BELFRY GOSSIP

Inst. Lt.-Comdr. R. G. Cross, R.N., anticipates being stationed at St. Merryn, Cornwall, for several months. In 10 days, through the generosity of Mr. F. D. Teague, he has rung in 10 new towers. Peals for the Truro Diocesan Guild and many firsts may be expected.

Congratulations to East Grinstead and District Guild on their coming-of-age.

Mr. James Ballock, with a peal of Minor at Downham, Essex, completed the Cambridge Surprise family from 6 to 12 bells.

Two Anstey, Leicestershire, ringers—Gordon Deane and Miss Zena W. Walker—were married on June 26th. A peal of Yorkshire commemorated the happy occasion.

No fewer than 40 ringers assembled at Kilmersdon, nine miles from Bath, on Sunday, June 27th, at 8 a.m., for a Corporate Communion. Breakfast followed at the Joliffe Arms.

News from the Bath and Wells Diocesan Association is the arranging of practices in London at Mells and Chewton Mendip on alternate Wednesdays.

Recordings were taken last week by the B.B.C. in the belfry of St. Alphege's, Canterbury, for the purpose of an overseas broadcast at some future date. Interviews were given by members of the young band there, also by the Rector and Mrs. Gatehouse.

A clock was presented to Mr. and Mrs. Crampion at the meeting of the South-West Division of the Essex Association last Saturday in appreciation of the great work both had done in the office of secretary of the division. The presentation was made by the Master (Mr. J. Chalk) at a meeting at North Weald. The hospitality of the Vicar and Mrs. King and the local band added to make the meeting memorable.

'Nils Desperandum' writes informing the Editor of his ninth failure for his first peal of Surprise. Is this a record?

Mr. George L. Chambers is the first ringer to have 'circled' Cresswell, Derbyshire, tower.

Three first peals in seven methods is unusual. Congratulations to conductor Joshua J. Partridge, who was calling his birthday peal at Bozeat, Northants.

June was a record month for failures. One enthusiast lost four peals, and three attempts for peals in Stedman Triples in honour of Mr. Herbert E. Audsley's wedding also came to grief.

Captain of St. Mary-without-the-Tower, Chester, for many years, Mr. James Swindley has just celebrated his 75th birthday. A peal of London Surprise Major was how the Sunday service band said, 'Happy birthday to you.'

'Ringing Towers,' the N.S.W. Association's journal, tells of the plans being made for the Royal visit to Australia and New Zealand. Steeplekeepers are urged to watch maintenance and repairs. Christchurch Cathedral have their ring of 10 out of action; they are putting the necessary work in hand at once.

The peal of Kent Treble Bob Major, rung at Rolvenden on May 22nd, 1948, was not the first in the method for the Hawkhurst and District Guild as claimed. The first was rung at Salehurst on January 21st, 1939, by R. E. Lambert 1, William Haigh 2, F. J. Lambert 3, W. Gorringe 4, J. G. Powell 5, H. R. French 6, A. Relfe (cond.) 7, R. T. Lambert 8.

Mr. Herbert Fields, of St. Neots, for many years Ringing Master of the Hunts District of the Ely Association, and Mrs. Fields have celebrated their golden wedding. In the congratulatory 1,260 Grandsire Triples on June 15th were: R. Barnes 1, E. W. Clarke 2, S. W. Hawksford 3, C. H. Harding (cond.) 4, W. A. R. Chamberlain 5, F. W. Lack 6, G. E. Jeffries 7, B. F. Sims 8.

Carillon for All Hallows

A CANADIAN'S GIFT TO LONDON

A carrillon of 18 bells is in the course of installation at All Hallows-by-the-Tower, Barking, and will be rung when the Queen lays the foundation stone of the east wall on July 19th.

Previous to the war All Hallows possessed a ring of eight cast at the Whitechapel foundry in 1813, the tenor weighing nearly one ton.

Early in 1941, as a result of enemy action, the tower was damaged and the bells completely destroyed, the metal of which they were made being melted and lost.

The tower, never really strong enough for a swinging peal and now further weakened by the combined efforts of bombing and fire, was pronounced unfit to withstand the stresses of swinging bells of adequate weight.

It was decided to instal a chime of bells 18 in number, with the largest, or great bell, weighing some 2 tons.

A welcomed friend, Mr. J. H. McConnell, of 'The Montreal Star,' came forward and generously offered to provide and instal the bells, a timely gift which was gratefully accepted.

The contract for the bells was placed with Messrs. John Taylor and Co., Loughborough. The bells form a chime in the key of C, the scale of notes and inscription on each bell being as follows:—

1. G. Toc H Founders.
2. F sharp. Poperinghe.
3. F. John McConnell, Donor.
4. E. Philip Clayton, Vicar and Founder Padre.
5. D sharp. Archbishops Davidson, Lang and Temple.
6. D. John Quincy Adams, 1797.
7. C sharp. John Kettlewell, 1695.
8. C. William Penn, 1644.
9. B. William Laud, Archbishop, 1644.
10. A sharp. Lancelot Andrews, Bishop, 1626.
11. A. Anthony Duddington, 1519
12. G sharp. Dame Margery Haydok, 1477.
13. G. Alderman John Croke, 1477.
14. F sharp. Sir Robert Knollys, 1407.
15. F. Lightermen, 1278 and 1432.
16. E. Cor Leonis, 1199.
17. D. Rochester, 1148.
18. C. S. Ethelburga, 675.

They are hung in a steel framework which is erected in the tower at about the level of the upper set of windows and are fixed in position so that they do not swing, but are struck by the clappers. They are played by one person from a clavier situated immediately below them.

DUDLEY AND DISTRICT GUILD

Over 50 members and friends attended the quarterly meeting of the Guild at Sedgley on June 12th. The Vicar (the Rev. W. Sargeant) conducted the Guild service. The home-made cakes provided and served by the wife of the veteran captain, Mr. B. Fullwood, and her friends were much enjoyed.

Five new members were elected at the business meeting, and the next quarterly meeting is to be held at Clent. Votes of thanks included a special one for Mr. and Mrs. Fullwood.

SURREY ASSOCIATION

Five new members and four compounding members were elected at the North-Western District meeting at Benhilton on June 26th, attended by 40 ringers.

After the service, the company sat down to a splendid tea, prepared by Mr. Gosden and his helpers. A novelty was the making of a record of a touch of Grandsire Triples, which was played to the company in the vestry. A touch of Stedman was similarly recorded.

Mr. F. Collins, 17, Hamilton Road, Thornton Heath, has records for sale of these bells, price 15s.

The Saffron Walden Society

On June 26th, the Saffron Walden Society celebrated the 325th anniversary of Great Ringing Day. The festival day is June 27th, but, as this fell on Sunday, the celebrations were held on the previous day.

The Saffron Walden Society has an authentic history throughout these 3¼ centuries. On June 27th, 1623, they were left a legacy by Thomas Turner, a merchant of the town. He lost his way in the woods of Audley End, a large wooded estate near the town, and was guided to safety by the sound of the church bells. In gratitude he bequeathed a yearly sum to the ringers to ring the bells on the anniversary of his death and have a sermon preached. He also left suitable sums to the minister who preached the sermon and to the church clerk.

The first visitors arrived on the Friday evening to enable them to attempt a peal of Stedman Caters at 9.30 a.m. on the Festival Day. Unfortunately, the attempt failed after 1½ hours' ringing. The peal band then rang a well-struck course of Cambridge Royal. After more ringing the local Society and visitors adjourned to the Abbey Hotel for lunch.

Many visitors arrived during the afternoon and the bells were kept going till 5 p.m., when all went for tea in the grounds of Castle Hill House. Here all ringers were introduced to the Bishop of Colchester, who had come specially to preach at the commemoration service.

The commemoration service in the large Parish Church was preceded by a well-struck touch of Stedman Caters. The service was conducted by the Vicar, the Rev. M. R. Sinker, and the Bishop of Colchester delivered a wonderful and inspiring address.

After service the ringers returned to the belfry and the bells were kept going till 8.30 p.m. Some visitors remained in the town till Sunday evening and took part in the ringing for Matins.

MR. HERBERT J. AUDSLEY MARRIED

A large congregation, including some 20 ringers, witnessed the wedding at St. Paulinus', Crayford, on June 26th, of Mr. Herbert E. Audsley and Miss Elsie Nolan. Both bride and bridegroom are well known in Crayford, Mr. Audsley being a member of a family who have resided there for some two hundred years. He is, of course, a well-known ringer, who has taken part in over 800 peals, and his best man, his companion in many a peal, was Mr. Harry Hoverd.

Several touches of Mr. Audsley's favourite method, Stedman Triples, were rung before and after the ceremony, but, sad to relate, no fewer than three attempts for peals in that method in honour of the occasion were unsuccessful. Messrs. Audsley and Hoverd are both able conductors of Stedman, and it is unfortunate that their arduous duties prevented them from coming to the assistance of their weaker brethren!

TRURO DIOCESAN GUILD

The Diocesan Festival was held at Truro on June 26th, with the bells of the Cathedral, Kenwyn and Kea available. About 100 ringers were present from all parts of the diocese and also a few visitors. Evensong was held in the choir of the Cathedral, the ringers doing the singing in place of the Cathedral choristers, who were having a half-holiday. The service was taken by the Succentor, the lesson read by the Rev. W. H. R. Trewhella, secretary of the Guild, and the address given by the Bishop of Truro, who welcomed the ringers to their Mother Church.

Tea followed the service, where the Bishop met many of the ringers. After tea parties of ringers were conducted over the upper regions of the Cathedral and experienced the strenuous climb up the central tower.

Chester Diocesan Guild

STOCKPORT BRANCH.

The Stockport Branch held their quarterly meeting at Chapel-en-le-Frith in the Peak District of Derbyshire. This ancient church, which can be traced back to 1225, possesses a handy ring of six bells, which were made full use of from early in the afternoon until service time.

In place of the usual address, the Vicar, the Rev. Canon W. H. Green, gave a short historical sketch of the church from its early days up to the present day. Of interest to ringers is the story that during one of the rehangings of the bells one of them fell from the tower with the workman seated upon it and it is said he suffered little hurt. In Cromwellian times 1500 Scottish prisoners were kept in the church, 44 of whom died and were buried in the churchyard, but the precise spot is not now known.

About 50 years ago the church was restored and the plaster which covered the walls and the false ceiling removed, the west gallery, which contained the organ, the case of which is 18th century, taken down permitting a view of the timbered roof, some of which goes back to the 16th century. An interesting feature is that the nave and chancel are on the same level, but according to an authority, who classifies the church as a perfect specimen of an English church, this is purely accidental due to the nave floor being raised on account of the many persons buried beneath it. The 16th century font was at one time found in the garden of one of the churchwardens, who was holding it as security for a debt the church owed him.

Tea was afterwards served in the schools, after which the usual business meeting was held, at which seven new junior members were elected, viz.: S. Penny (Disley), H. Wolstencroft, P. F. Turner, G. Taylor, A. B. Barnes and G. Pridham (Ashton St. Peter). Members of the Macclesfield Branch were welcomed, and Mrs. Barnes, wife of Mr. Alfred Barnes, congratulated on her 84th birthday, which was the following day.

BEVERLEY AND DISTRICT SOCIETY

MEETING AT POCKLINGTON.

The Society's own form of service, which has been approved by the Archbishop, was used for the first time at Pocklington on June 12th. An attendance of 55 included representatives from 18 towers. A service touch of 350 Kent Treble Bob Minor was conducted by Mr. L. Rodmell (Ringing Master).

The Vicar (Canon Richardson) conducted the service and joined the members at a splendid 'Yorkshire' tea.

Mr. G. F. Williams (president) presided at the business meeting, when congratulations were extended to the Society by the Rev. G. Storer on their efforts in compiling the service leaflets, with special thanks to Miss Lidgley.

Attention was drawn to the annual meeting of the Society at Beverley on July 10th, and an invitation to Bridlington on August 14th was accepted. Mr. Arthur Hudson and Mr. G. W. Tune (Hemingbrough) were elected members.

Further ringing in the tower included Stedman, Grandsire, Kent and Oxford Treble Bob, Plain Bob, Bob Doubles, call changes and rounds.

LINCOLN DIOCESAN GUILD

JOINT MEETING WITH LADIES' GUILD.

A joint meeting of the Grimsby District and the Lincolnshire District of the Ladies' Guild was held at Bigby on June 5th. The Rector (the Rev. H. Thackray) conducted the service and gave an address on the Lambeth Conference.

Members were entertained with tea at the Rectory by the Rector and Mrs. Thackray, and at the business meeting which followed a hearty vote of thanks was given to them. The District Bell Fund collection was £1 6s. One new member was elected.

Change Ringing a Novelty

STORY OF A CORNISH PEAL.

In forwarding a peal of Grandsire Doubles rung at St. Breward on the western edge of Bodmin Moor, Inst. Lt.-Comdr. R. G. Cross, R.N., writes:—

Change ringing is rarely heard in this part of Cornwall. The whole area is a strong prize ringing one, and the news of an attempted peal by 'scientific' ringers brought a large audience to this tower, some 800 feet up on the moor.

The Rector (the Rev. W. Jennings) has forbidden prize ringing in his tower and welcomed a visit by change ringers. In spite of Cornish ropes—no tucks and ends spliced in—a really good peal was scored, which included the first for one of Truro's Central Council delegates (Mr. F. D. Teague). Mr. Teague has been struggling for some time to try and get change ringing going in the centre west of Cornwall, and the peal was a welcome encouragement to him. It is hoped this will be the first of many whilst the conductor is stationed in the area.

After the peal the band were entertained right royally in the Village Hall by the Vicar and parishioners. During supper the local ringers rose the bells, rang rounds and fell the bells in true Cornish style to show us what they could do—and right well they did it. Then the local ringers joined the peal ringers—the Vicar welcomed the visitors, the conductor thanked the hosts and tried to inspire thoughts of change ringing in these generous Cornish people, apparently with some success.

Then out came the handbells—Plain Bob and Stedman and Grandsire were scored before thoughts of home drove the band to think of the narrow precipitous ride down off the moor. The Vicar, true to his calling, led us down to the plain in his car. However, our adventure was not over. Two of the band had to go south to Redruth. The remainder, plus one bicycle minus lights hitched on behind, struck north-westwards to Port Isaac to drop the owner and his bicycle. Then to get back across the River Camel to drop the two Naval officers in their camp at St. Merryn, and finally a tired first pealer arrived home, blistered but supremely happy, about 1 a.m.

In Central West Cornwall one has to look for ringing. Forty miles to ring Grandsire Doubles is the order of the day, but when one gets it, it is well worth the journey.

OBITUARY

MONSIGNOR JOHN CANON ROSKELL.

Many ringers, particularly those in the Birmingham area, will learn with regret of the sudden death on June 23rd of the Very Rev. Monsignor John Canon Roskell, Administrator of St. Chad's R.C. Cathedral, Birmingham, aged 67.

Of his 41 years in the priesthood, Monsignor Roskell had spent 37 at St. Chad's Cathedral. His love for the Cathedral was boundless and he spent much of his own money, although not a rich man, on its adornment.

Of particular interest to him were the Cathedral bells and he was never happier than when listening to them. He was instrumental in raising the money to defray the cost of recasting the bells. He took the keenest interest in the ringing Exercise and the St. Martin's Guild, being a frequent visitor to the Henry Johnson dinner. The Cathedral tower was open to any band for peals or practice at any reasonable hour.

The funeral service, which took the form of a Solemn Requiem Mass, was sung by the Archbishop of Birmingham in the presence of a large congregation. St. Martin's Guild were represented at the service by Messrs. W. C. Dowding and W. T. Froggatt (St. Martin's Church) and W. E. Box (St. Chad's Cathedral). The bells were rung half-muffled for all services on Sunday, June 27th, and before the funeral service on June 28th.

Outings

ST. LAURENCE'S, READING.

This year 25 members met at 6.30 a.m. and joyfully set out for Loughborough, arriving at 10.15 a.m. to be cordially welcomed by Mr. Paul Taylor and Mr. J. P. Fidler. Ringing on the foundry ten was a unique experience. One band did a fair touch of Stedman Caters, but the titbit was 120 Grandsire Doubles on the front six at Mr. Fidler's pace, which nearly exhausted the tenor man.

At Leicester the visitors were met by Mr. H. G. Wayne, who had arranged ringing at the Cathedral, St. Margaret's, St. John's and All Saints', Belgrave. An hour's ringing at Wigston Magna was arranged at short notice by Mr. J. Carter.

At 8.10 p.m. St. Mary's, Warwick, was reached, where a warm welcome was extended by the old Fulham ringer, Mr. Ted Adams, who looked wonderfully fit for his nigh 80 years. The band have most happy memories of the kindness and hospitality of the Leicester ringing brothers.

BOYNE HILL, MAIDENHEAD.

Surrey was chosen for this year's outing. After picking up two V.I.P.s at Old Windsor, the party went to Chertsey, where they rang Stedman, Double Norwich and Grandsire. An hour's ringing at Ewell preceded a picnic lunch on the Downs.

On the lovely eight at Banstead, Mr. Arthur Martin, who had not rung for two years, took part in a course of Cambridge. Next came Grandsire and Stedman Caters at Reigate, and finally Chiddingfold, where Mr. Maurice Smithers, who many years ago was a ringer at Boyne Hill, welcomed the party.

BUCKINGHAM.

A circular tour by coach through Berks and Wilts made this year's outing a memorable day. Morning ringing was at Farringdon (Berks) and Bradford-on-Avon. After a good lunch in Trowbridge the fine peal of 12 was placed at the disposal of the party for the afternoon.

A marvellous tea, followed by ringing, awaited the visitors at Lamborne, where the bells were kept in full use until 8 p.m.

CHILVERS COTON.

First outing for 16 years was through Derbyshire and Leicestershire. The first call was St. Paul's, Burton-on-Trent, where the party was met by Mr. Leach and a colleague, the bells being rung to Stedman Caters, Bob Royal and Cambridge Royal.

Then to Ashbourne, where the eight are rung from the centre of the church. The long draught and springy ropes were a good test for the younger members. After an excellent lunch, to Darley Dale through typical Derbyshire scenery. A course of Bristol, Double Norwich, Stedman and Kent were rung here. At Matlock there was some Yorkshire Major and Stedman and also tea.

The high spot of the day was the call at Loughborough Parish Church, where Mr. J. Fidler met the party. Supper was followed by a spot of dancing. The last call was at Appleby Parva, where a room had been reserved by Mr. W. Croshaw, an old Cotonian. Here the handbells were brought out. Home was reached at 11 p.m.

ST. AMBROSE GUILD, BRISTOL.

The Exe Valley and Minehead district was chosen for the Guild's outing on June 19th. A start was made at 7.40 a.m., and stops took place at Wilton (8), Tiverton (8) and Dulverton for lunch at the house of one of the Gloucester and Bristol members who had recently moved from Bristol.

Then through beautiful country to Dunster, where the Vicar was waiting to greet the party, and Minehead for tea and an hour's ringing on the fine ten. On the homeward journey further ringing took place at Bridgwater. Home was reached by 11 p.m., all being tired but having enjoyed every minute of a well-planned outing.

Yorkshire Association

WESTERN DIVISION AT WETHERBY.

The summer meeting was held on June 26th at the home of the new president, and in delightful weather about 40 ringers and friends spent a pleasant afternoon and evening at this charming village on the banks of the River Wharfe.

Service was conducted by the Rev. C. O. Ellison, and the address was given by Canon Pulleine, sometime Vicar of Wetherby, and who was responsible for augmentation to eight during his incumbency.

A bountiful tea was served in the Micklethwaite Cafe, and members were grateful to the president for subsidising the cost.

Ringing was in a variety of methods, and on the whole the striking was of a very high standard.

The visitors included Mr. S. F. Palmer, of Sheffield. Three new members were elected, and collection to Belfry Repairs Fund amounted to 12s. 6d.

Apologies were received from Messrs. F. Hodgson, J. Ambler and W. H. Senior. It was unfortunate, but also unavoidable, that the meeting clashed with the Leeds and District meeting.

The next meeting will be at Haworth, the 'Home of the Brontes,' in September.

DEVON GUILD OF RINGERS

JOINT MEETING AT BUCKFAST ABBEY.

A joint meeting of the Mid-Devon and South-West Branches of the Devon Guild of Ringers was held at Buckfast Abbey on June 26th, when ringers came from Nottingham, London, Bristol, Exeter, Wellington (Som.), Silverton, Buckerell, Burlescombe, Okehampton, Newton Abbot, Ashburton, Buckfastleigh, Paignton, Dartmouth, Meavy, Plympton St. Maurice and Plymouth.

The bells were kept going throughout the afternoon to Grandsire Triples, Caters and Cinques, Stedman Triples, and Plain Bob Major and Royal, as well as rounds on the twelve.

After tea in the Abbey Canteen, Mr. J. E. Lilley, chairman of the Mid-Devon Branch, voiced the thanks of the visitors to the Lord Abbot of Buckfast for the use of the bells, and to the secretaries of the two branches for making the arrangements.

Four non-resident members were elected, and an appeal was made on behalf of the funds for the restoration work at Highweek Parish Church, Newton Abbot, where the roof is suffering from the ravages of the deathwatch beetle. The sum of two guineas was collected. Ringing afterwards took place at Dean Prior and Rattery Churches.

NORTH-EAST BRANCH.

At the quarterly meeting of the North-East Branch, held at Bampton on June 19th, it was reported that at a local church, where it had been proposed to instal an amplifying apparatus, the Church Council were now seeking an alternative. As the tower was definitely not strong enough for a normal ring, a light carrillon might be provided.

The chairman, Mr. E. J. Taylor, remarked that there could be little doubt that the energetic protests made officially by the branch at its previous meeting, and by members individually, had contributed largely to this change of plan.

The chairman welcomed the Guild president, Preb. E. V. Cox, to the meeting, which was well attended. The methods rung, in addition to Grandsire and Stedman Doubles, were Plain Bob, Kent Treble Bob and Cambridge Surprise.

HURST.

Hurst ringers were joined by friends from Twyford and Sandhurst for their annual outing. Ringing was enjoyed at Amesbury, St. Martin's, Salisbury, Ringwood, Romsey and Hursley (where owing to the death of the Lady of the Manor, half-muffled touches were rung). Hurst was reached at 11 p.m. after a very successful day.

CANTERBURY DISTRICT.

War-scarred Dover was the venue for the latest Canterbury District meeting, held on June 26th.

Favoured with fine warm weather, the meeting attracted some 90 members and friends, 21 towers in the district being represented, together with ringers from Appledore, Frindsbury and Brabourne.

Ringing was held prior to the service, which was conducted by the Vicar, the Rev. A. Stanley Cooper, who also gave a helpful address.

Tea was held in the Civic Restaurant. One new member was elected, and thanks were expressed to the Vicar and to Mr. Charles Turner, who had made the local arrangements. It was decided to send the day's collection (£2) to the Parker Memorial Fund.

A handbell display (change ringing, chimes and tunes) was held in the Church Hall. Teams taking part came from Faversham, Canterbury Cathedral and St. Dunstan's, Ringwould, Dover and Appledore.

NOMENCLATURE: II

BY ANDREW J. CORRIGAN.

A FERTILE cause of unsuitable names is the obsession of method constructors with so-called 'extensions,' about which Mr. H. G. Cashmore wrote some weeks ago. Few indeed are the Royal or Maximus Surprise methods which do not purport to be enlarged versions of existing eight-bell methods, though the resemblance is usually only apparent to the fond eyes of their inventors. There are already six 'London Royals' before the Exercise, with an equal number of Bristols—not one of them generally accepted. It is reasonably certain that the refusal of the Central Council to recognise one of the London extensions would be interpreted to embrace all of them if the matter was ever forced to a decision.

There have been many acrimonious discussions about principles of extension which leave the average Surprise ringer cold. He knows that, apart from the Cambridge family, no principle is likely to give him a recognisable Royal or Maximus from any Major he is able to ring. But the chief disadvantage of the obsession with extensions is its cramping effect upon composers. As was pointed out in 'The Ringing World' during the war years, there are some true extensions from combinations or Majors in the Cambridge family which will not fit on eight bells. Two of them have since been rung—Albanian and Prittlewell. How many more methods of greater than eight-bell scope might not our experts have given us if they had thrown off the shackles of Major?

In collecting Royal and Maximus Surprise methods for my next publication I have come across some data which indicate the cramping effect on method construction that I have just referred to. In a perfectly extensible method, Cambridge Maximus, there are 60 places made in each lead which are distributed as follows: 1st, 13; 2nd, 3; 3rd to 10th, 4 each; 11th, 1; 12th, 11. Yorkshire Maximum has 56 places: 1st, 13; 2nd, 5; 3rd, 4; 4th, 2; 5th-8th, 4 each; 9th, 2; 10th, 2; 11th, 1; 12th, 11. Now let us take Clacton Surprise. The Major has 44 places in a lead: 1st, 11; 3rd, 4; 4th, 10; 5th, 7; 6th, 2; 8th, 10. Lindoff's own extension of Clacton to Maximus has 68 places: 1st, 19; 3rd, 4; 4th, 18; 5th, 11; 6th, 2; 12th, 14. In other words, the places are all made in the same six positions as in Major, no place ever being made in 2nd, 7th, 8th, 9th, 10th or 11th.

The same is true of other composers. Here is the analysis of 14 Surprise Maximus extensions taken from my notes. Total places made in one lead each from the 14 methods, 860, distributed as follows: 1st, 252; 2nd, 36; 3rd, 82; 4th, 199; 5th, 100; 6th, 20; 7th, 0; 8th, 0; 9th, 0; 10th, 0; 11th, 1; 12th, 170. Of these 14 methods, 10 have all their places in 6 positions and 4 have them in 7 positions. No less than almost half the total places are made in 3rd, 4th and 5th; indeed, there are four-fifths as many made in 4th as in 1st. What sort of recognisable 'extension' can possibly arise from such an absurd and lopsided treatment of the place-making? It can only give snippets of the Major work strung together with dodging hunt or plain hunt across six positions in the rows.

A saner attitude towards extensions would enable us to effect two epochal revolutions in 10- and 12-bell Surprise ringing. It would give us Royal and Maximus methods with a wider scope than is attainable so long as we insist upon squeezing 10 and 12 bells into an 8-bell mould. From the astronomical number of right-place Surprise Royal and Maximus methods awaiting discovery we might abolish backhanders on the higher numbers. Places wrong are forced upon us by our retermination to imitate the limitations of Major in 10- and 12-bell methods. Moreover, this change for the better would abolish a lot of our present misnomers.

Note to Correspondents.—The remarks in this column apply to Surprise methods only. They are not to be interpreted as suggesting, for example, the abolition of the characteristic Kent places wrong in Treble Bob Royal and Maximus.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

POSTAL SUBSCRIPTION RATES (prepaid): 4/3 quarterly, 8/6 half-year, and 17/- yearly. Orders, with remittance, to Mrs. E. K. Fletcher, The White House, Caister-on-Sea, Norfolk.

EDITORIAL COMMITTEE:

EDWIN H. LEWIS, M.A. (President of Council).

GEORGE W. FLETCHER (Hon. Secretary of Council), The White House, Caister-on-Sea, Norfolk.

A. A. HUGHES, J.P. (Hon. Treasurer), 34, Whitechapel Road, E.1.

MRS. E. K. FLETCHER.

EDITOR: T. W. WHITE.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

The retirement of Mr. H. Knight, after having acted as hon. lay secretary for 40 years to the Society for the Archdeaconry of Stafford, cannot be permitted to pass unnoticed. Such honorable service is recorded with thankfulness. Mr. Knight has the good wishes of his many friends for long years of happy retirement.

This is a vintage year for Mr. George E. Fearn. He has already rung 50 peals in 1948!

Applications for back numbers of 'The Ringing World' should be addressed to the Editor.

Congratulations to Mr. Albert J. Lancefield, of South Willesborough, Kent, on his 100th peal.

Hellingly has of late been frequently in the 'quarter' column. The first in Minor has now been rung on the bells by a local band.

First to 'circle' Chilvers Coton tower is Mr. F. E. Pervin. He kept the treble to last and rang it in a peal of Plain Bob Royal on July 5th.

Extracts from our editorial on 'Other Things' dealing with Patrington Church and the quotation of Andrew Marvell was reproduced in 'The Hull Daily Mail.' Ringing does interest the outside world.

There should have been a footnote to the asterisk in the peal of Plain Bob Major 'in hand' at Oxford on June 21st to the effect that it was the first peal (and incidentally her first attempt for a peal) of Miss Ruth M. K. How.

For the information of visitors, the Frome branch of the Bath and Wells Diocesan Association have London Surprise practices at Chewton on the second Wednesday and at Mells on the fourth Wednesday of the summer months. The intervening Wednesdays are occupied by Double Norwich and Stedman practices at Mells.

Mr. P. A. Corby's Devon tour was most successful. Some 17 ringers participated in 18 tower peal attempts, of which 13 were successful. There were also three handbell peals.

The success of the tour was largely due to Mr. Aubrey Bennett, who made the local arrangements. His services were most comprehensive and even included writing a letter to the wife of one of the party who was too exhausted after his ringing activities!

The treble wheel of Eynsford, Kent, has been removed for repairs, and it is unlikely that it will be back in time for the Lewisham District meeting on the 24th inst.

Mr. George Henry Daynes celebrated his 78th birthday by calling a quarter of his own composition of Kent Treble Bob Major at St. John's, Deptford, on July 4th. Ringers: R. G. Long 1, F. W. Richardson 2, P. G. Parrott 3, J. Warner, jun. 4, J. E. Warner, sen. 5, T. A. Easterby 6, E. B. Crowder 7, G. H. Daynes 8. First in method 1, 3, 4 and 5.

To hand is a letter from Mr. James George (now 94), of 118, Rossmore Road, Parkstone, Dorset, enclosing a peal of Grandsire Caters which he composed over 50 years ago without singles. It was published in 'The Bell News' on August 8th, 1896, and was rung at St. Margaret's, Westminster, the conductor being Mr. Herbert Langdon.

Mr. Gordon Walford, of Wellington, Somerset, rang his farewell quarter on July 6th at Langford Budville, Somerset, before joining the Army. These bells were rehung by Messrs. Mears and Stainbank in 1930, and the old oak frame, dating from 1753, is still in use. It was 1,260 Grandsire Doubles by D. M. Bellamy 1, E. V. Barrington 2, G. Walford (cond.) 3, D. T. North 4, C. J. Stevens 5, H. G. Sparks 6. Believed to be the first quarter on the bells.

IN AFFILIATION WITH CENTRAL COUNCIL

SOCIETY FOR THE ARCHDEACONRY OF STAFFORD

THE history of the above Society began with a preliminary meeting of clergymen and ringers of the City of Lichfield on Thursday, May 17th, 1883, held in the home of Archdeacon Iles, in the Close, to consider the desirability of forming a Society for the Archdeaconry of Stafford. It was then unanimously agreed that such should be formed, having for its objects:—

(a) The recognition of the position of ringers as church workers.

(b) The promotion of the art of change ringing.

(c) Belfry reform.

It was further decided that a meeting should be held forthwith for the purpose of constituting such a society.

A meeting of change ringers was accordingly held on June 2nd in the Cathedral belfry, the Ven. Archdeacon Iles in the chair. Members of the chief ringing bands in the Archdeaconry were present, and it was unanimously resolved to form the Society and a draft of the rules was drawn up.

The first general meeting was held at Lichfield on June 30th, at which the rules were approved and the officers and committee for the ensuing year elected. It was decided that the year should run from midsummer to midsummer, and that the annual meeting should be held on the Saturday nearest to Midsummer Day. Quarterly meetings were arranged and the following places chosen: West Bromwich, Wolverhampton and Walsall. It was felt that these quarterly meetings would do much to awaken an interest in the art of change ringing in various centres, and also to set forth to ringers the real nature of their work as to be done to the glory of God.

Officers for the first year were: President, the Ven. the Archdeacon of Stafford; hon. treasurer, the Rev. J. J. Serjeantson; hon. secretaries, the Rev. J. R. Keble and Mr. W. A. Wood; committee, Col. Bagnall, the Rev. R. Hodgson, the Rev. H. E. Butler, Messrs. F. Cope, B. Dalton, S. Reeves and G. Robinson.

At the end of the first year there were one honorary and 65 ringing members.

FIRST PEALS.

The first peals to be rung by members of the newly-formed Society were as follows:—

JUBILEE MEETING.

The annual (jubilee) meeting was held at Lichfield, and was attended by well over 100 members and friends. The Very Rev. Dean Savage gave an impressive address at the service in the Cathedral. Both the Dean and Alderman W. A. Wood (Mayor of Lichfield, who was the first lay secretary of the Society) gave the members a hearty welcome to Lichfield and good wishes for the future welfare of the Society.

In order to commemorate the jubilee of the Society's existence, a dinner was held at the Victoria Hotel, Wolverhampton, on November 4th, 1933, and was attended by 150 members and visitors from various parts of the country. The Lord Bishop of Lichfield (the Right Rev. J. A. Kempthorne) presided.

A pleasing little ceremony was performed at the conclusion of the business at the annual meeting, on July 7th, 1934, when the Ven. Archdeacon Hugh Bright made a presentation of a gold bell-shaped pendant to Mr. H. Knight, accompanied by a cheque—subscribed by members—in recognition of his services as honorary lay secretary for 26 years.

Clerical secretaries from the formation of the Society include: Rev. J. R. Keble, Rev. D. Jones, 1892; Rev. T. W. Wilkes, 1903; Rev. T. Tennison, 1906; Rev. E. V. Cox, 1909; Rev. J. A. Price, 1915; Rev. C. H. Barker, 1916 (to present date). Lay secretaries: Mr. W. A. Wood (for two years); Mr. Samuel Reeves (23 years); Mr. Herbert Knight (1908 to present date).

LETTERS TO THE EDITOR

Canterbury Cathedral Tenor

Dear Sir,—With reference to the weight of the tenor, I have turned back the pages of the Kent Report for many years and find they all give the weight as 30 cwt. in C.

I should like to explain my view on this. On many occasions I had conversation with Canon F. J. O. Helmore, for many years the president of the Association. He appeared to have a peculiarity (like many ringers) about the weight of a bell, and I firmly believe that if he formed an opinion that the tenor at Canterbury was 30 cwt. in C, nothing would alter it. I have no doubt that into the report it would go, and, having been once inserted, it was copied year after year. Nobody would wish to contradict the report without they had good ground to stand on.

The question has been reopened, and Mr. Bert Luck has given the particulars shown in the belfry as 34 cwt., while Mr. Peter Small has given them 33 cwt. These particulars need a slight correction, but must not be ignored, as it is of the utmost importance for the future of those ringing at the Cathedral. If the particulars stated are shown in the belfry they are the authority of those who cast the bells, and it is unwise for any individual ringer (no matter what opinion he has) to interfere with those particulars now they have been established. CHARLES TURNER.

THE CARILLON

Dear Sir,—There is an unfortunate tendency to apply the term 'carillon' loosely to all chimes of bells, irrespective of their range or the method employed to sound them. A typical example of this occurred with the memorial chime at St. Mary's, Taunton, when the local reporters came out with the headline, 'Taunton's New Carillon.' In actual fact there are, I believe, three semi-tone bells added to the ring of twelve, the whole merely hammering out melodies, as expressive as a child haltingly playing a piano with one finger. Such ignorance is excusable in the popular press, but one does not expect 'The Ringing World' freely to employ the words 'chime' and 'carillon' as thought they were synonymous.

The appellation 'carillon' is reserved for a *minimum* of 25 bells, chromatically tuned, and played from a clavier; there may be a mechanical playing device as well, but that is immaterial. The installation at All Hallows', Barking, may have a keyboard, but it only has 18 bells, and should, therefore, be referred to as a chime. Carillon music as understood by the Mechlin School cannot be performed on it.—Yours faithfully, E. G. CAPLE.

Society for Archdeaconry of Stafford (cont.)

There are three rings of twelve bells in the Archdeaconry (which is unique for such a comparatively small area), viz.: West Bromwich (Christ Church), Wolverhampton and Walsall.

Bell restorations and augmentations have been numerous during the period under review.

Among the pioneers must be mentioned the name of Samuel Reeves, who, besides acting as lay secretary for 23 years, conducted many peals for the Society, as did also James E. Groves, the Society's first Ringing Master. Robert Matthews, too, was a 'live wire'; during 1909-10 he conducted many Surprise peals, several of which were the first for the Society.

The number of members within the area is 250, which includes some promising young conductors.

WOOD GREEN, WEDNESBURY, STAFFS. —On June 27th, at St. Paul's Church, 1,260 Stedman Triples: W. T. Powell 1, B. Picknell 2, H. Howl 3, E. Marlow 4, J. R. Cotterill 5, E. J. Tyler 6, M. G. Turner (cond.) 7, G. Evans 8.

The Aldbourne Foundry

Dear Sir, — With reference to recent correspondence regarding the Cors of Aldbourne, Wiltshire, and other local bellfounders. In January, 1942, I gave some account in 'The Ringing World' of the Aldbourne foundry and its production of musical handbells. For the benefit of new readers, however, a brief list of its owners is appended, together with totals of the approximate number of tower bells cast by them, and their earliest and latest *known* dates:—

WILLIAM AND ROBERT COR (87 bells).
Earliest bell: Berwick Bassett, Wilts, 1694.
Latest bell: Marlborough, Wiltshire, 1724.
OLIVER COR (11 bells).
Earliest bell: Chaddleworth, Berks, 1725.
Latest bell: Shalbourne, Wiltshire, 1727.
JOHN COR (18 bells).
Earliest bell: Chieveley, Berkshire, 1728.
Latest bell, Great Bedwyn, Wiltshire, 1741.
JOHN STARES (15 bells).
Earliest bell: Boxford, Berkshire, 1744.
Latest bell: Crawley, Hampshire, 1746.
EDWARD READ (9 bells).
Earliest bell: Basingstoke, 1751 (since recast).
Latest bell: Farnborough, Berkshire, 1753.
ROBERT WELLS I. (87 bells).
Earliest bell: Hemington, Somerset, 1760.
Latest bell: Ashmansworth, Hampshire, 1780.
The names 'Robert Wells and Son' occur on the tenor at Hagbourne, Berkshire, dated 1781.
ROBERT WELLS II & JAS. WELLS (83 bells).
Earliest bell: Shalbourne, Wiltshire, 1782.
Latest bell: Havant, Hampshire, 1799.
JAMES WELLS (124 bells).
Earliest bell: Ashbury, Berkshire, 1800.
Latest bell: Bremhill, Wiltshire, 1826.

A bell at Houghton, Hampshire, by W. and R Cor, is dated 1742, but this is an error for 1724. Edne Witts, of Aldbourne, cast the sanctus bell at Culham, Oxfordshire, in 1774.

The business was sold by James Wells in 1826 to Thomas Mears II., of London, and James Bridgman, who had been Wells' assistant, worked with Mears at the Whitechapel foundry for about three years, after which he returned to Aldbourne and started business on his own account. To him was apprenticed Henry Bond, who succeeded to the business circa 1851 and moved first to Westcot and later to Burford, Oxfordshire where the foundry was worked by his son, Mr. Thomas Bond, until his death last year.

Numerous handbells cast by the Cors, the Wells and by James Bridgeman exist to-day, and the majority of these bear the founder's initials on the inside. The Cors used one size alphabet and the Wells family two sizes for inscriptions on their handbells, and, in addition, the Cors frequently used a founder's mark depicting a duck. The earlier Cor handbells have cast-in type crown staples similar to those in 17th century tower bells, and were fitted with clappers having heads of the hook type; they often had wooden handles, and sometimes clappers with the striking portion formed like a three-point star. Later Cor handbells have staples formed of two cast-in metal plates enabling clappers of modern type to be used. All the musical handbells by members of the Wells family that I have seen have independent clapper staples; these again are of two types, the earlier being keyed into a slot in the crown of the handbell, and the later ones threaded. The later Wells handbells are numbered in sizes.

The 'R.B.' referred to by one correspondent is probably Robert Beconsall, and 'I.W.' are probably the initials of John Wallis.

FREDERICK SHARPE.

Launton, Bicester, Oxon.

The peal of Cambridge at St. Margaret's, Leicester, was the 25th anniversary of the first Surprise peal on the bells. The 1923 peal was conducted by Ernest Morris.

Hampshire Records

Dear Sir,—In reply to Mr. J. A. Hill regarding the I.W. found on bells in Hants. The founder was John Wallis, the first Salisbury bell founder, who cast many bells between 1578 and 1624. He was fond of short religious exhortations for his inscriptions, and would richly ornament many of his bells.

The R.B. 1589 bell at Bishopstoke is inscribed 'In God is my hope,' and this founder, whose identity is still undiscovered, cast quite a few bells in Hants and neighbouring counties. Spelling was not one of his strong points, and he was probably one of the travelling founders who toured Sussex, Hants, Wilts, etc., during the latter part of the 16th and the beginning of the 17th centuries. The tenor at St. Maurice's, Winchester, dated 1610, was also cast by this founder.

WILLIAM SHEPHERD.

Addlestone, Surrey.

THE 7th AT EAST ILSLEY

Dear Sir,—In reply to Mr. O. E. Hill regarding the above founders, the 7th at East Ilsley was cast at the Aldbourne foundry. The only inscription on this bell is W. R. Cor. We have no record of the year it was cast, and this information would be of interest. I would mention here that this bell was the 4th of a ring of five bells, which were recast when three new trebles were added in 1922 by Mears and Stainbank, London, to make a ring of eight.—Yours faithfully, C. J. HIBBERT.

East Ilsley, Berks.

PLAIN BOB

Dear Sir,—For some time now peal reports have had the word 'Plain' added to the title of a method which for the past two hundred years has been referred to as Bob Major without causing the least difficulty. The official excuse for this given at the Central Council meeting was that the method is so described in one of the Council's publications. Mr. Walter Ayre said it was of assistance to the Analysis Committee, but non-schoolmasters like myself will find it hard to see why three words are more easily recognisable than two.

But if the 'Plain' is unnecessary, to call Reverse Bob 'Reverse Plain Bob' is just silly. The same Council publication names the method 'Reverse Bob.' How is it proposed to explain this away?—Yours faithfully,

E. A. BARNETT.

SALISBURY DIOCESAN GUILD

DEVIZES BRANCH.

A quarterly meeting of the branch was held at All Saints', Westbury, on July 3rd, attended by some 40 members with visitors from Chippenham and Evercreech. The service was conducted by the Vicar (the Rev. P. J. Hinton), and tea was served in the Institute by the wives of Westbury ringers.

Mr. W. C. West (chairman) conducted the business meeting, and some new members were elected. Everyone was pleased to see their old friend, Mr. W. Hart, who is in his 89th year. Votes of thanks were accorded to the Vicar, organist, and the ladies for making the meeting such a success. Ringing during afternoon and evening ranged from rounds to Bob Major; the branch handbells were available during the evening.

NORWICH DIOCESAN ASSOCIATION

The meeting of the North Norfolk Branch at Reepham on June 19th attracted 27 members. The Rev. E. W. Blyth (chairman) presided at the business meeting, supported by the Rev. A. St. J. Heard (president), Mr. F. Nolan Golden (Ringing Master) and Mr. H. Tooke (branch secretary). Miss O. Castle and Miss G. Freer were elected non-resident life members.

The service was conducted by the Rector (the Rev. McJ. H. Cubbin). Ringing also took place at Salle and Heydon. The next meeting will be at Honingham on September 18th.

Ladies' Guild

MRS. G. W. FLETCHER THE NEW PRESIDENT.

The annual general meeting of the Ladies' Guild was held at St. George-the-Martyr, Southwark, on July 3rd. Forty-eight members were present. A service was held, conducted by the Rector. The lesson was read by Mrs. G W. Fletcher, and Miss H. G. Snowden was at the organ. The Rector, in his address, told of the work of restoring the church after the ordeal of war, and spoke of the return of the ringers and the joy expressed by the parishioners when they heard their bells again.

At the commencement of the business meeting, the chair was taken by Mrs. Deal, as the office of president was vacant. Miss Steel had retired at the Manchester meeting after 20 years in office, and as she was unable to be present at this meeting, it was resolved to send her a letter of appreciation for all her work for the Guild.

After 36 years as hon. secretary and treasurer of the Guild, Mrs. G. W. Fletcher resigned from the office, and Miss H. G. Snowden was elected in her place. On the proposition of Mrs. F. I. Hairs, a foundation member of the Guild, seconded by Mrs. Poole, Mrs. Fletcher was unanimously elected as the president. She thanked the members for the honour bestowed on her. The meeting proceeded with the president in the chair.

The accounts showed a profit on the year's working of £2 3s. 2½d., and total funds in hand of £62 0s. 4½d.

A report as to membership showed that the Guild was still making progress, but in some districts work was hampered through petrol restrictions. It was decided that two new districts should, if possible, be formed in Warwickshire and Cornwall. These territories had not previously been served by any district.

Bristol was chosen for the next annual meeting. Votes of thanks were passed to all who had helped in making the meeting so successful, and especially to Mr. N. Bagworth, who had undertaken the whole of the arrangements for the meeting.

GOLDEN WEDDING

Congratulations to Mr. and Mrs. A. W. Pike, of Caversham, Reading, on their golden wedding anniversary. Mr. Pike was a member of the well-known Caversham band of the '90's and has been a College Youth for over 50 years.

His golden wedding coincided with his 75th birthday and he came out of retirement to take part in the ringing of 1,260 Stedman Triples at St. Peter's, Caversham, on June 28th, in honour of the double celebration.

Those taking part were: E. Menday 1, A. D. Cullum 2, Mrs. P. Lewington 3, A. W. Pike 4, A. Wiggens 5, E. Humfrey 6, A. Sweetzer (cond.) 7, E. G. Foster 8. The ringers of 1, 2, 4, 6 and 8 are all over 70 years of age.

YORKSHIRE ASSOCIATION

THE EASTERN DISTRICT.

The annual meeting of the Eastern District was held at Howden, when about 35 ringers attended from various towers, including Mr. P. J. Johnson, vice-president of the Western District, and Mrs. Johnson, and Mr. S. F. Palmer, treasurer, and Mr. L. W. G. Morris, general secretary of the Association.

After a good tea the business meeting was presided over by Mr. F. W. Dale. Two new members were elected, Messrs. C. Bairstow and V. H. Brighton, both of Pocklington. York was selected for the next meeting in September.

Mr. A. H. Fox was re-elected vice-president, and Messrs. H. C. Walters (General Committee), A. E. Sellers and J. Waud were elected to serve on the committee for a period of three years. The usual votes of thanks were passed, and a collection for the Association's Bell Repair Fund realised 17s. 6d. Full use was made of the fine ring of eight until 8.15 p.m.

Another Cornish Eight

Saturday, July 3rd, saw the coming into being of Cornwall's 42nd octave. The old six (tenor 12 cwt.) at St. Budock, near Falmouth, have been retuned, two trebles added and the whole peal hung in a new frame with new fittings by Messrs. J. Taylor and Co. The result is a most useful ring.

The new trebles are the gift of Col. J. C. Annear in memory of his family, and Barron Bell Trust has contributed generously towards the cost. Canon F. Boreham, of Truro Cathedral, dedicated the bells and preached.

The service was conducted by the Vicar, the Rev. R. A. Williams. A good gathering of ringers was present, including Mr. W. H. Southeard (Master), who saw everyone had a pull, Miss E. Symons (president), the Rev. W. H. R. Trewhella (secretary), the Rev. A. S. Roberts, and welcome visitor was Lt.-Comdr. R. Gordon Cross. There was tea for everyone, and the bells were kept going all the evening.

This ring will be a welcome addition in the Falmouth area (Falmouth Parish Church possessing one of Cornwall's three chimes of bells), and the day before this dedication the six bells in the next parish, St. Gluvias, were taken to Loughborough for tuning, to be returned with two new trebles and hung in a new frame. There is a strong bond of friendship between the ringers of these two towers, and it is hoped that after having had indifferent sixes for many years, these new eights will inspire progress and give much pleasure. A.S.R.

OUTINGS

WRINGTON, SOMERSET.

Wrington ringers, their families and friends, held their annual outing on July 1st, visiting the Bournemouth area. The first call was at Yeovil, where full use was made of one of the most impressive rings in Somerset. At Poole they were joined by Mr. A. Macdonald, who had kindly made all the arrangements for the day, and the light ten there were much appreciated. After an excellent lunch in Bournemouth, a visit was made to Christchurch Priory and the magnificent twelve. Back to Bournemouth for tea, and an hour at St. John's with its very musical little octave. The last call was at Sherborne Abbey, and some of the best striking of the day was heard on the massive eight.

HELMINGHAM RINGERS IN KENT.

Leaving home at 6 a.m., the Helmingham company and their friends spent an enjoyable day in Kent on June 26th, ringing at Tonbridge, Tunbridge Wells, Edenbridge, Westerham and Sevenoaks. Methods rung included London and Bristol. Handbells rung on Tilbury Ferry drew an interested audience. Home was reached at 1.30 a.m.

St. Martin's Guild

The summer quarterly meeting of the St. Martin's Guild took place at Shirley Parish Church, near Birmingham, on July 3rd. The tower contains a very musical light ring of eight, tenor 6¼ cwt., and these were made good use of both before the service and after the business meeting. The Guild's form of service was conducted by the curate, the Rev. W. Meredith Lewis, in the unavoidable absence of the Vicar.

Tea was served at the local British Restaurant, and this was followed by the business meeting held in the Church House. Mr. Vice-President Albert Walker occupied the chair, the Master, Councillor Paddon Smith, being unable to attend owing to a prior engagement.

The Chairman said his first duty was to welcome back the hon. secretary, Mr. T. H. Reeves, after his recent serious illness; they were happy to see him again and hoped he would continue to make a good recovery.

Mr. Reeves thanked Mr. Walker for his kind remarks and good wishes, and also Mr. W. C. Dowding for acting as secretary at the previous quarterly meeting.

The following new members were elected: Geoffrey C. Taylor, William G. Collins, James A. Collins, Albert E. Hughes, Thomas E. Hughes, James W. Jones and John H. Jones (Tanworth-in-Arden), Robert H. Hicken (Hockley Heath), Harold J. Fitter and Albert H. Fitter (Sheldon), and Roland W. Edwards (Yardley). On behalf of the Guild, the chairman gave all these a hearty welcome and assured them that the officers would do all they could to give assistance and instruction in the art of change ringing.

The following were elected as life members: J. W. Frank Trotman (Nuneaton), Frederick E. Dukes (Dundalk, Ireland), John E. Chilcott (Hounslow, Middlesex), Gordon Walford (Wellington, Somerset). The tower election of Miss Muriel Reay, of Northfield, was also ratified.

The Chairman referred to the loss the Guild had sustained through the sudden death of George F. Swann, the Guild's librarian. He had done a lot of good work in keeping up to date the Guild's records of peals rung, and the Guild had lost a good officer in his passing. Another old member who had died within the last few days was Harry Middleton, of Norton, Evesham, one of the band who took part in the long peal of 11,111 Stedman Cinques at St. Martin's in 1901. The Guild had also lost a good friend recently by the death of Mons. J. Canon Roskell, Administrator of St. Chad's (R.C.) Cathedral. He asked all to stand for a moment as a last mark of respect to their memory.

It was decided to hold the next quarterly meeting at Edgbaston Parish Church and the bi-quarterly at Coleshill Parish Church.

A PRESENTATION.

In proposing a hearty vote of thanks to Mr. Arthur Morris for making the local arrangements, Mr. Edgar Shepherd availed himself of the opportunity to present to Mr. Morris a peal book containing a record of all peals rung on the bells of Shirley Parish Church which he had personally written in himself. Mr. Morris had done and was still doing a lot of good work in the belfry in instructing learners in the art of change ringing, and he would remind them that it was largely due to his efforts in collecting subscriptions that the two new bells were added to make a peal of eight.

Mr. Morris, in acknowledging the gift, said it came as quite a surprise to him, but it was one he greatly appreciated, for he had long wanted a complete record of the peals rung on the bells.

Mr. A. Morris referred to the serious illness of Mr. F. W. Rishworth, a member of the Aston Parish Church band, and the secretary was requested to convey the sympathy of the Guild and wish him a speedy recovery.

Society for the Archdeaconry of Stafford

FIGHT AGAINST 'CANNED BELLS.'

Upwards of 100 members and friends attended the annual meeting of the Stafford Archdeaconry Society at Lichfield on July 3rd. Tea was held in St. Mary's Parish Hall, and the meeting which followed was presided over by the Archdeacon of Stafford, supported by the Rev. C. H. Barker (hon. clerical secretary) and Mr. H. Knight (hon. lay secretary).

In his opening remarks the Archdeacon urged ringers to do all they possibly could to prevent such things happening as electric 'bells' being placed in church towers. He strongly deprecated the idea and quoted a recent case. The Archdeacon said he arrived at a village church to dedicate a window when his advice was sought about having 'canned bells' in the small tower. He was able to persuade the authorities to get a carillon, and was happy to say the order for such was now given.

The report and statement of accounts were accepted, with a slight modification. The report was ordered to be printed. To meet the high cost of printing, it was proposed that the annual subscription be raised from 1s. 6d. to 2s. This was agreed to unanimously, to begin from next year.

Election of officers: The Rev. C. H. Barker, clerical secretary and treasurer, and Mr. F. Brotherton, hon. auditor, were re-elected. Mr. H. Knight, hon. lay secretary, stated that as he had held the office for 40 years, he did not wish to offer himself for re-election, and Mr. A. V. Pearson was elected in his stead.

The following places were chosen for the coming meetings: Penkridge in September; St. Peter's, Wolverhampton, in January; Alrewas in April; and Lichfield for the annual.

It was agreed that the sum of five guineas be sent to the Joseph W. Parker Memorial Fund.

OXFORD DIOCESAN GUILD

SOUTH OXON BRANCH.

Very few members were present, probably on account of hay-making in this agricultural district, at the annual meeting of the branch at Thame on July 3rd. A large number of visitors from places as far apart as Banbury, Witney, Beaconsfield and High Wycombe made up the attendance.

The chairman (the Rev. G. B. Girling) presided, supported by the Master (the Rev. C. E. Wigg), Deputy Master (Capt. A. R. Poyntz) and the general secretary (Mr. W. Hibbert).

The secretary (Mr. H. Badger) presented the balance sheet for 1947, which showed a slightly increased credit balance over the previous year, and an increase in membership of 20.

KENT COUNTY ASSOCIATION

TONBRIDGE DISTRICT.

Recent activities of the Tonbridge District are appended:—

By-meeting at Sandhurst, May 1st. About 19 ringers attended, and ringing was confined to plain methods. New members elected were Miss F. Wood, Miss A. Woods, Miss G. Gill and Mr. R. Green, all of Hawkhurst. The election of Mr. J. Bassett was confirmed.

By-meeting at Brasted, June 5th. Twenty ringers were present and the methods ranged up to London Surprise. Tea was kindly given by Mr. E. H. Lewis at his house. New members elected were Messrs. R. Still, A. Dailly, J. Waters and K. Seal, all of the local band, and Mr. E. Boulding, of Sandhurst.

Quarterly meeting at Hawkhurst, July 3rd. The attendance here was larger, being about 25. Methods up to London Surprise were rung.

WILLESBOROUGH, KENT.—On June 20th, 1,440 of Minor (St. Clement's and Plain Bob): Miss M. Newton 1, Miss P. Lowes 2, P. Huckstep 3, A. J. Lancefield 4, M. S. Lancefield 5, E. S. Ruck (cond.) 6. Rung for the 81st birthday of the conductor.

THE ANALYSIS

THIS week we publish as a supplement to 'The Ringing World' the analysis of peals rung in 1947. The three tables are illuminating; an examination reveals an upward tendeney in many directions. Outstanding is the volume of peals handled, of which non-peal ringer readers of this journal need no reminding. The total of 2,174 peals has not been exceeded for many years, but the current year with 1,247 in the first six months indicates that the zenith has not been reached. Peals rung in the last three years were: 1945, 1,304; 1946, 1,795; and 1947, 2,174. The advance is conspicuous in view of the quiet time during February and March, due to abnormal climatic conditions; the loss was more than made good by ringing for the royal wedding, which brought November's total to 331 on tower bells and in in hand.

There has been no change in the position of the three leading associations, viz.: Kent County 136 (last year 125), Lancashire 133 (103), Leicester Diocesan 125 (97), It is in the succeeding positions that changes occur, the order being: Chester Diocesan 120 (83), Lincoln Diocesan 112 (90), Oxford Diocesan 110 (96), Sussex County 102 (63), Yorkshire 99 (92), Bath and Wells Diocesan 74 (35), Norwich Diocesan 73 (69), St. Martin's Guild 71 (65). Not every Guild has shared in these progressive totals. The year 1947 was marked by a drop in peals by University Associations—Cambridge from 24 to 11, Oxford from 17 to 13, and the Universities Association by 23 to 8. The creditable start of London University with five peals must not be overlooked. Perhaps one of our university correspondents will give an explanation. It is certainly not due to a lack of enthusiasm.

Another coincidence was that the three Associations bordering or part of the Metropolis each recorded a decline in peal ringing. Middlesex dropped from 76 to 52, Essex 70 to 55, and Surrey 23 to 10. Both of the former Associations had a marked decline in handbell ringing, caused possibly by migration, and this is the likely explanation. It was also a barren year for the Ladies' Guild and the National Police Association. Welcomed to the list are the Cumberland Association, the East Derby Association, the Scottish Association (after a lapse) and London University. Honours were easy, with 14 peals each, between the two rival veteran societies—the Ancient Society of College Youths and the Society of Royal Cumberland Youths. The next stage, we suppose, is to calculate the points value of the peals rung. Such calculations we would, however, leave to an erstwhile correspondent.

Maximus ringing showed an advance with 19 peals against 15. Of these, 15 were in Surprise methods, as against 10 last year. Leicester dominated the position with eight peals. Cinques had a decline from 42 in 1946 to 32. St. Martin's are still leading in this field with 10. Only 16 societies recorded a 12-bell peal; last year the number was 20.

Naturally 10-bell ringing has a larger field, with 34 societies registering peals against 30 last year. Peals of Royal totalled 76 against 65, and Surprise peals 29 (24). Caters numbered 106 (86). The Society for the Archdeaconry of Stafford made a fine showing with 10 yeals of Stedman Caters.

There was a big jump in Major ringing, 861 peals against 665. Of this number, 299 were in Surprise methods against 274 last year. Regarding the principal Surprise methods, there is a change in the order of popularity. Superlative, which was next to Cambridge, has dropped below Yorkshire and London. The order is Cambridge 97 (92 last year), Yorkshire 49 (41), London 49 (29), Superlative 46 (45), Bristol 36 (28). Spliced Surprise Major had a splendid showing of 18 peals against 8 last year. In this direction, the Lincoln Guild's peal of 16 methods calls for praise. Double Norwich as a method is more than holding its own with 132 peals (115 last year). Plain Bob naturally predominates with 185. Lancashire's 30 peals of Double Norwich Court Bob Major reveals the hold of the method in

this Association. Kent Treble Bob is a long way behind with 88 peals (87 last year).

Triples had an increase, but it was not so marked with 305 peals against 238. Grandsire with 166 peals against 127 maintains its position. An indication of the advance in ringing is 129 peals of Stedman Triples as against 99. Guildford Diocesan Guild and Kent County Association both retain their love of Stedman Triples. Six and five-bell peals also were more numerous, 605 against 433. For six-bell ringing, Lincoln and Bath and Wells lead each with 48 peals.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

Mr. Leslie Evans 'completed the circle' at Kingsland, Herefordshire, by ringing the tenor to a peal of Minor on June 25th.

Congratulations to Mr. Raymond Overy on his 100th peal. The milestone will give great pleasure to his friends connected with Guildford Royal Grammar School.

The Peal Analysis is given as a supplement to this issue. The pages are identical in size with those of our journal to enable it to be bound if desired. It is not stitched for fear of mutilating a column or two of figures.

Young readers will be interested in the broadcast talk to children on August 3rd between 5.15 and 5.40 p.m. by Miss Jean Sturgess, a 14-year-old ringer of Fareham Parish Church, on 'How I became a ringer.'

A two-day festival was held at the King's Head, Wateringbury, Kent, to promote good Christian fellowship and to provide funds for repairing and rehanging the bells of the village church, reports 'The Licensing World and Licensed Trade Review.'

Whilst on a day's outing, five of the Chilvers Coton band, Messrs. John E. S. Moreton, Leonard Trevor, James F. Clarke, John A. L. Thompson and J. W. Frank Trotman filled in their spare time by ringing a peal of Cambridge Surprise at Shiplake, Oxfordshire.

The peal of Oxford Royal at Ipswich enables Mrs. Pipe, Messrs. Boar, Brett and Pye to complete peals on 6, 8, 10 and 12 bells in the method. Mr. Boar has now rung 8, 10 and 12 bells in seven different methods. Mr. Symonds has secured 100 peals on the 11th bell at St. Mary-le-Tower.

It will be recalled that Lichfield Cathedral bells were the gifts of the Freemasons of Staffordshire. The first Masonic peal on the bells was rung on July 10th. Bro. T. H. Reeves, of Birmingham, was to have been in the peal, but could not ring owing to his recent illness. He was listening and joined the company afterwards in a meal.

News from Cumberland is infrequent. A sign of progress is that the first recorded quarter-peal on the bells of St. Stephen's, Carlisle, was rung on July 17th. It was 1,380 Doubles (480 Plain Bob, 900 Grandsire) by C. Lightning 1, J. Boustead 2, C. Brown 3, J. Ling 4, R. Ling (cond.) 5, and T. Park 6. It was the first quarter of Doubles for all the company.

A cryptic note from Mr. George Gilbert, Burnham, Bucks, re Plain Bob, runs: 'Do we now say Plain Grandsire, as we have Reverse and Double Grandsire? Bob Major is Bob Major.'

On the same topic Mr. Christopher Weldon Woolley writes: 'When I next meet my friend, Mr. Edwin Arthur Barnett, I will endeavour to explain to him why we schoolmasters find it easier to read three words than two. Those who find reading difficult can, of course, count the number of words—but there is much more in it than that!'

Mr. Robert G. Black. of 2, Stamford Road, Geddington, Kettering, hon. secretary of the Peterborough Guild, is in a difficulty over the Guild's official badge. The die was in possession of Mr. George Stacey, 6, Park Street, Minehead, Somerset, but no reply has been received to his letter. If any ringer in the neighbourhood can enlighten Mr. Black as to whether the business is in being it would be appreciated.

College Youths Visit Sussex

VETERANS' SPECIAL TOUCH.

It has now become the custom of the Ancient Society of College Youths to hold a summer meeting in the country. This year the meeting was held at Lindfield and Cuckfield, by invitation of the Master, Mr. George W. Cecil, and was very well attended, one member travelling from as far afield as Dorset. Ringing in various methods from Grandsire to London Surprise was well struck, and a very fine tea served in the Parish Hall was much enjoyed by the visitors, who seemed to be unanimous in agreeing that it is much better to live in the country than in town, where the food problem is more acute. In spite of strenuous efforts by the hungry visitors, there was a goodly amount of food still on the tables after all had eaten to their hearts' content. These good Sussex friends certainly know how to provide a meal!

A short business meeting was held, and two new members were elected, being the 59th and 60th to be elected during the Master's term of office. It is believed he has ambitions to top the 100 before his term expires, and everyone will wish him success in his efforts.

One outstanding characteristic of the ringing was a touch by the 'youngsters' of the party, whose combined ages totalled the extraordinary figure of 595 years. They were Henry R. Newton, George Williams, E. Fenn, E. A. Young, A. B. Peck, A. R. Macdonald, George F. Hoad and W. H. Pasmore. This touch was perfectly struck and was an object lesson to all who heard it. George Williams, at 91 years of age, proved he could still call the bobs.

At the other end of the scale the visitors were impressed by the capable way two young lady members of the Cuckfield band rang in touches of Grandsire and Stedman. A message from the Master of the Sussex County Association (Mr. F. I. Hairs), welcoming the party to his territory, was received, and regrets were expressed that pressure of business prevented him and Mrs. Hairs from attending.

EAST GRINSTEAD & DISTRICT GUILD

REPORT FOR 1947.

The Guild was formed in 1927 by a body of ringers whose aim was to encourage and instruct the young beginner in the art of change ringing and thereby create interest in bell-ringing for the service of the Church.

The inaugural meeting was held at The Peacelands, East Grinstead, and was attended by representatives from East Grinstead, Penshurst, Oxted, Coleman's Hatch, Cuckfield, Cowden, Turner's Hill, Balcombe, Crawley and Hartfield.

There have been many obstacles to surmount, but through the years we have progressed steadily to the strong and happy position which we are in to-day with a membership of over 100, the result of tenacity of purpose, the co-operation and able leadership of officials, the loyalty and enthusiastic support of every member, and the encouragement of the president, vice-presidents and the clergy.

The balance sheet shows a balance in hand of £59 13s. 1d.

LANCASHIRE ASSOCIATION

At the meeting at Aughton on July 3rd of the Liverpool Branch, Mr. P. W. Cave was elected hon. branch secretary in place of Mr. G. R. Newton, who has resigned.

The Vicar (the Rev. J. P. Hobson) presided at the meeting, and a good number attended and partook of an excellent tea provided by the ringers of Christ Church and their ladies and friends. The joint gathering of the Liverpool and Wigan branches proved most enjoyable. A welcomed visitor was Mr. A. E. Sharman, of Dunstable.

The next meeting of the Liverpool Branch will be at Huyton on August 14th.

OBITUARY

MR. R. H. BARTRAM.

Doyen of the ringers at Melton Mowbray Parish Church was Mr. Richard Henry Bartram, whose death at Bottesford on July 2nd whilst staying with Mr. A. W. Ward, an old ringing friend, is regretted. Mr. Bartram was 82.

A native of Buckminster, Leics., where he learned to ring, Mr. Bartram later moved to Wymondham, where he joined the Framland Society in 1885. He came to Melton in 1894, and the day after he joined the Melton ringers, and three days afterwards was accepted for the choir.

A silver bell was presented to him in 1901 by the Melton Society of Change Ringers in appreciation of his efforts in developing the art of change ringing in Melton and in recognition of the successful conducting of the first local peal.

His peals numbered 151, of which he conducted 32. Of his peals that call for special mention was one of Doubles rung by Mr. Bartram and his four sons. He participated in two fathers and sons peals — Grandsire Triples (four fathers and their four sons) Kent Treble Bob Royal (five fathers and their five sons). He conducted the first peal by an entirely local band at Melton Mowbray on April 23rd, 1901. It was in his native village of Buckminster that he last rang—120 Stedman Doubles in May, 1947.

He was a blacksmith by trade. Mrs. Bartram died in 1935 and he is survived by Miss E. E. Bartram and Mrs. H. Ormond (daughters), and Mr. E. Bartram, captain of the St. Mary's ringers, and Mr. J. R. Bartram, Nuneaton (sons). Two sons are dead. One died after a long illness contracted during the 1914-18 war, and the other died from an illness after saving a child from drowning in the river at Melton Mowbray.

The funeral service was at St. Mary's Church, Melton Mowbray, on July 5th, the Rev. C. M. S. Clarke officiating. Ringers attending were Messrs. R. F. Elkington (Anstey), S. Proctor (Grantham), H. MacKears (Hough-on-the-Hill), A. Ward (Bottesford), J. R. Gilson, H. Clayton and Miss E. Wise. The bells were rung half-muffled after the service.

HIS PEALS.

Grandsire Doubles 4 (conducted 4); Minor 18 (8); Bob Triples 2; Grandsire Triples 26 (19); Bob Major 7, including 7,056 (1); Kent T.B. Major 16; Double Norwich C.B. Major 13; Cambridge S. Major 4; Superlative S. Major 3; London S. Major 1; Bristol S. Major 1; Stedman Triples 24; Stedman Caters 16; Grandsire Caters 8; Bob Royal 2; Kent T.B. Royal 4; Cambridge S. Royal 2; total 151 (conducted 32).

MR. E. A. BISH.

The death is announced of Mr. Ernest E. Bish, a well-known South London ringer and a member of St. Leonard's, Streatham, band.

Aged 73, he was a native of Ditchling, Sussex, where he became a leader of the local band. It was due to his efforts that the Ditchling bells were rehung and two trebles added to complete the octave.

In 1923 he came to London and joined the Parish Church, Wandsworth, ringers: he was their leader until 1925, when he joined St. Leonard's. Here he was most regular in attendance for the Sunday services.

Mr. Bish was a member of the College Youths, London County and Surrey Associations. He had rung peals in the four standard methods on eight bells.

The funeral was at Wandsworth Cemetery on July 16th. A course of Grandsire Triples was rung on handbells over the grave: Reuben Sanders 1-2, T. H. Taffender 3-4, J. W. Chapman 5-6, Reuben Charge 7-8. Other ringers present were Messrs. S. Howard, A. Miller and T. Miller (Christ Church, Mitcham).

LETTERS

ON NOMENCLATURE II

Dear Sir,—Let us not mislead the coming generation of change ringers nor lightly abandon some of the traditions of the Exercise. Mr. Andrew Corrigan does ringers a great service in publishing his collections of methods and in pleading for the abandonment of certain 'cramping obsessions' in the matter of method construction; and when, over 25 years ago, I put forward similar, though less far-reaching, views, I received little support from the theorists. The truth is that years of research have confirmed that this middle course should be advocated. And the business of extension should be a matter of 'opening up' the basic mould in application to higher numbers, and not of cramping the original scheme, on the latter, to a numerical resemblance to the former.

The science of change-production (methods) is man-made, not natural, and 'suffers' from limitations imposed by the arbitrary conventions demanded by the Exercise through long usage and custom. But for this, there would be little questioning of 'extensions,' which would then appear very different from some of those now seen. By neglecting these conventional limitations (not at present to be contemplated!) there can be produced immediately for almost every basic method extensions which will pass the only true tests. These are: (a) How does the extension compare with the *design* of the basic, i.e., to the eye? (b) (more important) How does it appeal to the man at the end of the rope, i.e., does it seem, in the main, to be the same method (with extra bits for the additional bells) in the actual ringing of it? Those conventional limitations, however, step in and rule out most of such 'ideal' or 'theoretic' extensions — Cambridge is an exception—by these three chief requirements:

(c) Natural lead-ends—and in 'associated' order in the p.c.

(d) Not more than two blows in any one place.

(e) No penultimate place unless treble lies next.

Now it is the simple fact of searching for modifications, to make the easily-produced 'theoretic' extension conform with the demands of these conventional limitations, that gives the method builder such a headache; and, as Mr. Corrigan suggests, some extraordinarily dissimilar methods have indeed been published as 'extensions' of the basic method-name. For example, in the London method, alone, I have evolved, over the years, almost as many Royal variants as there are letters in the alphabet; but only one of these, and its counterpart in Maximus, would pass the tests here enumerated.

But, and this is the crux of the matter, it would be false to the traditions of this essentially British art of ours, to discourage the search for something to satisfy the natural ambition of the peal ringer on the higher numbers, who wishes to 'go one better,' in methods long honoured in the Exercise on the lower numbers. It is true, of course, that ultimate judgment and acceptance rest, not with the theoretician, but with the main body of those who actually ring. So that whenever extension figures are published to comply with all five conditions, (a), (b), (c), (d) and (e) above, no one of us will be able to prevent the Exercise accepting them and ringing them under the name of their basic method. Such publication may be 'just around the corner'! —Yours very truly,

A. YORK BRAMBLE.

JOHN WALLIS

Dear Sir,—In 'Hampshire Church Bells,' by Rev. W. E. Colchester, there is a list of over forty bells in Hampshire bearing dates from 1581 to 1628 cast by John Wallis, of Salisbury.

OUTINGS

BUCKLEBURY, BERKS.

The ringers of Bucklebury, Berks, augmented by a few friends, held their annual outing on July 3rd. Towers visited were Chippenham (Wilts), Tetbury (Glos.), St. Mary-de-Crypt, Gloucester, Burford (Oxon), and Christ Church, Swindon, all good peals.

Methods rung ranged from Grandsire Triples to Cambridge Surprise Major, Grandsire and Stedman Caters and Plain Bob Royal. An enjoyable day was spent by all. R.W.R.

LAVENHAM, SUFFOLK.

Lavenham ringers, with their wives and friends, visited Herts on July 10th and rang touches at Hoddesdon, Broxbourne, St. Albans (St. Peter's), Hatfield and Hatfield Broad Oak (Essex). Luncheon was served at St. Albans and tea at Hatfield. Changes and well-known airs on the handbells (at Bocking, Essex) concluded an enjoyable day's programme. S.H.S.

POOLE.

Poole ringers, accompanied by their Rector, the Rev. E. C. Harris and Mr. F. W. Townsend, who, though unable to ring himself, still loves to listen to good bells and ringing, visited Romsey Abbey, East Tytherley, Downton and Cranborne for their annual outing on July 3rd. The good meal which was awaiting the party at Downton and the bells of Romsey and Downton were the high spots of the day.

At Cranborne a very pleasant hour was spent with the local ringers, who hope before long to have their bells made worthy of the church and tower. A.R.M.

RAINHAM, KENT.

South-East Kent was toured in a 32-seater coach on July 3rd by St. Margaret's, Rainham, on the occasion of their annual outing. The party included ringing friends from Chatham and Sittingbourne.

After ringing on the six at St. Dunstan's, Canterbury, the route was along the Elim Valley to another old church at Elham. Lunch was partaken of at Folkestone before ringing upon St. Mary's fine eight. Thence along the coast to New Romsey, where ringing was enjoyed for an hour. Tea was at Tenterden, after which the party made good use of St. Mildred's bells. The last call was at Headcorn. Touches were rung in the usual standard methods.

ST. MARY REDCLIFFE.

The third annual outing took place on July 10th, when the route lay through Somerset and Devon to Exeter. A start was made at 7.45 a.m., Bridgwater being reached at 9 a.m. Here the party were met by Mr. C. Evans and the fine eight at St. Mary's were soon set going to Cambridge, Double Norwich and Stedman Triples.

At Cullompton, Major Silwood had everything in readiness. Before ascending the tower some time was spent examining the fine rood screen and Jacobean gallery of this beautiful church. A splendid course of Cambridge Royal and touches of Stedman and Grandsire Caters were tapped off and all were loath to leave such grand bells. However, on to Exeter, a fine lunch, and out to Heavitree, where Mr. C. Glass welcomed us. Then more Cambridge, Double Norwich, Plain Bob, Grandsire and Stedman on another glorious eight.

The high spot of the day was ringing on the 12 at Exeter Cathedral. Here we surpassed ourselves, both Messrs. Glass and Laver congratulating us on our touches of Stedman Cinques. At Tiverton, with its lovely tower and fine peal, we rose the bells in true Devon style and were soon ringing London, Cambridge, Double Norwich and Stedman. Then off once more for Wrington, but this time our call was the Golden Lion, but not without viewing Wrington's glorious tower, now fully encased in steel scaffolding, and hearing the local remark that the bells go much better now that the tower is held up. BLANDFORD FESTIVAL.

The third ringers' festival at Blandford, Dorset, in accordance with the will of Mr. Samuel Francis Pond, who died in Australia 1941, took place on July 3rd. He left money to the Borough Council for the purpose of ringing the curfew daily in Blandford and for an annual competition among Dorset ringers.

Visitors from Leicester were among those present. The Rev. F. Ll. Edwards, general secretary of the Salisbury Guild, conducted the service, at which a collection was taken for the Joseph W. Parker Memorial Fund. At tea in the Corn Exchange the company was welcomed by the Mayor and by Mr. B. A. S. Hicks (churchwarden).

HALIFAX AND DISTRICT ASSOCIATION

The annual meeting and six-bell contest of the Association was held at Marsden on July 3rd, four teams competing, namely, Meltham, Friezland, Huddersfield and Liversedge.

About 50 members and friends were present and some good striking was heard. The result and order of ringing was as follows: Meltham, 280 faults; Friezland, 156 faults; Huddersfield, 212 faults; Liversedge, 108 faults.

Liversedge were declared winners, and presented with the Association's silver cup.

BELLRINGERS PERFORM

A religious play, entitled 'The Legend of the Bells,' was enacted in Burford Parish Church, Oxon, on June 27th, before a large congregation. It was specially written and produced for the patronal festival by Miss K. M. Briggs, of Burford, and more than 70 persons, including choir and ringers, took part.

Handbells and tower bells were rung during the course of the play, and afterwards a quarter-peal of St. Clement's Bob Triples was rung by J. G. Collett 1, F. Soden 2, M. C. F. Collett 3, F. W. Soden 4, B. S. Nichols 5, T. W. Timms 6, W. J. Dixon (cond.) 7, J. J. Westmacott 8. The play was repeated the following evening.

AN APPROPRIATE RECORD

At Meole-Brace Church, Shrewsbury, amplifying apparatus has been installed. Records of well-known London bells sounded incongruous as coming from such a small tower. A member of the congregation thought a record of good six-bell ringing would be more suitable and he approached the Rector and ringers of All Saints', Berrington, with this object in view.

A recording was taken by Mr. H. F. Pollard, radio engineer, of 23, Castle Street, Shrewsbury, of a touch of Grandsire Doubles, which is now used for services at Meole-Brace. Records are available to those interested. As far as is known, this is the first record made of Shropshire bells.

MARLOW PEAL TABLET UNVEILED

Prior to evening service at All Saints', Marlow, Bucks, on July 4th, a peal tablet was unveiled by the Vicar, those present including the two churchwardens.

The tablet commemorated a peal of Bob Major, which was rung half-muffled on Feb. 14th, 1948, to the memory of the late Mr. W. H. Badger, who was connected with All Saints' Church for 78 years.

After the unveiling a short service touch was rung by the same band who stood in the peal with the exception of Mr. Harry Wingrove, who, although not yet able to ring, was present at the ceremony. All present were pleased to see Mr. Wingrove back in the belfry after his recent operation, and a hope was expressed that he would soon be able to take a rope again.

LUTON, BEDS.—On July 4th, 1,260 Grandsire Triples: Keith J. Tilling (first quarter) 1, H. Burton 2, J. Herbert 3, A. E. Rushton 4, E. Conquest 5, H. Wood 6, L. A. Goodenough (cond.) 7, R. Kendall 8.

BEAUMARIS BELLS

LAST week Beaumaris figured in the list of peals. The name probably recalled to many the Christmas Quiz, as Beaumaris possesses the only ring of bells in the island county of Anglesey. The ancient church of SS. Mary and Nicholas, built about 1295, has many interesting features with unusual clerestory windows, ancient tombs and effigies, some of which were brought from Llanfaes Priory.

To ringers the main appeal is in the bells. Originally there was a ring of six, the gift of Viscount Buckley in 1819. In 1903 they were pronounced as practically unsafe to ring; an appeal was accordingly launched to 'all lovers of music throughout Anglesey,' for funds to carry out the repairs and at the same time add two more bells to complete the octave. Main movers in raising the funds were Mr. A. J. Hughes and the late Mr. W. T. Pegler, of Bangor, and they had the satisfaction of seeing two new trebles added. The old bells were musical and pleasing to the ear, but the two trebles, cast by Barwells, of Birmingham, were delivered out of tune. Tom Miller was sent to Beaumaris to tune them, and they are still a little sharp, especially the second.

Very few peals have been rung in the tower, due partly to its isolation and also to the fact that for a long period permission for an attempt was rarely granted. Mr. A. J. Hughes, who took part in the first four peals, informed the writer that the first peal on the bells was Grandsire Triples, Taylors, rung on September 30th, 1905, and was conducted by W. T. Pegler. This was followed by Thurstans' Four-part peal of Stedman on August 24th, 1907, again conducted by W. T. Pegler. The next peal, 5,088 Bob Major on May 26th, 1909, was the first of Major in the county. It was composed by M. J. Morris, and conducted by A. W. Brighton. A special interest was attached to the next peal, 5,088 Bob Major on August 5th, 1912, as one of the participants was Miss Sarah Piggott. She was the first lady to take part in a peal for the North Wales Association. The peal was composed by J. Piggott.

For years the late Mr. W. H. Fussell tried to obtain permission for a peal attempt at Beaumaris. At last it was granted, and a peal of Grandsire Triples, conducted by R. Sperring, was rung. With this peal Mr. Fussell became the first—and so far the only—man to ring a peal in every county in England and Wales. The footnote in last week's peal, 'First peal of Surprise on the Island,' adds another chapter to the history of these bells; the story of the peal however is told in our news columns.—J. E. C.

BELFRY GOSSIP

Mr. and Mrs. John Thomas have now rung 300 peals together. These comprise 94 on tower bells and 206 on handbells. Have any other married couples better records?

Congratulations to Mr. Cyril Valentine, of the Chester Guild, on his 100th peal.

The hon. librarian would be grateful if requests for publications were not sent during August.

Two new trebles have been recently installed at Mark, Somerset, by Messrs. Mears and Stainbank, making a ring of eight. The new bells were dedicated on July 21st.

To-morrow a party gathers at Carbis Bay for a ringing holiday. Eight peal attempts, including one at Truro Cathedral, and visits to eight other towers, is the programme for the week.

London University Association are also having a ringing week starting on Saturday with headquarters at Ilkley. The party numbers 20, and the peal attempts include Leeds Parish Church and Bradford Cathedral.

The claim that the handbell peal at Llandilo on June 24th was the first 'in hand' for St. David's Guild was nine days late. This honour goes to Mr. W. F. Moreton and his band who rang a peal of Plain Bob Minor at Lampeter on June 15th.

First festival of the Truro Diocesan Guild was held at Veryan on September 27th, 1898. Fifty-two years later the first peal on the bells was rung. Canon J. A. Kempe, the first secretary of the Guild, was then vicar, and he arranged a full day's programme, viz., Holy Communion 8.30, luncheon, special ringers' service 3, tea 5, harvest festival service 7. Between these activities the bells were ringing the whole time, 20 minutes being allocated to each band of ringers present.

Mr. F. C. W. Knight informs us that the Kent peal tour starts on August 7th and ends on August 15th. Twenty-two peals will be attempted, and altogether 38 towers visited. The company numbers 31. Nine of the attempts will be Surprise methods.

The first peal by brothers since the war has been rung at Allensmore, Herefordshire, by the brothers Young.

Mr. David H. Anstey, of Alsager Training College, Stoke-on-Trent, has failed nine times to score his first peal of Surprise. He is determined to rectify this matter before ringing out 1948.

The St. Martin's (Catterick Camp) Society of Change Ringers has now 15 members. It has scored two peals recently—at East Wilton and on handbells in the camp.

Mr. W. A. J. Knight, of Gillingham, Kent, recalls as a novice ringing a quarter-peal at Langford Budville, Somerset, in 1917 or 1918. The conductor was Mr. Albert Tait. The circle in this tower was then awkward, the tenor being between the treble and fifth.

An in memoriam quarter of Stedman Triples was rung for Mr. Ernest E. Bish, whose death was announced last week, at St. Leonard's, Streatham, on July 20th, by Miss A. Castle 1, R. Charge 2, T. G. Miller 3, T. H. Taffender (conductor) 4, L. G. Miles 5, J. W. Chapman 6, R. Sanders 7, S. Howard 8.

At the meeting of the Mid-Devon Branch at Kingskerswell on July 24th, a discussion arose regarding complaints recently received as to inferior ringing at Buckfastleigh Abbey, and while the branch has no jurisdiction over visiting ringers from outside the county, it was recommended that the position should be watched.

IN AFFILIATION WITH CENTRAL COUNCIL

THE KENT COUNTY ASSOCIATION

IT was at a meeting held in the Chapter House of Canterbury Cathedral at noon on Whit Tuesday, May 18th, 1880, attended by about 150 ringers from all parts of the county, that the Dean of Canterbury, after a few prefatory remarks, called on the Bishop of Dover to propose the first resolution, viz.:—

1. That in the opinion of this meeting it is desirable that an Association for the cultivation of change ringing be formed for this county.

Seconded by Mr. J. R. Hall and carried unanimously.

About a dozen bands were admitted to the Society on the first day, besides several who joined as probationers. From this small beginning has grown one of the largest of all ringing organisations, and whatever views may be held as to the desirability of relating ringing societies to their own dioceses, one hopes that this one, at all events, will never be called other than 'The Kent County Association.'

The new Association's first secretary was the Rev. R. Knatchbull-Hugesson, of Mersham, near Ashford, and when, having accepted a living out of the county, he resigned in 1889, the number of practising members had become 521. There was also one vice-president, whose chaplain had replied to the secretary's invitation that 'His Lordship quite recognises the importance of the work and its proper organisation, and will gladly give his name, but cannot promise any money assistance.'

For the first eight years or so all the work of the Association was borne by the secretary, but in his last year of office the county was divided into five districts — Ashford, Canterbury, Maidstone, Rochester and Tonbridge— to give more scope for its activities. A sixth, the Lewisham District, was added in 1892, and this arrangement continues at the present time.

The Rev. E. W. Carpenter, who became the second general secretary, held the post for two years only, and on July 13th, 1891, he was succeeded by the Rev. F. J. O. Helmore, who was to remain in office for the long period of 38 years, until advancing years compelled him to retire.

CANON F. J. O. HELMORE.

Frederick John Ottley Helmore was born in London on December 2nd, 1851, the son of the Rev. Thomas Helmore, organist of the Chapel Royal. Educated at St. Paul's School, he went up to Oriel College, Oxford, and was subsequently ordained deacon at Hereford in 1875. In 1878 he was appointed a Minor Canon of Canterbury Cathedral and Precentor of the Cathedral in 1883, an office which he held for nearly 50 years. He became a ringer only by accident. In 1882 a company applied to the then Dean for permission to learn to ring on the Cathedral bells, which was granted only on condition that one of the Cathedral clergy could be induced to superintend their ringing, which Canon Helmore was reluctantly prevailed upon to do. He eventually became no mean practical ringer, taking part in 205 peals up to Superlative Surprise Major and Stedman Cinques, but it is for his work as general secretary that he deserves most to be remembered. When he took up office the Association had 616 members in all; when he retired the resident membership alone was nearly 1,000. The balance in hand had increased from £90 to £620. A Belfry Repairs Fund, which he started in 1895, has since its inception, paid out £269, and a Benevolent Fund, set up in 1912, has made grants of £373 to necessitous or aged members. In addition to being general secretary and treasurer, Canon Helmore represented the Association on the Central Council from 1894 to 1929. He died in 1938 at the great age of 87 years.

Almost his first act as secretary was to negotiate the formation of the Lewisham District. It was to cover an area in which the Association had rather a precarious foothold, as there already existed a Society known as the Trinity Youths, a revival of an old London Society. Canon Helmore offered, if the Society would agree to amalgamate with the County Association, to call the new district the 'Trinity Youths' District,' but the Youths would have none of this. At a meeting held at Greenwich on April 5th, 1892 they resolved 'that it is inexpedient to amalgamate the Society of Trinity Youths with the Kent County Association, and that the secretary be

CANON F. J. O. HELMORE.

requested to forward a copy of this resolution to the secretary of the Kent County Association and to "The Bell News."' However, the Lewisham District was duly formed, and almost within a year the Trinity Youths had ceased to exist.

RECORD LENGTHS CRITICISED.

The subsequent history of the Association has been of steady rather than spectacular progress. Occasionally some incident marred its otherwise smooth running, such as in 1897, when Canon Helmore reported that 'towards the end of the year it transpired that several conductors had been in the habit of using visible aid to memory in calling peals. The introduction of such a practice seriously depreciates the merit of a peal, and for that reason no analysis of peals is given in the report.' This was typical of Canon Helmore. He never hesitated to express his own opinions, however much they may have differed from the general view. Some years later he referred to a long peal attempt by saying that it was 'happily abandoned after 4½ hours' ringing. . . . Many of us are of the opinion that these . . . . attempts at record-breaking should be steadily discouraged, and even prohibited. Church bells were never intended for such vainglorious uses.'

The 1,000 membership mark was reached for the first time in 1904, and by June, 1914, the total was 1,229. 'We advance by slow degrees,' said the secretary in his report that year, 'but we are gradually drawing nearer the day when, as we hope, change ringing shall be firmly established in all our county towers.'

The outbreak of war two months later naturally brought ringing almost to a standstill. Over 350 of the Association's resident members joined the Services before the end of hostilities. Sixty lost their lives, and as a memorial to them the Association raised nearly £250 to cover the cost of adding two trebles to the peal of ten at Canterbury Cathedral. The new bells, cast by Mears and Stainbank, were dedicated by Archbishop Davidson in October, 1923, and Kent was thus provided with the second of its peals of twelve, the only other being at the privately owned Waterloo Tower in Quex Park, Birchington.

Despite the ravages of war, the Association soon recovered numerically; indeed, by 1921 over 1,000 resident practising members were recorded for the first time, more than 300 having been elected during 1920. From a ringing point of view the revival was not so marked, but this, perhaps, was common to ringing all over the country. Still, by 1922 the secretary could say that 'change ringing is more general, and practice in some of the higher methods is on the increase.'

In 1929, Canon Helmore retired after his long period of untiring and successful work. At the jubilee meeting of the Association at Canterbury in the following year the Archbishop of Canterbury, who had earlier preached at the festival service in the Cathedral and presided at the lunch, presented him with a cheque, a case of pipes, and an illuminated address recording the members' warm appreciation of his services. Over 400 were present at one of the largest assemblies of ringers ever seen at a gathering of this kind.

It was no easy matter to follow in Canon Helmore's footsteps, but in Mr. F. M. Mitchell, of Gravesend (who was Master of the College Youths during 1933), and who had previously been secretary of the Rochester District since 1919, the Association found a worthy successor. Mr. Mitchell was to hold office through the difficult period of the early 1930's and during the Second World War. The county was, of course, badly affected by the recent war, because of its proximity to enemy-held territory, and it was with no little difficulty that the Association was held together during those crucial years. Increasing pressure of work compelled him to resign in 1945, when the office of treasurer, hitherto part of the secretary's duties, was created. Mr. Mitchell, who had guarded the Association's finances with the same care as his predecessor, was a natural choice for the post, having at his disposal assets of nearly twelve hundred pounds.

Mr. G. H. Spice, of Tunstall, who, like Mr. Mitchell, was also formerly Rochester district secretary, succeeded him as general secretary. His arrangements for the first post-war annual meeting, held at Canterbury in 1946 and attended by some 300 ringers, were acclaimed on all sides as a triumph of organisation, and under his leadership the Association must continue to progress as before.

The most recent development has been the appointment of a peal secretary, and Mr. P. A. Corby is the first holder of that office. For many years previously valuable assistance in the collation of peals and compositions for the annual reports had been given anonymously by Mr. Stafford Green while he resided in the county.

DISTRICT SECRETARIES.

The Association has been fortunate in its general secretaries, but their work could never have been carried out satisfactorily without the co-operation of the district secretaries, several of whom have or had to their credit many years of faithful service. Most outstand-

THE DEVON TOUR

A Week of Achievement

As a result of the untiring efforts of Mr. Aubrey L. Bennett, of Buckfastleigh, in making excellent local arrangements, the Devon tour from July 3rd to 10th was an unqualified success. History was made for the Guild of Devonshire Ringers, as no fewer than eight new performances for the Guild were recorded. Thirteen tower-bell peals and three 'in hand' were scored in ten methods.

The company assembled at Newton Abbot station on Saturday afternoon (July 3rd), some having arrived the night before and the rest that day. The Whitley Bay contingent had to travel all night. The bus, our companion for the week, complete with Mr. Bennett, was waiting to receive us. Getting down to business at once, we went to Kingsteignton. Eight of us rang a peal of London, and the rest proceeded to headquarters at Buckfastleigh.

For morning service on Sunday we rang at Dean Prior, a good peal of six, now not often rung. On Sunday afternoon those not in the peal at Buckfastleigh journeyed to Teignmouth and rang for evensong at St. James' Church. The ringing included Grandsire Doubles for a local ringer, and a touch of Spliced as people walked through the circle to go into church.

There were two peal attempts on Monday morning. Painswick was successful at Highweek and Bristol inexplicably lost at Wolborough just after half-way. On Monday afternoon Rutland was lost at Teignmouth while the rest of the party rang on the six at Bishopsteignton.

On Tuesday the attempts at Plympton St. Mary and St. Andrew's, Plymouth, were both successful. During the former there was ringing at Plympton St. Maurice, and in the afternoon at Emmanuel, Plymouth. On Wednesday morning a promising attempt for London at Chudleigh had to be abandoned owing to the indisposition of one of the band. There was extra ringing on the light six at Bickington. Belgrave failed at Bovey Tracey, and Bristol was successful at Moretonhampstead on Wednesday afternoon. The last failure of the week was at Babbacombe on Thursday morning, when London was lost five courses from the end. On Friday afternoon there was ringing at St. Thomas', Exeter, for those not in the peal at Heavitree. Broadclyst and Heavitree bells were outstanding in a week of very good bells.

DIFFICULT SITUATIONS.

The week was not without its difficult situations. One tall dark young man from Lincoln, who shall be nameless, had the misfortune on the night of his arrival to walk into the wrong bedroom. Finding a lady in bed, he made a tactful, if hasty, withdrawal. A difficulty later in the week was to provide supper for band ringing the handbell peal of Stedman Cinques. At least the supper was easily provided, but the mode of keeping it warm was of necessity a little unorthodox. We understand, however, that the particular method adopted is highly recommended and may at some future date prove useful to the ringers' wives faced with the problem of keeping a meal warm for their husbands returning from a late peal. The system is to enfold carefully a large quantity of fish and chips well wrapped up in newspaper in various blankets and eiderdowns and to place carefully on a bed. We understand that fish and chips can, in this way, be kept warm for several hours.

A number of impressions come to mind from the beautiful ride to Buckland-in-the-Moor to the scene in the ruined aisles of the bombed Church of St. Andrew, Plymouth. Instead of allowing this once glorious Parish church to become a desolate waste, the people of Plymouth have produced beautiful lawns and gardens on what was the floor of the church. The noble ring of ten is still quite intact, and it was a great experience to walk on Plymouth Hoe listening to Yorkshire Royal, the first for the Devon Guild, rolling out in the distance. .

In most of the towers we visited the 'go' of the bells was remarkably good. Evidently the call-change ringers have much to teach change ringers in many places on this important subject. A possible exception was Ipplepen. The locals were sceptical about our chances of scoring a peal. Indeed, their fears were almost justified. We started for Rutland, but after the clock had struck ten in a most violent manner the clock wire was jerked off the peg. With the clock hammer striking the tenor in addition to the clapper, it sounded as if Big Bill Beeson was doing about six lots of 5-6 places all at once. By the time we stopped, the tenor was down and clock hammer no more. However, we pulled the tenor up again and decided to start for Stedman Triples. Thus it was that Mark White's 60th peal was appropriately enough 'Pulling's Delight Triples.' From the warming Bill received in blowing behind, the change of music was just as well. The locals here were very impressed with the ringing. Two of them wanted to know how long it would take to learn change-ringing, and in the 'local' mine host enquired if we would be available to come and ring for the flower show. We believe that Mr. Bennett has been commissioned to forward details, so that this peal, the first on the bells, can be recorded in the tower.

On Saturday afternoon the bus developed slight engine trouble, but we arrived in due course at Okehampton, where the Vicar and Mr. F. C. Smale, the general secretary of the Devon Guild, awaited us in the tower. Spliced Surprise was rung on the tower bells, and four enthusiasts rang a peal of Bob Major on handbells in the vestry at the same time. The lovely ride back over the moors was a fitting conclusion to an eventful week.

KENT COUNTY ASSOCIATION—continued.

ing of these, perhaps, was William Latter, who guided the affairs of the Tonbridge District for 42 years, a record exceeded probably by one man only in any Association. Two others with equally creditable if not equally lengthy periods of service are Thomas Groombridge, sen., Lewisham District secretary for 21 years, and his successor, Alfred G. Hill, who is still in office after 23 years. Mr. Groombridge also represented the Association on the Central Council from 1906 to 1938.

BELLS AND THE LAY EAR

Dear Sir,—In a recent broadcast quiz programme, two competitors were asked to name the number of bells in the peal used as the B.B.C. interval signal. One said four, the other six. The question master then played a recording of the bells, and the competitors again said four and six respectively. When told they were wrong, one reluctantly raised his bid to eight! The question master then solemnly informed them that there were, in fact, twelve bells in the peal at Bow!

That these gentlemen could not tell how many bells were being rung in a few well-struck call changes may perhaps give us cause to think again when discussing the respective merits of the music of some of our methods and their effect on the layman.—Yours faithfully,

NORMAN PEARSON.

Amplifying Bells

Dear Sir,—The authorities of a church whose bells are at present unringable have written to me for advice about installing gramophone records and amplifier; they also have submitted a list of records which have been recommended to them as possible for their purpose. Without wasting your valuable space with either a summary of my reply or a list of the more reasonable records they suggest, readers of 'The Ringing World' might like to know some of the records on the list. They are as follows:—

(1) Bells of Westminster Abbey, York Minster, Coventry Cathedral, Bath Abbey and St. Mary's, Puddletown, rung on Victory Day, 1945. Commentator, Frank Phillips.

(2) Clock Chimes and Bells: (a) Quarter-hour; (b) half-hour; (c) three-quarter hour; (d) twelve o'clock (household clock); (e) Big Ben chimes and twelve o'clock Telephone Bell.

(3) Wedding Record: (a) Bridal March; (b) Wedding March; (c) Bells. New Year Record: (a) Big Ben chimes and twelve o'clock; (b) Auld Lang Syne; (c) God Save the King.

(4) Fire engine effects: (a) Bell; (b) Siren; (c) Bell and Siren. Clock Chimes and Bells: (a) Quarter-hour; (b) half-hour; (c) three-quarter hour; (d) twelve o'clock.

(5) Wedding March and Ringing Bells: (a) Midnight; (b) Angelus; (c) Peals (my comment: this must be a very large record).

(6) School Bell, Sleigh Bells.

(7) (a) Telephone bell (intermittent ring); (b) Three types of Clock Ticking. Big Ben striking the quarters and twelve o'clock.

When your readers have blown off sufficient steam, they might perhaps agree that some of the above might be quite useful, coming out of tower and steeple. Some might be used to proclaim the coming of snow, others to proclaim good news, bad news, or indifferent news. The Vicar might put on No. 4 (a) when sufficient people had rung him for one morning, and No. 4 (a, b c) could break up undesirable political meetings. Perhaps the best use would be to broadcast all seven records at once to demonstrate what the atomic age has brought us to.—Yours faithfully,

A. G. G. THURLOW.

EAST ILSLEY'S BELLS

Dear Sir,—In my letter published in last week's 'Ringing World' there are two mistakes: (1) The three trebles were added in 1921 and not 1922 as I stated; (2) only the 6th was recast when the trebles were added and not all the old five, as I said.

Please accept my apologies for errors.—Yours faithfully,

C. J. HIBBERT.

DUCK OR DABCHICK?

Dear Sir,—Your recent correspondence re the Aldbourne Bell Foundries has been both enlightening and interesting. I secured some years ago from a local shepherd one of Cor's bells. At that time it was still in use as a sheep-bell; it is now in Cheltenham Museum. This also has the founder's mark, depicting (as described by Mr. F. Sharpe) a duck.

May I suggest, however, that it is not a duck but a dabchick. Dabchick has been the nickname of Aldbournites for generations, and was probably adapted as a kind of trade mark by the Cor family. Maybe some of your readers heard broadcast recently on West Regional a narrative alluding to the bird and village which has made Aldbourne locally famous.—Thanking you, yours sincerely,

T. A. PALMER.

Yorkshire Surprise at Beaumaris

For some years the writer has had a keen desire to ring a peal at Beaumaris, and permission was sought and given in June, 1947. Unfortunately he chose a date that clashed with Chester Guild meetings at Frodsham and Macclesfield and, despite a great effort by Mr. J. C. E. Simpson to get a band, the attempt had to be cancelled a week before the date fixed as only seven men were available. That year the writer had to content himself with a view of the church from a steamer in the Menai Straits, when he vowed he would return the following year and ring a peal of Yorkshire.

His first task was to convince his wife that North Wales was the ideal place for a holiday in 1948. This was not difficult, and the next step was to consult the Cheshire men as to a suitable date. That settled, an application for permission was again made early in the year, and again the application was successful, Mr. Jones, the local captain, assuring the band of a hearty welcome. On Tuesday, June 29th, a card was received from Mr. Simpson saying everything was O.K., and on Friday, July 2nd, the writer set out for Chester on the first stage of his journey.

At 10.30 a.m. on Saturday, however, the plans received a severe jolt when one of the band rang up Mr. J. E. Bibby at Frodsham to say he was unable to come. Mr. Simpson, who had by then arrived, was consulted, and Mr. Bibby sent his wife to Runcorn to try and persuade Mr. W. E. Allman to stand in. At 11 a.m. Mrs. Bibby rang up to say Mr. Allman would go, so the situation eased again.

Meanwhile, the writer was speeding through North Wales sublimely unaware of the frantic efforts being made at Frodsham. Having safely deposited his wife and young daughter—to say nothing of the luggage—at Llandudno, he unobtrusively withdrew from the scene and boarded a bus for Bangor and thence to Beaumaris, arriving at 1.50 p.m. The peal was to start between 2 and 3 p.m.

The first man he spoke to in Beaumaris was, strangely enough, Mr. Jones, the local captain, who had everything ready. The bells had been oiled, the ropes were in good order, and the condition of the bells and ringing chamber was a credit to him. At 3 p.m., no one else had arrived, but Mr. Jones was assured: 'Don't worry, they'll come all right.' This assurance was repeated at 3.30 p.m., but with a note of anxiety, and at 3.45 p.m. the assurance was repeated with a slightly greater note of anxiety. Shortly afterwards, however, four of the band arrived, and whilst waiting for the arrival of the other three a touch of Grandsire Doubles was rung, conducted by Mr. Jones.

At 4.20 p.m. a start was made for the peal, and after two hours and fifty-seven minutes 'That's all' was called. The writer has made that call on quite a few occasions, but seldom indeed with such a glow of complete satisfaction as on this occasion. The peal itself was without incident, as was to be expected with that band.

A call was made for light refreshments, and this brought out maps of Somerset, but that will be another story.

Winchester and Portsmouth

GUILD SUBSCRIPTION INCREASED.

The annual meeting was held at Andover on July 3rd and was attended by over 60 members and friends representing seven of the eight districts of the Guild. At the general meeting presided over by the Master (Mr. G. Williams), the chairman of the Andover District (Rev. A. S. Gidlow), welcomed the gathering and expressed his pleasure in meeting them. The Master was supported by Mr. F. W. Rogers (hon. general secretary) and Mr. W. Linter (hon. treasurer).

The accounts and balance sheets as printed in the annual report were unanimously adopted, and the treasurer thanked the district secretaries for their valuable work in collecting the subscriptions.

To meet the increased cost of maintaining the Guild's activities and to retain its financial stability it was decided to increase the annual subscription of ringing members from 2s. to 3s. to operate from January 1st, 1949.

Election of officers resulted as follows: Master, Mr. G. Wiliams; hon. general secretary, Mr. F. W. Rogers; hon. general treasurer, Mr. W. Linter; hon. auditor, Mr. G. Smith; recorder of peals, Mr. A. V. Davis.

It was decided to adopt a war memorial scheme, and a sub-committee was appointed, consisting of the officers and district secretaries to examine various proposals from all districts and to report to next annual meeting. One scheme that was suggested was to increase the peal at Portsmouth Cathedral to ten in conjunction with any assistance that might be agreed upon by the Cathedral and/or civic authorities. The general secretary said he would approach the Provost and see if he was sympathetic to such a scheme if the Guild decided to adopt it, and possibly provide one of the two new bells.

The next annual meeting was arranged to be held at Southampton on July 2nd, 1949.

It was pointed out that next year would be the 70th anniversary of the founding of the Guild, and it was agreed to hold a meeting at Basingstoke (where it was founded) on June 25th. The foundation date was June 26th, 1879.

Tea was served after the Guild service was held in the Parish Church. Various rings of bells around Andover were available to members during the day.

NORTHILL'S VICTORY BELL

On the morning of July 7th a party of ringers and friends left Northill, Bedfordshire, for London. The main objective was the foundry of Messrs. Mears and Stainbank, where Northill's new victory bell was to be cast that afternoon. At the foundry, the party, which now included ringing friends from St. Andrew's, Biggleswade, was welcomed by Mr. Hughes.

The great moment arrived. A shower of silver coins and a gold ring enriched the molten bell metal and, with a few little 'refrains,' coupled with expressions of good luck, the bell was cast.

The rest of the day passed very quickly and enjoyably. Two ladies who nearly missed seeing the bell, and the two gentlemen who had fillet of beef for lunch will long remember the day when Northill's victory bell was cast.

Midland Counties Guild

VISIT THE CATHEDRAL OF NEEDWOOD FOREST.

The summer meeting of the Midland Counties Guild was held at Hoar Cross on Saturday, July 17th, when 40 ringers and friends assembled from Burton St. Paul's and St. Modwen's, Ashby, Repton, Winshill, Lullington, Seales, Derby St. Luke's and St. Peter's, Wolverhampton, Asbury (Cheshire) and Longton.

On the outward journey a short stay was made at Barton-under-Needwood, where Stedman and Grandsire Triples and Bob Major were rung before continuing the journey to Hoar Cross.

Much could be written of this beautiful church, with its wonderfully carved Stations of the Cross, being the work of two Antwerp craftsmen. It is interesting to note that the stations came over to England in the plain carving, the beautiful rich colouring and gilding being executed at Hoar Cross under the guidance of the foundress, Mrs. Meynell Ingram.

The carved and decorated chancel screen and Calvary, the glorious stained glass windows, all combine in giving this beautiful church a cathedral-like atmosphere.

The Vicar (Rev. G. N. Strong) conducted a short service and spoke of recently visiting a bombed cathedral and the bells ringing out with all their triumphal and victorious notes of joy amidst the ruins, and in conclusion the Vicar appealed to the ringers not to dissociate their ringing from the church services.

Following tea in the Meynall Ingram Arms, it was decided to invite the Derby District of the Derbyshire Association to a joint meeting at Repton on August 21st.

Votes of thanks were passed to the Vicar for use of the bells and for the address, to the organist who deputised at short notice, and to the local members for tea arrangements.

Methods rung during the visit included Grandsire, Stedman and Plain Bob Doubles, Oxford Bob, Double Court Kent T.B. and Cambridge Surprise Minor.

ELY DIOCESAN ASSOCIATION

CAMBRIDGE DISTRICT MEET AT GUILDEN MORDEN.

In these days of petrol rationing, a meeting at an isolated tower is always a doubtful venture, but thanks to visiting ringers from the Bedfordshire and Hertfordshire Associations, the meeting at Guilden Morden on Saturday, July 10th, was a great success. After the service, a substantial tea was enjoyed at the Three Tuns. We feel sure this was needed by some of our younger members, who had cycled about twenty miles; we only hope they did not take the wrong turning on the way home as did the writer on his Rolls Royce auto-cycle.

A very welcome visitor was Mr. Pratt, from Holywood, Northern Ireland, on holiday in Cambridge, who at the meeting following tea extended a hearty invitation to any ringers visiting Northern Ireland. All were very pleased to see our secretary, Mr. H. Martin, with us again after his operation.

Good striking was somewhat hindered by the treble being disinclined to go up at back-stroke, but when someone obligingly broke the stay this difficulty was overcome, and the ringing concluded with some good London and Cambridge Minor.

The first peal in this method, which is Yorkshire below the treble and Pudsey above, was rung at St. Mary's, Prittlewell, on April 3rd, 1948, for the Essex Association, conducted by P. A. Corby.

OUTING

WARMINSTER RINGERS TOUR THE HARDY COUNTRY.

This year Warminster ringers toured Dorset, and the Thomas Hardy lovers were able to see Shaston, Egdon Heath, Coomb Castle and other well-known Hardy spots.

Ringing began on a fine eight at Blandford's semi-classical 18th century church, with Grandsire Triples (successfully) and Stedman and Plain Bob Major (less accurately). Next another fine eight at Wareham—another interesting church with its unique hexagonal lead font. Here Dr. Cunningham welcomed and rang with the band.

After lunch at Swanage, some enthusiasts dashed off to Corfe Castle to 'snatch a tower.' They were unsuccessful as a funeral was in progress. A hurried return to Swanage brought its reward with ringing at St. Mary's, where Wimborne and Swanage ringers were holding a practice.

Kingston, with its beautiful church of polished Purbeck marble, was the next stop, and again a good ring of eight was much appreciated after an exciting chase round the village for the key (and Test match news!).

It was decided to try Corfe Castle once more and this time the tower was available. But the six were found difficult to ring, the fact that the fourth was tucked away behind the clock case adding to the excitement. However, a touch of Grandsire Doubles came round to everyone's surprise, and the band went on to St. Peter's, Shaftesbury, to ring on a pleasant six the best touch of the day, some well-struck Bob Minor. SARUM REPORTS

WHILE there is a note from the Master (the Rev. C. Carew Cox) expressing regret that paper restrictions and the increased cost of printing has curtailed the report of the Salisbury Diocesan Guild for 1947, it contains much of general interest.

Peals and meetings, comments the Master, give some indication of activity and advance; but the solid work of implanting the aims of the Guild and the steady tuition going on rarely comes into the limelight, yet that is how the seeds of progress and fraternity are sown. An outstanding example of this is the work of Mr. L. A. Wilson, whose 50 years' association with Wootton Bassett Church and his able piloting of the Calne Branch received fitting recognition by the new treble at Lyneham being inscribed with his name.

Ringers have often been accused of isolationism. The Rev. C. Carew Cox takes up this point and suggests that the objects and work of Diocesan and County Guilds are not perhaps so well known to the public as ringers might think. He suggests the holding of a Ringers' Sunday occasionally, if not annually, as an effective way of enlightening people about the high ideals of this branch of Church service and for gaining support when restorations and augmentations to bells are projected. As an example, he quotes Fordington St. George, where the Ringers' Sunday provided the opportunity for launching an appeal to rehang the bells.

The Rev. F. Llewellyn Edwards, who has been hon. secretary of the Guild since 1913, calls attention to the 50 peals rung during the year, which he states 'afford proof of greatly increased interest in change ringing and of valuable work quietly and steadily done by those engaged in giving instruction and assistance in different parts of the Diocese.' A peal rung on the fine bells of Bishop's Cannings was a signal achievement—the first of Stedman Triples for all the band. A peal of Bob Major at Warminster marked the completion by Mr. E. F. White of 50 years' devoted service in that tower, while another of Bob Minor at Hilperton celebrated the 78th birthday of Mr. W. J. Mees, with a record of 75 years as a a ringer to his credit! When the Master of the Winchester Guild attained his 90th birthday eight members of the Salisbury Guild invaded the neighbouring Diocese and rang a peal at Sherfield English in his honour. First peals have been duly rung on the augmented octaves at Amesbury and Downton and on the new bells at Martinstown.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

The history of the Kent County Association will be resumed next week.

We regret to record the death of Mr. James E. Bailey on July 26th at the early age of 35. A memoir will appear next week.

Doubles methods rung to a peal have now reached 42. Mr. Alan R. Pink's band is certainly making history.

The peal at Chatham on July 21st was in honour of the King's visit to the naval town. The band was composed of members who are in His Majesty's service.

Visitors are prominent in peals this month. At Mulbarton, Norfolk, there were performing Mr. W. Martin Walker (Ulceby, Lincs) and Mr. George Davis (Hereford).

Three noted personalities in the Yorkshire Association rang their 100th peal together at Pudsey on July 21st. It was also the 100th peal of Mr. F. Hodgson. The occasion was memorable.

That well-known Lancashire ringer, Mr. Charles Sharples, is leaving St. Anne's shortly to reside near Bude, Cornwall. A farewell peal was rung on July 24th.

The combined meeting at Yorktown on August 21st, in which three Guilds are participating is being planned on a big scale. Seven towers will be available, and a coach has been engaged to take the ringers round. Particulars are advertised in this issue.

It is unique to find that two ringers rang their 500th peal within two days of each other. Mr. E. Jenkins rang his at Skipton, Yorks, and Mr. Leslie C. Wightman at Framsden, Suffolk.

Mr. Wightman is probably the foremost eight-bell conductor in Suffolk. He is a member of the noted Helmingham band which before the war rang so many Surprise Major peals in new methods. We hope to publish his list at an early date.

Mr. Wm. Taylor, of Penwortham, who was recently elected vice-president of the Lancashire Association, hopes to be discharged from hospital in the near future. He had the misfortune on March 16th to fall and break a fibula, which has rendered him hors de combat.

To commemorate the 93rd anniversary of the consecration of St. John's, Deptford, on July 19th, two quarter-peals were rung by members of the society. The first, 1,260 Grandsire Triples, was called by John Warner, jun., the youngest member of the society, and the other, 1,260 Stedman Triples, by the oldest member, George H. Daynes.

The wedding of two well-known North Country ringers, Mr. C. Glenn and Mrs. J. Cotterell, took place at Grantham on July 29th. To celebrate the occasion the local band rang on the bells of St. Wulfram's 1,295 Grandsire Caters: Miss I. Johnson 1, S. Proctor (conductor) 2, P. Turner 3, E. Nidd 4, W. Thorpe 5, F. Parsons 6, A. Mackears 7, J. Cragg 8, T. Hall 9, R. Pick 8.

Mr. James George has been in hospital at Poole and had to undergo a serious operation to his stomach. He left the hospital on July 26th and returned to 118, Rossmore Road, Parkstone, Dorset. He writes to say that he is now improving. In conveying greetings, Mr. George reminds the heavy-bell fraternity that he still holds the record of turning in the tenor to 12,240 Treble Bob Maximus at Ashton-under-Lyne in 8 hours and 39 minutes on April 17th, 1911.

LETTERS

PEAL WITHDRAWN

Dear Sir,—I wish to withdraw a peal of Treble Bob Royal, conducted by myself at St. Mary's, Stockport, on December 26th, 1936. The peal was composed by Mr. J. Tebbs, of Leeds, and is published in Snowden's 'Treble Bob.'

This composition was found to be false after ringing the peal of Treble Bob Royal at Christ Church, Macclesfield, on Saturday, July 17th, 1948, using the same calling. Mr. C. K. Lewis was in the band, and he spotted the repetition while the peal was in progress and confirmed it afterwards.

I tender my apologies to both bands, and especially to the Rev. A. Clarke, Vicar of Christ Church, and his wife, for whose silver wedding the peal was rung.

THE COMPOSITION.

5,040 Treble Bob Royal by J. Tebbs.

23456 M. W. H.

1. 56342 1 2 2
   64523 2 2
2. 42356 1 2
   Twice repeated.

Yours faithfully,

J. WORTH.

Macclesfield, Cheshire.

TRAVELLING BELL FOUNDERS

Dear Sir,—The information given by Mr. Shepherd of bells cast by a founder with initials 'R.B.' is interesting. He must have been a travelling bellfounder and visited Yorkshire. The fifth and tenor of the ring of six in the fine tower of Driffield Parish Church bear 'R.B.' The inscriptions are as follows:—

Treble, 'Praise Him in His Holiness.' John Warner, 1879.

2nd, 'Praise Him in His Power.' John Warner, 1879.

3rd, 'Let everything that hath breath praise the Lord.' H. Newton, Vicar. John Warner, 1879.

4th, 'Gloria in Altissimo Deo,' 1685, S.S. Ebor, T. D., Churchwarden.

5th, 'In Honore Sancte Trinitatis: Anno Domini, 1593. R.B.'

Tenor, 'Hec Campana Beata Trinitate: Fiat, A.D. 1593. R.B.'

Diameter 40¼in., approximately 11 cwt.

York. F. ATKINSON.

DEDICATION

AYLESTONE, LEICESTER.

On July 18th, at morning service, two new treble bells were dedicated at St. Andrew's Parish Church, Aylestone, Leicester, by the Right Rev. J. J. Willis, Assistant Bishop of Leicester. The ring has now been increased to eight bells.

One new bell is to be a war memorial to those of the congregation and parish who made the supreme sacrifice in the World War, 1939-1945, and the other to be in commemoration of the faithful departed who had served and worshipped in the church for past generations. The treble of the old six has been recast and the whole rehung in a new frame. The scheme has been carried out by Messrs. Gillett and Johnston, Croydon.

During the service, rounds and call changes were rung by the local band, who afterwards expressed complete satisfaction with both the tone and 'go' of the bells. Aylestone now possesses a splendid octave, tenor 15 cwt. 3 qr. 21 lb. in F.

After the service, a course of Grandsire Triples was rung, and the ringers received many congratulations. The bell founders were represented by Messrs. D. Bradford and B. Newson.

Wednesday has been fixed for the weekly practice, and a warm welcome awaits all ringers.—F. E. W.

Devonshire Guild

MEETING AT KINGSKERSWELL.

A quarterly meeting of the Mid-Devon Branch was held at Kingskerswell on July 24th, when visitors came from Buckerell, Kenn, Newton Abbot, Paignton, Dartmouth, Ashburton, Totnes and Buckfastleigh. The president and general secretary attended, and a welcome visitor was Mr. Peter Crook, sen., of Bolton.

The handy ring of six bells was well utilised during the afternoon, and this was later followed by a service in church conducted by the Vicar (Rev. A. C. F. Rowe).

After an outdoor tea at the Whitpot Mill in very pleasant surroundings, the usual business meeting followed, presided over by Mr. J. E. Lilley (branch chairman). A letter was read from the Rector of Highweek, expressing great appreciation for the recent collection taken on behalf of the Highweek Church Restoration Fund. Regret was expressed at the illness of Mr. W. C. Wakley, of Paignton. Two non-members and three ordinary members were elected.

In accordance with the 1948 programme the quarterly meeting is due to be held in Torquay on October 30th, and the question of a visit to Dartmouth was left to the branch committee to arrange.

Methods rung during the afternoon and evening were Grandsire, Stedman, and Plain Bob Doubles, Plain Bob and Kent Treble Bob Minor.—A. L. B.

KENT COUNTY ASSOCIATION

CANTERBURY DISTRICT.

The quarterly meeting of the Canterbury District, Kent County Association, was held at Chartham on July 24th.

A fine warm afternoon attracted some 60 members and friends to the village and its ancient church, a point of interest in which is one of the oldest brasses in the country, the same being in perfect condition. The church also contains some original stained glass, and it was a pity to see that some of these panes had been broken recently by stone throwing.

Ringing during the afternoon was followed by the usual service, this being conducted by the Rural Dean, the Rev. G. Brade-Birks, Vicar of the adjoining parish of Godmersham.

Tea was held in the Cadets' Hut, and after a 'Dilnot tea' had been disposed of the usual business meeting was held. Five new members were elected, with one new tower, Eastry. Sturry was voted out of three towers nominated for the place of the next by-meeting.—B. J. L.

BATH AND WELLS ASSOCIATION

CHEW DEANERY BRANCH.

A quarterly meeting of the Chew Deanery, held at Wraxall on July 17th, was attended by ringers from Nailsea, Wraxall, Weston-Bath, Bristol, Abbot's Leigh, Clifton, Mark, Long Ashton, Wrington, Badgworth, Clevedon, Weston-in-Gordano, Chew Magna, Marksbury, Keynsham, Monmouth, with members of the Western Branch of the Ladies' Guild.

Ringing commenced at 3 p.m., and there was a short service in church. At the business meeting which followed tea in the Battle Axes Inn, Chew Stoke and Weston-in-Gordano were selected as venues of the monthly practices in August and September, with the quarterly meeting at Portishead on October 9th, instead of October 16th (the proper date for this fixture), in order to avoid clashing with the Major Hesse memorial peal attempt at Wrington, an annual event on the third Saturday in that month.

Ringing continued throughout the evening in standard methods, and the bells at Nailsea were also available.—E. G. C.

Beverley and District Society

A CIVIC WELCOME.

The Mayor and Mayoress of Beverley (Mr. and Mrs. T. A. Smedley) welcomed the society when it held its annual meeting at Beverley on July 10th. In addition to 100 representatives from 22 towers, there were a number of visitors, including Mr. John Anderson, Deputy Ringing Master from Newcastle-on-Tyne.

The service was held at the Minster, and was preceded by a splendid touch of Grandsire Caters. The Vicar gave the address.

The Mayor, in his welcome, congratulated the society on attaining a membership of 170 in its second years. If people could not be found to devote their time and talents to the old arts they would be lost and posterity would be decidedly the poorer.

The president (Mr. G. F. Williams) presided over the business meeting. The committee's report recorded that 11 monthly meetings had been held, with an average attendance of 51. The greatest achievement of the year had been the fact that the bells of All Saints', Duffield, had been brought into service after a silence of approximately 50 years.

In moving the adoption of the report, Mr. D. Meadley said all members should be grateful to the committee for such sustained efforts to promote the welfare of the society.

The officers were re-elected, and the following were elected new members: Mr. F. G. Goddard (Barton), Mr. and Mrs. Greeves (Carlton), Mr. H. Must and the Rev. Massingberg Mundy (Market Weighton).

Bridlington will be the venue of the meeting on August 14th, and for the September meeting an invitation from Barton-on-Humber was accepted.

Votes of thanks were passed to the Mayor and Mayoress, the Vicar and all who had helped in a successful meeting.

WEDDING BELLS

REYNOLDS—MURTHWAIT.

A marriage of interest to members of the Lancashire Association was solemnised at Prestwich Parish Church on July 17th. The bridegroom was Mr. Frank Reynolds, secretary of the Manchester Branch, and conductor of the Prestwich band, and his bride Miss Joan Murthwait, of Manchester. The service was conducted by the Rector of Prestwich, Canon F. Paton-Williams, assisted by the Rev G. Moores (curate).

The bride, who wore a gown of slipper satin, wreath and veil, and carried a bouquet of tea roses, was given away by the Rev. R. D. St. John Smith (chairman of the Manchester Branch). Twin sisters, Misses J. and M. Brown, were the bridesmaids, and Mr. H. Cole carried out the duties of best man.

Handbells were rung at the reception, the bridegroom being among those taking part. A peal attempt at Prestwich in the evening unfortunately did not materialise, the stay and slider on the second jamming when nearly three-quarters of the peal had been rung.

The honeymoon was spent at Bakewell. The bridegroom took part in the ringing there the following day, thus proving that 'a leopard cannot change his spots'!

STONEY STANTON, LEICESTERSHIRE.

St. Michael's ringers had their first annual outing when they visited Derbyshire on July 24th. At Wirksworth the party was welcomed by Mr. B. Greatorex, Ringing Master, and at Darley Dale by Mr. G. Paulson. Everyone was delighted with the ringing at both towers.

Tea was enjoyed at Matlock Bath, and several of the younger members enjoyed a row on the river. On the return journey there was an hour's stay at Kegworth. It was hoped that this would be the first of many outings.

OUTINGS

IN THE COTSWOLDS.

North Bradley and Steeple Ashton ringers held their annual tour amid the pleasant and picturesque Cotswolds.

Before lunch, ringing was enjoyed at Lechlade and Fairford (a good eight), and then came the light eight at Coln St. Aldwyn. The route to Bourton-on-the-Water was through lovely country. After an hour's ringing the party visited the model village situated in the garden of the local hotel.

After tea, ringing was enjoyed at Northleach and on the easy-going bells of Watermoor Church, Cirencester. Much of the good day's outing was due to Mr. H. Gummer, who made the arrangements.

ST. MARY'S, PORTSEA.

The ringers of St. Mary's, Portsea, together with friends, held their annual outing on July 24th. Travelling by way of Winchester, the first stop was at Highclere, where the melodious ring of eight, situated in beautiful surroundings, was soon set going to touches of Stedman and Erin Triples, Double Norwich, Bristol and four Spliced Surprise Major.

It had been planned to next ring at East Isley, but the presence of the death watch beetle prevented this. However, after a delightful run via Newbury, a stop was made at Abingdon for a picnic lunch by the riverside. Here the ringers were met by Mr. and Mrs. A. E. Lock, who arranged for a pull on the ten at St. Helen's at short notice. The bells were soon off into Grandsire and Stedman Caters, finishing with three leads of Treble Ten.

After bidding farewell, the coach was rejoined and the journey continued to Oxford. Here the ringers were met at All Saints' by Miss M. R. Cross and Walter Judge, who had everything in readiness, and the bells were soon off in touches of Stedman Triples, Double Norwich and Spliced Surprise Major. Whilst the last touch was in progress, some of the party made their way to St. Ebbe's, to be later met by the remainder, and various touches up to Spliced Surprise were rung, not forgetting a touch of Stedman, described by one of the locals as 'handbell-pace.'

A sumptuous meat tea was provided at the Angel Cafe, to which full justice was done. After more farewells, the return journey was made via Pangbourne to Goring-on-Thames, where a delightful ring of eight was enjoyed to the full in touches of Stedman Triples, Double Norwich, London, Cambridge and Spliced Surprise Major. The long journey home was continued, with a stop for refreshments, via Basingstoke, Alton and the Meon Valley, arriving about 11 p.m.

REDENHALL AND DISTRICT.

Redenhall company, with friends from Diss and Saxlingham, for their outing paid a visit to Essex, working back via Suffolk.

Leaving Harleston at 7 a.m., the first stop was at Halstead, where the bells were soon going to Treble Bob and Double Norwich. On to Bocking, and this fine eight were enjoyed by all. Some more ringing at Braintree preceded lunch, after which the party arrived at Sudbury in time for a wedding. Seven of the company were in time to peal out in 'wedding ringing,' while the rest were more intent on seeing the bride. However, good use was made of the bells of these two towers.

Bury St. Edmunds was the last call, and the bells of St. Mary's and the Norman tower brought the ringing to an end.

The methods ranged from rounds to Superlative. Home was reached at 11.15 p.m., the thanks of the party being due to Mr. Cyril Barber, the organiser, and to those who welcomed the company at every tower visited.—G. W. H.

MEDIEVAL FOUNDRIES

IN 1947 we published an editorial dealing with the survey of Mr. Frederick Sharpe in the 'Church Bells of Radnorshire.' This survey has now been completed and the six parts are bound in one volume (price 10s.). This work is not merely an illustrated archæological catalogue. Mr. Sharpe has pieced together the data found among the little known bells of Radnorshire and, with the aid of explanatory notes, throws considerable light upon the activities of medieval foundries. There are also histories of the three main firms in industry today, which are of topical interest.

Two bells of the 13th century remain in Radnorshire, one at Bryngwyn being still sound after seven centuries of continuous use. This bell has no founder's marks. The other at Llanfaredd can be definitely ascribed to the Gloucester founders, on account of the initial cross. There are eleven bells in this county of the medieval period (1300-1540), one of the transitional period (1540-1600) and 24 of the seventeenth century. This wealth of data is full justification for Mr. Sharpe's survey.

There were three medieval foundries of note in the West Country. The Bristol foundry can be traced back to 1296, with Walter le Bellyetar as the craftsman, followed by Johannes Belleyettare between 1300 and 1325. Records of the Gloucester founders also extend back into the 13th century. The name of Hugh, the bell founder, occurs in 1270, and that of his daughter, Christiana la Belyutere, in 1303. They were followed by Sandre of Gloucester, *circa* 1320, and John of Gloucester, *circa* 1346.

Much of this early information is due to the research of Mr. H. B. Walters. He places the Worcester Foundry also in the 13th century, the first name mentioned being Simon le Belyetere, who is mentioned in a charter of Worcester dated 1280; the seal of Richard le Belyetere occurs in a deed of 1306 and John le Belyetere is mentioned in a document of 1347. No existing bells can be definitely ascribed to these men, but they were succeeded by a founder whose bells, dating from about 1400 to 1420, are fairly numerous.

The Worcester founders flourished in the early 17th century with John Green and Zachery Green, Godwin Baker, Simon Baker and Richard Dawkes. Between 1590 and 1700 there was a foundry at Wellington, Shropshire, worked by the Clibury family, and at Shrewsbury

between 1685-1700 by Ellis Hughes. Contemporary with them were John Finch, of Hereford, John Merton, of Worcester, the Chepstow Foundry and, of course, the Rudhalls, of Gloucester, from 1679 until 1830.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

To ring his first peal for his golden wedding was the unique experience of 73-year-old Mr. George E. Monk, of St. Mellons, Monmouthshire. He has been a ringer at the church since the installation of the bells in 1914. He is looking forward to another peal in honour of his diamond wedding.

Mr. Trevor M. Roderick has now 'circled' Newton Nottage, Glam, tower.

Correction: In the peal of Superlative Surprise Major at Drighlington on July 17th, the ringer of the seventh was Gordon Benfield.

Mr. P. W. J. Harding, captain of North Bradley, Wilts, tower, has twice completed 'the circle' there.

Mr. Arthur B. Crawford rang his first peal for 42 years at Rampton, Notts. He was the donor of the treble bell at this tower.

Two ringers reach their 100 peals this week—Mr. Charles E. J. Norris at Bobbing, Kent, and Mr. Fredk. H. Crawley at Wistaston, Cheshire. Congratulations!

The peal at Crowan, Cornwall, was rung in honour of the birth of a grandson to Mr. W. H. Southeard, Master of the Truro Diocesan Guild.

At his eighth attempt to ring the tenor, commencing 21 years ago, Mr. Alban Disney has now 'circled' Anstey, Leicestershire, tower.

An aptitude for method construction has 16-year-old Harry Poyner, a pupil of Mr. Harold J. Poole, who was only introduced to ringing last February. He hopes to have one of his efforts rung at an early date.

Mr. C. F. Neal, of St. Matthew's, Upper Clapton, London, would like to thank Mr. Parsons and all who came to ring at the above church on the occasion of his wedding. It was much appreciated.

The Exercise will regret to learn that Mr. Walter Ayre, the Master of the Royal Society of Cumberland Youths, is in the Men's Ward, West Herts Hospital, Hemel Hempstead. While on traffic duty as a superintendent of Special Constables on August 2nd he was knocked down by a car from behind. The ligament in his left knee was torn and there were various cuts, bruises and concussion. He is not optimistic for an early release from hospital.

The peal at Croft, Leicester, on July 29th, was Ernest Morris's 900th tower-bell peal.

Noted with pleasure is the progress in the New South Wales Association. Apart from a quarter of Doubles in 13 methods, they have rung their first quarter 'in hand' (Doubles, two methods), which they believe is the first quarter by a local band in Australia.

Some 38 ringers from eight universities are participating in the Universities' Association's week at Chester, which starts to-day. There will be peal attempts at Frodsham, Christleton, Old St. Mary's, Chester, and Eccleston, and a full programme for non-pealers.

We are asked to state that the peal rung at Bergh Apton on May 17th was of Minor in three methods (two extents each of Oxford and Kent Treble Bob and three of Plain Bob) and not as published in our issue of July 23rd.

Last October an appeal appeared on behalf of Beoley bells, Worcestershire, stating that the tower of the church was unsafe and required considerable repair and that the historic ring of six was to be rehung by Messrs. Gillett and Johnston. The Vicar (the Rev. L. J. Birch) writes: 'I am happy to inform you that the whole of the work is now completed and that we have sufficient funds in hand to defray the cost. A thanksgiving service was held on July 31st.'

THE KENT COUNTY ASSOCIATION—2

In the matter of peals, the Kent County Association has been well to the fore. Up to the end of 1947 the total was 5,377, a record for an Association which throughout its existence has covered one county alone. By no means all these could have been rung for selfish reasons—1,107 of Grandsire Triples, 779 of Minor and 451 of Bob Major are included—yet it is a curious fact that, considering its nearness to London and the relative ease of access to most of the county's towers, a comparatively small number of peals in the higher methods have been recorded. It is equally strange that in breaking fresh ground in method ringing, Kentish ringers have relied to a large extent on conductors born outside the county's boundaries—to 57 at least of the 103 first performances up to the end of 1939 does this apply. Why this should be is hard to say; Kent is little different in character from its neighbours Essex and Sussex, yet on the whole much higher standards of ringing have been maintained in these two counties.

The first peal of all for the Association was Bob Major at St. Mary's, Frittenden, on Oct. 31st, 1881. This was conducted by Thomas Daynes, who had taken part in a peal at Goudhurst in 1854; his son, George H. Daynes, is still ringing at Deptford, father and son having thus spanned almost a century as ringers. Another who took part in this first peal was Charles Slingsby, who died in 1938 at the age of 101 years

Progress was slow at first. It was not until 1889 that the secretary was able to report that 'The Association is to be congratulated on having at length achieved peals of Treble Bob Major, Stedman Triples and Grandsire Caters,' and all of these were called by a well-known London ringer.

28 'FIRSTS.'

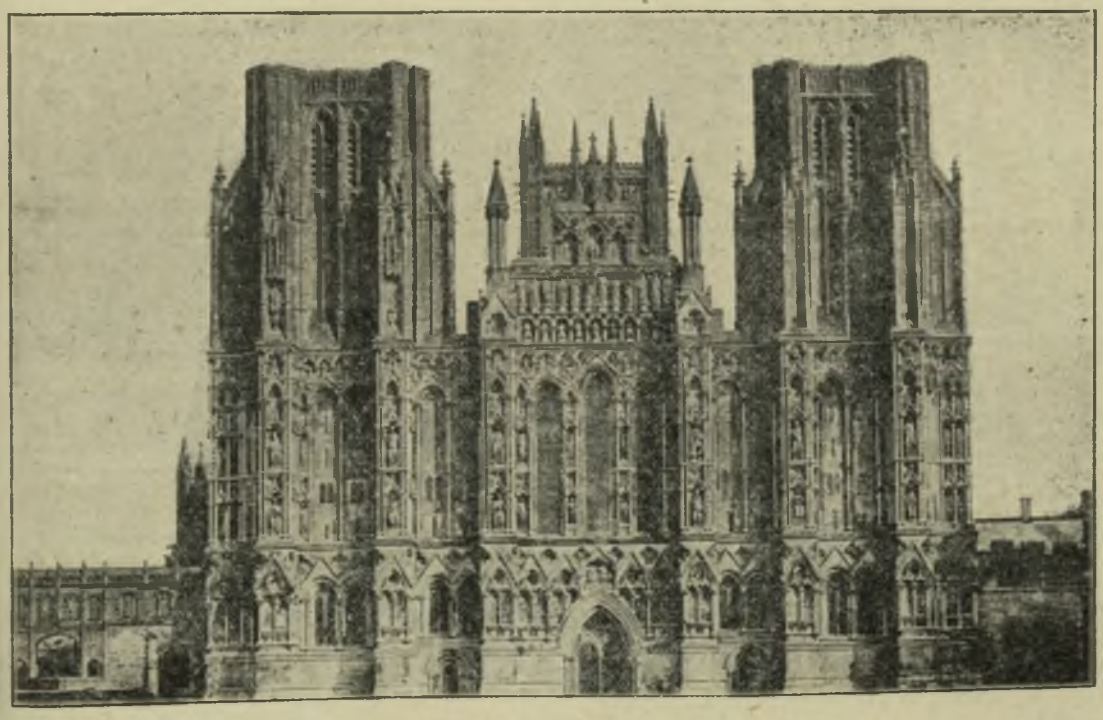
Double Norwich was added in 1892 by a local band at Crayford, by Edwin Barnett, sen., who called 28 'firsts' for the Association in days when variety in method ringing was not nearly so common as it is now. In the following year Superlative and Cambridge Surprise were rung at Gillingham, also by a local band under the conductorship of Gabriel Lindoff, later to become so famous as a composer and who was then serving at Chatham in the Royal Engineers.

The Association's first twelve-bell peals were not rung until 1904. Stedman Cinques was first, at Quex Park, conducted by John H. Cheesman, who was probably the most brilliant ringer and conductor the county has produced and one of the still comparatively few ringers to accomplish over 1,000 peals (830 were for the Association, the most by one man, the runners-up being Herbert E. Audsley with 715 to date, and E. Barnett, sen., with 603). The same band added a peal of Maximus on the following day.

The arrival in Kent of Frank Bennett at about the same time led to a revival of advanced method ringing, and under his able conductorship a band drawn from in and near London, in addition to ringing many other peals up and down the county, scored the Association's first peals of Forward, Duffield, Double Norwich and Cambridge Royal. Cambridge Maximus—with most of the ringers drawn from William Pye's band—was not rung until 1922.

A great many methods have been added since that date, mostly in North Kent, but a recent revival of fortunes in the Ashford District leads one to hope that honours in this field will be shared out rather more in the future.

The Association has few long lengths to its credit, but four peals of over 10,000 changes have been recorded at St. John's, Erith, the most notable being the then Double Norwich record of 15,072 changes on April 3rd, 1899. In August, 1901, 10,080 changes in nine Minor methods were rung at Tunstall, conducted by William H. B. Wilkins.



Apart, however, from first and record peals, there have been many of more than passing interest, and not the least noteworthy were two 'silent' performances of Holt's Original peal of Grandsire Triples, the first at Aylesford in 1892 and the other at Tonbridge in 1930. It is probable that the former peal was thought of some time before it actually took place, for the Minutes record that in October, 1887, 'an application was heard from Mr. H. Pearce, of Maidstone, who proposed to find a band of members of the Association to ring a peal of Grandsire Triples silent, i.e., without calling, and a grant of £2 was made to enable him to secure the services of two London ringers, not belonging to the Society, to attend and take off the peal, so as to ensure its correctness'! Whether the £2 was so expended, or did not prove sufficient inducement, is not stated.

NAME PEALS.

The Association's first peal of Bob Maximus, at St. Leonard's, Shoreditch, in February, 1914, was the first to be rung in that method in London for over a hundred years, while another notable twelve-bell peal was the first on the new bells at Canterbury Cathedral in 1924, one of Stedman Cinques, in which eleven of the band, including the conductor, Edwin G. Buesden, rang their first peal on this number. Two name peals, each the first of its kind—one by 'Edwards' and the other by 'Edwins'—have been recorded, while the 'Fredericks,' the 'Williams' and the 'Charles' have scored peals with bands resident in Kent.

In the early part of 1930, Albert Relfe called peals at Lamberhurst in 21 and 26 Spliced Surprise Minor methods, both records at the time. These were rendered even more creditable by being performed by a local band.

Space forbids mention of more than this somewhat random selection of peals, though it may be worth noting that the first peal to be rung after the lifting of the ban on ringing in 1943 was for the Association at Crayford. There have, of course, been many others worthy of mention, and many ringers who deserve mention for the good work they have done. One name cannot be omitted. It is pleasant to be able to record that one who was present on that Whit Tuesday over 68 years ago is still a member of the Association, and very much on the active list—Mr. Edward S. Ruck, of Willesborough, near Ashford, who only last November took part in a peal for the Royal Wedding. Few can hope to equal his length of membership, but all can strive to follow the example which he has set.

LETTERS TO THE EDITOR

Tower Snatching Rarities

Dear Sir,—The paragraph in to-day's copy recalling the founding of the Truro Guild will be of interest to all tower-snatchers. Since the introduction of the 'Delight' series of books, our numbers have increased rapidly. We are, of course, rightly regarded as dilettantes by our sterner colleagues, the peal ringers (although some pealers are among our members), but we all haven't the brains or the stamina for these feats of endurance, and as humble snatchers we derive a considerable amount of pleasure in compiling our records.

It is the aim of all true tower-snatchers to get an entry on every page of the Viggers' excellent book. In his wisdom he omitted the letter 'X' from the index, but there are others which are hard to come by. Most of us have pages filled with towers under the letters 'B,' 'S' and 'W,' but not a few have blank sheets for 'J,' 'V' and 'Z.' There are, of course, bells in parishes with those initial letters, such as Jarrow, Veryan and Zeals, but they are few and far between. The reference to Veryan has therefore aroused feelings of envy for those fortunate individuals.—Yours sincerely,

AN ANCIENT TOWER-SNATCHER.

Bristol.

A CORRECTION

Dear Sir,—On looking through the Analysis of Handbell Peals rung during 1947, I find that the Lincoln Diocesan Guild is credited with a peal in eight Surprise Major methods. While appreciating the honour given to our Guild for ringing Spliced Surprise 'in hand,' I must point out to the Analysis Committee that this is not quite correct. The peal was of Spliced Plain and Little Major, the methods being St. Clement's, Crayford College, Double Bob, Reverse Bob, Plain Bob, Gainsborough Little Bob, Wellington, Little Court and Little Bob.—Yours sincerely, GEORGE E. FEIRN.

Cleatham, Kerton Lindsey.

BELLS AND THE LAY EAR

Dear Sir,—I have been expecting to see more letters in 'The Ringing World' on the subject of Mr. Pearson's letter under the above heading, which appears in this week's 'Ringing World.'

The B.B.C. programme in question was none other than 'Round Britain Quiz' between London and Belfast. To my mind Mr. Pearson seems to have missed one vital point. While no one will deny that there were twelve bells in the famous peal at Bow, there are only ten being rung to call changes in the interval signal, which was the question asked.

To ringers, it must appear incredible that gentlemen chosen to take part in a broadcast quiz should be unable to count the number of bells in a record of call changes which was played for their benefit.—Yours sincerely,

Cambridge. H. L. MARTIN.

ST. COLUMB DOUBLES

Dear Sir,—In the April issue of the Australian paper, 'Ringing Towers,' appears a method described as 'St. Columb Doubles,' the plain lead of which is said to be Reverse Canterbury, and the bob an Old Doubles Single.

An extent of this method and one of Reverse Canterbury were included in the 42-method peal published in your last issue. In my humble opinion, and with all due respect to my friend, Mr. Alan Pink, and his band, the two are one and the same method. The same applies to Grandsire and St. Dunstan's Doubles, the latter being, I believe, Grandsire with an unorthodox call. I know little of the ethics of Doubles ringing, but this does not seem a very satisfactory way to make records.—Yours faithfully,

E. A. BARNETT.

'Stunts'

PLEA FOR RINGERS' SUNDAY.

Dear Sir,—The Rev. C. Cox's suggestion, 'that there might be occasionally, if not annually, a ringers' Sunday as a means of impressing the public,' is both timely and excellent if it is accepted by the clergy themselves. But how often have such suggestions been put forward by the laity only to have them condemned as 'stunts'?

In a parish here to which I belonged I worked for the Rev. Cox's idea for several years, bringing it up at every parochial meeting where opportunity afforded, and elsewhere, only to be told as above, or that it would be robbing the usual Sunday collections if a special Sunday was set aside for the bells fund.

A few weeks ago there was an excellent article in 'The Church of England Newspaper' on this very topic, and it may be as well for the benefit of ringers if I quote what the writer has to say:—

'I confess candidly and unashamedly that I am strongly in favour of innovations, even within the sacred orbit of church life and worship. Some critics have characterised these innovations as "stunts." They argue that they cheapen, desecrate and degrade the aesthetic dignity of holy things. If, like Prebendary Carlile's trombone, a "stunt" arouses the deadly apathy of the masses, I shall praise God for it. I will gladly swallow criticism, for the end will justify the means.

'It is not so many years since an organ in church worship was considered a sacrilegious "stunt." To-day there is hardly a parish church throughout the length and breadth of Christendom without its organ—proof that the "stunt" of yesterday is the accepted orthodoxy of to-day.

'Again, it is less than a hundred years ago that harvest festivals were considered as "stunts," jeeringly referred to as "the feast of St. Pumpkin." Yet, apart from Easter, is there any feast so popular to-day? Some at least kneel down and give thanks. Does not the end justify the means? Then there is "Mothering Sunday," which once upon a time also came within the despised category of a "stunt." One may be right in saying that only a fraction of those who come will come again, but we must admit there is a divine spark somewhere if they acknowledge God for only half an hour: one must have a spark before one can fan a flame.'

The writer of these words was the Rev. Charles Winsland, who I am sure would write in like manner of the Rev. Cox's and my suggestion that wherever there is a church with bells there should annually be a 'Ringers' Sunday,' beginning with, say, a corporate communion and the singing of ringers' hymns like we have at guild services, and the collections for the day devoted to a fund set aside for the upkeep of bells of bells, of bell-ropes or any scheme for augmentation.

THE COLLEGE YOUTHS

Dear Sir,—We have at our tower recently purchased 'The College Youths,' by the late Mr. J. Armiger Trollope, and this interesting and fascinating account of the history of bell-ringing is being circulated among our members.

This is a book no active ringer should miss reading, for it is written by one with an almost unrivalled knowledge of ringing and its history. The pages can also be read almost as easily as a novel.—Yours sincerely,

PAUL BIRKETT.

Queensbury, near Bradford.

ST. MARTIN'S, ASHTON-ON-MERSEY

Dear Sir,—I am at present revising the history of St. Martin's Church, Ashton-on-Mersey, Cheshire, and am desirous of verifying the name of the maker of the bell, which I believe to be Abraham Rudhall, of Gloucester, as it bears the following inscription: 'Prosperity to this Parish, A.R.' Between the initials is the representation of a bell, the date being 1716.

In Grove's Dictionary of Music and Musicians it is stated that from catalogues published by the Rudhalls it appears that from 1648 to Lady Day, 1751, they had cast 2,972 bells for 'sixteen cities' and other places 'in forty-four several counties,' and by Lady Day, 1774, the number had increased to 3,594.

Ellacombe in his work on the bells of Gloucestershire lists only complete rings, and there is no list in the 'Transactions' of the Bristol and Gloucester Archæological Society.

The Keeper of Printed Books at the British Museum has advised me to send an enquiry to you with a view to obtaining further information. Any help you may be able to give me will be much appreciated.—Yours faithfully,

Sale, Manchester. H. T. CHARLTON.

P.S.—Three manuscript lists of bells cast at the Gloucester foundry appear to have been made: one is now preserved at the Whitechapel Bell Foundry, but I understand that no bell at Ashton-on-Mersey is included in it.—H.T.C.

TWO 'SLIPPED'

Sir,—Your correspondent Norman Pearson seems to have 'slipped,' as also did the Question Master, in 'Round Britain Quiz.' Apparently his own ears are at fault, for, as he says, the recording was played to allow the three competitors to check the bells, and yet he allows 12 to be the correct answer.

I, too, heard that programme and the question. When the record was played over I asked my daughter, aged nine, to count the bells round, and she called, 'Ten.' When the Question Master said that 12 was the answer, I immediately wrote the B.B.C. and pointed out that the answer was only half right, as only the back ten were rung to make the record, although there were 12 bells at Bow before they were lost in the blitz.

Since then I have received a reply from the B.B.C. admitting the error, and that in future queries they will make certain that the answers are correct.—Yours faithfully,

Greenhithe, Kent. R. G. RAYFIELD.

OBITUARY

MR. JAMES E. BAILEY.

We regret to announce the death on July 26th of Mr. James E. Bailey, of Dartford, Kent, at the early age of 35. Mr. Bailey was taken ill towards the end of last year and was bedridden for several months prior to his death.

James Edgar Bailey was born on September 16th, 1913, at Leiston, Suffolk, the only child of Mr. and Mrs. James M. Bailey. He is one of the famous Bailey brothers who made ringing history at Leiston some thirty years ago.

Young Jim rang his first peal at Leiston at the first attempt on October 3rd, 1931. It was Bristol Surprise Major on the treble, the conductor being his uncle, Mr. Charles F. Bailey; his father rang the 7th.

He moved south to work at Dartford, and was provisionally elected a member of the Kent County Association prior to a peal at Dartford on April 9th, 1934. The ratification of this election was very appropriately sponsored by Harry Hoverd and Herbert E. Audsley, with whom he afterwards did much ringing. From this time Mr. Bailey became very active, both in the Kent County Association and the Cumberland Youths.

About this period and in succeeding years there was much disharmony in the Lewisham District of the Kent County Association, and Mr. Bailey won approval in many directions for his straight speaking and sound common sense. He did much good work and was active in teaching young ringers, particularly in association with Mr. H. A. Holden at Bexley, where the bells were restored in 1938 after a silence of 50 years.

On June 12th, 1937, at the Church of SS. Peter and Paul, Swanscombe, he married Miss Jean M. Thompson, the second daughter of Mr. and Mrs. A. J. Thompson, and bride and bridegroom took part in a touch immediately after the ceremony. Mr. and Mrs. Bailey rang several peals together both before and after their marriage. There are two young daughters, aged 8 and 6.

Being in a reserved occupation during the war, Mr. Bailey did everything in his power to assist in keeping the art alive in his own district, which was very much in the front line throughout the bombing and during the period of threatened invasion. He arranged a good deal of handbell ringing at his own house and one or two peals resulted, a notable performance being a peal of Grandsire Caters on March 6th, 1945, in which three Bexley boys and Norman Summerhayes, of Dartford (also taught by Jim Bailey), rang their first peal 'in hand.' It was Mr. Bailey's first of Caters as conductor. His 100th peal was at Dartford on June 7th, 1945, and he had rung about 130 altogether.

He was elected as one of the two Lewisham District representatives on the K.C.A. Committee in 1942, a position he held with considerable distinction until his death. He was elected to serve on the Association's Benevolent Fund Committee in 1944. He occupied the chair at district meetings from time to time, the first occasion being at Bexley on August 16th, 1941, and the last at Penge on January 31st this year. At this meeting it was evident that he was a sick man, having hardly recovered from a severe attack of influenza. He was soon to return to bed, although he had by this time already made most of the preliminary arrangements for the memorable meeting at Dartford on Easter Monday. To the great regret of himself and his friends he was unable to leave his sick bed to attend this, the first annual general meeting of the Association ever to be held at Dartford, about which he had been most enthusiastic and had worked hard and long to ensure its success.

THE FUNERAL.

The funeral was at Swanscombe on July 30th. The service was conducted with impressive simplicity by the Vicar of Christ Church, Dartford, in which parish Mr. Bailey lived. In addition to the widow the family mourners were Mr. and Mrs. J. M. Bailey (parents), Mr. and Mrs. A. J. Thompson (parents-in-law), Mr. and Mrs. Keary (brother-in-law and sister-in-law), Messrs. G. A. and R. J. Thompson (brothers-in-law), Mr. and Mrs. W. W. Bailey (uncle and aunt). Mr. Bailey's employers, Messrs. Vickers-Armstrongs, Ltd., were represented by four heads of departments, Messrs. Barrett, Mack, Culverhouse and Bungay.

The Royal Society of Cumberland Youths were represented by Mr. George H. Cross; the Kent County Association by Mr. George H. Spice (general secretary), Mr. A. G. Hill (Lewisham district secretary), Mrs. F. M. Mitchell (for Mr. Mitchell, treasurer, also representing Ladies' Guild), Mrs. P. A. Corby (for Mr. Corby, fellow Lewisham district representative). A course of Grandsire Triples was rung over the grave by D. Hall (Bexley), G. J. Butcher (Northfleet), A. Hall (Bexley), and H. Hoverd (Dartford). Other ringers present were Messrs. R. A. Jenkins, J. Wheadon, R. Rayfield, R. Meakins (Dartford), Mrs. E. A. Barnett, Messrs. E. Barnett, E. A. Barnett, W. J. Lemon (Crayford), H. E. Audsley, F. J. Cullum (Erith), R. A. Constant (Gravesend). The bells were rung half-muffled after the service.

Among many beautiful floral tributes were wreaths from the Lewisham District of the Kent County Association of Changeringers, the Society of Royal Cumberland Youths, the ringers of Holy Trinity, Dartford, the ringers of St. Paulinus', Crayford, and the ringers of St. Mary's, Bexley.

JOHN JORDON SYMONS.

Mr. J. J. Symons, the oldest member of St. Mary's, Portsea, company, and who had rung since the dedication of the present church in 1889, died on July 26th in his 88th year. A member of a Devonshire family, Mr. Symons spent his early ringing days in that county; he came to Portsmouth nearly 60 years ago and had been an active Sunday service ringer up to a few weeks before his passing. He was very proud of his record of serving under seven vicars, one of whom, the late Lord Lang, became Archbishop of Canterbury, Dr. C. F. Garbett, the present Archbishop of York, Dr. G. C. L. Lunt, Bishop of Salisbury, and the Very Rev. H. C. Robins, Dean of Salisbury.

He was buried on July 29th, and in the evening a half-muffled quarter-peal of Grandsire Triples, his favourite quarter-peal, was rung on the bells by fellow-ringers: J. D. Harris (conductor) 1, Miss H. Dale 2, Miss C. Burbidge 3, J. Topp 4, T. R. Taylor 5, A. F. Burbidge 6, F. W. Rogers 7, H. T. Macey 8.

LEEDS AND DISTRICT SOCIETY

The Society's July meeting was held on the usual day, the last Saturday in the month, at Drighlington. The bells were rung up in peal at 2.45 p.m., and, although the weather outside was almost too hot to walk about, the tower was reasonably cool, and members turned up well. A very enjoyable tea was arranged by Mr. S. H. Barron.

The president was away on holiday, and the chair at the business meeting was taken by Mr. F. Hutchinson. Members were present from Armley, Bradford Cathedral, Drighlington, Headingley St. Chad and St. Michael's, Idle, Leeds Parish Church, Liversedge, Pudsey and Tadcaster, also Mr. Dimmock from Preston and Mr. Speed from Eastbourne (now in H.M. Forces in Yorkshire). One new member —Mr. A. Clough (Liversedge)—was elected. The vote of thanks to the Vicar, churchwardens, local company and ladies was proposed by Mr. J. W. Benten and seconded by Mr. G. Benfield.

OUTINGS

ALFORD, LINCS.

The Alford ringers and friends, together with ringers from Mablethorpe and Leicester, toured South Lincolnshire on August Bank Holiday and visited churches at Tattershall, Silk Willoughby, Horbling, Heydour, Billingborough, Sempringham and Heckington. Ringing was enjoyed at each of the churches visited.

A break for tea was made at Billingborough, and after this interval the ringers from Leicester, who are members of the 'Beltonians Handbell Ringers' of country-wide fame, gave an excellent rendering of popular tunes on the handbells, which resulted in quite a number of passers-by, who had been attracted by the harmonious notes, standing round the doors of the cafe and louding applauding the ringers at the end of each number. Mr. Bill Clarke, of Boston, and Mr. Bernard Dalton, of Billingborough, who are secretaries of the Eastern and Southern Branches of the Lincolnshire Diocesan Guild respectively, joined the party during the journey. The arrangements for the day had been ably planned by Mr. Ivor Smith, Ringing Master, Alford.—K.K.

EAST GRINSTEAD AND DISTRICT GUILD.

On July 17th, members of the East Grinstead and District Guild made a tour into Kent, calling on the way to ring at Northiam, Sussex, whose Gillett six were greatly enjoyed. Then across the marshes to Brookland, with its weird ring of five, in the steeple on the ground.

After lunch, the grand octave of Tenterden was sampled, followed by the lighter eights at Rolvenden and Cranbrook, where tea was taken. The day finished in pouring rain, with a very happy hour on the glorious six at Horsmonden.—C. A. B.

GREAT TEY RINGERS IN SURREY.

Ringers of St. Barnabas', Great Tey, chose Surrey for their annual outing held on July 17th. The party numbered 70, and ringing was enjoyed at St. Leonard's, Streatham (met by Mr. Chapman), St. Mary's, Ewell (Mr. Beams), St. Martin's, Epsom (Mr. Hoyle), St. Nicholas', Leatherhead (Mr. Marriner), S. Nicolas', Guildford, and Walton-on-Thames (Mr. Lathbury). Home was reached at 1 a.m.

Methods rung during the day were Grandsire Triples, Bob Major, Oxford and Kent Treble Bob and Double Norwich. The arrangements were admirably carried out by Mr. Dyer.

ST. MARY'S, WIMBLEDON.

On July 24th, members, their wives and friends, enjoyed a delightful outing to Hertfordshire and Bedfordshire.

Touches were rung at Bushey, Watford, Luton and Dunstable, and the thanks of all who participated are due to those who made the arrangements. Methods rung ranged from Plain Bob to Cambridge Surprise, and included touches of Double Norwich, Kent, Grandsire and Stedman.

Ringing friends who participated in the outing included E. Cassell (Fulham), Reuben Sanders, J. Chapman and S. Howard (Streatham), A. Miller and T. Miller (Mitcham), Miss B. Harris and Miss A. Castle (Merton), W. Pickworth (Richmond) and Dr. K. Branson and Miss V. Dupre (Chelsea). The Ringing Master was Mr. E. Blake.

FARNHAM ROYAL, BUCKS.

A tour of Sussex was enjoyed by Farnham Royal ringers and friends from Clewer, Horsham, Pulborough, St. Nicholas', Brighton, and Hurstpierpoint were visited, and old friendships renewed with Mr. L. Stilwell (Pulborough) and Mr. F. Bennett (Brighton). Thanks are due to local ringers who met the company at each tower.—D. H. P.

Ringers Meet Overseas Bishop

In connection with the visit of the Rt. Rev. Goodrich L. Fenner, Bishop of Kansas, U.S.A., and the Bishop of Kensington to St. Mary's, Acton, on August 1st, a successful open-air evensong was held.

Previously, at the request of the Rector (the Rev. Percival Gough), a specially composed and conducted peal of Little Bob Major, by Mr. E. C. S. Turner, was rung in honour of the two Bishops, and this came round at exactly 6 p.m., being the first in the method on the bells, and the first by all but two of the ringers.

Before the peal, the Rector and the Ringing Master (Mr. J. E. Lewis Cockey) conducted the Bishop of Kansas and Mrs. Fenner up the tower, where they were shown the bells, and then to the ringing chamber, with its large collection of peal boards. The chiming apparatus was shown to them, and the difference between chiming and ringing was explained, and both expressed the keenest interest, and asked numerous questions.

As each ringer arrived, he was introduced to the Bishop and Mrs. Fenner. At the suggestion of the Rector, the Bishop addressed the ringers, thanking them for what they were doing and expressing the great interest of Mrs. Fenner and himself in the proceedings. Mr. Cockey, on behalf of the band, expressed a warm welcome to them both, and wished the Bishop a very happy birthday, it being his birthday next day. The Bishop and Mrs. Fenner and the Rector stayed to watch the start of the peal and remained for about ten minutes.

As soon as the peal was concluded, Miss D. Ingold, secretary to the Parochial Church Council, who is an accomplished musician, prepared the chiming apparatus for the service, which commenced at 6.30 p.m. in the churchyard, which had been fitted out with a dais, chairs and seats, and was filled with an interested and attentive congregation. The accompaniment of the bells to the hymns was used with beautiful effect, and an eloquent sermon was preached by the Bishop of Kensington.

Kent County Association

LEWISHAM DISTRICT.

A pleasant afternoon and evening were enjoyed by the 45 members who attended the quarterly meeting at Eynsford on July 24th. Counter attractions of a pleasant riverside, a cricket match and the ensemble of this much photographed village, each obtained patronage without detracting from the lure of the ropes. The bells were kept in use until service time at 4.45.

Service was conducted by the Vicar (Rev. D. G. Hill), and included an encouraging address. The services of Mr. G. Green (Sidcup) at the organ were much appreciated.

After tea at 'Hillcroft,' the business meeting was held in the church, the Vicar presiding. One life member was elected, and the elections of two others were ratified.

St. Luke's, Bromley Common, was chosen as the place of annual district meeting to be held on October 30th. Two notices of motion by the Ashford District received the support of the meeting.

It was decided to institute a series of combined monthly practices on Wednesday evenings at St. John's, Erith.

Christ Church, Erith, was chosen as the place of the winter social evening, on a date to be announced later.

Tribute was paid to the memory of the late Mr. T. Groombridge, jun., in the traditional manner, after grateful remembrance of his many and valued services in the Lewisham District in the years before the war.

Votes of thanks to the Vicar, organist and to Mr. C. Cullen concluded the business.

A TEMPESTUOUS PEAL

The peal at Brindle, Lancs, on July 31st, will never be forgotten by the participants. Ringing started with the temperature in the 80's, and to counteract a blazing sun a curtain was slung over the solitary window.

All went well until the sixth 720 was started. The sky darkened to such an extent that the ringer of the fifth was obliged to switch on the electric light.

The entry of the final 720 was signalled by a terrific thunderstorm. So loud and prolonged was the thunder that at times it drowned the sound of the bells. Suddenly there was a brilliant flash of lightning which quite literally 'sizzled' and extinguished the lights. The band continued for a few moments in almost total darkness, and then the ringer of the fifth again came to the rescue by pulling down the sun curtain.

Aided by frequent flashes and a gradually lightening sky, the bells eventually came into rounds. 'Despite the trepidation in our hearts and the trembling in our knees,' writes the conductor, 'the beat had remained remarkably even—if somewhat slower than the previous 720—and the striking, if not perfect, was certainly passable.'

On calling 'Stand,' considerable excitement was noted outside the tower. It transpired that the house next to the church had been struck by lightning and was on fire. Coats were hurriedly donned and the band hurried to give assistance. Fortunately a passing motorist had been able to provide a couple of extinguishers, and the blaze had been reduced to a smoulder by the time the fire brigade arrived.

There will no ringing at St. Ives, Hunts, while bells are being overhauled. Any ringing required after September contact F. Warrington, St. Ives, Hunts.

MIDDLETON PARISH CHURCH

A FAMILIAR landmark on the road from Manchester to Rochdale is the Church of St. Leonard, Middleton, with its wooden belfry. In front of the church are the Jubilee gardens invariably bright with flowers amid well-trimmed lawns. Middleton Parish Church is in the midst of a big act of restoration. Some of the main oak timbers of this unique belfry found to have perished are being repaired; the roof of old brown stone is receiving attention, and the ring of eight bells is being overhauled. It is hoped that this work will be completed by the end of September.

The church, one of the oldest in the district, dates back to the 12th century, but it was largely rebuilt in 1412 by Thomas Langley, who was afterwards made a Cardinal, and a stone tower erected. The curious wooden erection which surmounts Langley's tower dates from 1709, when the old bells were hung a storey higher. These were removed by Sir Ralph Assheton, to make way for six bells cast by Rudhall of Gloucester in 1714. It is suggested that wood was used for the belfry because the sandy foundations of the tower would not bear additional weight or that its object was to give sweetness to the tone of the bells. Middleton people would not willingly exchange this belfry for a stone structure, and they are not ashamed of the sobriquet:—

A stubborn people
With a wooden steeple.

Until the beginning of the war it was the custom to ring a bell at ten minutes before ten every night as a signal to young people that it was time they returned to their homes. This ringing, which went on for ten minutes, was known as 'nowster'; probably derived from the words 'now stir.' Messrs. Mears and Stainbank, the successors of Rudhall, added two bells in 1891. On the ancient bells the inscriptions are typical of Rudhall's, those on the first three being:—'Peace and good neighbourhood. AR 1714'; 'Prosperity to all our benefactors. AR 1714'; 'Abr. Rudhall cast us all. AR 1714.'

Of the peals scored at Middleton, a correspondent recalls one of Double Norwich Court Bob Major rung on October 18th, 1934, in 2 hours and 47 minutes as a birthday compliment to Mr. T. K. Driver. Those participating were Thomas K. Driver 1, Albert J. Hughes 2, Water Staff 3, Harold Edwards 4, William Horan 5, Herbert Davenport 6, Richard Balderstone 7, and Edward Jenkins (conductor) 8. But in the distant days Middleton was a well known ringing centre. The hostelry near the church gives added evidence by its title, 'The Ring o' Bells.' The Middleton Band was mentioned in the J. A. Parnell MSS., as one of the 14 visiting bands attending the opening of the transposed ring of ten at St. Michael's, Ashton-under-Lyne on July 12th, 1819. Each of the visiting bands gave a performance, the Middleton ringers setting out for a peal of 5,040 Grandsire Triples. The record reads: they 'got out in 2 hrs. and 50 minutes on the 8 hind bells.' Perhaps, one of our North Country readers can give us the true definition of 'get out.' We assume that the peal was not scored.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

Mr. Frank C. W. Knight's Kent tourists scored 19 peals during their week.

The peal of Minor in four methods at Repton was the first on the bells by the regular Sunday service band.

Mr. J. W. Cotton, secretary of the Midland Counties Guild, has completed the circle at Ticknall, Derbyshire.

With a peal of Stedman Doubles at Queen Charlton, Somerset, Messrs. F. C. Mogford and L. Derrick have completed the Stedman quartette.

Back in the peal columns again is Leicester's veteran, Joe Morris, who fittingly rang 9-10 in 'our Ernest's' birthdaay peal. This 'youngster' has just broken a spell of eight unsuccessful attempts for a peal!

From Mr. A. J. Hughes, of Bangor, comes a message of congratulation to the Devon Tourists on their successful week. 'The quality of the peals is, one would imagine, very gratifying to the tourists and organisers.

Wedding bells at Hyde, Cheshire, were rung on August 7th for Mr. G. D. Lawton and Miss D. Wilde, member of the Ladies' Guild and daughter of Mr. Tom Wilde, vice-chairman and ringing master of the Stockport Branch of the Chester Diocesan Guild.

Regular attendant for service ringing and practices at St. John the Baptist's, Croydon, is 86-year-old Mr. G. Ades. He participated in a quarter on August 1st and is to be congratulated on the manner in which he rang his bell.

Congratulations to Mr. Peter Nix (17), who rang 9-10 in the handbell peal of 9,999 Stedman Caters at Leicester. This young ringer rang his first peal of Stedman only a fortnight previously and possesses a remarkable degree of rhythm, combined with fine style and ease.

Mr. T. H. Pook, a well-known member of the Guild of Devonshire Ringers, is in the Royal Devon and Exeter Hospital with a broken thigh. Sympathy and good wishes are extended to him and to Mr. F. Dymond, another Devon ringer, who recently met with a serious accident at Tunbridge Wells.

Members of the Peterborough Diocesan Guild who visited towers in Hertfordshire and Middlesex from July 24th to 31st wish to tender sincere thanks to all incumbents and local ringers for their welcome and assistance. 'We are also indebted,' writes Mr. E. G. Orland, 'to Mr. A. Pat Cannon, if only for his definition of the difference between a "bob caller" and a conductor.

Mr. Arthur Moore, whose diamond wedding was celebrated by a quarter-peal at Daventry on August 6th, has been a ringer for 65 years. He was tower captain at Daventry for 23 years and although he was 86 on July 31st, he rang in a short touch for evening service the week before. One of those who were instrumental in starting the Daventry branch of the Peterborough Guild, he still maintains a keen interest in the Guild's work.

Mr. Herbert Parker, a regular ringer at Tavnton, Oxford, was married to Miss Elsie Baldwin at Tavnton Parish Church on August 7th. In honour of the occasion a quarter-peal of Plain Bob Minor was rung after the ceremony by A. W. J. Baldwin 1, F. Soden 2, A. J. Parker 3, B. S. Nichols 4, W. J. Dixon 5, T. W. Timms (conductor) 6. It was first quarter for ringers of 1 and 3, who are brothers of the bride and bridegroom.

Oxford Diocesan Guild

HOLY WEEK RINGING DISAPPROVED

'That this Guild, having in mind the ancient custom of the Church, and in order that offence may not be given to Christians, strongly disapproves of the ringing of church bells during Holy Week, except where it is the custom to ring half-muffled on Good Friday to commemorate the death of our Lord.'

This notice of motion, proposed by Capt. A. R. Poyntz and seconded by Mr. F. Sharpe, was carried by an overwhelming majority at the annual festival of the Oxford Diocesan Guild at Oxford on July 17th. Holy Week for the purpose of the motion was defined as from the Monday to the Saturday, both days inclusive.

All the branches were represented at the meeting, 135 members being present.

The Master (the Rev. C. E. Wigg) referred, in his report, to the steady, if not always spectacular, progress of most branches.

The treasurer (Mr. A. D. Barker) reported that the general funds of the Guild amounted to £533 3s. 8d., of which £459 16s. 4d. was in the Restoration Fund.

The secretary (Mr. W. Hibbert) said that 110 peals had been rung in 1947, an increase, with Mr. W. F. Judge and Mr. A. R. Pink well to the fore as conductors. He had noticed several first performances, a healthy sign.

On the proposal of Canon G. F. Coleridge, it was decided to circularise members to raise £98 15s. to recast the tenor bell at East Ilsley as a memorial to Mr. R. T. Hibbert, Guild secretary for nearly 30 years.

Grants of ten guineas to Woodstock and 40 guineas to Burnham for the restoration of bells were approved, and 205 new members were confirmed.

Officers elected were: Master, the Rev. C. E. Wigg; Deputy Master, Capt. A. B. Poyntz; hon. treasurer, Mr. A. D. Barker; hon. secretary, Mr. W. Hibbert; librarian, Miss Marie R. Cross; committee, Messrs. C. J. Hibbert, G. Caudwell, W. Dixon, T. J. Fowler, R. White, H. Sear, J. W. Wilkins, G. Holifield, W. F. Judge, A. R. Pink and B. S. Nichols, and Miss D. R. Fletcher; trustees, Canon G. F. Coleridge, the Rev. B. Girling and Mr. A. D. Cullum.

After much debate the members voted for an increased subscription to 2s. 6d. annually to enable the Guild to produce a report of pre-war dimensions.

THE SERVICE.

The meeting was preceded by a service in the Cathedral, at which the preacher was Canon Harold Pickles. The appeal to members who were choristers to bring their cassocks and surplices for the service was really magnificent.

Dr. G. B. Allen, Bishop of Dorchester, not only attended the service, but presided at lunch at Christ Church Hall, attended by 186 members. He welcomed the Guild to Christ Church and mentioned that it was one of the days in the year that he looked forward to with pleasurable anticipation. Toasts included 'The Oxford Diocesan Guild,' to which the Master replied, and 'The Visitors,' proposed by Mr. G. Carter, of London.

Ringing took place at the following towers: Cathedral (12), New College (6), Magdalen (10), Merton (8), St. Ebbe's (8), St. Giles' (8), Holywell (6), Carfax (6), St. Aldate's (6), St. Thomas' (6) and Iffley (6).

The thanks of the Guild go to Mr. W. F. Judge, Miss Cross and the Oxford ringers for the work they put in to ensure everyone had a ring.

ARKSEY, YORKS.—On July 30th, 720 Bob Minor: Mrs. E. Wiley 1, Miss D. Smythe 2, R. Sanderson 3, J. Thorley 4, J. M. Thorley 5, C. Thorley (cond.) 6. First 720 by 1, 2 and 3.

LEAFIELD, OXFORD.—On July 30th, 1,260 Grandsire Doubles: J. Wiggins (13) (1st quarter) 1, P. Baker (first 'inside') 2, L. Smith 3, A. Franklin 4, A. Lynes (cond.) 5, A. Wiltshire 6.

Letters to the Editor

HANDBELL TUNES

Dear Sir,—I shall be obliged if you will inform me if there are any publications for handbells of hymn tunes or songs, and, if so, could you let me have particulars and where they can be obtained.

I believe there was a publication of this description some years ago, but I do not know whether it is now in existence.—Yours faithfully, R. DOUGLAS.

GRANDSIRE TRIPLES AT WINCHESTER CATHEDRAL, 1798

Dear Sir,—'The Hampshire Chronicle' in its issue of June 12th, under the heading of 150 years ago, records the anniversary of His Majesty's birthday on June 4th, 1798, at Winchester, stating: 'In the afternoon the ringers of the Cathedral began the full peal of 5,040 changes, Grandsire Triples, which they completed in 3 hours and 12 minutes.'

In company with the Guild auditor, Mr. G. Smith, I called at the office of 'The Hampshire Chronicle' on July 27th and we were most cordially received. We asked to see the original copy of the issue of June 9th, 1798, but to our disappointment found no names whatever or details as to the composition.

This was most unfortunate as the first true peal was supposed to be rung by the Ancient Society of College Youths on June 13th, 1885, conducted by the late F. E. Dawe, when John Murrey Hayes rang the tenor (see 'Bell News,' June 20th, 1885, page 92).—Yours sincerely,

Eastleigh, Hants. GEORGE WILLIAMS.

[NOTE.—There are many previous peals of Grandsire Triples recorded, the earliest being at Norwich on August 26th, 1718.—EDITOR.]

CORRECTION

The Editor regrets that an illustration of Wells Cathedral appeared in our last issue as purporting to represent Canterbury Cathedral.

Most of our readers noticed the error, which is deeply deplored by the Editor and those associated with him. He thanks the many friends who have written to him commiserating with him in a most regrettable mistake.

BELLS AND THE LAY EAR

Dear Sir,—I am afraid I did not express myself quite clearly, as both your correspondents, Messrs. Martin and Rayfield, have misunderstood me.

Of course, I was aware that only ten bells are recorded as the B.B.C. interval signal, and I intended to imply that the question master was also wrong—that was part of my point.

I also wrote to the B.B.C. pointing out the error! In my letter I mentioned another question which came up in a later session. It was, 'Where would you to go to hunt the tenor?' First answer, 'In the choir.' Second answer, 'Down a coal mine.' My comment was that I had never heard of the term 'hunt the tenor,' although it was announced as a technical term used in bellringing. I know of a term 'to be in the hunt' (though the tenor would surely not do this) and 'to course the tenor.'

But possibly I have not yet learnt enough of change ringing to have met the term. Perhaps someone could kindly enlighten me? Is there such a thing as 'hunting the tenor'?

To return to my original point, surely it cannot be a common failing to be unable to distinguish between four, six, eight and ten bells ringing rounds? Or is the sound of bells ringing changes just a vague noise to many people as is an orchestra playing a Beethoven symphony?—Yours faithfully,

NORMAN PEARSON.

Vicarage Cottage, Warminster, Wilts.

Ringing Week at Trowbridge

An enterprise, conceived in convivial surroundings in Oxford this spring, came to fruition during the first week in August, when under the leadership of Mr. Walter Judge a party of Oxford ringers and friends met for a week's ringing holiday centred at Trowbridge.

The 'residents' at the Roundstone Hotel, Trowbridge, were the Misses Tutt and Spice and Messrs. Judge, Alexander, Mason, Moreton and Wilkins, with the addition of Miss F. A. Edgar for the week-end. They were joined by Messrs. Andrews and Dyke for most of the week, and by Messrs. Harding, Fry and Targett for various peal attempts. The success of the week was due largely to the arrangements made locally by Mr. C. F. Andrews, and to the welcome extended generally by the ringers, tower captains and clergy.

Transport throughout the week was by car and bus. The towers visited for peal attempts and other ringing were as follows: Chippenham (St. Andrew's and Holy Trinity), Trowbridge, Bradford-on-Avon (Christ Church and Holy Trinity), Westbury, Melksham, Steeple Ashton, Frome, Mells, Twerton-on-Avon, Devizes, Bishop's Cannings and Calne. Altogether five peals were scored, details of which are given elsewhere: notable in these was perhaps the performance of Mr. Roger O. Fry, who rang his first 'touch' of Stedman Cinques in the peal at Trowbridge. Service ringing at Trowbridge on Sunday included the first course of Cambridge Maximus to be rung in Wiltshire.

Tennis, swimming and bowls all had their part in the week's activities, though these diversions were rather curtailed by unsettled weather. This, however, could not dampen the enthusiasm of certain members of the party for 'shove ha'penny' and kindred indoor occupations!

The only regret of this most enjoyable holiday was occasioned by the absence of Mr. H. P. Raynor, a prime mover in the inception and organisation of the week, who had just been called abroad on the death of a relative. To him, and to Mr. W. F. Judge, Mr. C. F. Andrews and all the hospitable ringers of Trowbridge and district, the party tenders its grateful thanks.

TIBSHELF BELLS

BROTHERS' OUTSTANDING SERVICE.

The reopening and rededication of Tibshelf bells on July 31st was also the occasion for presentation to two brothers—Messrs. H. and J. Draycott—who between them had over 110 years of continuous service to the church.

Representatives of the following towers of the East Derbyshire and Notts Association were present at the service: Alfreton, Blackwell, Clay Cross, Heath, Morton, South Normanton, Sutton-in-Ashfield, North Wingfield, Darley Dale and the local ringers.

The bells were dedicated by the Rev. T. E. Fowler, who in his address spoke of the difficulties of maintaining a band of ringers in a small village and commended the local captain, Mr. H. Draycott, for his services.

After the service the presentations, which took the form of gifts of money from the Church Council and fellow-members of the church, were made by Mr. C. Lowe.

Mr. H. Draycott has 60 years' continuous service as a ringer at Tibshelf to his credit. For a number of years he was also a member of the church choir.

Mr. J. Draycott also started ringing in 1888, but unfortunately work took him away from the village. On his return he took his usual place as a ringer and became a member of the choir. He also received a photograph of members of the choir.

The restoration of the bells was possible through a bequest of Mr. S. Ashmore, a member of an old Tibshelf family. Ringing during the day was varied and extended to Cambridge Surprise.

OUTINGS

A TRIP THROUGH SOMERSET.

Keynsham ringers, with their friends, recently held their outing with a motor-coach tour of Somerset. Cheddar's fine-toned ring of eight was put at the disposal of the ringers, while the uninitiated visited the caves and gorge. Soon, Grandsire and Stedman Triples and Bob Major were re-echoing in the surrounding hills.

At Axbridge, the magnificent ring of six by Taylor's was put to good use. These bells, hung in a finely-proportioned central tower, must surely be among the finest in Somerset.

It had been hoped that the recently rehung six at St. Benedict's, Glastonbury, would be available, but this was not so, and after a pre-war style tea, the party moved off across the Polden Hills to Burnham-on-Sea, the last tower to be visited. Some difficulty was experienced in rising the bells, and this was found to be due to the fact that a platform around the clock-case, and which should have been removed, was interfering with the rope-circle.

The thanks of the party are due to Mr. L. Ellis for arranging a pleasant and memorable outing.

RODBOURNE CHENEY.

Rodbourne Cheney outing was held on Aug. 7th, the party being stiffened by ringers from other towers. Despite a late start, caused by the solicitor of the party, Yate was reached on time and some good ringing was had on this heavy six. Iron Acton bells needed careful handling, but everyone was at home at Thornbury, where rounds to Double Norwich were rung. The last call was Wickwar and some excellent ringing took place here. Thanks are extended to all who contributed to the success of the outing. W.B.K.

BLEWBURY, BERKS.

On July 31st, Blewbury ringers and friends from Aldershot, Hagbourne and Harwell visited Northleach, Charlton Kings, Prestbury, Barnwood, Gloucester and Cirencester towers, where touches of Grandsire, Stedman and Plain Bob were rung. An enjoyable day was spent despite the heat wave.

GRUNDISBURGH AND DISTRICT.

The bus left the wilds of Suffolk at 2.45 a.m. on Saturday and picked up en route. At 4.15 all were aboard and Kettering was 93 miles ahead, where we were due for breakfast at 9.15. We were dead on time and enjoyed a hearty meal.

At Loughborough Bell Foundry we were met by Mr. Paul Taylor and Mr. Colin Harrison, who conducted us on a most interesting tour of the foundry. Ringing was on the foundry bells and also the lovely ten at All Saints'. Mr. Jack Fidler was our guest at lunch.

Then to Leicester, where Mr. Ernie Morris was waiting to welcome us at St. Margaret's. Cambridge and lesser methods were rung. Then to the Cathedral, which 12 has to be heard to be believed; for their weight they are magnificent.

We were joined at tea by Ernest, Arthur Debenham and Shirley Burton. Ringing in the evening was at St. John the Divine, where we met Mr. and Mrs. H. Poole. Finally came the social attended by Sid Harrison's handbell ringers and so to bed.

In the morning we split up and rang at three different churches in Leicester for service and had a grand send-off by about 20 of our Leicester friends. Lunch was at Kettering, and at Thranston Mr. George Jeffs met us and conducted us to Tichmarsh to ring on a grand eight. Tea was at Cambridge. Here eight went to the Roman Catholic Church and others to the 12- and 8-bell towers. Ipswich was reached at 10.30 p.m. C.W.P.

Caters.—Grandsire, 2 (1), 1 (1); Stedman, 1.

Royal.—Cambridge Surprise, 1; Kent Treble Bob, 2; Oxford Treble Bob, 1.

Cinques.—Stedman, 3.

Totals: Tower 152 (17); handbells 7 (3).

COVENTRY DIOCESAN GUILD

The July meeting was held at Warwick, attended by 50 members and friends. The lovely ten at St. Mary's were made good use of during the afternoon and evening.

The business meeting took place in the vestry, presided over by the Master (Mr. A. H. Beamish). Apologies were read from the president (the Rev. R. T. Murray), Messrs. F. E. Pervin, J. W. Taylor and H. C. Burt.

Both Stratford and Alcester were proposed for the October quarterly meeting, but as there was a likelihood of Stratford bells being dedicated in September, when a large number of ringers would be present, it was decided to hold the business meeting at Alcester on the third Saturday in October.

New members elected were Mrs. A. Stain (Warwick), E. Wilson and J. Turner (Nuneaton), with the name of A. J. Hobley ratified following election prior to a peal.

August 28th was mentioned as the date of the induction of the Rev. L. Bruce to the living of Exhall, near Coventry, and members were invited to ring for the service.

A Guild annual dinner was suggested, and the committee are to discuss the matter and report at the next meeting.

SALISBURY DIOCESAN GUILD

DORCHESTER BRANCH.

Twelve towers were represented together with a number from outside the branch at the meeting at Maiden Newton. Service in the Parish Church was conducted by the Rector (Canon D. F. Slemeck), and the lesson was read by the branch chairman (Canon Markby). Tea was served in the schools.

At the business meeting Canon Markby presided, and Wyke Regis was selected for the next meeting on September 18th.

The Rev. R. P. Farrow asked that, when sending out notices, the secretary should state the number of bells at the towers concerned to enable members to study appropriate methods in readiness.

Some members made their way to Sydling St. Nicholas and enjoyed some good ringing on the heavy five there.

SWANAGE, DORSET.—On Aug. 1st, 1,260 Grandsire Triples: A. J. Clarke 1, F. Bishop 2, Miss Jean Freer 3, J. Sutton 4, F. Haysom 5, K. Orchard 6, P. Foote (cond.) 7, W. Damer 8.

NOTICES

The charge for one insertion of a notice of a meeting is one penny per word, minimum 2s. For additional insertions with no change one-half above charge for each insertion.

Other notices one penny per word, minimum 2s. 6d.

All notices must be prepaid.

Notices must be received not later than Monday.

THE OLD CHESTNUT

AN old and very well-known 720 of Bob Minor is the 'Old Chestnut,'

	23456	34258	42356
			−42563
X	−23564	−34562	26435
	36245	46325	63254
	64352	62453	35642
	45623	25634	−35426
Y	−45236	−25346	−35264
Y	−45362	−25463	56342
	56423	56234	64523
	62534	63542	42635
	23645	34625	23456
Z	34256	42356	

The above is a 360 in three parts. It must be doubled by singles to produce a full 720. The normal way of doing this is to call a single in position Z (tenor at home) and again after 3 parts. But this has the advantage of introducing two extra calls which from the point of view of the young conductor increases the chance of going wrong. Perhaps a better plan is to change a bob marked X into a single. This reverses two of the light bells and has the desired result. Another single is called 3 parts later.

The calling of the above is usually stated 'Call the tenor Wrong Right Wrong,' or 'Call a bob every time the tenor is dodging behind, unless the 5th is there also.' There is another way which gives far more time for the conductor to think. Every time the tenor dodges with the 5th, a call follows next lead. If it be in 3-4, a pair of bobs follows. If it be in 5-6, a bob follows.

There is another way of varying the calling without altering the work of the tenor. Instead of calling the pair of bobs at Y Y call a pair of singles. If this is done, the new lead introduced will repeat with a similar lead in another part, and to make the 720 true a pair of singles must be called there also. Exactly where to do this the conductor can find out by writing out the touch. If desired, the pair of singles can be called in every part. This could be called as the first 720 of the peal (in order to pass quickly the extra call difficulty) and then by putting the half-way singles in positions X and Z in different parts, 6 more extents may be had to give a full peal.

By varying the positions of singles, and starting at different places, 42 extents may be had on this simple plan.

BELFRY GOSSIP

To hand is the report of the Leicestershire tour during the first week of August. Five peals were scored. The week was not without its misfortunes. Miss Mavis Whitehead had a night in hospital following a motor-cycle accident which resulted in a cut leg.

Master George W. Pipe (13) rang his 20th peal during the Kent tour. Eleven of these are in Surprise methods.

Mr. P. George Golder was the conductor of the peal at Aldridge, Staffs. on July 17th, which he called from the fifth.

'Nil Desperandum' asks us to inform David Anstey that he has now had 10 unsuccessful attempts for a peal of Cambridge Major.

Wonersh (Surrey) Church bells will be re-dedicated at an early date. The contract for their repair was placed with Messrs. Gillett and Johnston and includes a new steel frame.

Guildford Diocesan Guild have lost an old friend by the sudden death of Mr. Maurice Smither, of Chiddingfold, on August 20th. Before going to Chiddingfold he was a member of Holy Trinity, Guildford, band.

One of Australia's most promising lady ringers. Miss Betty Sloan, has been ordered by her doctor to give up bellringing. To her credit Miss Sloan has a peal of Doubles and various quarters.

Ex-P.-Sgt. Albert Lawrence, of Hatfield, was admitted to Simpson Ward, Wellhouse Hospital, Barnet, Herts, on the 17th inst., and although he has undergone one operation, is still subject to observation. His general health is being maintained.

Attending the dedication of Abergavenny bells was Mr. F. S. Wilson, who introduced change ringing to Abergavenny 40 years ago and made a special journey from Lilliput, Dorset, to be present. Also in the congregation was Mr. John W. Jones, of Monmouth.

Truro Diocesan Guild continues to record firsts for the Guild. Four were added during a ringing holiday in Cornwall, during which six peals were successfully rung. The story of 'the week' and the peals will appear in our next issue.

Mr. A. Pat Cannon is recuperating at Bournemouth after the strenuous programme of the Kent tour. He has now rung 200 peals in 183 different towers.

Mr. J. Burns, of 19a, Langdale Avenue, Wigan, has succeeded Mr. N. Heaps as secretary of the Wigan Branch of the Lancashire Association.

The composition of Plain Bob Major rung at Selling, Kent, contains the extent of six in the 6th place and 2 and 3 never there. It was called for the first time by the composer, Mr. David J. Charnley.

The peal of Plain Bob Major at St. Ives on August 2nd was the first peal of Major for Gerald Nicholls, Stanley Shipp and Claude Gimbett, and the first 'inside' for Eric Smith, reports the conductor, Mr. F. Warrington.

Mr. Walter Ayre hopes to return home at the end of this week from West Herts Hospital. It will be another three weeks before he parts with his plaster leg and then there will be a course of treatment. He expects to be out of ringing for at least a couple of months. Mr. Ayre thanks all who have sent their good wishes.

'The Farmers' Weekly' gave ringing fine publicity in a recent issue by a three page story by Ursula Dacombe of the Dunster bell-ringers' outing into Devonshire. Ringing took place at Chittlehampton, Torrington and Okehampton. There is a reference to the song written by A. R. Tudball for the bellringers' supper dealing with an abortive attempt to ring a peal of Stedman Triples, which might well amuse the Exercise at large.

IN AFFILIATION WITH CENTRAL COUNCIL

THE ELY DIOCESAN ASSOCIATION

THE ring of eight bells at St. Mary's, Ely, was rehung in 1882, and reopened on Whit Monday, May 29th, of that year. It was at the luncheon following that Mr. Gervas Holmes (of the bell-founding firm of Messrs. Moore, Holmes and Mackenzie) introduced the idea of forming a Diocesan Association. The idea was warmly approved, and the Rev. Kenelm H. Smith agreed to undertake the necessary preliminary work towards its formation.

On August Bank Holiday, August 6th, 1883, a gathering of ringers took place in Cambridge, when at a meeting presided over by the Rev. Dr. Luard the Association was formed, with the Rev. K. H. Smith, of Ely, as secretary. Other elections were the Ven. Archdeacon Emery as president and Mr. M. C. Potter, of Cambridge, as treasurer. At that time the Diocese of Ely covered a vast area, including the whole of Cambridgeshire and Huntingdonshire and extending into Suffolk and Bedfordshire.

During the next few years meetings were held at Ely, Cambridge, Bury St. Edmunds, Sudbury, Wisbech, Newmarket, Mildenhall and Soham, but the attempt to weld and organise the ringers of this large diocese into a virile association was showing signs of failure.

In 1890 the Rev. J. R. Vincent came into residence as chaplain and lecturer to the Ely Theological College, and he being a member of the Oxford Guild, as well as others, was naturally interested in ringing affairs within the diocese. After several conferences with the secretary he offered to do all he could to 'resuscitate and quicken the dry bones.'

CONFINING ACTIVITIES.

Accordingly a meeting was held in St. Mary's Parish Room, Ely, on December 8th, 1890. The Rev. J. R. Vincent put forward the idea of confining the activities of the Association to a much smaller area with Ely as its centre, and so extend and grow outwards as the movement gained strength. This plan was adopted, and to put it into effect a smaller society was formed within the framework of the old Diocesan Association, under the title of 'The Ely District Association of Bellringers.' A committee was appointed, with the Rev. J. R. Vincent as secretary and Mr. A. Pilgrim, of Ely, as Master.

This District Association met with a greater measure of success and grew in influence and numbers, so that on January 12th, 1897, a special meeting was held in Cambridge to consider the amalgamation of the 'District' with the 'Diocesan' Association. It was then agreed that 'the Ely District Association shall cease to exist as such, but shall take up the name and work of the Ely Diocesan Association.' Since 1890 the latter had had a nominal existence only, no meetings being held. At this meeting of reorganisation the Bishop of Ely was elected president, the Archdeacons of Ely and Huntingdon vice-presidents, the Rev. K. H. Smith treasurer, Mr. S. Slater, of Glemsford, auditor, and the Rev. W. W. Covey-Crump, of Haddenham, general secretary.

The latter had given yeoman service to the 'District' Association as its secretary for some years, and served the Diocesan Association in this capacity until 1903. Now, as Honorary Canon of Ely Cathedral, he still lives in retirement in that city. In passing, it is interesting to note that since the Association dates from the reorganisation of 1897, it reached its jubilee last year, the occasion being marked by a special meeting held at Ely, when at a service in the Cathedral the address was given by the Bishop. Canon Covey Crump was present at the service and at the tea which followed at St. Mary's Hotel. In its first year the reborn Association scored 13 peals, and had branches in the Archdeaconries of Ely, Huntingdon and Sudbury; also in the Isle of Ely.

A scheme was drawn up by the general secretary in collaboration with the secretary of the Bedfordshire Association for the affiliation of the latter as the 'Bedford Archidiaconal Branch'; although approved at meetings at Ely and Lavenham, the Bedfordshire men rejected the proposal.

At the annual meeting in 1904 it was considered that the Association, as a diocesan organisation, should cover the whole diocese and accordingly a branch was formed in the Archdeaconry of Bedford. Some years later the Bedfordshire territory was transferred to the Diocese of St. Albans.

SUFFOLK A SEPARATE GUILD.

It was about 1914 that the Diocese of St. Edmundsbury was formed, covering the portion of Suffolk which had till then been in the Ely diocese. However, the Suffolk men maintained their membership, and in 1919, after the first world war, the title of the Association was amended to 'The Ely and St. Edmundsbury Association,' thus embracing the two dioceses. With the formation of the Suffolk Guild in 1921 the connection was severed, and the Association resumed its former title. The Suffolk district had played a big part in the life of the Association, contributing a large membership and ringing many of its peals. Many were rung at Lavenham, 48 on tower bells and 34 on handbells, in all of which the Symonds family were prominent. The loss of this district was keenly felt.

THE REV. KENELM H. SMITH, founder of the Ely Diocesan Association.

It was also about 1914 that a part of Norfolk was transferred from the Norwich to the Ely diocese. Although Ely gained much in an architectural sense, as those who know the splendour of the churches of Marshland will agree, ringing was at a rather low ebb in the new area, many of its bells being derelict or almost so. In recent years, however, there has been evident a growing interest in bells and ringing in this part of the diocese, with a consequent improvement in both. Those ringers who have seen the glorious Church of Walpole St. Peter (the 'Queen of Marshland') will be glad to know that its long derelict ring of six bells are shortly to be rehung. To-day the Ely diocese, and consequently the Association, still covers a large area, the whole of Cambridgeshire and Huntingdonshire and three deaneries in West Norfolk. This includes much of the Fenland of Hereward-the-Wake, with its small isolated villages.

PEALS.

The number of peals rung by the Association to date is 1,274. Rings of five and six bells easily predominate throughout the diocese, there being only one ring of twelve (St. Mary-the-Great, Cambridge) and two rings of ten (Soham and Wisbech). The bells of Soham are in a moribund condition, thus leaving only one ring of ten in good order.

The recent war naturally dislocated many of the Association's activities, but, as evidence of revival, the peals of 1946 doubled those of 1945, those of 1947 numbered 47—the highest total since 1936. So far this year 55 peals have been recorded, and it is quite probable that the all time record of 64 (rung in 1913) will be beaten. Included in this year's peals is the record peal of 10,800 Bob Royal—'The longest length of Bob Royal and of Royal upon handbells.' This was rung in Cambridge, conducted by Mr. E. J. Lindley.

Since 1897 the Association has always had as its president the Bishop of the diocese. General secretaries have been: 1897-1903, Rev. W. W. Covey-Crump; 1904-1911, Rev. R. L. Twells; 1912-1919, Mr. T. R. Dennis (owing to Mr. Dennis serving in 1914-18 war, Mr. A. E. Austin was acting general secretary from 1915-19); 1920-21, Mr. A. E. Austin; 1921-22, Miss V. Shorter; 1922-1930, Rev. R. Copeman; 1930-31, Mr. T. R. Dennis; 1931-35, Rev. B. H. Tyrwhitt-Drake; 1935-45, Miss K. Willers; 1945 to date, Mr. W. W. Cousins.

During the early nineteen hundreds, the St. Neots band, led by the brothers Sidney J. and George D. Coleman, were very successful in ringing handbell peals. The most prolific peal conductor of recent years is Mr. Frank Warrington. Also worthy of mention for his efforts in this sphere is the name of Mr. E. G. Hibbins, of Cambridge.

To give the diocese efficient coverage the Association has four branches, each branch having its own committee, ringing master and secretary; practice meetings are arranged every few weeks.

The Association's objects (quoting from Rule 1) are the promotion of change ringing and belfry reform. That the ever present problem of the disappearing service ringer may have been one of the objects of the reform is suggested by the following admonition displayed in at least two belfries within the diocese:—

> Do not ring and run away,
> Leaving other folk to pray;
> When a ringer doeth so,
> Hand says Come! and foot says Go!

Towards the first of the Association's objectives much has been and is still being done.

At a meeting in 1938 it was proposed to delete the words 'belfry reform' from the rule, whereupon a member dryly remarked that until ringers have their coats off ready to take a rope punctually at the proper time for service ringing on Sundays, there would be a need for 'belfry reform.' Needless to say, the rule stands unaltered!

LETTERS TO THE EDITOR

ANCIENT BELLS

Dear Sir,—With reference to your comments on ancient bells, Chalk, Kent, has one reputed to be 1348 (see 'Church Bells of Kent'). If this is true, its first job was tolling for the Black Death in 1349. Milton still has four of its original five (Whitechapel, 1656). In 1656 most people were having a civil war to abolish useless ornaments in churches. Apparently Milton took a different view.

Fulsome inscriptions on bells are a waste of money as they are placed where nobody can see them. Why not place the inscriptions in the porch? The bells of St. George's, Gravesend, are a notable example.—Faithfully yours,

F. A. CLUETT.

Milton-next-Gravesend.

NOTE THE NOTE

Dear Sir,—Bells in South Wales have a habit of altering their pitch. In the recent report of the peal at St. David's the tenor is given as 24 cwt. 3 qr. 25 lb. in C. Surely this is incorrect. In 'The Ringing World' for April 8th, 1932, the report of the first peal on the bells gives it as D.

Again, St. Woolos', Newport, tenor is stated to be 21 cwt. 2 qr. 20 lb. in D. I have tested the note with a tuning fork (which incidentally has checked other bells correctly), and I make its note E flat.—Yours faithfully,

Worthing, Sussex. B. D. PRICE.

HANDBELL TUNES

Dear Sir, — There is no need for Mr. R. Douglas to go hunting around for publications for handbells of hymn tunes and songs.

If his bells consist of four octaves, chromatic scale (i.e., with all sharps and flats) and his team know music and can ring four in hand, they would be able to play any hymn or song tune set before them straightaway.

My band of six could play in any key and had two Empire broadcasts, playing from the manuscript supplied to them by B.B.C. choir and orchestra.

I could lend Mr. Douglas my MS. on handbell ringing, which I have been unable to get published (if he wishes). It was printed in 'The Musical Times,' July, 1933.—Yours faithfully,

J. M. TURNER,
B.B.C. Handbell Ringer.

RINGING TIMES

Sir,—As one who does a certain amount of travelling around in the course of duty, I have often thought it a pity that more tower captains do not have a card printed and attached to belfry doors than would appear to do so at present.

I have visited three churches in North Yorkshire in the last few days, where I know there are rings of bells which are hung for ringing, and, I believe, regularly rung: in not one case could I ascertain the practice night nor the times of Sunday ringing. The parish magazines on sale in the churches gave no clue either to the above nor as to who was tower captain or in charge of ringing; I was unable to find anyone to ask, and had no time to go searching for addresses in strange towns.

Would it not be so much simpler if a card pinned to the belfry door gave this information? It surely cannot be too much trouble to provide, and yet it would enable visitors to get a ring with the minimum of trouble, frequently to the benefit of all, and certainly to the pleasure of the visitor.

I can quote two churches where this information can be obtained in the way suggested above: St. Peter's, Dorchester, and the tower in which I am privileged to ring at present—St. Peter's, Bournemouth. May all others follow this example!—Yours, etc.,

E. F. M. SAMSON, Capt., 17/21st Lancers.
Bovington Camp, Dorset.

ACCRINGTON PLACE BOB

Dear Sir,—The following variation of Place Bob was rung at Accrington on August 5th. Previously I submitted it to Mr. A. R. Pink and he knew of no name for it. I have ventured to call it Accrington Place Bob. If a previous name turns up I shall be pleased to withdraw our name.

ST. MARTIN'S, ASHTON-ON-MERSEY

Dear Sir,—In reply to Mr. H. T. Charlton's letter, the founder of the bell to which he refers was probably Abraham Rudhall I. This could be proved by comparing a rubbing giving lettering, founder's marks and mouldings with known examples of his work.

I suggest Mr. Charlton contacts Mr. J. W. Clarke, of The Thatched Cottage, Mollington, Cheshire, who is preparing a work on the bells of that county and may have the details of the Ashton-on-Mersey bell to hand.—Yours faithfully, FREDERICK SHARPE.

Bicester, Oxon.

Dear Sir, — Mr. H. T. Charlton can rest assured that the bell he mentions was cast at Gloucester by Abraham Rudhall, the first of the famous firm who cast 4,521 bells between 1684 and 1830. In 1679 Abraham Rudhall was a bell hanger, and he either worked for or was connected with the temporary foundry at Bishop's Cleeve, who did some recasting at Tewkesbury Abbey that year. Although the Abbey authorities paid 'Abraham Riddle' for hanging the bells in 1679, we may assume the name was spelt incorrectly, for Rudhall was re-engaged seven years later, this time as a founder.

The date of 1648 in Grove's Dictionary is not correct, for the first Rudhall bell was not cast until 1684.—Yours faithfully,

WILLIAM SHEPHERD.

KENT COUNTY ASSOCIATION

ROCHESTER DISTRICT.

The third quarterly meeting was held at Cliffe at Hoo on August 14th, when 65 members and friends enjoyed a very good afternoon and evening's ringing on the lovely ring of eight, situated rather off the beaten track in truly rural surroundings.

The service was conducted by the Rector, Canon F. Gammon, who in the course of his address welcomed the ringers to Cliffe and spoke of the personal pleasure he got from the visit to the Association to his church.

Tea was taken at the Black Bull Inn, and the business meeting followed with the Rector in the chair. One hon. life member, three hon. members, one non-resident life member and 15 practising members were elected.

Two notices of motion from the Ashford District were deferred for further discussion at the annual meeting, to be held at Rochester on October 9th.

Tributes to the memory of Mr. W. Easter (Gillingham), Mr. C. Belsey (Rainham) Mr. Mitchell (Northfleet) and Mr. J. E. Bailey (Dartford) were paid by Mr. S. Shellock, a former district secretary.

Votes of thanks to the Rector, organist, the local band and lady helpers were proposed by Mr. E. A. G. Allen (Frindsbury).

Mr. William P. Garrett

RANG OVER 100 PEALS OF MAXIMUS.

Tragic circumstances attended the death of Mr. W. P. Garrett, which took place on Saturday, August 14th, in the belfry of St. Mary-le-Tower Church, Ipswich. He had attended to ring a peal of Cambridge Surprise Maximus to make his 100th peal of Maximus on St. Mary-le-Tower bells and also the 40th anniversary of the first peal of Cambridge Maximus.

After ringing about an hour, he set his bell, the 3rd, dropped on a seat and collapsed. Dr. Armstrong was soon on the scene; but could only pronounce that he had expired.

Bill, as known to his many friends, was the only ringer to accomplish 100 peals of Maximus on tower bells besides several on handbells. He was 82 years of age and had rung over 350 peals.

In the attempted peal were Messrs. E. Evans and L. W. Wiffen, who rang in the first peal. There is one other survivor—Mr. R. H. Brundle, now 96 years old. Mr. Garrett also rang in the first peal of seven different Surprise Maximus methods.

At the inquest the doctor told the Coroner that Mr. Garrett's heart was somewhat diseased.

The funeral took place on August 19th at the New Cemetery Chapel, Ipswich, the service being conducted by the curate of St. Mary-le-Tower Church. The ringers present were Mrs. Ellenger (also representing Mr. E. G. Ellenger, district secretary), Mrs. and Mr. C. J. Sedgley (Ringing Master), Mr. C. W. Pipe (secretary of the Suffolk Guild), Mr. G. E. Symonds (secretary of St. Mary-le-Tower Society), Messrs. E. Evans, E. W. Pye and F. J. Tillett (St. Mary-le-Tower), and Messrs. C. Crapnell, J. Rose and C. Woodcock (St. Margaret's).

Wreaths were from mother and family; adopted daughter; grandchildren at Maidstone; the Suffolk Guild; St. Mary-le-Tower Society; and many others.

Messrs. Pye, Sedgley, Symonds and Tillett rang a course of Grandsire Triples round the open grave.

AN APPRECIATION.

William Patterson Garrett was born at Ufford, Suffolk, on February 10th, 1866. He passed his boyhood there, learning to ring on the local six, and at Pettistree. He migrated to Ipswich, about 12 miles distant, in his early twenties, and spent the rest of his working life at the well-known firm of agricultural engineers, Ransome, Sims and Jefferies, being a pattern maker by trade.

He naturally gravitated to St. Mary-le-Tower, where he became a contemporary of such men as James and William Motts, W. L. Catchpole and Charles Mee, a hard school, which taught above all else the value of good striking. He became a regular member, and from that time on took part in all the outstanding performances for which the Society became famous.

A first-class ringer, he was equally at home on all numbers, but Maximus was his favourite and he was one of the band which rang the first peal of Surprise Maximus, thereby inaugurating a new era in Maximus ringing. He had taken part in seven first peals of Surprise Maximus and had rung peals in no less than 15 Maximus methods; he was also a notable handbell ringer. There was one record which he alone held and of which he was very proud in his quiet way—he was the only one ever to accomplish a hundred peals of Maximus.

A man of sterling character, quiet, unassuming, loving and lovable, he had a keen sense of humour, and the happy knack of dropping the right word in at the right moment to summarise a situation. His last act in this mortal life was to set his bell, so typical of the man, and to ringers the sign of completion; we will let that stand as his epitaph—'He set his bell.' C.J.S.

OUTINGS

CHRIST CHURCH, CREWE.

On August 7th, despite the fact of leaving the Railway Town, with its motto of 'Never Behind,' at the early hour of 5 a.m., the party were soon in difficulties on 'Our Railways,' and lost one hour between Crewe and Leicester and were late at the Midland Hotel, where breakfast had been provided; after which, trying to make up for lost time, the party took to the buses for Loughborough, where they were met by the genial Mr. Fidler and taken over the famous foundry of John Taylor and Co.

The 'Railway Engineer' Ringers were not long in displaying their engineering, bell-founding and hanging knowledge, having recently lifted, cleaned, re-oiled and generally overlooked their 'ten' at Christ Church, Crewe, which are at present going very well. The hour on the foundry light ring included a plain course of Mr. Fidler's 'Lightning' Treble Bob on the front six. After lunch ringing was resumed at the Parish Church of All Saints with its majestic ring of ten, tenor 30 cwt.; here the finest bit of ringing of the day was enjoyed, as much by those who heard it as those who rang it: a touch of well-struck Grandsire Caters.

Back to Leicester for tea and more ringing at St. Margaret's (12 bells, tenor 34 cwt., a vast difference to the foundry ring, tenor 6 cwt.). By 7 p.m. the party were ready for a bit of rest and quiet to talk over the day's events. The fact that the party consisted only of the Sunday service ringers rather 'cramped their range of methods,' which, however, included Grandsire and Stedman Triples and Cinques Plain Bob Minor, Kent Treble Bob Major, and, so that no one should be left out, rounds.

We arrived home at 1.10 a.m.—not true to the railway and town's motto, but, as we began, one hour late; the moral is 'You can never catch up lost time.' A word of grateful thanks to Mr. 'Bill' Edge (organiser), Mr. Fidler and all who in every way helped to make the outing so thoroughly enjoyable. W. F. S.

HELLINGLY, SUSSEX.

A tour of Kent was planned by the Hellingly ringers and friends for their first outing, held on August 14th. The first pull of the day was on Tenterden's eight, but the ringing did not do justice to this magnificent eight.

Ringing improved considerably at Hythe and a good Double Norwich beat was obtained. An hour's run brought Canterbury Cathedral into sight, where the majority of the company had their first pull on 12. A well-struck touch of Bob Major was rung on the back eight, also a course of Grandsire Caters among an abundance of rounds.

The last call was Biddenden, where a touch of Stedman, worthy of note and in the true Eastbourne style, was rung. Thanks for the day's success are due to Miss Relf and Mr. Edwards (Tenterden), Mr. Fright (Hythe), Mr. B. J. Luck (Canterbury) and Mr. Wright (Biddenden).

WISBECH.

Wisbech St. Peter's Church bellringers held their annual outing on August 9th, when they visited 10 churches in Northamptonshire, enjoying half an hour's ringing at each of them. They rang at Oundle, Tichmarsh, Thrapston, Kettering, Moulton, Irchester, Higham Ferrers, Finedon, Wellingborough and St. Giles' Church, Northampton.

With the exception of Kettering and Northampton, all the churches visited had eight-bell towers.

In most cases the visitors were joined by local ringers, and ringing included the four standard methods and Little Bob.

At Northampton the party visited a theatre and saw Noel Coward's 'This Happy Breed.'

They arrived home at 1 a.m. the following morning.

Grandsire

The Snowdon Change Ringing Series has won such a great reputation in the Exercise that there must few ringers of any ability who do not owe much of their progress to a study of one or more of these text books. The reason for their pre-eminence among ringing books is not far to seek. When the ownership of other works on ringing has eventually passed out of the hands of practical ringers, the new owners have been content to issue reprints, regardless of the fact that much of their contents has become obsolete or out of date. Such books have, as a consequence, lost much of their early reputation. The owners of the Snowdon Series, originally the work of Jasper and William Snowdon, have, on the other hand, always found someone capable of re-writing and bringing up to date any one of their publications which has become out of print.

The late Mr. J. A. Trollope, who had already rewritten 'Stedman' and 'Standard Methods,' was busy on a new edition of 'Grandsire' during the last year of his life, but, unfortunately, he died before its completion. It is a tragic coincidence that the author of the first edition, Jasper Snowdon, who died in 1885, also left his work in manuscript form.

Readers of 'The Ringing World' do not need to be assured of Mr. Trollope's ability to write a text book on any aspect of change ringing. The new edition of 'Grandsire,' which is now offered to the Exercise, although not entirely his work, is exactly what he had originally planned.

The Grandsire method is one of the elements of change ringing and is nearly always the first to be taught to a beginner. It is essential, therefore, that a good text book on the method should not only be written so that it can be understood by the novice, but also that it should include some instruction in the fundamentals of change ringing generally. It deals fully with the method on five, seven and nine bells and gives a large number of touches and peals of Triples and Caters. It also contains instruction in the simple pricking of changes, in and out of course rows, Q sets and their use, etc. Further indication of its contents will be seen in some of the chapter headings. For Triples—Conducting; Calling the Bells Round; Holt's Original; Composition and Proof. For Caters—Development of Composition; Arrangement of the Larger Bells; Proof. There is a short chapter on Cinques and the book ends with a history of the method, about which none is more qualified to write than the author.

Mr. Trollope has not given us an exhaustive treatise on the method. To do so would fill a book many times the size of this edition. But he has explained enough to enable the reader to follow the various problems involved and to work out for himself his own particular difficulties. 'Grandsire' consists of 130 pages and costs 3s. 4d. post free. We are confident that purchasers will receive full value for their money and will be grateful to Miss Margaret Snowdon for making such a book available to the Exercise at such a low cost.

TWO SCARBOROUGHS

Ringers of St. Mary's, Scarborough, Yorkshire, have received from the Meneeley Bell Company, Troy, N.Y., on behalf of the Rev. Charles W. Baldwin, Rector of St. Mary's, Scarborough, N.Y., a request to be supplied 'with some of the changes that are played on your bells so that he may duplicate those here in this country.'

Mr. Bert Sutton, secretary of the Yorkshire church, proposes to send them the Central Council's publications, Method Sheet, Stedman and Grandsire. He would welcome other suggestions.

STROUD, GLOS.—On Aug. 8th, 1,260 Grandsire Triples: Miss D. Shepperd 1, F. Cole 2, G. Latham 3, B. Latham 4, Rev. Carew Cox 5, R. Thain 6, T. Witts (cond.) 7, R. Sharpe 8.

University of London Society

THE YORKSHIRE TOUR.

The third annual ringing week of the University of London Society was held in Yorkshire during the first week of August. Nineteen members and two guests completely filled the small hotel in Ilkley at which they were staying, and many enjoyable evenings were spent in handbell ringing and song. The intensive committee work put in by the officers of the Society on adjacent premises, with the assistance of co-opted members, led to the expression of fear that the Society was going into liquidation, but these happily proved groundless!

There was ringing at a score of churches and three cathedrals—Bradford, Ripon and York—during the week. Progress in the art was made by all, even the most advanced ringing some new method from the diagrams at the back of the booklet. This latter was a notable feature of the tour. Instead of the normal list of places and times, a complete programme, with maps, street plans, and notes on the history and points of interest of every church and tower, and even train times to and from London, was provided.

On three days a coach was hired and the radius of operations extended to about 30 miles through some very fine scenery. Malhamdale was particularly interesting; the magnificently unringable three at Kirby Malham provided an unforgettable sight as the 'great men' of the Society, who turned in the heaviest tenors with ease, struggled hard in 'quick' and 'slow' sixes. The inn nearby, formerly owned by the church and run by the churchwardens, was very welcome.

The trip to Wharfedale and Wensleydale, and back through Ripon, was also of great interest. The climax of the week, however, was the ringing at York Minster, the third heaviest twelve in the world. The Society has now rung at the metropolitan cathedrals of both English provinces, having joined the regular ringers in their practice at Canterbury Cathedral during last year's tour. Before ringing at York the party had the privilege and pleasure of being taken round the Minster and Chapter House by the Dean.

The other days included moorland walks, reminiscent in parts of the more strenuous training found in the Army. The well-known straggling propensities of a dawdle of ringers' were guarded against by putting all the lunches in two haversacks, which were kept in sight by even the least energetic. In spite of the energy expended on Monday and Wednesday mornings, peals were scored on both afternoons, Little Bob Royal at Bradford and London Surprise Major at Ilkley. The latter was, appropriately, the first in the method by any university society.

Besides the many fine rings of bells in Yorkshire, there are many things which will long be associated in memory with the tour. Some are perhaps of greater gymnastic than campanological interest, particularly the unprovoked ju-jitsu displays by the women; but the ceremony of 'tossing the president' appears likely to become traditional. One member is said to continue conducting in his sleep; his room-mate managed, however, to snatch a little rest during the long courses—a habit he shows signs of extending to the tower. The sight of another member drinking water is also memorable, and may account for the drought notices displayed in Leeds.

Our thanks are due to all our Yorkshire friends for their hospitality P. R. L.

HOPE IN ABERGAVENNY

ABERGAVENNY is one of the chief market towns of Monmouthshire. In the future it will be one of the ringing centres for the Llandaff and Monmouth Diocesan Association, for on August 9th a fine ring of ten bells was rededicated by the Lord Bishop of Monmouth. The town lies surrounded by magnificent mountains, and is very well disposed for travel access. It is indeed fitting that it should possess what must now be one of the finest rings of ten in the country.

The Priory Church of St. Mary is an old Benedictine Church. The tower is a central one, and the present ringing chamber was once part of the old lantern tower. The former ring of eight bells was badly in need of attention, and recently Abergavenny and district responded magnificently to the appeal made, and over £300 has been raised for rehanging the bells and restoring the tower. The old seventh has been preserved, but the other bells were recast and three new ones added to give a ring of ten with tenor nearly 26 cwt. John Taylor and Co. have again excelled themselves. The old louvres will be completely blocked, and a special structure in the tower roof has been built to allow exit for the sound.

It will be some time before Abergavenny will be able to sport a Caters band, but the enthusiasm is there. The whole Exercise will wish them every success, and will hope that their ring will be a centre for the Exercise in the neighbourhood.

After the imposing service of rededication, during which the local band rang rounds on the bells for the first time, visiting ringers sampled the new ring, and everyone present had at least rounds. Courses of Grandsire Caters were brought round, and everyone was very impressed by the mellow grandeur of this new addition to our Art.

BELFRY GOSSIP

Among the quaint churches is Brooklands, Kent, with its tower (a spire) detached from the main building and resembling an Eastern pagoda. Here are five heavy going bells with a 14 cwt. tenor. The absence of a floor between bells and ringers makes the noise terrific. The 840 Grandsire Doubles rung on August 12th by the following is said to be the longest length on the bells: J. L. Morris 1, Mrs. Sylvia R. E. Pipe 2, A. J. Cannon (cond.) 3, C. W. Pipe 4, F. C. W. Knight 5.

Mr. W. Arthur Riddington has 'completed the circle' of Countesthorpe, Leics.

Birthday peals to Princess Margaret were rung at Netherton, Worcs., Bishopstoke, Hants, Warnham, Sussex, Norwich and Manchester.

Mr. Alfred Ballard went to Bournemouth to complete his peals 'in hand' of Kent Treble Bob. He has now rung from Minor to Maximus.

After a lengthy stand off under doctor's orders, Sidney O. Cheney, Leicester Cathedral band, makes a welcome reappearance in the peal columns, with the peal of Yorkshire Surprise Royal at Loughborough.

It is something new to ring a peal of Doubles at Manchester Town Hall. The team consisted of five members of Manchester City Police and P.C. Hardisty, of Salford City Police. The fact that there were five first peals speaks well for the Police Guild's instructors. The peal was rung on Aug. 21st.

In place of the false peal rung on July 17th, 1948, at Christ Church, Macclesfield, in honour of the silver wedding of the Rev. and Mrs. A. Clarke, a true peal was rung on August 14th. The band wish to associate Messrs. W. Gayes and J. Fernley with this peal, as they stood in the false peal.

A query has been placed against the claim of the Oxford ringers at Trowbridge to have rung the first course of Cambridge Maximus at Trowbridge. The suggestion is that the late William Pye called a peal of Cambridge Maximus at Trowbridge very soon after they were augmented to 12.

Mr. T. C. Belton, a Leicestershire ringer, has named his two spaniel puppies 'Major' and 'Minor.' He is in the centre of the hunting country.

Attendance at the meeting of the Mid-Devon Branch of the Devon Guild at Newton Abbot last week included ringers from Rochdale, Lancashire.

Barwell, Leics., have elected three new members to their band, bringing the strength of the company to 17. Eight are subscribers to 'The Ringing World.' The band are now practising Double Norwich.

At a meeting of the Newbury Branch of the Oxford Diocesan Guild held recently at Beedon, members stood in silence in memory of Albert Smith, of Thatcham, who had been a ringer for 60 years, foreman of Thatcham tower for 20 years and a branch representative for several years; also for William Smith, a member of Newbury tower.

Anxious moments were experienced by those taking part in the peal of Grandsire Doubles at Silk Willoughby, Leics., on August 16th. Before starting it was found necessary to splice the treble rope. Half-way through the peal the rope of the third started to shower pieces at an alarming rate. The hair of 16-year-old John H. Smith, at ordinary times jet black, looked as if he was having a 'perm.' By a miracle the rope did not snap and smiling faces greeted 'That is all.'

IN THE GARDEN OF ENGLAND

AN AMBITIOUS KENT TOUR

One of the most ambitious ringing tours, combining not only peal attempts, but organised 'tower grabbing.' was held with Folkestone as headquarters from August 7th to 14th.

Those of us who have travelled on previous 'Knight's Tours' will acknowledge this to be the most successful yet, and months of preparation and the writing of more than two hundred and fifty letters by the organiser, Frank C. W. Knight, were amply rewarded by the success of the venture and the quality of the ringing.

The party numbered 32, including the coach driver, who after his third ringing week is now a recognised member of the party. It was regretted that owing to indisposition Mr. Cecil Ebberson was this year unable to be present, and the familiar figure of the Shepherd with his rule was also missed. We were pleased to have with us that veteran peal ringer, Mr. George Newton, as well as Leslie Wightman and the talented Pipe family.

By the time the writer had caught up with the party at Birchington on the Monday, already five out of six peal attempts had been scored, and the sixth—Double Norwich at Birchington—was in the safe hands of Arthur Tomlinson. Elham, which had defied three previous attempts by tourists, and the heavy going tenor at Lyminge—a tough job at any time—had fallen at the first onslaught, and only at Hythe had Cambridge Major been lost through a shift course half way.

CAMBRIDGE THE FAVOURITE.

Cambridge—the favourite method of the week—was knocked off in fine style on one of the best eights in the county on Monday morning, a good start for the week. A true story was told the writer some years ago concerning this grand octave. The late Canon Helmore, who was prejudiced against iron bell frames on the grounds that they adversely affected the tone of the bells, was listening to this fine ring and remarked to the then captain, Mr. Arthur Saxby, they wouldn't have sounded half so good in an iron frame. The late captain had not the heart to enlighten the Canon, and since he was physically unable to ascend the vertical ladder to the bells, he was spared the shock of learning that the bells are hung in an iron frame.

Cambridge was also selected for the two 'left-handed' rings at New Romney and Tenterden, the latter being the heaviest octave in the county. Opinions on these bells are diverse—one veteran of the party considered them the best bells visited during the week—another applied for inclusion in the High Halden peal purposely to get away from the sound of them. A non-ringer was heard enquiring for the iron foundry as he had heard a lot of anvils, and the opinion of mine host of the nearby hostelry, who threatened to fetch his gun, left no room for doubt. At Tenterden the party were joined by Mr. Fred Macey, a well-known figure in Kent ringing circles, who had come specially to meet Mr. George Newton after 30 years.

THE FAILURES.

Failures were few, and of these, St. Peter's in Thanet (Broadstairs), on the Thursday morning, was the most disappointing—especially for youthful George Pipe ringing the second faultlessly, and for the conductor, Mark Lancefield, attempting his first peal of Cambridge as conductor. As Middleton's peal had already been rung several times on the tour, the conductor decided at the last moment to call a 5,156, and when only three leads from home down came the second rope. Had the conductor called Middleton's or even had the 'tower grabbers' ringing prior to the peal been curtailed, the probability is that the rope would have held out until the peal had been scored. However, an extra attempt was arranged for the Saturday at Chilham with the same band apart from the treble 'man' and successfully brought round on bells which are more pleasing to ring and to listen to, for whereas St. Peter's bells are irritatingly quiet, Chilham's are comfortably loud and lend themselves both to speeding and to 'tapping.'

While the peal attempt at St. Peter's was in progress, four of the party attempted a peal 'in hand' in the vestry, but owing to excessive 'speeding' this came to grief about half way. According to an authority in the party, had the peals been successful it would have been the first time that two peals had been rung simultaneously in the one church, but as neither was successful presumably it may have been the first time two peals have been lost simultaneously in one church.

It was also a disappointment that after three hours' good ringing Kent Treble Bob was lost at Lydd through one of those unaccountable occurrences in peal ringing—be it a premature call through over anxiety on the part of the conductor or the usual fatigue after three hours' ringing when the band may not be so alert. The most surprised and chagrined were the various conductors outside the tower, hearing the peal 'going to pieces,' yet impotent to prevent it.

Since the tourists visited Lydd two years ago the church has been re-roofed after its direct hit, which happily missed the tower—a landmark for miles on Romney Marsh—and left its excellent octave unimpaired, but as a gesture and an appreciation of the privilege of ringing there, at the suggestion of Jim Pipe a collection was made towards the restoration fund, and the sum of £2 15s. handed to the church authorities.

BROOKLANDS' NOISY FIVE.

While the Lydd attempt was in progress the remainder of the party had visited the unique belfry at Brooklands with its noisy ring of five in the minor scale. This tower is, in fact, a wooden spire built on the ground independently of the church, and there is only one very inadequate floor between the ringers and the bells, and the only opening for light is the one doorway. An attempted quarter-peal came adrift through a rope slipping its wheel, and those not taking part derived entertainment listening to the bobs being yelled by Pat Cannon—it was possible to take down the calling from across the road, not by listening to the bells, but by listening to the conductor from outside the tower. During the ringing two motor-coaches of visitors called at the church, and as the occupants all took it in turn to stand in the doorway, thus completely shutting out the light, it was not surprising that the conductor threatened to commit murder before the day was out.

The visitors would like to express their appreciation of the many privileges afforded them during a memorable week, notably among these the opportunity to ring at Quex Park, the privileges of mid-week peals at Dover and at Ashford, the lavish hospitality shown by the captain of the Dover ringers, Mr. Charles Turner, and sincere thanks are due to all the various incumbents and towerkeepers for permission to ring and in many cases for meeting the visitors.

Special mention should be made of two of Frank C. W. Knight's pupils from the Church of the Annunciation, Chislehurst, J. L. Morris, age 12, and J. H. Arlet, age 13, who scored creditable peals during the week. Both 'started from scratch' only last September, while congratulations are due to D. J. Charnley, of Isleworth, who at his first attempt at conducting called his own original composition of Bob Major.

On the Saturday, when the company assembled for the last time, Mr. George Newton, before leaving to return to his duties at Liverpool Cathedral, expressed on behalf of the company the grateful thanks and appreciation of the organiser's efforts and congratulated him on the success of his work and presented him with a tobacco pouch, pipe, lighter and cigarette case.

Departure time came all too soon, but at least one member of the party has applied for inclusion in the next tour.

R. H. DOVE.

Dedication

ABERGAVENNY HAS NOW TEN.

After a silence of over two years, the bells of St. Mary's, Abergavenny, were rung on August 9th at the dedication of the ring of ten by the Bishop of Monmouth. The scheme has cost £4,125 and includes recasting seven of the old bells and casting three additional bells. Alterations have also been made to the tower to enable the sound of the bells to be carried over the countryside.

The church was crowded to capacity for the service, which was conducted by the Vicar (Canon M. E. Davies). In the course of his address the Bishop said:—

'I am glad to say that in this diocese, as well as I suppose, every diocese throughout the land, there is a noticeable increase in the interest which people take in the English art of bellringing.

'A number of rings have already been recast, additions made to some of them and new bells provided. I am told that young people—even young girls—are taking with special enthusiasm to the practice of this remarkable art, and that the older ones have come back to it with increased enthusiasm because of the enforced rest from their activity during the war.

'I rather think I saw in the congregation someone who has quite a special record of bellringing in this diocese, and except for those years of enforced inactivity during the war, has been ringing church bells here for more than 50 years, and in his ripe old age is passing on his knowledge, skill and enthusiasm to the younger folk, who will go on ringing church bells when God has called him to rest.'

Referring to the prayer for 'those who shall ring these bells that they may be filled with reverence and godly fear,' the Bishop remarked that in times past this very much needed to be said. 'It is a rather peculiar thing,' he continued 'that those who rang church bells very frequently, having finished their ringing to summon the people to God's house, walked away and took no further interest in the public worship that was being offered. It always seems a strange fact that they should gladly give of their time and energy to summon people to church and not feel any desire themselves to join with the people they have summoned in the worship of Almighty God.'

SALISBURY DIOCESAN GUILD

A ringers' service, with special psalms, hymns and prayers, was held at All Saints', Kington Magna, on August 13th, to commemorate the tercentenary of the fourth of the five bells, which was cast in the year 1648. Grandsire and Stedman Doubles were rung.

Psalm 150 was sung to the accompaniment of organ, violin and handbells, all played by the local ringers, one of whom played the opening voluntary and read the second lesson. The hymns were accompanied on handbells by visiting ringers from Childe Okeford, who also rang changes in standard methods after the Magnificat and at the close of the sermon. The sermon was preached by the Rev. F. Ll. Edwards, Rector and general sec. of the Guild.

Leicestershire Tour

The suggestion that a body of ringers should make a tour of a few of the towers in Leicestershire during August Bank Holiday Week very quickly gained favour. Much ground had to be covered in the ten remaining days previous to Saturday, July 31st—towers contacted in addition to ringers.

Finally, however, a programme was drawn up and it was on Saturday, July 31st, an attempt was made for Stedman Caters on the lovely ring at St. Margaret's, Leicester. Some really good ringing was evident from the word 'go,' and the standard set was maintained for three hours and ten minutes, then, alas! the tenor rope, after shedding 'much of its coat,' was in two parts with the gallant Allan Cattell clutching the short end.

Indeed, such luck could not remain. Some of the band that were scheduled for Melton Mowbray, after taking a quick lunch, found themselves at the wrong end of a long string of people endeavouring to get to Melton Mowbray. It was not until 3 o'clock that the party were able to get mobile; such delay consequently had tragic reverses upon their arrival, as Mr. Burley P. Morris and Mr. Ernest Whitmore were reluctantly compelled to withdraw from the attempt owing to the time of departure from Leicester of their last train to Kettering. Making the most of the next three hours and twenty-two minutes, the remaining eight were successful in scoring Cambridge Major. A word of praise is due to Mr. J. J. Morris for the manner in which he rang the tenor, and who, although severely 'blistered,' stuck fo his guns or at least the 25 cwt. above him.

The band were indeed sorry to learn that Mr. Ted Whitehead, with his daughter Mavis as pillion passenger, had met with an accident on the outskirts of Melton Mowbray, which was to result in Mavis (who stood in the Caters) spending the night in the War Memorial Hospital with a very badly cut knee.

On Sunday, the very nice ring of eight at Gilmorton provided the second victory with another peal of Cambridge and in which two members scored 'firsts.'

The grand ring of eight at Sileby was visited on the following morning, but unfortunately the attempt for another peal of Cambridge was brought to a conclusion after one hour and eighteen minutes.

With Mount Sorrel programmed for the afternoon, the whole band, after 'some' had taken refreshments, set out on foot and arrived in time for a 3.30 p.m. start. This light ring was perfectly struck for two hours and fifteen minutes, and then a second—alas! not the rope this time, but the gallant Cattell himself was compelled to give in through feeling unwell.

On Tuesday morning Enderby provided the next tower, and a really well-struck peal of Double Norwich was brought round after two hours and a thirty-two minutes, the quickest peal of Major yet rung on these bells.

The afternoon of Tuesday saw some of the Enderby band en route for Earl Shilton, where Cambridge Major was again successful.

Wednesday was a comparatively easy day, for it was not until 6 o'clock that St. Andrew's, Countesthorpe, with its grand ring of six, was to be visited. The band was again successful with Cambridge; the peal enabled Mr. W. A. Riddington to complete the circle. Thursday was to be a holiday, but not according to programme; the 'few' were compelled to take the day off as the number could not be made up to visit Barwell.

Loughborough Parish Church was visited on the following day, but the attempt for Cambridge Royal was unsuccessful after an hour's ringing.

To complete and really crown all endeavours a long handbell peal was attempted on the Saturday in St. Margaret's belfry, and the success of this provided a record for the Leicester Guild.

Ringing Week in W. Cornwall

West Cornwall was again the target area for eleven enthusiasts on their ringing holiday during the first week in August. A peal a day plus at least one tower 'snatch' was the aim and in spite of the travel difficulties in this rather scattered area the week was most successful.

The last member of the party arrived at H.Q. at Carbis Bay in the late afternoon of Saturday, July 31st, and within the hour the bells went off into the first peal. Discouragement from the powers-that-be was ignored, for the method chosen was Plain Bob Triples and everyone agreed that the music produced was quite pleasant.

For Sunday service ringing the visitors assisted at Carbis Bay, and in the afternoon they travelled into the heart of the pixie country for a peal of Canterbury Pleasure Major at Towednack. The inside of this tower is very small for a belfry and strange things happened during the peal. One well-known ringer suddenly tried to ring the lamp hanging in the middle of the circle and another's rope twice became 'pisky-laden' and she had to dance around the belfry in pursuit! Nevertheless, a good peal was rung in memory of the late Mr. Hugh Dunstan, former treasurer of the Truro Diocesan Guild, by whose generosity the bells were rehung and augmented last November.

On Monday morning an early start was to be made for Kent at Gulval, but at least a quarter of an hour was spent in discovering that the needle of the carburettor in the 'chariot' had to be pulled instead of pushed. The party eventually arrived at Gulval, where they were welcomed by Mr. William Wood, and a good peal of Kent was rung. After lunch St. Mary's, Penzance (8), and Ludgvan (6) were sampled.

The early peal successes were not to last, for Stedman Triples failed at St. Keverne on Tuesday after an hour and a quarter's excellent ringing. The hero of this day was young Jim, who cycled well over 50 miles and seemed to arrive at the towers almost as soon as the cars. After lunch at the charming village of Coverack, the party sped on to Landewednack (6), the most southerly church in England, and to Mullion (6), churches in such beautiful surroundings that for the first and only time during the week sightseeing took precedence over ringing for one or two members of the party.

Confidence was restored on Wednesday when the first peal of New Cambridge in the county was rung at Helston, of Furry Dance fame. Apparently the fur flew at the local Council offices, for a message was sent requesting the cessation of ringing as the staff could not think, read or write! Unfortunately for the staff this message never reached the ringers! In the afternoon Wendron (6) was visited and a few members went on to Redruth to join the local ringers at their practice in the evening.

On Thursday a peal of Bob Major was scored at Budock, recently rehung and augmented to eight. After the peal the Vicar (the Rev. R. A. Williams) and Mrs. Williams very kindly provided cups of tea and the party moved on to Mabe (6), where the Vicar and a number of the local ringers were waiting to welcome them. After ringing the visitors were the guests of the local ringers at tea.

Friday was the highlight of the week with a peal at Truro Cathedral. Kenwyn (8) and Kea (8) were visited during the morning and early afternoon, the party reassembling at the Cathedral for a start immediately after evensong. 'Young Tom o' Devon' and Bill Birmingham, of Slough, joined the party for this peal, and Oxford Royal came home in 3 hours 44 minutes. This was the first peal of Oxford in the county.

The last attempt of the week was made at St. Anthony-in-Meneage, delightfully situated on the banks of a creek of the Helford River. Unfortunately, one car got lost on the journey and consequently there was a late start.

OBITUARY

MR. MAURICE SMITHER.

As briefly announced last week, Mr. Maurice Smither, of Chiddingfold, Surrey, died suddenly on August 20th. He was cycling to work when he was taken ill. His bicycle was discovered resting on the kerb and Mr. Smither was found in sitting position dead. He was 67 years of age.

Mr. Smither came to Guildford from Maidenhead in 1907, and from then until he moved to Chiddingfold was a member of the Holy Trinity band. He took part in all the first Surprise peals rung by the band and in hundreds of handbell peals. He rang in 10,025 Stedman Caters on tower bells at Haslemere in 1931 and also 7,023 and 7,777 Stedman Caters 'in hand.' On another occasion he rang a peal 'in hand' on six weekdays in succession at a different place, on different bells and a different length. He was a first-class striker and a good steady ringer.

An 'in memoriam' peal of Stedman Triples was rung at St. Mary's Church, Chiddingfold, on August 28th, conducted by A. H. Pulling.

WILLIAM P. GARRETT.
AN APPRECIATION.

Ipswich has produced many notable ringers, amongst them being William P. Garrett, whose death, under tragic circumstances, was reported last week. He was of very gentle and kindly disposition, never boastful, but genuinely proud of the traditions of the St. Mary-le-Tower company.

Contemporary with Motts, Pemberton, Catchpole, Brundle, Tillett and later Symonds and Sedgley, he helped to build up a very strong and versatile company at Ipswich, and their performances in various Maximus methods about 20 years ago were very noteworthy. 'Bill' Garrett was entitled to be a proud man, for he was the first to ring 100 peals of Maximus, including the first ever of eight or nine Surprise methods.

He would never spare any trouble to ensure the success of any enterprise embarked upon for the good of ringing, was tidy and methodical in his habits and thinking, and his very last act was typical of the man, for he set his bell and then sat down and passed away. We have lost a very dear friend and we shall miss his cheery smiling greeting.

The sympathy of the whole Exercise will go out to his relatives, and particularly to the St. Mary-le-Tower Society. It is certain that the good work put in by Bill Garrett will live after him. J.F.S.

MEMORIAL TO MR. H. LUDKIN

To the memory of the late Mr. Herbert Ludkin, who died on May 22nd, a table, the gift of Mrs. Ludkin and family, was dedicated in the belfry of Christ Church, West Didsbury, Manchester, on August 15th.

The service was conducted by the Rector, the Rev. W. H. Bishop, who spoke very affectionately on the service of music and musicians in the service of the Church and how ringers enjoyed the amount of pleasure afforded them, but he wished to remind them also that it was a service calling those who cared to listen to a closer brotherhood needed in these difficult days.

Following the impressive service attended by Mrs. Ludkin and relatives, a quarter-peal of Grandsire Triples was attempted before the morning service, two of Mr. Ludkin's nephews, who travelled from Goole, taking part.

RINGING IN CORNWALL (cont)

Whether it was hunger or merely general fatigue at the end of the week no one knows, but something seemed to upset the band. After a moderately good start for Ashtead, the ringing gradually deteriorated until the peal was given up with only a course and a half to go.

And so a very happy week came to an end. The members of the party were never more united than when thanking the Rev. and Mrs. Roberts for their very kind hospitality and for the excellent arrangements made for the week.

OUTINGS

DURHAM AND NEWCASTLE DIOCESAN.

The second annual outing of the Northern District was held on August Bank Holiday, and, having regard to the original purpose of these gatherings, to visit the more remote towers of the area, ringing took place on six rings in S.W. Durham and N. Yorkshire.

Leaving Newcastle by coach, an early call was made at St. Brandon's, Brancepeth (8 bells, tenor 15 cwt.), a 15th century church delightfully situated in the grounds of Brancepeth Castle. While the ringers were enjoying this pleasant octave, non-ringers were afforded the opportunity of viewing the military museum in the Castle.

The next stop was at St. Andrew's, South Church, Bishop Auckland, where several good touches were brought round and contact was made with a visiting ringer from Staffordshire. An excellent lunch was provided at Bishop Auckland, and the tour was resumed with a short run to St. Mary's, Staindrop (8, tenor 15 cwt.), where a glorious Taylor peal was heard to good advantage. Here we had the pleasure of meeting our president, Mr. W. N. Park, who happened to be cycling in the vicinity, and the sound of the bells 'bobbed his course.'

Continuing, a call was made at St. Mary's, Barnard Castle (8, tenor 17 cwt.), where the Association's influence has not been felt for many years. These bells have little to recommend them either for tone or 'go,' but a really good course of Kent Treble Bob Major was rung with Dick Gofton putting the tenor in its place. It is interesting to record that the one and only peal on these bells was rung during a visit of the Rev. F. E. Robinson on February 10th, 1906, when 'the variation' was brought round in 3 hours 11 minutes.

Crossing the River Tees, a 'raid' was made into the North Riding with a call at Richmond, where we had a first-class tea and a pleasant hour on the bells of St. Mary's (8, tenor 11 cwt.). Turning north, we commenced the homeward stretch and made our last call at St. Cuthbert's, Darlington, where we were able to join in with the local ringers in their practice. A feature of the ringing here was a course of Grandsire Triples by seven ladies with our president doing the honours 'behind.'

And so another busman's holiday came to an end. Its success can best be judged by the numerous requests of 'where are we going next year?' Credit for all the arrangements must be given to Mr. W. E. Robinson, our hon. secretary, who unfortunately could not be present to see the results of his work.

BURFORD RINGERS IN SOMERSET.

Members of the Burford (Oxon) Guild, accompanied by a few friends, chose Somerset for their annual outing on August 21st.

Departing from Burford at 9 a.m., a break was made at Tetbury, Glos., where ringing on the fine eight was much enjoyed. The coach then proceeded via Bath en route for Wells, where at the Bekynton Cafe an excellent lunch of roast chicken was an important part of the day's programme.

At the Cathedral the party was received by the Archdeacon of Wells, who extended a warm welcome to all. Ringing on the magnificent ten took place until 3 p.m., and in addition to the Cater ringing, Mr. A. R. Pink turned in the 57 cwt. tenor to a well-struck course of Plain Bob.

The next tower was the grand octave at Chewton Mendip, where full advantage was taken of their sonorous tone. Leaving here at 4.40 p.m., the party proceeded to Bath, where after a short break for tea some good ringing took place in the spacious belfry of the Abbey.

The homeward journey was started at 7 o'clock, and after calling at Watermoor (Cirencester) for half an hour's ringing on the delightful eight, Burford was reached at 10 p.m.

Methods rung were Grandsire and Stedman Caters and Triples, Double Norwich, Kent and Plain Bob Major, Hereward and St. Clement's Triples. B. S. N.

Three Guilds Festival

MOTOR-COACH TO TAKE MEMBERS TO SEVEN TOWERS.

There was a large gathering at Yorktown on August 21st, when three Guilds—the Sonning Deanery of the Oxford Guild, the Basingstoke branch of the Winchester and Portsmouth Guild and the Farnham District of the Guildford Guild—held a combined ringing festival. Thirty-seven towers were represented, with visitors from Croydon, Bournemouth, Feltham, Fareham, Farnham Royal, and from several churches in London and the Kent County Association. Seven towers were open for ringing, viz., Farnborough Old Parish (6), Hawley (8), Yateley (8), Sandhurst (6), Bagshot (8), Finchampstead (6) and St. Michael's, Yorktown (8).

The Rev. Kenneth C. Davis, Vicar of Hawley, conducted the service at St. Michael's, Yorktown. In his address he spoke of the pleasure he had in becoming Vicar of a parish with a ring of bells and appealed for financial help towards the £450 that would shortly be required for overhauling the bells and frame at Hawley.

After the final hymn, 'Ring forth, holy bells,' the congregation adjourned to the schools playground, where a photograph was taken, and this was followed by a buffet tea in the Church Room.

During an interval Mr. G. S. Joyce (Farnham district secretary) and Mr. P. Eldridge (Farnborough) gave a display of handbell tune ringing, each set of tunes being linked up with a story written by Mr. Joyce. Mr. C. W. Denyer (Farnham district ringing master) was the storyteller.

Mr. Denyer expressed the hope that the festival—the first for several years—would be followed by many more in the years ahead. Mr. B. C. Castle (hon. secretary of the Sonning Deanery) and Mr. J. Chesterman (hon. secretary of the Basingstoke branch) also expressed pleasure at being invited to join the Farnham district, and thanked Mr. Joyce and others who had made the arrangements. A coach conveyed members from church to church.

DEVON GUILD OF RINGERS

A meeting of the Exeter Branch was held at Exminster, near Exeter, on August 14th. The old six were recently augmented, making a very good octave of moderate weight and easy to handle. Ringers were present from the branch and other towers, also a number of visitors. Various touches of Grandsire and Stedman Triples, Bob and Kent Major were brought round.

Service in the Parish Church was conducted by Preb. E. V. Cox, Guild president, in the absence of the Vicar, the Rev. A. L. Dewe. Tea in the Church Hall was enjoyed by over 40 ringers and friends. Mr. A. W. Searle, chairman, presided at the business meeting which followed. Okehampton was chosen for the next meeting in October, where the general secretary (Mr. T. Smale) is instructing a band.

Two new members were elected. Efforts are to be made to encourage those interested to practise new methods during the coming winter. The hon. secretary, Mr. E. J. Ryall, will be glad to have the names of those anxious to do so.

Votes of thanks were given the president, the organist and others who contributed to the success of the meeting.

A LEICESTER EXAMPLE

Coleorton's learners were greatly encouraged by the response to their 'open' practice night on August 14th. Visitors numbered upwards of 40 and came from Ashby-de-la-Zouch, Copt Oak, Hugglescote, Ibstock, Leicester (Cathedral), Melbourne, Shepshed, Ticknall and Whitwick.

While efforts were mainly directed to assisting the local band, opportunities were made for visitors to indulge in more advanced ringing. The pleasant and successful gathering completely justified the innovation. H. O.

EDUCATIONAL LECTURE

On August 13th, Mr. Charles Turner gave an educational lecture on the church bells to the boys of Farningham and Swanley Schools on holiday at Dover. They were shown the raising, balancing, ringing and lowering of the bells and were delighted to go up among the Dover bells and on the top of the tower, where they had a bird's eye view of Dover Castle, town and the breakwater with the two harbour entrances. Afterwards they tried their skill on handbells, which they were specially interested in, as their school possesses a full ring of handbells.

LAMBETH

THERE have been a number of references in 'The Ringing World' to the Lambeth Conference. Peals have been rung in honour of the visit of overseas Bishops, and in various centres ringers have had the privilege of displaying their art to Bishops not familiar with the English tradition of change ringing.

This big conference has concluded, and the Bishops have published their findings in the form of an encyclical letter which they ask should be read in every place of worship in the Anglican Communion on October 10th. Some might justly ask what this has to do with bellringing. The answer is that as bellringing is recognised as a service to the Church, so those who participate are servants of the Church, and as such the pronouncements in the Lambeth letter are of vital importance.

'There is no place in the Church for those who will not try to honour the obligations of membership,' states the encyclical. 'We thankfully recognise how many do so honour them, how great is the zeal of many of our younger people, and how much is owed to the witness of faithful congregations and to other office bearers. But all must take their full share.' The Bishop of Monmouth, in an address to Welsh ringers, put his finger on a point which is of much concern when he remarked that it puzzled him greatly why we, who spend so much time and energy in our ringing, should turn away from the service for which we ring. It is possible that the experience of the Lambeth discussions was uppermost in his mind.

One noticeable thing about ringers is the large number of happy marriages of husbands and wives finding a common interest in the service of ringing. 'We should not forget that faithful and happy marriages still far outnumber those that fail,' states the letter in urging a firm stand by members of the Church by word and example to uphold the sanctity of the marriage bond and to counteract those influences which tend to destroy it. Familiar, as all ringers are, with wedding bells, the public proclamation of such an act is, in our opinion, an added seal to the marriage contract, and we trust that this traditional practice will long continue.

This column is not the place for any dissertation upon the relationship of Church and State or Marxian Communism. We would, however, conclude with the pertinent observation that 'a man's life consisteth not in the abundance of the things which he possesseth.' To possess much and to strive to possess more, states the letter, has been the cause of great evils and will continue to breed envy, hatred and strife under any economic system. The happiness that is to be found among many ringers is surely based on making other things than the quest of riches the main object of life. Perhaps the greatest contribution that we ordinary folk can make is in trying to bring the example of Christ into our everyday life. True, there will be many failures, but a courageous effort is well worth while. It is by the faithful discharge of the duties which men owe—to God by uprightness of life, to society by honest work, and to each other by bearing one another's burdens—that we shall leave this world as a better place than we found it.

BEVERLEY AND DISTRICT SOCIETY

By kind invitation of the Rev. Canon Lamb, Dean of Bridlington, and the ringers of Bridlington Priory, the Beverley and District Society held their monthly meeting at Bridlington on August 14th. The eight bells were rung to all the standard methods, and a fine touch of Stedman Triples preceded the service, which was conducted by Canon Lamb, assisted by the Rev. George Storer, Vicar of Hutton, Cranswick.

In his address, Canon Lamb said he was glad to welcome the Society again, exactly a year after their first visit. He was pleased to know of their continued progress. His message to all bellringers was one of commendation for their ministry, and for the inspiration of the message the bells send to all people.

Handbells were rung at the service during the singing of the 150th Psalm, and before the business meeting by: Mrs. Glenn 1-2, C. Glenn 3-4, T. Taffender 5-6, and L. Rodmell 7-8, to touches of Grandsire Triples. A good tea was enjoyed by the party of seventy in the Church Institute.

Mr. G. Williams presided at the business meeting, supported by the committee, and he gave a welcome to visitors from London and Hartlepool, and he also extended congratulations to Mr. and Mrs. C. Glenn on their recent marriage. The secretary's report of the annual meeting held at Beverley on July 10th was approved, and the next meeting was arranged for September 11th at Barton-on-Humber.

Mr. D. Meadley proposed a hearty vote of thanks to Canon Lamb for the use of the bells and for his inspiring address, to the Rev. Storer, the organist, and the local ringers for the efficient arrangements. Two new members were elected. There was more ringing until 8.30, when the thirty from Beverley, Kirk Ella and Hull were soon on their way home by bus.—A. E. S.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

The writer of the Truro Guild history, published in this issue, the Rev. A. S. Roberts, of Carbis Bay, has the good wishes of all ringers. To-day, September 10th, is his birthday! Is this a double excuse for celebration?

Will the ringer who submitted the peal of Stedman Triples on August 21st at Old Basford, Nottingham, please send his name and address to the Editor?

Mr. C. T. Andrews, of Melksham, informs us that W. Pye's band did not ring Cambridge Maximum at Trowbridge but Cambridge Royal. The only Maximus previously rung has been Plain and Kent.

Mr. Herbert Barlow has now rung peals from 6 bells to 12. He has been a member of the Lancashire Association since October, 1898, and his first Minor peal was on August 28th at Rochdale.

Mr. Jim Shepherd, of Swindon, who has recently been in hospital, is back in ringing circles again, and was among those who attended the meeting of the West Dorset Branch, Salisbury Guild, at Powerstock, last Saturday.

Three generations of the Jefferies family ring at Mangotsfield, near Bristol. Mr. J. G. Jefferies has his two sons and two grandsons all ringing with him. One of the family, 13-year-old M. Jefferies, rang his first quarter on September 3rd, 1,260 Grandsire Triples, ably guided by grandfather, the conductor.

The peal of Superlative Surprise Major on August 2nd at St. Mary's R.C. Church, Clapham, London, celebrating the centenary of the church, is worth noting. It was the first peal of Surprise on the bells and the first peal on them for nearly 40 years. The last was a peal of Stedman Triples, called by the same conductor, Mr. Thomas H. Taffender.

It's a small world. Mr. A. J. Hughes, of Bangor, sends the following: When I was staying recently with my daughter at Bradford, the next-door neighbour came in and found me making a lot of sums (Stedman Caters). After convincing him it was change ringing, he said he had had 'one of those chaps' with him in India—he was in the Durham Light Infantry—but he couldn't think of the name of the chap. I suggested some, and then we found his man in the peal columns of 'The Ringing World.' Yes, it was Pat Cannon. The neighbour's name, Eric Proctor.

John A. L. Thompson, who scored his first peal of Bob Minor at Exhall, Warwickshire, on August 28th, has now rung peals of Plain Bob Minor, Major, Royal and Maximus.

Will the next book be '1066, ad infinitum'? Mr. Ernest Morris has now rung 1,066 peals, the total being reached on August 25th at Leicester. 'And all that' is met by the fact that it was rung non-conducted and silent, and is the first non-conducted peal for all the ringers and for the Leicester Guild.

'The Society of Roving Ringers' has been formed by the tourists who have been on holiday in Devon during the past fortnight. Membership also embraces those who took part in their tour last year. The Society rang its first peal at Broadclyst the average age of the band being 18 years 6 months.

Four members of the Board of Trade staff—Maurice Hodgson, Edwin J. Lindley, E. Maurice Atkins and Alfred H. James—rang a peal of Plain Bob Major at H.M. Patent Office, Board of Trade, on August 26th. The conductor, Mr. Atkins, wonders how many other peals have been rung by ringers exclusively from a single Government department. He would also like to know of any other ringers on the Board of Trade staff.

HANDBELLS BELL ROPES MUFFLES

IN AFFILIATION WITH CENTRAL COUNCIL

THE TRURO DIOCESAN GUILD

BY THE REV. A. S. ROBERTS.

OCTOBER 8th, 1947, was the jubilee of the foundation of the Truro Diocesan Guild, which is now in its fifty-first year. On this day in 1897 a meeting was held at Truro Cathedral, then without nave, western towers or bells, under the presidency of Bishop Gott, who in his charge to the diocese in 1894 had devoted a section to bells and ringing, and had urged the formation of a guild. At that time only two towers were affiliated to any guild, and they were St. Mary's, Penzance, and Gulval, which were linked to the Devon Guild.

Mention of these two towers brings into this early picture the name of Dr. John Symons, who was much concerned with ringing at these two towers, and who had called the first peal ever to be rung in Cornwall in 1883, at Penzance, which was Grandsire Triples. Ringing progress in Cornwall has always been helped from outside the diocese, and the things that make history in the Truro Guild prove the value of ringing tours and the encouragement they give.

Prior to this first meeting there had been a peal attempt (Superlative, which lasted two hours) at Kenwyn Church by a touring band, among them being the Rev. F. E. Robinson (Master of the Oxford Guild) and the Rev. Maitland Kelly, who did so much for ringing in Devonshire. The Oxford and Exeter Dioceses, therefore, had an influence in the formation of the Truro Guild, for both Mr. Robinson and Mr. Kelly gave their advice, and Dr. Symons urged the formation of the Guild.

In 1898 'The Constitution and Rules of the Truro Diocesan Guild of Ringers' appeared, having been printed in Plymouth. The first festival was held at Veryan (six bells), the tower of the first secretary, the Rev. (afterwards Canon) J. A. Kempe, in 1898, which was attended by seven bands of ringers, and indeed it was a full day—Holy Communion 8.30 a.m., luncheon 1 p.m., special ringers' service 3 p.m., tea 5 p.m., harvest thanksgiving service 7 p.m., with ringing by the various bands the whole while between each. The day was a Tuesday.

TO OVERCOME PRIZE RINGING.

These festivals were held each year, and a carefully prepared programme drawn up with each band of ringers attending being allocated a certain time for ringing. Such a method had to be, for there was little or no change ringing, except what a 'special band' could do, and the whole object of the Guild was to overcome the prize ringing which was then rampant throughout the county, and which still does exist in East and South-East Cornwall; there is, however, none in the western half of the county.

Prize ringing generally has succumbed to the progressive influence of the Diocesan Guild, and the fact of its diocesan status. Although money prizes are still given, the area in which prize ringing still operates has gradually diminished. There was an agreement between towers in a certain area not many years ago that money prizes should be given up, and this brought into being the Mid-Cornwall Association as a branch of the Diocesan Guild. At this branch's festivals certificates are awarded to those bands which attain a certain standard of striking. Some such local effort was made at Lanlivery in 1911 after there had been much disagreement over money prizes.

The following elaborate invitation to take part is of unique interest:—

'To the Ringers of the Tower of . . . . . Gentlemen, An Open Competition in the Art of Round Ringing will be held in the Tower of Saint Dunstan, Lanlivery, on S. Dunstan's Day, May 19th, 1911. The Prizes will be: 1st A Certificate that—in the opinion of the Judges—the *Set* named therein were, individually and collectively, worthy to be considered MASTER RINGERS of the Order of S. Dunstan; 2nd, COMPANIONS of the Order of S. Dunstan; 3rd, BROTHERS of the Order of S. Dunstan; 4th and following, Certificate of ability to ring a good Round Peal to all who satisfy the Judges. A ribbon embroidered with 8, 6, 4 or 2 Bells will be given to each successful competitor as a token.

'The Rules will be according to Ancient Custom, provided that Ringers be certified by the Captain of their Tower as Bona Fide Operative Ringers who have rung for service during the past year. The names of intending competitors must be sent in to us on or before 10th May. No entrance fee. Donations to defray expenses will be received by Mr. W. H. Rundle, Lanlivery. Hoping to meet all our old friends and enjoy a quiet day, We are, Gentlemen, Yours fraternally, BENJAMIN ROSKILLY, Capt. W. H. RUNDLE, Vice-Capt. and Treas.'

MR. W. H. SOUTHEARD,
Master of the Guild.

Such a gathering as this was outside the Diocesan Guild, but it is the kind of thing that helped some to give up their old ways.

The first printed report appeared for the year 1902, and in this it is shown that there were 13 towers in union with the Guild. The 1947 report shows 65 towers in union, and 13 under the Mid-Cornwall Association. A total of 78. The purpose of affiliating towers, and so accepting all the members of such towers as members of the Guild, has been kept up and found generally successful as it keeps the tower, and ringers too, sacred from prize ringing.

DR. SYMONS' WORK.

The general history of the Guild shows what a tremendous amount of pioneering work had to be done by a few, and in this Dr. Symons, who died in 1944, was one of the few practical ringers to do it. He was successively Master and President of the Guild, and it is now proposed to place a bell to his memory at Madron Parish Church when the present six are augmented to eight.

His daughter, Miss Eileen Symons, the present president of the Guild, has loaned me some of his books and papers which show his immense interest in bells and everything pertaining thereto, for many cuttings have been preserved, details of all the bells of Cornwall were kept almost up to date, letters from various ringers of bygone days, and one which shows that even in his surgery he was studying method ringing many years ago. It reads: 'Dear Dr. Symons, Kindly send me another Bottle of the Sleeping Draught. Yours truly . . . . Feb. 10th, 1881.' This short request is written on a double sheet of note-paper, and on all four sides there are closely written details of how to ring Grandsire Doubles and Triples.

Dr. Symons worked with four secretaries, first, Canon Kempe, and then with Canons H. H. Mills and H. R Jennings, and with the present secretary, the Rev. W. H. R. Trewhella, who has provided Cornwall with two sixes—at Zennor and Crantock. When Dr. Symons became president in 1930 he was succeeded by Lt.-Col. C. F. Jerram, who was followed in 1938 by Mr. W. H. Southeard, of Truro, who is the present Master.

Method ringing is still only found at a few centres, and generally it is confined to the standard methods. The greatest problem is to provide instructors, and their work is made harder by the fact that few towers have any tradition of change ringing. However, progress during the second half of the fifty years is most evident, and again touring bands have done good in that they have inspired enthusiasts to emulate their successes.

One of the greatest works for the Guild has been done by Mr. C. E. Lanxon, the present peals secretary, who collected and wrote up all the peals rung for the Guild, having just passed the 150 mark. Previously no proper records had been kept. The first peal for the Guild was not rung until 1907, and this was at Emmanuel, Plymouth. The same year a touring band rang six peals, and this inspired peals at Kea and Kenwyn, both near Truro, where locals with the help of visitors rang eight peals of Grandsire Triples between 1909 and 1911. Dr. Symons took part in some of these.

There were some three or four more up to 1913, but the war had its effect and no more were rung until 1926— a space of 13 years. In this year a touring band rang the first peal of Royal (Kent T.B.) at the Cathedral, and this inspired some locals who got to work, and with the help of Plymouth ringers in the next year, 1927, fourteen peals were credited to the Guild. I find my name in twelve of these.

The first peal on eight by all Cornish ringers for the Guild was at Penzance in 1933, fifty years after Dr. Symons' peal there, and the first on eight for the Guild by a band from one tower was at Lanlivdrock in 1934; the band was from the Cathedral. Both peals were Grandsire Triples and I had the honour of conducting both. The greatest achievement so far was the peal of Bob Royal at the Cathedral in the Jubilee Year, but the peal was rung for the Diamond Jubilee of the Cathedral, and the credit goes to Mr. C. E. Lanxon, who is the first Cornishman to conduct a ten-bell peal. Mr. Lanxon, too, is the only Cornishman who has called one of his own compositions, this being Bob Major at Roche; on this occasion we rang two peals by beginning with Stedman Triples in the morning at Lanivet, but several visitors were in both peals.

A summary of the peals shows that during the first 25 years of the Guild's life 19 peals were rung, and local members took part in seven of these. During the last 25 years 134 peals have been rung and resident members have taken part in over 100, and it is now the custom to ring peals without outside help. It is fitting that the greatest number of peals at one tower has been rung at the Cathedral, 15 in all, with the neighbouring towers of Kea and Kenwyn claiming ten each.

The general condition of the bells in Cornwall is excellent, and the county has been a good

Ringing To-day

BLACK SPOTS—SUGGESTED CAUSES.

Dear Sir,—The recent historical surveys of our great ringing associations which have appeared in 'The Ringing World,' particularly the more recent one of the Kent County Association, impel me to write. The surveys give some idea of the progress made in the art during the past 50 or 60 years, which from a peal-ringing point of view are undoubtedly remarkable. Very noteworthy progress in peals and methods rung has been made throughout the Exercise during the past 20 years. Can the same be said of Sunday service ringing?

The avowed aim of the fourteen Associations to which I belong are roughly similar:—

(1) The maintenance and encouragement of service ringing in all the churches.
(2) The cultivation of the art of change ringing.
(3) Belfry reform—whatever that may mean.

During the 42 years of my ringing life I have at various times been resident in the areas covered by the Midland Counties Association, Middlesex County Association, London County and Bedfordshire Associations, and have always given precedence to service ringing. Further, I have had opportunity to visit on Sundays towers in Essex, Herts, Sussex and Surrey. I have for the past 18 months been a resident member of the Kent County Association (Canterbury District). My experiences prompt the questions: Why is it that local service ringing is so much better in some areas than in others? Is it to the credit or default of the County Association or Diocesan Guild that such marked differences occur? Do some Associations, in fact, give as much attention to this aspect of their work as their rules imply? Why, for instance, can Luton—who do not ring peals—ring excellent London Surprise, whilst Canterbury, a much older home of ringing, ring only bad Grandsire?

I am aware that many areas where the local bands reach a good standard owe the fact to having been fortunate in the past in that they have had the sustained assistance of enthusiasts who knew how to handle a bell properly and took pains to teach others to do so. I am convinced that this matter of proper bell control is the crux of all progress and good striking, and that many Associations do not fully realise the debt they owe to these strong men of the past who insisted on proper handling first. Again, do our Associations use their influence to the full to encourage the clergy to know something of the art and to encourage good ringing? Are some of our County Associations, in the light of present-day demands, too unwieldy to admit of proper instruction being given to recruits? Perhaps my friends of the Leicester Diocesan Guild could give some idea of the benefits or defects of the smaller unit.

The fact remains there are many black spots. Moreover they often exist within the areas of our largest and most peal-prolific Associations. The Kent County Association (Canterbury District) covers an area of some 30 miles' radius. It has in affiliation 51 towers—2 twelve, 1 ten, 18 eights, 21 sixes, 9 fives—all more or less in good ringable condition. It has some 200 members. There is no dearth of recruits. Yet it is the exception to ring even a passable touch in a simple method at either district meeting, practice or service. The number who can strike a bell properly are very few, and it is impossible to find a band for a standard method peal without seeking the aid of 'crack ringers' from North Kent, Ashford or Maidstone. Why is this? The recruits coming forward are in many cases left to the mercy of teachers who cannot themselves ring and never will. Towers are in the hands of so-called ringers who cannot even ring rounds, yet the clergy in their ignorance of ringing look upon them as efficient instructors. Such a state of affairs is not to the credit of an Association so influential as Kent County.

Perhaps a drastic pruning operation and replanting in good soil of the pieces lopped off would bring forth new life.

HANDBELL TUNES

Dear Sir,—After reading Mr. J. M. Turner's letter of August 27th date, these lines came into my mind, which I address in respectful sympathy to Mr. R. Douglas (and other)s:—

IF you've six men, all in one mind.
Who promptly meet,
None lag behind;
IF they can handle four bells each
And know their notes
(No need to teach);
IF each has rhythm, time and shade,
Can ring at sight
With no one's aid;
IF all know much, but little say,
Yet never sulk,
Who want no pay;
IF you've sharps and flats for every hymn,
If all are sound
And in good trim;
IF you've octaves four, not two—or one,
ALL TUNES ARE YOURS,
My lucky Son!

Yours faithfully,
69, West Street, GEORGE GRILLS.
Tavistock, Devon.

P.S.—IF Mr. Douglas will send me particulars of his bells, I will try to help him.

Dear Sir,—My late sister and myself attended at the Royal Hants County Hospital at Christmas time for many years and rang handbells in the wards, four in hand. When some tones, or three or four bells in the higher octave, were wanted, I could drop my four on a small table and pick up what was needed to continue the tune. We used to play Christmas hymns, carols, Grandsire Doubles and Grandsire Triples, songs, etc.—a little different for each ward. We had no MSS. music. The ringing was in perfect harmony. One or two of the Winchester Guild officials would be able to vouch for this, being patients at the time.—Yours truly, G. NOICE.

'NOTE THE NOTE'

Dear Sir,—In reply to Mr. B. D. Price's letter, I should like to point out that there is, in fact, no absolute standard of pitch. Present-day standards vary amongst themselves by as much as a semitone, while at the close of the seventeenth century a difference of six and a half tones existed between the 'Church pitch' of N. Germany and the Strasbourg Cathedral organ. Mr. Price's remarks seem to show that such inconsistencies may still be found in this country.—Yours faithfully,

'The Tents of Wickedness'

Dear Sir,—Apropos the comment of the Bishop of Monmouth that ringers who spend so much time and energy in ringing should turn away from the service for which they ring, I feel that no ringer would deny that bands exist purely for the social pleasure of ringing. Those who have rung on Sundays in different parts of the country see desertion happen regularly. One of the worst cases of this the writer has seen was in a church in Cambridgeshire, where one has to make an exit up the centre and north aisles. Some of the ringers there did not even trouble to put a collar and tie on, and made their exit as one body during the first hymn. And one sees well-known bands going to a cafe for coffee after Sunday morning ringing.

Fortunately there are the loyal towers. How inspiring to have ten ringers for eight bells at 8 o'clock Christmas communion! And how deeply satisfying to ring Yorkshire, Cambridge and London Surprise and have a ringers' pew reserved in a packed church!

How many of us could truthfully say with the Psalmist, 'I had rather ring Grandsire Doubles in the House of my God than to ring Surprise Maximus in the tents of wickedness'? —Yours, etc., 'CAMPER.'

ST. COLUMB DOUBLES

Dear Sir,—In the past the term 'method' as applied to Doubles methods has taken on a certain loose meaning which it would seem advisable to accept, having consideration for the achievements in the five-bell field. Records were set up, claiming that a number of different methods had been rung, and, as far as one can discover, no voice was raised in protest until Mr. Barnett happened to read an Australian paper.

April Day (Grandsire single leads applied as bobs to Plain Bob), Old Doubles (Plain Bob with an 'extreme' bob) and Norfolk Doubles (Plain Bob using both 'ordinary' and 'extreme' bobs) are of considerable antiquity and have been rung over a long period of years in company with others like Fortune, Hudibras, Antelope and those intriguing extents called Jolly Dick and Jack o' Both Sides.

On April 30th, 1883, the Cretingham (Suffolk) men rang a peal of Doubles and the Norwich Diocesan Association noted 'the remarkable performance of the Cretingham Branch, who rang 5,040 changes on five bells in twenty-one different methods.' This peal included April Day, Old Doubles and Fortune, together with Gog Magog (which may have been what is so called in at least one district, the three-part extent of Grandsire produced by plain lead, single, bob, single).

It is therefore a little late in the day to castigate these Doubles methods and certainly illogical to suggest that peals containing these methods and others constructed on the same principle may not be used to break records. If, for example, April Day is a method—and a very large number of ringers has accepted it as such—then St. Columb is also a Doubles method. The object of all record-breaking is to surpass previous achievements performed on a certain basis, and Mr. Pink and his band are fairly entitled to claim that they have set up a record in ringing a peal in forty-two Doubles methods.—Yours faithfully,

NOLAN GOLDEN.

KEEP TRYING

Dear Sir,—I'm glad to see that 'Nil Desperandum' is still trying. I also failed at the tenth attempt. However, for the eleventh I tried Superlative and rang in my best-struck peal yet, that of course being the reason for its success. I hope 'N.D.' will shortly have a similar success.—Yours sincerely,

Alsager. DAVID H. ANSTEY.

TRURO DIOCESAN GUILD—continued.

customer to the bellfounders. Of the forty octaves all are in good going order; only some two or three sixes out of about ninety are out of order, and these are to be restored, and several are awaiting augmentation to eight, a dozen or more fives are quite ringable. There is a love of ringing in Cornwall, and this keeps the bells in good order, and one must credit even prize ringing with doing this also, but the Truro Diocesan Guild was founded for the cause of the best and most progressive type of ringing, and in this it must be loyal to its founders.

' Spliced '

The bells of Ash (Surrey) Church rang merrily on Sept. 4th, the occasion being the marriage of two bellringers, both members of the local mompany. The bride was Miss Jean Audrey Whelan, only daughter of Mr. and Mrs. W. G. Whelan, 11, Grange Cottages, Ash, and the bridegroom Mr. Thomas Edward Denyer, second son of Mr. W. Denyer and the late Mrs. Denyer, 120, Ash Road, Aldershot. As the bride entered the church on the arm of her father, who gave her in marriage, the organist played Handel's Largo. The Rector of Ash (the Rev. W. M. Insley) performed the ceremony, and the two hymns were 'Come, Gracious Spirit,' and 'Praise, my Soul, the King of Heaven.' The bride looked charming in a dress of white cloque with orange blossom wreath and veil, and carried a shower bouquet of dark red carnations, later placed on her grandmother's grave in Ash cemetery. There were four attendants, Miss Rosemary Gilliam (bride's cousin) and Miss Rosamond Corden (friend), and two little girls, Miss Nancie Braff and Miss Josephine Whitford (bridegroom's nieces). The older bridesmaids wore blue taffeta with blue veil and feather headresses and blue lace gloves, and carried pink carnations, while the two little maids were in pink flowered dresses, poke bonnets and had posies of blue scabious. Mr. John M. Denyer was his brother's best man.

A reception in St. Peter's Hall was attended by 70 guests, and later Mr. and Mrs. T. E. Denyer left for their honeymoon at Ventnor (I.O.W.), the bride travelling in a tan silk dress with fawn coat and brown accessories. St. Peter's ringers rang touches of Kent Treble Bob, Grandsire and Bob Doubles as the bridal couple left the church, and as they were leaving for their honeymoon 'Spliced' Kent and Oxford and a 720 of Cambridge Surprise Minor were rung. Among the many gifts received were a silver fruit basket from Ash bellringers, a tea set from St. Michael's, Aldershot, ringers, cutlery from Messrs. Stewarts (hairdressers), Guildford, the bride's former employers, and a clock and companion set from Messrs. John Drew (Printers), Ltd., where the bridegroom is employed as a compositor.

WEDDINGS AT DARLEY DALE

Romance thrives among the ringers of St. Helen's Church. Darley Dale, Derbyshire. During August the church was the scene of two weddings. On August 12th, Mr. Ernest Paulson, eldest son of Mr. G. H. Paulson, of Darley Dale, married Miss Eileen Hayton, a nursing sister of Whitworth Hospital, Darley Dale. The service was choral, and the bellringers rang an appropriate touch as the couple left the church.

The bells were also rung for the wedding of Mr. Denis Scott to Miss Marjorie Webster, also employed at Whitworth Hospital, both ringers at the church. The two couples received gifts from their fellow-ringers. Both bridegrooms belong to families who have put in long service in the belfry of St. Helen's Church.

DUDLEY AND DISTRICT GUILD

The quarterly meeting of the Dudley Guild was held at Clent on August 28th, when over 50 ringers attended. Many of the older ringers took the opportunity of having a chat with Mr. Will Short, who is now over 80 years of age.

Tea was served in the Church Hall, and the meeting followed with Mr. Short in the chair. It was decided to send a donation of £1 1s. to the J. W. Parker Memorial Fund.

A by-meeting was arranged for Bilston on Saturday, October 30th, and the next quarterly meeting at Rowley Regis on December 4th.

OUTINGS

RUSHMERE ST. ANDREW RINGERS.

The ringers of Rushmere St. Andrew, Ipswich, combined with the ringers of St. Matthew's, Ipswich, and friends from other towers in the district, and had their first outing since the war on July 31st. It took the form of a tour of Essex by coach. Travelling via Colchester and Braintree, the first stop for ringing was at Stebbing (6), then calling at Ford End (6), and on to Little Waltham, where dinner was served. After ringing at the church, the next stops were at the round tower at Broomfield (6) and on to Springfield (6), Boreham (8), and on to Witham, where after tea a move was made for the last ringing at the Parish Church, Witham (8).

All agreed it had been a most enjoyable trip. The party, which included some of the ringers' wives, numbered 25. At Ford End was found the lightest ring in Essex, the tenor weighing only 4½ cwts. and treble 1½ cwt. They were a great contrast to those at Witham, with tenor of 18 cwt. During the day the methods rung were Cambridge Surprise, Ipswich Surprise, Double Court, Double Oxford, St. Clement's Bob, Treble Bob and Plain, also Bob Major, K.T.B. Major, and Double Norwich.

NORTON AND BALDOCK RINGERS' OUTING.

An August 28th a good number of ringers from Norton and Baldock, Herts, with friends from St. Ippolyts, Hotfold and Henlow, left for their first outing since before the war. First ring of the day was at St. Edmund's, Northampton, and St. Peter's. Lunch was arranged by Mr. Eric Nobles, who was also the guide. At the next call, Wellingborough, the first touch of Double Norwich came round well, and the party proceeded to Finedon. After tea came Raunds, the best ring of the day, and the last port of call was at Thrapston. The party's sincere thanks go to all who made this a most successful day.

SEAL CHART, KENT, RINGERS.

Folkestone was the destination of the ringers from St. Lawrence's Church, Seal Chart, Kent, when they went on an outing on August 7th, taking some friends with them. A stop was made at Sellinge on the outward journey, and at Charing on the return, for ringing, and they also rang at Folkestone during the afternoon. Thanks are due to all concerned for the use of the bells and the enjoyment of the outing.

WALKDEN, LANCS.

First post-war outing of St. Paul's, Walkden, was on August 14th under the leadership of Mr. J. Boyer. Ringing at St. Michael's, Middlewich, was followed by a tour around this interesting 17th century church, conducted by the Vicar's warden.

The Rector was waiting to welcome the party at St. Mary's, Nantwich, and explained features of this beautiful 12th century building. Tea was served in the Parish Hall, and the evening was spent in ringing in the central hexagonal tower. The only disappointment of the day was the absence through illness of the captain, Mr. John Potter.

FIFTY GLORIOUS YEARS

In appreciation of 50 years' devoted service to the church and choir by Mr. G. Eastwood and to Mr. J. Cunliffe, who for many years was a member of the choir, a quarter-peal of Plain Bob Doubles, 1,440 changes, was rung at the Church at St. Paul, Cross Hone, Todmorden, Lancs, on August 22nd. Taking part were Clarence Huxley 1, Robert Uttley 2, Jeffrey Plowes 3, Derek Sanderson, R.A.F., 4, Colin R. Milthorp, R.N., 5, and Cyril Huxley 6. The conductor was Derek Sanderson.

Devon Guild Special Meeting

The Mid-Devon Branch of the Devon Guild of Ringers held a special meeting at Newton Abbot on August 28th, when ringers came from Rochdale (Lancs), Honiton Clyst, Exeter, Newton Abbot, Buckfastleigh and Paignton. The president, Rev. Preb. E. V. Cox, of Ottery St. Mary, and the Rev. C. Carew Cox, of Lyme Regis, also attended.

The bells of Wolborough Parish Church were kept going during the afternoon, and the visitors later adjourned to Highweek Parish Church for a special service, which was conducted by the Rev. P. C. Young (Rector). The service having concluded, bars of flowers were laid on the graves of two colleagues, the late Mr. C. R. Lilley and the late Mr. C. R. Walker, by the president in Highweek Churchyard, and a course of Grandsire Triples was rung on handbells at each grave by: J. E. Lilley 1-2, A. L. Bennett 3-4, Rev. C. C. Cox 5-6, Rev. Preb. E. V. Cox 7-8.

Tea was at Abbot's Larder, Bank Street, and the visitors later moved back to Highweek Parish Church for further ringing. The methods rung throughout were Grandsire Doubles and Triples, Stedman Triples, Plain Bob Minor and Major, and Kent Treble Bob Major.—A. L. B.

JOINT MEETING AT REPTON

The joint meeting at Repton on August 21st of the Midland Counties Guild and the Derbyshire Association was attended, despite the heavy rain, by ringers from Derby, Alvaston, Ockbrook, Duffield, Ilkeston, Chellaston, Cheadle, Norton-in-the-Moors, Burton St. Paul's, Winshill, Ashley, Lullington, Overseal, Netherseale, Measham, Ticknall and Carmarthen, South Wales. The service was conducted by the Vicar, Rev. H. Harcombe.

After tea in the Court House, Mr. W. H. Curson, chairman of the M.C.G., thanked the Vicar for use of the bells and the local people who had arranged the excellent meal.

During the afternoon and evening some good ringing was accomplished in the following methods: Grandsire and Stedman Triples, Double Norwich, Kent T.B., Plain Bob, Cambridge Surprise, and an unsuccessful attempt at Duffield Major.

FIRST PEAL AT ST. BEES

THE prevalence of ringing tours this year inspired one of our readers to recall a peal rung at St. Bees, Cumberland, during a tour arranged by Mr. Frank Bennett and the late Mr. W. H. Fussell. At this ancient priory church, dedicated to St. Bega, an Irish saint who founded a small nunnery here *circa* 650 A.D., a peal of Cambridge Surprise Major was rung on August 9th, 1933. Those taking part were :—

WILLIAM H. FUSSELL ...*Treble*		T. REGINALD DENNIS ...	5
GEORGE R. PYE	2	FRANK BENNETT	6
GEORGE R. NEWTON ...	3	JAMES C. E. SIMPSON ...	7
ALBERT J. HUGHES ...	4	JAMES GEORGE	*Tenor*

The belfry is unlighted by either niche or window of any kind and there is no artificial lighting. It was only possible to attempt the peal after a friend had obtained some super candles. These were fixed on a wooden cruciform shaped holder, which was set on chains in the centre of the floor. The peal was well on the way when one of the candles was displaced, probably by the vibration, and threatened to set fire to the belfry. It was an occasion for quick action. Mr. James Simpson, whilst sticking to the tail end of his rope, made a dash and succeeded in extinguishing the offending flame.

This was not the only cause for the band being a little edgy. A convention of the directors of the famous theological college was also booked to take place the same afternoon, and the college is directly across the road. Although permission had been obtained to attempt the peal, the band was apprehensive of interference. Every moment 'shattering knocking on the door' was expected. Nothing happened, however, and the peal, an excellent one, was brought round in 3 hours and 9 minutes.

Full of interest is this old priory church, much of which is of Norman and Early English styles of architecture. The original chancel was a very noble edifice, *circa* 1200, and ranked high among contemporary buildings, not indeed for its size or delicacy of workmanship, but for beauty and design. When the priory was dissolved the whole church was unroofed and became an utter ruin. The tower fell, crushing the east wall of the south transept.

About 1611 the need of a parish church seemed to have been felt. The chancel was left in ruins. Through it the parishioners went, entering the church through the east tower arch. A wall was run up one bay from the west end, and the holy table was there placed. The necessary building was done in a rude but substantial way, the old domestic buildings serving as a quarry.

The church thus reversed remained in use until about the beginning of the last century, when the altar was moved to the eastern end of the nave and a diminutive chancel formed for it by an alcove. Restoration on a big scale took place in 1855 to designs by Mr. Butterfield, by which the transepts have been included in the body of the parish church. Those who rang the first peal at the Priory Church of St. Bega have certainly memories worth cherishing.

BELFRY GOSSIP

A Cheshire - Yorkshire combination have had an enjoyable week in Somerset. Fourteen peals (all Surprise) were rung. These included Cambridge Royal at Wells Cathedral, where the tenor was turned in by Messrs. James C. E. Simpson and John Worth. This is the heaviest peal of Surprise Royal yet rung. Bristol Surprise Major was rung at Sherborne Abbey with John Worth on the tenor.

The band in the peal at Northfleet, Kent, on August 28th, represented eight towers in North Kent.

Owing to catering difficulties, the annual dinner of the Worcestershire Association has been postponed from Oct. 2nd until Oct. 16th.

The ringer of the third in the peal at Cefn Coed on August 7th was the Rev. Ivor J. Richards, not the Rev. I. J. Richardson as stated.

To assist those ringers who wish to attend the Ladies' Guild meeting at North Mimms on September 25th, the 340 Welwyn Garden City bus is an hourly service, leaving High Barnet Station at 10 minutes past each hour.

The peals of Superlative Surprise Major at Framsden, Suffolk, Cambridge Surprise Major at Helmingham and Cambridge Surprise Maximus at St. Mary-le-Tower, Ipswich, were especially arranged for Messrs. Pearson, Pritchard and Speake, of Wolverhampton.

It is not often one hears of the bells being the oldest part of a church. But Braunston, Northants, where a peal was rung recently (writes Mr. P. Amos), has this distinction. The bells were all cast by Briant, of Hertford, in 1811. The church was built in 1849, and is said to be the third one on the same site. St. Michael's, Stamford, has a similar record: bells all dated 1762, and the church built 1836, but for several years these bells (6) have been unringable.

One hundred years ago on September 4th, 1848, Thurstans' Five-part peal of Grandsire Triples was first called at Hexham, Northumberland. To mark this anniversary, a band of ringers went to Hexham to repeat the performance, while another band rang the same composition at Irchester, Northants. An account of the Hexham peal attempts can be found on another page, and both peals are published in this issue.

Mr. Charles E. Edwards has now completed the 'circle' at Cound, Shropshire, tower.

Three ringers in the peal at Great Crosby, Lancs, have now rung Oxford from Minor to Maximus. They are Messrs. W. H. Deacon, R. Kenrick and T. S. Horridge.

The Universities' Ringing Week at Chester was highly successful. Three peals and two quarters were rung. The story of the week will appear in our next issue.

The peal at Gressenhall on September 5th was the first scored by a lady on the bells since they were rehung in 1881, Mr. L. W. Houghton, of Thetford, Norfolk, informs us.

Mr. Charles Sharples, who conducted the peal of Plain Bob Major at the Church of Emmanuel, Oswaldtwistle, Lancs, on September 5th, called his first peal there 50 years ago.

A member of the band who rang a peal of Whitminster Surprise Major at Rolvenden, Kent, on Sept. 4th, Mr. Peter D. Huckstepp first handled a bell rope in February this year and has made remarkable progress since.

Mr. F. I. Hairs informs us that the last peal at St. Mary's (R.C.) Church, Clapham, previous to the peal of Superlative Surprise on August 2nd was one of Grandsire Triples, conducted by the late Harry Mance in 1910. Mr. T. H. Taffender's Stedman Triples was rung two years previous to this. In all five peals have been rung in this church.

IN AFFILIATION WITH CENTRAL COUNCIL

THE LONDON COUNTY ASSOCIATION AND NORTH SOUTHWARK DIOCESAN GUILD

THIS Association was established in February, 1824, in the reign of George IV., and derives its original name (The St. James' Society) from the fact that its early meetings were held at the Church of St. James, Clerkenwell, in which parish its headquarters remained for some time. These were then moved to Christ Church, Southwark, and again in 1839 the headquarters were moved to the Church of St. Clement Danes, in the Strand. After 102 years in this headquarters the famous building was ultimately destroyed by fire during the London blitz of 1941. Shortly after this catastrophe, news was received, with great regret, of the passing of our Hon. Chaplain, the Rev. Pennington-Bickford, Rector of St. Clement Danes', followed soon afterwards by the announcement of the death of his wife, Mrs. Pennington-Bickford.

Instituted originally as a minor, or auxiliary, society, where aspiring candidates for the two great companies of ringers, the Ancient Society of College Youths and the Royal Cumberland Youths, might meet for instruction in the noble art of change ringing, the structure of the society gradually developed to the Association as it is known to-day. By virtue of its use as a common ground where proficients from both of the great companies can meet and ring peals together, many remarkable performances are recorded in the peal books, the following being a few examples :—

12,096 Grandsire Caters at Fulham in 1837, this being, at that time, the longest number of changes ever rung by one set of men; 7,325 Grandsire Cinques at St. Martin's-in-the-Fields, in 1837; 8,448 Kent Treble Bob Major at Bethnal Green, in 1848; 7,127 Grandsire Caters at St. Clement Danes', in 1852; the first peal of Surprise in the Metropolis, being 5,600 of Superlative Surprise Major, at Bethnal Green, in 1850; 5,040 Grandsire Triples at Prestbury, Gloucestershire, in 1886, being the first peal in which the seven working bells were rung by priests of the Church of England; and 5,011 Stedman Cinques at Shoreditch by six fathers and six sons in 1928. Regarding performances on bells retained in hand, the two following will be of interest, particularly as they were rung so soon after the establishment of the Association and performed by leading members of the Ancient Society of College Youths and the Royal Cumberland Youths: 5,014 Stedman Cinques in 3 hours 28 minutes at the Whittington and Cat, Bethnal Green, being the first peal of Stedman Cinques on bells retained in hand :—

Henry Haley	1—2
John Cox	3—4
George E. Ferris ...	5—6
Matthew A. Wood	7—8
William Cooter ...	9—10
James Dwight ...	11—12

5,040 Stedman Triples. Brooks' variation of Thurstans' Four-part, in 2 hours 41 minutes, at the Whittington and Cat :—

John Cox	1—2
William Cooter ...	3—4
Henry Haley	5—6
Matthew A. Wood	7—8

This peal was rung non-conducted, no sign or signal being made throughout and performed in the presence of competent judges who pronounced it a masterpiece of handbell ringing.

All peals rung by the Association are recorded in professional illuminated writing and are contained in four volumes of leather bound peal books. The current volume of these is always available for inspection at the annual general meetings of the Association.

EXPANSION OF SOCIETY.

In the autumn of the year 1903, the St. James' Society was still doing good work for London change ringing, but the altered circumstances which a period of close upon 80 years had brought to pass called for serious action by the Society. The following main considerations were then advanced in favour of expansion of the Society :—

(1) When the St. James' Society started on its career, and for many years afterwards, London ringers lived within a comparatively narrow circle, and the ordinary meetings were sufficient to enable members of both the old companies to meet together, but, by 1903, the expansion of London and the suburbs had resulted in the ordinary meetings being quite insufficient for social intercourse amongst the members of the London Exercise at large.

(2) No body similar to the County or Diocesan Associations, formed for the promotion of belfry reform, and the higher interests of the Exercise, existed to operate over the whole of the Metropolitan area.

(3) The permanent establishment of a periodical press for the Exercise had brought so many interesting subjects forward for the consideration of ringers that it was felt that opportunities should be given for scientific and other discussion at meetings of the London Exercise at large.

(4) It was made a fundamental principle that nothing should be done to impair the dignity or privileges of the two veteran London companies, the College Youths and the Cumberland Youths.

The expansion of the old St. James' Society into the London County Association of Change Ringers was accordingly effected in the autumn of the year 1903, in order to fulfil the requirements outlined.

That this important change achieved its object was shown by the many successful district meetings held in all parts of London during the next few years. The success, however, led to further and important changes, owing to the growing impossibility on the part of the officers to keep pace with the work involved by the change. At the annual meeting in 1911, therefore, it was resolved to divide the work of the Association by the formation of a Northern and Southern District with separate officers, but maintaining the headquarters as before at St. Clement Danes'.

A further improvement was thought desirable at the annual meeting held in 1929, when, the Lord Bishop of Southwark having given his consent, the name of the 'North Southwark Diocesan Guild' was added to the title of the Association.

A unique feature of each annual general meeting of the Association is the handbell contest for the 'Dawe Cup,' which was instituted to encourage the improvement of striking on tower bells.

The cup was presented to the Association in 1933 by Mr. Francis E. Dawe, and is competed for by association members. Each band entering for the competition must consist of members of any one particular tower in the area of the Association. The performance required of each band entering is to ring a specified number of rounds and a full course of any method on eight bells, the main consideration being correct and good striking.

THE MASTER'S CHAIN.

The late hon. treasurer, Mr. E. Alexander Young, A.R.I.B.A., who has held office of one appointment or another for 56 years, is a prominent figure in the life and well-being of the Association. In addition to holding office in every position other than that of Master, he was the author of the design of the very fine certificate of membership and the designer and donor of the Association's chain of office as worn by the General Master.

The basis of the design of the certificate bears reference to the origin and change of name of the original society. In a central position the general view of London showing St. Paul's and Southwark Cathedrals is typical of the wide scope of the Association, while in medallions appear views of St. James', Clerkenwell, and St. Clement Danes' Churches. The mitres shown relate to the bishoprics of London and Southwark, in which the County of London lies.

SIX-BELL COMPETITION.

Thrybergh Church was chosen for the annual six-bell competition. Its delightful ring, which has recently been augmented from five to six and rehung in a new frame by Messrs. J. Taylor, is all that can be desired.

As there were only three entries, each team succeeded in getting a place. Handsworth St. Mary's for the second year in succession were the winners of the silver cup, with Sheffield Cathedral second, and Whiston third. The winning team had a lady ringer, which is unusual for the competition, and consisted of Mrs. J. E. Turley, Messrs. J. Brothwell, W. H. Taylor, J. G. Brothwell, J. J. L. Gilbert and J. E. Turley. Mrs. D. Kelly and Mr. M. Fowler were judges. The test piece consisted of 360 changes, and a high standard of striking was attained by all three teams.

Thirty ringers and friends enjoyed an excellent tea, after which the Rector, the Rev. G. Kenneth Dixon, welcomed the Society on their first visit to his tower and invited them to come again. The bells were then available for open ringing until 9 p.m. The bright summer weather and pleasant surroundings and kind hospitality of the local people made the event a very enjoyable occasion. H. O. C.

GLOUCESTER AND BRISTOL ASSN.

With the help of visitors from Wrington, Guildford and Hereford, some good ringing was enjoyed at the meeting of the Gloucester Branch, Gloucester and Bristol Association, at Norton on September 4th. Methods included Double Norwich and Cambridge Surprise, and several of the 24 members present rang their first touch in these methods, valuable progress being made.

LONDON COUNTY ASSN. (continued).

Amongst the decorative accessories of the design are the emblems of St. James—the pilgrim staff and wallet—and St. Clement—the anchor and escallop shell. Also included are the diocese arms of London and Southwark and the county arms of Middlesex and Kent, also the shields for the cities of London and Westminster. The art of campanology is represented by the bells shown (one ' at hand ' and the other at ' back '), while Science and Music are shown by the appropriate tablets and figures.

Reference is made to St. Clement Danes' by allusion to the world famous folk song with swags of handbells, oranges and lemons, also the signature E flat major which was the key of St. Clement's tenor and bells.

Finally the clasped hands and " three in one ' with the monograms C.Y. and R.C. allude to the joint action of the two ancient societies, who in 1824 formed the St. James' Society and are, therefore, progenitors of the present London County Association.

After the original master's badge of office had been lost, Mr. Young designed the central star of the new emblem as similar to the old one as he could remember, and added a bell and anchor in panels above the initials R.C.Y. and A.C.Y. with the dates 1824 and 1924.

Mr. Young presented the new emblem to the Association in 1924.

Owing to conditions in Central London during the war years it was considered advisable to suspend meetings, consequently a break in the Association's normal activities resulted from the last meeting at St. Clement Danes' in July, 1940, to the resuscitation of meetings in November, 1945, the first being held at St. Stephen's, Westminster, and St. Gabriel's, Pimlico.

Since this date the Association has proceeded apace with its normal activities of arranging ringing and business meetings, ringing the bells of towers in London having very few or no local ringers for Sunday services and assisting in the formation of new bands at various towers.

OUTINGS

LOST—A KEY.

On a recent Saturday a party of Gloucester ringers and friends spent an enjoyable day in Somerset. The first call was at Bridgwater, where the fine-toned eight were found somewhat tricky to handle.

At old-world Dunster the excellent eight were much enjoyed. After lunch in Minehead, the party proceeded to St. Michael's, which has one of the best appointed ringing rooms in the country. The lovely ten were found to match the ringing room and provided the high spot of the day and some good ringing was enjoyed.

When the descent to ground level was made it was only to find the door securely locked! Banging and shouting soon produced help, but not the key, which could not be found! However, although the precaution of taking the key up had not been taken, another in the form of a locksmith had, and he, with the aid of a piece of bent wire and much vocal encouragement from the rest, soon succeeded in releasing the ringers. Subsequently it was learned that the key was found tucked beneath a hassock in the church!

Thanks are due to the organiser and those friends who met us at the various towers. W.S.

MACCLESFIELD RINGERS.

On Saturday, September 4th, the ringers of Christ Church, Macclesfield, held their outing, and went to Shrewsbury. The first halt was at Market Drayton, where Plain Bob Major, Stedman Triples and London Surprise Major were rung. After a pleasant hour the party proceeded to St. Chad's, Shrewsbury, where the fine toned ring of twelve was soon going to Grandsire, Stedman and Treble Bob. The journey home was via Crewe and Sandbach.

J. W.

R.A.F., CRANWELL, SOCIETY.

On Saturday, August 28th, the recently formed R.A.F., Cranwell, Society paid a short visit to six towers in the Leadenham district. A band of 12 ringers travelled by bus and at least an hour was spent at each of the following six-bell towers: Fulbeck, Barkston, Brant Broughton, Leadenham, Wellingore and Navenby. Methods rung were from rounds and Grandsire for the beginners to Surprise Minor, including Durham and London for the slightly more advanced.

' Home ' was reached at 10 p.m. after a most enjoyable day. A. R.

CHEDDAR RINGERS.

On Saturday, August 28th, St. Andrew's, Cheddar, ringers, with friends from Badgworth and East Brent, had a coach outing to Bournemouth and en route Wincanton and Blandford parish churches were visited.

They were joined at Bournemouth by Mr. H. A. Mitchell for touches of Grandsire and Stedman at St. John's, and on the homeward run a stop was made at Castle Cary Parish Church. Thanks are extended to all who contributed to the success of the outing. E.C.W.

ELY DIOCESAN ASSOCIATION

A meeting of the Cambridge Branch was held at the two five-bell towers at Fen Ditton and Horningsea on August 21st. The meeting was poorly attended, members and friends being present from Bromham, Beds, Bury St. Edmunds, Cambridge, Fen Ditton, Harston and Trumpington.

Ringing during the afternoon was at Fen Ditton, where the service was conducted by the Rector, the Rev. F. E. Stanbury, who also presided at the business meeting which followed tea held at the Barn Cafe.

The following were elected members: Messrs. H. J. Allgood, S. J. Poole, H. A. Warner, M. H. C. West, all of St. Mary-the-Great, Cambridge, and Mr. E. G. Buck, of Baldock, Herts, was elected a non-resident life member. After tea a move was made to Horningsea. Various methods were rung, including spliced Stedman and Grandsire.

Cambridge University Guild

FOUR PEALS DURING RINGING WEEK.

The annual Ringing Week of the Cambridge University Guild was held in the Manchester area from August 30th to September 4th. Ten members were present during the week, though only eight were able to stay for the whole time. The week was arranged by the Rev. R. D. St. John Smith, and the headquarters was the Masons Arms Hotel at Whitefield.

In spite of the petrol shortage, which made it necessary to do all journeys by public transport, it was found possible to carry out the programme in full, and 16 towers were visited. The number of members able to be present was much smaller than of recent years, but this did not have any adverse effect upon the standard of ringing, which was maintained at a high level throughout the week.

Perhaps the most noticeable feature was the success with peals; four peals in four attempts on tower bells must be about a record for the Guild weeks, and the only casualty was an attempt for Double Norwich on handbells.

At the business meeting, held on the Wednesday evening, it was unanimously decided to accept Mr. B. D. Price's offer to organise the Guild Week for 1949 in or near Brighton, it being considered that an offer to arrange it in Dorset, though very attractive, would be better held over for a while until the petrol situation appeared more propitious. By seven votes to two it was decided that the week next year should start on Monday, August 29th. A motion to alter the rules so as to maintain the present masculine character of the Guild was put to the vote, and lost by the narrow majority of five to four.

The week, as previous ones, had its lighter moments; the organiser's private ' commando course ' to the station providing a number of these. Then there is the story of the man who turned his bed round in order to have his head right by the open window—and was later found asleep with his feet on the pillow!

The practice at the Town Hall on the Wednesday evening afforded the opportunity of meeting many friends, old and new, and the hearty welcome received from both ringers and clergy throughout the week will long be remembered with gratitude. R. D. St. J. S.

THURSTANS' FIVE-PART PEAL

Page 70 of Snowdon's ' Grandsire ' mentions what is believed to be the first performance of this peal of Grandsire Triples. This was achieved by the Union Society of Newcastle-upon-Tyne on September 4th, 1848, at Hexham, Northumberland, when the conductor was Robert Balmbra.

Exactly 100 years later to the day another band assembled at the Central Station, Newcastle-upon-Tyne, with Hexham as the destination and the objective an attempt to commemorate the earlier performance by ringing the same composition in that same tower.

On arrival at Hexham Abbey the band was welcomed by the curate and two members of the local company, who conducted the visitors to the belfry and wished them success in their attempt. The first attempt lasted only a few minutes and came to grief through the omission of a call. The set-back did not daunt the band, but acted as a spur. The second attempt produced a first-rate peal with the band easing the strain on the conductor's voice by leaving him nothing to do but call bobs and singles. This time all the calls were inserted, 170 singles and 75 bobs, the only fault being one bob which was changed in the same breath to a single.

The old Union Society of Newcastle has long since ceased to exist, but ringing in Newcastle and district continues under its successor, the Durham and Newcastle Diocesan Association, founded in 1877. Robert Balmbra and his band of 1848 would find many changes in ringing since their days if they could return, but I think that they would have agreed that, despite the innovations, the present generation can still ring a good peal of Grandsire Triples.

LETTERS TO THE EDITOR

Ringing in Kent

DR. HATCHER'S REPLY TO MR. BOTTRILL

Dear Sir,—It is difficult to understand the purpose of Mr. W. Bottrill's letter in this week's 'Ringing World.' His last paragraph is, of course, a bad horticultural analogy. Prunings are always discarded and are the worst possible material for propagating, however excellent the soil. To 'bring forth new life' it is necessary to take a 'cutting' or 'layer' with the appropriate parental background if there is to be any hope of establishing a new offspring. So with ringing, lopped off chunks of any ringing area have little chance of separate survival unless they have received adequate preparation in their parent organisation.

Again, the healthily growing tree revigorates itself seasonally by the bursting forth of new buds; the healthily developing ringing association renews itself continually by the bursting forth of new recruits into the belfry with the full energy of youth. With its large membership, including many youngsters, flocking to the district meeting eighty at a time, the Canterbury District of Kent is beyond doubt bursting with new life.

Mr. Bottrill refers to the black spots existing within the areas of our largest and most peal-prolific associations, with Canterbury the target for direct fire. (By the way, Mr. Bottrill should check up on his measuring; I doubt if the whole of Kent represents a 30-mile radius.) It would appear that the 200 members of this district are for the most part pseudo-ringers who cannot manage their bell, or are grossly oblivious of this, and do not worship their ringing ancestors as they should. For this the Kent County Association must hold itself responsible, the situation having arisen because of unwieldiness.

But how could splitting the county produce a greater abundance of first-class teachers? Admittedly the present influx of recruits is making impossible demands on the available instructors, but surely this is no time for defeatism, but for utilising the association organisation to the full. There is, in fact, a job of work for everyone, and the problem will be solved only as active centres of ringing enthusiasm spread their influence. Meantime the standard of ringing will inevitably vary from tower to tower.

Furthermore it must be realised that this is an era of youth who cannot be suppressed as once they might have been (however good for their souls) but who must be given scope and freedom. With proper treatment they will respond, and instinctively their own standards will rise until a new tradition is born, worthy of this or any other time.

Working backwards through Mr. Bottrill's letter we arrive at his mention of association aims. One gathers that the furtherance of Sunday service ringing may sometimes be neglected, that the cultivation of the art of change ringing has made noteworthy progress, and that belfry reform is rather an obsolete quest. There is much discernment in these conclusions, but they are valid irrespective of the size of the organisation.

For to end where Mr. Bottrill began, the histories of the great territorial associations of our ringing Exercise illustrate over and over again that their fortunes, good or bad, reside in the efforts of individual men and women who have led their fellows.

Now where would Mr. Bottrill lead us? Candidly I still do not know.—Yours sincerely,

E. S. JOHN HATCHER.

ROTHERHAM.—On Sept. 5th, 1,344 Plain Bob Major: Miss B. Hutchinson 1, Miss M. Gooing 2, E. Liversedge 3, A. Stamp 4, G. Tuke 5, P. E. North (first in method as cond.) 6, H. E. North 7, T. C. Ryder 8. For the dedication of the St. Luke Mission Church. Carklow.

The Kent Tour

Dear Sir,—The handbell peal attempt in the Vicar's vestry at St. Peter's, Broadstairs, was never lost through excessive 'speeding' as stated in the report of the Kent tour, in fact the pace at times was quite the reverse! The first half of the peal took 1 hour and 25 minutes as against the average time for a peal of 5,040 'in hand' on the bells of 2 hours and 15 minutes, with a tenor size 15 in C (the same as at Broadstairs).

I called 'Stand' in the first part of the second half as in my opinion the ringing in general was not good enough. For instance, 3-4 were over at one time and we also repeated a lead. Once the tenors struck 8-7 at back-stroke. In view of these unfortunate errors I thought fit to call a halt. Some people may think I am too particular (I know one who would get a peal round at any price), but my standard is a good, clean, true peal, and if this cannot be obtained, I think it best to try again another day.—Yours sincerely,

Newmarket. JOHN A. ACRES.

THE STRANGER AND HIS WELCOME

Sir, — Compared with the long service of notable figures like Mr. James George, I am a newcomer to the world of ringing, and I have always been told by most ringers that wherever a ringer goes he is welcome in almost all towers and enjoys the hospitality of fellow-ringers. I wonder if this is so? If it is, why don't we see more particulars of ringing displayed in the entrances to our churches?

I have only come across this thoughtful act once, and that at Canterbury, which saved me endless waiting to enquire into the possibilities of a ring. At Birmingham, I and another ringer unknown to me waited for an hour one Sunday evening, both with the same purpose, possibly being of some assistance to the band. After enquiring of various officials we were told that the bells were not rung for evensong except one Sunday in the month. A notice to this effect would have saved us, and possibly many others, a long wait. I commend such a notice to all tower secretaries.

I have been in towers at Darlington, Richmond, Lichfield, Tamworth and many others where I have been most welcome, but, on the other hand, I have had experience of entering a belfry and not even being asked if I was a ringer! I might add that I am an attached ringer and most of the above has been experienced during military service. So, as a comparative recruit, perhaps someone will tell me whether I *should* expect to be welcomed at other towers, or whether ringers take their ringing too much for granted.—Yours, etc.,

'DUFFIELD.'

REMARKABLE FEAT OF METHOD RECORDING

Dear Sir,—The well-known ringing machine invented by Mr. G. F. Woodhouse can readily be adapted for printing diagrams of methods by using a simple pen attachment. Its versatility in this direction has been strikingly demonstrated recently. On the publication of my first series of the Surprise Majors, Mr. Woodhouse provided me with half-course diagrams of the whole hundred methods; and since the 370 Surprise Majors were issued a few weeks ago he has completed the series by printing off the additional 270 diagrams. The collection includes both short-lead (Little) Surprise methods and long-lead Surprise Majors like Eryri (48 rows) and Champion (64 rows), all of which have been printed off as readily as the normal 32-row leads.

I feel that such a remarkable demonstration by Mr. Woodhouse of the adaptability of his machine deserves to be placed on record. I am deeply indebted to him for his co-operation, and shall have all the diagrams bound into a unique and lasting record of our present-day Surprise Major methods.—Yours sincerely,

A. J. C.

Accrington Place Bob

Dear Sir,—If we are to 'get tough' with Doubles methods we must omit the word 'place' in describing a method which contains dodging.

Incidentally Accrington is much more pleasant to the ear if reversed, when the bells in 4-5 dodge till the treble intervenes. The method then falls into the Saints—Alphage, Osmund, Vedast — group with their peculiar front work, and has never been rung.—Yours faithfully, NOLAN GOLDEN.

Norwich.

REFORM WANTED

Sir,—'Camper' is right! Due entirely to the fantastic licensing laws of this country, famous bands are compelled to drink coffee after Sunday morning ringing. This is a scandalous position!

We have long advocated the necessary reforms.—Yours, etc.,

NORTH WALES ASSOCIATION

MEETING AT BODELWYDDAN.

The beautiful marble church at Bodelwyddan was the venue for the North Wales ringers attending the half-yearly meeting on Saturday, September 4th. Towers represented were Bangor, Llandudno, Rhyl, Buckley, Hawarden, Gresford and Wrexham, also visitors from Bristol, Crewe, Bowden and Chester. The bells were kept going in various methods for an hour. A short service was conducted by the Vicar, Canon J. E. Morgan, who also presided at the business meeting which followed.

A letter from the Bishop of St. Asaph was read, in which he expressed his appreciation of the work that the Association was doing, and he hoped that incumbents of parishes would take steps to encourage the young people to come forward to learn and practise the art.

It was suggested that the next meeting be held jointly with the Chester Guild. The business was concluded with a vote of thanks to the Vicar for presiding, and to Miss Marjorie Jones, who deputised as organist for the service at very short notice. Before tea at the Wayside Cafe the tower was again visited by some members for further ringing, while others who were interested in horticulture were taken on a tour by the Vicar through the Vicarage gardens.

KENT COUNTY ASSOCIATION

MEETING AT STURRY

The Canterbury District of the Kent County Association held another enjoyable meeting on Saturday, September 4th. The afternoon turned out to be fine and warm, and the sixty or so members and friends who took the road to Sturry were amply rewarded for their trouble.

The fine ring of six bells was kept going during the afternoon until service time, which was held in the church, specially decorated for the occasion by Mr. and Mrs. H. R. French. The service was conducted by the Vicar, the Rev. S. Risdon Brown, who gave the ringers a welcome to the tower, and a few thoughts to take away with them. Mr. E. Seath was the organist.

Tea was taken on the lawn at the Sturry Court Hotel. Two new members were elected. On behalf of those present, Mr. J. A. Russell thanked the Vicar and organist for their part of the day's programme. He also thanked Mr. and Mrs. French for the great amount of trouble they had taken to ensure the members had an enjoyable day. Further ringing was held until late evening, methods up to Cambridge being practised.

Middlesex County Association

SUCCESSFUL MEETING AT BRENTFORD.

The South and West District held a very successful meeting at Brentford on Saturday, August 28th, attended by 40 members and friends. Ringing in a variety of methods, with rounds for the learners under the supervision of the Ringing Master, Mr. T. G. Bannister, assisted by his deputy, Mr. W. Webb, was very much enjoyed.

Evensong was conducted by the Vicar, the Rev. R. M. Pitt, who gave a very interesting address on bells and their relation to Church and State. The collection was for the Bishop of London's reconstruction fund.

A generous tea, provided by Mrs. Pitt and her band of lady helpers, was taken in the Church Hall. At the business meeting the chair, at the invitation of the vice-president, Mr. W. H. Coles, was taken by the Vicar, who expressed his sorrow at the grievous loss the Association had just sustained by the death of their president, Preb. W. P. Cole Sheane, M.A., R.D., Vicar of Twickenham. Mr. Coles, in reply, paid tribute to the sterling qualities of the late president, who was loved by all, and only those who knew him well could fully appreciate the loss to the Association by the passing of such an outstanding personality.

The secretary reminded members of the approach of one of the outstanding events of the year, the joint meeting with the Oxford Guild at Hillingdon on October 2nd, when a record attendance was expected at this great social gathering.

Votes of thanks were accorded to the Vicar, the ladies, the organist and to the Master of the tower, Mr. Geoffrey Dodds, and the local ringers for their kindness in helping to make the meeting such a success.

JUBILEE OF CADOXTON BELLS

An invitation was given to the members of the Southern District, Swansea and Brecon Guild, to visit Cadoxton for their September meeting. About 25 ringers attended and the bells, which were put in by J. Taylor and Co. in 1898, were rung during the afternoon and evening in methods up to London Surprise Minor. The service was conducted by the Vicar, the Rev. E. Ishmael, and the address given by the curate, the Rev. Mr. Rees. Tea was provided by the ladies and was taken in the Church Hall.

A meeting followed and the Vicar was in the chair and gave a welcome to the Guild members. He congratulated Mr. D. J. Lewis, who was present and had learnt to ring on the new bells in 1898 and was still an active ringer with his son, Mr. G. I. Lewis, and his grandson, Mr. D. G. Lewis, who is just starting to learn. The chairman remarked it would be nice to think that in 50 years' time there would be a Lewis still ringing there. Sketty was chosen for the December meeting. Thanks were accorded to all for a successful meeting.

SALISBURY DIOCESAN GUILD

Powerstock is a delightful unspoiled Dorset village and was invaded by the Guild for the first time on Saturday, September 4th, for a quarterly meeting of the West Dorset Branch. Though not too easy of access, some 25 members turned up and made good use of the heavy ring of five. Mr. Jim Shepherd, of Swindon, provided the 'surprise' of the afternoon and all were glad to welcome him after his recent spell in hospital.

The service was conducted by the Rector, the Rev. C. F. Chase, followed by an ample tea in the Village Hall. At the business meeting Lyme Regis was chosen for the next meeting on October 23rd in preference to the original choice, Symondsbury, owing to adverse conditions there. After tea the Rector's daughter shared in some handbell touches.

The Rector, organist and those who provided the tea were warmly thanked and it is hoped this first visit of the branch will prove an encouragement to the local ringers, who are nursing the prospect of augmenting their bells.

STANTON SURPRISE

By W. TAYLOR, Vice-President, Lancashire Association.

WHEN the characteristics which belong to the classification of the so-called 'Surprise Methods' were discussed, it was ultimately decided that: Methods which have an internal place at each and every cross section should be entitled to be classed as 'Surprise.' It was never intended that the group should contain a large number of methods. The main consideration being that the Surprise methods should comprise only the most difficult and intricate methods and so to set an ideal standard of proficiency in change ringing. Hence the glamour which has always been attached to this type of method.

For a while after the decision was made it was hotly contested whether Bristol (a comparatively new method at that time) should be included because of its lack of internal places when the treble is leading and lying, it being pointed out that these positions are in reality cross sections and just as important as the others, indeed, more so.

Of course, the three classical Surprise methods—Cambridge, Superlative and London—have internal places at all cross sections, including those when the treble is leading and lying. However, it came to be generally accepted that the difficulty of Bristol (due solely to the incidence of the Bob work) made it desirable to acknowledge Bristol as belonging to the magic 'Surprise class.'

The present generation may be intrigued to know that even London's right to the additional title 'Surprise' was challenged by William Snowdon (brother of the famous Jasper W.) on grounds which I need not mention here. As a consequence of Bristol's inclusion in the Surprise class, all other methods which lack internal places when the treble is leading and lying, but having an internal place at all the other cross sections, e.g., Belgrave Surprise, which is a simple variation of Yorkshire, have the right to belong to the Surprise group and thus admitting a large number of inferior methods.

Stanton Surprise, whilst conforming to the full requirements, including internal places when the treble is leading and lying, has other and, in my opinion, more serious blemishes. It resembles Bristol Surprise in having four bell work on the front four and back four alternately, with a quick (very quick) transition from one to the other, but unlike Bristol, the Bob work is ordinary Plain Bob and presents little difficulty.

The serious blemishes referred to are the four whole pulls made at the first and third cross sections, i.e., when the treble passes from 1-2 to 3-4 and from 5-6 to 7-8. Surely the definition of having internal places at a cross section doesn't allow external places to be made in addition! Besides, if four places (including that of the treble) occurred at the lead end, it would rightly be called a 'Single.' Now, the four places at the cross sections in Stanton are neither more nor less than 'Singles,' and as a consequence the bells are 'out of course' whenever the treble is dodging in 3-4 and in 5-6! It has always been accepted from time immemorial that Singles are unnecessary in Treble Bob and therefore they are not tolerated. I suggest that the band which rang the peal of Stanton Surprise should withdraw it as the method is not in accordance with the spirit of Treble Bob.

Unfortunately there is a well-established precedent in Cambridge Surprise and its offshoot New Cambridge. In the former the blemish occurs when the treble is dodging in 3-4 and in the latter one whole pull later at the cross section. I suppose that the reason it has been tolerated so long in Cambridge Surprise is because of the facile manner the method extends to Royal and Maximus.

In conclusion I would humbly suggest that the Central Council take the drastic step of declaring that all Treble Bob methods (aye, including Cambridge) to be illegitimate if they contain more than two whole pulls made at the same time. Also to amend the definition of a Surprise method which will exclude out of the group all but the more intricate and relatively difficult methods. I am aware that this is a very difficult task, but I am certain that in two or three years' time a satisfactory solution can be arrived at. I may say I am willing and prepared to give my assistance if the Council or its committee think it necessary.

OBITUARY

MR. H. CHAPMAN.

The passing of Mr. Harry Chapman, at Huntingdon Hospital, on Sept. 10th, will be regretted by a wide circle of friends, particularly in the Lancashire Association.

Born at Bythorn, Hunts, on November 12th, 1863, he started ringing in his own village (a stoney tower) at the age of 12. It was not until March 13th, 1886, at Raunds, Northants, that he rang his first 720 of Bob Minor, and his first peal was at Cardington, Beds, the same year.

In all he rang nearly 600 peals, of which 369 were for the Lancashire Association. For a long time he held the heavy bell record, having rung behind and turned in the old tenor at Manchester Town Hall (Mr. William Pye beat this record when he rang Exeter Cathedral tenor single handed). He took part in peals in England, Ireland, Scotland and Wales, and among his notable performances were 9,312 Superlative, 14,112 London, 14,000 Kent Royal, 12,240 Kent Maximus. He rang in the first peal of London in Ireland and also in the heaviest peal of Stedman Triples. In 1897 he called the first peal of Superlative in Lancashire at Pendleton, where he was captain of the local band, and in 1899 the first of Cambridge in the county. Many of his peals were rung at Ashton-under-Lyne; and it was here that he rang the 11th to the record length of Kent Treble Bob Maximus. He never tired of relating how he fed Jimmy George, who was on the tenor, with slices of orange.

His connection with the Lancashire Association started in 1888. He served on the committee from 1895 to 1927 and was a Central Council representative from 1905 to 1917 and from 1923 to 1929. For 35 years he lived in the Manchester district, and on retirement in 1927 from the service of the Manchester Corporation he went to live at Keyston, Hunts.

The funeral service and interment were at Keyston on Sept. 13th.

BELFRY GOSSIP

For the rally and conference of vergers at Leicester on Sept. 9th, Mr. Ernest Morris was the local secretary and had the bulk of the organising on his shoulders. He concluded the day with a peal of Plain Bob Minor, the first to be rung by a band of vergers.

Mr. Ernest Weatherby, of Los Angeles, a former Guildford ringer, is arranging a set of bell tunes for the Boston handbell ringers.

The peal at Linton, Kent, on August 28th, was rung in honour of Mr. Frank Boorman's 60th birthday.

The walking stick left at St. Wulfram's Church, Grantham, by Mrs. R. F. Deal can now be collected from the verger, St. Martin's-in-the-Fields, Trafalgar Square.

Two Rochester, Kent, ringers—Mr. Allen A. Vidgeon and Miss Jessie E. Wright — were married at St. Werburgh's, Hoo, on September 18th. A wedding peal honoured the occasion.

Four quarter-peals were rung on September 11th by the following band at Cranford, Stanwell and Harmondsworth, Middlesex, and Clewer, Berks: B. Tubb, P. Blake, F. Barker, F. Tubb, B. Willis and L. Tubb. Methods included Plain Bob Minor, Oxford Bob and Kent Treble Bob.

Greetings from Paris announce that on Sept. 17th on the top stage of the Eiffel Tower was rung 120 changes of Grandsire Doubles 'in hand' by E. Dodds 1-2, Geoffrey Dodds (conductor) 3-4, Miss J. E. Askew 5-6. A claim to the first change ringing on the Eiffel Tower is submitted.

The ringers of Selby Abbey rang specially for the visit of the Bishop of Minnesota, U.S.A. After the service they were received by the Bishop, who expressed his great pleasure on hearing the church bells of England in the many parishes he had visited. He remarked how much better he liked to hear the bells rung in the English manner rather than being chimed as in American churches.

Mr. Wilfrid F. Moreton informs us that the first peal of New London Court Bob Major was rung on handbells at Roper House, Canterbury, on August 10th, 1946, by the Oxford University Society. Mr. Nolan Golden and his band are to be congratulated on ringing the first peal in the method on tower bells.

Miss Betty Brown called her first peal of London at Metheringham, Lincs, on September 8th. She is 16. Congratulations!

Mr. John Gartside has 'circled' the tower of Whittle-le-Woods, Lancs, and Mr. Albert J. Lancefield, Eastwell, Kent.

Ramsey Surprise, a composition of Mr. C. Kenneth Lewis, has been rung for the first time.

Mr. Roger O. Fry, a valued contributor to this issue, is now in the Army, stationed at Aldershot. A welcome awaits him in Farnham and Guildford district towers.

Absent from our peal columns for a week or two will be the name of Mr. Philip A. Corby. His friends will regret to learn that he has fractured his arm as the result of an accident.

A spell of at least 10 years has been broken by the peal of Plain Bob Major at All Saints', Northampton. Hopes are entertained for more frequent peals.

The Rev. J. M. Turner, Washfield Rectory, Tiverton, challenges the veracity of Mr. P. Amos' remarks concerning St. Michael's, Stamford, and its six bells dated 1762. 'I was a worshipper at St. Michael's, Stamford, 1890 to 1925, and this is the first I have heard of its six bells. I was in the church last summer and would have loved to have seen these mystery bells. The church was erected in 1836. The old church of the 13th century fell with a crash during an attempt to enlarge the arches in 1832. The tower was of wood.'

A Beloved Master

MEMORIAL TABLETS TO MR. RUPERT RICHARDSON UNVEILED.

In the presence of over 120 ringers and friends, two bronze tablets were unveiled in the belfry of St. Lawrence's Church, Surfleet, to the memory of Mr. Rupert Richardson.

The first read:—

In affectionate remembrance of
Rupert Richardson,
Master of the Lincoln Diocesan Guild
of Church Bell Ringers, 1933-1947,
who passed to his rest 13th January, 1947.
An extra bell was added to the peal at
Lincoln Cathedral, and this tablet placed
here to record this gift by Members and
Friends of the Guild.

The other stated:—

This electric clock was given by
Rupert Richardson,
who from 1898 to 1947 was a ringer
in this Church.

The very impressive service was conducted by the Vicar of Surfleet, and the tablets were unveiled by Canon Carnegie, president of the Elloe Deaneries Branch of the Lincoln Diocesan Guild, who gave a most inspiring address which will long be remembered by all present.

Tea was served in the familiar bulb shed with all the officers of the Lincoln Diocesan Guild present. Amongst those who attended were ringers from Birmingham, Coventry, Guildford, London and Bridlington.

The proceeds from the tea, which amounted to £10 10s., were very kindly given by Mrs. Richardson to the memorial fund. The Guild Master, Mr. J. A. Freeman, informed the gathering that a further £95 was required and appealed to those who had not already done so to send their subscriptions so that the fund could be cleared without delay.

The Lincolnshire District of the Ladies' Guild, who had subscribed so generously to the fund, then held their business meeting.

There was ringing on the 12 tower bells for all tastes, handbell ringing on the lawn and the usual Glyn Garth hospitality. This was a gathering of ringing friends such as Rupert always so much enjoyed. J. B.

ST. DAVID'S DIOCESAN GUILD

With beautiful Tenby as the place of the quarterly meeting of the Guild, eight bells with ropes in a circle in a roomy belfry and the calm sea under a rare sunny sky, it was not surprising that there was a good attendance of ringers from churches in the diocese and from as far away as Oxfordshire and Porthcawl.

The bells were in full use before and after the break for service, meeting and tea (at the invitation of the Rector, the Ven. Bickerton Edwards), and touches of Triples and Major were rung with tolerably good striking.

At the meeting a suggestion was made that the Guilds of Wales should combine to hold an annual festival at some centre where more than one ring of bells was available, such as at Brecon, although the difficulties of travelling from Haverfordwest and Llanbadarn Fawr, etc., were stressed.

A grant from the Bell Ropes Fund of £2 10s. was made to St. Peter's, Carmarthen.

Canon Hayman, of Cardigan, was present, being in the unhappy position of having a tower with bells not in a fit state for ringing. A hope was expressed that these bells could be made ringable and the Guild would assist would-be ringers to learn how to make best use of them.

Votes of thanks to the Rector for providing the tea and making the bells and room available, and for conducting the service (assisted by the Rev. C. D. L. Griffiths), to the secretary (Mr. C. H. Hawkins, Llanelly) and Ringing Master were moved by Messrs. F. Sharpe and A. Hoare.

The church chosen for the next quarterly meeting was Llandilo on December 11th.

Universities' Ringing Week

Chester was the summer venue of the Universities' Association of Change Ringers, from August 13th to 21st, the party of nearly forty ringers from eight universities—Oxford, Cambridge, London, Bristol, Durham, Liverpool and Wales—staying at Chester College.

The ringing programme opened on Friday evening with a visit to Old St. Mary's, where introductions with city ringers were effected, some of whom were to become old friends.

On Saturday morning, Canon Coad conducted a most fascinating tour of the Cathedral, after which we had our first taste of the Cathedral bells. The afternoon was devoted to peal attempts at Christleton and Frodsham (only the latter succeeded) and visits by non-pealers to Hoole and St. Mary's, Handbridge.

On Sunday the party dispersed for service ringing, this including ringing for the 8 a.m. celebration at Old St. Mary's, quarter-peal attempts at Gresford, Chrisleton and Old St. Mary's, and afternoon ringing at the Cathedral. In the evening the party was 'at home' to a number of Chester clergy and ringers in the College library.

The days were devoted to cycling tours of the district with the exception of Thursday. To preserve the unity of the large party, and yet to give everyone the fullest opportunity of ringing, a staggering principle was introduced whereby one group was responsible for arriving first at each tower, another was last away, while a third had the day off. A further help towards the maximum amount of ringing time was packed lunches, so that the midday meal was enjoyed when and where we liked, usually in a pub. During the whole time there was not a single hitch, and though a certain punctiliousness of early week gave way to a somewhat freer interpretation of the time table as we became tired from our exertions, there was never any likelihood of a breakdown.

On Monday we went south to Wrexham; on Tuesday to the Wirral peninsula; on Wednesday, following morning peal attempts, east to Tarporley (where appropriately we rang at St. Helen's Church on St. Helen's Day); on Thursday by bus and ferry to Liverpool and St. Helens, Lancashire (when Mr. George R. Newton proved the perfect host), and on Friday to the Frodsham and Grappenhall area. During this time the tower-snatchers extended their list by about 30; indeed, not content with this, a group ventured on the Saturday into Flintshire and grabbed six more.

On the return to Chester each evening a hearty meal awaited us, and then we plunged into more activity; ringing practices at Christleton, Hoole and the Cathedral on Monday, Tuesday and Wednesday respectively, a general meeting of the Association also on Wednesday, a film show on Thursday presented by the Rev. A. G. G. Thurlow (featuring the U.A.C.R. Canterbury Week of 1946 and Spanish travels) and before the ending of that day the singing of Compline to Plainsong in the College Chapel; and finally on Friday a farewell evening when our friends of Chester joined us.

There were many high spots of a memorable week: our corporate Communion at the Cathedral when the Bishop celebrated, walks round the city wall, the ascent of Liverpool Cathedral tower, 3¾ hours of Spalding Bob at Eccleston—no evidence of which will ever find its way to the peal columns—Eccleston bells, courses of Chester Surprise at Hoole and Backford, the chase after an 8 mm. projector finally run to earth in Liverpool, the frequency of those three leads of Bristol, supplanting Kent, as evidence of ringing progress, and of friendliness wherever we went.

In looking back to the Chester Week of 1948 we should like to mention in particular Mr. J. W. Clarke, Master of the Chester Guild, whose advice assured the success of its planning: the principal, matron and domestic staff of the college, who made us completely at home; and among ourselves Marie Cross and Wilfrid Moreton for shouldering the arduous task of controlling the ringing. E.S.J.H.

Oxford University Society

FARMING-CUM-RINGING WEEK AT HONEYBOURNE.

For the third year in succession, the Society has turned agricultural, perhaps too agricultural for some members' liking. The weather remained irritatingly fine enough to afford no chance of a day off work, and many happy hours had to be spent gathering in the fruits of the field, most of them not immediately edible, i.e., peas, tomatoes, beans, cucumbers and onions—but no plums.

A good start was made on Saturday, Sept. 4th, with a peal of Grandsire Triples at Badsey (including one 'first'), and, at Hinton-on-the-Green exactly a week later, a peal of Bob Major was rung by way of epilogue. On Friday, three naughty rebels, who were fed up with picking Farmer R. R. Smith's onions, withdrew secretly to ring a handbell peal of Grandsire Doubles in one of his cornfields.

On Sunday, Mickleton and Campden were the towers visited for service ringing, while in the afternoon the handbells tinkled Grandsire Caters merrily by the pleasant green waters of Broad Campden Baths, so familiar from last year's visits. Evening practices were held at Evesham (10), Mickleton (8), Badsey (8), Campden (8) and Bretforton (6). Ringing ranged from rounds to—yes, we can just say it—Spliced Surprise. It was 'spiceless' spliced, however, in answer to a haughty challenge thrown down by Miss Betty Spice, and the atmosphere was too charged with emotion for the band to perform very successfully. But courses of Cambridge, Yorkshire, Superlative and London were brought round, and this year's recruits made good progress in Grandsire and Plain Bob. Perhaps the pleasantest hour of each day was 9 to 10 p.m., when, amid convivial surroundings, sweet draught cider (locally very potent) was challenged to do its worst.

An administrative hitch had made only a week's stay possible this year, instead of a fortnight, and there was thus no opportunity for a whole-day tour, as had been hoped. Apart from this disappointment, the week was enjoyable in every way, and for this success thanks are largely due to the local tower captains and ringers. The warm welcome and co-operation they gave made every ringing visit a real pleasure. D. G.

GUILD OF VERGERS AT LEICESTER

September 9th was a great day for Leicester when some 300 vergers from all parts of England assembled for a great rally and conference. A civic welcome was given by the Lord Mayor, and the Provost of Bradford was the speaker. A 'procession of witness' through the city to the Cathedral was most impressive, all the brethren being robed and led by the clergy and Lord Bishop. The latter preached at the Cathedral service, after which a 'communal tea' was partaken.

As shown in our peal columns, the local secretary of the Leicester Diocesan Branch got together six of the brethren and called a very well-struck peal of Minor at All Saints' Church.

NORWICH DIOCESAN ASSOCIATION

Some forty ringers were present at a meeting of the Western Branch of the Norwich Association on August 28th at Wells-next-the-Sea. A most enjoyable afternoon and evening were spent ringing on the eight in this old-world tower.

After tea some went over to Halkham Church, situated in the park of the Earl of Leicester, and rang on the fine six. This is probably one of the easiest churches to be found in which to inspect the bells, a wide wooden staircase running round inside the spacious tower.

SALISBURY.—At St. Paul's on Sept. 10th, 1,260 Grandsire Doubles: C. Potter 1, F. Harris 2, F. E. Manns (cond.) 3, J. Mussell 4, R. Marlow 5, J. Dommett (first quarter) 6.

LETTERS TO THE EDITOR

Black Spots

ADVICE TO YOUNG RINGERS.

Dear Sir, — In his letter Mr. Bottrill has made a challenge which I feel the Exercise should not let go unanswered as he has drawn attention to one of the less satisfactory sides of ringing to-day.

My experience as a ringer has been very much shorter than Mr. Bottrill's, but I have in the past few years experienced ringing in most parts of the country. My impression has been that good and not so good ringing go in areas roughly synonymous with territorial associations and branches, and that areas of good ringing are invariably grouped round a centre of ringing renown. The other areas contain, I have found, many ringers with very little idea of what good striking and ringing are, simply because no one has ever shown them that it does exist. If the Exercise, by its endeavours, can gradually sow the seeds of a ringing centre in each area, I think we are near a solution.

To do this we have got to think a bit about teaching, for that is, I think, the crux of the business. I would like to begin by making a few suggestions.

Firstly, I think we might do well to hear from those instructors who have been successful, in the form of short letters or articles in your paper, sir, if space permits. I have often heard useful tips being given in the belfry, so why not more publicly? We all have our pet theories and most like airing them. Young ringers would, I think, benefit particularly in this way.

Secondly, I think beginners should be urged to watch and mingle with good ringers wherever possible. I found that much could be learnt from a critical study of an experienced ringer's handling, in the same way as a young cricketer can learn a lot from watching, say, Denis Compton. In areas where very few experienced ringers live, non-territorial associations may be a great help.

I think there is also room for more experiment with teaching methods. One or two adventurous people have shown what can be done in this way in recent years. Experiment is always the precursor of progress. I don't believe it necessarily follows that our present methods of teaching are the best obtainable.

Lastly I think much can be done on both sides in ringers' relations with the clergy in some areas. If both elicit the friendship of the other, as is done in some places, I feel both will benefit. Ringing can never be successful unless ringers' relations with the clergy are of the most cordial. The fact is at the moment that frequently they are not.

Prophecy is always dangerous, but I venture to suggest that unless the Exercise makes more conscious effort to cross the barriers surrounding some of the black spots, good ringing will never be much more widespread than it is to-day. Bad ringing can be as much an inheritance as good ringing.—Yours faithfully,

P. M. J. GRAY.

PENNING'S VARIATION

Dear Sir,—May I suggest to conductors that any future performance of J. F. Penning's One-part peal of Grandsire Triples should be reported as Penning's Variation of Holt's Original?

The relationship between the peals is most readily demonstrated by reversing Penning's peal when it will be found that large blocks of Holt's peal are to be found in it; notably the 59 leads from 625347 to 462537 and the 69 leads from 243576 to 263475. It would appear that Penning adjusted a few Q sets and reversed the result—a procedure insufficient to be counted as originality.—Yours sincerely,

G. W. SLACK.

Waltham Abbey, Essex.

Doubles--Legislation Wanted

Dear Sir,—The fact that no one has previously questioned the acceptance of Doubles 'records' compiled by using many methods twice or more with only different calls to distinguish one from another is not so surprising as Mr. Golden appears to think. It merely serves to illustrate that the Exercise as a whole is not interested in Doubles ringing. Whether or not this is to be regretted is a matter of opinion, but it is unfortunate that the Central Council has never legislated on the subject. However, the Doubles and Minor Collection regards Old Doubles as another name for Bob Doubles, not as a separate method.

Five-bell ringers are rightly permitted a certain amount of latitude — no one expects them to ring only methods with Bob Doubles lead-ends, for example. But whatever may have been accepted up to now, it is clearly illogical that the use of an alternative call should continue to entitle a Doubles method to two or three different names. If a band were asked to ring a plain course of 'St. Columb' Doubles, all that they could do would be to ring Reverse Canterbury, and a method with no plain course obviously cannot exist. On precedent, Mr. Pink is entitled to regard his recent peal as containing 42 Doubles methods, but it is doubtful whether one ringer in a hundred will agree with him.—Yours faithfully,

Crayford, Kent. E. A. BARNETT.

ST. WOOLOS' TENOR

Dear Sir,—Mr. Price has certainly made a mistake in his letter regarding the note of the tenor of the Cathedral Church of St. Woolos. The tenor note is a true D and for its weight (21 cwt. 2 qr. 2 lb.) it cannot be better.

SUNDAY RINGING REFRESHMENTS

Dear Sir,—On the question of reform, all the public-houses in this part of the world are open by the time the mid-morning service has finished on a Sunday.—Yours faithfully,

Hereford. WILFRID F. MORETON.

50 YEARS AFTER

Dear Sir,—I was pleased to see that the first peal of the method published in 'The Bell News' about 50 years ago under the title of Old England Court Bob Major has now been rung at Hethersett, Norfolk, under the title of New London Court Bob Major, and I, being the author, congratulate the band on their performance.

Names matter little, and as the Methods Committee have altered the name, so let it be.

—Yours faithfully, GEORGE BAKER.

WEDDING

FAITHFULL—SAFFERY.

Two ringers were married at North Stoneham on September 4th—Mr. Roy Faithfull, of St. Mary's, Southampton, and Miss Betty Mildred Saffery, of the North Stoneham band.

The bridegroom's father is the well-known steeplekeeper at St. Mary's, Southampton, and the bride's father was at one time a member of Christchurch Priory band, as was also her grandfather. The best man was Mr. John Faithfull (brother), also of St. Mary's band.

A number of ringers were present at the ceremony, and as the bridal party left the church it passed under an archway of handbells. The church bells were fired 21 times and touches in various methods followed.

The honeymoon is being spent in Cornwall, and Mr. and Mrs. Faithfull will take up residence in Southampton, and will be members of St. Mary's band.

A quarter-peal of Grandsire Caters at St. Mary's, Southampton, to celebrate the event, unfortunately came to grief in the last course, due to a miscall.

Yorkshire Association

WESTERN DIVISION AT HAWORTH.

The autumn meeting was held at the Church of SS. Michael and All Angels on September 11th. Although the weather had not been promising for some days, it was a bright and sunny afternoon, and on the heights on which the village is situated the westerly breeze soon brought colour into the checks and gave all a tremendous appetite.

For some reason, which has never been fully explained, six-bell towers have not been in favour for meetings of late, but this venture fully justified further efforts. Perhaps the added attraction which the church and village has through its connection with the life and works of the Bronte sisters helped to make the meeting a success, because about forty ringers and friends were present from as far afield as Todmorden, Wetherby, Horbury and Huddersfield.

Ringing took place in a variety of methods, some preferring 'open leads,' others 'cart wheeling,' a point much debated around here, but not settled as to which is best; perhaps the vice-president found himself outnumbered and preferred to leave the matter to some future date. While there was a sprinkling of older members present, it can be safely said that it was a youngsters' day and right well did they acquit themselves.

A bountiful tea was served in the Old Schools, at which Charlotte Bronte taught, and the business meeting followed, the vice-president, Mr. P. J. Johnson, being in the chair.

Apologies for absence were received from the president, the Rev. C. O. Ellison, Mr. L. W. G. Morris and Mr. F. Hodgson. Members were reminded of the annual dinner to the memory of Jasper Whitfield Snowdon and past officers, to be held at Bradford on October 2nd.

Sixteen new members were elected and the collection to Belfry Repairs Fund amounted to 18s. 10d. The Rector of Haworth was heartily thanked for allowing the Association to visit Haworth, and he expressed great pleasure in welcoming the Association on its first visit and trusted that it would not allow so long a period to elapse before paying another visit.

SOCIETY OF ROVING RINGERS

FROM EXETER TO BRIDGWATER.

On Saturday, August 21st, ringers from Ashburton, Bath, Bishop's Stortford, Bournemouth, Godalming, Guildford, Hove, Leicester and Wrington met for the second successive year to take part in a fortnight's ringing tour. Eight associations and guilds were represented by members whose ages ranged from 16 to 21 years. The rendezvous this year was the beautiful old city of Exeter, and this was the centre of the first week's activities. In heavy rain the band met at the west door of the Cathedral and then climbed the many steps to the south tower for the first ringing of the tour.

When the magnificent, heavy twelve had been raised, a start was made with a touch of 287 Grandsire Caters. A course of Plain Bob Royal was then suggested, and with some trepidation agreed to by the band. As 'Grandison' rolled down to lead the first time, there was some anxiety lest she should continue her downward path; however, careful treatment bore good results, and a well-struck course followed. After a course of Grandsire Cinques, the bells were lowered and the band adjourned for supper and bed.

Morning service in the Cathedral was attended the next day, and service ringing took place at St. Thomas' Church, Exeter, and at the Parish Churches of Ide, Heavitree and Exminster. Over tea in a cafe at Exeter it was suggested that a society be formed, all taking part in this and last year's tours becoming members. This suggestion met with general approval and so the Society of Roving Ringers came into being.

Travel during the fortnight was by bicycle and 'milometres' steadily ticked of nearly five hundred miles. One or two of the less keen cyclists managed to thumb lifts on lorries, and hooted loudly as they passed their colleagues. Accommodation was again difficult to find, and on one occasion three hefty youngsters had to sleep in one bed. Several of the male members slept out in barns, haystacks, fields and in a tent. Some nights were spent in youth hostels, where the tourists entertained all and sundry with handbell ringing and community singing. The appearance in the half-light of one young man, dressed in voluminous white pyjamas, complete with cowl, is reported to have badly frightened several people at one hostel.

In all, 48 towers throughout Devon and South Somerset were visited. The thanks of the party are due to Mr. A. L. Bennett, who helped in the ringing at Buckfast Abbey, where a warm welcome was received from Brother Hugh. Here the ringing consisted of Grandsire and Stedman Caters and a good course of Bob Royal. Rounds were rung on the very fine ring of twelve. During these rounds the seven-ton Bourdon bell was rung by Brother Hugh. This has to be heard to be appreciated and the effect is as a grand chord on a mighty organ. At Bradninch only the front seven could be rung, as the tenor was out of action. However, a sturdy tenor ringer did good work with a chiming hammer and successfully covered Grandsire Triples. The band received an official welcome from the Rev. E. V. Cox, who, with Preb. C. Carew Cox, took part in the ringing at Wolborough. Cambridge and Double Norwich Major and Stedman Triples were rung on this grand octave.

Mr. E. J. Taylor broke a nine year abstinence from Cambridge Major by ringing some with the tourists at Tiverton. Crediton Parish Church, a building of cathedral-like dimensions, was visited on the second Sunday evening, and soon the heavy sonorous bells in the central tower were rolling out Double Norwich and Stedman. Excavations were being carried out in the nave when the band arrived at Stogursey Church. Prebendary Hook, the Master of the Bath and Wells Diocesan Association, watched while the heavy ring of six was raised and rung. The titbit of the list was undoubtedly the eight at Heavitree where the late W. Pye rang his last peal. There local ringers and visitors joined in ringing for Sunday evening service on a ring of eight by Taylor's which were the last word in tone and go. Owing to depletion of the band, full use could not be made of the ten at Cullompton, but some good Surprise Major was rung. Among other towers visited were Totnes, Littleham, Withycombe Raleigh, Buckfastleigh, Uffculme, Bridgwater, St David's, Exeter, Ipplepen, Sidberry, Dawlish and Honiton Clyst.

Altogether, 20 methods were rung, and extensions ranged from Doubles to Cinques. The list included Grandsire, Stedman, Plain Bob (Minor to Royal), Cambridge, Yorkshire, Superlative and London Surprise Major, Double Norwich, Double Oxford, Kent Treble Bob, Oxford Treble Bob and Duffield Major, Oxford Bob, St. Clement's and Erin Triples and Double Bob, Little Bob, Double Court, College Single, Reverse Canterbury Pleasure and Surprise Minor.

Handbell ringing was much more popular this year, and a lot of time was devoted to this branch of the Exercise. Grandsire Doubles, Triples, Caters and Cinques were rung and attempts were made at Stedman Doubles and Triples and Kent Major. However, Mark White's handbells seemed to go best to Plain Bob, and Minor, Major and Royal were rung. One touch of some 400 Major was notable if only for its falseness. To ring four handbells to Grandsire Triples was the aim of one talented member, and he would have been successful had his two colleagues been able to keep up with him. One handbell peal was attempted in a barn, late at night, but the arrival of a curious farmer upset the ringing.

During the first week two peals were attempted. The first, a musical peal of Bob Major, was rung at Broadclyst on Monday, August 23rd. The striking throughout was of a high standard and trips were infrequent. The average age of the participants was 18 years and 6 months. This was the fourth ringer's first peal of Major and the first peal by the newly-formed Society. Auditors in the church and churchyard heard not only the ringing but also the conducting. Much amusement was caused when, on completion of the peal, a real 'Spotted Dog' appeared and proceeded to share the party's picnic lunch.

The second peal was attempted at Buckland-in-the-Moor, a picturesque hamlet of some half a dozen houses. Here the band found a light musical octave hung in two tiers in an iron frame. The attempt for a peal of Grandsire Triples came to grief after an hour, owing to an error by the conductor. Ringing in this, his first peal attempt, was Norman Mallett, a local lad who gained much useful experience during the tour.

Friday, September 3rd, saw the last ringing of the tour, at St. Mary's Church, Bridgwater. Touches of Double Norwich, Yorkshire and Superlative were rung on the heavy octave before the tourists adjourned for a final lunch. The success of the holiday was due to the vast amount of planning and letter-writing by the instigator and organiser, Mr. T. M. White, and with him the Society would like to thank all the incumbents, tower masters and local ringers for their interest and willing support.

A LANCASHIRE HOTPOT

LANCASHIRE folk claim to have gifts of unusual perception and anticipation, giving them mental faculties in advance of the nation. This column is not the appropriate place for justifying 'what Lancashire thinks to-day . . .,' but we would say that the Lancashire Association has been of great service to the Exercise in the publication of their fifth edition of 'Instructions and Diagrams for Beginners' at the modest figure of 1s. 6d. Text books on ringing are still inadequate in view of the large number of young people who have been attracted to our art.

To meet the deficiency the president of the Association, the Rev. F. F. Rigby, has published since the war 'Elementary Change Ringing,' and the Snowdon Series has had a revised edition of 'Grandsire,' largely the work of the late Mr. J. A. Trollope. There have also been the two valuable Surprise books from Mr. J. A. Corrigan, the late J. W. Parker's treatise on Stedman Triples, and Mr. Edgar C. Shepherd's 'Double Norwich Court Bob Caters.' The Rev. E. S. Powell's lamented death robbed the Exercise of one who had the gift of explaining the intricacies of ringing; his 'Ringers' Handbook' holds an honoured place among the bibliography of our art, and shortly before his passing he produced a revised and corrected edition of his handbook. The Central Council are not unmindful of its position, and they have in hand a book on Minor methods which should be available shortly, and also a book on handbell ringing.

While the handbook of the Lancashire Association embraces in its title the word 'for beginners,' its coverage goes as far as the principal Surprise methods, and the ringer who has mastered its contents could confidently regard himself as an accomplished exponent of the art. What is also of great value is the large number of touches and peals introduced. Many, it is true, are old favourites, but it is very handy to have them at hand. There is something to meet the ordinary occasions of ringing.

During the war the old type of this book was melted down and in consequence the work has been reset. There have been additions in accordance with the trend of events. Two new Plain Minor methods—Hereward Bob and Childwall Bob—have been added. Of the Surprise Minor methods only Cambridge and London are retained from the old edition, and in place of those omitted Wells, Surfleet, Beverley, Durham and York are introduced. Due recognition is also made of the Rev. E. Bankes James' arrangement of 5,040 Cambridge Minor. Other innovations are Erin Triples, Little Bob Major and Gainsborough Little Bob Major, and notes on conducting and handbell ringing, for which the Association thanks Dr. J. E. Spice.

To the sub-committee responsible—the Rev. F. F. Rigby, A. Tomlinson, G. R. Newton and P. Crook—a word of appreciation is due. The proofing of such a work is no light undertaking. While primarily for the Lancashire Association, the sale of the book is in no sense restricted to members. It is priced as low as 1s. 6d., which, in the words of one of the sub-committee, will not enable the officials of the Lancashire Association to retire on their profits from the publishing world! The desire is to help the Exercise. Thank you, Lancashire, for a fine piece of work!

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

Master George W. Pipe (13) has started his peals of the Stedman family with one of Cinques at Ipswich.

The bells of St. James', Devizes, will be broadcast for a few minutes before the 9.30 a.m. service on October 10th.

The average age of the band which rang the peal of Minor in five methods at Great Addington, Northants, was 19 years 1 month.

Congratulations to Mr. Percival H. Hull on five first pealers at Westbury-sub-Mendip, Somerset. We hope it will not stop at Grandsire Doubles.

Wonersh, Surrey, bells will be dedicated next Sunday immediately preceding the Sung Eucharist at 11 a.m. Ringing will take place after the service.

Standing Committee of Norwich Diocesan Association are to discuss an amendment to rules imposing a peal booking fee of 6d. on each ringer taking part in a peal for the Association.

A ringing pupil of Mr. Harold J. Poole, Harry Poyner, composed the method, Stanton Surprise, which appeared on page 386. The peal composition was found to be the same as John Reeves discovered years ago.

At the R.A.F. Station Church of St. Michael and All Angels, Hereford, on Battle of Britain Sunday, Queen's and call changes were rung for morning service by B. W. A. Laker (Littlehampton) 1-2, A. W. F. Scarrett (Cheltenham) 3-4, F. S. Worth (Plymouth) 5-6.

Another notable absentee from the peal columns for some months is the well-known North Kent ringer, Mr. E. A. Barnett, who was ordered a complete rest by his doctor in May and is at present in hospital at Lenham, near Maidstone, where he is making satisfactory progress.

With reference to the death of Mr. Harry Chapman, who did so much good work for the Lancashire Association, a correspondent states he rang in all 495 peals (5 handbells, conducting 63). Of these 369 were for the Lancashire Association and the rest among 26 different associations and guilds. He rang peals in no fewer than 150 towers.

On December 5th last we commented on the four method peal of Spliced Surprise at Banstead for Princess Elizabeth's wedding, and asked, 'Is there another tower in the country whose local band could ring this peal?' The answer is 'Yes.' The Sunday service band at St. Martin's and All Saints', Oxford, have rung a peal in eight spliced Surprise methods.

The Bishop of Monmouth preached at the service to celebrate the 11th anniversary of the dedication of the bells of Christ Church, Ebbw Vale, on September 19th. He called on all who heard the summons to respond to it and on all who rang to be faithful to the service. During the service a touch of Grandsire Triples was rung on handbells at the chancel steps by R. Stephens 1-2, T. Stephens 3-4, W. Thompsett 5-6, J. Alsop 7-8.

In appreciation of his services as ringer, secretary and captain for many years at St. Lawrence's, Hawkhurst, Kent, Mr. W. G. Gorringe was presented on September 19th by Mrs. F. Butler, on behalf of the local band, with a combined peal and tower record book, the flyleaf of which was inscribed with an appreciation of his services and the names of subscribers. The same evening a gift was made to the tower of a peal book by Miss Louisa M. Kemp and a quarter-peal book to Mr. A. H. Kemp. All three books were of the 'Delight Major' series, supplied by Mr. W. Viggers.

Conducting at 12!

JOHN L. MORRIS,

twelve-year-old protégé of Mr. Frank C. W. Knight, who participated in the recent tour in Kent. John started to handle a bell in September, 1947, at the Church of the Annunciation, Chislehurst, with a group of boys, none of whom had entered a belfry before. Despite the handicap of heavy bells, the band made good progress and are now ringing Grandsire, Plain Bob and have started Treble Bob.

John has eight peals to his credit (3 Plain Bob Major, 3 Grandsire Triples and 2 Grandsire Doubles), all rung on working bells. He has started conducting and called his first quarter on September 12th. John has mastered Double Norwich Court Bob Major and on ten bells can perform competently in Grandsire and Stedman Caters and Bob Royal.

CHESTER DIOCESAN GUILD

WIRRAL BRANCH.

Eleven Wirral towers were represented at the gathering of 57 ringers and friends at Neston Parish Church on September 18th. Touches of Surprise Major, Treble Bob and Plain Bob were successfully concluded, interspersed with rounds for beginners.

The service was conducted by the Rev. T. O. East (Vicar), and the company were guests of the Neston Parochial Church Council at tea.

Business included details of the social to be held on December 30th at St. Saviour's Parish Hall, Oxton. Six young members were complimented on their peal at Bidston, and four honorary members elected. The vote of thanks to all who had helped to make the meeting a success was carried with acclamation.

GLOUCESTER AND BRISTOL ASSN.

The quarterly meeting of the Swindon Branch was held at Lattan and Cricklade (both 'left-handed' fives), on September 11th, and proved a good missionary event, ringers from three towers where ringing is at a very low ebb receiving instruction in the rudiments of change ringing. It was noted that twelve of the branch members present were under 18.

It was decided to hold a joint meeting with the Salisbury Guild at Wootton Bassett in October and the branch annual at Christ Church, Swindon, in December. Ringers attended from Swindon, Castle Eaton, Rodbourne Cheney, Blunsdon, Chippenham, Cricklade, Latton and Chiseldon.

Birmingham Cathedral

A very generous offer to add two additional treble bells to the existing ring of ten at Birmingham Cathedral has been made by Mr. Frank B. Yates, of The Clock House, Hopwood, Birmingham.

The Cathedral Chapter have gratefully accepted the gift and the work is to be put in hand at once by the founders of the bells.

Needless to say, this generous offer has given great pleasure and satisfaction to the St. Martin's Guild, of which Mr. Yates has been an honoured member for many years, and will give the City of Birmingham three rings of twelve bells—St. Martin's Church, Aston Parish Church and now the Cathedral Church.

It is interesting to recall that over twenty years ago Mr. Yates generously gave two additional bells to King's Norton Church, making a ring of ten bells.

It is hoped the Cathedral twelve will be ready in good time for the customary Johnson Dinner early next year, when the many visitors on these occasions will be able to ring on this grand ring of bells. A.W.

A YORKSHIRE VETERAN

Those who have been privileged to ring on the fine peal of ten at Selby Abbey will be pleased to learn that Mr. Fred Cryer, now in his 90th year, still maintains an active interest in the doings of the Exercise. He reads his 'Ringing World' regularly and is very well informed in current happenings, writes J.F.S.

Mr. Cryer was actively associated with the restoration of the bells at the Abbey, and rumour has it that he spent quite a lot of time actually cleaning and polishing the bells when he was younger.

Advancing years prevent him from gaining access to the belfry, but he keeps a watchful eye on the quality of the ringing. He is particularly proud of having rung twice at St. Paul's Cathedral some years ago. The Yorkshire Association has been very lucky to possess such a stalwart as Mr. Cryer, and the Exercise will wish him many more years of enjoyment in listening to the lovely tones of Selby bells.

WINCHESTER & PORTSMOUTH GUILD

WINCHESTER DISTRICT.

Four enthusiasts cycled 40 miles from Bournemouth to attend the meeting at Barton Stacey on September 18th, when 29 members were present. Ringing on the light six, says our correspondent, competed with the organist both in quality and quantity.

The Rev. T. G. King, of Stoke Charity, gave the address at the service and presided at the business meeting which followed tea in the Plough Inn.

The question of a Guild War Memorial was discussed, and the meeting favoured the addition of two new trebles to the eight at Portsmouth Cathedral. The suggestion is to be forwarded to the general secretary.

A request for an instructor to teach a few local gentlemen at Sparsholt was received, and it was decided to hold a practice meeting at this tower on November 6th.

Another suggestion was a notice to all tower secretaries giving details of ringing throughout the week, with a request that it be placed on the notice board for the convenience of visiting ringers.

BATH AND WELLS ASSOCIATION

CHEW DEANERY.

A well-attended practice meeting, held at Weston-in-Gordano on September 18th, was notable for the excellence of the striking and the variety of methods. In all, some 16 were rung, ranging from Grandsire Doubles to Surprise.

A splendid tea was provided free of charge by the local band. Towers represented were Clapton-in-Gordano, Nailsea, Kingston Seymour, Tickenham, Portishead, Wrington, Marksbury, Bristol, Yatton, Worle, Locking, Abbot's Leigh, Publow and Weston-in-Gordano.

LETTERS TO THE EDITOR

Canterbury District's Defence

Dear Sir,—Mr. W. Bottrill's study of the historical surveys of the great ringing associations has led him to form the opinion that the Canterbury District of Kent should be condemned, as the members are no longer capable of the duties which they have for so many years been trusted with.

As I have been a member of the district for about 48 years and am therefore one of the condemned, I should like to point out a spot which probably will be omitted from the study. The crack ringers mentioned applied for many of the district towers recently, and according to reports these were very kindly granted them for their use and pleasure—not one single penny was asked for steepleage—11 peals were scored, one peal lost. It must be outstanding to anyone that great care must have been given by someone in all those towers to help in the success achieved, and these were the Canterbury District men.

The question to me now arises, 'What of the future?' When applications are received and all our glamour boys are dumped as unfit for further service, who are we to look to for that great care of the bells?

Turning to the page where the black spots have appeared, I am afraid that no words of mine can alter the serious position that any man places himself in who chooses to abuse 200 ringers who are engaged in the sacred work of the church bells in 51 towers.

CHARLES TURNER,
Captain of St. Mary's Ringers, Dover.

METHOD RECORDING BY MACHINE

Dear Sir,—It was interesting to read the letter by A. J. C. in a recent issue of 'The Ringing World' re Mr. Woodhouse's ringing machine and its versatility in printing diagrams of methods by pen attachment and I congratulate Mr. Woodhouse on its achievement, which reminds me of the ringing machine designed and made many years ago by the late John Carter, and later presented by him to the Science Museum, South Kensington, where it still is.

I remember this machine 40 years ago and saw it in operation many times. It was worked by a small electric motor which was driven by a small gas engine and my job was to attend to the engine, which at times gave a considerable amount of trouble, as many did in those days.

This machine, named 'The Campanamutophone,' was also adapted for printing diagrams of any desired method on a paper roll; it was also fitted with an attachment which printed the full figures of a method or the course-ends only as they were rung. 'Calls,' such as Bob or Single, were made by pressing a button at the correct moment, and I believe John Carter's machine was the first designed to do this work. A good description of this machine was printed in 'The Model Engineer,' March 5th, 1925: also another good description in Mr. Ernest Morris' 'History and Art of Ringing,' page 549.

I am not detracting in the least Mr. Woodhouse's wonderful machine, which many would like to see and hear, and I am hoping that facilities will be more readily available in the near future for demonstrations of these two ringing machines. ALBERT WALKER.
Birmingham 28.

Purpose of Sunday Ringing

Dear Sir,—Since a small band of ringers, whoever they are, and wherever they come from, have found cause to denounce the licensing laws, may I ask them what purpose burns within their hearts as they converge on their village church or cathedral belfry on a Sunday morning? (Dare I say evenings, too?)

Is it that they are churchmen and have a duty to perform—similar to that of sidesmen or choirmen—before joining in the service of God? Or is it for the purpose of a Sunday practice at campanology, quite apart from its religious objective? Or, finally, do they foster that quaint idea that they have helped to 'bring' people to church by their ringing and are, therefore, deserving of a refresher? —Yours faithfully, 'OLD CROSS.'
Leicestershire.

REFORM WANTED

Dear Sir,—'Reform is wanted,' of that there is no doubt, but not so much in the licensing laws as in the ringing circles of some famous bands. What more scandalous position is there than when ringers leave the church for either coffee or strong drink just when those people they have called have just entered for service? Surely after service is time for that. —Yours faithfully, W. J. PARKER.
Sandhurst, Berks.

QUARTERLY SUBSCRIBERS would save disappointment to themselves and additional clerical work by sending their subscription (4s. 3d.) without delay to Mrs. G. W. Fletcher, The White House, Caister-on-Sea, Great Yarmouth.

BEVERLEY AND DISTRICT SOCIETY

BARTON-ON-HUMBER.

At the cordial invitation of the Vicar (the Rev. Gordon Sylvester) and local ringers, the Society held their monthly meeting at Barton-on-Humber, Lincs, on September 11th. The many members who travelled by bus, ferry boat and train to attend were well rewarded by having access to two delightful rings of bells—St. Peter's (8), tenor 10 cwt., and St. Mary's (8), tenor 16 cwt.

A good touch of Stedman Triples preceded the service at St. Peter's, which was conducted by the Vicar, who used the Society's own form of service. He gave an inspiring address.

A meat tea was provided in the Institute and over 40 did full justice to the fare. The president (Mr. G. Williams) took the chair for the business meeting, supported by the Ringing Master, vice-president and committee.

Mr. Albert E. Sellers reported on the August meeting at Bridlington, and forthcoming meetings announced were Middleton-on-the-Wolds, October 9th, and Market Weighton in November. Mr. Lister expressed the thanks of the meeting to the Vicar, organist and local ringers, and Mr. W. Goddard, on behalf of the last named, said they were always pleased to welcome the Society. Mr. and Mrs. H. Easter were elected members.

Ringing included courses of Double Norwich and St. Clement's Court Bob Major. All agreed that the meeting had been a happy reunion of Lincolnshire and Yorkshire ringers.

OBITUARY

GEORGE PESTELL BURTON.

It is with regret we record the sudden death on September 21st of George Pestell Burton, at his home at Old Catton, near Norwich. Mr. Burton was 73 years of age, and for the greater part of his life was closely identified with ringing at St. Peter Mancroft, to which church he gave signal service.

It was solely by his efforts, during part of the time he was Master of Mancroft Guild, that the 13th bell was added, and he was the driving force in the heavy job of creating a new company when the Guild, the successor of the old Norwich Scholars, was started in 1907. In the same year he became hon. auditor to the Norwich Association, an office he continued to hold until his death, and from 1908 to 1920 was also one of the representatives to the Central Council. During these many years he gave valued help and advice to successive secretaries, who appreciated his sound judgment.

Although not a prolific peal ringer — his record for the Norwich Association was 54 on tower and handbells—he was skilful and safe in all he did. In early manhood he lived for a time at Burton-on-Trent, and there rang with the expert company at St. Paul's a good many peals in, at that time, the comparatively rare complex methods.

With his younger brother John and the late J. A. Trollope—all at school together—they started Minor ringing on a set of home-made handbells, and after scoring a 5,000, obtained the help of others of similar age. This band rapidly scored peals from Triples to Royal, including 11,200 of Bob Major, at that time the record length 'in hand.' This was perhaps the most enjoyable part of his ringing life, for either tower or handbells were going at all times of the day or night.

Mr. Burton was a keen churchman, and for some years had been warden at St. John's, Maddermarket, and was also a member of the Norfolk and Norwich Archæological Society. It was his love for things of past days that prompted him to select, for larger business premises, an old Norwich posting inn. This was only the width of the street from the west face of the tower of Mancroft, and in its former days had seen performances of masques and plays by the old strolling players.

To his intimates he was known to be as steadfast as a rock, and one whose integrity was beyond question.

The funeral was at Old Catton Church on Friday last, and the sympathy of all old friends goes out to Mrs. Burton and their two sons. C.E.B.

OUTING

ST. PETER'S, DUNSTABLE.

Five towers in Bucks and Berks were visited on September 18th by ringers of St. Peter's, Dunstable, together with friends from Barking, Luton, Leighton Buzzard and Woburn.

The first tower was West Wycombe, with its handy eight and stiff climb from the road: then came Stoke Poges, in which the company was joined by local ringers, and after lunch at Maidenhead good touches were rung at Old Windsor. Good striking was enjoyed at Wokingham Parish Church, and after tea permission was received and the company welcomed by the Vicar at Twyford. Here some of the best ringing of the day took place, including Superlative, Cambridge, Oxford and Kent Treble Bob, Double Norwich, Plain Bob, Stedman and Grandsire Triples.

WE ENGLISH

THE art of seeing ourselves is not easy. Recently there appeared in 'The Times Literary Supplement' an article entitled 'What Kind of People are the English?' This article attracted wide attention and has been extensively quoted not only in this country but in America as an endeavour to portray the characteristics of our race.

One of these characteristics is of pattern and of order. 'It is responsible for their delight in ships, the supreme example of a patterned life, for their fame abroad as troupe dancers ("les Girls"), for the spectacle of Trooping the Colours.' Then proceeds the unknown author :—

> 'The most extreme example is that of bellringing. Give a continental campanologist a spire full of great bells, and he will begin to play a tune on them. Only the English will undertake an endless series of ringing-the-changes; pulling sally after sally, for hour after hour, with no other purpose than to pursue some intricate rhythm in company, through peal after peal, clanging over a countryside to the grave consideration and admiration of the whole parish.
>
> 'This absorption in pattern is one aspect of the general power of absorption, of concentration, which the Englishman so specially enjoys. . . .'

Was the author of this article a bellringer? In those few words he reveals one of the secrets of the peal ringer's art—the joy that comes from absorption and concentration. Rarely, even, in ringing circles, is this particular quality extolled. Many have spoken of the delight of listening to the music of the bells and have assumed that this is the particular fascination for the ringer that enables him to continue for three or four hours in a state of blissful enchantment. Others have spoken of the inspiration, begat of determination and achievement. The writer is indeed near the truth in regard to our art.

Ringers too frequently earn for themselves an invidious distinction of being peculiar people. At times even their sanity is questioned and they are regarded by their friends as being 'Nuts' on ringing. The words of this unknown author come as a great refreshment in this somewhat uncharitable world. That our enthusiasm for bellringing embodies certain of the characteristics that have made our race famous is heartening. We can now sincerely say 'We are true to type.'

Lest pride overtakes us and we ringers regard ourselves as the salt of the race, we will give other characteristics :—

> 'The English are in fact a violent, savage race; passionately artistic, enormously addicted to pattern, with a faculty beyond all other people of ignoring their neighbours, their surroundings, or, in the last resort, themselves. They have a power of poetry which is the despair of all the rest of the world.
>
> 'They produce from time to time personalities transcending ordinary human limitations. Then they drive other nations to a frenzy by patronising these archangels who have come among them, and by indicating that any ordinary Englishman could do better if he liked to take the trouble.'

BELFRY GOSSIP

Members of the craft will send their good wishes to Mr. E. Barnett, of 10, Kings Close, Crayford, Kent, who is being installed Master of Gavelkind Lodge No. 4266 on October 16th.

Mr. H. Parker has 'circled' St. Mary's, Sandbach, Cheshire.

To reach his century of peals—Mr. John W. Taylor.

Mr. Frederick E. Dukes, the popular secretary of the Irish Association, has rung his 50th peal and his 25th this year. Of these he has called 30. Associations or guilds he has rung for are Irish (40), Kent (3), Middlesex (2), Devon, Lancashire, Leicester, St. Martin's and Chester.

Mr. C. Crossthwaite, of Preston, is taking a twelve months' teaching course at Stone in Staffordshire. He will be very much missed in the Preston Branch, but his colleagues hope that he will secure an appointment in Preston at the conclusion of his training.

Fifty years a regular Sunday service ringer at the same church is the proud record just completed by Mr. Ernest Nidd, of St. Wulfram's Society, Grantham. To mark the occasion his brother ringers rang on Sept. 26th 1,277 Grandsire Caters: H. Thorpe 1, S. Proctor (cond.) 2, R. Parker 3, E. Nidd 4, J. Watson 5, F. Parsons 6, P. C. Reg Woods 7, H. Huxley 8, T. Hall 9, R. Pick 10. First quarter 'inside' of Grandsire Caters by 3 and 5.

Child Okeford, Blandford, features an annual ringers' service. This year's celebraton on September 12th included handbells accompanying the hymns and the ringing of 120 Grandsire Doubles 'in hand' during the service. The Rev. Canning, of Hanford School, gave an address on bells, their message, structure and the art of bellhanging. Standard methods were rung on the tower bells, visitors as far distant as Shepton Mallet attending.

Coincidence! Miss Betty Spice rang her 250th peal and Mr. Wilfrid F. Moreton his 150th at Witney, Oxon. It was their 75th together.

The eight bells of Luton Parish Church are to be recast and augmented to a ring of ten. The work has been entrusted to Messrs. J. Taylor and Co., who have removed the bells.

'Happy birthday' was said to Miss Jill Brittain with two handbell peals—at Kingston and Ewell. The same conductor, Mr. Edwin J. Lindley, officiated on each occasion.

Margaret Beamish has now completed 25 peals at the age of 13 years and 3 months. Included are 13 peals of Surprise and three handbell peals, all of Stedman (Triples, Caters and Cinques). The peal was rung at Edenham, Lincs, and afterwards the band were entertained by Mr. W. A. Holmes.

First member of the Llandaff Association resident in Glamorganshire to ring 300 peals is Mr. E. Stitch. He rang his first peal on July 5th, 1919. Mr. Stitch has called a peal of Doubles from each bell at Cadoxton, near Neath, and has twice 'circled' the tower.

Over £20 was raised by a bellringers' social for the bell fund at St. Peter's Church, Ash, Surrey, on September 25th. Mr. C. W. Denver (Farnham District Ringing Master) and Mr. Harold Cole were M.C.s. Messrs. G. S. Joyce and P. Eldridge (Farnborough) entertained with illuminated handbell ringing.

An addition of a 'C' to the name of David Vincent in our peal columns has brought forth an assurance that he is neither a Claud, Clarence nor Cuthbert. The muse struck him this way:—

The policeman laughed with fiendish glee,
As to the initials simple he
Made addition of the letter C.
That Law is right will accepted be,
So without a charge or any fee
Our friend once known as just plain D.V.
Rejoices now in his D.C.V.

Down Somerset Way

A Paradise for Tenor Men

DURING last year's North Yorkshire tour, organised by Mr. J. E. Cawser, it was suggested to make a tour of Somerset, mainly, of course, in search of weight of metal. This suggestion quickly gained favour and 14 ringers accepted invitations to take part. Mr. Cawser again shouldered the responsibility of organising the tour and planned most capably.

The party met at the Grosvenor Hotel, Bristol, on Friday evening, August 27th, four peals having been arranged for the following day. Three of the party served as a committee to select the various bands throughout the week and in most cases each individual had his orders for the morrow overnight. With the kind help of two local ringers, who stood in to make up two complete eight-bell bands, successful attempts were made at both Wraxhall and Congresbury in the morning.

The tour received a most promising beginning by the warmth of welcome given at Wraxhall by Miss Waterman, the local secretary, and by the Vicar, who met the band and congratulated them after the peal. An invitation to look round the Vicarage gardens could not be accepted owing to lack of time. Wraxhall itself proved a most delightful spot.

Congresbury tenor had been on Mr. J. C. E. Simpson's 'waiting list' for a number of years with the belief that to turn it in to London would be a bit of an ordeal. However, this did not prove to be the case, for a good peal of London was successfully brought round in three hours and 45 minutes without any really undue stress.

After lunch both bands, with the exception of three, met at Wrington for an attempt for Yorkshire Royal. It soon became evident that a peal of Royal on these bells was not an easy proposition for a strange band in this tower, and the call 'Stand' was made by the conductor after about an hour's very indifferent ringing. Several theories were put forward in excuse for our failure, such as ringing above or even below the oscillation of the tower. To get the best out of Wrington's majestic ten still remains a mystery to the tourists, but a few words of wisdom from someone experienced in ringing on these bells will be very welcome. Three of the party who did not stand in at Wrington made up a band at Redcliffe for Stedman Cinques, but without success. At least we shall remember Wrington for the excellent dinner served at one of the local inns during the evening.

Despite this early failure, the party soon proved that weight was no object by putting in some good ringing at St. Mary's, Redcliffe, for morning service on Sunday, and an excellent course of Cambridge Royal after service on the back ten very quickly renewed the confidence of those who were to ring at Wells later in the week.

Again in the afternoon the tourists divided into two parties, one going out of town to Long Ashton and the other to Olviston, Gloucestershire. At Long Ashton they were made very welcome by the local band, who had the bells up in readiness. It was a special pleasure to meet Mr. G. Yeo, who has been a ringer at Long Ashton for 60 years. A good peal of Bristol was brought round, but did not finish until several minutes after the evening service had begun. When Mr. Simpson apologised, the Vicar assured him that he did not mind and was glad that they had got the peal. This assurance was naturally a great relief to the band, who, incidentally, had to walk back to Bristol as all buses were full.

At Olviston the 'second team' were welcomed to the tower by the leader of the local ringers. This handy Taylor eight were soon going at a rather brisk pace to Superlative, and a good peal was brought in 3 hours and 2 minutes. This was by far the quickest peal of the tour and not exactly in keeping with times taken by the other performances. After the peal the band were entertained by the Vicar to a really grand tea at the Vicarage. During tea the Vicar expressed his wish for the tourists to ring another peal after evening service, but, of course, this offer was not accepted. Before returning to the hotel a call was made at St. Stephen's, Bristol, where touches of Stedman Caters and Cambridge Royal were tapped out in good style, much to the amusement of all the visitors, as the two trebles, commonly known as the 'cuckoo bells,' cause a somewhat weird effect.

Monday morning saw two parties off in different directions. One went to Thornbury for a peal of Yorkshire Major and the other to Chew Magna for Bristol. At Thornbury a good peal was scored without incident except that the ringers of the 5th and 6th had had enough for one morning as neither of these two bells went too well. At Chew Magna a very different tale may be told, for here the Whitechapel foundry has produced a grand eight with a tenor 28¼ cwt. in the key of C. With the help of the veteran Mr. Alfred Reeves, who gave a polished demonstration of treble ringing, an excellent peal of Bristol simply rolled home, and it can be said that the lunch provided at the local inn after the peal certainly made it a day never to be forgotten.

In the afternoon both bands met at Chewton Mendip, where eight very fortunate ones were selected to ring Bristol on one of Taylor's finest rings of eight. A good deal of work was put in on the bells before the attempt could be made, for two or three ropes had to be spliced and a Frodsham rope put on the 6th, not forgetting a spot of oil, just in case! This delay caused rather a late start and hence a very late finish, and for this infringement the band offer their apologies to the local authorities. However, a really excellent peal was scored on this grand eight, very capably handled by Mr. C. K. Lewis, who called his first peal of Bristol. At this juncture the party made for Shepton Mallet, which was to be their headquarters for the following three days.

CAMBRIDGE ROYAL AT WELLS.

Tuesday morning found all the party in readiness for the most strenuous effort of the week. At this stage it was not known whether the band were capable of ringing Royal at Wells, and as the Cathedral authorities lay stress on their decision that only one attempt can be made, it seemed rather a risk to attempt to turn the tenor in. However, as the tourists had expressed their wish for all tenors that week to be turned in to Surprise, Mr. J. C. E. Simpson took his stand on the box with sufficient confidence to know that his 'strapper,' Mr. John Worth, would give him every assistance possible. A third man was selected as 'reserve strapper' should the two tenor men wish to change over, but his services were not required despite his climbing the belfry steps three times during the course of the peal. After three or four minutes' rounds the bells went off into changes at six minutes past eleven. To those who were listening outside there were some rather anxious moments during the first three or four leads, but after that the band settled down and the peal was never at any point in doubt. Starting at a really slow beat of 17 changes to the minute, the speed gradually increased to about 21 changes per minute towards the end of the peal. The only previous peal of Royal rung on these bells was in April, 1895, when the late Mr. J. W. Washbrook turned the tenor in to Treble Bob Royal. The band wish to express their most sincere thanks to the Cathedral authorities and also to the verger.

Left to Right (Back Row) R. G. Edwards, J. C. E. Simpson, W. N. Park, E. J. Gilbert, J. Worth, G. Ledsham, J. E. Bibby.

The ring of eight at Cheddar was at the tourists' disposal in the afternoon, but apparently one peal at Wells was quite ample for one day, so after a spot of sightseeing through the Cheddar Gorge a brief visit to the tower of Cheddar was made and a few short touches rung before returning to headquarters.

At Mells the following day some excellent London could be heard for about 3 hours, but unfortunately several trips occurred during the last four or five courses which made one rather apprehensive, and, had the conductor, Mr. C. K. Lewis, not been alert, the peal could have been easily lost. However, the visitors did have ample opportunity to hear this really grand eight rung well, and to those who prefer old bells rather than the modern ones, Mells can be highly recommended.

After lunch and a 25-mile drive, Sherborne was reached about 4.30 p.m., but by the time most of the enthusiasts had satisfied themselves as to how well the tenor went, it was 5.10 p.m. before the bells were off into changes. After

DOWN SOMERSET WAY—cont.

commencing very slowly indeed the natural beat for these bells was not obtained until after half-way, although the striking was of the best quality throughout. After strapping Wells tenor for four hours the day before, Mr. John Worth showed no signs of fatigue whatever in the way he simply toyed with the 46 cwt. tenor. Those who have rung at Sherborne will appreciate the amount of excessive noise ringers have to put up with in this tower, and the rasping sound of the tenor fairly vibrates in one's ears. Although perhaps a little overclappered—presumably caused by the balanced clapper—Sherborne tenor is a beautiful bell, and from reports of those who heard the peal some distance away the whole octave sounds grand. It was a tired party that motored back to Shepton Mallet late that night and no one even jokingly suggested calling at Queen Camel on the way.

Another of Somerset's coveted rings, namely, Ditcheat, was at the visitors' disposal on Thursday morning, and it can be safely said that those who took part in a well-struck peal of London there were all delighted by the tone and go of these bells. A neater job of bell-hanging one could not wish to see. Surely a word of praise is due to the towerkeeper at Ditcheat for the cleanliness of his bell chamber. Before lunch various parties posed before the photographer, who, it is believed, made mention of this Northern invasion of bellringers to the West Country in one of the local papers. After a good lunch the whole party made for Martock, where they were welcomed by Mr. Farrant, who had also arranged for a good meal after ringing. It was here where the tourists lost their second peal of the week owing to a change course after about 1¼ hours' good ringing. Before leaving for Yeovil that evening the party bade farewell to Mr. John Worth and the youthful Allan Potts, who were returning to Macclesfield that night.

Friday saw the visiting party further reduced in numbers by the departures of Mr. W. N. Park and Leonard Trevor, but the remaining body managed yet another peal of London that day at Curry Rivel, but lost a peal of Bristol at Drayton in the afternoon owing to a change course after an hour and a half's good ringing. A change of method was advocated at this stage, so it was decided to try Rochester at Crewkerne on Saturday morning. This was accomplished in good style and handled confidently by the conductor.

At Yeovil the party was reduced to seven ringers as the Wirral contingent had to leave, but with the assistance of Messrs. Reed, Clift and Wilfred Williams, a good peal of Cambridge Royal was brought round in semi-darkness—the light not having been switched on before commencement. This brought a total of 14 successful peals out of 17 attempts during the eight days' tour, and as a matter of interest to those who note times and weights, the average time taken of the 14 peals rung was 3 hours 41 minutes, and the average weight of tenors was 30 cwt. The warm welcome given to the tourists by the people of the West Country will be remembered when many other details of the tour are forgotten.

The pleasure of our tour was much enhanced by the willing and enthusiastic efforts of Mr. J. T. Locke, of Drayton, and Mr. D. Clift, of Bristol. R.G.E.

NORWICH DIOCESAN ASSOCIATION

EAST NORFOLK BRANCH.

A meeting was held at Norton Subcourse on September 4th, attended by 31 members. The service was conducted by the Vicar (the Rev. Morris) and was followed by tea and a business meeting. The next meeting will be held at Aldeby on November 20th. Various Minor methods were rung and rounds for beginners.

National Police Guild

APPLICATION FOR AFFILIATION TO CENTRAL COUNCIL.

The National Police Guild does not display any great activity between its annual meetings, but the success of these outweighs any shortcomings. The meeting at Manchester on September 18th would be difficult to excel and gave the utmost pleasure to all attending. Members were present from London, Birmingham, Leicester (City and County), Northants, Kent, Cardiff and, of course, a strong Lancashire contingent.

The party met at the Town Hall, but unfortunately no ringing was possible there before lunch. The bells of the Cathedral were kindly placed at the disposal of those who wished to develop an eppetite for lunch. This was taken at the Engineers Club and just over 100 sat down.

The President, Inspector H. Poole, extended a hearty welcome to the distinguished guests and visitors, notable amongst these being Mr. J. Bell, Chief Constable, Manchester; Mr. C. G. Martin, Chief Constable, Liverpool; Mr. E. Nicholls, G.M., First Assistant Chief Constable, Liverpool; Mr. J. Norris, Town Hall Supt.; and the Rev. R. D. St. John Smith. Mr. B. Thorpe, Mr. P. Derbyshire and Mr. Barnes were representative of the old school of Lancashire ringers. Mr. J. W. Jones, of Newport, evergreen and ever-present, and Mr. F. H. Dexter, of Leicester, were other notable visitors.

Mr. Bell welcomed the Guild to Manchester, the unique home of police bellringers, with a ringing peal at the Town Hall. The business meeting followed an excellent lunch. Inspector H. Poole presided. Letters of apology for absence were referred to, including Vice-President C. P. Hilton, and ex-Sgt. A. Lawrence, who is ill in Barnet Hospital. It was decided that a letter be sent to him wishing him a speedy recovery. A letter was also sent to ex-Sgt. Clayden condoling with him on the recent death of his wife. The meeting stood in silence as a tribute to the memory of ex-Sgt. A. G. Crane, who had died since the last meeting.

The secretary reported a balance of £13 14s. 7d. at the end of 1947, and reported only one peal for the Guild that year. The printing of a report was considered, but was vetoed on the ground of high cost. Officials and committee were re-elected en bloc, and it was decided to apply for affiliation to the Central Council.

During the day there was ringing at the Town Hall, the Cathedral, Christ Church, Didsbury, and St. Mark's, Worsley, all tastes being met. One hundred and fifty sat down to a fine tea, which was followed by a high-class social evening. Classical selections were rendered on handbells by Mr. J. and Miss Booth. Miss R. Turner sang several soprano solos and the identity of a very fine tenor singer, who sang many old favourites, proved to be D. I. Reynolds, of New Brighton C.I.D. The lighter element was very cleverly provided by Mr. A. James.

A very hearty vote of thanks was accorded to ex-Supt. F. R. Williams and his helpers at Manchester for the splendid arrangements they had made in every respect.

Ten o'clock saw various contingents leaving for home. The next meeting is fixed for Derby in September, 1949. H. G. J.

OUTING

WORMINGFORD, ESSEX.

On September 25th, the Wormingford, Essex, and district company did some exploring in their own county. With a few ringers from Sudbury they visited Inworth, a good peal of five, but rather noisy. Great Totham came next, which was much admired. A hearty welcome was given to the company at Goldhanger. The experts had to be brought into use at Tolleshunt D'Arcy before any good striking could be heard. The last call was Tollesbury, where tea was provided. The company wish to thank all the incumbents and towerkeepers.

OBITUARY

MR. JOHN FLETCHER BALLINGER.

With regret members of the Cheltenham Branch of the Gloucester and Bristol Association heard of the illness of their chairman at the meeting at Dumbleton on September 25th and then on September 27th of his death in Cheltenham General Hospital.

Mr. John Fletcher Ballinger was 68 and had been a member of Leckhampton band for many years, usually ringing the seventh. He was the first chairman in 1922 when the branch was formed. A member of the College Youths and one of the older members of the Ancient Society of Painswick Youths, he was never missing if there was any ringing, cycling if wet with umbrella, up the hills between Cheltenham and Painswick. Among his many peals was the record length of 13,001 of Grandsire Cinques at Painswick in 1920 when he rang the eleventh.

Floral tributes were sent by the branch, Leckhampton band and Charlton Kings band, and touches of Stedman Triples half-muffled were rung before and after the service by the twelve members present at the funeral on October 1st at Leckhampton. Mrs. Ballinger and family have the sympathy of all who rang with him. C.R.

MR. GEORGE PARKER.

The passing of Mr. George Parker at Northampton General Hospital on September 19th will be regretted by a wide circle of friends, particularly those in the Northampton Branch of the Peterborough Diocesan Guild.

He was 75 years of age and had been a faithful ringer at Kingsthorpe Church for 45 years. During that time he always carefully tended the bells and was a devoted churchman and most regular Sunday service ringer.

He rang altogether 37 peals and conducted one. Always very keen on helping and training learners, he would go out of his way to do it. He rang his last peal in 1945.

He will be particularly missed at the Guild meetings, where his quiet, unassuming manner and the perfect way in which he handled his bell were qualities which were admired by the many that knew him.

His death has unfortunately occurred when he and his colleagues had just decided to open a fund to have the bells at Kingsthorpe placed on ball bearings and the tenor recast, the realisation of which would have been such a joy to him, for he truly loved the bells. E.N.

CAMBRIDGE ROYAL AT WELLS CATHEDRAL

Dear Sir,—Without wishing to deprecate the merit of this performance, I think that the claim of the 'heaviest' peal of Surprise Royal yet rung is rather questionable. I assume that the term 'heaviest' is meant to include the total weight of the whole peal. There seems to be a tendency in the West Country for many of our peals to be over tenored, and at Wells there is a difference of 26¼ cwt. in the weights of the 9th and tenor. The peal is, therefore, not so heavy as might appear.

Some years ago Cambridge Royal was rung on the back ten at Southwark Cathedral and was claimed as the 'heaviest.' This was contested by the late W. S. Cave, who had called Cambridge Royal from the tenor at St. Mary Redcliffe, Bristol, on the grounds that Redcliffe tenor was the heavier. When, however, the aggregate weights of the two peals were compared it was found that Southwark were considerably the heavier. The total weight of the Wells ten is 181 cwt. 2 qr., and St. Mary Redcliffe ten 176 cwt. 2 qr. 6 lb., a difference of just under 5 cwt. Since this difference is not great I think it would be wise to compare the weights of the Wells and Southwark tens before this claim is accepted.—Yours faithfully,

DONALD G. CLIFT.

Stapleton, Bristol.

LETTERS TO THE EDITOR

Learning to Ring

Dear Sir, — Here's a tip in regard to Mr. Gray's letter in commencing the above.

Start with handbells and learn the elements of change ringing by practising rounds and dodging, tolerating no bad striking and wrong leading. Then commence by ringing changes on four bells, explaining how the treble passes step by step till it reaches 4ths place. This should be done one change at a time,-repeating that change if the pupil has not 'spied' the bell that struck after him. Then explain how to run down to lead by passing the three bells in the same order.

When rope-sight stage is reached, practise running the half lead and then ask the correct order.

From four bells go to five (with tenor behind) and increase the number progressively up to 12 bells showing how to use the course and after bells, always striving to make the pupil do a little more each time. It can be done. It has been done even to ringing 1-2 through the plain course.

Before teaching inside work the pupil should have some good runs of touches.

Opinions vary as to which methods should be taught first, and how. I still adhere to my own ideas.

It has been stated in 'The Ringing World' that it takes three years to become a ringer. I've heard it said it takes anything up to ten years! This depends on circumstances and our methods of instruction.

In learning to play the piano the pupil is expected to practise for two hours every day and you (might) become proficient in three years.

Why not apply this rule to learning change ringing and so become efficient in two months or less?—Yours truly, H. DEW.

Bishop's Stortford.

THE STRANGER AND HIS WELCOME

Dear Sir,—'Duffield' in his letter in a recent issue was evidently referring to Birmingham. At St. Martin's Church the bells are rung regularly each Sunday 10 to 11 a.m. throughout the year and also the first Sunday evening in the month. This limitation is due to organ recitals preceding the evening service on the remaining Sunday evenings.

A postcard sent to any of the well-known ringers in Birmingham would have prevented disappointment as there are other churches in the city where ringing takes place both morning and evening throughout the year and where any visiting ringer would be sure of a very hearty welcome. It is also possible to telephone to several Birmingham ringers from the many public telephone kiosks adjacent to St. Martin's Church or elsewhere.

Perhaps some day when paper facilities allow it may be possible to publish a list of churches and times when service and practice ringing takes place. A. WALKER.

HELPING HAND WANTED

Dear Sir,—Might I take advantage of your columns to make an appeal for assistance?

At the Church of St. Ann, Stamford Hill, we have a keen young band of would-be excellent ringers if the proper instruction was forthcoming. The ringing room is one of the best kept in London, the bells are a delight to ring, and there are eight members in the local band whose interest I cannot guarantee to maintain unless they make progress.

Week after week, however, the same old story: we always lack someone to stand behind a beginner. I would like to ask the Exercise at large if there is anyone who will volunteer to give us assistance; if so, will they please let me know at the appended address?—Sincerely yours, ERNEST. J. ROWE.

Doubles Methods

A CHANGE FROM GRANDSIRE.

Dear Sir,—I think that Mr. Barnett is mistaken in supposing that ringers generally are not interested in Doubles ringing. Judging by the number of peals rung recently in more than one Doubles method, I should have thought the opposite to be the case, and from my own limited experience I have found that even those who tend to despise Grandsire or Plain Bob Doubles are quite delighted with such a simple method as April Day.

And why shouldn't they be?

If Mr. Barnett had his way all such fascinating methods as April Day, Norfolk, Kennington and Old Doubles would become Plain Bob with different calls. Would Mr. Barnett permit them to be rung as Plain Bob Mark I., II., III. or IV.? If so, why not under more euphonious names? Or would Mr. Barnett ban them all as illegitimate? In which case Doubles methods would revert to some three or four methods only, instead of the scores now available. This would clearly be a step back in the wrong direction, since more variety and freedom in Doubles ringing is the only possible line of advance.

Further, in Doubles ringing it is the extent that is generally considered as the unit (how often is a touch of Doubles less than 120?), and this being so there is more difference between two such extents as Plain Bob and April Day than there is between many different methods on higher numbers of bells.

That it would be a good thing for the Central Council to consider Doubles ringing I quite agree, if only to make available to five and six-bell ringers generally these many methods now usually handed on by personal contact. With Doubles ringing playing such a large part in six and even eight-bell towers as it does at present, I cannot but feel that there must be very many ringers who would welcome the chance to ring these simple extensions of well-known methods, if only to provide a change from the everlasting Grandsire.

West Malling, Kent. PETER C. WRIGHT.

RINGER'S DIARY

Dear Sir, — I think that readers of 'The Ringing World' would like to have preliminary notice of an entirely new production which should fill a long-felt want.

In conjunction with Mr. Maurice Hodgson, I am publishing a Ringers' Notebook and Diary for 1949. It will include, in addition to a week to a page diary, a selection of standard method diagrams showing starting and calling positions (each accompanied by touches and peals), ample space for other methods, and many other interesting facts and figures making it of interest to recruit and expert.

The diary section will show various ringing anniversaries. In this connection may I ask readers to let me know any dates for social events, dinners, annual meetings, etc., for inclusion where space permits? These should be sent at once, please.

It is hoped to have the diaries ready in good time for Christmas. WILL H. VIGGERS.

RINGING TOURS NEXT SUMMER

Dear Sir,—After reading the interesting history of the Truro Guild by the Rev. A. S. Roberts in a recent issue of 'The Ringing World,' one's attention is drawn repeatedly to the fact that visiting ringers have done much to help the cause of change ringing in the county. Here, then, is plenty of scope for bands of touring ringers who want 'fresh fields and pastures new.'

I am told by a ringer resident of Bude, North Cornwall, that there are 20 churches with rings of eight bells within a radius of 25 miles of the town. With Bude being a health resort, all requirements regarding board and lodgings can easily be met.

Marhamchurch, Bude. C. SHARPLES.

Gloucester and Bristol

PRESENTATIONS TO MR. AND MRS. F. SKIDMORE.

Some 50 members and friends were present at the meeting of Bristol Rural Branch at Thornbury on September 25th, when to mark the silver wedding anniversary of the Ringing Master and Mrs. F. Skidmore presentations were made.

The branch chairman (Mr. C. Harding), who presided, spoke of the loyalty to the branch of Mr. and Mrs. Skidmore and of Mr Skidmore's willing help to learners. He asked Mr. G. J. Jefferies, a vice-president of the association and one of the oldest members, to make presentations to Mr. and Mrs. Skidmore on behalf of the officers and members of the branch in appreciation of their loyalty and devotion to the branch over a number of years. These consisted of a silver cake basket, table knife and a silver butter dish.

Miss Hilliar, the branch secretary, presented Mrs. Skidmore with a bouquet of flowers.

In thanking the officers and members for their kind thoughts and generosity, Mr. Skidmore said it had always been his aim to get good striking. Mrs. Skidmore also thanked the members.

The Chairman stated that at Mangotsfield there were now three generations of Jefferies ringing and that they had the oldest and youngest ringers there. The usual votes of thanks were passed, especially to Mr. F. Skidmore, who entertained the company to tea. Next meeting places selected were Henbury, October, and St. Werburgh's, November.

Ringing took place before the service, conducted by the Vicar (the Rev. R. A. Rawstorne), and after the meeting. The chairman, secretary and one member from each of the six towers rang rounds and Queens and fired the bells as a silver wedding compliment to the Ringing Master.

A WILLENHALL GOLDEN WEDDING

In honour of the golden wedding of Mr. and Mrs. Isaac Evans, a peal of Grandsire Caters was attempted at St. Giles', Willenhall, Staffs, on September 18th. The attempt failed after 1½ hours' ringing by G. E. Oliver 1, H. Knight (cond.) 2, E. Speake 3, K. W. Knowles 4, C. Wallater 5, W. T. Powell 6, J. D. Holden 7, H. Griffiths 8, H. Boswell 9, J. Luck 10. The ringers with other members of the local band were afterwards entertained to tea at the Round House Cafe.

Mr. C. Wallater expressed the good wishes and congratulations of all present to Mr. and Mrs. Evans, also thanking them for their hospitality. Mr. Evans, in replying, thanked the ringers for attempting the peal and said that he would convey the good wishes to Mrs. Evans, who was prevented by illness from being present. Mr. Evans also spoke of the great pleasure he had derived from bellringing and hoped to be able to continue to ring.

CRAWFORD CUP CONTEST

In fine weather the Crawford Cup contest took place at All Saints' Church, Rampton, on September 11th. Only four teams entered, being Shireoaks, Warsop, Ordsall and Gamston. Shireoaks again were the winners, making it the third year in succession, Warsop being second, Ordsall third and Gamston fourth.

Messrs. J. A. Freeman and J. Freeman, of Lincoln, carried out the duties of judging the contest with satisfaction to all. Although this was the first time they had done the job, they appeared to enjoy it. Afterwards fifty sat down to tea, including the Rev. F. W. H. Jessup and Mrs. Jessup and also Mr. A. B. Crawford, donor of the cup. Mrs. Jessup presented Mr. H. Hall, captain of Shireoaks team, with the cup, and he suitably replied.

The judges gave their report on the ringing and of where the mistakes were made. Votes of thanks to the Vicar and all who had helped to make the event a success were accorded.

OUTING

BURES, SUFFOLK.

Surrey was selected for the outing of Bures and district on September 18th, the locals being joined by ringers from Mistley and Thorington.

Christ Church, Epsom, was reached dead on time and methods rung here were Kent and Double Norwich. At Leatherhead, Stedman Caters were brought round in good style. After lunch a visit was paid to the old church at Chobham, where Bob Major and Cambridge were rung.

At Chertsey the party was joined by Mr. R. Lathbury. Here Stedman Triples was the most successful method. Tea disposed of, the Thames was crossed into Staines, where ringing was enjoyed at St. Peter's and St. Mary's. The best thanks of the party are due to Mr. Leslie Mills, who made the arrangements, and to Messrs. F. Oakshott, G. Marriner, J. Hesse, W. Parker and Butler for having the bells ready. H.J.M.

WOKINGHAM, BERKS.—At All Saints' on Sept. 19th, 1,260 Grandsire Trinles: E. Whittingham 1, Miss G. Crockford 2, Miss M. Cole 3, W. Pearce 4, W. Newton (first as cond.) 5, F. Butler 6, W. J. Brooks 7, J. Elliott 8.

OUTING

ST. MELLONS, MON.

On the beautifully clear September morning of the 14th, a party of 33 ringers and friends from St. Mellons, with guests from Cardiff and Newport, set out for their annual outing. This year the route lay through the Forest of Dean. Veteran ringer was Mr. J. W. Jones, of Newport, present Master of the Association and now in his 83rd year.

The first stop was St. Briavels, Glos., where the eight bells were successfully rung to the four standard methods. Then on to Newland, where the church with all its architectural magnificence is so aptly described as 'The Cathedral of the Forest.' The fine six bells were rung to Grandsire, Stedman and Kent.

For lunch the party returned to home territory and visited Monmouth, where both the fine meal and ring of eight were greatly appreciated. Justice was very ably done to both and regardless of the redoubtable tenor.

Back across the border to Staunton, where the six bells of All Saints' were well rung to the standard methods. The journey continued through the beautiful scenery of the Forest. At Ruardean, where the writer notched up his '100th tower not out,' the 74ft. draught of rope proved too much for several and the ringing duly suffered.

Thence to Cinderford, where further evidence of the thoroughness of the preparations awaited in the nature of an excellent tea.

The last tower of call was Littledean, where, in addition to the standard methods, Little Bob and Oxford were rung on the light six. The ringers had great competition from the choral section of the party, who held community singing round the harmonium in the chancel of the church.

This report would not be complete without expressing thanks to Mr. R. H. Addis, captain and secretary of the St. Mellons ringers, who made all arrangements. J.R.W.

REACTIONS

THOUGHTFUL ringers are constantly searching for the reactions of the public to church bells. Recently Marjorie Nesbitt gave her impressions in the following fascinating style :—

'I don't know how you feel about church bells. Some people like them and some don't. Some say to hear them ringing makes them feel melancholy. Others can almost feel the tight elastic under the chin, the uneasy pressure of "best" shoes . . . smell the old smell of hymn books and hassocks . . which all went with the strict churchgoing of a Victorian childhood. And to others who hear them ringing it is to be taken back to some cathedral city they once knew where, even if they never went inside the building, the bells ringing high over the streets and roof tops made a sort of background to all that went on.

'To me, to hear church bells ringing is to be taken back to the summer Sunday evenings of my childhood, walking with my mother through the fields in that golden hour before bed-time when the gnats danced low over the half-dried up stream, the sinking sun made my shadow big and the bells from the church on the hill "tinging" for evening service seemed to deepen the feeling of peace which lay upon everything. I don't suppose I ever hear bells ringing without, for a moment, being taken back to those fields.

'But although I like to hear the bells, I've very seldom thought about the ringers. For me the bells just ring . . . a lovely tumbling, swelling sound . . . a beautiful majestic clangour which seems beyond human agency as free as the wind, and the movement of the sea and just as satisfying. I never get any sort of mental glimpse of ropes and men in shirtsleeves.'

Mrs. Nesbitt then describes watching the ringing in a Sussex tower. Four shirtsleeved men, a grey-haired woman and a yellow-haired girl ringing and grouped around two schoolboys, three more girls and two older men waiting their turn to make the bells speak. She concludes: 'And this, I think, is half the secret of the magic of our English bells. It's no clockwork or electric impulse that makes them speak, but a human ringer—the man who had trudged up the hill from his warm bakery, or rode over the Downs from his farm, the woman who has just dried her hands from the sink. And their music, handed down the centuries is, I suppose, almost as much a part of England as her cottage gardens . . . and her weather.'

BELFRY GOSSIP

Silver wedding bells will be heard this month for Mr. and Mrs. R. F. Deal on the 16th and Mr. and Mrs. Cecil Matthews on the 20th. Peal attempts include one at St. Margaret's, Westminster, for Mr. and Mrs. Deal, and at Camberwell the following Saturday for Mr. and Mrs. Matthews.

Six married couples are standing in a peal attempt at Leicester on October 30th.

On holiday in East Anglia, Mr. P. Laflin, of Stockport, turned in Framsden's tenor to Superlative.

The coming-of-age peal of Mrs. G. E. Watson, of Burton Latimer, Kettering, was her husband's first of Treble Bob as conductor.

It was to Ireland that Mr. Sidney O'C. Holloway went for his 100th peal. Congratulations!

Mr. A. V. Pearson has 'circled' St. Matthew's, Walsall, Mr. W. J. Button, Framsden, and Mr. John Hale, Great Crosby, Lancs.

Miss Elizabeth Morton is the first of her sex to ring at Wistaston, Cheshire, and there have been 59 peals on the bells.

Mr. G. S. Valentine, who has had an absence from peal ringing since 1939, appears this week on the occasion of his daughter's first peal at Maidwell, Northants. The last peal at Maidwell was in June, 1937.

Errata.—In the peal of Stedman Caters at Surfleet on September 2nd the following corrections have been received: John E. Allen 2, John G. Ames 8. In the peal of Grandsire Triples at Chipping Norton on September 11th the ringer of the 3rd was Michael H. Sinden.

Saturday, October 2nd, a was a red letter day in Leicester, when a fine performance was put up by the 'Back Five Boys' in the peal of Stedman Caters on the heaviest ring of bells in the county. Also worthy of credit was Jean's handling of the treble throughout; no doubt the influence of the 'youngster' on the 2nd helped.

The sympathy of many friends is extended to Mr. and Mrs. Harold Poole in the death of Mr. Albert Hare, father of Mrs. Poole. In recent years Mr. Hare had made his home with them at Leicester and he was beloved and respected by the many visitors to The Wayside.

Mr. H. Collis, of Chobham, Surrey, has rung his first quarter-peal after 51 years a ringer.

The ringer of 1-2 to the handbell peal at Kingston on September 19th was Richard Crosland and not Richard Croswell.

Grandfatherly honours have been paid to (or is it 'by'?) Mr. J. Frank Smallwood and Mr. James Bullock.

Mr. J. W. Raithby, of 145, Farndon Road, Newark, has been appointed general secretary of the Southwell Guild in succession to the late Mr. T. Groombridge, jun.

After several unsuccessful attempts a peal has been rung at Glaston, Rutland. The hospitality of Mr. and Mrs. G. King was much appreciated by the band.

The peal at Davenham on October 1st was the first Surprise peal rung by a local band of the Northwich Branch of the Chester Diocesan Guild. It was also Mr. Harry W. Howard's 109th peal.

Those who participated in the Somerset Tour, reported in our last issue, have asked us to mention the practical and valuable advice given by Mr. J. Dyke. The tour was a triumph in organisation by Mr. J. E. Cawser.

At the request of the Rector and local ringers a peal of Cambridge Surprise Major was rung at Coleorton, Leics., for the harvest festival. The last peal on the bells prior to this was 22 years ago. It is 59 years since a peal of Major has been rung at Coleorton.

Another village to request a peal was Flitton, Bedfordshire. This, states the conductor, Mr. C. E. Jeffries, was a 'send-off' peal to the Vicar. It was Minor in seven methods.

ROYAL CUMBERLAND YOUTHS AT DINNER

THE MASTER'S MEMBERSHIP DRIVE .. ... DIED HAVING HIS WISH ... .. COINCIDENCE OF THE REV. CYRIL JENKYN'S DEATH RECALLED BY CENTRAL COUNCIL'S PRESIDENT

THE annual dinner of the Society of Royal Cumberland Youths at The Bell, Holborn, last Saturday, was a happy gathering. Mr. Walter Ayre, the genial Master, had sufficiently recovered from his unfortunate accident to take the chair, and the keynote of his message was a clarion call for more members. 'Let us make it a bumper year,' he said. So far this year the Society has rung 18 peals.

Supporting the Master and Mrs. Ayre were Mr. E. H. Lewis, the Rev. H. Cecil, the Rev. and Mrs. L. M. Charles-Edwards, Mr. W. R. Winterton, Dr. and Mrs. A. Perry, Mr. and Mrs. F. W. Housden, Mr. and Mrs. H. Burton, Mr. and Mrs. C. McGuinness, Mrs. McGuinness, sen., Mr. and Mrs. T. Bevan, Mr. and Mrs. G. H. Cross, Mr. and Mrs. R. F. Deal, Mr. and Mrs. C. J. Matthews, Mr and Mrs. F. Hawthorne, Mr. and Mrs. A. Kirby.

Mrs. J. D. Matthews, Mrs. Fox, Mrs. Davis, the Misses J. Brittain, F. Edgar, J. Mattinson, P. Holmes, D. Colgate, B. Millhouse, B. Brown, J. Pett, M. and D. Lidbetter, Ayre, Cowlin.

Dr. E. L. Taylor, Dr. F. S. Poole, Messrs. G. Steere, J. Millhouse, T. H. Francis, J. S. Hawkins, W. H. Cook, A. Bird, A. Pearmain, G. Carter, V. Benning, P. M. Gray, W. R. Hammons T. J. Clark, C. Buesden, W. Robinson, H. R. French, R. G. French, T. M. White, B. J. Luck, C. Buesden and T. W. White.

Apologies were received from Messrs. G. Williams, Frank Knight, Martin Harbott and George Gilbert.

Mr. W. R. Winterton, in proposing 'The Church,' said he hoped that one day Theological Colleges would foster the science and practice of campanology and that every priest coming out of one of these colleges if not a ringer have some idea of how a bell rang and what a bell meant. He welcomed the Rev. H. Cecil, of St. Leonard's, Shoreditch, and the Rev. L. M. Charles-Edwards, the new Vicar of St. Martin's, who took a keen interest in ringing. The St. Martin's ringers had their annual outing in August to Newark, from where Mr. Charles-Edwards came. The Mayor gave them such a fine civic reception that the ringing afterwards was jeopardised (laughter).

The Rev. L. M. Charles-Edwards, in reply, said he often saw his ringers rushing off after the service and he enquired of Mr. Winterton the reason. He told him it was the thirst after righteousness! He would bring to the notice of two principals of Theological Colleges the suggestion that clergy leaving colleges should know something of ringing. He thought bellringers ought to advertise themselves more. This summer he was on holiday in Shropshire and the Vicar in the village he stayed was perturbed because there was no one to instruct his young ringers and he did not know where he could get help and advice.

They at St. Martin's were tremendously honoured at being the headquarters of the Cumberlands. Sometimes people suggested that the bells disturbed the patients at Charing Cross Hospital. His experience had been that the bells were a great joy to them on a Sunday; in fact most of them preferred the bells to his sermons.

'The Society of Royal Cumberland Youths' was proposed by Mr. J. S. Hawkins, who said that during the past two years he had the privilege of ringing at St. Martin's. He had watched the progress of the Society and admired the work in training recruits of Mr. Frank Knight, Mr. George Gilbert, George Cross, T. Bevan and their worthy Master.

HIS PARENT GUILD.

In reply, Mr. W. Ayre said: This position which I hold this evening is one that I esteem more than anything I have ever held, and I am more than delighted to see here to-night some of my Lincolnshire friends because the position I hold is due to my parent Guild—the Lincoln Guild.

MR. WALTER AYRE.

[Photo: 'West Herts and Watford Observer.']

'When this honour was given to me my mind flashed back to my own tower at home. Many of you remember the selfish old ringers who would not help youngsters. I suffered from that with the exception of when they were short and then they would let me up into the tower and teach me how to pull up in peal, ring rounds and ring down again. No attempt was made to teach me the elements of change ringing. I had two brothers in that band and no one knows the difficulty of getting even them to help me.

'It is not our aim to treat youngsters like that. We must go out and bring them in; we must not rely on headquarters to produce members. We are eternally grateful to St. Martin's for being our headquarters, but we must not rest there. I want you to go out from this dinner and rope in as many new members as possible. This year has not been so bad, but let us make it a bumper year. When youngsters become members they must realise that they have a duty of maintaining a high standard of ringing.

The Master concluded his speech by referring to the passing of Mr. Jim Bailey, Mr. John Miller, of Southgate, a member for 50 years, William Pryor, of Hampstead, also for over 50 years. To their memory the company stood in silence.

Mrs. Deal proposed 'London and Provincial Societies and the Visitors.' In a graceful speech she gave a special welcome to visitors frow Lincolnshire, the Master of the London University Society, the College Youths, including her own husband, and Mr. E. H. Lewis, the president of the Central Council, whose name was coupled with the toast.

Mr. Lewis replied and said he was not sure that the ban on ringing during the war did not do them a lot of good because when ringing started again they had an extraordinarily good press and the public welcomed the bells with such enthusiasm that there was a great influx of people into the belfries. He thought the ringing Exercise was now stronger than before the war. With such an influx one of the difficulties was in getting teachers. Unfortunately many instructors were incapable of teaching a ringer how to handle as they could not handle a rope properly themselves. The Central Council had a very good booklet in 'Hints to Beginners,' which showed how a ringer should hold his rope, the secret of beginning a good ringer.

DIED HEARING STEDMAN CATERS.

In reminiscent vein, Mr. Lewis recalled ringing a peal of Stedman Caters on the beautiful bells at Wrexham. The Vicar met them afterwards and said he had been hiding for two hours because a dissenting family had tried to get hold of the key of the belfry because they alleged that one of their family was ill, which was not the case. Getting into the waggonette the Rev. Cyril Jenkyn said he would sooner die to the sound of Stedman Caters than anything else. When Newbury bells got an increase in family of two bells, Mr. Jenkyn, after ringing in the tower, said he wanted to hear the bells outside. As he was standing in the street listening to the Stedman Caters he dropped down dead.

Mr. F. Hawthorne proposed 'The Press' and recalled that since 1881 (before his time) ringers had had their press with 'The Bells News and Ringers' Record,' and afterwards 'The Ringing World,' founded by Jack Goldsmith.

Mr. T. W. White, in reply, said they were expecting an additional allocation of paper in November that would enable them to take another 200 subscribers. New readers should write to Mrs. Fletcher, The White House, Caister-on-Sea, Norfolk, without delay.

The Chairman thanked the Vicar of St. Martin's for the use of the bells. For the arrangements for the dinner they were indebted to Messrs. George Steere, Cecil Matthews, George Cross, Frank Hawthorne and Tom Bevan. They had all worked splendidly. Entertainment was provided by J. Rowe (songs), Douglas Howe (magician) and Mr. M. Luff (pianist).

JOINT MEETING

LADIES' AND MIDLAND COUNTIES GUILDS.

A good muster of ringers was present at the joint meeting at Burton-on-Trent on September 18th. Ringers attended from Anstey, Ashby-de-la-Zouch, Burton-on-Trent (St. Paul's and St. Modwen's), Castle Bromwich, Cheadle, Coleorton, Coleshill, Derby (St. Andrew's and St. Peter's), Desford, Duffield, Ibstock, Leicester, Longton, Lullington, Measham, Nottingham, Ockbrook, Overseal, Lepton, Rolleston, Stoke-on-Trent and Wolverhampton.

The Vicar of St. Paul's (the Rev. Willis-Price) conducted a short service, followed by a delightful tea in St. Paul's Institute. Miss Thompson (vice-president of the Midland District of the Ladies' Guild) thanked the Vicar for the use of the bells and taking the service and for the invitation from the Midland Counties Guild to have a joint meeting.

Mr. William Curzon, the chairman of the Midland Counties Guild, in seconding this proposal, said how pleased he was to welcome everyone to Burton and hoped it would not be long before the Ladies' Guild visited Burton again.

At the Ladies' Guild which followed 13 new members were elected. The next meeting will be at Sawley on November 13th.

DEDICATIONS

St. Andrew's, Roker

On the afternoon of September 26th, a congregation of about 1,000 assembled at St. Andrew's Church, Roker, Sunderland, for the dedication of the parish war memorial for the World War of 1939-1945. This is a ring of 10 bells, with a tenor of 22 cwt. 2 qr. 26 lb. in E, and has been installed by Gillett and Johnston, Ltd., of Croydon.

The service, which was conducted by the Vicar, the Rev. K. F. Parsons, was relayed to an overflow congregation in the nearby church hall. The bells were dedicated by the Bishop of Singapore, the Rt. Rev. J. L. Wilson, who was Vicar of St. Andrew's from 1935 to 1938. Immediately after the dedication rounds were rung on the bells by members of the St. Andrew's Guild.

In his sermon Bishop Wilson said that the process of getting bells at St. Andrew's began many years ago, but it had not been until the present time that it had been accomplished. Bells were needed in this parish, and those who had given them and worked for them were to be sincerely congratulated.

The Bishop of Durham was unable to be present, but in a special message to the parishioners he wrote: 'Church bells have for many centuries been a well-loved and long remembered feature of this country's life: they are linked with many of our oldest and best associations and the art of ringing is a fine and skilful craft. May the new peal ring out strong encouragement to all churchpeople and may it help to draw many new generations to worship at St. Andrew's.'

Among those present at the service were the Mayor and Mayoress of Sunderland, the Revs. Max Gregory (Archdeacon of Singapore), J. F. Richardson (Rural Dean of Wearmouth) and R. S. Troop (Rector of Sunderland); Messrs. H. M. Howard, Stevenson and B. Newson, representing Gillett and Johnston, Ltd.; Messrs. F. Ainsley, J. A. Brown and Miss M. Fidell, representing the Durham and Newcastle Diocesan Association of Change Ringers.

After the service, as the congregation was dispersing, a touch of Stedman Caters was rung on the newly dedicated bells by Messrs. G. A. Pickering 1, J. Anderson 2, J. A. Brown 3, Miss Fidell 4, Messrs. T. Crowe 5, K. Arthur 6, W. H. Barber (cond.) 7, A. Deas 8, A. Brunton 9, F. Ainsley 10.

The bells are a grand addition to the existing rings in the Durham and Newcastle Association's area. The bells are delightful both to handle and to listen to, and Gillett and Johnston, Ltd., are to be congratulated on their fine workmanship. J.A.B.

Seaton, Devon

Since 1662-1663 there have been six bells in the tower, the tenor (about 12 cwt.) being somewhat earlier. Now a new treble bell, publicly subscribed for as a memorial to those from Seaton who laid down their lives in the last war, and a new 2nd bell, the gift of Mrs. Sellers in memory of her father, Henry John Barnes, have been added to the old six and were dedicated by the Bishop of Crediton on October 2nd.

The church was filled to overflowing for the fully choral service which accompanied the ceremony of dedication, and nearly one hundred visiting ringers from towers in the Honiton Deanery and from Lyme Regis attended. The churchwardens, having formally requested the Bishop to dedicate the bells, the ropes were handed to him and he made the sign of the Cross on each, particularising the new bells as memorials and then committing the whole restored ring to the custody of the incumbent. Immediately following the dedication the bells were rung in rounds by the local ringers under the captaincy of Mr. E. S. Hawker.

The Bishop, in a brief address, said that it was appropriate that the commemoration of those who had given their lives in the war should take the form of the provision of new bells, and pointed out that the bells have a message because they speak of the things of God.

After the service the bells were kept going until late in the evening by the various bands attending, and all the ringers were entertained to tea by the Vicar, the Rev. H. R, Cooke, M.C., and the churchwardens.

The people of Seaton are to be congratulated on now possessing a satisfactory ring of eight and also on having raised £800 for the new treble and the whole restoration. The two new trebles have been cast by Messrs. Gillett and Johnston, of Croydon, who were represented at the opening by Mr. Don Bradford, the existing six bells having been rehung by them with new gudgeons and ball bearings.

The treble is inscribed 'In memory of those of this parish who fell, 1939-1945,' and the 2nd, 'In memory of Henry John Barnes, 1947.' C.C.C.

WONERSH, SURREY

The bells of Wonersh Parish Church, Surrey, have been retuned and rehung with new fittings and in a new frame to accommodate eight bells (two more to be added at a later date) by Messrs. Gillett and Johnston, Ltd.

The rededication was on October 3rd by the Vicar (the Rev. R. S. Brown). The Guildford Diocesan Guild was represented by Mr. G. L. Grover and the Southern Section of the Ladies' Guild by Miss W. A. Oliver. Mr. D. Bradford represented Messrs. Gillett and Johnston. Immediately after the dedicatory prayers the bells were rung by the local band. Visiting ringers rang after the service and expressed their satisfaction at the work done.

The contract price was £700 and all but £50 has been raised. The local band have met the cost of installing Ellacombe chiming hammers. Small donations from those interested would be thankfully received by Mr. W. Enticknap, Great Tangley, Wonersh.

PUTNEY, LONDON. — At St. Mary's, on Sept. 22nd, 1,260 Grandsire Triples: G. W Debenham 1, R. Mackrill 2, W. J. Paice 3, H. Belcher 4, J. Alsop 5, J. W. Stephenson 6, W. T. Elson (cond.) 7, F. W. Wicks 8. First on the bells after overhauling.

KENT COUNTY ASSOCIATION

BIG ATTENDANCE AT CANTERBURY 'ANNUAL.'

The annual meeting of the Canterbury District was held in Canterbury on October 2nd. One hundred and twenty practising and honorary members were present, including ringers from the Ashford District and a few invited guests. Towers represented from the district amounted to 24 of the 31 in union. Ringing was held during the afternoon at St. Alphege's and St. Dunstan's, and at 4.15 service at the latter church was conducted by the Vicar, the Rev. E. A. Brown. A slight diversion was made from the usual service, in that special prayers were said for departed members, a special hymn also being sung. A collection for the Benevolent Fund realised £2.

A splendid tea was prepared by Mr. C. Dilnot and served by the local band. At the annual business meeting the secretary reported that at the moment there were 327 fully paid up members, including 31 honorary members, a record. Since the last annual meeting seven other meetings had been held with an average attendance of 71 and a tower representation of 18.

The chairman (Mr. J. A. Russell), Ringing Master (Mr. R. G. Port) and secretary (Mr. B. J. Luck) were re-elected by nomination, and Messrs. French and Unwin were re-elected by ballot.

Chilham was chosen for the next by-meeting, with Wingham as the next quarterly meeting. Twelve new members were elected.

Thanks were expressed to all those who had worked to make the afternoon a success. Further ringing was held during the evening, the Cathedral bells also being available.

Durham & Newcastle Assn.

FESTIVAL AND DINNER.

The annual festival and dinner of the Durham and Newcastle Diocesan Association was held at Newcastle-on-Tyne on September 25th. The bells of St. John's and St. Stephen's were available, and the festival service was held at St. Stephen's, conducted by the Vicar, the Rev. W. Leslie Shone, with Mr. W. Curry at the organ.

After the service, members and friends, among them Canon Stephenson, of Gateshead, assembled at the County Hotel, where dinner was served.

The annual general meeting followed, with Mr. W. N. Park (president) in the chair. One of the principal items on the agenda was a notice of motion to increase the subscriptions for ordinary members from 2s. to 3s. per annum. There was some discussion on this matter, when one member tabled an amendment that the subscription be raised to 4s. a year, this being carried by a large majority.

Mr. K. Arthur proposed a vote of thanks to the incumbents for the use of the bells. The Rev. Shone replied and said how delighted he had been to welcome the ringers to his church. A vote of thanks to the retiring officers was proposed by Mr. J. Anderson. Mr. W. N. Park suitably replied.

Mr. Park brought to the notice of the meeting the work done by Mr. W. F. Fennell, a non-ringer, of Chester-le-Street, in writing up the Association Peal Book. This work has been done without fee, and the secretary was asked to write to Mr. Fennell thanking him for his valuable services.

Entertainment was provided during the evening by Mr. Paxton Lynn, M.M.C., and Mr. Gibson, of Darlington. There was also handbell ringing by the members.

MR. E. STITCH'S 300 PEALS

Mr. E. Stitch, of Port Talbot, Glam, has rung his 300 peals in nine counties. His list is as follows:—

Grandsire Doubles 15 (cond. 14), Triples 112 (45), Caters 21 (2), New Grandsire and Grandsire Triples 1, Double Grandsire 1.

Stedman Triples 39, Caters 15; Erin Triples 2, Caters 1.

Plain Bob Minor 15, Triples 1, Major 26 (5), Royal 4; Little Bob Major 1, Forward Major 1.

Kent Treble Bob Minor 6, Major 10; Oxford Treble Bob Minor 1, Major 1; Kent and Oxford Treble Bob Minor (combined) 1, Major 2.

London Bob Triples 1, St. Clement's Triples 1, Oxford Bob Triples 4, Spliced St. Illtyd and Oxford Bob Triples 1, Spliced Plain Bob Major and Grandsire Triples 1, Spliced Plain Bob Major and Oxford Bob Triples 1.

Superlative Surprise Major (Treble) 1, Double Norwich Major (Treble) 1, Cambridge Surprise Minor 2, London Surprise Minor 1.

Minor (2 to 6 methods) 8, Surprise Minor (7 methods) 1, Doubles (2 methods) 1.

Total 300 (conducted 66).

ESSEX ASSOCIATION

NORTHERN DISTRICT AT FINCHINGFIELD.

A meeting of the Northern District was held at Finchingfield on October 2nd, when 39 members from 14 towers were present. The Vicar (the Rev. H. Jordan) conducted the service and the collection for the Association's Bell Restoration Fund amounted to £1. Tea was provided by the local ringers in the Schoolroom.

At the business meeting the District Master (Miss H. Snowden) presided. The members stood in silence in memory of Mr. John Turner, of Earls Colne, who was a life member of the Association and who died in August last, aged 82. Nine new members were elected, and Braintree was selected for the annual meeting, to be held on January 8th. Ringing ranged from Bob Minor to Superlative Surprise Major.

OUTINGS OF INTEREST

BRISTOLIANS' TRIP TO SOUTH WALES.

On September 18th, the Bristol City branch of the Gloucester and Bristol Association organised a one-day trip through South Wales. Having arrived at Newport, Mon., by train, a coach drive through one of the great coal and iron fields of the Principality brought us to Ebbw Vale, our first objective, where is the celebrated eight considered (and very justly) to be the finest ring of its size in Wales. That it would be hard to equal anywhere was our verdict after an hour of sheer delight.

After a short climb over the shoulder of the valley we left industrial Wales behind and drove through a landscape which is the very frame of Cambrian history. At Abergavenny, from Roman to Tudor times the gate of Wales, we had lunch, and then went to St. Mary's, where the Mayor (Alderman Rees) welcomed the party before we rang up the new Taylor ten, which had been dedicated a month earlier. This grand ring — 25 cwt. in D — deserves all the praises which have been bestowed upon it, and is a noteworthy addition to the bells of Monmouth. Cambridge Royal, Stedman and Grandsire Caters filled the allotted time only too speedily.

A brief run through the autumn glories of the Usk Valley took us to Usk itself, and to the Priory eight, one of the cradle towers of Welsh ringing. This handy and melodious ring—14¼ cwt. in F sharp—gave us the high spot of the day's ringing, a perfectly struck touch of Stedman Triples. After further touches of Double Norwich and Cambridge, the bells were rung down and we had tea at the well-known Three Salmons Hotel. Incidentally, we made history in the Usk tower, by ringing them for the first time with an all ladies' eight and by ringing the first touch of Cambridge Major on the bells.

Another drive through the beauties of the Usk Valley, taking the Welsh Caerleon with its Roman remains on the way, brought us to our final objective, the only twelve in Wales. This was at St. Woolos', Newport, where the ring was augmented by the addition of two trebles in November, 1939. Stedman Cinques and Little Bob Maximus were here rung, after which we called it a day and adjourned to the Tudor Restaurant for the finale of a most successful outing, which it is hoped will be the first of an annual series by the Bristol City Branch.

Before leaving Usk, a well-deserved vote of thanks was proposed by the chairman of the branch, Mr. H. Bennett, to the Ringing Master, Mr. E. F. Hancock, for the time and trouble he had given to organising so enjoyable an event. A.J.C.

BIGGLESWADE DISTRICT.

An interesting day was spent in the Fen districts of Lincolnshire, Norfolk and Ely on September 18th, when ringers from the Biggleswade district of the Bedfordshire Association and friends enjoyed their annual outing.

The towers visited were Yaxley (6), Whittlesey (St. Andrew's, 8, and St. Mary's, 8), Wisbech (10), Terrington St. John (6), Long Sutton (8) and Holbeach (8). The presence of local ringers at all of these towers, and of the Rev. J. P. Pelloe, who welcomed the party at Wisbech, was greatly appreciated, and final impressions of the day were of the friendliness of the local bands, the grandeur of these Fen churches, and of some good rings of bells.

The highlight of the day came fittingly as the finale—ringing at Holbeach. Here, in spite of the frighteningly long draught, the best ringing of the day took place on these glorious bells, and a lasting impression was made by the breathtaking dimensions of the magnificent church.

Mr. Lewis Bywaters, of Henlow, deserves the congratulations and thanks of all the participants of the tour for organising a long day so successfully. B. S.

ST. MARY'S, EWELL.

The second annual outing of recent years from St. Mary's, Ewell, Surrey, was on Sept. 11th, when a party of 33 ringers and their friends enjoyed a long day in Kent.

Starting at 7.45 a.m., the first stop was made at Leigh, where Mr. Whitehead welcomed the party to his light ring of six and they were soon clambering adventurously up the steep ladder fixed in the circular interior of the tower.

At Goudhurst, in the heart of the hop country, all were impressed by the size and commanding position of the buttressed, castellated tower, standing on the summit of the hill, nearly 500ft. above sea level. A huge key gave access to the stairs of the giant ringing room, and soon the five tons of bells were clanging out across the little town.

At Cranbrook, the 'Cathedral of the Weald,' care had to be taken because the stays of the 4th, 6th and tenor (23 cwt.) had broken, but no further damage was done.

Some of the best scenery of the day brought the party after lunch to St. Mildred's, Tenterden, its handsome Perpendicular tower reaching to a height of 129ft. A full oilcan was presented to the visitors and they were strongly advised to use it on the plain bearings before ringing. The advice was followed to much advantage in the handling of the 1½-ton tenor.

The other six-bell tower to be visited was at Charing (Mr. C. F. Good), where a fairly short ring was followed by a big tea in the Chestnut House Tea Rooms. Headcorn was reached in time for evensong. This simple service was much enjoyed by all and the tourists were fortunate in being able to provide a lady organist.

Mr. Belsey and the Vicar of Headcorn, as well as some of the local ringers, joined in touches of various methods until about 8 o'clock, when the party left for the two hours' drive home. J. E. B.

WRINGTON.

The annual summer outing having proved so enjoyable, it was resolved to have a second one in the autumn, so on September 25th a good muster of ringers and friends travelled by motor-coach to Bath, the octave at St. Michael's having been placed at their disposal.

The second stop was at Melksham, where, following an excellent tea, the visitors rang for and attended evensong. Ringing was resumed after service and continued well into the evening. The final call was at Bishop's Cannings, a popular rendezvous. The fine octave at this church is possibly the earliest of which there is a record since the Reformation; they were originally cast in 1602 by John Wallis during the incumbency of the Rev. George Ferrebe, and Aubrey refers to the ringing of these bells during a visit by King James, adding that this parish 'in those dayes would have challenged all England for musique, football and ringing.'

The visitors met the Swindon band, who were departing as the Wrington party arrived. The bells were kept going until 9 p.m.

MARKET DEEPING.

Market Deeping and district ringers had an enjoyable outing on September 18th. The fine ring of eight at Oakham was the first stop, followed by an hour's ringing on the ten at Melton Mowbray.

At Loughborough the party were met by Mr. Colin Harrison, who showed them over Messrs. John Taylor's works, where they saw bells being cast. The works ring of ten was rung and also the lovely ten at the Loughborough Parish Church.

Mr. A. Ward welcomed the visitors at Bottesford and the day's ringing concluded at Grantham, where the company was met by Mr. S. Proctor and the Grantham band. Thanks are due to the organisers and friends who made the party so welcome. W.H.W.

LETTERS

STANTON SURPRISE MAJOR

Dear Sir,—As conductor of the above peal, may I reply to Mr. Taylor's recent suggestion by saying at once that I have no intention of withdrawing it.

I am satisfied, beyond doubt, that it conforms with the existing Central Council definition of 'Surprise,' and, indeed, one needs no further confirmation of this than Mr. Taylor's article itself.

The faults, as pointed out by Mr. Taylor, did not go undiscovered, but in spite of these the band who rang it found it interesting to ring.

May I now give the main reason for ringing it? This method was produced by Harry Poyner, 16 years of age, who was introduced to ringing last February. He has shown exceptional interest and enthusiasm in method construction and without assistance was producing three or four methods weekly, only to be told that they had been previously produced and rung. Stanton Surprise was the first he produced which had not been rung, and the peal was put on for no other purpose than to give encouragement to this youth.

The encouragement of young beginners is of the greatest importance to the Exercise, and in my humble opinion far outweighs any disadvantages such as this method may possess.

Mr. Taylor suggests a tightening up of the Central Council rules governing the term 'Surprise.' I shall be only too happy to abide loyally by any new rule as indeed I have done with the old.

Leicester district is not without some ringers experienced in method construction, and in fairness to them may I say that the method in question was condemned in very forceful terms —not because it failed to comply with the term 'Surprise,' but on account of the obvious other faults it contained.

Nobody would wish to suggest that Stanton Surprise is a good method, from a construction point of view, but I consider it is good enough for the purpose it served.—Yours truly,

Leicester. HAROLD J. POOLE.

A PREVIOUS ATTEMPT

Dear Sir, — It may interest your correspondent to know that the method Stanton Surprise was practised at Leatherhead some time before the war. An attempt for a peal came to grief owing to a rope breaking after 2½ hours' ringing. The in-course half of Pritchard's Four-part peal of Bob Major was used. Had we got the peal we proposed to call it 'Leodride,' that being the Anglo-Saxon name of Leatherhead. — I am, yours truly, G. MARRINER.

Leatherhead.

MIDLAND COUNTIES GUILD

MEETING AT TICKNALL.

Upwards of 40 members attended the Guild meeting at Ticknall on September 25th. Ringing embraced eight Minor and four Doubles methods with rounds for learners under the supervision of the Ringing Master, Mr. B. G. Key.

Evensong was conducted by the Vicar (the Rev. J. G. Pope), who preached from the text, 'There is neither speech nor language, but their sound is gone out into all lands.' Mr. W. Soar was the organist.

Following tea in the Welfare Hall, Mr. W. H. Curson presided at the business meeting. The election of Mr. R. E. Scudamore, Carmarthen, as a non-resident life member was ratified. The next meeting will be on October 30th at Ashby. Thanks were expressed to the Vicar, organist, local band and lady helpers by Mr. B. G. Key.

Salisbury Diocesan Guild

DORCHESTER BRANCH.

A meeting of the above branch, held at Wyke Regis on Saturday, September 18th, was attended by about 40 ringers and friends. The service was conducted by the Rector (the Rev. F. E. Pratt), assisted by the branch chairman (Canon A. W. Markby).

After an excellent tea, served by the ladies, the business meeting was conducted by Canon Markby. Apologies for non-attendance were read from the Rev. C. C. Cox, Master of the Guild, and other ringers. No new members were proposed, this being the second successive meeting at which the branch has failed to add to its membership.

It was agreed that the next meeting should be the annual, and should be held at St. Peter's, Dorchester, in January. The sum of 5 gns. was voted towards the cost of the repair of the ropes at St. Peter's, where Guild practices are frequently held.

The meeting agreed that as far as was practicable these practice meetings should consist of tuition for learners rather than touches for those ringers who were more advanced.

Capt. E. F. Samson moved a vote of thanks to the Rector, the organist, the ladies who attended to the teas, and all who had contributed to make the gathering the success which it undoubtedly was.

Eleven towers were represented, and there were visitors from Bristol, Reigate, Bournemouth and Southampton. Ringing was under the supervision of the Ringing Master, Mr. F. Precey, and his deputy, Mr. F. Stedman, who is also captain of the Wyke Regis ringers.

CHESTER DIOCESAN GUILD

STOCKPORT BRANCH.

The pleasant village of Disley was the venue of the Stockport Branch for their meeting on September 25th. Legend has it that the bells will ring the methods themselves so long as the ringer pulls the rope, as the tower has long been a centre of spliced Minor ringing, and it was here that many record peals were rung just before the second World War.

The Vicar (the Rev. W. B. James), in an address at the service, reminded the ringers of the sacredness of their calling, which demanded of them skill, perseverance and loyalty. Tea followed in the school, at which about fifty members and friends were present.

At the business meeting a welcome was extended to Mr. J. Rance (Sonning), who was on holiday in the district. Expressions of regret at the death of Mr. A. E. Marshall, of Denton, an old and valued member of the branch, and Mr. H. Chapman, well known to many of the older members, were voiced.

The meeting closed with a cordial vote of thanks to the Vicar and to Mr. J. A. Milner and the local band, who for many years have worked hard to develop the talents of recruits to the Exercise.

Methods rung included Cambridge Surprise, Wragby, Neasden, St. Albans and Charlwood Delight, Capel, Sandal, London Scholars' Pleasure, Kingston, Oxford, Kent Treble Bob, Little Bob, Plain Bob, Stedman Doubles, together with rounds and call changes for the less advanced.

OBITUARY

MR. J. ELSWORTHY.

The passing of Mr. J. Elsworthy at Bridgwater on October 6th will be regretted by a large number of friends, especially those in the Bath and Wells and the Devon Guilds. He was 86 years of age and had been a keen ringer for nearly 70 years.

He was a native of Tiverton, Devon, and came to Bridgwater to live about 25 years ago and was still ringing within a few weeks of his death.

During Saturday evening touches of Grandsire Triples were rung half-muffled at St. Mary's, Bridgwater, of which he was a member.

OURSELVES

LAST week a particularly encouraging announcement was received concerning the paper supply to 'The Ringing World.' Confirmation was to hand of an additional supply as from the beginning of November that will enable the journal to maintain a uniform 12-page issue and to increase the number of subscribers by 200. It is a case of 'first come, first served,' and would-be subscribers should write forthwith to Mrs. G. W. Fletcher, The White House, Caister-on-Sea, Norfolk. Subscription rates are 4s. 3d. per quarter or 17s. a year. Those who prefer to receive their 'Ringing World' through a newsagent should ask him to apply through his wholesaler to the Rolls House Publishing Co., Ltd., Breams Buildings, London, E.C.4. Newsagents are not supplied from Guildford but direct through wholesalers by Rolls House Publishing Co.

Regarding notices, there are two things we wish to bring to the attention of Guild and District secretaries. To ensure insertion they should be received in Guildford on a Monday at the latest. 'The Ringing World' starts printing on Tuesday. Most weeks we receive notices too late for publication. The other point is in the matter of charging. The simplest way is to run a deposit account with Mrs. Fletcher, then there is no difficulty if the number of words and the remittance do not coincide. It is still a complicated task for some Guild secretaries to make these two synchronise. The charge is one penny a word—minimum 2s. As regards counting, 5 p.m. is not one word but two, and each initial of a name counts as one word. Thus 'T. W. White' would be three words. Economy could be effected by writing 'Tom White.' The title of the Guild or District is also charged for. We are sorry to bring these mundane things to the notice of readers, but it is only by watching pence that a journal such as ours can remain solvent.

We are indebted to the many contributors who keep us punctually and regularly informed of news of interest. At times it is necessary for us to sub-edit contents either on account of space or readability. Not everything sent in can be inserted. When the Editor is in doubt about the suitability of a contribution he takes advantage of the advice of the Editorial Committee. It is impossible to publish every quarter-peal received. Lately we have reserved two columns for 'quarters,' and we shall endeavour to maintain this space. It would be of great advantage if quarters were written in the uniform style employed. Priority is given to first performances.

Finally, it is our aim to present week by week a complete and accurate record of proceedings in the Exercise. To avoid mistakes in peals conductors are asked to write clearly. On our part we arrange for peals to be read twice so as to reduce errors. It is probable that in connection with the happy event in the Royal Family next month there will be a record number of peals. Footnotes must therefore be minimised to absolute essentials. A royal peal should not be bracketed with any other commemoration or the birthday of somebody's aunt.

BELFRY GOSSIP

After being in use for 96 years, the bells of Christ Church, Ealing, have been rehung in ball bearings by Messrs. Mears and Stainbank. The top three bells have been recast and the back five tuned. 'They are now a wonderfully good eight,' writes one who heard the test. The reopening and rededication will be on October 30th.

The peal of Stedman Cinques at St. Mary Redcliffe recorded this week was the 50th peal this year by Mr. John Thomas.

Ancaster, Lincs, ringers are starting change ringing and one of their number records his first peal this week. They have started a fund for a new treble to make a ring of six.

First anniversary of the record length of London Surprise Major was marked by the band assembling at Heydour and ringing their respective bells. This time it was 6,720 London Surprise Major, the extent in the method with the tenors together.

Another well-known ringer receiving Masonic honours this year is Bro. Charles Oakley Moore, for some time secretary of the London County Association. On November 4th he is to be installed as Worshipful Master of the St. Clement Danes' Lodge No. 1351.

During an active week-end in the West, Mr. Alfred H. Pulling called a peal at Quedgeley, Gloucestershire. The ringer of the seventh was Mr. W. T. Cox. The last time the conductor met Mr. Cox was 39 years ago at the latter's farewell peal at S. Nicolas', Guildford.

Mr. Wilfred Matthews has completed 50 years' service as a bellringer at St. Michael and All Angels', Macclesfield. As a mark of esteem he was presented with an inscribed pewter tea service by the Vicar (the Rev. C. H. Pethybridge) at a social evening attended by ringers from the Parish Church and also those of Christ Church, St. Peter's and St. James'.

The peal of Stedman Cinques at Croydon on October 9th was a compliment to the local tower captain on the sixth anniversary of his wedding. Mr. and Mrs. Cooper entertained the band after the peal. Since the 12 bells have been installed at Croydon there have been 13 peal attempts, all of which have been successful. Mr. Cooper has rung in 12 of them, and by ringing the 3rd on October 9th he completed the circle.

Mr. John Goodman has rung his 120th peal on the bells of St. Thomas', Dudley.

Miss Ruth How, daughter of the Bishop of Glasgow and Galloway, has rung her first quarter on tower bells.

Mr. Sydney Flint, of the Norwich Diocesan Association, rang his 100th peal at Kenninghall, Norfolk, on Oct. 9th.

A former member of St. Peter Mancroft company, Mr. Charles E. Lovett, on holiday from Jersey, rang a peal in his old tower on Oct. 5th.

The bells of Portsmouth Cathedral will be broadcast for the Armistice service on the evening of Sunday, November 7th, in the Home Service.

Sixty peals have been rung on the bells of Wistaston, Cheshire, and Mr. A. Crawley has rung in them all. A peal was rung here on October 2nd, which made the 120th tower in which Mr. Edward V. Rodenhurst has rung a peal.

On October 10th, Mr. F. Freestone, towerkeeper of St. Andrew's, Hornchurch, Essex, celebrated the 52nd anniversary of his wedding. No great peal ringer, Fred is one of those stalwarts who can be found week after week taking his place on the tenor box. In honour of the occasion a quarter-peal of Grandsire Triples was rung by S. Meadows 1, A. W. Beard 2, J. Carrott 3, D. W. Beard 4, G. W. Faulkner 5, C. E. Wright 6, F. V. Gant (cond.) 7, F. Freestone 8.

Yorkshire Association

The September meeting of the Association took place in most favourable weather at Scarborough on September 18th, attended by upwards of 160 members and friends. The bells were going early to touches in a variety of methods. Many attended the service, conducted by the Vicar (the Rev. F. E. Ford), where during the singing of the 150th Psalm a course of Grandsire Triples was rung on handbells from the chancel by S. Steel 1-2, P. J. Johnson 3-4, L. W. G. Morris 5-6, J. Ambler 7-8. An Association photograph was taken outside the church immediately afterwards.

An excellent tea, kindly provided free by the local company, was served in St. Paul's Mission Church Room, followed by the general meeting on the same premises, where the chair was taken by the president (the Rev. C. O. Ellison), supported by the general secretary (Mr. L. W. G. Morris), and the hon. treasurer (Mr. S. F. Palmer). Apologies for absence were read from the hon. peal secretary (Mr. W. Barton), Messrs. A. H. Fox, W. H. Senior, J. J. L. Gilbert and A. E. Sellars.

A hearty vote of thanks to the Vicar and churchwardens was moved by Mr. P. J. Johnson, seconded by Mr. F. W. Dale and carried unanimously. Mr. Rowley, churchwarden, replied. A similar vote of thanks to the local company and all concerned in making the excellent arrangements was moved by Mr. S. F. Palmer, who explained that he was spending a short holiday at Scarborough and had called round the previous evening to see how matters were going, and was astonished at the zeal with which preparations were being made, and felt compelled to take part. He felt that the Association's very best thanks were due to the local company, and to Mr. Bert Sutton in particular. This was seconded by Mr. G. Horner, supported by the president and carried with applause. Mr. Sutton, in reply, thanked the speakers for their most kind remarks.

The President announced that the committee had decided to recommend that the next meeting be held at Pontefract on January 22nd, if suitable arrangements could be made.

The general secretary reported on the arrangements he had made in connection with the Snowdon Dinner, pointing out that even at the charge of 8s. 6d. per head he anticipated a slight loss. He had acquired the services of a quartette from Bradford Cathedral choir and also a professional entertainer and illusionist. The meeting agreed to stand any financial loss in connection with the dinner.

The President reported that the committee had considered an application from Hutton Cranswick for assistance from the Bell Repair Fund in connection with the recasting of the bells there, and had voted the sum of £5. D. Thorley and C. Leach, of Thorne, were elected members.

The President stated that the committee had considered the forthcoming Central Council meeting at York, and recommended that they should be given a free hand in connection with the financial aspect. Mr. P. J. Johnson moved and Mr. J. W. Moxon seconded that the committee's recommendation be endorsed, and this was carried. This concluded the business, after which an adjournment was made to the tower.

HALIFAX AND DISTRICT ASSOCIATION

The quarterly meeting and six-bell contest was held at Brighouse on October 2nd. Six teams entered and the result was as follows:—

No. 1 Coy.	Shelley	105 faults
No. 2 Coy.	Huddersfield	91 faults
No. 3 Coy.	Cawthorne	45 faults
No. 4 Coy.	Friezland	35 faults
No. 5 Coy.	Thornhill	113 faults, rang out
No. 6 Coy.	Meltham	51 faults, aband'd

No. 4 Company, Friezland, were declared winners of the Association's silver cup. This team now holds both the Barnsley and District Shield and Halifax Association Cup.

St. Martin's Guild

VALUABLE GIFT TO BIRMINGHAM CATHEDRAL.

Edgbaston Parish Church, within three miles of the city centre, yet so pleasantly situated that one could easily imagine it was many miles away, was the venue for the autumn quarterly meeting of the St. Martin's Guild on October 2nd.

The Guild's form of service was conducted by the Vicar, Canon Stuart Blofeld, R.D., and the side chapel was well filled with ringers and friends. The Vicar, in his address, welcomed the members to Edgbaston, as he had on many occasions enjoyed their happy company, especially at the Henry Johnson Dinner. He had been at Edgbaston for 25 years and as he passed by the belfry as they were ringing for service (the belfry is situated on the ground floor) he had caught the eye of the ringers and seen the anxious look on some of their faces. He had sometimes wondered what was the real effect the ringing of the bells had upon them. Was it a case of ringing a good touch and then forgetting the object of the ringing? It was a matter of regret to him that so few found it possible to attend the services for which they rang. He was happy to see Harry Withers present and also Sidney Freemantle, who had now completed 40 years as their church beadle and who was a good bellringer.

A party of about 50, which included the Vicar, churchwardens and organist, sat down to tea at the invitation of the Church Council. After tea Mr. F. E. Haynes, in proposing a vote of thanks to the Vicar.

At the business meeting which followed, the Master, Councillor Paddon Smith, J.P., occupied the chair. Apologies were announced from Messrs. Edgar Shepherd and A. H. Fitter. The following new members were elected: Llewellyn Lloyd (South Yardley), John F. Butler (Northfield), Albert T. Scrivens (Alum Rock, Birmingham), and as a life member Mr. T. Townsend (Netherton). The following tower ratifications were also confirmed: A. G. Wells and W. A. T. Carter (Swindon), John Anderson (Newcastle-on-Tyne), E. Speake and A. V. Pearson (Wolverhampton), F. H. Hicks (Hailsham), Miss M. L. Tutt and F. A. H. Wilkins (Oxford), Mrs. J. E. Davis (Balham), T. G. Fox (London), C. J. Matthews and Mrs. C. J. Matthews (Southfields, S.W.), J. Phillips (Camberwell), Mrs. R. F. Deal (London), all as life members.

It was agreed to hold the next quarterly meeting, which is also the annual, at headquarters, the Tamworth Arms, on Saturday, January 1st, and the Henry Johnson Commemoration Dinner on March 5th. Among the visitors were Mr. Frederick E. Dukes, of Dundalk, Ireland, to whom the Master gave a very hearty welcome.

The Master also announced a generous gift to the Cathedral Church of St. Philip made by a highly respected member of the Guild, Mr. Frank B. Yates, of two new trebles to the existing ten, making them into a ring of twelve. He was sure every member of the Guild would be pleased to know that Birmingham would then be in the unique position of possessing three modern rings of 12, one from each of the three well-known bell foundries. He had much pleasure in proposing that the best thanks of the Guild be accorded Mr. Frank B. Yates for his most generous gift. This was supported by Mr. G. E. Fearn and Mr. Albert Walker and carried unanimously.

Mr. Walker said he had recently visited Mr. Tom Miller, who was now an inmate of St. Joseph's Home at Harborne. He was now in his 91st year and could get about nicely with the aid of two sticks and often gets out for a walk. He was the same old Tom Miller, alert, and full of his original anecdotes, and he thought that could he get into a tower or get a pair of handbells he would still ring them in his old style. He sent his best wishes to his old friends, and Mr. Walker suggested that if any member could spare the time he was sure they would enjoy a visit to Mr. Miller.

Lancashire Association

PRESENTATION TO MR. G. R. NEWTON.

At their monthly meeting held at Halewood on October 9th, the Liverpool Branch paid a well-deserved tribute to Mr. G. R. Newton, who recently retired from the post of branch secretary, a position which he had held for nearly ten years. The tribute took the tangible form of a week-end case and umbrella, to which members of the branch had subscribed.

The presentation was made by one of the younger members, Miss Julie Preston, who in a very neat and charming speech recalled the valuable work which Mr. Newton had done for ringing in general and for the Liverpool Branch in particular over a long period of years and echoed the feelings of all present when she spoke of the high regard in which G. R. N. was held by all who knew him. It was indeed a delightful speech which charmed all her hearers.

In acknowledging the gift, Mr. Newton confessed that, for once, he found himself short of words. The presentation had been kept a carefully guarded secret and he had no inkling of what was afoot. It was a matter of extreme regret to all present that Mrs. Newton was unable to be there as she had been taken ill the day previously, and the hope was expressed on all sides that she would make a speedy recovery.

WEDDING OF MISS BESSIE BOOTH

A very pretty wedding took place at Standish Parish Church on October 9th between Mr. Eustace Chamberlain and Miss Bessie Booth, both of Standish. The bride, her father, John Booth, and the bridegroom are ringers at this church, but the bride and her father are remembered by many for their tune ringing on handbells, both on the 'air' and at social events.

The Rector, Canon Mellor, officiated, and was assisted by Dr. Jackson, of Dorset, a former curate, and the service was choral.

The high esteem in which they are held was shown by the large attendance at the service; the church was full and there was a full complement of the choir. The bells were rung before and after the service by the local band, followed by a 504 Stedman Triples by visitors, and after the reception a peal of Double Norwich Court Bob Major was successfully brought round by a representative band from Manchester, Standish, Adlington, Chorley, Bolton, Westhoughton, Blackburn and Hale.

'Good wishes' messages were received from all parts of Lancashire.

Well over a hundred guests partook of tea at Ashfield Hall for the reception, after which the happy couple left for Keswick for their honeymoon.

Canon Mellor, in a toast, related the story of the organ and the bells. When the former was approached to play for the wedding it replied, 'I'm "blowed" if I will,' but the bells replied, 'We always do as we are "tolled."'

P. C.

YORKSHIRE ASSOCIATION

EASTERN DISTRICT AT HULL.

The autumn meeting of the Eastern District was held at Holy Trinity Church, Hull, on October 2nd, when, as the bells could not be rung before tea, the business meeting was held at 2.30, followed by the service at 3.15 and tea at 4 o'clock. This accounted for the rather small attendance during the afternoon, but about 50 were present in the tower during the evening.

Seven new members were elected, viz., Miss M. Milligan and Messrs. J. Wall, S. Hird, W. Graves, J. Armes, P. Henri and J. Proctor. Miss Sidgeley was thanked for her hard work in arranging the meeting at short notice, and, in reply, she welcomed the Association to Holy Trinity for the first meeting there for nearly 30 years. Good use was made of the bells, recently overhauled by J. Taylor and Co.

OBITUARY OF THE WEEK

MR. T. W. LAST.

The death took place at his home, the Brick Kiln, Helmingham, Suffolk, of Mr. Thomas William Last.

Born at Helmingham on April 8th, 1879, he commenced to ring at an early age at Framsden under that brilliant conductor, Mr. George Wightman. Since 1900 he had been a regular service ringer and a chorister at Helmingham. A man of kind heart, always agreeable and of an unselfish nature, it will be remembered that when St. Mary's company were making history he readily agreed to share in the conducting of the various Surprise methods that were being rung.

A brickmaker by trade, he had all his life been engaged in hard work and was never slow in tackling a bad going bell. A handy man with carpenter's tools, he well blacked out the belfry so that practices could be held to keep the band together. He was also very neat with his pen and made a record of the 46 Surprise methods that were rung in his own handwriting. It is hoped that this framed record will permanently remain in the belfry beside the 7th that he loved so well.

Bill was always content to ring round the back end: this may be shown by the fact that he hadn't circled his own tower. Never any desire to ring above eight, although he had rung a few peals of Royal, he was always willing to go anywhere for any method. In all he had rung about 300 peals for the Norwich Association and Suffolk Guild. His record may perhaps be remembered in 'Leading Conductors,' 1938.

He leaves a widow, six daughters and one son. At the funeral on October 16th the Suffolk Guild was represented by Mr. C. E. Fisher, vice-president, and Mr. C. W. Pipe, secretary. Immediately after the service the bells were rung half-muffled by the local band.

A regular service ringer and loyal churchman, his place will be hard to fill. L.G.B.

MR. ALBERT LAWRENCE.

Mr. Albert Lawrence, captain of the Hatfield Parish Church ringers, past president of the Herts County Association and retired police sergeant, passed away on October 8th in hospital at Barnet. He was 64 years of age.

Mr. Lawrence had qualities of sincerity and dependability; he was a keen worker for the Church, always willing to help others. In fact, his 51 years of ringing were devoted mainly to introducing new blood into the Exercise and teaching them the art of change ringing. His pupils have said that his conduct in the belfry was of the highest order and that they have the privilege of benefiting from his sound methods of tuition, which included the attainment of good striking.

The funeral service took place at St. Ethelreda's Church on October 12th, and in addition to family mourners and many local people, Messrs. W. Ayre and G. W. Cartmel (Herts County Association), A. W. Coles and T. J. Lock (Middlesex County Association), W. Nash, G. Radley and F. Elliott, members of the local band and other ringers, Mr. H. Secker (representing Lord and Lady Salisbury and Lord Cranborne), the Deputy Chief Constable of Hertfordshire and officers of the Herts County Police were present.

Neither the tower bells nor handbells were rung at the funeral service by request, but in the evening at the Parish Church, 1,249 changes of Grandsire Caters were rung in 53 minutes by J. T. Kentisth (conductor) 1, W. Nash 2, A. W. Coles 3, A. White 4, Mrs. T. J. Lock 5, R. A. Cochrane 6, A. Cull 7, T. J. Lock 8, A. R. Lawrence 9, L. Cull 10, in memory of a late colleague.

WANTAGE, BERKS. — On Oct. 2nd, 1,260 Grandsire Triples: A. E. Fullbrook 1, C. P. Day 2, C. P. Lester (first quarter) 3, G. Bishop 4, J. Gordon (first as cond.) 5, H. White 6, R. B. Blond 7, W. Seymour 8.

MR. S. BLATCH.

His many friends will learn with regret of the death of Mr. Sam Blatch, of North Weald, Essex, aged 75. The first Master of the local Guild, he was a very popular leader.

Muffled Grandsire Doubles (his favourite method) were rung at the funeral, which took place at North Weald on October 5th. F.V.G.

MR. ALDOUS ELSEY.

The death took place at the Norfolk and Norwich Hospital on September 29th of Mr. Aldous Elsey, at the age of 58 years. His home was at Winfarthing, Norfolk, where he was captain of the local ringers. He was also attached to St. Mary's, Diss.

Mr. Elsey had taken part in two peals for the Norwich Association, but a serious illness about 20 years ago had debarred him from further peal ringing. By his charming disposition he was loved by all who met him.

The funeral took place at Winfarthing Church on October 2nd. Besides the local ringers, Mr. Clement J. More, Ringing Master at Diss, was present. A.G.H.

MR. LEONARD LEWIS.

By the passing of Mr. Leonard Lewis on Oct. 13th, Goring-by-Sea, Sussex, has lost a valuable ringer. He was 60 years of age. Mr. Lewis was born in Radnorshire, and gave up a business career to join the West Sussex Police in 1913. During the 1914-18 war he was sent to France with the Military Police, from which he was demobilised in 1919, and rejoined the West Sussex Police, and after a time was promoted Superintendent, the office of which he held for eight years in the Worthing Division. He also acted in the capacity of Deputy Chief Constable of West Sussex.

Mr. Lewis started ringing at the age of 12, and at 20 he became captain of the St. Peter's, Glasbury-on-Wye, ringers, with whom he rang a peal to mark his leaving the district to join the Police Force. Since his retirement from the police he had been a regular ringer at the Parish Church, Goring-by-Sea, and he often complimented the local band by saying 'That was good tapping!'

The funeral took place at Durrington Cemetery on October 16th and was attended by a large congregation, consisting of officials of the Town Council, West Sussex Police Force and friends. Mr. Lewis leaves a widow; his only child, a daughter, died four years ago. S.F.H.

BATH AND WELLS ASSOCIATION

CHEW DEANERY TO HOLD CORPORATE COMMUNIONS.

Meeting at Portishead on October 9th, the Chew Branch, following the example of ringers in the Frome area, decided to institute a quarterly corporate Communion with a communal breakfast in various parishes throughout the deanery. If sufficient support is forthcoming, the gatherings will be held at more frequent intervals, but it was resolved to inaugurate the series by attending the 8 a.m. parochial Mass at All Saints', Wrington, on October 31st. Breakfast will be reserved for those attending their names to Mr. H. W. Knight.

Other business transacted included the election of eight new ringing members from Portishead, Clapton and Nailsea, the decision to hold the annual meeting at Wrington on December 4th, with the November monthly practice at Clapton on the 20th.

The Association Office was conducted by the Vicar of Portishead, who gave an address.

FROME BRANCH.

Fifteen towers were represented at the quarterly meeting at Beckington. Grandsire and Stedman Triples, Plain Bob, Cambridge, Yorkshire and London Surprise Major were successfully brought round. The question of reviving the monthly practice was discussed at length and the matter was referred to the annual meeting next January.

LETTERS

CAMBRIDGE ROYAL AT WELLS CATHEDRAL

Dear Sir,—The weight of the back ten at Southwark Cathedral is 182 cwt. 2 qr. 14 lb., and the net weight of the tenor is 48 cwt. 9 lb. The total weight of the ten at Wells is supposed to be 181½ cwt. and the back ten at Redcliffe 176½ cwt. Going by total weights the Cambridge Royal at Southwark is the heaviest, but I think everyone will agree that a peal of Royal at Wells Cathedral is a bigger performance than at Southwark.—Yours faithfully,

A. A. HUGHES.

34, Whitechapel Road, London, E.1.

BELLS RINGING THE RINGERS

Dear Sir,—I was interested in the letter of Mr. Clift re weights of peals rung to Surprise Royal. As the collective weight of Southwark is 198 cwt. 2 qr. 7 lb., this still appears to hold the field! There is another aspect of judging performances on heavy bells, however, which is seldom mentioned, and that is the question of time.

There is no disgrace, of course, in ringing peals in slow time, but it makes all the difference in performance. Most of us know rings of bells of between 20 and 30 cwt., which requires smart work to ring a peal of Major in 3 hours or so, but become anybody's bells at 3.15 and upwards. For instance, the peals of Superlative and Cambridge Major on back eights of Cornhill and Southwark, 41 and 50 cwt., respectively, were both 3 hours and 44 minutes, and the peal of London on back eight of Bow, tenor 53 cwt., was 4 hours, all smart performances. I never heard either of them, but would be quite satisfied as to their integrity from composition of bands.

When I see reports of various people who are continually ringing tenors, and always in slow time, I get the impression that the bells are ringing the ringers, and not vice versa. I again emphasise there is no fault to be found with a slow, well-struck peal, but it certainly counts when the value of heavy bell performances is in question.

MAURICE F. R. HIBBERT.

OUTINGS

S.S. PHILIP & JACOB'S GUILD, BRISTOL.

The green hills of Somerset were the objective of the SS. Philip and Jacob's Guild, Bristol, for the outing on September 25th.

A start was made at 1.30 p.m. for Wells. Arriving, the Cathedral bells were raised and were soon going to Stedman Caters, followed by Cambridge Royal, with R. C. Seager making a good job of turning in the 57¾ cwt. tenor.

The party then proceeded to Ditcheat for tea at the Manor House Inn, and after an excellent repast entertained the host and his staff with some tunes and Treble Bob Royal on handbells. This no doubt benefited the digestion generally, especially in the case of the gentleman who had taken plum jam to his meat in mistake for chutney.

Some good ringing followed on the lovely Ditcheat bells to the tune of Bristol, Cambridge and Yorkshire Surprise Major. The last call was Chewton Mendip, with its splendid tower and bells, where a pleasant hour or so was spent.

By this time muscles were tired and a few throats were a trifle dry, so the next destination was obvious. Refreshed, the party then proceeded homeward, reaching Bristol at 10 p.m. E. J. B.

TO THE ISLE OF WIGHT.

Arranged by Miss Rosemary Brading (Godalming), 22 ringers from Grayshott, Haslemere, Godalming, Liss, Seale, Aldershot and Farnham had an outing to the Isle of Wight on October 2nd. Ringing was enjoyed at Newport, Carisbrooke, Godshill, Brading and All Saints', Ryde. Mr. C. W. Denyer supervised the ringing.

Kent County Association

TONBRIDGE DISTRICT.

The annual meeting of the Tonbridge District was held at Tonbridge on October 2nd. Ringers present numbered fifty and a number of lively touches were rung during the afternoon and evening, including one touch of Reversed Grandsire Triples. The service at 4.45 was conducted by the Vicar (the Rev. Russell B. White), who is an honorary member of the Association.

Tea followed at the Oak Tea Rooms and was succeeded in due course by the business meeting, at which the Vicar presided. Mr. E. Ladd was re-elected a district representative, but Mr. B. Collison did not wish to stand again and accordingly Miss D. Colgate, of Sevenoaks, was elected a district representative in his place. Mr. B. W. Pankhurst and Mr. R. A. Whitehead, the retiring Ringing Master and secretary respectively, were also re-elected. New members elected were Miss B. Tomlin, of Tonbridge, and Messrs. G. Baker, S. Cole, A. Wellington, D. Cole, B. Cole, B. Brown, G. Payne and K. Hohl, of Tunbridge Wells.

TRURO DIOCESAN GUILD

FIRST SURPRISE AT PENZANCE BRANCH.

Seventy-five members attended the Penzance Branch meeting at Carbis Bay on October 9th, including Miss E. Symons (president), Mr. W. H. Southeard (Ringing Master), the Rev. W. H. R. Trewhella (general secretary) and Col. C. F. Jerram. A welcome visitor was the Rev. D. P. Roberts, of Liverpool.

The service was conducted by the Rev. A. S. Roberts, who in his address sounded two notes, first, thanksgiving for all that had gone before to make the occasion possible, and referring to the facts that 51 years ago on the day before the Guild had been founded, and two years ago that day the eight bells in the tower were dedicated. Secondly, the note of urgency because of the great influence they, as a small minority, could have over a large number of people who knew nothing of the intricacy of the art.

All present were the guests of the Church Council for tea, and at the business meeting it was reported that the Dr. Symons' Memorial Bell Fund had reached £101. An invitation to hold the spring meeting at Manaccan and St. Anthony was accepted.

Ringing took place on the eight at Carbis Bay and the six at Lelant, and included rounds and the standard methods, and for the first time at such a gathering a course of Cambridge Surprise Minor by the Rev. D. P. Roberts 1, W. H. Southeard 2, Mrs. A. S. Roberts 3, Miss J. E. Withey 4, Rev. A. S. Roberts 5, H. Miles 6.

MEETING AT ST. VERYAN.

The presence of the president (Miss E. Symons), Mr. W. H Southeard (Ringing Master), the Rev. C. K. Peeke (treasurer), two branch secretaries and about 56 ringers at St. Veryan on October 2nd was very encouraging to mark the 50th anniversary of the first meeting of the Guild.

The service was taken by the Vicar (the Rev. E. C. Alston). The address was given by the Rev. C. K. Peeke (Vicar of St. Paul's, Truro), who said that 'peal ringing should not be rung for pleasure any more than playing ping-pong or billiards on the altar table, as the bells were just as sacred as the altar.'

The president thanked the Vicar and his helpers for making it a successful event and ringing ended at about 8.30.

NORWICH DIOCESAN ASSOCIATION

SOUTH NORFOLK BRANCH.

Mundford was visited for the first time on October 2nd and 40 ringers attended. At the business meeting the Rector (the Rev. H. D. F. Rokeby), Mr. A. Smith and Mr. B. Westwood (organist) were elected honorary members. The next meeting is to be held at Forncett on November 13th.

First Quarter for 50 Years

Early in October, 1888, Mr. Maurice W. Watts joined the choir at Wadhurst (Sussex) Parish Church. Four years later he learnt to handle a bell and soon became proficient in Bob Doubles and Minor and Grandsire Doubles and rang in several quarter-peals, but after about six years the band declined to call changes and Mr. Watts had little chance to practise method ringing. When it was revived in 1943 Mr. Watts proved to be a very useful asset to the tower.

In the choir Mr. Watts became tenor soloist and remains so to date. He has been on the Church Council since 1918 and people's warden since 1940. On Sunday, October 3rd, Mr. Watts was allowed to choose all the music for both services, taking the tenor solo himself, and before evening he rang the treble with effortless ease to a quarter-peal of Bob Doubles in his honour despite the fact that after an internal operation some years ago his doctor forbade him to ring, but Mr. Watts just carried on. On October 4th he entertained the choir and ringers to supper and a musical evening.

The details of the quarter-peal are: 1,260 Bob Doubles: M. W. Watts (first quarter for 50 years) 1, C. Pilbeam (first 'inside') 2, L. W. Giles 3, Miss M. Pilbeam 4, C. A. Bassett (cond.) 5, J. T. Newick 6.

IRISH ASSOCIATION

NORTHERN DISTRICT.

The annual meeting of the above district was held in Londonderry on October 9th and was attended by members from Londonderry, Holywood, Belfast and Hillsborough. The chair was taken by Mr. W. Pratt, president, Irish Association, in the unavoidable absence of the Dean of Londonderry. The election of office bearers resulted as follows: Vice-president for the district, the Rev. E. S. Barber (Holywood); chairman, Mr. H. Brown (Holywood); hon. secretary, Mr. John T. Dunwoody (Holywood); hon. assistant secretary, Mr. J. J. Fielding (Londonderry); hon. treasurer, Mr. T. Dunwoody (Holywood); Ringing Master, Mr. Brown.

Tribute was paid to Mr. W. Webb, the retiring hon. secretary, who had seen the Association through the recent difficult years and had helped to bring it up to its present high standard.

Full use was made of the fine ring of ten at St. Columb's Cathedral, and touches of Grandsire, Stedman and Plain Bob were rung. It is most encouraging to see the revival of change ringing in Londonderry, and this has been due to the splendid tuition of Mr. T. Hampton, of St. Martin's, Birmingham, who is stationed near the city.

GLASGOW CATHEDRAL'S LOSS

Mr. W. H. Pickett, who has been captain of St Mary's Cathedral, Glasgow, Society of Change Ringers for the past 17 years, has resigned his office as he is shortly removing to Edinburgh.

At a special meeting of the Society on Oct. 5th he thanked the band (six of whom are still regular ringers) for their support during his term as captain. The Provost spoke in glowing terms of Mr. Pickett's qualities, both as a leader and as an active churchman and hoped he would carry on his good work elsewhere.

Mr. T. C. Winderam was unanimously elected his successor.

ESSEX ASSOCIATION

SOUTH-WEST DIVISION.

About fifty members took advantage of the brilliant weather on October 2nd to combine a walk along Southend's pier with a touch on Taylor's new ring at Thorpe Bay.

The service was taken by the Vicar, and elaborate arrangements for entertainment had been made by the local band. Ringing took place in the evening at Prittlewell. The annual meeting was fixed for January 8th at Barking.

Ladies' Guild

WEST MIDLANDS DISTRICT.

This district made a good start by their first meeting at All Saints' Church, Grendon (6 bells), on October 2nd. There was a good attendance of both lady and gentlemen ringers, and a number of Doubles and Minor methods and also call changes were rung.

The Rev. A. C. Crawley-Boevey, Rector, conducted a short service and gave an interesting talk on the history and relics of his church instead of the usual address.

Tea was held in the drawing room of the Rectory, thanks to the kindness of the Rector and Mrs. Crawley-Boevey. The enjoyable tea was provided by the local ringing master and the generosity of other ringers.

The officers elected at the business meeting were: Vice-president, Mrs. D. E. Beamish; district secretary, Miss June M. Griffiths; District Committee, Miss Lola M. Callow, Miss Margaret Beamish, Miss Margaret D. Reaves, Mrs. P. Billington; General Committee representatives, Miss Audrey A. Timms, Miss Margaret Beamish.

Eighteen new members were enrolled, together with six members transferred from the Midland District, making a total of 24 members for the district. Three honorary members were elected, Mrs. A. Roberts (Stoke, Coventry), Mrs. J. White (Allesley, Coventry) and Mrs. Crawley-Boevey (Grendon).

It was decided to hold meetings quarterly in June, September, December and March, on the first Saturday of the month, the annual meeting being held in June. Nuneaton was proposed for the place of the December meeting, and it is hoped that any ladies wishing to join will come along to this meeting.

MEETING AT NORTH MIMMS.

A most successful and enjoyable meeting was held at North Mimms on September 25th, when about 25 members and friends attended from a wide area. Ringing during the afternoon and evening ranged from Grandsire Doubles to Bristol Surprise Major.

In the absence of the Rector, a short service was conducted by the Rev. Barrow, Mrs. Lock accompanying on the organ. After tea a short meeting was held, at which three new members were elected. It was decided to hold the next meeting in November at St. Augustine's, Kilburn, subject to permission being obtained. The business concluded with votes of thanks to the Rev. Barrow and to Mrs. Lock for making all the arrangements.

SALISBURY DIOCESAN GUILD

DEVIZES BRANCH.

A quarterly meeting of the branch was held on October 2nd at St. James', Devizes, attended by 36 members, with visitors from St. Thomas', Salisbury, High Wycombe, Guildford and Yatesbury.

The service was conducted by the Vicar (the Rev. C. A. Witcomb), with Miss Willis at the organ. Tea was served in the Community Centre, followed by the meeting, presided over by Mr. A. T. Weeks (vice-chairman), who spoke about the death of the Rev. Joyce Watson, Vicar of Upavon, and the members stood in silence. Votes of thanks were accorded to the Vicar, organist, and the ladies for the tea. The branch handbells were rung afterwards. Ringing during the afternoon and evening at all three churches ranged from rounds to Bob Major.

SUFFOLK GUILD

Fourteen towers were represented at the meeting at Cavendish on October 9th. The bells of Pentlow were also in good demand during the afternoon. Sudbury was fixed for next meeting, when it is hoped that the tenor at All Saints' would be rehung.

A district outing was proposed for early summer, 1949, requests being made for likely travellers. A good variety of methods was rung up to Cambridge and there were call changes for beginners.

LEICESTER DIOCESAN GUILD

THIS week it is the turn of the Leicester Diocesan Guild. Featured in this issue is the report of the second annual festival of this Guild, a particularly happy family gathering of about 150 ringers and their wives. It is this family spirit that we are anxious to foster in every Guild. While Leicester has only been a separate entity since January, 1946, it has known organised ringing for many years, as from 1882 it was part of the Midland Counties Association.

The President (Mr. Harold Poole) recounts in the report just published the method of formation—a circular letter to the incumbent of each church in the diocese with a ring of bells, followed by the meeting at Leicester attended by the Bishop. The Guild was thus formed on a solid foundation and is regarded by the diocesan authorities as an organisation belonging to the diocese. 'Our first and foremost duty,' states the President, 'is the ringing of bells properly for services.'

When the Midland Counties Association was disbanded and three new bodies formed, progress was anticipated. In the case of Leicester, this has been fulfilled. The 575 members who were transferred from the old Association increased month by month until, at the end of the first two years covered by the report, the membership totalled 823 and the number of towers represented increased by 94. Monthly meetings are held in each of the six districts, and the ground has been well covered in a manner not possible under the old Association. Many towers have had their first visit from a ringing association. The result is to be seen in the membership list and is the answer to the question, 'Was it worth while?'

Financially, the Leicester Guild is sound. Not only is there a balance of £72 on the general fund, but the Bell Repair Fund has already amassed a balance of £158. Of this £102 was forthcoming from the first Guild Festival to mark the beginning of a week of celebrations to commemorate the coming-of-age of the diocese. The success of that function, which concluded with a dance attended by 1,200 people, was at the time reported in our columns.

Leicester has always held an honoured position in the realm of peal ringing. By the end of the second year 218 peals had been scored. Of this number 14 are peals of Maximus and three of Cinques. While in the corresponding period the St. Martin's Guild for the Diocese of Birmingham rang 25 twelve-bell peals, Leicester rightly claims a more varied selection with Maximus performances in Cambridge, Yorkshire, New Cambridge, Superlative, Pudsey and York. This Guild is also wisely looking to the future. Youth predominates among ringers in many towers, and the methods of instruction employed have brought a steady flow of young people to the front in work in more advanced methods. While the Guild enjoys the inspired leadership of the President, the material in reserve is such that the Exercise can look to this Midland diocese not only to cast bells which are included in the finest examples of the craft, but men and women to ring these bells with ears attuned to the rhythm of perfect striking.

BELFRY GOSSIP

The chronological list of British bellfounders, compiled by Ernest Morris, of Leicester, and first published some years ago in 'Topographical Magazine,' is being reprinted and will appear in Hinricksen's 'Musical Year Book' (Vol. VI., 1949). This most comprehensive research contains the names of practically every known bellfounder of this country from earliest times to the present, with their resident places and period their work covered.

The peal at St. John's, Farnworth, Lancs, is stated to be the first peal on the bells for 25 years.

Peals at Cirencester and St. Margaret's, Westminster, were rung in honour of the silver wedding of Mr. and Mrs. R. F. Deal.

Mrs. Sylvia R. E. Pipe and Mr. G. A. Fleming have rung peals of Court Bob on 6, 8. 10 and 12 bells.

Two more Birmingham ringers have scored 50 peals this year—John Pinfold and Henry H. Fearn.

Errata.—The ringer of the 2nd in the peal of Kent Treble Bob Minor at Wistaston, Cheshire, on Sept. 29th was Richard T. Holding.

Regarding the quarter-peal of Doubles at Yatesbury, Wilts, on Oct. 5th, there were only five ringers and not six as printed last week. Mr. J. Roberts called the quarter from the third.

The peal of Minor at Ash, Somerset, on Oct. 2nd, was rung to the memory of the Rev. E. S. Powell and not the Rev. E. A. Powell as was inadvertently published last week.

The peal of London Surprise Minor at North Bradley, Wilts, is believed to be the first in the Salisbury Guild by a resident band. It was only accomplished after very hard work and several failures. The band previously scored Cambridge and they are now going for another method.

The peal of Plain Bob Major rung at Boreham on October 9th was a 70th birthday compliment to William Allen. Fifty-two years ago Mr. Allen first learned to handle a bell at St. Andrew's, Boreham, and has been a regular attendant for service and practice ringing ever since. His first peal was rung in this tower in 1903, being conducted by Arthur Edwards, grandfather of Arthur Edwards, who on this occasion made his debut as conductor.

Mr. Ralph G. Edwards has 'completed the circle' at Frodsham tower.

Congratulations to Mr. K. Measures, of Burbage, hon. secretary of the Hinckley District, on his 100th peal.

The peal at Kibworth of Superlative Surprise Major was arranged for Mr. Bert Sutton, of Scarborough, who attended the Leicester Diocesan Festival.

W.Bro. John Willis (P.M. Ailwyn Lodge No. 3535 and P.P.G.W. Northants and Hunts), of Folkestone, is to be installed as Worshipful Master of the Shorncliffe Lodge (No. 4330) next Monday. He has the good wishes of ringers in the craft for a happy year of office.

A cordial welcome to Slough has been extended to Mr. Tom Groombridge, sen. He participated in a quarter of Grandsire Triples on October 3rd with Mr. F. V. Sinkins, who is also an octogenarian, and Messrs. E. H. Preston and W. E. Judd, who are on the wrong side of 70. It was called by Mr. W. Birmingham.

Fourteen-year-old Mary Jaycock, of Burnham, Bucks, rang her 25th peal in her own tower on October 9th. Her peals, all on tower bells and all rung 'inside' except one on the treble to Minor, are: Oxford Treble Bob Major 3, Kent Treble Bob Major 2, Bob Major 5, Stedman Triples 1, Oxford Bob Triples 1, Grandsire Triples 4, Bob Triples 1; Minor, seven methods 5, six methods 2, four methods 1; total 25.

THE LEICESTER GUILD FESTIVAL

BELLS THE CHALLENGE TO MATERIALISM ..... RINGERS IN EVERY TOWER WITH BELLS IS THE PRESIDENT'S OBJECTIVE ..... INCREASE OF 431 PEALS IN THE FIRST EIGHT MONTHS OF 1948 OVER CORRESPONDING PERIOD IN 1947

THE Leicester Diocesan Guild Festival is likely to have a permanent place in the Ringers' Calendar. The Second Festival, held at the Lancaster Hall, Leicester, on October 16th, was highly successful and more intimate than its forerunner. Mr. Harold J. Poole (the president) was a genial chairman and was supported by Mrs. Poole and a company of 140. A feature of the decorations was a massive bell, the work of Mr. C. F. H. Knight. Miss Jill Poole was again the hon. secretary. There was ringing in the afternoon and the dinner was followed by a concert and a dance.

Supporting the president were the Revs. F. W. Pratt (Birstall), E. E. Jones (Belgrave), R. J. Fielder (St. Mark's, Leicester), A. M. Dutton (St. John the Divine, Leicester), Mr. and Mrs. E. C. Turner, Mr. and Mrs. A. E. Rowley, Mr. and Mrs. W. A. Wood, Mr. and Mrs. A. Ballard, Mr. and Mrs. F. K. Measures, Mr. and Mrs. E. C. Gobey, Mr. and Mrs. E. F. Gobey (Ilkeston), Mr. and Mrs. S. Burton, Mr. and Mrs. S. O. Cheney, Mr. and Mrs. H. G. Wayne, Mr. and Mrs. G. S. Morris (Lyme Regis), Mr. and Mrs. J. F. Milner (Southwell), Mr. and Mrs. E. Buswell (Kilby), Mr. and Mrs. B. Sutton (Scarborough), Mr. and Mrs. H. G. Jenney, Mr. and Mrs. E. Vallance.

Messrs. P. L. Taylor, J. P. Fidler, C. Harrison and J. R. Smith (Loughborough), F. H. Dexter, Josiah Morris, J. Grant, J. S. Carter, K. Roe, F. Roe (Wigston Magna), T. Mark White, Harold A. May (Guildford), C. Banham (Attleborough), S. Harrison, G. Olliffe, J. Bramley, J. Bennett, A. Cattell, P. J. Staniforth, M. Staniforth, R. F. Elkington, A. Disney, H. Poyner, B. Warwick, G. Manning, H. Bowley, L. Lovett (Sileby), F. R. Lowe (Derby) G. Rigby, D. R. Carlisle (Sandiacre), P. Palmer, C. Walker, F. Cheney, H. Cook, W. Root, E. Geary, V. Geary, W. Geary, C. A. Catlin, F. Mellor, K. R. Holtom (Rugby), F. R. Deacon, H. Cook, H. Parker (Northwich) and T. W. White.

Mrs. D. Staniforth, the Misses Jill Poole, F. A. Poole, N. Humberstone, Jean Ward, E. Faulknall, I. Rowley, W. Price, D. Udale, B. Morris.

The Rev. F. W. Pratt, Vicar of Birstall, proposed the toast of 'The Leicester Diocesan Guild.' Not being a ringer, he said, he could look at them from the outside and say what he could not say about them if he was one of them.

A week last Tuesday at Birstall they had a wonderful service—the dedication of three new bells, thus completing their great desire to place in their tower a ring of eight, and it was really due to the president of the Leicester Guild that there were eight bells. 'He happened to be in the church one day,' said the Rev. Pratt, 'when I told him of our scheme. He said, 'Don't stop at six bells; go for eight.'' In a month we had another two. I am also in charge of another church in which I would like to see another three to make it a ring of six.

'My first introduction to ringing was with Joe Morris when I was a curate at St. Margaret's, Leicester. From there I went to that Mecca of ringers—Loughborough—although I had not the muscular or mental power for ringing.

'THE VOICE OF THE CHURCH.'

'Why are we prepared to think hard and work hard and raise money for bells? I think it is in order that the towers of our churches may mean something more than they did. Let me put it this way. Since we started ringing eight the village has been divided. Some say, "Good old Vicar—he has got the money for the bells," and others say something else (laughter). What reaches out to tell people, whether they are in bed or not, that the church is in their midst? They know what the bells stand for. They are the voice of the church saying, "I am here, and even if you have little use for me, if you meet with circumstances where you need the ministry of the Church, we are here to give it." I feel that the bells are one of the most powerful influences against the materialism of the age.

'I look on the ringers in every place as a potential power and the Church needs that power. And the Guild has one great purpose—to link up the parishes in the family of the diocese. There is far too much isolation in the Church, too much parochialism; their Guild made ringers feel they were members of the diocese.'

Mr. Harold J. Poole replied and spoke of their pride in the Guild, which was only in an infant stage as a separate entity, but they had the benefit of a great foundation which was laid by the Midland Counties Association and by those who worked so hard for that Association. It was more or less a transfer from the old association to this Guild of the territory which covers this diocese. They were endeavouring to make sure that in every church where there was a ring of bells it should be represented by a ringing band, and they were getting along very well with that work. It resulted in a tying up of the different parts of the diocese into one whole whereby they could go forward from strength to strength.

They commenced last year with their annual festival, which coincided with the 21st anniversary of the diocese. He expressed thanks to the district officers and the general officers for all the work they were doing in the linking up of ringers in various districts. It was important that everything should be done to see that the enthusiasm for the Guild was increased and so give to the name of Leicester the lustre they would like to see. They felt that the Guild had been put on a very firm foundation and they would watch its progress; they depended on the assistance of the youngsters, for without them they could not function.

The toast of 'The Visitors' was proposed by Mr. A. E. Rowley (treasurer of the Guild). He welcomed the Revs. R. J. Fielder (St. Mark's, Leicester), E. E. Jones (Belgrave), F. W. Pratt (Birstall), A. M. Dutton (St. John the Divine, Leicester). Among their ringing friends were Mr. Fred Milner, of Southwell Minster, Mr. George Morris (Lyme Regis), Mr. Haro'd May and Mr Mark White (Guildford). They were also pleased to see with them the ladies—to keep them in order.

The Rev. Fielder, in acknowledging the toast, said one of his best friends in the Diocese of Leicester was Mr. Ernest Morris. He happened to know that he rang a bell occasionally, but he knew him better as a verger of distinction. He and their president had both interested him in bells. His church (St. Mark's) had a beautiful ring of eight bells that had not been rung for the last 25 years.

'We are all very grateful for the privilege of coming and sharing in this festival organised by the Diocesan Guild. I should like to add my hope that the Guild will go on from strength to strength and that the objective that the president has—of bells in every tower in the diocese—will be achieved.'

NATIONALISED.

'The Ringing World' was honoured on the call of Mr. J. P. Fidler. For many years, he said, they had been talking about nationalisation of coal mines and referred to it as a rather expensive luxury, but nobody, as far as their Press was concerned, had referred to the nationalisation of 'The Ringing World.' It had been nationalised and it was owned by the ringers through the Central Council. 'The Ringing World' was bought from the executors of the founder, Mr. J. S. Goldsmith, and it was he who laid it on a firm foundation. Mr. White was carrying on to the best of his ability to produce what they wanted. 'The Ringing World' did bind ringers together in one big family.

Mr. T. W. White, in his reply mentioned the increase in paper that would permit of another 200 subscribers and urged those desirous of procuring copies to communicate with Mrs. Fletcher, the White House, Caister, without delay.

In the realm of peal ringing the news was equally encouraging. Last year a record number of peals was rung and this year up to the end of August there was an increase on the corresponding eight months of 431. Last November royal felicitations were conveyed to Princess Elizabeth in a remarkable fashion. There were more peals rung in honour of her wedding than for any other royal occasion. It was their sincere hope that next month there would be similar national rejoicings for the royal baby, and the ringers would have the privilege of expressing the gratitude of the nation in that essentially English way.

The speeches concluded with a touch of Stedman Caters rung by Jill Poole, H. J. Poole, G. S. Morris, E. Morris and J. Morris. A speciality of the Leicester Guild is 'the rise and fall' on handbells rung by H. J. Poole, Jill Poole, G. E. Morris, E. Morris and H. G. Wayne. The Beltonian handbell ringers were in great form under their leader, Mr. Sidney Harrison, and received a great reception. Others contributing to an excellent programme were Miss Jacqueline Jackson (songs), Mr. George Bromley (comedian) and Mr. W. Salt (monologue). Later there was a touch of Stedman Cinques by R. F. Elkington 1-2, Jill Poole 3-4, G. S. Morris 5-6, H. J. Poole 7-8, A. Ballard 9-10, and E. Morris 11-12. Mr. E. Charles Turner was an entertaining compere and the evening concluded with dancing.

OBITUARY

MR. T. STREETER.

A service ringer at St. James', Shere, Surrey, for over 30 years, Mr. Thomas Streeter died suddenly in hospital on October 18th. Mr. Streeter, who was 83 years of age, was well known and well liked in the village and was also a sidesman at the church. He had been ringing regularly until a fortnight before his death. The funeral was on October 22nd at Shere Parish Church.

MRS. BERTHA BRUCE.

Mrs. Bertha Bruce, president of the Southern District of the Ladies' Guild, died on October 16th at her home, Littleworth Common, Farnham. She was the widow of the Rev. J. C. G. Bruce, Rector of Worplesdon, and during his incumbency rang regularly in that church and encouraged ringing. The funeral was at St. Nicolas', Guildford, on October 19th. Among those present were Mr. G. L. Grover (hon. secretary, Guildford Diocesan Guild), Miss W. A. Oliver (Ladies' Guild) and Miss K. Avenell (Worplesdon).

TIVERTON, DEVON.—On Sept. 26th, 1,260 Grandsire Triples: W. Ware 1, L. May 2, P. Mayne 3, E. J. Taylor (first as cond.) 4, L. Parris 5, E. Richards 6, J. Upton 7, A. Kerslake 8. Also 1,260 Grandsire Triples on Oct. 3rd, conducted by L. Parris.

LETTERS TO THE EDITOR

The Canterbury District

MR. BOTTRILL'S METHOD OF INSTRUCTION.

Dear Sir, — May I please sum up on the replies to my letter of September 10th. First, Dr. Hatcher. Hush! I have 'green fingers.' Thanks for the tips on horticultural terminology. I may be an inefficient milestone inspector as well as a rotten gardener, but think, London Bridge to Deal, 78 miles. All in Kent. Three dioceses. A darned long way. I know because I often pushbiked it to see a golden-haired lady with whom I was and still am, after forty years, very much in love. Far too big for one association. I favour diocesan guilds. They are closer to the Church and generally more compact. My prejudice is strengthened by my knowledge of the Midland Counties Association experiment. Again, Deal to Faversham, 28 miles. Birchington to Dover a similar distance. Fifty-one towers. North never meets South or East West. None but the very enthusiastic will travel so far. Sufficient for a separate guild of two districts. With eight meetings a year it would take six years even if taken in rotation, which they are not, to visit each tower. The surest way to lose a tower is never to hold a meeting there. The smaller unit within limits does make for progress.

Mr. Gray's letter is very helpful and instructive. I have been trying to do something similar here for 18 months, but have met with apathy and hostility, hence my first letter.

Mr. Turner, a friend of mine whom I greatly respect, has done more than anyone I know for the Canterbury District. But 'Abuse' and hints of 'Reprisals.' It is not worthy of you. Unfortunately that is the very attitude to progress in the district I so much deplore. I know criticism hurts. It is intended to hurt. Old Rip Van Winkle is so fast asleep only a hefty kick will wake him. The criticism is nevertheless true.

I have received several other letters privately; none disagree with me.

Now to get back to the discussion. The avowed aim of our Association is as shown in 1, 2 and 3 of my first letter. By the success or failure in these matters one is entitled to judge them. In my view the aim should be to establish as many as possible local companies who can at least ring the standard methods reasonably well, attention always being paid to striking. This might be done either by the Association choosing suitable volunteers who can ring to assist struggling towers, or/and endeavouring to establish two or three active ringing centres for practice at which eight or ten decent ringers should always be present. This would soon attract the more enthusiastic of the learners, who should be given every opportunity. Efficient instructors would be made in this way.

As to actual instruction methods. There is in this area a widespread system of teaching by memorising the bell numbers to be followed. This is thoroughly bad because a pupil never acquires 'Ropesight.' I will quote from the new edition of 'Grandsire': 'Instead of the teacher trying at the beginning to make his pupil just capable of taking part in some simple method, hoping that time and practice will make up deficiencies and remove defects, he should concentrate from the first on those things which are essential to the ringer's art. He should try not so much to teach his pupil Grandsire or Plain Bob or Treble Bob as to make him an efficient and accomplished ringer. Now to be an accomplished ringer a man must possess three qualifications. He must be able to handle his bell so that he has full control of it. He must possess a sense of rhythm so that he can strike his bell in a way which will satisfy the most sensitive and critical ear. And he must be able to find his way unerringly along any path which a method may set before him. These things the complete ringer must possess and the essential part of all of them must be learnt in the preliminary stages of his training.'

That is sound advice. How to achieve it? First bell control can only be properly taught by one who can handle a bell himself. An admirable booklet, 'Hints to Instructors and Beginners,' is issued by the Central Council, price 4d. The author was one of the finest handlers the Exercise has known and such a book should not be treated with contempt by any associations officer, as recently at a meeting here. I can still read it with profit. Next ring rounds, paying attention all the time to rhythm. Next, set dodging 13254768 or 21436587 from rounds, ringing the same two changes over and over again. Others will suggest themselves. Next, plain hunt 'Original' on four, then six, then eight bells. Next, 'Original' with bobs on six and eight, calling the treble to make bobs as well as the other bells. Then Treble Bob hunt, learning to dodge at each place. Don't bother about the truth of these changes—in Treble Bob each change will be repeated.

Teach everyone to call bobs. When this can be rung tolerably well learn 'Stedman,' first Doubles, then Triples. Grandsire, Plain Bob and Treble Bob will soon follow. Do not allow a man to stick to any one bell. Pay particular attention to 'leads' and do not memorise bell numbers. 'Avoid 'rules' except to hunt up. 'Follow the bell that followed you.' To hunt down use your 'course bell.' Count your places and listen to your own bell and the treble. Some 'rules' must be learned to ring Grandsire, Plain Bob and Treble Bob, but accustom yourself to ring to the position of the treble.

No good Surprise ringer rings by rules, he knows where to strike his bell in each row and listens to the treble. In this way any young ringer of average intelligence should ring the standard methods tolerably well in 12 months with one practice a week and regular Sunday ringing. Ring only on Sunday that which you can ring well. Teach a little theory from the start. The meaning of 'pairs and places.' How to prick changes by the leads, lead ends, course ends and bob changes. Construction of methods. The simple principle of 'positive and negative rows.' I started to ring with 12 others, all learners under 21, under the late William Willson, of Leicester. Every one rang a peal within 15 months with no other help. All could conduct a quarter-peal. It can be done.

When the local companies are formed the Association should endeavour to see they are on a proper basis. A card, 'Model Rules for a Local Company of Ringers,' was, I believe, at one time issued by the Central Council. The clergy should be encouraged to take an interest in the ringers and the ringers to attend service. Each company should hold an annual meeting, at which the incumbent should be asked to preside, to elect a captain—as distinct from towerkeeper, secretary, etc. When elected the captain should have the loyal support of all the members. All the members should have a say in all tower matters. It is not good for any one man, be he a good ringer or no, to establish himself perpetually as captain. I will not join any such 'one man tower.'

I may say I am ready to teach at any reasonable distance from my home at my own expense, provided those to be taught are willing to learn in my way and do not object to correction.

SOUTHWARK CATHEDRAL

Dear Sir,—I am sorry the weight of Southwark was incorrect. I quoted from weights given in 'The Ringing World' of October 17th, 1930, and, as far as I know, uncorrected.

The Somerset Tour

Dear Sir,—The recent tour in Somerset is probably associated, in the minds of those who have read the details of it, with heavy rings (e.g., your heading 'A Paradise for Tenor Men' in the issue of October 8th). This is, of course, true; in fact, a well-known ringer, whose opinions I value very highly, summarised the results by saying that 'never was so much bell metal swung by so few in so short a time.'

My purpose in writing is to shift the emphasis from the back end to the front-end men, as I think there is a risk that their part in what we all felt was a memorable week may be overlooked. The plans for the tour were subject to a certain amount of criticism on the grounds that we were taking on too much, and this criticism might well have proved to be well founded had it not been for the adoption of a deliberate policy of rather slow ringing.

Most back-end ringers will know the feeling that one is usually expected in a peal to ring a heavy tenor at a higher *relative* speed than a light one (i.e., that the heavy tenor should be rung further below the balance point than the light one). This expectation is all the more deep-rooted because it is largely an unconscious and automatic feeling on the part of the band, and it means, in practice, that the speed of the peal is dictated by the average of the individual wishes of the band.

Had we adopted this procedure in Somerset, the quality of the ringing would soon have suffered, as the relative speed imposed on the tenor ringers of these over-tenored Somerset rings would have been too high to maintain with accuracy for a whole week's peal ringing. We, therefore, decided that each tenor ringer should choose his own pace and that the rest of the band should conform to this unreservedly; and, apart from Wrington, where the idea was not put into practice, this policy paid good dividends. A considerable burden was thus thrown on the front-end men, and the fact that it was sustained by them for a week, without the ringing becoming ragged, was an indisputable factor in the success of the tour.

The late J. A. Trollope often used to write of the difficulty of producing good slow ringing, and I am sure that our front-enders will confirm his views.

Needless to say, this method would be very tedious on poor rings of bells, but the magnificent rings which we found in Somerset did not, in our opinion, produce 'thin' music through being rung somewhat slowly.—Yours faithfully,

J. C. E. SIMPSON.

29, Holland Road, Wallasey, Cheshire.

A WEIGHTY SUBJECT

Dear Sir,—It is grand to know that you have a more plentiful supply of paper and that we need not feel guilty of taking up your space. I have been greatly interested in reading the letters on the weights of various tenors, and also the collective weights of the full peal.

As this is an age of statistics and records, may I suggest that notice be taken of the individual weight of each ringer and also the total weight of the band taking part in the peal. We should then be able to read that a peal of Cambridge Royal was rung at —— in 3 hours 42 minutes. Weight of tenor 47 cwt. Collective weight of peal 181½ cwt.

Collective weight of ringers 12 cwt. 3 qr. 24 lb. Proportionate weight of bells over ringers as 14 to 1. (Another band might ring the same peal at 13 to 1.) I am sure this would add great interest to the comparisons. We already have the ages given of 'Bright youth and snow crowned age, young men and maidens meek,' and if there should be any sensitive ladies who would fear to be dubbed 'Two ton Tessies,' they could be given as over twelve stone. Hoping the idea will be taken up by someone more notorious.—Yours faithfully,

WALTER WHITE.

Guild of Devonshire Ringers

MEETING AT OKEHAMPTON.

The Exeter Branch held its recent meeting at Okehampton in mid-Devon. Support was strong from the N.W. and S.W. Branches.

The service in the Parish Church, conducted by the Vicar (the Rev. L. Compton), was well attended and the ringers given a hearty welcome, no meeting of the Guild having been held in the town for 40 years. Just 80 ringers and friends had tea at the Central Hotel, and at the meeting following, with Mr. A. W. Searle (chairman), the local band was unanimously elected as associate members. Mr. F. C. Smale, Guild general hon. secretary, a local resident, expressed his delight at proposing the admission of the band. It was agreed that an annual meeting of the Guild shall be held at Okehampton.

Mr. E. W. Biffin ably filled the office of Ringing Master and Mr. E. J. Ryall that of hon. secretary. Heavitree, Exeter, was chosen as place of the annual meeting on Dec. 11th.

NORTH-EAST BRANCH.

Congratulations to Mr. and Mrs. John Woodley on their diamond wedding were voiced at the quarterly meeting of the North-East Branch on October 2nd. Now in his 81st year, Mr. Woodley began ringing when he was 10 and has been a member of the Guild for 51 years. He was captain of the Calverleigh band for over 16 years and retired from the position of sexton last year, a post he had held for 50 years.

Good wishes to Mr. Woodley were voiced by the chairman, Mr. E. J. Taylor, supported by the Guild president (the Rev. E. V. Cox), Mr. A. W. Searle and Mr. C. J. Lilley.

The annual branch meeting was fixed for January 8th at Silverton, and the Guild annual meeting will be held at Tiverton at Whitsun.

TRURO DIOCESAN GUILD

MEETING AT LEWANNICK.

The Launceston Branch meeting on October 16th at Lewannick was well attended. Those present included Miss E. Symons (president), Mr. W. H. Southeard (Ringing Master), the Rev. W. H. R. Trewhella (general secretary), the Rev. A. S. Roberts (vice-president), Mr. H. J. Clark (S.E. Branch secretary) and some 70 members. A welcome newcomer was Mr. Charles Sharples from Lancashire. The ringing was of a surprisingly high standard and showed that remarkable progress has been made and that method ringing is spreading: one responsible for this is Mr. Fred Sangwin, and his Marhamchurch 'boys' are evidence of his gifts as a teacher.

It is true to say that no bad ringing was heard, and this ranged at Lewannick (6) from rounds and call changes to Doubles and Minor. The new and enthusiastic district secretary, Mr. W. F. Moss, had made ample ringing arrangements; the splendid eights at St. Mary's and St. Stephen's, Launceston, and Altarnun, and the sixes at St. Thomas', Launceston, and Lezant were open, so those who did the round got in six towers.

The Vicar, the Rev. L. G. H. Farley, conducted the service and gave a hearty welcome to the branch to come again. Tea was served and the abundance was so great that as the members were leaving after the usual votes of thanks the Vicar made a special announcement that supper would be served later to all who came back. Such hospitality could not be refused.

Mr. W. H. Southeard made one of his characteristic little speeches and said he had noticed that at the service many sang the psalm and the hymns without a book: that was how they should try to advance and progress in method ringing: all they had to do was to learn something simple and close the book. Certainly the call-change cards are being put away in North Cornwall. The Launceston Branch is both strong and progressive, and the area has a grand lot of bells.

A.S.R.

Chester Diocesan Guild

WIRRAL BRANCH.

The favourable weather attracted a gathering of 54 members and friends to the monthly meeting, held at St. Oswald's, Bidston, on October 16th. Of those present, only four came from outside the branch, evidence of local enthusiasm.

Bidston Church and its immediate environment appear to have been untouched by the passage of time and have maintained their old-world charm in spite of their proximity to industrial areas. Since last visited the blitzed east window has been replaced by a magnificent stained glass window depicting the Ascension.

Although indisposed, the Vicar, the Rev. E. A. O. Thomas, courageously conducted the service, and, on behalf of his own enthusiastic ringers, extended a hearty welcome. Following the service the company sat down to an excellent tea served in the Parish Hall.

At the business meeting six new ringing members were elected. Two young ringers were complimented on ringing their first peal in seven Surprise Minor methods. The meeting concluded with thanks to the Vicar and the Bidston ringers, reference being made to the sacrifice these 'teen-age' ringers had made in order to provide the excellent tea.

The light ring of six was kept going in a variety of methods, including London, Beverley and Cambridge Surprise, Oxford and Kent Treble Bob interspersed with frequent doses of Plain Bob, Bob Doubles and rounds for those on the bottom rungs of the ringing ladder.

RANG TOGETHER FOR 60 YEARS

Presentations were made at the centenary celebrations of St. Paul's Church, Walkden, recently to two ringers for their outstanding services. A cigarette case and an automatic lighter were presented to Mr. John Potter, and a pipe, pouch and lighter to Mr. John Denner. Both have completed 60 years' active ringing at the church.

They were married in the same year, and, ringing side by side, they both mastered the art of conducting. Mr. Potter has taken part in 338 peals and has been captain of the Walkden ringers for 42 years. He is a life member of the Lancashire Association and has been on the committee for a number of years. In 1921 and 1922 he was elected vice-president.

At one time there were four Potter brothers ringing at St. Paul's, including John Potter, and his daughter, Miss Annie Potter, has been a member of the Walkden team since 1930.

Mr. Potter conducted two unusual peals, one of which is believed to be unique; he conducted the peal at Walkden rung by four fathers and four daughters, and also one at Manchester Cathedral, rung by five fathers and five daughters, both in 1932.

In addition, Mr. Potter has looked after the turret clock since it was installed in 1930.

PETERBOROUGH DIOCESAN GUILD

WELLINGBOROUGH BRANCH.

There was an attendance of 67 at the meeting of the Wellingborough Branch at Finedon on October 9th. Canon R. E. Ford, who conducted the service, presided at the business meeting, supported by Mr. E. Whitmore (Guild Ringing Master) and Mr. A. Bigley (hon. secretary).

Members stood in silence in memory of Mr. T. Abbott, former member of Finedon company, and sympathy was extended to Mr. J. C. Shatford (Wellingborough) in his illness.

Miss M. Mabbutt (Mears Ashby), Mr. C. W. Partridge (Wilby) and Mr. C. Underwood (Higham Ferrers) were congratulated for ringing a peal recently.

Mr. W. G. Callis (Mears Ashby), the Ringing Master, moved a vote of thanks to Canon R. E. Ford and to all those who had helped to make the meeting a success. Mr. J. R. Main seconded.

OUTINGS

ISLEWORTH.

A comparatively unhurried tour covering 117 miles and nine towers containing rings of 6, 8, 9, 10 and 12 bells in Hampshire and Berkshire was accomplished successfully by the All Saints', Isleworth, ringers and friends on Oct. 2nd.

The first stop was the 'famous' or 'infamous' nine-bell tower at Basingstoke. Here, in addition to eight-bell ringing, one course of Caters was rung on the nine, and first impressions were that a peal on them would not be pleasant. St. Michael's eight were then enjoyed by all. Kingsclere with its heavy ring of six was the next tower and was followed immediately by a good lunch in the village.

After a ride through the pleasant surroundings of Highclere Park, the light eight at Highclere Church were rung. Next came the grand ten at Newbury for Grandsire and Stedman Caters and Cambridge Royal, which was not completed owing to pressure of time. After a good tea in Newbury, Thatcham and Bucklebury eights were sampled and enjoyed.

The finest eight of the day—the sonorous-toned 28 cwt. ring at St. Mary's, Reading—were used to advantage on Stedman, Plain Bob and a good course of Cambridge Major. Finally, as a result of the good offices of Mr. Foster, the party were given the privilege of ringing the twelve at St. Laurence's for the first time following extensive bomb damage repairs. Here several people rang Maximus for the first time and found that they could manage three leads of Kent Treble Bob in a style comparable with many experienced twelve-bell ringers.

KILBURN.

St. Augustine's Guild of Ringers, together with friends from Ealing and Willesden, left Kilburn in thick autumnal mist on the morning of October 9th. The party was bound for Isham, but three towers were visited before this destination was reached.

At Woburn the bells were rung while non-ringers admired the harvest decorations in the church and the splendid view from the tower. Earls Barton was the next call, followed by an all too short visit to All Hallows', Wellingborough.

Then on to Isham, where kind folk welcomed the party and hastened to prepare tea, which was served after good use had been made of the delightful ring of six bells.

Besides the pleasure of ringing at these places there was the added delight of seeing the historic features, including the Saxon tower at Earls Barton and the beauties of Wellingborough.

On the return journey the towers at Olney and Newport Pagnell were visited. Here local ringers awaited belated visitors with great patience and forbearance. The kindness and consideration of local ringers made the outing a great success.

TEWKESBURY.

North Wiltshire was the area chosen by the Tewkesbury Branch of the Gloucester and Bristol Association for their annual outing on September 18th.

The first stop was made at St. Paul's, Chippenham. Unfortunately the time allocated for ringing on this nice eight had to be curtailed owing to a wedding having been put forward an hour. At Melksham ringing had to cease very much on time owing to a wedding.

After enjoying the hospitality of the Melksham tower the party went on to Devizes, where, after an excellent lunch at the Castle Hotel, good use was made of the three towers available at Devizes and Southbroom. At 5.30 p.m. the party refreshed themselves with another first-class meal at the Castle Hotel, after which a start was made in the homeward direction. The last tower of the day, Tetbury, was reached at 7.30 p.m., where full use was made of the very fine eight.

ESSEX ASSOCIATION

Favoured with lovely weather, the North-East District meeting at Great Bromley on October 9th attracted 34 ringers from surrounding parishes. The service, conducted by the Rector (the Rev. J. H. Ransom), was followed by tea in the schoolroom, served by local ringers and their ladies.

At the business meeting, the Rev. Ransom and Messrs. T. and A. Cole were elected ringing members, and Wivenhoe was chosen for the next meeting in early December. Good use was made of the six bells. H.J.M.

MINOR METHODS TABLE

INSTRUCTORS and progressive ringers will find the Central Council's latest production, 'Four Way Table of Minor Methods,' by J. Segar, jun., an invaluable aid in the grouping of methods both for ease of learning and in the preparation of many method peals.

The table measures 18in. by 12in., and is printed on one side only. There are 16 columns and 36 lines, making 576 spaces in all. Of these, 147 are filled in with the numbers and names of Treble Bob, Delight and Surprise methods. Plain methods are not included.

It is accepted without question that the easiest way to learn a number of methods with the least practice is to ring those of the same group. To jump from Cambridge Surprise to London Surprise is not easy as they have nothing in common. To pass from Cambridge to other methods which have Cambridge work either above or below the treble is easier. These principles of similarity of grouping have not been observed in the Central Council Collection. Some day, perhaps, the collection may be published in accordance with a 'Four Way Table'—not necessarily Mr. Segar's. Until then, Mr. Segar's table will perform a useful function.

Incorporated into the table are all the 147 methods. It is possible to start at any particular point. For example, Cambridge will be found in a column with 10 other methods having the same work above the treble (Ipswich, Bourne, Surfleet, York, Durham, Beverley, Elston, Burnaby, Kirkstall and Burslem). Also Cambridge is in line with four other methods which have the same work below the treble. This makes a total of 14 other methods which are half learned before referring to the figures in the collection.

In the production of this table, Mr. Segar desires to associate the Ordsall (Retford) ringers. It was their request for guidance that caused him to plan the table, and what has been of benefit to Ordsall should be of value in other parts of the country. Comments on the table should be sent to Mr. J. Segar, jun., 71, London Road, Retford, Notts, and orders (price 4d. post free) to the Central Council's Librarian, Mr. W. H. J. Hooton, Osmington School, Tring, Herts.

Tell your ringing friends that the new paper allocation will permit of additional orders for "The Ringing World" as from November 13th. Postal orders should be placed with Mrs. Fletcher, "The White House," Caister-on-Sea, Norfolk. Newsagents who have any difficulty should write to the Rolls House Publishing Co., Ltd., Breams Buildings, London, E.C. 4., giving the name of the wholesaler.

BELFRY GOSSIP

A hurried note written in the train states that the married couples' peal of Stedman Cinques at Leicester was successful. The conductor, Mr. H. J. Poole, remarked that he had the easiest job of all, bar the tenor. The peal is undoubtedly a tribute to the discipline of married life!

Congratulations to our Australian friends on their first peal of Doubles in three methods.

The peal at Wakefield Cathedral recorded this week was an 80th birthday compliment to Mr. Albert Scott, one time captain of the local company.

Mr. W. H. Joiner rang the treble to his golden wedding peal at Hastings. For 22 years he was a member of the band at Mitcham Parish Church. He now lives in Hastings.

With the first peal by the R.A.F., Cranwell, Society, Mr. Eric A. Dench has rung peals of Plain Bob on handbells on all even numbers from six to 14.

North Bradley ringers are in the process of raising £300 to increase their six to eight. A donation is asked from visitors to the tower in the past, and this should be sent to P. Harding, 2, Myrtles, Church Lane, North Bradley, Wilts.

Eighty-one-year-old Mr. G. Thomson took part in a quarter-peal of Bob Major on Oct. 10th to mark his 60 years as a ringer at Hinckley, Leics. The band was F. Mellor 1, H. Knights 2, A. Jordon 3, G. Thomson 4, W. Aldridge 5, B. Ridgeway 6, A. Ballard 7, E. Vallance (first of Major as conductor) 8.

For 30 years Mr. A. T. Osborne has been captain of Norton-sub-Hamdon tower, Somerset, having learnt to ring in this tower at the age of eight. His 60th birthday was celebrated on October 13th by 1,260 Grandsire Doubles by A. Gillmar 1, J. W. Drew (cond.) 2, W. Warr 3, A. T. Osborne 4, T. Osborne 5, E. Mirchington 6.

The high opinion we formed of the Lancashire Association's Instruction Book has been confirmed by correspondents. Mr. W. R. Hammons, Northampton, writes: To my mind, this book is the most compact book ever presented to the Exercise. It not only teaches the beginner how to ring elementary methods, but gives him every incentive to get on with higher methods. The elements of conducting will be greatly appreciated by the young conductor.

Mr. Philip J. Hitchens, of Penzance, has been a ringer for more than 60 years and, like 'Johnny Walker,' is still going strong.

Within the space of ten weeks Mr. Arthur V. Pearson and Mr. Arthur Pritchard completed Cambridge from Minor to Maximus.

Those interested in Grandsire Triples will find the composition of Mr. James Topp on page 477 worthy of consideration.

Congratulations to Mr. George Ledsham on his 100th peal, scored at Leeds Parish Church on October 23rd.

'Has the tenor at Arklow, Ireland, shrunk?' is an enquiry addressed to the Editor. It was reported as 15 cwt.; at one time it was given as about 22 cwt.

Ringers visiting Northern Ireland who wish to have a ring or peal attempt should communicate with Mr. John T. Dunwoody, 49, Victoria Road, Holywood, Co. Down.

The five bells of Buckerell Parish Church, Devon, have now been removed to the Whitechapel Bell Foundry, where two will be retuned and three recast, and an additional treble will be added as the parish war memorial.

The peal of Rutland Surprise at Rotherfield on October 16th was a birthday compliment to Mr. E. A. Barnett, Miss Audrey Sone, Mr A. S. Richards and Messrs. Reginald and Robert Lambert.

ANNUAL DINNER.

That the event has lost none of its interest and popularity was evinced at Worcester on October 16th, when a party of 93 gathered at the Old Rectifying House for the 11th annual dinner of the Association. The Cathedral and All Saints' bells were available for ringing during the afternoon, although somewhat marred at the Cathedral by the breaking of the 5th rope.

The Dean of Worcester, the Very Rev. Arthur Davies, D.Litt., presided, and he was supported by the Rev. H. Hartley (chaplain), the Rev. T. Keith-Murray (clerical vice-president), Mr. C. Skidmore (Master) and Mrs. Skidmore, Mr. J. R. Newman (vice-president) and Mrs. Newman, Mr. W. B. Cartwright (vice-president) and Mrs. Cartwright, Mr. J. D. Johnson (hon. secretary and treasurer) and Mrs. Johnson, Mr. and Mrs. S. T. Holt. Among the visitors were Mr. F. Colclough (secretary, Dudley and District) and Mrs. Colclough, and Mr. L. G. W. Morris (secretary, Yorkshire Association).

Following the loyal toast, honoured on the call of the chairman, the toast, 'Church and State,' was proposed by Mr. W. B. Cartwright and responded to by the Dean; 'The Worcestershire Association,' proposed by Mr. J. R. Newman and response by Mr. C. Skidmore; 'Kindred Associations,' proposed by the Rev. H. Hartley, with Mr. Mr. L. G. W. Morris in reply. The underlying theme of all the speakers was the spirit of unity and good fellowship existing between ringers and fostered by such gatherings, and a feature of the speeches was the humour introduced into each.

For the musical side of the programme an appreciated innovation was introduced by Mr. B. C. Ashford and his handbells. Ably accompanied at the piano by Mr. Skelhorne (organist at Clent Parish Church), he 'tapped' from his extensive repertoire of popular songs, the audience joining in the choruses. Mr. G. J. Hemming (tenor) sang three songs in his usual inimitable manner, and a course of Stedman Caters was rung by Mrs. J. Thomas 1-2, J. Thomas 3-4, J. D. Johnson 5-6, P. Harris 7-8, Miss M. Rowland 9-10.

HESSE ANNIVERSARY WEEK-END

Ringers assembled at Wrington on October 15th for two peal attempts to the memory of John Hesse, both being succesful and well-struck ringing. The first, on Friday, Stedman Triples, was at Wedmore, where Major Hesse learnt to ring, and on Saturday Stedman Caters at Wrington, where he lies buried.

The visitors made their headquarters at the Golden Lion, Wrington, the rendezvous of many ringing parties organised by Major Hesse. In the evening, Mrs. E. D. Marshall and Mrs. J. H. B. Hesse entertained the party at the Golden Lion, those present, in addition to the hosts, being Miss Doris Dobbie, Mrs. H. W. Knight, Capt. W. Hook and Messrs. Walter Dobbie, Clarence Dobbie, A. H. Pulling, E. J. Chivers, A. Reeves, S. O. Kingcott, W. H. Kingcott, J. T. Dyke, Stafford H. Green, E. J. Taylor, L. R. G. Taylor, H. W. Knight and E. G. Caple.

Left to right: C. H. Dobbie, W. H. Dobbie, E. J. Chivers, Alfred E. Reeves, Miss Doris G. Dobbie, J. T. Dyke, Mrs. Hesse, A. H. Pulling, E. J. Taylor, W. H. Kingcott, and H. W. Knight.

After an excellent repast, Mr. Knight thanked Mrs. Marshall and Mrs. Hesse for their hospitality and also the visitisg ringers who had made the week-end possible. Mr. Pulling, in reply, said it was always a pleasure to ring a peal at Wrington, and he too thanked their hosts.

Capt. Hook recalled the reason for their presence that evening, saying that Major Hesse was a great person who had the spirit of the bells; bellringers were missionaries, and although he was not himself a ringer, the hours he had spent listening to Major Hesse had taught him much about methods, so that listening that afternoon he had no difficulty in recognising the method as Stedman. He had been accustomed to hearing bells all his life, and the only time he had disliked them was when he lived at Taunton, with the Church of St. Mary on one side of him and St. James' on the other.

A telegram was received from Mr. Rodney Hesse, regretting his inability to be present and wishing the peal ringers every success. Apologies for absence were also received from Preb. A. J. Hook, Mr. A. A. Hughes and Mr. A. R. Macdonald. Handbell ringing rounded off the evening.

Some of the visitors remained over until the Sunday and joined in the ringing for morning service.

Kent County Association

MAIDSTONE DISTRICT.

The annual meeting of the Maidstone District was held at Maidstone on October 9th. Following afternoon ringing at All Saints', the company of over fifty adjourned to Herbert's Cafe for tea. A course of Grandsire Caters on the handbells preceded business, over which Canon C. B. Sampson, Vicar of Maidstone, presided.

In his report for the year the secretary showed by an analysis of the membership figures, which incidentally had reached a new record figure of over 180, that whereas towers in union with the association averaged ten ringers per tower, other towers in the district were seriously under strength. The report then considered what it termed 'the district scene,' stressing the responsible position occupied by All Saints' among the group of thirty rural towers around it, mentioning the group activities of member towers through combined practices, and reviewing the more formal activities of the Association.

All the officers were re-elected, Dr. E. S. J. Hatcher as district secretary, G. F. Cantrill and A. Waddington as district representatives.

The meeting then passed to a consideration of the programme of meetings for 1949 with two points for special discussion, first the idea of a summer ringing day by coach, it being decided to visit Surrey; second, the venue for the annual meeting, which is to be Maidstone again. Canon Simpson expressing the hope that on this occasion it might not be necessary to go to a cafe for tea.

At 6 p.m. the company reassembled in the beautiful choir of All Saints' for choral evensong, and finally returned to the belfry, where the ringing varied from rounds and Grandsire to Cambridge Royal and Maidstone Bob.

This most successful meeting took place in glorious weather, and we were delighted to extend good wishes to Canon Sampson on his birthday, to welcome among us Mr. C. T. Royle, Vicar's warden of All Saints', and to hear words of encouragement and wisdom from Mr. G. H. Spice, the Association's general secretary. E.S.J.H.

SALISBURY DIOCESAN GUILD

WEST DORSET BRANCH.

Glorious sunshine helped to make Lyme Regis an attractive centre for the quarterly meeting of the West Dorset Branch on October 23rd, six towers of the branch being represented, with visitors from the Dorchester Branch and Wellington, and Preb. E. V. Cox, president of the Devonshire Guild.

The choral service was conducted by the Vicar, with Mr. Horace Dyer at the organ. Tea followed immediately in the Church Hall and at the business meeting afterwards it was agreed that the annual meeting of the branch should be held at Bridport on December 4th. Warm thanks were accorded the ladies, Mesdames Keeley, Morris and Powell, for the splendid tea served; also to the choir and organist for their assistance at the service. Before adjourning to the tower Mr. Stafford Green's much admired new set of handbells were brought into play in Caters and Triples.

The light ring of eight was well used during the afternoon and evening.

LETTERS TO THE EDITOR

Tenors and Slow Time Ringing

Dear Sir,—After writing my last letter, I saw Mr. Hibbert's letter in your issue of Oct. 22nd and should like to reply to it, as I may be one of the 'people who are continually ringing tenors, and always in slow time,' to whom he refers. So far as Mr. Hibbert's remarks apply to the Somerset tour, I would refer him to the above explanation of our peal times; and if he or anyone else is unconvinced, let him repeat our programme and improve on our times and striking, and I shall be the first to offer my congratulations.

But this a minor point. Of far more importance is Mr. Hibbert's impression that slow peal times mean that 'the bells are ringing the ringers.' Frankly, I think this is an extraordinary impression. Surely if 'the bell is ringing the ringer' it means that the ringer has not got the bell under full control, and with a heavy bell this state of affairs is produced by ringing it so much below the balance point (i.e., so fast) that the ringer is unable to place the bell properly. Some years ago I rang a tenor (30 cwt., and slow at back-stroke) in a peal of Cambridge Major. One or two of the band wanted to ring fast, and in my youthful inexperience and zeal I tried to fall in with their wishes. The result was a poor peal in 3.10. I should hate to claim that I rang that bell in the sense of placing it accurately—on the contrary, it definitely rang me, as I spent the last hour jumping a foot into the air at every cutting backstroke! Another example of the same thing is a peal of Treble Bob on a heavy eight where the tenor man let his bell 'float' instead of placing it. This caused the speed to increase, the 'floating' also increased, and the result was that we rang 'Treble Bob plus' in order to ring round him, and he rang more or less Albion Treble Bob, all in very fast time.

It is simply a question of human mechanics. No man can apply more than his own weight (unless he has the help of a foot-strap): and, of course, in ringing as in everything else, 'a good big 'un is better than a good little 'un.' (Here Mr. Hibbert has unquestionably the advantage of me; I weigh just 10 stone, and he must be 14 stone or so — unless he has changed since I last had the pleasure of ringing with him!) But fortunately for us lightweights, it is *foot*-pounds that count and not pounds only, so we get there in the end by applying a smaller force through a longer distance and therefore a longer time. Mr. Hibbert is absolutely right, of course, in his implication that A, by ringing a heavy bell in, say, 3½ hours, has worked at a higher *rate* than B who takes 4 hours; but I was taught that the art of heavy-bell ringing was to place the bell accurately with the expenditure of the right amount of energy and no more! However, if I ring a bell by using x foot-pounds per minute, and somebody else does it by using x plus y foot-pounds, I shall not dispute it if his is considered the better performance.

Incidentally, two of the finest tenor ringers I have met are both small men in the lightweight class, and they never sacrifice control for the sake of beating somebody else's time. So I hope Mr. Hibbert will not begrudge us little 'uns the extra minutes we use in endeavouring to employ our limited poundage as efficiently as possible. Now and then the results are passable. Yesterday, for instance, we rang Cambridge (like most peals, it could have been better, but was very fair on the whole) at Leeds in 4.12. The late W. Pye's band rang it in 4.11. Would Mr. Hibbert say that the bells rang the ringers in either case?—Yours faithfully, J. C. E. SIMPSON.

CASTLE EATON, SWINDON. — On Oct. 16th, 1,260 Grandsire Doubles: F. Wilton 1, B. Bladon 2, Miss B. M. Strange 3, D. Looker 4, J. E. Manners (cond.) 5, E. G. Adams (first quarter) 6.

The Speed of a Peal

SOME GOVERNING FACTORS.

Dear Sir,—I, too, was interested in Mr. Clift's letter re the Cambridge Royal at Wells Cathedral and also the weight of tenors in the West. Mr. Hibbert's remarks arising therefrom are also to the point and contain a great deal of truth.

When the details of the recent tour in Somerset appeared in your columns I was somewhat surprised at the very long time occupied over many of the peals—3 hours 57 minutes for a 31 cwt. tenor, for instance, and 3 hours 51 minutes for 28½ cwt.; I was even more surprised to gather from the account of that tour that subsequently appeared that the average time taken, 3 hours 41 minutes, was apparently regarded as a matter for compliment.

As Mr. Hibbert says, there is no disgrace in ringing peals in slow time; neither, in my opinion, is there anything of which to be proud, except in exceptional circumstances. It is obvious that if a heavy bell 'goes' normally and is allowed to swing right up to the balance at every stroke, then it can be rung with comparatively little effort. But if the tenor is thus rung, then all the other bells have to be rung 'round' it, held on the balance for an uncomfortably long time, with the result that it is much more difficult to obtain perfect striking. One of the secrets of good striking, even on light rings, is work on the part of the ringers, especially by the back-enders; if the tenors are allowed to dawdle along at their own pace the ringing is almost bound to become slipshod and irregular. If, for instance, you wish to obtain real rhythm in Stedman Cinques it is essential that the big bells be 'pushed along,' especially at hand-stroke, and at lead. Within reasonable limits I have no hesitation in saying 'the quicker the ringing the better the striking is likely to be, and the more pleasant the bells will sound.'

Exceptional circumstances that justify slow ringing are: (a) Really unusual weight, as at Exeter and Wells; (b) unusual musical qualities in the bells (a few *do* sound better rung more slowly); (c) difficulties caused by faulty hanging, tower sway, loose frames, etc. But why attempt in such cases to turn in the tenor? If a peal must be attempted, and nowadays that is naturally the case, why not be content with an odd-bell method?

Very often, however, the cause of an unduly slow peal is to be found not in any of these circumstances, but in the presence in the band of one or two either not really familiar with the method or not entirely masters of their instrument, i.e., not fully in control of their bells. Sometimes this could be corrected by proper placing of the band: all too frequently 'first peals' are prematurely encouraged. The slower the ringing the easier it is for the conductor to put the bells right!—Yours faithfully, FRANK E. HAYNES.

Smethwick, Staffs.

PEALS AT ESSENDON

Dear Sir,—With regard to the peal rung at Essendon on October 9th, I would like to point out to the band that it was not the first peal on the bells, as a peal of Plain Bob Minor was accomplished at this tower on Saturday, August 22nd, 1925, in 2 hours and 40 minutes, by the following band: Francis Kirk treble, Ernest Hunt 2, John Malyon 3, Charles Jeffs 4, William Nash 5, John T. Kentish tenor. The peal was conducted by John Malyon. A footnote to the 1925 peal stated that it was believed to be the first on the bells, and as far as I am aware has never been disputed.

St. Albans. FRANCIS KIRK.

Dear Sir, — There have been two previous peals at Essendon, viz., one conducted by the late H. G. Rowe and one of Plain Bob Minor, in which I took part, on Aug. 22nd, 1925, conducted by the late J. Malyan. W. NASH.

Henry Bunn

Dear Sir,—I came across an old newspaper cutting recently which reads as follows:—

'Liberal Reward.—Whereas Harry Bunn, a native of England, and by trade a peal-bell ringer employed in regulating the chimes of most of our church bells, more especially those of Hillsborough, Co. Down, and of St. Werburgh's, Dublin, has not of late been heard of, I, having found him pre-eminently clever in the above department, do hereby offer £5 to the first person to give me such information as shall lead to his recovery.—Wm. E. Reilly, Hillsborough.' 'Dublin Evening Mail,' March 21st, 1827.

I have not come across any evidence which would say whether Bunn was ever found, nor can I find anything to show whether he worked on his own account or for one of the bell-founders.

I would be glad, therefore, to know if any of your readers, including the bell founders, can give any information about this gentleman, not that they will receive the £5 reward! but as a matter of interest and to complete my records on the subject. It would be interesting to know if he was a bellringer or whether he was a bellhanger only.

For the interest of readers, the eight bells of Hillsborough Church were installed in the year 1773 and are at present being restored by Messrs. Taylors, of Loughborough. St. Werburgh's Church, Dublin, had a ring of six bells erected about 1748. The tower was demolished in 1854 and the six bells lay in the church porch until the following year, when the Select Vestry decided to dispose of them. Four of them were distributed to four city churches. One was sold to an old Dublin bell-founder and the remaining one retained by the parish. FRED E. DUKES.

SIXTY YEARS AFTER

Dear Sir,—In connection with the outing in South Wales of the Bristol City Branch of the Gloucester and Bristol Diocesan Association, your readers might be interested to know that among the ringers in the fine touch of Stedman Caters which opened our ringing at Abergavenny on the newly-augmented ten was Mr. Gilbert Pearce, who is the only surviving member of the band which rang there some 60 years ago when the original eight was opened.—Yours faithfully, P. T. ROBBINS.

A NEW METHOD OF RINGING!

Dear Sir,—The following appears from 'Introduction to Geology,' by C. T. Gardiner, M.A., F.G.S. (1914), under 'Sea Encroachment':—

'The last burial in Kilnsea Church was that of a shipwrecked negro in 1823: after this the church services were stopped. The tower fell in two portions, the first in 1826, the second in 1831. A room in the remainder of the village was devoted to divine service, the church bell was hung on a beam and made to sound by throwing stones at it.'

ELY DIOCESAN ASSOCIATION

CAMBRIDGE BRANCH.

A meeting was held at Sawston on October 2nd, members and friends being present from Cambridge, Chippenham, Exning, Fulbourn, Harston, Little Shelford, Over, Sawston, Stapleford, Todmorden, Trumpington and Woodditton.

The ringers' service was conducted by the Vicar (the Rev. R. Bircham). An excellent tea was served by members of the local band.

The Vicar presided at the business meeting. Apology for absence was received from the president, the Rev. P. Chamier. The Rev. R. Bircham and Mr. L. Matthews, of Sawston, were elected members. The next meeting will be at Ickleton on November 13th. H.L.M.

Oxford University Society

A NEW MASTER.

At the opening meeting of the Society in Magdalen on October 12th, 35 members and potential members were present. The Master, in his report on the Trinity Term, stressed the desirability for learners to start ringing at the beginning of the academic year. Mr. Semmens read a report on the week's holiday at Honeybourne V.A. Camp, and terrifying extracts were read from R. A. Rankine's paper on 'A campanological problem in group theory,' of which Mr. D. G. Kendal had sent the Master a copy.

Some elections followed. Mr. Dickinson said that he wished to resign from the office of Master, owing to pressure of work. Mr. P. W. B. Semmens, proposed by Mr. Dickinson and seconded by Miss Higgins, was unanimously elected Master in his place. Mr. Gallop was then elected to fill the post of male secretary. The post of treasurer was also vacant, and Mr. Barrow was elected. He agreed to continue in his former capacity of steeplekeeper.

The matter of donations to various towers having claims on the Society's gratitude was much discussed. It was decided to refer the decision on the exact amounts to be given to the Society's officers. The new Master gave details about the proposed North Devon tour in Easter, 1949, and it was decided that the opening date for the week should be Tuesday, April 19th (old members, please note). It was also agreed that a 'social' should be held later in the term, and a special committee was appointed to fix the date and make the arrangements. The Master gave a short introductory talk for the benefit of learners and outlined some of the term's plans.

UNIVERSITY OF LONDON SOCIETY

Nearly 40 members and friends attended the fourth annual meeting of the Society, held in London on October 16th. Ringing at St. Mary Abbot's included Stedman Caters, and the Vicar (Prebendary S. A. M. Eley) conducted a short service and gave an inspiring address.

Mr. P. M. J. Gray presided at the business meeting. The Master (Mr. V. J. Benning) gave a very comprehensive report of the Society's activities during the year ending August 31st. Despite the difficulties of not having a central tower in London for regular practices, with the facilities provided by Mr. E. J. Rowe at St. Ann's Church, Stamford Hill, and the splendid support and co-operation of the members, a very great deal had been accomplished. There was a further increase in membership and a small one in the balance in hand.

Officers elected for the year 1948-49 were: President, Dr. J. C. E. Simpson; Master, Mr. D. N. Layton; secretary and treasurer, Miss M. J. Mattinson; committee, Mr. V. J. Benning, Major A. H. Janes, Miss E. R. Yeld; auditor, Mr. G. F. Carter. It was decided to hold another dinner and ringing day in London on February 26th, 1949.

Further ringing, ranging to London Surprise Major, was enjoyed at Lambeth in the evening.

SALISBURY DIOCESAN GUILD

FORDINGTON ST. GEORGE.

October 23rd was a memorable night at Fordington St. George, Dorset, when five ringers scored their first quarter. It was the first quarter by the post-war band. The last is lost in antiquity. Ringers were E. E. Coombs 1, J. B. Whalley 2, C. A. E. Treasure 3, Miss B. J. Dyke 4, H. R. Pink (capt. and cond.) 5, K. W. Hewitt 6. First quarter by all except the conductor.

On October 24th, another quarter was rung half-muffled in memory of the men of H.M.S. 'Illustrious,' who lost their lives in Portland Harbour the previous Sunday.

Though the bells go 'hard,' the next target is a home produced peal—the last peal in the tower was in 1935 by a visiting band.

OUTING

OVER, CAMBS.

The Lincolnshire outing of the ringers of St. Mary's, Over, Cambs, on October 18th, began in the bright sunshine of an autumn day, with a pleasant nip in the air. After a short stop at Market Deeping for a cup of tea, we reached Spalding at 9.15, and Mr. Farr introduced us to the fine ring of eight. While the ringers enjoyed courses of Cambridge and London and attempted Plain Bob and Double Norwich, others admired the graceful spire with its beautiful canopied openings. The church has so many aisles that, from inside the south porch, you can see 23 arches.

At Surfleet we were met by Mrs. Richardson and Mr. Walter Ayre, whom we were glad to see recovering from his recent mishap. Cambridge and Double Norwich Major were successful, while rounds on 12 were found to be none too easy. Some of the band were interested to see the memorials to the Rev. H. Law James and Mr. Rupert Richardson. After lunch at Sleaford, a perfectly struck course of Cambridge was rung; Mr. Walter Ayre, who rejoined us, then called touches of Plain Bob and London. This is a beautiful ring of eight (tenor 19¼ cwt.).

At Heckington, Cambridge was surprisingly unsuccessful, but Double Norwich and Plain Bob made up for previous lack of success.

After tea in Grantham, a well-deserved vote of thanks was expressed to Mr. H. Dunnington, whom we had to thank for organising the outing, in conjunction with Mr. W. Bavin. Mr. T. R. Dennis voiced the thanks of the visitors, ringers and non-ringers for a most enjoyable tour.

The climax of the day was when Messrs. Syd Proctor, Clement Glenn and the rest of the local band proved so hospitable on their practice night. The ten bells (tenor 31¼ cwt.) in St. Wulfram's Church are truly magnificent, and Grantham may indeed be proud of them. Taylors are to be heartily congratulated on their work. It was a thrilling experience which will not be forgotten by any of those who were present. A well-struck course of Cambridge opened the evening, after which Bob Major, three leads of Treble Ten, Stedman Triples (conducted by Mr. Glenn), and Caters were rung; the latter method required the help of the local band. A course of Superlative and the bells being rung down in peal, mainly by Lincolnshire ringers, rounded off a perfect day.

SURREY ASSOCIATION

The North-Western District meeting at Egham on September 25th was attended by 37 ringers. At the meeting, presided over by Mr. F. E. Collins, seven new members joined the Association. Some good practice was put in by the local ringers and everyone enjoyed their visit; the one regret was that no service was possible in this lovely church. R.L.

Oxford Diocesan Guild

NEWBURY BRANCH.

The Newbury Branch at their autumn meeting expressed regret at losing one of their members, Mr. G. Fowler, who had recently left the district.

He was a keen member of the branch and will be very much missed, especially at Beenham tower, where he was foreman and had been training a young band. All wish him good ringing in his new district.

BICESTER DEANERY BRANCH.

A very good meeting was held at Islip (6) on October 16th, which was attended by the Master (the Rev. C. E. Wigg), Deputy Master (Capt. A. B. Poyntz) and 28 members and friends, and in the evening the eight at Kirtlington were in good demand.

At the business meeting Mr. F. Sharpe tendered his resignation, and after much discussion it was agreed that he would carry on until the annual general meeting, with Mr. C. H. Kinch as joint secretary.

JOINT MEETING WITH MIDDLESEX ASSOCIATION.

A very enjoyable gathering was the opinion of all at the joint meeting of the two associations, held at St. John's, Hillingdon, on Oct. 2nd, and the 75 members and friends made full use of the occasion for ten-bell ringing, under the supervision of Mr. T. G. Bannister and Mr. T. J. Fowler. An excellent tea, presided over by the Rev. E. S. C. Lowman, was taken in the Church Hall, and special thanks were accorded to the ladies for providing such a bountiful meal. A warm welcome was extended to Mr. and Mrs. Trevor Roderick, of Glamorgan, who were on holiday in the district.

Later in the evening a social, arranged by Mr. A. D. Barker, was a tremendous success, and the organisers are to be congratulated: certainly Oxford have great talent among their members in other things besides ringing.

The twenty questions caused great amusement. The Middlesex team are still wondering if Bill has gone off to his native Somerset in search of that 'missed bob.' Anyhow, a tie was a fitting result.

BEVERLEY AND DISTRICT SOCIETY

Despite transport difficulties, there was a good attendance at St. Andrew's, Middleton-in-the-Wolds, on October 9th, for the Society's monthly meeting. The six bells (tenor 14 cwt.) were raised in peal and kept going to standard methods. The service touch of Kent Treble Bob Minor was conducted by the president (Mr. G. F. Williams).

The Rector (the Rev. D. T. S. Evans) conducted the service and the address was given by the Rev. G. S. Storer (Vicar of Hutton-Cranswick), tracing the history of church bells through the ages. Bells were first used, he said, in Campagnia, Italy, which had given the name campanology to ringing.

An attendance of over 40 members did ample justice to the sumptuous tea provided by local ringers. At the business meeting the president presided. The next monthly meeting was fixed for November 13th at Market Weighton, and the December meeting at Beverley St. Mary's. Three new members were elected. An omnibus vote of thanks to the Rector, the Rev. G. S. Storer, and the local ringers was moved by Mr. A. H. Fox and seconded by Mr. F. Dale.

The Rev. G. S. Storer read a letter from the hon. treasurer, Yorkshire Association, enclosing a cheque for £5 for the Hutton-Cranswick Bell Fund, and expressing the hope that the contract to provide a ring of six with modern fittings and an Ellacombe chiming apparatus would soon be successfully completed. The announcement of the gift — the maximum permitted from the Bell Fund—was received with applause. Further ringing with special attention to backward members concluded an instructive and enjoyable meeting.

ALL SAINTS', BENHILTON

OF the many churches around London having to face heavy restoration costs following bomb damage is All Saints', Benhilton, Surrey. Eleven bombs fell in a circle round the church, resulting in serious damage to the fabric. The wall of the church is in one place 9 inches out of the perpendicular, and the roof needs to be entirely renewed. An appeal committee, with Mr. E. Gosden, of 44, Rectory Road, Sutton, as treasurer, has been formed, and it has set itself the task of raising £9,000.

The movement of the tower when ringing is pronounced, and in an endeavour to remedy this both Mr. E. H. Lewis and Mr. A. A. Hughes have been consulted. The bells (tenor 19¾ cwt. in E, by Warner) were not constituted into a ring of eight until November, 1893, the second being the ringers' bell, purchased by a fund started by ringers in Benhilton, who received contributions from others at Cheam, Kingston, Christ Church, Epsom, and Penge.

The walls of the tower are built of brick cased with small flints and such a tower is likely to bend. There is a serious crack in the west wall leading up from an arch over the clock face. Mr. Lewis is, however, of the opinion that this should not cause any anxiety and may be due to settlement only. He, nevertheless, advises that it should be watched.

The 'go' of the bells is definitely affected by the appreciable movement set up in the tower during ringing; this can only be overcome by rehanging the bells in a frame of completely different design, and this and repair to the chiming apparatus are among the work included in the appeal.

Mr. Lewis, in his report on this tower, makes some general observations on the cure of movement in towers. The first is lowering the bells in the tower. Other things being equal, the movement of the tower at the point where the bells are varies as the cube of the height at which they are hung. Here it is not feasible to bring the bells down, as it would involve ringing from the ground floor with an excessive draught of rope and unsightly rope guides.

The second is by 'tucking up' the bells. The horizontal force exerted by any bell can be reduced by 'tucking up' the bell in the headstock so that the centre of gravity of the bell is nearer to the axis of revolution. To do this sufficiently to have much effect would tend to make the bells sluggish to ring and can only be recommended in exceptional cases.

Finally there is altering the position of the ropes or rearranging the whole frame. Considerable relief to the tower could be given by changing the 4th and 6th ropes to the other side of the wheels if there were room enough between the bell chamber and ringing room to draw the ropes into a reasonable circle. Unfortunately, there is not sufficient space for this to be done. The movement could be reduced by redesigning the frame, a major operation involving a good deal of expense.

Despite these disadvantages, ringing takes place regularly at All Saints'. It has taken Mr. Gosden five years to train a band of ringers here, calling up for H.M. Forces being the biggest drawback, but he had his reward a fortnight ago when he was able, for the first time, to go outside and listen to a well-struck touch.

The ringers themselves are in this appeal. At the last meeting of the Surrey Association at Benhilton, a young church member, who is now a ringer, made a recording of the bells ringing Grandsire Triples and Stedman Triples. A number of these records have been and are being sold to visitors and others interested and the profits go to the Restoration Fund. The story of Benhilton could probably be repeated many times in different parts of the country. Their enthusiasm is a practical example of the Church Militant, with the ringers boldly marching side by side with other workers in a great purpose.

BELFRY GOSSIP

Tribute was paid at Moorside, Oldham, on Oct. 30th, to 50 years' service as a ringer by Mr. Herbert Barlow. He rang the same bell in the same method in the same tower on the 50th anniversary of his first peal. which was rung as a 21st birthday compliment to him. He is the only surviving member of the original band.

Mr. Gwyn I. Lewis, of Cadoxton, Neath, has scored his 100th peal. Congratulations.

Master George W. Pipe has passed another ringing milestone—his 25th peal. He is not yet 14.

Mr. H. W. Barrett has now 'circled' Kingston-on-Thames tower, Mr. E. E. Pickering, Earl Shilton, Leics., and Mr. B. Williams, Cadoxton, near Neath.

Mr. Tony Price's name is back again in the peal columns. He has successfully recovered from an attack of rheumatic fever.

The peal of Grandsire Triples at Dartford on October 28th was the first of Triples as conductor for Mr. R. G. Rayfield. Since 1933 he has been calling touches; he has had various failures at quarters of Grandsire. Determination has won through with his first peal of Grandsire Triples for 15 years.

Errata.—The peal of Minor at Eye, Herefordshire, on September 19th, consisted of three extents of St. Clement's and four of Plain Bob and not as printed in the issue of October 8th.

The Swansea and Brecon Diocesan Guild is now 25 years old. First peal for the Guild was on October 29th, 1923, at Talgarth, Breconshire, and Mr. D. H. Bennett rang the same bell in the anniversary peal recorded this week. Also participating was 73-year-old Mr. James A. Smith, formerly of Congresbury, ringing his first peal.

Mr. James Topp, of Frome, whose composition of Grandsire Triples was published last week, has since examined the composition of the Rev. Bankes James and has come to the conclusion that his (Mr. Topp's) composition should be known as a transposition of the Rev. Bankes James' peal. He had no knowledge of this previous peal at the time his composition was submitted to us.

The peal of Doubles at Bearsted, Kent, was the first on the bells by a resident band.

A peal will be attempted at Westminster Abbey for Princess Elizabeth's baby. If the news is received before 1 p.m. the attempt will start at 3.45 p.m.; if later, next morning at 10.30 a.m.

We propose to devote our issue of December 3rd to peals and quarter-peals in honour of the birth of Princess Elizabeth's baby. Items of interest in connection with these peals will also be featured so as to reduce footnotes.

Mr. W. H. Joiner, of St. Leonards-on-Sea, informs us that he was a member of the Mitcham Parish Church band from 1907 to 1939—and not 22 years as stated in last week's Belfry Gossip.

Fullest information about Arklow tenor comes from Mr. W. Shepherd, of Addlestone. He states the measurement is 49½ inches and the weight 22 cwt. 2 qr. 19 lb. The 7th is 15 cwt. 3 qr. 24 lb. with a diameter of 44½ inches. All the ring of eight were cast at Loughborough in 1898.

The Vicar of Aldbourne, Wilts, the Rev. H. R. Gilding, reproduced an extract from the leader of 'The Ringing World' referring to Mrs. Nesbit and her impressions of bells, in his monthly magazine, with an invitation to those interested to get in touch with the local captain, who was arranging weekly ringing practice.

LETTERS TO THE EDITOR

The Speed of a Peal

Dear Sir,—The subject of speed is always fascinating, and it is amazing the difference of opinion it creates. About three years ago the late Mr. J. A. Trollope surprised some of us by suggesting that it was easier to 'turn in' a heavy tenor at a brisk rate than a slow one. In on sense there was some truth in this statement, because it is much easier to 'get away' with slovenly striking when the ringing is fast, whether you are ringing on the front or back end. Now when the ringing is slow each bell has to be *placed*, and every bad blow from any bell is much emphasised.

I'll agree that slower ringing requires less physical exertion on the back end, but it certainly requires much more judgment. And much of the credit goes to the front end people, as their wrists are exercised much more by the slower compass.

Mr. F. E. Haynes appreciates the point that, in slow ringing, it is much more difficult to obtain perfect striking. But it is unfair to assume that when slow ringing takes place, then the striking suffers. From my own experience (including peals on over 50 different tenors weighing 20 cwt. to 40 cwt.) I would say that my slowest peals have produced the best striking. When I read the report of the Somerset tour, and noted the slow times, I was very pleased indeed and would congratulate them on their performances. Many of the rings they visited are very highly Simpson-tuned, and, for my own part, I think that if you want to hear these types of bells to their best advantage then you must ring them slowly. Mr. Trollope once stated that to do the bells at York Minster anything like justice a peal would have to take at least five hours, but he doubted if a band could ring at that pace single-handed. To Mr. Haynes I would say, Pick a good band, find a ring of eight with tenor 25 cwt. and ring the tenor to a peal of Double Norwich or Superlative in any time over 3 hours 30 minutes (or exactly). If everyone puts up a good performance the peal should give you real pleasure!

MR. WILLIAM PYE RECALLED

Dear Sir,—I have been following with interest the articles on heavy bellringing and ringers.

I should like to point out to Mr. Simpson that to compare himself with William Pye is a mistake, referring, of course, to the height or weight of a ringer making any difference to his ringing.

May I add in passing that W. Pye stood 5ft. 7in. and never weighed more than 11 stone, yet to his credit go peals such as 7,000 odd changes at Bow, tenor 53 cwt.: Exeter peal, single-handed on tenor 72 cwt.; Loughborough, tenor 30 cwt., for 12 hours 18 minutes.

I should like to see more letters on this subject, written by more fluent pens than mine—men such as Reuben Sanders, James Bullock, the smallest man to ring St. Paul's tenor single-handed, and others. With the names of those passed on, may I remind Mr. Simpson of men such as J. W. Washbrook, Ernest Pye and J. Riding, to mention a few.

To compare one of Mr. Simpson's peals with that of W. Pye's—Ambleside, 5,056 of Bristol in 3 hours 38 minutes with Mr. Simpson's Double Norwich, 5,008, in 3 hours 34 minutes, at the same church, tenor being 32 cwt. Would he say the Bristol was too quick? — Yours sincerely,

F. W. PYE.

Blackhorse Farm, Wickhambrook, Suffolk.

The peal of Double Norwich Court Bob Major at St. Stephen-the-Martyr, Bristol, on October 30th, was arranged to enable R. G. Hooper to score his first peal of Double Norwich before leaving Bristol for Catterick for his military training.

Tenor Ringers and Others

Dear Sir,—I did not mention the Somerset tour in my remarks on tenor ringing. I have had these in mind for some time, but I must admit the remarkably slow times during that tour brought my thoughts to a head.

Firstly, I must again assure Mr. Simpson and any others that the time they take over peals is purely their own concern. What I am and was concerned about was the time factor when comparisons are made with other performances. I haven't any doubt whatever that the peals in Somerset were bona-fide, and must congratulate them on a successful tour and methods rung. I shall not attempt to beat them; even in my best days I should never have undertaken such an amount of unpaid work—holiday, did I hear some people say? The slow times are ample proof of the wonderful 'go' of those bells. Even a band of supermen couldn't lift and hold bells of those weights all that time if the going was bad.

That brings me to the point expressed by Mr. Haynes, viz., that a tenor ringer is usually expected to work and force a bell along beyond her normal gait, even if the bells are 'a box of music,' otherwise the ringing, however free from trips, is dull and lifeless. In the sense that a man is unwilling or unable to ring a tenor beyond its normal pace I maintain the bell *is* ringing the ringer and not vice versa. Bells are expected to be hung so well now that any immature boy or girl can ring them, or they are condemned as bad going, and any man who rings them at their own pace is not, in my opinion, a tenor ringer, but only one of a crowd!

I should like to contradict another fallacy, if I may, and that is the idea that slow ringing is harder to strike. It is only harder if ringing is irregular or bells go badly, otherwise a band who are strikers can ring and strike at any pace. In fact, ringing a bell the fraction of a second late or early, in fast ringing, would cause a clash, the same variation in slow time would pass unnoticed. If people find it harder to strike properly when ringing in slow time it simply shows their lack of versatility.

I would also deny that people have no control over a bell unless it goes up to the point of balance each time. Of course, if you don't know what the remainder of the band are going to do from pull to pull you would have to do so, but with a band of strikers the bells could be half-way down, the little extra check or pull being used for cutting or rising. It would, of course, have to be good ringing, with no trips, or only slight ones.—Yours sincerely,

MAURICE F. R. HIBBERT.

Bushey, Herts.

A DELECTABLE WELCOME TO THE DELECTABLE DUCHY

The peal at Stratton was a joint Devon and Cornwall affair to welcome Mr. Charles Sharples to N.E. Cornwall, which borders so closely upon Devonshire. Stratton bells are a grand ring; cast and hung by Taylors in 1911, they have recently been rehung on ball bearings by the same firm. The peal was worthy of the bells, and Mr. G. Harry Myers, who has recently been compelled to take a complete rest, travelled the 50 miles from Plymouth to listen, and he did not go home without a pull, but helped several of the local band to lower the bells in peal.

Such occasions have their happy sequel: a goodly company was entertained to a lavish tea—this time boiled eggs, Cornish saffron buns and other good things. Several speakers extended a welcome to Mr. Sharples, and pleasure at his coming to that part: and as one said he was lucky to be able to get his ringing with the cream of Devon and Cornish ringers.

Kent County Association

ROCHESTER DISTRICT.

The annual meeting was held at Frindsbury on October 16th, the place of the meeting being changed from Rochester owing to the limited accommodation and large attendance at the previous meetings. This year with room to seat 200, only 65 members attended against 120 last year.

Ringing commenced at 2.30 and continued in various methods until 4.15, when the ringers' service was conducted by the Rev. John Lloyd, who is a member of the Association. During his address the Vicar spoke of the part church bells had played during his life from boyhood right through his ministry, both in this country and in Canada. How, when he was travelling round his huge parish in Canada, from one settlement to another, he had begged odd lengths of railway metal from the Canadian Pacific Railway to tie in a tree and strike with a bolt to call his few faithful to service and worship. A collection for the Belfry Repair Fund amounted to £2 0s. 9d.

Tea was taken in the Parish Hall and was followed by a business meeting, presided over by the Vicar.

The district secretary (Mr. B. W. May) presented his report, which showed an increase in membership, more towers in union and also an increase in the number of peals rung during the year. Two new members were elected and all the retiring officers were re-elected.

It was decided to hold the next meeting at Bobbing in November and the next quarterly meeting at Sittingbourne in January.

Mr. G. H. Spice expressed thanks to the Vicar and all who had helped to make the meeting so successful, and members dispersed for more ringing in the Parish Church and at Rochester Cathedral.

CAMBRIDGE YOUTHS

A meeting of the Society of Cambridge Youths was held in Great St. Mary's Church on October 18th, with the president, Canon G. E. A. Whitworth, in the chair. The secretary reported a year of steady progress.

Following an appeal in the local Press for recruits, about a dozen came along and eight of these were elected ringing members at the meeting. The bells are now rung for both morning and evening services.

The following officers were elected: Ringing Master, H. Martin; secretary, J. W. R. Quinney; auditor, T. R. Dennis; committee, B. Allgood, C. Hurst and E. G. Hibbins. The question of an outing was discussed and it is hoped to visit Oxford if this can be arranged on Whit Monday next year.

GOLDEN WEDDING QUARTER

As a golden wedding compliment to Mr. W. H. Joiner, 1,260 Grandsire Triples was rung at St. Andrew's, Kingsbury, N.W., on October 24th, by F. H. Eveleigh 1, J. S. Hawkins 2, F. A. Barker 3, J. H. R. Rainforth 4, E. E. Pratchett 5, G. A. Parsons 6, A. W. Coles (cond.) 7, W. E. Eveleigh 8. It was the first quarter by 1, 4 and 8. Mr. J. S. Hawkins, who rang the second, recalls ringing a peal with Mr. F. Richardson at Hughenden, Bucks, on July 23rd, 1898, and states that their next meeting was on July 23rd, 1948—50 years later.

HE TOOK HIS HANDBELLS TO FRANCE

AND RANG FOR HIS ENGAGEMENT AT THE EIFFEL TOWER.

When the brothers Eric and Geoffrey Dodds went to France last September they took an octave of handbells with them. At Paris they were joined by Miss Jeanne Askew (Brentford), who had recently started change ringing.

The first week was spent sightseeing the chateaux of the Loire. Despite combined arguing with the guide, the bells of Tours Cathedral were not allowed to be visited because of the delicate 'electrical mechanism.' Later it was found that many French churches have their bells rung on the electric 'Autosonneur' principle, where the priest just switches on the bells for five minutes before service time—so much less work than in England!

Several evenings were spent with the handbells, sitting out of doors under a warm starlit sky with a large vine clinging to the ancient hotel wall behind.

The second week was in Paris. A visit was very soon made to the Bourdon of Notre Dame, but, despite several visits, the bell was not seen ringing. The ringing appears to be in the hands of their 'Ministry of Works,' so it must be rarely heard, like Imperial Institute, London. The Bourdon is rung by eight men who treadle planks fixed to the headstock in a see-saw manner. The most that was achieved there was a hurried course of Grandsire Doubles inside the bell!

On Wednesday morning a visit was made to the Church of the Sacré Cœur, where the tourists' first 120 of Grandsire Doubles was quite well struck, on the dome, the belfry not being open that day. As a souvenir of the first 'extent,' they were lucky enough to find some 'bell charms' on sale here. By now they were getting used to the opening phrase, 'Nous sonnons les cloches en Angleterre. . . .' when trying to explain to the various guides their peculiar form of English madness.

Next day, the ascent of the Eiffel Tower was made, and, to celebrate the engagement of the two Brentford ringers on the previous afternoon, 120 of Grandsire was again rung, up in the skies this time: Eric Dodds 1-2, Geoffrey Dodds (cond.) 3-4, Miss Jeanne Askew 5-6. That's one tower you tower snatchers haven't got!

On Sunday, Miss Jeanne Askew returned to England and the two brothers went on their own to St. Quentin to visit a pen friend. She was very glad the handbells had been brought, as no one had been able to understand her description of English ringing she had seen while in England, having nothing at all like it in France. The first evening she was given her first lesson, and at the end rang 5-6 to a 120 of Grandsire! On the last night, at about 12.30 a.m., she put up a really remarkable performance. 'On Sept. 29th, 720 of Grandsire Doubles, being six different extents: Eric Dodds (longest length 'in hand') 1-2, Geoffrey Dodds (cond.) 3-4, Mlle Micheline Brunelet (first 720, ringing 10 days only) 5-6.'

Visits were made to the carillons of St. Quentin and Cambrai Town Halls. That of St. Quentin is rather out of tune and plays different, rather curious and unrecognisable tunes every quarter of an hour. That of Cambrai plays a rather wild version of the Westminster chimes. An interesting feature of many bells in this area is that they all record in their inscription that they were recast after their removal and destruction by the Germans in the first World War.

Liesse, a shrine in the province of Aisne, the 'Lourdes of the North,' was visited. On being told that two 'expert bellringers from England' wanted to see the carillon, the priest quickly led the way up. He uncovered the clavier, a little the worse for neglect in the war, and offered them the chance of trying it out. Opportunity comes but once, so, for the first time in history, perhaps, English change ringing thundered out from a French belfry with a course of Grandsire Doubles, played by Geoffrey Dodds. After a few hymn tunes the party was shown the bells. Five bells have full wheels, one a half-wheel, all six with ropes down into the church in a good rope circle. Apart from a suspected weak frame, the bells should be ringable. more or less, in the English way. The half-wheel bell was rung for the Angelus at noon and made a very interesting sight. Mlle Brunelet crept down to the clavier and played 'Frère Jacques' to tease the priest! He went down, laughing, and asked her if she could play a waltz, so the 'Blue Danube' was played! This was followed by a bit of 'Boogie-Woogie,' and, believe it or not, she now has the invitation to go and play whenever she likes, as they have no carrillonneur! At his special request, another course of Grandsire Doubles was played and that was that, a most satisfactory day.

Everywhere the handbells were rung great interest was taken, as no one had ever seen or heard anything like them before. (Job for the British Council?) Many questions were asked, especially on the strange idea of organised "ringing societies' in England.

WEDDING OF MISS R. LENEY

Miss Ruth Leney, a member of the Hawkhurst and District Guild and a regular Sunday service ringer at Benenden, was married at St. George's Church, Benenden, Kent, on Oct. 23rd, to Mr. Trevor C. Collingwood. The Rev. N. E. Ashenden, Rector of St. Paul's, Salisbury, officiated, assisted by the Rev. C. Hankin-Turvin. Both are uncles of the bride. At the organ was the Rev. V. B. Yearsley. The church was prettily decorated with autumn flowers.

The bride wore a classic gown of ivory printed satin with a bridal veil of Brussels net and lace, which was over 100 years old. Over 200 guests attended the reception, after which the happy couple left for their honeymoon in Lugarno, Switzerland.

After the service, call changes and touches of Grandsire were rung, followed by an attempt for a peal of Bob Major, at Rolvenden, by a representative band from Hawkhurst, Benenden, Frittenden, Tenterden and Wadhurst. The peal came to grief after 2½ hours' ringing, due to a change of course. The band was: Miss V. Relf 1, Miss H. Gorringe 2, J. O. Santer 3, H. Baker 4, L. W. Jarvis 5, W. Gorringe 6, C. A. Bassett 7, M. S. Cloke (cond.) 8. J.O.S.

COVENTRY DIOCESAN GUILD

MEETING AT ALCESTER.

The quarterly meeting of the Guild attracted 84 members and friends to Alcester. The funeral of a local Nonconformist minister having taken place prior to time arranged for the start of ringing, the bells were rung half-muffled before tea as a token of respect.

The Guild service was conducted by the Rector, the Rev. N. W. Scott. The business meeting, held after tea, was presided over by the Rev. J. Emrys Jones, Rector of Temple Grafton with Binton, near Alcester. A proposal that a dinner be held was turned down, mainly owing to its cost. New members elected were A. Evans (Priors Marston), F. Rouse (Coventry) as ringing members, and E. Nobles (Northampton), H. Parkinson (Leeds), F. H. Hicks (Hailsham) and A. D. Cook (Birmingham), as non-resident life members.

Bulkington was selected for the January quarterly meeting and Stratford-on-Avon for the annual meeting in April.

A meeting of the Nuneaton district is to be held at Nuneaton on December 11th in conjunction with the Ladies' Guild (West Midland Branch).

The bells of Salford Priors were placed at the disposal of members for an hour during the evening and were made good use of.

Dedications

WINGFIELD, SUFFOLK.

St. Andrew's, Wingfield, a beautiful 14th century church with its 24 clerestory windows and a tower containing six bells, had its bells rededicated by the Bishop of St. Edmundsbury and Ipswich on October 24th.

About 50 years ago the bells were in a bad state, and the village smith, a ringer, undertook to overhaul them for the sum of £8. Upon lifting the bells from their brasses he found that the gudgeons were badly worn and decided to remove these from the headstock.

A piece of metal was welded to them on the forge fire and rounded off. They were then turned up in a hand-made lathe and made to fit in the brasses. After being case hardened the bells were reassembled and the work completed.

This put the bells into fair ringing order and they continued in use until 1938, when the oak frame fell into decay and was considered unsafe for ringing.

This year an order was placed with Messrs. Gillett and Johnston, Ltd., Croydon, to have the bells rehung and they accomplished the work in six months. The contract consisted of a new steel frame, ball bearings, wheels, headstocks and ropes and the bells quarter turned and cleaned.

The total cost of the work, including renovations to the tower, is £1,000. In 2¼ years the parishioners have raised £850 by direct giving and social functions, and it is hoped shortly to complete the fund.

A large congregation, including many visitors from surrounding parishes, attended the service. The dedication was performed at the close of the singing of the first hymn. The Bishop was escorted to the bell chamber by the Vicar (the Rev. G. H. Dyer). After the blessing of the bells a few rounds were rung by local ringers.

In an address the Bishop said he was one of those who loved to hear church bells because there is no music so sweet. He congratulated the people of Wingfield on their efforts, which showed that they loved their church and all that belonged to it and were doing their best to maintain it and hand it on. He also paid tribute to the Suffolk Guild of Ringers (many of whom rang after the service) for their work in the interest of the Church in the diocese. The danger he had found in another diocese, that the art of change ringing might die out, was proving, he was glad to say, ill-founded as far as the diocese of St. Edmundsbury and Ipswich was concerned.

After the service ringers from Yaxley, Scole, Diss, Pulham, Mendham, Croydon, Fressingfield, Wissett, Wenhaston, Framlingham, Badingham, Palgrave, Dennington, Wilby and Wingfield took part in the ringing.

CHRIST CHURCH, EALING.

The Middlesex turned out in full strength on October 30th for the rededication of the bells of Christ Church, Ealing.

This glorious church was extensively damaged by a flying bomb in July, 1944, and part of the restoration scheme which is now in progress was the complete overhaul of the bells. The three front bells have been recast, the rest retuned, and the octave hung on ball bearings.

The Vicar (the Rev. A. A. de Vere) conducted the service of dedication in the presence of a large congregation of parishioners and over one hundred ringers and friends. The bells were opened by the Christ Church band, including Mr. A. A. Hughes, of the Whitechapel Foundry, whose firm carried out the restoration, and are to be heartily congratulated on an excellent splice, the beautiful tone exceeding all expectations.

Tea was provided by the Vicar and churchwardens, followed by further ringing

It is interesting to note that the late J. A. Trollope worshipped at this church, where he was Vicar's warden for many years. F.A.F.

Devon Guild of Ringers

BRANCH MEETING AT TORQUAY.

The Mid-Devon Branch held an enjoyable meeting in Torquay on October 30th, when members and friends attended from Newton Abbot, Torquay, Paignton, Brixham, Dartmouth, Ashburton, Buckfastleigh and Plymouth.

The bells of Torre Parish Church were well utilised during the afternoon, this being followed by a service in church, which was conducted by the Vicar (the Rev. G. E. Porter), who gave an excellent address.

After tea at the Belgrave Cafe, the usual business meeting followed, with Mr. J. E. Lilley in the chair. Apologies for absence were received from the president and general secretary.

A letter was received from Mr. Cecil Pipe, of Grundisburgh, asking for support towards the restoration of his bells, and the meeting decided to do its best.

The election of one associate member was confirmed, and the programme for 1949 was produced and adopted, this being as follows: February 7th, Bovey Tracey; April 23rd, Paignton; June 25th, joint meeting with the South-West Branch at Buckfast Abbey; August Bank Holiday, outing to Dartmouth; July 23rd, Brixham; August 27th, special meeting at Highweek or Wolborough; October 29th, Dartington and Totnes; all subject to permission being obtained. Arrangements were also made for visits to neighbouring towers during the remainder of this year.

Regret was expressed at the forthcoming departure of Mr. Norman Mallett, of Ashburton, to Axminster, and a welcome was extended to Mr. Gardner, of Brixham.

The Vicar of Torre reported that owing to difficulties in the neighbourhood it was not always possible for his bells to be rung on Sundays, and after a discussion it was resolved that the branch should arrange to ring for evening service on the second Sunday in each month, the question of any ringing in the week being left in the hands of the Branch Committee.

CARE OF BELLS

EVERY parochial church council in the country should have a copy of the latest publication of the Central Council—a handbook on the installation, preservation and repair of bells, bell frames and fittings, and it is only right and proper that a copy should be in each belfry for consultation by the towerkeeper and captain of the local ringers. The care of church bells has been constantly in the mind of the Central Council. This handbook was first published in 1891 in the days when Sir A. Percival Heywood was president, and there is no question that it fulfilled its purpose in bringing about a more watchful eye on the hundreds of pounds of Church capital invested in the belfry.

A second edition was published nearly 40 years later, and a third edition, the work of Messrs. E. H. Lewis, W. Osborne, F. Sharpe and E. A. Young, is available this week. In the light of modern experience and knowledge the first part of the handbook has been re-written and a new chapter introduced giving fuller information about the forces set up by swinging bells and their effect on the tower. Greater stress has been laid on the importance of sound control, both inside and outside the tower, in view of the increased sensitiveness of the public to sound.

Cracked bells are rarely due to any cause but *carelessness*. The handbook points out a number of avoidable causes of cracked bells such as the dangerous and slovenly practice of clocking; the hollow worn in the sound-bow becoming too deep (this can be prevented by 'quarter turning'); chiming hammers or clock hammers either too heavy or fixed carelessly; unskilful hands 'bumping' a stay too strong to break. Clappers must not be permitted to drop by wear so as to strike below the centre of the sound-bows of their respective bells or the result may be fatal. This drop usually arises from neglecting to keep the pin of the clapper joint greased or by neglecting to rebush the clapper heads when necessary.

A popular misconception is that a ring of bells hung on up-to-date principles, with cast iron headstocks and iron frames, does not require any attention except to lubricate the main bearings. No matter how good the job is and how careful the bellhanger, nuts will slack. As to lubrication, 'a little and often' should be the motto. The gudgeons are not the only parts that need attention in this respect; the ground pulleys, the crown staple-pins on which the clappers swing and the sliders seldom get the attention they should.

The chapter on the means of controlling the sound of bells is of special interest in view of the frequency with which problems arise. The cure of too much sound outside the tower is not a great expense. The main principle is to allow the sound to escape upwards through spare windows or special openings on the roof of the tower, or, failing these, from as high a point in the belfry as possible. All belfry windows should be blocked to a point well above the lips of the bells when 'set.' In towns, where the evil is most acute, the most effectual way of damping the sound of bells is by almost entirely blocking up the sound-windows inside with 9 inch or 14 inch brickwork rising to the spring of the arch-heads; in the case of a square-headed window to within a foot of the top. In country places a milder measure than permanent blocking will probably suffice and may be found in 1 inch boarding lined with Cabot's Quilt or some other sound-resisting material, and filling up the window-space behind the louvres nearly to the top. Unlined boards are useless. Copies of the handbook can be obtained from the Hon. Librarian (Mr. W. H. J. Hooton), Osmington School, Tring, Hertfordshire.

BELFRY GOSSIP

Mr. C. E. Jeffries, whose 100th peal is recorded this week, has called first peals of Yorkshire, Belgrave and Pudsey Surprise Major for the Bedfordshire Association, and also the first for the Association, in 12, 14, 16 and 21 methods of Minor. His 100 should make good reading. Congratulations!

Mr. Stanley Gilbert has 'circled' Holywell, Hunts, tower.

We have had a request for the figures of the composition of the peal of Bristol Surprise Major rung at Melton Mowbray on Sept. 25th.

Alverstoke was the 150th different tenor that Mr. A. Patrick Cannon has 'turned in' to a peal. This was his 25th peal of Double Norwich Court Bob Major rung on 24 different tenors.

Mention has previously been made of the band of youngsters in the Wirral branch of the Chester Diocesan Guild. Their latest exploit is a peal of Cambridge Surprise Major at Bebington. With an average age of 20 they believe they are the youngest band to ring a peal of Surprise Major for the Guild.

Four of the band—T. Smith, A. W. Cusick, C. B. Pemberton and A. K. Humphreys—have only been ringing just over 12 months, but have all recorded peals of Minor 'inside' up to seven methods. C. B. Pemberton has rung 'inside' to a spliced peal of 18 Surprise Minor methods.

Visitors from Felpham, Goring, Storrington and Worthing joined with Chichester Cathedral band in ringing for the annual parish choirs festival in the Cathedral on October 30th. Before the service 1,260 Grandsire Triples was rung by R. Burchett 1, Myrtle Cass 2, Mrs. G. W. Tamplin 3, W. R. Falconer 4, E. Treagus 5, R. P. Wood (cond.) 6, H. C. Weaver 7, F. S. Smithers 8. First quarter on eight bells for 1 and 2.

Mr. James George is attempting another handbell peal for his 95th birthday on Saturday, November 27th. We all wish the oldest surviving veteran ringer every happiness on his natal day. Mr. George's last tower-bell peal was at Enderby on August 24th, 1939, at the age of 85.

Messrs. R. Newman and G. Charge rang their 100th quarter-peal together at St. Mary Magdalene's, Holloway, N.7, on Oct. 24th.

Watlington, Oxon, tower was the 100th in which Mr. Walter F. Judge has rung a peal. The peal on November 6th was a birthday compliment to Mrs. F. A. H. Wilkins, the wife of the ringer of the seventh.

It was Victor Savage and not Frederick Savage who scored his first peal of Minor at Chilcompton, Somerset, on October 11th. The conductor proffers his apologies to all concerned.

Canon G. F. Coleridge celebrated his 91st birthday on Wednesday, Nov. 10th. On the advice of his friends he decided not to risk attending the College Youths dinner last Saturday. His letter stated that he was much better.

Armed with bell ropes and a large quantity of oil, seven members of the Lincoln Cathedral company, with John S. Mason, Birmingham, assembled on November to ring a peal on the magnificent heavy eight of Louth, Lincolnshire. It was over 28 years since a peal was rung on these bells, and after forcibly opening the caps to the bearings the Birmingham friend declared it seemed probable that it was over 28 years since these were oiled! Forethought was rewarded by a good peal of London Surprise in 3 hours 28 minutes. It was the 100th peal together for Charles McGuiness and John Walden, and the conductor's (Mr. Jack L. Millhouse) 50th peal this year.

MARRIED COUPLES' PEAL OF CINQUES

First in Ringing History

THE first peal on twelve bells to be accomplished by six married couples was rung at the Cathedral Church of St. Martin, Leicester, on October 30th. As reported in another column, it was a peal of Stedman Cinques and was rung at the first attempt.

The idea was suggested nearly two years ago, but the parties agreed to wait until October 23rd, 1948, for the occasion to be as near as possible to the silver wedding dates of two couples. Within a few weeks of the appointed date, however, it was found permission could not be given owing to the Leicester Diocesan Festival, and so the attempt was postponed by one week.

Families connected with the project and with their length of matrimonial commitments are as follows:

Mr. and Mrs. A. D. Barker, 26 years.
Mr. and Mrs. R. F. Deal, 25 years.
Mr. and Mrs. C. J. Matthews, 25 years.
Mr. and Mrs. H. J. Poole, 21 years.
Mr. and Mrs. J. Thomas, 11 years.
Mr. and Mrs. T. J. Lock, 10 years.

It will be noticed in the peal report that the ringing order was so arranged that each husband stood 'opposite' each wife, this apparently dispelling any fear of causing embarrassment. After a few rounds and the usual final preparations, the bells were rung into changes at twelve minutes past two o'clock, and each ringer, with full determination for success, maintained an even beat throughout until the final call was made at fifty-four minutes past five o'clock. The performance will be cherished by all the band, and a special word of praise must be accorded to the ladies, who rang their bells in excellent manner.

A suggestion was made, before the attempt, and with a certain timidity, that the peal be rung for the Ladies' Guild by electing the 'outsiders' as honorary ringing members, thus enabling the Guild to record its first peal on twelve bells. Although this was not unanimously agreed to, there is a hope that some relevant item will appear on the agenda paper of the next annual meeting of the Ladies' Guild. (Is Kate in retirement?)

Following the performance, Mr. and Mrs. Poole kindly entertained the party to dinner, after which mine host welcomed the visitors and said that no doubt all were pleased at the successful conclusion of the peal and that he thought Leicester Cathedral contained the best ring of twelve bells on which to attempt the record. Mr. Matthews replied with thanks on behalf of the visitors and remarked that he was sure never before had six husbands with their wives been together in the same room for over three hours with so few words being spoken (a silent tribute to the men, of course). Upon the dinner table was a 'wedding compliments' cake, made by Mrs. Poole, suitably iced and decorated with a tower (christened Evesham by the party) and six pairs of bells. Mrs. Deal was chosen to cut the cake, which she performed unaided.

A social evening then ensued, the numbers being swelled by several local ringers, when handbells were rung in courses and touches up to Cambridge Surprise Royal and Stedman Cinques.

The couples from left to right, starting from the back row, are: Mr. and Mrs. Harold J. Poole, Mr. and Mrs. Thomas J. Lock, Mr. and Mrs. J. Thomas, Mr. and Mrs. Arthur D. Barker, Mr. and Mrs. Cecil J. Matthews, and Mr. and Mrs. Richard F. Deal.

The whole band would like to record, through the medium of the Press, its thanks to the Provost of Leicester Cathedral for permitting the attempt to be made, and the visitors would like to thank Mr. and Mrs. Poole for their most generous hospitality.

DEDICATION

ALDRINGTON, SUSSEX.

The bells of St. Leonard's, Aldrington, Sussex, are now in good going order, having recently been retuned and rehung with all new ballbearing fittings by Messrs. John Taylor and Co., of Loughborough.

The rededication of the bells took place on October 10th at the morning service by the Bishop of Chichester. Immediately after the dedicatory prayers, rounds were rung by the six youngest members of the band as follows: Mary Brown 1, F. Taye 2, H. Brown 3, D. Hebbett 4, S. Brown 5, K. Sharpe 6. After the service, as the congregation were leaving, a touch of Grandsire Doubles was rung.

In the afternoon and for evening service touches of Plain Bob Minor and Grandsire Doubles were rung by the local band and visiting ringers.

North Staffordshire Assn.

A NOTICEABLE IMPROVEMENT.

'Taking everything into consideration, there has been a noticeable improvement in the standard of ringing,' reported Mr. W. Carnwell in his report presented at the annual meeting of the Association at Bucknall on Nov. 6th.

'Peals have been rung in the more advanced methods, including a peal of Cambridge Surprise Major at Audley, the first to be rung by a resident band of the Association.

Twelve meetings had been held during the year, all being well attended with an average of 41 per meeting. During the year the sub-committee had met and made certain recommendations in the revision of rules. These, it is hoped, will be submitted in January for approval.

The second annual outing was held on June 12th, when towers in the Wirral Branch area were visited. The report recorded with regret the death of Mr. J. Burrows, of Uttoxeter, who at one time was a very active member. Nineteen resident ringing members, two honorary members and eight life members had been elected.

Peals rung numbered 22 and nine members rang their first peal. Conductors were C. H. Page 4, N. R. Holland 4, C. S. Ryles 3, A. W. Hall 2, J. G. Cartlidge, W. P. Dean, D. A. Anstey, J. Jolley, F. W. Grocott, jun., D. R. Whalley, John Worth, A. Moore and W. Carnwell one each.

The statement of accounts showed a credit balance of £66 2s. 6d. after making grants to Wolstanton, Uttoxeter and Newcastle.

Officers elected for 1939 were as follows: Chairman, R. S. Anderson; hon. secretary, W. Carnwell; assistant hon. secretary, W. Edwards; treasurer, E. Steele; auditor, J. G. Cartlidge; Ringing Master for eight and ten-bell towers, F. Wilshaw; Ringing Master for six-bell towers, F. W. Grocott, jun.

Meetings approved for 1949 were: January, Newcastle; February, Longton; March, Cheadle; April, Audley; May, Leek; June, Kingsley; July, Stone; August, Cheddleton; September, Uttoxeter; October, Wolstanton; November, Bucknall; December, Stoke.

A vote of thanks to the secretary for his work was proposed by Mr. A. W. Hall, seconded by Mr. D. Whalley. The secretary, in his reply, thanked all members for their support and co-operation during the past year.

With the idea of getting all their members (most of whom are learners) through their first quarter, Farnborough, Hants, ringers attempt a quarter on the first Sunday of each month. So far this year they have had four successes out of eight attempts and each one, writes the conductor (Mr. G. Sidney Joyce), has had at least one first quarter.

LETTERS TO THE EDITOR

Tenors & the Speed of a Peal

Dear Sir,—About to 'tenor' my first peal last Saturday (which we eventually got, 3 hours 17 minutes), naturally I was very interested in what ringers like Mr. Simpson, Mr. Haynes and Mr. Hibbert have to say regarding 'the speed of a peal.' Whilst our tenor, 20 cwt., is hardly comparable to 28½-30-31 cwt. tenors, I think a more important factor was missed—the relative weights of front end to back end and the size of wheels. In the case of our ring the first five of the front end are 4 cwt., the sixth 5 cwt., seventh 8 cwt., eighth 9 cwt., ninth 13 cwt., tenor 20 cwt.

Mr. Haynes says 'one of the secrets of good striking, even on light rings, is work on the part of ringers, especially by the back-enders; if the tenors are allowed to dawdle at their own pace the ringing is almost bound to become slipshod and irregular'; but does it not also apply equally when the tenors ring too close; is it not also a matter of timing? I searched the articles for some guidance and found that neither Mr. Simpson nor Mr. Haynes would sacrifice proper control for speed; plus the proper placing of the band, which our conductor, Mr. R. D. Langford, wisely did. Thanks to the writers and the Editor for articles that 'make you think.'—Yours faithfully, W. FRANK STENSON.

Crewe.

A CONVERT TO SLOW RINGING

Dear Sir,—I confirm the time of the peal at Bowdon as three hours fifty minutes. It was rung without any idea of encouraging or discouraging the correspondence in 'The Ringing World.' It just happened as a result of my suggesting that slow ringing helps to improve striking, particularly on this particular ring of bells. It certainly demands that the band knows the method despite what some correspondents write. You may be assured that the peal at Bowdon was well and truly rung and quite well struck despite the time.

I am glad the Somerset tour has raised interest in the speed of ringing which will no doubt have its effect on striking. I, personally, am converted to slow ringing as a result of the tour.—Yours sincerely,

C. KENNETH LEWIS.

Altrincham, Cheshire.

BRISTOL AT GILMORTON

Dear Sir,—Re the report of peal of Bristol rung at Gilmorton, Leicestershire, on Saturday, October 23rd, 1948, as first on the bells, the first of Bristol there was rung on July 23rd, 1937. Mr. F. W. Perrins called it. Why does a band make such silly claims? It's easy enough to find out.—Yours truly,

F. H. DEXTER.

Leicester.

SPLICED SURPRISE MAJOR

Dear Sir.—While thanking you for publishing my 5,280 Spliced Surprise Major in the issue of November 12th, I shall be obliged if you will kindly point out that following 23645 the methods on the next line should read SSSCPPP instead of SSSSCPPP.—Yours faithfully, A. J. PITMAN.

Port Talbot.

ARKLOW TENOR AND SEVENTH

Dear Sir,—I am pleased to say that the tenor of the eight at Arklow remains the same size, that is 22 cwt. But the peal rung there recently was, as your readers will have observed, one of Doubles. This peal was rung on 1, 2, 3, 4 and 5, with 7 covering, and the weight of the 7th is about 15 cwt.

Trusting that this will ease your correspondent's mind.—Yours sincerely.

FRED E. DUKES.

Jenkinstown.

Nation-wide Appeals

Dear Sir,—A few years ago I sent out a country-wide appeal to all guilds and associations to take a retiring collection at branch meetings for a church in Northampton proposing to have new bells. Sixty-six branches responded, which I considered very gratifying. Similar appeals have since been sent out from towers in the neighbourhood of Ipswich and Somerset—and a very good idea too!

There are, however, those in the ringing fraternity who are very fond of bringing up the old bogey about 'charity begins at home, and if we have got any money to spare we should give it to towers in our own branches.' Ringers, least of anyone, should not think on those lines, seeing the hospitality they enjoy on outings in one another's areas.

Then there are those who think if they have given £10 out of their Guild Belfry Repair Fund towards a £700 or £800 job in their diocese they have done wonders, which entitles them to the right to control all the ringing of that tower, to say who is to ring peals. But this (to quote a former Vicar of my own parish) is a little element of 'trade unionism' which is dangerous and of which the Church has got to keep a watchful eye—it is the devil at work!

It is estimated that there are roughly 40,000 ringers in this country. If half that number gave only 1d. each the handsome total of £83 6s. 8d. would be produced. How encouraged this would make the promoters of any big scheme feel. And what if these schemes did crop up every month (as some fear)—what's a 1d. a month to any of us? Is it worth arguing about, even if it is in addition to the contribution to our own particular diocesan belfry repair fund? The wider issues surely outweigh such a narrow outlook.

Northampton. P. AMOS.

P.S.—At the time of writing I have in mind Grafton Regis, Northants (a parish of only 90 people), struggling to augment its bells from four to five and rehang the four. The Rev. H. B. Cartman is the Rector if any reader feels disposed to send a small donation. —P.A.

INFORMATION WANTED

Dear Sir,—Can anyone please tell me the total number of different true extents possible in Bob Minor and also in Kent Treble Bob Minor, including those with 6-5's at back?—Yours sincerely, G. SIDNEY JOYCE.

OBITUARY

FLYING OFFICER MARTIN A. BLAMEY.

Burnham, Bucks, band have received news of the death of yet another of their pre-war boys' peal ringing band in the service of his country. Martin lost his life when his machine was blown to bits in mid-air whilst on duty with the air-lift to Berlin. It will be remembered that his brother Peter (another of the boys' band), also in the R.A.F., lost his life during the war.

Both learned to ring at Burnham when the family came from Uxbridge in 1935; they also joined Burnham choir. Against Peter's 15 peals for the St. Peter's Society, Burnham, Martin had scored 13, ringing his first, a local band peal, at the age of 15 on March 29th, 1937. His last peal was rung on April 10th, 1939, at Burnham, and was arranged for him and his brother on one of their R.A.F. leaves from Cranwell. Both boys were safe ringers and good strikers in many Minor, Triples and Major methods. They were both members of the Oxford Diocesan Guild and also the Society of Royal Cumberland Youths.

Martin's peal list is: Minor, four methods 1, six methods 1, seven methods 6; Bob Major 2; Kent Treble Bob Major 2; Oxford Treble Bob Major 1; total 13. Three of these were rung for the Oxford Guild and the remaining ten for the S.R.C.Y. G. G.

Mr. Robert H. Brundle

THE OLDEST COLLEGE YOUTH

The death of Mr. Robert H. Brundle, of Ipswich, on November 1st, at the age of 97, has deprived the Suffolk Guild of its oldest member. He was perhaps the oldest ringer in England, as he was born on September 18th, 1851. He was the oldest College Youth.

The possessor of a wonderful constitution, Mr. Brundle met with a chapter of accidents during the last few years. On several occasions after ringing a heavy-going tenor to a peal he has stumbled from the box and had to be revived with brandy.

Mr. Bob Brundle's first peal was Grandsire Caters at St. Mary-le-Tower on October 22nd, 1878, conducted by Dan Prentice. He rang in the record peal of 16,608 changes of Oxford Treble Bob Major in 10 hours and 32 minutes at Debenham, Suffolk, on June 6th, 1892. The only survivor of this peal now is Frederick J. Tillett, of Ipswich, who rang the tenor.

On October 15th, 1938, he rang a peal of Cambridge Surprise Maximus at Ipswich in three hours 48 minutes at the age of 87, being the oldest to ring this method on twelve bells. For the Norwich Association and Suffolk Guild he rang 339 peals, including three on handbells. Besides these, he rang peals for other societies. In his long career he rang with five generations of the Tillett family in Ipswich.

The funeral took place at Ipswich Cemetery on November 5th, the service being conducted by Canon F. Mitton, Vicar of All Saints', Ipswich. A large number of his descendants attended and among the ringers present were Mr. Cecil W. Pipe (secretary, Suffolk Guild), Messrs. G. E. Symonds and W. J. G. Brown (St. Mary-le-Tower) and Mr. James Rose (St. Margaret's Society). The St. Mary-le-Tower Society sent a wreath as a tribute of esteem.

MR. HARRY BARTRAM.

The following appreciation comes from Mr. W. Smith, of Sydney, Australia:—

Mr. Harry Bartram was the driving force and source of instruction and encouragement to all ringers of the Framland Society when I joined as a youth in 1907 as a member of the Long Clawson band. He was a born instructor and conductor and had endless patience with young ringers who were eager to work and to study. In his own tower he was a wonderful host and enjoyed the company of visiting ringers.

I have happy memories of ringing with him in 1917-18 when I visited Melton as a member of the Australian Forces on leave from France. My last ring with him was a touch of Minor at a gathering of the Framland Society at Waltham in 1927—one of the highlights of my last holiday in England.

He did a great work for change ringing and his many ringing friends will hold him always in affectionate remembrance.

OUTING

NORTHAMPTON.

A party of 28 ringers and friends left Northampton at mid-day on November 6th for an enjoyable outing. At Deddington, the coach was met by Mr. George Deeley and an hour's ringing took place on the fine eight. Chipping Norton bells were 'up' on arrival, the party being welcomed by Mr. H. Cook.

On the way to Witney, a collision with a woman cyclist was averted by the promptness of the driver. Twenty minutes' ringing at Witney preceded tea at the Rhead Cafe. Woodstock, the last tower, had no stay to the 5th bell, and ringing was here limited to 45 minutes at the request of a harassed father who was having trouble with his baby.

In most peals that have been rung at St. Illtyd's, Bridgend, since 1922, Mr. C. H. Perry has taken a rope. His friends regret to learn that he has had to give up ringing on account of ill-health and that Mrs. Perry is an invalid. The sympathy of a wide circle is extended to them both.

Norwich Diocesan Association

PEAL BOOKING FEE DEBATED.

Principal business discussed at a general meeting of members at Norwich on November 6th was an addition to Rule 9 in the Association's rules:—

'A peal booking fee of 6d. shall be levied on each ringer taking part in a peal for the Association.'

Proposing this, Mr. Nolan Golden (Ringing Master) said that the standard of the annual report must be kept up and this needed more money. Most of the cost of the report arose from the recording of peals; therefore, a contribution from the ringers of each peal seemed the best way of raising the money.

A lengthy discussion followed, and despite the fact that the proposal had met with favour at meetings of each of the four branches, other suggestions were advanced for keeping the accounts solvent. These included raising the annual subscription to 3s., giving voluntary subscriptions or making the reports more economical.

It was pointed out that some individuals and towers were not regular in paying their annual subscriptions, and that if these all looked on it as a duty to pay regularly, without waiting to be reminded, the difficulty would be largely met.

Members eventually did not feel that any of the alternative methods of overcoming the difficulty were better than the original proposition, and an overwhelming majority voted in favour of the proposition of Mr. Golden, seconded by Mr. George Bailey, that notice to this effect be given at the annual general meeting on Easter Monday, 1949.

On the proposition of the general secretary (the Rev. A. G. G. Thurlow), it was agreed to hold the annual meeting in a Norwich parish hall if possible, where the matter could be discussed at greater length.

Thirty-nine members attended and ringing took place during the afternoon and evening.

MIDLAND COUNTIES GUILD

VISIT ASHBY, THE SCENE OF 'IVANHOE'

By the ruins of Ashby's famous castle stands the ancient but stately Parish Church of St. Helen, built in the year 1475 after William Lord Hastings had erected the castle nearby, immortalised in Scott's 'Ivanhoe.'

This church was the venue for the late autumn meeting of the above Guild, when upwards of 50 ringers were present from as wide an area as Wolverhampton, Leicester, Coleshill and Derby.

Ringing commenced at 2.30 p.m. Touches of Stedman and Grandsire Triples, Plain Bob, Kent Treble Bob and Double Norwich were successfully brought round before the company adjourned to Messrs. Radford's cafe for tea.

Following an excellent tea. Mr. J. W. Cotton (secretary), in proposing a hearty vote of thanks, spoke of the continued generosity of the Vicar (Canon Hanford) and Mr. E. W. Beadsmoore (captain of the local band), stating that Mr. Beadsmoore joined the Midland Counties Association in 1890 and for 58 years had been a stalwart of campanology in the Burton area.

After a shortened evensong, the Vicar conducted the ringers round this historical church, pointing out the finger stocks where open penance—mentioned in the Commination Service—was practised. The old priests' room and the valuable church plate, some of which dates back to Elizabethan times, were also inspected.

Further ringing, which included Cambridge Surprise, brought this most successful meeting to a close.

Mr. Albert Relfe has 'circled' Lamberhurst tower for the 12th time. The occasion was the wedding of his son to Miss D. V. Baker, of Pembury. There were two 'firsts' in this peal. Mr. C. A. Bassett, hon. secretary of the East Grinstead and District Guild, scored his first as conductor, and his wife her first peal.

From Zero to Stedman Cinques

THE HIGH WYCOMBE TWINS.

In the summer of 1945 a little dark-haired member of All Saints', High Wycombe, Girl Guides visited the local belfry during practice. Encouraged, she came again, and after two or three visits she brought her twin sister—the living image of herself. That started the question of the mixed identities of Doreen and Sylvia Croker.

Solution unhappily came the following spring whes Sylvia met with a serious accident to her

DOREEN AND SYLVIA CROKER.

right forearm while on the playing field. Undaunted she pluckily continued to attend the weekly practices, watching her sister's progress and endeavouring to keep pace with her on the handbells. It was not until eight months later that she was able to take a rope again. Then began a keen chase to catch up with her sister.

Early in 1947 Doreen rang the treble to Holt's Ten-part of Grandsire at the third attempt. A few months later, with Sylvia on the treble and Doreen on the third, Grandsire Triples was scored. Two failures for Grandsire Caters followed; meanwhile Stedman had received a lot of attention, and a peal of Stedman Caters was rung at the first attempt, a second being rung for the Royal Silver Wedding.

By this time Plain Bob was well in the picture, and as a stepping stone to 12 bells a peal of Plain Bob Royal was obtained at the second attempt. After a little more 12-bell practice it was decided to attempt a peal of Stedman Cinques in September. This failed in the tenth course. The next attempt, on October 31st, as our peal column records, was successful.

All the peals were rung at All Saints'. Thanks are due to members from outlying towers who have done their bit to help these young ladies along their way. F.H.

LICHFIELD. — At the Cathedral on Nov. 1st, 1,259 Grandsire Caters: A. F. Sedgwick 1, J. B. Webb (first quarter) 2, P. Beresford (first Grandsire) 3, D. Beresford 4, Joan Beresford 5, E. Elton 6, A. A. Rackham 7, L. Hodgetts 8, G. E. Oliver (cond.) 9, M. N. Culling 10. First on ten by 6 and 8.

Sixty Years a Ringer

Veteran of St. Werburgh's, Kingsley, Staffs, is Mr. Henry Carnwell (79), whose 60 years' membership of the local tower was commemorated by the presentation on October 23rd of a pipe, tobacco and a cheque, the gift of ringers, the Parochial Church Council and friends.

The presentation was made following a short service, conducted by the Rector (the Rev. A. E. Adey), the gifts being handed to Mr. Carnwell by Mr. W. Swift (churchwarden). In returning thanks, Mr. Carnwell said that Kingsley belfry was the happiest in England. They all pulled together; there was no room for strife.

Later in the ringing chamber Mr. A. W. Hall (Cheadle R.C.) added his congratulations and those of the North Staffs Association. There were now, he said, three ringers in the district who had completed 60 years' service, viz., Mr. J. E. Wheeldon, of Norton, Mr. Wheeldon, of Bucknall, and Mr. Carnwell. He thanked Mr. Carnwell for the help he had given to many beginners. Mr. Carnwell was the only survivor of the band who rang the first peal on Kingsley bells in 1895.

Ringing during the day was of a high standard and included touches of London, Cambridge, Kingston, Wells and Durham Surprise Minor.

Mr. Carnwell has 44 peals to his credit, including Surprise in seven methods. His aim and ambition is to train his ringers for a regular Sunday service band, and he is always at his happiest in his belfry on Sunday mornings and evenings when there are no ropes to spare.

THE 311th

WHERE tradition is on sound lines then its maintenance is likely to be perpetuated. This is the impression gained from the 311th anniversary dinner of the Ancient Society of College Youths. To-day the College Youths can claim only four towers of their own in stricken London; yet the appeal of the Ancient Society is such that men from all over the country and even in British Columbia are proud to belong to this venerable body of ringers. The list of over 50 members who joined this year come mostly from afar. What are the prospects of a man living at, say Ambleside or Keswick, joining in the ringing of the Society or even attending the annual reunion dinner? They are practically nil. These people share in relatively few of the priyileges of membership; nevertheless they gain a sense of satisfaction in being inscribed on the membership scroll. They feel they are the modern counterpart of the Ancients of old—men of honourable estate and enthusiasts of the art of change ringing, some of whom performed prodigious feats.

To the privileged who were able to attend the 311th anniversary dinner it was a gathering steeped in the past. A consciousness prevailed of the inheritance of present day members. One of the great moments of the gathering was when those with 50 years' membership or more were honoured. Led by Mr. H. R. Newton, eleven men stood up—a testimony to the longevity of ringers. And those who were missing were present in spirit. From Crowthorne, Berks, came a letter from Canon G. A. Coleridge, whose 91st birthday took place three days before. For years he had graced the proceedings with his wit and sage advice—a veritable tower of strength and champion of the cause of the bellringer. Another whose mind tried hard to penetrate distance and picture the gathering at Pimm's Restaurant was Mr. James George, whose 95th birthday is to-morrow. From his chair at Parkstone, Dorset, he could recall those present with him who shared peal conquests in the heyday of his fame. Jimmy's letter was listened to with affection and particularly the concluding phrase: 'Considering my age and infirmity, I thank Almighty God for feeling so well.' Those words might well be echoed by every College Youth who holds dear the venerable past—a thankfulness in Almighty God for the continuance of the Society in strength and vigour.

Among the guests of the evening was Mr. Walter Ayre, the Master of the Royal Society of Cumberland Youths, another of our venerable ringing institutions with members in all parts of the country. This Society has this year a provincial master—a step which the College Youths had taken some years back. National societies, as both these institutions are to-day, cannot function truly without the selection of office-bearers on a wider residential qualification than the Metropolis. The presence of Mr. Ayre and his speech were grand contributions towards cementing friendship between these two societies. Kindred societies—more than that, kinsmen—while not sacrificing one jot or one tittle the individual pride in their respective societies, honour, welcome and respect members of the other. There is room in the Exercise for both these two big organisations and long may they flourish! This is an era when individual loyalty in all walks of life needs constantly to be brought to the fore. Members of the College Youths gave emphatic 'hear, hears' to Mr. Ayre's observations when he denounced those who went from one Society to the other. A loyalty to the Alma Mater in ringing should remain constant for life.

Our next issue will be devoted exclusively to ringing in connection with the birth of a son to H.R.H. Princess Elizabeth and the Duke of Edinburgh.

Four extra pages will be provided.

Applications, with remittances, for extra copies of this issue should reach "The Ringing World" Office by Monday, November 29th.

BELFRY GOSSIP

At last Walkden, Lancs, has honoured its two veterans, John Potter and John Denner, who have rung together here for 60 years, in the fashion recognised by ringers. There has been no peal ringing on these bells since before the war. In view of other towers paying compliments to these worthies, the Vicar decided to face the complaints and permit the peal and also promised a peal tablet to record the long association.

Messrs. Arthur Mawdsley, Arthur Tomlinson and Joseph Ridyard have rung peals of Oxford Treble Bob from Minor to Maximus.

The peal at Salehurst, Sussex, on November 13th, was the 50th in Plain Bob Major for Mr. F. J. Lambert.

Mr. H. R. Stevens and Mr. J. B. Hessey have rung at Chertsey together for 50 years. The peal of Grandsire Triples there on November 13th recorded this association.

Congratulations to Mr. Frank Stenson, who rang his first peal at Crewe at the age of 60. All the band who rang the peal of Grandsire Caters were Sunday service ringers at the church.

The following tower 'circles' are reported this week: Mr. Herbert E. Audsley, Southwark Cathedral; Mr. Ivan Kay (twice), Moorside, Oldham; Mr. H. William Barrett, Warnham, Sussex; Mr. S. Gilbert, Holywell, Hunts.

The composition of 5,120 Plain Bob Major by Mr. E. J. Lindley, which we publish this week, is suitable for handbell ringing, as the 5th-6th course each other repeatedly, thus making the ringing of this pair very easy.

Heydour, Lincs, has frequently appeared in our columns. This week we record the first peal of four of the local band. Mr. Noel Longland has been ringing there for 39 years and he informed the conductor that this was the first opportunity he had had to ring in a peal attempt.

In recognition of his 40 years as hon. lay secretary of the Society for the Archdeaconry of Stafford, a Testimonial Fund is being raised to Mr. Herbert Knight. Contributions from bands and individuals should be sent to the Rev. C. H. Barker, Swindon Vicarage, near Dudley, before the end of December.

The R. T. Hibbert Memorial Fund has passed the £50 mark.

What is claimed to be the first peal of Major on Aldbourne bells was rung on November 13th. The tenor here is the oldest dated bell in Wiltshire (1516). It is no easy task to ring a peal on these bells as there is nearly 80ft. of rope.

Past Master of the Gloucester and Bristol Diocesan Association from 1934-1938, Mr. Sidney Romans had a peal rung in honour of his 80th birthday on November 13th. After the peal he entertained the ringers with friends from Cheltenham.

Mr. George Williams reminds us that Nov. 22nd was the 56th anniversary of the first peal of London Surprise, 5,088, by the Sussex Association, rung at St. Peter's, Brighton, and conducted by Mr. George F. Attree. He believes he is the sole survivorl.

Fifty years ago the first peal of Stedman in the county of Durham was rung at Bishopswearmouth. This was commemorated by a peal in the same method and on the same bells. Mrs. G. H. Pickering, J. Anderson and W. J. Davidson were members of the band which rang a similar peal of commemoration on the occasion of the 40th anniversary on November 12th, 1938. The immediate past Master of the Durham and Newcastle Association is the only survivor of the original peal of 50 years ago, and he also rang in the 1938 peal.

311th Anniversary Dinner of the Ancient Society of College Youths

Associations with St. Saviour's, Southwark ..... Fifty-nine New Members to Maintain the Honourable Tradition ..... Greetings from Veterans: Canon Coleridge and Mr. James George ..... Cumberland Youths' Master and Turncoats

MEMBERS of the Ancient Society of College Youths who attended the 311th anniversary dinner at Pimm's Restaurant, Bishopsgate, E.C., on November 13th, felt that there was a fulfilment of the honorable tradition maintained without a break for three centuries. Mr. G. W. Cecil was a genial Master, the speeches were in accord with the dignity of the Society and the arrangements for the function were in the capable hands of Mr. A. B. Peck, the secretary, who acknowledged the assistance he had received from Mr. J. G. A. Prior.

The loyal toast was followed by that of 'The Church,' proposed by the Master, who extended a special welcome to the Provost of Southwark. As far as he could tell it was about 260 years since the Ancient Society first rang and carried out the Exercise at St. Saviour's, Southwark. Some notable performances took place there. One of the first recorded was in 1684 (incidentally, in that year Sir Henry Tulse was Master of the Ancient Society and Lord Mayor of London) when the Society rang three 720's of Minor on the back six. That was one of the longest performances at that time and quite an achievement. There had been many notable performances at Southwark.

SOME LONG PEALS.

In 1735 there was the long peal of Grandsire Cinques of 8,008 changes; in 1784. 7,008 Treble Bob Maximus. In more recent times they all knew of the long peal of Stedman Cinques of 12,675 changes, which at a later date was found to be false, but he felt that that did not detract from a remarkable performance. They were still ringing at St. Saviour's, Southwark, and the Senior Steward was trying to train a band for service ringing there.

The Very Rev. H. E. Ashdown, in his reply, spoke of the Church's appreciation of the service rendered by ringers. In his varsity days he resisted attempts to make him a ringer, but he enjoyed the music of bells. From Oxford he went to Lincoln—his father named him after Hugh of Lincoln—and lived opposite the south-west tower of Lincoln Cathedral.

Then came a period at Portsmouth, where he resisted attempts to inveigle him into ringing, and back again to Lincoln for another three years. After that he had two parishes in Durham in his charge and both had rings of eight. At West Hartlepool four of the ringers were engaged on rolled steel, and at Houghton-le-Spring some of his ringers were employed in coal. Wherever he had been his association with ringers had been of the happiest.

A NOVEL SNUFF BOX.

Mr. Alex Young then handed to the Master an antique snuff box bound in a metal called pitchbeck. Christopher Pitchbeck was Master of the Society in 1752 and he invented this metal, which was 12 per cent. zinc and the rest copper and had the resemblance of gold. The snuff box was passed round for inspection: it was filled with John Hardham's No. 37. Hardham was Master in 1747.

The toast of 'The Ancient Society of College Youths' was proposed by Mr. J. Frank Smallwood. The Society, he reminded the assembly, had gone on for 311 years maintaining a high tradition in ringing. They had always selected as their Masters men of high integrity. Their present Master, Mr. Cecil, had conducted the affairs of the Society with dignity, charm and tact. They were very fortunate in their officers. Mr. H. R. Newton, their trustee, took part in that long length at Southwark. He heard eight hours of it and young Bob Newton rang the eleventh, and when he came down he looked the freshest man of the lot. Mr. Newton had one or two other achievements; he turned in to Surprise Major all the heavy tenors in London, and it would be very interesting to see what he had to say to the correspondence now going on in 'The Ringing World.' Their other trustee, Harry Miles, was famed as a peal composer. Unfortunately, he slipped up in the long Stedman Cinques.

The Society's treasurer was Mr. A. A. Hughes, to whom they were indebted for many kindnesses. During the war when they were without a home he not only housed them but fed them. In Mr. J. A. Waugh, their Master-elect, they had a very good man, and he was doing very good work in training recruits at Southwark. The Junior Steward, Mr. Fox, was carrying on similar good work at Stepney. Of their two auditors, Mr. W. H. Passmore was a member of the Rochester Row handbell band that made ringing history, and Mr. J. E. Chilcott was a promising young man. He coupled with the toast the name of their secretary, Mr. A. B. Peck, who had tried, and not unsuccessfully, to carry on the tradition handed on by Mr. W. T. Cockerill. He thought they would agree that he had not done a bad job.

In his reply, Mr. Peck recalled the conspicuous service of Mr. Cockerill, who was secretary for 47 years. The Society flourished under his secretaryship, and he (Mr. Peck) hoped that when he laid down the pen it would be in as flourishing a condition. Facilities for ringing in London were limited; they now had only four towers which were rung for Sunday service. During the year they held 13 meetings, 50 practices and rang 16 peals.

INTERESTING LETTERS.

Apologies were received from Canon Coleridge, the Rev. F. Ll. Edwards, Mr. J. T. Dyke, Mr. W. H. J. Hooton, Mr. J. C. Mitchell and Mr. James George. Canon Coleridge wrote: 'When the first notice of the C.Y. dinner appeared in "The Ringing World" I was undergoing a course of red rays of galvanism with massage of my left knee, which I first damaged 14 years ago and which had arthritis had recently put out of action. I am much better now—no pain. I can once more get about with a couple of stout sticks, but reading in a later edition that all tickets had been sold out, I took that as a further intimation that I ought not to come up to Town, possibly have a fall and put many to trouble in taking me to some hospital or other. . . . As I shall not be there will you kindly convey my best wishes to all who may care to have them, reserving a few for yourself for your work on behalf of the ever young but Ancient Society?'

Mr. George in his letter wrote that he was elected a member of the Society on October 12th, 1889. On November 27th, all being well, he would reach the age of 95 years. He added, 'I am probably the oldest surviving member of the Ancient Society of College Youths. I hope you and all will have a very happy and successful day.'

NEW MEMBERS.

The following new members had been elected in 1948: L. Pearson (Portsmouth), R. Kenrick (Southport), A. Hilliar (Bristol), P. Watts (Harrow), G. R. Allsop (Fulham), J. W. Stephenson (Fulham), P. Bettridge (Southall), F. Heyes (Blackburn), G. Davis (Hereford), A. Appleton (Godalming), A. Green (Wickham), A. Lancaster (Southampton), C. Willmintin (Leytonstone), C. Rouse (Cheltenham), R. Clouston (Eye), F. Mead (Camberwell), G. S. Morris (Lyme Regis), R. Davis (Croydon), D. Fraser (Basingstoke), A. Smith (Basingstoke), E. T. Lee (Godalming), M. Chilcott (Lampton), J. Munday (Radstock), H. Smith (Shepton Mallet), E. Brunton (Accrington), D. E. Parsons (Carshalton), J. A. Green (Wicken), T. Roderick (Porthcawl), E. Stitch (Port Talbot), L. Barry (Gloucester), T. Newbury (Beckford), H. Shadrack (Chelmsford), H. E. Lilley (Haywards Heath), G. Apps (Cuckfield), D. Bellamy (Wellington, Somerset), R. Winter (Taunton), L. Trevor (Nuneaton), E. Lloyd (Birmingham), D. W. Beard (East Ham), T. B. Newton (Ambleside), A. Capstick (Ambleside), C. W. Blakey (Accrington), T. Hogarth (Keswick), V. Savage (Midsomer Norton), F. S. Paulton (Bristol), A. G. Clare (Farrington Gurney), E. C. Wickham (Cheddar), J. A. Tomlinson (Blackburn), R. J. Thain (Stroud, Glos.), W. E. Court (Chiseldon, Wilts), P. Anger (Shrivenham, Wilts), F. E. Mitchell (West Croydon), E. W. B. Razzell (South Croydon), R. Price (Feltham), J. A. Alsop (Fulham) and G. W. Cook (Brasted, Kent).

OLD MEMBERS.

They had present with them Mr. H. R. Newton, who had been a member for 62 years. Other old members present were Richard Stannard 58 years, E. Alex. Young 56, W. T. Elson 56, L. J. Monday 54, A. D. Cullum 53, W. H. Passmore 53, A. Walker 52, Roland Fenn 52, David Wright 52 and C. Dean 50 years.

The company stood while the following members who had died during the year were remembered: Rev. J. F. Hastings, elected 1881; Frederick Rigby, 1925; C. G. Ellis, 1904; James Chapman, 1884; Frank Bugler, 1925; William H. Lawrence, 1898; Oswald Simm, 1906; Rev. M. C. Potter, 1882; Thomas Groombridge, jun., 1912; Frederick Mitchell, 1920; George F. Swann, 1921; William H. Corbett, 1905; Ernest Bish, 1923; John Symons, 1886; William P. Garrett, 1887; Maurice Smither, 1903; George P. Burton, 1894; Thomas Langdon, 1890; Harry Chapman.

ELECTRICAL RINGING.

Mr. J. A. Waugh, in proposing 'Kindred Ringing Societies,' welcomed in particular the Master of the Society of Royal Cumberland Youths. One hundred or 200 years ago he could not imagine that they would be welcome. Now they were greeted as brother ringers and members of one big family.

The speaker uttered a warning against the introduction of mechanical devices in ringing. Near where he lived there was a church with a fine stone tower capped with a steeple. Recently a leading firm of bell-founders installed a splendid ring of eight bells, but those bells were not to be rung by human hands, but by an electrical chiming apparatus. In an argument in favour of the device the Vicar stated that there would now be no need for ringers' practices. The introduction of mechanical devices could be carried further than bells—there need not be an organist, choir or parson.

Mr. Walter Ayre, the Master of the Cumberlands, said it was only after he had joined the Cumberlands that he found out that he could not be a College Youth, unless he resigned. He had a very poor opinion of anyone who changed from one society to another (hear, hear). On behalf of his Society he gave a cordial welcome to College Youths to their meetings. The word 'kindred' meant that they were 'kinsmen' of the same craft and working for the same aims. Because of that they should not be in fear or trepidation on entering one another's towers.

Also coupled with the toast was Mr. Albert Walker, who brought the greetings of the St.

311th Anniversary (cont.)

Martin's Guild for the Diocese of Birmingham. The Ancient Society, he said, was so strong in Birmingham that they could raise a band for a peal of Cinques. They did admire the Ancient Society going back for 311 years. His own Society was now nearing its bi-centenary, which they would reach in about seven years' time.

THE ROYAL BABY.

Mr. E. H. Lewis proposed the toast of 'The Visitors.' Their visitors, in addition to the Provost of Southwark, included Canon Perkins, of Westminster Abbey, who was responsible for the eight bells which have received such a marvellous press during the last few days. Somebody suggested to him in connection with the Royal birth that if it was a boy it should be a 'Bob' method, and if a girl he assumed that a 'Delight' would be suitable.

Coupled with the toast was Mr. H. V. Ireson, Dean's verger at St. Paul's, and Mr. Lewis said the Society was very grateful to the Cathedral authorities for allowing them to store their silver in the crypt of St. Paul's. Mr. Ireson regarded their Society as the finest aid to good health, judging by the longevity of members. During the past week no fewer than five newspapers had enquired whether Big Tom at St. Paul's was to be tolled for the Royal birth. Big Tom was only tolled for the death of the Sovereign, the Lord Mayor or the Archbishop of Canterbury.

Mr. Harold Pitstow gave the toast of 'The Ringing World' and said that the interest the national Press was taking in ringing during the past week should be helpful to the Exercise. He had tried to make them understand that bellringers were not a lot of 'muts.'

Mr. T. W. White, in his reply, called attention to 'College Youths,' the work of Mr. J. A. Trollope, which made fascinating reading, and should be in the possession of every College Youth.

The last toast was one of remembrance of Masters of the Society 100, 200 and 300 years ago. These were honoured on the call of Mr. E. Alex. Young. They were: 100 years George Morley, 200 years Eli Hillier and 300 years Robert Milford.

THE COMPANY.

Supporting the Master on the top table were the hon. secretary (Mr. A. B. Peck), the Provost of Southwark, Canon Perkins, Messrs. J. C. Mitchell, E. A. Young, G. J. Strickland, E. H. Lewis, W. Hibbert, O. York Bramble, W. Ayre, H. Miles, H. N. Pitstow, E. P. Duffield, A. R. Macdonald, L. G. Pengelly, F. Sharpe, C. W. Roberts and H. V. Ireson.

Others present were Messrs. A. A. Hughes, J. A. Waugh, E. G. Fenn, J. F. Smallwood, C. Dean, A. and J. A. Tomlinson, E. J. Gower, E. J. Chivers, G. Clare, R. G. Beck, W. Osborn, H. Bishop, J. LETTERS TO THE EDITOR

Hale Surprise Maior

Dear Sir,—Re Hale Surprise Major, in my letter of the 19th inst. I find I made a mistake about the bob place of the above. I see now that it is a fourths place bob, which makes it wholly Belvedere Surprise and nothing else.—Yours faithfully, W. A. OLDFIELD.

Ashford, Kent.

Dear Sir,—I find the Hale Surprise Major in this week's 'Ringing World' is No. 25 in Mr. Corrigan's Collection (Part C) and is called 'Belvedere.' I have a note that the method is by Mr. A. G. Driver and was first rung at Staines on February 14th, 1935. No doubt you will have other letters to the same effect.—Yours faithfully, S. H. HOARE.

Watford.

Dear Sir,—The method rung at Framsden on October 30th as Hale Surprise is not a new method, having been rung previously as Belvedere. The first peal in the method was rung at St. Mary's, Staines, for the Middlesex Association on February 14th, 1935, conducted by Alan R. Pink. A further peal was rung at St. John the Baptist's, Erith, on March 14th, 1947, conducted by Frederick J. Cullum. The same composition, an arrangement of the late A. G. Driver, of Belvedere, was rung on both occasions.—Yours faithfully, P. A. CORBY.

[NOTE.—We are grateful to other correspondents who have pointed out this error. —EDITOR.]

WISTASTON PEAL

Dear Sir,—The footnote to the peal of Minor at Wistaston, Cheshire, in 'The Ringing World' of Nov. 12th is not quite correct, i.e., 'First peal in six methods by all the band.' I have rung several in six methods. Incidentally, I've rung peals in all numbers of methods from 1 to 11 with the exception of 9. I never had any luck with that!—Yours sincerely,

E. V. RODENHURST.

Prees Green, Whitchurch.

COVERING BELLS IN PEALS

Dear Sir,—I have just received my two 'Ringing Worlds,' dated October 29th and November 5th. In these two are cases of 1,260 Grandsire Doubles at Gorseinon, Swansea, and at Coleshill, Warwickshire, with covering bells. Why are they accepted for publication and not peals rung under the same condition?

I have in mind one rung at Romford, Essex, on Saturday, July 17th. Could not this question be thrashed out by the Central Council once and for all? This peal would not have been rung with 4.6.8 behind except that it was a very special occasion and as many of the local band wished to participate.—Yours sincerely, LEONARD W. BULLOCK.

British Troops, Berlin.

[NOTE.—Conditions governing peals are decided by the Central Council and published in 'Decisions of the Council.' It is open to any member of the Council to challenge the report of the Peals Analysis Committee. Peals are recorded; quarter-peals, while published as space permits, are not recorded by the Council. They are purely a matter of personal satisfaction.—EDITOR.]

EIGHT BELL RECORDINGS

Dear Sir,—Can you let me have the numbers of any gramophone records that have been made of eight-bell towers? All I can find is the H.M.V. of Stedman and Grandsire Caters made by St. Margaret's, Westminster.—Yours faithfully, ERNEST PAULSON.

Darley Dale, Matlock.

ST. IVES, HUNTS.—At All Saints', Nov. 6th, muffled ringing, 240 Grandsire and 720 Plain Bob: J. P. Stocker 1, G. Nicholls 2, D. Sanderson 3, S. Gilbert 4, F. Warrington (cond.) 5, S. Clements 6.

Worthy Tenor Men Recalled

Dear Sir,—I have been much interested in the letters re speed and weight of tenor bells in peal ringing. It brings to my mind many recollections of some of the leading ringers of the past.

To see the late George Breed ring the old tenor at York Minster to Kent Treble Bob was a great treat, as it was to see the late Ernest Pye ringing the eleventh bell to Stedman Cinques on the same evening. The late Mr. W. Pye was not a big man in stature, but he was certainly very muscular and skilful.

At St. Paul's Cathedral about 1920 there was a fine band. I also remember Reuben Sanders ringing the eleventh bell at Exeter to Cambridge Maximus. A fine heavy bell ringer and a most graceful handler was our own George Smith, of Norwich.

I was pleased to read the letter by Mr. Patrick Cannon, as I think it sums up the matter very well. I was at York some years ago when a band of ringers rang on the present bells about two courses of Stedman Cinques. They then estimated it would take much more than four hours to ring a peal on them.—Yours faithfully,

W. L. DUFFIELD.

Long Stratton, Norwich.

A WORD FOR THE LIGHT END MEN

Dear Sir,—In reply to the correspondence on speed of peals and tenor ringing, I agree with Mr. Cannon that slow ringing on tenors of 26 cwt. or more requires less physical effort and more accurate placing than when they are rung fast. This proves the ringer is ringing the bell and the bell is not ringing him as Mr. Hibbert suggests. There is no doubt it would do if the ringer tried to push it along faster than he was physically capable of doing.

Being one of the party who took part in the Somerset tour and rang on the light end, it did not appear to me that the tenors were being 'dawdled' along or that the ringing became irregular, as Mr. Haynes thinks it might have been. I did not feel that we had the light bells on our waists unduly long.

Not being a tenor ringer myself, only one of the light end men, I like to think that we light-enders have as much control over the speed of the ringing as the back-enders. To do this the light end men must strike clearly behind and on the lead, without clipping, particularly over 7-8. I am sure this tends to slow down the ringing and makes for better striking with a more even beat but slower peals.

In conclusion, let me ask why all this controversy over slow or fast peals, if the striking is good, when it's only a matter of minutes either way, e.g., if a peal of 4,040 changes is rung in 3 hours 20 minutes with a tenor of 26 cwt., each change has only to take a quarter second longer to make the time 3 hours 41 minutes. This, Mr. Haynes thinks, makes a moderately fast peal into an easy paced dawdle.—Yours faithfully,

JOHN E. BIBBY.

Frodsham, Cheshire.

CHECKENDON REFUTE FIRST CLAIM

Dear Sir,—I notice in 'The Ringing World' of November 12th in the six-bell peals there was a peal of Minor rung at Checkendon, Oxon, on October 23rd, 1948, conducted by Tony Price. He states that this was the first peal on the bells. I don't know where he got this information. I have been ringing at this tower 35 years and there have been several peals rung, the last being on the occasion of the opening of the new ringing chamber and vestry. This peal was conducted by our late Master, the Rev. C. W. O. Jenkyn. If Mr. Price will write to me I will furnish him with the names of the other ringers.

DEDICATIONS

ST. THOMAS', SALISBURY.

The bells of St. Thomas', Salisbury, were rededicated on November 6th by the Bishop of Sherborne in the presence of the Mayor and civic representatives, and also between 150 and 200 ringers from Wiltshire, Dorset, Hants, Somerset and Devon.

By agreement with the authorities, the bells themselves were not tuned or altered in any way and the canons were retained intact. The contract was placed with Messrs. Gillett and Johnston, Ltd., who have rehung the ring with modern fittings, including specially designed headstocks and ball bearings, in an exceptionally heavy iron and steel framework. The tower is unusually limited in area for the size of the ring, but this difficulty was successfully overcome by careful designing.

The total weight of the octave is 103 cwt. 3 qr. 27 lb., the weights and inscriptions of the bells being as follows:—

Treble.—Note D. M. Bailey and T. Ogden, Churchwardens. R. Wells, of Aldbourne. Fecit. 1771. 7 cwt. 20 lb.

No. 2.—C sharp. R. Wells. Feci. 1771. 7 cwt. 2 qr. 25 lb.

No. 3.—B. T. O., M. B., C. W. R. Wells. Fecit. 8 cwt. 5 lb.

No. 4.—A. Ts. Ogden and Ms. Baily, Churchwardens. 1771. R. Wells, of Aldbourne. Feci. 9 cwt. 24 lb.

No. 5.—G. A gift of John Windham, Esqr. 1683. Recast 1771 by R. Wells, Aldbourne. 11 cwt. 2 qr. 10 lb.

No. 6.—F sharp. Ts. Ogden and Ms. Baily, Churchwardens. Robert Wells, of Aldbourne, Wilts. Fecit. 1771. 13 cwt. 3 qr. 3 lb.

No. 7.—E. Ts. Ogden and M. Bailey, C. Wardens. R. Wells, of Aldbourne. Fecil. 1771. 19 cwt. 4 lb.

Tenor.—D. Wm. Naish, Esqr., Mayor. Nathl. Stvridg, Tho. Hales, Chvrch Wardens, A (Bell) R. 1716. 27 cwt. 1 qr. 20 lb.

In his address the Bishop of Sherborne said: 'Some few will listen with a critical ear . . . and so many will listen, most of us, with enjoyment of the music of the bells and that special sound and harmony in our English land of the church bells, that charm which is missed, they tell us, over and over again by our fellow-countryman in the far parts of the world who rejoices to come home and hear them once again.

'And some will listen with reverence and godly fear to the real message of the bells, significant and full of its own special message that Englishmen have put their bells in the towers of their churches and that from these towers has rung out through the centuries God's word and message to His children.'

The civic and church dignitaries were afterwards entertained to tea by Ald. and Mrs. J. S. Rambridge. Among the ringers present were the Rev. Carew Cox, the Rev. F. Ll. Edwards, Mr. B. Jewell (captain of the church bellringers), Messrs. H. Roles, J. E. Figgures and G. Norton. Messrs. Gillett and Johnston, Ltd., were represented by Messrs. Michael Howard, F. C. W. Stevenson and B. Newson, and were congratulated on the restoration.

MANSFIELD, NOTTS.

The 300-year-old bells of St. Peter's, Mansfield, were dedicated on November 14th after being recast by Messrs. Taylor and Co., of Loughborough.

The service was attended by the civic heads, and during the dedication by Canon S. C. Bulley, Vicar, the bellringers walked in procession through the Lady chapel to the nave, where the bells were set out in the form of a cross. Each ringer took up a position near the bell for which he was responsible.

The eighth bell bears an additional inscription as follows: 'Recast 1948, the third year of the atomic age; a day of doubt; men's hearts failing them for fear; still we ring out, that all the Voice of God may hear. The seventh bell, dated 1615, now bears the words: '1948. In memory of Ald. William Benjamin Spencer.'

The preacher was Canon R. F. Wilkinson, Rector of West Bridgford, who at one period was curate at the church.

He spoke on early bellringing customs and said the art was at first divorced from the Church. When Henry VIII. ordered church bells to be taken down and sold, he continued, there were, judging by ancient records, three bells in Mansfield, but the 'crafty old churchwardens' apparently sold one before the king could get hold of it. Early bellringing was looked upon as a kind of sport and amusement for strong young men and there was just as much competition between old guilds of ringers in those days as there is between local football feams to-day.

He hoped the art of bellringing would grow in Mansfield. 'There are dozens of bells in this country neglected because there are no people to teach the art,' he added. 'We used to be known as the ringing island, and English people are very proud of their bells.'

It is understood preparations for rehanging the bells in the south tower will start forthwith.

GOLDEN JUBILEE AS PEAL RINGER

The Exercise will congratulate Mr. George R. Newton on his golden jubilee as a peal ringer. The occasion was marked by scoring a peal in the same tower and ringing the same bell at Woodchurch, Cheshire, that he rang half a century ago.

Mr. G. R. Newton, who is in his 74th year, is the only-surviving member of the band who rang the first peal on the bells of Woodchurch Parish Church, Cheshire, on November 5th, 1898. Since then six peals have been rung on the bells and Mr. Newton has 'stood' in them all.

The younger generation who participated in the recent peal join in congratulating him and trust that he will be spared to enjoy many more years of ringing.

All the company wish to be associated with an expression of gratitude to Mr. and Mrs. W. Bennet for their kindness and hospitality on this occasion.

R. T. HIBBERT MEMORIAL

ILSLEY TENOR RECAST.

Some weeks ago a very modest paragraph was inserted in this journal under the general notices referring to the above, and the writer was surprised at the College Youths' dinner last Saturday at the number of friends of 'Old Tom' who were unaware of the memorial scheme.

There has been quite a good response to the appeal, but about £40 is still required and contributions should be sent to A. D. Barker, Cambridge, Wexham, Slough, Bucks.

The work is now complete and a service will take place on Saturday, December 4th, at 3 p.m. Canon G. F. Coleridge will (D.V.) dedicate the new bell.

Tea will be provided after the service for those who notify C. J. Hibbert, High Street, East Ilsley, near Newbury, Berks, by Thursday, December 2nd.

Halewood Remembers

In the years between the two world wars Herbert Ludkin, almost unaided, trained a young band of local ringers at Halewood, Lancs, to a high standard of proficiency.

Then came the time when he had to leave the district for business reasons to reside in Manchester, and Halewood saw him only on comparatively rare occasions. Shortly after the war broke out and with it came the ban.

The band was scattered on war service of various kinds, and one of the most proficient of the young band—John Gardner—lost his life in the tragic sinking of the Japanese prisoner of war ship on September 12th, 1943.

The remainder returned to Halewood after the war to try and pick up the threads of their pre-war training and carry on the good work which Herbert Ludkin had started, but fate was against them. Lack of attention had rendered one or two of the eight bells unringable, and the bells were again silenced for over 18 months.

Then repairs were effected, due mainly to the enthusiasm of Thomas Heskett and one or two others, and ringing restarted in earnest some three months ago under the leadership of Mr. P. W. Cave, who undertook the task of carrying on where Herbert Ludkin had left ring of five bells were made full use of, also band.

The news of the recent sudden death of Mr. Ludkin was received by the Halewood band with feelings of deep regret and of a very real personal loss.

It was only natural, therefore, that they should seek to honour his memory as soon as they could, and, appropriately enough, Nov. 6th, the eve of Remembrance Sunday, was chosen for the commemoration peal. The peal of Stedman Triples successfully accomplished on that date is recorded as a tribute to the memory of Herbert Ludkin and John Gardner and all others from the village of Halewood who lost their lives in the two world wars. A peal board is to be erected to record the peal.

A YEAR LATER

THIS is an issue of good wishes and felicitations to H.R.H. Princess Elizabeth and the Duke of Edinburgh on the gift of a son. It is the privilege of ringers to be the vehicle of public expression. Our corresponding number last year was a 16-page issue expressing the happiness of the nation in Princess Elizabeth's wedding, and the rejoicings that marked that event are this week being repeated at the birth of the first grandchild of our King and Queen. At the time of writing the number of peals recorded is 156, almost equal to the 162 rung in honour of the Royal Wedding last year, which was the biggest exposition on record in the art of change ringing.

A comparison of the ringing for the two events indicates a marked drop in the number of peals on more than eight bells. Leicester and Lincoln were the only representatives of the twelve-bell towers. Against 22 ten-bell peals for the wedding there were only eight on this occasion. A single splice was introduced into the peal of Caters at Beddington. In eight-bell towers the peals numbered 81, against 92. Of these 26 were of Triples. Much of the ringing was in the standard methods, nevertheless there were 12 peals of Surprise Major (including Edinburgh Surprise) and eight of Double Norwich Court Bob Major.

Plain Bob Major exceeded Grandsire by 27 peals to 16, reversing the figures at the Royal Wedding. Stedman had hardly as many patrons as an ordinary week with eight peals. What was noticeable was that most of the peals were rung by the regular Sunday service band; in many instances this was the first peal by such a band.

The strength of the ringing numerically on this occasion was in the five and six-bell towers with 41 of Minor and 19 of Doubles, an advance of 18. Plain Bob Minor was most popular. There were, however, seven peals with seven or more methods. Most of the first peals scored (about 40) were in the six-bell towers.

As to the location of peals, the Eastern Counties have come very much to the fore. The Ely Diocesan Guild, who have been on the modest side in their ringing activities, blossomed forth with 13 peals. Much of this enthusiasm came from a Huntingdon trio, who rang a peal each night of the week. Next to Ely came the adjoining Association, the Norwich Diocesan, with 10. Lancashire, who had the pride of place on the occasion of the Royal Wedding, shared the third place with Kent and Chester Diocesan, each recording nine. They were followed by Leicester Diocesan Guild with eight, Guildford seven, and Middlesex, Essex, Lincoln and Peterborough six each. In all 40 guilds or associations recorded peals. Conspicuous among the absentees were the University Guilds. At the time of writing not a single peal has come from this source. There were, however, among the five handbell peals two rung at St. David's College, Lampeter, Wales.

It has been impossible to incorporate in this issue all the peals or all the quarter-peals rung as a welcome to our infant Prince. The quarter-peals are a particularly interesting collection: many of the performances took place in towers that rarely find a mention in 'The Ringing World.' Generally speaking, the ringing was of the simple variety; reading through this long list, however, gives an impression of the widespread character of the art of change ringing and indicates that it is deeply implanted in rural England.

BELFRY GOSSIP

This issue is devoted almost exclusively to ringing for our new Royal Prince. We hope to complete in our next issue peals rung in honour of this happy event for Princess Elizabeth and the Duke of Edinburgh. After that we shall revert to dealing with those peals rung prior to the national rejoicing.

Mr. James George rang 7-8 in his 95th birthday peal on November 27th. A wonderful achievement!

It was Christopher Pinchbeck who was Master of the College Youths in 1752 and gave his name to the alloy of zinc and copper, and not Pitchbeck as reported in our last issue. To our West Country friend and others who corrected us we thank them.

Last week we published the news of the rededication of the bells of St. Thomas', Salisbury. We have since learnt that Ald. J. S. Rambridge, who made himself responsible for raising the £1,500 required, has received a cheque for over £300 from a generous donor to complete the appeal.

Heartiest congratulations are extended to Roger Keeley, of Lyme Regis, Dorset, on scoring his first peal at the age of 13 by ringing an 'inside' bell to the peal of Kent Treble Bob Major rung at Lyme Regis on November 20th. The band wish to offer their condolences to the Rev. C. Carew Cox, who was unable to take part in the peal owing to indisposition. Messrs. H. G. Keeley and C. W. Powell have now 'circled' the Lyme Regis tower.

Messrs. Gillett and Johnston are to commence work on the augmentation of Birmingham Cathedral bells, so they will not be available for ringing until February. The present 5th, 6th and 7th bells are to be hung in a new frame and the front four moved into larger pits, which entails the fitting of new headstocks. There will be three modern twelves in Birmingham—one from each of the founders—in time for the next Johnson dinner.

A letter by air mail from Mr. Francis T. Waite, of Durban, S.A., states that he visited a cinema on November 19th and was interested to see the ringers in action at Westminster. He could not recognise the ringers or the method rung, as there was so much interruption. He asks for this information. We believe the answer is to be found in the peal at Westminster Abbey published in this issue. The method was unquestionably Stedman.

At Hornchurch, Essex, Mr. Harry Turner will well remember the royal birth peal. It was his 100th. And many more!

Not all the peal attempts for the Royal Prince were successful. At Rotherfield a fine effort was lost after 2½ hours owing to a shift course. Another band lost a peal at Sevenoaks after 1 hour and 25 minutes, the conductor missing a bob.

On November 16th, the Sunday service ringers of St. Paul's, Whitley Bay, met to attempt a peal of London Surprise Major in honour of the birth of a prince. When they had rung for over an hour the lights were switched off at the main, by the verger, as was afterwards discovered.

At Naseby, Northants, the home of Princess Elizabeth during some of her younger days, pigeons are blamed for a lost peal on November 15th. The fourth bell 'dropped' badly and the rope once jumped the wheel. On examination it was found that mounds of pigeon manure had settled in the grooves, and nests and dead pigeons were under the bells. These bells were rehung as recently as 1939. What surprises us is that a peal was attempted by experienced ringers without an inspection of the bells. The band hope to have another try for the peal at the christening of the royal baby and after cleaning operations in the bell chamber.

THE ROYAL BABY RECEIVES NATION-WIDE WELCOME

GREAT INTEREST IN WESTMINSTER ABBEY PEAL ..... KILBURN ALSO TELEVISED ..... BURTON ST. PAUL'S CHALLENGE ..... PEAL RINGING AT 81 ..... THE METHOD 'EDINBURGH DELIGHT'

RINGERS in every county welcomed the Royal Prince born to Princess Elizabeth on the evening of November 14th. Owing to the lateness of the announcement—it was proclaimed on the 10 p.m. news—there were no peal attempts started the same day. On the Monday ringing was extensive.

The tower in which most public interest was centred was the Collegiate Church of St. Peter, Westminster. Mr. H. N. Pitstow and his company were photographed practising for the great occasion and were subjected to many Press interviews.

Immediately the peal concluded, reporters and photographers came into the belfry as well as cameramen from Gaumont British News. Ringers who attend cinemas were able to recognise certain personalities who are household names in the Exercise.

Mr. Pitstow was not, however, permitted to lapse into obscurity. Those who had television sets saw him in the Wednesday Magazine feature. Seated at a grand piano, he talked about ringing and gave an example of change ringing on the piano. Reference was made to his uncle, who conceived the Pitstow variation of Thurstans' peal.

From the grandeur of Westminster the story is taken up by lowly Kilburn. Here a peal is an event in itself, not only because of the extreme lightness of the trebles, but also as one peal is the yearly ration!

The peal rung was Grandsire Triples, and this was the first in this method, though peals of Bristol, Superlative Surprise and Stedman Triples were rung by expert bands before the bells were rehung.

Performing on November 15th was a far from expert band—four were ringing their first of Grandsire and the treble a first on eight bells. The whole band consisted of regular service ringers, who (writes R.M.D.) feel that most of the credit is due to the conductor.

Kilburn ringers were well prepared for the occasion. Several days before the event a B.B.C. film camera made its appearance in the belfry and made a film of the ringers and the bells. Part of the film was used in a special news reel in the television programme on the evening of November 15th, though it seems that whereas only the élite male members of the band were sufficiently photogenic, the bells seem to possess all the necessary qualities for television.

FIRST GREETINGS.

Where were the first bells rung for the Royal Prince in the British Isles? At Gresford, near Wrexham, they were ringing at 10.30 p.m. on the Sunday evening.

At All Saints', Benhilton, Surrey, they were rung from 11.20 p.m. to 11.30 p.m. The conductor toured the district in a car turning out the ringers. The local Press complimented the ringers.

Mr. Arthur C. W. Roope resumed peal ringing after an absence of 37 years at Pulham Market, Norfolk.

Thirteen-year-old George H. Moore rang his first peal for the royal baby at Hethersett, Norfolk.

Lincoln Cathedral's salutation was in Stedman Cinques, brought round in 3 hours and 41 minutes.

An interesting feature about the royal peal at Cheadle, Staffs. was that it was the first peal of Minor on the bells, which were installed in 1722.

Mr. George E. Fearn rang in four peals of congratulation. A happy week.

The peal at Chaddesley Corbett, Worcestershire, was also a compliment to Mr. William Jones, who has now completed 50 years' service in this tower as a ringer.

CONTINUITY AT LEEDS.

A sign of the revival of ringing at Leeds is the peal by St. Peter's Society by the Sunday service band. This is the first peal to be rung here by a local company since 1900. Readers will remember that the misfortunes of this tower were the subject of an editorial 'Continuity,' on April 11th, 1947.

There was a broadcast of the bells of St. Margaret's, Westminster, during the ringing of the peal on November 19th in the 6 o'clock news. It was in honour of the birth of the new Prince.

At Spalding, Lincs, an attempt for a peal of Kent Treble Bob Major came to grief after 4 hours 40 minutes' ringing owing to the clapper of the third bell breaking. The ringers were only three courses from the end.

Five members of the band who rang at St. John the Divine's, Leicester, were under 20, the youngest being George H. Hebborn, aged 13.

The retiring Master of the Ancient Society of College Youths (Mr. George W. Cecil) called a royal peal at Cuckfield for the Sussex County Association.

The greeting of the Royal Society of Cumberland Youths was on the bells of Chilham, Kent.

FIVE ROYAL OCCASIONS.

In sending in their peal of Oxford Bob Triples, St. Paul's, Burton, band state that they have rung peals during the last 18 months for five royal occasions, viz.: Monday, April 21st, 1947, H.R.H. Princess Elizabeth's 21st birthday; Friday, August 22nd, 1947, H.R.H. Princess Margaret's 17th birthday; Thursday, November 20th, 1947, wedding of Duke and Duchess of Edinburgh: Monday, April 24th, 1948, silver wedding of their Majesties the King and Queen; Monday, November 15th, 1948, birth of the Prince. The first four were rung on the actual dates, the latter one being rung within 24 hours of the event. Is this a record?

There is a belief by Mr. Stanley Gilbert, who conducted the peal for the royal birth at Brampton, Hunts, that it was the first peal on the bells. Any questioners?

At Huyton, Lancs, 3,000 changes of Grandsire Doubles were rung on the Monday, with 79-year-old Mr. W. Birchall on the fifth. The bells came round at 9.14 p.m. exactly 24 hours after the royal birth.

The peal of Plain Bob Minor at Sawston, Cambs, was the first on the bells by a purely local band. It contained four first pealers.

Mr. Henry Jarrett, who rang his first peal at Chester-le-Street, came straight from his work at the coal face to participate.

The quarter-peal at Chichester Cathedral was followed by firing the bells 21 times to mark the ringing as a royal salute.

Participating in a quarter of Superlative Surprise Major at Irthlingborough, Northants. were Messrs. W. Perkins and A. Y. Tyler, aged 80 and 79 respectively.

HUNTINGDON'S KEENNESS.

Messrs. J. Blythe, H. S. Peacock and S. Gilbert, of Huntingdon, rang for 13 hours 50 minutes together during the week following the birth of the Prince. They took part in five successful peals, on five successive evenings (Monday to Friday) in different towers, Mr. Gilbert conducting two of them. No doubt a sixth attempt would have been made on Saturday but for a district meeting of the Ely Association, which they all attended.

The birthday of Miss June Wright, daughter of Mr. Cyril Wright, who rang at Bolsover, Derbyshire, coincided with the date of the royal birth.

At St. David's College, Lampeter, the happy occasion was heralded by two handbell peals.

FIRST GREETING FROM BRITISH COLUMBIA.

Dear Sir,—The Christ Church Cathedral bells were the first in the Empire to ring in honour of the birth of a Prince to Princess Elizabeth on Sunday, November 14th.

Ringing commenced within 30 minutes of the announcement of the birth and consisted first of Victoria Surprise and firing and then two touches of Grandsire Triples and Stedman Triples with firing between courses and concluded with Queens and more firing.

At 6.30 p.m. ringing recommenced with Victoria Surprise and firing and then a quarter-peal of Grandsire Triples, conducted by E. W. Izard from the seventh bell. The striking of the bells was perfect and the quarter-peal of 1,260 changes was true from start to finish. Those taking part were G. White, D. Boniface, A. C. Melhuish, A. Izard, A. King, A. B. Lomas, E. W. Izard and E. J. Merritt. It was first quarter-peal rung by G. White and E. J. Merritt. Mr. Melhuish is over 80 years of age and still a regular ringer. G. White, D. Boniface, A. Izard and E. W. Izard are all members of the Ancient Society of College Youths.

We feel that your readers will be interested to know that in this furthermost part of the Empire ringing is being carried out with great enthusiasm.

The Cathedral bells were cast and tuned by Mears and Stainbank, they are in the scale of D flat and are the same weight as those in Westminster Abbey.—Yours very truly,

E. W. IZARD.

THE OLDEST?

The oldest ringer to participate in a full peal was Mr. George Thompson, aged 81, of Hinckley, Leics. Mr. B. Ridgway, captain of the band, kindly consented to stay in the belfry in case he was needed to take over. This was not required, however, as the veteran rang his bell faultlessly throughout the peal. It is 21 years since a local band rang a peal at Hinckley. While the conductor rang for the Coronation of the Princess' great-grandfather, this was his first peal as conductor.

By ringing the tenor, Mr. Joseph Saxton has 'circled' his home tower, Bolsover, Derbyshire, in peals.

EDINBURGH DELIGHT AND SURPRISE.

Edinburgh Delight was the appropriate method selected by the ringers at All Saints', Wigston, Leicestershire, for their royal peal. The peal was rung by the Sunday service band.

Mr. Frank Blondell returned to the tower of his first peal, Chipping Barnet, Herts, to participate in a royal birth peal. The former was rung 54½ years ago!

Trust Frodsham, Cheshire, ringers to rise to the occasion. They produced Edinburgh Surprise Major, which was a first for the Guild, on the bells and by all the band. The first peal in this method was rung at Leiston on December 8th, 1923.

At the College Youths' dinner, Mr. E. H. Lewis suggested a 'Bob' peal if the royal baby was a boy. St. Peter's Society, Burnham, responded with 'Little Bob.' And it was a first for six of George Gilbert's talented young ladies!

For Silverton, Devon, the quarter of Grandsire Triples was a particularly happy occasion. It was the first quarter of Triples on the bells, which were augmented to eight in 1937. Previous attempts for the royal engagement and marriage and several afterwards were all lost for various reasons.

Leicester Cathedral rang Cambridge Surprise Maximus, with Mr. Harold Poole conducting from the treble.

DEDICATION

STRATFORD-ON-AVON.

On Saturday, November 6th, at the close of a beautiful autumn day, the bells of Holy Trinity, Stratford - upon - Avon, rang out, recast, rehung and rededicated.

A crowded church heard the Bishop of Coventry, Dr. Neville Gorton, dedicate the new ring to the glory of God and in memory of those who lost their lives in the second world war.

The new ring of ten bells, with a tenor of 19 cwt., was pronounced by a large assembly of ringers from many parts of the country to be in keeping with the beautiful church, famous as the resting place of William Shakespeare.

The original ring of eight (with a tenor of 14 cwt.), with two new bells added, is hung in a new iron frame with ball bearings and all modern equipment, the contract having been placed with John Taylor and Co., of Loughborough.

A new sound - proof floor has been erected above the ringing room.

At the close of the service the bells were rung to Stedman Caters by the local band, and afterwards in a variety of methods, including Cambridge Royal by visiting ringers.

Inscriptions and weight of the new bells :—

Treble.—Dick Stokes-Roberts, Lt., Grenadier Guards, M.C., Italy, 1944 — aged 21 — 1948. 5 cwt. 1 qr. 2 lb.

2.—The Ringers' Bell, 1948, V. B. Hunt, Captain. 5 cwt. 1 qr. 10 lb.

3.—Peace, Cast 1887, Recast 1948. 5 cwt. 1 qr. 6 lb.

4.—Cast 1887, Recast 1948. 5 cwt. 3 qr. 14 lb.

5.—H. Bagley made me, 1742, Recast 1948. 6 cwt. 3 qr. 8 lb.

6.—Matthew Bagley made me, 1683, Recast 1948. 8 cwt. 16 lb.

7.—1733, Recast 1887, Recast 1948. 10 cwt. 23 lb.

8.—1733, Recast 1887, Recast 1948. 11 cwt. 3 qr. 1 lb.

9.—1683, Recast 1948, Noel Prentice, Vicar, Ashley Clayton, George Lea, Gerald Price, Harry Tompkins, Churchwardens. 14 cwt. 2 qr. 2 lb.

Tenor.—1717. Recast 1948. 'The Faithful Dead, 1939-1945.' 19 cwt. 2 lb.

Total weight : 92 cwt. 1 qr.

SWANSEA AND BRECON GUILD

About 25 members attended the quarterly meeting at Bronllys on November 13th, when the Guild's form of service was used by the Vicar (the Rev. W. J. Davies), who gave an address. Mr. D. Owens, a member of the local band, was organist and read the lesson. All present were entertained to tea afterwards by the local band.

At the business meeting Miss N. Bower and Mr. J. Parry (Talgarth) were elected members and thanks were expressed to local ringers and the ladies for their hospitality.

Good practice was put in during the afternoon, and Talgarth bells were available during the evening. The usual vote of thanks to the local band for giving the tea and the ladies for helping was carried.

PITCH OF BELLS

By Brian D. Price.

AN investigation into the matter of pitch standards shows that each of the three leading bell founders appears to have a distinct method. One founder tunes bells to the French pitch A=435; another to the former English concert pitch C=522 (which is practically identical with B.B.C. pitch), while the third firm, in common with the other two, keeps a record of frequency of vibration but makes no attempt to assign a note. This firm states, 'We have no standard of pitch to which we work in tuning our bells. We vary the pitch according to circumstances. As we keep an exact record of the tones of each bell sent out there cannot be any difficulty in adding other bells of the correct pitch if the need ever arises.'

Mr. Yardley points out that there is no absolute standard of pitch. The present-day standard is A=440, as used by the B.B.C. This was agreed at an international conference held in London in May, 1939. After calculating pitches on different standards, it seems to me that it would be better to give the frequency of a tenor (i.e., the number of vibrations per second) rather than its 'pitch.' Here is a comparison of frequencies which enables the pitch of a note to be placed according to two standards:—

Note in Scale	French A=435	B.B.C. A=440
E	670-634	678-641
E flat	633-598	640-605
D	597-565	604-571
C sharp	564-533	570-539
C	532-503	538-509
B	502-475	508-480
B flat	474-448	479-453

Thus if the frequency of a bell is 597-565 inclusive its note according to French pitch is D. In calculating these values I have used the equally tempered scale.

A comparison of the notes of the tenors of St. Woolos' and Ebbw Vale reveals them to be a semitone apart, using a tuning fork. In actual fact, this difference turns out to be just over three-quarters of a semitone. St. Woolos' tenor has a frequency of 602 (as given by the founders who augmented the ring to 12), while Ebbw Vale tenor is 576. In comparison, St. Paul's Cathedral tenor is 468.

Thus, according to French pitch, St. Woolos' tenor is in E flat, while according to B.B.C. pitch it is in D. This suggests that ringers generally adopt the natural system of giving the frequency of a tenor bell as being the only system which is beyond controversy.

BELFRY GOSSIP

Congratulations to our friends at Parramatta, Sydney, Australia, on ringing the only peal outside the British Isles for the royal baby.

Peals for the royal birth continue to arrive. St. Paul's, London, rang theirs on Dec. 4th—Stedman Cinques in 3 hours and 49 minutes.

The royal baby peal at Egham on November 20th was also a silver wedding congratulation to Mr. and Mrs. J. E. Greenough. Mr. W. A. Peck has circled this tower.

The 'oldest' to ring a peal for the royal baby was Mr. Josiah Morris, aged 81, who performed at St. Margaret's, Leicester, to a peal of Plain Bob Major. Mr. George Thompson, of Hinckley, was born in the same year. There must be something in the Leicestershire air.

Bristol University Society inform us that for the royal birth they rang at 8.30 a.m. on November 15th and that their peal of Grandsire Triples came to grief after 2 hours and 20 mins. by a banging on the door. The verger who popped his head round the door and asked the company to remember to turn out the lights when they finished was far from popular!

The R. T. Hibbert Memorial Fund now totals £87, writes the hon. treasurer, Mr. A. D. Barker, Cambridge, Wexham, Slough. The sum required is £98 15s.

A peal of Spliced Surprise Major in 22 methods has been rung under the conductorship of Mr. J. A. Freeman, of Lincoln. For story of performance see next week's issue.

From Marshfield, Glos., comes a wonderful record of faithful service to the church and tower of over 60 years by Mr. George Robinson, a former captain, and Mr. Jesse H. Beazer, tower secretary. Their membership with the Gloucester and Bristol Association dates from 1911. A peal of Grandsire Triples commemorates their service.

To commemorate Mr. J. George ringing a peal on his 95th birthday, a flowering tree that blooms in November was planted in the grounds of Ferndown Hill, Ferndown, by Mrs. J. Thomas. For story of his peal see next week's issue.

Mr. Eric B. Hartley is in Barham Ward, Wembley Hospital, with a broken leg.

It was Mr. G. A. Pickering and not Mr. G. H. Pickering who rang in the commemoration peal at Bishopswearmouth.

Fabian Stedman's tower, St. Benet's, Cambridge, is in danger. An appeal has been issued for £500.

Mr. Albert J. Lancefield left England last week for New Zealand. We wish him every happiness.

Congratulations to 15-year-old John E. Manners on calling his first peal at Rodbourne Cheney, Swindon.

The peal at Chester-le-Street, recorded in our last issue, was the 25th together by Messrs. J. A. Brown and D. A. Bayles.

Mr. John T. Dunwoody called the bobs in the handbell peal of Plain Bob Minor at Belfast on October 27th and not Mr. F. E. Dukes.

The peal at Twerton on November 16th was rung on the 50th anniversary of Mr. T. F. King's first peal. He rang the same bell to the same method, treble to Plain Bob Major.

Another ringer to reach the half-century mark is Mr. Charles W. Everett, who since 1912 has been captain of the Ashford, Kent, ringers. The peal on November 18th marked his 50 years' service in the tower of Ashford Parish Church.

Ringing in the wedding peal at Claybrooke, Margaret Beamish, the 13-year-old daughter of Mr. and Mrs. Arthur H. Beamish, put up a fine performance by ringing her first peal of Bristol. Apart from two plain courses, this was her first 'touch' in the method.

LETTERS TO THE EDITOR

Weight and Speed

Dear Sir,—The question of speed of ringing in relation to weight of bells has always been a matter for lively discussion among ringers, usually resolving itself into a question of whether slow or quick time is the best thing. It is fundamentally wrong to condemn a performance merely from reading the recorded time, as many factors have a bearing on the same, each individual ring of bells requiring different treatment in achieving the desired result, i.e., a peal of good striking, rhythm and quality.

In making comparisons, it is a fallacy to reason on the lines of weight of bell in relation to weight of performer, for such is the nature of the work that a couple of stones of human flesh and bone make little difference in what, after all, is a matter of skill in the co-ordination of muscular effort.

Should the bell be rung right up or frame high? Supposing a bell to be merely tolled there would seem to be no difference in the effort required, as the distance of travel of a bell from bottom dead centre is proportionate to the distance of its travel downwards from the beginning of its stroke. Therefore, only the same amount of energy is required to be applied to the rope to overcome the loss occasioned by friction and gravity in order to place the bell at the required height, whether it be right up or frame high.

In actual ringing, however, this practical theory goes astray. To ring a bell in a touch or peal right up to the balance necessitates giving it enough to just tip over the balance, this tendency to tip being counteracted by easing it via the rope near the point of balance; therefore, this style of ringing calls for two applications of force at each stroke.

Of course, theoretically, I know a bell should be rung to the point of balance each time, but in ringing this is not possible. On the other hand, in ringing a bell not to the point of balance this extra work is not necessary, and that is why, in my opinion, it is easier to ring a heavy bell 'frame high' than to ring it right up.

Although among my small number of peals I have only performed on the tenor on two or three occasions, I have rung many tenors to touches, and in the peals in which I have taken part I have invariably been round the back end; therefore, from experience I am in favour of quick ringing generally, i.e., as quick as the bells will go in conformity with good rhythm and striking. And in the matter of striking it is surely obvious that quick ringing requires better striking than slow, as what in quick ringing would be a 'near clip' is hardly noticeable in slow ringing where the intervals are longer.

Finally, it seems strange that the practice of 'ringing to the tenor' should have been publicised as a sort of experiment, as I have always thought it was the accepted thing, being the only correct way to ring bells. Certainly it was so instilled into me by my instructor, Mr. T. Groombridge, sen., himself no mean exponent in the art of ringing heavy bells; indeed, in my opinion, a performer, in his time, the equal of the greatest, and certainly the superior of many past and present.
—Yours truly, C. BRETT-SMITH.

Belvedere, Kent.

CRACKED BELLS

Dear Sir,—In a recent leading article you state that 'cracked bells are rarely due to any cause but carelessness.' I hardly think this is a correct statement.

In probably 90 per cent. of the bells that have in recent years found their way into the melting-pot because they are cracked, the cause can be traced to a 'cast-in' crown staple which has expanded by corrosion and so split the bell across the crown.—Yours truly,

Thornton Heath. F. E. COLLINS.

Changing Societies

Dear Sir, — After reading your interesting account of the 311th anniversary dinner of the Ancient Society of College Youths, I did not feel happy about the Master of the Cumberlands' observation that he had 'a very poor opinion of anyone who changed from one society to another.' There may be ringers who, because of some dispute, or to get better opportunities of peal ringing or some other like motive, do leave the Cumberlands to join the College Youths or vice versa.

Years ago, while living and ringing at Caversham and when all the tower members belonged to the Ancient Society, I had strong leanings towards the College Youths, although I did not join because, I suppose, no one asked me. Some time later I was invited to ring in a peal at a country tower which was to be a Cumberland peal, of which Society all were members except myself. I was asked to join and, to oblige, consented, and was made a member there and then.

Coming to London in 1942, my local tower where I rang on Sunday was a College Youths tower. I was frequently in the company and ringing with members of that Society, and my old regard for the Society returned. But I was a Cumberland.

After some time, and when the rival claims in my mind became intolerable, I resigned from the latter Society and, after a lapse, sought membership of the College Youths and was eventually elected.

I still retain pleasant memories of the ringing friends I met while a member of the Society of Cumberland Youths, and should feel very hurt if I thought that my numerous friends in London and elsewhere had a very poor opinion of me because I had taken what I felt to be an honourable course. — Yours faithfully, W. J. PAICE.

Sandhurst, Berks.

WHAT DOES IT SOUND LIKE?

Dear Sir,—I have read with interest the letters re speed of ringing. To me it is purely a matter of brawn versus brain. A question missing from all your letters is 'What does it sound like?'

Bells as hung and rung in this country are rung for a purpose—for the greater glory of God; for the service of the people to whom they belong; for the pleasure of the people who ring them. They convey a message, of joy, of sorrow. A light ring is easily made to express either of these — rung quickly, sped along, is joyous, hopeful; rung slowly the opposite is the case. A heavy ring, always more majestic, is more difficult of expression, but a difference in the speed of ringing still helps to convey a different meaning.

It is to this end I think we should turn our thoughts. The people who own bells, especially light bells, should never be subjected to 5,000 changes of 'Plain Bob Dirge' spread over four hours for any purpose whatever.—Yours faithfully, A. R. ELKINS.

Woodlands Park, Altrincham.

MUSIC AND SPEED

Dear Sir,—As bells are musical instruments, the first consideration in deciding the speed of ringing should be that of producing the most musical effect. It is obvious that in the case of heavy bells with a good, resonant tone such effect will best be produced by fairly slow ringing. I should think that most of us would agree that in the B.B.C. interval signal Bow Bells are heard at an ideal pace for ten-bell music.

It would be interesting if some reader mathematically inclined would take accurate note of the time occupied by a group of changes on this record and then calculate the time required for 5,000 at the same speed.

Surprise Major Methods

Dear Sir,—May I, through the hospitality of your columns, congratulate the ringers of Ospringe Surprise Major on their performance? I have also to apologise to them for unwittingly making their task harder by the inclusion of an unpealable method among my 160 Unnamed Methods published a year ago. They had selected John Carter's No. 16 (my number—his was No. 20) for practice, and it was not until they were ready to ring a peal in it that we found a peal composition to be impossible. I wish to record my appreciation of the tolerant spirit shown by the band towards this oversight of mine—a spirit that is unfortunately not as universal among ringers as it ought to be.

I take this opportunity of adding some details to the correspondence on Stanton Surprise Major. While we must appreciate and sympathise with the reasons given by Mr. Poole for crediting this method to Mr. John Reeves, it is unfortunately impossible to let the attribution stand. The method is a variation of Bristol, and had already been obtained by Mr. C. J. Sedgley and Mr. Nolan Golden at least. It was in practice at Southampton under that name and in Norfolk under the name of Diss, where a peal attempt was made. It is as Diss that it appeared in the first edition of my 370 Surprise Major Methods, and, of course, it appears as Stanton in the revised edition which is announced this week.

I realise that under present conditions the fact of a method having been previously rung is very difficult to establish, but I hope to remedy this difficulty in the New Year. I have in type a complete list of first peals in all Surprise methods on 8, 10 and 12 bells, which I propose to close at the end of the year and publish soon afterwards. Announcements of this and the forthcoming collection of Royal and Maximus Surprise methods will be made in these columns as usual.

Meantime, I should like to point out that no composer has done his duty to the Exercise unless he appends to any published method its false course-heads.—Yours faithfully,

Bristol. A. J. CORRIGAN.

HALE SURPRISE MAJOR

Dear Sir,—Among the manuscripts of the late Mr. A. G. Driver is a book containing 1,500 Surprise Major methods having hand-and-back places only. I believe this is the extent of such methods (excluding any, like Cambridge, having four places made between two consecutive rows)—at all events, I have never yet seen a method of this type which does not appear in the book, and Hale Surprise is no exception.

Mr. Driver would never have claimed any of these methods as his own, and, indeed, Mr. W. Wightman may well have obtained Hale Surprise before Mr. Driver compiled his collection; but I would suggest that the time has now come when methods of this nature should not be attributed to any particular composer, as it can safely be assumed that they have been worked out by Mr. Driver some time before 1942, the year of his death, if not by several other people as well.—Yours faithfully,

E. A. BARNETT.

Crayford, Kent.

ARKLOW PEAL

Dear Sir,—I hope the Central Council will take notice of the 'music' of the recent Arklow peal on 1, 2, 3, 4, 5, 7 of an eight, especially after condemning the Basingstoke peal on nine on the grounds of the music of nine bells.—Yours, G. D.

OBITUARY

MR. JOHN ARMSTRONG.

For the second time this year the Christ Church, Southgate, band have lost one of their old and valued members. John Armstrong was 67 years of age and died suddenly on November 19th. The funeral service at Christ Church, Southgate, was attended by many of his ringing friends both past and present.

John Armstrong was a safe ringer on all numbers of bells and had taken part in several notable performances, including the John peal of Stedman Cinques at St. Giles', Cripplegate, in 1912. His first peal was of Bob Major at Southgate in 1899, and his last one was Cambridge Surprise Major, also at Southgate, in 1939, which was his 250th peal and also his 100th Surprise peal. Of this total he had conducted 49.

In the evening the usual whole pull and stand was rung with the bells half-muffled, followed by 1,263 Stedman Caters: W. J. Bowden 1, Miss M. Prockson 2, J. G. Nash 3, S. G. Peck 4, R. W. Green 5, N. A. Tomlinson 6, H. Miller 7, N. G. Hollingsworth 8, S. Wade (cond.) 9, M. Fensom 10.

MR. THOMAS LANGDON.

We deeply regret to report the death of a well-known London ringer, Thomas Langdon, who passed away at his home in Walworth on November 8th, in his 75th year. Until 1945 he had enjoyed very good health, but in that year, whilst carrying out his duties as steeplekeeper at St. Michael's, Cornhill, he met with a serious accident. As he was passing the 8th bell (which was 'up') it swung round and trapped his leg between bell and frame. It was 1½ hours before his shouts for help were heard and he could be released. Sustaining a broken ankle, he was removed to 'Barts' Hospital and made a quick recovery, commencing ringing again in the early part of 1946. His heart, however, had been affected and in the following summer he collapsed from this trouble and was unable to ring again.

He was buried at Nunhead Cemetery in the presence of his large family and many of his ringing associates of the College Youths. A course of Stedman Triples was rung over the grave by H. Langdon 1-2, T. H. Taffender 3-4, J. F. Smallwood 5-6, A. B. Peck 7-8.

Tom Langdon had a very remarkable ringing career. He joined the Ancient Society of College Youths 60 years ago and rang his first peal with the Society at the age of 14. He became very proficient at conducting and called Holt's Original a great many times, being considered as almost equal in that respect to the late Challis F. Winney. Tom was the first man in London to conduct Carter's Odd Bob One-part peal of Stedman Triples, and the similar peal by E. Bankes James. He took part in the length of 12,675 Stedman Cinques at Southwark in 1923, and also rang the 10th in the first and only peal of Cambridge Maximus at St. Paul's Cathedral. He was a member of the St. Paul's Cathedral Guild and also of the Westminster Abbey band. Although a lightweight in physique, he was exceptionally tough and preferred to ring at the heavy end. On one occasion he nearly succeeded in ringing St. Paul's tenor to a peal single-handed, being assisted only after the greater part of the peal had been rung.

He was of a modest and retiring disposition, but was held in very high esteem by all who were privileged to ring with him. He will be sadly missed. The customary tribute of whole pull and stand was rung at St. Paul's Cathedral. J. F. S.

MR. EDWIN JAMES TURL.

Older members of the Ancient Society of College Youths will regret to learn of the passing of Mr. Edwin James Turl, of 41, Holders Hill Avenue, Hendon. Mr. Turl was a retired ticket collector with the L.M.S. Railway and he died on November 15th, aged 69.

MR. T. BARTRAM.

One of the oldest members of the Biggleswade District of the Bedfordshire Association, Mr. T. Bartram, of The Pear Tree, Roxton, died on November 19th, aged 77. For more than 30 years he had been a keen member, attending meetings regularly and often during the week helping learners on practice nights. His delight was in good striking. Mr. Bartram had rung a number of peals, but kept no record.

The funeral was at Roxton Parish Church on November 22nd. The bells were rung half-muffled after the service, the ringers being C. H. Harding, C. J. Ball, Miss Joan Ashton, L. A. Mardlin and W. Holden. A wreath was sent from the Biggleswade District.

MR. J. D. WRIGHT.

Thurlaston, Leicestershire, has lost its oldest ringer in the person of Mr. John David Wright, who died on Nov. 24th, aged 83 years. He was laid to rest on Friday, Nov. 26th, in the shadow of the church and bells he loved.

The same evening a half-muffled quarter-peal (1,320 Plain Bob Minor) was rung in memoriam by his fellow ringers: S. Carragreen 1, G. Pickering 2, P. Hallam 3, A. Hallam 4, G. Wright 5, J. Taylor (cond.) 6.

BEVERLEY AND DISTRICT SOCIETY

ACCIDENT TO MINSTER'S STEEPLE-KEEPER.

At the monthly meeting of the Society at Market Weighton on November 13th, Mr. G. F. Williams presiding, the members heard with regret a report from the secretary (Mr. A. E. Sellers) of an accident to Mr. F. Osgerby, captain and steeplekeeper of Beverley Minster.

Mr. Osgerby had gone among the bells, which are in two tiers, to repair and replace a broken bell rope. In climbing out he had the misfortune to fall among the girders. With difficulty he succeeded in extricating himself and obtained medical advice, fractured ribs being suspected. He was confined to bed.

Members showed their practical sympathy by a generous response to a 'whip round' suggested by Sergt. T. Huddleston. This is to be expended in the provision of comforts.

Meetings arranged were: Beverley St. Mary, Dec. 11th, and Cottingham, Jan. 8th. An invitation to visit Norton, near Malton, was also received. Mr. Rowland Johnson (Driffield) was elected a member.

Acknowledging the vote of thanks for the use of bells, his warm welcome and helpful address, the Vicar (the Rev. Massingberd Mundy) said it was hoped in the near future to apply for a faculty to replace the present bells with a ring of eight. Three parts of the money required had already been raised. Among the functions was the action of Hull City F.C. in sending a team to Market Weighton to play the local team, the proceeds being given to the bell fund.

The Rev. G. Storer reported that Messrs. Mears and Stainbank would start putting in the new ring at Hutton Cranswick in January, 1949, an announcement which was received with enthusiasm.

A feature of the ringing was a very good 720 of Spliced Oxford and Kent Treble Bob Minor, the first spliced ringing for the Society, which was conducted by the Ringing Master, Mr. L. Rodmell.

MR. W. LINTER'S 91st

On November 27th, six members of the Winchester and Portsmouth Guild met to ring for Mr. W. Linter's 91st birthday at Swanmore, Hants. The following took part in 720 Plain Bob Minor: William Linter, sen. (91), G. Williams (91), H. Merritt (77), A. Millard (78), G. Chappell (83) and H. Ainsley (60).

Tea followed at the Parish Hall, where the Vicar and members of the Linter family joined the ringers to celebrate the occasion.

Newyddion O Cymru

Dear Sir,—I should like to take advantage of your increased paper allocation to tell you of some humble missionary work in Glamorgan, less spectacular than peal ringing, perhaps, but involving no less toil and sweat, though fortunately no blood or tears to date.

Porthkerry is a four-bell tower about a mile from the village of Rhoose, looking out over a lovely vista of woods to the sea near Barry. Up to a year ago the bells were rung in call-changes, and that only occasionally. The first step was to teach plain hunting on three bells and then on four, followed by Plain Bob Minimus. Two new men were taught, and by March, 1948, some of us were ringing Reverse Bob Minimus. A fortnight later we managed Double B.M., and achieved great satisfaction from ringing the 24 Forward, 24 Reverse and 24 Double without a stop to collect our wits. After this we started on Forward, using each bell in turn as the treble, and when this had been mastered we did the same with Reverse and Double. We thus have 12 variations from which to choose.

Our latest achievement has been to persuade our oldest member to try his hand at trebling to Bob Minimus, which he did after two practices—no mean feat for 72 years of age. We have visited five six-bell towers at various times and have broken ground on Grandsire. In between times we have knocked out the wedges between our frame and the tower walls and have taken up many years of slack on all nuts.

Now for good news. Through the generosity of Mr. H. G. Lewis, who has always taken a great interest in the church, we are to have two new trebles and the existing four are to be rehung, although this will not be for another year. Our eight ringers are all joining the Llandaff and Monmouth Guild and it is our intention to form a ringers' fund to assist in the purchase of ropes and belfry fittings.

The ringers have given me credit for much patience during this instruction period, but I have been richly rewarded by their keenness and loyalty. Here are their names: Frederick Way, Harold Dimond, Harry Green, Douglas Dimond, Sidney Jones, Roland Curtis, Malgwyn Williams, and—Yours sincerely,

Rhoose, Glam. L. J. MALINGS.

FIRST TWELVE BELL PEAL IN WALES

History for the Llandaff and Monmouth Association and for change ringing in Wales was made on November 13th by the ringing of the first peal of Stedman Cinques at the Cathedral Church of St. Woolos, Newport, Mon. The bells, formerly ten and one of Messrs. Taylor's finest examples, were augmented by Messrs. Gillett and Johnston in October, 1939, and the performance was the first attempt for a peal on the twelve.

Previously many doubts had been expressed as to the quality of the splice, but when the bells were heard to full advantage the doubts which existed in the minds of several of the band soon vanished, and the general opinion at the end of a good peal was that they are a fine ring, and Messrs. Gillett and Johnston are to be congratulated on their craftsmanship.

The band were unanimous in their praise of the manner in which veteran Tower Warden Charles Greedy rang throughout. Considering that he gets no twelve-bell practice, Mr. Greedy, now in his 72nd year, put up a remarkable performance. In addition to Mr. Greedy, there was a further local air about the peal, as Messrs. Worrall and Clift are both Men of Gwent, and the conductor felt extremely honoured that he should have been given the opportunity of returning to his native heath to call the first twelve-bell peal.

After the peal the band were entertained to supper by the warden, Mr. G. Gibbs. In welcoming the band to Newport, he apologised for the absence of the Dean, who had hoped to be present, but was only just recovering from a serious illness. Mr. Clift suitably replied.

Society of College Youths

MR. J. A. WAUGH THE NEW MASTER.

The Ancient Society held its annual meeting on November 27th at the Whitechapel Bell Foundry, when the Master, Mr. G. W. Cecil, presided over an unusually large attendance. The treasurer presented a balance sheet which showed a satisfactory state of affairs, and it was with much satisfaction that the secretary announced that the seven new members elected that day made the grand total during the Master's two years of office a record total of 100.

Mr. E. Alex. Young, a past Master, then took the chair for the election of officers, which resulted as follows: Master, Mr. J. A. Waugh; secretary, Mr. A. B. Peck; treasurer, Mr. A. A. Hughes; trustees, Mr. H. R. Newton and Mr. H. G. Miles; stewards, Mr. T. G. Fox and Mr. J. F. Smallwood. The auditors, Messrs. W. H. Pasmore and J. E. Chilcott, were elected at the previous meeting.

Mr. E. A. Young wished the new Master every success during his term of office, and a cordial vote of thanks was accorded to the retiring Master. Ringing afterwards took place at St. Dunstan's, Stepney.

KENT COUNTY ASSOCIATION

LEWISHAM DISTRICT.

Seventy members and friends, including visitors from Maidstone and Tonbridge, attended the annual meeting of the Lewisham District at St. Luke's, Bromley Common.

Ringing during the afternoon preceded a service in the church, the Vicar, the Rev. Canon F. W. Hassard-Short, M.A., officiating and giving a very interesting address.

Tea and the business meeting were held in St. Luke's Hall, the Vicar presiding. Proceedings opened with a sincere tribute to the memory of the late Mr. J. E. Bailey, of Dartford, one of the district's representatives on the General Committee.

The elections of three non-resident life members were ratified. St. John's, Deptford, was chosen as place for next meeting, to be held on January 29th.

The district secretary's report on the year's work was adopted. Mr. A. G. Hill and Mr. P. A. Corby were re-elected hon. secretary and district representative. Mr. A. S. Richards (West Wickham) was appointed to succeed the late Mr. Bailey as district representative, and Mr. F. S. Coley (Crayford) is the new ringing master, a vote of thanks being accorded his predecessor, Mr. W. J. Rawlings.

A warm welcome was extended to Mr. G. H. Spice (general secretary) and Mr. T. Groombridge, and votes of thanks were passed to the Vicar, organist and local ringers.

DEVON GUILD OF RINGERS

BRANCH VISITS TO TORQUAY AND TEIGNMOUTH.

In accordance with arrangements made at a recent meeting, a number of members of the Mid-Devon Branch visited St. Saviour's Church, Torre, Torquay, on Sunday evening, November 14th, and rang for the evening service. The party included Messrs. J. E. Lilley, A. L. Bennett, H. G. Lewis, B. H. Cooper, F. Turner, F. Morris and A. H. Birley, and a welcome visitor was Miss Symons, of Gulval, Penzance, who was staying in the area. Touches of Grandsire and Stedman Doubles and Plain Bob Minor were rung, and the parishioners expressed their delight at hearing the bells.

On Monday evening most of the party visited St. James', Teignmouth, by invitation, and appreciation was expressed to the local ringers for the refreshments provided at the conclusion of the visit. This visit was in connection with the birth of a son to Princess Elizabeth.

PORTSMOUTH. — On Nov. 10th, at the Cathedral, 1,280 Rutland Surprise Major: J. D. Harris 1, Mrs. E. F. Salmons 2, Miss H. Dale 3, F. W. Burnett 4, T. R. Taylor 5, E. F. Salmons 6, F. W. Rogers (cond.) 7, A. T. Greenwood 8. First quarter in method by all.

Dedications

GREAT HAMPTON, WORCESTERSHIRE.

A new ring of eight, with tenor 12¼ cwt. in F sharp, has been provided at Great Hampton, Worcestershire, as the parish's war memorial.

The sixth bell is of special interest to ringers all over the country. Its inscription reads: 'I am dedicated to the memory of Alderman James Hemming, Justice of the Peace, who was Mayor of Evesham, 1942. He was a native of the parish, a ringer at this church and did valuable work in the art of Change Ringing. He was beloved by a large circle of friends and respected by all. R.I.P.'

The dedication was performed by the Dean of Worcester (the Very Rev. Arthur Davies), who is president of the Worcestershire and Districts Association, and the service was attended by the Mayor and Mayoress of Evesham.

In his address, the Dean told the congregation that they had chosen their war memorial well because the bells would be a permanent reminder of that which they commemorated. 'You have chosen well, too, because you have chosen something that is characteristically English,' he said, 'for only in England, or where English influence prevails, are bells rung as we hear them—with continuous changes.'

The ringers taking part in the opening touches were G. J. Hemming, G. Hemming, S. Davis, H. Jordan, C. Edwin, P. Mills, J. Richings and W. Newman.

The bell founders, Messrs. Taylor and Co., were represented by Mr. Paul Taylor and Mr. J. Fidler, and the musical quality of the bells was favourably commented upon.

CROMHALL, GLOS.

Saturday, November 13th, was a red-letter day for the parish of Cromhall, Glos., when a ring of six bells was dedicated in the ancient village church by the Bishop of Gloucester.

Formerly Cromhall had two bells. The old heavy bell of 19 cwt. has been recast into two tenors, three other bells added and the pre-Reformation bell retained to complete the six. The work of recasting and installing was done by Messrs. Gillett and Johnston, Ltd., at a total cost of £1,150. All but £49 of this has been subscribed by residents and friends of the village, including a contribution of £150 from the Freemasons of Downend.

At the service the bells were rung by Messrs. H. V. Robinson, F. Roberts, F. Handoll, L. Townsend, C. Watts (Wickwar) and Miss D. M. Drew (Cromhall).

The large congregation included 100 diocesan ringers and representatives of Oriel College, Oxford, the donors of a bell. Messrs. Gillett and Johnston were represented by Mr. T. Howard and Mr. D. Bradford.

After the service the following young Cromhall ringers, trained by the Rev. A. D. H. Allan, rang: Marion O. Clark, D. J. Pick, Dorothy N. Cotnock, Betty M. Brown, R. G. Blake and D. R. Holpen. There was general agreement among visiting ringers after tea of the excellent work of the bell founders.

Appended are the inscriptions on the bells:—

No. 1 (E).—St. Andrew. In memory of the late Mrs. A. F. M. Harris, of Wells, Somerset. 4 cwt. 1 qr. 24 lb.

No. 2 (D).—Oriel. In memory of the late Miss M. E. Kimber, of Cromhall and Oxford. 5 cwt. 1 qr. 9 lb.

No. 3 (C).—St. Thomas. The gift of the Freemasons of Downend. 6 cwt. 2 qr. 2 lb.

No. 4 (B).—St. Michael. A Pre-Reformation bell. 7 cwt. 2 qr. 5 lb.

No. 5 (A).—St. George. 9 cwt. 2 qr. 3 lb.

No. 6 (G).—Bearing its previous inscription and date, 1742. 12 cwt. 2 qr. 7 lb.

Correspondents have pointed out that the peal of Plain Bob Major by Mr. Arthur J. Lewry is a not so satisfactory variation of a 5,056 by the late Mr. H. W. Wilde, which was published in the Midland Counties Report for 1914 and first rung at St. Helen's, Darley Dale.

Durham & Newcastle Assn.

MEETING AT ROKER.

On November 13th, a representative company of ringers assembled at St. Andrew's, Roker, for the first meeting since the installation of this new ring of ten bells.

A short service was conducted by the Vicar (the Rev. K. F. Parsons), who in his address stressed the importance of ringers attending the services for which they rang.

After a good tea, which was arranged by the local ringers, Mr. W. N. Park (president) opened the short meeting, and in his remarks said that St. Andrew's was lucky to have a vicar who liked bells in a practical way, and he asked the ringers there to support the Vicar at all times.

Mr. K. Arthur thanked the Vicar for the use of the bells. The Rev. Parsons, in his reply, said that although the bells at St. Andrew's were new, bellringing to him was not new, as before coming to Roker he was Vicar of St. Margaret's, Leicester, where there are many keen ringers. Miss Stobbs thanked the helpers at the tea for their services.

Amongst the visitors present were Mr. Abrahams, and Miss Killinley, who hails from Richmond, Yorkshire.

An apology for absence was received from Mr. R. L. Patterson, past president, who is at the moment confined to bed. The secretary was asked to write to him expressing good wishes and hopes for an early recovery from his indisposition.

Several members of the St. Andrew's Guild were elected members of the Association.

CHESTER DIOCESAN GUILD

Fifty-eight members, representing 21 towers, attended the meeting of the Crewe Branch at Nantwich Parish Church on November 20th. The Rector (Canon Tyler Whittle) conducted the service and an excellent tea was served by ringers' wives.

Touches ranged from Bob Doubles to Cambridge, London and Superlative Surprise Major.

SPLICED SURPRISE MAJOR

AMONGST the many interesting developments of the present century, Spliced Surprise Major ringing must take a foremost place. London Surprise Major used to be the goal of every ringer, but now the most prominent bands do not consider themselves accomplished until they have achieved a peal of Spliced Surprise. The conductor of such a peal has a full-time task: mastery of the composition itself is an intricate mental exercise. His band must be on the alert at every lead-end, awaiting his instructions, be it a change of method, a call, or, as most frequently happens, both. The greatest factor contributing to success is good method ringing between the leads. There is no room for slackness, and thus a first-class team spirit is essential.

The first peal of Spliced Surprise Major ever rung was in two methods—Cambridge and Superlative—in 1924 at Whitley Bay, Northumberland, for the Durham and Newcastle Association, the composition of J. W. Parker, conducted by Joseph A. Gofton. The Rev. H. Law James and Messrs. A. J. Pitman and E. C. S. Turner have, amongst others, turned their attention to this branch of composition, and bands have been found ready to tackle what they have produced. The first peal in four methods was rung in 1927, conducted by A. H. Pulling, and in the years immediately following William Pye and his band rang up to twelve methods in a peal. Not many peals are accomplished in more than four methods, although before the war Mr. S. T. Holt, in Worcestershire, rang up to eight, and Mr. E. C. S. Turner to nine. The Lincoln band rang up to ten, accomplishing this in 1939, when the war put an end to their efforts. Before the war, Mr. H. G. Cashmore and his famous handbell band rang up to six methods—one of the most brilliant performances of all time.

Since the war, two bands have striven to reach the record in Spliced Surprise Major ringing on tower bells—those of Mr. W. F. Judge and Mr. A. J. Freeman. With a peal in sixteen methods in 1947, rung for the Lincoln Diocesan Guild, William Pye's achievement was eclipsed for the first time. The Oxford band have rung a twelve-method peal twice recently. Now comes Mr. J. A. Freeman with a peal in twenty-two methods, which is the greatest number of Major methods yet rung in a peal. The whole Ringing Exercise will wish to unite in congratulating him and his band on this latest achievement by their Guild.

CHRISTMAS PRESENT

There can be no more acceptable Christmas present to a ringing friend than a year's (17s.) or half-year's (8s. 6d.) subscription to 'The Ringing World.' Remittances and addresses should be sent to Mrs. Fletcher, The White House, Caister-on-Sea, Norfolk.

BELFRY GOSSIP

The finest achievement to date in the realm of Spliced Surprise ringing is the 22-method peal at Harmston, Lincolnshire. All the band practise regularly at Lincoln Cathedral, and six are members of the Cathedral company and regular Sunday service ringers.

A Christmas greetings page will appear in our next issue. Messages are inserted for 2s. 6d. for 30 words.

'Kewsett' will delight in our next issue. His 'Round England Quiz' will test the knowledge of roving ringers. There are also other novelties to amuse the erudite.

The following birthdays were commemorated by the peal of Cambridge Royal at Worsley: Mr. T. Hammond, 68th; Miss Joyce Slater, of Liverpool, 21st; and Miss E. M. Suart, Dalton-in-Furness.

Messrs. J. Hurrell (tower keeper) and J. E. Lyddiard have now 'circled' Eltham tower. Other 'circlers' this week are Messrs. J. A. L. Thompson, Claybrooke, Leics, W. A. Stote and J. W. Taylor, Shilton, Warwickshire.

Canon S. Blofeld's 29 years as Vicar of Edgbaston was marked by a peal by the St. Martin's Guild. Also honoured were Mr. S. Freemantle, beadle for 40 years, and Mr. J. George.

Complimentary peals to Mr. J. George on his 95th birthday were rung at Nuneaton, Ashby-de-la-Zouch, Edgbaston, Birmingham, Bottesford, Leicestershire; Ferndown, Dorset; and Leicester.

Mr. James George has received so many letters and telegrams of congratulation upon his 95th birthday that he finds it impossible to reply to them individually. He, however, desires to thank sincerely all those who have sent him such kind messages.

It has come as a big disappointment to our Australian friends to learn of the cancellation of the King's visit. Mr. A. R. Wilson, secretary of the Holy Trinity, Hobart, ringers, writes: 'We are looking forward to the Royal visit, and we are paying many visits to St. David's Cathedral, where bells have a lovely tone, and we intend to give a good account of ourselves.'

The peal at Melbourne, Derbyshire, was an eighth birthday compliment to Norman Wm. Cotton, the son of the conductor. Norman is the youngest ringer in the Midland Counties Guild.

Interest in the Bebington, Cheshire, peal of November 23rd is that it is the first of Superlative for the Wirral Branch by a resident band.

Good use has been made of Terrington St. John, Norfolk, bells since their rehanging on November 29th, 1947. During the year 12 peals have been successfully brought round.

Among the quarters published in connection with the Royal birth was one at Brightwell, Berks. Until the spring of this year this tower was completely stoney. Now there are seven young people attending the weekly practices. We trust that in the near future it will be our privilege to record a peal from Brightwell.

Requests to be included as Royal birth peals have been received from: Brecon, November 15th; East Retford, November 23rd; Oxford, November 22nd; Bebington, November 23rd; Bowdon, Cheshire, November 23rd; Accrington, November 21st; Bicker, Lincs, November 22nd; Loughborough, Leicestershire, November 24th; Kirkby Lonsdale, Westmorland, November 27th; Dublin, November 27th; Cradley, November 21st.

New Record in Spliced Major

A LINCOLN ACHIEVEMENT.

With regard to the peal of Spliced Surprise Major in 22 methods, rung at Harmston, Lines, on November 27th, I should like to place on record the following facts:—

(a) That I sat in the belfry during the whole of the ringing, and, with the composition before me, checked off every method as rung.

(b) That every lead-end was checked by me and came up according to schedule.

The peal was a good one and, apart from two trips in the second part, only one of which looked serious, a high standard of ringing was maintained throughout.

The Lincoln Spliced band began its activities in 1937, ringing the first peal of Spliced Surprise for the Guild that year with a peal in four methods. By February, 1939, they had accomplished a peal in 10 methods—only the second of its kind at the time—when the war interrupted their activities. After the war the same band began practising again, determined to carry this branch of the art to a higher level. After considerable practice, 16 Spliced Surprise Major methods were rung in March, 1947, for the first time. Since then, many hours of practice, intensified since last summer, have been put in in order to achieve the present record.

Great credit is due to Mr. J. A. Freeman who, at 64 years of age, conducted the peal without fault. His enthusiasm is largely responsible for this latest success. But Spliced Surprise requires the finest team spirit, and this performance is enhanced by the fact that the band as a whole is not a young one—Mr. F. W. Stokes is 65.

I should like to thank the band for the privilege of umpiring the peal, and to offer my congratulations on the occasion of one of the most difficult feats in the art of tower-bell ringing.—K. S. B. Crofts.

The composition by Mr. A. J. Pitman appears at the foot of the next column.

TRAPNILL'S KNELL

Dear Sir,—The peal at Honiton Clyst, Devon, on November 26th, was in memoriam to Edward Trapnill (probably a ringer), who died November 26th, 1710, and left £5 to have a knell rung each year on the anniversary of his death. This sum was in the care of the churchwardens until 1912, when Edward Broughton, a ringer and churchwarden at Honiton Clyst Church for 23 years, added another £5 and formed a trust.

The custom originally was to chime each bell separately three times before ringing, to ring three peals (call changes) and after to chime the tenor nine times, but only the chiming before ringing is carried out to-day.

This is the first time a peal has been rung for the occasion.—Yours faithfully,

G. E. RETTER.

Honiton Clyst.

STONEY STRATFORD VETERAN

Captain of the Stoney Stratford, Bucks, ringers for the past 53 years, Mr. Edwin Yates is still working at the age of 81 at his wheelwright's business, which he established in 1892.

His birthday on November 24th was featured by an illustrated article in the local newspaper, which recalled his 35 years' service as a member of the Town's Fire Brigade and 20 years' as verger.

Mr. Yates sang as a boy in St. Giles' Church choir, and for 63 years he has been ringing here, having taken part in between 50 and 60 peals, including the first peals of seven Surprise Minor and Cambridge Surprise Minor for the Oxford Guild. He participated in a quarter in honour of the Royal baby on November 15th.

RINGERS OF LINCOLN CATHEDRAL. It was from this tower that preparations were made for the new record in Spliced Major. Six of those present participated in the peal. The ringers from left to right are: Front row: Raymond Smith, Geoffrey Mayer, John Walden (sec.), John A. Freeman (Master), Leslie Pask, George Flintham, Kenneth Mayer. Behind: Lewis Snell, Jack Millhouse, Sidney Chambers, Archer Lowman, Herbert Lowman, John Freeman, Walter Tomlinson, Tom Pyle. [Photo: C. C. Frisby, Lincoln.

St. Benet's in Danger

FABIAN STEDMAN'S CHURCH.

We have received since our brief announcement in our last issue of the danger to St. Benet's tower, Cambridge, additional details of the trouble confronting this church.

St. Benet's is the oldest building in Cambridge, and is one of the best examples of late Saxon architecture in England. It is Fabian Stedman's tower. Here he was parish clerk in the 17th century.

The tower was originally covered with a thin coating of plaster, a feature which survived until about ten years ago, when it was removed by the Cambridge Camden Society. The loss of this protection has accelerated the process of decay, and the surface of the tower is now in a serious, even dangerous condition, though the fabric stands firm.

Many of the ragstones weighing up to 10lb. are loose, particularly those under the parapet, and some, which can be lifted out by hand, constitute a danger to anyone standing underneath. Other defects which will require treatment include traces of death watch beetle in the timbers above the bell frame.

The tower has been examined by Prof. A. E. Richardson, R.A., and Mr. James Macgregor, head of the University School of Architecture, and their estimate for making the tower safe is nearly £1,400. Towards the cost the Pilgrim Trust, Corpus Christi College and a number of individuals have made contributions, but approximately £500 is still outstanding.

Ringers will remember the great effort made by the Exercise in 1931 to put the bells in order. The University Guild use these bells regularly for practice during term, and so far the authorities have not called for a cessation of ringing. The hon. treasurer of the repair fund is Mr. T. Whitby, 83, Norwich Street, Cambridge, who appeals for donations.

A RINGERS' BOARD

An interesting discovery was recently made amongst some lumber at Bolton Parish Church of a board, about 4ft. by 3ft. It must have been lying about neglected since the church was built in about 1870, but with difficulty can be made out, writes Mr. Peter Crook. There was an old church on this site before 1870. The board reads as follows:—

'Bolton Church, 22nd April, 1783. At a Parifh Meeting herein held, it if ordered by the Vicar, Churchwardenf and other Parifhionerf prefent, that whereaf the Ringerf are allowed in their turn the benefit of tolling at funeralf, the ringerf whofe turn it if, fhall, af soon af the corpfe arrivef at the Church gatef come down out of the belfry and remain in the Church while the funeral service if performed, and do hif endevour to prevent noife and difturbance thro' crying children, of rude diforderly boys and others who too often crowd the Church on Thefe Solemnitief, and that the ringer who neglectf or refufef to do, fhall forfeit his said privilagef.'

Salisbury Diocesan Guild

Some 45 members attended the annual meeting of the West Dorset Branch at Bridport on December 4th, representing nine affiliated towers.

Canon G. C. Clare, the Rector, conducted the service in church, and tea followed in the Church Hall.

The Rev. C. Carew Cox, chairman of the branch, presided over the business meeting, supported by Canon Clare, the Revs. A. W. Wheeler and O. L. Willmott, and Col. Yeo, churchwarden of Bridport. The accounts showed a balance in hand of £23 4s. 7d. It was noteworthy that, with the exception of only two towers, all subscriptions had been paid up.

Officers were re-elected unanimously as follows: Chairman, Rev. C. Carew Cox; hon. secretary and treasurer, Mr. C. H. Lathey; assistant secretary, Mr. D. W. Critchard; Ringing Master, Mr. H. D. W. Bishop; Deputy Ringing Masters, Messrs. H. G. Keeley and J. Barrett. The Rev. O. L. Willmott was elected as vice-chairman. Five new members were elected from Bradpole and Mr. S. H. Green from Lyme Regis, bringing the total number of members up to 118, a slight increase on last year. Meetings were proposed for Bradpole in February, Hawkchurch with Thorncombe in July, and Whitchurch Canonicorum in September.

A suggestion by Mr. Barrett that efforts should be made to organise coaches for branch members to attend the annual meeting of the Salisbury Guild in May was enthusiastically received, and it was agreed to form a subcommittee for this purpose at the next quarterly meeting.

Members were asked to do all they could to help with instructing in change ringing at Bradpole, Bridport, Powerstock and Loders.

Congratulations were expressed to Roger Keeley on ringing his first peal at the age of 13½ on a working bell in Kent Treble Bob Major.

On the motion of the chairman, thanks were accorded to the Rector of Bridport for his welcome and the use of his tower; also to Mr. B. Elsworth, the branch organist, to Mr. C. H. Lathey for his efficient work as secretary, and to the caterers for the ample tea provided.

Ringing during the afternoon and evening included rounds and call changes, Grandsire and Stedman Triples, Double Norwich and Cambridge Surprise Major.

BISHOP UNVEILS PEAL BOARD

The Bishop of Lichfield on December 5th unveiled a peal board in the belfry of St. Peter's, Stoke-on-Trent, recording a peal of Kent Treble Bob Major, 5,040 changes, rung in honour of the visit of the Archbishop of Canterbury to Stoke. The Bishop and the Archdeacon of Stoke chatted with the ringers. Afterwards a touch of Kent was rung on the bells.

OBITUARY

MR. S. CHURTON.

The North Staffordshire Association have lost one of their oldest members by the death of Mr. S. Churton, aged 82. Mr. Churton joined the Stoke band in 1885, and made rapid progress in the art of change ringing. For over 40 years he was leader of the St. Peter's band, and was also Ringing Master in the North Staffordshire Association. He was always willing to assist young ringers.

The Archdeacon of Stoke (the Ven. Percy Harbill) officiated at the funeral service on December 1st, and the interment was at Hartshill Cemetery, Messrs. C. H. Page, A. D. Steel, F. E. Wilshaw and M. Buckley, of the St. Peter's band, acting as bearers.

The bells were half-muffled at the annual meeting of the Association on December 4th as a mark of respect.

Lancashire Association

BOLTON BRANCH'S POPULARITY.

The success of the Bolton Branch's meetings is attracting ringers from many districts of Lancashire, Cheshire and borders of Yorkshire. The meeting on November 27th at the Saviour's Church was very well attended, the tower being well suited for large gatherings. The Ringing Master, Mr. J. L. Wright, had a difficult task in arranging touches to suit everybody. Cambridge, Superlative and Double Norwich Major were the predominant methods, and the striking throughout was of a high order. Call changes were provided for the beginners. Unfortunately there was one competent ringer short to make up bands for London, Bristol and Yorkshire Surprise.

Mr. Marshall and his very young daughter from Parbold attended, and the ringing performance of the latter surprised all present. At the other end of the scale of years was the veteran Walter Gorton, who, at 87, said it was three years since he rang a peal and it was time he was having another.

At the last monthly meeting held at St. Mary's, Deane, bands had to go into the tower in relays, there was such a large attendance and a small tower.

Some towers provide full teas, others provide cups of tea only.

It was decided to hold the next meeting at Holy Trinity, Bolton, on December 18th, and the annual branch meeting at Bolton Parish Church on January 22nd. P. C.

AMERICA'S GIFT TO BERKS VILLAGE

On November 20th, the Right Rev. A. Parham, Suffragan Bishop of Reading, dedicated two bells in the tower of the Parish Church, Shrivenham. These bells were the gift of the Armed Forces of the United States of America and the British Empire who were stationed at Shrivenham in 1944, and were given to complete the octave, there being already six bells in a frame constructed for eight.

On the following Sunday evening the first quarter-peal, 1,260 Stedman Triples, was rung by the following: Miss M. E. Richards 1, C. J. Gardener 2, Wm. W. T. Daniell 3, E. J. Berry 4, E. Bishop 5, W. B. Kynaston (cond.) 6, T. Townsend 7, P. Anger 8.

A YORKSHIRE CELEBRATION

To celebrate the winning of the Hoylandswaine Challenge Cup, the Cawthorne Church bellringers enjoyed an excellent supper at the Golden Cross Cafe on November 27th.

Ringers from adioining towers were invited to attend, but as the district was enveloped in fog it was soon realised that no guests would be able to join the festive board, so after a hurried consultation a frantic S.O.S. was sent out for the Cawthorne ringers' wives, who, though originally barred from the supper, turned up triumphantly and all was well.

Ringing in a variety of methods took place in the afternoon at the Church of All Saints, and amongst the performers was Mr. J. W. Fish, who has been a ringer at Cawthorne for 46 years.

BATH AND WELLS ASSOCIATION

TAUNTON BRANCH.

The annual meeting of the above branch was held at Taunton on December 4th, and was attended by some 70 ringers. The service at St. James' Church was conducted by the Vicar, the Rev. F. Hirst.

At the business meeting the chair was taken by the Rev. J. W. Storey, and the election of officers for 1949 resulted as follows: Rev. F. Hirst (chairman), Mr. A. W. Hayward (vice-chairman), Mr. A. H. Reed (hon. secretary) and Mr. W. G. Gigg (Ringing Master). Tribute was paid to the Rev. Storey, the retiring chairman, who has always been an inspiration at these meetings. Full use was made of the towers available, and a most successful meeting resulted.

Oxford Diocesan Guild

NEWBURY BRANCH.

Fog prevented many from attending the annual meeting of the Newbury Branch of the Oxford Guild at Newbury on November 27th, including the Master, Deputy Master and general secretary. Nevertheless, 58 sat down to tea in St. Nicolas' Parish Room, including the Rector of Newbury, the Rev. Bertram Russell, the chairman, the Rev. W. Kingsley Kefford, and Col. R. T. Foster, of Peasemore.

Most of the branch towers were presented and visitors were present from Basingstoke, Eynsham, Guildford, Oxford, Reading, Sherborne St. John and Woolton Hill. The Guild service was conducted by the Rector, assisted by the chairman, with Mr. G. A. Sellick at the organ.

In his address the Rector asked the ringers if they realised that with thousands of parishes in the country and ringers in most parishes, they must form the biggest men's club in England. With such a powerful force for good they could, by standing firm in their various walks of life for all that was true and honourable, do much to stem the falling off of those standards of life which were the hallmark of a Christian.

At the business meeting all branch officers were re-elected. Six new ringing members and one honorary member were elected.

Mr. Rex, the Ringing Master, reported that seven peals and several quarter-peals had been rung during the year. He hoped for more quarter-peals by local bands. Combined practices had been held at different towers where courses in the more advanced methods had been rung. The secretary reported that there was quite a nucleus of keen young ringers, but more were needed to keep the branch alive.

It is hoped to arrange another meeting next year with the Basingstoke Branch of the Winchester and Portsmouth Guild. The next meeting of the Newbury Branch was fixed for Compton in February. Ringing during the afternoon and evening ranged from rounds to Kent and Bob Royal.

NORWICH DIOCESAN ASSOCIATION

MEETING AT FORNCETT.

The South Norfolk Branch meeting at Forncett on November 13th attracted a record number of 60 ringers and friends. The heavy ring of five bells was made full use of, also two sets of handbells, the youngest ringer, Master Allan Curson, aged 4, ringing two handbells to rounds. Service was conducted by the Rector, the Rev. F. E. Vokes, with the Rev. A. G. G. Thurlow at the organ, and Mr. Nolan Golden read the lesson.

The branch chairman, Mr. W. L. Duffield, presided at the meeting, supported by the Rev. St. J. Heard (president), Mr. Nolan Golden (Ringing Master), the Rev. A. G. G. Thurlow (general secretary), the Rev. — Vokes (hon. member), Mr. A. G. Harrison (branch secretary) and Messrs. E. Whiting, C. E. G. Banham, F. W. Phillipps and W. Saunders (committee). The annual meeting of the branch is to be held at Diss on February 5th, 1949.

LETTERS TO THE EDITOR

The New Notebook and Diary

Dear Sir,—The new diaries are now completed and are being mailed to purchasers who, we hope, will be very pleased with them.

With books of this kind it is very hard to please everybody, and we think that a few words of explanation as to why certain things were included or omitted would not be out of place.

For instance, after the 'Central Council Members and Guild Secretaries' section had been set and space allocated it was found that several smaller but very active societies were not included, but no more space could be allotted. Again the original conception of the 'methods' section included a much greater range of methods and touches, but it was found necessary, for reasons of economy, to condense everything. Even so, there are 20 methods and 325 touches and quarter peals.

Regarding the 'Peals Rung' and 'Towers Visited' sections, we think that enough space has been allowed for all but a few 'star' performers.

The 'diary' section was made 'week-to-a-page' because we think that only a few persons write copious notes, and the space allowed is sufficient for the writing of appointments and for normal use. We consider that the disadvantages are far outweighed by the convenient slenderness of the present book and the allowing of space for other purposes.

Contents of the "diary' section are incomplete as regards annual meetings and dinners, but all the information volunteered in response to our request in 'The Ringing World' some time ago has been printed. It is hoped that, with the full co-operation of all concerned, any omissions can be rectified in future editions.

Sales of the diary have proved that there was a real need for it in the Exercise and, having made a good beginning, we should, in future years, be able to offer an even better service. Long live the diary.

W. VIGGERS and M. HODGSON.

LOTTERIES & RESTORATION SCHEMES

Dear Sir,—I wish Mr. P. Amos would give all the facts when rushing to write a letter for printing. The letter he sent to all guilds, etc., for a collection to be taken at their meetings was his own private affair and not connected in any way with the Peterborough Diocesan Guild.

As regards the appeals from Ipswich and Somerset, these took the form of prize-draw tickets, and at our meeting the point was to decide if we could accept and sell these tickets officially when our local clergy had requested that no funds be raised by prize-drawing tickets for bell restoration purposes. The feeling of the members present at the meeting was not to accept and sell the tickets.

A suggestion then immediately came from the chair that we should have a collection at that meeting and the next meeting for the appeals concerned, and equally divide the donations for the towers concerned. This was carried unanimously, and I can assure you more was realised from this collection than would have come from the sale of draw tickets.

If any visiting ringers would like to try any bells in this vicinity, we are only too pleased to make the necessary arrangements and not ask for a 'county wide appeal.' I have yet to hear that a donation of £10 from our Bell Restoration Fund entitles anyone, other than the incumbent, to say who shall or shall not ring peals on the bells concerned.

I seem to remember, when Mr. Amos made his appeal, that he was heard to say, 'When I get these bells I take good care they won't get connected to Peterborough Guild.'—Yours sincerely, E. NOBLES, Hon. Sec.

Duston, Northants.

Ambitions and Thanks

By taking part in the peal of Bristol Surprise at Bottesford on November 27th, Ernest Morris, of St. Margaret's, Leicester, has set up a new record by having rung peals of 5,000 changes and upwards on every possible tower in Leicestershire. There are actually 133 towers with rings of five bells and more, and of these Mr. Morris has rung peals in 128. They are comprised as follows: 43 of five, 46 of six, 33 of eight, 4 of ten and 2 of twelve. No other ringer has yet achieved so many towers in one county to full peals. As the other towers become possible by ultimate restoration, Mr. Morris hopes to be able to complete every one.

Dear Sir,—As a young ringer 40 years ago I made it my ambition to be able to ring any bell—big or little—going going or otherwise. Also to be able to ring any method on five bells and upwards. How far this ambition has been attained is shown in my list of peals. Being also desirous of learning something about the bells themselves, their history, inscriptions and founders, I set about finding all information I could of the bells of my native county, Leicestershire. In the course of years I have collected all the possible data on the history of the bells, their founders and peals rung.

And in my wanderings I determined to get a peal at every possible tower with 5 bells and over. In the latter connection I have to thank my country friends, especially the Ratby and Groby band—the Geary family in particular—for assisting in many towers around their district. Then the Billesdon band, headed by the brothers Geoffrey and Norman Geary, who took me to so many outlying places that would have been quite impossible without their help.

Many other local bands and individual ringers have helped to make my ambition possible, and to each and all I offer my sincerest thanks. It is easily possible that my record will be broken in the larger counties with many more towers than our small county, and I look forward to this being done in the near future.—Yours sincerely,

Leicester. ERNEST MORRIS.

MR. C. F. JOHNSTON RESIGNS

The Board of Gillett and Johnston, Ltd., announces with regret the resignation of Mr. C. F. Johnston from the company. His place has been taken by Mr. H. M. Howard, a well-known authority on the founding and tuning of church bells. The whole of the experienced technical staff is being retained as formerly.

A CENTURY AT BRIDSTOW

By the ringing of the last peal of Grandsire Triples at Bridstow, Herefordshire, the number of peals rung to this tower has reached 100, the list being: On the original five bells: Grandsire Doubles 2.

After their increase to six in 1910: Grandsire Doubles 1, Stedman Doubles 1, one Minor method 11, two Minor methods 3, three Minor methods 2, four Minor methods 1, five Minor methods 3, seven Minor methods 6, nine Minor methods 1, ten Minor methods 1, twelve Minor methods 1, fourteen Minor methods 1.

After augmentation to eight in 1924: Grandsire Triples 21, Stedman Triples 7, Oxford Bob Triples 1, Bob Major 21, Kent Treble Bob Major 1, Oxford Treble Bob Major 1, Canterbury Pleasure Major 1, Double Bob Major 1, Double Oxford Major 1, Double Norwich Major 2, Little Bob Major 1, Cambridge Surprise Major 1, London Surprise Major 1.

These were rung by 91 different ringers, 86 of which were conducted by Mr. W. Poston. A unique record is held by Mr. Poston of having rung in all these peals except the peal of London by the late Mr. W. Pye's band.

Mr. J. George's 95th Birthday

'I am the oldest veteran ringer in the world ever to ring a handbell peal at the age of 95 years.'

This is the footnote Mr. James George forwarded to the editor in regard to the handbell peal he rang on his 95th birthday on Saturday, November 27th, at the residence of Mr. Martin Stewart at Ferndown, Dorset. The peal is recorded in this issue.

'Jimmy arrived "full of beans,"' writes the conductor, Mr. D. T. Matkin. The peal was listened to by Mr. and Mrs. Jack Thomas and Mr. A. H. Pulling, and they can testify that it was good ringing. After the peal Mr. and Mrs. Stewart provided refreshments, and 'Jimmy' certainly enjoyed himself.

This is Mr. George's 1,281st peal. Those have been rung in England, Scotland, Ireland and Wales in 399 different churches and cathedrals, and in 27 different places on handbells.

On August 24th, 1939, he rang the sixth to a peal of Plain Bob Major at Enderby, Leicestershire, at the age of 85 years and 9 months, and is the oldest surviving ringer to ring a tower bell at that age. This peal was called by Mr. Ernest Morris, who asks us to give his congratulations to Mr. George. Mr. Morris concludes: 'I have vivid memories of many other fine peals we rang together, especially the 7,840 Oxford Treble Bob, which I called with Mr. George on the tenor.'

Mr. George has already made provisional arrangements for his 96th birthday peal next year. He is in reasonably good health, and there appears to be no reason why he should not do what he says he will do—live to be 100 years.

ELY DIOCESAN ASSOCIATION

A story of electricity failure was the meeting of the Cambridge District at Ickleton on November 13th. There was no light in the tower at the start of the meeting. Later, to the relief of everyone, it was restored only to fail just before the service.

In the fast failing natural light the service started, and then, to the amazement of the congregation, as the words of the first line of the second verse ('Let all your lamps be bright') of the hymn, 'Ye servants of the Lord,' was being sung, the lights came on.

Owing to the large attendance tea at the Red Lion was in two sittings. A sum of 2 gns. was voted to the fund for Duxford bells—those in the derelict Church of St. John are to be rehung in the Church of St. Peter. The district annual meeting will be at Cambridge on January 22nd.

CHESTER DIOCESAN GUILD

STOCKPORT BRANCH.

The last meeting of the year was held at Stalybridge (St. Paul's) on Nov. 27th, when, despite the foggy conditions, some 70 members and friends were present. Good use was made of the bells before the service in church.

The Guild form of service was read by an old friend of the branch, Canon B. B. Slater, who in an interesting address said that ringers should glorify their ancient ministry. To do this would require from them dedication, regularity and worship. By glorifying their ministry they would help in glorifying the whole ministry of the church.

An excellent tea was provided by the local ringers.

At the business meeting the Vicar presided, and the meetings suggested for 1949 (subject to the agreement of the towers in question) were: January 29th, Stockport (St. Mary's); April 23rd, Burbage; May 21st, Hayfield; June 25th, Knutsford; July 16th, Mottram; September 24th, Marple; November 26th, Stalybridge (Holy Trinity).

The meeting concluded with a cordial vote of thanks to all who had contributed to the success of the meeting. Further ringing was enjoyed until a late hour.

'TO ALL PROCLAIM HIM'

THIS issue of 'The Ringing World' is dated Christmas Eve, and this evening and to-morrow the majority of the 40,000 ringers in this country and overseas will through the bells be proclaiming to the world at large the glad tidings of Christmas. It is the privilege of the ringer to be among the first to say 'Merry Christmas' to the community. Our first thought is of ourselves, and your Editor and the Editorial Committee send to every belfry where this journal is taken their personal greetings and good wishes. 'We are all brothers' is a phrase that could well be applied to ringers. Despite all our shortcomings, we are the largest organised body of church-workers in the country; there is certainly no other body where individual members are known to each other so intimately and with greater friendliness.

Everyman will be listening for our bells this evening. Each Christmas brings to mankind new hope. The message of the heavenly host of 'Peace on earth, goodwill towards men' is applicable to-day as it was on that first Christmas. And the message comes from the churches of our land. Dean Carpenter, in his book 'The Household of Faith,' tells of this witness to God. 'One has a spire, a finger pointing to God,' he writes. 'Another has a tower. It is like an old man holding up a clenched hand and saying, "As the Lord liveth before whom I stand. Thus saith the Lord."'

On Christmas morning people will look at the spires and towers of our land and hear the message of our witness, 'Goodwill towards men.' It is in the atmosphere of goodwill and none other that we can receive the great gift of Christmas and take part in the worship and adoration of the Christ Child.

To some in these days the call of Bethlehem might sound very mystic, nevertheless it is still real and living. It is not a call 'Come to church at all costs'; it is the same attraction as was possessed by the stable of Bethlehem, that drew the shepherds and the wise men to the Infant Christ. The words of a traditional French carol, 'Waking Time,' tells perhaps better than any editorial words the message and the witness:—

> And in a stable though he lies,
> We in our hearts will soon devise
> Such mansions as can never shame him:'
> There we will house and hold him dear,
> And through the world to all proclaim him:
> 'Wake up, good folk!
> Wake up, good folk, for Christ is here.'

SUBSCRIPTION REMINDER

The year 1948 is fast ebbing, there is barely another week left in which to send your subscriptions to Mrs. Fletcher, The White House, Caister-on-Sea, Norfolk. Many new subscribers are joining the 'Ringing World' family with our January 7th issue.

BELFRY GOSSIP

Mr. Frank Warrington, of St. Ives, Hunts, for the Royal birth conducted 33,502 changes in Minor, Triples and Major in eight towers. Ringing time was 18 hours, 29 minutes, and the mileage he covered was 234. Of the seven peals attempted six were successful. Two quarter-peals were also rung. Is it a record? he asks.

Mrs. F. J. Marshallsay, of Bournemouth, will, we are sure, receive many congratulations on her 200th peal.

There will be a delay of a few days in the dispatch of 'Ringing World' receipts through the volume of accountancy.

Mr. T. E. Sone, of Paddock Wood, Kent, has now called peals by 50 different composers embracing 173 different compositions, of which 112 were one-parts. He has conducted 238 peals.

John Noel Ames, who commenced ringing this year, has rung his first peal. He and Ronald Coldwell are the first two of the Snaith (Yorkshire) band to ring a peal.

Mr. A. H. Pulling, who had the privilege of calling Mr. F. S. Wilson's first handbell peal, again officiated for his 100th peal at Ferndown on November 24th. Mr. J. Thomas also participated on both occasions. The trio had not rung together for 36 years.

Mr. Bowley, who rang the treble to his first peal at Copt Oak on November 12th, has been a regular service ringer at Copt Oak and Oaks-in-Charnwood for over 50 years. He rings single-handed, having lost his right hand many years ago.

The University of Bristol Society have made amends for the royal birth peal interrupted by the verger after ringing for 2 hours and 20 minutes. This was accomplished on Dec. 7th and was the first of Triples for the Society. There had been another attempt earlier which was lost through an omission in the calling.

To mark the 83rd birthday of Mr. J. W. Jones, the Master of the Llandaff and Monmouth Diocesan Association, a peal was rung at St. Cadoc's, Caerleon, on December 4th. Caerleon was chosen because it was there that Mr. Jones first learned to handle a bell and he is also an old Caerleon old boy. It is 60 years ago since the first peal was rung on Caerleon bells, and Mr. Jones was one of the ringers who took part on that occasion.

The bells of St. Mary Redcliffe, Bristol, will be broadcast in the West Regional programme on Sunday, January 2nd, between 9.25 and 9.35 a.m.

At a West Wales church an instructor was nonplussed when his pupil asked, 'Can I scratch my nose? It's itching.' Leaving the sally to its own devices, she scratched!

The peal of Bristol Surprise at Portsmouth on December 4th was the 300th peal together by Messrs. A. T. Greenwood and F. W. Rogers.

In the peal of Doubles at Accrington on October 30th the ringer of the 4th was R. Leigh, and of the tenor C. H. P. Johnson, and not vice versa as published.

The peal at Willesden on December 2nd is the first peal of Major to come round at hand-stroke. It was rung on the wedding anniversary of the composer, and the band wish it to be regarded as a welcome to Andrew John Corby. By ringing the sixth, Mr. Cutler has rung every bell in the tower to a different Surprise method this year.

An interesting if unorthodox way of producing changes on handbells was tried out at Burford, Oxon, on December 5th, when M. C. F. Collett, J. G. Collett and B. S. Nichols (conductor) 'lapped' a quarter-peal of Bob Minor. Writes the conductor: This can be very entertaining at a Christmas party and is something which can be used to show a non-ringer the actual 'movement' of a working bell.

A Christmas Quiz for Ringers

BY KEWSETT.

Three book prizes are offered for the answers nearest the correct solution. Closing date January 8th, 1949. Envelopes to be addressed 'Christmas Quiz,' c/o The Editor, 'The Ringing World,' Woodbridge Press, Ltd., Guildford.

ROUND ENGLAND QUIZ.

1. Where is there a ring of ten, reputed to contain metal from the cannon of the Spanish Armada?
2. Where is there a ring of six with a public roadway underneath the tower?
3. Where is there a round church with a ring of eight?
4. Where is the ring of bells highest above sea level?
5. Where is there a ring of 6 in a Saxon tower so weak that the bells are supported on an internal girder tower?
6. Which parish church has two separate rings of bells?
7. Where is there a ring of twelve hung anticlockwise?
8. In which cathedral has one to walk the length of the triforium to get to the belfry?
9. Where is there a complete Saxon church in the same town as two rings of eight bells?
10. Where are there two churches in the same churchyard, one with tower in ruins used for services, the other with nave in ruins with a ring of bells?

HUNT THE PSALM.

In the following quotations from the Psalms, a word is omitted in each that is a ringing term. What are the missing words?

11. 'Incline thine ear unto me when I ——'
12. 'They had swallowed us up ——: when they were so wrathfully displeased at us.'
13. 'Bow thy heavens, O Lord, and come down; —— the mountains, and they shall smoke.'
14. 'O let the wickedness of the ungodly come to an end: but —— thou the just.'
15. 'And rejoiceth as a giant to run his ——'
16. 'And the Lord shall —— by them, and save them.'
17. A CODE. — Read the following message concerning bellringing.

18. A DARTS PROBLEM. — A friend once gave me a problem. He had to arrange a fixture list for a league of twenty darts teams. The league met on nineteen evenings and played ten matches every evening. How can the fixtures be arranged so that every team plays every other during the nineteen evenings? Being a ringer, I could answer this. Can you show how to solve the problem for any even number of teams?
19. STEDMAN TRIPLES.—Eight friends of mine rang a plain course of Stedman Triples. The ropes fell in a circle, in order.

Jack was on John's left.
When Bob was in quick, John and Arthur were dodging in 4-5.
Pat was not opposite Bob, but Bob was opposite Arthur.
Tom and John were standing on either side of Arthur, and the three were all in the slow together.
Tony was on Bill's right.

Which bells were they ringing?

ANAGRAMS.

The following phrases with letters rearranged give the names of well-known methods or principles. What are they?

20. Stirring elder sap.
21. O crumb, Horatio, jocund wobbler.
22. But done damsels.
23. Tire in calor gas.
24. Strap errors biliously.
25. Blond robber exit room F.

MARITAL MUSINGS

INSPIRED BY THE MARRIED COUPLES' PEAL OF STEDMAN CINQUES.—C. K. L.

For recipe of bliss conjugal,
In spite of bells or bugle,
To the ringers of a recent peal
Very humbly we appeal.

We, while on their words of wisdom wait,
Can among ourselves debate
Whether the famous couple Thomas
Discuss the peals they amass?

Does ringing thrill, as shades grow darker,
Those 'bright young people' Barker?
The Pooles, like bells in their true courses,
Do they too pool resources?

Do the Matthews in their forty winks
Go on ringing Stedman Cinques?
Or is it in the ménage Deal
First words are, 'How went the peal?'?

Does a true symmetrical round-block
Please or vex the couple Lock?
All, to put an end to our surmise,
Should ring a peal of 'spliced' Surprise.

'Toastscript.'

Do the Lewis's bill and coo
When for a peal they 'Have a go'?
Does loss of time restrict the urge
Now we have the 'Plain Bob Dirge'?

A happy Christmas to the lot,
Good fortune in New Year.
Here's one whose hoping for a tot
When occasion calls for cheer! D. 'C.' V.

A 25th ANNIVERSARY

An interesting anniversary was commemorated at Norbury (Hazel Grove), Cheshire, by repeating a 35-method peal 25 years later.

The first 35-method peal was rung on the old six at Norbury on December 4th, 1923, by James Fernley, jun., John P. Fidler, William Fernley, Walter W. Wolstencroft, James Fernley, sen., and John W. Hartley, and the conductor was J. Fernley, sen. Messrs. James, jun., and William Fernley took part in the anniversary peal, and the band would like to associate the names of J. P. Fidler, W. W. Wolstencroft and J. W. Hartley with the peal, being the remaining survivors of the original band. The rest of the band was made up from that which rang the maximum number of Treble Bob Minor methods that can be spliced into seven extents (73) at Fairfield, Buxton, on June 12th, 1937. James Fernley, jun., and W. W. Wolstencroft also took part.

The first 35-method peal was a milestone in Minor ringing and laid the foundation for the advances which followed and culminated in the ringing of the 105-method peal by the Lincolnshire handbell band. It is a great pity that the booklet, 'Method Splicing,' by J. P. Fidler, is now no longer obtainable, as it is full of useful information. C.K.L.

A Golden Wedding

MR. AND MRS. ALBERT WALKER.

Mr. and Mrs. Albert Walker, of Birmingham, celebrated their golden wedding anniversary by giving a dinner party at the Old Royal Hotel, Birmingham, on December 11th, which was attended by the members of their family and about thirty intimate ringing friends. Many messages of congratulation and goodwill were read out by the M.C. (Mr. J. F. Smallwood), and a very happy spirit pervaded the whole of the proceedings.

Mr. F. E. Haynes proposed the health of Mr. and Mrs. Walker, and spoke in very high praise of the splendid work which Mr. Walker had done in Birmingham, in which he had been so unselfishly supported by Mrs. Walker. He referred to the hospitality which they had extended to the many visitors who came to Birmingham, and to the many handbell peals which had been rung at their old residence in Baker Street. He felt sure that he was voicing the feelings of all present when he wished them continued happiness, and that they would be spared for many more happy years of married life.

Mr. W. Dowding and Mr. E. C. Shepherd added more words of congratulation.

In reply, Mr. Walker, in reminiscent mood, recalled many happenings, both during his courtship and married life, and expressed great pleasure at the presence that evening of one of the bridesmaids (Aunt Jane) who was at his wedding 50 years ago. He was sorry that, owing to the limitations of the times, he had been unable to secure a larger room and had been unable to invite all the friends whom he would have liked to come. He acknowledged that without the ungrudging help he had received from his wife he could not have done so much for ringing.

Mr. J. F. Smallwood, on behalf of the company, then asked Mr. Walker to accept a travelling bag and Mrs. Walker to accept a bouquet as small tangible tokens of the esteem and affection in which they were held by all present. He also spoke in high terms of the good work done by them both, wishing them long life and continued happiness.

Mr. Walker, who was taken by surprise, expressed his thanks. A handbell peal of Stedman Cinques was rung in honour of the happy event, and a peal of Stedman Cinques, 5,050 changes, at St. Martin's, Birmingham.

On the following day there was a family gathering of 86. Mr. and Mrs. Walker received 12 telegrams, 24 letters and 40 golden wedding greeting cards. J. F. S.

CHELTENHAM BRANCH ANNUAL.

Over fifty members met at St. Mary's, Cheltenham, for the annual meeting of the branch on December 11th. Service was conducted by the Rector, Canon J. B. Goodliffe, who also presided at the meeting following tea. The Rector of Leckhampton was also present, and all towers except Swindon Village were represented. Many of the country members were able to enjoy ringing on a higher number than usual. Methods ranged from rounds to Cambridge, and there was much evidence of good progress during the year.

Mr. Thomas Boreham was elected chairman for 1949, the other officers being re-elected. An outing to be held in June, which the ladies are to be allowed to join in, and, if possible, a dinner in March, were agreed on, as also were meetings to be held at Prestbury, Alderton, Badgeworth and Charlton Kings, of which notice will be given in 'The Ringing World.'

Five members had rung their first peal during the year and one his first as conductor. C. R.

LETTERS TO THE EDITOR

Pitch of Bells

Dear Sir,—When I came to Washfield in 1937 I found they had a nice ring of six bells, and according to the list in the belfry it gave the weights, the dates and the bell founders as follows:—

Tenor. 10 cwt. 2 lb. Mears, 1901.
No. 5. 8 cwt. W. Bilbie, 1787.
No. 4. 6 cwt. W. Bilbie, 1787.
No. 3. 5 cwt. 3 lb. Mears, 1901.
No. 2. 4 cwt. 20 lb. Mears, 1861.
Treble. 4 cwt. W. Bilbie, 1787.

The history from the records gives the explanation. In 1746 there were four bells; in 1787 a treble was added (all five by Bilbie). In 1861 No. 2 bell got cracked and was recast by Mears. In 1901 a new tenor was added, which necessitated No. 3 being recast and flattened a semitone.

Evidently Mears put their bells on the weighing machine. Bilbie gave a rough estimate.

The belfry list also showed the bells to be in the key of G, thus naming them G, A, B, C, D, E. Being curious, I thought I would check off. I tested them first with a set of handbells (Shaw's, of Bradford, made about a hundred years ago), which were concert pitch, for they harmonised with church organs and good pianos. I found the church bells were a semitone out, and the key was A flat. I checked off again with a Scout bugle and found the bells were really A flat.

On reading your leader on 'Pitch of Bells' and the interesting standards of vibrations, I wondered if we had got the correct pitch after all. At school we were taught physics, and our textbook said that 'what is vaguely referred to as concert pitch may be taken to represent C, the middle note of a piano, and has a vibration of 264 to the second.' Your leader says the B.B.C. pitch and the former English concert pitch is C+522. The lower octave C, the half of 522, would be 261 vibrations. There is not much in it, only three vibrations difference a second. I wonder how many have the ear to detect it.

J. M. TURNER.

B.B.C. TIME SIGNAL

Dear Sir,—Being at the moment out of touch with actual ringing, I would like to say how good it is to be able to keep up with the latest ringing news through your paper.

I was interested in Mr. Edwards' remarks on the speed of ten-bell striking. Bow bells were a heavy ring, of course, and I quite agree that they sound fine rung at the slow speed on the B.B.C. disc. At one time I was in the employ of the B.B.C., and one day I timed the Bow bell changes. They vary slightly, of course, but the speed is roughly 20 changes per minute, which would bring a peal of exactly 5,000 changes home in 4 hours and 10 minutes. It is a slow speed, indeed, but deeply effective on a ring of that weight.

May I say one word about six-bell ringing? I have rung in many six-bell towers, and, of course, speed always depends upon local tower and hanging conditions, but on the whole I like the six bells struck slowly, but, particularly Minor methods, very slowly, about 19 or 20 to the minute. I have in mind the six at Tredington in Warwickshire, an old ring recently rehung, with a tenor of 16¼ cwt. in E flat. Just about two years ago I heard a 720 of Plain Bob Minor rung there, at 17 changes to the minute. Those bells are out of tune, but the touch was very well struck and sounded quite magnificent. I should like to have heard the same touch transferred to a modern Simpson-tuned six in E flat.—Yours truly, D. STANLEY.

St. Andrew's Hospital, Northampton.

Cracked Bells

Dear Sir,—Adverting to the subject of the above, I had a very unpleasant experience at Winchester Cathedral when a lad of 16 in the year 1891. I had operated the chiming apparatus for Sunday morning service. It was the practice to raise and lower the tenor, and when just over frame high I was startled to hear a very different sound coming from above. I only had a younger boy than myself with me in the tower, and we made a very hurried descent, to be met by the steeplekeeper with a very anxious inquiry as to what had happened to the tenor.

My experience of cracked bells being very limited, I could give no explanation as to the reason for the change of sound. An examination later on in the day revealed a crack nearly the whole length of the 32 cwt. bell. A representative from Messrs. Mears and Stainbank gave it as his opinion that the cracking was due to the wear by the clapper, and I think his view was the correct one.

It is of interest to note that this bell was cast by Mr. Richard Phelps in the year 1734 and had never been quarter turned. The records of the Dean and Chapter for that year (1734) show that 'all the bell metal belonging to the Cathedral Church was delivered to Mr. Richard Phelps, who undertook to make eight new musical bells of the weight of five tunns or thereabouts. The tone of the tenor to be D sol, agreeable to the tone of the organ in Saint Michaell's Church Cornhill in London.' It was this bell, after 157 years of faithful service, that gave me the fright of my life on that October Sunday morning, 1891.—Yours faithfully, CHARLES J. NORTH.

Selsey-on-Sea, Sussex.

Dear Sir,—I should like to support the statement of Mr. F. E. Collins in 'The Ringing World' of Dec. 10th. From our experience at the Croydon Foundry the great majority of cracked bells are obviously due to the old 'cast-in' crown staple and cannot therefore be attributed in any way to carelessness.

The remaining few appear mostly to be caused by 'clocking' which, although not necessarily carelessness, is certainly due to thoughtlessness.—Yours truly,

Croydon. FRED C. W. STEVENSON.

WHAT DOES IT SOUND LIKE?

Dear Sir,—Mr. Elkins, in last week's issue of 'The Ringing World,' has certainly hit on a most important point regarding speed in ringing. I wonder how many of us set out for ringing with a purpose other than just merely ringing.

Personally, I have frequently found it necessary in towers where I have had charge, particularly on Sunday mornings, to say, 'Make them sound cheerful; we have no funerals today.' Invariably my remark has the desired effect. It reminds the ringers that there is a purpose for which they are ringing.

I feel sure that if all ringers were to do their ringing in the same spirit the ringing would find its own speed automatically.

Of course, it is obvious if any particular ringer doesn't feel disposed to push a big 'un about on a Sunday morning—well, he should get the other end.—Yours faithfully,

Chatham. V. A. JARRETT.

FRINDSBURY, KENT.—On Dec. 5th, 1,344 Bob Major: T. Beaumont 1, C. C. Bishop (first on eight) 2, Miss G. K. Jarrett (first quarter)3, S. T. Jarrett 4, V. A. Jarrett (cond.) 5, E. A. G. Allen 6, C. S. Jarrett 7, T. A. Cross 8. Rung in honour of the 85th birthday of Mrs. F. Jarrett, mother of the ringers of 4 and 5 and grandmother of the ringers of 3 and 7.

OBITUARY

MR. GEORGE BENNETT.

One of the best-known authorities on Yorkshire towers, Mr. George Bennett, of Holy Trinity, Ossett, has passed away at the age of 52. The funeral was at Ossett on December 9th. After the last rites, handbells were rung at the graveside by four ringers of the local band. Fellow-ringers from various towers and the local band kept the muffled steeple bells ringing into the evening, closing with a quarter-peal of Bob Royal.

George Bennett was a pioneer one cannot afford to lose. He was unfortunate just at the period of peal accomplishments to be cut off by his breaking down in health. Commencing as a young ringer in late 1909, he was made a member of the Yorkshire Association in 1910 at the age of 14. His first peal was at the age of 18 at Ossett (Bob Major in 1914). His second was Grandsire Caters in 1914 at Wakefield Cathedral. During his war service of the 1914-18 Great War naturally he took part in various peals about the country, particularly in the Nottingham and Bedford districts—one at Cardington in November, 1918, as a thanksgiving for cessation of hostilities; also at Dublin and Bray. In 1922 he rang one at Horbury.

The first peal of Grandsire Triples to be rung at Ossett (in 1923) was conducted by him. He was also the main factor of Ossett's beautiful ring of 10 being installed in 1934, and conducted the first peal on the bells (Grandsire Caters in 1935). The active service of his war duties gradually caused his health to deteriorate, and from then on, although his keenness never faltered, he was unable to ring at his best. Always there for advice, he was an example to all.

MR. LEONARD HEAD

Mr. Leonard Head, who died on December 5th, had been a regular ringer at All Saints', Leighton Buzzard, until his illness a year ago.

A half-muffled quarter-peal of 1,273 Grandsire Triples was rung to his memory by his fellow-ringers: J. H. Conquest 1, Miss V. Willard 2, H. B. Witney 3, W. Jeffs 4, F. Plummer 5, V. W. Conquest 6, J. E. Arnold (cond.) 7, W. Insley 8.

GLOUCESTER AND BRISTOL

TEWKESBURY BRANCH.

The annual meeting of the Tewkesbury Branch was held at Leigh on December 4th. It was very well attended, most of the towers being represented as well as friends from Cheltenham, Bishop's Cleeve, Norton and Prestbury. Officers elected for the ensuing year were Group Capt. Lister, chairman; Mr. E. T. Newbury, hon. secretary; Mr. W. Poulton, representative on General Committee. Three new performing members were elected.

It was decided to hold the next meeting at Tirley. A very excellent tea was served in the schoolroom. The service was conducted by the Rev. K. Prosser-Evans, who also presided at the business meeting. Ringing during the afternoon and evening ranged from Grandsire Doubles to Cambridge Surprise.

MR. F. S. WILSON'S 100 PEALS

Fifty years after ringing his first touch Mr. F. S. Wilson, of Lilliput, Dorset, rang his 100th peal on November 24th. His list is appended:—

Tower bells: Grandsire Doubles 2, Plain Bob Minor 2, Plain Bob Major 3, Oxford Treble Bob Major 1, Double Norwich Court Bob Major 1, Grandsire Triples 20, Grandsire Caters 5, Stedman Triples 7, Stedman Caters 2; total, 43.

Handbells: Grandsire Doubles 7, Grandsire Triples 41, Grandsire Caters 5, Stedman Triples 4; total, 100.

DONCASTER AND DISTRICT SOCIETY

DEDICATION OF PEAL BOARDS.

On December 11th upwards of 45 members of the society from Doncaster, Arksey, Fishlake, Bentley, Goole, Hatfield, Sprotborough and the local company met at a special meeting held at Thorne Parish Church for the ceremony of the dedication of two peal boards in the belfry.

The eight bells (tenor 14 cwt. 1 qr. 14 lb.) were rung up in peal, and during the afternoon excellent touches of Grandsire Triples, Little Bob Major, Double Norwich C.B. Major and Plain Bob were rung. At 4.15 the Vicar, the Rev. C. Weaver, dedicated the two peal boards in the belfry, following which the whole of the members in attendance attended divine service in the church.

During the singing of Psalm 150 an excellent course of Grandsire Triples was rung near the chancel steps by J. Martin Thorley 1-2, James Thorley 3-4, E. Cooper 5-6, and Ernest J. Padget 7-8.

The Vicar gave a short address and, after welcoming the members present, paid high tribute to the Thorne ringers who, he said, were not only expert ringers but were most regular attenders at the church. Tea was served in the Institute, provided generously by wives of the local ringers and lady helpers.

Mr. E. Cooper (Arksey) thanked the Vicar for the use of the bells and his welcome to the ringers present, also to the lady helpers. Mr. C. W. King (Goole) seconded the motion, which was carried with acclamation.

Good use was made of the bells until 9 p.m. Methods rung during the evening included Double Norwich C.B. Major, Kent and Oxford Treble Bob Major, Oxford Bob Triples, Stedman, and a good course of Cambridge Surprise Major. Four peals are inscribed on the two boards, being 5,040 Stedman Triples, 5,056 Bob Major, 5,040 Grandsire Triples and 5,184 Oxford Treble Bob Major.

IMITATION, BUT . . .

FROM Australia House we have received information this week of how the news of the birth of the Royal Prince was heralded at Melbourne by an electronic carillon operating from Melbourne Town Hall. This was relayed by Radio Australia, and the so-called 'peals' were recorded by the B.B.C. and later rebroadcast from London. Without hesitation we state that we are appalled at the prostitution of one of the characteristic English arts. Immediately mechanisation steps in the individual skill departs and the public is led to believe that the imitation provided is the real thing.

Here are some of the details of the Melbourne electronic carillon: Patriotic and popular melodies were played on the bells by Professor B. Heinze, Ormond Professor of Music at the University, and were clearly audible for a distance of nine miles. A similar instrument was also in use in other Australian capitals to spread the news of the Royal birth and replace the conventional ring of bells. Its musically-exact notes render it suitable for playing tunes in addition to performing change ringing. The musical range covered is one and a half octaves (C to F, including half-tones), enabling most pieces of music to be played. Volume is completely under control at all times and can be varied to compensate for differing conditions of wind and weather.

The 18-note tubular-bell console was invented by Mr. J. E. Benson, an engineer of Sydney, and was made by Amalgamated Wireless (Australasia), Ltd., from Australian materials. Its height is framed by that of its longest tube, 5ft. 3in., and it has an elevated stool to permit the player to reach the keyboard comfortably.

Main features of the tubular-bell apparatus, writes Charles Lynch, are hammer handles of §in. hardwood, roller rod bearings of cast metal, adjustable buffer pads, hammer heads, suspended tubular bells, damper bar and microphone for amplifying effects. An interesting feature is the design of the striking mallets which are constructed of laminated cowhide for the special purpose for which they are required in the instrument. The 18 mallets in the console strike the bells; the sound is picked up by the microphone, and the usual apparatus amplifies the melody.

These carillons have already been installed in several Australian churches, including St. John's Church of England, Launceston and Hoskins Presbyterian Church, Lithgow, New South Wales. So far we have not noticed in 'The Ringing Towers,' the magazine of the New South Wales Association, any reference to this serious threat to change ringing in that State. There is no question that real progress in the art of change ringing is being made at St. Jude's, Randwick, All Saints', Parramatta, and St. James', Turramurra. A vigorous ringing society exists at Holy Trinity, Hobart, and St. Peter's, Adelaide, have been strengthened by the return of one of their ringers, Robin Groove, from England, where he gained experience in many English towers. Change ringers cannot but regard the electronic carillon as a threat to ringing as we know it. The English ringers who toured Australia rang a number of peals including one at Melbourne Cathedral.

SUBSCRIPTION REMINDER

The year 1948 is fast ebbing, there are only a few hours left in which to send your subscriptions to Mrs. Fletcher, The White House, Caister-on-Sea, Norfolk. Many new subscribers are joining the 'Ringing World' family with our January 7th issue.

BELFRY GOSSIP

Mr. T. J. Fowler, foreman of Holy Trinity, Cookham, and Branch Ringing Master of the East Berks and South Bucks Branch of the Oxford Diocesan Guild, and his tenor man, Mr. W. Ing, completed 50 years' service in Cookham Church choir on December 18th. In honour of their long service to the church, they were entertained to dinner on Dec. 14th and each presented with a Westminster chimes clock suitably inscribed.

Fourteen-year-old Andrew Scott and Mr. A. L. Shepherd are the first Eastham (Cheshire) ringers to score a peal since 1896.

The anniversary of the King's Accession was the purport of peals rung at Boston, Hertford, Burnham and Wood Green.

In Kewsett's Christmas Quiz the last line of the code, Question 17, should read: 'Inntoeicnnsoweeahord.'

'Erin' was the tenth Triples method in which Mr. Percy Swindley, of Chester, has rung a peal. This was rung at Chester on December 11th.

Errata.—With reference to the peal of Plain Bob Royal at Surfleet on November 27th, it was the 50th peal by Mr. Cyril Wander and not Mr. Frank Dewey. The latter has 86 peals to his credit.

Patrol Leader Marion Davies, of the 1st Sidmouth Company Girl Guides, writes about her ringing in 'The Guide.' She had a quarter of Grandsire Triples to her credit last October, and wonders whether there are any other Guide bellringers.

Ambiguity in punctuation led to the footnote of the officers' peal of the Yorkshire Association, rung at Batley, and published in our last issue, reading that it was Mr. L. W. G. Morris' 200th peal and 100th as conductor. He has rung nearer 500 peals. The 200 peals refer to his performances for the Association, which he has served with such faithfulness during his 22 years' membership.

Caught in a downpour on his way by motor-cycle to ring a peal at Puckington, Somerset, Mr. Harry J. Gaylard had his trousers soaked. The Vicar, on hearing of his plight, offered him the loan of a pair of his trousers. The offer was gratefully accepted and a good and comfortable peal was rung.

The peal at Eynesbury, Hunts, was intended for November 18th for the royal birth, but was postponed owing to illness near the church.

Chester Guild are in the news with 10,080 Bristol Surprise Major rung at Over in 6 hours 17 minutes.

Mr. Andrew C. Sinfield's 100th peal was rung at Maulden, Beds, where his father has been churchwarden for 47 years. It was also a birthday compliment to him.

Long Buckby, Northants, ringers believe that the quarter-peal they rang on November 17th for the royal birth was the first by an entirely local band.

Will those who have rung 40 or more peals during 1948 please send the following particulars: Number rung in tower and hand and number conducted.

We feel sure that London ringers will welcome Mr. R. Ling, of Paisley, who has accepted an appointment in the Metropolis. Before leaving he conducted on December 19th a farewell 1,440 Plain Bob Minor. The ringers were J. Porteous 1, N. Sharpe, jun., 2, Mrs. Caldwell 3, R. Thorn 4, R. W. M. Clouston 5, R. Ling 6, N. Sharpe (covering).

As Brington, Northants, bells are at the foundry, the wedding compliment to Miss I. Anderson and Mr. E. Smith had to be rung at Harlestone. Brington ringers, who have all learnt to ring in the last 18 months, have raised £800 for the restoration of the ring and tower. However, since £700 is still required, donations would be gratefully received by the Rector, the Rev. M. Pendleton.

IN AFFILIATION WITH CENTRAL COUNCIL

The East Grinstead and District Guild

DURING the early 1920's, ringing in northern Sussex was in a very poor state. At that time the County Association was divided into three, i.e., Eastern, Central and Western Divisions, and ringing was centred round the more populous districts near the coast. In the Central Division, Brighton was the 'Mecca' of Surprise ringers and meetings were rarely held north of Uckfield, and consequently ringers and local bands around East Grinstead had little chance of improving themselves.

In 1927, Mr. N. E. Hope and Mr. G. Lambert, of East Grinstead, sent out invitations to towers within ten miles of that town for representatives to meet at Placelands, East Grinstead, the home of Mr. Hope, with the object of forming a ringing guild. On June 4th the meeting was held and the guild was formed, the following officers being elected: Master, Mr. O. Sippetts; treasurer, Mr. N. E. Hope; secretary, Mr. G. Lambert; committee, Messrs. E. J. Oliver, A. L. Ryman, D. Divall, W. Poole and G. Brackpool. This committee met again on June 22nd, and the first meeting was held at East Grinstead on July 30th, 1927.

A rota of practices, at the rate of two per week, was drawn up and were fairly successful, but in 1928 the Guild settled down to a meeting once per month, the difficulty being to avoid clashing with the meetings of the three county associations over whose territory the Guild operated. This was overcome by holding the meetings regularly on the second Saturday of each month.

OPPOSITION FROM SUSSEX.

Despite the opposition of the Sussex County Association, the Guild was an immediate success and membership soon topped the 100 mark. With the opposition, some of the early meetings were rather lively affairs, but the attendances soon showed the need for such a guild, who, at the outset, made it clear that its sole object was to help struggling bands and ringers to attain good striking in the standard methods and so improve Sunday service ringing. The Guild encouraged members to join their County Association, and did everything to promote good feeling towards the county, being content to remain as a nursery. Learners were always sure of a ring at the meetings and most of the time is devoted to them. It was not until late years that Surprise methods were practised, as these could be had at county meetings.

At the request of ringers outside the 10 mile limit, the area was extended to a radius of 15 miles in 1932, but in 1948, owing to lack of support and difficulties of operation, the western boundary was withdrawn to about eight miles west of East Grinstead, and now contains one ring of 10, 23 of 8, 15 of 6, and one of 5 bells.

To ensure an even distribution of meetings the Guild's area has now been divided into four and each division is visited in turn.

At the first annual meeting in 1928, the Rev. H. W. Layng, Rector of Withyham, was elected president and the Guild lost a great friend when he died in 1936. He was succeeded by the present president, the Rev. Dr. Golding-Bird, D.D., Vicar of East Grinstead, whose witty remarks are a feature of every annual meeting.

In 1929, following an objection by the Sussex County, the office of master was altered to that of chairman, Mr. E. J. Oliver being elected, subsequent chairmen being A. L. Ryman, 1936, B. Collison, 1945, and E. J. Ladd, 1947 to date. Mr. G. Lambert remained as secretary until 1937, followed by B. Saunders till 1941, then C. A. Bassett to date. The feature of Mr. Saunders' term of office was that he did all the Guild's printing, and produced the annual reports for 1937 and 1938 in book form. The war put an end to this, but he continued printing in austerity form until 1946.

ST. SWITHIN'S, EAST GRINSTEAD.

The first treasurer, Mr. N. E. Hope, remained in office until 1930, when he was ordained to the ministry and went to live near Cheltenham, later to become the present Master of the Gloucester and Bristol Association. Other treasurers have been E. J. Ladd to 1935, R. D. Divall to 1942, and E. J. Oliver to date.

AFFILIATION SECURED.

In 1932 it was proposed to affiliate to the Central Council, but this was opposed on the grounds that all members were represented by their county associations. In 1939 the opposition was overcome and the Guild was affiliated, with the election of Mr. A. Relfe, who still holds office.

In 1932 the Guild presented Withyham Parish Church with rope guides for the eight bells, and followed this in 1934 with a similar gift to Hartfield Parish Church.

The first peal for the Guild was one of Double Norwich at Coleman's Hatch in 1928, conducted by Mr. O. Sippetts, but as most members belong to the county associations, practically all the peals in the area are recorded for the respective county, and so only 40 peals have been credited to the Guild. These include the first performance of a composition of Cambridge Major by C. H. Kippin and conducted by him at Coleman's Hatch on July 28th, 1937, and the first 'in hand' for the Guild, one of Bob Minor by the West Grinstead band in 1939. To celebrate the 21st birthday of the Guild, the eight officers rang a peal of Kent Treble Bob Major at East Grinstead on June 19th, 1948.

During the ban 13 meetings were held and were well attended. Some members became quite proficient on handbells and have continued this interest at each meeting to date.

WELLESBOROUGH, KENT. — On Nov. 28th, 1,440 Bob Minor: A. Batten 1, Miss P. Lowes 2, R. J. Lancefield 3, A. J. Lancefield 4, M. S. Lancefield 5, E. S. Ruck (cond.) 6.

Mathematics of Peal Ringing

DR. RANKIN'S THEORY.

On December 3rd, Dr. Rankin addressed the Cambridge Mathematical Society known as the New Pythagoreans, in Girton College, on 'The Mathematics of Change Ringing,' choosing as his subject Grandsire Triples. Readers will remember the editorial on his previous research earlier this year.

Dr. Rankin heard and watched change ringing for the first time when four members of the University Guild rang a course of Grandsire Triples before and a touch of Bob Minor after the lecture.

After briefly explaining the notation used in group theory and considering the permutations of the three-bell hunt, three being in course and three out of course, Dr. Rankin proceeded to a more detailed explanation of Grandsire Triples.

He considered two permutations, P and B, corresponding to Plain and Bobbed leads respectively, such that $P^5=I$, where I denoted the permutation rounds, and $B^3=I$. Then, having defined symmetric and alternating groups, he proceeded to state the fundamental rules of composition, i.e.:—

(i) That each row may be produced from the preceding row only by changing neighbouring pairs of bells.
(ii) That no change shall occur twice.
(ii) That the changes occur in sets of fourteen called leads.

He then showed that, ignoring singles, any change is uniquely determined by the lead-end owing to the nature of the rows (in and out of course alternately) and the path of the treble. The problem to produce the 5,040 changes was then resolved into the production of the 360 treble leads. With reference to the work of John Holt and W. H. Thompson, the lecturer then turned to the idea of the Q-set, the discovery of the latter.

The remainder of the lecture was devoted to a fairly exhaustive consideration of Q-sets and their implications, culminating in a proof of the impossibility of obtaining a peal of Grandsire Triples using bobs alone. Briefly, his reasoning was that, since a Q-set consists of five lead-ends in a P structure, giving 72 Q-sets, or three lead-ends in a B structure, giving 120 Q-sets, and these Q-sets cannot all be bobbed or plained, all 360 leads cannot be produced.

He showed that in a round block consisting of an even number of Q-sets, if one Q-set is bobbed instead (or plained, as the case may be) three round blocks are produced. In general, if we have a round block of 'plained' Q-sets and then decide to 'bob' some of them, we can only produce an odd number of round blocks, and hence we must use an odd number of Q-set originally. But we must have an even number of Q-sets (i.e., 72 or 120) for a peal, hence the peal is not possible by bobs alone.

Dr. Rankin concluded with a few general remarks on ringing and lengths of peals.

FAREWELL TOUCH

Mr. Harry Wright, who learnt to ring at Chilvers Coton about 20 years ago, has left to take up an appointment in Gatooma, S. Rhodesia. He had been in business in Wolverhampton and Oswestry for some years.

On December 9th a farewell touch of 630 Grandsire Triples was rung at Chilvers Coton by F. Moreton 1, L. Trevor 2, M. Beamish 3, D. E. Beamish 4, J. Ford 5, W. J. Aldridge 6, A. H. Beamish 7, H. W. Wright 8.

The good wishes of the Coton band were expressed by Mr. A. H. Beamish to Mr. Wright for a safe journey and a prosperous future. Ringers who may find themselves in that part of Africa in future will find a welcome from Mr. Wright at Specks Hotel, Gatooma, S. Rhodesia.

LETTERS

The Oldest Ringer in Royal Baby Peals

Dear Sir,—With reference to your comment in Belfry Gossip (December 10th), I would respectfully point out that the ringer of the treble to the peal of Grandsire at Egham, reported on page 536 of the same issue, is in his eighty-third year, namely, Mr. William C. Parker, captain of St. Peter's, Staines.—Yours truly, R. J. SHEPHERD.

Egham, Surrey.

SPLICED SURPRISE MAJOR

Dear Sir,—Please allow me through 'The Ringing World' to congratulate Mr. John A. Freeman and his band on ringing the peal in 22 methods.

This is indeed a great achievement and a most praiseworthy performance.—Yours faithfully, A. J. PITMAN.

Port Talbot.

AN AUSTRALIAN QUERY

Dear Sir,—The New South Wales Association endeavour to follow as closely as possible the standards set by the Central Council, and have in the past declined to recognise peals of Minor with a cover bell or bells, as it was understood that this was not permissible or considered good practice under the rules laid down for methods on that number of bells.

We now find our ruling challenged on the grounds of a peal of Minor, rung at the Church of St. George, Dublin, for the Irish Association and published in 'The Ringing World' of December 19th, 1947. This peal was rung on eight bells, the changes being produced on bells 2 to 7 inclusive.

Now, sir, would you be so kind as to supply the following information for the guidance of the members of the above organisation:—

(1) Can this peal be regarded as correct and in accordance with standard practice?
(2) Can one or more cover bells be used in methods on 5-7 or 9 bells?
(3) Can one or more cover bells be used in methods on 6-8 or 10 bells?

Trusting you will be so kind as to help in this matter.—Yours faithfully,

J. DUNCAN, Chairman.

NOTE.—The official answer of the Peal Analysis Committee is as follows: The peal rung by the Irish Association of Minor with Treble leading and eight covering, although published in 'The Ringing World,' was not included in the Peal Analysis. The Central Council deprecate the use of more than one cover on 5, 7 or 9 bells and also the use of one or more cover bells on 6, 8 or 10.—C.D.

MR. CYRIL JOHNSTON AND RINGING

Dear Sir,—In your issue of December 17th a statement appeared from the present directors of Gillett and Johnston, Ltd., announcing my resignation from the company.

I would like to make it clear that, although I resigned last March from the position of managing director of the firm, I have no intention of severing my connection with the bell world, after having spent a lifetime amongst bells and bellringers. I shall be glad to hear from ringing friends at any time at my home address, 15, Croham Valley Road, Croydon.

May I take this opportunity of wishing them and 'The Ringing World' a happy and prosperous New Year?—Yours very truly,

CYRIL F. JOHNSTON.

OXFORD.—At St. Martin's and All Saints' on Dec. 5th, 1,260 Stedman Triples: E. Moore 1, F. A. H. Wilkins 2, Marie Cross 3, C. Coles 4, H. Badder 5, W. F. Judge 6, W. C. Porter (cond.) 7, T. Goddard 8.

Ringers and the B.B.C.

A SOMERSET PROTEST.

Some outspoken remarks were made at the annual meeting of the Dunster Deanery Branch of the Bath and Wells Diocesan Association at Minehead on December 11th concerning the treatment of change ringing by the B.B.C.

The question was ventilated by Mr. A. Madeley, who said the poor acknowledgment given to church bell ringing by the B.B.C. was a matter of great interest to all ringers. It was 'an absolute disgrace' that an old art like ringing, which was English to the backbone and, except in a few instances in the Dominions, was practised only in these islands, should be so neglected that 'they give us a paltry two or three minutes at the most before a service.'

Mr. Madeley went on to say they were told that on November 15th they would hear the Westminster bells ringing for the Royal birth. What did they get? In the one o'clock news they had only a few seconds from the Society of College Youths, who were ringing a beautiful peal so far as striking, rhythm and time were concerned. It was a treat to hear the open-hand leads so well given and yet, from a peal that was being broadcast to the whole world, they had only a few seconds.

Mr. Madeley suggested all Ringing Associations should endeavour to use the Central Council to get the B.B.C. to give ringing better treatment. As a further instance of the B.B.C. outlook on the art, he recalled that a few years ago he listened to a recording of Dickens' 'Christmas Carol,' during which a record of church bell ringing was introduced—ringing a muffled peal. 'That is the sort of treatment handed out to an old and grand art,' Mr. Madeley concluded, amid applause.

The Rev. T. S. Dawson, who presided, said he felt particularly sore about it because his own ringers did not have two minutes the last time a broadcast was made from his church (Carhampton).

The Rev. D. J. Cockle said he could not see the B.B.C. giving more time to religious broadcasting, but if something was done to instruct the vast listening public by way of an introduction to methods, with illustrations, he thought they might be getting somewhere.

The meeting decided to ask members to write individually to the Rev. Martin Wilson at the West Regional headquarters, Bristol, asking that more attention be given to ringing.

The annual report announced the election of 17 performing and one hon. member during the year. The Rev. T. S. Dawson was re-elected president, Mr. George Stacey hon. secretary and treasurer, and Mr. J. S. Pugsley Ringing Master for the 19th successive year.

SWANSEA AND BRECON GUILD

SOUTHERN DISTRICT.

The district annual meeting was held at Aberavon, about 25 members attending, also Mr. R. E. Coles from Cowbridge. The bells were rung in the four standard methods, also Cambridge Surprise Major. A short service was conducted by the Vicar (the Ven. L. Thomas). About 30 were present for tea and enjoyed the good things provided by Mrs. Stitch, with the lady helpers to wait at the tables.

The Rev. J. D. L. Jones, Vicar of Baglan, took the chair at the business meeting, Mr. T. M. Roderick was re-elected auditor, and Mr. E. Stitch was re-elected district secretary. Llanelly was chosen for the March meeting. One hon. member and five new members were elected.

Dedications

STANGROUND, HUNTS.

A new treble bell, to augment the existing ring to six, was dedicated by the Bishop of Ely on December 12th at Stanground, Hunts. The new bell is hung in a steel frame above the original five, and is a gift from Miss A. Freear in memory of her sister, Mrs. Caroline Dix.

Messrs. Gillett and Johnston were entrusted with the work of casting and hanging the new bell, and, in the opinion of the ringers present, have produced a perfect splice.

The local band of service ringers rang an opening touch of Grandsire Doubles, and this was followed by touches in various methods from Plain Bob to London, in which friends from Peterborough, Stamford, Glinton and St. Ives took part.

WORPLESDON, SURREY.

By the addition of two new trebles, the bells of St. Mary's, Worplesdon, have been increased to a ring of eight. The two new bells were dedicated on December 19th by the Archdeacon of Dorking (the Ven. E. J. Newill), and are memorials to Sir Laurence Halsey and to the Misses Gertrude, Winifred and Evelyn Thompson.

The service was conducted by the Rector (Canon S. F. Cornell), and following the dedication the choir sang the carol, 'Ring out, wild bells.' The bell founders, Messrs. Gillett and Johnston, Ltd., were represented by Mr. Michael Howard and Mr. Don Bradford.

Ringing before the service was on the old six and in charge of Mr. Sam Petter. The many visiting ringers included Mr. G. L. Grover (secretary of the Guildford Diocesan Guild), Mr. A. C. Hazelden (secretary of the Guildford District) and Mr. C. Denyer (Ringing Master, Farnham District).

The new treble is in E flat and weighs 6 cwt. 2 qr. 4 lb., and the second is in D and weighs 6 cwt. 2 qr. 12 lb. It is proposed to rehang on ball bearings the 3rd, 4th, 5th, 6th and 7th bells. Worplesdon bells have had the reputation of being 'lumpy.' The latest proposal will remedy this defect and give Guildford district another fine ring of eight.

BEVERLEY AND DISTRICT SOCIETY

MEETING AT BEVERLEY.

The ten at St. Mary's, Beverley, have a national reputation and are among the finest in Yorkshire. It was a great privilege for the Society to meet here on December 11th. The service touch of 324 Grandsire Caters was noteworthy.

Canon T. H. Tardrew (the Vicar), assisted by the Rev. G. S. Storer (Vicar of Hutton Cranswick), conducted the service. Taking the lesson for the day, John the Baptist, as his theme, Canon Tardrew said the bells were the 'voice' crying in the wilderness of unbelief, cynicism, indifference and even hostility. He hoped the Society would continue to ring the bells and carry on the great tradition of change ringing, instructing others in the art.

A sumptuous tea at the Beverley Arms was preceded by a touch of Grandsire Triples on handbells, rung in the foyer of the hotel. The guests included the Mayor and Mayoress of Beverley (Cclr. and Mrs. J. A. Smedley).

The President (Mr. G. F. Williams), who took the chair at the business meeting, extended a welcome to the Mayor and Mayoress. The Mayor, in reply, recalled a previous meeting in July and said he had been impressed by the enthusiasm and keen interest displayed at both meetings and the social atmosphere engendered.

A special welcome was given to Mr. F. Osgerby on his recovery from his recent accident among the bells. The next meeting will be at St. Mary's, Cottingham, on January 8th. Three new members were elected. Votes of thanks were passed to the Vicar, organist and local ringers. Fifty-five members attended the meeting from 17 towers.

Salisbury Diocesan Guild

WIMBORNE BRANCH.

The annual meeting of the branch was held at St. James', Poole, on December 11th. Ringing started about 2.30 and was carried on in various methods till 4.15, when the service took place, the address being given by the Rector.

An excellent tea in the Old Rectory followed, thanks to the care and efforts of Mr. and Mrs. Davis and helpers.

At the business meeting Canon Eddrup presided, supported by the Rector (the Rev. E. C. Haires), the Rev. R. P. Farrow, Mr. Martin Stewart (Past Master of the Guild) and nearly 50 members and visitors from Derby, Cambridge University Guild and Epsom.

The report for the past year included some special events. The first, of peculiar interest to the whole confraternity, and already known to all readers of 'The Ringing World,' was the peal rung by Mr. James George on his 95th birthday in Mr. Stewart's home at Ferndown. There was also a peal of Stedman Caters rung there that evening, and Mr. Davis (Bournemouth) thanked Mr. Stewart for all his hospitality that day.

On the following Sunday a quarter-peal of one of Mr. George's Stedman compositions was rung at Poole. Then Mr. F. Wilson, late of Wincanton, who has also been a member of the Guild for over 50 years, rang his 100th peal—one of the Stedman Triples, also at Mr. Stewart's in November. Lastly, St. John's, Bournemouth, had been keeping that month the jubilee festival of the church, and Mr. Mitchell and his company were congratulated on the ringing during the festival.

Mr. Mitchell, in responding, recorded for 1948 12 quarter-peals on the bells and two peals 'in hand' of Plain Bob and Kent, and the faithful regularity of the company in Sunday service ringing.

The officers of the branch were re-elected, and on Mr. F. W. Townsend's re-election as Ringing Master, the Rector and Mr. A. Davis paid a special tribute to all he had done through so many years for St. James' and all his pioneer work in handbell ringing in the district.

In connection with the third Southern Rally to be held on May 7th, 1949 — this time at Christchurch Priory—Mr. A. Davis spoke hopefully of the building up of a tradition such as existed at Birmingham and Leicester, and two members were elected to serve on the local committee.

A hearty vote of thanks was given to the Rector for his welcome and address, and to Mr. and Mrs. Ivon Davis and helpers for all the comfortable preparations in the Old Rectory and the bountiful tea.

NORWICH DIOCESAN ASSOCIATION

EAST NORFOLK BRANCH.

The first meeting of the Association to be held at Aldeby took place on November 20th, and was attended by 31 members. Various five-bell methods were rung.

The Vicar (the Rev. W. H. Gunter) conducted the service, and a fine tea was provided by the Mothers' Union.

The Rev. Morris, Vicar of Norton, presided at the business meeting. The death was reported of Robert Brundle, of the Suffolk Guild, who was the last survivor of the founders of the Norwich Diocesan Association in 1877. The meeting stood in silence to his memory.

Mention was made of the charge of 6d. per member for peal ringing, which was agreed at the general meeting at Norwich.

The Guild president (the Rev. A. St. J. Heard) thanked the Vicar for the use of the bells and the Mothers' Union for the tea. Next meeting is at Gorleston on March 5th.

The Grundisburgh Campaign

The conclusion of the Grundisburgh Campaign was marked by ringing on the bells of St. Margaret's Church, Ipswich, on December 18th. The ringers were entertained to tea by Mr. C. W. Pipe, who announced the campaign had been a great success and he thanked ringers far and wide for their kind help to Grundisburgh Bells Fund. The bells would be installed about the end of February, and ringers all over the country would be welcome to ring on the augmented ten, which should prove a great attraction in the Ipswich district.

In view of the large party present, the prize-winners were then decided as follows:—

2194 Miss D. Hills, Spring Road, St. Osyth, Essex.
898 Mr. J. Jones, Meldreth, Cambs.
4913 E. A. Clarke, 19, Reading Road, Ipswich.
