything up to and including London Surprise. The committee, tea and general meeting all took place in the Co-operative Cafe, a splendid repast being served to about 45 members. At the subsequent meeting, Ald. R. B. Chambers presided, supported by Mrs. Chambers, Mr. Pryce Taylor, Mr. A. C. Wright (hon. secretary), while a churchwarden represented the local authorities. The Rev. R. E. Wilkinson, of Mansfield—a ringer-parson—joined the gathering, which was representative of the various districts of the association. Twenty-seven new members were gathered in, and a long discussion followed on the suggestion to reconstruct the rules to permit local autonomy. It was eventually decided to call a special committee meeting sometime in March to discuss the ways and means, providing the various districts approved.

A grant of five guineas was made from the Bell Repair Fund to Hinckley, Leicestershire, for the rehanging of the ring of eight, and a grant of three guineas from the general funds was apportioned to the Washbrook Memorial.

Messrs. Wallace and Draper were elected auditors for the treasurer's accounts, which again show an increase of funds.

Appropos of the special committee's future meeting, it is hoped that all branches will seriously consider the matter before sending their secretary as delegate. There are several ways of disposing of the surplus funds—if it is decided to dispose of them. The proposition contained in the suggested new rules is that the capitation fee should be 6d. per member instead of one shilling and sixpence, and that the report should be free.

It has been decided already to reduce the cost of the report from one shilling to sixpence. The hon. treasurer would suggest that a return be made either by reducing the annual subscription to pre-war scale (1/-) or by a rebate at the end of the financial year, whenever the association shows a profit, and that the quarterly or annual tea or dinner should be free. The real trouble is, he says, that the association has too much money! These remarks are written solely to draw the attention of absent members to the subject.

## AN ARCHITECT ON BELLS.

### CONDEMNATION OF IRON AND STEEL FRAMES.

If correctly reported, some of the statements made at a lecture on Friday last, at Liverpool, by Mr. W. D. Caroe, the architect, ought not to go unchallenged. Speaking at the Church House, on 'Church Bells and Bell Hanging,' he gave a warning to church officials (says the 'Liverpool Post and Mercury') to look before they leap into acceptance of some of the bell hanging improvements ('gadgets' he called them once) offered by some bell founders. Particularly he was against iron or steel bell frames. They deteriorated, he said, and required constant nursing.

Change ringing, said Mr. Caroe, was peculiar to this country. The carillon bell of the Continent was a musical instrument. The other bells were not musical instruments. 'There is music,' he said, 'and there is bell music. A bell has three distinct notes—the top, the lower, and the major third, which demands a musical ear to detect it.' Bells, he added, should be heard from a distance. Talking of towers, the strain caused by the bell ringing was very great, he said. In the tower itself, weight and solidity were the first desiderata. There must be solid material and good mortar. Bells were apt to make mince-meat of bad mortar.

Canon Wells was chairman at the lecture.

## DEATH OF A READING RINGER.

The death occurred with tragic suddenness, at Reading, on Sunday, January 18th, of Mr. Arthur Lovejoy, after a fatal attack of pneumonia, at the early age of 18 years.

He had recently joined the navy, and came home on the Friday preceding his death, to take part in a peal at Aldermaston, but was taken ill on Saturday, and passed away on Sunday. The news came as a shock to his many friends, as he was of fine physique and extraordinarily active and keen.

Arthur Lovejoy was well known in and around Reading, and also at Portsmouth, as an exceptionally enthusiastic and able ringer, and although he had been ringing for only three years, he had reached a very high standard, both in striking and ringing the more advanced methods. Prior to joining the navy he acted as steeple-keeper at St. Lawrence's, Reading, succeeding the late Mr. W. Newell in that capacity.

The funeral took place at Reading, on Friday, January 23rd, and was attended by several of his friends of St. Lawrence's, who provided a wreath, and also by brother ringers from other Reading towers. A course of Grandsire Triples was rung on handbells over the grave, and muffled touches were rung at St. Lawrence's in the evening, in which several of the local towers were represented.

## LANCASHIRE ASSOCIATION.

### BROWNEDGE VETERANS' SERVICES ACKNOWLEDGED.

A very successful meeting of the Preston branch of the Lancashire Association was held at St. Mary's R.C. Church, Brownedge, on Saturday, January 10th.

This was the first meeting at this church under the auspices of the association, as although the bells have been hung in the tower since 1867, they have been reputed as a bad going peal, while the tenor has not been rung in changes for a great number of years, and never by local men.

The ring is supposed to be the heaviest peal of six in Lancashire, the tenor being 21 cwt. The bell was cast by J. Murphy, Dublin, and the other five are by Mears, all cast in 1867. They are hung in two tiers, and, according to one of the local ringers, the wheel on the tenor was smaller originally than at present.

The visitors were welcomed by the Rector, Father J. A. Turner, and the local ringers, and previous to the ringing a visit was paid to the vestry, where a very interesting ceremony took place, the reverend gentleman making a presentation to two of the oldest local men, both of whom had about 47 years' service ringing to their credit. These two veterans were Messrs. James Gerrard and William Whalley, and both expressed their gratitude for the presents, and related some of their experiences of long ago. The Rector then provided light refreshments for the gathering.

A move was afterwards made to the belfry, where some well-struck touches of Plain Bob, Kent, Oxford and Woodbine Treble Bob were rung, also Grandsire Doubles with the local men, some of whom had their first attempt at Bob Minor.

At the business meeting three of the local men were made members of the association.

The ringers were complimented on the striking by the Rector and the veterans, and the meeting closed with a lesson to the local men by some of the visitors. Among those present was Mr. E. Timbrell, of Chipping (the composer of one of the long lengths of Treble Bob), after a very long absence.

## WORCESTERSHIRE ASSOCIATION.

### NORTHERN BRANCH.

A meeting of the Northern branch was held at Cradley on Saturday, January 17th, over 50 members being present, and nearly every tower in the area represented. Before the service, touches in various methods were brought round. The service was conducted by the Vicar (the Rev. W. S. Cooper). In his address, the Vicar welcomed the members, and said they were proud that Cradley had been chosen again for a meeting, after a lapse of about 12 years. God had given bell ringers the gift of music to cheer their fellow Christians, but unless dominated by the spirit of love the work was of no avail. If love was not there it was just noise, and not music. He knew of no Christian service of greater value than bell ringing.

Tea was served in the Church Schools, and at the business meeting which followed, the Vicar presided, supported by his wardens, Mr. A. Powell and Mr. B. Parry, Messrs. R. Mathews (Ringing Master of the Association), W. B. Cartwright, Selly Oak (Ringing Master of the branch), A. J. Skelding, Stourbridge (secretary), A. E. Parsons, Old Hill; J. Price, Old Hill (Central Committee representative), T. J. Salter, Kidderminster; G. N. Cockin, Halesowen, and others.

Places suggested for the next meeting were Northfield, Olent and Kinver, the first named being chosen, the meeting to be held on the third Saturday in June. It was agreed, with the Vicar's permission, to attempt the quarterly peal at Cradley, the peal to be a local band effort, to be conducted by Mr. Cox.

Mr. G. N. Cockin opened a discussion on the difficulties of maintaining a band of ringers for the ten bells of Bromsgrove, and it was decided to hold a special ringing meeting there as early as possible to revive local interest.

The Vicar was elected an honorary member of the association, and in returning thanks, said it gave him great pleasure to be a member. He referred to the growing co-operation between clergy and ringers, and said he thought the time was coming when as much interest would be taken in campanology as in choir work. It gave him great pleasure to propose his wardens as hon. members (applause).

Mr. Cartwright proposed a very hearty vote of thanks to the Vicar, wardens, organist, and ladies, who had served the tea. — This was seconded by Mr. Parsons, and supported by Mr. G. N. Cockin.

Mr. A. E. Parsons suggested that a collection be taken on behalf of the new Church Fund, and this realised £1 1s. Mr. Parsons also remarked that Cradley Church bells gained a prize at Vienna Exhibition.—The Vicar thanked the members very much for their vote of thanks, and especially for their collection, and said that he supposed a scheme would be settled in a few weeks for a new church, and he hoped they would be able to ring the old church out and the new one in.

Returning to the tower, the members continued ringing till after 8 o'clock, and this concluded one of the best meetings held by the branch.

## ONE HUNDRED METHODS IN A YEAR.

### WONDERFUL PERFORMANCE BY SOUTH ANSTON RINGERS.

The ringers at South Anston, near Sheffield, set up a wonderful record last year, which we imagine has seldom, if ever, been excelled. Although owing to illness near the church they were stopped from ringing for six weeks, and also, on six occasions, were short of a full company, they rang, during 1924, no fewer than 104 720's in exactly one hundred different methods. In the previous year they rang sixty 720's in 54 methods, which was a highly meritorious achievement, but the performance for 1924 is a really remarkable one. The following is the list of the methods rung during the year, \* denoting methods rung for the first time by the company:—

Plain Methods: \*Oxford Bob.

Treble Bob Methods: London Scholars' Pleasure (bobs before and behind), St. Lawrence, Primrose, New London Pleasure, Arnold's Victory, Nelson's Delight, Violet, Mirfield, Tulip (old), Palm Sunday, Easter Morning, Killamarsh, Morning Exercise, Trinity, College Exercise, Burton, Tanner's Pleasure, Kingston, Norbury, College Treble, Morning Star, Sandall, Duke of Norfolk, Duke of York, Woodbine, London Treble Bob, College Pleasure, Oxford, Kent and Overton.

4th's Place Delight Methods: Norwich, Norwich (bobs before and behind), Willesden (bobs before and behind), College Bob IV., Ileyston, Oswald, Oswald and Trinity Spiced, London Victory, \*Middlewood, Neasden, Old Oxford Modernized, Duke of Clarence, Elstow Abbey, Burnaby (twice), \*Merton (twice), \*Bedford, Combermere, \*Southwark, Vale Royal, Anston Delight, Baden Powell Delight, French Delight, City Delight.

Third's Place Delight Methods: \*Edinburgh Castle, \*Pembroke Castle, Cambridge Delight, Kent Delight, Tulip (new), \*Wath, \*Pontefract, \*Disley, \*Carisbrooke Castle, \*Dunottar Castle, Stirling Castle, \*Chelsea, Evening Star, \*Coventry Delight.

Surprise Methods: Kitchenor, Norwich, Worcester, London, Wells, Primrose, York, Cuncastre, Ipswich, Beverley, Norfolk, Berwick, Hull, Bourne, Canterbury, Annable's London, Netherseale, Stamford, Wearmouth, Newcastle, Lancashire, Chester, Lightfoot, Durham, Carlisle, Northumberland, \*Lincoln, Westminster, Allendale, Coldstream, Sandiacre, Buller's, Lord Roberts', and Cambridge.

Total number of changes was 74,880, and the 720's rung by members of the local company were as follow: Edgar F. Stenton, 75; Gordon Turner, 73 (conducted 35); William Platts, 70; Henry Stenton, 96 (conducted 56); Frank Stenton, 88; Herbert Turner, 68; Charles Fowler, 96 (conducted 13); Samuel Smith, 25. Visitors: Herbert Haigh (Worksop), 1; J. E. Cawser (Tickhill), 7; Jno. Brothwell (Treeton), 25.

The junior of the company is Gordon Turner, who has just turned 14 years of age. He rang in 25 of the Surprise methods, and conducted 19 of them.

## BAND RINGS 41 TREBLE BOB METHODS.

The following Minor Extents were rung during the year 1924, at Norbury (Hazel Grove), Cheshire: Spiced Surprise, 11 extents; other Surprise extents, 24; Treble Bob methods, spiced, 34; other Treble Bob extents, 35; total, 104 extents. The following methods were included in the above: Surprise: London, Cambridge, Ipswich, Norwich, Surfleet, Beverley, Warksworth, Lancashire, Annable's London, Westminster, Allendale, Southwell, and Coldstream.

Treble Bob Methods: Oxford, London Scholars', Kingston, Sandall, Overton, Willesden, Poynton, Marple, Bocking, Old Oxford, College Exercise, Morning Star, Duke of Norfolk, Norbury, Trowel, Neasden, Grove Delight, College Bob IV., Wragby, Braintree, Kent, Shamrock, Foxglove, Marigold, Daffodil, Bluebell, Geranium, and Dahlia; total methods rung, 41.

## HANDBELL RINGING AT FYLINGDALES.

### 'FAREWELL' TO PROMISING YOUNG RINGER.

On January 9th, in the belfry of St. Stephen's Church Fylingdales, Yorkshire, a quarter-peal (1,260 changes) of Grandsire Triples, on handbells, in 39 mins.: George F. Alexander, junr., 1-2, Miss Doris Bulman 3-4, G. F. Alexander (conductor) 5-6, Miss Mary Stephenson 7-8 (containing twelve each 4-6's, 7-4's and 6-7's). Rung as a farewell touch to the ringer of 1-2, who left next morning for Newcastle-on-Tyne to join his ship. This young ringer, who is 15 years of age, and has now taken to a seafaring life, has only been ringing a few months, and show signs of campanological brilliancy. On New Year's Day he rang in his first peal on tower bells, and had previously rung 1-2 to a peal on handbells.

Previous recent handbell ringing by the same four includes a quarter-peal of Grandsire Triples, containing the twenty-four 4-6's, and another quarter-peal containing all the 6-7's. All are the compositions of the conductor. Various touches of Bob Major have also been scored.

### OXFORD DIOCESAN GUILD.

An excellent meeting of the East Berks and South Bucks Branch was held on Saturday last at Cookham, and some well-struck touches in various methods of Doubles and Minor were rung. About sixty persons were present at the service, at which a full choir led the singing, and a new feature was introduced, two of the hymns being rung on handbells, with organ accompaniment. A short but instructive address by Dr. Batchelor, was much appreciated.

After tea there was a good deal of talking, and it is hoped that the various subjects discussed, together with the suggestions made, will assist the progress of this branch.

#### SPELSBURY BELLS DEDICATED.

On Saturday last, the Chipping Norton Deanery Branch held a special meeting at Spelsbury. Service was held at 3.30, conducted by the Vicar (the Rev. T. C. Tanner), other clergy present being the Dean of Christ Church (the Rev. J. D. Payne, R.D.), and the Rev. W. J. Palmer. In the course of the service, the clergy and choir made their way to the belfry, where the Dean dedicated the work of restoration to the bells. Afterwards he preached a very interesting sermon to the large congregation.

As the congregation left the church the bells struck off to 120 changes of Stedman Doubles and a touch of Plain Bob Minor by the following: F. White (Appleton), T. Bond (Eynsham), V. R. Hitchman (Spelsbury), J. Koyle (Charlbury), the Rev. C. W. O. Jenkyn, M.C. (Master of the Guild) and J. H. Shepherd (Swindon). Tea was next served, and upwards of 100 ringers and clergy sat down as guests of the Rev. and Mrs. Tanner, to whom a most hearty vote of thanks was given. The Leafeld ringers next rang a good touch of Minor.

The work has been carried out by Messrs. White, of Appleton, and all ringers agreed that the 'go' of the bells was perfect.

### LONDON COUNTY ASSOCIATION.

#### NORTHERN DISTRICT.

The annual meeting of the Northern District was held on Saturday, January 17th. Owing to an unfortunate misunderstanding the bells of St. Sepulchre's, Holborn, were not available. The bells of St. Dunstan's-in-the-East were, however, kindly placed at the disposal of meeting, some good touches in standard methods and a course of Cambridge Major being brought round on them.

The business meeting was held at the King of Denmark, Old Bailey, at which the following officers were elected for the year: Master, Mr. F. W. Alleyway; secretary, Mr. W. Boltrill; treasurer, Mr. E. C. Darrell; steward, Mr. A. Riley; committee, Mr. R. D. Newman and Mr. Jack Carmen.

Subject to the bells being available, St. John of Jerusalem, South Hackney, was decided upon for the next meeting to be held on March 21st.

The question of arranging practice meetings at some of the local towers where there are young bands, was discussed, and a motion to be placed on the agenda of the annual meeting of the association was formulated.

Several touches on handbells brought a very pleasant evening to a close.

### DEATH OF AN OLD IPSWICH RINGER.

#### A NOTABLE PERSONALITY.

A day before Christmas was laid to rest, in Ipswich Cemetery, an old and respected ringer, in the person of Mr. Edward Reeve, aged 87. He had been a ringer for a great many years, and had taken part in some notable performances, being blessed with herculean strength. Tall, with tremendously long arms, there seemed no end to his reach when ringing.

Members of a previous generation of London ringers will remember his visits to the Metropolis, where he stood in a peal of Double Norwich Royal at Fulham, etc.

Having to spend the night in London, the company stayed at an hotel, and upon waking the next morning the others saw 'Old Ted's' (as he was familiarly known) naked feet protruding far beyond the iron bedstead.

The deceased was a personality to remember; with his long Victorian swallow-tailed black coat and tall hat, he looked every inch of his more than 70 inches—a fine English gentleman.

His brother ringers, as a last tribute of respect, placed a wreath on his grave.

#### A DATE TOUCH.

At St. James' Church, Barborough, on Saturday, January 10th, a date touch of 1,925 changes, comprising 485 Duke of York, 720 Oxford Treble Bob and 720 Kent Treble Bob, was rung in 1 hour and 10 mins.; L. R. Hibbard 1, H. Hibbard 2, P. Morris (conductor) 3, R. Reece 4, W. F. Sturman 5, P. E. Hibbard 6. Longest length rung by ringers of 1st, 2nd and 3rd, and also by P. Morris as conductor.

### HEREFORD DIOCESAN GUILD.

#### LUDLOW AND CHURCH STRETTON DISTRICT.

The annual meeting of this district took place at Ludlow on Saturday, January 17th. The Guild service was held in St. John's Chapel of the Parish Church, conducted by the Rector (the Rev. A. E. Lloyd Kenyon), who also addressed the members.

Tea was provided by Mrs. Beeston, at the Raven Lane Room, and was much enjoyed by the company, who numbered 39, and included the Rector of Ludlow (the Rev. W. F. Taylor), Rev. Simpson Bailey, also Rev. Thomas, of Knighton. Mr. Chas. Edwards (Master of the Guild) was present from Madley.

Before the business meeting commenced, the Rector expressed his surprise and pleasure at the large gathering, and wished them an enjoyable evening, but regretted being unable to stay longer.

The Rev. W. F. Taylor occupied the chair, and the secretary presented the report and balance sheet (duly audited by Mr. A. Chester), which were unanimously approved.—The Secretary reported progress during the year 1924, and stated that increases had taken place all round, and that they had now 31 honorary, 44 ringing members, and 19 probationers; also a balance in hand at December 31st, 1924, amounting to £13 10s 11d. Leintwardine tower had been restored and thanks were due to Mr. H. W. Hunt for his successful efforts in obtaining several honorary and ringing members. Bromfield ringers had suffered a serious loss in the transfer of Mr. Bott to Tenbury, but the latter would no doubt reap the benefit of the change. The quarterly meetings held during the year had been most successful and well attended. Ringing had somewhat improved, and three or four attempts were made for a peal of Grandsire Triples in different parts of the district.

The following officers were elected for 1925: District Ringing Master, Rev. H. S. T. Richardson; assistant Ringing Master, Mr. W. R. Nash; district honorary secretary, Mr. Wm. J. Benias.

Ringing was indulged in during the afternoon and evening, when touches of Grandsire Triples and two or three courses of Bob Major were brought round.

The following towers were represented, viz.: Bitterley, Bromfield, Clunbury, Hereford, Knighton, Ludlow, Stokesay, Tenbury and Wistanstow.

#### C.-S.-M. J. BENNETT'S 200 PEALS.

Very few ringers connected with one of the services have reached a total of 200 peals, and that fact makes the recently completed achievement of C.-S.-M. J. Bennett, of the Royal Marines, a noteworthy performance.

### THE OPPORTUNITY OF THE M.C.A.

The majority of the ringing societies will, we imagine, envy the position of the Midland Counties Association in their substantial surplus of funds. None other that we know of is at this moment in such a happy position that it can say that it has too much money. On the contrary, many of them have been unable to make ends meet, and only the other day we gave an extract from the Lancashire Association report which showed that the reserves of that large organisation were on the verge of disappearing. Circumstances are, of course, widely different in the various areas, but the reason of the Midland Counties Association's financial success is not far to seek. It is fortunate in having as its president one who is no mere figure-head, but a hard worker in the cause of the association. Coupled with this he has a position of influence in the northern midlands, and his personal efforts have resulted in a large acquisition of honorary members, whose subscriptions have been largely responsible for raising the association's funds to their present high level. An equivalent of Alderman Chambers is not available to every association, but we are convinced that much more might be done by way of gaining honorary members than is done by many of the ringing organisations. The methods adopted are usually of a very casual kind, and yet it is realised that a society must have honorary members' support if it is to be free from financial anxiety.

The Midland Counties Association is now in the strange position (for a ringing society) of having to discuss how best to dispose of its surplus wealth, and in our report last week various alternatives were put forward. Among the suggestions, however, we did not notice any mention of educational work, such as the possession of funds would enable an association like the M.C.A. to undertake. The explanation of this may be that in this respect, also, the association stands in a singularly happy position in being able to get the work done without expense to the society. But if this is not the case, we should like to see some of the association's surplus funds earmarked for educational purposes, and by that we do not mean merely sending out an instructor to help a band of ringers master the rudiments of change ringing. We have often urged that associations should assist ringers, either in bands or individually, who are otherwise without the opportunity, to advance from the bottom to the top of the campanological ladder, and there is no doubt that both financially and in the possession of competent men for the task, the Midland Counties Association is in the position to carry out the experiment on a scale never yet attempted. How best the funds available could be

applied to this purpose is a matter for the M.C.A. to consider, but it now has a unique opportunity of starting a real educational scheme which would be of far greater value to the art than any trifling reduction of the members' capitation fee could possibly be and the giving of the suggested local autonomy will probably be found a useful step toward the carrying out of an 'educational' scheme.

**THE 'PITCH' OF BELLS.**

A correspondent has asked us to what 'pitch' (or keynote) bell foundries cast their bells.

We write subject to correction, but we believe it is a fact that English foundries do not make a practice of casting bells to any particular pitch, unless requested to do so, and the tuning of the bells depends upon how they come from the moulds. A peal of bells might by chance exactly agree with a standard pitch, but more often than not they would be somewhere between high and low pitch. In naming the pitch the foundries, we believe, use the nearest note according to concert pitch (i.e., high pitch). For instance, if the tenor of a peal is one-eighth to a quarter of a note flat or sharp of 'F' they would describe the peal as being in the key of 'F'.

**NORFOLK GUILD.**

**MEETING AT EAST DEREHAM.**

After the report of the annual meeting held at Great Yarmouth last year, several members of the above-named Guild had begun to think ringing in Norfolk was a thing of the past, but happily they were wrong.

On Saturday last a meeting was held at East Dereham, when between thirty and forty members attended from the following places: East Dereham, Norwich, North Elmham, Gressenhall, Yaxham, Ketteringham, Reepham and Honingham. Ringing on the tower bells took place from 2 p.m. until 7 p.m., the methods rung being Stedman, Double Norwich, Treble Bob, Grandsire and Bob Major. Several members took part in their first touches of Stedman, and this, and the fact that there were quite a number of young ringers present, was a very encouraging feature.

At the conclusion of the tower bell ringing, handbells were produced, and touches of Treble Bob Major, Grandsire Triples and Bob Major were brought round.

All agreed, when the time arrived to return home, that a successful meeting had been held, and it is hoped that many more such meetings may be arranged in the near future.

**ST. MARTIN'S GUILD, BIRMINGHAM.**

**LIFE MEMBERS' ENTRANCE FEE TO BE RAISED.**

The annual meeting of the St. Martin's Guild for the Diocese of Birmingham was held at the St. Martin's Hotel on Tuesday, Jan. 20th, under the chairmanship of the presiding Ringing Master, Mr. Alderman J. S. Pritchett. All the officers were re-elected for the ensuing twelve months, and the presiding Ringing Master was congratulated on having attained his 70th birthday. In thanking the members, Alderman Pritchett said that he wished to express deep gratitude to those who took part in the peal of Stedman Cinques rung at St. Martin's to celebrate his birthday.

The balance sheet for the past year was duly adopted, and after some discussion it was unanimously agreed to raise the entrance fee for life members from 2/6 to 5/-. The entrance fee for ordinary members remains as before.

The Secretary (Mr. A. Paddon Smith) reported that the Connaught Room at the Imperial Hotel had been booked for Saturday, February 28th, and it was decided that the Henry Johnson Commemoration Dinner should be held on that day. On this occasion it happens that the commemoration will take place on the actual birthday of the old gentleman.

Five new members were elected, and eleven tower elections ratified.

The next quarterly meeting will, with the permission of the Vicar and wardens, be held at King's Norton in April.

**BATH AND WELLS DIOCESAN ASSOCIATION.**

**CHEW DEANERY BRANCH.**

The annual meeting was held at Long Ashton on Saturday last. The bells were available at 2.30 p.m., and, despite the unfavourable weather, members arrived from Clapton, Portishead and Long Ashton, followed by others from Wraxall, Yatton, Barrow Gurney, Sandford, Bath, Chew Magna and Bristol. At the service, an excellent address was given by the Vicar of Long Ashton (the Rev. J. E. Varley). Tea was served in the Church House, and was followed by the business meeting, which was presided over by the Rev. J. E. Varley.

Mr. T. Wyatt was re-elected chairman of the branch. Mr. G. Court was re-elected vice-chairman, together with Mr. J. Bishop; Mr. Percy G. Yeo was re-elected as honorary secretary and treasurer; and Mr. G. Yeo as Ringing Master and representative on the general committee. Two new members were elected, and Portishead was chosen as the place for the next quarterly meeting. Nailsea was selected for an intermediate meeting.

A vote of thanks was given to the ladies for the splendid tea they had prepared, and to the Vicar for the use of the bells, for his kind address, and for presiding at the meeting. The Vicar suitably responded.

A vote of thanks was passed, with applause, to the hon. secretary for his services.

The meeting then terminated, and the members again visited the tower, where the bells were kept going until 8 o'clock.

**PRESENTATION AT NORWICH.****WEDDING GIFT TO MASTER OF MANCROFT GUILD.**

On Tuesday, January 27th, at the annual meeting of the St. Peter Mancroft Guild, a presentation was made to Mr. George P. Burton, the Master, on the occasion of his marriage to Miss E. S. Bird, which took place on Thursday, the 29th, at Christ Church, Eaton.

To those concerned, the selection of a suitable memento was an easy matter, for wood from the old frame recently removed from Mancroft tower was available, and from some of it a pair of electric lamp standards were made. Curiously enough the wood used was from the pit of the sixth—the last bell Mr. Burton rang at Mancroft to a peal before they were taken down.

In offering the gift, with the best wishes of the Guild, Mr. C. E. Barrett, referred to the great amount of time Mr. Burton had devoted to the furtherance of ringing in the city and diocese, and to the respect and regard in which he was held by all ringers with whom he had come in contact.

Mr. Burton, in acknowledgment, expressed his appreciation of the sentimental character of the presentation, and particularly for this he was grateful to the members of the Guild.

As will be seen from our peal columns a peal of Stedman Triples was rung on the day of the marriage.

**WEDDING BELLS.**

Wedding bells rang out at All Saints' Church, Binfield, on Wednesday evening, January 21st, in honour of the marriage of Mr. Gilbert Bull, M.M., one of the local band, and Miss Amy Catherine Heather, of Reading, which took place at St. Mark's Church, Reading, that day. A quarter-peal of Bob Minor was attempted, but unfortunately came to grief a few minutes before the end was reached. This, however, did not prevent the band from drinking 'Health and prosperity to the bride and bridegroom,' and expressing good wishes for their future happiness, when they sampled the bride cake, carried by one of the ringers direct from the reception, which was held at St. Mark's Hall, Reading. The bride's father is verging at St. Mark's Church, and the bride was formerly a Sunday School teacher and church worker there. Her popularity among the parishioners was shown by the crowded congregation and the reception the bridal pair received upon emerging from the church after the ceremony.

A peal of Grandsire Triples was rung in celebration of the event at Warfield on January 24th, and published in our last issue.

**A TRIAL OF TACKLEY BELLS.**

On Saturday evening, January 31st, ringers from Headington (Oxford) paid a visit to Tackley Church to try the bells after the rehanging and the addition of a new treble bell to make six. Ringing was indulged in for about two hours and a half, and several touches were successfully brought round in various methods, with very good striking.

The visitors were highly pleased with the 'go' of the bells, and gratifying remarks were made in regard to the very sweet tone of the ring. The touches included Kent Treble Bob Minor, Stedman and Grandsire Doubles. A 720 of Kent Treble Bob Minor was brought round by A. Dubber 1, F. Beckett 2, G. Stace 3, F. Taylor 4, William Judge 5, Walter Judge (conductor) 6. Also a 120 of Bob Minor by W. Evetts, junr., 1, J. Judge 2, G. Stace 3, F. Taylor 4, Walter Judge 5, W. Judge (conductor) 6. Messrs. J. and Walter Judge hail from Kidlington, the others from Headington, near Oxford. The local band took part in touches of Grandsire, and the local tenorman (Mr. A. Whitlock) rang the tenor in Stedman Doubles.

After Lent and Easter, visitors will be welcome, but should give fair notice for the use of the bells.

**A MUNIFICENT GIFT.**

At the Parish Church of Barthomley, Cheshire, on Saturday, Jan. 31st, a quarter-peal of Grandsire Triples, in 45 minutes, by the local band: J. Parker 1, J. Brassington 2, G. Addison 3, J. Matthews 4, J. Bradshaw 5, R. Sherratt 6, A. Allman (conductor) 7, A. Astbury 8. Rung as a welcome to the Lord Bishop of Chester, who was the guest of the Rector for the week-end, and who dedicated on Sunday, Feb. 1st, the rebuilt chancel and a fine east window, which has been erected at a cost of over £3,000 by the Marquess of Crewe, patron of the church, in memory of his son-and-heir, the late Earl of Madeley. After the dedication service, 504 Grandsire Triples, W. A. Crawley, Crewe, conducting.

**SILVER WEDDING.**

At West Didsbury, Manchester, on Sunday, Feb. 1st, for evening service, and also to celebrate the silver wedding of Mr. and Mrs. Rimmington, an attempt for a quarter-peal of Grandsire Triples had to be brought round after about 1,000 changes had been rung owing to the late start. Mr. Rimmington kindly entertained the ringers and friends afterwards: G. Whitelegg 1, W. Savage 2, F. Brickell 3, H. Brickell 4, T. Jones 5, A. Frost 6, R. Davies (conductor) 7, F. Stoneley 8.

## BELFRY GOSSIP.

Mr. R. Maynard, senr., who first handled a bell rope in St. Mary's tower, Walthamstow, in September, 1865, has rung for 52 consecutive years (with one exception, when D.O.R.A. was in operation) for the early celebration of Holy Communion on Christmas Day and also on New Year's Eve.

The peal at Oakham, reported elsewhere, was also a 'farewell' to 'Uncle' Joe E. Sykes, who sailed on Saturday for Manchuria, Asia. It is more than doubtful if he will find any of his favourite 'Yorkshire Glory' in that part of the globe, but his absence will give 'A. K.' time to find the few remaining 'between' numbers, so that Joseph can complete his ambition on his return.

Ninety years ago to-day the first peal of Superlative Surprise Major was rung. This was at St. Giles', Norwich.

The first peal of London Surprise Major on handbells was rung at Romford on February 6th, 1904.

A wonderful achievement in Minor ringing for those early days was accomplished at Bingley, Yorks, on Feb. 7th, 1826, when six local men rang in one day three touches of twelve twelve-scores each, comprising in all 8,640 changes in 36 different methods.

The last survivor of the band, James Lilley, lived until the year 1879, when he died at Shipley at the age of 74 years.

John Cox, one of the most noted ringers in London half a century and more ago, was buried at Nunhead Cemetery forty years ago to-morrow.

The first peal of Forward Major was rung at St. John's, Deritend, Birmingham, on Feb. 8th, 1889, composed and conducted by John Carter.

The College Youths rang a peal of 5,232 Treble Bob Maximus at St. Bride's, Fleet Street, on Feb. 9th, 1777.

February 11th is the anniversary of a terrible accident at St. Nicholas' Church, Liverpool, which happened in 1810. It is thus recorded in the 'Farington Diary' for that year. 'On Sunday, Feb. 11th, the spire of St. Nicholas' Church, Liverpool, fell upon the roof of the church while the bells were ringing for Divine service; 15 or 20 grown persons were in the church at the time, and of these the greater part escaped. The whole number of bodies taken out of the ruins was 27. Of these 22 were either dead or died immediately after their removal. They were chiefly girls, children of the Moorfield Charity School. The fall of the spire was supposed to be in consequence of the bells being rung while the spire was undergoing a repair.'

On February 12th, 1821, a record length of Kent Treble Bob was accomplished at Oldham, the peal consisting of 14,016 changes rung in 7 hours 26 minutes.

The first peal of Caters in two methods was rung last week at Newcastle, when a 5,135 in alternate blocks of Stedman and Erin was rung. The composition was that by Mr. A. J. Pitman, published in 'The Ringing World' of December 26th, and Mr. W. H. Barber (the conductor) and the band are to be congratulated upon ringing a peal of this description at the first attempt.

The Parish Church tower at High Wycombe is now undergoing repairs, and ringing has ceased. It is feared the work will probably take three or even more months to complete. It is understood that the Wycombe men intend to hold an open ringing meeting, when it is again possible to ring the bells.

## 'WAITING TO BE PAID.'

*To the Editor.*

Dear Sir,—Your leading article of the 30th ult. will no doubt be highly appreciated by the Church Authorities, who generally consider the enthusiasm for our 'wonderful art' should be a sufficient inducement to silence all claim for payment for services rendered.

Many years ago I figured as a ringer and singer at St. Clement Danes, and must confess I thought myself a better ringer than a singer. Yet for the latter appointment I received £10 annually, but for my services in the belfry I had to be grateful for the meagre division allowed me by the organiser of what was commonly termed 'The Screw'.

I shall not inquire of you, sir, how this happened, as I know economical laws underlie this seeming injustice. The truth is we are all paid according to our worth to society, though it is sad to think we ringers, like poets, philosophers, or artists, are not sufficiently in the public esteem to gain the prizes of the world. Those men waiting at the Abbey for £1 per annum will, I think, endorse my sentiments.—Yours, etc., G. F. MARGETSON.

[It is, of course, well recognised that there are two classes of ringers—those who pursue the art for the love of it, and those who ring for what they can get out of it. If, as our correspondent suggests, we are all paid according to our worth to society, then paid ringers apparently are not worth much, and these who at Dorchester would be content with a pound a year each are doing nothing to raise the standard of value.—Ed. 'R.W.']

**'TOO MUCH MONEY'**

THE PROPOSALS BEFORE THE M.C.A.

*To the Editor.*

Dear Sir,—The reference to surplus funds, etc., in the account of the Midland Counties Association at Long Eaton in your issue of January 30th is very misleading, as it gives an entirely wrong impression of the business to be brought before the meeting of the special committee, and I shall be glad if you will give me the opportunity of explaining the situation.

The number of ringing members in the association is very large (736 at the end of 1923, and, I think, exceeding that number considerably at the present time), the area from which these members are drawn covering the counties of Derby, Leicester, Nottingham and Stafford, making it very inconvenient for members living near one side of the area to attend the quarterly meetings when held near the opposite side, and as the association is already divided into seven districts (for the purpose of collecting subscriptions and assisting in the formation of the general committee) it must follow that in each year at least three of these districts have no general meeting of the association in their particular area.

Considering the above circumstances and the inconvenience arising therefrom, it was thought by certain members that local government should be given to each of these seven districts, who should each hold three quarterly meetings in their respective districts in each year at their own expense, leaving the annual meeting to be arranged by and at the expense of the central body who should do this and certain other things, funds permitting.

To provide the funds for the above, it was suggested that the central body should take all honorary and life members' subscriptions, and one-third of all ringing members' subscriptions, leaving the remaining two-thirds of the ringing members' subscriptions for the use of the districts in providing postage, advertisements, expenses of their meetings, etc.

If the above scheme is to be carried through, new or alterations of existing rules become necessary, and for this purpose the same have been drawn up and submitted to the principal officers of the associations and the district secretaries, with notice that they would be proposed at the next annual meeting.

In making the alterations in the rules to cover the above, and one or two other minor suggestions, it was thought better to redraft the whole of the rules, and, if possible, to put them in a clearer or less ambiguous form.

It will be seen that the proposition is not that the capitation fee be sixpence per member, instead of one shilling and sixpence, but one-third of all ringing members' subscriptions, which, with the subscriptions at one shilling and sixpence does work out at sixpence, should go to the Central Fund of the Association. But what if the subscription was reduced to one shilling or raised to two? I do not think a rebate at the end of a financial year showing a profit very practicable or fair to the hardworking districts.

Now, it is far from me to wish to upset the association (it has no more loyal member), nor do I wish to go contrary to the majority of its members, or to do anything which would not be for the mutual benefit of us all, but I am afraid from what has been said and written I am misunderstood, I hope not wilfully. I believe there are guilds and associations of ringers working on the suggested lines, notably the Lincoln Diocesan Guild. I should be glad to know names of others.—Yours truly,  
Cotgrave. W. E. WHITE.

**THE LATE MR. ARTHUR LOVEJOY.**

A TRIBUTE FROM PORTSMOUTH.

It was with deep regret, writes Mr. F. W. Rogers, hon. secretary of the Portsmouth District of the Winchester Guild, that we read of the sudden death of Mr. Arthur Lovejoy, of Reading, which took place quite recently. For us it was a terrible surprise, as he was ringing with us at St. Mary's on the Wednesday evening before his death, and appeared to be in his usual good spirits. To us at Portsmouth he was a true friend and a keen and regular ringer, attending all Sunday ringing and practices which took place in the tower. Methods presented no obstacles to him, and he quickly rang touches of Double Norwich, Cambridge, Superlative and Berkeley Surprise, with but little practice. Although only with us a few months, we valued his services, and it will be a loss not easily regained. To all his relatives and ringing friends at Reading we extend our deepest sympathies in their bereavement. The deceased was a member of the Winchester Diocesan Guild.—R.I.P.

PORTISHEAD.—At St. Peter's Church, on January 27th, a quarter-peal of Grandsire Triples, in 45 minutes, rung on the occasion of the baptism of two nephews and a niece of Mr. J. Nisbett: R. Williams 1, E. Goldstone 2, Miss A. Stokes 3, Miss G. Dobbs (conductor) 4, J. Nisbett 5, Miss H. Orchard 6, W. Gillingham 7, G. Rowbotham 8.

**ANCIENT YORKSHIRE PEAL OF SIX.**

DARFIELD BELLS REHUNG.

On Sunday evening, when the church was packed to the utmost, the bells at All Saints', Darfield, were rededicated by the Ven. Archdeacon Derbyshire, of Sheffield, assisted by Canon A. E. Sorby, Rector of the parish, and the Rev. T. Wilson, curate. After the dedicatory prayer, the local ringers, assisted by Mr. Charles Dean, of Messrs. Gillett and Johnston, raised the bells in peal. The Archdeacon gave a very interesting and instructive address, tracing the history of bells and their uses from ancient times down to the present day.

As the congregation left the church, the bells were rung by the visiting ringers from Wath-on-Dearne, the first touch being a 720 of Royston Delight: W. Bramham 1, H. Chamberlain 2, J. Champion 3, R. Ricketts 4, A. Gill 5, C. Walsh (conductor) 6. There were also present Mr. C. D. Potter, of Barnsley, secretary of the Barnsley and District Society. Mr. Frank Atkinson, of Wragby; Mr. C. Bell, of Wombwell, and several other ringers. The bells were kept going in various touches by mixed bands until 10 p.m., all agreeing that the work gave every satisfaction, and the 'go' of the bells was splendid. The work of restoration has been carried out by Messrs. Gillett and Johnston, of Croydon. The old bells have been retuned and cleaned, and fitted with all modern improvements, including ball bearings. The frame is a massive structure of steel girders and cast iron, to hold eight bells, the intention being to add a treble and tenor at some future date. The present six are an interesting and ancient ring.

Treble.—Recast Wath-on-Dearne, 1780, by Thomas Hilton.

2nd.—1675, no founder's name, but bearing 'ebor' in small letters. Supposed to have been cast at York.

3rd and 4th.—Pre-Reformation bells, supposed to have come from Beauchief Abbey, near Sheffield. No date or founder's name.

5th.—Recast Darfield, 1750.

Tenor.—1613. No founder's name, but inscribed, 'All you that heare my mournful sound, repent before you lye in ground.'

**DEVONSHIRE GUILD.**

MID-DEVON BRANCH.

The annual meeting of the Mid-Devon Branch was held at St. Mary's Church, Torquay, on Saturday, January 24th, and proved to be one of the largest and most successful meetings since the formation of the branch. Ringers were present from Exeter, Exmouth, Christow, Cockington, Collaton, Buckfastleigh, Littlehempston, Paignton, and St. Mary's Church, Plymouth. Some good touches of Stedman and Grandsire Triples were brought round during the afternoon, and a short service was held in the Parish Church, conducted by the Rev. E. Griffiths. About 50 sat down to a splendid tea, and at the subsequent business meeting Mr. F. J. Laxton presided, in the absence of the branch chairman (Mr. H. W. Wilkes). The Hon. Secretary (Mr. H. J. Hole) then read the annual report, which showed a very successful year. Good quarterly meetings had been held at Stoke Gabriel, Dartington and Tolnes, and Ipplepen, and, in spite of the heavy expenses, there was still a balance in hand.

Mr. H. W. Wilkes was again elected chairman for the ensuing year, subject to his approval.—Mr. H. J. Hole was unanimously re-elected hon. secretary, and, in returning thanks for their confidence, he asked for more assistance, as the branch covered a large area and he felt he had not the time to carry out all the duties that were required.

The Chairman expressed the pleasure of the members in having with them that day the president of the Guild (the Rev. E. S. Powell), the general hon. secretary (the Rev. E. V. Cox), also Messrs. Shepherd and Southwood (Exeter), and Mr. E. W. Marsh (Plymouth).—Mr. E. Shepherd congratulated the branch, and said he had watched it with interest. He remembered starting to teach a band in Torquay 26 years ago, but it fell through, and he remembered the late president once saying that 'change ringing' would never be established in Mid-Devon, but he was glad to see it was, and that good progress was being made.

Messrs. Southwood and Marsh gave some very encouraging advice, and Mr. F. T. Gover congratulated the members of the South-Western branch on their recent achievement in ringing their first 720 of Cambridge Surprise Minor.—The Rev. E. S. Powell briefly acknowledged the congratulations.

The Chairman proposed a hearty vote of thanks to the Rev. S. R. Carden and the Rev. Canon L. Bevan, Vicars of St. Mary's Church and Babbacombe respectively, for the use of the bells; also the Rev. E. Griffiths for conducting the service, and Mr. Reginald Job for presiding at the organ. He also expressed the pleasure of the members in having with them that day the captains of these towers, and said that although they did not ring in the same style as others in the branch, it was pleasant to see such good feeling existing.

Ashburton and Buckfastleigh were chosen for the next quarterly meeting, to be held on May 2nd.

The meeting then terminated, and the members adjourned to Babbacombe, where further ringing was carried on.

**BELL HANGERS & 'ODD-STROCK' BELLS.***To the Editor.*

Dear Sir,—In your issue of last week a speaker at a Cirencester meeting is reported as having expressed the opinion that 'the bell-founders had brought the art of casting and hanging to perfection.' As to the casting, I would not contradict the speaker, but I would like to make a little grumble about certain instances of modern bell hanging which I have come across.

A few years ago, the 'head' of one of the leading firms of bell foundry, speaking in my hearing, said that in his opinion the time was fast approaching when the heaviest of bells would be rung in changes with very little physical effort. Be this as it may, I was ringing on a peal of bells recently rehung by the firm alluded to above, and found that the tenor, which had not been recast and which was an 'odd-struck' bell, was hung so that its quick stroke was at hand-stroke, and its slow one at back-stroke. Now, since I believe the practice of making a pause before the hand-stroke round or change is a universal one, and since, if the bells are being properly struck, this pause must affect not only the leading bell, but each other bell as well, I quite fail to understand why any bell hanger who knows anything about our system of ringing should hang a bell, at any rate a heavy one, in this way.

To make myself quite clear about this, let us suppose that eight bells are being rung, and that they are ringing at the rate of a round per two seconds, and giving a pause of a half-second before each hand stroke lead, which is, I think, about the customary thing (I was taught when learning to make the pause equal to double the interval between each bell during the round or change, whether ringing on five bells or on twelve.) In this case, then, two and a half seconds will elapse between the back-stroke blow of a bell in rounds and its ensuing hand-stroke blow, but only two seconds before its next back-stroke blow. In the case of the bell I have referred to I should say that if it were rung and an equal pull given on each stroke it would give just the reverse of what is required for hand-stroke open leads.

I have been told that such bells as I am referring to can be rung properly if slowly enough. That is quite correct, but even then it is making the ringing more laborious than it need be; secondly, the defects in bells of poor quality are much more pronounced when rung slowly, and, further, a much more skilful ringer is required to ring such a bell. Whilst I know that we have some hands of ringers who could ring almost to perfection a peal of bells, each bell of which was odd-struck, they are few and far between, and in any case the aim of bell hangers should be to hang bells in such a way as to make the art of ringing them as easy to acquire as is possible. I would even go so far as to advocate that bells should not be cast so as to strike perfectly evenly, and that they should strike slightly quicker on the back-stroke than the hand-stroke when hung.

I have been prompted to make this 'grouse' about the work of our bell hangers on account of the number of instances of heavy bells being hung in the manner of which I have complained, and because I realise that we have thousands of bells which, although odd-struck, are too good in quality to be recast on that account, but which will at some time or other require the bell hanger's attention. These bells, when rehung, might just as well be hung in the manner best suited to the style of ringing, which has been in evidence for longer than anyone living can recall (and for all I know much longer than that), as in the haphazard manner I have found many to be.—Yours faithfully,

EDWARD P. DUFFIELD.

Alton, Hants.

**CHELTENHAM RINGERS' DINNER.****LONG PEAL RECALLED**

A thoroughly enjoyable evening was spent by the ringers of the Parish Church and St. Mary's Guild of Ringers, Cheltenham, at their annual dinner on Tuesday evening, January 27th, at the Belle Vue Hotel. The company, upwards of twenty, including several visitors, sat down to a capital dinner, and a convivial evening followed. After the toast of 'The King' had been duly honoured, apologies were read by the chairman from a number of gentlemen (including the Rector) regretting inability to attend, chiefly by reason of illness. Reference was also made to the fact that two of the ringers of the long peal of Grandsire Caters (15,227 changes, rung in nine hours and 43 minutes on April 22nd, 1889) were present, viz., Mr. W. T. Pates (who conducted) and Mr. A. W. Humphris (who rang the tenor).

A good programme of songs, recitations, reminiscences, and various items on the handbells, were also given by Messrs. Pates, Parsons, Harley, Humphris, Collier, Foster, Clements, Lewis and Bastin (among the ringers), and Messrs. Straw, Jeend, senr., and Waltham (among the visitors). Those present included Messrs. Pates, Humphris, Parsons, Harley, Brinkworth, Hayward, Bastin, Vick, Collier, Clements, Lewis, Whittle, Foster, Straw, Clark, Waltham, Jeend, senr., Beacham, Simmonds, Simpson and Marchant. A most pleasant evening was spent.

**A NOTTINGHAMSHIRE RECORD.****BEESTON BAND'S SUCCESS.**

The Beeston band, who last Saturday scored a peal of London Surprise, have now rung peals of Kent, Oxford, Stedman, Double Norwich, Norfolk, Superlative, Cambridge and London, each performance being the first in the county of Notts by a local band. It is worthy of note that Mr. William Clifford, senr., the ringer of the 2nd is in his 76th year. He commenced his Surprise career at well over 60 years of age, and has now achieved his ambition in scoring a peal in the highest method. It is probably a record for a man to ring his first peal of London Surprise at his age. There can be few men whose first peal as 'conductor' has been in this method, and Mr. Percy Price received hearty congratulations from the rest of the band. The peal was rung on the 41st anniversary of Mr. J. C. Dickens' first peal, which was 5,040 Grandsire Triples, on January 31st, 1884, at Beeston Church.

**QUADRUPLE CELEBRATION AT LEYLAND.**

The peal last Saturday, at Leyland, Lancs, was rung to celebrate the ninth anniversary of the wedding of Mr. E. Bannister's daughter to Mr. Ernest Berry. Twelve months ago a son was born to them. Mr. E. Bannister intended being in the peal, but ill-health prevented him. The band wish to take this opportunity of thanking him for the splendid tea which he provided, and hope he will soon regain his health and be able to take his place in the ringing chamber at Leyland. Five of the band took part in a peal rung for the wedding nine years ago. The ringers on that occasion were: T. B. Worsley, T. Barlow, J. Ridyard, B. A. Knights (conductor), H. France, S. Watkinson, W. Pennington, E. Bannister; and the method (as on Saturday), Stedman Triples. Mr. S. Watkinson, another Leyland ringer, takes a rope occasionally, but not so frequently as of yore, and looks back on 40 years of married life at the end of January. Finally, Mr. Pennington's daughter was married twelve months ago. Since all these interesting events happen at the same time, an effort is to be made to ring a peal on each succeeding last Saturday of January.

**BELLS AS MUSICAL INSTRUMENTS.***To the Editor.*

Dear Sir,—In your issue of January 30th, you give a report of part of a speech by Mr. W. D. Caroe, the architect, in which he speaks rather disparagingly of present-day bell hanging, and also makes some remarks on change ringing. He is reported to have said the carillon bell of the Continent was a musical instrument. The other bells were not musical instruments. In contradiction of this, I should like to quote a conversation which took place outside a church tower one Sunday night, a few weeks ago, where a new peal of eight had just been installed, not a thousand miles from Sheffield. A band of visiting ringers had come down the tower steps, and were talking of the merits of these and various other peals of bells. Said one enthusiast: 'You should hear Birstall bells. When we were there we had been up and rung a touch, and got the bells down, put on our coats, and came down into the churchyard, and when we got there we could hear the bells still humming.'

'Ah, mun,' said another, 'that's nowt. Tha should hear Oldham. When the ringers go there to ring at Sunday morning the bells are just finishin' hummin' from t' Sunday before.' If there is any truth in this, Mr. Editor, I think that Mr. Caroe's statement that church bells (or at least, modern ones) are not musical, is, to say the least of it, an exaggeration.—Yours, etc.,

'YORKSHER.'

**GLOUCESTER & BRISTOL ASSOCIATION.**

The annual meeting of the Wotton-under-Edge Branch was held at Berkeley, and 25 members attended from Berkeley, Dursley, Stinchcombe, Coaley, Slimbridge, Wickwar, Wotton, and Olverton. Mr. J. Austin, of Gloucester, was also present, and undertook the conducting of the various methods, which were practised during the afternoon and evening. Tea was partaken of at the Vicarage, by invitation of the Rev. H. C. Arnour (Vicar), who was unavoidably absent owing to indisposition.

Mr. A. Burcombe presided over the business meeting. The secretary's report showed that the average attendance was 15 for the ten meetings, which had been held during the past year. The balance sheet showed a balance of £3 14s., which was considered satisfactory.

Mr. W. A. Lewis, who has been secretary for the past ten years, was unanimously elected chairman of the branch, and Mr. H. Phillips, The Lynch, Berkeley, has undertaken the hon. secretary's work. Mr. F. Oakhill was elected on the management committee.

A vote of thanks to the Vicar for the use of the bells, and for providing tea, was proposed by Mr. A. Burcombe, and carried with acclamation.—Coaley was proposed as the place of the next meeting, on February 14th.

### LINCOLN DIOCESAN ASSOCIATION. GAINSBOROUGH DISTRICT COMMITTEE TO MEET.

The annual meeting of the Gainsborough District of the Northern Branch was held at Gainsborough on Saturday, January 24th. There was a large attendance of members and friends from Stow, Scotter, Messingham, Haxey, Brigg, Lincoln, Retford, Worksop, Tickhill, in addition to the local company. The peal of eight bells at the Parish Church were available, and were kept going in the methods of Grandsire, Stedman, Plain Bob, Treble Bob, Double Norwich, Little Bob and Forward, also some rounds and call changes.

A short service was conducted by the Rev. E. H. Flory, who gave an excellent address. A meat tea was provided at Everatt's Cafe, to which 38 members sat down.

At the business meeting which followed, the Rev. J. S. Walton presided. The new members elected were: Mrs. Baker, Mrs. Bartram and Mrs. Heal (honorary members), Messrs. Curtis, Hird, Denton, Clark and Ayris (ringing members), and Mr. H. Weaver, of Worksop, a non-resident life member.

The officials for 1925 were elected as follows: President, the Rev. Canon Morris; secretary, Mr. H. Morgan; representative on the Northern Branch Committee, Mr. E. Dawber; Ringing Master, Mr. H. Morgan.

The dates and places for coming meetings are: Lea, April 11th; Willingham, May 16th; Broughton, June 20th; Messingham, July 18th; Kilton, August 22nd; Brigg, September 12th; and Upton was selected to fill any vacancy.

Mr. F. S. W. Butler spoke on the importance of holding meetings of the Gainsborough District Committee. The committee, however, had not met for a considerable number of years.—This view was endorsed by Mr. F. F. Linley, President of the Northern Branch, and it was decided that the committee should meet at least twice during the year, each tower to inform the secretary who their representative is.

Votes of thanks to the Vicar and churchwardens for the use of the bells; the Rev. E. H. Flory for conducting the service; the organist (Mr. J. E. Rotherham); the choir boys; and the chairman, concluded a successful meeting.

### SUSSEX COUNTY ASSOCIATION. MEETING OF CENTRAL DIVISION.

A meeting of the Central Division was held at Hurstpierpoint on Saturday, January 24th, and was attended by a large and representative gathering. Ringing commenced at 2.30, and at 4.30 there was a choral service in church, conducted by the Rector (the Rev. C. H. Piggott), the sermon being preached by the Ven. H. M. Hordern, Archdeacon of Lewes, who, in the course of his address, made interesting reference to the various ancient bells still to be found in Sussex bellfries. The Rev. F. G. Biddard (Vicar of Burgess Hill) and the Rev. G. St. John Topham (Rector of Twineham), also assisted at the service. The collection, taken for the benevolent fund, amounted to 16s. 8d. Those present, numbering fifty, then proceeded to the Parish Room, where an excellent tea had been provided by the Rector of Hurstpierpoint and Mrs. Piggott, ably seconded by a band of ladies who looked well after the wants of their guests. A pleasing feature of the gathering was the number of local clergy, who testified by their presence their interest in the proceedings.

At the business meeting which followed, with the Master (Mr. J. T. Rickman) in the chair, the following were elected: Hon. members, Rev. G. St. John Topham (Rector of Twineham), Rev. H. Collison (Vicar of St. Nicholas', Brighton), Messrs. Geo. Chapman (Burgess Hill), J. Welch and J. F. Stephenson (Honfield). Affiliated members: Messrs. G. H. Olliver (Balcombe), L. Cragg (Keymer) and G. W. Gasson (Bolney). The election of Messrs. Albert W. Coles (Brixton) and R. D. Marshall (Deptford) was confirmed.

At the conclusion of the business, the Chairman proposed a hearty vote of thanks to the kind hosts and other friends at Hurstpierpoint, whose hospitality had added so much to the social success of the day.—This having been suitably acknowledged by the Rector, a move was once more made to the belfry, where ringing continued till 8 o'clock, when the bells were lowered in peal. The methods rung ranged from Grandsire Doubles to London and Bristol Surprise. The following towers were represented: Brighton (St. Peter's and St. Nicholas'), Burgess Hill, Bolney, Crawley, Ditchling, Heene, Henfield, Hurstpierpoint, Keymer, Southover (Lewes), Lindfield and Twineham. Mr. F. Rogers (Pursea) was also present. Thanks are due to the local branch for the excellent arrangements made.

### A DATE TOUCH.

At Great Dunmow, Essex, on Monday, January 17th, at the Parish Church, 1,925 Plain Bob, in 1 hour 15 mins.: B. Claydon 1, A. Ribbans 2, A. Smith 3, A. Petry 4, G. Richardson 5, W. Smith (conductor) 6.

### PETERBOROUGH DIOCESAN GUILD. WELLINGBOROUGH BRANCH.

By kind permission of the Vicar (the Rev. B. E. Owen), a quarterly meeting of the Wellingborough Branch of the Peterborough Diocesan Guild was held at Higham Ferrers on Saturday, January 24th, members being present from Finedon, Irthlingborough, Wellingborough, Wollaston, Easton Maudit, Earls Barton, Yardley Hastings, Northampton, Great Addington, Thrapston, Raunds, Ringstead, Burton Latimer, and the local ringers. The bells (a fine peal of eight) were kept going during the afternoon and evening to various methods, ranging from Plain Bob Minor to Superlative, Cambridge and Bristol Surprise, and some very good ringing was enjoyed.

Owing to the illness of the Vicar, the Guild service was conducted by the curate (the Rev. G. E. Stevenson), and the Ven. Archdeacon Greaves, president of the branch, gave an excellent address, based on words taken from the Sermon on the Mount (St. Matthew v. 14), 'A city that is set on a hill cannot be hid.' He congratulated the Guild on the good work it was doing, not only for the great art of scientific change ringing, but also for the church. He went on to point out the importance of their work as ringers. They were indeed as a city set on a hill, and their work could not be hid. He, therefore, appealed to them to make themselves worthy of their calling, and to let their light so shine before men that they might see their good works.

The party then adjourned to the old Grammar School adjoining, where a bountiful tea had kindly been provided by the local ringers and their wives, some 54 members sitting down.

After the tea the president, having another engagement, had to leave, but before he did so the Secretary said he was sure he should be voicing the feeling of all in saying how delighted they were to have him with them, it being the first anniversary of his election as president of the branch. It was also the first time that they, as a body of churchworkers, had met him since his appointment as Archdeacon of Oakham, and begged to offer to him the sincerest congratulations on that appointment. — In replying, the Archdeacon thanked the members for their kindness, and assured them of the great interest he took in all that concerned the ringers. He would do all he could to help them in every possible way.

The business was then proceeded with, Mr. F. Wilford, Master of the Guild, presiding.—Yardley Hastings was suggested as the next place of meeting, and three new members were elected.

The Secretary presented his report and balance sheet for the past year, which were considered most satisfactory, and were passed unanimously.

Votes of thanks were heartily accorded to the Vicar for the use of the bells, to the organist, and to the local ringers and their wives for their help with the tea.

Further ringing was then indulged in, and a notable visitor during the evening was Miss Vera Robinson, daughter of the late Rev. F. E. Robinson. Afterwards a social was held in the Clubroom of the Green Dragon Hotel. Touches and selections were given on the handbells by the Irthlingborough ringers, and some capital songs were rendered by various members of the company. Mr. A. Perkins presided at the piano.

### SALISBURY DIOCESAN GUILD. WORK IN THE DEVIZES BRANCH.

During last quarter the Devizes branch held three meetings. The first was at Bishop's Cannings on October 4th, when 34 ringers attended. The bells here are of beautiful tone, and, as they were put in the tower in 1602 are one of the oldest rings of eight bells in England.

The second meeting was at Hilperton on November 1st, but a wet day marred the attendance. Ringing after tea took place at Trowbridge.

The annual meeting of the branch was held at Devizes on December 15th, when the bells at three towers were available. A peal board was unveiled in St. Mary's tower, and the service was held at St. John's. A company of about 70, including seven hon. members, were present at the tea and business meeting. Mr. C. D. Heginbotham, chairman of the branch, was cordially welcomed back after his long illness, and he reported that the branch had made steady progress during the year. Various bell restorations had been carried out, and others were in hand.

The secretary's report showed a satisfactory state of affairs, and an increase in membership. The numbers were 20 honorary members and 226 ringing members.

Mr. C. D. Heginbotham, of Devizes, was re-elected chairman; Mr. F. Green, Devizes, was re-elected hon. secretary and treasurer; Mr. J. Francis, Trowbridge, was elected Ringing Master; and Mr. S. Hillier, Devizes, was elected as advisory expert for the branch. Two life ringing members and four ringing members were also elected.

The death of Mr. E. O'Leary, of Keevil, was reported at this meeting, and the company stood in silence for a few moments to the memory of one who had been a very staunch supporter of the branch for many years.

## THE LATE SIR A. P. HEYWOOD.

## MEMORIAL DEDICATED AT DUFFIELD.

A memorial tablet to the late Sir Arthur Perceval Heywood has been erected by the parishioners in Duffield Church, and was dedicated by the Bishop of Derby on Sunday morning, January 25th.

There was a large congregation, amongst whom was Miss Heywood, a daughter of the late baronet. Mr. H. O. Moore, son of the late Rev. F. W. Moore, a former Vicar of Duffield, unveiled the tablet. Morning service was read by the Vicar (the Rev. E. A. Causton), and the choir feelingly sang Tennyson's 'Crossing the Bar' to Bridge's setting. During the procession, the hymn, 'Saviour, Blessed Saviour,' was sung, and later 'We love the place, O God.' Psalm ciii. was also sung. Mr. C. S. Brighouse presided at the organ.

The Bishop (says the 'Derby Daily Express') took the subject of 'Great Men' based on a chapter of Ecclesiasticus, for his sermon, and said that a careful study of the New Testament appeared to him to reveal the fact that it was men of affairs that Jesus loved and admired—soldiers and business men. He referred to the lives of the late Sir Arthur Heywood and Mr. Richard Waite (formerly a churchwarden for many years, who died the previous week), the two they were remembering that day, as such lives—although they were not soldiers in the British Army, they had both served their generation with all their might and strength.

The tablet, which is of marble, is of Gothic type, and is placed on the church wall near the main entrance.

The inscription is as follows:—

In gratitude for the life and example of Sir Arthur Perceval Heywood, Baronet, who died at Duffield, 19th April, 1916.

A loyal and devout churchman, for upwards of 40 years he was a worshipper in this church, which he loved, and which, on his initiative—and largely by his munificence—was restored in the year 1897.

An enthusiastic campanologist, each Sunday he took his place in the ringing chamber, and by his efforts the old peal of six bells in the tower of this church was replaced by a peal of ten bells, and ultimately endowed by him in perpetuity. A tribute from the parishioners.

**SAWRIDGEWORTH, HERTS.**—On the bells of St. Mary's, on New Year's Eve, a quarter-peal of Grandsire Triples (1,260 changes) in 52 mins.: Rev. A. Rust 1, F. Bird (conductor) 2, A. Lever 3, W. Morris 4, H. J. Tucker 5, H. Sahan 6, W. Tarling 7, S. White 8. First quarter-peal by the ringers of the treble, 3rd and tenor.

### A NOTABLE PERFORMANCE.

The record of the peal of Cambridge Surprise Maximus at St. Paul's Cathedral last Saturday is the record of a great performance. The peal appears exactly as sent by the conductor, without any footnote whatever, but if ever a peal was worthy of comment such an achievement certainly is. It was the first peal of Cambridge Maximus on the bells, which are the heaviest ring that have been rung 'all in' to a peal. Moreover, the tenor at St. Paul's is the heaviest bell ever turned-in to a peal by one man, and congratulations will be extended to the band of College Youths who made the successful attempt. It is some years since the first effort was made to ring a peal in this difficult method on the noble bells of St. Paul's, and the real merit of the performance can only be fully appreciated by those who have had experience in ringing a method of this character on bells of such a weight.

Peal attempts at St. Paul's Cathedral are only very rare occurrences, and we believe there have been but nine peals rung on the bells in the forty odd years they have been in the tower. At first it was considered that the tenor was necessarily a two-men job, but in course of time it was proved that not only was it possible for one man to ring this great bell behind to Cinques, but it was demonstrated that the bell could also be turned in singlehanded.

Peals of Kent Treble Bob Maximus have been rung in the past, and now at length a band of College Youths has added yet another great achievement to the many which have marked the history of the Ancient Society, while Mr. Alf. Peck, who rang the tenor to the record peal of Stedman Cinques at Southwark Cathedral in 1923, has once more proved his marvellous capacity to undertake a giant's task. Others there may be who could equal what he has done, had they the opportunity, but their number is extremely limited. On such a ring of bells as those at St. Paul's, however, every man who takes part fully deserves a share of the credit, and last Saturday's achievement will undoubtedly go down in ringing history as one of the most notable peals on record.

The performance recalls some other fine feats, such as Mr. William Pye's singlehanded task at Exeter Cathedral, when he rang the great tenor bell behind to a peal of Stedman Caters, and the achievement of a man like Mr. James George, who, when past 70 years of age, can turn a bell like Southwark tenor in to a peal of Maximus. Mr. James Washbrook, in his prime, performed some herculean tasks, among them the peal at Wells Cathedral many years ago. Then, too, there should be included those who have previously rung St. Paul's tenor singlehanded to peals of Cinques or Maximus, and those great achieve-

## SWINDON RINGER'S DEATH.

At St. Mark's Church, Swindon, Wilts, on Tuesday, January 27th, touches of Plain Bob Minor, Stedman and Grandsire Doubles were rung with the bells half-muffled, in memory of the late J. Tazewell, a member of the band since the opening of the bells, twenty years ago: G. Lawrence 1, H. Wheeler 2, H. Hatton 3, J. Penny 4, S. Hopper 5, A. Hurst 6. Four of the above acted as bearers at the funeral on the same afternoon.

## BELLS DEDICATED AT WILLINGHAM, CAMBS.

At Willingham, a Cambridgeshire village, the old peal of five bells have been recast, and a new treble added. On Tuesday, February 3rd, they were dedicated by the Bishop of Ely (Dr. L. J. White Thomson). Other clergy present included the Rev. R. Copeman (secretary, Ely Diocesan Association), and the Rev. H. B. Woolley (district secretary, Hunts District). After the dedication, rounds were rung by the local band: A. Huckle 1, E. J. Bonus 2, F. G. Gleaves 3, C. H. Frohock 4, N. Robinson 5, H. T. Frohock 6—all of them resident ringers. Following the service, 180 Plain Bob was rung by A. Huckle 1, C. W. Cook 2, F. G. Gleaves 3, H. T. Frohock 4, A. J. Ginn 5, F. Warrington (conductor) 6, followed by a 720 Kent Treble Bob by A. Huckle 1, Rev. H. B. Woolley 2, F. G. Gleaves 3, C. W. Cook 4, A. J. Ginn 5, F. Warrington (conductor) 6. Touches of Oxford and Cambridge Surprise were also brought round. Ringers from Over, Long Stanton, Histon and Cambridge were present.

The bells, which are in a new steel frame, have been rehung by Messrs. Taylor and Co., Loughborough, and run in ball bearings. The 'go' is excellent, and leaves nothing to be desired. It is hoped, however, that a better circle will be obtained for the ropes in the ringing chamber.

## PRESENTATION AT EXETER.

A very interesting ceremony took place in the belfry of St. David's Church, Exeter, on Monday evening, February 2nd. In the presence of the Vicar (the Rev. E. C. Burkitt), Mr. Westaway (churchwarden), Mr. T. Laver (hon. secretary pro tem. of the Exeter Branch, Devonshire Guild), Mr. J. C. Oke (assistant secretary), Mr. W. J. Southwood (late hon. secretary), and the St. David's band, Mr. F. J. Davey was presented with a gold bell pendant and a fountain pen, both suitably engraved, to commemorate his having successfully accomplished the feat of ringing 100 peals, many of which he has conducted.

Mr. J. C. Oke, in asking the Vicar to make the presentation, congratulated Mr. Davey on his splendid achievement, and said, in addition to his having accomplished this feat, the presentation was also being made in recognition of his excellent services as Ringing Master at St. David's, and for his valuable help to the Guild.

The Rev. E. C. Burkitt, in making the presentation, heartily congratulated Mr. Davey, and thanked him for his services. He hoped that he would be spared to continue his work, and also that he would be able to make his total peals twice that number.

Mr. Davey, in reply, expressed his thanks. He said without the help of others it would not have been possible for him to have rung those peals, and he tendered them his best thanks. The greatest honour, he felt was when the opportunity occurred to get a young hand through his first peal.

## THE W. D. CROFTS' COMMEMORATION DINNER. SUCCESSFUL GATHERING AT NOTTINGHAM.

On Saturday evening, January 31st, the Nottingham Society of Sherwood Youths, at the Albert Hotel, held their annual dinner to the memory of William D. Crofts, who was the genius of the society 150 years ago. It was in every way a most successful function, a company of 84 sitting down. The Master (Mr. A. Coppock), who occupied the chair, was supported by the Sheriff of Nottingham, Councillor R. A. Young, the Rev. R. F. Wilkinson (Mansfield), Mr. C. Riley (churchwarden of St. Peter's, Nottingham), Mr. G. Walker (Birmingham), Mr. W. E. White, Mr. F. Blood (local secretary), and other prominent local ringers.

After the loyal toast had been honoured, the Master congratulated the Beeston ringers on their initial performance of a peal of London Surprise Major, to which Mr. F. S. Price replied.

The 'star' turn of the evening was the able and witty response by the Sheriff to the toast of the City and Corporation of Nottingham. One point in particular he emphasised, namely, his delight in finding, in this mercenary age, a body of men who loved their art for its own sake, and not for any pittance that might accrue from it.

Another speaker always a source of pleasure and delight, the Rev. R. R. Wilkinson, regaled the company with stories of the difficulties of incumbents with their ringers in the year 1871. How thankful present day incumbents ought to be to the ringers' associations.

Mr. W. Willson should have replied, but indisposition prevented his attendance, and his presence was greatly missed. At very short notice, Mr. E. C. Gobey stepped into the breach.

The toast of 'The Sherwood Youths' was proposed by Mr. W. Hunt, who likened the revival of the society to the splicing of a bell rope, and he congratulated the Master on its accomplishment. This toast the Rev. F. S. Price, who is developing a raciness of speech, supported.

The programme was in capable hands, amusement being caused when the chairman called upon himself for a song. And such a song! At any rate, the weather has been a wee bit finer since. Songs were also sung by Mr. J. T. Bradley, Mr. J. F. Adkin, Mr. Matthews, and the Welbeck Quartette. Mr. W. Hunt contributed oboe and saxophone solos, with Mr. W. Taylor at the piano. Each dinner has been one better than its predecessor, and the committee tender their thanks to each and all for making this one such a success.

## LINCOLN DIOCESAN GUILD. EASTERN BRANCH.

The annual meeting of the Eastern Branch was held at Sibsey on Saturday, January 31st, and proved one of the best meetings since the branch was set going again after the war. Members were present from Boston, Benington, Bicker, Butterwick, Frampton, Freiston, Stickney, Wrangle, members of the local band, and also several friends from the Elloe Deaneries and Northern Branches. The Ringing Master of the Guild (the Rev. H. Law James) was prevented from being present, through illness. Ringing was commenced shortly after 2 p.m. This beautiful-toned ring of eight has recently been in the hands of Mr. A. Bowell, of Ipswich, and everyone remarked on the splendid 'go' of the bells. Various touches of Grandsire Triples, Bob Major, Kent Treble Bob Major and Double Norwich were successfully brought home.

A short service, conducted by the Vicar (the Rev. C. V. Camplin Cogan), was held, and his address was most inspiring. Afterwards, the company was entertained to tea at the White Hart by the Vicar.

The business meeting followed, the chair, in the absence of the President (the Rev. J. R. Trotter), being occupied by the Rev. C. V. Camplin Cogan.

The President was unanimously re-elected. The vice-presidents were re-elected en bloc, with the addition of the Rev. C. V. Camplin Cogan. Mr. J. Phillips, of Butterwick, was again unanimously re-elected to the joint offices of secretary and treasurer; Mr. J. W. Lakin, junr., of Wrangle, was also unanimously re-elected as Ringing Master of the Branch, and Mr. Alex. Sharp as Guild representative.

Votes of condolence were passed with the families of the late Mr. Enos Clayton and Mr. John Sharp, the members standing in silence. The former at one time held the office of secretary of the Old East Lines Association, succeeding Mr. E. Mason in that capacity. The latter was a member of the Guild for nearly forty years. Both the deceased ringers were members of the Freiston band.

The Vicar of Sibsey was accorded a very hearty vote of thanks for his hospitality, for the use of the bells, and for conducting the service. Leake was selected for the next quarterly meeting.

Two new ringing members were duly elected.

At the conclusion of the business, a touch of Grandsire Caters on Mr. Rupert Richardson's handbells was rung by the following: Mrs. R. Richardson 1-2, W. Wood 3-4, R. Richardson 5-6, J. W. Wood 7-8, G. Ladd 9-10.

The tower was again visited, and several touches in eight-bell methods, as well as some in six-bell methods and a touch of Stedman Triples, were brought round.

**THE REPAIRS TO WYCOMBE TOWER.**

The annual meeting of the Wycombe belfry was held on Monday week, when the members spent a pleasant and enjoyable time.

The officers for the year were re-elected as follows: President, the Vicar (the Rev. F. M. Molyneux, M.B.E., M.A.); foreman, Mr. Ralph Coles; deputy, Mr. Edward Markham; hon. secretary and treasurer, Mr. George Twitchen. Several new members were elected, the membership of the tower now standing at 22.

The finances were highly satisfactory, and among the grants made were 10s. to a former member, 10s. to the Washbrook Memorial, £1 to the Tower funds.

The repair of the tower, in its relation to ringing, was, of course, a great topic for discussion, but, unfortunately, no time could be stated as to when ringing would be resumed; though gratitude was expressed that ringing was permitted during the time the scaffolding was being erected. The work is being begun at the top first, Weldon stone being used for the mullions of the louvre windows, and the scaffolding will be removed gradually. There is a slight hope that ringing may be resumed when the louvres are finished.

Business over, the President kindly invited the members to dinner—a typical old-English repast—which was thoroughly enjoyed. After the meal, the rest of the evening was spent in conviviality. A hearty expression of thanks to the Vicar for this generosity, and his practical interest in the belfry generally, brought a very pleasant 'annual' to a close.

**'A NOTTINGHAMSHIRE RECORD.'**

A correspondent writes that our paragraph under the above heading was not accurate. In chronological order, the first peal of Oxford Treble Bob rung by a local band in the county of Notts was a 7,040, at St. Peter's, Nottingham, on Feb. 15th, 1774, conducted by W. D. Crofts. The first peal of Kent was also at St. Peter's, Nottingham, December 12th, 1836, conducted by W. Johnson; and, finally, the first local peal of Stedman lies to the credit of the Retford men.

We would add that the information which we used in our paragraph was supplied to us, and the sender was apparently unaware of the earlier performances.

Mr. H. W. Wilde writes congratulating the Beeston band, and inquires if Mr. Clifford, senr., is the oldest man to ring a peal of London Surprise.

**CHURCH HAS TO REFUSE BELLS.****LIVERPOOL TOWER NOT STRONG ENOUGH.**

St. Barnabas's Church, Mossley Hill, Liverpool, is not, after all, to have the peal of bells which did service for so many years in the old Church of St. Peter, Church Street, Liverpool. At the morning service, on Sunday, the Vicar of St. Barnabas's, the Rev. J. Kirk Pike, prefaced his sermon with an announcement which, he said, he knew would be a disappointment to the congregation. It had been found that the tower of the church would not bear the strain of the bells.

Subsequently, in an interview with a representative of the 'Liverpool Daily Post,' the Vicar said the offer of the bells was gladly accepted by St. Barnabas's people, who never had any doubt but that the church tower was strong enough to carry them. An expert survey, however, had shown that this was not the case. 'Our disappointment,' added Mr. Pike, 'is very great, but we have to accept facts, and make the best of them. Those lovers of the bells who have kindly contributed to the fund for their being hung will be communicated with at an early date.'

It was estimated that the cost of hanging the bells would be £1,000. This was a heavy responsibility for the congregation, but they accepted it. A subscription list was opened, and there was no doubt that in due time the money would have been raised.

**RINGER AND VERGER FOR 40 YEARS.**

The funeral of Mr. Edward Lucas, of Shalford, Surrey, whose death, at the age of 69 years, occurred on January 22nd, took place on January 26th. The first part of the service, which was held in the Parish Church, where Mr. Lucas was for 40 years a ringer and verger, was fully choral, and was attended by many who had known him in his official capacities. The music included his favourite hymn, 'The day Thou gavest, Lord, is ended.'

The bells were muffled, and the whole pull and stand was rung 69 times before the service began, also for a few minutes while the cortege reformed to proceed to the cemetery. Immediately after the committal sentences had been recited, the ringers' beautiful farewell was given by Messrs. G. W. Steere, A. H. Pulling, C. Hazelden, W. R. Melville, a perfect course of Grandsire Triples being rung on handbells over the open grave. Other ringers present were Messrs. H. Hutton, C. N. Burdock, G. Petter, E. G. Heath, T. Streeter, etc.

Thanks are due to Mr. W. R. Melville, who at some sacrifice to himself made the necessary preparations for the ringing at Shalford.

## BELFRY GOSSIP.

'The company rung on Monday, Feb. 14th, 1731, a complete peal of 7,018 Grandsire Cinques, being the longest that was ever done, and in 5 hours and 19 minutes it was completed.' Thus the College Youths' record of a peal rung at St. Michael's, Cornhill, when 'B. Annable call'd bobs.'

And it was February 14th, 1920, that the greatest number of changes in a twelve-bell peal was rung—13,001 Grandsire Cinques, at Painswick, in 8 hours 45 minutes.

The 'four nines' of Grandsire Major (9,999 changes) was rung at Oldham exactly one hundred years ago next Sunday, but from a note in Snowdon's 'Grandsire' it would appear that the figures of this peal eventually proved false.

Next Monday is the anniversary of two long peals, a 14,224 Bob Major at Aston, by St. Martin's Youths, on Feb. 16th, 1769, and 8,448 Stedman Cinques at Painswick in 1858. On Feb. 16th, 1790, a 6,000 Oxford Treble Bob Royal was rung at Cambridge.

London lost a peal of twelve bells on Wednesday, Feb. 17th, 1836, when Christ Church, Spitalfields, was destroyed by fire.

The College Youths rang a peal of 10,000 Oxford Treble Bob Royal at Shoreditch on Feb. 18th, 1777—one of the series of increasing lengths which were the outcome of the rivalry existing at that time between them and the Cumberlands.

The first peal of what we now call New Cambridge Surprise was rung at Huddersfield on Feb. 18th, 1822, and, as far as we are aware, no other peal in the method was rung until that at Burton in 1887.

At Warnham, Sussex, the first peal of College Single Major was rung on Feb. 18th, 1889.

Henry Haley, one of London's greatest ringers of the last century, was born at Bethnal Green on Feb. 19th, 1819. He took part in many memorable performances on tower and handbells, and rang, in all, 182 peals, of which he conducted 155 and composed 105.

'Little Bob' writes, with reference to the ancient dated bells at Eytherne, that in North's 'Bells of Northamptonshire,' and 'Bells of Leicestershire,' too, speaking of ancient dated bells, the author says: 'Two, richly ornamented and dated 1323, are in the tower of St. Mary's Church, Somercotes, Lincolnshire.'

At the annual meeting of the St. Lawrence (Thanet) ringers the other day, the record of the attendances was read, and it was found that the Vicar (the Rev. A. G. Wilcox, M.A., Hon. C.F.) had visited the tower 31 times during the year. Can any other tower boast of such frequent visits from their Vicar?

Ringers will see from a notice elsewhere that all ringing is suspended for the present at St. Botolph's, Bishopsgate, London.

The peal at Long Melford, on Saturday, is an interesting link with forty years ago. It was rung on the 69th birthday of Mr. W. J. Nevard, who rang his first peal in that tower on his 29th birthday, on Feb. 7th, 1885. This was a peal of Bob Major, composed by the late Mr. Samuel Slater, and conducted by Mr. Fred Pitstow. His friends all over the country will join in wishing Mr. Nevard 'Many happy returns,' and health long to pursue his favourite hobby.

## THE CENTRAL COUNCIL.

The annual meeting of the Council will be held on June the 2nd (Whit Tuesday) next, at Chester. Full particulars of the meeting will be published later. Notice of any proposed motion should be sent before April 18th.

Will secretaries please note that the annual subscription is now due, and, together with the names and addresses of representatives, should be sent to the hon. secretary, Mr. E. Alexr. Young, of 155, Rushey Green, Catford, S.E.6.

## HEAVY HANDBELL PEAL.

It is interesting to note that in the handbell peal at Leicester (reported elsewhere), the heaviest set of bells yet rung 'in hand' was used, the tenor being size 26 in G. The peal was rung at the first attempt. The previous records were on bells with size 22 tenor: Grandsire Triples, on April 20th, 1888, at Ipswich, and Stedman Triples on May 13th, 1914, at Guildford.

The peal had its amusing side, for after half-way the ringer of 5-6 could be seen hanging out signals of distress, by wriggling about and screwing up his mouth, through the soreness of his fingers, while, when a little later, a well-known part end came up, the tenor-man sighed, and said, 'I wish that was all.' The conductor cheered him up with the cryptic remark, 'only another few blocks to go,' and the last quarter not yet started on! He hung on gamely, and finished in fine style, even though minus several inches of skin from his fingers, whilst 5-6 had 'knobs' on his. The conductor guarded his delicate fingers by having them bound up beforehand, whilst 3-4 didn't seem any the worse, except for a little soreness.

## YORKSHIRE ASSOCIATION. THE ANNUAL MEETING.

The annual meeting of the Yorkshire Association was held at Bradford on Saturday, January 31st. The day's business commenced with the audit, conducted by Messrs. G. Titterton and J. Wotton during the morning. The fine peal of ten bells, cast by the famous Loughborough foundry, were rung in a variety of methods until 4 p.m., when the annual service was held in the Cathedral. Owing to the tempestuous weather, only some 130 visitors were present at the service, at which an encouraging and most interesting sermon was preached by the Vicar of Bradford (Ven. Archdeacon Jones). The Vicar extended a hearty welcome to the visitors, and, taking as his text, 2 Corinthians, v., 14 ('The love of Christ constraineth us'), the speaker stated that, owing to being out of sight, the ringers' ministry of joy was seldom recognised. The muffled bells reminded them of sorrows, while the joyous ringing at Christmas and the New Year reminded them of the saving of the world by our Lord, and the glory of the coming year. Bells were a beautiful accompaniment to the ministry, and change ringing was a splendid hobby, but the love of Christ must be the driving force behind any church work, however attractive it might be as a hobby. The ringers' part was the highest form of service, and must be regarded by them as being actuated from the highest motives. 'They that bear the vessels of the Lord must be clean.' The preacher urged his hearers to train and develop their spiritual character, so that their example might have a great influence on the young men, making for Christian manhood and the increase of spiritual influence.

A bountiful tea was afterwards served in the neighbouring Cathedral schools, this most enjoyable function being immediately followed by the business meeting. Apologies were read from Mr. Pryce Taylor, the Rev. E. Drage, and Messrs. F. Willey and G. B. Bolland, the two senior vice-presidents of the association, who were absent through illness.

Mr. J. Cotterell the retiring treasurer, was re-elected, with acclamation, on the motion of Mr. F. Cryer, seconded by Mr. F. Dale.—In responding to a hearty vote of thanks for his many services to the association, Mr. Cotterell urged the meeting to consider the advisability of getting new blood into the official work of the association, in order that the interest in the administration should not get too stereotyped.

The auditors having presented their report on the excellent state of the accounts and books, the balance sheet, which showed a gain of £11 0s. 11d. for the year, was accepted, on the motion of Mr. F. Dale, seconded by Mr. J. W. Cundale.

The annual report of the committee was agreed to, on the motion of Mr. J. Perfect, seconded by Mr. J. Cooper.

It was decided that the arrangements for the annual meeting should be left to the general committee.

The committee placed before the meeting an invitation from the Lancashire Association to hold a joint meeting at Todmorden, it being agreed that the invitation be accepted, and that the officers of the respective associations make the necessary arrangements.

The President (the Rev. C. C. Marshall) announced that the Snowdon Memorial Dinner would be held at Leeds on Saturday, Sept. 19th.

A vote of thanks to the Vicar of Bradford and his churchwardens for kindly granting the use of their magnificent peal of bells, also for the eloquent address and service in the Cathedral, was moved by the Chairman.—The local company and the ladies who officiated at the tea-tables were specially thanked for their services, on the motion of Mr. J. Lawson, seconded by Mr. F. Cryer.—This was replied to by Mr. J. Cotterell.

Mr. A. C. M. Field brought to the notice of the meeting the deplorable state of the bells at Knaresborough Parish Church, which are now totally unringable, and, owing to their being in an isolated district, great difficulty is being experienced in raising the necessary funds for restoration. He invited the various towers in the association's area to contribute as liberally as possible to the restoration fund, when the collecting sheets were issued.

A vote of thanks to the chairman, further ringing at the Cathedral, with an enthusiastic gathering subsequently at 'a house within the meaning of the act,' brought a most enjoyable day's proceedings to a close.

## MR. W. J. WALKER'S 200 PEALS.

Mr. W. J. Walker, who has just rung his 200th peal, is one of those silent workers who go from one tower to another on practice nights giving very valuable assistance to many in their early stages of ringing, and the thanks of many ringers are due to him for piloting them through their first 720 of Bob Minor. Would that there were more like him.

His peals include: Minor (from 1 to 9 methods), 180; Grandsire Triples, 26; Bob Major, 8; Victory Major, 1; Oxford Bob Major, 1; Bob Royal, 1; Double Norwich C.B. Major, 15; Oxford Treble Bob Major, 2; Kent Treble Bob Major, \*26; Stedman Triples, 31; Stedman Caters, 9; total, 200. Rung in 41 different towers. † Includes 10,080. \* Includes 8,000.

## KENT COUNTY ASSOCIATION. TONBRIDGE DISTRICT AND MEETINGS AT SIX-BELL TOWERS.

The annual meeting of the Tonbridge District was held at Tonbridge on Saturday, January 31st. The usual service was held, conducted by the Rev. F. L. Schreiber, Vicar of Shipbourne, and an excellent address was given by the Rev. S. H. Clark, Vicar of Tonbridge, based on the inscriptions on the bells of the church.

Tea was provided at the Carlton Cafe, and was followed by the business meeting, the Vicar presiding, supported by the Rev. F. L. Schreiber and Mr. A. M. Darling and Mr. F. D. Topham, churchwardens.

The District Secretary (Mr. W. Latter) read his annual report, which was considered satisfactory. In this he stated that there was a slight falling off in the number of members, compared with the previous year. One band, Shipbourne, had dropped out, but Hadlow band had rejoined. He also reported that a complete restoration of the bells had just been carried out at Brenchley by Messrs. J. Taylor and Co. The old six bells had been taken down, retuned, two new trebles added, and the peal rehung in a new iron frame. The two trebles were to be dedicated on Sunday, March 1st. He had offered, and the Vicar had accepted, the services of a band of members of the association for this occasion.

The Rev. F. L. Schreiber said that he regretted that his band had dropped out, but he hoped that this was only temporary. The bells were rung regularly for the services, but there were only two of the original band left. The others were all young ringers, and they were all too busy with football or cricket to attend Saturday meetings.

Mr. W. Latter was re-elected hon. secretary, and Messrs. F. White and G. Edwards were unanimously re-elected district representatives. Seven new practising members and two hon. resident life members were elected.

In selecting towers for meetings during the ensuing year, a discussion arose as to the claims of six-bell towers. The general feeling seemed to be that if the six-bell ringers would attend eight-bell tower meetings much more could be done in educational work than in holding meetings at six-bell towers. At the same time, it was felt that six-bell towers should not be left out, and as an invitation had been received to hold a meeting at East Peckham, it was ultimately decided to hold meetings at Brenchley, East Peckham, Cranbrook, Hadlow, and the next annual district meeting at Penshurst.

Votes of thanks to the Vicar for the use of the bells, for arranging the service, and for presiding at the meeting, to the Rev. F. L. Schreiber, and the organist for their services, to the churchwardens for their attendance, and to Mr. W. Steed for making the arrangements, were passed, and responded to by those gentlemen.

The members adjourned to the tower for further ringing.

## CLASHING MEETINGS.

The quarterly meeting of the Lewisham District was held at Christ Church, Erith, on Saturday, January 31st. The bells were kept going to various methods throughout the afternoon and evening. Service was held in the church, with an interesting address by the Vicar (the Rev. G. H. B. Coleridge). The curate (the Rev. A. V. Ledbury) presided at the organ. This was followed by a splendid tea, kindly supplied by the Vicar, who presided, but was unable to stay for the business meeting owing to pressure of other duties.—Mr. T. Groombridge proposed a hearty vote of thanks to the Vicar for the use of the bells, for the service and address, and for the splendid tea.—This was carried with applause.

The business meeting followed, the Rev. W. M. Browne, Vicar of St. John-the-Baptist, Erith, kindly acting as chairman.

The Rev. W. M. Brown (Vicar) and the Rev. T. H. Pyke (curate), of St. John-the-Baptist, Erith, were elected hon. members.

Eight new practising members and probationers were elected, and the election of two members previous to peals was confirmed.

Eltham and St. Mary's, Woolwich, were proposed for the next meeting, St. Mary's, Woolwich, being chosen. The hon. secretary was instructed to communicate with Eltham with a view to holding the summer meeting there.

The district representative on the Central Committee of the Association (Mr. W. J. Jeffries) read a report of the meeting held at Canterbury in November last.—This was adopted by the meeting.

Mr. T. Groombridge, junr., asked if some arrangement could not be made to avoid the clashing of meetings of the various districts. He mentioned that there were four Kent County Association meetings on that date (January 31st).—This matter was left to the committee to deal with.

It was mentioned that the bells of St. John-the-Baptist, Erith, were to be rehung, and the chairman agreed to communicate with the general secretary of the association on the question of a grant from the Association's Belfry Repairs Fund.

A hearty vote of thanks was accorded the Rev. W. M. Browne for presiding at the meeting, to the Rev. A. V. Ledbury for his services at the organ, and to the ladies who helped at the tea.—The Chairman responded, and this brought the meeting to a close.

**DONCASTER AND DISTRICT SOCIETY.****'BELL RINGERS' SUNDAY' SUGGESTED.**

The annual meeting was held at Doncaster St. George's on Saturday, January 24th. There was a fair attendance of members, and the bells were made good use of during the afternoon and evening, touches in the four standard methods being rung.

A short service was held in the Forman Chapel, and an address was given by the Ven. Archdeacon Sandford, the president of the society. The text chosen was: 'Their sound went into all the earth, and their words unto the ends of the earth' (Romans 10, 18). The Archdeacon praised the art of change ringing, and said that, although he could ring a bell in rounds, he had never been able to master the art of change ringing because he "hadn't the brains."

Tea was partaken of in the Memorial Hall, and the business meeting followed. The chair was taken by the Rev. A. A. Barham, who was supported by Mr. G. Halksworth, vice-president; Mr. G. Clark, Ringing Master; Mr. H. Woodhouse, J.P., hon. treasurer; Mr. H. Walker, hon. secretary; Mr. W. Reynier (representing the Barnsley and District Society), and Mr. J. Holmes (representing the St. George's Society).

The secretary's report was considered satisfactory, and approved. The balance sheet showed a balance in hand of over £11.

The secretary was voted a gift of £2 2s. from the funds as a small token of appreciation of his services during the four years the society has been in existence. Mr. G. Halksworth was re-elected to serve another three years as vice-president.

Four new members were elected, and Adwick-le-Street was chosen as the next place of meeting.

The usual votes of thanks brought the meeting to a close.

In his report, the Secretary said: The attendance of members at the meetings has not been so good as one would expect, and there is room for improvement in this direction. Perhaps the promise of a revival in trade in the new year and a consequent fall in the cost of living may reflect favourably on the attendance at our meetings in the future.

The number of names on our books is at present 182, but only 145 of these have paid their annual subscription. Fifteen new members were elected during the year, and we lost two members by death.

After only four years' working we have the sum of £11 15s. 2d. standing to the credit of the society. This shows that our financial affairs are in a very healthy condition. We have no object in view that we should accumulate such a large sum of money, and in my opinion the best use that it can be put to is to provide instruction for young ringers, either by subsidising the cost of books of instruction, or by helping to pay the expenses of an instructor.

**SUGGESTED ADDITION TO DONCASTER PARISH CHURCH BELLS.**

Two peals have been rung for the society during the year, a peal of Kent Treble Bob Major, and a peal of Grandsire Triples. Progress has been made in method ringing, and at most towers in the district three or four different methods are practised. In method ringing we must adopt a progressive policy and not be satisfied until we can ring the most difficult methods for Sunday Services. It is almost impossible to make much progress in ringing on the higher numbers of bells, on ten and twelve bell peals, because we have not the bells to practice on. Our headquarters, the noble Doncaster Parish Church, is surely worthy of a peal of ten, or even twelve bells, and it is to be hoped that before many more years have been rung out, the additional bells will be installed.

During the year the bells of Thorne Parish Church have been thoroughly restored. Two members of the Bell Repair Advisory Committee visited Thorne on the invitation of the Vicar, and having made an examination of the bells and fittings, advised that they be recast and rebung with new fittings. The work of recasting and rebunging was carried out by J. Taylor and Co., to the satisfaction of all concerned. The peal is now the most up-to-date in the district. Canon Littlewood, the Vicar of Thorne, is to be congratulated on his keenness in getting the work carried out, it being the second time during his long ministry in Thorne that an extensive scheme of bell restoration has had to be undertaken.

I think it would be a good plan if in each parish where there is a peal of bells, one Sunday in each year should be set aside as a Ringers' Sunday. One hears of Choir Sundays and Special Services for this and that cause, but never of a Bell Sunday or a Ringers' Sunday. An annual service could be arranged with very little trouble, and a great deal of good might be done. Special sermons could be preached and special music sung, and the collections could go towards a fund for keeping the bells in decent repair. The idea is worthy of consideration by the powers that be.

Our relations with the clergy are getting more and more cordial as time goes on, and we seem to understand each other better. They seem to have only one complaint against us, and that is that we do not attend church often enough after we have finished ringing for service. Be this as it may, we as ringers have also a complaint against

the clergy, and that is, that they do not visit their belfries often enough. There are instances where incumbents do not visit their belfries from one year's end to another, and, what seems more strange, do not know who their own ringers are. This is not as it should be, and improvements would be of great benefit to all concerned.

Our loss of members through death has not been so heavy as last year, but we mourn the loss of one ringing member, Charles Scott, of Doncaster; and also one honorary member, ex-Alderman S. Balmforth, also of Doncaster.

**NEARLY SIXTY YEARS AT ONE TOWER.****PRESENTATION TO FARNHAM VETERAN.**

On Tuesday, Feb. 3rd, a very interesting meeting of the ringers was held in the belfry of the Parish Church at Farnham, Surrey. The occasion was a presentation to Mr. E. Clapshaw, the esteemed captain of the band, of an umbrella from the Rector and bell ringers for his 80th birthday.

The Rector (the Rev. J. M. C. Crum), in making the presentation, spoke of Mr. Clapshaw as a good worker in connection with the church, and congratulated him on reaching such a good old age. Not only was he highly respected by everyone who knew him, but his more intimate friends and co-workers had an affection for him which was remarkable. The Rector went on to say that, although Mr. Clapshaw had reached the age of 80 years, he was quite young compared with the tower in which he rang, which was over 300 years old, the church itself dating back over 700 years. He then handed the umbrella to Mr. Clapshaw, with the very best wishes of himself and the whole of the bell ringers. The umbrella, which is silver-mounted, has engraved on a silver band, 'Presented to E. Clapshaw by the Rector and bell ringers of Farnham, on his 80th birthday.'

Mr. Clapshaw, in thanking the donors for the handsome gift they had made him, said they had been pretty cute about the matter, as he had not the slightest idea they were going to make him a presentation. They could not have given him anything more acceptable, and he should prize and value it very much. He said he had been connected with the tower as a ringer for a great number of years, and could tell a few tales about it if he liked to do so. He had seen many changes, and a good many members come and go. When he first joined the ringers there was no change ringing done, and until about 1875 he did not think there was much done in the Winchester Diocese. After that, however, change ringing was more practised, and eventually they had a band at Farnham who could ring Grandsire Triples. They, however, had some ups and downs, sometimes having a hand of change ringers, and at other times not, although at the present time they had got a band who held together, and worked together, and which he thought he could say was about the best band they had had during the whole of his career. In conclusion, he again thanked them all for the very handsome present they had given him, and hoped he would be able to put in a few more years to help the band ring for both service and practice.

Immediately after the presentation, 336 Grandsire Triples were rung by the following members of the local band: R. Knott 1, J. Read 2, C. Wells 3, S. Meadows 4, E. Clapshaw 5, T. Upshall 6, R. Hasted (conductor) 7, A. E. King 8.

Mr. Clapshaw reached his 80th birthday on the 26th January, 1925, and in the evening an attempt was made for a peal of Grandsire Triples to commemorate it, but this unfortunately came to grief, through a shift course, after three hours' ringing, and within 196 changes of the end. The ringers were: J. Read 1, C. Wells 2, S. Meadows 3, H. Prior 4, C. Q.J.S. G. Gilbert 5, T. Upshall 6, R. Hasted (conductor) 7, A. E. King 8.

Although Mr. Clapshaw is 80 years of age, he is still a very regular attendant for service and practice ringing. He has been a ringer at this church for 59 years.

**SALISBURY DIOCESAN GUILD.****WIMBORNE BRANCH.**

A quarterly meeting was held at the Parish Church of Lady St. Mary, Wareham, on Saturday. The Rector (Rev. Canon Blackett) gave a hearty welcome to the visitors, showed them some of the features of the ancient church, and gave a striking address on the service of the bells, for witness, warning and worship. The Guild office and hymns were accompanied on one of the finest organs in Dorset.

An excellent tea was provided at the Church Institute by Messrs. Bennet Bros. The Master of the Guild (the Rev. R. H. Gundry, Rector of Iwerne Courtney), presided, and there were members present from Bournemouth (St. Peter's and St. John's), Iwerne Courtney, Lytchett, Minster, Poole, Wareham and Swanage. During the afternoon and evening there was some useful practice in Grandsire, Kent and Double Norwich, and all our readers would have enjoyed that touch of Stedman, as heard about 7.30, through the full moonlight from the North Gate.

## MIDLAND COUNTIES ASSOCIATION.

## THE DISPOSAL OF FUNDS.

A most enjoyable and successful afternoon and evening were spent at Woodhouse Eves, on the occasion of the Loughborough District meeting on Saturday. The village is rather an 'outlandish place,' situated right in the heart of the Leicestershire hills, and outside attendance was, therefore, rather poor, but the local ringers turned up in good force, when, soon after three o'clock, the beautiful peal of six bells were raised, and touches of Plain Bob and Grandsire Doubles brought round.

At the business meeting, lively discussion took place regarding the way in which the association's money might be spent.

Mr. Harry Haynes, the local tower secretary, stated that he hoped the Central Committee of the M.C.A., when they met in March, would consider how best to dispose of a little portion of the money they had in hand. It would be a great advantage if the Central Committee would make a grant to local district secretaries to use for bringing a band to such towers as that to which he belonged, for the purpose of helping to teach the young ringers, who were at present drifting away for the want of outside support.

The district secretary endorsed this idea, which will be put before the committee.

The next practice meeting is fixed for Woodhouse Eves, in a fortnight's time, and the usual monthly meeting will be held at Kegworth.

Mr. Arthur J. Berry was elected a member of the association, and a hearty vote of thanks was passed to the Vicar (the Rev. Hilley).

## NOTTINGHAM DISTRICT MEETING.

The annual meeting of the Nottingham district was held at St. Mary's, Nottingham, on Saturday, January 31st. Ringing commenced soon after 2.30, but owing to weather conditions and counter attractions, in the form of cup-ties (both the big local football teams being engaged), the attendance suffered, only 24 members being present out of a total membership of 183, which was very discouraging to the officers who had been doing their best to make a record meeting. Ringing in various methods was indulged in up to 4.15, when those present attended evensong, conducted by Canon Field, D.D., Vicar of St. Mary's.

The business meeting was held in the large vestry, kindly lent by Canon Field for the occasion. Members attended from the following towers: St. Mary's, Nottingham (4); Sutton-in-Ashfield (5); Mansfield (2); Ilkeston (3); Greasley (1); Lenton (1); Bottesford (2); Barton (1); Daybrook (2); Southwell (1); St. Peter's (1); Hough-on-the-Hill (1). Mr. A. Coppock (vice-president) presided.

The Secretary (Mr. F. Blood) read his report of the year's work, in the course of which he said 11 monthly meetings had been held during the year, and all were fairly well attended. The association had been entertained during the year by the Rev. C. J. Sturton (Orston), the Rev. A. Chaplin (Colgrave), and the Rev. S. J. Gallo-way (Greasley), and these gentlemen were heartily thanked for the kindness. The last meeting of the year was followed by a lecture given by the Rev. R. F. Wilkinson, of St. Peter's, Mansfield, on 'Church bells and bell founders of Notts,' and this was greatly appreciated, the hope being expressed that other lectures of the kind would be given in the future. Hon. members had increased from 21 to 30. The ringing members on December 31st, 1923, numbered 167; joined during 1924, 33; lapsed, 5; transferred, 3; elected hon. life members, under new rule of reaching 70 years of age, 4; transferred to non-resident members, 3; deaths, 2; leaving a total of 183 on December 31st, 1924. The receipts amounted to £25 10s. In honorary and ringing members, and finance, this constitutes a record for the branch, and only eight members were in arrears on December 31st. One new tower was added, viz., St. Mary's, Nottingham. Two members were lost during the year by the death of Mr. J. Iliffe, a much-respected member of the Ilkeston band, and Mr. W. J. Sevier (known as 'the prophet'), who passed away in November, after a few days' illness.

The Chairman also mentioned the loss of the two ringers named, and the members stood in silence to their memory.

The question of the Sevier Memorial was left over until the next meeting, after discussion.

The following officers were then elected for 1925: Vice-president, Mr. A. Coppock; hon. secretary and treasurer, Mr. F. Blood.

Nominated for committee: Messrs. F. W. Bailey, W. E. White, E. C. Goby. The voting resulted as follows: Messrs. Bailey, 15; White, 8; Goby, 17; and Messrs. Bailey and Goby were declared elected.

Three places were proposed for the next meeting: Daybrook, Birmingham and Mansfield, and the first named was selected, the meeting to be held on Feb. 28th.

Various other matters were left over until the next meeting, including the proposed alteration of rules, quarterly meetings and monthly practices.

A very hearty vote of thanks to Canon Field for the use of the bells, and for allowing the use of the vestry for the meeting, was unanimously carried, and the meeting then closed.

## BELL HANGERS &amp; ODD-STRUCK BELLS.

## To the Editor.

Dear Sir,—I would like to carry the subject of my brother's letter on 'false' bells a step further.

Many ringers seem to think that there is a certain amount of chance in connection with bell hanging as to whether a bell will strike falsely or not. In my opinion this is not the case.

I consider that if, when the bell hangs in 'down' position, the lip lies symmetrically and horizontally about a perpendicular dropped from the axis of the gudgeons and midway between them, and the knuckle joint of the clapper is fixed symmetrically about this perpendicular, then the bell will not be false. Now, such a simple geometric construction as this could as easily be applied to bell hanging as to any other department of engineering. Yet we find new bells not only striking falsely, but very falsely.

What is the reason for this? It is, I think, that some bell hangers, like a good many other artisans, do not always do their work thoroughly unless they are well looked after.

The benefits derived from having true striking bells are twofold. First, it is easier for young hands to learn on them; in the second place it is easier to produce good striking with them, thereby reducing the liability of outside complaints of 'noise of the bells.'

It is quite common now, I think, to find the clause 'the bells are to be in perfect tune' in bell founder's contracts, and I think it just as essential that 'the bells shall not strike falsely' should also be stipulated.—Yours faithfully,

J. F. D.

## MORE EXPERIMENTING REQUIRED.

## To the Editor.

Dear Sir,—The letter from Mr. E. P. Duffield, in your last issue, criticising 'Bell hangers and odd-struck bells,' provides matter for reflection on the curious manner in which many rings of bells are left by first-class bell hangers. I am strongly in sympathy with Mr. Duffield, who objects to bells being left by modern founders, which are in many cases hopelessly false. I have vivid recollections of ringing a splendid tenor on a modern peal of bells, to a peal of Double Norwich. This bell was very wide at back, while the seventh was equally close at back, with the result that the long dodging back and front involved much unnecessary labour.

One fruitful cause of insufficient attention being paid to experimenting, particularly with regard to peals of ten and upwards, is, in my opinion, the fact that in the great majority of cases the tenor is simply used as a covering bell. It is obvious that the task of covering with an odd-struck bell is much easier than ringing it in, and if some means could be devised to make bells clapper with greater precision, the whole Exercise would be laid under a great debt of gratitude.—Yours faithfully,

Leeds.

PERCY J. JOHNSON.

THE WASHBROOK MEMORIAL.  
GENEROUS DONATION FROM OXFORD SOCIETY.

A meeting of the Oxford Society was held on January 21st, at headquarters, Holywell, when 16 members were present. The usual business of the society having been transacted, the question of a subscription to the Washbrook Memorial Fund was brought forward. After some discussion and some very effective remarks from Mr. H. Miles as to the unique situation of the society with regard to the late Mr. J. W. Washbrook, a sum of 10 guineas was voted to the fund.

The members would like also to say that this society, in active ringing members in the city of Oxford, numbers 26, which is a very small number compared with other societies in which Mr. Washbrook was also well known, but if any members of the society who have lost touch with the same would care to subscribe to the fund, will they please forward their subscription to the Secretary, Mr. H. Tolley, 39, Windmill Road, Headington, Oxford, who will undertake to forward it to the general secretary of the above fund.

## ZEAL MONACHORUM CHURCH BELLS.

A new treble has been added to the ring at Zeal Monachorum, and among those present at the dedication was Mr. Cedric Drewe, M.P. for the South Molton Division. Bell ringers came from the neighbouring parishes, including Spreyton, Newton St. Cyres, Colebrooke, Mordach Bishop, Coleridge, Lapford, Down St. Mary, Exeter, Cheldon and Bondleigh.

The service of blessing the new treble bell was witnessed by a crowded congregation. The processional hymn was 'The Church's One Foundation.' After the lesson, the Rector (the Rev. A. McCarthy) and Mr. Drewe went to the belfry, and, after the blessing, Mr. Drewe was asked to formally open the bell by giving the first pull upon it.

The new treble weighs 4 cwt., and was supplied by the firm of Gillett and Johnston, of Croydon. The ringers kept the bells merrily going until nearly midnight, and all spoke in great praise of the augmented peal.

## EAST MARKHAM'S RING OF EIGHT.

## GENEROUS GIFT OF TWO NEW BELLS.

The two new treble bells for the Church of St. John-the-Baptist, East Markham, the gift of Mr. W. T. Hopps, of Leamington, in memory of an uncle and aunt (Mr. and Mrs. Cowlshaw), and also a new clock for the tower, were dedicated by the Bishop of Southwell at a service held on Sunday afternoon, in the presence of a large congregation of parishioners and others. The service was conducted by the Vicar (the Rev. J. Ormandy Owse), who read one of the lessons, the Rural Dean of Tuxford (the Rev. A. K. Moore) reading the other, Mrs. Owen Clarke was at the organ.

Mr. William Freeman, captain of the ringers, asked the Bishop to dedicate the new bells, and this having been done, the Bishop then dedicated the new clock, and afterwards gave an appropriate address.

Before the service, Mr. Hopps laid two handsome floral crosses on the graves of Mr. and Mrs. Cowlshaw. Before the dedication service, the new band of ringers, recently trained by Messrs. W. Freeman, H. E. Page and T. W. Hopkin, rang touches on the old six bells, and after the service, as the people were leaving the church, the eight bells were rung in rounds for twenty minutes.

Mr. Hopps presented each ringer with a photograph of the new bells, and a gift. Later, a few visiting ringers, including Mr. Pryce Taylor, of the Bell Foundry, Loughborough, Mr. H. Haigh and Mr. H. Weaver, hon. secretaries of North Notts Association, and visitors from Blyth, Stockwith, Lincoln, Ordsall, Grassthorpe and Workson, were cordially invited by the Vicar and local ringers to ring for an hour, and completed touches of Grandsire Triples, Stedman Triples and Kent Treble Bob Major, conducted by H. Haigh. The following took part: Messrs. Pryce Taylor, H. Haigh, H. Weaver, G. H. Haigh, T. Bartholomew, H. Revell, J. T. Bartram, A. Freeman and W. Tomlinson.

A number of visitors who remained outside the church were loud in their praise of the beautiful tone of the two new bells. The excellent blending and 'splice' to the old ring, always reputed to be a good peal of six, reflects the highest credit on Messrs. Taylor and Co.

The inscriptions on the two new bells are as follows:

Treble: Let this bell ring to the Glory of God and in loving memory of Ann Cowlshaw, who passed to her rest April 6th, 1916.

Second: Let this bell ring to the Glory of God and in loving and grateful memory of Henry Cowlshaw, who fell asleep 2nd July, 1924.

The name of Messrs. John Taylor & Co., Loughborough, who have cast and hung the bells, also appear on them.

The other bells are inscribed as under: 3rd: Give God the Praise. Taylor, 1895. 4th: To God and his Church, 1895. This is the gift of an anonymous friend through Mr. F. W. Wells, Solicitor, Retford. G. W. Brameld, M.A., Vicar; W. H. Cannon, curate; H. Cowlshaw, junr., and C. Crawford, churchwardens. 5th: All Glory be to God, 1637. 6th: God save the Church, 1637. 7th: Sweetly tolling men do call to taste on meats and feed the soul, 1637. 8th: All men that heare my mournful sound repent before you lye in ground, 1637, T.E.

## HERTFORD COUNTY ASSOCIATION.

The January meeting of the Western District was held at Hemel Hempstead, when about 20 members were present. The bells were available from 3 p.m., when the usual methods were rung, and the novices received due encouragement. The chief business took place in the tower, when a tablet, recording two peals of Bob Major, rung on the bells on October 11th, 1923, and April 3rd, 1924, respectively, was unveiled by Mrs. Lovel Smeathman, with suitable words. The Vicar (the Rev. A. F. Robson) then offered prayers, following this by welcoming Mr. and Mrs. Smeathman to the belfry for the performance of this office, and also giving advice to the company present.—Mr. Smeathman suitably responded.

Afterwards, at the kind invitation of the Rev. and Mrs. Robson, the company adjourned to St. Mary's Hall for tea. The meeting followed, when the Vicar was unanimously elected chairman. Four new members were welcomed from the local tower, much to the Vicar's joy.

Great Gaddesdon was chosen for an early meeting, to be followed by one at Berkhamsted, when it is hoped that the bells there will be in ringing order.

Hearty votes of thanks were accorded the donors of the splendid tea; Mrs. Smeathman for unveiling the peal tablet, and the Vicar for the use of the bells.—Both the Vicar and Mrs. Smeathman suitably responded, and this concluded the meeting.

**SHREWSBURY.**—On Monday, November 10th, at St. Chad's Church, a quarter-peal of Stedman Triples (1,260 changes), with 9, 8, 10 covering, in 55 mins.: J. Bain 1, W. B. Kynaston 2, C. Lee 3, J. E. Lilley 4, W. Fairhead 5, J. Evans 6, C. R. Lilley (conductor) 7, R. Pole 8, John Evans 9, H. Jones 10. Rung on the occasion of the installation of the Mayor, Councillor Bates-Maddison.

### BRISTOL—AND SOME REFLECTIONS.

The anniversary of the first peal of Bristol Surprise Major, which occurs on Sunday, leads to the reflection that this is the only modern Surprise method which has become really popular. This first peal was rung at Brighton on February 22nd, 1901, at a period when the band of St. Peter's Church were leading the way in the introduction of new Surprise methods. The company had rung several others before this, and there was nothing at the time to lead one to imagine that Bristol would become any more fancied than were some of the rest that were being brought to light. But gradually the excellencies of the method began to be realised, and, offering something really distinctive in its actual practice, Bristol gradually came to be looked at by bands capable of Surprise ringing, and now is the only method in this category that in any way holds its own with London, Cambridge and Superlative in the number of peals rung.

We often wonder why so few bands ever ring anything beyond the four Surprise methods named. It is not because they are not capable; it cannot be because other methods are not worth attention, for, while they may not all be up to the standard of Bristol, it is quite certain that some have musical qualities equal to or better than the other three. It is no fair comparison to set the good points of the old methods against the bad ones of the new, or vice versa; and it is possible for a man who understands methods to pick holes in most of them. We must then, we think, look further than the methods themselves for the explanation. Is it that ringers do not trouble to go beyond what one may call these 'common' methods, because no one else rings them, and there would, therefore, be little or no opportunity to practice them away from one's own tower? If that be so it is rather a poor excuse for putting a brake on progress—for progress includes extending the variety of the methods we ring as well as the intricacy of them. We really think it must be the ultra-conservatism of ringers as a whole that causes this desire to remain on well-beaten tracks; otherwise we should see more bands following the example of the Leiston company and adding other methods to their 'repertoire.' Even in the simpler methods the same argument applies. A band at Willesden rang a number of fresh plain methods last year—a most interesting series—and their experiment might have been expected to lead others to venture on the new ground. But we wonder whether, in ten years' time, any one of them will be in general practice, or whether Plain Bob and Double Norwich will still hold the field almost undisputed, as they have done in the past.

**CAMPANOLOGY AND FREEMASONRY.****RINGERS AT DINNER.**

On Thursday evening, February 12th, the members of the Watford District of the Hertford County Association held a dinner and social evening at the Wheatsheaf Inn, Watford, the repast being provided by nine host Mr. R. Darlow, an erstwhile member of the Bushey band, and Mrs. Darlow. This part of the programme was much appreciated by the 22 members present, judging from the good humour which was apparent throughout the evening. Mr. C. Horton, a past Master of the Ancient Society of College Youths, occupied the chair, and was supported by Mr. H. Eden, a former district secretary of the association.

After the loyal toast, a musical programme was enjoyed, songs being rendered by Messrs. Brinklow, Cooper, Freeborn, Gale and Horton.

The toast of the local branch of the association was given by Mr. W. Hodgetts, who referred to the gradual loss of the stalwarts of the art in this district. He mentioned the name of Mr. G. N. Price, who was responsible for many great achievements at Oxhey, also some who were taken from us during the great war, and others who had given up the Art owing, no doubt, to lack of interest. Mr. Hodgetts lamented the state of affairs, and stated that a further loss was shortly to be sustained by the departure from Oxhey of Mr. Eden.

Mr. Horton said that he felt that Mr. Hodgetts was rather pessimistic, and that co-operation and such social gatherings as that now being held would greatly help matters.

Courses of Stedman Caters and Cinques were rung upon handbells during the evening.

It is worthy of note that all the ringers present, with one exception, were Surprise ringers, and several took part on Saturday in a Freemasons' peal at Bushey.

**WICKEN, NORTHANTS.**—On Tuesday, January 27th, for practice, 1,260 Grandsire Triples: H. Cashmore (aged 12), first quarter-peal, 1, R. Foddy (aged 15), first quarter with a bob bell, 2, A. J. Green (conductor) 3, L. Smith 4, D. Chexfield 5, F. Case 6, C. Read 7, G. Green 8.

**LINCOLN DIOCESAN GUILD.**

The annual meeting of the Grimsby District of the Northern Branch was held at Grimsby on Saturday, January 31st. A fair number of members were present, considering the bad weather, Bigby, Barrow-on-Humber, Waltham, and the local towers of St. Andrew's and St. James' being represented. Both peals of eight were available, but owing to weather conditions the members concentrated on St. Andrew's. Touches of Stedman Triples, Bob Major, Grandsire Triples and Bob Minor were rung.

Service was held in St. Andrew's, conducted by the Vicar (the Rev. T. Russel Warrilow), assisted by the Rev. W. D. Chapman. An address was given by the Vicar, who spoke on the duties of ringers.

Tea was held in St. Andrew's Hall at 5 p.m., 25 members and friends sitting down.

The business meeting followed, the president of the district (the Rev. H. T. Parry, Rector of Bigby), presiding, supported by Canon Markham and the Rev. T. Russel Warrilow, and the Rev. W. D. Chapman, Mr. W. Heyhoe kindly deputising for the secretary (Mr. H. Mingay), who was absent through illness.

The president (the Rev. H. T. Parry) was re-elected, as was the secretary (Mr. H. Mingay). Mr. C. W. Taylor was elected representative on the Northern Branch Committee, Mr. R. S. Long as Ringing Master, and Mr. G. Blanchard as Deputy Ringing Master. The Rev. T. Russel Warrilow and the Rev. E. W. Carpenter, of Kingerby, were elected hon. members, and the following as performing members: Mr. G. White, Mr. J. Allenby; Mr. F. Smith, of St. James', Grimsby; Mr. F. Pepper, of Barrow-on-Humber; and Mr. W. Howson, of Goxhill. Places and dates of meeting were fixed as follow: Elsham, May 16th; Bigby, June 6th; Thornton Curtis, July 4th; Burton-on-Stather, August 15th; Brigg, September 12th. A combined meeting with the Gainsborough district at Scunthorpe was suggested as an extra meeting.

It was decided to form the Grimsby District Committee again. This committee has been in abeyance for many years. Each tower is requested to inform the secretary of the name of the representative appointed.—Votes of thanks to the president for taking the chair, to the Vicars of St. Andrew's and St. James' for the use of the bells, to the organist, and the caterer, were heartily given, and brought a very pleasant meeting to a close. Members then returned to the tower for further ringing.

## BELFRY GOSSIP.

Those who proposed to attend the Bedfordshire Association meeting at Milton Ernest to-morrow should note that the meeting is postponed until March 7th.

The ten bells at the Cathedral, Birmingham, are to be broadcast from 7.45 to 8 p.m. on Sunday. It has been suggested that they need recasting before broadcasting, but there is not time for that before next Sunday evening.

The peal at Painswick on Saturday is the fourth successive and successful anniversary celebration of the 13,001 rung in 1921. It must be almost a record to pull off such an unbroken series of commemorative peals.

There is a scheme afoot to abate the noise of the bells when they are being rung at Rowley Regis Parish Church. When completed this should be a source of satisfaction to everyone concerned.

At a recent parochial gathering at Kington Magna, where the Rev. F. L. Edwards (hon. secretary of the Salisbury Diocesan Guild), is Rector, two members of the Sunday School, Gilbert Crew and Harry Hannam, were given prizes for praiseworthy progress in campanology.

The offertories at Kington Magna Church, on Sunday, Feb. 1st (the Feast of Candlemas) were devoted to the Ringers' Fund.

The 'long' peal of Stedman Triples at St. Giles'-in-the-Fields was rung on February 7th. Six feet and over was the height of the ringers, and the President of the Central Council, with his 76½ inches, topped the lot.

To-day is the anniversary of the beginning of the Oxford University Guild, which was founded on Feb. 20th, 1872.

The first 'silent' peal of Stedman Cinques 'in hand' was rung at Leicester on February 21st, 1903.

An old record of the Ancient Society of College Youths says that they rang a peal of Cambridge Surprise at St. Giles'-in-the-Fields on Feb. 23rd, 1783, this 'being deemed the greatest performance ever achieved in the Campanistanean Art, as so intricate a method was never practised by any other sett of men whatever.'

As London Youths they had previously rung a peal in the method in 1780, 'but as this was rung with the tenors together it proved false on the new discoveries which happened about this time, and was the cause of their ringing another peal.'

On Feb. 26th, 1777, 10,080 Bob Major was rung at St. Mary's, Shrewsbury.

## INCUMBENTS IN THE BELFRY.

To the Editor.

Sir,—A note in your 'Belfry Gossip' last week records that the Vicar of St. Lawrence (Thanet) paid 31 visits to the tower during the year, and adds: Can any other tower boast of such frequent visits from their Vicar? Yes. At St. Nicholas', North Stonham, Hampshire, we get a visit from our Rector (the Rev. T. Salmon) each time he takes the service, which is, on the average, about once a Sunday, it being a very rare occurrence for him not to enter the ringing room (which, by the way, is on the ground floor). The regret of the band is that he did not keep up his regular practices with them, as the ringing clergy in the Guild are so very few.—Yours, etc.,

GEORGE WILLIAMS.

## PREFERMENT OF A RINGER AT TANFIELD.

A piece of good news, and very welcome to his friends, has recently been announced, i.e., the preferment, by the Dean and Chapter of Durham Cathedral, of the Rev. A. W. Lister, M.A., curate of Tanfield, R.S.O., County Durham, to the Vicarage of St. Stephen's, South Shields.

He has been a regular and enthusiastic ringer at the church for several years, and has also done some meritorious work in the parish.

The late Canon T. Hewan Archdall, M.A., his previous Vicar, was at Tanfield for many years, and was always a strong supporter of good change ringing. A request to him for the use of the bells for a peal was rarely turned down.

The training Mr. Lister has received under his guidance will be very useful to him in his new sphere, and his friends wish him every success.

His loss at Tanfield Church tower will be much felt, but with Mr. Henry Tyson, the energetic secretary, at the helm, we trust the temporary gap will soon be filled.

It is gratifying to know that the new Vicar of Tanfield, the Rev. Pestell, M.A., formerly of Durham University, has already enlisted as a new ringer, and has had his first pull at the bells. He has every intention of mastering the art of change ringing.

It is a pity there is no peal of bells at St. Stephen's, South Shields, at present, but we feel assured that this temporary want will be among the first schemes for which the Rev. A. W. Lister will enlist the help of his parishioners to overcome.

## CONCERNING CONSTRUCTIONAL SHUNTS.

By J. AEMIGER TROLLOPE.

First of all, I want my reader to ring a course of Plain Bob Major. In the tower, if possible, if not on paper, and in imagination. I want him to study carefully the different coursing orders in that course. He will find that all the working bells keep the same coursing order among themselves throughout (2, 4, 6, 8, 7, 5, 3), but that the treble is in a different position in each lead. She starts between 2 and 3. In the second lead she is between 3 and 5. In the third between 5 and 7. At each lead end she makes one step in coursing order until she has, in regular succession, occupied each of the seven possible positions. When she has completed the cycle she gets back again between 2 and 3, and the bells run round.

Every method which has treble and working bells, contains at least one similar cycle; most methods contain two or more. For instance, in Double Bob you will find that the treble alters her position in coursing order twice in every lead; and during the course completes two full cycles.

The operations which cause these alterations in the position of the treble in coursing order we call 'Constructional Shunts'; and my present object is to explain the various ways in which these alterations can be made. These constructional shunts will themselves produce a great number and variety of methods, but many methods (including practically every Treble Bob method) contain other work, which is called 'Additional Shunts.' With them we are not at present concerned.

For the sake of clearness and to avoid having to write largely in general terms, I am going to deal only with Major methods, which have one plain hunting treble and seven 'Extreme' or 'Working Bells.' But all I say can, with the necessary verbal alterations, be applied to all methods on all numbers.

The various Constructional Shunts are as follows:—

## A. THE EXTREMES.

1. The Extreme Before. The bell the treble turns from the front makes second's place, the bells above dodging.
2. The Extreme Behind. The bell the treble turns from behind makes seventh's place, the bells below dodging.

## EXAMPLES.

|    |                      |    |                      |
|----|----------------------|----|----------------------|
| 1. | 21345678<br>12436587 | 2. | 87654321<br>78563421 |
|    | 12345678<br>21436587 |    | 87654321<br>78563412 |

## B.—THE COURT SHUNTS.

3. R. Court Shunts, and
4. P. Court Shunts.

The bell coursing immediately in front of the treble (hunting up) makes any one internal place, the bells above dodging. The place-making bell then crosses the treble's path, and immediately makes another place (the bells below dodging).

Or, the bell coursing immediately in front of the treble (hunting down) makes any one internal place, the bells below dodging. The place-making bell then crosses the treble's path, and immediately makes another place (the bells above dodging).

The two places and the accompanying dodging together form one operation.

R. Court Shunts are those made at back stroke.

P. Court Shunts are those made at hand stroke.

## EXAMPLES:—

|    |  |    |  |
|----|--|----|--|
| 3. | 12345678<br>21436587<br>24135678<br>42316587<br>24361857<br>42638175 | 4. | 78563412<br>75836142<br>78581624<br>75813264<br>57183624<br>51738264 |
|----|--|----|--|

5. R. Single Court Shunts, and
6. P. Single Court Shunts.

The bell coursing immediately in front of the treble (hunting up) makes any one internal place, the bells above dodging. All the bells then plain hunt until the place-making bell (hunting up) again crosses the treble's path (hunting down), when another place is made, the bells above dodging.

R. Single Court Shunts are those made at back stroke.

P. Single Court Shunts are those made at hand stroke.

## EXAMPLES:—

|    |  |    |  |
|----|--|----|--|

| 78561324 | 75813264 |
| 75816342 | 57183624 |
| 57183624 | 51738264 |

## 7. The London Court Shunt.

The bell coursing immediately in front of the treble makes any one internal place, the bells above dodging. The place-making bell then crosses the treble's path, hunts down and makes any one internal place away from the treble's path, the bells below dodging. All the bells then plain hunt until the place-making bell (hunting up) again crosses the treble's path (hunting down), when a third place is made, the bells above dodging.

## EXAMPLE:—

|    |  |
|----|--|
| 7. | 24163857<br>42618375<br>46281357<br>64823175<br>68432715<br>86347251<br>68374521<br>86735412<br>87653142<br>78561324<br>75816342<br>57183624 |
|----|--|

The result of all these seven Constructional Shunts is the same. It is to reverse the positions in coursing order of the treble and the bell immediately next before it. Each shunt is one step in the treble's cyclical path in coursing order. In the plain course on eight bells each shunt puts the treble from between 2 and 3 to between 3 and 5; and brings up the lead end 13527486.

## C.—THE SLOW WORK SHUNTS.

One or more of the bells which the treble (hunting up) leaves on the front, remain in the same position until the treble returns, when all the bells plain hunt. The slow work bells are the bells coursing immediately after the treble.

## EXAMPLES:—

| 1-Bell Slow Work Shunt.  | 4-Bell Slow Work Shunt.  |
|--|--|
| 12345678<br>21436587<br>24163857<br>24618375<br>26481735<br>26847153<br>28674513<br>28765431<br>27856341<br>27583614<br>25788164<br>25371846<br>23517486<br>23154768<br>21345678<br>12436587<br>14263857 | 12345678<br>21436587<br>24163857<br>42678375<br>46281735<br>46287153<br>46287513<br>46285731<br>64825371<br>64823517<br>64823157<br>64321375<br>68412735<br>86147253<br>81674523<br>18765432<br>17856342 |

The result of a Slow Work Shunt is that the treble is put forward in coursing order as many positions in coursing order as there are Slow Work bells. Thus, the lead end produced by a 1-Bell Slow Work Shunt is 14263857. By a 2-Bell Slow Work Shunt 6482735. By a 3-Bell Slow Work Shunt 8674523. And so on.

These Constructional Shunts include every one of the operations by which the position of the treble can be altered in coursing order. They can be used in combination, several shunts being made in a single lead. But, of course, the work of one must not interfere with the work of another. For instance, if you have a Slow Work Shunt you cannot in the same lead have an Extreme Behind, for the latter would upset the Slow Work Shunt. You will also notice that several of these shunts produce features that are not desirable in a finished method. P. Court Shunts and Slow Work Shunts cause bells to lie still for more than two consecutive blows. The majority of the Court Shunts are not symmetrical about the treble's path. But there are means by which these blemishes can be removed, and they do not lessen the value and use of these Constructional Shunts in producing good methods. However, we need not trouble about that now. What we are concerned with for the moment, is what Constructional Shunts are, and the work they do in producing a method.

All these Constructional Shunts can be applied directly to Treble Bob methods, and there are in addition one or two variations which are peculiar to that Principle.

**WORCESTERSHIRE ASSOCIATION.****HEALTHY SIGNS IN WESTERN BRANCH.**

A very successful meeting of the Western Branch was held at Powick, on Saturday, Feb. 7th. A fine day and a good bus service helped to make a record attendance, 50 members being present, including the Rev. F. G. Copeland, of Madresfield, Mr. J. R. Newman (general secretary), Mr. J. Hemming (Southern Branch secretary), and Mr. and Miss Johnson, of Evesham, while nearly every tower in the branch was represented. Ringing commenced at 3 o'clock, and except for a break during service was kept up till 9 p.m. The Vicar of Powick (the Rev. F. C. Champion) conducted the service, and gave a very interesting address, which was much appreciated. The Vicar and Mrs. Champion thoughtfully provided tea, and, as this had to be partaken of in relays, it was pleasing to hear the sound of the fine peal of bells between the clatter of cups and saucers and the merry conversation.

At the business meeting which followed, it was arranged that the quarterly peal should be attempted at Powick, Mr. C. Camm to be conductor, and that the next meeting be at Crowle. Several new members were admitted, and a hearty vote of thanks was accorded the Rev. and Mrs. Champion for all the good things provided.

Whilst some made for the tower to ring, the Rev. F. G. Copeland, as usual, greatly amused the rest of the company by his ever-ready yarns.

The Ringing Master (Mr. S. T. Holt) saw that everyone had a pull, and is to be congratulated on his success. The ringing included rounds and London Surprise.

A very healthy sign in this branch is to be found in the number of young members attending the meetings and being in their places for Sunday Service ringing.

**KENT COUNTY ASSOCIATION.****ROCHESTER DISTRICT.**

The quarterly meeting of the Rochester District was held at Sillingbourne on Saturday, January 31st, and, although not largely attended, a special word of welcome was extended to Q.-M.-S. George Gilbert, R.E., and Mr. Fred Richardson, of Brockley. The high quality of the ringing at this meeting is worthy of special mention, and all methods up to Cambridge and Superlative were rung, even the 'Cam' variation of Treble Bob coming in for attention.

The bells were going from 3 till 5, when the association service was conducted by the curate, owing to the absence of the Vicar from the district, a lady parishioner kindly presiding at the organ.

Tea was partaken of at Cremer's Restaurant, to which 30 sat down, after which the business meeting was held, presided over by the district representative, Mr. W. Haigh, which proved to be of a short and harmonious character.

Eleven new practising members were elected, notable among them being a third generation of the well known Spice family, of Tunstall, and the election as a non-resident life member of Mr. Gilbert R. Goodship, of Nottingham, who was proposed previous to a peal.

In proposing the place for the next meeting, Mr. C. Winsor, of Frindsbury, said they had been dragging the secretary from one end of the district to another during past years, and giving the six-bell towers a rest, so he thought as a compliment to their secretary they should visit his 'home' tower at Milton-next-Gravesend.—This was unanimously decided upon, the date being the last Saturday in April. Mr. F. M. Mitchell thanked them for their kindly thought, and advised them to look up their London Minor. He said he would do his best to get them suitably entertained.

A vote of thanks to the Vicar and all concerned in the meeting, was proposed by Q.-M.-S. George Gilbert, and heartily carried.

The tower was again visited, and at 8.30 the bells were 'rung down' on another highly successful meeting in this district.

**BIRTHDAY PEAL AT SHIFNAL.**

On Saturday, the 'annual' birthday peal, arranged as a compliment to Mr. J. Bradney, the late captain of the Shifnal band, was rung for the veteran's 76th birthday. With the kind assistance of Mr. H. Knight, of Wolverhampton, and Mr. J. Perry, of Brewood, and six of St. Chad's ringers, Shrewsbury, a first-class peal of Double Norwich was scored, being the first in the method on the bells, and, incidentally, Mr. Perry's one hundredth peal. It has been the conductor's ambition for the last two years to get a peal in this method on Shifnal bells, which are undoubtedly the finest ring of eight in Salop. Four of the ringers are only 17 years of age.

Mr. Bradney afterwards entertained the band to tea at the Star and Garter Hotel, where a pleasant hour was spent.—Mr. Lilley proposed a vote of thanks to Mr. Bradney, and Mr. H. Knight also added congratulations and good wishes.—Mr. Bradney thanked the band for coming to Shifnal and ringing a peal in honour of his birthday. He was pleased to see the young men keen on the advanced methods, and hoped next year it might be a Surprise peal.—Thanks were tendered to Mr. Page for his arrangements.

**MIDDLESEX COUNTY ASSOCIATION.****SOUTH AND WEST DISTRICT.**

The annual meeting of the South and West District was held at Isleworth on Feb. 7th, by permission of the Rector the Rev. H. M. Relton, D.D.). Ringing took place from 3 to 5 p.m., when the service was conducted by the Vicar, after which the tea and business meeting took place at the Parish Hall, presided over by the Vicar, who was supported by the president of the association (Mr. F. A. Milne, J.P.), Mr. H. Edgley (churchwarden), the vice-president, the Ringing Master, and Mrs. Relton.

The Vicar welcomed the president and the association to Isleworth, and a company of over 60 sat down to tea, as the guests of the Vicar and churchwardens, whose hospitality was greatly appreciated.

The hon. secretary (Mr. W. H. Hollier) presented the balance sheet, which was adopted, and read the report for the year, in which it was stated that eleven meetings were held on Saturdays and two in the mid-week, with an average attendance for Saturdays of 35. During the year, 41 ringing and four honorary members were elected, and the standard of ringing had greatly improved.

The Ringing Master and hon. secretary were re-elected, and Mr. J. Armiger Trollope was elected as hon. treasurer.

A vote of thanks was accorded to the retiring officers; to the Vicar and churchwardens for their kind hospitality; to the Vicar for allowing the use of the bells, for conducting the service, and presiding at the meeting; to the president of the association; the vice-president; Mrs. Relton; the organist; and all who kindly assisted to make the meeting a success. Ringing was afterwards indulged in till 9.15 p.m.

**SUFFOLK GUILD.****IPSWICH DISTRICT MEETING AT SPROUGHTON.**

On Saturday, Feb. 7th, a most successful meeting was held at Sproughton. The bells at Bramford were also available, and a variety of methods were rung from Plain Bob to Cambridge Surprise. Between forty and fifty members were present from Ipswich, Sudbury, Debenham, Stowmarket, Blaxall, Ufford, etc., and the local ringers were in full force.

The Rector of Sproughton, the Rev. T. J. Miller, M.A., presided at the tea, supported by the Rev. W. H. Lillie, M.A., Rector of Bramford, and both churchwardens of Sproughton.

The Chairman expressed regret at the absence of the Rev. H. Drake, the general secretary, who was unfortunately unable to attend the meeting owing to an attack of influenza. The Chairman humorously mentioned that Sproughton contained many wealthy people, and one of the chief of these was apparently Mr. Charles Mee, in view of the sumptuous repast he had placed before them that day.

Mr. Charles J. Sedgley proposed, and Mr. G. E. Symonds seconded, a hearty vote of thanks to the Rev. T. J. Miller for presiding, also to the other gentlemen for their presence.

Mr. Frederick Tillet was present, having partially recovered from his accident, but Mr. Charles Parker was prevented from attending through having fallen from a ladder, injuring one of his arms.

On the proposition of the Chairman, ten new members were elected. Both rectors readily agreed to place their bells at the disposal of the ringers on the occasion of the annual meeting of the Suffolk Guild, to be held at Ipswich on Easter Monday.

**MERTHYR TYDFIL RINGERS ENTERTAINED.**

On Saturday evening, January 31st, by kind invitation of the Rector (the Rev. Richard Pugh) and the Rector's warden (Mr. D. M. Davies, Chief Constable of the borough), the ringers, clergy, churchwardens and the Mayor (Mr. F. Phillips) sat down to an excellent dinner at Billam's Restaurant, High Street, the party numbering twenty-two. After justice had been done to the good things provided, and the loyal toasts honoured, the Rector proposed 'The Ringers of the Parish Church.' He said he felt honoured to be with such a loyal band of men who had never missed ringing for the Sunday services once during the four years he had been in Merthyr, which was an excellent record. He concluded by heartily thanking the ringers for their past services.—Mr. J. Coles (captain) suitably replied, and thanked the Rector, the clergy and churchwardens for the interest they had taken in the ringers and the tower. They now had, he said, one of the nicest and most comfortable ringing chambers in the diocese.—The Chief Constable, as Rector's warden, said that anything he could do for the ringers should have his whole-hearted support. He especially thanked the ringers for the ringing on New Year's Eve, as he had not heard anything like it before. The bells were rung two whole pulls after each verse of a carol sung in church, rounds after the first verse, 'queens' after the second verse, and tittums after the third, the bells being in the same key as the setting of the carol, the key of F.

The Rev. Pugh (curate) spoke of the welcome he always received in the belfry, and the Mayor also spoke.—A vote of thanks was accorded to the caterers, and the party, after joining in various games, broke up about 11 p.m.

### HEREFORD DIOCESAN GUILD. LEOMINSTER AND PRESTEIGN DISTRICT.

The annual meeting of the combined districts was held at Leominster on Saturday, January 24th. Ringing commenced at 4 p.m., and a service was held in the Priory Church at 5, the Guild's special form being used, conducted by the Vicar (the Rev. Gillenders, M.A., M.C.), who also gave an address. The Vicar entertained the members to tea at the Neville Cafe, when 31 sat down, including the Guild hon. secretary, the Rev. G. W. Turner, M.A., R.D. (of Madley), and the Ringing Master (Mr. C. Edwards, Madley).

The business meeting was afterwards held, the Vicar presiding.

The District Secretary reported a well-attended combined practice at Lyonshall on December 13th, on the occasion of the reopening of the bells, after relanging by Messrs. Mears and Stainbank. Forty-five members attended. A peal of Doubles was rung at Lyonshall on Sunday, January 4th, three of the local band taking part, it being their first peal. A combined practice was held at Dilwyn on Jan. 10th, when 17 members attended.

The secretary presented the report for the year and the balance sheet (audited by Preb. S. Cornish Watkins, Staunton-on-Arrow). The present membership is five honorary members, 46 ringing members, and 18 probationers, with a balance on the year of 19s. 11d., and a total balance in hand of £9 7s. 2d.—Some discussion took place as to rearranging the districts, as the two combined were too widely scattered to be worked satisfactorily. It was finally decided to work the districts separately, as was intended when the Guild was first divided in 1919.

The Guild Hon. Secretary (the Rev. G. W. Turner) proposed that the Leominster district be worked separately, and that Bodenham tower be included in the district, there being a very progressive band at that church, which was at present in the Hereford district.—This was unanimously agreed to.

The following officers were appointed for Leominster: Ringing Master, Mr. Rushton (Bodenham); Assistant Ringing Master, Mr. F. Jaine (Kimbolton); hon. secretary, Mr. Worsey (Bodenham). The first quarterly meeting for the Leominster district will be held at Bodenham on April 25th.

The following officers were re-elected for Presteign: Ringing Master, Mr. W. Evans, Lyonshall; hon. secretary, Mr. J. Preece, Staunton-on-Arrow. The next quarterly meeting is to be held at Weobley on April 18th, or second Saturday in May.

A hearty vote of thanks was proposed to the Vicar for his kindness in providing tea, and for taking the service.

The tower was again visited, and touches were rung in the following methods: Grandsire Doubles, Triples and Caters, Bob Doubles, Minor and Major, and Stedman Triples. The following towers were represented: Bodenham, Clifford, Eve, Hereford, Kimbolton, Kingsland, Leominster, Ludlow, Lyonshall and Staunton-on-Arrow.

### FORTY YEARS' RECORD. LONG SERVICE AT CHEDZOY.

On Sunday, Feb. 15th, in the quiet little village of Chedzoy, near Bridgwater, Somerset, Mr. Thomas Jeanes, one of the local ringers, put up the magnificent record of ringing and attending at one or more services during the Sunday for forty years, with the exception of two Sundays in November, 1904, when he was confined to the house through an accident. Usually he rings at 8 a.m., 11 a.m., 2.30 p.m., 6 p.m. each Sunday, and attends the 11 a.m. and 6.30 p.m. services.

He has only been out of the village at week-ends on two occasions in all this long period, one spent at Cheltenham, where he rang at the Parish Church in the morning, and attended the evening service, the other spent at Wellington, when he rang and attended the service at St. John's in the morning, and at All Saints' in the evening.

Unfortunately, through some of the ringers having Sunday employment, it was not possible to ring a quarter-peal for either of the services last Sunday, but several 120's of Grandsire Doubles were rung at each service, Mr. Jeanes ringing the 2nd to 240, the last touch for evening service.

After evensong, the ringers ascended the tower with somewhat mixed feelings, all anxious to ring a quarter-peal in honour of their brother ringer's achievement, and at the same time to ring the last 'touch' on the old peal, as two of the bells, and probably three, are consigned to the melting pot at Whitechapel.

The quarter was rung in 44 minutes by E. Heal 1, B. T. Jeanes 2, O. Bennett 3, F. Gigg 4, W. Gigg (conductor) 5, H. Chappel 6. First quarter by ringers of 1st and 4th, and first as conductor by W. Gigg. During the ringing, three ringers, T. Jeanes, W. Stone and W. Tucker, sat in the belfry. They all rang together over 40 years ago on the same bells. After 'stand' had been called, the veterans congratulated the three 'firsts'. After a few rounds, the bells were lowered for the last time by T. Jeanes 1, W. Gigg 2, B. T. Jeanes 3, W. Stone 4, W. Tucker 5, H. Chappel 6, who, between them, have put in 215 years' service as ringers, their respective individual records being as follows: 46, 17, 25, 47, 44, 36. Three verses of the well-known hymn, 'Now the day is over,' were tapped on the bells as a finale.

### AN 'OPEN' FUNERAL PEAL.

A well known Suffolk ringer has passed away in the person of Mr. Albert James Naunton, of Wrentham, who had been a regular ringer at the Parish Church for about 57 years. The deceased had reached the advanced age of 80 years, and was interred on Feb. 2nd, when, as a last tribute of respect, a peal of Oxford Treble Bob Minor was rung. In accordance with Mr. Naunton's expressed wish, the bells were rung open, and he chose the method which was his favourite. The peal was conducted by his son.

### WINCHESTER DIOCESAN GUILD.

A quarterly meeting of the Winchester District was held at Southampton on Saturday, Feb. 7th. St. Mary's bells were available to members during the afternoon and evening, and were kept going to Grandsire and Stedman Triples, Bob, Double Norwich, Kent, Superlative, Cambridge and London Surprise Major. Tea, followed by a short meeting, was held in the Deanery Schoolroom, presided over by the Rev. H. L. Watkins (curate-in-charge of the parish), supported by Mr. G. Williams (Master of the Guild), Mr. George Pullinger (general secretary), and members from Bishop Sutton, Fareham, Romsey, Dibden, Ringwood, Twyford, Curdridge, Winchester, North Stincham, and the local band.

Messrs. R. Curtis and Read, of St. Mary's, were elected full members of the Guild.—A vote of thanks was passed to the chairman for the use of the bells and schoolroom, to which the Chairman briefly replied.

The next meeting is fixed for Saturday, May 2nd, at Stockbridge.

### TYLDESLEY RINGER'S DEATH.

The death took place, on the 5th inst., of Mr. Robert Allred, of Tyldesley, Lancs, after an illness extending over four years. He commenced to ring at Tyldesley when 15 years of age, and has continued for the past 45 years, the last 19 years as chief ringer and towerkeeper. He joined the Lancashire Association in 1910, and rang 61 peals in five methods, conducting 17. One peal he rang for the Chester Guild. He was made a member of the College Youths in 1911, and was always proud of the emblem which hangs framed upon the wall. During his office as chief ringer at Tyldesley he was the instigator of the scheme to increase the ring of six to one of eight, and an ardent worker to raise the funds. He was well known throughout Lancashire.

He was interred at Tyldesley Cemetery on the 9th inst., the service being conducted by the Rev. Stones, a former curate, assisted by the Vicar and curate, and the Rev. Canon Elsee (the president of the association). As the cortege was going to the church, 896 Grandsire Triples was rung with the bells muffled by a representative band, viz.: G. Pincott (Bolton Parish Church) 1, J. Potter (Walkden), conductor, 2, H. Smith (Leigh) 3, Herbert Allred (Tyldesley) 4, Wm. Hindley (Tyldesley) 5, W. Pennington (St. Peter's) 6, P. Crook (Holy Trinity) 7, T. Barlow (Deane) 8. Later, 1,344 Bob Major was rung in 52 minutes by H. Watts 1, R. Allred, junr., 2, H. Smith 3, G. Pincott 4, T. Barlow 5, P. Crook 6, J. Potter (conductor) 7, H. Allred 8.

### STAINDROP VETERAN RINGER.

#### DIES BEFORE HEARING NEW PEAL OF BELLS.

Many of the older members of the Durham and Newcastle Association will read with regret of the passing away, at the ripe old age of 84 years, of Mr. Daniel Shipp, who was one of the original members at the formation of the association in 1877. He was born in the village of Great Wilbraham, in the county of Cambridge, where, as a boy, he used to go up into the belfry to watch the ringers, and at home used to look over his elder brother's shoulder as he pricked out the changes. He came to Staindrop in 1863, where he formed a band for change ringing, of which he was the captain for very many years, being succeeded in that office by his younger son, Mr. H. Shipp, who, assisted by his elder brother, Mr. J. W. Shipp, is ably carrying on the work started by his father. There are still two of the original band at the tower, in the persons of Messrs. T. Leonard and W. E. Johnson.

The late Mr. Shipp was one of the keenest ringers that the writer has ever met, walking or cycling many miles to ring long after other men had ceased to take interest in ringing. He conducted the only 5,040 of Minor ever rung on the bells of St. Mary's, Staindrop, which, at the time of his death, had been removed for restoration, as they were not considered safe to ring.

There is to be a new frame and new peal of eight installed and dedicated on Palm Sunday by the Lord Bishop of Durham. They will be rung for the first time on Easter Day. This new frame and peal of eight are by Messrs. Taylor and Co., Loughborough.

The Vicar (the Rev. H. S. C. Spurrier) has thrown open the tower on Easter Monday to members of the association, and any other ringers who would like to be present. Visiting ringers will, no doubt, regret that Mr. Shipp should have passed away before hearing the new peal of eight in the tower which he so loved.

**HERTFORD COUNTY ASSOCIATION.**

On Saturday, 7th February, the quarterly meeting of the Northern District was held at Baldock, when some 20 members attended from Apsley End, Graveley, Hitchin, Kimpton, London, Royston and Wellington, and the Baldock band. After ringing during the afternoon, service was held in church, and an address given by the Rector (the Rev. C. W. Alington). This was followed by tea and meeting at the White Lion.

The Rector was voted to the chair, and it was reported that Mr. Darlow (of Royston) had arrived safely at Cape Town, having been ordered to South Africa through ill-health.

The next association meeting was decided to be held at Stevenage on Saturday, February 21st, and the summer meeting at Knebworth.

The quality of the ringing, both afternoon and evening, was good, and ranged from Cambridge Surprise, Superlative and Stedman Triples to Plain Bob, and everyone concerned went home well pleased. One member rang his first touch of Cambridge Surprise.

### DISTRICT MEETINGS.

Happily the recent experience at a Surrey district meeting, of which a correspondent complains this week, is not a common occurrence. A meeting at a six-bell tower was arranged and duly advertised, but only nine ringers attended, and those attached to eight and ten bell towers were notable for their absence. As our correspondent points out, this is extremely disheartening to the officials, and especially to a secretary who is struggling to work up a district and has been promised help from outside, which assistance failed to materialise. It is seldom, especially in areas where hands are fairly numerous, that ringing meetings are as poorly attended as the one mentioned, but the point of greatest interest is whether, as our correspondent seems to think, ringers on higher numbers than six bells shun meetings at six-bell towers. This is a complaint which, we think, cannot be made of ringers in general. Experience proves that, as a whole, ringers at eight and ten bell towers give valuable support to the six-bell meetings. Often they are more strongly represented than are the six-bell men at eight-bell towers, and their assistance is a great asset.

The question arises, however, do we make the most of the opportunities which these district meetings present? For the most part the ringing is of a casual kind, with no definite object in view, except that everybody shall get a pull. Often, of course, someone gets a touch in a fresh method, or some beginner is given a start, but there is generally an entire absence of any organised attempt to make the ringing progressively educational. Nor would it be easy to arrange the ringing on these lines. At the same time we think something might be done, particularly in those districts where it is the practice to hold monthly meetings, which enable members to come together with frequency. For instance, it might be possible to arrange to devote certain periods at each meeting to the definite practice of specific methods, efforts being made beforehand to secure the attendance of sufficient accomplished ringers to ensure adequate help for those who availed themselves of the opportunity thus offered for advancing themselves in the art. Obstacles to such a step as this are easy to be found, but there is unquestionably a need for ringing more organised, educationally, than is usually the case at district meetings, and the subject is worth thinking over. We are pleased to note that our earlier observations on the question of more advanced instruction for ringers at such gatherings is already bearing fruit, and that in more than one association arrangements are being made for competent ringers to read papers on subjects dealing with the art.

WINCHESTER DIOCESAN GUILD.  
GUILDFORD DISTRICT MEETING.

The two villages of Bramley and Womersley were visited on Saturday by members of the Guildford District of the Winchester Guild. There was a good attendance, and the ringing during the afternoon at Bramley, and in the evening at both churches, each of which possesses six bells, included Grandsire, Stedman, Plain Bob and Treble Bob. The Rev. Selby Lowndes, Rector of Bramley, conducted the service, and, led by the organ, the singing was very hearty. The Rector, in a practical address, offered words of encouragement, appreciation and exhortation to the members, and, in urging ringers to put their best into their work and to do it for the glory of God, instead of for purely personal pleasure, pointed out that music and art were material adjuncts to worship in which men should offer to the service of God the great gifts which He had bestowed upon them.

Mr. W. Melville, chairman of the district, presided over the tea and business meeting which followed, and was supported by Mr. C. Hazelden (Ringing Master), Mr. E. Raddon (hon. secretary), and nearly thirty members.

The Chairman referred to the loss which the Guild had recently sustained by the death of Mr. E. Lucas, of Shalford, and the members expressed their sympathy with the relatives by standing in silence for a few moments.

The Ringing Master reported that since the last meeting the Guild had been asked to open the bells at West Horsley, after restoration. There were only three bells, and they were not hung for ringing, but the Guild were glad to be of service. He believed they made an impression, and that in future, perhaps, something more might come of it. Change ringing on handbells provided a voluntary at the service, and demonstrated the advantages of a larger number of bells.

Congratulations were offered to the band that rang the peal of London Surprise at Holy Trinity, Guildford, recently, there being several 'firsts in the method,' and none but the conductor had previously rung more than two peals in the method.

Admiral T. P. Walker, D.S.O., churchwarden of Woking Parish Church, was elected an honorary member; Mr. Norman Harding, of Glandon, was elected a practising member; Mr. Voller, of Womersley, a probationer; and Mr. W. Farley, late of Wells, and now of Folkestone, a compounding member.

The meeting concluded with a vote of thanks to the Rectors of Bramley and Womersley, and to the organist.

Touces of Grandsire Triples and Stedman were rung on handbells, and then the visitors divided themselves between the two towers for further practice.

A MEMORIAL TOUCH.

On Friday, February 13th, at the Church of SS. Thomas and Edmund, Erdington, Birmingham, a touch of Stedman Triples (1,383 changes) was rung in 50 minutes, with the bells muffled, to the memory of Francis Genders, donor of the bells, it being the 34th anniversary of his death: C. Waithman 1, T. Ward 2, W. Stringer 3, \*H. Price 4, W. Davies 5, \*C. Dale 6, B. W. Wittchell (conductor) 7, J. Caulfield 8. \* Longest touch in the method.

LONDON COUNTY ASSOCIATION.  
THE BOUNDARY LINE.

The annual meeting of the London County Association was held on Saturday, February 14th. Ringing took place at All Hallows', Lombard Street, from 2 to 3.30 p.m., and at St. Clement Danes' from 3.30 to 4.30. The service was conducted by the honorary chaplain, the Rev. W. Pennington Bickford, M.A., and the preacher was the Rev. J. A. Mayo, M.A., Rector of Whitechapel, who gave a very interesting and helpful address. The presence of organist and choir was much appreciated. With the Rector's approval it was subsequently decided to devote the offertory to the James W. Washbrook Memorial Fund.

Sixty-three members sat down to tea at the Express Dairy, and afterwards proceeded to the Parish Room for the business meeting, where they were joined by further members.

The balance sheet was presented, and passed. The secretary gave a report on the past year's work, and mentioned, among other things, the centenary dinner, the summer outing to Chertsey, and the successful efforts to restart the Northern District organisation. Sixteen new members were elected during 1924, and thirty peals were rung as follows: Grandsire Cinques 1, Bob Major 2, Bob Royal 1, Double Norwich Court Bob Major 1, Kent Treble Bob Major 1, Kent Treble Bob Royal 2, Stedman Triples 10, Stedman Caters 3, Stedman Cinques 2, Cambridge Surprise Major 4, and Superlative Surprise Major 3. Eighty different members, representing thirty different parishes, took part in these peals, of which the Master, Mr. T. H. Taffender, conducted 25, Mr. J. Bullock 1, Mr. J. H. Cheesman 1, Mr. E. J. King 1, Mr. F. Skevington 1, and Mr. J. A. Trollope 1.

Proposals were brought forward dealing with the rearrangement of the boundary line between the two districts, but these met with little support, and no alteration was made. — The District Master and Secretary stated that they were content with the present division, and were hopeful of the future. It was, however, suggested that help might be given by the central body to certain local bands who were striving to become proficient, and this will be considered by the committee in due course.

Mr. T. H. Taffender was again re-elected Master, without opposition, the meeting registering its full support in his favour. Mr. A. H. Keighley was appointed hon. secretary, and the other elections resulted as follows: Senior assistant secretary, Mr. R. Newman; junior assistant secretary, Mr. T. W. Taffender; treasurer, Mr. E. A. Young; trustees, Mr. J. George and Mr. E. A. Young; senior steward, Mr. W. E. G. Hewson; and junior steward, Mr. F. W. Chorley.

The meeting concluded with votes of thanks to those who had helped in the arrangements, and to the retiring officers.

LADIES' GUILD.

INAUGURAL MEETING OF CENTRAL DISTRICT.

The first meeting of the newly-formed Central District of the Ladies' Guild was held at Beckenham on Saturday, Feb. 7th, and the enthusiasm shown by the members present augurs well for the success of this district. With the help of the gentlemen, ringing was commenced about 3.30 p.m., and later a touch of Grandsire Triples was rung by eight members of the Guild. Service was held at 5 p.m., followed by a splendid tea at the Greyhound Hotel, to which ample justice was done, the company numbering in all 16.

At the business meeting which followed, Mrs. R. F. Deal was elected to the chair. Mrs. A. W. Clarke, Miss E. E. Chapman, Miss P. Moss and Mrs. R. F. Deal were elected to form the committee, while the last named, with the secretary (Mrs. F. I. Hairs), were voted to the general committee.

The following new members were elected, viz.: Miss Dorothy Tall, Miss Ida Swinger and Miss Olive Hairs.

The next meeting was proposed to be held at Willesden, if permission is granted, at the beginning of April, and it was also decided to arrange a few week-night practices where possible.

A hearty vote of thanks to Mr. W. Smith, who so kindly made the arrangements, concluded the business.

Another visit was made to the tower, when a capital touch of Stedman Triples was rung by the ladies, followed by touches of Double Norwich, Kent Treble Bob and Cambridge, until 9 p.m., thus bringing to an end a very successful and pleasant gathering.

AN UNFORTUNATE ENDING.

At Wern, Shropshire, on Saturday, at the Parish Church, a peal of Grandsire Triples was attempted, all going well until in the last 500, when the conductor had to call stand, owing to one of the band being indisposed, after ringing 2 hours and 38 minutes: F. Grocott (longest length and first attempt for a peal) 1, F. A. Barnett (churchwarden) 2, W. J. Benimas 3, W. Lycett 4, G. R. Lilley (conductor) 5, W. T. Goodfellow 6, H. Vickers 7, R. H. Faulkner 8; 1st and 2nd are local men; 3rd from Ludlow; 4th from Stanton; 5th and 6th from St. Chad's, Shrewsbury; 7th from Morton; tenor from Ightfield.

**'A NOTTINGHAMSHIRE RECORD.'***To the Editor.*

Dear Sir,—With reference to the above record, I always take it that 'local band' means all the ringers belong to one tower. I had not forgotten the peals of Oxford Treble Bob of 1774, or Kent Treble Bob rung in 1836, but there is no record of those ringers belonging to one tower, and the great probability is it was not so. I am afraid my delight at our band accomplishing the peal of London Surprise Major (which I had almost given up as impossible) made me forget for the time being the peal of Stedman by the Retford men, and I apologise to them and withdraw all claim with regard to that method. I should like to add, in conclusion, that the only two peals of London conducted by Notts men have been by members of the Beeston band, viz., Mr. A. Coppock and Mr. P. Price.—Yours faithfully,

FREDK. S. PRICE.

**BRISTOL SURPRISE.***To the Editor.*

Dear Sir,—Your leader this week is especially interesting to me, and probably others in the city, from whence it takes its name. I think it was early in 1900, at the annual dinner of the St. Stephen's Guild, that the late Mr. F. E. Ward spoke of the method, and promised to send on a lead of it. This I duly received, and in my spare time set up in type the full plain course, and printed off some 150 copies. We then set to and rang it, and it was only then we heard the Brighton men were ringing it. This, I confess, put the damper on a little. We knew their capabilities; Brighton was up to the 'London' standard when Bristol was in the 'Grandsire' stage. However, a peal was not rung at once, and we might have been first had we persevered.

When the peal was rung I wrote to the 'Bell News' and offered congratulations, but disagreed with the description 'harder than London,' but was told I would soon find it was when we started to make the bobs. (I have made a few since, but still say London is the most difficult.) At the same time, I offered free copies of the plain course to anyone who would send me a stamped addressed envelope. I have the list of those who sent; it was a very short list. I have, however, given all the 150 away now. Has this done a little to popularise it, do you think?

I have received another Surprise Method (Major) from the Rev. E. Banks James. Perhaps I will do the same with that. I said, perhaps!—Yours truly,

W. A. CAVE.

**OXFORD DIOCESAN GUILD.**

The annual meeting of the Reading Branch of the Oxford Diocesan Guild was held at Reading on Saturday last, 70 members being present from the various belfries of the district. Proceedings commenced with short touches on the bells of St. Lawrence's, St. Mary's, and St. Giles' Churches. A bright service was then held at St. Mary's, the Master of the Guild (the Rev. C. W. O. Jenkyn) and the Rev. A. T. Gray officiating, while an appropriate address was given by the Rev. Canon E. J. Norris.

The members then proceeded to the Central Cafe, Friar Street, for tea. The business meeting which followed, with Mr. P. Routh in the chair, was quite an animated affair, helpful suggestions, of interest to ringers, coming from many members.

All the officers were re-elected, among those present, other than those already mentioned, being the Rev. Canon F. G. Coleridge, Crowthorne; Mr. J. Evans, High Wycombe; Mr. J. Bower, Goring; Mr. A. J. Wright, Supt. Wiggins, Mr. H. Tucker, Mr. A. W. Pike, etc.

Special mention was made of the deaths of three members of the branch, Messrs. W. Newell, C. Giles, and A. Lovejoy, the members standing in silence as a token of respect.

A report was received from the hon. secretary (Mr. F. W. Hopgood), showing an increase of 27 members during the year, the branch now having 165 members. Tower reports were received from Messrs. J. Swain, St. Mary's; A. Osborne, St. Giles'; J. R. Mackman, St. Lawrence's; A. D. Cullum, Caversham; E. G. Foster, Tilehurst; G. White, Henley; E. G. Frankum, Mapledurham; H. Tucker, Purley; and W. Ford, Mortimer.

After the business meeting the members entertained themselves with pianoforte solos, songs, humorous stories, and handbell ringing, the artists being Mrs. Wood, and Messrs. Julian Were (from Birmingham Cathedral), A. W. Pike, E. G. Foster, J. R. Mackman, W. Webb, S. E. Davis, Supt. Wiggins, etc. The meeting closed by singing the National Anthem.

DAYBROOK, NOTTS. — On Saturday, Feb. 14th, at the Parish Church, 1,440 Bob Minor: F. A. Salter (conductor) 1, A. Barrett 2, R. Elson 3, L. Chadburn 4, E. Elson 5, H. Elson 6, G. West 7, G. Wright 8. Rung with 6-8 covering.

## BELFRY GOSSIP.

A large gathering is, as usual, assured for the Henry Johnson Commemoration Dinner at Birmingham to-morrow, and those who will be present can be sure of an enjoyable evening. This year's celebration falls on the actual anniversary of Johnson's birth in 1809. His birthday in 1881 was celebrated by a 9,238 Stedman Cinques at Birmingham, then the longest length in the method.

The ringing at Bishop Ryder's Church for visitors to Birmingham to-morrow will be from 2 to 2.40 p.m. only, as a peal attempt is to be made at 2.45. Last week it was stated, in error, that the ringing there would begin at 2.40.

The first peal of Union Triples in Wales has been rung at Bridgend, Glam., conducted by Mr. C. H. Perry. Incidentally, it is quite a long time since a peal of Union Triples was rung anywhere.

Members of the Central District of the Ladies' Guild attempted a peal of Stedman Triples last Saturday at Ewell. After some very fine ringing for 2 hours 5 minutes a shift course unfortunately occurred.

A birthday to-morrow which will bring him congratulations and good wishes is that of Ted Horrex, of the College Youths, who will be 87. And be it remembered as long ago as 1866 on March 3rd he rang in a peal of 8,448 Kent Treble Bob Major.

Sunday is the anniversary of two long peals at Painswick. One in 1734, when 8,064 Grandsire Caters was rung, and the other in 1735, when 10,080 in the same method was rung in 6 hours 27 minutes.

On March 1st, 1889, 13,440 Canterbury Pleasure Major was rung at Warnham, Sussex, in 7 hours, 45 minutes.

W. D. Crofts called a peal of 10,260 Grandsire Caters at St. Mary's, Nottingham, on March 3rd, 1778.

One hundred and forty years ago, on March 3rd, the Anacreontic Society rang a peal of Grandsire Triples at Oswestry. Who or what they were, no one now knows.

We are informed that the peal of Kent Treble Bob Major, rung at Edenbridge on 10th May, 1924, conducted by Chas. H. Kippin, should not be credited to the Kent County Association.

We learn that, apart from the interesting explanation upon 'In and Out of Course,' which will be given by Mr. W. A. Cave, at the Bristol United Ringing Guilds' Social on March 7th, there will be a very good and varied programme.

HELP WANTED IN THE WESTERN DISTRICT.

*To the Editor.*

Dear Sir,—At the annual meeting of the Surrey Association, at Beedington in 1923, a lady was asked if she would take over the none too easy duty of re-forming the Western district, which had fallen away almost to nothing. She assented, and, I think, deserves praise for taking on such a task. She has worked very hard to bring the membership up to the present strength.

The point to which I wish to draw attention, however, is that a good many members of other districts promised to help her, by attending the meetings as much as possible, but the lady must have felt like giving up her responsibilities as hon. secretary at the meeting at Esher on February 7th last, when only nine members attended.

The reason may have been that it was only a six bell tower, and it seems to me that these towers are shunned by nine out of every ten ringers connected with towers which have a larger number of bells.

I would like to ask as many as possible of all districts of the Surrey Association to come to the help of the secretary of the Western District in her hard, uphill work, and not to forget the six-bell towers.

## MIDLAND COUNTIES ASSOCIATION.

LEICESTER DISTRICT MEETING.

A meeting of the Leicester district was held at Wigston Magna on Saturday, Feb. 21st, members being present from Syston, Market Harborough, Croft, Leicester, and the local band. Touches of Grandsire and Stedman Triples, Bob Major, Double Norwich and Superlative Surprise Major were all brought round during the afternoon.

A business meeting was held in the Schoolroom, at which the proposed new rules were freely discussed.

After the business had been disposed of, the next move was back to the belfry, and with the aid of 'the peal snatchers' (who had now made their appearance), further touches of Bob Major, Kent and Cambridge Surprise Major were rung. This brought the tower bell ringing to a close. Afterwards, a very enjoyable time was spent at a place 'within the meaning of the act' (kindly reserved by the Wigston friends). The handbells were brought into action, and touches of Stedman Cinques were rung, followed by tunes and various kinds of jazz ringing, and, last but not least, a rise and fall (more fall than anything). This brought an enjoyable half-day to a close.

## DEATH OF MR. EDGAR WIGHTMAN. MEMBER OF A WELL-KNOWN RINGING FAMILY.

Deep regret will be felt by a large number of ringers at the death of Mr. Edgar Wightman, late of Woodford, Essex, who passed away on Sunday evening, February 15th, at Uxbridge Hospital. He had had an attack of influenza, and got out too soon after it. A relapse followed, and pleurisy and pneumonia developed. He was removed to hospital on the Thursday, but despite all efforts on the part of the doctors and nurses he succumbed on the following Sunday.

Born at Framsdon, Suffolk, in 1875, he was one of the well-known ringing family of Wightman, father and six sons forming the bulk of the band at Cretingham. Farrier and general smith by trade, he went to Woodford, Essex, in 1896, and while there assisted the young bands at Woodford and Leytonstone, where he soon made things move. His ringing activities were carried on in the Essex, Kent and Middlesex Associations, and with the Cumberland Youths. Unfortunately he kept no record of his considerable number of peals, but among those that he rang was the 15,072 Double Norwich (his favourite method) at Erith on April 3rd, 1899, one of his own compositions. He also rang a pair of handbells in the first double-handed peal of Stedman Cinques by the Middlesex Association, conducted by Mr. W. Pye. Mr. Wightman was very active among the Cumberlands in the early years of the present century, and later, while with Messrs. Warner and Son, got together a handbell party connected with the foundry. He was a very fine ringer and conductor, thoroughly at home at either end, but particularly good round the back.

Only last year he removed from Woodford to take up a new business at Uxbridge, Middlesex, where he was assisted by his son (who is also a ringer). He was making excellent progress when stricken down by illness. His death will be keenly felt amongst ringers in the South-East of England, especially in the South-Western Division of the Essex Association, where he had endeared himself by his courteous manner, and his readiness to help at all times. For a number of years he acted as Master of the Division.

The deceased was buried on Wednesday, February 18th, at Uxbridge Cemetery. Amongst those present were Messrs. W. Miller and F. D. Smith, of the Leytonstone St. John's band; Mr. C. Morris, of the Woodford band; and Mr. E. J. Butler, representing the Essex Association. Amongst the numerous floral emblems was a wreath from the St. John's, Leytonstone, Society, and also one from the members of the Woodford and Loughton bands.

On Sunday, February 22nd, and Monday, Feb. 23rd, half-muffled ringing took place at St. John-the-Baptist's Church, Leytonstone. On each occasion 720 London Surprise Minor was rung non-conducted and strictly 'silent,' as a mark of respect to the late Mr. Wightman, who conducted the first extent of London Surprise on these bells on April 17th, 1898.

## READING'S LOSS.

### DEATH OF MR. CHARLES GILES.

On Sunday, Feb. 8th, there passed to his rest one of Reading's best ringers, in the person of Mr. Charles Giles, a member of St. Mary's bellry. A regular Sunday Service ringer, he will be a great loss to St. Mary's tower, where he had rung for many years.

Mr. Giles was a member of the Oxford Diocesan Guild, the Winchester Diocesan Guild, and several other societies. He was a keen ringer, and his services were frequently sought after for special occasions. He was a clever ringer in most methods, having rung peals from Grandsire Triples to London Surprise, one of his best feats being the 'silent' peal of Stedman Triples at Drayton, Berks, the first time Thursdays' peal was rung non-conducted. This feat he accomplished without any previous practice in Stedman calling, this alone proving the possession of no mean ability. He was a safe conductor on 6, 8 or 10 bells, and had rung somewhere about 200 peals.

The funeral took place at Reading Cemetery, the first part of the service being conducted at St. Mary's Church by the Ven. Archdeacon of Berks and the Rev. C. W. O. Jenkyn (Master of the Oxford Guild). After the committal, a plain course of Grandsire Triples was rung over the grave by A. Wiggins 1-2, L. Osborne 3-4, F. Hopgood 5-6, H. Simmonds 7-8. In the evening, touches were rung at St. Mary's, with the bells half-muffled, as a token of respect by ringers from all the towers in the borough.

Deceased, who was 58 years of age, had been unwell for some time, but kept up his service ringing and employment with Messrs. Huntley, Bourne and Stevens, where he had been since boyhood, until a fortnight before his death. He leaves a widow and one daughter to mourn their loss.

HENDON, N.W. — At the Parish Church on Feb. 20th, 720 Bob Minor: B. Windmill 1, R. Bevan 2, A. Bonfield (first 720) 3, E. Bonfield 4, E. E. Pratchett 5, C. H. Martin (conductor) 6.—Also 120 Kent Treble Bob Minor.

## THE CENTRAL COUNCIL.

The annual meeting of the Council will be held on June the 2nd (Whit Tuesday) next, at Chester. Full particulars of the meeting will be published later. Notice of any proposed motion should be sent before April 18th.

Will secretaries please note that the annual subscription is now due, and, together with the names and addresses of representatives, should be sent to the hon. secretary, Mr. E. Alexr. Young, of 155, Rushey Green, Catford, S.E.6.

Dear Sir,—Your readers will be interested to know that for the Central Council meeting on Whit Tuesday, at Chester, the local committee have already arranged for the use of the Cathedral Refectory, and that further we have the very grateful promise of the Lord Bishop of Chester that he will himself attend and welcome the Council.

The subscriptions to the Council are now due, and so far only three have been received, viz., Peterborough, Ladies' Guild and Chester (a very poor return compared with previous years). I wish also to add that three Guilds or Associations have dropped out on account of non-payment of the subscriptions for the year 1924. It is not too late for them, however, if they will forward the amount for both years, to be reinstated.

We should also be happy to think that a well-known Guild in the South of England would reconsider its present position, and rejoin the Central Council.—Yours faithfully, E. ALEXR. YOUNG.

## ESSEX ASSOCIATION.

### NORTHERN DIVISION AT COGGESHALL.

The first meeting of the Northern Division for the year was held on Saturday last at Coggeshall, the place having been selected from the fact that the old band of ringers had become extinct, and a young band had been formed to carry on the work. It was thought, therefore, that a meeting would give them help and encouragement in mastering the art of change ringing. The ringing commenced at 3 p.m., and ringers were present from the following 23 parishes: Coggeshall, Maldon, Dunmow, Braintree, Kelvedon, Sudbury, Earls Colne, Rayne, Broomfield, Foxearth, Great Bentley, Mistley, Stebbing, Peering, Assington, Sible Hedingham, Greenstead Green, Great Cornard, Polstead, Haistead, Long Melford, Romford and Harlow.

Service was held in the Church of St. Peter-ad-Vincula, and the Vicar gave a short and helpful address.

After the service, the ringers, to the number of 43, sat down to tea in the room in the Vicarage grounds, the chair being occupied by the Vicar, supported by Mr. C. H. Howard (Master of the Association), Mr. W. J. Nevard (District Master of the North-Eastern Division), Mr. E. J. Butler (secretary of the South-Western Division), Mr. D. Elliott (Assington), Mr. F. W. Wiffen (District Master) and Mr W. H. Dyson (district secretary).

At the business meeting, five of the young Coggeshall band were elected members of the association.

It was decided to hold the June meeting at Sible Hedingham, and a bye-meeting, about the end of April, at Belchamp St. Paul's.

A question arose as to the custody of the association's peal book, and the Master promised that it should be produced at the annual meeting for inspection.

It was mentioned that a well-known ringer, in the person of Mr. Edgar Wightman, of Woodford, had, during the past week, passed away very suddenly, and the members rose for a few moments in silence, as a token of respect to his memory.

The District Master announced that a peal board would be unveiled at Braintree on Saturday, March 7th, at 4 p.m., when any visiting ringers would be welcomed, and a tea provided at a small cost.

A hearty vote of thanks was moved to the Vicar for kindly allowing the use of the bells, for taking the service, and for his helpful address; also to the organist for presiding at the organ.—This was carried with acclamation, and the Vicar suitably replied, expressing the pleasure it had given him to have the meeting at Coggeshall.

During the day, the following methods were rung: Superlative, Cambridge, Stedman, Grandsire, Bob Major, Double Norwich, Oxford and Kent Treble Bob.

## RINGER'S DEATH AT PRESTBURY.

On Tuesday evening, Feb. 17th, the local band met at St. Mary's Church, Prestbury, Gloucestershire, and rang a well-struck quarter-peal of Grandsire Triples (1,260 changes), in 47 minutes. The bells were half-muffled, as a mark of respect to an old ringer, Mr. James Major, who was laid to rest earlier in the day. He was carried to his grave by colleagues of the bellry. Ringers stood as follows: C. Tovey 1, W. C. Rose 2, H. Newman 3, J. J. Causon 4, G. Walters 5, W. Hale 6, T. Pendry (conductor) 7, J. Harrison 8. Afterwards, the 'whole pull and stand' was rung 68 times, corresponding with the age of the deceased, T. Compton taking the place of W. C. Rose.

Deceased, who was much respected, had been a ringer for about 34 years, but had been unable to take an active part in ringing for the last two years owing to illness.

## LEEK MAJOR.

## PROOF OF ROUND BLOCKS AND PROOF OF CONSTRUCTION.

By GEORGE BAKER.

In an old but not forgotten controversy of 1913, I found that a particular method, one of my own discoveries, published in 'Bell News,' March 17th, 1900, was produced by three orthodox bobs, Quick 6th's, Quick 3rd's, and Quick 6th's, and there and then I laid it down as an axiom that all methods, principles and systems were produced by making Bobs and Extremes in the Primary Principles.

Except that I have adopted the term 'Shunts,' I have never deviated from that statement, and that I was right in making it can now be abundantly proved. Moreover, I can go a step further, and declare that there is a general law in method construction, and that law applies whether it be method, principle or system, and the axiom laid down in 1913 can be amplified in 1925 as follows:

All methods, principles and systems, double or single, regular or irregular, symmetrical or asymmetrical, with one, two, or any number of hunts, or no hunts at all, are produced by making SINGLE SHUNTS which form ROUND BLOCKS in the Primary Principles or the Treble Bob Principle, and these round blocks are not confined to the first lead or division, but run right through the Plain Course.

A crude way of proving the axiom above would be to write out a full plain course of LEEK MAJOR, but I hope to make myself understood by the use of two divisions only.

|          |          |  |
|----------|----------|--|
| 12345678 | 68472513 | Round block transposition<br>row from left to right. |
| 21436587 | 86745231 | 48763215   |
| 12463578 | 88754213 |  |
| 21645387 | 86572431 |  |
| 26154837 | 85627341 |  |
| 62518473 | 58263714 |  |
| 26581437 | 85236741 | 43172865   |
| 62854173 | 58327614 |  |
| 68245713 | 53872164 |  |
| 86427531 | 35781246 |  |
| 68472513 | 53718264 | 68472513   |

In the first row of shunts \* 12463578 must be transposed by 48763215 until the first row appears again.

In the second row of shunts \* 26581437 must be transposed by 43172865 until the first row appears again.

In the third row of shunts \* 68472513 is in coursing order, and the round block is completed when rounds turn up.

Here, then, is proof of the existence of round blocks in Leek Major, and what is true of Leek Major is true of any method, principle or system whatsoever.

It will be well to explain here and now that proof of round blocks in a method is not proof of construction; this can be proved by transposing the round block transposition rows of Leek Major in their consecutive order:

| Round block rows | Transpositions. |
|------------------|-----------------|
| 48763215         | 48763215        |
| 43172865         | 67418523        |
| 68472513         | 53127864        |

It will be 'clear to the meanest intelligence' that 53127864 is not 12345678.

Proof of construction is finding the actual lead or division head which will produce as a PLAIN ROW, a row that has already been produced by a shunt, and then transposing all the lead or division heads of the shunts of the method or principle in their consecutive order.

For proof of this we will take the shunts of Leek Major, and I must explain that these are double bobs, i.e., Quick 3rd's and 6th's, but being made in the same row they count as a SINGLE Shunt.

The first double bob produces 58672314 at 9th change of Q. P.

The second double bob produces 67418523 at 9th change of Q. P.

The third double bob produces 87536421 at 11th change of Q. P.

To prove the truth of the above it will be sufficient to give the transpositions of the first and last division heads.

| Shunts   | Transpositions. |
|----------|-----------------|
| 58672314 | 58672314        |
| 67418523 | 31754286        |
| 87536421 | 68472513        |
|          | 57836142        |

And now, at long last, we have the real truth, the whole truth, and nothing but the truth, in the matter of method construction, and all the arbitrary definitions ever laid down are scattered to the four winds; for what is true of Leek is equally true of London Surprise Minor and London Surprise Major, or any method, principle or system that ever has been, or ever will be, constructed.

Leek Major contains three round blocks produced by shunts, and seven by plain hunting.

London Minor contains 16 round blocks produced by shunts, and eight by plain hunting.

London Major contains 22 round blocks produced by shunts, and ten by plain hunting.

I have no doubt, now that it has been pointed out to them, my opponents will be able to prove the fact for themselves, and indeed I should not be surprised if eventually they want to claim all the credit for this discovery for themselves.

The only extenuating circumstances that I can find for one of my opponents is the fact that he was one of the first members of the Legitimate Methods Committee. The importance of the position seems to have muddled his brain, and as years went on every arbitrary definition that he became a party to appeared to him as a natural law.

Before I leave the subject of Leek Major, I want to call the attention of the Exercise particularly to that method.

The method was sent to me early in the year of 1913 by my intimate friend, Mr. E. A. Ridgway, of Leek, Staffordshire, with a request that I should examine and give him my opinion of same. I did so, I found it was produced from the Quick Principle by three double bobs, that it had what I term reciprocal relationship of the opposite pairs of bells, 1-8, 2-7, 3-6, and 4-5; a characteristic of the Primary Principles and of the Treble Bob Principle, that the changes were alternate quadruple and triple throughout, that the places were all made the right way, i.e., at hand and back stroke, that the division heads and ends were in coursing order, that musically it was far in advance of anything previously discovered, the Plain Course containing both Queen's and Titlums, and being a double method the eighty changes of the plain course consist of forty rows, and these forty rows reversed, bringing up all the backward coursing rows, backward Queen's and backward Titlums, etc.

I also proved the method, and found that with the tenors together, if bobs only are used, there is only one false course-end 126543, if singles are used there are two extra 124635 and 125364, but if 6, 7, 8, are fixed the method then has a clean proof scale.

This unique method was 'murdered' as soon as published by a gentleman, who shall be nameless, declaring that it was a 'mongrel' method.

I, being the sponsor for the method and partly responsible for its publication, came out of my retirement, and asked the nameless one his reason for calling the method 'mongrel,' and I was informed that Principles could only have the following division heads and ends:

|                   |                   |
|-------------------|-------------------|
| (1) head 12345678 | (2) head 12345678 |
| end 13254763      | 21436587          |

It only took me a very short time to prove the above definition of a Principle to be an arbitrary one, and later I published in the 'Bell News' and 'Ringing World' a method which could be produced with any one of the four possible rows as the first division head, i.e.,

|          |
|----------|
| 24163857 |
| 68472513 |
| 75836142 |
| 31527486 |

Did the gentleman retract, or apologise to the author of Leek Major for having killed his firstborn method. Not he, people of his calibre rarely admit the possibility of their making a mistake, and like Felix the cat, 'who keeps on walking still,' so does he 'keep on talking and writing still,' without having the least knowledge of what I have now disclosed to the Exercise.

My life's labours may soon be at an end, but should the Exercise be desirous of learning more of what I am in a position to tell them, my knowledge, while I am spared, will be at their disposal, provided our Editor can find the space. On the other hand, if the Exercise is not interested, I shall go back to my retirement, from which I only emerged in 1913, to vindicate the legitimacy of Leek Major.

## GLOUCESTER &amp; BRISTOL ASSOCIATION.

To the Editor.

DEAR Sir,—Would you permit me, through your columns, to ask all life members of the Gloucester and Bristol Diocesan Association to send in their names and addresses to me not later than March 4th, 1925. The list needs revising, and those who write will be included in the new lists. Thanking you, Yours truly,

EDGAR GUISE, Hon. Secretary.

39, Tankard's Close, St. Michael's Hill, Bristol.

## A DATE TOUCH.

At Bramley, Yorks, on Sunday, February 22nd, for evening service, a date touch (1,925 changes) of Kent Treble Bob Major, in 1 hour 8 mins.: W. Waterhouse 1, W. Popplewell (conductor) 2, T. Latimer 3, E. Redshaw 4, S. Wheatley 5, J. W. T. Holgate 6, J. Eastwood 7, H. Ward 8. Ringers of the 2nd and 5th are from Calverley; the tenor ringer from Pudsey; the others are members of the local company. This is the longest length rung on the bells, and longest length of Major by ringers of the treble, 4th and 7th.

## LANCASHIRE ASSOCIATION.

## INTERESTING GIFTS TO PRESTON TOWER.

A very successful meeting of the Preston Branch was held at Whittle- Woods, on Saturday, February 14th, about 30 members being present from Brindle, Brownedge, Chorley, Hoghton, Leyland Parish, Preston Parish, Penwortham, and the local tower, together with visitors from Standish. The methods rung ranged from Plain Bob to Superlative Surprise.

Tea, partaken of at the Bungalow Tea Rooms, was followed by the business meeting.

On taking the chair, Mr. E. R. Martin said he was pleased to welcome the visitors who were present.

After the transaction of the ordinary business, the Secretary read correspondence between Mr. Thomas Russam, of St. Martin's, Birmingham, and himself, in which Mr. Russam said he had in his possession a print of Preston Parish Church, as it was in 1821, together with two peal records, which he offered to give to the Preston ringers, as he thought they were the people who ought to have them.

The secretary wrote thanking him for his generous offer, and suggested that he (the secretary) should hand them over to the Preston ringers at this meeting, on Mr. Russam's behalf. To this Mr. Russam had agreed, and had forwarded the print and records.

The secretary then read to the meeting the records, which are as follows:—

'On Thursday morning, Sept. 8th, 1831 (being the day of the Coronation of his most Gracious Majesty King William the Fourth), the Society of Change Ringers of this town ascended the noble Gothic tower of the Parish Church and rung a true and complete peal of Bob Major, consisting of 5,120 harmonious changes, in three hours and ten minutes; conducted by Mr. John Chew. The following are the names and the bells to which each was placed:

Treble.—Mr. Thomas Croasdale.  
Second.—Mr. Thomas Thompson.  
Third.—Mr. Benjamin Anderton.  
Fourth.—Mr. Richard Graham.  
Fifth.—Mr. John Mayor.  
Sixth.—Mr. John Smith.  
Seventh.—Mr. John Chew.  
Eighth.—Mr. John Simpson.

Weight of tenor 25 cwt. 1 qr. 14 lbs.'

'On Monday evening, January 30th, 1837, a select band of the Society of Change Ringers, Preston, accompanied by Mr. Wm. Bowker, of Manchester, and Mr. John Varley, of Croston, rung on the bells in the tower of the Parish Church, the celebrated ten course peal of Grandsire Triples, consisting of 5,040 changes, in two hours and 59 minutes; conducted by Mr. Thomas Brodric. The following are the names and the bells to which each was placed:—

Treble.—Mr. Edward Halliwell.  
Second.—Mr. Thomas Thompson.  
Third.—Mr. Benjamin Anderton.  
Fourth.—Mr. Richard Graham.  
Fifth.—Mr. Thomas Brodric.  
Sixth.—Mr. Samuel Leivesley.  
Seventh.—Mr. William Bowker.  
Eighth.—Mr. John Varley.

Weight of tenor 25 cwt. 1 qr. 14 lbs.'

The print was then handed round for the members' inspection, and all were highly pleased with it.

The Chairman said he would like to move that the best thanks of all present, and especially of the Preston ringers, be accorded to Mr. Russam for his gift. He added that he had a special interest in the records, as one of the ringers named was one of his ancestors, and no doubt others in and about Preston would also be relations of them.

The secretary hopes Mr. Russam will accept the vote of thanks through 'The Ringing World.'

It is the intention of the wardens and ringers that the souvenir should be framed, and a suitable footnote added, to show the origin of the gift, and then to put it in the Preston Church tower.

The print differs in some respects to the church as it is to-day, as in the picture the tower is surmounted by four pinnacles only, while to-day there is a spire as well as the pinnacles; also one of the entrances to the churchyard is different.

Another item of interest was then discussed, this being the question of educating the ringers on the lines suggested by a recent leader in 'The Ringing World.' After a fairly lengthy discussion, it was decided to ask Mr. Wm. Taylor, of Penwortham, to prepare a paper for the next meeting.

This closed the meeting, and most of the members went back to the tower.

The best thanks of the meeting were passed to the Vicar for the use of the bells, and to the local men for having all in readiness.

## BIRTHDAY COMPLIMENTS.

It is pleasant to know that one is remembered by one's friends. On Tuesday, January 13th, at Southover Church, Lewes, a quarter-peal of Grandsire Triples was rung by R. W. E. Dawe 1, L. Boyes 2, D. White 3, B. Heasman 4, W. Boyes 5, A. J. Turner 6, R. J. Dawe (conductor) 7, G. Wilkinson 8. Some touches of Bob Major and Grandsire Caters were also rung, in which W. Ward, J. F. Steadman, A. Scrivens and R. Hide also took part.

The ringing was arranged by Mr. A. J. Turner as a birthday compliment to Mr. J. S. Goldsmith (an old member of the tower), and the kindness thus shown is fully appreciated.

At Rotherfield, Sussex, on Tuesday, January 13th, at St. Denys Church, 720 Oxford Treble Bob Minor: H. Hammond 1, S. Russell 2, E. Bishop, junr., 3, E. Bishop, senr., 4, C. Brasier (conductor) 5, F. Hammond 6, W. Rogers 7. Rung as a birthday compliment to the conductor.

At St. Mary's, Hornsey, N., on Feb. 16th, a quarter-peal of Bob Minor, in 46 mins.: W. G. Blee 1, T. G. Deal 2, J. G. Nash 3, A. Howell 4, H. Blee 5, C. H. Ross (conductor) 6. Rung in honour of the 21st birthday of the ringer of the treble, and also as a 19th birthday compliment to J. G. Nash.

At Hornsey, on January 19th, at St. Mary's Church, a quarter-peal of Bob Minor (1,260 changes), in 50 mins.: H. Blee 1, T. Langdon 2, J. G. Nash 3, A. Howell 4, A. Putland 5, C. H. Ross (conductor) 6. Rung as a compliment to Mr. A. Howell on his 70th birthday.

At Northampton, on Monday, January 12th, at St. Peter's Church, a quarter-peal of Grandsire Triples by: A. Stade 1, J. C. Dean 2, W. H. Austin 3, E. Sibley 4, W. R. Parker 5, W. Sturgess 6, W. J. Dove (conductor) 7, J. Wilkins 8. Rung in honour of the tenor's birthday. First quarter in the method as conductor.

## YOUNG RINGER'S DEATH

The funeral of Wilfred Stephenson, who died at the age of 17 years, took place at Goolse on Friday, Feb. 13th. The deceased was a ringer at the Parish Church, and a member of the Yorkshire Association. His brother ringers attended the funeral, and a course of Grandsire Triples was rung over the open grave, as a last token of respect, by H. Waud 1—2, C. W. King 3—4, H. Drake 5, L. Woodhead 6, M. Tate 7, J. Drake 8. Afterwards a touch of Grandsire Triples was rung at the Parish Church, with the bells half-muffled, with Messrs. J. Swingle, A. Jackson and J. T. Smith also taking part.

## ST. MARY'S RINGERS' GUILD, HANDSWORTH.

On Saturday, February 21st, the members of the above Guild held their third annual social and dance in the Endowed Schoolroom at Handsworth, Sheffield, where 150 pairs of feet tripped upon the floor in metric fashion, to the merry strains of music. The dancing was interspersed with song, solo, humour, and the ever-popular 'double-handed.' Mrs. S. Godden sang, in rich contralto, 'In an old-fashioned town,' and the 'old-fashioned' audience demanded an encore, the artist obliging by singing 'Absent.' Then there was a turn from the inimitable Mr. Bert Copley (humorist), who proved very popular as he rolled off an action song, 'The Cautious Lover.' And then Mr. M. Payling (baritone) followed with 'Mate o' Mine,' and, singularly, Mrs. Godden launched out in her next song with 'My Ship,' to be followed by Mr. Copley with the tickler, 'My word, you do look queer.' The old lady who sat next to the writer huddled over so much that her jewellery jingled like the chains of a cart horse, and she laughed until her ribs rattled. This artist could not be let go until he had obliged again, and again, with 'Won't yer, Bill?' and 'It may be so,' but in the writer's opinion, the forte stroke of the evening was given by this great humorist in a sentimental monologue, entitled 'Earthen Ware.' It was chock full of home-truths, and, being of rather a serious nature, no wonder it 'touched.' A course of refreshments was followed by a course of Grandsire Triples: Old Watkinson 1—2, Wilson 3—4, Godden 5—6; and, it's a fact, a 'Garth' completed the circle on 7—8. The wife of the 'Chief Baker' in Handsworth presided at the piano, accompanied by Messrs. Glossop (violin), and P. Mettram on the drum cymbals and 'oojahs,' the latter reminding one of a peal of 'one, two,' and one once heard and can never be forgotten. Messrs. Watkinson, Godden and Garth acted as M.C.s, and a fellow near the door took the Card-well, and then took his hook.

## POTTERY RINGERS' 'OFF DAY.'

On Saturday last, six members of the Stoke-on-Trent Association paid a visit to the mother town of the Potteries (Burslem) to attempt a peal of Treble Bob Minor at the Church of St. John. After ringing 25 minutes the tenor rope broke. The handy men of the band soon spliced this, and a fresh start was made. The peal was gliding along beautifully in the fifth method, when, after two hours' ringing, the rope of the second bell came tumbling down on the writer's shoulders. This put the 'tin hat' on the attempt, as it was now too late to make another start. One of the band attributed this ill-luck to the fact that had they got through this peal it would have been his thirteenth.

The local ringers have made application several times for a set of new ropes, but the Rector and churchwardens are evidently under the impression that bell ropes belong to the perpetual system.

The first stage of the journey home was by electric car, but before reaching Hanley it came to a dead stop, something having gone wrong with the mechanism, which held up quite a string of other cars as they arrived behind it. Eventually the ringers arrived at Hanley safely. Here the writer boarded a 'chara' for Milton. 'As soon as I got seated,' he says, 'I heard the conductor say to the driver, "Let her go steady, Jim." What this meant I was very soon to find out, as Jim had evidently forgotten the conductor's advice, for a noise was heard as of many pistols firing, and the motion of the 'chara' was very similar to a cake-walk movement. However, Jim pulled himself and the engine together, and I arrived at my destination. When I went into the house I was rash enough to tell my wife of my experiences, and she said, 'It serves you right, you shouldn't go gadding about to all these different towers. Why don't you be satisfied with ringing in your own belfry; you knock about like a lad of 18 or 20, instead of a man the wrong side of fifty.' So I replied that it was just the ringing that kept me young. She didn't say anything, but I could tell by the flicker of a smile creeping into her face that she thought there was some amount of truth in it.

## INCUMBENTS IN THE BELFRY.

To the Editor.

Sir,—The Vicar of St. David's, Glanadda, Bangor, until recently, came regularly in the belfry to ring; often three times on a Sunday, always twice, and once a week for practice. He also took part in a considerable number of peals. This he kept up for many years, and even now, at an advanced age, he occasionally ascends the belfry, if there are any visitors, or there is a chance of a touch of something out of the ordinary. The 'grand old man' is still absolutely keen. I refer to the Rev. T. Lewis Jones, M.A., President of the North Wales Association.

## RINGERS AND FREEMASONRY.

The Johnson Commemoration Dinner at Birmingham on Saturday lacked nothing in its traditional enthusiasm and cordiality. Although the days of Johnson are fast receding and the number of those who knew him in the flesh is gradually but surely diminishing, his memory is still green, while, through this popular event, there must be many who, although they never saw Henry Johnson, and indeed knew nothing of ringing until long after his death, feel as if the famous old man had been a personal friend. This annual gathering not only serves the purpose of preserving the memory of one of the greatest ringing intellects of all time, and of one of the most lovable of characters that ever graced the Exercise, but it provides a fine illustration of the spirit of what we like to call freemasonry among ringers.

In this connection we would draw attention to a suggestion made in the course of his speech by Alderman Pritchett, who presided. There are in the ranks of ringers a great many members of the craft of Freemasonry, and the chairman, who is himself one of the foremost Masons in the country, suggested that a Ringers' Lodge should be formed in London. We imagine that Masons belonging to the ringing Exercise will welcome the proposal as cementing still more firmly the bonds of brotherhood which exist in both spheres and uniting them in a manner which is not at present attainable. To ensure that the Lodge shall retain its characteristic and remain essentially a ringers' Lodge, Alderman Pritchett's idea is to make it a necessary qualification that candidates for membership shall have rung a peal. This is a condition which would maintain the exclusiveness of the Lodge, and should attract to it all those who combine Freemasonry and ringing.

Having mooted the subject, doubtless Alderman Pritchett will see that the proposal is given the opportunity of taking shape. He is admittedly the very best person to launch the scheme, both from his knowledge of and his standing in the craft, as well as from his long and active connection with ringing. There have already been Freemasons' peals rung on eight and ten bells, and there is a keenness among members to associate the two things. A Lodge thus formed would enable those ringers who are connected with Masonry not only to enjoy a closer contact, but through their more intimate association in the lodge to come together much more often, as members of their ancient order, in the belfry. We hope Alderman Pritchett's idea will materialise at an early date, for we are quite certain that he will have the full support of all ringers who are also Freemasons.

## BATH AND WELLS ASSOCIATION.

## GLASTONBURY DEANERY SECRETARYSHIP.

The annual meeting of the Glastonbury Deanery Branch of the Bath and Wells Diocesan Association was held at Glastonbury on Saturday, February 21st, when the Rev. L. S. Lewis presided, and about twenty members were present. The towers represented included Glastonbury, Street, Croscombe, West Pennard, Pilton, Doultling, Shepton Mallet and St. Ebbe's, Oxford.

The ringer's form of service was conducted at St. John's, and the Vicar gave the members a very helpful address.

Tea was partaken of at the Misses Taylor's Restaurant, and was followed by the business meeting.

The Rev. L. S. Lewis briefly referred to the loss the branch had sustained in the departure of Mr. Walter Farley, the hon. secretary and treasurer of the branch, and moved a vote of thanks to him for his valuable services. — This was seconded by Mr. W. Marsh (Street), and carried with acclamation.

The Hon. Secretary read a report on the past year's work, together with a statement of accounts, which were unanimously adopted.

The re-election of the Rev. L. S. Lewis, as president for the ensuing year, was moved by the Hon. Secretary, seconded by Mr. H. J. Trim, and carried.—The Rev. L. S. Lewis suitably responded.

The next business was to elect an hon. secretary and treasurer and a representative on the general committee. — The President brought forward the name of Captain Babington, of the Abbey House, Glastonbury, and proposed him as an hon. member.—This was seconded by Mr. J. Thyer.—Capt. Babington was then proposed as hon. secretary for the branch.

Mr. W. Marsh (Street), moved, as an amendment, that the election of hon. secretary be left over till the next meeting, and this was seconded by Mr. Rowse.

Mr. H. Collins (Croscombe) moved the election of the temporary hon. secretary, and proposed Mr. F. D. Rickards.—Mr. T. Willmot seconded, and this, on being put to the meeting, was carried.—Mr. Rickards briefly responded.

Three probationers from Street, and the like number from Pilton, were elected.—The tower of West Pennard agreed to rejoin the Deanery Branch, and Pilton also joined up.

The place of the next meeting was fixed for West Pennard, on the proposition of the hon. secretary, seconded by Mr. H. J. Trim.

Votes of thanks, proposed by the Rev. E. S. C. Lock, of West Pennard, were accorded to the Vicar, the choir, and organist, and all who helped towards the arrangements of the meeting, and these were carried unanimously.

Touches on the bells, before service and afterwards, helped to make up a most enjoyable meeting.

## DEVON GUILD.

The quarterly meeting of the Exeter Branch, was held at Exminster on Saturday, February 21st. Proceedings opened with a splendid service in the Parish Church, conducted by the Vicar (the Rev. D. G. Samuel), who extended a very hearty welcome to the Guild.

After the service a move was made to the Victory Hall for tea. At the meeting which followed, among those present were Mr. E. Shepherd (chairman), Mr. T. Laver (hon. branch secretary, pro tem.), Mr. J. C. Oke (assistant secretary), the Rev. E. S. Powell (President of the Guild), the Rev. E. V. Cox (general secretary of the Guild), the Rev. D. G. Samuel, and about 60 members.

The Chairman warmly welcomed the President and secretary to the branch meeting, and hoped they would be seen often on those occasions.

A number of new members were elected, which shows that the branch is steadily making headway.

It was decided to hold the next meeting at Crediton.

A hearty vote of thanks was accorded the Vicar for so kindly conducting the service; also to the organist, choir, and the ladies who assisted at the tea. The bells at Exminster and Topsham were rung during the afternoon and evening, some excellent striking being heard.

## KENT COUNTY ASSOCIATION.

A very successful meeting of the above was held at Baring on Saturday, February 21st. Ringing commenced at 3 o'clock, and service was conducted by the Rector (the Rev. Granville Sharp), assisted by the Rev. H. P. Brewer, a life member of the association, who gave an interesting address, Mr. W. E. Pitman, Mus.Bac., presiding at the organ.

After service, at the kind invitation of the Rector, tea was partaken of at the Church Classroom, 40 members sitting down, and 14 towers being represented.

At the business meeting which followed, a hearty vote of thanks was accorded the Rector (who was elected an honorary member of the association) for his kindness; also to the churchwarden and to the ladies who had helped to make the meeting a success.

## CONSTRUCTIONAL SHUNTS.

To the Editor.

Sir,—A word of appreciation is due to Mr. Trollope for his very lucid article, 'Concerning Constructional Shunts.' I venture to say that nothing clearer, or more easily understood, has ever been written on ringing intricacies. It is not everyone who understands the difficulty of clear writing. Easy reading means hard writing. Not only must a man have a gift of expressing himself well, he must also have the industry to be content to re-write over and over again, until what seems natural, but is really hard-won, clearness is attained.

But I am bound to add that I could not have understood this article had it not been for the discussion on the word 'Shunt' a few weeks ago. Knowing that to shunt anything is to push it away, to remove what is an obstruction, to discard what is unwanted for the time being, I should have been all the time looking out for what was in the way, or what it was that was being discarded. As this article will not always be read in conjunction with the correspondence referred to, why does Mr. Trollope reduce his writing to merely ephemeral interest, by the use of such a dubious word? Even when he clearly says that 'Each shunt is one step in the Treble's cyclical path in coursing order,' he does not point out what is absolutely necessary, if his words are to be understood, viz., that there is no discarding of anything.

Moreover, the error here is not only that of doing what ought not to be done, but of not doing what ought to be done. For Mr. Trollope speaks of blemishes which have to be removed. Obviously these are the things that have to be shunted, and the 'means' of which he speaks, by which they are removed, are the true 'Constructional Shunts.'

Now, truth in language is at least as important as truth in a method, or in a peal. And if we once begin to play fast and loose with it, we shall never know when to stop on the facile descent from the tableland of rectitude. So one is not surprised to find that everyone else who uses this error of Mr. Trollope's uses it with a fresh distinction of perversity, until we get to Mr. George Baker, with his fantastic Single, Double and Treble Shunts, and other fancy terms, which make what he writes so impossible to understand that one wonders if he understands it himself!

But, after all, why this difficulty? Mr. Trollope keeps on telling us that a 'Shunt' is a 'Step.' I suppose there cannot be a greater contradiction in terms. A Shunt may be a 'push aside,' or a 'glide aside,' but it can hardly be a 'step aside,' much less can it be a 'step,' with the 'aside' left out. Well, what is the matter with the good old word 'Step'? From a former article, it seemed as though the idea of a lift was more in Mr. Trollope's mind, but in this article he presses the word 'Step.' What then can be better than to say, 'A Step is the operation by which a bell is lifted a degree in its cyclical path in coursing order through the method.'

If, however, a distinctive term is still sought, for some reason, at any rate let it be one connected with the word 'step,' and not with a railway train—about the last thing in the world that can 'step'! Such words are 'grade,' 'graduate,' 'degree.' How would a 'gradum,' or to 'graduate,' answer the purpose?

## ST. MARY ABBOTS GUILD, KENSINGTON.

On Tuesday evening, Feb. 10th, the annual dinner of the above Guild was held in the St. Mary Abbots' Parish Hall, 21 members and friends being present, including Mr. R. Carter (treasurer), the Rev. Stanley A. Spackman (chaplain), Messrs. R. A. Daniell, A. F. Harris, G. H. Harding (Bath) and Mrs. R. J. Wilkins (Bristol). The company was not so large as in previous years, Sir Stanley Von Donop, Captain Feilden, and Messrs. C. F. Winney and R. Holloway being unable to be present owing to illness. Dr. Forrest Browne, in a letter regretting his inability to be present, stated how much the parishioners appreciated the bell ringers' work, but said that for reasons of health, he was obliged to decline all invitations to dine out in the evening.

In the absence of the Vicar (the Rev. E. Marling-Robert) Mr. R. Carter took the chair, and an excellent dinner was done full justice to by all.

Several toasts were most enthusiastically drunk, and between the speeches some good songs were sung by Messrs. A. B. Bennett, R. A. Daniell, H. G. Miles, A. F. Harris and E. G. Locke, the Rev. S. A. Spackman presiding at the piano.

Mr. Carter told the company some humorous stories from his extensive repertoire, which were much appreciated by all. A course each of Stedman Triples and Grandsire Caters was rung on the handbells by Messrs. W. E. Garrard, H. G. Miles, W. E. Judd, C. W. Roberts and A. F. Harris.

The members desire to thank Mr. Carter, the Rev. S. A. Spackman, and those who did so much to make this gathering a success.

## MIDLAND COUNTIES ASSOCIATION.

## DERBY DISTRICT AND PROPOSED CHANGES IN RULES.

A meeting of the Derby District was held at Ripley on Saturday, February 28th, members being present from Alvaston, Derby, Duffield, Elvaston, Long Eaton, Ripley and Swanwick. Touches of Grandsire and Stedman Triples, Plain Bob, Kent Treble Bob and Double Norwich Major were brought round during the afternoon.

A business meeting was held in the belfry, presided over by Mr. G. Freebrey, and it was agreed to hold the next meeting at Spondon on March 23rd.

A discussion took place on the proposed new rules, recommended by the Nottingham District. — It was unanimously agreed that these alterations were too drastic, and the secretary was instructed not to support them, but vote for a rule authorising the payment of printing and postage from the general funds for local district meetings, etc.

The Secretary drew the attention of members to 'The Ringing World,' and pointed out the desirability of all ringers subscribing to the paper.—This was supported by Mr. Wallace.

Tea was partaken of in a near-by cafe, after which some of the members left for Ockbrook to ring handbells at a concert, while others returned to the belfry for more ringing, and this brought an enjoyable half-day to a close.

## RINGER'S WEDDING.

On Saturday, February 28th, a touch of 700 changes of Grandsire Triples was rung at Sible Hedingham: H. Wiseman 1, L. Wiseman (conductor) 2, O. Brody 3, F. Wiseman 4, A. Wash 5, C. Barker 6, R. Young 7, W. Cross 8. This was rung immediately after the wedding of Mr. Ronald Rayner, one of the local company. Owing to another service at the church a peal could not be attempted on that day, but an attempt was made on Sunday, March 1st. This, however, came to grief after ringing 2,016 Grandsire Triples, through the conductor missing a bob, and the bells were allowed to run round: L. Wiseman (conductor) 1, B. Pettitt 2, Miss E. Pettitt 3, H. Cooper 4, A. Wash 5, C. Barker 6, S. Wilding 7, W. Cross 8.—For evening service, 504 Grandsire Triples: H. Wiseman 1, R. Rayner 2, L. Wiseman (conductor) 3, F. Wiseman 4, A. Wash 5, B. Pettitt 6, S. Wilding 7, W. Cross 8.

## THE LATE LADY MARY HOWARD.

During the past week, Sheffield lost its first Lady Mayoress, by the death of Lady Mary Howard. Being the late Duke of Norfolk's sister, it fell to her lot to hold the companion office of Lady Mayoress at the time her brother was Mayor of Sheffield, the Duchess having died some time previously. The generous support which the Howard family have given to the Roman Catholic Church of St. Marie's, Norfolk Row, Sheffield, will always be remembered by local ringers, for it was through the instrumentality of the late duke that the very fine peal of eight were erected.

The death of Lady Mary Howard thus severs another link with the past, and as a token of respect, St. Marie's bells were rung muffled for evening service on Sunday last.

## DARTFORD LITTLE BOB MAJOR.

We recorded last week the first peal of Dartford Little Bob Major, and we give below the method and the composition.

**DUMB-BELL APPARATUS.***To the Editor.*

Dear Sir,—Occasionally, in quite unexpected quarters in the realm of literature, one comes across a reference to bell ringing. For instance, there is in that interesting book, 'Here, There, and Everywhere,' by Lord Fredk. Hamilton (who was acquainted with the late Canon Simpson), a lengthy paragraph in appreciation of the 'Simpson' tuning of bells.

My attention has just been called to a chapter in 'Leaves from the notebooks of Lady Dorothy Nevill,' describing Knole, the beautiful treasure house of the Sackvilles, wherein there is an account of a curious dumb-bell apparatus. I quote verbatim:—

'A curious feature of Knole is the attic which for generations has been known as the Dumb-bell Gallery, on account of its containing a quaint wooden machine something like a windless without handles. Around the middle of the roller is wound a rope, and at each end are four irons terminating in a ball of lead. The rope formerly passed through a hole in the floor into a gallery below, and anyone pulling it would cause the roller to revolve and rewind the rope again, giving the person pulling the same exercise as is obtained by ringing a church bell. In the seventeenth century, bell ringing was a very popular pastime, and probably it was about this time that the machine was set up, in order to afford opportunities for silent practice.

'A dumb-bell machine of the same kind, or rather the remains of it, was also in existence up to some few years ago at New College, Oxford—indeed, it may be still there to-day.'

I am wondering whether anyone at Oxford, or in the neighbourhood of Knole, could give any further information as to the dumb-bell apparatus in question, and as to any bellfries where such an apparatus is, or was, installed.—Yours very truly, G. P. BURTON.

**YOUNG RINGER'S DEATH.**

The funeral of Arthur Cooper, who died at the age of 21 years, took place at St. Thomas's Church, Newhey, on Thursday, Feb. 26th. The deceased was a ringer at this church, and a member of the Rochdale Branch of the Lancashire Association, and in the evening, as a last token of respect, a quarter-peal of Grandsire Triples (1,260 changes) was rung with the bells muffled: J. Meadowcroft 1, R. Thompson 2, J. Wood 3, J. L. Rhodes 4, E. Smith 5, C. Dearden 6, C. A. Smith 7, S. S. Pittou 8.

**OXFORD DIOCESAN GUILD.**

The spring meeting of the Newbury Branch took place at Nease-more on Saturday, Feb. 21st. The following towers were represented: Beedon, Brightwalton, Bucklebury, Cheiveley, East Hsley, Newbury, Thatcham and Yattendon, together with the local men.

The Rector (the Rev. C. T. Hayes), who is an honorary member of the Guild, officiated at the service, and gave an address. Tea followed in the Church Room, about 60 sitting down. After tea, the Rev. E. W. Thorp proposed a vote of thanks to the Rector, organist, and the ladies who had so kindly provided the tea.

Bucklebury was chosen for the summer meeting, and a bye-meeting is to be held at Compton on April 24th.

A sum of four guineas was voted to the Brightwalton Bell Fund, and two guineas to the Washbrook Memorial Fund, several companies promising sums of 10s. and upwards in addition.

This concluded the business, and the tower was again visited, ringing being kept up until 8.30.

The methods rung comprised Plain Bob, Grandsire, Stedman and Treble Bob.

A most successful meeting of the East Berks and South Bucks Branch was held at Penn on Saturday last, the methods rung ranging from Grandsire Doubles to London Surprise.

Although only a six-bell tower, a band could have been made up from the attendance for Stedman Cinques or Treble Twelve. An excellent tea was arranged by Mrs. A. W. Randall, some thirty persons doing justice to it. The Master (the Rev. C. W. O. Jenkyn) and the general secretary (Mr. R. T. Hibbert) were present, their support being much appreciated. Ringing was continued until 9 p.m., when a fine 'run down' brought a pleasant meeting to a close.

**SONNING DEANERY BRANCH.**

A combined practice was held at Binfield on February 28th, when 21 members were present from St. Lawrence's, Reading, Wokingham, Easthampstead, Sandhurst, Twyford, Wargrave, Hurst, Waltham St. Lawrence and Binfield. Touches of Stedman, Grandsire, Plain Bob, Oxford and Kent and Cambridge Surprise were rung.

**WINCHESTER.**—On Saturday, Feb. 21st, at the Cathedral, on the back ten, 537 Stedman Caters: E. P. Duffield 1, G. Williams (conductor) 2, G. Pullinger 3, W. Tate 4, R. Paine 5, F. S. Bayley 6, W. Andrews 7, G. Noice 8, J. W. Trappitt, senr., 9, F. W. Rogers 10. Also touches of Bob Royal, Treble Ten and Stedman Triples.

## BELFRY GOSSIP.

The 'gathering of the clans' during last week-end at Birmingham brought together ringers from nearly half the counties of England—at any rate residents in at least seventeen English counties and one Welsh county were present.

The proceedings began, as usual, with ringing and the Henry Johnson Dinner on Saturday, and were continued throughout Sunday. Several of the visitors did not find their way home until Monday.

Mr. Tom Russam, who was present, has not missed a Johnson dinner since the inception, and Mr. A. Padden Smith and Mr. Harry Withers have attended no fewer than 27 without a break.

The death, from pneumonia, is announced of the Rev. C. C. Child, of St. Agnes', Kennington, who was one of the original members of the Oxford University Guild, and rang, we believe, in the Guild's first peal, and was also in the first clerical peal, at Drayton.

At Solihull they have something to Bragg about. Ten close relatives rang a quarter-peal of Grandsire Caters on Sunday evening and seven of the band can boast of the name of Bragg.

The hon. secretary of the Middlesex Association must be very proud of his son and heir. At the age of 14 years, Charles, junior, has scored his first peal, having rung the treble to Grandsire Caters. Congratulations to father and son.

His many friends will regret to hear that Mr. George N. Prier is ill, and his condition is serious.

The great scheme for recasting York Minster bells is progressing, and the old peal have been removed from the tower to the Loughborough Foundry.

A peal of 'Double Bob Royal 10-in' was rung at St. Mary's, Nottingham, on March 7th, 1791. The peal was called by W. D. Crofts, and there were two men on the 9th and two on the tenor. There would be few bands to-day prepared to ring a peal under these conditions.

One of the very earliest long peals, and a truly remarkable performance for those days, was the 12,603 Grandsire Caters at Norwich on March 8th, 1737. It was only in the previous year that the bells had been augmented to ten. The tenor was rung singly by a young ringer for 8,000 changes, and by a second ringer for the rest of the peal, which was completed in 8 hours 15 minutes.

On March 10th, 1784, a peal of 7,008 Oxford Treble Bob Maximus was rung at Southwark in 5 hours 48 minutes by the College Youths.

March 12th is the anniversary of the first peal of Treble Bob Maximus. This was in 1758, and was also rung at Southwark by the College Youths.

## CARLISLE CATHEDRAL BELLS.

### LONG-SILENT PEAL TO BE AUGMENTED.

As a memorial to the late Dean of Carlisle (Dr. Hastings Rashdall) Mrs. Rashdall has generously offered to defray the cost of rehanging and adding to the Cathedral bells, which, except for a doleful ding-dong and a mechanical hymn tune, have been silent for the best part of a century.

The tradition is that the bells were rung last to welcome 'Bonnie Prince Charlie' in 1745, and that, in consequence of this indiscretion the Government forbade them to be rung again. The legend was taken so seriously in 1837 that Queen Victoria wrote to ask Dean Close whether it was because of this supposed embargo that the bells of Carlisle were conspicuously silent at her Jubilee.

The present peal of six, with a tenor of about 20 cwt. is to be increased to eight, and the work is to be carried out by Messrs. Mears and Stainbank.

## J. W. WASHBROOK MEMORIAL FUND.

The treasurer of the above fund, Mr. A. J. Wright, of 40, Harton Road, Reading, has received from various associations, towers and friends the sum of £60, and has the promise of a few pounds more. Whilst thanking all those who have contributed, we must point out that a great deal more is needed before the work can be put in hand, and, therefore, ask all intending subscribers to send their contributions to A. J. Wright and R. T. Hibbert, joint secs.

## INCUMBENTS IN THE BELFRY.

To the Editor.

Dear Sir,—In reference to the above, I should like to point out that our Rector (the Rev. F. R. Bonsey, late President of the Middlesex County Association) rings regularly twice on a Sunday—for morning and evening services—and once a week for practice. He also takes part in any additional ringing that there may be. He is always to be found in the belfry with a smile. He is not only popular amongst his ringers, but also amongst his parishioners generally, especially the sick.—Yours truly,

Wrentham, Suffolk.

# HENRY JOHNSON COMMEMORATION DINNER.

REPRESENTATIVE GATHERING AT BIRMINGHAM.  
SUGGESTED FREEMASONS' LODGE.

Characterised by all the enthusiasm of former years, and given a special interest because it was the first public appearance of the Rector-Designate of Birmingham, the 37th annual Henry Johnson Commemoration Dinner was held at Birmingham on Saturday. Always a great attraction, on account of the extremely friendly atmosphere which pervades the whole proceedings, the gathering this year drew together a company of nearly 170 from all parts of the country. Not only were the visitors from afar welcomed by the members of St. Martin's Guild, under whose auspices the dinner is held, but the utmost cordiality prevailed, and a warm hospitality was found round the festive board, and both in and out of the towers. Ringing took place at St. Martin's, the Cathedral and Bishop Ryder's Church in the afternoon, and at the dinner the chair was taken by Alderman J. S. Pritchett (Presiding Ringing Master of the Guild), the chief guest of the evening being the Rev. Canon S. Guy Rogers (late of West Ham), who was to be inducted three days later as Rector of Birmingham. Among others supporting the chairman were Mr. J. J. Kendall (churchwarden of St. Martin's), the Rev. Canon Blofeld (Vicar of Edghaston), the Rev. Dunn (King's Norton), the Rev. Jenkins (curate of St. Martin's), Mr. P. Yates (Ringing Master, St. Nicholas' Guild, King's Norton), Mr. W. R. Heaton, Mr. J. W. Tiller and Mr. Tunstall (Harborne), Mr. A. Paddon Smith (hon. secretary) and Mrs. Paddon Smith, Mr. A. Walker (Deputy Ringing Master) and Mrs. and Miss Walker, Mr. A. A. Hughes (London), Mr. W. H. Phillips (churchwarden of Aston) and Mrs. Phillips, Mr. J. S. Goldsmith (Woking), etc. The members of the Guild were present in large numbers, and included Messrs. J. H. Shepherd, W. Kent and T. Russam (vice-presidents), C. Dickens (trustee), T. H. Reeves and J. Preston (auditors), Mr. and Mrs. J. E. Groves, Mrs. Russam, Messrs. J. Neal, T. Miller, E. Mansell, H. Withers, P. Luffin, J. George, J. W. Pemberton, etc. Among the visitors were the following: Mr. J. D. Matthews (Master), Mr. J. Sparrow (hon. secretary) and Mr. C. Matthews (Royal Cumberland Youths, London), Mr. and Mrs. R. F. Deal (London), Mr. P. J. Jackson (hon. secretary, Yorkshire Association), Mr. A. E. Sharman (hon. secretary, Beds Association), Mr. A. Payne (Durham and Newcastle Association), Mr. and Mrs. A. J. Hughes (Rhyl), Mr. H. W. Wilde (Pulford, Cheshire), Mr. J. Oldham (representing Messrs. Taylor and Co.), Mr. S. J. Roper (representing Messrs. Gillett and Johnston), Mr. and Mrs. G. H. Robinson, Mr. and Mrs. J. Paget, Mr. and Mrs. S. Dawson, Miss Faulk and Mr. and Mrs. J. F. Smallwood (Derby), Mr. S. F. Palmer (Sheffield), Mr. E. C. Shepherd and Mr. F. Price (Beeston), Mr. and Mrs. W. Thomas, Mr. W. Knight and Mr. J. Burford (Bristol), Mr. T. King (Bath), Mr. J. Ausin (Gloucester), Mr. A. E. Parsons and Mr. Madden (Old Hill), Mr. W. Nevard and Mr. D. Elliott (Essex), Mr. W. J. Hazell (Edmonton), Mr. T. J. Salter (Kidderminster), Mr. F. W. Perrins (Coventry), Mr. W. Saunders (Coalbrookdale), and many others.

Apologies for absence were received from the Rev. J. H. Richards (Colchill), the Rev. T. B. Harvey Brooks, Archdeacon of Aston, the Rev. W. J. Cole (Aston), Mr. H. Buckingham (churchwarden of Aston), Mr. C. F. Johnston (Croydon), Mr. Pryce Taylor (Loughborough), Mr. Harry Mason (Bournemouth), Mr. J. Jagger (Oldbury) and Mr. W. Mead (Clun). A telegram with best wishes for a successful evening was received from Messrs. Cockerell and Rowbottom, of the College Youths. The toast list and programme, prepared by the secretary, was again a happily conceived souvenir of the occasion, containing a photograph of Henry Johnson, and being studded with apt quotations from a variety of sources, which added piquancy to more prosaic items in the menu and toast list.

After an excellently served dinner, the loyal toast was enthusiastically honoured.

Mr. J. J. Kendall proposed the toast of 'Church and State.' It was well to connect the two in one toast, he said, because it would be a fatal day for England if Church and State were separated.

## BIRMINGHAM'S NEW RECTOR.

Canon Guy Rogers had an extremely cordial reception on rising to reply. He said he had really no right to appear there that evening, because as yet he was not their Rector, but he regarded it as a great honour to make his first public appearance in Birmingham in connection with that honourable and famous St. Martin's Guild. He bore from the Essex Association a greeting to them. In the old church at West Ham, from which he had just come, they had a peal of ten bells, and the fame of St. Martin's Guild was well known there, and he was charged to bring them a message of greeting (applause). He regarded himself as extraordinarily fortunate in com-

ing to a church which had such a reputation in the bell ringing world as St. Martin's, Birmingham, and, therefore, he was proud to be associated with them that night. One of his old ringers had said to him in a humorous way that he was one of the people who made a noise up aloft. He (the speaker) thought he might add to that, that he (Canon Rogers) was one of those who made a noise down below (laughter). They up aloft with the bells, if they did their part in the right spirit, helped people towards a sense of worship and an understanding that religion counted for something in the world, just as much as he did who tried to preach the gospel of Jesus Christ down below. He rejoiced that they were associated in this splendid work, not only in making religion the common possession of the people of England, but trying to present it to them in an attractive way as well. He supposed there were occasions when the Church and State had sometimes been presented to the world in a somewhat sinister connection, but when they thought of the real meaning of that toast they all agreed it was worth while proposing, and that it was an honour to respond to it. It meant that they, the people of this country, could not really do their best, or be their best apart from religion, and they were rendering a service to this country in making the religion of Jesus Christ known and felt to its uttermost borders. He supposed there were three things people asked of religion. One was that it should give them a reasonable answer to the riddle of existence; secondly, that it should set before them a moral standard; and, thirdly, that it should give them power to perform it. They all needed an answer to the questions where they had come from and where they were going to, and what was the meaning of life, and he believed their religion supplied that answer. He believed if they were to pull down all the churches of this country, a demand would presently arise to rebuild them, because man needed religion, and because he must have an answer to the riddle of existence. And they must have an answer to the question, 'What is the moral standard to which they should live up?' Religion supplied them with that standard; it was a standard which had not varied from generation to generation, and it set before them the standard to which all men in all time should approximate. It also supplied them with the power to perform their duty. It was not merely for the clergyman to do his duty in this matter, but for all of them to join together in this great profession of making religion a real living thing. It depended on the bell ringers of Birmingham, as well as the clergy, and it was only when the clergy and laity were joined in one great force and made the Gospel of Jesus Christ a reality that the Church and State could fulfil their proper function and bring in the Kingdom of God (applause).

Mr. T. J. Bratton was entrusted with the toast of 'The Immortal Memory of Henry Johnson.' He said he first made the acquaintance of Henry Johnson just fifty years ago, when the Birmingham worthy brought a band to Shrewsbury, where he (the speaker) was living. It was this acquaintance with Mr. Johnson and the Birmingham men which became the inspiration of what he was able to do later in Shrewsbury and Welshpool, just in the same way as acquaintance with Mr. Johnson became the inspiration of many another man. Henry Johnson had the privilege of living in the mid-Victorian age, which was the finest period the world had ever seen. He was a genius of his day, and he left many beautiful compositions behind him. That gathering was, as it were, the ashes of Henry Johnson, and his memory was embalmed with them, and would ever remain.

The toast was drunk in silence, and afterwards three leads of Treble Rob Fourteen were rung by Messrs. T. Russam, A. Walker, P. Luffin, G. F. Swann, J. E. Groves, A. E. Norman and M. J. Morris.

## REVIEW OF THE YEAR.

The Chairman then submitted 'Continued Prosperity to St. Martin's Guild.' He was happy, he said, for the first time for many years to say that their ranks had not been thinned by death in a single instance, but they lamented the absence from that gathering of their old friend, Mr. W. Rock Small. He was now 85 years of age, but, he was pleased to say, was in better health at the present time than he had been for the past two years. Mr. John Buffery, now the 'father' of the Guild, was also prevented by ill-health and infirmity from being present, and Mr. John Carter had also written to say he would be present with them in spirit, but on account of his infirmity he could not join them. He hoped their secretary would write to these three gentlemen and inform them that they

were in the thoughts of all present that evening (hear, hear). He was very pleased to see that they had such a magnificent gathering that night, and that they had with them many distinguished guests. One especially he would like to mention, because of the remarkable performance in which she had recently taken part, when she rang in a peal of Cambridge Surprise Maximus; a performance that marked her as one of the most distinguished campanologists in this country; he referred to Mrs. Dick Deal (applause). The past year had been a most successful one for the Guild. From the report of his deputy, Mr. Albert Walker, he found that they had rung 39 peals, 32 in the tower, and seven on handbells. Amongst the most notable of these was a peal at Lichfield Cathedral, on one of the rare occasions when a peal was allowed, this being to celebrate the jubilee as a ringer at the Cathedral of Mr. Fred Cope. Then there was the splendid peal of Stedman Cinques at Exeter Cathedral, on the famous ring with its 72½ cwt. tenor, the first peal rung on these twelve bells. Congratulations on this peal came in from all parts of the country, and the members of the Guild would be glad to know that the magnificent performance was to be properly commemorated by a suitable tablet, by permission of the Dean and Chapter. Then there was the successful twelve-bell week, when peals were rung at Leicester, Birmingham, West Bromwich, Painswick and Cirencester, the only failure being at Wolverhampton, where a rope broke. This tour enabled members of the Guild residing outside Birmingham to meet and ring peals in towers other than St. Martin's. It was also interesting to know that the peal rung during that week at St. Martin's was the 200th peal on the bells, and they had in their peal books a complete record of every peal from the year 1755 down to the present day (hear, hear). In November, by kind invitation of the Vicar of Cheltenham, the Guild visited the Parish Church, and rang the first peal of Stedman Cinques on Cheltenham bells. There had been, continued the speaker, a very fair attendance on practice nights, but it might have been better. The service ringing had been splendidly maintained throughout the year, and the ringers in May last broadcast three courses of Stedman Cinques, the first time that bells rung in changes had ever been heard by wireless. The experiment was most successful, and only on the preceding Sunday a similar experiment was carried out from St. Philip's Church, when a touch of Stedman Caters was broadcast. Proceeding, Alderman Pritchett said he desired to mention the splendid services rendered to the Guild by his Deputy, Mr. Albert Walker (applause). As presiding Ringing Master he shone by Mr. Walker's reflected glory (laughter). It was he who, with the secretary, kept the Guild together (applause). On behalf of the Guild, Mr. Walker had attended dinners at Bristol, York and London, and he would like to add, that he (the speaker) attended the College Youths' Dinner, and on that occasion celebrated the 50th anniversary of his membership (applause).

#### SUGGESTED RINGERS' LODGE OF FREEMASONS.

There was an attempt to ring a Masonic peal on the 27th December, when eleven ringers, who were also Freemasons, came from all parts of England, only to meet with disappointment, through the failure of the twelfth man to reach Birmingham. Disappointments were not rare in ringing, and he never knew disappointment in one or two instances to prevent success at last, and he was quite certain that there would be the first Masonic peal of Cinques rung at St. Martin's Church in that town (applause). And while he mentioned Freemasonry and ringing, he would like to see a Freemasons' Lodge of ringers established in London, the qualification being that every member must have rung a peal. He had no doubt if such a lodge were started there would be a very large number of country members who would join it. Continuing, Alderman Pritchett said the continued prosperity of that Guild depended largely on Mr. Walker, the Deputy Ringing Master, and still more largely on Mr. Smith, their indefatigable secretary (applause). No words could express the value of their services, and were he to do them justice it might seem fulsome exaggeration to those who did not know them as well as the members of the Guild did (applause).

The toast was coupled with the name of Mr. A. Paddon Smith, whose health was drunk with musical honours.

Mr. Paddon Smith, in responding, said he would like to take that, the earliest opportunity he had had, of saying how exceedingly proud they were to have the Rector-to-be of Birmingham with them. They were exceedingly fortunate to have him with them, and he had done that old Guild the greatest honour (applause). However many dinners he attended in the future it could not mean so much to them as having him there with them that night (applause). And after all it was not inappropriate that the Rector should come first among the ringers in entering his new parish, for on approaching the church the first thing one saw was the spire, the first thing one heard was the bells, that was, if they were in time (laughter), and the first people to greet the Rector were the ringers, and it was in accordance with the fitness of things, therefore, that the ringers should be the first of all his new organisations to welcome him to the great

city of Birmingham on his first public appearance (applause). If the Rector held any wrong ideas with regard to ringers and ringing, that gathering might help to remove some of the reproaches with which they had been saddled for generations by ignorant people (hear, hear). They had some eminent clergy present, and he would like to take that opportunity of submitting, with all due deference, that the time had come when they should cease to stress the point that the ringers' task was to call the people to church. Whatever case there was in the past for holding that view, he contended it had entirely disappeared in these days of universal clocks and watches. They ought to regard ringing, and especially ringing on Sunday before the services, as a great act of praise and thanksgiving (hear, hear), frequently the greatest act of praise performed at the church on a Sunday morning, and far transcending the sermon in importance (laughter). The Rector had already referred to them as the people who made the noise up aloft, and that was not a bad idea, for the voice of the bells reached out in the open spaces and the sunless slums, they reached out to many places where the preacher's voice could never reach. There were people who would not come to hear the preacher, but unless they moved—and there were certain difficulties about moving in these days—they had got to hear the bells (laughter). He considered in this matter that they were carrying out the Psalmist's injunction to 'Praise Him on the loud cymbals; praise Him on the well-tuned cymbals.' The bells were the cymbals, and it was up to the parsons to see that they were well-tuned. At King's Norton they had lately taken a great step, and had indeed got well-tuned cymbals (hear, hear). They had an excellent band of ringers to ring them, but, unfortunately, they had only eight bells. He hoped before long they would find them turned into an equally splendid peal of ten (applause).

A course of Stedman Cinques was rung by Messrs. Laffin, Swann, Walker, Smallwood, Norman and Withers, and the Chairman then announced that the 115th anniversary of the birth of Henry Johnson had been celebrated that day by a peal of London Surprise Major rung at Bishop Ryder's Church.

Mr. Albert Walker proposed 'The Visitors,' and remarked that they had the support that evening of friends from the College Youths, the Cumberland Youths, the Surrey Association, the Gloucester and Bristol Association, the Durham and Newcastle Association, the Chester Diocesan Guild, the Lancashire Association, the Midland Counties Association, the Shropshire Guild, the North Wales, the Bath and Wells, the Essex, the Bedfordshire, the Herts, the Yorkshire, the Worcestershire, and other Associations, they had also with them representatives of the great foundries at Whitechapel, Loughborough and Croydon, and to all the visitors they extended a hearty welcome. They missed one or two faces from among visitors of past years, notably Mr. Ted Horrex, who was 87 that day, Mr. John Carter and Mr. Harry Chapman, of Manchester, who were prevented from attending by indisposition. They were always glad to welcome visitors to Birmingham, and he hoped that those who were with them that evening would join them on many future occasions (applause).

Mr. A. A. Hughes first responded, and expressed the appreciation of the visitors of the kindness shown to them at Birmingham on that and many similar occasions. At the meeting of the College Youths on the preceding Tuesday evening he was requested to convey the hearty greetings of that society to all their friends at Birmingham, and he wished, on behalf of all the visitors, to thank St. Martin's Guild for their most cordial welcome.

#### A STORY OF JASPER SNOWDON.

Mr. P. J. Johnson, referring to an injunction by the chairman at the outset of the proceedings that speeches were not to exceed five minutes each, said he was reminded of a perfectly authentic story told in connection with a great Yorkshire ringer—the founder of their association. He was a man of indomitable energy, and was not particularly patient when he had to listen to long sermons. His father was Vicar of Ilkley, and one Sunday morning, when he was preaching, the son, who was in the congregation, pulled out his watch and looked at it with some sign of impatience. To the astonishment of everyone the preacher leaned over from the pulpit, and said, 'All right, Jasper, I shan't be long now' (laughter). The Chairman, continued Mr. Johnson, had said that he lived in the reflected glory of his Deputy Ringing Master. He thought many of the visitors to Birmingham lived in the reflected glory of the Deputy Ringing Master, so far as ringing achievements were concerned. He personally was indebted to the Guild for carrying a distinctly raw novice through certain handbell peals, which he was certain the other ringers would remember if he did not (laughter). He believed he was correct in saying that the Yorkshire Association was the oldest of the county associations in the country, and he felt it a compliment to his own association to be asked to respond to that toast on behalf of the visitors, because they felt they had in their own founder a man than whom the Exercise had never known a greater, and they were conferring honour on the name of Snowdon in coming to pay tribute to one of his great predecessors in the art of change ringing. He thanked them most heartily for the welcome extended

to the visitors, and he could assure them that, whether they liked it or not, he intended to come to those gatherings as long as he was able (laughter and applause).

Mr. T. H. Reeves proposed the toast of 'The Ringing World.' He said the ordinary Press was lamentably ignorant on ringing matters, and it was, therefore, essential that the Exercise should have its own paper. They had that paper in 'The Ringing World,' and every ringer should support it, because the better it was supported the more it would increase in value and interest. Referring to the controversies which took place in the columns of the paper between the experts, he suggested that it would be far better if the experts would conduct their arguments through the post, because much of what they had to say did not interest the ordinary ringer.

Mr. J. S. Goldsmith, whose name was coupled with the toast, alluding to the experts' controversies, pointed out that there was also another side to the one put by the proposer. While the experts might never agree on some subjects, the publication of their views led others to think over these more advanced matters for themselves, and eventually to profit from what they had read. In this respect it enabled progress to be made, which could not be so general if the experts had to limit themselves to the post.

#### CHAIRMAN'S MANY-SIDED ACTIVITIES.

Mr. Paddon Smith submitted the 'Health of the Chairman,' and referred to the many departments in life, apart from ringing, in which Alderman Pritchett achieved fame, notably in Freemasonry, in civic affairs, and in the law. It was true, he said, that their chairman had not yet been Lord Mayor of Birmingham, but the Lord Mayor had to do what Alderman Pritchett told him (laughter). He was the honoured Presiding Ringing Master of their Guild, and he (the speaker) realised that there was nothing further that they could offer him, unless he could become the Lord Bishop of Birmingham (laughter). So long, however, as he was prepared to accept the office which he now held they desired no other occupant (hear, hear). He had not only the confidence and esteem, but the love of every member of the Guild, and the Guild was honoured in having at its head such an honoured and highly placed gentleman (applause).

The Chairman, in replying to the toast, which was enthusiastically received, said the Guild had conferred on him the highest possible honour in making him their Presiding Ringing Master. It was one of the proudest things of his life to have held that position. He had had a long life, a healthful life, and a pleasurable life, and one of the greatest pleasures in his long life had been his association with bells and bell ringing (applause). In conclusion, the Chairman thanked the artists, Mr. Tom Davies and Mr. Dai Thomas, and the St. Martin's Quartette for their delightful entertainment, which had been appreciated and enjoyed by everyone.

The two first named contributed songs and duets, and the latter sang a number of quartettes, in which their well-balanced voices were heard to perfection.

Mrs. Tom Davis was the accompanist.

#### WINCHESTER DIOCESAN GUILD.

On Saturday, Feb. 28th, a very successful meeting of the Yorktown District was held at Ottershaw, and there was a very good attendance of members from the various towers in the district—a great improvement on some past meetings. Ringing commenced at three o'clock, and various methods were rung, both before and after the service and meeting, ranging from Grandsire Doubles to Cambridge Surprise Minor.

The Vicar (the Rev. G. S. Richards) conducted the service, and attended the tea, but was unable to stay to the business meeting.

The Ringing Master (Mr. H. J. Chaffoy) was elected to the chair, and was supported by Mr. G. Atfield, Vicar's warden.

Two new members were elected, and it was proposed to hold a combined service at Pirbright in March, and Chobham or Bagshot in April.

A vote of thanks was accorded to the Vicar for granting permission to hold the meeting, and for conducting the Guild's service; also to Mr. G. Atfield for having the bells in readiness, and for making the necessary arrangements for the tea.

**TOTTENHAM.**—At All Hallows', on Sunday evening, Feb. 22nd, a quarter-peal of Grandsire Triples: W. Dickinson 1, H. A. Barnett 2, W. J. Ellis 3, S. W. Crabbs 4, H. W. H. Strickland 5, H. Ellis 6, C. A. Button (conductor) 7, E. A. Hull 8.

**COLESHILL.**—On Sunday, January 11th, for evensong, a quarter-peal of Bob Triples, in 45 mins.: F. Clayton (conductor) 1, T. Davis 2, E. Morris (first quarter inside) 3, J. Field 4, T. Goldby 5, G. Dale 6, G. Davis 7, W. Simmonds 8.—For evening service, on January 18th, another, in 42 mins.: Miss E. Morris 1, F. Clayton (conductor) 3, rest as before. Also 120 Stedman Doubles. First 120 by T. Davis and E. Morris.

#### SURREY ASSOCIATION.

##### THE ANNUAL MEETING.

The annual meeting of the Surrey Association was held at Leatherhead on Saturday, when about 40 members were present from all parts of the district. The business meeting was presided over by Mr. Chas. R. Reading, of Christ Church, Mitcham, while all the secretaries were present.

Mrs. Hobson, wife of the Vicar of Leatherhead, looked in at the meeting, and tendered her husband's apologies for his absence, which was in consequence of his being called to Winchester. — A vote of thanks was accorded the Vicar for the use of the bells, and Mrs. Hobson was asked to convey this to him.

The place of the next annual meeting was fixed for St. Peter's, South Croydon, in January next.

Mr. J. D. Drewett wrote tendering his resignation as Ringing Master, on the grounds of illness, but the members felt Mr. Drewett had so long been connected with the association, and had so endeared himself to them, that they much preferred his remaining master, even if the position was only held nominally, and, therefore, he and all the other officers were re-elected for the year.

A hearty vote of thanks was accorded Mr. Arthur Dean for arranging the tea and obtaining the use of the bells. Ringing commenced at 3 o'clock, and continued until late in the evening, touches in various methods from Cambridge Royal downwards being rung.

#### CHESTER DIOCESAN GUILD.

##### STOCKPORT BRANCH ANNUAL MEETING.

Cheadle was the venue of the Stockport Branch annual meeting on Saturday, February 21st, and as usual there was a good attendance. The Parish Church, dedicated to St. Mary, is a typical old Cheshire Church, a good photograph of which appears in the Rev. F. E. Robinson's book, 'Among the Bells' (page 496). Ringing is performed on the ground floor, consequently there is a long draught, which is a source of difficulty to visitors at first. The back six bells were cast by Abel Rudhall in 1749, with a tenor of 13½ cwt. In 1882, two trebles were added by Messrs. J. Taylor and Co. These were requisitioned in good time, and kept going until 4.30 p.m., when service was held. This was conducted by the Rector (the Rev. W. Brown Pollock), who gave an excellent address.

Tea was provided at the Parish Hall, and no trouble or pains had been spared in making provision for the visitors. There were fifty members present, and the Rector joined the party at tea, but, as he was unable to stay through the business meeting, he was accorded a cordial vote of thanks, and to this he made a hearty reply.

The Hon. Secretary reported the deaths of Mr. Joshua Howcroft, of Hyde, and Mr. Joseph Brockellhurst, of Hayfield, and intimated that he had sent letters of condolence to the relatives. His action was confirmed, and it was decided to place on record the sending of these letters.

In presenting his annual report, the Hon. Secretary commented on the lack of interest displayed, and appealed for a little more 'ginger' to be administered. Five meetings had been held during 1924, at which the average attendance was 35, a decrease of five on the previous year. The membership totals at the end of the year were: 20 honorary and 168 ringing members, two honorary and 10 ringing members having been elected during the year. Only six peals had been rung, four of which were Minor, one Double Norwich Major, and the other Kent Treble Bob Major.

The Hon. Treasurer reported that, including the balance in hand of £3 16s. 1d. at the commencement of the year, the total receipts were £25 13s. 0½d., and after meeting all expenses there was a balance on the right side of £5 9s. 7½d., which was very satisfactory. There were, however, a number of subscriptions outstanding, and it was hoped these would soon be forthcoming.

The reports were accepted, and all retiring officers were re-elected.

After much discussion, it was again decided to arrange the places and dates of the meetings for the year, and the following were fixed, subject to the approval of the respective authorities: Business meetings: Warburton, May 9th; Marple, July 25th; Disley, Sept. 19th; and Stalybridge (H.T.), November 28th. In addition, there will be a special practice meeting at Taxal on June 27th. These will be duly advertised as they fall due.

The following motion was passed for consideration at the next general committee meeting: 'That the annual festival of the Guild shall be held in each branch area in turn.'

Pleasure was expressed at having the company of the general secretary, Mr. E. W. Elwell, who, since his appointment, has lost no time in getting thoroughly conversant with the doings of each branch.

Seven new ringing members were elected, and arrangements for reviving the quarterly peal attempts were left in the hands of Mr. T. Wilde and the branch secretary.

The usual votes of thanks closed the meeting, when the bells were again requisitioned.

Park (conductor) 6. \* First 720 in the method.

## THE LATE MR. CHARLES GILES.

## AN APPRECIATION.

It was with great sorrow that all who knew him learned that 'Charlie' Giles—as he was familiarly called—had passed away on Sunday, February 8th. Never very robust, he had been in a weak state of health for over a year, and had to take ringing and other things much easier than before. It was hoped that with care his life might be prolonged for some considerable time, but it was not to be. He contracted a chill which developed seriously, and after keeping to his bed for a day or two the end came quite suddenly.

Mr. Giles had been attached to one or other of the Reading towers during all his ringing career, but he was last and longest at St. Mary's, where he took the greater share of the conducting. His first peal was in 1892 (Grandsire Triples, conducted by F. Hopgood). Others soon followed, and included a non-conducted of Stedman Triples, and several in the most popular Surprise methods. Besides ringing many for the Oxford Guild, he also took part in a good number with his Winchester Guild friends, especially in those Winchester tours which the late Rev. F. E. Robinson so much enjoyed. On one of these tours, he took part in the first peal of Stedman Caters in Hampshire.

He was one who, to use St. Paul's words, 'studied to be quiet, and to do his own business,' and as such was always welcomed, whether as a member of a company or as a ringer in a touch or peal. With him in the band a conductor would feel that, no matter what the method or the length, there would be at least one who would really ring the method and the bell throughout, who would be able to help the wanderer, and in the case of a breakdown would be able to point out the mistake with accuracy.

He leaves a wife and daughter to mourn his loss, and to them is offered the true sympathy of his many ringing friends.

## GLOSSOP &amp; DISTRICT ASSOCIATION.

The annual dinner of the Glossop and District Association took place at the Crown Hotel, Glossop, on Saturday, Feb. 7th, when a large company of ringers and several visitors, among whom were Mr. J. W. Pemberton, of Erdington, Birmingham, a native of the town, and a former member of the parish church service ringers, Mr. H. Davis and Mr. S. Greenhaigh, of Manchester, were present.

After the dinner, the Rev. F. Whalley presided, supported by the Rev. H. Lawrance, M.A., Vicar of Dinting, Alderman J. Malkin, J.P., Major F. H. Morris, O.B.E., Mr. T. Beardwood, Mr. C. H. Woodward, and Mr. W. A. Atkinson.

Good vocal and other music flowed freely during the evening, the chief contributors being a quartette party of the Whitfield Church choir, with Mr. R. Malkin, who performed skilfully at the piano.

The Chairman expressed his great pleasure at presiding over the gathering, and submitted the toast of 'The King,' which was honoured in loyal manner.

Other toasts which followed included 'The Glossop Change Ringers' Association,' proposed by Major F. H. Morris, and responded to by Mr. J. Neal, the respected hon. secretary of the association.

## DEATH OF A BOTTESFORD VETERAN.

On Sunday, February 22nd, there passed to his rest one of Bottesford's stalwarts, in the person of Mr. Thomas Rawdin, who had been a member of St. Mary's Belfry for 50 years, although he retired from active ringing about five years ago, on account of his advanced age. Deceased, who was 78, was a regular and consistent Sunday Service ringer, as well as at practice (a fine example for all to follow). Although he never mastered the inside work of change ringing he was a very good treble man, and had the honour of ringing the first peal on the bells by the local hand about 14 years ago, that being his only peal. He was a member of the choir for 46 years.

The deceased was buried on Wednesday, Feb. 25th, close to the church he loved so well, the service being conducted by the Rector (the Rev. F. Walford).

In the evening, as a last tribute of respect, the bells were rung half-muffled, when a quarter-peal of Grandsire Triples (his favourite method) was brought round in 49 mins.: C. Hallam 1, M. Bend 2, C. H. Jallands 3, C. Briggs 4, S. Proctor 5, A. W. Ward 6, J. W. Kirtou (conductor) 7, J. H. Branston 8. First quarter-peal of Triples by C. H. Jallands, who is the youngest Bottesford ringer to score a quarter-peal.

### SUSSEX COUNTY ASSOCIATION. WESTERN DIVISION AT PETWORTH.

The annual meeting of the Western Division of the Sussex Association was held at Petworth on Saturday, Feb. 21st, when 30 members attended by motors, cycles, etc., from Brighton, Heene, West Tarring, Shoreham, Hunfield, Pulborough, Billingshurst, Kirdford, Arundel and Lymington. Ringing began with Stedman Triples, and ranged up to Cambridge Surprise Major. A meat tea was enjoyed, Mr. Knight, the local secretary, being the caterer.

At the business meeting, with the Master of the Association (Mr. J. T. Rickman) presiding, 15 new members were elected.

Mr. A. W. Groves was again elected as secretary, Messrs. Doick, Challen and Lindup were appointed on the committee, with Messrs. Charman, Burdfield and Burtenshaw as the Committee of Advice.

It was proposed to hold the next meeting in May, at Walberton.

After votes of thanks to the Rector of Petworth for the use of the bells; to Mr. J. T. Rickman for presiding also to Mr. Knight for making the local arrangements for the meeting, the members again made their way to the belfry, and the bells were kept going to 7.30.

Petworth now possesses one of the best peals in Sussex, and Messrs. Gillett and Johnston are to be congratulated on the excellent 'go' of the bells.

### HEREFORD DIOCESAN GUILD.

The annual meeting of the Hereford District was held at Hereford on February 21st. During the day the members made use of the bells at the Cathedral, All Saints' and St. Nicholas' Churches. A service was held in the afternoon, and an excellent address given by the Rev. H. W. Hill, who also presided over the subsequent meeting. He was supported by the Very Rev. R. Waterfield, D.D., Dean of Hereford, Miss M. Bull, the Rev. G. W. Turner, the Rev. J. Dent, and Mr. C. Edwards (secretary). The following towers were also represented: Madeley, Tyberton, Kingstone, Allensmore, Much Dewchurch, St. Nicholas, Cathedral and All Saints' (Hereford), Burg-ill, Wellington, Withington, Lugwardine, Hampton Bishop, Holme Lacy, Bodenham, Clifford, Talgarth, Bedwelty and Ross.

In the course of his report, the Secretary stated that the year was started with a balance of £5 5s. 11d., and finished with £7 15s. 9d. in hand. The membership had decreased by four, but they had now three lady hon. members in the district. Excellent progress had been made in change ringing, although the number of peals rung was not so great as last year. He wished particularly to thank the Rev. K. O'Neil, the Rev. Brooke-Bradely and the Rev. J. Dent for the kindness they had shown the ringers during the year, also the clergy as a whole for the use of the bells at various combined practices.

The Dean proposed, and Mr. C. Sparkes seconded, that the balance sheet be adopted.

Mr. Edwards intimated that as he had now been made Master of the Guild he wished to be relieved of his office as secretary. Mr. A. Gwynne was elected as his successor.

Mr. C. Edwards was elected hon. treasurer; Mr. W. Taylor and Mr. G. Taysom were again elected Ringing Master and Assistant Ringing Master, respectively.

It was decided to hold quarterly meetings at Woolhope, May; Withington, August; and Madeley, November.

### RINGER'S WEDDING AT BONVILSTON.

On Saturday, February 21st, a pretty wedding was solemnised at St. Mary's Church, Bonvilston, South Wales, by the Rev. G. Thomas, Vicar of the parish. The bridegroom was Mr. Alfred Hannington, one of the local ringers, and the bride, Miss Ada Caroline Thomas. The bride, who was given away by Mr. E. Thomas, leader of the local band of ringers, was attired in a navy blue costume, grey hat and grey fox fur. She was attended by Miss Muriel Kellow as bridesmaid. Mr. John Hannington, brother of the bridegroom, acted as best man.

The reception was held at Bonvilston Cottage, kindly given by Mrs. L. G. Williams, and about 30 guests were entertained. After the reception, the happy couple left for Burnham-on-Sea, where the honeymoon was spent.

The bells were rung in the evening by the local band, in honour of the event. The ringers presented the bridegroom with a silver tea-pot as an appreciation of his regular and faithful service as a ringer, and with best wishes for a long and happy married life.

At Farnham, Surrey, on January 24th, at St. Andrew's Church, on the occasion of the wedding of Miss Dorothy Davies and Mr. Humphrey Tanner, a quarter-peal of Grandsire Triples (1,260 changes), in 48 mins.: J. Read 1, C. Wells 2, S. Meadows 3, H. Prior 4, F. Clapshaw 5, T. Upshall 6, R. Hasted (composer and conductor) 7, A. E. King 8.—Later in the day at the time the happy couple left for their honeymoon, 657 Grandsire Triples: J. Read 1, C. Wells 2, S. Meadows 3, A. J. Le Clercq 4, H. Prior 5, T. Upshall 6, R. Hasted (conductor) 7, A. E. King 8.

### SALISBURY DIOCESAN GUILD.—Devizes Branch.

#### THE LEISTON RECORD.

The record set up at Leiston Church, where one hundred peals in Surprise methods have just been completed, is a noteworthy thing. We have no information of so many Surprise peals being rung in any other tower, and we imagine this must be unique, although one or two places occur to mind where possibly, if the records were searched, it might be found that such a number had been rung. But such a list requires years of steady and persistent peal ringing, and we are really doubtful if any other tower can claim a similar performance. Of one thing, however, we feel quite certain, no other tower can claim peals in such a variety of Surprise Major methods, for the century at Leiston was made up of no fewer than thirteen different methods, and, when one thinks of it, this is really a remarkable achievement and is another to add to the records which this band can claim.

Leiston has been fortunate in being able to maintain for a long period a band of able and enterprising ringers, of which the backbone has been the brothers Bailey. What has been done by this band is something more than the ringing of a considerable number of peals; they have shown that on eight bells, as on six, ringers can introduce extensive variety into what they practice. As we have often remarked before, it is really surprising how little ringers go outside the common track to find diversity in the art. It is not that other methods are not worth ringing—there are many that are—but even Surprise bands who are regularly practicing together seldom get away from what one may be excused for calling the 'big four' of the Surprise category. These four methods are so well established among ringers that their claims to first consideration are unlikely to be displaced, but where there are opportunities for introducing variety we should like to see the ringers show a somewhat more enterprising spirit.

Although these remarks are prompted by what has been done in Surprise ringing at Leiston, they apply equally to ringing in less difficult methods. As we pointed out only a few weeks ago, there is an interesting series of plain Major methods for those who can ring Double Norwich; indeed the group which has been put into practice at Willesden forms an easy stairway from Plain Bob upward, and those who really take a delight in their ringing should apply themselves to these methods. Not so easy, but even more interesting, are some of those rather complicated odd-bell methods evolved from Stedman and Erin by Mr. J. W. Parker. We still await the performance of a peal in one of these methods, which in their complexity look worthy of the time and attention of the most advanced ringers. They form a new world to be conquered, and the first to conquer it will have gone a step beyond their fellows.

STOKE-ON-TRENT ASSOCIATION.

PRESENTATION TO LADY RINGER AT BUCKNALL.

On Saturday, March 7th, the monthly meeting of the above association was held at Bucknall. This village being easy of access for members of surrounding towers, coupled with the fact that it is the home of Minor ringing in North Staffordshire, upwards of fifty members were present, from Kingsley, Biddulph, Newcastle, Stoke, Audley, Burslem, Norton and Cheddle, while visitors from the neighbouring county of Cheshire, representing Crewe, Wistaston and Norbury, also attended. Ringing began at 2.45 by the early arrivals. A short service was held at 5 o'clock, when an address (limited to five minutes) was given by the Rev. — Sinister, who said it was the first time he had been in the company of ringers. There was one thing which had impressed him very forcibly, and that was the great enthusiasm and keenness which seemed to prevail amongst the ringers present. That was the spirit that was wanted in the life of the church generally. Whatever work was taken up it ought to be done with heart and soul, such as he had witnessed in the belfry that afternoon. Although the preacher's time was so limited, every word was pregnant with meaning, and was enjoyed by every one present.

After the service the church day schools were visited and a splendid tea, provided by the ringers' wives, was in readiness.

After tea, a large framed photograph of the Bucknall ringers was presented to one of the lady ringers of the band, Mrs. W. Clarkson (nee Miss Alice Wheeldon) on the occasion of her recent marriage.

The Rector said he was delighted to make the presentation, as both Mr. and Mrs. Clarkson were both good church workers. He had seen them both grow up in the service of the church; he had had the pleasure of marrying them in their own place of worship, and he wished them both every happiness and prosperity (applause).

Mrs. Clarkson thanked the ringers for their beautiful present which she and her husband would prize very much. Her household duties would now claim most of her time, but if they would allow her and her husband to join them on some of their outings, which she had always enjoyed, she would be pleased to do so.

Mr. John Fenton (Rector's warden) and a great benefactor of the church, also spoke in eulogistic terms of the work done by Mr. and Mrs. Clarkson.

Ringings was afterwards kept up until 9 o'clock, when a very successful meeting came to a close.

DARTFORD LITTLE BOB MAJOR.

To the Editor.

Dear Sir,—Allow me to point out that the above method is asymmetrical, and, therefore, illegitimate, according to the ruling of the Legitimate Methods Committee. It is all the more remarkable, therefore, that one of the Legitimate Methods Committee should have taken part in the peal.

A glance at a diagram of the method proves the statement, and further proof can be had by proving the method by reciprocal proof, which discloses two false rows, i.e., 14628375 and 14326587.

A symmetrical method will never have more than one false row when proved by reciprocal proof, i.e., the lead-end.—Yours, etc.,

## MEDIÆVAL BELLS.

To the Editor.

Sir.—We have been interested lately in claims to the possession of ancient bells. It began with the report of the dedication at Eythorne, wherein it was asked, with justifiable pride regarding the two ancient bells in that tower, if any other church possessed two bells which had never been recast of earlier dates.

Our Eythorne friend, in giving details of the inscriptions, says: 'The inscriptions on the bells are as follows':—

4th.—SANCTA: KATHERINA: ORA: PRO: NOBIS.' W. JORDAN, 1470.

Tenor.—'NOMEN: MAGDALENA: CAMPANA.' W. JORDAN, 1470.

The invocatory character of the 4th inscription is in perfect keeping with the period, so is also the inscription on the tenor. One would assume that the latter was at its dedication given the name of the patronal saint, to which the church is dedicated?

Doubt, however, exists in my mind concerning the founder's name and date being inscribed on the bells. It is possible, but very improbable, when we consider the period. Perhaps your Eythorne correspondent will make that point clear, as it is of great importance to anyone who indulges in 'bell hunting'; possibly that information was collated from a documentary record or source.

In 'The Ringing World' of December 26th last, Mr. J. R. Jerram gave us an excellent account of the Croyland bells. The tenor being of greatest interest, bears the imprint of the royal founder, John Danyell, i.e., the royal arms quarterly England and France, crowned.

Now, sir, John Danyell was founding c. 1450—1460? And two of his bells hang in the steeple at Whiston, near Rotherham. They bear on the waist the shield Mr. Jerram describes, but neither of these shields are crowned—Danyell did occasionally omit that detail—the cross stops are Fleury, and not the medallion stamp as on the Croyland tenor.

The bells are respectively inscribed, and spliced into the peal of eight, as the

3rd.—'SANCTE: PETRE: ORA: PRO: NOBIS.'

4th.—'VOX: AGUETINI: SONET: IN: AURE: DEI.'

The capitals are Lombardic, and the smalls of black-letter type.

Let us then assume that Danyell cast the Whiston bells at the 'big' end of his career, they will be at least a decade earlier than the Eythorne bells. Not much, I agree, but it's there.

Now, let us just take a peep at the inscriptions, which are to be found on the first and second bells in the tower of St. Matthew's, Morley, near Derby. Ah! there they are, look! at the elegant Old English type on the

Treble.—'X: ORA: PRO: NOBIS: BEATE: ANDREA:

Now, here we have highly ornamental Lombardic capitals forming the whole of the inscription on the

Second.—'X: I.H.C.: NAZARENUS: REX: JUDEORUM.'

Oh yes, they both came from the hands of the same founder. See the quaint fleury stop, following the word 'PRO' on the treble, and here again it is reproduced on the second bell following the sacred monogram, and once again it follows the word Ring (REX).

But what about the date of founding? That is to be arrived at partly by the Old English on the treble, which proves that they were not cast before 1400. See, the tenor has unfortunately been recast in the year 1614 by Oldfield, of Notts. What a pity! what a pity!

Now, let us get down into the church again from amid the dirt and grime of past centuries. . . . Eh, guide, just sniff! What a strong perfume of paraffin! Ah! that reminds me, keep clear of the 'meter'! it's at the bottom of the tower steps.

Come this way, here we have at the east end of the north aisle, paved in the floor, a collection of encaustic tiles. These tiles were made and fashioned by the Premonstratensian Canons of Dale Abbey. They were fired at the kiln by those Norbertian Monks, whose ashes are crumbling to dust amid the ruins of that once stately pile.

And see, what a variety of designs are imprinted, from a simple initial letter, to the finest heraldic 'coats' of Lancaster, Grey, Beauchamp and Zouch. But, here we are, 'his is the one of most interest to us on 'this' bell-hunting expedition. On this tile we have a 'Rampant Lion Dically crowned upon a shield'; the shield is cantoned, so that three bells may be placed within the margin. Yes, the pious Monks of Dale designed and fired that tile to commemorate JOHN STATHUMS' munificent gift of three bells to Morley Church!

Now, reader, leave those encaustic tiles, and let us examine this slab of Purbeck marble. You will see it had originally several brasses let into it; most of the heraldic shields are missing, but on this elaborate portion, John Stathum is represented in armour; bare-headed, and kneeling on his helmet. Opposite, his wife Cecily is represented clad in a loose robe, kneeling also.

Now let us read the inscription, it is in English, and records Stathum's gifts to the church and poor of the parish of Morley. We read as follows: 'Here lieth John Stathum, Squyer sometime Lorde of this towne and Cecily his wife; which yat to yis churchc iij belles and ordyned iij. yjd. yerely for brede to be done in almes among

pore folk of ys pressh i ye day of ye Obit of Dame Godyth sometime Lady of ys towne. Ye said John dyed ye vj day of Novembre ye yere of our Lord MCCCCLIII—and yo said Cicely dyed ye xxvth day of April ye year of our Lord MCCCCLXIII, of whos sowles God have mercy. Amen.'

Here we have sufficient proof that Morley bells were cast previous to 1454—so rest content they are, also slightly earlier than the mediævals at Eythorne—and, reader, they still are

'Ringing, hanging, verdantique an' hoary,

Aye, me—they tell a patriarchal story!'

470 yeres after ye Obit of John Stathum, Squyer, an' Donor! What a memorial! What a memorial! Consider.

IRENÆUS.

## BIRTHDAY COMPLIMENT.

At Morton, Derbyshire, to commemorate the 21st birthday of E. Mallender, the following touches were rung: On Friday, January 6th, 720 Bob Minor: E. Deaken 1, E. Mallender 2, F. Knowles, senr., 3, C. Thompson 4, F. Knowles, junr. (conductor), 5, G. Frost 6. Also on Sunday evening, a quarter-peal of Bob Minor: E. Deaken 1, E. Mallender 2, F. Swain 3, F. Knowles, junr. 4, W. Swain (conductor) 5, G. Frost 6.

LAVERSTOKE, HANTS.—On Thursday, Feb. 19th, a quarter-peal of Grandsire Doubles (1,260 changes), in 47 mins.: H. Balaam (conductor) 1, K. Scott 2, J. Scott 3, F. Knapp 4, Rev. I. G. Best 5, A. Juniper 6. Ringers of 1st, 2nd and 3rd from Woolton Hill; 4th, 5th and 6th from Highclere.

## BELLS IN MUSIC.

By ROBIN HOOD.

To imitate the sound of bells with the instruments of the orchestra is admittedly difficult, and such imitation is rarely attempted. Composers of music for any instrument are frequently required to illustrate bells, the principal medium being the octave of tubular bells, familiarly known as 'gaspipes,' or the gongs usually found among the effects of the drummer. The writer remembers, as a child, singing in a then popular temperance cantata in which the air of 'Caller Herrin' was adapted to the following words:—

I love a merry peal of bells,  
Of hope and joy their music tells.  
When travelling homeward wearily  
They greet us cheerily.  
Hark! 'tis the bells of the village church,  
How pleasantly they strike on the air,  
How merrily they ring.

The Brooklyn Comedy Four, a combination travelling the halls a few years ago, did a splendid vocal imitation of an un-Simpson tuned bell, the waves of harmony being very realistic, and must have cost hours of practice. The usual method of including a bell in the orchestra is to fit its occasional strokes to the harmony, as in 'Mariana' (Alas, those 'chimes!'), 'Il Trovatore' (Miserere scene), and the 'Yeomen of the Guard' (execution scene). A much more effective number is the organ solo by Horsman, entitled the 'Curfew.' This is a wonderfully beautiful tone poem, illustrating a calm summer evening, accentuated by the recurring strokes of the curfew bell, played on one note of the carillon stop in the organ.

Then we have passages of music undoubtedly inspired by the composers' knowledge of English ringing. The church parade for troops is usually preceded by a composition, entitled 'Hark! the merry Christ Church Bells, 1 2 3 4 5 6,' the numbers being the correct sequence of a peal of six. A six-bell change also occurs in the hymn, 'There is a blessed home,' curiously enough, repeated, as for a whole pull, this phrase also being employed by Mr. John Carter in his humorous skit on change ringing, 'The scolding witch.'

Sir A. Sullivan was a known lover of bells, and probably change ringing had its effect on the very numerous diatonic melodies which literally poured from his pen. I have heard the chimes of Big Ben reproduced over the 'wireless' on the piano so realistically as almost to deceive, and I have seen them scored in one selection with fearful discords and an explanation that such discords were included to give the proper effect.

Then we come to the carillon effect. There are dozens of these, and they make very attractive items, being often clever and ingenious adaptations to the orchestra of the octave of tubular bells. The opera entitled 'Les Cloches de Corneville' is too well known to escape notice. This also is a carillon device, played either on the glockenspiel or celeste, but the church at Corneville possesses no such bells, there being only two indifferent ones, quite incapable of doing justice to Planquette's melody. The Whittington change on eight bells occurs completely in Mendelssohn's 'Ruy Blas' overture, though there is no evidence that the composer received any suggestion from hearing it at any time. Gounod certainly betrays influence in the accompaniment to his 'Angelus.'

Regarding Tchaikovsky's '1812 Overture,' frankly I am puzzled. Did he write the bell obligato as played by British bands? I think not. The usual method of expressing joy through bells on the continent is a pandemonium of jangling, and not the well-ordered sequences of our own isle. In fact, outside Belgium, bells in any number are rare. Anyway, our method of treating the overture is no more bizarre than that of the composer's, who introduces into an '1812' episode a melody not composed until 30 years later.

The best descriptive bell song that I have heard up to date is one entitled 'I heard the bells at eventide.' It is not an ambitious number by any means, but the composer has gone one better than most descriptive composers in this particular task. Now, the final illustration is, perhaps, the finest, and it would be difficult to find a better piece of tone painting. Massenet was a prolific composer, and quantity of production often spells poverty of quality. Still, we have a gem in the 'Angelus' from 'Scenes Pittoresques.' An atmosphere of prayer pervades the whole number. The three bell notes, the first three notes of an octave, are given out by the horns, with a running accompaniment by violins (or clarinets in the military band arrangement), and constitute the most perfect and poetic illustration of bells by the orchestra possible. No one can listen to it without acknowledging its fidelity to its title.

LOWER BEEDING, SUSSEX.—At Holy Trinity Church, on Wednesday, March 4th, 720 Oxford Bob Minor: H. Wadey 1, J. Parsons 2, W. Watts (conductor) 3, F. Hinde 4, G. Feist 5, R. Langridge 6. First 720 in the method by 1st, 4th and 6th.

## ONE HUNDRED SURPRISE PEALS.

As recorded last week, the peal of London Surprise at Leiston on February 28th was the one hundredth Surprise peal on the bells. They have been rung in the following methods:—

Superlative, 23; Cambridge, 23; New Cambridge, 5; Bristol, 21. Guildford, 4; London, 15; Suffolk, 2; Dublin, 1; Norfolk, 1; Yorkshire, 1; Lancashire, 1; Edinburgh, 1; Rochester, 2; total, 100.

## SALISBURY DIOCESAN GUILD.

### NORTH DORSET BRANCH.

A meeting of the North Dorset Branch of the Salisbury Diocesan Guild was held at Blandford on Saturday, Feb. 21st, and was attended by about 70 ringers from many parts of the diocese. During the afternoon and evening touches of Grandsire and Stedman were brought round on the peal of eight bells at the Parish Church of SS. Peter and Paul. A service was held, and was of a singularly appropriate character. The hymns, Psalm and lesson, as well as the prayers, all emphasised the importance of music in church worship, and the short address of the Rector (the Rev. Dr. Greenwood) was on similar lines. After the service, the company went to the Parish Room for tea, at the conclusion of which a short business meeting was presided over by the Rev. R. H. Gundry, of Shroton (chairman of the branch, and Ringing Master of the Guild).

A hearty vote of thanks was passed to Dr. Greenwood for inviting the branch to Blandford, and for allowing them the use of the tower and bells. They also thanked him for his address in the church, in which he had splendidly put before them the exact objects of the Guild. They also thanked Mr. G. W. Essex, the organist, for his services at the organ.—The Chairman announced a letter of apology for absence from the Rev. R. E. P. Goringe, of Manston, secretary of the branch, who was laid aside with an attack of lumbago.

The names of several new members were added to the Guild, and the election of the Blandford band of ringers was received with applause.

Replying to Dr. Greenwood, the Chairman said the Guild existed for the purpose of encouraging change ringing. It was quite unnecessary that any should wait until they were change ringers before they joined. If a band of ringers wished to learn the scientific method of change ringing, the Guild would instruct them in twelve lessons free of cost.

Touches were also rung in the evening on the bells of Bryanston and Durweston Churches, each of which contains a peal of six.

## CHELTENHAM BIRTHDAYS.

On Saturday evening, Feb. 28th, the company of the Parish Church and St. Mary's Guild of Ringers, Cheltenham, met to celebrate the birthdays of the captain, Mr. W. T. Pates, who was born February 28th, 1853, and Mr. W. A. Humphris, born February 26th, 1865.

At 7.30 the ten bells were raised in peal, and touches of Stedman, Grandsire and W. T. Pates' combinations of methods were rung, after which the captain invited the company to the spot where ringers sometimes congregate, when past birthdays were recalled, and the opportunities of young ringers of to-day were discussed.

Mr. Pates called the record peal of Grandsire Caters in 1889, having never called a 'bob' in the method before that day, while the long peal of Stedman Caters in 1888 was his first peal as conductor. The young members of the company are proud of their captain, for he devotes a great deal of time at his residence teaching them how to call touches, bringing bells round, explaining 'in and out of course,' etc.

Mr. Pates rang his first peal, Holt's Original, on July 21st, 1876, conducted by the late C. Hounslow; Mr. Humphris, Holt's Ten-Part, at Upton, St. Leonard's, August 6th, 1883, in which Mr. Pates took part. Messrs. Sid Hayward and W. Vick were unable to take part in the birthday ringing, but the former was able to join the company later in the evening.

It would be very nice if more evenings of the same sort could be spent. They are thoroughly interesting to young ringers, who thoroughly enjoy finding out about the various methods which are discussed at such gatherings.

## A BATH ABBEY MEMORIAL.

On Saturday, February 28th, the bells at Bath Abbey were rung half-muffled, after the dedication of a war memorial to former members of Bath College, where the Rev. F. L. Edwards (hon. secretary of the Salisbury Diocesan Guild) was at school, and at whose request the muffled ringing was kindly arranged by Mr. F. C. Rich at a day's notice. The ringing included 216 Grandsire Caters by C. W. Bell 1, Miss Williams 2, W. Temple 3, T. Grant 4, A. Prince 5, E. King 6, Rev. F. L. Edwards 7, W. J. Prescott 8, G. Harding (conductor) 9, T. Hogsflesh and H. W. Brown 10.

**DUMB-BELL APPARATUS.***To the Editor.*

Dear Sir,—A further reference to the above (as quoted by Mr. G. P. Burton in your last issue) is to be found in Dr. Raven's 'Church Bells of Dorset,' which work I am fortunate in possessing, through the generosity of Mr. C. H. Jennings, of Wyke Regis.

In the "Antiquary" for October, 1903, is a short article by Mr. C. Essenhigh Corke on an ancient dumb-bell, from which, by permission of the author and editor some extracts and illustrations are taken. Some twelve years ago Mr. Corke was much puzzled by hearing the housekeeper at Knowle speak of the Dumb-Bell Gallery. He went to the attic, which bore this name: it was unfurnished and empty, excepting that in the middle of it stood a curious wooden machine resembling a windlass. A rope was wound round the middle of the roller, and at each end were four iron arms, each with a poise or ball of lead at each end. The rope formerly passed through a hole (which still exists) in the floor into the Leicester gallery below. A person, by pulling the rope in this gallery, would cause the roller with the iron arms poised with lead to revolve at the first pull, and the impetus given would re-wind the rope again, and so continue to wind and unwind at each pull, thus giving the same exercise as that of ringing a bell in a church tower, except that it was noiseless."

The attic, or dumb-bell gallery, forms part of the additions made at Knowle by Thomas Sackville, first Earl of Dorset, 1603-8, in Jacobean style of architecture, rebuilt upon the stone basement which is 15th century work. This might suggest the approximate date of the machine, which is very old and decayed.

The late Chancellor Ferguson, F.S.A., to whom a photograph and description were given fully concurred as to the derivation of the name given to smaller dumb-bells, and Sir Henry Dryden attributed it to the 17th century, 'when bell ringing was part of a gentleman's education and practice.'

John Northbrooke, in a treatise against 'Diceing and Dancing,' 1577, says: 'In the reign of Queen Elizabeth the progress of building in London was like an inundation: it overflowed the ancient fields and vacant spaces within and around the city, so that tilt yards, shooting grounds and racecourses were covered with streets and alleys, and thus active civic sports were of a necessity in a great degree laid aside. As a substitute for these healthful exercises, young gentlemen were exhorted to labour in their chambers with poises of lead—that is, to exercise with dumb-bells.'—Yours sincerely,

24, Coventry Street, Leicester.

ERNEST MORRIS.

**DURHAM & NEWCASTLE DIOCESAN ASSOCIATION.****STAINDROP BELLS.**

The pre-Lent meeting was held at Hurworth-on-Tees on Saturday, Feb. 21st. The weather was all that could be desired until late in the evening, when it commenced to snow. The Parish Church bells, which are a very musical ring of six, with a 17 cwt. tenor, were kept going in various methods from 2.30 until the late evening. Those who were not engaged in ringing all the afternoon very much enjoyed a stroll along the banks of the picturesque Tees, and in the country around Hurworth and Croft, whose ancient churches were also visited. Tea was served in the Temperance Cafe at Croft Spa, when 23 sat down, Mr. C. Todd, the president, being in the chair. The following towers were represented: Darlington (St. John's and Holy Trinity), Newcastle (Cathedral and St. George's), Tanfield, Staindrop and Hurworth. At the meeting after tea, one honorary and four active members were elected.

The President expressed the sentiment of all by congratulating the Rev. A. W. Lister (one of the vice-presidents), now curate of Tanfield, upon his becoming Rector of St. Stephen's, South Shields. He was sorry St. Stephen's had no bells, and hoped Mr. Lister would be able to alter that.

The President proposed a vote of condolence with Mr. H. Shipp, of Staindrop, upon the death, at the age of 84, of his father, Mr. Daniel Shipp, who was one of the original members of the Durham and Newcastle Association, when it was formed in 1877 as the Durham Association. It was in 1882, when the diocese of Newcastle was formed, that the name was changed to the Durham and Newcastle Diocesan Association.

The President expressed the feelings of all when he deplored the fact that Mr. Shipp had not lived to see the old ring of six at Staindrop (which he had loved and rung for upwards of half a century) rehung and augmented to eight by the Loughborough firm.

Mr. H. Shipp returned thanks, and said he would convey the sentiments of the meeting to his brother, Mr. J. W. Shipp. He said he had come to the meeting armed with an invitation from the Vicar of Staindrop for the association to try the bells on Easter Monday. The bells are to be dedicated by the Bishop of Durham at evening-song on Palm Sunday. They will be rung on Easter Sunday, and be open for ringing on Easter Monday.

## BELFRY GOSSIP.

The first peal at St. Martin's-in-the-Fields was rung on March 14th, 1727. The church had been consecrated on October 26th, 1726, and it would seem that the London Scholars were entitled to a first claim on the bells for a peal, for they were the first successful band. Their peal was 5,006 Grandsire Cinques. Only two other peal performances by the London Scholars are recorded.

On the day following the peal above mentioned, the College Youths rang a peal of 6,314 Grandsire Cinques at St. Martin's, 'being the longest that was rung.' R. Annable conducted this peal, and Robert Catlin, a well-known London bell founder of that time, also took part in the peal.

On March 14th, 1837, a peal of 10,133 Grandsire Caters was rung in 5 hours 54 minutes at Christ Church, Bristol.

A peal of 10,080 Bob Major was rung at Debenham in 6 hours 1 minute on March 16th, 1767.

The first peal of Violet Treble Bob was rung at St. Peter's, Huddersfield, on March 16th, 1767.

A peal of Duffield Maximus was rung for the first time on March 17th, 1891. This was at St. Martin's, Birmingham.

The weight of the tenor at Mells, Somerset, is 26 cwt., not 12 cwt., as published last week.

On March 11th, 1887, J. C. Mitchell, W. H. L. Buckingham, C. F. Winney and G. T. McLaughen, of the College Youths, rang Holt's Original 'non-conducted' on handbells, at the Goose and Gridiron, City. This was the first time this had been done.

The peal of Superlative at Soberton on February 28th was the first peal in the method by R. Linter, F. A. Burnett and T. R. Taylor, and it was also G. Pullinger's 50th peal.

Mr. Pullinger, who is secretary of the Winchester Guild, lost an arm in the war, but his management of a bell is really wonderful.

In connection with the dedication of the recast peal of ten at Rotherham Parish Church next Wednesday, notice is given that the bells will not be open for ringing by visitors except from about five o'clock to 6.45 p.m. The local band are issuing the announcement to save disappointment to ringers in the district.

The new bells at Shilton, near Coventry, are to be dedicated on Saturday, March 28th, at 3.30 p.m.

While complimenting Miss Foulk upon the peal she rang at Duffield, Mr. Biggin writes that she was not the first Derbyshire lady to ring a peal in the county. This distinction belongs to Miss Elsie Smith, of Norton, who rang in a peal of Bob Major for the Yorks Association at Norton on Nov. 18th, 1922, and a peal of Bob Major at North Wingfield for the Midland Counties Association on March 10th, 1923.

## THE CENTRAL COUNCIL.

The annual meeting of the Council will be held on June the 2nd (Whit Tuesday) next, at Chester. Full particulars of the meeting will be published later. Notice of any proposed motion should be sent before April 18th.

Will secretaries please note that the annual subscription is now due, and, together with the names and addresses of representatives, should be sent to the hon. secretary, Mr. E. Alexr. Young, of 155, Rushey Green, Catford, S.E.6.

## RINGERS AND FREEMASONRY.

*To the Editor.*

Dear Sir,—It was with great interest I read your 'leader' in last week's issue, under the above heading. Alderman Pritchett's suggestion has occupied my thoughts many times.

May I now suggest that Alderman Pritchett seek to obtain the necessary permission, and that the lodge be formed in Birmingham, to be called the 'Alderman Pritchett Ringers' Lodge,' after which, and for the convenience of the ringing fraternity, a lodge may be formed in each of the following districts of England, viz., North-East, North-West, South and West.

Our London brethren would have no difficulty in forming a ringers' lodge in their own province.

Qualifications, such as suggested by Alderman Pritchett, would be necessary.—Yours truly,

15, Westgate Street, Bath.

ARTHUR PRINCE.

Several correspondents have written expressing the hope that Alderman Pritchett's suggestion will materialise.

One London ringer writes: 'I have been watching, for a long time, for a lead from some prominent brother . . . . I trust that the London brethren will take advantage of the hint thrown out by the worthy alderman, and in any step that may be taken in the way of forming a lodge exclusive to ringers, I hope to be allowed to take a part, and, if possible, become a founder.'

## ANOTHER GREAT CARILLON TO BE MADE AT CROYDON.

### MESSRS. GILLETT AND JOHNSTON'S CONTRACT WITH CANADIAN GOVERNMENT.

Ottawa is to share with New York the distinction of possessing one of the two largest carillons in the world, as the Dominion Government of Canada has just placed with Messrs. Gillett and Johnston the contract for a magnificent carillon of 53 bells, to be identical with that for the Park Avenue Baptist Church, New York, which is now nearing completion at the Croydon Foundry, this second carillon being for installation in the Victory Tower of the new Houses of Parliament of Ottawa.

Messrs. Gillett and Johnston have also secured the order for the large clock which is to drive the hands of the four 16ft. diameter dials and to chime the Westminster Quarters, and strike the hours on the 9-ton bell.

The position and setting of a carillon are of vital importance, and it would be difficult to imagine a more ideal campanile for these bells than the Ottawa Victory Tower. Its great height and elevation, commanding a wonderful panorama of the city of Ottawa, the Ottawa River and the Gatineau Hills, ensure that the bells are effectively heard over a large area, while architecture of the tower is of wonderful beauty and its position on the summit of a hill surrounded by quiet parks and terraces provides an auditorium from which the music of the carillon can be heard to the best possible advantage.

The tower forms the entrance to the new block of buildings just completed, and replacing those burnt down about twenty years ago. Above the entrance archway is a vast memorial chamber and chapel containing the names of Canadian soldiers who fell in the great war. The lofty belfry is about 180 feet above the ground level, and in this the bells will be arranged tier upon tier in such a way that as the passenger elevator travels upwards to the Observation Gallery every bell will be visible, while the works of the great clock will be displayed in a large glass case in the centre of the clock chamber.

It is interesting to note that Messrs. Gillett and Johnston supplied the clock and bells in the tower which was destroyed by fire when the original Houses of Parliament were burnt down.

## WINCHESTER DIOCESAN GUILD. PORTSMOUTH DISTRICT AT PETERSFIELD.

The first meeting of the year in the Portsmouth District was held at Petersfield on Saturday last, when upwards of 20 members were present from Fareham, North Stoneham, Portsmouth (St. Mary's), Swanmore, Wickham and Winchester. Among those also present were Mr. G. Williams (Master), and Messrs. J. H. B. Hesse (Haslemere) and J. H. Shepherd (Swindon).

A very enjoyable service was held in the church, at which the Rev. P. J. Miller, of Sheet, officiated. Mr. D. C. Williams, F.R.C.O., presided at the organ. The Guild's form of service was used. The preacher's address to the members was both interesting and instructive, as his subject was quite a departure from the usual 'stock' sermon given to ringers.

At the conclusion, the members adjourned to St. Peter's Hall, where tea was awaiting them. The Rev. P. J. Miller was disappointed at not being able to join the company at tea owing to a previous engagement, but he looked in to have a chat. It had been quite a delight, he said, to be with them that day as a diocesan association, and he readily acceded to the request that he should become an honorary member.

At the opening of the business meeting, the Chairman (Mr. W. Tate) made reference to the sudden death of Mr. Arthur Lovejoy, of Reading, who had been with them at Portsmouth for some little time, and who was made a member of the Guild at the last meeting of that district.—As a token of respect and tribute the members stood in silence.

Mr. C. Wiggins (Swanmore) was elected a full member, and the meeting also confirmed the election of the Rev. P. J. Miller (Sheet) as an hon. member.—A brief report of the doings of the Central Committee at Winchester a fortnight ago was given by the district representative, who informed the members that it had been decided to revert to the pre-war form of Annual Report.

It was decided to hold the next meeting at Netley on June 6th, due notice of which will be given in 'The Ringing World.'

Votes of thanks were accorded the Vicar (the Rev. T. H. Masters), the Rev. P. J. Miller, the organist, and those who made arrangements for the tea, on the proposition of the chairman, after which the members returned to the tower. During the afternoon and evening the bells were kept going to Grandsire and Stedman Triples, Plain Bob, Kent and Double Norwich Major, Superlative, Cambridge and London Surprise Major.

## MIDDLESEX COUNTY ASSOCIATION. SUCCESSFUL SIX-BELL MEETING AT FINCHLEY.

Some 30 or more members attended a North and East District meeting, which was held at Finchley on Saturday last, the towers represented being Barnet, Edmonton, Harrow, Hendon, St. Giles-in-the-Fields, Southgate, Stanmore, Walthamstow (St. Mary's), and Willesden, with several unattached members.

Divine service at 5 p.m. was well attended, the address being given by the Rector (the Rev. S. F. L. Bernays), late of Stanmore.

Ten was served in the Church Hall, and was followed by the usual business meeting, at which two new members were elected.

The Hon. Secretary announced that the annual general meeting would be held at Southgate on April 18th, when he hoped members would attend in good numbers. It was also stated that an improved form of the association certificate is being prepared, and would shortly be on sale at the usual terms.

It was decided to hold the next district meeting at Barnet and Hadley early in May.

Votes of thanks were accorded to the Rev. S. F. L. Bernays, and to Mr. E. H. Tubb, the local secretary, for all they had done to make the meeting a success.—In the unavoidable absence of the Rector, who had to attend a meeting of a different kind, Mr. Tubb acknowledged the vote of thanks, stating that it gave the Finchley ringers much pleasure to see so many members present.

Mr. G. Hughes, of Stanmore, said he hoped members would turn up at Stanmore in good numbers, when the association met there on July 25th, as their new Rector was very anxious to meet them.

Ringling during the afternoon and evening covered a large number of methods, including Grandsire and Stedman Doubles, Plain Bob, Kent and Oxford Treble Bob, Double Oxford, Double Court, Cambridge and London Surprise Minor.

## FIRST SERVICE IN BRAINTREE'S ANCIENT BELFRY. A PEAL BOARD UNVEILED.

On Saturday, ringers from various parts of Essex assembled at Braintree for the purpose of unveiling and dedicating a peal board which had been erected in the tower of the Parish Church to record peals of 5,000 changes and upwards in each of the following Surprise methods: Bristol, Cambridge, Superlative and London. At 4 p.m., the Vicar of Braintree (the Rev. G. P. Bassett Kerry, R.D.), who was robed, proceeded to the ringing chamber of the church, which is approached by a long and nearly vertical ladder from the floor of the tower, and there found a large number of ringers assembled. Before the ceremony commenced, Mr. C. H. Howard, Master of the Essex Association, stated the object of the meeting. The purpose of the peal board was, he said, to record successful peals being rung in four of the most difficult and complicated methods in Major change ringing, and further to act as an incentive to those who come after to aspire to the ringing of those higher methods. He mentioned that the board had been made, and beautifully written and painted, by one of the ringers, Mr. A. W. Coles, of Brixton, and had been subscribed for entirely by those whose names appeared upon it. The peal of Bristol was conducted by Mr. W. Pye, of Leytonstone, and the other three by Mr. W. Keeble, of Kelvedon, both of whom ranked among the ablest conductors in the kingdom.

The Vicar of Braintree commenced by reading Psalm 84, and offered an appropriate prayer. Afterwards, he dedicated the board 'in the faith of Jesus Christ and to the Glory of God,' and then pronounced the Benediction.

In thanking the Vicar for arranging the service, Mr. W. H. Dyson, district secretary, Northern Division, stated he considered the service was unique in the history of Braintree Church, which dated from 1198. He believed that was the first time a service had ever been conducted in the belfry by the Vicar of the parish, robed.

The Vicar, in reply, said he was very pleased to have the opportunity of being present and conducting that service. In the whole of his ministry he had never been in charge of a parish before where there was a peal of bells. He was very much struck by the enthusiasm of the ringers in their branch of church work. There appeared to be a spirit of brotherhood among ringers which was seldom found in any other branch of church work.

The ringers afterwards had tea at the Parish Room, the Vicar and Mrs. Bassett Kerry being present.

Mrs. Wiffen, wife of the District Master, Northern Division, and other ladies, provided tea. Afterwards, handbell ringing was indulged in, and touches of Grandsire Triples, Bob and Treble Bob Major, Double Norwich, Superlative and London Surprise were rung on the tower bells. In the last named method the Master rang his first course.

## A YOUNG BAND.

At Boxley, Kent, on Tuesday, Feb. 24th, 720 Grandsire Doubles: D. Gower 1, G. Voules 2, R. Luckhurst 3, V. Smith 4, H. Fuller (conductor) 5, E. Voules 6. First 720 by this band, who have an average of 17 years.

**BATH AND WELLS ASSOCIATION.****SUCCESS OF THE DUNSTER DEANERY BRANCH.**

Exton was the venue of the annual meeting of the Dunster Deanery Branch of the Bath and Wells Diocesan Association on Saturday, Feb. 28th. The keenness of the members was shown by the fact that the attendance numbered about 90, from all parts of the district. A peal of six, in good order, hung in the tower of the little church, and were made good use of. The service was conducted by the Rev. H. P. Boulton (Rector of Exton), and an impromptu choir selected from the members led the singing, Miss Williams being the organist. Taking as his text verses six and seven of Psalm 98, the Rector preached an able sermon, which held the close attention of his congregation.

After the service, the company were entertained to tea in the Schoolroom by the Rector and the Parochial Church Council. The members were waited upon by Mrs. Boulton, Mrs. Lovelace, Mrs. L. Phillips, Mrs. Bellamy, Mrs. Hannaford, Mrs. Burnett, Mrs. Wyatt, Mrs. Gunter, and the Misses Burge and Williams.

**THE BUSINESS MEETING.**

The annual business took place after tea, the Rev. H. P. Boulton presiding, in the absence of the Rev. T. S. Dawson, whose inability to attend was due to the prevailing epidemic. For the same reason the Rev. Preb. A. C. Harman (Old Cleeve) was unable to come, and messages of regret for non-attendance were also read from the Revs. E. P. Stanley (Wootton Courtenay), H. Gardner McTaggart (Monksilver), and J. C. L. Isard (Minehead).

The annual report and balance sheet were presented by Mr. G. Stacey, the hon. secretary. The report stated that the branch had held four successful meetings during the past year at Carhampton, Dulverton, St. Audries, and Old Cleeve, at which the average attendance had been 55. They had to congratulate Wootton Courtenay band on ringing their first peal, the only peal rung by the deanery during the year; and also Old Cleeve on the addition of two new trebles to their tower. The branch had been strengthened by the election of 29 performing members and three honorary members. The strength of the deanery now was 146 members, 31 of whom had not paid their 1924 subscriptions. The subscription question was always a source of worry to the secretary, and if the foreman of each tower, stated the report, would see to it that they were collected and sent early each year it would be a great help. They regretted to record the loss of one of their members through the death of Mr. G. Veysey, of Winsford, and sympathy was expressed with the bereaved family.

The balance sheet showed that the treasurer had collected from working members £5 17s., and hon. members, £1 5s.; tower fees amounted to 17s., and there was a balance in hand of £1 11s. 8d., making total receipts of £8 12s. 11d. After expenses were paid there was a balance due to the general secretary of £5 3s.

The report and balance sheet were adopted.

The election of officers next took place. The Chairman said he was sorry that Mr. Dawson was unable to be present. In him they had a very good chairman, one who took a great interest in the association, and they could not do better than re-elect him.

On the motion of Mr. W. A. Hawkins (Dulverton) seconded by Mr. G. Atkins (Minehead), the chairman was re-elected.

With warm appreciations of their services from members, endorsed with applause, Mr. Stacey was re-elected hon. secretary and treasurer, and Mr. Wm. Hoyle (Minehead) Ringing Master. Mr. H. A. Phillips (Timberscombe) was re-elected the branch representative on the Central Committee.

Nine new ordinary members were proposed and elected from Winsford, Carhampton, Wootton Courtenay, Timberscombe, Exton, and Cutcombe.

**INSTRUCTORS TO BE APPOINTED.**

In discussion on the next place of meeting, an invitation to Wootton Courtenay was submitted, but it was decided to visit Stogumber next and Wootton Courtenay subsequently.

There was some discussion as to arranging for instructors to visit various towers for the benefit of bands of young ringers, and it was decided that instructors, to be chosen later, should first visit Winsford and Exton.

The Chairman moved a hearty vote of thanks to the retiring chairman and officers for their services, which was seconded by Mr. T. Newberry (Dulverton), and carried with acclamation.—Mr. Hawkins then proposed a comprehensive vote of thanks to the Rector for the use of the bells, and for conducting the service and giving an address: to those who had provided the tea, to Miss Williams, the organist, and all the ladies for helping with the tea, and to Mr. S. Wyatt for having the bells in readiness. Mr. Hawkins said it was a good thing that they should have such meetings as this. He was glad to say that parsons generally were taking more interest in the ringers than they used to do when he first joined the association. 'The parsons can go into the pulpit,' he added, 'and tell us what to do without question, but at these meetings we can get our own

back (laughter), and tell the parsons what they are expected to do with regard to the belfries and ringers.' Mr. Hawkins said he considered the ringers were just as important as the choir, and that the belfry was part and parcel of the church.

The Chairman, in acknowledgment, said he was pleased to give the association a hearty welcome to Exton. He felt proud that they had come there for their annual meeting, and it was real joy to have so large a body of men at the service.

After the meeting a number of the ringers returned to the tower, and kept the bells going until late in the evening.

The success of the gathering was due in large measure to the arrangements made by the hon. secretary for a service of Blue motor-cars to Exton from Minehead, Porlock and Wootton Courtenay, and Williton and intermediate places, picking up as far as Cutcombe.

## PEAL OF SIX AT BATHAMPTON. NEW TREBLE DEDICATED.

At St. Nicholas' Church, Bathampton, on Saturday, February 28th, a new bell was dedicated to the memory of Mrs. Jauey Hudson. The church used to have only five bells, but through the kindness of Mr. Morris Hudson, who gave a new treble bell in memory of his wife, there is now a peal of six. As the old frame was unsafe for ringing, the Vicar (the Rev. F. G. White) made an appeal in the village for funds towards a new frame, and having the second bell recast. The appeal was well responded to, and there is now only a small sum of about £50 required to clear the cost of the work, which has been carried out by Messrs. Mears and Stainbank, of London. The bells are run on ball bearings, and the fittings are all of the latest design. The work at the tower was in the hands of Mr. Jesse Tyler, whose advice on bells and bell ringing has been greatly appreciated by the old and young ringers, who came to see this fine peal.

After the dedication service, the Vicar and churchwardens kindly entertained all ringers who attended the service to a tea, and subsequently some fine touches in different methods were rung on the bells, the 'go' of which is perfect.

The dedication service was conducted by the Vicar (the Rev. F. G. White), and the ceremony was performed by Prebendary F. A. Bromley (Upper Weston), who also preached an appropriate sermon, dealing with the origin and uses of bells.

Two of the old bells in the tower are pre-Reformation, and two others are dated 1682 and 1672. The recast 2nd was dated 1767.

## AUGMENTATION AT BRENCHLEY, KENT.

The old peal of six at Brenchley, Kent, has been taken out, tuned and rehung in an iron frame by Messrs. Taylor and Co., of Loughborough, and two trebles have been added to complete the octave.

The new treble bears the inscription: 'A thankoffering to Almighty God, for having brought John, Gemma, Raymond and Dennis Lees (all serving) safely through the Great War'; and the second, 'Ring in the Christ that is to be.'

The work has been carried out in Messrs. Taylor's usual efficient manner, and the new peal is a notable addition to the Kentish eights.

The service of dedication was performed by the Bishop of Rochester, on Sunday, 1st March. Many visiting ringers were present from the surrounding neighbourhood, and the new peal was heard to advantage in various methods. For evensong a quarter-peal (1,344 changes) of Superlative Surprise Major (conducted by S. H. Green) was rung by J. L. Harris (Rochester) 1, S. H. Green (Tunbridge Wells) 2, F. J. Lambert, junr. (Burwash) 3, R. E. Lambert (Horsmonden) 4, W. Latter (Tunbridge Wells) 5, R. T. Lambert (Horsmonden) 6, F. J. Lambert, senr. (Horsmonden) 7, F. White (Tunbridge Wells) 8. A peal is to be attempted on March 7th, under the conductorship of Mr. Tom Sone, and another on March 21st by a Tunbridge Wells and Horsmonden band.

## LANCASHIRE ASSOCIATION.

A well-attended meeting of the Rochdale Branch was held at Cross Stone, Todmorden, on Saturday, Feb. 28th. About 38 members were present, and ringing commenced at 4 p.m. Tea was served by the lady ringers, and was followed by the business meeting, over which the Vicar presided. It was resolved to hold the next meeting at Oldham Parish, on Saturday, March 28th. — Two new members were elected; one performing, and one non-resident.

A very hearty vote of thanks to the Vicar and wardens for the use of the tower and bells, and to the ladies for providing tea, brought the meeting to a close.

The bells were kept going until 9 p.m., and the methods rung included: Grandsire and Stedman Triples, Plain Bob, and Kent and Oxford Treble Bob Major, and Double Norwich Major. A very enjoyable time was spent by all present.

## INCUMBENTS IN THE BELFRY

To the Editor.

Dear Sir,—With reference to your recent paragraphs, re incumbents in the belfry, it may interest your readers to know that the Rector of Bridport (Canon J. W. Coulter), although not a ringer, makes it a practice to come up into the tower every Sunday evening he preaches in the parish church, which is three Sundays out of four. He also visits us on practice evenings, and attends all the meetings of the band, of which he is chairman.

Canon Coulter firmly believes in making his ringers a real live section of his church workers, and his presence amongst us has done more in this direction than all the sermons he could preach. I can assure you that he preaches the doctrine he practices in his own tower throughout his Rural Deanery.—Yours faithfully,

WALTER S. B. NORTHOVER.

Captain, St. Mary's Band.

## METHODS.

To the Editor.

Sir.—There is a type of controversy which is more common than agreeable at the present day. Its essence lies in the assumption that difference of opinion and personal enmity are synonymous. When such a line is adopted it is usually evidence of ignorance of the matter in debate, and in any case to attacks of that nature I propose to make no reply.

It only needs to add in the interests of truth that in the 'Bell News' of June 14th, 1913, Mr. J. A. Trollope wrote:—

'Scores of useless methods have been published (including Leek Major the latest), being mongrels.'

On August 9th, 1913, he wrote in the same paper:—

'I am not sure that Leek Major may not turn out to be legitimate after all. It is not a principle, but a very complicated thing, with two hunts altered in every direction.'—Yours, etc.,

March 4th, 1925.

E. S. POWELL.

Dear Sir,—May I reply to the Rev. H. Drake? When a reverend gentleman begins lecturing other people about departing from the path of rectitude he should be very careful to practice what he preaches.

I have written of Single and Double Shunts, but 'Treble Shunts,' so far as I am concerned, is ridiculous nonsense, and a figment of the reverend gentleman's own brain.

From correspondence that I have recently received, there are at least three gentlemen in the United Kingdom and one in far New Zealand who can understand my meaning (three of the four gentlemen I have never seen); therefore, the only conclusion that I can come to is that those who do not understand me are deficient in their powers of understanding, which is no fault of mine. I can supply arguments, but I cannot give any opponents brains to understand them.—Yours faithfully,

GEORGE BAKER.

Sir,—Although generally in agreement with a certain amount of Mr. Drake's writings in 'The Ringing World,' I cannot take that view of his letter in your last issue. His comments on Mr. G. Baker's articles are quite beside the mark, and are without the least justification. If Mr. Drake finds Mr. Baker's writings and figures so impossible for him to understand, he should ask for more information, then we should all get the advantage of further enlightenment on this very interesting question of method construction.

Personally, I should have thought a ringer with the meanest intelligence could have understood, as I consider Mr. Baker has given us in plain English the very A B C of method construction, from plain hunt to infinity.

With regard to Mr. Drake's remarks, re Mr. Trollope, he commences with an appreciation, but almost in the same breath commences to criticise and offer amendments. This, to my mind, shows a want of knowledge of the subject under discussion.—Yours faithfully,

GEORGE WILLIAMS.

## THE LATE REV. F. E. ROBINSON AND 'AMONG THE BELLS.'

Some time ago I was asked to contribute a preface to a proposed reissue of Mr. Robinson's book, 'Among the Bells.' But as this was to be a reprint of the letterpress only, without the illustrations of church towers in which, and of eminent ringers with whom, Mr. Robinson had rung (the original copperplates having been commandeered for their metal during the war), it would, I fear, have been rather a dry record of facts and figures, however interesting for statistics of the history, weight, etc., of bells, which are permanently useful for correcting loose and inaccurate local tradition on such matters.

The original edition, I see, is still on sale; and I trust that, even in this age of rapid change and forgetfulness, the memory of Mr. Robinson's work for the cause of change ringing and bellry reform may be preserved in as many belfries and church libraries as possible.

It was indeed a remarkable work. To quote the words of a preacher on the Sunday after his funeral: 'In the art of bell ringing he used all his powers for the glory of God. Only those who knew the condition of bellries fifty years ago could realise the influence of Mr. Robinson, among others. In former days, the parson's presence in the belfry was often regarded as an intrusion; and the ringers seldom attended church, or considered it a necessary part of their work. Now, the belfry has been consecrated to the worship of God; the ringers are regarded as church workers; the clergy are welcomed in the belfry, and proficiency has been raised to a higher level.'

'Among others'—Mr. Robinson would have been the last man to undervalue the share of many others, clergy and laity, in that bellry reform of which he was a distinguished pioneer; younger men upon whom his mantle has fallen, and who honour his memory by carrying on his work and holding up to their own generation the light of his ideals, as summed up in the motto of his book: PERSEVERA—PER SEVERA.

T. L. PAPILLON.

P.S.—It may not be amiss, in these days of money-making mediocrity in literature, and thoughtless or libellous gossip, to say that I have not, and never have had, any personal interest in pushing the sale of 'Among the Bells.'

## DEATH OF MR. HENRY PAGE.

### A FOUNDER OF STOKE ARCHIDIACONAL ASSOCIATION.

We regret to record the death of Mr. Henry Page, of Oxford Street, Stoke-on-Trent, who passed away on February 22nd, at the age of 69 years. He came from London over 40 years ago, and was one of the founders of the Stoke-on-Trent Archidiaconal Association. By his quiet and agreeable manner he won the respect of all. He was a safe ringer, and good striker and conductor. He conducted the first peal on the Stoke bells (Grandsire Triples), and also the first peal of Stedman Triples rung by the association, at Longton. This was rung by Stoke ringers. The deceased was leader of the Stoke bellry for 18 years. Although he resigned this office 25 years ago, he always kept in touch with the bellry, both as a ringer and as chairman of St. Peter's Association. He was also sidesman of the Parish Church for some years, but resigned some time since owing to ill-health. He was a member of the following societies: Midland Counties Association, Ancient Societies of College Youths, Sussex County Association, and the Lancashire Association. He had rung about 40 peals in various methods.

The bells of Stoke Parish Church were rung deeply muffled, before and after the funeral, by ringers from Newcastle, Biddulph, Norton and Stoke. Among the many beautiful wreaths sent were two in the shape of a bell, one from the Stoke Archidiaconal Association, and one from the Stoke ringers. The deceased leaves a widow and three sons to mourn their loss.

## LADIES' GUILD.

The quarterly meeting of the Western District was held at Portishead on Saturday, March 7th. A very hearty welcome was extended to the members by the captain (Mr. W. Gillingham), and although the attendance was small, a very enjoyable time was spent. The towers represented were Portishead, Bristol, Clapton-in-Gordano and Evercech.

The Guild's service was conducted by the Rev. H. S. Briggs in the Parish Church.

A delicious tea was served at the White Cot Dairy, and was followed by the meeting, at which Mrs. Jukes presided.

It was decided to hold the next meeting at Bath, on either the first or second Saturday in June. It is hoped that members will endeavour to be present, as it is the yearly meeting of the district, when officers are elected.

### THE EXPERTS AND THE EXERCISE.

From time to time one hears complaints that space in 'The Ringing World' is given up to the arguments of 'experts' which might be better devoted to other use. Such a suggestion was publicly made at the recent Birmingham dinner, and, looked at from the point of view solely of those who have no interest in the theoretical side of ringing, and no immediate concern in its evolution, we can fully appreciate that there are many ringers to whom discussions on method building or method extension, for instance, make no appeal, and that they would prefer to see other matter than this in our columns. The reason, we believe, is mainly two-fold. First they do not really understand the subject, and therefore cannot get interested; and the second there seems to be very few among the fundamental principles upon which the experts themselves agree, and consequently the average ringer imagines that it is waste of time to try and follow their arguments.

On the first point there is little to be said. Without understanding there cannot be interest—and we say this without the slightest disrespect to anyone. There are a great many ringers who are satisfied with the pleasure they can get out of the practical side and they have neglected their 'education,' so to speak, of the other phase of the art; hence they cannot get any interest in the discussion of what are to them abstruse problems. For the second point, it must be admitted, there is some justification. We have the experience, year after year, of seeing men who have made a lifelong study of the subject disagreeing on the most essential principles. Who, then, can be blamed for the fog in which many find themselves when, with little or no actual knowledge, they try to disentangle the facts, and then arrive at the conclusion that the subject is not worth pursuing?

There is, however, another side to the matter which 'The Ringing World' does not overlook. While those who concern themselves only with the practical phase of ringing are content with the knowledge which they already possess, it is not sufficient for the future of the art that endeavours further to elucidate its mysteries should be smothered, merely because the experts themselves do not agree, or because the subject does not make a general appeal. Upon the research of to-day will be founded the facts of to-morrow, and even out of a spirited disagreement some student may gain a crumb of knowledge which will lead to a wider and more intimate acquaintance with all that underlies the science of change ringing. The material of these discussions may not, indeed cannot, interest everyone; the temper of them may not always be all that could be

desired, but the Exercise must credit these experts with a desire to get at the truth of things, some of which are still a subject of speculation, or about which, at best, we have only an imperfect knowledge, and to hide such discussions entirely by conducting them privately in the post would rob those who do seek information on the theoretical side of much that may be of value.

## DARTFORD LITTLE BOB MAJOR.

To the Editor.

Dear Sir,—The point that Mr. Ridgeway makes against me in this week's 'Ringing World' is quite a good one, and quite fairly put. I knew I was laying myself open to the charge of saying one thing and doing another. But it must not be taken that I approve of Dartford Little Bob. I do not, and I told the band so before and after the peal. Why, then, did I take part? Well, partly because, being then engaged on the Central Council Collection of Major Methods, I wanted to have as much practical experience of all sorts of methods as possible, and chiefly because Mr. Barnett was very wishful to ring a peal of it, and asked me to take a rope. I would stretch a point to the utmost to fall in with his wishes.

## LEEK MAJOR.

To the Editor.

Dear Sir,—Allow me to thank Mr. George Williams for his support and appreciation of my efforts in the matter of method construction.

How simple the whole matter is, when one knows, can be illustrated by my giving the complete set of Round Blocks in Leek Major, together with the transpositions which prove the theory to be sound and true, and also that Leek Major, as well as being unique in its qualities, is next to the primary principles the most simple Principle ever discovered:—

## LEEK MAJOR.

| 12345678 | x | 68472513 Round Blocks. | Transpositions. |
|----------|---|------------------------|-----------------|
| 21436587 | x | 88745231=75836142      | 75836142        |
| 12463578 | x | 68754213=48763215      | 32418576        |
| 21645387 | x | 86572431=73581462      | 74863152        |
| 26154837 | x | 85827341=64218753      | 16472538        |
| 62518473 | x | 58263714=35218746      | 42618375        |
| 26581437 | x | 85236741=43172865      | 16472538        |
| 62854173 | x | 58327614=43827165      | 74863152        |
| 68245713 | x | 53872164=58263714      | 32418576        |
| 86427531 | x | 35781246=76518432      | 75836142        |
| 68472513 | x | 53718264=68472513      | 12345678        |

It will be noticed that from the halfway transposition row, underlined, the transposition rows reverse, and rounds is the last row; this is a feature of all symmetrical methods, in asymmetrical methods rounds will not turn up.

The halfway transposition row itself is in coursing order a further proof of the beautiful simplicity of Leek Major which even Bob Major does not possess, the halfway transposition row in the latter method being 24567183 from which by adding extra pairs of bells a mathematical progression can be obtained to infinity.

Nothing further need be said of Leek Major, the method will, I am sure, commend itself to any band who cares to practice it.

May I, however, in the interest of truth, add a few words to reply to Mr. Powell's letter in your last issue?

The quotation from 'Bell News' of August 9th, 1913, given by the Rev. E. S. Powell is no retraction, and was never meant to be one by Mr. Trollope, this can be proved by quoting from a letter which I received from him on 22nd December, 1913:—

'You seem to think and act as if (1) I had deliberately and of set purpose attacked Mr. Ridgway and his method; (2) that you had proved that my attack was wrong and unjust; and (3) that, therefore, I ought to publicly recant in the "Bell News." It does not strike me like that at all, and I see no reason why I should don a white sheet, even if you had proved that I was mistaken.'

And further on in the same letter:—

'It is true that I said, "Leek might turn out to be legitimate after all." That did not mean that I had recanted anything. It meant that I recognised that in the future we might have to recast our ideas of what is legitimate. In Principles I am certain that the only legitimate division heads and ends are those of Original in that order:—

i.e. (1) 12345678 (2) 12345678  
13254768 21436587

Here we have proof from Mr. Trollope's own writing that his ideas were the same in December as in the June previous, so it is not much use trying to make the Exercise believe that he retracted in the month of August which came between June and December, 1913.

It was after the receipt of the letter from which I have quoted that I published in the 'Bell News' and 'Ringing World' the method which could be produced with any one of the four possible rows as the first division head, and it is still my contention that as Mr. Trollope had condemned Leek Major as a mongrel method publicly in the 'Bell News,' it was up to him, when proved to be wrong, as a man, as a member of the Legitimate Methods Committee, and as a ringer, to acknowledge his mistake and to retract as publicly as he had condemned and also to apologise to the author of Leek Major for all the annoyance that he had been caused.—Yours faithfully,  
GEORGE BAKER.

TENTERDEN, KENT.—On Sunday, March 8th, for Confirmation service, by the Bishop of Dover, and before and after the evening service, at which he preached the following touches were rung, viz.: Three 504's of Stedman Triples and 1,008 in same method, 336 Bob Major, a course of Kent Treble Bob Major, 168 Grandsire Triples and 360 Bob Minor, by the following ringers: Reg. ## THE CRITICISMS OF 'CRITICUS.'

SOLVING A PROBLEM—SHALL THE 'STANDARD' GO?  
—FREEMASONRY—LONDON RINGING.

May one ask, just once again, if our experts are ever going to agree over anything? Personally it amuses me to see them attempting to 'slay' one another, but it does not seem to lead us anywhere nearer a solution of the problems which they seem unable to unravel to each other's satisfaction. Instead of being the jury which should decide these questions for us, they are counsel whose avowed object is to pull one another's case to pieces. This is probably a congenial task, but what we, as ringers, want is to know the truth about these things. Can we not do what, I believe, the law provides for when juries are obstinate, shut them up together until they agree?—if it could be done without food, or fire or bed, so much the quicker in effectiveness. Then we should get a verdict. It might be only an accommodation one, and it might be no more satisfactory than the historic decision of 'not guilty, but don't do it again,' but if it set the wranglers at rest and gave us some indication where we really are in some of these matters: if it told us, for instance, whether we are really back to the days of Fabian Stedman or Annable, or whether we are in the 20th century, it would be something gained.

If, however, the shutting up—in the bodily and not in the correspondence sense—is impracticable, I shall feel it ought to be possible for the Central Council to set up some kind of court of referees, who could hear the arguments of both sides, and come to a decision which would be acceptable to the average man. One can no more expect men with a divergence of views, such as we have recently read, to agree, than litigants in a law action, and the only common sense way out of the impasse seems to me to be an independent body to arrive at a judgment after considering the arguments. The loser would not, of course, be satisfied, but he could be debarred from inflicting his views again on the Exercise until he had some new evidence to support his contention. Now, how is that for a workable plan to settle these disputes, and what will the Central Council do about it?

Reading, last week, the list of Mr. Trollope's peals made me wonder who can claim the biggest variety of methods rung in his peal collection? Probably the honour goes to one of those Cheshire men who have put three dozen or so into one peal, but everyone will agree that, considering he has only rung two peals on five and six bells, Mr. Trollope's is a goodly collection. Those 'three-dozen-a-time' men, however, put loops round the majority of us, who stick in the stodgy rut of the 'Standard' methods. Which leads one to ask, what really are the 'Standard' methods? We know that in the old days, when Surprise ringing was looked upon as a 'crank' job, the 'standard' was Grandsire, Plain Bob, Treble Bob and Stedman. Even poor old Double Norwich was outside the pale. That 'standard' was all right fifty years ago, but when the word, as applied in this case, means 'that which is authoritatively established as a rule; that which is established by public opinion or custom,' then we ought to bring our group of methods more in line with modern practice. Double Norwich and the four commonly rung Surprise methods ought certainly to be included when the term 'Standard methods' is used, but probably the best solution of all is to drop entirely the word 'standard' in this connection. Can we have a recommendation from the Council, please?

What are we going to do about this suggested Freemason's Lodge for ringers? I hope this proposal is not going to be allowed to end in words. The suggestion of the Recorder of Lincoln ought to develop into something really good. There are many ringers in the craft, and a lot more would no doubt come in under such congenial conditions; indeed, methinks Alderman Pritchett, whose services to the craft have brought him signal honours, would probably do an even greater service to Freemasonry than any he has ever done (if the introduction of new members counts in the scale of service) by putting this lodge on its feet—or, ought I to say, laying the foundations and building the superstructure. I am not sufficiently versed in the 'rules and regulations' of the Order to express an opinion as whether such a thing is possible, but I make the suggestion that the lodge, although it may be founded in London, or Birmingham, or some other big centre, should have itinerant powers, so that it might meet in various parts of the country and so be within reach of many who could not otherwise attend its meetings, but who would, nevertheless, like to be in actual association with it. Go ahead, Alderman Pritchett; you will have a big backing in this scheme—and there is nice time now between this and the next banqueting season.

I have noticed lately, in one or two cases, that secretaries are complaining of unpaid subscriptions. The trade depression of these days is, no doubt, to be blamed for a good many of these arrears, for unemployment is, unhappily, as rampant among ringers as any other class. At the same time I am quite sure there is a good deal of unnecessary delay in paying their contributions on the part of some who ought to know better. Subscriptions to ringing societies are not a heavy exaction, and there ought not to be the difficulty in collecting them that I am afraid is only too often the case. As-

sociations cannot carry on without funds—I shall be told that all ringers know this. My reply is: Then why do they not see that the funds are provided promptly, not wait for the poor secretary to drag it out of them. He pays twice who pays quickly, they say, and it would be well if some of the sluggards took this proverb to heart.

There is great competition for the use of the only two twelve-bell towers in London where peals may be rung with any frequency, and the rivalry does not create any too friendly a spirit. I only hope that the numerous peal attempts on the famous bells of Bow will not ultimately result in the same thing happening there as appears to have happened at Cornhill. This latter church was at one time constantly accessible for peals, but the present position there is just the reverse—the almost inevitable result of ‘overdoing’ it in the heart of a great city. I suppose I shall be told that, so long as the church authorities are willing to give permission, there is no need to decline the opportunity afforded. That is true, but what if presently there comes a reaction—as it has come in regard to other towers. If anything of that kind happens at Bow and Southwark it will be a sorry day for the twelve-bell pealers of London. London has enough twelve-bell ringers to use all the eight towers in moderation, but the present position of affairs drives all the peal ringing into about three of them, and my fear is that sooner or later even these will be debarred for this purpose. That indeed would be a catastrophe.

And, while touching upon London ringing, one cannot help noticing how the London County Association is losing the characteristic which brought it, as the St. James's Society, into existence. Some of us are old enough to remember when it was really the common meeting ground of the two old London Societies. Now, while it is true that its membership embraces members of both the College and Cumberland Youths, it is becoming, if it has not already become, an entirely separate society, with no specially distinctive character. I believe that originally peals rung by the St. James's Society had to be by bands of half from the College Youths and half from the Cumberlands, but I daresay there are peals rung for the society to-day by men who are members of neither. But be that as it may, those who like to see the old traditions upheld regret to see how the London County Association, vigorous as it now is, has departed, in spirit, if not in letter, from the intentions of the original founders.

#### SUGGESTED ADDITION TO ISLEWORTH BELLS.

##### AN APPEAL TO RINGERS.

At the annual meeting of the South and West District of the Middlesex County Association and London Diocesan Guild, it was decided to try and raise money to supply two new bells to make a peal of ten at All Saints' Isleworth. The present eight are quite suitable for a splice, and it is strongly believed that a peal of ten in this part of the county would be of immense value in promoting change ringing in West Middlesex. The task, however, will have to be undertaken entirely by ringers and friends, the church authorities, although sympathetic, having no funds available for the purpose. The object is primarily for the good of ringers generally, and not particularly for an individual parish.

The approximate cost will be £185, and it is hoped that outside ringers will contribute generously to the fund. Collecting sheets will be supplied, and subscriptions received by

#### ABERAVON'S OLDEST RINGER.

The oldest ringer connected with Aberavon bells passed away on Sunday, March 1st, in the person of Mr. H. Perry, who had reached the advanced age of 77 years. He had been connected with the bells since 1871, when the old peal of five were hung at St. Mary's Church. He had rung no peals, but was always a regular Sunday service ringer up to about two years ago, when ill-health prevented him from taking part. His last long touch was a quarter-peal of Grandsire Doubles, with 4, 6, 8 behind, on August 7th, 1921. This was rung as a compliment to him on completing 50 years' service.

He was buried on Thursday, March 5th, when ringers of St. Mary's carried him to his last resting-place. The bells were rung half-muffled, after the funeral, and for both services on the Sunday following.

## BELFRY GOSSIP.

An attempt for a peal of 7,392 Cambridge Surprise Maximus is to be made at Bow Church, Cheapside, London, on Saturday, by members of the Middlesex County Association and London Diocesan Guild.

Apart from their weight (the tenor is 53 cwt.), Bow bells are a difficult peal to ring, and the task before the Middlesex men tomorrow is a very big one.

The Parish Church, Kingston-on-Thames, where a peal was rung last Saturday—the first for something like seven years—overlooks the spot where, in the course of the tenth century, seven Saxon kings were crowned. The stone upon which the ceremony took place is preserved on the site.

The bells are a mixed lot, the earliest dating from 1748, but there were eight there before that time, for the inscription on the present eight records, 'The 8 old bells recast, and 2 new trebles added to make X by subscriptions.—S. London, S. Belchier, collectors, 1748.'

There were 'Fyve great belles in the steeple a sauns hell and a chyme for the belles' in Edward VI's reign, and records of payments in connection with the bells are to be found in the Kingston Town accounts as far back as 1503.

In 1535 and 36 there is an entry that one of the bells fell. There are charges for mending the bell, and the 2nd and 3rd bells were recast at Reading.

The following expenses in connection with the casting of a bell in 1516 are interesting:—

The fourth bell was recast in 1566; and the great bell was sent to London to be recast in 1587-8.

A peal of 6,876 Grandsire Caters was rung at New College, Oxford, on March 22nd, 1734. Another and longer peal in the same method rung at Oxford was the 10,008 Grandsire Caters at New College on March 27th, 1815.

A peal of 7,104 Treble Bob Maximus was rung at St. Saviour's, Southwark, by the Cumberland Youths on March 22nd, 1802.

On March 23rd, 1887, a peal of 9,020 Grandsire Cinques was rung at St. Martin's, Birmingham, in 6 hours 17 minutes.

It was on March 23rd, 1837, that the celebrated Elijah Roberts tapped a peal of 19,440 changes on handbells. Roberts ended his life by suicide in the year 1865.

A 6,048 Albion Surprise was rung at Liversedge on March 24th, 1837.

The 27th March is memorable for a round twelve thousand of Treble Bob Royal rung by the Cumberland Youths at Shoreditch in 1784, and for the first peal of Superlative Surprise Royal, which was rung at Wakefield in 1826.

'Real Double Twelve In' was practised a good deal by the College Youths in 1784. On March 24th in that year they rang the 'first true peal' (which rather suggests there had been a previous false one). This was 5,160 at St. Bride's, Fleet Street, and two days later they went to Southwark and rang a 6,048, 'being the most ever yet rung in that method.'

From the information handed down to us by the 'Clavis,' the compositions had two bobs in one lead, and included courses 'which come by the great bells making bobs.'

The ringer of the treble in the peal of Superlative at Mayfield (published last week) was Arthur R. Miles, and not William Miles, as printed. A correction from the conductor reached us too late for the original report.

## THE CENTRAL COUNCIL.

The annual meeting of the Council will be held on June the 2nd (Whit Tuesday) next, at Chester. Full particulars of the meeting will be published later. Notice of any proposed motion should be sent before April 18th.

Will secretaries please note that the annual subscription is now due, and, together with the names and addresses of representatives, should be sent to the hon. secretary, Mr. E. Alexr. Young, of 155, Rushey Green, Catford, S.E.6.

## PRINCIPLES &amp; METHOD CONSTRUCTION.

BY THE REV. E. S. POWELL.

A principle is a collection of rows which form a round block in which—

(a) Each bell does the same work;

(b) No bell moves up or down more than one place at a time;

(c) No bell lies more than two consecutive blows in any one place. This definition appears to be perfectly clear and simple, but no one who has followed at all closely the recent controversies on the legitimacy and character of various new methods which have been put before the Exercise can fail to have noticed how frequently there has arisen a discussion, and only too often an acrimonious one, on the meaning of this term 'principle.' It must have been equally evident to your readers that the number of those who can be said to understand the definition, i.e., the meaning attached to it by its sponsors—the Methods Committee—is small indeed. The writer of the present article freely confesses that he has no knowledge of the history of the term, nor does he claim to have an exact understanding of its bearing as used to-day in the official publications of the Central Council. He must not, therefore, be regarded as criticising adversely the Legitimate Methods Committee for bringing forward the definition originally. Still less must he be charged with suggesting that the existence of this definition did not serve in its day a good and useful purpose in discouraging the publication of rubbish in the form of what were known in those days as mongrel methods.

Twenty-five years ago all the leaders of thought in the Exercise were confined to experimental means in their search for new methods to ring. A method was observed to contain so many places, so much dodging, and such and such hunting forward and (or) backward. That was all there was to it. But in the last quarter of a century attempts have been made to go deeper into the problem. Such questions as the following have been asked: What is it that brings it about that, if certain operations take place, bells after leaving rounds will return to rounds again? No one would be so foolish as to claim that the shibboleth 'Places' affords an answer to a question of that kind. Of course we know that if places A, B and C are made the bells return to rounds, but why don't they if places A, B and D are made?

It will probably be granted that the employment of the term 'Principle' in 'Rules and Decisions' arises out of the experimental stage of method construction. It may even indicate a groping after more scientific means than were then available. Allowing all this it may be true that its day of usefulness has passed.

It will hardly be forgotten that a rather unedifying controversy centred round the term in connection with a difficult method discovered by the late Mr. J. W. Washbrook. Even at that time it looked to some observers that the real merits of the problem, viz.: the value or otherwise of the method, were obscured by the quarrel as to whether that method could rightly be called a principle.

Probably again, this term had an intimate connection with the instinctive feeling of the leading minds in the Exercise of the importance of the so-called Bob Major lead ends. That they were right in their instinct is not to be denied, though it must be confessed that while the rights lay with the believers in those lead ends, the soundest arguments were then generally found on the other side, owing to the lack of knowledge by all parties of the fundamentals of method construction.

At the beginning of this year a plain, straightforward, simply worded article by Mr. Trollope was published in 'The Ringing World' showing the lines on which modern investigation into the genesis of methods is proceeding. Is there any longer need for the preservation of the term Principle? Would it not perhaps clear the air if a proposal were brought before the Central Council to put the definition into (say) cold storage? But before this could be wisely done, the opinions of those competent to express a considered judgment should be sought as to the value of the term at the stage of knowledge which has now been reached. In particular it would be useful to learn what the remaining members of the first Legitimate Methods Committee have to say about it.

So far as the present writer can see, for all practical purposes the term 'Principle' is now used as synonymous with 'Original,' except when some or other misguided person puts forth a method which he calls a principle, though it would equally have suited his purpose to describe it simply as a method. When this happens, it is (or is thought to be) necessary to correct the statement on the part of the Methods Committee. And thereupon follows the inevitable jovial dog fight. It certainly looks futile to the outsider, to say nothing of the undoubted fact that sympathy for the supposed underdog arouses in a good many minds an undeserved interest in a presumably worthless production. If it be true that the employment of this greatly debated term arises from the day of experimental and artificial regulation, the time has probably arrived when a fresh departure can be made in the general interest.

## NEW BELLS AT COOMBE.

OXFORDSHIRE RESTORATION AFTER FIRE.

A new peal of six bells, to replace those destroyed by a fire in 1918 were dedicated at Coombe, near Woodstock, on Sunday last, by the Bishop of Oxford. The peal have been put up by Messrs. Taylor and Co., of Loughborough, and have been hung on ball bearings. They 'go' so well that the local men, we are informed, found them difficult to handle, their previous experience of their bells being of a vastly different kind. Had it not been for some few keen members of the Oxford Guild, who cycled or walked miles to be present, and were thus able to give their assistance, one wonders what the result might have been, especially on an important occasion of this kind, there being no one present from the foundry to see that the bells were properly handled.

After the dedication service, the bells were rung by visitors from Oxford, Eynsham, Witney, Charlbury and Wootton, and the ringing included 720 Kent Treble Bob Minor, in 25 minutes, by W. Henagolph 1, T. Payne 2, F. Beckett 3, H. Tolley 4, F. Taylor (conductor) 5, F. Clineard 6. After evensong, Grandsire Doubles were rung, conducted by J. Keyte and J. Monk.

## YORKSHIRE ASSOCIATION.

EASTERN DISTRICT MEETING AT SELBY.

The annual meeting of the Eastern District was held at Selby, on Saturday, March 7th, by kind permission of the Vicar (the Rev. Canon Solloway, D.D.), and was attended by some 40 members, representing towers at Dewsbury, Doncaster, Goole, Hemingbrough, Horbury, Howden, Hull, Market Weighton, Pontefract, Sherburn-in-Elmet, York, and the local company. The fine peal of ten bells was kept going during the time allotted, and various touches were rung in the standard methods by the visitors.

Choral evensong was held in the Abbey at 4 p.m., where the Vicar delivered a most thoughtful and instructive address. This was followed by an excellent tea in the Co-operative Cafe.

The business meeting was held in the Hawdon Institute, Mr. W. Pearson, of Pontefract, occupying the chair, in the absence of the vice-president, Mr. A. E. West (Sutton).

A kind invitation was received from Thorne to hold the next quarterly meeting there, and this was duly accepted.

Six new members were elected: Messrs. W. Fox, A. Fox, J. A. P. Agar, J. Jackson, W. H. Waddington, of Pontefract (St. Giles'), and Mr. J. Douglas, of Huntingdon, York.

The retiring Ringing Master (Mr. H. Fairlam, Selby) was re-elected, as were also the three retiring committee men: Messrs. H. N. Imeson (York), J. F. Pickard (Pontefract), and D. England (Hatfield). Messrs. H. N. Imeson (York), J. E. Pickard (Pontefract) D. England (Hatfield), and A. Walker, senr. (Pontefract) were also elected to serve on the general committee.

A vote of condolence was passed with the relatives of the late Mr. W. Stephenson, of Goole, whose demise at the age of 17 is greatly regretted.

One also learned of the serious illness of Mr. G. Horner, of the York Minster company, and on the motion of Mr. H. Fairlam, seconded by Mr. W. Pearson, senr., a vote of sympathy was unanimously passed, with the hope of speedy recovery and return to health.

The customary votes of thanks were accorded to Dr. Solloway for the use of the bells, address and service in the Abbey, the deputy organist (Mr. Ellis) and the choir, for their valuable services; and to the local ringers for their excellent arrangements for the comfort of the visitors.

## DEATH OF MR. E. F. SLADE.

ESSEX RINGER DIES IN DURHAM.

We regret to record the death of Mr. Edward Frederick Slade, which took place at Harton, near South Shields, on Monday, March 9th. The deceased formerly resided at Braintree, Essex, and was a member of the Essex Association for many years. He was a regular service ringer at the Parish Church, and took part in many peals in the county, including the first peal of Major on Braintree bells.

He was for many years a member of St. Michael's choir, and a sidesman and member of the Parochial Church Council. During his residence in Braintree he was engaged with the Braintree and Bocking Gas Company, and was highly respected among a large circle of friends. The sympathy of his many Braintree friends is extended to his widow and son in their bereavement.

## WETHERSFIELD BELLS RESTORED.

After a silence of ten years, the bells of the Parish Church of St. Mary Magdalene, Wethersfield, Essex, have been retuned and rehung in a teak frame by Messrs. Mears and Stainbank.

On Wednesday, March 11th, at the invitation of the Vicar (the Rev. J. C. Sossiter, M.A.), the St. Michael's Guild of Ringers, Braintree, rang 720 Oxford Treble Bob Minor: C. H. Howard (conductor) 1, L. W. Wiven 2, W. H. Dyson 3, F. Ely 4, H. J. Collins 5, W. H. Hammond 6.

The bells are hung on the latest improved principle, with ball bearings, and the tone is much improved by their tuning. The work reflects great credit on the bell hangers, the 'go' being perfect, and every bell is hung to strike true. The bells will be reopened after Easter.

## SWANSEA AND BRECON DIOCESAN GUILD.

## SOUTHERN BRANCH AT SWANSEA.

A very successful quarterly meeting was held at St. Mary's Church, Swansea, on Saturday, March 7th. The bells are a fine ring of eight, and, in spite of the 'go' being a bit stiff, they were kept going from 3 p.m. until 5.30 to touches of Grandsire and Bob Doubles, Grandsire and Stedman Triples and Kent Treble Bob Major. The ringers then adjourned to a sumptuous tea, kindly provided by the Rev. Canon Wilson (Vicar of Swansea).

After tea, the business meeting was held, with the Rev. C. R. Thomas (Llanstephan) in the chair. It was decided not to hold a quarterly meeting in June, owing to the ringing contest taking place at Brecon on May 23rd, and the Guild general annual meeting at Sketty in June.

Thirteen new ringing members joined the Guild.

On the request of the chairman, the members all stood for a few moments as a token of respect to a very old ringing friend, in the person of Mr. H. Perry, of Aberavon, who passed away on Sunday, March 1st, at the ripe age of 75 years. Mr. Perry had been a very faithful ringer at St. Mary's Church, Aberavon, for upwards of 50 years, and was highly respected by all who knew him.

The Chairman proposed a very hearty vote of thanks to the Rev. Canon Wilson for his kind permission to use the bells, and for providing such a splendid tea. This was seconded by Mr. D. J. Lewis (Cadoxton), and carried with acclamation, Mr. J. A. Hoare being asked to convey the thanks of the meeting to the Canon.

The belfry was then revisited, and the bells kept going until well after 8 o'clock. The towers represented were Swansea, Sketty, Gorseinon, Llanstephan, Aberavon, Morriston, Cadoxton and Neath, about 40 members being present. They wish to thank Mr. J. A. Hoare for so kindly having everything in order for the meeting.

## ANOTHER GREAT BELL.

## A GERMAN 'MASTERPIECE.'

Cologne is now in possession of a huge bell, already consecrated, the cost of which has been met by the State Grand Municipal Levy and private subscription to replace the 'Kaiserglocke,' which towards the end of the war was lowered from its place in the south tower and cut up to be converted into munitions of war to be used against the French, even as it itself had been mainly cast from French cannon captured in 1870. In height 10ft. 9in., and 10ft. 6in. in diameter, it weighs 25,000 kilos, or just under 25 tons, thus ranking in point of size about fifth in Europe. It is richly ornamented with figures of St. Peter and the two patron saints of Cologne, St. Ursula—a British martyr—and St. Gereon, and on it are recorded the names of the cathedral dignitaries of 1922, when the bell was cast by Heinrich Ulrich, of Apolda, whose name is also recorded.

It is said that it is for its musical qualities that the 'Petrusglocke' at Cologne will become famous, for tests have proved it to be almost perfect. Indeed, Domkapellmeister Hartmann, of Frankfurt, one of the experts, who made most exhaustive tests, declares that the bell is unique, a masterpiece of the bell-founding art, which it would be difficult to equal throughout the world. The tragedy of the 'Petrusglocke' lies in the fact that Heinrich Ulrich, its maker, only lived to know that the bell he designed and made was tested and found true, and then he died before fulfilling his chief desire—to see his life's masterpiece in the Dom Tower, and to hear it ring out from its lofty position.

## THE GREAT BELL AT MOSCOW.

The largest bell in the world is, of course, the famous bell of Moscow. In 1651 a bell weighing 320,000 lbs. was cast, by order of the reigning Czar, which was destroyed by fire. In 1733 the present great bell was cast by order of the Empress Ivanovna by adding 80,000 lbs. to the metal of the old bell. In 1737 a great fire took place and communicated with the woodwork covering the great bell of 1733, and, the water coming in contact with the heated metal, a large triangular piece, about seven feet by two feet in size, was broken out. The bell remained in the pit till 1836, when, by order of Emperor Nicholas I., it was raised from the casting pit and placed on a stone pedestal near the Kremlin, in the presence of the great officers of state and the inhabitants of Moscow, to their great joy. The bells weigh 192 tons 3 qrs. 2 cwt. 14 lbs.; it stands 21 feet high; its diameter is 21 feet 6 inches, and the sound bow is 21 inches thick. The inscription it bears is a very long one, relating also to the original bell of 1651 as follows:

... Cast for the chief cathedral in the year 7162 from the Creation of the World and from the Birth by the Flesh of God the Word, 1654. ... This bell was cast from the 8,000 poods of copper (and tin) of the former bell that was destroyed by fire, with the addition of 2,000 poods of copper (and tin) in the year 7242 from the Creation of the World, and in the year of our Lord, 1734.

### BELL FUNDS.

The spirit which prompts the effort to raise funds to add two new bells to the peal at Isleworth is highly to be commended, and shows a faith in the generosity of ringers which, we hope, will not be found misplaced. The object behind the scheme, which we published last week, is to provide a peal of ten bells in a part of West Middlesex where facilities for ten-bell ringing are now very meagre, and is solely to promote the art. The church authorities are sympathetic, but they have no funds to assist the project; hence, if it is to be carried out, it must be financed by ringers. For this reason it is likely to prove a big undertaking. Ringers, as a whole, are far from being a monied class, and those who have endeavoured to raise funds for special objects have realised the difficulties.

The proposed memorial to Mr. J. W. Washbrook is still far from complete, yet here is a scheme which appeals to a wide circle from the fact that the object is to perpetuate the memory of one of the greatest ringers of all time; who was known throughout the country, and who had done, in his day, a tremendous amount of work among beginners which had a lasting effect upon the fortunes of the Oxford Guild, and later of those other societies with which he happened to be connected. The memorial is to consist of two bells to increase a peal of six to a ring of eight, and in that respect is very similar to the Isleworth proposal. At present, however, a considerable sum is required to complete this memorial, and we trust that no time will be lost by ringers throughout the Exercise in bringing this scheme to successful fruition. There must still be many associations who have not yet sent any collective contribution, and it is from this source that the bulk of the fund must come if the project is to be completed within a reasonable time.

At Isleworth the position is different to that at Oxford, in that there is nothing to make a countrywide appeal, and for this reason the promoters will have to make up with zeal what they lack in the way of a special cause. There have been cases where an association has made itself responsible for adding bells to a peal, notably recent instances of bells given in memory of ringers who fell in the war, so that a scheme of this description is by no means beyond the possibility of achievement. Unfortunately the Middlesex Association is itself not too well endowed with funds, and a big donation from this source is not to be expected. The venture, therefore, is likely to depend almost entirely on the individual members, and if they can successfully shoulder this scheme they will deserve every credit. Enthusiasm and work will do wonders, and we may expect both from the officials of

the Middlesex Association who will have to undertake the task. Reliance on outside help will, we are afraid, prove but a weak reed, but we hope the faith in which the scheme has been launched will be rewarded by a liberal response from all who desire to see the advance of ringing. Upon the men of Middlesex will mainly depend the success of the scheme, but there must be many others who will like to help.

## CENTRAL COUNCIL PEAL COLLECTION.

## SECTION III. CORRIGENDA.

Following the revision of Sections I. and II. of the Central Council's Peal Collection the correction of Section III. has now been completed. The following corrigenda will be printed by the Central Council, and issued in form to correspond with the original publication:—

Page 270, Line 1.—Read 'forty' for 'forty.'

Page 270, Peal 3.—For 35426 read 35426.

Page 270, Peal 5.—The note should read 'Single instead of Bob at 1, in the 12th and 24th parts.'

Page 271, Line 19.—Omit words 'two courses of.'

Page 271, Peal 6.—False (11,136 by W. Walmsley).

Page 271, Peal 7.—Omit final sentence—'By using . . . . . Bob Major.'

Page 272, Peal 8.—For 54263 read 54236.

Page 272, Peal 9.—For 6972 read 6912.

Page 272, Peal 9.—For 36542 read 56342.

Page 273, Line 9.—Add the words 'first and ' between the words 'except' and '7th.'

Page 273, Line 13.—Omit one t in 'bracketed.'

Page 273, Line 15.—Read (12) 5376.

Page 273, Peal 15.—For 53624 read 53264.

Page 274, Peal 16.—For 26343 read 26345.

Page 274, Peal 18.—Read 63542 bobs 1 and 6 not 4.

Page 274, Peal 19.—The calling given in the footnote for 5056 is false. It may be reduced to 5056 by calling Single for Bob at the first 6 instead of at the last 6, and omitting the second bob at 6 in the 5th and 10th parts. It was so rung, in a transposed form, at Northop, Flintshire, on July 8th, 1909, as the composition of the conductor, the Rev. H. L. James.

Page 275, Line 10.—Read 'bracketed.'

Page 275, Peal 23.—False (5040 by Rev. H. Earle Bulwer).

Page 276, Peal 25.—False (5,376 by E. Wightman).

Page 276, Peal 26.—False in its shortened form (5,056 by H. Dains).

Page 277.—In notes to peals 28 and 29 read 'full extent in 6th place, etc.' striking out '5.'

Page 278, Peal 30.—False in its shortened form (5,072 by H. Dains).

Page 278, Peal 32.—For 54236 read 54326. and for 23546 read 32546.

Page 279, Line 2.—For 23466 read 23456.

Page 279, Line 12.—Read 'bracketed.'

Page 279, Peal 35.—For 43256 read 43256.

Page 279, Peal 36.—Rung by Midland Counties Association on Feb. 5th, 1889, at Belgrave, Leicestershire, as the composition of Mr. J. W. Washbrook, who conducted it.

Page 279, Peal 37.—Read 42356 bobs at 1 and 6.

Page 280, Line 13.—Read 'bracketed,' and for 'latter positions,' read 'position.'

Page 280, Peal 40.—For W. W. Wilde, read H. W. Wilde.

Page 280, Peal 41.—False (5,376 by H. Tucker).

Page 283, Line 12.—Read F. Dench.

Page 283, Peal 49.—The direction should read 'Bob for S except in 1st and 4th parts.'

Page 284, Peal 51.—Put bob mark under 5 opposite 34265.

Page 284, Peal 52.—False (5,088 by J. Carter).

Page 284, Peal 54.—For 32646 read 32546.

Page 284, Peal 54.—False as printed (5,088 by Hy. Johnson). This peal has not been correctly copied from Snowden's Treatise. The calling of the 2nd, 3rd, and 4th courses should be as under, then the peal is true.

|-------|---|---|---|
|       | 1 | 4 | 5 |
| 32465 | — | — | — |
| 25463 | — | — | — |
| 53462 | — | — | — |

Page 285, Peal 56.—For 5248 read 5280.

Page 285, Peal 56.—Opposite 42563 put bob at 6.

Page 285, Peal 57.—Omit mark under 6 opposite 64352; for 34622 read 34625.

Page 285, Line 6 (from bottom).—Read 'bracketed.'

Page 287, Peal 62.—For 52365 read 52364.

Page 287, Peal 63.—Last course end should be 36524, with bobs at 1 and 6.

Page 290, Peal 73.—False in its reduced form (5,008 by H. Dains).

Page 290, Peal 73.—In footnote for 'first course' read 'seventh course,' and for 'either' read 'any.'

Page 291, Peal 75.—For 34256 (last course) read 34526.

Page 293, Peal 81.—For 5120 read 5248.

Page 293, Peal 82.—Instead of 'reduces to 5024' read 'Cuts out a course and reduces to 5040.'

Page 295, Peal 85.—Omit mark under 4 opposite third course 53624.

Page 296, Peal 87.—For 64524 read 63524.

In Lancashire Surprise, the construction is just the same, the Stedman blocks commencing with a whole pull the opposite way to Bristol, the 5th makes a peculiar variety of P. Court Shunt, taking up the whole half lead to complete it. This is because it gets involved in the Stedman block. Further, we may make the Stedman blocks, Bristol fashion on one side of the treble and Lancashire fashion on the other, either way about, and the half lead end is always 23456781.

In Royal it is possible to make use of two Stedman blocks above the treble and two below in each half lead. There is, however, overlapping of the middle pair, giving rise to a triple change when the treble is in 5—6; also the P. Court Shunts are cut out, leaving only R. Court Shunts in each position. From this circumstance, the method should be called 'Bristol Surprise Royal, Norwich Variation.' The bells at the half lead end are, of course, in proper coursing order, but, at a different stage to Major, consequent on the cutting out of the P. Court Shunts, the order is 4263850791 at handstroke. If no extremes are made when treble is leading and lying, we get the peculiar lead head 1860492735, from which, although it is a regular Bob Royal lead head, the bells run round after three leads only. The other lead head having this property is 1795038264, which results when extremes are used at the leading and lying of the treble, with a half lead end of 3527496081. These two lead heads, together with rounds, form a round block. Here follows the method. Extremes should be used.

N.B.—With Extremes it should be called Double Oxford Variation.

According to the different numbers of bells which may take part in the Stedman blocks the Method may be rung in 180 variations, of which 10 are symmetrical or double.

I now give Bristol Surprise Royal along with Mr. Craven's variation for comparison. It will be seen that in the correct form the (a) type of P. Court Shunt is used, whereas Mr. Craven uses one each of types (c) and (d), Major uses the (a) type.

The order in which the Court Shunts occur shows conclusively that Bristol Surprise Royal is the correct form. In Major they are in the order, R, P, R; in Royal this becomes R, P, R, P, R. In each of these the number of variations possible is 30, of which 5 are symmetrical, and quintuple and quadruple changes only.

Finally, in Maximus we can have a Norwich variation without overlapping of the Stedman blocks, and so having only sextuple and quintuple changes. The half lead end being 42638507T9E1 and lead head without extremes 18604T2e3857, and with both extremes 142638507T9e. In Bristol Surprise Maximus, the two central Stedman blocks overlap, the Court Shunts are in order, R, P, R; R, P, R; that is, Major duplicated and a Stedman block for each series R, P, R on each side of the treble. The half lead end is 3527496e8T01, and lead head without extremes 13527496e8T01, and with both extremes 1795e3T20486.

each may be further varied four ways, giving a grand total of 10,800 perfect methods. Enough for the most ambitious band. This variation is far superior to the one using P. Court Shunts. It is the Double Norwich of Treble Bob.

The Stedman five row block is not the only way in which plain hunting bells may be brought back to coursing order with dodging bells. For instance, four rows of slow hunting with only two bells taking part do the same thing. See Kent with treble in 1-2, or Albion Treble Bob with treble in all positions. Court Shunts can be used in simple variation of Albion.

#### GLOUCESTER & BRISTOL ASSOCIATION.

A quarterly meeting of the Swindon branch was held at Chippenham on Saturday, with a fair attendance. Ringing commenced at St. Paul's at 3 p.m., and continued until 4.30, when a short service was held, conducted by the Vicar, who gave the ringers a hearty welcome to Chippenham, and congratulated them on their beautiful form of service.

Afterwards, a move was made for the Waverley Hotel, where an excellent tea was provided. The usual business meeting followed, at which Mr. E. Bishop (Swindon) presided.

Rishopstone was proposed for the next quarterly meeting, in June, and two monthly meetings are to be held, viz., St. Mark's, Swindon, in April; and Purton in May. The party adjourned to St. Andrew's, where touches of Grandsire, Stedman, Plain Bob and Double Norwich were rung, after which the bells were lowered.

The following towers were represented: Swindon, Broad Hinton, Stratton St. Margaret's, Wootton Bassett and Devizes, together with members of the local bands.

A well-attended meeting was held at Lydney, Glos., on Saturday, March 14th. Mr. Davis was elected chairman, with Mr. Thomas as hon. secretary. Mr. T. Hart, junr., was elected representative upon the management committee.

There were numerous elections of honorary and performing members.

The next meeting will be held at Nownham.

This opportunity is taken to thank all visitors who helped to make the meeting a great success.

#### DEATH OF MR. HARRY HOLIFIELD.

##### A WELL-KNOWN ABINGDON RINGER.

We regret to announce the death of Mr. Harry Holifield, member of a well-known ringing family, which took place at his residence, 6, The Vineyard, Abingdon, on Friday, March 13th. For the past two months he had been ailing, but the end came rather suddenly, the deceased having only taken to his bed a week previous to his death. Mr. Holifield, who was 68, was born at Appleton, Berks, and started his ringing in 1884 by ringing a peal of Grandsire Triples, this being his first peal. After ringing several years with the Appleton Society he went to Hertford, where he rang a few peals with the Hertford Association. After seven years at Hertford he left, and took up residence at Abingdon, where he established his business as plumber and decorator.

He was a member of the Oxford Diocesan Guild and St. Helen's company, where he has scored a good number of his peals. He had kept no record of his peal ringing, but his total was upwards of one hundred peals in various methods. His longest performance was at Appleton, where he took part in the 10,043 of Grandsire Caters in November, 1921, and the last peal he rang with the Appleton Society was a peal of Grandsire Caters on March 4th, 1922. His last peal of all was Stedman Caters at St. Helen's Church, Abingdon, on Boxing Day, 1924. The deceased was a steady ringer, and a willing helper, and was much respected by all.

The funeral took place on Tuesday, March 17th, the first part of the service being at St. Nicholas' Church, Abingdon, where he was a member of the choir. The Rev. C. S. Fleet officiated. The interment took place at Appleton later in the afternoon.

As the funeral party reached the village, the bells of St. Laurence were rung deeply muffled. The coffin was met at the churchyard gate by the Rev. C. W. O. Jenkyn (Master of the Oxford Diocesan Guild) and the Rev. A. H. W. Theodosius (curate of St. Helen's, Abingdon), who conducted the service. The remains were carried to their last resting-place by four members of the Appleton Society—four of the Brothers White.

As the mourners left the grave 503 Grandsire Caters was rung, with the bells deeply muffled. The bells of St. Nicholas' and St. Helen's were rung muffled during the afternoon and evening, and the following towers were represented: St. Helen's, Abingdon; St. Giles', Reading; Witney, Cumnor and Appleton.

## BELFRY GOSSIP.

On March 24th, 1856, Hyde ringers rang at Hyde 9,600 changes of Grandsire Major. After the peal was rung, Mr. William Harrison, of Mottram, was presented with a valuable silver lever watch, and appendages, the gift of the Hyde ringers, as a token of regard for his attention during two years in teaching them the art of change ringing.

The attempt for a peal of 7,392 Cambridge Surprise Maximus at Bow Church, Cheapside, on Saturday, was unsuccessful, the ringing coming to an end in the eighth course, after nearly three hours.

There seem to have been no peals of record length rung at Bow, principally, we presume, on account of the weight of metal, although several long lengths were rung in the distant past at Southwark, where the bells are very little lighter.

But Southwark has long had twelve bells, while Bow was only made into twelve in 1881. They had been a ring of ten from 1762, but even so no Caters or Royal records were made on this big peal, the task being considered too great. But although no records have been made there, there have been some memorable performances.

Both the steeple and the bells of St. Mary-le-Bow perished in the Great Fire of 1666. They were rebuilt by Sir Christopher Wren, and an order for a peal of eight bells was then given to John and Christopher Hodson, the funds to pay for same being derived from the sale of the site of All Hallows', Soper Lane, which was not rebuilt after the fire.

When a certain local historian wished to give a lecture on All Saints' Church, Leicester, recently, he desired to bring in the bells and their inscriptions. One of the ringers obligingly pulled the bells up, and left them so, to enable him to get the inscriptions more easily!

A remarkable peal was rung by the eight persons as under, called the Quarter-peal of Oxford Treble Bob, all eight in, or the Union Bob, consisting of 10,080 changes which they rung in 6 hours 28 minutes on the 1st day of April, anno 1727. There was no change alike or bell out of course. This is the record of a peal at St. Michael's Coslany, Norwich, but in view of the limited knowledge at that date concerning the composition of such peals, it is considered highly probable that it was false.

The first peal of Grandsire Triples 'by Kent men only' was rung at Wye on March 29th, 1736.

A 6,000 of Treble Bob Maximus was rung at Southwark on April 1st, 1777, by the College Youths.

The peal of Grandsire Triples rung at Waldron, Sussex, and recorded last week, was rung on the 35th anniversary of the first peal rung by the Waldron band, viz., on March 15th, 1890. Six of the band are still alive, and one, Mr. Albert Reid, passed away on Feb. 13th this year, deeply regretted and sadly missed.

The Winchester Guild have a promising young ringer in John A. Cole, of Godalming, Surrey. Full of enthusiasm, he has shown perseverance and remarkable ability, and, seeking practice with the band at Holy Trinity, Guildford, he has within the space of three months rung his first peals of Superlative, Cambridge and London Surprise Major.

The peal at Oswestry, published in our last issue, was conducted by T. R. Butler.

## THE EXPERTS & THE EXERCISE.

To the Editor.

Dear Sir,—Your article in last week's issue I consider very fair and just. While agreeing with you that there are a vast number of ringers to whom articles dealing with theory do not appeal, yet there are doubtless some who, like myself, can follow all the pros and cons on either side, but yet are not able as these writers are to put our thoughts into words, or, rather, I might say, not so gifted with the pen. I may add that, although Mr. Trollope has given us some brilliant articles, I am more inclined to agree with Mr. G. Baker. I would also like to thank Mr. W. Taylor for his excellent exposition on the construction of Bristol Surprise and allied methods.

—Yours truly,  
Feering.

W. KEEBLE.

## BIRMINGHAM BELLS BROADCAST.

The bells at St. Philip's Cathedral, Birmingham, were again broadcast on Sunday evening.

Mr. G. Holmes, of Sheffield, writes:—

On Sunday I was listening in at my wireless, and was much surprised to hear the Birmingham station announce that the Cathedral chimes were going to ring. I listened to some very good Stedman Caters, I heard the course end 213546978 come up beautifully, and a hob at 2 made. Eventually at three minutes to eight the bells came round. I must congratulate our Birmingham friends on their effort.

# ST. PATRICK'S CATHEDRAL, DUBLIN

TO BE MADE A UNIQUE PEAL.

By the addition of another treble, the bells at St. Patrick's Cathedral, Dublin, are to be made unique among ringing peals. There is already an additional bell in the tower giving a choice of rings, and another bell above the present treble has now been offered, which will give a second peal of twelve, in D Minor, tenor 30 cwt., and a third peal of ten in F, tenor 19 cwt.

The bell is to be the gift of Lady Leeds Kay in memory of her husband, and the offer is only awaiting the formal acceptance of the Cathedral Board, which meets on the 31st inst.

Of the bells at present hung in the Cathedral, the back ten, with a tenor of 45 cwt. in C, were given by Lord Iveagh in 1897, and with them is an additional B flat bell. The late Lord Justice Cherry gave two trebles to make a peal of twelve in 1909.

Originally there was a ring of eight, and two of them, the 3rd (cast in 1670) and the tenor (cast in 1670 and recast in 1809), are still used for occasional services, and the rest of the old peal stand in a room in the tower.

ST. PATRICK'S CATHEDRAL.

## YORKSHIRE ASSOCIATION.

### BISHOP ATTENDS MEETING OF SOUTHERN DIVISION.

The annual meeting of the Southern Division was held at All Saints' Church, Sheffield, on Saturday, by the kind permission of the Vicar, the Rev. W. G. Largie, an honorary member of the association. With the exception of four, all the towers in the division were represented, and, with visitors from Chesterfield, Killamarsh, Norton and Workson, the number was brought up to 60, an attendance very gratifying to the officials, and, it is hoped, a good omen for future meetings, and the good of change ringing in the division. Various methods were practised during the afternoon, and a short meeting was held, at which the Vicar officiated. His very interesting address was very much enjoyed, as was also the splendid singing of the choir boys.

An excellent tea was served in the Institute, and the members were honoured by the presence of the Lord Bishop of Sheffield, and the president and hon. secretary of the association, the Rev. C. C. Marshall and Mr. P. J. Johnson.

Immediately after tea, the Bishop addressed the meeting, and apologised for not being able to take the service. He gave a very interesting address on the status of ringers in the service of the church, and the importance of that service.

His Lordship was accorded a very hearty vote of thanks, on the proposition of the president, seconded by the general secretary.

At the business meeting which followed, the Rev. C. C. Marshall was voted to the chair, and was supported by the Vicar, Mr. P. J. Johnson, Mr. F. Willey (vice-president), and Mr. G. Halksworth (Ringing Master).—Nine new members were elected, viz.: Miss Noel Cawthorne (Handsworth), and Messrs. A. Winn (Tickhill), R. Sarsby

(Conisborough), R. Macfarlane (Sprothorough), J. Tuke and T. G. Sarel (St. Maries), A. Marshall (Darfield), J. Greaves (Ecclesfield) and J. Parker (Ranmoor).

Mr. G. Halksworth (Doncaster) was re-elected Ringing Master for three years, and the retiring committee, Messrs. Cockey (Ranmoor), Wooler (Wortley) and Panther (Wath), were also re-elected.

Votes of thanks to the Vicar for the use of the bells, and for his address; to the organist and choir boys; and to the local company for the excellent arrangements made, were passed, and were replied to by the Vicar. This brought a most successful and enjoyable meeting to a close.

## MUFFLED BELLS.

At All Saints' Church, Gainsborough, Lincs., on Friday, March 20th, a quarter-peal of Grandsire Triples (1,260 changes), in 46 mins., by H. Cooper 1, F. S. W. Butler (conductor) 2, J. T. Bartram 3, J. Dixon 4, J. T. Ladd 5, C. H. Baker 6, H. Torr 7, E. Dalingwater 8. This was rung, with the bells half-muffled, as a token of respect to the late Mr. W. N. Harrison, who, for over 40 years, was a loyal church worker and a member of All Saints' choir; also in memory of Mr. Edward Pask, who for a considerable number of years was a ringer at St. Lawrence's Church, Corringham, and passed away on March 18th, at the age of 77 years.

At St. Mary's Church, Bucknall, Staffs., for morning service, on March 22nd, 720 Cambridge Treble Bob; for evening service, 720 College Exercise. Rung with the bells muffled as a token of respect to the late Mr. Arthur Barlow and Mr. Harold L. Barlow, both members of the Parochial Council, and sidesmen of the above church. The whole pull and stand was rung at intervals prior to the evening service: R. Preston 1, C. Bowen (conductor) 2, H. Billings 3, C. Preston 4, W. Wheeldon, senr., 5, W. Fradley 6.

## ROTHERHAM PARISH CHURCH BELLS.

### A MAGNIFICENT ADDITION TO YORKSHIRE PEALS.

In Saxon times, Rotherham seems to have been a place of some importance. It had a Saxon church, it also had a market, and a fair before the Norman Conquest. If there be any truth in the old tradition that its big neighbour, Sheffield, was at one period of its history 'A Vill, Near Rotherham,' one has now the effrontery to say it applies with more force to-day (when we speak of bells!) than ever it did in bygone days, when Rotherham had its market and fair, and Sheffield had no such privileges. Strange, how history repeats itself! To visitors the Parish Church of Rotherham is the chief object of attraction, its rare beauty is so great inasmuch that it gives interest to the very irregular township. The church is a most spacious and handsome fabric, built in the reign of Edward IV. on the site of a Saxon edifice, it is dedicated to 'All Saints,' and is indisputably one of the finest parochial places of worship in Yorkshire.

On Wednesday, March 18th, 'all roads led thither.' On entering the sacred portal we found it packed to the utmost of its seating capacity, a reverent congregation awaiting—what? The ceremony of the dedication of the recast ring of ten bells, recast and erected in memory of a true son of the church, a beloved and revered fellow-townsmen—Robert Dyson.

The impressive service commenced with the singing of the hymn, 'Pleasant are Thy Courts,' a shortened form of evensong followed intoned by the Vicar (Canon Allen). Psalm 122 was chanted, and a former Vicar, Canon Goodhall, read the special lesson from Numbers x, followed by the 'Nunc Dimittis,' which was also chanted.

At 3.35, the soul-stirring moment had arrived, beneath the traceried roof of that spire stood the Lord Bishop of the Diocese of Sheffield (Dr. Burrows), who dedicated the bells in the faith of our Lord Jesus Christ, to the Honour and Glory of God, and His Church, and in memory of Robert Dyson, and setting them apart from all profane and unhallowed uses. Anon, a sweet velvety note falls upon the ear as the treble is raised into the inverted position, reminding one of the pure, clear and poetic beauty of a silvery voiced choir-boy, whose voice rings out in solo as a preliminary to some great anthem. Picture the scene. A congregation standing in mute reverence, the stillness broken only by the odious hoot of some passing motor, dispelled the next moment by the harmonious song which burst forth from the brazen throats of the recast peal: through the old church on ethereal soundwaves their cadences ripple with soothing influence, and in majestic grandeur over the ancient township rolls the concordant harmony of these magnificent bells.

Never before in the chequered bell history of Rotherham had such a stately half-muffled requiem sobbed from lips of bronze, a lament, half sorrow, half exultation, in alternate permutation. Never before had such charming purity of tone, such temperament poured over the heads of a congregation in that church. Never before had a concourse of humanity assembled outside and listened to such a delightful and well-balanced Liturgy, to such a melting ritual of the soul.

The bells cease. The lingering vibrations die away, the grand old hymn, 'Hark! hark! my soul,' re-echoes through chancel and columned aisle. His lordship delivers an eloquent and impressive address, basing his remarks on 'A Bell and a Pomegranate,' and the ceremony concludes with the hymn, 'There is a blessed home.'

After service, the local band rang touches of Grandsire Caters, Kent, and Bob Royal, and a mixed band rang a touch of Double Norwich on the back eight, the bells were lowered in peal, and the locals adjourned to the residence of Mr. Dyson, who entertained them to dinner, along with other guests who partook of the donor's hospitality, as follows: Canon Allen (Vicar), Messrs. Elmhurst, Green, Smith and Hemmingway (churchwardens). Dr. Baker Dr. Knight, Mr. J. E. Knight, Mr. R. Fawcett (ex-wardens) and Mr. Dyson.

During the course of the evening, Mr. Dyson referred to a thing that weighed most (apart from his own opinion of the musical qualities of the old peal), when it came to a question of recasting. There was within recent years a peal of twelve (not many miles from home), which had had quite a considerable sum of money spent upon them with very little improvement, and it was not his (Mr. Dyson's) intention to have the job 'half done' at Rotherham!

With regard to the renovation and recasting which have been so generously undertaken as a memorial to the late Mr. Robert Dyson, the cost being defrayed by the widow, Mr. W. Dyson and Mrs. Knight (son and daughter) 'moves up to the hilt' that the Dyson family have always taken a deep and sincere interest in Rotherham Church, and difficult it would be even to try and estimate the extent of their munificence.

Concerning the old peal, 'Guest' writes about the opening, which took place on Easter Monday, 1822, when ringers from various parts of the country assisted in producing 'Tintinnahuly Clatter.' Truer words never were written and in confirmation of the historian's remarks of 1822, we have the honour to add our testimony a century afterwards, even less brief, 'they was!'

Thanks to the Dyson family, the cacophonous peal is 'hushed' the shrieking syrens, which only a lay mind would designate 'Trebles' are gone! That detonation, a dominating fiend, formerly known as 8th, which hid a multitude of ailments of her less lusty but equally dissonant 'Step-Sisters,' is gone! In fact, they have all—including that poor thin 'De-noted' tenor, who gave us persistent de-de-demonstrations of acute bronchial trouble—gone into the fiery cauldron, and they have all arisen, phoenix-like, from their own ashes!

The old oak frame has been removed. The donors had determined that only the very best should be done; therefore they commissioned Messrs. Taylor, of Loughborough, to recast and rehang the bells on modern principles, and a new steel and iron frame has been specially designed to suit the tower, and remove the hitherto unequal strain on the fabric. Massive steel girders now brace and bond the walls, forming at the same time a foundation for the new framework, with two additional pits prepared for the 'next' augmentation to twelve.

The whole job is a most magnificent piece of engineering skill, and reflects credit on the founders. The old tenor weighed 31½ cwt., the new one is increased to 34½ cwt., and on the day of dedication was raised by one man, and 'clattered-up-right-side!' This alone speaks volumes for the firm, who have introduced a superior type of clapper and other manifold improvements in hanging. All the bells are hung on patent ball bearings, and the only comment made on the 'go' is that 'they are perfection!'

A redistribution in the weight of the metal has 'hurled the thick treble theory out of sight' and worked 'wonders' (not imaginary) in conjunction with 'Taylor's harmonic system' of tuning, and has brought into being that which never before existed in the Rotherham peal, i.e., an equal temperament, combined with an absolute purity of tone. The former 'clatter' and dissonance is blotted out; in its stead, beautiful sonorous tone, and rich volumes of sound reign supreme!

The old 'Harmonious' inscription is reproduced in facsimile on the recast tenor, with this modest addition:—

'This peal of ten bells was recast 1924

In memory of Robert Dyson.'

The remaining nine each bear the inscription:—

'Recast 1924, John Taylor and Company, Bellfounders, Loughborough.'

Come, little judges, big judges, or judges of assize, find the founder (living or dead) who has cast, tuned and hung a peal that can be placed on a higher artistic, musical, or engineering plane than the 'Dyson' peal of ten at Rotherham!

## THE CENTRAL COUNCIL.

The annual meeting of the Council will be held on June the 2nd (Whit Tuesday) next, at Chester. Full particulars of the meeting will be published later. Notice of any proposed motion should be sent before April 18th.

Will secretaries please note that the annual subscription is now due, and, together with the names and addresses of representatives, should be sent to the hon. secretary, Mr. E. Alexr. Young, of 155, Rushey Green, Catford, S.E.6.

## A GREAT ADVENTURE.

Mr. Connor O'Brien, of Dublin, who was an active ringer in London and Guildford several years ago, and who set out in 1923 for a voyage round the world in the 25-ton ketch 'Saoirse,' arrived at Port Stanley, Falkland Islands, about the end of December last.

The 'Saoirse' sailed from Dublin on June 20, 1923, and called at Madeira, Pernambuco, Capetown, Durban, Melbourne, Picton, Napier, and Auckland. The vessel arrived at Auckland on May 25th of last year. On July 16th she left for a trip to Tonga, from where she returned about a month later. After refitting at Auckland the ketch took her departure from New Zealand on October 22nd, on her long journey back to Dublin via Cape Horn. On her arrival at Port Stanley the small vessel had travelled about 20,000 miles.

## A CORRECTION.

In the composition of the peal of Grandsire Triples (by Mr. Samuel Jones) published last week, the rows opposite the first two singles were transposed. The peal should begin as follows:—

|        |        |
|--------|--------|
| 234567 |        |
| 752634 | 1      |
| 237546 | 3      |
| 562437 | 1      |
| 5      | 735246 |
| 627435 | 2      |

To the Editor.

Dear Sir,—The peal of Grandsire Triples by Samuel Jones, given in your last issue, is W. Matthew's 12-part, and will be found in the C.C. Collection, No. 63, except that the 2nd and 3rd calls are reversed in the version published last week.—Yours, etc.,

Leicester.

## THE CRITICISMS OF 'CRITICUS.'

## PAID RINGERS—THE GLOSSARY.

We sometimes discuss among ourselves the propriety or otherwise of the payment of ringers in these days. I am with those who say that we ought to be a purely voluntary body; giving our services (except in special cases) for the pleasure which we get out of our art. I have usually found on my travels that the bellries where the visitor is least welcomed are those where the ringers receive some miserable pittance for ringing the bells on Sundays; and it is certainly the general rule that paid ringers are less concerned about their change ringing than their 'remuneration.' I can never quite follow the anxiety of some men that I know, who hang on to the 'loaves and fishes,' and set themselves against the introduction of young blood, because they are afraid it may affect their pocket to the extent of a few shillings a year. There are very few, if any, cases where the ringers are paid a sum at all commensurate with the time they give, and if the practice of paying ringers is to be continued ought there not to be a trade union to secure a proper recognition of the services rendered?

The extracts from ancient accounts which were given in 'Belfry Gossip' last week induced me to return to a perusal of some old records, reproduced in Mr. Cheetham's 'Church Bells of Lancashire.' They used to pay the ringers pretty well for their job at St. Nicholas', Liverpool, a hundred and more years ago. Eighteen shillings seems to have been the price of the services of six men for special occasions, with a lump sum of £16 17s. 6d. for their Sunday ringing for one year. In the year 1799 they paid six men for ringing on the King's birthday, on June 4th, 18s.; and a similar amount on each of the following occasions in the same year; July 12th for the news of General Suwarrow's victory; August 12th, for the Prince of Wales' birthday; August 19th, for the news of the taking of the Dutch fleet; September 5th, for news of taking of Alexandria and Mantua; September 22nd, for the King's Coronation; October 25th, for the King's Ascension to the throne; November 5th, for Gunpowder Plot; December 25th, for ringing on Christmas Day and New Year's Day. In addition, they had £3 3s. for 'ringing 3½ days for Bishop.' They do not pay for as many 'extra' days in these times, even in the best remunerated bellries.

These ancient records from parish documents make interesting reading. At Liverpool the men were encouraged to attend church, for in 1746 it was 'Ordered that a peal shall be rung at the old church every Sunday, both morning and afternoon, at the time of going into church, and that the ringers shall have liberty to sit in the seat next to the bell house door, and that the Sexton take care to secure the same for them.' Apparently about this time they used to inflict the 'passing bell' upon the parishioners for so long at a stretch that a special order had to be issued to limit it. Probably the sexton was paid by the hour; anyhow, to curb his enthusiasm in this department, on Sept. 21st, 1752, 'it is ordered that no passing bell be tolled at any Parish Church in this town longer than an hour upon no consideration; and if the sexton suffer it, that he pay for the use of the Parish five shillings for every offence, to be received by the Church Wardens for the time being.'

Paid ringing has been with us as long as ringing in the form we know it has existed. The Church book of Childwall records that in 1635 a meeting of parishioners ordered that 'he that keepeth the clock and ringeth curfews shall have xiid. per annum for his paynes; and also the ringers vis. viiid. per annum to ring every Sunday in this manner following, to witt, the sexton one peale att seven of the clock, the clark and sexten another peale at eight of the clock, and the clark, sexton and the other ringers another peale att nyne of the clock.' There are many other quotations which I should like to give, which I am sure would interest my readers, but I have quoted sufficient history to show that the paid ringer is a relic of the 'good old days,' and any attempt to rob him of his traditional emolument is bound to be resisted. Personally, as I have said, I look forward to the day when all ringing for services will be entirely voluntary; but if that is not possible, why should there not be an agitation to make the punishment fit the crime—or the payment fit the job?

Looking through these old records, I came across several ancient, and, to me, strange, expressions in regard to bells. In seeking information, I naturally went to the 'Glossary,' published by the Central Council, and, in turning over the pages I could not help feeling that it is nearly time this very useful little book was brought up-to-date. It was published in 1901, and there are terms which we now use which ought to find a place there, and some, which are already there, that require amending. When the 'Glossary' was published it supplied all that was required by way of definitions, but we have progressed since then, and there is substantial revision necessary. For instance, the classification of methods wants dealing with. The various grades such as 'Pleasures,' 'Delights,' etc., up to that jaw-breaking word 'Passalatesera' (or whatever it is) are not included, and even 'Surprise' is given the entirely obsolete definition of 'a name attached to certain Treble Bob methods, in which

the work of the course is highly elaborated and more or less difficult of execution.' That, of course, satisfactorily filled the bill a quarter of a century ago, but it is quite out of the running in these more scientific days.

But the part which to my mind requires most overhauling is the appendix, in which a large number of methods are 'described.' The description may be accurate, so far as it goes, but I defy anyone who does not know any of these methods to ring them from a mere study of the explanation given. Something much more readily understandable by the ordinary intelligence is necessary, and the Council might well set to work to revise this part of the book, if—and I say 'if' advisedly—it is really worth while to include this appendix. Most of the methods given are already included in other text books, and more explicitly dealt with. But if they must be given, let them be so set out that they can be understood by anyone approaching them from the standpoint of a learner. The 'Glossary' is a little volume that ought to be in every ringer's possession; it is one of the most valuable of the Council's publications, and I hope it will not be long before they set about its revision. These jobs take time. It would probably be two years from now before any revised copy would be ready for printers, and it would be unwise to wait until the present edition is exhausted before taking the matter in hand.

## STEPS OR SHUNTS.

To the Editor.

Sir,—It is unfortunate that Mr. Baker and Mr. Williams should have taken my little joke so seriously. I thought I had exaggerated so obviously that no one could be hurt. I can only say, I am very sorry.

I am, however, glad to avail myself of this opportunity of saying that I have all along felt sure that Mr. George Baker has the truth of the matter in him, but that he does not seem, so far, to have made it clear to the Exercise in general. If I could help him to do so, I should be only too glad. I have in the past adopted Mr. George Williams' suggestion, and asked him for information (if not in your columns at any rate in 'Bell News' in the past), but I regret to say it was not forthcoming.

Those from whom I have learnt to preach or speak or write, have impressed on me the importance of always directing my arguments to the person with the least intelligence among those whom I am addressing. In what I have written lately, I have adopted this role, that of the least intelligent of those whom Mr. Baker, for instance, is addressing. So when he says (so kindly) that he cannot give me brains to understand, or when Mr. Williams says I show a want of knowledge of the subject, it proves that I have succeeded in what I set out to do; but I am sadly afraid that it also proves that they have not succeeded. For if I do not understand, or do not know, and yet am sufficiently interested to discuss these matters, surely I am quite the sort of person for whom they are writing. Mr. Baker cannot really mean that he gets you to print his articles just for the 'three persons in the United Kingdom, and one in far New Zealand,' of whom he speaks.

Your article in defence of these technical discussions is very much to the point, and I am sure you will agree that if such discussions are to be profitable to as large a number as they should be, everyone must always be careful to 'define their terms'; and especially to avoid misleading new readers by using confusing names, of which the word 'Shunt' is a glaring example.

In conclusion, may I give an instance of the needless difficulties which Mr. Baker supplies, by asking him when he has adopted the term 'Shunt' (or Step), why he goes on to speak of Double, Two-Bell and Four-Bell Shunts' (or Steps), without explaining the exact difference these epithets imply?

And why, when he has been told repeatedly, that the words 'proof of construction,' convey no meaning to us, does he go on using them? Ringing may be in some ways an abstruse art; but the English language is easy enough if we only use it properly.

## A NUNEATON RINGER'S DEATH.

On Saturday, March 21st, the mortal remains of Mr. John Bollard were laid to rest in Nuneaton Cemetery. The deceased, who passed away, after a long and painful illness, had been a member of the Nuneaton Parish Church Ringers for upwards of 30 years. He was an excellent tenor man, and had rung the treble to a number of peals of Grandsire Triples and Bob Major. Although he never aspired to great things in ringing, he was most regular in attendance for service ringing, and had a very genial disposition. He was always ready to take a rope or to stand down if the ringing was above his standard.

After the funeral, the Nuneaton company rang several touches, with the bells muffled, as a last mark of respect.

**LONDON COUNTY ASSOCIATION.****NORTHERN DISTRICT MEETING.**

A most successful meeting of the Northern District was held at the Church of St. John of Jerusalem, South Hackney, on Saturday, about 30 members attending, including a few visitors from the Southern District, whose presence was greatly appreciated. Ringing commenced at 3 p.m., and several good touches in standard methods were rung during the afternoon.

The company afterwards attended service, conducted by the Rector, who extended a hearty welcome to the association, and delivered a most interesting address.

A very substantial tea was provided at St. Andrew's Hall, Wells Street, by the kindness of Mr. Alleyway (District Master), Mr. Riley and Mr. Attwater, after which the business meeting was held.

St. Matthew's, Bethnal Green, was chosen for the next meeting, to be held on May 16th.

Hearty votes of thanks were accorded to the Rector for the use of the bells; to Mr. Riley (steeplekeeper) for having the bells ready; and to Mrs. Alleyway and friends, who waited at table.

After listening to a short touch on handbells a move was again made to the tower, where several good touches, including Double Norwich and Cambridge Surprise Major, brought an enjoyable evening to a close.

**BARNESLEY & DISTRICT ASSOCIATION.**

A meeting was held at Darfield on Saturday, March 14th. Ringers were present from Anston, Badsworth, Barnsley, Hoylandswaine, Ecclesfield, Ranmoor, Rotherham, Wath, and members of the local company. The bells (six) are all ancient, and for years past have been the despair of change ringers. Happily they are now safely housed in a strong steel and metal frame, fitted with modern fittings. The tenor bell was believed to weigh 20 cwt. It has now turned the scale at 14 cwt. A table is now hung in the church giving measurements, weights, notes, age, inscriptions, etc., of the bells.

Ringings commenced at 3 p.m., and service was held at 4.30. The Rector (Canon Sorby) was absent, through illness, and the curate (the Rev. — Wilson) read the prayers. The Rev. J. R. L. Nicholls (Vicar of Ranmoor, Sheffield), who preached a short sermon, is an able ringer in standard methods, and needless to say, his presence and sermon were highly appreciated.

Tea followed in the Church Schoolroom. The above-named clergy were present, and warmly thanked for their great kindness.

Ringings followed after tea and business meeting in many pleasing variations of Treble Bob. One touch of Darfield seemed to be pathetic. It is the last method composed by the late Mr. W. Woodcock, and one which he did not live to ring himself.

**CHRISTCHURCH CATHEDRAL, NEW ZEALAND.****BELLS OVERHAULED AND RINGERS ENTHUSIASTIC.**

Quite recently the fittings of the fine ring of ten bells (tenor 28 cwt.), at Christchurch Cathedral, New Zealand, have been overhauled, with the result that the whole peal is now in good going order.

The furnishings in the belfry leave very little to be desired, everything being well ordered and clean. An oak cupboard of handsome design is the receptacle of a handy set of musical handbells. It also contains the complete series of Snowdon's works, tastefully bound, in addition to other literary matter on change ringing. Tablets on the walls record the performances of two peals of Grandsire Triples, and one of Bob Triples. Not the least pleasing feature to a ringer from the homeland are portraits of change ringing celebrities of the last generation.

The local ringers—an enthusiastic body of young men—ring rounds and call changes quite creditably. They are anxious to learn change ringing, and would welcome the advent of an instructor, who would have sufficient leisure to drill them to efficiency. The following took part in the ringing on New Year's Eve: G. H. Claydon, J. S. Wilde, F. H. Perkin, A. D. Dunkerley, W. D. Sloan, A. G. Cusdin, H. T. Lang, and G. N. Sloan (hon. secretary).

**OXFORD DIOCESAN GUILD.****SONNING DEANERY BRANCH.**

A combined ringing practice was held at St. Paul's Church, Wokingham, on March 21st, when the bells were utilised for three hours by the twenty members who attended from St. Laurence's, Reading; Binfield, Sandhurst, Hurst, Wargrave, Twyford, Waltham St. Lawrence, and Wokingham. The Master (the Rev. C. W. O. Jenkyu) and the general sec. (Mr. R. T. Hibbert) attended, and their help was very welcome. The following methods were practised: Grandsire, Stedman, Plain Bob and Kent Treble Bob.

### THE REVIVAL IN THE FYLDE.

It is gratifying to read that at length there seem to be signs of real revival in the Fylde district of the Lancashire Association, where, for a long time past, apparently unavailing efforts had been made to create interest and enthusiasm in ringing. For years the officials, and particularly the secretary, have had an uphill and disheartening task, and less stouthearted men would long since have thrown up a thankless and discouraging struggle. Patience and perseverance appear now to be reaping their reward, and support such as that which was forthcoming at last Saturday's meeting must have been a matter of great satisfaction. Only those who have tried to build up an organisation in the face not merely of apathy, but of discouragement, if not of actual hostility, have any notion of the difficulties which have to be confronted, and only enthusiasm for the cause, coupled with great tenacity of purpose, can overcome the trials that confront the organiser. The report of last Saturday's meeting shows that at last Mr. Sharples is meeting with the success for which he has so long laboured.

Now that the district is really awaking to its own interests, there is hope that steady progress in the Fylde may be assured. Among the large associations, the Lancashire is one of the most virile, but in parts the county presents no small difficulties of organisation, difficulties which patient labour is sure to overcome, and the lesson of the Fylde ought not to be lost. The one thing that astonished us is that ringers, professing even a limited interest in the art, should ever be so apathetic over the activities of their association. This apathy is to be found in many places, and is by no means limited to any one society. All associations suffer from it in some area or at some time, and strong and persistent efforts are required to overcome it. Unless the officials are themselves keen, hands will lapse and eventually break away from the parent organisation.

It is not easy to find a quick solution of the problem. Can the associations make themselves more attractive than they are? It is not enough to ask a man to join an association merely for the moral support which he thus gives to it, for, while we always argue that a ringer should seek what he can put into the art rather than what he can get out of it, we hold that the big organisations should make membership as attractive as possible. In many cases they do not do all that is within their power for backward companies—backward not only in the ringing sense, but also in their sense of duty to their association. As we have so often pointed out, the aims and

duties of an association are not completely met by the mere holding of quarterly meetings. Wherever there is a backward band, or one where progress is slow, the parent society ought to get right into that belfry, and not leave it until the company is well on the high road to success. There are a few cases, perhaps, where such help would not only be unwelcome, but probably resented. Instances of this kind require tactful handling, but they can be overcome, and discouragement need not come with rebuffs. But in the vast majority of cases steady and consistent help such as we have suggested would be gladly accepted, and in the long run the association would profit from the loyalty and support which it would gain.

**MR. H. J. TUCKER LEAVES BISHOP'S STORTFORD.**

On Wednesday, March 18th, the local company at St. Michael's Church, Bishop's Stortford, with four fingers from Stansted, met at their church for a farewell gathering with Mr. H. J. Tucker, who, for domestic reasons, has now left the district. A quarter-peal of Grand-sire Calers was attempted, the ringing being stopped when the 7th course was reached on account of a bereavement that day near the church. The ringers were: F. Springham 1, F. Bird 2, Wm. T. Prior 3, G. Jordan 4, W. Prior 5, T. Jordan 6, T. J. Watts 7, H. J. Tucker (composer and conductor) 8, H. Dew 9, W. Wilkinson 10.

By his departure, Mr. Tucker severs a life-long connection with the town, in which his family has resided for generations. It is interesting to note that Mr. Tucker's grandfather was appointed sexton of St. Michael's Church in September, 1826, and held the appointment till his death in 1863, when his widow succeeded to the position. She was followed by Mr. Tucker's father in 1879. Mr. Tucker himself succeeding his father in 1888, and retiring in 1902. Mr. Tucker has been associated with the bells since earliest childhood, and one or two of his peals have become almost 'classical' compositions. The good wishes of the ringers were tendered him, and regret was expressed that his connection with the tower is now severed.

**A DATE TOUCH.**

At Ellesmere, Shropshire, on Tuesday evening, March 24th, a date touch of Stedman Triples (1,925 changes), in 1 hour 15 minutes: R. Biggs 1, G. H. Edwards 2, A. Allen 3, A. Haynes 4, T. Butler, senr. (composer), 5, W. S. Higginson 6, T. R. Butler (conductor) 7, W. Higginson, senr., 8. Rung on the occasion of the visit of the Bishop of Lichfield to this parish for Confirmation service.

WEST GRINSTEAD. — At St. George's Church, for evening service, on Sunday, March 8th, 720 Baintree Treble Bob: V. Turrell 1, T. Adams 2, G. Warnett 3, R. Stodwick 4, H. Turrell 5, W. Denman, junr. (conductor), 6. First in the method on the bells, and by all the band. — On Thursday, March 12th, 720 Baintree: V. Turrell 1, F. Turrell 2, G. Warnett 3, V. Coatcher (first in the method) 4, H. Turrell 5, W. Denman, junr. (conductor), 6.

**PRESHUTE BELLS RESTORED.****REOPENING OF RECAST RING.**

After an interval of two years the bells of Preshute Church were rung for the first time on Saturday, March 14th, when, having been recast and rebung, they were dedicated, in the presence of a large congregation, by Canon R. C. Abbott, a former housemaster at Preshute House, and now Sutrangan Bishop-designate of Sherborne.

Canon Abbott, previous to the dedication, delivered a very forceful address on the uses of the church's musical instruments, particularly bells. He said that in the early history of the church the bells were considered so holy that only the priests, by virtue of their holy office, were allowed to ring them. He spoke of this because he wanted the present-day ringers to realise the sacredness of their office as ringers.

He then dedicated the bells, handing them over to the care of the Vicar and wardens. While the Canon and clergy returned to the chancel, rounds were rung by the local ringers.

After the service, touches were rung by various bands, including ringers from St. Mary's, Marlborough; St. Peter's, Marlborough; Ogbourne; Ogbourne St. George; St. Catherine, Collingbourne; Redwyn, East Grafton and other towers.

The members of the Salisbury Diocesan Guild were afterwards entertained to tea by the Vicar and Mrs. Bartlett.

The five present bells have been cast from the old metal made up to the weight of the former ones, with shape, moulding, dates and inscriptions carefully reproduced. The recasting and fitting of the bells have been ably carried out by Messrs. Gillett and Johnston, of Croydon.

Replying to a vote of thanks proposed by the Rev. H. S. Arrow-smith, the hon. secretary of the Marlborough Branch of the Diocesan Guild, the Vicar said how pleased he and Mrs. Bartlett were to welcome so many ringers and friends. He hoped to meet them again before long, when a Guild meeting could be arranged at his church. On behalf of all the subscribers and parishioners, he wished to say how pleased they all were with the bells—his ringers had told him the 'go' was perfect—and he wished Mr. S. Roper, who was representing Messrs. Gillett and Johnston, to convey their best thanks to Mr. Johnston for all the trouble his firm had taken.

The tone of the restored bells is particularly good, the mellow richness of the tone of the old bells having been retained and improved by their having been tuned on modern lines.

As a continuation of the dedication festival, a special service was held on the Sunday morning, at which the Mayor, aldermen, councillors, firemen and Corporation employees of Marlborough were present. The Marlborough town band, taking their stand in the belfry, accompanied the hymns. Marlborough Boy Scouts were also present. Before and after this service the bells were rung by the local ringers.

**APPLETON'S 'FOURTH OF MARCH.'****ANNIVERSARY OF FAMOUS BELLS CELEBRATED.**

The time-honoured 'March the fourth day,' being the day which saw the commencement of the famous ring of ten at Appleton 107 years ago, was celebrated this year on Saturday, March 7th, it being generally agreed by those most concerned that it is worth moving from the actual fourth in order to secure a day in the week which is convenient to most people. No peal was attempted, but the tower was open for ringing to all-comers; an arrangement much appreciated, if one may judge from the way the bells were kept going in Stedman and Grandsire until 4 p.m. That being the hour of dinner, it then became apparent that a goodly number of visitors had been in and about the village during the day, sufficient anyhow to test the compass of the Thatched Tavern to the utmost. Many came who had been often before—notably Mr. G. Phillott, who is on the way to keeping his jubilee 'Fourth.' These renewed old friendships; others came for the first time, and made new friends and vowed to come again.

The Master, treasurer and secretary of the Oxford Diocesan Guild supported the Rector (the Rev. F. C. R. Jourdain) and the heads of the Appleton Ringing Society, Messrs. G. Holfield and R. White. Dinner was well served by Host and Hostess Brown, the 'sperrit' as usual being on the menu.

Then followed 'the afterwards,' when diners from two rooms managed to insert the greater part of themselves, their pipes and glasses into one, and movements had to be carefully thought out beforehand; indeed, one was reminded of the tale, 'Father says turn and we all turns.' Many songs were sung, and speeches made, but the most popular item as usual was tune ringing on handbells by the Brothers White. Beautiful bells! Cast in the village; and they were ably handled.

Some time before the end of the evening the writer had to leave, but he was assured that the remainder consisted of much more of what was good.

**A PEAL OF DOUBLE NORWICH.**

To the Editor

Dear Sir,—In your last issue of the 'Ringing World,' under the heading of the 'Central Council Peal Collection,' you have stated that my peal, No. 52, of 5,088, on page 284 of this collection, is false. Permit me to point out that the peal, as sent by me, is quite in order, but it has not been printed in the collection correctly.

I am sending you herewith a copy of the peal as it should appear, and will ask you to kindly let this be known in your next issue.—

JOHN CARTER.

## NOISY BELLS: ADVICE WANTED.

To the Editor.

Dear Sir,—Can any of your readers give me any practical advice as to the utility of blocking up the louvres of a bell chamber with corrugated iron, or 1½ inch boarding? The cost of corrugated iron being half that of 1½ inch boarding, it is a question whether that material would prove effective in lessening the sound thrown down on surrounding buildings through the acute slant of our louvres, which, unfortunately, are fixtures.

I am asked by our Parochial Church Council to furnish this advice, and should welcome any information which some of your many readers must have gained by practical experience.—Yours truly,

10, Elm Grove,

Newport, Isle of Wight.

## THE LADIES' GUILD.

Members of the Midland District held their quarterly meeting at Edgbaston Parish Church on Saturday, March 14th, when ladies were present from Evesham, Broomsgrove, Solihull, Smethwick and Handsworth. Mr. Freemantle (parish clerk) had the bells ready for the visitors, and later, with Mr. H. Wilhers and other gentlemen, gave valued help. The Vicar (the Rev. Canon S. Blofeld) was not able to be present, but Mrs. and Miss Blofeld gave the ladies a hearty welcome. The curate took the service, and joined the visitors at tea, which was provided by the churchwardens, and, needless to say, was thoroughly enjoyed by all. Miss Foulks, of Duffield, was elected as a ringing member, and Mrs. Robinson, of Solihull, as a life member.—A very hearty vote of thanks to all brought the meeting to a close.

## RESTORATION OF SKELTON-IN-CLEVELAND BELLS.

REOPENING OF A FINE PEAL OF EIGHT.

The bells at Skelton-in-Cleveland have been reopened after restoration. They have been rehung on ball bearings, and put into proper working condition by Messrs. Mears and Stainbank, of the White-chapel Foundry, and ringers from Middlesborough, Saltburn, Darlington and Stockton (totalling some 30 in all) gathered in the little village to join the local band when once again this grand peal of eight were rung. The 23 cwt. tenor was declared to run 'like a top,' and the various bauds were delighted with the 'go' in their ringing of Superlative, Double Norwich, Stedman, Kent, Bob Major and Grandsire Triples.

A short service took place in the church, and the ringers were welcomed by the Vicar in an eloquent discourse. His remarks on the bells were listened to with great interest, and the information he expounded came as a revelation to many present.

A bountiful tea was provided by the local band and the Vicar; indeed, so bountiful was the supply that the appetites of the ringers (large though they were) proved incapable of making any noticeable impression on the repast, and the hosts were compelled to ask their guests to return to the attack at a supper. Even then there must have been enough cakes left over to feed the village of Skelton for a week.

Mr. Metcalfe (secretary of the Cleveland and North Yorkshire Ringers' Association), in proposing a vote of thanks to the donors of the feast, spoke of the pleasure it had given him in acting as 'over-seer' of the job, which had been carried out by Messrs. Mears and Stainbank's representative in a most thorough and workmanlike manner.—Mr. Newton (of Stockton), in seconding, suggested that the church should endeavour to have the numerous handbells which were in the tower renovated.

The Vicar responded, and thanked Mr. Metcalfe for his very great assistance on the job, and also promised to see that the matter of the handbells had the very earnest attention of the church. He also invited the ringers to attend his wedding, which he assured them would be taking place within the next 50 or 100 years! (laughter).

The guests were highly amused by the conversation of two of the 'oldest inhabitants,' overheard on the return to the belfry.

First Septuagenarian: 'My word, but the old bells do sound nice to-day, Jake.'

Second ditto: 'Yes, they do, but heaven help us to-morrow when our own lads start kicking up a row!'

It is stated that the local captain has not yet recovered from the shock.

J. C. P.

## AN APPRECIATION.

To the Editor.

Sir,—Could you possibly find room for the following in connection with the peal of Stedman rung at Aldershot, and recorded in your peal columns last week?

On Wednesday, March 18th, the Aldershot War Memorial was unveiled by His Royal Highness Prince Henry, and it was hoped that a half-muffled peal would be attempted by the local band. Owing to the Lenten service at 7.30 p.m., an evening attempt was impossible, and the occupation of the very few members of the Aldershot company prevented an afternoon attempt being made.

This was not realised until noon on Monday, the 16th, when a telephone message was passed to a certain gentleman in Guildford, asking him what the possibilities were of producing a band and commencing ringing at the unveiling hour. From this time onward things 'buzzed'—telephone, telegraph, train, the conductor's motor-cycle and sidecar (and the usual thoroughness with which he does things) were brought into use, and the result was a beautiful peal of Stedman, half-muffled, at Aldershot Parish Church. Our art could not pay a finer tribute to the 'Glorious Dead.'

One may ask, why the heading? The answer is this. The band did not consist of a lady and gentleman of leisure, and some members (at a great inconvenience to themselves), when approached, at once said, 'It is our duty.' This duty meant loss of time, and loss of time means a short week, apart from means of travel from such places as Guildford, London, Woking and Walton-on-Thames. The thanks of Aldershot (particularly the local ringers) are due, and are conveyed by this means, to those members who, at such short notice, came over and gave their best possible in ringing.

Trusting I am forgiven for so far trespassing on your valuable space,

ONE OF THE LOCAL BAND.

## OXFORD DIOCESAN GUILD.

An excellent ringing meeting of the East Berks and South Bucks branch was held at Old Windsor on Saturday. The methods rung included Grandsire and Stedman Triples, Plain Bob, Double Norwich, Kent Treble Bob and Cambridge Surprise Major.

**LANCASHIRE ASSOCIATION.****MORE ENTHUSIASM IN FYLDE BRANCH.**

'It is the dawn of a new era in the district.' This is the question prompted by the successful meeting of the Fylde Branch held at Lytham Parish Church on Saturday last, when there were nearly 30 members present. Ringing commenced at 2.45, and a bright little service took place in church at 4.30. Through the kind generosity of Mr. Smith Roberts (churchwarden) tea was provided in the Parish Hall.

The business meeting followed immediately after, and was presided over by the Vicar (the Rev. H. G. Rosher, M.A.), who said how pleased he was to see so many present, instead of the usual seven or eight. Perhaps, in the near future, there would be as large numbers as he had seen at Tamworth when Vicar there. He emphasised the need for meeting and mixing one with another. It helped to broaden one's mind, and enabled them to escape from the narrow rut of prejudice and conceit. The Vicar expressed a desire to become an honorary member of the association, along with Mr. Roberts, the churchwarden. He also hoped in future that the association membership fees for each ringer of the Parish Church would be paid out of the church funds.

The Vicar and churchwarden, with eight ringers, were made members en bloc.

The Vicar said he would suggest at the next Ruri-decanal Chapter, to be held early in May, that each church in the Fylde district, which possesses a peal of bells, should pay the association membership fees annually for each ringer.

It was decided, on the Vicar's suggestion, that the annual branch meeting be held in June instead of October. He offered the Vicarage grounds for bowls and clock golf, if they would hold the annual meeting there in June. Needless to say, the meeting decided to accept the invitation, and hold the annual meeting there on June 6th.

A touch of Grandsire Triples on handbells followed: C. Sharples 1-2, A. Hague (conductor) 3-4, G. Barraclough 5-6, W. Ratcliffe 7-8; also a course of Grandsire Caters, which were enthusiastically received.

A hearty vote of thanks was passed to the Vicar for presiding; to Mr. Roberts for providing tea and refreshments; and to the organist and ladies who served tea. A little more ringing on the tower bells brought to a close the most successful meeting held by the Fylde Branch since 1914.

**ESSEX ASSOCIATION.**

A meeting of the members of the South-Western Division was held at Stanford-le-Hope on Saturday, March 21st. The bells were available from 2.30 p.m., and were kept going till 4.30, when a service was conducted by the Rector (the Rev. J. Russell). Tea, kindly provided by Mr. and Mrs. Belcher, was afterwards partaken of.

At the meeting which followed, five new members were elected, three from Stanford-le-Hope and two from West Tilbury.—A hearty vote of thanks was accorded the Rector for permission to hold the meeting; to Mr. and Mrs. Belcher for providing tea; and to Mr. W. Wade for having every 'ing' in readiness.

The Rector and Mr. Belcher responded, and both said they hoped it would not be long before another visit was paid to Stanford-le-Hope by the members of the association.

During the afternoon five recruits rang their first 120, and the hope was expressed that they would persevere until they became proficient.

Thirty-three members were present, representing the following towers: Hornchurch, West Tilbury, Leytonstone, Shenfield, Orsett and Romford, together with the local band, and touches of Bob and Grandsire Doubles, Plain Bob, Treble Bob, Double Court, Cambridge and York Surprise, were brought round during the day.

**SUCCESSFUL GATHERING AT HARLOW.**

A meeting of the North-Western Division was held on Saturday, March 21st, at Harlow, at the Church of St. Mary-the-Virgin. The splendid gathering that assembled was far beyond expectations, and the belfry was practically packed out during the whole of the afternoon and evening. Representatives arrived from Saffron Walden, Bishop's Stortford, Stansted, Harlow Common, Roydon and Epping Upland, and the members were pleased to welcome visitors from other associations. The bells were rung until 5 o'clock, when the company retired to St. Mary's Institute to partake of an excellent tea.

The business meeting followed, when Mr. F. J. Pittow was elected to the chair.

It was decided that the next meeting be held at Sawbridgeworth. Two new ringing members, both from Harlow Common, were elected.

It was agreed that a hearty vote of thanks be sent to the Rev. Wilkinson for the use of the bells, etc. This concluded the business meeting, and the company again visited the belfry. During the day, touches of Superlative, Bob Major, Stedman Triples, Cambridge Surprise, Double Norwich and Grandsire Triples were indulged in. In closing, it is desired to thank all those who attended and helped to make this such a pleasant and successful meeting.

## BELFRY GOSSIP.

Ringers attending the annual meeting of the Midland Counties Association at Leicester should note that a change has been made in the service arrangements. The service is to be held in the Church of St. John-the-Divine, and not at St. Martin's, as previously announced.

The Rev. C. D. P. Davies, formerly hon. secretary of the Central Council, and now secretary of the Basingstoke District of the Winchester Guild, is this year president of the British Astronomical Association.

Mr. D. Cecil Williams, Mus.Bac., Fellow of the Royal College of Organists, and the gifted organist of Millbrook Church, Southampton, has just rung his 50th peal. Mr. Williams is a native of Wales, and nearly the whole of his ringing has been done with the North Stoneham band. Is he the first Mus.Bac. to reach the half-century mark?

A peal at Carisbrooke, Isle of Wight, of a hundred and fifty years ago is recalled by the 'Hampshire Chronicle' in reprinting items from the issue of March 20th, 1775. This was a peal of Grandsire Triples, rung in 3 hours and 25 minutes 'by a Society Club of the said island.' The notice adds, 'If three or four gentlemen ringers think fit to make a tour to the said island, the above society will accommodate them with either tripples or bob major.'

It is not uninteresting to read in the same issue (although it may have nothing to do with the belfry) that at Winchester Assizes in the same week eleven people were sentenced to death, the offences including stealing a mare, sheep stealing, burglary, theft of a saddle and house-breaking. Verily, they were 'good old days.'

One of the great performances in the Double Norwich method was rung at Erith, by the Kent County Association, on April 3rd, 1899. The 15,072 changes were rung in 9 hours 24 minutes.

At St. Chad's, Shrewsbury, is a tablet recording a peal of 10,097 Grandsire Caters, performed in 6 hours 50 minutes. The tablet was erected by the Union Society 'to record an excellent peal of Grandsire Caters rung here on Tuesday, April 5th, 1808, which, if surpassed by future practitioners, will stand as a memorial that their predecessors were not deficient in skill and perseverance.'

Nine years next Monday, Mr. Henry Dains, one of the foremost composers of his day, died at the age of 78.

The anniversary of the death of another famous Cumberland Youth occurs on Tuesday—George Newson died on April 7th, 1896.

The longest peal on record was commenced on April 7th, 1761, and completed on April 8th, when the Leeds Youths, of Kent, rang the extent of Bob Major (40,320 changes) in 27 hours. It is on record that 13 ringers took part in the peal, relieving one another at intervals. Among the ringers was James Barham, who during his long life rang 112 peals.

The peal rung at Appleton, on March 17th, was Grandsire Caters, and not Stedman, as published.

On April 7th, 1741, 'was rung at the Parish Church of St. Sepulchre (Holborn) a complete peal of 5,200 Oxford Triple Bob, ten-in . . . This was the first complete peal of 5,000 Oxford Triple Bob, ten-in, that was ever rung, and completed in 3 hours 57 minutes.'

This was rung by the Eastern Scholars, and at one time it was suggested that the peal was false, probably on account of the following lines which were appended to the record of a performance in May, 1741, by the College Youths, who rang another peal in the same method.

'When merit's justly due, a little praise then serveth,

A good peal needs no frame, a bad one none deserveth.'

The late Mr. Jasper Snowden analysed the question in his 'History of Treble Bob,' and came to the conclusion that, although the peal might have been a 'bad' one, there is little reason to suppose it was 'false.'

On April 8th, 1912, 12,160 Bristol Surprise Major was rung at Knodsworth, Herts, in 7 hours 18 minutes, and on the same date in 1922, 13,440 Bob Major was rung at the Bell Foundry, Loughborough by the Midland Counties Association.

Recently, in recalling an ancient peal rung by College Youths, we mentioned that one of the ringers, Robert Catlin, was a well-known London bell founder. Here are some old bell founders who joined the Ancient Society, with the dates of their election: Brian Eldridge, 1649; Philip Whiteman, 1683; Henry Bagley, 1686; Abraham Rudhall, 1699; Robert Catlin, 1722; Thomas Lester, 1748; Thomas Pack, 1752; Joseph Eayre (St. Neots), 1763; William Mears, 1775; John Briant (Hertford), 1782; Edward Arnold (Leicester), 1785; Thomas Janaway (Chelsea), 1786; Thomas Mears, 1790; Thomas Mears, junr., 1801; William Dobson (Downham), 1801.

**BIRMINGHAM RINGER'S GOLDEN WEDDING****MR. AND MRS. THOMAS RUSSAM'S JUBILEE.**

Ringers throughout the country will join in congratulating Mr. and Mrs. Thomas Russam, of Birmingham, upon celebrating their golden wedding, and wish them still many years of life and happiness together. They were married at St. John's Church, Birmingham, on March 29th, 1875, and they now reside at 114, Walford Road, Sparkbrook. Unfortunately, Mr. Russam is at present confined to bed. He was taken ill with influenza and bronchitis a few days after the recent Johnson Dinner, and is not yet sufficiently recovered to get up, although he is, we are pleased to say, slowly improving.

What ringer that has visited Birmingham does not know Tom Russam. He is one of the links with a past generation of famous men, and one of the pillars of St. Martin's Guild, of which he is one of the vice-presidents. His ringing career has been even longer than his long married life, for it began as far back as 1869 at Bishop Ryder's Church, where he was also in the choir. He had become interested in bells even earlier than the date mentioned, for as a lad he used to climb, with others of his age, to the belfry and watch with wondering eyes the old man (called 'Puffer' Malin, because he was also organ blower) pulling the rope for service. They soon had a desire to ring the bell themselves, and at last it was almost a fight as to who should have a pull. When the peal was put in in 1869, Tom Russam became a regular ringer.

**MR. THOMAS RUSSAM.**

He soon met the giants of that day, Johnson, Chattell, Perks, Hallsworth, Biddlestone, etc., and used to sit, so to speak, at the feet of the mighty, picking up knowledge from their conversation. There were few instruction books on ringing in those days, so the learner had no easy job. In this connection Mr. Russam is one of the few Birmingham ringers who had the privilege of going to 'Billy' Chattell's bakery, where this worthy used to demonstrate the 'slow work' in Stedman by a novel method of his own.

At that time J. Banister (of Woolwich) was towerkeeper at Bishop Ryder's, and it is to him Mr. Russam owes it that he had such a sound tuition in the art. He always maintains that of all the ringers he has ever met, he has never seen Banister's equal in the graceful handling either of tower or handbells. It was always his ambition to try and imitate him, and we may say here that Mr. Russam has been very successful, for he is an exceedingly graceful ringer, particularly on handbells. In those days the Birmingham men were very keen on handbells, and the practices used to commence on the Monday and finish the following Sunday evening, usually at a place known as 'Old Joe Nixon's.' The spirit has descended to the ringers to-day, for there is no band more capable in ringing Stedman Cinques 'in hand' than the present men of St. Martin's, and Mr. Russam

is still among the most reliable. He was one of those who rang in the handbell peal of Stedman Sextuples.

Mr. Russam has spent a lot of time teaching both tune playing and tower-bell ringing, the last of the tune playing bauds to go through his hands being Cadbury's Moseley Institute. He was expert adviser in connection with the purchase of 80 handbells from Barwell's for this band, and was instructor to them for two years. The last tower-bell band he instructed was at Erdington Parish Church.

Mr. Russam was tower-keeper at Bishop Ryder's for a time, and afterwards for many years at Aston.

A jeweller's engraver by trade, Mr. Russam is not blest with very robust health, and therefore confines his ringing to the lighter end, but he is a remarkably 'safe' ringer, and a splendid striker.

The performance to which he gives pride of place was not a peal at all, but a touch of Stedman Cinques rung double-handed at a dinner given at the Colonnade Hotel, Birmingham, by Sir Arthur Heywood (then plain Mr.) to celebrate Henry Johnson's 80th birthday, in 1889. The guests were representative of all the ringers in England, and, as he says, 'to the glory of St. Martin's company, the touch came off without a hitch, the striking being absolutely faultless.' It was unique inasmuch as scores of excellent ringers in the room had never heard twelve-bell ringing on handbells before. Indeed, it was supposed to be the first touch of Stedman Cinques ever rung publicly.

Mr. Russam was a member of the Birmingham and District Association, and the Birmingham Amalgamated Society from their formation until their decease. He was also a Holt Society man until that society was absorbed by the St. Martin's Guild, and for the latter he had the honour of calling the first peal. (Previous to the amalgamation it was the St. Martin's Society.) He is now a member of the St. Martin's Guild and the Staffordshire and Midland Counties Associations, and a regular Sunday service ringer at St. Martin's. He took a pair in the first peal of Grandsire Cinques on handbells, and the first double-handed peal of Stedman Cinques out of London, this being also the second ever rung. His handbell peals also include 10,000 Grandsire Major. He rang in the only peal of Duffield Maximus ever rung, and was one of the band chosen to represent Birmingham at the opening of the ring of ten at Leominster in 1894.

He rang in the first peal of Stedman Cinques in which a lady took part (conducted by Miss Parker, at St. Martin's), and has himself conducted a few peals of Grandsire Triples, Bob Major and Royal. Mr. Russam has not kept a record of all his peals, but as near as he can gather his peals on tower bells include Grandsire, Stedman, Plain and Treble Bob, Double Norwich, Cambridge, Duffield, Forward and Erin; everything from Triples to Maximus. On handbells, Grandsire, Stedman and Plain Bob, the first named from Triples to Cinques, and Stedman from Triples to Sextuples, including everything from Triples to Cinques in the two former methods. His first peal in a Surprise method was at Solihull, when he rang a working bell to Cambridge Royal at the first attempt. Being blessed with a good memory, Mr. Russam can tell many good yarns of the Birmingham ringers he has known during the past 50 years and more, and their little peculiarities, and when he is in reminiscent mood, his listeners will be kept in a roaring laughter. We hope Mr. Russam will soon be seen again in his place in St. Martin's belfry.

**A DOUBLE CENTURY.****MR. C. F. BAILEY'S RECORD AT LEISTON.**

Mr. Charles F. Bailey, of Leiston, rang on Saturday his one hundredth Surprise peal on the bells of his own tower, all of which he has conducted. This is another most interesting record in this wonderful family, and has been accomplished in thirteen years' ringing, if the four war years are eliminated. The first peal was rung on January 25th, 1908, and in calling a peal of Bristol from the treble on Saturday, Mr. Bailey has now conducted a peal in this method from every bell. Between 1908 and 1913 the methods rung were Superlative, Cambridge and New Cambridge only, there being 15 of Superlative, 11 of Cambridge and four of New Cambridge. In 1914 there were two peals of Bristol and one of Guildford Surprise. Then came the war, and nothing more was done until 1919. The total number of methods included in the century has, however, risen to 13, as follows: Superlative 22, Cambridge 23, New Cambridge 5, Bristol 22, Guildford 4, London 15, Suffolk 2, Dublin 1, Norfolk 1, Yorkshire 1, Lancashire 1, Edinburgh 1, Rochester 2. The numbers rung in the respective years have been: 1908, 4; 1909, 6; 1910, 5; 1911, 7; 1912, 4; 1913, 4; 1914, 3; 1919, 6; 1920, 11; 1921, 10; 1922, 12; 1923, 11; 1924, 13; 1925, 4.

LONDON.—On Sunday, March 15th, for evening service, at All Hallows, Lombard Street, City, a quarter-peal of Grandsire Triples: J. R. Gammon, J. H. Parrott, T. H. Taffender (conductor), J. Martin, S. Penfold, H. Hills, R. G. Chapple, H. C. Taylor.

## DEATH OF MR. F. W. RICE.

### A WELL-KNOWN SUSSEX AND SURREY RINGER.

We regret to announce the death of Mr. Frederick W. Rice, of Redhill, Surrey, who passed to his rest on March 19th. The deceased, who was in his 64th year, succumbed to an attack of pneumonia, following a brief illness.

For some years he had been a member of the band at Reigate Parish Church. He had always been most regular in his attendance at both service and practice ringing, and his death, which has come thus unexpectedly, will cause a great loss to the company.

Mr. Rice was an accomplished ringer, and will be best remembered among the older generation of the Exercise for the part he took in the successes of the Crawley (Sussex) band in the heyday of their prosperity, thirty years ago. A native of Worth (a parish adjoining Crawley), Mr. Rice began his ringing with the old band at his own church, but he soon found they were not masters of the art of change ringing. He, therefore, sought his practice in neighbouring towers, and, after a few years, he was able to get a young band to replace the old one in his native parish. Mr. Rice rang his first two peals at Warnham, viz., Oxford Bob Triples, on November 20th, 1886, and Grandsire Triples on the following day. He had belonged to the old Crawley band for several years, and when a new band was formed, under the leadership of Mr. James Parker, he was glad to get back to a peal of eight. The Crawley band made wonderful progress, and in most of their peals Fred Rice was to be found on the tenor, which bell he rang to the long peal of Superlative, the then record of 9,312 in 5 hours 20 minutes, on December 26th, 1894. Only two or three of this band now survive, the ringers having been Edward Jordan, John Rice, Alfred Mills, William Ward, Frederick Dench, Robert Jordan, James Parker and Frederick W. Rice. Altogether Mr. Rice had rung 230 peals in methods ranging from Bob Minor to London Surprise Major, and among his long lengths, in addition to the Superlative, were 6,720 Canterbury Pleasure Major and 10,176 Kent Treble Bob at Warnham.

Mr. Rice, who among those who knew him best, was something of a character, spent a long and active career in the Exercise, and his energy was maintained to the end, as, only a few days before his death, he conducted a 720 Bob Minor at Mersham.

Among the societies of which he was a member were the Sussex and Surrey Associations, Winchester Guild, and the Ancient Society of College Youths. His peals were as follows:—

|                                  |            |                     |

The interment took place at Reigate Cemetery on March 23rd, the service being conducted by the Rev. — Owen.

A large gathering of ringers attended, including members of the Surrey, Sussex, Winchester and Essex Associations, and touches of Grandsire Caters and Bob Major were rung, with the bells half-muffled, as a last token of respect to one who by his enthusiasm and personality, had endeared himself to all with whom he came in contact.

## STEDMAN TRIPLES DATE TOUCH.

To the Editor.

Dear Sir,—In your issue of March 20th, you published a date touch of Stedman by Mr. Thomas Butler. For the benefit of any ringers using this touch, will Mr. Butler kindly allow me to point out that this composition produces 1,955 changes, and then not rounds. To produce rounds from 431625 substitute a S for the first B at 3, and a B for the S at 14 in the last course.—Yours faithfully,

L. W. JACQUES.

## ANCIENT BELLS.

To the Editor.

Sir,—Your correspondent 'treneus' is quite right in supposing that the founder's name and date does not appear on the two ancient bells at Eyethorne. I do not know of a single instance of the name of the founder being found on any pre-Reformation bell; though in some cases we find his initials on a shield with other devices. In very rare cases we find the date—always in Roman numerals, not Arabic.

The two bells at Eyethorne are inscribed in the usual style of the period, viz.: Lombardic capitals with 'black-letter' lower type. Each bears also the following devices: (1) A shield charged with a flag and a 'black-letter' 'm' at the base of the flagstaff, which is crossed by a 'T' placed slantwise; (2) the usual medallion charged with a floriated cross and 'ihu merci ladi help' in the four quarters; (3) a shield charged with cross keys between a wheatheaf, a dolphin, a bell, and an ewer. Figs 25, 26 and 27 in Stahl's 'Church Bells of Kent.' These marks are common enough on mediæval bells; and were used by other founders besides Henry (not William) Jordan, double turret, and is inscribed: † ANNO DM10M0CC0NON0G0Alo.

I believe that Claughton, in Lancashire, claims to possess the oldest dated bell in England. It is the larger of a pair hanging in an open i.e. 1296; 'nonog' standing for 'nonaginta,' and the 'V' in six being reversed. This bell is 21 inches in diameter, and 16½ inches high from lip to crown: which is more in proportion to the dimensions of modern bells than most of these ancient ones are; most of the latter being about the same measurement from lip to crown as the diameter at the mouth. Their crowns are generally hemispherical, and their waists long and straight.—Yours, etc., J. R. JERRAM.

Salisbury, March 17th, 1925.

## 'STEP' OR 'MOVE'.

To the Editor.

Dear Sir,—When a gentleman states in your columns that he is very sorry for any offence unintentionally given, what can I do but reciprocate and express regret for anything I, in the heat of the moment, may have said which seemed unkind?

Whether the term 'shunt' is retained or not is a matter of indifference to me. I have been trying to think of a better word myself, and I thought of 'shift,' then I remembered we are already using that when we speak of a shift-course in a peal.

The term 'step' to me seems utterly unsuitable, and the only other word that I can think of is 'move,' i.e., we 'move' into a fresh course every time we make a fresh place, and this applies to method construction just as much as it does to peal construction.—Yours faithfully, GEORGE BAKER.

## SUSSEX COUNTY ASSOCIATION.

### EASTERN DIVISION AT REXHILL.

The annual meeting of the Eastern Division of the Sussex Association was held at St. Peter's, REXHILL, on Saturday, March 21st, when the following towers were represented: Brighton (St. Peter's and Nicholas'), Battle, Eastbourne (All Saints' and St. Saviour's), Christ Church, Blacklands, Hastings: Henfield, Heathfield, Lewes, Pevensey, St. Leonard's, Salehurst and Waldron, together with members of the local band. Ringing commenced at 2.30 p.m., and the customary service was held, the Rector officiating, and Mr. W. E. Pitman, of Canterbury, presiding at the organ.

After the service, the members partook of a splendid tea at the Bell Hotel, which had been generously provided by the Rector and churchwardens.—A hearty vote of thanks was, on the proposition of Mr. G. H. Howse, accorded to them for their kindness and in addition the Rector was thanked for the use of the bells, and for his address at the service.

In acknowledging the vote of thanks, the Rev. Canon Maycock thanked the company, on behalf of the churchwardens and himself, and expressed a wish that visits of this nature could be made more frequent.

At the business meeting, the chair was taken by Mr. J. Thornton Rickman, the Master of the Association, and five new ringing members were elected.

The election of officers then took place. Mr. G. W. Stokes was re-elected hon. secretary, and Messrs. G. H. Howse, W. Franks and A. R. Miles were re-elected on the committee.—The Hon. Secretary, in responding, gave a report of the year's progress.

It was decided to hold the next meeting at Battle in June.

Before the meeting closed a collection was made in aid of the Association's Benevolent Fund, which realised 13s.

The ringers returned to the tower, where ringing in a variety of methods was indulged in until 8.30 p.m.

Taken altogether, it was a most successful and enjoyable meeting, 45 members being present, and great credit is due to Mr. F. J. Pont, the secretary of the local band, who kindly made all the arrangements.

## THE CRITICISMS OF 'CRITICUS.'

## TERMINOLOGY.—FOOTNOTES.—MORE STORIES FROM HISTORY.

From time to time we have read criticisms of the rather loose terminology employed in our art, and sometimes one has wondered how it has been brought about, but recent correspondence enlightens us on the point, and we need ponder the subject no longer. If in these enlightened days our experts grope round for words to express their meanings and use terms which, when examined, are really misapplied, there is great excuse for our forefathers who had not the advantages of twentieth century education. The latest illustration of our laxity of method in finding suitable terms, turns on our old friend 'shunt.' We never have stuck entirely to dictionary definitions of the words we use, any more than the dictionary gives a strictly accurate definition of our use of terms. For instance, a 'standard' work lying on my desk gives me many meanings of the word 'bob,' adding, 'Among bell ringers, a peal of several courses, or sets of changes.' But I am not concerned just now with what the dictionary says about our curious 'lingo.' What I am concerned with is the manner in which we select words and apply them to special uses, when a little consideration would cause us to reject the term as inappropriate. Moreover, what makes our vocabulary all the worse is that in some instances we use the same word to indicate different meanings, such as in the case of 'course.'

Now we are getting, or, I ought to say, have got, the same thing in regard to 'shunt.' Formerly the use of this word in ringing indicated merely the insertion or omission of a call or calls to divert a composition from one point to another. Now we use it for some constructional detail of a method, and it is given varying significance according to whether you prefix P or R, or, may be, X, Y or Z. But whether 'shunt' or 'step,' or any other old term is the right one, what we want is some definite system by which these words should come into our vocabulary and not have it left, haphazard, to every Tom, Dick and Harry, to make confusion worse confounded by selecting any word which he just fancies answers his purpose at the moment. We shall have to have a Definitions Board to settle these things, to tell us whether the terms we select are appropriate to the use we want to make of them: whether they overlap or fall short; whether they are sense or nonsense. In all seriousness, however, I would appeal to the Central Council to do something to disentangle our vocabulary, and they might very well do it when they put in hand the revision of the 'Glossary,' to which I referred last week.

We all like to be informed which man rings his first or his one hundredth peal, which peal is the first in the method on the bells or by an association, and matters of that description which specially mark a performance; but, without particularising and thus offending anyone's susceptibilities, there are only too often in the peal columns evidences of peals rung, apparently for the most inadequate reasons, and we are burdened with details which can be of no interest to anyone but the writer of the report. It would be a good rule, I think, if conductors would limit their footnotes strictly to what they would put on a peal board if they were having one erected. What matters it if the birthday of the cousin of the sixth's ringer's wife happens to fall on the day before, or in the week after? It does not justify the infliction of three hours of ringing on the parishioners, and bells would not be obtained for peals on that ground alone. A good deal more circumspection is needed in what we append to our peal reports—and I am sure the Editor will back me up in this.

Those who find an interest, as I do, in searching among the musty records of the past, or reading the history of ancient bells, as supplied to us by antiquarians, in various county histories, are familiar with the quaintly worded agreements entered into of old time between church officials and bell founders, but it is seldom one comes across a legal instrument drawn up between the Vicar and wardens and the ringers. Such articles, however, were drawn up at Oldham in 1745, and are dated June 11th of that year: 'It is this Day agreed by and between Samuel Townson, of Oldham, Clerk, John Woolfenden, John Wallwork, Ralph Brown and Jonathan Taylor, churchwardens of the same, upon the one part, and Robert Dalton, Abraham Milns, James Milns, Isaac Gartside, Jno Wallwork and John Mellor as Ringers are to Ring the Ringing for the whole service for one whole year from the 13th instant till the 12 day of June, 1746, Ringing upon 11th and 30th Days of October, the 5th Day of November, the 25th Day of December, 1745, the 29th Day of May, and the 11th Day of June, 1746, together with all Sundays and other Sermon Days whatsoever that shall happen in the said year.

'And the aforesaid Samuel Townson, Minister, John Woolfenden, John Wallwork, Ralph Brown and Jonathan Taylor, Churchwardens for and in Consideration of the said premises Do Promise unto the said Ringers for one Whole Year as aforesaid the Sum of Four Pounds of good and Lawfull Money of Great Brittain, at two Severall Payments usuall, In Consideration of which Sum the said Ringers

shall and will Ring and Toll half an Hour each Sermon Day, always beginning at such a time as publick Notice is given in the Church by the Minister excepting upon Sacrament Days, when they shall begin to Ring Half an Hour Later in the afternoon than usual, And also the said Ringers Shall and will forfeite and Pay to John Mellor the sume of Two Pence Each that is not Ready in the Steeple or otherwise provide one in his room Except some reasonable Excuse to be approved on by the Church-Wardens for the time being, And to Ring the said half Hour before and after noon, and Also the Whole Set of Ringers shall and will forfeit and Pay for any Gross or Bodily neglect the Sume of Twelve pence to the said Church-Wardens Except some Reasonable Excuse to be approved of by the Minister and Two Inhabitants Constantly or Commonly attending the Church, And it is further agreed that any Four of the said Body of Ringers Shall have a power to turn out any one of the Same Ringers for any Misbehaviour when and as often as they Please.' I don't know whether 'any four of the said body' exercised their right of turning out any other, but in the following year, when another agreement was executed, there were two fresh names among the ringers. The articles show that the ringers' appointments were considered a serious matter in those days.

Incidentally, Cheetham's 'Church Bells of Lancashire,' from which I have taken the above extract, tells an interesting story of the Oldham ringers and their rivalry with their neighbours of Ashton-under-Lyne more than a century ago; indeed, the 'feeling' between the two seems to have sprung up about the year 1733. Round about this time the Oldham ringers are credited, so the story goes, with 'repeatedly, arrogantly and improvidently saying that the Ashton ringers were not able to ring them anywhere,' and when a deputation from Ashton waited upon Oldham they were treated with something like contempt. 'Instead of entering into a proper obligation to prove the superior ability of the disputants, nothing was heard on their part but banter, scurrility and defamation.' After this a challenge was issued on behalf of the Ashton ringers 'to ring upon eight bells any set of ringers belonging to Oldham for any sum of money not less than eight and more than twenty guineas.' The contest took place at Leeds on September 22nd, 1736, and was decided in favour of Oldham.

The Ashton and the Oldham ringers met again at the opening of the new bells at Flixton more than 20 years after, viz., in January, 1808, but at the close of the ringing the judges were unable to come to a decision, and the prize money was divided. The verdict satisfied nobody, and a match for £40 was arranged at Flixton, and came off on June 24th, 1808, when Oldham were declared the winners. The conductor of the Ashton ringers, Jonathan Wild, was charged with selling the match to the Oldham men, and so high was the state of feeling at the time that Wild left Ashton and went to live at Stockport, where he remained 26 years. The accusation seems to have been unjust, and Wild was allowed to come back to Ashton before his death. After the Flixton match there was continued strife between Ashton and Oldham ringers for more than twenty years, and it is said to have been carried to such a pitch that if one of the Oldham ringers strayed to Ashton and was recognised, 'they ran him out of the village.'

What would be said by the 'conscientious objector' in these days if he had a rate levied upon him for the upkeep of the church bells? Yet here are extracts showing that such things were done: On June 17th, 1659, it was 'Resolved yt ye great Bell which is now burst shall be maid new this year with all the speede may be. That thirty-six pounds be assessed vpon the parishoners of Bolton according to the antient p'portions for the new casting of the said bell and the repairs of the walls and gate of the churchyard and levelling the flags of the church.' In 1665, 'resolved that fifty six pounds be assessed vpon the inhabitants of the parish of Bolton for the making of a new frame for the bells, and other necessities about the church,' and again, in 1699, 'resolved that an assessment of an hundred and forty pounds bee assessed and raised for the casting of the Bells of the parish into five bells.' Afterwards this amount was reduced to £110.

Another good (?) old 'custom' has disappeared with the advance of civilisation, and there may still be some who will heave a sigh that they lived not at Flixton when the bells were brought home. A record of the arrival of a new peal in 1808 informs us that the bells, which were brought to Manchester by water, were taken on eight decorated carts to Flixton. 'A large concourse of people followed in an irregular procession,' and on arrival at Flixton 'the tenor bell was taken into a field belonging to Ralph Wright, Esq., and deposited in a small hole made for that purpose and turned mouth upwards, when Ten Guineas worth of Double Strong ale was put in for the populace to Regale themselves with, and in little more than one hour the whole of the "Good old Stingo" disappeared, and the whole of the bells were deposited in the church.' The announcement of the opening of the peal invited 'amateurs of the art' to repair to Flixton 'to try their skill and pass their judgment upon the tone and time of the bells.'

## HERTFORD COUNTY ASSOCIATION.

### WESTERN DISTRICT.

A very pleasant evening meeting was held at Great Gaddesden on Saturday, March 28th, the bells (5) being utilised from 5.30 to 7.30 by ringers from Tring, Hemel Hempstead, Berkhamstead, Dunstable, and the local tower. The methods rung were: Plain Bob, Grandsire, New Doubles, St. Simon's, Erin Doubles and Double Bob Singles.

Unfortunately, only one local man put in an appearance. After 'ceasing' the bells in peal, a short meeting was held, presided over by Mr. H. Golding. One new member (Mr. A. V. Good) was elected, and Berkhamstead was chosen as the next meeting-place; the meeting being fixed for May 9th.

By the addition of a treble to this ring of five, a handy peal of six would result, but this is, at present, highly improbable.

Votes of thanks to the Vicar for the use of the bells, the sexton for having everything ready, and the chairman for his services, concluded the meeting.

The 'bus' not leaving until 8.50, the remaining time was spent in 'reminiscencing' and discussing how to improve ringing at one or two towers.

**GREAT BELLS.**

*To the Editor.*

Dear Sir,—In connection with your article in the 'Ringing World' of March 20th, respecting the great bell at Moscow, it may be of interest to mention the approximate weights of other very large bells in the world, viz. :—

The great bell at Minguon (Burmah) is 125 tons, said by some authorities to rival the giant of Moscow in point of size, in which case it must naturally be a thinner bell. Another Moscow bell is 125 tons. This is the largest bell in use in the world. Other giant bells are at Pekin, 53 tons; Novgorod (Russia), 31 tons; St. Isaac's Cathedral (Leningrad), 22 tons (like the bell of Moscow, this fine specimen is adorned with imperial portraits); Olmutz (Austria), 18 tons; Notre Dame (Paris), 18 tons; Vienna, 18 tons; Lens (France), 15 tons; Erfurt Cathedral (Prussian Saxony), 13 tons (this bell was cast at the end of the 15th century); Montreal (R.C. Cathedral), 13 tons; Gorlitz (Silesia), 10 tons; Bruges, 10 tons.

We are, of course, acquainted with the very large bells in England, viz., St. Paul's, and 'Big Ben,' London; York, and 'Great Tom,' Oxford.

It is quite probable that some of the German or Austrian bells mentioned, shared the fate of the 'Kaiserglocke' during the Great War, but of this I have no information.—Yours faithfully,  
WILLIAM E. BASON.

### THE EASTER MEETINGS.

Next Monday will be, as usual, a busy day among ringing associations, for the Easter holiday is a favourite time for general meetings. Our notice columns show the considerable number of important gatherings that are to be held. Among those which are holding their annual meeting are the Bedfordshire Association, Chester Diocesan Guild, Ely Diocesan Association, Gloucester and Bristol Diocesan Association, Hertford County Association, Kent County Association, Midland Counties Association, Suffolk Guild and Worcestershire Association. In addition several other important societies are having meetings which are certain to attract considerable numbers of ringers. The holiday meetings form a valuable part of the work which the ringing associations do, for, apart from the annual business which is transacted, they provide opportunities for wider intercourse than is often possible with Saturday meetings.

With some ringers the business part of the proceedings at these meetings is looked upon as something of a bore—a necessary evil sandwiched into a day's pleasure—and they are better pleased when they find that the affairs to be transacted are 'cut and dried,' and they can get away again quickly to the hellsies. This is a mistaken attitude, for the success of an association depends largely upon the interest taken in its concerns by members. An organisation may be carried on satisfactorily for a time by the efforts of a few enthusiasts; but, sooner or later, lack of interest by the rank and file and a tendency to leave everything to the officials is bound to show itself in a falling off of activity. Those associations best maintain their vitality which have a critical membership—critical, that is, in seeking to maintain the organisation in an effective condition.

Important financial matters will occupy the attention of the Midland Counties Association at Derby, and at Nantwich the Chester Guild will not only be concerned with ringing affairs in their own diocese, but they have on the agenda a resolution from the Bowden and Stockport Branch 'that it is the opinion of this Guild that the existing names of Minor methods should stand.' This, of course, refers to the appointment last year of a committee of the Central Council to overhaul the nomenclature of methods, and it is significant that it comes from the branch in which several of the methods, so unsuitably named, were first rung, and in which resides one of the gentlemen originally responsible for many of the titles which have been so adversely criticised. It is a happy sign to find Central Council affairs figuring on an association agenda, and it is a pity, as we have often pointed

out, that subjects of general ringing interest do not appear more often on the agendas of our associations. Whatever the outcome of this particular discussion at Nantwich, we welcome it as a sign of a widening interest in matters outside purely 'domestic' affairs.

## CENTRAL COUNCIL OF CHURCH BELL RINGERS.

### OFFICIAL MINUTES OF THE 1924 MEETING.

The first session of the twelfth Council (thirty-second meeting) was held in the historic Jerusalem Chamber at Westminster Abbey on Whitsun Tuesday, June 10th.

There were present at the general meeting 83 members, representing 32 Guilds (this being the greatest attendance of members in the Council's history).

After the meeting had been opened with prayer, the Council proceeded to the election of officers; and prior to the president's election, the honorary secretary temporarily took the chair. He stated that only one nomination had been received, and that on behalf of Canon Coleridge, who had been proposed by the Rev. C. D. P. Davies, and seconded by the Rev. H. Law James. He (Mr. E. Alexr. Young) therefore declared Canon Coleridge duly elected for the ensuing three years. The president then took the chair.

After expressing his thanks to the Council, the President said that for honorary secretary and treasurer there was only one nomination, that of Mr. E. Alexr. Young, the proposer and seconder being as before, and he, therefore, declared him elected for three years. — Canon Baker proposed, and the Rev. C. E. Matthews seconded, the re-election of the honorary librarian, which was carried, together with a vote of thanks to the Council's officers for their services.

The minutes of the last meeting having been published, were taken as read, and duly confirmed and signed.

Apologies for absence were received from the Rev. A. H. F. Boughey and the Rev. H. T. S. Richardson, Messrs. G. Bolland, C. E. Borrett, R. B. Chambers, G. Chester, E. Edwards, E. H. Lewis, D. J. Nicholls, H. W. Wilde, G. Williams and Mrs. A. Edwards.

Before passing to the general business, the President here presented to the late honorary secretary and treasurer, the Rev. C. D. P. Davies, a silver cup, asking him to accept it at their hands as a slight token of their appreciation of all he had done in serving the Council during nearly 20 years. — The Rev. C. D. P. Davies, in receiving the cup, expressed in fitting terms his great pleasure and his hearty thanks.

The Honorary Secretary and Treasurer (Mr. E. Alexr. Young) presented the financial statement, which showed that the year began with a balance at the bank of £76 18s. 7d., and that the balance, after the receipts and expenditure of the year had been dealt with, was £62 17s. 1d. The accounts were adopted, on the motion of the Rev. C. D. P. Davies, seconded by the Rev. H. Law James.

The Honorary Librarian then read his statement upon the year's sales, etc., which had dropped to 265, as against 315 the previous year. He also referred to some of the Council's publications being now either out of print or likely to be so shortly. In regard to publishing the *Corrigenda of Peals*, this had been partly done, and the remainder would follow. The honorary librarian then presented the illuminated roll of honour, now completed. The work was by Mr. Cousins, of Cambridge. The cost was £3 15s. above the £20 voted. (This amount was contributed by those present at the meeting.)

The President voiced for the Council how deeply they were indebted to the honorary librarian for all he had done in compiling the roll. It was undoubtedly one of the most beautiful modern examples of its kind of work. The Honorary Librarian then moved that the Memorial Book be placed in the Library at St. Paul's Cathedral, London (the Dean having kindly consented). This having been seconded by Canon Baker, it was unanimously agreed that it be deposited for inspection and on permanent loan, and to be produced to the Council upon demand of the officers; with this, a proposition of Mr. W. A. Cave's, seconded by the Rev. C. E. Matthews, was also agreed, that it be placed on the table at the annual meetings.

The Honorary Librarian then completed his report by referring to the distribution of the corrigenda slips, and suggested that applicants should forward 1d. stamp. The report was then, upon his motion, seconded by the Rev. C. E. Matthews, agreed to, as was also the statement that the Council was unable to pay for advertising in Association Reports.

Election of honorary members. Those retiring, with the exception of Mr. K. A. Daniel, were re-elected, viz.: Mr. J. Carter, the Rev. C. D. P. Davies, Major J. H. B. Hesse, Mr. J. S. Pritchett and Mr. J. A. Trollope, on a motion by Canon H. J. Elsee, seconded by Canon Baker, and the names of Mr. J. Griffin and Mr. E. Alexr. Young (the honorary secretary) were added.

A large number of new members attending for the first time, were then formally introduced to the President, who cordially welcomed them. (For names see those marked with a star in the schedule.)

The Standing Committee and its enlargement being referred to by the President, it was unanimously agreed that they be re-elected as

follows: Canon Coleridge, Canon Elsee, the Revs. C. W. O. Jenkyn, C. D. P. Davies, H. Law James, with Messrs. W. T. Cockerill, J. Griffin, E. H. Lewis and E. A. Young (Messrs. Parsons and Daniel having dropped out). — It was then proposed by Mr. W. T. Cockerill, seconded by Mr. Smith, and agreed, that the three bell founders' representatives be added, viz., Messrs. A. A. Hughes, C. F. Johnston and Pryce Taylor, as was also, on the proposition of the Rev. C. D. P. Davies, seconded by the Rev. F. L. Edwards, the inclusion of Alderman J. S. Pritchett.

The Dean of Westminster (Bishop Ryle) here entered, and gave a hearty welcome to the members. — The President, responding on behalf of the Council, thanked him, and added that they were honoured in being allowed to meet in such an historic Chamber.

The Council then received the following committee's reports: —

**Peal Collection Committee.** — Mr. J. A. Trollope having reported generally upon the year's work, the committee, consisting of the Rev. H. S. T. Richardson, Messrs. J. A. Trollope, H. W. Wilde, J. W. Parker and Miss E. K. Parker, were, on the President's proposal, re-appointed nem. con., and the report adopted. — Subsequently, on the motion of the Rev. C. D. P. Davies, seconded by Mr. J. A. Trollope, the Rev. E. S. Powell was added to the committee.

**The Literature and Press Committee.** — The Rev. C. E. Matthews having referred to the report which had been previously published, moved its adoption. — This was seconded, and carried. The committee, consisting of the Revs. C. E. Matthews, F. L. Edwards, A. T. Beeston, Messrs. G. P. Burton and W. Willson, were re-elected. — Subsequently, on the motion of the Rev. F. L. Edwards, seconded by Mr. J. S. Pritchett, Mr. A. Padgon Smith was added to the committee.

**Methods Committee.** — The Rev. H. Law James here spoke as to the further delays in printing the collection. — The President referred generally as to the position, and then proposed the re-appointment of the Rev. H. Law James, Messrs. E. H. Lewis and J. A. Trollope to the committee, which was carried nem. con.

**Peals Analysis Committee.** — The Rev. E. W. Carpenter having referred to the great work and to the report published, moved its adoption, this being seconded by the Rev. A. T. Beeston, and carried nem. con. — The President then referred in terms of eulogy to the work of the members of the committee, and extended the thanks of the Council to them. Their re-election was then proposed by Mr. T. Hervey Beams, and the Rev. F. L. Edwards seconded, but the Rev. E. W. Carpenter was unable to offer to serve again. The Rev. A. T. Beeston and Messrs. J. W. Parker and G. Williams were duly re-elected. — The President expressed the regret the Council felt at the Rev. E. W. Carpenter's retirement, after 16 years' valuable service on the committee, and on the motion of Mr. T. J. Salter, seconded by Mr. J. George, Miss E. K. Parker was elected in his place.

**Towers and Belfries Committee.** — The Rev. C. W. O. Jenkyn reported that no formal work had been done during the year, but he wished to call the attention of the Council to the desirability of considering the attitude of the new Advisory Committees, especially in regard to bells and their restoration. After some comments by Canon Elsee, the Rev. C. E. Matthews and Mr. C. H. Howard, Canon Baker proposed, and the Rev. H. Drake seconded, that 'the Council strongly urge that each Diocesan Advisory Committee should include at least one member having expert knowledge of bells, bell-hanging and change ringing; and that the resolution be communicated to the secretaries of the committees and congresses.' — Carried nem. con. The committee, consisting of Mr. E. H. Lewis, the Revs. C. D. P. Davies and C. W. O. Jenkyn, Major J. H. B. Hesse, and Mr. E. A. Young, were, on the proposal of the President, duly re-appointed nem. con., and on the further motion of the Rev. C. W. O. Jenkyn, seconded by Canon F. J. O. Helmore, Mr. H. Fairclough was added to the committee.

**Records Committee.** — The Rev. A. T. Beeston referred, in general terms, to the year's work, but regretted that their report, having been lost in the post, must be deferred. The committee, consisting of the Revs. A. T. Beeston, H. Law James and Mr. T. Hervey Beams, were then duly re-appointed, on the motion of Mr. C. H. Howard, seconded by Mr. W. A. Cave.

**Science Museum Exhibit Committee.** — The Honorary Secretary reported at some length as to the present position, stating that framed diagrams had been given to the Museum, illustrating 'Standard Methods,' including those printed at his own expense by Mr. W. A. Cave. In reference to the Carter Ringing Machine, he suggested that Mr. Carter was prepared to make the Council Trustees, and he (Mr. Young) proposed that if possible the Council should arrange to meet the offer, and formally moved his report. — The Rev. C. D. P. Davies, in seconding, referred to the desirability of maintaining some control and use of the Ringing Machine.

Alderman J. S. Pritchett, having been asked by the President for his views, kindly stated his opinion to be that the Council not being

a corporate body, could not act legally as a trustee, but there could be no objection to Mr. Carter, appointing as trustees, say, the President of the Council and such two other members of the Council as it might from time to time select. The report was adopted, and the committee, consisting of the Revs. C. D. P. Davies, E. Banks James, Messrs. E. H. Lewis, A. A. Hughes, C. F. Johnston, Pryce Taylor and E. Alexr. Young, were, on the motion of the President, re-appointed nem. con.

The Council then adjourned for lunch.

Card of Instruction.—The Hon. Secretary outlined the difficulties which had arisen since the card was proposed, and £5 promised by the Rev. H. Drake, though somewhat conditionally, it would appear. The latter having expressed some of his objections, discussion was adjourned until later.

The President pointed out, that owing to the overlapping in the scope of the next three motions, it was felt by the Standing Committee that it was desirable they be conjoined as far as possible. This finding general acceptance, he called upon Mr. G. P. Burton to move his motion, which he did as follows: 'To call attention to the Nomenclature of Methods, and to move the appointment of a Nomenclature Committee: (1) To review the whole existing method nomenclature, and to make recommendations for revision to the Council.' It being agreed to take it seriatim, the first part of the motion was then seconded by the Rev. H. Drake, both speakers strongly urged the need of such a committee, and pointed out that good ringers were not necessarily masters of good wording. The mover instanced as objectionable old examples, 'Grandsire' and 'Jolly Dick.' And in regard to the new names, supported and proposed a motion from Leytonstone, which desired to see 'Geranium' and other flower names omitted, as being equally absurd. The Rev. E. W. Carpenter, for the Analysis Committee, then justified their selection of names, feeling that the proposed committee would prove of little use. Messrs. J. S. Pritchett, J. A. Trollope and the Rev. H. Law James also spoke generally against the motion. They were followed by Messrs. C. T. Coles, H. Hunt and A. D. Barker, who spoke for the motion, Clause 1, of which was eventually carried by 34 to 29 votes.

Clause (2), viz.: 'To prepare a selection of suitable topographical names, to which method nomenclature is to be limited for the future,' was then moved by Mr. G. P. Burton, and seconded by Mr. T. Hervey Beams. Following some discussion, an amendment, proposed by the Rev. F. L. Edwards, and seconded by the Rev. H. Law James, met with general approval, and was agreed to as a substantive motion as follows, viz., that the rest of the motion should read: 'To suggest a suitable system of Nomenclature for the future.'—This was carried nem. con.—A motion that the election of the committee be deferred for a year being defeated by 35 votes to 32, the Council then elected the following as members of the committee, viz., Mr. G. P. Burton, the Rev. H. Drake, Messrs. A. D. Barker, T. Hervey Beams, and A. L. Colman.

The President then called upon Mr. T. H. Taffender to move his resolution that 'The Council only recognise as peals upon handbells, those that have been umpired, and that the latter qualification shall be that of being able to ring the method and check each call as made.' The proposer called attention to the loose nature of the present general practice and the necessity of stiffening the Council's present rule.—The motion was seconded by Mr. J. George, but on being put to the meeting was lost by a large majority.

The President then called upon Mr. T. Hervey Beams to move his resolution: 'To alter Rule 6' by omitting 'but that the meeting following the Triennial Election be always in London.' Mr. Beams called attention to the changes of the past 33 years and the need for revision. He suggested a London meeting every five years.—The Rev. F. L. Edwards having seconded; the motion, on being put to the meeting, was lost by a large majority.

The President then called upon Mr. J. Hunt to move his resolution: 'That the Council consider the advisability of publishing instructions showing how bobs are made in various Minor Methods as published.' Mr. Hunt having done so, the motion was seconded by Mr. A. H. Pulling, and, with the proviso that the same be an instruction to the Methods Committee to deal with in their revision of Minor Methods, was carried.

The Next Annual Meeting.—On the recommendation of the Standing Committee, and by general consent, it was agreed to accept the invitation to Chester for 1925.

Card of Instruction.—Upon returning to the consideration of the card, as presented by the honorary secretary, it was, on the motion of the President, agreed nem. con. that it be left for the Standing Committee to agree to publish it, regard being paid if possible to one or two of the points referred to by the Rev. H. Drake.

On the motion of Canon Elsee, the Council commended to the support of the ringing associations, the proposal to erect in a suit-

able place in Oxford a memorial to the late Mr. James W. Washbrook.

Notice of a revision of the definition relating to peals on eight bells and upwards, so as to include peals in spliced methods, was given by Mr. W. A. Cave, and in connection with the ringing of a peal comprising fourteen 360's of Minor, to which attention was called by the Rev. H. Law James, the President mentioned that the Standing Committee proposed to take in hand the general revision of the Rules and Decisions of the Council.

A vote of thanks was passed to the Dean, which Canon Perkins (who was now present to describe the Jerusalem Chamber) promised to convey, and the business proceedings terminated at about 5 p.m., with a vote of thanks to the President, who briefly responded.

## 'BRISTOL' SURPRISE EXTENSION.

To the Editor.

Dear Sir,—I trust you will pardon me for again wishing to speak on this subject, but Mr. Taylor's article calls for some correction. He publishes two sets of figures of 'Bristol' Royal and terms the second of the two Mr. Craven's variation. Mr. Taylor has got mixed up somehow, as it is the figures he claims as Royal which I published. (See issues of 'Ringing World,' March 3rd, 1922, and January 12th, 1923.) I am sorry to note that Mr. Taylor's version of Maximus is away from the correct line of extension. The reason I say so is that the two chief characteristics are violated: 1st, the coursing order of the bells; and, 2nd, the correct pivot bell and its correct work.

Taking the first essential, it will be noticed in the Major the coursing order reverses every dodging block of the treble's path. When in 1-2 even bells are hunting down and odd bells up; as the treble passes through 2-3 a 4th's place is made, which reverses the coursing order; i.e., odd bells are coursing down and even bells up. The quarter section line is reached where the pivot bell meets the treble, as per example.

42315768

24351786

23457168.

Any extension which has not got the course bells in these relative positions is not Bristol, i.e., pivot bell crossing with the treble and pivot bells fore and aft, coursing bells making the places. The pivot bell must also make a run through from back to front, divided with the necessary work entailed in passing the middle.

I might say that there is no exaggeration in the number of variations possible on the whole turn block system. I have a large number, and all without the use of 'adjoining' places, a feature which, in my opinion, ought not to be tolerated on ten bells and upwards. I must congratulate Mr. Taylor on the able and descriptive analysis he has made of the method, but beg to differ from him regarding Bristol Maximus.—Yours truly,

ARTHUR CRAVEN.

## MR. FRED R. BORRETT'S 500 PEALS.

By a peal of Superlative Surprise recently, Mr. F. R. Borrett, of Pulham Market, brought his total up to 500, of which he has conducted 215. The following is the list:—

|                                |     |
|--------------------------------|-----|
| Plain Bob Major                | 23  |

## MIDLAND COUNTIES ASSOCIATION.

## STRONG FINANCIAL POSITION.

In their annual report, the committee of the Midland Counties Association, referring to the finances, say: Once again your committee has reason to be proud of the position attained. Probably no other association in Great Britain can view its funds with the equanimity of the M.C.A. We have a current balance from 1924 of £260, and the amount standing to our credit is £246. Such a position is unprecedented in the annals of our association. It must be borne in mind, however, that our source of profit comes exclusively from the gallant roll of honorary members. Ringing subscriptions alone would not allow us to even pay our way, and we are indeed grateful to all of our patrons for their invaluable help. The accumulation of funds, however, has given rise to various trends of thought. There is much to be said for local autonomy of funds. On the other hand, we are in union with each district, and should our honorary members diminish—as they undoubtedly will some day—the association might be wrecked for want of unity. Your committee does not believe in hoarding up vast sums for future generations to spend. This generation should enjoy the fruit of its labour, and to this end suggestions of rule alterations are in the air. We wish to be up to date and to create the greatest good to the greatest number; and a special committee is about to discuss how this can best be done. Before this report is in print, their deliberations will have taken concrete form for recommendation to the annual meeting.

The 'Bell Restoration' Fund shows a balance in hand of £14. Grants, have been made to Thurlaston, Leicestershire, and to North Wingfield, Derbyshire. Further grants are being made during the current year to other churches.

## PEAL RINGING.

The following list shows the peals rung by the association during the past year: Cambridge Surprise Maximus, 1; Stedman Cinques, 2 (both on H.B.); Cambridge Surprise Royal, 4; Leicester Surprise Royal, 1; Bob Royal, 2; Stedman Caters, 18 (9 on H.B.); Grandsire Caters, 2; London Surprise Major, 3; Bristol Surprise Major, 5; Yorkshire Surprise Major, 3; Cambridge Surprise Major, 6; New Cambridge Surprise Major, 1; Pudsey Surprise Major, 2; Superlative Surprise Major, 5; Norfolk Surprise Major, 1; Spliced T.B. Major, 3; Oxford T.B. Major, 1; Kent T.B. Major, 3; Double Norwich C.B. Major, 3; Canterbury Pleasure Major, 1; Bob Major, 9; Little Bob Major, 1; Stedman Triples, 20 (4 on H.B.); Grandsire Triples, 15; Minor in 5 methods, 1; Minor in 4 methods, 2; Minor in 3 methods, 1; Bob Minor, 6 (1 on H.B.); Doubles in 2 methods, 1; Stedman Doubles, 1 (on H.B.); Grandsire Doubles, 6; total, 130 (17 on H.B.).

Possibly the first thing members interested in peals will notice is the revival of handbell peal ringing, 17 of such peals being recorded during the year. All these, with the exception of one of Bob Minor, are Stedman peals, varying from Doubles to Cinques. The only other Stedman Cinques on handbells by the M.C.A. is the famous silent peal rung in 1903.

The number of peals rung during 1924 is smaller than the total for both 1922 and 1923, and for tower bells alone is less than for the last three years, but the variety of the methods rung is more extensive, the 130 peals appearing under 31 divisions. Stedman, both on tower and handbells, appears to be the most popular method, for, with the exception of Grandsire Triples (15), the other peals are well distributed.

Very important additions to our records are Cambridge Surprise Maximus, Leicester Surprise Royal, and Pudsey Surprise Major, the latter method serving as a gentle reminder that all our go-ahead ringers are not in one corner of the district. The ringers who are breaking new ground in such splendid manner are congratulated, and it is hoped their example will be an incentive to other districts.

One peal which deserves special mention is the 9,120 Spliced T.B. Major, the extent in this variation.

The peals rung have been conducted by the following 38 members: H. J. Poole, 22 (10 H.B.); W. P. Whitehead, 14 (5 H.B.); E. Morris, 13 (1 H.B.); F. H. Dexter, 10; J. Flint, 10; B. Reader, 6; F. Cotton, 5; M. Swinfield, 5; E. C. Shepherd, 4 (1 H.B.); A. H. Ward, 4; G. Freebrey, 3; L. W. Jacques, 3; R. Barrow, 2; B. A. Knights, 2; J. Lord, 2; C. A. Manning, 2; W. Wilson, 2; C. Allsop, F. W. Bailey, J. A. Barratt, R. H. Bartram, E. C. Chasty, A. Coppock, J. T. Dyke, J. A. Fenton, E. C. Gobey, A. H. Mansfield, F. M. Mitchell, W. Moore, G. S. Morris, F. Pervin, G. R. Pye, F. A. Salter, J. F. Smallwood, E. H. Stoneley, J. Taylor, W. White, T. H. Wright (1 each).

The composition of one peal (Superlative) rung for the association during the year, has been found to be false; therefore, this peal has not been accepted nor recorded.

Our membership roll at the 31st December, 1924, is as follows: Patrons and honorary members, 237; ringing members, 778; total, 1,015.

## GRANDSIRE AND PLAIN BOB.

By GEORGE BAKER.

Although I pointed out in the 'Bell News' as long ago as June, 1900, that the Bob lead of the Grandsire Method is symmetrical within the lead and the Plain lead is not (a fact which can be demonstrated by anyone who understands reciprocal proof) it was only as recently as last October that I was flatly contradicted by one of 'the powers that be' when I made a declaration that Grandsire is NOT Plain Bob with a bell in the hunt.

When other experts realise that proof can now be given by the Round Blocks and Transpositions as to the relationship of methods, perhaps they will drop their arbitrary definitions, and try to understand the natural laws of method construction.

Here it will be well to remark that, if a method is the same on all numbers, the round blocks and transpositions will prove the fact.

Below I give the round blocks, etc., of Bob Singles and Bob Minor, also of Grandsire Doubles and Grandsire Triples, the figures will speak for themselves, and I hope we shall never hear repeated the false statement that Grandsire is Plain Bob with a bell in the hunt.

The halfway transposition rows from Singles to Maximus are as follow, and it will no doubt be a grain of comfort to the mathematicians to find that at least one of their theories is true.

Park (conductor) 6. For evensong, 840 Cambridge Surprise Minor: W. Oliver 1, W. H. Porter 2, R. Park 3, W. N. Park 4, W. H. Thomas (Bristol) 5, G. W. Park (conductor) 6.

LAWTON, CHESHIRE.—On Sunday, March 29th, at Lawton, for evening service, 640 Bob Major: R. Arrowsmith 1, W. Longman 2, T. Arrowsmith 3, E. Harper 4, J. Booth 5, J. Wildblood 6, G. Bid-dulph 7, W. Rigby (conductor) 8. First touch of Bob Major by ringers of 1st, 3rd and 7th.

LONG STANTON.—On Sunday, March 29th, for evensong, 640 Kent Treble Bob: Rev. H. B. Woolley 1, H. J. Hazell 2, E. Gleaves 3, F. J. Cook 4, Geo. Crisp 5, E. Warrington 6, C. W. Cook (conductor) 7, J. B. Woolley 8.

MILTON-NEXT-GRAVESEND, KENT.—On Sunday evening, March 29th, for Confirmation service, conducted by the Lord Bishop of Rochester, 720 London Surprise, in 23 mins.: Cyril M. Mitchell 1, J. Burles 2, Fred M. Mitchell (conductor) 3, H. Argent 4, Fred A. Mitchell 5, G. Morrad 6.

MARKET DRAYTON.—On March 29th, for evensong, 518 Grandsire Triples (by J. Holt): W. Brounquist 1, A. M. Hickman 2, T. Tudor 3, E. V. Rodenburt (conductor) 4, J. Clark 5, S. Hughes 6, W. Weatherby 7, G. Hall 8. Rung after meeting late for a quarter-peal.

STOKE POGES.—On Sunday morning, March 29th, 720 Kent Treble Bob Minor: H. W. Stevenson 1, E. C. Hartley 2, T. G. Hawkins 3, J. Shuker 4, W. L. Gutteridge 5, A. D. Barker (conductor) 6.

CHILDWALL, LIVERPOOL.—At All Saints' Church, for confirmation service, on March 29th, a quarter-peal of Bob Minor, in 45 minutes: E. G. Lus 1, E. L. Humphreys 2, E. Trevitt (conductor) 3, J. Seddon 4, W. Betley 5, J. Roberts 6.

LONDON.—The St. Andrew's, Holborn, Guild.—On Sunday, March 29th, for evening service, a quarter-peal of Stedman Triples in 44 minutes: H. Franks 1, R. Green 2, C. Chooet 3, E. Brett 4, A. Darnell 5, J. Bullock 6, E. Russell (conductor) 7, J. Hawkins 8.

### DEATH OF MR. W. ROCK SMALL.

We regret to announce the death, on Saturday last, of the well-known veteran ringer, Mr. William Rock Small, of Tipton, Staffs, who passed away at the advanced age of 85 years.

The funeral takes place on Wednesday.

A sketch of Mr. Small's ringing career will appear in our next issue.

## BELFRY GOSSIP.

Appleton, the place of not a few long peals, including the longest of all, claimed a record length of Grandsire Caters, made on April 11th, 1888, when the Oxford Guild rang 13,265 in 8 hours 5 minutes.

College Exercise Major, a little practised method, took its name from the College Youths who rang the first peal in the method in 1760. A peal of 5,600 was rung at Bletchingly on April 11th, 1789.

Kettering, which has long been a centre of Northamptonshire ringing, was among the earliest provincial towers where peals were rung. A peal of Grandsire Triples rung there on April 12th, 1731, was the outcome of a challenge made, when a peal was recorded as having been rung in 3 hours 18 minutes, on Feb. 20th, 1729, that a peal could not be rung in less than 3½ hours.

To prove the 'wiseacres' in the wrong, another peal was rung in 2 hours 48 minutes, and the record states: 'Since it was asserted our first performance could not be rung in less than 3 hours and a half, for an experiment and before skilful judges, on ye 12th of April, 1731, ye whole peal of 5,040 was completed at 30 changes each minute, in 2 hours and 48 minutes by the persons underwritten: Tho. Howard 1, Tho. Woodford 2, John Law 3, G. Eayre 4, Hen. Parker 5, Rob. Booth 6, Jno. Carley 7, Jona. Barlow 8.'

The anniversary of the great performance at Loughborough falls on Sunday next. It was on April 12th, 1909, that the 18,027 Stedman Caters was rung in 12 hours 18 minutes, at All Saints' Church—one of the most wonderful achievements on record.

Easter has been a favourite time for record breaking, and it was on Easter Monday, April 13th, 1914, that the Ashton-under-Lyne men rang the 14,000 Treble Bob Royal, and thus beat the previous longest length in the method which had stood for 130 years.

The first peal of Cumberland Exercise Major was rung on April 16th, 1838, at Birstall, Yorks.

Mr. Connor O'Brien, of Dublin, who is sailing round the world in a 20ft. boat, recently reached Pernambuco, in South America.

What can be accomplished in an agricultural village by determined and persistent effort, is illustrated by the restoration of the tower and bells at Wethersfield, where £1,500 has been raised for the purpose. The tower was struck by lightning about ten years ago, and the bell frame, as well as the structure, was damaged. The Essex Association, through the Master (Mr. C. H. Howard), has given valuable assistance in the work carried out on the bells and fittings.

## ORGANIST PEAL RINGERS.

Dear Sir,—I am pleased to note a mate of my rank and file, Mr. D. Cecil Williams, Mus.Bac., Fellow of the Royal College of Organists, scoring 50 peals, but in reply to the query, whether he is the first Mus.Bac. to achieve that honour, I think I can claim the preference, as being now only four short of my 100th peal, and having turned the 50 long before the war. All my peals have been pulled off since I took my degree.—Yours faithfully,

W. E. PITMAN,

Mus.Bac., Oxon, Fellow of the Royal College of Organists, Organist and Choirmaster of St. George's, Canterbury, and a member of the Cathedral band. St. Margaret's Street, Canterbury.

## MIDDLESEX COUNTY ASSOCIATION. SOUTH AND WEST DISTRICT.

The April meeting of the South and West District of the Middlesex County Association and London Diocesan Guild was held at Heston on Saturday. The bells were set going soon after 3 p.m., under the direction of the Ringing Master, and several touches from Grandsire to Double Norwich were rung before service, at which the Rev. Col. W. Maclean officiated, and, in a brief address, welcomed the society to Heston on behalf of the Vicar (the Rev. F. W. Wilkinson).

Tea and business meeting followed in the Church Hall, with the Rev. Col. W. Maclean presiding, supported by the Vice-President, Ringing Master and Mrs. Maclean. The company numbered 25.

St. Mary's, Ealing, was selected for the May meeting, and Ruislip for June, due notice of which will appear in 'The Ringing World.'

A vote of thanks was accorded to the Vicar for the use of the bells and Church Hall; to the Rev. Col. W. Maclean, Mrs. Maclean, the Vice-President, the Ringing Master, and Mr. C. S. Bird, of the Heston Band.

The tower was again visited with the Rev. and Mrs. Maclean, and Surprise methods were practised, another pleasant afternoon and evening concluding at 9 p.m.

### THE FIRST PEAL OF TREBLE BOB ROYAL.

The 184th anniversary of the first peal of Treble Bob Royal which occurred on Tuesday, recalls the fact that St. Sepulchre's, Snow Hill, London, where the peal was rung, was one of the earliest towers in London to have ten bells. A chronicler in 1708 wrote that at this church 'there are 10 Tuneable Bells, which make a pleasant harmony when rung in peal.' At this time there was no peal of twelve in London, and, indeed, only York and Cirencester in the provinces had the maximum number. Eighty years later there were only nine peals of ten in Middlesex, viz., St. Mary-le-Bow; Christ Church, Spitalfields, St. Giles', Cripplegate; St. Sepulchre's, Holborn; St. Margaret's, Westminster; St. Leonard's, Shoreditch; St. Magnus-the-Martyr; St. Dionis Backchurch, and All Saints', Fulham.

By this time there were four peals of twelve, viz.: St. Bride's, St. Martin-in-the-Fields, St. Michael's, Cornhill, and St. Saviour's, Southwark.

ST. SEPULCHRE'S CHURCH, HOLBORN.

[Photo by F. E. Dawe.]

St. Sepulchre's bells had been recast in 1739, by Samuel Knight, of the Holborn foundry. The frame was made and the bells rehung by Robert Catlin, who was himself an active ringer. The rehanging, apparently, led to renewed activity in this belfry, and at least two

peals were rung there in 1741. We referred to them briefly last week. The ancient tablets contain the following details:—

#### SOCIETY OF EASTERN SCHOLARS.

On Tuesday, April 7th, 1741, was rung in this steeple a compleat peal of five thousand two hundred Oxford Triple Bob 10 in. The performers:—

|                |        |                             |       |

| Wm. Simms      | 3rd    | Thos. Bennett               | 8th   |
| Wm. Lovell     | 4th    | P. Mainwaring (call'd bobs) | 9th   |
| John Blake     | 5th    | R. Windlesborough           | Tenor |

This is the first compleat peal of 5,000 Oxford Treble Bob ten-in that was ever rung, and completed in 3 hours 57 minutes.

#### ANCIENT SOCIETY OF COLLEGE YOUTHS.

On Saturday, May 30th, 1741, the above Society rang 5,000 changes of Union Bob Royal in 3 hours 46 minutes. The performers were:—

|                  |        |                |       |
|------------------|--------|----------------|-------|

### WARWICKSHIRE GUILD.

#### RE-OPENING OF SHILTON BELLS AFTER RESTORATION.

The re-opening of the bells at Shilton after augmentation and restoration took place on Saturday last, in the presence of a large concourse of parishioners and visitors from the neighbouring towns and villages. The church was filled to overflowing long before the time of the service. Prayers were read by the Vicar (Rev. C. T. Pyemont), and the special lesson by Canon F. R. Evans, of Bedworth.

The Lord Bishop of Coventry performed the dedication ceremony, and also gave an inspiring address, based on the words 'Sursum Corda' ('Lift up your hearts'). He congratulated the people of Shilton on having their bells put in order in their time, an opportunity that did not come in every generation.

Two new trebles have been added, and the old four bells recast, making a handy little ring of 6, with the tenor about 7 cwt. The work of rehanging and recasting was entrusted to Messrs. Gillett and Johnston, of Croydon, and the way the work has been carried out reflects great credit on the firm, the tone and 'go' of the bells being excellent.

Upwards of 60 ringers were present during the afternoon and evening, and included Mr. S. H. Roper, the firm's representative, and Mr. J. H. Shepherd, of Swindon. Others were present from Allesley, Birmingham, Bulkington, Chilvers Coton, Coventry, Croft, Exhall, Monks Kirby, Nuneaton, Rugby, Stoke, Southam, Wolvey and other places.

Before the service commenced the bells were raised in peal by the following members of the Guild: T. W. Chapman (Ringing Master, Nuneaton) 1. E. H. Johnson (a native of Shilton, Coventry) 2. Miss G. M. Dodds (Chilvers Coton) 3. J. B. Fenton (district secretary, Rugby) 4. A. Wilkerson (hon. general secretary) 5. A. Roberts (ex-Ringing Master, Stoke) 6. Some well struck Grandsire Doubles were rung by the same band immediately after the dedication. They also rang the first touch of Minor at the conclusion of the service. Thereafter the bells were kept going in various methods until about 8 p.m.

A sumptuous tea was provided for the ringers, who, owing to the large number present, had to be accommodated in relays. Nevertheless, each and all passed a very pleasant time. The methods successfully brought round included Grandsire, Stedman and Bob Doubles, Plain Bob Minor, Double Oxford, Double Court, Oxford and Kent Treble Bob, Cambridge and London Surprise.

At the conclusion of the tower bell ringing, handbells were in evidence. The Rugby Quartette gave a wonderful exhibition of tune ringing, under the able conductorship of Mr. A. J. Hessian, who, everyone was pleased to see, had come out of his retirement again. The Webb family, too, from Croft, delighted the company as usual with their tune ringing. Train time brought a happy and successful gathering to a close.

BATH.—At St. Saviour's, for morning service, a quarter-peal of Bob Major (1344 changes) in 54 minutes: J. W. Bell 1. W. J. Prescott 2. T. Grant 3. H. D. Taylor 4. J. Hallett 5. C. W. Bell 6. H. E. Mills 7. A. Prince (conductor) 8. Also for confirmation service in the evening, a quarter-peal of Grandsire Triples (1260 changes) (taken from J. F. Pennings' one part) in 41 minutes: J. Taylor 1. J. Hallett 2. J. W. Bell 3. T. Grant 4. H. D. Taylor 5. C. W. Bell 6. A. Prince (conductor) 7. H. E. Mills 8. At the conclusion of the service a touch of Grandsire Triples (420 changes) was rung, after which the Bishop congratulated the ringers upon the excellent ringing both before and after the service.

## COLERNE CHURCH AND ITS BELLS.

### AN ISOLATED TOWER IN AN ISOLATED PARISH.

Colerne, in the north-west corner of Wiltshire, a village of considerable antiquity and of past glories, lies on high tableland midway between Bath and Chippenham. It overlooks the Box valley, and the traveller by the Great Western Railway, before entering or emerging from the Box tunnel may, if he is on the look out, catch a glimpse of the noble tower of the church, perched half-way up the sky-line, and dominating the landscape.

From this elevated position, the highest in Wiltshire, the sweet sound of the bells is wafted far and wide over the hillside, recalling to the listener Faber's hymn, 'Like bells at evening pealing.'

Until the year 1877 there were only six bells, and an old writer thus explains their excellence: 'Lawson Huddleston, of Shaftesbury, with many and extraordinary accomplishments, had a kind of passion for bells. To oblige any clerical friend who had six bells in his church, he would pass days and weeks in the belfry, chipping and modulating the sound of every bell till they answered exactly the

COLERNE CHURCH, WILTS.

intervals of the monochord. I had often heard of the music of Colerne bells. No one could tell why their sounds were so pleasing. There is a note that the bells were new tuned when Aubrey visited the place in 1659.

A close relationship, centuries old, has existed between Colerne and New College, Oxford. In 1388, Elizabeth, wife of Edward the Dispenser, sold the manor for 700 marks to William of Wykeham, who conveyed it to New College.

In 1447, King Henry VI. granted the warden and scholars of New College a market at Colerne every Friday, and a yearly fair for three days, on the vigil, day and morrow of the decollation of St. John-the-Baptist, 28th, 29th and 30th August.

In 1660, George Rivers, D.D., warden of New College in Oxford, gave a 'goodlie oak that grew upon their manor of Colerne, which yielded well neere 5 tunne of timber besides the tops and arms,' to the present Abbey at Bath for its rebuilding.

Just outside the south porch, which was built by William of Malmesbury, circa 1280, was the plinth of an ancient cross, fragments of which are preserved in the church, and from which Mr. Harold Brakespear, of Corsham, was enabled to produce, as nearly as possible, a replica of the original. Bishop Browne holds that it was one of the several crosses erected to mark the stages of the journey, when the body of St. Aldhelm was borne from Glastonbury to Malmesbury for burial.

Colerne has had its share in our Island story. It is rich in historical associations. On its western border is Bannerdown, or the 'holy hill,' where traditionally St. Augustine met the British Bishops, and on the side of the main road on this border stands an ancient cromlech called the 'Shire Stones,' the bases standing in the different counties of Wilts, Gloucester, and Somerset. On its eastern side is Slaughterford, where King Alfred defeated the Danes.

In the year 1877, the church was restored at a cost of £4,000, chiefly through the instrumentality of Richard Walmesley, of Ludenham, Colerne, and W. H. Poynter, of Hortham Lodge, Corsham.

At the same time, two trebles were added to the peal of bells, and the whole rebung in an oak frame by Messrs. Warner and Sons, London, and a board in the tower records the first course of Grand-

sire Triples (November, 1879) on the bells, and by the local ringers. The inscriptions on the bells are as follows:—

1st and 2nd.—John Warner and Sons, London, 1877.

John Joseph Strutt Bird, Vicar.

Richard Walmesley and Joseph Pinchin, Ch. Wds.

3rd.—Peace and Good Neighbourhood. A.R., 1737.

4th.—Peter Drewet and John Browning, Ch. Wds.

5th.—What Melody is wanting then when thou hast.

Peace with God and Men. R.P., 1652.

Thomas Shewring; John Head.

6th.—No inscription.

7th.—Peter Drewet and John Browning, Ch. Wds.

William Bilbie, Chewstoke, Somerset. Feet, 1783.

8th.—Thomas Drewet and Edward Ranger, Ch. Wds, A.R., 1737.

Many ringing bands from the neighbouring districts often made a visit to Colerne a 'day's outing,' and Mr. Joseph T. Dyke recalls a visit at a time when the bells were going badly, and when in an attempt to keep the tenor 'going' he bruised his knuckles through striking the floor.

During the process of renovations last year, many pieces of metal were taken out of the brasses. From one side of the 5th three pennies were removed, and Mr. Charles W. Bell, tower master of St. Saviour's, Bath, informs me he witnessed the late Mr. James Hinton, of Bristol, putting them in more than 25 years ago.

The following can be seen on the belfry wall,

Anno Domini 1881:

This is a Belfry that is free

For all those that civil be,

And if you please to come and ring

It is a very pleasant thing.

There is no music, played or sung.

Like unto bells, when they're well rung.

Then ring your bells well, if you can,

Silence is best for every man.

But if you here do swear or curse,

Three pence you pay, pull out your purse,

Come pay the clerk, it is his fee,

For all who swear shall not go free.

## RESTORATION OF WETHERSFIELD TOWER & BELLS.

### AN ESSEX RING OF SIX.

The bells of St. Mary Magdalene's Church, Wethersfield, Essex, were rededicated by the Bishop of Chelmsford on Thursday afternoon last. Notwithstanding the cold and inclement weather, there was a large congregation present to witness the ceremony.

Some ten years ago the church spire was struck by lightning and damaged. The oak frame carrying the bells, the oldest of which, cast in 1683, is by Miles Gray, was also damaged, so that it was not possible to ring the bells with safety. The Saxon tower has been completely restored, and the bells rehung in a new teak frame, with ball bearings, and buffers attached to the clappers. They have also been retuned, and make a very musical ring in F, with a tenor 11½ cwt. The work has been carried out by Messrs. Mears and Stainbank, and the 'go' and tone of the bells reflect great credit on the firm.

During the service a few rounds were rung, and afterwards an excellent 720 Kent Treble Bob was rung by C. H. Howard (conductor) 1, Miss E. Pettitt 2, W. H. Dyson 3, G. Wiffen 4, H. E. Hammond 5, H. J. Collins 6. The ringers were then invited to tea at Wethersfield Manor by Lady Flannery, who expressed her appreciation of the ringers and the bells.

The ringers returned to the tower, and rung 720 Bob Minor: B. Redgwell 1, W. H. Dyson 2, Miss E. Pettitt 3, G. Wiffen 4, H. E. Hammond (conductor) 5, H. J. Collins 6. Also 720 Oxford Treble Bob: W. H. Dyson 1, L. Wiseman 2, G. Wiffen 3, B. Pettitt 4, N. Hawkins 5, C. H. Howard (conductor) 6. Short touches were afterwards brought round, in which W. Gould and J. Bloomfield (local ringers) took part.

The parishioners were delighted to see a lady ringer taking part in the opening, and several lady onlookers expressed a wish to the Vicar to be allowed to join the new band which is being formed, and of which the Rev. J. C. Rossiter, M.A. (the Vicar), is a member.

During the afternoon and evening the Vicar and his wardens watched the ringing with interest. The Vicar thanked the visiting ringers for so kindly volunteering their services, and expressed the appreciation of the parishioners at once again hearing their own church bells peal forth their message from the ancient church tower.

The total cost of the restoration amounts to £1,500, the whole of which has been raised by voluntary effort, except two legacies of £100 each.

HANLEY CASTLE, WORCESTERSHIRE.—At the Church of St. Gabriel, on Sunday, March 29th, 720 Bob Minor: F. Lawrence 1, A. Hartland 2, J. Rowlett 3, J. Lawrence 4, A. Short 5, C. Camm (conductor) 6.

**ST. PETER-AT-ARCHES, LINCOLN.****AN APPEAL.**

The bells of St. Peter-at-Arches Church, Lincoln, were founded by Abraham Rudhall, of Gloucester, in the year 1728. They were last rehung by Messrs. John Taylor and Co. in the year 1890, at which time Mr. Taylor reported that the frame might be patched up so as to last some years. This was done.

Recently it was found desirable to consult Messrs. Taylor again as to the condition of the bell frame. They now report 'the time

The congregation is not a wealthy one, so we have to appeal to others to help us.

St. Peter-at-Arches bells are well known, and the belfry has for long past been a nursery for change ringers. Many a well-known ringer has had some part of his early training in change ringing at St. Peter's.

We appeal to all friends of the Exercise to help us to get this work going again, and let these fine old bells ring out once more to the greater glory of God.

This appeal has the support of the Bishop of the Diocese.

ST. PETER-AT-ARCHES CHURCH.

has now arrived when nothing further can be done in this direction (i.e., of patching up), and in our opinion it would be an absolute waste of money to do anything in the way of repairing the present timber framework.'

It is proposed to rehang the bells in a cast-iron frame, supported by steel girders, with the best modern appliances.

The Church Council has decided to undertake this work when the necessary funds (about £600) have been raised.

Signed on behalf of the committee,

REGINALD BOND, Rector,

JAMES M. SKERRITT,

HERBERT E. GAMMON,

Churchwardens,

Countersigned,

H. LAW JAMES,

Master of the Lincoln Diocesan Guild.

**MIDLAND COUNTIES ASSOCIATION.****DERBY DISTRICT.**

The monthly meeting of the Derby District was held at Spondon on Saturday, March 28th, when members were present from Alvaston, Breaston, Derby, Elvaston and West Hallam; also Sir H. Fowler and Mr. G. Thompson, of the local band. The methods practised were Kent, Oxford and Bob Minor, Stedman and Grandsire Doubles (Sir Henry taking part in the last named).

Tea and business meeting was held in a nearby cafe (presided over by Mr. G. Freebrey), when it was agreed to hold the next meeting at Ashbourne on May 30th, the April meeting being postponed on account of the annual meeting of the association on Easter Monday.

A vote of thanks to the Vicar for the use of the bells, and Mr. Thompson for making arrangements, was carried, and this terminated the meeting. The bells were then again requisitioned.

**ACTON.**—On March 25th, a quarter-peal of Grandsire Triples: M. England 1, E. Lankester 2, C. Brown 3, R. H. Boddington 4, R. Holloway (conductor) 5, Miss Hawksworth 6, H. Wincote 7, W. Elliott 8. ### PAYING UP.

Although the question forces itself very strongly upon association officials, we doubt whether the average ringer gives more than a passing thought, if that, to the financial affairs of his society. Certain it is that many ringers do not realise the importance of promptly paying their annual contributions. Several associations have recently drawn attention to the arrears of subscriptions due from members, and it ought to be appreciated that association work cannot be efficiently carried on unless members realise their financial responsibilities and discharge them—not, as appears to be the habit of some, a year or more after the due date, but when the time arrives for the liability to be met. The committee of the Chester Guild has had to bring this matter with some emphasis before its members in its annual report, and not for the first time, but its experience is by no means uncommon. A balance sheet of the East Berks and South Bucks branch of the Oxford Guild indicates that there is the same kind of failing in this area, and other societies find themselves similarly placed.

What is the remedy? Probably none, except to appeal to the instincts of fair play among those who seem to make an unfortunate habit of getting into arrears. The Secretary of the Hertford County Association, which is another society where dilatory contributors make the official work difficult, suggests that the members' contributions should be deducted when the belfry funds are distributed. This would be quite a good arrangement in towers where there is anything due to ringers in the nature of a share out; indeed it should be a first charge upon the funds; but in many cases there is no such distribution. Leaving the collection of the subscriptions to the local secretaries is not always an effective method, although the man on the spot ought to be able to do better than the secretary who lives at a distance.

The Chester Guild, we notice, has taken the step of indicating in the report those who have not paid their subscriptions for the past year, and this means of drawing attention to the 'oversight' ought not to be without effect. We think, however, that associations might deal a little more firmly with those in arrears. Their finances could not suffer—because they are already without the contributions—but it might save expense if the peals in which these ringers take part were excluded from the reports, for it is the printing of the peal records which runs up the cost. Then, too, if ringers realised they were to be excluded from the 'benefits' which are extended to paid-up members, it might also be an inducement.

ment not to get into arrears. But this line of action possibly might not be altogether acceptable to some associations, as it would affect the nominal 'membership,' and, maybe, reduce the peal records to smaller proportions; but, after all, statistics are not everything, and a 'live' roll is a far more valuable asset. Perhaps, however, the importance of the prompt payment of subscriptions might figure with advantage in the forefront of the 'educational' work of our various ringing organisations.

**PENNIES AS PACKING.**

HOW COLERNE BELLS WERE MADE PEALABLE.

To the Editor.

Dear Sir.—In the history of Colerne Church and its bells, in last week's 'Ringing World,' mention is made of packing the 5th gudgeon with pennies. On Sunday, June 10th, 1888, I was one of the band with the late Mr. J. W. Hinton, who rang the first peal on Colerne bells—a peal of Grandsire Triples in 3 hours 6 minutes. Mr. Hinton and myself went up and put five pennies down at the end of the gudgeon to keep it from knocking on the frame. Some months after we went again for another peal, and thought we should have to do some more packing, but instead of finding pennies at the gudgeon end we found them gone, and a piece of iron plate inserted. We did not score on that trip. The first packing thus took place 37 years ago next June. I was living in Bath from 1886 to 1890.—Yours, etc.,  
J. HOLMAN.

**TWO KINDS OF PEAL RINGERS.**

NORWICH RECTOR'S VIEWS.

Recently we commented on an article which appeared in the public Press from Canon Meyrick, Rector of St. Peter Mancroft, Norwich, with regard to the bells. It is, therefore, a pleasure, especially in view of the reopening of the famous ring of bells at Mancroft Church on Sunday, to quote the following from the 'St. Peter Mancroft Parish Magazine' for April: 'The Church,' Canon Meyrick says, 'is immensely indebted to her faithful sons and daughters, who, while happy to ring peals, primarily love the belfry for the service they are able to offer to God and His people on Sundays. Church ringers, like other church workers, must be clear about their motives. The choirman does not join a church choir because he wishes to sing in a concert. From time to time he and his comrades delight us with a concert, but the main motive is to lead God's worship in the church. So with the ringer—if his one aim is to ring innumerable peals of London Surprise, Cambridge Maximus, Superlative Surprise, Stedman Cinques, Treble Bob Maximus, Double Norwich Court Bob Roynl, and the rest, he will be of little use to his church. He will be merely getting his chief amusement in life very cheaply. But should he join the Ringers' Guild, in the same spirit that a singer joins the choir or a Sunday School teacher joins the teachers' association, then he (or she) can be of untold value to his church and to the life of ringing. Because I am very anxious to see the art of bell ringing, which has been well nigh killed in Norwich, revive, I would see bell ringing treated as a definite piece of Church work. I want to see all ringers take an honoured place among the voluntary workers of the parishes, whose beautiful belfries are now silent. There are peal ringers who have made ringing live. There are other peal ringers who have strangled the great art; men who cold-shoulder young aspirants while they are as yet useless for peal ringing; men who care nothing for their church and who have no desire to worship with those whom they have summoned; men who use some of our belfries simply to gratify a lust for peal ringing. We at St. Peter Mancroft are very fortunate. We have as our master Mr. G. Burton, as his assistant Mr. C. Borrett, as our secretary, Mr. J. F. Duffield, and as our treasurer Mr. D. O. Holme—all enthusiastic ringers, but who are Churchmen first and ringers afterwards. We have women, too, faithful communicants and fine ringers. We have a very good friend, Mr. Mayers, who is at present engaged in teaching recruits the rudiments of change ringing on handbells. Our verger, Mr. Potter, is ever ready to teach recruits to handle a bell. We have a band of voluntary ringers very worthy of our beautiful rehung bells, and we have the right officers. We look to them to maintain our high standard.'

**HALIFAX ASSOCIATION'S CONTEST.**

BATLEY WIN THE COMPETITION.

The Halifax and District Association held their quarterly meeting and six-bell contest at Ripponden Church on Saturday, April 4th. It had previously been decided to ring 720 changes any method; but, owing to the large entry, it was resolved at the committee meeting to curtail it. The committee decided that 360 changes be rung, any method, with the usual allowance of three leads or one plain course for practice. The draw for order of ringing took place as follows:—No. 1, Stainland (Kent Treble Bob); 2, Shelley (Violet); 3, Liversedge (Bob Minor); 4, Batley (Oxford); 5, Halifax Parish (Kent Treble Bob); 6, Huddersfield (Oxford); 7, Meltham (Oxford); 8, Holmfirth (Oxford); 9, Lindley (Kent Treble Bob); 10, Lightcliffe (Kent Treble Bob).

A tea was provided in the schoolroom, which close on 100 enjoyed. Ringing ceased about eight o'clock, and the meeting was then held. Mr. J. Hardcastle (president) occupying the chair. The Chairman proposed hearty thanks to the Vicar and churchwardens, also all the Ripponden friends who had helped to make the contest such a great success. The Vicar replied, saying that they would be glad to welcome the association at some future date. The judges, Mr. J. Broadley (Bradford), and Mr. F. Schofield (Lindley), then gave their decision as follows:—No. 1, 175 faults; 2, 10 penalty, 181 faults—total 191 faults; 3, 127 faults; 4, 74 faults; 5, rung out; 6, 90 faults; 7, rung out; 8, 135 faults; 9, 20 penalty, 103 faults—total 123 faults; 10, rung out.

No. 4 Company, Batley, were then presented with the cup by the Vicar. Mr. Gibson, on receiving the cup, said it was a pleasing feature to see so many young ringers, and he hoped they would stick together, for that, in his opinion, was the only way to get good striking.—A vote of thanks to the judges closed a successful contest.

**BELL-ROPE TRAGEDY.**

A tragedy occurred in the Parish Church, Gaywood, near King's Lynn, last week. Mr. Alfred Littleproud, aged 63, who, in consequence of ill-health had been unable to follow his employment, was found by the sexton hanging by the treble bell rope from the ladder leading to the belfry. 'Suicide whilst temporarily insane' was the verdict at the inquest.

## ELY DIOCESAN ASSOCIATION.

### ANNUAL MEETING AT CAMBRIDGE.

The annual meeting was held at Cambridge on Easter Monday. The morning was fine, but about noon rain fell, and there were heavy storms during the afternoon, which marred the pleasure of the members.

The usual service was held in Great St. Mary's Church at noon, when Bishop Price, the Archdeacon of Ely, who takes great interest in the association, gave a stirring address, based on 1 Cor. xv., 58.

Luncheon followed at the Dorothy Cafe, when 40 members and friends, and some visitors from London, sat down. Bishop Price was in the chair, supported by the Revs. A. H. F. Boughey and H. B. Woolley.

The business meeting was held at the close, when the auditor made a statement as to the accounts, which showed a balance in hand.

The officers were reappointed: Hon. secretary and treasurer, the Rev. R. Copeman; auditor, Mr. T. R. Dennis; district secretaries, Mr. H. W. Giddings (March) for Wisbech Archdeaconry; the Rev. H. B. Woolley (Long Stanton) for Hunts; Mr. A. E. Austin (Great Shelford) for Ely Archdeaconry; and Mr. W. G. Cross (King's Lynn) for Marshland.

The Secretary reported that 29 peals had been rung during 1924 in various methods, all but one on tower bells.

The Rev. H. B. Woolley gave notice of a district meeting at St. Neots on May 2nd.

The Rev. A. H. F. Boughey proposed a vote of thanks to the Bishop for his address; to the Vicar of Great St. Mary's for allowing the service to be held there; and to the incumbents who had granted the use of their bells.—This was carried with acclamation, and the members dispersed, and the bells of Great St. Mary's were most in favour. The showers and breaking ropes proving a hindrance to ringing at more distant towers.

## RESTORATION OF CHARLWOOD BELLS.

The bells of Charlwood, Surrey, have just been restored by Messrs. Mears and Stainbank. The treble, second and fourth have been recast, the other three tuned, and the frame strengthened. The bells now hang on the latest type of bearings, and the 'go' is excellent. The work has cost £375, towards which £230 has been subscribed.

The dedication took place on Saturday, April 4th, and was performed by the Bishop of Woolwich, who gave an address on the subject of 'Worship and Work,' to which, he urged, the ringing of church bells was a clear and pressing call.

The hymns sung during the service were 'All people that on earth do dwell' and selected verses from 'When morning gilds the sky,' the one hundredth Psalm being also included.

At the conclusion of the service the bells were rung by a representative company of ringers from the village and surrounding district, and before leaving the Bishop ascended the belfry and pronounced the Blessing.

Ringers were present from Capel, Crawley, Horley, Newdigate, Reigate, and the local band, and the touches included Bob Minor, Kent Treble Bob Minor, Canterbury Pleasure, Woodbine, College Exercise and Stedman Doubles.

## MIDLAND COUNTIES ASSOCIATION.

A most successful meeting of the Leicester branch was held on Saturday, April 4th, at Beilgrave. The bells were set going from three o'clock to touches of Grandsire, Stedman, Double Norwich, Superlative, Cambridge and London (?), the last named of the 'syncopated' style of jazz ringing, owing, as the secretary blandly put it, to some not knowing the method, and those who did, not trying.

Tea was served in the Church Rooms, and later a well-attended meeting took place in the Talbot. It was good to see some of the 'old boys' turn up to encourage the youngsters, and to have them joining in handbell touches of Stedman Cinques and Caters, Kent Royal, and last, but not least, 'Scolding Witch,' the latter drawing the remark from a non-ringer, 'that out to sound good.'

Business consisted chiefly in airing the members' views on the proposed new rules, and altogether this meeting can be put down as a further success for the new local secretary, although one would like to see a bit more enthusiasm from some of the famous 1920-3 'first eleven,' otherwise Leicester will be losing her position. (See Association 1924 Report just out.)

E. M.

STAMFORD HILL, N.—On March 18th, at St. Ann's Church, a quarter-peal of Bob Minor (1,260 changes), in 48 mins.: T. C. Ringrose 1, Miss M. E. Ringrose (first quarter-peal inside) 2, A. Howell 3, F. E. Ringrose 4, J. G. Nash 5, A. Putland (conductor) 6.

DUBLIN.—On Wednesday, March 18th, on handbells, 720 Bob Minor: G. R. Heatley (Bray) 1, G. G. Lindoff 2, G. Lindoff (conductor) 3-4, W. E. Lynch 5, J. B. Lough (Bray) 6. 1st 720 by 1st, 2nd and 6th.

## OLD LEAKE BELLS RESTORED.

The bells of St. Mary's Church, Old Leake, which have been rehung with entirely new fittings in the old frame, which has been strengthened, were dedicated on Palm Sunday. The dedicatory prayers were said by the Rev. W. S. Brindley, and the sermon was preached by the Vice-Principal of Burgh College.

During the day, touches of Plain Bob and Kent Treble Bob and Grandsire Doubles were rung, those taking part being J. W. Lakin, senr., J. W. Lakin, junr., P. Lakin, H. Lakin, Miss Elsie Lakin, W. Small, G. W. Houghton, G. Baker, F. M. S. Hodgson. The 'go' of the bells is all that can be desired, and the greatest praise is due to Mr. Alfred Bowell, of Ipswich, for the way he has carried out the work.

## TERMINOLOGY.

### To the Editor.

Sir,—May I thank Mr. George Baker for his kind words, and say I am glad I am no longer in his black books; and I hope he will now destroy them.

As to whether 'shift' or 'move' be used instead of 'shunt' does not seem to greatly matter. A 'shift-course' seems to be so near the meaning required, that the use of the word in both connotations would hardly cause confusion. It is for those who write these words to choose them. We who only read them, have merely a veto.

I am heartily in agreement with the revision of the Glossary, which 'Criticus' advocates so tellingly. Will any other member of the Council who would support this, please write to me or to you?

April 13th, 1925.

## STEDMAN TRIPLES DATE TOUCH.

### To the Editor.

Dear Sir,—I am obliged to Mr. Jacques for his remarks re the above, and, in reply, beg to state that my date touch is perfectly authentic, and comes into rounds at the correct number of changes, it having been carefully checked before it was sent to you for publication. In the last course the bob at 9 is made by the seventh; another bob being made in the six immediately following (which I called 12). I have evidently misled Mr. Jacques by putting the last call as S 14, whereas it should have been put as S 2. The seventh makes sixth's place at this single, which produces the further course-end 1342657, rounds occurring at the third row in the next six. I added a footnote explaining this to the copy which I sent you, but presumably you were unable to insert same, otherwise the query might have been averted. With reference to the alterations which Mr. Jacques suggests, the single at 3 produces a repetition with the second course, and the bob at 14 brings rounds at 1957, not 1955. In conclusion, I would like to mention that when we rang the date touch here on March 24th we discovered that it contains 'Queens' and 'Tittums' in the 20th and 21st courses respectively.—Yours faithfully,

THOMAS BUTLER.

## MUFFLED BELLS.

At All Saints' Church, Wath-on-Dearne, on Tuesday, April 7th, a date touch (1,925 changes) of Treble Bob Minor, in 1 hour and 8 minutes, in the following methods: 485 Woodcock's Delight, 720 Snowdrop, 720 Nelson's Delight by G. Lord 1, H. Chamberlain 2, J. Champion 3, R. Ricketts 4, A. Gill 5, Chas. Walsh (conductor) 6. Rung with the bells muffled as a token of respect to Mr. Harry Maughan, an old member of the local band, who was interred at Wath the same day.

At St. Andrew's Church, Holborn, London, on Sunday, April 5th, after evening service, a quarter-peal of Stedman Triples, in 45 minutes: E. Brett 1, C. Chooet 2, C. F. Winney 3, H. Franks 4, R. Green 5, R. F. Deal 6, James Bullock (conductor) 7, J. S. Hawkins 8. Rung with the bells half-muffled as a token of respect to the late Mrs. Russell, mother of Mr. E. C. Russell, secretary of the St. Andrew's Guild.

At Witham, Essex, on Thursday, April 2nd, at St. Nicholas' Church, with the bells half-muffled as a last token of respect to Mrs. Butler, widow of the late Mr. J. Butler, for many years a ringer at this church, and mother of Mr. W. Butler, one of the present band. 720 Double Court and 720 Oxford Treble Bob by the following: W. S. Butler 1, A. Chalk 2, V. Glass 3, W. Mellin 4, A. Evers 5, E. Bright (conductor) 6.

## COALBROOKDALE BELLS.

The fund for the restoration and augmentation of Coalbrookdale bells has now reached £300. A further £300 is required to complete the scheme of adding two new trebles to make a peal of ten. Will all friends, who would like to subscribe, kindly send to the Rev. Preb. C. B. Crowe, R.D., The Vicarage, Coalbrookdale, Shropshire, or Mr. William Saunders, Institution House, Coalbrookdale, Shropshire?

# HERTFORD COUNTY ASSOCIATION.

FESTIVAL AT ST. ALBANS.

The annual festival of the Hertford County Association took place at St. Albans on Monday. Members assembled from a large number of towers, and during the day touches in various methods were rung at the Abbey and St. Peter's Church.

A special service was held at the Abbey in the afternoon, when a short address was given by the Rev. B. H. Tyrwhitt-Drake, of Thundridge. In his address, he remarked that the less ringers were paid the better was their work. The man who rang only for what he could get was never so good a ringer as the man who rang because his heart was in the work. Ringing was the most perfect team work of any recreation in the world.

Following the service, tea and the annual meeting were held at the Abbey Institute, the retiring president (Mr. H. E. C. Goodenough) presiding. About 60 members were present.

Canon Mayhew, of St. Albans, speaking at the meeting, said the clergy and bell ringers were fellow workers; the bell ringers summoned the people to church for the clergy to lead them in worship. In a very special way the clergy should be grateful to ringers. Bell ringing was thoroughly Christian, and one of the good things we owed to Christianity. To listen to the bells was a most delightful thing. He considered that if bell ringing died out in England it would be an irretrievable loss, and he appealed to young men to take up bell ringing.

## OFFICIALS' LONG SERVICE.

In his annual report the Hon. Secretary (Mr. G. W. Cartmel) said: This is our fortieth report, and we are, to borrow the phrase of a well-known advertisement—'still going strong.' The first report was issued in 1885, the secretary and treasurer being the Rev. Canon Wigram. The association then consisted of seven bands, three of which belonged to St. Albans, and we still have with us several original members whose ringing activities are still keen. It is somewhat unique that the association has only had two treasurers and three secretaries. Mr. E. P. Debenham has been treasurer for 37 years, and I trust he will be spared many years to fulfil those duties. Mr. W. H. Lawrence has been district secretary for the Eastern Division for 24 years. He has given us his best in painstaking service, and we appreciate his services more than words can express. For the Western Division Mr. Eden gave us his services for 19 years (including war service), only resigning last year, and one regrets to hear that he has left us for the adjoining county of Essex. We shall always gratefully remember his efforts.

For 21 years your choice has fallen upon me as your secretary. An epitome of 40 years' history would be interesting, but that will be more appropriate for our jubilee, so I refrain from comment. As an association we have never looked back, the officers ever keeping to the forefront the true position of a ringer as a church worker. In our aspirations we have not been disappointed. Many changes have occurred in our membership, but it has been a unique experience of what happy fellowship really is when expressed in terms of Christian action, and that is the atmosphere I am assured you wish to continue. A true fellowship begun and enjoyed down here, and continued afterwards in unbroken communion with Him whose Resurrection we commemorated yesterday by the ringing of the church bells.

But what of the past year's efforts? The peals numbered 24, viz.: Cambridge Surprise Royal 1, Cambridge Surprise Major 1, Bristol Surprise Major 1, Bob Royal 1, Double Norwich Major 2, Kent Treble Bob Major 3, Bob Major 1, Stedman Triples 3, Grandsire Triples 2, Bob Triples 1, Treble Bob Minor 1, Minor 7.

There have been 16 conductors for the 24 peals, and 16 members have rung their first peal. Quite a new departure was the ringing of a Freemason's peal at Bushey by our members, conducted by the Worshipful Master, W. H. L. Buckingham. It was the first peal rung by a band of Freemasons in the province or county of Herts. It is mooted that a Freemasons Lodge for England, comprised of bell-ringers, is to be formed.

The removal of Dean Blenkin, by death, from our midst, is an irreparable loss. Coming to us in 1915, he has never missed an annual meeting, like his predecessor, Dean Lawrence. His presence was an inspiration to us all, his godly counsel, reverently blended with quaint inimitable humour, always sent us away happier and better. We all loved the Dean, and the Dean loved the ringers, and it needed no element of persuasion from your secretary to induce him to be present. He very often came to us tired in his work, but never tired of it. A motto for ringers. He loved also the bells, and the Cathedral Society, when attempting a peal, always knew that they had one intent and appreciative listener, for when success came their way he would, candle in hand, find his way into the belfry to congratulate the members upon their success. His first sermon to us was preached from the words, 'That I might finish my course with joy.' God heard and answered that prayer, for his life was a joyous life, and we shall ever remember it with deep thankfulness. He has rung his course, his bell is set, and he now rejoices in the presence of the Master whom, having not seen, he loved. May God give us

all grace so to run 'that we also may obtain.'

The committee met at St. Albans on February 21st, and discussed the general welfare of the association. The financial position came up for discussion, and it was felt that during the year the committee should give special attention to this matter. The Washbrook appeal was also considered, and the committee recommended that the sum of one guinea be subscribed.

I commend to your hearty support our weekly paper, 'The Ringing World.' The editor deserves all the support we can give him, for he provides us with a capital paper, full of interesting reading. His weekly article covers a wide field, and does much to advance not only the cause of changering, but the education of ringers themselves in matters pertaining to their craft.

## WORK IN THE DISTRICTS.

In the districts Mr. T. R. Bacon has been very busy, having arranged seven meetings during the year, viz., at Knebworth, Great Wymondley, Hitchin, Royston, Baldock, Stevenage and King's Walden, with good results. One gratifying feature is that in every case he had been able to get a service in the churches. Five new ringing members and three honorary members were another result. King's Walden was also visited for the first time, the Vicar, the Rev. F. H. Proctor, giving the members a very hearty welcome, and, with his consent, is being nominated for election as an honorary member to-day. The Royston band have lost through ill-health one of its best workers in the person of Mr. W. L. Darlow, who has been advised to migrate to South Africa, where we sincerely hope the change of climate will benefit his health. Although peal ringing has not been very successful in the district, Sunday service ringing has been well maintained, and several quarter-peals brought round. We congratulate Mr. J. J. Cawdell, of Baldock, on ringing his first peal of Stedman Triples at his Parish Church, after much patient perseverance. Several young members of his band have also rung their first quarter-peal of Grandsire Triples. Barley and Great Wymondley still maintain their reputation for six-bell ringing, and each year conquer fresh methods. The Hitchin band has made wonderful progress, and are now tackling Bristol perseveringly. I understand that illness near the church has hampered their success in peal ringing, but their service ringing has been well maintained. Congratulations also to Mr. J. R. Foster, now somewhat of a veteran, upon being elected as captain of the Hitchin band.

Mr. W. H. Lawrence has arranged in his district seven meetings, at three of which an address was given. He reports progress in many bands. Braughing have scored their first peal, Bob Triples, with seven firsts, all local men. The Widdford band, whom we welcomed into affiliation last year, have also rung their first peal, the first upon the bells by a local band. Little Munden, a band capable of ringing 15 methods, have got back to their previous status, having scored a peal, the first for five years. Sawbridgeworth, once a stronghold of change ringing, has grown weak, but I trust that the advent of the Rev. A. and Mrs. Rust may cause a revival. Our secretary hopes to arrange a meeting at an early date.

Mr. W. Ayre, for the Western District, has arranged meetings at Northchurch, Apsley, Tring, King's Langley, Hemel Hempstead and Great Gaddesden. All meetings have been fairly well attended, and good work has been done. I am glad to notice a meeting has been held at Great Gaddesden. Also that the 7th and tenor have been rebung at Berkhamsted; but why the cracked sixth should have been left untouched I cannot understand.

Mr. C. H. Horton, our new Watford secretary, has arranged nine meetings, the aggregate attendance being 158. One result has been the election of eight members, and interest aroused in the district. Various touches that are reported from time to time in 'The Ringing World' shows that the Watford and Rickmansworth towers are keeping well to the fore. The Stanmore company have made good progress, and it was most unfortunate that the peal arranged for their captain's 50th birthday should have failed within 35 changes from home, owing, I understand, to the ringing of an alarm bell. I trust Mr. Edwards will soon have the pleasure of piloting the band through their first peal.

Mr. W. Nash, for the St. Albans Division, has provided meetings at North Myms, Flamstead and Redbourn, Harpenden, St. Albans and Watford, with an average attendance of 15. Although the attendances have not been great, chiefly owing in some instances to the towers being off railway routes, useful work has been done. The Kimpton band has made excellent progress under the tuition of Mr. Gillings, and have rung their first 720 of Bob Minor, probably the first ever rung upon the bells by a local band. Now they are tackling Oxford Bob and Stedman Doubles. I am sure Mr. Nash will endeavour to arrange a meeting at Kimpton this summer, and thus encourage the band to further achievements. The Luton band still keep up their reputation, and before the year is over I fully expect to hear they have rung their first of Bristol. St. Albans is normal, one gratifying feature, however, being the regular Sunday service ringing. It is no uncommon thing to hear the four peals ringing for

service at the same time, interspersed with the tang-tang from other churches.

#### RELATED SUBSCRIPTIONS.

I must again refer to the delay which exists with some bands in the payment of their subscriptions, and would ask members to assist their officers by paying more promptly. Some pay at the eleventh hour, others promise, with the best intentions, but generally manage to send just too late for the current year's account. The consequence is the treasurer is unable to draw out a balance sheet to represent the actual finances of the year: besides, the secretarial work is considerably hampered. I would suggest that each year, when the belfry fund is distributed, members should agree to the deduction of their subscription. It would be a great help if this plan was adopted.

I would ask the district secretaries to accept not only the thanks of the members, but my personal appreciation of all that they have done during the past year. The arrangement of meetings in their respective districts entails time and patience, and they deserve all the success that has come their way. May these meetings ever conduce to brotherly fellowship and the advancement of our ringing ideals.

One sometimes hears, even in our association of friction amongst ringers, and one optimistic secretary generally informs me that matters will come all right in due course. But they very often don't until much harm has been done in the weakening of the band and the loss to the ringing Exercise of good ringers. There may be faults on both sides, but even if it is not the case, I do appeal to members to come together at the earliest opportunity and discuss in a brotherly way their difficulties, instead of absenting themselves from ringing, with the consequence that the local band and the association lose prestige. The vocation of a ringer is that of a church worker, and as such he should recognise that his work is for the glory of God, and that each Sabbath day he praises God with the loud symbols by the ringing of the bells. If we look at our work as service for Him we shall brush aside things that may not be pleasant, and willingly endure hardness as good soldiers of Jesus Christ. Let us always put into our ringing the virtues of practical Christianity, and the result may never be feared.

I must now bring my report to a close, once again appealing to you to loyally support your clergy by the ringing of the bells regularly for the services of the church, and endeavouring at the same time to make yourselves proficient in your art. It behoves us also to make as much as possible of our annual meeting by making it a common rallying ground for securing the personal touch with

your officers, and also for utilising it as a thanksgiving day for God's mercies during the year that has passed. Our meeting is held at the time of the Church's greatest festival, the keynote of which is victory. The same message is expressed in our fields and woodlands. Let us lay hold of the inspiration that Easter affords, and go back to our towers with the determination that we will preserve at all costs the unity of the spirit in the bond of peace.

It was agreed to contribute the £1 ls. to the James W. Washbrook Memorial at Oxford.

The statement of accounts, which was adopted, showed a balance in hand of £8 ls. 3d., as compared with £9 17s. 11d. at the beginning of the year.

Mr. F. R. Bacon, of Hitchin, was unanimously elected president; Mr. G. W. Cartmel, hon. secretary; and the other officers were re-elected.

Other elections were: Hon. members, the Rev. F. H. Proctor (Vicar of King's Walden), the Rev. H. Edwards (Vicar of Watford), Messrs. L. Hambling (South Mimms), and H. J. Shadbolt (North Myms). Ringing members: Messrs. W. T. Lucas, C. Jeffs, A. Eaton, A. B. Halsey and L. A. Turner, all of St. Albans; A. J. Smith (Luton), G. A. Hughes, junr., A. Hughes, H. Maxton, G. Cheshire, H. Schofield and J. Spencer, all of Stanmore; T. Cannon, J. Chalkley and J. Aldridge, all of Bennington; F. Hopper (Northampton) and W. Rogers (Northampton).

#### EASTERN DISTRICT MEETING AT BRAUGHING.

A very successful meeting of the Eastern District was held at Braughing, and a very helpful and enjoyable time was spent. The bells, a very musical ring (tenor 19 cwt.) were open for ringing, and twenty-five members attended from Ware, Royston, Barkway, Sawston, Cambs; Great and Little Munden, besides the members of the Braughing band, who are making good progress, and show great promise of equalling their predecessors of the 18th century. A short service was conducted by the Vicar (the Rev. E. J. Baker), who delivered an appropriate address upon workers. He extended a warm and brotherly welcome to all those present, and expressed the pleasure it gave him to have the privilege of addressing what was the first ringers' service in Braughing Church. He had great sympathy with ringers, having in his earlier life been a ringer.

Miss Baker presided at the organ, and the 150th Psalm and two hymns, 'We love the place,' and 'O God, our help,' were sung.

Tea and business were held afterwards, Mr. S. Roberts presiding. Ringing was kept up till 9 o'clock, and all expressed pleasure both at the service, and ringing.

## BELFRY GOSSIP.

The equipment of a belfry is not complete without a clock. Messrs. C. and F. Cope and Co., church and turret clockmakers, Radford, Nottingham, have on the market a handsome timepiece very suitable for the ringing room, and ringers should see to it that their belfries are supplied with one of these reliable clocks.

An announcement in our notice columns that will be read with interest is that the bells of St. Peter Mancroft, Norwich, are to be reopened on Sunday. Their restoration has been carried out by Messrs. Taylor and Co.

A photograph of Mr. J. E. Sykes, enjoying himself in a jinrickshaw in Hong Kong, has reached us. He looks happy, and hoped to reach his destination at Port Arthur on March 19th.

Referring to a view of Hong Kong Cathedral, he says a peal here would only be possible by heroes, or men used to ringing in a baker's oven. But we warrant Joe would make one for the job if there were half a chance.

Charlwood, Surrey, where the bells have recently been restored, was, years ago, a centre of six-bell ringing, in which the Jordan family played a conspicuous part. A quarter of a century, or more, ago, their name was well known in peal records.

'Williams' desirous of ringing a peal with their namesakes, should communicate with Mr. William H. Lambert, of Manor House, Benenden, Cranbrook, Kent.

Fourteen years ago to-day the record length of Maximus was achieved. At Ashton-under-Lyne, 12,240 Kent Treble Twelve was rung in 8 hrs. 39 mins., composed and conducted by that master, Samuel Woods.

On April 18th, 1737, a peal of 12,006 Grandsire Caters was rung at Painswick in 7 hrs. 55 mins.

The Cumberland Youths set up a record for the Double Norwich method on April 18th, 1894, when 13,440 was rung at Romford, Essex, in 8 hrs. 16 mins., a previous attempt at Brentwood on March 26th having been lost after ringing 13,072, through a rope breaking.

The anniversary of two record peals occurs to-morrow. On April 22nd, 1889, 15,227 Grandsire Caters was rung at Cheltenham, and, in 1922, the 21,363 Stedman Caters at Appleton, still the longest peal on record by one set of men.

Thirty years ago on Wednesday the first 'family' handbell peal was rung, seven 720's of Minor being rung 'in hand' at Olley, Suffolk, by Miss Constance Meadows (aged 14), and her two brothers Frederick E. W. and Sidney M. W. Meadows, aged 15 and 16 respectively, Frederick being the conductor.

On April 23rd, 1778, 10,080 Bob Major was rung at Braughing, Herts, in 6 hrs. 34 mins., and on St. George's Day, 1828, 8,000 Oxford Treble Bob Major was rung at Redenhall in 5 hrs. 9 mins.

## NOISY BELLS.

To the Editor.

Sir,—Most people will, I am sure, advise Mr. Upton to keep galvanised iron, or indeed metal sheets of any kind, as far away as possible from the belfry. They would certainly make noisy bells much worse, rather than better. Nothing less than 2-inch wood is of any use, and then only for small bells and windows. For large bells and large windows I have found a wall, a single brick thick, built against the inner side of the louvres, has an excellent result.

But whatever is done, care must be taken that all openings are covered evenly up to a foot or so above the highest point any bell reaches in its swing, and that all the openings are covered up to the same height. What makes the sound of bells trying is when some bells sound louder than others, being nearer the openings, and so spoil the proper blending of the music.

April 13th, 1925.

HERBERT DRAKE.

Dear Sir, — Replying to Mr. Upton's inquiry and his proposed remedy, he will find that iron sheeting, though cheap, will not help him very much. The material also in such positions soon rusts away. It is a pity he is restricted as to cost, but in that case probably the cheapest sound deadener would be a double thickness of sized and oiled canvas, say, 1-inch apart, stretched across the openings. I would, however, suggest filling them up to the arch-spring, with 3-inch matchboarding lined inside with one or two thicknesses of felt.

I take the opportunity of calling attention to the useful article on this subject in the Council's booklet, 'Care and Preservation of Bells, etc.' This and the 'Glossary' are worth very much more than the few pence charged for them, and should be on every ringer's bookshelf. Mr. Upton will there find slag wool given as being the best sound deadener. This conclusion is, I believe, also borne out by tests at a recent Government inquiry.—Yours faithfully,

E. ALEXR. YOUNG.

# Gloucester & Bristol Diocesan Association.

## LARGE GATHERING AT TEWKESBURY.

The annual meeting of the Gloucester and Bristol Diocesan Association was held at Tewkesbury on Easter Monday, and was attended by 95 members. By the kind arrangements of the Rev. E. F. Smith, Mr. Dyson, and others, the bells were available from 10.30 p.m., and were soon ringing out in touches in various methods. As the morning passed, the number of ringers increased, and just before noon the visitors were joined by the Bristol members, who arrived in two charabancs chartered for the day by the Bristol United Ringing Guilds, under the stewardship of Mr. W. A. Cave. Members of the management committee then proceeded to the Tolsey Hall, where they held their meeting, under the chairmanship of the Master (Mr. F. J. Lewis), who was supported by the Rev. E. S. Saleby, of Leonard Stanley, and Mr. Chas. Spurrier, of Bristol.

E. Guise for his untiring efforts in carrying out the office of hon. secretary.

The hon. treasurer presented the statement of accounts (duly audited), which was received with general satisfaction.

Mr. Yeend proposed that an alteration be made to Rule 3, appointing a Ringing Master as well as a Master.—This was eventually agreed to.

Another proposition to alter Rule 5 was agreed to.

The vice-presidents were re-elected en bloc, and Mr. Charles Spurrier, of Bristol, was elected to take the place of the late Mr. H. Workman.

Mr. A. Wright was elected Master, and all the other officials were re-elected.—Mr. J. Austin was appointed to the new office of Ringing Master.

TEWKESBURY ABBEY.

This was the centre of attraction for ringers attending the annual day. The noble tower contains a fine peal of ten bells.

meeting of the Gloucester and Bristol Diocesan Association on Monday. [Photo by F. E. Dawe.]

The business was quickly carried through, and an adjournment was made to the Plough Hotel, where a hearty meal was disposed of.

At 2 p.m. all roads led to the Tolsey Hall, and the general business meeting commenced. Here many ringers met one another for the first time.

Apologies for absence were read from vice-presidents, the Rev. T. C. Fowler, the Rev. M. E. Thorold, Mr. F. K. Howell, who was too unwell to attend (this was the first annual meeting for a number of years that Mr. Howell had missed), and Mr. Albert Burcombe, of Stinchcombe, who also was ill.

The Master gave his report, in which he said a very successful year's work had been accomplished. Sixty-five peals had been rung, and shared by 24 conductors. It was, he said, a pleasure to notice a large number ringing their first peal. He was pleased to see ladies had taken part in a good number of the peals. He regretted to announce the death of Mr. H. Workman, an old friend of the association, and a vice-president. In conclusion, he paid a tribute to Mr.

It was decided that a third member should be appointed to the Central Council, Mr. E. Guise being unanimously elected. The other representatives are Messrs. W. A. Cave and E. Bishop.

It was decided that the peal books should be placed in St. Thomas' Church, Bristol, it being clearly understood that through the kind offices of Mr. Spurrier they would be available for view almost at any time.

In this connection it was a great pleasure to all members to have these six volumes at their meeting that day, because, until quite recently, this part of the association's work had been sadly neglected, and only 133 peals had been entered. Now every peal has been written up by Mr. J. Beams, of Epsom, Surrey, the total being over 1,300.

Votes of thanks were accorded to the Rev. E. F. Smith and Mr. Dyson for their kindness in assisting with the arrangements.

This concluded the meeting, and tea was held at the Plough Hotel.

Afterwards, the members proceeded to the beautiful Abbey, where a service was conducted by the Rev. E. F. Smith, the association form being used.

The next annual meeting is to be held at Painswick on Easter Monday, 1926.

### CHESTER DIOCESAN GUILD. IMPROVED FINANCIAL POSITION.

The annual meeting of the Chester Diocesan Guild was held at Nantwich on Monday.

In their report for the year 1924 the committee stated: A year ago the Guild was in an unenviable financial position. The high cost of printing, and, indeed, of everything else, had made it impossible for it to pay its way, and in order to make ends meet expenditure had to be ruthlessly reduced. For this reason only a skeleton report was published for 1922, but last year we were able to include both the peals rung in 1922 and in 1923. In the hopes of raising fresh funds an appeal was made to parochial church councils of the parishes in which there are bells, asking them to give the Guild half a guinea each. The appeal was only moderately successful, but those who helped have made it possible to turn a nasty corner. The Guild thanks them. The decision, also, to include advertisements on its covers has considerably lightened the cost of the report. In consequence, during the year under review, we have managed to pay our way and to carry forward a credit balance of over £8, which may be regarded as satisfactory. Meanwhile, the outlook for the future seems to be improved.

The decline in membership which has been so noticeable during the preceding three years appears now to have slowed up. As the figures given show, our numbers have practically remained constant during the last year. The list of non-resident members has not been revised since the war, and it is now in rather an unreliable state. The Rev. A. T. Beeson has undertaken to revise it during the present year, and any non-resident members who read this can greatly help him by sending him a postcard with their name and present address on it. This class of member now numbers about 150; but, for purposes of more accurate comparison, it is omitted from the subjoined figures:—Honorary life members: 1923 5, 1924 3; honorary members: 1923 58, 1924 67; ringing and probationary members: 1923 587, 1924 577; total: 1923 650, 1924 647. Towers in union: 72. Out of union: 29.

One point of which mention must again be made is the number of subscriptions which are in arrear, showing, as they do at 115, an increase of 37. It is to be hoped that during 1925 a special effort may be made to reduce these outstanding items.

The Guild has again broken its record for the number of peals rung. The high total of 86 peals was reached, in which 166 members took part: the highest number of members who have ever performed in peal ringing in any year. This in itself is a most encouraging sign, and indicates a higher general standard of ringing throughout the diocese. Amongst these there are 21 first pealers, again an increase, and five have for the first time acted as conductor. Mr. Sperring heads the list with 42 peals rung, of which he has conducted 39; if he beats his own record next year he will be a clever man.

There has been little work of restoration during the year. The recasting of Norbury bells is to take place shortly, and the Guild is asked to make the usual grant in aid. The four bells at Tilston, near Malpas, have been unringable for many years, but they are now being recast by Messrs. J. Taylor and Co., of Loughborough.

Next year the Central Council, for the first time in its annals, is to meet at Chester. Thus it is our duty to act as their hosts and to do our best to welcome them among us. The committee has voted a special grant of £10 towards their entertainment, and detailed arrangements will be circulated to towers in union later.

The Master has again been present at many meetings during the past year, and the secretary has visited all the branches.

The thanks of the Guild are due to the branch secretaries, who have again worked unsparingly (though in one or two branches we would like to see a little more activity among the ordinary members), and also to Messrs. J. P. Fidler and J. Cooke for compiling the peal records.

### BURTON LATIMER RINGER'S DEATH.

We regret to record the death of Mr. Joseph Pettit, of Burton Latimer, Northants, which sad event occurred with tragic suddenness on Saturday, April 4th. The deceased had just got to his work, when he collapsed and died in a few seconds.

He was a member of the Burton Latimer band for over twenty years, and was always regular in ringing for the Sunday services, but he had only rung about four peals. For two years he resided at Islip, where he had been assisting the local ringers.

He was buried at Burton Latimer Cemetery on Tuesday, April 7th, the service being conducted by the Rector (the Rev. G. L. Lethbridge). Fellow ringers acted as hearers, and Mr. W. T. Wilson and Mr. J. Saddington were among the mourners to represent the Peterborough Diocesan Guild.

In the evening the bells were rung half-muffled to touches of Grandsire Triples by J. Lines, M. Hobbs, H. Meadows, H. Saddington, M. Norton, J. Saddington, G. Lines (conductor) and R. Twelftree. The bells at Islip were also rung half-muffled the same evening.

## WILLIAM ROCK SMALL.

## A CELEBRATED STAFFORDSHIRE RINGER.

As briefly announced in our last issue, Mr. William Rock Small, of Tipton, Staffs, died on Saturday, the 4th April, at his residence, at the ripe age of 85 years. Mr. Small had been ailing for some time, and for a considerable period had been unable to take any part in ringing, although his keen interest in it was manifested right up to the end. A blunt, but genial character, Mr. Small was well known throughout the Midlands, and had a host of ringing friends. Nothing gave him greater delight than to mix with members of the Exercise, and one of the greatest pleasures of his declining days, when he could no longer mount the belfry steps, was to receive a visit from some ringing friend or other.

Born at Wednesbury, Staffs, on Nov. 12th, 1839, Mr. Small received a little schooling at the Parish Church Schools, but he started work at the early age of nine years, and led an active and industrious life up to a few years ago, when Nature, at length, insisted upon a halt being called. Mr. Small's working life, we believe, extended to something like 70 years, and for more than 60 years he was a church bell ringer. In the year 1855 he went to work in the iron tube trade at Wednesbury, and, after being turner, fitter, machinist and tool maker, rose to the position of foreman of the works. He remained for 17 years with this firm, and, after spending five years with another, went to the Victoria Tube Works, Great Bridge, where he remained for the rest of his working years, and gained the respect of his fellow employees, and the esteem of his employers.

Mr. Small celebrated his golden wedding on Feb. 8th, 1913, but his wife did not long survive this event.

In his young days, Mr. Small was in Wednesbury Church choir, and while there became interested in the bells, then a peal of eight. They were recast and made into a peal of ten in 1855, and Mr. Small used sometimes to chime the bells for service, and occasionally pull some of them up. In the year 1863 he joined the band, and on April 28th, 1866, rang his first peal, one of Kent Treble Bob, the company being all natives of Wednesbury. Mr. Small was the last survivor of that company, but of the many peals he rang afterwards there was none of which he was prouder. His first peal of Bob Major was also rung at Wednesbury, in 1867, and his first of Stedman Caters in the same tower in 1870. Curiously, it was not until 1880 that he rang a peal of Stedman Triples, which he scored at Willenhall, and in the same year rang his first peal of Stedman Cinques at St. Martin's, Birmingham. At this tower also he rang his first of Grandsire Cinques, in 1885, and his first of Kent Treble Bob Maximus, in 1890.

Some of the 330 peals which Mr. Small rang were noteworthy for their length. He took part in 9,020 Grandsire Cinques, in 6 hrs. 17 mins., at St. Martin's, on March 23rd, 1887, on the occasion of Queen Victoria's visit to that city; 8,684 Grandsire Caters, in 4 hrs. 59 mins., on December 29th, 1888, to commemorate the centenary of the 12,600 Bob Major rung at that church in 1788; 6,354 Grandsire Caters, in 4 hrs. 4 mins., at West Bromwich on December 21st, 1889; and 8,009 Grandsire Caters, in 5 hrs. 11 mins., at Wolverhampton on April 3rd, 1893. In connection with this last-named peal there were sad circumstances. The occasion had been fixed for a record length of 17,045, but the man who was to have rung the tenor died, and was buried on the day arranged for the peal. The reduced length was, therefore, rung muffled instead. Mr. Small has also been concerned in other long peal attempts, including 13,104 Grandsire Caters at Aston on January 29th, 1884, which was lost after 11,000 changes, in 7 hrs. 7 mins., through a 'change course'; 17,000 Grandsire Caters, on March 26th, 1894, when, after ringing 7,362 changes, in 4 hrs. 38 mins., the tenor clapper broke. To finish off the day on this occasion the band rang a peal of Stedman Triples at Wombourn. In 1914 Mr. Small took part in a veterans' peal, the average age of the band being 65 years 4 months, the oldest member of the party being the late Mr. S. Spittle, who had turned 77 years, and the youngest, Mr. James George, who had just passed his 60th birthday. His last peal was a peal of Stedman Triples at St. Martin's, Tipton, on Nov. 1st, 1920, in honour of the veteran's 80th birthday. It was also his 20th peal of Stedman Triples.

Mr. Small, besides taking part in more than three hundred peals, did a great amount of spade work in the Black Country. He began his ringing at a time when the art was not held in high repute, and there were many places in that part of the country where change ringing was never practised. Mr. Small took his part with others in remedying this state of affairs, and his active and painstaking instruction was the means of making many change ringers, and in elevating the tone of the belfry. He was, indeed, one of the pioneers to whom the Exercise of to-day owes a great deal.

Mr. Small was a member of several ringing societies. He joined St. Martin's Guild, Birmingham, in 1880; the Ancient Society of College Youths, 1883; the Midland Counties Association, 1891; the Dudley and District Guild, 1899; the Worcestershire Association, 1887; the Society for the Archdeaconry of Stafford, of which he was one

of the founders, 1883; the Hereford Guild, 1893; the Yorkshire Association, 1888; and the Warwickshire Guild, 1917. He was a vice-president of the Worcestershire Association, and for many years treasurer of the Dudley Guild.

His peals, which include one of Stedman Triples rung in the Isle of Man, were made up as follows:—

|                           |     |
|---------------------------|-----|
| Stedman Cinques           | 14  |

| Double Oxford Bob Major   | 1   |
| Total                     | 330 |

## THE FUNERAL.

The funeral took place on Wednesday week, amid many manifestations of the respect and esteem in which the deceased gentleman was held. The first part of the service was at Tipton Church, where the coffin (heavily laden with flowers) was received by the Vicar (the Rev. Geo. Mortimore) and the curate (the Rev. C. James), with Mr. Dunn (churchwarden) and Mr. E. Harris, acting for Mr. Jinks (Vicar's warden). The bearers were Messrs. A. Rowley, J. Evans, A. Clarke and G. Hughes (Tipton), A. Greenfield (Netherton) and Hall (Great Bridge). As the coffin, which was placed on a bier in front of the chancel, was carried in, Mr. G. A. Banner (organist) played Spohr's 'Blest are the Departed' and the well-known hymn tune, 'Ring the bells of Heaven.' The service was taken by the Vicar, and the lesson was read by the curate. The hymn, 'Rock of Ages,' was sung, and the congregation reverently stood while the Dead March from 'Saul' was being played. As the coffin was taken out of the church, the organist played 'O rest in the Lord.' In the course of a brief address, the Vicar touched on Mr. Small's long acquaintance with the Parish Church, his devotion to its service, and his great fondness for church bell ringing, from which he removed many of the objectionable belfry practices common among ringers half a century ago. He also touched upon the loving family life of the deceased, and said his long life was an inspiration to all who knew him and to those he had left behind.

Following the service at St. Martin's Church, Tipton, the remains were taken to the Parish Churchyard at Wednesbury, where they were laid to rest in a family vault, the Rev. C. E. Mortimore pronouncing the committal sentences. A course of Grandsire Triples on the handbells were rung over the grave after the coffin had been placed in its last resting-place by Albert Walker (Birmingham) 1-2, John Jagger (Oldbury) 3-4, Alfred Rowley (Tipton) 5-6, A. Paddon Smith (Birmingham) 7-8.

The family mourners were: Messrs. William Small, John Small, Thomas Small, Charles Small and James Small (sons), Walter Henry Small and Ernest Price (grandsons), James Small, Wednesbury (brother), and Isaiah Round (brother-in-law).

Ringing Societies were represented by Messrs. Albert Walker (Deputy Ringing Master) and A. Paddon Smith (secretary), St. Martin's Guild; Ben Gough, Archdeaconry of Staffs Society; A. Rowley, Worcestershire Association; James George, Warwickshire Guild; A. Greenfield, Dudley Guild; J. Jagger, Oldbury; Reuben Hall, West Bromwich; G. Hughes, St. Bartholomew's, Wednesbury.

Among the many floral tributes were wreaths from St. Martin's Guild, Birmingham; St. Martin's Ringers, Tipton; St. Peter's Society, Wolverhampton; St. Andrew's Company, Netherton; and one, which was lowered with the coffin to its last resting-place, from one of Mr. Small's oldest ringing friends, Alderman J. S. Pritchett.

It had been intended to attempt a half-muffled peal of Stedman Cinques at St. Martin's, Birmingham, on Good Friday, but a service rendered this impossible. A touch of seven courses was therefore rung instead by J. E. Groves 1, J. Neal 2, T. H. Reeves (conductor) 3, A. T. Scrivens 4, E. Allaway 5, J. H. Shepherd 6, A. Walker 7, M. J. Morris 8, E. Mansell 9, T. Miller 10, A. P. Smith 11, W. T. Froggatt 12.

### RINGERS AND PRACTICES.

A question of interest and importance to ringers is raised in the annual report of the Middlesex County Association, laid before the members on Saturday. It is that of securing to ringers at every church a regular practice night. It is pointed out that at some towers a regular practice night is almost out of the question, or if there is a practice night, it has frequently to be given up on account of other parochial events. The suggestion is not that the ringers are not considered, but that they are for the time being forgotten. That, we think, puts very fairly the conditions which exist at many towers, not only in Middlesex, but in nearly every other county. In almost every instance it is the ringers who must put off their ringing when anything else is in the wind. Even an organ practice or a special choir practice have been made sufficient reason to interrupt operations in the belfry, and it has been because the ringers' practice or peal has not been rightly valued.

On the other hand, ringers themselves are sometimes prone to think that their practices are of small moment, otherwise fewer of them would be among the absentees on practice nights, and there would be less anxiety to abandon practice during the summer months. This is a thoroughly bad habit. Except abandoning practice altogether, there is nothing calculated to throw a band back than this closing of the tower for all except Sunday ringing through the summer. Indeed, it often affects the regularity of the Sunday ringing. One realises that in the country there are times when the claims of, say, harvest, may keep men away from the belfry on a week-evening; but even harvest does not last from April to October. Gardening, cricket and other outdoor occupations are often advanced as an argument against summer evening ringing, but the ringer who cannot so arrange his work or play to spare once a week an hour after eight o'clock at night to maintain his efficiency in the belfry is but a lukewarm individual so far as ringing is concerned.

What ringers need to produce the best results in ringing is a regular weekly practice night throughout the year. When it rests entirely with themselves it ought never to be in question; when the church authorities place obstacles in the way, through forgetfulness or otherwise, it ought to be possible to put the matter tactfully before them, with a polite insistence that at least an hour a week should be set aside and left clear for them to practise their art. There are some places where the ringers' practice night is so well established as to become almost a tradition. At Birmingham, for instance, it is recognised not only by the church authorities but by the public, and

Peterborough, Melbourne (Australia), Rochester, Dublin St. Pat-  
rick's, Manchester and Worcester Cathedrals, etc.

more than one orator in the Bull Ring has had to restrain his eloquence on a Tuesday evening until the bells have finished, for nothing outside the church, short of illness, puts a stop on the bells. And in any well ordered parish the same thing might prevail. We do not suggest there should never be give and take, but we believe if ringers tactfully insisted upon their right to a regular practice, much might be done to improve the position of which the Middlesex Association complains.

## PROPOSED ARTILLERYMEN'S PEAL.

## To the Editor.

Dear Sir,—We are trying to fix up a peal by ringers who served during the war in the Royal Regiment of Artillery, whether R.H.A., R.F.A. or R.G.A., is immaterial. There are four or five in this neighbourhood willing to take part, so if any members of the Exercise would like to stand in, and would let me know. I will try and fix it up.—Yours faithfully,  
R. G. RICE.  
Harwell, Stevenage, Berks.

**TOWER & BELL RESTORATION AT WEST HANNEY.**

It has been decided to thoroughly restore the tower and bells at West Hanney, Berks. This is an ancient church, and its tower is in so sad a state of dilapidation that it has been found it will be necessary to spend a sum of over two thousand pounds on it and the bells.

The latter will have to be rehung, and it is quite impossible for them to be rung at present owing to the state of the tower. They are a fine ring of six, with a tenor of about 16 cwt., and are considered one of the best in Berkshire.

The parish has, since the war, raised considerable money for two war memorials, including a fine west window.

Something over £300 has been raised in the parish for the present restoration, so seeing that the village is only a small one, the greater part of the remainder will have to be obtained from other sources. Anyone interested should communicate with the Rector, the Rev. W. Noon, West Hanney Rectory, Wantage, Berks.

**'GRANDSIRE.'**

*To the Editor.*

Sir,—Having read the proceedings of the Central Council in your number of the 10th inst., it was with very great surprise I noticed that in a certain motion brought forward, re 'Nomenclature of Methods,' it was stated that 'Grandsire' as a title was 'objectionable.'

Why, may I ask? Surely 'Grandsire,' handed down from pre-Stedman days, and mentioned, by the way, by this Master and his 'Campanologia,' has been good enough as an expression for this particular method for a period of more than 250 years; therefore, why not let it stand? To my mind, on account of its hoary age, the name carries with it a quaintly dignified and thoroughly English atmosphere. Like our ecclesiastical English, it is 'understood of the people.' Why, even the 'man in the street' knows that 'Grandsire' has something to do with bell ringing.

I think it is sometimes forgotten that all these queer old terms had their origin in some reason, lost, no doubt, in the mists of antiquity: is there any reason, therefore, why we should not keep them?

Would my regiment allow the term 'bombardier' to be abolished because that engine known as 'The Bombard' went out of fashion after the Duke of Bedford's sieges against 'The Maid'? I think

not, although it is nowadays an 'absurd' term. No, if there is esprit de corps in other walks of life, why not in the Exercise?

If, therefore, the Council has caught the itch of modernity, then let it restrain science from crushing all sentiment. It will, indeed, have a herculean task in eradicating 'Grandsire' as a name from our minds.

So up, ye Youths, Associations and Ringers generally, and save 'old gran'fer down along' from an ignominious death, seeing to it that this noble old patriarch is once more seated in his village inn with a clean smock and two stout sticks for the assistance of his gait, and as weapons of offence against his detractors!—Yours truly,

F. A. YORKE, Capt., R.A.

**LONDON COUNTY ASSOCIATION.**

The Southern District of the London County Association held a successful meeting on Saturday, at St. Mary's, Lambeth. The tower was opened at 3.30 p.m., and during the afternoon touches of Stedman, Double Norwich and Cambridge were brought round. Tea was held at the Old Brew House, and was followed by the business meeting.

Afterwards, the company made for the church again, and the methods rung, in addition to those already mentioned, were Grandsire and Superlative. A stop had to be called at 7.30 p.m., owing to a service, but there was some good ringing whilst the bells were going.

The customary vote of thanks was given to the Rector (the Rev. F. O. T. Hawkes) for the use of the bells, and also to Mr. Hardy for making arrangements for the tea and having the bells ready.

**LONG STANTON.**—On Sunday, April 19th, for evensong, 720 Oxford Treble Bob: C. W. Wasley 1, Rev. H. B. Woolley 2, G. E. Crisp 3, H. J. Hazell 4, E. Wakeling 5, C. W. Cook (conductor) 6.

**DUSTON, NORTHANTS.**—At the Parish Church, for morning service, on April 19th, 1,200 Grandsire Doubles: P. Amos 1, T. Wise 2, J. Bennett 3, G. Parker 4, F. Wilford 5. Rung after meeting short for quarter-peal of Bob Minor.

## BELFRY GOSSIP.

The Hon. secretary of the Kent County Association, who made a serious 'gesture' as to resigning on account of advancing years, has held office, we believe, longer than any other ringing association secretary. For over thirty years he has guided the affairs of the Kent Association.

Some of the ringers who attended the annual meeting of the Ely Diocesan Association on Easter Monday were disappointed by being unable to ring at St. Andrew-the-Great. It was the result of a misunderstanding. Permission had been given for ringing at this church, but by an oversight the verger had not been informed, and the belfry was not opened. Had the general secretary been told at the meeting, some ringing would have been possible. The Vicar of St. Andrew's, and the secretary, much regret the disappointment that was caused.

The peal of Stedman Cinques at Canterbury Cathedral, on Easter Monday, by members of St. Martin's Guild, Birmingham, shows that the Guild can rely upon its non-resident members as well as those who practise regularly at St. Martin's, and that they are equally keen in upholding the reputation of the Guild.

Some of the Birmingham contingent had what might be termed a hectic time. Leaving the Midland city at 8.15 a.m., a late arrival in London caused them to miss the train to Canterbury. They did not reach the Cathedral, therefore, until 4.20, the start having been arranged for 4 o'clock. The bells ran round at the end of an excellent peal at 8.3 p.m., and then there was another rush to catch the 8.22 train to London, and Birmingham was reached at 3.30 on Tuesday morning. Some day!

Will the ringer whose home is in Dover, and who has recently been visiting Watford and Chorleywood, communicate with Box M. C., 'The Ringing World' Office, Woking, enclosing testimonials, when he may hear of a situation?

Among the wreaths sent for the funeral of Mr. Rock Small was one from the members of the Society for the Archdeaconry of Stafford. This was described last week as being from St. Peter's Society.

The peal of Grandsire Caters rung at Trowbridge on Easter Monday was composed by G. Holifield.

Members of the Midland Counties Association, who propose to attend the meeting of the Nottingham District at Bingham should pay special attention to the request that they should give notice of their intention to be present. The reason for this ought to be obvious, and this paragraph should emphasise the matter.

To-day is the anniversary of a peal of 10,400 Kent Treble Bob Major at Shipley, in 1896.

On April 26th, 1894, 11,300 Bob Major was rung in 5 hours, on handbells, at Norwich. The same day is also the anniversary of another 'long' handbell peal, 8,896 Kent Treble Bob Major having been rung 'in hand' by College Youths at Barking.

A similar length in the same method was rung by the Cumberland Youths on tower bells at Highgate on April 27th, 1876. In connection with this peal it is interesting to recall that the composition was the famous one by William Harrison, the longest length obtained with the tenors together.

It was composed in March, 1876, and at the instance of Mr. Jasper Snowden it was first published in an appendix to a new edition of Hubbard's work. The books were sent out on April 25th, one was received by the secretary to the Cumberlands on the 26th, the ringers were chosen the same evening, and the peal rung the next day. The peal was called by George Newson, and the band included Henry Dains, John Cox and E. Gibbs.

The College Youths set up a Treble Bob Major record on April 27th, 1868, when they rang 15,840 in 9 hours 12 minutes at Belfhal Green. Mr. Ted Horrex, now the 'father' of the society, is the sole survivor of that band.

Another anniversary on April 27th is that of the 8,580 Stedman Cinques, at Cornhill in 1861. It was rung in 6 hours 41 minutes, and at that time was the longest length in the method on twelve bells.

Three interesting anniversaries fall on April 28th. In 1800, the Cumberland Youths rang 10,112 Oxford Treble Bob Major at Edmon-ton; in 1890, the Cambridge University Guild rang their first peal; in 1923, the Midland Counties Association rang 12,896 Cambridge Surprise Major, at Stoney Stanton.

The 210th anniversary of the first recorded peal falls on May 2nd—a peal of Triples at St. Peter Mancroft, Norwich. As this happens to be a Saturday, it will be a convenient day to commemorate the event.

**KENT COUNTY ASSOCIATION.****THE HON. SECRETARY AND DILATORY BANDS.**

The annual general meeting of the Kent County Association was held on Easter Monday, at Folkestone. Members attended from all parts of the county, though not by any means to the number that might have been expected as a favourite seaside resort, and on a glorious morning, which, however, unhappily turned to rain in the afternoon. Twenty years ago, from a hundred and fifty to two hundred attended the annual gathering; now, though the membership has considerably increased, less than one hundred attend.

The committee met at 11.15 a.m., and after the business, usual on these occasions, made grants from the Belfry Repairs Fund of £5 to St. John-the-Baptist, Erith, and £2 2s. to Eythorne.

The service was at noon, in the beautiful old Church of SS. Mary and Wanswyth. The association's form was used, the hon. secretary intoning the prayers, Mr. W. E. Pitman, Mus.Bac., being at the organ. The opening hymn was the Easter hymn; before the address, the ringers' special hymn, 'Unchanging God,' and 'O praise our God to-day' (A. and M. 380) for the collection, which was for the benevolent fund, and amounted to £1 4s. 7d. The address was given by the Rev. G. A. Lewis, Rector of Cheriton, from the text, Ps. cxix. 45, 'I will walk at liberty: for I seek Thy commandments.' This, he said, was an apparent contradiction to ignorant and ill-balanced minds, obedience to commandments, suggesting a curtailment of liberty. But properly understood, liberty was only to be secured by reasonable discipline and ordered obedience. This was a lesson much needed at the present time, and the preacher gave a happy illustration of this truth, by pointing out how, after the initial difficulties of learning to ring, the change ringer was free to enjoy his skill only in obeying, with others, the rules of the particular method they chose to ring. In like manner, it would be found that, as we confessed in our daily morning prayer, God's service was perfect freedom.

Luncheon followed in the Woodward Hall, an institution erected to commemorate the life and work of Matthew Woodward, for forty years Vicar of Folkestone. Canon Tindall presided, being supported by the Revs. G. A. Lewis, S. K. Lockyear, Rector of Brabourne, members of committee, and the hon. secretary. The Ladies' Guild was represented by Mrs. Gatehouse (Biddenden), Miss R. Thomas (Mershham), and Miss E. K. Parker.

After the usual loyal toast, given by the Vicar, Mr. W. Stead (Tonbridge) proposed the health of the Archbishop and clergy, with special thanks to the preacher, to which Mr. Lewis briefly responded.

**UNPAID SUBSCRIPTIONS.**

The Hon. Secretary then thanked the Vicar for the use of the church and bells, and the incumbents of the other churches open for ringing: Hythe (8), Cheriton (8), Newington (6) and Lyminge (8). He then said he wished to remove a misunderstanding existing in some quarters, that district meetings were open only to members residing in the district. Members were at liberty to attend any meetings they liked, the only disqualification being that they had no vote in any district other than their own. He wished also to remind any who desired to elect members previous to a peal that the subscriptions of such members must be paid at the time. Through neglect of this rule he had been obliged to strike off from last year's list a peal in which three persons, the two clerics, and the conductor, had failed to pay up at the end of the year, even after being reminded of their default.

In the course of the report, which he then proceeded to read, the Hon. Secretary inveighed against the dilatoriness shown by many local hands in sending up their names and subscriptions, which made it impossible to give accurate details of membership and of towers in union. He referred also to the complaint of the Midland Counties Association treasurer that they had too much money. 'We have,' he said, 'twice as much as the Midland Counties Association. But we do not complain. Our Belfry Repairs and Benevolent Funds can stand any amount of increment, or with an augmented balance in our general account we could make liberal contributions to any worthy object advertised in the "Ringing World." As it is, we have already more than once acted in this way, as, for instance, just recently the sum of £4 4s. has been paid to the Washbrook Memorial.'

The report and balance sheets were duly passed, and the officers of the association, vice-presidents, committee, hon. secretary and treasurer, and auditor, re-elected.

The Hon. Secretary, in thanking the members for their continued confidence, seriously warned them that they must really look out for someone to take on his work. At his age he could not hope to do much more for the association, and it would be far more convenient if he could himself put things into another's hands than to allow the office to become vacant through senile decay or death. Mr. Stafford Green (Tonbridge Wells) had kindly consented to prepare the figures of peals for next year's report.

The company then dispersed, and in spite of the rain, all the outlying towers were visited, the little ring at Cheriton (two trebles recently added, with tenor 7 ext.) coming in for special attention.

**CHESTER DIOCESAN GUILD.****ANNUAL FESTIVAL AT NANTWICH.****SUGGESTED ALTERATION OF RULES TO ADMIT NONCONFORMIST TOWER.**

The Chester Diocesan Guild held its thirty-eighth annual festival at Nantwich on Easter Monday, when many members of the Guild were present, sixty-four members signing the attendance book. At 11.45 a.m., the Guild service was said in the Parish Church, the Vicar of Nantwich (the Rev. C. S. Bromley) officiating. The sermon was preached by the Rev. C. A. Clements, Vicar of Grappenhall, near Warrington.

A cold lunch was served to members at 12.45, but this meal turned into a forcible reminder that it was Bank Holiday. However, despite difficulties, those present managed to keep cheerful, and eventually everyone obtained something to eat and drink.

The business meeting was a long one, and commenced at 2 p.m. After slight alteration the minutes of last year's meeting were confirmed, and the annual report was passed, with a vote of thanks to the secretary for compiling it.

The meeting then proceeded to the election of officers for the ensuing year. The Master (Mr. H. Fairclough) signified his wish to retire from office, and proposed the Rev. C. A. Clements to take his place.—This was seconded by the Rev. W. R. Ingham, and Mr. R. T. Holding also spoke to the motion, which was carried. It is much to be regretted that Mr. Fairclough felt he should give up the work. During his three years of office he has constantly visited the branches, and has worked wholeheartedly for the Guild. He still, however, remains on the committee.—The Rev. C. A. Clements acknowledged his election, and promised to do his utmost to help the Guild.

On the proposition of the new Master, seconded by the Rev. A. T. Beeston, Mr. E. W. Elwell was re-elected hon. secretary.—Mr. Elwell thanked the meeting for the renewal of their confidence, and drew attention to the number of subscriptions which are outstanding. He begged that every effort should be made to collect these arrears during the present year.

Mr. Elwell, seconded by the Rev. C. A. Clements, then proposed the re-election of the Rev. A. T. Beeston as treasurer.—This was enthusiastically carried.—Mr. Beeston spoke of the finance of the Guild during the past year, showing that it was very satisfactory, and that it seemed to have met its difficulties in a manly way. He also drew attention to the dark spot—outstanding subscriptions.

Messrs. H. and J. Jackson were re-elected auditors, and the Rev. A. T. Beeston trustee for investments. With the exception of the addition of the Rev. H. W. Haworth and Mr. T. Mottershead, in the place of Mr. A. Burgess, the committee remains unchanged by the meeting.

A report was given to the meeting by Mr. H. W. Wilde of the progress made in arrangements by the Central Council Entertainment Sub-Committee, which has been appointed to look after the meeting at Chester next June.

Several members spoke keenly on the next resolution: 'That it is the opinion of this Guild that the existing names of Minor methods already rung should stand.' The result was that it was carried unanimously, and the representatives of the Guild on the Central Council were asked to bring it to their notice.

The action of the committee in recommending a grant towards the rehanging of Norbury bells was confirmed, and the sum of £5 to go to the ringers' bell voted accordingly.

**PORT SUNLIGHT TOWER.**

A proposal to refer the question of admission of the Nonconformist tower of Port Sunlight to the Diocesan Conference was then discussed. Mr. S. F. Barnes urged that the tower be admitted at once, without any further delay, and showed the anomalous position the Guild was in over the whole matter.—Mr. S. Jones seconded the proposal, but a doubt arose as to whether it could be done without transgressing the Guild rules. The whole motion was then withdrawn, and notice was given to revise the rules. For this purpose a small sub-committee was appointed to consider the question, draw up a revision, and report.

On the proposition of Mr. H. Brocklebank, seconded by Mr. T. Mottershead, it was decided that a collection should take place in all towers for the Washbrook Memorial.

It was decided that the next annual meeting should take place at Chester.

The following resolution was then proposed by Mr. Fidler, and seconded by Mr. T. Wilde: 'That considering the future possibilities of radio, the attention of the Press and Literature Committee of the Central Council be drawn to the performances of "bell chiming" occasionally broadcast, as such performances are likely to create a wrong impression of the true nature of bell ringing; and, further, to draw the attention of the British Broadcasting Company to all unsuitable imitations of bell ringing which may be broadcast.'

Several members contrasted the indifferent performance recently

given from a London Church with that of Birmingham Cathedral, and the motion was carried.

The secretary was asked to send it to the secretary of the Central Council and to the British Broadcasting Company. It was also suggested that it would be advantageous if notice of intended broadcasting could in future be given in 'The Ringing World,' so that ringers could have warning, and listen in on such occasions.

This terminated the proceedings, and ringing afterwards took place at Nantwich, Crewe, and other neighbouring towers.

### LINCOLN CATHEDRAL BELLS.

#### APPEAL FOR FUNDS TO COMPLETE THE PEAL OF TWELVE.

The following appeal from the Dean of Lincoln (president of the Lincoln Diocesan Guild), the Rev. H. Law James (Master) and Mr. F. W. Stokes (secretary) has been issued for the balance of the funds necessary to increase the ring at Lincoln Cathedral to a peal of twelve.

'We make an appeal to all members of the Lincoln Diocesan Guild of Church Bell Ringers to complete the fund for hanging four additional bells in the Cathedral South-West Tower, as soon as it is repaired.

'These bells, you will remember, are to serve as a memorial of our fellow-members who fell in the Great War.

'Once the Cathedral repairs are completed a Service of Thanksgiving will be held; and it would seem highly appropriate that the full peal should that day be rung.

'It will take time to cast and hang the bells, and, therefore, we are very anxious to complete the fund as soon as possible, or it may be too late. The amount still required is £112, which, added to the £137 lls. 10d., will make up £250.'

### WEDDING BELLS AT EDINBURGH.

On Saturday, April 11th, at St. Cuthbert's Parish Church, Edinburgh, in honour of the wedding of Miss E. L. Hall (a former ringing member of the society) to Mr. James Ross, a quarter-peal of Grandsire Triples, in 52 minutes: Miss A. I. Whitson 1, \*Miss M. S. Taylor 2, W. C. S. Heathcote 3, C. Cleveland Ellis (cond.) 4, \*Miss F. E. Hogg 5, Henry Mann 6, \*J. F. Lothian 7, David Stocks 8. \* Longest touch with an inside bell.

At 14, Comiston Drive, Edinburgh, on April 10th, on handbells, a quarter-peal of Grandsire Triples (1,260 changes): Miss A. I. Whitson 1-2, W. C. S. Heathcote 3-4, C. Cleveland Ellis (conductor) 5-6, Miss M. S. Taylor 7-8. Longest touch on handbells by the lady ringers, and longest touch of Triples, with inside bells, by the conductor.

### INTERESTING PRESENTATION AT WHALLEY, LANCs.

Although the new bells at Whalley were only installed in August last, the ringers have made very good progress in the art of change ringing. Under the instruction of Mr. John Watson, secretary of the Blackburn Branch of the Lancashire Association, most of the ringers have now got a good idea of the Plain Bob method.

On Tuesday, April 7th, after practice, the ringers adjourned to the Co-operative Cafe, where supper was provided. They were joined by the Vicar of Whalley (the Rev. J. E. Wallis, M.A.), Sidesmen J. W. Dewhurst and A. E. Troop, and Mr. R. Townshend, a member of the Church Council. A letter of apology for absence was read from Mr. Churchwarden R. Green.

During the evening, the Vicar, on behalf of the ringers, presented to Mr. J. Watson a smoker's cabinet, in recognition of the services he had rendered to them.

In thanking the ringers, Mr. Watson, who was taken entirely by surprise, remarked on the pleasure it gave him to know that what he had done, which was entirely a labour of love, had been so much appreciated.

A vote of thanks to the Vicar was proposed by Mr. Troop, and seconded by Mr. O. Exton, which brought a most enjoyable evening to a close.

### MUFFLED BELLS.

At St. Mary's Church, Handsworth, Sheffield, on Saturday, April 4th, 588 Stedman Triples was rung, with the bells half-muffled, as a token of sympathy with Mr. H. Hutchinson and family on the death of Mrs. Hutchinson: Miss N. Cawthorne 1, Miss E. Hopkin 2, W. Godden 3, H. Taylor 4, J. Garth 5, H. Wilson 6, F. Watkinson (conductor) 7, F. Cardwell 8. Also, on Wednesday, April 8th, 588 Stedman Triples was rung half-muffled, by the same band, in 37 minutes, for the funeral of Mr. Henson, of Damall, Sheffield.

On Thursday, April 9th, at the Parish Church, Nuneaton, two courses of London Surprise, three courses of Cambridge Surprise, and three courses of Stedman Triples. These touches were rung, with the bells half-muffled, as a last mark of respect to Mr. John Warren, who was interred at Chilvers Coton during the afternoon. 'Old Jack,' as he was familiarly known locally, had been a ringer over 50 years, and passed away at the advanced age of 84 years.

### MIDLAND COUNTIES ASSOCIATION.

#### DISCUSSION ADJOURNED ON RULE ALTERATIONS.

The annual meeting of the Midland Counties Association was held on Easter Monday at Leicester. The day opened dismally and wet, but that did not damp the enthusiasm of the large crowd of ringers who assembled at the five churches open for ringing, from 10.30 a.m., when from that time onwards throughout the day, all the range of methods from lowest to highest on all numbers from 8 to 12 inclusive were rung. Every endeavour was made to give everyone a chance, and many had their first sight of and pull on 12 bells at St. Margaret's, as well as doing a round of the other churches.

The committee had the usual meeting at 12 noon, and in addition to the routine business, special grants were suggested from the Bell Repairs Fund to Burbage, where a new 8 are being installed, and to St. Peter's, Derby, where repairs to the ringing chamber are being carried out. An appeal from Creswell, Notts, was put forward, but postponed until further particulars are available from a meeting to be held at Bolsover. The next quarterly and annual meetings suggested were Bolsover, Melton Mowbray, Eastwood and Burton-on-Trent. Further discussion took place on the proposed new rules, and reports received from a special meeting held at Derby for that purpose. The hon. treasurer gave his report on the finances of the association, which was in a most satisfactory condition, full details of which were given in these columns on April 10th.

Then followed luncheon, at which 114 members and friends from Derby, Nottingham, Burton, Loughborough, Hinckley, Ashby, Duffield, Northants, Bedford and other places sat down.

Then followed the general meeting of the association, presided over by the president (Alderman R. B. Chambers, B.A., J.P.), supported by Mrs. Chambers, the Revs. White (St. John's), Disney (Belgrave), Farrow (Stoney Stanton), Wilkinson (Mansfield), the hon. treasurer (Mr. W. Willson), the hon. secretary (Mr. A. C. Wright), and Mr. Pryce Taylor.

The meeting ratified the committee's proposals re grants to Burbage and St. Peter's, Derby, and also the places of next meetings, as given above.

Ald. Chambers was unanimously re-elected president, and eulogies, given by the proposer and seconder, were fully supported by all members.—Mr. Chambers briefly replied in his own inimitable way.—The hon. secretary (Mr. A. C. Wright), having given his resignation in on account of business ties, the Rev. Wilkinson had allowed his name to be put forward, but at the last moment had to withdraw on account of having been offered a living in North Notts. While deploring his inability to stand as secretary, the members will wish him godspeed in his new sphere.

Mr. Wright being pressed, consented to take the peal section, if someone else would take on the routine and general work. The name of Mr. Ernest Morris, of Leicester, was then put forward, and he was duly elected. Mr. Wm. Willson was again elected as hon. treasurer, and duly thanked the members for their confidence.

The matter of the new rules was discussed, but as time did not allow the matter to be fully debated, Mr. W. E. White withdrew his scheme, and the matter was allowed to stand over to the next annual meeting.

After the usual votes of thanks, the meeting closed, and members adjourned to St. John's Church, where the association form of service was given chorally, and the Vicar (the Rev. E. S. White, M.A.), who officiated, gave a very inspiring address, which was appreciated by all present.

Ringing was again indulged in until 7.30, when a most enjoyable smoking concert was given at the Victoria Hotel. The star turn of the evening was the Paradise Mission Handbell Ringers, under the conductorship of the local secretary (Mr. Harold Poole), whose performances on about 50 bells were something to be remembered. Their rendering of 'The Ash Grove,' 'The Legend of the Bells,' 'Spanish Chant,' and other items, well merited the great applause given.

Other items included songs by Messrs. Howe, Branson, Williams, Stevens, of the Leicester Amateurs, and Ernest Morris. During the evening, a course of Stedman Caters, and, later Cinques, were rung, the latter by Flight-Sergeant Holden 1-2, W. P. Whitehead 3-4, W. Willson 5-6, P. O. Lakin (Birmingham) 7-8, H. J. Poole 9-10, E. Morris 11-12. Thus ended one of the most successful and enjoyable meetings in the annals of the M.C.A.

### THE GREAT CARILLON FOR NEW YORK.

The carillon of 53 bells (in which the bass bell weighs 9 tons), which Messrs. Gillett and Johnston have cast, will be played at the Croydon Bell Foundry, Croydon, from Monday, May 4th, to Saturday, May 9th, inclusive, three times daily, at 12.30 p.m., 5 p.m. and 8 p.m.

If any ringers or bands of ringers would like to attend a recital, they will be welcomed by the firm; and it is requested that those desirous of doing so will write as soon as possible, stating what day and time is chosen.

It would be advisable to arrive half an hour before the time of recital so as to view the bells beforehand.

## NORTH NOTTS ASSOCIATION.

## EASTER MEETING AT BLYTH.

Apart from their great antiquarian interests, the village and the church at Blyth, dedicated to St. Mary and St. Martin, have many attractions for ringers. The church is a spacious, elegant Gothic structure, with an ancient tower, in which are six bells erected in 1842, very much out of tune with each other, a tenor bell reputed to be 16 cwt., but requiring the attention of a bell hanger. Despite the lack of train service and the boisterous morning that made cycling anything but a pleasure, there was a fairly good attendance at the meeting on Easter Monday. The towers of Tickhill and Harworth were also at the disposal of ringers in the morning and afternoon, and a number of ringers put in an appearance from all parts of the country, viz., Loughborough, Halifax, Leeds, Anston, Shireoaks, Tickhill, Harworth, Gainsborough, Workop and Doncaster, together with the full company of Blyth ringers, and the Rev. S. B. Bleau, Vicar of Laxton, who motored over with three of his ringers. The methods rung at all three churches were Plain Bob, Grandsire, Oxford, Kent, Violet, Cambridge Surprise, Oxford Bob, Double Court and St. Clements.

A splendid tea at the Sheffield House, Blyth, was catered for by Mrs. Antcliffe, to which a large number sat down. The Rev. S. B. Bleau presided at the tea and business meeting, and also offered an apology for the Rev. A. L. Phillips, Vicar of Blyth, who had a very pressing engagement.

The next meeting, the annual, will be held at East Retford by arrangement of the committee, in May or early June, and will be advertised in 'The Ringing World' as usual.—Votes of thanks were accorded to the Vicars of Tickhill, Harworth and Blyth, the Rev. H. E. Booty, Rev. F. D'Arbley Burney and the Rev. A. L. Phillips for the use of the bells; and Mr. J. H. Hind, of Blyth, offered, in the absence of the Vicar, a cordial invitation to all present.—A vote of thanks was also accorded to the Rev. S. B. Bleau for presiding over the tea and meeting.—In reply, Mr. Bleau said it was always a pleasure to meet a band of church workers, and as this was his first appearance at an association meeting since his election as vice-president, he was very delighted to preside over so many new people, and claim them as his friends. What little time he had been in Blyth that afternoon he had listened to some beautiful ringing, and he would be pleased to welcome the association at Laxton in July of this year (applause).

Afterwards, further use was made of the Blyth and Harworth bells, and more interesting methods were rung.

During the afternoon, at Harworth, two very pretty weddings took place, and the ringers present had the pleasure of ringing, by special request, a touch of 'Orange Blossom,' in which a lady took part. A gentleman afterwards appeared on the scene, and asked if the ringers had any objection to drinking the health of the bride and bridegroom. Readers are left to guess the answer.

## ESSEX ASSOCIATION.

A quarterly meeting of the North-Eastern Division of Essex Association was held at Wivenhoe on Saturday last. Members began to assemble shortly after 2 p.m., and ringing in most of the standard methods was indulged in until 4.30, when a service was held in the Parish Church, conducted by the Vicar, who preached a most impressive sermon, and at the same time gave a hearty welcome to all.

Afterwards, at the Church Hall, about 60 members sat down to a most sumptuous repast. Mr. C. E. Gooch, of Wivenhoe Park, presided, and the Vicar, the churchwardens, and various officials of the town, were present.—Mr. C. Howard (Master of the Association) and Mr. Nevard (District Master) congratulated the district upon the large attendance, and thanked the donors of the tea for their kindness in providing such a splendid repast.—The Secretary (Mr. Stanward) stated that he hoped the next meeting would be at Worningford, in June, an open invitation having been given.

Ringers attended from 19 parishes, and ringing was kept up till a late hour.

## COLERNE BELLS AND THE FIRST PEAL.

## To the Editor.

Dear Sir,—I was much interested in Mr. J. Holman's letter in last week's 'Ringing World,' when he gave the day, date and time of ringing the first peal on these bells, because there is a board in the ringing chamber recording a peal of Grandsire Triples rung in 1892, and conducted by H. Wotten, and a footnote states it to be 'the first peal of Grandsire on the bells.'

I shall be pleased if Mr. Holman will give me the names of those who took part, as no doubt it was recorded at the time.

When the Central Council institute a museum or 'interesting relics' department I will forward the three pennies, used for packing the fifth. Evidently this bell has been a trouble for years.—Yours,

ARTHUR PRINCE.

## ST. PETER MANCROFT BELLS.

The rededication of the bells of St. Peter Mancroft, Norwich, after extensive restoration, which has been carried out by Messrs. Taylor and Co., took place on Sunday.

A history of the bells of St. Peter Mancroft is almost a history of ringing in miniature. It was on these bells that the first recorded peal was rung, two hundred and ten years ago. The first peal of Stedman Triples also was rung here, and afterwards, on the enlarged ring of ten and subsequently on the twelve, some of the most famous performances of past generations have been put up.

The original peal at St. Peter Mancroft, existing as early as the fifteenth century, consisted of five bells, wrote Mr. J. R. Jerram in 'The Ringing World' of September 14th, 1914. In 1602, a treble, cast by William Brend, of Norwich, was added, making a peal of six. In 1675-6, two more bells were added to make eight. These were cast by Edward Tooke.

A board in the belfry records that in 1736 the ring was made a peal of ten by an addition of two bells 'subscrib'd for by gentlemen in ye Parish.' The first peal on them was rung on March 8th, 1737, 12,600 Grandsire Caters in 8 hours 15 minutes, and was 'perfectly compleated, to the entire satisfaction, surprise, and amazement of thousands of hearers.'

Nearly 40 years later it was decided to replace the old peal by a new peal of twelve, and at a vestry held on January 31st, 1775, it was agreed to accept the tender of Messrs. Pack and Chapman. In 1814 the tenor was cracked, and was recast in the same year.

## TRURO DIOCESAN GUILD.

## TRURO BRANCH REVIVAL.

The first meeting of the Truro Branch of the Truro Diocesan Guild, arranged by the new secretary, Mr. A. S. Roberts, with the help of Mr. R. Dibbs (St. Agnes), was held at St. Agnes on Saturday last, and was attended by about 50 ringers, representing the following towers: Truro Cathedral, Kenwyn, Kea, Redruth, St. Budock, St. Newlyn East, Guival, and the local band. There were also present Dr. Symons (Diocesan Ringing Master), the Rev. Canon Jennings (Diocesan secretary), and the Rev. W. H. R. Trehwella, Vicar of Zennor (once curate of St. Agnes, and captain of the St. Agnes and Cathedral bands).

Ringing commenced at 2 p.m., and the service, held at 4 o'clock, was conducted by the Rev. W. H. R. Trehwella. The address was given by the Rev. C. W. Turquand, who is in charge of the parish during the absence of the Rev. Father Browne, through illness.

After tea, which was provided in the Sunday School, a short meeting was held, at which the Ringing Master congratulated the members on the good attendance.

It was decided to hold these meetings quarterly, and to hold the next one at St. Budock on June 27th.

The ringers then returned to the tower, and ringing continued until 8.30 p.m.

The majority of the bands were able to ring Grandsire Doubles.

## THE CUMBERLAND ASSOCIATION.

## COCKERMOUTH WIN RAWNSLEY SHIELD.

The annual ringing contest for the 'Rawnsley' shield was held at Crosthwaite Church, Keswick, on Easter Monday. Six teams competed, as against five last year, representing Bridekirk, Egremont, Cleator Moor, Cockermouth and Keswick (2). The judge was Mr. W. Robinson, of Ambleside, and the result as follows: Bridekirk rang 720 Woodbine in 27½ minutes, with 153 faults; Egremont rang 720 Woodbine in 31½ minutes, with 99 faults; Cockermouth rang 720 Kent Minor in 28½ minutes, with 75 faults. Keswick No. 1 rang 720 Oxford Treble Bob in 34 minutes, with 119 faults, and, being the home team, were penalised another 20 faults, making 139. Cleator Moor rang Bob Minor for eight minutes, when they broke down, and Keswick No. 2 rang Bob Minor for 20½ minutes, when they had the misfortune to break a rope, but did not wish for another attempt.

A meeting was afterwards held in the belfry, presided over by the Rev. W. Elliott-Bradley, Vicar of Crosthwaite, and supported by the hon. secretary, Mr. Wm. T. Holmes (Cockermouth).

The judge read his report as above, and Mr. Bradley presented the shield to Mr. Casson, the conductor of Cockermouth team. The winners will hold the trophy for the next twelve months.

A very interesting discussion followed, and it was decided that the winners should ring Woodbine for the next contest.

St. Bee's was chosen for the next quarterly meeting, to be held on the 27th June.

A hearty vote of thanks was given to Mr. Robinson for adjudicating, and to the Vicar for the use of the bells and presiding. These gentlemen having responded, further ringing brought a very successful meeting to a close.

## THE LADIES' GUILD.

## SOUTHERN DISTRICT.

A quarterly meeting of the Southern District was held at Yateley on Saturday, when the ladies and their friends were made very welcome. Ringing commenced about 3.30, and various touches were rung until 5 o'clock. Unfortunately, the service had to be cancelled owing to the unavoidable absence of the Rector. Tea was served in the Parish Room, and then followed the business meeting. It is proposed to hold the next quarterly meeting at Ashted on October 3rd. The district annual meeting is to be at Aldershot, probably June 20th.

During the evening, touches of Grandsire, Stedman, Plain Bob, Oxford and Kent Treble Bob were brought home. Yateley bells were also rung for the first time by eight ladies, a course of Stedman Triples being rung as follows: Miss Stilwell 1, Mrs. Melville 2, Miss N. Denyer 3, Miss A. Fisher 4, Miss B. Mills 5, Miss V. Robinson 6, Miss H. Mills 7, Miss M. Nye 8. Visitors came from Aldershot, Bagshot, Camberley, Guildford (Holy Trinity), Godalming, Reading (St. Lawrence), Sandhurst, Wokingham.

### SUSSEX COUNTY ASSOCIATION.

The annual meeting of the Central Division was held at Southover, Lewes, on Easter Monday, April 13th, a fairly representative gathering of 53 being present. Ringing commenced at 2.15, and at 4 o'clock a short service was held in church, conducted by the Rector (the Rev. C. R. Farnsworth, B.A.). The collection for the benevolent fund amounted to 14s. 6d. At 5 o'clock, all proceeded to the Parish Hall, where tea had most kindly been provided by the Rector.

This was followed by the business meeting, the Rector presiding, supported by the Master (Mr. J. T. Rickman), T. Jeffrey, Burgess Hill; Alfred Absalom, G. Gasson and G. Lewry, Bolney; and E. Hobden, Ditchling, were elected new members.

The Secretary's report and statement of accounts were favourably received, and the whole of the officers of the division were unanimously re-elected, viz.: Secretary, A. D. Stone; committee, O. Sippel, J. A. Hart and Jas. Wren; committee of advice, K. Hart, W. Palmer and C. Tyler.

The Secretary announced that the next meeting of the division would be held at Lindfield on Saturday, July 4th, by the kind invitation of the Vicar, who is providing tea for those attending.

The meeting concluded by the Master proposing a hearty vote of thanks to the Rector for the use of the bells, his very able address, and for his most generous hospitality.—The Rector, in responding, expressed the hope that the association would again visit Southover in the near future.

Afterwards, ringing continued until about 8.30, the methods rung during the day ranging from Grandsire to Surprise. The following towers were represented: Barcombe, Brighton (St. Peter's and St. Nicholas'), Burwash, Crawley, Ditchling, Eastbourne (St. Saviour's), Henfield, Heathfield, Hurstpierpoint, Lindfield, Mayfield, Seaford, Shoreham, Southover and Waldron. Mr. J. Harris, Portsea, was also present.

### DEVONSHIRE GUILD.

A pleasant quarterly meeting of the North-Eastern Branch was held at Bickleigh on Saturday: about 40 ringers being present from Exeter, Christow, Exmouth, and most of the towers belonging to the branch.

Several bands availed themselves of the Rev. W. French's kind invite, and enjoyed a ring at the neighbouring tower of Cadeleigh. Seven certificates were awarded, and one associate member elected. It is hoped to hold the next meeting at Uplowman on Saturday, June 13th.

### ANOTHER 'FAILING.'

In one or two recent articles we have commented upon some of the shortcomings to be found among ringers, of the laxity of some in paying their subscriptions, of the indifference of others in regard to practices, especially in the summer months. There is yet another matter in which ringers are apt to be neglectful, and so add not merely to the troubles of the officials, but to the difficulties of others outside their own ranks. This is with regard to notifying their intention to be present at teas, etc., in connection with meetings. This has long been a source of complaint by secretaries, but appeals of this kind seem to go unheeded. In the majority of cases caterers require to know beforehand how many they have to provide for. Particularly in the country districts is this essential if the catering is to be efficiently done, yet it is no unusual thing for twice as many ringers to turn up as have indicated their intention to do so. This is a bad practice in any case, it is extremely discourteous in those instances where the visitors are to be the guests of the incumbent or the local ringers. Naturally those responsible for the catering desire to do the best they can, and not only is it unfair to them for greater numbers to turn up than have been notified, but it is equally unfair to those ringers who have complied with the courtesies of the occasion, inasmuch as it may result—and many times has done so—in everyone having to go short.

It may be said the associations have the remedy in their own hands, and that those who fail to do as they have been asked in the matter of saying that they will be present, should be excluded from the meal. This salutary method of dealing with the neglectful ones would no doubt have its effect, but ringers being the curious folk that they are, this way of dealing with the situation is not altogether a practical remedy. Officials have to be very chary of giving offence, and when a number of visitors turn up unexpectedly at a meeting, there is, of course, a desire to do the best under the circumstances so that they cannot feel aggrieved. But if these ringers find they cannot be catered for, they only have themselves to blame, yet time after time, given a fine afternoon, secretaries find they have been hopelessly 'let down.' Short of the policy of exclusion, it would seem that the only course open is that of continually hammering at the negligent to induce them to alter their ways. If they can only be brought to realise that it is not only the secretary who is concerned in knowing how many to expect, but that others outside the association have an interest in the matter, and that they are creating a bad impression, perhaps they will in time mend their ways in this and in the other directions in which we have recently urged that there is room for improvement.

## WORCESTERSHIRE &amp; DISTRICTS ASSOCIATION.

## THE ANNUAL FESTIVAL.

The annual meeting was held at Worcester on Easter Monday, as usual. Rain fell persistently until noon, after which the sun got through occasionally, somewhat tempering the chilly air. Most of the city bells were ringing fairly early, and the Cathedral bells were available from 1 to 2 p.m. The rehanging of this ring is contemplated, after which, perhaps, better ringing will be enjoyed by those whose opportunities are so few on twelve bells.

At 2.15, the Dean again welcomed a moderate attendance, and at the termination of the meeting interested those present with a brief historical review of the architecture of the Chapter House, where the meeting was held. Even to a casual listener it is obvious what a great study the Dean must have made of the history of the Cathedral, as, when expounding details, all else is oblivion.

As always, he presided, and was supported by the Rev. J. F. Hastings and Mr. J. R. Newman, clerical and lay secretaries, Mr. R. Matthews and Mr. T. J. Salter.

The report and balance sheet were readily adopted, the latter proving satisfactory in face of the reduced subscription.

Mr. Newman reminded members of the irregularity of not advising him of their intended attendance to enable him to make ample provision for tea.

Apologies were read from the Vicars of Powick and Cradley, and Mr. H. Mason.

From the Belfry Repair Fund grants were voted of £5 to Selly Oak and Hanley Castle restorations. Two guineas were also voted from the general fund to the Washbrook Memorial.

New members were elected from Droitwich, Kidderminster, Wolverley, Wordsley, Martley and Oldswinford.

Arrangements for the annual peal were left in the hands of the Ringing Master (Mr. R. Matthews).

Mr. A. E. Parsons referred to the death of Mr. W. Rock Small, whose work and loyalty to the association from its inception had been helpful. A vote of condolence was passed in silence to the bereaved family.

Mr. W. Short referred also to the death of Mr. John Bradney, of Shifnal, an old, unattached member. Here, too, a silent vote of sympathy was passed.

President, vice-presidents (all clerical), lay vice-presidents, Master, secretaries, treasurer and auditors were all again unanimously re-elected. The Central Committee was re-elected with one exception.

Mr. J. R. Newman reminded members that he was getting older, and that day completed his 20 years' service as secretary, and hinted at retiring in favour of young blood. The Dean very aptly and properly asked him to get on to the next business, much to the liking of all present.

The usual votes of thanks were passed.

The Cathedral service followed, all members taking privileged seats in the choir.

To the intense pleasure of all, the organ, which has been silent for extensive repairs and overhauling at a cost of over £8,000, was reopened on Easter Sunday. Sir Ivor Atkins, the organist, thrilled the listeners with a short recital, and the choir gave a beautiful rendering, too, of Sir Ivor's anthem, 'Christ is Risen.' An address was given by the Rev. Canon Blake, Rector of St. Helen's, from Psalm xcvi. 10, 'Tell it out among the heathen,' etc.

A collection was taken for the organ fund.

Tea was served at the Central Cafe, High Street. Thus another opportunity was afforded many members to exchange greetings and handshakes, who rarely meet from year to year. It was also good to see young blood well represented, and one, at any rate, expressed an inward hope that their aspirations and deeds would in time exceed those of older members.

## NEW PEAL OF EIGHT IN NORFOLK.

## BELLS OF TERRINGTON ST. CLEMENT RESTORED.

The bells of Terrington St. Clement, Norfolk, have just been restored. There were, prior to the restoration, six bells which were cast at various periods by different firms, and were badly out of tune. Of the original six bells two have been recast and two new trebles have been added, making a good peal of eight bells, the tenor weighing 11½ cwt. The casting, recasting and tuning has been done by Messrs. Mears and Stainbank, of the Whitechapel Foundry, and the rehanging has been carried out by Messrs. Day and Son, of Eye, Suffolk. The bells are hung with the latest type of self-aligning ball races in an entirely new oak frame. The bells go splendidly, and no doubt will be much sought after by bell ringers in the vicinity.

The dedication took place on Sunday, April 19th, and was performed by the Lord Bishop of Ely. The service was a most inspiring one, and was attended by a large number of people. The bells were opened by a band of ringers from St. Margaret's Church, King's Lynn, who, with some members of the home company, rang several short touches during the afternoon.

The inscriptions on the bells are as follows:—

Treble.—This bell was given by Mrs. Holt Wilson, of Lovells Hall, last surviving member of the Upwood family, 1925.

2nd.—This bell was erected by public subscriptions, 1925. Arthur Edwin Penney, Vicar; James Empringham, William James Warnes, churchwardens; William George Davis, treasurer.

3rd.—Thomas Lester, of London, made me.

4th.—S. Maria, 1711; G. Osler, R. Scott, John Goldsmith. Recast 1925.

5th.—John Mudd and William Wright, churchwardens, 1816.

6th.—Nunc Clemens Ego Cano Vobis Ore lucundo, 1595. R.W.: R.N.  
7th.—John Boseley and William Willemott, churchwardens, 1731. T. Newman fecit. Recast 1925.

Tenor.—Arnold and Osborn fecit, 1778.

## PAYING UP.

## To the Editor.

Dear Sir,—After acting for two years as hon. treasurer to the Durham and Newcastle Diocesan Association, I can most cordially endorse your leading article of April 17th, under the heading of 'Paying Up.'

It may interest you to know that I found the process of collecting subscriptions a most tedious one, and one in which considerable patience is required.

On taking over my duties, I found a formidable list of slackers, regarding subscriptions, awaiting me. I entered into my task with a fair amount of zeal, and was fortunate in being able to reduce the unpaid subscriptions by some few pounds.

It is only with great difficulty that business methods can be infused in church work of this nature in these parts. Bell ringers as a whole are drawn from all classes of society, and many need tactful persuasion, otherwise offence is taken where not intended.

The prevailing idea among ringers seems to be: 'Appoint your officials, and thereafter away with all cares and worries, and leave us to our ringing, the secretary and treasurer have broad shoulders.'

To give a case in point, an idea to improve the financial side of our association was suggested by me. A comprehensive circular, which took hours to elaborate, was drawn up, and circular letters were sent out to 50 towers asking the support of the local secretaries, and their Guilds, and an early reply.

After waiting patiently for six months, only twelve were received, consequently I did not proceed further with the scheme, and left it to my successor to carry on, when time and occasion again arise.

You ask the remedy?

(1) As a partial alleviation of the troubles of association officials I would suggest that the treasurer's duties should be entirely separate from the secretarial work, the secretary having quite sufficient to do in arranging meetings, writing up reports, and other incidentals.

(2) That each tower should establish a scheme, whereby every member will pay the small sum of 1d. a week towards the outlays for repairs to bell ropes, and their subscriptions to the association. This has been adopted by more than one tower to my own knowledge, with the happy result that their subscriptions have been promptly paid, and no arrears outstanding.

(3) Much younger men should be given the posts of secretary and treasurer, providing that they are not unwilling to face the music with a good heart, and also have the time and leisure at their disposal.—Yours faithfully,

A. W. HALL,

Late Hon. Treasurer, Durham and Newcastle Diocesan Association.

## MIDDLESEX COUNTY ASSOCIATION.

### ANNUAL GENERAL MEETING AT SOUTHGATE.

Southgate having been chosen as the venue for this year's annual meeting of the Middlesex County Association and London Diocesan Guild, members made their way to that place in large numbers on Saturday, April 18th, some 75 attending. The very fine peal of ten bells was made much use of, several excellent touches of Grandsire and Stedman Caters, Cambridge Surprise Major and Royal, being rung; whilst at Wood Green the methods practised included Stedman Doubles, Bob Minor, Kent, Oxford, Double Court and Cambridge Surprise Minor. Quite a number of the fair sex were present, and it was noticed that several of them were very keen on the higher methods rung.

Divine service was held at 5 p.m., conducted by the Rev. G. W. Stainsby. The preacher was the Rev. S. F. L. Bernays (Rector of Finchley), who gave a very inspiring address, basing his remarks on the dangers confronting all workers in the church, from the clergy down to the choir, bell ringers, and other lay workers, viz., that of forgetting the real nature of their calling. It was quite easy for them all to forget their work was that of praising God. Even the clergy, in repeating the same services week after week, found it easy to forget that, and the preacher urged his hearers to endeavour to bear in mind, during the ringing of the bells, that they were just as much praising God as were the clergy and congregation.

Tea was provided in the Schoolroom, served by the wives and daughters of several of the local ringers, who had prepared an excellent meal. The Rev. S. F. L. Bernays presided, and was supported by the Rev. G. W. Stainsby, of Southgate.

At the business meeting, the chair was taken by Mr. F. A. Milne, president, supported by Messrs. W. Pye (Master), T. Beadle and W. Pickworth (vice-presidents), N. A. Tomlinson and R. Holloway (District Masters), C. T. Coles and W. H. Hollier (hon. secs.), etc.

### NEED FOR REGULAR PRACTICE.

The passing of time, says the report, bids us once more to take stock of our position as a ringing organisation. We find much encouragement in doing so; our numbers are increasing; the subscriptions are being paid with regularity; and in most cases the Sunday ringing reaches a fairly high standard of excellence. But, for all this, there are towers where there is still plenty of room for improvement and where better work could be done. In some cases, possibly, this is due to lack of effort on the part of the ringers, but there are other cases in which we are sure the ringers are not altogether to blame. We hear of towers where a regular practice night is almost out of the question; or if there is a practice night, interruptions often take place owing to the proximity of a hall where a public meeting or some other function is being held. We do not suggest that the ringers are not considered, but what actually happens is that they are for the time being forgotten. Ringers must have practice; first, to keep up and improve their own standards of ringing; and, secondly, to teach young ringers how to handle a bell. Otherwise Sunday ringing will in time cease at any church where practices are continually interrupted. We would, therefore, urge our clergy to set aside a definite night which the ringers may consider their own, and to do their best to have the practices kept free from interruption. At the same time, we would urge on our members the necessity of taking full advantage of the weekly opportunity to practise, especially in those towers in which their practice has been subject to interruption, with the special intention of improving their Sunday Service ringing. For we must always bear in mind that this is the main object of our existence, the Sunday ringing that is given to God, and to it we should devote our best efforts.

Apart from the Annual Meeting, no less than 23 meetings were held during the year. In the North and East District ten took place, three of which were at six-bell towers, whilst two were held in mid-week. The excellent average attendance of 32 was reached. The ringing generally attained a high standard, and it was noticeable that a larger proportion of our younger members aspired to Surprise methods, good practice in which can usually be obtained at these meetings. The meetings held in the South and West District numbered 13, all but two of which were held on a Saturday. The attendance at these meetings averaged 35, which shows no lack of interest on the part of our members. In this district, too, the ringing usually included several Surprise methods, a sure sign of progress.

In addition to the above, a joint meeting of the North and East District and the South-Western Division of the Essex Association was held at Waltham Abbey on August 23rd. This meeting, which was attended by upwards of 50 members of one or other of the Associations concerned, enabled many to obtain some excellent practice on ten and twelve bells, besides furnishing an opportunity for fraternal greetings between ringers who seldom meet each other. It is hoped that more meetings of the same nature may be arranged in the future.

### OVER A HUNDRED NEW MEMBERS.

The number of new members elected during the year was 101, viz., in the North and East District 1 honorary and 52 ringing members, in the South and West District 4 and 44 respectively. In the former district the band at St. Mary Magdalene, Enfield, has become affiliated, and help is being given to them by friends from Southgate with a considerable measure of success. Mention might here be made of the progress made by the Stanmore ringers under the able tuition of Mr. F. Edwards, of Bushey, and Mr. J. Milner, of Isleworth, to both of whom our grateful thanks are due. The total membership of the Association, after deducting losses by death, resignations, etc., is 749.

Those whom death claimed numbered four. W. J. Dickens, of Isleworth, who died in January, had been a diligent member of the All Saints' band for many years, and a member of the association since 1916.

J. H. Preston, a member of the St. Peter's, Staines, band, was taken from us on April 24th. For 15 years a member of the association, and a ringer at Staines for nearly 20 years, he has been greatly missed.

W. Tucker, of Chewton Mendip, whose death occurred in March, was an original member of the association. He was leader of the Northaw band for many years, having been a ringer at that church from 1886-1905.

Miss Paget, of Barnet, one of our first honorary members, was also taken from us, and thus we lose another of our earliest supporters.

Dr. Wace, Dean of Canterbury, a vice-president of the association, died in the early days of 1924 from the effects of a fall. An old and intimate friend of our late president, Mr. A. T. King, Dr. Wace was a great help to us, especially in our early days, and it was whilst he was Rector of St. Michael's Church, Cornhill, that the association rang its first 12-bell peal in that tower.

### THE YEAR'S PEALS.

Turning to the peals rung during 1924, we are able to record an increase of one over the previous year, the total being 77, the highest attained since the war. Four of these peals were rung on handbells, whilst the peals on church bells were rung in 39 different towers. The members taking part in these peals numbered 192, of whom eleven rang their first peals, whilst there were 117 'firsts' in new methods or on different numbers of bells. Amongst these latter were four of London Surprise, five of Bristol, one of Cambridge Royal, and three of Cambridge Maximus. Two members rang their first peals of Stedman Cinques, twelve their first peals of Grandsire Caters, and eight their first peals of Oxford Treble Bob Royal. A series of peals in new plain methods were rung at Willesden, namely, Edmonton, Marlborough and Winchester Bob Major. At Willesden, too, the first peals of Little Bob Major and Little Albion Treble Bob Major by this association were rung. Other peals worthy of notice are the first peal of London Surprise Major rung by the Christ Church, Southgate, band, on February 9th; the first peal rung on the bells at Stanmore since their augmentation to eight, in which several of the local ringers took part, on November 1st; and a peal in seven Surprise Minor methods rung on the same day at Hendon, this being the first peal on the bells since their restoration.

Our lady members have again done well. Miss G. Baker rang her first peal, and Miss P. Moss her first peal on ten bells, at Hillingdon, on February 23rd. On April 21st, at Acton, Miss Moss especially distinguished herself by calling Holt's Original peal of Grandsire Triples, being the first lady to call this difficult composition. At the annual general meeting a few days later, the president of the association took the opportunity of congratulating Miss Moss on her brilliant achievement, which we heartily endorse, especially as it was also her first peal as conductor.

This peal was also the first rung by Miss R. Hawksworth, who followed it up by ringing peals of Kent Treble Bob Major and Stedman Triples at Willesden on August 9th and November 25th respectively. Mrs. F. I. Hairs added another to her many records by being the first lady to ring a peal of Cambridge Maximus, which she accomplished at Waltham Abbey on June 7th; whilst Mrs. R. F. Deal rang her first peal of Stedman Cinques at Southwark Cathedral on June 14th, and her first of Cambridge Royal at St. Magnus-the-Martyr on July 5th, both very fine performances. Others of our lady members who rang peals during the year were the Misses E. K. Parker, N. Shorter, N. G. Williams and P. Upsher, all of whom we congratulate on continuing their earlier promise.

The number of members who conducted peals was 28, and of these Mr. R. A. Fardon is to be commended on calling his first peal on July 8th at Acton; the composition being Holt's Original!

The peal of Double Norwich Court Bob Major, rung at Chiswick on December 27th, was the 1,000th by the conductor, Mr. F. Bennett, whom we congratulate on achieving a four-figure total of peals.

The bands at Acton (31) and St. Mary's, Ealing (29), again head the

quarter-peal list. There is still room for more quarter-peals, especially in the North and East District. We should like to see the Sunday quarter-peal attempt a permanent institution at all those towers where time permits.

#### BELL RESTORATION.

The list of bell restoration work done during the year includes the following: Messrs. Gillett and Johnston have rehung the whole peal at St. Andrew's Church, Wells Street, W., on ball bearings, and we understand that they go excellently. Messrs. Mears and Stainbank have completed the rehanging of the eight bells at St. Matthew's, Bethnal Green, whilst the bells themselves have been cleaned and tuned. At Hendon the same firm have recast the treble, 2nd and 4th bells, and have tuned and cleaned the other bells, rehanging the whole peal with new fittings and framework. Messrs. Mears and Stainbank have also done slight repairs at Hampton and at Hornsey.

We understand that a movement is on foot to raise sufficient funds to augment the existing eight bell at Isleworth to ten. This addition will make an excellent ring of these fine bells, and we hope that a ready response will be made to the appeal, to enable the work to be carried to a speedy conclusion.

The balance sheet of the Central Fund showed receipts (including £20 13s. 1d. brought forward) amounting to £50 18s. 3d., £19 0s. 4d. coming from the N. and E. District, and £11 4s. 10d. from the S. and W. The expenditure amounted to £24 1s. 3d., leaving a balance in hand of £26 17s. The North and East District had a balance of £18 12s. 8d., and the South and West District £29 10s. 5d., the former being an increase of £2 0s. 3d., and the latter an increase of £1 13s. 4d.

The report and balance sheet were adopted.

#### MR. T. BEADLE RETIRES.

All the retiring officers were re-elected, with the exception of Mr. T. Beadle, who had expressed a wish to retire. Mr. C. S. Bird, of Heston, was appointed district vice-president in his stead.

The President moved that a hearty vote of thanks be accorded to Mr. Beadle for his many years of generous service to the association. This was carried with hearty unanimity, and Mr. Beadle, in returning thanks, referred to the early days of the association, when people were suspicious of their motives, which suspicions he and a few others had to fight against.

Other business included the election of five new members, an alteration to Rule VIII., and the deletion of Rule XI.

An improved association certificate was handed round for inspection, and several orders obtained. Copies of this certificate may be had of either of the hon. secretaries, 6d. post free.

A discussion arose as to the place of next year's annual general meeting, and eventually Fulham was chosen.

Hearty votes of thanks were passed to the Rev. C. F. Peploe and the Rev. C. G. A. Midwinter for the use of the bells at Southgate and Wood Green; to the Rev. S. F. L. Bernays for his address at the service; to the Rev. G. W. Stainsby (Southgate) for conducting the service; to the several ladies who had given such invaluable help in providing tea; and to Messrs. Pickworth, Miller, Crane, Armstrong, and others, for the great assistance given.

#### LLANDAFF & MONMOUTH DIOCESAN ASSOCIATION.

A quarterly meeting was held at Trevethin, Pontypool, on Saturday last, and, by the large number that put in an appearance from both dioceses, proved that Trevethin is a favoured spot. A welcome was given to the visitors by Mr. Lade, the local leader, who, by the way, has during the past year or two worked up a splendid and enthusiastic band, and no pains have been spared in the way the bells have been looked after since he became leader.

A committee meeting was held prior to the service, which was conducted by the Vicar (the Rev. D. E. Roberts, M.A.), who gave a very encouraging address.

Following the service, a bountiful tea, which had been generously provided by the Vicar's warden, Mr. T. B. Pearson, was enjoyed.

The business meeting was presided over by the Vicar, and the balance sheet for the past year was read and adopted. This showed a very substantial sum in hand.

Instructors' reports were accepted, which showed really good progress at Machen, under the instructorship of Mr. A. E. Slatter.

Augmentations and restorations were reported on, and a couple of very interesting items referred to.

It was decided to hold the next quarterly Monmouthshire meeting at Bedwelty, and new members were elected.

Afterwards the bells were rung in the standard methods, and this brought to a close a splendid meeting. The best thanks are accorded to the Vicar, churchwardens, local ringers, and the local ladies.

## BELFRY GOSSIP.

The Washbrook Memorial Fund has now reached £84. The committee have a big task still before them, as the sum at present subscribed is only about half the amount required. From the list which appears in another column, it will be seen that a number of associations have not yet contributed. Collective subscriptions from these remaining societies would go a long way towards completing the fund.

Another lady to reach the one hundred peal mark is Miss Evelyn Steel, who completed the century at Turvey, last Saturday. Miss Steel is a vice-president of the Bedfordshire Association.

The peal of Bristol Surprise at Syston, near Leicester, was rung at first attempt, despite several critics' statements 'impossible,' owing to heavy 'go' of bells, especially the tenor. Now, Jack O'—how about rejoining the old 'first eleven,' and adding your strength as of old? They have not quite lost their ability.

Mr. John Armstrong, of the Southgate band, has been appointed groundsman at the Walker Cricket Ground.

A memorial is to be erected in the Parish Church, Chudleigh, Devon, to Mr. John Buttress, who was a bell ringer for over 50 years.

At Waltham Abbey, which contains one of the three peals of twelve bells in Essex, special services are to be held on Sunday on the occasion of the 865th anniversary of the consecration.

Many belfries are lacking in one important essential—a clock. Messrs. G. and F. Cope and Co., of Nottingham, have on the market a timepiece perfectly suited for belfry use, and these clocks will be found advertised in another column.

The first peal of Cinques in Yorkshire was rung on May 1st, 1842, when Samuel Smallpage composed and conducted a peal of Grandsire Cinques at Leeds. There is a peal board in the tower, and the record of the time occupied is very exact, it being given as 3 hours 43 mins. 9 secs.

On May 5th, 1817, a peal of 12,312 Grandsire Caters was rung at Painswick.

It was not until the year 1887 that a peal was rung in Dorset. This was Grandsire Triples on May 5th, at Bridport.

The 10,400 Real Double Superlative at Loughborough Foundry was rung on May 6th, 1922.

The first peal of 'Grandsire Bob Maximus' was rung at Southwark on May 7th, 1792.

Will the ringer whose home is in Dover, and who has recently been visiting Watford and Chorleywood, communicate with Box M.C., The 'Ringing World' Office, Woking, enclosing testimonials, when he may hear of a situation?

## SERVICES AT RINGING MEETINGS.

*To the Editor.*

Dear Sir,—The practice of having a more or less elaborate service at annual and quarterly association meetings seems to be growing.

Whilst not desiring to seem irreverent, may I suggest that these services are somewhat of a superfluity, as ringers who desire to attend services can do so at any time at their own particular churches.

Ringers who attend annual or quarterly meetings will admit, if they are honest about it, that they attend, primarily for ringing and the transaction of the business of their particular association.

Take the case of the annual meeting of the Midland Counties Association held recently, and, say, that a member arrived in Leicester about 11 to 11.30 a.m. By the time he had located himself, and (if he was lucky) had a pull at one church, it was lunch time. After the lunch, the annual meeting, followed by the service (much of the more important business was crowded out, because a service had been arranged). After the service, tea, and very soon after a concert, so that ringing seemed to be crowded out, too.

I suggest that association committees hesitate before they put on a service, and that they allow sufficient time for the proper discussion of important items of business, such as the Midland Counties Association shelved the other day.

I quite expect to be well 'strafed' for daring to suggest that services at meetings are a superfluity, but anyhow, that is my opinion.—  
Yours faithfully,  
J. FRANK SMALLWOOD.

## OXFORD DIOCESAN GUILD.

The Sonning Deanery Branch held a combined ringing practice at Waltham St. Lawrence on Saturday evening, April 18th. Members from the following towers were present: Fulmer, Sandhurst, Binfield, Wargrave, Twyford and Waltham St. Lawrence, and a most enjoyable evening was the result. Ringing included the following methods: Grandsire and Stedman Doubles, Plain Bob Oxford, Kent, and Woodbine Treble Bob, and Cambridge Surprise.

## ST. PETER MANCROFT BELLS.

### THE DEDICATION.

The restoration of St. Peter Mancroft bells is now complete, and, as briefly mentioned in our last issue, they were re-dedicated on Sunday week. For some time before the restoration was taken in hand, the condition of the frame and fittings was far from satisfactory, and when the bells were removed it was found that the beams which carried the weight were in very bad order, and some of them badly rotted. The lower beams, forming the ceiling visible from the church have not been removed, but have been repaired and made perfectly safe. The bells are now carried on steel girders quite independent of the old oak beams, which will henceforth be relieved of any duty except that of carrying themselves and the wood flooring laid on them. New fittings have been supplied to the bells throughout, and the bells have been quarter turned and re-clappered. The work has needed considerable time, but now it is done there is the satisfaction of knowing that everything in the tower is sound, and in good order, and that the strain of the bells is more evenly distributed on the tower

closely connected with the church. That of Alexander Robert Chamberlin would long be remembered. When, in 1878, the Rev. Sidney Pelham came to Mancroft, he got to work with the enthusiasm of faith and youth, and he found in Mr. Chamberlin a quiet, retiring churchwarden and a friend. The two men walked together in the House of God, and they saw the marks of the neglect of centuries—four of the great windows partially bricked up, the tower, the roof, the walls all falling into ruin. From the outside six feet of accumulated soil lay against the north and south walls. At the east end of the church the conditions were indescribable. Two out of three public-houses were practically built on to the sanctuary and other houses less reputable. "I tell you these repulsive details," said the Vicar, "because we should not forget those like Alexander Chamberlin, who pledged themselves to purify this most glorious temple of God." Mr. Chamberlin continued his labours with Archdeacon Nevill from 1881 to 1884, with Canon Baggailey from 1884 to 1890, and with Archdeacon Pelham Burn from 1890 to 1901 until in his (the speaker's) own

walls, which henceforward will be much less likely to be injured by the ringing of the heavy peal of twelve.

A crowded congregation attended the dedication service which was conducted by the Vicar (Canon Meyrick). The actual ceremony took place in the belfry, where the Vicar was accompanied by the donor (Mrs. F. Clark), the choristers and ringers. There Canon Meyrick said prayers, the choir sang an anthem, and afterwards the bells rang out over the city after a silence of a year, while the hymn, 'Now thank we all our God,' was afterwards sung by the congregation.

### A GREAT WORK OF RESTORATION.

'Many of us,' said Canon Meyrick in his sermon, 'have been looking forward for months for this great moment in the story of Mancroft. I only wish that the figure of Archdeacon Pelham could be standing in this pulpit in my place. This great and splendid gift is made in memory of one who worked for some years with Sidney Pelham.' The name of Chamberlin had been for two generations very

vicariate the great work was completed in 1908 at a total cost of some £22,000. No wonder Mr. Chamberlin loved the bells he rehung forty years ago. Their bells made their appeal to many instincts. They had praised God for many centuries. A hundred years before the church was built there almost certainly hung a peal of five bells in the Norman tower of old St. Peter's. They rang for the victory over the Spaniards. Again the steeple rocked in 1665, when, off Lowestoft, British seamanship conquered the Dutch aggressor. At the victory of Waterloo, and, but the other day, on November 11th, 1918, it was from the lips of their Mancroft bells that a great hymn of thankfulness leapt to the skies while men and women wept and tried to pray.' Proceeding, Canon Meyrick referred to the ringers, who, like those in the choir stalls, were commissioned to lead God's worship on earth. There was an honoured place among the workers for God. 'The music of our bells is like that of the Gospel. There is power—power not of this world. Hark the great two-ton tenor! There is joy and laughter, a laughter that leaps to the skies and blessed by God Him-

self, echoes back to earth to cheer the tired watcher.' There was the tender note of sorrow that ever must be while men were heartless. At times the bells told of goodwill between man and man. 'This morning,' concluded Canon Meyrick, 'as we knelt at our altar, two thoughts, it may be, came to some of us. We thought of the Norfolk men who at that very hour on that very day were marching to certain death on the battlefield of Gaza, and we thought of those who mourned for them. We remembered, too, that to-day, after long silence, our bells would ring out the note of resurrection, of life triumphing over death, and we thanked God for the bells, for our Norfolk heroes, and most of all for the assurance of Easter.'

The actual ringing during the interval in the service consisted of a few rounds and firing only, in which members of the St. Peter Mancroft Guild alone could take part, the occasion not allowing of anything else in the few minutes available.

Immediately after the service, however, and again during the afternoon, from 4 o'clock to 6.30 p.m., the bells were kept going, and various touches were rung, in which numerous visitors also joined. Among those present were the secretary of the Norfolk Guild (Mr. A. Coleman), and ringers from Ipswich (St. Mary-le-Tower), Cambridge, Diss, Wymondham, Fakenham, Thornham Magna (Suffolk), while representatives attended from many other local bellfries. The methods rung included Stedman and Grandsire Cinques, Treble Bob Maximus, Bob Royal, Grandsire Caters, Cambridge Surprise Major. The 'go' of the bells appears to be all that can be desired, and the improvement in the sound of the bells outside was much remarked upon. Needless to say, the bell hangers (Messrs. Taylor and Co., of Loughborough) have made an excellent job.

### THE FIRST PEAL. TO-MORROW'S ANNIVERSARY.

Two hundred and ten years ago to-morrow, viz., on May 2nd, 1715, the first peal on record was rung. This was a peal of Bob Triples performed by the Norwich Scholars, on the famous bells at St. Peter Mancroft. Although the composition of this peal has not been preserved, there is no reason to doubt its accuracy, for John Garthorn, the composer, was also the composer of the first peal of Grandsire Triples rung three years later, the truth of which was established by the late Mr. Jasper Snowdon.

The peal of 1715 is recorded on a very elaborate board in Mancroft tower, and the inscription is interesting:—

May the 2nd, 1715. Here was Rung by the Ringers call'd Norwich Scholars, that most Incomparable Peal call'd Grandsire Bob Triples, it being the 3d whole peal they have rung, but the first whole Peal that ever was Rung to the truth by any Ringers whatsoever. It has been studied by the most Acute Ringers in England (but to no effect) ever since Triple Changes were first Rung, but now at last it's found out to the truth by John Garthorn, one of the said Society, and Rung by him and the rest of the Society in 3 hours 18 minutes, which is about 1,550 changes in an hour, the whole Peal being 5,040 Changes, and not one Bell misplac'd or out of Course. The Names of which Ringers are underwritten against their Respective Bells as they Rung:

|                         |     |
|-------------------------|-----|
| John Garthorn .....     | 1st |
| Isaac Pearce .....      | 2nd |
| John Briggs .....       | 3rd |
| James Brooke .....      | 4th |
| David. Sanneville ..... | 5th |
| Tho. Gardner .....      | 6th |
| William Dixon .....     | 7th |
| Robert Woodcock .....   | 8th |

Doubtless John Garthorn called the peal, and these men may well have been proud of their performance.

### DEATH OF A LADY RINGER.

We regret to record the death of Mrs. Frances Kate Jackson, elder daughter of Mr. and Mrs. E. C. Gobey, of Ilkeston. The deceased lady rendered very valuable services as a ringer in the early part of the war, at the Parish Church, Ilkeston, and she was very highly respected by all the ringers.

The interment took place on Monday, April 6th. The first portion of the service was held at St. John's Church, at which the Rev. W. F. Rutterton (Vicar) officiated. The service was fully choral, four ringers acted as bearers, and after the committal service rang a course of Grandsire Triples over the open grave. Mr. A. Coppock, vice-president of the M.C.A., was amongst the mourners, representing the Nottingham district of the Midland Counties Association.

As a last tribute of respect, the bells of the Parish Church rang out half-muffled touches of Grandsire and Stedman Triples during the evening, the following taking part in the ringing: C. J. Baker, J. F. George, H. Harrison (conductor), H. Beardsley, I. Hufton, F. Tarlton, L. King, E. Fletcher and Miss Mary Spencer.

### WARWICKSHIRE GUILD.

#### MR. A. W. WILKERSON RETIRES FROM SECRETARYSHIP.

The annual general meeting of the Guild took place at Rugby on Saturday, April 18th. Members were present from Bulkington, Chilvers Coton, Coventry, Erdington, Exhall, Leicester, Monk's Kirby, Nuneaton, Rugby, Shilton, Southam, Stoke and Wolvey, and the attendance included a number of ladies. The bells of St. Andrew's Church were open for ringing at 3 p.m., the committee met at 4 p.m., and the Guild's special service was taken in church at 4.30 p.m. by the Rev. R. L. B. Oliver, the 'ringing Vicar,' of Monk's Kirby, who also gave the address. It was an ideal address, from the ringers' point of view, and quite out of the ordinary run of addresses usually given at these gatherings.

Tea was provided at the Campbell Cafe, at which about 40 members were present, after which the business meeting was held. In the unavoidable absence of the president (the Rev. J. L. White), through indisposition, Canon M. A. Dodds, Vicar of Chilvers Coton, was voted to the chair.

The Hon. General Secretary (Mr. A. Wilkerson) read a report, and presented a balance sheet for the year ending December 31st, 1924, which showed a balance in hand of £11 16s. 5d., both of which were adopted.

The Rev. J. L. White was unanimously re-elected president, as was also the Ringing Master, Mr. T. W. Chapman.

The hon. general secretary having expressed a wish to retire, Mr. J. A. Fenton (Rugby) was elected to fill the vacancy. The hon. district secretaries were re-elected en bloc, and Mr. T. Male, of Warwick, elected to fill the place of Mr. F. G. Ashbourne for the Warwick district. The three gentlemen appointed to serve on the committee under Rule 6 were Canon M. A. Dodds, Rev. R. L. B. Oliver and Mr. J. H. W. White. Mr. Oswald J. Hunt was reappointed auditor.

Bulkington, Shilton, Castle Bromwich and Fillongley were proposed for the May and June monthly meetings, Fillongley being selected for May, and Shilton for June.

The Rev. R. L. B. Oliver brought forward the need for instructors in several towers, and hoped something would be done towards this end. A long discussion followed, and eventually a resolution was carried, asking the committee to go into the matter with a view to something being done.

Mr. H. Argyle moved a hearty vote of thanks to the retiring secretary for his services during the past 4½ years.—Mr. O. J. Hunt seconded, and the motion was carried.—Mr. A. Wilkerson suitably replied.

Ten new members were duly elected.

A convivial gathering took place in the evening, arranged by the St. Andrew's Society, and was much enjoyed, the thanks of the members being expressed to the Rugby men for their kind hospitality.

Included in the ringing on St. Andrew's bells was a course of Bristol Surprise, this being the first in the method on the bells. A. W.

### THE SUFFOLK GUILD.

The annual Easter meeting was held at Ipswich, and there was a crowded attendance, besides many who kept to the towers for ringing only. Archdeacon Farmiloe was in the chair, as well as preaching at the service at St. Mary-le-Tower, to a good congregation.

The statement of accounts, and the report of the committee, showed that the Guild is doing well, both in finances, and in spreading the art of change ringing.

The Ringing Master (Mr. Chas. Sedgeley) reported that he had started a book of compositions, to record them as rung each year. At his suggestion it was decided to give up attempting to give the figures in the Report of the peals rung by members for other associations, as such figures could not be kept correctly.

It was decided to publish a list of instructors in the report; also to fix the subscription for honorary subscribers at 2/6 a year only. Owing to the unfortunate advice given by the Advisory Committee of this Diocese, it was decided to ask them not to advise about bells or towers without first consulting an expert ringer.

Mr. Sedgeley reported that the new certificates were about to be printed, and the Chairman said he was hoping they would be a great success from what he had seen of the proofs.

A number of new members were elected, and several fresh places for future meetings decided upon.

A company of ringers from Leytonstone were present, and many methods were rung in the different towers during the day. Owing to the proximity of the two principal towers in Ipswich (St. Mary-le-Tower and St. Margaret), a time-table of alternate half-hours was arranged, so that they should not be ringing together. This seems to have been appreciated by listeners, especially those who were in the closely inhabited part lying near to the two towers.

**THE NORFOLK GUILD.****SUGGESTED CHANGE OF DATE FOR ANNUAL MEETING.**

The general meeting of the Norfolk Guild was held at Aylsham on Easter Monday, when, by kind permission of the Vicar (the Rev. Charles A. Manley), the ring of ten bells at the Parish Church, and, also, by permission of the Rector of Marsham (the Rev. A. J. Crawford), the ring of eight bells at Marsham were placed at the disposal of the members.

The luncheon was served at the Black Boys Hotel, at 1.30 p.m., the president, the Dean of Norwich, presiding, supported by the Rev. C. A. Manley, and the following members of the committee: Messrs. C. E. Borrett (vice-president), A. L. Coleman (secretary) and W. L. Duffield, and representatives from Aylsham, Fakenham, Loddon and Norwich.

The toast, 'The King,' was proposed by the president, and duly honoured.

The business meeting followed.

On a motion, moved by the secretary (Mr. A. L. Coleman), the following members were elected: The Rev. Charles A. Manley, Vicar of Aylsham, hon. member; Messrs. John E. Brown and Hanbury F. Carter, of Northrepps, performing members. The following belfry elections, prior to peals rung, were also ratified, viz.: Messrs. Shirley Burton, of Leicester, hon. member (non-resident), and Ernest Risebrow, of Northrepps, performing member.

The Secretary moved that Mr. Cyril L. Hewitt be appointed district secretary for Thetford, in the place of Mr. Herbert Mason, who had resigned on leaving the district, and to whom a vote of thanks was passed for his past services.

The Secretary gave notice that he would move the following motion at the next general meeting of the Guild, viz.: 'That in future the annual general meeting of the Guild shall be held on Easter Monday in each year.'

A general discussion took place, and it was decided not to take any definite steps at this meeting, but leave the matter over until the Whit Monday meeting, in view of the fact that the secretary was issuing a leaflet on this particular matter, with the annual reports about to be sent out, in order to give all members the opportunity to express their opinion by sending in their signatures to the secretary, either collectively, through their Ringing Masters, or individually, or on before Whit Monday next.

The Secretary read a letter from the Ringing Master of St. Peter Mancroft Guild (Mr. G. P. Burton), saying that the St. Peter Mancroft bells were to be reopened at a special service on Sunday, April 19th, and that the bells would be available for ringing in the afternoon of the same day from 4 to 6 o'clock, when members of the Norfolk Guild and other visitors would be welcome to take part in the ringing.

Mr. C. E. Borrett moved, and Mr. A. L. Coleman seconded, that the Whit Monday meeting be held at Norwich on June 1st, when, by kind permission of Canon F. J. Meyrick, the ring of twelve bells at St. Peter Mancroft would be placed at the disposal of the members.

A vote of thanks was passed to the Vicar of Aylsham and the Rector of Marsham for the use of their bells. The meeting then closed, and the members adjourned to the belfry for more ringing until the evening.

**BARNSELY & DISTRICT ASSOCIATION.**

A monthly meeting was held at Penistone on Saturday, April 18th, when members and visitors attended from Anston, Barnsley, Bolveston, Ecclesfield, Darfield, Hoylandswaine, Wath, Horbury, Hands-worth, Wortley, Worksop, Shelley, and members of the local company. The bells were set going at 3 p.m. Plain Bob, Treble Bob, Double Norwich, Stedman were freely practised, and a short business meeting was held in the ringing room.

The Vicar of Penistone presided, and the ringers of Shelley made a successful claim to enter for the annual cup contest. This band of six members and two from Bolveston were duly elected, and welcomed as new members.

Cawthorne was unanimously chosen for the next meeting, on May 15th. A vote of thanks was passed to the Vicar, churchwardens, and the local company for the excellent arrangements.

**BOYNE HILL RINGERS' OUTING.**

The ringers of All Saints', Boyne Hill, held their outing on Easter Monday, and visited Bradfield, Bucklebury, Beenham and Aldermastop, where touches of Stedman, Grandsire, Kent, Bob Major and Superlative were rung, the conducting being shared by Messrs. G. Martin, A. Martin and J. Eldridge. A most pleasant and successful day was spent, and the ringers wish to thank the Vicars of the respective towers, also the local one, for their kindness.

**BEDFORDSHIRE ASSOCIATION.**

As is usual, the annual meeting of the Bedfordshire Association was held at Bedford on Easter Monday, and proved a very pleasant and successful gathering. Members and friends made good use of the bells of St. Paul's and St. Peter's Churches from an early hour, and visitors from London, Cambridge and Northants being present during the day. One of the most pleasing features was the number of the younger members of the association who were present, which was very encouraging to the officers.

The luncheon was held at the Silver Grill, and was followed by the business meeting, presided over by Canon W. W. C. Baker (president), supported by Mr. E. Ransome (who, in spite of his 83 years, still takes a keen interest in the affairs of the association, and who has been absent from very few meetings during the whole of the association's existence), Miss E. Steel and Mr. Cyril Herbert, vice-presidents, and Mr. E. P. Duffield, a former secretary.

The annual report and accounts were passed, a balance in hand of £27 4s. 11d. being shown.

The Rev. Canon Baker was re-elected president, on the proposition of Mr. E. Ransome. The vice-presidents the hon. secretary and auditor were also re-elected.

A hearty invitation from the president to hold the summer meeting at Southill was accepted, Canon Baker remarking that, although he had only six bells, he had a nice shady garden, where the members could enjoy themselves with handbells, etc.

Bedford was again selected for the annual meeting in 1926.

A vote of condolence was passed to the Rev. G. Buck, Rector of Turvey, who, owing to a family bereavement, was unable to be present, and to the relatives of Mr. Cooper, a ringing member, who had recently passed away, members showing their sympathy by silently standing.

The following new members were elected: Messrs. W. G. Church (St. Paul's, Bedford), L. Brown, J. Faulkner, A. Hatton, G. Dilley, H. Slater, H. Sherman (Southill), and C. Matthews and L. Tring, of Dunstable.

The meeting closed with hearty votes of thanks to the incumbents of St. Paul's and St. Peter's Churches for the use of the bells, and to the chairman for presiding.

Members then dispersed to the towers for further ringing, which ranged from rounds up to Cambridge Surprise Royal on the ten, and from Bob Major up to London and Bristol Surprise at St. Paul's, while a number of six bell methods were practised at St. Peter's.

**CLEVELAND & NORTH YORKSHIRE ASSOCIATION.**

The Easter meeting was held at Richmond (Yorks) on Bank Holiday, when members attended from Middlesbrough, Tadcaster, Darlington, Saltburn, Ripon, Whitby, West Hartlepool, Newcastle, Ormesby, and the local company. A meet of foxhounds in the market place was a picturesque event, which took the attention of the ringers until horses and hounds moved off to the coverts. The ringers then found their way to the belfry, and took part in some very good ringing until 1 p.m., when a halt was called for dinner, served at the hotel known as Bishop's Blaze. The tables were beautifully laid out, and a company of 43 sat down to a good old Yorkshire fare. The dinner was presided over by Mr. Morton (Richmond), in the absence of the president (the Rev. A. Simpson). The toast of the King and Royal Family was honoured, and a vote of thanks was passed to the Rector and churchwardens for the use of the bells, also to Mr. Morton for presiding, and to the Rector for his address to the ringers later in the afternoon.

Several new members were elected, and this concluded the business.

Afterwards some wended their way back to the church to take part in more ringing; others went to see the beauties of Richmond until 4 p.m., when a short service was held, at which the Rector, the Rev. Canon Leigh, gave the address.

Later, further ringing took place, the methods rung being Grandsire and Stedman Triples, Bob Major, Kent Treble Bob and Double Norwich Major.

**AN ACTON PEAL BOARD.**

Mr. J. W. Fruin has generously presented a peal board recording a peal rung at Acton on March 11th. The board is lettered in gold on a black surface. At a little gathering the other day, Mr. Robert Holloway, in thanking Mr. Fruin for his gift, on behalf of the band, said it was particularly 'sporty' of him, as it was very little ringing he obtained, owing to the new Rector creating 'a certain amount of liveliness down below.' However, any moment he had to spare Mr. Fruin was with them in the belfry. Miss Harcastle also thanked Mr. Fruin on behalf of the ladies who took part.

Afterwards a quarter-peal of Kent Treble Bob Major was rung by the band standing exactly as in the peal: Miss Hawksworth 1, Miss Orr 2, Miss Harcastle 3, Miss Chapman 4, J. W. Fruin 5, H. Win-cote 6, Robt. Holloway 7, Robt. Fardon (conductor) 8.

## SUNDAY SERVICE TOUCHES.

### A GREAT CARILLON.

The completion of the world's greatest carillon this week at the Croydon works of Messrs. Gillett and Johnston is a triumph of British bellfounding. The firm obtained the contract in competition, not only with other firms in this country, but with founders on two continents. The fact that they were able to compete thus successfully against all comers was naturally a matter of gratification to the firm, but the fact that they have produced such a magnificent set of bells as the fifty-three which are shortly to be dispatched to New York is a matter of which Messrs. Gillett and Johnston may be justifiably proud, for in this undertaking they have fully upheld the reputation which the leading firms of English founders have maintained over a long series of years.

The carillon is continental in its origin, and, except that the bells are the medium of making music, has nothing in common with our English method of bell ringing. In this respect, therefore, it may be said to have little claim upon our attention, as the interest of ringers in this country turns to bells rung in changes. And yet the carillon should make an appeal to all those who love bells. The music of the carillon is a delight to the ear, and it is bell music—bells used in a way to which we are not yet accustomed in this country, nevertheless producing very beautiful music which must appeal to the artistic sense of us all. In the hands of such a master as M. Denyn, who performed at Croydon this week, the carillon has an appealing, thrilling grip, and one no longer wonders at the hold which this form of belfry music has upon the people of those old Flemish cities which is the natural home of the carillon.

But from the ringers' point of view there is another side to the question. While our founders are casting these carillons—and they are doing so in increasing numbers, for it is recognised abroad as well as at home, that they have, through Canon Simpson's researches, regained the art of tuning which was the secret of the old Flemish founders of three centuries ago—they are increasing their experience in an important branch of their craft and adding to their knowledge. Moreover, it enables them to maintain the efficiency of their factories, and is an inducement to install the most modern plant. In all these directions, therefore, they are benefiting ringers, because they can produce church bells of improved quality. Incidentally, too, it adds to the employment available for men in a craft that is all too limited in its scope, and the future development of the carillon may serve to keep together men and

plant in any time of temporary slump that might come in the demand for church bells. Happily the outlook at present shows no likelihood of a falling off in the demand for church bells, but carillon making will in the future undoubtedly be an important adjunct to the business of our English bell foundries.

## ST. MARTIN'S GUILD, BIRMINGHAM.

### KING'S NORTON—PAST AND PRESENT.

The spring meeting of the St. Martin's Guild for the Diocese of Birmingham was held on Saturday week at King's Norton, when full use was made of the most excellent new ring of eight put in by Messrs. Taylor and Co. about 12 months ago.

For many years King's Norton has been a centre of good ringing, and it was here that the record peal of London Surprise Major (14,112 changes) was rung in 8 hrs. 40 mins. on May 11th, 1903.

On this occasion the redoubtable Harry Withers distinguished himself by remaining in the vicinity of the church throughout the peal, taking down every course end as it was rung, and recording the calls as they were made.

Here, also, the Pritchett family was much to the fore for many years, filling the positions of churchwardens, sidesmen and ringers, but, alas! the only one now actively interested in the art is Alderman J. S. Pritchett, the Presiding Ringing Master of the St. Martin's Guild.

'Change and decay in all around I see,' sang H. F. Lyte in his well-known hymn, but although there have been many changes, there is certainly no sign of decay, so far as ringing is concerned at King's Norton.

Indeed, quite the contrary. The old bells were not by any means a bad peal, but the idea of recasting them and putting in a new peal which should be as near perfection as possible was seized upon with enthusiasm, and pushed to a successful conclusion without delay.

The King's Norton men have formed a local Guild, called 'The St. Nicholas Guild,' and are to be congratulated on the fact that they enjoy the sympathy and practical help of such men as Mr. Frank Yates, a company director, and keen Churchman, who is Presiding Ringing Master, and Mr. W. E. Moore, schoolmaster, who acts as secretary. Both these gentlemen are determined to master the intricacies of the art, and the former has already scored his first peal—Bob Major—this being also the first peal on the new bells. The conducting is in the capable hands of Mr. P. O. Luffin, and it may be that, in the not very distant future, two trebles will be added, making what would then be a magnificent light peal of ten.

Tea was provided in the quaint old half-timbered building known as the 'Old Grammar School,' and it is to be regretted that only twenty-seven members turned up, whereas provision had been made for forty.

Those present, however, realised their responsibilities, and as the result of a bold frontal attack the weight superimposed on the tables was quickly and more or less silently reduced.

The Vicar was present at tea, but apologised for not being able to stay to the meeting which followed, and at which the chair was taken by Mr. Alderman Pritchett.

The Chairman referred in feeling terms to the loss the Exercise as a whole had sustained by the death of Mr. Wm. Rock Small, which took place on April 4th, as already recorded in the 'Ringing World,' and all present stood for a few moments in silence as a last tribute of respect to his memory.

Mr. Pritchett then said they would all wish to be associated with congratulations to Mr. and Mrs. Tom Russam on the occasion of their golden wedding, which happy event was celebrated a few days previously. Unfortunately, owing to indisposition, Mr. Russam was not able to be present, but they wished him a speedy recovery, and long life and good health to himself and Mrs. Russam for many years to come.

Votes of thanks were accorded to the Vicar for the use of his bells and the ancient room in which the meeting was held; to Mr. Yates, Mr. Moore, and the other local men for the substantial tea they had very generously provided, and to the ladies—most of them ringers' wives—who so kindly and ably waited at table.

Afterwards the tower was re-visited, and ringing in various methods indulged in until 'The shades of night were falling fast,' when some made tracks for home, and others ———— A. P. S.

## HERTS COUNTY ASSOCIATION.

### MEETING AT SAWBRIDGEWORTH.

A meeting, which proved a very enjoyable one, was held at Sawbridgeworth. The Rev. A. Rust (curate), himself a ringer, and late of the Bedfordshire Association, welcomed the company, on behalf of the Vicar, and gave a very helpful address at the service. Twenty-six sat down to tea, and members were present from various centres in East Herts, besides several welcome visitors from Essex and Cambridgeshire.

Some good practice was put in, and a helpful time was spent, not the least pleasing feature of the meeting being the re-electing of the old members of the Sawbridgeworth band and several new ones, bringing up the number to nine, including Mrs. Rust, who has also done some ringing. Although she has not taken part as yet in any ringing at Sawbridgeworth, she hopes to do so.

## A RINGER IN THE FAR EAST.

### A SUGGESTION FOR THE JOHNSON DINNER?

Mr. Joseph E. Sykes completed his long journey to Dairen, Manchuria, on March 20th, and he tells us, on the first of a series of interesting postcards which we have received from him, that he found his copy of 'The Ringing World' of February 6th awaiting him. He asks us to thank those friends of his who rang a farewell peal for him.

On the way out he visited Marseilles, Port Said, Suez, Colombo, Singapore, Hong Kong, Shanghai and Tsingtao, so that he had had a busy—and doubtless an interesting—time.

On his arrival, so another card tells us, he spent a day visiting Port Arthur, and saw the ruins of the forts wrecked in the Russo-Japanese War, and the three wonderful museums, in one of which he came across bells which were made in the reign of K'un, more than one thousand years ago.

On the night he reached Dairen, he dined with eight Japanese at the best Chinese hotel in the country of Manchuria. The menu consisted of sea slugs, birds' nest soup, shark's fins, eggs that had been buried for three years, stuffed cuttle fish, roast goat, and cold roast yak, washed down with saké. He went home in a Sedan chair, slung on poles between the shoulders of two coolies, 'and,' he adds, 'woke up living, so Yorkshire Glory must be good to train on.'

The meal was eaten with chopsticks, and 'Uncle Joe' says he would give a note to see a Johnson dinner eaten in like manner.

We imagine he did not cut too good a figure at it, either, at the first time of asking. It is probably easy to miss a bob in such an operation, and, personally, had we been at that dinner in Dairen we should have been inclined to miss several whole courses.

## DEATH OF MR. WILLIAM TANNER.

### AN ORIGINAL MEMBER OF ST. PAUL'S CATHEDRAL BAND.

We regret to record the death of Mr. William Tanner, a well-known College Youth, who passed away on Tuesday, March 31st, at 68, Oakfield Road, East Ham, at the age of 76 years, after a brief illness, although he had not enjoyed his usual good health for some time. Born at Romsey, Hants, he came to London as a boy, and commenced his long ringing career at St. Dunstan's, Stepney, and St. Paul's, Shadwell, being the leader of the Sunday Service ringers at the former church at the time of his death.

Joining the Ancient Society of College Youths in 1859, Mr. Tanner was elected to the chair in 1881, and took part in the first peal on the bells of St. Paul's Cathedral on December 10th the same year. Mr. Edwin Horrex is now the only surviving member of the band who rang this historic peal. Mr. Tanner was elected into the original band formed to attend to the service ringing at St. Paul's Cathedral, and continued as a member for many years, but eventually resigned his position for domestic reasons.

Although he did not conduct any peals, he had a great reputation for clean and accurate striking, and took part in many fine performances in the early part of his career, his last peal being on the treble at Stepney to Stedman Caters a few years ago.

It was characteristic of Mr. Tanner that he should have remained with one firm the whole of his time, being employed by Messrs. J. Hodgson and Sons, of Upper Thames Street, E.C., envelope manufacturers, from the time he started work until a year or two ago, when he retired on a pension.

The funeral took place on April 7th, at Woodgrange Park Cemetery, and in addition to the relatives there were present a number of friends, and one of the principals of his old firm.

The Ancient Society of College Youths were represented by the following: Mr. W. T. Cockerill (secretary), Messrs. C. F. Winney, T. Benney, T. Langdon, H. R. Pasmore and E. Fenn, and a course of Stedman was rung on handbells over the open grave. The same evening the whole pull and stand was rung at St. Dunstan's, Stepney, by the following members: C. F. Winney, T. Benney, W. Rushon, C. W. Roberts, J. F. Small (Derby), T. Langdon, A. R. MacDonald, R. F. Deal, J. Bullock, H. Langdon.

## SOCIETY FOR THE ARCHDEACONRY OF STAFFORD.

A quarterly meeting was held at Shenstone on April 25th, with a very fair attendance of members. Service was held in church, at which an interesting address was delivered by the Vicar (the Rev. E. Molloy). A capital tea was provided in the Parochial Hall. The thanks of the meeting were extended to the Vicar for his address and the use of the bells, to the organist and choir boys, and to the ladies who prepared and served tea.

A vote of condolence with the relatives of the late William Benton, of Cannock, John Bradney, of Wolverhampton, and William Rock Small, of Tipton, was passed, by members standing.

Provided the date is a suitable one to the local authorities, the annual meeting will be held at Lichfield on June 27th.

**WINCHESTER AND SALISBURY GUILDS COMBINE.**

A well-attended combined practice was held by members of the Winchester and Salisbury Guilds at Ringwood Parish Church, on Saturday, April 25th, when the peal of eight bells were kept going to Grandsire, Stedman, Plain Bob, Kent and Double Norwich, in which methods some good touches were rung. Cambridge was also attempted and lost in the last lead, this being the first attempt in the method on eight bells by three or four of the members, but further practice in this method was stopped, as the bells had to cease, first for a service, while illness close to the church prevented any resumption. At 5 o'clock, the members retired for tea, to which 25 members sat down.

It was very pleasing to have the presence of Mr. G. Williams, Master of the Winchester Guild, also of Mr. G. Pullinger (general secretary), and Mr. F. W. Rogers, secretary of the Portsmouth branch. Other members present came from Poole, Bournemouth (St. Peter's), West Bourne (St. John's), Wimborne, Lytchett, and one enthusiast (Mr. Chute) cycled 35 miles from Buckhorn Weston. The Rev. C. Cox, of West Moors, and Mr. Martin Stewart, of Ferndown, Dorset, were also present, together with a few members of the local band.

A course or two of Grandsire Triples, on handbells, double-handed, brought the ringing to a close.

**ISOLATED WELSH TOWERS.**

On Easter Monday, eight members of the St. John's Guild, Portmadoc, went on a ringing tour, and touches of Kent and Oxford Treble Bob, Plain Bob, Grandsire Triples and Stedman were rung on the bells of Dolgellay, Machynlleth, and Llanbadarn (Aberystwyth) Churches during the day. The bells at the last named church have recently been rehung on roller bearings, the 'go' being excellent. The bottom six are by Rudhall, tenor 17½ cwt.

No change ringing is being practised at these towers at the present time, but the local ringers, who were present, showed a keen interest in the ringing, and could no doubt be induced to take up change ringing if instructors were available. These towers are, however, situated an appreciable distance from towers affiliated to the North Wales Association, so that anything in the nature of regular practices or tours are impossible at the present time.

**OXFORD DIOCESAN GUILD.****F. BERKS AND S. BUCKS BRANCH RECOVERY.**

The annual meeting held at Marlow, on Saturday week, will remain fresh in the memory of the large number of members present from more than a score of different towers for many years. The wonderful recovery of the branch speaks well for the loyalty of those members who bent their backs to the strain, and with one strong effort have practically placed it back in its former premier position.

At the service the choir was augmented by members from Stoke Poges and Cookham, and an interesting, instructive and most appropriate address was given by Dr. Batchelor, of Cookham, on the text, 'Whatsoever thy hand findeth to do, do it with all thy might.' The preacher's enjoyment of the ringing had previously led him to the belfry, where he expressed his appreciation to all present. The kindness of the Master (the Rev. C. W. O. Jenkyn) was evident in his bringing a large number of service books for use.

The arrangements for tea were left in the hands of Miss Spearing, sister of the Vicar, Mr. H. Collins, and the wives of the local ringers, the local caterers having refused to undertake the task. An excellent peal, in comfort, was the result, to which some fourscore persons did justice.

The business meeting followed, and, after clearing up some arrears of minutes, the election of 45 new members was confirmed.

The statement of accounts was accepted, the balance of £5 5s. 4½d. in hand at December 31st, 1924, being noted with approval.

The Secretary then gave a few interesting details of 16 towers visited in five months. The total number of members in the branch is now 399. He also gave the amount of subscriptions received to date.

The sum of £2 2s. was voted to the Washbrook Memorial, and it was also decided to pay for the tea at this meeting out of the funds.

The following officers were elected: President, Bishop of Buckingham; vice-president, Dr. Batchelor; chairman, Rev. W. S. Riddelsdell; secretary and treasurer, Mr. A. D. Barker; branch representatives, Mrs. A. D. Barker, Messrs. F. Boreham, T. J. Fowler, G. H. Gutteridge, G. Martin, J. L. Kirk, C. C. Mayne and J. Truss.

The meeting closed with votes of thanks to those persons directly connected with the arrangements, and the bells were kept going in various methods until 9 p.m.

## BELFRY GOSSIP.

The death occurred at Beddington, Surrey, on Monday, of Mr. Charles W. Gordon. The deceased ringer, who was 73 years of age, had been suffering for the last six years from heart trouble and asthma. He was the sole survivor of the band that opened Beddington bells in 1869.

The footnote to the peal of New Cambridge Major, Eccleston, published last week, is withdrawn, as the first in the method in the county was rung at Pulford in 1907, conducted by the late Bertram Prewitt.

At the Ladies' Guild meeting, at Hillingdon on Saturday, a touch of Stedman Triples was rung for the first time by four husbands and wives. These were Mr. and Mrs. Rupert Richardson, Mr. and Mrs. Frank Hairs, Mr. and Mrs. R. F. Deal and Mr. and Mrs. Amos Clark—a band good enough for a good peal.

On May 10th, 1777, 10,200 Treble Bob Royal was rung at Shoreditch in 7 hours 40 minutes by the Royal Cumberland Youths.

Exactly two years later a peal of 12,240 Bob Major was rung at Braughing, Herts, in 7 hours 34 minutes by the Braughing Youths. There is a board recording the peal which says: 'It was long each man did stand, with zeal and ardent union performed the peal.'

Twenty-two years ago next Monday the record peal of London Surprise Major was rung at King's Norton, and a reference to this performance will be found in the report of the St. Martin's Guild meeting at this place.

Mr. Richard Newton, of Boston, U.S.A., is on a visit to this country, and on Sunday morning rang the 11th to one touch of Stedman Cinques, and the tenor to another at St. Martin's, Birmingham.

A 'ringing week' in the North of England is suggested for June 20th to 27th (inclusive), and a welcome is offered by members of the Northern British Association. The date coincides with the annual holidays and racing week up North, when special cheap railway return tickets are available from Birmingham and London to Durham and Newcastle. London and district ringers who are at liberty that week should get into touch with Mr. W. H. Fussell, of Slough, if they wish to take part in the tour.

Another record gone! Owing to her mother being too shy to respond to a vote of thanks for providing a tea at the recent meeting at Milton-next-Gravesend, a little girl, not yet two years old, deputised, by standing on a table, and responding with 'Ta!' She must be the youngest speaker at any ringers' meeting.

The annual meeting of the Sussex County Association is to be held on Saturday. Will there be a representative to the Central Council elected, or will the association continue to be the only large body of ringers unaffiliated to the central organisation?

An alarming accident occurred at Banstead, Surrey, on Palm Sunday, when ringing for evening service was in progress. On inspection it was found that the 5th bell had broken from the crown, and the bell was lying in the pit, the crown still being bolted to the stock.

The bells are only four years old, and are tuned on Canon Simpson's principle. In order to put things right, it is estimated it will cost the church authorities over £80.

The first peal of Minor on the bells at Queen Camel, Somerset, was rung on Saturday. The tenor is approximately 37 cwt., and the peal took more than three and a half hours. Although used to some fairly 'hefty' jobs, the conductor is in no hurry to ring the tenor to another peal of Minor.

Warwickshire ringers in particular and the Exercise in general, will deeply sympathise with Mr. Abraham Wilkerson in the death of his wife. Mr. Wilkerson has just given up the hon. secretaryship of the Warwickshire Guild, after discharging the duties with ability and enthusiasm for several years.

The ringers of St. Mary's Church, Stafford, are anxious to compile for their belfry a record of the peals rung on the bells before the year 1900, other than those rung by the Society for the Archdeacons of Stafford, the records of which are readily accessible. Will ringers who are able to supply information kindly send it to Mr. F. V. Haggis, 124, Corporation Street, Stafford?

## 'MASONIC' HOLIDAY PEALS.

To the Editor.

Dear Sir,—Perhaps, among the readers of the 'Ringing World', even at this early period, there are some already making holiday arrangements.

If any brother Masons are contemplating a holiday in the neighbourhood of Bath during the month of August, I shall be pleased to arrange a peal for those who desire one.

In anticipation of receiving sufficient replies to make it a 'Masonic' peal, I am making application for the use of the beautiful bells of Colerne Church.

Will those who reply to this kindly give the approximate date of their visit.—Yours truly,

15, Westgate Street, Bath, Somerset.

## A TRIUMPH OF BELL FOUNDING.

## WONDERFUL CARILLON FOR NEW YORK.

The magnificent new carillon which has been cast by Messrs. Gillett and Johnston at their Croydon Foundry, for the Park Avenue Baptist Church, New York, is now complete, and is to be shipped about the end of the month. A large number of visitors have this week had the privilege of inspecting the carillon in the foundry, and of hearing something of its wonderful musical qualities.

This carillon is the largest, both in point of number and size, in the world. There are fifty-three bells covering four and a half chromatic octaves and the bass bell, which corresponds with low E, weighs approximately 9½ tons. The bells run up the scale to high A, a tiny casting of only 15 lbs. Of the lower bells, the bottom twelve range from one ton upwards, and the total metal in the carillon is about fifty tons. The diameter of the smallest bell is 7 inches, and of the largest 98 inches, the hammer used on this bell being twice the diameter of the smallest bell itself, viz., 14 inches. Some idea of the size of the other large bells may be gauged by the fact that the diameters of those next the bass are 87 inches (weighing something over six tons), 81, 76 and 72 inches respectively. Each bell bears the founders' names and date, but only the bass bell has any other inscription. Round the shoulder are groups of figures, and beneath them the text, 'O ye Angels of the Lord, bless ye the Lord, praise Him and magnify Him for ever.' On the waist is inscribed:—

In loving memory of my mother, Laura Spelman Rockefeller, 1839-1915, whose gentle and kindly spirit and steadfast devotion to Christ and His cause will ever be an abiding inspiration, this carillon is given. John D. Rockefeller, junior, Anno Domini 1925.

Of the bells themselves we cannot speak too highly. They are, of course, tuned on the five-tone principle, which is a rediscovered art. Three hundred years ago this method of tuning was known to the founders of the Netherlands, and among the best examples were the bells of Hemony. In the course of the centuries the art was lost, but Canon Simpson, after years of investigation, once more introduced the principle which all British founders have now adopted in more or less modified form. In the case of this great new carillon, Messrs. Gillett and Johnston have tuned these bells strictly to the five-tone Simpson principle, and to the International Pitch. They are also tuned accurately to the tempered scale, so as to enable the carillonneur to modulate from one key to another at will, without any danger of consequent discords. As far as it is humanly possible, Messrs. Gillett and Johnston have produced a perfect carillon. The greatest technical difficulties presented to the founder are to be found in the small bells, but under the hands of an experienced carillonneur the beauties of the little bells in this wonderful set are really striking. At the other end of the scale, the magnificent bourdon bells are like the deep diapason of a great organ, and the middle bells fully maintain a notable consistency in the whole carillon.

When the bells reach New York, they will be erected in the tower of the Park Avenue Baptist Church, which is about 150ft. high. The interior of the tower is only 12 feet square, and 45 of the bells are to be fixed in three tiers, while the eight largest bells are to be hung in a separate massive frame in a campanile built specially for the purpose over the existing tower. This structure is supported by the extension of the columns now supporting the roof of the church. The tower is a beautiful Gothic structure, designed by one of America's most famous architects, Mr. H. C. Pelton. Indeed, the placing of the carillon in this tower has necessitated concerted action between architects, engineers and founders, and no pains have been spared by the best brains of America in the world of architecture, engineering and music, in collaboration with the bell founders, to make the whole project the most magnificent of its kind in the world. The bells will be operated by a keyboard—there will be no mechanical appliances—and this clavier has been evolved after careful study of all the principal ones on the Continent, and has many novel features—the outcome of ideas originated by Mr. Mayer and M. Brees, in conjunction with Messrs. Gillett and Johnston. It is possible that it may be aimed at as a standard in America, thereby facilitating the work of carillonneurs visiting a strange tower to give a special recital.

The bells have been erected in their frames in the foundry, and on Monday they were played for the first time to a company representing the press of these islands and America and numerous other visitors. Everyone admired the graceful lines of the bells, and to those with a critical eye it was obvious that the frame (designed by the founders) was a very fine engineering job. The construction is of steel girders and weighs about 50 tons, so that bells and frame together weigh one hundred tons.

To demonstrate the bells M. le Chevalier Jof. Denyn, carillonneur of Malines, and Principal of the Belgian National School of Carillonneurs, came specially from Belgium to perform. Foremost among the world's carillonneurs, M. Denyn gave two programmes, to the intense delight of the many listeners. His first piece was an improvisation, in which he gave his audience the opportunity of at once appreciating the quality of the bells, a rippling, sparkling play upon the higher

notes, with a soft background provided by the middle bells, and punctuated by the majestic tones of the bass. Played by a master hand, the music was entrancing, and when he concluded with a gentle touch upon the nine-ton bottom bell, it seemed almost minutes before the last deep hum of the musical chord in this one bell died away.

Following this came 'Le Barbier de Seville Cavatine' (Rossini), a beautiful composition, entitled 'Ave Maria,' written by M. Denyn himself, and a spirited rendering of 'Rule Britannia.' Needless to say, in these pieces, the artist brought out the full glories of the carillon, and at the close was thanked by Mr. Cyril Johnston, on behalf of the company.

Through the medium of M. Denyn's courteous secretary, our representative had a few minutes' interview with the great but genial carillonneur.

Asked how this carillon compared with the greatest in his own country, M. Denyn said the best in the Netherlands were undoubtedly those by Hemony, but his work did not excel this new carillon, which he considered the finest in the world. Hemony's carillons did not include such small bells as the smallest of those that are going to New York, and that great founder had acknowledged, in letters still extant, that it was the small bells which were the most difficult to perfect.

M. Denyn has heard or played on practically all the great carillons of France and Flanders, and there is no better judge in the world. Messrs. Gillett and Johnston may, therefore, be proud of this latest and greatest product of their foundry, and New York will doubtless be equally proud of its new possession, which has been made possible by the munificent donation to the Park Avenue Baptist Church from Mr. J. D. Rockefeller, junr., in memory of his mother.

M. Anton Brees, carillonneur of Antwerp Cathedral, has been appointed carillonneur at New York.

In addition to this carillon, Messrs. Gillett and Johnston have in hand, also, an exactly similar one for the new Parliament House, at Ottawa, for the Canadian Government, and they have other carillons in hand for Canada and Holland.

Recitals at the Foundry have been given each day this week by well-known Continental carillonneurs, there having been a special one on Wednesday for the Worshipful Company of Clockmakers, and another is arranged on Sunday afternoon for the Worshipful Company of Musicians.

## NORBURY, CHESHIRE, TO HAVE EIGHT BELLS.

## PART OF A GREAT RESTORATION SCHEME.

The Norbury (Cheshire) Church Council, after careful thought, have decided to accept Messrs. Taylor and Co.'s tender of £784 for the restoration of the church bells. The scheme comprises recasting the present 1st, 2nd, 5th and 6th, with the addition of four new bells to complete the octave, the approximate weight of the new tenor to be 13½ cwt. Those of an antiquarian turn of mind will be pleased to know that the old 3rd and 4th, which were cast in 1617 by Oldfield, are to be preserved, and will be placed in the church to form the nucleus of a bell museum.

The recast ring will be hung in a cast-iron frame, built on stout steel supporting girders.

The church authorities are carrying out a large general scheme of restoration, of which the bells form a part, and which will cost over £5,000. They deserve no small praise for their enthusiasm and determination, and set an example which might well be copied by other churches. Only something like £600 needs now to be raised, and it is hoped to have this by the time the bells are completed. The ringers are giving one bell.

The entire scheme, work on which was commenced in December, comprises new chancel, new roof, electric lighting, reseating galleries, rebuilding organ, decorations, pointing whole of fabric, including inside of tower, drainage of churchyard, the bells, and 14 new windows. A great undertaking for a working-class parish.

## ANCIENT BELLS.

## To the Editor.

Sir,—With regard to Mr. Borrett's letter in your issue of April 10th, and the list of pre-Reformation bells in Norfolk, it should be stated that in no case does the date appear on the bells he mentions; although the dates he gives are correct as regards the periods at which the founders named carried on their business.

Among many other founders of ancient bells I may mention, Michael, Richard and Walter Wymshish, London founders, dating from 1297 to 1320. Also Robert Rider (or Ridre), another London founder, 1351 to 1386.

A full list of these and many other ancient and modern founders will be found in Mr. H. B. Waller's 'Church Bells of England.'—Yours, etc.,

J. R. JERRAM.

## SALISBURY DIOCESAN GUILD.

## A YEAR OF GOOD WORK.

The annual meeting of the Salisbury Guild is to be held next Tuesday at Dorchester. In anticipation, the annual report has just been issued, and shows that during the year 1924 nine peals were rung, compared with 17 in the previous year, and 14 in 1922. In other directions, however, the Guild has made progress, and financially had a successful year, the balance in hand having been raised from £55 10s. 7½d. to £66 17s. 8½d.

The Hon. Secretary, in his report, says: The great event of the year has been the formation of the North Dorset Branch out of the Wimborne Branch, which had grown to unwieldy proportions. This step had been projected for some years, and the difficulties involved had been fully stated and discussed. When at length the project was carried out, the result was such as to surprise even its most sanguine advocates. The new Branch came into being with an inaugural meeting at Sturminster early in the year, quarterly meetings at Shaftesbury and Kingston Magna were each attended by some seventy members and friends, and the first annual meeting was held at Sherborne, with an attendance of ninety. Best of all the secretary was able on that occasion to present a balance sheet with almost every subscription paid up, and before the end of December the Branch Report, with all subscriptions complete, was in the hands of the General Secretary. O si sic omnes!

Steady progress has been made in the various Branches. A good number of new towers have joined the Guild, and several young bands have received instruction in change ringing. In connection with the last annual meeting, it is recorded that the Guild, greatly to the regret of all, had to accept Major Hughes D'Aeth's resignation of the Mastership owing to his removal from the Diocese. His return from active service just at the time when the office was last vacant, proved a veritable godsend to the Guild. His keen Churchmanship and practical experience in change ringing combined with his mobility as a motor-cyclist to make him the ideal Master for reviving the activities of the Guild after the War and extending its work and influence. During his five years' tenure of office he has rendered signal service to the cause of the Guild, and his Mastership will leave its mark for a long time to come. During that period great progress has been made in the standard of ringing, two new branches have been formed, and the ancient use of the Peace Bell has been revived in a number of parishes.

At the same meeting it was resolved to respond to the invitation of the Dean and Chapter and endeavour to raise a sufficient sum to provide the oak panelling required for the Memorial Chapel in the Cathedral as a tribute to the memory of all those ringers of the diocese who sacrificed their lives in the war. The amount named in this connection was £200. So far only about 70 parishes have sent in their contributions, with a total of £40 10s. 5d. As the memorial is for the entire diocese, it is hoped that the rest of the parishes will not be content to stand aloof, but will come forward in support of the project without delay. The President, Master and Secretary of the Guild were present at the Consecration of the Memorial.

During the past year, death has removed from our list of life members the honoured name of James W. Washbrook, a veritable prince of ringers, whose fame will endure for ever in the annals of the Exercise. By the death of Lord Long of Wraxall, the Guild has lost one of its oldest supporters, whose association with it as an hon. life member extended over a period of thirty-seven years, and the nation one of the most eminent statesmen, a true patriot and the perfect type of an English gentleman. Just as we are publishing our report, we learn with regret that Sir Everard Hambro, another of our vice-presidents, has passed away in his eighty-fifth year. Many of us will cherish a delightful memory of the grand old veteran of Milton Abbey, whose genial hospitality was extended on a princely scale to a gathering of some two hundred ringers and friends at the reopening of the glorious church on his Dorset estate.

The following are points from the district secretaries' reports:—Salisbury Branch: There has been an improvement in the branch, but there is still room for a greater amount of individual interest on the part of members. St. Edmund's, Salisbury, has again joined the Guild with a strong band of ringers, and it is hoped that more towers will join in the coming year.

Devizes Branch: The attendance at the twelve branch meetings has been very good, an average of over 40 per meeting being recorded. Two towers have joined up during the year (Christ Church, Bradford-on-Avon, and Unarvon). There has been a steady increase in membership during the year, and the totals are now 20 hon. members and 226 ringing members.

Dorchester Branch: Much good work has been done and progress made, and the younger men are coming forward to learn the 'ancient art.'

Wimborne Branch: The year's work has proved conclusively the keenness of the branch and its abundant competence to carry on. The

branch is one of the smallest in the diocese (membership 97), but has the satisfaction as well as the responsibility of being well to the front in methods regularly practised or attempted. A feature of the year, in its last quarter, has been a scheme of combined advanced practices in various towers on their ordinary practice nights. These were only partially successful owing to weather, distance and shortness of time on an evening only. It has now been decided to hold them on the first Saturday afternoon and evening of each month, not already occupied by a quarterly meeting, and to adapt the practice to the requirements of the company present.

West Dorset Branch: Nine meetings were held (against five last year), and these have been better attended than those of last year. There is, however, still a tendency for some ringers never to leave their own tower. An experiment of holding evening meetings was tried, and proved successful, and their continuance is recommended. There is still much missionary work to accomplish.

North Dorset Branch: The branch was started on Feb. 16th, 1924. All the meetings have been well attended, and the first year is concluded with 167 ringing members, and 11 honorary members, representing 23 towers.

## SERVICES AT RINGERS' MEETINGS.

## To the Editor.

Sir,—While agreeing with Mr. Smallwood, re shelving business at an annual meeting, I do not think he is right in blaming the service. The fact that it is their service appeals to some ringers, and probably it is the first they have attended for many moons. Instead of the elaborate service, I think the elaborate luncheon could be cut—the time spent on it, or rather waiting for what portion may come your way, is wasted. I think the majority of members would rather have a meal. As to ringing facilities, there were available forty-six bells for a period of seven hours. So putting the attendance at 150, there were, roughly, 145 minutes per member, and the parson only had fifty. The mistake is made in trying to compress a certain amount of business into any stated time. Why not have the meeting later in the day, then we can deliberate all night?—Yours truly,

T. H. VALLANCE.

## ESSEX ASSOCIATION.

## NORTHERN DISTRICT'S SUCCESSFUL MEETING.

A very successful meeting of the Northern District was held on Saturday last at the ancient church of Belchamp St. Paul. This beautiful and well-cared-for building, dedicated to St. Andrew, and dating from the middle of the 15th century, with its elaborate carved benches in the chancel, upon which are the figures of a seated king and a monk (late 15th century), is situated upon an eminence about a mile from the village, and from which an extensive view can be obtained of the surrounding country, including five church towers. It is well worth a visit, and attracted a goodly number of ringers.

The bells are a musical light ring of six, which 'go' splendidly. The 4th is by Miles Grave, 1626, and the 1st and 2nd by Miles Graye, 1632. The peal was kept going during the afternoon and evening to various methods, from Rob Minor to Cambridge Surprise.

The ringers' service was conducted by the Vicar (the Rev. R. F. Flynn), Mrs. Offord, the wife of the leader of the ringers, presiding at the organ. The Vicar gave a most interesting address, upon the uses of bells right down the ages, starting from the bells upon the robe of the High Priest.

After the service, an adjournment was made to the schools for tea, the arrangements for which were supervised by Mr. G. R. Offord, kindly assisted by a number of ladies, who spared no effort in looking after the wants of the visitors.

The chair was occupied by the Vicar, who was supported by his wife, Mr. and Mrs. Offord, a lady churchwarden, Mr. C. H. Howard (Master of the Association), Mr. L. W. Wiffen (District Master), and Mr. W. H. Dyson (district secretary). There were 39 ringers present, representing the following parishes: Greenstead Green, Pentlow, Earls Colne, Belchamp St. Paul's, Great Yeldham, Glensford, Sible Hedingham, Cavendish, Halstead, Assington, Sudbury, Black Notley, Braintree, Foxearth and Maldon.

After tea, the usual business meeting was held, the District Master presiding, when nine new members were elected, six being from the local band.

Mr. C. H. Howard proposed a hearty vote of thanks to the Vicar for kindly allowing the use of the bells, conducting the service, and for his instructive address, to Mrs. Offord for presiding at the organ, and to Mr. Offord for making the arrangements for the tea.—This was seconded by the district secretary, and carried with acclamation. The Vicar and Mr. Offord suitably responding.

After some change ringing on handbells, the members dispersed, some for home, some to the tower for ringing, others going on to Gestingthorpe to ring there.

**KENT COUNTY ASSOCIATION.****ROCHESTER DISTRICT AT MILTON.**

The half-yearly meeting of the Rochester District of the Kent County Association was held at Milton-next-Gravesend, on Saturday, April 25th, and well attended. The bells were raised soon after three o'clock, and various methods up to London Minor were rung on this fine peal of six. At 5 o'clock the association service was held in the church, conducted by the Rector (the Rev. G. W. Mennie, M.A.), and Mr. H. Champion presided at the organ. The Rector took as his text, 'I was glad when they said unto me, We will go into the house of the Lord.' He welcomed the association to Milton, and said he was pleased to have their district secretary as leader of his band of ringers, the position he had held for the past 15 years. He spoke of the uses of church bells, and reminded the ringers to think of the words of his text, and having called others to the service on Sundays to join them in their worship of God.

The ringers, 42 in number, were afterwards entertained to tea in the Johnston Institute by the district secretary and Mrs. Mitchell, who had the valuable assistance of the lady ringers of the Gravesend tower, Miss D. Tall and Mrs. Quont, and their friends.

The business meeting followed, and, in the absence of the Rector, Mr. W. Harper (Swanscombe) was voted to the chair. One honorary member and six new practising members were elected, and on the question of the place of the next meeting, it was necessary for the chairman to give his casting vote to decide the tower, Rainham and Tunstall being equal in the voting. The bait of a 'free tea' at the latter place did not influence the chairman, and finding out that a meeting had been held previously at Tunstall, he decided on Rainham, and it was left to the secretary to fix a date in July. The secretary hopes, by the way, to arrange a day that will not clash with other district meetings, as on this occasion three were being held on the same day.

The District Secretary reported on the attendance at the annual meeting at Folkestone on Easter Monday, and said they would see by the 'Ringing World' the general secretary spoke on the apathy of several towers in not sending in their list of members. He was glad to say that the Rochester district had completed their list, but only on the day previous to the meeting. Other districts, however, were not so fortunate. It was not fair to the district secretaries, and the general secretary could not present a true report to the annual meeting.

He informed the members that a grant of £5 had been obtained from the benevolent funds of the association for Mr. George Hayes, owing to ill-health, and he offered the district's congratulation to their chairman on being re-elected people's warden at Swanscombe.—To this Mr. Harper briefly responded.

On the proposition of Mr. J. Burles, a hearty vote of thanks was accorded the donors of the tea, to the Rector for the use of the bells, and for conducting the service, and the organist for his attendance; also to the ladies who assisted with the tea.

Mr. Mitchell said his wife, to show her gratitude for keeping him at his 'home' tower, had proposed to find them tea, and he was glad it was appreciated.

Gravesend tower was open for ringing, after the meeting, and both peals were going until 9 o'clock. At the former tower, Cambridge and Superlative were the order, with an attempt for a course of London which did not 'come off.'

**LEWISHAM DISTRICT.**

The quarterly meeting of the Lewisham District was held at St. Nicholas', Deptford, on Saturday, April 25th, when some thirty members attended.

The bells were kept going throughout the afternoon and evening. Service was held in the church, the Vicar officiating, and giving an interesting and helpful address. Mr. Weston presided at the organ, and Mr. G. H. Daynes (who combines the offices of churchwarden and captain of the bell ringers) read the lesson.

Service was followed by a splendid tea in the Church Hall. This was generously supplied by the Vicar and Mrs. Pitman, and served by a number of lady helpers.

The business meeting followed, the Vicar (the Rev. T. W. Pitman) taking the chair. Four new members were elected, and SS. Peter and Paul's, Shoreham, was chosen as the place of the next meeting.

Mr. T. Groombridge, senr., gave a report of the proceedings of the annual general meeting, held at Folkestone on Easter Monday last.

Mention was again made of the clashing of meetings of the association.

Mr. F. W. Thornton moved a hearty vote of thanks to the Vicar for the use of the bells, conducting the service and address, to the Vicar and Mrs. Pitman for their generosity in supplying the tea, to Mr. Weston for his services at the organ, to Mr. G. H. Daynes, and to the lady helpers for their part in the organisation of a splendid meeting and social function.—This was seconded by Mr. T. Groombridge, senr., and carried with applause.

The Vicar responded in a few well-chosen words. He asked for any information of other churches where a bell ringer is also churchwarden to be sent to him. — This brought the meeting to a close, and the tower was again visited till 9 p.m.

**MAIDSTONE DISTRICT.**

The annual meeting of the Maidstone District was held at Lenham, on Saturday, April 25th. Ringing commenced at 3 o'clock, and a short service was conducted by the Vicar, Mr. W. E. Pitman, of Canterbury, presiding at the organ. After the service, the members partook of tea at the Dog and Bear Hotel.

At the business meeting, the chair was taken by the Vicar. Mr. C. H. Sone was re-elected hon. secretary and treasurer, and Messrs. L. Head and G. Pound were re-elected district representatives.

It was decided to hold the next meeting at Charing, and the half-yearly meeting at Staplehurst.

Votes of thanks to the Vicar for the use of the bells and for conducting the service, and to Mr. Pitman for presiding at the organ, concluded the meeting.

**WINCHESTER DIOCESAN GUILD.****STOCKBRIDGE TOWER AFFILIATED.**

A quarterly meeting of the Winchester District was held at Stockbridge on Saturday. The peal of six bells was kept going to Grand-sire and Stedman Doubles, Bob, Oxford and Kent Treble Bob and Cambridge Surprise Minor. Tea was presided over by the Vicar of Stockbridge (the Rev. G. Uppinton), who was elected an honorary member. The local band also joined as probationers, which means another tower affiliated to the Guild. One full member and two probationers were also elected members of the Guild from North Stoneham.

Mr. G. Williams (Master) gave a brief outline of the benefits derived by members of the Guild.

Mr. Pullinger (Guild secretary) proposed a vote of thanks to the Vicar for the use of the bells, and for presiding at tea and meeting.

Members were present from Andover, Fareham, Ringwood, Portsmouth, North Stoneham, Winchester, and the local band.

**GUILDFORD DISTRICT.**

A meeting of the Guildford District was held at Godalming on Saturday, April 25th. Members were present from Ash, Reddington, Chiddingfold, Cranleigh, S. Nicolas', Guildford, Shere, Witley, Worplesdon, and also members of the local company. The bells were available during the afternoon, and a short service was conducted by the Vicar (the Rev. F. S. Colson), who gave an excellent address, Mr. Parnment, junr., presiding at the organ.

Tea was held at the Church Room, about 30 being present. The Vicar presided, supported by Mrs. Colson, Mr. A. Mayers (churchwarden), Mr. W. Enticknap, Mr. J. J. Jones, and others.

A short business meeting was held after tea.—The Ringing Master (Mr. A. C. Hazelden) presented his report for the quarter.

Two honorary and three performing members were elected, and the usual vote of thanks was passed to the Vicar for the use of the church and bells, to the organist, and to the members of the local company for having everything ready.

After some ringing on handbells, the members again visited the tower, and touches in various methods were brought round, the company dispersing about 9 p.m.

## INTERESTING PRESENTATION AT EARL SHILTON.

## MR. FRED COTTON'S SERVICES ACKNOWLEDGED.

A most enjoyable evening was spent at Earl Shilton, on April 18th, on the occasion of a presentation to Mr. Fred Cotton, to mark his 14 years' service as secretary to the Hinckley district of the M.C.A. The Vicar of Earl Shilton (the Rev. H. V. Williams) performed the pleasant duty of 'delivering the goods' (a ringer's gold pendant suitably inscribed), and a wallet containing a few of the 'best'.—The Vicar remarked that it gave him great pleasure to spring this surprise on Mr. Cotton whom he had known for a long while at Hinckley. One thing he would like to say about Mr. Cotton, as everyone present must know, was that he had accomplished much towards bringing the ringers into closer relationship one with the other, and with the church (hear, hear). The only regrettable thing he had to mention was the unavoidable absence (through illness) of the vice-president (Mr. C. H. Webb), who would otherwise have assuredly been present.

Mr. Cotton, on receiving the gifts, said he was quite unable to express his thanks as he would wish, as it was absolutely beyond him.

The Rev. R. P. Farrow (Stoney Stanton) had a few nice words to say about Mr. Cotton, also Mr. J. Clarke, who, with Mr. Coe and the committee, was largely responsible for the arrangements.

After the presentation, Mr. Cotton was voted to the chair, where he succeeded in getting the best of the talent out of the assembled company, in the way of singing, handbell ringing, and piano playing. Those who helped to fulfil the various duties must feel their efforts were much appreciated.

## DURHAM &amp; NEWCASTLE ASSOCIATION.

A meeting of the Eastern District of the Durham and Newcastle Diocesan Association was held at Gateshead on Saturday, and a very pleasant afternoon was spent. About 20 members sat down to an excellent tea at The Anchorage, and at a short meeting afterwards, Mr. William Story proposed a hearty vote of thanks to the Rector (Canon Stephenson) for the use of the bells, Mr. Churchwarden McFarlane, in the absence of the Rector, responding.—Mr. J. W. Parker proposed a vote of thanks to the local secretaries for the excellent arrangements they had made, Mr. Stuart replying, and the Chairman, Mr. R. L. Patterson, thanked the ladies, who had attended on the tables.

It was arranged to hold the next meeting at Houghton-le-Spring on June 13th.

Ringings were then resumed, but shortly afterwards had to be stopped in account of a case of illness near the church.
