MEMORIES OF 1947

WITH all the grandeur and solemnity of half-muffled ringing we in Guildford heard the passing of 1947 last Wednesday night. To many 1947 will be remembered as the year of calamity, with blizzard and flood at home and the world's economic position disturbed to such an extent that 'men's hearts sank within them.' Unprecedented almost describes the position; even 'The Ringing World' had its sequence of publication broken, and for three weeks the Government forbade publication.

When the background is most unpromising, history has repeatedly a story of advancement to tell. Bells and ringing have more than held their own in public esteem, and the bell-founding firms have been working to capacity. Important installations have been those of Wakefield and Lichfield Cathedrals in this country and Adelaide in Australia. Peal ringing has been on the increase, and there have been some outstanding performances. Record lengths of Bob Royal (9,000) and London Surprise (14,112) have been established, and the peal of Minor of 105 methods in hand was another achievement worthy of congratulation. To those who find their delight in five-bell ringing, the peal in 25 methods of Doubles at Old Marston reached a new pinnacle.

The social side of the Exercise has not been forgotten. Festivals at Bournemouth and Leicester brought together enthusiasts from all parts of the country. The Society of Royal Cumberland Youths celebrated their bi-centenary in a fitting manner, and there were the usual fixtures in the ringers' calendar of the Henry Johnson commemoration dinner, the Central Council (at Exeter) and the 310th anniversary of the Ancient Society of College Youths. Two jubilees were also held—the Middlesex Association, which after 50 years had nine original members still with them, and the Chester Guild, now 60 years old, who met at Macclesfield.

And 1947 also left gaps within our ranks. There were two with a long association with Surfleet in Mr. Rupert Richardson and the Rev. E. Bankes James. As historian, writer and an expert in method construction, Mr. J. Armiger Trollope held a unique position among bellringers and justified his selection to be the second editor of this journal. Frequently taking the opposite viewpoint to Mr. Trollope was the Rev. E. S. Powell, whose 'Ringers' Handbook' holds a special place in the instructional literature of bellringing. Another honoured name in the Exercise was Mr. E. Denison Taylor, the head of the well-known Loughborough firm. In that select circle of those who had rung 1,000 peals was Mr.

Keith Hart, of Brighton. Other names to mind are Messrs. E. A. Pitstow, W. H. Johnson, James Hemming, F. B. Tompkins, James Pagett, Fred Rigby, C. Pothecary, Robert Matthews, J. H. Wilkins, James Houldsworth and Walter Chibnall. Their memories will always be associated with 1947.

BELFRY GOSSIP

Mr. S. Jones, sen., who has been a ringer at Eccleston, Cheshire, for 54 years, celebrated his 79th birthday by ringing a quarter-peal for the first time with his three sons on December 13th. Method, Grandsire Triples. Details: A. H. Jones 1, F. Jones 2, G. Pugh 3, W. Hopwood 4, S. Jones, sen. 5, S. Jones, jun. (cond.) 6, H. Thomas 7, E. Price 8.

Do not miss Will H. Viggers' 'Delight' team that heralded in Christmas! For full details see the back page.

The peal of three Minor methods at Miles Platting, Manchester, was for the 40th anniversary of the wedding of Mr. and Mrs. Joseph Hall.

Great credit is due to the Brown Edge, Staffordshire, band, who at a second attempt have rung the first peal on the bells since they were rehung. For a long time this band has struggled on unaided.

Twenty-one years have elapsed since the last peal at Rothersthorpe, Northants. Mr. Percy Amos participated in both peals.

Our friends in the Constabulary inform us that the peal at Miles Platting on December 2nd for the National Police Guild was for the Royal Wedding.

For his coming-of-age as district secretary in the Swansea and Brecon Guild, Mr. E. Stitch conducted a peal of Holt's Original at Aberavon, on December 5th. Also honoured was Mr. J. W. Jones, of Newport, the occasion being his 82nd birthday.

The peal at Erith on December 5th was a second birthday peal for Susan Hoverd. Her father, Harry Hoverd, a regular member of the Erith peal band, is one of those pillars of the Exercise about whom we hear little but whose work behind the scenes makes ringing the flourishing institution it is to-day. A native of Oxfordshire, he has been the popular captain of Dartford ringers for some 14 or 15 years.

There were rejoicings at Appleton, Berks, for the 70th birthday of Mr. Richard White, the peal of Grandsire Caters on December 2nd being in his honour. Mr. White has figured in three record lengths—the 16,271 Grandsire Caters at Appleton and the world record of 21,363 Stedman Caters there in 12 hours 25 minutes in 1922, and the 12,663 Stedman Cinques at Oxford in 1946.

The peal of Barnet Surprise Major was rung by Mr. Harold G. Cashmore's band without previous practice!

Congratulations to Mr. John H. Gartside, of the Lancashire Association and College Youths, on his 100th peal.

The first peal on the newly augmented six at Eaton, Leics., was to the memory of Mr. T. E. Pearson, the donor of the treble.

The conductor and ringer of the tenor of the peal at Wonston, Hants, on November 15th, was Mr. Leslie Tremeer. It was his 50th.

Commented upon previously in this column, Albanian Surprise Royal, writes conductor Horace E. G. Goodenough, will extend to Maximus.

In sending us his 350th peal, Mr. T. E. Sone, of Paddock Wood, puts us right in the number of 'circles' he has completed. He has conducted 'round the circle' in eight eight-bell towers, not twice round the circle in eight eight-bell towers. As a matter of fact he can claim to have done this in four towers! Next theorem, please!

The 82nd birthday of that popular Welsh ringer, J. W. Jones, of Newport, was remembered by 1,260 Plain Bob Royal at St. John the Baptist's, Cardiff. The ringers were L. Hulbert 1, T. Yeomans 2, J. Bailey 3, W. Heath 4, J. Davies 5, W. Richards 6, W. Dare 7, A. Parnell 8, J. Worrall 9, E. Coombes (cond.) 10. First quarter of Royal for ringers of 1, 7 and 9.

LETTERS TO THE EDITOR

'Man Bites Dog . . .'

WHAT CONSTITUTES RINGING NEWS?

Dear Sir,—I do not think that I could agree more fully with most of what is written by Mr. Malings in the issue of December 12th, especially with the suggestion for printing peal records. Not that I would advocate it for all time. I can well remember opening my first ringing journal nearly 40 years ago, and recollect thinking how well the peal columns looked—worthy records of most worthy jobs—and I have seldom had reason to think otherwise, until now.

The present restricted paper supply creates the necessity of cuts, and I believe that peal records should bear the proportion of space restriction that they undoubtedly deserve. I am reminded of the story of the cub reporter who asked his News Editor to define back-page 'copy' and front-page 'news.' The great man replied, 'A story, "Dog bites man," would be back page copy; a story, "Man bites dog," would be front page news'!

Recently I read in Belfry Gossip that Mr. H. J. Poole had called a peal of Cambridge Maximus in hand, and I unashamedly confess that I was agog to see the set-up of the band who rang this peal—'Man bites dog' with a vengeance; on the other hand, the peal columns of November 28th and the following week were headed by peals of Maximus, again conducted by Mr. H. J. Poole, the equivalent of four inches (or so) of column space filled with 'Dog bites man' copy. I support Mr. Malings' suggestion that peals be printed in the form now used for quarter-peals, returning to their present prominence immediately the need for restriction has passed.

I am afraid I cannot travel all the way with Mr. Malings' remarks about reports of meetings. I believe the 'dreary recitals' he mentions are mainly the outcome of past policy. Just recently, in committee of the Essex Association, we called for a forthright statement of present-day policy, and were met by the reply that the fault lies mainly with the reports sent in (which we can well believe). The result you will find in three-quarters of a column on November 14th, devoted to the doings of the 'Crusaders' of the S.W. Division of our Association, published as submitted. I do not suggest, for one moment, that this was a 'Dog bites man' story. I am, however, suggesting that it was properly written by someone well versed in precis writing, able to condense facts into a readable story of modest length, which any self-respecting Editor would pass for publication with a minimum of trouble.

Where Mr. Malings calls for more correspondence, it matters not so much as to whether writing is merely a personal viewpoint (how many, do you imagine, are in a position to write on behalf of a majority?), but as to whether the subject matter is wide or narrow. By all means let us encourage correspondence. The Editor cannot be expected to write the whole of the matter; nor should he attempt to dictate the actual styles so long as they are reasonable; but let the letters be impersonal, well expressed views on matters of general interest.

Constructively, then, in this time of restriction, I would suggest that the editorial, one day in the near future, should offer us some guidance on the subject of reports and correspondence; and, if I were writing it, these points would receive prominence: (a) That, obviously, the larger meetings and functions should receive more prominent notice; (b) that, so far as is possible, all detail submitted would be stated, where they appear to be of value; (c) that correspondents should try to model their reports on the style to be found in the journal itself, thus to save the Editor as much re-writing as may be; (d) that the drafts submitted be fairly widely spaced and not cramped unduly, to enable the Editor to blue pencil clearly where necessary; (e) that, wherever possible, the reports should be typewritten, or, at least, very clearly handwritten (I should hate any Editor to have to read mine!); (f) and, finally, that editorial alterations be accepted as being made by the expert who has the whole picture of his paper's requirement before his eye.

G. L. JOYCE,
Deputy Master, Essex Association.

Aids to Teaching

A SOMERSET METHOD.

Dear Sir,—I have read with interest letters by 'Adsum' and 'Mentor.' I cannot agree with 'Mentor' that learners are pushed on far too quickly. I have often found they are not pushed along fast enough, and lose interest. My first experience at teaching change ringing (some 40 years ago) was when I agreed to teach a stoney band. By the time I had taught them one method I was convinced that rounds and/or call changes were not of any use in learning change ringing. Both styles of ringing are as far apart as the two poles. I should be better understood, perhaps, if I classify rounds, etc., as 'stationary' ringing and change ringing 'movement.'

Before starting to teach pupils it is well to remember that they have been taught a more direct method of approach to subjects in our schools to-day than they were years ago.

Striking is the principal thing in ringing, and before I take pupils up in a tower I satisfy myself that they have a good ear. If I have any doubt I ask the other ringers to ring a plain Doubles method with tenor covering. I then go outside with them and ask them to pick out the treble and tell me the positions she strikes in. Not until they can do this do I arrange a dumb practice.

When they can handle their rope right, and balance their bell with ease at both strokes, I take another bell, a heavier one for preference, and ring this one myself, the same as if I were ringing changes, starting with dodging, place making and hunting, finishing up with a course of the method they are first going to ring open. In this two bell practice I always insist that they should pull the same time as myself and not follow me. In this way they get the exact timing required for change ringing.

During these practices I take the opportunity of teaching them the first method they will ring open, also give them as much single-handed handbell practice as possible in this method. By using this way of training I have seen a learner ring several plain courses of Bob Minor the first time he has rung open, and within a month he has rung a 720 on an inside bell without any assistance. In the case of another learner, from the time he first handled a bell until he could ring Grandsire inside was six weeks.

As regards the first method to teach a youngster, I think that is immaterial. You would not expect a 10 or 12 bell tower to start with Doubles or Bob Minor, or do the same as I have seen in a six-bell tower, put a learner on the tenor to Bob Minor. From one end of the country to the other there are hundreds of instructors who are always willing to help the individual or band. Contact the nearest to you, follow his or her instructions, and I am sure you will soon make good.

There are plenty of text books, all of which are good. One of the most helpful is 'Hints to Instructors and Beginners.'—Yours faithfully,

B. T. JEANES.

Bridgwater, Somerset.

TO LONDON UNIVERSITY SOCIETY

Dear Sir,—Might I, now that the end of the year is upon us, publicly thank the University of London Society for the help and assistance they have rendered to the tower of St. Anne's, Stamford Hill, as well as arranging to be present in sufficient numbers on a practice night, thereby making things easier for learners? The Society are regularly ringing for Sunday services twice a month.

On behalf of the Vicar and wardens, I remain, yours, etc.,

ERNEST J. POWE, Hon. Towerkeeper.

Hornsey, London.

OBITUARY

MR. GEORGE DRAKE.

Mr. George Drake 71), a treble ringer at Brighouse St. Martin's for the past 52 years and conductor for over 40 years, died at his home after a brief illness on December 21st, and was interred on Christmas Eve to the sound of his beloved bells being as well struck as he always insisted they should be, half-muffled in Kent Treble Bob, his favourite method. He had rung on every royal and national celebration, commencing with a peal for the Diamond Jubilee of Queen Victoria in 1897, and took part in a Royal Wedding touch last month. C.F.S.

MR. C. J. ELLIS.

Master of the St. Nicholas' band of ringers, Harwich, Mr. Charles James Ellis died at his home, Victoria Villas, Garland Road, Parkeston, on December 12th, aged 68.

For over 56 years he had been a ringer, and apart from his valued work at Harwich he had been Master of the North-Eastern Division of the Essex Association for the past three years.

Mr. Ellis had an association of 49 years with the railway and drove the first Flushing boat train from Liverpool Street to Harwich in 1926.

The funeral service was at St. Paul's, Parkeston, on December 16th. The Rev. J. S. Hole, Vicar of Harwich, in a moving tribute, recalled how on many celebrated occasions during the last 50 years Mr. Ellis had rung the bells of St. Nicholas' Church, and sent out the pealing message thousands of times. 'Our ringers will miss him very much,' the Vicar said. 'To-night those bells which he rang so often are muffled. As they are rung they will send forth a sad tone as if they too were missing the master hand which had rung them for so many years.'

The handbells were rung over the open grave by Messrs. S. Jennings, E. Scarfe, G. Moss and W. Felgate.

MR. THOMAS WARD.

Bishop's Stortford belfry has lost a valued member and their vice-president by the sudden death on December 16th of Mr. Thomas Ward. Although not a peal ringer, he enjoyed many quarter-peals and took a great interest in ringers' functions. As a service ringer he was most regular.

Civic-minded, Mr. Ward was chairman of Bishop's Stortford Urban Council from 1936-1939 and from 1941-46. He was chairman of the Guardians Committee from 1943 until his death. The Rhodes Birthplace Memorial was opened during his chairmanship of the Council.

The funeral service was at St. Michael's Church and he was laid to rest in the new cemetery on December 19th. In the evening, with the bells half-muffled, a quarter-peal of Grandsire Triples (1,260 changes) was rung: Miss D. Wacey 1, W. T. Prior 2, W. Prior 3, F. Springham 4, H. Bull 5, H. M. White 6, F. Bird (conductor) 7, W. Bird 8. F. B.

DEPTFORD.—At St. John's on Nov. 30th, a quarter-peal of Bob Major: F. Morris 1, R. G. Long 2, P. G. Parrott 3, J. Warner 4, F. S. Shorter 5, F. W. Richardson 6, J. E. Warner 7, G. H. Dayne (cond.) 8. First of Bob Major by 1, 2, 3, 4 and 7.

TARRING, SUSSEX. — 1,260 Grandsire Doubles, 10 different callings: S. Ashton 1, H. Luther (first inside) 2, F. Chipper (first inside) 3, R. Wood, jun. 4, H. Weaver (first as cond.) 5, F. Jackson (first quarter) 6.

Mr. Walter F. Judge's Peals

ST. DAVID'S GUILD

AMBITIONS AT LLANELLY.

Presiding at the quarterly meeting of the Guild at Llanelly on December 13th, the Rev. J. C. Jones expressed a wish that it would be possible to augment the ring of six at the Church of St. Elli, Llanelly, to eight. He hoped that someone could be found with anything up to £1,000 available for such an addition. He had taken a Form of Service to send to someone in Australia who was interested in the Guild.

The Chairman also extended a cordial invitation to the visitors and expressed his regret at the illness of the Guild secretary (Mr. Hawkins). He moved from the chair that a message of sympathy be sent to Mr. Hawkins wishing him a speedy recovery.

The acting secretary, Mr. David H. Betts (Haverfordwest), reported that Mr. F. Sharpe, of Taunton, had consented to act as adjudicator at the competition at Llandovery on May 4th. Three new members were elected, viz., John Jones (Llanelly), Harry Lillicrop (Tenby) and Renita Sabine (Burry Port).

An invitation from Mr. Betts to hold the next quarterly meeting at St. Mary's, Haverfordwest, on March 13th, was accepted.

Among matters ventilated and upon which no action was taken were the following:—

(1) That a year book, showing members' names, bands in the Guild and peals rung, etc., should be prepared for the annual meeting.

(2) That discrimination be made between learner members and those who could ring 120 changes.

(3) That instructors be given expenses so that out of the way bands could be visited.

A notice of motion was given by Mr. Jenkins for the annual meeting, 'That no ringer becomes a ringing member of the Guild until he or she has rung 30 changes, such as a plain course of Grandsire.'

Mr. J. Williams moved a vote of thanks to the Vicar for conducting the service and to the ladies who had helped to make the meeting and tea so enjoyable.

TAXAL, CHESHIRE.—On Dec. 13th, 1,440 Bob Minor: Miss M. Botham 1, Miss Y. Botham 2, F. Simpson 3, F. Wilde 4, S. Depledge 5, A. Hibbert (cond.) 6. Longest length by an entirely local band. In memoriam Frank Johnson.

— Still Peal Ringing at 94 —

The amazing vitality of Mr. James George has astounded his friends. We assure him in answer to his question that no other ringer of 94 has ever rung a peal. Our picture, for which we are indebted to 'The Bournemouth Daily Echo,' shows Mr. George with his beloved handbells on which he rang his 94th birthday peal of Grandsire Triples. This was the first peal on the bells and his friends hope that he will be spared to ring many more in years to come.

BOCKING'S SPLICED SURPRISE RECORDED

On December 13th a peal board was dedicated at Bocking, Essex, recording the first peal of Spliced Surprise Major for the Essex Association by a resident band. The ceremony was performed by the Very Rev. the Dean of Bocking, who afterwards addressed the company present and then joined them at tea in the Church Hut.

Ringing before and after the dedication included Spliced Surprise Major, London, Superlative and Cambridge Surprise, Double Norwich and Stedman Triples.

Among those present other than the band who rang the peal were Miss H. G. Snowden (District Master), Mr. H. A. Pratt (district secretary) and Mr. H. E. Hammond, of Braintree, who was 82 the previous Thursday and whose name appears on peal boards in the belfry recording peals rung in 1892. The new board is very well executed, being made of wood with white lettering as follows:—

'The Essex Association, at Bocking, on March 11th, 1939, a peal of Spliced London, Bristol, Cambridge and Superlative Surprise Major, 5,056 changes, in 3 hours 9 minutes: C. Snowdon 1, F. Claydon 2, R. Martin 3, Hilda Snowdon 4, R. Suckling 5, Basil Redgwell 6, Lewis Wiffen 7, Albert Wiffen 8. Composed by J. Topp, conducted by Lewis Wiffen. The peal consisted of 2,560 of London, 1,216 Bristol, 768 Cambridge and 512 Superlative, with 120 changes of method. This is the first peal of Spliced Surprise Major rung for the Association by a resident band. Edgar Rogers, Dean. H. Joyce, G. Cole, Churchwardens.'

STOKE-ON-TRENT. — On Dec. 7th, 1,280 Kent Treble Bob Major: Miss Rigby 1, A. D. Steele 2, N. Randall 3, A. Peake 4, F. Wilshaw 5, C. H. Page 6, W. P. Deane (cond.) 7, N. Holland 8.

QUARTER PEALS

APPLETON, BERKS. — On Dec. 7th, 1,277 Grandsire Caters: F. White 1, F. A. White 2, A. Holifield 3, C. White 4, F. Messenger 5, W. C. Porter (cond.) 6, F. C. White 7, G. Holifield 8, R. White 9, E. Drewitt 10.

ASHFORD, KENT. — On Dec. 6th, 1,260 Grandsire Triples: F. G. Huckstepp 1, W. W. Ring 2, T. Campbell (first quarter) 3, W. A. Oldfield (cond.) 4, P. Page 5. H. S. Wickens 6, C. W. Everett 7, D. Godden 8.

BANBURY, OXON. — On Dec. 7th, 1,260 Grandsire Triples: R. Cave 1, H. Alexander 2, W. Watson 3, F. Selwyn, sen. 4, T. Impey 5, J. Simons 6, J. Stretton (cond.) 7, H. Bishop (first quarter) 8.

Lancashire Association

WIGAN BRANCH.

A good attendance, with representatives from the Preston and Liverpool branches present, was forthcoming for the December meeting of the Wigan Branch at Standish.

Canon W. Mellor (Vicar) presided at the meeting, which followed a short service and tea. Arising from the minutes, Mr. F. Bradley (Preston) extended the congratulations of the Preston Branch to the Wigan Branch on their first Surprise peal for the late Mr. F. Rigby and Mr. T. Gilmour.

Nominations for the following posts were received: Vice-president, W. Taylor (Preston); treasurer, R. Williams (Manchester); ringing secretary, A. Tomlinson (Blackburn); auditor, E. Birket (Liverpool) or S. Deardin (Oldham); Central Council, L. Williams, F. Bradley, Rev. Roberts, J. Ridyard.

One new member, Mr. C. Lowe (Emmanuel, Southport), was elected. A vote of thanks was proposed by Mr. T. Marshall (Parbold) and seconded by Mr. F. Bradley to those responsible for the service, the organ, the very good tea and for the use of the bells.

KENT COUNTY ASSOCIATION

CANTERBURY DISTRICT.

An enjoyable afternoon and evening was spent at Faversham on December 13th, some 80 members and friends from the district, as well as members from the Lewisham and Rochester Districts, attending. The service was conducted by the Vicar (the Rev. W. A. R. Ball).

An excellent tea, including an iced Christmas cake, had been prepared in the Grammar School Hall. No routine business was scheduled, but one new member was elected. Mention was made of the proposed memorial to the late Mr. C. Tumber, of Teynham. The secretary's motion that the day's collection of £2 be given to the fund for the addition of three new bells at Thanington (Canterbury) Church, this being their war memorial, met with instant agreement. Thanks were passed to all those responsible for the afternoon's enjoyment.

GLOUCESTER AND BRISTOL ASSN.

The annual meeting of the Swindon Branch was held at Christ Church, Swindon, on Dec. 13th, with a good attendance, and the ringing ranged from rounds to Kent Royal. Among the visitors were two members of the R.A.F. from Bawtry and Edmonton. At the business meeting the retiring officers were re-elected.

As the Ladies' Guild (Western Branch) intend visiting Swindon in January, no meeting was arranged for that month, and it was proposed to hold meetings at South Marston and Rodbourne Cheney in February and March respectively.

HEDON BELLS DESCRIBED.

One of the finest of the many old churches in the North of England is St. Augustine's, Hedon, which was built during the 12th century. The edifice was known as the 'King of Holderness'—a title in every sense appropriate to its fine and majestic appearance, as its magnificent, tall, square, turreted tower can be seen from a great distance. This tower was commenced about 1427 and took some 10 years to complete.

The bells are a fine musical ring of eight (tenor 17 cwt.). From the 18th century there were only six bells, but in 1929 these were recast and at the same time, by the generous gift of the late Col. and Mrs. Lambert White, two new bells were added. The inscriptions on the bells are as follows:—

1.—Eustace Roper, Richard Gibson, Churchwardens, 1776.

2.—Wind them and bringe them and I will ring for them. 1687.

3, 4 and 5.—William and Philip Wightman made me, 1686. The gvift of Charles Duncomb to the Corporation of Hedon, in Yorkshire.

6.—The gvift of Charles Duncomb to the Corporation of Hedon, in Yorkshire. 1687. S. S. Ebor.

7.—Cast by Taylors, Loughborough. William Lambert White, 1929.

8.—Cast by Taylors, Loughborough. Elizabeth White, 1929.

The initials S.S. ending the inscription on the sixth bell are those of Samuel Smith, a bellfounder of York. William and Philip Wightman were bellfounders in London in 1682-1702. Sir Charles Duncomb was elected in 1685 to represent the Borough of Hedon in Parliament, at which time Hedon had two M.P.'s.

The Beverley Society visited this tower on December 13th and received a very warm welcome from the Vicar (the Rev. E. C. Dann), who conducted the service and wished the Society success in bringing about a revival in ringing. There was an attendance of over 30, representing 14 towers, at the splendid tea in the Church Institute.

Mr. G. F. Williams (president) presided at the business meeting, supported by Mr. F. Dale (vice-president), Mr. L. Rodmell (Ringing Master) and Mr. A. E. Sellers (hon. secretary).

Open nights for general practice were announced at the following towers: Last Monday in the month, Holy Trinity, Hull; first Tuesday after monthly meeting, Beverley Minster; first Wednesday, Market Weighton; last Wednesday, Collingham; first Thursday in the month, Hessle.

Suggested venues for monthly meetings were St. Mary's, Lowgate, Hull, January; North Ferriby, February. The Rev. C. E. Dann and Mr. Jack Reed were elected active members.

Mr. K. Ornibo moved and Mr. Tve seconded a resolution calling upon the Society to consider the formation of a library at an early date.

Votes of thanks passed included tributes to the Vicar and Mr. C. H. Hunter and the local company for their efficient arrangements for the meeting.

YORKSHIRE ASSOCIATION

Selby Abbey ringers provided a Christmassy touch to the proceedings when the Eastern District met at Selby on December 20th. During the service, conducted by the Vicar (the Rev. F. Read), they played carols on handbells.

At the quarterly meeting the Vicar spoke of his association with Mr. James George at Rugby many years ago, remarking that Mr. George taught him to handle a bell in the Rugby tower, and saying how pleased he was to hear that Mr. George was still ringing peals at 94 years of age. Hessle was chosen for the next meeting.

There was an attendance of 36 ringers, representing 16 towers. Ringing in the standard methods continued until 8.30 p.m.

CHRISTMAS QUIZ

THIS week we publish the solution of the Christmas Quiz, and there is no lack of evidence that the introduction of this feature and the Crossword created widespread interest. Not all of our readers enjoyed this innovation. Writes one whose opinions we respect; 'Please do not waste precious space on puzzles, quizes and general frivolity. They may be suitable for less dignified journals, but a serious technical paper like ours may surely be spared. There may be some small demand for these things, but I think in this case "The Ringing World" can do some good educative work by forming taste and raising standards.'

On the other hand, the competitors have included leading personalities in the Exercise, men who give leadership. One, in offering his congratulations and thanks to 'Kewsett' for the interest and entertainment provided, adds that both have given rise to considerable discussion in his district. From one of our humbler ringers comes the following comment at the end of his paper, in which he returned seven out of ten correct replies: 'Not yet being (after years and years of hunting) off the treble to Grandsire, I can hardly hope that the foregoing will show anything more than a dismal ignorance of the art of ringing. I should, however, like to thank "Kewsett" for his very entertaining posers, which have given me much enjoyment during Christmas. And may it not be long before he's at it again.'

One other comment from an old friend of 'The Ringing World': 'Please give us some more; they can be very educational in the ringing field. . . . The quiz gave us quite a lot to chat about. One ringer, in fact, said to me on Christmas Eve, "If you can tell me the Welsh Cathedral with the detached campanile, I'll swop that answer for any other one in the quiz. I've spent hours scanning the Encyclopædia Britannica, and know it isn't Llandaff, Bangor, etc., but can't find out which it is!"' The Editor was impressed by the number of young competitors. Answers in some cases went to several pages and diagrams were introduced in regard to the peal at Westminster Abbey to show the axis of rotation and the axis of symmetry! The response has led us to conclude that it was a stimulating experiment that justified the space occupied, and the mathematically inclined among our readers are more numerous than we imagined.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

BELFRY GOSSIP

December was a very successful month for the Southwell Guild in the matter of augmentations. They were Radcliff-on-Trent, 6 to 8, on Dec. 3rd; Warsop, 4 to 6, on Dec. 13th; and Rampton, 4 to 6, on Dec. 21st.

Mr. Sam Dopledge, now in his 60th year, has scored his first peal at Taxal, Cheshire, where he learnt to ring over 40 years ago.

Chester Diocesan Guild have something to talk about with their first peal of Cambridge Surprise Maximus for the Guild. Nine of the participants have rung the extent of Cambridge from Minor to Maximus, and Mr. John Worth has called peals in the method accordingly. All are resident members.

In honour of the 65th birthday of Mr. Harry Brooks, a peal of Bob Royal was rung at Isleworth, in which eight of the company were members of the local band. Mr. Brooks has a 42 years' membership at this tower, and his daughter, Mrs. Kathleen Parr, rang the treble.

Chilvers Coton Sunday service ringers have now mastered Grandsire Caters with the first peal on the bells since the dedication of the trebles last May. Eight of company rang their first of Grandsire Caters.

A similar performance is recorded from Wisbech by the Sunday service band. With this peal Mr. F. Wigmore registered his 100th peal.

Last week we recorded the congratulations of the Preston Branch to the Wigan Branch on their first Surprise peal. Wigan can now reciprocate. Preston have scored their first of Yorkshire.

The 50 years' membership of the Bedfordshire Association of Mr. Douglas Harris, of Woburn, was commemorated by a peal of Cambridge on the bells of the village. The history of the Bedfordshire Association which appeared in 'The Ringing World' of January 3rd, 1947, was written by Mr. Harris.

We have now a second member on the Central Council for the Care of Churches. Since the report of the Council went to print the Rev. A. G. G. Thurlow has been elected to represent Norwich Diocesan Advisory Committee.

Peal ringers had a very successful Christmas. To date we have received records of 37 peals on Boxing Day and 31 on the Saturday.

Notoriety has come to the College Youths through the medium of one of our national Sunday papers. At St. Paul's, London, they are credited with ringing 3,900 changes in half an hour on Christmas Eve! Five other mistakes appear in the report; it is possible that Mr. Richard Deal will be chaffed for his prowess. Why should so many mistakes be recorded for the benefit of an uninitiated public?

Ringer, chorister and sexton at Simpson, Bucks, for 55 years, Mr. H. Turner was complimented on his 70th birthday by 1,260 Grandsire Doubles. Ringers: G. Guest 1, H. Giles 2, J. H. Brooks 3, F. Hanks 4, C. W. Smith (conductor) 5, H. Turner 6.

An interesting 50 peals in 1947 has Mr. Edgar C. Shepherd. They include the extent of Stedman from Doubles to Cinques on handbells and the extent of Cambridge from Minor to Maximus in the tower. It also includes two tower-bell peals in a day, two handbell peals in a day and a tower and handbell peal in a day.

Mr. Harold A. May rang fifty peals in 1947. His 50th of Stedman was scored on December 11th. Have any of our under 21-years-old ringers a half-century of Stedman to their credit?

Also to ring 50 peals in the year is Mr. Philip A. Corby.

Some very promising youngsters recently took part in a peal of Stedman Caters at Fulham. They are the brothers Chilcott, Michael, aged 13, and John, aged 16. They have been trained by Mr. Horace Belcher. Also taking part were Gordon Allsop and John Stephenson, both aged 18, who have been trained by Mr. H. M. Page. They all rang their bells well and were complimented by Mr. H. Langdon on their performance. Nice work, boys. Keep it up!

Golden Wedding Congratulations

TO MR. AND MRS. W. WOLSTENCROFT.

The good wishes of their friends in all parts of the country will be extended to Mr. and Mrs. Walter Wolstencroft on January 12th, when they celebrate their golden wedding. They now live with their son-in-law and only daughter, Mr. and Mrs. T. G. Hawkins, at Stoke Poges, Bucks.

It was in the early '90's that Mr. Wolstencroft took up ringing, and for over 50 years he was leader and conductor at St. Peter's Church, Ashton-under-Lyne.

For a number of years he was secretary to the Manchester Branch of the Lancashire Association and chairman of the Bowdon and Stockport Branch of the Chester Diocesan Guild.

Mr. and Mrs. Wolstencroft rang together in a peal to celebrate their silver wedding. Mrs. Wolstencroft took part in nine peals between the two Great Wars. At the 1918 Armistice she rang in the only complete band of lady ringers to ring on Armistice Day. She also rang on VJ-Day when she was aged 74. Unfortunately, illness now prevents her from taking an active part in ringing. She was chairman of the Northern Branch of the Ladies' Guild until 1945, relinquishing the office owing to illness.

MR. AND MRS. WALTER WOLSTENCROFT.

Warsop's Bells

DEDICATION OF A NEW SIX.

Saturday, December 13th, 1947, was undoubtedly a red-letter day for many of the parishioners of SS. Peter and Paul's, Warsop, if the number of non-ringers at the dedication service was any criterion, for the church was packed to capacity before service time.

The old four were of mixed origin, the dates being 1615, 1737, 1747 and 1812. Three of these were recast by Taylor in 1913, and now the addition of two tenors by the same firm has put Warsop in possession of a first-class six with a tenor 14¼ cwt. in F.

The fifth was the result of a bequest by the late Mr. F. Rolling, a one time sexton of Warsop, and the tenor was subscribed for by the parishioners as a war memorial to the fallen of the parish.

The dedication was performed by the Bishop of Southwell, who, although not actually a ringer, is greatly interested in ringing, and loses no opportunity in his position as Guild president to stress the importance of concerted assistance to outlying towers.

A few rounds were rung after the prayers under the tower, and at the conclusion of the service a well-struck 720 of Kent Treble Bob by H. Kent 1, F. Flint 2, S. Slaney 3, C. Wright 4, T. Groombridge, jun. 5, and H. T. Rooke (conductor) 6, concluded the first part of the proceedings. Ringers of 1, 3 and 4 were from Bolsover, 5 from Nottingham, 2 and 6 of the local company.

Tea in the Parish Hall was the next item where some 60 parishioners and church workers were joined by the Bishop and about 40 ringers, with Mr. Paul Taylor representing the founders.

The Rector (the Rev. R. G. Cornwell) in a short speech mentioned the pride of Warsop people in their new bells and congratulated the founders on their product. Mr. Paul Taylor replied.—It was pleasing to note that the Rev. P. H. F. Sturdy, one of the curates, and Churchwarden Mr. F. Blackburn were among those who stood in for rounds during the evening.

On the following evening, December 14th, for evening service, a 720 Bob Minor was rung by five of the local band and a visitor, the first 720 by three of the band. To sum up, Warsop people are to be congratulated on acquiring a first-class ring of six, and certainly the local captain, Mr. H. J. Rooke, is to be commended for his efforts in keeping a company together and interested to this extent in an erstwhile four-bell tower, ready to reach out and embrace six-bell ringing. T.G.

BELLS FOR AMERICAN WEDDING

The bells of Wickhambreaux Church, Kent, were rung at 4.20 p.m. on December 27th to coincide with a wedding at Bridgewater, Mass.

The occasion was the marriage of Miss Peggy Laker, daughter of Mr. and Mrs. James Fitzroy Laker, of Bridgewater, Mass., formerly of Wickhambreaux, and granddaughter of Mr. and Mrs. Harrison Smith, of Grove Road, Wickhambreaux, to Mr. John M. Beattie, son of Mr. and Mrs. John Milton Beattie, of South Street, Bridgewater Mass.

The bride's father was formerly a member of the Wickhambreaux company of change ringers. Mr. Harrison Smith, although now over 80 years old, took part in the wedding ring

OBITUARY

MR. FRANK LAWTON.

The death of Mr. Frank Lawton in hospital after a few weeks' illness is a grievous loss to the ringers of Moorside Church, Oldham. He was 64 and had been a ringer at Moorside for about 45 years.

Mr. Lawton had rung about 100 peals, one being the record for the bells of 10,000 odd Kent Treble Bob Major. He was the only ringer at Moorside who had his name on peal tablets for Plain Bob, Grandsire, Kent and Stedman, rung between 1905-1939.

Full of enthusiasm, he started to learn Double Norwich with the rest of the band about two years ago, and later Cambridge. Mr. Lawton was a perfect ringer and striker and gave that steadying influence to the band. He was always present and punctual and attended the services he rang for, both morning and night. Up to his death he was a sidesman and also the Sunday School superintendent for many years. From this source he was instrumental in building the present band.

The funeral service was on December 29th close to the church and bells he loved. Four of his fellow-ringers acted as pall bearers, and as the cortege approached the muffled bells were rung full pull and stand. A course of Grandsire Triples was rung over the open grave: I. Kay 1-2, H. Barlow 3-4, V. Sykes 5-6, F. Dunkerley 7-8. Immediately after the funeral a fully muffled peal of Double Norwich was accomplished in three hours. I.K.

MIDDLESEX COUNTY ASSN.

SOUTH AND WEST DISTRICT.

A very successful meeting was held at Twickenham on December 20th, and was attended by about 40 members and friends from Bedford (St. Paul's), Bushey Heath, Chislehurst, Clewer, Ealing (St. Mary's and St. Stephen's), Guildford, Hempstead, Gloucester, Hersham, Heston, Hounslow, Isleworth, Kew Gardens, Leicester Cathedral, Osterley, Richmond, Romford, Ruislip, Streatham (St. Leonard's), and Twickenham.

The bells were raised about 3 p.m. and were kept going at intervals till about 8.30 p.m. Methods rung under the supervision of Mr. F. A. Finch (Ringing Master) included Grandsire and Stedman Triples, Plain Bob and Double Norwich and Cambridge and London Surprise Major—with rounds for learners.

A short service was conducted by the Vicar and president of the Association (Preb. W. P. Cole Sheane, M.A.), assisted by the Rev. H. J. Cooke. Tea in the Church Hall was kindly provided by the president and local company, and this was followed by a short business meeting, presided over by the president.

The following elections were made: Mr. R. J. Carlton, SS. Mark and John's College, Chelsea (confirmation); Mr. C. A. Portsmouth, Harlington, Mr. W. J. Ellis, Streatham (re-election); and the following members of the local company: The Rev. H. J. Cooke, Messrs. B. Lillyman and D. Lovell and Mrs. J. Turner (late Miss J. Stapleton), re-elected. It was decided to hold the next monthly meeting on January 17th, if possible at Feltham, alternatively at Ruislip, and the annual branch meeting at Heston on February 21st.

The Ringing Master proposed a warm vote of thanks to the president for all his kindness and to the local company, especially Mr. and Mrs. Lovell for providing the tea, and to the organist. Those present were also glad to have an opportunity of ringing with Mr. and Mrs. Harold Poole (Leicester), who paid a flying visit, and Miss Betty Snice (Bedford); also to welcome back Mr. J. Herbert after his illness, though not yet able to ring; to meet Mr. H. J. Eldred, of Gorleston, who has come to reside in the district, and to welcome the return to Twickenham of the local captain, Mr. E. A. Morris, after service with the Forces. The Ringing Master also referred to his friend and 'legal adviser,' Mr. Frank Smallwood, who had a few words to say, in his usual racy manner, and was listened to with appreciation.

Christmas Quiz

'Kewsett's' answers to the Christmas Quiz are as follows:—

(1) Chichester; St. David's.
(2) Grandsire Doubles. Call bob at 2.
(3) None.
(4) 36 bells.
(5) Manchester Town Hall.
(6) Beaumaris, Anglesey.
(7) It did not. There are eight bells at Westminster Abbey, and so the peal must have been rung on handbells, as no method below Caters admits of a peal of 5,001.
(8) Noel only.
(9) 279,999,720.
(10) In order starting from treble: William, Henry, Mary, Sue, Walter, Eric, John, Bertram.

No competitor answered all the questions correctly. Those adjudicated nearest to whom book prizes have been sent are:—

E. E. Speake,
56, Ranelagh Road,
Blakenhall,
Wolverhampton.

Walter W. Wolstencroft,
1, Cherry Orchard Close,
Stoke Poges,
Near Slough, Bucks.

Harold V. Frost,
43, Leyland Avenue,
St. Albans, Herts.

THE CROSSWORD.

The solution to the Crossword is as follows: ACROSS: Beccles, words, lures, ring out, stirred, oasis, baffle, ask why, inked, audited, talkers, rooms, lasts, dreaded. DOWN: Bells, Cardiff, Bristol, kills, loser, ladders, stride, passed, windows, dirge, roots, Watford, satisfy, dosed.

The first correct solution was received from

John H. Hunt,
44, Bellfield,
Titchfield, Hants.

SURREY ASSOCIATION

NORTH-WESTERN DISTRICT.

A meeting was held on November 29th at St. Stephen's, Clapham Park. Ringing commenced with 120 Grandsire Doubles to greet a wedding couple just leaving the church. A short service was conducted by the Vicar, the Rev. C. Carter.

At the meeting Mr. Collins mentioned the death of Mr. C. Pothecary, and the members stood in silence. Nominations were received for district officers as follows: Master, F. Collins; secretary, R. Lathbury; treasurer, H. N. Pitstow; auditor, C. Dean; committee, Messrs. R. Davies, W. Massey, D. Parsons.

Some excellent ringing, in which a few local ringers participated, continued till 8.30 p.m.

GOLDEN WEDDING PEALS

Peals in honour of the golden wedding of Mr. and Mrs. W. R. Melville are recorded in this issue. That at Guildford, where their silver wedding peal was rung, was also for the golden wedding of Mr. and Mrs. H. Randall, of Eastleigh, grandparents of Mr. H. A. May. There was also a peal of Kent Treble Bob at Southampton and the following quarters:—

WONSTON.—On Dec. 11th, 720 Double Oxford Bob Minor: Mrs. W. R. Melville 1, Miss N. Smith 2, L. Tremeer 3, W. R. Melville 4, R. Smith 5, C. H. Kippin (conductor) 6.

SOUTHAMPTON.—At St. Michael's on Dec. 14th, 1,260 Stedman Triples: M. Butler (first of Stedman) 1, J. Hope 2, C. H. Kippin 3, Mrs. C. H. Kippin 4, J. Faithfull 5, W. R. Melville 6, Rev. K. W. H. Felstead (first quarter as conductor) 7, G. Shearing 8.

Mr. E. Morris scored another success at Overseal on Tuesday, December 2nd, when he conducted A. J. Corrigan's (Bristol) six-part of Grandsire Triples. This composition is now rung for the first time. It is 27 years since the 2nd ringer (H. Carter) rang his last peal.

QUARTER PEALS

BRAFIELD, NORTHANTS.—1,260 Stedman Doubles: C. Longland 1, G. Care 2, S. Ruddlesden 3, N. Chaddock 4, P. Jones (cond.) 5. First quarter in method for 1, 3 and 4.

TESTING FOR PLAIN BOB LEAD ENDS

IF one is given a method by its places, it is only necessary to write out half a lead of it in order to discover whether it will yield a Plain Bob lead end. Take Cambridge Royal as an example. If 20 changes of this method are written out, counting rounds as the first, the change 7480529631 is produced. The next change will be made by the treble making 10ths place and the 3rd making 9ths place. The other eight bells will cross in pairs.

The second half-lead will contain the same places in reverse order. Provided this is so, the four pairs of bells crossing at the lead centre enable us to determine whether a Plain Bob lead end will result. Write out the figures 246809753 in a circle in that order. They are in the natural coursing order of Plain Bob Royal. They should be fairly evenly spaced out. Join the pairs of bells by lines in the circle which cross over on the centre line of the lead, leaving the place making bell or 'pivot bell' (the 3 in this case) unmarked. The result is four parallel lines. Whether or not four parallel lines result is a test in all Royal methods, plain or treble bob, as to whether or not a Plain Bob lead end will result.

This simple test works on all numbers of bells. It is not claimed as original. In Minor methods the circle is of five figures 24653, and the test must give two parallel lines.

In all cases, if the test is successful, there is the choice of place making when the treble leads—either 2nds place or 'last place' (10ths in Royal). But there are three snags. First, the place chosen may interfere with the method places (e.g., London Surprise Major cannot be varied as an 8ths place method). Secondly, one of the two may give rounds in one lead. Thirdly, as 9 is not a prime number, Royal methods may give a 3-lead course only.

The test may be adapted so as to examine large numbers of methods. No figures are written. The half lead is built up by strips of card, one between each pair of changes, with only the paths of the bells on them. Thus any desired half lead can be formed by its places. The course-circle tester is at the top, the figures joined by lines to where 'rounds' would be at the head of the half lead. Counters run up the lines to the course circle soon test for plain bob lead ends.

The technique also works with methods and principles on odd numbers of bells. As an example, here is a Caters principle produced. The changes underlined are changes in the plain hunt on nine bells and so preserve the natural coursing-order. The sections in between them are symmetrical and will be found to obey the general test for natural coursing order. Four pairs cross over on their centre lines, giving four parallel lines on the coursing circle 124689753.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

Mr. A. R. G. Twinn, the popular treasurer of the St. John's Guild, Hillingdon, was married on January 3rd to Miss M. J. Martin. He has been a member of the company for 20 years. A peal attempt failed, but 1,260 Grandsire Triples were rung after the wedding by W. S. Childs 1, F. Blondell 2, A. A. Diaper 3, F. Corke 4, A. Harding 5, F. W. Goodfellow 6, T. G. Bannister (cond.) 7, H. W. Impey 8.

Bristol University Association hope to score their first all-resident peal this term.

Mr. Frank Warrington has rung 260 peals for the Ely Diocesan Association, of which he has conducted 191.

Mr. Alfred Bond has completed a quarter of a century as captain of Barrington tower, Somerset. He rang his first peal 'inside' in honour of the occasion on December 21st.

The peal of Minor at Kingstone, Herefordshire, on December 23rd, was the 25th peal together of Michael P. Moreton and Wilfrid F. Moreton, and also of Wilfrid Moreton and Leslie Evans. The occasion was the 150th peal of Charles L. Sadler.

From Chilvers Coton comes news of John E. S. Moreton on ringing his 50th peal. The peal was first of Cambridge Minor in the tower, by the local band and by the conductor, and was rung on the front six.

The twins—the Misses Sylvia and Doreen Coker—rang their first peal on ten bells together at High Wycombe.

The golden wedding of Mr. W. D. Sparrow, a member of the Badsey, Worcs., band, was celebrated by a peal on the village bells on December 20th.

Mr. Maurice Hibbert is believed to be the first to circle the tower at Barnet Parish Church. The first peal he rang on the bells was in 1904. The task was completed when he rang the 3rd on December 20th, 1947.

While the Combined Universities were ringing at Southwark Cathedral, thieves broke into the cellars of a wine and spirit merchant in the vicinity. Said the night watchman: 'The Cathedral bells were making such a din that I heard no noise of the thieves breaking off the padlock to get into the warehouse.'

Mr. Frederick G. Huckstepp has 'circled' the tower at Eastwell, Kent.

Mr. Charles H. Kippin has passed another milestone. He rang his 400th peal at Ropley, Hants, on December 20th.

If it is not too late, special New Year's greetings to the three young ladies who cycled five miles each way to enable Kingston (Surrey) bells to ring out the old and ring in the new year.

Sparks have been flying at Maperton, Somerset. On Sunday, December 21st, the ringing was a family affair. Peter Sparks (aged 8) 1, H. P. Sparks (father) 2 and 3, Miss P. Sparks 4, I. Sparks (brother) 5, F. G. Sparks (uncle) 6.

The young band at St. John's, Bournemouth, have been going in for non-conducted. On December 21st they rang 504 Grandsire Triples—M. Besy 1, J. Daniels 2, Miss B. Adlam 3, G. Evenden 4, A. Rose 5, A. Butler 6, H. Mitchell 7, A. Routh 8.

The handbell peal at Hinckley was a great event, inasmuch that 33 years have elapsed since Edgar Vallance made an attempt for a peal in hand. This previous peal, which was also Kent Major, was the first of Treble Bob Major 'in hand' to be rung in Leicestershire.

George Wightman, who conducted a peal of Kent Treble Bob Major on handbells at Cretingham, Suffolk, on December 19th, is now in his 82nd year. He is still actively engaged, with his brother William, in his business of a shoemaker. He called his first peal 61 years ago.

COMBINED UNIVERSITIES' RE-UNION

CHESTER WEEK BEING PLANNED.

Some 50 members of the Combined Universities Association participated in the fourth annual reunion festival in London on Jan. 7th.

Ringing facilities started at 10 a.m. at St. Mary's, Lewisham, and included St. John's, Deptford, St. Giles', Camberwell, and Southwark Cathedral. The Association attended Evensong at Southwark Cathedral, at which the address was given by the Vice-Provost, Canon F. S. L. Fitz-George. The lessons were read by the Rev. C. E. Wigg, vice-president of the Association. Mr. C. John Dickinson, of the Oxford University Society, was at the organ.

The annual dinner was at the Old Bell Restaurant, Holborn, the president, Mr. E. H. Lewis, being in the chair, supported by Canon Fitz-George, the Rev. C. Elliott Wigg (Master of the Oxford Guild), Mr. A. A. Hughes, Miss Marie Cross and Dr. E. S. J. Hatcher. Seven universities — Oxford, Cambridge, London, Bristol, Reading, Birmingham and Sheffield— were represented.

After the toast of 'The Church and the King' had been proposed from the chair, Mr. E. H. Lewis said two years ago he had some rather rude things to say about the striking of the Association, and last year he tried to encourage them to buy some copies of 'Hints for Beginners'—the Central Council publication. Unfortunately, he was not able to hear much of the ringing that day, but what he did hear was immeasurably better. 'I did not hear such good firing as at St. Gabriel's last year' (laughter).

DUFFIELD FOR SERVICE RINGING.

He understood tiat a plain course of Duffield was rung. For service ringing he did not think there was anything better than Duffield, and it was a pity it was not rung more. For a peal it was poor.

Dr. Hatcher proposed the toast of 'The Universities Association,' which, he said, took the form of a short report on the year. They all regretted the absence of Dr. John Spice and hoped that it would not be long before he was able to attend a University Association gathering.

Since the annual meeting last year they had not met officially until that day. He hoped too many people were not blaming the poor secretary — they had a chance to meet at Chester in the summer, but that effort 'came to noat.' They hoped, however, to go to Chester in 1948.

Despite their official inactivity, the University Associations had not been standing still. London had rung several peals and it gave him great pleasure to announce that Bristol had scored their first at Wincanton, his native town. They hoped that Reading would be the next to score their first, as they were getting an active group together. As to the Association, the number of peals rung had been poor, chiefly because they did not hold their ringing week. He thanked all members for their support.

Lt.-Comdr. Gordon Cross proposed the toast of 'Kindred Societies, the Visitors and "The Ringing World."' In connection with the Ancient Society, he mentioned the pleasure it gave them that Mr. A. A. Hughes had been able to attend all their dinners. The Cumberlands were represented by Mr. George Cross, who always went out of his way to help young ringers. He also welcomed Mr. Philip Corby, Mr. Jones and Mr. T. W. White, Editor of 'The Ringing World.'

Mr. White, in his reply, mentioned the popularity of peal ringing to-day, the number of peals in the last quarter reaching as high a figure as ever recorded in the Exercise since the start of 'The Ringing World.'

'DICTATORIAL CONDUCTRESS.'

With grace and wit the Rev. A. G. G. Thurlow proposed 'The Ladies.' In coupling the name of Miss Betty Spice with the toast, he said after having been pat in their places all day by their dictatorial conductress, it was nice to think that little girls were made of sugar and spice.

Miss Spice said it must be admitted that the ladies of the Society had played quite a notable part, and she thought it could be said that were it not for the ladies the Universities Association would have been in a poor state. During the war it was left to the women to carry on at Oxford, and during the last two years the ladies had largely carried the day. Now that the men were coming back to their own, Oxford would begin to degenerate into the state Oxford had always been without the ladies.

THE ANNUAL MEETING.

The annual meeting followed. The accounts, which showed a balance in hand of £10 0s. 2d., were adopted. The meeting confirmed the election of the following new members: Oxford, Messrs. P. V. Baker, R. Meadows, G. Moorhouse, the Misses J. Brierley, D. Castell, M. Craster, A. Dickinson, R. Dodd, R. How, J. M. Livingstone, C. Morton, S. Rymer, C. M. Trist; Cambridge, J. B. Rowsell, the Rev. and Mrs. R. H. I. Williams; London, J. T. Dyke, D. Martin, G. R. Smerdon; Reading, R. Cropley, R. J. Garner, Miss P. Smee; Sheffield, G. C. Briggs, P. Taylor.

The officers elected were: President, Mr. E. H. Lewis; vice-president, the Rev. C. Elliott Wigg; hon. secretary and treasurer, Dr. Hatcher; Central Council representative, Miss Marie Cross.

A discussion followed on the question of a ringing week. The secretary explained the difficulties of the week planned for Chester in 1947, which had to be abandoned owing to inability to find accommodation. For 1948 he had been in communication with the principal of the Chester Training College and he had been offered accommodation up to 100. He was aiming at an attendance of 40.

Miss Spice declared that 40 was too large for a successful tour. The optimum should not be more than 20. In subsequent discussion she compromised to 25.

The secretary was instructed to ascertain whether the principal of the Training College would be prepared to accept an attendance of 25. Members hoping to attend the week are asked to communicate with the hon. secretary as soon as possible.

Regarding the peal at Canterbury Cathedral in 1946, the secretary announced that the authorities had sanctioned the erection of a peal board.

RAMPTON'S BELLS

The Bishop of Southwell dedicated on Dec. 21st the ring of six at Rampton, Notts. The tenor of the old four has been recast and the other three retuned. A new treble has been given by an old ringer and a second subscribed for by the parish in memory of the men who served in the war, to be called 'In Grateful Memory Bell.'

After the dedication the Bishop unveiled the war memorial to the seven men who had lost their lives. Seven blows were rung on the two new bells, and after a pause rounds were rung. A mixed band rang 240 Plain Bob after the service, and in the afternoon ringing included Cambridge, Single Court, Single Oxford, Kent and Grandsire Doubles.

The bells are a useful addition to the North Notts District and are the work of the Loughborough Foundry. The cost, £830, has been raised during three years.

In honour of the 70th birthday of Mr. Herbert Gates, of the St. Mary's, Apsley, band, 1,440 Cambridge Surprise Minor was rung on January 6th by A. V. Good (cond.) 1. P. Holness 2, T. Morton 3, F. Tompkins 4, E. Upton 5, W. Puddifoot 6. It was the longest length in the method by all except the conductor.

BISHOP PRAISES A 'THRILLER.'

The Bishop of Plymouth dedicated two new bells and rededicated the rehung peal of six at Buckland Monachorum at a special morning service on Sunday, December 21st.

Mystery stories are popular with the Bishop, and, telling the large congregation that he knew very little about bellringing, he said what he did know was the result of reading Dorothy Sayers' 'The Nine Tailors.' 'If you do not know it, I recommend it very strongly,' he said, and added that if the discovery of the murderer had depended on his reading of the bellringing changes he would still have been at large.

The Bishop explained that the two new bells which had been added to the peal had been given by Mr. C. P. Brown in memory of his wife, and the tenor bell recast in memory of Major Bundock's brother. He congratulated the parish on having raised for the balance about £1,050 and a gift of £370 to the Diocesan Fund.

In view of present-day austerities, he said, the Chancellor had to consider whether he could give the faculty for the restoration or giving of bells, and it was strongly pressed in some quarters that bells were a luxury, not a necessity. Personally, he had maintained that bells were more than a necessity, they were an opportunity. One thousand pounds, he contended, was not too much to pay for an invitation to the House of God.

The Tavistock ringers, under their captain, Mr. M. Deacon, had the privilege of ringing the dedication rounds. During the afternoon bands of ringers from Plymouth (St. Andrew's and Emmanuel), Plympton St. Maurice, Tamerton Foliot, Whitchurch, Eggbuckland, Meavy, etc., were given a short ring, each in turn, and while most of the ringing done was rounds and call changes, the Plymouth St. Andrew's band rang the first touch of 'scientific' on the bells — a well-struck 168 Grandsire Triples.

Everyone present expressed great satisfaction with the 'go' of the bells, and Mr. (Bert) Newson, the representative of Messrs. Gillett and Johnston, the bellfounders, was also told to congratulate his firm on effecting such fine blending of old and new bells.

The weights and inscriptions are as follows:

Treble.—Gillett and Johnston, Croydon, 1947. 6 cwt. 2 lb.

2.—Gillett and Johnston, Croydon, 1947. 6 cwt. 17 lb.

3.—Sir Francis Henry Drake, Baronet, 1723. 7 cwt. 9 lb.

6.—L. Crymes, C.P. I.P. 1723. 9 cwt.

7.—Sr Francis Henry Drake: Bart: and Elisevs Crymes Esq: Ch. Wardens. C.P. I.P. 1723. 12 cwt. 20 lb.

Tenor.—Sr Francis Henry Drake, Baron, and Elisevs Crymes, Esq., Wardens, 1723. Recast by Gillett and Johnston, Croydon, 1947. 15 cwt. 3 qr. 5 lb.

OXFORD BOB TRIPLES FIRST PEAL

Dear Sir,—I have just bought a copy of the Central Council Collection of Triples Methods, and I notice that the first peal of Oxford Bob Triples is claimed for St. Mary's, Horsham, on February 7th, 1882, conducted by H. Burstow.

There is, however, in St. George's, Benenden, Kent, a peal board inscribed:—

March 7th, 1821. A true and complete peal of 5,040 Oxford Bob Triples, the first ever Rang on this system, was this Day performed in 3 hours and 8 minutes by the resident band. 1 George Southon, 2 Edward Wenman, 3 William Lansdell, 4 Robert Chasmer, 5 George Manwaring, 6 John Hatcher, conductor, 7 George Gibbs, 8 John Wenman.—Yours sincerely.

M. S. CLOKE.

A Cornish Report

The last two months of 1947 have seen three restorations completed. On Nov. 15th, the two new trebles and retuned six were dedicated at Towednack by the Chancellor of Truro Cathedral, Canon R. H. W. Roberts. The whole cost of the work was defrayed by Mr. Hugh Dunstan, who is treasurer of the Truro Diocesan Guild, and who has been churchwarden for more than fifty years. The new trebles are memorials to his parents. This is Cornwall's fortieth octave and has come to the neighbouring parish of Carbis Bay, where the first post-war octave was installed just a year before. Messrs. Gillett and Johnston carried out the work, and the result is a very pleasing light eight with tenor of 7¾ cwt. Mr. D. Bradford represented the bellfounders at the dedication.

On November 29th, Canon Roberts also rededicated the rehung six bells at St. Breward, near Bodmin. This six had been unringable for some 18 years, and it was the enthusiasm of the Vicar, the Rev. W. H. L. Jennings, which got the work done. There was a large gathering at the opening, and this tower is situated in the centre of the prize-ringing area, but the Vicar's courage has banned competitions on his bells. Messrs. Mears and Stainbank carried out this restoration with their usual efficiency.

The ring of eight at Stokeslimsland was rung again after Evensong on the Sunday before Christmas in readiness for the festival. They are to be rededicated by the Lord Bishop of Truro in January. This parish is well known because of the Royal Farm being here, and very recently was visited once more by the King and Queen. The bells have been rehung, and the sixth recast by Messrs. John Taylor and Co.

The Penzance Branch of the Guild is holding monthly practices for method ringing, and some useful work is being done. The winter programme was begun at Carbis Bay in October, on November 22nd Towednack was visited, and Gulval on December 13th. The January practice is to be at Helston on the 24th. Recently the Madron band rang a quarter-peal of Grandsire Doubles under the conductorship of Mr. G. W. Taysom, and this was the first quarter on the bells for over thirty years.

WINCHESTER & PORTSMOUTH GUILD

WINCHESTER ANNUAL.

Between 60 and 70 members attended the annual meeting of the Winchester District at Winchester on January 3rd. Proceedings started at St. Maurice's, where ringers queued to get into the belfry.

Mr. George Williams, the Master, presided at the business meeting at Dumper's Restaurant, and an apology was received from Mr. W. Andrews, captain of the Cathedral band, owing to ill-health.

It was decided to approach the Rev. J. S. O. Mansell, of Winchester College, with a view to his becoming district chairman vice the former Archdeacon of Winchester, who had moved to Hereford.

Following the resignation of Mr. L. Tremeer as district secretary, Mr. J. King agreed to accept office. All other officers were re-elected.

New ringing members elected were Messrs. D. Short, jun., and E. Daubeney (Stockbridge), the Misses M. Peddle and E. Whitcomb and the Rev. J. G. R. Blackwell (King's Somborne) and Mr. J. King (Winchester).

The next annual district meeting was fixed for January 1st, 1949, and is to be held at Winchester. The first quarterly meeting is to be held at Hursley on April 3rd.

The meeting was followed by a sumptuous tea, which preceded a service in the Cathedral, the sermon being preached by the Rev. Selwyn, Rector of Old Alresford. The bells of the Cathedral and St. Maurice's were rung after the service.

Limerick's Bells Recast

The bells of the Redemptorist Church at Mount St. Alphonsus, Limerick, have been recast and consecrated—the 11 bells weighing five tons, the tenor being 21¼ cwt. There is a ring of 10 and eleventh bell for chiming. The work was carried out by Messrs. John Taylor and Co., of Loughborough.

The ceremony of consecration by the Bishop of Limerick was one of solemnity and dignity. The bells were suspended from a great beam 10 ft. high, stretching across the church some distance in front of the altar rails, each bell being about 4 ft. from the ground.

The ceremony started with singing seven psalms. The Bishop then washed the bells with the blessed water. Four priests followed him, completing the washing, inside and out, of each bell. As they finished a bell the Master of Ceremonies approached and measured each bell with a tape and marked it with chalk where the crosses are to be made with holy oil at the anointing.

The solemn anointings consisted of seven crosses on the outside of each bell with holy oil of Extreme Unction, and four on the inside with chrism, each cross accompanied by a dedicatory formula.

Then followed a procession from the sacristy of eleven little white and red clad thurifers, each with a shining thurible. They approached the Bishop, who poured into each censer its quota of incense. Each thurifer then placed his thurible under a bell so that the ascending smoke should fill it.

The Bishop concluded the ceremony by making the sign of the cross over the bells, and as the procession went towards the sacristy the ringers struck the bells with small wooden mallets.

Solemn High Mass followed.

MIDDLESEX COUNTY ASSN.

Renewed activity was the reason for a meeting to be held again by the Association, after a lapse of a number of years, at St. Ann's, Stamford Hill, on January 3rd. An average attendance was well maintained and the six bells were rung to a variety of methods.

At the business meeting, presided over by the Rev. K. C. Davis, the provisional elections of Messrs. A. and N. J. Diserens (Reading) were confirmed, and the Misses P. Betts and E. Fadden (St. Mary's, Hornsey) were elected ringing members.

The service, supported by organ and choir, was conducted by the Rev. F. J. Finch (hon. member), who extended a welcome to the Association.

OBITUARY

MR. J. E. PHILBRICK.

The news of the death of Mr. John Ernest Philbrick on Christmas Eve at the age of 64 was received with much sorrow by his ringing friends at Lyme Regis. For 30 years he had been attached to the Lyme Regis tower, acting as hon. secretary to the St. Michael's Guild for the 24 years before he left Lyme to settle in a new home at Leigh-on-Sea, Essex. There he associated himself with Prittlewell tower.

He was one of the pioneers of change ringing at Lyme, and before ill-health prevented him from sustaining long touches he had rung seven peals in standard methods—five of them in Lyme tower—and a number of quarter-peals.

A faithful churchman and of a conscientious, persevering disposition, he set a most reliable example in the belfry, ever caring for the interest of the novices and rejoicing in every fresh accomplishment.

A half-muffled quarter-peal of Stedman Triples was rung to his memory at St. Michael's, Lyme Regis, on January 4th, by the following: E. S. Hawker 1, Rev. C. C. Cox (conductor) 2, S. H. Green 3, Mrs. C. W. Powell 4, H. G. Keeley 5, G. S. Morris 6, C. W. Powell 7, E. C. Tett 8.

MR. GEORGE JORDAN.

Mr. George Jordan, of Stansted, Essex, died on Christmas Eve at Bishop's Stortford Hospital after a serious operation. He had been a ringer for over 50 years, and was a most enthusiastic and safe ringer in all standard methods up to Bristol Surprise.

The bells were rung half-muffled directly after the interment by his fellow ringers, and at night a quarter-peal of Stedman Triples was attempted, but was unsuccessful. He will be greatly missed. W.P.

MR. FRANK BUGLER.

The St. Mary's Ringing Guild, Beaminster, have suffered a great loss by the death on December 31st of Mr. Frank Bugler. He joined the Guild in 1894, when 17 years old, and continued an active member to within a short time of his death. During the 53 years he was connected with the Guild he had taken the greatest interest in all its activities and had taken part in several peals of Doubles and Triples.

His fellow ringers rang a half-muffled touch before his funeral, and on January 4th a quarter-peal of Grandsire Triples was rung to his memory on the bells he loved so much by the following members of the Guild: W. J. Bailey, E. P. Bailey, E. F. Brooks, A. T. Gunning, J. L. Glyde, J. C. Poole, J. Barrett (conductor) and W. C. Poole.

MR. D. ELLINGHAM.

Mr. Daniel Ellingham, of Hatfield, died on Christmas Day, aged 80. He had been a ringer at St. Etheldreda's Parish Church for 44 years and previous to that had been at Baldock for 10 years.

Although not a peal ringer, he was a constant, dependable and valuable service ringer, and his activities extended into other branches of church life; he had been sidesman, churchwarden and secretary to the Parochial Church Council, and made a large number of generous contributions to the finances of the church and especially the belfry.

In his memory, 1,259 changes of Grandsire Caters were rung with the bells half-muffled at the Church of St. Etheldreda on the evening of January 30th, the day of the burial, by Stanley Huckle 1, John T. Kentish (conductor) 2, Albert R. Lawrence 3, Arthur R. Burgess 4, Donald C. Price 5, Robert A. Cochrane 6, Alan White 7, Harry L. Nobbs 8, Albert Lawrence 9, Leonard F. Cull 10. A.R.B.

St. Michael's, Aldershot, bells have been overhauled at a cost of £157. To assist towards the cost local ringers are holding a social on January 24th.

THE SUPPER

HAPPY relationship between the Church authorities and ringers is an all-important subject. It is a matter that cannot be neglected, and when we hear of ringers failing to get on with their parson we wonder if the fullest endeavours are being made to understand each other. There are cases among clergy of men who fail to appreciate the music of the bells; others are susceptible to the 'anti-bells' members of their congregation. Except in very rural parishes the incumbent has to decide whether he will defend his ringers or not against these attacks. Most clergy are very loyal friends to their ringers.

The ringers of the tower to which the writer is attached annually invite the Rector and his senior curate to supper early in the New Year. A similar practice is followed in other towers. The friendship engendered is very real and an understanding of the parson's problems in relation to the tower is quickly established. We heard on the last occasion about Cirencester in the early years of the present century, of St. Martin's-in-the-Fields in the days of Rev. 'Dick' Sheppard, of Ashford, Kent, and the great joy that was given by the peal rung in honour of the gift of a son. Yes, those who rang on that occasion are still remembered with affection.

To the reminiscences the ringers added their contribution; the captain had a record of 55 years of continuous service and another member 50 years'. Nothing unusual about that, will comment many a veteran, but their continuity of service was impressive to our new Rector, and they could tell of the days when fines were imposed on latecomers and absentees for Sunday service ringing. The young ringers present became conscious of the great tradition to which they are heirs, and it might be recorded that their response is gratifying.

And there were toasts at this gathering apart from the formal ones. The Cumberlands and Ancient Society members were honoured, those who had rung 50 peals during 1947, the 'first pealers,' the new 'Double Norwich' Company and the Surprise ringers. Each toast was followed by explanations to the non-ringing representatives of the Church present. An innocent question was What is a 'Surprise' method? It dumbfounded even our talkative member and, parrot fashion, he repeated the definition, 'A method on treble bob principle with an internal place made at each cross section of the treble.' 'Something very complicated, eh?' 'Yes,' came the rejoinder, and 12 heads nodded in unison. The professors of the Exercise will smile, but we humbler folk feel that we created the right impression!

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

Peals in this issue are almost exclusively devoted to those rung on Boxing Day.

On the 30th anniversary of his first peal at Erith, Mr. Frederick J. Cullum rang his 400th peal.

Congratulations to Miss Peggy Ladd, the first lady member of St. Nicholas', North Bradley, Wilts, band to ring a peal.

Mr. W. W. Worthington, president of the Midland Counties Guild, had birthday honours paid him at Lullington, Derbyshire.

All the band who rang the first peal at Warsop, Notts, learnt to ring on the four bells of the church. The ring was augmented 13 days previous to the peal.

Recognition of Mr. J. W. L. Slack's 50 years' membership of the local company of the Chester Diocesan Guild was a peal at Macclesfield on Boxing Day.

Mr. W. G. Gigg called a peal in the three towers in Taunton during 1947. He believes that this has never been accomplished previously in the same year.

The peal of Yorkshire Surprise at Bromham, Bedfordshire, was the first in the method by a resident band for the Association and the first of Surprise Major on the bells.

Doven of Bradford ringers is Mr. William Cundle, who after 50 years of service still rings regularly at the Cathedral. The peal on Boxing Day was in honour of his 80th birthday and was the first by a local band for 25 years.

Two golden weddings were honoured by the peal at South Weald, Essex, on Boxing Day—Mr. and Mrs. George Sewell (Bentley) and Mr. and Mrs. Palmer (South Weald). The peal was also a wedding compliment to two of the band—Messrs. B. C. Hines and J. Sitch.

Longest length rung on Boxing Day was 6,048 Kent Treble Bob Major at Bromley Common. This, states the conductor, Miss Betty Spice, is the greatest number of changes rung by all the band and on the bells.

From 'Ringing Towers,' journal of N.S.W. Association for December: 'We take a dim view of the notice which appeared outside the tower when a peal was in progress and which read, 'Scram, we're busy' Surely it is not necessary to employ American slang in connection with any activity of change ringing, which is as English as England.'

To become a ringing master of an association at the age of 17 is almost unparalleled in the history of the Exercise. Best wishes and a happy period of office to Mr. F. W. Grocott, of Stoke-on-Trent. It would be interesting to learn of other youthful masters.

Mr. W. H. Hewett has called peals on eight, ten and twelve bells with bands composed half of College Youths and the remainder of Cumberlands. Such was the composition of the band ringing at Beckingham. Veteran of the party was Mr. G. H. Daynes (77), who was celebrating the 57th anniversary of his wedding. Also ringing was Mr. I. Emery, aged 76.

The peal at South Wigston on Boxing Day was specially rung to mark the anniversary of the world record long peal of 17,104 Double Norwich, rung in 1904, in 10 hours 35 minutes. The veteran Josiah Morris, now in his 81st year, rang the treble in this peal with equal precision as he did in the record peal. Only he and Mr. T. Taffender survive of the original band. It was also on Boxing Day, 1901, at this church that 'old Joe' rang the 2nd to 10,176 Kent Major in 6 hours 26 minutes.

LETTERS TO THE EDITOR

PRISONER OF WAR RINGS PEAL

Dear Sir,—A very special mention should be made of the peal of Doubles rung at All Saints', Leicester, on December 26th. For the last six months or so, Mr. Sidney Harrison, of St. John's, Leicester, has been teaching two German prisoners of war the art of English ringing. They have progressed very rapidly and both can ring the tenor covering as well as the treble hunt, and have knowledge of Stedman.

As one of them is due for repatriation on January 8th, it was resolved to get him a peal before leaving, hence this one now recorded. The writer heard the greater part and can testify to its being well struck and hereby joins in the very special act of goodwill shown by the ringers, who, besides paying his entrance fee, presented him with a framed Guild certificate, each signing his name around the same.

I am quite sure all ringers will join in wishing the very best of joy and happiness to Philipp Blaesy when he returns home to Odernheim, Germany.—Sincerely yours,

ERNEST MORRIS.

St Margaret's, Leicester.

BIG BEN

Dear Sir,—Mrs. Kelly may be interested to hear of the following incident which I have heard my husband relate with keen enjoyment. It occurred during a meeting of the Central Council held in Westminster, when he and the Rev. H. Law James were sitting next to each other. The civic dignitary who was present to welcome the Council reminded his audience that they sat within earshot of bells representing both Church and State, whereupon Mr. Law James in an audible whisper remarked, 'Then the State is cracked!'

CENTRAL COUNCIL MEETING

This year's Central Council meeting will be held in London on Whit Tuesday (May 18th). No arrangements are being made for hotel accommodation, and delegates and visitors are advised to secure their bookings as early as possible.

(Continued from previous column)

Mr. Edmund Mounter, for many years a member of the band at Bromley, Kent, until church and bells were destroyed in the war, celebrated his 70th birthday on December 18th. He is now attached to St. Mary's, Lewisham, where an attempt for a quarter of Grandsire Triples was lost. The peal at Erith on Dec. 19th was a birthday compliment to him.

The peal of Kent Treble Bob Royal at Preston on Boxing Day replaces the one rung on April 7th, which proved to be false. The composition by Mr. Edwin Timbrell was originally published in 'The Bell News' of October 3rd, 1900, and the composer has no recollection of it having been rung before. This peal was in honour of the birth of a daughter to Mr. and Mrs. S. Tuson.

The Rev. Kenneth C. Davis, who was ordained at Bristol Cathedral in 1939 and for the last four years has been priest-in-charge of the Church of St. Francis, Ewell, has been presented with the living of Hawley, Hants, in the Guildford Diocese. Mr. Davis is a keen ringer, but this will be his first church with a ring of bells. Hawley is the only tower in the Farnham District without any ringers (a chiming apparatus is used!); it is hoped that with Mr. Davis' induction, probably in April, a fresh start will be made, although it is likely that a bellhanger will need to do a little overhauling.

GREAT PAUL AND ITS USE

Dear Sir,—It appears from 'Bells Thro' the Ages' that there are no specific occasions on which 'Great Paul' is rung.

I was under the impression that it was rung on the death of Royalty, but according to Nichols 'Great Tom' is used for this purpose. If this is so it seems a great pity that the heaviest bell in the country is never heard. Perhaps someone can throw some light on the subject.

J. E. BAILEY.

Dartford, Kent.

APRIL DAY MINOR?

Sir,—In view of the fact that a Grandsire Single rung in Plain Bob Doubles results in an accepted method known as April Day, is there any objection to a Grandsire Minor Single being rung in Plain Bob Minor?

Could a true 720 be called on this principle and would the call be a bob or a single? Would there be a variation of 720's, and in view of the unpopularity of Grandsire Minor, dare I ask, would the result be unmusical?—Yours faithfully,

W. J. GAIT.

Station House, Hallatrow, Bristol.

PEAL DELETIONS BY ESSEX ASSN.

Sir,—The secretary of the Northern District of the Essex Association informed me verbally on the 10th inst. that the Association were not recognising the following peals conducted by me during 1947:—

Grandsire Triples at Halstead, June 28th; Minor four methods on handbells and Grandsire Triples rung on July 8th and 12th at Sible Hedingham; and Minor in three methods at Rayne on August 26th.

At a meeting of the general committee of the Association at Chelmsford in November the committee decided to delete the name of Mr. E. W. Pye from the list of members with effect from Whit Monday, 1947, and, therefore, seeing that Mr. Pye stood in the foregoing peals, they cannot stand as peals for the Association

The Essex Association prefer peals such as the 5,376 of Superlative at Bocking with one before used, and the Bristol at Dunmow which did not come into rounds.

E. JENNINGS.

Braintree.

CHRISTMAS GIFTS FROM AUSTRALIA

Dear Sir,—I should like to express appreciation of the Australian ringers for their kind thought in sending Christmas gifts to England. I received a parcel with the greetings of the New South Wales Association of Change Ringers, also two photos of the ringers out there. I understand that the idea developed from 'moonlight trips' by motor-launch organised by the Sydney ringers, and I, for one, admire the thought for ringers in England.

Turning back the pages of 'The Great Adventure,' I see some of the noblest of our ringers who took part in that historic journey have now passed on. During the war years English ringers visited Sydney in the course of duty with the Forces, and the splendid account of the help they gave during their stay out there is a pleasure to read.

Two peals have recently been accomplished by this new Association, which is remarkable, as some of those taking part have been ringing only a matter of months. Will Rowe and Ronald Rowe, the two conductors, must feel proud of their achievement. The former is the Editor of the monthly journal, 'The Ringing Towers,' which has been in circulation nine months and is becoming popular. His efforts at leg-pulling different ringers in his 'Smart Aleck' language is an amusing feature of the paper. What stands out most is the work of the church bells in Australia, and that was the ambition of that little party that made the long trail out there some years ago, and to-day we must feel that their work is still in sacred keeping.

Memorial to Mr. J. H. Riding

An interesting ceremony took place in the ringing chamber of the tower at Christ Church, Crewe, on January 10th, when a marble tablet was unveiled and dedicated by the Vicar, the Rev. H. P. Young, in memory of Mr. James Henry Riding.

Members of the family and friends present included Mr. and Mrs. E. D. Riding, Mr. and Mrs. W. T. Riding, Mr. and Mrs. J. Bibby, Mr T V. Bibby, Misses E. M. and B. M. Riding, Mr. and Mrs. F. Jones, Mr. and Mrs. L. Chatterton, Mr. G. W. Talbot, Mrs. R. D. Langford, J. R. Holding and F. White.

'Touches' were rung before and after the dedication by the following Sunday service ringers: Richard T. Holding, William Holding, Harry F. Holding, George Packer (conductor), J. William Edge, G. Herbert Edge, 'Tom' W. Lamb, W. Frank Stenson, E. J. Holloway, Albert Crawley and Mr. Benjiman and Miss Mary E. Thorpe (Ashton-under-Lyne).

After the dedication the Vicar spoke of the loyalty of the ringers and said although he had not the pleasure of knowing Mr. Riding, the tablet showed what those who did know him thought of him. He much regretted the absence of the hon. secretary of the Crewe Branch and leader of the tower ringers, Mr. Richard D. Langford (through illness), a close personal friend of Mr. Riding.

Mr. Richard Holding voiced the sentiments of the ringers when he spoke highly of Mr. Riding's character and ability as a ringer. His ability was such that it took him into the best ringing company, the Ancient Society of College Youths. He was equally at home at a monthly meeting with beginners.

The tablet is of beautiful craftsmanship and was executed by Mr. R. Darlington, and bears the following inscription:—

Praise Him on the loud cymbals (Psalm 150, v. 5), commonly known as the Bellringers' Psalm. To the glory of God and in memory of James Henry Riding, born Jan. 6th, 1889, died June 19th, 1944. He was a Sunday service ringer in this tower for many years and a noted ringer throughout the country. He rang 471 peals, which included the following records:—

17,280 changes of Kent Treble Bob Major, in 10 hours, at Over, on July 21st, 1923; 11,232 changes of Superlative Surprise Major, in 7 hours 10 minutes, at Bolton, on Jan. 29th, 1927; 15,312 changes of Cambridge Surprise Maximus, in 11 hours 33 minutes, at Ashton-under-Lyne, on Aug. 5th, 1929; also a peal of Stedman Cinques, 5,007 changes, in 4 hours 3 minutes, on May 29th, 1937, at St. Paul's Cathedral, London.

RINGING MASTER AT 17

Youth came very much to the forefront at the annual meeting of the North Staffs Association, when Mr. Frederick William Grocott, aged 17 years, of the Bucknall St. Mary's tower, was elected Ringing Master.

He commenced ringing in June, 1943, under his father, and has rung in seven peals, two of which he has conducted. In one of the peals (Grandsire Doubles) he conducted the band was composed of ringers under 18 years.

IRISH ASSOCIATION

The rules of the Association were revised recently and came into operation on January 1st. These provided for the establishment of three districts, viz., Northern, Eastern, and Southern.

Meetings were held to inaugurate the Eastern and Southern Districts at Dublin on December 6th and Waterford on December 26th respectively.

At the Dublin meeting, Miss A. C. Dukes was elected to act as chairman, and Messrs. T. W. W. Jones and D. Gibson as hon. secretary and treasurer respectively.

Mr. A. E. Harris is to act as chairman for the Southern District, with C. Galbraith and G. E. Jones as secretary and treasurer.

Essex Association

SOUTH-WESTERN DISTRICT.

Owing to pressure of business, Mr. J. Crampion has resigned the secretaryship of the district. Several members spoke of his excellent work at the annual meeting at Brentwood on January 10th, when 50 members attended. Mention was also made of the work of Mrs. Crampion, who 'held the fort' while her husband was on active service.

Officers elected were: Mr. J. Chalk, District Master; Mr. G. J. Armstrong and Mr. G. Dawson, members of Association Committee; Mr. F. V. Gaut, 3, Central Drive, Hornchurch, hon. secretary.

Attention was drawn to the agenda at the Association's annual general meeting, which would include propositions to raise the subscription and to alter the date of the A.G.M.

Crusader meetings were fixed for the first Saturday in every month through the summer. Suggested towers for District and Crusader meetings were Barking, Chigwell Row, Fobbing, High Ongar, North Weald, Leytonstone, Rayleigh, Shenfield, Thorpe Bay, Waltham Abbey and Walthamstow.

Thanks to all concerned in making the meeting so successful were expressed by Mr. H. Shadrack (Chelmsford) and Mr. H. Mansfield (Maldon). There was an attendance of 50, the Vicar conducted the service, ringing, which ranged from Grandsire to London, was supervised by Mr. J. Chalk, and tea arrangements were by Mr. J. Sitch and Mr. A. Pryke.

CHESTER DIOCESAN GUILD

A 'Christmassy' touch prevailed at the meeting of the Wirral Branch on December 20th at Bromborough. Following tea young parishioners entertained with carols and joined in hearty community singing.

Reported to the meeting was the success of the branch's first social at St. Hilary's Parish Hall, Wallasey, attended by over 200 members and friends, and the enterprise in chartering two double-deck buses to bring in visitors from outside was commended.

The peal of Cambridge Surprise Major rung by the Bebington band, the first to be rung for the branch by a Sunday service band, was commented upon. Messrs. W. Dean and J. Cooke were congratulated on their band's progress.

Ringing extended from rounds to London Surprise Major. The Rector (the Rev. W. J. Alan Price), who is a ringer, conducted the service.

OBITUARY

MR. HARRY LANGLEY.

After an illness lasting several weeks, Mr. Harry Langley, of St. Thomas', Norbury, Cheshire, died on January 11th. He was a regular Sunday service ringer and his death is a sad loss to the ringer at St. Thomas'.

He had rung 51 peals for the Stockport and Bowdon branch, mostly Spliced Minor. Mr. Langley was equally at home on eight bells, having rung peals of London, Bristol, Superlative and Cambridge.

GRANDSIRE DOUBLES

ARISING out of the Christmas Quiz, 'The Ringing World' has received a number of interesting letters. At the same time we have had requests for elementary expositions which would be helpful to young conductors Question No. 2, 'What method can be called into Rounds with one call?' was perhaps unhappily phrased. It would have been nearer to what 'Kewsett' had in view if it had read: 'Starting from Rounds, what method can be called with Rounds with only one call?'

'Kewsett' was taken to task by Mr. A. J. Corrigan, of Bitton, near Bristol, whose interesting treatise on Grandsire Doubles will, we feel sure, be helpful to inexperienced conductors. He writes:—

Grandsire Doubles may be called round from any position by a single call, though it should be observed that it is sometimes quicker to make two calls. The procedure is as shown below:—

With 2 in the hunt: if 5 is after 4 the bells are in the plain course; if not call 3 in with a single—R at 2*.

With 3 in the hunt: if 4 is after 5 the bells are in the handstroke position and will run round; if not call 2 in with a single—R at 2.

With 4 in the hunt: call 2 in with bob or single as required when she is in front with 3—R at once.

With 5 in the hunt: if 2-4 are in front call 2 in at once with bob or single as required—R at 1. If 2 is with 3 **do not call her in with a bob;** if a single puts her in the hunt call it straight away, otherwise call her in with a single next lead. To recapitulate: when 5 is in the hunt call a bob on 421; single on 231*, 241; **no call** on 321.

Callings marked * come round at hand. The aspiring conductor should make himself familiar with the handstroke position, particularly since in it the observation bells are 2 and 4, a fact that enables him to infuse some welcome variety into service-ringing and also peals. For the ringers of 3 and 5 the monotony of the observation work can become intolerable if not shared by the other working bells. To bring up the handstroke position (13254) from the normal rounds call singles at the first two leads. Remember, however, that your 120 must not have a single at the last lead, or rounds may turn up as early as halfway.

To divide the observation work equally over 2, 3, 4, 5 in a peal the simplest procedure is to incorporate Morris' 240 in the 5040. In this composition there are singles at each of the first two leads, bringing up 3254. From this point call the ten six-scores twice over, and then call the remainder of the 240. Add the rest of the six-scores on 3 and 5 to complete the peal. Be sure you explain to the band what you are going to do—otherwise some other aspiring conductor may upset everything by setting his bell when rounds appears to come up in the wrong place!

EDITOR: T. W. WHITE.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

Mr. George Care, of Brafield, Northants, will regard 1947 as a vintage year. During the 12 months he conducted his first peals of Bob Royal, Stedman Caters, Grandsire Caters, Double Norwich Major and Stedman Triples for the Peterborough Guild. Also peals on all numbers of bells from five to ten.

Mr. E. Peter Rock has 'circled' Eardisland tower, Herefordshire.

Standing side by side, Donald G. Clift and Albert M. Tyler rang their 25th peal together at St. Mary Redcliffe on December 31st.

Mr. Burley P. Morris left the treble to last when he completed the circle of Weekley, Northants, with a peal of Plain Bob Minor.

Mr. Kilby R. Holtom believes that the peal he called at Badby, Northants, was the first of Doubles on the bells. Any corrections?

Mr. E. G. Foster, tower captain of St. Laurence's, Reading, had his 70th birthday honoured by Stedman Cinques in his own tower.

Mr. John A. Freeman has conducted a peal from each bell in St. Hugh's tower of Lincoln Cathedral.

All the band which rang the New Year's Eve peal of Stedman Cinques at Oxford are service ringers of the Cathedral.

Congratulations to the secretary of the Irish Association on reaching his objective of ringing his 25th peal before the end of 1947.

The fiftieth anniversary of the first peal at Clifford, Herefordshire, was recalled by the peal on December 27th. Participating was Mr. C. L. Sadler, who rang in the first peal. This was his 150th tower-bell peal.

Chilvers Coton, now that they have ten bells, almost weekly add to their list of firsts. The Stedman Caters on December 27th was first in the method on the bells and by the conductor. It was also Mr. John E. S. Moreton's 50th peal for the Guild.

Engagement peals are popular. Affianced at Rotherham are Miss Edna F. Bedford and Mr. Ralph G. Edwards, the peal in their honour being Cambridge Surprise Royal. From Aldershot comes the engagement of Miss Jean Whelan (Ash) and Mr. Thomas E. Denyer, which was said with Bob Major.

Mr. 'Delight' Viggers has now circled the tower of St. Michael's, Aldershot.

Mr. John Dunkley, of St. John the Baptist's, Kingsthorpe, Northants, has completed 60 years as a ringing member of the same church.

The Misses Dorothy R. and Kathleen E. Fletcher have rung 100 peals together. Can any others give an equal example of sisterly affection?

Veteran Oxford ringer, Mr. William H. B. Wilkins, passed his 77th milestone with a peal of Cambridge Surprise Major. And many more, sir!

Enderby, Leicestershire, had four local ringers in the peal recorded in this issue, an unprecedented event. Justification was that it was the wedding anniversary of four of the band—Mr. and Mrs. L. E. Rivers (16 years), Mr. J. H. Baylis (7 years) and Mr. A. Ballard (12 years). Mr. and Mrs. Rivers were the hosts to the subsequent celebrations.

Having heard that the band was one short, Mr. G. Basson left the social he was attending to ring the New Year's Eve peal at Derby. He had not rung a peal for 36 years! The peal was also for the golden wedding of Mr. H. Fletcher and a birthday compliment to Mr. J. W. Glew, Ringing Master.

The centenary of the installation of the bells at Coseley, Staffordshire, was marked by the first peal of Doubles on the bells and by all the band with the exception of the conductor. It was also the first peal by a local band for 20 years. We await the next performance.

LETTERS

Essex Peal Deletions

Dear Sir,—Re the letter 'Peal Deletions by Essex Association,' Mr. Jennings is wrong in his statement. The Essex Association are only withdrawing Grandsire Triples at Halstead, June 28th; Minor in four methods on handbells at Sible Hedingham, July 8th; and Minor in three methods at Rayne on August 26th, conducted by him. The peal of Grandsire at Sible Hedingham, July 12th, conforms with the rules, i.e., that all the band were members. Mr. E. W. Pye did not stand in the latter peal.

As Mr. Pye resigned his membership of the Essex Association on Whit Monday, 1947, I fail to see why Mr. Jennings is surprised and indignant at the decision of the committee not to accept the peals in question.

It will be noticed, by looking in 'The Ringing Worlds' of 1947, that Mr. Pye conducted several handbell peals. Before Whit Monday these were all for the Essex Association, after that date for the Suffolk Guild. This surely is proof that Mr. Pye was fully aware of the situation, and yet Mr. Jennings continued to conduct peals for the Essex Association with Mr. Pye as one of his band.

As for his accusations regarding peals of Superlative and Bristol, I would advise Mr. Jennings to read his 'Ringing World' more thoroughly before making statements in the Press. The 5,376 of Superlative at Bocking was withdrawn; see 'The Ringing World,' March 7th, 1947.

The peal of Bristol at Dunmow was rung in 1939, years before Mr. Jennings came to this part of Essex. It is obvious then that he is quoting from hearsay, and hearsay can be very mischievous. Actually a trip occurred within the last ten changes, and the two bells concerned did not recover sufficiently to come cleanly into rounds. Apart from this trip, the peal was an excellent one. I am sure Mr. Jennings has recorded peals, with trips on equal terms with the one in question, which have occurred in the peal. Therefore, sir, if a trip or trips can be allowed in the peal, why not at the start or the end?

Halstead, Essex. HILDA G. SNOWDEN.

'THE WRINGING WORLD'

Dear Sir,—May I point out to Mr. Jennings that the title of our paper is not 'The Wringing World,' and hence should not be used for the washing of dirty linen in public? —Yours faithfully, DENIS A. BAYLES.

GRUNDISBURGH BELLS

Dear Sir,—My Christmas campaign to raise money for the restoration of our bells was a great success, thanks to the help I received from ringers all over the country and to whom I am more than grateful.

The order of the prizes won is as follows: 1 Miss M. Mitchell, 12, Darford Lane, Solihull; 2 Mrs. Janet Canham, 56, Back Hamlet, Ipswich; 3 Miss R. Preastner, 56, High Street, Wickham Market; 4 Mrs. A. A. McGuiness, 124, Carholme Road, Lincoln; 5 Mr. F. Whitred, 10, Westholme Road, Ipswich; 6 Miss F. Savage, Highbury House, Hitchin; 7 Miss A. Bailey, 59, Charmouth Road, St. Albans; 8 Mrs. A. Parnell, 68, Devonshire Road, Ipswich; 9 Miss M. Crowe, Worlingworth; 10 Mr. A. Smith, 40, Brookfield Road, Ipswich; 11 Miss P. H. Power, 6, Bury Road, Mildenhall; 12 Mr. J. Lukin, London Airport; 13 Mr. R. Wallis, Castle Hedingham; 14 Miss M. Barton, Tendring, Essex; 15 Mrs. F. Roberts, 43, Woodville Road, Ipswich.

Several hundred pounds are still required to complete the work and I shall be very grateful to receive donations to help this great undertaking in a small village, which has given generously, but cannot raise the amount required without outside help.

St. Martin's Guild

THE ANNUAL MEETING.

In the club room of the Tamworth Arms, now historic as a meeting place for ringers, the annual meeting took place on January 3rd. Amongst those present, in addition to the chairman and secretary, were Albert Walker, George Swann, Harry Withers, Morris J. Morris, W. C. Dowding, E. T. Allaway, F. W. Rishworth, W. T. Froggatt, Edgar Shepherd, F. W. Pervin; and to these it was easy to conjure up shades of such old worthies as John Day, Harry Bastable, John Carter, W. H. Godden, Sam Reeves, Rock Small, Jim Groves, J. S. Pritchett, etc., who used to be present in this room at annual meetings 30, 40 and 50 years ago. It was particularly noticeable the large proportion of young members present, and amongst them some very clever ringers. There were several notable absentees, including Messrs. James George, who sent hearty greetings from Parkstone, J. H. Shepherd (Swindon, absent through illness), F. W. Perrins, Roland Bragg (Solihull), D. T. Matkin and Fred Price, who are now resident in Bournemouth, and G. H. Williams (Harborne).

The quarterly business was quickly disposed of. The following new members were duly elected: G. A. Tudge (Erdington), A. W. Cleaver (Solihull), I. D. Halls (Great Baddow). The first meeting was fixed for Aston, and bi-quarterly meeting at the Cathedral Church, Birmingham.

Mr. Harry Withers reported that he visited Heydour on October 4th to listen to the record peal of London Surprise Major, and that it was a really good performance.

The treasurer, in presenting the annual accounts, pointed out that they had only just managed to finish on the right side, and then only with the assistance of income from investments. There had been several items of expenditure which would not recur, but he would remind members that there would be a big bill to pay for peal booking later on; this work was far in arrears, but the writer was now engaged on the work. The accounts could be considered satisfactory.

Although there was some competition for several offices, all the officers were duly re-elected as follows: Master, Councillor Paddon Smith; Ringing Master, Mr. G. E. Fearn; trustees, Councillor Paddon Smith and E. T. Allaway; auditors, H. H. Fearn and G. W. Critchley; librarian, Mr. G. F. Swann; hon. secretary and treasurer, Mr. T. H. Reeves.

In connection with the Henry Johnson Commemoration Dinner, to be held on March 6th, it was agreed to invite the Rector of St. Martin's to take the chair and to leave the other arrangements in the hands of the secretary.

YOUTHFUL MASTERS

Dear Sir,—With reference to your comments in last week's issue of 'The Ringing World' on 'Youthful Ringing Masters,' in this connection may I say that I was elected Master of the Llandaff and Monmouth Diocesan Association when 19 years of age. At the same meeting I was chosen as one of the association's Central Council representatives for a period of three years. I have often wondered if this constitutes a record as being the youngest ringer to be accorded these dual honours simultaneously.—Yours faithfully,

DONALD G. CLIFT.

21, The Chine, Stapleton, Bristol.

MEMBERSHIP QUALIFICATION

Sir,—I attended the Rochester District meeting of the Kent County Association at Rainham when the minutes came to the election of new members, who, to my knowledge, could not ring 120 changes. Our general secretary showed me Rule 5, which allows anybody, even if they only can chime a bell, to become a member. To my way of thinking no one should become a member of an association until he can ring 120 changes on tower or handbells.—

WILLIAM A. J. KNIGHT.

Gillingham, Kent.

Winchester and Portsmouth

PORTSMOUTH DISTRICT.

A membership of 14 honorary and 100 ringing members was reported at the annual meeting of the Portsmouth District at Alverstoke on January 17th. Four valued members had died.

The retiring officers were re-elected, and Mrs. Bayley, an honorary member, was elected a life member. One honorary and two ringing members were elected.

After a lengthy discussion, a resolution in favour of raising the annual subscription from 2s. to 2s. 6d. was passed for submission to the Guild Executive Committee.

A letter was read from the captain of the Havant band proposing to resign from the Guild. The secretary (Mr. John H. Hunt) was requested to write to the Rector of Havant stating that the Guild deplored the decision of Havant members to leave the Guild and asking him to meet his ringers and discuss the matter with them.

The suggestion of a combined meeting with the Southampton District on August Bank Holiday at Bishop's Waltham, Shedfield and Curdridge was carried.

There was an attendance of 42 and the ringing included Bristol and London Surprise.

SOUTHAMPTON DISTRICT.

A membership of 113 was reported at the annual meeting of the Southampton District at St. Michael's, Southampton, on January 10th. Canon Spencer-Leeson was elected district chairman and other officers re-elected.

It was announced that the work of installing two more bells at St. Michael's, Southampton, to make a ring of ten, would be commenced immediately by Messrs. John Taylor and Co. and that the two new bells would be dedicated by the Bishop of Winchester on February 12th at 7.30 p.m. Work on the tower of St. Mary's, Southampton, was reported to be in an advanced stage, and it was hoped that this ring of ten would be installed and opened during 1948. The contract has been placed with Messrs. John Taylor and Co.

The proposal to increase the Guild subscription was discussed, and it was decided to recommend to the general meeting that districts should pay a greater percentage to the Central Fund.

District meetings provisionally arranged are: North Stoneham, Feb. 28th; Fawley, May 20th; Bishop's Waltham, etc., August Bank Holiday (with Portsmouth District); and Lockerley, Aug. 28th.

CHRISTCHURCH BRANCH.

That all towers in the district are now affiliated to the Guild and have sufficient members at each of them to ring the bells regularly for Sunday service was the satisfactory report presented at the annual meeting of the branch on January 10th, attended by 60 members. There are now 131 ringing members.

Officers elected were: Chairman, Mr. J. M. Turner; hon. secretary and treasurer, Mr. A. V. Davis; Ringing Master, Mr. W. E. Cheater; representatives to Guild Committee, Mrs. Marshallsay and the Rev. R. F. R. Routh. The Rev. Routh was also appointed Deputy Ringing Master. Mr. A. N. Woolff consented to continue as auditor. Ringing and the service took place at the Priory Church, Christchurch. The Vicar (the Rev. R. P. Paice) presided at the meeting.

It is hoped that the good position in the district will be consolidated and that the standard of change ringing will improve still more. The handbell section should progress with the help of Messrs. D. Matkin and Fred Price.

Although the Henry Johnson Commemoration Dinner on March 6th comes under the Ministry of Food Restriction Order, a licence for an increased number will be granted. It is, however, particularly important that an early application should be made for tickets.

Selby and District Society

SECOND ANNUAL MEETING.

Progress was reported at the second annual meeting of the Society at Selby on January 10th, when most towers in the area were represented.

Ringing on the ten bells of the Abbey was followed by Evensong, conducted by the Vicar of Selby, who is president of the Society. Canon Pascoe, of Snaith-with-Carlton, gave the address.

The president was in the chair at the meeting at Hawdon Institute, when a membership of 104 (102 ringing members), a net increase of 26, was reported. Three new towers were added—Thorne with a ring of eight and two new rings of six at Carlton and Kippax. On Whit Monday the first annual ringing tour in North Lincolnshire was held.

The first peal was scored for the Society on the new bells at Carlton, followed by one each at Eastrington and Barnby Don and two at Thorne.

Thanking the officials and members for their loyal support, the hon. secretary made special mention of the services of Mr. F. Terry, the enthusiastic Ringing Master.

An offer by the president to meet the cost of a peal record book was accepted with gratitude, Mr. N. Lofthouse expressing thanks.

The Archbishop of York and the Bishops of Ripon, Sheffield and Selby are to be asked to become patrons of the Society, which embraces towers in both Ripon and Sheffield Dioceses.

The Vicar of Selby was re-elected president. Other officers elected were: Chairman, Mr. H. S. Morley; Ringing Master, Mr. F. Terry; secretary and treasurer, Mr. T. H. Foster; committee, chairman, ringing master, secretary and Mr. J. Taylor (Goole) and Mr. E. Bradley (Sherburn). A second ringing tour is to be held on Whit Monday.

Three months' notice of motion to increase the subscription from 1s. to 1s. 6d. was given by Mr. C. Hill (Goole).

THE ANNUAL MEETING.

Following the meeting, the whole company adjourned to the Londesborough Arms Hotel for the annual dinner, the first to be arranged by the Society, when 55 members and friends sat down to an excellent repast. After the toast 'The King,' the president welcomed the company expressed his interest in ringing.

The toast, 'The Church and Clergy,' was proposed by the guest of the evening, Mr. W. Hartley, organist and master of the choristers at Selby Abbey. Canon Pascoe replied and referred to the days of his previous ministry at Carlton, when they only had three bells, which could be rung by one man. Now, thanks to the ringers of Goole, Thorne and Selby, there were enough ringers for two bands of six for the new bells, a truly great achievement.

Canon Rawlins, of Goole, proposed the toast of 'The Society,' saying that certain 'bells' were a source of trouble to him, but he did not include tower bells in this category. He thought the Society was doing a good job and it gave him great pleasure to propose the health and success of the Society. The Society's chairman replied thanking Canon Rawlins for his remarks and recalling how the Society was founded two years ago.

During the evening the president, on behalf of the members, presented an envelope containing £4 17s. to Canon Pascoe. This amount represented the total collections taken at meetings throughout 1947.

An enjoyable day was concluded with a selection of Christmas carols on handbells by the Selby Abbey ringers, followed by courses of Grandsire Triples and Bob Minor.

OBITUARY

MR. JOSEPH HUGHES.

Following a fall from a ladder, Mr. Joseph Hughes, of Lymm, Cheshire, died in Warrington Infirmary, aged 71. He was well known in Chester Guild and Lancashire Association circles.

He was one of the original band at Oxton in 1895 and had rung peals in most standard methods. He called the first peal (Grandsire Triples) rung by a local band at Oxton early in 1901. It was through Mr. Hughes' interest that Mr. George R. Newton started ringing.

The funeral was at Hill Cliffe Cemetery on January 10th, and was preceded by a service at Christ Church, Latchford. The tower at Lymm was represented by Messrs. Kirkpatrick. A son and daughter are bereaved and to them is extended the sympathy of many ringing friends.

ELY DIOCESAN ASSOCIATION

New officers were appointed at the annual meeting of the Hunts District, held at Huntingdon on January 17th.

Mr. S. Gilbert, of Huntingdon, succeeds Mr. H. Parker as secretary, as the latter has left the district; Mr. F. Warrington is ringing master and the committee consists of Messrs. H. Fields, W. Chamberlain, F. Baker, C. Young, H. Pratt and F. W. Lack.

Ringing took place at All Saints' and St. Mary's, the service being held in St. Mary's Church. Tea was served at the George Inn.

A FINE TRIBUTE

The following letter, headed 'Bellringers,' appeared in a recent issue of 'The Church Times':—

Sir,—'Honour to whom honour.' In an experience of over thirty years' work in all parts of the diocese of Salisbury, comprising Wiltshire and Dorset, I have found invariably the strongest bond of fellowship discoverable in parishes is among the local band of ringers, whose duties are seldom appraised or acknowledged in the proper quarter. Moreover, the inter-parochial ties and friendships thus formed are amazing. At the end of a long day's work they set off to ring in a distant tower. I have known farmhands, at their own choosing and suggestion, ring a peal for the Blessed Sacrament at 5 a.m. to bring the reality and joy of Easter at Alfred's Ethandune to the hearts and minds of the faithful. In all this period, prize-ringing has been unknown.—A. S. Bryant, Upwey Rectory, Weymouth.

OXFORD DIOCESAN GUILD

SONNING DEANERY BRANCH.

The annual meeting of the branch commenced with a well-struck touch of Stedman Triples by a representative band at St. Paul's Church, Wokingham. The service which followed was conducted by Archdeacon Shaw (chairman of the branch).

After tea, attended by 65 members, the Archdeacon presided at the business meeting, supported by the president, Canon Coleridge, and the Master and Deputy Master of the Guild.

The branch secretary reported a successful and active year's work, and all the branch officers were re-elected. Before the close of the meeting the chairman called upon Canon Coleridge to say a few words, and he was greeted with loud applause as he stood up. Both the Master and Deputy Master addressed the meeting, after which the members went to All Saints' tower for further ringing until 9 p.m.

BANBURY AND DISTRICT BRANCH.

The eight at Deddington proved an attraction on January 10th, when the quarterly meeting of Banbury and District Branch was held. Fifty members attended. Methods rung included Lincolnshire, Bristol, Kent, Double Norwich and Plain Bob Major, Stedman and Grandsire Triples. Seven new members were elected.

Kent County Association

PRESENTATION TO MR. C. H. SONE.

The affair at Linton on January 10th might have been an ordinary meeting of the Maidstone District of the Kent County Association. Certainly Mr. C. H. Sone, host to us at this tower so many times, had no obvious reason for thinking otherwise, though there were unusual signs. It was, for instance, a very large company which crowded through the trapdoor into the ringing chamber of St. Nicholas' Church, and included ringing friends from various parts of the county, among them F. M. Mitchell, until 1946 general secretary, and A. G. Hill and B. W. May, secretaries of the Lewisham and Rochester Districts, respectively.

At the service, too, Mr. Sone had been invited by the Vicar, the Rev. J. L. Yeo, to select the hymns, and also heard personal references to himself in the address, masked as they were in the Vicar's welcome to the Association. The most suspicious thing of all was the secretary's (Dr. E. S. J. Hatcher) insistence on having Mr. and Mrs. Sone as guests at the tea served in the Bull, instead of allowing them to look after everyone else in traditional Linton style.

Probably Mr. Sone did sense the unusual, but not till a Philips all main radio appeared from its packing case did he realise the full significance of the occasion. Mr. Mitchell made the presentation from ringing members of the Maidstone District and from fellow officers of the General Committee. For though 80 years of age and well past his golden wedding, Charlie Sone had resigned from active office only in October, being made a vice-president soon afterwards. Some 55 years as a member, nearly 20 of them as district secretary, were the cold statistics of a long ringing life in Kent, which his friends now honoured.

Characteristically Charlie Sone tucked his thumbs into his waistcoat and spoke a brief 'Thank you.' The real surprise was evident to all of us, and quite fittingly we listened for a minute to a B.B.C. programme on the set just presented in our name.

Once more it was the ordinary procedure of a quarterly meeting. The Vicar presided over business, of which this account can mention only one item, the vote of congratulation to the secretary for the programme card of meetings for 1948. The idea, though not entirely new in ringing circles generally, was an innovation in Kent, and it will be of great interest to watch its development. F.S.J.H.

ESSEX ASSOCIATION

NORTHERN DISTRICT.

At the annual meeting at Bocking on Jan. 10th, Miss H G. Snowden (District Master) presided and five new members were elected. Witham was chosen for the next meeting on March 6th.

Miss Snowden was re-elected Master, Mr. H. A. Pratt secretary, and Messrs. H. W. Smith and R. Suckling to the committee.

Ringing ranged from Bob Minor to Superlative Surprise Major, and the Dean of Bocking (the Very Rev. E. Rogers) preached at the fully choral service.

WRINGTON'S ANNUAL

The yearly supper arranged by the tower captain and his wife (Mr. and Mrs. H. W. Knight) was held at the Golden Lion Hotel, Wrington, Somerset, on January 15th. Among those present was the Rector (the Rev. Arthur Talbot), Mr. E. E. Hardwick (churchwarden) and visiting ringers from Congresbury and Yatton, together with the local band, including several old members, no longer able to mount the stairs to the lofty bell chamber.

After an excellent meal of pre-war standards, the Rector thanked the ringers for inviting him and he also welcomed the visitors. Mr. L. Pullin (Yatton) replied.

Handbell ringing followed and there was a musical interlude, with community singing.

BATH AND WELLS ASSOCIATION

The secretary reported a very successful ringing year at the annual meeting of the Bath Branch at Bath Abbey on January 10th, which was attended by over 140 members. Ringing opened with Grandsire and Stedman Caters.

The service was conducted by the Rev. W. Beaumont Russell (chairman) and by the Rev. W. L. Brooksbank (vice-chairman), and the lesson read by Mr. S. Woodburn (secretary). The Archdeacon of Bath gave the address.

At the business meeting after tea the following officers were re-elected: Rev. W. Beaumont Russell (chairman), Rev. W. L. Brooksbank, Rev. P. B. Mercier (vice-chairmen) and Rev. E. W. Rowe, Vicar of Weston, also (vice-chairman) was elected in place of Rev. Preb. H. Barnett, who has now left Bath, Mr. S. Woodburn as secretary, Ringing Master and representative on General Committee, and Mr. R. D. Bond treasurer. Those present included the general secretary of Bristol and Gloucester Association, secretary of Bristol Rural Branch and the Ringing Master of Axbridge Deanery.

Two life members, T. Mark White, of Guildford, and C. Rawlings, of Clifton, and 18 new members were elected for the branch.

SALISBURY DIOCESAN GUILD

DEVIZES BRANCH.

Some 69 ringers attended the annual meeting of the branch on January 3rd at St. James', Southbroom, Devizes. The Vicar (the Rev. C. A. Whitcombe) conducted the Guild service.

Mr. E. F. White presided at the annual meeting, but expressed a wish to retire from the post of branch chairman. Mr. W. C. West was unanimously elected to succeed him and Mr. A. T. Weeks vice-chairman and Mr. Harold Smith secretary.

Thanks were accorded to the Vicar, organist and ladies. A special welcome was accorded Canon F. H. Sangster, who is living in the parish in his retirement.

GREAT PAUL

THE question raised by Mr. J. E. Bailey as to the occasions on which 'Great Paul,' the massive bell in St. Paul's Cathedral weighing 16¾ tons and which was cast by John Taylor and Co. in 1881, is rung has brought forth a number of interesting replies. Twenty tons of metal were melted down and the bell cost £3,000.

Mr. A. B. Peck, the secretary of the Ancient Society of College Youths, writes: 'The bell is rung every day except Sunday at 1 p.m. for about four minutes. It is rung frame high and then lowered gradually. Great Tom is tolled or clocked once a minute for two hours on the death of a Monarch. Great Paul weighs 16 tons and Tom 5 tons. The last named is the hour bell.'

Mr. R. F. Deal, of East Ham, adds this interesting information: 'This bell may be heard on week-days (except two or three days in the year) at one o'clock. It is raised about half-way up by four members of the Cathedral staff, who time their pulling with great precision, the first stroke of Great Paul being heard within a second or two of the clock striking. The clock bell is tolled for a death in the Royal Family, for a Bishop of London, the Lord Mayor, or the Dean. This bell, by Richard Phelps, 1716, weighs 92 cwt. 14 lbs. With the two big bells in the south tower are two quarter bells of about 12½ and 24½ cwt. by Phelps, 1707, and hanging above the twelve in the North Tower is the Five Minutes' or Service Bell (about 22 cwt.) by Philip Wightman, 1700—seventeen bells in all.'

Mr. E. M. Atkins finds an inspiration in Great Paul. His letter states: 'Great Paul is rung every day at 1 o'clock. When I hear it from my office, which is about half a mile away, I am reminded of its inscription: "Woe is me if I preach not the Gospel," and it is an inspiring thought that this message is sent out day by day to the multitudes working within earshot. On the great festivals, like Ascension Day, the 12 bells are rung earlier in the morning, and I have been able to do my little bit by explaining when asked why the bells are ringing.'

The concluding note is from the Rev. F. Ll. Edwards, of Kington Magna, who confirms that the bell is rung daily at 1 o'clock for five minutes, and gives this footnote: 'I have on one occasion—with a party of three Dorset boys—taken part in ringing it myself.' An experience truly memorable, and which would rejoice the heart of any young ringer.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

BELFRY GOSSIP

Mr. A. H. Pulling rang his 400th peal of Stedman on New Year's Eve.

Mr. Harold A. May has joined the long list of those who have 'circled' Warnham tower.

In honour of the 39th wedding anniversary of Mr. and Mrs. H. Holden was the peal at Bexley, Kent, on January 3rd.

A golden wedding peal was rung at Douglas-in-Parbold, Lancs, to Mr. and Mrs. W. Santus, the donors of the treble bell.

Another golden wedding similarly remembered at Norbury (Hazel Grove), Cheshire, was that of Mr. and Mrs. Walter Wolstencroft.

No fewer than 30 quarter-peals were rung at St. Mary Magdalene's, Holloway, during 1947 for services.

Mr. Peter C. Wright, of West Malling, called his coming-of-age peal in his own tower on January 6th.

Now that Mr. Harry Scoffin has been a ringer at St. Wilfrid's, Alford, for 50 years, he has rung his first peal.

Mr. Donald G. Clift, of 21, The Chine, Stapleton, Bristol, would like to hear from other Donalds interested in a name peal.

Mr. J. Higgins, an old age pensioner at Seavington, Somerset, has decided to change from call changes to method ringing. His first peal is recorded.

The peal of Belgrave Surprise Royal at St. Martin's, Birmingham, was a compliment to Mr. Edgar C. Shepherd upon the eve of his 50th birthday.

For 30 years a ringer at Lyme Regis, the late Mr. John Ernest Philbrick had spent the last two years at Southend, ringing most regularly at Prittlewell, although at times unwell. A peal to his memory was rung there on Jan. 4th.

A company of 150, including the Mayor and Mayoress of Aldershot, attended St. Michael's (Aldershot) ringers' social on January 24th. The sum of £21 was raised towards the cost of overhauling the bells.

Ringers, especially in the Oxford Diocese, will congratulate Mr. A. R. Pink upon his appointment as secretary of the Oxford Diocesan Board of Finance and Dilapidations Board. Mr. Pink's progressiveness and enthusiasm are well known.

Long service from Longparish, Hants, is to hand this week. Mr. L. W. Andrews, aged 88, has rung at this tower for 72 years. The peal on January 7th was a compliment to him and Mrs. Andrews on the 56th anniversary of their wedding.

Mr. Frank C. Knight, of Cambray Road, Orpington, Kent, is planning another ringing tour of Kent this year between August 7th and 16th. He hopes that as many as possible of those who came on his other tours will again be available.

Another Christmas Quiz afterthought from prize-winner Harold V. Frost. 'Re the question of a 5,001 of Major, I think it is possible to get a peal of Original Major to come round at hand at that number as bobs and singles can be called at every handstroke, although I'm not proposing to sit down and compose one!'

Messrs. G. H. Paulson and H. E. Taylor, of St. Helen's Church, Darley Dale, took part in a short broadcast in 'In Town To-night' programme last Saturday. Mr. Paulson spoke as churchwarden and bellringer and Mr. Taylor as ringer and conductor.

Ringing Master at 17

Frederick William Grocott commenced learning to ring in June, 1943, at St. Mary's Church, Bucknall, Staffs, under his father. In December, 1943, he rang his first 720, and from that moment there was no holding him back; before he was 14 years old he had mastered London Surprise, Cambridge Surprise, Oxford and Kent Treble Bob.

Not content with six bells, he went further afield, and before long he was quite at home in eight and ten bell towers. He has not missed a ringing meeting since he joined the North Staffordshire Association in 1945. He is also a member of the Cheshire Guild.

The new Master did not ring his first peal until he had been ringing for three years, not because he could not; he just felt that it was worth waiting until he was really capable. His present record of peals consists of four peals of Major; one of Grandsire Doubles, which he conducted with a band average age 15 years; and a peal of Surprise Minor in seven methods, which he also conducted.

In December last, at the annual meeting of the Association, he was unanimously elected Ringing Master for six-bell towers for his brilliant ringing capabilities, and also for the very valuable help he had given to young ringers in various towers. He is also a very promising handbell ringer.

Recently his ringing was temporarily curtailed, as he had to undergo an operation, which he came through quite successfully. At present he is attending meetings and assisting the learners at his own tower.

TRURO DIOCESAN GUILD

The Penzance Branch monthly practice was held at Helston on January 24th. About 20 attended from Madron, Gulval, Camborne, Carbis Bay, Redruth, and L. E. M. Dear, of Hertfordshire, at present stationed in Cornwall. Progress was evident by the fact that Grandsire and Stedman Triples, and Kent and Oxford Treble Bob Minor were rung. The local captain, Mr. Willey, rang the tenor to several touches of Grandsire.

MIDLAND COUNTIES GUILD

Meeting at Winshill on January 17th, the Midland Counties Guild admitted seven new members from Ashby, Burton St. Modwen's and Winshill.

Mr. F. G. Fretwell was appointed Ringing Master for the next meeting at Netherseale on March 6th.

Mr. J. W. Cotton (hon. secretary) thanked the Vicar (the Rev. E. L. Redfern) for conducting the service and the local members who had prepared tea. He said it was 10 years since the last ringing meeting had been held at the church, which was a landmark in the Burton area.

LETTERS

SISTERS' RECORD

Dear Sir,—In answer to your query in this week's 'Ringing World,' I thought I would send you word that my twin sister, Grace, and I have rung all our peals (147) together. We should like to congratulate the Misses Fletcher on their achievement.—Yours sincerely.

(Miss) KATHARINE BURCHNALL.

Sutton-on-Trent.

TOWER SNATCHING

Dear Sir, — In 1947 I rang in 158 towers, 118 of them being new ones in 14 different counties.

Owing to the bad winter weather, an accident at work in April, which put me out of action for three weeks, and a fall on December 6th, which fractured both feet, which I am still nursing, I cannot record a Sunday ringing record.

I have no doubt many of my friends reading this will say, 'That's stopped him.' To them I would say, 'Yes—and the basic too.'—Yours sincerely, ERIC NOBLES.

Duston, Northants.

Question.—Can he do the hat-trick, 300 new towers in three years?—Editor.

AN ORPINGTON EXPERIMENT

Dear Sir,—I note with great interest that Mr. T. S. Williams, of Kingsland Grange Preparatory School, Shrewsbury, has formed a ringers' guild from a number of his young pupils. May I take this opportunity, through the medium of your columns, to wish him every success in what will prove a very difficult task. It is very gratifying to hear that such an interest is being taken in these young boys. Mr. Williams' efforts are bound to prove invaluable to the Exercise in later years, but in the meantime he must expect many disappointments.

Although not in exactly the same position as Mr. Williams, I am a schoolmaster and teach in a school containing 630 boys, whose ages range from 11-17 years. My subject is music and I invariably include some elementary campanology in certain of my lessons. This 'sideline' certainly has proved popular with the majority of the classes. So much so that I decided five months ago to recruit a dozen or so of the boys (average age 12 years) and teach them the art. Fortunately I had recently heard that a certain tower in the neighbourhood contained a fine ring of eight bells by Taylor, tenor 20 cwt., which had been silent for some years through lack of ringers. This was an opportunity not to be missed, and on approaching the Vicar we were welcomed with open arms. In five months these boys have learned to handle their bells and to ring rounds and 'stoney' with reasonably good striking. We are now just starting on Grandsire. Handbells have played an important part in learning method ringing. Grandsire and Plain Bob have been mastered reasonably well by most of the band on these, and by next Easter I feel sure all the boys will be capable of ringing a six-score and a 720 on tower bells. Sunday ringing takes place regularly each week.

I am happy to be able to include among my campanologist friends a number of schoolmasters, who, I'm sure, would find it very interesting and very useful to the Exercise to embark upon a similar venture even if only as an experiment.

If ever Mr. Williams is down this way I should be very happy to make his acquaintance and perhaps to ring in a peal with him.—Yours very truly,

FRANK C. W. KNIGHT.
Senior Music Master,
Orpington County School.

WILBURTON, CAMBS.—On Jan. 8th, 1,260 Bob Minor: O. Needham 1, M. Thurmott (cond.) 2, J. Rowsell 3, F. Yarrow 4, C. Gimbert 5, R. Bullen 6. First quarter for 1 and 2.

OBITUARY

MR. WM. H. LAWRENCE.

By the passing of Mr. Wm. H. Lawrence, of Little Munden, Herts, on Jan. 17th, we have lost a very sincere friend. For over 46 years I had the pleasure of his great friendship, and I shall never forget that wonderful handshake and cheerful smile with which he first greeted me. No stranger ever set foot in his belfry without receiving the same welcome.

For 37 years he was district secretary, and but for a serious affliction he would have carried on for a much longer period. He bore his years of illness with fortitude and cheerfulness.

A devoted churchman, he took an active part in the Church's well-being and of his own village. The sympathy of many is extended to his wife and two daughters. He lived a life for others and one that was well and truly spent.—G. Radley.

The funeral service on January 21st was taken by the Rev. H. G. Thompson (a former Rector), the congregation filling the church. After the committal service at the graveside a course of Grandsire Triples was rung upon handbells by Messrs. L. Fidler (president, Herts Association), W. Ayre (secretary), Albert Coles and Sidney Carter. There were many ringers present, viz., Messrs. Barnard, Patmore (Great Munden, Groom (Standon), G. Radley (Hoddesdon), F. W. Elliott (Rickmansworth), Mr. and Mrs. Stanley Carter (Hertford), Gilbert Debenham, G. W. Cartmel and the Rev. R. G. Cartmel (St. Albans), besides the local ringers, who rang a half-muffled touch immediately after the service, and again in the evening.

MR. GEORGE A. CARTER.

Farnham has lost an enthusiastic ringer by the death of Mr. George Carter (36), of Wrecclesham, as the result of a fall from a lorry. Although not a peal ringer, he had several quarters to his credit during his 20 years' association with the Parish Church.

The funeral was on January 21st, local ringers attending being Messrs. C. W. Denyer, W. Buller, C. Wells and T. Upshall. In the evening the bells at Farnham Parish Church were rung half-muffled to his memory.

CANADIAN RINGERS AND THE ROYAL WEDDING

The bells of the Holy Rosary Cathedral, Vancouver, B.C., were rung on November 20th in honour of the wedding of H.R.H. Princess Elizabeth to touches of Grandsire and 'fired' with the Royal Salute. The fact was communicated to Her Royal Highness by Mr. Limpus, who received the following gracious acknowledgment:—

'Dear Mr. Limpus,—I am desired by the Princess Elizabeth to express to you Her Royal Highness' most sincere thanks for your very kind letter, which the Princess was most interested to read, and hear of the ringing of the bells. Her Royal Highness was most touched by this, and I am once again to express to you their Royal Highness' most sincere thanks for your very kind thought in writing. — Yours truly, Margaret Reynolds, Lady-in-Waiting.'

KIDDERMINSTER MEMORIAL WINDOW

Ringers from four associations joined together at the Church of St. Mary and All Saints, Kidderminster, on January 19th, to ring a half-muffled peal as a token of respect to the men of Kidderminster who fell during the war. After the peal a memorial service was held, and a window, donated by Mr. G. S. Chadwick as a memorial to his only son, Ian Ross Chadwick, killed in the war, was unveiled.

The four associations represented were the Chester Guild, Lancashire Association, St. Martin's Guild, Birmingham, and Worcestershire and Districts Association. The band's thanks are due to Mr. K. Salter and Mr. Chadwick for making the necessary arrangements.

Southwell Guild

The newly formed Newark Branch held its first annual meeting at Sutton-on-Trent on January 24th, when about 60 per cent. of members attended. Mr. A. Chilton was elected Ringing Master for the ensuing year.

The secretary's report showed that membership numbered 42, and that two peals of Bob Minor and one each of Cambridge and Bristol Surprise Major had been rung. There is plenty of scope for pioneering work in this widely scattered agricultural district, and the aim is to train as many recruits and get as many towers on their feet as possible during the coming year.

The district suffers through lack of higher numbers of bells, there being but two eights (one of which is rather a curiosity) and a ten upon which opinions differ!

A very healthy spirit prevails in the area, and by the end of another year it is expected that progress will have been made in all directions. The newly born infant will have cut its teeth!

MIDDLESEX COUNTY ASSN.

Despite very bad weather, a successful meeting, attended by 30 members, was held at Brentford on January 17th, a special welcome being accorded to Miss N. Williams, of Bath, and Lieut. J. D. Richards, R.N., after service in the Far East.

At the business meeting, Mr. W. H. Coles (vice-president) was in the chair, and elections or confirmations were: Mr. Squire Croft (Richmond), non-resident life member; Miss Beryl J. Denton and Miss F. Hopwood (Isleworth), ringing members.

The Vicar (the Rev. R. M. Pitt) conducted a short service, and tea was kindly provided by the church authorities.

STAFFORD ARCHDEACONRY SOCIETY

A quarterly meeting was held at St. Leonard's Church, Bilston, on January 24th. The bells were set going soon after 3 p.m., and at 4.45 a short service was held in church, with an address by the Vicar, the Rev. J. C. Ayling. Tea was provided at the Parish Hall, kindly provided by the Vicar. Three new members were enrolled: W. Reynolds (All Saints', West Bromwich), J. N. Linden (Birmingham) and D. J. Charnley (Isleworth, Middlesex). A vote of thanks to the Vicar for his address and hospitality was passed.

GUILD OF DEVONSHIRE RINGERS

The Mid-Devon Branch has just concluded another successful year's working. Several meetings were held during 1947, and despite somewhat heavier expenditure, the finances increased. A permanent memorial was erected to Mr. C. R. Walker.

The holding of weekly practices in the Newton Abbot area had been of considerable benefit to the less experienced members. Practices were resumed again on January 7th after the Christmas holidays, when some good touches of Grandsire Doubles with 4-6-8 covering, Plain Bob Minor and a couple of courses of Grandsire Triples were rung. The branch is indebted to the church authorities at Highweek for the use of their bells, and to Mr. J. E. Lilley, of Newton Abbot, for his work as instructor. B.

SOUTH-WEST BRANCH.

The annual meeting of the South-West Branch at Plymouth, Emmanuel, on January 17th, was a great success—ringing in Grandsire, Plain Bob, Stedman and Kent, a service conducted by the Vicar (the Rev. E. N. B. Chapman) and a magnificent tea.

The branch chairman (the Rev. H. B. Bennett) presided at the business meeting, supported by Mr. G. H. Myers (vice-president) and Mr. F. C. Smale (Guild secretary), the attendance numbering over 50. The retiring officers and General Committee were re-elected and the next meeting fixed for April 3rd at Plympton St. Mary (if permission is granted).

QUARTER PEALS

GRANDSIRE TRIPLES

THE Grandsire Doubles band which aspires to ring a peal in its own tower has little difficulty about practice, for the peal will be mainly a repetition of familiar work. This is not necessarily so with the Grandsire Triples band. Peal compositions may be the same in method as the service ringing, but they differ greatly from it in their construction, and in these days when young learners are very rightly given so much of the precious practice night, it is not always easy to fit in long touches.

Consequently neither conductor nor band is likely to make much progress towards ringing a peal if they confine their service ringing to three bobs Right (or Home). The two favourite peals for first-timers both lend themselves to shortenings which bring them into the fifteen or twenty minutes' limit for service touches, so that every Sunday can be made a peal practice. Apart from peal considerations, the adoption of more advanced callings such as these will greatly improve the standard of our prime consideration, the service touch.

Parker's Twelve-part, either in its original form (with —765 part-ends) or in Groves' variation (with —567 p.e.), has in each part a single on the same two back bells throughout the peal—in the original they are 5 and 7, in Groves' 5 and 6. If this single is omitted the last bob in the first part brings up 423567, when another bob produces rounds at 406 changes. A quarter-peal is obtained by calling the first three parts with no alteration except that the single on the two back bells must be omitted in one of the parts—it is immaterial which.

Holt's Ten-part (Reeves' variation) has the leads of the plain course in their natural order for the last lead of each part. It will, therefore, run round true from a single part, and the calling of either the first half or the second may be used. If you wish to incorporate two Holt's Bob Singles in your touch begin with two bobbed leads 752634, 467352, and then call the first HBS, which will bring up the first change of the second half 235476. Now let the bells run for four plain leads before calling one part of the second half from 257364. It will actually be the last part of the peal, and it is imperative to run these plain leads first; otherwise your touch will not end with a bob lead and a HBS will not bring the bells round.

A quarter-peal of Holt's requires some adjustment, since two parts are not enough while three are too many. You can call the first two parts from rounds and the third part as far as the third bob, which will bring up 257643. From this leadhead call single at 4, bob at 1, single at 1, bob at 4, which is rounds; total 1,260 changes.

If you wish to use HBS in your quarter it is recommended to add the extra leads at the start. From rounds call bobs at 2, 1, 2, 5, 1, 2, and let the bells run on for two plain leads further to bring up 246375. Now call the fifth part of the peal, ending with HBS. You should then let the bells run for four plain leads before starting to call the tenth part of the peal, ending with the coming round HBS This quarter has an extra lead, making 1,274 changes.

EDITOR: T. W. WHITE.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

The first Royal Navy peal, rung at Fareham, was actually planned by Lt.-Comdr. R. G. Cross in 1939, but was stopped by the outbreak of war. The company would like to associate with the peal Commissioned Mechanician Cecil L. Grey, who is at present serving in the Home Fleet based at Portland and could not be included.

Congratulations to Mr. George E. Fearn on ringing his 400th peal.

The coming-of-age of Mr. Philip M. J. Gray was celebrated by his ringing his first of Surprise Royal at Croydon on January 17th.

The order to rehang the bells of St. Thomas', Salisbury, has been placed with Messrs. Gillett and Johnston.

Captain of Hungerford tower is Mr. William Wiggins. He was able to listen to a peal of Bob Major on his 84th birthday.

Mr. Harry Ashton, of Maidenhead, has accepted an appointment with the Doncaster Borough Council. For his farewell peal he turned in the tenor to Double Norwich.

Messrs. J. L. Millhouse, S. A. Chambers, W. Tomlinson, K. W. Mayer and J. Freeman, of Lincoln, have rung peals of Cambridge from Minor to Maximus.

Twin brothers, Messrs. W. J. Clough and J. E. Clough, of Burbage, Leicestershire, had birthday honours paid them by the peal at Claybrooke.

The Editor has closed the voluminous correspondence on Essex peal deletions. No fewer than four letters were typed on the same typewriter, although being sent in from different towns or villages.

The peal at Rotherfield was specially arranged to allow Mr. Charles Brasier to conduct his first peal on his 73rd birthday, and by ringing the second he has 'completed the circle.' It was an all local band performance, the first here for 36 years.

At the age of 12, George W. Pipe has rung his first peal of London, and he is probably the youngest ringer to achieve this honour. The conductor, Mr. L. C. Wightman, describes George's performance as masterly.

Mr. William Woodyatt, of Bromyard, Herefordshire, is leaving for South America. Bon voyage was said by a peal of Grandsire Doubles.

Mr. Alfred J. Lee, who learnt to ring at St. Peter's, Fairfield, Buxton, rang his first peal on the bells with one of 17 methods.

Another of P.H.'s cartoons appears this week. Of course, the answer to the question will be found in 'College Youths,' Mr. J. Armiger Trollope's masterpiece.

Sussex Association has lost one of its oldest members by the death of Mr. Edmund Lindup at the age of 78. He had been leader of the Heene band for 62 years.

With reference to the peal of Doubles at King's Bromley on January 3rd, the conductor was Miss Joan Beresford and not as reported.

Five of the participants in the peal at Kilburn were pupils of the conductor, Mr. E. M. Atkins. In commending Miss Maud Lane on her first peal, he writes: 'The treble weighs 162 lb. only, and is thus not everybody's cup of tea.'

Mr. Reuben Sanders rang his 50th peal on the bells of Southwark Cathedral on January 17th and his 125th peal on 12 bells. His record of twelve-bell work reads: Stedman Cinques 75, Cambridge Maximus 42, Treble Bob Maximus 4, Superlative Maximus 2, Yorkshire Maximus 1, Cambridge and Superlative Spliced 1.

Errata. — In the peal at Dalton-in-Furness, Lancashire, reported in our last issue, the ringer of the seventh was the conductor, Mr. James E. Burles. Mr. Frank E. Pervin did not ring in this peal. We deeply regret the error.

LETTERS TO THE EDITOR

GRANDSIRE DOUBLES

Dear Sir,—In my notes last week on the method of splicing complete six-scores into a 240, I inadvertently omitted to say that, on a rigorous interpretation of the C.C. recommendations regarding peals of Doubles, it is not permissible to include extents or 240's (a) which do not begin at and end with rounds at backstroke; (b) which are not rung in one piece without interruption.

The whole question of Doubles in peals is rather anomalous, and was the subject of correspondence in 'The Ringing World' at the end of 1939. For instance, one of the recommended 240's in the Doubles and Minor Collection consists of a six-score interpolated into another six-score virtually in its entirety.

However, I should be very sorry indeed if I had been the means of causing an inexperienced conductor to break the rules, and to imperil the recognition of his performance. Until such time as another ruling may be given by the C.C., therefore, the handstroke position cannot be used in peals, though it may be used in touches for the sake of much-needed variety.—Yours faithfully, A. J. CORRIGAN.

Bitton.

APRIL DAY MINOR?

Dear Sir,—In reply to Mr. Gait's letter, a true 720 can be called using the ordinary bobs as in Plain Bob and Grandsire Singles, by calling a single every time the 3 is about to make seconds and adding bobs when 23 dodge together the right way in 5-6. In such a 720 all the 65's come at handstroke.

Surely, however, the prospect of six consecutive blows in 6ths place, or four in thirds, is enough to deter any band from wishing to ring such a 720.—Yours sincerely,

EDWIN P. LINDLEY.

Trinity College, Cambridge.

TRURO CATHEDRAL'S 16 BELLS

Sir,—Mr. R. F. Deal tells us that St. Paul's possesses 17 bells. It may interest readers to know that Truro Cathedral has one less of that number. Besides the famous Taylor ring of ten in the north-west tower, there are six bells in the tower with the green spire, which is the modern tower of old St. Mary's Church. These consist of old St. Mary's tenor, now the hour bell, but is hung for ringing and was last rung on Armistice Day, 1918. It weighs about 18 cwt., has a very fine tone, and is about 250 years old. Then there is an older bell weighing about 5 cwt., which has not been heard at all for several years, and four modern Taylor bells for the Westminster quarters. This tower is not an ideal place for bells to sound their best, and it is hoped one day that the clock and bells will be moved to the central tower.—Yours truly,

W. H. R. TREWHELLA.

St. Crantock Vicarage, Cornwall.

MEMBERSHIP QUALIFICATION

Dear Sir,—With reference to letter by Mr. Knight in issue dated January 30th re 'membership qualification,' the following as applied to myself, also countless others, may, without much reading between the lines, answer the objection raised.

Years ago (more than I like to remember), when but a few weeks old, and unable even to sneak, I was, through baptism, made a member of the Church of England, and later on, when able to understand things more fully, accepted, through Confirmation, as a full member of that same Church. In the ensuing years, with the help of that body and its associated members, I have, not by ringing only, but in other offices, endeavoured to live the ideals of that calling.

Without enlarging upon the above, what might have been the result if, because of my lack of understanding in the first place, I had been refused membership?—Yours sincerely.

Sutton Valence, Kent. F. S. MACEY.

DOUBLE NORWICH COLLECTION

Dear Sir,—The composer of peal No. 41 in the C.C. Double Norwich Collection has just discovered that it is labelled 'false' in the list of errata. He points out to me that the peal is perfectly true, and that although the course ends are printed correctly, both calling and instructions are at fault. In justice to an old ringer and composer, now, alas, an invalid, would you be good enough to print the correct figures as appended, so that possessors of the collection may make the necessary alterations?—Truly yours,

J. T. DYKE.

PETERBOROUGH DIOCESAN GUILD

WELLINGBOROUGH BRANCH.

At the annual meeting at Irthlingborough on January 24th, there was a record attendance of 90 ringers and friends from 25 parishes.

The Vicar of Bozeat (the Rev. S. F. W. Powell) accepted the office of president, and Mr. J. Shatford (Wellingborough) was elected representative to the Central Committee. Other officers were re-elected. First peal certificates were presented to three Irthlingborough youths.

The Rector of Irthlingborough, who conducted the service and presided over the business meeting, was elected an honorary member, and three new ringing members from Bozeat and one from Higham Ferrers were also elected.

Mr. C. P. Osler has been re-elected as captain of the Bramley (Hants) ringers for the 25th year. Writes the tower correspondent: We hope that the second 25 years may be as happy and successful as his first have been.

Three of the foremost change ringers at Holywood, Northern Ireland, have sailed for Rochester, U.S.A. They are Mr. John Savage and his two sons, Nathaniel and Joseph.

What's a College Youth, Dad?

Peal Ringing in 1947

Peal ringing during the latter part of 1947 reached proportions that would compare favourably with the best pre-war years. The record for 1947 so far received at this office is:—

Tower bells	...	...	1,955
Handbells	...	...	221
			2,176

Comparative figures are: 1946, 1,797 peals (240 in hand); 1945. 1,304 peals (178 in hand).

Monthly totals for 1947 are as follow: January, tower 126, hand 14; February, 92, 9; March, 126, 12; April, 163, 17; May, 182, 19; June, 139, 24; July, 116, 21; August, 152, 18; September, 150, 17; October, 160, 24; November, 331, 18; December, 218, 28.

Leading Association for tower-bell ringing is Lancashire with 133, followed by Kent with 128 and Cheshire 113. If handbells are taken into consideration, Kent is placed first with 136; there were no handbell peals rung for the Lancashire Association in 1947. Fourth Association is Oxford Diocesan with 110.

KEMPSTON, BEDS

The Archdeacon of Bedford dedicated two new bells at Kempston Parish Church on Jan. 25th in the presence of a full congregation, which included 61 ringers.

The local company rang the last touch on the six before the service and also a few rounds after dedication. Some really good ringing was enjoyed.

Messrs. Mears and Stainbank supplied the new bells and Mr. A. Hughes was congratulated on making a really good splice. The new bells are inscribed as follows:—

Treble: E. P. Inskip, leader, 1946.

2: T. H. W. Barker, Vicar, 1946.

Of the other six bells, one is dated 1633, and the tenor, by Hugh Watts, Leicester, 1603.

KENT COUNTY ASSOCIATION

ROCHESTER DISTRICT.

When the quarterly district meeting was held at Rainham salutations were given to the old brigade. First to be congratulated was 82-year-old Mr. C. Belsey, who completes this year 51 years' membership of the Association and was until recently captain of the Rainham band.

Another octogenarian member of Rainham is Mr. W. J. Walker, who claims 52 years' membership and still climbs the tower twice every Sunday to call the people to worship.

The secretary was asked to convey congratulations to Mr. H. E. Simpson, captain of the Sittingbourne band, who this year completes 60 years' membership and is also a regular Sunday service ringer.

Five new members were elected. About 70 members were present, the service being conducted by the Rev. F. W. Jordan.

BEVERLEY AND DISTRICT SOCIETY

The January meeting was held at St. Mary's, Lowgate, Hull, with its unusual tower standing on the main road with an arch built over the footpath for pedestrians. The bells are rung the opposite way round and are a light musical six (tenor 16 cwt.), but rather noisy in the bell chamber. A great improvement would be the construction of an extra light deadening floor to check the sound.

The business meeting at Holy Trinity vestry was presided over by Mr. G. F. Williams. A lucid account of his investigation of the bells of all Saints', Duffield, was given by Mr. F. Huddleston. In spite of over 60 years of neglect, he found the general conditions satisfactory. The Vicar promised to have the tower examined by an architect. Voluntary help would be required to swing the bells for observations as to vibration and loose masonry. Offers of help for this and promises of ropes were readily forthcoming.

Three new members were elected. In the evening ringing on the ten bells at Holy Trinity was enjoyed.

OBITUARY

MR. HUGH DUNSTAN.

Mr. Hugh Dunstan, for many years treasurer of the Truro Diocesan Guild, died on January 31st. He was 76, but was quite active until the day before he died. He was born at Churchtown Farm, Towednack, where he had lived all his life until he retired from farming just over two years ago, when he went to live at St. Ives. He had been, and still was, churchwarden at Towednack for over fifty years, and had done much for the church. It was only in November last that the six bells were rededicated, and two trebles added at his expense. Seeing the completion of this had given him great delight, and within three weeks they have been rung half-muffled, first for the late Vicar, the Rev. T. E. Streeter, and then for him.

The funeral took place on Feb. 3rd, and the church would not hold all who attended. There was a large gathering of Freemasons. The Vicar of Towednack with Zennor (the Rev. F. R. S. Byfield) conducted the service, Canon C. H. S. Buckley (Gulval) read the lesson, and the Rev. A. S. Roberts the committal. Ringers attended from Gulval, Ludgvan and Carbis Bay. Immediately after the service 336 Grandsire Triples was rung half-muffled by V. Wood 1, Miss M. L. Lidgey 2, Miss E. Symons 3, H. Miles 4, Rev. A. S. Roberts 5, Mrs. A. S. Roberts 6, G. W. Taysom 7, W. Wood 8. The Rev. W. H. R. Trewhella (Diocesan Secretary), Mr. W. H. Southeard (Master) and Mr. H. J. Clark were prevented from attending.

HAWKHURST AND DISTRICT GUILD

Officers re-elected at the annual meeting of the Guild at Hawkhurst on January 17th were: President, the Rev. H. Thorton; chairman and Ringing Master, Mr. L. Pope; hon. treasurer, Mr. W. Gorringe; hon. secretary, Mr. R. Tappenden; assistant secretary, Miss H. Gorringe; committee, Mr. W. Gorringe, Mr. R. Tappenden, Mrs. C. Hannington, Mr. G. Waters, Miss A. Woods and Mr. M. Cloke.

Five new members—Miss Gill, Mr. Pilbeam, Mrs. Bassett, Mr. F. Tomlin, Miss Woods—were elected.

The business meeting was closed with a vote of thanks to Mr. G. Waters for entertaining the company to tea. The meeting sent its good wishes for a speedy recovery to Mr. F. Rummery (a local ringer), who is in hospital at Lenham.

ESSEX ASSOCIATION

NORTH-EAST DIVISION.

Visitors to the North-East Division annual meeting at Mistley on January 17th included Mr. R. G. Heazel (general secretary), who presided at the business meeting.

The 36 ringers present stood in silence in memory of Mr. G. Ellis, District Master. His successor is Mr. G. Waterman, and Mr. H. J. Millatt was re-elected secretary, and Messrs. A. Andrews and G. Moss committee. New ringing members are Messrs. D. Andrews, J. Butler, R. Duesbury and F. Southgate, and probationers the Misses Pamela Peck and Jean Constance (Harwich). Mr. A. Gillings was elected non-resident member.

Mr. A. Auston conducted the service, and the wives of local ringers arranged a very good tea.

NORTH-WEST DIVISION.

For the annual meeting of the Division at Harlow there was an attendance of 38. The hon. secretary reported that 1947 had been a very successful year with increases of membership and towers in affiliation to the Association.

The Master (Miss Snowden), secretary and committee were re-elected and eight new members admitted. The meeting supported Miss Snowden's amendment to alter the date of the Association's annual general meeting at Chelmsford.

ELY DIOCESAN ASSOCIATION

At the annual meeting of the Wisbech Branch, held at Terrington St. John on Jan. 17th, Mr. E. Barker presided, when the following officers were elected: President, Archdeacon Evans; Ringing Master, Mr. C. Cousins; deputy, Mr. E. H. Mastin; district secretary, Mr. W. Buckenham. The service in church was conducted by the Vicar (the Rev. J. W. Sturgiss-Jones).

Salisbury Diocesan Guild

DORCHESTER BRANCH HAS 200 MEMBERS.

Seventeen towers were represented at the annual meeting of the Dorchester Branch on January 24th. In the afternoon the bells of St. Peter's and Fordington St. George were available for the visiting ringers, who afterwards attended the ringers' service at St. Peter's, conducted by the branch chairman, Canon A. Wilkinson Markby.

After tea at the St. Peter's Institute, the annual meeting was held. The branch secretary, Mr. J. H. Hayne, of Abbotsbury, reported a year of continued progress, during which for the first time the membership had exceeded 200. Of this total 171 were ringing members and Mr. Hayne expressed his pleasure that so many of the new members were young folk whose interest in change ringing had led to many requests to the Ringing Master for instruction. The chief event of the year had been the installation of a fine ring of six at Martinstown as the village's war memorial. The only peal of the year was a half-muffled one of Grandsire Doubles at Martinstown on Remembrance Sunday. In addition there were four quarter-peals, two at Dorchester St. Peter's, and at Abbotsbury and Upwey. He referred to the death of two ringing members, Mr. Peter Johnson, a young ringer at St. Peter's, and Mr. H. Coombs, who had been actively connected with ringing in Dorchester for over 50 years.

Canon A. Wilkinson Markby was re-elected chairman, and on Canon D. F. Slemeck (Rural Dean of Abbotsbury) tendering his resignation as vice-chairman, the Archdeacon of Sherborne, the Ven. J. C. Chute, was elected to that office. The Ringing Master, Mr. F. C. Precey, of Bovington, was re-elected and thanked for his great efforts for the branch. Both the deputy ringing master, Mr. F. Stedman, of Wyke Regis, and the hon. secretary and treasurer, Mr. J. H. Hayne, were also reappointed and thanked.

The branch also decided to give £10 towards the appeal being raised to rehang the bells of Fordington St. George at a cost of £220, and it was stated that almost half the total needed had been raised since November.

The branch made a good start for 1948 with the election of another 14 new members from the towers at Abbotsbury, Fordington St. George, Wyke Regis, Sydling St. Nicholas and Upwey.

During 1948 meetings will be held at Abbotsbury, Stratton, Maiden Newton and Wyke Regis, with the fortnightly practices at Dorchester unless otherwise arranged.

OXFORD DIOCESAN GUILD

SOUTH OXON BRANCH.

Despite showery conditions, a well-attended and representative gathering of members and visitors took place at Dorchester, Oxon, on January 24th, on the occasion of the quarterly meeting of the South Oxon Branch.

The bells of the famous Abbey Church were rung prior to the service, conducted by the Master (the Rev. C. E. Wigg), the address being given by the branch chairman (the Rev. F. B. Girling). Appropriately the lesson was read by the Deputy Master (Capt. A. R. Poyntz), whose father was a former Vicar of Dorchester.

It is a great pity that this noble ring of bells is silent on Sundays, as there is no regular band of ringers resident in Dorchester. Another disappointment was to find that no one was present from Dorchester at the meeting, which was specially held there with the object of stirring up enthusiasm.

It was, however, gratifying to know that a young band of ringers had been formed at Watlington, and nine new members from Watlington and Benson were elected that day.

Derbyshire Association

ILKESTON DISTRICT FIRST ANNUAL MEETING.

In response to a very hearty invitation from Mr. P. L. Parrott and the Sandiacre band, the first annual meeting of the district was held there on January 17th, most of the churches in the district being represented. For the occasion Sandiacre members had redecorated the ringing chamber. Ringing on this splendid six ranged from Bob Doubles to London Surprise. A short service, conducted by the Rector, who gave a very thoughtful address, was much appreciated. Over 30 sat down to an excellent tea, arranged by Mr. P. L. Parrott.

At the business meeting following, the officers were re-elected: Chairman, Mr. James F. George; committee, Mr. P. L. Parrott, Mr. A. Hickton; secretary, Mr. F. W. Shaw. Thanks were tendered to Mr. E. C. Gobey, Ringing Master, for his very efficient services during the year, and hope was expressed that both he and his son, Mr. E. F. Gobey (Assistant Ringing Master) would long continue in office. Mr. Gobey, in his reply, appealed to members to endeavour to advance the art in the higher methods and not to be content merely with plain method ringing.

New members were elected, the total membership showing an increase on the year. A programme of monthly meetings for 1948 was adopted.

JOINT MEETING AT PUDSEY

The Leeds transport workers' strike reduced the attendance at the joint meeting of the Ladies' Guild and Leeds Society at Pudsey on January 31st to about 40. The Rev. E. C. Manby, Vicar, presided over the business meetings.

The Leeds Society admitted to membership Messrs. J. A. Bowers, C. Charlton, C. Eaglen, H. Lawn, Misses N. Hartley, B. Daniels, M. Rhodes and E. Bickerdike (Kippax), Messrs. C. Vesey and L. Naylor, Misses M. Lingard, H. Walker, J. Gledhill, of Bradford Cathedral, John Shaw (Guiseley) and A. Johnson (St. Chad's, Headingley).

The vote of thanks to the Vicar and churchwardens was proposed by Mr. P. J. Johnson and seconded by Mrs. O. Whitehouse. Mr. W. Barton replied and promised to pass on to the wardens the vote of thanks.

The next Leeds Society meeting is due to be held at St. Michael's, Headingley, and the Ladies Guild have been invited to visit the Chesterfield district in March.

SUFFOLK GUILD

Miss Reeve, of Hockwold, a member of the Lakenheath company, is the new secretary of the Mildenhall District, her election taking place at the branch annual meeting at Newmarket on January 31st. Mr. S. Brown, of Exning, was elected Ringing Master.

At the conclusion of the meeting, Mr. A. Gillings called for unstinted support for Miss Reeve in her new office to enable her to pull Mildenhall district out of the rut into which it had unfortunately fallen.

THE WEBBS OF LYMINGE

January 29th was the 90th birthday of Mrs. E. E. Webb, of Lyminge, near Folkestone. As a compliment to her nine members of the family rang the bells at Lyminge Church. They were Jennifer Webb (9), Margaret Webb (12), Elizabeth Webb (16), Thomas Webb (16), Frank C. W. Knight (grandchildren), Alec A. G. Webb, Gordon L. Webb, Robert E. S. Webb and Antonio J. Webb (sons).

At the family gathering later a toast was drunk to Mrs. Webb, whose late husband Thomas and late son Frank were also ringers at Lyminge. Other members of Thomas Webb's family were ringers at various churches on Romney Marsh.

WINCHESTER & PORTSMOUTH GUILD

BASINGSTOKE DISTRICT.

Mr. George Williams, the Guild Master, made the journey to Basingstoke for the district annual on January 31st, when over 100 ringers were present. Mr. G. Chesterman (district secretary) reported a membership of 7 honorary and 135 ringing.

The Archdeacon (the Ven. A. W. Chute) was elected district chairman and other officers were re-elected. A change took place in representation on the Executive Committee, Mr. E. Austin taking the place of Mr. C. W. Munday, who is leaving the district. Quarterly meetings were provisionally arranged for Sherborne St. John, Upton Grey and Deane with Oakley. Good use was made of both St. Michael's and All Saints' towers, the ringing including Cambridge and London Surprise.

The address at the service was given by the Rev. J. E. Brashaw, of Shenfield.

SOLIHULL'S VETERAN

The man behind the scenes at St. Alphege's, Solihull, is Mr. John Bragg, for many years the towerkeeper and a ringer for 54 years. The excellent going of the bells and the comfort and orderliness of the belfry appointments are well known.

Opportunity was taken on his 70th birthday for his fellow ringers to express their high regard. A supper and a social evening were spent on Feb. 3rd, and Mr. H. Shepherd presented Mr. Bragg with an illuminated address and wished him many years of health and good ringing. Others paying tribute were the Rector, the Ringing Master and Mr. Roland Bragg.

On February 1st, 1,259 Grandsire Caters was rung, followed by 70 rounds, by W. Leeson 1, C. Dale 2, C. Bragg 3, J. N. Jukes 4, T. Warner 5, H. Shepherd 6, J. Bragg 7, H. Bragg 8, E. C. Shepherd (conductor) 9, V. W. Rigg 10.

LANCASHIRE ASSOCIATION

The best attendance on record was present at the annual meeting of the Bolton Branch on January 31st. An encouraging sign was the election of 12 new members. Re-elected hon. secretary for the 30th year, Mr. Peter Crook announced that this was his last year in office. Most methods up to Cambridge and Superlative were rung.

ST. MICHAEL'S, HAWKSHEAD.

At the invitation of the Vicar, the Bishop of Penrith, ringers and probationers of St. Michael's, Hawkshead, were entertained on January 29th in honour of the 77th birthday of their captain, Mr. C. E. Webb, who has been a ringer at the church for over 60 years. Also honoured was Mr. Robin Shuttleworth (deputy captain) on his 50th birthday and 25 years' ringing in the same tower.

After ringing, which included Queens and firing the bells, the Vicar gave a short address in the belfry.

KENT COUNTY ASSOCIATION

One new tower, Great Mongeham, with four members, was elected in union with the Association at the quarterly meeting of the Canterbury District at Deal on January 24th. New members elected totalled 21.

The Rev. E. D. Bowser conducted the service, and an excellent tea was arranged by Mr. H. Ansell, the 70 members and friends being waited on by ringers' wives. Ringing was at Deal and Walmer.

THE WARWICKSHIRE GUILD

FORTY years ago—on Feb. 21st, 1908—the first peal by the Warwickshire Guild was rung at Stoke-in-Coventry. It was conducted by J. Frank Smallwood, who first suggested the formation of the Guild, and took an active part in its organisation. His story of the Guild's foundation—the predecessor of the Coventry Diocesan Guild—is below.

Forty-one years ago there was no territorial ringing society covering that part of Warwickshire containing Coventry, Warwick, Stratford-on-Avon, Nuneaton and Rugby. The nearest societies were the St. Martin's Guild, which catered mainly for the Birmingham district, and the Midland Counties Association, which covered an enormous area, bounded in the north by Sheffield, in the east by Lincolnshire, in the west by Staffordshire, and the south by Birmingham. The Warwickshire towers seemed to be unfortunate in their isolation, and in 1907 I advocated, in a letter written to 'The Bell News' ('The Ringing World' had not then been born), the formation of a ringing association for Warwickshire. The idea was strongly supported by Harvey Reeves, the Editor. Feeling encouraged by this, I visited many towers in the district to gain further support, with varying results—Warwick and Rugby were very enthusiastic; Nuneaton, where there was an efficient company, were inclined to be hostile. They had rung many peals for the M.C.A. and were quite content to leave matters as they were.

Buses in those days were not numerous, and the usual means of getting from place to place was by cycling. Every evening of every week, wet or fine, I used to cycle from Coventry to take part in the local practices. On Monday it would be Rugby, where James George lived. (He was the proud possesser of a handsome black beard in those days.) He had been actively concerned in getting the heavy peal of eight installed in the new tower. Tuesday would see me on my way to Chilvers Coton, where a new peal of eight had been installed by Taylor's. Wednesday was practice night at Warwick, and there I used to meet the enthusiastic sexton, Ted Adams (who learned his ringing at Fulham), and where I had earlier met John D. Matthews (later Master of the Cumberlands), who was in those days a linotype operator working on the Warwick newspaper. I remember seeing John ringing 7-8 whilst coaching six others through their first efforts at Double Norwich on handbells.

Thursday was Nuneaton's practice night, and realising the importance of gaining support from this tower, I very rarely missed attending. Friday was the practice night at Stoke-in-Coventry, and much work had to be done there to raise a band strong enough for Grandsire Triples—so it was a pretty full time job to work up sufficient support.

After a few months, James George and A. L. Coleman, of Rugby, definitely promised their support, and shortly afterwards at Nuneaton Tom Chapman and Harry Argyle (whom I christened 'the heavenly twins,' because they were always together) came over to my way of thinking, and a meeting was planned to launch the new venture. Joseph H. White was doing some good and useful work at Nuneaton (where he was working at that time) by winning several of the ringers over to support the proposed Guild.

The meeting was duly held at the Dale Temperance Hotel, Warwick, in November, 1907, and the Guild was founded with E. H. Adams as the Ringing Master and A. L. Coleman as Secretary. At first things did not move very swiftly, and it was not until February 21st, 1908, that I had the pleasure of conducting the first peal by the Guild—Grandsire Triples at Stoke-in-Coventry.

Shortly after this peal, Adolphus Roberts, a distinguished member of St. Michael's Youths, Gloucester, and Mr. Frank E. Pervin, of Loughborough, took up residence in Coventry, and things began to move more quickly. Roberts very soon called the first peal of Stedman Triples, at Stoke, and Double Norwich soon followed. There was a young curate at Shottery, near Stratford, named the Rev. C. Carew Cox, and he soon joined in the activities and called the first peal of Treble Bob Major at Bedworth. Meantime Joseph Fenton and his band at Rugby had combined forces with the Coventry, and, along with Joseph H. White, helped to form a good Surprise band. Just at this period my work took me to another part of the country,

but before I left the district the Guild presented me with a very handsome set of tea china, which I still possess.

Joseph H. White acted for many years as secretary and later as Master, and has worked unceasingly for the benefit of the Guild. Frank W. Perrens has also played an important part in developing the Guild, and the present Master, Mr. F. E. Pervin, and secretary, Mrs. D. E. Beamish, have shown themselves to be no less enthusiastic than their predecessors.

In nine years the Guild, which has changed its name to 'Coventry Diocesan Guild,' will be celebrating its jubilee. I hope I shall be spared to attend and meet the few surviving foundation members now left.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

BELFRY GOSSIP

All the tickets available have been sold for the Henry Johnson Commemoration Dinner.

Mr. Donald G. Clift rang his first peal 20 years ago. A handbell peal marked the day.

The peal at Eastbourne was in honour of the birth of a daughter to Mr. and Mrs. Peter H. Rollison.

Mr. Arthur Pritchard, of Hadley, Shropshire, conducted his 100th peal at Hodnet, Shropshire, on January 24th.

The peal at Bickenhill, Warwickshire, was an 80th birthday compliment to the Vicar (the Rev. G. Hood).

Canon T. Guy Rogers, who has consented to preside at the Johnson Commemoration Dinner, is retiring at the end of June after being Rector of St. Martin's for 23 years.

Captain of Curry Rivel (Somerset) tower is Mr. Herbert Perry. His and Mrs. Perry's ruby wedding is honoured by a peal recorded this week.

Mr. J. Parker, who has represented the Royal Cumberland Youths at meetings of the Central Council from 1897-99 and 1906-47, is not seeking re-election this year. He was thanked for his services at the annual meeting last Saturday.

Mr. C. R. Belton has succeeded his late father as captain of the Barwell, Leicestershire, company. Other officers are Mr. G. P. Garner, vice-captain, Mr. A. A. Lucas, secretary, and Messrs. J. Hill and A. Hough, joint towerkeepers.

On February 7th, at Shoreham, Mr. F. Bennett rang his 1,550th peal and his 900th as conductor. He is in his 80th year. This is the highest number of peals by any ringer living. Mrs. E. L. Hairs, his daughter, participated in the peal.

Argument that the Cumberlands would better fulfil the role of a national ringing society if the mastership was at times held away from St. Martin-in-the-Fields preceded the election of Mr. Walter Ayre as the new Master on Saturday. 'Now we are nationalised,' was the cry that greeted his election.

With the idea of encouraging younger members to take office Wrington (Som.) ringers have elected Mr. W. H. Kingcott, aged 18, as vice-captain to Mr. H. W. Knight. At the annual meeting it was decided to utilise the balance of £4 3s. 2d. towards a board for recording the Hesse memorial peal, which is to be an annual feature.

Two Northants towers—Gayton and Rothersthorpe—where ringing for several years has fallen flat, are back in the news again. Rothersthorpe has appeared in the peal columns with three 'firsts' and Gayton has a waiting list of recruits for their first quarter.

The Exercise will join with us in congratulating Mr. and Mrs. W. H. Shuker on completing to-morrow 50 years of married life. We trust that Lancashire will not overlook this golden occasion. Mr. Shuker has held the office of secretary of the County Association for 37 years, and we trust he is still going strong with his co-secretary, Mr. T. Wilson, of Blackburn.

Apropos the splendid achievement of George W. Pipe recorded last week, we are reminded that John R. Mayne rang peals of London, Bristol, Four Spliced Surprise Major, Cambridge Superlative and Yorkshire all at the age of 12 years. Margaret Beamish is the youngest ringer to score a peal of London, which she achieved at the age of 11 years. John Mayne rang his peals two years ago.

London County Association

ANNUAL MEETING AT SOUTHWARK.

Resulting from the terrible fate of St. Clement Danes' in May, 1941, are the changes of venue for the London County Association's annual meetings. The place chosen for 1948 was Southwark, a parish in which the Association had its headquarters prior to 1839. During the afternoon and evening of February 7th, well over 100 members and friends participated in the proceedings, which almost regained a pre-war standard.

A well-attended, stimulating and pleasant service was held at the Cathedral and conducted by the Vice-Provost (Canon F. S. L. Fitz-George), assisted by the Succentor, the Rev. D. J. W. Bradley.

At tea in the Chapter House members were again privileged by the presence of Canon Fitz-George. The electing and initiating of seven new members and ratifying a previous election was one of the first items of the business meeting which followed.

In his report, the Master, Mr. T. H. Taffender, stated that some 14 business and practice meetings had been held, 22 new members had been elected and 15 peals had been rung. These ranged from Stedman Triples to Cambridge Surprise Royal, and included one rarely heard in London—Oxford Treble Bob Royal.

An activity which had continued very successfully was the rotational visiting for Sunday service ringing of towers in the London area which lacked ringers. Very few Sundays had passed without one or more bands of ringers carrying out this important work. Quarter-peals were successfully negotiated on most occasions, many of them being in Surprise methods. These activities enabled many young members to score their first quarter or first in the method.

Elections of officers were: Master, Mr. T. H. Taffender; general secretary, Capt. H. W. Rogers; assistant secretaries, Mrs. O. L. Rogers and Mr. N. G. Hollingworth; treasurer, Mr. G. J. Strickland; stewards, Mr. Squire Croft and Mr. C. M. Myers; trustees, Mr. A. H. Keighley and Mr. T. W. Taffender; honorary chaplain, the Rev. H. E. Ashdown, Provost of Southwark Cathedral.

The health of Mr. E. A. Young had improved sufficiently for him to attend the meeting. He was able to hear personally the thanks of the Association for his untiring work since joining in January, 1891. Since this date he has served in all appointments other than that of Master.

The 'Dawe' Cup Handbell Competition did not take place, as only one entry had been received, this being from All Saints', Isleworth. The team decided they would refrain from competing in the hope that more teams would enter next year.

COVENTRY DIOCESAN GUILD

The first quarterly meeting at Bedworth on January 17th attracted between 50 and 60 members and friends. Nuneaton being next on the rota as the place of the annual meeting in April, a suggestion was made that Chilvers Coton be the meeting place, there being ten bells and more members at that tower. The rule was not being infringed in any way, as Coton was in the Borough of Nuneaton. The suggestion was carried.

Rosemary Ashley, of Bulkington, was elected as a member. An appeal by Mr. L. J. Hinde, also of Bulkington, for a donation from the Bell Restoration Fund towards the cost of two new trebles, resulted in the sum of £5 being given.

The Master, Mr. F. E. Pervin, gave notice that he wished to retire from that position in April and asked the members to seek out a suitable successor.

The collection for the Bell Restoration Fund amounted to £1 8s. Votes of thanks to the local ringers for arranging such a sumptuous tea and to the Rector for his unusual address closed the meeting.

OBITUARY

MR. EDMUND H. LINDUP.

West Sussex lost an old and valued ringer when Mr. Edmund H. Lindup passed away on February 4th at the age of 78 years. 'Ned' had been a member of the Sussex County Association for 62 years, serving several years on the Western Division Committee, and most of his ringing had been in his native town of Worthing and at Brighton. He had been connected with St. Botolph's, Heene, from the time he joined the boys' choir, and rang on State and Royal occasions for over 60 years.

Following cremation, a half-muffled peal of Bob Minor was rung on the nearby bells of Tarring, Heene bells being out of order.

He rang in 200 peals, more than half of which were rung at Heene—Minor 5 (conducted 4), Grandsire Triples 20 (9), Caters 2, Bob Major 14 (2), Stedman Triples 103 (56), Caters 7, Kent Major 7, Royal 1, Double Norwich 24 (5), Cambridge Major 8 (1), Superlative 9, total 200, conducted 77.

MR. W. H. LAWRENCE.

An Appreciation.

William H. Lawrence was born at Little Munden on December 17th, 1875, and was by profession a gardener, being the head of the staff employed by Mr. Nigel Hanbury, of Dane End Estate. He gained his first knowledge of change ringing from the famous Benington band, and in 1895 started a band at his village church, which rang its first 720 in March, 1896.

He was the leader and inspiration of the band until his death, and although sickness during the past few years prevented his accustomed appearance in the belfry, his interest never flagged, and bodily suffering did not prevent his attendance at the Easter meeting of the Herts Association.

The six-bell towers have produced some great ringers, and 'W.H.L.' can be numbered as one amongst many. On October 8th, 1907, he rang at his Parish Church the treble and second in a 5,040 of Minor in five methods, this being followed on February 26th, 1910, by a peal in seven methods, in which he not only rang the first two bells, but also conducted the same. He joined the College Youths in 1898, and was also a member of the Oxford Diocesan and Essex and Middlesex Associations and others. He was a member of the choir, and no Sunday to him was complete unless he was able to be present.

Whatever he undertook, whether on the cricket field, the belfry or other church work, it was his humble Christian personality which overshadowed all things and gained the esteem and respect of the village community and beyond. He could say with St. Paul, 'I know,' and in the power and strength of the Risen Saviour he went forward to accomplish the task which lay before him. We thank God for such a one, trusting many ringers will follow his example.

He also kept a record of the Society's history from its commencement in 1895 to 1939, and from the year 1901 to 1939 (excepting the years 1917, 1918, 1919, war years) the number of 720's rung during each year. This book has been presented to the Vicar and churchwardens.

One beautiful spring memorial to our departed friend is to be seen in the village churchyard, which has been covered for many years with hundreds of daffodils which he planted. The spot is famous. Until now this has been kept a secret, and many have wondered how the beautiful carpet of flowers came into being. G.W.C.

Between 1901 and 1939 no fewer than 2,539 720's were rung by the Little Munden Society, and the years 1936 and 1937 20 different methods were rung.

Mr. Lawrence's peals are: Maximus K.T.B. 1; Cinques, Stedman 6; Royal K.T.B. 1; Caters, Stedman 2, Grandsire 5; Major K.T.B. 12, Oxford 1, Cambridge 3, Superlative 2, Double Norwich 3, Little Bob 1, Plain Bob 11; Triples, Stedman 11, Grandsire 20, Bob 1; various Minor peals 118; total 198.

Australian Peal Withdrawn

Dear Sir,—In your issue of November 21st, 1947, there appears a record of a peal of Doubles in three methods at the Church of St. Jude, Randwick, Sydney, being 1,200 Antelope and 1,920 each of Grandsire and Plain Bob. I regret to inform you that the peal was false.

This was pointed out to us in an air-letter received in Sydney two days ago from Mr. A. R. Pink.

The Antelope was called in ten callings, four of which (the Quick callings) are false, as there are three repeats in each course.

We are naturally very disappointed, as this was the first peal by five of the band.

We wish to apologise for having caused a false peal to be recorded and request that it, together with a quarter-peal of Antelope appearing in the same issue, be deleted from the records.

When the method was sent out to us from England it was stated that it was based on Grandsire, but only six callings were sent. A quarter of an hour before the peal commenced the lead ends for the four quick callings were worked out, and as there was no repeat in the lead ends, it was assumed that these callings had been overlooked, but we have now discovered to our dismay and loss that they were left out with very good reasons.—Yours faithfully,

R. S. ROWE, Conductor.

St. Jude's Society of Bellringers,
Randwick, Sydney.

KENT COUNTY ASSOCIATION

LEWISHAM DISTRICT.

Visiting St. John's, Penge, after an interval of 39 years, the Lewisham District had a most successful meeting attended by 50 members.

Conspicuous at the business meeting, presided over by Mr. J. E. Bailey, was the election of 22 practising members, including the young band of The Annunciation, Chislehurst, trained by Dr. F. C. W. Knight, a welcome re-affiliation. The election of three non-resident members previous to peal attempts was ratified.

Chislehurst was chosen for the next meeting on May 1st, and the combined meeting with the Surrey Association was suggested for Sept. 4th at St. Mary's, Lewisham.

A most cordial welcome was extended to the district from the church authorities. The Vicar (the Rev. Ian E. Douglas Jones) conducted the service and gave the address, Mr. E. Barnett (Crayford) read the lesson and Mr. N. Hext (Penge) acted as organist.

ELY DIOCESAN ASSOCIATION

CAMBRIDGE ANNUAL MEETING.

The Rev. P. Chamier, branch president, and Mrs. Chamier entertained the 41 members and friends attending the annual meeting at Cambridge on Jan. 17th to tea following the service at St. Andrew the Great.

At the business meeting all the officers were re-elected, and after discussion it was decided to start a fund to assist with bell repairs, etc. A collection to start the fund realised £1 11s. 8d.

Ringing during the afternoon and evening was at the Churches of St. Andrew the Great, St. Benet and St. Mary the Great.

BISHOP AND AMPLIFIED RECORDS

Dedicating an amplified system for broadcasting recordings of bells at St. Mary Stoke, Ipswich, the Bishop of St. Edmundsbury and Ipswich said: 'It would have been far better for the Church to have had a peal of bells, but even if their cost could be met, it would be out of the question at the moment to get them cast. Moreover, unless the tower were rebuilt or reinforced, it would not be possible to ring them.

'The choice is between the recorded bells or nothing. If you had a peal of bells and your only difficulty was to find ringers for them, I should certainly not have been willing to dedicate what is at best an inferior substitute.'

Hillingdon Ringers' Supper

A company of 33 attended the first supper of St. John's Guild, Hillingdon, on January 30th, under the chairmanship of the Vicar (the Rev. A. M. Bashford).

Proposing 'The St. John's Guild,' the Vicar referred to the long service of Mr. Hann, the 80-year-old veteran with 60 years to his credit, and Mrs. Goodfellow, who has been a ringer at the church since 1920. It was a great pleasure to him to see that the Guild had a membership of 20.

Appropriately, Mr. F. W. Goodfellow (the captain), in reply, referred to Hillingdon's contribution to ringing and that three peals of Grandsire Triples were rung there in 1733, only 15 years after the first peal ever rung. He spoke of previous members who had died in recent years — Harry Chandler, of Warnham fame, 'Rich' Warnett and 'Nob' Davey, both of whom died on military service, Gilbert Mitchell, and dear old Jack Pratt, their late beloved captain, who died last April.

Mr. F. G. Baldwin, who gave 'The Middlesex County Association and London Diocesan Guild,' paid tribute to the work of Mr. J. E. Lewis Cockey, as secretary of the South and West District.

Mr. Cockey, responding, strongly supported Mr. Goodfellow's contention that more should be done in towers to control and improve the sound of the bells. With less volume of sound in the vicinity of the tower, bells would be more appreciated by the public. He explained what had been done at St. Stephen's, Ealing.

Mr. W. H. Coles toasted the visitors, among whom was Frank Blondell, one of the famous Guildford handbell band of some 40 or so years ago, and who took part in the longest peal ever rung on handbells. Mr. W. N. Genna, of Pinner, suitably responded.

HERTFORDSHIRE JUNIOR RINGERS

Enterprise and reputation for novelty attracted a company of 140 to the annual social of the Western District Junior Section of the Hertfordshire County Association at Berkhamsted on January 31st. Donald Cartwright and Pamela Martin arranged a most enjoyable programme of games and dancing.

Highlight of the proceedings was the sketch in which Mr. Walter Ayre was tried by a jury of young ringers and declared to be fit to become the first honorary member of the Association.

The programme also included songs by Miss Jean Illing, Mr. W. Ayre and Mr. N. Clarke, a solo on a saw by Mr. J. Kingham (Tring), and handbell touches of Bob Minor and Grandsire Triples by Miss Rowena Minall, Miss Brenda Fells, Mr. W. H. J. Hooton and Mr. W. Ayre. Berkhamsted handbell ringers—Miss Ruth Wells, Miss Joyce Burton, Mr. H. Porrett and Mr. S. Chappel—played a selection of tunes.

Mr. W. Ayre (county secretary), after commending enthusiasm, administered a little homily, in which he urged no standing still, as more young people were still needed to learn the art.

PETERBOROUGH DIOCESAN GUILD

NORTHAMPTON BRANCH.

The annual meeting was held at the Church of the Holy Sepulchre, Northampton, on Jan. 31st. The Guild service was conducted by the Vicar (the Rev. G. P. H. Rowson), and tea was provided in the Church Rooms.

The branch chairman (Mr. G. Valentine) presided at the business meeting, supported by the assistant secretary (Mr. Eric Nobles), the attendance being 50. Apologies for absence were received from Messrs. R. S. Cowley (hon. secretary), S. Millward and J. Linnett.

Officers elected were: President, Mr. G. Valentine; secretary, Mr. Eric Nobles; Branch Ringing Master, Mr. W. R. Hammons; Guild Committee, Messrs. G. Care, P. Jones; Branch Committee, Messrs. J. Dunkley, B. O. Soden; auditor, Mr. W. Gamage.

Mr Gamage thanked the Vicar for conducting service and use of bells, the organist, and Mr. Ashby for making necessary arrangements.

DUBLIN

MOST Guilds and Associations hold their annual meetings in the early part of the year, Easter Monday being a particularly favoured date. This year a question is being addressed to each Guild by the Central Council to ascertain before the meeting of the governing body the measure of support that would be forthcoming for the holding of the Central Council meeting for 1949 at Dublin.

The matter was ventilated by the new Master of the Cumberlands, who wisely pointed out that the factor of cost could not be ignored. There are a number of wealthy Associations who meet the whole of the expenses of delegates and would probably be in a position to continue this policy despite the added expenses. On the other hand, some of the struggling organisations expect their representatives to pay their own expenses, and the added cost of a trip to Dublin might mean the absence of familiar faces. Against this, the counter-attraction of ringing in Ireland will make a strong appeal.

While it is true that no man is indispensable, a small attendance would mitigate against a representative opinion being obtained. The value of a Central Council meeting is not limited to the conference hall. The informal discussions between members are of great importance, frequently leading to the formation of policy and mutual understanding. Thus when a decision has to be made regarding the cordial invitation of Mr. Dukes, the enthusiastic secretary of the Irish Association, members should be able to vote with the knowledge that it would or would not be possible for their Guild or Association to be represented.

So far no indication has been received as to the opinion of Guilds on this somewhat expensive meeting. The Cumberlands hoped to test their members' opinion by a resolution for the payment of £10 towards the expenses of their Central Council members. The debate was abruptly concluded by a reminder from one of the senior members that only members who had paid 2s. in steepleage during the year were entitled to vote on a financial matter. Thus probably a little coterie of a dozen or fifteen can dictate the policy of a national society. Membership, however, in the eyes of the Central Council is not based on these few but on the multitude who find pleasure and satisfaction in belonging to an honourable society, who incidentally have no voice in deciding yea or nay to their delegates' suggested trip to Dublin. It will, indeed, be a rocky road to Dublin.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

Mr. and Mrs. E. D. Poole have had to relinquish the office of secretary and assistant secretary of the Shropshire Association, a post they have held since 1942, through at present living in Buckinghamshire. Mr. E. A. Reeves, 22, Rosedale, Harlescott, Shrewsbury, is the new hon. secretary.

Mr. C. John Dickinson came of age on Jan. 31st and called a peal of Bob Major at Bicester for the Oxford University Society. Happy birthday!

Mr. Maurice F. R. Hibbert has a birthday once every four years. We trust his quota of birthday peals is none the lighter in consequence.

Mr. Ernest Morris has found a new tower in the Leicester Diocese in which to ring a peal. Eaton is his 127th tower in the diocese and his peal was his 1,027th.

There has been some 'moonraking' in Wiltshire lately. The peal of Bob Minor credited to North Bradley in our issue of Feb. 13th should have been 'Seend, Wiltshire.'

In 1888 one of J. J. Parker's compositions of Grandsire Triples was rung for the first time at Burford, Oxfordshire. The 60th anniversary was commemorated by a visit to the tower and a repetition of the peal called by Alan R. Pink.

Special interest lies behind the peal of Double Norwich at Hethersett, Norfolk, on Jan. 30th. Out of 600 odd peals in the method recorded for the Norwich Diocesan Association this is believed to be the first to be rung with 4ths place bobs.

St Mary's, Standon (Herts), send us a bright account of their annual supper, at which it was announced that their bell repair fund stood at £200 towards an original estimate of £203. Most of this sum was raised by the ringers themselves, substantial contributions being received as the result of handbell ringing at Christmas time.

Ald. A. E. Sharman, of Dunstable, and a member of the Bedfordshire County Council, called a peal of Cambridge at Dunstable Priory as a golden wedding compliment to Mr. H. D. Harris, of Woburn. Both are Cumberland Youths and the peal in consequence was under the auspices of that Society. Have we any other Aldermen living among our peal conductors?

Mr. Clifford Skidmore completed his 'circle' of Lye, Worcestershire, tower by a peal of Double Norwich Court Bob Major on Jan. 26th.

Another 'circler' this week is Mr. Vernon Bottomley at his tower, Queensbury, Yorks, with a peal of Little Bob Major on Jan. 28th.

The third to circle this week is Mr. Robert Guy at Sefton, Lancs, with a peal of Oxford and Kent Treble Bob Major. He was ringing for his silver wedding and the completion of 25 years as a service ringer at Sefton.

Finally Mr. Burley P. Morris has 'circled' Warkton, Northants, with a peal of Doubles, five methods.

Mr. A. H. Pulling is appearing in the 'Down Your Way' B.B.C. Light Programme of March 14th. He has been interviewed by Mr. Richard Dimbleby at Guildford Grammar School and there is no question that ringing will be mentioned.

Bournemouth calling again. Their second festival will be held on April 24th. In addition to the dinner, two charabanc tours are being planned—one into Dorset and the other to Hampshire. Towers on the list include Wimborne Minster and Christchurch Priory. The Assistant Bishop of Winchester has promised to preside at the dinner. Organiser is Mr. Arthur V. Davis, of 116, Alma Road, Bournemouth, who can also give a few addresses where accommodation may possibly be found.

ROYAL CUMBERLAND YOUTHS

Change of Mastership

BIG INFLUX OF NEW MEMBERS.

The Society of Royal Cumberland Youths decided at their annual meeting on February 14th on a change in the Mastership. Mr. G. H. Cross, who has held office for the past 13 years, was defeated in a ballot by Mr. Walter Ayre. The reason advanced for the change was that for the Cumberlands to progress as a national body it was advisable that the Master should not necessarily be associated with the Church of St. Martin-in-the-Fields. The meeting was largely attended. The new Vicar (the Rev. L. M. Charles-Edwards) conducted the service and there was a company of over 100 at tea.

Mr. G. H. Cross presided at the business meeting, supported by the secretary (Mr. G. W. Steere). The statement of accounts showed that the balance from 1946 of £48 8s. 4d. had been increased to £69 7s. 3d.

The secretary's report stated that the past year, marking as it did the 200th anniversary of the formation of the Society, had been one of continued prosperity. Seventy-one new members had joined, the majority of whom were young ringers on the threshold of their ringing careers. Such an influx augured well for the Society's future prospects.

The 12 peals rung during the year covered a wide range from Bob Minor to Stedman Cinques and were rung in 12 different churches, under nine conductors. Two handbell peals had also been recorded—both at St. Martin's-in-the-Fields — but again with different conductors.

The report recorded the meetings held and the bicentenary dinner, and concluded with a vote of thanks to Mr. W. Ayre for presenting a chairman's gavel to the Society.

The Chairman congratulated the Society and gave additional details of the peals, in which 68 members participated. The secretary announced that four peals were already 'in the bag' for this year.

Mr Steere was thanked for his services on the proposition of Mr. W. Ayre.

Apologies for absence were received from Messrs. Robert Heazel (Essex Association), George Dawson and J. Bailey. The meeting heard with regret that Mr. Bailey had been ordered to bed for three months, and the secretary was asked to write to him expressing the Society's wishes for a speedy recovery.

The meeting ratified the following elections: Miss Margaret Fidell (Monkseaton), Miss Brenda Philpott, C. E. Buesden (Canterbury), A. H. Jackson (Ryde, Isle of Wight), D. J. Gay (Dorset), R. G. French (Sturry, Kent), M. J. Butler (Southampton), H. G. Andrews (Hampton Wick), J. H. C. Davy (Bramley, Surrey), F. E. Walker (Dartford), E. Conquest (Luton), Miss Beryl J. Denton (Keston, Middlesex), Dr. William L. Leese (Herne Hill).

The following new members were elected at the meeting: J. L. Morris, J. L. Harris, C. R. Packer, R. H. Baker, J. H. Arlet and Miss Eleanor Arlet (Orpington), R. S. Goodchild, R. Stereck and R. W. Dent (Chislehurst), C. P. Suddards (Sidcup), P. Holness (Hemel Hempstead), D. Cartwright (Tring), G. W. Seaman (Watford), Mrs. E. Roseoe, Miss Eleanor E. Wolledge and Mr. R. E. Godfrey (Bexley), P. J. Eves, A. G. Bartholomew, W. J. Barrett (Galleywood), Mrs. Elsie Savory, C. Poulter (Ruislip), A. R. Ward (Ryde, Isle of Wight), T. J. Clark (Bushey), Miss E. D. Farrell, Miss R. J. Pett (Isleworth). Honorary member: Rev. L. M. Charles-Edwards.

The Chairman congratulated Mr. Frank Knight on securing so many new members.

ELECTION OF OFFICERS.

There were five nominations for the post of Master, and a ballot resulted as follows: W. Ayre 32, G. H. Cross 27, F. E. Hawthorne 10, T. Sevan 5, C. J. Matthews 4.

Assuming the chair amid applause, Mr. Ayre said it was an honour he had never anticipated. He owed his knowledge of 12 bell ringing to a former Master, Mr. Matthews' father, and he was also indebted to him for his first peal on handbells and first peal on 12 bells.

He asked each member to regard himself as a cell for the Society from which other members would sprout so that their Society would bloom.

Other officers elected were: Senior steward, Mr. T. Bevan; junior steward, Mr. F. E. Hawthorne; trustees, Mr. C. J. Matthews and Mr. W. R. Winterton; hon. secretary and treasurer, Mr. G. W. Steere; hon. auditors, Messrs. G. H. Cross and A. H. Pulling; Central Council representatives, Messrs. G. W. Steere, G. H. Cross, Frank C. W. Knight and Tom Francis.

Mr. Rowe expressed the hope that at future annual meetings an eight-bell tower would be also available.

The Chairman said that owing to the kindness of the senior steward, a party did visit Hampstead and Gospel Oak.

A member: Why was it not announced in 'The Ringing World'?

Mr. Steere replied that he received notice too late and notified Mr. Ayre and certain other members.

The Chairman promised that at future annual meetings opportunity would be provided for eight-bell ringing.

CENTRAL COUNCIL AND IRELAND.

Mr. A. H. Pulling said that the next Central Council meeting the holding of the 1949 meeting in Ireland would be discussed. It would be an expensive journey and he would like to move that £10 be voted towards the travelling expenses of Council representatives.

The Chairman said he understood that a circular letter was being sent out by the Central Council asking the different Guilds whether they would support a meeting in Dublin. The matter would come before the next Council meeting, and it was felt that the Guilds or Associations should consult the members first.

Mr. C. Matthews said according to the rules no member was entitled to take part in any discussion on finance unless he had paid 2s. in steepleage fees the previous year. He proposed that the matter be shelved until the next meeting as under that rule he doubted whether there were two dozen members entitled to vote.

It was decided to adjourn the matter to the next annual meeting.

A vote of thanks to the retiring Master was proposed by Mr. Geoffrey Carter, seconded by Mr. Frank Knight and endorsed by the chairman.

Thanking the members, Mr. Cross said he started to ring when he was 14. It was then either a case of taking a hiding from his elder brother or ringing. He preferred ringing.

Mr. T. Bevan raised the question of holding a dinner, and Mr. Cross supported such a venture. After discussion it was decided to hold a dinner, and the meeting fixed as a tentative date Saturday, October 9th.

Quarterly meetings suggested were Chislehurst, April 10th; Dunstable, June 19th; and Guildford, September 18th.

The thanks of the Society to the new Vicar were voiced by Mr. Frank Hawthorne. Mr. Cross stated that a peal was rung for his induction and afterwards the Vicar and his wife came into the belfry to congratulate the ringers. They both expressed a wish to climb the steeple and see the bells.

Last year a new ring was installed at Carlton-juxta-Snaith, Yorks. The first of the band of learners recruited for the tower to ring a peal is Miss Margaret R. Graves (aged 16). The peal was in memory of the two sons of Dr. and Mrs. J. B. McGranahan (the donors of three of the new six bells).

A Note on Fourths Place Bobs in Double Norwich

BY NOLAN GOLDEN.

In spite of its interest and possibilities in the realm of composition, few ringers seem to have paid 'court' to the queen of plain major methods with fourths place bobs. One advantage of the use of this bob is that peals of 5,000 changes, composed entirely of five-lead courses with 4, 5 and 6 only in 6th's place at course-ends may be produced — an impossibility with the 6ths place bob.

Bobs and singles made at the first treble lead are as under:—

Bob	Single
64187253	64187253
61482735	61482735
16847253	16847253
18642735	16842735
81467253	61487253
84162735	64182735

It will be seen that the calls produce a bob and single lead of Hereward Bob.

The calling positions, keeping the tenors together, are: (a) In and Fifths (bobs at leads 1 and 2); (b) In and Fifth's and Before (1, 2 and 4); (c) Middle (3); (d) Middle and Before (3 and 4); (e) Home (5); and (f) Before (6).

The following specimen compositions give some idea of the possibilities of the 4ths place bob. Each contains 60 course-ends with all the combinations of 4-5-6 in 5-6. The four-part contains, in addition, the 6th the extent in 5-6, while the six and three-parts have 4-5-6 only in 6ths.

NORWICH DIOCESAN ASSOCIATION

The annual meeting of the North Norfolk Branch was held at Marsham, with members attending from Caston, Aylsham, Carbrooke, Diss, Hethersett, Norwich, New Buckenham, Mulbarton, Buxton, Palgrave, Garboldisham, Northrepps, Wymondham, Saxlingham, Attleborough. At the meeting in the Reading Room all the officers and committee were re-elected and thanked for their services.

The next meeting will be held at Wymondham on April 10th.

Middlesex Association

NORTH AND EAST DISTRICT.

The annual meeting of the North and East District was held at Finchley on January 31st, when over 70 ringers and friends made a representative gathering.

The retiring officers were re-elected, viz., Ringing Master, Mr. A. Cutler; secretary, Mr. T. J. Lock; assistant secretary, Mr. E. H. Kilby; auditor, Mr. W. N. Genna; whilst Messrs. E. M. Atkins, R. H. Begrie and H. G. Hart were elected as representatives on the Central Committee.

Mr. Lock, in submitting the district report, indicated that including three Association general meetings, 13 towers had been visited for meetings, and at those where business was transacted an average of 39 ringers attended. Three members had been lost to the district through death. One honorary life, nine non-resident life and 35 ringing members had been elected to membership. A sharp increase in the number of quarter-peals, mostly for Sunday service ringing, had been notified, the total reaching 88, in which at least 33 shared the conducting and in 14 towers. Harrow Weald is one of only six towers in the country to celebrate the double event of Princess Elizabeth's 21st birthday and wedding day by ringing peals on the two actual days.

The statement of accounts showed that the balance of income over expenditure to be carried to the Central Fund amounted to £22 8s. 11d.

The Rev. M. Ridley (Finchley) and the Rev. R. W. Matthews (Willesden) were elected hon. life members, Mr. J. Alsop (Ebbw Vale) a non-resident life member, and the Misses V. Look (unattached) and A. Barker (Kilburn) and Messrs. F. Bullock and R. Wilkinson (Stanmore) and W. Nicholls (Enfield, St. Andrew's) ringing members.

OXFORD UNIVERSITY SOCIETY

The Society's annual lunch was held on January 31st at Oxford, the guests of honour being Mr. and Mrs. H. J. Poole. Ringing in the morning at St. Cross' and St. Thomas' culminated in ringing at St. Mary-the-Virgin, which was followed by a service in St. Mary's, conducted by the Vicar, Dr. R. S. Lee.

About 65 attended lunch at the Forum Restaurant, which was followed by speeches and a business meeting. In particular, thanks were accorded on the Society's behalf to the City ringers, several of whom were present, including Mr. W. F. Judge and Mr. V. Bennett, for very valuable assistance during the year. A special welcome was extended to Canon G. F. Coleridge, a past Master. Later it was agreed that the Society's Ringing Week should be held after Easter—at Bedford, if possible; and Miss Spice promised to investigate the possibilities. Mr. Moreton's proposal (in absence) of a general secretary was also approved.

During the afternoon there was ringing at St. Ebbe's and Magdalen, followed by tea at Magdalen under the auspices of the vice-president, Dr. Sutton. Unfortunately, half way through the ringing at Magdalen (after a course of Cambridge Royal) the rope of the second broke — so ringing continued on the back eight. An otherwise very successful day culminated with ringing at All Saints'.

BATH AND WELLS ASSOCIATION

Regarded as a record was the attendance of 50 at the annual meeting of the Ilchester Deanery Branch at Martock on February 7th. Preb. G. W. Saunders conducted the service.

At the business meeting officers re-elected were Preb. G. W. Saunders (chairman), Mr. F. Farrant (secretary) and Mr. W. H. Poole (ringing master). Welcomed to the meeting were Mr. S. Woodburn, Bath branch secretary, and Mr. T. Locke, secretary of the Crewkerne Branch.

Dr. S. L. Brimblecombe, of Stoke-under-Ham, was added to the list of hon. members, and five new members were elected.

LETTERS

KENT MEMBERSHIP

Dear Sir,—Mr. Macey is right off the subject in his letter on membership quaification. My letter criticised Rule 5 of the K.C.A. and this Association is still governed in a democratic way by the voice of its members. If the bells are open for ringing in a church or cathedral (whatever denomination) or a public building, ringers will be there to ring them.—Yours, etc.,

WILLIAM A. J. KNIGHT.

Gillingham.

GREATEST NUMBER OF BELLS

Dear Sir,—It would seem that Lincoln Cathedral holds the record for possessing the greatest number of bells among the English cathedrals. In the central tower there is Great Tom (5 tons 8 cwt.) and four heavy quarter bells; the north-west tower holds two old bells used for daily services, and in the south-west tower is the modern ring of twelve, a total of 19, which will be increased to 20 when the Rupert Richardson memorial bell is installed.—Yours truly,

HAROLD WALKER.

Clifton, York.

HETHERSETT IMPERIAL C.B. MAJOR

Dear Sir, — The method in 'The Ringing World,' dated February 6th, 1948, 'Hethersett Imperial Court Bob Major,' is misnamed. A method cannot be 'Imperial' and 'Court.' It is either one or the other. A method is 'Imperial' when it has one or more pairs of adjoining places. 'Court' implies the absence of adjoining places. 'Court Bob' literally means 'short dodge.' In ringing it is applied when one or more dodges in a sequence of four rows is or are omitted due to an internal place or places other than adjoining places.—Yours faithfully,

W. TAYLOR.

Penwortham, near Preston.

CATERING

Dear Sir,—I report the following facts of the Watford (Herts) District meeting in the hope that there might be some easing of the difficulties of district secretaries by securing more co-operation of ringing members.

As I advertised asking for names for tea I was led to expect 50 to tea and I gave the caterers instructions accordingly. In the tower before tea many ringers were present who had not advised me and quite 10 ringers were absent who had done so. I had to announce that the catering was for 50 and those who advised me should have priority.

As a result of this not more than 40 sat down to tea and a loss was incurred. I now feel it is useless to ask people to advise me about tea and I must in future take a chance and err on the small side.

I feel sure all district secretaries would say that catering is now their chief difficulty and they need all the help they can get.—Yours faithfully,

S. H. HOARE.

Hon. Sec., Watford District.

OXFORD DIOCESAN GUILD

NEWBURY BRANCH.

According to Mr. Hedges, a veteran ringer of Brightwalton, the meeting at Speen was the first to be held there for 70 years! Ringing ranged from Grandsire to London Surprise and Shaw bells were also visited. The Vicar (the Rev. J. J. Williams) conducted the service.

A discussion arose at the business meeting over the granting of certificates of membership to beginners. No qualifications were at present required, but the meeting thought that new members should be able to ring 120 changes on the treble before being granted a certificate. The branch representatives were asked to bring the matter forward at the General Committee meeting.

It is hoped to arrange a combined meeting with the Basingstoke Branch of the Winchester and Portsmouth Guild early in May at Aldermaston.

Doncaster & District Society

With regret the Society received at the 27th annual meeting at Doncaster on January 31st the resignation of Mr. H. Woodhouse, who had held the office of treasurer since the formation of the Society and was now 86. Canon Ll. Davies, who presided, spoke in appreciation of Mr. Woodhouse's services.

The following officers were elected: Ringing Master, Mr. E. C. Stacey; secretary and treasurer, Mr. W. E. Critchley; peal secretary, Mr. F. Newsome; committee, Messrs. E. Short (chairman), E. Dalingwater, E. Padgett, B. Birkett; auditors, Messrs. E. Cooper, H. Wagstaff.

It was announced that Doncaster had again won the Walker Cup, for the best attendance at Sunday service ringing in 1947, and the presentation was made by Mrs. Spibey, of Preston, to the Ringing Master, Mr. E. C. Stacey. Mr. Stacey, in response to applause, said that although he was pleased that Doncaster had won the cup, he would be much more pleased to see more towers taking part in the competition.

The pleasing number of 14 new members was elected. A vote of thanks was moved by Mr. E. Cooper to the Vicar for all his help, to Mr. Owen Le P. Franklin, organist, and to the ladies and the local company for the magnificent tea which had been provided. The fine ring of eight, tenor 30½ cwt., was rung in various methods until nine o'clock.

GUILD OF DEVONSHIRE RINGERS

The Mid-Devon Branch's annual meeting at Kingsteignton on February 7th attracted a good attendance, the general secretary of the Guild being voted to the chair. Five new members were elected.

The secretary's report mentioned weekly handbell practices under the leadership of the branch secretary, and tower bell practices at Highweek directed by Mr. J. E. Lilley.

The Rev. W. R. D. Mills resigned the office of chairman and Mr. J. E. Lilley was unanimously elected his successor, as well as Branch Ringing Master. Mr. A. L. Bennett was re-elected secretary and treasurer; whilst Mr. B. H. Cooper was re-elected auditor. Miss L. E. Cload, of Teignmouth, and Messrs. C. F. Austin and W. C. Wakley, of Paignton, were re-elected to serve on the General Committee. The Guild representatives on the Central Council are due to be appointed this year, and the branch decided to send a recommendation to the General Committee that Messrs. A. L. Bennett (Buckfastleigh) and T. G. Myers (Plymouth) be nominated.

Hearty votes of thanks were accorded to the Vicar of Kingsteignton for the use of his bells and for conducting the service, to the local ringers for having everything in readiness, and to the branch officials for their past services.

Ringing took place at Highweek Parish Church in the evening.

LLANDAFF AND MONMOUTH ASSN.

About 70 members attended a most successful quarterly meeting at Pontypridd on Feb. 7th. After the service, conducted by the Rev. Shilton Evans, the visitors were entertained to tea by Mr. Hopkin Morgan, son of the donor of the bells.

Mr. J. W. Jones, reporting on restorations at the business meeting, said it was doubtful if Abergavenny bells would be ready for Easter as was anticipated, additional work having to be done to the tower.

The Rev. Ivor Richards reported that Trevethin bells had been restored and re-dedicated. Mr. S. R. Barker stated that St. John's, Cardiff, tenor was going badly and needed attention. It was intended to have it seen to as soon as possible.

An endeavour is to be made to meet the request of Machen ringers for an instructor.

Mr. E. Coles reported that a new band had been formed at Bonvilston, and he hoped they would be ringing rounds for Easter. Five new members and one life member were elected.

OBITUARY

MR. T. A. BURTENSHAW.

Shoreham-by-Sea has lost a veteran ringer by the death of Mr. T. A. Burtenshaw, aged 84. 'Tommy,' as he was kuown by Sussex ringers, had been ringing for over 50 years.

The funeral was on February 14th, and immediately after the service 1,260 Grandsire Triples was rung, half-muffled, in memory of a great friend, by B. Challon 1, R. Challon 2, L. Sears 3, E. Marsh 4, M. Thomas 5, F. Howe (cond.) 6, H. Stalham 7, T. Drinkwater 8.

MR. ALFRED J. REDMAN.

The death occurred at his home, 23, Hyde Park Place, London, on February 13th, of Mr. Alfred J. Redman, aged 72. A widow, two sons and a daughter are bereaved.

Mr. Redman was for some years a keen ringer and his home tower was St. Peter's, Staines, where he was a Sunday service ringer. His first peal was at Wraysbury on March 12th, 1904. After leaving Staines he did but little ringing on account of business ties, and from 1919 to 1936 he lived at Byfleet, Surrey, where the funeral took place on February 16th.

He was a breeder of thoroughbred horses, also chairman of Messrs. Wells and Winch, brewers, of Biggleswade, Messrs. Sanders and Co., jewellers, of Brixton, and Messrs. Pemberthys, of Oxford.

MR. FREDK. F. TRUSLER.

A regular service ringer at St Leonard's Church, Aldrington, Sussex, for close on 50 years, Mr. Frederick F. Trusler died on Feb. 5th after a brief illness. He was in his 80th year.

Mr. Trusler became a member of the band in 1899 and previously was a member of the Midhurst branch. A very reliable ringer and of a jovial disposition, he will be much missed by all who knew him.

Of his peals at St. Leonard's two are of special interest. That on February 2nd, 1901, for the passing of Queen Victoria was the first on the bells by a local band, and that on January 14th, 1928, of London Surprise Minor, the first to be rung by a local band in Sussex.

The funeral service at St. Leonard's Church on February 10th was conducted by the Rector (the Rev. H. T. Mogridge). The towers of St. Peter's, Brighton, and the Good Shepherd, Brighton, were represented by Messrs. R. G. Cross, W. Hart and J. Reynolds. There was half-muffled ringing at the close of the service, and 720 Grandsire Doubles were rung in the evening by W. K. Sharpe 1, S. Brown 2, E. G. Godley 3, A. J. Cherryman 4, G. A. Steele (cond.) 5, H. Brown 6.

LINCOLN DIOCESAN GUILD

ELLOE DEANERIES BRANCH.

Most towers were represented at the annual meeting held at Spalding on February 7th.

Canon P. C. A. Carnegy, Vicar of Spalding, presided over the business meeting, and was supported by Mr. J. Freeman, Master of the Guild.

The officers were re-elected en bloc: President, Canon P. C. A. Carnegy; secretary and treasurer, Mr. J. E. Allen; Ringing Master, Mr. J. G. Ames; Guild representative, Mr. A. J. Farr; auditors, Miss B. Duffy and Mr. A. J. Farr.

The Rev. L. C. Perfect, of Deeping St. Nicholas, was elected vice-president. The Rev. Leeke, of Surfleet, was elected an honorary member, and Messrs. G. Johnson, B. Spicer and B. Pell were made ringing members.

A collection for the Belfry Repair Fund amounted to 27s.

The quarterly meetings for 1948 were arranged as follows: Donington, April 3rd; Tydd St. Mary, June 12th; Lutton, August 7th; Bicker, November 13th.

THE PINNACLE

THERE is a delightful story concerning one of the notorieties of the Exercise, who shared a room with another ringer during a tour. In the middle of the night he woke his companion and remarked, 'There's only one heavy bellringer better than I, and he's dead.' Probably it was the subconscious mind working; nevertheless one can picture the bliss on that veteran's face as he turned over and went to sleep with his own knowledge of having reached the pinnacle of individual achievement.

It is possible that there might be a number of readers who will regard this little story as applicable to them. Claimants to be the best tenor-bell ringer living are many. Every vigorous well-built young ringer has aspirations in that direction, not excluding some of the ladies. A sense of individual satisfaction accompanies a fine performance. But the people who get the fun are the non-tenor ringers. 'We shall soon see the **great** man roll up his sleeves and mount the tenor box and look round for a challenger to his right to the tenor,' whispered the wag of the party as this personality arrived at the church. And it was so, but the memory remained and caused many a smile throughout the meeting, and it was the **great** man with his sleeves turned up who demonstrated how to ring that tenor in an impeccable style.

Some weeks back the writer met one of those budding tenor men. From his conversation the bud had blossomed forth into a beautiful flower in the full glory of perfection. Noted tenor after tenor was discussed with the air of a connoisseur as he expounded upon respective idiosyncrasies. His listeners felt themselves to be such puny mortals until the bait was set. 'How would you like to ring —— to a peal?' The question from a famous conductor brought the glint of quest to his reply, as he replied in an eager affirmative. 'Of course, we'll have young —— to strap with you.' Interest dropped. This was a one-man job in his eyes, and the glory would vanish immediately.

Conceit, some of us ordinary folk might regard such ambitions, proclaimed with the challenge of fearlessness. These men, however, serve the Exercise well. The determination to be masters in their particular spheres sets a high standard and creates a spirit of emulation which is the basis of athletic prowess. They reveal to the student that there is no decadence about this age. In the knowledge of their performance, however, they have their reward. Such a prize is denied to most of us, but we ordinary folk have our great moments in the serenity and peace that accompany the highest use of the bells, perfect service ringing.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

BELFRY GOSSIP

The peal at Cannington, Somerset, was the first on the bells since 1903 and was a birthday compliment to Mr. T. George Burge.

Mr. Stedman H. Symonds, of Lavenham, Suffolk, is desirous of a peal of 'Stedman' on Stedman's own bells with a complete band of 'Stedmans.'

Two new bells are being put in at Patrington, Yorks, to complete the octave. The Archbishop of York will dedicate the bells on April 28th.

The first peal of Cambridge Maximus to be rung at St. Albans Cathedral was on the birthday of Mr. H. E. C. Goodenough, who has been a member of the Cathedral band for 40 years and conductor for 25 years.

Ely Diocesan Association has another peal of Stedman Triples to record, called at Littleport by that Guildford conductor, Mr. A. H. Pulling. The previous peal was as far back as 1912!

St. Clement's Bob Triples, rung at Worcester, is recommended for those who would like a change from Grandsire and Stedman Triples. 'It is easily learned and interesting to ring,' writes Conductor George E. Large.

If any young ringers undergo their military training at the Palace Barracks, near Holywood, Northern Ireland, they will find a welcome awaits them at the Parish Church. Practice, Tuesdays, 7.30 p.m.; service ringing, Sundays, 10.45 and 6.15.

After 20 years away from ringing, Mr. Hermon J. Oliver is forming a new band for the recently dedicated bells of Downham, Essex. This week we record his first peal at the age of 62.

St. Jude's, Randwick, Sydney, have replaced their withdrawn peal. It was rung as a farewell to the Rector (the Rev. O. V. Abram), who is leaving for England. Miss Ruth Donnelly is the first lady in N.S.W. to ring a peal. Well done, Australia!

While the peal of Minor was in progress at Hindon, Wiltshire, the Rev. W. H. Cook telephoned the Rev. C. C. Cox, Ringing Master of the Salisbury Guild, at Lyme Regis about 50 miles away, and he was able to hear the bells quite well.

Ten officers of the Lancashire Association started for a peal of Kent Treble Bob Royal at Manchester Cathedral on February 21st to celebrate Mr. and Mrs. W. H. Shuker's golden wedding. After about one hour's ringing, someone switched off the belfry light from below and this ended the attempt. Another is being made at Bispham.

Radley College Campanological Society visited Messrs. Mears and Stainbank's foundry on February 4th and were conducted round by Mr. A. A. Hughes, who 'answered all our questions.' Writes the Society's correspondent: A very substantial gap in our knowledge has been filled and everyone greatly benefited from the experience.

The Central Council Biographies Committee has reproductions of photographs of some original members of the Council, including the late Henry White, J. W. Whiting, J. Pettitt, J. W. Waghorn, K. Hart, E. Horrex, J. S. Goldsmith (1902), F. Hopgood, W. Gifford, Rev. F. E. Robinson, M. A. Wood, I. Shade. Copies of these can be supplied at 1s. each, postage extra if less than six are ordered, from A. C. Hazelden, 109, Grange Road, Guildford.

LETTERS

CENTRAL COUNCIL AND DUBLIN

Dear Sir,—In your leader on the proposed visit of the Central Council to Dublin, you mention only the problem of expense, but this is not the only or most important objection, since the associations will, no doubt, wholly or partly meet their representatives' expenses.

The question of time is a most important factor. It must be borne in mind that the actual day of the meeting (Whit Tuesday) is for most people a working day, and I should imagine that this must have accounted for many a suitable person declining nomination for his particular association.

I do not know much about travel to and from Dublin, but it is obvious that the day following the meeting would be devoted to returning home, which means that members attending would have to obtain at least two days' leave of absence from their jobs, and it is questionable whether this could be justified at a time when all are being asked to work harder than ever before.

This problem arises to a lesser extent, of course, when meetings are held in England, and it would be interesting to learn what is the percentage of absenteeism at C.C. meetings in recent years and to what extent this factor is the cause.

Nowadays, Saturday is becoming more and more a non-working day in all branches of industry and commerce, and the Central Council and its affiliated societies might study the question whether it would be advantageous to hold the meeting on a Saturday instead of Whit Tuesday.

This, of course, would not help where Dublin is concerned, but most parts of England could be reached by travelling overnight or at most having Friday afternoon off from work and the delegates would be left with Sunday in which to travel home.

Such a change might have the effect of inducing many able men to accept nomination as representatives, thereby giving the Council greater virility, lack of which, in my opinion, is the present Council's chief weakness.—Yours sincerely, H. G. CASHMORE.

Watford, Herts.

GROVE'S VARIATION

Dear Sir,—It was with much interest that I read the leader, 'Grandsire Triples,' of the issue of February 13th. I should like, however, to point out to Mr. Corrigan and to those ringers who are learning or calling Grove's Variation for the first time that the call affecting the 5th and 6th bells is not altogether omitted in the quarter-peal. The quarter-peal from Grove's Variation is obtained by substituting, in one part only, a bob for the first single, in the part. The calling then runs: call 7th, in and out at 3 and home with a bob; and so forth. If the substitution takes place in the first part, the part end is 423567; if in the second part, 342657, or if in the third part rounds. Of course, the bob may be substituted for the single in all three parts, part ends being 423567, 342567 and 234567.

Another useful and musical 'service' touch from the peal may be obtained by calling the first part omitting altogether the last bob, which would normally call seventh 'home.' The bells run round at handstroke at 419 changes, one change short of the part.—Yours sincerely, ROGER O. FRY.

Bath

TRURO DIOCESAN GUILD

The pretty ring of six was kept busy to a variety of methods, with Grandsire and Stedman being foremost, when the Truro Branch held a practice meeting at Perran-ar-Worthal on February 14th. A tribute was paid to the late diocesan treasurer, Mr. Hugh Dunstan. Tea was served to a company of 38 ringers.

Shropshire Association

RECORD NUMBER OF PEALS IN 1947.

Over 50 members attended the annual meeting at Shrewsbury on February 7th, presided over by Mr. A. Pritchard.

The secretary reported that five meetings had been held in addition to the annual. Unfortunately, it was not possible to hold the other two as planned. At Hodnet, the augmentation to eight was not then completed, and the sudden death of the newly-appointed Rector necessitated cancelling the Worthen meeting. Seventeen ringing and five life members were elected during the year.

The Master reported a record year for peal ringing with 22 and that many members had scored either their first peal or first in method. A carved oak peal board (the work of Mr. F. Beddoes) recorded the peal of Grandsire Caters at St. Chad's on the Royal Wedding Day.

Another happy occasion was the wedding on August 27th of the secretary (Mr. E. D. Poole) and Miss P. Fletcher. A band rang for the wedding at Malins Lee and a peal at Condover. A presentation of a cheque as a wedding present from the Association was made, with thanks to them for carrying on duties as secretary and assistant secretary since 1942. It was with regret that they had to relinquish those offices through living in Buckinghamshire

Officers elected were: Ringing Master, Mr. A. Pritchard; Central Council representative, Mr. G. L. Hewitt; auditor, Mr. W. H. Hughes; treasurer, Mr. W. A. Farmer; hon. secretary, Mr. E. A. Reeves, 22, Rosedale, Harlescott, Shrewsbury.

Three ringing members were elected and the pre-peal election of Messrs. A. D. Collins and A. F. Hirst, of Wolverhampton, ratified.

An invitation from the Crewe Branch, Chester Guild, to meet at Market Drayton on May 29th was accepted. The next meeting will be at Hodnet on March 13th.

A committee was formed to arrange for the printing of the report to cover the years 1940-47, and it was unanimously agreed to increase ringing members' subscriptions from 1s. to 2s. from January 1st next.

Mr. W. Chester, a valued member of Market Drayton band, is returning to Northampton, his home town, after nearly 20 years in Shropshire. As a mark of the Association's appreciation and regard he was elected a free life member of the Association.

GOLDEN WEDDING

MR. AND MRS. J. WHEADON.

The peal rung at Dartford on February 12th celebrated the golden wedding of Mr. and Mrs. John Wheadon.

'Jack,' as he is known to all ringers in N.W. Kent, came to Dartford in 1896 from Brenchley, where he learned to ring on the six. His reception by the old Dartford peal band was anything but cordial, and it was not until some six years later, in 1902, when he made a chance meeting with the late Harry Simmons, that he started ringing in earnest. Since then he has rung about 340 peals in all the standard methods up to Cambridge and Superlative.

Jack has never aspired to great things, but has been content to be a good ringer and striker on eight bells, and to fit in with any ringing plans, whether it be with a band of youngsters as with experienced experts.

But Jack Wheadon's greatest interest has always been in Dartford tower and bells. In conjunction with the late Harry Simmons he has been instrumental in effecting vast improvements in the ringing chamber, and in the days of the old bells they did quite a lot of bellhanging to keep them in pealable condition.

His ambition now at 76 is to ring 100 peals on Dartford bells, with his nearest rival Bert Audsley. They have rung 92 and 90 respectively.

Beverley and District Society

DRIFFIELD BELLS.

North Ferriby on the banks of the Humber, which commands a vista of the Lincolnshire coast, was the venue for the Society's meeting on February 14th at the invitation of the Rev. Harris Lloyd. The six bells here include one of pre-Reformation days, and a very good touch of Kent Treble Bob preceded the service. The Vicar conducted the service, and Mr. A. H. Fox, vice-president, Eastern District, was organist.

Mr. G. F. Williams (president) was in the chair at the business meeting. Members received with enthusiasm the news that Driffield bells, after over 50 years of neglect, were now in use. Eight members with engineers to observe the action of vibration and examine for dangerous masonry visited the tower. The report was that everything was safe and in a better condition than was expected. Much of this is due to P.-Sgt. T. H. Huddleston, of Driffield, who had been busy cleaning the tower, removing rust and dirt from gudgeons, oiling aid greasing the bells, repairing worm-eaten stays and replacing ropes.

The Society placed on record that after approximately 50 years' silence, the bells of All Saints' Church, Driffield, were rung by members of the Society on February 9th, being 240 Grandsire Doubles: F. Wilkinson (Nunburnholme) 1, A. E. Sellers (Beverley Minster) 2, C. H. Hunter (Hedon) 3, T. Southwick (Beverley, St. Mary's) 4, G. Dowling (Beverley Minster) (conductor) 5, F. Osgerby (Beverley Minster) 6. T. W. Kneeshaw (Market Weighton) and T. H. Huddleston took part in further ringing. The meeting decided to send its best thanks to Mr. T. H. Huddleston for his zeal and untiring efforts. The committee was asked to consider the possibility of promoting a dinner.

LINCOLN DIOCESAN GUILD

GRIMSBY DISTRICT.

Representatives from twelve towers attended the annual meeting of the Grimsby District on February 7th. The bells were kept going during afternoon and evening. Canon E. L. Marsden, Vicar and president of the district, conducted the service.

At the business meeting officers elected were Canon E. L. Marsden, president; Mr. H. I. Mingay, secretary: Mr. J. Bray, Ringing Master; Mr. G. W. Moody, Deputy Ringing Master; Mr. F. Lord, Northern Branch representative; Mr. W. Bramwell and Mr. M. Walker, trustees of Bell Fund.

The treasurer reported grants of 10 guineas and 5 guineas to Barton St. Mary's and Winterton respectively.

DERBYSHIRE ASSOCIATION

PEAK DISTRICT'S FIRST ANNUAL.

The first annual meeting of the district at St. Helen's, Darley Dale, on February 14th, was attended by 25 ringers, including the general secretary from Derby.

In his review of 1947 the chairman thanked the Darley band for arranging practices and helping depleted bands at important festivals.

Officers re-elected were: Mr. G. H. Paulson, chairman; Mr. H. E. Taylor, secretary. Miss Jean Dunn (Darley Dale) and Mr. N. Brassington (Youlgrave) were elected to the General Committee. The handbell ringing included selections by Messrs. Taylor and Paulson, who had recently been on the air at the B.B.C.

THE LADIES' GUILD

Ringing was carried on happily—if not always with quite the polish demanded by the experts—at the meeting at Ewhurst on Feb. 14th. A pleasant surprise awaited the good attendance of members and friends to find that the tea had been provided by an anonymous donor, who was later elected an honorary member. Several new members were elected and the ladies afterwards hurried back to the church to extricate the gentlemen from their difficulties!

Guildford Diocesan Guild

GUILDFORD DISTRICT.

Considerable attention has been given by the Guildford District to the care of bells according to the report of the hon. secretary (Mr. A. C. Hazelden) at the annual meeting on Feb. 21st at Guildford.

Restoration had been completed at Shere, work on Wonersh bells was in hand, two new trebles were to be provided at Worplesdon and the new ring of six was in the church at Send, but would not be dedicated until after Easter.

Mr. G. L. Grover (Guild secretary) urged the meeting to support an increased subscription. There was no hope, he said, of publishing a report on pre-war scale without a higher subscription. He reported a deficit of £10 on the sanctus bell provided at the new Cathedral in memory of Mr. J. S. Goldsmith.

On the proposition of Mr. Leslie Hunter, the sum of £5 was voted towards meeting the deficit from the district's balance of £32 6s. 5d.

Officers elected were: District secretary, Mr. A. C. Hazelden; Ringing Master, Mr. C. E. Smith; auditor, Mr. Leslie Hunter; General Committee, Mr. R. Whittington. New members elected were Messrs. J. Etherington (Merrow), Colin Arnett, A. Brooks, W. J. Medgett (S Nicolas'), Lady Poysey, Miss M. Davies (Dunsfold), and Miss R. Brading (Godalming).

District meetings were planned for Grayshott, Albury, Bramley and Chiddingfold.

Mr. A. E. Harman, Master of the Guild, presided, the attendance being smaller than usual owing to the heavy snow. The service was held at S. Nicolas' Church, the Rev. R. F. W. Durrant officiating.

FARNHAM DISTRICT.

Activities were twice as many as in any previous year, reported Mr. G. S. Joyce (hon. secretary), at the annual meeting of the Farnham District. The average attendance at the 12 district meetings and combined practices was 60. An increase of 36 members, making a total of 133 (114 ringing, 17 honorary, 2 compounding), was reported.

The Ringing Master (Mr. C. W. Denyer) stated that the condition of bells and frames in some towers was a little worrying. Frensham's needed expert advice, but Bagshot and Aldershot bells had been overhauled. He had reason to believe that something would be done at Hawley—a black spot—with the appointment of the Rev. Kenneth Davies as Vicar.

Officers elected were: Ringing Master, Mr. C. W. Denyer; hon. secretary and treasurer, Mr G. S. Joyce; hon. auditor, Mr. P. Eldridge; Executive, honorary, Mr. W. A. Dollimore, ringing, Messrs. W. Viggers and P. Eldridge.

NEW SOUTH WALES ASSOCIATION

THE ANNUAL RING.

The second birthday of the Association on February 7th started at 7 a.m. by six enthusiasts ringing a peal of Doubles at St. Jude's, Randwick, as a farewell to the Rev. O. V. Abram. This was the first true peal on the bells and the first peal for five of the party.

The festival was held at All Saints', Parramatta (six bells, tenor 10 cwt.). The annual competition shield was won by St. Jude's, Randwick, with Stedman Doubles unconducted, a fine achievement considering that their tower was opened a little over 12 months ago. The team were: R. B. Alcass 1, I. A. Napper 2, N. G. Robinson 3, R. S. Rowe (capt.) 4, J. Duncan 5, E. W. Wright 6.

During the afternoon the Australian Broadcasting Corporation recorded the ringing of the winning team and the ladies' team, both being broadcast the following Saturday night over the National network. The ladies challenged the men to a competition ring, and although they put up a good show, failed to beat the stronger sex.

The dinner was attended by 85 ringers and friends and was followed by a dance.

QUARTER PEALS

BALDOCK, HERTS.—On Feb. 8th, quarter-peal Plain Bob Major: B. Scott (first quarter) 1, S. Bonnett 2, H. Werritt 3, W. Pooley 4, R. Webb 5, E. Buck 6, W. Collins 7, C. H. Kinch (first as cond.) 8. First quarter Major 3 and 5.

THE CALL OF IRELAND

OUR editorial, 'Dublin,' has prompted Mr. Fred E. Dukes, hon. secretary of the Irish Association, to give readers in general, and members of the Central Council in particular, some idea of conditions in Ireland. The following is a list of rings of bells and their distance from Dublin:—

Twelve-bell towers—			
St. Patrick's Cathedral, Dublin.	Excellent.	45 & 30 cwt. tenors.	
Ten-bell towers—			
Christ Church Cathedral, Dublin.	Excellent.	43 cwt.	
St. John the Baptist's, Dublin.	Fair.	28 cwt.	
Mt. St. Alphonsus, Limerick.	Excellent.	23 cwt.	120 miles.
Enniskillen Cathedral.	Excellent.	20 cwt.	110 miles.
Londonderry Cathedral.	Excellent.	30 cwt.	180 miles.
Eight-bell towers—			
St. George's Church, Dublin.	Excellent.	21 cwt.	
Christ Church, Bray.	Good.	30 cwt.	12 miles.
St. Peter's, Drogheda.	Fair.	20 cwt.	30 miles.
Arklow, St. Saviour's.	Excellent.	22 cwt.	50 miles.
Kilkenny Cathedral.	Excellent.	20 cwt.	75 miles.
Waterford Cathedral.	Excellent.	20 cwt.	95 miles.
St. Mary's, Limerick.	Excellent.	24 cwt.	120 miles.
Christ Church, Lurgan.	Excellent.	21 cwt.	90 miles.
Belfast, St. Thomas'.	Excellent.	20 cwt.	110 miles.
Holywood, SS. Philip and James'.	Excellent.	12½cwt.	115 miles.
Bangor, St. Coomgall's.	Fair.	20 cwt.	130 miles.
Carrickfergus, St. Nicholas'.	Excellent.	14 cwt.	120 miles.
Ballymena, St. Patrick's.	Good.	21 cwt.	140 miles.
Coleraine, St. Patrick's.	Excellent.	20 cwt.	150 miles.
Hillsborough, at present rehanging.			100 miles.
Six-bell towers—			
Rostrevor, Co. Down.	Good.	12½cwt.	75 miles.
Bandon, Co. Cork.	Fair.	12 cwt.	190 miles.

There are, therefore (writes Mr. Dukes), only a few towers in Dublin vicinity, but opportunity may be taken to arrange two or three tours for peal ringing, one for towers in south and say one or two 'up north.'

Apart from ringing, the delegates may like to know something about Dublin and its surroundings. In Dublin they would, no doubt, be interested in all or some of the following: St. Patrick's and Christ Church Cathedrals, Trinity College, Dublin Castle and Guinness' Brewery! South of Dublin there is Killiney (Ireland's Bay of Naples), Dublin Hills, Bray and Co. Wicklow, known as the Garden of Ireland, with Glendalough and the Vale of Ovoca. At Arklow, J. W. Washbrook rang his peals, with two tower-bells 'in hand.' North of Dublin there is the Hill of Howth with its excellent view of Dublin Bay and Ireland's Eye. The Boyne Valley, where King William of Orange defeated King James, extends inland from Drogheda.

Dublin is well served with hotels, which are compelled to maintain a certain standard and must be registered with the Irish Tourist Board. Perhaps those who propose recommending the visit would consider making a week or two's holiday of the Council meeting visit.

A sub-committee has been formed by the Irish Association to consider preliminary details, which they hope to have completed by the time of our annual meeting, and it is hoped to have some further information within a short time of Easter Monday, the date of our meeting. 'We hope, however, that the matter will be given every reasonable consideration and that the Council will honour Ireland with its first meeting out of Great Britain in 1949,' concludes Mr. Dukes.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

A new handbell record of Major with a peal of 13,664 Double Norwich Court Bob Major has been claimed by Mr. Ernest C. S. Turner. This was rung at the Royal Masonic Junior School, Bushey, on Feb. 29th, by E. A. Barnett, C. W. Woolley, H. G. Cashmore and E. C. S. Turner (conductor). The feat was accomplished in 6 hours and 4 minutes. Congratulations to all concerned.

Twenty-five years have elapsed since the last peal at Chobham, Surrey. This peal was the first to include members of the local band.

At Evesham, Worcestershire, big things are being planned, including the recasting of the bells.

Mr. Ellis J. Hills has broken a 30 years' absence from the peal columns by a peal at Rochester, Kent. This was the first peal on St. Margaret's bells for 20 years.

Sixteen-year-old Miss Rhoda Brown is the first of her sex to call a peal in the Eastern Branch of the Lincoln Diocesan Guild. We doubt whether any other lady of 16 has called the Rev. E. Bankes James' peal of Cambridge Surprise.

The title of the Surprise peal rung at Frodsham on January 27th should be Cheshire Surprise and not Chester Surprise as published in 'The Ringing World' of February 27th. The error is regretted.

Owing to the bells going badly, a peal attempt failed at Bispham, Lincs, on Feb. 28th, in honour of the golden wedding of Mr. and Mrs. Shuker.

There was, however, 1,260 Grandsire Triples rung at Christ Church, Manchester, in honour of the happy occasion on February 22nd by R. Benson 1, A. Cairns 2, Miss M. Walshaw 3, A. Frost 4, R. Aviey 5, B. Walshaw 6, H. Reynolds (cond.) 7, J. Clegg 8.

Our overseas letter bag includes a letter from Mr. George W. Williams, of Charleston, South Carolina, telling of 889 changes rung at St. Michael's, Charleston, on New Year's morning. 'Our midnight "peal" was well received by those who could hear it above the accumulated noise of ships' whistles and automobile horns, and we are aiming next year for a true quarter-peal.'

An interesting point about the peal of Double Norwich at Portsmouth Cathedral on February 14th was that it contained 92 singles and no bobs.

Eighty-three-year-old Frank V. Sinkins rang in his birthday peal at Stoke Poges on Feb. 14th.

Other octogenarians receiving birthday peal honours were Mrs. Williams, mother of Laurence J. Williams, at Churchkirk, Lancs, and Mr. Senior, of Parbold, Lancs, who was the donor of the tenor bell at Douglas-in-Parbold.

By ringing the treble and tenor respectively to a peal of Bob Major at St. Michael's, Basingstoke, Messrs. C. W. Munday and E. P. Austin have each 'circled' the tower.

The half-muffled peal at Marlow was to the memory of Mr. W. H. Badger, who was associated with the church for 78 years, either as chorister, bellringer or organist. It was rung on the first anniversary of his funeral.

From Mr. A. R. Wilson, of Holy Trinity, Hobart, a letter tells of their Royal Wedding ringing. 'We had a great evening ringing a "peal" of Doubles 10 times (120 x 10 = 1,200). We finished with a Royal salute of 21 bells at 9.40 p.m. The stonemasons have nearly completed the tower, the exterior has been repaired and all of us are very pleased with the work done.' A photograph of the team is included.

HENRY JOHNSON DIAMOND JUBILEE DINNER

THE CONTINUED PROSPERITY OF ST. MARTIN'S GUILD ..... RECORD NUMBER OF PEALS ..... A FAREWELL TO A BELOVED RECTOR ..... UNUSUAL SECRETARIAL RECORD

NO signs of austerity marked the Diamond Jubilee gathering at the Henry Johnson commemoration dinner at the Imperial Hotel, Birmingham, last Saturday. The Food Office regarded the occasion as one meriting the relaxation of the 100 maximum rule, and a company truly representative of the Exercise, numbering 160, was present.

In the chair was Canon T. Guy Rogers for the last time, his retirement after 23 years as Rector of St. Martin's taking place this year. The past 12 months were memorable in the history of the Guild, having been a vintage year with a record number of peals and some of exceptional merit. Those present included two ringers — G. T. Mitcheson and Charles Williams—who knew Henry Johnson in the flesh. To them was accorded a special round of applause.

Mention was made during the proceedings that Mr. W. H. Reeves had entered his 20th year as secretary of St. Martin's. His predecessor, Cclr. A. Paddon Smith, held office before him for 20 years, and before him for 20 years was Mr. W. H. Godden as secretary. Will tradition prevail over experience? That is the question.

THE GUESTS.

Supporting Canon Rogers and Mrs. Rogers on the top table were the Lord Mayor of Birmingham and Lady Mayoress, Rev. Canon S. Blofeld (Vicar of Edgbaston) and Mrs. Blofeld, Councillor A. Paddon Smith (Master), Rev. F. F. G. Warman (Vicar of Aston) and Mrs. Warman, Mr. T. H. Reeves (hon. secretary) and Mrs. Reeves, Mr. G. E. Fearn (Ringing Master) and Mrs. Fearn, Messrs. F. E. Haynes, A. Walker, W. A. Clark, Mr. and Mrs. R. F. Deal (London), Mr. and Mrs. J. F. Smallwood (London), Mr. T. W. White.

The visitors included Messrs. K. S. B. Croft, J. Freeman, Mr. and Mrs. C. McGuinness, Miss M. Lyon, Mr. and Mrs. J. A. Freeman, Mr. J. L. Millhouse and Miss Millhouse, Miss J. Southerst, Mrs. Richardson, Mrs. Wayman (Lincoln Diocesan Guild), Messrs. W. Allman, J. E. Bibby, J. Worth (Chester Diocesan Guild), Mr. and Mrs. F. E. Collins, Mr. and Mrs. D. Cooper, Messrs. C. Dean, R. Davies (Croydon), Messrs. P. Baker, C. Rouse, W. Williams (Cheltenham), W. T. Elson, T. H. Francis (London), J. Bass, C. W. Cooper (Stourbridge), Miss M. Fidell (Durham and Newcastle Association), Mr. and Mrs. A. D. Barker, Miss M. R. Cross (Oxford Diocesan Guild), Messrs. F. Skidmore, F. J. Sampson, J. M. Stallard, C. Baker (Bristol), D. C. Mears, L. Fidler (Hitchin), S. H. Green (Kent), Mr. and Mrs. C. H. Kippin (Southampton), Messrs. C. Sharples (Blackpool), R. Godwin (Leicester), Mr. and Mrs. W. H. Viggers (Aldershot), Mr. D. T. Matkin, Mrs. Marshallsay, Capt. E. F. Samson (Bournemouth).

A visitor from the Lincoln Guild, Mr. K. S. B. Croft, proposed the toast of 'Church and State and the City of Birmingham' in a particularly able fashion. Touching on affairs of State, he implored those present not to accept the doctrine of any creed without exercising commonsense and freedom of thought. He commiserated with Birmingham, the city of a thousand trades, at having lost two through nationalisation.

ECONOMIC RECOVERY PEALS.

The Lord Mayor, in his reply, expressed regret at the resignation of the Rector. On the theme of the toast he gave this dictum: The State is the servant of the people and the people not the servant of the State. If they kept that principle in the forefront, then prosperity would come their way.

As to ringing, it was his sincere wish that it would not be long before they would be ringing for a thanksgiving in their churches to celebrate economic recovery, bringing with it a knowledge that they were living in a more peaceful world and that they would then be free to carry forward the great social reforms they wanted to see, particularly housing.

The Chairman reminded the company that he must have responded nearly 20 times to the toast. He recalled the past work of the Church as a social agency and said that a great deal of what was done by the Church in the past was now done by the State. It was very important that the voluntary spirit in the Church should be preserved and that the Church should remind people that there was a higher authority than the State.

In conclusion, Canon Rogers said: I have been here 23 years and I would like to testify to the happy relationship that has existed between me and the ringers. Whenever it has been necessary for me to issue a special appeal there has always been a contribution from the bellringers; their relationship has been economic as well as courteous. It is now time that a more nimble rector should climb the steps of St. Martin's tower.

FOR HENRY JOHNSON'S INSPECTION.

The toast of the evening, 'The Memory of the late Henry Johnson,' was entrusted to Mr. J. F. Smallwood. Many of them, he said, had heard that toast proposed by men who had known and rung with Henry Johnson. Year by year they had seen the number of those who knew him sadly diminishing, and to-day there were very few who could tell them much about him.

Henry Johnson was a great character and there was no doubt that he left his mark on the ringing of Birmingham as was evident by the strength of St. Martin's Guild. How interesting it would be if Henry Johnson could step back out of the past and survey ringing as they knew it to-day. One of the things that would have given him a great deal of pleasure as it had done to them was the enormous amount of restoration work in Birmingham, primarily as the result of the activities of St. Martin's Guild. There was no doubt that the influence of this Guild had stretched far and wide, and more restoration work had been undertaken in this city than in any other city of its size. There were still one or two backward districts in the city.

Another thing Henry Johnson would have noted with pleasure was the work of the Central Council, which had been in the forefront in spreading the knowledge of ringing and helping youngsters. He would also be pleased to know that ringers themselves owned their own newspaper. They could control its policy and that would have pleased him very much. He would have rejoiced that two of Birmingham's most promising 'youngsters,' Albert Walker and George Swan, had recently rung their 500th peal together.

THE MASTER'S REVIEW.

'Continued prosperity to St. Martin's Guild' was honoured on the call of the Master, Cclr. A. Paddon Smith, who said if there were only two backward districts in Birmingham they would be very glad. He took it that Mr. Smallwood referred to bells, and one of those was Handsworth Old Church, whose bells should be recast. Five of them were very old.

From the toast they would observe that St. Martin's Guild had achieved prosperity. It had been handed down to them. St. Martin's was the headquarters of the Guild in the earliest days and still was. The records of their Guild went back to 1755 and they were one of the oldest guilds or societies of any kind in the City of Birmingham. That was not the beginning because in 1647 he believed a man named Billingsly left a croft of land in Broad Street to provide bell ropes for St. Martin's Guild in perpetuity. That land had appreciated in value, and it might be said that St. Martin's had never lost a peal through a rope breaking.

A record number of peals had been rung by this Guild and some of them were exceedingly important in the Exercise. One was Stedman Cinques at Exeter Cathedral on April 12th. It was a Birmingham band that rang the first peal of Cinques at Exeter, and he was a member of that band. Another was the peal of Cinques at St. Martin's to commemorate Mr. Albert Walker's 50th year of membership. It was 5,050 changes—most appropriate.

The Master had a special word of congratulation to the Lincoln Guild on their record peal of London Surprise Major at Heydour and welcomed four members of that band present—Messrs. J. L. Millhouse, C. McGuinness, J. A. Freeman and John Freeman. By their performance the St. Martin's Guild lost their record of London Surprise Major rung at King's Norton on May 11th, 1903, of 14,103 changes. That peal occupied 8 hours and 40 minutes and the Heydour peal 8 hours and 25 minutes. An interesting feature was that both those peals were heard by Mr. Harry Withers as umpire.

MR. JAMES GEORGE'S RECORD.

The Master had also a special word for the handbell peal at Bournemouth, in which Mr. James George rang the tenors on his 94th birthday. It was a most extraordinary performance and certainly had never been done before. When Mr. George lived in Birmingham he said he would live to 120. In those days he was the proud possessor of a large handsome black beard, but when he started talking about 120 his beard started to grow grey. He promptly shaved it off. Then his moustache turned grey and he disposed of that. They all wished him the best of luck. (During the proceedings the good wishes of Mr. George were conveyed to the company.)

Altogether 71 peals were rung for the Guild in the past 12 months, the largest number in that period. To paraphrase the saying of a famous statesman: Never have so many peals in the history of this Guild been rung by so few in so short a time.

Mr. T. H. Reeves, the secretary, prefaced his reply by reading a telegram from the Master of the College Youths conveying best wishes for a successful evening, also one from John Taylor and Co. On a personal note Mr. Reeves mentioned that he had the honour of ringing in both Exeter peals. Cclr. Paddon Smith was 20 years secretary of the Guild, and his predecessor also held the office for 20 years. This was his 20th year and they would be looking in due course for another secretary of St. Martin's Guild. He hoped his successor would receive the same generous support as had been accorded to him.

Mr. W. C. Dowding proposed what he characterised as the happiest toast of the evening, 'Kindred Ringing Societies and "The Ringing World."' There was a very strong fellowship among bellringers which was not found among other organisations. If that same feeling of fellowship prevailed among individuals and nations they would be living in a happier world to-day.

Mrs. Deal replied for kindred societies and said for the first time St. Martin's Guild had invited a woman to reply to that toast, which she characterised as a gallant gesture. It was always a pleasure to come there; 23 years ago she was delighted to be there when she rang in a non-conducted peal of Stedman Triples. The kindred societies owed a great deal to societies like St. Martin's Guild. They were the rocks on which they built their ringing

(Continued from Page 107)

world, and to-day the other world full of unhappiness made them turn to their little world for consolation.

Mr. T. W. White also replied.

Mr. F. E. Haynes gave the health of the chairman, in which he assured Canon Rogers that his interest during the past 23 years in their welfare was very keenly appreciated. He hoped that it would be possible before he left them to see that St. Martin's ringing chamber, which was in a dilapidated condition owing to enemy action, was restored to its former state so that they could welcome their visitors.

The Chairman promised to look into the matter and added: 'If you really want to show your affection for me will you please find me a house without delay.'

A strong entertainment programme was provided. Songs and duets were sung by Miss B. Marshall and Mr. W. C. Dowding with Mrs. J. C. Edwards as accompanist, there were tunes on handbells by Messrs. E. Mansell, R. Mansell, W. Pocock and A. Print, but the crowning delight was the perfectly struck Stedman Cinques by Messrs. F. E. Haynes, F. W. Perrens, A. Walker, J. F. Smallwood, F. F. Pervin and G. Fearn.

THE LADIES' GUILD

NORTH-WESTERN DISTRICT.

The almost incessant rain did not impair the intention of some 20 odd members and a good number of friends to attend the annual meeting at Holy Trinity, Bolton, on February 7th. Ringing ranged from rounds to Cambridge Major.

At the business meeting eight new members were elected, viz.: Elsie Jackson and Nellie Sanders (Rostherne), Jean Brookes (Bowdon), Lily Dunn, Betty Lee and Elsie Leyland (Holy Trinity, Bolton), Alma Dance (Marple) and Muriel Reay (Westhoughton). The secretary's report and statement of accounts were approved.

Officials elected were: Vice-president, Mrs. G. Wilde; ringing chairman, Mrs. E. M. P. Lawton; secretary and treasurer, Miss M. Elkins; assistant secretary, Miss S. P. Wain; District Committee, Misses A. Potter and D. Wilde; Central Committee, Misses M. E. Ridyard and F. M. Laflin.

Votes of thanks were accorded to the Vicar for conducting the service and the local ringers, especially Mr. P. Crook, sen.

SUSSEX COUNTY ASSOCIATION

Chichester was again the venue for the annual meeting of the Western Division, and Canon Lowther-Clarke conducted the Association's form of service in the Cathedral. The Bishop of Chichester welcomed the ringers to the Cathedral and thanked them for their service ringing throughout the diocese Sunday by Sunday. The Bishop afterwards joined the company at tea.

Before the business meeting, which was presided over by the Master (Mr. F. I. Hairs) and held in the Chapter House, members observed in silence the passing of Mr. E. H. Lindup. The report and balance sheet showed an improvement on last year. With one alteration on committee, officers were re-elected. Rogate became an affiliated tower and seven other ringers were elected association members. Subject to permission, meetings are to be held at Walberton, Billingshurst, Fittleworth and Pulborough.

Forty-three ringers, representing 15 towers, took part in the ringing, which ranged to London and Bristol Surprise.

The wedding of Miss Daphne Lambert, eldest daughter of Mr. and Mrs. R. T. Lambert, to Mr. Raymond Jenkins at Horsmonden, Kent, was the occasion for the ringing of 720 Cambridge Surprise Minor by F. J. Lambert, sen. 1, F. Bromley 2, A. W. Durham (cond.) 3, R. E. Lambert 4, A. V. Bromley 5, E. Bromley 6.

LETTERS TO THE EDITOR

HETHERSETT IMPERIAL C.B. MAJOR

Sir,—Mr. Taylor very rightly draws attention to the significance of the terms 'imperial' and 'court' used in the classification of methods, and most ringers will agree with his definition of the former.

The characteristic of a court method, it seems to me, is the place-making about the treble, and what goes on in 1-2 does not decide the issue.

Hethersett contains court places in addition to imperial—the method is merely the front work of Sawston Imperial spliced with Dublin Court—and to classify it as completely as possible both words were included in the 'title.'

—Yours faithfully, NOLAN GOLDEN.

PRESTON CAPES BELLS

Dear Sir,—The claim of Mr. Perry to have rung the first quarter-peal on these bells (see page 88) is not quite correct. On Saturday, Dec. 9th, 1945, I attempted a peal there, but owing to the heavy going of the bells we had to finish it after 2,520 changes in 1 hour and 55 minutes. At the time I was only 17, and calling and turning in the tenor on this very bad going ring was more than I could manage. Others partaking in the attempt were P. Amos, E. Lines, C. Hinton, — Hinton.—Yours, etc.,

WILLIAM R. HAMMOND.

SCHOOL RINGING GUILDS

Dear Sir,—I note with very great interest that Mr. T. S. Williams, of Shrewsbury, and Mr. F. C. W. Knight, of Orpington, are doing some very good work in forming ringers' guilds in their schools.

I am a schoolmaster and teach in a school containing approximately 250 boys, whose ages range from 11 to 16 years of age.

Three and a half years ago I approached the headmaster and asked his permission to form a school ringing guild. Needless to say, he was very interested and helpful. A large classroom was put at my disposal for 45 minutes of a lunch time break, and notice was given of a talk on 'The art of change ringing' I proposed to give. The room was packed ten minutes before the commencement of the talk.

I feel sure that the boys and girls who attended found the 45 minutes of their time spent in listening well worth while. I was afterwards able to recruit some beginners, and we decided to meet for practice twice a week during the lunch break, using some handbells borrowed from our Cathedral.

In 18 months I had a band ringing double-handed Bob Major and Grandsire Caters. The boys visited their local church towers and were naturally given all help possible by the local ringers.

Two years ago four of these boys were given an audition at the B.B.C. I was in the engineer's box and witnessed the performance, which consisted of three courses of Bob Minor and a plain course of Grandsire Triples excellently struck. The average age of the boys at the time was 14½ years.

Unfortunately, and to the disappointment of the boys, the B.B.C. have not made use of the recording taken.

These boys, and others, have now left school and are active ringing members and conductors of our Association—at least two boys have since conducted their first peal.

Since the formation of our ringers' guild I have given a talk on 'The art of change ringing' at least once a year and have had bumper attendances.

In support of Mr. Knight and Mr. Williams, I am sure that any campanologist schoolmasters who embark upon a similar venture would find it very interesting and useful to the Exercise.—Yours truly,

ALFRED L. SIMMONDS,
Senior Engineering Master.
Mid-Essex County Technical School,
Chelmsford.

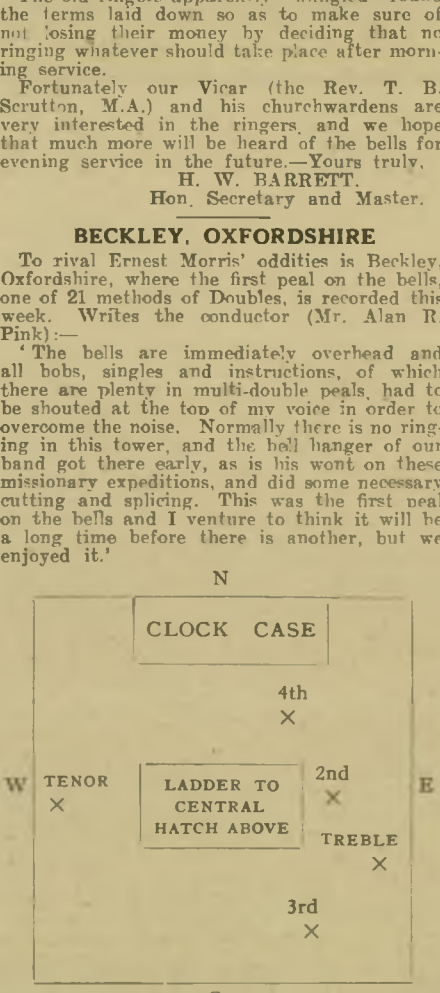
BREAKING A TRADITION

Dear Sir,—The following quarter-peal at Kingston-on-Thames of Double Norwich Court Bob Major on February 8th by the following is of special interest: Miss B. Harris (first in method) 1, H. W. Barrett 2, Miss Peggy Kitchen 3, G. C. Goodman 4, F. E. Hawthorne 5, H. J. Eldred 6, C. H. Dobbie 7, H. G. Andrews (first as conductor) 8. This was only the second occasion Kingston bells have been rung for evening service (first was at the Vicar's request on November 2nd, 1947) for over 100 years.

Mrs. Savage, of Kingston, died in 1833, and in her will made a bequest to the church, part of which was for the bellringers, in the following terms:—

> And I direct that the said last mentioned divisions shall be taken and applied by the Vicar of Kingston for the time being at his discretion in gifts to the ringers of Kingston Church while they conduct themselves in a sober, orderly and attentive manner and perform their duties both of ringing and chiming to the satisfaction of the said Vicar with an especial condition that the present laudable custom be observed of abstaining from the ringing of peals on the evenings of Lord's Day.

The old ringers apparently 'wangled' round the terms laid down so as to make sure of not losing their money by deciding that no ringing whatever should take place after morning service.



Fortunately our Vicar (the Rev. T. B. Scrutton, M.A.) and his churchwardens are very interested in the ringers, and we hope that much more will be heard of the bells for evening service in the future.—Yours truly,

H. W. BARRETT.
Hon. Secretary and Master.

BECKLEY, OXFORDSHIRE

To rival Ernest Morris' oddities is Beckley, Oxfordshire, where the first peal on the bells, one of 21 methods of Doubles, is recorded this week. Writes the conductor (Mr. Alan R. Pink):—

'The bells are immediately overhead and all bobs, singles and instructions, of which there are plenty in multi-double peals, had to be shouted at the top of my voice in order to overcome the noise. Normally there is no ringing in this tower, and the bell hanger of our band got there early, as is his wont on these missionary expeditions, and did some necessary cutting and splicing. This was the first peal on the bells and I venture to think it will be a long time before there is another, but we enjoyed it.'

Hardly a circle is it? The central ladder interferes with vision to a certain extent. It isn't often the ringer enjoys an inspection of 14th century mural paintings as he does on the north wall in this tower.

OBITUARY

MR. PERCY MERSON.

Ringers from a wide area will regret to hear of the passing of Mr. Percy Merson, of Bishop's Hull, Taunton, on February 18th, at the age of 68 years.

Mr. Merson gave his whole life to ringing; he was a very staunch Sunday service ringer at his own parish church, Bishop's Hull, and in later years conductor of St. Mary's, Taunton. A very safe ringer in all methods, he was a first-class striker.

His peal list was not a long one—about 140—but it contained many that were landmarks in the progress made in his time. For 25 years he was hon. secretary of the Taunton Branch of the Bath and Wells Association and always gave much of his time to the learner.

The funeral at Bishop's Hull was attended by a large number of ringers and other parishioners. Interment was at St. Mary's Cemetery. A half-muffled quarter-peal of Stedman Triples was rung on the bells of St. James' by the following: George S. Coles 1, Arthur W. Hayward 2, Clifford Williams 3, William H. Tarr 4, Arthur H. Reed 5, Henry Mockridge 6, William G. Gigg 7, Henry Churchill 8.

SURREY ASSOCIATION

NORTH-WESTERN DISTRICT.

A mishap to the tenor limited ringing to the front eight at the annual meeting of the North-Western District at St. Peter's, Croydon. Canon Renshaw, in his address, welcomed 60 ringers, and at the tea table afterwards thanked the ringers for upsetting his bell for Sunday ringing — a remark greeted with applause.

Sixteen new members were elected at the business meeting, presided over by Mr. F. E. Collins. The retiring officers and committee were re-elected.

Mr. Collins congratulated Mr. W. H. Hewett on having rung his 500th peal. The meeting concluded with a vote of appreciation to Mr. Simmons and his band for their welcome. Ringing in the evening was at St. John's, where some members rang Grandsire and Stedman Cinques and Cambridge Maximus for the first itme.

WINCHESTER & PORTSMOUTH GUILD

ALTON AND PETERSFIELD DISTRICT.

Under 'any other business,' the Alton and Petersfield District at the annual meeting on February 7th at Alton passed a resolution suggesting to the Guild Central Committee that 'the subscription paid annually by ringing members be raised.'

Canon E. A. Berrisford (district chairman) presided, supported by Mr. G. Williams (Guild Ringing Master), and there was an attendance of 40 members. The meeting stood in silence in memory of the Rev. J. J. Scott, late Vicar of Hawkley.

The hon. secretary (Mr. C. E. Bassett) reported a slight increase in membership, which included ringers at Bentworth for the first time in the history of that tower. Mr. W. R. Read (Blackmoor) and Mr. R. A. Budd (Petersfield) were elected members. The district officers were re-elected, and the next quarterly meeting fixed for April 17th at West Meon.

Votes of thanks included one to the Vicar for conducting the Guild's service. Ringing reached Cambridge Surprise Major.

GLOUCESTER AND BRISTOL ASSN.

TEWKESBURY BRANCH.

Most of the towers in the branch were represented at the meeting at Tewkesbury Abbey on February 14th, and visitors were present from Cheltenham, Bishop's Cleeve and Dumbleton. Capt. Rester presided over the business meeting when new members were enrolled from Twyning and Eldersfield. Ringing ranged from Doubles to Double Norwich and Grandsire Cinques.

GUILD OF DEVONSHIRE RINGERS

NORTH-WEST BRANCH.

The North-West Branch's annual meeting at Bradworthy was attended by over 40 members, the Rev. W. H. Ravenhill presiding. The report and balance sheet were presented by the secretary and accepted. He said monthly practices at Holsworthy and general practices at Bridgerule and Pyworthy showed keen interest. The branch has made considerable progress.

The Rev. W. H. Ravenhill (chairman), J. W. Sangwin (secretary), W. Shears (treasurer), F. Sangwin (Ringing Master), with F. Sangwin, the Rev. W. H. Smale and W. H. R. Smale (representatives to the General Committee) were all re-elected. Ten members of the local tower were elected as members.

Votes of thanks were given to the Vicar (the Rev. Dobson), the Rev. Ravenhill and the Rev. W. H. Smale for their parts in the service, and to the members of the local band, who gave the branch a hearty welcome.

SUFFOLK REPORTS

TO hand this week is the annual report of the Suffolk Guild for 1947. This Guild operates through 16 districts in the Diocese of St. Edmundsbury and Ipswich, with Mr. C. J. Sedgley as Ringing Master and Mr. C. W. Pipe as general secretary and Treasurer. The great desire of the secretary is to put Suffolk back into the premier position it once occupied, and the report is full of personal encouragement.

As it was, 54 peals were rung during the year, and of those of special interest which Mr. Pipe recalls was one of Bob Major at Ufford called by his son at the age of 11. Two peals were rung at Clapton, where the bells were condemned many years ago. The first peal of Royal at Mildenhall was rung soon after the ring had been augmented to 10 and was conducted by Mr. Harry Lister. Spliced Oxford and Kent Major at St. Mary-le-Tower was conducted by Mr. O. G. Barnard, and Cambridge Maximus, when Mr. W. P. Garrett rang his 100th peal of Maximus at the age of 80. This well-struck peal reflected great credit on the part of Mr. Garrett and Mr. George E. Symonds. A peal of Cambridge Major at Stradbroke made news and caused surprise, and the secretary congratulated Mr. Ernest Page on the masterly handling of the 23 cwt. tenor. Stradbroke bells are very fine, but the tall tower oscillates badly and affects the go of the bells. It was nearly 40 years since a peal was rung on them.

The presence of amplifying sets is a cause of concern. Such a set has been installed in the belfry at St. Mary Stoke, Ipswich. When asked by the Rector for his opinion of this innovation, Mr. Pipe replied, 'It is a departure from the truth.' A similar apparatus, he states, may find its way into the tower at St. John's, Felixstowe. With the nice little ring of six at St. Mary Quay, Ipswich, waiting for a new home, he wonders why the Diocesan Authorities could not arrange for the transfer to Felixstowe. His concluding comment is, 'This undesirable practice, if allowed to continue on the grounds of cheapness, will surge into our churches like a mighty flood and will, ironically enough, ring the changes on our present bells, sounding their death knell and that of our art.'

But there are some restorations to report. The new trebles at Mildenhall were a splendid piece of work by Messrs. Gillett and Johnston, and two trebles may be added at Stowmarket, which should result in another fine ring of ten. Blythburgh Church is to have six new bells, the contract being in the hands of Messrs. Mears and Stainbank. Clapton bells, condemned 20 years ago, have been touched up and are now a worthy six with a 14 cwt. tenor. The reclappering of the tenor at All Saints', Sudbury, is promised. An order has been provisionally placed with Messrs. John Taylor for Grundisburgh, and the fund for this work, the special pride of Mr. Pipe, has reached £720.

Lastly, Mr. Pipe's Priority No. 1 is the finding and teaching of beginners to become regular attendants and good strikers. Every ringer should endeavour to ring for Sunday service and regular practice when progress in method and striking should be the keynote. Worthy sentiments. It is in the regular performance of Sunday service ringing that the justification of our craft exists, and when once that is neglected then bellringing will recede. Peal ringing has one end—more perfect Sunday ringing, and that fact must be kept constantly to the fore.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

BELFRY GOSSIP

Miss Diane Tyler has been elected vice-captain at St. Martin's, Salisbury.

The peal of Spliced Minor at Maulden was Mr. Andrew C. Sinfield's 75th peal.

Three peals of Cambridge Royal, at Leicester, Ossett and Birmingham, in the same week is unusual.

Mr. H. Upex has completed 25 years as towerkeeper and verger at Cuckney, Notts. A peal honoured the occasion.

With his 200th peal for the Yorkshire Association, Mr. J. H. Brothwell 'circled' Handsworth tower.

Bishop Holden, Archdeacon of Cornwall, has ordered his Rural Deans when visiting churches in their deaneries to ask: Is there a ring of bells and how often is it rung?

Group Capt. T. V. Lister, R.A.F. (ret.), presided at the meeting of the Tewkesbury Branch, reported on page 109. He informs us that no new members were enrolled from Eldersfield.

Mr. Arthur V. Davis, organiser of the Bournemouth Festival, is anxious for an early indication of support for this venture. Last year's programme was most enjoyable.

Miss Daphne Johnson, daughter of Mr. J. D. Johnson, is engaged to Mr. T. W. D. Martin, of Sale, Cheshire. The betrothal was announced by a peal of Treble Bob at Hinton-on-the-Green on February 21st.

Veteran leader of the St. Mary's, Lewisham, ringers, Mr. Harry Warnett celebrated his 85th birthday on March 13th and is still going strong. He hopes to call 'the Original' again before long.

Friends of Mr. Harry Wingrove, foreman of Beaconsfield tower, will regret to learn that he has had to enter Amersham Hospital for an operation, which took place on March 18th; he is making good progress. A speedy recovery!

Mr. and Mrs. C. W. Lawton have 'circled' St. James', Sutton, Macclesfield, with a peal of Stedman Doubles. The peal was also of special interest to Mr. John Worth and Mr. W. Stevenson, as they have now a complete Stedman family of peals from Doubles to Cinques.

The scoring of a peal at Morriston, Glam, should serve as an incentive to the young members of St. John's tower. It is hoped, as interest is increased, to improve the bells and bell frame. Mr. L. Pelzer, who rang the fourth, has only one arm.

We record this week the first peal at Madron, which has the most westerly ringable bells in Cornwall, made six in 1898, just 50 years ago, in memory of Queen Victoria's Diamond Jubilee. The peal was a farewell to Mr. G. W. Thomas, who is leaving for Herefordshire.

It is likely that the Association for the Dioceses of Gloucester and Bristol at their annual meeting at Cirencester on Easter Monday will extend an invitation to the Central Council to meet at Cheltenham at an early date.

Two old Horsmonden (Kent) ringers had birthday honours accorded them by a peal of Kent Treble Bob Major at Brenchley on Feb. 21st. They were F. J. Lambert, sen., and J. Beach, both 81. The peal was also on the eve of the 64th wedding anniversary of Mr. F. Butcher.

LETTERS

ST. DAVID'S COLLEGE, LAMPETER

Dear Sir,—May I claim a litle of your much depleted space to place among the list of universities and colleges which have added campanology to their cultural activities the name of St. David's College, Lampeter?

When the writer arrived here in 1938 the lack of any kind of interest in bells led him to resolve to remedy this deficiency to the end that more clergy might have an interest in one of the important parts of Church activity—that of calling together the faithful to worship.

Before this object could be achieved, however, the course of events made it necessary for me to leave my studies temporarily. On my return to civilian life I was encouraged by the revival of the St. David's Diocesan Guild, which has since done much to advance the interests of ringing in these parts.

Having obtained a set of handbells, I returned in 1946 and, encouraged by the Rev. C. E. Cox, a member of the staff, commenced instruction in change ringing. As all were absolute beginners and I myself at the time not too proficient, progress was slow at first, but 120 Grandsire Doubles was attained by the end of the year.

At the commencement of the present academic year we were fortunate to count among those coming into residence Mr. W. F. Moreton, who, I am sure, needs no further introduction to readers of 'The Ringing World.' Henceforward progress was greatly accelerated until we now have a band of seven enthusiasts, three of whom figure in the accompanying report of 1,360 Bob Major, conducted by Mr. Moreton.

It may safely be said that ringing is now firmly established in the college, and is so much a feature of college activities that we hope to report a broadcast in which the ringers will participate in the near future.

Meanwhile we have not lost sight of our original object, and as soon as opportunity offers we intend to establish official connection with the Diocesan Guild and thus take our place in the wider fraternity of ringers, thereby helping to bring the clergy of the future into somewhat closer contact with that important body.—Yours faithfully,

ROY HALLETT.

St. David's College, Lampeter.

SUPERLATIVE SURPRISE MAJOR

Dear Sir,—With reference to the comment in 'The Ringing World' of February 20th that Mr. C. K. Lewis' peal of Superlative is believed to be the first rung with the maximum number of pairs of bells reversed in 5-6 at course-ends, if Mr. Worth will refer to 'The Ringing World' for December 27th, 1935, he will see that a similar claim, which was not disputed, was made for a peal rung at Christ Church, Erith, on December 18th of that year. The composition, given below, was conducted by the composer, who was—Yours faithfully,

E. A. BARNETT.

Dedications

ST. MICHAEL'S, SOUTHAMPTON.

Recently, the eight bells of St. Michael's Church, Southampton, have been augmented to ten by the addition of two treble bells. Originally there were two rings of eight in the parish since the Church of Holy Rood also had bells, but this church was destroyed in an air raid in 1940. Much of the bell metal, however, was salvaged from the ruins, and it is this metal which was used for the two new trebles which were cast as a memorial to Holy Rood Church and suitably inscribed to this effect.

The Bishop of Winchester performed the dedication, and in his address complimented all concerned who had had the happy thought, not only to 'gather up the broken fragments that remained,' but more than that, to create something of value from them.

Loudspeaker equipment in the belfry and church enabled the large congregation to hear the dedication ceremony, and ringers in the church, at the end of the dedication touch, held their breaths when they distinctly heard the conductor say 'Stand' over the loudspeakers—but all did so! This touch was rung by the Sunday service band, among which are several beginners.

Afterwards the large number of ringers present spent the remainder of the evening trying out the bells, and all were agreed that Messrs. John Taylor and Co. had made a very good 'splice.' Mr. Paul Taylor was present at the ceremony, representing the founders, and also various town officials, including the Mayoress.

In the afternoon of the dedication, the Vicar (the Rev. K. W. H. Felstead) recorded a short talk about the ceremony for the Western Region of the B.B.C. This was broadcast after the 6 p.m. news bulletin.

The weekly practice is attracting ringers from quite large distances—this being, at the moment, only the second ten-bell tower in the Winchester and Portsmouth Diocesan Guild, and already several courses of London Surprise Royal have been rung, as well as the usual nine and ten bell methods.

ST. MARY'S, BATHWICK.

The rededication of the reconditioned bells of St. Mary's, Bathwick, Bath, was before evensong on March 7th, the Rector (the Rev. W. Jennings) officiating. The service was relayed from the belfry to the congregation in the church, and was followed by a service touch of 419 changes of Grandsire Triples. Those taking part were A. E. Baverstock treble, G. J. Hawkins 2, J. Hallett 3, H. L. Parfrey 4, E. White 5, E. J. Fry 6, R. O. Fry (conductor) 7, K. Medway tenor.

More ringing took place after evensong, when several visitors tried out standard methods on the bells.

The restoration was carried out by Messrs. Mears and Stainbank. The bells have been rehung in self-aligning ball bearings and now go perfectly. They are a mixed ring, being cast by John Warner (1880 and 1897), T. Mears (1819) and J. Rudhall (1818). However, the retuning has improved the ring beyond recognition, and Bathwick possesses a mellow, sonorous octave with a tenor 19 cwt. 2 qr. 12 lb. in E flat, undoubtedly one of the finest in the West Country. R.O.F.

50lb OF 'RINGING WORLDS'

Sir, — Having now practically retired from the active list of ringers, I find myself with a formidable pile of 'Ringing World' back numbers for which I have no further use.

I shall be pleased to give them to any ringer who would find them of interest. They date from 1931 and weigh about 40 to 50 lb.

Will anyone who would like this ponderous gift please write so that arrangements can be made for the transfer?—Yours faithfully,

BERNARD SAUNDERS.

18, New Road, Ridgewood, Uckfield, Sussex.

OBITUARY

MR. TOM GUEST.

Mr. Tom Guest, one of the first members of the Victoria, B.C., Guild, who rang at the dedication of Christ Church Cathedral, Victoria, in 1936, died on February 24th, aged 82. He had been an active ringer up to the end of 1946, when his health prevented him continuing.

Mr. Guest learned to ring at Leigh, Lancashire, where he rang for several years. He came to Canada approximately 40 years ago and was an official of the Canadian National Railways. His favourite bell in Christ Church Cathedral was No. 6. On Sunday, the 29th, the bells of Christ Church Cathedral were rung half-muffled as a tribute to his memory, and towards the end of a touch of half-muffled Grandsire on Sunday evening the muffle came off his favourite bell, which gave a very appropriate finale to the ringing, with one bell tolling out by itself.

MR. J. MOULE.

The passing of Mr. John Moule brings to an end the last of the original Leytonstone six-bell band, which was formed on June 20th, 1898. Mr. Moule was in his 81st year and had rung many peals of Surprise Minor and others on eight and ten bells.

He died recently at Offley (Herts), where he had resided since 1940 after being bombed from his home during the air raids of that time. G.D.

LANCASHIRE ASSOCIATION

PRESTON BRANCH LOSE TWO STALWARTS.

The February meeting, held at Chorley Parish Church, was very well attended, and a good variety of methods was rung. A pleasing feature was the presence of several young recruits.

The members stood in silence in memory of William Sharples, of Brindle, and Edward Banister, of Leyland, who died recently.

Mr. Banister was a reliable ringer in various methods until his health began to fail.

Mr. Sharples had been a most active member of the branch during his 40 years' membership, and had done much to foster the practice in higher methods. He had carried out the duties of Ringing Master of the branch for several years. His peals numbered 162, a considerable number of which he had conducted. He was also a member of the Ancient Society of College Youths.

Perhaps the event which gave him most pleasure was the first peal in Lancashire of London Surprise Minor, rung by the local band at Brindle in 1931, in which he took part, and the success of which was largely due to his coaching.

He will be very much missed, as he was rarely absent from a meeting in his own district, and was always ready to assist any ringer present.

SUFFOLK GUILD

IPSWICH DISTRICT.

Touches were rung at St. Mary Quay, St. Clement's and St. Lawrence's at a ringing meeting at Ipswich on March 6th.

The business meeting in St. Margaret's vestry decided to hold the next meeting at Tuddenham, with the possibility of Rushmere tower being included. Mr. Charles Sedgley, Master of the Guild, congratulated St. Margaret's company on ringing a peal of Double Norwich.

New members elected were Ringing, J. W. Crapnell and D. J. Crapnell (St. Margaret's) and D. Collins (St. Clement's); honorary members, Mr. C. F. Gould and Mr. G. H. Wilding.

STANMORE, MIDDLESEX.—On Feb. 29th, 1,280 Kent Treble Bob: F. Bullock (first in method) 1, D. Cattell (first 'inside') 2, T. J. Clark 3, E. J. Leversuch 4, J. F. Rootes 5, J. R. Mayne 6, C. C. Mayne 7, W. J. Nudds (cond.) 8.

Truro Diocesan Guild

The annual business meeting was held in Truro on February 28th, when members were present from all four branches and from the Mid-Cornwall Association.

The peal secretary reported that 12 peals had been rung for the Guild during the past year.

Miss E. Symons was re-elected president. Other officers elected were: Ringing Master, Mr. Southeard; Assistant Ringing Master, Mr. H. J. Clark; peal secretary, Mr. Lanxon; secretary, the Rev. W. H. R. Trewhella.

The Guild had sustained a great loss by the death of Mr. H. Dunstan, who had been treasurer since 1934. The Rev. C. K. Peeke was elected to succeed him.

The Dr. Symons memorial would take the form of a bell to be placed in Madron Tower, where the ring of six was being increased to eight. About £50 had been received so far.

It was reported that the Mid-Cornwall Association held a meeting on March 6th and decided to become a branch of the Guild.

Mr. Hicks, of Marhamchurch, wrote asking if it was allowable to hold ringing festivals on Sundays. The meeting thought that this would not be desirable, as it was members' business on Sundays to ring in their own towers. It was proposed to send four members to the Central Council in future instead of one, and the Rev. A. S. and Mrs. Roberts, Mr. Miles and Mr. F. D. Teague were elected.

The members were entertained to tea by the Rev. C. K. Peeke, the Misses Peeke, Miss Penrose and other ladies, after which there was ringing at the Cathedral, consisting of rounds, Grandsire and Stedman Caters.

THE APPLETON FESTIVAL

Springlike conditions prevailing at the Appleton Festival on March 6th were compared with the deep snow a year previously. A company of 42 ringers kept the bells going to well-struck Stedman and Grandsire Caters and Cambridge Major throughout the afternoon and evening. It was a disappointment that the peal attempt for Grandsire Caters in the morning came to grief only two leads from the end.

Tea at the Thatched Tavern was followed by a high-class entertainment on handbells. Change ringing and tunes all came from the bells with ease, whilst the vocalists rendered the same old songs without which the Appleton Festival would not be complete.

SELBY AND DISTRICT SOCIETY

Severe weather conditions for the Thorne meeting on February 21st induced one of the 30 ringers to bring with him an electric fire. It made conditions more amenable and he received the blessings of all except perhaps one unfortunate who stood a little too close.

The Vicar (the Rev. C. Weaver) conducted the service and presided over the business meeting, when four new members were elected and three belfry elections ratified. Mr. H. Ludkin, one time captain of Goole ringers, sent his good wishes for the Society's success.

Thanks to the local company were expressed by Mr. J. Taylor, who mentioned specially the ladies who prepared the enjoyable meal. Mr. J. Thorley, in reply, said that was the first independent meeting of the Society at Thorne and hoped there would be further visits.

ELY DIOCESAN ASSOCIATION

A meeting of the Wisbech Branch at Watlington on February 21st, in spite of the wintry conditions, attracted 25 members and friends. The service in church was conducted by the Rector, who also presided at the business meeting which followed. The annual outing was discussed, and it was decided to try and arrange a visit to Leicester on June 2nd.

Ringing during the afternoon and evening ranged from rounds to Cambridge Surprise Minor. It is hoped to hold the next meeting at Wisbech on March 20th.

QUARTER PEALS

BLACKSTONE, SUSSEX.—On Feb. 29th, 1,260 Plain Bob Doubles: Miss S. M. Wickens (cond.) 1-2, C. R. Longhurst 3-4, C. H. Wickens 5-6. First quarter Bob Doubles by all.

CHESTER CATHEDRAL BELLS

BY J. W. CLARKE, MASTER OF THE CHESTER GUILD.

In 1540 the Abbey of St. Werburgh became the Cathedral Church of Chester. Records show that there were then installed six bells, not, however, in true musical sequence. This peal was later reduced to five in rather interesting circumstances, as revealed by the following extract concerning the third :—

' first there was a great bell in the Cathedral Church of Christe in Chester which hanged in the new steeple there, which bell was taken doune and solde by the Dean and Chapter of the same Cathedral Church the 4th. May 4 Ed. VI, for the somme of xxxiiii li and the said somme is alleged by them to be paid unto the Ministers of the said Church for their stypend.' This bell still exists at the Parish Church of Conway, N. Wales. This practice was not unique.

The five remaining bells at the Cathedral were recast in 1605 and again in 1606. This second recast was probably due to the higher standard of musical sequence and mechanical efficiency demanded by the forerunners of change ringing. The fine rings unique to this country are due to change ringing, an aspect of it which balances the criticism of its responsibility for bells of antiquarian interest being recast.

The year 1626 provided a separate sanctus bell, still in regular use as a service bell. Its clapper is of the type then common with a wooden contrivance fixing it to the crown staple, as a means of combating clapper roll.

The following extracts of Cathedral records of 1738 give a most interesting picture of proceedings then :—

April 29.—For taking down and weighing the old Great Bell, Cartage to the Crane (Wharf), and of the weights. Boatage of it from the Crane and letters about it.....15 0

Nov. 4.—To Mr. Knight in part for casting the new great Bell...£20

Dec. 1.—To the freight of the new Great Bell from London to Parkgate £4

To the river freight from Parkgate to Chester.....£1
To craning it a'shoar.....10 0

To the men that helped to get it a'shoar.....6d.

Dec. 4.—To the workmen and ringers the day the Great Bell was putt up.....5 0

Dec. 7.—To two men for watching the Great Bell all night after she was a'shoar.....1 0

Jan. 20.—To ringing for the Prince of Wales Birthday.....5 0

Jan. 22.—To Jn. Davies for Hog's Lard for the Great Bell.....6d.
(It was presumably ' dry ' after such ringing!)

This tenor was recast in 1867, local repair having resulted in 36lb. of metal being knocked from the sound bow. The full octave was completed by Messrs. Warner and Sons, of London, at the same time, and a chiming barrel installed, which is still in use, capable of ringing a plain course of ' Bob Triples.'

About this time the Curfew started in Chester, being rung on the tenor, the date being sounded on the present 7th and the month on the sanctus bell. The wear resulting from the tenor being rung up for this purpose led to its being rehung in roller bearings, with the whole peal, by Mears and Stainbank, in 1927. The year 1937, in commemoration of the Jubilee of the Chester Guild, saw the octave increased by the same firm to the present ten, consisting of bells dating from 1606 to 1937.

St. Oswald's Church formerly occupied the site of the present south transept to the Cathedral, and its parishioners therefore claimed this at one time as their Parish Church. Local patriotism extended for a period to the building of a brick screen across the neck of the transept, and the provision of a ' ring ' of two bells in a campanile in the upper interior of a buttress of the main fabric!

BELFRY GOSSIP

The peal of Pudsey Surprise Major at St. Mary's, Willesden, on Feb. 28th, was Mr. T. J. Lock's 50th peal on the bells. He has now 'circled' the tower for the sixth time, an achievement that has taken 20 years and 2 months to complete.

Mr. A. H. Pulling passed another century mark in his peal record at Kingston-on-Thames on February 28th. His fourteenth!

The peal at Aberavon, Glam., on February 28th, was the 70th together of Mr. Ernest Stitch and Mr. Gwyn I. Lewis.

There is a break of 18 years between the peal on March 6th and the previous one at the Minster Church at Reading.

Mr. William A. Stote has called a peal from every bell at Keresley, Warwickshire. Mr. Harold Folwell has also 'circled' this tower.

The peal at Davenham, Cheshire, was a birthday honour to the conductor, Mr. H. W. Howard, and to the relatives of two other ringers.

In honour of the millenary year of St. Michael's Church, St. Albans, a peal was rung on February 21st, the first by a regular Sunday service band.

Our leading article this week is taken from a paper read by Mr. J. W. Clarke, Master of the Chester Guild, to the Lancashire and Cheshire Antiquarians' Society.

Mr. Charles H. Wickens heard his daughter call a happy birthday to him with a peal of Doubles at Twineham on March 6th. It was his 50th and Mr. G. Packham's, senior's 71st.

Acknowledgment of the assistance given by Kenneth L. Brown and Jack King, of the College of SS. Mark and John, Chelsea, to the Acton-Ealing band during the past year was their birthday peal at Acton on February 28th. The peal was also a compliment to Mr. J. E. Lewis Cockey on giving up the secretaryship of the South and West District of the Middlesex Association.

Members of the Central Council visiting London next Whitsun, who would like to take part in a peal on either Saturday, May 15th, or Monday, May 17th, are advised to write, stating the methods they are capable of ringing, as soon as possible to E. C. S. Turner, 41, Windsor Road, Ealing, W.5, who will endeavour to arrange as many peals as are required.

A new edition of 'Grandsire' in the Snowdon series is expected in May or June.

The peal at Skipton, Yorks, on February 28th, was a 74th birthday compliment to Mr. E. Metcalfe.

Writes a Hinckley correspondent: Mr. Ernest Morris is now 'filling in the calendar.' A batch of two hand and three tower bell peals was included.

A leap year child was Mr. G. Illman, the old Sussex ringer. His 21st birthday on Feb. 29th brought his age to 88 and was honoured by peals at Rusper and Worth.

The Central Council publication, 'Hints to Instructors and Beginners,' is again available, price 4d., from the Hon. Librarian, W. H. J. Hooton, Osmington School, Tring, Herts.

We regret a typographical error was made in our editorial last week. It was Mr. Ernest Pye who handled the tenor in the badly-oscillating Stradbroke tower.

Burnham, Bucks, can be justly proud of Saturday, February 28th, when six of their 'teen age girls were ringing in three different successful peals in three different counties, one in Bob Royal at Kingston (Surrey), three in the under 19's peal at Feltham (Middlesex), and two in a peal at Wyrardisbury (Bucks). In this last peal Mr. Frank Sinkins (aged 83) took part with Mary Jaycock (age 13), almost the two extremes.

NEW HANDBELL RECORD

13,664 OF DOUBLE NORWICH COURT BOB MAJOR.

As briefly announced in our columns, the record length for Major in hand has been lowered by a peal of 13,664 changes of Double Norwich Court Bob Major, rung at Bushey on February 29th in 6 hours and 4 minutes by four prominent members of the Exercise. Details of the peal are recorded in this issue.

The peal was first discussed during the war and the idea revised about 18 months ago, but February 29th was the first occasion the four had met for the purpose. Everyone who participated was very pleased with the peal.

The composition was by the late Mr. J. A. Trollope, and it is singular that the two previous records of Major in hand were composed by him.

In the past Major records on handbells have been achieved by young bands of ringers. The previous one was 13,440 Bob Major, rung at Pudsey, Yorkshire, on June 5th, 1911, in seven hours and seven minutes, for the Yorkshire Association by W. F. Thorpe (16 years 6 months) 1-2, F. W. Jones (20 years 3 months) 3-4, Ernest Mann (19 years) 5-6. Ernest Hoyle (19 years 9 months) 7-8. Ernest Mann was the conductor.

Previous to that the record was 11,200 Bob Major at Norwich on April 26th, 1894, in which the ringers were J. A. Trollope (aged 18) 1-2, G. P. Burton (18½) 3-4, J. E. Burton (17½) 5-6, C. E. Borrett (19) 7-8. J. A. Trollope conducted.

As to Double Norwich Court Bob Major, the longest length in hand was 5,248 changes rung by the Cambridge University Guild at Surfleet, Lincs, on September 9th, 1924.

The Midland Counties Association hold the record on tower bells with 17,104 Double Norwich Court Bob Major at Wigston, Leics., on December 27th, 1904, in 10 hours 35 minutes. The ringers were Josiah Morris treble, Thomas H. Taffender 2, Charles H. Fowler 3, Thomas R. Hensher 4, James Houghton, jun. 5, William H. Inglesant 6, Arthur R. Aldham 7, William Willson (composer and conductor) tenor. This surpassed the 17,024 rung at Kidlington, Oxon, on May 22nd, 1899, in 11 hours 12 minutes.

PEN PICTURES.

The following intimate pen pictures of the participants in the new record length have been supplied to the Editor at his request:—

EDWIN A. BARNETT (1-2) Age 29. Peals rung 549 (134 on handbells); conducted 109 (24 on handbells). The third generation of a ringing family, his first peal was in 1929 at the age of 11, since when he has added a variety of methods. Reaching his 100th peal at the age of 15½, he was the youngest to accomplish this. One hundred and sixty of his peals have been with his father; 172 on the bells of St. Paulinus', Crayford, including peals by the youngest bands to ring Bob Major and Spliced Surprise, and 51 at St. John's, Erith.

CHRISTOPHER W. WOOLLEY (3-4). Age 40. Peals rung 502 (285); conducted 151 (112). The look of weariness and boredom on his face when he rings the most difficult methods on handbells has to be seen to be believed. But he has the gift which so few conductors possess of inspiring complete confidence by his ability to 'anticipate' trips, and there are many ringers who have him to thank for their handbell peals in other than 'bread and butter' methods.

Since ringing his first peal in 1919 at the age of 12, he has taken part in many notable handbell performances, including Spliced Surprise in up to six methods, as well as nearly 50 peals of Double Norwich. On tower bells he participated in many of the new Surprise methods rung in the Bushey area before the recent war, and was also one of the band who set up the present Stedman Cinques record—12,663 changes at Oxford in 1946. Since the war he has also taken part in the first peals of Yorkshire, Felstead and Jersey Surprise on handbells — the two latter the first ever in those methods.

HAROLD G. CASHMORE (5-6). Age 44. Peals rung 324 (94); conducted 233 (57). The writer has been told that a well-known ringer, when Harold Cashmore was learning to ring, advised him to give up on the grounds that he would never make good! However, his first peal was Superlative in 1921 at the age of 17, and his first handbell peal was in the same method in 1927. His peals include a record number of Surprise Major methods—over 50, in all of which he has conducted at least one peal—as well as nearly 50 peals of Surprise Major on handbells, most of which he has conducted from 5-6, including Spliced Surprise in up to six methods. His many brilliant performances have aroused the greatest admiration, and he and Ernest Turner, on their record as composers, ringers and conductors, may fairly claim to be in the forefront of ringers of the present day.

ERNEST C. S. TURNER (7-8). Age 38. Peals rung 420 (138); conducted 196 (77). This was his first handbell peal for over two years, but it goes without saying that he was completely at ease throughout. His first peal was in 1927 at the age of 17, since when he has successfully accomplished many of the difficult tasks ringing has to offer, such as calling Carter's odd-bob peal of Stedman Triples from an 'inside' pair. Most outstanding, perhaps, has been his record as a conductor of Spliced Surprise. He is the only ringer besides Harold Cashmore to have called a peal of spliced on handbells, and on tower bells he was at 23 the youngest ringer to accomplish this. Since then he has called peals in up to nine methods, mostly from a non-observation bell, and in many cases his own compositions, as was the peal in four methods at Crayford referred to above. Like Chris Woolley, he is a good chess player, at which game the other two members of the band 'also ran.'

NORWICH DIOCESAN ASSOCIATION

EAST NORFOLK BRANCH.

Thirty members attended the annual meeting of the East Norfolk Branch at Acle on March 6th, the service being conducted by the president of the Association (the Rev. A. St. J. Heard), with the Rector of Acle as organist. Tea followed in the Church Room.

The president took the chair for the business meeting. Mr. G. W. Fletcher was unanimously elected chairman and Mr. J. G. W. Harwood re-elected branch secretary. Messrs. G. Bussey, P. Newstead, E. Goate, G. Walpole and A. King were appointed the branch committee. Mr. G. G. Walpole and Mrs. G. W. Fletcher, were elected representatives of the branch on the Association's Standing Committee.

New members admitted were G. H. Moore (Hethersett), Margaret Dingle, Betty Eccleston, Violet Pitchers (Acle), G. A. Kindred and W. Garnham (Pakefield). The next meeting is to be held at a five-bell tower, Reedham, on June 12th. Mentioned in the vote of thanks were the Rector, those who helped with the tea and Mr. H. Lidbetter.

WESTERN BRANCH.

Either the weather, or the petrol restrictions, or more probably both, were reflected in the attendance at the Western Branch meeting at Fakenham. Only about half the average for the previous year were present.

Small meetings, however, have their compensations. After all one can take a rope to try a new method more often and with less diffidence than is the case when plenty of better men are waiting. Consequently several of the less advanced ringers were given the chance to do so.

Durham & Newcastle Assn.

COMMEMORATION MEETING.

There was a large gathering of ringers present at Sunderland for the J. W. Parker Commemoration Meeting, held on March 13th. The bells of St. Ignatius', St. Michael's and Holy Trinity were all available and good use was made of them.

A service was held at St. Ignatius', the church where the late J. W. Parker gave his services so freely in many ways, conducted by the Rev. G. H. Marshall. Mr. Frank Ainsley, hon. treasurer, was the organist.

At the meeting held after tea, with Mr. W. N. Park, president, in the chair, Mr. R. L. Patterson spoke of the late Mr. Parker, saying that he was a great churchman, ringer and friend, and a person to whom they could all look up to. Mr. John Anderson, of Newcastle Cathedral, thanked the various incumbents for the use of their bells. He said there was a possibility that the bells of Holy Trinity would be repaired in the future, and he was looking forward to the time when regular service ringing was resumed at that church.

The Rev. G. H. Marshall replied, and said that he was pleased to welcome the ringers to St. Ignatius', and was especially pleased to have a congregation in church for service, the majority of whom were men. Mr. K. Arthur thanked the wives and friends of the ringers of St. Ignatius' for waiting at tea, which was acknowledged by Mrs. F. Ainsley.

Mr. W. N. Park welcomed two visitors, Mr. Speed, of Eastbourne, and Mr. Worrall, of Cardiff, who are stationed at Catterick. He also welcomed lady ringers from St. Andrew's, Roker, who have been trained and will be ready to man the ropes as soon as the new bells are installed.

The president also made reference to the passing on of Mr. Oswald Simm, of Cramlington. His death took place on March 6th at the age of 79 years. He had been a member of the Association since 1896. The members stood in silence to his memory.

GLOUCESTER AND BRISTOL ASSN.

CHELTENHAM BRANCH.

At a quarterly meeting of the Cheltenham Branch at Bishop's Cleeve on March 13th, Mr. Boardman, treasurer of the Church Council, stated that about half of the £350 required for two new trebles had been given or promised. Ringers present voted support for this project and promised assistance to the local band when they get them.

The branch secretary was instructed to take such action as necessary to get an invitation from the Association to the Central Council to hold a meeting in Cheltenham in the near future.

Twenty-eight members representing twelve towers were present. Methods rung were Grandsire, Stedman, Plain Bob, Kent and Oxford Treble Bob, and after discussion as to whether Double Bob was the same as a bob each way, a course was successfully brought round. C.R.

TEWKESBURY BRANCH.

A very successful meeting of the Tewkesbury Branch was held at Eldersfield on March 13th. At the short business meeting 14 performing members, including the Vicar, were elected members of the branch.

Eldersfield has an excellent ring of six with a 21 cwt. tenor. The tower has been without a band for some years and the election is a striking example of what can be done when the incumbent takes an active personal interest in his ringers and ringing. Whilst one or two of the ringers are old hands, the majority are of the rising generation, so it is reasonable to hope that the Eldersfield bells will not go silent again.

STAGSDEN, BEDS. — On Feb. 28th, 1,320 Kent Treble Bob: W. Izzard 1, A. Ford 2, A. Waller 3, C. Izzard 4, M. Stephens (cond.) 5, G. Freeman 6.

Chester Diocesan Guild

WIRRAL BRANCH.

A memorial tablet of oak with incised letters to the late Mr. H. S. Brocklebank, tower-keeper at Oxton for over 50 years and branch secretary for 31 years, was dedicated at the annual meeting of the branch at St. Saviour's, Octon, on February 28th. The tablet is in the ringing chamber and was subscribed for by the congregation and Wirral ringers. The Vicar (the Rev. N. J. Blow) conducted the service in the presence of 80 ringers, friends and relatives.

The Master (Mr. J. W. Clarke) presided, supported by the Guild secretary (the Rev. J. D. Pearson). The accounts, which showed a credit balance of £53 17s. 10d., were passed.

The hon. secretary's report revealed a lively interest in branch affairs. Membership had increased from 111 to 123, and the average attendance at the 12 branch meetings was 42 (highest 83 at the June meeting). The social at Wallasey was attended by 220 ringers and friends, and it was hoped that this would be an annual function.

Peals were few, but several were worth mentioning. Resident members scored first peals of London and Yorkshire Surprise Major and Cambridge Surprise Royal. The Sunday service band at Bebington rang a peal of Cambridge Surprise Major.

The officers were re-elected, although there were changes in the nominations for Guild Committee.

SALISBURY DIOCESAN GUILD

WEST DORSET BRANCH.

A perfect, sunny day, a beautiful ancient Priory Church with good toned bells made the quarterly meeting at Loders on March 6th most enjoyable. The Rector (the Rev. O. L. Willmott), who is a ringer, conducted the Guild Office, and full justice was done to a lavish tea by the 45 ringers present.

The Rev. C. Carew Cox, branch chairman, presided at the business meeting. The statement of accounts, presented by Mr. C. H. Lathey (hon. secretary), showed a balance in hand of £19. The Rev. O. L. Willmott and Mr. A. J. Wells (Loders) were elected members, and the next meeting was arranged for Beaminster on June 5th.

The suggestion of the Guild's General Committee that one member from each branch should be nominated as a candidate for election to the Central Council at the annual meeting of the Guild was unanimously approved, and the branch agreed to submit the name of Mr. George Stedman Morris as its nominee.

Mention was made of the death of Mr. Frank Bugler, a long-standing member at Beaminster, and the members present stood in silence.

Very warm thanks were accorded the Rector for his welcome and ministrations to the branch, the local ringers for their splendid hospitality and the organist, Mr. B. Elsworth.

SUSSEX COUNTY ASSOCIATION

EASTERN DIVISION.

A change of officers took place at the annual meeting of the Eastern Division at St. Mary's, Eastbourne, on February 28th, attended by 44 members, including Mr. F. I. Hairs, Master of the Association.

Mr. J. A. Downing (secretary) and Mr. W. Rogers (Master) did not seek re-election, and Mr. F. H. Hicks and Mr. A. F. Lewry were elected respectively to the vacant posts.

At the service which followed the Vicar stressed the importance of ringing in relation to the church, which was warmly appreciated by the ringers.

The belfry was again visited, ringing ranging from rounds to Superlative Surprise and Double Norwich. A gratifying sight was the younger members partaking in rounds, Bob Minor and Major, Little Bob Minor and Grandsire Triples.

OBITUARY

MR. OSWALD SIMM.

Mr. Oswald Simm, a member of the Durham and Newcastle Diocesan Association for 52 years, passed away on March 6th at the age of 79 years. He was a regular Sunday service ringer at Cramlington, until ill-health compelled him to give up ringing some years ago. His peals numbered 31. The interment was at Cramlington Churchyard on March 9th. A course of Bob Minor was rung over the grave by three of his oldest friends, Messrs. A. Gofton, J. Gofton and J. E. R. Keen.

THE REV. M. C. POTTER.

One of the earliest members of Cambridge University Guild, the Rev. Michael Cressé Potter, Emeritus Professor of Botany in the University of Durham, died at New Milton on March 9th in his 90th year. His last peal is believed to have been one of Kent Treble Bob Major just before the 1914 war.

'Church Bells' of March 12th, 1881, records: 'On the 22nd ult., five members of the Cambridge University Guild rang three six-scores of Bob Doubles, being their first unassisted performance: R. Copeman (Clare) treble, E. Knowles (St. John's) 2, M. C. Potter (Peterhouse) 3, Rev. A. Boughey (Trinity) 4, W. Pearson (Clare) tenor. Tenor 11 cwt. in G. Also on Saturday, the 12th ult., six members of the society rang on the handbells 720 Bob Minor: R. Copeman 1, M. C. Potter 2, Rev. A. Boughey 3, E. Knowles 4, W. Baker (Clare) 5, W. Pearson 6.'

Of Mr. Knowles we know little, but all the remainder took Holy Orders, and Canon Baker, the Rev. Boughey and the Rev. W. C. Pearson were all well-known ringers.

THE CENTRAL COUNCIL

Will Secretaries of Associations who elect their Central Council representatives on Easter Monday kindly send names and addresses immediately after the meeting? — G. W. Fletcher, Hon. Sec.

MIDDLESEX COUNTY ASSN.

SOUTH AND WEST DISTRICT.

At the annual meeting at Heston on Feb. 21st, Mr. J. Lewis Cockey, the hon. district secretary, presented his tenth and last annual report, which recorded another successful year. Twelve district and one general meeting had been held with an average attendance of 40, a considerable increase. Peal ringing was prolific and quarter-peals for service ringing had been more than maintained, with St. Mary's, Ealing, topping the list with eight.

The resignation of Mr. Cockey from the hon. secretaryship was received with regret, Mr. E. C. S. Turner testifying to his devotion and unselfishness and the high esteem with which he was held by both clergy and laymen.

Mr. Cockey, in reply, said during his ten years of office he had made many life-long friends and had a host of pleasant memories.

The retiring Ringing Master, Mr. F. A. Finch, was elected to the office of hon. district secretary; other officers elected were: Assistant hon. district secretary, Mr. W. G. Wilson; Ringing Master, Mr. T. G. Bannister; Deputy Ringing Master, Mr. W. W. Webb; Central Committee, Messrs. F. C. Baldwin, G. M. Kilby and J. S. Lewis Cockey; auditor, Mr. E. C. S. Turner.

The general secretary reminded members that the C. T. Coles Memorial Fund was still open, and much more was needed towards a memorial to their late and much loved general secretary, and a ready response was accorded.

The vice-president, Mr. W. H. Coles, in proposing a vote of thanks to the Vicar (the Rev. G. Craggs) for the use of the bells, and to the members of the Heston band and friends for the excellent arrangements for tea, hoped the day was not far distant when the Heston supper, an annual event of pre-war days, would be possible. Mr. H. C. Chandler gave his assurance that he would be very happy to assist in organising this old Middlesex custom.

LETTERS

PEALS AT CHOBHAM

Dear Sir,—I wonder if any readers of 'The Ringing World' can remember ringing a peal at Chobham. When I sent in the peal on February 14th I claimed it as the first for 25 years, but no member of our band can remember one since 1892, when the bells were augmented from five to eight. I should like to know how many peals have been rung since then.—Yours truly, R. COLLINS.

Burrow Hill, Chobham.

DOUBLE NORWICH 4ths PLACE BOB

Dear Sir,—The congratulations of the Exercise will doubtless be offered to the gentleman who, according to a footnote in 'The Ringing World' of March 5th, has just rung his first peal of Double Norwich with a fourths place bob away from the treble. If he perseveres, perhaps he will one day emulate the achievement of the Hampshire ringers who rang a peal of Cambridge with a single in it, or take part in some equally meritorious performance! —Yours faithfully, E. A. BARNETT.

Crayford, Kent.

BIBLIOGRAPHY OF BELLS

Dear Sir,—I have for some time been compiling a bibliography of bells and change ringing, and have already received valuable help from the librarian of the Central Council and others interested in the Exercise.

Now, however, I have exhausted all the resources at my disposal without being able to trace certain books which I know to exist, and I am hoping that some of your readers may be able to assist me. I am particularly anxious to see a list of books which was printed by the Rev. E. Bankes James at the Seafield Park Press in November, 1932.

I require details of publisher, place of publication, paging and illustrations for the following: 1 William Andrews, 'History of Bells' (Paisley, 1885); 2 J. T. Fowler, 'Bells and bellringing'; 3 J. T. Fowler, 'A bell at Pontefract'; 4 G. F. Woodhouse, 'Change ringing machine.'

Finally, does anyone know the identity of 'W.S.C.R.,' the author of a humorous pamphlet, published in 1883, entitled 'Great Paul tongue-tied'?—Yours faithfully, F. J. HILL.

A TOUCH OF THE FUTURE

BY ONE WHO KNOWS.

I WALKED up the short drive and approached the front door. On it was a neat plate, 'Professor Backstroke.' There was, of course, no need to ring, as doorbells had long gone out of date.

He invited me in and I explained that I was interested in ringing and would like to see his famous private collection of ringing exhibits.

When he saw I was genuinely interested, he sallied forth into waves of enthusiasm. 'The history of change ringing is unique,' he said. 'By 1948 it was well established, and had reached its peak as an art. Then in 1950 the educationalists, seeking for something without material gain, introduced it as a subject in schools. That was the start of the great Ringing Revolution, 1950-75. Every tiny village had its ring of bells, and everyone of any social standing learned to ring. The School Certificate Exam. was superseded by a peal test.

'In 1971 the first great peal was launched — the extent of Bob Maximus was started at a special tower built on Dartmoor beyond earshot of habitation. It was to take 90 years, and various ringers of the National Guild (which had by then 3 million membership) volunteered in shifts to ring. The British Society ridiculed the attempt. But the peal went on night and day until 2023, when the planet war with Mars ended it abruptly. During that time over four thousand ringers took part in three-hour shifts. There was a great demand for standing in the portions with the tenors unparted.'

He showed me the library section, the first edition of 'Tintinnalogia' holding the place of honour. In the first shelf I saw the ancient Snowdon series, dwarfed by the mighty volumes which filled three sides of the room. I glanced at some of the books—'The Electronics of Lead End Detection,' 'The Neovibratron applied to Composition of Maximus Methods.' My head reeled at the titles.

'Now we must continue the story while I show you the machine section,' he said. We saw Carter's and Woodhouse's machines in a glass case. Having been purchased for thousands of pounds, they had been stolen during the planet war and had been found hidden on an asteroid by a Space Seeker.

'For a long time these were the only machines made for ringing,' the Professor said. 'Then in 1967 church bells were first rung mechanically.' He showed me a light ring of eight and rang a course of Bristol on them—perfectly struck. The bells were driven by torque amplifiers worked from a ringing machine (the tenor was 3 cwt.). 'All the big churches installed them,' he said, 'and ringing ceased to be an art. People developed taste for methods and the old classical music became very lowbrow. It was all done by machinery.'

He took me to another room, and showed the False Peal Detector of 1969. 'The idea was first suggested by a Norwich ringer in 1947 and this machine was his design.' It had a seat and in front was one of the old-fashioned gas jets. 'The composer of a peal had to sit here, and if a change repeated, the gas jet flared out and scorched him. By an Act of Parliament (Ringing Act, 1973) every new peal registered had to be rung on it by the composer.'

Next we saw the Method Producer, 1979. The Professor set it to produce all the double plain maximus methods, and I was amazed to watch it working. The lower part was a mass a radio valves, condensers and wiring. 'This machine concocts methods by the places every thousandth of a second. If a plain bob lead end results, a special circuit takes a photograph of the places.' As I watched, a strip of microfilm came irregularly out of a slot. We examined it under a lens and saw on it the methods in code form. 'There are many thousands of the methods,' he said. 'This machine is slow—it would take an hour to find them.' He switched it off.

I left the house in a whirl. Peals in a split second! The wretched jangle of bells at high speed started again. I put out my hand to the knob to slow down the striking and it stopped. The alarm clock snarled 'half-past seven' at me.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

A correspondent is anxious to obtain a loan of a photograph of Mr. J. A. Trollope. Please forward same to Editor.

The peal of Cambridge Surprise Royal at Hatfield was a 70th birthday compliment to J. T. Kentish, who rang the eighth.

With less than 10 changes to go, a quarter-peal of Grandsire Doubles was lost at Brampton, Hunts, on March 18th, by the rope of the fourth breaking. It was the first attempt for a quarter by two of the company.

Down Dunster, Somerset, way there was a golden wedding peal on March 9th for Mr. and Mrs. Tom Elliott. Mr. Elliott has been a member of the local band for 62 years and except during the ban never missed ringing the old year out throughout this period.

A note to Mr. E. A. Barnett from Mr. E. W. Pye: May I be permitted to point out that the peal of Superlative Surprise Major which he called for his 200th peal on December 18th, 1935, was composed by the late Ernest Pye before he was born?

From Australia comes the January issue of 'Ringing Towers,' the journal of the N.S.W. Association. 'During the year the Association scored two peals and 20 quarter-peals. Practically all towers report increased activity, and the spirit of co-operation and cordiality has never been more evident,' states the editorial.

The new look made its appearance at the meeting of Kent ringers at Great Mongeham on March 13th, and a new link was made when the Ringwould band was elected member of the Association for the first time. 'Welcome, Ringwould.'

In reply to Mr. R. Collins, there have been many peals at Chobham. Mr. G. N. Price called Stedman Triples on August 31st, 1901, the Rev. F. E. Robinson the same method on January 3rd, 1903, and January 25th, 1904. A peal of Double Norwich was called by Mr. John S. Goldsmith on June 12th, 1905.

Of interest to all Lancashire is the peal at Penwortham on March 6th, a golden wedding compliment to Mr. and Mrs. W. H. Shuker. It was attempted in the same tower a fortnight previously, but came to grief in the next to last course. Another golden wedding peal for the worthy secretary was at Rochdale on March 6th.

The Rev. Arthur Talbot, Rector of Wrington, is appealing for £15,000 for the restoration of All Saints', Wrington. He writes: This great task of church restoration owes much to the late Major J. H. B. Hesse, as he was the first to draw up a detailed report on the work most urgently needed and was always so eager for work to be commenced before the damage by weather, erosion and now deathwatch beetle grew worse. Unfortunately he has not lived to see the work put in hand.

Apropos Cheltenham's claim for consideration as a meeting place for the Central Council. A correspondent points out that the ringing facilities are ample with twelve-bell towers at Cheltenham, Painswick and Tewkesbury, a ten and three eights at Gloucester and eights at Prestbury, Charlton Kings and Leckhampton within 2½ miles of the centre. There are many six-bell towers within a radius of ten miles.

Mr. E. A. Barnett informs us that the longest length of Double Norwich 'in hand' was 6,240 changes, rung at Bushey on Feb. 11th, 1940, by the same band that created the recent record, except that his father rang instead of Mr. Harold Cashmore. This was conducted by Mr. E. A. Barnett and was his first peal of Double Norwich 'in hand' as conductor. Probably on account of the war the performance was not brought to the notice of the Record Lengths Committee.

Record Handbell Peal

Sir,—The passing of time has left its mark on the Exercise. Thirty years ago your item in Belfry Gossip of March 12th announcing a record peal of Double Norwich in hand would quickly have brought letters informing the band that notice was required of the attempt. Up to the present no observation has been passed on this omission. All the band are members of the Central Council, two being very prominent members; they knew the rules and ought to set an example.

While heartily congratulating them on their performance, I think for their own satisfaction it would have been better if they had given notice of the attempt, as they were creating a new Major record. The fact that the peal was rung on a Sunday and in a school suggests that it was a private affair. When we rang our record peal in 1912 the late Mr. Goldsmith impressed upon us that the attempt should be made where anyone could come and listen. The church and belfry were open and ringers were coming and going all day long.—Yours, etc.,

A. H. PULLING.

Guildford.

AMPLIFYING SETS

Dear Sir,—Mr. Pipe's comments on the above in 'Suffolk Reports,' published in March 19th issue, brought to my mind an experience I had not long ago. I am 'bell adviser' in this district and I was approached by a vicar of a church which had a tower with one bell. He said he had thought of installing a set of this type and what was my opinion. I told him it was a capital idea, as it would save the parish a lot of money. He agreed and said that was one of the matters he had in mind.

I continued, however, to explain other purposes for which it could be adapted. I said, in addition to being a substitute for the bells, it could be a substitute for the organ and choir, and I reminded him of the large collection of records that would fit in with the service, and again, if this idea became popular, 'records' would be available for a whole service, and a collection of good 'preachers' would be in the repertoire of such a church. Ringers' and choir expenses, vicar's salary and vicarage all saved. He dropped the idea, and my parting words were, 'If it's for a place of worship, let it be the real thing.'

He took my advice and went into the matter of having a ring of bells installed. Unfortunately, the tower would not stand the strain.

PETER CROOK.

Bolton, Lancs.

MIDDLESEX COUNTY ASSN.

SOUTH AND WEST DISTRICT.

On March 13th, at the first meeting to be held at Feltham since the restoration of the bells, members and friends were very impressed with the magnificent results attained from what had always been considered a very ordinary ring.

The front four have been recast and the peal rehung and Messrs. Mears and Stainbank are to be congratulated. It was generally agreed that at their weight (11¼ cwt.) it would be difficult to find a better eight in the country. Even J.F.S., in spite of his legpulling, was obviously enjoying the music.

This restoration would not have been possible but for the efforts of Mr. Tony Price (tower secretary) and his band, who have created almost a precedent in their efforts to reduce the cost. They completely dismantled the old ring and lowered the bells to the ground, no mean task, particularly in a tower where little or no provision had been made in the past against the possibility of their ever being removed. Congratulations were accorded Mr. Price and his band by Mr. J. E. Lewis Cockey.

Some good ringing under the supervision of Mr. T. Bannister (Master) and Mr. W. W. Webb, his deputy, was enjoyed by the thirty members.

Dedications

DENHAM, BUCKS.

The rededication of Denham bells took place on March 11th, the Bishop of Buckingham officiating. During the service Miss Katharine Wyld read 'In Memoriam' (Tennyson), which preceded the ringing of the bells.

Early last year it was discovered that the old timber framework was seriously affected by dry rot and the 4th bell, cast by James Bartlet in 1683, found to be cracked. It was decided to have the bells rehung with modern fittings in a new cast iron and steel frame, the fourth bell recast and the entire ring retuned. This work was carried out by Messrs. Gillett and Johnston, Ltd., the cost being met by Major R. H. Way. A tablet records that the bells were rehung 'in happy memory of Lt.-Col. B. J. Way,' D.S.O., died Maritzburg, Natal, October 1st, 1932, Major G. O. Way, D.S.O., died June 28th, 1938, Constance Way, died May 31st, 1930, and as a thankoffering for the survival of his two sons through all the perils of the World War.'

Visiting ringers rang Grandsire, Stedman, Plain Bob and Cambridge after the service, and hopes are entertained of arranging at an early date a joint meeting here of the Oxford Diocesan Guild and the Middlesex County Association. Satisfaction was expressed at the go and tone of the bells.

WALTON-LE-DALE, PRESTON.

A complete restoration of St. Leonard's bells has been carried out by Messrs. Mears and Stainbank.

The old six, which were cast by Lester and Pack in 1761, have been recast, with the addition of two trebles to make a handy ring of eight, the tenor being 15½ cwt. in F. The frame is of oak (rather unusual in these modern days), with all the latest fittings and the bells will go like the proverbial tops.

The dedication by the Lord Bishop of Blackburn was arranged for March 31st at 7.30 p.m. On April 17th there is to be a branch meeting, which will serve as an open day for all who are interested.

ARBITRARY DEFINITIONS AND FALSE IDEAS, EXPOSED BY GEORGE BAKER

Previous to my discovery in 1924 of Round Blocks and Transpositions in Methods, Principles and Systems, there was some excuse for the false ideas and arbitrary definitions laid down from time to time. There is no excuse since because the science of change ringing is based on the science of permutations, which has no use for arbitrary definitions, and less for false ideas, and, to my mind, it is high time that the Exercise put its house in order.

One arbitrary definition laid down that should be rescinded is the dictum that a method to be the same must have the same lead-head from Minor upwards. This is a false idea, for if the 5th is the fixed pivot bell of method the *lead-ends* will be:—

Minor 146253, Lead-head 142635 or 164523.
Major 18765432, Lead-head 18674523 or 17856342.
Royal 1970583624, Lead-head 1907856342 or 1795038264.
Maximus 197e5t302846, Lead-head 19e7t5038264 or 1795e3t20486.

Or if the 6th is the fixed pivot bell:—

Minor 132546, Lead-head 135264.
Major 17583624, Lead-head 17856342 or 15738264.
Royal 1098765432, Lead-head 1089674523 or 1907856342.
Maximus 10t8e6947253, Lead-head 108t6e492735 or 1t0e89674523.

Midland Counties Guild

Netherseale, situated on the southern border of the Diocese of Derby, was the former home of Mr. W. W. Worthington, president of the Midland Counties Guild, and is noted throughout the area for its beautiful ring of eight.

Upon entering the ringing chamber visitors become immediately interested in the fine array of peal tablets recording the achievements of Mr. Worthington and his colleagues before the Great War 1914-18.

The outstanding tablet is the one recording Mr. Worthington's 50th peal, when stalwarts of the Exercise assembled and rang on August 2nd, 1914, a peal of Bristol Surprise Major as follows:—

W. W. Worthington 1 (50); B. Prewett 2 (939); I. Shade 3 (1,065); G. R. Pye 4 (635); R. Pye 5 (984); A. Grimes 6 (413); J. Flint 7 (332); William Pye 8 (1,184); making the total number of peals rung between them 5,602.

Shortened evensong was conducted by the Rector, the Rev. Dr. W. J. Beale, who expressed greetings to the members. A pleasant surprise awaited the company to find that tea had been provided in the Village Hall by the Rector and Mrs. Beale (memories of Netherseale pre-war days). Thanks were extended to the Rector and Mrs. Beale by Mr. B. G. Key and carried with applause.

At the subsequent business meeting it was decided to visit Tutbury on April 3rd. Correspondence was read by the secretary, Mr. J. W. Cotton, from the Midland district of the Ladies' Guild regarding the possibilities of a joint meeting at Burton, and hopes were expressed that such a meeting would be arranged in the near future.

BEVERLEY AND DISTRICT SOCIETY

VISIT TO KIRK ELLA.

For their monthly meeting on March 13th at Kirk Ella the Society were the guests of Mr. A. H. Fox, vice-president of the Eastern District, Yorkshire Association, the Rev. R. Foord (Vicar) and the churchwardens.

The unusual features of this church are the many stained glass lancet windows and a so-called Leper's Window, dated about 1250 A.D. The bells, a musical six with tenor 20 cwt., are rung from the ground floor. They were raised in peal and rung to various methods, the service touch being of Kent Treble Bob Minor. The service was taken by the Vicar, with Mr. Fox as organist, and this was followed by tea.

Fifty-five members from 16 towers attended the business meeting, at which Mr. G. F. Williams (president) presided. Meetings were arranged for Sutton-on-Hull, April 10th, Patrington, May 8th, and Pocklington, June 12th.

The Ringing Master (Mr. L. Rodmell) reported steady progress. Three new members were elected, bringing the membership to 160 from 22 towers. Thanks to the Vicar, Mr. Fox and the choir were moved by Mr. Kneeshaw, seconded by Mr. F. Wilkinson.

The Rev. G. Storer, Vicar of Hutton Cranswick, reported that owing to the increased cost of copper and tin, the price for his bells would be about £150 more. His parish was almost entirely a working class and agricultural area The meeting wished him every success.

ESSEX ASSOCIATION

NORTHERN DISTRICT MEETING.

The Association's general secretary, two masters and two secretaries from other districts were among the attendance of 51 at the meeting at St. Nicholas', Witham, on March 6th. The Vicar (the Rev. E. B. Payne) conducted the service, and a collection for the Association's Bell Restoration Fund amounted to £1 8s. 3d.

Miss H. Snowden (District Master) presided at the business meeting. The Dean of Bocking was elected an honorary member and also four probationers from Bocking. Stebbing was chosen for the next meeting on May 22nd. The chairman thanked the Vicar and all who had made the meeting so successful. The Vicar and Mr. W. S. Butler responded.

Dudley and District Guild

SUPPORT FOR DUBLIN VISIT.

The annual meeting, held at Dudley Parish Church on March 13th, proved to be a record both for weather and attendance. Over 100 members and friends were present at the service and tea.

The president (Canon J. Waring) presided at the business meeting. The officers were again re-elected with two additional vice-presidents.

The treasurer and auditor gave their report and it was unanimously decided to increase the subscription from 6d. to 1s. per year. The Guild decided to support the Central Council in its decision with reference to the proposed visit to Ireland for the 1949 conference.

Mr. B. Ashford moved a resolution that members who had given valuable service to the Guild over a number of years should be honoured by being made lay vice-presidents. This was adopted, and Messrs. J. Goodman and F. Colclough were the first to have this honour conferred on them. Nine new members were elected. The next quarterly meeting will be held at Sedgley.

SOUTHWELL DIOCESAN GUILD

THE MINSTER ATTRACTS VISITORS.

Southwell Minster was the happy hunting ground of a large number of ringers on March 20th, visitors arriving from Rugby, Chesterfield, Lincoln, Derby and elsewhere.

The central tower houses eight fine bells—tenor 28 cwt. — hung in a massive wooden frame. The ringing chamber itself is something of an oddity, it being a balcony hung round the inside of the tower. Heavy wire netting prevents the unwary ringer toppling into the body of the Minster. The bells are hung anti-clockwise, two ropes falling on each side of the 40ft. square tower. The poor visibility, combined with the great distances between ropes, tends to slow up the rate of striking, and the yawning chasm below strikes awe into many a ringer's breast.

The ringing ranged from rounds to London Surprise Major, the latter being rung in masterly style by a very distinguished band.

A healthy feature of the meeting was the number of young ringers present, most of whom were undeterred by the strange conditions.

The Provost of Southwell conducted a service and was later elected a vice-president of the Guild.

EAST GRINSTEAD & DISTRICT GUILD

The annual meeting at East Grinstead on March 13th attracted nearly 40 ringers, including visitors from Truro Cathedral and Sudbury. At the service the address was given by Bishop Hordern, late Bishop of Lewes, who said that bells were one of the few things left to remind the public of Sunday, and he hoped that all would put Sunday ringing before anything else, and encourage youngsters to enter the service of the church via the belfry.

Tea, as usual, was given by the Guild president, the Rev. Dr. G. Golding-Bird, who also took the chair at the business meeting. Mr. E. J. Ladd was elected chairman for the Guild's 21st birthday year, and Mr. B. Collison, the retiring chairman, took Mr. Ladd's place on the committee.

The Guild accepted an invitation to a joint meeting with the Surrey Association at Reigate on May 8th, and fixed the date for the summer outing, a tour into West Kent, for July 17th.

On the proposition of Mr. E. J. Oliver, the rule whereby the Guild paid the excess of 1s. 6d. on members' teas was rescinded, but a lively debate ensued when Major Janes proposed that the old rule should still apply to young members. In the end this was referred back to committee, but it was passed that members under 16 should only pay 1s. per year and that subscriptions of new members joining the Guild on and after October 1st in any year should not be due until the following January.

DUBLIN DEFERRED

THE Central Council will not this year have to consider the question of accepting an invitation to visit Dublin at Whitsun, 1949. Mr. Geo. W. Fletcher has received the following letter from Mr. F. W. Dukes, the hon. secretary of the Irish Association :—

'The question of issuing an official invitation to the Central Council of Church Bell Ringers to hold its meeting in Dublin in 1949 was considered at our annual meeting in Dublin yesterday. The general opinion was that we would very much like to have you, and we can assure you that a real Irish welcome awaits the Council should it ever decide to come here.

'Consideration, however, was given to the views expressed in your letter and "Ringing World," also to the present economical state, and information which has come to hand within the past few weeks about hotel accommodation and bell facilities. None of the reasonable and suitable hotels to which enquiries were sent could accommodate your party at Whitsun, 1949, or provide the use of rooms for committees and social intercourse, which would therefore necessitate reserving accommodation in the more expensive hotels, thus making your expenses excessive. It has also now been ascertained that only three rings of bells would probably be available in Dublin vicinity. The other three would be either under general repairs or out of action.

'We therefore decided to take the initiative and to ask the Council to defer consideration of the proposed visit to Dublin for economic reasons until such time as conditions are more favourable. It is with regret that we decided this course, but felt that in view of the doubts it would be better to be "sure than sorry" !'

The wisdom of the Irish Association is to be commended. To function successfully meetings of the Central Council must be fully representative of the Guilds and Associations, and the factor of cost is very real with most members of the Exercise. From what we have heard there was not unanimity for crossing the Irish Sea. The Council will have before it another choice. The Gloucester and Bristol Diocesan Association at their meeting on Easter Monday decided to send an invitation to visit Cheltenham, which, as we pointed out last week, has good ringing facilities and the amenities for a successful conference.

BELFRY GOSSIP

Mr. Francis Brotherton has completed the circle of St. Peter's, Wolverhampton. The peal on March 20th was a compliment to Mr. Herbert Knight, who has completed 50 years as conductor in this tower.

The peal of Little Bob at Wye was a farewell to Mr. R. J. Lancefield, who is leaving for service in the R.A.F.

Miss Hilda G. Snowden has now 'circled' the Deanery Church of St. Mary, Bocking, and Mr. H. W. Barrett Holy Trinity Cathedral, Guildford.

There were five firsts of Superlative in the peal at Douglas-in-Parbold, Lancs, on March 20th. The peal was a 71st birthday compliment to Mr. H. Marshall, donor of the second bell.

Comment in a Sussex weekly on a peal of Cambridge: 'Chain ringing at Crawley Parish Church on Saturday afternoons does not appeal to everyone.' We suppose Oliver had with him his chain gang!

A gallant attempt for a peal of Bob Major at Sherborne Abbey on Easter Monday came to grief 3½ courses from home due to the tenor-man having to give in. This was a second start, 'Stand' being called in the fifth course due to the tenor rope starting to pull out at the tuck. The band was J. Mussel, H. Abrahams, H. Keely, W. A. Theobald (conductor), L. Harris, C. W. Powell, F. W. Burnett and F. Harris.

Born at Ewhurst, Surrey, where he rang his first 720 of Bob Minor on his 10th birthday, Mr. R. Whittington on his 80th birthday rang the same bell to 1,260 Grandsire Triples on March 18th. The company was W. Denver 1, Miss B. Moore 2, R. Whittington 3, A. Tidy 4, L. Warner 5, C. Stephens 6, H. Charman (cond.) 7, J. Bourrel 8. First 'inside' for 2 and 4. Few others can claim 70 years of active ringing.

Mr. Maurice F. R. Hibbert completed his 350th peal at Willesden. The list contains the greatest number of methods, or extensions of methods (81), yet rung on tower bells. Congratulations!

At Loughborough a local band has rung a peal of Grandsire Caters. The last was more than 20 years ago.

Ashton, Northamptonshire, where a peal has been scored at the third attempt, has a 'saddle back' (house top) tower with a ring of five hung in an anti-clockwise circle. Is it unique?

The peal of Double Norwich at Bromley on March 13th was for the golden wedding of the parents of Mr. S. J. Humphrey, who were married at that church.

To the memory of Mr. Walter Franks, a ringer at St. Mary's, Battle, for 50 years, a tree was planted in the churchyard on March 21st. An in memoriam peal was rung the previous day.

Two weddings were commemorated by the peal at Poulton-le-Fylde, Lancs, on March 18th. Mr. R. Tyler, a ringer in the local tower, and Miss Ann Hall, and Mr. J. W. Todd and Miss Ivy Foster, both ringers at St. John's, Blackpool.

The Editor was intrigued to receive one Guild meeting report written in shorthand. It has been duly transcribed. For the guidance of would-be imitators, we are asked to state that he only dabbles in Pitman's.

A Birmingham band, conducted by Mr. Albert Walker, rang a fine peal of Stedman Cinques at Southwark Cathedral on March 20th, which was listened to by a large crowd of ringers attending the College Youths meeting. Mr. Tom Reeves was absent through a chill, and Mr. J. Frank Smallwood, who is Birmingham born, deputised for him.

THE KENT COUNTY ASSOCIATION

First Annual at Dartford ..... One Thousand Members Objective ..... Peal Ringing Review ..... Central Council Change

FOR the first time the Kent County Association held their annual meeting—the 68th—at Dartford on Easter Monday. The visit was the outcome of the pressing invitation and work of Mr. James E. Bailey. Unfortunately he is on a bed of sickness. A resolution expressing the good wishes of the meeting was passed, and this was conveyed to him personally by two of the members, who left to visit him immediately after the business terminated.

An attendance of about 200 was noted at the Association service in Dartford Parish Church, conducted by Canon Elliott Mitchell, Vicar of Dartford. In his welcome he congratulated the ringers on their singing—the best congregational effort he had heard for many years. Lunch was served from two halls, the Vicar attending.

Mr. John Willis was voted to the chair for the business meeting and expeditiously handled the long agenda.

The list of apologies read by the hon. secretary (Mr. George H. Spice) included Mr. J. E. Bailey and Mr. E. S. Ruck, the sole surviving founder member of the Association, who in his letter recalled the first dinner in 1882 (when beer was 2d. a pint and a big lump of bread and cheese cost 2d.); Mr. E. H. Lewis, a vice-president, and Mr. Fred White.

The hon. secretary presented the committee's report, which stated that in the midst of all the confusion, austerity and uncertainty of the present time, the Association plodded along in quiet confidence, making progress, not very rapid, perhaps, but nevertheless very real and true.

'Conditions in almost all walks of life are fast changing. Be that as it may, we are proud of our calling and shall keep the bells of our churches pealing out their message Sunday by Sunday; and those who get joy from peal ringing, let them carry on with the good work, for good work it is if the striking is such as to give joy to the listening public, who, it must always be borne in mind, are quite justified in passing such comments as the performance deserves.'

An increase in practising membership was reported with a total of 903, including 75 juveniles, compared with 747 in 1946. New practising members enrolled during the year totalled 173, being 129 adults and 44 juveniles, made up as follows: Ashford district, 12 adults; Canterbury, 58 adults, 21 juveniles; Lewisham, 19 and 12; Maidstone, 14 and 7; Rochester, 12 and 4; Tonbridge, 14.

DEATHS.

The meeting stood in remembrance of the following: Canon G. C. E. Ryles, F. Woolway (captain of the Ightham band), W. Cullen (former captain of the Wrotham band); C. Tumber (captain of the Teynham band), E. Leigh (Edenbridge), Mrs. Beer (Gravesend) and Mrs. Farnsworth (Faversham).

Non-resident life members mentioned were the Rev. E. Bankes James, F. S. Bayley, Keith Hart, George W. Foster, Major J. H. B. Hesse, Rupert Richardson and J. Armiger Trollope.

CHANGES IN OFFICERS.

In the Ashford district, Mr. Tom Cullingworth had taken over the secretaryship in place of Mr. Percy Page, now one of the representatives for that district. In the Maidstone district, Mr. Waddington had succeeded Mr. C. Sone as co-representative with Mr. Cantrill. Mr. Ted Ruck, of Willesborough, and Mr. Charles Sone, of Linton, had been elected vice-presidents of the Association in recognition of their long and faithful service.

The Committee of Management had decided to meet the cost, not exceeding 10 gns., for renovating the Barham tombstone in Leeds Churchyard; to grant £10 towards the cost of retuning Wateringbury bells; £10 towards renovating the bells of St. John's, Sidcup; to create a new office of peal secretary; to appoint a sub-committee to deal with the proposed war record of Kent towers, bells and ringers, 1939-45; in future to record in the annual report the figures of all first performances on all numbers of bells.

Regarding the war record, a London firm of printers had offered to undertake the production of 750 booklets, which would enable them being sold at about 3s. 6d. per copy. At this figure expenses of production would be met.

The report concluded with the offer of congratulations to Mr. E. Barnett on completing 50 years' membership of the Association; he was still an active ringer and committeeman.

The report was adopted and the chairman extended a special welcome to Mr. T. Groombridge, sen.

Mr. F. M. Mitchell presented the treasurer's statement. The general account showed a balance of £81 19s. 2d., against £109 16s. 6d. at the beginning of the year, which, he said, was due to the expenses of the annual meeting of £92 6s. 7d., against members' subscriptions of £87 0s. 6d. The Benevolent Fund had a balance of £426 0s. 4d., including £31 15s. 7d. on the Helmore Memorial Fund. Eight grants had been made, totalling £34 9s. The balance on the Belfry Repair Fund was £226 17s. 1d. From this fund grants had been made of £5 to St. George's, Beckenham, and £25 to Canterbury Cathedral. Total assets were £1,214 9s. 9d.

PEAL RINGING.

The acting peal secretary (Mr. P. A. Corby) reported 136 peals during 1947, an increase of 11 on 1946. This improvement was attained in spite of the boost of a peal ringing tour in the county in the earlier year. This was only 15 short of the 1938 figure. The peals fell into 43 categories, against 30 categories in 1938. Fresh performances included the first peal ever rung of Eardley Surprise Major and the first for the Association of Belgrave and Belvedere Surprise Major.

There were 41 first peals, a highly gratifying increase, both on the rather poor total of 16 in 1946 and 24 of 1938.

Two peals, both of Grandsire Triples, called for special comment. At Aylesford on January 11th the Maidstone district secretary, Dr. E. S. J. Hatcher, called the first peal there by a local band since 1891. Not only was this Dr. Hatcher's first peal as conductor, but there were no fewer than five first peals and one first on a working bell. At Birchington on the Royal Wedding Day there were six first peals, including the conductor, Mr. Jack Russell. This was the more remarkable as the composition was Davies' five-part, which is not particularly easy for a first effort.

There were 40 conductors in 1947 against only 35 in 1946, but they were still short of the 1938 figure of 50. This was disappointing, they hoped that many more would-be conductors would take the plunge in 1948. Mr. E. A. Barnett was to be congratulated on heading the list for the first time with a handsome total of 16, scored in a notable variety of methods from Bob Major to Spliced Surprise Major in four methods. Mr. A. J. Lancefield had proved a worthy runner-up with 14.

Of the 219 towers with five or more bells, peals were rung in 65 as follows: Ashford district, 27 in 18 towers; Canterbury, 11 in 10; Lewisham, 46 in 8; Maidstone, 17 in 10; Rochester, 18 in 10; Tonbridge, 8 in 8. One peal was rung in Sussex and eight were rung 'in hand.'

In addition to the peals rung by the Association, the following were rung in the county by other associations: Royal Society of Cumberland Youths 4, Universities' Association 2, University of London Society 2, Ancient Society of College Youths, East Grinstead and District Guild and Hawkhurst and District Guild 1 each. They had once more secured their premier position on the Central Council's list, which they lost in 1939.

OFFICERS RE-ELECTED.

The officers were re-elected. Mr. George H. Spice, in acknowledging his re-election, thanked the district secretaries for their assistance and said it was pleasing to know that some towers had come back into union with the Association. They hoped to pass the 1,000 membership mark during the coming year. The next report would be a combined report for two years. They hoped to bring the 1947 portion up to date regarding tower practice nights and other details for which he asked for the co-operation of tower secretaries.

Mr. Spice also referred to the services of Mr. Alfred Hill, district secretary of the Lewisham district, in making arrangements for the meeting, and Mr. R. Jenkins for his work. He also extended the good wishes of the meeting to Mr. Jack Weedon, who celebrated his golden wedding in February to Mr. Charles Belsey, of Rainham, who had been captain for 52 years, and celebrated his diamond wedding on Wednesday, and Mr. Tom Jull, of Rochester, on his 75th birthday.

Mr. P. A. Corby was elected peal secretary.

Voting by show of hands for the election of four representatives on the Central Council resulted as follows: Mr. F. Mitchell 90, Mr. George Spice 87, Dr. Hatcher 60, Mr. T. Sone 56, Mr. E. A. Barnett 50. (Dr. Hatcher replaces Mr. E. A. Barnett, a former member of the Council.)

The following non-resident members were elected: Miss E. K. Fulton (Stanmore), Messrs. P. D. Beedie, H. G. Hart, W. Wenban and Ralph E. W. Wenban (Harrow Weald), T. J. Clark (Bushey).

Mr. Brett-Smith raised the question of increasing the annual subscription from 2s. to 3s.

Mr. George Cross thought that with assets amounting to £1,200 there was no need for such a step.

Mr. E. Barnett suggested that the matter should be deferred until next November.

The Chairman advised that the matter be left to the committee. Any change in subscription would mean an alteration in the rules and due notice would have to be given.

A vote of thanks was passed to the chairman for the expeditious manner he tackled a long agenda.

ST. DAVID'S DIOCESAN GUILD

An unusual procedure took place at the service in connection with the quarterly meeting of the Guild at St. Mary's, Haverfordwest, on March 13th. The organist, Mr. Rogers, opened the service by playing the first lead of Treble Bob Major on the organ. The Vicar (the Rev. Hugh Rees) officiated at the service and afterwards conducted the ringers round the church and explained the carvings and effigies.

Tea was followed by the business meeting, at which the Vicar presided. Forthcoming events announced were the annual competition of the Guild at Llandovery on May 1st; annual festival at St. Peter's, Carmarthen, on June 12th, at which the Archbishop of Wales, who is president of the Guild, will officiate; and the next quarterly meeting at St. Mary's, Tenby, on September 11th.

Five new ringing members and two honorary members were elected. The question of badges for members was discussed, and the chairman announced that he would raise the necessary sum required. This promise was greatly appreciated by the members.

Mr. D. H. Betts, who is compiling the year book of the Guild, hoped to have the books ready by the annual festival. A collection taken for the Bell Restoration Fund realised £1 13s. 4d.

LETTERS

Three Questions

AND A HOMILY ON SARCASM.

Dear Sir,—I always think it a very great pity when sarcasm creeps into criticism of the happenings of, not only our Exercise, but of anything else for that matter. Criticise, certainly, if we don't agree with it, but let it be constructive not just destructive, which is all that being sarcastic amounts to. It is especially sad when one finds this weapon being used by those who are among the accepted leaders of our art against their lesser brethren. Is that the way to help and encourage? Most certainly not, for nothing is more calculated to put the other person's back up and to make him persist in his error (if error it be). However, as one who is honestly trying to keep an open mind about things in general since I have so much to learn, may I ask the following questions, which I hope will be answered in the same honest spirit by someone?

(a) What is the objection to a 4ths place bob in Double Norwich if it is allowed in other methods?

(b) What is the objection to a Single in Treble Bob hunt methods, when it is allowed (but is not always necessary) in plain hunt methods? (It is interesting to note that at one time the greatest length of Kent Major, 9,120 changes, was brought round with a single!)

(c) What would be the objection to a 6ths place bob in Cambridge Major, especially as 6,400 changes are possible without parting the tenors if this is done? (Mr. B. Price has composed such a peal.)

As I have had previous occasion to emphasise, surely the first consideration is the truth of the changes. In ringing any method, the bells have to be placed in a different position by the use of bobs and singles to prevent repetition. Does it matter whether this is done by making 4ths or 6ths or any other place for that matter? I don't think so. However, as I said above, I am open to be convinced that it does matter. If it does, I hope someone will kindly give me the reason. — Yours sincerely, K. W. H. FELSTEAD.

Southampton.

PEALS AT CHOBHAM

Dear Sir,—In reply to Mr. Collins regarding peals at Chobham, I can assure him that several peals have been rung on the bells since they were made an octave in 1892. On October 22nd, 1910, I called a peal of Stedman Triples there to oblige the late Mr. Henry White, of Basingstoke, and all the band, excepting myself, have passed on. Another peal, Grandsire Triples, was on November 29th, 1919, when my brother, Ferris J. Shepherd, called Holt's Original.

Mr. Collins will forgive me if I point out that the bells were increased from five to six in 1880, and from six to eight in 1892.

Addlestone. WILLIAM SHEPHERD.

NOTE.—We also thank Mr. G. R. Newton and other readers for replies.—Editor.

EATON-SOCON PEAL

Dear Sir,—Please do not record the peal of Minor rung at Eaton-Socon on Saturday, Feb. 21st, 1948, labelled the Ely and Bedfordshire Associations as a Bedfordshire peal as only three of the ringers belong to this Association. The three other ringers are members of the Ely Diocesan Guild.—Yours sincerely,

F. J. PLUMMER, Hon. Sec.,
Bedfordshire Association.

Mr. P. Amos writes to rebut the claim of Mr. Eric Nobles to have rung the first peal at Alderton, Northamptonshire. The claim is 46 years late, he writes. 'I have records of a peal rung there in 1902, in which the late William Rogers, of St. Giles', Northampton, took part. And who is to prove that even the 1902 peal was the first? Before 1935 these five went anti-clockwise.'

QUARTER PEALS

INVITATION TO CENTRAL COUNCIL.

A proposal that the Central Council be asked to arrange a meeting of the Council at Cheltenham in the near future was passed at the annual meeting of the Association at Cirencester on Easter Monday. About 100 members attended.

The Master, the Rev. Marwood Paterson, presided, and spoke of his association with ringers over the last 25 years. His only wish was that clergy would take more interest in their ringers, as they were part of the church and should be classified as church workers. He had been very pleased to have been elected Master for the past year, but wished to tender his resignation for a more competent man.

The hon. secretary, reporting on a successful year, said membership stood at 861, an increase of 48. The number of affiliated towers was 80, against 46 last year. Forty-two peals had been rung for the Association during the past year and 25 members had scored their first peal.

The hon. treasurer gave his report. The general account showed a slight decrease, chiefly owing to the cost of the annual report.

Elected to serve on the Central Council were Messrs. Kynaston (Swindon), Price (Stonehouse), Skidmore (Bristol) and Williams (Cheltenham). Mr. W. B. Kynaston was unanimously elected Master and Mr. C. R. Harding (Bristol) hon. secretary. Other officers were re-elected. New vice-presidents are Messrs. Dyer (Cheltenham), J. Jefferies (Mangotsfield), P. C. Williams (Portishead) and Oakhill (Wotton-under-Edge).

The next annual meeting was proposed for Easter Monday, 1949, at St. Ambrose's, Bristol.

The service at the Parish Church was conducted by Canon Such, the Bishop of Gloucester giving the address. Speaking of the ringers as privileged persons doing a special job in calling people to worship, the Bishop hoped that after the ringers had called other people to church they would set an example and go themselves.

The Parish Church bells, also Watermoor bells, were again set going after tea, and the opinion of all who attended was that this meeting had been one of the best ever held by the Association.

SALISBURY DIOCESAN GUILD

NORTH DORSET BRANCH.

The branch's quarterly meeting at Durweston on March 13th attracted an attendance of 54. Introduced into the Guild service, conducted by the Rev. R. M. Taylor, were touches on handbells by a team conducted by Mr. E. Coward. The Rector (the Rev. H. L. Bowen) gave the address.

Following tea, the Rev. R. M. Taylor presided at the business meeting. The secretary submitted the balance sheet, which showed a credit balance of £9 9s. 8d. The appointment of the Rev. F. Ll. Edwards as Central Council representative was approved. New members elected were Misses B. Lambert and P. Cox, Messrs. A. Gray, H. Fryer, J. Puplett, J. Lodder, R. Helliar and B. Helliar (Thornford), D. Coward, C. Phillips, D. Milne and J. Tasker (Mere).

The sum of one guinea was voted towards renewing Thornford bell ropes. The meeting heard with regret of the illness of Mr. H. G. Rickett, leader of Durweston ringers. Votes of thanks included one to the ladies who had provided the tea.

HALIFAX AND DISTRICT ASSOCIATION

Placings in the six-bell contest at Kirkburton on March 20th were: 1 Liversedge, 86 faults; 2 Huddersfield, 108; 3 Shelley, 131; 4 Meltham, 236 (including penalties); 5 Friezland, 53 (rang out). The test was 600 changes.

The next contest will be on July 3rd, either at Marsden or Brighouse. Mixed bands, provided they are financial members of the Association, will be eligible to compete.

Leeds & District Society

NOMINATIONS DEFERRED.

The March meeting was held at Christ Church, Armley, on March 20th. The bells were rung up in peal and various methods were rung before the break for tea. Owing to a recital in the nearby Church Hall, ringing had to cease at 7.30 p.m., when the business meeting was held.

Mr. S. H. Barron (vice-president) deputised as chairman for the president, who was unable to be present.

Mr. H. Whitehouse (Armley) was elected a new member. The usual vote of thanks to the Vicar, churchwardens and local company was proposed by Mr. F. Hutchinson and seconded by Mr. T. Hill.

Owing to the small attendance, nominations for next year's officials were left over until the general meeting at Leeds Parish Church on May 1st. The auditors for this year's accounts, Mr. F. Hutchinson and Mr. J. W. Benten, were elected on the proposition of Mr. S. H. Barron, seconded by Mr. Parkinson.

THE C. T. COLES' MEMORIAL

The C. T. Coles Memorial Committee have decided that the memorial to the late general secretary of the Middlesex County Association and London Diocesan Guild will take the form of a bell to be installed at St. Mary's, Finchley. The existing six bells are to be augmented to eight and appeal is now made for further donations to meet this obligation to defray half of the cost. A further £100 is required, and now that a definite object has been decided upon, it is hoped that Mr. Coles' many friends and admirers throughout the country will wish to be associated with his memorial. St. Mary's, Finchley, was badly damaged by enemy action during the war, and has since raised a large sum of money required to install a new organ. One-half of the amount required for the proposed two new bells has also been raised. Donations should be sent to E. C. S. Turner, 41, Windsor Road, Ealing, W.5.

THE LADIES' GUILD

The annual meeting of the Western District was held at Corston on March 13th. There were over forty present at the service, and the Rev. J. W. Tunwell, Rector of Corston, gave an excellent address.

At a business meeting after tea, Mrs. H. Knight, vice-chairman, and Miss N. G. Williams, secretary, were re-elected. Mrs. Brown, Mrs. Bennett and Miss Emm were elected as the committee, and Mrs. Evans as representative to the Central Committee. Three new members were elected.

Votes of thanks were proposed to the Rector, organist, steeplekeeper, vice-chairman and secretary. Ringing afterwards continued until 7.30.

On holiday during the past week have been the Guild of Clerical Ringers with headquarters at Leicester. The party consisted of the Revs. A. D. H. Allan, J. F. Amies, J. H. B. Andrews, E. G. Benson, H. Benson, P. J. Boulsover, C. Carew Cox (president), Prebendary E. V. Cox, F. Ll. Edwards, R. F. Farrow, K. W. H. Felstead, N. E. Hope, R. H. Palmer, D. P. Roberts, B. F. Sheppard, R. D. St. J. Smith, A. G. G. Thurlow, W. H. R. Trewhella, W. M. K. Warren, C. Eliot Wigg, Canon R. F. Wilkinson.

A MATHEMATICAL THEORY OF CHANGE RINGING

RINGERS will be interested to hear of an article by Dr. R. A. Rankin (of Clare College, Cambridge) in the issue for January, 1948, of the Proceedings of the Cambridge Philosophical Society, entitled 'A Campanological Problem in Group Theory.' Dr. Rankin is not a ringer, but his interest in ringing was aroused by reading 'The Nine Tailors.'

Group Theory is that branch of mathematics which deals with the properties of Groups, a Group being defined as a collection of elements such that if any two elements are combined according to some definite rule, the resulting element is also contained in the same collection or Group. For instance, the finite operations (such as rotation about an axis, reflection across a plane, etc.), which when performed on some symmetrical figure bring that figure into coincidence with itself form a Group, for if any two operations (A and B) are performed successively on the figure, the result is the same as obtained by performing some third operation C. In other words, AB=C. All the permutations of a given number of bells will form a Group, a permutation such as 54231 being regarded *not* as a row of figures, but as an operation—in this case the operation of replacing 1 by 5, 2 by 4, and so on. It is obvious that all the permutations of, say, six bells form a Group, for if—in ringing language—we transpose any change by any other (that is, operate on one permutation with another), the result is a third change or permutation — which by definition must be a member of the Group. Sub-groups—that is, Groups complete in themselves, but part of a larger Group — are formed by all the even permutations on a given number of bells and also by all the odd permutations. There are various other Sub-groups —in particular, Sub-groups formed by the lead-heads or lead-ends of a given method.

Dr. Rankin sets himself the old problem—'Is a peal of Grandsire Triples possible with bobs alone?' In mathematical language, he considers the Group formed by the 360 lead-ends which must appear in a peal of Grandsire Triples, and then postulates two operators P and B, corresponding to Plain and Bobbed leads (i.e., the operations of transposition by 1253746 and 1752634 respectively). The problem is then—'Can the 360 members of this Group be joined together in a "chain" (in ringing parlance a Round Block) by the use of the two operators P and B alone?' The mathematical ramifications are considerable and for the most part of no direct interest to ringers, but a simple theorem soon emerges, application of which is straightforward, and shows at once that an extent of Grandsire Triples is not possible using bobs alone. Dr. Rankin also applies the theorem to obtain similar results for Union Triples, Double Norwich and Grandsire Cinques. The theorem—proved, of course, by precise reasoning—is, in fact, an exact expression of the generalisation known to ringers as the Law of Q-sets.

Most ringers will doubtless wonder whether it was worth while to spend so much time and energy, and to use such a refined technique, to prove something which was perfectly well known already. I believe that it was worth while, for Dr. Rankin's work is a landmark in that, to the best of my knowledge, it is the first time that precise mathematical methods have been applied to the study of change ringing—so often described by ringers as 'a strict mathematical science.' Admittedly, the results are no more than those obtained by W. H. Thompson over sixty years ago, but it is the method which is important. Thompson's work was qualitative — Dr. Rankin's is quantitative.

I have written to ask Dr. Rankin whether he was of the opinion that a general mathematical theory of change ringing could be constructed and whether, in particular, such a general theory could be applied to specific problems of composition in place of the somewhat ad hoc methods hitherto employed. His reply was that in his opinion it was a very difficult problem. Nevertheless, let us hope that Dr. Rankin's paper will stimulate more work on the subject in the future. One thing seems quite certain, and that is that by the very nature of the problem it is the methods of Group Theory which will have to be employed in any further advances. Group Theory is an invaluable tool in the theoretical treatment of problems of atomic, molecular

and nuclear physics, so that it is interesting to note that it is the same technique which has helped to lay bare the mysteries of the structure of matter—and hence to pave the way for the development of the atomic bomb and of atomic energy—which may in the future provide a strict theoretical foundation for the science of Campanology.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

Mr. F. Warrington, the 720 specialist, has 102 to his credit this year. Any challengers?

On March 28th, 1921, Mr. Frank W. Lack rang his first peal—27 years later to the day he rang his 27th!

Mr. F. C. W. Knight has completed the Grandsire family with peals in all methods from Doubles to Cinques.

Ringers of St. Peter's, Ash, Surrey, raised £23 for their bell restoration fund by means of a social on April 3rd. No less than £1,000 is required.

Acknowledging over 50 replies to a 'For Sale' notice, an advertiser states that he only replied to those who sent stamped addressed envelopes.

Bournemouth Ringers' Rally plans are going ahead. The dinner on April 24th will be at Gervis Hall and not St. Peter's Hall as previously arranged.

The peal of Stedman Triples at St. Matthew's, Walsall, on March 18th, was the first peal of Triples on the bells since being recast and augmented in 1929.

The peal at Birch-in-Rusholme, with five first peals, was for the wedding of the tower secretary, Mr. Norman Williamson, to Miss Muriel Phillips.

Miss Erica Hatton-Owen, of St. Chad's, Shrewsbury, was the recipient of a cocktail shaker from her fellow ringers on the occasion of her wedding on April 3rd. Ringing included a peal of Minor at St. Michael's, Shrewsbury.

All friends will be sorry to hear Mr. Tom Groombridge, jun., is in hospital suffering from pneumonia. He collapsed when nearing the end of Stedman Cinques at Lincoln on Easter Monday. A line from anyone to Simpson 2 Ward, City Hospital, Nottingham, would cheer.

A silver bell and fittings adorned the wedding cake of Miss Margaret Telford at Keswick. Much amusement was caused at the reception when ringers present tried 'setting it in one.' After the speeches the newly-weds rang three leads of Oxford Treble Bob Major with Mr. and Mrs. E. A. Barnett.

After 18 months in hospital with infantile paralysis, Mr. R. Wilcocks, of Doncaster, is making good progress and was able to spend an evening with members of the Doncaster and District Society. To the delight of his friends he was able to ring touches on the handbells.

Taking a very active part at the meeting at Walthamstow of the S.W. Division of the Essex Association was Ted Bacon (Loughton), who celebrates his 84th birthday on April 17th. Ted rang his first peal at Walthamstow 60 years ago.

One of Mr. G. Lindoff's band that made history in ringing the first peals of Surprise for the Kent County Association in 1893 died on March 31st in the person of Mr. W. E. Easter, of Gillingham. Until the end of 1945 he was a member of Rochester Cathedral band. Mr. Easter rang about 56 peals, his last being in 1914.

Somewhat belated is the claim that the first peal of Cambridge Royal at West Ham on March 6th was the first peal of Surprise on the bells. Mr. Reuben Sanders recalls ringing a peal of Cambridge Royal on July 9th, 1914, which was the first on the bells, and also a peal of Middlesex Surprise Royal on December 2nd, 1922. Both peals were composed and conducted by the late William Pye.

Bath and Wells Association

MEMBERSHIP REACHES 1,431.

About 140 members attended the annual meeting of the Association at Bath on Easter Monday. The service in the Cathedral was conducted by the Archdeacon of Wells (the Ven. J. N. Higgins), and the address given by the Bishop (Dr. Bradfield), who spoke of the work of ringers as witnesses—not only by calling people to church, but by their lives.

Following lunch, Preb. A. J. Hook, the Master, presided at the business meeting. Officers elected were Preb. Hook, Master; Mr. J. T. Dyke, hon. secretary; Mr. W. A. Osborn, belfries adviser; Mr. F. C. Andrews, auditor.

The secretary reported that the finances were sound and could be kept so if a report was printed once in two years. The 140 peals which were rung during the period would cost some £40 to print. The balance at the bank was £126 13s. 11d. 'I am convinced that we owe our proud position of having probably the largest membership of any territorial or diocesan ringing guild to the fact that we have kept our subscription low at only 1s. 6d.'

The Master's report showed that 169 towers with 1,431 members comprised the minimum strength of the Association. This number did not include towers temporarily lapsed nor most of those members elected since the close of 1947. One branch had started a corporate communion.

Evercreech and Mark were increasing the number of their bells respectively to ten and eight, while work on the bells was contemplated at Yatton, Montacute, Weare, Ashcott and many others. There was a problem when recasting was essential of a pre-Reformation bell. Should it be recast or preserved as a museum piece somewhere in the church? The Advisory Committee did not like either alternative and felt that a bell that had been in use in the church for perhaps 500 years ought to be preserved and used. Where possible, the committee counselled, the bell should be hung separately, so that it could be chimed for daily services or used as a sacring bell.

The general secretary had been in correspondence with the B.B.C. about broadcast ringing, and a better understanding had been reached. He had also begun to get ringing literature into the County Library. It would be a good thing if ringers would apply for ringing books either directly to the County Library at Bridgwater or through their local branch.

A lively discussion was initiated by Mr. S. S. Woodburn, who thought that touches at meetings should not be longer than 168 changes. He found some support, but it was pointed out that such a length would cut out many methods.

Ringing took place at the Cathedral, St. Cuthbert's, Glastonbury, Chewton Mendip, Croscombe and Dinder. The 'go' of the Cathedral bells, recently rehung by Messrs. Mears and Stainbank, received favourable comments.

TWO CORNISH DEDICATIONS

Cornwall had two augmented rings ready for Easter. On March 20th the Bishop (Dr. J. W. Hunkin) dedicated two trebles which have been added to the six at Kilkhampton in the north-east corner of the diocese. This six was hung in a new frame by Messrs. Gillett and Johnston in 1925 in one of Cornwall's highest towers, the tenor being 11¾ cwt. The two trebles have been cast and hung by Messrs. Taylor and Co., and this most useful ring is the 41st eight in the diocese.

On Easter Eve, March 27th, the Bishop dedicated the rehung five and a new treble at Lesnewth. The five bells have been retuned and supplied with new fittings and ball bearings. The new treble has been named 'Victory Bell,' part of the cost having been bequeathed by the late Rev. H. C. Naldwin, Rector of the parish 1901 to 1919. This restoration has also been carried out by Messrs. Taylor and Co.

Norwich Diocesan Association

CONCESSION TO OLD AGE PENSIONERS.

The annual meeting was held at Norwich on Easter Monday. During the day the bells of Mancroft, St. Giles', St. Miles' and St. John-de-Sepulchre were rung to a variety of methods.

The service was held at Mancroft at noon, and a fine sermon was preached by the Rev. W. G. Bridge, Vicar of Wighton, and president of the West Norfolk Branch. Lunch was served at the Samson and Hercules, and was much better attended than last year, 95 being present, as against 61 in 1947.

At the business meeting the officers were elected as follows: President, Rev. A. St. J. Heard; general secretary and treasurer, Rev. A. G. G. Thurlow; vice-presidents re-elected, with the addition of Mr. W. L. Duffield and Mr. G. Burton, who is retiring from being auditor, which post he has held for 40 years. His place as auditor was taken by Mr. G. Fletcher. Mr. Nolan Golden was re-elected Ringing Master.

The Standing Committee was re-elected with the exception of Mr. G. Fletcher, who, having become chairman of the East Norfolk Branch, is replaced on the Standing Committee by Mrs. Fletcher.

New members elected included H. V. Lovick and D. G. Bailey (Wroxham), C. Catchpole (Dickleburgh), and Mr. Ben Thompson was re-elected.

Notice was given that next year it would be proposed to abolish the annual subscription for members who had reached pensionable age. The accounts were presented, showing that expenditure last year was £11 over receipts. As it is difficult to see where economies can be effected, the future calls for serious thought. More attention to payment of subscriptions by members who have not done so will make a great difference.

At the conclusion of the meeting the general secretary quickly sold out the small supply he had brought of the second edition of his book on Norwich bells and ringers. Copies may be ordered by post, 5s. each.

BEDFORDSHIRE ASSOCIATION

LIBRARY TO BE FORMED.

The annual meeting of the Bedfordshire Association was held at Bedford on Easter Monday. The bells of St. Paul's and St. Peter's were available, and ringers from all over the county and many visitors attended in good strength throughout the day and large varieties of methods were rung.

A break in ringing was made for lunch, which this year was provided by Miss Gilbert and Mr. Foskett. Their efforts were an outstanding success. Best thanks to the organisers for giving their services.

The business meeting was presided over by the president, Miss Steel. Apologies for absence were read from Canon Rust, Mr. Nicholls and Mr. Hillyard. The annual reports, committee's report and balance sheet were adopted, the balance in hand being £7 above that of last year.

All the officers were re-elected and thanked for their past services. The representatives to the Central Council were elected and instructed to oppose the suggestion to hold the 1949 Council meeting in Ireland.

The summer festival was fixed for Kempston in July.

The secretary gave an account of the work of collecting the missing Association records, which has been completed with the help of Mr. Hooton, the Central Council librarian. Mr. Whitney was responsible for the printing and supervised the binding of the reports into three volumes.

A discussion followed about the formation of an Association Library, and it was agreed to accept the proposal of Mr. Foskett to make St. Paul's tower the library centre. Mr. Foskett was elected as librarian. Three new members were elected.

Miss Steel thanked all who had helped to make the meeting such a success.

LETTERS

PEAL WITHDRAWN

Dear Sir,—I wish to withdraw the peal of Kent Treble Bob Major, 5,024 changes, by F. Robinson, rung at Prittlewell on February 7th, 1948, as it is false. To the band, and especially to the treble ringer, whose first peal of Major it should have been, I tender my sincere apology.—Yours truly,

Prittlewell. FRANK B. LUFKIN.

EATON SOCON PEAL

Dear Sir,—The peal of Bob Minor rung at Eaton Socon on February 16th, 1948, should be credited to the Ely Diocesan Association and not to Ely and Bedfordshire as sent in. The definition of this peal is seven 720's each called differently, independently, and not as one of the conductors of the Ely Association called his peal of Bob Minor seven 720's each being 18 bobs, two singles, commonly known as the old 'Grandfather.'—Yours truly,

FRANK WARRINGTON.

St. Ives, Hunts.

SUPERLATIVE SURPRISE

Dear Sir,—If Mr. E. W. Pye would be kind enough to say where the peal of Superlative with seven pairs of bells reversed in 5-6 recently appearing under my name may be found ascribed to Ernest Pye, I will be happy to withdraw all claim to it, but I doubt whether it was ever published as his peal.

This doubt is reinforced by the fact that one composition only of Ernest Pye's has been rung —a 5,152 of Superlative on page 84 of the 1914 Middlesex Report. This peal is merely a three course touch 'padded out' by blocks of 3H, with bobs Middle added to convert the whole into a three-part peal. The same composition is given in 'Surprise Methods,' page 39, as the production of John Cox in 1854.—Yours faithfully, E. A. BARNETT.

ORIGINALITY OF COMPOSITIONS

Dear Sir,—Dispute over the authorship of a certain composition has been an ever occurring problem in the history of ringing. It has arisen recently with regard to peals of Superlative. An interesting King's Bench Division judgment, given recently on permutations, appears to apply to compositions.

A well-known football pool permutation expert recently brought an action against a newspaper for alleged infringement of copyright in some of his pools tables. Judgment was given against him, the learned Judge passing the following comment: 'Copyright in the table did not mean copyright in the underlying idea or principle. It meant that no other person had the right, without the plaintiff's consent, to copy it. That did not prevent any individual from working out a similar table, and finding a similar solution, *so long as it was his own work.*'

Surely, then, if a composer arrives at a particular composition *by his own efforts*, he is just as much entitled to claim the peal as his own as anyone who has discovered the plan before. A. PATRICK CANNON.

Betchworth, Surrey.

WYLEBORE DAY

Wylebore Day (March 15th) was observed at St. John's, Peterborough, by 1,260 Grandsire Triples by A. Warner 1, W. Rose (cond.) 2, S. Wright 3, G. Bush 4, W. Waldron 5, H. Goakes 6, N. Chaddock 7, A. Joyce 8. Wylebore was a fellow of Christ Church, Cambridge, and M.P. for Peterborough. He was lost in the marshland outside the city and was piloted to safety by the sound of St. John's bells. When he died on March 15th, 1785, he left a piece of land, the rent of which amounts to about £7. He directed that the Vicar should hold a short service in his memory, for which he was to receive one guinea, the bells to be rung and the ringers to receive £5, the remainder to provide bread for the poor.

Miss Margaret Telford Married

A ringers' wedding of outstanding interest took place at Crosthwaite Church, Keswick, on March 31st, between Miss Margaret Dorothy Telford, daughter of Mrs. E. E. Telford and the late Mr. H. Telford, of Eleven Trees, Keswick, and Mr. Christopher Weldon Woolley, second son of the late Rev. H. B. Woolley, for many years Rector of Long Stanton, Cambs, and the late Mrs. H. B. Woolley. The Rector, the Rev. G. K. Carpenter, officiated, assisted by the Rev. A. G. G. Thurlow, who gave the address.

The bride, who was given away by her half-brother, Mr. Norman Telford, was attired in a dress of white nylon net, embroidered with lilies-of-the-valley, and carried a bouquet of blue iris. Her attendants were Miss Jean Barnett, of Crayford, who was dressed in a long frock of pale blue ninon with pearl Juliet cap, and Master Anthony Telford, of Hull, nephew of the bride. The best man was Mr. Michael Thorogood, of Luton, cousin of the bridegroom. The reception was held at the Royal Oak Hotel.

The bells of Crosthwaite Church were rung by the local band before and after the wedding, and later in the day eight of the guests accomplished a peal of Kent Treble Bob Major, the band including members of the Cambridge University Guild and the Oxford University Society. Indeed, a certain amount of inter-university rivalry was noticeable throughout the event!

Mr. and Mrs. Woolley's future home will be at Bushey.

ELY DIOCESAN ASSOCIATION

A large number of ringers from a wide area gathered in Cambridge on Easter Monday on the occasion of the annual meeting of the Association. The bells of Great St. Mary's, Great St. Andrew's, St. Benet's and the R.C. Church were freely used throughout the day.

Shortened evensong at Great St. Mary's was conducted by the Vicar (Canon G. E. A. Whitworth), who after tea presided at the business meeting, held in the Consistory Court.

The report and balance sheet for 1947, the jubilee year of the Association, was presented and adopted.

Officers elected were: General secretary and treasurer, Mr. W. W. Cousins; auditor, Mr. T. R. Dennis; and the Diocesan Committee were re-elected, with the addition of Mr. M. Ginn, of Over. The triennial election of Central Council representatives resulted in the appointment of Mr. C. Cook and Mr. E. H. Mastin.

After discussion it was agreed to elect a peal secretary, to whom peal compositions rung for the Association should be submitted. Mr. M. Thurmott, of Ely, was elected to this office. Next year the annual general meeting will be held at St. Neots.

A QUESTION FOR RECORDS

Dear Sir,—I venture to suggest that if Mr. Ernest Pye will look more carefully at the peal of Superlative to which you refer in 'Belfry Gossip' he will probably find that his uncle's composition does not include the reversing of seven pairs.

If, however, he does find after a further check that Mr. Barnett has, in fact, reproduced an earlier peal, I shall be glad if he will kindly furnish particulars of when and where the peal was first rung and published. If it has not been published in any association report or any of the ringing journals, perhaps he would be kind enough to let me have a sight of the original document so that I can make the necessary adjustment to the Kent peal records.—Yours faithfully,

P. A. CORBY, Peal Secretary,
Kent County Association.

Mr. Harry Burnett, of St. Stephen's, Bristol, is anxious for the loan of reports of the Gloucester and Bristol Association for the years 1927-1931.

First rung at Frodsham, Cheshire, on Jan. 27th.

Up to the end of 1946 the band at Shepton Beauchamp, Somerset, had been almost 'stoney.' The peal on Easter Day was the first on the bells by local Sunday service ringers. The majority of the band have peals of Doubles and Plain Bob Minor to their credit and are now making rapid progress with Major. The peal was for the 28th wedding anniversary of Mr. and Mrs. A. H. Drayton.

SOUTHOVER BELLS AND RINGERS

TWO interesting documents are to hand this week. The first is a letter from the Rev. D. G. Matthews, Rector, appealing for £250 to enable Southover bells, upon which the founder of this journal learned to ring, to be rehung. Donations, he states, will be gratefully received by Mr. A. Neal, Durlston, Rotten Row, Lewes. This restoration fund, we know, will be of special interest to our readers.

The second is the manuscript of a lecture by George P. Elphick on 'Southover Church: its bells and ringers.' Space will not permit of its reproduction, but it provides on insight into ringing in this Sussex village. The bells (the finest ring of 10 in Sussex) that require the attention of the bellhanger to-day were cast by Thomas Mears in 1839, with a new frame constructed by William Markwick, of Uckfield. The bells were opened on Monday, October 28th, 1839, by the local ringers at 11 a.m., and ringing continued for the rest of the morning. In the afternoon a quarter-peal of Grandsire Triples was rung by a band from Brighton, conducted by a Mr. Tester, followed by touches being rung by bands from Uckfield, Waldron and Chailey. This bears witness to the enthusiasm that ringers of a hundred years ago possessed for a bell opening to be held during working time.

One of the company present was Mr. Thomas Goldsmith, the Parish Clerk. He possessed a copy of Shipway's 'Treatise on Ringing,' which is now in the library of Guildford Diocesan Guild. By trade he was a wheelwright, having his workshop opposite the church, and was also the first licensee of the King's Head. His son, John Goldsmith, followed both his father's trade and also took over the inn.

One of the earliest peal boards remaining in the tower records a peal of Holt's Original rung by the Lewes Society of Change Ringers on December 6th, 1869. The band was T. Goldsmith 1, J. Brooks 2, C. Warner 3, J. Pryor 4, J. Goldsmith 5, J. Box 6, J. Acton 7, C. Wren 8. Thomas Goldsmith on the treble was one of the company in 1839 when the bells were opened. He was 65 years old and this is the only record of his having rung a peal. Thomas died when he reached his three score years and ten on April 12th, 1875, and was buried alongside of the tower of his beloved church, leaving his son, John, who rang the sixth in the 1869 peal, to carry on. On January 13th, 1878, John was presented with a son by Emma, his second wife, who was a Devonshire woman. He was christened John Sparkes, his second Christian name being his mother's maiden name. Little did his parents dream of the vital part he would be called upon to play in the Exercise. Of him it may be said he had ringing in his blood.

A revival of change ringing at Southover was mainly the work of three men, Robert James Dawe, Alfred John Turner and John Sparkes Goldsmith. Alfred Turner, who was born in 1872 and had only one eye, taught Jack Goldsmith to handle a bell. He rang 387 peals and was a Royal Cumberland Youth. The first reference to Jack Goldsmith with regard to ringing was in 1887, when at the age of nine he was given permission to be released from Southover Day School for a quarter of an hour on saints' days to chime a bell for the 11 o'clock service. His mother was parish clerk, which office she took over on the death of his father when he was six, and consequently it was his mother who inspired and insisted that he should become a ringer. His first peal, Holt's ten-part, on which he took the treble, was rung on April 8th, 1893. He was 16 when he called his first peal, and he called his first of Superlative on his 21st birthday at Southover, a few weeks after the ringing of his 100th peal at Arundel.

Of Robert John Dawe, Mr. Elphick writes he began his ringing career at Southover in 1889 and was a carpenter and joiner by trade. About that time the Rev. C. D. P. Davies was a curate at Ringmer, a village three miles from Lewes, and these youngsters used to tramp over to Ringmer each week. Bob never forgot the dressing down the Rev. Davies gave him for learning Grandsire Doubles by heart. One of the latter's favourite tricks was to jump across the tower to an offender if he did not do as he was told in double quick time. Another of his peculiar habits was to take off his shirt for ringing. Bob Dawe rang in all 483 peals, over 160 being rung at Southover.

BELFRY GOSSIP

Miss Enid Walklate and Mr. Geoffrey E. Watson had rung 13 peals together. To quell superstition worries they stood in a peal of Plain Bob Major at Rothwell, Northants, two days before their wedding.

This week's 'circler': Mr. Frank Warrington, Holywell, Hunts.

Mr. John Hogg, who participated in a peal of Grandsire Triples at Leeds Parish Church, had not rung a peal for 37 years.

Mr. Arthur V. Pearson reached his century of peals at Coalbrookdale (reported last week). It was the 63rd tower in which he has rung a peal.

The first peal on the bells of Christchurch Priory was called 60 years ago last Easter Monday by Mr. George Williams. He believes he is the only survivor.

Mr. Ernest Morris' latest literary effort is the history of St. Margaret's Select Vestry, Leicester, a valuable piece of research. We note that one of his predecessors was sentenced to 15 years' transportation for a matter of £20!

Mr. William Manser scored his first peal at the age of 73, after serving for 43 years as a ringer at Barming, Kent. Three of his sons also stood in the peal, which was the first peal for two of them.

There was a 'silvery' note about Harwell bells on April 2nd, the peal being a compliment to Mr. H. K. White, chairman of the Hagbourne ringers, on the occasion of his silver wedding.

To mark the completion of Canon M. Paterson's term of office as Master of the Gloucester and Bristol Diocesan Association, a peal of Stedman Caters was rung at St. Mary's, Redcliffe, on March 30th. A great friend of Bristol ringers, his motto during his 25 years at St. Thomas' has been to 'bring the church near the ringers and the ringers nearer the church.'

The St. Mary's, Walthamstow, ringers extend an invitation to all friends to attend the unveiling of a peal board on Saturday, May 1st, at 4 p.m., to the memory of Capt. Frederick Coles, M.C. (son of the late Mr. C. T. Coles), who was killed in action in Tunisia. There will be an opportunity to ring on the recently rehung bells after the service and during the evening.

A question is raised by Mr. F. C. W. Knight regarding the peal at Foot's Cray, Kent, in 2 hours and 9 mins. Is this the quickest peal on five bells yet rung? These bells were hung over 100 years ago and this is only the third peal.

It has distressed the Editor 'to spike' so many Easter quarters. Will the weekly quarter specialists please realise it is an endeavour to make way for new names and towers in this column?

The earliest quarter this Easter is claimed by Wickhambreaux, five miles from Canterbury, 1,260 Plain Bob Minor being rung by 6 a.m. Ringers were P. Newing 1, F. Ellen 2, S. Walter 3, A. C. Philpot (who cycled from Canterbury) 4, E. Wood 5, S. G. White (cond.) 6. It was a first quarter for 1 and 2.

Sympathy will be extended to Mr. A. J. Corrigan. He has been busy getting out a complete collection of Surprise Majors, nearly 400 of them. A big fire at the printing works destroyed much of the type. However, he hopes to publish the result of his handiwork and research next month.

A diversion from usual routine proved very successful at the Barwell meeting of the Leicester Guild. During the closing stages of the tea, a party of 68 was entertained by the Earl Shilton Male Voice Choir for half an hour. The conductor was Mr. T. C. Belton, a ringer at the local tower and parochial lay reader.

A verbal report, presented by Mr. E. A. Young, was seconded by Mr. A. Paddon Smith and adopted.

It was also agreed to pay the usual fees to the demonstrator and to allow the trustees to expend a sum up to £1 on necessary repairs.

REPORT OF THE STANDING COMMITTEE.

A formal report by the committee as to their recommendations was adopted on the motion of Mr. G. W. Fletcher, seconded by Mr. A. Paddon Smith.

REPORT OF THE PEAL COLLECTION COMMITTEE.

The committee reported that the collection of Triples and Major compositions was expected to be ready for presentation to the Council in 1948. Under the powers granted, Mr. E. A. Barnett had been co-opted.

The report was adopted on the proposal of Mr. G. R. Newton, seconded by Mr. E. A. Barnett.

REPORT OF THE METHODS COMMITTEE.

Mr. Turner reported that the committee continued to answer the many questions received concerning methods and compositions.

The report was adopted on the motion of Mr. E. C. S. Turner, seconded by Mr. A. Walker.

REPORT OF THE PEAL ANALYSIS COMMITTEE.

The report was presented by Mr. C. Dean, and the committee drew attention to the exclusion of certain peals which did not conform to the usual ringing practice in the Exercise, i.e., a peal of Minor in which the conductor did not take a physical part, a peal of Minor with a covering tenor, and a peal of Kent Treble Bob Major with a covering tenor.

The adoption was seconded by Mr. W. Ayre and carried.

REPORT OF THE RECORDS COMMITTEE.

A report of new methods and progressive lengths was adopted on the proposal of Mrs. E. K. Fletcher, seconded by Mr. E. C. S. Turner. Conductors were again urged to forward particulars of all new methods and compositions of progressive lengths.

REPORT OF THE TOWERS AND BELFRIES COMMITTEE.

Mr. E. H. Lewis reported at length on the work of the committee during the year, and in particular the matters he had dealt with. A further report was given by Mr. F. Sharpe.

On the motion of Mr. E. H. Lewis, seconded by Mr. F. Sharpe, the report was adopted, and it was agreed to add Mr. W. A. Osborn to the committee.

It was further agreed to obtain a photographic copy of the Book of Calculations of horizontal and vertical forces, by Mr. E. H. Lewis, which was now accepted as the standard theory on the subject.

REPORT OF LITERATURE, PRESS AND BROADCASTING COMMITTEE.

The report, see 'Ringing World' June 13th, 1947, was adopted on the motion of the Rev. F. Ll. Edwards, seconded by Mr. A. Walker.

The committee invited those arranging broadcasts to acquaint 'The Ringing World' of the date and time.

REPORT OF THE PEAL BOARDS COMMITTEE.

A verbal report that progress was being made was adopted on the motion of Mr. W. Ayre, seconded by Mr. P. Crook.

REPORT OF THE BIOGRAPHIES COMMITTEE.

Mr. Hazelden reported on the work now being done with a view to making the records more complete. The report was adopted on his motion, seconded by Mr. F. I. Hairs. Permission was granted to expend moneys on copying photographs sent on loan.

REPORT OF 'THE RINGING WORLD' COMMITTEE.

The Hon. Secretary presented the accounts for the year to September 30th, 1946, showing revenue of £1,918 11s. 7d. and a profit of £158 9s. 7d.

The accounts were adopted on the proposal of Mr. A. D. Barker, seconded by Mr. C. H. Kippin, and it was agreed that future accounts be made up to December 31st. Congratulations were extended to the Editor, Mr. White, for his excellent work.

It was agreed on the motion of Mr. G. W. Fletcher, seconded by the Rev. F. Ll. Edwards, that the sum of £1 per week be paid to Mr. J. A. Trollope, and the matter be again reviewed at the next meeting.

It was further agreed on the proposal of Mr. F. Perrens, seconded by Mr. F. I. Hairs, that the accounts be circulated to all Associations.

REVISION OF RULES.

On the motion of Mr. P. J. Johnson, seconded by the Rev. H. Drake, it was resolved that the Standing Committee be asked to consider the present rules of the Council and to make recommendations.

HANDBOOK.

On the motion of Mr. J. P. Fidler, seconded by Mr. F. E. Dukes, permission was given to expend moneys on printing a handbook to be prepared and approved by the Standing Committee.

PLACE OF NEXT MEETING.

It was announced that in accordance with rule, the next meeting would be held in London.

ROLL OF HONOUR.

On the motion of the Hon. Secretary, seconded by Mr. E. A. Young, it was agreed to ask the Standing Committee to appoint a sub-committee to consider the preparation of this roll.

MEMORIALS.

On the proposal of Mr. E. C. S. Turner, seconded by Mr. A. B. Peck, the sum of £3 3s. was voted to the memorial being raised in memory of the late C. T. Coles.

VOTES OF THANKS.

On the President's motion, thanks were accorded to the Mayor for his welcome and use of the Council Chamber, the Lord Bishop of Exeter for his welcome, the Dean and Chapter for the use of the Cathedral bells, Archdeacon Thompson for conducting members through the Cathedral, the incumbents of the various churches for the use of bells, and tower-keepers for arrangements, the Devon Guild for hospitality, and the committee, particularly Mr. F. C. Smale and Mr. E. W. Biffen, for arrangements, and to Mr. and Mrs. Stokes for their delightful hospitality.

It was further agreed that the sum of £5 5s. be forwarded to the Cathedral Damage Fund.

MORTON, DERBY.—On Good Friday, 1,260 Minor (120 Little Bob, 120 St. Clement's, 180 Plain Bob, 240 Kent Treble Bob, 240 Oxford Treble Bob, 360 Cambridge): E. Gough (16) 1, G. E. Holdgate (17) 2, P. H. Wright (17) 3, R. M. E. Richards (15) 4, E. J. Sterland (17) 5, B. A. Richards (17) (cond.) 6. First quarter in six methods by all the band.

Worcestershire and Districts

MR. C. SKIDMORE THE NEW MASTER.

The annual meeting of the Association, held at Worcester on Easter Monday, attracted a good attendance, a feature being the number of young ringers present. Service in All Saints' at 11 a.m. was conducted by the clerical secretary (the Rev. H. Hartley), together with the Dean of Worcester (the Very Rev. Arthur Davies) and the Rector of All Saints' (Bishop Lasbrey), with the Rev. Wayle at the organ.

The Dean as president presided at the general meeting in College Hall, when the report of the committee stated that grants from the Belfry Repairs Fund of £10 each had been made to the rehanging of Beoley bells and to the addition of two trebles at Norton. The Master (Mr. S. T. Holt) reported that a peal of Spliced Surprise had been rung at Selly Oak as the annual peal, several of the band ringing their first peal of 'spliced.' In the absence of the librarian (Mr. C. W. Cooper), his report was read by the secretary, who again reminded members of the facilities provided for the loan of books.

The Dean was unanimously re-elected president, and the Rev. J. R. Bamber and Mr. W. B. Cartwright added to the list of clerical and lay vice-presidents respectively. After holding the office for the past ten years, the Master, Mr. S. T. Holt, expressed a wish to resign, and Mr. C. Skidmore, of Brierley Hill, was elected his successor. Several members spoke in appreciative terms of Mr. Holt's services to ringing and to the Association, and it was decided to record this on the minutes. Following a chance remark by the chairman, it was felt that the description 'clerical secretary' was something of a misnomer, and it was decided to alter this to 'chaplain,' the Rev. H. Hartley being unanimously re-elected. Mr. J. D. Johnson was re-elected secretary and treasurer and all remaining officers re-elected.

Worcester was again chosen for the next meeting, and arrangements for the annual peal left to the new Master. Twelve new performing members from Leigh were elected, forming the first band here for many years.

Mr. J. R. Newman spoke of the number of closed churches having rings of bells in the city, with special reference to the ring of eight at St. Helen's, and spoke of a case where he understood a single bell had already left the county. It was decided that the secretary should write to the two Archdeacons, with a copy to the Lord Bishop, asking that such bells be retained within the diocese, and go to churches requiring fresh rings.

During the afternoon and evening bells available for ringing were: Cathedral (12), All Saints' and Claines (10), St. John's and Hallow (8).

DERBYSHIRE ASSOCIATION

NINE OLD RINGERS HONOURED.

The annual meeting was held at Derby on April 3rd, when the towers of the Cathedral, St. Alkmund's and St. Peter's were open for ringing. Tea was provided in St. Peter's Parochial Hall, at which about 60 ringers and friends attended.

The Right Rev. R. S. M. O'Ferrall, Assistant Bishop of Derby, presided at the business meeting, at which the retiring officers were re-elected. Mr. Gordon Briggs, of Staveley, was elected Central Council representative.

The annual report was presented by the secretary (Mr. W. Lancaster), with the financial statement, and failing any adverse criticism, the report was adopted.

Mr. Wilfred Slater, of the Cathedral, was elected to membership, and nine old ringers were honoured by election to honorary life membership, namely, E. C. Gobey, Robert Cox, J. Ward, Richard Drage, H. Fletcher, A. Ward, C. Davies, A. Sherwood and T. Underwood, all these having rendered yeoman service to ringing in general.

It was decided at the next annual meeting to hold a short service in the Cathedral, the president promising to be responsible for the arrangements.

LETTERS

SPLICED TRIPLES

Dear Sir,—I was interested to note the peal of four Spliced Triple methods rung at Hastings. This prompts me to ask if more than four methods with two hunts can be spliced, and how many changes of method were made.

Would it be possible for the composition to be published or sent to me?—Yours faithfully,

J. W. GRIFFITHS.

ENGLISHMAN'S MUSIC

Dear Sir,—A programme entitled 'The Englishman's Music' is being broadcast by the B.B.C. on St. George's Day, April 23rd, which includes bells, both tower and hand. I sincerely hope that all ringers, together with those who love the sound of bells, will inform the B.B.C. of their opinion of the programme. Fans of other types of programme don't fail to send in their opinions; therefore, let us convince the B.B.C. that there are thousands of us who enjoy listening to bells sending forth their message of peace and goodwill over our beloved English countryside.—Yours, etc.,

LESLIE MILLS.

Bures, Suffolk.

PEAL SNATCHERS

Dear Sir,—What exactly is the meaning of the term 'Peal Snatcher.' Is it eulogistic or opprobrious? Would you say those great leaders of those great companies at Leicester, Birmingham or Lincoln are peal snatchers? If so the term must be eulogistic. Or would you say a district like this Canterbury District of the Kent County Association consisted of peal snatchers? They rang only four peals in 1947 out of a total of 151 for their Association. This incidentally was above the average for the past years. This term was used to me in a letter recently written by a ringer at Canterbury Cathedral and I am in a dilemma. I do not know whether to regard it as a term of eulogy or opprobrium.—Thanking you, yours faithfully, W. BOTTRILL.

Deal, Kent.

SURPRISE METHOD NOMENCLATURE

Sir,—A method first rung in 1907 as 'Superlative Surprise, Rochester variation'—Superlative with the whole pull moved from seventh's to the lead—has recently been rung again and the point arises as to what the method should be called.

It is the accepted practice for a band to name a method that is rung for the first time. History also tells us that a split lead method acquires a new name—Yorkshire and Belgrave, for example. It seems logical that this should be so, for the work of the parent method is somewhat drastically changed in its offspring. The obvious name for the method under discussion is Rochester, but this was appropriated in 1924 by the Leiston men when they were threatening to exhaust all the place-names in the country. Perhaps Southgate would be acceptable since the method was first rung there.

The Exercise may possibly pardon those responsible if the 'Rochester variation of Superlative' is renamed Southgate. To do this is setting no precedent, for the Central Council Methods Committee very rightly renamed a number of Minor methods of the comic variety, and at least one Royal method has taken on a territorial name in place of a purely personal one.

It is surely unfortunate in the first place that the name Superlative was chosen, but there followed Champion. Premier and Supreme—names which do not appear in their literal sense justified. And we still tolerate Primrose—though, mercifully, few breathe the name—and at least two methods were named after princesses. The reform of our Surprise method nomenclature certainly appears to be overdue.—Yours faithfully,

Norwich. NOLAN GOLDEN.

ATTEMPT ON HANDBELL RECORD

Dear Sir,—I wish to give notice that, all being well, five members of the Ely Diocesan Association will attempt 10,800 Bob Royal on handbells on Sunday, May 2nd.

Further details may be obtained from myself.—Yours sincerely, E. J. LINDLEY.

Trinity College, Cambridge.

EXTREME IN GRANDSIRE

Dear Sir,—On page 31 of 'Grandsire' I find a call by the name of 'Extreme.' Can you tell me when and how it was dropped from general ringing in Grandsire Doubles?

An Extreme is rung this:—

24351
23415
32145 E
31254
13245
13425
31452
34125
43215
42351

Scale from Rounds 2345 5342

We all know the ten standard callings of Grandsire Doubles using bobs and singles, but with the Extreme another 32 six-scores are possible.

Thus for a peal of Grandsire Doubles there can be 42 six-scores all different, but would this be a legal peal in the eyes of the Central Council?

In all the books that I have seen I have never gathered any information on this subject.

Can this call be extended to Triples upwards?—Yours sincerely, E. V. WILLIAMS.

Redruth.

OBITUARY

MR. JOHN E. MILLER.

For 54 years captain of the ringers of Christ Church, Southgate, and for the last nine years verger, Mr. John E. Miller died on March 31st, aged 72. He was a foundation member of the Middlesex County Association and a member of the Royal Cumberland Youths. His peals numbered about 150 and ranged from Grandsire to London Surprise.

The funeral service was held at Christ Church, on April 6th. About two dozen members of the Southgate band, past and present, and other ringing friends attended, including Mr. W. Ayre, Master of the Cumberland Youths, and Mr. A. W. Coles, of the Middlesex County Association.

In the evening as a last token of respect the whole pull and stand was rung with the bells half-muffled, followed by 1,287 Stedman Caters: W. J. Bowden 1, Miss M. Prockson 2, Mrs. N. A. Tomlinson 3, R. W. Green 4, S. G. Peck 5, N. A. Tomlinson 6, H. Miller 7, J. G. Nash 8, S. Wade (conductor) 9, M. Fensom 10.

THE REV. W. R. D. MILLS.

The Rev. W. R. D. Mills, Vicar of Collaton St. Mary, Paignton, since 1933, died on April 6th after several weeks' illness, aged 64. Although he did little ringing, he was for 12 years an efficient chairman of the Mid-Devon Branch, and only retired at the end of last year. He was a prominent Freemason.

The funeral took place on April 9th. The local ringers, who are members of the branch, attended and rang after the service. Also present were Messrs. A. L. Bennett, of Buckfastleigh (branch secretary), C. F. Austin and W. C. Wakley, of Paignton. A.L.B.

IRISH ASSOCIATION

The decision of the Irish Association not to invite the Central Council to Dublin for 1949 has already been announced in 'The Ringing World.' Nearly 100 members attended the meeting at Dublin, where they were entertained to lunch and tea by the St. George's Society.

The Murphy Cup competition for striking was won by St. George's, their team consisting of five ladies and three men.

Mr. William Pratt, president, was in the chair at the business meeting, when 33 new members were elected. To encourage juvenile members the subscription for those under 17 was fixed at 1s. per annum instead of the standard rate of 2s.

Life membership was conferred on Mr. Daniel Kennedy, president of St. John the Baptist's, Dublin, and Mr. J. S. Gibb, Kilkenny. Waterford was selected as the place for next year's meeting. The attendance shield was won by St. Macartan's Cathedral, Enniskillen.

Officers elected were: President, Mr. W. Pratt, Holywood; vice-presidents, the Rev. E. S. Barbour, Mr. S. J. Evans and Mr. G. E. Jones; Ringing Master, Mr. R. S. F. Murphy; hon. secretary, Mr. Fred E. Dukes; Central Council representatives, Messrs. Dukes and J. T. Dunwoody.

NOTICES

The charge for one insertion of a notice of a meeting is one penny per word, minimum 2s. For additional insertions with no change one-half above charge for each insertion.

MORE ABOUT THE GROUP THEORY

DOCTOR JOHN E. SPICE'S article on a Mathematical Theory of Change Ringing has created interest. Squadron Leader A. York Bramble suggests that the application of Group Theory to problems in change ringing is very timely. 'There have been,' he writes, 'frequent "mathematical" considerations of it; but hardly anyone, apart from the late W. H. Thompson, had hitherto set out any specific treatment of the subject in truly mathematical or "scientific" fashion. Only a week previously we read a note by one claiming originality in, and by inference, I think, mathematical (or scientific) consideration of, some aspects of the theory of change ringing; but these claims can hardly be substantiated.'

Mr. Brian D. Price, while welcoming Dr. Rankin's work with enthusiasm, writes that it would be a mistake to think that it is the first thorough approach to Group theory in change ringing that has been made. Rather it is that such advances have not been made public simply because there has not been a demand for such knowledge among ringers.

His letter continues: 'After a study of W. H. Thompson's papers, it is clear to me that he knew much more of Group Theory than Dr. Spice's article would suggest. The so-called Thompson Papers in "Grandsire" are not the originals, but rather a much-simplified extract of them from the point of view of the practical composer. Last year I made efforts through his relations and associates to find any remaining papers and to preserve his unpublished works (he died in 1934 at Brighton). The Central Council ought to have these in its library. Where are the genuine Thompson Papers?

'There are three good reasons for knowing that Thompson was conversant with Group Theory. Firstly, he used the dodecahedron for plotting the lead-ends of Grandsire Triples. This in itself has a very deep connection with Groups. Secondly, he almost completely explored part composition of peals of Grandsire Triples (I have found only one plan that he missed). This involves an exploration of sub-groups among the lead-ends. Thirdly, from his handling of Q-sets, not only in the well-known case of the extent of Grandsire Triples, but also in the part-diagrams of his, and in using various singles and other calls, it is clear that he knew the general law of Q-sets.

'In 1944 I proved the general law of Q-sets as follows: "When an odd-membered Q-set is altered in calling it does not alter the oddness or evenness of the total number of round blocks." Similarly, substituting "even-membered" and "does alter." This law is only operative for one-way traffic through the Q-set. For instance, one can compose the extent of Original Minor with bobs only. This may be what Dr. Rankin has proved. I am convinced that W. H. Thompson had proved it too.

'Another law I proved, which W. H. Thompson must have known, is as follows: "It is necessary and sufficient for the part-ends of a composition in similar parts to form a sub-group." There is a definite technique in part-composition utilising Groups with which composers such as John Carter, Law James, J. W. Parker must have been familiar, although they may not have known the term "Group." John Carter could not have composed his odd-bob peals of Stedman Triples by trial and error.

'It is my humble opinion that processes such as splicing Surprise methods, or composing the extent of Bristol Surprise with the tenors together, can never be done by any other than "ad hoc" methods.'

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

Many old friends will congratulate Mr. George Martin, of Boyne Hill, on scoring his 600th peal, one of Bob Royal at High Wycombe, which appears in the usual place. He is still going strong. Many will remember him as a leading conductor in the Australian and New Zealand tour.

Youlgrave, Derbyshire, is the 50th tower in which Mr. A. Firth has rung a peal.

Congratulations to Mr. Edgar Humfrey, who rang his first peal of Surprise at Goring-on-Thames at the age of 78.

Thorne, Yorkshire, tower was 'circled' on April 10th by J. M. Thorley, C. Thorley, J. Thorley, E. Thorley and T. D. Leask.

The peal of Spliced Surprise Major at Dodderhill, Worcestershire, was a 75th birthday compliment to Mr. John Morris, of the Worcester Cathedral band.

In acknowledging a composition, Mr. Alan R. Pink writes: I think the time is almost ripe for the Central Council to take a bit of notice of five-bell ringing and perhaps define more clearly what is permitted.

Mr. E. Barnett, of Crayford, writes to say that the Foot's Cray bells were not hung 100 years ago. One of his early recollections is of his father being one of the band at what he always understood to be the opening of the bells some 57 or 59 years ago.

Mr. Frank E. Pervin's concluding act in his Mastership of the Coventry Diocesan Guild was a peal of Yorkshire Surprise Royal at Chilvers Coton. He thanks the local band for their wonderful hospitality after the peal.

The eight bells of Mansfield's ancient Parish Church have recently been removed from the tower to be recast at Loughborough. The weight of the tenor is to be increased from 14 cwt. to 18 cwt. Five of the bells date from the beginning of the 17th century, the oldest bearing the date 1603.

Ringing history was made by the handbell peal in Venezuela, believed to be the first in South America. Mrs. Roland Park, who rang the treble, joined her husband last year and prior to that had never rung a bell. Mr. Bernard Swinson, who has been a lone exile for some time, completed the team. After a little more 'coaching' the company hope to attempt a peal of Minor. Mr. Roland Park has now completed peals from Doubles to Maximus.

This week's circler: Mr. Cyril Ward, St. Giles', Lincoln.

Another Doubles feat from Oxfordshire. Latest total is 30.

The silver wedding of Mr. W. Insley, of the Leighton Buzzard band, was honoured by a quarter-peal of Grandsire on April 3rd.

Two pensioners and six youths composed the Sherborne Abbey band that rang the peal of Stedman Triples on April 3rd. The 'baby' of the party rang the seventh.

The peal at St. Peter's, Bournemouth, specially arranged for Mr. and Mrs. G. E. Watson, was the first to be rung with silencers in Bournemouth.

A reminder to Surprise ringers who have forgotten. Southgate Surprise is Superlative with the whole pull moved from sevenths place to the lead. When first rung in 1907 at Southgate it was described as Superlative Surprise, Rochester Variation.

Mr. Arthur F. Spooner, Prov. Grand Master of the Mitcham District of the Independent Order of Oddfellows, is anxious to arrange for an Oddfellows' band to ring for the special service at Margate Parish Church on Sunday, May 30th, in connection with the annual conference of the Manchester Unity. Would ringers attending the conference communicate with him at 83, Common Field Road, Banstead, Surrey.

OBITUARY

MR. ALBERT BISHOP.

A regular Sunday service ringer for over 30 years, Mr. Albert Bishop died at his home at Burford, Oxford, on April 15th, after a long illness patiently borne. His kind and quiet disposition endeared him to all with whom he came in contact.

Mr. Bishop had only rung one peal—Grandsire Triples — but had taken part in many quarter-peals of Stedman and Grandsire Triples. He was a safe ringer and excellent striker. A widow and two sons are bereaved.

The funeral service took place at Burford on April 17th. In the evening a half-muffled quarter-peal of St. Clement's Bob Triples was rung by M. C. F. Collett 1, F. Soden (cond.) 2, B. J. Forest 3, T. J. H. Prince 4, B. S. Nichols 5, T. W. Timms 6, W. J. Dixon 7, J. J. Westmacott 8.

MR. S. J. REDDELL.

Mr. S. J. Reddell, captain of the Yateley, Hampshire, band of ringers, died on April 10th. He had been a ringer for over 55 years and had rung many peals, his first being on May 1st, 1892. He was laid to rest close to the tower of his church, his own band of ringers acted as bearers, and many ringers from the surrounding district came to pay their last respects. He will be greatly missed.

WARSOP, NOTTS.—On April 4th, 1,260 Minor (540 St. Clement's and 720 Plain Bob): D. Rooke (age 12) 1, D. Chadwick 2, R. Lucas 3, R. Hind 4, F. Flint 5, H. T. Rooke (cond.) 6. First quarter 1 and 3.

Hertford County Association

OPPOSITION TO DIOCESAN SCHEME.

A large number of members and friends attended the annual meeting at St. Albans on April 3rd, the southern half of the county being well represented.

Cathedral Evensong was attended, the preacher being the Rev. A. St. G. Coulthurst, Vicar of Aldenham. A boy soloist rendered very beautifully Handel's 'I know that my Redeemer liveth.' A collection was taken in aid of the Association Benevolent Fund.

Members then adjourned to the Christ Church Parish Room for tea, the junior members acting as stewards.

The business meeting followed, with the president, Mr. L. Fidler, in the chair, supported by the Vicar of Aldenham, Mr. G. W. Cartmel and the general secretary (Mr. W. Ayre).

The secretary, in his annual report, stressed the importance of obtaining new members, particularly in the districts having wider scope for expansion. He suggested that meetings be held at towers where change ringing was either at a low ebb or non-existent, and that greater efforts should be made towards breaking down district isolation, thus creating more unity.

The district secretaries' reports were read and accepted with appreciation for their services, the general secretary emphasising the fact that more support was required.

Forty-four peals had been rung, mainly in the south, with Mr. H. G. Cashmore as the leading conductor. Peals worthy of particular notice were Albanian Surprise Royal, Barnet, Jersey and Felstead Surprise, all rung for the first time; Surprise Minor in three methods (Northern District) and the all doctors peal.

The new president, Mr. A. S. Carter (Hertford), was elected, and the treasurer (Mr. G. E. Debenham) and secretary (Mr. W. Ayre) re-elected. For the post of librarian there were two nominations, Mrs. A. M. Fergusson and Mr. C. F. Sayer, the former being elected. Messrs. H. G. Cashmore, C. W. Woolley, R. G. Bell and W. Ayre were elected as representatives on the Central Council.

On the question of the formation of a Diocesan Association, it was agreed that 'no useful purpose could result from an amalgamation with the Bedfordshire Association having the above object in view.'

The amended rules were then dealt with, and after further amendments had been agreed upon, were adopted.

Mr. G. W. Cartmel then proposed a comprehensive vote of thanks to all who had helped to make the meeting a success. The Vicar of Aldenham expressed pleasure at being able to attend and said how glad he was to have his bells rung again after eight years' silence.

RESTORATION

BLETCHINGLEY, SURREY.

After a silence of about ten years, the bells of St. Mary's, Bletchingley, have been put in ringing order. The bells were rededicated on March 27th by Canon R. H. Cragg, Rural Dean, and were rung at the dedication ceremony by the following members of the Surrey Association: D. Cooper, L. Penfold, W. Slaughter, E. Razzell, W. Claydon, G. Oliver, A. J. Bull and F. E. Collins. Ringing continued during the evening from rounds to London Surprise Major.

Ten years ago the main beams which carried the bell frame were found to be unsafe owing to damage by the death-watch beetle. This year the local builder and the architect, Mr. E. D. Jefferiss Mathews, O.B.E., have cooperated with Messrs. Gillett and Johnston, the bellfounders, the outcome being a new oak undercarriage built for the bell frame by the builders and the bells hung on modern ball bearings by the bellfounders. The result of this work has put Bletchingley bells once more in good going order and worthy of the tower in which they hang. The Rector (the Rev. A. Aitken Crawshaw) is to be congratulated on getting the job done.

LETTERS TO THE EDITOR

Savouring of a 'Wangle'

Dear Sir,—The Rev. K. W. H. Felstead has misunderstood the purpose of my recent letter. The difference between Double Norwich with a 4ths place bob and with a 6ths place bob is slight—so slight that it is difficult to understand why the conductor of the peal in question (who is far from being one of the 'lesser brethren') should have put to it a footnote which would at any time have been rather ludicrous, but which in these days was an unnecessary waste of space. The conductor of my second peal of Reverse Bob might equally well have put that it was my first in the method in which the bob was made when the treble was leading!

His other questions may, I think, be answered in this way. The Exercise as we know it has existed with little fundamental change for over two and a quarter centuries, during which time certain customs have been observed by ringers and composers alike. One, which Mr. Felstead regards as the first consideration, is that there shall be no repetition of changes in a peal. Another is that singles shall not be used in Treble Bob methods. It makes no difference to the listener or to the mental or physical effort expended by the ringers if either of these customs is broken, but to do so would be contrary to the general feeling of the Exercise, which has always rejected anything savouring of a 'wangle.' Thus as soon as it was found possible to produce peals of Stedman Triples with ordinary bobs and singles, all peals with extraneous calls, admirable though they may have been up to that time, went out of use at once. (Now that Treble Bob can be spliced at the lead-ends, 'Ilkeston' and similar mixtures should also be barred.)

As mathematical exercises, Lockwood's 9,120 of Treble Bob and Brian Price's peal of Cambridge with a single are undoubtedly very clever, but for practical purposes they are merely wangles, and no ringer with any respect for the traditions of our art could tolerate them to-day. The fact that several prominent ringers took part in the latter peal is all the more to be deplored.

The peals of Cambridge with a 6ths place bob are rather different, but there is a perfectly adequate selection of compositions available using the ordinary bob, the fact that the tenors are parted on occasions being immaterial.—Yours faithfully,

E. A. BARNETT.

Crayford, Kent.

PEALS IN HOLY WEEK

Sir,—I feel sure that I voice the sentiments of many ringers in protesting against the ringing of peals in Holy Week. Recorded in your issue of April 16th are two eight-bell and six six-bell peals rung in that week, seven of which were rung on the Saturday. I admit that one of the eight-bell peals was rung in a secular campanile, but the listening public are not likely to differentiate between secular and church bells.

To discuss this matter at its very lowest level, it is surely a deplorable exhibition of bad taste that, on the day which is sacred to Christendom as commemorating the lying in the grave of our Lord, ringers should be found who consider that a peal is the most desirable method of recalling that event.

Critics of peal ringing activities are many, and it is surely laying the Exercise wide open to the hostility of all churchmen when practices such as that in question are indulged in. Moreover, as churchworkers, which is the fundamental raison d'être of all our organisations, ringers should avoid anything which may in any way bring church activities into disrepute.—Yours faithfully,

A. R. POYNTZ (Capt., R.I.N.).

Goring-on-Thames.

Three Answers

Dear Sir,—In reference to the letter of Mr. Felstead on page 148 of 'The Ringing World,' most fair-minded persons will be in full agreement with the first part of his letter, but his three questions and the last part of his letter are very controversial.

Question A: The 4ths place bob interferes with the structure of the method, and is, in fact, at bob lead of Double Oxford. Double Norwich has enjoyed a great popularity for half a century and there are plenty of good compositions available, so if the 4ths place bob is no improvement, why use it? Again, Double Norwich's only blemish is the unavoidable five pull dodging at the bobs. Why make this blemish worse by introducing three pull dodging underneath the five?

Question B: The objection here is that you open wide the door to all kinds of 'jiggery pokery.' Singles have no place in Treble Bob methods, but they are necessary in Plain methods if you want a good composition, otherwise you can only have in course combinations or extents. Re the 9,120, people used to ring 14 (360's) and 21 (240's) to a 5,040, but would such a performance be attempted to-day?

Question C: There is no objection here if it is an improvement. Mr. Felstead should read what Mr. Davies has to say of Cambridge in 'Surprise Methods.'

Now the last part of Mr. Felstead's letter. Truth is not the only consideration. Many years ago the Central Council laid down certain rules about methods, and we as ringers are wasting our delegates' time and our money if we do not observe these rules and decisions. Please refer back a few months to Mr. Smallwood's letter about the standard of ringing. If puts the matter in a nutshell.—I am, sir, yours faithfully,

B. BLOCK.

MR. E. W. PYE'S REPLY

Dear Sir,—In reply to Mr. E. A. Barnett, I am sorry to say there is no mistake on my part with regard to the Superlative, although it was never published or rung until 1935, when Mr. Barnett called it as his own composition. The one in my possession is identical with that published in your previous issue of 'The Ringing World.'

With regard to Mr. Corby, if he wants to have a difference of opinion, he should first finish the correspondence on the Yorkshire at Loughborough.—Yours sincerely.

E. W. PYE.

Note.—The Loughborough correspondence was closed by the Editor.

A CHESHIRE WEDDING

The marriage took place at Bowdon Parish Church on April 3rd of Mr. C. K. Lewis, hon. secretary, Stockport and Bowdon Branch, Chester Diocesan Guild, to Miss M. Elkins, hon. secretary, N.W. Area, Ladies' Guild. The ceremony was performed by the Rev. Frank Bonner, Vicar of Norbury, Cheshire, late chairman of the Stockport Branch.

The local ringers formed a guard of honour with handbells as the happy couple left the church. The bride was given away by her father, Mr. Dick Elkins (chairman of the Stockport Branch). Miss Frances Laflin was the bridesmaid.

Peals were rung at St. Mary's, Bowdon, and St. Thomas', Norbury, in honour of the event.

BEOLEY BELLS

The historic ring of six at Beoley, Redditch, Worcestershire, have been tuned, cleaned and rehung by Messrs. Gillett and Johnston at a cost of £711. The Rev. L. J. Birch, Vicar, writes:—

'The bill for the work on the bells has been paid—but we have yet to find £1,000 for tower repairs, a vast sum for a parish of 800 souls. Having considerably helped ourselves, some of your readers may be moved to help us.'

Clerical Ringing Week

Members of the Guild of Clerical Ringers met at Leicester, April 5th-9th. The party was made up as in 'The Ringing World,' except for the Revs. J. F. Amies, H. Benson, R. H. Palmer and B. F. Sheppard, who could not come.

A happy start was made on Monday at St. John's, Leicester, on a fine ring of 10 rehung by Taylor. The Press photographer, whose flashlight camera wouldn't work at first, found it impossible to comment as he would have wished.

On Tuesday, after Holy Communion at St. John's, we went to Loughborough, where during a most interesting tour of the foundry we saw several bells cast, tolled the bourdon bell for Liverpool Cathedral with its half-ton temporary clapper, raised the new tenor for Stratford-on-Avon and had the pleasure of sending her over the balance without breaking a stay as she hadn't one, had by Mr. and Mrs. Taylor's kindness a delightful lunch, and showed how fast parsons can be when they like, on the top six in the foundry tower.

After a ring on the fine ten at the Parish Church, on to Quorn, then to Mountsorrel, whose eight hang in a mediæval tower attached to an ancient church restored to look like a Georgian drawing room. Thomas Drake (father of Herbert) was Vicar here. Tea with the present Vicar and his wife, and then back to Leicester and a delightful ring at All Saints', whose ringing chamber has been splendidly done up by Mr. Cattell. We were glad to see several learners here, including a girl of five.

On Wednesday to South Wigston, with its peal boards recording 10,176 Kent Treble Bob Major, in 6 hours 26 minutes, 'which must ever reflect credit on the performers'; also the record 17,194 Double Norwich Major in 10 hours 35 minutes on December 27th, 1904. Despite this encouragement, Bob Major 'went west' after 1¾ hours. Meanwhile the non-pealers missed a bus and went to Countesthorpe, seven in a taxi, at funereal pace. After all had rung at All Saints', Wigston, and lunched at South Wigston, the afternoon was spent at Earl Shilton and Barwell (two good eights), then to Hinckley, with a grand eight in a splendid church. Mr. and Mrs. Ballard here gave us a nice tea.

In the evening St. Margaret's, Leicester, was enlivened with a very talkative course of Stedman Cinques—reminiscent of well-known scriptural allusions to the crowd of prophets in the cave, 'great was the company of the preachers,' etc. It was a great pleasure to have Mr., Mrs. and Jill Poole, also the Morrises and Ernest with us.

On Thursday a peal of Bob Major was rung at Gilmorton in memory of the Rev. E. S. Powell, and was his own composition. The others rang at Lutterworth and Claybrook Magna. After lunch at Gilmorton, the 'week' finished most pleasantly at Leicester Cathedral, whose fine 13 were greatly enjoyed, and at St. Saviour's, Leicester—a fine modern church, whose Vicar is a keen ringer.

At the business meeting the officers were re-elected as follows: President, the Rev. C. Carew Cox; vice-president, Canon R. F. Wilkinson; hon. secretary, Prebendary E. V. Cox; committee as above, also the Revs. Elliott Wigg and A. G. G. Thurlow. Southampton was chosen as the centre for next year.

The Guild is most grateful to the various incumbents and steeplekeepers for the use of the bells, to those kind people who gave us tea, and especially to Mr. H. J. Poole for the splendid and painstaking way in which he made arrangements for us. A. G. G. THURLOW.

ORIGINALITY

Dear Sir,—Re Mr. Cannon's letter concerning originality in composition, it is variously alleged that Leif Ericsson and Christopher Columbus discovered America. So did Amerigo Vespucci. And lots of Europeans since. Is the latest immigrant to have the credit too? J.D.

Lancashire Association

A MOTION FOR DIVISION.

Oldham was the venue for the annual meeting of the Lancashire Association on April 10th with ringing facilities at the Parish Church, Glodwick, Leesfield and Moorside. The service was at the Parish Church, where an address of welcome was given by the Vicar (Canon Stephenson). A company of over 60 attended tea in the Burnley Street School.

The president (the Rev. F. F. Rigby) presided at the business meeting, supported by Canon Stephenson.

The committee's report records with regret the loss by death of 32 members. The present strength is 1,018, and with non-resident and hon. life members the total is 1,494. During the year 147 new members were elected.

Three branches had changed their secretaries and four their committee men. Owing to illness and business claims it was necessary to elect a new treasurer and ringing secretary. Three nominations were received for the new vice-president, the vote going to Mr. W. Taylor (Penwortham). From ten nominations for Central Council, Messrs. P. Crook, G. R. Newton, W. H. Shuker and A. Tomlinson were elected.

Next year's meeting is to be held at Liverpool. If the bells are ready it will be at the Cathedral, if not the selection of a tower was left to the branch.

Notice was given for inclusion on the agenda at the next annual meeting that the time had come for the Association to be divided into Diocesan Guilds and also that the membership subscription be increased to 2s.

The meeting expressed its thanks to Mr. F. R. Williams for his work during the past six years as treasurer, and their regret that his health would not let him continue. The faithful service of the ringing secretary (Mr. T. Wilson) for 11 years was recorded, and the general secretary (Mr. W. H. Shuker) was congratulated on his golden wedding.

The balance sheet showed a loss of £29. One item was £6 8s., which came in late, £4 was for extra 'Ringing Worlds,' and there were other items which would not appear again. The usual votes of thanks concluded the meeting.

LLANDAFF AND MONMOUTH ASSN.

FIFTY YEARS AS MASTER.

Visitors can rely on a good reception at All Saints', Newport, and the 60 odd members who attended the annual meeting there on Easter Monday were not disappointed. All Saints' and St. Woolos' bells were available before the service, which was conducted by the Vicar, the Rev. E. R. G. Lewis.

An ample tea was provided by the ladies of the parish. The Vicar presided at the business meeting. When the question of Master arose it was pointed out that it was 50 years ago since Mr. J. W. Jones was first appointed Master, and it was thought to be a fitting tribute for the many years of faithful service he had rendered to the Association to honour him again this year. This was agreed to.

Two motions were lost; one to raise the annual subscription from 1s. to 2s. and the other to divide the Association into districts for administration purposes. Cardiff was selected for the next annual meeting with quarterlies at Machen and Llanbradach. Progress was reported from Machen, Bonvilston and Cowbridge. Blaenavon bells were expected to be ready by August and Abergavenny bells in by next month. Seventeen new members were elected, includning the whole of the Trevethen band and the newly-formed Bonvilston band.

BOURNEMOUTH

THE South of England Ringers' Rally at Bournemouth on April 24th was the second attempt of Mr. Arthur V. Davis and his organising committee, the Rev. C. A. Phillips, Mr. A. F. Martin-Stewart and Mrs. Marshallsay, to bring to the notice of the Exercise not merely the charm of Bournemouth and the surrounding countryside, but the beauty of its bells. And those selected for one tour—Wimborne Minster, Swanage and Kingston—in the words of Ald. A. F. Sharman, of Dunstable, were bells he could strongly recommend to anyone. A happy sense of sociability marked the proceedings at the dinner, attended by a company of 80; a day in the sunshine bringing an accompanying happiness.

One major regret, however, was uppermost in everybody's mind. Mr. Arthur Davis, the man with the vision of the festival, was absent. An abscess on his face kept him at home. 'Our enjoyment is somewhat tempered by our regrets,' was how Bishop L. H. Lang, the Assistant Bishop of Winchester, who presided, expressed the sympathy of the assembly. It was by no means a local gathering, visitors coming from as far afield as Birmingham, Worcester, Cheltenham, Newbury, London and Banstead.

Meeting on the eve of St. George's Day provided Bishop Lang with his theme in his words of welcome. St. George's Day was when they thought of England, and to those who had been overseas it was the picture of walking across the hills on the quiet Sunday evening and hearing the bells ringing. The bells to them meant the country they loved, and as the representative of one of the dioceses he would say they were extraordinarily grateful to the stalwarts of the belfry.

But the 'stalwarts of the belfry' are not always popular. It was the Rev. A. L. F. Williams, Vicar of St. Peter's, who told how he dealt with the complaints. 'Well, if you are allergic to bells, why do you live within 100 yards of them?' was his invariable reply. He always felt that the bells had a real message of spiritual things. A lady lying in bed in her last illness said to him, 'You have no idea what a comfort and inspiration they are.'

Other speakers also took up the theme of the complaints. The Mayor of Bournemouth gave his opinion, 'It is not the bells, it is their own nervous systems that are wrong.' The Vicar of Christchurch, the Rev. R. P. Price, counselled, 'When people complain of church bells, do not be discouraged; it is our funny English way to grouse at what we value. I am sure in their heart of hearts they want to hear church bells.'

Hale and hearty, Mr. George Williams, the veteran Master of the Winchester Guild, was called to his feet. His mind went back to his first peal in 1884—the Guild was then only five years old—and that was the first peal by the Winchester Guild in Hampshire. He told of the getting together of a band to ring the first peal on the Priory bells of Christchurch in 1888. George's peal ringing days are over, but he can still delight in service ringing each Sunday.

Your Editor had also to acknowledge a gracious tribute to 'The Ringing World' by Mr. A. F. Martin-Stewart. An era of keenness and advancement in the art of ringing almost unprecedented was his report on the Exercise to-day. In the first three months of this year 586 peals had been rung, compared with 369 a year ago. A recent issue of 'The Ringing World' recorded 18 first peals, the equivalent if maintained of 900 a year, while ringers who were essaying something new that week were 107. He regretted that paper restrictions prevented full justice being done to such enthusiasm.

The question uppermost with our Bournemouth friends is whether the attendance of 80 justified the rally. The Rev. C. A. Phillips maintained that had basic petrol been restored there would have been a larger attendance, and that a number in the Midlands who had promised support were attending the dedication of the Rupert Richardson memorial at Lincoln. A personal note to our Bournemouth friends is that the rally was well worth the effort in the enjoyment it gave the visitors. Thank you one and all for a happy week-end.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

Success attended Mr. E. J. Lindley and his band in the 10,800 Bob Royal 'in hand' last Sunday. The time was 5 hours and 58 minutes.

Disappointment over 'Englishman's music' has been expressed by a number of readers, and copies of letters of protest sent to the B.B.C. on the subject have reached the Editor.

Alcester's ring of eight is to be dedicated by the Bishop of Coventry on Whitsun Eve at 3 p.m. Tea will be provided for visitors in the Town Hall after the service.

Errata: The peal for the Hawkhurst and District Guild reported last week as rung at Sandhurst, Kent, was actually rung at Bodiam, Sussex.

First quarter-peals as conductor have been rung by H. Kirk (Burbage, Derbyshire), B. Salter (Wellington, Somerset), B. D. Threlfall (Birkenhead), J. Watson (Sheppey, Kent) and R. Posnett (Clewer).

Central Council delegates are advised that the best way to get to Skinner's Hall, Dowgate Hill, is by the Circle to Cannon Street or Tube to the Bank. It is about two minutes' walk from each station.

A queen wasp was an unwelcome visitor to St. Mary's, Bathwick, during the first peal on the rehung bells. It was promptly disposed of at the completion of the peal, which was a welcome to the new Rector, the Rev. W. Jennings.

Stationed at the R.A.F. Camp, Yatesbury, Calne, Wilts, are 12 ringers. They have been loaned a set of eight handbells by the Rector of Avebury, which they ring for service in the Station Church. They have hopes of ringing a peal of Minor for the Royal Air Force. Already they have visited 20 odd towers in Wiltshire.

Mr. T. J. Groombridge, jun., expresses his appreciation of all the kind letters and enquiries from ringer friends. He recently had a serious relapse in hospital and consequently is unable to reply personally. He is very disappointed that he cannot attend the Central Council meeting, but sends his good wishes.

Poughill, Devon, bells have been converted from a ring of six, tenor 8¼ cwt., to a ring of 10¾ cwt. by Messrs. Gillett and Johnston, Ltd. After dedication by the Bishop of Exeter a ringing competition was held for a cup given by Poughill ringers, which was won by Newton St. Cyres I.

The disastrous fire which destroyed the type of Mr. A. J. Corrigan's Surprise Major records has also held up the publication of Mr. Ernest Morris' new book, 'Bells of All Nations,' which was to have been issued within the next few months. Fortunately, the MS. has been saved.

Mr. and Mrs. F. Watts, of Hornchurch, Essex, celebrated their golden wedding on April 10th. Although not a great exponent of the art, Mr. Watts has always been very keen on bells and ringers. A quarter-peal of Kent Treble Bob was rung in honour of the occasion by Miss Joan Peacock 1, A. Chaplin 2, C. Wright 3, D. Blows (first in method) 4, J. Armstrong 5, J. Carrott 6, F. V. Gant (cond.) 7, F. Freestone 8.

Mr. Herbert Knight, who has been captain of St. Peter's, Wolverhampton, for 50 years, entertained the local company to tea on April 17th. To mark his half-century he was presented with a cigarette case and lighter by Mr. W. H. Lawley, who had been a member for 40 years. A quarter-peal of Grandsire Caters, 1,259 changes, followed by J. Stokes (first quarter) 1, T. Smith 2, J. Williams 3, H. Knight (cond.) 4, H. Griffiths 5, T. Roden 6, F. Brotherton 7, S. Birch (first of Caters) 8, W. H. Lawley 9, G. A. Langley 10.

THE MIDDLESEX ASSOCIATION

TWENTY-THREE CONDUCTORS.

St. James', Clerkenwell, a church a great beauty yet surrounded by squalor, was selected by the Middlesex Association for their annual meeting on April 17th. The Rev. P. T. W. Tranter conducted the service, at which about 120 ringers were present.

In the crypt below the church the annual meeting was held after tea, Mr. W. H. Coles presiding. First business was an act of remembrance of those who had died during the year, the names being read by the chairman as follows: Rev. H. Drake (Ufford), K. Hart (Brighton), Rev. E. Bankes James (Surfleet), C. Pothecary (Mitcham), Rev. E. S. Powell (Stoke-under-Ham), J. J. Pratt (Hillingdon), R. Richardson (Surfleet), H. Street (Walthamstow), J. A. Trollope (Ealing), J. H. Wilkins (Walthamstow) and B. Windmill (Hendon).

The report presented by the hon. secretary recalled the activities in connection with the jubilee of the Society. A large programme of meetings was held during 1947, the attendances averaging 39 in the North and East District and 40 in the South and West District. New members elected totalled 71, consisting of one honorary, 17 non-resident life and 53 ringing members.

PEALS AN INCREASE.

Although the total number of peals rung (52) was 24 fewer than in 1946, there was an increase of 13 in those rung on tower bells. A satisfactory feature of the peals rung was the number of conductors. There were 23 as follows: C. W. Roberts (14), F. Corke and E. C. S. Turner (4), E. M. Atkins and C. C. Mayne (3), P. A. Corby, E. A. Dench, F. A. Finch, J. K. Mayne, T. J. Lock and W. Wenban (2), and T. G. Bannister, F. A. Barker, H. W. Barrett, H. G. Cashmore, A. W. Coles, F. W. Goodfellow, W. H. Hewett, W. J. Paice, T. Price, R. F. B. Speed, J. Thomas and E. E. Whitmore (1).

A noteworthy peal was one of Spliced Surprise Major in the four standard Surprise methods at Lambeth, in which all the bells rang the whole of the work of each method. This was composed and conducted by H. G. Cashmore and was the first peal ever rung with these qualities. The list of peals also included the first peals ever rung of Eastcote and Willesden Surprise Major, and the first for the Association of Aldenham Surprise Major.

Eleven members, P. D. Beedie, A. Bone, Miss A. Castle, Miss R. M. Davies, E. Dodds, Miss M. F. Emere, Miss P. Jackson, Miss P. Kitchen, A. H. Russell, A. Tozer and Miss D. M. Watts rang their first peals. Footnotes show that much progress was made by several members, who rang peals in a more advanced method. J. R. Mayne conducted his first tower-bell peal.

An exceptionally large number of quarter-peals was rung during the year. Of the 121 which have been reported, 26 were rung at Holloway. At least 50 members shared in the conducting.

The statement of accounts, presented by Mr. W. H. Oram, showed an excess of payments over receipts of £14. They hoped with the increase of subscriptions the accounts would go the other way next year.

COUNCIL REPRESENTATION.

Officers were elected as follows: President, Preb. W. P. Cole Sheane; active vice-presidents, Mr. A. W. Coles, Mr. W. H. Coles; Master, Mr. C. W. Roberts; hon. treasurer, Mr. W. H. Oram; hon. secretary, Mr. E. C. S. Turner; assistant hon. secretary, Mr. L. H. Bowler; hon. auditor, Mr. E. M. Atkins; trustees, Messrs. W. H. Oram, T. J. Lock and E. C. S. Turner; Central Council representatives, Messrs. J. E. Lewis Cockey, T. J. Lock, W. G. Wilson and A. W. Coles.

Mrs. Mayne urged that Mr. Turner be elected a member of the Council instead of an honorary member of the Council, in view of the fact that honorary members could be dropped.

Mr. Turner pointed out that such a step would deprive Mr. Wilson of his membership of the Council for three years. Mr. Wilson hoped to be about in six months' time.

Mr. Lewis Cockey thought it was a greater honour to be an honorary member. If Mr. Turner was dropped he was prepared to stand aside.

The meeting conferred on Mr. Lewis Cockey hon. life membership and decided that the same honour be extended to all members on completion of 50 years' membership.

It was agreed that the books and papers of the Association be kept at St. Augustine's, Kilburn. Mr. Lewis Cockey, in making the proposition, said he was very keen that all documents should be kept. In 50 years' time they would be valuable.

A discussion took place on the raising of funds for the memorial to Mr. C. T. Coles, which was to take the form of augmenting the bells of St. Mary's, Finchley, from six to eight. Finchley ringers had raised half the sum required, and Mr. Turner stated that he had received about £50, leaving £100 to be found. Mr. C. W. Roberts proposed that £12 standing in the Bell Restoration Fund should be voted to this purpose. This was agreed to and other suggestions made included arranging social functions and collections at Guild services.

The secretary read a letter from Mr. A. A. Hughes asking the Association to assist in the entertaining of visitors to London in connection with the visit of the Central Council. The Association agreed and a request was made by Mr. Turner for towers for peal ringing on the Saturday or Whit Monday.

Votes of thanks to those who made arrangements for the meeting and also to the officers were carried.

OBITUARY

MR. ALFRED S. WIGHTMAN.

Mr. Alfred S. Wightman, of Framsden, who died on April 18th, aged 84, was a member of the noted Wightman family of Cretingham. He had taken part in about 300 peals, which included 10,080 Bob Major at Helmingham on December 26th, 1895, and 10,176 Kent Treble Bob at Coddenham on April 2nd, 1888. To both these peals he rang the tenor. The respective conductors were G. Wightman (brother) and W. Dye, and they are both on the active list.

Ringers at the funeral included Mr. and Mrs. C. W. Pipe, Messrs. C. E. Fisher, G. Fleming, W. J. Button, W. E. Maulden, C. W. Beecroft, W. Miller, A. E. Whiting and L. G. Brett.

THERE WERE TWO STUBBORN

Dear Sir,—I was surprised to read in 'The Ringing World' of March 26th the advice once given to my old friend and 'stable companion,' Harold Cashmore, concerning his inaptitude. Being 'colts' together, I was not aware there were two ugly ducklings, rather was I amazed at his early brilliance, and I still have vivid recollections of seeing him perform on an 'inside' pair to Stedman Triples wearing Boy Scout's uniform.

If, however, we were both stubborn to 'break in,' the time and patience required were not altogether wasted, for we can justly claim to have kept 'in harness' nearly thirty years, whilst so many have quickly galloped yet stumbled long before the last hurdle.

To learn and be endured in a 'Surprise' tower is very fortunate, and to those from whom I received help and encouragement I am ever grateful, not only for the joy of ringing, but for so many happy hours in company of friends it brought me up and down the country, for I quickly realised common interest binds together in a great fellowship members of our fascinating and noble art.—Yours sincerely, DAVID VINCENT.

Hale, Cheshire.

LETTERS

SURPRISE NOMENCLATURE

Dear Sir,—Mr. Golden's letter on Surprise Method nomenclature prompts me to write on another point—the tendency for 10 and 12-bell bands to confine Royal and Maximus methods to extensions of existing Major methods.

There seems to be a drift away from this in some quarters (as witness the recent peal of Albanian Royal), but in the past this fetish has produced three Variations of London Royal, the much debated Bristol Royal, and those monstrosities, Superlative Royal and Maximus.

It is, of course, justified in the case of Cambridge and Yorkshire, but has led to the neglect of thousands of fine Royal and Maximus methods, which have no counterpart in Major.

After all, the merit of a performance is not in any way enhanced by the fact that the name of a Major method is tacked on to a possibly dubious extension.—Yours sincerely,

Watford. H. G. CASHMORE.

UNNAMED SURPRISE METHODS

Dear Sir,—As I know that some bands are practising methods taken from my recent collection of 160 Unnamed Major Surprise Methods, it seems advisable to inform the Exercise through your columns that the following methods there given had already been named at the date of publication: A. G. Driver's No. 3 (Radnor/Royston)—the split-lead variation of this method (Sandringham) was one of the 100 named methods first published: Lindoff's Nos. 4, 11, 33, 34, 37, 48, 91; Mr. E. W. Tipler's A4-1, A5-1, A2-7, B6-1, B6-4, B17-3, D9-3, D22-5, F4-1, M2-3, and M11-m.

Since publication Mr. Tipler's D7-1 has been rung and named Withyham. I should like to take this opportunity of congratulating the bands who rang Withyham Surprise Major on March 21st and Prittlewell Surprise Royal on April 3rd.

Pending the appearance of the full collection, which will contain nearly 400 Major Surprise methods, including all I know of that have ever been rung to a peal, I should be grateful to have notice of the adoption by any band of a method from the unnamed collection. I receive several requests a month for information, and this procedure would greatly minimise the risk of misleading any correspondent.—Yours faithfully,

Bitton, near Bristol. A. J. CORRIGAN.

CHESHIRE SURPRISE

Dear Sir,—On January 27th, 1948, the band at Frodsham rang a peal of an unnamed method composed by Mr. Nolan Golden and sent to me by Mr. A. J. Corrigan, of Bristol. We called it 'Cheshire Surprise' in the belief that there was no method of that name.

Since then Mr. Corrigan has been going through the Central Council Collection for a third series of Notation Surprise Methods and found that No. 105 was named 'Cheshire.' He cannot, however, find 'Chester Surprise' (Lindoff's 104). There is no trace of No. 105 having been rung. In the absence of information on this matter we intend to claim the name of 'Cheshire' for the method of Mr. Golden which we rang at Frodsham.—Yours sincerely, WALTER ALLMAN.

Runcorn.

ROCHESTER VARIATION OF SUPERLATIVE

Sir,—When we rang the first peal of the above in 1907 at Southgate, we should have been very pleased to have called it Southgate Surprise, but Gabriel Lindoff, who introduced the method, advised us to publish it as the Rochester Variation, as he considered it was only a variation of Superlative.—Yours faithfully, S. WADE.

Southgate Society.

SPLICED TRIPLES

Dear Sir,—For the information of Mr. J. W. Griffiths and other ringers interested in Spliced Triples, I would like to point out that several methods may be spliced in one peal. The main thing in ensuring the peal being true is to ring one method only whenever a selected bell is in the hunt, following being an example of how one in more than four methods may be made up: 2 in Hunt ring Grandsire, 3 in Hunt ring Court, 4 in Hunt Oxford, 5 in Hunt Hereward Bob, 6 in Hunt London, 7 in Hunt St. Clement's, and, in addition, one may substitute a full course of Double Grandsire for one of Grandsire, also some of the other methods may be used in the same way. The first peal of Spliced Oxford Bob and Grandsire Triples was rung as follows: With 2-3-4 in Hunt Oxford Bob, 5-6-7 in Hunt Grandsire.

I have a composition of Spliced Grandsire and Double Grandsire with only six singles in the peal in which all the 46's, 67's and 74's occur at backstroke. I regret being unable to give figures of the composition rung at Hastings, as I am unable to find a record in my collection. Perhaps the conductor, Mr. C. A. Levett, will kindly oblige.—Yours faithfully,

A. J. PITMAN.

THE ENGLISHMAN'S MUSIC

Dear Sir, — After hearing the B.B.C. programme, entitled 'The Englishman's Music,' I find it necessary to explain part of my letter published on April 23rd, the part being handbells. When this was recorded at Lavenham on April 13th it was compiled as follows: Three leads of Kent and one course of Stedman Triples on tower, Stedman and Maurice Symonds ringing four handbells each and Stedman with his fairy bells. Whilst we knew that all of this would not be broadcast, we never thought they would cut the handbells altogether.

To explain to those who are not aware of B.B.C. procedure: the programmes are compiled, the Council then cut them to their liking so, as Dr. Thomas Wood and Maurice Brown said, you never know what will be broadcast until the last minute. Also these two gentlemen promised there would be no talking during the ringing.—Yours fraternally,

Bures, Suffolk. LESLIE MILLS.

PEALS IN HOLY WEEK

Dear Sir,—May I say how entirely I agree with the letter from Capt. Poyntz in your last issue about the ringing of peals in Holy Week? I was surprised to see the record of them in 'The Ringing World,' and I cannot understand why the respective Vicars gave leave for their bells to be used at such a time. In our enthusiasm for the Exercise it seems that we are tempted to forget that the bells do not exist primarily for the sake of peal ringing, but for the glory of God, and for His glory it has long been held that the bells should be silent in 'Quiet Week.'—Yours faithfully,

A. J. HOOK (Rev.).

Stogursey, Bridgwater.

NOMENCLATURE

By A. J. CORRIGAN.

Most ringers will agree with Mr. Nolan Golden's suggestion that we should now do for the Major Surprise methods what was done so well for the Minors in the 1931 edition of Doubles and Minor. In that revision the whole collection of floral and other unsuitable names was swept away without fuss or argument, place-names being given to such methods as were retained.

Place-names are the only ones that wear well. Dedications to royalty and celebrities of the period become dated and meaningless very quickly, while descriptive appellations become outmoded. Superlative is no longer the queen of methods except in East Anglia, and it augurs well for the timeliness of Mr. Golden's proposal that he, the Ringing Master of the Norfolk Association, should even hint that the name Superlative was unfortunate—an admission that would have been unthinkable to any of his predecessors in office. Superlative is the only stumbling-block in the way of a more systematic nomenclature, for not one of the Premiers, Supremes and the like presents the slightest difficulty. Nobody would miss them, but it is impossible at the moment to consider any acceptable alternative name for Superlative. However, I have recently had two enquiries for Champion, so that this old warrior may be preparing to defend his title.

Some personal names are singularly unfortunate, and this applies also to place-names that coincide with well-known ringers. Bulwer, Heywood and Roane suggest the composers rather than places, and are apt to set up an undesirable fashion in nomenclature. This is of more importance than would appear at first sight. Spliced peals have been rung with more than one new method, and one composition in practice at present has four unnamed methods in it. Will the ringers of this peal, when it has been rung, have the right to name all four of them? And if one should be rung with eight new methods in it, what shall we do if the conductor has the bright idea of naming the whole eight of them after the ringers?

So far, except for the long-dead St. Stephen's, we have kept saints' names out of the nomenclature, though Arthur Craven's 'improved' Cambridge Maximus, which we never ring, is named St. Hugh. Finally, we must not forget that a recent new Royal was named Albanian, a peculiarly lamentable choice. It certainly should be reconsidered.

Alternatives to personal names are usually easy to find. For Wordsworth Grasmere is available, and for Wycliffe Hipswell (his birthplace). Victoria is now Southall, Princess Mary is Goldsborough, and Princess Marina might well become Over Surprise. When another Little arrives, we shall have to distinguish between it and the present method of that class, as we have had to do with the various Little Bobs. To avoid similar confusion between group appellatives and method names, Trollope's Imperial should be given a more specific name.

Surprise methods have become so numerous that the time has come for some sort of advisory body to be placed at the service of ringers. The most suitable body is naturally the Methods Committee, and doubtless the question of raising it to full strength again will be considered at the forthcoming meeting of the Central Council. It is not necessary to envisage any drastic measures. It should suffice to frame a couple of simple rules under which conductors would select names acceptable to the Exercise.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

A cordial welcome to London is extended to all Central Council members and visitors. Ringing facilities on Whit Sunday and Whit Monday appear on page 202. The meeting of the Council is at Skinners Hall, Dowgate Hill, London, E.C.

Records will be made of Grundisburgh bells before they are dismantled. They will again be recorded when rehung and retuned.

The quarter at Meanwood, Leeds, on April 23rd, is believed to be first on the bells, which were augmented from three to five in 1885.

Sixteen new members were elected at the South Norfolk Branch meeting at Pulham Market on May 1st—a record for one meeting.

A 70th birthday quarter of Grandsire Triples was rung at Ealing for Mr. P. E. Clark on April 25th.

The peal at Repton was a 21st birthday compliment to Miss White, daughter of Mr. E. J. White, of St. Paul's, Burton.

Mr. G. W. Moss, of Manningtree, Essex, marked the 50th anniversary of his first peal by calling 1,440 Oxford Treble Bob at Mistley. It was G. E. Palmer's first quarter.

Mr. Harry Sear rang his first peal at Christ Church, Epsom, on April 11th, 1898. The peal of Double Norwich at Wicken, Northamptonshire, was in honour of the 50th anniversary.

Mr. A. Patrick Cannon claims distinction in his 100 peals as conductor, inasmuch as they have been rung in 97 towers in 21 counties. 'I pass by this way once!'

The footnote to the Southgate Surprise Major peal (page 175) should read First peal in the method by all the company and not First peal in the method.

Congratulations to Mr. J. J. Boyes, captain of the Bardney, Lincs, ringers, who, now 73 and a ringer for 50 years, has rung his first peal. This was the first peal on the six bells, which were hung in the tower 41 years ago.

After 27 years of faithful service as hon. secretary and treasurer of the Lincoln Diocesan Guild, Mr. F. W. Stokes has retired. His successor is Mr. Jack Bray.

Leicester Diocesan Guild have also a change in their secretaryship. Mr. H. W. Perkins is now living in Somerset, and Mr. W. A. Wood, of Fosseway, Croft, near Leicester, has taken over the reins of office. He has graduated from the district secretaryship at Hinckley, his successor being Mr. F. K. Measures, Burbage.

In honour of the installation of the Rev. H. E. Ashdown as Provost of Southwark, the Ancient Society rang a peal of Grandsire Cinques on the Cathedral bells and the London Counties Association a peal of Superlative Surprise Major at Lambeth. Mr. Ashdown is hon. chaplain of the latter Association.

To perpetuate the memory of Mr. Joseph W. Parker, a memorial fund has been opened by the Bellringers' Guild of the Church of St. Ignatius-the-Martyr, Sunderland. Subscriptions may be sent to the fund treasurer, Mr. W. Oxley, 2, Romney Avenue, Ryhope Road, Sunderland, and made payable to 'Joseph W. Parker Memorial Fund.'

One long length deserves another. The 21st anniversary of the 17,824 Oxford Treble Bob Major rung on April 18th, 1927, at Heptonstall, Yorkshire, was commemorated by a peal of 6,336 Superlative, the longest peal of Surprise for the Yorkshire Association. Messrs. Ed. Jenkins and P. Laflin took part in both peals, the former conducting the Treble Bob peal.

At the spring meeting of the Newbury Branch at Great Shefford members stood in silence in memory of Charles Parfit, of Compton, who had recently died. He had been a member of the branch for over 50 years and foreman of Compton tower for 40 years. A familiar figure at Oxford Guild meetings, he will be sadly missed. Very near his heart was a project to recast and augment Compton bells.

QUESTIONS OF THE WEEK

AN UNWRITTEN RULE

Dear Sir,—Capt. A. R. Poyntz' letter is a timely reminder of an unwritten rule amongst most ringers that there should be no ringing during Holy Week, and it should be taken notice of by all. I have known incumbents, while not wanting to deny ringers their request, to be a little concerned over giving permission for prolonged ringing as Lent progresses. The ordinary weekly practices give ample opportunity, and there may even be a special occasion which can justify a peal. The Easter Day ringing, Easter Monday meetings, and a whole crop of peals in the joyous weeks that follow can be all the more upheld if we have eased off during Lent. Some years ago the late Bishop Frere asked that there might be no half-muffled ringing at Truro Cathedral on Good Friday, for he thought the tolling of one bell more in keeping with the day. I think this has been the custom since, and it is well that we should respect the interest shown by so great a liturgical scholar.

I would ask that much be made of the visits of the teams of Bishops to the Dioceses during these next two months. Here is a great opportunity for peals and quarter-peals of welcome in this Lambeth Year. The Bishops have come from overseas, and before the Lambeth Conference will be going out to the Dioceses in teams to be welcomed in most Cathedrals, and during the days that follow to preach and speak in other places. It would be well that ringers make quite sure what the diocesan programme is, and fix ringing accordingly, perhaps before some great meeting in a town. It was by chance that I recently met the Bishop of Sierra Leone and his wife, who spent the whole two hours of practice in Truro Cathedral ringing chamber as most interested spectators. The Bishop had never seen bells rung before.—Yours faithfully,

A. S. ROBERTS, Hon. Sec.,
Truro Diocesan Missionary Council.

EASTER EVE RINGING

Sir,—At one time I held the same view as Capt. Poyntz regarding the ringing of peals on the Saturday following Good Friday. Of course, I am against the ringing of peals in Holy Week itself, but I think we have to remember that the Saturday is really the eve of the greatest festival in the Christian year.

I know of some priests who welcome the ringing of the bells on the day they are holding the first evensong of Easter just as they do at Christmastide.

To my mind, it is far more fitting to ring a peal in the late afternoon of Easter Eve than it is to ring one on the preceding Saturday, which is the very commencement of Holy Week. W. J. PAICE.

Kensington.

THE EXTREME

Dear Sir,—May I point out to Mr. E. V. Williams there is no need to use the irregular 'Extremes' to obtain a peal of Grandsire Doubles. Forty-two different 120's can be obtained by making each bell do the work of the whole hunt.—Yours, C. A. LEVETT.

St. Leonards-on-Sea.

TRADITIONAL NAMES

Sir,—It may be of interest that Rochester Surprise was first rung at Crawley, Sussex, about 1895. Several touches were rung, but I don't remember attempting a peal. It was sent to us by Mr. Gabriel Lindoff, who at that time had a progressive company at Gillingham, Kent, hence the name Rochester. I think these traditional names should be preserved when their source is known.

F. DENCH.

Saffron Walden.

ILKESTON VARIATION

Dear Sir,—May I ask Mr. Barnett why the Ilkeston Variation of Treble Bob and other mixtures should be barred. Surely it is better ringing the Ilkeston Variation than splicing at lead ends.

Ilkeston Variation was not spliced for the sake of splicing, but to keep the tenors out of the slow and to get the course ends up much sooner and two Bobs at H if possible. It also gives a clear proof, and was the thin end of the wedge for splicing the Major methods.

The late Mr. H. Wilde and myself were each studying it independently of the other, and we were the first to ring a peal of it at Ilkeston. Why do our ringing friends keep on ringing peals of it and write asking for more compositions if it is not worth ringing? It is very simple and pleasant to ring.

Some years ago I was with a party out ringing when we met a ringer who disliked Treble Bob and advised us not to ring it, saying it was like a cross-cut saw with two teeth out of the middle. He left us saying that he would go and listen to us. We rang various touches and this course of the Ilkeston Variation:—

M Ox W H
2 x 2 2

We fully expected 'a bit of tongue' from the listener, but no, he said, 'Well done, that's very nice, indeed. What was it?' We told him that it was the saw. He still agreed that it was very nice. The truth is if a method is rung well with a steady beat people like to hear it.

May I ask Mr. Barnett to go on ringing the methods he prefers and let others ring theirs and not bar their pleasure. If they are trying to take an old age pensioner's tobacco and glass of beer please do not condemn his pleasure as well.—Yours faithfully,

Dale Abbey, Ilkeston. E. C. GOBEY.

VARYING TENOR WEIGHTS

Dear Sir,—As one who takes a great interest in the weights of tenors, may I be allowed to query several of those in a current issue? Alderton, Northants, is given as 7 cwt. 1 qr. 13 lb. 'The Inventory of the Church Bells of Northamptonshire and Rutland,' published by the Rev. E. S. Powell, gives the following information: 'Alderton, five, tenor 15 cwt., 44 in. diameter. Rehung in new metal frame by J.T. and Co., 1935.' When I rang here in 1935 just after rehanging the tenor was all of 15 cwt. and went like it. I am wondering if these bells have been recast and the weight halved since then. The time of the peal—2 hours 31 minutes—seems to fit in with the light weight given by the conductor rather than the heavier one given in the Inventory.

Hatfield, Herts, tenor 26 cwt. I enquired the weight of the tenor whilst ringing here in March, 1936, and was told '17¼ or 18 cwt.' Have these bells been recast with additional metal since then? The tenor at Christ Church, Cubitt Town, London, not long ago was given as 14 cwt. 1 qr. 14 lb. This week it is given as 12 cwt. 1 qr. 4 lb.—more than 2 cwt. less.—Yours, etc., WILLIAM A. STOTE.

Coundon, Coventry.

DOUBLE NORWICH BOBS

Sir,—Mr. Barnett claims that the purpose of his first letter has been misunderstood. Now that he argues that the difference between Double Norwich with a 4ths place bob and a 6ths place bob is 'so slight'—i.e., between the natural course-end 3527648 and 3542678 (produced respectively by a bob at 1)—there is no doubt that he will be further misunderstood.

If 'B Block' will read my note on page 87 of your February 27th issue, he must agree that the use of a 4ths place in Double Norwich possesses at least one advantage over the normal bob.—Yours faithfully,

Norwich NOLAN GOLDEN.

WORTHY OF INVESTIGATION

Dear Sir,—After reading Dr. Spice's article on the front page of the current 'Ringing World' and also Dr. Rankin's mathematical theory of ringing, I should like to venture the comment that he has tended to use, as it were, a steam hammer to crack a walnut. In all the problems which Dr. Rankin considers, provided no singles are used, there is one and only one lead in which any given change can occur; and as a consequence the problems can be solved in a very much less elaborate manner by the simple theory employed by W. H. Thompson.

Surely the field in which mathematics can offer some help to ringing theory is in those methods, such as Stedman, and to a lesser degree the Treble Bob methods, where a given change may occur in several different places in the lead (or six) in consequence of which Thompson's simple theory is no longer capable of tackling the problem.

The problem of the Double Norwich does raise one interesting question, namely: by the theory it should be possible to produce a peal of Double Norwich of 40,208 changes and of Bob Major of 40,240 changes without the use of singles. So far as I am aware, although the corresponding problem (of producing 4,998 changes) in Grandsire Triples was solved as early as 1751 by J. Holt, the problem of producing a 40,240 of Bob Major without the use of singles has never been solved. Although I realise that, from the viewpoint of the ordinary ringer, were he to go for a 40,000, one of the more normal peals with singles would be preferable for a variety of reasons (e.g., conducting and music), I think that the theoretical question is of sufficient interest to be worthy of investigation.—Yours sincerely,

EDWIN J. LINDLEY.

Trinity College, Cambridge.

FOOTS CRAY

Dear Sir,—With reference to the query raised by Mr. F. C. W. Knight regarding the recent peal at Foots Cray, I think he is right in stating it was only the third peal on the bells, and probably the quickest on five bells yet rung, but he is not right in stating that the bells were hung over a hundred years ago.

When I started ringing at St. Mary's, Cray, in 1885, there were only three bells at Foots Cray, the same as St. Paul's, Cray, and North Cray. About 1888, when I was 17, I was invited to the dedication and opening of Foots Cray bells. We rang Grandsire and Stedman Doubles, several six-scores. The band then was Edwin Barnett, George Conyard, Arthur Peill, Thomas Durling and yours truly.

ISAAC EMERY.

Bromley, Kent.

THE THREE QUESTIONS

Dear Sir,—In reply to recent letters from the Rev. K. W. H. Felstead, E. A. Barnett and 'B Block,' if any method is altered from its structure it is a variation or a new method. The reason for sixths place at Bob in Double Norwich is pretty obvious, so why try to introduce other places? Singles in Treble Bob are not required, for we get the out-of-course changes by nature of the method called Treble Bob.

Re 14 (360) these are actually rung in ordinary plain methods. It does not matter how a 720 is rung: it is joined together by bobs or singles or all singles (not all bob, for 360 changes are in course and 360 out-of-course).

Cambridge Surprise Major can be rung and the method is quite as good as some that are rung to-day in what is termed better methods.

Perhaps half the ringers who are ringing to-day could not say what method is being rung, for while in the City of Learning recently I remarked how Treble Bob was being rung when to my surprise one of the leaders of that town said they are ringing Stedman. Did he blush when the conductor came out and said a nice quarter-peal of Treble Bob had been rung?—Yours truly, 'Z BLOCK.'

COVENTRY DIOCESAN GUILD

CHANGE IN MASTERSHIP.

The 40th annual meeting of the Guild was held at Chilvers Coton on April 17th, attended by 80 members and friends. The Guild service was conducted by the president (the Rev. R. T. Murray). A splendid tea in the Parish Hall was followed by tunes on handbells by Mr. C. H. Webb and his band.

The business meeting which followed was presided over by the Vicar. Mr. Stote's motion that the rota of places for the annual meeting be rescinded and the meeting place selected at the October quarterly meeting was carried.

The report for 1947 showed a total membership of 326, being made up of 14 hon. members, 134 resident members and 178 non-resident members. Forty-two peals were rung during the year, Belgrave Surprise Major being the first for the Guild. Four rang their first peal and 61 their first in the method.

The deaths were recorded, with much regret, of Messrs. T. W. Chapman, E. Stone, C. Freeman, T. W. Male and J. Warden.

The balance sheet showed a balance of £33 4s. 4d.; £4 9s. 3d. was added to the Bell Restoration Fund by collections at the four major meetings, but no collections were made at the district meetings; £7 was donated to Chilvers Coton, where two trebles were added in May to form a peal of ten, being the second tower in the diocese to gain that distinction.

It was decided to increase the annual subscription to 2s. 6d. from January, 1949, also to charge 6d. per member for the printed report due from the printers at the end of the month.

The election of officers resulted in the reappointment of the president (the Rev. R. T. Murray) and the hon. general secretary (Mrs. D. E. Beamish). Mr. F. E. Pervin expressed a wish to retire from the Mastership and nominated Mr. A. H. Beamish. Mr. F. W. Perrens was also proposed, and by a margin of one vote Mr. A. H. Beamish was elected, thus creating a rather unique situation for a Guild in which a husband and wife occupy two official positions. Mr. F. E. Pervin was elected as auditor.

The district secretaries for Warwick with Stratford and Coventry with Rugby were re-elected, namely: Mr. D. Stanley and Mr. T. W. Sheppard, while Mr. A. J. Hinde, of Bulkington, succeeded Mr. L. Trevor for Nuneaton District. The Central Council representatives were re-elected in Mrs. D. E. Beamish and Mr. F. W. Perrens.

Stratford-on-Avon was fixed for the July quarterly meeting, subject to the bells having been rededicated, with Warwick as an alternative.

New members elected were Miss D. Clarke, J. Gilks and I. Wain (Chilvers Coton), J. Tyler and R. D. Prior (Brinklow), Miss J. Enstone, R. Godwin and S. J. Oughton (Allesley), the latter rejoining; Miss M. Daniels, Miss D. Jackson and D. Harrison (Keresley); C. Neale, of Bulkington, was re-elected.

Welcome visitors from the Leicester Diocesan Guild were Miss E. Faulknall and Messrs. S. Burton, H. Broughton and W. Whitehead. The bells were made good use of with varying degrees of success in Caters and Surprise Royal,

Oxford University Society

This year the Society made an experiment by holding its Ringing Week during the Easter Vacation. Honeybourne (the Worcestershire Agricultural Camp) seems to have become an annual summer occasion, and the Universities Association tour gives opportunity for those who prefer a full-time ringing programme at that time of year. The experiment would seem to have been successful.

The success of this tour was assured from the word go for two good reasons: Mr. Syd Foskett and the Bedford ringers treated us to a magnificent welcoming supper, at which we were officially greeted by the Archdeacon of Bedford, by the Deputy Mayor and by Miss Evelyn Steel, the president of the Bedfordshire Association. Secondly, a short perusal of the programme showed that no pains had been spared and no details had been overlooked. An item, 'Coffee in Ampthill from 10.30 to 11 *p.m.*,' was the only one which the organiser, Miss Betty Spice, could not explain!

Five peals were attempted during the week-end. Those that were successful may be noted elsewhere, while those that were not are dismissed with a 'slipped wheel' and a 'shift course.'

After the week-end numbers became smaller, and this meant better opportunities for some members and harder work for others. The ringing varied from Bob Doubles at the six-bell towers to various Surprise methods at those with eight bells. St. Paul's, Bedford, and Leighton Buzzard were the only 'tens' visited, and nothing beyond the standard methods was attempted at them.

For a grand week our thanks go to many tower officials, who met and welcomed us, to the Bedfordshire ringers who accompanied us on several days, and last, but not least, to our organiser.

CAMBRIDGE UNIVERSITY GUILD

At the annual meeting of the Guild on April 28th the following officers were re-elected: President, the Rev. A. C. Blyth (Selwyn); treasurer, the Rev. C. F. D. Maule (Clare); Council representatives, the Rev. B. F. Sheppard (Trinity), Mr. E. M. Atkins (St. Cath's.). The new junior officers elected were: Master, M. R. D. Harford (Trinity), and secretary, B. D. Threlfall (Trinity).

The treasurer's statement of accounts was received, showing a balance of £30, and accepted, despite the loss which the retiring secretary appeared to have made over the printing of peal cards—it is very fortunate for him that the Guild bore the loss, as otherwise it is unlikely that he would be able to afford rail fare to ringing meetings for some time!

To offer 'an opportunity for members to discuss the situation,' notice was given of a proposed alteration of rules, by which, despite her success in gaining full membership of the University, 'Kate' would be debarred entry to the Guild. The final decision will be made on the Guild week in September, which will be held in Manchester.

It was decided that E. J. Lindley be appointed historian and requested to bring the Guild history (written by the late Rev. B. H. Tyrwhitt-Drake) up to date, and it is believed that the draft of this will be available for inspection at Manchester. Finally it was reported that during the past twelve months eleven peals, including three 'in hand,' have been rung for the Guild, as compared with twenty for the previous year.

GILMORTON TENOR

Dear Sir,—Where do the clerics who rang a peal recently at Gilmorton, Leicestershire, get their information from that this tenor has 'grown' to 12½ cwt.? When I rang a peal there in 1931 its weight was given as 10 cwt. 3 qr. 19 lb., and since then it has not to my knowledge been moved.

GUILDFORD DIOCESAN GUILD

ABSENCE OF NEW CONDUCTORS DEPLORED.

A suggestion to increase the Guild subscription from 2s. to 2s. 6d. was warmly debated at the annual meeting of the Guildford Diocesan Guild at Guildford on April 24th, and was adjourned to the next annual meeting. Without an increased subscription a larger report was not possible, stated Mr. G. L. Grover.

The Rev. K. C. Davis presided. The annual report gave membership 437 ringing, 100 honorary. Fifty peals were rung for the Guild in 1947, conducting being shared by 10 members (4 non-resident). Again there were no claims to 'first as conductor.' There were, however, several firsts in the method as conductor and many firsts in a different method, but there were only 10 first peals, which, from the point of view of progress, did not compare too well with 20 in 1946.

The local band at Banstead made history by scoring, under the conductorship of Mr. H. N. Pitstow, a peal in four Spliced Surprise Major methods. A peal in a new Surprise method was rung in the Leatherhead District and named Cobham Surprise in memory of Mr. W. James. Painswick Surprise Major was added to the list of methods in which peals have been rung for the Guild.

The balance sheet showed a credit of £59 2s. 11d., with £89 2s. 5d. in Benevolent Fund and £49 Cathedral Bell Fund. Balances in the districts amounted to £68. Mr. A. C. Hazelden (librarian) reported increased use of the library and that the committee had decided to part with surplus copies of available books only to libraries and not to individuals.

The Rev. K. C. Davis was added to the list of vice-presidents, and said although he had only been at Hawley a short time, he had 24 volunteers already to learn ringing. The officers and Central Council representatives were re-elected. The Summer Festival was fixed for June 26th at Dorking and possibly Ranmore.

Choral Evensong at Holy Trinity Cathedral was attended, at which the Provost (the Very Rev. R. S. B. Sinclair) preached.

SOUTHWELL DIOCESAN GUILD

About 80 members attended the second annual meeting of this young Guild at East Retford on April 17th. Ringing on East Retford's ten bells continued until 4.30 p.m., when a service in the church was conducted by the Vicar (the Rev. N. Hodd).

Following tea Mr. H. Pailing was elected to the chair in the absence of both the president and Guild chairman, and Mr. F. Salter deputised for the general secretary, Mr. T. Groombridge, jun., who was still in hospital.

Members were sympathetic towards the temporary officers and the routine business was soon brought to a close. Mr. Groombridge's report—usually the high spot of the proceedings—had to be postponed, so did the financial statement.

All officers were re-elected with the exception of Miss Thompson, the treasurer, who wished to resign. After expressions of regret at her decision and placing on record their appreciation of her work in the past, members elected Mr. W. Nichols to the post.

Messrs. T. Groombridge, jun., H. Denman and Miss J. Southurst were elected as representatives to the Central Council, and Messrs. T. Groombridge, sen., F. Blood, G. Nowell and S. Stenton were made hon. life members.

SURREY ASSOCIATION

Fifty members attended the annual meeting at Leatherhead on April 17th, when the service was conducted by the Vicar and the address given by the Rev. M. R. Buckley.

Mr. D. Cooper, the Master, presided at the business meeting, which followed tea at the Duke's Head. The officers were re-elected and Mr. W. S. Smith was made an additional vice-president. A grant of £10 to the Southern District from the general funds was approved.

A recommendation that the annual subscription be raised from 2s. to 3s. caused a very lively and prolonged discussion, but was ultimately referred back to the committee.

The meeting terminated with the usual votes of thanks to the officers, and to the clergy and ringers of Leatherhead for their hospitality.

SUFFOLK GUILD

The annual meeting of the Suffolk Guild took place on Easter Monday, when over 100 ringers and visitors assembled at Ipswich to ring on the six towers. The service was held at St. Lawrence's, and it was gratifying to see a full church, when a splendid address was given by Archdeacon Browne. Eighty sat down to lunch, and at the business meeting which followed, Mr. Charles E. Fisher, vice-president, was elected chairman, and gave a welcome to ringers and visitors.

A welcome to the visiting clergy was made by Mr. Charles Beecroft. In his report the Ringing Master stated 54 peals were rung during 1947, which included Mr. W. P. Garrett's 100th peal of Maximus. He appealed to non-peal ringers to break new ground and ring their first peal. On the whole, the Guild had had a successful year.

The General Secretary (Mr. C. W. Pipe) thanked the meeting for their support, especially those ringers and district secretaries who had put in much work during the past year.

In presenting the treasurer's report, Mr. Pipe stated the Guild had made a financial record. Membership had increased by 60 and funds amounted to £132 3s.

Election of officers: Master, Mr. C. J. Sedgley; general secretary and treasurer, Mr. C. W. Pipe; committee re-elected en bloc; Central Council members, Messrs. C. J. Sedgley, C. W. Pipe and G. E. Symonds.

OBITUARY

MR. JAMES POLE.

With regret we record the death of James Pole, of St. Peter's, Belgrave, Leicester, at the age of 91. He became associated with the church as a boy, his father being then verger, and he took up bellringing from an early age. He himself became verger in 1900 after working as a shoemaker many years. He remained verger 39 years, and was a member of the Midland Counties and Goscote Society of Ringers with whom he rang several peals.

Two outstanding memories associated with Mr. Pole are the Belgrave Curfew and the Pancake Bell, both ancient customs. Every evening from September 29th to March 25th he would toll the bell at 8 o'clock and then again at 8 o'clock in the morning. The bell was rung by Mr. Cole's family for over a hundred years. He was buried on April 23rd, and a half-muffled quarter-peal of 1,329 Grandsire Triples was rung by C. Linch 1, O. Castleman 2, R. W. Swann 3, J. Morris 4, R. Barrow 5, A. Skinner 6, E. Morris (composer and conductor) 7, E. Bass 8.

YORKSHIRE'S MESSAGE

THE message the Yorkshire Association gave to the Exercise at its annual meeting at St. Michael's, Headingley, Leeds, on May 8th, was one of encouragement. Statistics from the report show that membership now stood at 1,421, as against 1,357 at the beginning of the year. New members elected were 114, against an offset of 14 who had died and 36 who had lapsed. Peal ringing had not been backward with 102 rung at 64 churches and two handbell centres. First peals were rung by 34 members and conducting had been shared between 38 different conductors, three of whom had called their first peal.

The balance sheet showed a loss on the year's working of £9 8s. 4d., largely due to the considerable increase in the cost of printing. A warning note was added by Mr. S. F. Palmer, the hon. treasurer, in drawing attention to the upward trend in administrative costs, and he suggested that should it continue it might be necessary to take steps to bring the annual income of the Association into line with expenditure. The Association is, however, healthy, with assets totalling £401.

The Rev. C. O. Ellison, who was presiding at his first annual meeting as president, was re-elected on the proposition of Mr. P. J. Johnson, and in acknowledging the honour referred to the help and loyalty of the officers, adding that he would, so long as it was his privilege to serve, do his best to uphold the best traditions of the Association. Mention should also be made that Canon C. C. Marshall, who served with such distinction as president for 35 years, is to be presented with a silver salver, in addition to the gold signet ring he has received, as a memento of the members' affection.

In regard to the re-election of officers, a special word is due to the hon. peal secretary, Mr. W. Barton. Mr. L. W. G. Morris, the general secretary, in moving his re-election, referred to the able manner in which he had fulfilled the office for so long a time and pointed out that there were few who possessed the necessary qualifications and fewer who were fired with the inclination to tackle the job, which called for skill and close attention to detail. In accepting office for another year, Mr. Barton desired the Association to look for a successor.

Of general interest was the president's announcement that the committee felt that the time had come when an attempt should be made to revive the Snowdon Dinner, which had been in abeyance since the outbreak of war in 1939. Largely as a venture of faith the committee had made preliminary plans to hold it at Bradford on Saturday, October 2nd. The cost to members attending would be greater than before the war, but in view of the great social value of this old established function they had every confidence that the members would support its revival. Thus a new date was added to the Ringing Calendar for 1948.

The meeting was preceded by divine service at St. Michael's, attended by a large gathering representative of all districts. The Vicar, Canon R. J. Wood, conducted the service. This was followed by an excellent tea in the Bennett Road Institute.

Circulated with the report is a message from Canon Marshall thanking the members not only for the two parting presents, but 'for all your great kindness shown to me in the long years of our working together. . . .' The Canon's homily is well worth repetition: 'Our value to any great movement is not what we can get out of that movement, but what we can give to it; and how true this is of our Ringing Associations! They only can exist by virtue of the vast amount of voluntary work which lies behind them; very few people realise the full amount of voluntary and self-sacrificing work which lies at the back of the life of the Association as a whole—the work of all our officers and, side by side with that, the contribution which every individual member brings to it. No one must ever think, for instance, that the regularity with which they pay their subscriptions is not a matter of great importance to the whole Association; nor must anyone think that it is only things like the paying of subscriptions which matter—it is the individual character which really matters; the good of the whole depends, after all, on the goodness and dependability of each individual person.'

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

Twelve Spliced Surprise methods was Oxford's royal salutation.

Scarborough is the venue for the next meeting of the Yorkshire Association on Sept. 25th.

The latest report of Mr. Tom Groombridge, jun., is that he is much brighter.

Errata.—Re 5,040 Spliced Triples, page 190, after the Second in and out 5 should read Right, not Wrong.

With 14-year-old Peter Foster ringing the treble, Burton-on-Trent Sunday service band have rung their first peal on ten bells.

First on the bells 'local born' is the claim of Abbotsbury, Dorset, regarding their peal of Grandsire Doubles.

Circlers this week: Mr. T. S. Horridge (Sefton, Lancs), Arthur Hibbert (Taxal, Cheshire), Frederick Flint (Cuckney, Notts).

Congratulations to Miss Betty Brown, who, at the age of 15 has completed the Stedman circuit from Doubles to Cinques.

Mr. Ernest Morris' composition of Stedman Caters rung at Willenhall, Staffs, contains 789 and 798 at alternate course ends throughout the peal. A first is claimed.

'We feel this quite an achievement,' writes our Whitley Bay correspondent in recording the first peal of London by the local Sunday service ringers.

Ringers visiting Devon will find 'A Short Guide to the Church Bells of Devon' useful and helpful. Price 5d. post free from F. C. Smale, Oakfield, Station Road, Okehampton.

Ringing rounds for the Royal Silver Wedding was Anthony Sanger, of Evercreech, Bath, whose ninth birthday coincided with the royal celebration. Surely the youngest ringing tribute?

Mr. J. E. Cawser heads the list of Yorkshire conductors for 1947 by calling 17 peals during the year; he also has the honour of being the highest peal scorer with 26 peals. Mr. W. E. Critchley comes second with 19.

To celebrate the 91st birthday of Mr. George Williams, Master of the Winchester and Portsmouth Guild. 720 Plain Bob Minor and 720 Oxford Single Bob were rung at Swanmore, 720 Kent Treble Bob at Titchfield and 720 Plain Bob Minor at Wickham.

The ring of six (tenor 20 cwt.) at Humberstone, Leicester, has been rehung by Messrs. Gillett and Johnston with new fittings, including cast-iron headstocks and ball bearings in the existing oak frame. The rededication was on May 2nd, the ceremony being performed by the Vicar (the Rev. P. Lidster).

The peal of St. Clement's rung at Burford, Oxon, in honour of the Royal Silver Wedding, was also a 64th birthday compliment to Mr. Frank Soden, the tower foreman, and a regular Sunday service ringer for 46 years. He is still as keen on peal ringing as ever, and is justly proud of 'captaining' a team of 19 ringers!

To mark 50 years' regular attendance and his 73rd birthday, 1,260 Grandsire Triples was rung at East Ilsley, Berks, on April 25th, for Mr. R. W. Warwick. Ringers: Miss Eileen Wilson (first quarter) 1, Miss June East 2, Mrs. C. J. Hibbert 3, R. W. Warwick 4, Miss Joan White 5, J. W. Wilson 6, C. J. Hibbert (cond.) 7, R. Wells (first quarter) 8.

St. Mary's, Southampton, recast ring of 10 will be dedicated on Sunday, June 20th at 3 p.m., by Bishop Lang, the service, if fine, to be held in the ruins of the church. The church was destroyed by fire during a blitz on Southampton in November, 1940, but the tower and bells, although extensively damaged, were not destroyed. The bells were recast by John Taylor and Co. in 1945; they are now rehung on one level.

LINCOLN DIOCESAN GUILD

MEMORIAL BELL TO MR. RUPERT RICHARDSON DEDICATED.

The annual meeting on April 24th attracted what may have been a record number of members and visitors, among the latter being friends from London, Birmingham, Leicester and other centres. Ringing commenced at two o'clock until service time, when large numbers attended evensong at the Cathedral.

At the close of this service, the choir and congregation proceeded to the west end of the nave for the dedication of the 'Flat 6th' bell which has been added to the Cathedral ring of twelve in memory of the late Master, Mr. Rupert Richardson. The Bishop of Grimsby performed the dedication, the bell being chimed by him by means of a rope brought down through the intervening floors. Tea was at the Wesley Schoolroom, Clasketgate. Immediately after this the Leicester handbell ringers gave a selection of tunes, under the direction of Mr. S. Harrison.

Canon A. M. Cook, Sub-Dean of the Cathedral, presided at the business meeting and said he was delighted to welcome such a large gathering of ringers. Referring to the dedication service, he said he thought this was both dignified and beautiful, and he was very pleased to know that Mrs. Richardson was able to be with them.

The Dean of Lincoln was again elected president and Mr. J. A. Freeman Master. After acting for 27 years as hon. secretary and treasurer, Mr. F. W. Stokes did not offer himself for re-election, and Mr. Jack Bray was unanimously elected to these offices. Messrs. J. A. Freeman, J. Freeman, Jack Bray and George E. Feirn were elected representatives on the Central Council for the ensuing three years.

The Master reported that 111 peals had been rung during the past year—not a record as to actual number, but surely a record as regards quality. Three records had been set up: (1) The peal of Spliced Surprise Major in 16 methods at Harmston; (2) the handbell peal of Minor in 105 methods; and (3) the peal of 14,144 London Surprise Major at Heydour. All of these had been rung by resident members. Among other peals in the higher methods were 10 London Surprise Major, 2 Bristol, 4 Cambridge, 2 Superlative, 1 Yorkshire, 1 Spliced Surprise Major in six methods, also the first peal of Erin Caters by the Guild. He specially mentioned two of the Guild's young lady ringers, namely, Miss Rhoda Brown, who had rung a peal in 20 Surprise Minor methods, and Miss Betty Brown, who, ringing her first peal in March at the age of 14, had accomplished 20 peals during the year from Minor to London Surprise Major.

The Master then read a statement of the financial position of the Rupert Richardson Memorial Fund, showing that with money already received and definite promises, a total of £206 had been reached, leaving a balance of about £116 still to be found. This includes the cost of the memorial tablet to be erected in Surfleet Church, the late Master's 'home' tower. He thanked the Dean and Chapter, on behalf of the Guild, for their ready permission to carry out the scheme of adding the new bell to the Cathedral peal, for their generosity in providing the memorial tablet in the Ringers' Chapel, which had been dedicated at the same time as the new bell, and for the assistance given by the Cathedral staff to the bellhangers. He also thanked Mr. R. S. Godfrey, the Cathedral Clerk of Works, for his co-operation and help, and Messrs. Taylor and Co. for the way the work had been carried out.

He then went on to say that the year 1949 would be the jubilee of the Guild, and that suggestions had been made that this event should be celebrated in a worthy fashion. The view of the committee was that a full day meeting should be arranged on the actual anniversary, April 25th next, with a lunch and tea. A good deal of discussion ensued, several speakers holding that such an event would be best celebrated by a dinner. It was finally decided that a full day meeting should be held on the actual anniversary, April 25th, and that later in the autumn a dinner should be held, to which would be invited both diocesan and civic dignitaries. A small committee was appointed to deal with local arrangements.

Before ringing commenced generally at the Cathedral, two courses of Stedman Triples were rung on the light eight by officers of the Guild, with Mrs. Richardson ringing the new bell.

SALISBURY DIOCESAN GUILD

The Guild festival at Mere on May 1st attracted a very large attendance. The Master (the Rev. C. C. Cox) presided at the annual meeting, when the executive officers were re-elected. Mr. S. Hector and Mr. E. F. White were appointed vice-presidents, and the Rev. F. Ll. Edwards, Messrs. W. C. West, G. H. Harding and F. Preecy elected Central Council representatives. Mr. Legg was elected a life member.

A congregation of about 250 attended the festival service at the Parish Church, conducted by the Vicar (the Rev. N. E. Johnson). The address was given by the Master and a course of Grandsire Caters rung on handbells.

The arrangements for providing the large company with tea were efficiently carried out by the ringers of Mere and a committee of ladies, to whom thanks were heartily accorded.

GREAT WAKERING BELLS

The Bishop of Chelmsford rededicated the five bells and dedicated a new treble bell at St. Nicholas', Great Wakering, Essex, on May 1st. The work on this light ring of six, tenor 8 cwt., has been carried out by Messrs. Mears and Stainbank. The 'going' was excellent except for the new ropes and long draught.

The first 720 on the bells was of Plain Bob rung by H. Oliver 1, Mrs. Woodgate 2, W. May 3, P. King 4, W. Perry 5, F. Lufkin (conductor) 6.

OXFORD DIOCESAN GUILD

EAST BERKS AND SOUTH BUCKS BRANCH

Bigger and better than ever was the annual meeting of the East Berks and South Bucks Branch at Marlow with 20 towers represented. The Bishop of Buckingham gave the address—a real ringers' sermon enjoyed by all present.

Of the 104 at tea, 98 had sent in their names. Another record. Before the business commenced, the secretary read a letter that he had sent to Buckingham Palace. The reply was:—

> 'The Private Secretary is commanded to convey the sincere thanks of the King and Queen to the members of the East Berks and South Bucks Branch of the Oxford Diocesan Guild of Church Bellringers for their message of good wishes on the occasion of their Majesties' forthcoming silver wedding.'

Then followed a presentation to the secretary (Mr. A. D. Barker) from the members of the branch, including the Bishop, of a wallet and contents. Of course, he couldn't reply properly as he hadn't looked up the calling, but now tenders his grateful thanks to all concerned.

Officers for 1948 were re-elected as follows: Chairman, the Rev. E. C. S. Lowman; Branch Ringing Master, T. J. Fowler; branch secretary and treasurer, A. D. Barker; representatives on General Committee, Mrs. A. D. Barker, W. Birmingham, F. D. Boreham, R. Reid and W. Welling. J. B. Ford was also elected to fill one vacancy.

CENTRAL COUNCIL, LONDON, 1948

THE growing interest of the Exercise in the work of the Central Council was again clearly demonstrated at the 51st annual meeting when, in spite of great difficulties in finding hotel (and other) accommodation, a record number of members attended.

Thanks to the influence of Mr. A. A. Hughes (who is a Liveryman of the Skinners Company), and the kind permission of the Master, Rev. Canon Adam Fox, D.D., the Council were privileged to meet in the beautiful hall of the Skinners Company, and, large though this hall is, extra seats had to be brought in to accommodate the number present.

The proceedings commenced on a happy note when the Master of the Skinners Company welcomed the assembly in warm but dignified tones. He was followed by Dr. Matthews, Dean of St. Paul's, who, after paying a high tribute to the work of ringers in the Church, led the meeting in prayer.

Thanks having been expressed by the president, the Council settled down to a formidable agenda. Due to the skill and efficiency of the president, this was completed by 5.30 p.m., and will be fully reported elsewhere.

The Ancient Society of College Youths, who were having their monthly practice at St. Paul's, generously gave way to those visitors who desired to try their skill on this noble ring, and many were thrilled to have this opportunity. A friendly hour or so was afterwards spent at the Old Bell in Holborn.

These gatherings of enthusiasts from all parts of the country (and Ireland) leave happy impressions on the mind. It was very nice to see 'old timers' like George Williams, Henry R. Newton (that prince of heavy bell ringers), W. H. Barber, Albert Walker, J. W. Jones and many others, eager and alert as always, keeping a fatherly eye on the proceedings. Then there was the Rev. A. G. Thurlow, breezy and with an eye to business. (What a splendid commercial traveller he would make!) It was not so easy to see the 'sombre but dignified personages' this time, as they were not raised up from the floor as at Exeter. One missed Canon Coleridge, that great servant of the Council, and 'Tom Bowling' (now Marshall), also Hilda Snowden.

It was a unique experience to see the Masters of the Ancient Society and the Cumberlands teaming up to ring St. Paul's tenor and making a good job of it, too—a happy augury! Once again we had the pleasure of listening to the lovely Irish 'burr' of F. E. Dukes, and we were, as usual, impressed by the sturdy enunciation of that Cockney Yorkshireman, P. J. Johnson. Feasts of theory were provided by H. G. Cashmore and Chris Woolley—much better than the 'dog fights' which characterised the discussions in the past. Finally, everyone present was impressed by the efficiency of the secretary, Mr. G. W. Fletcher, and his wife (a perfect team). May they long continue to serve the Council.

A. A. HUGHES, J.P. (Hon. Treasurer), 34, Whitechapel Road, E.1.

MRS. E. K. FLETCHER.

EDITOR: T. W. WHITE.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

Describing the journey from London to Buckfast Abbey for the recent peal, a correspondent writes: 'It was not long before one well-known member of the little party produced a wad of figures relative to peals, course-ends, quarter-peals and what-have-you of every method under the sun. No matter what subject came up for discussion, like the character in the radio show, it was "all down in his little book" (and he had not left it at home on the harmonium!).' This information ought to have been before the Central Council in the selection of the Methods Committee!

Mr. Sidney Hough, sen., has 'circled' Knutsford, Cheshire, tower.

Leicester Diocesan Guild has increased from 1949 its annual subscription from 1s. 6d. to 2s. 6d.

The Rev. Malcolm Melville left England by air on May 24th for Brazil, where he has accepted an appointment as schoolmaster-chaplain to the British Colony.

The Rev. A. S. Roberts rang his 100th peal in a commemoration of their Majesties' silver wedding. He believes he is the first Cornish ringer to reach a century.

A novelty at the meeting of the Stockport Branch of the Chester Guild meeting at Cheadle was the ringing of half courses of Cambridge Surprise Major starting from 13245678 and running round at the treble's snap lead at the beginning of the fifth lead.

A new treble in memory of two former bell-ringers—the late Mr. F. Barber and Mr. B. Partridge—was dedicated by the Bishop of Peterborough at Wilby, Northants. After the service many visitors assisted the local ringers in various touches and spoke in high praise of the musical tone of this ring of six, which are a little tricky to handle.

'In me are cast the voices of all European bells desecrated by the enemy for munitions, 1939-1945,' is the inscription on the seventh of the new ring of eight at St. Peter's, Macclesfield, which was dedicated on May 1st. The words are by Mr. C. W. Lawton. These bells are due to the initiative of Mr. F. Horsfield, who raised the £1.700 for bells and clock chimes in 27 months and trained a local team of boys with an average age of 15 to ring at the dedication by the Archdeacon of Macclesfield. The official weight of the tenor is 7 cwt. 2 qr. 22 lb.

Mr. Harry Colley rang the treble to a peal of Double Norwich at Billingshurst for his 70th birthday.

Husband and wife as Guild officers are to be found in the Sussex Association in Mr. and Mrs. F. I. Hairs. The former was appointed Master in 1944 and Mrs. Hairs peal secretary and hon. secretary of the Southern Division.

When the Wigan Branch met at Christ Church, Southport, on May 1st, the Vicar, in acknowledging a vote of thanks, said he hoped before long to have a scheme going for the recasting of his bells.

At the Mid-Devon Branch meeting at Buckfastleigh a letter was read from the B.B.C. of Bristol asking to be furnished with information about bells and bellringing in the West Country. This was left to the secretary.

Lewisham District of the K.C.A. are introducing a social meeting in addition to the usual quarterly meetings. At the meeting at Chislehurst on May 1st nine practising and two non-resident members were elected.

Llandaff and Monmouth Association have a standing order that a person shall be Master for one year only and shall serve only once. As exception was made in the case of Mr. J. W. Jones, who was Master in 1898 and was recently elected to that post.

CENTRAL COUNCIL IN LONDON

RINGING A FOLK ART ..... RECORD ATTENDANCE ..... HONORARY MEMBERS' BALLOT A SURPRISE ..... EIGHT BELL COMPOSITIONS BOOK .. ... RECORD LENGTHS 'DECISIONS'

RICH in memories of London of the days of Christopher Wren was the first session of the twentieth Council (51st annual meeting), held at the Skinners' Hall, London, on Whit Tuesday. There was a record attendance of 137 members.

Canon Adam Fox, the Master of the Skinners' Company, and Dean Matthews, of St. Paul's, attended to receive the Council. With the President (Mr. E. H. Lewis) were the hon. secretary and treasurer (Mr. G. W. Fletcher), Mrs. Fletcher, Mr. A. A. Hughes and Mr. W. H. J. Hooton (hon. librarian).

The Master of the Skinners' Company, in his words of welcome, said that his company had a bell in the hall which was the gift of Mr. Hughes and was rung in Corpus Christi Day. Someone had said the sound of bells was the last enchantment of the Middle Ages. As ringers they were survivors of a great art handed down from the Middle Ages, and he hoped that as the result of their deliberations their bells would ring more sweetly.

Dean Matthews, as the representative of the Church in the City of London, also extended a welcome. By a curious coincidence, he said, he had been connected with the two heaviest rings of bells in the country. He was Dean of Exeter before coming to St. Paul's. He remembered one occasion at Exeter when the bells seemed to be ringing all day and all night, and as his deanery was underneath the belfry, he was keener for bellringers at the start than at the finish (laughter). As a result of that long athletic exercise, a tablet was erected in the belfry. Only the other day his verger informed him that the bells of St. Paul's were to be rung for 3½ hours. Whether they broke down or not he did not know, but the fact was that they only rang for 2½ hours and they had all his blessing when they left off.

A FOLK ART

He believed he was right in saying that the ringing of peals on bells was an art confined to this country; it was only in this country that reason and imagination had been brought in to make the art of bellringing. Another thing that was very interesting in bellringing was that it had come right out of the people. It is not something that had been put into action by a lot of highbrows who had enlisted people to carry out their ideals. It was something to be thankful for that this folk art had been developed under the inspiration of the Church.

The note of bells was a note like no other. In no other way could the joy and sorrow of a community be so well expressed. 'When you ring your bells you are speaking to people's hearts and what more can the greatest poet do?'

Dean Matthews then said the opening prayers.

The President, in acknowledging the greeting, said the Master made a remark which was very dear to him when he said that he hoped that their bells would be rung more sweetly as the result of the Council meeting. He would say that for years he had been emphasising the importance of striking, and the object of good striking was to see that the bells were rung more sweetly. He presented the Master with a copy of Mr. Trollope's book, 'College Youths.' The Master, in accepting the gift, promised to have it placed in the College Library.

ROYAL GREETINGS.

The President said a ringer in Wales had suggested that Princess Elizabeth and the Duke of Edinburgh should be invited to open the proceedings of the Central Council in London. He wrote to the Princess making the suggestion and sent her copies of 'The Ringing World' containing the peals rung for her coming-of-age and also her marriage. He had since received a letter from the Private Secretary to the Princess, who was much interested in the contents and the journals. Her Royal Highness, however, regretted that she would have to decline the invitation owing to the number of engagements.

REPRESENTATION OF SOCIETIES.

The Hon. Secretary reported as to the representation of societies. On the roll there were 146 members from 53 associations as follows:—

24 Associations, 4 members	... ...	96
4 Associations, 3 members	... ...	12
13 Associations, 2 members	... ...	26
12 Associations, 1 member	... ...	12
	Total	146

Honorary members numbered 17, making in all 163.

The number of associations had increased by one by the reaffiliation of the North Wales Association. The Truro Diocesan Guild had increased from one to four representatives, and the Barnsley and District Guild, the Derby and District Association and the Midland Counties Guild from one to two representatives. The only association that had not paid its affiliation fee was the Scottish.

NEW MEMBERS.

The following new members were presented to the President:—

Mr. J. T. Dunwoody (Irish), Mr. G. W. Cecil (Ancient Society of College Youths), Mrs. A. S. Roberts, Mr. H. Miles and Mr. F. D. Teague (Truro Diocesan Guild), Mr. A. J. Hughes (North Wales), Mr. F. Whitmore (Peterborough), Mr. G. C. Briggs (Derby and District), and Mr. W. Osborne (hon. member).

PRESIDENT RE-ELECTED.

Mr. A. Paddon Smith, in proposing the re-election of Mr. Edwin H. Lewis, said they would all agree that he had presided over their gatherings with tact, conspicuous ability and never-failing courtesy. 'I do not think we could better him and I can say while he never stifles debates, he makes speakers keep to the point and to the agenda.'

The Rev. F. Ll. Edwards, in seconding, said: 'I consider the Central Council are extremely favoured by fortune in having one with the qualities of Mr. Lewis to preside over the proceedings.'

The resolution was carried with applause. Mr. Lewis, in thanking the members for 'this renewal of confidence,' said he would endeavour to do his best for the Council, but age was creeping on and he thought they should be looking round for a possible successor.

THE SECRETARYSHIP.

Subject to his election as a member later in the meeting, Mr. G. W. Fletcher was elected secretary on the proposition of Mr. A. A. Hughes, seconded by Mr. H. Miles.

The President said there was some doubt about the interpretation of the rules. An honorary member, when elected, did not take his seat until after the end of the meeting at which he was elected. That was not quite clear in regard to officers of the Council. To keep things in order—he did not want anyone to say, if they utilised Mr. Fletcher's services that day, that the proceedings were null and void—he would like to move from the chair that Mr. Fletcher act as secretary of the Council.

Mr. A. Walker seconded and the resolution was carried.

HON. LIBRARIAN.

Mr. W. H. J. Hooton was re-elected hon. librarian on the proposition of Mr. W. Ayre, seconded by the Rev. F. Ll. Edwards.

HONORARY MEMBERS.

The Hon. Secretary announced that 14 honorary members were due to retire.

The President said the Standing Committee discussed the question the previous evening and they recommended four names, viz., Canon Coleridge, who had ceased to be a member of the Oxford Diocesan Guild, whom they thought they should retain as long as possible; Mr. G. W. Fletcher; Mr. W. Viggers, of Aldershot, who had done valuable work for the Biographies Committee; Mr. E. A. Barnett, who was a member of the Council and was a member of the Peal Collection Committee. If all the retiring members stood it would mean that there would be 18 names for 17 places.

Mr. A. Paddon Smith proposed and Mr. F. Hairs seconded that these four names be added to the list.

Mr. Walter Ayre, Mr. J. P. Fidler and Miss M. Cross were elected tellers.

Later in the day the result of the ballot was announced as follows:—

Elected: Mr. C. Dean 133, Mr. W. H. J. Hooton 133, Canon Coleridge 133, Mr. E. H. Lewis 132, Mr. G. W. Fletcher 132, Mr. A. Walker 132, Mr. A. A. Hughes 131, Mr. G. E. Debenham 131, Mr. F. Sharpe 130, Mr. J. F. Smallwood 127, Mr. E. A. Barnett 126, Mr. W. Viggers 125, Mr. C. F. Johnston 124, Mr. E. Alex. Young 123, Mr. T. Groombridge, sen. 116, the Earl of Shaftesbury 112, Mrs. C. C. Marshall 111.

Not elected: Mr. E. C. S. Turner 101.

MINUTES OF THE LAST MEETING.

The President said that at the Standing Committee attention was drawn to the fact that in the minutes which were circulated no reference to the royal telegrams to Princess Elizabeth and Queen Mary was recorded. This matter had been rectified in the minute book. He moved that the minutes as published, with this addition, be taken as read and approved.

Mr. J. F. Smallwood seconded.—Agreed.

MATTERS ARISING.

The Hon. Secretary stated that at the meeting last year the Standing Committee were asked to appoint a small committee to deal with the Roll of Honour and Revision of Rules. Obviously there was no time in the third session to complete the work—in fact there was little time to start it. It was thought fit that the members engaged on that work should wait until the result of the elections that day.

LOSS OF MEMBERS THROUGH DEATH

Members stood while the list of those who had died since the last meeting was read as follows:—

J. A. Trollope, Norwich Diocesan 1897-1899, hon. member 1900-1947, attended 35 meetings; Keith Hart, Sussex County 1912-1914; E. Denison Taylor, Midland Counties 1930-1938, attended nine meetings; Rev. E. S. Powell, Devon Guild 1914-1935, Peterborough 1936, attended 16 meetings; R. Matthews, Worcester and Districts 1924-1926; Rev. H. Drake, Salisbury Diocesan 1903-1908; Norwich Diocesan 1918-1921, Suffolk 1922-1947, attended 27 meetings; J. J. Jutson, Peterborough 1924-1926; G. Chester, North Lincolnshire 1897-1899, Lincoln Diocesan 1900-1939, attended 16 meetings; F. B. Tompkins, Sussex County 1906-1914, attended seven meetings; E. H. Lindup, Sussex County 1915-1918.

A tribute to the memory of Mr. J. A. Trollope was paid by Mr. A. C. Hazelden, who said he was a most lovable man and it was a great sorrow to him when the end of his career came at Norwich.

LIBRARIAN'S REPORT.

The report of Mr. Hooton stated: During the year very few library books had been lent, but various searches had been made in the volumes of ringing papers and in MSS. for information required about peal compositions and records. Mr. F. J. Hill, of the British Museum, was given an opportunity of consulting the library in connection with his supplementary bibliography of bell literature.

The following gifts to the library were gratefully acknowledged: Papers of the late Henry Dains from Mr. Dew; 'Ringing Worlds' (two volumes), Mr. and Mrs. G. W. Fletcher; 'Radnorshire Bells,' remaining parts title and foreword, from Mr. F. Sharpe; MS. proof of 'Treble Bob Major' from Mr. G. L. Joyce; 'Directory of Church Bell Ringers,' fourth edition, and 'Cambridge Surprise' (W. A. Cave), also 'Method Splicing,' by J. P. Fidler, 1915, all from Mr. A. C. Godfrey; 'Belfries and Ringers' (Canon Ellacombe), from Mr. C. T. Coles, per Mr. E. C. S. Turner; 'Analysis of bells from the pre-Reformation foundry at Bury St. Edmunds,' from the late Rev. W. C. Pearson, per hon. secretary of Cambridge University Guild.

The number of copies sold had increased since last year, but the return was less owing to the exhaustion of higher priced books. The supply of 'Hints' ran out and 2,000 had been printed to sell at 4d. There was still a steady demand for Triples Methods and for the Card of Instructions. The 300 'Mysteries Unveiled' made available last June had been reduced to 101. Requests for the following out of print books continued to come in: Doubles and Minor, and Major and Cater Methods. There had been enquiries, too, for figures of Doubles Methods, and for a book containing a large selection, and it was possible that such a publication was really needed.

Sales amounted to £25 11s. 7d.

Mr. Hooton, in moving the adoption of the report, said the Doubles and Minor book was being reprinted and there would be 750 copies available to be sold at 3s. 3d. He thought that a book on Doubles Methods was also necessary.

Mr. George Cross seconded.

Mr. E. C. S. Turner said if it was not too late he would like to see the Doubles section strengthened. If anybody had any Doubles methods he would see that they were in the book.

Mr. Hooton said the Doubles Methods contained a large number which were known as illegitimate. There were nearly 200 such peals.

Mr. C. H. Kippin: If these are published and rung, is it a fact that the Council will not recognise them? (laughter).

The President said what was proposed was that certain methods, which were not in accordance with the Central Council's decisions and recommendations and should not be encouraged, were to be published in order to keep up interest among five-bell ringers. He thought these Doubles should be in a separate book, but that could be thrashed out by the Methods Committee.

The report was adopted.

STATEMENT OF ACCOUNTS.

The statement of accounts showed affiliation fees £33 15s., subscriptions honorary members £1, sale of publications balance £21 5s. 6d., which, with £324 9s. 1d. carried forward, made a total of £380 9s. 7d. The year concluded with a balance of £286 12s. 2d., the main items being sums voted at 1947 meeting £22 11s., Libraries and Publications £36 1s. 9d., Biographies Committee £6 15s. 5d., expenses of Exeter meeting £3 6s.

The Secretary said the accounts were prepared the previous Wednesday, and after that day four affiliation fees had been received. He asked all representatives to ask their treasurers to pay promptly. The final balance was somewhat less than they started with. It was never intended to accumulate a big balance; they would prefer to see it in publications. He proposed the adoption of the accounts.

Mr. A. D. Barker seconded.

In reply to questions, the Hon. Secretary said the accounts were closed as near to Whitsun as possible. Mr. A. C. Hazelden suggested that the accounts should close on March 25th.

The Secretary replied that any alteration of date would have to be considered by the small committee dealing with revision of rules.

CARTER RINGING MACHINE.

The report of the trustees stated that Mr. Young and Mr. Sharman (demonstrator) examined the machine about 10 months ago. In Mr. Sharman's opinion, a good deal of overhaul would be necessary before the machine could be satisfactorily demonstrated. Many of the working parts were rather gummed up and a number showed wear. This would mean taking almost all of it to pieces for thorough cleaning and perhaps the renewal of a few parts. This would be rather costly, and as Mr. Sharman was not in good health at present it was difficult to say when such work could be undertaken. It would be an advantage to find someone sufficiently interested and with good mechanical knowledge to spend some time going over the machine with Mr. Sharman and so become properly acquainted with the principles of its operation.

Mr. A. A. Hughes moved the adoption of the report and said that Mr. Young resigned his trusteeship at Exeter.

Mr. Smallwood seconded the adoption of the report and also moved that Mr. A. Walker be appointed a trustee. This was agreed to.

The Rev. W. H. K. Felstead said Mr. Brian Price was much interested in ringing machines and he would probably help to put it right.

The President suggested that the trustees get in touch with him.

ELECTION OF AUDITORS.

The following were elected:—

Mr. C. Dean, proposed by Mr. W. Ayre, seconded by Mr. Smallwood.

Mr. A. A. Hughes, proposed by Mrs. Fletcher, seconded by Mr. Hooton.

STANDING COMMITTEE.

The Hon. Secretary reported that the Standing Committee had considered the agenda and had made certain recommendations which would be placed before the Council. As requested at the last meeting the following committees had been appointed:—

(1) To consider and report on the rules.

(2) To examine all decisions of the Council and report thereon (with power to co-opt from outside the Standing Committee).

(3) To consider the preparation of a Roll of Honour.

The President moved the adoption of the report, which was agreed.

PEAL COLLECTION COMMITTEE.

The report stated: The work of compiling the Collection of eight-bell compositions is now finished, but the typing is not yet complete. It is hoped that this will be finished in the near future.

In view of the fact that Snowdon's 'Stedman' has recently been brought up to date and the 'Grandsire' book in the same series is shortly to be revised, your committee has decided to omit these two methods from the present Collection and devote it entirely to Major methods.

The Collection contains a selection of compositions in all the Standard and a few near-Standard Major methods, plus a number of compositions of Spliced Surprise Major.

Mr. H. G. Cashmore moved and Mr. C. W. Woolley seconded its adoption.

The Secretary said the second paragraph rather ran counter to the report adopted by the Council in 1934, which stated that the committee should collect peals in these methods.

Mr. Cashmore replied that he did not know anything about the terms of reference in 1934. The list was presented in 1939, and in the intervening years he had heard a lot of criticism about that collection. It was not a good collection, so when the Council met in 1945 at Birmingham Mr. Newton and he were reappointed and he obtained the typescript from Mrs. Fletcher and found it was really a hotchpotch. It was not properly arranged and, moreover, it was being used extensively to flog the compositions of one individual. If it was the wish of the Council to insert Stedman and Grandsire they could do so, but they thought it would be a waste of time to include them as there were two publications devoted to these compositions.

Mr. Harold Poole supported the committee.

The Rev. Felstead: Does it not depend on what is in the new Grandsire book? The old one had hardly anything on peals.

Mr. P. J. Johnson thought if the Council included Grandsire and Stedman it would increase the size and delay publication.

Mr. Hooton said the book on odd bell methods was now exhausted.

The President said the original idea in 1934 was that this should be a small handbook for young conductors to give them a selection of all the different methods. Times had changed and it was for the Council to decide whether the publication took a slightly different form.

Mr. F. Hairs proposed that the committee's recommendation be adhered to and this was agreed.

On the proposition of Mr. H. Poole, seconded by Mr. Walker, the committee was elected as follows: Messrs. H. G. Cashmore (convener), G. R. Newton, C. W. Woolley and E. A. Barnett.

METHODS COMMITTEE.

The report submitted by Mr. Turner paid a tribute to the work of Mr. Trollope on this committee, with which he was associated for nearly 50 years. Two works were urgently needed by the Exercise—the collection of Plain Major Methods and a collection of Surprise Methods. During 1947 he recommended the printing without any amendment of the Collection of Doubles and Minor Methods.

Mr. Turner, in moving the report, said it would be the last one he would be concerned with. The work had given him much pleasure and he hoped that others more qualified would be able to carry on the work.

The Rev. Felstead expressed the hope that some means would be found of retaining Mr. Turner's services.

Mr. George Cross thought the Council ought to thank Mr. Turner for his work. The Council should have done better than it did that day.

Mr. N. Golden said he would like to second the adoption of the report. Everyone knew the brilliance of Mr. Turner in the field of composition, and it seemed a pity that his services could not be retained. They had been speaking about these books for 14 years.

Mr. Sedgley: In losing Mr. Turner we are losing one of our best young men, and I think some means should be found of retaining his services.

The report was adopted.

The committee was elected as follows: The Rev. Felstead (convener), Messrs. C. H. Lewis, E. A. Barnett, H. G. Cashmore and Nolan Golden.

RECORDS COMMITTEE.

The committee represent a summary of the new methods and progressive lengths rung during 1947.

THE EXTREME IN RINGING

Miss Margaret Beamish and her mother, who is the hon. secretary of the Coventry Diocesan Guild. Margaret, who is now 12, has added to her long list of attainments the ringing of an 'inside pair' to a peal of Stedman. It was her first attempt for a peal 'in hand.' The peal was a birthday compliment to Miss M. V. Godderidge, of Folkestone. Margaret's father was this year elected Master of the Coventry Diocesan Guild.

Mr. R. W. Stannard completed 62 years of peal ringing by a peal of Kent Treble Bob at Hornchurch for the royal silver wedding. This was rung on the 60th anniversary of 10,304 Bob Major he rang at Leiston, Suffolk, on April 21st, 1888.

Thirty-five years ago Mr. H. J. Halford became a ringer and chorister at Wadhurst Parish Church, near Tunbridge Wells. Fourteen years later he was appointed clerk and sexton and captain of the ringers. After ringing out the old year on his 80th birthday he retired from choir and belfry. As a mark of appreciation the parishioners on May 18th presented him with a cheque for £168. Ringing honours were 1,260 Bob Doubles (first quarter by a local band for 50 years) by C. Pilbeam 1, Mrs. C. A. Bassett 2, J. Newick 3, Miss M. Pilbeam 4, C. A. Bassett (cond.) 5, W. Palmer 6. It was the first quarter for 1, 3 and 6.

NEW METHODS.

Tower bells.—Jan. 17th, 5,056 Oswald Delight Major, Chester Diocesan; Jan. 24th, 5,024 Eardley Surprise Major, Kent County; March 15th, 5,120 Spliced Surprise Major in 16 methods, Lincoln Diocesan; March 17th, 5,056 Double Mancroft Bob Major, Chester Diocesan; April 12th, 5,024 Cobham Surprise Major, Guildford Diocesan; June 7th, 5,184 Maidstone Bob Major, Oxford University; Oct. 2nd, 5,056 Eastcote Surprise Major, Middlesex County; Oct. 24th, 5,024 Liverpool Surprise Major, Chester Diocesan; Nov. 15th, 5,040 Lincolnshire Surprise Royal, Yorkshire; Nov. 15th, 5,024 Barnet Surprise Major, Hertford County; Nov. 29th, 5,024 Rotherfield Surprise Major, Sussex County; Dec. 6th, 5,040 Albanian Surprise Royal, Hertford County; Dec. 8th, 5,024 Willesden Surprise Major, Middlesex County; Dec. 19th, 5,120 Hethersett Imperial Court Bob Major, Norwich Diocesan.

Handbells.—Feb. 2nd, 5,184, Winchester Bob Major, Oxford University; March 30th, 5,040 Cambridge Surprise Royal, Leicester Diocesan; June 8th, 5,152 Marlborough Bob Major, Oxford University; July 9th, 5,120 Felstead Surprise Major, Hertford County; Sept. 28th, 5,280 Cambridge Surprise Maximus, Leicester Diocesan; Nov. 18th, 5,184 Jersey Surprise Major, Hertford County.

Progressive lengths.—April 7th, 9,000 Plain Bob Royal, Essex: July 12th, 5,152 Lincolnshire Surprise Major, Chester Diocesan; Oct. 4th, 14,144 London Surprise Major, Lincoln Diocesan.

Minor and Doubles.—On handbells peals of Minor were rung in 69, 91 and 105 methods by the Lincoln Diocesan; on tower bells Doubles in 22 and 25 methods, by the Oxford Diocesan Guild.

In checking the composition of the record length of Stedman Caters, 21,363 changes, rung at Appleton on April 22nd, 1922, it has been discovered that the figures published in 'The Ringing World' and repeated in Morris' 'History and Art of Change Ringing,' are incorrect. In turning course B, although the figures of the course-end are given correctly, a bob at 5 is omitted. It is proposed that for future reference the composition shall be reprinted in 'The Ringing World' in its correct form.

The committee desire direction as to whether the handbell peal of Double Norwich Court Bob Major, 13,664 changes, rung at Bushey, Feb. 29th, conforms to the requirements of a record peal, in view of the fact that the conditions relating to a record attempt were not complied with.

Mrs. Fletcher moved the adoption of the report.

Mr. A. H. Pulling said regarding the 13,664 Double Norwich no one who knew the gentlemen who rang the peal would question that they rang the peal. As soon as one started ringing records they must be rung in a public place where people could hear and check the ringing. Going back to 1912, he could have rung his peal in a comfortable room, but the late Mr. Goldsmith informed him that as soon as one attempted a record it must be rung where people could hear it and check it. The record length of Bob Royal was at his suggestion rung in a public place.

The Secretary read the Decisions of the Council regarding peals rung to surpass a previous peal as follows:—

(1) That not less than seven days' notice shall be given in the columns of the Ringing Press, stating the tower, day and hour at which the attempt is to be made and the number of changes proposed to be rung.

(2) That similar notice shall be sent to the conductor, or, if he cannot be traced, to some member of the band who rang in the peal which it is proposed to surpass; and to the secretary of the guild or association under whose title the said peal was rung.

(3) That a sealed copy of the figures of the proposed peal, which figures shall be strictly adhered to, be lodged previous to the attempt with the secretary or other responsible officer of the guild or association under whose title the band is to ring. . . .

(4) That, if possible, a competent representative of each of the bands shall be present during the whole of the performance.

Mr. Harold Poole: I can quite understand why so few records are attempted. I think it is quite time we abided by these decisions.

Mr. Woolley: May I suggest that it does not apply to handbell peals.

Mr. R. S. Anderson moved that the peal be accepted.

Mr. Hairs seconded and the Council agreed to this course.

Questions were then raised as to the absence of an umpire, and Mr. Cashmore said if they were going to insist on umpires they must have them capable. Once a peal had been rung it was an accomplished fact whether there was an umpire or not.

Mr. Johnson replied that these were regulations made by the Council, and it was their duty to administer them and abide by them. This was not the decision of the Standing Committee, but of the Council. When it was said that it was desirable it was never contemplated that people would go and deliberately flout them.

The President: We have settled the matter and the report was adopted. To this committee were appointed Mrs. Fletcher (convener) and Mrs. Marshall.

(To be continued)

10,800 Plain Bob Royal Peal

RECORD RUNG AT CAMBRIDGE, MAY 2nd, 1948.

Although comparisons are invidious, it must be emphasised from the start that the new record, in contrast to most, was rung entirely by 'non-experts' without any of the really first-class handbell conductors or of those who have rung several hundred peals. It was conceived, and rung, as an attempt by ordinary ringers, with no experience of long peals, to achieve a record length and it is hoped that its success will encourage others to do likewise.

Even before the Prittlewell peal last year there had been talk in Cambridge of an attempt for 10,000 Bob Royal, but the idea was shelved and it was not until after a peal at Newmarket in February that it was finally decided to make the attempt. After some negotiation a band was obtained and May 2nd chosen as the date for the attempt, when, by the kindness of Mr. Dennis, permission was obtained for the use of the Cambridge and County Bowling Club Pavilion and the stage was set.

The band arrived at 10.30 a.m. and it was decided, from the two sets brought by members, to make the attempt on Mr. Austin's set of handbells, cast by Shaw's, of Bradford (tenor size 16 in B flat). At 10.46 a start was made and the band steadily settled down to a regular pace of six minutes per course, which was maintained throughout. Everybody rose to the occasion and remarkably few trips were made, none of which ever looked like developing into anything serious.

The bells rolled round at 4.44 p.m. and I am glad to say that within an hour all five were ringing for evening service at their respective churches. Perhaps I may add that, in a memorable day, I shall never forget the expressions on two of the band's faces when they saw, just as they were beginning to feel a bit 'peckish,' one of the umpires unpack his picnic lunch! The other is the longing, and perhaps thirsty, look I observed on another's face when in the last part he noticed, hanging above my head, the tariff for the club bar. E.J.L.

THE COMPANY.

John A. ACRES.—Age 26. Rung 18, conducted 3. Has yet to ring his first tower bell peal. One of the Newmarket band, he started ringing just before the war and rang his first peal in 1939. A great enthusiast, he rang his first peal of Royal last November and displays great promise as a conductor.

Richard F. B. SPEED. Age 21. Rung 85, conducted 25. Commenced ringing since the ban as a pupil of Miss M. Cross, he has rung and called peals in a variety of methods, and as such is probably the most experienced conductor in the band. Now at an O.C.T.U. at Catterick, he is a member of the College Youths and was formerly Master of the University Guild.

Edwin J. LINDLEY. Age 20. Rung 79 (34 'in hand'), conducted 22 (17 'in hand'). Commenced ringing three years ago in Cambridge and was secretary of the Guild during the last year. He rang his first peal two years ago and since then has become interested in composing and conducting. He called his first handbell peal last July and his first of Royal in November.

Albert E. AUSTIN. Age 59. Rung 175, conducted 17. Between the wars he rang a large number of peals in a variety of methods, but during the past few years has confined his peal ringing activities to handbell ringing. As the most experienced member of the band, his handling of 7-8 contributed very largely to the success of the venture.

Geoffrey DODDS. Age 22. Rung 59, conducted 1. A member of the Guild and the Cumberlands, has rung peals in a variety of methods, including several of Surprise Royal. He started ringing just over ten years ago at Isleworth, but has only during the past year started ringing handbell peals.

LETTERS

HOLY WEEK RINGING

Dear Sir,—Mr. Paice's argument in favour of ringing on the Saturday in Holy Week, published in your issue of May 14th, is ingenious, but will not bear investigation for the following reasons:—

(a) Saturday in Holy Week is one of the forty days of Lent, and the Lenten Fast does not end until midnight on that day.

(b) Easter is the one great festival which has no eve in the sense that the other four have. In the case of each of the latter the Collect for the Festival is ordered to be used at Evensong on the eve, but in the case of Easter it is definitely laid down as follows: 'At Evensong, Collect for Easter Even only.' This in itself is proof that the Church does not consider the evening of Saturday to be part of the Easter Festival.

(c) Some clergy make Evensong on Easter Even a 'First Evensong of Easter' or a 'Festal Evensong,' but such a service is not authorised by the Church, and is quite out of order. Dearmer says, 'There should be no Solemn Evensong on Easter Eve.'

Two wrongs do not make a right, and therefore to ring for a service which has no liturgical significance does not make the ringing any more correct. My previous contention that the bells should be silent in Holy Week stands unaltered.—Yours faithfully,

Goring-on-Thames. A. R. POYNTZ.

Sir,—Your correspondent, Mr. W. J. Paice, is wrong in likening Easter Eve to Christmas Eve, for evensong on that day is not the first evensong of Easter. The Easter Collect is not used until Easter morning. Easter Even, or Holy Saturday, being provided with one of its own. It is undoubtedly in keeping with the character of the day that bells should not be rung in peal until daybreak on Easter Day, although a bell should be tolled for evensong. After Maundy Thursday morning, throughout Good Friday and on Holy Saturday morning all bells used to be completely silent, and this is surely a time when silence is as eloquent as sound.—Yours truly,

J. H. B. ANDREWS (Rev.).

Chittlehampton, Devon.

Dear Sir,—With reference to the letters that have appeared in your recent columns regarding the above, I think all ringers should ponder over the words of Capt. A. R. Poyntz, which are of kindness and deep meaning. In my opinion, no better ringer could give us guidance on this subject. My memory goes back when he was at Dover Harbour and England then stood in wonderment as to what was going to happen across the Channel. The story of his adventures probably will never be known. But we may be assured that he was a part of that great force that stood solid for the peace and goodwill of all men with success. Therefore, let us take to heart his words. The Kent County Association, to which I belong, thoughtfully printed on the outside cover of the annual report for many years the Association's prayer, thus giving the ringer an opportunity of aiming at the highest ideals. Happily, only one peal was rung in Kent during the week.

Dover. CHARLES TURNER.

CANTERBURY CATHEDRAL TENOR

Dear Sir,—Re expanding tenors, I note with interest that this week Canterbury Cathedral tenor has grown to 34 cwt. (approx.)! I have always understood this bell to weigh just over 30 cwt., a few pounds less than that at All Saints', Maidstone, which is the heaviest bell in Kent, weight 31 cwt. (approx.) in C. May I suggest that conductors check weights of tenors before sending in peal reports? At the same time I should like to congratulate Mr. Cullingworth on turning in Canterbury tenor to a peal of Royal, for as far as I remember she is quite a handful to ring behind, let alone turn in!—Yours faithfully,

Orpington. PETER N. BOND.

A BISHOP ON ESSEX BELLS

THE Bishop of Colchester (the Rt. Rev. F. D. V. Narborough) gave a particularly striking address at the annual meeting of the Essex Association at Chelmsford Cathedral on Whit Monday, which we quote in extenso:—

One of the things which attracted me most when I arrived in Essex was the local county patriotism. I learned it in my native land of Norfolk and I am glad I have not had to transfer it far. It would be a shame if the bells in so many steeples were silent through lack of ringers. My own love of bells is due to the fact that I was brought up within sound of St. Peter Mancroft at Norwich, and other beautifully named churches. Now, in middle-age, I am intensely proud of the bells in my own Archdeaconry of Colchester—such bells as Saffron Walden or Thaxted, and of these bells at Chelmsford. I would think also of the smaller churches of Essex such as Greenstead Green, the bells of which greeted me and warmed my heart when I went to hold Confirmation services there. They not only greeted me, but the villages around, proclaiming the fact that more young villagers were being confirmed.

A church has a personality much in the same way as has a ship or a railway engine. Some are dignified, some majestic, some quaint, and some even comic in a lovable kind of way; but they stand dumb until the bells make them spring into life, for what living things bells are! I would remind you of the words of Alice Meynell:—

Brief on a flying night
From the shaken tower,
A flock of bells take flight,
And go with the hour.

Like birds from the cote to the gales
Abrupt—O hark!
A fleet of bells set sails
And go to the dark.

Sudden the cold airs swing
Alone, aloud,
A verse of bells takes wing
And flies with the cloud.

And the bells take one by surprise sometimes from some of the Essex turrets. Black Notley taught me better than that soon after my arrival in Essex, for, foolish and ignorant, I did not know of the sturdy structure in these small towers which carry the weight of the bells. If time allows I always show myself to the ringers, not because I am the manifestation of something wonderful, but because I like to see you absorbed in your task, uttering your wild cries, too absorbed to notice, and I am much too impressed to do other than grin or nod sheepishly and go down again.

Of course, I used to hope that I would be able to meet some of the ringers in the church afterwards, but it is a hope so far deferred. There must be something wrong if ringers restrict their activities to the towers only. The bells do more than I have yet said. Few can resist their appeal, especially at such times as harvest, or Easter, or at a memorial service, when they sound like an echo of trumpets on the other side.

You make the most ancient music of all. We can see the Middle Ages revealed in the architecture of ancient churches, but you make it audible. I will quote from some of the finest prose written by the historian James Anthony Froude:—

'And now it is all gone like an unsubstantial pageant faded: and between us and the old English lies a gulf of mystery which the prose of the historian will never adequately bridge. They cannot come to us, and our imagination can but feebly penetrate to them. Only among the aisles of the cathedral, only as we gaze upon their silent figures sleeping on their tombs, some faint conceptions float before us of what these men were when they were alive: and perhaps in the sound of the church bells, that peculiar creation of mediæval age, which falls upon the ear like the echo of a vanished world.'

The LEADING BELL FOUNDERS

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

POSTAL SUBSCRIPTION RATES (prepaid): 4/3 quarterly, 8/6 half-year, and 17/- yearly. Orders, with remittance, to Mrs. E. K. Fletcher, The White House, Caister-on-Sea, Norfolk.

EDITORIAL COMMITTEE:

EDWIN H. LEWIS, M.A. (President of Council).

GEORGE W. FLETCHER (Hon. Secretary of Council), The White House, Caister-on-Sea, Norfolk.

MRS. E. K. FLETCHER.

EDITOR: T. W. WHITE.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

BELFRY GOSSIP

A new Doubles record has been established by Mr. Alan R. Pink and his Oxfordshire band. They have now reached 33 methods. This was established at Little Wittenham, Berkshire. The bells had not been rung for two years and the second double clappered on occasions.

A query from the Swansea and Brecon Guild. Is the handbell peal at Morriston the first in Wales?

All who rang in the peal of Minor at Elstow, Bedfordshire, served in the Army in the last war.

Mr. James George was visited by Bournemouth ringers recently, who found him much better and able to sit up in bed and ring 5-6 to several 120's.

Bournemouth is a rare place for bringing handbell ringers out of retirement. Mr. Albert H. Ward, of Derby, rang his first peal 'in hand' for 32 years!

The Essex Association have sent their congratulations to Mr. Alec Chalk, of Elsenham, a promising young conductor and grandson of one of the founders of the Association, on having gained an exhibition to Selwyn College, Cambridge.

Peterborough bellringers gained notoriety in connection with their visit to Stamford, Lincs. According to a national paper, when they stopped ringing to catch the last bus at 9 p.m. they found the belfry door locked from the outside. To their bangs and shouts the neighbourhood was deaf. They eventually smashed the lock and by sprinting caught the bus.

The peal of London Surprise Major at Whitley Bay for the Royal Silver Wedding was not the first in the method ever rung here by a local Sunday service band. The last peal in the method was rung on October 13th, 1924, when six members of the Gofton family, George Holmes and Stephen Stratford took part.

First R.A.F. peal comes from Broad Hinton, Wilts. The band came to grief in a previous attempt after 2 hours' ringing. It has now been split up, the majority being posted to Cranwell, Lincs.

Correction.—The ringer of the tenor in the peal at Bridgend on Aupril 26th was W. T. Petty and not as printed.

Participating in the peal of St. Clement's Minor at Hemingford Abbots, Hunts, was 82-year-old Mr. John Perkins, the village blacksmith.

It is hoped that Leeds Parish Church bells will be broadcast before the evening service at 7.45 on Sunday, June 6th, on the Home Service.

The peal of Treble Ten at St. Michael's, Southampton, on May 8th, was a birthday compliment to Mr. George Williams, who was 91 on the previous day. He is probably the oldest 'youth' still on the active list.

The peal at Bigby, Lincs, was in remembrance of Arthur Craven, of Sheffield, and Albert Edward Craven (died April 27th) and Harry Williams, of Leeds. The wife of the Vicar of Bigby is the daughter of Harry Williams and niece of Arthur Craven, both of whom were well-known ringers 30 years ago.

The North-Western District of the Ladies' Guild extended congratulations to their secretary (Mrs. Mary Lewis) on her recent marriage when they met at Bowdon, Cheshire. New members elected were the Misses Joan Taggart (Marple), Joan Brentnall and Ethel Fernley (Norbury) and Barbara Smedley (Worsley).

With reference to Mr. W. A. Stote's question re weight of Hatfield tenor, Mr. A. Lawrence, the local captain, writes that the correct weight of the tenor given by Messrs. J. Taylor and Co. in 1938 when the ten bells were retuned and rehung in ball bearings was 23 cwt. 1 qr. 20 lb., and not 26 cwt. as was supposed to be before 1938.

THE CENTRAL COUNCIL IN LONDON *(continued)*

Bob or Plain Bob ..... Singles in Treble Bob: Mr. Cashmore's Support ..... Bells and Radio ..... 'Ringing World' Accounts ..... An Invitation to York

MR. C. DEAN reported that the number of peals rung during 1947 was as follows:

On tower bells	1,953
On handbells	221
Total	2,174

Details were available for inspection by members of the Council. Included in the tower bells was a peal of Minor in two methods, one of which was Grandsire Minor, and a peal of Cambridge Surprise on January 18th, 1947, was understood to have been brought round by a Single. These peals were both included in the list. He moved the adoption of the report.

Mr. W. Ayre seconded and said he understood that this committee were blamed for having the word 'Plain' put in front of some peals. He did not know why it had been done; it was the first he had heard of it.

The Secretary: I think it can be answered in a few words. If anyone has a collection he will find that the method is described as Plain Bob.

Mr. C. Woolley: The name of the method is not Plain, but is Bob. I, for one, cannot see any reason for altering it.

Mr. W. Ayre: As a member of the committee I have no recollection of any order being given. It struck me as being very funny at the time, but it is very useful.

The President: The answer is given in the Council's own book. It is Plain Bob Major, so the committee thought the same terminology should be used in 'The Ringing World.'

The President added that it was a recommendation of the Standing Committee that peals in Treble Bob methods in which singles are used be not recognised.

The Rev. Felstead: It is very awkward for me to get up and defend this as the conductor is not able to be present. Will this be a new recommendation or has there been some actual recommendation in the past apart from the general knowledge that it is not usually done?

The President: We cannot find anything in the decisions about Treble Bob Major methods.

The Rev. Felstead: I would like to put in a plea for it. It has been described as a wangle, which, of course, it is in a way, but in an attempt to get a different composition for Cambridge Major is it any more of a wangle than parting the tenors? ('Yes.) I don't think so.

Mr. P. J. Johnson declared himself strongly opposed to admitting such a peal. He would say that the Council dropped a great brick when they decided to admit Bankes James' composition of Cambridge Minor. The people who rang this peal were leading the Exercise up the garden path. The peals had no value except as freaks. There were plenty of peals of Cambridge in which the traditional method and calls are used.

SINGLES IN TREBLE BOB.

Mr. H. G. Cashmore: Mr. Johnson has stated that the reason why singles are not used in Treble Bob methods is that they are not necessary; but singles are not necessary in Plain Major methods unless a length in excess of 20,000 is required, which is not very often, but this has not stopped their use. In my opinion, the reason why composers have not introduced singles in Treble Bob methods is that their use tremendously complicates proof.

This debate has arisen over Mr. Price's peal of Cambridge, but the real question is whether singles should be used in Treble Bob methods generally, and I propose to approach the matter from that angle. In actual fact, I forestalled Mr. Price by some 15 years.

I produced two similar compositions, each coming round with a single at the Wrong lead, one a 5,090 and the other a 5,058. At the time I was seeking to produce something which would be an advance, musically, on Middleton's composition, but had I used a little thought before I started I should have realised that with the single in that precise position it would not be possible to improve on Middleton's peal as all the composition with the exception of the last two rows would have to be in the orthodox 25 true courses.

Having failed in what I set out to achieve I threw the figures into the fire and I think that Mr. Price would have been well advised to have done the same with his, not because he had used a single, but because the peal was no advance on Middleton's.

If it can be shown that singles in Treble Bob methods generally can produce some advantage, why should they not be used? We all know that there are many fine Treble Bob methods of good construction which will not produce 5,000 changes with bobs only, but they might if singles were used.

Let me turn to another device which is in common use in peals of mixed Kent and Oxford Treble Bob. This consists of substituting Kent places for Oxford places or vice versa, and the effect on the subsequent lead-end is precisely the same as if a single were used—the lead-end is out-of-course and the bells remain out-of-course until the next substitution takes place when they come back into course. Now one result of this device is that the symmetry of the lead is destroyed, which is not the case when an orthodox single is used, and for this Council to permit something which alters the nature of the lead-end and destroys the symmetry of the lead and yet frown on an orthodox single which has the same effect on the lead-end, but is perfectly symmetrical, seems to me to be illogical.

I suppose it would be true to say that every innovation which has been introduced since bells were first hung in a tower has met with stubborn opposition from the die-hards of the day. Half pull ringing, the 'turning in' of the tenor, and the substitution of the treble bob hunt for the plain hunt were, I have no doubt, regarded as things which would undermine the Exercise and bring it crashing to the ground. In my opinion, there can be no objection to the use of singles in any method, provided that their use produces some advantage which could not otherwise be obtained.

Mr. C. K. Lewis pointed out that Ilkeston should not be considered as 'spliced,' but as 'laminated.'

The President advised members to read Jasper Snowdon's remarks on Treble Bob. He reminded the members that the motion before the meeting was that peals in Treble Bob methods in which Singles are used be not recognised.

Mr. Harold Poole: In view of what has been said by Mr. Cashmore, would it not be better for the committee to go into it thoroughly? I am against it; I think it is only a trick. He moved that it be referred to the committee and this was agreed to.

The report was then adopted, and elected to this committee were Messrs. C. Dean (convener), Mr. G. L. Grover and Mr. W. Ayre.

TOWERS AND BELFRIES COMMITTEE.

The President reported that during the year the committee had dealt with 32 towers, but as none of these involved new principles he did not think it was worth while going into details. Most of the enquiries related to the regulation of sound.

Mr. F. Sharpe said he had an architect friend who was anxious for old bells to be hung dead and all sound by Ellacombe hammers. He would urge the reprinting as early as possible of the Council's publication on the Installation and Preservation of Church Bells.

The President: We have already powers to spend money on its reprinting.

Mr. George Williams: Some years ago at this Council meeting it was advocated that something should be done by the way of getting a rope or rail up staircases.

The President: We shall recommend it in the new edition. — The report was adopted. Messrs. E. H. Lewis (convener), E. Alex. Young, F. Sharpe and W. Osborn were re-elected.

LITERATURE, PRESS AND BROADCASTING.

In the period under review references to bells and bellringing have been of special interest in the provincial Press. The respective claims of youth and age in the belfry frequently attract the attention of journalists. Paragraphs in 'News of the World' have raised the question whether either Brafield or Westhoughton can boast of 'the youngest team of bellringers in Britain'! According to a statement appearing in the April number of 'Home Words,' this distinction may fall to the four ringers of Gaywood Church, Norfolk, aged 9, 11, 12, 13. A more cautious claim has been asserted in the 'Church Times' for Sam Quintrell, of St. Columb, aged 92, as 'Cornwall's oldest bellringer.' Matters of interest in connection with bells continue to figure prominently in the 'Church Times,' which one week published a letter from a Dorset Rector paying a glowing tribute to the good qualities of ringers and their valuable service to the church.

An article of exceptional interest appeared last year in 'The Guide,' giving a description of ringing at High Wycombe, in which a number of Girl Guides take part. One statement in a London newspaper credited a band with the feat of ringing 3,900 changes on Christmas Eve in half an hour, but in the main the general Press has shown a praiseworthy degree of accuracy in its treatment of the mysteries of the belfry. We are glad to note that the Irish Press has been especially enterprising in directing attention to the subject of bells and the activities of ringers.

With regard to broadcasting, during recent weeks an abnormal proportion of Sunday services have been broadcast without any sound of bells, but at an earlier date ringing was broadcast from a number of churches. Most of the striking was distinctly good, though call changes from one Devonshire village did not quite come up to the standard traditional in that county.

Of outstanding merit were the broadcasts from Bath Abbey, Twerton and Diss. The broadcast of bells on Christmas morning from different parts of the British Isles as well as from Bethlehem was thoroughly representative and satisfactory. On the other hand, it is to be regretted that the greatest festival of the Christian year was allowed to pass without a single ring of bells finding a place on the programme. Interesting matter has been introduced into some of the programmes with illustrations both of church bells and handbells. Notable among them was a visit to Taylor's Foundry, with a description of the making and ringing of bells, and the Loughborough Carillon was heard to full advantage.

It remains to record with deep regret the passing from our midst of one of the foremost contributors to the literature of the Exercise. By virtue of wide experience and indefatigable research the late Mr. J. Armiger Trollope had amassed an unequalled store of information on the subject of bells and the history of ringing, besides bringing a high degree of ability to bear on problems of method construction. His book on Stedman is well known, and his 'History of the College Youths' will retain a lasting place of honour as a work of classical importance.

Moving the adoption of the report, the Rev. F. Ll. Edwards regretted that when bells were

used in connection with broadcast services they were never mentioned in 'The Radio Times,' and, secondly, when bells were put on the air it was often done under a heading which had nothing to do with bells, so ringers had a legitimate grievance.

Another point was that there was no system in regard to the broadcast of bells for religious services. Bells should always be included in the programme of the great Christian festivals. They had an example on Whit Sunday of a broadcast from Bristol Cathedral which had no bells. It would have been better if the broadcast had been from a cathedral with good bells.

Mr. Paddon Smith seconded the adoption of the report.

Mr. Hazelden: What I find most disturbing is the unnecessary talks while the bells are on.

The report was adopted, and the committee, consisting of the Rev. F. Ll. Edwards (convener), Messrs. A. Paddon Smith and A. Walker, re-elected.

PEAL BOARDS.

Mr. W. Wilson reported having received details of 277 old peal boards recording 308 performances of 1825 or earlier in 128 towers. Of these, details of 145 boards recording 160 performances have been typed.

Mr. W. Ayre seconded the adoption of the report.

Mr. G. W. Steere said at the meeting at Exeter it was mentioned that there was an old Cumberland peal board in the ruins of All Hallows', Barking. He wrote to the Rev. 'Tubby' Clayton asking for permission to remove the board to a place of security. He replied that he could not possibly let it go, but granted permission to copy the board. Mr. Steere said he replied that their concern was over the preservation of the board. In the end he received a note stating that it was placed in some place of security where it would not be damaged by the weather.

The report was adopted, and Messrs. W. G. Wilson (convener) and Walter Ayre and the Rev. C. Elliot Wigg were re-elected.

BIOGRAPHIES COMMITTEE.

The report stated that an effort had been made to complete the records of members of the first Council, and they were still without particulars of the following members: F. W. Thornton, G. F. Attree, G. Walker, L. Newton, W. Baron, C. E. Malin, J. Holden, C. Hounslow and G. T. McLaughlin. Information would be welcome. The committee have secured the services of an expert photographer who is reproducing photographs loaned to the Council. Photos were still required of Ald. J. S. Pritchett, G. H. Phillott, F. E. Dawe, R. T. Woodley, G. Newson, J. Rogers and E. F. Strange.

Moving the adoption of the report, Mr. Hazelden said he had one bit of bad luck. He had collected a number of photographs, including Mr. J. A. Trollope's. On the way to the photographer's he lost them; in spite of a reward being advertised he had been unable to obtain any information of them. If any member had a photograph of Mr. J. A. Trollope he would be pleased to have the loan of it.

The report was adopted, and Mr. A. C. Hazelden (convener) and Mr. W. Viggers were elected to the committee.

'THE RINGING WORLD.'

The accounts of 'The Ringing World' for the 15 months ending December 31st were presented by Mr. G. W. Fletcher. Receipts were: Rolls Publishing Company, £1,220 1s. 9d.; postal subscribers, £1,152 1s. 3d.; advertisements, £247 11s. 1d.; notices, £330 9s. 6d.; sale of 'College Youths,' £51 9s. After meeting expenses there was a net profit of £186 8s. 1d. With the balance brought forward from Sept. 30th, 1946, of £950 12s. 6d. this resulted in £1,137 0s. 7d. being carried forward.

Mr. Fletcher said that in spite of three increases in cost of production and paper they had managed to pay their way. From the final figure of £1,137 there were likely to be some reductions, as they had not settled their tax position. The audit of the accounts was very nearly completed and responsibility for the delay must rest with him. With regard to the audit, the Standing Committee recommended that a fee be paid to Mr. Turner of £5 5s. for each year, making a total of £21.

Mr. A. Walker seconded and the accounts were adopted, subject to audit.

Mr. Turner asked for his fees to be paid to the C. T. Coles Memorial Fund of the Middlesex County Association, as he had no wish to benefit financially from his services.

The President made a full statement regarding the acquisition of 'The Ringing World' and the dealing of the late Mr. Trollope. He said that the statement was presented to the Standing Committee the previous day, who resolved that a vote of confidence be passed to 'The Ringing World' Committee for the way in which it had acted in all matters connected with the journal.

Mr. Paddon Smith proposed and Mr. F. Hairs seconded the adoption of the report. 'The Ringing World' Committee was elected as follows: Mr. E. H. Lewis, Mr. A. A. Hughes, Mr. and Mrs. G. W. Fletcher. This motion was proposed by the Rev. F. Ll. Edwards and seconded by Mr. A. Walker, the latter remarking, 'We all feel that the committee have done a very good job of work. The increased circulation of "The Ringing World" is due to their efforts.'

Mr. F. W. Perrens said he would like to make one suggestion for the committee to look into to see whether they could not do something towards getting the peals up to date. He wrote some months ago suggesting three columns of peals to the page. He thought the peals could be contracted. Instead of 2 hours 46 minutes 2.46 could be given. If the names were displayed as at present the number of the bells could be deleted.

Mr. Harold Poole: Are we losing time?

The President: We get behind on special occasions. We did not get any relief from peal ringing during Lent.

Mr. Poole: Could we help the Editor by asking that we hold up for a month?

Mr. F. Hairs suggested that the margins of white on the pages could be reduced.

Mr. Nolan Golden advocated doing away with the title block.

The President promised that all the suggestions would be considered.

STANDING COMMITTEE.

A ballot took place for the election of members of the Standing Committee and resulted as follows:—

Elected: Messrs. A. Walker 124, F. Perrins 122, the Rev. A. G. G. Thurlow 122, Messrs. H. Poole 120, J. F. Smallwood 117, J. T. Dyke 116, G. E. Debenham 115, A. Paddon Smith 114, P. J. Johnson 113, F. I. Hairs 113, A. H. Pulling 101, J. W. Clarke 89. Not elected: Mr. C. F. Johnston 78.

Mr. F. E. Dukes proposed and Mr. J. T. Dunwoody seconded that in Rule 13 the words 'ringing papers' be deleted and 'The Ringing World' be inserted instead, as 'The Ringing World' is the official organ of the Central Council.—Agreed.

HANDBELL RINGING.

The following resolution was also in the name of Mr. Dukes: 'That the book on handbell ringing suggested at the 1939 Council meeting be completed and printed at the earliest opportunity.' He said he had had many requests from their ringers in Ireland for instruction in handbell ringing.

Mr. J. T. Dunwoody seconded.

Mr. Hooton said he understood that the book had been revised considerably during the past two years.

Mr. C. Woolley: That is quite right. I have been rewriting the book and preparing it for the press.

Mr. Hairs: There are several ways of ringing handbells. There is the old-fashioned way and there is 'the new look.' Are both included?

Mr. Woolley: The book will consist of a record of the old-fashioned way and another on the new way. There will be a lot about ringing by position, which I take it is what the speaker meant as the old-fashioned way.

The resolution was carried unanimously.

STEDMAN CATERS AND CINQUES.

Mr. George E. Symonds proposed that the late Mr. John Carter's broadsheets of peals of Stedman Caters and Cinques be reprinted and included in the list of publications on sale by the Central Council. He thought it would be a fitting memorial to such an illustrious ringer.—This was agreed to.

Arising therefrom, Mr. Harold Poole felt that something should be done in regard to Mr. Lindoff's London. All the manuscripts of Mr. Lindoff were in Dublin and he thought they should be available to the Council.

The Chairman moved that the Peals Collection Committee be asked to examine Mr. Lindoff's work in a similar form. Mr. Poole seconded and this was agreed to.

PLACE OF NEXT MEETING.

The Hon. Secretary reported that an invitation had been received to visit Cheltenham.

Mr. P. J. Johnson said he believed he was right in saying that there was a definite rota of places—once in London every three years and then meetings alternately north and south of Birmingham. He asked the Council, provided the Yorkshire Association could make the arrangements, to hold the next meeting at York.—The Rev. C. O. Ellison supported the invitation.

Mr. J. W. Jones proposed and Mr. F. I. Hairs seconded that the next Council meeting be held at York, subject to satisfactory arrangements.

Mr. F. W. Perrens asked the Standing Committee to reconsider holding meetings in London once every three years, as accommodation was now most difficult.

MEMORIAL FUNDS.

The Council agreed to a sum of three guineas being voted to the Rupert Richardson Memorial Fund, and a similar amount to the J. W. Parker Memorial Fund.

DAYS OF MEETING.

Mr. Perrens said that at various times there had been conversations as to the best day to hold a meeting. He enquired whether Monday would not be a better day than Tuesday.

The Rev. Edwards: It would be impracticable for any of the clergy to attend.

VOTES OF THANKS.

The President proposed a vote of thanks to the Master and Warden of the Skinners' Company for giving the Council such wonderful accommodation. This was due to the advocacy of Mr. Hughes, who, besides being one of their honorary members, was a member of the Skinners' Company. He also thanked the Dean of St. Paul's and the incumbents of the various towers and the towerkeepers for having the bells in readiness. He also expressed his personal thanks to Mr. Fletcher for his help.

Mr. A. Paddon Smith proposed a vote of thanks to the president and Mr. Hughes for kindly arranging and providing tea during the meeting.

Mr. Lewis was thanked for presiding on the proposition of Mr. A. A. Hughes.

OBITUARY OF THE WEEK

MR. TOM GROOMBRIDGE, JUN.

It is with deep regret we have to announce the death of Mr. Tom Groombridge, jun., who died on May 24th after a painful illness.

Mr. Groombridge collapsed when nearing the end of a peal of Stedman Cinques at Lincoln Cathedral on Easter Monday and was taken into the Nottingham City Hospital a few days later where he was until his death.

The funeral was at Basford Cemetery on May 28th. Representatives attended from Leicester, Derby, Retford, Ilkeston, Radcliffe and the local churches. The service was taken by Canon R. F. Wilkinson, chairman of the Association, assisted by the Vicar of Basford. A course of Grandsire Triples was rung over the open grave by ringers from Daybrook and St. Peter's, Nottingham.

Among the floral tributes was one from the Southwell Diocesan Guild, of which he was general secretary, and it may be said founder, as he had done so much on its formation, also one from his brother ringers of St. Peter's.

Tom will be greatly missed, especially by those of Nottingham, who have improved so much under his leadership. F.A.S.

MR. W. C. FINNEY, SEN.

The Lancashire Association has lost an old and respected member by the death of Mr. W. C. Finney, sen., of Prescot Parish Church, at the age of 80. Except when absent for ill-health he maintained his service ringing until the end. He had several peals, chiefly Plain Bob, to his credit.

MR. F. MITCHELL.

Mr. Frederick Mitchell, verger for 41 years at St. Botolph's, Northfleet, one time member of the local band, died on May 6th and was laid to rest on Wednesday, May 12th. That evening a quarter-peal of Grandsire Triples was rung by G. Vandepeer 1, Mrs. T. Taylor 2, Joan Butcher 3, J. Bules 4, T. Taylor (cond.) 5, L. Stacey 6, G. J. Butcher 7, D. Stacey 8.

MR. C. W. TAYLOR.

A familiar figure at ringers' meetings in Hertfordshire and wider afield was Mr. C. W. Taylor, of Watford, whose death at the age of 63 is reported this week. He was invariably accompanied by his bag of handbells.

'Charlie' was not a ringer, but he loved ringers' company, and the sound of bells, particularly handbells, was very near to his heart. His other hobby was model engineering, and his knowledge on that subject was sound.

MR. GEORGE F. SWANN.

We regret to record the death of Mr. George F. Swann at his home, 5, Heathlands Road, Sutton Coldfield, on May 23rd, after a short illness. A Requiem Mass was celebrated at St. Nicolas', Boldmere, on May 26th, and the interment followed at Oscott New Cemetery, his ringing colleagues acting as bearers. A course of Grandsire Triples was rung over the open grave by G. E. Fearn, W. A Barber, A. Walker and M. J. Morris.

Mr. Swann's readiness to further the art of ringing in all its phases and his modest demeanour endeared him to all who knew him. The Exercise is the poorer for his passing. He was 69 years of age and to his widow is extended the sympathy of a wide circle of friends. H.C.S.

A peal in his memory was rung at St. Barnabas', Erdington, on the same day.

MR. ALFRED PRIOR.

After an illness of seven weeks' duration, Mr. A. Prior, of Leytonstone, has died, aged 74.

With his father and two brothers he learnt to hold a bell at Takeley, Essex. As a young man he joined the Great Eastern Railway and was for many years foreman at Liverpool St.

Coming in contact with the late Mr. J. Moule, he was persuaded to join the Leytonstone tower in 1911 and soon made good progress in Surprise Minor ringing. A prominent member of the Essex Association, he served on the committee and was for 15 years Master of the S.W. Division. He was also a member of the Royal Cumberland Youths.

The funeral service was held at St. John's Church, Leytonstone, on May 21st, and in addition to the family mourners there were 15 ringers present, Mr. Chalk, Master of S.W. Division, Mr. T. H. Taffender, Master of L.C.A., and others from Woodford, Barking, Walthamstow, Leyton, Wanstead, Hornchurch and Mr. A. Bennett, of Buckfastleigh, Devon.

After the funeral 1,260 Stedman Triples was rung by A. W. Brighton 1, T. H. Taffender (cond.) 2, G. Faulkner 3, R. Stannard 4, C. Willmington 5, F. V. Gant 6, J. H. Crampion 7, G. Dawson 8. G.D.

Mr. Alfred Prior's peals:—

Grandsire Doubles 1 (conducted 1); Bob Minor 3 (3); Surprise Minor 31 (5); Grandsire Triples 3 (2); Stedman Triples 9 (4).

Bob Major 2 (2); Treble Bob Major 4; Double Norwich C.B. 6; Cambridge Surprise Major 8; Superlative Surprise Major 2; Yorkshire Surprise Major 2 (1); London Surprise Major 3; Grandsire Caters 3 (2); Stedman Caters 7; Erin Caters 1; total 85 (conducted 20).

DEVONSHIRE GUILD

RECORD ATTENDANCE AT BIDEFORD.

The Guild's annual meeting at Bideford on Whit Monday attracted an attendance of about 250. The Rector (the Rev. J. A. Durling) in his address at the service said, 'The desperate need to-day in this world of wangling and wrangling is for 100 per cent. Christians and for evangelism. One valuable evangelistic weapon is the art you practise. Church bells do more to keep the ideals of Christianity before men than we can possibly estimate.' A guest at the luncheon was the Mayor.

At the business meeting the President (Preb. E. V. Cox) said that work during the year had been encouragingly progressive. Membership totalled 575, compared with 525 the previous year.

The report of the hon. treasurer (Mr. T. Laver, Heavitree) stated that the Bells Restoration Fund stood at £188.

Preb. E. V. Cox was re-elected president, Mr. F. C. Smale, of Okehampton, hon. secretary, and Mr. A. L. Bennett, Mid-Devon, was elected treasurer. Tribute was paid to Mr. T. Laver, resigned through illness after eight years as treasurer. The work of Mr. Smale was also eulogised.

NORTH WALES ASSOCIATION

The picturesque city of Bangor was the venue this year for the annual meeting of the North Wales Association on Whit Monday.

The service at St. David's Church was conducted by the president and Vicar (the Rev. E. G. Wright), who gave the members a most cordial welcome.

At the business meeting which followed the president was elected to the chair and all the officers were re-elected with one exception, Mr. J. Dean, Rhuddlan, being appointed secretary of the Rhyl District. Mr. A. J. Hughes was elected Central Council representative for the next three years. The Rector of Portmadoc was added to the list of vice-presidents. The balance sheet showed a credit of £17 3s. 10½d.

The Association was invited to Buckley for its next annual meeting, and it was also decided to hold a half-yearly meeting at Bodelwyddan on the first Saturday in September.

A motion on the agenda to reorganise the Association into North and South Districts did not lead to much discussion, as it was the unanimous opinion that the Association retain the three districts as now divided, i.e., Bangor, Rhyl and Wrexham.

NOTICES

The charge for one insertion of a notice of a meeting is one penny per word, minimum 2s. For additional insertions with no change one-half above charge for each insertion.

Other notices one penny per word, minimum 2s. 6d.

All notices must be prepaid.

Notices must be received not later than Monday.

CHESTER IN THE FOREFRONT

THE report of the Chester Diocesan Guild for 1947, presented at the annual festival at Frodsham on May 22nd, shows progress in many directions. The membership stands at 35 honorary and 700 ringing members. Youth is to the fore in the Guild's activities as exemplified by Alan Potts (15 years old) ringing a peal of London Surprise Major and calling his 51st peal, a peal of Bob Royal. It is encouraging to note that there were 12 new conductors, some of them ringers of many years standing.

The Guild rang the first peals of Double Mancroft Bob Major, Oswald Delight Major and Liverpool Surprise, and also records its first peal of Cambridge Surprise Maximus, which was rung by a resident band. But peals are not the only evidence of vitality, for the branches report a resurgence of the spirit and interest which has characterised the Chester Guild in the past and which will keep it in the forefront of the Exercise always.

Evidence of this can be traced in the adoption of revised rules and the incorporation in them of a resolution which it is expected will encourage the clergy of the diocese to take an active interest in the affairs of the Guild. It has been felt for some time that the clergy have more urgent calls upon them in these days than to finance the ringers' pleasure, but, nevertheless, that they should have some official standing in the Guild. To overcome these difficulties, a resolution was moved and adopted appointing all incumbents of parishes where there are rings of bells honorary vice-presidents of the local branch without payment, and provision was made for the election of suitable laymen under similar conditions.

In common with other guilds, the Chester Guild is feeling the financial strain of these days, and with a view to making adequate provision for bell restoration and augmentations, the meeting decided to inaugurate a Bell Restoration and Augmentation Fund, from which all future grants towards the cost of restoration and augmentation will be made. Ways and means of raising money for this fund were discussed and the imposition of a peal booking fee of 6d. per rope approved for a time with the proviso that members ringing their first peal be exempted from payment. Grants from the general fund towards the restorations at St. Hilary's, Wallasey and West Kirby were approved.

The Master (Mr. J. W. Clarke), hon. secretary and treasurer (the Rev. J. D. Pearson) and other officers of the Guild were re-elected and thanked for their services during the past year. A report on the proceedings of the Central Council meeting was given by Mr. C. K. Lewis, and it was decided to send an invitation to that body to hold a meeting in Chester at their convenience.

The broadcast of the ringing at last year's festival was reported, and in addition there should have been a broadcast on the overseas service to America of Chester Cathedral bells on December 31st, but, unfortunately, the tenor clapper was broken on December 30th and the broadcast had to be abandoned. The next annual festival will be held at Crewe on Whit Saturday, 1949.

The excellent address given by Dr. Myres, the Vicar, at the service called for a special vote of thanks at the meeting. He could be sure that in spite of his remark that it was easier to ring the changes in the tower than to ring the changes on sermons, he had succeeded in securing a new approach to the question of the privileges and responsibilities of ringers. Those present would try to remember his advice, and to help them would be the memory of the warm welcome received at the ancient church of Frodsham. There were also thanks to the local ringers, organist and the incumbents and ringers of Runcorn and Daresbury for their efforts to make the meeting a success.

BELFRY GOSSIP

A ringing society has been formed at Catterick Camp. At the first meeting a few days ago eleven ringers attended and Sgt. Worrell was appointed secretary. Practice and service ringing is held at Richmond and Darlington. Members have already rung their first peal.

Willesden Surprise Major, published on page 212, appears in the Central Council Collection (No. 77) as Wycliffe, writes Mr. A. J. Corrigan.

The peal of Stedman Caters at St. Peter's, Croydon, on May 5th, was a compliment to Canon I. Renshaw, on the first anniversary of his induction as Vicar.

Coincidence: Mr. Walter Allman rang his 100th peal and Mr. C. Kenneth Lewis called his 100th together at St. Giles-in-the-Fields, London, on May 15th. Mr. James Bennett has 'circled' this tower.

The peal at Ashford, Kent, on Whit Monday was in honour of the birth of a son to the conductor and Mrs. Cullingworth and a grandson to Mr. H. S. Wickens, who was ringing the treble. It was the first Surprise peal on the bells by a local band.

Mrs. Dorothy Burgess, a daughter of the late Mr. Arthur Craven, has recently emigrated to Australia with her husband and son. Her new home is at Collie Burn, Collie, Western Australia, about 100 miles up country. Wishes of Godspeed to her were conveyed by a peal recently rung at Bigby, Lincolnshire.

West Kirby, Cheshire, ringers have launched an appeal for £350 for the rehanging and reconditioning of their bells. So far they have raised £250 locally and they invite others who would like to be associated with their efforts for the preservation of the bells in this lovely 15th century tower to send their contributions to Mr. J. Andrew, The White House, Sandy Lane, Kirby, Cheshire.

Abergavenny, Mon, hopes shortly to have the finest ring of ten in the West Country. The bells are being recast and rehung in a steel frame and augmented from eight to ten by Messrs. John Taylor and Co. with a tenor 24 cwt. in D. This will cost £2,300. Another £1,500 is being spent on reconditioning the tower, which is to have a roof of reinforced concrete.

To commemorate his 74th birthday, Mr. W. F. Webb called a quarter of Grandsire at Blagdon, Somerset.

In honour of the gift of a daughter to Mr. and Mrs. I. Harris, 1,260 Grandsire Triples were rung at Great Tew, Oxon.

A daughter has also been presented to Mrs. M. A. Genna, wife of one of the Pinner, Middlesex, ringers, and the event was commemorated by 1,260 Grandsire Triples on May 6th, conducted by T. Collins.

Mr. A. E. Lock has a promising young band at Abingdon, Berks, who rang its first 720 for the Royal Silver Wedding. We hope to publish a first quarter shortly.

Veteran Tamworth (Staffs) ringer is Mr. Silas Dunkley, who rang the tenor to a quarter of Grandsire Triples in honour of his 80th birthday.

Pressure on our space has resulted in a number of reports of meetings, letters and quarter-peals being consigned to the W.P.B. Selectivity for publication is not easy. Will those disappointed please accept the Editor's regrets.

A Worcester band en route for the opening of the new eight at Alcester, Warwickshire, called at Salford Priors in the morning and rang a peal of Oxford Bob Triples on the new eight there. It was interesting to compare the two rings, the products of two different bell-founders. Ringing at Alcester after the opening had to be rationed, a feature being the queueing of whole teams, and some good-humoured jockeying for positions!

LEICESTER DIOCESAN GUILD

OBJECTIVE OF 1,000 MEMBERS IN SIGHT.

The Leicester Diocesan Guild annual meeting, held at Leicester on May 8th, was attended by members from all districts. A well-attended service was held at St. John's, the lessons being read by the president, Lay Canon H. W. Poole. The Ven. C. L. Matthews, Archdeacon of Leicester, preached.

About 140 were present at the tea and meeting in St. George Hall.

Supporting the president at the meeting were the Archdeacons of Leicester and Loughborough; the Rev. Dutton, of St. John's; Mr. W. Bullock, churchwarden, St. John's; Mr. H. W. Perkins, hon. general secretary; Mr. A. E. Rowley, hon. treasurer; and Mr. W. A. Wood.

The President extended a hearty welcome to both Archdeacons. He spoke of the great interest the clergy of the diocese took in the Guild and announced that the Bishop, who was unable to attend, had sent his best wishes for the continuing success of the Guild. Unfortunately, due to the necessary alteration of the date of the meeting, both St. John's and St. Margaret's ringers were on their outings and so unable to be present. For this reason, Mr. E. Morris, vice-president and peal secretary, was absent.

In his reply, the Ven. W. J. Lyon said he was grateful to the Guild for their help to the Church in ringing the bells for services. He was glad at any time to foster the work of the Guild.

INSIGNIA FOR PRESIDENT.

The recommendation of the General Committee that a fund be formed for the purchase of a suitable insignia of office for the president to wear at meetings was taken a stage further when Mr. E. C. Turner proposed that the fund be opened. Mr. Turner said a suitable insignia would be in keeping with the dignity of the office of president of one of the most important guilds in the country. The proposal was carried without dissent.

The general secretary's report followed. Seventy-six new members and 15 life members had been elected during the year. The total ringing membership was now 823 and he hoped that before long the figures would rise to the 1,000 mark and that there would be members in all churches in the diocese. There were members in 94 towers, an increase of three.

The hon. treasurer's report showed a balance in hand of over £158. A grant of £5 5s. from the Bell Repair Fund had been made to Somerby, while the usual collection had, at Kibworth, been given back towards the local tower repair fund.—The report was adopted on the proposition of Mr. Walker, seconded by Mr. Ballard.

OUTSTANDING PEALS.

The peal secretary's report stated that 81 tower-bell and 42 handbell peals had been rung. Outstanding among these were the handbell peals of Cambridge on 6, 8, 10 and 12 bells. This had never before been accomplished. Pudsey Surprise had been rung on 8, 10 and 12 tower bells. Miss Jill Poole, Mr. G. A. Newton and Mr. J. A. Fenton had reached 100 peals, Mr A. Ballard had reached his 250th peal and Mr. E. Morris had completed 1,000 peals. One peal had been rung by a German prisoner of war, the first to do so, and 26 members had scored their first peal, while 98 scored their first in a new method. Handbell ringers had on 42 occasions scored their first in new methods.

Burbage on July 3rd was selected for the next quarterly meeting. The general officers were re-elected, with Mr. W. A. Wood as general secretary in the place of Mr. H. W. Perkins, who has left the diocese. The President expressed the best wishes of the Guild for the future of Mr. Perkins. A great deal of very hard work had to be done when the Guild was formed, and Mr. Perkins had done great work at that time and since in the interest of the Guild.

Mr. Perkins said he was very proud of the Guild; his ambition had been to make it one of the best in the country. Since its formation, over 200 new members had joined and he hoped to see the Guild in an even better position.

The elections of 33 ringing and four life members were confirmed. A proposal to transfer Whetstone and Enderby from Hinckley District to Leicester resulted in Whetstone being transferred, while Enderby remains in the Hinckley District.

SUBSCRIPTIONS INCREASED.

The General Committee's recommendation that the subscriptions of adult members be increased from 1s. 6d. to 2s. 6d. was carried.

The committee's recommendation hat no peal booking fee by charged was also carried. The increased subscriptions will start in 1949.

A report was to be printed to cover the period since the formation of the Guild, and the report would be free to members. Life members and ordinary members desiring more than one copy would be able to obtain them on paying a suitable charge.

A new rule was passed that any member of the Guild failing to comply with the rules or acting in a manner likely to bring discredit on the Guild should be asked to appear before the General Committee, who would be empowered, failing a satisfactory explanation, to ask such member to resign. If the member failed to appear, the decision of the committee would be communicated to him and his name would be erased from the membership roll. This rule was intended to uphold the dignity of the Guild, who desired the full support of the clergy and was to see that nothing was done to bring discredit on the Guild. The rule would also operate to protect members.

The General Committee is to arrange a dinner and a dance, on separate nights, on convenient dates in October.

The meeting was followed by a 'Local Talent Spotting' entertainment, at which members gave comedy, singing and handbell turns. 'Positional' single handbell ringing provided much fun.

A very hearty vote of thanks to the ladies and artiste was well earned. And so another 'Leicester Annual' was over for another year.

OXFORD UNIVERSITY SOCIETY

The annual meeting of the Society was held on April 27th in the New Room, Magdalen, the chair being taken by the president.

The Master, in his report, mentioned the good progress of the beginners, the achievement during the Hilary Term of a peal of Bob Major, and quarter-peals of Stedman Triples and Bob Minor. He also referred to the Society's annual tour at Bedford, which has already been reported in 'The Ringing World.' Peals of Bob Royal and Cambridge Major were scored in the tower and Bob Royal 'in hand.' The Cambridge peal was the first for the Society in the method.

The next item on the agenda was the election of officers. The president, vice-presidents and the Master were all re-elected unanimously. The offices of joint secretaries were filled by the election of Miss J. Brierley (St. Anne's) and Peter W. B. Semmens (Exeter). G. R. Kerr (St. Ed. Hall) was elected as the new treasurer, and M. F. Barrow (Exeter) as steeplekeeper for the second year running.

W. F. Moreton's suggestion of the election of a general secretary was then discussed at considerable length. The purpose of the office is to keep past members in touch with the Society, and to keep the Society in existence should no active members remain in the University. It was eventually decided that the office should be held for periods of three years, the election taking place at the annual luncheon. W. F. Moreton was asked to undertake the office until the 1949 luncheon.

Mr. D. Gallop gave some information about the proposed farming-cum-ringing camp the Society was hoping to attend at Honeybourne during the fortnight Aug. 21st-Sept. 4th.

Sussex County Association

BIG ADVANCE IN PEAL RINGING.

The annual meeting was held in Brighton on May 8th, being preceded by service at St. Nicholas' with an address by the Vicar, the Rev. L. N. Phillips, M.C., M.A. Guests at tea were the Vicar of Brighton, Canon Robotham, the Vicar of St. Nicholas' and the organist, who played for the service.

At the business meeting the president and vice-presidents were re-elected, and officers for the year elected as follows: Master, Mr. F. I. Hairs; hon. treasurer, Mr. O. Sippetts; hon. general secretary, Mr. S. E. Armstrong; peal secretary, Mr. J. Dearlove; delegates to the Central Council, Messrs. O. Sippetts, F. I. Hairs, F. H. Dallaway and R. G. Blackman.

Messrs. F. H. Dallaway and H. R. Butcher were re-elected as trustees, but difficulty was found in naming a successor to the chief trustee, Mr. F. B. Tompkins, who had died during the year. Eventually the matter was left to the committee, with the recommendation that Mr. Cuthbert Tompkins should be approached in the first instance. Since the meeting Mr. Tompkins has expressed his willingness to serve, and the committee will be asked to confirm his appointment. On the resignation of Mr. G. Cecil as joint auditor, Mr. A. Bond was elected in his place, together with Mr. R. Overy.

The Master's report and balance sheet were accepted, the treasurer reporting an increased balance of £7 1s. 6d. on the year's working. It was resolved to incorporate in the Master's report a tribute to Mr. K. Hart.

The peal secretary's report showed a great advance in peal ringing, the total being 102 for the year, with some 30 conductors. This is closely approaching the record total set up in 1913, and is the first time since that date that more than 100 peals have been rung in a year.

The following new members were elected: Messrs. L. C. Lawson, F. V. Tonge, F. G. White, J. Perrow and Miss Mary Brown.

The treasurer announced that divisional levies due to the Central Fund would amount to £15 12s. from the Northern Division, £12 7s. Southern, £11 18s. Eastern, £14 12s. Western.

A motion proposed by the treasurer for raising the unaffiliated members' fee from 2s. to 3s. was carried; the proposal to limit the Central Council delegates' expense accounts to £3 each was defeated; the transfer of the Benevolent Fund into the General Account was carried.

Mr. G. T. Jennings' proposal to set up a belfry repair fund was carried enthusiastically after a discussion of its objects and limitations.

Mr. C. Levett asked whether the rules, recently amended, could now be printed, and the hon. treasurer made a generous offer of typing and duplicating the rules so that they might be circulated for the opinions of members before final printing.

Members and friends totalled 135, and after tea a collection for the repairs to Southover, Lewes, bells, amounted to £3 10s.

400 PEALS ON 12 BELLS

Mr. Albert Walker has created a new record by ringing 400 peals on 12 bells. The next highest is believed to be the late Mr. W. Pye, who rang 263 (conducted 184) twelve-bell peals.

Mr. Walker's first twelve-bell peal was rung on January 31st, 1899, and his 400th on May 11th. These were rung in 38 towers with 175 at St. Martin's, Birmingham. He conducted 166 and rang five non-conducted (Stedman Cinques, 1 tower, 3 hand; Cambridge Maximus 1). Details are:—

Tower bells: Cinques, Stedman 238 (conducted 108), Grandsire 3, Erin 1; Maximus, Plain Bob 1, Kent Treble Bob 5 (3), Little Bob 1, Forward 2, New Cambridge Surprise 1 (1), Cambridge Surprise 23 (6), Yorkshire Surprise 1, Belgrave Surprise 1. Total 277 (118).

Handbells: Cinques, Stedman 118 (46), Grandsire 1, Erin 1; Maximus, Kent Treble Bob 3 (2).

OBITUARY

MR. T. GROOMBRIDGE, JUN.

AN APPRECIATION.

Mr. Groombridge was an excellent ringer and conductor, who numbered among many admirable performances the conducting of peals of Stedman from Doubles to Cinques and Cambridge Surprise from Minor to Maximus, while he called from a non-observation bell his own first peal of Spliced Surprise in four methods. He also had the honour of taking part in a peal of Stedman Cinques at St. Paul's Cathedral.

Of his 400 odd peals, 101 were at St. Paulinus', Crayford, and it is for his labours at this tower that he perhaps best deserves to be remembered. He succeeded Mr. E. Barnett, sen., as conductor in 1932, and for the next seven years devoted much of his time in helping to build up a competent local band. His efforts were rewarded by 'local' peals of Cambridge on tower bells and Bob Maximus on handbells in March, 1937. Opinions may differ over his methods with complete beginners, but the help and encouragement he afforded those who mastered the early difficulties will not be forgotten by the people concerned.

During the recent war Mr. Groombridge moved first to Willesden and then to Nottingham, where he became the first secretary of the newly-formed Southwell Diocesan Guild. He kept in touch with his friends at Crayford, to whom he related his many activities in the interests of the new Guild, and would send occasional notes of congratulation or criticism of the happenings in North Kent.

He leaves a wife, son and daughter, for whom much sympathy will be felt, as also for his father, Mr. T. Groombridge, sen., who is now in his 81st year. News of 'Young Tom's' death was received a few hours before a peal at Crayford on May 29th, and the band, most of whom were old friends of his, would like it to be regarded as an 'in memoriam' peal.

E.A.B.

MR. HERBERT LUDKIN.

We regret to record the sudden death of Mr. Herbert Ludkin, of Didsbury, Cheshire. He had participated in a peal of Grandsire Caters at Manchester Cathedral on May 22nd, and after bidding good night to Mr. R. Benson and Mr. D. Vincent in Market Street, Manchester, he walked only 200 yards when he collapsed and died.

MR. GEORGE F. SWANN

AN APPRECIATION.

The passing of one of Birmingham's well-known ringers and conductors in George Frederick Swann, who died on May 23rd after a few days' illness, will come as a great shock to his many friends all over the country.

Mr. Swann commenced ringing in 1901 and had a total of 611 peals rung on 6 to 14 bells. An excellent ringer and expert conductor on tower and handbells, he was very safe and reliable in all he did. As librarian to St. Martin's Guild he kept valuable records of all peals rung from 1755 until his death. He was a man with a charming personality and one whom it was always a delight to meet. To his widow, to whom he had been happily married for 38 years, many messages of deep sympathy have been received from all parts of the country.

It will be of interest to note his last peal was a non-conducted tower-bell peal of Stedman Cinques at St. Martin's as recently as May 11th, to which he rang the 4th bell. Among his list of peals were 198 on twelve bells, 120 being on handbells, and included three non-conducted Stedman Cinques 'in hand,' also one non-conducted peal of Cambridge Maximus at St. Martin's. He also rang 7-8 to the peal of Stedman Sextuples and had called peals in many Plain and Surprise methods from Doubles to Maximus. A.W.

LETTERS TO THE EDITOR

CANTERBURY TENOR

Sir,—Most of Mr. Bond's letter is concerned with what he 'understands' —common impressions that have little or no basis in fact.

Now the note of Canterbury Cathedral tenor is C without any doubt, for it is half a tone lower than that of Great Dunstan, the hour bell, the note of which is given as C sharp in the standard work on clock chimes (I did not believe this until I tested it for myself); also it is 57 inches across the mouth.

Using these two facts and referring to the table given in Nichols' 'Bells Thro' the Ages,' we find the bell in question is around 34 or 36 cwt.

The suggestion that conductors should check the tenor weight is, we hope, not to be taken too literally. In the case of Canterbury Cathedral there is an old list of the then peal of ten in the ringing room, giving the tenor as '33 cwt. approx.'

Whatever the accurate weight of the bell there is no doubt that she requires quite a lot of handling!—Yours truly,

PETER J. H. SMALL.

Wandsworth Training College, S.W.18.

Dear Sir,—As I am the chap responsible for increasing the weight of Canterbury Cathedral tenor, I gather that some explanation is required. For years the weight of the tenor has been given as 30 cwt. Why, I don't know, because in the belfry window there hangs a framed list giving the weights of the back 10 bells. Of these two are actual, the remainder, including the tenor (34 cwt.), are approx. As All Saints', Maidstone, is given as 31 cwt. (approx.), may we claim to have the heaviest bell in Kent?—Yours faithfully,

Canterbury. B. J. LUCK.

Dear Sir,—The weight of Canterbury Cathedral tenor is given in Mears and Stainbank's list (1922) as 34 cwt. It was cast (or recast) by them in 1778.—Yours faithfully,

E. BARNETT.

Crayford.

ALDERTON TENOR

Sir,—I have no idea where the late Rev. E. S. Powell obtained his information regarding the tenor here, but I am afraid all his figures are wrong. The diameter is 36½in., not 44in., and I understand the weight, 7 cwt. odd (not 15 cwt.), was given by John Taylor and Co. when they rehung the bells in 1935. I think most ringers who have rung the bell would agree with this figure.

The bells have not been out of the tower since the rehanging in 1935.—Yours faithfully,

W. J. NORTON.

Alderton.

OBITUARY

MR. EPHRAIM W. RANDS.

The death of Mr. E. W. Rands occurred on March 25th at the Old School House, Cogenhoe, Northampton, after a long and painful illness, which he endured with courage and patience. He was born at Polebrooke, near Oundle, in 1881, his father being clerk at the Parish Church; here he learned to ring.

As a young man he went to Hugglescote and was attached to the Parish Church for many years. After removing to Leicester he joined the band at St. John-the-Divine. His peal ringing was chiefly with members of the Midland Counties Association. He later lived at Oundle and finally went to Cogenhoe in 1943.

The funeral service at St. Peter's Church on March 31st was conducted by the Rev. L. E. Brown, Rector of Castle Ashby. Members of the Peterborough Diocesan Guild acted as bearers. He is survived by the widow and two sons who are ringers, Mr. B. Rands, of Fareham, Hants, and Mr. A. Rands, of Crick. A half-muffled peal of Minor by members of the Peterborough Diocesan Guild came to an end after 1¼ hours. J.R.S.

NOMENCLATURE

Dear Sir,—May I comment on two points in your issue of May 14th?

On the front page it is stated, inter alia, 'So far, except for the long dead St. Stephen's, we have kept saints' names out of the nomenclature.' On page 199, Mr. Levett observes that 'Extremes' are irregular with Grandsire.

I quite agree with Mr. Levett, but in its purest form the Extreme is not used with Grandsire, but with a method known as St. Dunstan. The difference between the two may briefly be described thus. In its simplest form Grandsire Doubles is a method in which 120's are obtained by the judicious use of Bobs, Singles and Plain Leads. St. Dunstan Doubles is a method in which 120's are obtained by the judicious use of Bobs, Singles and Extremes, but *no* plain leads.

Of course, the two methods can be mixed up or, if you prefer it that way, extremes can be used with Grandsire. For ordinary Sunday ringing at towers that only ring Grandsire—and there are many such—I strongly recommend it. To plod on, Sunday after Sunday, with the stereotyped Grandsire 120's can become very monotonous. But let the conductor use Bobs, Singles, Extremes and Plain Leads as the spirit moves him and it is wonderful how Grandsire is brightened up and how much more the band have to keep on the alert. When it is time to lower the bells for service it is a simple matter to call the bells into rounds, especially if the conductor rings the second himself.

However, the points I wish to make are (a) there is a method with a saint's name—St. Dunstan — although it may only eke out a precarious existence in the backwaters of country parishes, and (b) the 'Extreme' is a regular call when used with St. Dunstan.

Just as there are 10 generally accepted callings in Grandsire, so also there are 32 generally accepted callings in St. Dunstan. Rightly or wrongly, from the angle of the Central Council, there have been peals called and they are recorded in village towers as having consisted of 'ten callings of Grandsire and thirty-two callings of St. Dunstan, each called differently.'

—Yours faithfully, T. V. LISTER.

Apperley, Glos.

WILLESDEN SURPRISE MAJOR

Dear Sir,—May I be allowed to congratulate Mr. Roberts and his band upon ringing this method for the first time. From information published the peal was composed and conducted by Mr. Roberts, and the figures of the method by Mr. A. J. Pitman. So far so good, but does Mr. Roberts realise that the method rung as 'Willesden' was published as 'Wycliffe,' and under my name, just over twenty years ago?

—Yours truly, E. W. TIPLER.

BOBS IN TREBLE BOB

Dear Sir,—Since the question of using 4ths place bobs in 8ths place methods has recently appeared in 'The Ringing World'—and it seems that sometimes this is advantageous—I wonder if anyone could inform me why a 4ths place bob is used in Treble Bob, particularly in Kent?

Surely the proper bob would be a 6ths place one and this would avoid the four blows in 4ths place. I can see no reason why 6ths place bob should not be employed. Can anyone tell me? FREDK. J. JACKSON.

OTHER THINGS

TOO frequently, perhaps, interest in a ringing meeting is confined to the bells, the methods rung, the company present and even the tea table! Much depends upon the place ringing takes in the individual's life, for there is a danger among the ultra enthusiastic of ringing becoming completely self-absorbing, obscuring the true perspective of life, blinding the eye and stultifying the intellect to the treasures surrounding us. We are privileged to practise our art amid an incomparable background; such is the heritage of the English ringer. This beauty is in no sense confined to our venerable Cathedrals; most of our churches have special features in hidden glories. To those with the gift of imagination the field is still wider. 'I never drum the tenor in one of these old churches,' remarked a friend, 'without my mind trying to capture the scene in bygone days. I have pictured a doublet on the coat peg or a smock lying in the corner hastily discarded.' Many a peal conductor has rued these flights of fancy.

Such musings have been prompted by reading a report of a meeting of the Beverley and District Society at St. Patrick's, Patrington. This beautiful church, called 'the Queen of Holderness,' dates from the 14th century and has a spire reaching up to 180 feet. St. Patrick's has now a lovely light octave (tenor 10 cwt. 24 lbs.), two new bells having recently been dedicated by the Archbishop of York in memory of the men of the parish who gave their lives during the last war. Thus 1948 blends with the distant past in its gifts to the Church. Before Domesday Patrington belonged to the Church, the Manor having been bestowed by Knut in 1033 A.D. on the Archbishops of York.

Any questioning of Patrington's antiquity is, however, dispelled by the unusual, possibly unique approach to the belfry. First comes an ascent along an outside stone spiral staircase to the roof of the church. The climb is continued outside the church to near the apex of the span of the roof. Here a wooden tunnel is entered which is approximately three feet in height. This is traversed for some 50 feet and to most of the company of 60 attending the meeting, and representative of 21 towers, this approach was a considerable task.

Within sight of Patrington tower was born Andrew Marvell, the poet of the Commonwealth, who was for many years Member of Parliament for Hull. He had a

mind to capture the fantasy and span the distances of time, as revealed in the following lines:—

. . . . But at my back I always hear
Time's winged chariot hurrying near;
And yonder all before us lie
Deserts of vast eternity.

BELFRY GOSSIP

The Exercise will desire to join with us in extending our congratulations to Mr. C. F. Johnston, director of Messrs. Gillett and Johnston, Ltd., bellfounders, upon appointment in the King's Birthday Honours List as an Officer of the Order of the British Empire.

The peal of Stedman Cinques at St. Mary Redcliffe was the 25th peal together by Messrs. D. G. Clift and E. F. Hancock.

St. Martin's bells, Birmingham, will be broadcast next Sunday, June 20th, at 7.45 p.m. previous to the service.

Correction. — Re the peal of Grandsire Doubles at Pelsall, Staffs, on April 26th, the ringer of the fourth was Mr. George Golder.

The ringer of the 7th in the peal of Plain Bob Major at Oswaldtwistle on May 6th was Charles Clegg and not Jack Clegg as published.

Messrs. Norman Chaddock and Alfred Joyce are returning shortly to Rotherham and London respectively. There was a farewell peal at Peterborough.

St. Mary's Society, Beddington, Surrey, which was re-formed in January, 1947, rang their first peal under the new organisation on May 29th. All members of the band are regular Sunday ringers.

Appreciation of the encouragement given by Mr. E. J. Lindley to handbell ringing at Newmarket comes in a letter from Mr. John A. Acres. There is genuine regret that he has finished his last term at Trinity College.

To those questioning tenor weights, Mr. Denis A. Bayles states that Messrs. John Taylor and Co. give the weight of St. Stephen's, Newcastle-on-Tyne, as 27 cwt. 2 qr. 8 lb. This tenor has been reported as 30 cwt.

Raymond Wade has rung nine Surprise methods in his first peal at Billingborough, Lincolnshire. At the age of 11 years 8 months he claims to be the youngest ringer to achieve this distinction.

Standing in the peal at Kidlington, Oxfordshire, to mark the 49th anniversary of the 17,024 Double Norwich Court Bob Major were Messrs. Walter and William Judge, whose father rang in the long peal. Mr. William Judge has now completed the circle of this tower for the third time.

Kidlington is another case of a shrinking tenor. In Morris' book it is given as 27 cwt. A tablet in the tower records it as 26 cwt., but nowadays it is regarded as 23½ cwt. 'Believe me,' writes Mr. Alan R. Pink, 'it is all there!'

Mr. A. Chaplin, towerkeeper and Master at Dagenham, Essex, has now 'circled' Dagenham tower.

Will any ringers attending the Festival of the Guild of Servants of the Sanctuary at St. Augustine's, Kilburn, on Saturday, July 3rd, get in touch with the tower secretary, Miss R. M. Davies, 23, Beatrice Court, Empire Way, Wembley, with a view to arranging some ringing? She would also like to hear of anyone who can assist at 10 a.m. on July 10th for the closing service of the Anglo-Catholic Congress.

On the 55th anniversary of his wedding Mr. A. Roberts rang a peal at Stoke-in-Coventry in honour of the happy occasion. To the outside public the bells expressed the rejoicings of Coventry for the visit of Princess Elizabeth. Mr. Roberts has rung at this tower for 40 years and has now twice 'circled' the tower.

On June 5th Mr. and Mrs. Roberts entertained to tea at Gosford Green Civic Restaurant those who had taken part in the peal together with the local band. Mr. Frank E. Pervin, in thanking Mr. and Mrs. Roberts for their hospitality, expressed the hope that Mr. Roberts would be able to take part in his diamond wedding peal.

Oh! Those Names!

Dear Sir,—If the view that 'Superlative' is, in these days of changing conceptions, no longer an appropriate name for this old Surprise method, from which it is not easy to divorce the title so long associated with it, then, surely, a compromise is possible?

Any new name for a method should :—

(a) Conform with present-day views on nomenclature.

(b) Have some association peculiar to the method.

(c) Have euphony.

The structure of this method seems to suggest a title in conformity with all these requirements. In short, the closely-knit network of its bell-paths suggests *knitting*—not 'plain,' by any means, rather perhaps, 'purl'!

So, why not drop the now-offending 'super-' and, by substituting a 'u' for the 'e' in its second syllable, derive the word PURLATIVE,' meaning literally—'bearing or carrying a knitting-like structure.' The name is near enough to the present one to carry all the old traditions, and is not likely to be mistaken.—Yours very truly,

A. YORK BRAMBLE.

Fountains Park, Netley Abbey.

DETHRONED!

Dear Sir,—Mr. A. J. Corrigan is seeking an alternative name for Superlative Surprise and describes the method as the only stumbling-block in the way. Why not dethrone the method and call it Ex-Superlative, the ex-queen of methods? This would show what it was and now is in one stroke, so to speak, and save endless debate amongst future historians. Premier and the others could be made to abdicate in the same way. I present this 'superlative' idea to the Exercise gratis.

FIRST HANDBELL PEAL IN WALES

Dear Sir,—With reference to the query in Belfry Gossip as to whether the handbell peal at Morriston is the first in Wales: Before answering the question, may I first congratulate the band on their performance, the first 'all' Welsh band to score a handbell peal.

It is not, however, the first handbell peal in Wales. The first was Grandsire Triples rung for the Hereford Guild at Welshpool, Montgomeryshire, on February 21st, 1897, in 2 hours 33 minutes, by T. J. Bratton 1-2, W. H. Fussell 3-4, J. E. Groves 5-6, W. Greenleaf 7-8. The composition was Parker's Twelve-part, conducted by J. E. Groves, and was his first peal 'in hand.' For further particulars see 'The Bell News,' No. 777, Vol. XV., Feb. 27th, 1897. Since then William Pye has called 5,079 Stedman Caters in the belfry of All Saints', Newport, Mon., on Sept. 11th, 1911, in 2 hours 57 minutes: Bertram Prewett 1-2, W. Pye 3-4, E. Pye 5-6, T. T. Gofton 7-8. J. George 9-10. This was rung for the Llandaff Association.

The first peal of Major 'in hand' in Wales was rung for the Ancient Society of College Youths on June 13th, 1942, when at Gilwirn in Breconshire, 5,008 Bob Major was rung by the following in 2 hours 26 minutes: W. Williams 1-2, R. G. Bryant 3-4, A. M. Tyler 5-6, D. G. Clift 7-8. Conducted by W. Williams. Messrs. Williams and Clift were the first Welshmen to take part in a handbell peal in Wales.

Stapleton, Bristol. DONALD G. CLIFT.

HEREFORD GUILD'S CLAIM

Dear Sir,—Re query from Swansea and Brecon Guild, the first handbell peal rung in Wales was Grandsire Triples (Parker's 12-part) at Welshpool, Montgomeryshire, on Feb. 21st, 1897: Thomas J. Brutton 1-2, William H. Fussell 3-4, James E. Groves (conductor) 5-6, William Greenleaf 7-8. The first of Doubles was rung at Llangattock, Breconshire, on Nov. 3rd, 1912, being Grandsire: G. Mortemore 1-2, J. Hammond (conductor) 3-4, N. Allbutt 5-6. Both peals were rung by the Hereford Guild.

Change Ringing's Appeal to Mathematicians

Dear Sir, — As one who is not a change ringer it is with considerable diffidence that I trespass on your space, but after reading Mr. E. J. Lindley's recent letter I feel that I ought to write to you before somebody gives yet another version of what I have or have not done in my paper, 'A campanological problem in group theory.'

Firstly, it should clear up a number of points if I state quite definitely that I regard the paper as a contribution to the mathematical theory of groups, and not to change ringing. The problem I investigate was, of course, suggested by change ringing, but any application the paper may have to this subject is purely incidental. Thus, for example, I know of no campanological application of section 3 of the paper, which is, from my point of view, the most interesting part.

In the second place, the chief result of the first part of the paper (namely, Theorem 2) is much more general—and therefore takes rather long to prove—than Theorem 1, which, though itself more general than is required for change ringing purposes, is only a simple case of Theorem 2. This answers, I think, Mr. Lindley's objection that I have used a steam hammer to crack a walnut. That part of Theorem 1 which is of interest to change ringers could easily be proved in half a page, and, if necessary, be shorn of all offending technical terminology.

Thirdly, it is certainly true that W. H. Thompson's methods (which form the basis of my paper, and for which I have the greatest admiration) are capable of treating the four different types of peal which I give as examples in my final section. His method is not, however, a general one, but is an *ad hoc* method which must be varied for each different peal considered. Thus, to deal with Grandsire Triples he had to list 28 different positions which the members of a Q-set could occupy in a round block. I should not call this particularly simple. In the case of Grandsire Cinques, however, where a Q-set contains 9 members, his method would be excessively tedious and hardly practicable.

In conclusion, my personal opinion is that mathematicians are likely to derive rather more from a study of change ringing than change ringers from a study of mathematics. The change ringer is interested in the structure of particular groups, and by studying them discovers intriguing properties which the mathematician may, if he is lucky, extend and generalise. These generalisations will usually not provide any further information when applied to the particular groups which suggested them, but they may save a great deal of time and trouble when applied to more complicated or less familiar methods of ringing which are of the same general type.—Yours sincerely, R. A. RANKIN.

'THE TIMES' LEADER

Dear Sir,—The report of the Literature and Press Committee published in your current issue is probably condensed, but mention might have been made of the leader in 'The Times' of April 28th last. This was headed 'Bells' and ran to 52 lines. It dealt in the genial and general way usual to the fourth leader of that paper, but the final sentence rather startled me: 'A picturesque art is dwindling in a world well learned in the evil craft of making louder and more destructive noises.' 'The Thunderer' should mind its step!—Yours truly, CHARLES E. BORRETT.

'Tom' Groombridge, jun.

Dear Sir,—Is it possible to feel the loss of a friend one has never seen? That question was answered for me this morning in the words of that beautiful hymn, 'O Saviour, precious Saviour, Whom yet unseen we love.' I feel that in the untimely passing over of Mr. Tom Groombridge, jun., I have other friends I have not seen.

I was shocked on looking at my 'Ringing World' on arriving home on Saturday after attending the Manchester Unity of Oddfellows' conference at Margate, from where I wrote 'Tom.'

You will no doubt remember the correspondence in 'The Ringing World' a short time ago on the subject of branch secretaries going off peal ringing on Saturdays of monthly meetings, when Tom 'came in' on me very severely, likening my criticism to a street organ grinder (and I think, at the time, he really meant his monkey) criticising Dr. Thalben Ball playing a Bach Fugue.

Often differences of opinion occur through failing to understand and appreciate the other chap's point of view. It only required a letter or two between us to reconcile our points of view, and for me to find out that he was, first and foremost, a Sunday service ringer.

'Moral,' have our differences (they are good for the Exercise); disagree, if we must; but do not let us be disagreeable; life is far too short.

Whilst writing, please may I, through our journal, express on behalf of all who took part our grateful thanks to the ringers of Margate (St. John's) and Ramsgate (St. Lawrence's) and Mr. Turner, Dover (St. Mary's), for the generous facilities they afforded us whilst at Margate last week.

W. FRANK STENSON
(Christ Church, Crewe).

OBITUARY

MR. W. A. JEAVONS.

The last of the original band of call change ringers at Coseley, Staffs, died on May 28th in the person of Mr. W. A. Jeavons. He was 83 and had served in the belfry for 66 years, and previously was a chorister. Although unable to do more than ring the treble to a plain hunt, he was most regular in attendance and had rung in a few peals locally.

Fellow ringers acted as bearers at the funeral on June 1st, after which 1,260 Grandsire Triples was rung half-muffled by Mrs. G. Whatmore 1, C. R. Godfrey 2, A. Cope 3, Miss E. Causer 4, W. Bayliss 5, D. Whatmore 6, J. D. Holden (cond.) 7, F. Holden 8. First of Triples for 1, 2 and 6.

MR. F. C. NYE.

After nine years of failing health, Mr. Frederick C. Nye has died at his home at Ringwood, Bagshot, at the age of 77.

He learnt to ring at Easthampstead, Berks, 50 years ago and remained a member of the Oxford Diocesan Guild until his death. He had been a regular ringer of St. Anne's, Bagshot, since 1904, and had devoted much time to the care of the bells and to teaching beginners. He was a member of the Winchester Guild until the formation of the Guildford Diocesan Guild, of which he was a keen and active member until his health failed.

After the funeral service at St. Anne's, Bagshot, on June 2nd, interment followed at Lightwater Cemetery, where a touch of Grandsire was rung on handbells over the open grave by Mr. A. H. Pulling and Mr. and Mrs. C. Hazelden.

Among the floral tributes was one from the Farnham District of the Guildford Guild and also one from the ringers of St. Anne's, Bagshot. During the evening the tower bells were rung half-muffled by the local band.

RODBOURNE CHENEY, WILTS.—On May 16th, 1,260 Grandsire Doubles: J. C. Smith 1, Beryl Strange (first 'inside') 2, T. I. Holborow 3, W. B. Kynaston (cond.) 4, J. E. Manners 5, W. M. Greenaway 6.

Essex Association

SUBSCRIPTION INCREASED TO MEET RISING COSTS.

Reference has already been made in 'The Ringing World' to the sermon preached by the Bishop of Colchester at the annual meeting of the Essex Association at Chelmsford on Whit Monday, attended by 130 ringers. At the service the names of members who had died during 1947 were read, viz.: C. J. Ellis (Harwich), T. Ward (Bishop's Stortford), C. Jordan (Stansted), F. Chalk, J. Waldock (Maldon), G. Brackley (Shenfield), P. C. Perrin (Waltham Abbey), J. H. Wilkins, H. Street (Walthamstow), F. C. Newman, G. Haydon (West Ham), T. A. Laybourne (Dagenham), and two hon. members, Canon S. L. Brown and Mr. F. J. French (Chelmsford).

The Master (Dr. T. P. Spencer-Phillips) presided at the business meeting, held at the Chapter House.

The annual report showed that 1947 had been a year of vigorous reconstruction. The Cathedral Library for ringers had been extended and should be a feature of the Association in the days to come. Membership decreased slightly, but four more towers were in union with the Association. A new ring of eight had been installed at St. Augustine's, Thorpe Bay, Southend-on-Sea, the gift of Mr. Albert Mitchell, in memory of his wife. The four bells of Downham had been recast and a treble and tenor added, the gift of Mr. F. W. Keddie and wife in memory of their three sons lost in the last war. A thirteenth bell had been added to the Cathedral ring through the generosity of the late Mr. F. J. French. The eight of Great Tey had been rehung on ball bearings. In Great Bentley Church a memorial tablet to the late Mr. W. J. Nevard was dedicated last autumn, the cost being borne by private subscriptions and the Association.

The 'Crusaders' of the S.W. District had carried on their good work and other districts had extended their activities. Fifty-four peals were rung during the year—43 on tower bells, 11 on handbells. Twenty shared the conducting, 11 rang their first peal, and 81 their first peal in the method. Mr. Lufkin and his band made history by ringing 9,000 of Bob Royal at Prittlewell.

Considerable interest was taken in the accounts. Membership subscriptions showed an increase; but a £36 deficit (£20 non-recurring) on the year's work, following reduced balances of the two previous years, influenced the decision to increase the subscription of 2s. 6d. in 1949. The hon. members' subscription was reduced to a minimum of 2s. 6d., in the hope that more people in the churches would be enrolled as hon. members. A strong plea was made for a lively co-operative church interest. Increased collections for the Bell Restoration Fund resulted in a balance of £240 10s. 7d.

After a full discussion it was decided to introduce a peal ringing fee of 6d. per ringer to help meet the cost of the annual report. Then followed a resolution to change the date of the annual general meeting to the Saturday nearest to the date of Whit Monday of 1879 (June 2nd) to enable the Central Council representatives to attend both annual general meetings. This was defeated and a resolution passed to shelve the changing of the date of the annual general meeting for not less than five years.

The secretary read a letter relating to the committee's request for representation on the Diocesan Advisory Committee. The Bishop thought that there was no need for such representation, assuring the members of assistance in every way at all times.

The election of officers followed. Mr. E. J. Butler was unanimously elected as a life vice-president in recognition of long and efficient service as a district secretary, a Central Council representative, and an auditor. Other officers elected were: Master, Dr. T. Spencer-Phillips, J.P.: Deputy Master, Mr. G. L. Joyce: hon. secretary and treasurer, Mr. R. C. Heazel; auditors, Messrs. H. Turner and J. H. Crampion; trustees, Messrs. G. Green, E. J. Runter and H. W. Shadrack; life members, Mr. H. Allen (Chelmsford), Mr. L. Myhill (Springfield).

Over twenty members were elected from Prittlewell, Thorpe Bay, Great Wakering and Woodford. The Misses D. Fleetwood and J. Griffith were co-opted to the committee for secretarial work. Mr. F. Dench (Saffron Walden) resigned from the Peals Sub-Committee and was thanked for many years of valuable assistance.

Luncheon was well arranged and served at the County Hotel, the Bishop and the Provost being the chief guests.

MISS BETTY BROWN

Fourteen-year-old Miss Betty Brown, of Lincoln, who rang her first peal on March 1st, 1947, is a credit to her tutor, Mr. F. W. Stokes. At the end of last year she had the following 21 peals to her credit, each method having been rung on an 'inside' bell:—

Doubles, four methods 1; Stedman Doubles 1; Minor, one method 1, four methods 1, five methods 2, seven methods 3; Cambridge Minor 1; London Minor 2; Stedman Triples 2; Superlative Surprise Major 1; London Surprise Major 3; Stedman Caters 2; Erin Caters 1.

Like Miss Jacock, of Burnham, Miss Brown is a proud member of the Society of Royal Cumberland Youths. She scored her 25th peal on June 4th.

DIAMOND WEDDING

A service at St. John's Church, Loughton, Essex, where they were married 60 years ago, followed by a family party at their home, 49, Englands Lane, Loughton, marked the diamond wedding anniversary of Mr. and Mrs. E. Bacon.

Mr. Bacon, who is 84, started ringing 65 years ago and is still a ringer. He has about 20 peals to his credit. His membership with the Essex County Association dates back to 1887 and he has been a member of the Society of Royal Cumberland Youths since 1891. Our congratulations!

THE CORS OF ALDBOURNE

Dear Sir,—I have in my possession a peal of 12 handbells, 250 years old, by W. Cor, of Aldbourne, Wilts (1700). Could any reader inform me of other existing peals of hand or tower bells by this founder? I believe the back six at Northleach and the tenor at Upper Slaughter came from that foundry.

Midland Counties Guild

ANNUAL MEETING AT BURTON.

The town of Burton-on-Trent, famous throughout the Exercise for its pioneer band of Surprise ringers at the stately church of St. Paul, was the venue of the annual meeting of the Midland Counties Guild.

The Vicar of St. Paul s (the Rev. W. Willis-Price), who is also an hon. member of the Guild, conducted a short service and gave an interesting address, remarking upon the important witness of ringers in the life of the Church.

Tea, a much-needed meal on such a beautiful day, was enjoyed by all, and the usual business meeting was held.

The Chairman (Mr. W. H. Curson) referred to the loss the Guild had sustained in the death of Mr. Chandler, of Appleby Magna. Members stood as a mark of respect.

The secretary, in his report, recorded that the ringing membership had increased to 144 and honorary membership to 25. During the year 25 peals had been rung, an increase of eight on the previous year. The secretary spoke of the dearth of young conductors, adding that in many societies conducting appeared to be in the hands of a few individuals.

Concluding, the secretary said it should be noted that St. Paul's tower was one of the very few where a peal had been rung for each of the royal events during 1947—Princess Elizabeth's 21st birthday and marriage.

The treasurer presented the balance sheet and reported a deficit of approximately £13 in the General Fund, largely due to the high cost of printing the report. Efforts, the treasurer said, are in hand to check this adverse balance during the current year.

One honorary and eleven ringing members were elected from Repton, Burton (All Saints'), Derby and Lullington.

Written notice was given by Mr. B. G. Key, supported by Mr. S. H. Jones, that Rule 5 be revised to include the annual appointment of a Ringing Master. This was approved.

The election of officers resulted in Mr. W. W. Worthington, of Lichfield, being unanimously elected president, Mr. W. H. Curson chairman, Mr. B. G. Key Ringing Master, Mr. J. H. Brittan treasurer, Mr. J. W. Cotton secretary, Mr. T. Prvce hon. auditor; committee, Messrs. E. W. Beadsmoore, W. J. Leach, S. H. Jones and T. J. Marriott.

A hearty vote of thanks to the Vicar for use of the bells and to the ladies for preparing tea was proposed by Mr. S. H. Jones, seconded by Mr. B. G. Key, and carried with acclamation.

AUGMENTATION

SIDBURY, DEVON.

Two new bells hung in Sidbury (Devon) tower to complete a ring of eight were dedicated recently by Prebendary E. V. Cox, president of the Devonshire Guild of Ringers. A simple service was conducted by the Vicar (the Rev. H. Taylor).

One bell, to be known as the Mothers' Bell, given by the Rev. W. S. and Mrs. Airy, in memory of their mothers and as a tribute to all mothers, was formally handed over to the Vicar by Mr. Airy. The second or memorial bell, which is being paid for by public subscription, as a memorial to the men of the parish who fell in battle during the 1939-45 war, was handed over by Messrs. F. Summers, W. J. Froome and R. Lavers (churchwardens).

Sidbury ringers with their captain (Mr. M. Denner) rang the eight bells for the first time. Other teams joining in the ringing were from Exeter, Sidmouth, Okehampton and Otterv St. Mary. A tea in the Village Hall was attended by Guild officers and members. J.A.

ELY DIOCESAN ASSOCIATION

The meeting of the Hunts District at Eynesbury attracted about 110 members. Ringing included York, London and Cambridge Surprise. Mr. S. Gilbert, district secretary, was deputed to make arrangements for a joint meeting with the Peterborough Guild at Spaldwick.

These famous bell-founding firms have kindly consented to this adaptation of their advertisements to meet the pressure on our space, due to the compulsory reduction in the number of our pages this week.

THE ROLL

THERE is an intimate touch about ringing. The national character of the Exercise has produced its outstanding personalities who are known wherever ringers forgather. Some have gained renown by their prowess in peal ringing; we have our Hobbs and Sutcliffes, whose mastery of our art and feats of endurance have fired the imagination of young ringers. They have their special niche in ringing fame. Then there are the administrators of our art—men and women who guide the destinies of our Guilds and Associations. There is a place for them, too, on the roll.

It is right and proper that such service should be recognised, it is one of the duties of the Biographies Committee of the Central Council to see that they are not forgotten and that such material is available for the ringing historian of the future. There is another section whom the writer would like to see recorded on a roll of honour—those ringers who by their keenness and enthusiasm, have induced the public to subscribe large sums of money to provide bells.

An example to hand is the service rendered by Mr. F. Horsfield, hon. secretary of the Bell Fund at St. Peter's Church, Macclesfield. He was taught to ring by Mr. G. F. Woodhouse at Sedbergh, and has been a ringer successively at Barwell, Hinckley and West Bromwich. Four years ago he came to Macclesfield and was surprised to find that the fine tower of St. Peter's had only one bell. It was not long before he started to agitate for a ring of eight to commemorate the centenary of the church and as a memorial to those who fell in the war. In the space of 27 months £1,700 was raised to meet the cost of bells and clock chimes.

Brief reference to this dedication was made in Belfry Gossip at the time, but pressure on our space prevented justice being done to the occasion. Mr. Horsfield also trained a team of local boys, with an average age of just under 15 years to ring the opening touch, and it is claimed that these are the youngest band to have opened a new ring. The Archdeacon of Macclesfield, who performed the dedication ceremony, had a special word of encouragement to the young life in the belfry. 'You could have chosen the easier course which other parishes have adopted from time to time and installed a mechanical ringing device,' he said, 'but you here had faith that there would always be men, and perhaps women too, who would come forward and ring from Sunday to Sunday.' As a body that faith is unshaken among ringers to-day, but it behoves us to be vigilant.

'THE RINGING WORLD'

The Official Journal of the Central Council of Church Bell Ringers

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

A warm friend of Middlesex ringers is the Rev. Percival Gough, M.A. The 20th anniversary of his induction as Rector of St. Mary's, Acton, was commemorated by a peal of Superlative on May 31st.

Mr. John H. Brothwell, of Treeton, Sheffield, whose membership of the Yorkshire Association dates back to 1893, rang in a peal of Yorkshire Surprise Major at Handsworth in honour of his 74th birthday.

Mr. and Mrs. C. K. Lewis together completed Kent Treble Bob from Minor to Maximus at Disley on May 29th. Mrs. Lewis rang her peals in the following order: Maximus, Royal, Major and Minor.

Woolwich Sunday service band have rung their first quarter since the war. It was an occasion in the Grove family, being the 17th anniversary of the wedding of Mr. A. Grove and the first quarter of his son, aged 15.

Over 50 members attended the Rochester district Kent C.A. meeting at Wrotham on June 5th, and had the satisfaction of seeing all the local ringers elected members and the Vicar and churchwardens hon. members of the Association.

News from the Mid-Devon Branch of the Devon Guild is of visits on June 12th to two towers of special interest—Kenn, where the bells have been rehung, and Exminster, where there is an augmentation to eight. Two excellent rings, was the general comment.

The belief that the quarter at Stoke Albany was the longest length there for 20 years is somewhat astray. A peal of Bob Minor was rung there on October 18th, 1930, for the Midland Counties Association, and two or three years later another band rang a peal, writes Mr. P. Amos. A quarter-peal was rung there in 1935.

On July 6th, Thomas Miller, for about 60 years a well-known ringer of the Midlands, will reach his 90th birthday. Tom is in fairly good health and should any old friends wish to communicate with him, his address is c/o St. Joseph's Homes, Queen's Park Road, Harborne, Birmingham 32.

The first anniversary of the casting of the tenor bell of St. Peter's, Macclesfield, was commemorated by 1,232 Double Norwich C.B. Major rung on May 21st by E. Seed 1, S. Hough 2, C. W. Lawton 3, Mrs. C. W. Lawton 4, F. Horsfield (first quarter D.N.) 5, J. W. Whittaker 6, W. Stevenson 7, J. Worth (cond.) 8.

Leckhampton (Glos.) has a doyen in Mr. F. Pratt, who has over 50 years' service at the church to his credit. His golden wedding on May 28th was celebrated by 1,260 Stedman Triples by W. Townsend 1, F. Pratt 2, G. Smith 3, D. Newcombe 4, T. Boreham 5, C. Richings 6, J. F. Ballinger (cond.) 7, A. Newman 8.

Congratulations to Mr. P. K. Williamson, of Coventry, on completing his 100 peals. He first handled a bell in July, 1944, rang his first handbell peal in the following March, and his first tower-bell peal in September, 1945. His list includes 11 of Stedman Cinques and 36 of Surprise. Mr. Williamson has rung under the auspices of 13 guilds or societies and in 20 different methods. He has called four peals.

Michael Collett, aged 14, of Burford, Oxon, who rang his first long touch 'inside' less than a year ago, now has five peals to his credit and is a spliced Triples ringer. His latest achievement is a quarter-peal of Grandsire Triples as conductor, rung on June 13th by J. G. Collett (16) 1, M. C. F. Collett (14) 2, B. S. Nichols 3, B. J. Forest (18) 4, F. Soden 5, T. W. Timms 6, W. J. Dixon 7, J. J. Westmacott 8.

LETTERS TO THE EDITOR

Northamptonshire Bells

Dear Sir,—Readers will no doubt be told that the late Rev. E. S. Powell only gave approximate weights. I, for one, cannot understand how a 7 cwt. bell described as 15 cwt. can be regarded as approximate. Unfortunately the inventory is full of similar errors to that of Alderton. Here are a number of others:—

Culworth he describes as tenor 22½ cwt. and 50½in. A card in the belfry gives it 3ft. 3½in. and 12 cwt. 3 qr. 10 lb., rehung 1931 (only seven years before the Rev. Powell's inventory was written). St. Peter's, Northampton, is described as in a metal frame; it is a wood frame.

Hannington he states as having three bells; there are only two. Abington is mentioned as having three bells not hung for ringing; they are hung for ringing with wheels, headstocks, stays and sliders, but at the moment have no ropes.

Piddington tenor is described as 13 cwt. Its weight given to me by Taylor's is 11 cwt. 1 qr. 6 lb. Whiston, also described as 13 cwt., is, according to Taylor's, 15 cwt. 4 lb., and a peal board in the belfry at the time Mr. Powell wrote his inventory gives this weight. Newnham tenor is stated to be 14½ cwt. and measuring 44in. Taylor's, who rehung these bells, give the weight of the tenor as 13 cwt. 1 lb. and 42½in. Ecton tenor is described as 41in. In the company of five others recently I measured it and made it 45½in.

Holcot is published as having four bells with a 5½ cwt. tenor measuring 31in. The bells are actually the first three of six with the fourth sounding the note of the tenor to six. The first three are chimed from levers and only the present fourth has a wheel. This is a 9½ cwt. bell; it is the third which measures 31in. and is 5½ cwt. So Mr. Powell has got that all wrong! A peculiarity in this tower is that the clock plays the Westminster chimes the same as it would on the second, third, fourth and seventh of eight. The hour is struck on the 4th. Rushden has the same chimes on six. Holcot is the only tower with four bells I know of like it. I dare say there are others, but, if so, they are very rare and they would have to be tuned the same as the four bells at Holcot. Besides the weights of tenors Mr. Powell has got the history of a number of bells wrong.

I can only assume that where Mr. Powell received no reply to his circular sent to all the towers, he copied the particulars given by the late Mr. North, which gives Alderton tenor as 15 cwt. and 44in. North's book, apart from being out of date, is full of errors, many of which I have proved. In some cases the diameter given has turned out to be the circumference round the waist, or taken over the bottom of the clapper and so on. P. AMOS.

Northampton.

THE CORS OF ALDBOURNE

Dear Sir,—In reply to Mr. Oliver E. Hill's letter, the Cor family held the Aldbourne foundry from 1694-1742 and there are bells by either Robert, William, Oliver or John in the counties of Gloucester, Wilts, Hants, Warwick, Berks, Oxford, but none in Somerset. Later proprietors of this foundry, the Wellses (1760-1826), extended the business, and their bells can still be found in Middlesex, Warwick, Somerset, Dorset and Glamorgan, as well as the counties covered by the Cors.

Mr. Hill is correct about the back six at Northleach, Glos., but I am doubtful about the tenor at Upper Slaughter.—Yours faithfully, E. G. CAPLE.

Clevedon, Somerset.

WOOLWICH, LONDON.—At St. Mary's on May 30th, 1,260 Grandsire Doubles: A. Grove, jun. (first quarter) 1, A. Grove 2, R. Johnson 3, T. H. Culver 4, B. W. Aldridge (cond.) 5, C. Dann 6.

Ringing at the C.C. Meeting

Dear Sir, — Your comprehensive article re the business of the last Central Council meeting has enabled those who were not present to learn what transpired at this successful meeting. But there are three things, as I see it, which contribute generally to the success of these meetings, namely, ringing, social and business. The latter was certainly a success, but what of the former? Can it be said that the ringing arrangements could not have been improved upon?

I felt extremely sorry for those newcomers, and those visiting London from long distances for the first time, who found such a mean opportunity for ringing in a city with an almost unlimited number of towers which I feel sure could have been had for the asking. I am not referring to the peal arrangements, but ordinary social ringing such as is generally enjoyed by visiting members, but which on this occasion was a sad disappointment to at least 90 per cent. of the delegates.

I wonder what went wrong? Did the London societies refuse to co-operate, or was it a case of, their members having rung on all the London bells, it did not occur to them that visitors to the Metropolis would like to hear and ring on London bells?

Was there anything else behind the mind of Mr. Frank Perrens when he suggested that meeting in London every three years be reconsidered? And was Mr. Smallwood pulling a punch in his impressions by omitting mention of ringing arrangements?—Yours sincerely, CECIL W. PIPE.

Grundisburgh, Suffolk.

RECORDING—LIST WANTED

Dear Sir,—From time to time one hears of recordings being made of bells in towers in various parts of the country, Lavenham and more recently Grundisburgh being examples, and no doubt there are others further afield. Would it be possible for 'The Ringing World' to compile a list with maker's name of these recordings, as I am sure there are a great many ringers who would like to obtain a record of their favourite towers.—Yours faithfully, J. T. CORDER.

[NOTE.—We shall be pleased to publish any such list.—EDITOR.]

OBITUARY

MR. C. BELSEY.

Mr. C. Belsey, who was captain of the Rainham band for over 30 years and a member of the Kent County Association for 50 years, died on June 6th. He was 82 years of age and until recently was rarely absent from the tower during ringing. A few weeks ago Mr. and Mrs. Belsey celebrated their diamond wedding. Mrs. Belsey, who survives, has been an hon. member of the Kent County Association for many years.

The funeral took place on June 10th at the Parish Church, the service being attended by the following members of the Kent County Association: W. J. Walker, T. Jull, Miss E. Walker, F. S. Macey, F. G. Southgate, G. A. Naylor and F. J. Cheal. Short touches of Grandsire Triples with the bells half-muffled were rung, those taking part in the ringing including his two sons, Mr. R. W. Belsey (Headcorn) and Mr. L. V. Belsey.

ODDFELLOW RINGERS

Oddfellow ringers attending the M.U. conference at Margate joined the local ringers at practice on Tuesday, rang at Birchington on Wednesday, Ramsgate on Thursday and Quex Park on Friday. Grandsire and Stedman Triples and Caters, Plain Bob Major and Royal, Kent Treble Bob Major and Double Norwich were attempted with varying degrees of success.

To all who contributed to their enjoyment they express their best thanks.

St. David's Guild

ARCHBISHOP AT ANNUAL MEETING.

Despite the fact that the churches in the Guild lie in the counties of Pembroke, Carmarthen and Cardigan and that the average distance between each tower with a ring of bells is 20 miles, there was a good attendance at the third annual meeting at St. Peter's, Carmarthen (8, tenor 20 cwt.), on June 12th.

The Archbishop of Wales presided over the business meeting and gave a short address at the service, conducted by the Rural Dean, Canon Pugh. Tea was provided by St. Peter's band.

At the business meeting His Grace presented a handsome shield to the Guild on behalf of an anonymous friend of his who wanted to do what he could to encourage ringing. The shield is to be won each year in a competition held in May. This year the winners were Carmarthen, which band gave the best performance of five at Llandovery, with Mr. F. Sharpe as adjudicator. Mr. A. Hoare received the shield on behalf of the Guild.

The hon. treasurer, Mr. Ed. J. Thomas, reported a balance in the general account of £18 to date, and £12 in the fund for bell and rope restoration grants. Membership stood at 111, of which 80 were ringers. Donations of one guinea each were voted to the J. W. Parker and the Swansea and Brecon War Memorial Funds.

Rule 5 was altered so that there shall now be probationary and full ringing members. The place of the next annual meeting will be St. David's Cathedral (mentioned in the Christmas Quiz—the bell tower 50 yards distant from the Cathedral), and the quarterly meeting will be held at Tenby in September.

Visitors from neighbouring guilds joined in ringing before and after the service, and methods ranged from 'rounds' to Cambridge Surprise.

SALISBURY DIOCESAN GUILD

DORCHESTER BRANCH.

The serious illness of a gentleman living close to the tower limited ringing at the branch meeting at Stratton. Later in the day opportunities to ring were provided at Bradford Peverell, Charminster, Frampton, Maiden Newton and Sydling.

Canon A. W. Markby (branch chairman) referred to the death of Mr. George R. Runyard, of Bradford Peverell, and members stood in silent respect to his memory. The Guild service was conducted by the Rev. A. F. Godley and tea was served in the Rectory garden.

WEST DORSET BRANCH.

Over 40 members and friends attended at Beaminster on June 5th, when the Vicar (the Rev. A. Wheeler) conducted the service.

The Rev. C. Carew Cox (branch chairman) presided at the business meeting. Deep sympathy was expressed to Mr. C. H. Lathey (hon. secretary) in his recent bereavement. A double-handed course of Grandsire Cinques (the first ever, it is claimed, in Dorset) was rung by the Lyme Regis members. Meetings arranged were Powerstock, September 4th, and Symondsbury, October 23rd.

OXFORD DIOCESAN GUILD

WITNEY AND WOODSTOCK BRANCH.

The presence of the Master (the Rev. C. E. Wigg), the Deputy Master (Capt. A. R. Poyntz) and the general secretary (Mr. W. Hibbert) at the branch annual meeting at Woodstock was encouraging. The annual report of the branch hon. secretary (Mr. H. C. Farmer) gave the membership as 145, compared with 138 in 1946. Branch officers were re-elected; Ducklington was selected for the autumn meeting and one life and 11 ringing members were elected. The sum of £1 1s. was voted to the J. W. Parker Memorial Fund. Canon H. Pickles, branch chairman, conducted the service.

Ladies' Guild at Acton

The annual meeting of the Central District of the Ladies' Guild, held at Acton on June 5th, was very successful, 26 members attending The service was conducted by the Rector, the Rev. Percival Gough, who gave the Guild a warm welcome on this their first visit.

Tea, at the kind invitation of the Rev. P. Gough, was held in the Rectory garden, over 40 members and friends being present.

At the business meeting the secretary reported steady progress during 1947, 15 new members being elected, making a total of 73 for the district. Meetings had been held at Beckenham, Gravesend and Isleworth, also joint meetings with the Middlesex Association at Hadley and the Surrey Association at Banstead. Six new members were elected: Mrs. Oatway (Croydon), Miss Daish (Camberwell), Miss Jean Gansirt (St. Albans), Miss Joyce Pett (Isleworth), Miss Sylvia Fidler and Mrs. Reed (Uxbridge).

Election of officers followed. Mrs. R. F. Deal was re-elected vice-president, Miss D. Lidbetter was elected secretary (in place of Mrs. Davis, who retired), Mrs. C. Matthews assistant secretary; committee as follows: Mrs. Mitchell, Mrs. Massey, Mrs. Collins and Mrs. Lock. Other business was disposed of and the meeting closed with a hearty vote of thanks to the Rector for his kind hospitality and to Mr. Lewis Cockey for making all necessary arrangements.

Ringing during the afternoon and evening consisted of methods up to London Surprise.

YORKSHIRE ASSOCIATION

NORTHERN DISTRICT.

To mark the completion of 50 years as a ringer at Thirsk Church by Mr. Jack Stott, the captain of the local band and Ringing Master of the Northern District, a meeting was held at Thirsk on May 29th. Jack received many congratulations during the day, and at the business meeting Mr. F. Tingle and Mr. H. Parrish, two of his oldest ringing friends, expressed the formal congratulations of the Association.

Later in the week Jack was presented with a silver-plated tankard by his fellow-ringers, the Bishop of Whitby making the presentation and referring to his loyal and devoted service.

Thirsk possesses a fine ring of eight with a tenor reputed to have come from Fountains Abbey at the Dissolution. The church is a fine example of the Perpendicular style of architecture and possesses a priest's lodging over the south porch.

BARNSLEY AND DISTRICT SOCIETY

The annual six-bell shield contest was held at Penistone on June 12th. The order of ringing and result were:—

	Faults	Penalties	Total
Meltham	162	10	172
Liversedge ...	55	10	65
New Mill	98	10	108
Silkstone	70	0	70
Shelley	56	15	71
Sandal	92	10	102
Friezland	41	5	46

Friezland were declared the winners. Mr. W. Barton (Pudsey) and Mr. Chant (Felkirk) were the judges. Silkstone and Liversedge rang Plain Bob, the others rang Oxford Treble Bob.

ESSEX ASSOCIATION

NORTHERN DISTRICT.

There was an attendance of 31 at the Northern District meeting at Stebbing. A letter was read from the District Master (Miss H. G. Snowdon) regretting her inability to attend as she was in hospital. The meeting sent their good wishes to her. Eleven new members were elected and Finchingfield was selected for the next meeting.

The Vicar (the Rev. F. Boylett) conducted the service and local ringers and their wives provided an excellent tea.

'SYMBOLS'

'SENTINELS of England' might well describe the church towers and steeples at our great ports. They are indeed a visible sign of man's aspiration after God and many a traveller has rejoiced to hear the bells telling the simple message in that unmistakable English fashion associated with change ringing. Of these great churches of our docks an honoured position was held by St. Mary's, Southampton. Its destruction during an air raid in November, 1940, was a calamity; it was left a ruin amid surrounding desolation.

This tower was one of many great losses to the country and also to the Exercise. Ringers throughout the country held St. Mary's in warm affection not on account of antiquity, as the original ring of eight cast by J. Taylor and Co. was only dedicated in 1914, just before the outbreak of the first world war, the tenor being 22 cwt. 1 qr. 7 lbs. in E flat. In 1934 two trebles were added, and the privilege of ringing a peal at St. Mary's was, in those days, highly treasured.

These bells have been restored and rededicated for the use of the church. The weight of the tenor is now 21½ cwt. in E flat, and the ringers present at the ceremony testified to the fine tone of the ring. The louvres have been bricked up nearly to the top, and this has made a marked difference to the volume of sound within the precincts of the tower. The ringing chamber has also been improved by an additional floor between bells and ringers. Of interest to ringers is the fact that the first step in the rebuilding of this church was the restoration of the bells. They are thus able to give 'a stirring symbol of recovery begun,' to use the words of the Bishop of Winchester read at the service.

In the big rebuilding programme before both the Church and the State, the same vision as Southampton has displayed is needed. The placing of bells in the honoured position of 'symbols of recovery' ought well be followed in other centres where circumstances permit. But there must be men and women to sound the symbols. While St. Mary's, Southampton, bells have been silent for eight years, the art has been kept alive at St. Michael's, where keen and progressive ringers have regularly assembled. London, with its big programme ahead, needs its St. Michaels. There is much spade work needed in the Metropolis in the training of bands. The harvest indeed is great but . . .

MRS. E. K. FLETCHER.

EDITOR: T. W. WHITE.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

SUBSCRIPTION REMINDER.

Quarterly subscribers are reminded that remittances should be sent without delay to Mrs. E. K. Fletcher, The White House, Caister-on-Sea, Norfolk.

BELFRY GOSSIP

'The Ringing World' is in the happy position to announce that a limited number of new subscribers can be taken through the post and also by newsagents. Where newsagents have difficulty in securing copies they should write direct to our publishers, the Rolls House Publishing Co., Ltd., Rolls House, Breams Buildings, London, E.C.4, giving the name of their wholesaler.

Quarter-peals on handbells are not usually published.

A limited number of back numbers of most issues in 1947 and 1948 are available on application, post free 4d.

Mr. and Mrs. C. W. Pipe rang their 100th peal together at Southwark Cathedral on June 5th.

If Mr. Kinch, of Letchworth. Herts, will write to Mr. W. Copperwheat, 16. Beech Hill, Raunds, giving a legible address. he will receive a reply to his letter.

A letter from Christchurch, New Zealand, Bellringers' Society expresses regret at the death of Mr. George Swann, and through 'The Ringing World' they desire to express their deepest sympathy with relatives and friends.

A stained glass window has been dedicated at Eastrington, Yorks, to the memory of two local ringers who lost their lives in the late war –1st Officer Palmer Powls, M.M., U.S.A., and A.B. Cyril Powls, R.N. A commemorative peal is recorded in this issue.

A golden wedding quarter of Bob Minor was rung at Standon, Herts, on June 5th, to Mr. Arthur Dennis, who for 30 years was a regular ringer at this tower. He came from Silverton, Devon, and enquires whether ringing still takes place in his old tower. Ringers were R. Smith (first quarter) 1, W. Smith 2, T. Chapman 3, R. Stacey 4, S. Smith 5, H. Groom (conductor, first of Minor) 6.

Birmingham ringers have been specialising in lantern talks. In one week Mr. J. F. Harvey, Mr. G. E. Fearn and Mr. A. Walker gave talks and had a team with them to give handbell demonstrations. The enquiries that followed Mr. Fearn's talk at Lapworth suggests that local people will do something to improve their bells.

The Chester Guild band that rang Yorkshire Surprise Royal at Macclesfield scored their peal without previous practice.

Mr. Robert J. Lawrence, of Bratton, Wilts, sails for Ontario, Canada, in July. He rang his farewell peal at Bratton, where he learnt to ring under the tuition of Mr. W. J. Chapman, of Wyke Regis.

By arrangement with Mr. E. C. Shepherd, remaining copies of the pamphlet, 'Double Norwich Court Bob Caters,' are being sold (1s. net) with Central Council publications. Apply Mr. W. H. J. Hooton, Osmington School, Tring.

The good wishes of many friends are extended to Mr. P. A. Corby and his party of about 20 ringers in their Devon tour, which starts to-morrow. Buckfastleigh is to be the headquarters. The week is to be devoted to peal attempts in Surprise methods.

Owing to advancing years, Mr. J. Good, who has been steeplekeeper at Rickmansworth for about 50 years, is retiring shortly. Mr. F. W. Elliott, of 48, Talbot Road, Rickmansworth, invites those who have been associated with this tower for meetings or peals to join the local band in a testimonial to Mr. Good.

The wedding of Miss L. H. Aldridge, daughter of Mr. B. W. Aldridge, many years towerkeeper at Woolwich, was performed on June 12th by the Bishop of Croydon, a friend of the family, sometime Rector of Woolwich and lately Provost of Southwark. A peal of Yorkshire Surprise Major was rung at Woolwich immediately following the service.

DEDICATION OF BELLS IN RUINED CHURCH.

I witnessed from the belfry window the dedication ceremony of the first ring of bells in this country to be restored after being brought down by enemy action. It was the first stage in the restoration of the burnt out Church of St. Mary, Southampton, when the ten bells, recast by John Taylor and Co., were dedicated by the Assistant Bishop of Winchester, the Right Rev. Bishop Lang, in the presence of Bishop Lovatt, who was Rector when the original ring was installed in 1914.

The service was preceded by a procession of clergy, choir, ringers and other church workers, headed by the children from the Sunday Schools, marching from the deanery to the church. Then there was the moving sight of the crowds filling to capacity the great ruined church, and in the chancel the robed clergy and mixed choirs, the Southampton Police Band, the Bishop standing in front of the damaged stone altar, the crowds outside the church, exceeding the number inside, listening to the service through loud speakers.

After the hymn, 'O God, our help in ages past,' the Rector, Canon Spencer Leeson, read a message from the Bishop of the Diocese, Dr. Mervyn Haigh, who, after regretting his absence through duties in connection with the Lambeth Conference, congratulated all concerned on the completion of the first stage in the restoration. He wrote, 'The sound of St. Mary's bells will indeed be a stirring symbol of recovery begun and will seem like a herald of yet fuller recovery to be.'

'Many dangers still menace us. But the sound of St. Mary's bells ringing over the old town will assuredly quicken pulses and strengthen the resolve of the men and women of Southampton. If the bells draw more of us to lift up our hearts in thanksgiving and prayer to God and to join in public worship, then, come what may, we shall be given more of that faith which triumphs over difficulty and makes the worst things material for the shaping of the best.'

Bishop Lang, in his address, said it was a memorable occasion for all of them, and an occasion of thanksgiving throughout the diocese. For the first time in eight years the bells were to ring out across the town and over Southampton Water. The bells would sound out a message of hope and love, and they would all feel the strengthening of their spirits.

After the closing hymn, 'Praise, my soul, the King of Heaven,' the Bishop dedicated the bells and pronounced the Blessing. And then, what has been described as 'a tremendous climax to a memorable service,' the eight years' silence was broken by the ringing of rounds by the local band, 'echoing through the hushed ruins and crashing away into the sunshine over Southampton.' And what a thrill to see those hundreds of faces all upturned towards the belfry.

The Rector told the company of 80 ringers and friends at tea, when he thanked the local captain, Mr. J. W. Faithfull, for his untiring efforts, 'It is a great day.' Only those who have known of the eagerness that has been generated and the obstacles surmounted before the completion of the work can fully realise the significance of those remarks, 'It is a great day.' GLOUCESTER AND BRISTOL ASSN.

At the Gloucester Branch meeting, held at Brockworth on June 12th, Mr. W. H. Harris, who had been branch secretary for 25 years up to December, 1947, was presented with a fountain pen and a cheque. This was to mark the members' appreciation of so long a period of service. The presentation was made by Mr. S. Romans, a past Master and vice-president of the Association, who referred to Mr. Harris' good services to the branch. Mr. Harris suitably responded and thanked members for their gesture.

LETTERS TO THE EDITOR

SUPERLATIVE DETHRONED

Dear Sir,—Before rushing into print with detestable puns and elephantine facetiæ, which certainly are no compliment to the intelligence of your readers, your correspondents should have read the article they set out to answer. I am not in search for any alternative to Superlative; on the contrary, I pointed out the impossibility of even considering an alternative name for the method.

Moreover, I am by no means the first to comment on its dethronement. There was a remark to that effect by the late J. A. Trollope in your columns about the end of 1939 which passed unnoticed by the champions of the method, and I have heard a number of ringers in the very first flight deprecate what is virtually a seven-pull dodge occurring four times in every course. I remember well, in the first peal I ever rang in the method, being disconcerted by another defect — the incongruous combinations of bells in the long dodges —particularly 4-5, which to my ear is a highly unmelodious association, and it is an unavoidable one. Even in the plain course the incomparable 6-4 music of the second lead is at once followed by 6-7's — another unfortunate dodging combination, and in the third lead the 6-7's are linked to 5-7's as well.

The peal analysis says much more than any individual ringer can about the relegation of superlative. Not alone were there more than twice as many peals of Cambridge as Superlative rung in 1946—the method only barely maintained second place among Major Surprises, and it looks as if in the 1947 analysis Yorkshire will be promoted at the expense of the former queen.

Superlative is deservedly a favourite method among ringers, and one that we all enjoy ringing, but it acquired its reputation—it is not too much to say it was venerated—in days when there were only Cambridge and London to compare it with. The advent of many more competitors has ousted it from the commanding position it once held, and, however we may deplore that fact, it is indisputable.—Yours faithfully, A. J. CORRIGAN.

Bitton, near Bristol.

RINGING AT COUNCIL MEETING

Dear Sir,—I read with interest in a recent 'Ringing World' Cecil W. Pipe's letter, and I would respectfully remind him that there is not unlimited opportunities for ringing in London owing to damage by enemy action.

How much truth there is in Cecil W. Pipe's assertions I have no knowledge, but I do know that those members of the Central Council who were good enough to 'look in' at St. Mary Magdalene's, Holloway, for Sunday service ringing and again on the following Tuesday evening for practice were most cordially welcome, and if and when they are in London again we shall be very pleased to see them.—Yours faithfully, R. NEWMAN.

Holloway, N.17.

WINCHESTER & PORTSMOUTH GUILD

WINCHESTER DISTRICT.

Three ringers made the journey from Leatherhead to attend the Winchester District meeting at Ropley on June 19th. There was a small attendance.

The Rev. P. Were, who conducted the service, presided at the business meeting, at which Mr. J. A. C. King agreed to continue as long as possible as secretary and then to hand over the office to district representatives.

Messrs. A. A. S. Russel, R. Matthews and R. Guy (Tichborne) were elected members, and Barton Stacey was selected for the next meeting on September 11th. Members were invited to the dedication of Tichborne bells on the following evening.

Visitors to Devon may be interested to know that practices at Exeter Cathedral are fixed for the third Saturday in the month at 6 to 8 p.m.

THE CORS OF ALDBOURNE

Dear Sir,—In reply to Mr. O. E. Hill regarding the above founders, I am unable to trace many bells during the period the Cors operated the Aldbourne foundry (1696-1713). The 2nd at Bromham, Wilts, was cast by William and Robert Cor in 1706, and the treble at Rowde in the same county is also by these joint founders in the same year. At Barton Stacey, Hants, there remain four bells out of an old ring of five all dated 1725, which came from these little known founders. Regarding handbells the position is different, for these pass into various hands without any records being taken. WILLIAM SHEPHERD.

Addlestone, Surrey.

HAMPSHIRE RECORDS

Dear Sir,—With reference to a correspondent's query re Cor, of Aldbourne, this founder is known in this area and four of his bells can be found at Barton Stacey, Hants, in 2, 4, 5 and 6, which bear the inscriptions as follows:—

2. Cor of Aldbourne, 1725.
3. N. C. Wingworth gave five guineas. Cor of Aldbourne, 1725.
5. Martin Wright, Esquire, gave ten guineas. Cor of Aldbourne, 1725.
6. Nicholas Elliott and John Edwards, C.W.O. Cor, 1725.

The earliest known bell in Hampshire from this foundry is dated 1693. Cor was apparently succeeded by R. Wells, also of Aldbourne, whose bells are dated around 1800. Hungerford, Berks (3-8) has six by this founder dated 1816.

A still earlier founder whose bells appear in Hampshire and is apparently unknown leaves only his initials, 'R.B.' The 4th at Bishopstoke, dated 1589, and the 4th at Bosham, Sussex, dated 1572, are examples of his craft. Can we have some light on him, please? Another early founder is also found at Hursley, Hants, 6 and 7, dated 1616, bearing initials only 'I.W.,' and again at Owslebury, Hants, 5th, 1622, and 6th, 1619, again identity hidden behind initials. JOHN A. HILL.

Andover, Hants.

A NEW SURREY SIX

A new ring of six (tenor 10 cwt. 3 qr. 5 lb. in A flat) was dedicated at Send on June 16th by Bishop C. H. Golding-Bird. The three original bells (two Richard Phelps 1711 and the tenor Thomas Mears 1803) were recast and three more added, giving total weight of 39 cwt. 12 lb. They have been rehung with new fittings and framework by Messrs. Gillett and Johnston, Ltd., and a chiming apparatus added. The total cost of the scheme was £1,050. The bells are a thankoffering for victory and to the memory of those who died in the wars of 1914-1918 and 1939-1945. The second bell is inscribed 'In memory of F/O Robert Philip Dixon, R.A.F., killed whilst flying near Silloth, Cumberland, 13th Nov., 1943.'

The opening touch on the bells was rung by C. E. Smith, A. E. Harman, A. C. Hazelden, G. L. Grover, W. Loader and A. Walker. Ringers from a wide radius attended the service and favourably commented on the bells. Mr. B. Newson represented the foundry.

NORWICH DIOCESAN ASSOCIATION

EAST NORFOLK BRANCH.

Five-bell tower members much appreciated the meeting at Reedham on June 12th, when 35 members were present. Mr. G. W. Fletcher (chairman) presided at the business meeting, supported by the Rev. J. St. Heard (president), the Rev. A. G. G. Thurlow (general secretary) and Mr. J. Harwood (branch secretary).

Mr. Albert Bradshaw and Mr. George Foster, of Halvergate, were made members of the Association. The service was conducted by the Rev. J. Idris Jones, and tea was served on the lawn of the Rectory, arrangements being made by the Rector and Mr. F. Burgess.

The next meeting will be at Norton Subcourse on September 4th.

Outings

NORWICH DIOCESAN ASSOCIATION'S TOUR.

Last year's most successful experiment of arranging a long-distance outing was repeated on June 5th with great success.

Leaving Mancroft at 7.30 a.m., and avoiding the usual cats, dogs and cyclists, good time was made as far as Cambridge, where there was a short wait due to a minor breakdown. St. Neots was reached a little behind time, and Double Norwich Bob Major enjoyed on this fine eight (tenor 30 cwt.).

Then to Eaton Socon, whose church, burnt in 1930, was magnificently restored with the gifts and goodwill of many people in 1932. A delightful eight here, tenor 14 cwt., recast by Taylor, 1932. The next tower was Cardington, with a fine eight, tenor 21 cwt., also a memorial vividly recalling the R101 disaster of October 5th, 1930, when 49 lost their lives. With the bells ringing, the organ playing and a girl rubbing a fine brass in the chancel, one felt the church was being well used.

At St. Albans some rang Grandsire Caters at St. Peter's and others attended a beautifully sung Evensong at the Cathedral. After a good tea at the Waterend Barn Restaurant came a long climb to the ringing chamber at the Cathedral. This might be described in Frank Smythe's mountaineering language thus: 'First we negotiated a high and gradually narrowing chimney, then after a disappointing traverse to a dead end, we discovered another traverse higher up. After a fairly easy run along a narrow ledge, a considerably narrower chimney eventually brought us to a short ledge where lay Camp Five, our objective.' Beams in the ringing chamber added to the fun of picking out the ropes.

Later there was ringing at Hatfield (fine 10, tenor 23¼ cwt.) and All Saints', Hertford (another good 10, tenor 26 cwt.) and Bengeo (8, tenor 7¼ cwt.). We arrived home at 2 a.m. tired, but extremely grateful to Nolan Golden, our organiser, and to the various kind friends en route. A.G.G.T.

ST. MARY'S, EALING.

St. Peter's, St. Albans (where an hour's ringing was much enjoyed), St. Mary's, Woburn, All Saints', Leighton Buzzard, and North Church, Berkhamsted, were included in the itinerary of Ealing St. Mary's outing, which proved a great success.

ELY VISIT SUFFOLK.

Ely ringers for their outing visited the following Suffolk towers: Clare, Long Melford, Sudbury (for lunch and ringing at St. Gregory's and All Saints'), Lavenham, Horringer and Mildenhall. Methods up to Cambridge were very much enjoyed.

STREATHAM AND MITCHAM.

The third combined annual pilgrimage of St. Leonard's, Streatham, and Christ Church, Mitcham, was through Berkshire, Oxfordshire and Bucks on June 12th. Stops were made at Henley, Abingdon, Oxford, Thame and Amersham for ringing and meals. Six old members and their wives joined the party. Regret was expressed that Mr. E. Bish, who is on a bed of sickness, and his wife were unable to make the journey.

FELPHAM, SUSSEX.

Ringers from several towers in Sussex joined the Felpham ringers in what is hoped was the first of many outings.

After some indifferent Grandsire and Bob Minor at West Grinstead, the party was completed at Horsham by Messrs. Sippetts, Stilwell and Woods, and a marked improvement resulted in ringing at Dorking, Ewell and Shere, where all grades of ringers were well looked after by Peter Wood.

A pleasant supper party at Shere capped the day, and reluctantly the party turned homewards, but not before the organiser, Miss E. Lonnen, was thanked for arranging such an enjoyable outing.

Surprise Handbook

No advanced or progressive ringer can afford to be without '370 Surprise Major Methods,' collected by Andrew J. Corrigan. Nothing like it has been previously published and it is a model of compactness and careful planning.

Some 240 of the names of methods in the Table of Surprise Major Methods are those in the collection prepared in 1935 for the Methods Committee of the Central Council by the late Mr. J. A. Trollope and Mr. E. C. S. Turner.

Interest in this work has been very wide, and Mr. Corrigan acknowledges contributions to the present series from Messrs. E. A. Barnett, H. G. Cashmore, Nolan Golden, F. C. W. Knight, Ernest Morris, A. J. Pitman, G. E. Plater, E. W. Tipler, W. W. Wolstencroft and G. F. Woodhouse.

The problem of alternative names had to be faced and a decision made. The lead given in the book in regard to nomenclature could with advantage be adopted. Mr. Corrigan has used the second name of each pair as his choice in his table: Albion—Acton; Bellthorpe—Thorpe; Burton—Brighton; Horsham—Ealing; Emerald—Double Dublin; Ewell—Shoreham; Gloucestershire—New Gloucester; Leek—Adelaide; Lune—Bolton; Marden—Boston; Moorside—Essex; Norbury—Sandringham; Ruby—Radnor; Stoke Poges—Clevedon; Victoria—Southall; Wicken—Huntingdon.

NORTHAMPTONSHIRE BELLS

With reference to the letter from Mr. P. Amos in the last issue of 'The Ringing World,' and in fairness to the late Rev. E. S. Powell's 'Inventory of Bells for the Diocese of Peterborough,' the following facts should be given:—

There were then 372 rings of bells in the two counties of Northampton and Rutland, and a circular asking for particulars was sent to each of the incumbents concerned. Approximately half the forms were returned filled in (accurately or otherwise), and for the remaining half Mr. Powell was dependent on branch secretaries involved and on personal investigation. Failing all these Mr. Powell referred for the information to North's 'Church Bells of Northampton and Rutland.'

An enormous amount of patience, time and trouble went into the production of this pamphlet, and it is safe to say that where the Rev. Powell made investigations personally they were always most carefully and accurately recorded.

The Editor does not propose to enter into any further correspondence on this question of the weights of bells in the Diocese of Peterborough. The Rev. Powell's contributions to the advancement of the art of ringing earned for him the respect and affection of a wide circle of friends, and only those associated with publications know of the innumerable difficulties connected with inventories of this description.

BRAMPTON VISITED.

Brampton, one of the isolated towers of the Cumberland and North Westmorland Association, entertained recently ringers from Shotley Bridge and district, members of the Western Branch of the Newcastle and Durham Association. The occasion was noteworthy in that it was the first effort of Brampton ringers to entertain outside towers and also the first extended ring on the bells (6) since they were hung in the late 1800's. Contact with the outside world being established, we hope soon to report a visit to Shotley Bridge. The Rev. G. W. Chetwynd was responsible for the invitation.

ST. MARGARET'S, IPSWICH.

A party of 37 on June 5th, ringing at Great Waltham, Felstead, Dunmow (musical quality of bells beyond praise and also a good lunch), Hatfield Broad Oak, Harlow Common (also tea), Harlow St. Mary the Virgin and Writtle. All agreed that the outing had been outstanding in the history of St. Margaret's excursions.

26-Year-old Correction

RECORD LENGTH OF STEDMAN CATERS

On April 22nd, 1922, a record length of Stedman Caters was rung at Appleton, for the Oxford Diocesan Guild and the Ancient Society of College Youths, conducted by Mr. H. Langdon. The composition was published in 'The Ringing World,' May 5th, page 281, but unfortunately an error was made in printing. The figures as published at this date were also repeated in Morris' 'History and Art of Change Ringing.'

In the interests of accuracy the peal is now republished with the error rectified. All those in possession of the figures as published are asked to amend the error, which occurred in the turning course (2), a bob at 5 being omitted.

OBITUARY

MR. J. HOLLOWAY.

Winchester and Portsmouth Diocesan Guild, and particularly the North-West Hants area, has suffered a severe loss by the death at the early age of 40 of Mr. James Holloway.

'Jim' to all who made his acquaintance was not a peal ringer; his total was only two or three, but he was an efficient change ringer in half a dozen standard methods. He was a regular attendant and spent a large proportion of his ringing career in the instruction of recruits.

A member of the Andover band since 1940, his passing is a severe blow to that tower. His memory will, however, be perpetuated by his constant gibe to the gossips who were not keen to leave the tower at the conclusion of practice, 'Come on, you chaps, you're losing valuable drinking time.' J.A.H.

MR. H. STENTON.

A ringer at South Anston Church, near Sheffield, for upwards of 70 years, Mr. H. Stenton, died on July 11th. As a token of respect, on the day following the interment, a quarter-peal of Yorkshire Surprise Major was rung with the bells half-muffled by Mrs. L. Turley 1, J. H. Brothwell 2, W. H. Taylor 3, J. G. Brothwell 4, A. Hill 5, H. O. Chaddock 6, J. L. Gilbert (cond.) 7, J. E. Turley 8.

BALAAM

ONE of those classic ringing stories was reported in the London 'Evening News' as emanating from All Saints', Benhilton, Surrey. Mr. E. Gosden, the captain of the band, narrates: 'Recently, while we were ringing, a father made the 100 ft. climb to the belfry to protest at the noise. He was so interested, however, how changes were rung, that his indignation vanished and we parted the best of friends.'

Mr. Gosden, with his 30 years' experience as a bell-ringer spent in different parts of the country, avers that complaints about church bells being a nuisance usually comes from only a small minority. Most folk, he is sure, like to hear the bells.

The publicity given in the 'Evening News' has not escaped the attention of other ringers. Mr. George Gilbert of Burnham, writes to the Editor: 'I think we ought to congratulate Mr. Gosden. It does our cause a deal of good, and I would suggest to anyone who has an opportunity to make the most of it in educating the layman via the press.'

The Rev. A. G. G. Thurlow, in his book 'Church bells and Ringers of Norwich,' aptly sums up the situation when he states that the average person's knowledge of change ringing is vague. Almost Gilbertian is his interpretation of this common knowledge, which he describes: 'Immense feats of strength in ringing bells of some enormous weight for many hours, of drunken orgies after a peal, of terribly complicated mathematical formulæ connected with producing the changes, of the spirit akin to Freemasonry which enables ringers to find friends all over the country, of the element of wild romance involved in climbing a long dark staircase at midnight to ring in the New Year, or at dawn to welcome Easter morning.' Each topic could be expanded into a chapter and put in its true perspective in relation to our art.

This educating of the lay public should not be treated as a haphazard affair. Every Guild or Association should have its band of lecturers and writers ready to explain the mysteries of ringing. Last week we recorded the good work undertaken by St. Martin's Guild in this respect. We have lecturers capable of holding the interest of the learned societies and also a number of popular lecturers. Irritation develops when ringing appears to be meaningless. Once it is understood, like Balaam of the earliest days, there will be blessings from those who came to curse.
