Quite a number of his 1914-15 pupils are still ringing in Surrey, and he much enjoys seeing the names of friends old and new, in various pages of the 'R.W.'. He would like to be remembered to two of his very old ringing friends, Herbert Langdon and Thomas H. Taffender. Just recently, he has been compiling data regarding the Eldridge family of bellfounders, and information about the old 5th bell at Chertsey, the 'Abbey' bell. This is for the Urban Council records for future reference. He has been happily married for nearly 46 years, and Mrs. Shepherd rang in quite a number of towers, and also proved a good tune ringer on the trebles.

In the eve of a long ringing career, Bill Shepherd's main interest now is in literary work and in reading about his old friends in the 'R.W.'. APACE

JASPER WHITFIELD SNOWDON COMMEMORATION DINNER

THE 29th annual commemoration dinner to the memory of Jasper Whitfield Snowdon and past officers of the Yorkshire Association was held at Bradford on October 14th, when a complement of 134 members and friends assembled to pay tribute. The arrangements for the occasion were undertaken by the Bradford Cathedral ringers, who were warmly complimented on the hospitality and entertainment provided.

Under the mellowing influence of good food, wines and fellowship, conversation flowed pleasantly and easily. Only one thing remained to complete the evening—brilliant speeches from those on the toast list. We were not disappointed. Supporting the president (Archdeacon C. O. Ellison) on the top table were: Mr. and Mrs. E. A. Barnett, Miss Jean Barnett, the Rev. D. R. Brown, Mr. and Mrs. N. Chaddock, Mr. and Mrs. J. Frank Smallwood, Mr. John Freeman, the Rev. R. D. St. John Smith (president of the Lancashire Association), Mr. W. Barton, Mrs. P. Robshaw, Mr. G. Benfield, Mr. and Mrs. V. Bottomley and Mr. L. W. G. Morris. The president, who gave a lead in friendliness, preceded his welcome to the guests with apologies from his wife and the Provost of Bradford, the Very Rev. J. G. Tarks.

The Rev. Roger D. St. John Smith submitted the toast of 'The late Jasper Whitfield Snowdon and past officers of the Yorkshire Association.' It was not a new venture, he said, to cross the border from the County Palatine to the county of broad acres, and especially to Bradford during his courting days. To himself it was always a pleasure to renew acquaintance with Yorkshire and Yorkshire people, as his wife was a Yorkshire woman, and as he himself was a Derbyshire man, perhaps the colour of the roses was not of the same significance as it was to the counties concerned.

Jasper Snowdon was a pioneer in text books on ringing. His writings in the Snowdon series were unrivalled. From them stemmed a great advance in method ringing and composition, whereas his treatise on proof—hitherto a mystery to most ringers—still remained a monumental work. He was a contemporary of such men as Haywood, Wilde and Annable, and no doubt his works had a great influence on other eminent composers who followed, such as Hattersley, Craven and Knights.

This was not all, however. Snowdon was also a great historian, as was shown in his published researches in the fields of Grandsire, Stedman and Treble Bob in particular. Without doubt his works and researches had dominantly influenced the past, and would continue to be an inspiration to the present and future generations. The toast was duly honoured and, as is customary, was immediately followed by an excellent course of Grandsire Caters on handbells, rung by F. Hodgson 1-2, W. Barton 3-4, W. F. Moreton 5-6, L. W. G. Morris 7-8, J. Ambler 9-10.

GREETINGS

Mr. Vernon Bottomley was entrusted with the toast 'The Visitors and Kindred Ringing Societies,' which he submitted in a felicitous speech. The clerical visitors duly honoured were the Rev. R. D. St. John Smith and the Rev. D. R. Brown. They were, he said, also honoured to have with them Mr. and Mrs. E. A. Barnett, Mr. and Mrs. W. H. Dobbie (Kent), Mr. John Freeman (Lincoln) and Mr. and Mrs. J. Frank Smallwood, from (at any rate the time being) Darley Dale. 'Teddy' and Mrs. Barnett needed no introduction, having become frequent visitors to that gathering, and whom they sincerely hoped to welcome on many more future occasions. It was also a great pleasure to welcome, for the

first time, Mr. John Freeman, whose services to the Exercise and the Lincoln Diocesan Guild in particular were well known and appreciated.

Once again they were honoured by the presence of Mr. and Mrs. Smallwood, who had graced the Snowdon dinner many times in the past. To Frank he would say 'thank you' for his yeoman service as convener of 'The Ringing World' Committee—an office he had filled with skill and distinction. He had, however, one criticism to make—he did not like to see it set-up at 'backstroke' and failed to see any useful purpose in its changed format.

Mr. Smallwood, in his reply, said both his wife and himself always derived great pleasure in attending the dinner, an 'annual' they looked forward to. With regard to the 'set-up' of 'The Ringing World' in its present form, he was quite impartial, but as yet it was too early to make an assessment of their readers' reactions. In due course these would be taken into account by his committee.

CONTINUED PROSPERITY

In submitting the toast 'The Continued Prosperity of the Yorkshire Association,' Mr. John Freeman said he sometimes questioned the sincerity in some of them. The Yorkshire Association, however, had been well and faithfully served by a continuity of distinguished officers, all of whom had devoted their skill, energy and time in furthering its interests. Among those he personally remembered was Percy J. Johnson, whose trenchant criticism of indifferent striking was well known—especially to those on the receiving end. At the slightest deviation in the 'beat' he would bellow out 'Take the wrinkles out of it.' There were also Clement Glenn, former general secretary and ace conductor of Grandsire and Stedman; S. F. Palmer, a former treasurer; William Barton, whose knowledge of compositions in all methods was immense, and who had proved every composition rung by the Association from its inception up to his retirement as peal secretary some years ago; Mr. W. E. Critchley, who had succeeded Mr. Barton in that office, and had produced many popular compositions in new Surprise methods, as well as the 53 Spliced Surprise Major composition, at present the record; Mr. Norman Chaddock, whose efforts to explore ways and means of fully manning towers for Sunday service ringing were widely known; and spanning three decades was their present general secretary, that great little man, Mr. Leslie Morris, and at the head of affairs their genial president. The Yorkshire Association had indeed been fortunate to have the services of such men, to mention only a few, which augured well for its continued prosperity.

Finally, the thanks of all were due to the Provost of Bradford, the Vicar of Holy Trinity Church, Idle, and the Vicar of Ilkley, for the use of their bells, also to all who had contributed in any way to the success of the gathering.

THE COMPANY

The Ven. C. O. Ellison, Rev. R. D. St. John Smith, Rev. D. R. Brown.

Mr. and Mrs. Baldwin, E. A. Barnett, P. Birkett, V. Bottomley, G. C. Briggs, N. Chaddock, G. Chesswas, W. H. Dobbie, F. Hartley, F. Hodgson, H. Kelly, H. Lawn, A. E. Marsh, P. Massam, W. F. Moreton, R. E. Moulds, H. B. Schofield, J. F. Smallwood, C. F. Sutcliffe and A. Smith.

Mesdames P. Robshaw and M. Burns.
The Misses J. Barnett, Baitson, S. Chaddock, M. V. Copping, F. Fairbank, A. Flather, C. Fox, P. Hardwick, R. M. Jowett, V. Massam, D. M. Killingley, S. Mudd, E. Osborne, P. Reeve, A. Reynolds, B. G. Schofield, A. M. Skidmore, S. Smith, L. Thompson, V. Watts, M. E. Wilkinson.

Messrs. J. Ambler, S. Armeson, C. Ashworth, W. Barton, G. Benfield, A. W. Bond, W. Bradbury, G. F. Bryant, J. F. Bryant, J. N. D. Chaddock, J. Chettleburgh, J. W. Clay, A. Cole, J. Cooper, W. Cooper, W. H. Crawshaw, T. Crossley, H. Davison, N. Donovan, H. Dempster, F. Dempster, W. Dixon, L. Drake, J. Hy. Fielden, J. Freeman, J. W. Gibson, P. Gill, J. J. L. Gilbert, G. Goodall, E. J. Gower, T. Hill, L. Greenhorn, E. Hindle, E. Hudson, B. Jones, P. Kirkby, S. Longbottom, P. M. Lumley, R. J. Lumley, M. Maskill, J. Millhouse, L. W. G. Morris, F. A. Munday, D. Nichols, R. Pagdin, E. I. Parkin, J. N. Parkin, M. Phipps, R. W. Pipe, R. E. Price, C. Reeves, D. Rhodes, S. B. Schofield, P. Schofield, J. Seager, N. Smith, B. Sullivan, A. Tomlinson, H. Walker, A. C. Walsh, A. P. Whitehead, P. Whittaker, A. Weir, H. Wild and F. Wilkinson.

OBITUARY

MR. W. H. SENIOR

We regret to record the death on October 17th of Mr. W. H. Senior, of 54, Halifax Road, Staincliffe, Batley, Yorks. He was 78 years of age.

Mr. Senior was a very well known ringer in the heavy woollen district and was a ringer at Batley, Earlsheaton and Liversedge. He was also very active in contests and peal ringing for a great number of years.

MR. W. HOAD

On October 13th the death occurred of Mr. William Hoad, a ringer at Salehurst, Sussex, for 55 years. He farmed the land near the church tower and was captain of the ringers for many years. He had several peals to his credit, mostly at his own tower, and could conduct Grandsire, Plain Bob and Stedman, but he will be best remembered for his service to Salehurst tower.

He was buried on the following Tuesday. The same evening the local band rang the bells half-muffled to his memory. The following week a band of Kent and Sussex men rang a fine half-muffled peal of Grandsire Triples, during which most of the local band, including Mr. Hoad's brother and nephews, walked round the village listening.

THE REV. J. KINGDON, M.A.

His many friends in the Chester Diocese and much further afield will learn with great regret of the death of the Rev. John Kingdon, which took place recently in hospital after a short illness. He was 74.

His younger days were spent in the mission field in India, from which he returned to this country for a brief period in 1923 as Precentor of Coventry Cathedral. He saw further service in India before accepting the living of Bollington, Cheshire, where he became interested in ringing, and it was during his ten years' ministry there that the bells were restored.

In 1947 he came to Chester as Rector of St. Mary-on-the-Hill, and was shortly afterwards elected secretary of the Chester Diocesan Guild, an office which he held with distinction for 11 years. Mr. Kingdon was often to be seen at Branch meetings, on Saturday afternoons, where his unassuming manner and kindly disposition made him a welcomed visitor. He retired in September, 1958, and took up residence in Storrington, Sussex. The members of the Chester Diocesan Guild will join with his many friends in the diocese in expressing very real sympathy with his widow and family. J. W. C.

LETTERS TO THE EDITOR

RINGERS AND CHURCH WORKERS

Dear Sir.—It may be that the ringers at Usk (Mon) are all non-church attenders, in which case the Rev. D. G. Brunning has every opportunity, by personal contact, assuming they live in the parish, to show them the error of their ways. But I do wish he would refrain from his sarcastic insinuations which, although typical of his contributions to the columns of 'The Ringing World,' are unworthy by their uncharitableness and inaccuracy of his great calling.

Of course there are ringers who are not churchmen, but the great majority of ringers these days certainly are. I would remind your readers that it is but a year or two since a young man who was due to become Master of the College Youths had to decline the honour because he was training for the priesthood, and at this moment a former Master of the Cumberlands is in training for Holy Orders at Rochester Theological College.

Your correspondent should be present at the Corporate Communion of the Central Council on Whit Tuesday—perhaps he will have the opportunity at Cardiff next year. He will find there a representative body of men and women of differing traditions within the church, who by their demeanour are by no means strangers observing a convention.

One has watched with pleasure through the columns of 'The Ringing World' the activities of a young man who a year or two ago moved from one Northamptonshire town to another. His name seems still to pop up all over the place, but one gathers he is already a churchwarden at the town he has moved to, and there is frequent evidence in 'The Ringing World' of the growing ringing activity at this church. There are all these and many, many more.

The omission of ringers from lists of churchwardens is most unfortunate and all too frequent. I strongly support your correspondent who raised the matter in your columns.—Yours faithfully,

P. A. CORBY.

Sevenoaks, Kent.

NO COMPARISON

Dear Sir.—The Rev. D. G. Brunning says (page 720), 'One never hears of "singers" leaving the church as soon as their part of the service is over.' I have never heard of these 'singers' beginning a half to three quarters of a hour before a service, like ringers do. There is this difference between them.—Sincerely yours,

H. HODGSON (Mrs.).

Chesham, Bucks.

RINGERS AND YORK MINSTER ENTHRONEMENT

Dear Sir.—Reference to Rev. D. G. Brunning's letter on page 720, I was at a service in a West Country Cathedral recently when, at the end of Evensong, the choir retired, leaving the congregation to sing two hymns and listen to a splendid address by the Diocesan Bishop. Surely this is not an isolated case.

The implications by the reverend gentleman in his letter may be true in certain districts, but thanks to the influence of our worthy Associations, and more clergy taking an interest (often active) in the affairs of the tower, in my opinion ringers in the majority attend at least one service each Sunday, and usually choose the most important, that of Holy Communion. Many ringers also sing in the choir of their church, are members of the P.C.C. and take an active part in many other church activities.

Certainly I do not think that the point raised by Mr. Brunning had any bearing on the particular omission in this service.—Yours sincerely,

H. A. PRICE

(Lay Reader and Tower Captain).

Eagle House, Yatton, Somerset.

CHURCH OFFICIALS AS RINGERS

Dear Sir.—I had intended to write this letter before reading that written by the Rev. D. G. Brunning, which appeared in 'The Ringing World' for October 27th.

On Sunday, October 29th, in this parish we have started the second part of our Christian Stewardship Campaign. This entails daily readings from the Bible continuously for one year. All of our ringers are active members of the church and we rang prior to Said Mass on that day a quarter peal to mark the occasion and to welcome the celebrant—the Bishop of St. Albans.

This was 1,320 Plain Bob Doubles: R. Wilkie (server) 1, D. Hibbert (member of the Youth Fellowship) 2, D. Bartholomew (server and chorister) 3, H. Bradbury (server) 4, M. Hatchett (cond., server and visitor in Stewardship Campaign) 5, J. Hibbert (chorister) 6.

Only too often do we hear of ringers not being active Christians—is this their fault only? When inquiries are made it usually turns out that the priest-in-charge never visits the ringing chamber and sometimes doesn't even know the names of the ringers in his church.

If the ringers at Usk don't attend church regularly, might I suggest that their priest not only visits the tower regularly, but offers regular prayers on their behalf: ours does and it's surprising what a difference it makes.—Yours sincerely,

MICHAEL HATCHETT.

Rickmansworth, Herts.

P.S.—This quarter peal was also rung to mark the christening of the third son of the ringer of the 4th.—M.H.

RIGHT PLACE SURPRISE METHODS

Dear Sir.—Some months ago a letter of mine appeared in your columns dealing with a proposal to publish Mr. S. Burton's collection of Right Place Surprise Methods. Owing to a change in circumstances I no longer have the facilities necessary for the production of this work, and thus shall not be able to publish it as originally planned.

To all those people who wrote to me reserving copies, I must tender my sincere apologies for any inconvenience caused, and to those who enclosed a subscription for the first copy, assure them it will be returned within a few days.—Yours faithfully,

W. BUTLER.

Thattham, Berks.

THE QUARTER PEAL AT HILLINGDON

Dear Sir.—It was pleasing to know that Mr. and Mrs. R. A. Fardon had renewed their interest in ringing after nearly 30 years' absence, and my memory goes back to December 16th, 1925, when a peal of Kent Major was rung at Acton. Ringing next to me was a young teenage ringer, Miss Ruby Hawksworth, on the 3rd, and Mr. Fardon rang the 4th, a birthday compliment to him. These two became man and wife, and were missed soon after their marriage, therefore it is nice to see their names in print again.

Mr. G. R. Fardon (father) was a prominent London ringer and we were ringing peals together back in 1902.—Yours sincerely,

WM. SHEPHERD.

Addlestone, Surrey.

LADIES' RECORDS

Dear Sir.—I trust that Miss Muriel Reay will forgive me for pointing out that she does not hold the record for the number of peals rung on tower bells by a lady, as stated by 'Apace' in his interesting review of her excellent ringing career. The total given was 570.

The total of peals rung by the late Mrs. Phyllis Poole was 677; of this number 672 were rung on tower bells.—Yours faithfully,

HARRY BROUGHTON.

Leicester.

6/5's AT BACKSTROKE

Dear Sir.—Whilst I have no strong views on 6/5's at backstroke in Minor ringing I have had some experience in producing rather a novel musical effect.

As most of our experienced peal ringers know, when rounds are likely to come up in peals in an embarrassing place due to either a change course or miscall, the technique is for the tenor man to pull in his bell to prevent this. Having used this system on several occasions (I find when calling Minor methods that the calls come rather quickly, which can be confusing to a conductor even of my calibre), I find that sometimes 6/5's are produced at backstroke. These never struck me as being unpleasant, particularly in view of the urgency of the situation.

On rare occasions, however, I have managed to clash the tenor exactly with the 5th. This produces the rather novel musical effect I mentioned in my first sentence. It reminds me of the 1812 Overture by Tchaikovsky, in the part where you get lots of bells ringing rounds and then a cannon fires. Of course, some people don't like shots.

Most people deplore 8/7's at backstroke in Major ringing, but I think it's not nearly as bad as 6/5 in Doubles at backstroke, and indeed they are rather odd at handstroke.

It doesn't really matter in Minimus or even Maximus, because no one can tell the difference anyway whatever you ring, but I'm inclined to agree with Derek P. Jones.

Of course, this is only my opinion, but I do ring regularly for Sunday service.—Yours, etc.,

G. HAYALLS.

Derby.

Dear Sir.—We are all, I feel sure, greatly obliged to Mr. Pargeter for explaining so carefully that 6/5's at the backstroke are of no moment unless open leads are employed. This, I believe, has been remarked on before. Of course, the tenor coursing 'the wrong way' looks awkward on tower bells and feels awkward on handbells, but I submit that if Mr. Pargeter approaches the subject with his mind (and ears) in the same condition as his leads, he will discover much of interest in 6/5's at backstroke.

In this matter, as in all others, we should be progressive, but I assure Mr. P. that I have never used a preposition to end a sentence with!—Yours sincerely,

H. CHANT.

Ryhill, Wakefield.

THE LATE PREB. E. V. COX'S HANDBELLS

Dear Sir.—The handbells advertised for sale in last week's issue were the property of the late Preb. E. V. Cox, who was president of the Guild of Devonshire Ringers from 1933 until his death on May 30th, 1961. He bequeathed them to the Guild, to be sold for the benefit of the Guild instruction fund.

The Guild General Committee has decided that, in view of his great services to ringing throughout the county, a memorial fund should be raised, and it is proposed to divide the fund between the provision of something tangible in Exeter Cathedral belfry and a trophy to be awarded annually to the most progressive tower in union with the Guild. To this end it is hoped that towers will subscribe at least 1s. per member. Contributions should be sent via Branch secretaries to the general treasurer, Mr. H. W. Milford, 490, Crownhill Road, Higher Street, Budeaux, Plymouth.—Yours, etc.,

E. M. ATKINS,
Gen. Sec., Devon Guild.

Golden wedding congratulations to Mr. and Mrs. A. E. Jarman, of Ramsgate, whose 50th anniversary was announced by a quarter of Grandire Triples at St. Lawrence's Church. For 52 years he rang at this church and in the later years he was captain. Then ill-health put a stop to his ringing.

Fifty Years of Ringing in the Island

A UNIQUE gathering took place at Godshill, Isle of Wight, on October 28th to honour two members of the local company who had completed 50 years as ringers at this tower. They were Charles Denness and Clive Callaway. Also honoured was Sidney Moody, of Whippingham, on completing 50 years, who had done most of his ringing at Newport Parish Church.

Charles Denness is the captain of the band, having followed his father in that office in 1934, when the bells were rehung. His grandfather was also captain, thus providing a family sequence spanning nearly a century.

Charles ('Chum' as he is known to his friends) not only taught many to ring, but had the satisfaction of seeing the local band progress until, immediately after the last war, they were probably the best ringing team on the island. In 1935, to mark the silver jubilee of King George V, he conducted the first peal on the bells by a local band. With the same ringers in 1953 he conducted another peal for the Coronation of Queen Elizabeth II.

Clive Callaway, while not achieving notoriety as a conductor, has always been and is an excellent exponent of our art. A good teacher, he is ever ready to give what help he can to the many youthful visitors to the tower. Clive also serves the church in other capacities, but like 'Chum' is very modest concerning his activities. His brother, Albert Callaway, was for many years a ringer at Newport Parish Church after he had learned to ring in Godshill tower.

The celebrations commenced with ringing in the tower, ringers from Freshwater and Ventnor joining in with the local band.

OUTINGS

MARLOW, BUCKS

In the same little red bus, driven by one of the party, Marlow ringers set off at 7.45 a.m. on October 21st for their fourth annual outing.

The nice six at Theale and the light eight at Aldermaston were the first bells encountered. A longer run brought us to East Garston, where Walter Avery, of Lane End, the only visitor, scored his 400th tower. He had, however, to work for it—the bells, with 17 cwt. tenor, were on plain bearings and had not been oiled for a long time.

Two very good towers followed—Lambourne (8) and Ashbury (6), but the noise in the ringing chamber at Bishopstone (8) put most of the company off form. Ringing was delayed at Wanborough, because of a funeral. On the light eight at Stratton St. Margaret, with the aid of the Vicar and tower captain, we achieved a course of Double Norwich.

Some really good ringing took place at Highworth (8), and then came the first break of the day—high tea at a local hotel, kindly arranged for us by the Vicar of Highworth. The evening's ringing was at Shrivenhams, an odd-struck eight, where the fifth had to be pulled under the fourth at backstroke in rounds, and on the fine-toned 8 at Faringdon, where several local ringers joined in. Home was reached at 10.30 p.m. To all who helped to make the day a great success our sincere thanks. R. E. D.

LICHFIELD CATHEDRAL

The Beresford family joined us for our outing to Cambridge on June 17th. En route, an hour's ringing was enjoyed on the Gillett and Johnston ring at Kettering.

At Cambridge, Plain Bob Maximus and Stedman Cinques were rung at Great St. Mary's Church. Contrasts were provided by the 10 cwt. eight at St. Andrew's and the six at St. Benedict's (13 cwt.). After tea the eight at the Roman Catholic Church, despite the draught, was excellent in tone and go.

On the homeward journey ringing took place at Godmanchester and Brampton (an anti-clockwise five). A further hour was spent at Brampton with refreshments. The singing in the coach was led by one of the young ladies of Lichfield and was very special. Local ringers and incumbents are thanked for their co-operation. 'KLEEWAY.'

Following the ringing, the Vicar (Rev. H. O. Masson) conducted a service in the church. To the first hymn the following verses, composed by the Vicar, were sung:

Our church bells at Godshill at Festivals say,
'Come all ye good people and cast care away,
For He who made sunshine and blossom and May,
Be certain rejoices in hearts that are gay.'

Our fathers before us were men of goodwill
And heaven lay close to the church on the hill.
They built it for worship of Christ, King of Peace,
And peals from its bells here we know will not cease.

Two men of our band we would honour today,
Our captain, 'Chum' Denness, and Clive Callaway,
'Tis fifty years now since they started to ring,
So we have great pleasure their praises to sing.

The lesson was read by Rev. Mr. Collet, a ringer, who is curate at Freshwater. During a short address the Vicar paid tribute to the work of the two local men, both as ringers and churchmen. The singing during the service was accompanied on the organ by Mr. E. Taylor.

After the service the company went to the Village Hall, where they were joined by more ringers and friends to enjoy a sumptuous meal upon tables decorated with golden chrysanthemums. An iced cake made for the occasion by Mrs. E. Wyatt included a lead of Bob Minor among the decorations. The company drank the health of the three men after short speeches, by Mr. L. Bailey and Dr. J. B. Williamson.

Mr. L. Bailey was M.C. for the social that followed, during which Mr. H. Eldridge, of Niton, gave a monologue in dialect, and Mrs. Russell, of Whitwell, played for dancing and games on the piano. L. B.

Three Guilds at Hillingdon

A VERY enjoyable joint meeting between the Ladies' Guild, Middlesex Association and East Berks and South Bucks Branch of Oxford Diocesan Guild was held at Hillingdon on October 21st. This year is the 50th anniversary of the ten bells at Hillingdon.

Early in the afternoon ringing was conducted, on the eight at Iver, by Mr. Howard Oglesby, Deputy Ringing Master of the Oxford Branch, and later at St. John's, Hillingdon, by the Middlesex Master, Mr. John Mayne.

The service, which was conducted by Rev. F. C. Tyler, Vicar of Hillingdon, was attended by Lady Craig, daughter of the donor of the ten bells, the churchwardens of Hillingdon and representatives of the parish organisations. Canon C. E. Wigg, Master of Oxford Guild, and Rev. E. Perkins, chairman of the East Berks and South Bucks Branch, read the lessons. The anthem, 'Rejoice in the Lord Alway,' was beautifully sung by the Hillingdon choir.

A very stirring address was given by the Bishop of Kensington, who used as his text 'Their sound shall go out into all lands.' Church bells, he said, proclaimed the word of God. Bellingring was an ancient craft, a service to the church and a task dedicated to God.

The Bishop commented how fitting it was that Lady Craig should be present that day. The bells were dedicated fifty years ago by a Bishop of Kensington, before he left the diocese, and now he too would be leaving before long. (Bishop Eastaugh has been appointed Bishop of Peterborough.) The Bishop mentioned the great fellowship and devotion of ringers as they called people to church. They taught learners so that they might join the fellowship of an art which has no limits.

50 Years Ago

'R.W.' November 10th, 1911.— FIRST DOUBLE-HANDED HANDBELL PEAL

On Wednesday evening, October 30th, 1811, was rung a peal of eight handbells at the house of Mr. William Booth, Bailey Lane, Sheffield, a complete peal of Oxford Treble Bob Major. 5,088 changes, 2 hours and 34 minutes, by the following artists, viz.: Treble & 2 William Hudson, 3 & 4 William Booth, 5 & 6 Henry Grayson, 7 & tenor George Hudson. The conductor of this peal Mr. George Hudson.

The above is copied from an old manuscript book originally the property of Mr. William Booth, and now in the possession of his grandson, Mr. C. H. Hattersley. This was the first handbell peal ever rung with bells retained in hand. In order to carry out the similitude of the original performance, as far as possible, inquiries were made with a view to the centenary peal being attempted within the same four walls, but owing to the house being turned into a business concern this was found to be impracticable. Mr. C. H. Hattersley therefore invited the band to ring at his residence, and it may be interesting to note that the grandfather clock which timed the original peal is in Mr. Hattersley's possession, and was utilised for the same purpose on the present occasion.

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

Personal.—Oxford Guild 15s., Marlow Ringers' Outing 5s., St. Christopher's Society 10s.

Peals.—Bournemouth 5s., Bedworth 4s., Longparish 5s., Nuneaton 4s., Netherton 4s., Flookburgh 3s., Elmore 3s., Enfield 4s., Thakeham 2s. 6d.

Quarter Peals.—Great Tew 2s. 6d., Chisledon 3s., Puckington 1s. 6d., Wolstanton 4s., Glaston 2s. 6d., Oxted 1s., Bentley Common 2s. 6d., Sible Hedingham 5s., Honiton 3s., Sunbury-on-Thames 3s., Gloucester 5s., Benigo 2s. 6d., North Weald 3s., Hutton 2s. 6d., Barming 3s. 6d., Baughurst 7s. 6d., Twerton 2s., Probosc 5s., Southampton 1s. 6d., Coventry 3s., Bushey Heath 7s. 6d., Painswick 4s., Edinburgh 10s., Canterbury 3s.

After an inspiring service, about 120 people were invited to tea, which had been prepared by Mrs. Honor and the ladies of Hillingdon. Rev. F. C. Tyler welcomed Lady Craig, the Bishop and all ringers to Hillingdon.

Canon Wigg said how proud he was to be present. The choir, he said, were wonderful and it was certainly one of the best ringers' services which he had attended. On behalf of the Oxford Guild he thanked the Middlesex Association for the invitation and hoped that they would all turn up at Slough on February 24th, for the return meeting.

Mr. Fowles replied for the Middlesex Association. Mrs. Lock said the Ladies' Guild were delighted to be invited every year and hoped they would be asked again.

Apologies had been received, Mr. F. W. Goodfellow said, from Rev. G. E. Taylor (president of the Middlesex Association), Mr. F. Sharpe (Deputy Master, O.D.G.) and Miss M. R. Cross (secretary, O.D.G.), Mr. T. W. White (editor of 'The Ringing World'), and Mr. and Mrs. Webb, of Heston. All sent their best wishes.

Mr. J. Mayne thanked all concerned for the arrangements, especially friends of Hillingdon ringers, who provided such an excellent tea. He said that these meetings help a great deal to widen friendship of ringers. Ringing then continued until 7.30 p.m., when the social commenced. This, which was arranged by Mr. W. Birmingham and Mrs. Lock, was enjoyed by all. Middlesex retained the cup for the cricket match, but during the evening Oxford had their revenge by winning another team game. This very friendly meeting ended with refreshments, and the next day Mr. Goodfellow visited Mr. Webb, who is in hospital, and reports that he is making very good progress.

Warsop's Cup Winning Team

Under the excellent leadership of Herbert T. Rooke, cup winning has become quite a habit of the Warsop band, and they have carried all before them in this year's contest, winning no less than three.

Since 1949 they have won the Southwell Guild's Crawford Cup every year, with the exception of 1954 and 1956. They have also won the Sheffield and District contest five times since 1953. This year's successes were in the Sheffield, Southwell and Shelley contests.

There must be something in the Warsop air that helps to produce such remarkably good strikers, and it will have to be a very good team indeed that will beat the Warsop company on their present form.

JAFUS.

Standing: F. Cooke, F. Flint (vice-captain), M. Foster, G. Challans. Seated: D. H. Rooke, H. T. Rooke (captain), James T. Rooke.

EDITOR: T. W. WHITE.

With a peal in 40 Surprise Minor methods at Sisted, Essex, Mr. Howard W. Egglestone and his band have created a record by ringing the most Surprise Minor methods yet rung to a peal. He writes that possibly this peal might get some of our composers interested in the problem of getting all the regular Surprise Minor methods into 5,040 changes.

The Bristol ringing festival made a Third Programme feature on November 1st.

Veterans of the Exercise will congratulate Major J. Howard Freeborn, of Oxford, on ringing his 200th peal.

Mr. Brian Cox, of Adelaide, rang two peals at Loughborough, on October 24th and 26th: one his first of Stedman Triples and the other his first of Major.

'Jafus' was incorrect in stating that our old friend Rev. Canon C. C. Cox was 80 plus. He will be 80 on January 26th next. Apologies to Canon Cox, and thanks to Mr. J. T. Barrett for drawing attention to the error.

Wallingford Grammar School has joined the list of schools that have rung peals. The band, who rang a peal at Goring, had an average age of 14½. The conductor, G. Mellhone, was ringing his first peal at the age of 14 years.

Only one Association seems to have remembered the 230th anniversary of the first peal of Stedman Triples, rung at St. Peter Mancroft, Norwich. This was the Durham and Newcastle Association, who on October 25th rang a peal of Stedman Triples at Gateshead.

The Bristol Evening Post of October 25th had a special article about the first peal rung at St. Helen's Church, Lundy Island, on August 23rd, 1905. In this peal of Stedman Triples were the Rev. H. A. Cockey, C. H. Tomkins, C. H. Gordon, R. J. Wilkins, W. A. Cave, P. Game, Rev. F. E. Robinson and Rev. C. F. Coleridge. A picture of the peal band is published and this was supplied by Miss Eileen Heaven, of Portishead, a great-niece of the Rev. H. G. Heaven, who built the church and was styled the 'King of Lundy.'

BELFRY GOSSIP

Longparish, Hampshire, can claim to have a peal ringing band. Five of the local ringers stood in a peal at their church, which was the first for four of them. The only outsider was Mr. G. K. Dodd, who has done much to promote ringing in this part of Hampshire.

Mr. R. B. Smith, of Marple, Cheshire, who is at college at Loughborough, rang his 100th peal this year, on October 26th.

Whilst a quarter peal at Sunbury-on-Thames was being rung to mark their wedding anniversary, Mr. and Mrs. Johnson (and daughter) were sitting in the belfry watching the efforts. Although non-ringers, they are vigorous church workers and plead the ringers' cause through the Church Council. Their son Andrew rang the tenor bell.

Mr. Raymond P. Wood, who conducted the peal of Stedman Doubles at Thakeham on October 28th, was very impressed by the ringing of the local band. The peal marked the retirement of Canon H. T. Mogridge as Rector of Thakeham. For many years the Canon has been a vice-president of the Sussex Association and his continued interest in its welfare is much appreciated.

The Hon. Barbara Gibbs, a member of the band at Hunsdon, Herts, was decorated with the O.B.E. by Her Majesty the Queen at an Investiture held at Buckingham Palace last week. Accompanying Miss Gibbs on this memorable occasion were Miss E. Chitty (tower secretary at Hunsdon and sixty-one years a chorister) and Mrs. T. J. Lock (vice-president of the Ladies' Guild).

Nine disconsolate ringers gathered outside St. Andrew's Church, Roker, on October 28th for an attempt of Cambridge Royal. Their plight was brought to the notice of Ian Booth, a Sunderland student, whose home tower is St. Mary's, Cottingham, Yorks, and he offered to ring the treble. A good peal was rung and the band afterwards were surprised to learn that this was only Ian's second peal, his first being Royal at St. Mary's, Beverley.

Sec. 9210

MORE BELFRY GOSSIP

Five schools were represented at a half-term meeting at Sibley, Leics, on October 27th, arranged by Mr. Michael White. All but two of the ringers were of school age. The Vicar, Rev. R. Hunton, is thanked for his encouraging support, and also the Sibley ringers for their hospitality.

Mr. and Mrs. H. N. Tembey, of Cleator Moor, wish to thank the ringers who took part in the peals which were rung in honour of their ruby wedding anniversary. Special thanks to the Vicars of Wallington and Cleator Moor, for the use of the bells, and to Richard Castledine and Leslie Boumpfrey, for arranging and conducting the respective peals.

The peal at Gariboldisham, reported on page 743, was specially arranged for the genial Master of St. Peter Mancroft ringers, Mr. A. G. Bason, to enable him to return to the village, where he was born and where he was taught to handle a bell. It was his first peal on the bells. Opportunity was taken to meet some old friends before returning to Norwich.

Miss Susan King, with two other members of St. Mary's, Ewell, branch of the Girls' Friendly Society, has made history for the organisation in the South of England, by being the first to win a bronze badge under the Duke of Edinburgh's award scheme for girls. The badge calls for initiative, perseverance, genuine effort and individual progress. For this purpose, Susan has concentrated on bellringing at St. Mary's, Ewell, and has obviously made satisfactory progress during the year!

LEEDS & DISTRICT SOCIETY

Once again the Society had the privilege of holding a meeting at the Church of All Saints, Otley. The fine toned bells were put to good use and some fine striking was favourably commented upon by passers-by. Methods ranging from Bob Major to Cambridge Surprise were rung.

The Society welcomed Mr. and Mrs. Martin Thorley, who paid a surprise visit on their way to York.

Mr. Percy Whitaker welcomed the Society to the Church and rendered an apology on behalf of the Rev. Patrick Ashe, who was engaged in preparing for his television appearance the next day.

A minute's silence was observed in memory of Mr. W. Senior, of Batley, who had passed away a few days previously. He was a past president of the Leeds and District Society.

Next meeting, Ossett on November 25th.

BATH AND WELLS ASSOCIATION

Seventeen towers were represented at the Cary Branch meeting at Batcombe on October 28th, when the Rector (Bishop F. M. E. Jackson), assisted by Rev. G. Robinson (Branch chairman), conducted the service. At the business meeting, which followed tea, two new members from Ditchat were elected.

CITY OF BRISTOL FESTIVAL OF RINGING, 1961

THE second City of Bristol Festival of Ringing, held on October 28th, attracted well over a hundred ringers to the many towers open during the day. The Bristol ringers themselves were joined by parties from many areas as far apart as Suffolk, Surrey, Hereford and London and from Liverpool and Southampton Universities.

The festival, organised by Messrs. A. V. Bennett (Master of the Gloucester and Bristol Association and secretary of the Bristol City Branch), F. E. Hansford (chairman of the City Branch), P. M. J. Gray, E. F. Hancock and R. Bowden (Ringing Master of the City Branch) and Mrs. R. Bowden and Miss Barbara Johnson, acting as a committee, had as its objects the projection of ringing into the public eye, the advertisement of the outstanding virtues of Bristol as a ringing centre and the fostering of relationships between ringers and the clergy.

The first of these three aspects the writer considers most important and in the event it was indeed well covered. Quite apart from the more obvious fact that there were bells ringing at some 20 towers all over Bristol at various times during the day there was television coverage, a public lecture and, as a most interesting and valuable feature, a close contact with the city authorities at a civic luncheon. A T.V. film interview was broadcast after the week-end by Mr. Hansford, and a 'sound' radio broadcast was included in the Network III, 'Christian Outlook,' from Mr. Bennett.

The civic luncheon was held at the Berkeley Restaurant. The following special guests and a company of rather more than a hundred persons attended: the Deputy Lord Mayor of Bristol (Ald. Jenkins) and the Deputy Lady Mayoress, the Chancellor of the Diocese, the Dean (the Very Rev. D. E. W. Harrison) and Mrs. Harrison, the Archdeacon of Bristol (the Ven. R. G. Reddick), the Chief Constable (Mr. Norman Frost), the president of the Central Council (Mr. Frederick Sharpe) and the Master of the Ancient Society of College Youths (Mr. Michael Moreton). The luncheon chairman, Mr. Frank Hansford, introduced the special guests and at the appropriate juncture brief speeches were made by the Deputy Lord Mayor, the Dean and the Chief Constable, who welcomed the assembled company on behalf of the city and diocese. The speakers mentioned their personal appreciation of the sound of bells and indicated encouragingly their view that church bells were a significant and an all but indispensable part of the English scene.

There was ringing during the day from 9.30 a.m. to 7.30 p.m. Seven rings of six, nine rings of eight, three of ten and one of twelve were open. Particularly enjoyable ringing was had at the Cathedral (8) and at St. Mary Redcliffe (12, 50 cwt.) (those jewels of this fine city) by many, and at the Lord Mayor's Chapel (6) by a privileged few. There was Evensong at the

Cathedral, at which the Dean preached. At 5.30 Mr. F. Sharpe addressed a large audience in the Museum Lecture Theatre on Campanology, in its very many aspects. This was a most interesting lecture, illustrated by a series of lantern slides; it was a fund of information on a multitude of subjects: the history of bells, methods of casting and tuning them and of hanging them in a tower, ways of ringing them and many other topics such as founders' marks were described in great detail. A large number of photographs was on display after the lecture and three small bells of a few pounds weight each were exhibited, one being mounted in headstock and frame, an exact model replica of a tower bell rung by the age-old English method of rope and wheel.

The day concluded with a very convivial gathering in the Senior Common Room at the University Refectory. A highlight of this occasion was an exhibition of handbell tune ringing, most competently given by Mr. E. F. Hancock and his two daughters.

The festival was undoubtedly a success and the organising committee are to be congratulated. The writer, an overseas visitor to this country, has been suitably impressed, if not almost overwhelmed, by the claims of Bristol to be a significant feature of the Exercise. As mentioned by Mr. Philip Gray in a recent issue of 'The Ringing World' (page 702), there are more rings of bells within a four mile radius of the city centre than there are in Scotland or in the entire Australian continent, for example. The city of Bristol need hardly be proved to the itinerant British ringer, let alone an Australian one, as a thoroughly profitable place for repeated ringing outings, if not permanent residence.

One or two further remarks. Public interest, so well stimulated on this occasion, might be aroused still further at a future festival by the publication in a daily newspaper, on the day itself, of a suitable article with photographs. This has been tried at least once on a similar occasion in Adelaide, with significant results. Some touches of Triples and Major were too long; short touches of Triples and half courses of Surprise Major should perhaps have been made the rule in view of the large numbers of persons attending the festival.

Another point—there was a large number of young ringers present, obviously thoroughly enjoying getting a ring on strange and exciting bells and benefiting from the experience. Perhaps in a future festival, to enhance the value of the day still further, another feature could be provided particularly for the benefit and enjoyment of these newer members of the Exercise in the form of an exhibition of exemplary handling and perfect striking by a chosen team. Maybe some centrally placed eight bell tower could be reserved for about an hour for this purpose only, the performers to provide five or six touches of ten minutes duration each, in a variety of methods, both Triples and Major. The writer feels that the educative value of an item of this nature would not be lost on today's keen young ringers.

It is hoped that the Bristol festival will become a regular event. It was undoubtedly of great value this year to many, and if repeated in the future should become a powerful factor in forwarding the progress of all aspects of ringing in this country.

C. H. B.

PERSONALITIES OF THE EXERCISE—46

MR. HENRY J. SANGER,

Bath and Wells Diocesan Association.

Many ringers who have rung on the very fine ten at Evercreech, Somerset, or have heard the recorded broadcast every Sunday at 8.55 a.m. on the Light Programme will know the enthusiastic and painstaking captain of the local band, Mr. Henry J. Sanger. It was through his efforts over a number of years that the old eight bells were eventually recast, and two generous donors found to provide two new trebles. Quite rightly Evercreech people are very proud of the result, which was made possible by his initial and continued perseverance.

Harry Sanger was born in the parish of Kilmersden, near Midsomer Norton, Somerset, on December 18th, 1909, and after one or two moves round the county eventually went to live at Evercreech in 1916, where he attended the local C. of E. School until he was 14. He was recruited to the belfry on March 19th, 1922, and was taught to ring by the very enthusiastic ringing verger of the day, William Osment. During the following year he came under the influence of Joseph T. Dyke, who started visiting the tower fairly regularly on practice nights, and helped the local band to ring Grandsire. The result was that Harry and William Osment rang their first peal on October 15th, 1924, conducted by Walter Farley. The method was Grandsire Triples, Harry ringing the treble, and on December 3rd of the same year he rang his first peal 'inside' in the same method, with William Osment conducting his first peal. With the exception of two more peals of Grandsire Triples in 1925 and 1927, Harry did no more peal ringing until 1931.

FORMATION OF 'WEDNESDAY' BAND

The year 1931 was an important one for Harry, because two events rekindled his enthusiasm. Firstly, after acquiring his first motor-cycle in 1929, he joined up with William C. Shute, and started Minor ringing, and secondly, as the result of a 'get-together' at Ditchat for the benefit of the late Frank Skidmore, the well known 'Wednesday' band was born in July of that year. The idea was for a band of enthusiasts to meet at a different tower each Wednesday for practice and peals. Joe Dyke agreed to join as instructor and conductor, and Harry took on the job of secretary. This was the beginning of what later became a band which set the hall-mark of immaculate striking in the diocese. Under the guiding hand of J. T. D., they rang peals in many methods, including the only peal of London rung by a band resident in the county. This at Evercreech on January 23rd, 1935, was the first in the method for all the band, except the conductor. In 1933, a 'Monday' band was started to concentrate on Minor ringing, again with Joe Dyke as conductor and Harry as secretary. By November 18th, 1935, they had rung many peals up to 12 Surprise Minor methods.

In April, 1932, Harry called his first peal—Grandsire Doubles at Milton Clevedon—and followed this by calling Grandsire Triples at St. John's, Glastonbury, the same year. In all he has rung 144 peals, and conducted 13, and they have included some very interesting performances. Naturally he looks back with great pleasure to the many peals he rang with Joe Dyke, and in 31 of them Harry, Ron Beck and Joe Dyke rang the back three, in that order, and enjoyed some splendid ringing together. He is proud to have had the privilege of taking part in the first peals of Surprise on the heaviest rings of six and eight. These were Cambridge and Seven Surprise Minor at Queen Camel, and Cambridge Major at Sherborne Abbey, all with Joe Dyke on the tenor. He also took part in a peal of New Cambridge Royal at Wells Cathedral in 1949, when Alan Pink rang the tenor single-handed—the first time for Surprise Royal—and made a splendid job of it. Incidentally, he believes he was the first West Countryman to 'turn-in' this tenor for a quarter peal. This he accomplished in 1954, with Bob Royal, and he also called his first peal of Caters on these bells.

He regards his most perfect peal as one of Double Norwich, his favourite method, rung at Ditchat on May 18th, 1935, in 3 hours and

4 minutes—immaculate ringing throughout. In more recent times, he will always remember a peal of Stedman Triples at Llanfeigan, Brecon, on August 2nd, 1957, during one of David Hoare's tours. The church has a lovely setting, and the bells and ringing were first class. Harry rang his first peal of Stedman Cinques at St. Mary Redcliffe on December 31st, 1935, and his first peal of Major as conductor was Cambridge at Corston on October 31st, 1936, called from a working bell. He is a loyal member of the A.S.C.Y., and has rung nine peals for the Society, including Stedman Cinques at St. Martin's, Birmingham, on December 27th, 1937. He well remembers his first visit to St. Paul's Cathedral, when he took part in the usual three courses of Stedman Cinques on Whit Sunday, 1948, on the occasion of the last visit of the Central Council to London.

Harry has had long service as an officer of his Association. Since 1930 he has been Ringing Master of the Cary Deanery Branch, a Central Council representative since 1945, and peal secretary from 1953-61. He relinquished this office to take over the job of Tower and Belfries Adviser, and if time and opportunity allows he hopes to complete a catalogue of the church bells of Somerset, on the lines of Ellacombe. Since 1939 he has been captain of St. Peter's, Evercreech, and has always tried to maintain a regular Sunday service band, with a good quantity of young ringers.

CONNECTIONS WITH BROADCASTING

One of Harry's most important jobs is as convener of the Television and Broadcasting Committee, which post he has held since it was formed in 1954. He has worked in close co-operation with the late Preb. Martin Willson, of the B.B.C. Religious Broadcasting Department, since 1951, when Evercreech bells and ringers were featured in the 'Tower and Steeple' series. In 1952, Martin Willson was responsible for arranging the recording of Evercreech bells for the regular Sunday morning broadcast, and Harry, with the assistance of Joe Dyke, gathered together a good band of experienced ringers to make the required recording on 6, 8 and 10 bells. Martin Willson suggested that the bells should be rung at a fairly slow pace, so that the general public could more easily appreciate the changing of the bells. Harry assisted Martin Willson in arranging many ringing broadcasts from the West Region, and in 1953 he trained a band of young people to appear in a televised broadcast from Kingston Seymour. Martin Willson was a splendid person to work with, and he did a great deal for the improvement of the presentation of ringing by the B.B.C. His recent death was a great loss, and Harry had

(Continued foot of next column)

DORSET RINGING FESTIVAL

Once again, ringers converged upon Blandford Forum, and this year some 60 of them, to honour the wishes of the late Samuel Francis Pond. This former citizen of Blandford provided in his will for an annual ringing event for all Dorset ringers, as well as for the curfew to be rung in Blandford every evening.

Under Mr. William C. Shute's spirited direction ringing commenced on the dot of 3 o'clock, with hardly a pause until the time for the service at 4.30 p.m. At the service, conducted by the Rector (Canon H. G. Goodall), the address was given by the Rev. Roger Keeley (assistant curate at West Harnham, Salisbury), and the lesson read by Canon C. Carew Cox, president of the Diocesan Guild. The Rev. R. N. Longridge, honorary secretary of the North Dorset Branch of the Guild, also took part.

The Mayor of Blandford, Alderman J. Carter, presided at the tea, which followed in the Corn Exchange, and welcomed the company, remarking on the number of young people present, a hopeful sign for the future of ringing.

It was not long before the bells were sounding again and everybody had a ring of some sort, from rounds to Kent Major. We usually manage to leave some token of our visit; last year a brace of broken stays; this time the tenor man was left with the rope's end in his hand, while the sally danced a fearful jig at its master's pleasure. A hurried splice, however, restored law and order and the lovely eight came down in good order at the appointed hour.

Another Blandford over. Many more to come we hope. R. N. L.

FOR COMPOSERS OF BELL MUSIC

The Potomac English Handbell Ringers offer an award of \$50 for a new, original composition for handbells alone, limited to not more than three octaves in range—C to C (from C below Middle C to two octaves above).

Entries must be marked by a nom de plume, with full name and address enclosed in a sealed envelope.

Send entries, not later than April 1st, 1962, to: The Potomac English Handbell Ringers, 9,051, River View Road, S.E., Washington 22, D.C.

The winning entry will be premiered in Washington in 1962.

AN APPEAL FROM KENT

The small, widely-scattered agricultural parish of SS. Peter and Paul, Ash-by-Wrotham, is desperately striving to raise £2,500 to restore completely the bells. Experts advise that the bells will be unsafe to ring in two years' time. All possible help is needed to keep the bells from becoming silent and forgotten.

All donations will be acknowledged, and a list of all donors will be preserved in the church.

Donations may be sent to Mr. John V. Muller (captain), The School House, Ash, near Sevenoaks, Kent.

PERSONALITY—Continued.

the privilege of recording a contribution to a programme in his memory, which is to be broadcast in the autumn.

After leaving school, Harry graduated through the cycle repair business to motor-cycles, cars and commercial vehicles, and during the war years he did a considerable amount of work in the agricultural field and general engineering. After an illness in 1955, he took up dairy engineering with the well known West Country firm of C. & G. Prideaux, now a member of the Unigate Group. He has been a member of the Somerset Special Constabulary since 1938, and holds the rank of sergeant. When he has any spare time he is fond of home carpentry and gardening, particularly with flowers. He has done quite a bit of research into local history, and in 1950 he compiled a short history of the church and village. He also wrote an instruction book called 'Ringing a Bell' for the use of the Bath and Wells Association members. His two children, Bridget and Tony, are competent ringers, and his wife, although not a ringer herself, is always happy to entertain his many visiting ringing friends. APACE.

Ancient Society of College Youths' 324th Anniversary Dinner

RECORD ATTENDANCE HONOURS YEAR OF RECORDS—BISHOP WAND'S TRIBUTE TO RINGERS

THE past year has been a record one for the College Youths and at the 324th anniversary dinner held at the Bridge House Restaurant, London Bridge, on November 4th, the secretary, Mr. John E. Chilcott, had a very satisfactory report to present, both as regards activities and the recruitment of new members. The emphasis, however, was on the coming year, the 325th, and an appeal was made to members to enhance the traditions of the past.

It was a notable evening for the Master, Mr. M. P. Moreton, and he received the personal congratulations of the principal guest, Dr. J. W. C. Wand, the former Bishop of London. It was an evening of good speeches, good food, good fellowship and good handbell ringing.

As is customary, the toast of 'The Church' was proposed by the Master. Mr. Moreton said that the world today was faced with problems greater than ever before in its history. The Church also faced a greater challenge than ever before. Communism was a ideology which used every possible method to further its own end, and to meet this challenge a strong and united Church was absolutely essential.

PROSPERITY AND RINGING

The possibility of an atomic war was not remote. It would be naive to assume that it was impossible, and since that catastrophe would mean the end of ringing he preferred to take a more optimistic point of view. If they had no more wars they had been promised a period of increased prosperity. That would mean that every instructor would have more time to teach beginners and there would be fewer silent towers. Transport would also be cheaper and in those towers where complaints were received about noise methods of sound control would be fitted, so that on practice nights the general public need not be disturbed.

The Master foresaw better methods of teaching ringing; recorders would be used and ringing standards would rise. Where would their Society be in this brave new world? Their Society, through its 300 odd years, had caught a certain sense of buoyancy and would rise as the waves of prosperity broke over it.

Concluding the Master said that he hoped they would all do their utmost to foster the well-being of the Church and continue to do their duty as ringers of the future.

Bishop J. W. C. Wand, who replied, said the Church was something they were all proud to belong to. It meant different things to different people. To some it meant square boxes with a lot of ropes coming down from the ceiling. He knew that in some churches they left the last row of seats for the ringers and they were sometimes empty.

CHURCH—KEY TO SITUATION

The Church had a great task to face and in spite of all the criticism it had tried to face that task. He was certain that a large proportion of our population felt that they had the key to the situation and that if the Church's teaching was followed they would not have to face those terrible difficulties mentioned by their Master in his speech.

The Bishop said that apart from the material pleasure of ringing there was something eternal about it which seemed to say if the bells were silent the very stones would cry out. As they rang their changes they were doing a particular kind of work for the Church; people could not fail to hear them: they were inviting them into church and thus the bells were a witness to the eternal truths for which the Church stood and in the name of the Church he offered them the Church's sincerest thanks for all they did for them.

MR. MICHAEL P. MORETON,
Master, 1960-61.

TITLE A PARADOX

Proposing the toast of 'The Ancient Society of College Youths' Mr. K. S. B. Croft said their title was one of those English paradoxes. They could hardly describe the company as youths and the connection with the college would also be very wide. History told them that the name was derived from a college on College Hill, which was founded by Dick Whittington. Ancient was also a little wide. They were founded 324 years ago; modern time began in 1492 when Christopher Columbus sailed the ocean blue. He felt that there was no member in that room who, when he took out his certificate and the book of rules and looked at the names of some of the officers inscribed on the certificate, could do so without a sense of pride.

Mr. Croft felt that their Society was composed of three categories of members. There were those present that evening. In the second were those who were unable to be there. About this time they would probably lift their glasses if they were at home or at the local and drink a toast to the Society. In the third category were the College Youths of 324 years—an unseen cloud who were as much members as those sitting in that room.

UNDER THE PILLOW BOOK

He would like to mention one or two of the qualities which he thought College Youths should possess. Trollope's book on the College Youths ended with the words, 'Let us now praise famous men.' Their Master, after the Society had been founded 50 years, was Fabian Stedman, and he left behind a method they were all proud to ring and his book 'Tintinologia,' a book he treasured, and Mr. Croft admitted that he read it in bed and slept with it under his pillow.

The next year was the 325th anniversary of the Society and he felt that they should commemorate that year by reprinting Trollope's history of the Society and also bring it up to date for the benefit of new members.

The other name he would bring before them was that of Alfred B. Peck, a man who devoted his life to their Society and did not count the cost.

'Week by week in our parish churches we help to ring the bells and as the Lord Bishop said, "Heaven help anyone who cannot hear them." But our duty goes further; we have a responsibility to assist the Church in other ways.' If he was to ask for a show of hands of those who assisted as churchwardens, parochial church councillors or even as humble sidesmen he thought they would have a very fine show.

MESSAGES FROM AFAR

Mr. John E. Chilcott, the secretary, in his reply, reported the following apologies: The Rev. J. McCulloch (Rector of Bow), Rev. N. Motley (Rector of Cornhill), Messrs. Alan R. Macdonald (Poole), Harry Miles (Carbis Bay), Dr. P. A. F. Chalk, James Rae, Richard W. Stannard (aged 92, joined 1890), William Shepherd (aged 90), Peter G. Richards (Armidale, N.S.W.), Harry J. Sanger.

A cablegram had been received from Stan Mason, who was in California, stating 'Best wishes for a successful evening.' Mr. Peter G. Richards wrote, 'At the approach of November 5th, I recall the very happy day I spent in the company of the College Youths last year and of hearing so many of the fine bells of the great City of London... Although I am separated from you by 12,000 miles of ocean, I desire to be with you all in spirit, and send best wishes for today and the future.'

Mr. Chilcott said they had had an extremely active year, and that was reflected that evening with an attendance of 211, which was a post-war record. This year they had elected 81 new members and he was certain that that was a record.

As regards peals they did not consider them as a yardstick, but they had rung 35 peals, which was nine more than last year. Some of the peals were notable performances. The peal of Stedman Cinques was the centenary of the then record length of 8,580; the memorial peal at Southwark Cathedral of Stedman Cinques, was to Alfred B. Beck: the recent peal at St. Paul's Cathedral followed the enthronement of Dr. Stopford as Bishop of London.

In connection with the new members they had one each from Canada and New Zealand, six from the London area and the remainder from 25 counties, including 10 from Oxfordshire and seven from Berkshire.

Their normal activities had been maintained and they added to them Sunday ringing once a month at Cripplegate. Attendances at practices throughout the year had been very good, but there was always room for improvement. They had a number of young people, whom they were introducing to 12 bell ringing. The country meeting was held at Oxford and their best thanks were due to the Oxford Society, who made the arrangements, and particularly to Mr. Philip Walker for getting so many towers, arranging the luncheon and for the presence of the Mayor.

LOSSES BY DEATH

This year the Society had suffered considerable losses by death. They had lost eight members with over 50 years' membership, and

College Youths' Dinner—Cont.

There were three he would like to refer to. They were Alfred Peck, a man who devoted his ringing life to the College Youths, a most conscientious secretary and faithful Sunday ringer, Albert Walker, who joined in 1896 (not only a noted Birmingham ringer, but a national figure, well loved and a sad loss to all), and Horace Belcher, who taught him to ring. He did not seek office, but was best known as a supreme critic of bellringing. He taught by example and would be missed at St. Paul's.

The company stood while the following were remembered (not all College Youths): J. L. S. Glanville, John A. Freeman, Frank Sinkins (aged 96), Frederick W. Brinklow (1901), Canon A. C. Blyth, Adolphus Roberts and Sidney Romans (1889, the two senior members), Earl of Shaftesbury, Alfred B. Peck (1901, past Master and secretary), A. F. Martin Stewart, Ferris Shepherd (1900), Preb. E. V. Cox (1903), Frederick W. Burnett, Albert Walker (1896), George A. Fleming, Raymond C. Seager, Percy Clark (past Master), Preb. E. G. Benson, Charles Greedy, Herbert Barlow, Charles H. Viter and Horace Belcher.

Regarding the coming year, Mr. Chilcott said it would be a memorable one, being the 325th of their history. There were two dates he would like members to note: June 23rd, when their country meeting would be held at Bristol, and the 325th anniversary dinner on November 3rd. The accommodation there would be extremely limited and regular attenders were asked to make an early application for tickets.

'ENHANCE ALL TRADITIONS'

The College Youths did not exist as a social club, but primarily as a ringing society. 'Let us make the coming year one in which we enhance all the traditions and standards of the past, so that it can serve as a stepping stone to even better performances and standards in the future.'

The toast of 'The Visitors and Kindred Societies' was proposed by Mr. W. T. Cook, senior steward. In a welcome to Bishop Wand he said the Bishop confirmed him. He recalled the Bishop of London's Reconstruction Fund, which was started for the rebuilding of churches and raised over a million pounds. They had with them the Rev. G. R. Dunstan, superintendent of the belfry at Westminster Abbey, a post he had recently taken over and Mr. Dennis Beresford, Master of the Society of Royal Cumberland Youths. He congratulated Mr. Beresford on the way he had held his Society together as at the moment they could not ring at St. Martin's or St. Leonard's. In a welcome to Mr. Barnett he said that it was through the Central Council that they had obtained the unity that existed today. They had with them a visitor from Australia and also a member who lived in New Zealand.

ST. PAUL'S PEALS—A HINT

Mr. Beresford, who replied, said he would like to congratulate the Society on their peal at St. Paul's. Peals at St. Paul's were very rare and they were all of considerable interest. He hoped that in future peal attempts at St. Paul's an indication would be given as it would give great pleasure to many people to listen.

The toast of 'The Fragrant Memory of the Masters of 300, 200 and 100 years ago' was drunk in silence. Mr. A. A. Hughes said unfortunately they had no records of the Masters of 1661 and 1761. George S. Shurey, who was Master in 1861, was also Master in 1862, 63 and 65. He was thought by Mr. Herbert Langdon to have come from the Marlow district.

A touch of Stedman Cinques was rung during the evening by W. T. Cook 1—2, Frank W. Perrens 3—4, Michael V. Chilcott (conductor) 5—6, J. Frank Smallwood 7—8, Alan Rogers 9—10, Michael P. Moreton 11—12.

THE COMPANY

Supporting the Master on the top table were: Bishop J. W. C. Wand, Canon G. R. Dunstan, Rev. E. G. Turner, Messrs. E. T. Floyd-Ewin (Registrar of St. Paul's), C. G. J. Watts, A. A. Hughes, W. T. Cook, R. Wilson, S. Fox, P. Crook, A. and B. Tomlinson, J. Pilkington, D. Beresford, J. E. Chilcott, E. A. Barnett, K. S. B. Croft, H. N. Pitstow, F. Sharpe, E. H. Lewis, J. F. Smallwood, F. W. Perrens, G. H. Harding and W. H. Coles.

J. Anderson, W. J. Arnold, H. Badger, C. H. Bagot, A. E. Bagworth, T. N. J. Bailey, B. J. Baker, R. F. Baker, A. D. Barker, D. Barnett, C. A. Barron, A. W. Beard, C. Benn, D. A. H. Bennett, R. W. Bickers, P. Bird, P. Border, R. J. Bowden, B. W. Brightly, W. J. Brunt, F. W. Budgen, D. Burnett.

A. P. Cannon, G. W. Cecil, J. H. Chance, G. Challans, W. J. Chester, P. Chapman, M. V. Chilcott, D. G. Clift, L. Cobb, F. E. Collins, R. J. Cook, P. A. Corby, R. G. Cousins, J. H. Crampion, D. Cubitt, M. Cubitt.

D. T. Darby, F. E. Darby, A. V. Davis, G. W. Davis, T. Davison, S. H. Dearden, T. R. Dennis, J. E. Drewitt.

T. Earle, H. C. Edwards, R. G. Edwards, T. P. Edwards, G. R. Eyles.

B. Fairhead, E. G. Fenn, J. H. Fielden, E. Flintham, A. J. Frost, S. Foskett, M. Foster, D. Fowles, L. J. Fox, T. G. Fox.

F. V. Gant, M. Gathercole, J. Gipson, C. J. Gould, W. T. Grice.

E. A. Haines, R. Haines, M. J. Halliwell, E. F. Hancock, R. Hanger, F. E. Hansford, N. V. Harding, J. S. Hawkins, F. E. Haynes, D. R. M. Heighton, A. R. Heppenstall, P. Heritage, J. Hill, E. Hitchens, L. Hitchens, H. Hodgetts, W. Hodgetts, S. J. Holgate, R. G. Hooper, D. Hughes, W. Hughes, P. H. Hull, D. J. Hunt.

E. R. Iveson, D. Jewell, E. G. Jones, W. J. Judge, J. R. Ketteringham, S. F. W. Kimber, P. King, R. C. Kippin, J. Kirby.

W. A. Theobald, J. Thomas, H. E. Thompson, B. D. Threlfall, R. J. Trebilcock, A. M. Tyler.

C. C. Varney, E. R. Venn, R. A. Vickers, E. R. Warner, J. W. Ward, J. Waters, J. A. Waugh, H. C. Weaver, J. O. Weller, B. R. White, F. A. White, F. C. White, T. W. White, F. H. Wilkins, W. Williams, C. E. Willington, P. F. Windley, A. C. Winn, P. Woodward, F. Wreford, B. J. W. Wyld.

W. A. Yates.

OXENDON, NORTHANTS.—On Oct. 1st, 1,260 Grandsire Doubles: Miss B. Perry 1, Miss L. Brown 2, C. A. Swann 3, W. C. Cropley 4, D. E. Griffin (cond.) 5. For Harvest Festival.

WHISTON, NORTHANTS.—On Oct. 7th, 1,260 Plain Bob Doubles: R. Smith (first quarter) 1, G. Paul (first as cond.) 2, G. F. Roome 3, P. Amos 4, M. R. Harvey 5.

50 YEARS IN LEICESTER CATHEDRAL BAND

Mr. Harold G. Jenney, of the Leicester Cathedral Society, completed 50 years' service as a ringer at the Cathedral this year. He joined the St. Martin's Society, as it was then known, in August, 1911.

At a ceremony in the belfry before Evensong on October 29th, the Provost (the Very Rev. R. J. F. Mayston) presented Harold with a cheque on behalf of his fellow ringers to mark the occasion, and spoke in appreciation of the great service he has given to the Church as a bellringer during the past 50 years. Harold, replying, thanked the Provost and ringers, saying a ringer's first duty was to the Church.

Harold Jenney, who is now 79, is a true servant of the Exercise and also a personality held in great respect in many parts of the country, having held the office of secretary and president of the National Police Guild of Ringers. He has rung 173 peals, many being of Maximus in several methods. His favourite method is London Surprise Major.

A bowl of white and yellow chrysanthemums was sent to Mrs. Jenney, who by her help and encouragement has played a great part in Harold's wonderful service. H. B. B.

50 Years Ago

'R.W.' November 17th, 1911.—

THE COLLEGE YOUTHS' ANNUAL DINNER

Sir Arthur Heywood, proposing the toast of 'The Ancient Society of College Youths'... Turning to the future of ringing, Sir Arthur alluded to the advent of 'The Ringing World.' 'We have two ringing papers, now, instead of one. That has exercised me a good deal. "The Bell News" was a very good paper so far as it went, but a lot of us had a good deal of fault to find with it. Now we have got a new paper. The new paper is better printed, and it is cut, for one thing, which I like. I am not quite sure whether it is not taking the wind out of the sails of the old one, but at the same time I have got a sort of old affection for "Bell News." I am not at all certain what the result of the competition will be. I doubt whether there is really a sufficient amount of support amongst ringers to run two papers; if there is, well and good, and no doubt the competition will result in the improvement of both papers. But I am a little doubtful whether such a comparatively small number of people for newspaper purposes as ringers are can properly run two papers in their interests....'

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

Personal.—E. W. Izard \$2. Rambling Ringers 12s. 6d., Kingsthorpe Church Bellingers £1.

Peals.—Kirkby-in-Furness 3s., North Weald 3s., West Bromwich 5s., Swindon 1s. 6d., Cawthorne 2s. 6d., Pewsey (U.B.G.C.R.) 5s., Deddington 4s.

Quarter Peals.—Canterbury 5s., Middleton Cheney 3s., Wareham 2s., Bradford-on-Avon 4s., Hutton 2s. 6d., Thetford 2s. 6d., Barton-in-Fabis 3s. 6d., Epsom 3s. 6d., East Harling 10s., Bentley Common 2s. 6d., Llangibby 3s., Kirk Ella 3s., Wareham 2s., Bray 1s., Usk 4s., Colchester 3s., Sandridge 3s., Cosgrove 2s., Chipstable 3s., Farmborough 3s., North Stoneham 3s., Reigate 3s., Minchinhampton 2s. 6d., Westham 3s., Ockham 2s. 6d., Ottershaw 3s., Lechlade 2s. 6d., Shebbear 2s. 6d., Danehill 2s., Westminster 3s., Trull 1s. 6d., Findon 2s., Merriott 3s., Ripple 3s., Coleshill 2s. 6d., Maidstone 3s. 6d., Ripple 1s. 6d., Yeovil 2s., Putney 4s., Canterbury 3s., Wallasey 2s. 6d., Peterborough 3s., Tamworth 5s., Kingstone 3s., Romsey 2s. 6d., Kenilworth 3s.

St. Christopher's Society Tour Wales

THIS year's tour enabled the party to visit most of the towers in South Wales between July 29th and August 13th. The ringers were drawn from five counties, and for most of the period numbered 16.

We assembled at Chepstow, where the ant-clockwise octave has recently been augmented to ten and rehung clockwise; the bells are rung from a gallery, providing a rewarding view of this impressive church. The six at Mathern were found to be of poor tone, while our first octave at Caldicot went well in a variety of methods, except Bristol; the Vicar and several local ringers made us very welcome.

We were privileged to join some of the local band to ring for Matins at St. Woolos Cathedral, Newport—a most pleasant twelve, both for tone and 'go.' After the service we crossed the town for several touches at All Saints'. During the afternoon a short ring on the easy going six at Nash, prior to Sunday school, and then the party split up to join the locals at Llanfrecfa and Caerleon for Evensong ringing.

A RING OF STEEL

The Rev. R. E. L. Jones is in charge of three parishes: St. Bride's Wentloog, Marshfield and Peterstone Wentloog, all with bells. The church at St. Bride's is in a decrepit state, the tower leaning considerably out of true; Marshfield's octave is of average tone, while that at Peterstone is a pleasant Gillett ring, with a long draught of rope. After lunch we visited two quite good sixes, at Rumney and St. Mellons, and were glad to have local members standing in for a pull at both towers. Steel bells are always a novelty to ring, while once is often enough!—such can be said of Bassaleg, though they run fairly well, but are very deep set.

Tuesday, August 1st, commenced with two good Taylor octaves, Caerphilly and Llanbradach—unfortunately the latter are seldom heard, due to a lack of local ringers, but are well worth a visit. Trevechin's eight bells are of rather dismal tone, and odd-struck, and our ringing was equally dismal! However, it improved considerably on Usk's good ring, and an enjoyable course of Bristol was performed. Llangibby's octave is rung from the ground floor, like the six at the pretty village of Tredunnoch, but these do not go very well. The church at Penhow lies somewhat 'off the beaten track,' but its tower holds a jolly six.

An awkward cross-country route the following morning brought us to Cwmcarnvan, whose six bells are very difficult to hear. The first five of the tour was Tregaer, which could do with some attention by a bellhanger. Another five after lunch at Llanover, where we were pleased to meet the Rev. Ivor Richards (Vicar of Llanarth), who rang with us here and at Abergaveany (a glorious ten from the Loughborough foundry). Yet another five ended the day, Dingestow.

A CHARLES CARR TREBLE

Thursday's first call was at Monmouth (18½ cwt. 8, not an easy ring), and at Skenfrith the six require some effort. Grosmont Church is rather unusual as half the church is completely bare; the octagonal central tower is surmounted by a spire, containing a ring of six, whose tenor goes very badly and hangs almost

in the middle of the 'circle.' Several narrow tracks later we called at Llanbedr Ystradyf (5) and Llangatock (8, 15 cwt.), where we were joined for a day by Eric Speake. The treble at Llanelly, Breconshire, on inspection was found to be cast in 1908 by Charles Carr, the Smethwick founder. Blaenavon's light octave was appreciated by all the party, while in contrast we had the heavy bells at Ebbw Vale, though we did not do justice to this noble ring.

Next day our first ring was at Cefn Coed, where the Vicar showed us around his church: the bells are an easy going six. From here we travelled across the hills bordering on the Brecon Beacons to Defynnog, to be greeted by the Vicar: a good ring of six here, which we rang to an assortment of methods, including York. St. Mary's Church, Brecon, stands in an imposing position in the centre of the town; its tower contains a Rudhall eight, but regrettably they are difficult to hear clearly. On the outskirts of Brecon we found St. David's, Llanfaes (a very good Taylor six). Later, after some navigating problems, we arrived at Llanfeigan, with an octave not to be missed.

A 16 cwt. six of good tone hangs in the tower of Llangorse, but considerable effort is needed; there are hopes of rehousing. At Talgarth we were met by Mr. D. H. Bennett, who stood in a touch of Stedman; from here a short run to the detached tower at Bronllys.

Following the lunch-break, we visited Glasbury-on-Wye; no one liked the style of church architecture here, and judging from the ringing the same is to be said of the bells. However, we were able to give Colin Lewis a course of Double Norwich. A five bell tower was next, Clyro, where many Doubles methods were rendered. The two churches of Radnor were next on the programme; the old church has a good Rudhall ring, while the new has a fair six, which both Gilletts and Mears have worked on. We were scheduled to ring at Presteigne at 7 p.m., but on arriving at the church we were told of the passing of the Rector, the Rev. E. G. Benson, that same morning.

NO SUNDAY SERVICE RINGING

Many incumbents in Wales run several parishes, and on account of this we were unable to ring for any services on Sunday, August 6th. Our first call was to Llanfihangel Rhydeithon's fair easy going six, then to Llanbadarn Fawr, where the pleasant Mears five is rung from the porch. In the afternoon we visited Builth Wells, where John Maybrey joined us for a few days, and Nantmel (a six by Llewellyn and James). On the way to Aberystwyth, most of us visited the famous Devil's Bridge.

Our activities on Bank Holiday Monday commenced at Llanbadarn Fawr, where the ring of eight hangs in the middle of a vast tower. Probably our longest journey between towers followed, bringing us to St. David's Cathedral. We had plenty of time to walk around and admire this noble building before ringing; the bells hang in a tower forming part of the gatehouse at the entrance to the Cathedral grounds, and are a fine Mears eight, slightly spoilt by a stone-vaulted ceiling. Jo and Wilf Moreton, on holiday in the area,

joined in our ringing here. Another long run to Pembroke (an eight of most peculiar tone), and finally Tenby (8, 12½ cwt.).

Our next county to be visited was Carmarthenshire, commencing at Llanstephan (an easy going Mears eight), thence to the county town to ring at St. Peter's, with a pleasant Taylor octave, difficult to hear distinctly. After lunch Mr. Scudamore met us at Llandilo with an interesting A-frame, and a pendulum swinging in the middle of the ringing chamber. Sight-seeing occupied the afternoon, before a pull on the Warner five at Burry Port, and from there to Llanelly, where the stays on two bells had not been bolted into the stock, and soon fell out! The concluding tower was Gorseinon, an octave by Charles Carr.

RESTORATION AT SWANSEA

Swansea suffered a great deal during the last war, but a large amount of the damage has been repaired, including the new parish church of St. Mary, which has recently received a new eight from the Loughborough foundry. Mr. Hoar made us welcome here and he has certainly a ring of which to be proud. Travelling to the outskirts, we visited Sketty, the bells of which were somewhat difficult to strike accurately, but Erin Triples and Grandsire Major were performed in creditable fashion. Mr. Gwyn Lewis met us at Cadoxton and came to Neath, both pleasant sixes. The key arrived late at Baglan (a noisy six in a church of impressive proportions), and this, coupled with a two-mile traffic jam, made us very late at Aberavon (a good old Taylor ring). Fortunately, however, the local captain expected us to be late knowing how bad the traffic can be. Retracing our steps, we called at Dyffryn Clydach, and thence across country to Llangynwyd, with a pleasant Warner six and a long draught. Mr. Trevor Roderick awaited us at Newton Noitage, where our ringing was not up to our usual standard.

Two good Taylor rings started our next day; an octave of the older style at Bridgend, and a more modern product at St. Bride's Major. A good six from the erstwhile Croydton foundry hangs in the central tower at Coity, but some of the clappers seemed to give a peculiar effect. From here we journeyed up the Rhondda Valley to Pentre, where an early Taylor octave (26 cwt. 3 qr. 10 lb.) is contained in a slender tower; it was felt that the acoustics do not do these bells justice. A long run from here over the hills to Aberdare, where the Gillett eight is rung from a gallery, and a first touch of Oxford Bob Triples for some was performed. Continuing in a southerly direction we reached Pontypridd well on time, and rang a varied selection of methods on not an easy octave. All ringing at Radyr (8, 12½ cwt.) has to be kept to a minimum, due to complaints. Our final call was at Llantrisant, where the curate gave a most interesting talk on the many noteworthy features of this historic church.

NO ROPES AT LLANBLETHIAN

Much has been written about Llandaff Cathedral and Epsiein's Majestas, so it was a great privilege to have the use of the bells for an hour, and also an opportunity of looking around this impressive edifice. Peterston-super-Ely was our next tower, and here the Vicar made us welcome. Another six after lunch at Bonvilston, a fair Rudhall product.

LETTERS TO THE EDITOR

COMPOSITIONS

Dear Sir.—I should like to comment on several compositions recently published in the 'R.W.'

It will be observed that the composition of 5,024 Yorkshire Surprise Major on page 55 (January 20th), by Ian Holland, if begun from the course-end 32654, will have an additional quality of the 6th its extent in 6ths place. However, in this form it will be seen to contain exactly the same changes as Peal No. 12 on page 37 of the Central Council Collection, by Mr. C. W. Roberts. In fact the structure of these compositions is exactly the same, except that in Mr. Holland's version the courses 23456, 42356 and 34256 are rung plain at the course ends, with the courses 42635, 34625 and 23645 rung with bobs at Wrong, instead of plain leads—this is necessary to join up the three blocks into which the peal is divided by omitting the homes on the —56's. A further variation, which can be omitted if desired, is the bobs at home in place of plain leads on the —46's. I am sure if my friend Ian Holland examines this he will agree with me that this composition is only a variant of the one by C. W. Roberts. I should be very interested to hear Mr. Roberts' views, too. It will be observed that a similar variation can be made in the 5,024 No. 6 on page 25 of the C.C.C. Omit the Homes on the —46's, which brings the courses up in a different order. I understand it appeared in this form under the name of Henry Dains!

Secondly, regarding the peal of Cambridge Major on page 623 (September 15th), it will be seen that the shortened version is merely a transposition of one published by myself on December 14th, 1956, which was rung at Dorchester, Oxon, on November 29th, 1956. Thus, while pointing out that it has been previously rung on at least four occasions, I would wish to withdraw my name from it since it was composed in 1928, although it has only recently seen the light of day. Another peal of 5,024 Cambridge Major has been rung on more than one occasion, ascribed to myself, which I am informed also is the property of T. B. Worsley. Will all concerned please amend their records accordingly.

Thirdly, the peal of 5,024 Cambridge Surprise Royal published on page 732 was composed by me over two years ago, and has been attempted on three or four occasions without success, hence I had not published it. It seemed that the musical courses, combined with the symmetry of the composition, far outweigh the disadvantages of having the 2nd and 3rd so many times in 6ths place.—Yours sincerely,

STEPHEN IVIN.

Houghton Conquest, Beds.

A PROTEST

Dear Sir.—On opening my 'Ringing World' of November 3rd I was horrified to see the scathing attack made by Mr. K. Mason on the report of Mr. Wilfred Williams' peal tour. I very much deplore attacks of this nature made in our paper.

If this peal tour was written up as a list of peals and churches and nothing else it would be very boring to one not interested in the performances of a party of peal grabbers. I find that these sidelines add a vast amount of interest to an otherwise dreary succession of facts.

And as for calling his friends 'pub crawling companions,' words just fail me; there is nothing to suggest anything more than the natural quenching of the thirst. Carry on, Mr. Williams!

I, for one, will continue to read your reports if they are all as enjoyable as the one published this year.

And, Mr. Mason, I would suggest two things: (1) go on a peal tour and see what thirsty work it really is; (2) write to 'The Ringing World' and publicly apologise to the friends of Mr. Williams you mistakenly called 'pub crawling companions.'—Yours faithfully,

PETER J. BROWN.

Stourbridge, Worcs.

CHRISTIANITY AND TOWER GRABBING

Dear Sir.—In view of the recent correspondence about ringing in Worcestershire, I think we should do well to think deeply about our responsibility as members of the Church. The Church and the bells are dedicated to the furtherance of the Kingdom of God on earth.

'The Kingdom of Heaven is like yeast, which a woman took and mixed with half a hundredweight of flour, till it was all leavened.'—Thy Kingdom come.'

At the present time the Church is fighting a desperate battle against the worship of the false gods of wealth and personal pleasure. The shadow of destruction by the 'H' bomb hangs over us. All that can save us is faith and unity. Faith in God to make us follow His way and not our own. Faith in each other, to foster mutual understanding, and to give us power to fight as a united body against the powers of evil and unbelief that surround us.

To make matters worse we are in an age of rapid change. There are conflicts between standards of familiar and orderly behaviour, and the outlook of 'modern youth.' We must be very careful to distinguish between standards which are good, and applicable to the lives that young people will have to live, and standards which we accept merely because they are familiar. Is 'politeness' the art of accommodating ourselves to the convenience of others, and not hurting their feelings, or is it just 'the way we were brought up'? The sorting out of standards is a job for young and old. There are many young ringers who are good churchmen, but whose parents never go to church. Of the much publicised ringers who don't attend the services they ring for, it is the older ringers who give the lead in far too many cases.

The ringing Associations have done a magnificent work in bringing ringers together and making belfries 'open houses.' If the Englishman's home is his castle, his church certainly is not, and nor is the church's belfry. When living far from home, I have been made welcome in belfries, in a way that far surpasses the welcomes I had from strange churches before I was a ringer. In ringing we have the 'yeast' in our hands, and it is our duty to mix it with the whole half hundredweight of flour. God forbid that we should attach the name of 'tower grabbers' derisively to our visitors. Least of all when they visit neglected towers, and awaken new interest in our art, where the church knows nothing of the joys of fellowship and skill that ringing brings.

'Forgive us our trespasses as we forgive those that trespass against us.'—Yours, etc..

HUGH B. MAKINS.

Westhili Training College,
Selly Oak.

AN APOLOGY TO PERSHORE

Dear Sir.—I would like to apologise for my letter to the 'R.W.' criticising the recent Pershore Deanery outing and would like to convey these apologies to Messrs. Cattermole, Johnson, Grinnell and all concerned. It appears my misinterpretation of the report has caused quite a considerable amount of trouble, and I must apologise most abjectly.

Also, as a non-official reply to Mr. P. J. Hutchings, I would like to point out that all Putney ringers are members of the Surrey Association, and that, locally, Putney is considered as a 'Surrey tower.' as a glance at the Association report will show. Also, the Association has representatives at these towers (Putney and Southwark, at any rate), whereas Putney has no London County members, and I have not heard of any at Southwark.—Yours sincerely,

DAVID C. BROOKES.

Putney,

A RESHUFFLE IN METROPOLITAN SURREY

Dear Sir.—Mr. Hutchings, in his letter on 'Metropolitan Surrey' has at last tackled the real problem of London ringing.

There are five territorial Associations with interest in London as far as I know, and there can be few ringers in London who do not feel their loyalties divided.

When at Putney we joined the Surrey Association only because the towers with which we associated belonged to that Association.

May I humbly suggest that it is time something was done for London ringing. Many central London towers are by and large un-rung on Sundays, even where there is a considerable local population, and the once famous ringing city is fast gaining a reputation for its unring bells.

As far as I can see the only answer is to be found in the complete transformation of the existing associations into diocesan guilds. If the Middlesex Association and London Diocesan Guild resigned the first part of its title, I suspect this would affect the Essex Association. The Southwark Diocesan Guild would receive towers from the present Surrey Association, London County Association and the Kent County Association (which would be renamed the Canterbury and Rochester Diocesan Guild). The remaining Surrey Association towers would go to the Guildford Guild, Croydon going to the Canterbury and Rochester Guild.

This would need great Christian humility on all sides, especially with regard to much cherished allegiances and traditions, but I would plead that as London ringing is in a bad way it would be worth it. Its Societies have grown up without a concerted plan and the civil boundaries have changed and may well change again.

For this reason alone, among many others, a county association for London would be impractical, but I believe that there would be a greater and basic reason for the failure of such an association. We are Christians, doing Christian work in the service of Christ's Church. Let us therefore organise ourselves on the basis of His Church, so that we work for and with that Church, in union with its clergy and laity.—Yours faithfully,

A. CLAYTON.

Salisbury, Wilts.

CONGRATULATIONS TO 39 SURPRISE MINOR BAND

Dear Sir.—As one of the band who rang the peal in 38 Surprise Minor methods at Frampton in 1955, I should like to congratulate Mr. Egglestone and his band, at Stisted, who rang the 39 methods.

Our band is now more or less finished, owing to the death of Arthur Young. There is no one around capable of carrying me through a peal of this standard.—Yours truly,

ALBERT E. FLATTERS.

Boston, Lincs.

ST. CHRISTOPHER'S TOUR—Continued

A very good octave may be found at Cowbridge. Mr. Robert Coles, the local Association secretary, joined us here and later helped us at Llanblethian, where it was necessary to fit ropes. One of the earliest Christian foundations in Wales was at Llantwit Major, which church contains a wealth of history, and also a pleasant Mears six.

The last full day turned out to be far from full, more unringable towers being inspected than were rung at. Nevertheless, we visited Penmark and a good five at St. Hilary. Though the kindness of the Vicar and the ringers of Penarth, we were entertained to an excellent tea before ringing on their fine octave in a saddleback tower, with methods up to Yorkshire. Whitechurch has a pleasant ring by Llewellyn and James, and here our only attempt at Original failed dismally.

The last tower of the tour was Cardiff, our party joining Fred Hannington, Jack Pryor and other local ringers to ring for Matins. Thus ended another successful tour, for which all the participants owe their grateful thanks to Clive Smith and Lucy Allen, for their work in obtaining permission at all the towers, to John Allen, for arranging accommodation.

I. H. O.

MR. I. J. ATTWATER

With regret, we announce the death of Mr. Isaac James Attwater on October 21st, in his 84th year.

In the last few years he had been a ringer at St. George's, Barkingside, Essex. Before coming to Barkingside he was for many years a ringer and captain at Enfield, Middlesex.

He went to America to teach ringing, but he very rarely spoke of his trip or of his peals and other ringing activities; he was far too interested in teaching youngsters than remembering his past deeds.

Although he was over 80, he was always first at the tower for Sunday ringing.

The funeral was at St. George's and the service was conducted by the Vicar, Canon A. C. Comer Stone.

MR. W. EAGLINE

Mr. William Eagline died in his 83rd year at East Harling in Norfolk on Monday, October 9th, after a short illness.

'Billy,' as he was known in the village, came to East Harling in 1903, when he walked from Besthorpe to East Harling to be married—a distance of 12 miles.

He learned to ring at Besthorpe and was soon established with the Harling ringers. He was one of the band who rang the first 720 on the bells when they were rehung in 1912. He served in the 1914-18 war, returned unscathed, and in this last war worked as a fire tower watcher for the Forestry Commission. In his last three years of life he was a widower and also in poor health. However, he rallied well and was fit enough in the spring of 1961 to take part in regular change-ringing on Sundays and for weddings. He rang his last 120 at a wedding in July.

Always merry, with a perpetual pipe in his mouth, he was seldom without a smile or a laugh. We shall miss this rural character. May he be found worthy of a place with the glorious company in Heaven.

P. J.

OBITUARY**MR. G. W. JEFFS**

With deep regret we record the death on October 31st, at the age of 58, of George Wilfrid Jeffs, general secretary and treasurer of the Peterborough Diocesan Guild since 1952. Before that date he had been for several years secretary of the Thrapston Branch and had represented the Guild on the Central Council since 1945. George was a chorister at Tichmarsh for 50 years, and had been for some time chairman of the Thrapston Branch of C.E.M.S. He was a very capable ringer and enjoyed an occasional peal, particularly on the fine eight of his beloved Tichmarsh, the church to which he was devoted and had served all his life.

George came of ringing stock, his father having been a founder member of the Guild's predecessor, the Raunds, Wellingborough and District Society, and he himself had been a member of the Guild since its inception. His peal total is not to hand but is believed to have been in the region of 100, many of which he conducted. He and his wife celebrated their silver wedding in 1960. They resided at Tichmarsh until their house was destroyed by incendiary bombs during the last war, when they moved to Thrapston. George was employed on the Lilford Estate for many years, and latterly as a carpenter for a Thrapston firm.

During the period of his secretaryship, the Guild saw several changes and new undertakings, including the beginning of the very popular summer festival and the week-end course. He handled the affairs of this large, mainly rural Guild with characteristic competence and diplomacy and endeared himself to all.

The funeral took place at Tichmarsh on November 4th in the presence of a large congrega-

tion, which included many members of the Guild and representatives of the Ely and Lincoln Diocesan Guilds.

The service was conducted by Canon Luckock (Rector of Tichmarsh), assisted by Canon G. F. Turner (Guild president) and the Revs. J. Dakin and C. J. W. Faulkner. A course of Grandsire Triples was rung on handbells around the coffin after the Blessing, and the half-muffled bells were rung as the cortege left the church for Kettering Crematorium, where several other ringing friends were able to pay their last respects.

May he rest in peace.

P. I. C.

AN APPRECIATION

In the Oundle Branch we regarded George Jeffs as a neighbour—one who was always near at hand and ready, willing and able to help whenever required.

He hardly ever missed one of our ringing meetings, and his quiet common sense and interesting tales will be greatly missed. We feel that we have lost a good friend and neighbour.

Many of us have been pleased to accept the hospitality of George's home and remember with pleasure the table laid for us by his wife. To Mrs. Jeffs we extend our most sincere sympathy.

R. W. S.

MR. R. A. JENKINS

We regret to record the death suddenly on November 4th of Mr. R. A. Jenkins, ringer and verger of Holy Trinity, Dartford, Kent. A memoir will appear in our next issue.

MR. W. W. WEBB

A well known Heston ringer, Mr. W. W. Webb, died on November 3rd, aged 72. A memorial service will be held in Heston church on Saturday (November 18th) at 11 a.m.

EDITOR: T. W. WHITE.

Peals in honour of the birth of Viscount Linley, son of H.R.H. Princess Margaret and the Earl of Snowdon, were rung at Windsor Castle, Stroud (Glos), Glastonbury, Southampton, Netherseale, Newport (Salop), Stamford-le-Hope, Cawthorne, Hyde and Middleton Stoney (Oxon).

Mr. Len Stilwell is now home and well on the way to recovery.

Winchester Cathedral had special ringing for the royal birth, as they did for the enthronements this year of the two archbishops.

The bells of St. Matthew's, Buckley, will be rededicated next Wednesday by the Bishop of St. Asaph at 7 p.m. Open day, November 25th.

A faculty has been granted for the restoration of Tewkesbury Abbey bells. The bells will be removed to the foundry early in the New Year.

Two schoolboys—Roger Tarbatt (Shelley) and Roger Clarke (Kirkburton)—put up a fine performance in their first peal (one of seven Minor methods) at Cawthorne, writes the conductor.

In response to an inquiry, Nutfield is College Exercise front work with Killamarsh back work. At Cawthorne, states Mr. Noel F. Moxon, it is rung as Wentworth.

In the peal rung at Middleton Stoney for the royal birthday, the band congratulated Mr. S. G. Joyce on completing 40 years as a ringer and wished Miss Hilary Knight a happy birthday.

When Odd Fellows of Exeter held their service at St. Mark's Church last September the bells were rung by a team of Odd Fellows, and at Great Berkhamsted a similar service was preceded by a quarter of Bob Major, arranged by Bro. W. Hughes and conducted by Bro. F. Kirk.

More about Cosgrove! Mr. E. R. Lambert, to whom Mr. R. G. Black intended to refer on page 724 and not his father (Mr. Ernest Charles Lambert), informs us that Cosgrove is in Northants, but as he lived only half-a-mile from Bucks the postal address is Cosgrove, Wolverton, Bucks. We think the review of county boundaries is overdue!

RELFRY GOSSIP

The Geoffreys have rung a peal at Kibworth, Leicestershire. In doing so they would like to associate with the peal Geoff. Hemming, Geoff. Mills and Geoff. Goodall, all of whom had taken part in two previous attempts. One of these attempts was within 200 changes from the end when a rope broke! Geoff. Green is also thanked for stepping in at short notice to make up the band.

The peal rung at Bishop's Lydeard on October 7th was the first of Major on the bells.

Mr. Nicholas W. H. Simon, of Lllys Esgob, Llandaff, asks for a 720 of Grandsire Minor.

The quarter at Faringdon, Berks, for the royal birth, was the first for several years by the regular Sunday service band.

With the peal of Anstey Surprise Royal at Loughborough on October 30th, Mr. Brian G. Warwick has called a new Surprise Royal method beginning with every letter of the alphabet.

The peal of Stedman Triples at Loughborough on October 24th (see page 758) was the first of Stedman Triples for Robert B. Smith and not John A. Acres or Brian Cox.

After 35 years since it was first suggested, Aldbourne, Wilts, ringers are to have the clock room turned into a ringing chamber, reducing the length of rope from 70 feet to 24 feet.

A scarf was left in the tower of St. Barnabas', Warmley, during the Bristol ringing festival. Will the owner, believed to come from Southampton, apply to Mr. A. V. Bennett, 151, Kingsway, St. George, Bristol.

With a handbell peal of Kent T.B. Major at Burton-on-Stather, Lincs, Messrs. Jack Bray and Jack Millhouse rang their 636th peal for the Lincoln Diocesan Guild. They are the first members to achieve this total.

Organised by Mr. R. Sheppard, an enjoyable half-day outing into Bucks and Oxfordshire was held by the Western District of the Herts County Association on October 28th. Towers visited were Cuddington (6), Long Crendon (8), Thame (8) and Great Kimble (6).

SOUTH WIGSTON'S DIAMOND JUBILEE

On October 27th, 1901, the eight bells of St. Thomas', South Wigston, Leicester, were dedicated. Like the tower itself, they were the gift of Thomas Ingram, a local benefactor. Since then, the bells have been put to good use: a total of 151 peals has been rung on them, including three long lengths, viz., 10,176 Kent Treble Bob on December 26th, 1901, only two months after the dedication: this was followed on April 4th, 1904, with 11,008 Double Norwich and 17,104 Double Norwich in December 27th, 1904. The first peal on the bells was 5,040 Stedman Triples, on November 2nd, 1901.

It was thought fitting that the 60th anniversary of the dedication should not pass unnoticed. Accordingly a peal was arranged for October 28th (the Feast of SS. Simon and Jude) and the method chosen was Stedman. The first and the 151st peals were therefore Stedman.

From the records of the old Midland Counties Association it appears that the tower has never been lacking in ringers. The zenith appears to have been reached in the years immediately after the last war, for a completely local band rang a peal of Double Norwich in honour of the silver wedding of King George VI and Queen Elizabeth on April 26th, 1947. With the untimely deaths of the conductor (Charles Marshall) and the steeplekeeper (J. Leslie Willars) in 1949 a decline set in; but there are signs that with the young band at present, even greater progress will be made.

Thank you, Thomas Ingram, we are grateful to you!
B. J. W.

An appeal has been launched for £3,500 to provide a ring of eight for St. Clement's Church, Hastings. The town of Hastings, New Zealand, is to give the fourth bell (£310), and the local Amateur Operatic and Dramatic Society the treble (£240).

QUARTER PEALS

WHY I BECAME A BELLRINGER

By BARRY HOLLAND

I AM often asked by friends and acquaintances how I became a bellringer and what I find so absorbing about it.

The answer to the first part of the question is quite simple. The earliest recollection of my childhood is of myself toddling past the parish church, holding my father's hand, hearing the bells ringing, and asking him what made the noise. In due course I was to find out. I followed my older brothers into the choir and later into the belfry. It was quite natural. It was the pattern to be followed by each brother in turn.

Now, when I asked myself why I took to it so readily, I find the reasons more complex. Firstly, bellringing as practised by us in England is so English, and does not exist in any other part of the world except in a few isolated parts of the Commonwealth. Even in Ireland, Scotland and Wales it is seldom practised as we do it. Through many generations, the sound of church bells has become ingrained in us.

In mediæval times and before the Reformation the sound of the church bells was an integral part of the life of the ordinary person. It warned him of curfew time, it warned him of attack. It bade him say his prayers when he heard the Angelus, it bade him pray for those departing this life as he listened to the passing bell. Then as now it announced the joyful occasion such as a wedding or some occasion of national rejoicing. The monastery bells summoned the monks to their devotions as our own bells do now Sunday by Sunday.

Another reason why bellringing is so appealing to me personally is that it is a branch of church work. Few of us have the ability to be, say, a choirman, or perhaps we have not the time to spare in other clubs and organisations. There exists in the belfry a camaraderie unparalleled in any other body of men. Although it has a language peculiar to itself, the belfry attracts its devotees from all walks of life. The judge, doctor, teacher and labourer all mix freely in the brotherhood of the belfry.

What are the qualifications needed for the belfry? Firstly, a reasonable level of intelligence—which all of us have. Secondly, a fair standard of health—which most of us have; bellringing is not a physically exhausting task. Lastly, a deep attachment to the church which will bring us from the comforts of home in all weathers twice on Sunday and one night in the week for practice.

Dorothy Sayers, in her book about bellringers, says: 'God speaks through those mouths of inarticulate metal.'

It is a very joyful thought indeed that we of the belfry are playing our part in making that voice heard a little more clearly.

[With permission of 'The Messenger,' Sheffield Cathedral Magazine.]

AND AFTER THE RINGING

MUCH has been written on the subject of ringers attending church after ringing for service: much more will be written and it will be a subject for frequent sermons. If we are servants of the Church it is obvious that we should attend at least one service on a Sunday. But to attend every service is out of the question. There are towers where ringing takes place for three services, and the demand for attendance on every occasion is unreasonable.

Today a very small percentage of Christians attend one service a week. Because a man takes an interest in ringing, and because of the fact that the church is the only place in which he can ring, he is expected to attend more frequently than the tiny percentage of people who go to church. It is difficult to see why.

The fact that he is behaving as 90 per cent. of the rest of the parish is only made noticeable by the fact that he may leave the church before the service starts, whereas the other 90 per cent. have stayed at home. But if he is a church worker he certainly ought to attend one service. So ought all other church workers.

As a matter of interest I have worked out roughly attendances in my own parish at services for which the bells are rung:—

Churchwardens 2, average attendance 1 ...	50%
Servers 2, av. attendance $\frac{1}{2}$	25%
Choir 20, av. attendance 7	35%
P.C.C. 35, av. attendance 5	14%
Sidesmen 10, av. attendance 1	10%
Ringers (6 bells) 8, av. attendance 5	63%
General congregation on Electoral Roll	
275, av. attendance 25 ...	9%

The average attendance for ringing used to be nearly 100 per cent., but then the Vicar gave orders that if you rang for a service you must attend that service. This meant that only ringers must be 100 per cent. at at least two services each Sunday. I don't see how it can be done unless you have at least three ringers to each bell.

All the others can stay away, no one notices it. But if only three bells ring questions are immediately asked, 'Where are the ringers?' And if six bells ring and three are seen walking away, it's 'those bad-mannered ringers,' even if they have already been to a service.

RURAL RINGER.

PRELIMINARY NOTICE

Central Council Meeting,
Cardiff, 1962

Headquarters: Park Hotel, Park Place, Cardiff.

For terms see 'The Ringing World' of October 20th, 1961.

Other accommodation:

Queen's Hotel, St. Mary's Street.

B. & B. (per person) £1 12s. 6d.

Grand Hotel, Westgate Street.

B. & B. (double room) £3 (2 persons).

B. & B. (large single) £1 12s. 6d.

B. & B. (single) £1 10s.

B. & B. (small single) £1 7s. 6d.

Central Hotel, Cardiff (Temperance).

B. & B. (per person) £1 4s. 6d.

Guest Houses:

Langford Hotel, 14, Richmond Road.

Beverly Hotel, 75, Cathedral Road.

Glenmore Hotel, 150, Newport Road.

Members are informed that there is an acute shortage of hotel accommodation in Cardiff and they are urged to book not later than February, 1962.

Proposed Concert and Tour. A number of members have expressed a wish to hear a Welsh Choir during the week-end, and through the good offices of Dr. Tudor P. Edwards the Trearky Male Voice Choir are prepared to give a short concert at Pentre, Rhondda, on Whit Sunday afternoon. This would be combined with ringing at Caerphilly and Pontypridd on the way out and back respectively, and tea and ringing for Evensong at Pentre. Those interested are asked to write to

Mr. D. J. King,

1, Hughes Crescent,

Chepstow, Mon.

This would be in no way binding, but is solely to enable the organisers to judge whether sufficient support would be forthcoming to justify asking the choir to give a concert.

PLEASE WRITE NOW.

E. A. BARNETT,

Honorary Secretary.

Central Council of Church Bell Ringers.

**32,912 CHANGES RUNG AT
LOUGHBOROUGH**

On behalf of the umpires of the 40,320 attempt by Mr. Frank B. Lufkin's band, Mr. Robert B. Smith submits the following report.

The band assembled at the Great Central Hotel, Loughborough, at 8 p.m. on Friday, November 17th, before proceeding to the foundry to try the bells. All the band were in bed by 10.30 p.m. on Friday.

Ringing commenced at 5.58 a.m. on Saturday and was a little 'choppy' until the band had become accustomed to the bells. The ringing settled down and the first 10,080 changes were rung in exactly 5 hours. The second quarter was four minutes quicker, the half-way coming up at 3.56 p.m. The three-quarter mark was passed at 8.48 p.m.

The existing record was passed in time at 9.29 p.m. and in changes at 10.5 p.m. Some seven minutes later, the peal was lost when a call, which should have been Home, was called at Middle.

Although the peal was not completed, I feel that the record has 'morally' been surpassed by the fact that the band rang for 16½ hours, and 32,912 changes.

The band stood as follows: Dennis A. Chapman treble, Edgar R. Rapley 2, Peter J. Eves 3, Dennis A. S. Symonds 4, Howard W. Egglestone 5, Norman V. Harding 6, Frank B. Lufkin 7, Walter Arnold tenor.

The band wish to thank Mr. Paul Taylor for the use of the foundry bells, and for all his help in arranging the attempt.

All the band were feeling well at the end of the attempt, and all believe that the extent is possible.

PERSONALITIES OF THE EXERCISE—47

MR. WILLIAM BARTON,
Yorkshire Association.

There are very few ringers who can claim as long a service, in one form or another, with the same church as Mr. William Barton, of Pudsey, near Leeds, Yorkshire. Since 1906 he has served St. Lawrence's Church there, first in the choir when he was nine, and then becoming a bellringer when he was 16. For 15 years he was secretary of the Parochial Church Council. He has also had long service as an officer of the Yorkshire Association, having been a member of the General Committee since 1920, a committee member of the Western District for a couple of years longer, and he was also secretary of the Leeds and District Society of Change Ringers before this. In November, 1920, he was elected the first peal secretary of the Yorkshire Association, an office he held for 30 years. During his time of office, he undertook the arduous task of proving all the compositions which had been rung by the Association since its inception—over 2,000 of them! Since then a list of the 39 false peals found has been printed each year in the annual report, to avoid any of them being called again. The Yorkshire Association is believed to be the only Association which has done this.

Bill Barton was born in Pudsey on May 26th, 1897, and has lived there all his life, except for a brief period during childhood. He started ringing in the latter part of 1913, and was most fortunate in that Pudsey had an excellent band of Surprise ringers, captained by that remarkable man, the late Mr. Pratt Cordingley. The latter was a martinet in the belfry, but a very capable ringer and conductor, and one of the pioneers of Surprise ringing in the West Riding. There is no doubt that it was through his untiring efforts and enthusiasm that, apart from three relatively short periods, Pudsey can claim to have had a local Surprise band for the last 57 years.

LOCAL CONDUCTOR SINCE 1920

Bill's first peal was on February 26th, 1916, when he rang the second to Superlative, and six weeks later he scored his first handbell peal. A period of service followed with the Royal Flying Corps (afterwards the R.A.F.) during the First World War, after which he commenced peal ringing again by conducting his first peal, Treble Bob Major, in November, 1919. He followed this up by calling a peal of Superlative, and became the conductor of the local band, an office he still holds. His present peal total is 307, of which he has conducted 161, and they range from Grandsire Triples to Cambridge Maximus, including Spliced Surprise Major up to eight methods. Nearly all his peals as conductor have been called from a working bell, and a large number have been rung 'in hand.'

Two peals, of which he is justly proud, are the first, and only, peals of Double Norwich and Treble Bob Royal, rung 'silent' on hand-

bells. He called the first peal of Bristol rung in Yorkshire, and rang in the only peal of Oxford Treble Bob Maximus by the Yorkshire Association. He also took part in the first peals of Lincolnshire, Oakham, Pudsey and Rochester Surprise Royal rung by his Association. He has also been interested in composition, and produced a number of interesting peals, the best known being his frequently rung 5,088 of Lincolnshire S.M. Some years ago Bill had two major operations in quick succession, and these prevented him from peal ringing for some time. Since resuming he has gone somewhat steadily, with an average of about two peals a year.

**100 PEALS TOGETHER WITH TWO
OLD FRIENDS**

One of Bill's greatest joys in bellringing has been his long friendship with John Ambler and the late Mr. Percy J. Johnson. At one time it was unusual for one of their names to appear in a peal performance without the other two and, in fact, the three of them rang more than 100 peals together. John Ambler and Bill were at school together, in the choir together and they learnt to ring together. His friendship with Percy Johnson started when he called Bill's first handbell peal in 1916, and continued until his death. They worked in close contact on the affairs of the Yorkshire Association for many years, and Bill still misses him very much. Of the 151 peals which Percy and Bill rang together, they shared the conducting of no fewer than 134 of them. On retiring from the office of peal secretary in 1950, Bill was appointed a trustee of the Association, and on the death of Percy Johnson, he was rightfully honoured by being elected, in his place, a vice-president of the Yorkshire Association and chairman of the Western District. He is also a keen member of the College Youths.

Bill is naturally very proud of the young band which he started to teach at Pudsey after the wartime ban on ringing had been lifted, and among them was his daughter, Pat—now Mrs. M. J. Robshaw. Every one of these beginners 'made the grade' as change ringers, in spite of the fact that Bill was reputed to have scared them stiff in the belfry! This band also achieved some fame as tune ringers on handbells, and for several years had a long list of engagements at functions in the surrounding districts. Unfortunately the handbell band is no more, through departures and marriages of the lady ringers, but Bill still retains happy memories of the regular practices at his house.

Most of Bill's working life has been connected with horology—the study of clocks—and he is a member of the Council of the British Horological Institute, a Fellow of the Institute, and chairman of the West Riding Branch of the B.H.I. He is the superintendent of the City of Bradford Clock Department, which is responsible for the maintenance of all clocks, watches and mechanical instruments owned by the Bradford Corporation, including the Town Hall tower clock and carillon. In this latter, his job and his hobby, to a certain extent, join forces. The tune machine, which is part of the clock installation, plays tunes on a ring of 13 bells, hung in the Town Hall tower, at four-hourly intervals. The bells are hung 'dead,' and were cast by John Taylor and Co. in 1873, the tenor weighing 87 cwt. To supplement the automatic playing there is a keyboard for playing by hand, and Bill uses this frequently to play tunes that are not on the pegged barrels. On very special occasions, he taps out a touch of Grandsire Triples or Bob Major from the keyboard, instead of a tune. These rare performances of change ringing on the Town Hall bells usually bring expressions of approval and interest.

Bill Barton is a true Yorkshireman, with a determination to succeed in whatever he takes up. By his long service to his church, his skill in teaching beginners, always aiming at a high standard, and the exceptional ability shown in his peal ringing performances, he has brought well deserved credit to himself, his tower of Pudsey, and his Association.

APACE.

THE WORCESTERSHIRE AT DINNER

A COMPANY of 136 attended the annual dinner of the Worcestershire and Districts Association on November 4th. This year the dinner was held at the Co-operative Hall, Worcester, and was a new venue for the Association. For a number of years past, the dinner had been held at the Guildhall, Worcester, but due to the uncertainty of repairs to the Guildhall floor being completed in time, it was decided to choose a different hall.

In the chair was the president of the Association, the Dean of Worcester (the Very Rev. R. L. P. Milburn). He was supported by the Master (Mr. W. B. Cartwright), the chaplain (Rev. H. L. Davis) and the general secretary (Mr. J. D. Johnson).

Before the dinner, the bells of the Cathedral (12) were available and a number of members from various parts of the diocese visited the tower.

Following the loyal toast, the chairman called upon the Rev. M. H. Richards, Vicar of St. John's, Worcester, to propose the toast 'The Worcestershire and Kindred Associations.'

Mr. Richards said that he considered ringers to be a fine branch of the Church and reminded them that they were practitioners of one of the most ancient musical instruments, dating back to the Bronze Age, when men hammered metal together. 'What would our churches be like if they were silent? What would happen if all church towers were silenced?' he asked, adding that he would be very sad to think that there would no longer be ringers—that it was no longer permissible to ring bells. He recalled that Handel had once called this country 'The Ringing Isle' and he considered that that was as true today as then. He therefore wished the Worcestershire and all Associations continued prosperity in their service to the Church.

The chaplain, the Vicar of Cradley, in reply, said the Association was formed over 75 years ago, with the object of improving the standard and status of the bellringers. Times had changed since the days when it had been necessary for ringers to draw up rules, stating the fines to be paid for drinking, or smoking, or swearing in the belfry. Nowadays, bellringers were respectable and people from all classes and walks of life took part.

WEDDING OF MISS KATHLEEN BELL

The peal (at St. Nicholas', Nuneaton) recorded in the issue of November 10th, in honour of the wedding of Miss Kathleen Bell and Mr. William Owen, has prompted one of our esteemed correspondents to submit the following note.

The bride learned to ring at St. Mary's, Prestwick, Manchester, where her father, Mr. G. A. Bell, was captain. Upon moving to Nuneaton a few years ago, Mr. Bell joined the band at All Saints', Chilvers Coton, and Kathleen continued ringing until it was curtailed upon her entering the nursing profession.

The wedding was solemnised at All Saints' Church, Chilvers Coton, on September 16th, the Rev. R. R. P. Rigby (Vicar) officiating. The bride wore a dress of white lace over pink tulle, with mother of pearl headdress. Her attendants were Miss Hazel Mather and Miss Jane Reynolds, daughter of Mr. Frank Reynolds, the present captain of St. Mary's, Prestwick, and a cousin of the bride.

The newly-married couple are living in Manchester, so Prestwick tower may again have Kathleen as a regular ringer.

One of the functions of the Association was to step in and smooth out any friction between a team of ringers and a third party. 'There isn't any need for people to argue. A reasonable attitude and a little harmony can make all the difference between a happy team and one at sixes and sevens between themselves and, say, the Vicar,' said Mr. Davis.

A toast to a 'great friend of ours'—the Dean of Worcester, the president—was proposed by the vice-chairman, Mr. W. B. Cartwright.

The Dean, in acknowledging the compliment, said he took great pride in his office and was very pleased to be their president. He went on to say that he had a great love for the sound of bells and something which was always a thrilling experience to him was to stand under the Cathedral tower on New Year's Eve and listen to the bells at midnight.

There was a time in English history, he remarked, when to have the church bells silenced was a sign of a terrible punishment. There was an occasion in King John's time when, because he had displeased the Pope, the bells were banned and this was considered a terrible disgrace.

After the dinner, the members were entertained, beginning with changes on handbells, and courses of Grandsire Triples and Bob Major were rung by Susan Jackson 1—2, R. G. Morris 3—4, D. Beacham 5—6 and G. E. Evenden 7—8. This was followed by professional entertainment.

D. B.

LIVERPOOL UNIVERSITY'S FIRST OUTING

Liverpool University Society selected the Bristol Ringing Festival for their first outing. The journey was made by eight members in a minibus. Clevedon being reached around 12.30 a.m. They were welcomed by Mr. and Mrs. Pullin, who had arranged for their accommodation.

A very full programme was planned for Saturday, starting at St. Ambrose's. Not only were the city churches visited, but ringing also took place at Filton (and also lunch), Clifton, Stoke Bishop, Westbury-on-Trym and Henbury. The party returned to the Cathedral for Sung Evensong and had tea.

The evening's ringing was at St. Stephen the Martyr, the Cathedral, SS. Philip and Jacob and finally at St. Mary Redcliffe. Then all repaired to the Senior Common Room for a social evening as guests of the U.B.S.C.R.

On Sunday morning five of the party took part in a quarter peal of Stedman Caters for morning service at Christ Church and St. Ewen, while the others rang at Yatton. We bade farewell to the Pullins after an excellent lunch and reached Birkenhead shortly after 9 p.m.

'On behalf of the party, I would like to thank our president, driver, organiser and guide, Mr. Geoff Pullin, for all his hard work in arranging this, the first of what we all hope will be many outings by the Liverpool University Society of Change Ringers.'

F. A.

TAYSOM'S TRAVELLERS IN DEVON

ON Friday, October 20th, a company of 12 assembled for a ringing tour in Devonshire. They were Mr. and Mrs. H. Taysom, Ian Smith, Brian Metcalfe (Warmley), Gillian Hussey, Michael Hobbs, David Gore (St. Ambrose, Bristol), Jacqueline Reason, Carol Ritchens, David Barnett, Terry Milsom and Alan Lee (Twerton, Bath). As last year, Henry Taysom drove the minibus and Lustleigh, which was the headquarters, was reached about 10.15 p.m.

Saturday dawned quite bright, but misty in places, and after picking up Mr. Aubrey Bennett we made off for the first tower, Manaton, passing the famous Becky Falls. This granite church has six bells, which were restored by Gillett and Johnston; they are a pleasant ring and are plainly heard in the ringing chamber. Before we left Miss Yvonne Porter turned up on her scooter and we were very pleased to have her with us for the rest of the day.

Onwards over the moor to the old village of North Bovey. The Church of St. John the Baptist has a pleasant mellow six (tenor 12 cwt. in A), and some good ringing was recorded on a tape recorder. St. Andrew's, Morcton Hampstead, proved to have a pleasant toned octave, rung from the ground floor. Ringing here finished with 15 minutes of call changes, with a local man ringing the treble. At St. Michael's, Chagford, the octave, restored by J. Taylor and Co., is very pleasing on the ear and goes very well. Stedman Triples was perhaps the best ringing. For lunch we tried 'The Ring of Bells' and we were able to play back the recordings that we had made so far.

On to Widecombe, which is named 'The Cathedral of the Moor'. The Church of St. Pancras is a fine building and ringing certificates adorn its walls as well as the ringing chamber. The sexton, who met us, complimented us on our rise and fall, Stedman and Spliced Oxford and Kent went well here.

The next tower—St. Peter's, Buckland-in-the-Moor—is situated 1,280 feet above sea

level, and after seeing the famous clock faces, with 'My Dear Mother' on them, we tried to sample the lightest octave in Devon (tenor 7 cwt. 17 lb.), but, alas, the treble rope broke in the rise so the back six had to suffice.

At last we were off the moor and at the Parish Church at Buckfastleigh our Ken: Major was very good indeed. We also had the pleasure of looking down on to Buckfast Abbey and hearing the twelve bells. We journeyed on to South Brent (St. Petroc), where the six are rung from the ground floor, a very pleasant Taylor restored ring, with a 13 cwt. tenor, Cambridge and Spliced Doubles were the highlights, but the local gentleman said they 'too high'; we made up for this with some fast call changes.

Those of the party who had not rung at Dean Prior were allowed to do so, by Mr. Bennett. These bells are worth a visit any time. The last ring of the day was the recently rehung six at Bickington. Some good Cambridge could not be recorded because the microphone had 'packed up.' The proceedings finished with an almost perfect fall.

After saying our good-byes to Miss Porter and Mr. Bennett we returned to Lustleigh to join all the local people for a chat and drink.

Sunday morning we joined the local band in service ringing; perhaps our highest compliment was made by the captain, who said it was the best rise he had heard by 'scientific' ringers. During the afternoon we made our way home and called at St. Mary's, Taunton, where we are grateful to the local ringers who stood down in order that we could ring. Mr. and Mrs. Palmer and Miss Gay, at Lustleigh, looked after us in their usual kindly way. We thank Mr. Bennett, for helping us plan the tour, and to Henry Taysom, who drove the minibus. In all we rang 22 methods and call changes; we said 'last year we would like to come back. We did, and we hope to come 'down in Glorious Devon' again next year.

ST. IVES, HUNTS—A CHURCH OF MANY MEMORIES

By T. A. BEVIS

NATURE speaks to all: in colourful and varied ways she exhorts, uplifts and soothes. One may visualise a placid river reflecting a weathered steeple and wind-swept trees in its twinkling depths, lending itself as a sounding board to melodious bells... truly an English scene. Thus we familiarise ourselves with St. Ives, a pleasant and interesting town in Huntingdonshire, far removed geographically and in appearance from its illustrious seaside cousin in Cornwall.

It is a borough of undying militaristic memories, for here Cromwell drilled his soldiers in an ancient barn and he stands, in bronze, on Market Hill for all to see.

St. Ives has unpleasant memories of one particular day—March 23rd, 1918—when a biplane crashed into the beautiful spire of All Saints' Church.

The pilot of the ill-fated aircraft took off from nearby Wyton aerodrome, and, for some unknown reason landed shortly afterwards in a meadow near the picturesque Hemingford villages. Taking off once more the plane slowly gained height, heading in the direction of St. Ives. A few moments later, at 6.45 p.m., the machine crashed into the slender spire of the parish church.

About 50 feet of the spire fell in two portions into the west end of the north and south aisles; the aeroplane falling into the north aisle, the pilot dying instantly. As can well be imagined, considerable damage was caused; the spire was completely severed; the pinnacles and battlements of the tower ruined; and about 30 feet of both aisles exposed to the sky.

The nave roof was pierced in numerous places, and the bell wheels and frames were utterly smashed, the bells coming to rest on the floor of the belfry.

It was necessary to find £7,090 to pay for the repair of the church and steeple, and £3,873 of this amount was provided by the Government. Some time later the Mayor of St. Ives organised a mile of pennies over the famous mediæval bridge to help meet the cost of renovation.

Much of the church, of necessity, was made new. It is a resplendent building—a little plain, perhaps, from the exterior, but creditably restored inside, being enriched with modern and ancient figures, the latter carved by 15th century craftsmen.

The substantial oak pulpit was made in the 16th century, and an old chest contains a book signed by Oliver Cromwell, then churchwarden, who mixed up religion with farming and became so poor that his farm was taken from him. How would this country have fared if he had been left in peace with his plough?

A MEMORY OF FRANK WARRINGTON

All Saints' Church has a significant place in the writer's personal records, for it was here that he rang his first peal under the experienced, friendly and ever-watchful eye of Frank Warrington, a splendid ringer and undoubtedly one of East Anglia's finest conductors.

A signalman at St. Ives, Frank composed and conducted peals in confident style; but he was best known for his willingness and ability to guide the nervous learner through the 'complex' maze of changes, whether of Surprise or Plain Bob. He passed away in recent years. Despite a period of ill-health, he would not spare himself when it came to ringing bells—so great was his love of the art.

The impressive steeple contains a delightful octave (tenor 12 cwt. 0 qr. 4 lb. in G). Handling remarkably well, the bells are rung from the ground floor; the belfry is arrived at after ascending a somewhat unsightly steel spiral staircase, which would be much more at home in an industrial establishment.

Before 1723 the steeple housed a ring of six bells, the tenor of which was cracked. This was removed and, with its companions, introduced to the melting pot, the resultant ring

ALL SAINTS' CHURCH, ST. IVES.

having a combined weight of 68 cwt. 2 qr. 18 lb

The new bells sounded for the first time above the waters of the Ouse on February 11th of the aforementioned year. It has been stated (without foundation) that the bells were originally intended for Godmanchester church.

PENN'S TRAGIC DEATH

The completed work, however, was considered unsatisfactory and in 1725 a Chancery suit commenced, articles not being performed by the founder, Henry Penn. (Details of Penn's tragic death after his acquittal have already appeared in 'The Ringing World'.)

In 1729 the Lord Chancellor converted the suit in a trial of common law. 'The founder was sick to death at Huntingdon at the time of Trial when 'twas over. He was told he had got the cause. Penn answered 'twas too late, he was far gone that his hart was broke therefore could do him no good.'

In July, 1730, it was decreed that the widow Penn and the town should bear each their own charges, only the town to pay her the damages given on the trial. This cause cost a tidy sum of money, but the poor widow got very little or none of it.

Two bells were later added by Robert Taylor, of St. Neots, and the octave was re-fung in the last half of the 19th century. Later it became necessary to recast the bells, but, happily, Penn's unusual inscriptions have been preserved.

The treble, an early riser, exhorts the listener to 'Arise and go to your business,' while number two, mindful of mundane attractions, preaches 'I praise the true God.' The third intones in sarcastic vein 'Their sound is gone up,' and the morbid fourth, perhaps foreseeing its founder's unfortunate circumstances, sighs 'Sometimes joy, sometimes sorrow; marriage today and death tomorrow.'

The fifth bell upholds ancient tradition in that 'When backward rung we tell of fire; think how the world will thus expire.' Six and seven are inscribed 'Robt. Taylor, St. Neots, Feecit 1796,' and the tenor, in which Penn fixed a coin, comes out with the reassuring rhyme: 'When souls are from these bodies torn, 'tis not to die but to be born.—I Hy Penn Founder.' Incidentally, the bells show three variations of decorative lettering.

A glimpse at the parish records informs enquirers that in 1959 'St. Ives sold a pillow of velvet, etc., and one handbell for jiiis. Also stolen, ij litle bells of sillu (silver).'

A Mr. Robert Langley, in his will dated August 24th, 1656, left six shillings a year for the ringers on January 9th or 11th, for a 'dumb' peal.

Over the years the bells of All Saints' Church have echoed and re-echoed their message of peace and goodwill above verdant pastures in a sylvan setting. Sunday by Sunday their predecessors played on the ears of the soldier-farmer: Milton's Chief of Men—our greatest man of action.

To these parts long, long ago, came a gentle being—a Persian bishop, called 'Slepe,' who numbered among his first converts Ireland's St. Patrick. That Bishop is known today as St. Ive, and in this soil he was laid to rest. Many miracles are attributed to him, and as the bells peal out we might remember: 'There is not any in England more easy of prayer or more helpful than St. Ive.'

Heanor, Derbyshire, has an enthusiastic band of young ringers—four girls, 12 young men. Remembrance Day half-muffled ringing at the Parish Church consisted of 70 minutes before and 30 minutes after the morning service and 30 minutes before and after Evensong. On the Monday afternoon the muffles were stowed away until next year (we hope).

LETTERS TO THE EDITOR

RINGING AND ATTENDING THE SERVICE

Dear Sir.—The letter recently published, from the Rev. D. G. Brunning, offering a suggestion, was written partly with an objective purpose, but it touches on a matter about which all is not well. It may be true that one never hears of 'singers' leaving the church as soon as their part of the service is over, but they do leave; so the suggestion is negated. One never hears especial mention of a ringer who remains on as a singer, although there must be many.

We are quite often being reminded from the pulpit that ringers do not stay to the service for which they ring but it seems that many clergy themselves are not willing to study the problem or even to render any beneficial contribution. Do these clergy realise that at these times they are addressing the wrong class of ringer? It would be better if they went 'out into the world' and gave their message by personal contact to the defaulting ringer. In my most humble opinion, a ringer's task is to assist in ringing the bells for services and, in turn, to teach others to do likewise, and a clergyman's task is to teach the gospel.

The essential factor of a reliable, conscientious and enthusiastic ringer is that he is introduced into the belfry from **within** the church and, moreover, if he is a youngster, that the parents are also **within** the church. The incumbent, through an active choir, Sunday school or youth club, should have sufficient material ready to proceed into the belfry. But, alas, this is often not so and we ringers are forced to keep on and on trying to interest people who are not otherwise attached to or even interested in any of the church activities. Happily, there are a few exceptions to the above and instances where, once becoming a ringer, a person has become a more active church worker. The importance of parents is that, among other things, meal times for ringers on Sundays are often required to be up to an hour earlier than they otherwise would be—this may sound lighthearted, but it is not, and I have had experience of one of my band coming to ring for service and then going home to have his meal because it was not ready before he left. The meal times of a ringer are even earlier than for other church-going folk.

Whilst I readily agree that many more ringers could attend church services, is not a limited offering better than none at all? Think of the thousands of other people who could attend church services, but who do not subscribe even a limited offering. There are many aspects of church attendance which, after all is a personal matter, and in respect of ringers consider the following factual cases. There is a band or ringers consisting of an organist and choristers, but not at the same church—the times of services allow them to ring the bells at one church and then proceed to the second church (which has no bells) and attend the service. Who would advise them to restrict their activities? Evensong is held at 3.30 p.m. in a very large built up area; there is no local band and the bells are rung by people coming 'into town.' The people who ring these bells also return home to ring for 6 or 6.30 p.m. Evensong at their own towers.

Who would suggest that they should stop at both Evensong services, even if distance between the two towers was not an important consideration?

I could write more, including an appeal to the clergy referred to above.—Yours faithfully,

T. J. LOCK.

North Mimms.

SUPPORT FOR REV. D. G. BRUNNING

Dear Sir.—Mrs. H. Hodgson, in her so-called reply to Rev. D. G. Brunning, completely misses the point. Whether we ringers ring for half an hour or so before the service begins or not has nothing to do with it—it is the example set to the rest of the congregation, who are not inclined to look very favourably upon bells and ringers by seeing the ringers walk out. Best to have no bells than to have them made a mockery of, or as one Vicar said recently—treated as tennis balls, for pleasure only!

Ringers have a **duty** to join the rest of the church family in the main and all important parts of the worship to which they have called others. The church exists for worship, **not** merely to amuse ringers and worship is taking one's part in the prayers, the hymns, the lessons and learning from the sermons. 'I ring to **summon** with a lusty home, that all may come and none may stay at home,' says the inscription on several bells I know of.—Yours, etc.

Weston Favell.

P. AMOS.

'THE SERMON DRINK'

Dear Sir.—Years ago I was told of singers leaving the choir during service at St. Nicholas' Church, Great Yarmouth. As the sermon began the tenors and basses were in the habit of slipping out of a side door to the local for a drink and a smoke, arriving back before the last hymn.—Yours truly,

G. E. SYMONDS.

Ipswich.

LADIES' RECORDS

Dear Sir.—With reference to the letter from Mr. Harry Broughton, I must apologise both to him and Mrs. Muriel Reay for the inaccuracy in my writing up of her 'Personality.'

Miss Reay did not make this claim herself, and it was due to my not verifying my facts more carefully. I was aware that the late Mrs. H. J. Poole had rung 677 peals, but thought that she had rung far more than five on handbells.—Yours faithfully,

APACE.

A TOAST

Dear Sir.—

Mr. Mason appears to think
That all we ringers shouldn't drink:
So one is quite beyond the pale
If one likes a glass of ale;
And it's going much too far
To walk into a four-ale bar!

Mr. Williams, and I, should shudder
If there was only the lactic udder
Or water supposedly free
Of bugs and infections
Or other defections—
But: perhaps we should sup tea?

To write up a tour in a way that's amusing
By referring so often to the pleasures of
Instead of relating [boozing]
The casting and dating
Of tenor or treble or some other bell
Now, it would seem, see us all into Hell.

I: is my boast
That when I toast
I sup my wine and say with reverence:
'Down with drink, and here's to temperance.'

—Yours from the Tower.

Nottingham.

CLARENCE.

WHO WANTS TO TAKE OVER WHOM?

Dear Sir.—Your recent leading article about the Guildford Diocesan Guild and the Surrey Association and the subsequent correspondence may lead to speculation in the Exercise as to who wants to 'take over' whom.

The question of the overlap of the two Guilds has been raised with great regularity ever since the formation of the Guildford Diocesan Guild, particularly with regard to divided loyalties and the payment of two subscriptions. Last year several ringers brought the matter up again at a Leatherhead District meeting. It was decided that the only way to deal with the matter was to discuss it in committee, and later to give all members of both Guilds a chance to decide what was wanted.

This is what is now being done, and presumably both the Guildford Guild and Surrey Association will hold general meetings early next year and vote whether or not some kind of join up would be of advantage to the Exercise or desirable to the members of both Guilds.—Yours sincerely,

E. BRAGG.

Aldershot.

THE LADIES AT ROCHESTER

Dear Sir.—May I be permitted just a few lines in your journal to say two things regarding Mrs. Chapman's letter headed 'The Ladies at Rochester.'

Firstly, if Mrs. Chapman is referring to the ringing after the recent Kent County Association at Rochester Cathedral, I should like to point out that the secretary of the Rochester ringers, Mr. T. Beaumont, was at the entrance to the Cathedral, next to that of the tower, for a considerable period of time after 6 o'clock.

Secondly, recent events certainly imply that the Kent Branch of the Ladies' Guild is not capable of holding a meeting on its own. I think I am correct in saying that only one Ladies' Guild meeting was held in Kent this past year without the help of the K.C.A. Might I suggest that this Branch start to recruit new members of reasonable age, instead of electing members at the age of six months! —Yours faithfully,

L. MITCHELL.

Newington, Sittingbourne.

LONDON—NO GEOGRAPHICAL BOUNDARY

Dear Sir.—Regarding Mr. Peter J. Hutchings' letter in 'The Ringing World' of November 3rd, I would point out that there is no geographical county of London. If there was it, and not Rutland, would be the smallest county in England and Wales.

London is only an administrative county and was created under the Local Government Act, 1888, to administer the inner parts of Essex, Kent, Middlesex and Surrey.—Yours faithfully,

DENNIS T. C. SMITH.

Honorary Secretary.

N. & E. District, Middlesex Association, Kingsbury, N.W.

WANTS A STRIKING CONTEST

Dear Sir.—I wonder what the interest would be in a Midland area striking contest, on an open, friendly basis, the teams entered being current winners of their Association's striking contest.

If such a contest is found to be practicable it would be held in a neutral 6 bell tower, within travelling distance of the towers involved.

If any towers are interested, I would be pleased to hear their comments.—Yours sincerely,

S. K. A. HUSON.

Secretary.

Alvaston St. Michael's Ringers, Derby.
3, Cromford Road,
Wirksworth, Derbyshire.

ARCHBISHOP REDEDICATES TENTERDEN BELLS

THERE was a full church at St. Mildred's, Tenterden, on October 29th, when the Archbishop of Canterbury rededicated the bells in the presence of the Mayor (Major Leslie Chalk) and his council. The Mayor took a great interest in the restoration; his appeal resulted in £2,500 being received in almost a week. The Rector (Canon H. Willis) was joined by the Mayor to receive the Archbishop.

Dr. Ramsey took his text from I Peter ii, 4 and 5. 'To whom coming, as unto a living stone, disallowed indeed of men, but chosen of God and precious. Ye also, as living stones, are built up a spiritual house, an holy priesthood, to offer up spiritual sacrifices, acceptable to God by Jesus Christ.' He contrasted their beautiful church with another house of God, a spiritual church of which they were all stones. Just as the builders chose their stones, so must their spiritual stones each be fit for His purpose. There were three requirements:

(1) They must always be steadfast to help others.

(2) They must be united and closely linked together as a family.

(3) They must bring the beauty of the House of God into their lives.

As the old bells pealed out Sunday by Sunday, they would remind people of these things and would summon people to come to Jesus.

During the hymn 'When morning gilds the skies' the choir and clergy and the Archbishop proceeded to the base of the tower for the dedication of the bells. 'In the faith of Jesus Christ we dedicate these bells to the Glory of God in the name of the Father and of the Son and of the Holy Ghost. Amen.'

As the procession returned the hymn 'Now thank we all our God' was sung, followed by 'Angel-voices ever singing,' during which the collection was taken for Tenterden Church Heating Fund and amounted to £40 7s. 6d.

So the service was over and the congregation awaited the sound of the bells, which were rung in rounds by the local ringers, followed by various touches, in which ringers from far and near took part, under the direction of Misses Kathleen Yeo and Violet Relf.

The work has comprised the recasting of the 3rd and 6th, the tuning of all the bells and

The Archbishop of Canterbury (Dr. Ramsey) with the Rector (Canon H. Willis) and the Mayor (Ald. Leslie Chalk) at the rededication of Tenterden Bells. [Photo: 'Kent'sh Express']

re-hanging, with new fittings in the existing frame. The old frame has been retained on professional archaeological advice on the understanding it is good for another hundred years' life. As far as ringers are concerned this has meant retaining the left-hand circle and the 'go' of the bells does not appear at present to be as satisfactory as might be hoped, although it is understood that further work is contemplated in anchoring the frame, which may perhaps bring about some improvement.

THE BELLS

The details of the bells, the heaviest eight in Kent, are as follows:

	Weight	Note	Cast	Founder
Tenor	27-3-23	C	1884	John Warner & Co.
7	22-1-21	D	1884	John Warner & Co.
6	16-2-16	E	1961	Mears & Stainbank
5	13-2-3	F	1826	Thos. Mears II.
4	11-0-14	G	1920	Alfred Bowell
3	9-1-24	A	1961	Mears & Stainbank
2	7-0-17	B	1884	John Warner & Co.
Treble	7-3-6	C	1769	Lesier & Pack.

The founders were represented at the service by the master bell founder, Mr. W. Hughes, and by Mr. Harry Parkes, who had carried out the work in the tower and took part in the ringing after the dedication service.

OUTING

NEWBOLD-ON-AVON

The fourth annual outing of Newbold-on-Avon, Warwicks, ringers and friends took place on September 23rd in misty Derbyshire and Nottinghamshire.

After enjoying the pleasant octave at Wirksworth, we lunched at Matlock Bath, and then pressed on Darley Dale, where Mr. Paulson welcomed us with the bells raised. Here we felt like village cricketers playing at Lords, and this feeling may have accounted for our abortive efforts in this lovely dale.

At Bakewell we were met with the news that no ringing could take place due to grave illness. However, a local ringer assured us that we could ring at nearby Edensor, if we asked. After an unanswered phone call to Edensor Vicarage, our coach took a small male party to this delightful, aptly named Chatsworth Park village, but the Vicar was not at home. But one of the wardens was, and the position was explained to him, and he granted permission for us to ring. Following some nicely struck Grandsire and Bob Minor on this pleasant six, we descended into the presence of a very grave and displeased incumbent, who was not eager to understand the circumstances which brought us there.

Back to Bakewell to collect the righteous, who had eaten fat teas that the sinners had had to forgo. We moved on through rain to Church Warsop, in Dukeries country. (Hint:

always allow an enormous time reserve, somewhere in the middle of all outings!) It is no slight to the fine bells already rung to say that these six were the richest toned bells of the tour. This richness simply demanded our best, and in the welcoming warmth of the ringing room, with the huge pendulum swinging solemnly in our midst, we enjoyed Grandsire, Bob Minor, Reverse St. Bartholomew, and a plain course of Kent.

Our final ring was on the light six at Edwinstowe, in the pleasant company of one of their lady ringers. Our thanks are due to this young lady, and the ringers at Wirksworth, Darley Dale and Warsop, who made us so welcome, and to all incumbents.

W. C. B.

GUILD of DEVONSHIRE RINGERS

Blind Vicar Participates In Ringing

The annual meeting of the North West Branch at Hatherleigh on November 4th was most successful, with visiting ringers from a wide area attending. Methods rung were Grandsire, Stedman, Plain Bob and Kent T.B. The most remarkable ringing of the afternoon was by a blind Vicar, from near Bideford, who joined in touches of Grandsire and Stedman, which he rang with great ease.

Our thanks are due to the Vicar and the ladies, who provided tea.

R. P.

SHEFFIELD AND DISTRICT SOCIETY

The last meeting of the Society at Conisbrough was highly successful, in spite of counter attractions by Guy Fawkes. It was notable in that a great range of methods, including Bristol and Spliced Plain Major, was rung, whilst yet providing plenty of opportunity for those desiring Plain Bob, plain hunt and rounds.

Catering was well organised by the genial secretary (John Seager) and helpers, and in the unavoidable absence of the Ringing Master, Mr. Norman Chaddock was asked to take charge. After suitable notes of thanks and expressions of appreciation to local folk and church authorities a collection of over 15s. was donated to the church funds to help pay for the generous facilities provided.

It is hoped to visit Barlborough and Eckington on December 2nd.

N. C.

BEDFORDSHIRE ASSOCIATION

In spite of bad weather the November meeting of the Biggleswade District at Arlesley was better attended than the previous meeting. About 20 ringers were present. The ringing was varied, methods including Norwich and London Surprise.

The Rev. E. B. Edgell took the chair for the business meeting in St. Peter's Hall after tea.

Durham & Newcastle Diocesan Association

'Ye saints who toil below . . . ran a line in one of the hymns at Evensong during the annual meeting and festival of the Durham and Newcastle Diocesan Association on September 30th. The service was held in St. Michael and All Angels', Bishop Wearmouth, Sunderland. It coincided with the patronal festival and was held near the close of a day that had included ringing on all the four rings of bells in Sunderland.

Although the call in the hymn was to sing rather than ring, as one might have expected the congregation of ringers was able to respond even without accompaniment. The Nunc Dimittis, with Tonus Peregrinus as the chant, showed considerable improvement over the previous attempt under similar conditions earlier in the year at Chester-le-Street.

Ringling at St. Andrew's, Roker, before lunch, was made possible only by the arrival of visitors from Edinburgh, York and Wolverhampton. Good use was made of the other bells at St. Ignatius', Sunderland Parish Church and Bishop Wearmouth, the last two towers being open again after Evensong.

The business meeting followed the ten in Bishop Wearmouth Church Hall. The service due at 7 p.m. limited the time available, and the business was disposed of speedily and in comfortable time to reach the church. This was in pleasant contrast to the protracted meetings of the last two years. The president, Mr. T. Cooke, welcomed those present and proposed an omnibus vote of thanks to all concerned in arranging the meeting and providing the tea.

Reports submitted by the various officers were approved. In these reports it was noted that Tanfield bells had become unsafe and ringing had been stopped. The treasurer was able to report an increased balance in hand and the voluntary contributions from peal ringers had produced £9 6s., which would help towards the cost of printing the report. The Ringing Master reported action on instruction in the drafting of a letter of approach to bellfries, progress towards a manual, and the holding of combined practices during the year. The trustees reported that the properties were safe and sound.

64 RINGERS IN 56 PEALS

The peal report, compiled by Mr. J. A. Ainsworth as acting editorial secretary, recorded 56 peals. These were rung in 31 towers with four on handbells. Only 64 ringers had taken part in the peals and four of those scored their first peal. Leading ringers were J. A. Ainsworth 47, E. N. Harrison 41, J. E. Anderson 39 and G. S. Deas 33. Conductors numbered 12 and J. A. Ainsworth led the field with 31 peals conducted. There were four Surprise methods new to the Association, and the 8,736 of Yorkshire S. Major at Allendale had set up a new record length for the Association after the previous record had stood for 56 years.

The election of officers resulted as follows: President, T. Cooke; hon. secretary, D. A. Bayles; hon. treasurer, F. Ainsley; hon. editorial secretary, J. A. Ainsworth; hon. auditor, J. F. Bird; trustees, W. N. Park and N. I. Wright; Ringing Master, K. Arthur.

The District officers showed three changes, and for 1961-62 are as follows: Northern District—Vice-president, G. S. Deas; secretary, Miss I. Thomson; Southern District—Vice-president, F. W. Cooke; secretary, E. Thompson; Eastern District—Vice-president, C. N. Lea; secretary, W. F. Sheraton; Western District—Vice-president, K. W. Cheeseman; secretary, C. T. Lamb.

Meetings were arranged for Chester-le-Street on January 6th, 1962 (social function), Darlington on May 26th (half-yearly) and Newcastle on October 13th (annual).

New members elected were the Misses L. Garbutt, P. Walker and D. Yeats, and Messrs. A. Applegarth, J. Close and M. Maughan. The Rev. J. D. Hodgson was elected a clerical member.

It was announced that it was hoped to revise the handbook during the year, and also to make some arrangements for ringers who would be visiting Newcastle for the Royal Show in July, 1962. Work was to be restarted on entering peals in the Association's peal book. There were large arrears, and the committee would consider whether this practice was feasible under present conditions. Appreciation was expressed for the services rendered by Mr. J. Brewster in entering so many peals in earlier years.

D. A. B.

SOUTH WALES NOMADS

The first meeting since the annual tour of the South Wales Nomads was held at Trevechin on October 21st. The bells were rung throughout the afternoon, with a short break for the business meeting, when two new members from Llandaff were elected. Thanks were expressed to the Vicar and to the Trevechin ringers, for their welcome.

Next meeting, Rumney, December 9th.

TRURO DIOCESAN GUILD

The autumn festival of the Penzance Branch was held at Paul on October 21st. Those present included the Revs. A. J. Vincent (general secretary), W. H. R. Trehwella (now living in retirement at Penzance), P. S. Gagg (Lelan) and about sixty members. The service was conducted by the Rev. J. H. Tyrrell (Vicar), who also gave an address. The Rev. A. S. Roberts (Branch secretary) read the lesson. Excellent arrangements for tea had been made by Messrs. J. Ladner and W. R. Curtis (captain and secretary respectively of the local band).

The Rev. A. J. Vincent was voted to the chair for the business meeting in the absence of Miss Eileen Symons, who was again elected, as were also the Branch secretary (Rev. A. S. Roberts) and auditor (Mr. Wm. Wood). The statement of account showed a balance in hand of £32 4s. 2d. Zennor was chosen for the spring festival. Thanks were accorded to the Vicar and ringers of Paul for the welcome given. The grand ring of six (14½ cwt.) was well used during the afternoon and evening, and some bands also went to Gualval and Madron.

A. S. R.

KENT COUNTY ASSOCIATION Rochester District Annual

The annual meeting of the Rochester District was a combined one with the Ladies' Guild. About 50 members attended the business meeting at the George Hotel, Rochester, following ringing in the afternoon at St. Mary's, Chatham.

The Dean (the Rt. Rev. R. W. Stannard) presided and an excellent report on the year's activities was presented by Mr. T. Barton, who announced his retirement from the secretaryship in a year's time. Officers elected were: Mr. Barton, secretary; Mr. L. Mitchell, assistant secretary; Messrs. A. Dunk and F. J. Cheal, District representatives; Mr. Peter Bond, Ringing Master for one year in succession to Mr. L. Harmer, who was thanked for his services. Seven new members of the Association were also elected.

The meeting was in favour of the annual meeting of the Kent County Association being held at Rochester on Easter Monday. Questions were asked as to why no tea or ringers' service was held. The Dean explained that the absence of the service was due to the Sunday school teachers' service, but when the District held its next annual meeting at Rochester in three years' time he would arrange for a service.

After votes of thanks many members rang on the fine 10 in Rochester Cathedral.

THE SUFFOLK GUILD North-East District

A variety of methods was rung on the recently augmented and rehung eight at Aldeburgh, where the N.E. District held a meeting on October 28th. At the business meeting, presided over by Mr. P. Bedford, Messrs. T. J. Brock, G. W. Sampson and P. N. Shipley were elected honorary life members, and P. Tiffin and N. Knights junior members. Thanks were given to the ladies for the tea and the Vicar (the Rev. M. J. Ellingsen) and the organist for the service, and Mr. Pilgrim for organising the meeting.

Next meeting, Bungay, January 27th.

NORWICH DIOCESAN ASSOCIATION Southern Branch

The Southern Branch held its autumn meeting at Thetford on October 28th. The Rector (Rev. H. R. Mumford) conducted the service, and the president, Mr. Nolan Golden, read the lesson.

Dr. P. H. A. Jonason presided over the business meeting, supported by the president, Mr. A. G. Harrison (vice-president) and the Branch secretary (Mr. C. F. W. Phillippo).

Thanks were expressed to the Rector, the organist and to Mr. H. Fuller for arranging the meeting.

After tea more Suffolk friends joined in ringing various methods.

BARNSELY & DISTRICT SOCIETY

Nine towers were represented at the monthly meeting of the Society held at Holmfirth, near Huddersfield, on November 11th. The next meeting will be held on December 9th at Shelley. The vote of thanks was proposed by Mr. Noel F. Moxon, and supported by Mr. Harold Chant.

MR. HORACE BELCHER

After a short illness Mr. Horace Belcher died on October 24th at his home at Osterley, Middlesex. Two days later, at dusk, he was laid for the night in St. George's Chapel, Westminster Abbey. Friends from the College Youths and Middlesex Association attended the simple, dignified ceremony, which concluded with a course of Stedman Triples on handbells.

Horace Belcher came to London from Wednesbury, Staffordshire, where he learnt to ring. He lived first in S.E. London, moving later to Ealing and then Osterley and becoming well known in S.W. Middlesex. Since 1945 most of his ringing had been with the College Youths, and he was a member of the Westminster Abbey and St. Paul's Cathedral bands. At St. Paul's the traditional whole pull and stand was rung, followed by half-muffled Stedman Cinques. A peal attempt at St. Giles', Cripplegate, was lost after nearly two hours' good ringing when a rope broke.

He was notable for the very high standard of performance which he set himself and expected of others. Good striking was all important to him, and he was outspoken in his criticism of those who fell short in this respect; his own striking could seldom be faulted.

A great deal of his time was spent teaching beginners, whom he would take to numerous towers to gain experience. Week night practices, cycling expeditions to nearby towers on Saturday afternoons, and Sunday evening quarter peals were all arranged for his pupils' benefit. They were kept on their toes by the sharp rebukes which he administered for any slackness in handling or striking.

His peals included two at St. Paul's Cathedral, rung for the birth of Prince Charles and the 1953 Coronation. He generally rang at the light end, but on occasions would perform equally well at the back end with apparent ease. In recent years indifferent health curtailed his ringing, but he still listened with a keen ear and made his candid comments.

London is now all too short of ringers like Horace Belcher. At a time when there is a tendency for ringing ability to be measured mainly in terms of complexity of methods rung, he set an example of good ringing for his younger colleagues, in whom he always strove to instil a prime regard for good striking coupled with his own high standards of appraisal. J. C. & M. V. C.

AN APPRECIATION

There must be many who owe their progress in the art of change ringing to Horace Belcher, and as one of these I would like to pay a tribute to him as a ringer. He was, first and foremost, an immaculate striker, and he never missed an opportunity of endeavouring to impart his standard to others. This he did in various ways. His sharp tongue will be remembered, not only by young and aspiring ringers, but also by several of the older ringers too.

Nevertheless, in addition to his sharp tongue, he would spend hours in instructing learners in elementary change ringing. There are at least three at St. Paul's Cathedral who owe their progress to his interest and instruction. He missed very little, whether it was bad striking or bad handling, without passing a comment, and he seldom missed the opportunity to forward scientific change ringing amongst call change ringers. As a friend and a ringer he will be greatly missed.

B. K. L.

50 Years Ago

* R.W. November 24th, 1911.—

There is a point of more than passing interest in the peal of Minor at Surfleet last Saturday. It is the first time that seven true and complete 720's have been rung in 16 methods, and what is more remarkable is that one of the 720's was actually rung in four methods, viz.: Sandal, Oxford, London Scholars' Pleasure and Kingston Treble Bob; two others were rung in three methods and two in two methods. The Rev. H. Law James is certainly giving six bell ringers the lead in what he advocated at the Central Council meeting.

OBITUARY**MR. L. H. BAYBUT**

With deep regret we report the death of Mr. Leonard H. Baybut on October 29th, after a long and painful illness.

He returned home from India just over a year ago, after holding an important position in Kashmir for some 25 years. Upon his retirement he had hoped to have taken up ringing again as a regular Sunday service and also as a peal ringer, but it was not to be.

Len was born in Suffolk in 1900 and commenced ringing at West Stow and Bury St. Edmunds. Later he moved to Essex and rang his first peal, Oxford Treble Bob Royal, at Prittlewell, conducted by W. H. Judd. Later he went to London and joined the Essex, London County, Kent and Middlesex Associations, also the Society of Royal Cumberland Youths and the Suffolk Guild. Much of his ringing was done, both service and peal ringing, with the London County and the Royal Cumberlands, under those well known conductors, J. D. Matthews, T. H. Taffender and Jeffrey R. Gammon.

For some ten years, before going to India in 1935, he was a regular service ringer at St. Martin-in-the-Fields and St. Leonard's, Shoreditch. His peals included the first peals of Pudsey Surprise Major, Yorkshire Surprise Major, Cambridge Surprise Royal and Maximus by the Royal Cumberlands, also the first peal of Pudsey Surprise Major by the Kent County Association. He was a very safe ringer and excellent striker, usually on the heavy end.

In all he rang 60 peals, mostly Surprise and Stedman. A full list is made up as follows: Cambridge Surprise—Maximus 4. Royal 6. Major 10.

Superlative Surprise Major 3. Pudsey Surprise Major 2. Yorkshire Surprise Major 1.

Oxford Treble Bob Royal 1. Kent Treble Bob Royal 1.

Kent Treble Bob Major 1. Bob Royal 1. Bob Major 1. Double Norwich Court Bob Major 1. Stedman—Cinques 18. Caters 3, Triples 6. Grandsire Caters 1. Total 60.

His last peal was Cambridge Surprise Major at St. Mary's, Bexley, on January 20th, 1951, in honour of the birth of his grandchild.

During his vacation a few years ago he visited St. Leonard's, Shoreditch, to ring and found that the ropes were in a very poor condition. He at once ordered (at his own expense) a complete set of new ropes for the ring of twelve.

So passes one of the best of friends. Farewell. L. H. C.

THE FUNERAL

The funeral was on November 3rd, the first part of the service being at Christ Church, Bexleyheath, conducted by the Vicar. During the service a course of Grandsire Triples was sung beside the coffin by T. H. Francis 1—2. G. H. Cross 3—4. D. Beresford 5—6. E. Barnett 7—8.

The final part of the service was at Woolwich Borough Crematorium, Falconwood. The mourners included Mrs. G. Baybut (widow), his daughter (Eileen) and her husband, Brian (son), Stanley W. Baybut (brother), and other relatives. Ringers present were Mrs. E. A. Barnett, E. Barnett, D. Beresford (Master, Society of Royal Cumberland Youths), G. H. Cross, T. H. Francis.

SCHOOLS OF RINGING

Two more schools of ringing, this time in Cornwall, have been founded under the aegis of, and are now affiliated to, the College of Campanology. They function respectively at the towers of St. Uny's Church, Lelant, and St. Mary's Church, Penzance; and are under the direction of Mr. Harry Miles.

At the Lelant school are six learners, including the Vicar; while at the Penzance school are no less than 14 learners. The training (of the high standard demanded by the College) is being followed with keenness, and the progress is encouraging.

MR. R. A. JENKINS

A brief announcement appeared in our last issue of the death on November 4th of Mr. Richard A. Jenkins, verger of Holy Trinity Church, Dartford. He collapsed while burning rubbish in the churchyard and by the time he reached the hospital he was dead. He leaves a widow, to whom the sympathy of many friends is extended. He was 75.

Although not a peal ringer, he was happy when amongst ringers either in his own tower or at meetings of the Kent County Association, especially the Lewisham District. In his own tower he was an example of regular attendance and was always ready to hunt the treble or ring the tenor behind. Probably he held a record for quarter peals of Grandsire and Stedman. For many years he was tower secretary.

Practically all his working life was spent in the paper making trade, but during the 1914-18 war he served in the R.F.C., and was a veteran member of the Dartford R.A.F.A. Club. Dick had been verger for the past eight years and on the Sunday previous to his passing he received a presentation in recognition of his faithful service to the church.

The bells of the parish church were rung half-muffled previous to the funeral service on Saturday, November 11th, and again afterwards. The Vicar (the Rev. R. B. Griffen) officiated at the service. Cremation was at Eltham. As a last token of respect a quarter peal was attempted on the Sunday with the bells half-muffled.

A WET WEEK-END FOR INTER-VARSITY RINGING

Bristol and Southampton Universities joint week-end of ringing on October 21st and 22nd was spoilt by the rain. The party, consisting mainly of cyclists, assembled at St. Denys', Warminster (8), but the ringing was far from perfect; and included a touch of Plain Bob Major, having 8-7's at back which came round at hand.

The rain, which had been threatening, began to fall and continued for practically the whole tour. There was little change in the standard of ringing at Longbridge Deverill (8), but the striking improved a little at Kingston Deverill (6) and a course of London was brought round. Ringing took place at Mere (8) and Zeals (6), where the tower was classed 'unsafe.' The tiring wet day had its effect on ringing the heavy eight at Gillingham. Our last ride of the day was to Marnhull Youth Hostel, where we were agreeably surprised to find hot water on tap.

Ringling at Marnhull on Sunday for Matins included a course of Cambridge. After a packed lunch there was afternoon ringing at Stalbridge (6). The last tower was Wincanton (8), where we were lucky enough to be joined by several visiting experts, including the 'tenor king' himself.

Despite the rain the tour was enjoyed and we would like to thank Miss Judith M. Atkinson, who was, owing to illness, unable to see the results of her good organisation.

E. G. M. & C. C.

YORKSHIRE ROYAL RECORD LENGTH ATTEMPT

Dear Sir.—By kind permission of the Rector and ringers of St. Mark's, Worsley, I give notice that it is the intention of a band to attempt to ring a peal of 22,680 Yorkshire Surprise Royal at Worsley on Saturday, December 23rd, commencing at 6.45 a.m. The composition is given below.

29,160 YORKSHIRE SURPRISE ROYAL

By C. Kenneth Lewis

23456	W	H
52436	—	3
35426	—	3
23456	—	3

Twice repeated, inserting 3 bobs at Middle in every course

In first course of 1st part call Before.

In first course of 2nd part call 4ths.

In first course of 3rd part call In.

Reduce to 22,680 by omitting all calls at middle in 2nd part.—Yours faithfully,

ROBERT B. SMITH.

Loughborough.

WRINGTON'S GOLDEN JUBILEE

Ringers from various parts of Somerset and beyond met at All Saints', Wrington, during the week-end of November 4th/5th, to join in the 50th anniversary celebrations of the augmentation of the bells, from 6 to 10, which were dedicated by the then Bishop of Bath and Wells on All Saints' Day, 1911.

On the Saturday afternoon ringing to cater for all tastes took place until 5 o'clock, when the company adjourned to the Memorial Hall to enjoy a first class tea, which had been prepared by members of the local company and their helpers. Amongst those present were the Rector, the Rev. B. Lee, and Mrs. J. H. B. Hesse. During this break photographs of the bells taken at the time of the augmentation were passed round, and an interesting history of the bells was read from a manuscript, supplied by Mr. H. W. Knight.

The festival continued on Sunday when the preacher at Evensong was the Master of the Bath and Wells Diocesan Association, the Rev. H. Warren, who came specially from Exford for the service. Again a goodly company attended and rang for service, which happily combined Evensong with the Association's official form of service.

In his address the Master said that any 50th anniversary was worth observing, and he thought it both a happy and imaginative decision that the original event they were celebrating should have coincided with the church's patronal festival, when they remembered all those, whether ringers or not, who had contributed to and sustained the work and life of the church in Wrington.

The Master praised the quality of the bells, and paid tribute to the ringers, past and present, who had looked after them so well. He told the congregation how fortunate the village was to possess such a fine ring, but one of the penalties they had to pay for this was the frequent attention they received from ringers from far and wide. This required the tolerance and goodwill of those who lived nearby, but this had always been forthcoming and he hoped it would continue, so that the bells would always praise God as they had done down the centuries.

Further ringing after the service concluded the festival, which was brought to a close by a good fall in peal and a general vote of thanks to the local company for organising such an enjoyable week-end. J. B.

GLOUCESTER AND BRISTOL ASSOCIATION

The annual meeting of the Tewkesbury Branch, held at Tewkesbury Abbey on October 28th, was poorly attended—only 18 of the 56 members being present. A few touches of Triples and some rounds on the twelve were rung before the service, but in the evening, with only ten ringers remaining, nothing more ambitious than Minor could be attempted.

Replying to a vote of thanks after tea the Vicar (Canon B. Purefoy) announced that a faculty had been granted for the restoration of the Abbey bells, and he hoped that they would be removed to the foundry in the New Year. Four of the oldest bells would be retained for the clock chimes and the rest would be melted down with sufficient metal added to make a new ring of twelve.

At the business meeting of the officers were re-elected as follows: Chairman and Ringing Master, Mr. E. W. Penn; secretary, Miss N. A. Price (11 Abbey Terrace, Tewkesbury); representative on the Management Committee, Mr. A. G. Pulley.

N. N. A. P.

LEG OF PORK SUPPER

The 356th Harlington November 5th 'Leg of Pork' supper was held this year at the Rectory. The Rector (the Rev. Ronald Bartlett) was a genial chairman, and all were unanimous in declaring it as one of the most enjoyable suppers they had attended. Many new faces were to be seen, promising ringers attending the event for the first time. The Middlesex Association was represented by Mr. F. W. Goodfellow, and the two wardens Major L. F. Ellis and Mr. Lionel Grice, who is also belfry captain, also attended.

ESSEX ASSOCIATION ANNUAL DINNER

A RECORD attendance of 123 members was present at the eighth annual dinner of the Essex Association of Change Ringers, held at the Saracen's Head Hotel, Chelmsford, on October 28th.

Presiding at the top table was the Master, Mrs. R. C. Heazel, and supporting him were the vice-presidents, the Bishops of Colchester and Barking, the Ven. W. N. Welch (Arch-deacon of Southend) and the Very Rev. G. E. Gordon, Provost of Chelmsford. Also present were the life vice-presidents, L. J. Clark and J. Chalk.

It is the custom of the Association to invite, as guests of the Association, those members who are made life members during the current year, and this year the Association had as its guests L. Cordell (North Weald), J. Carrott (Hornchurch) and C. Hughes (Leytonstone).

The dinner followed its usual pattern of meal and speeches, interspersed by entertainment—all were excellent.

The speeches were short and exceptionally witty, the clergy being in fine form. 'The Church' was proposed by the Master, and replied to by the Bishop of Colchester, who confessed that on the previous day he had sat through four hours of the Colchester Oyster Festival, had not eaten a single oyster, having a strong preference for whelks!!

'The Exercise' was proposed by the Arch-deacon of Southend, and replied to by Mr. F. B. Lufkin, and the final toast, 'Vice-presidents, Guests and Artistes' was in the able hands of Mr. C. E. Willington, and replied to by the Bishop of Barking.

Entertainment was provided by Miss Hilda Fleet (soprano), Mr. R. Leavett (sleigh bells) and songs by E. W. and E. G. Roast.

There was a record attendance of 123 members and friends.

An interesting innovation was the playing of a tape recording while the members were assembling, of a recent peal of Stedman Triples, rung at Chewton Mendip, by the Ancient Society of College Youths. This was much appreciated.

FAMILY PEALS BY THE LAMBERTS

A family peal of 50 years ago is recalled by the Lamberts ringing a peal of Plain Bob Minor at Kilndown, Kent, on November 11th. This is the family's fifth peal. The two outstanding peals were Plain Bob Minor at Lamberhurst on October 1st, 1911, by six brothers, and Plain Bob Major at Mitcham on November 2nd, 1911. Of these two peals there are now only three survivors: F. J. jun., R. E. and R. T. Lambert.

By ringing in the peal at Kilndown, Michael R. T. and Jane M. Lambert become the first of the fourth generation of this family to ring a peal.

Mallion Lambert, the forefather of five generations, was, according to a report, a bell ringer at Horsmonden, in the days of call changes. The thanks of the family are due to Mr. E. R. Lambert, who made the journey from Cosgrove to stand in the peal at Kilndown.

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

Personal.—Anon. 10s., Anon. 12s., E. W. Izard £2 (correction).

Peals.—Wellington 3s., Broughton-in-Furness 4s., Llandaff 2s. 6d., Stanwell 3s. 6d., Holi 3s., Swansea 4s., Ringstead 3s., Shelley 3s., Farnworth 5s., Horwich 4s., Kilndown 5s.

Quarter Peals.—Westerleigh 3s. 6d., Claverley 5s., Cirencester 2s. 6d., Heston 3s. 6d., Hutton 2s. 6d., Tintinhull 2s. 6d., Luppitt 3s., Radley 1s. 8d., Little Missenden 2s. 6d., West Bridgford 2s. 6d., Harlaxton 2s. 6d., Hinton Waldrist 6s., Hereford 4s., Lympe 10s., Taunton 2s., Putney 3s., Holywell 2s. 6d., Lane End 6s., Farnham 2s., Sheffield 3s., Selston 3s., Consett 3s., Barming 3s., Lillington 2s. 6d., Farnborough 3s., Bentley Common 2s. 6d., Stourbridge 2s., Bolton 2s., Sutton-on-Trent 3s., West Grinstead 2s. 6d., Blewbury 2s. 6d., West Hill 2s., Rotherham 3s., Leicester 2s., Oatlands Park 4s., Hersham 4s.

ST. MARY'S, EWELL, RINGERS' OUTING

Our annual outing on September 16th was in and around the New Forest; six towers being included in the itinerary.

Three hours' ride through Surrey and Hampshire brought us to our first tower at Fordingbridge, where ringers and friends alike found much to interest them. Two of the eight bells here date from 1655 and several have interesting inscriptions. An unusually large window in the ringing chamber gives a fine view of the River Avon.

Ringwood we found to be decorated for carnival week. The Church of SS. Peter and Paul has a spacious ringing room and is obviously well cared for; notable features are the heavy oaken beams and the uncased clock pendulum swinging by the wall. The ringing here was enjoyed by all the company.

Lunch was booked at Milford-on-Sea and despite the drivers doing their best to lose us on the way we arrived on time. After an excellent meal, ringers made their way to All Saints', where we were kindly welcomed by Admiral Everett, who is tower captain, and who, with Mr. Godfrey, is obviously doing great work in keeping up a local band, under very difficult circumstances. The bells were much enjoyed.

At Lymington we found the Vicar, the Rev. C. H. Bostock, awaiting us, and he gave the non-ringers a most amusing and interesting account of the church. The eight bells (tenor 20½ cwt.) were voted the best of the day and the ringing seemed to do full justice to them.

On then to Lyndhurst for tea, after which we climbed the hill to the Church of St. Michael and All Angels, an imposing building overlooking the town and with a spire some 160 feet high. Our less experienced ringers were alarmed by the length of the ropes and difficulty was encountered, but the same people secretly enjoyed the occasional blunders of the more adept.

It was here that a member of our company discovered that stroking New Forest ponies is by no means as pleasant a pastime as it would appear. Being ungroomed, their coats leave a patina of dirt on every hand that touches them!

A further 30 minutes brought us to our last tower of the day—North Stoneham. Here there is a light ring of ten, with a 9 cwt. tenor, which several found difficult to handle, quite apart from the fact that the second and fourth had no stays.

Our organiser, Mr. J. E. Beams, to whom we are again indebted for all his trouble and effort, has asked the writer to record his thanks to Mr. George Pullinger for help and information on this and last year's outing to Portsmouth. We also thank Messrs. Marlow (Fordingbridge), Cheater (Ringwood), Sapsard (Lyndhurst) and Taylor (North Stoneham), in addition to those previously mentioned.

F. W.

IDEAL XMAS GIFTS

● Bellringers' Car Badge

Bell and Headstock design, in silver on dark blue ground. Heavily chromed surround, with domed perspex cover. Complete with screws for fixing 34/- post free.

Rambling Ringers' 3 Weeks' Tour in West Country

AFTER journeying from many points, although mainly from the north, the Rambling Ringers assembled for ringing at St. Mary's, Warwick. The tower here stands on the east wall and two pillars, which stride over the footpath. The bells go well, but we started cautiously with some simple ringing on the ten. Stratford-on-Avon was the next tower visited, what a glorious setting the church stands in! The last tower of the day was Bideford-on-Avon, a somewhat indeterminate eight, not long augmented from six.

Sunday dawned cloudless and was to prove to be one of the loveliest days of the tour. Ringing for Matins took place at Evesham bell tower. Here we were met by Geoff and Gerald Hemming and the locals who joined us in ringing this fine twelve. After a substantial meal we went to Broadway to ring at the 'old' church—a fine edifice with a six fully in keeping with it.

At Winchcombe we encountered a long draughted six. The tenor rope falls very close to the walls and the bells go far from well. Evensong ringing took place at Bishop's Cleeve, on an easy going and pleasant sounding eight. What a climb we had after this to Cleeve Hill Youth Hotel!

Despite the past efforts of the honorary secretary, no tower was available for Monday morning. The first tower did not make up for this, for it was a rough going and hard to hear the ring of six. Wotton-under-Edge was the exact opposite in every respect and subsequently much enjoyed. Chipping Sodbury bells were found to be of good tone, but loose in the headstock, making the 'go' not all that it should be. Thence into Bristol for the next day, and a complete mix-up.

A BRISTOL APOLOGY

In the morning we first rang at St. James'. The belfry here had been well decorated, and the bells go well. After this we were informed by the local captain that we could not ring at St. John's-in-the-Wall, and this, coupled with the fact that the local captain at St. Stephen's knew nothing of our coming, completely wrecked the remainder of our ringing in Bristol. Unfortunately the steeple-keeper, Cecil Mogford, did not know of our arriving and had the bells up ready. One further tragedy occurred, we had omitted to send Cecil a tour list, and as we did not turn up he could not come with us on the week that he had intended. Our most sincere apologies, Cecil, for spoiling your holiday.

We journeyed then via the suspension bridge into that Mecca of ringers, Somerset. Just over the bridge we 'grabbed' a six before settling down to a very long dinner hour. The effect of this was made manifest by our poor

ringing on the grand heavy eight at Long Ashton, and far too fast ringing Wrexall. Ralph G. Edwards, who joined us for these two towers must have had a poor initial opinion of us!

Yatton was our first tower on a glorious day. The ringing here began, led by the local captain, with belfry prayers. This appeared to set right the pattern of ringing at this tower for it was all of a high standard. It is a great pity that this simple act of dedication is so much lacking from the belfry today. A disappointment awaited us at Congresbury, the third bell being out of the frame. Thus another long break was had for dinner. Midst rain, but with undamped spirits, we proceeded to Winford, a six in a rather high tower. After this it was on to Chew Magna, a regal sounding ring. Wrington's must be one of the fastest moving tens for their weight in the country, and the Cambridge Royal clocked along in 20 cwt. style. Banwell's sound very well outside the tower, but not inside.

A 'CHEWTON MENDIP' OF SIXES

Next day saw us at Axbridge, a 'Chewton Mendip' of sixes. So much were we enamoured by these bells that we oversaw the time of ringing, making us late at Cheddar—our most sincere apologies to the local. The church at Axbridge is fully worth a visit, a glorious pile. Wedmore church, cruciform in plan, stands on a grassy plateau; the bells sound grand in the tower, but rather light for their weight outside. At Glastonbury St. John's we found a rough going eight in a wildly oscillating tower, a rather ill-kept belfry.

On Friday morning we bade goodbye to Joy Whitehead, who had to make a solitary journey back to Bristol to catch the Leicester train. The next day saw us at Butleigh and a rather pleasant old six. At Charlton Mackerel we found a light noisy six, steep stairs and a floor which humps towards the middle. Huish Episcopi, with its beautiful church and good light eight, followed. At Curry Rivel we found that the seventh was obscured from the eighth by a clock case. Curry Mallett proved to have an ideal six for spliced ringing. Here we were met by the Vicar.

Saturday saw our numbers considerably strengthened by the arrival of the Midlands contingent. We had hoped to ring on the twelve at Taunton, but as this was not possible at this time of day we rang on the eight at St. James'. The oscillating tower at Bishop's Lydeard produced some quite reasonable spliced six. At Crowcombe our ringing was poor, considering the capabilities of the assembled throng. Stogumber was found to be a pretty village nestling in the fold of the hills. The ringing here showed a considerable improvement. At Dunster, Bristol just would not go.

UPHILL CLIMB

Sunday saw us at Minchhead's beautiful light ring of ten, remembered also by an excellent course of London Royal. At Timberscombe all the ringing on the eight was of a high standard. Then the grind started, four miles of unrelenting uphill climb. A very kindly Vicar met us at Cutcombe, who afterwards took some of the cyclists in his car to the rather quaint five at Luxborough. Evensong ringing took place at Dulverton, and was much enjoyed. In the evening the half-yearly meeting took place. After several proposals the Norfolk and Suffolk area was decided upon for next year's tour.

Monday saw us, early for once, at Washfield. This was followed by the pleasant light six at Uffculme, and several Minor methods. Thence on to Culloington, where we rang three leads of Bedminster Royal, a method modelled on the Bristol plan. The last tower of the day contained an odd-struck 8, rehung in 1959, at Bradninch. Cannot anything be done to offset this when bells are being rehung?

AT EXETER

Our application to ring at Exeter Cathedral was unsuccessful, but thanks to the kindness of the Vicar, we were able to ring on the noble eight at Heavitree. Here we rang our first course of Glasgow. After lunch we rang at St. Thomas', Exeter, and Pinhoe, before arriv-

ing at Broadclyst (a call change tower and a very fine eight). The night was spent at Ottery St. Mary.

The following morning we rang at the church, a fine building, which we were told was a scale model of Exeter Cathedral. After negotiating a congested main road we rang on the fine old six at Honiton Old Church. Next came the fine eight at Axminster. On the way to Whitchurch Canonorum, we encountered a road which would just take a car and nothing else. Some of the cyclists tried to disprove this with rather alarming results. The last tower was Beaminster (a majestic old eight fully in keeping with the ancient tower in which its stands).

Next day was marked for its rain; it never stopped. The party arrived in bits and pieces at the first tower, Honiton St. George (a rather heavy going six). Thence followed the sixes at Kingstone and Puckington and the wildly oscillating tower at Shepton Beauchamp. It was here that we said goodbye to the Master, who was going off on a week's peal ringing tour. Martock was our last tower, and also our place of rest for the night.

CAMBRIDGE MINOR AT QUEEN CAMEL

The following morning saw us at West Camel (a light five), with entry to belfry via an unsafe ladder. Then came Queen Camel, quite rightly named for both church and bells. Here we rang a magnificent course of Cambridge Minor and this was commented upon by one of the locals. On the fine ten at Yeovil we rang London and Cambridge Royal.

Ringling at Sherborne was highlighted by a well struck touch of six spliced. The heavy six at Henstridge completed the 'weight day' of the tour. Saturday saw us ringing at Timberscombe and Wincanton. The mid-day meal was followed by ringing on the fine heavy six at Bruton. At the 'time signal' tower of Evercreech, London Royal just would not go. At Ditcheat we rang a touch of 10 spliced for the local bride and bridegroom. It was then over the hills to Pilton's fine six. The church stands in a hollow and the glorious tones of the bells reverberate from the sides of the hills.

Ringling for Matins at St. Cuthbert's, Wells, proved to be rather a 'packed' affair as we coincided with a visit by ringers on tour from Slough. The first tower in the afternoon was one of the highlights of the tour, Chewton Mendip, a most magnificent eight. Here we were again joined by Ralph Edwards and some of his friends from Bristol. On then to Chilcompton (a slow moving six, made for good striking). Evensong ringing took place on the heavy eight at Frome.

THE LAST WEEK

Numbers had thinned somewhat when we began the last week of tour, although the ringing at Warminster was still of a good standard. The next tower, Westbury—a heavy eight, and how fine the bells sound from both within and without. Unfortunately for Trowbridge we had not a 12 bell band, so we had to content ourselves by ringing Cambridge Royal. On then to Bradford-on-Avon, where we pulled the bells up in peal, the tenor wrong side, of course! Thence to Bathford, for ringing on the handy, light little six.

On Tuesday, after a night at Bath Youth Hostel, we had the long pull out of Bath, via a straight Roman road to Colerne. After this came the rather rough going six at Grittleton. A rather meagre lunch followed at Malmesbury, and a ring in the detached campanile. The final ring of the day was on the twelve in the much buttressed tower at Cirencester.

Wednesday saw us at the lovely old village at Meyse Hampton. Then followed the fine old ring at Colne St. Aldwyn, and a disappointment, for we were unable to ring at Burford, Leafield, with its octagonal tower, was the last of the day.

The next day saw us in the Cotswolds, and yet another disappointment, for no one was there to meet us at Shipton-under-Wychwood, and entrance to the tower could not be

RAMBLING RINGERS—Cont.

obtained. The eight at Bourton-on-the-Water go very well, as they should, only recently being rehung. Stow-on-the-Wolds has an old eight, which does not sound its weight outside the tower. Brailes heavy six were difficult to ring owing to the oscillation of the tower. After this we visited Chipping Campden, an eight with (so half the party thought) a cracked seventh. Is this true?

Friday saw us first at Great Hampden, and then on the six at Stoulton. Then came one of the plums of the tour, Worcester Cathedral, and here with the aid of some of the Roving Ringers, our sadly depleted numbers were able to ring a semblance of a course of Cambridge Maximus.

Saturday, our last and final day, greeted with a mixture of sadness and, dare I say, a slight touch of relief. Our first tower was Cuckley, the entrance to which is rather peculiar and varied. At Stourbridge we made rather a mistake in the churches, and subsequently had to ring on the light eight.

Halesowen was the last official tower of the tour, although some did manage to 'grab' another tower or two.

Methods rung were:

Maximus.—Cambridge, Kent and Plain.

Cinques.—Stedman and Grandsire.

Royal.—Bedminster, London, Yorkshire, Cambridge, Kent and Plain.

Caters.—Stedman and Grandsire.

Major.—Glasgow, Bristol, London, Superlative, Yorkshire, Cambridge, Rutland, Eastcote, Pudsey, Wembley, Lincolnshire, Oswald, Kent, Double Norwich, St. Clement's, Little, Plain and Original, and also Soliced Surprise in up to 10 methods. Many Minor methods were also rung. J. E. C.

Bell Broadcast

Radio Eireann (530m.). Sunday, November 26th, 4.35 to 5.05 p.m.. St. Peter's, Drogheda, bells and ringers will be heard.

Last Sunday afternoon on Ulster T.V. B.B.C. Shankill (Lurgan) bells and ringers were heard and seen.

Reading and Southampton Universities Tour Devon

THIS year's tour broke new ground—in Devon, and the party had two native guides who were ever ready to act as interpreters and also vied with each other to produce the longest and most arduous routes between towers.

The tour started at Exeter on Sunday, July 9th, where we were to join the Cathedral band to ring for Evensong. Unfortunately the clapper of the sixth had just broken and we were unable to appreciate fully the bells which should have been the highlight of the tour.

After a night at Exeter Youth Hostel, the tour started in earnest with the ride to Dawlish. The ringing here provided us with the problem which was to beset us throughout the week—bad striking due to inexperience of many of the band. At Babbacombe we renewed acquaintance with Mr. Bill Simmonds, a former ringer at Reading University. The pleasant eight at Upton provided the best ringing of the day. At Brixham we were fascinated to find the Anglican answer to the one-armed bandit—a scale model of the church which, on the insertion of a penny, played chimes almost as unrecognisable as some of our ringing.

Tuesday provided the best cycling of the week—a two-mile descent to Dartmouth, after which we enjoyed an hour's ringing on the eight at St. Saviour's. Three sixes completed the day's ringing—Stoke Fleming, Chivelstone and East Portlemouth.

RARE DOSE OF CULTURE

Wednesday saw the first puncture of the tour, and the Land Rover acted as an ambulance for disabled bicycles and their riders. The day's highlights were a good course of London on the excellent eight at Totnes and the best ringing of the tour at Berry Pomeroy. The evening cider-sampling produced a rare dose of culture: for once the saloon became a salon as we were subjected to the declamation of a poem which was certainly epic in length if not in substance.

Amid drizzling rain, Thursday produced one of the most gruelling rides of the tour. At Buckfastleigh the myth of the weaker sex was finally destroyed by one of its members shattering a stay, which turned out to be solid oak. Most of the band were fascinated at Buckfast Abbey in watching the bells from the gallery above the belfry. Unfortunately we did not possess a strong enough band to make a good job of Cinques, but by restricting our efforts to the back ten we were able to hear these bells reasonably well struck.

At Ashburton we were somewhat surprised to see a figure in full Elizabethan costume appear in the ringing chamber. But it was not the shade of an enraged bellfounder, only a member of Exeter University Dramatic Society intent on advertising their Shakespearian production. In the evening a splinter group and the Land Rover made a pilgrimage to Devon's most famous monument, Dartmouth. Seen in the moonlight in a drizzling rain it gained a suitably horrific atmosphere, and the howls of the hounds from the local kennels made us feel as though we had come straight of the 'Hound of the Baskervilles.'

Friday's towers were all eights—Ipplepen, Wolborough, Kingsteignton and Bovey Tracey. On Saturday we worked up a good appetite for lunch on the heavy and difficult bells at Crediton. On arriving at Newton St. Cyres we excelled ourselves by ringing the bells up with the tenor leading! It was only when we found the seventh covering to Grandsire Triples that we managed to work out why the rise had sounded so strange.

We had now returned to end the tour at Exeter, and after ringing at St. David's, the much-praised eight at Heavitree proved a fitting point to end the tour. We must congratulate Fred Sage on his efficient organisation, and sincerely thank all incumbents and tower captains for their co-operation. P. M. W.

John Taylor & Co.

EDITOR: T. W. WHITE.

Fourteen-year-old Nicholas Simon, who conducted a handbell peal at Llandaff on November 8th, is the son of the Bishop of Llandaff. He is the youngest member to conduct a peal for the Llandaff and Monmouth Diocesan Association.

On November 9th the bells of All Saints' Church, Asfordby, Leics, rang out as an 88th birthday compliment to Mr. Evander L. Littlewood, the tower's veteran ringer.

An old favourite—'Doubles Methods' is now on sale with Central Council publications. Price 2s. (post free) from Mr. R. F. B. Speed, Four Winds, School Lane, Stretton-on-Dunsmore, Rugby, Warwick.

A band with a strong Chester Guild representation rang a peal of Belgrave Surprise Maximus at St. Philip's Cathedral, Birmingham, on November 4th. The peal was Mr. Edward Jenkins' 101st peal of Surprise.

Odd Fellows are invited to ring previous to the service to be held at Christ Church, Southgate, N.14, on Sunday, January 28th, at 3 p.m. Ringers are asked to contact Sister F. A. Humphrey, 15, High Street, Southgate.

A record, which has stood for over 30 years in the Kent County Association, was broken on Saturday, November 11th, when 27 Spliced Surprise Minor methods were rung to a peal at Newington-next-Hythe. Congratulations to the conductor, Mr. I. H. Oram, and his band.

Lympe, Kent, is in the news with a quarter of Grandsire Doubles on Remembrance Day. This was not only the first quarter by all the band, but in over 100 years a local band has not rung a quarter on the bells. Enthusiasm runs high for the future.

To the memory of Preb. R. D. R. Greene, a peal was rung at Blaydon, where his father was Rector for 27 years. Through the efforts of the Greene family the bells were installed in 1876 and one of the Prebendary's earliest recollection was, when five years old, riding astride the tenor bell when it was conveyed upon a trolley from Blaydon Station to the Church.

BELFRY GOSSIP

For the 86th birthday of Mr. W. T. Clark, a peal of Kent T.B. Major was rung at Broughton-in-Furness. Mr. Clark joined this tower in 1901 when the bells were installed and only gave up two years ago under doctor's orders. From 1921 to 1936 he was secretary of the Furness and Lake District Branch of the Lancashire Association. The peal band were entertained to tea by Mr. and Mrs. Clark and some of the ringing was afterwards relayed by the Vicar (the Rev. J. A. Briggs) with a tape recorder.

A peal of Snowdon Treble Bob Minor was rung for the royal birth at Warsaw, conducted by Mr. Douglas H. Rooke.

The correct weight of Gretton (Northants) tenor, as given by Messrs. John Taylor and Co., who restored these bells in 1924, is 8 cwt. 2 qr. 24 lb. not 9½ cwt., as stated in the report of a peal published on page 759. The correction is sent by Mr. Percy Amos.

Mr. George E. Symonds, of Ipswich, who is now 86, rang a peal of Minor in four methods at Thornham Magna, Suffolk, on November 12th. For his age it is a wonderful achievement. It was 60 years ago that he called the first peal on the bells.

After the congratulatory peal at Acle, Norfolk, for the 89th birthday of Mr. Herbert W. Lidbetter, the band and other friends were entertained at 'Holly Croft.' They were glad to find Mr. Lidbetter in good health and Doris making steady recovery from a broken leg.

E. H. S., of Shipley, Yorks, writes questioning the time (2 hours 37 minutes) of a peal of Cambridge Surprise Minor at Bradford Cathedral on October 27th. He writes: 'The time is wrong or the peal had a 720 short. I do not think that company could do it in the time stated.'

The ringers of St. Michael's, Blewbury, Berks, are sorry to lose the services of Jim Blond, who has taken up an appointment at the Royal Aircraft Establishment at Farnborough. His colleagues wish him well and hope he will make himself known to local ringers.

ACCIDENT INSURANCE FOR BELL RINGERS

Many Churchworkers, including teams of bell ringers, are insured under the special policies issued by the ECCLESIASTICAL INSURANCE OFFICE LTD. We suggest you make sure that your Ringers are so protected. Particulars will be supplied on application. Those with old policies are recommended to consider increasing the scale of benefits provided.

Ecclesiastical Insurance Office Ltd.

OUTING GREASLEY

A journey of 335 miles, into North Wales and back, was accomplished by seven young ringers in Mr. D. P. Jones' big Riley for a November outing. Mr. Lewis Griffiths, of Llandudno, arranged for six towers and with Mrs. Griffiths accompanied the party with Mr. Jack Evans (Rhyl) and Mr. John Allenby (Rhuddlan).

The first visited was the marble tower of Bodalwyddan, and, despite recent correspondence, the bells went well, only needing adjustments to ropes and the treble stay. Other towers visited were Rhuddlan, Llandudno, the newly rehung six at Llandegai, Beaumaris (after a peal of Cambridge Major by the University of Wales Society), St. David's, Glanadda (where Dr. Marshall and Mr. Window helped to ring the good eight).

After thanking Mr. Griffiths and other friends, Guy Fawkes was remembered during the 150 mile journey through the night and fireworks were let off en route.

BEVERLEY AND DISTRICT SOCIETY

The new ring of six at Holme-on-Spalding Moor, East Yorkshire, augmented from the original three and dedicated in April this year, has presented a problem to the Beverley and Selby District Societies, as the tower lies midway between their respective areas. A happy compromise was reached on November 11th, when the two Societies held a joint meeting, at which 49 ringers were present to enjoy the good tone and easy 'go' of the bells.

The Vicar (Rev. D. B. Haseler) welcomed both Societies at the service, when the lesson was read by Mr. L. M. Woodhead, secretary of the Selby Society. An excellent tea was served by the local ladies in the Old School and was thoroughly enjoyed. The vote of thanks was proposed on behalf of the two Societies by Mr. Ducker and was responded to by the local captain (Mr. E. Dove) and the Vicar. Both paid tribute to the efforts of the Sutton-on-Hull ringers in their coaching of the local company.

The Vicar expressed his wish that the tower should remain a 'borderline' case, and it seems certain that both Societies will make return visits.

LATE NEWS

We regret to report the deaths, during the past week, of two former members of Sheffield Cathedral Company—Mr. Haydn Thorpe and Mr. Sidney F. Palmer.

SALISBURY BRANCH OUTING

A pleasant afternoon was spent on October 7th in the nearer parts of Hampshire by members from Salisbury and Wilton. Leaving Salisbury and the rain-belt at 2.15 we found the sun shining at Broughton, where the Vicar and captain of the ringers met us and three quarters of an hour was spent on the light and sweet toned six. Through winding lanes in the Test Valley we came to King's Somborne, with its fine church, set in a large well kept churchyard. Here Mr. W. Perry met us and we were joined by a carload of our newest members from Ludgershall, who had first rung for a wedding at their own church.

On to Winchester for tea and a quick glimpse of the Cathedral, and then we found our way to Bishopstoke, where two of Mr. George Pullinger's former learners met a third, who was with us. Lastly, we called at Sheffield English, where ringing came to an abrupt end ten minutes before it was due, by a rope breaking. Our handyman put on a spare rope so as to leave all ready for the local ringers next day, and we still had time for a quick visit to the Hatchet, before leaving for Salisbury. We thank the incumbents and ringers at all the churches we visited, and Mrs. Abrahams, who made all the arrangements.

Registered at the G.P.O. for
transmission as a newspaper, 8d.

AUSTRALIA IN ENGLAND, 1961

THIS is not yet another apologia for the departed 'Ashes,' but records another sort of Australian invasion which has received rather less publicity. Many ringers up and down the country must have had the pleasure of meeting and ringing with one or other of the Australian ringers who have come here this year, and it will have been obvious to them that ringing in Australia is now well past the infancy stage.

First to arrive, in February, was Bill Lampard, from Adelaide. Wanting to get in as much ringing as possible, he naturally selected the greatest concentration of bells in the country (where else but Bristol?) for his residence. In England it can be definitely stated that Bill is not his twin brother, which must be a great simplification to Rita Webb, of Warmley, to whom he has recently become engaged. It looks as if Bill will be staying with us for a bit.

In April, Ken Minchinton, of Melbourne, paid an all-too-brief, business-packed visit, which left him very little time for ringing. This is a pity, for Ken is a fine ringer, and we hope his next visit will be better organised.

In June, Brian Cox, from Adelaide, arrived in the process of a year's intensive round-the-world course of ringing, opera and concert-going. Brian's stamina has been as admirable as his charm as he has sped from La Scala to Pipe's Pilgrims, from the U.A. tour to the Edinburgh Festival, and from Bayreuth to the S.F.E. tour in Cornwall. In August he rang his first peal, and has since added seven more, including Cambridge Major and Stedman Triples (twice).

Harvey Bagot, also from Adelaide (how are you getting on in Adelaide?), did not arrive until September, but by the end of October had already 'conquered' over 60 English towers and had become known to many ringers in London. Harvey is a fine striker and is rapidly making up for the lack of opportunity in method ringing in Adelaide. He is here to improve his physics for a year or two, and should be a credit to any band he rings with over here.

All those so far mentioned are Australians born and bred and have never before been out of Australia. We have also been able to welcome back some English-born ringers who now live in Australia. In April, George and Diana Pipe (and Sarah) came over for a few months on business, and they need no introduction. They have been a tremendous help in Melbourne during the five or so years they have been there, and many people besides this chronicler must have enjoyed hearing at first hand all about it.

Two old Leicestershire ringers also paid a welcome return visit in 1961. Bill Smith, from Turramurra, Sydney, has been back once before since he first went to Australia before the first war. During the time he has lived in Sydney ringing there has progressed a very long way, and this is in no small measure due to his efforts. Jack Spencer also left Leicestershire just before the first war, and this is his first return visit. Jack was a stalwart of the Melbourne Cathedral band up until a few years ago when poor health forced him to give up. He rang in the peals of Grandsire Cinques and Bob Royal with the English Tourists in 1934 and was captain of the Cathedral band for a while after the last war.

In recording the history of Australian ringing in England in 1961, two other events should be mentioned. At Stoke-on-Trent the Central Council elected George Pipe an honorary member, for they felt that as ringing in Australia has now come of age it should have a representative resident in Australia. George's fascinating account of Australian ringing given after the meeting was listened to with interest and applause for a very satisfactory story. In April eight members of the St. Paul's Cathedral, Melbourne, Society visiting or resident in England attempted a peal at Withyham, in Sussex, but lost it due to the inattentiveness of the conductor, who clearly needs a refresher course in Melbourne.

Finally, one very important event in the history of Australian ringing which occurred this year in Australia should be mentioned. The old New South Wales Association has been re-formed as the Australia and New Zealand Association, and this at long last fulfils the wishes of many that all Australasian ringers should be united in one Association affiliated to the Central Council. The best wishes of all ringers will go out to this new Association.

P. M. J. G.

ANCIENT SOCIETY OF COLLEGE YOUTHS

At the business meeting held on November 11th, at 'The Rising Sun,' Carter Lane, E.C., the following officers were elected for the year, 1961/62:—

Master: Mr. William T. Cook;
Secretary: Mr. John Chilcott;
Treasurer: Mr. Cyril G. J. Watts;
Senior steward: Mr. Michael V. Chilcott;
Junior steward: Mr. John Phillips;
Trustees: Messrs. Ernest G. Fenn and J. Frank Smallwood.

NEW OFFICERS OF THE POLICE GUILD

Ex-Inspector Thomas R. Butler, of 27, Lynwood Gardens, Orrell Park, Liverpool 9, was elected president of the National Guild of Police Ringers at the annual meeting of the Guild at Grantham on September 30th. He succeeds Ex-Sergeant E. Charles Turner (Leicester City Police).

Constable Arthur Pearce, of 197, Wythenshawe Road, Manchester 23, was elected to the office of honorary secretary/treasurer in place of Constable John A. Smith (Leics and Rutland).

The new honorary auditor is Constable Richard Benson, of the Manchester City Police. He succeeds Sergeant Jack Rawson (Leics and Rutland).

The two vacancies on the committee, caused by the election of Messrs. Butler and Pearce to higher office, were filled by the retiring president and secretary.

KENT COUNTY ASSOCIATION Lewisham District

The annual meeting of the Lewisham District of the Kent County Association was held at St. Alfege's, Greenwich, on October 28th. The service was conducted by the Vicar (the Rev. J. N. Higgins), and the lesson was read by Mr. E. Barnett. Ringing before and after tea was under the leadership of Mr. I. H. Oram, District Ringing Master.

During the business meeting, at which Mr. E. A. Barnett took the chair, Mrs. E. A. Barnett was appointed a District representative in place of Miss I. Inman, who did not wish to be considered for re-election. The other officers were all re-elected.

MY MINOR TROUBLES

Grandsire Doubles. Plain Bob too
Peals of these I've struggled through.
But at Minor I'm no good,
Seems my head is made of wood.
Harry, Francis, Bert, or Laurie
Start me off on Cambridge. 'Sorry!
Missed the dodge in making places.'
Sad dismay on all their faces.
Now a dodge and lead they cry.
We struggle on 'till rounds are nigh,
Oh, take me back to ringing five,
My mind is buzzing like a hive.

I go to meetings, dare I ring?
Kent, Cambridge, Oxford are the thing,
But bobs they do confuse me so
Till Charlie shouts 'You're on the slow.'
'Watch the treble,' says the Master,
'Pull your backstrokes in much faster.
Open up your handstrokes now.'
Then in shame my head I bow.
Miss the dodge that's in three four
And feel like sinking through the floor.
Tho' fellow ringers kind of heart,
Take all my clanging in good part.

Triples, Major, Cinques, the lot
What marvellous brains these folks have got.
Tho' peals of these do come to grief
Through lack of concentration brief,
Bells shifting course and out of place
Blank concern on every face.
In all lost peals it is the same,
Cinques or Doubles, who's to blame?
Fred, Lorna, Albert, Ron or Jack
Hold inquests on the last lead back.
I think I'll minimize my troubles
By ringing only Grandsire Doubles.

BARBARA FISHER.

Bentley Common, Brentwood.

PERSONALITIES OF THE EXERCISE—48

MRS. R. RICHARDSON,
Lincoln Diocesan Guild.

When Mrs. R. Richardson, of Surfleet, Lincolnshire, started ringing in 1914, lady ringers were a curiosity in the county. At one meeting in the early twenties, which she attended with her fiancé, the late Rupert Richardson, whom she married on July 3rd, 1923, the president, Canon Nicholas, invited her to sit at his table for lunch. He did not seem to think she was safe with the rest of the ringers! On another occasion, Rupert was invited to take some lady ringers to a meeting of the Eastern Branch of the Guild, as no one there had ever seen a lady ringer! Miss Phyllis Hare, later Mrs. H. J. Poole, who learnt to ring with Mrs. Richardson, went along to the meeting, and they had to ring in every touch during the afternoon and evening, so that all the men had a chance to ring with them! It was a record meeting, and they were certainly on show!

Mrs. Richardson (née Annie Parkins) was born on May 5th, 1895, at Woodston, near Peterborough. She was educated at the Woodston C. of E. School, and at the County School, Peterborough, and before her marriage she was in the teaching profession. She was taught to ring by Herbert Hoare at St. Augustine's, Woodston. The bells had been dedicated in June, 1914, and as nearly all the ringers had joined the Forces a band of ladies helped to ring the bells, so Miss Parkins and Miss Hare started together. Mrs. Richardson rang her first peal at Woodston on May 10th, 1919 (Bob Minor), and she has now rung 270 peals, of which she has conducted two. The first of these was seven Minor methods at Woodston on February 23rd, 1923, and the other was a ladies' peal of Minor in three methods at Gamston, Notts, on March 8th, 1930. In the early twenties the Ladies' Guild had only been in existence for a decade, and Mrs. Richardson joined the newly-formed Northants Branch on February 19th, 1921, and later formed the Lincolnshire District on July 9th, 1927. She has been its secretary ever since—some 34 years—and has served on the Central Council as one of the Ladies' Guild representatives since 1932.

During the thirties Mrs. Richardson and her husband frequently joined William Pve's and Frank Bennett's peal tours, thus enabling them to ring peals in many parts of the country. She has rung peals in England, Ireland, Scotland and Wales, as well as Australia, and has also scored handbell peals on the Mediterranean Sea, the Red Sea, and the Pacific and Indian Oceans. She has rung peals in 18 different twelve bell towers. Since her marriage Mrs. Richardson has been engaged in bulb growing and farming, and once took part in a farmers' peal of Bob Major at Walesby on February 18th, 1950. When the famous Boston bells were broadcast to Boston, U.S.A., Mrs.

Richardson was one of the ringers who took part.

THE GREAT ADVENTURE

Undoubtedly the highlight of Mrs. Richardson's ringing career was the tour to Australia in 1934. She rang in all the tower bell peals, and four of the handbell peals, and one of her proudest memories is the peal of Grand-sire Cinques at St. Paul's Cathedral, Melbourne, on November 11th, 1934. This was conducted by John S. Goldsmith, who rose from a sick bed to ring. She also had the honour of presenting the Central Council's illuminated address to the ringers of Australia. The handbell ringing on board ship during the trip required the greatest concentration. The noise, movement and inability to find a quiet spot was not conducive to peal ringing. The people milling round towards the end of the first peal, and the remarks and explanations going on at the back, had to be seen and heard to be believed! She also rang handbells in the Oasis of Sheikh Othman, near Aden, one of the hottest places in the world.

After Mrs. Richardson's marriage to Rupert, their home became a rendezvous for many ringers. Their leisure hours were also all given to ringing, so that besides taking as the first consideration their duty to the church, it was their social life as well. Their generous hospitality was never spared, and many well known ringers have spent weeks or week-ends at Glyn Garth. Handbell peals were very popular, and have been rung in all kinds of places in the house and on the farm. The names in the visitors' book are far too numerous to mention—ringers were always welcome and made to feel at home. Since 1947, Mrs. Richardson has been captain of the ringers at Surfleet, the lightest 12 in the country, and has been a member of the Church Council for many years, through being a representative at the Ruri-decanal Conferences. For twelve years she has been the enrolling member of the Mothers' Union, and arranges for the cleaning of the brasses and flower decoration in her church.

Mrs. Richardson's generosity, friendship and hospitality have been much appreciated by the many ringers who have visited Surfleet. Both she and her late husband were extremely popular, and helped to build up the social side of ringing, which is so important for the continuance of the art. Although she does only a little ringing now, Mrs. Richardson much enjoys attending Central Council meetings, and chatting with old friends, and the conversation must often be of the happy times spent on tour, and at Glyn Garth.

APACE.

LLANDAFF AND MONMOUTH ASSOCIATION

A Monmouth Branch meeting was held at Blaenavon on October 28th and some 40 ringers attended. Ringing on this light eight was ably arranged by the Branch Master, Mr. T. Stephens. The service was conducted by the Vicar, the Rev. J. H. E. Davies, and the lesson read by the Rev. J. A. Rogers.

Tea was served in a nearby hall, and Mr. J. Pryor thanked the ladies and Blaenavon ringers, who had so kindly provided and prepared it.

At the business meeting members stood in silence to the memory of Mr. Charles Greedy, a life member of the Association. Three new members were elected from St. Woolos', two from Blaenavon and one from Caerleon.

St. Mellons was chosen for the annual Branch meeting, early in 1962.

LATE NEWS

The many ringing friends of Mr. Henry O. Baker, general secretary of the Chester Diocesan Guild, will be pleased to learn he is making good progress, following his recent serious illness. After nine weeks in Chester City Hospital he has been transferred to Ward 2, Barrowmore Hospital, Great Barrow, Chester, for convalescence, and hopes to return to his home and family in about three weeks.

Central Africa's First Ring of Bells

CATHEDRAL OF ST. MARY AND ALL SAINTS,
SALISBURY, RHODESIA.

THE consecration of Central Africa's first ring of bells at the Cathedral of St. Mary and All Saints, Salisbury, by the Lord Bishop of Mashonaland on November 5th, was marked by the pageantry of massed choirs, a military band and processions, as well as by the ringing of the bells.

The bells, ten from the Whitechapel Foundry (tenor 24 cwt. 3 qr. 1 lb. in E. flat), have been housed in the newly built tower for less than a month; and as all but a very few of the local band had seen a bell rope before then, it says a lot for them and their instructors that all the ten bells were rung for the consecration.

After the service all ten bells were rung again, and there were some well struck rounds on eight. An attempt to ring Grandsire Doubles on the front six was unsuccessful. The quality of some handbell ringing, in the afternoon, which included touches of Bob Minor, Grandsire Triples, and Bob Major, suggests that it will not be very many weeks before the new ring will be heard in changes.

Apart from the local ringers, and a party of regular practisers from Marandellas, 50 miles away, ringers were present from the Umvukwes (65 miles), and Umtali (170 miles).

Fifteen ringers and friends sat down to lunch at Meikles Hotel, where the experienced ringers brought memories of towers in Kent, Gloucestershire, Oxford and Cheshire, Suffolk, Somerset and Scotland.

A business meeting of the Mashonaland Diocesan Guild was in the afternoon, in the Parish Hall. Mr. Peter Raynor, Master of the Guild presiding, assisted by Mr. Ken Cross, honorary secretary/treasurer. Mr. George Collins was elected Ringing Master of the Salisbury tower, and Mr. Mike Baker as the steeple-keeper. It was agreed that Wednesday should be kept as practice night, and to divide the practice into beginners at 5.30 p.m. and more advanced ringers at 7.30 p.m. Handbells ringing is to be continued as before; but it was recognised that top priority is to be given to the training of enough ringers for service ringing, in changes, as soon as possible.

The ringers included: Miss Joan Winter (Salisbury), Mr. Harry Wright (Umtali), Mr. Mike Baker (Salisbury), Mr. Bruce Berrington (Marandellas), Miss Frankie Pellatt (Salisbury), Father French (Salisbury), Mr. Ekins (Salisbury), Mr. James Milford (Marandellas), Mrs. Val Grossmith (Umvukwes), Mr. Peter Raynor (Marandellas) and Mr. George Collins (Salisbury).
K. S. C.

ARCHDEACONRY OF STAFFORD SOCIETY

Saturday, October 28th, saw the Society in Tamworth once again. The weather was fine and the trip through the leafy lanes from the industrial areas of the Archdeaconry was indeed pleasant. This historical town is dominated by its ancient castle, looking most impressive in the autumn sunlight. A number of members took the opportunity of looking round the castle, now a museum, in addition to their ringing activities.

The fine Norman church of St. Editha was the venue for the meeting. Last year the bells of this tower were augmented to a ring of ten by the addition of two new treble bells. It was generally agreed that the 'splice' had been carried out well and that the Archdeaconry now possesses another excellent 'ten,' with a tenor of 21 cwt. Ringing during the afternoon was organised by the Ringing Master, Mr. James Eastwood, and all tastes were catered for. Methods ranged from rounds for the learners to Surprise Royal for the skilful and ambitious.

The service was conducted by the Rev. A. Jones (Vicar). There was no formal address, but the Vicar welcomed the Society to Tamworth and gave some interesting historical facts about the church, tower and bells. After service the congregation made their way to the new Church Hall for tea. There an excellent fare awaited and more than 70 members and friends sat down to a meal provided by the Tamworth ringers. Grateful thanks are extended to Mr. George H. Peers junior and his willing helpers, for providing tea. At the business meeting, following tea, 21 new members were elected into the Society, including six from the village of Shenstone, where a ring of five bells has recently been installed.

Ringing continued until almost 8.30 p.m. and many members and late-comers availed themselves of the opportunity of ringing on these fine bells. A most successful meeting and we look forward to coming to Tamworth for a meeting, in, we hope, the not too distant future.
D. J. T.

TRURO DIOCESAN GUILD

The annual ringing festival of the Stratton Branch at St. Olaf's, Poughill, on November 11th, was one of the most successful to be held.

The Guild service was taken by the Vicar (Rev. P. L. Ashford), who is this year's president, and he also gave the address. The collection for Guild Funds amounted to just over £2.

Over 50 sat down to a grand tea in the Parish Hall, prepared by the ringers' wives and friends. The Vicar thanked all who had helped in any way to make the festival a success, and was pleased to welcome a party from Truro, which included the Guild president (Mr. A. Carveth) and Ringing Master (Mr. R. Burnett).

At the annual meeting, which followed, Mr. R. J. Hicks and Mr. A. J. Hambly, both of Marhamchurch, were re-elected as secretary and treasurer and Mr. H. Stacey, Branch Ringing Master. Subject to permission, it was decided to hold next year's festival at Week St. Mary, and that the Rev. W. T. Simpson be next year's president.
R. J. H.

SHERWOOD YOUTHS

Various methods, including London, Cambridge and Spliced Treble Bob, were rung when the Sherwood Youths rang on the good six bells at Wollaton on November 18th. The visitors were made most welcome and Derby members were well represented. A free tea was provided in the Church Hall.

SPLICED SURPRISE ROYAL

Dear Sir,—I send figures of Spliced Cambridge and London, No. 3, which should interest ringers of Spliced Surprise Royal. It contains 2,560 Cambridge and 2,600 London and all work each bell,—Yours faithfully,

A. J. PITMAN.

CONGRATULATIONS TO LYMPNE

Dear Sir,—You will, I believe, be publishing details of the first quarter peal to be rung by the newly-formed band at Lympe, Kent. I am told that this is the first quarter peal to have been rung on these bells by a local hand, and I would like to add my congratulations to the many that I am sure the band will have already received.

Lympe is an out-of-the-way village, making it all the more difficult for outside help to be called upon, and the fact that the ringers have thus, for the most part, taught themselves, coupled with the fact that Lympe bells are not, generally speaking, considered the easiest of sixes to ring, makes this a performance of some merit.

Lympe ringers have shown that success will come with perseverance; I hope they may be an example to other struggling bands, and I shall look forward to their recording a local hand peal in the not-too-distant future.—Yours faithfully,

NICHOLAS J. DAVIES.

Ashford, Kent.

THE NEW METHOD

Look to now all you tenors,
Take note, two, three, four, five,
This method's calling differs,
It makes you feel alive.
There are no Bobs or Singles,
Right from the first struck blow,
The treble shouts at every lead
In double forte: 'BINGO!'

R. C.

Armitage, Rugeley, Staffs.

MILTON MALSOR BELLS

Dear Sir,—It was with great pleasure that I read on page 749 of 'The Ringing World' about the work of rehanging the above bells being near completion. These bells have been of special interest to me since my early boyhood, when I helped to chime them and 'ring in' for Sunday services.

Prior to World War I, they were seldom rung except at Christmas time and for the New Year. On the three last Mondays in Advent the bells were rung for about fifteen minutes, commencing at 5 a.m. Method ringing was not known at Milton in the early 1900's, but the village band could ring a well struck six-score of Grandsire Doubles by numbers, and also, much to the delight of the local inhabitants, 'The Shepherd's Hey'!

In the spring of 1921, a new band was formed and learnt the art of method ringing. Progress was rapid and within a few years several methods were rung, including Stedman and Carter's, and striking was of a high standard in spite of the 'go' of the bells.

I think I am correct in stating that only two peals and 21 quarter peals have been rung at Milton, the first peal being for the Central Northamptonshire Association on March 8th, 1923, viz., Plain Bob and Grandsire, in 3 hours 16 minutes: A. W. Turner 1, C. S. Yates 2, R. F. Asplin 3, J. A. Townsend (cond.) 4, P. C. Asplin 5. First by a local band—all natives of Milton. The second peal, also Plain Bob and Grandsire, was for the Peterborough Diocesan Guild, in 3 hours and 18 minutes, on November 24th, 1924: A. W. Turner 1, C. S. Yates 2, J. A. Townsend (cond.) 3, J. M. Gray 4, Tom Tebbutt 5. In those days Tom Tebbutt, now living at Moulton, was one of Northampton's leading ringers. J. M. Gray was from the Towcester district. Of the quarter peals, Tom Tebbutt conducted two and I eighteen. One was non-conducted.

Unfortunately, after ten years of regular Sunday service ringing, the band was split up. Philip Asplin, it is sad to relate, died in early manhood. Raymond Asplin moved to the South of England, and I left the village. The 'go' of the bells became worse, and very little ringing was done. From time to time I have kept in touch with my Milton friends, and I feel sure no long ringing attempts were made after 1931.

About ten years ago, after attending a meeting at Collingtree, my son (Bernard) and I walked the pleasant mile to Milton. This piece of countryside, by the way, has been somewhat altered since then by the M.1 cutting through between the two villages. At Milton church we met (by arrangement) my old friends, Albert Turner, Charles Yates and Willie Stockford. We managed a few short touches on the bells, with fairly good results—but five minutes at a time was enough!! Several Milton people remarked, 'How nice to hear the bells again.' A. Turner and C. Yates still live at Milton, but I am not sure about W. Stockford.

The late Rev. B. E. Evans, M.A., who became Rector of Milton in 1917, wrote 'The Story of Milton Malsor,' which was published in 1924. One chapter in the book was devoted to 'The Bells.' Another chapter, 'The Name of Milton' explains the changes that have taken place in the naming of the village, and states that in 'Domesday Book' it is referred to as Moltone, Mideltone and Mideltone. The village has been known as Middleton, Middleton Malesour, Middleton Malsor, Milton and Milton Malsor.—Yours sincerely,

JOHN A. TOWNSEND.

WEST COUNTRY FRIENDSHIP

Dear Sir,—On Wednesday evening, November 15th, I had the privilege to take part in a peal of Grandsire Triples, 'Holt's Ten-Part,' at the Church of St. Bridget, Bridgerule. This was Tom Myers' 200th and what a glorious peal it was, despite the fact that some of us were nearly frozen by the bitter N.E. wind, which was cutting through the ground floor ringing chamber.

Tom has been the stalwart of method ringing down this end of the country for many years, where, at times in the past, peals were very hard to come by. I first met him when I was demobbed from the Army in 1919; he was then a boy wearing short trousers, and we have been great friends ever since. I don't expect to have much hope to be in when his 300th arrives, but still we never know. The evening finished in great style, before a blazing fire in the village inn, a very happy party.—Yours faithfully,

WILLIAM G. LAVERS.

St. Maurice, Plympton.

FALSE COMPOSITION

Dear Sir,—It has been verified that a composition of 5,088 Spliced Surprise Major in six methods, by E. A. Barnett, as printed in the Middlesex County Association and London Diocesan Guild Report for 1949, page 43, is false. To correct the composition as shown, the thirteenth course should read—

M W R

26543 — RCR

The substitution of one method for another is all that is involved, but holders of this report are requested to make the necessary correction.

Apologies for this printed error are extended to the composer and to any conductor who has rung the composition as printed.—Yours faithfully,

T. J. LOCK.

North Mimms, Herts.

720 GRANDSIRE MINOR

Dear Sir,—In reply to Mr. N. W. H. Simons' request in 'Belfry Gossip' of November 17th, for a 720 of Grandsire Minor, I enclose the following composition (from Troyte's 'Change Ringing'):

23456 46325

—65243 —52436

S43625 S36542

—52463 *S42356

S63542 Five times repeated.

—24653 Binstead *S at half-

—35264 way and end.

—46325

I wish Mr. Simons every success in ringing Grandsire Minor, as, musically, I find it very refreshing, in that one finds familiar changes appearing in all sorts of unexpected places.—Yours faithfully,

GEOFFREY D. ARMITAGE.

St. David's College.

Lampeter, Cardiganshire.

NUTFIELD TREBLE BOB

Dear Sir,—I would like to clear up some doubt about Nutfield Treble Bob—

Nutfield: 34-16-12-16-34-36 L.E. 12. 165324.
College Exercise: 34-16-12-16-34-56. L.E. 12. 164523.

If Wentworth has been rung to a peal I would like to know when and where.—Yours faithfully,

A. BISHOP.

LETTERS—Continued

'RINGING FIRST, SERVICE TO CHURCH SECONDARY'

Dear Sir,—After a father had shown his little boy around the churchyard, the perplexed youngster asked: 'But, Daddy, where are all the bad people?'

Ever since the enthronement correspondence began, I have been asking myself the same question. There has been so much patting on the back, and extolling the virtues of ringers, with their selfless service to the Church, that I began to think that the ringing world is a celestial one, inhabited only by angels. Hence my small protest, which has shown that even angels can have vitriolic pens. (See P. A. Corby's letter 'R.W.' November 10th. How different from the quiet, reasoned argument of F. J. Lock, November 24th!)

I rejoice that there are so many ringers who are active Christians. I have met some of them in various towers while on holiday and when acting as visiting preacher. One of my happiest memories is ringing before service in a small country church in Somerset, on the first day of my honeymoon!

But, alas, I have also met a strong hard core of ringers who seldom attend service, and who see no reason why they should do so, whether clergy visit the ringing chamber or not. It is to these my remarks are addressed.

However much we enjoy ringing, the main purpose of the bells is not to see how many towers we can grab, how many peals records we can make, how many strange combinations or ringers we can find—but to call people to worship.

This is surely our duty, as P. Amos said so admirably last week.

Perhaps I am wrong (I hope I am), but many ringers I have met have left me with the impression that the enjoyment of their ringing comes first, and service to the Church is secondary, or incidental. (I am aware, of course, that this equally applies to choirs.) Even 'Rural Ringer' in last week's cover article gives himself away in his second paragraph. If the majority of ringers feel like him that their interest in ringing is the main reason for being in the tower at all, then would it not be better to build towers that have no connection with the Church; or if that is impracticable, then perhaps some churches should consider charging a hire fee for the use of the tower by such ringers, in the way we let church halls to outside organisations?

I would be the first to admit that there are many clergy who fail miserably in their duty to encourage their ringers by visiting the tower and showing an interest in them. But it is sometimes difficult to say whether their attitude is the cause or the result of non-attendance ringers.

Few reasonable clergy would complain at ringers who attended at least once on a Sunday, although in that case many of us would prefer the bells to be rung just for the one service.

We thank God that there are thousands upon thousands of Christians, ringers, singers, churchwardens, and members of the congregation, who do not find attendance at three services 'unreasonable' or 'out of the question,' like 'Rural Ringer' does.

In these days, if it is true that 90 per cent of the people stay at home, then the witness of those who do come is of tremendous importance.

So I hope that the good work of the Central Council and the Associations will continue, by condemning and discouraging non-attending ringers, so that in time ringers who leave before service will be as rare as choirs who retire before the sermon, or parsons who send 'inaccurate and uncharitable' contributions to 'The Ringing World.'—Yours faithfully,

D. G. BRUNNING (Rev.).

Usk, Mon.

P.S.—I don't know why two correspondents should think I was criticising the Usk ringers. Four of them attend church with great regularity.—D. G. B.

EXPERIMENTING

Dear Sir,—I was interested to read David G. Smith's article on 'Little Treble Bob,' as I, too, have been experimenting with Treble Bob methods. Working on the principle of having both treble and tenor in the hunt, I arrived at the following, from Kent T.B. Major:

Bob		
53718264	12345678	85236741
35172846	21345687	58236714
31527486	12436578	85327641
13527468	21436587	58327614
31254786	24163857	53872164
13254768	42618375	35781246
12354678	42163875	35872146
21354687	24618357	53781264
12536478	26481537	57318624
21536487	62845173	75136842

OUTING

BOLSOVER, DERBYS

The second outing this year of the Bolsover Parish Church ringers and friends was centred in and around Grantham on October 28th. Unfortunately, the date was not convenient to the normal contingent of friends from Warsop, but ringers from Chesterfield, Creswell and Staveley made up a party of approximately 25, which left Bolsover at 1 p.m.

The first call was at the fine church of St. Mary the Virgin, Bottesford, and Mr. Box very kindly offered to assist in raising the heavy bells in peal. By contrast, at the next tower, Heydour, the light ring of eight was more in keeping with conditions at the home tower. Considerable interest was taken in a peal board recording a record length of London Surprise Major. The church is rather isolated and very cold, and ringing was limited to approximately 35 minutes.

The tour had been suggested by Cyril Wright, a former ringer at Bolsover, who is now mine host of the Chequers Inn at Grantham, and he was waiting to join the party for ringing at the majestic Church of St. Wulfram. The very fine ten were raised in peal and several members of the band had their first venture at Stedman Caters. The local representatives were of the opinion that the general performance of the ringing was of reasonable standard for bells much heavier than usual for most of the ringers.

Methods rung during the tour included Kent and Oxford Treble Bob Major, Little Bob Major and Royal, Kent Treble Bob Royal, Stedman Triples and Caters, Double Norwich Court Bob Major, Cambridge Surprise Major, Superlative Surprise Major and Yorkshire Surprise Major.

It is customary on the annual half-day outing to arrange an evening meal and this was taken at the Angel and Royal Hotel, Grantham. Most of the party afterwards adjourned to join Cyril Wright at the Chequers Inn.

BELLS THAT HAVE MADE HISTORY

BOW BELLS OF LONDON

By ERNEST MORRIS

THE famous 'Bow Bells of London' have ever been notorious, both on account of the 'Dick Whittington' legend, and also from the supposition that to be a true 'Cockney' one must be born within their sound.

With regard to their history we find that in very early times John Downe, a worthy citizen, left two tenements in Hosier Lane (now Bow Lane), 'for the maintenance of the great bell.' In 1469, by an order of the Common Council, a bell was to be rung every night at 9 o'clock, and lights were to be exhibited in the steeple during the night to direct travellers to the Metropolis.

According to Stow, William Copland, tailor, the King's merchant, being churchwarden in 1515, gave the great bell, which was to be rung nightly at 9 o'clock. He adds that this bell was first rung as a knell for the death of the donor.

Weever states she was inscribed 'Dudum fundabur Bowbel campana vocabar: Sexta sonat, bis sexta sonat, ter tertia pulsat' (I was cast recently and was called Bowbell; The sixth sounds, the sixth sounds twice, the third strikes thrice). It is supposed the latter refers to some custom as to the number of strokes given for knells. There appears to have been six bells here at this time, though Stow only mentions five.

WHITTINGTON

In the story of Dick Whittington they were supposed to have been ringing in the following order, when he heard them and returned to London: 531246 'Turn a-gain-Whit-ting-ton.'

By adding two bells in front of this the present well known Whittington row on eight bells has been produced—12753468—though this does not fit to the original words. We must remember that in Whittington's time not only was half-pull change ringing unknown, but bells were not rung up as in the present day. They were only swung to stock level, so we must suppose that on this occasion they were rung in this manner in the order above mentioned.

PERISHED IN GREAT FIRE

Both steeple and bells perished in the Great Fire of 1666. After the church and steeple were rebuilt by Wren, an order for a ring of eight was given to John and Christopher Hodson, the funds to pay for same being derived from the sale of the site of All Hallows', Soper Lane, which was not rebuilt after the fire. In due course the bells were cast and hung.

In 1738 the tenor, being cracked, was recast by Richard Phelps and Thomas Lester, of the Whitechapel Foundry. Phelps died the same year, and the foundry was carried on by

Lester, later by Lester and Pack, who in 1762 recast the other seven bells and added two trebles, thus making a ring of ten, which were rung for the first time on June 4th, 1762, to celebrate King George III's birthday.

In 1881, two more trebles were added by Mears and Slainbank to make them twelve. On the tenor its weight was engraved 'Wt. 53-0-22.' In 1819 the steeple was repaired and strengthened with iron ties. In 1905 the bells were rehung and new chimes added to the clock, which played as follows: First quarter 5123; second 512-314; third 789-x84-534; fourth 512-314-579-x8E. The hour striking on tenor.

On these bells the present writer had the great pleasure of taking part in a peal of Cambridge Surprise Maximus on February 27th, 1926, conducted by the late William Pye.

B.B.C. INTERVAL SIGNAL

In 'Radio Pictorial' (December 14th, 1934) I wrote an article on 'Bow Bells and the Message they Broadcast,' and stated therein:

'The B.B.C. recently treated listeners to a gramophone reproduction of these famous bells in lieu of the metronome hitherto used as an "interval signal." This innovation "tells the world" that these bells have been made pealable after several years' silence, and such news is welcomed throughout the country, for their fame is more than Metropolitan—it is National.'

This 'interval signal' has been used ever since at specified times and the ringing thus broadcast is worthy of the emulation of every ringer throughout the land as a fine example of perfect striking.

In 1933 several of the bells were recast and all rehung on ball-bearings, with new headstocks, etc., by Messrs. Gillett and Johnston, this restoration being in the gift of Mr. Gordon Selfridge.

AGAIN IN WORLD WAR II

During the Great War II the church and bells were destroyed during an air-raid over the City in 1941 and the majority of the bells fell to the ground. One or two remained on the floor above, but all were broken.

Now with the restoration of the church and steeple, a new ring of twelve has been erected, the bells having been cast in 1956 in readiness for the time when the tower and bell frame would be completed.

The bells are now inscribed as follows, and it will be noted that in addition to each individual name the passages from the Psalms inscribed on them make (with the initial letter of each text) an acrostic spelling, 'D. Whittington.'

Treble.—Katharine.

Declare His glory among the brethren, His wonders among all people.

Second.—Fabian.

Whoso offereth praise glorifieth Me.

Third.—Christopher.

His name alone is excellent, His glory is above the earth and heaven.

Fourth.—Margaret.

In His temple doth everyone speak of His glory.

Fifth.—Mildred.

The glory of the Lord shall endure for ever.

Sixth.—Faith.

They shall sing in the ways of the Lord, for great is the glory of the Lord.

Seventh.—Augustine.

I will speak of the glorious honour of Thy Majesty and of Thy wondrous works.

Eighth.—John.

Not unto us, O Lord, not unto us, but unto Thy name give glory.

Ninth.—Timothy.

Give unto the Lord the glory due unto His name, Worship the Lord in the beauty of Holiness.

Tenth.—Pancras.

Thy saints shall bless Thee, They shall speak of the glory of Thy kingdom, and talk of Thy power,

Eleventh.—Cuthbert.

O Lord my God, I will glorify Thy name for evermore.

Tenor.—Bow.

Now lettest Thou Thy servant depart in peace, for mine eyes have seen Thy salvation.

(on the waist):—

'The bell of the parish of St. Mary-le-Bow Rung for Curfew 1334 Destroyed by fire 1666

Recast 1669 Recast 1738

Destroyed by Enemy action 1941

Recast 1956.'

Churchwardens.

John H. L. Trustram, M.B.E., M.A.,

Vestry Clerk.

Named me
'Bow.'

Round the sound bow: A decorative border of London Pride.

CALL CHANGE FESTIVAL AT BIDEFORD

Nine towers competed in the eight bell ringing festival for the Pilton Shield, held at St. Mary's Church, Bideford, on November 11th. Among the competitors was Mr. Norman Mallett, from Exeter, who stood in as third man for Pilton, who were one short.

The judges were Messrs. J. Harris (Wrafton), W. Tuck (Bideford) and L. Hookway (Croyde). The first team to ring tolled the signal bell to warn the judges. The competition was followed by a service in the church, and then came tea and the declaration of the result, as follows:

Shield and 1st certificate: Barnstaple 65 faults, Torrington 85, Witheridge 95½, Kings-teignton 102, Pilton 121, Tawstock 123½, Chittlehampton 132, Georgeham 145, Kilkhampton 182.

The competition was organised by Mr. L. N. Passmore, secretary of Pilton tower, who received great assistance from Mr. F. Parsons, captain of Bideford tower.

A NEW ZEALAND APOLOGY

Amongst those who sent apologies for absence on the occasion of the College Youths' dinner was Mr. G. Nelson Sloan, of Christchurch, N.Z. Unfortunately, Mr. Sloan's letter reached the secretary too late to be included in his list of apologies.

TWO SHEFFIELD VETERANS**MR. H. THORPE**

It is with deep regret that the Sheffield Cathedral Company of Change Ringers record the passing of two very loyal members of the company.

On November 13th, at the Royal Hospital, Sheffield, Haydn Thorpe passed away. Mr. Thorpe, brother of the late John Thorpe, also of Sheffield Cathedral, became a member of the company in 1917 and continued to be an active member till 1951, when an unfortunate accident at work caused him to resign from active membership. Haydn was never one to push himself to the front, or one to seek publicity, but in spite of that he was a sound ringer, being a first rate striker and a sound method ringer. His quiet, cheerful manner and sound common sense, coupled with an air of imperturbability, endeared him in the hearts of all who knew him. He was 76.

MR. S. F. PALMER

On November 18th, Mr. Sydney F. Palmer was taken from us. Mr. Palmer, a native of Lincolnshire, went to Sheffield in 1904. During his long sojourn with us, he held many important offices in the Exercise. Four 25 years he was secretary of the Sheffield Cathedral Company, besides being a member of the Central Council, a trustee of the Yorkshire Association, and during the last war secretary of the Southern District of the Yorkshire Association.

Sydney had the happy knack of rarely becoming ruffled. He was a stickler for things being done according to rule and precedent. Whatever he himself undertook to do, one could always be sure that it would be done properly and to the best of his ability. He was an active ringer at the Cathedral till last year, attending twice every Sunday to ring his favourite method, Siedman. He was 87.

On Tuesday, November 21st, a half-muffled quarter peal of Grandsire Caters was rung in their memory. B.H.

OBITUARY**MR. W. W. WEBB**

As briefly reported recently, we regret to announce the death of William Walter Webb, which took place in the West Middlesex Hospital on November 3rd. He spent his 72nd birthday in hospital, a few days before his death. Two years ago he had serious heart trouble, from which he made a miraculous recovery and even rang again. Bill hated inactivity and it was a good thing, perhaps, that his last illness was short.

'Bill' Webb had been a ringer at Heston for many years, and will be sadly missed. Not a ringer of many peals or methods, his joy was found in the making of many friends in the Exercise. Conscientious to a degree, 'Bill' was always in the tower on Sundays and practice nights, and hardly ever missed a meeting of the Association, where his cheery presence, and that of his wife, was always a joy. We were proud to have both of them as honorary members.

For the greater part of his working life, 'Bill' had been a policeman, first at Chelsea and later at Norwood Green. After his retirement from the force, he joined the Civil Service and up to the time of his first illness was at the Board of Trade at Eastcote.

He had always wished to return to his native village of Broadwell, near Stow-on-the-Wold, Glos. and it was due to the determination of his wife that he was buried there on November 9th, in the presence of his relatives and friends, many of whom were from the village. The Middlesex Association was represented by Messrs. W. N. Genna (late assistant general secretary) and F. W. Goodfellow (treasurer), who were joined by Bill's brother, Jack, from Ross-on-Wye, to ring a simple but impressive touch on handbells over the grave. The Heston ringers and the Middlesex Association sent wreaths, of which there were many. It was a beautiful autumn day and with the church set

in such lovely countryside, together with the charm and peacefulness of the village, we felt that Bill had indeed had his wish and returned home.

A memorial service was held in Heston Parish Church on November 18th, conducted by the Vicar (Rev. J. Roundhill). Mrs. Webb was accompanied by her daughter and also her mother. Among the ringing friends who attended to pay tribute to an old friend were Mr. and Mrs. W. A. Lewis, Mr. A. W. Coles (North Mymms), Mr. and Mrs. F. W. Goodfellow, F. T. Blagrove, L. Grice, Mr. and Mrs. J. B. Sansom, P. Ruch and other members of the Heston band. The bells were rung in different methods both before and after the service.

MR. J. A. ROBERTSHAW

A member of the Northern District of the Yorkshire Association, Mr. John A. Robertshaw, of Scarborough, died on November 21st, after an illness of 16 months, aged 65.

His ringing career started over 50 years ago at St. Thomas a Becket, Heptonstall, where his father, Francis Robertshaw, was tower captain for many years. John first joined the Yorkshire Association in 1923; he went to Scarborough in 1951, when he joined the St. Mary's Parish Church company.

On November 22nd, the normal practice night, half-muffled changes were rung for one whose cheerful personality will be missed by his fellow ringers.

He leaves a widow and a son.

The funeral service was held on November 24th at the Parish Church, when, in addition to relatives and neighbours, representatives from the Scarborough and Bridlington towers were present. B.S.

LANCHESTER, CO. DURHAM.—On Nov. 18th, 1.260 Minor (Single Oxford, Oxford T.B.): M. Maughan 1, J. I. Booth 2, Miss D. Killengly 3, M. Armstrong 4, J. Pladdys 5, A. R. Patterson (cond.) 6. The band would like to express their gratitude to Mr. H. Thompson, of Lanchester, for providing an excellent tea, in spite of their losing a peal.

W. G. WILSON.

EDITOR: T. W. WHITE.

In the forefront of our ringing veterans of today is Mr. Henry Sharpe, of Haddenham, Ely. Now 87 years of age, he took part in a quarter peal at St. Peter's, Wilburton, on November 16th, to commemorate his first peal rung there 65 years ago! Despite his age, he regularly rings for Evensong and always attends the midweek practice, which consists of seven or eight different Surprise methods. He is now dabbling with four Spliced Surprise methods, including Alnwick and Kelso.

A novelty from Bishopstoke—a peal of Major on tower bells in which there were two double-handed peals.

With the peal of Kent Treble Bob Minor on November 20th, Mr. George J. Hawkins has 'circled' Dunkerton tower and called a peal off every bell in the tower.

One of the ringers in the quarter peal of Cambridge at Abingdon was locked in the belfry after taking the mufflers off the bells in the morning. The quarter peal itself was rung by candlelight, because all the fuses were blown. Someone suggests that the two events are not unconnected!

Mr. H. Denman, District secretary for North Notts, is the first in Nottinghamshire to ring 100 peals in one tower (St. Peter's, Gamston). They were all Minor, the longest being 7.200 Treble Bob. He would like to thank all ringers who have helped him to achieve this.

Members of the Guild of Devonshire Ringers honoured the memory of their former secretary, Mr. Ernest James Taylor, with a memorial peal at Chittlehampton on November 18th. Afterwards the president of the Guild and Vicar (the Rev. J. H. B. Andrews) entertained the band to tea. For this thoughtful act the band express their thanks.

St. Mary-le-Tower, Ipswich, reappears in the peal columns with a peal of Surprise Maximus, rung by several local ringers. The evergreen George E. Symonds, at 87, rang his 97th peal of Maximus. He hopes to reach 100. Peals or years, or both? We hope both. It was the first peal on 12 bells by Miss Clare Webster, of Cambridge University Guild, and she rang almost faultlessly.

BELFRY GOSSIP

Mr. Paul L. Taylor performed the opening ceremony at a church bazaar at Sapcote, Leics, on November 4th, to commemorate the 350th anniversary of the casting of the tenor bell by Newcombe, of Leicester (November 9th, 1611). The bazaar was a great success, £270 being raised towards a new belfry screen in oak.

The Witney and Woodstock Branch of the Oxford Diocesan Guild hope to hold a striking competition at Aston on May 26th.

The band who rang in the peal of Grandsire Doubles at Brant Broughton would like to congratulate F. G. Hooper on his fine performance on the tenor, from which he also conducted the peal.

The B.B.C. T.V. programme 'Viewpoint' of November 16th showed a short excerpt of ringing in the Quantock Hills area of Somerset. The ringing was rounds on six. Close-ups of the ringers and a peal board were also shown.

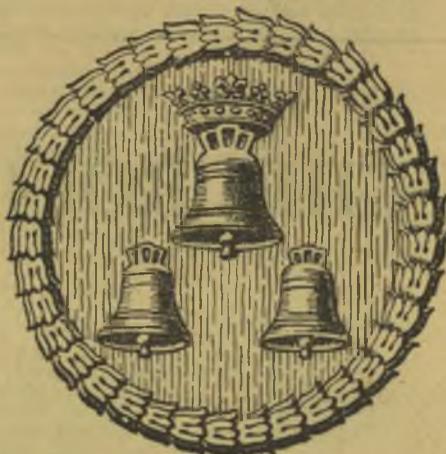

One's first peal of Siedman is always a milestone, but has anyone left it so late as Mr. Philip H. Avey, of Rayleigh, Essex, who has just accomplished this, at the age of 73! Also in the band was another youngster of 75!

The ringers in the peal at Hemsworth on November 18th wish to congratulate Mr. James Thorley upon ringing his 100th peal for the Yorkshire Association. Well done! May you ring many more!!

His many friends, and particularly the members of the S.W. Branch of the Guild of Devonshire Ringers, extend hearty congratulations to Mr. T. G. Myers, of St. Andrew's, Plymouth, on ringing his 200th peal. This was Grandsire Triples, and was rung at Bridgerule on November 15th. Tom has conducted 83 of his peals, which have ranged from Grandsire Doubles to Cambridge Maximus at Croydon. His brother Will has rung about 65 peals, and brother Fred has rung about 49, and all their peals have been rung with Tom, who conducted practically all of them. Mr. T. G. Myers, in addition to being captain of St. Andrew's, is the honorary secretary and Ringing Master of the Branch.

FORTHCOMING MARRIAGE

WILLGRESS—GREAVES.—The marriage between Bevan, son of Mr. and Mrs. W. Willgress, of Acle, and Freda, daughter of Mr. and Mrs. S. Greaves, of King's Lynn, will take place at St. Margaret's Church, King's Lynn, at 2 p.m. on Saturday, December 2nd, 1961. Future address: 'Treble Lea,' 1, Peregrine Road, Sprowston, Norwich. NOR 77R. 9326

PERSONAL

THERE is no fear in love, but perfect love casteth out fear: because fear hath torment. He that feareth is not made perfect in love. (1 John iv. 18.)

MARRIAGE THRO' SOCIAL INTRODUCTION.—The only social service of its kind enjoying the warm approval of both Clergy and Press. It is completely confidential and operates throughout Great Britain. Interesting free brochure under plain sealed cover from The Bournemouth Bureau, 176, Old Christchurch Road, Bournemouth. 2731

UNIVERSITY OF NOTTINGHAM SOCIETY
PRELIMINARY NOTICE
 The annual dinner for the present session (1961-62) will be held on Saturday, February 17th, 1962
 Details later. 9318

50 Years Ago

'R.W.' December 1st, 1911.—

A serious accident happened in the belfry at Southover, Lewes, on Sunday afternoon. The steeple keeper (Mr. A. S. Langridge) went up among the bells while they were up to adjust the muffies, which had been put on owing to the death of the Rev. E. D. Stead, when he got in the way of the tenor, which was being tolled, and was knocked into the pit. Fortunately the bell did not strike him, but the slide bar hit him on the knee, and, as was afterwards ascertained, fractured his knee cap.

Only two ringers were in the ringing chamber below. On finding something wrong they hurried to the bell floor, where they found Mr. Langridge in the pit. With difficulty they extricated him from the perilous position, and got him down the steep ladder and stairs to the church below. Thence he was taken home, afterwards to hospital, where he will have to remain for some time.

The accident again illustrates the danger of going among bells when they are up, and particularly when any of them are being rung. Too much care cannot be exercised both by those who find it necessary to go up among the bells and by those who may at the time be in the belfry below.

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

Personal.—J. Ridyard 2s. 6d., J. J. Batchelor 5s., W. G. L. 2s. 6d., North Dorset Branch, Salisbury Guild £1 1s.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

No. 2642 Vol. LVII

FRIDAY, DECEMBER 8, 1961

Registered at the G.P.O. for transmission as a newspaper. 8d.

QUESTION AND ANSWER

JUDGING from the result of the survey made not long ago, ringing for Sunday services holds a prominent and encouraging place in most dioceses. Now some correspondence hints at the existence of an unhappy attitude of ringers towards the worship of the Church. It might be interesting to have an additional survey giving some countrywide statistics to prove, or disprove, the supposed facts.

Meanwhile these few observations are humbly offered.

(1) Some may have become ringers by direct attraction to the art, finding it a pleasurable recreation without being in any way inclined towards religion. If that is so it must, of course, be questionable that they should frequent church towers, especially on Sundays, just for their own enjoyment, with no intention of ever sharing in the services of the church. An incumbent might rightly object to such being members of the band for service ringing, but much tact would be called for if he is to avoid giving offence or, possibly, alienating other ringers.

(2) Where the ringers are paid—if any such cases exist—the incumbent might feel justified in claiming that they should attend services for which they ring. But it is doubtful if he would keep a band together by so doing or that sincerity of worship would be assured.

(3) Apart from extreme cases like the above, one is not prepared to endorse the opinion that any ringers are 'making a mockery of the bells' by walking away from the particular service following the ringing. That could be an unfair condemnation, for some indeed may have been present at an early Communion service unnoticed by those who, only attending a later service, are quick to remark upon the ringers' absence.

(4) It will be borne in mind that numbers of ringers in these days act also as members of the choir, as servers, churchwardens and sidesmen. These probably attend regularly the services for which they ring, and they understand perfectly well from the outset that their duties will involve attendance *in addition* to the time given in the belfry.

(5) Certainly ringers who regard themselves as church workers can be trusted to recognise their obligation to share in worship, but reason forbids that any ringer should come under compulsion to attend any particular service for which the bells have been rung. Principles and personal circumstances are involved which need to be respected, and sympathetic understanding is called for before any arbitrary rules are threatened or imposed.

(6) Most parishes have a sufficient recruiting ground for the belfry, and it rests largely with the clergy to see that

their bells are manned by those who are, or are likely to be, regular worshippers.

(7) It is still possible to hear preachers (even bishops) at ringers' meetings reiterating that those who ring for Sunday services should attend the service to which they call other people; some, too, who seem to have in mind belfry conditions which have long ago ceased to exist. To perpetuate the assumption that ringers as a whole are a non-churchgoing crowd is wrong. And it must be stressed that to force a rule upon the belfry that ringing for a service carries with it the obligation to attend that service can be the worst possible policy. One may well ask why ringers who have already given time in sounding the bells should be regimented in some such way while (as 'Rural Ringer' pointed out in the issue of November 24th) the comparatively small percentage of churchgoers among the parishioners are not. Under present day habits, the majority of churchpeople seem to satisfy their consciences with one only service on a Sunday. It is, after all, a matter of conscience, and doubtless there are consciences which need awakening: but the Church is not likely to gain by regarding churchgoing, or indeed any expression of religion, as anything but voluntary, and it is not logical to wag the finger at the ringers as setting a poor example.

(8) The clergy may affect disappointment, and even give way to wrath, if the bells are rung and the ringers are not seen at the service following. But they will, one ventures to say, in most cases be wrong to assume that the ringers are indifferent to worship. The latter may not be so much at fault after all, for in how many belfries where the bells are consistently rung are the clergy rarely, if ever, seen? In how many do they foster any comradeship between themselves and their ringers? One or two of the ringers may be more patently recognised as ardent church workers, but the remainder may be no less religiously minded. Obviously the incumbent will only discover the truth by personal contact with them, though he may not be ready to handle a bell himself. He can make a huge mistake by letting the belfry become as a foreign land to him. He needs to be aware that ringers are not just a gang of rope pullers but that there is something quite scientific going on in the belfry calling for intelligence and mental concentration worthy of educated recognition and encouragement.

Nevertheless, we can be thankful today that so many of the clergy are themselves ringers and know what to say, and what not to say, when they are addressing Guild meetings. Also, not least, can we be thankful for the numbers of belfries where both clergy and ringers have complete confidence in one another and are working steadily together for the greater glory of God.

C. C. C.

PERSONALITIES OF THE EXERCISE—49

MR. ARTHUR V. DAVIS,

Winchester & Portsmouth Diocesan Guild.

The famous Bournemouth handbell band, which began during the war, when tower bell ringing was restricted, was mainly the result of the enthusiasm of Mr. Arthur V. Davis, of Southbourne, Bournemouth. The initial instruction was provided by the late Fred W. Townsend, and from 1940-49 over 100 peals were rung. During this period Arthur Davis had the satisfaction of calling the first handbell peals of Grandsire Doubles, Triples, Caters Cinques, and also Plain Bob Minor, Major and Royal ever recorded in Bournemouth and district. The peal of which he is most proud is undoubtedly the Grandsire Cinques, rung in St. Peter's belfry on September 3rd, 1946, as it was the first peal on 12 handbells rung in Hampshire, and first by a resident band for the Guild.

Arthur Davis was born on May 26th, 1900, and lived as a boy for two or three years in East London with his aunt, who was vergeress at the famous Red Church, Bethnal Green. He well remembers hearing the bells of St. Matthew's every Sunday morning during this time. Later moving to Bournemouth, he won a scholarship to Bournemouth Grammar School in 1912. On leaving school he had a short period in a solicitor's office in 1917, and was then called up in 1918 to serve in the Hampshire Regiment for 2½ years, being demobbed with the rank of sergeant. He then joined his father in the decorating business, and is now a master decorator in a small way of business.

Arthur began his long association with St. Peter's, Bournemouth, during the First World War, when he joined the choir as an alto-chorister, a post he held for 40 years. He became interested in other activities, and joined the St. Peter's servers, and was also elected a member of the Parochial Church Council. This latter appointment was to be succeeded in later years by election to the Rural Decanal Conference, and also the Winchester Diocesan Conference, on which he served for nine years. In 1936 he was appointed honorary assistant sacristan, and during the second war he was in sole charge of St. Peter's as verger and sacristan, doing the work in a part time capacity with the help of volunteers.

Arthur learnt to ring at St. Peter's in 1925, being taught to handle a bell by Stanley E. Andrews, a ringer and chorister, who joined the band on coming to live in Bournemouth from Wisbech, Cambs. His first peal was Bob Major on April 9th, 1928, conducted by Fred G. Cole, who was unfortunately killed during the war, while on a test flight. He scored his first peal as conductor with Grandsire Triples at Poole on December 26th, 1932, and rang his first peal of Cambridge Major at Romsey on November 28th, 1938, conducted by George Williams. During this early period methods practised in Bournemouth and district were mainly Triples, with perhaps some Major at St. John's, Surrey Road. Double Norwich at a District meeting was a luxury! All Arthur's early Surprise peals were scored by looking up the blue line, and attempting peals with the Southampton and Portsmouth ringers, and he scored Yorkshire, Bristol and London without previous practice. His present total of peals is about 212, of which half have been rung on handbells, and he has conducted about 50.

SAVED TOWER FROM INCENDIARY BOMB

In 1935 Arthur was elected captain of St. Peter's, and was immediately fortunate enough to persuade the new Vicar (then Canon Hedley Burrows, later Dean of Hereford) that some bell restoration was necessary. He was successful beyond his wildest dreams, because the bells were not only rehung in modern fittings, but were all recast, thanks to the generosity of Mr. E. Dennison Taylor himself. During the war, while leading a band of voluntary fire-watchers and Royal Canadian Air Force personnel, under the supervision of the same Vicar (himself a fire officer), Arthur had the satisfaction of saving the bells and tower from destruction by fire on May 23rd, 1943, when the Germans made a severe daylight raid on Bournemouth.

During the three or four years immediately prior to the war, Arthur organised special practices for Surprise ringing, in conjunction with Mrs. Marshallsay, H. A. Mitchell (of St. John's), W. E. Cheater (Ringwood), F. F. Rigby and others. Several quarter peals were rung, and the first attempt by a local company for a peal of Cambridge Major was lost only after 2½ hours' ringing. When tower bell ringing was restricted during the war, Arthur, with the co-operation of the Rev. C. A. Phillips and George Preston, organised quarterly meetings between the local Districts of the Salisbury and Winchester Guilds, which were a great success. They were attended by upwards of 50 members, handbell ringing was available, and there was always a service at St. Peter's, followed by a tea and social in the hall, or in the Rev. C. A. Phillips' garden during the summer. A tune ringing band was formed and was in great demand to contribute to local concerts and entertainments arranged for the troops. Arthur has given numerous lectures on bells and bellringing to youth groups, clubs and local societies, etc., usually enjoying the help of the handbell ringers to give practical demonstrations and some tunes. With the arrival of Mr. Daniel T. Matkin in Bournemouth, the handbell peal ringing developed even more, into Spliced Plain Major ringing and two record lengths of Grandsire Caters and Bob Royal.

BOURNEMOUTH RINGERS' RALLY AND DINNER

After the war, in company with Mrs. Marshallsay, Rev. C. A. Phillips and Mr. A. F. Martin Stewart as the organising committee, Arthur inaugurated the Bournemouth ringers' rally and dinner in 1947. This function lasted for nine years, and all of them were most enjoyable, though attendances varied. Perhaps the most successful was during the visit of the Central Council in 1953, when Arthur had the privilege of organising the local arrangements to welcome the Council on behalf of the Guild. He has held the office of peal recorder for the Guild for 10 years, acted as District secretary for the same period, and in 1960 was elected a representative to the Central Council, which he feels to be a great honour and privilege.

Arthur was first married in 1922, and his first wife, Grace, was a great help to him in all his ringing activities. She was his 'right-hand man,' especially in organising the rallies, assisting with peal record writing, and District secretarial work. They had two children, who both became ringers. John, who gained his London B.Sc., and is now mathematics master at Bournemouth Grammar School, has two children, and Mary, married and living at

Southport, has three in her family, including twin daughters. Unfortunately, Mrs. Grace Davies died in 1955, after a very short and most unexpected illness had required an operation. This was a great loss to Arthur, and he was forced to give up much of his organising work, because of her help. In 1958, Arthur remarried, and he and his wife, Gillian, have a daughter aged two, who is quite used to visiting Christchurch Priory belfry, where her father and mother both ring for Sunday service.

Amongst other activities, Arthur is very keen on amateur dramatics. He was a founder member of the St. Peter's Players in 1926, one of the leading Bournemouth societies, and was chairman for 12 years. He directed over 40 full length plays for them, and also produced and presented over 25 religious plays for the St. Peter's Drama Group. These presentations took place in St. Peter's Church and other churches, and he took the York Nativity play to Hereford Cathedral for two performances in 1953. He is now a vice-president of the society. Arthur has also played cricket for 45 years, and was secretary for most of that time. His first club was the St. Peter's Cricket Club, which disbanded during the war, and afterwards joined the Old Bournemouthians Cricket Club, now one of the leading clubs in the district. He took over 100 wickets each season for 12 consecutive seasons for the St. Peter's Club.

During the period that Arthur was captain at St. Peter's, Bournemouth, a large number of ringers visited the tower, while on holiday. Joining the local company for service ringing and practices, they were usually impressed by the high standard of striking which Arthur insisted upon. In the past he was most happy when teaching beginners, and arranging a peal attempt for a first pealer. Although Arthur is having a lull in teaching and organising activities at present, he is still always willing to help in any way to further the cause of the art. APACE.

LUTON DISTRICT RINGING CONTEST

By kind permission of Canon C. Elliot Wigg the annual ringing contest of the Luton District of the Bedfordshire Association was held at Wavendon on November 18th. It was held here because some members thought that a neutral tower should be used. Only four teams entered: several more were expected, but some of those present were more than suspicious of the absence of certain teams when it was known that a 'local' football team were playing at home and that a very well known player was going to be present.

Nevertheless, there still remained an air of keenness and expectation around 3.45 p.m., when captains drew lots for their positions in the contest.

Each band rang rounds for half a minute to get the feel of the bells and then stood. They then rang rounds for five minutes. Somewhere around the church and out of sight were Mr. Stephen Ivins and Mr. A. E. Rushton listening for any bad blows that were made and giving a mark for each one.

After tea, held at the 'Plough,' the judges gave their remarks and scores for each band, known to them only by number. Once again, Westoning were the winners with 135 faults. Woburn were 2nd with 145, Leighton Buzzard 3rd with 180, and Husborne Crawley 4th with 206.

The trophy was presented to the winners by Rev. Robin Osborne, priest-in-charge and a ringer at Woburn. This was followed by handbell ringing, with Mr. H. D. Harris, of Woburn, now nearly 87 and as keen as ever, taking part. There was then further ringing in the tower, which included London, Cambridge, Woodbine and Plain Bob Minor. Grandsire and Steadman Doubles. The Rev. Elliot Wigg was not able to be present, as he was at Oxford being installed an honorary canon at the Cathedral. Our sincere thanks are offered to him for allowing us to use his bells.

F. S.

BRIAN PRICE WITH HIS RINGING MACHINE

By ARTHUR SHUTTLEWOOD

ONE of the electronic marvels of our age has been invented and painstakingly assembled by Mr. Brian Price, maths master at the 254-year-old Lord Weymouth School, Warminster, where the father of English education, the immortal Dr. Arnold, enjoyed his early schooling. The machine created by Mr. Price can faithfully reproduce any complicated method, or any peal in any method, that a total complement of up to 10 church bells can perform. Working off the main on 24 volts direct current, it can, in fact, run for 90 days, non-stop, without any repetition—a remarkable feat! It uses but 200 units of electricity in the melodious process and emulates the tuneful effect of no less than 3,628,800 bells being rung from a bell tower!

It can, in brief, accomplish anything that can be done in a church belfry by six, eight or 10 bells set in motion, and is the first electrically operated change ringing machine ever devised. The intricate mechanism took bell ringing enthusiast Brian 18 months to construct: his inventive genius and mathematical aptitude were fully tested in bringing about absolute perfection, with electrical impulses corresponding to notes used in every method imaginable in the sphere of ringing. The apparatus is so wired and geared that it will eventually accommodate handbells to simulate the larger church bells; but at the moment it connects to an ordinary toy xylophone!

The machine stands 4 ft. 6 ins. high, is 2 ft. wide, 1 ft. deep and weighs 3 cwt. It is a veritable labyrinth of wires, condensers, coils, relays, push-buttons, light bulbs, differential gears, magnet-operated clutches, camshafts, cable, pinions, uniselectors and sundry other components of electrical equipment, at which the lay mind can only boggle in awe and wonder. Yet, with a remote control unit clasped in one hand, fingers of the other deftly depressing certain of the 228 metallic buttons in the steel-faced surface of the machine, determining whether the delicately-balanced mechanism should take instruction in ringing rounds, singles or grouped sequences in the thousands of methods which it is capable of reproducing, Brian makes it all look so very simple with its sensitively attuned accuracy.

THE BLUE LINE

In addition to the extensive change ringing potential of this amazing machine, it is also fitted with another ingenious device that is of immense value to ringers. At the base of the complicated structure is an ordinary pen which records the bell impulses in diagrammatic form, transcribing each peal, each method rung by the electronic body of the apparatus on to paper in the traditional 'blue line' calligraphy synonymous with arrangements published in bell ringing books of instruction.

Here, the inventor has utilised clever employment of meccano mechanism to provide a camshaft and differential gears that work in conjunction with magnet-operated clutches to get the predetermined desired effect and result. It is a technically brilliant piece of machinery matched only by the flawless structure of the main unit. One boy at the school, fifth former David Lane, evolved his own original ringing method, which was subsequently 'fed' to the electrical brain of the machine, assimilated, then 'played back' correctly. Experiments in new tune patterns and sequences can therefore be facilitated by the use of this apparatus, recorded and kept for posterity or temporary filing only.

The first change ringing machine was invented by John Carter, of Birmingham, in the 19th century. Mechanically operated, it

is now housed in the Kensington Science Museum. Carter called it a campanamutaphone. Brian's modern electrical counterpart is far easier to manipulate and is adaptable to any peal any method.

The latest invention can be adapted to 6, 8 or 10 bells, with a three-way selector switch accommodating each number group. If cancellations are wanted (such as a 'single bob,' or according to a conductor's call) they can speedily be done by depressing certain buttons. Adjustment mechanism prevents any 'getting out of phase.' In action, the machine is practically noiseless apart from the ringing: only a low burr is heard as the uniselectors and 250 telephone relays whirl into being. It is rather like the distant crackle of a machine-gun. The steel framework was made from a window frame. When metal was in short supply, a bell ringing friend of Brian's, working at a metal window factory, placed an 'urgently required' label on one and it was immediately sent to Mr. Price post haste as a priority shipment!

The facing is of welded steel, with raised aluminium girder buttons protruding. Inside is a vast network of bell wire. Most of the equipment is telephonic. All the buttons correspond to some method, with light bulbs showing the operator which row is currently being activated in the elaborate circuit. Mr. Price stresses that the machine is not meant to supplant church bells. It is primarily designed for the interest of bell ringers and the practising of different methods by the Minster Church Band of Ringers, to which he belongs. Will he patent the invention and launch it on the commercial market? He smiled ruefully, shrugged his shoulders as he revealed:

'When I bought the various components several years ago, I managed to get them pretty cheaply. Nowadays, to construct the machine from scratch would definitely cost a small fortune. I doubt whether anyone, except perhaps for ringing guilds and bands, would be really interested in purchase of such a piece of apparatus. Frankly, I could easily make it actually ring church bells themselves, which might prove helpful in case of emergency—if several ringers were taken ill at the same time, for example. But I built it mainly for my own pleasure and to help fellow ringers in their practice.'

Mr. Price, who is 37 years of age and extremely modest, started teaching at the Lord Weymouth School only this term, coming from Marlow, Bucks. He has invented a number of comparatively minor gadgets in the past and is now concentrating upon the invention of an automatic school bell ringing mechanism, which should be welcome news for prefects who usually carry out this task.

His change ringing machine has aroused much interest and curiosity among those privileged few who have so far seen it in tuneful action, locally.

LETTERS TO THE EDITOR

THE LADIES' PEAL AT BRADFORD

Dear Sir,—I listened to the whole of the peal of Cambridge Minor rung at Bradford Cathedral by some of the stronger members of the weaker sex which is the subject of comment by my old friend 'E. H. S.', of Shipley.

I am able to confirm that:

- Seven extents were rung;
- Despite the brisk speed they were rung very well; and
- That my wife is not standing over me with a rolling pin dictating this letter.

—Yours sincerely,

VERNON BOTTOMLEY.

Northowram, Halifax.

WHEN THE INCUMBENT IS UNACCEPTABLE

Dear Sir.—I have read with interest the letters about ringers not attending the services for which they ring. May I express a view which, I believe, is widely held, though rarely heard?

If the incumbent has a really poor churchman among his ringers, he can do one of two things:

(1) He can reason with the ringer, and find out why he does not attend church. As some of your previous correspondents have shown, he may have very good reasons for not being able to attend. If he has no good reason for not staying, the incumbent should strive to convert him.

(2) He can forbid the ringer to ring: if he wishes, he can close the tower altogether, and it has been done before.

The incumbent himself may be unacceptable to the parish, but the laity have no power to remove him. How many ringers fail to stay to the service, because they find the spirit lacking? It takes a strong personality to reason with an incumbent, and to strive to find understanding together.

In most cases non-attendance is the only way of showing disapproval, and unfortunately it does no good to either party.

In nearly all the churches I have known, I have found a good, sincere incumbent has no difficulty in getting his ringers to stay for the service. Perhaps someone can tell me whether it is morally wrong to ring for a service which one no longer has the heart to attend or should one keep ringing for the sake of the band and for the church in general? At present I am a regular attender, but I have my doubts as to whether I am a 'good churchman.'—Yours faithfully,

W. M. ELLIOTT (Miss).

Kelvedon, Colchester.

The Pleasures Of Learning

The learner stands expectant,
Prepared to do or die.
The tuft rears up remonstrant,
Defying hand and eye.
A hairsbreadth off the balance,
It bobs—shoots out of sight,
Removing one lamp standard
In its destructive flight.
And down it slaps elusive
Delighted to be free.
Delighted? Oh not he!
Our hero ducks and weaves unsure,
The rest 'stand,' and gaze silent
As the 'rebel's' brought to heel,
For maybe they remember
When that contrary wheel
Brought on their own misfortune
While winging on its way
—Propelled them to the ceiling.
On snapping off a stay.

R. C.

BADGE DIFFICULTIES

Dear Sir.—For many years the Guildford Diocesan Guild has purchased badges from an Aldershot firm; now, however, the firm has been taken over by a London firm, which is attempting to impose considerable increase in the prices. As an example our small plated brooches, which were 3s. each until last February, when they were increased to 4s., are now quoted at 7s. 6d. each, plus postage.

All other types of brooches and badges are quoted at similarly increased prices. Negotiations with the firm have produced no results, it being stated that the small quantities in which we buy, usually dozens or less, are uneconomic; the firm is interested in thousands.

Will any secretary, or other person who can help, please let me have details of their source of supply. The two dies used are our property. I would appreciate this information to the address below, as soon as possible, please.

On several occasions in the past I have referred secretaries to the Aldershot firm; there would appear to be a good reason for them to check their new prices.

Would Guildford Guild members please note our difficulties and bear with us if the supply of badges is short for a while.—Yours, etc.,

G. S. S. JOYCE.

Badge Secretary.

Guildford Diocesan Guild.

130, Ship Lane,
Farnborough, Hants.

GAINSBOROUGH SURPRISE ROYAL

Dear Sir.—The statement made by the Rev. K. W. H. Felstead at the last meeting of the Central Council was very misleading indeed. In my letter to him I put forward reasons why from a practical point of view the name should be retained, but I also said quite definitely that if the members of the Methods Committee could not agree to this, I was quite prepared to change the name. Both Mr. Felstead and Mr. Lewis (who had a copy of the letter) appear to have overlooked this. I have received no reply to my letter.

In the course of some correspondence with Mr. J. R. Mayne I raised the matter with him, and in a private capacity and not as a member of the Methods Committee he has gone into some detail to show why the Royal cannot be accepted as a true extension of the Major, there being at least one other extension with an equal claim. I am grateful to Mr. Mayne for the trouble he took to clear up the matter.

As the method is so closely related to Lincolnshire, I feel it should have a Lincolnshire name, and with the approval of the Boston ringers I have decided to rename it Boston. As the method has not previously appeared in 'The Ringing World' the place notation is:

30-4-50-16-70-18-16-7-1258-9 2nd's place.

—Yours faithfully,

J. E. CAWSER.

Lichfield, Staffs.

FALSE PEAL

Dear Sir.—It is with a heavy heart that I write to withdraw the peal of Yorkshire Surprise Maximus rung at St. Margaret's, Leicester, on October 7th, 1961, due to internal falseness in the composition.

I offer apologies to the band, some of whom had travelled a long way, the Peals Analysis Committee, Rev. K. W. H. Felstead, and any others whose records may have been confounded.—Yours sincerely,

Leicester.

JOHN M. JELLEY.

VISITING GLASGOW

Dear Sir.—Once again, a ringer visiting Glasgow for the first time has been directed to the wrong church, consequently arriving at St. Mary's Cathedral almost too late for a ring.

The latest victim travelled from Greenock to Glasgow—a journey of 25 miles—and was directed to High Street (St. Mungo's) instead of to Great Western Road. By the time he found St. Mary's he was only able to have a course of Stedman Triples and a few moments in rounds on the ten.

Glasgow has three Cathedrals; St. Andrew's Roman Catholic, our own St. Mary's and the old Glasgow Cathedral, now St. Mungo's Church of Scotland, but always known as 'The Cathedral.' A visitor inquiring for the Cathedral will almost certainly be sent to St. Mungo's, which is two miles from St. Mary's.

If ringers who are likely to visit Glasgow would make a note in Dove to ask for St. Mary's Episcopal Cathedral, Great Western Road, it would save both them and us from disappointment. If they are not travelling by private car they can take a trip on our underground railway, known locally as 'The Subway.' Alight at Kelvinbridge Station, which is only three minutes' walk from St. Mary's.

I need hardly add that there are no bells at either St. Andrew's or St. Mungo's.—Yours faithfully,

E. BOUMPHREY.

60, Bearford Drive,
Glasgow, S.W.2.

LADIES AT ROCHESTER

Dear Sir.—Referring to the second part of M. Mitchell's letter, re 'Ladies at Rochester,' I would like to say that the Kent Branch of the Ladies' Guild was formed nearly eight years ago, and, until the last two years, held their own meetings, but owing to the six Districts of the 'Kent County' it was not always possible to find a suitable date for everyone, so it was suggested that we try and combine with the various Districts, which, I may say, has worked very well.

Do I detect an element of jealousy among my Rochester District friends? I thought we had finished with that kind of thing way back in 1911!

Incidentally, all but two of the ladies at the Rochester meeting had every right to be there as they are members of the Rochester District, as well as the Ladies' Guild!—Yours faithfully,

E. M. MITCHELL (Mrs.)

Gravesend.

HANDBELL PEALS IN LLANDAFF AND MONMOUTH AREA

Dear Sir.—Congratulations to the young band who rang a handbell peal of Plain Bob Minor at Llandaff on November 8th, conducted by Nicholas Simon.

I should point out that theirs is not the first peal 'in hand' for the Llandaff and Monmouth Diocesan Association since the war, as, to my knowledge, two handbell peals of Plain Bob Minor were rung in 1952. One of these, conducted by Mr. A. R. Price on May 24th, 1952, in which Mrs. A. R. Price and myself took part, was the first peal 'in hand' for the Association by a resident band.—Yours faithfully,

D. HULBERT (Miss)

Rumney, Cardiff.

RAYLEIGH, ESSEX.—On Nov. 19th, 1,260 College Triples: H. King 1, R. Tomlin 2, M. Sinden 3, F. May 4, M. Hallitt 5, G. Sandwell 6, A. House (cond.) 7, W. Ward 8. Rung for Even-song.

TOO LATE FOR CHRISTMAS PERHAPS —

'POULARD' BELL ROPES

JOSEPH BRYANT LTD

PO BOX 111 BRISTOL 2 TEL. 2-4025

AND TRY ONE WITHOUT OBLIGATION

DEDICATION

SCALDWELL, NORTHANTS

The augmentation of the old ring of four bells at Scaldwell, Northants, by the addition of a new treble by Messrs. John Taylor, proves yet another example of the excellence of the work of the Loughborough foundry with which this diocese has been enriched.

The new treble joins four 17th century bells, which had been unsafe for many years, but which, with the bell founders' attention, combine to form a really first class, well balanced ring, in a new metal frame. The second, fourth and tenor are by Watts, 1621, and the third by Henry Bagley, 1682.

Details of the bells are as follows:

Treble	28½"	D	4 cwt. 3 qr. 14 lb.
2nd	31"	C	5 cwt. 2 qr. 26 lb.
3rd	32"	B	6 cwt. 2 qr. 20 lb.
4th	34½"	A	7 cwt. 1 qr. 9 lb.
Tenor	38"	G	10 cwt. 0 qr. 7 lb.

INSCRIPTIONS

Treble: Holy Trinity, Northampton, 1961.
H. J. Vaughan, H. R. Coleman.

2nd: IHS NAZARENVS REX IVDEORVM
FILI DEI MISERERE MEI. 1621.

3rd: Henry Bagley made mee. 1682.

4th: CELORVM CHRSTE PLATIAT TIBI
REX SONVS ISTE. 1621.

Tenor: CVM SONO SI NIN VIS VENIRE
NVNQVAM AD PRECES CYPPIES IRE, 1621.

The treble incorporates the metal of a small bell given to Scaldwell by Holy Trinity, Northampton, and the inscription, as will be seen, records the name of that church, though one wonders what future bell historians will make of it!

The restored bells were rung for the first time after a brief dedicatory prayer by the priest-in-charge prior to Evensong on Sunday, November 19th, by an invited team from Daventry and Northampton towers.

The people of the tiny parish (population 190) are to be congratulated on their efforts to raise the £1,100 necessary for the work. This is only the first part of a major restoration, which is to cost over £3,000.

P. I. C.

A NEW YORKSHIRE SIX

A new ring of six will be dedicated on Friday, December 15th, at the Church of St. Lawrence, Scalby, near Scarborough. The service of dedication will commence at 7.30 p.m., and the ceremony will be performed by the Archdeacon of the East Riding, the Ven. F. E. Ford, who was formerly Vicar of St. Mary's, Scarborough.

The opening rounds will be rung by some of Scarborough's ringers. A team is being trained at Scalby, but they will not be ready much before the New Year.

SALISBURY DIOCESAN GUILD

Marlborough Branch

The annual meeting of the Marlborough Branch was held at Marlborough on November 25th, with an attendance of some 30 ringers. St. Mary's lovely ring of six was raised at 3 p.m. and was in constant use until 4.30 p.m., when the Guild service was conducted by the Rev. F. Armand Smith, with Mr. J. A. Burns-Cox at the organ.

In his appropriate address, the Rev. Armand Smith gave reminiscences of the great Jasper Snowdon, whom he had known when a small boy at his home in the north. Prayers were also offered for the recovery of Jasper Snowdon's daughter, now lying ill in hospital.

Tea, in a nearby cafe, was followed by the business meeting. The honorary secretary (Mr. T. A. Palmer) in his report for 1961 was most encouraging. Membership had increased to 94, its highest figure for 40 years, and the average attendance at the monthly meetings had been 18, also a record. Pewsey had had their six bells returned, some recast and all rehung, and they were in excellent order. Aldbourne had turned their clock room into a ringing chamber, thus more than halving their previously very long draught. No peals had been scored, but a quarter of Grandsire Doubles had been rung at St. Katherine's, Savernake Forest, on October 1st, on the occasion of its centenary service. The Branch outing in September was a great success.

Mr. Palmer paid a tribute to the memory of the late Mr. Seward Archer, of Chiseldon, last founder member of the Branch, and its secretary for some years. He also expressed the thanks of the Branch to its many friends in providing transport, teas, etc., and to all incumbents and tower captains throughout the year.

The following officers were re-elected: Mr. G. Newman (chairman), Mr. J. Fuller (vice-chairman), Mr. T. A. Palmer (honorary secretary) and Capt. J. D. Mansfield-Robinson (Branch representative).

Subject to permission being granted, the first three monthly meetings in 1962 will be held at Ogbourne St. George, Ramsbury, and Pewsey.

New members elected included four ringing members from Collingbourne Kingston, two from Overton, and one from Aldbourne, and two honorary members from Aldbourne and one from Overton.

Ringing was then resumed.

RINGERS' SERVICE AT SUSSEX TOWER

Organised by Mr. A. J. Butcher (secretary of the Danehill ringers), a most successful ringers' service was held at the Church of All Saints, Danehill, on Sunday, November 19th. For an hour before service time, the bells were very much in evidence, the tower being packed to capacity.

The very impressive service was taken by the Vicar, the Rev. I. Paton-Hunter, who in his address said that if he were asked to describe a typical English scene, he would say—a village country church with bells sounding over the meadows and fields calling the people to worship. Artists, poets, and writers had all described that scene in one form or another.

After the 3rd Collect a course of Bob Major was rung by Mr. and Mrs. W. Dobbie and Mr. and Mrs. F. I. Hairs and, with the help of Mr. G. Francis (Warnham), a course of Grandsire Caters was rung immediately before the Blessing.

The first lesson was read by Mr. R. Johnson (Cuckfield) and the second by Mr. D. Slater (West Hothly).

The packed congregation consisted of local parishioners, visitors from adjoining villages and ringers from eleven towers in Sussex and Kent.

To the Rev. and Mrs. I. Paton-Hunter the ringers extend their most grateful thanks for their hospitality after the service and the local organiser is to be congratulated on the success of his efforts.
E. L. H.

GUILD of DEVONSHIRE RINGERS

The annual meeting was held in the Diocesan Board Room at Exeter, overshadowed by the massive south transeptal tower of the Cathedral on November 18th.

About one hundred representatives from towers from all over the county were present with the Association's president, Mr. T. Oatway, of Morchard Bishop, in the chair. The meeting opened with the customary prayer and after the usual formalities had been completed discussion was centred upon the choice of towers and dates for the 1962 festivals.

Accepting the offer received from Upton (St. Mary Magdalene), Torquay, the eight-bell competition was fixed for Saturday, April 14th. It was noted that this would be the first occasion for the eight-bell festival to be held at Upton, which possesses a Taylor rehung (1931) eight—14 cwt. tenor—and recognised as one of the best eights for 'go' in the county.

The six-bell festivals were fixed as follows: South Devon, at Diptford (near South Brent), May 12th; North Devon, at Swimbridge, May 26th; Final, at Yealmpton (near Plymouth), June 9th.

Mr. Bartlett stated that Combe-in-Teignhead (6) had asked him to arrange a competition in aid of their funds and June 23rd was the probable date. He expressed the hope that he would have the usual ready support for the festival, with an entry of twenty teams, as on previous occasions of this nature.

At this point, Mr. Bartlett reported fully upon his attendance as representative at the meeting of the Central Council at Whitsun at Stoke-upon-Trent and told the meeting of the welcome, which the Association's affiliation was given. All recognised that nothing but good could come from the establishing of this close tie between change and call change ringers, evidence of which was already apparent in the West of England.

After discussion of matters of local and domestic interest, the meeting closed. By happy coincidence, it was the third Saturday in the month and practice night at the Cathedral and, on the strength of it, several made their way to the tower after tea. Thanks to Fred Wreford's generous welcome, the 'middle' eight were soon going to call-changes and no better finish to an 'annual' could surely be provided!

GREAT BROMLEY, ESSEX.—On Nov. 18th, 1,260 Plain Bob Minor: A. W. Cole 1, B. Matthews 2, F. H. Erith 3, J. Gould 4, P. G. Erith 5, A. Semken (first of Minor as cond.) 6.

THE REV. R. P. FARROW

With regret we announce the death in hospital at Worthing on November 28th of the Rev. Reginald Percy Farrow, M.A., at the age of 88. He lived at Worthing for about a year after his retirement from East Lulworth, Dorset.

The son of the Rector of Tong, Yorks, he and his brother were taught to ring by George Bolland at Tong in the mid-90's.

An M.A. of Oxford University (Hastings Exhibitioner of Queen's College) he was ordained in 1902, and after serving several curacies in the Midlands he became Vicar of Enderby, Leics, from 1917-1923, and of Stoney Stanton, 1923-35, when he accepted the benefice of East Lulworth.

An enthusiastic ringer, he rang his first peal in 1892 at Tong, being seven Treble Bob Minor methods. His third peal was 10,440 changes, being 'fourteen and a half Minor peals,' in 5 hours 51 minutes, and included such methods as Morning Delight, Arnold's Victory and City Delight.

He conducted one peal, Grandsire Triples, at Drighlington in 1912. Many of his peals were at Stoney Stanton, where he was Rector for 12 years, and it is believed that his peal total was 75. While at Stoney Stanton he taught many to ring, but the only one who stuck to it was Alfred Ballard. The first peal they rang together was Stedman Triples in 1927.

From 1930 to 1932 he was a member of the Central Council for the Midland Counties Association. He rang his last peal, Bob Major, at Whitchurch Canoniscom, in 1935. As East Lulworth has no ring of bells, he regularly attended practice night at Wareham, and played a great part in building up a band of young ringers. Week after week he came, and very often it was only Grandsire Doubles that was rung, but without his help it would not even have been that.

He was a member of the Clerical Guild from its foundation in 1938. He acted as vice-chairman of the Dorchester Branch of the Salisbury Guild from 1935-38.

It was a sad day when, on June 23rd, 1960, a quarter peal of Bob Major was rung at

OBITUARY

Wareham as a farewell to him on his retirement. He rang the third, and his only complaint was that we had not gone on for a peal.

He will be remembered by Wareham ringers, for we all loved him. His wife died a year or so before he left Lulworth. Our sympathy is extended to his daughter, Mrs. Palmer, now living at Weymouth. C. T. B.

MR. F. POSTLETHWAITE

An enthusiastic member of the Lancaster Branch of the Lancashire Association and one time Ringing Master, Mr. Frank Postlethwaite died on November 11th, aged 52 years. He was interred at Lancaster on November 15th.

Until illness compelled him to sever his connection with ringing about two years ago, he was a member of the Lancaster Priory and Parish Church service ringers. During his career he scored 34 peals, being the conductor in a number of these. May he rest in peace.

MR. B. A. CORNELL

St. Albans Cathedral Society has lost a loyal member by the death of Mr. Bertie Alan Cornell, at Clare Hall, on November 22nd, aged 56. He had not enjoyed good health for some years, but was a regular Sunday service ringer until he became too weak to climb the stairs. He was admitted to hospital six weeks before his death.

Born at Wallingford, near Lavenham, Suffolk, he went to St. Albans about 1946, and had rung about 90 peals. He was a member of the Society of Royal Cumberland Youths.

The funeral took place at the Cathedral on November 28th, his body having rested in the Lady Chapel over night. The service was conducted by the Dean (the Very Rev. A. K. Matthews), with the Rev. D. S. Cross as organist. Towers represented were the Cathedral and St. Peter's, St. Albans, Apsley, Harpenden, North Mymms and Hatfield.

JOINT MEETING AT NEWARK

A successful meeting of the Southwell Diocesan Guild was held at Newark on November 18th, jointly with the Central District of the Lincoln Diocesan Guild. Ringing throughout the afternoon was of a good standard, especially since the fine toned 10 are not the easiest of bells to handle.

A service in the choir was conducted by the Vicar of Newark, Canon J. H. D. Grinter, and tea was served afterwards in the Church Rooms by local lady ringers and friends.

A very short business meeting followed, presided over by Canon Grinter, and, in agreement with the Lincoln Guild, the collection for the Bell Repair Fund was donated to Newark church repair fund. The visiting District's secretary, Mr. S. Chambers, closed the meeting with thanks for the arrangements that had been made, and the welcome he and his members had received.

Ringing was then resumed, and continued until 8.30. Methods rung included Yorkshire and Cambridge S. Royal, Double Norwich Caters and Bristol S. Major.

B. N. R.

MISS MARY CLOVER MARRIED

Saturday, November 25th, was a day of happy rejoicing at Wymondham Abbey, Norfolk, when Miss Mary Clover, daughter of Mr. William Clover, the local tower master, was married to Mr. Philip Stanley, of Wymondham.

The bride, who is a member of the Abbey Company, was 'rung in' with two courses of Yorkshire Surprise Major and 'out' with firing, Queens, Whittingtons and Tittums, and a touch of Stedman Triples. Later came a peal of Yorkshire Surprise, conducted by the Association president, Mr. Nolan Golden.

'Graduates' of the University of Bristol Society came great distances (literally from all points of the compass) to attempt Siedman Cinques at Newport on November 25th. The peal was completed in 3 hours 13 minutes, quite an achievement considering that the Society has three times lost Siedman Caters. The band was representative of the last 10 years of the Society's history; ten had been officers of the Society, five of whom were Past Masters.

The peal rung at Barrow-on-Humber on October 3rd (page 706) was a 22nd wedding anniversary compliment to Mr. and Mrs. A. Crowder and not as reported.

'I should like to take the opportunity of saying what a grand issue was this week's (November 24th) 24-page effort. With best wishes for the continued success of your efforts.'—Thank you, Yorkshire reader.

Mr. F. E. Dukes sends his apologies to all readers who tried to get Radio Eireann on Sunday, November 26th, to hear the bells of St. Peter's, Drogheda. The morning before he received a telephone message stating that the broadcast was postponed.

The Midland Counties Guild has no 12 bell towers in its area and the peal of Grandsire Cinques at Walsall was the first tower bell peal on 12 bells for the Guild. After the peal the band were very kindly entertained by Mr. and Mrs. G. W. Hughes.

Miss Linda M. Hughes came to the rescue of the band who assembled at King's Norton for an attempt at a little known or rung method—Boston Surprise Royal. They met one short and Linda made up the band and enabled the method to be rung for the first time for the Guild and in the county.

With the exception of the conductor, the band at Grappenhall, Cheshire, who rang a peal in honour of the Ven. M. C. O. Scott's appointment as Bishop of Sierra Leone, was drawn from the Sunday service band, Grappenhall's special interest in Sierra Leone is due to the new Bishop having been a curate in this Cheshire parish for five years.

BELFRY GOSSIP

Marriage this year has meant that two Wadhurst ringers have gone elsewhere to live—Mr. C. Pilbeam to Frant and Mr. A. Hemsley to Burwash. Through their endeavours both towers are ringing regularly on Sunday mornings after a long silence. Although Wadhurst has had to suffer the Exercise has gained.

Shepton Mallet, Somerset, bells will be heard the West Region Home Service on December 10th at 7.45 p.m.

The outing referred to on page 803 was Church Gresley, Derbys, and not Greasley, Notts.

The Witney and Woodstock Branch of the Oxford Diocesan Guild are planning a Branch bellringing instruction course for December 9th at Stanton Harcourt.

We regret the peal of Plain Bob Major rung at Kimpton on October 21st and reported on page 744 is duplicated and appears a second time on page 775.

David Eames, of Church Gresley, at the age of 16, is believed to be the youngest ringer to ring a peal of Grandsire Cinques on Wolverhampton tenor (weight 33 cwt. 21 lb.). The band were impressed by his ringing.

'When you visit a church to ring put something in the box,' a principle Mr. Ted Patching, of the Witney and Woodstock Branch of the Oxford Diocesan Guild, wants to see adopted generally.

Siedman enthusiasts among higher numbers of bells will be pleased to note that the Central Council has published a collection of compositions of Siedman Caters and Siedman Cinques, price 2s. 6d. For details see back page.

The quarter peal of Plain Bob Major rung at Wareham, Dorset, is a result of the recent Major practices held monthly at Lady St. Mary's Church by the Wimborne Branch of the Salisbury Diocesan Guild. It was quite an achievement by all concerned, and contained a first quarter, five firsts of Major and a first of Major as conductor.

LATE NOTICE

BATH AND WELLS DIOCESAN ASSOCIATION.—Axbridge Deanery.—Practice meeting, Locking, Saturday, December 9th. Bells (6) 5 p.m.—David H. White. 9376

WARSOP QUEEN'S SCOUT

Members of the Exercise who are ex-Boy Scouts will be interested to learn that Troop-leader James T. Rooke, of Warsop, has been recently awarded the Queen's Scout Badge. He has gained 13 proficiency badges, and his bushman's thong.

For those who are not familiar with Scout work a Queen's Scout is one who, having thoroughly trained himself in Scoutcraft, places that training at the disposal of the community for public service, and H.M. the Queen has been graciously pleased to authorise the issue of a Royal Certificate to those Scouts of 15 years of age and over who gain the badge.

James is as enthusiastic with ringing as he is with Scout work, and although still at school has conducted peals of London Surprise Minor: and in seven methods.

This boy will undoubtedly go a long way in ringing, and the qualities he has developed in his Scout work will help him to achieve great distinction. JAFUS.

ORDER NOW — YOUR CHRISTMAS CARDS

Specially Made for Ringers

Each card illustrates a famous tower, and includes a note on the bells

CHOOSE FROM THE FOLLOWING—

Liverpool Cathedral	Sherborne Abbey
Portsmouth Cathedral	St. Patrick's Cathedral, Dublin

LEEDS & DISTRICT SOCIETY

Upwards of 40 ringers attended the meeting at the Church of the Holy Trinity, Ossett, and the ten fine-toned bells were put to excellent use. A special welcome was extended to members of the Barnsley and District Society, who were paying the Society a visit that day. Two new members were elected, Miss Mavis Shires and Mr. Delwyn Tidball, both of the Horbury tower.

Miss G. Beardow thanked the Vicar and churchwardens for allowing the Society to visit the tower, and a special mention for the ladies who had provided such a nice tea and the local company for making the arrangements. This vote of thanks was seconded by Mr. I. Gibson.

Mr. Fred Bennett, in reply, said the ladies appreciated very much the number of applications for tea they had received and that it was a great help in planning the number of teas required. (All ringers, please note.)

The place of the next meeting, to be held in January, was discussed. Mr. D. Thorp said that the Pudsey tower was not available, owing to the numerous complaints that church had received from the public regarding the noise of the bells. The secretary read out a letter he had received from Mr. W. Barton, explaining the position.

Mr. Fred Bennett said that he was sorry to hear of the position prevailing at Pudsey. This was a very serious state of affairs, and unless the clergy took a firm stand against the complainants, who were in a minority, restrictions on the use of church bells could stretch from parish to parish. This situation must be watched very carefully.

An invitation to hold a joint meeting with the Archdeaconry of Halifax Guild in February, 1962, was accepted with pleasure.

LATE NEWS

Mr. John Worth, of Macclesfield, rang his 1,000th peal on December 2nd. The peal, London Surprise Major, was called by his friend of very long standing, Mr. Edward Jenkins.

SOUTHAMPTON.—At St. Mary's, on Nov. 25th, 1,260 Stedman Triples: M. J. Thomas 1, R. C. Kippin 2, L. F. Cobb 3, M. J. Butler 4, J. R. Faithfull 5, O. N. Curtis 6, D. E. House (cond.) 7, E. J. Doel 8. A 21st birthday compliment to Miss Angela Chamberlayne, the Rector's daughter.

FRIDAY, DECEMBER 15, 1961

Registered at the G.P.O. for
transmission as a newspaper. 8d.

ROYAL RECOGNITION

THE fact that H.R.H. the Duke of Edinburgh has graciously consented to take a part in the Bow Bells reopening ceremony next Wednesday afternoon, December 20th, will give a great sense of satisfaction to the Exercise as a whole. The Duke will pull a rope, and that will be the signal for this well-known ring in Cheapside to be heard in rounds before going into changes.

The famous Bow Bells—they were the subject of a feature article by Ernest Morris in a recent issue—crashed into the flames during the blitz on May 10th, 1941. They were recast in 1956, the then Lord Mayor of London (Ald. Sir Cuthbert Ackroyd) being present to see the tenor cast at the Whitechapel Foundry. The decorative border of London Pride tells its own story. As the Lord Mayor said on that occasion: 'The City of London, and indeed Greater London, should be proud of this new curfew bell, the largest of the Bow Bells in the restored church of Christopher Wren's finest steeple in London.'

The B.B.C. are determined that this memorable occasion in the history of English ringing should not pass unrecorded. In the Home Service that evening the B.B.C. are broadcasting a 20-minute recorded programme, in which the first rounds and changes by the 12 recast bells will be heard, together with a talk by Albert Hughes, the master bellfounder.

To obtain a proper background, B.B.C. producer Geoffrey Topping and Richard Dimpleby visited St. Mary-le-Bow last Tuesday afternoon and were introduced by the Rector, the Rev. Joseph McCulloch, to some of the people who had helped to bring the bells back to life and whose stories were recorded on the spot for inclusion in the Bow Bells programme.

Ringers throughout the country have a personal interest in these bells. The College Youths naturally had a close association, and the second bell was named Fabian by the then Master, Wing-Commander John S. Mason, and was paid for by members of the Society. The then Rector, the Rev. H. Evan Hopkins, sent his appeal to practically every territorial Guild and Association, and at the annual dinner of the Ancient Society that year expressed his thanks to the very large number of ringers who had contributed through their Guilds and Branches. From this source between £150 and £200 was received from ringers in this country and overseas.

The previous reopening day was on Saturday, July 8th, 1933, when there was a big gathering of ringers present. Eight of the bells had been recast, and those not recast were the fourth, fifth, ninth and eleventh, but the canons

were cut off in order to fit iron headstocks. Between 1933 and 1939 only one peal of Maximus—Kent Treble Bob—was rung on the bells, and this was conducted by Mr. T. H. Taffender.

The presence of the Duke of Edinburgh will give an added interest to bellringing generally. Advantage should be taken by ringers of this special broadcast. Invariably feature programmes on the wireless and television stimulate interest. Towers should be ready to deal with inquiries, especially from young people anxious to have the mysteries of change-ringing unfolded to them. If circumstances permit, open evenings and talks should be given in towers.

One of the pathetic things about ringing in the heart of London is the shortage of ringers. The difficulty arises from the fact that there is no residential population in the City of London. While the College Youths have a standing band for St. Paul's Cathedral and a number of reserves, the College Youths are not really a teaching Society training people from the beginners stage. They look to the territorial Associations to undertake this work, although individual College Youths through these Guilds act as instructors. Much of London ringing today is by visiting bands—St. Clement Danes' is a notable example, and those who follow our quarter peal columns will note the various bands who are assembled to ring these bells. It seems apparent that what is done for St. Clement's will have to be the general arrangement for St. Mary-le-Bow. Like St. Clement's, there should be a well-known ringer in charge to whom people can apply to, and through him arrangements made for visiting bands. It is not likely with the present state of ringing in London that St. Mary-le-Bow will ever have its own band who would assemble there Sunday by Sunday. On the other hand, this church has close associations with the City of London, and there might be a list of fixed days when ringing is desirable, as is the case with Westminster Abbey. For these occasions a special band could be recruited, prepared to undertake occasional ringing.

It would indeed be a wonderful day if all the twelves in the City—St. Paul's, St. Giles' (Cripplegate), St. Michael's (Cornhill), and now St. Mary-le-Bow—each had their own individual band. Circumstances have conspired against it. When their bells are available, the Cumberlands at their corner of London regularly ring at St. Martin's-in-the-Fields and St. Leonard's, Shoreditch, and there is also ringing at Southwark Cathedral and at various other churches; but there are a vast number of gaps in the programme. In view of the number of provincial ringers who come annually to London a kind of clearing house is desirable.

THE LADIES' GUILD**Bedford District**

About a dozen ringers were present in the afternoon for the Beds and Northants District of the Ladies' Guild meeting at Higham Ferrers on November 25th. As there were no arrangements for tea, ringers met again at 6 p.m. at Rushden for the evening's ringing. Here the attendance was better and also the standard of ringing. Methods rung were Double Norwich Court Bob, Cambridge, Plain Bob and Grandsire, and the bells were lowered at 8 p.m.

Midland District

A very successful meeting was held at Hinckley, Leics. on November 18th. The eight bells were rung to a variety of methods during the afternoon, ranging from Plain Bob to Cambridge and Double Norwich. Shortened Evensong was conducted by the Vicar, who welcomed the Ladies' Guild. Tea was most enjoyable and was served by local lady ringers. After the gentlemen had adjourned to the tower for further ringing, the ladies held their meeting which, incidentally, was the best attended meeting this year.

Miss Thompson, the vice-president, welcomed visitors from Droitwich and Colehill. From the minutes it was stated only St. Mary's, Nottingham, would be open for the A.G.M., which would be a joint one with the Sherwood Youths, on Saturday, January 27th. The Guild meeting would be held before tea. Oakham was proposed for the March meeting on the 17th, and this is subject to permission being obtained. New members elected were Miss Christine Beasley and Miss S. Hooper (Hinckley), Miss C. Corton (South Wigston) and Miss C. Saunders (Aylestone); this concluded the meeting and the ladies returned to the tower for further ringing.

LLANDAFF AND MONMOUTH ASSOCIATION

On February 15th, 1958, the Llandaff Branch held a meeting at Sully, the first to be held there for 35 years. But on November 25th the Branch held another meeting there, for since the previous occasion the bells have been rehung and have had a new treble added. All this has resulted in an excellent ring of six bells, which was put to full use during the afternoon. Ringing in all standards was organised by the General Master, Mr. A. Hannington. Methods ranged from rounds to Spliced Surprise Minor for the more ambitious.

The service was conducted by the Rev. Basil Jones, Rector, who took for his text part of Psalm 150, 'Praise Him upon the well tuned cymbals.'

A delightful tea followed at the Church Hall, provided by the ladies of Sully, who were thanked by the Branch secretary.

The business meeting started with members standing in silence to the memory of David Gwyn Lewis, of Neath, who lost his life following a road accident. Eight new members were elected, and four from Bristol to life membership.

The next meeting will be at Newton Nottage, Portcawl, where another augmentation and rehanging job has recently been carried out. R. E. C.

SWANSEA AND BRECON GUILD

At the annual meeting of the Southern District at Sketty on December 2nd, Canon Garfield James, who presided, asked the company to stand in sympathy with Mr. Gwyn I. Lewis and family, of Cadoxton, in the death of their son and brother, David Gwyn Lewis, who died after a car accident.

There was a change in the officers—Mr. Arthur Hoare took over the secretaryship upon the resignation of Mr. J. T. Williams, and Mr. Trevor Roderick was elected auditor. Two new members from Sketty were elected—Lowri Hancock and Elizabeth Watkins; Geoffrey W. Armitage, of St. David's, Lampeter, was elected a life member. Mr. Barrie Couzins thanked the ringers and wives who provided the tea. The service was conducted by the Rev. D. White, and Canon Garfield James gave the sermon.

PERSONALITIES OF THE EXERCISE—50

MR. ALFRED BALLARD,
Leicester Diocesan Guild.

One of the most enthusiastic and competent ringers in the Midlands is Mr. Alfred Ballard, of Hinckley, Leicestershire. A very gifted handbell ringer, he took part in the first handbell peal of Surprise Royal and the two peals of Cambridge Maximus, surely one of the most amazing performances of all time. In addition he has scored Stedman Sextuples and Kent Treble Bob fourteen, and has also rung Stedman Triples non-conducted.

Alfred was born at Stoney Stanton, Leics, on December 14th, 1908, and was educated at the local Church of England School, and later at the Hinckley Technical College, where he studied hosiery manufacture. He is now manager of Messrs. Francis & Windlebieb, the hosiery manufacturers, where he has been employed since leaving school.

He learnt to ring at Stoney Stanton about 1925, and his instructors were the late Rev. R. P. Farrow and Mr. C. H. Briggs. This tower has always been popular for peal ringing, and a long peal of Cambridge Major was rung here in 1923. Alfred was the only one of eight pupils who started with him who still takes any interest in ringing, but although Stoney Stanton has never had a good change ringing band, they always ring regularly for Sunday services.

His first peal was rung at Wetherby, Yorkshire, on March 19th, 1927, being four methods of Doubles, conducted by Ernest Morris, and his next was Stedman Triples, called by that gifted conductor, Walter P. Whitehead, with whom he rang a number of peals, when James George was completing his dates, and often came to the Loughborough Bell Foundry. Alfred's present peal total is approximately 830, of which 296 have been rung on handbells. He rang the third to the record peal of Stedman Cinques at Christ Church, Oxford, on August 24th, 1946, and has completed Stedman from Double to Cinques, Cambridge from Minor to Maximus—in one day! and Plain Bob from Minor to Maximus on both tower and handbells. He has also rung four peals of Surprise in a day. One peal of which Alfred is always proud was rung at Claybrooke. While ringing was suspended at Hinckley for a time, some of them went over to assist Mr. C. Clarke, who had started a number of young ladies there, and four of the local band rang their first peal through this help.

Alfred considers he was very fortunate to be associated with the late Harold J. Poole, who besides being a great ringer was also a personal friend, and who did much to encourage Alfred during his early attempts at handbell ringing. Mr. Redvers F. Elkington,

of Anstey, was also a great help in his early days, and cycled to Stoney Stanton every week for handbell ringing, the Rev. R. P. Farrow being very interested and helpful. It was Redvers Elkington who took him to meet that other great Leicester ringer, the late Frederick H. Dexter, who gave him much sound advice on Surprise ringing. When Alfred really started handbell ringing in earnest, he had to travel the 14 miles to Leicester every week, and when they were practising Cambridge Royal it was twice a week.

In 1949, Alfred rang no fewer than 118 peals, but this did not prevent him from attending all his District meetings. He is both chairman and Ringing Master of the Hinckley District, and is now captain at Hinckley (St. Mary's), where they have a very young band. He has also represented the Leicester Diocesan Guild on the Central Council for a number of years. In 1925 Alfred married Miss Susan Cobby, who, although not a ringer, is always ready to help by providing coffee on handbell practice nights at Hinckley.

Alfred is interested in most sports, and has taken a practical interest in golf for the last few years, mainly for exercise to keep his weight down!

He has proved himself to be the ideal type of ringer, who has not only rung a lot of peals with the best but also faithfully supports his own District by helping and instructing beginners and attending meetings. Men of his kind are the backbone of an Association.

APACE.

BOW BELLS DEDICATION

The dedication of Bow Bells, Cheapside, London, on Wednesday, December 20th, at 3.45 p.m., will be by the Bishop of London in the presence of H.R.H. the Duke of Edinburgh. Ringing on that occasion will be by officers of the Ancient Society of College Youths and members of St. Paul's Cathedral Guild.

It was hoped that there would be open ringing at Bow that evening, but that is not now possible, as the ceremony of confirmation of the election of three bishops has been fixed for that time.

The authorities have promised that as early as possible in the New Year an open day for ringing will be held. Details, when received, will be published in 'The Ringing World.'

{For 'Time Signal Doctored' see Letters to the Editor, page 840.}

BEAMINSTER'S VETERAN RINGERS

The West Dorset town of Beaminster will have three ringers who have each completed 50 years' service in the tower as change ringers. The three were pupils of Mr. T. Hervey Beams, who, over 50 years ago, used to walk six miles into Beaminster to inculcate the art of change ringing.

The second member to complete his 50 years' was Mr. A. Tom Gunning. This was on November 26th, and three days later the local Guild assembled to mark the occasion. Several touches of Grandsire were rung with Tom conducting. Taking part were Mr. E. P. Bailey, who has been an active ringer for 53 years, and Mr. A. Winters, who in January next will have 50 years' to his credit.

After the ringing the company adjourned to the Greyhound Inn, where Tom is mine host and drank his health, followed by an excellent supper.

All three have peals to their credit and are capable of conducting Grandsire Triples and all have been officers. Mr. Bailey was secretary and treasurer for 40 years. Mr. Gunning has also held that office and has been captain and vice-captain on several occasions. Mr. Winters has also been captain and vice-captain very many times.

Has any other tower three members, each with over half-a-century's service?

Durham University Society at Dinner

THE annual dinner of the Durham University Society of Change Ringers was held in the Three Tuns Hotel, Durham, on November 18th, 35 members and guests being present. Previously, the bells of Chester-le-Street and Houghton-le-Spring had been rung, and the excellent dinner was therefore most welcome.

The president, Mr. Bryan Pattison (Bede College), after proposing the loyal toast, called upon Mr. Peter Newing (St. John's College) to submit the toast to 'The Church.' Mr. Newing said there were in England 5,000 bell towers, all closely integrated with the life of the Church. As ringers they were in a unique position, having a particular kind of work to do. The message of the bells was witness to the eternal truths for which the Church stood and it was their responsibility to assist the Church by sharing in the life of the Church.

In reply, the Rev. G. Foley, Rector of Brancepeth, said there were three sexes—men, women and clergymen—and three types of clergy—the important ones (who wore garters), the useful ones (parish priests), and the ecclesiastical civil servants, for example Directors of Education, into which category he fell.

Brancepeth, he continued, had an ancient and very beautiful church. When he first went there, 18 months ago, there was a congregation of six and the bells were only rung when the parish ringers managed to get up in time. The University bellringers were therefore very welcome to both himself and all in the village. The ringing of the bells brought something to the village life which had been sadly lacking—the traditions of the past. In addition to this, he was now able to get into the 'horse-box opposite the squire's playpen' and preach to a larger congregation—even if the ringers were asleep, their presence was very welcome. Mr. Foley ended by thanking the ringers very much for their services to Brancepeth; may you ring many more bells? he said, 'and God bless you all.'

ACHIEVEMENTS—TWO PEALS, TWO ENGAGEMENTS

The health of the Society was proposed by Mr. Thomas O. Piercy, a past president, who listed the achievements of the Society as six peals, two engagements, and lots of good friendships. D.U.S.C.R. was founded to keep together the Durham and Newcastle Societies—that ringers should keep in touch with each other and not drop ringing once they left home. The officers of the Society must not take the attitude 'we're all going down this year so never mind next year.' Continuity must be maintained. It was extremely difficult to start a society with good quality ringing and a good spirit; life members could contribute a lot. Mr. Piercy expressed his wish that the future Newcastle University would uphold these traditions, as the Durham Society was doing.

The president, in reply, pointed out that Durham had the nucleus of a very good Society; he was proud to be its president for the second time. It was a great privilege, he said, to ring at Brancepeth—the Society at last had a tower to call its own—and also at Durham Cathedral. Mr. Pattison said when he first came to Durham he had been told he would never get a ring at the Cathedral, but he went up the tower and had not been disappointed. The Society had been allowed to augment the Cathedral band ever since, and was especially privileged to assist in the ringing for King Olav of Norway on his recent visit.

In Durham, he said, they had been very fortunate in the past three years in having a steady influx of ready-made ringers. He thanked all the ringers for their hard work.

He went on to welcome the guests—the Rev and Mrs. Foley, and Mr. Cooke, president of the Durham and Newcastle Association, and his wife. He also welcomed Mr. B. S. Shep-

A handbell interlude during the D.U.S.C.R. annual dinner. Left to right, back row: Andrew Bolton, Bill Wilson, Bryan Pattison and Chris Herbert. Front row: Mrs. E. Allison, Mr. E. Allison and Chris Hopkins.

[North of England Newspaper Co. Ltd., picture.]

pard, from Manchester University, and Mr. Allison, bell-major at the Cathedral, and his wife. He expressed the Society's thanks at being allowed to help the regular Cathedral ringers during term-time. Finally, Mr. Pattison welcomed Mr. Piercy and Miss Phillips.

Mr. Sheppard apologised for the absence of the president of Manchester, and brought the Society the best wishes of the University Society and Guild of Manchester. He thanked the D.U.S.C.R. for the kind hospitality shown to himself and all the guests, which he knew they had all enjoyed.

The speeches concluded, the president thanked the D.U.S.C.R. secretary, Miss Mary Marshall, for arranging the dinner. A pleasant evening was rounded off with handbell ringing and discussion.

THE COMPANY

Mr. B. Pattison, Mr. B. S. Sheppard, Rev. and Mrs. G. Foley, Mr. and Mrs. T. Cooke, Mr. and Mrs. E. Allison, Mr. T. O. Piercy, Miss W. Phillips.

Messrs. C. Herbert, J. Thorley, P. Newing, C. Rees, C. Hopkins, A. Bolton, W. Wilson, D. Stubbs, D. Dredge, J. Constable, B. Redgers, T. Grey, L. Pizzev.

Misses M. Marshall, S. Boiteux-Buchanan, B. Cooke, S. Scott, J. Shaw, H. de Chateleux, A. Durent, J. Somervale, J. Buckley, G. Webb, E. Davies, R. Myers.

LINCOLN DIOCESAN GUILD

The West Lindsey Branch meeting held at Willingham on November 18th, was in place of Upton, where the bells are at present being augmented from five to six.

The service in church was conducted by the Rector (Rev. W. Nicholson), who is shortly leaving the district. Appreciation of the Rector's help and co-operation in Guild matters was expressed later at the business meeting.

After some discussion, it was agreed that the annual meeting to be held at Gainsborough on January 20th should again be followed by a dinner and social evening at the Old Hall. M. L. M.

HERTS COUNTY ASSOCIATION St. Albans District

A surprisingly pleasant afternoon attracted a good number of ringers to Harpenden on November 18th. The eight bells were soon tapping round to Cambridge Double Norwich, standard methods and rounds for the many enthusiastic beginners.

At the service, conducted by the Rev. P. Bradshaw, Mrs. J. Dodds, a St. Albans ringer, played the organ. Tea, provided by the local ringers, was excellent. Ringing continued until Evensong, when a business meeting was held. Mr. W. Hughes, president of the Association, was elected chairman. New members elected were: A. Rimmer, R. Lewis, N. Pearce, D. Green, L. Baycock and D. Sadler.

The company was reminded that many subscriptions were long overdue for 1961 and that alterations to the 1961 annual report must be sent to the secretary as soon as possible. The illness of Mr. Bertie Cornell, of St. Albans Cathedral, a very dear old friend of all present, was brought to notice and arrangements were made to send him flowers and a letter from the District. A collection for the voluntary bell fund raised £1 10s.

Ringings continued until 8.15 p.m. when methods rung were Yorkshire, Cambridge and Lincolnshire Surprise Major. Pershore Bob Major (special method) and standard methods. C. M. R.

SAFFRON WALDEN'S BELLS

Dear Sir.—Work has commenced to lower the ring of 12 bells and dismantle the old frame at Saffron Walden. The bells are to be taken to Messrs. John Taylor's foundry at Loughborough, for tuning and rehanging in a new cast iron frame.

The reopening of the bells has been fixed for Saturday, June 30th, 1962. Will friends and outing secretaries please note this date.

—Yours faithfully, L. E. PITSTOW.
4, Highfields, Saffron Walden.

LETTERS TO THE EDITOR

CHRISTMAS BELLS

Dear Sir.—Bells to be broadcast on Christmas morning will be those from Woolton, St. Mary Redcliffe, Cowbridge, Enniskillen, Sevenoaks, Worcester Cathedral and Greenock.

I believe the majority of ringers who listen are more interested in the quality of the bells rather than the method being rung and I would suggest that rounds be rung at the time of broadcasting.—Yours sincerely,
CECIL W. PIPE.

Grundisburgh, Woodbridge.

IS THIS SPLICED?

Dear Sir.—Referring to the peal of Spliced Surprise Minor rung at Stanwell, page 799, can this peal really be termed 'spliced' for 720 numbers four and seven were Cambridge only?—Yours sincerely,

FRANK H. HICKS.

East Grinstead.

KILIFI BELLS

Dear Sir.—Thank you for printing the architect's drawing of St. Thomas' Church, Kilifi. May I correct a small error in the title of the picture? The cost of the ring of bells is given as £3,200. This is the estimated cost of the church itself, including furniture, electric light, harmonium and architect's fees. It is a remarkably low figure for a strong and beautiful building, which can seat over 120 adults and take a further 300 in the open wings.

The ring of six bells (tenor 14 cwt.) was quoted by Taylor's at £2,194, C.I.F., Mombasa, with all fittings, delivered in pairs. Following Col. Jerram's hint we have now had a new quotation for a ring of six (tenor 11 cwt.) £1,920—not a great saving, owing to the rise in the price of bell metal. We have also made a tentative offer for a second-hand ring of five.

The two lightest bells of Taylor's new quotation would only cost £459 and our bell fund now stands at £111, much of it from local sources, but we are still hoping for contributions from the Diocesan Guilds.

We are coming home for four months' leave in January, and will be able to show some coloured slides of the church and its environment—including one of the drums of the Coldstream Guards, whose scarlet decorated our ringing chamber and gallery for the Remembrance Day service.—Yours, etc.

W. F. P. KELLY.

Kilifi, Kenya.

STRIKING CONTEST IN ARTS FESTIVAL

Dear Sir.—Following upon Mr. S. K. A. Huson's letter in the issue of November 24th, Mr. Bernard Buckley, of 4, Den Lane, Uppermill, near Oldham, a tower bell ringer, who is on the committee of the Saddleworth Arts Festival, has suggested a striking contest at St. Chad's Church, within the festival week from May 26th to June 2nd, 1962. The committee favour the suggestion, and have promised a shield and medals for a competition of no less than eight sets.

Might I suggest that a charge of 10s. per company be made, the money to be spent on prizes. Will ringers interested write to me for particulars and made suggestions to help in the cause of good striking, as Mr. Huson and others desire.

If at the end of January, 1962, I find that the contest looks like being supported a notice to that effect will appear in 'The Ringing World'.—Yours faithfully,

JOSEPH BURGESS.

62, Manchester Road,
Greenfield, near Oldham.

BOW BELLS SIGNAL 'DOCTORED'

Dear Sir.—It would seem that the recording of the Bow Bells (recorded in 1934, according to Mr. Ernest Morris, 'R.W.' December 1st) used for years by the B.B.C. as an 'interval' signal, has been edited and recorded on tape, judging by what I have heard on several occasions lately. Rounds are followed by the changes 1234567980, 1234567980; 1234576980, 1234567890; and this is repeated over and over again.

As one amongst very many who have found great pleasure in listening to the old recording, and following blow by blow the changes produced, I find this doctoring of the ringing intensely irritating and frustrating, and I am sure that there must be many ringers who feel the same. At least one full record of the changes exists, and is still used by the B.B.C. from time to time.

Could we make representations to the B.B.C. to use the full record (or if the disc is becoming badly worn, to transfer it to tape in full)? Perhaps the Ancient Society of College Youths, whom I believe made the original recording, would take up the matter.—Yours sincerely,
Yeovil, Somerset. ROGER O. FRY (Rev.)

BELLRINGING COURSE AT GRANTLEY HALL

Dear Sir.—The next course at the West Riding of Yorkshire Adult College will be held from Friday to Sunday, April 27th to 29th (the week-end after Easter Monday). As four tutors will be available (Messrs. F. Sharpe, W. Barton, W. F. Moreton and N. Chaddock), it will be possible to have two lectures and activity groups working at the same time, one elementary and one advanced. Varied aspects of tower- and handbell ringing will be dealt with from both learning and teaching angles, and it will be possible to meet almost any individual requirement. Practical sessions will be held at various towers, including Durham Cathedral.

Those attending will enjoy the excellent facilities and food of the college, situated in lovely surroundings, which appear at their best at this time of the year.

The total number of places on this course is only 26, a good number of which have already been taken. Those interested are advised to write to the Warden of the Adult College, Grantley Hall, near Ripon, Yorks, as soon as possible for an application form. Total cost is £2 2s. for West Riding residents, £3 for others.—Yours, etc.

NORMAN CHADDOCK.

17, Herringthorpe Grove,
Broom, Rotherham.

A REQUEST FROM CANADA

Dear Sir.—I am writing to inquire if any of your readers know where I can purchase recordings of change ringing? I was a member of the Bath Abbey band, England, but have lived in Canada now for nearly 44 years.

Before I came to Canada there was, I believe, a recording of Bath Abbey bells, and some time ago I read in 'The Ringing World,' which I still take, that there was a recording of Bristol Surprise offered for sale, but unfortunately I never took advantage of the offer. Are these recordings still for sale? Perhaps some of your readers will inform me as to whom I should write to?

I live in the suburbs of Toronto, and in that city there are no bells that can be rung to changes. The ten bells in the Cathedral cannot be rung because of the chiming apparatus. The Canadian Broadcasting Corporation Television Service exhibited a film showing change ringing from Mission City, British Columbia. I was quite thrilled to see and listen to Grandsire Caters.—Yours very truly,
130, Chalk Farm Drive, M. HELPS.
Downsview, Ontario, Canada.

1,259 STEDMAN & GRANDSIRE CATERS

Dear Sir.—The following quarter peal composition may be of interest to Caters ringers.

Grandsire (P.L.)	Siedman
3	2, 5, 8.
1	2, 4, 5, 7.
1	2, 5, 8.
3	2, 5, 8s.
1	2, 4, 5, 7, 9s.
1	2, 5, 8.
4	1, 2, 4, 8.
4	2, 5, 8s.
A	
4	1, 2, 4, 7s, 8.
1	

Comprises 720 Siedman and 539 Grandsire, with 28 changes of method.

The splices are made at the normal starting positions, with the treble quick bell, so the methods in fact dovetail over several blows. All calls are in Siedman; the calling positions are numbered from the change of method. Course ends are not given because they do not generally coincide with changes of method. The back four bells course each other most of the time in a wide variety of coursing orders; the music is predominantly Tittums, although the backstroke, inverted Tittums and handstroke positions appear frequently. Several interesting touches can be obtained on this type of plan; a peal is quite possible, but with so much different coursing orders proof is tedious.—Yours sincerely,

JOHN SCHOFIELD.

Wallington, Surrey.

EVESHAM SURPRISE ROYAL

Dear Sir.—From recent correspondence received by the Rev. K. W. H. Felstead, which he has passed on to me, it appears that the nomenclature which I used to describe the extension of Evesham Surprise Major to the Royal ('R.W.' page 773) is not a form which is generally understood by those interested in such matters. May I be permitted, therefore, to explain as briefly as possible the origin and meaning of the nomenclature which I used.

Taking Evesham Surprise Royal as the method in question as an example, the description 'Extension DU/E of the Major' finds its origin in the C.C. Methods Committee's Report on Extension, adopted by the Council in 1953.

By dividing a half-lead of the parent Major method into the appropriate front and back sub-sections and following the Rules for extension as laid down in the Methods Committee's Report, starting the extension at 'front sub-section D' and at 'back sub-section U,' Evesham S. Major yields a Royal extension of the 'Expanding' class (E), as opposed to the Static (S) or Double (D) classes. Hence, in summary, the whole of this procedure can be described as 'Extension DU/E of the parent Major method.' This would appear to be the shortest, but possibly not the simplest, way of describing a method extension.

However, to avoid any further confusion, I must advise the place notation for Evesham Surprise Royal, which is obtained by Extension DU/E of the Major.

I must apologise for an error in the figures forwarded to you of the 5,040 Evesham S. Royal (page 804). The 8th course end should read 32465, and not 43265.—Yours sincerely,
R. ROGER SAVORY.

Souhampton.

LETTERS—Continued

**MR. WILFRED WILLIAMS' PEAL TOUR
A REPLY TO MR. P. J. BROWN**

Dear Sir.—I suggest you read my letter again and get some of your facts right. If you think I'm one of these people who go round saying, 'Down with drink and drinkers' you are very much mistaken. My objection is that in the report of this tour drinking is being splashed all over the paper.

I notice that in your letter you call Mr. Williams and company a party of peal grabbers and that you weren't interested in their performances! Later on you say, 'Carry on, Mr. Williams.' Your letters would not be contradictory if you read them first!

As to your suggestion that I go on a peal tour and see what thirsty work it is, you are here talking without your book. Last August I spent two weeks on a ringing tour with a bicycle, covering 850 miles and averaging six towers a day. I should have a good idea of what thirsty work is, but I didn't write to 'The Ringing World' giving details of every inn visited. In the article about this tour (Rambling Ringers) I don't think you'll find mentioned beer and pubs visited, though I can assure you that we did not spend our spare time in a milk bar!

As for telling me to apologise, I honestly can't see anything in my letter to apologise for. A number of my friends gained the same impression as I did.—Yours sincerely,

R. KINGSLEY MASON,

Knighton, Leicester.

EXPERIMENTING

Dear Sir.—Re Alan J. Blair's letter on p. 809 headed 'Experimenting,' I should like to make a few superficial observations.

The method he gives appears to be a form of Double Kent, place notation being:—
3456—3456, 18. —1278—, 18. —1278—, 18.
3456—3456, H.L. (18) L.H. (18)=652743 [3L.C.]

There are two 'blue lines' of the method—one is rung by 3, 5 and 7, the other by 2, 4 and 6.

The method is 'irregular' on two counts—adjacent places in 78 w.o. treble and non-Plain Bob leadheads. This latter irregularity could be overcome by having the 78 section rung as: 3456—36, and have a H.L. of 1458; whatever you do will upset the pretty phase pattern, which obtains within the sections:—
(+)², (-)², (+)², (-)².

The music of the first few changes must really be marvellous with 82 dodging as the lead!

The 'bob' given is no such thing—it is a single.

The false leadheads against the first lead of the 'plain course' are:—

(1/2) 243657, (3/4) 432765, (5/6) 674523, (7/8) 243657.

There appear to be only 360 leads of the method, of which I think only 120 are usable in a true composition, giving a maximum length of about 400 changes—just a nice service touch.

The above observations are only superficial and I have not had time to check any statements thoroughly.—Yours, etc.,

GILES B. THOMPSON.

P.S.—I should be most grateful if 'Junior' (of 'On the use of calls' fame) would get in touch with me at my address: 'The Garnet,' 32, Egerton Road North, Chorlton-cum-Hardy, Manchester. 21.—G. B. T.

SALISBURY DIOCESAN GUILD

West Dorset Branch

The annual meeting of the West Dorset Branch was held at Bridport on December 2nd, when about 60 ringers attended. The bells were made full use of from 3 to 4 p.m. The Guild service was conducted by the Rev. J. P. Hinton, and the organ played by Mr. B. Elsworth. The collection, which amounted to £3 9s., is to be sent to Kilifi, Kenya, to help to defray the cost of the new ring of bells which it is hoped to install in the church there.

Bridport ringers and their wives entertained the company to tea in the Church House, and a foretaste of Christmas was hot mince-pies.

The Rev. J. S. Arthur, Branch chairman, presided at the business meeting, and gave a warm welcome to the visitors, especially Rev. C. A. and Mrs. Brinkworth, of the Dorchester Branch. He also thanked Bridport ringers and their wives for their generous hospitality. A letter was read from the Master of the Guild expressing his good wishes and sorrow at not being able to be present owing to his own annual meeting being on the same day.

The following new members were elected: from Hawkchurch, Miss R. Bowditch, Miss Marsden, G. Rawlins, K. Froom; Lyme Regis, Miss H. Davis; Netherbury, Miss J. Tither, B. Tither, J. Davis, G. Hawkins; Broadwindsor, Rev. F. B. Horsey, and confirmed as a member was R. Master-Curtis, of Milton Abbey School.

Points from the honorary secretary's report were average attendance at quarterly meetings, 25; increased membership over last year's figure; there were now fifteen lady ringers, and one the deputy leader of her tower. There is hope of at least one more tower joining the Guild. Sunday service ringing has not been maintained as set out in the Central Council survey. Whitechurch, Hawkchurch and Thorncombe members have now become method ringers; this latter tower also receives praise for its efforts to obtain a sixth bell. They now have £300 and the new bell has been ordered. Netherbury and Askerswell were mentioned for their youthful members, who were giving a good account of themselves.

The accounts showed a balance in hand of £67 11s. 4d. The chairman thought another £20 might be put into deposit account and this was agreed. The honorary secretary was thanked for his work and for the manner in which it had been carried out.

All the officers were re-elected, viz.: Rev. J. S. Arthur, chairman; C. W. Powell, vice-chairman; J. T. Barrett, honorary secretary and treasurer; D. Bishop, G. S. Morris and H. Keeley, ringing Masters; Canon C. C. Cox and F. Knight to branch committee.

Meeting places for 1962 were agreed, the next meeting to be at Bradpole on February 24th, subject to the Vicar's consent. Canon Cox thanked Mr. Hinton for conducting the service and for his interesting and thoughtful address. Mr. Bishop mentioned the passing of the Rev. R. P. Farrow, and the departure of Dr. Brown from Wareham. The meeting stood in silence to the memory of Rev. R. P. Farrow. Ringing continued for the remainder of the evening at Bridport, Bradpole, and Symondsburry.

GUILDFORD DIOCESAN GUILD

Chertsey District

Over forty ringers attended the nomination meeting of the Chertsey District, held at Walton-on-Thames on December 2nd. There was ringing from rounds to Stedman Triples during the afternoon, and a service followed. This was taken by the Rector, who struck an unusual note by not speaking entirely on the subject of bells and ringers.

The tea was followed by the business meeting, at which Mr. R. Collins, District Master, took the chair. Apologies for absence were received from Mr. C. W. Denyer (Guild Master), Mr. F. Hawthorne and Mr. W. Shepherd. The following nominations for District officers for 1962 were submitted: Ringing Master, Mr. R. Collins; Assistant Ringing Master, Mr. J. King; secretary and treasurer, Miss E. Loveland. The retiring committee member, Mr. J. Maybrey, was re-nominated, and also Mr. W. Shepherd as District auditor, and Mr. C. Archibald, 'Ringing World' correspondent. Eleven new members from Chertsey, East Molesey and Walton-on-Thames were elected.

Some discussion took place on the proposed amalgamation with the Surrey Association. It was stated that there would be a general meeting in Guildford early in 1962, to see whether the Guild as a whole would be for or against this. The importance of members attending to record their votes was again stressed. The meeting closed with a vote of thanks to the ladies, for providing such a wonderful tea, to the Rector, for taking the service, and to the organist.

There was ringing, up to Double Norwich, during the evening, some handbells being rung for a short time while a broken rope was repaired.

C. M. P.

OUTING

MARCH, CAMBS

Bellringers of St. Wendreda's Church, March, held their annual pre-Christmas tour on December 2nd, and visited four churches in Huntingdonshire. St. John's, Holywell, a tiny church overlooking the Ouse valley, was first visited and the six bells were rung prior to a service.

Picturesque Hemingford Abbots came next and the bells of St. Margaret's soon were echoing above the lovely river; a three-hundred year old clock—still marking time—was the centre of attraction here.

An excellent tea, including Christmas fare, was enjoyed at the George Hotel, Huntingdon, renowned for Shakespearian performances in its old-world courtyard. After a warm in front of an 'old-fashioned' fire the party entered All Saints' Church and rang the bells, three of which bear the date 1607 and one 1677. Oliver Cromwell, who was baptised here, would have heard these bells.

Speeding along the Great North Road the bus eventually arrived at St. John's, Stanground, where the six bells, of fine total quality, were set going; one of these was cast in 1588—the year of the Armada.

Rounds and call changes were rung for beginners and other ringers indulged in the methods Plain Bob, St. Clement's, Little Bob, Double Oxford and Spliced Kent and Oxford T.B.

A REVIEW OF MINIMUS

By GEOFFREY DODDS

ONE of the most surprising decisions of the Central Council in recent years has been the acceptance of peals of Minimus. The reaction of the general body of ringers to this appears to be shock, disgust, grudging tolerance, perhaps complete indifference, but hardly wild enthusiasm.

How did all this come about? Did some stunt ringers, some 'Ogres of the Exercise' creep up on us by stealth to make fools of us by ringing peals on four bells? A careful study of the last few years of 'Ringing Worlds' would show that this is not the case. In fact, the trend towards acceptance of peals on lower numbers has surely been apparent since the end of the nineteenth century.

ANCIENT HISTORY

The earliest definition of a peal was what we now call an extent. By Siedman's time, four-bell 'peals' were considered beginners' stuff and 'peals' of Doubles were very popular, each 'peal' being considered as a separate method, while Minor was in the experimental stage. Later, with Minor came the idea of composition, the semi-mathematical skill of using Bobs and Singles to produce different 'peals' in a given method being the new approach to ringing.

The difficulty of composing a true peal of 5,040 Triples proved a stumbling-block for many years, but by 1715 or perhaps earlier this was rung and 5,000 changes came to be the new definition for peals of Major to Maximus, the first peals of which were all rung within eleven years of the first known peal of Triples. For over 150 years any peal length rung to less than Triples was ignored by the 'Peal Pundits' of the day.

In the early days of the Central Council, Minor ringers, let alone Doubles ringers, were apparently not represented, judging by the subjects discussed. Gradually Minor peals, although accepted, became recognised as worth while, thanks to the efforts of pioneers like the James brothers and, later, C. K. Lewis, W. Ayre and others. Treatises and opinions on regular v. irregular Minor methods and Spliced Minor began to appear in the Press.

Minor and above were now accepted, but anything less was 'rubbish'—according to many 'Minor and above' ringers. Even now, in spite of lengthy discussions in 'The Ringing World' and an authoritative book by the Central Council Methods Committee, Doubles peals are still lumped together in the annual analysis of peals, irrespective of whether the methods rung have individual plain courses or are merely variations. Perhaps there are so many names rung in some of them that they are not worth bothering about. This attitude used to be applied to Minor also.

Peals of Minor were accepted and with them, the important idea of repetition of changes in a peal. Shortly afterwards, I believe (I am open to correction), peals of Doubles were accepted, with the necessity of having every change repeated 42 times. No proviso was made that 42 different extents be required, why I do not know, but for many years now we have had the possibility of an easy peal of 42 extents in one calling of, e.g., Plain Bob or Grandsire. Perhaps this is allowed to encourage struggling village bands who would otherwise never reach the dizzy heights of a peal. But surely, any bright, keen band, with luck, could ring an interesting peal of even Bob Doubles, by using the four callings, each bell in the hunt in turn and three of the 'variations' of Plain Bob (i.e., different bobs).

MODERN HISTORY

Coming now to four-bell ringing, Minimus. How did the present interest begin? It is all in the pages of 'The Ringing World'—now probably lost or forgotten by most readers.

In the issue dated February 15th, 1957, appeared a letter from D. P. Jones asking if it would be possible for Mr. R. Dove to add a supplement, one day, to his excellent 'Guide', giving a list of churches with four bells, if hung for ringing. He thought that the increased interest shown by possible visiting parties might arouse local enthusiasm towards change-ringing and possibly augmentation. For the next six months followed a stream of letters listing four-bell towers with, in many cases, information on the condition of the bells.

As a result, the first quarter peal to be published was rung in June, 1957, at Carlton, Beds, being Plain Bob. Quarter peals in up to four methods were rung in Somerset before an article by Peter B. Knights was published on October 11th and 25th, entitled 'Change Ringing on Four Bells.' This was a comprehensive study and has strongly influenced Minimus ringing since, but several things in it are open to question. In fact, some of it is contrary to the spirit of the Central Council decisions on methods and extents. No comment was made by any Central Council committee member, at least not in 'The Ringing World,' but then no peal ringing was envisaged—yet.

Two months elapsed. Then, on December 20th, appeared a letter from Cyril A. Wratten, pointing out that there was nothing in the Central Council rules and decisions to prevent a peal of Minimus being rung and accepted. This warning of what might happen was ignored by the Central Council at Dublin (1958) and at Southport (1959), although a motion to broaden the scope of Minor and Doubles peals was defeated on the grounds that peal standards were low enough already.

Nothing important happened for nearly two years, apart from a few quarter peals in up to nine methods. Even six- and eight-bell towers joined in these with tenors covering. Then, on October 1st, 1959, Geoffrey K. Dodd conducted a peal of Minimus in five methods at Newtown, Hants, just south of Newbury. There were 42 repetitions of each method, no more than in peals of Undershaft or Smithfield Doubles. Although submitted as a peal, it was published as a performance on the advice of Mr. E. A. Barnett. Two of the methods were claimed as new, but were subsequently renamed correctly by the conductor, since they were merely contractions of well known methods on higher numbers, and at the time he requested that it should go forward as a peal. Nothing further was mentioned in 'The Ringing World' until the Central Council meeting at Folkestone (1960).

THE DECISION BY DEFAULT

The Peal Analysis Committee report was submitted by the convener, Mr. W. Ayre, together with a Standing Committee recommendation that a peal of Minor where two ringers changed places be not accepted and the peal of Minimus be accepted. A vigorous discussion took place over the peal of Minor and although the wording of the appropriate rules was found to be possibly ambiguous, the spirit of the rule was perfectly clear and the

Standing Committee recommendation was accepted, together with the report. No discussion took place on the Minimus. (Perhaps the small number of bells involved made it unimportant in members' minds?) If it had not been for a question from the floor, the very last item in A.O.B., members—and perhaps 'The Ringing World' report also—would probably not have been aware of the acceptance of the Minimus peal. It would have been accepted but not recorded as a peal, which would have been very unsatisfactory.

As it was, the 'Decision by Default' created quite a stir although the storm did not break immediately. The first reaction was not condemnation of the Central Council, but the ringing of the first handbell peal of Plain Bob Minimus by D. A. Cornwall and J. E. Camp at High Wycombe on June 29th. This brought forth information from Rev. M. C. C. Melville and C. K. Lewis that two young brothers, Jocelyn B. and Ivan B. Gardiner, had rung a few peals before the last war, the first one being on July 30th, 1938, at Marple, Cheshire. As these were rung before the Central Council decision, the High Wycombe claim must presumably stand.

A further handbell peal, this time by well known ringers in Leicester, really set things going. P. H. Whitaker, of Coleraine, registered the first protest in the issue of August 19th, when he rightly said that 'the lack of criticism in "The Ringing World" is a regrettable sign of apathy in the Exercise. It could not have happened 50 years ago without an uproar. In fact, one of the arguments against allowing five- and six-bell performances as peals was that if they were allowed, four-bell peals would follow. Well, they have; and as sure as fate, three-bell peals will follow too unless the acceptance of four-bell peals is rescinded.... The real point is that the acceptance of peals on four bells allows a much lower standard.'

As an example of 'lowering of standards,' he mentioned that single-handed handbell peals had become acceptable—in fact, one such had recently been rung at Stevenage, Herts.

This was followed by many great names in our peal columns, one after the other condemning Minimus peals. Certainly the standard for a peal had fallen, but a few lesser voices and the champion of the 'little man,' P. Amos, came out in favour, claiming that interest in ringing might be aroused in these lesser towers and that the bells might well be augmented as a result, as at Leire, Leics, or at least be rung and maintained—much the same argument that D. P. Jones used in his original letter.

The second tower bell peal was also conducted(?) by G. K. Dodd and was on September 30th, 1960, almost a year after the first, at Stanford Dingley, Berks. This time it was in only two methods, thus lowering his previous standard. Stanford Dingley has a very strong team of twelve ringers who are now considering adding two more bells and this peal gave their leader, W. A. Cummins, the satisfaction of scoring his first in his own tower. The interest shown by their band, combined with a wish to augment their bells in the future, seems to be contrary to the fears expressed in a second letter from P. H. Whitaker on November 11th.

Next followed a couple of handbell peals of Plain Bob Minimus, one at Redfield, Bristol (October 30th) and the other at Wadham College, Oxford (November 2nd), by two undergraduates. This latter was rung for the Universities' Association who, two months later, expressed their natural disgust by refusing to accept this or any peal of Minimus in their records, maintaining that the Central Council decision was a deplorable mistake which would surely be rectified the following year. Thus they accepted that Minimus peals could be rung, but not for their Association.

The last peal brought forth some scathing comments from correspondents, who wondered if the young men concerned could not be more usefully employed. No real tolerance was shown of handbell peals of Minimus by any correspondent and when F. Keith Williamson rang a 'one man' peal in three methods at Leeds on December 11th, most ringers considered things had gone quite far enough. One interesting point that was overlooked was that this was the first handbell peal of Minimus in more than one method—a little more credit to him than to any of the other 'teams' and he claimed it only as a 'novelty'! A Review Of Minimus—Cont.

ally. I wonder when the first peal of Doubles or Minor will be rung in hand 'solo' as I have seen short lengths being rung 'six in hand.' I wonder how ringers would react to that!

In the meantime, more quarter peals were rung, nearly all in only one method and many in towers where there were more than four bells. An indication of things to come from Carlton, Beds. was a quarter peal on December 31st in 15 methods, many based on those published three years previously by P. B.-Knights, so be careful, Carlton, if you are thinking of ringing these to a peal!

Cambridgeshire produced the third tower bell peal, Plain Bob, rung at Conington on February 4th, 1961, in which there were two first peelers. The fifth and last handbell peal of Minimus ever to be rung, we trust, was on March 11th at West Hartlepool and was another of Plain Bob. A more constructive action than this last was reported on April 7th, being an account of the restoration of the four bells of Basildon, Berks.

The final rush of peals before the expected condemnation of Minimus by the Central Council resulted in two peals of Plain Bob, 5,088 (!) changes, at North Aston on March 25th and at Towersey on April 4th, both in Oxon, a peal in five methods at Wapley, Glos. on April 26th, a peal of Kent T.B. at Newton, Hants. on May 1st, and a peal in 11 methods at Randwick, Glos. on May 3rd.

The peal at Wapley was in the same five methods as the first one at Newtown, but Wapley is a ring of five and the tenor was rung as a cover bell. As there was no Decision against it at the time, presumably it stands as a peal. Does this also apply to the peal of Kent which produces true 48's with every change at hand being repeated once at back? This is allowed in Pitman's and Morris' 240's of Grandsire Doubles, but not otherwise in Doubles and Minor. There is no comparable rule for Minimus. Will it be ethical merely to assume that Minor and

Doubles Decisions automatically apply to Minimus?

The peal at Randwick raised the standard somewhat, all the 11 plain hunt Minimus methods being rung. By ringing them to a peal, all these are now named (see Appendix). Each extent was rung 19 or 20 times, i.e., slightly fewer than in a peal of Doubles in two callings rung a few months earlier!

(To be continued)

HEAVY & LIGHT HANDBELLS

In March, 1927, 'The Ringing World' reported a handbell peal of Stedman Triples thus: 'Having scored the heaviest handbell peal yet rung, with a tenor size 26 in G and weighing 4 lb. 2 oz., diameter 9 inches, certain Leicester "pealites" desired to score the "lightest ever."'

After several unsuccessful attempts on Mr. Josiah Morris' "midgets" they were dropped for the time being, but coming once more on the scene they met with a successful peal on March 15th (1927). This miniature peal was bought originally with wooden handles and iron clappers, but Mr. Tom Miller, of Birmingham "rehung" them with strap handles and bored the clappers, inserting boxwood strikers. The tenor weighs 3 oz., and is 2½ ins. diameter, while the total weight of the whole eight is but 22 oz. Thus the single tenor of the "heavy" peal is three times the weight of the whole light peal.

Now the present Leicester handbell peal ringers, having scored the heaviest peal of Major (May 14th, 1961), have with the Kent Treble Bob Major, reported elsewhere, scored the lightest peal of Major yet rung E. M.

WOLVERCOTE, OXON.—On Nov. 26th, 1,260 Doubles (Plain Bob, April Day, Reverse St. Bartholomew and Grandsire); J. L. Taylor 1, Mrs. W. C. Godwin 2, N. Chamberlain (cond.) 3, P. J. Heritage 4, W. C. Godwin 5, F. Chamberlain 6. Rung on the annual Ringers' Sunday. First quarter peal by the regular Sunday service band.

HOWARD'S HAUL OR THE SQUIRE'S SNATCH

November the 25th proved to be a lovely morning for the time of the year, when ringers from East Grinstead and two friends from West Hoathly set out on the 'Squire's Snatch.' The squire, John Howard to the unenlightened, gave a programme sheet to each member, and it was quite a stiff one too!

Lingfield started the ball rolling—Grandsire Triples, Bob Major and plenty of rounds for the lesser brethren. These bells proved just right for the whole band, whilst the two youngest, Elizabeth and Vivienne, aged seven and five, were busy brass rubbing—permission granted of course.

At Oxted, where we were met by Mr. Newnham, the bells were a trifle noisy inside, but Kent, Cambridge, Plain Bob and rounds were enjoyed. Limsfield gave evidence of a keen local band with a well kept belfry, numerous methods on the wall, a new set of handbells and the bells, a good ring of six, didn't disappoint us. Hull Surprise went very well.

On to Limsfield Chart, where we were met by Mr. Tidey. The iron ladder on the outside of the tower of the ringing chamber frightened some of the lady members. However, the bells were well worth the climb. A picnic lunch was partaken on the green opposite the church.

Ringing followed on the lovely eight at Edenbridge, where Mr. Leigh met us and led us up in peal. Hever's six have just been rehung and now 'go' very well, though London proved our Waterloo. A good tea followed at the Henry VIII, opposite the church.

On the quiet eight at Chiddingstone, our ringing was not of its best. Mr. Goater met us at Peshurst and rang in a touch of Grandsire Triples. The last tower was Speldhurst, where non-conducted Grandsire Triples was rung, but Stedman let us down. Our sincere thanks to Vicars and ringers who met us, and to the Squire, who fixed everything up, and made 'Howard's Haul' such a success. F. H. H.

Another handbell peal of Cambridge Maximus has been rung, and at Leicester too! We understand that this is only the second peal of Cambridge Maximus to be rung 'in hand.' Taking part in both peals were Mr. Alfred Ballard and Mr. and Mrs. P. J. Staniforth.

Sending his regrets for not being able to stand in a peal, a Sussex ringer received the following telegram: 'Must have a **wringer** of some sort.' He evidently put his neck in it!

The band who rang the peal in eleven Treble Bob Minor methods at East Drayton, Notts, wish to associate Mr. R. Mills with the peal. He stood in for practice, but was not available on the day.

Mr. T. Ogden, of 110, Smallbrook Road, Shaw, near Oldham, reports that he has had a very heavy demand for his music for handbells, but all received to date have now been dispatched. He apologises for any delays that occurred.

With the peal of Cambridge Minor at Tirley, Glos. on December 2nd, Barrie Hendry has at last completed the Cambridge 'family' to peals after several unsuccessful attempts for Minor in the last two years. To 'beat the bogey' a strong band was chosen: three of the remaining five ringers had already completed Cambridge from Minor to Maximus, one only needed Royal, and the fifth member needed only Maximus. As was hoped, a good peal was scored.

Mr. John Euston recently visited Mr. Thomas H. Taffender, who is now in West Park Hospital, Epsom. His many friends will be pleased to know that he looked very well, smart and well cared for. He wishes to be especially remembered to J. Hawkins and W. Shepherd and his Yorkshire friends, Len Rodmell and Albert Sellers, and expresses his gratitude to Harold Rogers and others who have visited him. Unfortunately, his wife underwent a major operation at King's College Hospital on December 2nd. Her condition is now reported as satisfactory.

BELFRY GOSSIP

Howard W. Egglestone and his band deserve a word of congratulation for their peal at Stisted, Essex, on November 30th—41 Surprise Minor methods. This is the most Surprise Minor methods yet rung in 5,040 changes.

With the peal at Southwark Cathedral on December 2nd, Mr. R. James Cook has rung peals of Stedman from Doubles to Cinques.

Shenfield, Essex, has a regular Sunday service band who this week rang a peal of 28 Spliced Surprise Minor methods.

The popularity of 'The Ringers' Diary' is not confined to this country. Bulk orders have been received from Sydney and Adelaide, Australia, Christ Church, New Zealand, and Victoria, British Columbia.

The peal of Grandsire Triples rung at St. Aidan's, Blackhill, Co. Durham, on September 9th has been published twice in 'The Ringing World,' on pages 670 and 813. Will those responsible for records please note.

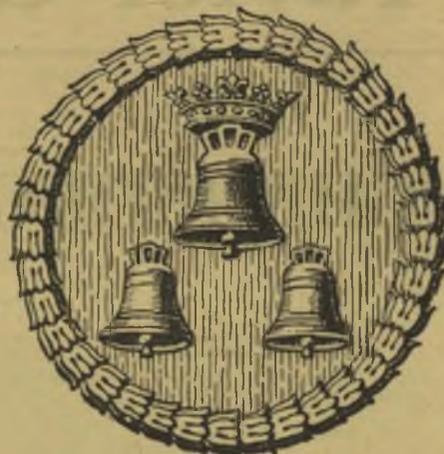

The Rev. Hugh Evan Hopkins, who when Rector of St. Mary-le-Bow, launched the appeal for Bow bells, has been appointed a Canon of Gloucester Cathedral. In honour of his installation, a quarter peal was rung at Cheltenham.

Yorkshire seems to thrive on veteran ringers. A peal of Yorkshire Surprise was rung at St. James', South Anston, in honour of Mr. Herbert Turner completing 70 years with the South Anston company. He would be pleased to hear of any who have exceeded this record of service in one tower. After the peal the band were entertained to tea by him.

The Worcester Cathedral band are participating in the Christmas Broadcast and a recording has been taken of Stedman Cinques rung by the Sunday service band. As far as is known, a Sunday service band had never previously rung Stedman Cinques at Worcester before this year. In fact, if it had not been for the encouragement offered by the opportunity of the broadcast they probably would not have rung it, is the opinion of our correspondent.

TWELVE BELL PEAL

LONDON, S.E. THE SURREY ASSOCIATION. On Sat., Dec. 2, 1961, in 3 Hours and 50 Minutes. AT THE CATHEDRAL CHURCH OF ST. SAVIOUR, SOUTHWARK, A PEAL OF 5005 STEDMAN CINQUES

Table listing names and positions for the Twelve Bell Peal, including Michael V. Chilcott, John E. Chilcott, R. James Cook, Harold N. Pittow, John Schofield, Robert W. Hinde, Alan E. Bagworth, William T. Cook, Alan Rogers, Frank E. Darby, Frederick E. Collins, and Stewart F. Kimber.

Composed and Conducted by FRANK E. DARBY. * First peal on 12 bells. This peal contains the Whittingtons. Rung for Advent.

TEN BELL PEALS

KENDAL, WESTMORLAND. THE YORKSHIRE ASSOCIATION. On Sat., Nov. 18, 1961, in 3 Hours and 31 Minutes. AT THE CHURCH OF THE HOLY TRINITY, A PEAL OF 5040 YORKSHIRE SURPRISE ROYAL

Table listing names and positions for the Ten Bell Peal, including John E. Anderson, Jeanne E. Bottomley, S. Barry Schofield, Leslie W. G. Morris, Diana J. Perrins, George S. Deas, J. Alan Ainsworth, Leslie Boumphrey, Vernon Bottomley, and Eric N. Harrison.

Composed by CHARLES W. ROBERTS. Conducted by J. ALAN AINSWORTH. * First peal of Yorkshire Royal. Rung as a compliment to Prudence Singleton and Jolyon Dodgson, who were married earlier in the day at St. Paul's, Lindale-in-Cartmel.

LLANDAFF, GLAMORGAN. THE LLANDAFF AND MONMOUTH DIOCESAN ASSOCIATION. On Sat., Nov. 18, 1961, in 3 Hours and 6 Minutes. AT THE CATHEDRAL CHURCH OF SS. PETER AND PAUL, A PEAL OF 5040 CAMBRIDGE SURPRISE ROYAL

Table listing names and positions for the Ten Bell Peal, including Michael J. Hobbs, D. John Hunt, Don C. Exell, Selwyn H. Dearden, David J. King, Cliff Richards, Donald E. Cobb, Richard J. Bowden, Philip M. J. Gray, and John McDonald.

Composed by W. PYE. Conducted by D. JOHN HUNT. * First peal of Royal. † 25th peal together. ‡ First of Cambridge. § First of Surprise Royal. First of Surprise Royal as conductor.

LEWES, SUSSEX. THE SUSSEX COUNTY ASSOCIATION. On Sat., Dec. 2, 1961, in 3 Hours and 7 Minutes. AT THE CHURCH OF ST. JOHN-THE-BAPTIST, SOUTHOVER, A PEAL OF 5003 GRANDSIRE CATERS

Table listing names and positions for the Ten Bell Peal, including Colin A. Tester, Olive D. Tester, Ann George, Edward J. Jenner, Ernest J. Ladd, Herbert W. Woolven, John O. Weller, Brian E. Jeffrey, Stanley Jenner, and Charles A. Bassett.

Composed by G. R. FARDON. Conducted by STANLEY JENNER. * First peal on ten. † 25th peal together. ‡ First of Caters. First 10-bell peal as conductor.

PORTSMOUTH, HAMPSHIRE. THE WINCHESTER AND PORTSMOUTH DIOCESAN GUILD. On Sat., Dec. 2, 1961, in 3 Hours and 8 Minutes. AT THE CATHEDRAL CHURCH OF ST. THOMAS-OF-CANTERBURY, A PEAL OF 5040 CAMBRIDGE SURPRISE ROYAL

Table listing names and positions for the Ten Bell Peal, including William A. Theobald, Brian Downes, John D. Rock, Alan J. Frost, Rodney B. Meadows, Trevor N. J. Bailey, Dennis Randall, Robert C. Kippin, Frederick W. Rogers, and Wilfred Williams.

Composed by JOHN CARTER. Conducted by WILFRED WILLIAMS. First peal of Surprise Royal on the bells.

STRADBROKE, SUFFOLK. THE SUFFOLK GUILD. On Sat., Dec. 2, 1961, in 3 Hours and 10 Minutes. AT THE CHURCH OF ALL SAINTS, A PEAL OF 5040 YORKSHIRE SURPRISE ROYAL

Table listing names and positions for the Ten Bell Peal, including Alan R. Andrews, Alice E. J. Lester, Roger L. K. Whittell, Bernard W. Fairhead, Andrew T. Beckwith, Frank B. Lufkin, Cecil W. Pipe, James B. Morley, Harry J. Millatt, and Edward P. Duffield.

Arranged and Conducted by FRANK B. LUFKIN. * First peal of Yorkshire Royal. † First of Yorkshire. ‡ First on ten bells.

EIGHT BELL PEALS

BEAUMARIS, ANGLESEY. THE UNIVERSITIES' ASSOCIATION. On Sat., Nov. 4, 1961, in 2 Hours and 58 Minutes. AT THE CHURCH OF ST. MARY,

Table listing names and positions for the Eight Bell Peal, including Johnson's variation, Colin A. Lewis, Gillian E. Graney, Christopher K. Cooper, Geoffrey H. Pullin, David W. Beard, Janice E. Williamson, John H. Fielden, and Peter S. Bennett.

Conducted by DAVID W. BEARD. * First peal of Surprise. † First of Cambridge. First on the rehing bells. In memory of Glyndwr Davies, student at the University College of Wales, Aberystwyth, killed on Snowdon, October-29th, 1961, aged 19.

DONINGTON, LINCOLNSHIRE. THE LINCOLN DIOCESAN GUILD. On Mon., Nov. 20, 1961, in 3 Hours and 2 Minutes. AT THE CHURCH OF ST. MARY AND THE HOLY ROOD, A PEAL OF 5088 BRISTOL SURPRISE MAJOR

Table listing names and positions for the Eight Bell Peal, including George Dawson, Stanley E. Bennett, John E. Allen, Edwin T. Chapman, J. Martin Thorley, Albert W. A. Leggett, Ronald C. Noon, and Cyril R. Burrell.

Composed by J. W. PARKER. Conducted by RONALD C. NOON. * First peal in the method. † 100th peal together.

PRESTWOLD, LEICESTERSHIRE. THE LEICESTER DIOCESAN GUILD. On Mon., Nov. 20, 1961, in 2 Hours and 37 Minutes. AT THE CHURCH OF ST. ANDREW, A PEAL OF 5024 YORKSHIRE SURPRISE MAJOR

Table listing names and positions for the Eight Bell Peal, including Brian G. Warwick, Joseph W. Cotton, Richard J. Clifton, G. Ronald Edwards, Ernest Morris, R. Kingsley Mason, B. Stedman Payne, and A. James Poyner.

Composed by ERNEST W. TIPLER (No. B.58). Conducted by BRIAN G. WARWICK.

ASHTON-UNDER-LYNE, LANCASHIRE. THE LANCASHIRE ASSOCIATION. On Wed., Nov. 22, 1961, in 3 Hours. AT THE CHURCH OF ST. PETER, A PEAL OF 5056 CAMBRIDGE SURPRISE MAJOR

Table listing names and positions for the Eight Bell Peal, including Christine Townend, Edmund Shuttleworth, Carol Fernley, Giles B. Thompson, Neil Bennett, John Robinson, Basil Jones, and Edward Jenkins.

Composed by T. B. WORSLEY. Conducted by EDWARD JENKINS.

FAIRFIELD, DERBYSHIRE. THE DERBYSHIRE ASSOCIATION. On Thurs., Nov. 23, 1961, in 2 Hours and 50 Minutes. AT THE CHURCH OF ST. PETER, A PEAL OF 5024 YORKSHIRE SURPRISE MAJOR

Table listing names and positions for the Eight Bell Peal, including Alan G. Kirk, Mrs. P. A. M. Halls, J. Frank Smallwood, Alex Richardson, George H. Paulson, Sidney Hough, Gordon A. Halls, and Ronald H. Bullen.

Composed and Conducted by GORDON A. HALLS.

LEICESTER. THE LEICESTER DIOCESAN GUILD. On Fri., Nov. 24, 1961, in 2 Hours and 32 Minutes. AT THE CHURCH OF ALL SAINTS, A PEAL OF 5056 BELGRAVE SURPRISE MAJOR

Table listing names and positions for the Eight Bell Peal, including Monica Moore, John M. Jelley, W. Ernest Rawson, Malcolm J. V. Chown, John A. Acres, R. Kingsley Mason, A. James Poyner, and Robert B. Smith.

Christmas Greetings

'THE RINGING WORLD' COMMITTEE. The Editor and staff send their Christmas greetings to all readers. May the joy of ringing Christmas bells be in the hearts of all who ring and their families.

The ALVASTON St. Michael's ringers wish all our ringing friends seasonal greetings and good wishes for 1962. And, of course, thanks to all those who have made 1961 so successful for us. 9321

Greetings from the ringers of St. Mary's, APSLEY, to all our ringing friends. A joyous Christmas and good wishes for the coming year. 9304

To all at 'home and far away places' Christmas, 1961, greetings.—J. E. ARMSTRONG, 21, Duncan Gardens, Morpeth. 9298

MR. PETER N. BOND sends sincere good wishes for a happy and holy Christmas, and a prosperous New Year, to all ringing friends, especially fellow-Cumberlands. 9296

Sincere best wishes for Christmas and 1962 to all my ringing friends, and especially to the 'Tuesday' and 'Wednesday' bands. Also grateful thanks for good companionship in 1961.—PAUL FIELD, Marshfield, Knote, Langport. 9302

That our ringing friends may have a most happy Christmas, with good health and prosperity in 1962, is the sincere wish of DONALD, JOHN and IAN FRANKS, of Radlett, Herts. 9314

Greeting and best wishes for Christmas and the New Year, from Mr. and Mrs. F. I. HAIRS, Norman Cottage, Groombridge, Sussex. 9312

Greetings to Peter Raynor and Mrs. Valhalla Grossmith and their friends in Southern Rhodesia. Often in our thoughts and conversation. From Mr. and Mrs. WALTER JUDGE, JEAN and KEN. 9301

All good wishes for Christmas and the New Year to members of the Railwaymen's Guild and ringing friends everywhere.—Mr. and Mrs. W. B. KYNASTON, 37, Vicarage Road, Rodbourne Cheney, Swindon, Wilts. 9316

To all ringing friends, Christmas greetings and ringing in the New Year. From C. LONGHURST, West Grinstead. 9297

Wishing all friends, old and new, a very merry Christmas and a happy New Year. From St. Michael's bellringers, MADELEY, Shropshire. We make all ringers welcome at all times. 9305

To all our friends we send best wishes for a joyful Christmas, followed by a year of good health and happiness. From DAVID, FRANCES, GEORGE and HILDA MASSEY, at Parbury Bungalow, Frome, Somerset. 9387

Mr. and Mrs. A. J. PITMAN send sincere greetings and good wishes for Christmas and the New Year to all ringing friends, old and new, with the hope they will have plenty of good ringing and success when ringing 'spliced'.—Libington, Leamington Spa. 9300

Wishing all our ringing friends everywhere a happy Christmas, a good table and all that goes to make it so, and a prosperous and bright New Year.—N. S. T. G., Nailsea, in the County of Zummerzet. 9295

CECIL and SYLVIA PIPE send Christmas greetings to all Pipe's Pilgrims, past and future, and look forward to seeing you in glorious Devon, August 5th to 11th. Forty good towers, superb scenery and seaside. 9320

A happy Christmas and a prosperous, peaceful New Year to all ringers, old and young, everywhere, and continued success to 'The Ringing World'.—Mr. and Mrs. WILLIAM SHEPHERD, Addlestone, Surrey. 9386

To all my friends, a very merry Christmas and the best of health and happiness in the coming year is the wish of EVELYN STEEL. 9322

To our very many ringing friends, 'The Ringing World,' especially the Editor, our grateful thanks for the many happy hours we have had with them. With best wishes for Christmas, and all it means, and for the new and succeeding years in all they bring.—W. FRANK and ADA STENSON, North Col, 142, Minshull New Road, Crewe, Cheshire. 9361

To all ringers and friends, merry Christmas and happy New Year. From Mr. and Mrs. E. STITCH, 'The Laurels,' 233, Penn Road, Wolverhampton, Staffs. 9389

Christmas greetings to all members and friends of the Sussex County Association, remembering, especially at this time, those who are ill and those no longer able to ring. From REG JOHNSON, Master. 9390

To all members of our Guild and friends everywhere, a merry Christmas and prosperous New Year.—LES BRETT, Framsdon, Suffolk. 9319

BATH AND WELLS DIOCESAN ASSOCIATION

The annual meeting of the Chew Branch of the Bath and Wells Diocesan Association was held at Long Ashton on December 2nd. Ringing started at 3 p.m. and continued until 4.30 p.m., when the Association's service was conducted by the Rector, the Rev. S. Cook.

About forty members and friends were present for tea, which was served in the Church Hall by ladies from the local company.

The Rector presided at the business meeting when the following officers were elected: Mr. H. W. Knight, chairman and Ringing Master; Messrs. C. Bishop and L. Derrick, vice-chairmen; Mr. D. G. Yeo, honorary secretary; Mr. J. Brain, 'Ringing World' correspondent. The meeting thanked Mr. M. J. Horseman for his work in this last named post, for which he did not seek re-election.

Subject to permission, the next quarterly meeting will be held at Winford, with practice meetings at Chew Stoke (January), Barrow Gurney (February), and Clevedon St. Andrew in March. The half-yearly Corporate Communion will be held at Wrington on April 29th.

The following were elected new members: Long Ashton, E. Abrahams, D. Peters and W. Wivell; Nailsea, C. Boulbee; Portbury, R. Goodliffe and M. Clavey; Miss D. Wood (Wrington) and Mr. W. Payne (Yatton) were elected associate members.

During the last quarter two peals were rung in the deanery—Stedman Caters at Wrington by the College Youths, and Stedman Triples at Long Ashton—and eight quarter peals.

The question of a report from each Branch to be inserted in the annual report was brought up and the secretary said he would raise this at the next committee meeting.

Votes of thanks to all those who had helped in the afternoon's arrangements were expressed by Mr. Knight, after which the company returned to the tower for further ringing. J. B.

SHEFFIELD AND DISTRICT SOCIETY

The last meeting of the Society was held at Eckington and Barlborough, jointly with the Derbyshire Association. At the former tower, methods up to Cambridge Surprise Major were rung in good style, and at the latter tower methods included London, Norwich and Cambridge Surprise Minor.

At the business meeting, after tributes had been paid to Mr. Sidney F. Palmer and Mr. Haydn Thorpe, recently deceased, the meeting stood in silence in their memory.

The next meeting will be held in Sheffield on January 6th, when, in addition to the Cathedral (12), it is hoped that the fine eight at St. Marie's and the handy eight at All Saints' will be available. N. C.

SALISBURY DIOCESAN GUILD

North Dorset Branch

The annual meeting of the North Dorset Branch took place at Mere on December 2nd, when 34 ringers and others were present and ringing started at 3 p.m. in this fine eight bell tower. At the Guild office the Vicar, the Rev. N. E. E. Johnson, welcomed the ringers. The chairman of the Branch (the Rev. R. G. Chaffey Moore) and the honorary secretary (Rev. R. N. Longridge) also took part in the service.

At the meeting after tea, Mr. Chaffey Moore was unanimously re-elected chairman, and the other Branch officers were elected as follows: Vice-chairman, the Rev. R. A. Wells; honorary secretary, the Rev. R. N. Longridge; committee members, Messrs. J. Ralph and E. Chani; Ringing Masters, Mr. W. C. Shute, Mr. B. Ridout and Mrs. Godley.

In his report for the year the honorary secretary said that ringing membership had increased by 29 to 195, and that 3 more towers had affiliated, namely, Stourton Caundle, Horningham and Stourton.

Two items of general relevance were discussed and agreed upon: in future there would be a fixed charge for tea, 3s., with half-price for junior members; and in order to discourage too great a dispersal after quarterly meetings, only one other tower would be made officially available, and that nearby if possible.

Meetings for 1962 were suggested as follows (subject to confirmation): March, Marnhull; June, Stourton; September, Okeford Fitzpaine; December (annual), Sierborne. It was furthermore decided to revert to the former arrangement of meeting on the second Saturday of these months.

Finally ringers were reminded of the Guild festival next year, the 80th anniversary of its foundation, at Salisbury on May 12th.

R. N. L.

THE SUFFOLK GUILD

Mr. Robert E. Lester conducted the West Central District's winter evening practice meeting at Wetherden on November 25th.

Despite the threat of fog a good crowd gathered in the belfry including a contingent from Mendlesham and Bury St. Edmunds. As always, we were very disappointed in our own District members, of whom only a small regular band appeared. There may be a flair for Royal and the like, but members should not let themselves become too good for humble Minor ringers and neglect their duties to their own District. E. H.

50 Years Ago

'R.W.' December 15th, 1911.—

ANCIENT BELLS RESTORED Lord Portman's Generosity

From a manuscript in the Record Office, dated 1552, it appears there were four 'Great Bells' at Durweston, Dorset, whilst at the neighbouring town of Blandford there were no more. In 1887 a treble was added at the former place, making five, these were inscribed as follows:

Treble.—Victoria R. et I. Jubilee A.D. 1887.

Llewellyns and James, Bristol.

2.—X Sancta Maria.

3.—Mr. John Prower and Mr. Edward Hart, Churchwardens, 1766; T. Bilbie Fecit.

4.—Prayse the Lord, 1602. I. W.

Tenor.—Feare God Honour the King, T(bell maddillon) B. 1670, Stephen Frampton, William Haytor.

With the exception of the pre-Reformation bell (the 2nd) the whole ring has now been recast, and a new treble added. The bad 'go' of the old ring was brought to the notice of Lord Portman at the last Easter Vestry by the Rector (Mr. Anderson), and resulted in the bells being rehung in a new steel and iron frame, the greater part of the expense being borne by Lord Portman, who also gave the new bell in memory of his eldest son...

NOTICES Scale Of Charges

Meetings: 3/6 (minimum) for 30 words, afterwards 14d. a word. Each additional insertion half charge.

Other Notices: 4/- (minimum) for 36 words, afterwards 14d. a word.

IDEAL GIFT.—'Tintinnabula' (small bells). Latest book by Ernest Morris, beautifully illustrated. 21s. Direct from the author, 38, Strensal Road, Eyres Monsell, Leicester. 9198

GIVE A 'DOVE'S' VOUCHER FOR CHRISTMAS

The third edition of Dove's well-known 'Guide to Church Bells of Britain' will be published early in 1962.

Over one third of the Alphabetical List of Towers has been amended (due to augmentations, recastings, corrections, etc., since the last printing). All Appendices have been revised and a new section listing four-bell towers has been added.

Send remittance with name and address of recipient to: W. H. Viggers, 37, Highfield Gardens, Aldershot, Hants, who will supply you with a voucher for Christmas presentation, afterwards despatching the book direct when published.

Prices:—Standard edition, cloth back, stiff board sides, 9s. 6d.; Cloth-cased edition, blocked gold title, 12s. 6d. (both plus postage and packing 9d.); or bound as Standard edition, interleaved plain paper throughout, 15s. (postage and packing ls.). 9363

MISCELLANEOUS

SURPRISE MAJOR practice at Holy Trinity, Guildford, on Thursday, December 21st. Methods: Bristol, London, Lincolnshire, Rutland. 9313

PEAL CARDS AND QUARTER PEAL CARDS, minimum 12 in set, price 6s. 6d., post free. For quarter peal cards, second copy written out in style of a peal is essential.—'The Ringing World' Office, Guildford.

COMPLETE YOUR FILES.—Copies are available at 'The Ringing World' Office, Guildford, of back numbers of 1960 and 1959, and a number of other years. Price 8d., post free.

MEETINGS

DERBYSHIRE ASSOCIATION.—Derby and Ilkeston District.—Annual meeting, Saturday, December 16th, at St. Peter's, Derby. Bells (8) 3 p.m. Service 4.30. Tea 5 p.m. Names for tea to W. A. Morley, The Knoll, Laund Close, Belper. 9384

ELY DIOCESAN ASSOCIATION.—Wisbech Branch.—Meeting, Watlington, Saturday, December 16th. Bells (6) 2.30 p.m. Service 4.30. Tea 5 p.m.—J. Fox, Dis. Sec. 9375

HEREFORD DIOCESAN GUILD.—Hereford District.—Meeting, St. Nicholas', Hereford, Saturday, December 16th. Bells 3 p.m. Service 4.30 p.m. All Saints' bells (8) after meeting. Names for tea to T. E. Wood. 9370

HERTFORD COUNTY ASSOCIATION.—St. Albans District.—St. Michael's (8), St. Albans, Saturday, December 16th. Bells 3 p.m. Service 4.30. Tea p.m. Names please to J. D. Chamberlain, 3, Milehouse Lane, St. Albans, Herts. Special method: Ipswich.—M. A. Coburn. 9349

LANCASHIRE ASSOCIATION.—Manchester Branch.—A ringing meeting will be held at Manchester Cathedral on Saturday, December 16th. Bells (10) from 4 p.m. All ringers and friends welcome.—D. Ogden. 9391

OXFORD DIOCESAN GUILD.—East Berks and South Bucks Branch.—Meeting at Chenies, Saturday, December 16th. Bells 3.30 p.m. Service 4.30. Tea 5 p.m. Names for tea please.—Miss Hague, 6, Stompits Road, Holyport, Maidenhead. 9367

SUFFOLK GUILD.—S.W. District.—Annual District meeting at Stoke-by-Nayland, Saturday, December 16th. Bells (8) 3 p.m. Service 4.30 p.m. Names for tea to Mr. R. King, 3, Crossfields, Stoke-by-Nayland, Colchester.—E. Cansdale, Dis. Sec. 9329

SUSSEX ASSOCIATION.—Southern Division.—Quarterly meeting, Hurstpierpoint (8), Saturday, December 16th. Bells 3 p.m. Service 4.15. Tea 5 p.m. Please send numbers for tea to Mr. H. Brown, 11, Highfield Drive, Hurstpierpoint, Hassocks.—Geo. North, 11, Richmond Terrace, Brighton. 9382

LADIES' GUILD.—Central District.—Quarterly meeting at Woodford, Essex, on December 30th. Ringing 3.4.30 p.m., followed by service. Tea and business meeting in Memorial Hall. Further ringing till 8.30 p.m. Names for tea by December 27th to Mrs. S. Bullock, 35, Walmer Close, Romford. Nearest station, George Lane (Central Line) or bus to Gates Corner. 9309

DEVON GUILD.—Mid-Devon Branch.—Annual meeting, Babbacombe, Saturday, January 6th. Bells 2.30 p.m. Service 4.30 p.m. Names for tea to D. J. Roberts, 84, Westhill Road, Torquay. All visitors welcome. 9279

ESSEX ASSOCIATION.—S.E. District.—Annual meeting, Great Waltham, Saturday, January 6th. Bells (8) 2.30 p.m. Service 4.30 p.m. Names for tea by January 1st to P. W. Salthmarsh, Sycamore Cottage, Danbury. 9294

SALISBURY DIOCESAN GUILD.—Devizes Branch.—Annual meeting, Bradford-on-Avon (Holy Trinity), Saturday, January 6th. Bells (8) 3 p.m. Service 4.30. Tea 5 p.m. Names for tea essential to E. J. Hitchins, 136, Bradley Road, Trowbridge, Wilts. 9372

SUFFOLK (S.W. and N.W. Districts).—Joint dinner and social will be held at Cockfield Institute near Bury St. Edmunds, Saturday, January 27th, 1962, 7 p.m. Tickets, 12s. 6d. each, obtainable before January 20th from the Dinner Committee or Miss G. Reeve, Hartley Place, Hockwold, Thetford. Ringers from other areas also invited. Lavenham bells (8) available 3 p.m. to 6 p.m. 9308

UNIVERSITY OF BRISTOL SOCIETY DINNER.—The annual dinner will be held on Saturday, January 27th, 1962, in the University S.C.R. Tickets, 13s. 6d., from treasurer, Miss J. Gambling, Chesil Bank, Digsweil, Welwyn, Herts. 9293

ARCHDEACONRY OF HALIFAX GUILD.—Annual meeting of Guild at Ripponden on February 3rd. High tea, price 6s. 6d., at Queen Hotel. Names essential to D. Smith, 9, Bower Road, Elland. 9318

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

Corrections

The Master of the Gloucester and Bristol Diocesan Association is Mr. A. V. Bennett and not Mr. Truman as was inadvertently stated in our last issue (see page 825).

The meeting held at Exeter on November 18th and reported on page 826 was of the Devonshire Association of Ringers and not the Guild of Devonshire Ringers.

FFERING, ESSEX.—On Dec. 3rd, 1.264 Plain Bob Major: C. Turner 4, H. Wade 2, Miss W. Elliott 3, J. Papworth 4, H. Nichols 5, C. W. Burton 6, A. I. Beckwith (cond.) 7, D. B. Shepherd 8. For morning service, also an 88th birthday compliment to the mother of the 6th ringer.

THE TRUTHS BEHIND CHRISTMAS BELLS

*'And all the bells on earth shall ring,
On Christmas Day in the morning.'*

WHEN I was up at Oxford, I first really became aware of bellringing when on the various royal and national occasions the bells of my college, and those of various neighbouring towers, would suddenly and unexpectedly ring out. What is it today, we would wonder, the King's Accession, or Empire Day? It made us think, and it reminded us of something we might otherwise have forgotten.

Is it too much to hope that when the bells ring out on Christmas morning they will also make people think, and remind them of something they might otherwise forget?

Of course no one can forget that it is Christmas. Lots of people see to that. The local authorities spend our rates on vast illuminated Christmas trees, and other more elaborate displays. The shops, which have been looking forward to what one writer calls the Traders' Winter Festival since early in the year, leave us in no doubt what the season is. Most commercial firms make some gesture to retain their customers' goodwill with appropriate gifts or greetings. Parties, big and small, are being planned, and crates of drinks, designed to promote the "Christmas spirit," are being made ready. Presents are being bought and exchanged. And surely there is not a home in our land where at least a handful of Christmas cards is not arriving!

No! It is impossible to forget Christmas! At least it is impossible to ignore the outward trappings with which Christmas is surrounded. But unfortunately it is only too obvious that the underlying reason for all our Christmas festivity has been clean forgotten by the vast majority of people today. For Christmas is the time when Christians celebrate with delight and wonder the coming of God into the world. In many ways, of course, the moment of Our Lord's Conception or his Baptism in the River Jordan were more significant occasions. But birthdays always capture the imagination of us human beings, and so the day when the Saviour was born is the one which we take to invest with the whole glorious fabric of the doctrine of the Incarnation.

For on the first Christmas Day there actually was born a child who was God's Son, who was the eternal God taking human nature upon himself, and who was destined to be the Saviour and Lord of the whole human race. No wonder the most ancient traditions spoke of choirs of angels singing in the sight and sound of men to herald the amazing event. No wonder the devout and fertile imaginations of Christmas carollers have pictured all kinds of wonderful happenings, and all kinds of reverent homage being paid to the infant King of Kings. Had the whole world indeed known what a wondrous birth had taken place in the stable at Bethlehem, all men would have flocked to pay their respects there, and all the bells on earth would have rung!

We who are Christian believers have a great responsibility to ensure that people do have it drummed in upon them that the real essence of Christmas is the celebration of one of the turning points of history, when God's Son came out of the mists of eternity and firmly forged a link between our human nature and himself. Those of us who also man the bells have an extra note of celebration to sound, and it must be our prayer that the sound of the bells which we ring may be to many a reminder of the deep and glorious truths which underlie both the genuine fun and the trumped-up, commercialised heartiness of a present-day English Christmas.

CANADIAN FILM ON RINGING

Last week I had the unusual experience of watching a band of change ringers at work in a space no bigger than a page of this magazine. The sound of their ringing came out clear and true.

I had been asked by a representative of Scottish Television to give some professional advice on bellringing in connection with a programme 'This Wonderful World,' presented by Dr. John Grierson. The title may be familiar to some of your readers, as the programme is not confined to Scotland, but broadcast in most regions over Independent Television.

The programme uses films on many subjects and from many countries. Amongst the material at present under consideration is a short film called 'Ringers Required' made by young Canadian, Mr. A. J. M. Collins.

In it, he describes how a newspaper advertisement called the attention of Vancouver people to the fact that the Cathedral of the Holy Rosary, in New Westminster, had a ring of 8 bells, which was falling into disuse as most of the original ringers had died or fallen out.

Support was quickly forthcoming. In the film I saw the humorous incidents that so many of us must remember from our learning days, when our enthusiasm was greater than our skill.

The technique and art of bellringing was explained very clearly and simply for a non-technical public, and the band was shown at different stages from discordant jangling to a reasonable proficiency.

The film closed with some shots of the Cathedral bells ringing changes as one old year passed and a new year was ushered in, in the traditional way. It was interesting to see and hear the familiar sound of Grandsire Triples sounding out, so far away from the British countryside, where our ancient craft was born.

I thought that the film was technically quite sound. If it is shown on television, I hope it will have its effect on introducing some of the finer points of ringing to a wider public, and I am sure it will have a certain appeal in bringing back memories of their beginnings to many fellow-ringers.

'Ringing World' Box In Ringing Chamber

In the ringing chamber at Carbis Bay there is a box for 'The Ringing World.' This week the committee of this journal acknowledges with gratitude a cheque for £1 12s. from the treasurer of the Parochial Church Council. To all who contributed, 'Thank you.'

PERSONALITIES OF THE EXERCISE—51

MR. ALBERT M. TYLER,
Gloucester & Bristol Diocesan Association.

In these days of a predominance of even-bell ringing, it is refreshing to find someone who admits to preferring both the music and the ringing of odd-bell methods. Mr. Albert M. Tyler, of Willsbridge, Bristol, finds much more to interest him with the tenor 'behind,' especially in conducting, of which he is no mean exponent, and also in composition, in which he has much success.

Albert was born in Clapton, North London, on February 17th, 1923, and is the son of the late Jesse B. Tyler, a well known ringer, who was for many years employed by Messrs. Mears and Stainbank, and was a capable peal ringer. He learnt to handle a bell at St. John-at-Hackney, London, in 1935, and following the death of his father he moved to Bristol and joined St. Stephen's tower. There he came under the influence of the late John A. Burford and William A. Cave, and also Joseph T. Dyke, three ringers for whom Albert has always had a high regard.

Making quick progress, he had the probably unique experience of ringing three peals of Stedman Cinques for his first three peals! The first was in February, 1937, when he rang the treble at Tewkesbury Abbey, a few days before his 14th birthday. The band included the late John Thomas (his uncle by marriage), Amy R. Johnson (who later married John Thomas) and her brother, Joseph D. Johnson, the present general secretary of the Worcester-shire & Districts Assoc., who conducted. Two weeks later, he rang another peal of Stedman Cinques at St. Mary's, Cheltenham, and a month after that a third peal of Stedman Cinques at St. Mary Redcliffe, Bristol.

Albert has no complete and up-to-date record of his peals, but he believes his total to be between 150 and 200, of which he has conducted about 60, mostly from a working bell. He has rung just over 30 handbell peals, of which he has called about a dozen. His first peal of Stedman Caters was rung at St. Stephen's, and his first peal of Surprise was Cambridge Maximus! He conducted his first peal 'in hand'—Grandsire Triples—and it was also the first peal 'in hand' for the rest of the band. He has also conducted the first peals of both Erin Triples and Cinques for the Gloucester and Bristol Association, and hopes to score the Caters soon.

Albert looks back to three peals with which he was pleased to be associated: the 1,000th peal of the late John Thomas—Stedman

Caters—at St. Stephen's, Bristol, on June 18th, 1955, and a sadder occasion, when a half-muffled peal of Double Norwich was rung at Hinton-on-the-Green, Worcestershire, in memory of the late John Thomas, conducted by Philip A. Corby; the third peal was the first handbell peal of Major rung in Wales, conducted by Wilfred Williams. He can only recall one peal that he really had any regrets about losing. That was Wraxhall, Somerset, when an attempt was made for Spliced Double Norwich and Plain Bob, with Ron Beck and Joe Dyke ringing the tenors. It was purely a novelty, and unfortunately a further attempt was never made.

He joined the A.S.C.Y. in 1939, and has always been a keen and loyal member. He regularly attends the annual dinner, and regards this function as one of the highlights of the year's ringing activities.

MONTHLY PEAL ATTEMPTS

As a civil servant in the department of the Ministry of Pensions and National Insurance, Albert was moved to Reading in 1948, where, for over three years, he became attached to St. Laurence's, under William Hibbert. When he returned to Bristol in 1951, he took over the position of Ringing Master at St. Stephen's. He has always been very interested in encouraging young ringers to score their first peal, either in a new method or on a higher number of bells. In 1954/55 he introduced a monthly peal attempt in place of the usual practice night, to assist the advancement of many local ringers and resident members of the University Society, which is now thriving so well, and with which Albert has been very closely associated for many years. These peal attempts are still continuing, and since their inception the records show that over 100 firsts of one kind or another have been achieved. These include first peals, first in a new method, first on 8 or 10 bells, first as conductor, and first as conductor on 8 or 10 bells, and in a method. Teaching people to conduct peals has always been one of Albert's aims—a branch of the art which he feels is often ignored.

COMPOSITIONS

In the field of composition, Albert has been for some years producing peals of Grandsire and Stedman Caters and Cinques. In Grandsire he has introduced some new approaches to providing the best music of which the method is capable. About 50 of his compositions have so far been rung. Some of these have been a little revolutionary by generally accepted standards, but already some of his ideas are being copied. He has recently produced a type of broadsheet for both Grandsire and Cinques, and he believes this may be the first of its kind ever produced for Grandsire. The Cater sheets give 420 peals in the orthodox Tittum and Handstroke positions, with regular and simple calling, all of which are short courses, giving the best music in these positions. He is at present just completing a further Cater broadsheet for the more advanced conductor of Grandsire, to include blocks of courses with 57968s and 97568s, etc.

Albert was secretary of the Bristol Branch of the Gloucester and Bristol Association for about three years before joining the Army in 1942. He served in the Signals Section of the Duke of Cornwall's Light Infantry in North Africa, Egypt, Italy and Greece. More recently he has twice held the office of Ringing Master of the Bristol City Branch. Another hobby of Albert's is rose growing, but as he just recently moved into a new house, he is virtually starting from scratch again.

Albert, by encouraging beginners at St. Stephen's to ring peals and learn to conduct, is doing much to maintain the high standard of ringing for which Bristol was once famous in the days of William A. Cave. The ringing in the city is now once again on the 'up and up,' and much of the credit must go to Albert. A first class striker himself, he insists on the best from everyone else. His own enthusiasm is bound to create interest from others, and in this work he has the loyal support of many of the young ringers of Bristol.

APACE.

A CHURCH WITH TWO NAMES

Bridge's History of Northants. The Victorian County History. Whellam's History and all old Kelly's Directories each give the name of the church at Kislisbury as that of St. Luke—none of them refer to it as ever having been changed from SS. Peter and Paul to St. Luke.

Yet since about 1911 Crockford, Pevsner and diocesan calendars as well as the Rector call it SS. Peter and Paul, and the incumbent says it has never officially been changed from SS. Peter and Paul.

The question arises, which was it first known as? If all old books by such authorities as Bridge gave it as St. Luke, it seems that the change has been from that to SS. Peter and Paul, and not vice versa, as the Rector and several others seem to think: especially if there has been no official rededication. St. Luke, I should say it is! However, it is a very confusing situation for historians and others.

Peals have been rung giving both names; there has never been a time when there were two churches at Kislisbury (a St. Luke and a SS. Peter and Paul), like there is at Cranford—a St. John and a St. Andrew. Or at Aldwincle, where there is a St. Peter and a Church of All Saints.

And to top it all, in the belfry are peal cards some giving it as St. Luke, and others as SS. Peter and Paul.

P. A.

LETTERS TO THE EDITOR

BOW BELLS

Dear Sir.—Mr. Morris refers to the excellent striking of the bells recorded for the 'Interval Signal.' He might equally have referred to the conducting. Changes are made at every hand stroke, which means that before one 'call' is made by the ringers the next is made by the conductor. I have been told that it was the practice to call, for example, 'Four over five,' without saying which bell had to follow four nor which five had to follow. That is what is called 'Ropesight,' and to achieve such striking under such circumstances is more creditable than Mr. Morris implies. Is there a band of twelve ringers today who could emulate the recording we hear now in the 'Interval Signal'?—Yours sincerely,

HENRY ALLEN.

Leamington Spa.

THE FIRST LOYALTY

Dear Sir.—I thoroughly agree with item (i) listed in Miss W. M. Elliott's letter ('R.W.' page 824). It is the duty of the incumbent to endeavour to find out the reasons (not only of ringers, but of his whole flock) why non-attendance at divine worship is lacking, and make efforts to convert erring ways. Item (ii). I trust and hope, is rarely resorted to.

Miss Elliott implies in the latter part of her letter that it is because the incumbent is unpopular that many do not attend church. Those who act in this way are lacking badly; we do not attend worship to please the parson, but to put into that service all we owe to God. It is therefore personal to the individual, the parson being only there to lead the worship and make his personal contribution to God, whose minister he is. The conclusion therefore is that we have an overwhelming duty to God over that to the parson, though, of course, loyalty to the incumbent is necessary.—Yours sincerely,

H. A. PRICE.

Eagle House, Yatton.

SCALDWELL'S NEW TREBLE

Dear Sir.—Of the inscription on this bell, may well it have been said that future historians will wonder what to make of it! When all the facts are taken into account, it will be seen that the inscription is not only ridiculous but I should suggest that the person who advised it is about the same!

And these are the facts: Early this year an announcement appeared in the Peterborough Diocesan Leaflet that the Church of the Holy Trinity, Northampton, had a small 13 inch diameter bell to give away, to any church in need of a bell.

Holy Trinity Church, by the way, is a modern stone building, built in 1909, with a tower abutting the south wall, containing a 39 inch bell of 10½ cwt., by Barwell, of Birmingham, of that same year. The tower is suitable for six, and certainly would take five, the above bell acting as a good tenor—it is one of the few good Barwell bells I know of. Such a scheme was shorn by a clock being put where the bells could have hung, in 1925.

Thus, it will be seen that the 13 inch bell formed no part of an intending ring. Its weight, at so small a diameter, is sufficient to suggest (after taking into account that of the Scaldwell treble of 28½ inches, weighing 4 cwt. 3 qr. 14 lb.) that little more than a fifth of the metal belongs to the original bell from Holy Trinity, Northampton.

I repeat—how ridiculous for such an inscription, and how ridiculous of the person who ever suggested it!—Yours sincerely,

P. AMOS.

Weston Favell.

SERVICE RINGING 100 YEARS AGO

Dear Sir.—With the subject of service ringing still being in the limelight, I am enclosing a few lines written over a hundred years ago (yes, it is no new problem), by the Rev. Henry Thomas Ellacombe, in his book 'Belfries and Ringers.' It makes most interesting reading.—Yours sincerely,

ALAN A. J. BUSWELL.

Havant, Hants.

When first I went to that parish [I presume the parish of Clyst St. George, Devon], more than thirty years ago, scarcely one of the ringers attended the services of the church! I used to see them on a Sunday, waiting in the churchyard till the service was over; and then, almost before every person had left the holy place, they would strike out a merry peal. This was a state of things which could not be suffered to continue, and therefore at once I did what I could in the way of talking and reasoning with them; and at last I was obliged to make it a rule that unless they came to pray they should not be allowed to ring. For a time this gave great offence; but I remained firm, and at last the man who was most outrageous confessed to me that my view of the matter was right.

In the course of time the old ringers dropped off, and others, self-appointed, succeeded, and very soon, by their own consent and proposal, I obtained the custody of the keys of the tower. Before that, the ringers had uncontrolled admission to the belfry when they pleased, and for what purpose they pleased; but ever since, the keys have been kept at the vicarage.

It had long been the practice—and a very common one it is in country villages—to ring a peal or two on Sunday mornings, sometimes before and sometimes after breakfast; but I observed that the ringers seldom came to the church afterwards; and therefore, except on festival days, I at once prohibited all peal ringing at any time before morning service. However delightful and poetical may be the thoughts connected with the cheerful peal on a Sunday morning, I am quite sure that in most cases it will be found that peal-ringing on Sundays—morning or evening—leads to the alehouse afterwards. Much evil therefore will be prevented by stopping it altogether, until a better system of appointing and remunerating the ringers can be introduced.

He carries on by saying: 'I should like to add that, when the Sunday ringing was discontinued, it was with an understanding that they might in future practise two evenings in the week instead of one, to which the amusement or practice had long before been limited. It would sometimes happen that a young hand stood in need of a little more frequent practice; and then it has been usual for some of the company to have the keys of the belfry, and "tie" the clappers, and so raising and falling can be practised without any annoyance to the neighbourhood.'

PEALS OF MINOR AT PEWSEY

Dear Sir.—For the information of the band who rang a peal of Minor at Pewsey on November 4th last, with the footnote 'Believed to be the first of Minor ever rung on the bells,' a peal of Minor was rung there on May 28th, 1949, conducted by Frank Harris. This peal, as is usual on these occasions, was recorded for the Guild to which this tower has been affiliated for the past 50 years.—Yours faithfully,

W. C. WEST.

Honorary Secretary,
Salisbury Guild.

CHRISTMAS DAY BROADCAST

Dear Sir.—The bells of St. Peter's, Woolton, will commence in rounds, run to Queens and back to rounds and into Siedman Triples for their Christmas broadcast. The band have all rung a peal and at least a quarter in Siedman Triples. Age of the whole band, 16-19 years.

For the information of the Council and the appointed committee, the view that rounds is all that is wanted is not so, however this advice is understood. Would the committee in turn accept a little advice; that, to obtain for themselves a badge of office, worn on a decorative girdle, would be very fitting and might well be copied by the Council as a whole.—Yours very faithfully,

ERNEST L. HUMPHRISS.

Woolton, Liverpool.

B.B.C. INTERVAL SIGNAL

Dear Sir.—The matter of the corrupted form of the Bow Bells record used by the B.B.C. as an interval signal has been taken up with the B.B.C. by my committee, and the final results of our correspondence will be published in due course.—Yours faithfully,

H. J. SANGER.

Convener,

Television & Broadcasting Committee, C.C.

NUTFIELD TREBLE BOB

Dear Sir.—In reply to Mr. A. Bishop, who wrote about Nutfield T.B., we included it in a peal attempt at Penistone some time ago, but the venture came to grief. We ring touches of the method under the name of Wentworth, but I am not aware that it has been included in a peal in this district.

It is always refreshing to read in 'The Ringing World' of 'irregular' methods being rung to peals, and I always carefully check the 'quarters' to see if any are included.

I have little use for single change Minor methods, for some of the Surprise efforts are not worthy of the name although they produce 'standard' lead-ends.—Yours faithfully,

N. F. MOXON.

Cawthorne, Barnsley.

WERE RECORDS TRANSFERRED WITH COUNTY?

Dear Sir.—The footnote to the peal of Boston Surprise Royal rung at King's Norton on November 18th describes it as the first in the method in the county—presumably Worcestershire, in accordance with the heading. This is incorrect as King's Norton was transferred to Warwickshire on being taken into the city of Birmingham in 1911.—Yours truly,

HENRY H. FEARN.

King's Norton.

50 Years Ago

'R.W.' December 22nd, 1911.—

WILLIAM PYE—The greatest ringer of today

Last Saturday's peal of Cambridge Royal at St. Clement Danes' was one of singular interest to the Exercise, for it was Mr. William Pye's 1,000th peal. It did not, however, require this achievement to stamp him as the greatest ringer of today, his previous triumphs have done that, and it was but another addition to the laurels he had already won....

It is interesting to note that the band in Mr. Pye's 1,000th peal on Saturday had rung between them over 4,800 peals, made up approximately as follows: R. Sanders 116, B. Prewett 740, I. G. Shade 913, C. T. Coles 142, G. R. Pye 510, A. W. Coles 92, J. E. Davis 415, E. Pye 805, A. W. Grimes 100, W. Pye 1,000; total 4,833.

ENGLAND'S REMARKABLE LEANING TOWER

By T. A. BEVIS

WHY on earth people hurry abroad to see the leaning tower of Pisa beats me! England has one of her own—and how it leans!

Pisa's lop-sided tower, if memory serves me right, is a little over 700 years old, it being vertically erected approximately 100 years before the appearance of Surfleet's remarkable steeple. Pisa's bells are nothing to boast about, but Surfleet's lame sentinel contains the lightest ring of 12 in the world, and they are the only 12 in Fenland.

These famous bells are suspended beneath a tapering spire, the tip of which is 6 ft. 4½ ins. out of perpendicular, and they sound over and beyond a big straggling Lincolnshire village developed on the banks of the little River Glen almost at the end of its 31-mile journey to the Welland.

Retired sailors would, I think, feel very much at home in attending this most interesting fane—dedicated to St. Laurence—and ringers might well be excused for developing a sensation akin to nausea, for the tower within seems to lurch like a ship at sea.

THE LEGEND

After the tower had been built, six hundred years ago, the foundations began to sink and in order to arrest the steeple's unexpected and very hasty movement substantial buttresses were erected round the pillars nearest the tower arch, thereby countering the runaway mass of brick and mortar. Furthermore, as a precautionary measure it was deemed wise to remove the eastern bay of the aisles, thus reducing weight and thrust. Inevitably there is a legend to the effect that an honest baker passed this way, and the tower bowed!

In 1898 when the stuffy Victorian era was drawing nigh to its close, a young clergyman, aged 29, left Stamford, for the living of Surfleet. He was the Rev. H. Law James, M.A., a dynamic, purposeful and sincere personality. His name is almost legendary among the campanological fraternity. He was a brilliant mathematician and excelled in the field of peal composition; no less to the fore were his unfathomable resources in the complexities of Surprise ringing, then largely in its embryological stage. In all he rang 340 peals.

At that time St. Laurence's Church bore the heavy, spiritless Victorian atmosphere. The interior contained ugly box-pews, and unnecessary bric-a-brac. An unusual but cumbersome and unsightly three-tier pulpit did not by any means improve the building.

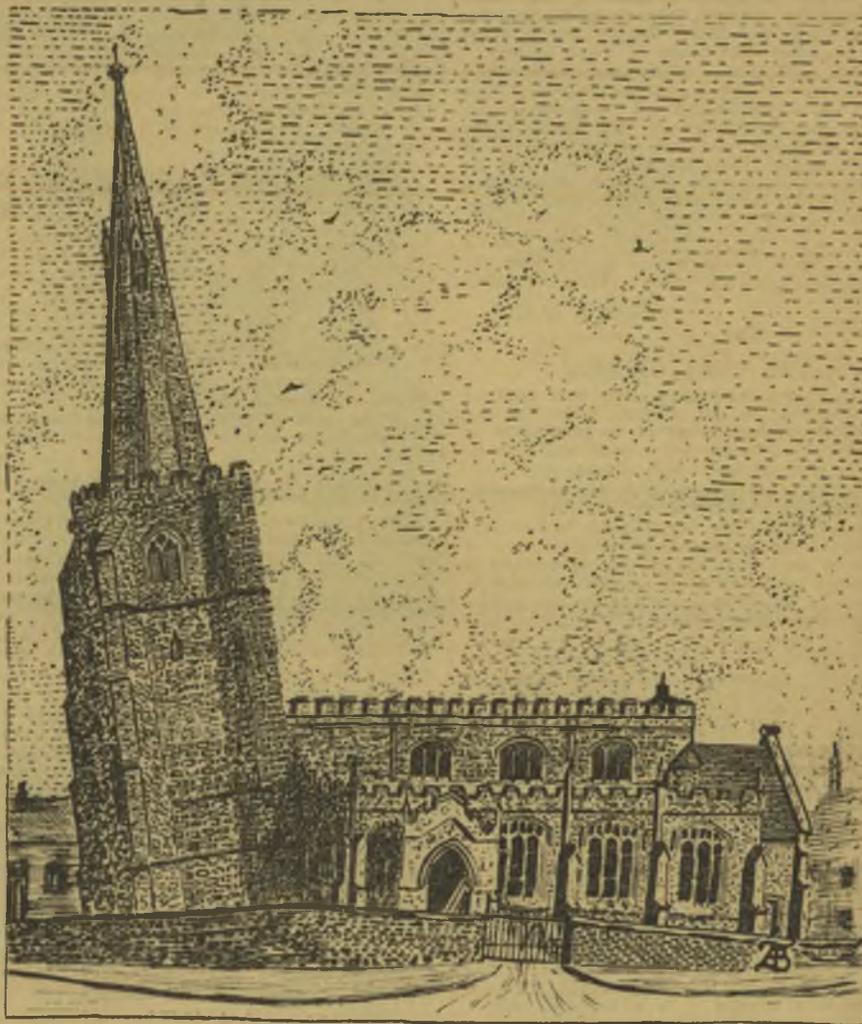

Henry Law James swept this all away! Then he turned his attention—not unnaturally—to the crippled tower. It contained only five bells (rehung in the year 1809), and it badly needed renovating.

Ringers performed from a level 10 ft. above the ground floor, a wall hiding from sight a pile of rubble with which the cavity (now the ringing chamber) had been filled. Under the Vicar's supervision this was all removed. The clergyman-bellringer was at last able to turn his unflagging interest and untiring efforts to the bells.

In 1900 an ancient bell was recast and in 1913 the ring was augmented to 10, the tenor being recast at the same time.

TRIBUTE TO MASTER

Surfleet acquired its unique position of possessing the lightest ring of 12 following the passing of its well-loved and highly respected Vicar, two trebles being added to his memory and a plaque placed beneath the steeple by 'members and friends of the Lincoln Diocesan Guild of Church Bell Ringers in affectionate remembrance of the Rev. Henry Law James, sometime Master, and in appreciation of his work for the Guild and for the art of ringing, 1933.'

The boundless enthusiasm and deep love of bells with which he was infused happily did not entirely expire at his passing. He had imparted a generous portion of his knowledge to an apt pupil and great friend, Rupert Richardson, who bore the banner most capably and conscientiously, and whose efforts, backed by a host of friends, was largely instrumental in placing Lincolnshire well to the fore as far as peal ringing was concerned.

The writer never had the privilege of meeting this gentleman, but those who knew him well remember his friendliness and respected those extraordinary capabilities which earned him a high place among bellringers in this country, and as far away as Australia. Much of his success undoubtedly was due in no small way to his wife, herself an accomplished ringer, who lives not far from the church.

COMPLETING THE 'CIRCLE'

Mrs. Richardson and Mr. C. Rawding, a member of the team of the good old days, smilingly recall—as will others—the time when Rupert desired to ring the sixth bell to a peal, thus enabling him to 'circle' the tower.

The rope of the sixth at one time fell very close to a sharp angle of the arch, in which

is located the west door. Now Rupert was a big man, both in heart and in stature, and while ringing this particular bell his goodly proportions did not assist the ringers of the fifth and seventh bells, who were unable to see each other properly.

However, this problem was overcome: Mr. Richardson had the troublesome angle cut away in order to accommodate himself and thus allow his neighbours to observe each other! The opposite stonework underwent the same treatment, so as to correspond.

Rupert consequently successfully 'circled' the tower and, at the same time, must surely have secured a unique place for this church, part of which was erased to fit a big man!

The electric clock was given by Mr. Richardson shortly before his death on January 13th, 1947, and was actually installed after the donor's passing. Of his 782 peals he rang his last (Double Norwich, conducted by P. A. Corby) at St. Nicholas' Church, Spalding, on September 26th, 1946. Mrs. Richardson was in many of his peals and she has rung 70.

At the time of his death Rupert Richardson was Master of the Lincoln Diocesan Guild, a position which he had held since 1933. A tablet in Surfleet tower records that

DING-DONG MERRILY WE RING

'POULARD' BELL ROPES

MAKE IT EASY AND INEVITABLE

FIND OUT ALL ABOUT THEM FROM

JOSEPH BRYANT LTD

PO BOX 111 BRISTOL 2 TEL. 2-4025

AND TRY ONE WITHOUT OBLIGATION

England's Remarkable

Leaning Tower—Cont.

'an extra bell (to his memory) was added to the peal at Lincoln Cathedral and this tablet placed here to record the gift by members and friends of the Guild.'

With the passing of the Rev. Henry Law James the art suffered an unforgettable blow and when his inseparable companion was called through the mists, bellringing in this part of the country naturally received a setback—particularly at Surfleet.

Understandably many peals have materialised at this Fenland tower and it is significant that not one is recorded on the walls: Henry Law James disliked peal boards, upholding that all ringing on church bells was to the glory of God—and not to the praise of man.

UNUSUAL STAIRWAY

Climbing the turret stairway is a strange experience. One appears to labour uphill and then rapidly descend, though still climbing, according to the lean of the tower, the angle of which in the illustration is possible to see after having temporarily 'removed' trees in the foreground.

The bells are suspended in two tiers from a splendid iron frame which, despite the unnatural angle, has not shifted in the least. The tiny trebles are above the tenor (12 cwt. 0 qr. 9 lb. in F) and their respective weights are not disclosed by the founders (Messrs. Taylor's) for obvious reasons.

St. Laurence's Church has played a major part in the development of the fine tradition embodied in the noble art of bellringing.

This notable ring—the bells revolve on plain bearings—is worthy of full mention, and accordingly inscriptions are reproduced below in full:

Treble and second:

To the Glory of God. Henry Law James, M.A. 1932.

Third:

Cum Vaca Venite. 1913.

Fourth:

Venite Exultimus Domino. 1913.

Fifth:

Sit Nomen Domini Benedictus. 1913.

Sixth:

In Multis Annis Resonit Camframa Johannis. 1913.

Seventh:

God Save The King.

Eighth:

T. Brevnin. Toby Norris Cast Me. John Sharp. C.W.

Ninth:

Omnia Fiant Ad Gloriam Dei. E. Ward. P. Pedder. 1618. Recast 1913.

Tenth:

R. Curtis. Toby Norris Cast Me. William Walker. C.W. 1695. Recast as the Gift of Mr. Alfred Smith. Churchwarden, 1900.

Eleventh:

Edward Heron. Miles Balnie. Omnia Fiant Ad Gloriam Dei. J. Jackson. R. Smith. 1607.

Tenor:

Non Clamor Sed Anon Cantrat in Auri Dei. John Loures. 1608. Recast 1913. Henry Law James. M.A., Vicar. John Richardson. W. Evison Burrell. Church Wardens.

GUILDFORD DIOCESAN GUILD

Leatherhead District

For the nomination meeting on November 18th, Ashtead's rehung bells proved a good substitute for Dorking's, which were not available. Owing to other parish activities there was no service, so ringing continued until time for tea. This was served in the School Hall by lady helpers, enrolled by Mr. J. Symonds, and was enjoyed by nearly 40 ringers.

The business meeting followed. Mr. Frank Oakshott was renominated Ringing Master, but the retiring secretary (Mr. A. H. Smith) said that as he now had an assistant who was willing and able to take over, he would not seek nomination, but nominated Mr. C. Munday, of Ewell, as honorary secretary and treasurer. Mr. A. Besant had agreed to act as honorary auditor in place of Mr. A. H. Winch, who wanted to retire.

These nominations caused two vacancies for the general executive committee to fill, for which Rev. E. Wood, Marilyn Gibbs and A. P. Cannon were nominated. Two new members, Judith Boxall and Caroline Gibbs, of Ashtead, were elected.

The secretary reported on the general committee meeting, called to discuss the proposed Surrey and Guildford merger, which gave rise to quite a lengthy discussion.

The meeting closed with votes of thanks to all who had made such a good meeting possible, especially Mr. J. Symonds, for helping out at short notice, and the secretary was instructed to send the meeting's condolences and best wishes to Bernard Hawkins, of Leatherhead, for a speedy recovery from the injuries received in an accident.

Ringling was then resumed until about 8.30 p.m.

A DAY IN THE CHILTERNs

A group of ringers from Putney, Rochester Row and Kingston had an outing into the Chilterns on December 2nd. Two towers at St. Albans were first visited—the light eight at St. Michael's, and St. Peter's, where a course of Bob Royal and touches of Stedman were brought round. We found the eight at Berkhamsted rather rough and in consequence stuck to Plain Bob and Cambridge. At Tring (8) Crayford College was attempted, but did not come round; a good touch of Stedman finished the morning's ringing.

Touches of Cambridge were rung on the very loud six at Wendover and some got lost in the wilds of Buckinghamshire and were rather late at Monks Risborough. West Wycombe bells were found to be rather bumpy, but otherwise pleasant. At High Wycombe (12. 30½ cwt.) we had a fairly good course of Bob Royal, with the tenor ably turned in by Tony Bishop (of Nutfield fame). Attempts at Bob Maximus led to frustration, but we got home on a course of Stedman Caters.

Beaconsfield's (8. 21 cwt.) was the last tower and we found that the back three needed 'power assisted take off,' being extremely deep set. When 'off' they proved to be good in tone and go. The day finished with another good touch of Stedman. D. C. B.

SURREY ASSOCIATION

If willingness to stand for office is any criterion of the liveness of an Association then the Northern District of the Surrey Association can claim to be one of the liveliest in the country. For at the nomination meeting held at St. George the Martyr, in the Borough, S.E., and subsequently there were two nominations for each office except that of honorary secretary. The A.G.M. promises to be a busy and interesting one.

It is many years since the Association visited the Borough. With a keen vicar and curate and an enthusiastic young band being trained by Mr. N. Bagworth, the tower holds a lot of promise. During the afternoon ringing, under the direction of the District Master, Mr. F. E. Collins, suited all tastes, a difficult feat to achieve when 60 ringers have to be fitted in on eight bells in an hour and a half.

The service, to the Association's form, was taken by the curate, and tea followed in the Church Hall. In addition to the nominations for officers for 1962, 13 new members were elected, an unusually high number for the time of the year. The usual votes of thanks were extended to those responsible for the meeting, and ringing on the heavier 10 at St. Giles', Camberwell, concluded a busy day. W. P.

THE LADIES' GUILD

Western District

A quarterly meeting was held at Twerton, Bath, on December 9th. Afternoon ringing was followed by a short service, attended by the choir, and conducted by the curate. Tea followed in the Church Hall, very kindly provided by the lady ringers from Twerton, under the able direction of Mr. Alan Lee, to whom votes of thanks were passed.

At the business meeting four new members were elected: Miss D. Chapman, Mrs. J. Carey, Miss B. Dench, Miss Parsons. Two successful evening practices were reported by Mrs. Kingcott, and a further one was fixed for Friday, February 9th, 7.30 p.m. at Corston. It is hoped that the annual District meeting, March 10th, will be at Burnham-on-Sea.

It was noted that an all-ladies' quarter peal of Plain Bob Major had been rung in Bristol Cathedral on September 11th, this being the second successful attempt during the year.

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

Personal.—A. Wrigley 15s., E. Garrard 5s., D. A. Franks 6s., L. E. P. 5s., H. W. 5s., Carbis Bay P.C.C. £1 12s.

Peals.—Sutton-on-Hull 2s. 6d., Pembridge 2s. 6d.

Quarter Peals.—North Stoneham 3s., Wraxall 4s., Radley 1s. 8d., Preston 2s. 6d., North Cheriton 2s. 6d., Bletchingley 3s., Fordham 3s., Burstow 3s. 6d., Oatlands Park 4s., Rushden 4s., Whickham 2s., Horsell 3s., Putney 4s., Quedgeley 2s., Bushey Heath 4s., Lydford 3s., Porthkerry 3s., Kingston-upon-Hull 2s. 6d., Bromesborough 3s., Bentley Common 2s. 6d., North Weald 3s., Merriott 3s., Sutton-on-Hull 3s., Holt 3s., Tenterden 3s. 6d., Birch-in-Rusholme 3s., Findon 3s., Tendring 3s., Kingsdon 4s. 6d., Ash, near Sevenoaks 3s., Woolavington 2s. 6d., Walton-on-Thames 4s.

A REVIEW OF MINIMUS

By GEOFFREY DODDS

(Continued from page 843)

STOKE-ON-TRENT SURPRISE

The climax was reached at the Central Council meeting on May 23rd at Stoke-on-Trent. The whole story of the Minimus epic or fiasco which then occurred is told in 'The Ringing World' of June 9th. Some of the highlights are worth repeating as many ringers will have forgotten the details. Part of the leader of June 2nd is worth quoting.

'There were plenty of pointers to suggest that after Whit Tuesday peals of Minimus would not be recognised. Great men had written letters on the subject. Associations had passed resolutions against recognition, the convener of the Peals Analysis Committee had openly declared that he would not recognise such performances as peals and he had gone so far that in the preparation of this report to the Council he had not counted the performances as peals.Never were dice so heavily loaded against success....'

'How did it all happen? Many of the Council are still mystified at such a change of face. A rumble of the fight ahead was seen at the beginning of the Council meeting, when the accuracy of the minutes of the Folkestone meeting was challenged by the Master of the Cumberlands, Mr. Dennis Beresford. It was his contention—and it was supported by Mr. Walter Ayre, a former Master of the Cumberlands and convener of the Peals Analysis Committee—that the recognition of peals of Minimus was never voted on at Folkestone. Mr. Beresford made a tactical error' as, to be effective, the challenge of accuracy should have been made before the minutes were signed, not as a matter arising from them.

'The next skirmish occurred in the presentation of the Peals Analysis Committee's report. The Standing Committee took the view that the six performances of Minimus were peals and the report should be amended accordingly.' Incidentally, the report wrongly stated two on tower- and four on handbells. This should have been one and five respectively. The convener's defiance of the Standing Committee did not go down too well in some quarters and may even have influenced a few 'Don't knows' (or 'Don't cares') in favour of Minimus peals, although many were in sympathy with his views. After discussion, the Standing Committee's point of view was upheld and this meant that there was an influential body of opinion with the small man....'

The real test came when Mr. P. A. Corby proposed and Mr. J. R. Cooper seconded (both Kent County, but putting the motion as private members) that 'the conditions required for peals' should be amended by the addition of... 'A peal shall be rung with five or more changing bells.' This would have excluded any 'peal' of Minimus or less and Mr. Corby did not waste much time or energy in putting the case, feeling that all that would be needed would be a quick vote to settle the matter once and for all. He made two points. Firstly, he considered Minimus peals 'unnecessary' and that ringers in 'four-bell towers had plenty of opportunity to go elsewhere.' Come to think of it, exactly the same arguments can apply to five-bell towers... and six-bells towers. There are even quite a few ringers as well as many non-ringers who think that peals are unnecessary anyway! Secondly, he thought it extremely 'difficult to count up to sevenths and back again,' let alone count 210 extents. In these days of higher education, most of its products seem to be able to count, even if they cannot spell! Counting 42 extents of Plain Bob is considered easy—by five-bell ringers—and to bands capable of ringing 113 Doubles methods, counting 210 should be child's play. He made no mention of the real point at issue, namely, that the standard required for a peal would be lowered.

Support for the motion came from Mr. W. E. Critchley (Yorkshire)—'Minimus peals are rubbish, but plenty of rubbish is also rung on higher numbers.' True, but some who ring

this 'rubbish' apparently claim that Spliced Surprise is not the only thing worth ringing. Perhaps one's definition of 'rubbish' depends on what one is used to.

Mr. J. P. Fidler (honorary), having visited many 'four-bell towers, had found nowhere a band capable of ringing changes.' So much for Council Decision B (Handbook page 18) that the 'primary aim of all Associations should be the encouragement of ringing for Sunday service and on the festivals and their eves.' The common dereliction found in a great many of our threes and fours shows that these are beyond the pale to most of our Associations through whom the interest of change ringing could be introduced. But perhaps Mr. Fidler finds things blacker than they really are, as Taylor's are more often called in for drastic restorations rather than routine maintenance in the case of threes and fours.

Mr. B. D. Threlfall (Cambridge University); 'The more years the Council go on talking about peals of Minimus, the more people will go on ringing them.' True. There is a marked correlation between 'R.W.' correspondence and quarter peals (see Appendix) although the spate of peals was merely to score one before the expected chop.

Mr. A. D. Barker (Oxford Diocesan Guild) claimed that Minimus peals were merely stunts. Probably most of them rung so far have been. Should they be barred just for that? Some of our greater ringers enjoyed 'stunt' ringing in their youth. Ringing a handbell peal on a manure heap was a stunt. In almost all fields of serious effort, someone will try to perform a stunt, just for the fun of it.

Mr. J. R. Mayne (Middlesex) gave such a carefully balanced, fair presentation of the implications of accepting or rejecting the motion that when he made the important point, that we would be lowering our peal standards by allowing Minimus, it did not carry enough weight.

Mr. A. P. Cannon (Surrey) repeated that it would be a retrograde step, but then was unsure of his facts when he said that Minimus peals with a cover bell would soon follow, since one such had already been rung.

Mr. R. G. Blackman (Sussex) thought we had rules as to what should be a peal, but surely the whole point of the motion was that there was no rule excluding Minimus peals.

Opposition to the motion came from many quarters. Mr. A. E. Rushton (Beds) raised the point that if ringers in a four-bell tower wished to celebrate a local event, they would desire to do so in their own tower. 'If one desired to celebrate one's own birthday, one would not go next door.' But surely, if the house were too small for a party, one would go elsewhere.

Mr. J. Freeman (Lincoln) could see no merit in ringing a four-bell peal, but thought that 'there may be occasions when to maintain interest a peal should be rung there.' He also thought that they 'should not legislate for something that is a "flash in the pan."' The complete absence of Minimus peals since the meeting would appear to bear this out.

From Essex, we had Mr. J. H. Crampion, saying that we do not want to stop four-bell peals being rung—'we can't—the point is that we should recognise them' (or did he say 'should we recognise them?')—and Mr. F. B. Lufkin, speaking with the known backing of his Association. Originally, they deplored four-bell peals, but then, as the main purpose of ringing was for Sunday service, they considered that four-bell ringing should be encouraged, in peals as well. He then moved an amendment 'that four-bell peals be permitted in four-bell towers only,' which Miss B. M. Boyle (Devon Guild) seconded. This was an attempt to recognise 'local ringers' efforts, but to exclude 'peal hogging' on handbells.

Mr. W. G. Wilson (London County) considered 'their job was to encourage ringing,' not to discourage even part of it. Mr. C. K.

Lewis (honorary) came out strongly against the motion, as in the Chester Guild they had a very active four-bell tower that would probably soon be pressing for augmentation. Without official encouragement, many four-bell towers would be 'abandoned and become derelict.' He also claimed that ringing Minimus was not easy; in fact, 'it was darned hard work.'

Mr. P. M. J. Gray (New South Wales) made the relevant comment 'that the most important decision reached that day was to accept the Devon Association as members.... By accepting them they should also accept Minimus.' It is an interesting thought that one day the Central Council may perhaps be asked to give a decision on call change ringing—that would be a very interesting meeting.

Mr. J. L. Garner-Hayward (Coventry) has surely been wrongly reported. I believe the correct version is, 'If the effect is to discourage four-bell ringers I am all against the motion.'

In answer to a query from Mr. G. Dodds (Hertford County) as to how many four-bell methods there were, Mr. F. T. Blagrove (Methods Committee) said that there were 11 plain methods and the president, Mr. F. Sharpe, claimed there were nearly 40! Well, well, this could almost make Minimus interesting.

Mr. F. B. Lufkin's 'amendment' was recorded by many members until an acceptable form was found by Mrs. P. J. Staniforth (Ladies' Guild), and which was seconded by Miss M. R. Cross (Universities Association)—which illustrates perhaps that members of the Central Council are representatives of, and not delegates sent by, their Associations, and so have the constructive freedom to debate and vote as points develop. The amendment should really have been called an opposing motion, as this is the form it appeared to take. 'Peals of Minimus on tower bells may be recognised in towers that contain four bells only. Peals on four handbells or less shall not be recognised.'

This was carried by 78 votes to 57 and the original motion was defeated.

AFTER THE STORM

So now peals of Minimus will be recognised only if rung in a four-bell tower and any peal lengths on 4, 3 or 2 handbells will not be recognised. The loophole of '3 or 2 tower bells' will no doubt be firmly closed if anyone is fool enough to try it!

Now that peals of Minimus are recognised, presumably there will have to be decisions made as to what constitutes a peal of Minimus. The general condition required for peals would still apply, but it is hoped that no one will be silly enough to try to ring a record length of '6,720 changes and upwards,' as this would also limit them to regular methods, of which there are only three (i.e., twelve different extents), in which no more than two consecutive blows are made in one place. There is no decision yet as to how extents or 'round blocks' are to be rung, if '48's' will be barred or even if 209 extents (5,016 changes) could form a peal length. Incidentally, the peal of Kent Minimus could not be excluded due to being false in the plain course—this is only a requirement for a regular method—but may be so due to there not being 'true and complete round blocks' of 24 changes in the structure, providing that Doubles and Minor decisions were taken as applying.

What Minimus ringing has been published since? Virtually nothing! How right Mr. Freeman seems to have been. No peals on four. No quarters on four—except for a very curious, synopacted quarter of Grandsire Doubles at Margaretting, Essex, where the working bells were the only ones that worked, being the ancient ring of four, and I presume they all 'hunted' for the treble, the 'ringer' of which all the appropriate arm movements, but without a bell! One other quarter peal was the very special one on Brownsea Island reported recently. Only two other items remain. One, a tour of 'discovery' among the fours and threes near Worcester by a young group of ringers and the other a request for discussion by their Association on the Central Council Decision reported from a meeting of the Northern District of Hertford County.

A Review Of Minimus—Cont.

One side-line on four-bell towers is the question, can they be counted as 'snatches'? One answer I have heard is 'No, not until they appear in "Dove."' So, if the next edition contains these as an appendix, tower-grabbers will presumably have to keep two lists!

Of the future, let us hope that we may see greatly increased activity and interest in our lesser towers and possibly more augmentations as a result. We trust that any peals rung will be really worth calling peals, with as many different extents as possible, so as to belie the criticism of the 'monotony of 210 extents.'

(To be continued)

GLOUCESTER AND BRISTOL ASSOCIATION**Stow-on-the-Wold Branch**

The annual meeting of the Stow-on-the-Wold Branch was held at Stow-on-the-Wold on December 9th. Ringing commenced at 3 p.m. and touches of Grandsire and Stedman Triples, Bob Major and Kent Treble Bob Minor were rung. A short service, conducted by the Rector (the Rev. Mr. Heron), assisted by the Branch chairman (the Rev. L. W. Potter), was well attended, including visitors from Ross-on-Wye, Cheltenham and Gloucester.

The officials elected for 1962 were as follows: Branch chairman, Rev. L. W. Potter; Branch secretary, Mr. L. C. Dowdeswell; Branch Ringing Master, Mr. F. Ewins; Management Committee representative, Mr. F. Newton.

Five new members were elected and the feature of the meeting was the election of the Adlestrop tower, with a band of new ringers.

Tributes were paid to the retiring secretary, Mr. F. Newton, who had held the post for the past four years. The new secretary is an old ringer of the Claines band of the Worcestershire Association.

SOUTHWELL DIOCESAN GUILD**Mansfield District**

The bi-monthly meeting of the Mansfield District was held at Farnsfield on November 25th. In spite of the bad weather, about 25 ringers, representing nine towers, arrived. In a short address at the service the Vicar extended a very warm welcome to everyone. The hymns were accompanied on the organ by Mr. J. Bradbury, a local ringer.

Tea was served in the Women's Institute by the local ladies.

At the short business meeting, with Mr. S. W. Fossey in the chair, Mansfield was fixed for the District annual meeting to be held on January 20th.

Inquiries were made as to the progress being made with Southwell bells. There was very little information available as it is understood that the new floor is now the stumbling block. The Bell Fund collection amounted to 9s. The customary votes of thanks were accorded to the Vicar and to the ladies.

Ringling again continued in a wide variety of methods. D. H. R.

GUILDFORD DIOCESAN GUILD**Chertsey District**

The annual District social was held in the hall of St. Peter's, Hersham, on December 9th, when a good attendance of some 80 or 90 ringers spent a most enjoyable evening.

Mr. John King, Assistant District Ringing Master, was M.C. and introduced entertainment by the Richmond Folk Dancing Society, Mr. Cecil Firmin, a conjurer, and an admirable selection of novel party games, including the solving of some anagrams of ringing terms.

Excellent refreshments were served by the ladies of the parish, and a vote of thanks to all concerned was proposed by Mr. Roy Collins, District Ringing Master.

C. B. A.

OBITUARY**MR. CHARLES R. MORSS**

The many friends of Mr. Charles R. Morss, of Woodford, Essex, will learn with regret of his death recently after a long illness. Mr. Morss was 81 years old and had served his parish church as a ringer for the very long period of 65 years. For most of that time he carried the responsibilities of tower-keeper, and very much of it he was Ringing Master also.

He did not ring many peals and, indeed, 'did not hold with it,' but he was, nevertheless, in his way a great enthusiast and was well known in south-west Essex. His main ringing interest was really the teaching of beginners and the measure of his success was that the parish bells were kept in action for the proper purposes of the church throughout the whole of the long time in which he had charge of them. That was a period during which Woodford underwent the main part of its change from a country village to a popular suburb, and it included many great national events, amongst which were three major wars. His reminiscences, both of the parish in former times and of his older fellow-ringers, were many and entertaining.

As a ringing instructor his methods were vigorous and his natural tendency towards 'plain speaking,' plus an uproarious and cheerful good humour. He will long be remembered, with gratitude and affection, by those who, as learners, passed through his hands.

J. A. W.

BARNSELY DISTRICT SOCIETY

The Barnsley District Society held its monthly meeting at Shelley, near Huddersfield, on December 9th. Nine towers were represented. Mr. Trevor Tarbutt presided at the business meeting, when the present officers were renominated for the general meeting to be held at St. Mary's, Barnsley, on January 13th. The usual votes of thanks were offered by Mr. Eric Burton, supported by Mr. Harold Chant.

The ringers who took part in the peal at Burmarsh, Kent, on December 9th extend their grateful thanks to the local band for providing refreshments after the ringing. Although this village is rather isolated, the band have progressed rapidly of recent months and are now practising Kent Treble Bob regularly. We look forward to their first quarter in the method.

'Ringing the Changes' was an illustrated feature article on bellringing in 'The Daily Herald' of December 14th.

A peal of special note took place at Epping on December 9th, when four members of the local company rang their first peal (Grandsire Triples).

With the exception of the honorary secretary there were two nominations for every office in the Northern District of the Surrey Association at their nomination meeting. This willingness to serve is a welcoming sign of interest.

Mr. G. W. Pipe, in his Christmas letter from Melbourne, states that the W. and G. long-playing record of Melbourne Cathedral bells may be obtained from Mr. Shestapol, Oriole Records Ltd., 104, New Bond Street, London.

Mervyn Malpass, at Stone, Glos. has taught nine pupils to handle a bell in six weeks on the six bells, in order to get a band going. Now a canon has broken on the third, and it cannot be rung until repaired. He is, however, carrying on with the remaining five.

After meeting short for Double Norwich at Bray, Donald Young stood in at a moment's notice and is to be congratulated on the way he rang his first peal of Major. The band would also like to tender their sincere thanks to the local ringers for so kindly tending to their inner needs after the peal.

While working near Sheldwich Church, Kent, on December 1st between 9.30 and 10 a.m., a reader heard a ring of eight in the distance. He knows they were not those of Faversham, Osprey or Throwley. Can any reader help? Might they have been from Sittingbourne or Rainham?

BELFRY GOSSIP

Would it be possible to have another peal rung by a band each of whom has rung 1,000 peals? There are still with us John Worth, E. Jenkins, George E. Fearn, H. E. Audsley, Nolan Golden, C. W. Roberts, James Bennett and Ernest Morris. Our correspondent who sends us this list comments: 'We shall have to wait a year or two until the new ones come along.'

Within two years of the augmentation of Cawthorne bells to six in 1859, the Cawthorne Junior Ringers, most of whom were youths, rang a peal in seven not easy methods. The centenary of this peal was marked by a seven method peal of Treble Bob Minor on November 25th.

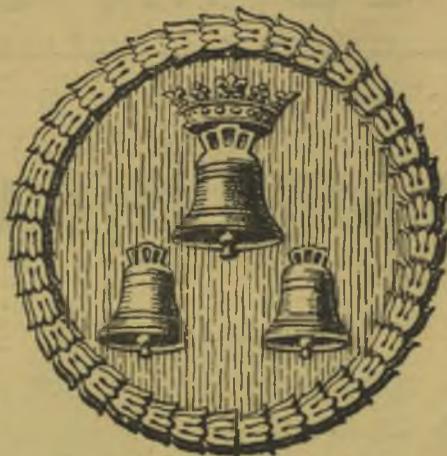

The band who rang the peal of Superlative Surprise Major at St. Cuthbert's, Darlington, on Saturday, December 9th, as a twentieth wedding anniversary compliment to Mr. and Mrs. T. Cooke would like to place on record their thanks to Mr. and Mrs. Cooke for so kindly entertaining them to an excellent tea after the peal. It would have been a pity to miss either.

As veteran cars passed near Immanuel Church, Streatham, on the London to Brighton run on November 5th, Reuben Sanders, a true veteran of 87, was ringing Yorkshire Surprise with seven university students. Again in the evening, when many of the 'old crows' were being towed home, a quarter from Holt's Original was being rung at St. Leonard's, Streatham. Ringing with Reuben was Jim Chapman (80).

Christmas bells will ring out on the Home Service on Christmas morning, when greetings will be heard from St. Peter's Church, Woolton, Liverpool; the Church of St. Mary Redcliffe, Bristol; Holy Cross Church, Cowbridge, Glamorgan; St. Macartan's Cathedral, Enniskillen, Co. Fermanagh; the Parish Church of St. Nicholas, Sevenoaks; Worcester Cathedral; the Parish Church of St. George, Greenock, Renfrewshire, and the Church of the Nativity, Bethlehem.

NORTHANTS RINGERS' WEDDING

Handbells held aloft by the guard of honour for two Northampton ringers after their wedding at St. Andrew's Church, Yardley-Hastings, on September 23rd. The bride, Miss Ann Fowler, learned to ring at Yardley-Hastings, with other choir girls, and made good progress. Mr. Raymond Henman is a ringer at the neighbouring village of Little Houghton. For a number of years the couple have been keen peal ringers as well as being regular Sunday service ringers in their respective parishes.

The bells were rung jointly by ringing friends from both parishes before and after the ceremony, and handbells were brought into use when the couple left for their honeymoon in Derbyshire. They are making their home at Brafield-on-the-Green, Northampton.

Seeing Mid-Kent in November

November is not usually the best time for a ringing outing, and sure enough it was raining hard when Chelsfield ringers set out on their outing into mid-Kent.

At the first tower, Hollingbourne, we were joined by friends from Beddington and Cranbrook, but despite ringers of widely varying degrees of efficiency, nothing could be made to go really well here. Charing was the next stop, but due to a delay in finding the key we could not stay for very long. A course of London was, however, brought round.

We were met by two local ringers at Egerton, who joined with us in ringing an assortment of methods, up to and including Norwich Surprise. An adjournment was then made for lunch at a nearby hostelry—apparently well used to bands of ringers.

At Hothfield our party became complete on the arrival of two friends from West Wickham, but everyone found the ropes a bit of a handful. High Halden was the next place visited, and ringing was enjoyed on the pleasant six in the most unusual wooden tower.

We were very fortunate in being given permission to visit the restored ring of eight at Tenderden, but unfortunately ringing was delayed for a long time by a christening. Cambridge and Plain were brought round before hastening on to Beneden, where an advance party were already ringing. We would all have liked to have spent longer at these two places.

The last tower of the day was Cranbrook—and what a pity this beautiful sounding octave does not 'go' better. Due to the 'go' of these bells nothing more ambitious than Plain Bob was attempted. Upon finishing ringing here

we were invited to the house of Mr. and Mrs. Michael Legg, who recently moved here from Chelsfield, to find a really sumptuous repast awaiting our attention. When hunger and thirst had been satisfied an unforgettable evening was spent with Philip Laine at the piano, playing anything he was asked, until it was regretfully realised that we still had to get home, a most enjoyable day having come to an end.

We would like to thank all incumbents and local ringers, and also Mr. and Mrs. Legg for rounding off the day in such a grand manner.

D. C. M.

'OVERTONES'

The November issue of 'Overtones,' the journal of the American Guild of English Handbell Ringers, is profusely illustrated with a two colour cover. It has a page of news from England a picture of the handbell ringers of Wickersley Secondary School, Rotherham, in early Victorian costumes.

It also contains the announcement that Air France is considering offering a bellringers' tour of Europe next summer. It would include change ringing in England, carillon concerts in the Low Countries and visits to famous cathedral rings!

We also read this suggestion of a Christmas gift for a favourite ringer: From Aldershot Stores, 25, Grosvenor Road, Aldershot, England, you may order for 11s. 4d. a bellringers' tie in brown, green or blue. They also offer neck squares in the same materials at 28s.

'Overtones' is edited by James R. Lawson, The Riverside Church, Riverside Drive, and 122nd Street, New York 27.

ARCHDEACONRY OF STAFFORD SOCIETY AT DINNER

On Saturday, November 11th, the Society for the Archdeaconry of Stafford held its tenth annual dinner at Taylor's Restaurant, Cannock. Despite the inclement weather, visitors availed themselves of the opportunity of ringing on the eight bells of St. Luke's church.

From 6 p.m. onwards the company began to assemble and by 6.30 p.m. the gathering was complete, with 160 present. Already there was an atmosphere of expectancy and conviviality; no one was disappointed, a really first class meal was served.

The Society's president, the Ven. Basil Stratton, Archdeacon of Stafford, from the chair proposed the toast 'The Queen,' and followed this with a general welcome to the assembly. He said his duties as Archdeacon involved quite a lot of travelling and he was always pleased to meet ringers. He felt they had a tremendous pastoral value.

A local personality, Mr. F. Linford, who is J.P., churchwarden and a builder in Cannock, proposed the toast of 'The Church and State.' He said he was always impressed by the way Church and State combined well together. In his opinion there was no finer sight than to see the judge, sheriff and lawyers attend a full Matins service prior to the opening of the Assizes. A witty reply was forthcoming from the Vicar of Cannock (the Rev. L. H. L. Townshend), who applauded the union of Church and State, although he felt that the State had rather the better of the bargain.

HIS FIRST SOCIETY

Mr. Frank Perrins, Central Council librarian and president of the Coventry Diocesan Guild, proposed the toast of 'The Society.' The 'Stafford,' he said, was the first of about thirty Societies he had joined during his ringing career, and he was delighted to watch its progress. Attendance at meetings had increased, methods had advanced and the standard of striking improved. He made special mention of the late Herbert Knight, who did so much for the Society throughout his long ringing life.

Mr. B. G. Key, Central Council representative, replied on behalf of the Society, and thanked Mr. Perrins for his kind remarks about the Society and its progress. Mr. Perrins had, he said, spoken at previous dinners held by the Society, and he noted that it was just fifty years since he had first joined the Society.

Mr. Robert J. Warrilow, of Stafford, submitted the toast of 'The Visitors.' In a hearty welcome, he said visiting bellringers were persons of importance, acting as liaison officers between towers and societies. Many friends could be made by visiting other towers as was shown by the recent Lichfield Diocesan Ringing Festival held at Wolverhampton.

Councillor J. M. Sunley, chairman of Cannock Urban District Council, replied on behalf of the visitors and thanked the Society for its hospitality. He was particularly proud of the Cannock bellringers, for they played an important part in the life of the town.

Following the formal proceedings the company retired to a special room for the entertainment. Here Mr. and Mrs. B. G. Key, members of their family and ringers from Gosall provided songs and sketches for everyone's enjoyment. Handbell ringers from Penn gave a recital of well known tunes and led the community singing.

Finally, the Archdeacon voiced a vote of thanks to everyone who had taken part in or worked for the success of the evening.

D. J. T.

The jubilee of the first peal of Minor rung in Cornwall was commemorated by a peal on the same bells at Pillaton. Afterwards the band were entertained to supper by Mr. Lucas, churchwarden, to whom they extend their grateful thanks.

Christmas Greetings

Christmas greetings and best wishes for 1962 to all ringing friends—Swansea and Brecon Diocesan Guild, and the B.R.S.A. Railwaymen's Guild—from J. ARTHUR HOARE, Swansea.

Best wishes for a merry Christmas and a happy New Year to all ringing friends, from DENIS MOTTERSHEAD, Wilmslow, Cheshire.

A peaceful and happy Christmas and a prosperous 1962 to all our ringing friends across the seas.—GEORGE and DIANA PIPE, Melbourne, Australia. 9335

Greetings and best wishes to all ringing friends, far and near, for Christmas and the New Year, from Mrs. A. H. PULLING, 144, Woodside Road, Guildford, Surrey. 9345

That you may have much joy and much joyous ringing during Christmas and throughout 1962 is the wish of the ringers of Emmanuel, PLYMOUTH, for all old friends and new, both at home and abroad. 9335

Christmas greetings and good wishes for the New Year to ringing friends everywhere, from SHIRLEY RYMER, St. Hilda's School, Ootacamund, South India. 9337

Mr. A. E. SELLERS, of 3, Elwell Avenue, Beverley, wishes all his ringing friends a very happy Christmas and New Year, especially those of the Beverley and District Society and Yorkshire (Eastern District) Association. 9330

Mr. and Mrs. J. FRANK SMALLWOOD send kindly greetings to all ringing friends, old and new. May you all have a happy Christmas and prosperity and lots of good ringing in 1962.—5, Stanton Close, Darley Dale, Matlock.

COMPOSITIONS OF CATERS AND CINQUES

THE new handbook of compositions of Stedman Caters and Cinques, issued by the Central Council this week, makes another valuable contribution to the growing list of useful guides and text books provided by the earnest labours of certain unobtrusive committees. The booklet has been somewhat delayed in its progress towards publication. This has been due to a number of causes, but it may well be that the more leisurely approach to completion has been a gain, in that more time has been available for reflection and selection.

In a Foreword, the Committee modestly informs us that it has tried to present 'a picture of trends in composition of Stedman Caters and Cinques during the last fifty years or so.' It has certainly done this, and more, for the Collection takes us back to Johnson, Haley and Hattersley, and brings us up to date with the genius of C. W. Roberts; and in this pageant of progress are great names like Heywood, Knights, Lindoff, Carter and Law James, all bold pioneers and ingenious manipulators in this tricky method. And with them some of the lesser men, whose fine old names—Daltry, Cornelius Charge, W. T. Elson, J. R. Fardon and William Willson—are attached to compositions that have become standard works and very much in use.

Nearly 60 years ago, when the Central Council put forth its Collection of Grandsire Caters Compositions, it tried to present both an historical survey and a practical handbook. The result was not a happy one, for in the precarious process of balancing upon the two stools there was a nervous anxiety in the selection of the material and a lack of accuracy in the truth of the figures. Eric Critchley and his men have been more cautious. While the new booklet may well be considered as giving a broad survey of composition over the years, this aim has been subordinated to the main object of supplying a good practical work. We shall not, for instance, find here any long lengths; and we may agree, no doubt, that such compositions, like some of Rodney Meadows' rolling stock, are 'not in common use.' Nor shall we find any startling innovations in the placing of the back bells; Tittums and Handstroke Home positions have been considered as providing the best music for Stedman Caters and Cinques, and it is difficult to disagree with this view. Some of us will wish that the Committee had inserted at least one good (and reasonably simple) composition on ten and on 12 with the bells in the Inverted Tittums. These are not very often needed, but when they are required they are not always easy to lay hands on.

The compositions, both of Caters and Cinques, fall into three main classes. There are the all-Tittum peals, represented by the oldmasters of the last century, and among

them George Newson's excellent 5,006 and Hubbard's grand old classic, the notable 5,076, restored for us nearly 60 years ago by J. R. Pritchard. These have the 6th in seconds place. There is a satisfying selection of half-and-half compositions, and among them it is good to see Haley's 5,007 and Heywood's popular peal with its duplicate course ends. The Carter Broadsheet has, of course, supplied indispensable material, and indeed it must have been difficult to decide how much of the work of this clever and prolific composer could safely be omitted.

The third chief plan is the 'two-thirds and a third' type of peal. Among these we are given J. E. Groves' 5,067. We may have preferred Carter's 5,079, which preceded Groves' peal, is on precisely the same plan, and with a much simpler opening course, but none the less the 5,067 is a fine utility peal and is well worth its place in the collection.

Before leaving the Caters section it is worth while to note some of the bolder experiments: No. 35, where Roberts uses four seconds-place bells; David Parsons' 5,009 with no fixed seconds-place bell; the curious double-course 5,055 of Washbrook's, and the strange 5,063 by John Carter, in which all the Handstroke Home course ends are at slow sixes instead of at the customary quick sixes. We feel that these unusual features might well have had some special explanation, for any attempt to prick the course ends of Carter's peal from quick six-ends lands the tyro in a morass of perplexity.

One really notable omission is Stephen Wood's brilliant 5,009, and how all of us who were consulted about the collection managed to let it be neglected is difficult to comprehend. (Perhaps we shall be able to persuade the Editor to reprint it in 'The Ringing World'.)

The Cinques follow broadly the conventional plan, and they, too, provide specimens of all-Tittum, half-and-half, and two-thirds and a third. No. 15 is a prodigy, for it embodies no less than 217 different peals by Carter, an astonishing piece of tabulation that makes amusing study and provides some excellent and moderately easy peals. Roberts and Parsons are represented by peals without a fixed 2nds-place bell, and there is a very remarkable 5,016 by that great genius J. W. Parker, in double courses alternately Tittum and Backstroke Home, and offering intriguing possibilities in the way of variation.

Well, here is a notable little book, offering 55 compositions of Stedman Caters and 35 of Cinques. It is neatly printed and attractive to look at, and for student, collector and conductor it will prove worth having. There is no question that much care and devotion have been exercised in this production; the very proof, alone, of these peals

(Continued on next page)

PERSONALITIES OF THE EXERCISE—52

One of the leading ringers during the last 30 years is Mr. Wilfred Williams, of London. He has travelled all over the British Isles for peals, and is still the only one who has conducted a peal of Surprise in every county in England and Wales, plus fourteen in Ireland and Scotland. He is one of the few people who can call a peal in any method from any bell, on all numbers, and is an excellent striker wherever he rings. He is proud of being a Welshman, and is a credit to his country.

Wilfred Williams was born in Brecon, Mid-Wales, on August 21st, 1905, and educated at the C. of E. School at Clydach, near Abergavenny. He learnt to ring on the six bells at Llanelly, Breconshire, and was taught by the four talented Rackham brothers. Mr. Sydney Rackham probably helped him most in those early days, by taking him to many meetings with his son, Alfred, who now lives at Tamworth. At one of these meetings he met the late George Popnell, one of the finest companions one could wish to have. He had been taught to ring by William Short before World War I, in the Clent area of Worcester-shire.

In the early twenties George moved to the mining district of Monmouthshire, and from then until 1929 Wilfred and George attended many meetings and lost many peals. There was one black period of thirteen consecutive Saturday attempts, without success! Some of these included Donald G. Clift, just starting to ring peals. Jack Phillips, then living in Cardiff and Albert J. Pitman, of Aberavon. They eventually found their way to Pentre Rhondda, which had the best local band in Wales, and one of the best in the country. They were under the conductorship of Tom Page, assisted by his brother Fred, and the outcome of their visits was some good peals of Siedman Triples, which Wilfred called, and the start of Surprise Major ringing practice. Wilfred's first peal was Grandsire Doubles at Llangatock, Breconshire, on December 10th, 1922, rung with his namesake, who now lives in Carmarthen. His first peal as conductor was Bob Minor at Pipe-cum-Lyde, Herefordshire, in 1923.

AT BISHOPSGATE

When Wilfred first came to London in 1928, Bishopsgate tower was then as Willesden is now—regular peal ringing nearly every week, with the late James E. Davis in charge. It was there that he met Charles W. Roberts, and he was soon invited to take part in some peals. He is very grateful to him for giving him these early opportunities to ring peals in the higher methods, turn in tenors and conduct Surprise. Like a great many more, Wilfred regrets that such a gifted ringer as Charlie Roberts, surely one of the greatest of all time, now finds it impossible to spend any time in a belfry.

Up to date Wilfred has rung 725 peals, of which he has conducted 336, and many of these peals have been outstanding. Amongst those of which he looks back with justifiable pride are Stedman Cinques and Cambridge Maximus at Exeter Cathedral. In both of these Wilfred rang the tenor, with John S. Mason, now a Wing-Commander in America, ably performing as strapper. Frank Haynes called the Cinques from the treble, and rang the same bell for the Maximus, which Wilfred conducted. He also vividly remembers a peal of Stedman Cinques at St. Paul's Cathedral, when he rang the 11th, not because of the ringing, but because, owing to the poor 'go' of the bell, many thought he would fail!

During the war he took part in a remarkable performance on handbells at the White-chapel Bell Foundry in 1941. As rationing

MR. WILFRED WILLIAMS,
Ancient Society of College Youths.

was in progress, the College Youths used to hold an annual lunch, instead of the evening dinner. Immediately after the lunch on November 8th, 1941, four members rang Holt's Original non-conducted, and were entertained to supper by Mr. and Mrs. A. A. Hughes afterwards. Those taking part were Ernest C. S. Turner 1-2, Wilfred Williams 3-4, John Thomas 5-6, and Donald G. Clift 7-8, and Charles W. Roberts acted as umpire. Wilfred was the first person to call four Spiced Surprise Major from every bell. He has rung peals in 56 different twelve-bell towers, and conducted peals in 45 of them. These have included 34 different tenors to Maximus, and eight behind to Cinques, and, of course, on quite a number of these he has scored both Maximus and Cinques. One of his best performances was calling nine Spiced Surprise Maximus at Cheltenham in June this year.

HANDBELL RINGING

Wilfred has always been attracted to handbell ringing, and was taught by Mr. and Mrs. F. L. Hairs, when living in Brighton. He has called Holt's Original several times, and rang a number of peals of Siedman Cinques with the Birmingham band during the ban on ringing, one of which was rung non-conducted. He was one of the four who rang Stedman Triples in St. Paul's Cathedral, at the service prior to the A.S.C.Y. Tercentenary dinner in 1937, the other three being Willie Roughton, Herbert Langdon and Alfred B. Peck. With the first two, plus Edward P. Duffield, they took part in a broadcast over the B.B.C. the same day. Mr. Edwin H. Lewis was the Master, and was interviewed about the Society by Lionel Gamlin. Another happy memory is of going to the home of Mr. and Mrs. G. W. Fletcher every other week, when they lived at Enfield. They always had an excellent handbell practice, when such talented people as Chris Woolley, Ernest Turner, C. W. Roberts and John Thomas were nearly always present.

During the war, Wilfred was living in Cheltenham, and was fortunate enough to be invited to join a handbell tune ringing party. They used to practise at the houses of Messrs. Charles W. Martin and Walter Rose. After giving several concert turns at local Army and R.A.F. depots, the party had an audition for

a Carroll Levis radio programme. They were accepted, and performed in quite a number of London broadcasting studios. Every broadcast had a celebrity guest, and Wilfred has been on the stage with such famous people as Jimmy Edwards, Charlie Kunz, Jack Warner, Richard Attenborough and Stanley Black.

PEAL TOUR ORGANISER

Arranging peal tours has given Wilfred a great deal of pleasure. He had taken part in a peal tour with Bill Pye as early as 1931, and as those people who have organised them know it has taken a lot of work. He would like to thank all those who have always been ready to help with advice, and prompt replies to inquiries, thus ensuring that the tourists have an enjoyable and successful week. Wilfred represented the Gloucester and Bristol Association on the Central Council, before returning to London in 1950, and has now had his 6th year as a representative for the A.S.C.Y. He is very proud of being Master of the Society for 1959, which was a memorable year, with the annual dinner a fitting climax.

Wilfred is a great believer that to ring well one must keep oneself physically fit. For this reason active sport has always attracted him, and he plays tennis, squash and badminton, according to season, every week. He often takes a week's holiday to see the Wimbledon championships, and tries to get there two or three days during the tennis fortnight, and also the badminton at Wembley. He has had a number of interesting jobs. When Wilfred first started work, he was employed above ground in a coal mine, and for the last 10 years he has been working for the Ministry of Works at the British Museum, Houses of Parliament, Buckingham Palace, Clarence House, and is now at the Royal Hospital, Chelsea.

Wilfred's enthusiasm for ringing is insatiable. He has always demanded a high standard of performance, and will not tolerate poor striking. Behind a somewhat stern manner, there lies a genuine desire to get the best possible results. Although an outspoken critic, he is always ready to give credit where it is due, even about someone with whom he disagrees. A really first class ringer and conductor, and an excellent tenor ringer, Wilfred has made a name for himself, which will be joined with the best in the history of our art.

APACE.

BEDFORDSHIRE ASSOCIATION

Biggleswade District

For the first time for many years a meeting of the Biggleswade District was held at Potton on December 9th.

Tea was provided in the school, and about 15 people were present. At the business meeting it was proposed to hold the A.G.M. for 1962 on January 13th at Biggleswade.

At Compline the Rev. Mr. Longden gave a short address.

There was ringing until tea time and again after the service. The special methods were Hull Surprise and Single Oxford Minor. The Ringing Master was Mr. L. Bywaters.

Compositions of Caters & Cinques

—continued

has been a task of considerable magnitude, for the Caters method (in particular) is the BELLE DAME SANS MERCI: her many charms are mitigated by her unfortunate propensity for playing you false, and the utmost care and delicacy of manipulation are necessary to avoid being deceived. Mr. Critchley's Committee pays tribute to the help given by Mr. William Barton in the proving of the compositions. He may join with the Committee in being well pleased with the result.

BOW BELLS ARE RINGING AGAIN

DUKE OF EDINBURGH GIVES THE SIGNAL

THE moment the City of London had been waiting for after a lapse of more than 20 years occurred at 4 p.m. on December 21st, when H.R.H. the Duke of Edinburgh tolled the tenor bell of Bow at the dedication service performed by the Bishop of London (the Right Rev. R. W. Stopford).

St. Mary-le-Bow Church was shattered in the blitz of May 10th, 1941. The bells crashed to the ground as the building was enveloped in flames. Broken by the fall, they were recovered from the rubble and the metal of these bells is incorporated in the re-cast 12, which have a total weight of 8 tons 15 cwt. 10 lb. Justly so, a border of London Pride adorns the bells. Each bell is named and inscribed with a text and the initial letters of these texts make an acoustic spelling—

D. WHITTINGTON.

ALTERATIONS TO TOWER

It was in 1956 that Bow Bells were recast in the White-chapel Foundry. The long interval between the recasting and dedication was due to the extensive work necessary to the tower to enable the bells to be rung in safety. There have been many alterations in the tower. The ringing room has been brought down much lower in the tower. It is a large, dignified room, panelled waist high and about 25 feet in height. The 12 ropes form a splendid circle, but they are very close to the wall and there is not room for a person to stand behind a ringer. Four of the bells are rung from boxes.

Above the ringing room there is the clock chamber and above that the bells. There is a 70 ft. draught or rope to be handled and one or two of the bells are set a little fine. The new tenor is 42 cwt. in C. Those who heard the bells on Tuesday were favourably impressed by the tone. The full television and radio coverage meant that the new Bow Bells had a world-wide reception. Mr. John Chilcott, who was in charge of the ringing, gave a special broadcast to Canada on Wednesday morning.

£63,000 REQUIRED

In the church itself the ravages of the blitz have not been tackled. The big sum of £43,000 is required to restore the church and another £20,000 for furnishings. To complete the church will take another two years; but as Bow Bells now ring out so eventually will the main church be built. The crypt has been finished, and in the crypt chapel, with an altar of great beauty, services are held; and there was one there on the evening of the dedication, when the confirmation of the election of three bishops took place.

In view of the ruined state of the church, seating was limited for the ceremony of dedication which took place in the entrance porch. Most of the congregation were associated with the City of London, but there were present the Master of the Ancient Society of College Youths (Mr. Wm. T. Cook) and the president of the Central Council (Mr. Frederick Sharpe).

The first of the distinguished guests to arrive was the Lord Mayor, Sir John Hoare, who was accompanied by his sheriffs—Alderman Lionel Denny and Mr. Christopher Rawson. They

were received by the Alderman of the Cordwainer Ward, Sir Cuthbert Ackroyd, Bt., who was Lord Mayor when the bells were cast and a churchwarden of Bow, the Rector (Rev. Joseph Mc Culloch) and the Vestry Clerk (Mr. John H. L. Trustram). Shortly afterwards they were joined by the Bishop of London, and they received Prince Philip.

the tower, where Mr. Albert Hughes, the bell-founder, was waiting for them with the churchwardens. The Vestry Clerk conducted his Royal Highness to join them.

The dedication ceremony then took place, the bell-founder handing the bellrope to the wardens. The Vestry Clerk conducted His these bells, which have been restored, that they may once more call God's people to this His House of Prayer and sound forth their Christian summons across the world.

The rope was handed to the Bishop who, after the act of dedication, handed the rope to the Rector, who in turn handed it to His Royal Highness with the request 'to ring this bell, so that its message of good will to all men may once more be heard not only in this City but throughout the world.'

His Royal Highness then tolled the bell six times. The tenor bell was struck with a clock hammer attached to the rope the Duke pulled. Watching by the upturned tenor was Mr. Douglas Hughes, to make certain that all was clear when the bells were rung almost immediately in rounds.

On the treble was Mr. E. G. Fenn, and he was the only member of the band who rang for the well-known time signal of Bow Bells. The College Youth band ringing these opening rounds were E. G. Fenn 1, M. V. Chilcott (conductor) 2, M. P. Moreton 3, James Phillips 4, J. Frank Smallwood 5, D. Randall 6, John Phillips 7, J. A. Waugh 8, C. G. J. Watts 9, J. G. R. Prior 10, J. H. Crampion 11, Wilfrid Williams 12. Of these, seven were past Masters of the Ancient Society.

'SONG OF PEACE'

The rounds sounded very sweet in the church. The bellringers' prayer were then offered by the Bishop, and one that seemed apt for the world today:—

'Grant, O Lord, that they, who in their daily tasks hear the sound of these bells, may be called to think on Thee: And that their chimes may bring freedom to the oppressed, strength to the weak, courage to the fearful and joy to all mankind. And finally, let us pray that in their song, we may all find Thy Peace in our hearts. Amen.'

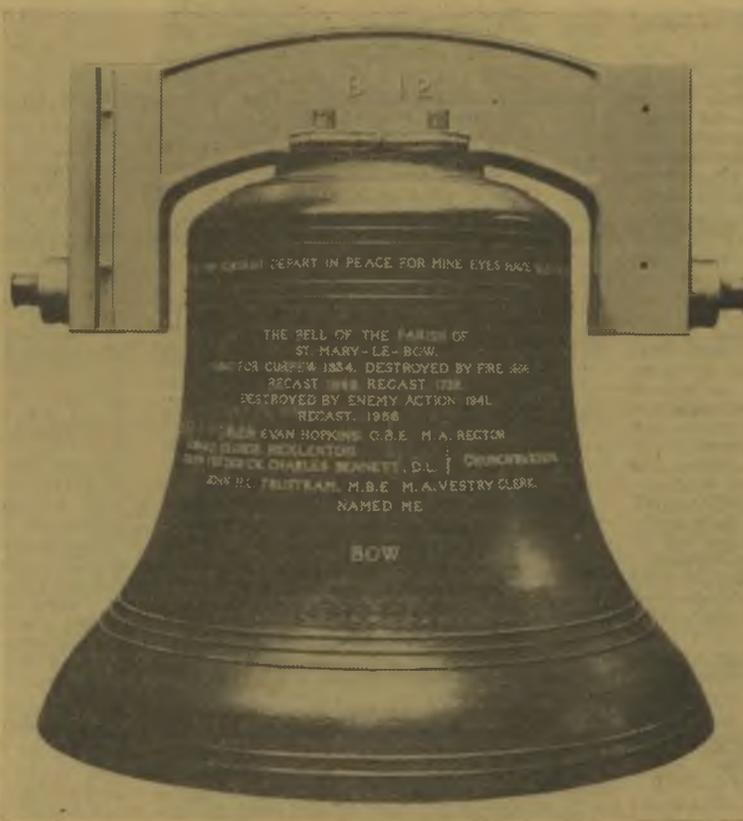

The service concluded with the hymn 'Praise, my soul, the King of Heaven,' and the Blessing pronounced by the Bishop.

Afterwards His Royal Highness and the Lord Mayor, with the congregation, went to the Court of Arches in the crypt, where tea was served. In the tower above a touch of Stedman Cinques was rung, in which Mr. John Chilcott took part. It was during this ringing that the Duke expressed a wish to meet Mr. Chilcott. The Master of the College Youths ascended the tower and took over his rope in an endeavour to complete the touch uninterrupted.

RINGERS PRESENTED

Presented to the Duke by Sir Cuthbert Ackroyd, the chairman of the Bow Bells Appeal Committee, were Mr. Albert Hughes, who had

(Continued on next page)

THE TENOR

The service started with a note of thankfulness by the singing of the hymn 'All people that on earth do dwell.' The singing was led by the Guildhall School of Music and Drama, under the direction of the Principal, Mr. Gordon Thorne.

Prayers followed, said by the Rector, and included one particularly appropriate:—

O God, great architect of the Universe, who dwellest not in Temples made with hands, we humbly offer Thee thanks and praise for all the Benefactors of this Thine ancient House of Prayer; especially for those who have helped us at this time with the restoration of the tower, the steeple and the bells. And we pray Thee to move the hearts of Thy servants one and all to give according to their means that the remainder of this Church may be restored to the Glory of Thy Name. And grant that they who worship here may worship Thee in spirit and in truth, through Jesus Christ our Lord. Amen.

What might well be regarded as the ringers' psalm followed—Psalm 150, sung by the choir. The lesson from 1 Corinthians xiv was read by Ald. Sir Cuthbert Ackroyd, and this was followed by the Advent hymn 'O come, O come, Emmanuel.'

THE DEDICATION

During the concluding verses of this hymn the Bishop and Rector proceeded to beneath

BOW BELLS RING AGAIN—Cont.

previously met: His Royal Highness, Mr. Frederick Sharpe (president of the Central Council) and Mr. John Chilcott.

The problem that exercised the Duke's mind was how the relatively light pulls on the rope in the church could have rung the 42 cwt. tenor. Mr. Hughes explained to him that he was not actually ringing the tenor—the bell was still in its upright position—but the bell was being struck by a clock hammer.

With Mr. Sharpe the conversation related to the activities of the Central Council, which was described as a Commonwealth of bellringers, most of the ringing Societies being members. The British form of change-ringing was explained, and how it was being followed in the great Commonwealths of Canada, Australia and New Zealand, and also outside the Commonwealth in Ireland, South Africa and the United States.

Mr. John Chilcott was rather nonplussed by the first question put to him—the name of the bell he was ringing. He had to admit that he did not know. (The 12 bells of Bow are named Katherine, Fabian, Christopher, Margaret, Mildred, Faith, Augustine, John, Timothy, Pancras, Cuthbert and Bow.) However, he was on very familiar grounds as a composer of Siedman when asked the method being rung. The interviews had that happy informality about them so characteristic of the Duke of Edinburgh's approach to people.

OPEN RINGING MEETING

In conversation with 'The Ringing World,' Mr. John H. L. Trustram, the vestry clerk, said arrangements would be made early in the New Year for an open ringing day to be held at Bow. Another opportunity for the public to hear Bow Bells occurs on New Year's Eve. The midnight service in the crypt chapel is being televised (I.T.V.) and the College Youths will ring for that service.

Bow Bells would be rung for State occasions, he said. He hoped eventually that there would be a Bow Guild of Ringers in the same way as there was a Guild at St. Paul's. For the time being there were no Sunday services. Until their own Guild was formed he was hoping that members of St. Paul's and the College Youths would assist them in their ringing.

The ringers were afterwards the guests of the churchwardens to refreshments at the historic hostelry 'The Wailing.'

YORKSHIRE RINGERS A PLEASURE TO BAKE FOR

When the quarterly meeting of the Eastern District (Yorkshire Association) together with the Selby and District Society met at Goole on December 16th, they were entertained to a Christmas tea by Mrs. J. J. Taylor. Acknowledging the vote of thanks, Mrs. Taylor said it was always a pleasure to bake for the ringers. And there were 50 of them, representing 18 towers.

At the business meeting, presided over by Mr. A. E. Sellers, Miss Barbara Cannerask was elected a new member. York was chosen, if possible, for the next meeting on March 31st.

The Vicar conducted the service, during which he gave an interesting address. Acknowledging the vote of thanks passed to him, he said it was a pleasure to have the Association at Goole, and they would be welcome any time whilst he was there.

J. A. TROLLOPE'S RESEARCH INTO ST. MARY-LE-BOW

An edited extract by W.G.W. from the late J. A. Trollope's MS., history of 'London Ringers and Ringing in the Eighteenth Century.'

THE Church of Our Lady of the Arches is not only famous for its bells, but also for divers accidents happening there hath been made more famous than any other church of the whole City or suburbs. In 1100 the roof was blown off in a mighty tempest and several persons were killed. In 1106 William FitzOsbert, a seditious tailor, took the steeple of Bow and fortified it with munitions and victuals, but it was assaulted and William and his accomplices were taken, though not without bloodshed, for he was forced by fire and smoke to forego the church; he was hanged with nine of his fellows. (John Stow.)

In 1271, a great part of the steeple fell down and slew many people, men and women. The damaged steeple was slowly restored and Bow bell was one of the four appointed to set the time for the ringing of the curfew. In 1472, John Donne, mercer, in his will left two tenements in Hosier Lane for the maintenance of the bell and the ringing. The curfew was the signal that the day's work was over and because the apprentices thought the parish clerk was late with his ringing they called after him—

*'Clarke of the Bow bell, with the yellow lockes,
For thy late ringing thy head shall have knockes.'*
to which the clerk replied—
*'Children of Cheape, hold you all still,
For you shall hear Bow bell rung as you will.'*

The steeple was finished in 1512 and afterwards were added the open arches or 'bows' which supported the central lantern. These 'bows' were built of stone from Caen in Normandy, which cost 4s. 8d. a ton, delivered at the Customs quay. The church is said to have derived its name from these features, so they must have been copied from the old steeple. William Copland, a tailor, was churchwarden in 1515, and gave the great bell, making the fifth in the ring and provided that it should be used for the nine o'clock curfew. It was first rung at his burial.

At the time of the Inventory of Edward VI, the church possessed 'ffve greate bells and two sanctus bells.' These were added to until there were twelve, of which ten were a ringing peal and two the sanctus bells. Church, tower and bells were all destroyed in the Great Fire of 1666. Wren began the new church in 1671 and finished it in 1680. The church cost £8,071 18s. 1d. and the steeple £7,388 8s. 7½d., the total being greater than that of any other of the City churches. The steeple, 231 feet high, was among the finest work of this great architect. Dame Williamson, of Hales Hall, in Norfolk, gave £2,000 towards the rebuilding and the new bells. She also gave £2,620 towards the building of St. Paul's Cathedral.

In 1677, John Hodson, citizen and carpenter of London, and Christopher Hodson, of St. Mary Cray, bellfounders, had orders for eight new bells. The tenor was not satisfactory and in 1738 it was recast by Richard Phelps, assisted by Thomas Lester. This new bell, her founders' masterpiece, the famous old

tenor of Bow, weighed 53½ cwt. In 1758, the parish being of opinion that they had one of the best bells in existence determined to have the others recast and two trebles added. This was done by Lester and Pack, and the new ring of ten was rung for the first time on King George's birthday, June 4th, 1762. Samuel Blackwell, who was Member of Parliament for Cirencester, a College Youth and a great patron of ringing, gave £50.

Two trebles, to make twelve, were added by Mears and Stainbank in 1881, and in 1933 the bells were restored and rehung by Gillett and Johnston. Eight were recast, including the tenor, this fine bell having been found to be cracked in the crown.

The first peal in the steeple was Bob Triples by the College Youths on January 12th, 1731. It was conducted by John Cundell, with three men to the tenor and two to the seventh. Bob Major followed in 1734—the heaviest peal of Major to be rung—and eleven men were still required. After the tenor was recast the first peal was Oxford Treble Bob Major, by ten College Youths, in 1761, and three years later came the first peal on the ten—one of Grandsire Caters. Three men were on the tenor and two on the ninth. For the first peal of Royal—in 1782—two good ringers, Samuel Muggeridge and William Lyford, managed the tenor, but five years later 5,111 changes of Grandsire Caters was rung by ten men only, Philip Pilgrim being at the tenor. These performances were all by the College Youths, but in 1803 the Cumberland Youths rang 5,200 Oxford Treble Bob Royal single handed, and in 1837 they repeated the performance. On this occasion to prove that they were not exhausted they rang a course of Siedman Caters before setting the bells.

The Cumberlands rang the first peal of Stedman Caters on the bells (1808), and the College Youths the first of Cinques (1890) and of Treble Bob Maximus (1907). The College Youths also achieved 6,048 of Kent Maximus, but the longest peal was 7,392 of Cambridge Surprise Maximus by the Middlesex Association, the tenor being rung by William Pye.

Before the war there were tablets in the belfry recording the following peals:

1803	5,200	Treble Bob Royal (Cumberlands)
1808	5,049	Stedman Caters (Cumberlands)
1827	5,200	Oxford T.B. Royal (Cumberlands)
1840	5,079	Stedman Caters (Cumberlands)
1863	5,081	Stedman Caters (College Youths).

LESSONS FROM RINGERS TO CHURCH PEOPLE

At the first meeting of the Eastern District to be held at Great Yarmouth since the restoration of the Parish Church of St. Nicholas, held on December 11th, a peal board, recording the first peal on the new bells, was dedicated by the Rev. A. G. G. Thurlow. The board was the joint gift of the respective Masters of the Yarmouth and Gorleston companies—Mr. Arthur G. Wigmore and Mr. A. Bird. Ringing was supervised by the Rev. Giles Galley in the regretted absence through an accident of Miss Doris Lidbetter, the Ringing Master.

The Rev. A. G. G. Thurlow, who is vice-president of the Central Council, conducted the service and gave the address. Mr. Nolan Golden, president of the Association, read the lesson.

THREE LESSONS

In his address Mr. Thurlow said ringers had three things to teach their fellow Christians:

(1) 'You gain as you give. You get out of ringing what you put into it. If you don't take the trouble to learn to handle properly you are a source of worry to yourself and everyone else for evermore. If you take the trouble you are happy, and in whatever methods you take the trouble to learn, you have the pride and pleasure of ringing. What you don't learn you can't ring. Of course, this applies all through life, but it's surprising how many church folk won't apply it to church. If you learn tunes you can sing them. If you are generous with your time, your money, your work, you can have a living church, if not, you help to kill it and irritate yourself. Everyone knows a happy or a quarrelsome congregation: its people make it what it is.'

(2) You gain as you share. Many Christians are so introverted that they think the building they worship in is the only one they could possibly worship in. If they leave the district they can't get used to a new church; if they don't like the Vicar they simply stay away and never think of going away to another church. If their church falls down they can't possibly worship anywhere else. How different ringers are! Though our first loyalty is to our own church, yet we feel just as much at home in any other tower. It's such a joy at Yarmouth to welcome ringers from Land's End to Scotland at holiday times: there's no suspicion, no jealousy, no narrowness, we just fit in wherever we go. If all church-people would do this, the Church would be transformed.

(3) Simple gratitude. How pleased we are when we find a good ring, well kept, well manned. Here for instance we are grateful to Russell Colman for the bells he gave, and we must ever remember this. If all church folk were as grateful for freedom to worship, for lovely welcoming churches, for hard working organists, choirs, churchwardens, sidesmen, Sunday school teachers, clergy, how different the spirit would be.'

The tea and meeting at a nearby hotel were presided over by the Branch chairman, Mr. E. R. Goate, who was supported by Association and Branch officers. As if to give authority to the meeting in the way the Mace is laid before Parliament, so was Yarmouth's 153 year old Ringers' Jug placed on

the table before the assembled ringers and friends. The jug was presented by the founders, when the original ten bells were installed in St. Nicholas' in 1808. Now on loan to the Borough Museum the jug was brought out to show to the many ringers who had never before seen it and also to mark the fact that that meeting was the first held in Great Yarmouth since 1940, the minutes for which, incidentally, could not be signed until 1945.

The chairman said they were pleased to welcome to the meeting a visitor from Boston and several from Suffolk, also the organist, Mr. B. Angwin, and the Vicar's warden, Mr. W. Ellett.

Mr. Golden expressed the great pleasure everyone felt at being able to meet at Yarmouth again, and on behalf of those present he thanked the St. Nicholas' company for their kindness in subsidising the cost of the tea.

Members expressed their concern at what were referred to as scurrilous attacks by correspondents in 'The Ringing World' as to the alleged character and habits of ringers; it was therefore resolved that Rev. A. G. G. Thurlow's address to them that afternoon be sent for publication.

The 1962 Branch annual meeting will be held at Loddon on February 10th, subject to the usual permission.

Votes of thanks were accorded the Vicar and churchwardens, the organist and the local company for the satisfactory arrangements.

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

Personal.—J. T. Williams 5s., T. J. Thurley 2s. 6d., R. G. Edwards 5s., D. Mottershead 6s., Miss Shirley Rymer 6s.

Peals.—Grafton Regis 2s. 6d., Shipley and Itchingfield 5s. 6d., Rowley Regis 2s. 6d., Cannonock 2s. 6d., Rotherham 5s.

Quarter Peals.—St. Clement Danes' 4s., Long Sutton 3s., Kingswinford 4s., Hereford 4s., Denham 2s. 6d., Cowley 2s. 6d., St. Albans 3s., Netherton 4s., Cardiff 2s. 6d., Solihull 4s., Askerswell 5s. 6d., Malmesbury 3s. 6d., East Coker 4s., Baughurst 7s. 6d., Bradford-on-Avon 3s., Bathford 3s.

OXFORD UNIVERSITY SOCIETY

The annual general meeting of the Oxford University Society of Change Ringers took place in the Old Bursary, New College, on December 5th. The president of the Society, the Rev. C. Elliot Wigg, took the chair. The president and vice-presidents were re-elected, and Mr. Stephen J. Ivin was also elected a vice-president.

The following officers were also elected: Master, J. Pusey (New College); secretaries (joint), Miss C. B. Clayton (St. Anne's), B. Wakefield (Pembroke); treasurer, J. Camp (Jesus); steeple-keepers (joint), J. Cawood (Keble) and R. Crawford (Magdalen).

TWERTON/CORSTON OUTING

A useful afternoon was spent in mid-Somerset by a party of ringers from Twerton and Corston towers on December 16th. At the first tower, Babcarry, Mr. W. A. Prescott and a number of youngsters from Barton St. David met us, and very creditably the young people rang for the first time outside their own tower. Mr. W. Hodges, the local captain, joined in some Grandsire, Siedman and Cambridge.

The bells in the second tower—St. Peter's, West Lydford—are a very good toned ring of six, and Mr. G. Culling, the local captain, made us very welcome. Tea had been prepared for the party at the Village Hall, Barton St. David. The Vicar joined us. Appreciation of the tea was shown by a collection for the bell fund. An hour's ringing on the superb five at the village church followed. Unfortunately the fourth is cracked, but there are great hopes of having it recast and a treble added making a ring of six. Thanks are due to Mr. and Mrs. W. Prescott, for their welcome and the tea, and to everyone who made the trip so pleasant.
A. F. L.

Mr. Alfred Ballard

Mr. Michael E. Brown, of Sapcote, writes regarding 'Personality of the Exercise—Mr. Alfred Ballard' that he rang his first peal at Witherley not Wetherby as inadvertently published and that Stanton has still a very good change ringing band, with five members who have rung peals of Surprise Major. He often hears them ringing Grandsire Triples or Bob Major for Evensong as at Stoney Stanton Evensong starts 30 minutes before the Sapcote service. Mr. Ballard is not now chairman and Ringing Master of the Hinckley District, but has held these offices.

The ringer of the tenor in the peal at Hodnet (page 846) was Michael R. Wycherley and not as submitted.

Mr. Frederick Sharpe has, during the past two months, been asked to advise in no fewer than ten cases of split towers.

THE SMITHS

THE STORY OF A RINGING FAMILY

By I. N. QUICK

JOE SMITH, head ringer of Hexworth Parish Church, was sitting by the kitchen table ostensibly 'doing a bit of paper work' connected with his business. He removed the pencil from between his teeth and tapped them thoughtfully with it, then, considering that his whole attention was apparently riveted on the bill-head in front of him, made the rather surprising announcement!

'Should be able to get young Bill his first 720 o' Cambridge tonight!'

'Yes, if he doesn't miss his 3-4 places again, I suppose.'

This qualification was made by Annie, his wife, who with Phyllis, their daughter, was busy tidying up after tea. Neither of them were affected by Joe's industrious application to the aforementioned bill-head, for this was Wednesday, and Wednesday night was practice night. Mrs. Smith knew little about the Laws of the Medes and Persians, except that Mr. Greensmith, the Vicar, was frequently referring to them in his conversation (and sermons) as 'unalterable,' but she felt sure that compared with the rigidity of the rules and strictures connected with practice night these Laws would appear as a set of frivolous regulations.

Some surprise might have been occasioned to anyone not quite familiar with the Smith family that the above qualification had been made by Mrs. Smith at all, for she was the only non-ringing member of it. (John, the son, was busy in another room finishing off his homework.) It was seldom, however, that she got her ringing terms wrong; daily contact with them for a quarter of a century had made them as familiar to her as the technical jargon connected with her husband's workshop, not 40 yards from the back door: 'whole turns and 3-4 dodges' were as much part of her speech as 'mortise and tenons' and 'rip-saws and jack-planes.'

Secretly, Joe was rather proud of this peculiar accomplishment of his wife, but he realised that the natural and spontaneous manner with which Annie discussed ringing matters often came as a surprise to others, and she would often talk to non-ringers as though they should be as familiar with bellringing, and bellringing terms, as she herself was.

He smiled to himself as, his thoughts running on these lines, he remembered the time when Mrs. Greensmith, the Vicar's wife, on meeting them both in the street, had asked Annie if last Saturday had been a success. She was, no doubt, referring to the 'beetle drive' held to swell church funds at Mrs. Walsh's, a pillar of the Mothers' Union, but Annie's thoughts had immediately flown to the peal attempt at the local church. Her reply must, therefore, have been somewhat surprising to the good lady.

'No, Phyllis went wrong although her dad warned her to be careful; when he tried to put her right she didn't seem to understand. There are some queer places in London, you know!'

The Vicar's wife may not have known a great deal about ringing, but she was fortunately familiar with her husband's parishioners, and quickly realised that the conversation was at cross-purposes.

Phyllis finished the chores with a flourish. Always efficient in work or in play, Joe had nevertheless been surprised at the rapidity with which she had become a competent ringer. At thirteen years of age she had rung the treble like a veteran, when they had won the contest at Shadow, in the face of fierce opposition, fitting into the team at short notice, when 'Old George' had suddenly been laid low by his old enemy—bronchitis.

'I'll ring the treble, dad!' she had said when the message had arrived from George, ten minutes before they were due to go up to the tower. He had hesitated. Shadow bells were notoriously difficult—a long draught and odd-struck too. Still it would be good practice for her; give him the opportunity, he remembered thinking, of pointing out afterwards some of her shortcomings.

'It's a bit short, dad,' she had said as she tried her bell.

'Shall I let it out for you or will you have a box?' he had asked.

'Oh, I'll have a box, please.'

In fact she had two.

She had looked very young, he remembered, perched up there with her two pigtails tied with red ribbon.

He looked at her now. A fine, handsome girl—not pretty, he reflected, too much like her father for that—but with character and personality. That she liked her work he was well aware, Josiah Beriram, land auctioneer and valuer, was a person of some importance in Hexworth, but the fact that he was also Vicar's warden meant that Phyllis, who was his shorthand typist and confidential secretary rolled into one, was also the channel through which information flowed both ways between the Vicar and his ringers. Joe was pleased, too, with the way things had turned out between Henry and her.

Henry had worked as an apprentice to Joe since he left school at 15, and now, at 23 years of age, he was as fine a craftsman as any in the district. He had started learning to ring about the same time as Phyllis, although he was a couple of years older. They were thrown together a good deal, both in the belfry and out, and it was no surprise to anyone when they started 'walking out' together.

Joe glanced at the clock: it was half-past six. Practice began at seven, but Joe always liked to be in good time. He got up and cleared his things away.

'What time will John be coming down?' he asked.

'Oh, fairly early. He says that he hasn't a lot of homework to do tonight,' answered Phyllis.

Joe grunted his satisfaction. He liked to have John around on practice night: he was such a 'useful' ringer. Destined, Joe had no doubt, for university, he brought a keen brain and sharp intellect into the belfry. Joe enjoyed also the long discussions that often took place at home after the actual ringing was done, when the whole Smith family joined in.

It was not far to the church: about 10 minutes' walk. Joe was the first to arrive. He paused just inside the church door to knock down the main switch, for although it was light enough now it would, in this late September evening, be too dark to see properly in the belfry by the time the practice ended. He unlocked the belfry door and climbed the steps.

At the top Joe opened the ringing chamber door and pushed aside the curtain that was draped on the inside, the purpose of which was to exclude from the belfry the gales which in winter and rough weather howled up, or down, the spiral staircase outside. It is to be remarked that in the performance of this function the curtain was only partially successful and in particularly severe gusts sufficient surplus air whistled under the door and round the edges to cause the curtain to billow out the belfry making ringing on the second bell, which was immediately in its path, a hazardous occupation on these occasions.

The chamber boasted two narrow windows on the south and west sides respectively, with jamba splayed inwards to ensure a maximum diffusion of the light that filtered through the diaphanous panes. The west window being the one that for ventilation purposes was supposed to open and occasionally did, and by virtue of this being more susceptible to draughts than its partner, had a curtain of similar material, which could be drawn across for the same purpose to that of the door curtain.

In this latter respect it was about as effective.

Seats ran round the north and east sides and the walls were panelled to a height of 5 or 6 feet, above which the stonework was white-washed. Fastened to the north side panelling

was an Ellacombe chiming frame, through which passed a solitary rope; appearing from a hole in the matchboard ceiling above and disappearing through a similar hole in the uncovered floor below (or vice versa, if you like), it was, in fact, a chiming rope for the fifth bell that could be tolled from the church below. Peal boards of various shapes and sizes were displayed on the walls, and two enormous coats of arms, painted on canvas and attached to wooden frames, were incongruous looking relics of a bygone era, of which none now knew the families who were once the proud possessors or ever took the trouble to find out.

In addition to the six normal bells of the tower there was a warning bell in one corner that could be rung from below by pulling a cunningly concealed wire, which made the bell (about 3 inches diameter) dance and wriggle on a coiled spring with a frighteningly diabolic clatter that had caused many a visitor to miss his sally. 'Old George' was fond of telling the story of the time he was ringing in a peal when, in the 6th 720, the bell began to ring. They ignored it. Perhaps it would stop. But no! on it went writhing and twisting, and bobbing and jerking, its terrific clangour making the voice of the conductor almost inaudible.

Still they went on ringing—so did the bell! Doubts began to enter their minds: perhaps someone was ill, perhaps the church was on fire!

They looked at each other and then at the conductor. The striking, which had hitherto been excellent, began to totter, ringers began to make mistakes. It was almost impossible to hear, it was certainly impossible to think. The inevitable happened and the conductor called, 'Stand!'

With muttered oaths and imprecations they dashed down the belfry steps and unlocked the door. There stood the 'new' parson, inducted a few weeks before, staring wonderingly at these wild-looking men pouring through the doorway.

'Good afternoon,' he said. 'I wonder if you would care to come to the Vicarage for a cup of tea when you have finished ringing?'

George doesn't tell us what was said to the parson, nor, in fact, whether they accepted his invitation; what he does say, with a good deal of emphasis, is: 'Parson never made that mistake again!' In another corner the 2 feet diameter earthenware flue of the heating system thrust its way to the top of the tower. There was a towel roller near the door, which had never within living memory served any other purpose than a repository for rags and dusters.

(To be continued)

MEMORIAL PEAL BOARD DEDICATED AT ASHTON-UNDER-LYNE

Advantage was taken of a joint meeting of the Lancashire Association and the Chester Diocesan Guild, at Ashton-under-Lyne on November 18th, to dedicate a peal board, recording a peal of 5,056 Londonderry Surprise Major rung on February 11th, to commemorate the 50 years as captain of the St. Peter's band of the late Mr. W. W. Wolstencroft; and of his wife's 30 years as a ringing member in the tower.

The dedication was performed by the Vicar, the Rev. David Sutcliffe, after Evensong, in the presence of many who had known Mr. and Mrs. Wolstencroft. Unfortunately, Mrs. Ida Hawkins, daughter of Mr. and Mrs. Wolstencroft, the donor of the board, was unable to be present.

In a tribute the Vicar stated: 'The board will remain in the belfry as a permanent record of appreciation to two very faithful friends and workers of St. Peter's Church who, between them, produced a joint total of no less than eighty "ringing years" at this church, as well as being solid supporters of church, Sunday school and P.C.C.'

The peal board was made by Mr. James Brooks, of Windsor, a ringing friend of the late Mr. Wolstencroft, and the beautiful gilt lettering was executed by Mr. T. A. Gosling, of Windsor, a brother of another old ringing friend, Mr. Ernest Gosling, of Boyne Hill, Maidenhead.

OBITUARY

MR. GEORGE BENNETT

Mr. George Bennett, of Otley, Suffolk, died in the Walnut Tree Hospital, Sudbury, on December 11th, in his 82nd year. Early last year he went to Bures to live with a daughter and son-in-law, and last October, when almost blind, entered Bury St. Edmunds Hospital for the removal of cataracts. One eye was operated on and then another bodily ailment overtook him, for which he was moved to Sudbury Hospital, but became too weak to operate on and soon after passed peacefully away.

The funeral service was at Otley Baptist Church on December 15th, and he was laid to rest in the grave beside his wife and youngest daughter; he was a widower for more than 19 years. George recently expressed a wish that the Rev. G. H. Taylor, Rector of Otley (himself a ringer), would assist at his funeral service. This was readily agreed to and graciously carried out in conjunction with pastors of Otley and Bures, at a beautiful and impressive service. Representing the Suffolk Guild were Mr. L. G. Brett, Ringing Master, and Mr. F. J. Crapnell, of Grundisburgh. The same evening Mr. Brett arranged and conducted a half-muffled memorial peal at Helmingham as a last token of respect.

George was called up for World War I and landed in France after only ten weeks' training, and while on active service was four times wounded and badly gassed; the latter impaired his health and he was never completely rid of it.

Born at Ashbocking on March 21st, 1880, he was taught to ring at the age of 24, on the bells in his native parish, when they were augmented from two to six. Several years later he moved to the adjoining parish of Otley and became one of the Helmingham band, which rang regularly on Sunday mornings and practice nights. He also rang at Otley on Sunday evenings, and was 33 before

ringing his first peal (Treble Bob Major at Helmingham).

Throughout the 1930's the Helmingham Sunday service band (in which G. B. and son were included) helped to make ringing history with peals in new methods. Besides the standard and others, 46 different Surprise methods were rung, the great majority for the first time and several at the first attempt. Thirty years ago this was considered pretty good going. His 200th peal was London Surprise at Helmingham, and this was also his son's 100th and first peal as conductor. His total was 282. Minor, 1 to 7 methods, 39 (conducted 1); Triples in 4 methods, 22; Major in 50 methods, 219; Royal in 2 methods, 2. His last (with a long gap previously) was Minor at Otley on October 31st, 1952. Reluctantly taking part owing to eye strain, he remarked, 'I expect this will be my last peal.' It was so. Rest in peace.

MRS. T. H. TAFFENDER

We regret to report the death of Mrs. T. H. Taffender, at the age of 75 years. As was reported recently in 'Belfry Gossip' - Mrs. Taffender had undergone an operation in King's College Hospital. She failed to respond to subsequent treatment and passed away on December 10th.

The funeral at Streatham Park Cemetery was attended by her sons and daughters and their families. Mr. H. W. Rogers was present, representing Mrs. Rogers and the London County Association of Ringers. Mr. T. H. Taffender was unable to attend, owing to being in hospital, but photographs were taken in the chapel and during the committal, for showing to him later.

It is now the 49th consecutive year that Mr. Taffender has held office as Master of the London County Association.

50 YEARS AGO

'R.W.' December 29th, 1911.—

An unusual accident has occurred at the great Bernese penitentiary. Witzwill, a young convict, was charged to ring the bell of the chapel. Suddenly the ringing ceased, the bell had fallen down. The convict was instantly killed, and his mutilated body was completely covered by the fallen bell.

Geese and ringing have been plentiful at Grantnam this Christmas. A local gentleman has presented each of the fifteen ringers and probationers of St. Wulfram's Church with a goose, to mark his appreciation of the progress made in change ringing during the past year. We have no doubt there are many other towers where similar treatment would not be discountenanced by the ringers, should it come their way.

'At Croydon, Surrey, three leads of Kent Treble Bob Major. A. J. Perkins, 1-2-3-4, T. Groombridge jun. 5-6-7-8.' Such is one of the miscellaneous performances sent in for publication. It make one begin to wonder what is the limit in method ringing.

EDITOR: T. W. WHITE.

Fifty years ago this month the well known bells of St. Andrew's Church, Stratton, Cornwall, were dedicated by the Archdeacon of Bodmin. An anonymous donor gave £400, and the chimes were the gift of Dr. John King, of St. Cyprian's. The net cost of the bells and their erection was about £600.

The ten bells at Ewerby, Lincs. are unringable, owing to the dangerous state of the tower.

Mr. Clifford Skidmore, of Brierley Hill, Staffs, rang his 500th peal at Sutterton, during Mr. Geo. E. Fearn's Lincolnshire tour.

It will be noted that Mr. Ralph G. Edwards turned in the tenor of St. George's, Bristol, to a peal of Plain Bob Major. We await our Somerset correspondent's comments.

Stanmore's (Middlesex) youngsters honoured the retirement of Mr. E. J. Leversuch from the Post Office after 47 years' service, with a quarter peal on Stanmore bells. The compliment was much appreciated.

Our Christmas front page article that appeared in our last issue was contributed by the Rev. Peter T. Robbins, Vicar of Lower Halstow, near Sittingbourne. Readers will join with us in expressing our thanks to him, and also to our other front page contributors.

Weobley Church, Herefordshire, held an auction sale and whist drive to raise funds for new bellropes. The Girl Guides organised the event, with Major P. G. Verdin in charge of the sale and whist drive. With donations £41 was raised.

Mr. George E. Symonds was back again ringing Maximus at St. Mary-le-Tower, Ipswich, on December 16th, for the wedding of his grandson. It was his 98th peal of Maximus, and although now 86 years he is looking forward to his 100th. Mr. Les Brett, the popular Guild Ringing Master, has now 'circled the tower': this was his first peal there for 31 years. On the treble was young Neville Whittell, who only started peal ringing this year and rang very well. As a coincidence his elder brother did exactly the same two years ago.

BELFRY GOSSIP

Grafton Regis, Northants, is losing Mr. George Atkins who, on retirement, is leaving the village. During the 15 years he has lived there he has served as captain of the ringers, sidesman and churchwarden, and was a keen supporter of the Tpwcester Branch. He took part in a peal in honour of his 65th birthday at Grafton Regis on December 8th. The band who rang wish him a very happy retirement at Collingtree, near Northampton.

Back again peal ringing is Mr. C. Ernest Smith, of Godalming. He stood in a peal of New Cambridge Surprise Major at East Meon.

The three quarter peals rung at St. Albans and published in 'The Ringing World' of December 15th were rung at St. Stephen's Church and not St. Peter's.

The band that rang in the peal at Biddenden, Kent, on December 16th, would like to thank Mr. S. G. Waters for having all in readiness and entertaining them to tea after the peal.

The Misses Grace and Katherine Burchnell, of Sutton-on-Trent, Newark, have their own special record. At South Anston, Yorks, on December 9th they each rang their 300th peal and they were all rung together.

Might we make a suggestion? Will those who want a practical method of showing their appreciation of 'The Ringing World' please send their postal subscriptions without delay to Mr. Jeater.

In honour of the dedication of Bow Bells Miss J. S. Armstrong played 'Oranges and Lemons' on the Ellacombe chimes at Morpeth Watch Tower. 'As I played the last line, "The big bell of Bow," I felt that a long dream had come true,' she writes.

A quarter peal is recorded this week that was rung at Hereford to mark the installation of Canon R. P. Price, of Christchurch, Hants, as Dean. Hereford has in its new Dean a sincere friend of ringers, who took part in a number of functions of the Christchurch District of the Winchester and Portsmouth Diocesan Guild.

RAYLEIGH, ESSEX.—On Dec. 3rd, 1,280 Cambridge Surprise Major: P. Coward 1, M. Sinden 2, Miss J. Rowe (first in method) 3, F. May 4, W. Ellis 5, R. Tomlin 6, A. House 7, M. Hallett (cond.) 8. For Evensong. Also on Dec. 10th, 1,280 Kent Treble Bob Major: W. Ward 1, G. Sandwell 2, M. Sinden 3, F. May 4, E. Blower 5, R. Tomlin 6, M. Hallett 7, A. House (cond.) 8. For Evensong.

ROMFORD, ESSEX.—On Dec. 7th, 1,344 Spliced Triples (Grandsire, Oxford Bob, St. Clement's): C. Wright 1, M. Hallett 2, F. Gant 3, M. Sinden 4, G. Sandwell 5, R. Tomlin 6, A. House (cond.) 7, A. Salisbury 8.

RUSHALL, STAFFS.—On Dec. 12th, 1,260 Minor (720 Cambridge, 540 Plain Bob): Lucy Allen 1, Marlene E. Jones 2, Ann Barr 3, B. J. Townsend 4, J. B. Webb 5, C. M. Smith (cond.) 6. Rung prior to Evensong, by members of the Lichfield Cathedral Sunday service band, with their good wishes to Miss Jill V. Morgan, of Lichfield, on the occasion of her recent engagement.

ST. ALBANS, HERTS.—On Dec. 9th, at St. Stephen's Church, 1,272 Norwich Surprise Minor: P. Atkinson 1, Christine Rimmer 2, Celia Bland 3, Alison Macfarlane 4, D. Fellows 5, P. Felts (cond.) 6. First quarter in method by all and first of Surprise for a) except 4. For evening service.

SALISBURY, WILTS.—On Dec. 10th, at St. Thomas' Church, 1,260 Stedman Triples: Miss M. R. Page 1, Mrs. I. A. Abrahams 2, Rev. R. Keeley 3, H. H. Abrahams (cond.) 4, J. E. Daniels 5, E. C. Read 6, L. A. Page 7, E. J. Doel 8. Rung in memory of Rev. E. Farrow and for Evensong.

SHERBURN-IN-HELMET, YORKS.—On Dec. 6th, 1,440 Kent Treble Bob Minor: F. Edkins 1, P. Coyle 2, K. B. Sissons (cond.) 3, A. Sheppard 4, R. R. Warford 5, J. Potts 6. First of Treble Bob for 1 and 2.

SOLIHULL, WARWICKS.—On Dec. 3rd, 1,260 Grandsire Triples: W. Leeson 1, C. Dale 2, T. Warner 3, V. Rigg 4, E. C. Shepherd 5, P. D. Warren (cond.) 6, C. Bragg 7, T. Hayward 8. For Evensong.

STANMORE, MIDDX.—On Dec. 3rd, 1,260 Plain Bob Doubles: K. Richman 1, V. Kant 2, A. Kett 3, S. White 4, B. Matthews (cond.) 5, L. Petchey 6. First quarter 1, 2 and 6. Rung to mark the retirement of Mr. E. J. Leversuch, after 4½ years with the Post Office.

TOTTERNHOE, BEDS.—On Dec. 17th, 1,260 Plain Bob Triples: Christine Smith 1, F. Cook 2, Mrs. J. Sinfield 3, J. Scott 4, J. L. Cloughton 5, A. G. Stripp 6, J. W. Sinfield (cond.) 7, D. Edwards (first quarter) 8.

TWYNING, GLOS.—On Nov. 12th, 1,260 Grandsire Doubles: Christine Halling 1, M. Hawkes (cond.) 2, Anne M. Broxton 3, E. W. Penn 4, Albert Halling 5, Arthur Halling 6. Rung half-muffled for Remembrance Sunday.

WARMLEY, GLOS.—On Dec. 2nd, 1,260 Plain Bob Minor: Gloria M. Newton 1, Myra J. Wilkins 2, H. Taysom 3, A. F. Lee 4, I. G. Smith 5, A. W. Gibbs (cond.) 6. Rung as a welcome to the new Vicar, the Rev. R. Pearce.

WARSOP, NOTTS.—On Nov. 26th, 1,320 Plain Bob Minor: M. Bennett 1, R. Bullivant 2, F. Cooke 3, R. Lucas 4, F. Flint 5, M. Foster (cond.) 6. For Evensong. Also on Dec. 3rd, 1,440 Plain Bob Minor (one 720 each of '2nd Hunt' and '4th Hunt'): Miss A. C. Rooke (first quarter) 1, F. Cooke 2, M. Foster 3, H. T. Rooke 4, J. T. Rooke (cond.) 5, G. Challans 6. Rung for Evensong on Advent Sunday. Also on December 10th, 1,320 Bourn Surprise Minor: F. Cooke 1, J. T. Rooke 2, M. Foster 3, R. Lucas 4, F. Flint 5, H. T. Rooke 6. For Evensong.

WICKEN, NORTHANTS.—On Nov. 26th, 1,260 Grandsire Doubles: C. E. Truman 1, T. E. Roberts 2, D. Burbidge 3, G. E. Green (cond.) 4, J. Linnell 5, G. Foddy 6. For Evensong.

WCOO GREEN, LONDON.—On Dec. 16th, 1,440 Plain Bob Minor: Miss W. Whiaker 1, Miss J. Spreadbury 2, M. Rowe 3, C. Aldridge 4, A. Spreadbury 5, H. J. Hazel (cond.) 6. Rung for the birth of a daughter to the wife of the ringer of the 5th.

A REVIEW OF MINIMUS

By GEOFFREY DODDS

(Continued from page 859)

APPENDIX

1. PLAIN METHODS—SINGLE HUNT

There are eleven single-hunt, plain Minimus methods possible, eight of which are based on Bob methods and three on Court methods. (C.C. Handbook page 25.) Only three methods are Regular (E. Methods, C. (2) page 23) and these are in the first group.

A Plain Bob	B Reverse Bob	C Double Bob
1234	1234	1234
2143	2143	2143
2413	2413	2413
4231	4231	4231
4321	2431	2431
3412	4213	4213
3142	4123	4123
1324	1432	1432
1342	1342	1423

'Plain Bob' can be considered as a contraction of Oxford Bob. 'Reverse Bob' as a contraction of College Bob and 'Double Bob' as a contraction of St. Clement's Bob or Double Oxford Bob.

The remaining Bob methods are all irregular, since they include progressive places (i.e. Kent Places) instead of dodges and so require three blows in succession at lead or lie when the treble is not at the front or back.

D	E	F
1234	1234	1234
2143	2134	2143
2413	2314	2413
2431	3241	2431
4231	3421	4231
4213	4312	4213
4123	4132	4123
1432	1432	1432
1423	1423	1342

G	H
1234	1234
2134	2134
2314	2314
2341	3241
3241	2341
3214	3214
3124	3124
1324	1324
1342	1342

Some of the names of these are open to question, believe it or not. One would have thought that such simple patterns would have been easy to identify correctly. One hopes that the Methods Committee will give an authoritative decision in these cases before any more wrong names are used. These are the names used for the above methods:—

D St. Martin's.—Named in a peal at Randwick, Glos. on 3-5-61, this being the name used by P. B.-Knights in his article ('R.W.' October 11th, 1957, page 660). This method is nothing like St. Martin's Double (C.C.C. III(a) 13), in which the 1-2 places are made right. It is surely a contraction of Reverse St. Nicholas' Doubles (C.C.C. III(a) 7), and is in any case the reverse of Method H above. The error can be corrected if the band who rang the peal so wish and the conductor publishes this in a letter to 'The Ringing World'. (Geoffrey K. Dodd did so with two methods in the first peal at Newtown.) So, Mr. Drew, if you agree to this, we await your correction of the name. Until then, as Mr. F. T. Blagrove has informed me, the wrong name must stand. (Incidentally, it is also a contraction of St. Alphege Bob, C.C.C. Doubles III(a) 36.)

E Reverse Canterbury Pleasure Bob.—This was originally named Newtown Place in the peal at Newtown, Hants. on 1-10-59, but was soon changed by the conductor, Geoffrey K. Dodd, on the advice of Alan Pink. This is the name used by P. B.-Knights and in the peals at Wapley, Glos. (24-4-61), and Randwick, Glos. (3-5-61). Mr. F. T. Blagrove claims that this is incorrect and should be Shipway's

Place Bob. Reverse Canterbury Pleasure on all numbers is Plain Bob with progressive places in 3-4 instead of dodging. (cf. C.C.C. Doubles III(a) 19.) Shipway's Place on all numbers is plain hunting below the treble and backward hunting above the treble, the linking places being made immediately above the treble. This gives 2nds place at the lead end and three blows behind as the treble approaches or moves from the back. (cf. C.C.C. Doubles III(a) 29.) I do not know which is right, but if the latter, then all three conductors, or at least the first, G. K. Dodd, would have to agree to the alteration.

F Canterbury Pleasure Bob.—Names in the peal at Randwick, Glos. (3-5-61). This name is that used by P. B.-Knights and the method is a contraction of C.C.C. Doubles III(a) 14, C.C.C. Minor, 'Plain' No. 12, etc. As with Method E, the name could well be Reverse Shipway's Place Bob and would be a contraction of C.C.C. Doubles III(a) 38, etc.

G Double Canterbury Pleasure Bob.—Named in the same peal at Randwick (3-5-61), and also by P. B.-Knights. There are only irregular even-bell extensions of the method. For the same reasons as before, it could be named Double Shipway's Place Bob. It is also a contraction of St. Hilary Bob or St. Gregory Bob, C.C.C. Doubles III(a) 27, 28.

H St. Nicholas' Bob.—This was originally named Canterbury Place in the peal at Newtown, Hants. (1-10-59), but, as with Method E, was soon changed on the advice of Alan Pink. This is the name used P. B.-Knights and in the peals at Wapley (24-4-61) and Randwick (3-5-61). It is a contraction on method C.C.C. Doubles III(a) 17, i.e. dodging in 1-2 with 3rds and up below the treble and Reverse Canterbury Pleasure above. It should be noted that it is also a contraction of Westminster II Bob, C.C.C. Doubles III(a) 25.

Incidentally, it is of interest to note that many methods in the C.C. Doubles Collection do not conform to the Central Council Decision for Regular Methods, E(2) b, and so, presumably, should be excluded in any record length of 6,720 changes and upwards. These are the three Court methods.

I	J	K
1234	1234	1234
2134	2143	2134
2314	2413	2314
3241	2431	2341
3421	2341	2431
4312	2314	2413
4132	2134	2143
1432	1243	1243
1342	1423	1423

I Single Court.—Named in the peal at Randwick (3-5-61). This is the same method as P. B.-Knights' 'Court Bob' and it should be noted that it is the same as a conventional Bob course of Grandire.

J Reverse Court.—Named in the peal at Randwick (3-5-61)

K Double Court.—Named in the peal at Randwick (3-5-61).

These last three have the disadvantage of six blows at lead or lie, as in a touch of the irregular method Grandire Minor or Major. The last two were not mentioned in P. B.-Knights' article

2 LITTLE ALLIANCE & TREBLE BOB METHODS

If the Central Council Decisions on Minor and Doubles are applied to Minimus, the Little and Alliance methods given by P. B.-Knights will be unpealable, as they cannot splice to form single extents. For what they are worth, however, it should be noted that 'New Gainsborough Little Bob' (treble to 3rds, 2nds place lead end) is a contraction of F. T. Blagrove's 'Ashford Little Bob Doubles', named in a peal, I believe, and 'New Little Bob' should be renamed our old friend, 'Bastow Little Court' (treble to 2nds, far place lead end).

Grouped with these methods, producing 'double extents' are Treble Bob methods. Oxford and Kent Treble Bob are two obvious methods, but variations on these are:—

Oxford T.B. with 3rds at the half-lead, 2nds at the lead end, which is called Duke of Norfolk Treble Bob.

Kent T.B. with 3rds at half-lead, 4ths at lead-end .. 3rds 2nds

Reverse Kent T.B. with 1sts at half-lead, 2nds at lead-end .. 3rds 2nds

Double Kent T.B. with 3rds at half-lead, 4ths at lead-end .. 1sts 2nds 3rds 2nds

All of these could have each bell in turn in place of the treble.

(To be continued)

NOTICES

Scale Of Charges

Meetings: 3/6 (minimum) for 30 words, afterwards 1/4d. a word. Each additional insertion half charge.

Other Notices: 4/- (minimum) for 36 words, afterwards 1/4d. a word.

Displayed: 7/6 per single column inch.

No guarantee of insertion after Monday, first post.

PERSONAL

'... The whole earth is full of His glory.' —Isaiah vi, 30.

NORTHERN UNIVERSITIES

The third Northern Universities' meeting was held on December 9th at Leeds, when the attendance was very good in spite of bad weather. Universities represented were Manchester, Sheffield, Durham, Liverpool and Leeds (hosts). Ringing began at St. Chad's, Far Headingley, at 2 p.m., and ranged from rounds and call-changes to Cambridge and Bristol. This superb eight, with its large ringing room, was very much enjoyed. St. Michael's, Headingley, was open from 3 until 5 p.m. It was rather a squash to get everyone into the ringing room, but some good ringing took place, including Spliced Surprise.

After a short break for tea, we were met by Mr. Dove at the parish church, and good use was made of the 12 until 7 p.m. Touches of Cambridge Royal and Stedman Cinques were rung, as well as rounds for beginners.

We thank the incumbents and tower captains of the three towers visited for their extremely friendly and helpful co-operation. W. J. C.
