MR. FREDERICK BRUNNING

The funeral service took place at the Church of SS. Peter and Paul, Eye, Suffolk, on Maundy Thursday, of Mr. Frederick Brunning, who had been steeple-keeper for many years. He died on March 26th, aged 77, having been in indifferent health for about six years. Nevertheless, it was not until about a year ago that he relinquished the post of clock winder.

On page 174 of 'The Ringing World' of March 12th, 1954, may be seen a fairly full list of the towers in which he worked for over twenty years on hanging, frame building and tower strengthening as an employee of George Day and Sons, bellhangers of Eye—firm now defunct. It shows that he went to 15 counties to do this work.

As a ringer he was primarily a service man. His peals numbered but twelve and he had not rung one since July 16th, 1922—half-muffled at the death of Frederick Day.

He rang in a peal of Plain Bob Major at Eye in 1906, 'a funeral peal' for Dr. J. J. Raven, the Suffolk bell historian, and he was the sole survivor of the band.

On February 20th, 1954, a quarter peal of Plain Bob Minor (Robert E. Lester conducting) was rung on Eye bells for Fred's 70th birthday, and for his golden wedding on May 18th, 1957, a peal of Spliced Surprise Major (conductor Nolan Golden) was rung—the first Spliced Surprise on the bells.

Canon Rea (Vicar) officiated at the service, and the organ was played by David Jones, one of the local ringers. Other ringers were present amongst the congregation.

What might be termed the shadow of George Day and Sons was provided by the four occupants of a pew—Miss Ella Day and Mrs. Dorothy Penson (daughters of Frederick Day). Mrs. Hubert Day, whose husband was one of Frederick's sons; and Mr. Penson, Dorothy's husband.

Mrs. Brunning, the widow, was present with her two sons—William and Frederick; she has tolled the tenor at Eye many times for funerals when that custom was live.

OBITUARY

MR. A. J. BEES

The death occurred on March 17th, at Clevedon Hospital, of Alfred John Bees, for many years captain of the ringers at the Church of St. John-the-Evangelist, Clevedon. He was a member of the choir for over 50 years and also served as a sidesman.

A large and representative congregation attended his funeral at St. John's on March 22nd, the service being conducted by Fr. Torrance, sometime Vicar of Frome, in the absence of the incumbent of the parish through illness. That evening, ringers from the parish church (St. Andrew's) rang half-muffled touches on the five bells at St. John's.

Alf Bees was a plumber by trade, a familiar and well-liked figure to everyone in the town, and by his death the church has lost a faithful son, a regular and devout worshipper with his family, and one who had the interests of the church very much at heart. We give thanks to God for his example. We pray to God for his soul, and we commend to God his widow and family at this time. E. G. C.

LATE OBITUARY NEWS

We regret to learn of the death on April 6th of Mr. A. F. Martin Stewart, of Ferrdown, who was Master of the Salisbury Diocesan Guild from 1910 to 1913.

Mr. Ernest Marriott, of Wymondham, Leics, died on April 1st. Took part in many peals in Yorkshire and Lincolnshire in his younger days.

Mrs. Harrison, mother of Mr. S. Harrison, Leicester, on April 8th, aged 79.

On April 1st, at Bishopstone, Mr. Joe Durham, aged 68.

MARHAMCHURCH, CORNWALL.—On March 20th, 1,260 Grandire Doubles: Mary Medland 1, Lesley Sherwin 2, E. Ford 3, R. J. Hicks 4, C. E. Taylor (cond.) 5, F. J. Fry 6. A farewell to F. J. Fry, secretary of the tower and a ringing member for 24 years, on his leaving the parish.

The reason for no bells at the funeral was that the eight are still at the Whitechapel Foundry for general overhaul, the founders having been waiting for definite orders. It is sad to think that Fred will not be with us when his bells are rehung and rededicated. He had lived with them all his life. But it is hoped that the work will be finished by the end of this year. Work on the repair of the old frame is to begin on May 9th.

C. R.

MR. ALBERT J. LINTERN

His many friends in Ditcheat and in other parts of the country will learn with regret of the passing on March 23rd at St. Peter's Hospital, Shepton Mallet, of Mr. Albert James Lintern, aged 82 years.

Albert, although never having practised method ringing, will be remembered for his mastery covering with the tenor for many peals by local and visiting bands. He started ringing in 1901, under the captaincy of Thomas Vincent, at Ditcheat, and continued until he was forced to retire, due to ill-health, in 1957.

As well as being a keen ringer, Albert was a faithful church worker, being verger and sexton at St. Mary Magdalene's Church, Ditcheat, from 1917-1955. To commemorate his loyal service, a plaque was placed in his regular seat in the church on his retirement.

Interment took place at the Parish Church on March 28th, where handbells were rung at the graveside by Miss Beryl D. Mundy and Mr. David M. C. Hill, of the local band, and Messrs. H. F. Creed (Castle Cary) and W. Osborn (North Cadbury).

'Well done, thou good and faithful servant.'

Congratulations to Mr. Edward Jenkins on ringing his 1,000th peal. The happy occasion was at Worsley on March 25th—one of London Surprise Major, conducted by Mr. John Worth. His list of peals should make interesting reading.

Two Wallington boys, Charles Adam and Robert Cartridge, rang in a quarter peal of Plain Bob Minimus on March 23rd.

The new Master of the Gloucester and Bristol Association is Mr. Albert Bennett, secretary of the City of Bristol Branch.

The footnote to the peal rung at St. Paul's, Walkden, Lancs (page 214), was to honour the promotion of Mr. Arthur Burton to serving officer in the Order of St. John.

The Editor blushes:—'For one so relatively uninformed in our art, you handle "The Ringing World" very well.'—A congratulation from a Co. Durham reader.

Mr. K. G. Spavins, of Woburn, inquires whether there would be enough support for a reprint of the first issue of 'The Ringing World.'

David Hilling, of Slough, celebrated his 15th birthday by calling his first quarter of Stedman at Stoke Poges without any hesitation or trips and at his first attempt.

'Walter Ayre: his eyes glow, with the love of his art.' What a delightful caption to his photograph that appeared in 'The Observer' when John Stobbs wrote entertainingly on bellringing in his 'Leisure for Living' series. The material for his article was obtained from a ringing meeting at Wheathampstead, where Frank Ivory, head gardener at Rothamsted Agricultural Experimental Station is head ringer.

Interviewed by John Stobbs, Walter Ayre said he wanted no half-muffled ringing for his passing. 'When your time is finished here it should be an occasion for rejoicing. I've told them down at Apsley that if they ever ring half-muffled for me, I'll come back and haunt them!'

BELFRY GOSSIP

Fifty years ago (on April 17th, 1911) the record length peal of 12,240 Kent Treble Bob Maximus was rung at Ashton-under-Lyne. The band consisted of Charles Bower 1, George Garnett 2, Joseph Mellor 3, Samuel Wood (composer and conductor) 4, James Wood 5, Walter Wolstencroft 6, Benjamin Thorp 7, Benjamin Gill 8, Samuel Booth 9, Albert Adams 10, Harry Chapman 11, James George 12.

Among those who had No. 1 of 'The Ringing World' was Major J. Howard Freeborn, of Sunnymede, Oxford, who is now 73 years of age.

The secretary of the Gloucester and Bristol Association has a silver cross and chain, which was found in Moreton-in-Marsh churchyard last Saturday. Will the owner please claim it from Mr. C. Rouse, Brookfield Lawn, Brookfield Road, Churchdown, Glos.

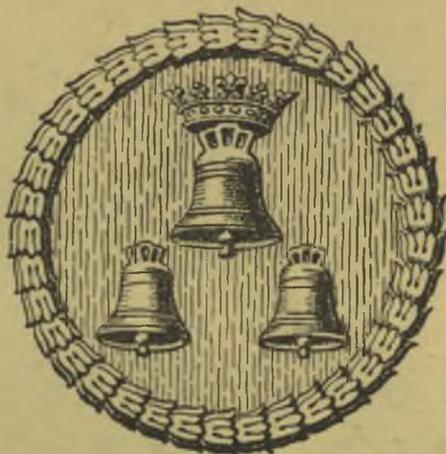

With the quarter peal at Droitwich on Palm Sunday, Mr. Robin Skerratt made a return to ringing after a spell in hospital. Hopes are entertained that Mr. Walter Raxter will soon be in action again. He is the third Droitwich ringer to be silenced recently, the fashion being started last summer by Paul Cattermole, after a cycle accident!

The members of the Bath and Wells Diocesan Association, from their annual general meeting, sent their congratulations to the editor and staff on producing such an excellent Golden Jubilee number. Thank you all very much. There are still copies of this issue for sale.

When H.R.H. Princess Margaret, as president of the Church of England Youth Council, paid an informal visit to Harpenden on April 6th, Miss Ann Smallborne, as representing the Harpenden tower, was presented to her. Later, at Hemel Hempstead, other ringers were presented to H.R.H., including Mr. W. C. Hughes, president of the Hertford County Association. A quarter peal attempt at Harpenden unfortunately came to grief after some good ringing.

MR. ALFRED H. WINCH and MR. GEORGE MARRINER,
Guildford Diocesan Guild and Surrey Association.

Every Association has some towers within its boundaries, where those who want to progress can be sure of a welcome, and an opportunity to practise something which they cannot ring in their own belfry. Such a tower in Surrey is Leatherhead, and Messrs. A. H. Winch and G. Marriner have both been Sunday service ringers at this tower for close on 60 years. They have seen the local band progress from Grandsire Caters to Cambridge Royal, and the bells have always been rung twice a day for most Sundays. Their story is mainly the history of Leatherhead ringing and it is fitting that they should be taken together.

George Marriner was born on August 5th, 1883, at East Peckham, Kent, moved into Surrey in the late 1880's, and came to Leatherhead in 1892. A plumber by trade, he was taught to handle a bell by Alfred Winch, in October, 1903, and who rang in his first peal on November 5th, 1904, being Grandsire Triples at Ashtead. He has rung 288 peals in various methods, including 12 different Surprise Major and Royal, and conducted one peal of Bob Major.

Having no ambition to be a conductor, he became interested in composition, both peals and methods. He learnt quite a lot from Snowdon's Treble Bob, and also corresponded with the late George Baker, of Brighton, but in 1926 he admits he got rather a shock when Gabriel Lindoff produced his wonderful system, whereby he could turn out 278.828 peals of London, each with the 6th 12 courses at home at the course-end, in various lengths of 5,024, 5,056 and 5,088 changes! However, he has composed several musical peals for various Surprise methods, including Ashtead, Cobham and Leatherhead, all three being rung for the first time. Regarding the peal of Cobham Major, after the peal had been rung in April, 1947, at Ashtead, the band could not decide what to call it. However, someone had a happy idea, and it was named Cobham in memory of William James, captain of Cobham ringers, who died a few weeks earlier. Painswick and Cobham Surprise Royal were rung for the first time at Leatherhead, and indeed regarding the latter, the only peal. This is quite a difficult method, and would test the skill of any 10 bell company.

A peal of which George is very proud was one of Stedman Triples rung at Christ Church, Epsom, about 1908, at the finish of which the late Dr. A. B. Carpenter stepped into the circle and said, 'Gentlemen, that was

a peal of Stedman.' Another more recent peal was Cambridge Royal at Leatherhead on November 6th, 1954, to celebrate the 50th anniversary of his first peal, Alfred Winch again taking part.

For the last 25 years George has been captain of his local band, and his friendly welcome to all visitors, whether beginner or more advanced, puts them quite at ease. Many well-known Southern ringers have been initiated into Surprise ringing at Leatherhead, and have just cause to thank George for his unflinching helpfulness and courtesy.

'AS JOLLY AS EVER'

Whereas George Marriner has been of a retiring disposition, Alfred H. Winch ('Winchy' to his many friends) has always been noted for his keen sense of humour, and a fund of stories. Although he was born on March 21st, 1880, at Acton Green, Middlesex, being now 81, he is still as jolly as ever! Leaving school before he was 13, his introduction to bellringing was somewhat unusual! He can remember hearing St. Paul's Cathedral bells in December, 1886, and was first attracted to ringing in 1894, through reading articles by A. H. Browne in the then popular 'Church Monthly.' He had no encouragement from the local ringers at Weybridge, where he lived from 1890-1902, but whilst on a 'brass-rubbing' expedition in 1897 he met some ringers at a Middlesex Association meeting at Isleworth, and was told to take the 'Bell News,' thus taking a ringer's paper before learning to ring! He attended several meetings, and eventually, at a meeting at Monken Hadley, Middlesex, one Saturday in 1898, he was told that if he lived there he could learn to ring. By the Wednesday morning, he had got a job at Barnet—he has been a house decorator most of his working life—and was taught to handle a bell by William Dell. In February, 1892, he came to live at Leatherhead, being still only in the 'tenor-behind' stage, but within three months he was ringing 'inside' to Grandsire Caters. He soon mastered the standard methods, but beyond this he had to travel to get practice in Surprise methods, mostly to Beddington and Guildford. His first peal was on July 12th, 1902, at Ashtead, the tenor to Stedman, conducted by Challis F. Winney, the band including Alfred Pulling, Charles Hazelden and James Hunt.

In company with George Marriner, he agitated for years to break through the rut of continuous odd-bell ringing. Eventually they

got Bob Major for every practice, to the disgust of the numerous 'tenor-men' only! In 1920, Albert Harman came to live at Leatherhead, and with his enthusiasm and ability as a Surprise conductor they advanced locally beyond all their expectations. Alfred has taken part in 351 peals, on all numbers from 5-12 bells, including a dozen different Surprise methods. Of these he has conducted 44, including Grandsire Caters, Plain Bob and Treble Bob, and mostly called from a working bell.

In 1912 he was one of the umpires to the long peal of Stedman Caters on handbells, rung at Holy Trinity, Guildford. He well remembers this peal as, missing the last train, he decided to walk home! Feeling tired he rested under a haystack at Clandon, and woke up to find it pouring with rain, and rats for company! He then came back on the milk train from Clandon, and arriving at Leatherhead looking rather dishevelled, was greeted by several good natured jibes by his friends, as to where he had spent the night! He took part in 11,200 Double Norwich at Hackington, Kent, just before 1910, but he thinks his most satisfying performance was to ring a peal of D.N. at Weybridge, in 1954, 60 years after he had been discouraged from learning to ring there!

Both these fine old gentlemen served their country in the First War. George Marriner visited Mesopotamia, and Alfred was in the Labour Corps on Home Service, 1916-19 (no stripes and no medals, he says!). They are both very good strikers, and have had a lot of enjoyment from peals, tours, and meetings, but the chief object of their long ringing life together has been loyalty to the Sunday service band, at the tower which encouraged them to improve their ringing in their early days, after what seemed, from Alfred's point of view, a hopeless struggle before. These two worthies have gained the respect and friendship of many South Country ringers, and everyone will wish them continued good health in the eve of a long career.

KENT COUNTY ASSOCIATION ANNUAL SECRETARY AND AN INADEQUATE SUBSCRIPTION

TO receive the 81st annual report and conduct the annual business of the K.C.A., Kent ringers, numbering some 200, went to Maidstone on Easter Monday. There were some who even made the journey by motor scooter. Resplendent with Easter flowers, Maidstone Parish Church looked beautiful at service time. The new Vicar (Canon N. K. Nye) conducted the service and gave an address. The lesson was read by Mr. John Willis.

Attending the service and also the luncheon at the Corn Exchange was the Mayor of Maidstone (Cclr. Arthur H. Clark), who gave to the assembly a civic welcome. Six years ago, when the K.C.A. last held their annual meeting at Maidstone, Cclr. Clark was Mayor, but he assured the gathering that he would not be Mayor when they came there six years hence. He recalled his choirboy days at Boston, when it seemed to him that then the main qualification of a change-ringer was 'to knock back' a pint of beer.

JUBILEE ISSUE

As is usual on these occasions, Mr. John Willis was in the chair. He welcomed the Mayor and also the Editor of 'The Ringing World.' Mr. Willis had a word of congratulation for the Editor and 'The Ringing World' Committee over the Jubilee issue of 'The Ringing World.' ('A very fine number considering that it only appeals to a small, select and wise body of people.') Nevertheless, he found that that number contained some gems of information—a fine historical article by E. A. B. on ringing papers, and another on Mr. P. A. Corby, now a Kentish man and one of their finest conductors.

Mr. White replied, and mentioned the help he had received from many people over the Jubilee issue. His work was largely that of a co-ordinator. Copies of the Jubilee issue were still available.

LOSSES BY DEATH

The annual report was presented by Dr. E. S. J. Hatcher (hon. secretary), and the company stood as he announced the names of those members who had died: Messrs. F. M. Mitchell, of Milton-next-Gravesend, a vice-president who had also served as general secretary, treasurer and peal secretary; A. C. Whiting (Ospringe), Mrs. M. Gatehouse (Canterbury), both life members; Messrs. W. Weller (Teynham), J. Hurrell (Eltham), W. J. Henniker and E. J. Shoebridge (both of Charing), R. Affleck (Aylesford), L. J. Honess (East Peckham), Miss M. Scoones (Borden), Mrs. A. Taylor (Milford-next-Gravesend).

Also with regret was recorded the loss of non-resident life members: G. Gilbert (Burnham, formerly Rainham), C. W. R. Grimwood (Mitcham), J. Parker (Caister-on-Sea), J. R. Sharman (Cogenhoe) and A. D. Stone (Brighton).

'Each week in 1960,' stated the report, 'The Ringing World' contained a biographical sketch of a ringing personality from the pen of Jafus (the convener of the Editorial Committee, Mr. Smallwood). Included in this series were four members of the Kent County Association—Mr. John Willis, Mr. E. Barnett, Mr. E. A. Barnett and Mrs. E. A. Barnett, all of whom have and are serving the Exercise well.

'I think 1960 both ended an epoch and witnessed the stirrings of new enthusiasms. We symbolise this by introducing today a colourful new membership certificate, designed in open competition by a young member, Lawrence Mitchell, and beautifully produced by Alec Waddington on his Egerton Press.'

SUBSCRIPTION HINT

'Let this also be a moment of challenge. We are apt to be complacent about the Associa-

tion's assets of some £1,200. In fact they have for many years been artificially pegged at this figure by restrictive spending. The value of our reserves are worth less than one-third their pre-war value, and this wasting away of our assets will continue unless we boldly face the challenge. Before any other steps, our subscriptions ought to be increased sharply. Surely we value a year's membership more than a single visit to the cinema!'

The report was adopted on the proposition of Mr. Peter Carter, seconded by Mr. Cheal.

Mr. B. W. May, in presenting the accounts, said that on the income and expenditure account their balance had increased from £151 to £171, which was accounted for by the fact that last year they bought no badges. From the Belfry Repair Fund grants of £15 each had been made to Sellindge, Great Chart, Kildown and West Malling, and £5 to Cliffe-at-Hoo. The Belfry Repair Fund had a balance of £304 10s. 10d. (last year, £266 19s. 3d.). There had been no requests for grants from the Benevolent Fund.

At the committee meeting that morning he called attention to their expenditure. That morning they had only a balance in hand of £150, and he was committed to spend during the next seven weeks over £70.

Mr. Arthur Richards (hon. auditor) said he noticed in the audit that some District secretaries had been selling brooches and reports at less than the price. Some reports were sold at 2s. instead of 2s. 6d. and brooches at 3s. instead of 3s. 6d.

In reply to Mr. C. T. Hillis, Mr. May said he had had no acknowledgment from Great Chart of the donation of £15 sent to them.

The report was then adopted on the proposition of Mr. May, seconded by Mr. Cheal.

MORE PEALS RUNG

The peal secretary's report for 1960 stated that 140 peals were rung for the Association during 1960, 34 more than last year. The increase could be accounted for to some extent by two royal events and the visit of the Central Council to Folkestone at Whitsun; two peals were rung for the birth of a second son to H.M. the Queen, four for the wedding of H.R.H. Princess Margaret and Mr. Antony Armstrong-Jones, and six were arranged for Council members.

Two peals were rung outside the county, one of these being the only handbell peal of the year. A peal of Cinques was rung in both the 12-bell towers. Twenty-six members rang their first peal, eight more than last year. There were 33 conductors, two more than last year, and two members were conducting a peal for the first time. The peal secretary (Mr. Ian H. Oram) headed the list of conductors with 22, followed by Messrs. P. A. Corby with 19 and Crawford T. Hillis and Ralph Bird with 14 each.

London Surprise Royal was rung for the Association for the first time, as were Double Dublin and Wembley Surprise Major, and Spiced Surprise Major in 11 methods. The peals at Chislet and Thanington were the first on the bells, those at Birchington and Sellindge the first since restoration, and peals had been rung at Rochester Cathedral since the installation of the new frame. One peal worthy of special mention was that at West Malling on July 2nd, in which all the band had been members of the Association for 50 years or more.

In addition to the peals rung in the county by the Association there were six peals—five

for the Cumberlands and one for the College Youths. The adoption of the report was moved by Mr. Oram and seconded by Mr. P. A. Corby.

ELECTION OF OFFICERS

Arising from the election of the president, the Archbishop of Canterbury, Mr. P. A. Corby said in view of his retirement at the end of May, ought they to consider electing for the remainder of the year the Archbishop of York.

It was explained that the election was of the Archbishop of Canterbury and not of the individual.

The officers were then re-elected as follows: Hon. secretary, Dr. E. S. J. Hatcher; peal secretary, Mr. I. H. Oram; hon. treasurer, Mr. B. W. May; trustees, Messrs. F. S. Macey, G. H. Spice and J. Willis; extra members of the committee, Messrs. E. Barnett, G. J. Butcher, P. A. Corby, E. J. Ladd, A. S. Richards (hon. auditor), A. J. Russell and T. E. Sone.

The presentation of the new certificates followed, and among the recipients was Lawrence Mitchell, the designer of the certificate, who was heartily applauded as he went forward to receive his certificate.

It was announced that the annual dinner this year would be held in the Ashford district at Tenterden, the arrangements being in the hands of Miss V. Relf.

ARCHBISHOP'S RETIREMENT

The chairman said the retirement of Dr. Fisher as Archbishop was announced at the committee meeting, and the question of some presentation was mooted. Following a letter from Mr. E. A. Barnett, the committee decided that they would ask the Districts to make a contribution to the fund which had been formed to make a presentation to the Archbishop, and that the General Fund of the Association would round up the sum to £15 15s. when the contributions were received. Contributions would have to be received before June 15th.

The vote of thanks was proposed by Mr. P. A. Corby, who mentioned the Vicar of Maidstone for taking the service and permission to ring, the incumbents and local ringers of churches open, Mr. Reg Sills, the secretary of the Maidstone District, Dr. Hatcher and Mr. John Willis.

Replying, Mr. Willis said during a fairly long life he had held several positions, some with responsibility, but the one he thought he had enjoyed most was being their chairman, and he hoped he might be long spared to do so. His wife, who was now practically a helpless invalid, sent her kind regards to those members of the Association she knew.

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

STOWMARKET BELLS: MAJOR OVERHAUL

Dear Sir,—Stowmarket, Suffolk, has been notably absent from your peal and quarter peal columns for some time, the reason being that these famous and historic bells are in need of overhaul. We just manage to keep them going for short touches on Sundays and for weekly practices, but the physical effort of anything longer is too great.

The last rehang was by the late Alfred Bowell in 1894, being his first major job, and it is to his credit to say that the present condition of the bells is only the result of fair wear and tear. The bells themselves are a mixed lot, there being no two of the same date and only two from the same foundry. There were five in 1461, but only one, the fourth, now remains in its original form and, happily, is sound.

Reports show that the bells require rehang on metal headstocks and ball-bearings, wheels, etc., to be renewed or rebuilt, the bells tuned and fitted with new clappers and eighth- or quarter-turned. The second, which is a soft bell, needs recasting, also the fifth, which has been mutilated by unskilful tuning (?) and is still a poor bell. It is understood that the work will cost between £1,100 and £1,200, and when completed the bells will be in good order for—generations to come. What a lovely expression!

Now we are not a wealthy parish, and in any event have been faced with heavy expenses for church repairs. Although, therefore, I feel that there will be a good response to the appeal which is about to be launched for funds, additional help will be welcomed. May I, sir, through the courtesy of your columns, invite my many ringing friends up and down the country, particularly those who have had the pleasure of ringing these bells to peals, and any others who may feel generously disposed, to send me a donation.

All amounts, great or small, will be thankfully received and faithfully applied.—Yours faithfully,

OLIVER G. BARNARD.

DOUBLES VARIATIONS

Dear Sir,—The following variations were introduced in a peal at Wychbold on March 29th. Unless they have been previously rung and named, we would like to name them as in the peal report:—

Plain Course.—Reverse Canterbury, calls Grandire Singles and R.C. Bobs, named Wollaston Rev. Canterbury; with R.C. bobs and All Saints' plain leads, called Oldswinford. Plain Bob plain leads substituted for R.C. plain leads in Oldswinford gives Windrush. In Wollaston to give Salwarpe, called PBPS repeat twice (four callings, care being taken to start correctly with different callings).—Yours, etc.,

P. CATTERMOLE.

Droitwich Spa.

PARODIES—BAD TASTE

Dear Sir,—Are we alone among your readers in objecting to the recent appearance in your columns of parodies of the Ten Commandments and a Psalm? At the risk of being thought lacking in a sense of humour (which we are quite content to leave to the judgment of our friends), we consider such things to be in the worst possible taste.—Yours faithfully,

O. D. BARNETT.
E. A. BARNETT.

Note.—We have also received another protest, not to the body of 'The Psalm' but to the last two verses.—Ed.

PEAL RINGING SHOULD BE LIMITED

Dear Sir,—May I be allowed, through the medium of your paper, to air a grievance which I have nursed for some time, namely, excessive peal ringing.

First, let me make it clear. I enjoy ordinary odd peal ringing for a special public occasion, such as a royal wedding, or to enable a young band to score a peal. But when people ring two or three peals in the same week, often ringing methods which they and the rest of the band have rung to peals on countless previous occasions, I, and others I'm sure, really 'see red.' There is no virtue in these performances and they are rung, more often than not, so that the participants can increase their peal totals.

Also, I cannot understand ringers who attempt these long lengths, often disturbing and generally annoying the public for any length of time up to 24 hours. They are always rung for the sake of the length itself, except in one case—the attempt made last year by Stephen Ivyn and his band, which reached 28,000 changes. Stephen called 'Stand' because he felt that otherwise the performance would be second best, and because he was aiming at quality not quantity. I have no quarrel with him and in fact congratulate him on his sound judgment and masterly ringing, qualities possessed by a very few.

Lastly, the Exercise is full of Spliced Surprise Maximus ringing snobs, who look down their noses at Doubles bands. To the former I say that their performances are no more worthy, and to the latter, especially the odd 5-bell tower which I know and admire, I say keep it up!

Anyway, why can't these peal-mad fools go and man some of the silent towers on Sundays, and they would then, and only then, become of value to our art.—Yours faithfully,

JOHN PLADDYS.

A Peal Is Lost

Miss Daphne Brown, of Sleaford, tells this story. 'About a third of the way through a peal attempt at Great Hale, Lincs, on March 18th, a rumbling was heard, then a voice shouted "Bob, go rounds." On looking up one could see the face of the clock winder peering down through a hole in the ceiling.

'Despite the notice on the door he had gone to wind up the clock. The ringing continued until the clock winder came down and said, "Are you going to stop? I thought you might like a rest!"

'Sounds funny, but at the time the band didn't think so as the peal was lost.'

SOUTHREPPS PLEASURE DOUBLES

Dear Sir,—The claim to the first peal of Southrepps Pleasure Doubles at Marston on March 4th is six years too late, as this was rung at St. Martin's, East Woodhay, on August 23rd, 1955, for the Winchester and Portsmouth Guild.

Also, first peals in the method for the Guild were April Day Doubles at Woolton Hill, Hants, on June 15th, 1954; Reverse Canterbury Doubles at Goodworth Slatford, July 11th, 1954; Place Bob Doubles at Midgham, Berks, July 29th, 1954; and London Doubles (a variation of Grandire) at Tanglely, Hants, December 16th, 1956.—Yours, etc.,

GEOFFREY K. DODD.

PEAL COURTESIES

Dear Sir,—You will no doubt shortly receive notice of a peal which was rung at St. James' Church, Sutton, on March 25th.

As tower leader of that church, I had no knowledge that such a peal was to be rung nor do I yet know who conducted it or who took part in it. I have spoken to the Vicar about it—he was equally surprised that a peal had been rung during the afternoon though, like myself, he had known that the bells were to be rung during the morning at the wedding of two local ringers.

I can only conceive that the peal was rung by visiting ringers as a wedding compliment to the two members of our tower. I am glad that such a compliment was paid, especially since my own duties as president of a large professional organisation compelled me to be away that day at its annual general meeting.

I regret, however, the very grave discourtesy which was offered by the way in which the peal was arranged and rung. All visitors to our tower are always given the warmest of welcomes, and had I known of this peal my wife—a ringer for 27 years—would have given those taking part in it the usual welcome. We should, too, have given a special check to ropes, etc.

If we as an Exercise cannot observe the proper courtesies in arranging peals then the availability of bells for such purposes will suffer. Should youthful enthusiasm lie behind the present incident, a courteous amend would solve the problem.—Yours faithfully,

Sutton Lane End,
near Macclesfield.
C. LAWTON.

DEDICATIONS ARE NEWS

Dear Sir.—From time to time you have asked your readers to suggest ways and means of making 'The Ringing World' more interesting and therefore of greater appeal to a wider circle of readers.

Different opinions have been expressed in regard to the reports of meetings, which are published from time to time. Some readers like them, other do not; but I have not seen any expressed criticism of reports of bell dedications. We are all interested in bells, and yet I think there are many instances of augmentation of existing rings or the provision of new bells which are never reported by you.

For example, the current issue of 'The Church Times' carries the report of the restoration of three old bells and the provision of three new ones at Barwick-in-Elmet, near Leeds. We may yet see a report of the dedication service and details of the bells, but I want to make the point that this is not the first time I have brought my 'Dove' up to date by means of information culled from other newspapers. Moreover, an intelligent study of the peal footnotes, notices of meetings and the reports of ringing outings sometimes brings to light the odd augmentation which was never reported at the time.

I feel it would increase the value of 'The Ringing World' if we could have a better 'bell intelligence service.' Guild or District secretaries must know about these events, but we have to assume that it is no one's particular job to send a report to 'The Ringing World' and your readers are the poorer in consequence. I wonder if it would be possible for a news service link to be established between 'The Ringing World' office and the Bell Foundries, etc. In this way advance information could be given through your columns of forthcoming services of dedication, together with accurate details of new bells. We could still have our reports of the services at a later date, but if for some reason they were not forthcoming at least we should have known of the existence of new bells.—Yours sincerely,

Oxford.
ALAN R. PINK.

Note.—We always welcome reports of dedications, even if only briefly given.—Ed.

SECOND RINGING COURSE AT GRANTLEY HALL

ENCOURAGED by the success of the 1960 course, the Adult Education Committee of the West Riding County Council agreed to include a course in 'The Art of Bellingringing' in its 1961 programme. Although the number of students attending was fewer than in 1960, some 24 persons assembled on Friday evening, March 17th, for what proved to be a most interesting, profitable and pleasant week-end.

Grantley Hall is a large Georgian house, built by the Norton family; before it passed into the hands of the County Council it was during this century the home firstly of the Furness family and later of Sir William Aykroyd, Bart. Nestling in the wooded valley of the River Skell, the house is splendidly equipped and breathes the atmosphere of tranquillity and gracious living characteristic of the country life of the 18th century.

It was not inappropriate that our party of ringers should share the hospitality of the Hall with members of the Department of Philosophy of Leeds University. It is the practice of the authority to arrange that the two parallel courses held at any one time at the Hall are on widely divergent subjects. Last year ringers fraternised with Irish country dancers, many of them killed; this year we found ourselves discussing KANT at one end of the dining table whilst the philosophers discussed KANT at the other end. The writer began to find himself during the course wondering if the philosophers could express any views about the falseness of KARL MARXIMUS. We had with us a real, live and genuine professor, possibly a kinsman of the writer. Late on Saturday evening we rang handbells and sang, thereby discovering that although the professor could 'chant' he was not able to 'dodge.'

Our students ranged from some who had never seen a bell rung to some capable of ringing London Surprise Major. This diversity of interests tested the versatility of our two lecturers, Mr. Norman Chaddock and Mr. Wilfrid Moreton; their response was complete, adequate and above all, lively. The wide range of subjects dealt with in a very limited space of time included bell control, bell maintenance, change-ringing on handbells, conducting, method structure and composition. Armed with an adequate number of handbells, film-strips, tape-recordings, diagrams, books and handouts, our lecturers made full use of every minute of lecture time. A very competent and charming additional tutor was found in the person of Miss Susan Chaddock who, at short notice, undertook to give instruction to those desiring an introduction to tune ringing on handbells.

On Saturday morning a small party of beginners was taken to the nearby church at Winkley to receive practical instruction in bell handling. The church, in the tiny moorland village of Winkley, was built in 1917 by members of the Furness family; it occupies a commanding hilltop site and is, in the writer's opinion, a perfect village church. The substantial stone tower contains four fine bells by Taylors in a loft large enough for a good light ten. These bells are hung for ringing in a straight line frame, and when a return was made to this tower on Sunday morning for a lecture by Norman on bell and belfry maintenance these bells were rung in changes, ending with an extent of Double Bob Minimus.

A NORTH YORKSHIRE CUSTOM

During Saturday afternoon some of the party travelled to Wath, some ten miles from Grantley Hall, to ring on the light six and to provide the ringers for a local wedding. At this wedding a North Yorkshire custom was witnessed in which the newly-married couple were held to ransom by the tying up of the church gate, and were only released after the bridegroom had thrown a handful of coins to the waiting village children.

Meanwhile the remainder of the party visited the Church of St. Andrew, Kirkby Malzeard. This church, severely damaged by fire in 1906, had been most tastefully restored and possesses a fine-toned ring of six bells, recast from the metal of a rather moderate ring. We received a cordial greeting from the very active octogenarian Vicar, who expressed his regret in being unable to join us in a course (he learnt to ring at Ripon Cathedral some 40 years ago).

Touches of Plain Bob, Oxford and Cambridge Minor and Grandsire Doubles were rung before the party left in the college bus to join the other section of the party at Birstwith.

Standing on a hillside, the 19th century church at Birstwith possesses a grand light eight rung from the ground floor. Touches of Little Bob Major, Plain Bob Major and Stedman Triples were rung and, appropriately in this lovely Yorkshire dale, a course of Yorkshire.

After a picnic tea, a return was made to Grantley Hall for a lecture and evening meal before we again took to the road, this time to visit Ripon Cathedral, where the fine ring of ten was available until 9 p.m. Stedman Caters, Bob Major, Little Bob Royal and a course of London were rung, together with rounds for the novices, and some of the uninitiated climbed to the roomy bell loft to see the bells in action.

It was pleasing to find a small boy and a small girl joining the party at the Cathedral, and these two lively youngsters created some astonishment in the mind of one lady, as yet a non-ringer, when they told her proudly that they were two of seven children, all under 14 years of age, who are at the present time receiving instruction in the Cathedral tower.

RANGING THROUGHOUT THE BAN

The ringing ended with the curfew at 9 p.m. at Ripon; the curfew is rung each evening, and at the same hour the city hornblower sounds his horn in the Market Place. The latter custom has been carried out since Saxon times, and it is interesting to note that the ringing of the curfew was continued on a temporary but consecrated bell when the ring was removed for recasting in 1932. Furthermore, the custom continued when the wartime ban on ringing was imposed. The then Dean of Ripon, loath to abandon an old custom, asked the local inspector of police if there would be any objection to the continuance of the custom with the curfew bell muffled. The inspector replied: 'It depends on whether or not I hear anything.' Although the Court House is less than a hundred yards from the Cathedral, the inspector remained obligingly deaf.

Before lectures on Sunday morning the ringers, together with some members of the resident staff, attended a short service in one of the lecture rooms. Four of the company rang a good course of Grandsire Triples on handbells, a student played the piano, and a ringer who is also a diocesan reader conducted the service. The volume and quality of the ringing was much above the generally poor average of ringers' services. The recently-published New English Bible was used at this service, and it was interesting to find that this new publication was much discussed by the ringers during the week-end.

After tea on Sunday the course ended: reluctantly the party dispersed, with a few staying a little longer in the district to assist in the evening ringing at Ripon Cathedral. Through the medium of 'The Ringing World,' we would like to express and record our thanks to the permanent staff at Grantley Hall for their kindness towards us, to the lecturers for their preparatory work and excellent lectures, and to the president of the Yorkshire Association of Change Ringers who travelled specially from Leeds to welcome and dine with the party on Friday evening.

One question must be answered: Are such ventures worth while? The writer would answer in an emphatic affirmative, because (a) it created an interest in the art and Exercise amongst some hitherto outside ringing circles, (b) it helped some go-ahead young ringers to increase their knowledge and to learn something about imparting such knowledge to others, (c) it gave those interested in the question of teaching the art of ringing an opportunity to exchange ideas, and (d) it helped to increase the good spirit that exists amongst the goodly fellowship of ringers.

HESTON, MIDD.—On April 2nd, 1,260 Grandsire Triples: P. Smith (first quarter) 1. J. Sansom 2, Miss P. Smith (first 'inside') 3. P. Ruch 4, G. W. Golding 5, C. Wratten (cond.) 6, J. Moore 7, S. Porter 8. For Evensong.

PRACTICAL SERVICE—BY SOME ITINERANT RINGERS

We referred in a recent issue to the reply of the Rev. John G. M. Scott in 'The Church Times' to a letter from Mr. G. R. Hall, of Stapleford, Cambridge, suggesting that a levy should be imposed on itinerant bellringers.

The services of the itinerant ringer are very well publicised in the following letter that appeared in 'The Church Times' of March 30th, from Mr. Frank Lewis, of Reading, who is hon. secretary of the Reading Branch, O.D.G.:—

'As a keenly "itinerant" bellringer, I was very interested to read Mr. Hall's recent letter on levies for bellringers in "The Church Times." However, I should like to clear up one or two points that might mislead the non-campanological.

'It is just these itinerant ringers in many cases who keep the bells from complete dereliction. If there is no local band of ringers at a tower the belfry soon becomes full of all manner of rubbish, the ropes get rotten, and the bell chamber becomes full of birds' nests, often to a depth of four or five feet. This is where the itinerant ringers come into their own. This is a challenge. Armed with brooms, oilcans, greaseguns, spanners, torches and even old bellropes, they spend hours of their spare time putting things in order again—a job which would cost a tidy sum if done by professional bell-hangers or even the local odd-job man.

'I won't say that all ringers are this way inclined: they are not. But I know of quite a few instances where this has been done, and I have myself been on several of these expeditions. I have visited some 1,000 towers up and down the country, and in quite a few cases the bells are only ringable by virtue of hard work put in voluntarily by visiting ringers. So you see that quite a number of us do in fact pay for our "visitations."

'I don't think there are many P.C.C.'s that actually pay for their bells to be rehung, etc.; in most cases it is the local ringers who organise all kinds of activities to collect the £ s. d. One village I know not only organised dances, whist drives and carnivals, but made a colour film of the proceedings, which was shown to the villagers, who again paid up to see themselves on the screen.

'As to Diocesan Associations' reactions to appeals for money towards expenses of rehanging, etc., I should just like to mention that the Oxford Diocesan Guild (to name but one) has over £1,100 in its Bell Restoration Fund for just this purpose, and any tower affiliated to the Guild is at liberty to apply for a grant towards repairs. £115 being paid out in this way in 1959. My own Branch has its own separate fund of £80-odd, and grants are made in the same way on a smaller scale. As far as I know, most diocesan and county Associations have such funds to a greater or less extent.

'Finally, we certainly do not always get permission to visit towers. While most incumbents are extremely co-operative in this respect, we have on quite a number of occasions been told that bells are unringable when it is known for a fact that they are ringable. The result of this sort of thing can result in nobody visiting the tower for years at a stretch, during which time fabric and fittings do in fact deteriorate, often to the point where the only person who can put things to rights is the professional bell-hanger—charging very professional rates.

'So please, Mr. Hall, not a levy on bellringers!'

LADIES MEET AT IPSWICH

Fourteen ladies met at St. Margaret's Church, Ipswich, to discuss the revival of the Eastern District of the Ladies' Guild. Several others had offered their support although they were unable to attend the meeting. All those present decided that they would be willing to help re-establish the District, and Mrs. C. W. Pipe, a member of the Guild, offered to nominate them as members as the next meeting of the Central District.

It was arranged that the next meeting be held at Higham on June 10th. Ringing followed the meeting and ranged from rounds to Cambridge Major, thanks to the assistance of a few gentlemen. Special thanks must go to the incumbent and to Mr. J. Munnings for the use of the bells.

THE PLACE OF BELLS IN THE LIFE OF A PARISH

The Rev. G. C. Taylor, president of the Middlesex County Association and London Diocesan Guild and Rector of St. Giles-in-the-Fields, London, preached at the rededication of the bells of St. Mary's-on-the-Hill, Harrow, on March 25th. Those who have to meet with criticism of the ringing of church bells will find the observations of Mr. Taylor most helpful. The address was as follows:—

'Speak one to another, every one to his brother, saying Come, I pray you, and hear what is the word that cometh forth from the Lord.' (Ezekiel xxxiii, 30.)

A restoration of anything connected with a church is a great occasion. But the restoration of the bells of a parish church is especially so. The bells of a church are to my mind not less important than its altar or its pulpit, for the bells are concerned with the extension of the work of that church. They are missionaries.

I often wonder what the sound of church bells means to those who hear them but do not attend the service to which they summon. It is so easy for Christians to be inward looking, just maintaining a status quo, without the adventure of going in search of the lost sheep. Therein I always think lies the greatest thrill of a clergyman's life and a Church Council's work. It is so easy, in either case, to settle for just joggling along; and every incumbent knows how difficult it is to keep on the P.C.C. agenda items which concern the extension of the Church's work rather than fabric and finance.

Bells must always be considered as a major weapon of assault on the parish and the surrounding district which is within earshot. That is why I seldom listen to the protests which people frivolously make from time to time when bells are rung. (We must not be unthinking, of course, when we ring our bells; but we must never get timid about their use.)

ANSWER TO PROTEST

The ancient bells of St. Giles-in-the-Fields were ringing on a beautiful, sunny summer evening not long ago. It was 6 o'clock and experts were ringing, quite excellently. There stormed over to the church from an old tenement house adjoining the churchyard a young man, who demanded to know 'how long the intolerable noise was going on.' He offered no reason for his protest when I questioned him in return. Quietly, I said: 'Till 6.30, when evening service starts.' He used a word which I cannot repeat, and I asked him what he could possibly object to in the sound the bells were making. He said: 'If you don't order them to stop I will send for the police.' I said: 'Some of those actual bells have been ringing since the days of Charles I; do you really expect me to stop them just for you? Who are you to make such a request?' He was mollified. I dare say the bells in his case interfered with some 'pop' record or other which he wanted to hear.

What he did not consider was that for everyone who felt like he did there were probably hundreds who liked to hear the bells, even if they did not choose to answer their summons. I know of people who deliberately take a walk around when the bells are ringing, in order to receive their sacred message, to hear (as my text puts it) 'what is the word that cometh from the Lord.' I am sure bells often preach mighty good sermons.

We never know what the sound of bells means for all kinds of people. Therefore let us always be careful not to judge by the selfish (and often anti-Church) protest of the odd man out. Bells perform a powerful ministry to people we could not otherwise reach. The sound of bells may at any and every moment be turning someone from an evil to a good course of action.

'VEHICLES OF THE SPIRIT'

We easily over-particularise the ministry we have. We can too easily begin to think that the Holy Spirit is confined only to particularised ecclesiastical occasions. But it is not so. 'The wind bloweth where it listeth,' as Jesus said to Nicodemus; and I like to think that it carries with it the ministry by church bells. Bells are vehicles of the Spirit.

I rejoice with you all today that the celebrated bells of St. Mary's, Harrow-on-the-Hill, can once again serve as vehicles of the limitless

Grace of God to the surrounding acres which are within earshot of this tower.

Let every ringer who will ring these restored bells think, as he rings, of the sort of places and situations into which the happy sound he makes will go—to beds of sickness, giving hope of, and desire for, life, and (where necessary) assurance of Eternal Life; to dark corners where the bells interrupt the formulation of ungodly designs and plans; to husbands and wives at the very moment of betrayal of marriage vows; to children as they play, who (as I do) will remember the bell music of summer evenings for the rest of their lives; to those fair weather or indolent churchmen and churchwomen who know, as they hear, they should be on their way to church.

VITAL TO THE PARISH

The bells of a parish church which is lucky enough to possess a ring must be considered as vital as the artillery bombardment before the infantry go in.

Maybe in recent years the designers of churches have too often overlooked the simple practical value of a ring of bells in the work of a parish. Possibly it can be argued that bells were excluded on economic grounds. Admittedly, a ring of bells is a costly item, and it needs a strong tower to house it; but much money is often squandered on virtually meaningless symbolism and tasteless fripperies—money which might well have been put to better use if it had been spent on some simple but strong structure to house a ring. What trash goes into our new churches! I know of costly but perfectly repulsive windows and murals which could, with much honour to God, have been sacrificed to bells.

I know a church in a working class parish in Lancashire which has spent large sums on decorating the exterior of the nave and chancel with Greek Christian symbols, mainly the 'chirho' symbol, which to the unknowing looks like a 'P' growing out of an 'X.' They are the first two letters of the word 'Christ,' admittedly, but I wonder what these things can possibly mean to humble-minded trades unionists who pass that church on their way to work? This is a fine example of waste of Church money, which could have been much better spent.

May God bless this restored ring and the ministry which it is now fully equipped once again to perform to the surrounding acres near this hill; and may the Kingdom of God in this place be thereby enlarged.

THE PASSING BELL

Thus a writer in a daily paper: One of the abominations of bellringing is the passing bell, rung as soon after a person's death as the sexton can scurry to the bell rope. It was originally supposed that this dolorous performance kept clear of devils the enigmatic course of the departed spirit. But since we no longer believe that why should the living nerves be thus afflicted, particularly those of the living who are sick? The custom still survives in many English villages, and this writer has known an invalid to be very seriously affected by the sound of the passing bell at a critical time. With the poorer folk it is a kind of sign of respectability to have it rung. But as the whole thing nowadays merely resolves itself into a matter of fees, it might well be abolished. No one should have the right to annoy his neighbours by the payment of five shillings or a half-crown.

30 Years Ago

'R.W.' April 17th, 1931:—

The Stedman Tercentenary Commemoration Fund opened. Twenty years ago the Treble Bob Maximus record was set up at Ashton-under-Lyne, 12,240 being rung in 8 hours 39 minutes. The tenor was rung by Mr. James George.

Tomorrow is the anniversary of three long peals. 12,006 Grandshire Caters at Painswick, on April 18th, 1737; 13,440 Double Norwich Major at Romford, in 1894, and 17,824 Oxford Treble Bob Major at Heptonstall, rung in 10 hours 51 minutes, in 1927.

A POT-POURRI FROM 'CHURCH BELLS'

(Continued from page 49)

Prize-ringing at Black Torrington, Devon.—'We are sorry to have incurred the displeasure of the Parson of Black Torrington for the remarks we lately made on a prize-ringing meeting at his church. We cannot depart from our principles which are to denounce prize-ringing as a desecration of the goods of the church because bells were not set up in churches for such uses; and therefore we consider it to be the duty of the parson and churchwardens not to allow it. Besides . . . no good ever comes of it, and prizes are not necessary for attracting a large company of ringers to meet their brethren and have a pull together, and a friendly dinner, to boot. To name one place only—Lavenham in Suffolk—where ringers will assemble annually, some from a great distance, all glad to meet old friends and make new ones, and return home delighted with their day's outing, all without the temptation of any money prize or anything given but what each visitor pays for out of his own pocket.'

The Bells at Cork Cathedral.—'A new ring of bells set up at Cork 2 or 3 years ago are so badly hung that they cannot be rung! . . .'

Hythe, Kent.—Sat., July 11th, 1818.—10,080 Bob Major 'with all the grand course ends in the whole peal of 40,320'—6 hrs. 17 mins. Mon., May 4th, 1846.—13,440 Bob Major, 'the greatest number of changes ever rung in the county by one set of men'—7 hrs. 55 mins.

Hythe, Kent.—Weight of bells: Tenor 18 cwt. 2 qr. 8 lb.; 7th, 13 cwt. 3 qr. 9 lb.; 6th, 12 cwt. 27 lb.; 5th, 9 cwt. 8 lb.; 4th, 7 cwt. 2 qr. 10 lb.; 3rd, 6 cwt. 3 qr. 8 lb.; 2nd, 6 cwt. 2 qr. 15 lb.; Treble, 6 cwt. 25 lb. Cost price 1s. 5d. per lb.

Prize-ringing at Elland.—A letter dated Mar. 24th, 1859, signed by a churchwarden and the Chief Constable, gives notice of the prize-ringing to take place on June 14th, 1859—2,528 of Kent T.B. Prizes £8, £6, £4, £2, and to the company coming from the farthest distance, £1.

Chester Cathedral.—Sat., March 22nd, 1873.—5,040 Grandshire Triples, 3 hrs. 29 mins. Tenor 35 cwt.—'the first complete peal rung on the Cathedral bells,' and 'for 25 years such change-ringing has, it is believed, not been attempted in Chester.' 'Church Bells' points out that this took place during Lent and would have been better 'on the early morning of the Resurrection.'

St. Nicholas, Leeds, Kent.—Jas. Barham, a Leeds Youth, who from the year 1744 to the year 1804 assisted in ringing one peal of 40,320, two of 20,000, six of 10,000 and 112 of 5,000 or upwards; in one of the above peals he stood 14 hours 45 minutes. The peals were of 15 different sorts. The above peals were rung by 61 different men . . .

Leeds, Kent.—Sat., Jan. 13th, 1753: 20,163 Quad-Ruple and Triple changes in 13 hrs. 34 mins.—'being the greatest performance of change-ringing ever known by several thousand changes.'

April 21st, 1839.—10,080 Bob Major in 5 hrs. 55 mins. 'by eight young youths excepting one.' *Society of Cambridge Youths.*—In 1796, 6,600 Bob Maximus in 5 hrs. 5 mins. at Great St. Mary's, ' . . . the striking was to such a nicety that in each 1,000 changes the time did not vary $\frac{1}{2}$ of a minute, and the compass of the last 1,000 was exactly equal to the first.'

Presumably in 1796 too, eight Birmingham Youths, venturing 15,120 Bob Major, failed because of fatigue. The bells were brought home at 14,224 changes in 8 hrs 45 mins.—'the longest which was ever rung in that part of the country and perhaps anywhere else.' The paper does not say where this happened, but one guesses Birmingham.

Also, presumably in 1796, Mr. Patrick, senior of the Society of Cumberland Youths, died and was buried in the churchyard of St. Leonard's, Shoreditch, on the afternoon of Sunday, June 26th. 'The corpse was followed to the grave by all the ringing societies of London and its environs, each sounding hand-bells with muffled clappers; the church bells at the same time ringing a dead peal.'

James Ogden was buried at Ashton-under-Lyne in 1827. 'After the funeral his old companions rang a dead peal for him of 828 changes, that being the number of months of his life.'

DEDICATION

**ST. JOHN THE BAPTIST,
SHENSTONE, STAFFS**

On Sunday, March 26th, the sound of a ring of bells was heard over the parish of Shenstone, near Lichfield, for the first time in at least eight years. The occasion was the dedication, by the Vicar, Rev. J. Ormston, at Matins, of two new trebles to complete a 'minor' ring of five, with a tenor of 6 cwt. 2 qr. 12 lb. in B.

After the Third Collect, the two churchwardens, lay reader and the Vicar proceeded to the tower, where after being handed the ropes of the two new bells, the Vicar said the prayer of dedication. These bells were then raised singly, rounds rung on the 'back three,' then a Plain Course of Stedman Doubles by ringers from Lichfield Cathedral, thus illustrating, to the parishioners the difference made by the additional bells.

During his two Palm Sunday sermons, the Vicar said that when he arrived about four years ago, he was amazed to hear that eight bells once rang, and that there were then only three. It seemed to him sacrilege that a tower capable of holding a ring of bells, should not have one, and he was determined it should. Stage one had now been completed. If God willed it, the money for a tenor would come. In the more distant future, they might hear eight once more. But, he continued, the bells had to be rung and he thanked those who were helping to train a Shenstone band. He wished to hear no more stories of there being nothing for the youth of Shenstone to do—they could learn to ring.

The dedication service over, Grandsire Doubles was rung by the Lichfield band, after which visitors from Alrewas, Bloxwich, Lichfield Cathedral, Little Aston and Walsall rang various methods for an hour. The visitors agreed that the Loughborough Foundry, who were not represented, had done a good job, save for the third and fourth bells being somewhat 'odd struck.'

For Evensong, five of the Lichfield ringers rang the first quarter on the bells. Visiting ringers, prepared to help train local ringers, will be welcome on Thursday evenings at 7.30, although actual change ringing cannot be guaranteed for a few months.

ARE OUR BELLS REALLY NECESSARY ?

MANY of us recall vividly the rise in popularity and the subsequent decline of the cinema organ. To an important degree this has been linked with the fortunes of the cinema itself. With the phenomenal rise of the industry in the 'thirties came the building of bigger and more luxurious cinemas, bulging programmes of over three hours with two feature films, newsreels, and the recital on the 'Wurlitzer' into the bargain. Now all that is rapidly going, though the art of the cinema is here to stay, even in a television age. But not the cinema organ.

Meanwhile the church organ continues to function, and indeed is prospering, with the Royal School of Church Music doing a wonderful job, so that standards are steadily improving. Also, organists associate together, and recently it was my pleasure to talk to the Kent County Association of Church Organists at one of their Saturday meetings! Oh, I believe the pipe organ is being challenged by electronic instruments, but not seriously in the minds of the true organist.

There are a few concert organs in our leading concert halls, but the real home of the organ is in church, where it has a job to do Sunday by Sunday in the Christian worship. How fortunate for the organ and the organist, you may say. But this is to misunderstand the nature of our Church heritage. True, there were churches before there were organs; nevertheless, it has been in the service of the Church that organist art has developed and grown. And having evolved so strongly it hardly looks like becoming extinct.

Our bells, too, have their life and purpose in the worship of God in His Church, and during four centuries the ringer's art has evolved and progressed in this land of ours. In a great many of our churches there are rings of bells, and the vocational element of our art looms as its dominant characteristic. We love our bells, we love ringing them, but somehow it would be difficult if it were in a secular environment.

Now challenge faces us as this age of church building proceeds. For there is a distinct danger that in the new churches bells as such will not figure as an essential part

of their life but be considered as a superfluity and luxury, with unwelcome repercussions in the older churches in the guise of reluctance to keep their bells in going order.

This is where we ringers come in! Ought we not to pursue a more positive policy in regard to the heritage of the bells, by ensuring that we play our part in keeping them in order? Spread over 100 years the cost of a new ring of bells is not really prohibitive, and the cost of maintaining an existing ring considerably less. Yet we live from hand to mouth, waiting for our bell ropes to wear out before ensuring a supply of new ones, remaining relatively passive when restoration is necessary.

True, our Association makes grants from the Belfry Repair Fund, but these are only a tiny part of the cost involved, and we are always having misgivings about the grants we *do* make. Which is the real sting in the tail of this article.

We do not value our bells, and therefore by implication we do not believe in their necessity. When we join a tennis club we expect to pay a subscription adequate to cover the organisation costs of the club, for the rent and upkeep of the court, and for equipment. If we go to a cinema we expect to pay for our pleasure, while after ringing that peal we quench our thirst at quite an enormous cost. Yet we dislike even the suggestion of a peal fee, though we know it will be reported at no little cost in the pages of 'The Ringing World' and in our own Association report; we know that the capital value of the instrument we are using runs into thousands of pounds.

Again, our subscription is 3s. per year, a bare shilling more than when the Association was formed in 1880, and only a fraction of its real value.

I repeat what I have said on several occasions, including my report to the Association for 1960: in maintaining our funds at about £1,200 we are, in fact, fighting a losing battle against the forces of inflation. We certainly wouldn't be so complacent if we found our earnings pegged at 19th century levels. Yet we are almost proud that the intrinsic worth of our funds is no more than a fifth of what once they were.

When from our funds we are able to make grants towards bell restoration of £100, then, and only then, can we again lift up our heads and look the world in the face.

E. S. J. H.

EDITOR: T. W. WHITE.

Mr. K. Gibbons, of Iver, Bucks, was asked by his tape-recording correspondent, Mr. Joel McGaughey, of Pennsylvania, U.S.A., for a recording of the bells of Penn Parish Church. A well struck quarter was rung and recorded entire. The Vicar (the Rev. O. E. Muspratt) recorded a greeting to introduce the bells.

Hurstpierpoint (Sussex) band have set themselves the task of raising £76 for handbells. A good start was made by holding a jumble sale that raised £56 15s.

The quarter peal at Hutton Cranswick, Yorks, on April 4th was believed to be the first quarter rung by a band of Old Boys of Hymers College, Hull.

The peal at Bristol Cathedral on April 7th was the 50th peal for the Gloucester and Bristol Diocesan Association rung by Mr. D. John Hunt.

If any gentleman lost a watch at the meeting at Ecclesfield on April 8th, will he please communicate with Norman Chaddock, 17, Herringthorpe Grove, Rotherham.

The ringers of Old Headington are pleased with the removal of the ringing chamber from ground floor level. The first quarter in the new accommodation was rung on April 9th.

Mr. F. Collins, who has been ringing at Bickleigh, Devon, for 35 years, has rung his first quarter, believed to be the first on the bells. A peal has, however, been rung here.

The first course of London has been rung on the bells by a local band at Haslemere Parish Church. The band are also progressing well with Cambridge Minor and have enthusiastic handbell sessions.

To handbell tune ringers Mr. N. Chaddock commends 'The Art of Handbell Ringing' by Nancy Poore Tufts. Copies are obtainable from the Abingdon Press Ltd., Nashville 2, Tennessee, U.S.A.

A call change ringer at Wem, Salop, Michael Wycherley (16), has learnt method ringing by attending Association meetings and by visiting other towers on their practice nights, the nearest being 10 miles away. He has now rung his first peal.

BELFRY GOSSIP

Since February, 1960, 11 'last Friday' peals have been attempted at Bristol Cathedral, and all 11 have been scored—a 100 per cent record. These peals included the following 'firsts': First peal for seven, first of Triples—2, first of Major—2, first on 8—4, first in the method—29. First as conductor—2. First in the method as conductor—5, first 'inside'—2.

Will the purchaser of Postal Order No. K1/93/786326, for 9s. 6d., at Calcot, near Reading, please send his name and address to Mr. J. E. Jeater, Greystones, Cusgarne, Truro.

Bristol Cathedral School Guild of Ringers has lost its founder in the person of Mr. Frank Carter. In addition to ringing a quarter peal (second attempt), the Guild would like to thank him through our columns for his work for the Guild.

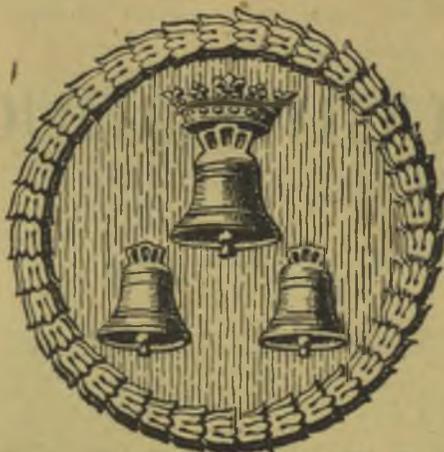

The peal at Hemingbrough, Yorks, on Good Friday, reported in our last issue, was rung at the special request of the Vicar (the Rev. F. Amcotts). The bells were not rung until after the church clock had struck three. The peal on Easter Eve at Snaith was also a 'special request' peal from the Vicar.

Mr. P. Amos sends us a correction regarding the weight of Massington tenor. The weight given by Gillett and Johnston and clearly printed in the belfry, where it has been for years, is 9 cwt. 2 qr. 16 lb., and not that given in a recent peal. Another of his corrections is that Barnack, Northants, has a minor five and not a peal ringing six. The sixth bell is hung dead by itself.

Miss Yvonne C. Porter, a very popular member of Plymouth St. Andrew's Society, who took part in a quarter of Stedman Triples on Easter Day, for Evensong, and was one of the Plymouth contingent that took part in a tour of some six Somerset towers on Easter Monday, was rushed to hospital in the very early hours of Wednesday, April 5th, and operated upon for appendicitis. The sincere wish of her many friends is for a speedy and complete recovery.

ACTION AT THAXTED

A LARGE crack has been discovered in the mediæval crocketed spire of the magnificent Parish Church at Thaxted, Essex.

It is the Vicar's intention to put the repairs to the steeple in front of the other repair work at this grand old church, in spite of the fact that the steeple repairs were completely unexpected. Towards the end of February a parishioner noticed that one of the crockets was missing from the steeple, and on telescopic inspection the fault was revealed; ladders have been erected and the trouble—£700 to £1,000 worth—confirmed.

This lovely old church has a magnificent ring of bells hanging high in the tower, being rung from the ground floor. There are four old bells in the ring, one, two and tenor (15 cwt.) by Mears 1778, the sixth by Thomas Gardner, 1734; the four remaining bells were recast by Messrs. Gillett and Johnston during the period 1948 to 1950 and are unique.

THE JUSTICE BELL

The third bell has a decoration of the linked vine and cross symbolising the linking of all nations through the life and sacrifice of Jesus Christ. Round the shoulder are the words from St. Paul's sermon to the Athenians.

'He hath made of one blood all nations,' and round the base of the bell the text from the Revelation of St. John, 'And I, John, saw the Holy City, New Jerusalem, coming down from God out of heaven, prepared as a bride adorned for her husband.'

In the centre of the bell, 'I Ring for Justice in All the Earth.' On the other side is the gridiron of St. Lawrence, the patron saint of cutlers, also of Thaxted Church.

DANCE OF FELLOWSHIP BELL

The fourth bell is decorated round the shoulder with morris dancers in action and round the base with the emblem of the dancing. This is a remarkable and unusual form of adornment. In the centre of the bell:

'I Ring for the General Dance.'

Praise Him in the Cymbals and Dances.

Praise Him upon the Strings and Pipe.

On the other side is the emblem of St. John the Baptist—The Hand Baptising.

THE PEACE BELL

The fifth bell has round the shoulder in Latin: 'Glory to God in the highest and on earth peace among men in whom He is well pleased.'

Round the base of the bell is a quotation from the Revelation of St. John: 'And I heard a great voice from heaven saying, "Behold the tabernacle of God is with men, and he will dwell with them, and they shall be his people, and God himself shall be with them and be their God."'

'And God shall wipe away all tears from their eyes; And there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain; for the former things are passed away.'

In the centre of the bell is 'I Ring for Universal Peace.' On the other side: the emblem of Our Lady, the sword piercing the Winged Heart.

THE CRAFT BELL

The seventh bell has cast round the shoulders small panels depicting the sun, the moon, the stars, the earth, mountains, rivers, sea, sheep and cattle, birds and trees, lightning and clouds.

Round the base of the bell are panels showing the arts and crafts of man, pottery, engineering, agriculture, clock making, painting and music, organ building, book binding, cutlery, spinning and weaving, brick making.

In the centre of the bell: 'I Ring for Joy in Craftsmanship.'

'Thou art worthy, O Lord, to receive glory and honour and power; for thou hast created all things, and for thy pleasure they are and were Created.'

On the other side is the emblem, the Sacred Host and Chalice.

The bells each have the name of the Vicar and churchwardens who are still in office together with the original and subsequent bell founding firm.

It is not often that a Vicar can persuade his people that the bells are important and that everything must be done to give priority to the tower repairs in order that the ringing

PERSONALITIES OF THE EXERCISE - 16

MR. A. PADDON SMITH, J.P.,
St. Martin's Guild for the Diocese of Birmingham.

Few ringers have held as high public office as Mr. Arthur Paddon Smith, J.P., of Handsworth, Birmingham, for after serving on Birmingham City Council from 1935, being made Alderman in 1949, he was elected Lord Mayor in 1950. He had the unique experience of taking part, while in office, in a handbell peal of Stedman Cinques, on April 22nd, 1951, conducted by Albert Walker, and rung in the Lord Mayor's Parlour. It was a performance of which he is justly proud, especially as it was just 30 years after his previous handbell peal, also Stedman Cinques, conducted by Percy O. Laffin.

Paddon, as he is affectionately known, was born on March 26th, 1881, at West Bromwich, and educated at Hoar Cross School and privately. He learnt to ring at Handsworth Parish Church in 1896, and rang his first peal, Grandsire Triples, on February 6th, 1897, at this church, being only 15 years old.

He has led an exceedingly busy public and business life, being a director of Messrs. Lucas Ltd., before retiring, and a Justice of the Peace since 1942. Due to his business activities, he has not been able to give as much time to peal ringing as he would have liked, but until fairly recently he had been a regular Sunday service ringer at St. Martin's for 50 years. He has always been noted for

being an immaculate striker, especially when ringing the 11th to Stedman Cinques, his favourite method, and his stylish handling of a big bell was a pleasure to watch, and an example to everyone. His total number of peals is 268, of which no fewer than 140 have been Stedman Cinques, including 11 on handbells. The other 128 peals have included many methods from Grandsire Triples to Cambridge Maximus. He never took up conducting, as there have always been plenty of good conductors in Birmingham.

A PEAL AT ST. PAUL'S

He is particularly proud of the great compliment paid to him on May 21st, 1938, when he was invited to ring in the peal of Stedman Cinques at St. Paul's Cathedral, rung half-muffled to the memory of William T. Cockerill. Another peal which he recalls with pleasure was Stedman Cinques at St. Martin's on June 22nd, 1911, the only twelve bell peal rung in the United Kingdom on the Coronation Day of King George V. He also rang the 9th to the first peal on the 12 bells at Exeter Cathedral, Stedman Cinques on July 6th, 1924, rung by the St. Martin's Guild, and conducted by Albert Walker.

Although so busy, he has found time to render good service to the St. Martin's Guild. He was secretary of the Society for 20 years, a Central Council representative for 40 years, and is at present a vice-president and trustee.

During his earlier years he made frequent business trips abroad, and visited many interesting places, including every European capital except two. He has travelled through the whole continent of Africa, from Cape Town to Cairo, including the Victoria Falls. Another trip took him to Israel, where he had the opportunity of seeing Jerusalem, Bethlehem, Nazareth and the Dead Sea. He has been to India, and visited every centre of commercial importance, and many historical monuments like the Taj Mahal, Agra. Later he continued his journey to Rangoon and Singapore.

Now, although not taking an active part, he is as keenly interested as ever in ringing, and always attends the Johnson dinner, to which he first commenced going over 50 years ago. He has frequently been chairman, and is very popular in this office, as he has many memories and anecdotes of the old school of Birmingham ringers. His friends in Birmingham, and other places, hope he will continue in good health to enable him to have this annual meeting with them, and revive happy memories of days gone by, when Paddon was one of the leading ringers of the city.

THE LADIES' GUILD

Midland District

The annual meeting of the Midland District was held at St. Peter's, Derby, on February 18th. The bells were rung to various methods, followed by a short service, conducted by the Vicar. An excellent tea was provided by the local ladies. After the vice-president, Miss I. B. Thompson, had thanked the Vicar and the local ringers for their arrangements, the gentlemen adjourned to the tower for further ringing.

The minutes of the previous meeting were read and signed by the president, Mrs. P. J. Staniforth, who took the chair. The vice-president was re-elected. The secretary (Mrs. B. Bennett), due to family commitments, resigned and Mrs. W. M. Warwick was elected in her place. The general committee are Miss Foulk and Miss Rhodes; District Committee: Mesdames Buswell, Hartley and Staniforth. The next meeting was arranged for April 29th (please note alteration of date) at Attenborough. There is a good train service from Leicester (2.40 p.m., cheap day fare 3s. 8d.). A joint meeting with the West Midland District at Chilvers Coton has been arranged for June 10th. Three new members were elected.

W. W.

ESSEX ASSOCIATION

Northern District

On April 8th a very happy and successful meeting was held in the Church of St. John the Baptist, Pebmarsh. Forty-two members from 18 parishes attended. The Rector (the Rev. S. C. Little) conducted the service, which was choral and Miss Tyler was the organist. An excellent tea was provided by the local ringers and friends.

Mr. H. Pratt presided at the business meeting. One new member, Miss L. Perry, was elected. By kind invitation of the Archdeacon of Colchester, the next meeting will be held at Wickham St. Paul on May 27th.

HERTFORD COUNTY ASSOCIATION

Good Attendance At Annual General Meeting

RINGING was available at no less than 11 towers in and around Hertford on April 8th for the annual meeting of the Hertford County Association. Those who were abroad early in the day were able to compare the new six at Aston with the historic eight at Benington, where Squire Proctor's band rang many of the first peals of Surprise Major. The peal boards at Little Munden and Braughing also bore witness to the exploits of famous ringers of years ago.

After lunch Widford, Hunsdon, Great Amwell, Bengoe and Hertingfordbury led members into Hertford itself, where the bells of St. Andrew's and All Saints' were in demand. The service at St. Andrew's was conducted by the Rector, Rev. R. H. Gill, A.K.C., who expressed his pleasure in welcoming members to Hertford once again.

Tea was served to 130 members before the president, Mr. W. C. Hughes, opened the meeting by presenting two books to Mr. H. V. Frost in appreciation of his services to the Association as general secretary for nine years. The president continued by welcoming members from all parts of the county and highlighting the events of his year of office. He urged the younger members to concentrate on four 'P's': Pulling, or handling; Perseverance, after being able to ring rounds; Planning before entering the tower; and Perfection, to which all ringers should strive. His term of office had culminated in his presentation to H.R.H. the Princess Margaret, only two days earlier, as representative from his local tower, when she visited Hemel Hempstead.

The meeting stood in silence in respect for six members who had passed away during the year. They were: the Rt. Rev. C. T. T. Wood (associate), C. Gale (Little Munden), F. W. Brinklow (Oxhey), C. J. Kazer, W. Wenban (Stanmore), and J. H. Foreman (Thorley).

BOOKCASE PROBLEM

The minutes of the last meeting, held at Watford, were accepted, and arising from them was the unfortunate story of the new bookcase intended for the Association's library in St. Peter's belfry, St. Albans. This had been made, but it had refused all efforts to persuade it to negotiate the steps to the ringing chamber. Undaunted, the trap door, through which the bells were hoisted, was uncovered only to find that the ceiling of the church below had been boarded over from underneath!

As the annual reports had been made available a fortnight before the meeting the various reports were taken as read. Eighty-six peals had been rung during the year, 15 being methods new to the Association. The honorary treasurer reported a working balance over the year of £17, which, with over £100 transferred from the Benevolent Fund the previous year and the Association's investments, placed the financial situation in a strong position.

Mr. G. W. Seaman, of Watford, was elected as president for the ensuing year. Following his installation with the insignia of office by his predecessor he expressed his pleasure at the honour which the Association had bestowed upon him. The officers were all re-elected as follows: Messrs. A. R. Agg (general secretary), F. J. Plummer (honorary treasurer), H. V. Frost (assistant secretary), G. W. Debenham (peal secretary), C. F. Sayer (librarian).

BENINGTON GREAT RINGING DAY

It was agreed that the Association should grant the sum of £5 towards the A. H. Pulling Memorial Fund of the Guildford

Diocesan Guild. It was also agreed to make an attempt to revive the Great Ringing Day at Benington. This event was held regularly before the wartime ban on ringing, but has not been promoted in the post-war years. The meeting did not accept a proposition from the Northern District to alter the Rules of the Association relating to the notice which is required for presentation of motions to the annual meeting. It also refused to confirm the proposal of the General Committee to delete footnotes to peals published in the annual report.

The meeting closed with a vote of thanks to the incumbents and others who had helped to make the meeting a success. Further ringing at local towers concluded a long and enjoyable day.

50 Years Ago

'R.W.' April 21st, 1911.—

The editor, in congratulating the Ashton-under-Lyne band, who established a new record of 12,240 Kent Treble Bob Maximus, writes: 'A great deal of the success of the feat is due to the genius of Mr. Sam Wood. He not only composed and conducted the peal with masterly ability, but in that tactful management that is required in connection with such undertakings he has all along proved himself to be the right man for the task... The previous Maximus record, which has now been demolished, was established as long ago as 1833, by the Painswick Youths. It was a peal of 10,224 changes rung in 6 hours 50 minutes.'

30 Years Ago

'R.W.' April 24th, 1931.—

Three noteworthy events in the history of the College Youths. Seventy years ago they rang the celebrated 8,580 Stedman Cinques at Cornhill. In 1868 they rang 15,840 Kent Treble Bob Major at Bethnal Green, and in 1901 St. Stephen's, Westminster, band scored for the first time three Surprise peals in one day.

In April, 1800, the Cumberland Youths attempted to ring 15,136 Oxford Treble Bob at Edmonton. In the ninth hour an unlucky accident befell Mr. George Cross, the composer of the peal, who, whilst attempting to slacken his knee buckle, got his leg entangled in the coil of rope, by which he was elevated to a considerable height and thence, falling down on his head, he broke his collar-bone.

GUILD of DEVONSHIRE RINGERS

The East Devon Branch held their annual meeting at Sidmouth on Easter Monday. A large number of ringers and friends attended the service, held in the Parish Church.

At the meeting, which was presided over by the chairman (Mr. Woodley), the president (Preb. E. V. Cox) presented certificates to seven young members. All officers were re-elected. It was decided to hold the next annual meeting on Saturday, May 12th, 1962.

An excellent tea was prepared by the lady ringers of Sidmouth. Five new members were elected.

BIRTHDAY AND EASTER BELLS

On Saturday seven members of the Guild of Devonshire Ringers met at Dean Prior Parish Church, Buckfastleigh, and rang on the bells touches of Plain Bob Minor and Grand sire Doubles after an unsuccessful attempt for a quarter peal. This was for the Festival of Easter and as a 93rd birthday compliment to Mr. Richard Churchward, a former sexton and bellringer at this church, and who was present for most of the afternoon. Those who rang were Miss Sylvia Sims, Messrs. A. L. Bennett and W. G. Lavers, Revs. P. Angold, P. Dowling, A. O. Mowan and A. de Guingand, and all agreed to send a message of goodwill to Miss Y. C. Porter, of Saltash, who was to have been present and who is now in hospital, recovering from an operation.

IRISH ASSOCIATION

The annual meeting of the Northern District and the Cunningham Cup competition were held at Bangor, on Easter Monday. There were over 100 members present, while friends brought the number up to 130.

On arrival the members and friends were entertained to tea by the local ringers, and welcomed by Archdeacon G. A. Quin, the local Rector and the District chairman.

The District officers were elected unanimously, as follows: Chairman, Canon S. P. Kerr, Coleraine; District secretary, John T. Dunwoody, Holywood; assistant secretary, Mrs. J. Jeffery, Belfast; honorary treasurer, R. S. P. Laird, Bangor; Ringing Master, H. Brown, Holywood.

The cup competition, in which 10 teams took part, gave the following result: 1 St. Mark's, Dundela, 6 faults; 2 St. Comgall's, Bangor, 7; 3 St. Bronach's, Rostrevor, 8; 4 St. Thomas, Belfast, 15; 5 St. Donard's, Belfast, 16; 6 St. Malachi's, Hillsborough, 17; 7 St. Macartan's, Enniskillen, 21; 8 SS. Philip and James', Holywood, 26; 9 St. Patrick's, Coleraine, 31; 10 St. Patrick's, Ballymena, 41.

Miss Young and Mr. McFall, of Carrickfergus, and Mr. Taylor, of Gravesend, acted as judges.

KENT COUNTY ASSOCIATION

A quarterly meeting of the Tonbridge District was held on March 25th at St. Mary's, Speldhurst. Ringing preceded the service, conducted by Rev. G. W. Nightingale, and 26 members enjoyed tea at the George and Dragon Inn, where the meeting was held afterwards.

The company expressed their thanks to Mr. W. Dobbie for arranging the meeting at Speldhurst, after the difficulties he had experienced in arranging a tower for the quarterly meeting.

Mr. Dobbie passed round the newly designed membership certificate and took names of those wishing to be presented with one at the annual meeting. Thanks were expressed to Rev. G. W. Nightingale and the local tower captain, Mr. E. Turley, for making arrangements for the use of the bells. Joined by still more members, the company continued ringing various methods during the evening. M. A. L.

LETTERS TO THE EDITOR

GREAT ST. MARY, CAMBRIDGE

Dear Sir.—I read with great interest the recent article on the bells of Great St. Mary, Cambridge, where I was privileged to ring a peal of Stedman Cinques, 49 years ago, with a band which included the three brothers Pye, the Pitstows, Jack Goldsmith and Keith Hart.

What prompts me to write is that there was at that time a Seages apparatus in the tower and I wonder whether I am right in thinking there is a board in the ringing chamber recording a peal rung on this apparatus. Perhaps Mr. Bevis could tell us.—Yours sincerely,

E. BARNETT.

10. King's Close,
Crayford.

'THE BELL' SONG

Dear Sir.—In answer to your article in 'The Ringing World' regarding 'The Bell' song, my father, now 61 years, sang this song when at school. In fact, it was only a few weeks ago I recorded his rendering of the song. We haven't the printed words or music so it had to be done from memory.

If Mr. Ernest Morris or the good lady, Mrs. Mary E. Simpson, could give me any further details that would help me in obtaining a music copy of this song, I would indeed be most grateful.—Yours sincerely,

R. A. LARGE.

Little Trench Farm,
Tonbridge, Kent.

'THE RINGER'S GLEE'

Dear Sir.—I am interested to know if anyone among your wide circle of readers knows the old ditty called 'The Ringer's Glee.' I have only the first verse of this, which goes as follows:

'We're country clodhoppers, as you may well know.

We're ringers, an' singers, an' fiddlers also,
At weddin's and wakes we'n a merry peal, then—

One, two, three, four, five, six, seven, eight,
nine, ten.'

I should like to obtain all the words and music of this glee, and if anyone could loan me a copy I should be very grateful. It would be returned to the owner as soon as possible, and postage would be refunded. Failing the music, could anyone let me have all the words.—Yours sincerely,

T. OGDEN.

MR. HALL DEFENDED

Dear Sir.—I do not know Mr. Hall, and so far have never visited or rung in the Parish Church of Stapleford, Cambs, but I do feel I must defend him as much of what he wrote in 'The Church Times' is in accord with my recent experiences.

In pursuing their art, we all know that there are many who go about it with reverence, and know the purpose of the Church and its bells. Against this, there is a growing section who have no respect for the feelings of others, and treat the bells as though they were their own toys, and the churches they visit (to quote both the late Bishop Blagdon and Bishop Stopford, of Peterborough) as museums. I would go even further and say I have been to meetings when you'd think the church was a cinema.

On quite a few occasions I've known some of what might be termed present day headstrong youngsters rev up their motor cycles outside the church and even ride them through the churchyard, parking them there, and I've seen them parked in the porches, with the oil dripping on the floor.

I recall an outing once where this revving up for several minutes caused people living near the church to look out of their windows in wonderment of what was going on, with all this 'hullabaloo'; and it was at 9 p.m.—the last tower called at!

Quite recently, I had a letter from a certain Vicar, containing these sentiments: 'Dear Mr. Amos.—It will be all right for you to use our bells for a peal, but please give your party of ringers strict instructions to leave any motor bikes, etc., outside in the street—the last party of visitors used the churchyard to garage their vehicles and as a breakdown shop. Not being content with this, they littered the churchyard with cigarette-ends and ice-cream papers. Even worse still they upturned a bicycle to mend punctures on the grave of the man whose widow has just paid £1,000 to have the bells restored.'

The vicar concerned has asked me to now let the matter drop, and I respect his wishes after this letter, seeing that he has (to quote his own words) punished them in refusing them future permission. It was, however, a matter which filled myself, as well as others in the Peterborough Diocesan Guild, with disgust when we heard about it—it is the sort of thing which Mr. Hall would make great play of. They were from a neighbouring diocese.

Finally, what can be the point of ringing in 25 towers in one day? Tower grabbing and an abuse of the bells is the only suitable term for it. Here again, I agree with Mr. Hall.—Yours sincerely,

P. AMOS.

Weston Favell, Northants.

PEALS AT LYNSTED

Dear Sir.—I would like to bring to notice that the peal of seven methods of Doubles, rung at Lynsted, Kent, on March 18th, was not the first peal in seven methods on the bells. The first peal in seven methods on the bells was rung on October 30th, 1955, conducted by myself.—Yours faithfully,

E. NAYLOR.

Bath, Somerset.

DAVENTRY, NOT RUGBY

Dear Sir.—Referring to your report of the Derbyshire Association dinner, I would like to point out to the other David J. Marshall that the David J. Marshall lives at Daventry not Rugby as erroneously reported by Jafus.—Yours faithfully, (THE)

DAVID J. MARSHALL.

Daventry, Northants.

SOUTHAMPTON UNIVERSITY GUILD

At the annual general meeting of Southampton University Guild of Change Ringers held at Connaught Hall on March 22nd, it was decided that this year an annual dinner should be initiated. In his report, the retiring Master, Mr. A. J. Tumber, said that during the past year Southampton's reputation as a 'ringing' University had grown considerably, and he thought that, judging by the success achieved by the Reading University Society with their first dinner, Southampton could well do the same. The meeting was all in favour of this enterprise, and the date of Saturday, December 2nd, was fixed.

Earlier, the Master had expressed his pleasure at seeing a greater membership than ever before, with a large proportion of beginners. This fact had been responsible for the scoring of only two quarter peals in the year, but he emphasised that a great deal of good work had been done, and that he was certain that the Guild was starting the new year in a very strong position.

In outlining the Guild's activities over the past year, the Master mentioned that representatives had attended the major University dinners—Oxford, Cambridge, Bristol, London and Reading; ringing visits had been made to Bedford, Sussex, the Isle of Wight, Wells and London; the summer tour was in Kent, in conjunction with Reading University; and during the recent Arts Festival at Southampton University, the Guild had provided a 15 minute demonstration of handbell ringing, which had also led to an appearance on Southern Television, and a photograph in 'The T.V. Times'!

The Guild's practice night—at St. Nicholas', North Stoneham—would in future be a Thursday, beginning at 8 p.m.; handbell practices would be at the University at 1.15 p.m. on Mondays and Fridays, as usual. The Master had previously drawn the meeting's attention to the fact that the Guild was now the proud possessor of a magnificent set of twelve handbells, which, he felt, was particularly invaluable to a University Guild, which did not have a tower of its own.

The election of new officers was as follows: Vice-president, Mr. G. Pargeter; Master, H. N. Evans; vice-Master, Miss K. Ruscoe; secretary/treasurer, A. S. Harrison, South Stoneham House, Swaythling, Southampton; committee member: J. R. Goodenough.

The meeting was closed by the new Master, who thanked all the members for their enthusiastic support, and especially the retiring officers for the hard work that they had put in in raising the Guild to its present position.

SALISBURY DIOCESAN GUILD

Two great losses by death sustained by the Salisbury Diocesan Guild—the Earl of Shaftesbury and Mr. A. F. Martin Stewart—were referred to by Mr. N. Knee, the Branch chairman, at the quarterly meeting of the Devizes Branch at St. John's, Devizes, on April 8th. The new Rector, the Rev. W. D. C. Williams, conducted the service with the Vicar of Southbroom as organist. A company of 48 sat down to tea served by Mr. and Mrs. F. Hyde.

Ringling at St. John's and Southbroom ranged from rounds to Cambridge Surprise Major.

Bedfordshire Association

The monthly meeting of the Bedford District was held on March 25th at Kempston. Ringing began soon after 3 p.m., and improved from Minimus to Major before tea. A short meeting took place in the ringing chamber after Even-song, which was at 6 p.m.

Next meeting: Felmersham, May 6th.

 - (m) Towers and Belfries Committee.

MOTIONS

10. (a) 'That the Conditions required for peals as laid down on page 19 of the Council's Handbook be amended by the addition of the following:—
"A peal shall be rung with five or more changing bells."
Proposed by Mr. P. A. Corby, seconded by Mr. J. R. Cooper.
 - (b) 'That this Council deplores the present trend of ecclesiastical architecture in that no tower capable of containing a peal of bells to be rung traditionally is incorporated in new churches nor is any provision made for the addition of a tower, and urges the Royal Institute of British Architects and all Diocesan Authorities to be mindful of the essentially English art of bell ringing and ensure in their design for new churches that the voice of the Church through the bells is not lost to future generations.'
Proposed by Mr. R. S. Anderson, seconded by Mr. E. H. Edge.
11. To fix the place of the next meeting.
 12. Any other business.

At the conclusion of the business Mr. G. W. Pipe will give a résumé of ringing in Australia.

E. A. BARNETT,
Honorary Secretary.

26, Iron Mill Lane,
Crayford, Kent.

A LEICESTERSHIRE WEDDING

MISS OLIVE TINSLEY, younger daughter of Mr. E. Tinsley, captain of the ringers at St. Remigius' Church, Long Clawson, Leics, and Mr. Kenneth Royden Rodgers, whose marriage was solemnised on Easter Monday at Long Clawson. Both bride and bridegroom have been Sunday school teachers and ringers; the bride has also been organist. The Vicar, the Rev. A. Wilcock, officiated at the choral service. As the happy couple left the church a wedding 'peal' was rung by friends from the Melton District.

Later in the day, 1,260 Doubles (Reverse Canterbury Pleasure, Plain Bob and Grand-sire) was rung by J. H. Cook 1, H. T. Bonshor 2, A. E. Hinman 3, R. H. Cook (cond.) 4, H. Clayton 5.

YORKSHIRE ASSOCIATION Eastern District

The spring meeting of the Eastern District was held at Sherburn-in-Elmet and was attended by about 30 ringers, together with ringers from Ripon, Halifax, Sowerby, Calverley, Rothwell and Horbury, in the North and West District. Good use was made of the ring of eight and the service in church was conducted by the Vicar.

Mr. H. Walker presided over the business meeting, owing to the absence of the vice-president, Mr. A. E. Sellers. Five new members were elected: Messrs G. R. West and G. S. Sharpe (Hessle), Mr. B. Baxter (Howden), Mr. P. Copley (Sherburn-in-Elmet) and Mrs. M. Lunn (Barnby Dun). Howden was selected for the annual District meeting on July 1st, if possible. A discussion took place on the proposal to help towers where the bells are silent on Sundays as is suggested by the Association.

The vote of thanks included one to the Mothers' Union for a splendid tea, which was replied to by Mrs. McClean, wife of the Vicar.

BARNSELY & DISTRICT SOCIETY

The Society held its meeting on April 8th at Monkbreiton, a 'silent tower,' the bells being last rung over two years ago. During Easter a preliminary inspection was made by Mr. Noel F. Moxon and other members and it was found that the swing of the bells would have been impeded by the quantity of twigs stored in the tower by birds. Three large sacks were filled with debris before the bells were cleared.

Fourteen towers were represented and two new members elected. Forthcoming events: Next meeting, New Mill, near Huddersfield, May 13th; shield contest, Kinkthorpe, June 10th; outing to Leicester, June 3rd.

ST. MICHAEL & ALL ANGELS', BAMPTON, DEVON

When motoring to the West Country, travelling towards Ilfracombe on the main A.361 road, the first Devon church tower to be seen is in the little town of Bampton.

In the valley, surrounded entirely by rolling green hills, Bampton proudly endeavours to maintain and uphold her heritage of religious and social activities. Over the past five years, as a result of stupendous united effort, upward of £4,000 has been raised from a population of a little over 1,000 and this has paid off a debt to establish a public hall.

Due to death watch beetle, and collapse of the 16 cwt. tenor bell in the old wooden frame (ring of 6) Bampton Church is now unexpectedly faced with the task of completely renewing its bell system, restoration of church roof, and accumulating a further £3,000 which the bells founders and builders tender as cost of the work.

From time immemorial these bells have joyfully rung out regularly twice on Sundays, but are now silent. The band of ringers will spare no effort to reinstate a ring of bells which will give pleasure to touring bands and Bampton people alike.

Any donations from bell lovers would be appreciated and should be sent to the treasurer of the Appeal Fund: Mr. L. Lyons, 2, National Terrace, Bampton, N. Devon.

DEATH OF MR. E. MARRIOTT

Mr. Ernest Marriott, of Wymondham, Leicestershire, passed away after a long illness in the Framland Hospital, Melton Mowbray, on April 1st, aged 76.

A very good ringer in his younger days, he took part in several peals, most of them being rung in Yorkshire and Lincolnshire. One that he was very proud of was Kent Treble Bob Royal, rung in May, 1904, at Holy Trinity, Hull, conducted by Gabriel Lindoff. In this peal his friend, the late Mr. Clement Glenn, also took part.

A stalwart and a service ringer at St. Peter's, Wymondham, for many years, he was very highly respected both in the Melton District and down in the Fen Country, where he often went to ring Surprise Minor methods. Although he had lost his right leg he could handle a bell with great accuracy.

Cremation took place on April 4th and was preceded by a service in St. Peter's Church. In the evening a well-struck quarter of Bob Minor was rung on half-muffled bells at St. Peter's Church, by ringers of the Melton District, as a token of respect

OBITUARY

MR. A. F. MARTIN STEWART

Mr. A. F. Martin Stewart loved bells; it is doubtful whether the Exercise has ever had a more enthusiastic member. It was sustained interest, too, for his last outing took place on Easter Monday last, when he journeyed by car to Salisbury to hear an attempt for a peal of Stedman Triples at St. Thomas's. That was typical of Martin Stewart because, since he was forced to give up ringing, his chief joy was to sit in his car outside a tower to listen to the bells.

Mr. Stewart was past Master and former Central Council representative for the Salisbury Guild, nevertheless he took much interest in the work of the neighbouring Winchester and Portsmouth Guild. He rang peals for the latter Guild under the conductorship of such stalwarts as George Williams, Alf Pulling and George Preston, and in the company of such ringers as the Rev. F. E. Robinson, Frank Bennett, George Pullinger, F. S. Bayley, Eli Waters and many others at a time when a peal attempt meant an arduous journey by rail or by bicycle. Latterly he attended the Christchurch District meetings in addition to those of the Wimborne Branch of his own Guild and supported in a very practical manner the Bournemouth Rally and Dinner.

It is said that Martin Stewart was originally a College Youth, but that on an occasion when a peal attempt was being made with George Williams conducting, George observed that it could be a Cumberland peal if one of them were not a College Youth. 'If that's the only difficulty,' said Martin, 'make me a Cumberland,' and so Martin Stewart changed his allegiance from the Ancient Society in favour of the one to which his old friend, George Williams, belonged.

Although he was such an enthusiast, he could not persuade his family to take the art very seriously, nevertheless many ringers have enjoyed Mr. and Mrs. Stewart's hospitality at Ferndown. The visit would be most interesting as Mr. Stewart was the head of an extensive and well-known nursery business founded by his father nearly a century ago, but, inevitably, bellringing would become the main topic, handbells brought out and endless bellringing tales told and retold.

During the last few months of his life Martin Stewart suffered grievous loss and much sorrow. His chauffeur-valet died suddenly in his sleep early in January; he was devoted to Mr. Stewart and only a few days before had arranged a successful little surprise for his employer by getting a tape recording made of the Christchurch Priory bells ringing in the New Year and including a message of greeting from the Christchurch ringers to Mr. Stewart. Martin was delighted with the result and had it played over time and again—he missed his friend and valet very much.

A few weeks later Mrs. Stewart died suddenly; she was a great social worker in the Ferndown district and most unexpectedly she collapsed and died whilst on the way to a local meeting. It was a crushing blow and, although his family rallied round him, he felt his tremendous loss very deeply. He died on April 6th.

THE FUNERAL

The funeral of Mr. A. F. Martin Stewart took place at Hampton Parish Church, Dorset, on April 11th and interment followed in the churchyard. The service was conducted by the Vicar and the committal by the minister of St. Andrew's Presbyterian Church, Bournemouth, where Mr. Stewart worshipped.

Prior to the service the bells of the church were rung half-muffled by the local band and some visiting ringers. A well-struck course of Grandsire Triples was rung at the graveside by Herbert A. Mitchell 1-2, Daniel T. Matkin 3-4, Arthur V. Davis 5-6, Fred Price 7-8. Among the ringers present in addition to the above were Mr. L. J. Lockyer (chairman, Wimborne Branch, Salisbury Guild), Mr. Alan MacDonald, Mr. George Pullinger (Winchester Guild, Mr. J. MacDonald (College Youths), Mr. and Mrs. R. Harris Mrs. R. King and Mrs. Vatcher represented the local band.

The coffin was covered by the family wreaths and the numerous floral tributes included wreaths and sprays from St. John's Ringers (Surrey Road), Bournemouth; Christchurch Priory Ringers; Mr. and Mrs. F. Price; the Salisbury Diocesan Guild; Winchester and Portsmouth Diocesan Guild (with which was associated Mr. George Pullinger, Past Master).

MR. JOE DURHAM

On April 1st, after a very brief illness, Mr. Joe Durham, of Bishopstone, Wiltshire, died, aged 68 years. Throughout his life he resided in his native village, always serving his church faithfully and cheerfully. He was a bell-ringer for more than 50 years and captain of the tower for a very long time.

His good nature and quiet friendliness made him liked by all. He will be missed at local Association meetings, to which he often travelled many miles. What a pleasant man he was!

MR. F. C. SMALE

When the writer was staying in Sussex, many years ago, he attended a meeting of the County Association and happened to sit next to a ringer who said that he was soon going to move back to his native Devon. This man was Mr. Frederick Charles Smale, who later became a very live wire in the Guild of Devonshire Ringers. He was general treasurer (1938-40), general secretary (1940-50), and a Central Council representative 1939-50. In addition to these offices, he was a former chairman of the N.W. Branch of the Guild.

He will always be remembered with gratitude by several members of the Guild for organising many mid-week ringing trips in different parts of the county, during several summers. To 'The Ringing World' he contributed most interesting articles, particularly 'Tower Hunting in Devon' (1955) and 'Ancient Bells in Devon' (1956).

A keen churchman, and an Exeter Diocesan Reader from 1941 until illness forced him to give up this work, he was beloved by all who knew him. There is no doubt that from the hearts and lips of his many friends the prayer 'Grant unto him, O Lord, eternal rest and let light perpetual shine upon him,' has already gone forth and will continue to do so when we think of him.

His funeral took place at Okehampton on April 1st. Unfortunately, the early hours prevented members of the Guild from being present, but the Guild was represented by its general secretary, Mr. E. Maurice Atkins, and Mr. Charles Sangwin (N.W. Branch).

MR. ARTHUR BRADLEY

AN APPRECIATION

Arthur Bradley, who passed away on February 4th in his 85th year, will be remembered by his many friends in the Essex Association as the captain of the Fryerning ringers for well over 40 years.

He learnt to ring at St. Mary's, Broomfield, in the latter part of the last century and had many quarter peals and date touches in the six-bell towers in the Chelmsford District.

In 1912 he moved to Fryerning, where there were then five bells and a call change band. In 1919 a treble was added and with the help of William Lincoln, who would walk from Writtle for practices, Fryerning ringers were soon ringing most standard Minor methods. With Arthur Bradley as captain, the Fryerning band soon achieved a proficiency very seldom equalled even today. In 1932, for instance, there were no fewer than 201 720's rung for practice and service in 69 different methods. All these were rung by the local band in a small six-bell tower in a predominantly agricultural area. The high ringing standard of the local band attracted famous ringers from all over Essex to join in 720's for service and practice. Of the 201 720's rung in 1932, Arthur Bradley took part in 191 of them and conducted 112.

As well as the fantastic amount of ringing with the local band Arthur Bradley took part in a few peals and took a great interest in the activities of the Essex Association. Arthur loved Fryerning bells and the church in which he regularly worshipped and it was very hard for him, when, in the latter years of his life, he was unable to climb the steps to the belfry. He maintained very keen interest in all ringing subjects.

The funeral took place in Fryerning on February 18th and he was laid to rest in the shadow of the tower, which he loved and served so well. Half-muffled ringing took place before the service. A course of Grandsire Triples was rung at the graveside and during the afternoon a half-muffled peal of 63 Minor methods was rung on Fryerning bells as a token of regard and respect for a ringer, who, although tied to one tower for the greater part of his life, still managed to attain an extremely high standard of ringing. May he rest in peace.
H. W. E.

MR. H. J. CHAFFEY

With regret we announce the sudden death of Mr. Hubert James Chaffey, of Widdleshams, Surrey, on April 9th, aged 79.

A very enthusiastic bellringer in his younger days, he was a former member of the Winchester Diocesan Guild and sometime Ringing Master of the Chertsey District of the Guildford Diocesan Guild. His first peal, one of Minor, was rung at Seale, Surrey, on January 21st, 1911, and there are over 90 peals recorded in his peal record book.

OUTINGS

CALL CHANGE OUTING

The ringers of St. Mary's, Diptford, Devon, held an outing on Easter Monday, visiting the towers of Bickleigh, Shaugh Prior, Meavy and Buckland Monachorum. 'Ten peals of 60' on thirds with rise and lower were rung. The bells of Meavy and Buckland Monachorum are recommended to visiting teams. Diptford ringers invite visitors to their own tower.

TWYFORD

An enthusiastic coachload of ringers took part in the Bank Holiday outing, arranged by Twyford ringers. At Wavendon, the party were met by the Master of the Oxford Guild and then came the excitement of the ancient church of Earl's Barton, where the ringing chamber is reached by climbing a long steep ladder, which is curved in an alarming manner to fit the tower. No wonder one of our charming ringers found the Easter flowers more interesting, when she saw the ladder.

Two Northampton towers—St. Peter's and Holy Sepulchre—followed lunch and at Buckingham the heavy eight (tenor 27 cwt.) at SS. Peter and Paul's proved to run very easily. The last tower was Hardwick, where George Gilbert rang his first peal. A marked improvement was noted after the outing in the service ringing of the large band of learners. Special thanks to Mr. Smith, leader of Twyford band, for the excellent arrangements.

ANDOVER DISTRICT

A big programme was arranged by the Andover District on Easter Monday, when they visited Wiltshire. Before lunch at Bradford-on-Avon, ringing was had on two sixes—West Overton and Hilperton. Two misfortunes followed—at Holy Trinity, Bradford-on-Avon, a broken clapper, and at Christ Church, a broken rope. However, at Edington Priory all was well, the highlight being a course of London on the heavy six. The hour's ringing at Westbury before tea was enjoyed by all.

Two rings of eight followed—Melksham and St. Andrew's, Chippenham—where Little Bob, Double Norwich and Cambridge were rung. Grateful thanks are extended to all who met us during this enjoyable outing.

DERBYSHIRE ASSOCIATION

Provost Urges More Public Relations

The annual meeting of the Derbyshire Association was held at Derby on April 8th, and was attended by ringers from various parts of the county. Ringing took place on the bells of the Cathedral, St. Alkmund's and St. Peter's Churches, and a service was held in St. Peter's Church, conducted by the Vicar, the Rev. C. A. Shaw.

Tea was served in St. Peter's Parochial Hall by Miss Wickman, assisted by wives of St. Peter's ringers.

The business meeting was presided over by the Provost of Derby, the Very Rev. R. A. Beddoes, president of the Association. In his opening remarks, the Provost congratulated those who organised the annual dinner. On the report for 1960, he warned the Association on being on the defensive, what we had to ask is 'How can we make ourselves heard?' He said that the work of ringers was greatly appreciated, but often taken for granted, except when the bells were not rung. We needed more public relations. On the financial side, the president suggested that a committee be formed to improve the position, with a suggestion that at churches where there are bells, the Parochial Church Councils might be invited to make a small contribution.

The annual report and balance sheet for 1960 were adopted. Grants from the Association's Bell Repair Fund had been made to Chelmorton and Bakewell.

Reference was made of the course on bellringing, held at West Hallam, under the auspices of the Derbyshire Education Committee. This was a success, and it is hoped that further courses will be arranged.

It was decided to hold the 1962 annual meeting at Derby, and a general meeting at Bakewell in July.

The meeting closed with a vote of thanks to the Vicar of St. Peter's for taking the service, to the incumbents of the various churches, who had placed their bells at the disposal of Association members and visitors, and to those who arranged tea.

SHEFFIELD AND DISTRICT

Good use was made of the eight bells of Ecclesfield Parish Church by members and visitors from as far afield as Coventry, when the Society held its meeting on April 8th. Ringing included a touch of Duffield Major, also London and Bristol Surprise Major.

The new 2-year fixture cards were available, also a supply of the Central Council's latest booklet 'Ringing for Service,' which were quickly sold.

The usual routine at the business meeting was varied in that the chair was taken by the Society's new president, Mr. F. Cardwell, and that Mr. J. J. L. Gilbert deputised for the secretary, who was unavoidably absent.

A pleasing feature was that the customary vote of thanks was very ably proposed by 15-year-old Stuart Armeson, who recalled that the first meeting he attended and at which he became a member was at Ecclesfield.

Mr. N. Chaddock commended 'The Ringing World' to all those who not already subscribers and it was decided to show appreciation for the Jubilee edition by donating £1 ls. to the funds of 'The Ringing World.'

Next meeting, Dronfield and Norton, May 6th.

CANNOCK RINGER'S TRAGIC DEATH

A peal attempt arranged for April 15th, at St. Luke's, Cannock, to welcome the new incumbent, the Rev. H. L. H. Townshend, was postponed owing to the death, under tragic circumstances, of Mr. Arthur Armstrong, one of the Cannock ringers, who was to have taken part. He died in Stafford General Infirmary as the result of a road accident on Friday evening.

THE LUFKINS OF ARDLEIGH

AN unusual ceremony took place on April 8th, when members of the Lufkin family assembled in Ardleigh Church, near Colchester, for the rededication of the Lufkin Memorial.

The Lufkin family originally came from the Ardleigh and Dedham region, and later spread along the Essex coast between Harwich and Maldon. There was a Nicholas Lufkin at Lufkin's Farm, Dedham, in 1432.

The name is now extremely rare* and the British Isles had been scoured for living members of the family. Eight separate families had been contacted, and of these six had gallantly offered to pay the cost of the restoration of a monument to Barbara and Henry Lufkin, who had died in 1721.

After hearing a description of their family history, they were given an account of the family's association with the ring of bells in Ardleigh Church by the local tower captain.

Major Thomas Lufkin, he said, soon after the Restoration of the Monarchy, had given John Darbie the job of adding two bells to the four already in the tower, and all the six were fitted out for full-circle ringing. The two trebles (present third and fourth) were inscribed with Darbie's name and the dates 1675 and 1676, and the second (present fourth) was also inscribed 'Thomas Lufkin C. W.'

The fifth (present seventh) had been recast in 1802 by Briant, of Hertford, and the churchwarden's name inscribed on this bell was P. Bromley. In the previous century a Lufkin had married a Bromley at Ardleigh, so this bell has an association with the Lufkins, as it were, by marriage.

When the six were augmented to eight in 1892, the churchwarden's name inscribed on the new second bell was J. M. Lugar. Ann Lufkin had married Edward Lugar in 1711, and the two families at one time together practically ran the village. The Lufkins have an association with this bell not only by marriage but also by a long-standing family friendship.

The ringing chamber at Ardleigh is on a gallery and the ringers can be seen from the body of the church. As each bell was mentioned it was rung for a couple of whole pulls as a demonstration.

Major Thomas Lufkin's grandfather, Dr. Thomas Lufkin, had made a will in which he left, among other things, '£5 to the poore of Ardleigh, and 40/- to my maidservant, Margaret Whent.' At this point Mrs. Whent addressed the following remarks to the Lufkin family: 'I am sorry

my son cannot be here this afternoon, but he is driving a train and cannot get away from his work. He gave me this message to you: "My name is Dennis Whent. I was born and bred in Ardleigh and learnt to ring the bells in Ardleigh Church. I am very grateful for the money Dr. Lufkin left to my great-great, etc., grandmother, but I am afraid it had all gone before it got down to me. But I am even more grateful to his grandson who installed the ring of bells".'

Finally, the last full peal rung in the tower, in January, 1960, had been conducted by one of the subscribers to the restoration of the monument, Mr. Frank B. Lufkin.

While the family were having tea in the Vicarage, a quarter peal of Plain Bob Major was rung in their honour.

A VETERAN OF SUSSEX

HENRY STALHAM for his 89 years is surely 'one of the few' that are still actively engaged in ringing for service, practice and the occasional peal. So it was that on April 8th—the band meeting one short for Stedman Caters—he rang his first peal for the College Youths after a membership covering well over 40 years.

It seemed so fitting, too, for Harry to take part just after his 89th birthday in a memorial peal to his very old friend and ringer John Dearlove, whose funeral took place the previous Thursday.

Harry Stalham is an ever-present at his tower, St. Nicholas', for service and practice ringing. His concentration in peal ringing, even at 89, is something to be seen to be believed. A wonderful man for his years, he not only serves his own tower but also moves around other towers in his beloved county of Sussex, giving a helping hand at practices and meetings.

While this latest performance which, incidentally, represented the first by the College Youths on these bells, gave him pleasure, one could tell by his conversation afterwards how deeply he felt at the passing of yet another fine old ringer in John Dearlove. Many will remember Jack, as he was known in Sussex, and at once associate him with the select band who rang London Royal at St. Peter's, Brighton, under the conductorship of the late Keith Hart.

May there be many more, Harry. Keep it up, and don't ever change from being who you are and what you are, will you? A safe return from Stoke-on-Trent.

W. A. RIDDINGTON.

Another No. 1 reader and subscriber ever since is Mr. **BELFRY** James W. Chapman, of St. Leonard's, Streatham, who, we regret to learn, has done no ringing since November, when he had to enter hospital for an internal complaint. He is now home and hopes soon to be back at the ropes. Aged 79, Mr. Chapman was for 38 years captain of the St. Leonard's band.

After over 50 attempts Mr. W. F. Oatway has now scored his first peal of Stedman Triples. This was rung at Maidenhead and was his 40th peal.

Captain of Bramley (Surrey) ringers, Miss Margery Winifred Faulkner, was married at Bramley Church on April 8th to Mr. Peter Coleman. Congratulations!

Miss Ann Cox is leaving the Royal Surrey County Hospital, Guildford, at the end of April, having accepted an appointment at the Royal Hampshire Hospital at Winchester.

Mr. B. G. Key informs us that there was an error in reporting the peal of Plain Bob Major at Broughton, Staffs (page 230). It was rung on March 18th and not March 11th.

The highlight of the Derbyshire annual dinner, writes a correspondent, was the presentation of a stay (broken by 'Jafus' at St. Alkmund's, Derby), suitably engraved and carved with an effigy of 'Jafus' at one end.

For his 21st birthday peal, Mr. Roderick W. Pipe, selected Birmingham Surprise Royal, in honour of his happy association with the bells of the city and the university. The peal was rung in his own village church of Grundisburgh and was composed and conducted by him.

The sympathy of a wide circle is extended to Mr. David J. Forder, of North Stoneham, Hants, a former Master of Southampton University. Last October he was knocked from his motor scooter and spent three months in hospital with a broken leg. On Easter Sunday, when he was beginning to use his leg again it broke for no apparent reason. He is now in Winchester Hospital.

GOSSIP

The recent quarter peals of Grandsire Doubles by members of the band of St. Mary's, Penzance, were quite an achievement. With the exception of the curate, all the young ringers are choristers or servers of St. Mary's, and they learnt to ring only a short time ago. The conductor is 15. Their own bells being heavy, they walked to Ludgvan, 34 miles away, and back again to ring their first quarter. Encouraged by their success, they achieved a quarter on their own bells for Evensong the following Sunday. No quarter peals had been rung by a St. Mary's band for at least 50 years.

The peal at Dartford on April 8th, in 2 hours and 49 minutes, is believed to be the fastest peal of Triples on the bells.

The band who rang the peal of Stedman at Wadhurst, Sussex, on April 15th, would like to thank Mr. and Mrs. C. A. Basset, who so kindly entertained them to tea, after the peal.

At a recent Thursday practice meeting at Elland, Yorks, no fewer than 31 ringers arrived from eight different towers. 'All who come are most welcome,' writes Mr. D. Smith, the secretary.

The ringers, of the peal at Cradley, Worcs, wish to thank Mr. Clive M. Smith, of Lichfield Cathedral, for his interesting remarks, which were found in a note attached to one of the ringer's cycle saddles.

Sunday, May 8th, is Industrial Sunday. A special service associated with industry is being televised from Dartford Parish Church on B.B.C. Television and it is hoped that the bells will be heard between 10.55 and 11 a.m.

Would you believe it! A quarter peal of Minimus has been rung in a minibus. When?—April 10th. Where?—between Plymouth and Hatherleigh. Perpetrator?—John McDonald. Methods?—Plain Bob, Double Bob, Reverse Bob and Little Bob.

A quarter peal of Grandsire Doubles at Pylle, Somerset, is of special interest in that Mr. H. C. Hill, at the age of 70, rang his first quarter, having learnt to handle a bell at the age of 66. His grandson also rang in the quarter.

**ST. GEORGE'S CATHEDRAL
(CAPE TOWN) BELLS
TO RING AGAIN**

The eight bells in St. George's Cathedral, Cape Town, cast at Whitechapel in 1834, were hung dead and clocked from the floor below. Small wonder that the fourth and seventh are cracked.

Ringling was stopped by the architect in 1935 and the bells were lowered to the ground in October, 1952, prior to the rebuilding of the east end.

Towards the cost, the Smith 'bequest' to the Cathedral, in 1945, has now grown to £14,000. Mr. V. Sheppard has, since 1958, carried out an intensive campaign to get the bells ringing again and at the end of January he gave a lecture on the subject to the Cathedral Friends' Society that evoked considerable interest.

A decision to invite tenders for the work from overseas was taken by the Cathedral Building Fund Central Committee. The Dean of Cape Town now indicates to Mr. Sheppard that under the terms of the bequest they could order a completely new ring of bells.

When the bells have received attention or a new ring provided it is suggested that the bells be hung temporarily in the Cathedral precincts till a permanent campanile could be built as part of the completed Cathedral.

The Dean also told 'The Cape Times' that as for bellringers there was a first rate team of St. Mary's, Woodstock, who they hoped would help them for a start and train others to take over on a permanent basis.

DEDICATION

LONG SUTTON, SOMERSET

On April 15th, a congregation of over 200 packed the beautiful Church of the Holy Trinity, Long Sutton, for the dedication of a new treble bell, the gift of Mr. Paul Field, in grateful memory of his wife, called to rest April 16th, 1960. The service was conducted by the Vicar, Rev. H. S. Hale, but owing to the unfortunate illness of the Rev. H. F. Warren (Master of the Bath and Wells Diocesan Guild), who was to have performed the dedication ceremony, this was undertaken by the Rev. A. J. Vincent (Vicar of Kenwyn, Cornwall, and general secretary of the Truro Diocesan Guild).

Immediately following the service a quarter peal of Grandsire Doubles was rung after which the tower was open till 9 p.m. to the many visiting ringers present.

The new bell was cast and hung by Messrs. Mears and Stainbank, who are to be congratulated on an excellent job, giving Somerset another glorious ring of six.

The bells and their inscriptions are as follows:

Treble: To the Glory of God and in gratitude for the life of FLORENCE FIELD, called to Higher Service Easter Eve, 1960. The gift of her husband. (Weight 6½ cwt.)

2: SANCTA MARIA ORA PRO NOBIS.

3: W.S. x I.S. BKL 1816.

4: NOS MDVXLTR.

5: TRINITATEM ADOREMVS.

Tenor: I TO THE CHURCH THE LIVING CALL AND TO THE GRAVE DO SUMMON ALL. (17½ cwt.)

50 Years Ago

'R.W.' April 28th, 1911.—

'Which,' asks a daily paper, 'is the largest weathercock in London? Surely an opportune question for fickle April. Apparently the honour is held by the vane which crowns the little leaden cupola over the city church of St. Peter-upon-Cornhill, and is now being repaired. It is a big key, the symbol of St. Peter, and measures more than nine feet, being a few inches longer than the dragon that surmounts Bow Church, Cheapside. St. Peter's, Cornhill, has a right to a conspicuous weathercock, for it claims to have been the first metropolitan church in England, and to have been originally founded by the British King, Lucius, about four centuries before the arrival of St. Augustine.'

PERSONALITIES OF THE EXERCISE - 17

**MR. REGINALD W. REX,
Oxford Diocesan Guild**

One of the most enthusiastic and competent ringers of the South of England is Mr. Reginald W. Rex, of Thatcham, Berks. Even the loss of his left arm, in an unfortunate accident at work in 1955, did not dim his enthusiasm, as within a fortnight of this, he was ringing Stedman Cinques and Spliced Surprise. He has since rung 148 peals, and in 1960 he rang 56 peals, including 4 Surprise Major in a day!

Reg Rex was born at Highclere, Hants, on February 10th, 1903, and was educated at the local village school. His father was a keen choirman, and used to take him into the belfry to watch the ringing. He was taught to handle a bell in 1917, and rang Grandsire Double from cards. By attending meetings he learnt to ring Double and Triples properly. In 1922 he went to live in Bournemouth, and occasionally rang at St. Peter's and St. John's, but as he was courting and later married, he did not do very much. However, when he returned to North Hampshire, in 1925, to take up horticultural and nursery work, he joined the band at Woolton Hill, under the leadership of Mr. Henry Balaam, and was soon ringing Cambridge and London Minor. Mr. Tom Lock was also a member, and Reg well remembers the days when they were Boy Scouts together.

He did not ring his first peal until August Monday, 1928, when he rang the 3rd to Cambridge Major at Sherfield English, conducted by that doyen of conductors, George Williams. Shortly after this he rang in the first peal on the augmented eight at Highclere, also Cambridge Major, George Williams again conducting.

In 1930 he moved a short distance to Donnington, Newbury, and was, for a time, a member of St. Nicholas', Newbury, later being invited to take over the captainship of Thatcham, and also becoming Ringing Master of the Newbury Branch of the O.D.G. During this time he rang many peals with such well known ringers and conductors as George Williams, Richard T. Hibbert and George Gilbert on all numbers up to Stedman Cinques, and also joined the Society of Royal Cumberland Youths. He was a frequent visitor to the two Reading towers, where he gained much experience in 12-bell ringing and Surprise Major. His present total of peals is around 600, of which he has conducted 12. They have been rung in a great number of methods up to Spliced Surprise, and on all numbers of bells. He has rung Plain Bob, Treble Bob and Cambridge, from Minor to Maximus, and has taken part in two 9-bell peals at Basingstoke, but has no wish to even attempt a peal of Minimus!

Reg always enjoys peal tours and outings, and has rung peals in a large number of towers from Yorkshire to Cornwall, and East Anglia to North and South Wales. Some of the peals which stand out in his mind are Double Norwich and Superlative at Sherborne Abbey, a peal of Stedman Caters at St. Laurence's, Reading, with hardly a misblow from start to finish, Cambridge at Aldermaston starting at 2.45 a.m., and a recent peal of 8 Surprise Minor, conducted by Geoffrey Dodd, and rung by a District band, who met each Wednesday, and worked up from Plain Bob. Many of his peals have been rung with such well known conductors as Walter Judge, Alan Pink, Wilfred Williams, Charles Kippin and Frank Harris. He is always willing to help beginners if they show interest, but likes good striking and rhythm.

In addition to ringing, Reg has always been musically inclined. As a lad he learnt to play a cornet in a local band. He became solo horn player in the South Berks band for many years, and later in the Newbury British Legion band. He has taken part in many band contests in the Midlands and West Country, also in London and Brighton. Reg has three sons, but none, he regrets to say, became interested in ringing.

His friends are always amazed at his cheerfulness and energy, and the loss of his arm in no way affects his excellent striking. He is 'game' for anything, and if a band in his area was one short for 40.320 Bob Major no one would be surprised if he agreed to stand in! All his friends will wish him 'good luck' in all his future ringing adventures.

APACE.

MORE BELFRY GOSSIP

Well known King's Lynn ringer, Mr. Thomas Greenacre, died on April 13th, aged 69.

Newbury Branch members tell us that they are specially proud of the peal of Kent T.B. Royal at Newbury Parish Church. It was the first ten bell peal on the bells to be rung by a Newbury Branch band.

Mr. James R. Lawson, carillonneur of The Riverside Church, New York, arrives in London on June 26th and hopes to contact many of his English friends.

We regret to learn that Mr. Harold Chant had an operation on April 17th for the removal of the gall bladder. He is expected to be in hospital for some little time.

In a car mishap recently on Pickering Moors while returning from an outing were Mr. F. A. Munday, of Bradford, and two other ringers. Happily they have suffered nothing worse than bruises and a shaking.

After about 17 attempts by the local band to score a quarter on eight bells, Harlington, Middlesex, ringers have succeeded. After con-

tinuous attempts at Grandsire they decided to change to Single Oxford Bob Triples and met with a full reward.

A reader enquires what are Davis silencers and Seages apparatus, both of which are referred to in 'Ringing for Service.' Perhaps the author will explain.

Mr. Alfred J. Whittle, of Reading, writes, through 'The Ringing World,' thanking members of the Surrey Association for their kindness to him, his wife and young son, on the occasion of their annual meeting at Reigate. He regrets that in order to get home he had to leave before the meeting was concluded.

Beaconsfield ringer, Mr. John Howard, who was married at Penn, Bucks, on April 15th, to Miss Wendy Jackson, took part in a touch of Stedman Doubles after the reception. His best man, Mr. Stanley Hatfield, was also ringing. Afterwards 720 Plain Bob Minor was rung by May Wingrove 1, Kathleen Fletcher 2, Dorothy Fletcher 3, G. Riglar 4, W. Henley (cond.) 5, A. Bridges 6,

GUILDFORD GUILD AT DINNER

OF the company of 130 attending the annual dinner of the Guildford Diocesan Guild at the Stoke Hotel, Guildford, on April 15th, only 21 knew the editor and founder of 'The Ringing World,' Mr. John S. Goldsmith. The company was received beforehand by the Master of the Guild and Mrs. C. W. Denyer and Bishop F. F. Johnston and Mrs. Johnston, the principal guests. A great welcome was accorded Mrs. A. H. Pulling and Mr. A. C. Hazelden, who will be 85 within a month, and has made a good recovery from his illness. Other visitors included Mr. R. Roger Savory (honorary secretary of the Winchester and Portsmouth Guild) and Mrs. and Mrs. Tom Chapman, who had been peal ringing in Guildford that afternoon.

The toast of 'The Memory of J. S. Goldsmith and other officers and members of the Guildford Guild' was proposed by the Master, who said if it had not been for the enthusiasm and work of Mr. Goldsmith, who helped to form their Guild, they would not be there that night, but would still be a part of the Winchester Guild.

HOSTS TO ALL RINGERS

This year they had the honour to be hosts to ringers from all over England and the world on June 17th, when a festival would be held at Guildford to honour 50 years of production of 'The Ringing World,' which as they all knew, Mr. Goldsmith started. He hoped they would support the Guild officers in the arrangements.

Of the others officers who had passed on during the year, the previous Sunday they lost a very faithful officer in Mr. Bert Chaffey, who died suddenly while walking across Windlesham Recreation Ground. For many years he was Ringing Master of the Chertsey District and his name appeared on peal boards in nearly every tower in the Farnham District. Another loss last summer was Mr. Boylett, who rang at Pirbright and did his share in his village church.

The Master concluded with congratulations to 'The Ringing World' on its jubilee issue. 'We must keep the paper alive at all costs,' he said.

The toast was drunk in silence and was followed by a course of Grandsire Triples rung by E. J. Bragg 1-2, E. G. R. Wells 3-4, Tom Page 5-6, W. Viggers 7-8.

HENRY VIII AND GUILDFORD DIOCESE

The toast of 'The Diocese of Guildford' was submitted by Mr. F. Oatway (Leatherhead), who mentioned that Henry VIII came to the conclusion that the Winchester Diocese was too large and legislation was passed creating a Diocese of Guildford, but a bishop was never appointed. The measure was repealed in Queen Victoria's reign and a Bishop of Guildford appointed as a suffragan to the Bishop of Winchester. Guildford became a separate diocese in 1926 and on May 17th the new Cathedral, built to the design of Sir Edward Maufe, would be consecrated.

On March 15th a bell was cast to the memory of Alfred H. Pulling and this would be hung in the Cathedral in time for the consecration. That week their new Bishop was enthroned; he was a live-wire and they all hoped and prayed that under his leadership much would be achieved for the advancement of the Church by the See of Guildford.

The reply was by the Rev. H. R. Wilds, Rector of Farnham, who said Farnham people were feeling very sore about their Castle, but were now pleased that the Castle was to be used in connection with Church

work overseas. Those who came there would be ambassadors to the greater world outside their country. Farnham would thus have some little honour in sharing in that privilege.

The toast of 'The Ladies and the Visitors' was proposed by the Vicar of Aldershot, the Rev. T. Dart. He said the toast of 'The Ladies' went back to the days when all the ringers were men and ladies only appeared once a year and then retired behind their antimacassars for 12 months. The toast, he said, would be replied to the charming Miss Powell, who was equally charming in the way she handled a bell rope. She was one of the few ladies of the Guild to have called a peal.

Among the visitors he welcomed were Bishop Johnston, Mr. Roger Savory (honorary secretary of their Senior Guild), Mr. and Mrs. T. Chapman, from Bishopstoke, Mrs. Pulling, Mr. Hazelden and Mr. F. E. Collins, toast-master. Mr. Dart had a word of congratulation to Miss Nancy Bragg on ringing her first peal.

Miss Catherine Powell and Bishop Johnston replied. The Master mentioned that next Friday Bishop Johnston would be 70 years of age—twice the age of H.M. the Queen, whose birthday was the same day. Bishop Johnston said he left Egypt after 40 happy years. The only crime he committed was of being a Britisher.

An enjoyable entertainment was provided by Joan Althorp, Harold Cole and James Kimber, and the Hershaw handbell ringers.

GLOUCESTER & BRISTOL DIOCESAN ASSOCIATION

THE annual meeting of the Gloucester and Bristol Association held at Moreton-in-Marsh, was attended by well over 200 of its members, together with at least another 60 relatives and friends. There were a number of reasons for this being a record meeting; ballot for a new Master, alterations to rules, a decision on the form of the Skidmore Memorial and the fate of the Association's handbells. Members were welcomed by the Rector, the Rev. Colwyn Hargreaves, M.A., who opened proceedings with prayer. All the reports were accepted as printed and last year's elections of new members ratified. The result of the ballot for Master showed a majority in favour of Mr. Albert Bennett, of Bristol City, and he was duly invested with the badge and chain of office by Mr. W. H. Trueman, whom he thanked for the able way the work had been done during the past months. Mr. Bennett also said that he hoped that Mr. E. T. Newbury, the unsuccessful candidate, would try again and meet with success next time.

There was also a ballot for six places on the Management Committee, so the tellers, Miss D. Edwards, of Sandbach, and Mr. W. Lampard, of Adelaide, Australia, were kept busy throughout most of the meeting. Mr. R. Dowdeswell and Mr. E. F. Hancock were appointed auditors in place of Mr. Leaker and Mr. Martin, who did not seek re-election.

All alterations to rules proposed were passed, viz., (a) clearing up the position re affiliation to Central Council and the nomination of representatives; (b) the affiliation fee payable by Church Councils increased to £1 is.; and (c) that from the next A.G.M. all vice-presidents will be elected for life, instead of annually, and reasons for their nomination will have to be given.

The Skidmore Memorial will take the form of some object to be used in St. Ambrose's Church, the idea of a library being defeated.

A DAY'S RINGING IN SOMERSET

Three carloads of Cornish pasties and ringers left Stratton at seven on the dismal rainy Bank Holiday morning. The first tower was St. John's, Wellington, Somerset, where we were joined by Tom Myers and the Plymouth ringers. Old acquaintanceships renewed, the ringing began with a good touch of Grandsire Triples. We rang for an hour and then the new six cars set off for Street.

The bells here proved the most difficult of the day as inside the tower they were not easy to hear. Driving on through Wells we reached Chewton Mendip at mid-day; that is except for one carload, which missed the village and conspicuous tower completely, arriving at Farrington Gurney before the mistake was realised. We had some good ringing at Chewton Mendip, touches of Grandsire, Stedman and Plain Bob, then commandeered the top room of the pub in true ringers' fashion for lunch.

The pasties gone and beer consumed, the party drove back to Wells. We had hoped to ring at the Cathedral, but the bells were not obtainable, and we rang for an hour at St. Cuthbert's.

Our next tower was Chew Magna, where there was some good ringing on these fine sounding bells. And lastly on to Yatton. Here we had the best ringing of the day, and the general opinion was that the bells here were best.

All who took part will endorse a vote of thanks to Henry Trewin, of Stratton, and Billy Bishop, of Bristol, who, between them, arranged the day. J. S.

A proposal that the Association's handbells should be permanently given to Bristol Cathedral, was defeated after the secretary had outlined the history of the bells. They will remain available for loan to all affiliated towers.

Three young ladies of Westerleigh were congratulated by the Master on having qualified for the Girl Guides' Ringer Badge, and Philip Gray briefly outlined the Harpury course. The next A.G.M. is to be at Lydney on April 28th, 1962.

Due to the large number, tea had to be in three sittings, and this delayed service at St. David's Church, by half an hour. In his address the Rector said that although there was little about bells in the Bible, there was plenty about ropes, and took for the text the ropes used to bind Samson being new ropes. The theme was that although new things should be best, they are not always, and we would do well to look to, and hold on to all that is best in the old.

Very good use was made of all towers in the area, and thanks are due to the Rector, Mr. G. H. Harper, and his willing band of helpers for making the day such a success.

A MADRIGAL

Come rise and join in ringing all,
To change-ringing a madrigal;
For us the art of arts is this,
In work or play whiche'er it is.

Still in this science as of old,
Abiding in the Church's fold;
With minds alert and hearts elate
We long to serve both Church and State.

Then let us all with one accord
Ring changes to our heavenly Lord,
That one and all we may agree
That change-ringing is unity.

LETTERS TO THE EDITOR

THE WEDDING PEAL AT SUTTON

Dear Sir.—In the letter by Mr. Charles Lawton, of Sutton ('R.W.' page 255), which refers to the peal rung at Sutton ('R.W.' page 232), a number of points stated appear to be a little way from the truth.

As the ringers concerned are quite well known to me, and it did not seem to be that the conduct attributed to them could possibly be true, I contacted the Vicar of Sutton (Rev. R. C. N. Capey). This clearly appears to be another Evesham case!

Apparently, the couple who were married at Sutton (both regular ringers at Sutton Church) expected the bells to be rung for their wedding and perhaps a peal attempt in the afternoon also? Mr. Lawton informed them that as he (Mr. Lawton) would be away, no ringing could be arranged. They arranged their own, asking various members of the Guild to ring at Sutton in the morning and also in the afternoon.

The Vicar was aware that the bells were to be rung both in the morning and afternoon, though he thinks that with the arrangements being made hastily by the bride and bridegroom (at present still on honeymoon) a peal was not specifically mentioned to him. This latter point seems to be the one on which Mr. Lawton bases his letter. Presumably, had the peal been unsuccessful, we may never have heard anything about this incident.

Perhaps some kind words on the part of Mr. Lawton to those equally innocent ringers would furnish us with a rather pleasant ending to what may have been an unfortunate incident.—Yours sincerely,

ROBERT B. SMITH.

Marple, Cheshire.

P.S.—An exact copy of this letter has been sent to the Rev. R. C. N. Capey, at his request.—R. B. S.

RINGING IN HOLY WEEK

Dear Sir.—Reading 'The Ringing World' of April 14th I was perfectly disgusted at the peals and quarters rung during Holy Week. Where are the churchmen of today and where are the incumbents to allow such goings on?

Ever since I can remember, from Palm Sunday morning until Easter Day, the rule was definitely no ringing. In fact, during the whole period of Lent, ringing was very, very much curtailed, very often no practice nights. Of course, this ringing half-muffled on Good Friday is a lot of hooey, it just gives the ringer who can't keep his hands off a rope just for one week during the year an excuse to ring. I deplore this Holy Week ringing and I plead with all incumbents to stop it.—Yours faithfully,

F. HOPGOOD.

Teddington, Middlesex.

FAULTS CONTAGIOUS

Dear Sir.—Though the unbiased layman might suppose Attacks on poetry should be in prose. A letter published in your last edition Discredits this unfounded supposition.

A learned gentleman from Taunton writes To draw attention to a dread disease Infecting ringing poets; when it bites They send you verse with doubtful qualities.

We must beware; for though he might abhor The faults, of which he gives a neat description. The plague is shown to be contagious; for The symptoms all appear in his prescription!

Yours faithfully,
I EASTHAM HATTON.

Nottingham.

13,440 SPLICED SURPRISE MAJOR

Dear Sir.—I am sending two compositions of Spliced Surprise Major in six methods, on a plan which gives the extent of the 60 courses. 13,440, with the tenors together, which should interest a number of ringers of long lengths. However, the arrangement of methods is rather mixed and it would take a good band to ring the extent, but a number of shorter lengths can be obtained from the compositions, which should be found very musical.—Yours faithfully,

A. J. PITMAN.

SURPRISE MAXIMUS RINGERS ARE NOT SNOBS

Dear Sir.—May I reply to Mr. John Pladdys' letter, not on behalf of 'Spliced Surprise Maximus Snobs' or 'Peal mad fools,' but on behalf of the majority of young, up and coming Doubles ringers.

I, myself, have rung only a very few peals, most of which have been Doubles methods, but I, like many young ringers, hope one day to reach greater heights and to do this there has to be someone setting an example. Most of us see their names in the 'R.W.' each week and hope one day to be like them: they are our example.

Mr. Pladdys calls them 'snobs,' which means 'A pretentious person; one who affects a higher position than he can rightfully claim.' Rubbish! Mr. Pladdys can't have met many Surprise Maximus ringers, otherwise he would know they are among the most modest of ringers. No, Mr. Pladdys, it is you who is the snob and the fool. I met Messrs. Peter Border and Jack Millhouse after a peal of Cambridge Surprise Royal at Newark, which reminds me that I must congratulate Mr. Border on his masterly performance on the tenor, the first time it has ever been turned in to a peal. Their hospitality, even to a humble Doubles ringer, was something to be wished for from many non-peal ringers.

As for being fools, which means 'A weak-minded person,' this is absolutely ridiculous, no fool could ring Surprise Maximus, sir, although I have heard it said that one ringer you mention did try to light a cigarette halfway through a peal at Loughborough bell foundry! Rather foolish, don't you think? No, Mr. Pladdys, you are wrong, most of them are dedicated men, to improve the standard of change ringing and Sunday service ringing, and at the same time enjoying the hobby they know and like best. Knock that chip of your shoulder. Mr. Pladdys, and let's have some constructive criticism, instead of that lot of rubbish.—Yours sincerely,

JOHN R. PRATCHELL.

Southwell, Notts.

P.S.—Is Ernest Morris nothing but a peal grabber? I doubt it.—J. R. P.

PERSONALITIES OF THE EXERCISE—15

Dear Sir.—It was a pleasure to find two grand veteran friends of mine honoured in the portrait page on April 14th (Messrs. Winch and Marriner). I enjoyed 12 peals with Alfred, between 1903 and 1914, mostly in his own district, but with George only two are recorded, both in 1906, one of which was his first peal of Stedman. Undoubtedly both these loyal and faithful service ringers have set a fine example to the younger generation, which will take some beating.—Yours sincerely,

Wm. SHEPHERD.

Addlestone, Surrey.

CONGRATULATIONS

Dear Sir.—I should like to offer Mr. E. Jenkins my heartiest congratulations on his 1,000 peals. May he ring many more.—Yours sincerely,

E. W. PYE.

Saffron Walden, Essex.

A Visit To London

A party of members of the South Derbyshire and North Leicestershire Association spent an interesting day in London on April 5th, with a visit to the Whitechapel Bell Foundry, where they saw a bell cast, which is destined for East Africa. They were also given a practical demonstration of handbell tuning and their assembly. The foundry museum and the new Bow bells also attracted close attention. Messrs Mears and Stainbank are thanked for an interesting tour. Sightseeing and a theatre completed the day.

CAMBRIDGE UNIVERSITY GUILD DINNER

ON Saturday, March 11th, the annual dinner of the Cambridge University Guild was held in the hall of Selwyn College. Both peal attempts were successful. At Eaton Socon, a good peal of Stedman Triples, though delayed by the fact that two members of the band were riding on the wrong make of motor bike, was brought round under the able hand of Mr. Cook, in time for beer and sandwiches. It was found on descent that a Bedford ringer and his wife had seen fit to sit by the churchyard to listen to the peal—a touching tribute. A good peal of Spliced Cambridge, Yorkshire, Rutland and Lincolnshire was rung more soberly at Trumpington.

The afternoon's ringing began at St. Bene't's, where a good course of London was achieved, with oddments of Cambridge and Kent. At St. Andrew's was seen the quaint Cambridge custom of tying one rope firmly to the frame: to the perpetrators the effect was doubtless well worth the effort involved. Thereafter followed some fair Stedman, a course of London and some spliced, and a short service was held in the church at this point, conducted by the Vicar, the Rev. R. N. Evans.

A modest interval for tea was allowed before the rigours of the Roman Catholic church. Ringing here was better than usual and included Stedman, Cambridge and Yorkshire. The ringing chamber at Great St. Mary's was as crowded as usual, but from the apparent chaos there emerged some pleasing Stedman Cinques, some Cambridge Royal and Stedman Caters.

After a very satisfactory dinner, to which some 80 people sat down and which included a Scotch woodcock run down on the wing by Robin Heppenstall, somewhere north of Grantham, the non-resident members were welcomed by the vice-president, Mr. W. J. Ridgman. The toast of 'The Guild' was proposed by Mr. Frank Haynes who was immediately summoned by a Voice of Authority from the top table to 'Speak up.' He wondered whether the purpose of a university was the advancement of learning or the cultivation of beards, whether Dinner Day was not an excuse for nostalgic graduates to return to their old pubs, and whether indeed peal ringing itself was not merely an excuse for getting home late. At a time when nearly all Universities had their ringing Associations, Cambridge could still be said to be well in the lead and the present generation to be well the equal of the past. In honour of the memory of the late Canon A. C. Blyth, president of the Guild, Mr. Haynes felt that he could not do better than repeat the tribute of Tyrwhitt-Drake to the first president: 'It is impossible to calculate the debt which the Guild owes to the president.'

59 RINGERS IN RESIDENCE

In reply, the Master, Mr. J. R. Taylor, gave a concise account of the present state of the Guild. The resident membership, he said, was 59; a large number of ringers had been lost in July and thus the peal total of 12 was rather low, but it was hoped that this would improve as the present bands gained experience. The gain of 25 new members, of whom only one was an expert, had laid the emphasis on training at various levels. For learners this had included the usual practices at St. Bene't's, muffled practices at St. Andrew's, cycle outings and Sunday ringing at Trumpington. Surprise Major had been pursued at the practices at St. Andrew's and a recent good quarter of four-spliced was a sign of the progress made there. Progress had been made, too, on ringing on higher numbers at Great St. Mary's and a variety of touches had been achieved: thanks were due to Mr. Brown and Mr. Dennis for their help on Sunday evenings. Art for art's sake had produced a revival of handbell ringing and the decoration of the ringing chamber at St. Andrew's. The Master finally said that it had been felt desirable to establish some memorial to the late president, and that suggestions as to the form which this might take would be welcomed.

The toast of 'The Guests' was proposed by the secretary, Miss Frances Secker. This was delivered from the lower end of the tables in response to another Voice of Authority there sitting. The secretary touched on the

A CHESHIRE RINGING BRIDE

ON March 25th, Miss Hilary Kirkman and Mr. Peter Horn were married at St. James' Church, Sutton, Cheshire, the Rev. N. Capcy officiating. Both bride and bridegroom are keen, active ringers and are members of the Sunday service band.

The bride, who was given away by her father, wore a full length dress in white Swiss lace and carried a bouquet of carnations, lilies of the valley and hyacinth pips. She was attended by Miss Audrey Rowbotham.

The bells were rung prior to the wedding and the bridegroom rang a course of Cambridge and Plain Bob before the bride arrived.

After the reception the couple left for their honeymoon in Majorca.

A peal in seven Minor methods was rung in their honour during the afternoon.

ARCHDEACONRY OF STAFFORD SOCIETY

The Society travelled to the very edge of the Archdeaconry on March 25th, and visited Gnosall, one of the largest villages in England. The venue was the fine old Church of St. Laurence, with its magnificent Norman arches. This tower has recently experienced a revival of enthusiasm for ringing, due in no small way to the advent of Mr. B. G. Key and family.

The ancient bells, the earliest cast in 1711, were rung to a variety of Minor and Doubles methods and supervised by the Assistant Ringing Master, Mr. John H. Allen. During the afternoon the six bells of Haughton were also available.

A short service was conducted by the Rev. A. M. Farmer. This grand old man had returned from retirement to deputise for the Vicar, the Rev. H. Lowe, who was recovering from a recent operation.

After the service the congregation made its way to the nearby church school, where an excellent tea awaited. Approximately 100 people sat down to a spread provided by the local band, churchworkers and parishioners. Mr. Downes, the vicar's warden, extended a welcome to the Society and said how delighted he was to see so many people present. Later in the evening, the six bells at Church Eaton were available and quite a number of ringers called there on their way home.

Grateful thanks are extended to Mr. and Mrs. Key, the local ringers and their many friends for the splendid hospitality afforded to the Society. We have happy memories of this meeting and look forward with pleasure to the prospect of visiting Gnosall once more in the not too distant future.

D. J. T.

problem of the feminine influence in ringing and suggested that, in the Guild, perhaps the greatest difficulty might be the finding of a decent equivalent to the 'Master.' Amid anecdotes—and interruptions from divers Voices of Authority—the guests and visitors were warmly welcomed, and particular mention was made of two evergreen members of the Cambridge Youths.

In his reply, Mr. David Martin, vice-president of the London University Society, admitted to his confusion over the distinction between guests and visitors: any Guild member could have explained that this was purely financial. After some very amusing stories of his own Society's tour in Cumberland—in which they were seen on television to be lowering bells confidently to Grandsire Triples—Mr. Martin confessed that he had discarded the dictionary definition of 'guests' as 'an animal or vegetable parasite' and he thanked the hosts for their entertainment.

With this the gathering adjourned to the Tower Room for handbells and sherry (pro rata). Ringing on Sunday included Erin Cinques in the morning and some spliced at St. Andrew's in the evening, an attempt at sabotage by making off with the key of St. Andrew's being foiled by the finding of a duplicate. Finally, after a most successful weekend, on which those who made the arrangements are to be congratulated, the visitors gradually departed, leaving ringing in Cambridge in the safe hands of the residents for another year. OBITUARY

MR. JOHN DEARLOVE

A member of the Hurstpierpoint, Sussex, ringers, Mr. J. Dearlove passed away on April 17, after a prolonged illness, at the age of 70.

A Berkshire man by birth, he learned to ring at East Hagbourne, and there scored his first peal in February, 1911. Shortly afterwards he emigrated to Canada, and became associated with the ringers of the Cathedral of the Holy Rosary, Vancouver. War service with the Canadian Engineers brought him back to England, where he married, and after active service in France he returned to Canada at the end of the war.

By 1922 he was back again in England, and had joined the band at St. Peter's, Brighton, where he rang in a peal of Stedman Triples in January. His abilities soon obtained him a place among the regular ringers at St. Peter's, where he eventually totalled 62 peals on the bells, including the first peal of London Surprise Royal in the No. 2 (Brighton) version under the conductorship of Keith Hart.

From 1937 to 1940 he was committee member for the Southern Division of the Sussex Association and held the office of peal secretary from 1945 to 1954. Having moved to Hurstpierpoint in 1934 he was instrumental in combining for practice his own tower and that of Keymer. In 1960 the Hurstpierpoint ringers presented him with a bronze plaque in recognition of his long service, but owing to illness he was unable to be present at the ceremony.

The funeral service took place at his own church, where the bells, together with those of Keymer, were rung to muffled quarter peals.

A large number of his ringing friends were present at the service, and the Association was represented by the Master, Mr. R. Johnson, Mr. L. Stihwell, peal secretary, Mr. H. Brown and Mr. S. Brown, of Hurstpierpoint; Mr. H. Stalham, St. Nicholas', Brighton; Miss Stevens, of Cuckfield; Mr. K. Knight, Ringing Master of the Southern Division, and Mrs. Stella Knight.

Jack Dearlove's long career in ringing made him a friend of all. He had infinite reserves of patience with beginners and experts alike and was always ready to hold out a helping hand to all. He never showed disappointment or annoyance, and when a peal was lost, even in the last course, he would look round with a smile and say, what might well be his epitaph, 'We had a good ring, anyway.'

MR. F. W. DALE

A prominent member of the Eastern District of the Yorkshire Association, also a founder and committee member of the Beverley and District Society, Mr. Francis W. Dale, of Hessele, died on April 11th, after an illness lasting a few months, aged 81.

His ringing career started over 60 years ago at Holy Trinity, Hull, where his grandfather and family were ringers. Much of his early ringing was with the late Charles Jackson and George Williams, two noted Hull ringers. On coming to Hessele, he joined the All Saints' Church band.

The late Mr. Dale was held in great affection, as he was a regular attender at ringing meetings and for many years served on the General Committee of the Yorkshire Association, playing a prominent part in starting the Bell Repair Fund. A widower, he leaves three daughters and a granddaughter, Mrs. J. M. Harrop, who with her husband rings at Howden Minster. A quarter peal of Plain Bob Minor was rung at Hessele on the eve of the funeral. May he rest in peace.

H. S. M.

MR. F. J. SHEPHERD

The death occurred on April 18th, at Brighton Hospital, of Ferris John Shepherd in his 79th year. In his younger days he was prominent in London circles and later in Surrey. He was fond of calling Holt's Original and called it at St. John's, Waterloo Road, on his 21st birthday in 1903. His last peal was at Sunbury, in 1926, when he called a peal of Stedman Triples. Ill-health put an end to active ringing.

W. S.

MR. E. E. BARBER

A member of the Worcestershire and Districts Association since 1901, Mr. Ernest Edgar Barber, of 240, Worcester Road, Malvern Link, has died, aged 87.

Mr. Barber had rung in a great number of towers throughout the country and took part in 55 peals for the Association.

A member of the original band of St. Matthias', Malvern Link, Church Bell Ringers, which was formed in 1900, he was a competent change ringer and until his death maintained an intense interest in all matters connected with bells and ringers.

He was remembered as leader of the local ringers for many years and though ill-health prevented him taking an active part in the Sunday ringing, he still remained a member of the band.

At the funeral service at St. Matthias' Church the bells were rung half-muffled as a tribute to Mr. Barber.

One of the ringers was Mr. Harry Chance, a friend of Mr. Barber, who, although he is over 80, travelled from South Wales.

A NORTH BUCKS TOUR

DESPITE the inclement weather, five carloads of ringers set out on Easter Monday morning from St. Albans area to visit ten towers in North Bucks.

Although all five set out independently, they arrived simultaneously at the first tower, Whaddon, a very good six. Then on to Calverton, where a chase through pouring rain produced the key from the Rectory. This tuneful Bowell six are rarely rung, but go well. Beachampton, which has a charming Gillett five, hung in a minute tower (internally six feet square, and the frame sits on the tower walls), was visited before adjourning to the village inn to enable most of the party to wash down sandwiches with the local brew.

The afternoon programme was closely timed. First came Lillingstone Lovell, with a plaintive mino: five, then Maids Moreton, where we found a post-war Taylor six worthy of the splendid 15th century church. By now, the rain had stopped and we moved on to Padbury, to try out the heavy-going Briant six. By the time the party reached Great Horwood, the young non-ringers were clamouring for food! Here we not only enjoyed the fine heavy six, but admired the Oxford Guild banner, made by craftsmen-ringers from the village. A picnic tea in the middle of the green was accompanied by handbell ringing.

The next bells, Little Horwood, proved a handful; an unguided, long draught five, with a cracked stay on the third. At Mursley, we rang, among other things, a touch of Spliced Minor on the lovely six, before moving on to Drayton Parslow, where, despite rumours to the contrary, the bells were in very good condition. (Apart from the clapper of the second, which appeared to be suffering from rheumatism!) However, a little gentle exercise cured it within five minutes. What a pity that the charming little six are so rarely rung.

That was the official end of the day, but, ringers being what they are, when passing Stewkley on the way home, and hearing the bells going, the temptation to snatch proved too great, and so we joined the Totternhoe ringers for a few minutes. I hope they will forgive our mass intrusion!

Finally, mention should be made of those who so kindly gave us their time to meet us. We are deeply grateful to them all.

J. D.

The band at Stockbury express sympathy with Mr. G. A. Naylor and Mr. E. Barton, who, owing to the death of their mother and mother-in-law, were unable to stand in a recent peal. Their places were taken by Mr. C. S. Jarrett and Miss R. Highley. The band also express their thanks to Mr. and Mrs. F. Friday for their entertainment after the peal.

AN EASTER TOWER GRAB IN KENT

The Kent tower-grabbers were strengthened for their Easter outing on April 5th, by visitors from as far afield as Essex and Cheltenham. The company gradually assembled at Stockbury, where various Doubles methods were rung, before moving on to Hartlip (6), set among fields of cherry blossom. At Rainham we were met by several local ringers, who had very kindly got the bells up for us. Ringing on the very pleasant eight included Double Norwich, Plain Bob Triples and Spliced Plain and Little Bob Major. At Cuxton, the good lady at the local pub tolerated our sandwiches and our handbells. ('Are those like they have on the television?')

Ringing on either bank of the Medway at Wouldham (6) and Halling (6), entailed using the ferry, operated by a long-bearded individual, who, when confronted by 19 determined ringers, consented to make an extra trip to bring us back. A course of Grandsire Doubles on handbells was rung for his benefit and we believe this to be the first course ever rung in mid-Medway. So as not to delay him unduly, ringing at Wouldham had to be confined to bells up, a couple of courses of Plain Bob Minor, and bells down.

At Snodland (6) we had to contend with a level-crossing, where the two trains of the day chose to pass as we were arriving and departing. Birling bells had not been rung for 14 years, and the Vicar there was so impressed by our wanting to try that he and his wife gave us an excellent tea beforehand, in order to build up our strength. This was followed by Evensong, when John Baldwin played the organ and Peter Newing and Nicholas Davies read the lessons. All the children in the village turned out to watch the ringing and Dr. Hatcher, secretary of the Kent County Association, was also present.

The pleasant six at Boxley made a fitting end to an enjoyable day. Special methods were Hull Surprise Minor and Double Norwich Court Bob Major. Spliced Beverley and Surfleet, London, Cambridge and Norwich Surprise Minor, Double Stedman, Double Oxford and Double Bob Minor were also rung. Thanks are due to all incumbents and to Nicholas Davies, who organised everything so competently.

SALISBURY DIOCESAN GUILD

West Dorset Branch

The quarterly meeting of the West Dorset Branch, held at Powerstock on April 15th, had two points of special interest in that it was the first meeting to be held there since the arrival of the new Vicar. It was also the first quarterly meeting since the hanging and dedication of the new treble, which took place in the autumn of last year. Nine towers of the Branch were represented, with a visit in the afternoon by Mr. and Mrs. Marshall, from Crewkerne.

The Rev. G. S. Wilby, Vicar of Powerstock, conducted the Guild service and gave the address. The Powerstock ringers and their wives gave the tea to which 24 sat down.

The Rev. J. S. Arthur, Branch chairman, presided at the business meeting, which was 'brought round' in ten minutes! The next meeting was fixed for Askerswell on July 15th. This tower should also prove interesting, since it was about 1929 when ringing stopped in this tower, which was then a ring of five. The new treble and the whole was rededicated by the Bishop of Salisbury on December 3rd last.

Mention was made of Mr. A. F. Martin-Stewart, whose death had recently been announced. He was Master of the Guild from 1910 to 1913, and for years a frequent visitor to West Dorset meetings.

LINCOLN DIOCESAN GUILD

Members of the Elloe Deaneries Branch had a very successful meeting at Bicker on April 15th. The light, easy-going bells were made full use of both before and after service. The Vicar, the Rev. Mr. Wright, extended a warm welcome to all and preached a most inspiring address. Tea was served in the Village Hall by ringers' wives and members of the P.C.C., the 40 members thoroughly enjoying a good country spread.

In the absence of the Branch president, Mr. R. C. Noon was in the chair for a short business meeting. Twelve new members were elected. It was agreed to hold an evening meeting at Tydd St. Mary on June 3rd and the next quarterly meeting at Crowland on June 17th.

HOW TENTERDEN RAISED MONEY FOR BELLS

TENTERDEN Church stands off the main street, its tower standing high above the town, which can be seen for miles across the Weald of Kent. Tenterden has a fine ring of bells, comparable to the beauty of the stately tower and scenic High Street, with its greens and fine trees either side.

It was of great disappointment to the ringers when they were advised not to ring the treble and the sixth of this wonderful ring of eight bells, reputed to be one of the finest in South East England. The bells are not only well known to ringers but to many non-ringing visitors for the clock chime, which plays seven tunes, one for every day of the week.

Eighteen months lapsed before any real movement was made to remedy the defects. As so often happens, a series of events happened: first, the Vicar (Rev. Mr. Marcon) died; and before Canon Willis was inducted an appeal for £2,000 was launched to assist in the building of a new vicarage.

In May, 1960, Canon Willis was pressed to do something about the bells, and the two foundries were called in to estimate for the necessary work. It was eventually decided to approach the Mayor to see if he would be willing to launch an appeal. He replied he would be very pleased to do so.

Before the appeal was launched, money started coming in which amounted to something like £300. The target was for over £2,000, and the population of the parishes of St Mildred and Smallhythe amounted to approximately 4,000. Mrs. Pass, a very active and capable lady, was determined that the money should be raised, and subsequently arranged and produced a two-day concert, held in the Town Hall. Mrs. Pass even made up a song about the bells and Tenterden for that concert and the forthcoming 'Bells Appeal Week.'

The 'Bells Appeal Week' was opened officially by the Mayor on March 12th. A house-to-house collection was made and a two-day exhibition was held in the Town Hall. It was a wonderful exhibition of paintings, antiques, handicrafts and ancient documents of the Borough of Tenterden

and the church. Many people helped to organise this appeal week, but the main stay behind it all was once more Mrs. Pass.

The exhibition was opened by Dinah Sheridan (star of 'Genevieve'), who arrived in a veteran car. During the course of the exhibition Mr. A. A. Hughes, of Mears and Stainbank, gave an illustrated talk on bells and bell-hanging, and Peter Richardson spoke about cricket. Unfortunately H. E. Bates (author) was at the last minute prevented from being present, and a short film was shown that I.T.V.'s Southern Television had earlier taken of Tenterden and its bells and ringers. Miss Anne Roper spoke on local history. Both evenings a concert was held, arranged again by Mrs. Pass, of piano music, choral and solo singing, and the handbells. It was a grand effort by all concerned and the ringers are most grateful and pleased with the result, and express their gratitude to all concerned and in particular to Ald. Leslie Chalk, the Mayor, and Mrs. Pass.

The result of the appeal, including the 7-year covenants, amounted to something like £1,900, which covers the majority of the money required. The work of dismantling has now started and the eight bells stand in the churchyard awaiting their journey to London. It is hoped to have the bells installed and ringing again in time for the Kent County Association dinner, to be held at the Town Hall in September.

We are extremely grateful to Mr. and Mrs. Pass for their wonderful work, and wish them every happiness in Petersfield, Hampshire, where Mr. Pass is taking up a post as bank manager. They will both be missed in Tenterden by almost every organisation, including the Borough Council, on which Mr. Pass served a very short but useful term of office.

Mr. Walter Ayre went to Barton-on-Humber on April 12th to ring on the same bell the same methods he rang for his first peal 50 years ago. He expresses his grateful thanks to all who made the peal possible. Ringing in the peal was Mr. Arthur W. Hoodless, who rang the treble to the first peal on the bells in February, 1911. The first peal was conducted by the father of Mr. W. A. Crowder, who rang the 5th in Mr. Ayre's 50th anniversary peal.

Mr. Alan Carveth has now 'circled' Kenwyn tower.

The front cover of the Hampshire County Magazine for April is a colour photograph of five ringers of Sopley Church in the Avon Valley.

In the peal of 5.280 Spliced Surprise Maximus at Manchester Town Hall on April 1st (page 262) the ringer of ninth was Robert B. Smith and tenth Denis Mottershead.

A peal was rung at Hothfield, Kent, on April 22nd, to welcome the new Vicar. This was the first peal on the bells since the restoration of the tower. The bells have been silent for 15 years!

The Masonic ringers who rang the peal at Worsley on April 15th would like to record their sincere thanks to W. Bro. the Rev. Tom Billington, Vicar of Worsley, for the use of his church bells.

In order to accommodate various services in the Cathedral and functions in the Guildhall, ringing practices have been altered at Winchester Cathedral. There will be no practice on May 17th and Thursday practices on June 8th and July 13th.

The band who rang the peal at Stoke Climsland extend their sympathy and best wishes to Miss Yvonne C. Porter, who through illness was prevented from taking part. They also wish to associate the peal with Messrs. A. Carveth and R. A. Southwood, of Kenwyn, and congratulate them upon entering another of life's stages—that of parenthood. Both were recently presented with a son and heir.

BELFRY GOSSIP

Does any other tower band wash their bells? This question comes from Sydney, Australia. St. Mary's Basilica bells there have been recently washed, prior to the ringing chamber and belfry being painted. 'So far, the caption states, 'the only bells in Sydney to be washed,' writes our correspondent.

Mr. W. Pitcher, of Adelaide, has been visiting four of the 'light' rings in Sydney and has found them quite a change after his own tower's two ton tenor

A shoulder bag was left at St. Michael's, Maidstone, on Easter Monday, and has not yet been claimed. Will the owner contact Mr. R. L. Sills, Glenavon, St. Vincent's Lane, Addington, West Malling, Kent.

The old and the young were in evidence in a peal of Plain Bob Major at Birstwith, Yorks. It was conducted by 13-year-old S. Barry Schofield, his first attempt at peal conducting. Ringing the treble was Jackson Ewbank, who has now completed 60 years as a ringer at this church and who was ringing his first peal for the Yorkshire Association.

Ringers from many Canadian towns, including the Vancouver Society of Change Ringers, are spending Whitsun week-end at Calgary, Alberta. The great attraction is the bells of Christ Church, hung in 1957. A warm welcome awaits all ringers here. For details write to the Ringing Master, Mr. Ted Taverner, 3606, 8A Street, S.W. Calgary, Alberta. Phone CH3-0171.

The ringers of Emmanuel Church, Plymouth, were delighted again to welcome into the belfry on April 20th Miss Margaret Izard, of British Columbia, who is spending a holiday in England. She was last home in 1948, when she spent most of her time with her brother in Plymouth and quite a lot was seen of her. This time she has only been able to spend a week in Plymouth. She brought news of Miss Judy Midgley, of Calgary, a former ringer at Emmanuel, who is doing a grand job in training a band of ringers at Calgary, where she is on the staff at a local hospital.

MR. FRANK B. LUFKIN,
Essex Association.

A holder of several records on six, eight and ten bells, Mr. Frank B. Lufkin, of Holland-on-Sea, Essex, is one of the most enthusiastic and accomplished ringers in the country. Yet one of his greatest pleasures is ringing peals with 'first pealers,' and he is proud of ringing in the first peal of 75 ringers, including 63 to whom he acted as conductor. It is surprising that he is able to get in as much ringing as he does, as since 1947 he has been employed in the Fire Service, and is now a station office for Essex County Fire Brigade, and officer-in-charge of the Clacton-on-Sea Fire Station. This entails being on duty sometimes 120 hours a week, and his ringing has had to be built round the shift work of being a fireman.

Frank was born on Christmas Day, 1910, at Prittlewell, Southend-on-Sea, and was taught to ring at the Parish Church by Mr. William H. Judd in January, 1928. He made quick progress, and could ring most of the standard methods by the end of the year. His first peal was rung at Prittlewell on July 27th, 1929, being Oxford Treble Bob Major, and his second was Double Norwich at Crayford, Kent, conducted by Edwin Barnett senior, and band including Tom Groombridge senior and John H. Cheesman. He received an elementary education, and was first apprenticed as a coach painter, working in that job for 9½ years. On January 1st, 1935, he became verger of St. Mary's, Prittlewell, and worked in that capacity for 12 years, serving during

the war in the National Fire Service. Altogether he was a member of the Prittlewell band for 26 years, and is proud of being captain from 1935-1954. During this period he rang no fewer than 92 peals here, taught many ringers, and maintained a good and regular Sunday service band. At one time practices used to be attended by as many as 35 ringers. About 1950, he started the Southend and District Guild, for the purpose of arranging extra meetings, and to interest young ringers in administration. He has also served on the Essex Association Committee since 1954, and has been peal secretary since 1954.

Frank's present peal total (up to March 12th) is 504, of which he has conducted 337. Included amongst these are a large number of Surprise methods, many of which he has conducted, and he has called peals on all numbers of bells from five to twelve. He is an enthusiastic Minor ringer, and in 1956 called peals in 26, 35, 40 and 42 methods for the Essex Association, later conducting the existing Minor record—18,000 in 25 methods. On August 7th, 1950, he conducted the record length (on tower bells) of 12,740 Bob Royal at Prittlewell, but the highlight of his record peals was the 22,400 Bob Major, which he conducted at Kirby-le-Soken on April 2nd, 1960, the longest peal rung by one set of men to date. He is a great believer in the fact that all ringing can be enjoyable, if the rhythm is there, though he considers ten bell ringing to be the best number of all, and his favourite music is Grand sire Caters.

In addition to leading a busy life in the belfry and Fire Service, Frank is a very keen philatelist, and won the cup last year for the best display of stamps in the annual competition of the Clacton and District Philatelic Society. He is mainly interested in European stamps, particularly those of the Netherlands. Since 1945 he has been a member of the Central Council, and has attended every meeting except one, and is one of the members of the Sunday Service Committee. He is very keen to foster good striking, and has given a trophy to be competed for by members of the Essex Association in a striking competition.

There is a possibility that Frank and his band may one day attempt the 40,320 Bob Major, and his friends (and rivals!) will wish them 'good luck' in this arduous adventure. His enthusiasm, despite many difficulties at work, is much to be admired.

GUILDFORD DIOCESAN GUILD Chertsey District

Preaching at the meeting of the Chertsey District at Horsell on April 8th, the Vicar (the Rev. A. P. A. Gaze) denied a report that appeared in an evening paper that Horsell bells were to be muffled, because of complaints. He hoped the bells would be heard more often, but the possibility of some movable shutters was being considered for practice nights.

The District Ringing Master reported at the meeting, which followed an excellent tea, an attendance of 35 at the first combined practice held at Weybridge the previous Tuesday. The next practice would be at Old Woking in May.

During a discussion on the suggested merger with the Surrey Association, some fears were expressed that the Guild would lose its identity. Seven new members were elected. Ringing included Cambridge and the attendance was almost 50.

HERTS COUNTY ASSOCIATION

Methods up to Yorkshire Surprise and Double Norwich were rung at the St. Albans District meeting at St. Michael's, St. Albans, on April 15th. An interesting lecture on the church was given by the Rev. D. J. Harpier, who conducted the service. Next meeting, Tewin; special method, Oxford Bob Minor. Special thanks to the Vicar and local band for providing a really excellent tea.

QUEEN MOTHER AT ST. ALBANS

On Thursday, April 13th, St. Albans was a hive of activity, specially where ringing was concerned. The purpose of the Queen Mother's visit was to become a Freeman of the City and all four rings of bells were rung to welcome her.

At the Cathedral a course a Grand sire Cinques and a touch of Stedman Caters were rung by members of the local band, assisted by ringers from Elstree, North Mymsms and Watford. St. Peter's greeted Her Majesty on her arrival in St. Peter's Street with Grand-sire Triples, rung by the local band, plus ringers from Harpenden and St. Stephen's, St. Albans. The younger members of the St. Michael's band, assisted by other local ringers, rang Grand-sire Triples and later Plain Bob Major as H.M. drove past the church. St. Stephen's band rang a quarter peal of St. Albans Delight Minor and a 720 of Kent and Oxford Treble Bob Minor in honour of the occasion.

Finally on Saturday morning six ladies from St. Albans District rang a peal of Plain Bob Minor at St. Stephen's.

The girls of St. Cuthbert's, Great Salkeld, Cumberland, with 81-year-old Mr. T. Lambert, provided one of our national Sunday picture papers with its centre page glamour article. Swinging high on ropes, as pictorially displayed, is not encouraged by instructors.

BATH AND WELLS DIOCESAN ASSOCIATION

THE 71st annual meeting of the Bath and Wells Association took place at Evercreech on Easter Monday. Ringers from all parts of the Diocese were present for the service in St. Peter's Church. The service was conducted by the Rev. H. F. Warren (Master), and the address was given by the Rt. Rev. D. J. Wilson (vice-president and an Assistant Bishop of Bath and Wells). The lesson was read by the Rev. Dr. F. A. Pollard.

After lunch at the Bell Hotel, 150 members gathered at the Village Hall. In opening the meeting with prayer, the Master asked members to stand in memory of the following, who had passed away: the president the late Lord Bishop of Bath and Wells, the Revs. A. D. H. Allen, H. S. Briggs, A. J. H. Hobbs, Dr. D. Brodie, Mrs. E. T. P. Field, Messrs. H. Davies, F. Field, D. Gard, F. Hall, M. Hutchings, A. Lintern, P. H. Marshall, W. J. Prescott and A. Shatlock.

Apologies were received from the Lord Bishop of the Diocese, who sent his blessing and best wishes. Also from the Rt. Rev. D. J. Wilson, the Rt. Rev. Fabian Jackson, the Revs. R. L. Dewe, C. Marshall and R. O. Fry, Miss N. Williams, Messrs. J. T. Dyke, E. T. P. Field, R. J. Fox, E. Naylor and H. A. Price.

The Association was honoured by the presence of Mr. Frederick Sharpe, F.S.A., president of the Central Council.

In presenting his report, the Master felt obliged to apologise for his inactivity during the year. His recovery from ill-health was continuing, however, and he assured members that his continued absence from Branch meetings did not mean lack of interest. For him the highlights of the year had been the ringing for the enthronement of the Bishop at Wells Cathedral, when over 30 ringers had been present on a mid-week afternoon, and the dedication of a new bell at Stockland. This, he said, together with a forthcoming dedication at Long Sutton, were heartening signs of the faith which members had in the future of ringing.

MEMBERSHIP, 1,616

The secretary reported a performing membership of 1,616. He said that members had been lost because their subscriptions had become overdue. On enquiring into two such cases he had found that in each case the tower correspondent had been ill and that the other members of the band had overlooked the subscriptions. He appealed to tower correspondents to try to get the money in early in the year so that Branch secretaries might have a chance to contact those outstanding.

The secretary said that the Association was now widely recognised by the Parochial Church Councils of the Diocese and, as a result, much had been done in teaching new bands and in consolidating the work commenced the previous year. In conjunction with Somerset County Council, a course had been run at Taunton and at Wells theological students had been taught.

SUPPORT FROM 177 TOWERS

In the absence of Mr. E. Naylor (treasurer) the secretary presented the balance sheet. This showed an increased balance of £8, although it was pointed out that some instructors had not received their expenses and more booklets were on order and had to be paid for. In stating that £100 had been transferred to the Bell Fund, the secretary said that this was entirely due to the support of the P.C.C.s. Affiliation fees were up by £38 and, of the 227 towers mentioned in the report, 177 had, through their P.C.C.s, paid the increased fee. No applications for grants had been received

during the year and members were asked to bring to the notice of the Association any restoration work which they knew was contemplated so that help might be offered.

Mr. H. J. Sanger (peal secretary) said that 66 peals had been rung, an increase of 17 on the previous year. Mr. V. Roberts was the leading peal ringer and Mr. G. Prescott the leading conductor. Peals of note were the Double Norwich Royal at Wrington and the non-conducted Grandsire Doubles at Shapwick. The four peals at Twernton said much for the work of Mr. A. Lee.

The Diocesan adviser, Mr. R. H. Gardiner, reported that he and Mr. W. Osborn had had an active year. Advice had been given at seven towers and specifications had been accepted for Brusford, Hemington and Uphill. Reports had been given at Camerton, Durston, Langport and Wells.

Mr. T. J. Setter, in proposing that the reports be adopted, thanked the officers for their work during the year. This was seconded by Mr. L. Derrick and carried unanimously.

The Rev. H. F. Warren (Master), Mr. G. Salmon (general secretary) and Mr. E. Naylor (treasurer) were re-elected for the ensuing year. In calling for nominations for the post of Diocesan adviser on the Care of Bells, the Master stated that, because of ill-health, Mr. Gardiner would not seek re-election. He thanked Mr. Gardiner for his work in the past and voiced the feelings of the meeting in wishing him better health in the future. Mr. H. J. Sanger was elected Diocesan adviser and Mr. P. C. Wright peal secretary. Mr. D. E. Lee was elected auditor.

RESOLUTIONS

Mr. H. A. Price proposed and Mr. E. J. Chivers seconded a resolution that the following words be added to Rule 4, Clause IV: 'Any performing member who leaves the Diocese to reside elsewhere; who has paid a minimum of 5s. in normal subscriptions and who is a fully paid up member at the time of his departure, automatically becomes a Non-Resident Life Member.' This was carried unanimously.

Mr. S. G. Coles proposed and Mr. A. H. Reed seconded that the wording of Rule 3 be amended to allow a Branch to nominate its representative on the General Committee. It was felt that should be a Branch secretary be unable to attend meetings the Branch would not be represented on the committee. After general discussion, during which it was pointed out that this had happened in the past, the motion was carried.

Under any other business, Mr. Coles proposed that the secretary be given an honorarium of £15. Mr. Chivers proposed that the Central Council representatives be given a grant of £20. Both propositions were seconded and carried.

Mr. J. Brain proposed that the meeting should send their congratulations to the editor and staff of 'The Ringing World' on producing such an excellent Golden Jubilee number. The secretary was instructed to write accordingly.

Mr. K. Brain raised the subject of the elderly ringers and wondered if the Association could acknowledge their services in any way. After discussion it was felt that ringers completing a number of years' service could be honourably mentioned in the annual report.

Mr. D. Hoare, in proposing a vote of thanks, mentioned the able way in which the Master had conducted the meeting and thanked the Rev. R. L. Dewe for the use of his bells and for allowing them to hold the service in his church. He also thanked the incumbents and tower correspondents of all the towers that were open.

200th PEAL AT A NEWCASTLE CHURCH

With a peal of Zelah Surprise Major the 200th peal was rung at the Church of St. John the Baptist, Newcastle upon Tyne. This was the first peal in the method for the Association and by a coincidence the first peal on the bells, on December 22nd, 1884 (Plain Bob Major), was also the first in the method for the Association.

Reputed to have been built in 1287, this church stands on the corner of two of the busiest streets of the city—Westgate Road and Grainger Street. Records show that the church possessed a ring of six in 1706, with a tenor of 14½ cwt., by Robert Phelps, of London. The treble was replaced in 1880 and again recast in 1884, when two trebles were added by Wanner and Sons, London, making, as a note at this time states, 'a complete and musical peal of eight.'

About 1900 the tower was declared unsafe by the architect and closed; however, in 1902 peals were again being rung at the church, which suggests that the 'illness' was short lived. In 1926 the bells were recast and rehung in a metal frame, by Gillett and Johnston, with a tenor of 11 cwt. 5 lb. Peals rung on the bells were:

Minor.—6 (Plain Bob 3).

Triples.—61 (Stedman 44, Grandsire 8, Plain Bob 8, Union 1)

Plain and Treble Bob Major.—86 (Kent 38, Double Norwich 24, Plain Bob 10, Oxford T.B. 4, Double Bob 2, Little Bob 2, Woodbine, Duffield, Mixed Bob, T.B. (2 methods), 5 Spliced and Double Oxford one each).

Surprise Major.—47 (Superlative 15, Cambridge 11, Yorkshire 7, London 6, New Cambridge 2, Pudsey 2, Lincolnshire, Watford, Aldenham and Zelah one each).

THE ST. MARTIN'S GUILD

A very warm welcome was extended to the members of the St. Martin's Guild for the Diocese of Birmingham, by the ringers of Kingsbury on the occasion of the quarterly meeting held there on April 8th. It was the first time that the Guild had visited Kingsbury for a meeting, and it was most encouraging to find that so much preparation had been made by the local people to ensure its success.

A service, with a full choir in attendance, was held, at which the Vicar (Rev. John W. Bennett) gave a most interesting account of the history of the church.

In the unavoidable absence of the Master, the Rev. J. W. Bennett occupied the chair at the meeting, which followed a bountiful tea, kindly provided by Kingsbury ringers. Mr. Michael Hart, of Solihull, and Mr. Albert Ensor, of Shustoke, were elected resident members, and the tower election of Mr. D. John Hunt, of Bristol, as a life member, was ratified.

The Vicar and head ringer (Mr. Gordon Lane) were sincerely thanked for everything they had done to ensure a successful meeting.

Next meeting, Tanworth-in-Arden, July 1st.

50 Years Ago

'R.W.' May 15th, 1911.—

Fifty years ago, on April 27th, the long peal of Stedman Cinques was rung by the College Youths at St. Michael's upon Cornhill. The story of that famous performance has been handed down in the song written by the late Mr. J. Dwight, who rang the tenor. The peal, rung in 6 hours 41 minutes, consisted of 8,580 changes, and the only surviving member of the band is Mr. Matthew Wood, of Bethnal Green, who, despite his 85 years, is still hale and hearty.

LETTERS TO THE EDITOR

100 PEALS OF MAXIMUS

Dear Sir.—The publication recently of the list of the two most prolific peal ringers has brought to mind again the elusiveness of the 100 peals of Maximus. They appear in neither (as far as I know). I have never seen any statement in 'R.W.' to qualify this. The only man to have rung the 100 is the late William P. Garrett. His list first included seven on handbells, but he went on to ring them on tower bells only. They were in fifteen different methods, with fifty-six of Surprise. Some of our friends of Birmingham, Leicester, Cheshire and elsewhere must be getting near and will doubtless reach the goal, which is a rare and worthwhile one. My colleague, George E. Symonds, has 95, so he too is getting near, but alas has no opportunities for Maximus ringing now.—Yours faithfully,

CHARLES J. SEDGLEY.

Ipswich.

VISITING CHESTERFIELD

Dear Sir.—I would like to ask for the assistance of 'The Ringing World' in a matter which has just come to my notice.

I am informed by the Vicar that he recently received two (at least) requests from visiting parties to call for a ring at Chesterfield Parish Church, in the near future. Unfortunately, the Vicar cannot remember from whom the requests came, and again, unfortunately, the letters, upon being re-addressed to me, have not arrived, so I also am in the dark as to who wishes to visit us at Chesterfield.

Requests for a short ring are rarely refused, even though the duration may be limited, according to the time of day, and I would ask anyone who has written to the Vicar during the last few weeks to write to me direct as there may still be time to consider such requests.—Yours faithfully,

SAM SCATTERGOOD.

Chesterfield.

ST. MARY'S, SOUTHAMPTON— A RINGER'S GIFT

Dear Sir.—The bellringers of St. Mary's, Southampton, recently undertook to provide an oak pew to further the furnishing of the mother church of the town. St. Mary's was burnt out during the war, and the tower and bells were restored first in 1948, as an expression of the church authorities' intention to complete the restoration of the whole building. This was done and the building finally consecrated in 1956. The temporary chairs in the nave are gradually being replaced by oak pews, and those so far installed all bear the emblems of the local institutions associated with them.

The St. Mary's ringers have committed themselves to raising the sum of £85, which represents the cost of a large oak pew with a suitable hand-painted bell emblem. May we, through your paper, appeal to all who have enjoyed the privilege of ringing on these famous and beautiful 'Bells of St. Mary's' to support the local band in their effort? Donations, all of which will be acknowledged personally, should be sent to Mr. K. S. B. Croft, deputy churchwarden, 29, Hanley Road, Shirley, Southampton.—Yours, etc.

TROUBLE WITH HANDS

Dear Sir.—The bell ropes having caused swelling on my hands, the doctor has said I must wear some form of leather gloves.

I find that with ordinary leather gloves I cannot control the rope as it slips. I wonder if any reader who has had similar trouble can suggest suitable gloves or if special ones are made. I am very keen to go on with my ringing.—Yours faithfully,

M. G. GIBSON.

New Yorkshire Ring

Two anonymous parishioners are to provide a ring of six bells at a cost of more than £1,800 for the 11th century parish church at Scalby, near Scarborough. They will replace the present three bells, two of which are dated 1674.

NEW SECRETARY OF SOUTHWELL DIOCESAN GUILD

THE 15th annual meeting of the Southwell Guild was held at St. Mary's, Nottingham, on April 8th, Southwell Minster not being available owing to the current augmentation into twelve. St. Mary's bells, a well known ring, attracted a goodly number of ringers and ringing ranged from rounds to Surprise Royal.

A service was held in the choir, conducted by the Vicar, the Rev. Canon Feever.

The business meeting, which followed tea, was presided over by Mr. F. W. Midwinter, in the absence of the chairman, owing to ill-health. A brief silence was observed for four deceased members, namely Messrs. Francis P. Allwood, H. F. Clulow, Nathaniel Moxon and H. Prout.

Canon Feever was elected a vice-president and Messrs. David Wilson, William Hufton, Michael Butler and T. Dutton members of the Guild.

The income and expenditure account showed a surplus on the year's working of £9 0s. 5d., £22 12s. 1d. on capital account and a reserve fund of £100. During the year a grant of £15 had been made to Badworth out of the Bell Restoration Fund, the balance of which stood at £95 9s. Donations of £15 each to Gedling and Sturton-le-Steeple had been promised.

Although the financial position was secure the surplus represented a very slender margin. The cost of printing the annual report swallowed up 52 per cent of the total income, administrative expenses 36 per cent, the Bishop's Appeal Fund 7 per cent, leaving a surplus of 5 per cent to bear ever increasing costs of printing, stationery and advertising.

The membership of the Guild stood at 425, an all time record, and the reports of the District secretaries showed a flourishing state of affairs.

The Peal Committee's report revealed that 49 peals had been rung during the year, with eleven members ringing their first peal. Three members conducted their first peal, which was a very encouraging trend.

A PRESENTATION

All the officers were re-elected with the exception of Mr. J. W. Raithby, the honorary general secretary, who wished to resign, he having held the office for 12½ years and was prior to that secretary of the Newark District. His resignation was accepted with thanks for his services during the formative years of the Guild and Mr. W. L. Exton was appointed in his place.

KENT COUNTY ASSOCIATION

Ashford District

Although Hythe is the terminus of the smallest public railway in the world, it is not near any main road or railway, and much of the old world is left in its steep winding ways, with their ancient almshouses, the quaint Town Hall, its old Vicarage and Manor House side by side, and its beautiful Norman Parish Church of St. Leonard, with its fine ring of eight bells (tenor 19 cwt.).

Over 50 ringers and friends met at this ancient Cinque Port on April 22nd for the quarterly meeting of the Ashford District. The service was conducted by the Vicar, the Rev. E. A. Newman, and the lesson was read by Mr. J. Willis, from the New English Bible. Mr. W. Chandler was at the piano. Tea was enjoyed at 'The Measure For Measure,' and was kindly given by the Hythe ringers.

At the business part of the meeting, Mr. Nicholas Davies gave a report on the revival of ringing at Hothfield. Five new members joined the Association. C. T. H.

The chairman spoke a few words of appreciation of Mr. Raithby's work and asked Miss Grace Burchnall to make him a presentation on behalf of the Guild. Miss Burchnall then very graciously presented the retiring secretary with a case of pipes.

Mr. Raithby, who was much moved by the presentation, thanked members for their appreciation and said he had met with much kindness and help during his term of office, particularly from the District secretaries, who bore the brunt of the work. He commended Mr. W. L. Exton to them as a hardworking and competent ringer with sound administrative experience behind him.

The Crawford Cup Competition Rules, as provisionally amended by the committee, were confirmed on a majority vote. A great deal of discussion centred on Rule 4, which stated that all members of the Association were eligible to take part in the competition, providing their annual subscriptions or life subscriptions were paid.

As under Rule 17 at least four members in a six-bell contest and five in an eight-bell contest must be from the home tower, it was felt that Rule 4 left the door open for abuse, inasmuch as outside experts who were non-resident life members of the Guild could be brought in.

A few members thought that the Rule should be amended to restrict bands to resident Guild members, but others favoured leaving the Rules unchanged. By a majority vote it was resolved to leave Rule 4 unaltered.

The final of the competition was fixed for September 9th, in the North Notts District.

Under the heading 'Any other business,' Mr. McNeil proposed and Miss Grace Burchnall seconded that the North Notts District be renamed the Retford District. It was, however, felt that this might affront local pride and tradition and that it would be better to leave the initiative with the North Notts District and a resolution was accordingly passed to this effect.

On the question of Southwell Minster bells, which were in process of being augmented to twelve, Mr. W. L. Exton drew attention to his report, which argued that with the full co-operation of the Southwell ringers the Guild should make an effort to join them on their practice night once a month and make a twelve bell practice for the benefit of those who wished to increase their ringing ability. Members appeared to receive this favourably and the idea was left to germinate.

GUILD OF CLERICAL RINGERS

Annual Ringing Week

THE 1961 tour was based on Southampton, an excellent centre for the southern part of Hampshire and for the Isle of Wight. Accommodation is becoming more and more a deciding factor in planning these weeks and the Guild was fortunate in finding a hotel big enough to take the party and modest enough to suit clerical means. Three whole day outings had been planned, one through Shedfield and Soberton to East Meon, one in the Isle of Wight and the third in the Romsey area ending up at Winchester Cathedral. In addition, ringing took place at Hursley, on the way to Southampton, and at North Stoneham and Twyford, on the way home. K. W. H. Felstead had given much help in planning the itineraries, having an intimate knowledge of the area covered.

A SUCCESSFUL WEEK

Seventeen clerical members took full-time part in the ringing and one part-time. With them were four wives, one sister and the expert. The latter figure was Mr. C. H. Kippin, who gave up part of his holiday to share in the tour. We thought of giving him a temporary rank of sub-deacon, but unfortunately there were no spare dog-collars available! His ready wit, great skill and knowledge of local towers contributed greatly to what was felt by all to have been a thoroughly enjoyable and successful week.

Some years ago the writer heard the Clerical Tour described by a six-bell ringer as 'all Stedman Triples.' This was certainly not true this year. Among Surprise methods, Cambridge Royal was rung at St. Mary's, Southampton, and (appropriately at this stronghold of Surprise Royal ringing) St. Michael's, Southampton; Cambridge, Superlative, London, Yorkshire, Bristol and Yorkshire Major were rung, and Surfleet was an addition to the repertoire of Surprise Minor. Bob Royal, Grandsire and Stedman Caters, Double Norwich, together with other Plain methods, varied the inevitable Stedman and Grandsire Triples. Double Court was rung and the secretary's course of Cambridge Minor, which is almost a ritual on these tours, took place no less than three times, once when several of the experts were absent. It would seem that the standard of ringing is being well maintained and even improved.

Some very pleasant rings were found, though in the opinion of one member none was outstanding. St. Michael's, Southampton, East Meon, Romsey Abbey and Winchester Cathedral were outstanding among the old churches visited, while Bitterne Park, Southampton, and St. Mary's, Southampton, were of note as modern buildings, the one new and the other restored after bombing during the war.

PERSONAL

We had hoped for an accession of strength this year from R. Fry and R. Keeley, both ordained during the last year. Unfortunately, neither was able to come. No doubt the date of the tour, the week after Low Sunday, which suits incumbents well, is not so good for curates, because their vicars also want the same period off! We may hope that in future years they will be able to hold that ringing is an essential part of their work and so join us. Certainly, E. B. Wood and C. J. B. Marshall have managed to get off and have been valued members of recent tours. It was a pleasure to have H. F. Warren with us again and we welcomed a new member from the West. R. N. Longridge, of Bourton.

AN INNOVATION

Grey hairs and a certain reluctance to climb steps remind us of the passage of the years. This year brought a startling reduction in the average age of the party. This came about because we had two whole families with us. Mr. and Mrs. Wood brought Alban (aged 7 months), who promises to be a resolute tower grabber—he holds ropes with a very knowing air! P. T. Robbins brought not only his wife, but also his four delightful children. Mrs. Robbins is, of course, a most capable ringer and was able to stand in for advanced methods. Their family showed excellent beffy discipline. Each family had its own car. The Woods' Mini Minor contained father, mother, baby and an assortment of equipment. It even came

with us in the ferry to the Isle of Wight. We admired the efficient organisation by which Alban was fed by the roadside, while we ate our sandwiches with a half-pint inside. The Robbins' car provided one light touch. In an effort to park well clear of traffic, outside Sherfield English Church, it subsided gently into a ditch. The back-end strong men were called in to lift it bodily back.

BUSINESS

At the annual meeting on April 12th, remembrance was made of members of the Guild who had passed away since last year. The treasurer presented the statement of accounts, with the gloom expected of all holders of this office. Perhaps if the brethren had known that the Chancellor of the Exchequer planned to let them off 'Schedule A' they might have had a whip-round to relieve his care! Canon C. C. Cox was once again elected president, with enthusiasm, despite his protests at advancing years and the reminder that he had attended every tour since the Guild was founded in 1938. Preb. E. V. Cox and Canon F. Wilkinson were re-elected vice-presidents and the name of Canon B. F. Sheppard was added with acclamation. This year there was happily no difficulty in persuading J. H. B. Andrews again to be secretary and treasurer, an office he carries out with characteristic efficiency, humour and distinction. R. D. St. John Smith and K. W. H. Felstead were re-elected to the committee. Congratulations were offered to E. G. Benson, now a Prebendary of Hereford and to F. A. Sanders, now an Honorary Canon of Winchester. Two possible centres for next year's week were agreed, the Norwich and Yarmouth area or the Shrewsbury and Church Stretton District.

REGRET AND THANKS

One regret of the week was that the weather was unkind for our day in the Isle of Wight, so detracting from what would otherwise have been a delightful trip. We were, however, enlivened by being described by an official at Southampton Pier as a 'claque of parsons'—an expression with which the writer is not familiar. The inevitable handbells were rung on the boat but no one seemed to be in the least surprised.

The welcome we had, both in the island and on the mainland, was delightful. Incumbents and tower captains vied in the warmth of their reception. Canon E. W. Norris, Vicar of Romsey, gave us a splendid tea and was disappointed that we could not spend more time in his glorious church; so were we. The ringers of Bishopstoke organised a sumptuous tea for us on the first day and this was most welcome. We joined in Evensong at Winchester Cathedral, where the Bishop of Southampton said how glad he was to welcome us and to hear us ringing the Cathedral bells. Incidentally, it was here that the highlight of the tour occurred, a course of Grandsire Cinques rung by a clerical band. It is thought that this the first time that this has been achieved since the Monmouth tour. So, with sincere thanks for all the kindness we received and with memories of pleasant hours of ringing and talking, we came to the end of yet another Clerical Week. We now look forward to the next one.

F. A. S.

DURHAM AND NEWCASTLE

The Southern District's April meeting was held at St. Michael's, Heighington, and a group of young ringers from Newcastle swelled the numbers.

Heighington's six bells are rung from the floor of the fine Norman tower, and the ropes fall round the font. The longer draught and a couple of new ropes disconcerted some of the less experienced, but there was enjoyable ringing. Methods included Grandsire and Stedman Doubles, Plain Bob, Kent, Oxford, Cambridge and London, and a touch of Spliced Plain Bob, Little Bob and St. Clement's.

Local ringers made the arrangements and their wives provided an excellent tea. The churchwardens were thanked by the District secretary, Mr. Peter Rock, who expressed the Association's pleasure that the Heighington tower had become affiliated again. Mr. T. Cooke thanked the ladies for the tea.

HERTS COUNTY ASSOCIATION

The monthly meeting of the St. Albans District was held on March 18th at Wheathampstead, where there is a delightful six. Some ringers found the long draught troublesome, but much improvement in the handling of long draughts was evident in the local pub later that evening! The day's ringing ranged from rounds to Surprise Minor methods, including London and Cambridge.

The best ringing came from a touch of Norwich Surprise Minor, while the least successful method was Hull, our 'special' method for the meeting. Many visitors from other Hertfordshire districts were present and helped to raise the general standard of ringing. Mr. John Stobbs, of 'The Observer,' was a welcome visitor, accompanied by a young lady with a busy camera.

Mr. Walter Ayre took the chair for the business meeting. It was proposed that Double Norwich be the special method for the meeting of April 15th at St. Michael's, St. Albans, the bells being available in the afternoon and evening. No new resident members were proposed but Mr. Desmond Painter was elected a non-resident life member. Mr. Stanley Huckle proposed a vote of thanks to the Rev. G. H. T. Rowe for the use of the bells and the evening service, and thanked those responsible for the tea arrangements.

As a token of appreciation for his work as past secretary of the District, Mr. Huckle was presented with a ringer's car badge.

After the meeting handbells were rung, and ringing continued in the tower until about 8 p.m. M. J.

THE LADIES' GUILD

Holding their annual meeting at St. Peter's, Jarrow, on April 8th, the North Eastern District re-elected their officers, viz.: Vice-president, Miss D. M. Kellingley; honorary secretary, Mrs. C. N. Lea; District Committee, Mrs. Ainsworth, Miss M. Bertie, Mrs. Bayles and Miss M. Jennings; Central Committee, Mrs. K. Arthur and Mrs. K. Lawson.

The vote of thanks to the Rector and ladies who prepared the tea was proposed by Miss Wendy Phillips. Next meeting, June 3rd, Gosforth, joint with Durham and Newcastle Association.

HALIFAX ASSOCIATION

Over 40 members attended the quarterly meeting at Armitage Bridge on April 22nd, which was voted a great success. A wide variety of methods was rung, under the captaincy of Mr. Trevor Torbau, of Shelley.

At the business meeting the secretary was instructed to apply for the use of Penistone bells for the annual meeting and prize contest on June 17th.

SOUTH FOREST BRANCH ENTERTAINED

The South Forest Branch of the Gloucester and Bristol Association were the guests of the Monmouth Branch of the Llandaff and Monmouth Association at a very successful meeting held at Monmouth on April 22nd. There was a very large attendance, 74 names for tea having been received and more members than that attended on the day.

The service was conducted by Canon Knight, and the tea, provided by Mrs. Jones and her helpers, was a truly splendid one.

Canon Knight presided at the two brief business meetings, which followed. Thanks are due to Canon Knight, Mrs. Jones and all who helped to make this meeting so enjoyable.

WINDSOR, BERKS.—On March 26th, at St. John's, 1,260 Grandsire Triples: R. Medway 1, A. Bird 2, K. Buckingham 3, J. Drwitu 4, G. Jenkins 5, B. Taylor (cond.) 6, F. T. Blagrove 7, J. Brooks 8. Also on April 9th, 1,260 Stedman Triples: E. S. T. Farr 1, Mary Buckingham 2, Monica Blagrove 3, B. Taylor 4, A. J. Glass 5, A. Wenban 6, F. T. Blagrove (cond.) 7, H. P. Schofield 8.

TRAGIC DEATH OF MR. ALFRED B. PECK

College Youths the world over and the Exercise generally will deeply regret the tragic death of Mr. Alfred B. Peck, who was found dead by the side of the railway line, between Merstham and Redhill, on Thursday, April 27th. Apparently, he fell asleep while travelling by train, the previous night. It stopped at a signal light and it is assumed he awoke suddenly, thought he was at the railway station, stepped out of the carriage and fell. He fell was not detected at the time.

A native of Bedford, Mr. Peck was born in 1883 and learnt to handle a bell at St. Paul's Church, Bedford, when about 16. A year later he was in London, living in lodgings near St. Stephen's, Rochester Row. He was fortunate, for such great ringing personalities as H. R. Newton, J. W. Golding and C. T. B. Brice were members of the band.

Alfred developed as a heavy-bell ringer. In 1909 he rang the tenor of St. Paul's to a peal of Stedman Cinques, but later in life, in 1925, came his finest achievement, of turning in the 62 cwt. tenor of St. Paul's to a peal of Cambridge Surprise Maximus—the heaviest bell turned in to a peal single handed.

He had rung over 300 peals by 1936 and then stopped keeping a record. Of his long lengths, there was ringing the seventh in the record peal of Stedman Caters in 1922, and the tenor of Southwark Cathedral to 12,675 Stedman Cinques, a performance lasting 9 hours and 47 minutes. Among the tenors he had turned in to Maximus were St. Mary-le-Bow, Cornhill, Southwark and Cripplegate. To Cambridge Royal he rang at St. Sepulchre's, Holborn, and at Westminster Abbey to London and Cambridge. His biggest disappointment occurred on April 12th, 1912, when after ringing the 11th at St. Paul's for 3 hours and 55 minutes the tenor man collapsed in the last course but one.

When 'The Ringing World' was first published Mr. Peck was well established as a prominent London ringer and his was the first of many personalities to be published and this appeared in the first issue. Appropriately, 'Apacc' selected him as No. 1 for his series. His ringing for the past 50 years had centred on St. Paul's and Westminster Abbey, where he was the senior member of the band formed 40 years ago. Sunday by Sunday he regularly made the journey from Reigate, a wonderful example of service ringing.

Even though his ringing performances were meritorious, it will be by his services to the Ancient Society of College Youths that his name will go down to posterity. He became a College Youth in 1904 and was Master in 1910. For 20 years (1937-57) he was secretary and the dry humour that invariably accompanied his speech when he reviewed the past year at the annual dinner was one of the events of the evening. He had represented the College Youths on the Central Council since 1933.

A pianoforte maker for 30 years, Mr. Peck was also for 20 years supervisor of blind tuners for the Royal National Institute for the Blind.

Mr. Peck's daughter was a missionary in Africa for many years and her bravery, when her mission station was attacked, in leading her people on a long trek to safety, was an epic story of the mission field.

The funeral service will be held in Westminster Abbey today (Friday) at 5.45 p.m.

AN APPRECIATION

With the tragic death of Alfred B. Peck, the Ancient Society of College Youths has lost one of its most devoted members. Alfred always retained a strong affection for his native Bedfordshire, where he learned to ring, and any ringer from that county who came to London could expect an especially kind welcome from him. But on coming to London as a young man he gave his heart to the City bells and ringers and thereafter a lifetime of spendid service.

His record as a heavy-bell ringer is well known and his many fine achievements included 9 peals at St. Paul's Cathedral, three of these being on the 11th and two on the tenor, from which he conducted the only peal of Surprise Maximus on the bells, Cambridge in 1925. His style of handling was

unique and completely unorthodox, but even at an advanced age he frequently turned in St. Paul's tenor to Cambridge Twelve and it was a delight to witness his fascinating technique, resulting, as it invariably did, in the setting of a brisk and immaculate beat.

Alfred was first and foremost a College Youth. When elected secretary on the retirement of his illustrious predecessor, William T.

MR. A. B. PECK

Cockerill, his avowed aim was to leave the Society in as good a state as when it was entrusted to his care. He did more than that and during his 20 years in office the membership swelled and he achieved success and popularity, a measure of which could be gauged by the intense enthusiasm displayed when he rose annually at the College Youths' dinner to respond to the toast of 'The Society.'

It is difficult to say what was his greatest contribution to the ringing Exercise in general, but there is no doubt that the present healthy spirit of the College Youths can be largely attributed to his example of devoted service, his spirited defence at all times of the Society's reputation, his obvious affection for the towers he served so faithfully for 60 years, the fierce loyalty he showed to his colleagues and, above all, his sincere respect for those who set the ringing and ceremonial standards on which the Society is traditionally based.

In his speech at each anniversary dinner, he would ask members to stand in silence as the names of those who had passed on since the last gathering and Alfred would often precede this ceremony with the quotation, 'Let us now praise famous men...' This year the name of Alfred B. Peck will be similarly honoured and he will be remembered with pride and affection as a worthy son of 'the fathers that begat us.'

MR. ARTHUR ARMSTRONG

The tragic death at Stafford General Hospital on April 14th of Mr. Arthur Armstrong, of Cannock, Staffs., at the age of 69, will leave a blank hard to fill in local ringing circles.

A large congregation, which included all his ringing colleagues from Cannock and several from Norton Canes, attended the choral funeral service at St. Luke's Church, Cannock, on April 21st. Four of the Cannock band acted as bearers. In the evening a quarter peal was rung half-muffled in his memory.

Arthur commenced his ringing career at the age of 14 at St. James' Church, Norton Canes. He was a regular worshipper and ringer there until the outbreak of World War II.

When ringing recommenced he had moved to Cannock and instantly joined the Cannock St. Luke's band. He remained a regular ringer here until his accident, but returned every Tuesday evening to Norton Canes to help a new band there in their practice. Although he attended his ringing so regularly it was not until six months ago that he rang his first peal. This was a farewell to the Vicar, who was leaving to take up another appointment. He was to have been a member of a band which was going to attempt to ring a peal to welcome the new incumbent on the Saturday following his accident.

He will be missed by us all, especially the younger ringers whom he was always so willing to help. May we learn by his example to be better and more regular ringers.

MR. TOM GREENACRE

His many ringing and singing friends in King's Lynn and other parts of the county will learn with regret of the passing on April 13th of Mr. Thomas Greenacre at the age of 69.

Tom, who was one of a large family and has four brothers who ring regularly, sang in Gaywood Church choir at the age of nine and a year or two later learned to ring the bells. So it was here that the love for music and campanology was first learned. Until a few weeks ago Tom seldom missed a practice at Gaywood or King's Lynn and he was never happier than when teaching the young people the art and mysteries of change ringing. He rang in 57 peals for the Norwich Diocesan Association, which he joined in 1909.

It was in 1924 that Tom joined St. Margaret's choir, which he served faithfully up to the time of his death. He was singing at Matins and Evensong the Sunday previous. Singing and ringing was Tom's life. He was a member of the Wisbech male voice choir, the King's Lynn male voice choir, and the Amateur Operatic Society.

It was fitting that the funeral service at St. Margaret's Church should be fully choral, and the bells were rung muffled at the closing of the service. The interment was at St. Faith's, Gaywood. Handbells were rung at the graveside by E. Shipp, E. Greenacre, R. Greenacre and C. Tovell. One of the best. 'Well done, thou good and faithful servant.'

RECENT BELL RESTORATION WORK IN KENT

DURING the last month or two the bells have been heard ringing out again from two Kent towers, both of which have been silent for a number of years.

At Birling, which is a small village of some 300 inhabitants, near Maidstone, the old mixed ring of six bells was augmented to eight in 1891 by the addition of a new treble and tenor, the old fourth bell being also recast to be in tune as the fifth of the new ring, the bells being rehung with new fittings in the old frame and two additional cages provided in an upper tier to accommodate the augmented ring. The work was executed by the Whitechapel foundry and the cost defrayed by Ralph P. Nevill, whose name appears on the two new bells. By early 1950 the bells were going very roughly, and they ceased to ring at the advent of a new vicar when the tower simultaneously became supposedly unsafe.

Early this year, Rev. Albert E. Waterhouse, late of Frindsbury, took over the living, and one of the first things he did was to swing-chime some of the bells before services, an idea quite novel to the majority of the parish, since no one had dared carry this out during the incumbency of his predecessor owing to the supposed danger of doing so. Having 'nailed the lie' of the unsafe tower by the inspection of both architect and builder, each of whom pronounced it to be safe to stand up to ringing bells, the writer was requested to do some work about the bells with a view to putting them into ringing order. Inspection of the frame and fittings revealed them to be in quite fair condition, and two afternoons' work was spent in tightening up all visible nuts and oiling the bearings and other moving parts: this was a difficult task since the bearings had dried out and the metal bearing covers had been glued down so tightly by the accumulation of dirt that they had to be prised open. Having refitted the wire to disengage the clock hammer and adjusted most of the ropes, the bells were rung up cautiously one at a time.

The bells were first rung in peal on April 5th on a ringing outing by ringers from many parts of Kent and elsewhere, in the presence of many villagers who had been foretold of the visit. They were found to be ringable but difficult to handle and even more so to hear properly, the second and fourth bells being the chief offenders. However, the general opinion was that the ring was quite tuneful outside, if lacking in 'go' (the tenor weighs 8 cwt. 22 lb. in G), and plenty of recruits were found amongst the villagers who were willing to learn to ring. It is to be hoped that an estimate will be obtained to the approval of the parochial council to enable the worn bearings to be replaced and thus improve the 'go' of the bells.

The other tower to re-enter the ringing circles is that of Hothfield, a village near Ashford. The tenor of the old ring of five bells was recast, a new treble added and the bells rehung in new fittings throughout in the old restored frame (by Alfred Howell, of Ipswich) in 1927. The bells proved to be a handy, light ring (tenor 8½ cwt. in A) and a number of peals were rung on them before the war. However, the church was quite severely damaged during the war years, and a bad crack appeared in the south wall of the tower by the staircase turret. Ringing did continue for a short period after the war, and although the crack showed no visible signs of spreading the bells were finally silenced early in 1948 as a safety precaution.

The tower remained in this state until last year, when a substantial restoration took place, which involved rebuilding most of the stair turret and much of the south wall. Soon after this the living became vacant, and nothing was done about the bells until the date of the institution of the new incumbent had been fixed; then, at the request of the churchwarden (and former ringer), Mr. Woolley, the writer and Mr. John Cooper, of Ashford, inspected the bells one Sunday evening. This was not as easy as it might have seemed, since the belfry key had been conveniently lost the previous Friday, and it required the resources of most of the Evensong congregation to find it after a mass hunt through the church. The bells and fittings were found to be in good order despite their absence of use, but only three of the ropes were found to be serviceable, so three spare ones from Ashford were also fitted. Tightening the frame and oiling was a relatively easy job here, and the bells were rung later that evening by a band that included Mr. Woolley, who had not rung since the bells stopped ringing. Everyone was amazed at the sweetness of tone of the bells, and the 'go' left nothing to be desired.

The bells were rung the following Saturday, April 15th, when Rev. Lancelot E. Dashwood, late of Loughborough, was instituted to the living, and attracted a large crowd of onlookers, including the Bishop of Dover himself, who conducted the institution. Later, a peal attempt in honour of the occasion failed (due mainly to the incapability of the band rather than the ringers), but a good peal was rung on the following Saturday by a mixed band from the district, conducted by Crawford T. Hillis. On this occasion some of the floor under the bell frame was temporarily removed to enable the bells to be heard more clearly.

A new young band is now being taught to handle the bells, and it is hoped that a Wednesday practice night will soon be established. At present the Ashford ringers ring at the church for occasional Sunday morning services, but a special practice—which will be advertised in 'The Ringing World'—is to be held here one Wednesday evening in the near future.

Occasionally we report tower-bell peals where one ringer has rung two bells. Now has come a peal of Minor from Preston Candover, Hampshire, in which three ringers each rang two bells. The band consisted of Tony Price 1-2, Frank C. Price 3-4, Frank T. Blagrove 5-6. The performance will go down to posterity, as far as peal ringing is concerned.

The peal at Haxey, Lincolnshire, on April 15th, is believed to be only the second peal on the bells.

The quarter peal of St. Albans Delight (see 'Ringing World,' April 28th) was rung at St. Stephen's, St. Albans, and not at St. Peter's, as printed.

Congratulations to Adelaide ringers, who have rung their first quarter of Cambridge Surprise Minor, which is the first in South Australia by a local band.

Mr. Len Derrick is ringing peals again, after his illness. He made a welcome return with a peal at Yatton, Somerset. The band wish him many more peals in the near future.

Another of our first issue readers has come to light, with the renewal of his subscription. He is Mr. E. Austin Head, of Needham, Suffolk, who learnt to ring under the late Mr. F. Lambert, of Halesworth.

Mr. A. Clayton, Master of the Putney ringers, hopes to enter a theological college in August. He has been succeeded by Mr. C. Mew as Master and the secretary and steeple-keeper is Mr. B. Bull.

The departure of Mr. John F. Carter, from Pangbourne, Berks, to Holkham, Norfolk, was marked by an attempt for a farewell peal. Unfortunately, the peal was lost in the first extent, due to two bells changing course. As there was not time for a second attempt for a full peal, a half peal was successfully rung and this was the longest length for Clifford and John Carter. Afterwards the band were most hospitably entertained by John and Barbara Carter and they extend not only their thanks, but best wishes for ringing in Norfolk.

BELFRY GOSSIP

A peal of Spliced Minor, consisting of 10,080 changes in 41 methods, was rung at Mildenhall, Wilts, on April 29th. This was the greatest number of Surprise Minor methods yet rung to a peal. The conductor was John R. Mayne.

St. Peter's Church tower, Dorchester, is now encased in scaffolding and repairs are proceeding. Ringing will be curtailed and for a time will have to cease.

The ringers of Daventry were intimately connected with the visit of the Bishop of Peterborough to consecrate a new lady chapel in their church, as they had made themselves responsible for raising £80 to meet the cost of one of the candlesticks.

A correspondent sends us a cutting from 'The Essex County Standard' reporting a full peal at Sudbury on April 8th. In this Miss Joy Munson rang her first peal and was the first woman parishioner to do so. We await the report of the peal.

Next Wednesday afternoon the ceremony of consecration of Guildford Cathedral will be televised. It has not been possible for the builders to hoist the Alfred Pulling Memorial Bell in the tower, but it will be on view in the south ambulatory.

Preb. E. V. Cox, president of the Guild of Devonshire Ringers, is in the City Hospital, Exeter (Marnheal Ward), for an operation and treatment. We are sure his many friends will think of him and wish him restoration to health and activity.

Floods played havoc with the band who planned to ring a quarter peal at Thornford, Dorset, on April 25th. Mr. Walter Poole safely negotiated one flood-bound road, got stranded in the middle of another, had to be towed out and failed to reach his destination. Another car, containing three of the band, got stuck in the middle of another flooded road and was driven out on the starter-motor. Instead of Cambridge Surprise, a quarter of Stedman Doubles was rung, the local tower master, Mr. Marshall, standing in.

NEW RECORD LENGTH FOR DURHAM AND NEWCASTLE ASSOCIATION

Since April 24th, 1905, the record length for the Durham and Newcastle Association has been a peal of 7,232 Double Oxford Bob Major, rung by the Christ Church, South Shields, band at Tanfield, Co. Durham.

From time to time there have been thoughts about breaking this record and on Easter Monday there was an attempt at the Morpeth Watch Tower at 8,000 odd Double Norwich Court Bob Major. This attempt failed in the early stages.

Permission was kindly given for an attempt for 10,080 Yorkshire Surprise Major at Allendale, by the Rector, the Rev. G. A. M. Dale. This lovely town lies in an isolated situation, about 12 miles to the S.W. of Hexham, and stands above the East Allen dale.

Mr. Eric Critchley had prepared compositions of various lengths for the attempt to be made on Saturday, April 22nd. As the morning of the attempt dawned, the writer and potential conductor, who had unwisely carried his new moped up a steep flight of steps on the previous Thursday, awoke with various muscular aches and pains, and as these did not disperse during the morning he decided to go to Allendale and just ring a bell, the lighter the better. Mr. Robin G. Turner very obligingly undertook to call the peal, at an hour's notice, and so we set off into changes on the light, easy running eight, at about 2.40 p.m. The back six bells are hung on plain bearings, but they were well greased beforehand by Mr. Lister, an Allendale ringer, who is at present training a local band.

Approaching the uncharted 8,000's, the writer, realising that the full 10,080 was going to take half an hour longer than he had estimated and because his aforesaid aches and pains were still present in full vigour, asked Robin to shorten the peal by six courses. Thus the 55 year old record was broken by a peal of 8,736 changes, rung in 4 hours 55 minutes.

Afterwards various people in the town, including the Rector, commented favourably on the ringing and expressed the hope that we would come again shortly,
J. A. A.

MR. PAUL L. TAYLOR,
Leicester Diocesan Guild.

Most of those who have rung at the Loughborough Bell Foundry Campanile, either for peals or on outings, will be well acquainted with Mr. Paul Lea Taylor, head of the famous bell founding firm which bears his name. When he is at home, he is usually able to find time to welcome visitors, and sometimes

personally conducts them over the foundry. He is always very willing to give permission for any ringing, and indeed the fact that the bells are available for peals so frequently is a great help to many Midland ringers in building large peal totals.

Paul Taylor was born on January 25th, 1914, at Quorn, Leicestershire, and educated at Oundle School and Sheffield University, where he took his degree as a B.Eng. It was only natural that he would follow the career of his ancestors, and he is proud of the fact that he is the fifth generation of Taylor bell founders. He was taught to ring at Loughborough, and his first peal was rung at the Bell Foundry tower, being Bob Minor, on December 12th, 1938. His peal total is a modest one, but his work as head of the firm—he took over this position in 1947 on the death of his father, Mr. E. Denison Taylor—frequently entails him travelling all over the British Isles and abroad. He has little time, therefore, to devote to this side of the art, but nevertheless has rung 106, in several methods up to Stedman Caters.

Paul is an honorary member of the Central Council, and a vice-president of the Leicester Diocesan Guild. As a University man himself, he is keenly interested in the welfare of the Universities Association, and is president of that Association. He also holds a similar office with the newly formed Nottingham University Society.

Outside bells, his great interest is music, and he enjoys scraping assiduously (as he puts it!) on the violin and viola. Amongst well known people who have visited the bell foundry, and been received by Paul, is the Duchess of Kent, who visited them in June, 1959, and he had quite a busy time on the television when the B.B.C. visited the foundry about four years ago.

It is very safe to say that while Paul is head of Taylor's Bell Foundry he and his staff will always strive to maintain the high standard of work which always results from a 'Taylor' ring of bells.

APACE.

A PROTEST

Mr. Edgar C. Shepherd, convener of the Literature and Press Committee of the Central Council, has sent the following letter to the editor of 'The Sunday Pictorial.'

'I am impelled to write to you to protest at the most unseemly and inaccurate representation of bell ringing depicted in "Sunday Pictorial," April 30th.

'Bell ringing is a highly skilled art, devoted primarily to the service of God and the worship of His Church, and in its practice is far removed from the fantastic contortions portrayed in your unsightly pictures.

'Neither the dignity of this ancient English art nor your own reputation can expect to be enhanced by your photographer's indiscretion.'

Rung as 8,736 (by omission of 3 blocks of 3 hobs in last part), at Allendale, Northumberland, on April 22nd, 1961, conducted by Robin G. Turner.

The peal at Madeley, Staffs (page 297), was not rung for the birthday of H.M. the Queen, but the peal at Bucknall on April 21st in this issue was. Our correspondent apologises.

For Mr. Albert Walker's 85th birthday on May 3rd, he took part in 27 courses of Stedman Cinques at Birmingham Cathedral. The peal then, unfortunately, broke down, so there was an adjournment elsewhere!

13,440 SPLICED SURPRISE MAJOR IN SIX METHODS

Dear Sir,—We give notice that it is our intention to attempt the composition No. 1, by A. J. Pitman, given in your issue of April 28th, 1961, at Norbury (Hazel Grove), on Saturday, May 20th.—Yours faithfully,

C. KENNETH LEWIS.

Timperley, Altrincham.

Dear Sir.—This is to give notice that a band will attempt to ring 13,440 Spliced Surprise Major in six methods, on Saturday, May 20th, commencing at 10 a.m., at the Loughborough Bell Foundry, by kind permission of Mr. Paul L. Taylor. The composition to be used is Mr. A. J. Pitman's No. 2 arrangement, on page 287 of your issue for April 28th, 1961.—Yours faithfully,

STEPHIN IVIN.

ST. MARY'S, FLINT, BELLS TO BE RESTORED

The six bells at St. Mary's Parish Church, Flint, which have not been rung since 1936, have been dismantled by Messrs. John Taylor and Co., and sent to Loughborough. The tenor bell is to be recast, the other five retuned and two new bells added to make a ring of eight. A new metal frame is also to be provided.

The restoration work, including the steel frame work, is estimated to cost about £2,000 and already about £1,500 has been subscribed by parishioners and friends. The secretary and treasurer of the fund is Miss S. E. Flynn, J.P., 19, Chapel Street, Flint, who will be glad to receive donations. The church was built in 1848 and the treble bell, dated 1873, was provided by Messrs. Mears and Stainbank.

To get ready for the return of the bells, local bellringers are being recruited. It is hoped to have more than one team, including one composed entirely of women.

COVENTRY DIOCESAN GUILD

THE 54th annual meeting of the Coventry Diocesan Guild was held at Stratford-on-Avon on April 15th. The bells of Holy Trinity Church are a tremendous attraction and well over a hundred were given the opportunity to ring them during the afternoon and evening. The service, taken by the curate, was well attended. Members were sorry to learn that Canon Prentice was ill and they sent him their best wishes for an early recovery. All arrangements for the meeting were made by members of the local band.

The business meeting, with the president, Mr. F. W. Perrens, in the chair, was held after the tea. But before it started there was a pleasing ceremony—the presentation by the president to Mr. and Mrs. H. M. Windsor, the Ringing Master and his wife, of a tea trolley, as a wedding present, subscribed to by members of the Guild. Mr. Perrens' good wishes to them for a very happy future was warmly endorsed by the meeting.

Opening the meeting, the chairman made reference to the two veterans who had passed on since the last meeting—Mr. Adolphus Roberts and Mr. Tom Male, both of whom had been members of the Guild for over 50 years. Members stood in silence as a token to their memory. Both had done much for the Guild in its infancy.

IMPROVED STANDARD

In presenting his report for the past year, the honorary general secretary (Mr. J. L. Garner-Hayward) stated that a new ring of eight had been installed at Atherston, but had not been dedicated, and that the six at Kenilworth had been rehung. The past year had been one of progress throughout the Diocese, meetings had been well attended and the standard of ringing had improved. Many young people were to be seen at the meetings: this was a good omen for the future of the Guild. He expressed sincere thanks to the officers of the Guild for their help during the past year, and referred, in particular, to their chairman for his ready assistance at all times.

DEDICATION RINGING

Close contact was kept with the new Cathedral authorities, so that ringers should be in the picture when that magnificent building was dedicated in May, 1962. A further meeting had been arranged with the Provost to ascertain the actual date of the service for ringers during the Festival of Dedication. The Lord Bishop had suggested that as many peals as possible should be rung in the Diocese on the actual day of dedication, and all the bells not taking part in peals should be rung at the time of dedication. This would be a formidable task for the members, and it was not too early to start making their plans for this momentous occasion.

He paid tribute to the sub-committee who had the onerous task of revising the Guild Rules, for the very able way they had carried out their task. The new Rules proposed and which he hoped the members would now adopt would certainly be easier to interpret than the present ones.

The honorary treasurer, Mrs. D. E. Beamish, in presenting the financial report stated that the membership was now over 300, and that the finances of the Guild were in a satisfactory state. The Bell Restoration Fund had over £34 available. The Northern and Southern Branch secretaries both reported that progress was good, that new bands had been formed in some churches, and that it was noticeable that the main support at meetings was by young people.

DIVISION OF SOUTHERN DISTRICT

The principal item on the agenda was the adoption of the revised Rules. These were accepted without comment. There were three controversial items to deal with, the Division

of the Southern Branch, which was left with that Branch to make a definite recommendation of how they proposed to carry this out, so that it could be dealt with at the next A.G.M. The other two items, Certificates of Affiliation for Towers and Competition Ringing, were rejected. Many new members were elected and there were several ratifications. All the officers were re-elected as was the honorary auditor, all being thanked for their work during the past year.

The peal secretary, Mr. P. Stone, reported that 25 peals had been rung during the past year and was the highest number to be rung in a year for over ten years. Four members had rung their first peal, 30 members had rung their first in a new method, and the conducting had been shared by 14 members. Before the meeting closed the secretary reminded those present of the biannual rally, which was to be held at Chilvers Coton on July 1st. The next meeting would be at Stoke-in-Coventry.

WORCESTERSHIRE & DISTRICTS ASSOCIATION

Critical observations were passed by Mr. J. D. Johnson, the general secretary, at the Worcestershire and Districts Association's 76th annual meeting held at Worcester on Easter Monday, on the practice of ringing the front six of a ring of eight and the front eight of a ring of twelve. He described it, according to 'The Evesham Standard,' as 'an agony in sound that grates on the ears.'

Mr. Johnson called attention to this practice in the hope that it would be discontinued although the rules of the Association did not forbid such ringing.

In his report, Mr. Johnson said that more young people were taking up bellringing and the number of members continued to increase.

The Dean of Worcester (the Very Rev. L. P. Milburn), who presided, was re-elected president. Other re-elections were: clerical vice-presidents, Bishop C. E. Stuart, Canons T. Keith-Murray, T. Charles-Jones and J. R. Bamber, the Revs. H. Hartley and A. Webb; lay vice-presidents, Messrs. J. R. Newman and W. B. Cartwright; chaplain, the Rev. H. L. Davies; general secretary and treasurer, Mr. J. D. Johnson. The Rev. I. J. Birch resigned as chaplain and was elected a clerical vice-president.

BATH AND WELLS DIOCESAN ASSOCIATION

The quarterly meeting of the Chew Deanery Branch was held at Backwell on April 15th and the fine octave was put to good use prior to the Association form of service, which was conducted by the Rev. L. W. Fussell, of Wraxall.

An excellent tea, prepared and served by the lady members of the Branch, was enjoyed in the Women's Institute Hall, and Rev. L. W. Fussell took the chair at the business meeting, which followed. A new member from Backwell and another from Wrington were elected and one lapsed member from Yatton was re-elected. Subject to permission the next quarterly meeting will be held at Wraxall in July, with monthly practice meetings at Publow and Portbury for May and June, respectively. The Branch will ring for and attend Evensong at Portishead on St. Peter's Day, Thursday, June 29th.

Ringings were under the direction of the Branch Ringing Master, Mr. H. W. Knight.

The half yearly Corporate Communion was held at Portishead on April 23rd, when some 22 members rang for and attended the Parish Communion. Breakfast was afterwards taken in a nearby cafe.

SURREY ASSOCIATION

THE annual meeting of the Surrey Association, held at Reigate on April 15th, must have been the shortest for many years. Ringing at St. Mary's had been followed by the Association service (taken fittingly by the Rev. K. G. Hoare, our ringing Rector of Godstone) and a magnificent home-made tea, enjoyed by 67 people in the Church Hall.

The Master, Mr. F. E. Darby, presided at the business meeting, which soon moved on to the committee's report for 1960. No startling events had occurred during the year, but it had been rather a year of consolidation. A start had been made in training bands needing outside help; the quarter peal total (which is a significant measure of vitality) had increased to 146 from 118 in 1959; and Sunday service ringing had been maintained in most affiliated towers.

The meeting stood to the memory of four members who had died during the year: Messrs. F. Digby, C. W. R. Grimwood, H. Farrington and E. E. Tidy.

REPORTS FROM 1880

After the treasurer had assured us we were in a healthy financial state, Mr. Roberts presented an encouraging report on the library, which had been quite well used during the year. He announced that the complete set of Association reports, 1880-1959, had been bound and were on display at the meeting, and said that although gifts of interesting books were always welcome at 18, Blackborough Road, Reigate, we should particularly appreciate reports for the years 1880-1922, 1931, 1933 and 1935. This was to complete a duplicate set.

Mr. R. F. Layton had been patiently writing up the latest peal book, and he was warmly thanked for this. These books were also on display and attracted an interested crowd before and after the meeting.

All the officers were re-elected en bloc, including Mr. Darby as Master and Mr. R. Parsons as secretary.

Some Rule amendments were then swiftly disposed of, including one which fixed the date of the A.G.M., on the first Saturday in May, instead of the second after Easter.

When the committee announced that members aged 16 or less would only have to pay a half-rate subscription of 2s. next year, something happened. The meeting stirred. We could feel the breath of battle at last. Almost before the old 'uns could complain: 'one wedding pays for two-and-a-half subscriptions,' a young 'un had jumped up and was actually asking for a cheap sub. for as long as he/she stayed at school. The young 'un persisted. However, the chairman's promise to 'look into it' achieved the truce, tension eased, and the meeting relaxed once more.

The secretary announced that discussions were under way with the Guildford Guild on the proposed merger; and that next year's meeting would be on May 5th (it was hoped) at either Southwark or Kingston. And so, with the usual hearty votes of thanks, did the meeting close after a mere...45 minutes.

BEDFORDSHIRE ASSOCIATION

A successful meeting was held at St. James' Church, Blunham, on April 8th. A short service was conducted by Rev. Mr. Edwards, with Mr. M. Lockett at the organ.

Methods rung ranged from Plain Bob to London Surprise, with rounds for the probationers. About 25 members were present at tea, which was served in the Parish Hall by Miss Joan Harding and other lady helpers.

LETTERS TO THE EDITOR

'A TRAVESTY'

Dear Sir.—May I through the medium of the columns of 'The Ringing World' make the strongest possible protest at the disgraceful exhibition in a national Sunday newspaper, last weekend, showing two girls being given a 'supposed' lesson in handling a bell rope.

The pictures are—to me—abominable, and nothing but a travesty of the truth, in what should be good behaviour and decent conduct in a ringing room, and I have no hesitation whatever in saying that the person who allowed the girls to behave in the way they did, and to be photographed, knowing full well that the pictures might be published in a national newspaper, should be cleared out of the belfry neck and crop, and never allowed in again.

This kind of falsity can only result in creating a wrong impression in the minds of many, especially those who are always ready to misjudge and adversely criticise, given the opportunity.

I appreciate that this incident is only another of the sensation-mongering activities of the type of periodical concerned, but I realise that many parents, upon seeing such pictures, would have second thoughts about allowing their young people to enter a belfry if such things take place.

I appeal, therefore, to all sensible ringers, and particularly captains of towers, to dispel any doubts that may arise in the minds of parents of their ringers, and to extend an invitation to the parents to visit the belfry and see their youngsters at work, both at practice and Sunday ringing. They would then be able to treat pictures and articles of doubtful authenticity with the contempt such things deserve.—Yours faithfully,

SAM SCATTERGOOD,
Ringing Master,
Chesterfield Parish Church.

'BAD TASTE AND SACRILEGIOUS'

Dear Sir.—I have today had shown to me a copy of the 'Sunday Pictorial' of April 30th. I am far from prudish, but I feel the Tower Master and any other responsible members of Great Salkeld, Cumberland, should be severely reprimanded for allowing the photographs to be taken in their belfry, which were spread across the centre pages of the paper.

Not only are the photographs in extremely bad taste, even sacrilegious considering they were taken in church, but the ropes are not being pulled in a normal manner.

Presumably the girls hung on to the sallies when the bells were half down and anyone doing this in ignorance with the bells up could be seriously injured.

This sort of thing can only give the art and bellringers a bad name, and that it should have been allowed to happen is shameful.—Yours faithfully,

Brentwood, Essex.

R. J. BROWN,

Stockport.

NEW WAYS OF TEACHING

Dear Sir.—Looking at the centre pages of the 'Sunday Pictorial' of April 30th, one cannot help but feel that ringers are being taught a different way these days. It shows two learners at Great Salkeld, Cumberland, rising to the occasion, and disappearing out of view upwards! It seems that either this picture was 'staged' or that learners are now being taught to ring down in one pull.—Yours faithfully,

D. BROOKES,

Putney.

P.S.—This letter does not, as it may seem at first sight, have a plain course.—D. B.

GOOD FRIDAY RINGING

Dear Sir.—May I be permitted to pass a few observations on a recent letter concerning ringing during Holy Week.

Whilst I wholeheartedly agree with Mr. F. Hoppood that all practices, peals and quarters should be curtailed during Holy Week, I am afraid I do not share the same opinion regarding ringing on Good Friday.

When one considers that the primary purpose of church bells is to call people to worship and to be a witness of the Christian faith in that parish, then surely Good Friday is one of the great days of the year when the bells should be rung. Whether or not they are rung half-muffled I consider a matter of personal opinion, although half-muffled ringing has a peculiar beauty of its own, and adds a striking contrast to the 'open' ringing on Easter Sunday, proclaiming the glorious resurrection of our Lord.

Regrettably these days, Good Friday seems, to the majority of people, to be just another excuse for a day off and perhaps a lie on in bed. Surely we can, by our half-muffled ringing, at least remind people of the solemn importance of the day. After all the organ is not silenced, and many beautiful choral works are rendered; why then should our bells stay silent?

It has always been our custom to ring on Good Friday, and I know that if we did miss, our Vicar would soon be asking why.—Yours faithfully,

R. A. SOUTHWOOD,

Truro, Cornwall.

HOLY WEEK RINGING

Dear Sir.—Whilst there is some truth in what Mr. Hoppood says, as regards Holy Week ringing and the period of Lent in general, I must protest against his statement that half-muffled ringing on Good Friday is 'a lot of hokey.'

Our church is situated against A6, one of the busiest roads in the North-West. We ring our bells half-muffled at 10 for the morning service on Good Friday. At that hour hundreds, if not thousands, of hikers, cyclists, motorists are streaming up the road to the Peak District. These people cannot fail to hear the bells, and what better reminder could they have of the solemnity of the day? What effect, if any, it may have on them is impossible to assess, but the fact remains that more hear them (the bells) than are likely to attend a service, and the church authorities approve. Whether the ringers concerned 'can't keep their hands off a rope' is beside the point.—Yours, etc.,

P. LAFLIN,

FOR INDIVIDUAL INCUMBENTS

Dear Sir.—With reference to the letter 'Ringing in Holy Week.' Mr. Hoppood might be interested to learn that at Bexley we ring during Holy Week at the express wish of the Vicar.

Surely this is a matter which must be decided by each individual incumbent. I, myself, can see no harm in reminding those who pass by that Good Friday is not another Bank Holiday and that there is something 'on' in the church.—Yours faithfully,

MARY R. ANDREWS,

Bexley, Kent.

THE WEDDING PEAL

Dear Sir.—May I reply to Mr. Robert Smith, whose letter you printed on April 28th? Since my first letter to you I have received from the principals involved a most spontaneous, generous and heart-warming apology. This entitles them to be left strictly out of the issues now raised by Mr. Smith when he says that 'a number of points stated (i.e., by me) appear to be a little way from the truth.' I do not practise untruths and needs must reply.

The facts are these. I had to make a distressing choice between competing duties, which meant I could not ring for the wedding of two local ringers. As soon as I knew of this I told them of it and of my great regret. Hearing that some of their ringing friends were likely to be at the wedding I asked for details, wishing to make the best possible arrangements for everyone. I think it possible that it was this request for information about visiting ringers when led to a later misunderstanding. I must emphasise, however, that I did not, as Mr. Smith states in his letter, tell them that as I would be away there could be no ringing for their wedding. Nor is it the case, as he implies, that I ever contemplated ringing a peal which would have been beyond the competence of the local band, with the two honeymooners away. What is true is that we, at Sutton, had always intended to ring for the wedding and at the same bell practice as I asked about visiting ringers our own were asked to do this. That they did it royally is shown by the fact that all eight of them turned up, led by my wife and son, who otherwise would have been with me; a local band of eight for six bells.

At the wedding visiting ringers were welcomed and pressed to ring. One of them praised the bells and my wife offered to get them for her for a future peal. This friendly approach did not elicit the natural response that she was in fact to ring one there that very afternoon. None of the visitors present who were to ring in that peal told any Sutton ringer of it, much less were any courtesies exchanged with my wife, who was acting as leader for me as to arrangements re chimes, keys, etc. Small wonder that the local ringers felt resentment later on hearing their own bells rung to a peal, and by whom.

If Mr. Smith will carefully re-read my first letter he will see that it does not preclude that at an earlier date a vague suggestion had been made to the Vicar about some ringing during the afternoon. What it does say is what the Vicar told me, he had no idea that anything in the nature of a formal peal was to be rung and that had this been the case he would have told me of it. It also says that I, as tower leader, had no knowledge whatsoever of a peal, nor had I of the afternoon ringing; I went on to say that this constituted 'a deplorable lack of courtesy amongst ringers.' Surely Mr. Smith is not suggesting that a partial courtesy to the clergy and total discourtesy amongst ourselves is the standard to be accepted or that young people today would accept it as their ultimate aim? I think far more highly of them than this.

May I conclude by recommending to Mr. Smith that he now does what I did; that he makes immediate personal contact with me as I did with the chief people concerned. I should be delighted to meet him and at least to advise him as to how he might avoid the excesses of immaturity in the future.—Yours faithfully,

C. LAWTON,

GUILDFORD CATHEDRAL

Dear Sir,—On May 17th history is being made, when, in the presence of Her Majesty the Queen, the New Cathedral of the Guildford Diocese is being dedicated. Although the tower is not completed, ringers should know that a fund exists to help towards the cost of hanging a ring of bells at a later date. One bell of 12½ cwt., in memory of Alfred Pulling, is already cast and is being hung, with electrical controlling mechanism, for immediate use. This bell will be incorporated in the ringing peal.

About £400 has been raised by donations and with £200 of other moneys available, covers the cost as estimated. Unfortunately the Cathedral authorities cannot find the £200 required to connect up the electrical mechanism and the cost of the building work involved, and have asked the ringers to be responsible for this amount; also, I should be extremely grateful for any donations, large or small, towards this amount. Ringers in the Diocese have already done very well, in addition to the burden of their individual church appeals for raising money to build the Cathedral.

Please send what you can afford to the undersigned. It will be thankfully received and faithfully applied.—Yours, etc.,

CHARLES DENYER.

MR. REGINALD REX

Dear Sir,—Re 'Personalities of the Exercise —17,' I cannot describe the great personal joy it gave me to read the excellent article of the ringing career of that great friend of mine Reg Rex. We were very great friends in the late 20's and 30's, at Newbury, and later at Donnington, where I was resident as gardener, at The Priory and Reg was gardener at the famous historical Donnington Castle. We were neighbours and in the same profession. Reg would call at my house to go ringing at Newbury, Thatcham, etc., and we used often to call for old Sam, at the Donnington Hospital. What happy times those were, Reg, when we were struggling to get the last few pounds for the two trebles at Newbury Parish Church, in 1933!

I recall, especially, the only peal of Triples I ever rang at Bucklebury, with the late Miss Stella Davis, and Reg called the peal; also my only peal of Minor at Peasmore, and our cycle trips to Isley, Bucklebury, Highclere. What happy memories! I am sorry I have not met Reg for about seven years, but I humbly take my hat off to so great a ringer and friend, for his great courage in overcoming so great a handicap as the loss of an arm. May he live many years to enjoy this great art, to which he is devoted, and such a great example to us all. Thank you, Reg, for very many happy memories.—Yours sincerely,

ALFRED J. WHITTLE.

A PUZZLE

Dear Sir,—In an old book of puzzles, I recently came across the following problem:

'A correspondent, who is apparently much interested in campanology, asks me how he is to instruct what he calls a "true and correct" peal for four bells. He says that every possible permutation of the four bells must be rung once, and once only. He adds that no bell must move more than one place at a time, that no bell must make more than two successive strokes in either the first or the last place, and that the last change must be able to pass into the first.'

The solution given at the of the book was not the expected extent of Bob Minimus, but the following:

4331122442233114411223344
3413214224321341142132433
2142341313412432324314212
12244331311144223233441121

Would this be regarded as a regular method, and can anyone but a name to it?—Yours faithfully,

ALAN J. BLAIR.

Thurso, Caithness.

Note.—Readers should turn the paper sideways to read the method.—Ed.

SALISBURY DIOCESAN GUILD

Dorchester Branch

The spring quarterly meeting of the Dorchester Branch was held on April 22nd at Frampton, in traditionally April weather, with rather prolonged showers. A considerable amount of work has been done on the tower at Frampton in the past year or so and the bells are now rung from the ground floor. The bells are difficult to hear in the ringing room, but can be heard better in the church; also one has to be careful while ringing the 4th and 5th or one might catch the wrong sally!

The Guild service was conducted by the Vicar (the Rev. H. Brayford), with the choir in attendance. In his address he stressed that each man and woman should play their part first for God's sake and then for his people's sake and then for the satisfaction of doing it for God and his people.

Tea was served to 33 members in the Village Hall. The meeting was conducted by the Branch chairman, the Rev. C. E. C. Brinkworth. Members stood in silence in memory of Lord Shaftesbury (Guild president) and Mr. A. F. Martin-Stewart (past Master of the Guild).

Four new members were elected. It was decided that the next meeting should be at Wyke Regis on July 1st. Branch practices were arranged as follows, at fortnightly intervals, subject to confirmation: May 6th, Leigh; May 20th, Upwey; June 3rd, Litton Cheney; June 17th, Charminster; July 15th, Abbotsbury. Arrangements for the Guild festival at Calne were discussed.

Charminster bells were now back from the foundry and would be rehung during the next three weeks. Dedication would be on Whit Sunday at morning service (11 a.m.). Practice nights would be Thursdays. Members took the opportunity of ringing at Sydling during the evening.

GUILDFORD DIOCESAN GUILD

Farnham District

Despite really miserable weather a good crowd attended the Worplesdon meeting on April 22nd. The Rector, the Rev. the Hon. A. C. V. Elphinstone, conducted the service, and ringing was stopped for a short period for a christening.

The Master, Mr. C. W. Denyer, took the chair at the meeting, which followed tea. Fifty-nine people were present and among the subjects discussed were the District outing to Bognor in July, the autumn festival to be held in the Farnham District on September 30th and the District ringing competition, which is to be held at Bentley on June 3rd.

DERBYSHIRE ASSOCIATION

Peak District

A very successful meeting was held at Darley Dale on April 22nd, when about 30 ringers attended. Visitors made up the majority of these, the East and West coasts being represented and well known ringers from Rotherham and Stoke-on-Trent were also present. It was a pleasure to see a boy of 11 stand in a course of Bristol and something like 65 years 'bridging' the gap between the treble and 2nd ringer in a touch of Siedman.

David Kingman, of Matlock, was elected a member at this meeting and we are happy to have this tower represented

G. R.

KENT COUNTY ASSOCIATION

Lewisham District

Between 70 and 80 members and friends attended the quarterly meeting of the Lewisham District—a joint meeting with the Kent Branch of the Ladies' Guild—at Dartford on April 22nd.

As the church is currently awaiting the induction of a new Vicar, a former ringer, Canon Groom, of Lamorbey, kindly conducted the service. The lesson was read by Mr. E. Barnett.

An excellent tea, prepared and served by local ringers and friends, was followed by the usual business meeting. It is planned to hold the next quarterly meeting on July 22nd at Bromley Common.

M. R. A.

THE LADIES' GUILD

Central District Annual Meeting

The annual meeting of the Central District was held in Reading on April 29th. Afternoon ringing, ranging from rounds to Grandsire Cinques, took place at St. Laurence's, followed by a short service conducted by the Vicar. The organist was Mrs. Lock. After a buffet-style tea in St. Mary's Church House, the gentlemen were banished to ring handbells while the business meeting, attended by 26 members, took place.

Mrs. Lock (vice-president), in the chair, welcomed members from a wide area—some from as far afield as Yorkshire. The secretary (Mrs. S. Bullock), in her report, stated that all parts of the District had been visited during the year, the attendance had been fair at all five meetings and that 13 new members had been elected, bringing the total membership to a round 100. The financial position was sound.

The officers and District Committee were re-elected, and Mrs. E. Savory and Miss C. Rimmer were elected as representatives on the General Committee. During the election of new members, a letter was read from Mrs. Pipe, of Grundisburgh, proposing 20 new members from East Anglia, who wished to revive the Eastern District. Once elected, they could then in turn elect their own District officers. This made a total of 27 new members.

It was hoped that the next annual District meeting would be at Hendon on March 31st, 1962, and the next District meeting at Benington (joint with Hertford County) on July 29th. Members were also reminded about the A.G.M. at Bedford on July 1st. Appropriate votes of thanks concluded the meeting, with a special one to the Diserens family. Evening ringing at St. Mary's included an excellent half-course of Cambridge by an all-ladies' band.

J. D.

Bedfordshire and Northants Branch

The six-bell tower of Milton Ernest was chosen for the annual meeting of the Beds and Northants Branch of the Ladies' Guild on April 29th. The attendance was disappointing, only 12 ringers were present before tea, eight of them ladies and only one representing Northamptonshire.

A service was conducted by Rev. Mr. Daniels, and then tea was served in the Village Hall. At the business meeting, for which Mrs. M. Mann took the chair, the following officers were elected: Vice-president: Mrs. M. Mann; secretary and treasurer: Miss K. Rivett; committee: the Misses S. Collins, D. Lawless, S. Percival and Mrs. F. Spavins.

It was decided to hold District meetings regularly on the last Saturday of alternate months and if possible to have the next meeting at Kettering on May 27th.

Ringing Master for the meeting was Mrs. M. Mann.

OXFORD DIOCESAN GUILD

East Berks and South Bucks Branch

About 100 members attended the Branch annual meeting, held at Bray on April 22nd. The service was conducted by the Vicar, Rev. S. W. Doran, and the chairman of the Branch, the Rev. E. Perkins, gave a very fine address. During the service members of the Branch who had passed away since the last annual meeting were remembered.

A good tea was enjoyed before the meeting began. The chairman thanked the secretary (Miss D. Hague), the treasurer (Mr. A. D. Barker) and the Ringing Master (Mr. E. G. Swift) for their work during the year. Officers elected were: Chairman, Rev. E. Perkins; secretary, Miss D. Hague; treasurer, Mr. A. D. Barker; Ringing Master, Mr. D. Cornwall; Deputy Ringing Master, Mr. H. Oglesby.

After a report on the ringing activities of the year by Mr. E. G. Swift and the usual vote of thanks, proposed by Mr. A. D. Barker, ringing was enjoyed until 9 p.m. This varied from rounds to Bristol and Cambridge.

OBITUARY

MR. HORACE M. DAY

It is with deep regret that we record the death, on April 30th at the age of 79, of Mr. Horace Mason Day, the well known Market Deeping, Lincs, ringer, after being ill with bronchitis since December last.

Born at Tallington and later moving to Market Deeping, Horace did not take up ringing until he was about 30 years of age. During Army service in the Bristol area in the First World War, he gained valuable ringing experience on all numbers. Upon returning home his enthusiasm and ability as a conductor led to the rapid expansion of ringing activities in the Deeping area, resulting in many peals of Multi-Minor methods being achieved.

Spliced Surprise Minor soon took a firm hold, culminating in the ringing, in 1936, of the then record peal in 32 methods, which Horace conducted not once, but four or five times. He subsequently featured in the pre-war 'Ringing World' series of 'Leading Conductors.' Another of his pre-war achievements was conducting 10,080 changes in 14 methods at West Deeping.

His activities were not confined to six bells for he also found time to practise and ring peals of Surprise Major and Royal. Many ringers owe their introduction to Surprise ringing to Horace and he was always happy to have called their first peal in this field. In his late sixties and seventies he conducted his own yearly birthday peal, the last such occasion being in 1959, when, at the age of 72, he conducted a seventeen Spliced Surprise Minor peal at Ripplingale, Lincs, and this was the last peal in which he took part. No details of his peals are available but he took part in over 300.

As well as a ringer, Horace was, in earlier years, a keen competition cyclist, being a prize-winner on many occasions. He was a chorister for over seventy years and up to his death sang in both the Market Deeping and Deeping St. James' choirs.

His cheerful, joking, lively personality will be sadly missed by the hundreds of ringers throughout the country who had the pleasure of knowing him. He leaves two sons and a daughter.

The funeral took place on May 1st at St. Guthlac's Church, Market Deeping, and among the large congregation were some 30 ringers representing over 20 towers in Lincolnshire and Northants. Immediately following the funeral ringing took place at Market Deeping and Deeping St. James and in the evening a memorial peal was rung at West Deeping.

MR. R. H. KNIGHT

The sudden death of Mr. R. H. Knight, of St. Martin's, Stamford, on April 26th was a great shock to his fellow ringers, as the previous evening he had attended practice and took part in most of the ringing.

It was on the five bells of Alwalton, Northants, over 60 years ago that he learnt to ring. Later he lived at Easton-on-the-Hill, where there were only four bells, but some 30 years ago he came to Stamford and joined All Saints' band. The possessor of a fine tenor voice, he sang in the choir of each church where he lived.

'Bob,' as he was affectionately known, was not a prolific peal ringer, his total being only 25, but he was always ready to take part in ringing, anywhere and at any time. His sincere and warmhearted friendliness made him very popular wherever he went and it is for these qualities that he will be best remembered.

MR. W. STANNARD AN APPRECIATION

By the death, on March 17th at the age of 75, of Mr. William Stannard, the Bury St. Edmunds company has lost a most capable ringer and conductor, whose place will be very hard to fill.

He had been a member of the Norman tower band for 40 years and insisted on good striking. When learning a new method he would insist on ringing it until the striking was to his satisfaction. The North-West District of the Suffolk Guild has lost a good supporter of their meetings. May he rest in peace.

FUNERAL OF MR. A. B. PECK

There were at least 150 ringers present at the funeral service for Mr. Alfred B. Peck at Westminster Abbey, last Friday. The service was conducted by the Sub-Dean, the Rev. Adam Fox (in the absence of the Dean), assisted by the Rev. G. R. Dunstan, superintendent of the belfry.

The cortege was met at the entrance to the cloisters by the clergy and the coffin, covered by the Abbey pall and borne by the Abbey bearers, escorted through the cloisters and into the Abbey, by the west cloister door, and thence to St. George's Chapel, in which the service was held.

In addition to the Westminster Abbey ringers there were present Mr. H. Langdon (Alfred's lifelong ringing friend), Messrs. A. A. Hughes, E. A. Barnett (representing the Central Council) and D. Beresford (Master of the Society of Royal Cumberland Youths).

At the conclusion of the impressive service, a course of Stedman Triples was rung on handbells by Messrs. H. N. Pitstow (secretary, Westminster Abbey ringers) 1-2, J. E. Chilcott (secretary, the Ancient Society of College Youths) 3-4, J. F. Smallwood (Trustee of the Ancient Society of College Youths) 5-6, M. F. Moreton (Master of the Ancient Society of College Youths) 7-8.

A quarter peal of Stedman Triples was rung the same evening at St. Stephen's, Rochester Row, with the bells half-muffled, by members and supernumeraries of the Westminster Abbey band to the memory of their late colleague.

The body remained overnight in the Abbey, where deceased had served for over 40 years, and was taken the following morning for cremation at Streatham Crematorium.

The sympathy of his wide circle of friends is extended to his two daughters. One is a missionary in Africa and the other, who is married, was residing with her father.

MR. A. B. PECK APPRECIATIONS

A correspondent writes:—

As one of the younger generation of ringers, may I say how deeply the loss of Mr. Peck will be felt by many ringers who only knew him for a comparatively short time.

If we youngsters were inclined to boast about our performances, Mr. Peck was never slow to remind us about some of the things he had done—and it was worth hearing his reminiscences. I remember, especially, two of his stories, which he often used to tell to remind us that only the best is good enough, in ringing as in anything else.

He told us often about the time when he went for a handbell peal of Stedman Triples, which was conducted by Challis Winney. Over three-quarters of the peal had been rung without a single mistake, when Mr. Peck inadvertently failed to dodge with himself in 4-5 (he was ringing 3-4). Mr. Winney, he told us, immediately put his bells down; which Mr. Peck felt was absolutely right, because one single mistake in a peal of Triples means that you have not rung 5,040 different changes.

Mr. Peck was also fond of quoting something which was written to him in a letter from Mr. F. Dench: 'What's the use of kidding yourself you've rung a peal, when you know in your heart you haven't?'

Mr. Peck is no longer with us, but I sincerely hope that his example will live. He had no patience with the young of today (and he admitted that they are few) who take no notice of what has been done by previous generations of ringers; he used to say, 'Where would I be, where would any of us be, if it hadn't been for what other ringers have done before us?'

Let us remember him, then, as one for whom perfection was the only goal in ringing, but yet would tolerate those whom he knew to be doing their best, and to be striving always to do better still, as he himself did.

The news of the passing, in tragic circumstances, of Alfred B. Peck, came as a great shock to his wide circle of friends, and to College Youths in particular. He was well known in all parts of the country and was

highly respected, not only because of his great ringing ability, but because of the sterling quality of his character. The Ancient Society has never produced a more worthy son, and he stood in the esteem, awe, affection of all members of the Society, old or young. College Youths will remember, with pride and gratitude, his service for nearly 20 years as secretary of the Society, and the cheerfulness with which he took on the colossal job of succeeding the late W. T. Cockerill, another great character.

Alfred Peck was a most modest man, and was never known to boast of his achievements. He was, however, a most doughty champion of the traditions of the College Youths, and woe betide any youngster who failed to respect them. Underneath his rather rugged manners, there was a gentleness and charm which was irresistible. He had always a kindly word for the youngster who could be seen to be trying.

His example in peal ringing was one which we would all do well to follow. When he started for a peal, his ambition was never to strike a bad blow or make a mistake. In this he invariably succeeded. He was a regular ringer at St. Paul's Cathedral for over 50 years, and also the senior member of the Westminster Abbey band, which he joined when it was formed about 40 years ago. We have lost a dear friend, and we shall miss him, but we shall never forget him.

Life's race well run,
Life's work well done,
Life's victory won,
Now comes rest.

J. F. S.

I deeply regret the passing of my old friend, Alfred Peck, in such tragic circumstances, for we were College Youths together in London, during the last stages of our teens. For the purpose of the record, Alfred became a College Youth before 1904, for I rang in his first peal on ten bells at St. Magnus', City, on September 19th, 1902, when he rang the tenor to a round 5,000 of Stedman Caters.

He served his Cathedral and Abbey faithfully, was ever loyal to the College Youths, therefore he will not be forgotten, when the pages of our ringing history are referred to for examples of true and faithful personalities.

WILLIAM SHEPHERD.

MR. R. ARCHER

The death of Mr Robert (Bob) Archer, of Winlaton, Co. Durham, on April 26th, is deeply regretted. He was a bellringer for many years and for the last few years people's warden, serving his church faithfully and cheerfully. Besides his church activities he was also a keen worker for the St. John Ambulance Brigade, being an officer in the local corps.

The funeral took place at Winlaton on April 29th and on the previous evening four of his ringing comrades—W. C. Bennett, H. Jenkins, T. Bullerwell and A. Allison—carried the coffin into St. Paul's Church, where it rested for the night. The bells were rung half-muffled prior to the funeral service next day, by the local band, assisted by Stephen Thompson, from Whickham. The Rector, Rev. J. G. Fox, officiated and in an address paid tribute to 'Bob's' work. Four members of the Ambulance Brigade acted as underbearers and he was laid to rest almost in the shadow of the tower which he loved and served so well.

50 Years Ago

'R.W.' May 12th, 1911.—

Many and often curious are the ways in which peals are lost. A smash up, a shift course or a broken rope are occurrences with which every peal ringer meets. At Rotherham the other day the band met with an equally effective quietus when attempting a peal of Stedman. The gas went out and—well, there was the end of it. But the peal has since been rung, and we congratulate Mr. Lee upon scoring Stedman Triples for his 70th birthday.

Nat a hundred miles from Brighton there was a 'gas' incident last Sunday evening. After ringing for service the steeplekeeper absent-mindedly turned off the gas at the meter, and extinguished all the lights in the church.

THE annual tour of the Oxford University Society, from April 1st until the 6th, was based on Lyme Regis. For the railway enthusiast, the branch line from Axminster to Lyme is of some interest, because the one carriage train is often hauled by an Adams tank, cast in 1885.

The tour organiser, Robin Pittman, had an adequate number of resident and old members on parade, the latter including Harry Miles and Dermot Roaf, who is to be congratulated on (i) producing the worst U.A. circulars ever seen, (ii) being elected to a fellowship at Exeter College, Oxford, (iii) outdoing the spiced band by announcing his engagement to Miss Caroline Hughes, (iv) talking more than anyone else. The Society also welcomed Miss Marie Cross, who has helped several 'generations' of resident members.

Ringing on Easter Sunday, after the customary leisurely morning on the octaves at Lyme Regis and Whitchurch Canonorum, assumed a more serious aspect in the afternoon, when Rodney Meadows organised what may be called a 'tower grab,' which included eight towers and tea with his parents, to whom the Society tenders its grateful thanks and appreciation.

Towers visited were: Chideock (6) Symonds-bury (6), Askerswell (6), Powerstock (6) Stoke Abbot (5), Thorncombe (6), Netherbury (5) and Hawkchurch (6).

The tour proper started on Monday with a day in the Exeter area. The ringing at Sidbury (8) was somewhat 'off-beat,' but that at Exeter Cathedral, on the magnificent twelve, made everyone 'wake up.' Rounds and Stedman Cinques were rung and Frank Mack, who joined the Society on this and subsequent days, seemed to be the only one who, through familiarity, was not psychologically affected by the thought of 72 cwt. swinging above him.

In order to pass the afternoon, the Society rang on three excellent octaves: Heavytree, where Norman Mallet recorded our efforts, which for no apparent reason were below standard; Broadclyst, a really magnificent ring, and Ottery St. Mary, another fine ring, although the 'draught' caused some trouble except to the immediate Past Master and secretary, who found it much to their liking.

Tuesday saw the Society at Broadwindsor, a pleasant six, where 'Roddors' and some of the 'oldies' attempted some Killamarsh—not all. Here the Rev. Christopher Marshall, from Crewkerne, and Michael White were welcome. At Beaminster, a good old-fashioned eight, there occurred some bad old-fashioned ringing and a few old-fashioned looks from some members did not pass unnoticed. The fine eight at Crewkerne were put to better use and a touch of nine spiced was brought round.

CLERICAL GUILD

At Chard an invasion by the 'Clerical Guild,' in the form of Preb. E. V. Cox, a secretary of the Society from 1902-03, the Rev. N. Coleridge, and the president, the Rev. C. Elliot Wigg, took place. After ringing at Axminster, the Society was entertained to a most expansive tea by Preb. Cox. This gesture was greatly appreciated, and pleased as the members were to met Preb. Cox, one cannot help feeling that he was equally delighted to join and ring again with his old Society.

At Uphyme (6) the visit had been previously publicised in the 'Parish Paper.' in rather odd terms—to quote: '... the Oxford University Society will be giving the parish an exhibition of campanology... change ringers never say a word while they pull their cords through the airy cheeses (!), ... we still ring our bells in the Queen Anne style, and, possibly, the fashion will change and we shall be in the van of the mode, just as Sir Roger de Coverley's fifty year old coat became the very latest thing every ten years...'

In the evening a handbell peal was attempted and broke down after a few minutes.

Wednesday brought the longest round trip of the tour. An atrocious course of Yorkshire started the day at Ilminster (8) and the ringing did not improve much, either here or at Taunton, where a misunderstanding caused a delay, at St. James' (8), of three-quarters of an hour. A touch of Stedman Cinques at

St. Mary's 'came round,' with only a few bells crossed, the conductor having been kept in his rightful place.

Wellington, a fine octave, produced better ringing, but at Cullompton, on the excellent light ten, nothing much was achieved except the first lead of London Royal (3X), some Yorkshire Royal and two very slow touches of Stedman. Some of the best ringing of the day was performed on the light eight at Honiton. During the day Rodney Meadows complained of gout in his right thumb (which he attributed to the consumption of inferior port wine). The gravity of this affliction can only be appreciated by those who have seen the victim's ringing style.

The last day, as usual, arrived far too quickly. The party rang at Bridport, another good eight, before the 'pièce de résistance,' Litton Cheney. Here the tenor may be raised without the clapper contacting the bell. Just as one is about to set the bell and tell the local ringers they're talking rubbish—the bell must be 'tied'—a crash occurs and a note somewhere in the region of F is heard.

A leisurely lunch at Abbotsbury was followed by a visit to the disused branch line station and for ringing on the six (depending on one's tastes). Wyke Regis (8), the last tower of the tour, produced some reasonable spiced Stedman and Superlative (with bobs at the half-lead).

After ringing several members left to go their separate ways, whilst the remainder visited the Isle of Portland, which is a mass of stone workings, with ugly townships, exhibiting much red brick and abundant evidence of a lack of planning.

The party was extremely pleased to be joined by Mr. and Mrs. Powell and Roger Keeley from Lyme and John Manley from Ottery St. Mary, as well as those mentioned previously. The standard of the bells was high; that of the ringing disappointing. All in all an excellent tour, and grateful thanks are due to the organiser for his efficiency and discipline, and to all incumbents and ringers who met the party.

OUTING

CORSTON, SOMERSET

There has to be a first time for everything and this was the case on April 22nd, when the Corston ringers experienced a wet afternoon for the first time on one of their outings. Accompanied by friends from Twerton, Warmley and Chew Magna, and Mr. W. Lampard, from Australia, five towers in Wiltshire were visited.

The first call was at Southbroom, Devizes, where the light ring of six was put to good use in the time available. At Bishop's Cannings ringing ranged from rounds to Cambridge Major, but for some reason the standard was not worthy of these delightful bells. A picnic tea was planned for at Chirton before ringing there, but as there was no shelter and the rain still fell steadily it was decided to have a 'dry' tea. However, before the meal was over a clearance of the clouds was spotted and as this gradually spread it was decided to 'brew up' while some of the party raised the light six. The learners contended manfully with the long draught.

The rain had now ceased and a move was made to Market Lavington, where the heavier six were put to good use before going on to the last tower at West Lavington. Highlights of the day were a well struck, all-ladies six score of Stedman Doubles and a course of Oxford Treble Bob Minor at West Lavington.

Thanks are due to the incumbents, to those who met us at their towers and not least to Mr. H. Gunner, who made all the arrangements.

There are still vacancies in the Buckinghamshire Education Committee's ringing course at Missenden Abbey, from June 2nd-4th. Inclusive charges: Bucks and Oxfordshire students £1 15s., others £3 5s. Enrolment forms from the Warden, Missenden Abbey, Great Missenden, Bucks.

NORTH STAFFORDSHIRE'S APPEAL

'Then I went down to the Potter's house,
and behold, he wrought a work on the wheels.' (Jer. xviii, 3.)

NORTH STAFFORDSHIRE is the remotest part of a little-known county. The traveller by road is carried through its western or southern borders, and train window-gazers catch only fleeting glimpses of it as they are carried northwestwards along the main line from Stafford to Crewe. The countryside is generally unexplored, except by North Staffordshire people or their nearest neighbours. The products of the Potteries are known all over the world, but who could tell you the situation of Stoke-on-Trent without a surreptitious glance at the nearest map?

These circumstances have tended to preserve the individuality of the district and its people, and have at the same time been the source of misconception. The self-sufficiency, too, of the complementary staple industries, ceramics and coal-mining, has not fostered great movement to or from its city.

This northern countryside of the Saxon hundreds of Pirehill and Totmanslow is quite different from central or southern Staffordshire. Its dialect is related, if it has any affinities, to Derbyshire and Cheshire. It is a hilly district formed of the south-west fringes of the Pennines, fanning out from Axe Edge (1,700 feet). In this wild, lonely watershed rise the Trent, Blythe, Hamps, Churnet, Manifold and Dove (a Staffordshire river and dale as far as Utometer), whose wooded valleys run away to the lowland. In the north-west the hills cease abruptly in a rampart overlooking the Cheshire Plain, dominated by Mow Cop, from which on a clear day you can distinguish Liverpool Cathedral more than forty miles away.

The high moorlands are bleak and inhospitable, bare windswept Mornidge and Lady Edge, the gaunt cliffs of the Roches, the lonely Mermaid Inn above Thorncleft, a landscape of dry-stone walls, small-windowed low stone cottages, and churches defensive against the harsh elements of nature. The pleasantly wooded country to the south and west has a richer farmland and quiet mellow villages. From the last of these lower hills by Broughton, you can look beyond Shropshire to the mountains of Wales in the distance.

Apart from their products, the Potteries—the city of Stoke-on-Trent federated in 1910 from the six towns of Longton, Fenton, Stoke-upon-Trent, Hanley, Burslem and Tunstall—have been immortalised through the writings of Arnold Bennett and the nostalgic pictures of smoke-shrouded townscapes which are the delight of geographers and the B.B.C. This impression of the city, valid perhaps until the 1930's, is no longer a true one. The coal-fired 'bottle' ovens, which were a characteristic of the skyline, have all but vanished as a result of the most important development the pottery industry has undergone—the installation of tunnel kilns continuously fired by gas, electricity or oil. Stoke has long ceased to have more than a minor reference in the Ministry's lists for atmospheric pollution.

The city extends some ten miles from its southern suburbs, through the six towns, to Goldenhill in the north, each town still possessing its own civic buildings although the present administration is concentrated in Stoke and Hanley, the latter now the main shopping centre. The face of the city is rapidly changing as the Development Plan bears fruit, while Burslem holds a special interest as a town centre, modernised and decorated as a unit under the auspices of the Civic Trust.

If it is an anachronism that the geographical centre of Stoke-on-Trent is a farm, it is nevertheless one of the attractions of the city for those who live and work here that it is nowhere more than three miles across, so that access to the countryside in any direction entails little of the time and effort normally expected in industrial areas. The city lives with the country rather than escapes to it.

Although some parts of the city have a history dating back to pre-Conquest days, the major growth of the townships followed the rapid expansion of the pottery industry in the late eighteenth and early nineteenth centuries, and much domestic and ecclesiastical architecture reflected this development. Burslem has the oldest of the churches, with a tower dating from the 15th century, and a classical nave and chancel. Its six bells by William Dobson (1828) are, alas, now rarely rung. St. John the Baptist, Lane End (Longton), is a brick church of the eighteenth century (its ring of eight installed in 1815), as is Hanley Parish Church, for which Edward Arnold cast eight of its ten bells in 1790. The Parish Church of St. Peter-ad-Vincula, Stoke, with a good ring of eight, was rebuilt in the 19th century, two arches of the ancient church being preserved in the churchyard. Fenton has a brick tower of particularly fine proportions, with a modern octave. Tunstall, the most northerly of the pottery towns, has a 19th century church, typical of the period, and it was here that J. W. Washbrook and his sons rang from 1910 to the early 1920's.

The churches of many of the villages close to the Potteries and other towns in North Staffordshire bear witness to those times of change and growth—old rings were renewed or augmented, new rings installed. In the rural areas, less affected by the repercussions of industrial progress, is to be found much interesting church architecture and craftsmanship—Broughton, a complete and untouched example of native Gothic (1630); Eccleshall, where formerly were the palaces of the bishops of Lichfield; Betley, with its wooden arcading; Draycott, Marchington, Cheddleton, and many more. In these churches are to be found the oldest surviving bells both individually and as rings. Draycott-le-Moors has in fact the oldest ring, having possessed five bells as early as 1678. Newest is the eight (an old five recast with added metal and reopened in 1959) at Alton, beautifully situated above the valley of the Churnet.

The North Staffordshire Association, founded in 1882, was the first to be established in the Diocese of Lichfield. Its early records demonstrate the strong individuality of the district, and particularly the special tradition of Minor ringing, with its characteristic closed hand-stroke lead, practised in the moorland towers. The majority of the peals were rung in seven Minor methods, mainly Treble Bob or Surprise, and including many methods no longer recognised by the Council! While the strength of these traditions has diminished, they still survive, preserved to an extent by the necessity to be independent and self-sufficient. It is a paradox that in this present age of highly developed transport, communication is still a problem, and towers formerly members of the North Staffordshire Association, such as Ellastone and Mayfield, have now become virtually inaccessible except by private transport.

North Staffordshire covers some 450 square miles and its ringers are a scattered community of some 32 active ringing towers, all but one of the accessible method ringing towers being affiliated to the Association. To ring at many of these towers will mean exploration either by car or on the coach outings; we hope those attending the Central Council meeting will enjoy our countryside and our bells—we are all looking forward to welcoming them here.

In connection with the Central Council's meeting at Stoke-on-Trent, Mr. Ewart H. Edge informs us that the maximum party for the visit to the establishment of Messrs. Josiah Wedgwood and Sons, Ltd., was oversubscribed very early and the full number of places on a supplementary visit to Mr. Edge's firm's factory have also been taken up.

The peal of Stedman Triples at Wareham on April 15th was Mr. L. F. Cobb's 50th peal and not 15th, as printed in 'The Ringing World.'

Although a quarter peal was not possible, the bells of St. Ann's, Stamford Hill, were rung half-muffled on Sunday, May 7th, in affectionate memory of Mr. Alfred B. Peck.

Seven of the new Gresley, Derbys, band (all under 16) have rung a quarter peal since the bells were installed two years ago. Barbara Measures, the latest, is the first lady member to do so.

The peal of Cambridge Surprise Major at Irthlingborough on April 15th was arranged for the visit of two Norfolk ringers—Mr. T. E. Spight (Wymondham) and Mr. P. M. Adcock (Mulbarton).

In sending us a peal of Kent T.B. Minimus, a correspondent anticipates events at Stoke-on-Trent. He writes: 'Probably the last four bell peals in view of the Central Council's motion.'

The peal of Lincolnshire at Stoke-by-Nayland on April 22nd was rung as a welcome to Diana and George Pipe, who are on holiday from Australia for three months. It was also Mr. C. J. Sedgley's first peal of Surprise Major on the treble, in over 50 years of ringing!

Because of 'undesirable characters' finding the ringers' entrance to the Church of St. John the Divine, Leicester, a new one is necessary. Visiting ringers should note that access to the church is now gained by entering through the Vicarage gate immediately adjoining the passage door of the choir vestry, thence into the passage by another side door leading from the forecourt of the Vicarage.

BELFRY GOSSIP

Mr. E. J. Holloway, of Crewe, is among the ringers who have written to the editor of 'The Sunday Pictorial' regarding the pictures from St. Cuthbert's, Great Salkeld, Cumberland, which he regards as being in the worst possible taste. He concludes: 'I wonder if the incumbent (if there is one?) has given permission for this unseemly report.'

Ringling at Bolsover, Derbyshire, is temporarily suspended during the building of a new ringing room as part of the restoration of the church following the fire which destroyed the nave and chancel early in 1960.

Mr. John H. Gartside, a faithful service ringer at St. Laurence's, Chorley, and a stalwart of the Preston Branch for the past 50 years, is another ringer who has taken 'The Ringing World' regularly since the first issue in 1911.

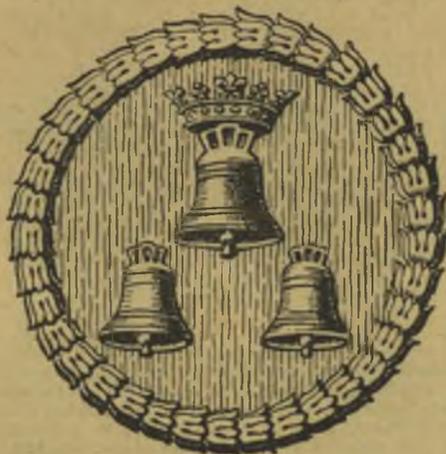

Mr. J. T. Dyke, of Chilcompton, Bath, informs us that for the first time he is able to agree with Mr. Amos. 'We, too, in Somerset have suffered from tower grabbers who (1) rang without permission; (2) used electric shavers in the belfry; (3) failed to appear at towers where they had made arrangements to ring.'

For the first time since the war the bells of St. Giles', Ashted, are silent. On April 10th they were removed to the Loughborough Bell Foundry to be overhauled and quarter turned. A new metal frame is to be provided and also new fittings. Three quarter peals were rung prior to removal, one being specially arranged for three of the younger members to score their first quarter.

At the end-of-term service of St. Helena's School the front bells of Chesterfield Parish Church were rung by lady members of the tower—the Misses Dorothy Atrill, Gill Atrill, Kay Marsden, Jane Lowe, Christine Sherwood, Mrs. Elsie Silcock and Mrs. Peter Watson. The five Misses are pupils at St. Helena's School. The ringing was favourably commented upon.

40 Years Ago

May 17th was the 40th anniversary of the first peal of Cambridge Surprise Maximus, rung by St. Martin's Guild and on the bells of St. Martin's Church, Birmingham. The peal was rung on the old 12 bells, which were on plain bearings and took 4 hours 11 minutes to complete.

The band consisted of Thomas Reeves 1, Thomas Russam 2, George F. Swan 3, Albert Walker (cond.) 4, Albert E. Norman 5, Morris J. Morris 6, Ernest T. Allaway 7, J. Frank Smallwood 8, Percy O. Laffin 9, A. Paddon Smith 10, John Neal 11, James E. Groves 12. The only survivors of the band are the conductor, J. F. Smallwood and A. Paddon Smith.

50 Years Ago

'R.W.' May 19th, 1911.—

A good deal of concern is again being manifested for the safety of some of London's historic buildings, particularly such churches as St. Clement Danes', on account of the timber structures which are being erected round them to accommodate spectators of the Coronation procession. There is, of course, a risk of fire, but the desire for a golden harvest, whether for private gain or church purposes, dwarfs such considerations which an opportunity occurs such as is offered by a Coronation.

Burslem bells, in Staffordshire, were hung in the year 1818. It was left to a band in the year of grace 1911 to ring the first peal upon them. There can be few towers in England in which the bells have had to wait nearly a century for the first five thousand to be recorded upon them.

The first half of a restoration and building scheme, estimated to cost £25,000 in 10 years, has been completed at West Wickham Church, Kent. On April 29th the extension was blessed by the Bishop of Croydon and a commemorative stone unveiled by Lord Dunboyn, Commissary-General of the Diocese of Canterbury; the ringers played their part in the traditional manner by ringing a peal in seven Minor methods.

PERSONALITIES OF THE EXERCISE - 20

MR. JOSEPH RIDYARD,
Lancashire Association.

The Lancashire Association, which is one of the largest in the country, has always been able to rely on a large number of enthusiastic ringers to enhance its reputation. Since the last war, most resident members would agree that the most successful and competent conductor, who is also a native of the county, has been Mr. Joseph Ridyard, of Southport. His range of methods has been a wide one, and he has the necessary ability to help people through their first peals in any method they wish to ring. Yet, unlike most well-known conductors, his main successes have come to him in later life, when he was over 50, and mainly due to the loyal peal ringing band he has kept together to practise Surprise methods.

Joseph was born into a keen ringing family at Worsley, near Manchester, on April 20th, 1896. He was the younger son of the late Richard Ridyard, who, with his brothers, were among the leaders of ringing in Lancashire at the end of the last century and at the beginning of this one. He was educated at St. Mark's School, Worsley, and started work, as a boy, in the gardens of the Earl of Ellesmere, at Worsley Hall, and has been a gardener ever since. His father taught him to ring in 1910, but he left home in 1912, and didn't do much ringing until after the First World War. In 1914, and early 1915, he was employed on

the Earl Manvers Estate, at Perlethorpe, North Notts, and they had a band from the estate who rang on the six bells at the private church there. (These bells were, unfortunately, sold after the last war.)

In 1919, after returning to Worsley, he took up serious ringing again, and rang the tenor behind to his first peal on January 14th, 1920. A month later he scored his first 'inside.' Both peals were Grandsire Triples at Worsley and both were conducted by his cousin, Joseph H. Ridyard. In January, 1925, he came to live at Southport, and has since been a regular service ringer at Christ Church, and captain for a good number of years.

His present total of peals is about 400, of which he has conducted 250, and most of these have been rung for the Lancashire Association. He has called peals in about 25 different Surprise methods, with a good measure of London and Bristol. These have included Cambridge, from Minor to Maximus, and Langley, from Major to Maximus. He has also called Kent Treble Bob and Oxford Treble Bob on all numbers, the latter being somewhat unusual. His first peal on twelve was Stedman Cinques, rung at Walsall, conducted by the late Thomas J. Elton, about 1930. One performance which he remembers with pride, during his early years of peal ringing, was a strictly 'silent' peal of Stedman Triples, rung at Walkden on June 20th, 1931, at the third attempt. Amongst other well known Lancashire ringers in this performance were Messrs. P. Crook, C. Gudgeon and A. Tomlinson. He has had the pleasure of conducting a peal with his son and daughter together, and he has rung over 100 peals with his daughter, Margaret, including London and Bristol.

During the war years, from 1939-1945, he was a vice-president of the Lancashire Association, and he has represented them on the Central Council since 1951. For the last two years he has been the Ringing Master at Liverpool Cathedral, and hopes, if it is at all possible, to call a peal there. At present there are a few disadvantages with regard to time, services and residents, but he hopes they will be overcome in due course.

He remembers, with gratitude, the great help and encouragement he received from the late Walter Wolstencroft and Arthur Tomlinson during the early 1920's, and also from the late Benjamin A. Knights and Edward Jenkins, the 'Wizard of the North,' in later years.

Joseph is of a friendly and modest disposition, but he can be quite sure that the skill which he uses to maintain and increase the standard of ringing in West Lancashire is much appreciated. More power to his elbow!

APACE.

Silent And Non-Conducted Peal Attempt

On Whit Monday, eight members of the Central Council are to attempt to ring, silent and non-conducted, Mr. A. J. Pitman's 5,280 Spliced Surprise Major composition in five methods. The attempt is to be made at Silverdale, Hanley, Staffordshire, commencing at 10.30 a.m.

The composition contains 1,120 London, 1,088 Superlative and 1,024 each of Bristol, Cambridge and Pudsey, with 107 changes of method, and all the work of each method for every bell.

THE SUFFOLK GUILD

Double Norwich, Cambridge Surprise Bob Major and some call changes were rung at the North-East District meeting, held at Leiston on April 29th, and attended by 30 members. The Rev. Mr. Borland conducted the service, and at the business meeting (with Mr. P. Bedford in the chair) three ringing and two honorary members were elected. Mr. J. W. Blythe was thanked for arranging the tea and Mr. Bailey for arranging bells, service and organist.

Next quarterly meeting, Tunstall and Blaxhall, July 22nd.

32 Towers In a Day

The record number of towers rung at in a day was raised from 24 to 32 by a band which toured Buckinghamshire on May 6th.

Twelve ringers took part, all of whom rang changes at every tower, in methods ranging from Bob Doubles to Cambridge Minor. The day was not without incident, since bells slipped wheel on two occasions, and a broken rope had to be spliced, all necessitating visits to the bell chambers. Not the least among the hazards of one of these visits was an accumulation of twigs and birds' nests, which completely blocked the narrow spiral staircase at one tower.

The band would like to thank all those who met them at the towers and other persons who contributed to the success of the day, in however small a measure.

R. K. R.

BEDFORDSHIRE ASSOCIATION

Twelve new members were elected at the monthly meeting of the Bedford District, held at Felmersham on May 6th, when the service was conducted by the Rev. G. Sidebottom. Ringing continued until 9 p.m.

Next meeting, Harrold, June 3rd.

RAILWAYMEN'S GUILD AT DARLINGTON

THE fifth A.G.M. of the British Railways Staff Association Guild of Church Bell Ringers was held at Darlington on April 29th. To visit Darlington was very fitting on this occasion as St. John's Church is reputed to have foundations of the old type stone sleepers, given to them by Mr. Pearse, who was one time the chairman of the old North Eastern Railway.

It was with regret that the local clergy were unable to come along to see us all at tea time, as they were attending a Diocesan Conference.

Mr. T. Cooke, president of the Durham and Newcastle Association, together with his wife and two daughters, and Mr. T. Cox, president of the Cleveland and North Yorkshire Association, who rings at Ormesby, where the peal attempt was made on Friday evening, were among the visitors. The Ladies' Guild was also represented by Miss Killingley, of Richmond, who is vice-president for the area.

Those who arrived on the eve of the A.G.M. enjoyed a full evening's programme, and although the peal attempt of Cambridge Major came to grief after 1½ hours' ringing, compensation came with a visit to Holy Trinity Church, Stockton, and a ring on the 10 (27½ cwt.). The ringing arrangements during Saturday were as follows: St. John's (8), where ringing commenced at 10.45 a.m.; Holy Trinity (6) and St. Cuthbert's (8). All ringing under the guidance of the Master, Mr. Benram Kynaston, was of a high standard.

TEA AND BUSINESS

Tea was held in the Church Hall, where approximately 40 members, including the past Master, Mr. Harold Walker, and the late honorary secretary, Mr. Frank Stenson, were present. All regions (in spite of the long distances) were well represented.

The Master, who presided, opened the meeting with a warm welcome to the visitors. Over 30 members gave notice of their inability to attend the meeting with apologies. All stood in silence to the memory of Mr. R. Langford and others who had passed on since the last A.G.M.

After the accounts had been adopted the chairman suggested that there should be a change in the financial year and that it should start on January 1st. Mr. W. J. Thomas moved and Mr. H. Walker seconded that the honorary secretary close the accounts on December 31st each year and this was agreed to.

Mr. B. Kynaston was again re-elected to the office of Master of the Guild. The regional officers re-elected were as follows: Western, Mr. B. Kynaston; Southern, Mr. C. A. Bassett; London Midland, Mr. S. Foskett; North-Eastern, Mr. H. Walker. Mr. R. Meadows succeeds Mr. M. N. Bland as Ringing Master of the Eastern Region. Mr. Harold Walker moved the re-election of Mr. J. A. Hoare as honorary secretary, the seconder being Mr. W. J. Thomas. The re-election of Mr. Brough, as the auditor, was proposed by Mr. Foskett, and also Mr. F. Morgan to fill the vacancy of assistant auditor, seconded by Mr. Frank Stenson.

Mr. Foskett moved that the A.G.M. be held at Derby in April, 1962, and this was carried. Taunton was selected for the autumn meeting.

The honorary secretary raised the subject of affiliation to the Central Council. Mr. F. Stenson moved that the honorary secretary take the necessary steps to make application for affiliation. This was seconded by Mr. Bassett. Mr. Meadows opposed the motion, as he thought it was not really necessary, and further the Guild was not in a position to

pay expenses. The motion was then put to the vote and was lost.

The programme for the autumn meeting, already prepared by Mr. Tomlin, was read, giving particulars of travel, also members were asked to advise the honorary secretary of their wish to stand in a peal attempt on Friday evening prior to the meeting. Free passes for wives of members attending was again discussed, and Mr. W. J. Thomas moved that the honorary secretary write to the joint secretary of the British Railways Staff Association regarding this matter.

Three new members were elected, viz., Mr. R. White, Mr. R. Leighton and Mr. W. Norrott.

The Master, in closing the meeting, expressed in no small way sincere thanks to Mr. Fred Hodgson for the arrangements made, also those who helped at the Church Hall during tea time, and to the honorary secretary.

A SUCCESSFUL YEAR BY THE SUFFOLK GUILD

A SUCCESSFUL year was reviewed by the Suffolk Guild at the annual general meeting held at Ipswich on April 8th and attended by over 60 members. Ringing was available to suit all tastes, the following towers being open: St. Mary-le-Tower, St. Margaret's, St. Matthew's and St. Clement's and St. Andrew's. Rushmere. The Guild service was held in St. Margaret's Church and was conducted by the Vicar (the Rev. A. H. Marks).

Mr. C. W. Pipe, vice-chairman, presided at the meeting. The Ringing Master (Mr. Leslie G. Brett), in his report, said it was a much improved year, with 110 peals rung against 79 in 1959. With only one peal of Maximus recorded there were 11 of Royal, including two of London. Also Grundisburgh Surprise, by C. J. Sedgley, was rung for the first time as was the Major. The 29 peals of Major were made up by a variety of Surprise methods and Double Norwich was not entirely forgotten.

It was, undoubtedly, an interesting year for Minor, with 62 peals. Of these, 18 were in seven methods, two of seven Surprise, 11 in more than seven methods.

Whilst congratulating the conductors, and all who took part in these peals, special mention should be made of the 11 Surprise at Blythburgh, only surpassed by 14 Surprise at Barkling. Likewise the 12,240 in 17 methods at Ashbocking, also a record.

The peals were rung in 42 towers; there were 30 conductors, headed by Rodney Pipe, with 24.

INCREASE IN MEMBERSHIP

Mr. John W. Blythe, general secretary and treasurer, reported a membership of 514—an increase of 21. 'We must do all we can to attract young people to take up the art and there are signs of improvement from various parts of the Diocese, which we hope will lead to more bells being rung regularly for Sunday service.'

The report expressed sympathy with the relatives of the following losses by death: Rev. Paul Greaves, Rev. F. S. W. Simpson, James Rumsay, George Pryke and William Weedon.

Mr. R. W. M. Clouston, the technical adviser, reported that during 1960 he had submitted a further 21 reports on the contents of Suffolk church towers, bringing the total inspection to date to 208. Nine of these reports related to rings of bells at Stowmarket.

KENT COUNTY ASSOCIATION

When the Rochester District met at Rainham on April 15th, a fine eight cast by Robert Mot in 1582, it was the local captain, Mr. F. J. Cheal, who did the honours in the belfry and saw to the needs of younger members. He had his reward in being able to welcome several old friends.

The Vicar, the Rev. J. Clifford, not only conducted the service, but presided at the meeting, when four new members were elected. Mr. T. Barton, the District secretary, proposed the vote of thanks and this included the organist and all members and lady friends at Rainham, who had helped with the tea, which was enjoyed by between 80 and 90 ringers.

Main business at the meeting was the need for the Kent County Association to increase its present subscription of 3s. per annum. This was stressed by Mr. B. May, the Association's treasurer. After hearing the views of Messrs. B. Dunk, E. Barton and S. Rayfield, besides some visitors from Canterbury, a motion in favour of the increase was passed.

St. Mary's, Ipswich, St. George's, Bradfield, Barnardiston, Elmwell, Burgate, Glemsford, Wissett and Stradishall. Of these St. George's, Bradfield, Barnardiston and Elmwell were quite George, Barnardiston and Elmwell were quite unringable and the others, though ringable, were in need of attention from the bell-hanger. Burgate has, unfortunately, a badly cracked tower.

A faculty had been granted to Aldeburgh to recast all except the present second bell of 1622, and to rehang the six bells in a new timber eight-bell frame. At Wickham Market it was proposed to put in a new first floor to the tower, some 10 feet above the ground, to make a new ringing chamber. This will allow the ground floor of the tower to be used as part of the church and will make the bells easier to handle.

Eye bells were still at the foundry. The bell frame and support beams needed to be repaired. If more money was not forthcoming then the alternative was putting the bells back in the existing frame and support structure, which would not make a satisfactory job.

The meeting approved the revised rules, which had been redrafted to meet present day requirements.

DURHAM UNIVERSITY GOES WEST

Durham University Society visited Carlisle on March 4th, ringing en route at Hexham and Allendale, where on the light ring of eight Double Norwich and Cambridge Surprise were successfully brought round.

Ringings at Carlisle Cathedral was preceded by a hazardous ascent through the gallery overlooking the sanctuary and the reward was not disappointing. Everyone enjoyed the bells and some useful ringing was accomplished. We were fortunate to ring at St. Stephen's, Carlisle, as the church is shortly to be demolished. After an excellent tea, Brampton was visited. Here we managed to struggle through a course of London and Plain Bob Minor was almost denied us; Stedman, Cambridge and Kent were successfully rung, not forgetting rounds of quite high class.

Our thanks are due to incumbents and captains of towers visited. John Thorley (honorary secretary) deserves to be congratulated on this very successful tour.

WASHING OF BELLS

Dear Sir.—In answer to the good ringing friends of St. Mary's Basilica, Sydney Australia, we also, at St. Andrew's, Wiveliscombe, washed down every bell after being rehung a few years ago. Two other ringers also washed down the ringing chamber.—Yours faithfully,

W. J. NURCOMBE.

COMMENT INVITED

Dear Sir.—I imagine most ringers were a little dismayed at the picture in 'The Sunday Pictorial' of April 30th, purporting to show ringing instruction at Great Salkeld.

Whilst making allowance for the journal in question, perhaps someone at the receiving end of the camera might like to comment on the publication of the results.

The pictures, as usual, do no credit to the Exercise, and it seems surprising that the opportunity to take them should have arisen.—Yours sincerely,

JOHN BRAIN.

Backwell, Somerset.

XINGU SURPRISE MINOR

Dear Sir.—I have followed with interest the recent correspondence regarding the apparent falseness of the above named method.

I have in my possession the figures for Cranford Surprise, which is almost identical to Xingu, in that the fourth bell makes five sets of 3rds places in the first lead of the plain course, and I am, consequently, wondering if this method also does not comply with the ruling of the Central Council.

I append the notation for Cranford below.

'SO NARROW-MINDED'

Dear Sir.—Reading F. Hopgood's letter ('R.W.' page 287), I was dismayed to find him so narrow-minded. If we are not allowed to ring half-muffled in Holy Week for our Lord's death, then may I suggest we do not ring for anyone else's. Surely if anyone deserves this token of respect, He, who died for our salvation, does.

To say that to ring on Good Friday is a lot of hoey is an unchristian attitude and has nothing to do with the fact that a ringer cannot keep his hands off a rope. Surely it is our duty to ring the bells half-muffled for the death of our Lord.—Yours faithfully,

MICHAEL R. MEADOWS.

Wentworth, Yorks.

COUNTING YOUR PLACE

Dear Sir.—I am still learning ringing, and as there appear to be two ideas as to how I should count the place my bell is striking in, I wondered if anyone could give me advice on the correct procedure, if any.

If I am ringing six bells do I count 123456 at every change, and put accent on the place I am in, or do I just count the place I am in and ignore the other five.

As an example; suppose I am ringing the third to Plain Bob Minor, do I count 123456, 123456, 123456, 123456, 123456, and so on, or do I just say 3-4-5-6-5, etc.—Yours faithfully,

F. AITCH.

BELL RINGING BADGES

Dear Sir.—Having seen the references to the above in recent issues of 'The Ringing World,' I hope the conditions given below will clarify a few points:

BOY SCOUT BADGES

The following are the qualifications as laid down in 'Policy, Organisation and Rules of the Boy Scouts' Association.'

Bellringer Badge for under 15 years.—

(A) TOWER BELLS.

- (1) Have a knowledge of the parts of a bell and fittings;
- (2) Demonstrate maintenance and rope splicing;
- (3) Be proficient in 'handing' a bell, up to say 6-7 cwt., to keep it in full control and be able to 'set' it, as required by the examiner;
- (4) Be able to ring a bell in 'rounds,' in proper time, and to 'stand' when ordered.

ALTERNATIVE

(B) HANDBELLS.

- (1) Have a knowledge of the construction of handbells, and their tuning;
- (2) Demonstrate, as a member of a team, that he is capable of giving a performance of simple tunes in harmony;
- (3) Be able to ring a pair of handbells in 'rounds.'

Senior Bellringer (over 15 years).—

(A) TOWER BELLS.

- (1) Pass or have passed the Bellringer Badge (as above);
- (2) Be able to give the name by which methods are identified on different numbers of bells;
- (3) Be able to write out the changes of two simple methods; one on an odd number, and one on an even number of bells, and to describe the working of any one bell in these methods;
- (4) Be able to ring a plain course in the method in 3.

ALTERNATIVE

(B) HANDBELLS.

- (1) Pass or have passed the Bellringer Badge;
- (2) Be able to give the names by which methods are known on different numbers of bells;
- (3) Understand what is meant by the 'position' of a pair of bells in 'plain hunting' on six bells;
- (4) Be able to ring a pair of bells in either the plain course of Bob Minor or the plain course of Grandsire Triples.

The local Association of Boys Scouts to which the Scout belongs has the power to appoint suitable examiners. The examiner appointed decides if a sufficiently high standard has been achieved and usually takes into account, not only the actual standard achieved, but the mental standard and whether the examinee has the amount of effort shown, etc. Standards generally should not be too high, neither should they be too low, but above all they should be consistent.

GIRL GUIDES

The qualifications for this were published recently. The above remarks about examiners are true for Guides.

DUKE OF EDINBURGH AWARD

The ringing part of this award is not one of a test, but one for the Public Service section. Six months' actual service is required.

Ringing is only one possible section; acting as a server will also qualify, as service with the Church, almost every form of public service can count. Some other alternatives are:

- (a) Service within the Scout Movement;
- (b) Helping in the Award Scheme;
- (c) Help in Youth Service;
- (d) Public Service (i.e., Ambulance, Fire Service, etc.);
- (e) General Social Service;
- (f) The Church;
- (g) Special Projects;
- (h) Animal Welfare.

This information comes from the Duke of Edinburgh handbook, published for the use of the Boy Scouts, but the conditions are similar for the normal youth scheme.—Yours faithfully,

H. A. PLUMB.

Evesham, Worcs.

A WEST COUNTRY VIEW

Dear Sir.—With reference to Mr. Hopgood's letter it may be of interest to your readers to know the views of my father (late Vicar of Buckland Newton). To ensure that the ringers would give of their best on Easter Sunday, he always expected normal service and practice ringing to continue during the first five weeks of Lent. To proclaim to the parish that Good Friday was something more than the customary day for planting potatoes, he asked for the bells to be rung half-muffled before both services. For other week night services during Holy Week the bells were chimed.

Incidentally, my father had very firm views regarding ringing on Remembrance Sunday. For Matins the bells had to be rung half-muffled as a token of respect to those who did not return and for Evensong open in thankfulness for peace and those who were spared.—Yours sincerely,

E. T. PAUL FIELD.

Knole, Langport.

To Tom Lane

The following verses are dedicated to Tom Lane, clerk and sexton at Hallow Church, Worcestershire, who died in 1942. From 1917 to 1939 he was a very loyal bellringer.

Who is it from the old church tower
Sends forth the chimes at evening hour
To keep th: milk from turning sour?

TOM LANE!

Who is it in the steeple high
Some strange new method oft will try,
Until the nearby stream runs dry?

TOM LANE!

Who it is tries, on summer's night,
To cheer us up with music bright—
But makes us shut our windows tight?

TOM LANE!

Who finds an outlet for his skill
By ringing peals and peals, until
The people cry out, 'Peace, be still!'

TOM LANE!

Who rounds the bells while we're abed
On Sunday morn, with tired head,
Until we wish that he were dead?

TOM LANE!

Who gives a welcome to the brave,
Who often makes the public rave,
And tolls us lastly to the grave?

TOM LANE!

OBITUARY

MR. E. E. BARBER

AN APPRECIATION

By the passing of Mr. Ernest Edgar Barber, at the age of 87, on April 9th, the Western Branch of the Worcestershire Association of Change Ringers lost one of its outstanding members of this century. He was perhaps the last survivor of the original Malvern Link band, formed in 1900.

The writer, together with many others, came under his influence in the early years of the century, and it was due largely to his tuition that we made good progress in Siedman Triples (his favourite method). It was not, however, only his knowledge of campanology that endeared him to everyone who came in contact with him, but his old world courtesy and the way he had of making the veriest novice feel at home in his company.

It was nothing to him to walk the eight miles from Malvern to Worcester to ring at All Saints' or St. Helen's, when there was no ringing at Malvern, and no bus service like the present time. He would laughingly say it was only about six miles as the crow flies, but he couldn't come that way.

He was a great example to all ringers in his service to the church, chorister, server, sidesman, ringer and, for 17 years, churchwarden. I know of no one to whom that 'end of the road' eulogy could be more deservedly applied than to Ernest Barber.

'Well done, thou good and faithful servant.'
W. H. L.

MR. WILLIAM OLIVER

Mr. William ('Billy') Oliver, of the Holy Trinity, Darlington, band, passed away in hospital on May 4th, at the age of 86 years. He was employed at the railway wagon shops in Darlington until his retirement, 21 years ago, prior to which he worked at a similar establishment in Shildon. He went to Darlington to reside in 1923, but before this he had lived in the village of Heighington practically all his life. He always loved the country and had an unending fund of anecdotes about country life and people generally.

He learned to ring on the six at Heighington, and for many years was a member of the band which regularly rang Bob Minimus on the middle four, with the treble leading and tenor covering. On moving to Darlington his interest in ringing led him to Holy Trinity and although not a young man he persevered until he was proficient in ringing into teens of Surprise Minor methods as well as Plain and Treble Bob methods.

He rang about 50 peals, mostly of Surprise Minor, and although he rang a few of Triples and Major he was never really happy on more than six bells. He was stricken with deafness a few years ago, which got progressively worse and this, coupled with the complaint to which he succumbed, interfered with his ringing. However, he used to visit the tower whenever he felt inclined, to have a pull and to regale us with his usual stories. He was an amusing and cheerful colleague and we shall miss him.

The funeral service took place on May 6th, followed by cremation.

SOME SPRING OUTINGS

CATTISTOCK, DORSET

Ever since the arrival of the new incumbent at Cattistock, just two years ago, the local ringers have been slightly sceptical of the merits of what they considered must be 'those sheep bells' at Preston Candover (6), tenor 3 cwt. 3 qr. 27 lb.!

At long last they know, because they have 'had a go.' Tom Lippitt, the former captain at Cattistock, mastered the treble (less than 2 cwt.) first go, and after a bit of tuition by the P.C. captain (Michael Slater), the bells were going fairly well in rounds and call changes. (Of course, we had to break a stay, which had hastily to be renewed for the two handed peal so successfully rung later in the day.)

Among those who welcomed us was Mr. Lewis Cockey, late of St. Stephen's, Ealing, who gave much time, one Whitsun holiday long ago, in training the post-war band at P.C. to handle a bell. Lunch was provided by local friends, Mr. and Mrs. Fred Dicker, Margaret and Susan (Margaret had the doubtful honour of breaking the only other stay since the recasting and rehanging in 1955) and a call at the 'local' made the visit perfect.

Tea at Bitterne Park, Southampton, was provided by the local band, and the party was welcomed by the Rev. R. O. Stephenson, the Vicar. Rounds and call changes on their light eight showed the added opportunities for ringing in Southampton since the end of the war.

The rest of the tour included Coombe Bissett, where sleepy honey bees dropped languidly through the sally holes; Old and New Alesford, the latter where the writer learned his first change ringing under the late Mr. Newnham and Leslie Tremeer; Fordingbridge and Cranborne. We thank all the incumbents who gave us permission to ring and those tower captains who welcomed us to their towers.

Cattistock is a 'country tower,' typical of perhaps any diocese or county. There's not much chance of learning method ringing and the older members are committed to 'call changes,' but Cattistock has ten ringers under their captain, George Goringe, who sees to it that there is Sunday ringing for morning or evening service on six or eight bells. The 'method' of ringing is by calling the letters of the alphabet by which each ringer knows which bells he must follow from a card in front of him.

C. E. C. B.

MERROW, SURREY

The annual outing of Merrow ringers and friends from other nearby towers took place on April 29th, when seven Sussex churches were visited. The first tower was Henfield (8), where a course of Cambridge Major was brought round. A touch of Kent Major was one of the methods rung at Shoreham (8).

The last ring of the morning was on the ten bells of St. Peter's, Brighton, where Kent Royal and Grandsire and Stedman Caters were good practice for those who do most of their ringing on six or eight bells.

The first tower after lunch was Seaford (8), where Double Norwich was rung for the only time during the day. At Alfriston (6) ringing takes place in the middle of the church, in full view of the congregation, and several visitors to the church sat down and watched the ringing. After tea ringing was at Hurstpierpoint (8) and West Grinstead (6), where Cambridge and London Surprise Minor were rung, although the long draught caused a certain amount of difficulty.

Grateful thanks to the ringers who made us welcome and to incumbents for giving us permission to ring.
R. I. V.

MARCH ST. WENDREDA

Bellringers of St. Wendreda's Church, March, held their outing on May 6th, visiting churches in Bedfordshire, Buckinghamshire and Northants.

St. Mary's Church, Eaton Socon, rebuilt in the 1930's, has a very fine octave of medium weight, and having rung these the tourists headed for Blunham—a ring of six, tenor 19 cwt. The treble in the sturdy tower makes an all-out attempt to outspoke its neighbours!

At Bedford, the ringers partook of lunch, and then visited the Church of St. Mary and St. Helena, Elstow. Poor John Bunyan! The immortal tinker was a ringer in this pleasant village, and he would be familiar with one of the six bells. Yet he regarded bells and the ringing of them as sinful! As a buoyant youth he was imaginative and fearful. This great man, who pulled a rope before taking up a pen, was a Puritan. The bells 'go' well, the tenor turning the scales at 8 cwt.

Newport Pagnell has a musical ring of eight bells (tenor 21 cwt.) and it was a joy to ring them. At Wollaston, the ringers were confronted with a restored church, set attractively amid a well-cared-for garden. A fine steeple houses a heavy and noble ring of six and these are rung from the ground floor, the ropes being arranged in a circle around the altar. The bells demand much strength to ring them and the rope draught is tricky (25 feet), but their tonal qualities can only be described as superb.

Having partaken of tea at Wellingborough, the tourists entered All Hallows' Church and rang the eight bells (tenor 28 cwt.). How does one describe the qualities of this ring? The stentorian voices of the bells are ethereal and these, with the splendour of a magnificent, mediæval church, bathed in evening sunlight, provided a fitting end to an enjoyable day.

Many thanks to clergy and towerkeepers, who met the visitors.

REDEDICATION

HARROW-ON-THE-HILL

As reported in this issue, the bells of St. Mary's, Harrow-on-the-Hill, rang out their first quarter peal of 1,260 Grandsire Triples after a silence of more than four years, on April 16th.

The tower is an old one, having a Norman foundation and, early in 1957, it was found that the main structural timbers in the upper portion of the tower and in the spire were being subjected to the ravages of the death watch beetle. On further investigation, the main timbers supporting the bell frame were found to be in a poor state and it was considered that it would be unsafe to ring the bells until some major repairs had been carried out.

During the following years, much consultation took place between the ringers and the Parochial Church Council and eventually it was decided to have the bells (tenor 21 cwt. approximately) recast and hung in a new cast-iron frame. Before the work was put in hand by Taylors, of Loughborough, it was noted that the existing 3rd and 6th were both of 17th century origin, having been cast in 1654 and 1683 respectively and it was suggested that, if it were possible, these two might be returned only.

In August, 1960, Taylor's began the work of removing the bells from the old wooden frame and, by January of this year, news was heard that a new ring of eight bells (tenor 19½ cwt. in E) was ready at the foundry, the two 17th century bells having been successfully returned to form the 4th and 7th of the new ring. The original inscriptions were reproduced on the recast bells, together with the names of the present Vicar, the Rev. H. C. Blackburne, and churchwardens, Messrs. K. W. Hollier and V. A. A. Elgood. Moreover, at this time, the frame (to take ten bells) was almost complete on the foundry floor and only sundry fittings were required for completion of the job.

At long last, on March 25th (Lady Day, appropriately enough) the bells were rededicated by the Rev. G. C. Taylor, president of the Middlesex County Association and London Diocesan Guild, at an impressive service, conducted by the Vicar. The Rev. Taylor gave the address, which was in 'The Ringing World' of April 14th. The service was attended by Mr. Paul L. Taylor, principal of the Loughborough Foundry and a large number of parishioners and visiting ringers from the county; afterwards, about 120 were entertained to tea in the Church Hall by the local ringers.

During the remainder of the evening, good use was made of the new bells, the ringing ranging from rounds to Surprise methods. To conclude an enjoyable occasion, the local band provided an excellent supper, with suitable liquid refreshment, which was much appreciated by about sixty ringers and friends.

RINGERS' SUNDAY AT CARBIS BAY

Sunday, April 30th, the day after the local Branch festival, was set aside at Carbis Bay as Ringers' Sunday. This was the first time such an observance has been kept, and it appears to have been very much appreciated.

The ten bells were rung before the 8 a.m. celebration of Holy Communion, which the ringers attended and at which a special intention was made. At the morning service the lessons were read by Evangeline Roberts and Peter Fincher, and at Evensong by Anne Olds and Margaret Gollop.

The Vicar (Rev. A. S. Roberts) devoted his morning and evening sermons to matters concerning bells and ringers, and in the evening made special reference to the subject of new churches, so many of which were not planned even for the addition of a tower for bells, and by way of interest read from 'The Ringing World' the resolution to be brought before the Central Council at its next meeting in connection with this matter, which he said he hoped would be brought to the notice of all concerned.

It is hoped to make such a Sunday an annual occasion.

PULLING MEMORIAL BELL

TRURO DIOCESAN GUILD

The spring festival of the Ponzance Branch held at Gwinear on April 29th was as well attended as ever when nearly 100 turned up from the majority of the towers in the Branch, as well as some Truro Branch members, including Mr. W. H. Southard (vice-president). The Diocesan Ringing Master (Mr. Douglas Burnett) sent an apology owing to his Branch, the Mid-Cornwall, holding its meeting the same afternoon at St. Dennis.

The service was conducted by the Vicar of Gwinear, Rev. J. A. Croft, who also gave an address and welcomed the members. Miss Margaret Faulk, a local ringer, was at the organ. A collection for the Branch Fund amounted to £3 7s. 6d. and a splendid tea was provided.

Miss Eileen Symons, Branch chairman, presided at the business meeting, and Paul was proposed for the autumn festival.

The chairman asked those present to stand in memory of Mr. Bob Woolridge, who had recently died, and who was one of the old and faithful Madron ringers. She also referred to the loss St. Mary's, Penzance, would sustain by the departure of the Rev. G. W. Ruming, who, since coming as curate, had done much to help the local ringers' progress. He was going to Calstock as Rector, and would there have a ring of six.

The Rev. A. S. Roberts, Branch secretary, thanked the Vicar for his welcome, and Mr. C. Stapleton, local captain, for making such excellent arrangements, as well as Mr. W. Shepherd, Phillack, and Mr. Harry Miles, Lekant, for arranging, respectively, for the eight and six to be available also. Carbis Bay tower was also open. With two sixes, an eight and ten available, everyone got plenty of ringing.

WRAXALL, SOMERSET.—On May 4th, 1,260 Grandsire Triples: F. R. Hussey 1, B. Huddleston 2, P. E. PARRY 3, A. W. T. Cleaver (cond.) 4, C. Abbott 5, S. G. Riches 6, J. A. Bennett 7, C. Rugman 8. In memoriam D. M. L., laid to rest this day.

SOUTHWELL DIOCESAN GUILD Newark District

The Newark District of the Southwell Diocesan Guild decided to hold the District elimination contest for the Crawford Cup on the normal May meeting day, at Orston on May 6th.

Since the contest was not due to commence until 6 p.m., Staunton-in-the-Vale bells were available in the afternoon, and approximately 18 ringers gathered there, and a variety of Doubles and Minimus methods were rung.

Tea was kindly arranged at Orston by Mr. Foster and his lady helpers and after the plates were emptied a short business meeting was held, presided over by the chairman, Mr. F. W. Midwinter. Sutton-on-Trent was confirmed as the place for the July meeting, to be held on the first Saturday.

Four teams entered for the contest and the winners were Whatton-in-the-Vale, with 80 faults. The other bands scored as follows: Balderton 112 faults, Sutton-on-Trent 117, and Newark 133. The standard of striking was good and the contest created a great deal of interest. The judges were Mr. and Mrs. F. Bradley, of Holme Pierrepont.

Whatton band now goes on to the final to compete with the winning team from the other three Districts of the Guild.

Society Of Sherwood Youths, 1672

The first joint meeting between the Sherwood Youths and the Derbyshire Association, at Sawley on April 29th, was a great success and about 60 members sat down to a really excellent tea kindly arranged by the Sawley Ringing Master, Mr. D. Marshall, and prepared by the ladies of the church.

Methods rung included Yorkshire, Bristol, London and a very fine touch of Stedman. Both Societies expressed a desire for a joint meeting annually.

A POT-POURRI FROM 'CHURCH BELLS'

(Continued from page 257)

'The Tocsin.—The expression Tocsin is derived from two old French words, *tocque-sing*, from *toquer*, to strike, and *sing*, little bell. This name is sometimes given in bellfries to a certain bell struck only in case of alarm, such as fire, the arrival or approach of an enemy, the outbreak of revolution and, in former times, as the signal for religious massacre. The manner of ringing the Tocsin is hurried and more hurried (yet regular and with but occasional intermission) according to the urgency of the occasion. . . .

New Ring of Bells at Nuneaton, Warwickshire.—This ring has been augmented and spliced—two new trebles added to the old six, three of which have been recast—work by Messrs. Warner, of London, and hung by Boswell. On Sat., April 10th, 1873, seven members of the St. Martin Society of Change-ringers of Birmingham, assisted by Mr. Boswell, rang 5,040 Stedman Triples in 3 hrs. 9 mins.

Mr. Elijah Roberts, the change-ringer.—Mr. Elijah Roberts' exploits with hand-bells fixed in a box and struck with a pellet are the most extraordinary of all. He was the most accomplished change-ringer upon hand-bells the world has yet produced. He commenced the study and composition of changes when about 12 years of age. In 1824 (when in his 17th year) he rang his first peal which consisted of courses of various methods commencing with changes on 7 bells, viz.: Grandsire Triples, Plain Bob Triples, Stedman Triples. Treble Bob Triples.

'Changes on 8 bells—Grandsire Major, Plain Bob Major, Treble Bob Major; on 9 bells—Grandsire Caters, Plain Bob Caters, Stedman's Caters, Treble Bob Caters; on 10—Grandsire Royal, Plain Bob Royal, Treble Bob Royal; on 11—Grandsire Cinques, Plain Bob Cinques, Stedman's Cinques, Treble Bob Cinques; on 12—Grandsire Maximus, Plain Bob Maximus, Treble Bob Maximus; and finishing with a course of Double Treble Bob Major on 16 bells, the whole containing 5,186 changes in 3 hrs. 27 mins. rung at Birmingham.'

Also, on Oct. 14th, 1827, 5,040 Treble Bob Maximus with the Kent variation, 3 hrs. 22 mins., at Birmingham. Also, on April 9th, 1830, 7,536 Kent Treble Bob Maximus, 4 hrs. 51 mins., at Birmingham.

Then, June 30th, 1833, 'a very intricate peal of that much-admired and musical method, Stedman's Cinques, with the bells in the titmums and every musical position,' 5,016 changes, 3 hrs. 24 mins., at Birmingham.

On March 23rd, 1837, 19,440 Kent Treble Bob Maximus, 'being the full extent of changes with the large bells at home,' 13 hrs. 43 mins.

'Thus Mr. Roberts has, solely and unassisted, surpassed by many thousands of changes the longest peals that have been rung on 12 bells by any 12 men in the world. Besides, he has composed, conducted and rung upwards of 100 peals on 8, 10 and 12 bells in various churches of the United Kingdom. He died in 1865.'

St. Peter's, Sandwich, Kent.—Quex Institution, Isle of Thanet, J. Powell Powell, Esq., Patron and Founder. On Sat., Dec. 27th, 1823, 5,040 Grandsire Triples, 3 hrs. 1 min. 'The first (or maiden) Peal on these bells and conducted by W. Shipway.'

St. Nicholas', Ash, next Sandwich, Kent.—Quex Institution. . . . On Sat., Feb. 18th, 1826, 5,040 'Holt's True and Complete Peal of Grandsire Triples. This was the first true peal ever rung in this Steeple though the bells have been hung 36 years.'

Christ Church, Bath.—Messrs. Mears and Stainbank have lately [i.e., to May 10th, 1873] added two trebles to the former ring of six. They are the gift of the Miss Hallidays. . . .

New Ring of Bells at Gorleston, Suffolk. (Gorleston, for administrative purposes, is now included in the borough of Great Yarmouth, Norfolk.—C.R.) Special Service, Easter Day, 1873, to open the new ring of six bells presented by Miss M. Chevallier Roberts, of Wykeham Lodge, Hersham, Esher. Founders, Mears and Stainbank. Tenor 10 cwt. in G.

'The steeple was joyed with flags and all turned out to hear the joyous sound which had been silent for more than 50 years.' Dr. Raven, of Yarmouth, preached the sermon.

Variance between the Bishop and Prior of Worcester for not Ringing at the Bishop's Coming.—Of the like matter also, we read in the said Register falling between the Bishop of Worcester and the Priory of the said town for not ringing at the Bishop's coming into the church, whereupon much suit and contention was between them till at length the Archbishop of Canterbury took up the matter. The like stir for bell-ringing and for processions had almost happened between the Archbishop of Canterbury successor to this Thomas Arundel, named Henry Chichester on the one part and the Abbey of St. Albans on the other part. . . .

Holy Trinity Church, Hull.—Easter Monday, 1873: 5,040 Holt's Ten-part Grandsire Triples, 3 hrs. 25 mins. Tenor 25 cwt. 'This is the first or maiden peal on these bells.'

The First True Peals of Triples.—The first true peal of Grandsire Triples containing 148 bobs and two doubles was rung at St. Margaret's, Westminster, July 7th, 1751. This peal was composed and called by Mr. John Holt, who was seated in the belfry with the manuscript in his hand. The first true peal of Stedman's Triples containing 732 bobs and 22 singles was rung on Wed., May 22nd, 1799, at St. Giles-in-the-Fields, London, composed and called by Mr. John Noonan, who was seated in the belfry with the manuscript.

'Ne Plus Ultra' Peal at Braughing, Herts.—Sat., May 10th, 1873 (being the anniversary of the Braughing Ringing Society), the Benington Company and ringers from London and neighbouring towns and villages "enjoyed the very best day's ringing that was ever known on this fine ring of eight bells"—tenor 20 cwt. in F—Double Norwich, Cambridge, Superlative, London, Kent, Stedman and Double London Court Bob Major, all adding up to 3,948 changes.

New Clock and Chimes at Winchester Town Hall.—Clock by Gillett and Bland, Croydon. 'The bells are very superior and clean castings by Warner and Sons of London. Fifth bell 16 cwt. in F, the others 7 cwt. 2 qrs., 5 cwt. 2 qrs., 5 cwt., and 4 cwt. 2 qrs.

'Messrs. Gillett and Bland are now manufacturing a new clock for Bradford Town Hall to play 14 tunes on 13 bells and weighing nearly 17 tons, which will cost about £4,500.'

Leatherhead, Surrey.—July 30th, 1792: four true and complete peals of Treble Bob. 'The above is the last ever rang on the six old Bells.' May 17th, 1808: 10,080 Oxford Treble Bob Major, 6 hrs. 4 mins.

Prostitution of Church Bells.—Mr. Skipworth, who was imprisoned at Holloway for contempt of Court in the Tichborne Case, returned to his residence, Moorton House, near Caister last week. [i.e., about May, 1873.] The church bells were rung, bands of music played in the streets and triumphal arches were erected along the route from the railway station to his residence.

New Ring of Eight Bells at St. Mary's, Dundee.—By Mears and Stainbank. Tenor 20 cwt. in E. On Wed., May 21st, 1873, they were handed over to the Town Council on behalf of the community. Same day opened by the College Youths—5,040 Holt's Grandsire Triples, 3 hrs. 7 mins.

'We hope the Youths of Dundee will vie with those of Aberdeen and learn to strike Grandsire Triples, as they did, soon after the ring of 8 was set up in that city.'

Toledo.—Of all the bells in Spain, that belonging to the Cathedral of Toledo is most celebrated for its size and the stories connected with it. . . . fifteen shoemakers, they say, could sit under it and draw out their cobblers' thread without touching. Weight said to be 17 tons. . . .

St. George-the-Martyr, Southwark.—The Society of Southwark Youths on Sat., June 29th, 1861, Rang a Funeral Peal in memory of the late Mr. James Braidwood, late Supt. of the London Fire Brigade, who lost his life at the Great fire in Tooley Street, London Bridge, June 2nd. . . .

St. Martin's-in-the-Fields, Middlesex.—College Youths, Oct. 6th, 1788: 6,204 Cinques on Stedman's Principle. 4 hrs 47 mins. . . . this great performance being the first in this method on twelve bells is an instance of that unrivalled merit to be equalled by a similar assiduity and perseverance'

(To be continued)

ARCHDEACONRY OF HALIFAX

Considering the weather, the F.A. cup tie and the rather out of the way position of Cross Stone Church, Todmorden, the meeting on May 6th was really well attended. Methods rung included London, Yorkshire, Pudsey, Cambridge and Superlative, and it is believed that this was the first time five Surprise methods had been rung at an Archdeaconry Guild meeting.

A pleasant service was held in the church and tea was at the Bay Horse Inn. After the business meeting some perfectly struck handbell ringing was given by members of the All Souls' Sunday service band.

PORTBURY (SOMERSET) RINGERS' SUNDAY

To mark the completion of redecoration work in the ringing chamber, Portbury ringers held their first Ringers' Sunday on April 23rd. Members of the congregation visited the belfry at the conclusion of both morning and evening service, and in the evening visiting ringers were welcomed from Portishead, Wrington, Winford, Long Ashton, Weston-in-Gordano and Nailsea. Evensong was conducted by the Vicar, the Rev. Jack Ramsay, and the lessons were read by Audrey Frost and Gerald Skelly. The hymns and prayers were taken from the Bath and Wells service sheet, and ringing continued for about an hour at the conclusion of the service.

LEICESTER RINGERS' WEDDING

In the presence of many Leicester ringers the wedding took place on April 15th at St. Andrew's Church, Aylestone, Leicester, of Miss Patricia A. Wardle and Mr. R. S. Morris, Ringing Master of the Aylestone bellringers.

The bride, who is secretary to the Aylestone band, is the younger daughter of Mr. and Mrs. A. G. Wardle.

In the evening a peal of Yorkshire Surprise Major was rung at Aylestone in their honour.

NEW MASTER OF LINCOLN GUILD

Mr. Jack Bray, of Burton-on-Stather, is the new Master of the Lincoln Diocesan Guild. He has been succeeded in the post of Guild secretary, that he has held for the past 13 years, by Mr. John Freeman.

13,440 SPLICED SURPRISE MAJOR

Dear Sir,—I thank you for having the compositions published in 'The Ringing World' so quickly, and I am very pleased and surprised that two bands have already decided to attempt the peals, which are exceptionally difficult, and I wish them success.

I shall be grateful if you can point out in 'The Ringing World' that the bob Middle, shown in No. 2 after the course end 64523, should not be inserted. I presume I entered this in my copy in error. Thanking you in anticipation.—Yours faithfully,

A. J. PITMAN.

WITH HOT PASTIES

MARHAMCHURCH isn't a chocolate box show village, all thatch and oldest inhabitants. The one-time green—which like many in this corner of North East Cornwall and North East Devon is a narrow triangle—is now all tarmac, and the houses and cottages stand up and face the weather instead of snuggling cosily as they do in the southern combes, for Marhamchurch stands on a hill-top. But it's a village of great charm and it feels happy, and the Church of St. Marwenne, which stands at the broad end of the triangle, is a singularly charming one, full of space and light, and graced with a fine example of perhaps the best type of flooring ever used in churches—small slates set on edge in perfect squares. The bells are a sweet little six in a neat, low tower, and they go like tops, which promised well for the Tamar Valley Guild of Ringers' Festival on May 13th.

In an exclusively agricultural area, the weather means an enormous amount to any function, and not by any means in the obvious way. A perfect, cloudless day did not spell good attendance this year, for with wet weather almost unbroken until the previous Monday and all the tilling behindhand, there were many farmers who had to keep their tractors going from dawn till dark if they were to get their corn tilled at all. However, there were well over a hundred in church, and the bells were kept going well both before and after. As Marhamchurch has no parson, the Guild's secretary conducted the service, and the Rural Dean, the Vicar of Bude, was the preacher. It has always been a tradition for the clergy to attend the T.V.G.R. Festival, whether ringers or no, and many far larger societies might have envied us the presence of no less than seven parsons at our Guild office.

Whatever may or may not be our abilities as ringers—and we mostly ring call-changes only—we in the Tamar Valley can claim a place second to none as providers, and consumers, of refreshments. Marhamchurch, who had agreed to act as hosts after another tower had run into rope trouble at only a fortnight's notice, gave us hot and delicious pasties, ham sandwiches, jam tarts and cream (Cornish, of course; it'll be Devonshire next year when we go to Ashwater), cakes in infinite variety, as much as the hungriest ringer could eat and all for half-a-crown, in their very handsome Bray Institute.

After the tea it is the custom for each band to make its way over the district and for every tower affiliated to be open for the evening, so there was plenty of bell music in the Tamar Valley on May 13th. Some bands ranged outside the Guild's confines, and one such learnt one lesson which it passes on gratis to all steeplekeepers: C*p*d*x has 1,001 uses, but mending bell ropes is not one of them.

THE PITSTOWS OF SAFFRON WALDEN

By H. C. STACEY, F.C.I.S., D.P.A.

HISTORY of Saffron Walden is incomplete without some record of the Pitstow family's connection with the Saffron Walden Society of Change Ringers, this being the oldest of its kind in the country. These recollections were made by Mr. Alfred Pitstow (now 85 years) and by Mr. Harold Pitstow and Mr. Leonard Pitstow.

When Alfred, at the age of 12 years, went up to the tower with Arthur F. James, the son of a watchmaker and jeweller of King Street, who was responsible for winding the clock, they tied the clappers of two of the bells and taught themselves to ring. At this time the company as a whole did little change-ringing, but Alfred's father, Frederick Pitstow, and his uncles, Nathan John Pitstow and Ernest Alfred Pitstow, were capable of doing so. The brother Nathan and Frederick often walked the nine miles to Stansted to get some practice.

The three brothers—Nathan, Frederick and Ernest—also toured Devon and Cornwall several times with the Revs. F. E. Robinson and G. F. Coleridge. This party rang changes on Exeter Cathedral's ten bells for the first time, the tenor being 67 cwt., in bad condition and extremely difficult to handle. They also toured Suffolk and Norfolk and rang 11 peals in nine days, one on the ten at Aylsham and one on the 12 at Norwich on the same day—commonplace today, perhaps, but in those days (1880's) a unique performance.

Alfred Pitstow and Arthur James gradually mastered change-ringing and they made the ringers at Saffron Walden up to eight, who ultimately tackled and mastered most of the intricate methods, which could only be rung in those days at Burton-on-Trent and Benington. Ringers from many parts of the county went to Saffron Walden to learn these methods.

Nathan Pitstow (who used to live where Alfred resides now) became widely known as a composer. Mr. Alfred Pitstow is the only surviving member of the company which followed in the tradition of the Saffron Walden ringers of the 17th century. In 1892, when Alfred was only 17, there was a lady band of ringers, and he taught them to ring!

In 1914, the eight bells cast by Bryants, of Hertford, in 1798 from the metal of a previous ring, were augmented to 12, and Alfred conducted the first peal on them. By this time Nathan had died, but Ernest's two sons, Leonard and Harold, had joined the company and were both still at the Grammar School. Harold rang his first peal on Saffron Walden bells in 1912 when he was 15, and after a distinguished career now lives at Banstead, Surrey, and is principal of Westminster Abbey ringers as well as captain of the Baustead band.

(Continued next page)

Mr. Alfred Pitstow's youthful companion, Arthur James, succeeded his father's business of watchmaker and jeweller in King Street and married Ernest Pitstow's sister, Annie, and Leonard Pitstow learnt the trade with his uncle, Arthur, and today carries on the same business, which has been responsible for maintaining, repairing and winding the parish clock since it was installed in 1823 at the cost of £240.

When Mr. Alfred Pitstow resigned as conductor in 1940, Mr. Leonard Pitstow was appointed in his place, a position he still holds. The first peal of which the Society has any record was rung on Christmas Day, 1753. Details of notable achievements on the bells are to be found on nine tablets round the walls of the parish church tower.

The bells are now found to be hanging in a dangerous state, and until £2,500 has been spent on extensive repairs to the church tower and bells, the bells must not be rung. Mr. Leonard Pitstow has launched an appeal, and subscriptions can be sent to Mr. H. C. Stacey, Municipal Offices, Saffron Walden, Essex.

A new record in Spliced Plain Major has been created at Accrington. On May 12th a band, conducted by Mr. Derek Ogden, rang a peal in 55 methods with 335 changes of method. This is the greatest number of Major methods to a peal. Congratulations.

The ringers of the peal at Eastchurch, Isle of Sheppey, on May 13th wish to record their grateful thanks for the hospitality of Mrs. Wash and family in providing the band with tea after the ringing.

Canon C. C. Cox is the new president of the Salisbury Diocesan Guild in place of the late Earl of Shaftesbury. Canon Cox's office as Master will be undertaken by the Rev. Richard Longridge, Vicar of Bourton, Dorset.

Here is a coincidence. Patricia Forster and Ruth Carey went to school and learnt to ring together. Within a week they both became mothers of sons. Patricia is now Mrs. Pat Halls and Ruth, Mrs. Ruth Jackson. The Exercise will rejoice with them.

A bunch of keys was found in the car park adjoining Buckfastleigh Parish Church on the day following the joint meeting there on May 13th. If these belong to any of the visiting ringers, they should apply to Mr. A. L. Bennett, of Cornerways, Buckfastleigh, Devon.

Mr. Alan Clapstick, the well known Ambleside ringer, is the first Westmorland-born ringer to ring a peal of Yorkshire in his native county—a feat of which he is very proud. He and his wife entertained the band to a lovely tea after the peal at Ambleside and are thanked by all who enjoyed their hospitality.

Last Wednesday was one of the few occasions the 10 bells at the Commonwealth Institute, South Kensington, were rung. These 10 bells were the gift of an Australian lady, Mrs. Elizabeth Millar, of Melbourne, in 1892 to the Prince of Wales and are by descent the property of the Queen. The bells were named after members of the Royal Family. The tenor weighs 38 cwt. 1 qr. 15 lb. and is named Victoria R.I.

BELFRY GOSSIP

As long lengths are very much in the air, Mr. A. Hingley, of Darlaston, South Staffs. writes of the centenary of a peal of 10,061 Grandsire Caters rung on May 21st, 1861, recorded on a peal board in Wednesbury Parish Church. It was rung in 5 hours 55 minutes, the longest length rung in the county. The band was J. N. Lloyd 1, Hy. Malborn 2, S. L. Spittle 3, J. H. Lloyd 4, Abl. Malborn 5, J. H. Bate 6, Jas. Foster 7, Thos. Foster 8, Wm. Micklewright (cond.) 9, Hy. Lawton 10. Composed by Henry Johnson, of Birmingham.

Mr. Adrian G. Semken writes solving the mystery of the peal of Sudbury referred to in this column in our issue of May 12th. The peal in question was rung at Great Bromley (see page 281). The only connection with Sudbury is that the bell Miss J. Munson rang was cast in Sudbury in 1717.

Mr. Clifford Ball, carillonneur at Bournville, began a tour of American carillons on May 13th. The following Sunday he gave two recitals in New York—at St. Martin's Episcopal Church and at the Riverside Church. His selection at the latter church was appropriate for Mothering Sunday.

The band who rang the peal of Double Norwich at All Saints', Hastings, on May 6th, would like to thank Mr. and Mrs. C. Alfred Levett for so kindly providing such a lovely tea afterwards. Unfortunately, Alfred was unable to stand in, owing to indisposition, but his substitute, Mr. John A. Downing, captain of Christ Church, Blacklands, agreed to stand in at short notice.

Suggesting that it might throw some light on 'The Sunday Pictorial' pictures from Cumberland, J. S. sends us a cutting concerning 'I-spy' badges taken from 'The Daily Mail' of May 9th. In it it is suggested that an 'I-spy' badge is a kind of open sesame and might take the wearers behind closed doors and 'bell ringers let you have a go.' The ignorance of those who hold the responsibility of formulating public opinion is amazing!

PERSONALITIES OF THE EXERCISE - 21

Few ringers have devoted as much service to their brethren in the art as Mr. Arthur D. Barker, of Stoke Poges, Bucks. For 50 continuous years he has held an important office, firstly in the London County Association, and from 1924 with the Oxford Diocesan Guild. When the Northern District of the L.C.A. was formed in 1911, he was appointed the first Master, and later became general secretary of this Association, from 1920-24. On moving from London to Stoke Poges, in 1922, he soon took office in the Oxford Diocesan Guild, being secretary and treasurer of the East Berks and South Bucks Branch from 1924-54. Since 1936 to date, he has been the Guild's general treasurer, and during this period £1,121 has been paid in grants to churches in the Diocese for bell restoration. He has been a Central Council representative from 1924 to date, with an unbroken record of attendance. On August 12th, 1922, when he married Gladys Elsie Bateman, he was fortunate in finding a wife who was not only a first class ringer and striker, but one who, by her profession of school teacher, was well equipped to assist him in his many duties.

MR. and MRS. A. D. BARKER,
Oxford Diocesan Guild.

promoted sergeant 'on the field,' caught pneumonia (temperature 106.4 degrees) in Jerusalem, and afterwards malaria, finally being invalided out. He took part in an interesting peal in 1919 at St. John of Jerusalem, South Hackney. It was Stedman Triples, and the whole band had been in Jerusalem during the 1914-18 war.

His loyal association with Stoke Poges church, since 1924, resulted in the bells being augmented to eight in 1938, and he has conducted all peals on the bells since, except one which was conducted by one of his pupils. This church was the first one to broadcast change ringing in the South of England, Kent and Oxford T.B. Minor in the early 1920's.

On December 1st, 1927, he joined the St. Clement Danes' Lodge of Freemasons, and was Worshipful Master in 1940-41. He has held several other offices, including, in 1957, the honour of Most Worshipful Master, London Grand Rank, conferred on him in consideration of his zeal and services to Freemasonry, in which he has an unbroken record of attendance. Since 1948 he has been treasurer of the St. Clement Danes' Masonic Benevolent Association, and during this period nearly £1,200 has been contributed to Masonic charities. His other hobbies include gardening and stamp collecting.

Gladys Barker was born at Wexham, Bucks, on August 9th, 1900, and educated at Clewer St. Stephen High School and Whitelands Teachers' Training College, Chelsea. During the first war, the local band at Stoke Poges was sadly depleted, and the bells were silent. Her father, the late William J. Bateman, was tower-keeper. So Gladys, her sister and cousin persuaded her father to teach them. They were inspired by the news that the neighbouring parish of Fulmer had a full band of lady ringers. Gladys would like to acknowledge the great work done at this time by the late George H. Gutteridge, who was a very patient teacher and is greatly missed in South-East Bucks.

Her first peal was an Armistice one, rung at Burnham, Bucks, on November 30th, 1918—Grandsire Triples, conducted by William Henley, still active at Farnham Royal. Her present total of peals is 79, of which 66 have been rung with her husband, whom she met at the Ladies' Guild annual meeting at Enfield in July, 1919. She has rung five peals for the Ladies' Guild, including the first of Stedman Triples at Old Windsor in 1924. Stedman Caters at St. Clement Danes' in 1926, and the first peal of Surprise, Cambridge Major, at Crayford on March 31st, 1928, to which she rang the 7th. She is proud of the fact that she was the first lady to ring a peal of Maximus on tower bells, this being Kent T.B., at Waltham Abbey on April 22nd, 1921, conducted by Richard F. Deal, and she has completed the family of Cambridge and Kent on all numbers. She took part in the married

OXFORD GUILD'S RINGING COURSE

Some 60 ringers representing more than 20 towers attended a ringing course at Monks Risborough, on April 15th, organised by two Branches of the Oxford Diocesan Guild. The course began in the White Cross Hall, where Mr. A. D. Barker (Guild treasurer) spoke on 'Handling a Bell,' for which two ropes—one at the handstroke position, one at the back—had been suspended from a beam. Having dealt with the actual handling of a bell and pointing out the faults beginners were apt to make, Mr. Barker turned to the actual teaching. He thought the learner should be encouraged to progress as quickly as possible—of course, some would progress more readily than others—in order that he/she would not lose interest.

Also, in answer to a question, he advocated that the learner should not be shown the bells until he/she could handle one properly in case of being 'frightened' by the size of the bells. (This is different to what has been expressed elsewhere.)

The company then adjourned to the church, where the six bells are rung from the ground floor. Plenty of rounds were rung for the learners, and their faults were quietly pointed out to them so that they could correct their style. After ringing for an hour, back to the hall, where the ladies of the church had prepared a good tea. Ringing recordings were played by Mr. W. H. Coles on his tape-recorder.

The next speaker was Mr. W. G. Wilson, who, with the aid of diagrams, dealt with the learning of methods. This was explained in a very thorough manner, and afterwards as the bells in each change of the plain course of Bob Minor were counted out, members of the audience, equipped with handbells, sounded them simultaneously as they all followed the path of one and the same bell. Handbells were passed on to others and the procedure was repeated. Finally, Mr. and Mrs. Barker, Mr. Coles and Mr. Wilson rang a touch of Stedman Triples on handbells. Several present had never seen this done before and many appreciative comments were passed.

The return to the church was made once again and ringing in a variety of methods was enjoyed.

STRENUOUS HANDBELL PEAL RINGING

On May 14th in the belfry of St. Margaret's, Leicester, a peal of Plain Bob Major was rung on the largest set of handbells ever to be rung to a peal. The tenor was size 26 in G. There has been only one previous peal on these bells, Stedman Triples, on February 2nd, 1925, conducted by Harold J. Poole. Both peals were successful at the first attempt. Ernest Morris rang in both peals.

It was with some trepidation that the band surveyed the bells before the start, and the ringer of 5-6 wisely donned a pair of gloves.

A start was made, and a very steady beat was maintained throughout. About half way, after nearly 1½ hours' ringing, 5-6 and 7-8 were beginning to feel the effect of the heavy bells and blisters were already in evidence. It was agreed to continue, but to shorten the peal to 5,008. The peal was successfully completed in 2 hours and 34 minutes one minute under the time taken for the 1925 peal. As the bells were laid to rest the ringer of the tenors was heard to say, 'I don't think I could have rung another lead,' and then he showed us his hands!

It was a glorious peal and well worth the effort which 5-6 and 7-8, in particular, agreed was more strenuous than a tower-bell peal.

Now which enthusiastic band is going to attempt one on 29 in C?

couples' peal of Cambridge Royal and Stedman Cinques, and has been a Central Council representative for the Oxford Diocesan Guild for a number of years.

Mr. and Mrs. Barker have a long record of service to others, and their devotion to duty is appreciated by members of their Guild. As a married couple team, they have set others an excellent example, in every direction.

APACE.

Up to April, 1961, his total of peals is 197, of which he has conducted 67. This includes four non-conducted peals, and 34 rung on 12 bells. Although his peal total is a modest one, it includes a number of interesting performances. His longest length was 7,777 Stedman Caters at Beddington, Surrey, in 1913. He took part in Stedman Caters at Wells Cathedral, when, after travelling down with his right arm in a sling, he removed it before meeting the rest of the band! For the Oxford Diocesan Guild he conducted the 'first ever' peal of Kent and Oxford Treble Bob Minor, rung without bobs, and all 5.6s at backstroke, the first peal of London Minor rung at Amersham, and the first peal of Stedman at Cinques rung by a resident Guild band at Oxford in 1926. In these last three peals, Mrs. Barker also took part. Arthur has always been 'game' to tackle an awkward tenor, and in three places in London he rang the tenor to peals of Major, during the 1920's, which will not be repeated. They were at White-chapel (always a 'slaughterhouse'), Blackfriars and Rotherhithe. He also 'turned-in' the 26½ cwt. tenor at Great Missenden, Bucks, to the first peal of Minor on the bells (Kent) in 1931. More recently, in 1957, he conducted Stedman Triples from the 264 cwt. tenor at Bray, Berks, the first peal on the eight bells, at the age of 67, a very creditable performance.

During the First World War, he served in the R.A.M.C. (T.A.), from 1915-19. He was

MIDDLESEX COUNTY ASSOCIATION

Master Wants More Inter-visiting

THE annual meeting of the Middlesex County Association and London Diocesan Guild was held at Hackney on April 22nd; it was attended by over 60 ringers, who were given the opportunity of ringing at St. John-at-Hackney and at St. John's, South Hackney, during the afternoon and evening.

The chair at the business meeting was taken by the president (the Rev. G. C. Taylor), who extended a warm welcome to all present and particularly to Mr. Kent, who, although now resident in Hackney, rang for some years in the Ealing towers. Apologies for absence were received from Messrs. L. Grice, E. R. Gotham, W. H. Coles, C. E. Slade and Mrs. S. Slade. A minute's silence was observed to those past members who had died since the last annual meeting.

A new departure this year was a report from the Master, Mr. J. R. Mayne. During the year he had visited 23 of the towers affiliated to the Association, and he had found that, though a few bands were strong, some were struggling, and some were enthusiastic, but not very capable; however, all gave him a welcome.

Continuing his report, the Master gave those present food for thought, with his summing-up of the strength, or otherwise, of the Association. In his opinion, there was much to be done, and it would not be done by making speeches, or by one officer visiting 20 different towers during the course of a year. It needed a combined and sustained effort from everybody. Some bands would benefit from more discipline, some needed more enthusiasm. He suggested that there could be more inter-visiting between local towers on their respective practice nights.

Mr. Mayne also pointed out that the strength of the Association lay in its meetings, where all ringers had the chance to try something new, and he urged that an effort should be made to increase the numbers of ringers present at these meetings.

The reports made by the secretary and treasurer were received and adopted, and all the retiring officers were re-elected. One amendment to the Rules was agreed upon—that Rule 16, regarding peal fees, should now read that the fee of 6d. per member taking part could, in addition to the Secretary, be sent to the District Secretaries. It was voted that the next annual meeting be held at Hillingdon.

Other routine business was concluded, and was followed by votes of thanks to the Revs. Pink and Isherwood, for the use of bells, etc.; to Mrs. Edwards and helpers at tea, and to Mr. Edwards, local captain, for having everything in readiness.

Before the tea and business, a service in the rather unusual but lovely church of St. John-at-Hackney was jointly conducted by the Revs. Pink and Taylor, at which the former gave the sermon.

BARNSELY & DISTRICT SOCIETY

Three generations rang together at the monthly meeting at the Barnsley and District Society at New Mill, near Huddersfield, on May 13th. Denise Greenwood, of Meltham, was elected a member and he rang with his mother, Mrs. Mary Greenwood, and his grandfather, Mr. Charles Byram. Fourteen towers were represented. The Vicar (the Rev. P. F. W. Frost) presided and responded to the usual vote of thanks, proposed by Mr. Edward Farnshaw, of Meltham.

Next meeting, June 10th, Kirkthorpe (shield contest).

RINGING TOUR BY LONG NARROW BOAT

'WATER, water everywhere and none of it fit for drinking.' was the theme of a crew of ringers from St. Albans District and Watford, navigating the Grand Union Canal in a seventy foot long narrow boat on May 6th. Spirits were high as we embarked at Leighton Buzzard, aboard the 'Heather Belle.' We cast off at 9.30 a.m. and soon there were more ringers on the boat than in it.

Our first port of call, Fenny Stratford, was reached after a few 'teething' trials, arising from a strong cross-wind, which necessitated much strong arm activity with boat hooks. However, the hard working crew were rewarded by the easy going six at Fenny Stratford.

After lunch the next target was Woughton-on-the-Green, where we found a fraying rope on the treble. The third tower (which was delightfully positioned) was at Gt. Linford (6, 16½ cwt.), where the bells were a real joy to ring. This place was also our turning point, so we headed back downstream in the hopes of ringing at Simpson. Unfortunately, we were a little behind schedule and did not have time to ring, because it is against the law to navigate after dark. This was remedied by some ringers who took to ringing hand-bells behind the engine room.

On the whole, locks and steering were managed very well and thanks must be to the 'tiller men and girl,' the lock workers, the tea and coffee brewers, water sprites and, finally, all kind incumbents concerned. Three cheers for the gallant organisers from the damp campanologists!

N.B.—The tour even provoked mention on the South-East England B.B.C. News on the previous evening.

KING'S LANGLEY, HERTS.—On May 11th, 1,260 Doubles (Canterbury Reverse, April Day, Plain Bob, St. Simon's, St. Martin's and Grandsire); R. Longhurst 1, Miss M. Erik 2, R. W. Pictou (cond.) 3, K. Waples 4, B. Barker 5, P. Harper 6. First of six methods by all the band. For Evensong.

SURREY ASSOCIATION Striking Competition

The fifth annual striking competition, organised by the Surrey Association, held at Ewell, attracted only four entries. This emphasises once more that although a large proportion of our bells are rung regularly for services, the state of change ringing in the county is in poor health.

Once again the Association was privileged to have as judge Mr. Charles H. Kippin, of Southampton, with Mrs. Parrott as his marker. Proceedings started with the Association's service, conducted by the Vicar of St. Mary's, Ewell, Rev. V. P. Davis. The bells were then raised by spectators and listeners, the draw for order of ringing made and the four bands in turn rang 252 changes. After the last band had rung the company, some 50 strong, made for the local school, where the Ewell ringers, under their captain, Mr. J. Beams, had an excellent tea awaiting.

After tea Mr. Kippin announced the results. The team with least faults was St. Mary's, Beddington, for the second year running, and the ringing was described by Mr. Kippin as the best he had heard at a Surrey competition. Next was St. John's, Croydon, and third St. John's, Redhill. This entry is the first from the Southern District, and a welcome recruit to the competition. Finally, came St. Martin's, Epsom, a very youthful band, who were also making their first attempt. The first two teams rang Stedman and the latter two Grandsire.

At the routine business meeting which followed, two new members were elected and the librarian mentioned that the library had a copy of 'Leatherhead Bells' presented by the author, Mr. A. H. Winch. The collection for the bell fund raised £1 13s. 3d., and the meeting concluded with votes of thanks to the Ewell ringers, whose efforts had made such a success of the afternoon.

PEALS ON THE FRONT 8 OF 12 OR 6 OF 8

Dear Sir.—Following the annual meeting of the Worcestershire Association, exaggerated and strongly worded remarks in the local Press on this subject have been attributed to me, and further, making them appear as my own personal opinions, that I feel the facts to be not out of place.

In 1960, three peals were rung for this Association, two on the front 8 of a ring of 12, and one on the front 6 of a ring of 8. Before the Central Committee meeting in February, a member notified me of his intention to bring the matter forward and asked me to put it on the agenda. His proposal was that the peals be not accepted for publication, but the committee, not wishing to go as far as this, decided 'that the ringing of such peals should be discouraged.'

Reporting to the annual meeting on behalf of the committee, I used the exact phrasing of the minute and no more, and the report was adopted without comment.

After the meeting, the Press reporter, young and admittedly uninformed on ringing, asked me for an explanation of the 'front 6 of a peal of eight,' etc., and this I gave him, quite simply and briefly. Another member of the committee, hearing the discussion, can vouch for the fact that no such expressions were used as 'agony of sound' or 'grating on the ears.' In point of fact, I think, I am usually considered to be ultra cautious in any remarks I pass in public.

One can only assume it to be another case of over-enthusiastic reporting, looking for something sensational, and after reading the opening sentence in one paper: 'A look of horror spread over the 150 members present, when the secretary . . . etc., one could expect anything to follow.—Yours faithfully,

J. D. JOHNSON,

General Secretary,
Worcestershire Association,
Sedgeberrow, Evesham.

A PUZZLE

Dear Sir.—With reference to the letter from Mr. A. J. Blair, headed 'A Puzzle' in a recent issue of 'The Ringing World,' I am sure I will not be alone in pointing out that the solution given is the extent of Bob Minimus, with the bells in reverse order, the fourth doing the treble's work, the third that of the second and so on.—Yours faithfully,

D. K. PUTNAM.

Bearsted, Kent.

Dear Sir.—I also, have the book of puzzles which your correspondent is interested in. I see the method is Plain Bob, but with the 4th as hunt bell instead of the treble.

I do not think a separate name could be given to this as, it is only Plain Bob 'back to front,' so perhaps it could be called '4th hunt bob.' If a little experiment is done it will be found that any bell can be made the hunt bell, keeping the same rules for Plain Bob when the hunt bell leads.

I do not think these methods should be used on more than four or five bells, but as ringers of four-bell towers must have a little variation from Plain Bob, this should prove quite acceptable on Minimus.—Yours faithfully,

DAVID W. STRUCKETT.

Sunbury-on-Thames.

HAROLD J. POOLE AND SURPRISE MAXIMUS

Dear Sir.—With reference to Mr. Sedgley's letter ('R.W.' May 5th) I have pleasure in submitting for publication and his perusal the peals of Maximus as rung by the late Harold J. Poole, of Leicester.

The list consists of 25 different Surprise methods and the acme of all is no doubt the only peal to be rung of Cambridge Surprise Maximus 'in hand.' Also it might be stated that where it was possible the Minor, Major and Royal extensions were rung.

This information will no doubt be of interest to all who are statistically minded.—

TOWER BELLS

Kent Treble Bob 1.

Surprise methods: Cambridge 35 (cond. 21); New Cambridge 3 (3); Yorkshire 27 (17); York 2 (2); Buckinghamshire 1 (1); Superlative 4 (4); Buckingham 1 (1); Pudsey 2 (1); Rochester 1 (1); Bedford 1 (1); Lindsey 1 (1); Lincolnshire 1 (1); Belgrave 1 (1); Albanian 2 (2); Wigston 1 (1); Leicestershire 1 (1); Aldenham 2 (1); Bristol 2 (2); Rutland (Belvoir) 1 (1); Goscoe 2 (1); Metropolis 1 (1); Langley 1 (1); Stonegate 1 (1); Garree 1 (1); Framland 1 (1); 2 Spliced 2 (2); 3 Spliced 1 (1); 4 Spliced 3 (2); 5 Spliced 1 (1); 6 Spliced 1 (1); 7 Spliced 1 (1); 8 Spliced 3 (1); 10 Spliced 1 (1); 12 Spliced 1 (1). Total 111 (80).

HANDBELLS

Kent Treble Bob 3 (2); Plain Bob 4 (3); 4 Spliced Plain 1 (1); Cambridge Surprise 1 (1). Total 9 (7).

Grand total: 120, conducted 87.

Yours faithfully,

Leicester. PETER J. STANIFORTH.
P.S.—On summing up my own Maximus total of tower- and handbell peals, it stands at 105, conducted 23.—P. J. S

NORTHAMPTON TOWER AGAIN IN THE PICTURE

Dear Sir.—After many years of silence, a band has been formed at All Saints' Church, Pitsford, Northampton, under the expert eyes of Mr. Frost and Mr. Benefield, of Kingsthorpe, to whom we are most grateful. Our Rector, Canon H. J. Boyd, has given us full support and we are also indebted to the friends who visit us on practice nights.

We have now been made members of the Peterborough Diocesan Guild (Northampton Branch) and enjoyed an afternoon's ringing at a Guild meeting, at a local church.

It was a source of great joy to me to be able to ring at Christmas and New Year (the first time by a local band for 20 years). May I thank, through your columns, all who have given encouragement and advice to us, both local and from nearby parishes, and trust we may go on to become an active band.—Yours sincerely,
DENNIS E. C. ISAACS.
Pitsford.

'NOT SACRILEGIOUS'

Dear Sir.—I agree with Mr. Brown (bad taste and sacrilegious) when he says that the people who were responsible for the photographs being allowed to appear in the 'Sunday Pictorial' should be severely reprimanded: surely they knew the photographs would appear in the paper.

But for Mr. Brown to say that to have photographs taken in the belfry was sacrilegious is, to my mind, ridiculous. I have seen, with the permission of the incumbent, photographs taken inside the church at a wedding: surely this is not sacrilegious. Also, were the writers of the Central Council's 'Handbook for Beginners' sacrilegious, when they had their photographs taken for their book?—Yours faithfully,
I. McLEAN.
Dartford, Kent.

THE NORWICH ASSOCIATION

THE annual general meeting of the Norwich Diocesan Association was held in Norwich on May 6th, with an attendance of approximately 80. Although fewer in number than in recent years a good standard of ringing at all towers made it a successful meeting.

The Vicar, the Rev. Frank Jarvis, conducted Evensong, in St. Peter Mancroft, and gave the address, the president (Mr. Nolan Golden) reading the lesson.

The business meeting, with the president in the chair, was opened with votes of thanks to all who had given of their services to make an enjoyable and successful afternoon and evening. The president gave a review of the progress of the Association during 1960. He also very pleased indeed to see so many of the young people at the meeting and congratulated them on their ringing activities. A very good omen for the future. Members would see by the annual report that the Association was very alive and active throughout the Diocese. More support would be welcomed from those who had given up attending Branch meetings in recent years. He congratulated Messrs. William Clover and William C. Duffield, on their completion of 50 years' continuous membership, and thanked them for their great services to the Association over that long period.

In his report, the general secretary (Mr. W. Love) reported the election of 49 resident ringing members and 12 non-resident life members during the year. Losses through deaths and non-payment of subscriptions were 48. Total resident membership, 483. Mr. Love, as treasurer, presented the accounts, showing an excess of income over expenditure of £4 3s. 1d., and drew attention to a drop in receipts of approximately £18, as compared to 1959. Overdue subscriptions were the main cause of this, at approximately £20. Grants had been made from the Belfry Repair Fund of five guineas each to Buxton and North Elmham, leaving a balance of £113 17s. 6d. in this fund. Balance in the General Fund Account, £225 1s. 10d.

Restorations had been completed at three more towers, Aylsham (10), Buxton (6) and Kessingland (5). A new treble had been ordered for Kessingland and would be in the tower very shortly. Further restorations were contemplated at Blofield (6), Norton Subcourse (6) and Elingham (5).

The Ringing Master, Mr. H. W. Barrett, congratulated all first pealers, 17 in all, those who had conducted their first peal, first 'inside' and first in methods, Mr. T. Owen in ringing his 100th peal for the Association. It appeared that Sunday service ringing was in the same position as last year, but he hoped an improvement would be made in the future.

All the officers of the Association were re-elected and thanked for their past services.

It was proposed and agreed, that the Central Council representatives support the motion as advertised in 'The Ringing World,' 'That the conditions required for peals as laid down on page 19 of the Council's Handbook be amended by the addition of the following: "A peal shall be rung with five or more changing bells."

BIRMINGHAM UNIVERSITY TOUR OF DEVON AND CORNWALL

ABOUT 20 members assembled at Plymouth on the evening of April 5th, for the University's annual tour, which was to last for a week and include ringing at over 50 towers. After a quick tea, Tamerton Folliot was visited, transport being provided by a minibus, several cars and a van. On our return to Plymouth, the base for the tour, we bumped into Tom Myers, of the St. Andrew's band, who joined us in handbell ringing in St. Andrew's Church Hall, where the male portion of the party were to sleep for the week. The handbell ringing eventually included a course of Grandsire Cinques, with all the participants in bed. (Is this a record!)

Rising early on Thursday, the first tower visited was Silverton (8), then on to the fine Taylor eight at Tiverton, generally considered the best bells of the tour. After ringing at Uffculme, we found Culmstock rather difficult to handle. Bill Lavers, of Plympton, who accompanied us for most of the tour, supplied a fund of information about the towers, churches and districts, and pointed out many interesting features, such as the tree growing out of the tower top at Culmstock. The fine ten at the beautiful church at Cullompton were next, and the day's tower-bell ringing ended at Bradninch.

Friday was a day of sixes, most of which had belfry walks covered with competition ringing certificates. The towers included Plymstock, Brixton, Yealinton and Modbury—the best six we rang on, cast by Bilby and Taylors. After lunch Kingsbridge and Stoke Fleming were visited, then the Dartmouth towers of St. Saviour's (a nice eight), St. Petrox, a good six by various founders, situated by a castle on the River Dart, and St. Clement's, another light six, but with a flat tenor. The last tower was Ugborough, a beautiful ring by Bilby, which needs retuning. At each tower we were tutored by Bill Lavers on the Devon method of rising in peal, which sounds well but is difficult to apply to rings of any great weight.

THE FIRE ESCAPE

Early on Saturday we crossed by the ferry to Saltash (6), then to a very good eight at Liskeard. Engine trouble delayed the minibus on the way to Lostwithiel, but with the aid of some wire this was made good, and St. Austell (8), Probus and Kenwyn, a very good eight, were visited before tea. At Truro Cathedral, one aspiring heavy bell ringer turned the tenor into the Stedman Caters the rest of the band were ringing. He set his bell (with some difficulty) and, taking the treble, rang in a good course of ye same. The last tower of the day was Bodmin, where half the party distinguished themselves by inadvertently entering the belfry through one of the windows, having mistaken the somewhat precarious route which leads by a plank over a gaping chasm, then by ladder half way up the tower wall, which was discovered to be the fire escape, for the usual entrance.

On Sunday morning we were joined by Mr. and Mrs. Edgar C. Shepherd, and rang for the morning services at St. Andrew's, Plymouth. Dinner was at the Magnet Restaurant, then we visited several six-bell towers on the moor—Sheepstor, Meavy, Shaugh Prior and Bickleigh. Four of the party, with Edgar Shepherd, left us at Shaugh Prior and went to St. Andrew's, Plymouth, to ring a quarter of Grandsire Caters, with some of the local band.

The eights of Hatherleigh, North Yawton, Crediton and Newton St. Cyres were called at on the way to Exeter on Monday morning. Crediton, a heavy (27 cwt.) ring, did not, it was felt, live up to their local reputation. Travelling through the crowded centre of Exeter, one of the vehicles got lost and only managed to find us a couple of towers later. The excellent heavy eight at Heavitree was the next call, then, by a lucky chance, the date having been altered, we were able to join in the Cathedral practice, ringing on this majestic twelve being a unique experience.

JACKDAW REFUSE

Glorious weather marked our journey eastward on Tuesday, ringing at Totnes, Paignton, Torquay (Upton), Babacombe, East Teignmouth and King's Teignton. On the way back

BIRMINGHAM UNIVERSITY SOCIETY

Highweck (8) and then Littlehempston were called at, the latter being notable for the quantity of jackdaw refuse being scattered about, as they have not been rung for several years. During the afternoon seven of the party hurried back for an evening peal attempt of Grandsire Caters at St. Andrew's, Plymouth, which was successful.

After ringing at Plymouth Emmanuel and Buckland Monachorum on Wednesday morning, we went on to Tavistock, where the highlight of our call change ringing took place—a competition between two teams, picked from the party and held in authentic West Country style, which was judged by Tom Myers and Bill Lavers. The twelve at Buckfast Abbey were easy going and very enjoyable. We went on to Buckfastleigh, where an elusive touch of Spiced Surprise was brought to a successful conclusion. The Plympton towers of St. Mary's and St. Maurice's concluded the ringing of the tour.

We gratefully extend our thanks to all who helped to make the tour so enjoyable, the organiser, Alan Collings (whose competence is illustrated by the fact that we were late at only one tower); Mrs. Collings, who prepared our breakfasts and provided sleeping accommodation; the Rev. Mr. Cooper, Vicar of St. Andrew's, who allowed us the use of the Church Hall; Bill Lavers, Tom Myers and all the local ringers, who made us so welcome, and our drivers.

30 Years Ago

'R.W.' May 22nd, 1931.—

Anniversary of the 17,024 Double Norwich rung in 11 hours 12 minutes by the Oxford Guild and conducted by the late Mr. James Washbrook.

Thirty years ago next Saturday the first true peal of Treble ten was rung in Ireland, at St. Patrick's Cathedral, Dublin. Four days later the first Surprise peal rung out of England was accomplished at Bray, Ireland. It was a peal of Superlative.

50 Years Ago

On May 15th, 1911, a cheque for £190 was paid to George Day and Son, of Eye, Suffolk, by the Rev. L. B. Stallard and churchwardens of Holme Hale, Norfolk, to rehang the ring of six bells in a new English oak frame, with four new supporting beams and all new fittings for bells. The bells were also quarter turned.

LYDNEY, GLOS.—On April 30th, 1,260 Grandsire Triples: C. Berry 1, J. Long 2, B. D. Sims 3, F. Reed 4, C. G. Bryant 5, G. T. Horritt 6, W. F. Scudamore (cond.) 7, M. F. Sims 8. For Evensong.

S.W. NOTTINGHAMSHIRE VISITED

The ringers who visited S.W. Nottinghamshire on May 6th, the nucleus of which were from Bloxwich, Lichfield and Little Aston, wish to thank the incumbents and local ringers concerned for their help. This enabled them to spend an enjoyable half day at five towers.

An excellent heavy five was found at St. Michael's, Sutton Bonington. The tenor is at least 20 cwt., and the bells 'go' very well, being rung from an upstairs room. Likewise Stanford-on-Soar, but the eight here (tenor 16 cwt.) are hard work to ring and very odd-struck. In addition the ventilation was poor so everyone was pleased to move on to Hickling, where we were in time to hear the unusual clock chime at 4 p.m. The tenor is only 10½ cwt. here, and the bells are easy to handle from the ground floor. They are never rung, according to the Vicar, and reluctantly we had to refuse his kind offer of tea and cakes, as this might have delayed our arrival at Congrave. Rung from the ground floor, these six bells are an excellent example of pre-war Taylor splicing recast bells with old retuned ones. Minor was rung with ease and sounded grand with a tenor of 17½ cwt. in E. The last touch of the day was rung at Ruddington, on the eight bells, which comprise an unusual 'back six', reminding the writer of a ring of steel bells, and the two trebles are modern by Taylors. In addition, care in bell handling is needed here, without which one's sally tends to descend in odd places.

Methods rung during the day varied from St. Simon's and Stedman Doubles, Cambridge Minor, to a 'bobbed' course of Yorkshire Surprise Major.

KLEEWAY.

GUILD of DEVONSHIRE RINGERS

The quarterly meeting of the S.W. Branch was held at Revelstoke on April 22nd and ringing, supervised by Mr. T. G. Myers, included touches of Grandsire Triples, Stedman, Plain Bob Major and rounds. The Guild service was conducted by the Vicar, who extended a hearty welcome to the ringers.

The chairman, Mr. H. H. Thomas, presided over the business meeting. The meeting stood in sympathy with the relatives of the late Mr. F. C. Smale, who, up to three or four years ago, was a most regular visitor to our meetings, for many years chairman of the N.W. Branch and vice-president of the Guild.

The election to membership of the Guild was confirmed of seven members of the Birmingham University Guild, who had recently had a week's ringing tour in Devon and Cornwall.

H. H. T.

LINCOLN DIOCESAN GUILD

The 62nd annual meeting of the Lincoln Diocesan Guild was held in Lincoln on April 29th, and was attended by some 160 members from towers throughout the Diocese.

During the afternoon ringing took place at the Cathedral, St. Giles' and St. Peter-at-Gowts and, following Evensong, in the Angel Choir of the Cathedral, the company had tea in the ancient Chapter House at the Cathedral.

The business meeting was held in the Consistory Court at the Cathedral and the president, the Dean of Lincoln, opened the proceedings by paying a tribute to the late Mr. John A. Freeman, who had, at his death, been Master of the Guild for nearly 14 years.

Later, the meeting considered the provision of a suitable memorial to Mr. Freeman and it was decided that this should take the form of a badge of office for the Master, and the placing of a suitably inscribed plaque in the Ringers' Chapel at the Cathedral. A sub-committee was formed to go into the details.

The annual report and balance sheet were approved, but, since some criticism had been made of the form of the annual report and its cost, the sub-committee was instructed to investigate the question and report to a future meeting.

Two nominations were received for the office of Master, and on being put to the vote Mr. Jack Bray, of Burton-on-Stather, was elected by an overwhelming majority. This is a well merited honour for Mr. Bray has a fine record of service to the Guild in many capacities over a long period of years, but notably as honorary secretary for the past 13 years. Without doubt, he should prove a worthy successor to those Masters who have gone before.

To succeed Mr. Bray as honorary secretary, Mr. John Freeman was elected. The remainder of the officers were re-elected.

Following a proposal by Mr. R. C. Noon, it was resolved that the Guild's representatives on the Central Council should be ex-officio members of the Guild Committee. This amendment to the rules brought Mr. J. L. Millhouse to the ranks of the Guild Committee.

Following the business meeting, ringing continued at the Cathedral and the two churches during the evening in a variety of methods.

UNIVERSITY OF WALES SOCIETY

On April 29th and 30th, the U.W.S.C.R. had a short tour of South-West Wales. A fine spring afternoon and a cheerful Miss Buckland welcomed us to St. David's, with its clean, well kept Cathedral, and an impressive sounding ring of eight bells in a squat, round tower, two hundred yards away. The bells went well, some of the local band joined in our ringing, and we were sorry to leave.

At Haverfordwest, we found a rather rough eight, but after learning to ignore the salthes and catch the rope above, we managed to ring some methods. The last tower that day was Tenby, an easy-going eight, where we had the best ringing of the tour. After the traditional fish-and-chip supper, and a stroll along the beach, we returned to our lodgings for the traditional handbell ringing. But somehow, although they chased each other for some time, the handbells and the would-be handbell ringers never quite caught each other up.

After ringing for and attending Matins at Tenby the next morning, we had lunch and went to Pembroke. Ringing on the octave here completed the list of ringable rings in Pembrokeshire, and we went on to Llanstephan, in Carmarthenshire. This eight did not go quite as well as we had hoped, but the local band turned out in force, and made us most welcome.

Our last call was at Carmarthen, where we rang for Evensong, on an eight that was not so bad as we had feared. This almost concluded the tour, but a short while after the handbell ringers got their long-awaited chance—in the waiting room at Carmarthen station.

We are most grateful to Gwyn Thomas, for arranging all the towers and accommodation.

THE IRISH ASSOCIATION

Presentation To Retiring President

The annual meeting of the Executive Council of the Irish Association was held in the Music Room, Christ Church Cathedral, Dublin, on April 22nd. It was presided over by Mr. William Pratt (president), and was well attended by delegates from all Districts, as well as 'strangers.'

Tributes were paid to members who died during the previous year—viz., J. Ernest Harris (life member), Morris J. Morris and Frank Skidmore (non-resident life members).

The annual report, after recording events during the year, stated that the well-designed badge was very popular and more than half the stock had been disposed of. Regarding the library, the new librarian (Mr. W. H. Wilson) stated that the Dean of St. Patrick's would not permit any books to leave the tower unless he authorised it. The matter would be reported on.

There were no visiting parties during the year. Four peals were rung. The position in regard to change ringing remained much the same. Whilst more members were practising methods—even at the hunting stage—others appeared to have lapsed, either by not having the opportunity or loss of interest.

The circulation of 'The Irish Bell News' was maintained and the price of the paper (2s. 6d. per annum) had remained the same since its inception, nine years ago.

The Ringing Master (Mr. T. Dunwoody), in his report, comments: 'I think a peal on four bells is more a feat of endurance than a ringing performance, and I would be inclined to suggest that the matter should be left alone.'

The reports and accounts were adopted. At the meeting it was decided to increase the annual subscription to 2s. 6d., as from January 1st, 1961 (1s. 3d. for scholars up to 17 years).

In future, the badge sales will be run in aid of the Bell Restoration Fund, and they will cost 2s. 6d. each.

The report and the statement of accounts of 'The Irish Bell News' were adopted, with thanks to the Editorial Committee. It was reported that the circulation was well maintained. An increased profit was shown—due to donations and gifts of materials. The circulation included readers in the U.S.A., Africa and Australia, as well as a goodly number in England. There are no readers in Wales and Scotland!!

OPEN HANDSTROKE LEADS

A long discussion took place in regard to a resolution from the Southern District, as to whether the 'open' handstroke lead must be rung in competition, or may teams ring 'open' or 'cartwheel,' as they wish.

As the Rules state that all ringing shall be in accordance with the principles as laid down in 'Ropesight,' it was directed that in all competitions the competing teams and judges should strictly adhere to the relative rule. It was pointed out that Chapter II of 'Ropesight' deals with the 'open' handstroke lead in rounds, before even one blow is struck in changes.

A grant of £5 from the Bell Restoration Fund was agreed to Carmickfergus for the re-hanging of their bells in the new tower to be built to replace the war memorial tower, now being demolished on account of it being dangerous.

NEW PRESIDENT

The outgoing president, Mr. W. Pratt, now in his 77th year, thanked all secretaries and members of the Districts for their support during his 14 years of office. He then installed Mr. Fred Bogan, of Cork, as his successor.

The new president's first action was to thank the Association for the high honour conferred upon him, and said he was particularly proud that a Cork man should fill the office for the first time and also that the holder should hail from St. Fin Barre's Cathedral in particular and the Southern District in general.

Mr. Dukes spoke of Mr. Pratt's association with ringing in Ireland. In 1927, when the Northern Branch was formed, he became the first secretary, an office which he held until 1945, when, owing to pressure of post-war

business, he had to relinquish this post. He was back again in ringing in 1947 and was elected president of the Association at the meeting in Belfast, and since then had been unanimously re-elected.

The Rev. E. G. Parke (vice-president, Northern District), Mr. C. Galbrath (vice-president, Southern District) and Mr. J. MacManus (chairman, Eastern District) all spoke of the esteem with which Mr. Pratt was held by their Districts.

Mr. Bogan then called upon Mr. Pratt to receive an autograph album, which contained an address and the names of individual and tower subscribers to a presentation, which takes the form of a wireless set and an arm-chair.

Mr. Pratt, who was taken by surprise, could not find words to express his gratitude for what he described as an undeserved appreciation.

Business was resumed and the election of officers continued, as follows: General secretary, Mr. Fred E. Dukes, M.I.E.E., Meadow Cottage, Julianstown, Co. Meath; Ringing Master and badge secretary, Mr. J. T. Dunwoody; librarian, Mr. W. H. Wilson; auditors, Messrs. W. Bovenizer and J. N. Dolan; 'Irish Bell News' Editorial Committee, Mr. F. E. Dukes (editor), Mrs. F. E. Dukes, Mrs. J. Jeffery and Mr. G. Bingham.

A hearty vote of thanks was passed to the 95-year-old Dean of Christ Church, Very Rev. E. H. Lewis-Crosby, B.D., for use of bells for competition and hall for meeting.

Before the meeting the contest for the Murphy Cup took place on the bells of Christ Church Cathedral. The contestants were: St. Mary's Cathedral, Limerick; St. Mark's, Dundela, Belfast, and St. Peter's, Drogheda. St. Mark's emerged as winners, with 18 faults, Limerick were second, with 26 faults and Drogheda had 35 faults. The judges were H. Brown, J. Pryor (Cardiff) and F. Bogan. The cup was presented to Miss Rosemary Thompson for the winners.

Eastern District

At the annual meeting of the Eastern District at the Augustinian Church of St. John the Baptist, Dublin, the Lindoff Cup was won by Drogheda, for the seventh year in succession.

District officers elected were: Chairman, Mr. J. MacManus; secretary, Mrs. F. E. Dukes; assistant secretary, Mr. Roy Huber; treasurer, Mr. W. D. Graham; Ringing Master, Mr. T. Mason.

KENT COUNTY ASSOCIATION

Tonbridge District

Although a cold, boisterous wind was sweeping Westerham heights it did not deter over 40 ringers attending the by-meeting of the Tonbridge District at St. Mark's, Biggin Hill. 'The Moving Church' is a truly wonderful example of unquenchable faith the Vicar and his dedicated helpers possessed in giving this parish a permanent church.

The service was conducted by the Vicar, Rev. Vivian Symonds, after which tea was enjoyed at 'Ann's Pantry.' The gathering was honoured by the presence of Mr. E. A. Barnett, who kindly took the chair at the business meeting. Five new members and four non-resident life members were elected. It was agreed that contributions to the fund for the presentation to Archbishop Dr. Fisher, on his retirement, could be made at this and the next meeting in June. The closing date is June 15th.

Mr. P. A. Corby, in thanking the Vicar, also congratulated Miss B. Howard on all the work she had done for ringing at Biggin Hill.

OVER, CAMBS.—On April 2nd, 1,440 Plain Bob: G. Lucas 1, P. Leggett 2, D. Murfet 3, A. Payne 4, G. Thoday 5, M. Ginn (cond.) 6. For Festival Evensong.

QUORN, LEICS.—On April 24th, 1,334 Plain Bob Major: T. Harris 1, Miss V. Lacey 2, Miss J. Exon 3, Miss C. Cowley 4, J. Tickle 5, D. Swift 6, R. Carter 7, R. Beniston (cond.) 8. A birthday compliment to R. Carter.

GUILD of DEVONSHIRE RINGERS

Joint Meeting At Buckfastleigh

The Mid-Devon and South-West Branches held a joint meeting at Buckfastleigh, with Dean Prior, on May 13th in ideal weather conditions. Both Branches were well represented. Ringing included touches of Grandshire and Stedman Doubles and Triples, and Plain Bob Minor and Major.

A sumptuous tea was later served at the Croppins Park Hotel, and while there was no business meeting, a number of apologies for absence were received, and it was unanimously resolved to write to the president (Rev. Preb. E. V. Cox) and wish him a very speedy recovery from his illness.

A hearty vote of thanks was accorded to the Vicar of Buckfastleigh for the use of both rings of bells, and to Mr. A. L. Bennett for the excellent arrangements made.

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

- Personal.—M. J. C. 5s.
- Peals.—Hanbury 4s., Acrinton 5s., Willenhall 4s., Holt 3s., Penistone 4s., Aylestone 3s. 6d.
- Half and Quarter Peals.—Milton Regis 9s.
- Quarter Peals.—Horsham 3s., Woodstock 6s., Roydon 3s., South Cerney 2s., Wimbleton 5s., Holt 3s., Reigate 3s., Putney 3s., Bristol 5s., Bradford 2s 10d., Stratton 4s., Pangbourne 3s. 6d., Farnborough 3s., Batcombe 2s. 6d., Thornhill 2s., Hushorne Crawley 4s., Shipton-under-Wychwood 4s., Watford 4s., Wincanton 3s., Dunholme 3s., Wollaton 3s., South Newington 2s. 6d.

Northleigh bells, Oxfordshire (6), have been rehung on ball bearings.

The Witney Ringing Society has given a bell to the new hall-church of St. Luke's in their parish.

ARCHDEACONRY OF STAFFORD SOCIETY

On April 29th the weather was kind when the Society for the Archdeaconry of Stafford visited the delightful village of Rolleston-on-Dove, near Burton-on-Trent. The eight bells of the fine old Church of St. Mary were rung to a variety of methods, under the supervision of the Ringing Master, Mr. Edmund Malin. The standard of ringing was noticeably better than at recent meetings.

The service was conducted by the Rev. Philip R. Knight, who welcomed the Society to the northern part of the Archdeaconry. In his address he spoke of the work done by the bells and bell ringers in reminding people of the church's message. He felt the sound of the bells stood for conviction of faith, conversion, consecration and celestial joy. Mrs. Marion Key kindly played the organ in the absence of the local organist.

Unfortunately, no tea could be provided for visitors, due to local catering difficulties and members brought their own sandwiches along. The Church Hall was available, however, and about 50 people gathered to enjoy their 'picnic' style meal. David Brunning and a lady helper from Burton-on-Trent provided welcome cups of tea. Mr. B. G. Key reported that the Rev. C. H. Barker presentation fund had now reached more than £20. He had approached Mr. Barker as to what form the presentation should take and it had been decided that an 'Aldis' film projector would be a most acceptable present from the Society to mark his 40 years' service as clerical secretary. It is intended to present the projector to the Rev. C. H. Barker at the annual general meeting in June.

Ringling continued after tea until 8 p.m., when members reluctantly made their several ways home, filled with the happy memory of a pleasant afternoon's ringling.

MINIMUS HAS A LIMITED CHARTER

THREE times we were officially told, during the proceedings of the Central Council meeting this Whitsun, that Stoke-upon-Trent was the world centre of the pottery industry. We do not dispute it. The exquisite breakfast ware in the Town Hall, where the members were entertained to the morning meal after the Communion service in the Church of St. Peter ad Vincula and later in the day by the Lord Mayor, heightened the generous hospitality. Finally, as a permanent memento, the 147 members of the Council present—a total that has never been surpassed—each received a china ashtray upon which was engraved the Abraham Rudhall tenor bell of Stone. The North Staffordshire Association is probably the smallest Association to entertain the Council—a matter of 20 affiliated towers—but they played the host with dignity, grace and experience. The towers open were many, ringing facilities were good, and even if some 30 ringers should try to snatch a 1-bell tower the Association could not be blamed for their misfortune. It was a matter of topography and not campanology!

This was a happy meeting, and in some ways one might say it was a day of triumph for the small man. To begin with, the call-change ringers of Devon—under the title of the Devon Association—were admitted to full membership and had their own representative present. They are thus enjoying equal status of membership with great Societies like the College Youths and the Cumberlands. Some might say their skill is not our skill, and vice versa; the common link, however, is church bellringing. It has now come to pass that the belfry is a very real part of the life of the Church, and it was no small tribute to the contribution of the humble bellringer to the great work of evangelisation that the Bishop of Lichfield should be present to celebrate at Holy Communion, to join the members at breakfast and finally give us a cordial welcome to his diocese.

The friendship of the Episcopal Bench to ringers has been most marked of late. And it was only fit and proper that the retirement of Dr. Geoffrey Fisher as Archbishop of Canterbury should not be allowed to pass without an appropriate letter of appreciation and thanks for his interest in our art. Still more, June 27th was declared to be a great ringing day throughout the length and breadth of the country to mark the enthronement of Dr. Ramsey to the See of Canterbury and as Primate of All England. Ringers are requested to ring their bells, ring quarter peals and peals in honour of the enthronement and publicly to let the people know why they are ringing. For this happy idea of public acknowledgment we have to thank one outside the membership of the Council—Mr. William Bir-

The next great triumph for the small man was the recognition of peals of Minimus under certain circumstances. There were plenty of pointers to suggest that after Whit Tuesday peals of Minimus would not be recognised. Great men had written letters on the subject, Associations had passed resolutions against recognition, the convener of the Peals Analysis Committee had openly declared that he would not recognise such performances as peals, and he had gone so far that in the preparation of his report to the Council he had not counted these performances as peals. Finally, there had been rung 'the last 4-bell peal by one of the pioneers of this cult.' Never were dice so heavily loaded against success. And those who conjure up in their distorted minds that the Central Council is a body of dictators thrusting their wills mercilessly upon ringers must have been amazed at this example of true democracy.

How did it all happen? Many of the Council are still mystified at such a change of face. A rumble of the fight ahead was seen at the beginning of the Council meeting, when the accuracy of the minutes of the Folkestone meeting was challenged by the Master of the Cumberlands, Mr. Denis Beresford. It was his contention—and it was supported by Mr. Walter Ayre, a former master of the Cumberlands and chairman of the Peals Analysis Committee—that the recognition of peals of Minimus was never voted on at Folkestone. Mr. Beresford made a tactical error; he raised the question after the minutes had been signed as a matter arising from the minutes. A challenge of accuracy, to be effective, has to be made before the minutes are signed as a true and accurate report of the proceedings. Thus the assault was rebuffed.

The next skirmish occurred in the presentation of the Peals Analysis Committee's report. The Standing Committee took the view that the six performances of Minimus were peals and the report should be amended accordingly. After discussion, the Standing Committee's point of view was upheld, and this meant that there was an influential body of opinion with the small man, and the motion of Messrs. P. A. Corby and J. R. Cooper, that 'a peal shall be rung with five or more changing bells,' was by no means a *fait accompli*. It was met by amendment after amendment, and finally it was a woman, Mrs. Jill Staniforth, who found the acceptable formula that 'Peals of Minimus on tower bells may be recognised in towers that contain four bells; peals on four handbells or less shall not be recognised.' This was carried by 78 votes to 57.

Ringers will recognise the subtleties of this amendment. No Minimus peals in five-, six- or more bell towers; no handbell stunts. What it means is that those who ring in a 4-bell tower will not be denied, if they can master the monotony and are able to count with accuracy 210 extents, the privilege of ringing a true and complete peal.

Other comments on the Council meeting are deferred

Was the Ladies' Guild peal of Cambridge at St. John's, Leicester, overshadowed by the husbands and boy friends peal of London Major at Claybrooke? This peal was rung to show the girls that anything they can do the boys can do better. After all, a good peal of London Major is worth three ropy peals of Cambridge Royal. Thanks are due to Peter Staniforth, who arranged the peal and stood down in favour of a boy friend (his striking isn't up to much anyway!). Crunch... Two in... Three out... Four make it. That's all.

We are pleased to hear that Mr. Harold Chant is out of hospital. A welcome home peal was rung at Penistone, and another of good wishes at Cawhorne.

A band from Twerton-on-Avon rang four quarters on May 13th on the back six of rings of eight. The original party was eight ringers, but members were reduced owing to a bereavement.

Chesham, Bucks, Sunday service band are very proud of the quarter they rang on Whit Sunday. It was the first ever by an all local band and only the conductor, Mr. John A. Underwood, had rung a quarter previously.

A significant feature about the first peal on the augmented bells of Fareham, Hants, of 5,040 Plain Bob was that it was the first peal for the treble ringer and for five others the first on ten bells. Conductor John Hunt was also calling his first on ten.

As a birthday compliment to Mr. J. H. Benoy, of Lifton Down, Lifton, a quarter peal of 1,260 Grandsire Doubles was rung at St. Nonna's Church, Bradstone, on April 20th, by members of the Lifton band of the South-Western Branch of the Guild of Devonshire Ringers.

The quarter rung at Elmley Lovett on May 20th was, in fact, a peal attempt called round, owing to the rough go of the bells. It was rung on 12356, as No. 4 is too badly cracked to be rung. The bells are a pleasant toned, 17th century ring, by Henry Bagley. The tenor, reputed 18 cwt.(!), weighs about 9 cwt., and is well known locally for its oval bearings!

BELFRY GOSSIP

Saturday, May 20th, was conspicuous for two peals that made ringing history. At Norbury (Hazel Grove) the longest length of Spliced Surprise Major yet rung, consisting of 13,440 changes in 6 methods. The time taken was 7 hours 11 minutes. It was a good peal, stated the conductor, Mr. C. Kenneth Lewis, but somewhat monotonous. The other historic peal was Cambridge Surprise Royal at St. John the Divine, Leicester, for the Ladies' Guild. This was conducted by the president, Mrs. Jill Staniforth, with Miss Hilda Snowden on the tenor. There were warm congratulations to both bands at Stoke-on-Trent.

About 30 ringers tried at Stoke-on-Trent to 'snatch' a tower with only one bell!

Northleigh, Witney, bells are to be re-dedicated next Saturday at 6 p.m., after re-hanging.

A praiseworthy effort in Spliced Surprise Minor comes from Downham, Essex, with a peal in 25 methods, conducted by Mr. Harry Turner.

Mr. R. F. B. Speed will be on holiday from June 8th to June 24th. This means that no Central Council publications will be dispatched during that period.

There is a new Warwickshire eight at St. Mary's Church, Atherstone. An open invitation is extended to all ringers to the dedication service on June 24th at 3.30 p.m.

Dr. David Heighton has now twice 'circled' the tower of St. Michael-on-the-Mount, With-out, Bristol. Taking part in the peal was John C. Baldwin, who has now rung peals of Minor in one to seven methods.

Mr. A. J. Davey, of Huntingdon, wishes to thank the band at Elveden for allowing him to stand in his 50th quarter peal, his first in his native county, and especially Mr. Henry Iving, who kindly stood down.

We are sorry to learn that Preb. E. V. Cox has had to return to the City Hospital, Exeter, where a major operation has been performed on him. We know that friends will be thinking of him and wishing him a speedy recovery.

CENTRAL COUNCIL MEET AT STOKE-UPON-TRENT

BISHOP AND LORD MAYOR'S CORDIAL WELCOME — CALL CHANGE RINGERS WELCOMED — TWO NEW LIFE MEMBERS — FOLKESTONE MINUTES CHALLENGED FOR ACCURACY — LIBRARY'S BUSY YEAR — ARCHBISHOP'S ENTHRONEMENT — NATIONAL RINGING DAY ON JUNE 27th

THE beautifully designed and lavishly equipped Town Hall at Stoke-upon-Trent provided most acceptable accommodation for the 64th annual meeting of the Central Council of Church Bell Ringers held there on Whit Tuesday.

Opposite the Town Hall is the Parish Church of St. Peter ad Vincula and it was here that more than 100 members of the Council assembled for Holy Communion, at which the Bishop of Lichfield (the Right Rev. A. S. Reeve) was the celebrant, assisted by the Archdeacon of Stoke (the Ven. G. Youll), who is president of the North Staffordshire Association, and the Rector of Stoke (Preb. F. A. R. Chapman).

The service was followed by breakfast in the Town Hall, at which the beautiful china was much admired. The Bishop and Archdeacon were both present and the company were the guests of Stoke Parish Church. The president (Mr. Frederick Sharpe) expressed the sincere thanks of the members and their ladies to the hosts.

Proceedings in the Council Chamber, as is customary, started with welcomes from Church and State. The Lord Mayor (Mr. Gordon Dale) opened the proceedings, to be followed by the Bishop and Archdeacon. The president was accompanied by the vice-president (the Rev. A. G. G. Thurlow), and with them were the honorary secretary and assistant honorary secretary (Mr. E. A. Barnett) and the librarian (Mr. F. E. Perrens).

The Lord Mayor of Stoke, in his welcome to the Central Council, said he was sure they would find the people of Stoke-on-Trent very friendly. They were a great industrial centre, being the centre of the pottery industry for the world.

'Everyone,' said the Lord Mayor, 'likes to listen to church bells. They have been from time immemorial the Christian way of welcoming Christian people to their churches. Bells were part of their English way of life, and it was a great disappointment when they ceased to ring during the war.'

Thanking the Lord Mayor, the President said: 'We can only say "Thank you" for your sincere welcome and the delightful arrangements that have been made for our pleasure, ringing and entertainment.'

The Lord Bishop of Lichfield, on behalf of the Diocese, gave a welcome to the Council. 'As I go round the diocese,' said Dr. Reeve, 'I often hear the bells of the Church not only ringing but being rung well, and it is very heartening to see the way a number of our younger people are coming forward and showing keenness to learn the art.'

The Bishop said he felt the art of change-ringing was something particularly associated with the Church of England. He was told that there were a few towers in the country belonging to other Christian communions, but it was mainly in the Church of England that the art of change-ringing was practised. The ringing of bells gave witness to the presence of God and summoned men and women to worship Him and give their lives to His service.

'That you are ready to give time and effort to do that we thank God, and I am very glad to think that the number of ringers throughout the country is steadily growing, and in this diocese we feel very heartened about the progress being made.'

Concluding, the Bishop said he was very glad to come and celebrate Holy Communion at the Parish Church that morning and to join their members at breakfast. 'I felt that service was a great gathering of true fellowship of people devoted to the work of the Church and wanting to help it forward.'

The welcome on behalf of the North Staffordshire Association was extended by the President, the Archdeacon of Stoke (Ven. G. Youll), who mentioned that the Association got on extremely well with their Roman Catholic brethren from Cheadle.

REPRESENTATION OF SOCIETIES

The Hon. Secretary reported that 58 Associations were affiliated to the Council with 158 members. The rules provided for 24 honorary and seven life members, making a total of 184. All subscriptions had been paid, with one exception—the National Police Guild.

A NEW AFFILIATION

The Rev. John Scott, on behalf of the Guild of Devonshire Ringers, proposed that the Council accept the application of the Devon Association to affiliate to the Council. It was a great pleasure to them in Devonshire, he said, to think that the call-change side of the Exercise, with which they had been closely related, was to be affiliated to the Council.

Miss B. M. Boyle seconded and the resolution was carried.

CENTRAL COUNCIL—Cont.**NEW LIFE MEMBERS**

On behalf of the Standing Committee, it was proposed that Mr. J. T. Dyke and Mr. A. Walker be elected life members.

Proposing the resolution, Mr. J. Frank Smallwood said the Council had very few honours to bestow on its servants, and he thought life membership was the most appropriate way of recognising the excellent work of these two stalwarts.

Mr. A. A. Hughes seconded and the resolution was carried unanimously.

Mr. A. Walker: I can only tell you how very grateful I am that you have made me a life member. I have been an honorary member for 29 years; I have met many old friends and enjoyed every minute of it.

NEW HONORARY MEMBERS

The Hon. Secretary said that Mrs. Steeples had intimated that she did not wish to be re-elected to the Standing Committee. The Standing Committee recommended that Mrs. R. F. B. Speed be elected an honorary member in recognition of the work she was doing in helping Mr. Speed in the sale of publications, and that the remaining vacancies be left unfilled.

The election of Mrs. Speed was carried on the proposition of Mr. W. F. Moreton, seconded by Mr. F. W. Perrens.

Mr. George Pipe, from Australia, attended the meeting, and on the proposal of Mr. F. E. Dukes, seconded by Mr. A. D. Barker, he was also elected an honorary member.

The President paid tribute to the work of Mrs. Steeples in connection with the library and her assistance to him in connection with the clerical work associated with his office as President.

LOSSES BY DEATH

The members stood as the following list of past and present members who had died since the last meeting were remembered: Messrs. Edward W. Biffen (Devon Guild), Fredk. M. Mitchell (Kent County Association), Albert E. Lock (Oxford Diocesan Guild), Frank Skidmore (Gloucester and Bristol Diocesan Association), Chas. H. Woodberry (Worcestershire & Dist. Association), George Gilbert (Society of Royal Cumberland Youths), Chas. H. Hawkins (St. David's Diocesan Guild), John L. S. Glanville (Devon Guild), James Parker (Sussex County Association and Society of Royal Cumberland Youths), John R. Sharmar (Middlesex Association), John A. Freeman (Lincoln Diocesan Guild), W. E. Yates (Oxford Diocesan Guild), Adolphus Roberts (Warwickshire Guild), F. Colclough (Dudley and District Guild) and Fredk. Smale.

Since the last meeting the dates of death of the following past members had become known to the Council: Dr. Lewis Mackenzie (Devon Guild, died October 30th, 1942), Rev. Thomas S. Curteis (Kent County Association, March 19th, 1913), Rev. Augustus C. Lee (Hereford Diocesan Guild, January 14th, 1934), Ernest F. Poppy (Suffolk Guild, October 24th, 1939), Tom Redman (Lancashire Association, March 29th, 1942).

TRIBUTES

The Rev. John Scott paid tribute to three Devonshire ringers—Ted W. Biffen, John Glanville and Fredk. Smale. All three, he said, were fine ringers, tremendous teachers of learners and wonderful churchmen. Mr. J. Bray, in a tribute to Mr. John A. Freeman, Master of the Lincoln Diocesan Guild, said he was a very sincere churchman, a kindly friend and a man of great wisdom. They were missing him very much.

Mr. A. D. Barker referred to Mr. Albert Lock, a very faithful servant of the Oxford Guild, serving for many years as a Branch secretary. Of Mr. George Gilbert he said he did a lot of good work wherever he went.

Mr. W. B. Kynaston, in a tribute to Mr. Frank Skidmore, said when he took over the secretaryship of the Gloucester and Bristol Association it was not in a very good position, and it was almost entirely due to him that they were in a much stronger position today.

Mr. I. H. Oram referred to the long services to the Kent County Association of Mr. F. M. Mitchell as secretary from 1929 to 1946, and he was also treasurer of that period and continued so until 1956.

Mr. C. K. Lewis spoke of the reputation of Mr. James Parker, the father of one who was a most efficient secretary of the Council.

Mr. A. A. Hughes mentioned the passing of Mr. Alfred B. Peck recently, whom he had known for 55 years.

Mr. W. J. Clarke called attention to the passing of Mr. Langford, who had been the mainstay of the Crewe Branch for a very long time.

Mr. A. V. Davis, in a reference to Mr. Martin Stewart, said although he was principally associated with the Salisbury Diocesan Guild, the Winchester and Portsmouth Diocesan Guild were very grateful for his help.

ONE QUESTION FROM THE MINUTES

After the minutes of the Folkestone Council meeting had been adopted, on the proposition of the Hon. Secretary, seconded by Mr. Leslie Morris, Mr. Denis Beresford rose to say that the minutes were not correct inasmuch as the peal of Minimus referred to in the Peals Analysis Committee's report was not accepted. The report was proposed by the convener as published, and this report did not make any mention of the peal of Minimus. The Standing Committee proposed the adoption of the report, with the exclusion of the peal of Minor and the inclusion of the Minimus peal. The peal of Minor was voted on and the Minimus was not.

The President: You are, in fact, asking us to say that the minutes are not correct?

Mr. Walter Ayre: It is quite correct what Mr. Beresford says. That is why, when you come to the Peal Analysis Committee's report, Minimus is referred to as a performance and not counted in the peal total.

Mr. Beresford: We tried to raise it at the end of the last meeting as there was a lot of confusion on the floor.

Mr. R. S. Anderson moved and the Rev. John Scott seconded, that the committee pass on to the next business and this was agreed to.

REPORT OF THE HON. SECRETARY

Mr. E. A. Barnett reported: The past year was relatively uneventful as far as special activities were concerned, although the usual crop of enquiries from the public was received. These included one from a Swedish gentleman, who will be paying a visit to this country in July, sponsored by the British Council. I am grateful to Mr. Ernest Morris for dealing with another query from the British Information Service in Berlin.

The reissue of the gramophone record of 5 Spliced Surprise Major on handbells, made at Bushey before the war, proved extremely successful, and at the time of writing only a handful remain of the 200 which were purchased.

Correspondence was exchanged with the Archbishop of Canterbury and others during the progress through Parliament of the Noise Abatement Bill.

Mr. W. N. Park, who kindly prepared the accounts of 'The Ringing World' during the past three years, has unfortunately been unable to continue doing so and I should like to record my thanks to him for his assistance. It has now been agreed that this major task should be undertaken professionally.

Some difficulty has been occasioned because certain Association secretaries fail to notify changes in their representation. Would all

concerned please note Rule 5 (iv) (as re-numbered in 1960) requires the names and addresses of new representatives to be forwarded to the secretary of the Council forthwith.

Lastly, my thanks are yet again due to Mr. W. G. Wilson and Miss C. L. Groves for typing and duplicating these papers.

This was adopted.

REPORT OF THE HON. LIBRARIAN

Mr. F. W. Perrens reported: As was to be expected, the sale of publications this year has not reached last year's outstanding record, but nevertheless it is over two and a half times the average for the eight years previous to 1959. This increase is due largely to the continued demand for the 'Beginners' Handbook,' although the sale of many other publications has shown a marked increase. 'On Conducting' was reprinted during the year, after being revised by Mr. W. G. Wilson, to whom our thanks are due, and copies sold showed an increase of nearly fifty per cent on last year.

It is to be regretted that the hope we built up last year, based on the Methods Committee's report, of having the 'Collection of Minor Methods' on sale during the year has not materialised.

For gifts to the library, we thank most warmly Mr. E. H. Lewis for a copy of 'De Nio Marlarna'—Dorothy Sayers ('The Nine Tailors'), for beautifully bound copies of the 1677, 1702, 1733 and 1766 editions of Campanologia Improved, and for Clavis—Campanologia, 1788, and the Cambridge University Guild for two copies of its history, 1929-1954.

We also tender our thanks to Mr. E. C. Shepherd for a further supply of 'Grandsire Caters,' to Mr. J. Segar for a supply of 'Spliced Triples' and 'Blue Line Proof,' and to Mr. F. E. Dukes for sending us copies of 'The Irish Bell News.'

I conclude, as usual, but none the less sincerely, with a well-earned tribute to Mr. R. F. B. Speed for his work in connection with the sales section of the library. The Exercise is greatly indebted to Mr. and Mrs. Speed for housing a large stock of publications and for the efficient manner in which the work is done.

Sales during the year: Method sheets—Cambridge 23, D.N.C.B. 37, Stedman and Grandsire 45; Preservation of Bells 141, Four Way Minor Table 63, Handbell ringing 131, Major Compositions 57, Collection of Peals, Section III 16, Report of Conference, S.P.A.B. 4, Doubles Methods 157, Model Rules 37, Village Bells 129, Card of Instruction—Care of Bells 227, Plain Major Methods 67, Methods Committee Report 20, On Conducting 170, Handbook 71, Electrical Switchgear Card 2, Grandsire Caters 58, Beginners' Handbook 1,662, Total 3,117.

Mr. F. E. Perrens, moving the adoption, said the Collection of Minor Methods was now in the hands of the printers and they hoped it would be available in the near future.

Mr. E. H. Lewis, in an explanation of his gift, said there was a firm in Stockholm that printed translated books. Miss Sayers took the view that it was quite impossible to translate 'The Nine Tailors.' Finally, a Miss Burgeaud was appointed to undertake the work and he was asked to help. He took Miss Burgeaud to a local practice and also to St. Paul's. The book was published as a paper back and he had it rebound.

As to the other books, Mr. Lewis said he intended that his books should come to the Central Council, but now he had a granddaughter who had started to ring. He suggested that if any books he was presenting were duplicates, the Council should keep the better copies and the others would be available for his granddaughter.

The president thanked Mr. Lewis for his gift, and the report was adopted.

TRUSTEES OF THE CARTER RINGING MACHINE

Messrs. A. Walker and A. A. Hughes report: There were no requests for demonstrations during the year, and no open demonstrations were given. The machine was tested towards the end of the year and a fault found in some of the original electrical insulation, which was replaced. Following this a mechanical fault developed, but this is not of a serious nature and it is anticipated that it will be eradicated before this report is put before the meeting.

Mr. A. Walker proposed and Mr. A. A. Hughes seconded the adoption of the report. Mr. Douglas Hughes informed the Council that the machine was now working properly and the report was adopted.

STANDING COMMITTEE

Presenting the report of the Standing Committee the honorary secretary said that Mr. Harry Miles, the trustee of the roll of honour, had resigned with effect from December 31st. The Standing Committee recommended that Mr. H. N. Pistow be elected a trustee in place of Mr. Miles.

Mr. G. W. Fletcher seconded and this was agreed to.

The president spoke in appreciation of Mr. Miles' work in connection with the roll, which included the compilation. Unfortunately, he had not been well and they would like to send him their best wishes and hopes that his health would soon be normal.

LETTER TO THE ARCHBISHOP

The honorary secretary said the Standing Committee considered the retirement of Dr. Fisher as Archbishop of Canterbury and proposed that a letter should be sent to him from the Council with their best wishes. The proposed letter read:

'At the annual meeting of the Central Council of Church Bell Ringers on Whitsun Tuesday, I was instructed to convey to Your Grace, on behalf of the members and of the ringers generally, our best wishes to Mrs. Fisher and yourself for a long and happy retirement.

'We remember, with gratitude, Your Grace's keen interest in our art, to which you have frequently given expression by your presence in the bellries of the churches up and down the land.'

Mr. R. G. Blackman seconded and the letter was approved for submission to His Grace.

RINGING ON ENTHRONEMENT DAY

The honorary secretary said a suggestion had been made by Mr. Birmingham, not a member of the Council, that a manifesto should be issued by the Council for ringing on the occasion of the enthronement of Dr. Ramsey as Archbishop of Canterbury. The Standing Committee recommended that the enthronement of Dr. Ramsey as Archbishop of Canterbury on Tuesday, June 27th, was an occasion which all ringers should observe and on which they should ring the bells. The proposal was that the president should insert the following letter in 'The Ringing World': 'The enthronement of Dr. Ramsey as Archbishop of Canterbury on Tuesday, June 27th, is an occasion which, I feel confident, all ringers will regard as their duty to recognise. May I express the hope that, so far as possible, the bells of every church will be rung at some time during the day and that many peals and quarter peals will be attempted either on the day or as soon afterwards as practicable.

'I would urge ringers to see that all possible publicity is given locally, preferably beforehand, to the ringing, thus bringing to the notice of the general public our part in this important event in the life of the Church.'

Mr. E. C. Shepherd moved and Mr. A. D. Barker seconded, that the letter be published and this was agreed to.

PERSONALITIES OF THE EXERCISE - 22

MRS. JACQUELINE S. KING,
Llandaff and Monmouth Diocesan Association.

A lady who has helped very considerably to further the interests of ringing in the Llandaff and Monmouth Association is Mrs. Jacqueline S. King (née Evans), of Chepstow, Monmouthshire. Her enthusiasm, coupled with that of her husband, David J. King, whom she married on June 8th, 1957, has inspired others. Indeed, they spent their honeymoon attending the Central Council meeting at Chelmsford, and have never lived such madness down with their many friends! Their romance was a 'first and last.' They started school together at 5, went to Chepstow Grammar School, rang their first peal together, and have since jointly rung over 100 peals.

Jacqueline was born in Chepstow on January 6th, 1930. Her first lessons in the bellry were given her by Mr. John Sims in 1948, but she soon entered St. Mary's College, Cheltenham, for training as a school teacher. At this centre of ringing, she was able to learn change ringing, and will always be very grateful to the local ringers for their unfail-

ing patience and encouragement. She remembers, especially, Mr. Thomas Boreham and Mr. Leslie Barry, of Gloucester, who called her first peal at Hardwick, near Gloucester—Grandsire Doubles, on April 15th, 1950—for their invaluable help and interest in her progress. In fact, she feels she owes most of her early progress to Leslie Barry, an untiring 'spade-worker,' who was never too busy to arrange peals in the humbler methods, and who must have called as many 'first peals' of Grandsire Doubles and Plain Bob Minor as any ringer in the Exercise.

After leaving Cheltenham, she taught for a while at Bishop's Cleeve, and later took an appointment at Sudbrook School, near Chepstow, where she has taught for 11 years. Her present total of peals is 130, rung in many methods, from Doubles to Cinques, and for a good number of Associations. She has the distinction of being the first lady to ring 100 peals for the Llandaff and Monmouth Association, and was also their first lady Master. One peal in which she is very proud to have taken part was Grandsire Cinques at St. Woolos, Newport, on March 8th, 1952, conducted by Jack Worrall. This is the only 12-bell peal rung, so far, by twelve resident members of her Association. Two small boys of 13 took part—Bryn Parry and James Fitzgerald—unfortunately long since departed from the Exercise. She has been secretary of the Monmouth Branch of the Association since this Branch was formed in 1953, and has been a Central Council representative since 1954. For the Ladies' Guild she started the South Wales District in 1953, and has been its secretary ever since.

Jacqueline, who is a very 'stylish' bell-handler, is happiest when teaching learners, and for the last 10 years has been training boys and girls at Chepstow. Like most instructors, she admits to having more failures than successes, but 'hope springs eternal,' and at the moment she has a band of a dozen children, who, with some older stalwarts, keep the fine new ring of 10 bells going Sunday by Sunday.

Her husband, David, is employed as an electro-medical engineer by Messrs. J. Olley-Rhodes, of Newport, and his work takes him away from home quite a lot. He is a good ringer and conductor, and so far has scored 122 peals, of which he has conducted 38. Like his wife, he is a great asset to his Association, and the Exercise at large will watch with interest the future impact which this happy couple will make on the activities of their Association. Good luck to them!

APACE.

FORTY YEARS IN HIGHCLERE TOWER

Highclere, Hants. band are proud of their vice-captain, Mr. 'Bill' Kewell, who has given the tower 40 years of loyal service. The anniversary was not allowed to pass. At the practice meeting on May 3rd, the Rector and his wife entered the tower and in the presence of 12 of his fellow ringers Bill was presented with an eight day clock.

A further surprise for him occurred on the following Saturday, when he was the guest of honour of a complete Highclere band's outing. Ringing took place at Stanford, Dingley, Lower Basildon, Sreatley, Aldworth, Hamstead Norris and Compton.

By the kind co-operation of Winchester Cathedral ringers, a visit to the Cathedral had also been arranged. This provided Bill and seven others of the Highclere band with their first ring on 12 bells. May he carry on for another 40 years!

NORWICH DIOCESAN ASSOCIATION

After a lapse of 10 years the Eastern Branch met at Ranworth, known to many thousands of visitors as the 'Cathedral of the Broads,' on April 22nd. In his address at the service, the Vicar (the Rev. E. Everard) gave a brief history of the church and its treasures.

At the business meeting, Mr. E. R. Goate, Branch chairman, warmly welcomed to the meeting Mr. H. W. Lidbetter, after the latter's illness, and visitors from Suffolk and Hertfordshire. The chairman also gave the Branch's congratulations to Bevan Willgress and Freda Greaves on their recent engagement. Thomas J. Brock and John W. Sampson, of Kessingland, were elected ringing members. Ringing was under the direction of Miss D. Lidbetter, Branch Ringing Master. Next meeting, Pakefield, July 15th.

THE YORKSHIRE ASSOCIATION

The annual meeting of the Yorkshire Association was held in the historic city of York on May 13th, and attracted a large gathering, representing each of the four Districts. Ringing at the Minster took place at intervals, and good use was also made of the rings of six at Acomb and York Institute of Architectural Study. Many members attended the family Diocesan service in the Minster, at which the address was given by the Archbishop.

Following an excellent tea at the Railway Institute, the business meeting was held, at which the chair was taken by the president, Archdeacon C. O. Ellison, supported by the general secretary (Mr. L. W. G. Morris), the honorary treasurer (Mr. G. Benfield) and the honorary peal secretary (Mr. W. E. Critchley).

Apologies for absence were received from Messrs. J. H. Lenton, W. Barton, P. Scholfield, B. Sutton, H. Chant, H. Lawn, A. E. Marsh, J. Rhodes, Mrs. C. C. Marshall and Mrs. J. Dawson.

A vote of thanks to the Dean of York and Minster authorities, the Vicar of Acomb, and the authorities of the York Institute of Architectural Study for the use of the bells was ably moved by Mr. I. Slack, seconded by Mr. N. Chaddock, and carried with acclamation, and a similar vote of thanks to the York Minster Society and others concerned with the excellent arrangements for this meeting was carried on the motion of Mr. L. M. Woodhead, seconded by Mr. W. F. Moreton. Mr. H. Walker replied.

HIGHER COSTS

In presenting the committee's report, the president drew attention to the increasing cost of producing the report, which was causing some anxiety. Consultation with the printers had resulted in a reduction of the number of pages, and the committee hoped that such alterations that had been made in its format would be accepted by the members in the interests of economy. Membership showed a net increase of 18, and while the financial loss on the year's working was in the region of some £27, this was in no way due to a falling-off in income, but to an unavoidable increase in expenditure accounted for by the printing of the reports, the renewal of receipt books and Association badges of new design, the bulk of which remains in stock.

Among those who had passed away during the year were the Rev. A. L. Minns, a founder member of the Halifax Archdeaconry Society, Mr. A. B. Cook, of Hull, former secretary of the Eastern District, Mr. George Horner, of York, who joined the Minster Society in 1898 and played a leading part in organising the pre-war Snowdon dinners, when held in York, Mr. J. A. Freeman, Master of the Lincoln Diocesan Guild.

The annual Snowdon dinner took place at Rotherham and proved highly successful, being attended by some 151 ringers and friends. It was a most enjoyable occasion, and reflected very great credit on the responsible organisers. The 1961 dinner would be held at Bradford, on October 14th, when it is hoped to include in the arrangements a visit to Ilkley, home of the late Jasper W. Snowdon, founder and first president of the Association, for a ring on the bells, and to see his grave and memorial window.

PEAL STANDARD HIGHER

The peal secretary's report showed that 147 peals had been rung during the year, 132 being on tower bells at 77 churches, and 15 on handbells. Thirty-four members had rung their first peal, two their first handbell peal and eight had conducted a peal for the first time. The standard of performance was in the ascendancy, being particularly reflected in the fields of Minor and Spliced Surprise Major ringing. Peals of Spliced Minor had been rung in 74 and 98 methods respectively, the latter being the greatest number of methods rung in a tower bell peal by the Association. Worthy of note was the progress made by the Sunday service bands at All Souls' Church, Halifax, and Bradford Cathedral; Spliced Surprise Major now being regularly rung at each tower for Sunday services as well as Surprise Royal at Bradford. During the year a peal of Spliced Surprise

Major in eight methods, with all the work of each method for every bell, was successfully accomplished by the Halifax band, being the 'first ever' in eight methods on this plan to be recorded by a local band; and, with one exception, a similar performance in five methods was rung by the Bradford Cathedral band, which included three juniors.

The report concludes by thanking the officers, who contribute so much time, energy and skill to the affairs of the Association, and sums up by saying that the year under review has been one of solid achievement, and given the continued loyal support of the membership, the future can be anticipated with every confidence. The report was unanimously adopted on the motion of Mr. W. F. Moreton, seconded by Mr. F. A. Munday.

MR. V. BOTTOMLEY NEW TREASURER

With sincere regret and a very great sense of loss the meeting accepted the resignation of Mr. Gordon Benfield, the honorary treasurer for the past nine years. Mr. Benfield said he very much regretted he was unable to stand for re-election due to considerable additional studies he had undertaken. He had thoroughly enjoyed the work, which had been mitigated by the loyal co-operation of his fellow officers and members, but he did not feel justified in continuing to hold office in the knowledge that he could no longer conscientiously devote the time to follow it. He would be glad, however, to give what help and advice he could to his successor. A vote of thanks to Mr. Benfield for his loyal and devoted services to the Association was unanimously accorded on the motion of the president, seconded by Mr. I. Slack.

On the motion of Mr. N. Chaddock, seconded by Mr. S. H. Steel, Mr. Vernon Bottomley was unanimously elected to succeed Mr. Benfield. In acknowledgement, Mr. Bottomley thanked the members for their confidence, adding that he would do his best to maintain the high standards set by his predecessor, Mr. W. E. Critchley was unanimously re-elected honorary peal secretary on the motion of Mr. J. Seager, seconded by Mr. P. Whitaker.

It was decided to accept an invitation to hold the next meeting at Goole on September 24th.

The following new members were elected: Messrs. D. Cowman, J. Barrow and D. Mayhew, of Idle, R. Farnworth, of Dore, P. Hart, D. Barker, J. Fishwick, of St. Giles', Pontefract, D. Williams, of Rotherham, E. Ivan Parkin, of All Souls', Halifax, and as out-county members C. Longden, of Chesterfield, F. Miller, of Ashover, and F. Ellis, Herts.

This concluded the business, and further ringing was enjoyed on the Minster and other available bells.

BATH AND WELLS DIOCESAN Cary Branch

The spring quarterly meeting of the Cary Branch was held at North Cadbury, on April 29th. The service at the Parish Church was conducted by the Rector, Rev. S. M. Collier, assisted by the Branch chairman, Rev. G. S. Robinson.

Tea was served in the Village Hall, during which the members were entertained to a tape recording of the bells of many towers, compiled by the late Preb. Martin Willson and Mr. H. J. Sanger.

At the business meeting four new members from North Cadbury and two from Pitcombe were elected. Votes of thanks were extended to the Rector, the organist and choir, the ladies who had served tea and to Mr. W. A. Osborn, the local captain. Full use of the bells was made until 9 p.m.

SHEFFIELD AND DISTRICT

About 40 members, including visitors from Calverley, Scunthorpe and Derby, attended the Sheffield and District Society meeting at Dronfield on May 6th. Methods rung ranged from Plain Bob to Cambridge, Yorkshire and London Surprise Major.

The cup contest will be held at Wentworth on June 3rd.

COUNTING PLACES

Dear Sir.—Mr. Aitch submits a very good question, when he asks how does one count the place of one's bell. It was a question which puzzled me in my early days as a ringer and, like him, I was never given a straight answer. Text books on ringing are singularly lacking in imparting information on this vital point; you can read page after page on how to handle a bell and then be suddenly flung neck and crop into the technicalities of Plain Bob.

I tried the system of counting all the bells and putting emphasis on the place I occupied. I tried it on and off for eight years and got nowhere—the system is worse than useless. Eventually, I took the lazy way out and just counted the position I was in and ignored the other bells, i.e., I counted 3-4-5-6-6-5-6, and so on, for Bob Minor on the third.

For the learner, especially if he has not yet learned to detect the note of his own bell, let alone those of the others, this is the only way to learn change ringing (in less than eight years).

Of course, as the learner progresses he must try to listen not only to his own bell but to the others as well, in order to make sure his striking is accurate, but I maintain even then he need not consciously count more than the place of his own bell.—Yours, etc.,

Derby.

G. A. HALLS.

GOOD ROUNDS BEFORE CHANGE RINGING

Dear Sir.—In certain parts of the country, especially in the towers with eight or more bells, the learners are not properly taught. A bell rope is pushed into their hands, and when they can manage to catch the sally they are regarded as being proficient enough to go on to rounds. At this stage they develop bad habits in the handling of a bell, which are often completely ignored by the instructor, in the hope that they will 'grow out' of them.

Now, before good or even reasonably well-struck rounds has been rung by the learner, he is further pushed ahead of his true capabilities as a ringer, and rings the treble to Bob Minor, Major and then 'inside.' Within a few weeks he is 'ringing' Cambridge 'inside,' at the same standard of striking as he achieved ringing rounds!

As a result, he becomes, for the better part of his ringing life, a thoroughly bad striker: he is shunned at meetings, and finally gives up ringing. And why? Because he was taught by a selfish instructor, who had wanted his pupil to attain a high standard of ringing within a few months of first learning. I may be old-fashioned, but I believe that every little rung in the ringing ladder, starting from the very bottom, must be successfully climbed before reaching the top. Then, and only then, will we make the necessary progress in our ringing.

Finally, may I say that, in my opinion, the above is uncommon in the five and six bell towers, and it is this fact which merited my argument in a previous letter. So may I make a plea to all instructors, please let us have good rounds before change ringing, and the perfection of Plain Bob before Stedman and Cambridge.—Yours sincerely,

JOHN PLADDYS.

West Hartlepool.

'RINGING FOR SERVICE'

Dear Sir.—The above Central Council publication is a guide to the efficient organisation of the Sunday service band and we are anxious that it shall find its way into towers where there are bells, but few or no ringers. Since it is less likely to come to the notice of those responsible for such towers than those in flourishing towers, we appeal to association secretaries to try and see that copies do get into towers which are out of touch with the ringing fraternity. This can be done by obtaining copies from the librarian and disposing of them where thought appropriate in the Association area. We think that tower leaders will find this booklet very useful in encouraging their bands along the right lines.—Yours, etc.,

N. CHADDOCK,
Convener, Sunday Service
Ringing Committee.

NOTTINGHAM UNIVERSITY SOCIETY

The Society has had an ambitious, enthusiastic and extremely successful year, stated Mr. Bruce Grainger, chairman and Master of the Nottingham University Society, in opening the Society's annual general meeting on May 9th.

Looking back over the year, he said that by far the greatest advance came when, late in November, the bells at the Church of All Saints, which serves the largest parish in the city of Nottingham, were heard again after lying silent for some 45 years. Members had spent much time preparing the eight for inspection by Mr. P. L. Taylor, president of the Society, in the hope that they would be safe to ring again.

The amount of money spent on restoring the bells amounted merely to a few shillings, and when it was found that no harm would come, either to members or to the tower, the Society was delighted to accept an invitation from the Vicar to take responsibility for all ringing in the future. Regular ringing began at the beginning of the spring term—touches of Surprise Major being quite common on Sunday evenings. At the same time a number of friends from the parish started to learn and we look forward to them ringing on their own in the near future.

Membership this year had been greater than ever before, due chiefly to the arrival in October of a number of ready-made and extremely able ringers coming up to the University for the first time. There had been two outings: the one when some good ringing was enjoyed on an afternoon's tour of five towers, the other a visit to Loughborough and the bell foundry, when a splendid lunch (which was generously given by Mr. Taylor) was enjoyed. In February the Society's first annual dinner was attended by 60 friends and guests, who, in the afternoon, had the opportunity of visiting no less than eight towers in and around the city. Three peals had been rung to date—not a large number perhaps, but for at least one person in each of these a worthwhile aim had been achieved.

Following the reports, the chairman introduced an amendment to the constitution by which graduates (and others) leaving the University may become life members. In a few years he hoped the Society would be eligible for representation on the Central Council, but first the amendment would have to be approved by the Students' Union.

Looking forward to October and the beginning of a new session, the election of new officers was: Chairman and Master, David W. Friend, whose home is at Gnosall, Staffs; secretary, Miss Barbara Marsh (London); treasurer, David Orledge (Wincanton, Somerset); and committee members, Miss Deborah Hopkins (Bedford) and Kenneth W. Price (Bristol).

UNIVERSITY OF LONDON SOCIETY

The annual meeting of the University of London Society was held on May 6th, with over 40 members attending.

Ringling commenced, after a short battle with a local pigeon, at St. James', Clerkenwell, where the magnificent tone of the bells was much appreciated by those who had made the effort to leave their beds before noon.

After refuelling at various hostleries throughout London, the Society rang at St. Mary's, Rotherhithe, by now well known to resident members. It was here that a recently married member of the Society exhibited her strength whilst ringing the second-bell—but we understand the bells are now ringable once more.

The bells of St. George's, Borough, were then rung at all conceivable speeds before the Society met for the service at St. Olave's, Hart Street, which was conducted by the Rector.

After an enjoyable tea, the business meeting proceeded with customary smoothness. The following officers were elected: Master, Douglas May; honorary secretary, Gay Williams, College Hall, Malet Street, London, W.C.1; honorary treasurer, Paul Cattermole.

ALL SAINTS', NOTTINGHAM.

OUTINGS

BIGGLESWADE DISTRICT

On May 13th the ringers of the Biggleswade District had a very enjoyable day's outing in the Tamworth area.

On this glorious spring day the countryside looked very beautiful indeed, and before we had finished admiring it we arrived at Coleshill, where we were met by Mr. W. C. Rhodes who announced that the bells were 'up.' The church was full of interest for ringers and non-ringers alike, and so, indeed, was St. Editha's, Tamworth, whose majestic tower can be seen for many miles, in almost any direction. Here we were met by Mr. G. H. Peers, who is justly proud of the excellent 'go' and pleasant tone of the bells.

After lunch, a short run brought us to Polesworth, where we were welcomed by Mr. Harper, who showed us the treasures of this ancient and lovely church. Next came the pleasant and easy going eight at Nuneaton, where Mr. W. R. Beebe 'did the honours,' and where a most enjoyable hour's ringing was followed by the ever-welcome cup of tea!

Bedworth's handy eight followed, and then our last tower, Bulkington, where Mr. Hindle welcomed us, and where we were delighted to find the order of the day maintained—the bells were 'up' and ready!

A very pleasant outing and some very fair ringing, ranging from rounds for the learners to London for those who are still learning! The thanks of all are tendered to those who made us so welcome, to Messrs. C. M. Smith and Michael Callow, who helped with the arrangements, and finally, and most heartily, to our organiser, Mr. L. H. Bywaters.

A. E. R.

PORTBURY, SOMERSET

On May 6th, the Portbury ringers, reinforced by friends from Backwell and Bristol, enjoyed a half day outing in North-East Somerset. The sixes at Publow and Compton Dando were rung, prior to tea at Farmborough, and afterwards Farmborough (6), High Littleton (6) and Hinton Blewett bells were put to good use.

STOP PRESS FLASH.—Baldock ringers coach caught fire during outing to Berks/Oxon border May 27th.

BROMHAM, BEDS

April 22nd saw the start of 'the season' for Bedfordshire ringing outings, with the Bromham ringers venturing into Wiltshire. First came Wootton Bassett, followed by the fine church and bells at Calne.

Lunch was according to individual arrangements, but practically all the party converged on the same restaurant at Devizes and an excellent lunch they served. Afterwards came the beautiful bells of St. John's Church and later the bells of Amesbury (and also tea). On the homeward journey there were stops for ringing at two Berkshire towers, Hungerford and Wantage, the latter being probably the most enjoyable ringing of the day.

Thanks are expressed to the organiser and the towers concerned for a happy time.

WIMBLEDON

April 29th saw the start of another Wimbledon outing—when local ringers and friends visited towers in Kent. Ringing commenced at Chislehurst (Annunciation)—an excellent ring. Apart from stops for coffee, lunch, tea and fish and chips, other towers visited included Rochester (10), Sittingbourne, Throwley, New Romney, Kilndown and Tunbridge Wells. Although the ringing, which ranged from rounds to Cambridge Major, was rather like the 'curate's egg,' a good time was had by all, with excellent company and food. The day culminated with the announcement of secretary's engagement!

Our sincere thanks to all who made the day possible.

SS. PETER AND PAUL, EDENBRIDGE

A very enjoyable outing into Buckinghamshire was had by ringers and friends from Edenbridge, on April 29th.

There was pre-coffee ringing on the very nice eight at Beaconsfield (21 cwt.). At the delightful village of Amersham the mellow, rich tone of the six bells of St. Mary's seemed to fill every corner of the belfry.

Continuing our journey through a picturesque countryside we came to Monks Risborough, where the six bells of St. Dunstan's (13 cwt.), did not go as easily as was expected. The famous landmark of St. Lawrence's, West Wycombe, proved a great attraction, as was the top of the tower with its remarkable view.

After a light six (6 cwt.) at Holy Trinity, Lane End, we rang at Marlow, and also sat down to a most welcome tea. Our last tower was All Saints', Marlow, where the churchyard stretches to the very banks of Ol' Father Thames. The grandeur of the deeply wooded hills in the country around makes this a truly beautiful setting for a church. Here the bells (8, 15 cwt.) proved to be the finest ring of the day.

On behalf of the 37 ringers and friends, Mr. Beck, choirmaster at Edenbridge, proposed a hearty vote of thanks to Mr. Brian Jeffrey for arranging this successful outing.

OBITUARY

VERY REV. E. H. LEWIS-CROSBY, B.D., Dean of Christ Church, Dublin.

The death occurred on May 18th, of the Very Rev. E. H. Lewis-Crosby, B.D., Dean of Christ Church, Dublin. He was the oldest active clergyman of the Church of Ireland, and was in his 97th year.

The Dean was appointed to Christ Church Cathedral in 1938 and had taken a personal interest in every part of the Cathedral. He loved the bells, which form a prominent part of the life of the city of Dublin. His ready assent to any request from visitors to ring the bells is well known, and, in fact, out of his own pocket he has on many occasions provided refreshment, either by the friendly cup of tea or the box of sweets, for those taking part in the ringing.

In 1942-1943 he was president of the Irish Association of Change Ringers, and attended many of its meetings, displaying that peculiar interest that can only be shown by men of stature and which called for respect by his hearers.

Bell ringers, in general, will miss the beloved Dean, and the Cathedral ringers, in particular, have lost a true friend. Our sympathy is extended to his widow, sons and daughters in the loss which they have sustained.

The funeral took place after service in Christ Church Cathedral on May 20th, at Stillorgan. Prior to the service the bells were rung half-muffled.

In the afternoon, at Christ Church, Bray, a memorial peal of Plain Bob Triples was rung to the memory of both the late Dean and the late Rector of Bray, Canon E. H. F. Campbell, who was president of the Irish Association in the year previous to the Dean.

30 Years Ago

'R.W.' May 29th, 1931.—

Thirty years ago today the first and only peal ever rung on the sea was accomplished by a band crossing from Dublin to Holyhead. The same day the first Surprise peal in Wales was rung.

On June 1st, 1912, 14,031 Stedman Caters was rung on handbells at Guildford.

50 Years Ago

'R.W.' June 2nd, 1911.—

YORKSHIRE ASSOCIATION AT SHIPLEY

At the general meeting, following the tea, the resignation of Mr. Snowdon, who has so worthily filled the office of president for 25 years, was announced, and expressions of the greatest regret were universal on receipt of the news. The preliminary announcement was made on the circulars sent out beforehand, and we cannot do better than quote the paragraph, which is as follows: 'The committee have to announce with the greatest regret that our esteemed president, Mr. Wm. Snowdon, has resigned the office. Mr. Snowdon states that he feels it his duty to the memory of his brother, Jasper, our first president, to complete some of his unfinished writings, for the benefit, he hopes, of the whole Exercise, and that he finds it impossible to do so and also retain office. Mr. Snowdon has been strongly urged to reconsider his resignation, but for the above reason, coupled with other pressing duties, regrets that he cannot do so, nor can he accept a seat on the committee. At a special committee meeting held on March 25th, the Rev. C. C. Marshall, Vicar of St. Chad's, Far Headingley, was unanimously elected president.'

THE RINGING WORLD
OFFICIAL JOURNAL OF THE CENTRAL COUNCIL OF CHURCH BELL RINGERS

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

No. 2616 Vol. LVII

FRIDAY, JUNE 9, 1961

Registered at the G.P.O. for transmission as a newspaper. 8d.

MORE CENTRAL COUNCIL REFLECTIONS

NOT all 'The Ringing World' Committee came to Stoke for the presentation of their report to the Central Council on Whit Tuesday, but those who came unfortunately could not agree on its contents. Ever searching after full facts, Mr. J. T. Dunwoody asked for the minority report. Alas, there was not one; the dissentient merely expressed himself dissatisfied. Now there was nothing to hide, no scandal, no particularly outrageous misdeeds by the Editor, but merely that the emphasis on the year's activities was misplaced.

This was the first year of the new price of 'The Ringing World'—an increase from 6d. to 8d. That increase should result in two obvious things: a reasonable margin of profit and a reduction in sales. The need for an increase in price was mainly brought about by three things—the increase in printers' wages, an overdue adjustment of editorial and other salaries (honorariums would really be the correct word to apply) and a margin to enable more blocks and larger issues to be produced. At the time the decision for a 8d. paper was taken there were members of the Standing Committee who would have preferred 9d.; and some even 7d. A middle course was adopted.

A warning was given to the Standing Committee at the time that with the increase in price a drop in circulation was inevitable. The Editor placed the loss at 500 copies. Fortunately, through two methods—the offer to postal subscribers of favourable renewal terms if paid before January 1st, and the spade work of stalwarts—this did not take place. The maximum drop was 231, and this has been reduced considerably until now we are above the corresponding week in 1960. What the minority felt was that the report presented too dismal a picture—and really, when compared with the financial gain, what had been sacrificed was indeed very small.

There is much loose thinking on this question of circulation. Because there are between 40,000 and 50,000 ringers in this country it is thought that the circulation of 'The Ringing World' should be approaching that figure. However enthusiastic Guild secretaries might be, the fact remains that with the great majority of the 40,000 their ringing is confined to their own tower—Sundays and possibly a practice evening. What happens at Central Council meetings is no concern of theirs. The Editor quoted to the Council a parallel example. He belongs to a chess club of about 30 members, but only three of those members buy a magazine devoted to the advancement of the game, and one of those copies is for the general benefit of members. Comparing the two, 'The Ringing World' is quite favourably placed. This does not mean that we do not want new subscribers. There is always the normal wastage by death and marriage, apart from those whose interest in our art wanes or who are dissatisfied with the

journal. This enrolment must be continuous, but our maximum field is not more than 6,000. Even if sales increased by another 500 the net extra revenue available would not be more than £8 a week, and there would not be any corresponding increase in general advertising.

How is the safety margin, in view of rising expenditure, to be maintained? It means exploring ways and means of giving extra service to readers. In the first place, our column of births, engagements, marriages and deaths is not utilised as it should be. An examination of footnotes of peals and quarter peals indicates that in a great many cases instead of the charge of 4s. for an advertisement a quarter peal is rung by the tower in the true ringers' style of recording these domestic occasions. Sometimes this is accompanied by a donation—or charity money, as some like to regard it. Not a bit of it. A donation of 2s. 6d. replaces the 4s. that should be paid for the notice. The journal provides an extra service. Do not assume that something new is being introduced. It is as old as the hills in newspaper work. Weekly papers give lists of wreaths and wedding presents on payment; some get revenue from publishing photographs of blushing brides, and even great and important journals from the lists of guests at dinners and receptions. There are, of course, the reader advertisements. The Editor, in an impromptu speech to the Council, gave an indication of how this search for revenue could be usefully employed.

Probably no committee of the Council has a greater responsibility than the Editorial Committee. They and the Librarian and his helpers are the only people vested with trading responsibilities. The fact that another £1,200 from 'Ringing World' surplus had been invested in Defence Bonds did not escape notice. 'R.W.' investments now total £4,600, a nice nest-egg against the rainy day. We should like to see a greater margin of profit come from the hard work of Mr. and Mrs. R. F. B. Speed in looking after the sale of Central Council publications. It was an exceptionally good year but the profit was only £33 9s. There is a tendency to pander to young ringers by almost uneconomic sales. A balance of £33 9s. is not sufficient to develop what should be an expanding service. Compared with other organisations the Council receives an inadequate revenue in its General Fund to carry out its work. Affiliation fees from Societies and Associations are absurdly low for the character of the work undertaken of staging an annual meeting, financing committees and providing the necessary literature and reports. Even giving full weight to the vast amount of honorary work undertaken by the Secretary downwards, the whole set-up has an atmosphere of excessive cheese-paring. Compared with other organisations our out-of-pocket expenses to officers are absurd—a pre-war income is expected to meet the soaring expenses of today.

PERSONALITIES OF THE EXERCISE - 23

MR. G. STEDMAN MORRIS,
Salisbury Diocesan Guild.

It would have been impossible for Mr. George Stedman Morris, of Lyme Regis, Dorset, to be anything else than a very good ringer. Christened with a name like Stedman, he just couldn't be otherwise! More important still, both he and his elder brother, Ernest, are sons of the late Josiah Morris, vergar and tower keeper of St. Margaret's, Leicester, for many years. Josiah was blessed with an innate sense of rhythm, so essential for good ringing, and he insisted that his sons should remember that good striking is the only thing that matters. George himself has always tried to prove this by his own teaching and example. At Lyme Regis, where he moved from Leicester in 1946, he is particularly proud of the reputation of his local band for method ringing and quality striking, especially for service ringing. The several broadcasts have been models of what broadcast ringing should be like, and they have received congratulations from all parts of the country. The fact that Lyme Regis has the most advanced local band in the West of England is mainly due to his efforts, coupled with those of the Rev. Canon Carew Cox, who was Vicar there for 26 years up to 1953 and who laid the foundations.

George was born at Leicester on December 20th, 1907, educated at St. Margaret's School and taught to ring by his father, aided and abetted by brother Ernest. During this time the old ten at St. Margaret's became unsafe and were awaiting recasting into a ring of 12, so he learnt to ring handbells before tower bells. His first peal was Grandsire Doubles on handbells on his 12th birthday, December 20th, 1919, in which his father and brother Ernest (conductor) took part. At the time he was the youngest Leicester ringer to score a peal. His first tower bell peal was unusual. It was Grandsire Triples at Thurecaston in 1922, again conducted by Ernest, in which four pairs of brothers took part, the others being Messrs. Ballard, Cattell and Whitehead. George's present total of peals is around 450, of which he has conducted about 150, in a great variety of methods and on all numbers from Doubles to Maximus. His handbell peals number about 100, ranging from Grandsire Doubles to Bob Maximus, and he has rung every pair of bells many times to Stedman Caters and Cinques. One handbell peal of unusual interest was rung in 1924. It was Stedman Caters, conducted by Walter P. Whitehead, and was the first peal rung on ancient 'cup' handbells, taken from a set of 21 presented to the Leicester scholars in 1777. They had boxwood clappers, and the band stuffed their ears with cottonwool!

While still in his teens George took part in a number of interesting performances. In 1924, aged 16, he rang 9.120 Spliced Treble Bob at the Loughborough Bell Foundry, the first peal of Leicester Surprise Royal, rung on the old ten at St. Martin's Cathedral (then a parish church), conducted by the late Harold Poole, and the first peal of Bristol in Derby at St. Alkmund's. In 1923 he composed and conducted his 50th peal, Bob Major, and in 1925, aged 17, he was at that time the youngest ever to reach a century.

It must be remembered that in those days young ringers only 'got on' by proving their ability, and to be asked to stand in a peal of some importance by a prominent ringer was an honour of which to be proud. For this reason George is naturally proud of being the youngest, at the time, to ring a peal of Cambridge Maximus. This was in 1925 at St. Margaret's, Leicester, and was conducted by the great William Pye. Obviously he had impressed William Pye because he was invited to stand in, for the same method, at St. Mary-le-Bow in 1926, when still only aged 18. Again, in 1925, he was one of the company which rang two peals of Surprise Royal in a day, the first time this was accomplished. He was also in the first peal of Yorkshire Maximus for the old M.C.A. in 1926. When the Leicester Diocesan Guild was formed in 1946, out of the old M.C.A., he rang in many of their early peals, and he has rung peals on all the 13 bells in St. Margaret's, Leicester, as well as 'circling' the Bell Foundry, which he did with brother Ernest in the same peal in 1925. In 1949 he took part in a memorable tour of Southern Ireland, led by the late Harold Poole, during which they rang the first peal of Yorkshire Maximus at St. Patrick's Cathedral, Dublin, and peals at Arklow, Kilkenny, Limerick and Waterford.

In later 1946 he moved to Lyme Regis, with his wife and small daughter, Barbara, to partner the well-known Dorset ringer Cuthbert Powell in the printing and stationery business. It is now a limited company—Messrs. Powell and Morris Ltd.—and they have been entrusted with various ringing Guilds' annual reports and other work. Their neat layout is a tribute to their interest and workmanship. The local band have scored peals of Kent, Double Norwich, Stedman, New Cambridge, Yorkshire, Superlative, Rutland and London, and George is particularly proud of the first peal ever of Lyme Surprise, conducted by Canon Carew Cox and rung by the Sunday service band. He is captain of this band and Ringing Master of the West Dorset Branch of the Salisbury Diocesan Guild, and also one of their Central Council members. He has helped a good number of West Country ringers to score their 'firsts' in many methods, from Bob Minor to London Major.

DEDICATION
BODIAM, SUSSEX

On Sunday, April 30th, the little Church of St. Giles, Bodiam, Sussex, was filled to capacity for a service of thanksgiving and the dedication of the six bells by the Bishop of Chichester, the Rt. Rev. R. P. Wilson.

Originally there were five bells in this tower, cast at the Whitechapel Foundry in 1761 by Lester and Pack. In 1854 the third was recast by Charles and George Mears, and in 1924 the ring was rehung with new fittings.

The five bells were recast on February 15th, 1961, by the Whitechapel Foundry, and a new treble to complete a ring of six was presented by Messrs. Guinness Hop Farms. The names and weights of the bells are:—

Treble.—The Guinness Bell, 3 cwt. 1 qr. 22 lb.

Second.—Unnamed, 3-3-9.

Third.—The Cottam Bell, 4-1-26.

Fourth.—The St. Giles Bell, 4-2-24.

Fifth.—The All Souls' College, Oxford, Bell, 5-3-14.

Tenor.—H.M. Haile Selassie I, Emperor of Ethiopia, Bell, 7-1-5.

The service was conducted by the Rector, Major-General the Rev. A. E. Cottam, assisted by the Rural Dean, the Rev. A. N. H. Roscamp. In his address the Bishop referred to the ruins of Bodiam Castle, while the church, built about the same time, remained in first-class order, to serve and bear witness for many years to come.

Before and immediately after the service call-changes were rung by the local band, who then handed the bells over to the visitors. Two 120's of Grandsire Doubles were rung and the bells lowered in peal. The ringers were L. Giles (Ringing Master, Eastern Division, Sussex County Association), W. Hughes and H. Parkes, representing the bellfounders, C. J. Burgess (local captain) and Mr. and Mrs. Bassett, of Wadhurst.

CENTRAL COUNCIL AT LEICESTER

In the absence of Mr. J. Parker (Royal Cumberland Youths), Mr. Trollope moved, and Mr. Dawe seconded: 'That the Central Council give to "The Ringing World" recognition equal to that accorded to "The Bell News" for the publication of official reports and communications, and that any peals published exclusively in "The Ringing World" shall be counted in the Central Council's analysis.'

After a lengthy discussion, in the course of which opposition was actively led by the president, the 'previous question' was carried by about 12 votes to six, in the meeting of 60 representatives, and the matter was therefore shelved.

His daughter, Barbara, rang at Lyme Regis until leaving school to take up nursing. Now married and living at Tisbury, near Salisbury, she has a 12-month-old son, making him a proud grandfather!

He has added several notable peals to his collection since living in the West: Cambridge Twelve and two peals of Stedman Cinques at Exeter, Cambridge Maximus and Stedman Cinques at Buckfast Abbey, the latter rung for the A.S.C.Y., for whom he also called two peals of Stedman Caters at Yeovil. He has also rung Cambridge and London at Sherborne.

He and his wife greatly enjoy entertaining visiting ringing friends and families in the summer, and their small cottage is often filled to capacity, to enable them to sample the delights of Lyme Regis, with a little ringing on the side!

George is a man of rare quality. He is a really first-class ringer on all numbers of bells in any method, and at either end of the circle (or in the middle!), who has taken his place with the best. In addition, he helps to maintain a good Sunday service band who can hold its own with any, and he is always willing to help beginners along in the simpler methods. In an area where advanced ringing is difficult to maintain, he can well be proud of his efforts to this worthy cause.

CHESTER GUILD ANNUAL AT MACCLESFIELD

THE annual meeting of the Chester Guild was held at Macclesfield on May 13th, and preceded by a fortnight the celebrations which the town has arranged for the 700th anniversary of the granting of the charter to Macclesfield.

The customary service was held in the Parish Church and was conducted by the Vicar, the Ven. T. Clarke, Archdeacon of Macclesfield, who also gave a very interesting address. He referred to the local celebrations and the long connection of the town with the Parish Church. He said that a church had existed since 1278, and part of the old building was contained in the Savage Chapel, which was built by a former vicar who later became Archbishop of York. The first Bishop of Liverpool, Bishop Ryle, was also a Macclesfield man.

MACCLESFIELD PARISH CHURCH.

He posed the question 'Why do we belong to the Church of England?'. We all should be able to give some answer. It is the ancient Church of the nation and contributed to making England one nation. The same Church had continued throughout the centuries. It is a scriptural Church in which it is ordered that the Bible must be read to the people. It is catholic and protestant both at the same time. The Reformation swept away many abuses and restored orderly worship which is intelligible.

He then referred to the part that ringers play in the ministry of the Church in letting those who are unable to attend, e.g., because of sickness, know that a service is in progress and that they can feel one with the worshipping company by taking part in their own homes with the prayer book. He also spoke of the part the laity had to play in the work of the Church.

After the service tea was served in the Stanley Hall. The Archdeacon then had to leave, but before he did so he was heartily thanked by the Master, Mr. J. W. Clarke, for his assistance.

The business meeting followed, at which the officers were all re-elected and thanked for their services. Because of alterations necessitated by the increased cost of printing, the annual report was not available, and a précis had to be given by the report secretary, Mr. C. K. Lewis. This disclosed that the Guild was in a healthy state both as regards membership and finance. Reference was made to the continued value of social activities in furthering the interests of the Guild.

After hearing the report of a committee set up to advise on the possibility of changing the nature of the annual dinner, it was decided that it be continued this year in the usual form but with more opportunity for fraternisation after-

wards, and that it be held on October 14th. The annual festival for 1962 will be held in the Grappenhall Branch on May 12th.

The meeting concluded with a very warm vote of thanks to the Archdeacon, the churchwardens, the organist and the local Branch for all they had done individually and collectively for the welfare of the Guild on this occasion.

Ringings was enjoyed during the afternoon and evening at St. Michael's, Christ Church, St. Peter's and Sutton. C. K. L.

HIS 1,000th TOWER

On May 21st a small party of ringers from Somerset drove up into Cotswold country to celebrate the 1,000th tower for Mr. M. J. Horseman, of Portbury.

Both the weath and the countryside were at their best, and shortly after 3 p.m. the party arrived at their goal, the church of Coln St. Aldwyn, Glos. where the milestone was celebrated with a quarter peal of Plain Bob Triples. By coincidence, three other members of the band were able to achieve moderate records, as shown: G. Skelly (first on eight) 1, Monica Horseman 2, Mary Powell (350th tower) 3, Audrey M. Short 4, J. Brain (500th tower) 5, R. D. Short 6, M. J. Horseman (cond.) 7, B. Goodliffe (first on eight, 50th tower) 8.

The bells are seldom rung, as soon became apparent from the 'go' and the tenor man's movements were severely hampered by the clock case, which encloses all but a foot of rope above the sally.

The quarter was followed by a very welcome tea at Bibury. Much refreshed, the party were welcomed by the Rector and members of the local band at Leachlade (a very fine six, 17 cwt.). Some good ringing took place, including a course of London, and this met with the approval of all except the youngest member, Mark Horseman (3 months).

We left regretfully for the famous wool church of Fairford, with its priceless stained glass. Ringing takes place in the crossing, in full view of the congregation, and younger members of the party gained valuable experience in handling ropes of long draught. The day ended at Meyseyhampton, on an old Gillett six.

Our thanks to Michael for a grand afternoon's ringing, and to all tower captains and incumbents for making us so welcome to Cotswold country. J. B.

RAVING RINGERS' WEDDING

THERE are not many brides who manage to ring at their own weddings. Miss Christine Pullin, of St. Peter's Church, St. Albans, did, however, by taking part in a course of Minor during the reception following her marriage to Mr. Dennis Bowen, of Edmonton, on Whit Saturday.

Christine and Dennis are both members of the Society of Raving Ringers, and many ringers, both from St. Peter's Society and the Ravers, gathered to ring the bells of St. Peter's to welcome the bride. The bells again pealed out as the newly-weds left the church for the hotel where the reception was held. To the delight of the guests, ringers and non-ringers alike, Christine took part in a short course of Minor on handbells.

Christine and Dennis first met on the Ravers' tour of South Wales in 1959, and became engaged before Easter this year. They are now living in Palmers Green. Christine, who is on the staff of a London hotel, has been ringing for many years at St. Peter's and is known with affection in local ringing circles. Dennis, who was also a native of Hertfordshire at one time, is now working at Edmonton Hospital.

As the couple left for their honeymoon in Paris the Ravers 'rang them out' with rice-filled handbells. Earlier in the day a peal of 7-Spliced Minor was rung at Redbourne to honour the occasion.

OXFORD DIOCESAN GUILD**Sonning Deanery Branch**

The second annual striking competition of the Sonning Deanery Branch was held at All Saints', Binfield, on May 27th. The bells, a melodious and easy-going ring of six (tenor 10 cwt.), are rung from the ground floor, and were admirably suited for the event. Seven teams had originally entered, but as time drew near three — Arborfield, Binfield and Sandhurst — found that they were not able to raise a team, which left Easthampstead, Hurst, Sonning and Twyford to compete.

The judges were the same as last year—Mr. E. J. Bragg, of Aldershot, and Mr. C. W. Denyer, of Farnham. All the teams rang Grandsire Doubles, the test ringing having to last not less than ten minutes. The Branch Ringing Master, Mr. H. Smith, was in charge.

The ringing over, all adjourned to the nearby school for tea, arranged by Mrs. Tomlinson and the local ringers, who were suitably thanked by the Ringing Master.

In his report Mr. Denyer stated that there had been a great improvement on last year's ringing and that all teams rang exceedingly well, making it much more difficult to assess the faults. In order of ringing, the results were Sonning 25 faults, Easthampstead 40, Twyford 35 and Hurst 19. Hurst were therefore the winning team for 1961, and with last year's winners, Sonning, will receive a certificate at the Branch annual meeting.

Mr. E. J. Bragg in his remarks said that if the Sunday service ringing at the competitors' towers was as good as what he had just heard they certainly had reason to be satisfied with their efforts.

The usual monthly combined practice followed, when methods up to Cambridge Minor were rung.

COACH ABLAZE

Baldock ringers' annual outing ended with sufficient excitement to satisfy the young members of the party. The day had been a typical ringers' outing on the Oxfordshire-Berkshire border. There had been before lunch ringing at Wallington and St. Mary-le-More. Later came East Hagbourne and Harwell, with tea and a ring at Wallingford.

Now let us hear the story in our correspondent's own words. 'We turned for home, and after the usual stop were running into Hitchin in good time, just before 11.30 p.m. At the Tilehouse Street Methodist Church the coach stopped suddenly. We looked out as the driver leapt out and hastened round the side.

'It seemed hazy—someone been having a green bonfire? As the driver got back there was smoke inside the coach, from somewhere in front and not through the open door.

'It turned black and thickened. "All out!" came the imperative call. We roused ourselves, gathered our belongings and prepared to get out without much enthusiasm.

'Again came another order: "Use the emergency door." We did and all were out in safety.

'One occupant had the presence of mind to rescue the driver's maps from the dashboard; another a camera.

'What was that glimmer behind the radiator grille? It flickered and flared—FIRE! Burning fragments fell on to the road. Extinguishers were brought into use but we were glad to see the A.F.S. and Hitchin Fire Brigades, and in a couple of minutes the Letchworth Brigade.

'The fire went out quickly, and the general opinion was that the coach would need some drastic attention before being fit for use again. We stood and shivered—it was a clear, frosty night.

'The "R.W." representative was thrilled, and almost reluctant to get in the other coach in case anything else happened. The last words, however, were those of Mr. J. S. Dear: it was "The biggest fire-up of 'em all!"

LEEDS & DISTRICT SOCIETY

Upwards of 60 members attended the annual meeting of the Leeds and District Society held at Drighlington on April 29th, when a variety of methods were rung, ranging from Plain Bob to Surprise Major.

After tea the business meeting was held, the president (Mr. Tom Strangeway) being in the chair. Arising from the minutes, Mr. L. Drake asked why the tradition had been broken by not holding the A.G.M. at Leeds Parish Church. The secretary (Mr. D. Thorp) replied by saying that the tower captain at Leeds Parish Church (Mr. R. Dove) had complained that toffee papers, etc., had been left in the belfry after last year's meeting and that he could not advocate the clergy granting permission again this year.

Two new members were elected, these being Mr. John Couperthwaite and Mr. Russell Reed, of Leeds University.

The secretary then presented his report and statement of accounts, which showed that attendances over the year had not been too good. The statement of accounts showed that subscriptions were not fully paid up to date. However, the Society was still in a very healthy position.

All the officials who were nominated at the March meeting were automatically elected. These were: President, Mr. Tom Strangeway; vice-presidents, Messrs. A. Smith, L. Drake and J. Gibson; secretary, Mr. D. Thorp; Ringing Master, Mr. I. Slack; auditors, Messrs. R. Lumley and I. North.

Mr. Irvin Slack announced that owing to domestic reasons he was compelled to resign from the position of Ringing Master. Mr. Leonard Drake was asked to undertake the position of 'caretaker' Ringing Master until the next nomination meeting in 1962. Mr. Drake agreed to act in this office.

Mr. Strangeway thanked Mr. Slack for his past services. Mr. D. Thorp seconded the motion.

The reconsecration of Yarmouth Parish Church on May 8th, an historic event that was most memorable and impressive, has been worthily celebrated by a creditable peal of Plain Bob Major on the back eight of this already famous new twelve. This, the first peal, was unique, in that the band included not only the Ringing Master of the Branch and the Master and the secretary of the Parish Church ringers but also the Vicar (vice-president of the Central Council) and one of his assistant clergy. And for Billy Bird it was a perfect way of celebrating not only his birthday but the birth of a grandson.

From Hastings we hear that the note of the tenor at All Saints' Church is in F and not F sharp.

Mr. V. Shepherd, of Cape Town, S.A., writes to tell us that he is off on safari to South West Africa, Angola and Basutoland. 'Once on the trek,' he writes, 'it will be lion, elephant, hippo, crocodile, giraffe and savages, all guaranteed truly wild.' He might even meet Dragon Major!

A lucky posting in the Royal Navy has Douglas Limington on H.M.S. 'Seahawk,' Culdrose, Helston. He has been welcomed as a regular ringer at Helston Parish Church, where his father is a member of the band.

The composition used in the peal of 5,280 Spliced Surprise Major in five methods, rung strictly silent and non-conducted by members of the Central Council at Silverdale on Whit Monday, was by Mr. Albert J. Pitman.

Mr. and Mrs. G. E. Lowman, parents of two members of the Lincoln Cathedral band, celebrated their diamond wedding recently. The peal of Londinium Surprise Maximus on May 18th was rung to mark this happy occasion.

The peal at Midsomer Norton, Somerset, was rung on the occasion of the coming of age of Mr. David J. Purnell. The band, with other ringers and friends, were hospitably entertained by David's father, Mr. John Purnell, at a nearby hotel, where a very pleasant evening went all too quickly.

BELFRY GOSSIP

By ringing the tenor at Broughton, Staffs, to a peal of Double Norwich Mr. A. Patrick Cannon, of Dorking, has now 'turned in' 500 different tenors to peals; 62 of these have weighed between 26 and 46 cwt. He would like to thank all those many ringers who have helped him to achieve this. By a happy coincidence, Mr. Cecil W. Pipe rang the 7th. Pat has known him longer than any ringer, as they met first in July, 1928, at St. Lawrence's, Ramsgate, Kent, where Pat was learning to handle a bell.

Congratulations were extended at the Central Council meeting to Mr. E. H. Lewis on his approaching 80th birthday. The actual date is June 13th and ringers the world over will join in singing 'Happy birthday to you.'

Our Capetown correspondent informs us that at the Rector's request there will be no ringing on June 1st to mark the severance of the Crown and Commonwealth, in case it is misinterpreted.

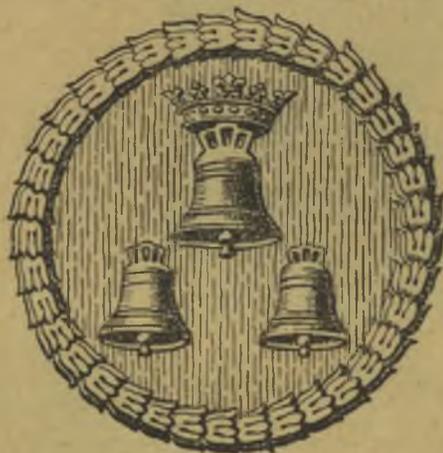

We have received a copy of 'The Art of Handbell Ringing' by Nancy Poore Tufts (price 3 dollars, Abingdon Press, Nashville 2, Tennessee, U.S.A.). We hope to publish a review at an early date.

In the peal of Cambridge Surprise Major rung at Darley Dale on April 13th, the ringer of the second bell was Peter D. Taylor, and the composition was Middleton's 5,056, not 5,040 as reported. Apologies from sender to Mr. P. Taylor and Mr. M. Paulson, whose names were confused in the report.

Prior to the annual school service of the Folkstone Grammar School for Girls, held at the Church of SS. Mary and Eanswythe, Folkestone, on May 24th, the bells were rung by eight pupils of the school. The young ladies who showed their skill as ringers were Jane Black (Sellindge), Eleanor and Jane Hough (Folkestone), Patricia Mills (Cheriton), Pamela Morris (Lympne), Barbara Nicholls, Caroline Selley and Penelope Thomas (Lympne). All the bells were rung steadily and the striking was good. Tenor 25½ cwt. We congratulate the girls on their success.

CENTRAL COUNCIL—Continued from Page 367

DISSENTIENTS TO 'RINGING WORLD' REPORT

'RINGING WORLD' COMMITTEE

The report for 1960, signed by Mr. J. F. Smallwood, stated: Owing to the inevitable accounting delays the report of your committee must, of necessity, be in two parts if it is to be in the hands of members for the annual meeting of the Council and when commencing this report the final figures are not available.

Nevertheless, an equally important matter again to be brought to the attention of the Council is that of circulation. Copies sold in the issue of December 30th, 1960, were 5,488, but the comparative figure for 1959 was 5,719. The last analysis available at the time of preparing this report was for April 7th, 1961, giving a number of 5,503 against 5,605 for the same week in 1960. Your committee does not make any apologies for again urging all members of the Council the importance of postal subscription and the additional net revenue from this source as compared with the amount received from sales through newsagents. Despite all the efforts of your committee over many years it is not encouraging to note that the percentage of direct copies is practically static.

For the issue of December 30th, 1960, postal copies represented 42.34 per cent, and on April 7th, 1961, the figure was 42.96 per cent. Comparative figures for copies through newsagents were 57.32 per cent and 56.69 per cent, giving a turnover to postal copies of .62 per cent. Although the ultimate aim of your committee remains the same—all copies by post—the response of the Exercise generally is, to say the least, apathetic.

We do most earnestly appeal to all Associations to make 'The Ringing World' more widely known among members and especially young members. Dare we offer a suggestion to all towers to commence a custom of presenting to some of their members a year's subscription to 'The Ringing World' for regular attendance and/or progress during the year?

'The Ringing World' is the only paper published for the Exercise and we have all read of conditions fifty years ago when the paper was born. How could the Exercise survive, let alone progress, without means of intercommunication?

THE ANSWER

The answer to a successful and progressive paper is in your hands. You are the owners of the paper. We have no paid reporters and depend on every ringer, young or old, expert or learner, to send us copy. Your committee will be pleased to increase the size of the paper if the Exercise will give its support by raising the circulation. If, as in times past, 6,000 copies a week could be sold, the present circulation reflects little interest in the Exercise generally by the great majority of ringers. Surely even the most parochial of ringers must find something to his taste in the paper's pages, and its present price is only the equivalent of three cigarettes a week.

The Exercise itself is hamstringing the efforts and aspirations of the committee and must realise that only by an increased circulation can the paper be enlarged. Give us the tools and we will do the job, but who can make bricks without straw?

The annual accounts of 'The Ringing World' have been circulated and members are urged not to read the profit for the year of 1973 without further examination of the figures and reference to the committee's report for 1959. The amount of 1973 is firstly not the working profit. Donations, for which this committee on behalf of the Council give their warmest thanks, amounted to £426, reducing the profit to £547. Also the interest on investments of £182 must be taken into consideration, bringing the balance down to £365 and this is the true working surplus for the year.

WAGE INCREASES

The comparative figure for 1959 was £73, but as pointed out in the 1959 report a further wages increase in the printing trade was inevitable and negotiations on this are now proceeding. Forecasts in the trade are that the in-

crease will be 7½ per cent, and whilst in 1962 the full benefit of higher postal subscriptions will be felt: the Council must realise that the margin is very narrow and leaves little for expansion and development.

This report is of necessity lengthy, but cannot be closed without your committee once again expressing their thanks and appreciation to all who so wholeheartedly give their practical support to your paper. The editor and his staff, Mr. Jeater on the accounts, and Mr. H. L. Roper compiling the index, continue their work unstintingly, and to these and the many others too numerous to mention individually, we say most gratefully 'Thank you.'

Finally to this Council in particular and to ringers everywhere, please help us to help you by seeking new subscribers, for only increased circulation can mean a larger and more comprehensive 'Ringing World.'

Moving the adoption Mr. Smallwood said the report emphasised the need for more readers, which they felt was vitally necessary if they were to produce a better paper. The profit made looked spectacular, but if they were to break it down they would see that the actual profit was not large and certainly did not justify launching out in any great scheme. The solution was to try and obtain more readers.

Mr. R. S. Anderson formally seconded the adoption.

Mr. W. F. Oatway: I notice that this report is only signed by the convener. Is it right that other members of the committee have not subscribed to the report?

'A VERY GOOD JOB'

Mr. Smallwood: One of our members is absent and I have not been able to get hold of him. Another member does approve of it. I did not write it and at the time of the preparation of the report I was very busy shifting house. I think he has made a very good job of it.

Mr. Wilfrid G. Wilson said when he received a copy of the report he thought it was sent for observation and he sent it back with his observations. When he received the report back it was too late for it to be circulated with the other committee reports. He had had some correspondence over the report and he felt it was not a report of their activities.

Mr. T. J. Locke said he was under the impression that while it was desirable that some copies be sold to postal subscribers it was also agreed that copies should be sold through the newsagent. The point needed clarifying.

Mr. A. D. Barker: Will the committee give consideration to having life subscribers? They would get a lot of money in that way.

Mr. R. S. Anderson assured Mr. Wilson that his observations regarding the delay in publication of the report were not personal. The accountant must wait for Mr. Jeater before he could start his audit. He would like to draw attention to the profit of 1973 and its breakdown in the third paragraph of the report.

You will see that we are still, and likely to be, dependent on the voluntary contributions, continued Mr. Anderson. 'We are exceedingly grateful to all contributors; we are not refusing them. Our aim is to put "The Ringing World" on a sound basis without donations.'

I would like to tell you what will happen in September, with the new printing wages. The basis for settlement for the 10 printing trade unions was a 5½ per cent increase in 1959 and a reduction in the number of hours worked from 42 to 41 in September, 1961, and from 41 to 40 in 1962. With a little mental arithmetic you will see it is another 10 per cent increase in wages. That is what we are continually up against.

'TOO STEREOTYPED'

Mr. Norman Chaddock complained that 'The Ringing World' was too stereotyped in its news. He noticed in one issue that quarter peals were printed in a larger type and was disappointed when they went back to smaller type.

Mr. H. L. Roper congratulated the committee and Mr. White on producing the Jubilee issue and for their work. The paper was an absolute godsend on Fridays, and he hoped they would not pay too much attention to the jeremiahs.

The Rev. John Scott said in the Jubilee issue the peal reports were put in the back of the issue, with the other advertisements; could that not be permanent and give the news in the front pages?

Mr. C. W. Denyer called attention to 'The Ringing World' Jubilee. They were looking forward to welcoming all ringers to the Guildford area on June 17th, when their celebrations would be held. There would be a pilgrimage to the grave of Mr. Goldsmith at Pyrford, which was near to the gardens of the Royal Horticultural Society. There would be conducted tours of the new Cathedral at Guildford by their own guides and they would take part in Evensong; afterwards a meal would be laid on at a restaurant, next to St. Nicolas' Church. While in the Cathedral, visitors would be able to see the actual bell which was a memorial to A. H. Pulling. It was in the south ambulatory.

The Rev. K. W. H. Felstead said in regard to the Jubilee issue, he thought for one dreadful moment that there were no peals.

The editor addressed the meeting on various matters. When the report was presented there were six dissentients.

Mr. T. Dunwoody remarked that they were still waiting for the minority report.

Mr. Wilson: There is no minority report.

THE ACCOUNTS

'THE RINGING WORLD': BALANCE SHEET

Sundry creditors £636 17s. 6d. (£602 last year); amounts received in advance, postal subscriptions and notices £1,458 2s. 6d. (£2,086); provision for income tax £55 16s. (£45); capital account £5,870 7s. 11d. (£5,097). Total £8,021 3s. 11d. (£7,830).

Debtors £1,034 5s. 5d. (£862); investments £4,800 (£3,600); cash at bankers £2,016 13s. 6d. (£3,112); due from Central Council of Church Bell Ringers £170 5s. (£54). Total £8,021 3s. 11d. (£7,830).

'THE RINGING WORLD': PROFIT AND LOSS ACCOUNT

Expenditure

Woodbridge Press printing £4,543 5s. 6d. (£3,952); blocks £161 9s. (£37).

Editorial office expenses—editor's fees and expenses £508 13s. 9d. (£400); clerical assistance £165 (£158); postage and sundries £23 19s. 11d. (£24).

Postal subscribers—despatch of copies £921 9s. 5d. (£823); addressing and wrapping £283 1s. 6d.

Accounts department—clerical assistance £182 (£156); postage £20 7s. 3d. (£25); stationery and sundries £30 10s. 10d.

Miscellaneous expenses £31 15s. 11d. (£33); audit and accounting fees £36 15s. (£47); income tax £70 18s. 3d. (£63).

Profit for year 1973 7s. 9d. (£575).

Total £7,952 14s. 1d. (£6,568).

Income

Rolls House £2,996 7s. 8d. (£2,251); postal subscribers £3,198 13s. 7d.; donations £426 2s. 1d. (£357); advertisements £522 0s. 9d. (£425); notices and peal reports £588 18s. 11d. (£546); sundry receipts £38 15s. 6d. (£38); interest on investments £181 15s. 7d. (£157). Total £7,952 14s. 1d. (£6,568).

The honorary secretary said the expenditure had risen by £750 and there had been a substantial increase under most headings. There had also been a considerable increase in income, because of the increased price, but the full increase was not reflected because postal subscribers, who paid before the end of the year got their copies at the 6d. rate instead of 8d.

On the revenue side there was a 20 per cent increase in advertisements and donations should a fairly similar increase.

Turning to the balance sheet, Mr. Barnett said they had written off £200 for goodwill and blocks which they would remember was paid by the Council for the purchase of 'The Ringing World.' After 16 or 17 years that had ceased to have much meaning. They were able to invest another £1,200 in Defence Bonds. The finances of the paper were in a fairly healthy state. He did not feel that there was any need for them to feel pessimistic. When they started making a loss that was the time for them to be worried. He moved the adoption of the report.

Mr. R. S. Anderson seconded.

Mr. A. V. Davis said in the Jubilee issue they read of the great struggles in the past to maintain the journal. He thought the committee should get together to back the amount of enthusiastic work done by the editor and back the great efforts being made to perpetuate their 'Ringing World.' They could all help by selling the additional odd copy.

The Rev. John Scott: Can we have peals at the end of the 'R.W.'?

The president: That is a domestic matter for the committee.

The accounts were then adopted.

THE COUNCIL'S ACCOUNTS

THE BALANCE SHEET

As at December 31st, 1960: Library £10; office and library equipment £26 15s. 11d.; stock of publications £419 18s. 4d.; stock of gramophone records £24 5s. 4d.; debtors and payments in advance £1,035 6s. 5d.; investments at cost £5,562 18s. 4d.; cash at bank and in hand £2,440 18s. 6d.; making a total of £9,520 2s. 10d. The Clement Glenn bequest stood at £830 2s. 4d. (interest £23 2s. 2d.).

THE GENERAL FUND

To expenses: Biography Committee £26 15s.; Sunday Service Committee £14 16s. 8d.; honorary secretary £10; stationery and printing £23 19s. 7d.; postage £10 16s. 7d.; telephone £2 2s. 8d.; office and library equipment written off £6; insurances £1 16s.; A. H. Pulling Memorial Fund £5 5s.; typing £2 2s.; cheque book 8s. 4d.; sundry expenses 2s. 6d.; excess of income over expenditure £9 12s. 4d.

By affiliation fees £78 10s.; balance publications account £33 9s.; balance gramophone account £1 3s. 8d.

The accounts were presented by Mr. E. A. Barnett, who moved their adoption. The publication account (profit £33 9s. against £4 in 1959), he said, showed a much larger profit, largely due to the second 5,000 copies of the 'Beginners' Handbook' being a reprint with the type standing, therefore cheaper. All the records had now been sold.

Regarding General Fund income and expenditure account the large expenses of the Biographies Committee were not likely to recur.

Mr. F. E. Dukes seconded and the accounts were adopted after Mr. P. A. Corby had been assured that the item 'squares' in the gramophone account had nothing to do with rock 'n' roll, but related to the squares of cardboard used for packing the records.

PEAL BOARDS COMMITTEE

Mr. J. W. Clarke (Convener) reports: A very considerable number of 19th century peal boards, obtained mainly from copies of 'Church Bells,' has now been collected, but the list is unlikely to be in any way complete. It will help considerably if members of the Exercise will forward details of boards which exist in their own towers as well as those encountered when visiting. The exact layout of the board, together with a note on any decoration, should be given if possible.

The report was proposed by Mr. J. W. Clarke and accepted.

CHRISTMAS BROADCAST MUCH BETTER

BROADCASTING AND TELEVISION COMMITTEE

It is with considerable satisfaction that we can at last report co-operation with the B.B.C. throughout the Regions, particularly in connection with the Christmas broadcast.

The new arrangement of pre-recording the various bells has made it possible to obtain very much better results; in fact, near perfection may well be achieved during the coming years.

There are, of course, several problems still to be rectified, the most important of these being the placing of the microphones when the recordings are made. The broadcast from Sheffield Cathedral was completely spoilt due to the poor position of the microphone, and a recent service broadcast from St. Mary's, Southampton, suffered in the same way. We also feel that a responsible ringer, with good judgment, should vet the recordings from each tower and select the most suitable portion for final broadcasting. If possible, the committee member for each region will endeavour to do this at the coming Christmas. We also feel that whilst we should have ample time to make our selections of towers, the actual recordings should be made as near Christmas as is practicable. It will also be our endeavour in the future to include ringing on all numbers from six to 12, and so satisfy all tastes.

Pre-service ringing has been heard on numerous occasions on B.B.C. programmes and in a few instances on I.T.V. Bells have also featured in other programmes, including the series 'The A.B.C. of the Church,' by John Betjeman, and in 'Town and Around,' when three veterans of the tower took part in the ringing from Hurstpierpoint.

IN IRELAND

During the year the bells of some of the Northern Ireland towers were also broadcast prior to services, and although strong representations have been made to the B.B.C., with consequential promises of improvement, there is still cause for concern that the time given to the bells on the air is so short, sometimes only a few seconds as a background to the announcement. St. Donard's, Belfast, broke new ground in that they were heard on the B.B.C. Television (N.I.) when the service was televised from the church.

In Southern Ireland several bell broadcasts have been heard, particularly on New Year's Eve, and efforts are being made to get the bells on the air prior to broadcast services.

The Christmas Broadcast was generally very well received, and we feel was a considerable improvement on previous years. To a great extent, the fact that the bells were pre-recorded, and our opportunity to select towers where a fair standard could be expected, made this possible. If we are able to cover the points made in our general remarks we feel confident of further improvement.

The sudden death of Preb. Martin Willson was a great loss to us in the West. Mr. Willson had always been extremely helpful to the Committee and had provided a valuable liaison between us and the B.B.C. in general. We are happy to say that our relationship with those responsible for religious broadcasting in the West still continues to be a very happy one, and for this we are most grateful.

This report would not be complete without the inclusion of our sincere thanks to all those who have assisted us during the year, and to

the B.B.C. our appreciation of the opportunities given us to co-operate with them, particularly with regard to the Christmas Broadcast.

Signed by H. J. SANGER (Convener),
A. G. G. THURLOW,
H. N. PITSTOW,
N. CHADDOCK,
G. E. FEARN,
J. T. DUNWOODY.

Mr. H. Sanger, in moving the adoption of the report, said he had additional information of an American broadcast by the Launton Handbell Ringers, when a description was also given of the bells.

Mr. H. N. Pitstow seconded.

The Hon. Secretary: The Standing Committee recommended that Mr. R. S. Wilson, of the Scottish Association, who had rendered a great deal of assistance, should be added to the Committee.

Mr. Sanger said he would be very willing for Mr. Wilson to be co-opted to the Committee.

DESIRE FOR LIVE BROADCASTS

Dr. Layton said he noticed that the Christmas broadcast of bells was a recording. He thought it was deplorable. If they were to broadcast Christmas ringing it should be live ringing.

Mr. A. V. Davis supported this view.

Mr. Edge said 20 minutes past nine was not the general time for ringing and there was a tendency then to go to pieces. He could not help feeling that the ringing would be better in a recording.

Mr. E. K. Lewis commented that the idea of ringing on Christmas morning was an act of worship, and as such one could not do it by a recording. If the ringing was not up to standard because the band had got nervous that could not be helped. He thought they were doing a lot by removing the personal element.

The Rev. A. G. G. Thurlow felt they had to be sympathetic with the B.B.C. with all their technical difficulties. He thought it was best to leave it to the B.B.C.

Replying to the debate, Mr. Harry Sanger said when they had a live broadcast they had a big crop of letters: when they were recording they were using bells which would be used on Christmas Day. Personally, his sympathies were with those who attempted live broadcasts whether they were good or not. At Christmas time, because of the heavy demand, the B.B.C. had difficulty in finding all the necessary equipment. The spirit of Christmas was not entirely absent from the recordings.

The report was then adopted.

REWORDING OF RULES

The honorary secretary said arising from the report of the Peal Analysis Committee last year over the question of a peal of Minor being rung, in which two ringers changed over, Mr. Cartwright was asked to consider rewording the rule. He submitted to the Standing Committee the following:

'Each bell shall be rung throughout by the same person and there shall be no exchange of bells by any of the ringers during the ringing of a peal, provided, however, that this shall not prohibit the ringing of any bell throughout the peal by two persons at the same time, where the weight or go make this essential.'

The honorary secretary said he gave formal notice that this alteration to the rules would be proposed next year.

COMPLAINT TO PRESS COUNCIL CONSIDERED

LITERATURE AND PRESS COMMITTEE FOR 1960

Messrs. Edgar C. Shepherd and F. E. Dukes report: The year has brought forth a more than usually interesting number of full scale articles. Certain trade periodicals are encouraging essays on hobbies and spare-time occupations, and two notable specimens have come our way. In 'Timkin,' Patrick Chapman has given a clear exposition of the broad aspect of change ringing with reference to bell ringing employees of the firm. In 'The Computer's Journal' for April we have 'Computers and Change Ringing' D. G. Papworth. This deals with the proof and composition of Plain Bob by use of a Pegasus.

The magazine of the Crabtree Electrical Company published an article on electrical installations for bells and 'The Belfast Telegraph,' in an article in May, forecast a great growth in electronic devices for producing bell effects. The first of these essays has an advertising rather than altruistic motive, and the latter qualifies its views by quoting the number of young people now being attracted to ringing. 'Wills Magazine' printed an article by Michael Horseman expounding our art and adding the more unusual feature of notes on the organisation of the Exercise.

In the non-technical Press, Loughborough and its bells had two important recognitions—'Making the Mouths of Bawling Brass' by Geoffrey Moorhouse in 'The Guardian' and a scholarly article by C. V. Hancock in 'The Birmingham Post and Gazette.' The latter had a fine photograph of the carillon tower. Two articles that are of outstanding interest for the layman attract notice: 'Ringing the Changes' appeared in 'Home Words' for January. Here Michael Stevenson dealt with bell customs and uses. A photograph of Ernest Morris supplemented the text. On a similar theme 'St. Cuthbert's Church, Darlington,' by Robert Scarr, appeared in 'The Darlington and Stockton Times.' Together with these we find, for the young, the very fascinating 'Ring in the New,' published in 'Eagle' of January 2nd. Here Ernest Morris writes of boy ringers; and his attractive approach, together with the seven illustrations, have the aim of interesting young folk.

An outstanding piece of work is Anthony Upton's 'The Bells of the Borough,' where the five rings of bells in the borough of Solihull are fully dealt with in an essay that succeeds in being factual without falling into the dullness of a catalogue.

FEATURE ARTICLES

Feature articles have, as usual, occupied parts of newspapers during the year, and the following may be mentioned as showing contrast in approach. 'Lancashire Life' (January) reported Victor Zorian visiting Hawkshead to meet the ringers. There is the usual type of reporting, but with it we have some good photographs of bell handling, of young girl ringers, and of single handed handbell practice. 'A piece of Bob Minor,' J. L. Jones, in 'The Farmers' Weekly' takes us to Chewton Mendip. This report is well illustrated and gives a description of a bell being pulled up. An unusual feature is the representation of the five tones of a bell in music notation. A defence of the art of ringing comes from 'The Braintree and Witham Times,' where the gossip writer states that he likes the ringing of bells 'so long as there is some method in it' and 'so long as they do not ring too long.' Verb. sap! A similar eulogy of our art was voiced in the General Notes and News of the 'North London Press' of March 11th, in which the columnist praised ringing as a hobby especially for the young.

Young ringers continue to attract the notice of the Press and this year there have been numerous photographs of juvenile bands.

Among these we have found the young ringers at Westhoughton in 'Tillotson's Newspapers,' the band at Swynerton in 'Stone Guardian,' the very young people at Knowle, Warwickshire, and the boys of Tudor Grange Grammar School, Solihull, ringing for their own school service. This widespread recognition of youthful ringers should help to counteract the erroneous belief in some quarters that ringing is a dying art, a fallacy that still serves to fill up odd spaces in newspapers, and which was once again attacked during the year in Mr. York-Bramble's letter to the B.B.C.

One of the most important notices of the year was undoubtedly the report of the bell ringing festival at Carlisle. The news cutting that reached us has no date or name, but it presents a very full account of the festival and displays it prominently. The Dean of Carlisle, at Evensong in the Cathedral, spoke of the skill and devotion of bell ringers and emphasised the importance of their work in the Church.

UNWELCOME PUBLICITY

Against this welcome and valuable publicity we would draw attention to the distasteful report of a disagreement between incumbent and ringers at Walberton, Sussex, in October. The blatant heading and vulgar writing in connection with this delicate matter bring no credit to the 'Sunday Despatch' and provide us with an example of publicity we can well do without.

References to ringers and ringing affairs of past always attract a good Press and two examples of this may be quoted from the past year. In November 'The Colehill Chronicle' published a photograph of the local ringers of 1903, a band that included the well known Fred Clayton. The journal took great trouble to search for and publish particulars of the men and the photographer. A more notable relic still is the diary (1851-1857) of Alfred Arney, the Bristol ringer. This valuable document was recently rescued and published in the Bristol 'Evening Post' by Mr. F. C. Jones, lecturer in Bristol history for the W.E.A. Mr. Jones has hopes of finding further notices and recordings by Arney.

All ringers will welcome the tribute to the president of the Central Council, appearing in 'The Church Times' during August. The sincerity of the writer of the pen picture is emphasised by this fine reference to Mr. Sharpe and his work: 'To this work Mr. Sharpe brings the balanced judgment of an historian the practical approach of a craftsman and an acute ear for music.' We feel that these measured words, coming from the lay world, are of great value and must not be omitted from this report.

VALUED PROPAGANDA

A further reminder of our work and its links with (and scrutiny by) the ecclesiastical world is shown in the 14th report of the Central Council for the Preservation of Churches, where the importance of ringers is stressed and some severe remarks on 'Gramophone Bells' are undoubtedly timely.

Lastly we have a valuable piece of propaganda in the North Oxfordshire edition of 'The Country Churchman' for November. In his article 'In the Belfry,' Mr. E. A. Barnett discusses recruiting for the belfry and poses pertinent questions on the responsibilities of both ringers and clergy in the securing of competent instruction.

The following publications and periodicals appeared during the year: 'The Irish Bell News,' 'The Ringing Towers,' 'The Ringers' Magazine,' 'The Belfry,' 'The Bellringers' Diary.'

Many ringers will have read, with interest, John Betjeman's 'Summoned by Bells,' which ran for three Sundays in 'The Sunday Times' and appeared in book form. John Betjeman at one time rang at Offington and Farnborough, and his collected poems contain many references to bells.

'The Steeple Bells and Clocks of Shankhill Parish Church,' by John Irwin, gave, in a small booklet, a very comprehensive treatment of its subject, and 'St. Mary's Church, Southampton,' edited by Kenneth Croft, dealt with the destruction and restoration of the bells and included among its charming illustrations a line drawing of the bells in the raised position.

GOOD REPORTING

The impressions we get of the year's work are, first of some good reporting by lay writers and second, some first rate contributions by ringers themselves in the explanation of their art and its place in Church life.

Moving the adoption of the report Mr. E. C. Shepherd said they were impressed by the excellent works written by ringers.

Mr. F. E. Dukes, in seconding, said the unseemly publication of disputes in belfries was no credit to the Exercise. They should do their best to avoid these disputes getting into the public Press.

Mr. R. G. Blackman said he noticed a reference to Walberton. This matter got into the papers before it was known by the ringers. Unfortunately the information was obtained from someone who hardly ever went into the belfry.

Mr. H. L. Roper asked what happened to the valuable collection of cuttings? Were they kept by the committee?

Mr. Shepherd replied that he retained some of them.

Mr. J. R. Mayne asked if the Council proposed to take any action concerning the photographs that appeared in 'The Sunday Pictorial'? They should consider what action should be taken.

The president replied that it would come up automatically in next year's report.

Mr. E. K. Lewis suggested that it should be reported to the Press Council.

NOT BY INVITATION

Mr. G. McKay, of the Cumberland and Westmorland Association, said the incident, unfortunately, took place in a fringe tower. He could assure the Council that the conduct of the ringers in this tower was normally quite in order. There was a rather strange article that appeared in a newspaper, when, after a practice, a resident tried to spear a ringer. The second article was in 'The Sunday Pictorial' and it was not done at the invitation of the local ringers or approved of by the incumbent. The incumbent was under the impression that a very different report would appear. Their own Association president was taking the matter up with the local paper and the local tower.

Mr. Philip Gray called attention to the excellence of the article that appeared in 'The Observer.'

Mrs. P. J. Stanforth said what appeared in 'The Sunday Pictorial' involved the Ladies' Guild. The General Committee of the Ladies' Guild had considered the matter and were of opinion that it should be treated with contempt.

Mr. John R. Mayne commented that it was inconceivable that those in the belfry did not know that the pictures were being taken.

Mr. T. W. White urged that if the Council considered approaching the Press Council it should be done at once. It was no use making a complaint when the report was received in 1962.

The report was then adopted. The question of taking any action and notifying the Press Council was left to the committee.

MINIMUS PERFORMANCES ARE PEALS

PEALS ANALYSIS COMMITTEE

In presenting the report for 1960 the Committee (Mr. W. R. Ayre, Rev. K. W. H. Felstead, Mr. H. Miles and Mr. H. L. Roper) are pleased to report an increase of 427 peals over the 1959 total.

The grand total of peals accepted to date is 2,837, against 2,410 in 1959, with 2,750 on tower bells (2,283) and 87 on handbells (127)—a great gain on tower bells (due mainly, we suggest, to the two royal occasions) but a sad drop on handbells, and we wonder why?

Here is the analysis broken down:—

TOWER BELLS		
	1960	1959
Maximus ..	52	33
Cinques ..	31	26
Royal ..	174	125
Caters ..	83	77
Major ..	1,077	930
Triples ..	197	192
Minor ..	870	717
Doubles ..	266	183
	<hr/>	<hr/>
	2,750	2,283
HANDBELLS		
	1960	1959
Maximus ..	—	2
Cinques ..	1	—
Royal ..	2	14
Caters ..	8	3
Major ..	18	49
Triples ..	3	4
Minor ..	34	38
Doubles ..	21	17
	<hr/>	<hr/>
	87	127

In addition, there were six performances of Minimus—two on tower and four 'in hand.' There was a general rise in the number of peals rung on all numbers, but Royal and Major slumped badly on handbells.

626 FIRST PEALERS

An amazing number of first pealers was shown in 'The Ringing World'—626—a most gratifying sign, with 70 attaining first as conductor.

The Lincoln Guild somewhat closed the gap between it and the Leicester Guild, which still holds the premier position. The Chester Guild has moved up, but the Lancashire Association, while ringing more peals than last year, has dropped down. The first seven places are as follows:—

Leicester D.G. 180, Lincoln D.G. 157, Chester Guild 155, Yorkshire Assn. 146, Kent C. 140, Oxford D. 138, Essex Assn. 123.

What has happened to the Ladies' Guild?—no peals in 1960! Were the Police too busy with other things, as they too are missing? The Scottish Association also failed to score.

A 'peal' of Nightingale Treble Place Major is not included as two types of call were used, as reported by the composer. This was for the Winchester and Portsmouth Guild.

The Committee ask for guidance regarding the 'peal' of 'The Dragon Major,' rung by the Oxford Guild, in which six blows are made in 4th place at a bob.

A peal of Bob Minor for the Bedfordshire Association, rung December 16th, 1959, and published in 'The Ringing World,' page 228 in the issue of April 1st, 1960, has not been included in either 1959 or 1960 records—a pity, as there were three first pealers.

OUTSTANDING PERFORMANCES

22,400 Plain Bob Major by Essex Association, 113 methods of Doubles by Oxford Guild.

Peals in 98, 74 and 47 methods of Minor on tower bells and 87 and 77 methods of Minor on handbells.

Methods of which ten or more peals were rung are as follows:—

Maximus.—Cambridge 23, Yorkshire 16.
Cinques.—Stedman 27.
Royal.—Cambridge 47, London 17, Yorkshire 16, Plain B. 38.
Caters.—Grandsire 46, Stedman 31.
Major.—Spliced S.: 5-12 methods 22, 4 methods 24, 2-3 methods 11, Bristol 47, Cambridge 122, Lincolnshire 41, London 65, Pud-

sey 13, Rutland 23, Superlative 26, Yorkshire 128, Kent T.B. 44, D. Norwich 76, Plain B. 253, Little B. 13.

Triples.—Grandsire 103, Stedman 63, Plain B. 20.

Minor.—21 methods and over 18, 14-20 methods 16, 7-13 methods 238, 6 methods 17, 5 methods 44, 4 methods 80, 3 methods 77, 2 methods 43, 1 method 343.

Doubles.—15 methods and over 13, 7-14 methods 29, 5 methods 25, 4 methods 20, 3 methods 24, 2 methods 40, 1 method 133.

A slightly more varied list than for 1959.

Again we ask peal ringers to ensure that the account sent in to the 'R.W.' is accurate and fully descriptive. Doubles conductors please, please specify the number of methods previous to the enumerated list—or state the number of variations. This will help us a great deal. We note with pleasure that our request for peals to be sent in promptly has received attention. Thank you.

Mr. W. Ayre in moving the report said it was the Convener's report with the full approval of members of the Committee. Everything had been approved by them. They would note that in addition to the peal total there were six performances of Minimus, 'and on my own body I am going to keep it as such.'

AWKWARD POSITION

The Rev. K. H. W. Felstead: I have been put in an awkward position by the Convener. I was prepared to second the report if the suggestion of the Standing Committee was accepted to change performances of Minimus to peals of Minimus.

Mr. H. L. Roper: If the Rev. Felstead has any qualms of conscience, I have not. I don't mind if you call it a peal or a performance. I'll second the report.

The Hon. Secretary: The Standing Committee recommended the adoption of the report with the substitution of the word peal for performance for peals of Minimus. They also recommended that the peal of Nightingale Place Treble Major be not accepted.

Mr. F. T. Blagrove asked the Convener of the Peals Analysis Committee why the peal of Nightingale was excluded as it conformed in every way with the rules. It was not rung as a gag, it was rung to commemorate the opening of the Florence Nightingale Memorial Chapel. It was rung for a thoroughly good reason.

Mr. Walter Ayre: I am no expert. I feel very sorry about excluding it, but previously we have excluded such peals. It was pointed out to him that what he ought to have done was to refer it to the Methods Committee.

Mr. Blagrove: The peals that were excluded were before this thing was added to Decisions (d). The things excluded were before it was added to second (d)—the Liversedge variation of Kent Treble Bob with two types of bobs. Peals of Treble Bob with two types of singles were excluded.

He would go further: Stedman used two types of bob, one at thirds and the other at ninth. He moved that the Council include this peal as it conformed to condition (d).

Mr. W. Ayre: The implication of Mr. Blagrove is that I should know all the compositions. It was only when the composition was put in 'The Ringing World' that I knew it.

Mr. C. K. Lewis said the Committee was expected to compile an analysis, and if necessary it should have expert advice.

Mr. Wilson seconded the amendment.

TO METHODS COMMITTEE

Mr. N. Chaddock said Mr. Lewis had not told them of the recommendation of the Methods Committee.

Mr. Lewis: The Methods Committee had not discussed it. If we did it might lead to a fight. In the past peals had been accepted which did not conform to the decisions of the Council, and I think this is a case where we might accept the amendment.

After further discussion the matter was referred to the Methods Committee.

The Minimus question was then discussed and Mr. D. Beresford suggested that the Council should be consistent with the decisions taken at the last meeting. Words were put

into the mouth of the Convener which he did not use.

Mr. J. Freeman: It seems to me that we have the Council's decision on the compilation of the peals analyses and we have heard a great deal of case law from Mr. Justice Ayre [laughter]. In my opinion these 4-bell peals should be included.

A member, in supporting Mr. Freeman, thought peals of Minimus should only be rung in 4-bell towers.

The Council then agreed that these peals of Minimus count as peals.

DRAGON MAJOR

Dragon Major then came under discussion, and Mr. Lewis said the Committee had recognised in the past peals of Grandsire Royal and Grandsire Major as even-bell methods which had six blows. He moved they accept it.

Mr. F. W. Perrens seconded and the Council agreed to accept it.

Mr. G. Dodds deplored a peal of Grandsire Doubles with only two callings.

Mr. F. W. Perrens: The peal obviously conforms to the rules and we should not waste time debating it.

The report as amended was then accepted.

BIOGRAPHIES COMMITTEE

The report, signed by Mr. A. C. Hazelden, covers a period from June, 1960, to May, 1961.

Of the total of those who, in the seventy years of the Council's existence, have been elected to membership at the time of the preparation of this report, 450 are known, or for good reason are believed to be, deceased. The records of well over 300 of these will be found in our albums. Others' records are in various stages of completion.

It will be noted that some records are without photographs—a fact which we deplore. It is pleasing to report that, as a result of our enquiry for photographs in our 1960 report, good photographs have been obtained of the late F. E. Dawes, Arthur Craven and A. Coppock, the last named by the kind assistance of the Town Clerk of Nottingham. For the completion of their records we need only photographs of the following: C. E. D. Boutflower, John Clark (Ross), A. E. Coles, Henry Dew, Rev. C. W. H. Griffiths (Bath and Wells), R. G. Knowles, G. Londen, W. Walmsley. All these photographs are believed to exist.

A list of deaths since the last meeting and remembered earlier in the proceedings was included in the report.

A rather complicated arrangement, which began at Folkestone and in which Messrs. Ralph Edwards and G. E. Fearn took part, resulted in a good photograph of the late F. E. Dawe, taken from a book, formerly owned by the late J. George. This end of a long quest is eminently satisfactory, because F. E. Dawe was, in 1891, the first secretary of the Central Council. Mr. L. W. G. Morris and Mr. W. Barton co-operated successfully in the completion of our record of the late Arthur Craven, who died five years before our committee was first set up. Mr. B. C. Ashford provided all we needed regarding the late C. H. Woodberry and Mr. G. I. Lewis searched for us through the records of two extinct Welsh Guilds for the peals record of the late C. H. Hawkins.

Mr. W. Viggers, in presenting the report which was adopted, said they had completed 50 new biographies during the year.

MEMENTOS OF VISIT

After the luncheon interval a pleasing ceremony took place. Mr. E. H. Edge, honorary secretary of the North Staffordshire Association, said the director of his company (William Adams and Sons Ltd.) had been very interested in the conference and they had prepared a small memento of the occasion in the form of an ash tray, suitably engraved. The tenor bell was that of Stone, cast by Abraham Rudhall in 1710 and the inscription 'When you mee ring ile sweetly sing' was on the bell. A memento was presented to each member.

The president, in expressing his thanks to Mr. Edge, asked him to convey to the directors of William Adams and Sons Ltd. the Council's thanks for such a delightful gift. They were a firm of distinction and claimed to be the oldest family business by direct descent in the county, dating back to 1480.

New Name For Sunday Service Ringing Committee

THE REPORT

The year 1960 has been a quiet one for this Committee, giving time for the inspiration of previous years to filter through the Exercise generally. One factor contributing to our relative inactivity is that the Convener has been undergoing a one-year full-time course of professional study.

However, we are able to report that the booklet 'Ringing for Service' is now available, and there are already signs that this attractive and useful guide to the efficient organisation of the Sunday Service band will meet a long-felt need.

Guilds and Associations can contribute to the work of the Central Council by ordering a stock of this booklet for resale or issue to any tower in their area in need of guidance. Tower leaders can help by ensuring that a copy is made available to their incumbent. We also recommend that copies be issued to the theological colleges and that it be advertised in the ecclesiastical press.

The process of encouraging the growth of courses in bellringing by evolution has continued during the year, and we have been instrumental in bringing about another successful course at Grantley Hall, Yorkshire, and assisting the Peterborough Diocesan Guild with a course to be held at Knuston Hall, Northamptonshire, in June. Negotiations for other courses are in hand, and we shall be pleased to share the knowledge and experience we have gained with any Association which might seek advice or guidance in organising a course.

EVENING SCHOOL COURSE

In addition to week-end residential courses we have had several enquiries regarding evening school classes and have supplied material for syllabuses. In three cases we have been able to help the establishment of evening school courses by finding suitable tutors. The success of week-end courses run by the Gloucester and Bristol Association and the Oxford Diocesan Guild, and the announcement of further courses in these areas this year, indicates that this development is meeting a real need.

Successful expansion in this field will do much to strengthen the position of the art and science of bellringing amongst other recognised cultural and educational activities.

A noticeable feature of recent courses has been the tremendous interest in various aspects of ringing shown by non-ringing students of all ages attending the colleges on other parallel courses.

It is regretted that this year we are unable to report any progress with regard to theological colleges, but it is hoped that progress in this direction may be made in the future.

One thing we would like to do is to ensure that all theological college libraries contain suitable books on bellringing and church bells. A visit to one college by a member of this Committee revealed that the library did not contain a single book about bells or bellringing.

Perhaps with the help of the Librarian we might be enabled to do something to rectify this position during the coming year.

We shall be pleased to receive from Association officials suggestions as to any other possible lines of action to enhance the value of the work of this Committee, and we record our thanks to those who have assisted us in any way.

The report was signed by

N. CHADDOCK (Convener).
W. J. MORETON,
F. B. LUFKIN,
G. THURLOW,
D. N. LAYTON.

Moving the adoption of the report, Mr. Chaddock suggested that the booklet 'Ringing for Service' should be advertised in the ecclesiastical press. In regard to residential courses, every course should be a success. If any course was a failure it prejudiced other college courses because they passed the information on. He felt that ringing literature should be in theological colleges. A colleague of his had been in one college where there was not a single book on ringing.

Mr. F. B. Lufkin seconded.

The Hon. Secretary: The Standing Committee recommended the adoption of the report and recommended that the title of this Committee be changed to Sunday Service Ringing and Education Committee.

Mr. Edgar C. Shepherd: There is a clumsiness about the title, particularly at the end.

Mr. E. K. Lewis said the point was that this Committee had to contact local authorities and they wanted to create a feeling that they were an education committee.

Mr. N. Chaddock agreed to the change of title and the report was adopted.

METHODS COMMITTEE

The report, signed by the Rev. K. W. H. Felstead, Messrs. F. T. Blagrove, C. K. Lewis and J. R. Mayne stated that during the year the Minor book was, at long last, completed and was sent to the printers in January. Work on the Triples book has proceeded, the chief difficulty being the production of peals for some of the methods. Most of these problems have now been solved.

The Secretary of the Council wrote to the Secretary of the Stafford Archdeaconry Society concerning the peal of Gainsborough Surprise Royal, which was the subject of controversy last year. Although the latter said that the conductor of the peal would write to the Methods Committee about it, no such letter has been received.

The Rev. K. W. H. Felstead, in moving the adoption of the report, said they received about ten days ago the proof of the first half of the Minor book. In regard to Gainsborough Surprise Royal, a letter was received from the conductor of the peal. The Committee had had a few moments to consider that peal and would like to recommend to the Council that

they were in favour of not recognising that peal because it would open the way to very many similar situations and it was not according to the rules.

Finally, he would like to echo what Mr. Lewis had said, that any committee of the Council that had problems or difficulties should come and ask the advice of the Methods Committee. There was a rule of the Council that when the Methods Committee was asked for a decision a unanimous recommendation should be published immediately in 'The Ringing World' and come before the Council for ratification. There were two Committees—the Peals Analysis and the Records—where advantage of this could have been taken.

Mr. C. K. Lewis endorsed the views of the Rev. K. W. H. Felstead, and said he hoped the conductor of Gainsborough Royal would agree to change the name. It was not a correct extension in their point of view.

PEALS COLLECTION COMMITTEE

The Convener (Mr. W. E. Critchley) reported that by the time the Council met the Collection of Stedman Caters and Cinques should be in readiness for the printer.

The chief consumer of time had been the proving of all the peals in the collection, whether or not they had appeared previously in other Stedman books. The Committee wished to place on record their grateful thanks to Mr. W. Barton, who so willingly shared the proving with Mr. Pitman; also to all the contributors, far too numerous to mention individually. Mr. John Freeman seconded.

The Hon. Secretary said the Standing Committee recommended that the report be adopted and the Committee asked to prepare a new collection of well-known Major methods to replace the present collection which would shortly be out of print.

THE RECORDS COMMITTEE

Mrs. E. K. Fletcher, Mrs. L. K. Marshall, Messrs. F. T. Blagrove and J. R. Mayne report the following new methods and progressive length for the year ending December 31st:

PROGRESSIVE LENGTH

Apr. 9, 22.400 Plain Bob Maj., Essex.

Mr. F. T. Blagrove, in moving the adoption of the report, said the committee would like to draw attention to a decision of the Council that Societies should send records of all first performances to the committee. There were several Societies who did not send in these returns and involved the committee in a great deal of time in tracing the compositions.

Mr. John R. Mayne seconded.

Mr. Brian G. Warwick: Do I take it that every time a first performance or record is rung it has to be sent to the committee?

Mr. Blagrove: It is printed that every Society should send it to the committee.

The report was then adopted.

THE RULING ON MINIMUS

The first motion before the Council, which was in the name of Mr. P. A. Corby, seconded by Mr. J. R. Cooper, read:—

'That the conditions required for peals as laid down on page 19 of the Council's handbook be amended by the addition of the following:—

"A peal shall be rung with five or more changing bells".

Mr. Corby said he was moving the motion as a private member and not on behalf of his Association. The purpose of bringing the motion was to give the Council an opportunity of expressing opinion, since most people left the meeting at Folkestone feeling that they had been rather taken by storm, and they had now heard the minutes of that meeting challenged.

The suggestion that the Council should not recognise peals of Minimus was made on two grounds. One was that it was quite unnecessary and he had yet to learn of any 4-bell tower where there had not been plenty of opportunities to go elsewhere. Similarly, if people felt that they must ring peals of Minimus it would be logical to ring Stedman on three bells, quick and slow alternately.

His main objection was that it was an extremely difficult task to guarantee that one had in effect rung the requisite number of extents to a peal. He had the greatest difficulty in counting up to sevenths and back again. To count 210 or something beyond that without aid—such as putting raisins in one pocket and transferring them to another—was extremely difficult.

Mr. J. R. Cooper, seconding, said the main reason of the motion was to clarify the position.

Mr. W. B. Kynaston said he did not think the extents mounted up to 210 in each case. If Mr. Corby rang Kent Treble Bob Minimus the number would be 105.

DESIRE FOR LOCAL EVENTS

Mr. A. E. Rushton pointed out that 4-bell ringers, if they wanted to celebrate a birthday or a local event, would desire to ring in their own tower. He asked Mr. Corby that if he desired to celebrate his birthday he would not go next door. In this country there were some very good rings of four.

Mr. W. E. Critchley: I think peals of Minimus are just rubbish and I also think we can find plenty of rubbish in higher numbers.

Mr. J. P. Fidler: I think I can say that I have visited more 4-bell towers than anyone. Never have I found in a 4-bell tower a band capable of ringing changes. When peals were rung in 4-bell towers they were rung by tower snatchers.

Mr. John Freeman: In 4-bell towers Mr. Corby will be regarded as a squire [laughter]. I can see little merit in ringing peals on four bells, but there may be occasions when to maintain interest a peal should be rung there. I do not think we should legislate for something that is 'a flash in the pan.' I would like to move 'the next business.'

The Rev. J. G. M. Scott seconded and said he thought that people who rang these 4-bell peals should be seen by a psychologist.

Mr. F. E. Haynes: I should like to object to a motion being put on the paper and not debated properly.

A vote to pass on to the next business was heavily defeated.

Mr. J. H. Crampion: We don't want to stop them ringing—in fact we can't. The point is that we should recognise them.

Mr. F. B. Lufkin: In the Essex Association we started off by deploring these peals, and I was one who deplored them. In the discussion that ensued the majority of members were in favour of encouraging 4-bell ringing. I think the main thing is to encourage Sunday service ringing. If a person rang a 4-bell peal I would be unhappy if it was not recognised. I would like to move an amendment that 4-bell peals be permitted if rung in 4-bell towers only.

Miss Boyle seconded.

Mr. W. G. Wilson supported the amendment for the simple reason that their job was to en-

courage ringing, and to pass a motion that it should not be recognised would not.

Mr. W. F. Oatway commented that if the amendment was accepted the next step would be only 10-bell peals in 10-bell towers, 8-bell peals in 8-bell towers and six in 6-bell towers.

'LOWERING THE STANDARD'

Mr. John R. Mayne: This raises a far deeper issue. It is a question as to what extent we should attempt to legislate on the activities of the Exercise. There has been a movement to legislate much less and the effect was that quite a lot of sound ringing has ceased. If we accept 4-bell peals, what about 3-bell and 2-bell peals? We have another complication. 'The Ringing World' is the official organ. If we accept them they will have to be published in 'The Ringing World.' Do we want our 'Ringing World' full of peals of Minimus? Personally, I think we are lowering our standards and I am afraid a lot of people think the same. Personally, I shall vote for the resolution.

Mr. B. D. Threlfall: The more years the Council go on talking about peals of Minimus the more people will go on ringing them.

Mr. F. E. Dukes: If you legislate not to accept Minimus then the Associations may lose 4-bell towers.

Mr. A. P. Cannon: If we don't accept Mr. Corby's resolution it is a retrograde step. I happen to know the perpetrators. They will be ringing Minimus on rings of five with the tenor behind. There were two such quarter peals of Minimus, and on one occasion the tenor was rung by two people. I am for helping anybody, but not to Minimus.

Mr. C. K. Lewis said he was in favour of Minimus. The first peal of Minimus was rung by two of his pupils in 1938. In the Chester Guild they had one 4-bell tower with ten members, and when they got going they would press for augmentation. If the Council discouraged Minimus they would get 4-bell towers being abandoned and becoming derelict.

Mr. Lewis pointed out that he could ring a peal of Minimus with five or more changing bells. How many rings of 12 have only five or six bells rung on a Sunday? Anyone interested in ringing would move from four or five bells upwards. If any of them had tried ringing Minimus they would find it was darned hard work.

Mr. Philip Gray said that the most important decision reached that day was to accept the Devon Association as members. It was the first time they had accepted a non-change-ringing Society as members. By accepting them they should also accept Minimus.

Mr. J. L. Garner-Hayward: If the effect is to encourage 4-bell ringers I am all against the motion.

BENEFIT OF STUNTERS

Mr. R. G. Blackman: We have our rules as to what shall be a peal. By altering those rules we are going to take a degrading step for the benefit of those who try to ring stunts.

Mr. P. A. Corby: Would the opposers of the motion consider the practical difficulties? As an experienced ringer I find it difficult to count 210.

Mr. Rushton: I can give Mr. Corby the name of a 4-bell tower where they ring the four bells regularly to changes. We might deplore 4-bell ringing but it is not necessarily a stunt.

Mr. G. Dodd: How many 4-bell methods are there?

Mr. F. T. Blagrove: There are 11 plain methods.

The President: I think if you go into it that there are nearly 40.

Mr. A. D. Barker: If we allow this we will be encouraging stunt ringing.

Various attempts were then made to produce an appropriate amendment. Eventually one proposed by Mrs. Staniforth and approved by Mr. Cartwright was presented to the meeting: 'Peals of Minimus on tower bells may be recognised in towers that contain four bells only. Peals on four handbells or less shall not be recognised.'

Miss M. Cross seconded this and it was carried by 78 votes to 57.

MODERN ARCHITECTURE AND TOWERS

Mr. R. S. Anderson submitted to the Council the following motion: 'That this Council takes note of the present trend of ecclesiastical architecture in that no tower capable of containing a ring of bells to be rung traditionally is incorporated in new churches nor is any provision made for the addition of a tower, and urges the Royal Institute of British Architects and all diocesan authorities to be mindful of the essentially English art of bellringing and ensure in their design for new churches that the voice of the Church through the bells is not lost to future generations. That the Towers and Belfries Committee keep this matter before them.'

Mr. Anderson said new parishes were being created throughout the length and breadth of the land. They were being built in a new style and very few of them had a tower capable of taking a ring of bells. The usual reply to any criticism was that they could not afford a tower. There were churches being put out of use and in some of those churches there were bells. He felt that those bells should be transferred to new churches. He was told that the cost of a light ring of five or six with a 2 cwt. tenor was a little over £1,000. He was not suggesting that bellringing would go out during the next decade, but churches were being built without towers and being provided with electronic equipment which was utterly false. The Central Council for the Care of Churches was also concerned.

Mr. E. H. Edge, seconding, said they felt very strongly about this in North Staffordshire, and they felt that British architects had a big responsibility for this state of affairs. If economies had to be made it was invariably the church tower that came first.

The Rev. A. G. G. Thurlow suggested that the motion should be amended to 'deplores the present trend of church planning' for 'trend of ecclesiastical architecture.'

This was agreed to, and the motion was carried.

THE NEXT COUNCIL

The Hon. Secretary said the Council had received three invitations for next year. The Norwich Diocesan Association had invited the Council to Great Yarmouth, the Salisbury Diocesan Guild to Salisbury in 1962 or the following year, and the Llandaff and Monmouth Diocesan Association to Cardiff in 1962. The Council was last at Norwich in 1946, in Salisbury in 1923 and intended to visit Cardiff in 1940 but could not because of the war.

Mr. F. E. Haynes moved that the Council meet in London. It was high time they went to London.

The Council decided by a very substantial majority to visit Cardiff.

HIS 80th BIRTHDAY

Mr. R. S. Anderson said before the Council met at Cardiff Mr. E. H. Lewis would have celebrated his 80th birthday. He moved that the Council extended to him heartiest congratulations and best wishes for that 80th anniversary.

Mr. E. H. Lewis: I can only say thank you very much. It is 53 years since I was first elected. I was not able to get to all the meetings during the first World War. I thank you for your good wishes and the friendliness you have always shown to me.

Mr. Anderson then asked the Council to show its appreciation to the Chairman in the usual way. Hearty applause for Mr. Sharpe followed.

ARCHBISHOP'S PRESENTATION

Dr. Layton said a short time ago the secretary of his Society received a letter asking for contributions to the fund for a presentation to the Archbishop of Canterbury. At the annual meeting of the London University Society it was decided to contribute to the Fund. He asked where contributions should be sent.

Mr. Barnett replied that secretaries should send their contributions to him and he would send them in one lump sum.

TOWERS & BELFRIES COMMITTEE

During 1960 the work of the Towers and Belfries Committee again increased. Advice on bell restoration was given in 67 towers, nine more than last year. They may be analysed geographically thus:—

Berkshire 4, Buckinghamshire 12, Breconshire 1, Cardiganshire 3, Cheshire 5, Cornwall 2, Essex 2, Gloucestershire 2, Hampshire 2, Herefordshire 1, Huntingdonshire 1, Lin-

colnshire 5, Northamptonshire 11, Oxfordshire 5, Pembrokeshire 1, Somerset 7, Surrey 2, Wiltshire 1, Yorkshire 1. To these may be added one enquiry from Scotland, where advice was given on the recasting of a turret bell.

In seven towers advice was given on recasting, in one tower the installation of a new bell. Thirty towers sought advice on rehanging, 28 on the repair of existing gear and 12 on sound control and improvement.

No outstanding or unusual problems were reported by members of the Committee. Mr. Clarke advised on the sale of the bells of St. Michael's, Chester, details of which have been reported in 'The Ringing World.' Mr. Austin was disturbed to find in one tower that 'restoration' had been carried out by enthusiastic amateurs without professional advice. Many of the requests for advice came as the direct result of quinquennial surveys by architects, and we foresee much bell restoration in the near future. We find many towers in a neglected state, with little or no routine maintenance work being carried out, and urge all Guilds and Associations to emphasise to their members the need for regular inspection, adjustment and lubrication of bell gear.

The Council's handbook on the Preservation and Repair of Bells, Bellframes and Gear will soon need reprinting. We recommend that a new edition be printed incorporating such revision as the Committee may decide, and that the text of the joint statement issued by the Central Council for the Care of Churches and our Council clauses (b) to (h) as approved at our meeting last year be incorporated in the new edition. After further discussion between representatives of both Councils, clause (a) has been amended as follows:—

(a) Bells cast before 1600, if sound, should not (as a general rule) be recast. As such bells are of archaeological importance, they should be preserved intact, incorporated in a

ring and hung as single bells. If such a bell, though sound, is of poor tone or is cracked, advice should be sought from the Central Council for the Care of Churches as to whether it is of sufficient interest to justify its retention in the church or in a museum as a complete bell, or whether it is enough to preserve the crown, canons and inscription band, and recast the remainder. Permission to recast cracked bells should only be sought if adequate proposals are adopted for mount-

ing and display of the crown, canons and inscription band in the church.

We recommend that this clause be incorporated in the new edition of the handbook.

The President in moving the adoption said that since the report had been typed they had given advice in regard to a Devon tower. Mr. Scott said the incumbent took not the slightest notice. As well as members of the Committee there were others who gave advice, such as Mr. Ernest Morris. They did not deprecate the work of others.

Mr. F. E. Collins, seconding, said the matter of bell restorations was still very brisk in the South of England. Another matter was sound control, and they were getting nearly as many enquiries for this as for restorations. Sound control had to be gone into carefully because sound modification could be only a short step to a distorted musical effect outside. He had received the following letter:—

'Our bells are rather noisy outside. We want to do something to deaden them down. We have some sheets of galvanised iron—would that be suitable?'

Mr. E. H. Lewis, speaking on 'firing' of bells, said that if all the bells were roped to one side they would get the maximum force. 'Firing' took place slowly, and because of that they were not likely to get the tower down. Each case should be considered on its merits.

The report was adopted and authority given to the Committee to reprint the Council's handbook on the 'Preservation of Bells.'

PRESENTATION TO MRS. SHARPE

Mr. G. W. Biddulph, chairman of the North Staffs Association, said this was the first time the Council had been in their district, and they need only to be there for a short time to realise that they had a wonderful industry and Stoke was the world centre of the pottery industry. Members had received a souvenir ashtray, and they would have liked to give the Council a further token of their industry but unfortunately the Central Council had no permanent headquarters. They had therefore decided to make a presentation of a Doulton figure to

At the opening of the Central Council meeting at Stoke. From left to right: The Rev. A. G. G. Thurlow (vice-president), Mr. G. W. Biddulph (chairman of the North Staffordshire Association), Mr. Frederick Sharpe (president of the Central Council), the Lord Mayor (Ald. G. Dale), the Bishop of Lichfield (the Rt. Rev. A. S. Reeve), the Archdeacon of Stoke (Ven. G. Youell, president of the North Staffordshire Association).

Mrs. Sharpe, and asked the President to accept it on her behalf.

Thanking Mr. Biddulph, the President said this was a delightful surprise and he knew Mrs. Sharpe would like to have permanent possession of it.

AN AUSTRALIAN REVIEW

Mr. G. W. Pipe, who is back on furlough from Melbourne, was asked to give a résumé of ringing in Australia. He said Australians were very interested in what the Central Council of Church Bell Ringers were doing. He remembered in 1958 going to Sydney, when a young ringer came up to him and asked if George Fearn was a professional. [Laughter]

Over in the West they had Perth, where in the Great Adventure in 1934 the visitors could not ring. Until last year the tower was recognised as unsafe, but round about Christmas an architect and civil engineer considered that the bells could be swung again. Perth was 2,100 miles from Melbourne.

The next centre was Adelaide, 800 miles to the east of Perth, where there was a fine ring of eight at St. Peter's Cathedral, with a tenor 41 cwt. in C. He would like to pay tribute to the work of Enid Lloyd Roberts, who for two years travelled 70 miles each Sunday for Bob Doubles. The band were now ringing Stedman Triples and man for man were the best band in Australia.

St. Paul's Cathedral, Melbourne, his tower, had the only 12 outside the United Kingdom, and they could say that ringing there at the end of last year was at its peak. At Melbourne they could ring Grandsire and Stedman Caters and Bob Royal. There was an octave at St. Patrick's (R.C.) Cathedral which was cast by Murphy, of Dublin. They rang there on the first Sunday in each month.

The next centre of importance was Sydney, 600 miles away, where there were nine or ten rings of bells. Unfortunately they did not do as much as they could. They also had two eights at Hobart and other rings at Yass, Ballarat and Maryborough.

LETTERS TO THE EDITOR

THE DEVON ASSOCIATION OF CHURCH BELL RINGERS

Dear Sir,—I would like, if you please, to express through your columns my appreciation of the warmth of welcome which was extended to me, both as representative of the Devon Association and personally, by all who attended the recent meeting of the Central Council of Church Bell Ringers at Stoke-upon-Trent. At no time did I have the feeling of being 'a stranger in a strange land,' and this impression of welcome and oneness with you all in a common interest, whatever the 'persuasion,' will always remain with me. Names came to life as persons and impersonalities at once became personalities in a most heartening manner.

More than ever it was realised that we, yourselves as change ringers, or 'scientific' as we like to think of you, and ourselves as call change ringers, have much to offer each other, which in this new fellowship can only serve to bring us even closer together for the benefit of the Church, which we are all privileged to serve.—Yours faithfully,
BERIC E. BARTLETT.

CAN A METHOD BE RENAMED?

Dear Sir.—I do not wish in any way to detract from the merit of the performance of Mr. Ogden and his band in the ringing of 53 methods in a peal of Spliced Major, and indeed would like to offer my congratulations to the band, but if the records I have kept are correct methods Nos. 261 and 263 have already been rung to full peals and have been named Warminster and Holland Bob Major, respectively.

It would, therefore, seem that confusion is likely to arise if fresh names are given, when methods are rung again either in full peals or in peals of spliced methods.

I should like to know if there is any ruling on this point, also what is the position in regard to methods which have not been rung to a full peal, but have formed part of a spliced peal. Would a band ringing a full peal in the method be entitled to give it a name of their own choice, or should the name already given to it have to stand?—Yours faithfully,
J. W. GRIFFITHS.

WHICH IS THE CORRECT ST. DUNSTAN'S?

Dear Sir.—Reading a few weeks ago the account from Australia of a peal containing St. Dunstan's Doubles brought to mind an old controversy, especially, St. Dunstan's Day (May 19th) being close at hand. The question was asked in this District: Which is the correct St. Dunstan's?—the one printed in 1766 in 'Campanalogia Improved,' which has Grandsire bob work for its plain lead, with a Chace Bob (or Grandsire extreme as some call it) for a Bob and a St. Blaise call for the single, or the same plain lead and bob with an ordinary Grandsire single, or that published in the 1939 Central Council book on Doubles and Minor, which has no singles, and the bob a fourths place bob?

We decided that if the Central Council stick to their own rules, that is 'that once a method has been named no one shall alter it,' the 1766 version is the correct St. Dunstan's, and not that published in their 1939 collection, or the one rung with ordinary Grandsire singles. Here is the 1766 version for the benefit of those who don't know it:

NEW BELL RECORDINGS

Dear Sir,—I would like to bring to your notice what appears to be a new series of gramophone records of bell ringing. Marketed by H.M.V., they consist at present of one L.P., one E.P. and one standard 45 r.p.m.

The L.P. contains Plain Bob and Grandsire Doubles, and Cambridge Surprise Major; the E.P., Stedman Caters, and the 45 r.p.m., call changes.

One wonders, however, if these recordings are intended for churches with 'synthetic' bells.—Yours faithfully,
D. BROOKES.

SHIRLEY BURTON IN NEW ZEALAND

Dear Sir.—It was a great pleasure for the ringers of Christchurch, N.Z., to welcome to the Cathedral tower Mr. Shirley Burton, of Leicester.

We regret that, owing to repairs being made to the tower, we were unable to arrange a peal attempt. However, during his stay of two weeks with us, we were able to ring a little Grandsire and Stedman Doubles and touches of Grandsire Triples and, with the learners in, rounds and call changes on the full ring of ten bells. This may seem very little to experienced ringers, but to us the experience gained was valuable. To ring with and discuss things with Mr. Burton has encouraged all to aim for a higher standard of ringing.

We thank Mr. Burton for his visit and hope that Mrs. Burton and himself have enjoyed their stay in New Zealand, and, on behalf of the members of our Society, I wish them a safe and pleasant voyage home.—Yours sincerely,
G. NELSON SLOAN,
Secretary, Christchurch Cathedral Society of Bell Ringers.

A MORAL FROM IMAGINATION

Dear Sir.—The account in 'The Ringing World' of May 19th of the achievement of a band of ringers who rang in 32 towers in one day put me in mind of a not dissimilar performance of which I was a witness some few years ago.

The late P. J. Forbes-Smythe, who was a contemporary of mine at Cambridge, and the winner of the 1956 Jesus College 'Pint-to-Pint' race, once conceived the idea of attempting to drink half a pint of beer in each one of Cambridge's public houses in one day. Unaware of the magnitude of the task, several of us volunteered to accompany him, while not necessarily trying to emulate him. We set off in fine style promptly at 10 a.m. on the morning of May 31st, 1956, and by a quarter to two we were just about to enter the forty-first inn when poor old J.P. collapsed on the pavement. An ambulance was summoned and Forbes-Smythe was taken to Addenbrooke's Hospital, where he seemed to be in a fair way to recovering, when the news was broken to him that he had, in fact, covered less than a quarter of all Cambridge's public houses! This piece of intelligence so upset the poor fellow that he suffered a relapse and died on June 5th.

The funeral, which was simple and dignified, was attended by a large number of his friends, who afterwards laid a wreath of hobbines on the grave. Afterwards, when we assembled in the 'Volunteer,' we agreed that each year, on May 31st, wherever we might be, we would raise our glasses and drink to the memory of 'A Gallant Fellow.' I, for my part, have never failed to pay this tribute to one of our greatest men, cut off so tragically in the flower of youth.—Yours faithfully,
W. T. COOK.

A PREVIOUS OCCASION

Dear Sir.—I see that correspondence on 'The Sunday Pictorial' photo is still kept going. Not nearly so much fuss was made last time it happened. I remember the Press publishing a picture of the young ladies of Burnham demonstrating bell ringing. They were swinging away up near the ceiling, well above the head of their instructor, the late George Gilbert.—Yours, etc.

32 TOWERS IN A DAY

Dear Sir,—Re the 32 towers in a day, I work the time spent on this tour (?) as follows: ¼ hour at each tower=8 hours; 10 minutes between each tower=5 hours 20 minutes. Total 13 hours 20 minutes.

This prompts the following points:—

- 1 Were the bells raised and lowered in peal?
- 2 What was the standard of the ringing like?
- 3 Did ringing go on until after 9 p.m.?
- 4 Were any of the locals meeting the band offered a 'ring'?
- 5 Was it an enjoyable experience, apart from having rushed more towers into a day than anyone else?

Once, and for the last time, I was on a tour of 17 towers in a day, and even though we had a good band the ringing suffered through the ringers becoming tired, and dare I say it, fed up with pulling bells up.—Yours sincerely,
JOHN E. COOK.

Branston, Lincs.

P.S.—I think that 6 towers a day, with adequate breaks for meals is ideal.—J.E.C.

COUNTING PLACES

Dear Sir,—The Rabbits' Guild, keenly interested in teaching, of course, insists on the counting of places by the 3-4-5-6-6-5-6 method only, and for an excellent reason. The alternative system of counting all the bells encourages that chattering motion of the lower jaw, which commonly marks the expert, present or future, thus leading to painful misunderstandings. It is not good for learners, especially rabbits, to appear to ape the tigers.—Yours, etc.,
B. M. W. D.,
Secretary, Rabbits' Guild.

CENTRAL COUNCIL—Cont.

He made an appeal to the British bell-founders to send a representative to Australia as he was certain there was plenty of business. The Dutch Consul had approached him on behalf of Dutch bell-founders.

The second point was the possibility of a Great Adventure the Second. It would be a very nice outing and do a welter of good to the ringers of Australia. All the change-ringers in Australia take 'The Ringing World,' and they long for the day of Great Adventure II.

Mrs. Richardson, as the only one of the Great Adventure party now living, said everywhere they rang they were received with great kindness.

THE ATTENDANCE

The Hon. Secretary reported that there was a record attendance of 147, against 144 last year. Details:—

VOTE OF THANKS

The President proposed a vote of thanks to all who had made the meeting such a success. He especially mentioned the Lord Mayor, Dr. Reeve, the Bishop of Lichfield, the Archdeacon of Stoke, the Rector of Stoke (who entertained the Council to breakfast), Mr. G. W. Biddulph, Mr. R. S. Anderson, and Mr. E. H. Edge for the local arrangements, and also incumbents and tower keepers.

CIVIC RECEPTION

The meeting was followed by a civic reception and tea, at which the guests were received by the Lord Mayor.

A social evening was afterwards held at the Grand Hotel.

DEATH OF PREBENDARY E. V. COX

The Guild of Devonshire Ringers has lost its beloved president by the death in Exeter City Hospital on May 30th, of Preb. Ernest Vyvyan Cox, of Hunthay Close, Axminster, at the age of 79 years.

Preb. Cox, who retired in 1947, spent most of his adult life in Devon parishes. For 28 years he was president of the Guild of Devonshire Ringers, and was an acknowledged authority on church bells. His advice on bells was sought by many bodies, among them being the Dean and Chapter of Exeter Cathedral, the Advisory Committee for the Care of Churches and various parochial church councils.

It was while at Keble College, Oxford, that he had his first ringing appointment, that of secretary of the Oxford University Society, 1902-3. After graduating he went to Ely Theological College and was ordained a deacon in 1904 and a priest in 1906. While holding curacies in the Midlands he was clerical secretary and treasurer to the Society for the Archdeaconry of Stafford (1910-15). In 1917 he became Vicar of Bampton, Devon, and was secretary of the N.E. Branch of the Guild of Devonshire Ringers from 1920-22; during 1924 he was general secretary and in 1933 he succeeded the late Rev. E. S. Powell as president.

He left Bampton in 1923 to become Vicar of Littleham with Exmouth; in 1931 he was Vicar of Bramford Speke and from 1939 to 1947 Vicar of Tedburn St. Mary. In each of the last three places he left the bells in perfect order and they are still a pleasure to ring. Preb. Cox became a non-resident prebendary of Exeter Cathedral in 1940 and was Rural Dean of Kenn from 1943 to 1946.

He served the Devon Guild with great faithfulness and will be missed, especially at branch meetings, which he always made a point of attending, if possible, although it might mean 120 miles of motoring from one end of Devon to the other. He also devoted many evenings to teaching learners in his own district. At the Guild's annual meeting, in 1958, a presentation, subscribed to by most of the members, was made to him by the late Mr. F. C. Smale to celebrate his 25 years in office.

Preb. Cox had been a reader of 'The Ringing World' from its first issue. His 144 peals included one silent, Holt's Original.

A report of the funeral service at Axminster will appear in our next issue.

FOUNDER OF CLERICAL GUILD

J. H. B. A. writes:—

In the only peal of clerical Caters yet rung, Stedman Caters at St. Mary's, Warwick, on October 11th, 1910, the 4th was rung by the Rev. C. Carew Cox, the 5th by the Rev. E. V. Cox. This association in clerical ringing continued until the Clerical Guild tour of April last, when the one was re-elected president, the other vice-president, of the Clerical

ST. LAURENCE'S, READING

On Whit Monday the St. Laurence's, Reading, ringers had their annual outing, and reinforced by Frank White, of Appleton, and George Bishop and Jack Napper, of Hagbourne, a very happy day was spent ringing at villages on the Berkshire downs. A grand lunch was enjoyed at 'The Plough,' at Appleton, where, of course, it was a job to get the foreman on the move again. For an outing the ringing was quite good and everyone was amazed we rang Appleton bells so well to Grand sire and Stedman Caters.

After ringing at Blewbury, Hagbourne, Buckland, Appleton, Harwell and Drayton, our last port of call was Isley and beside Grand sire, Stedman and Bob Major, we had the termerity to bring home a course of Double Norwich. Again it was a job to get the foreman away, but eventually we arrived back at Reading at 11 p.m., after a very happy day, with memories of a beautiful tea (prepared by our Mrs. Catterall) on the Ridgeway.

W. H.

Guild. 'E.V.' rang in three of the four other clerical peals on tower bells before the formation of the Guild, and in the first Guild peal, at Knebworth, on April 29th, 1938. This was his last clerical peal.

The Guild of Clerical Ringers may be said to be his creation. He was in the chair on April 8th, 1937, when twelve clergy taking part in a 'ringing week' at Evesham, resolved to form themselves into a Guild and to invite Canon G. F. Coleridge to be their president. 'E.V.' was the natural and obvious choice as honorary secretary and treasurer, for his enthusiasm, his attention to detail and his humanity ensured the success of anything he organised. He continued as secretary until 1953, and he attended every subsequent 'week,' including this year's at Southampton, when, although obviously far from well, to his delight no less than to that of the rest of the party, he was able to join in most of the ringing.

When the Clerical Guild was televised in action in the tower of Canterbury Cathedral in 1959, it was upon 'E.V.' that the camera naturally lingered. He had come to look, perhaps, a little older than his years, but it was also the whole alert, intent figure that caught the eye. In the ringing chamber he was one of the steadiest and most helpful of ringers. But ringing tours are not spent wholly in the belfry, and members will sorely miss a true friend and a loved companion. He is the third of the original twelve of 1937 to be called to his rest.

ST. CUTHBERT'S, DARLINGTON

Ringers of St. Cuthbert's, Darlington, and their friends had their annual outing on May 27th, and had the best weather of the year for a trip to the East Coast. From Darlington they went to Guisborough and then along the lovely coast road, which loops and twists and climbs over the moors to Robin Hood's Bay.

Here, at Fylingdales' church, there was a stay of about an hour, and on the musical eight (tenor 11 cwt. 2 qr. 15 lb.), touches of Plain Bob, Grand sire and Stedman Triples and Double Norwich were rung. A visitor to Robin Hood's Bay from Wimbleton joined in the ringing.

Over the moors again, the party went on to Scarborough for tea. Those of the ringers who did not fall for the attractions of the resort, went up to All Saints' Church, under the shadow of the castle, and rang Plain Bob and Stedman again, but the younger ringers having sought other entertainment, ended up with touches of Cambridge and London Minor. Mr. Bert Sutton, of the All Saints' band, made the arrangements and joined in the ringing.

The eight at All Saints' (tenor 20 cwt. 1 qr. 23 lb.) have a claim to distinction recorded on a tablet in the tower. The treble and tenor were sent by the founders (Taylors) to the great exhibition of 1851, and obtained first prize; viz., 'a prize medal and the special approbation of the jurors.' E. P.

130 METHODS TO A PEAL

After eight years of progressive ringing, Messrs. W. F. Moreton, Howard Scott and W. Eric Critchley have rung a handbell peal of Minor in 130 methods, which we publish in this issue. The Exercise will extend to them their warmest congratulations.

Mr. Moreton informs us that it is not possible, at the moment, to include more than 130 methods in seven extents of Minor, unless methods with places made at once are included, and the band object on principle to doing this.

The names 'Cripplegate' and 'Cornhill' are used for two new Little methods; as in 'Clavis' there are three Little methods, Cripplegate, St. Sepulchre's (sic) and St. Lawrence, with the same work for the treble as in our new ones. Both the old Cripplegate and the old St. Lawrence are irregular, while St. Sepulchre's is regular. The name St. Lawrence has already been used for a Little Minor method, but Cripplegate was still available and Cornhill was chosen to match.

Extents 1 and 3 are on page 356 of 'The Ringing World' for July 25th, 1947, both by A. G. Driver.

Extent 4 on page 168, March 4th, 1960. By H. Chant.

Extent 5 on page 239, April 10th, 1959. By H. Chant.

Extent 7 on page 727, October 28th, 1960. By C. K. Lewis and H. Chant.

Extent 6 on page 730, November 18th, 1955. By C. K. Lewis.

Extent 2, by H. Chant, is rung in a peal for the first time.

OUTINGS

SOUTH LINC'S TOWERS

Ringers from Donington, Bioker, Swineshead, Silk Willoughby and Caythorpe joined together for an afternoon and evening outing on May 13th. Towers visited were Caythorpe (8), Barnly in the Willows (6), Balderton (6), Swinderly (5), Eagle (6) and Harmston (8).

A good variety of methods was rung, from Doubles to Cambridge Minor, at the six bell towers and from Grandsire Triples to Double Norwich and Cambridge Major on octaves. A warm vote of thanks was passed to Mr. J. Edward Brown for arranging the outing and to incumbents.

J. H. M.

BARKING (SUFFOLK) & DISTRICT

The St. Neots and Huntingdon area was visited by ringers of St. Mary's, Barking, and the surrounding district, on the occasion of the annual outing on May 13th.

With perfect weather and the countryside at its best, ringing in various methods took place at Eynesbury, Eaton Socon, Great Staughton, Spaldwick, All Saints', Huntingdon, Hemmingford Abbots and Hemingford Grey.

Our sincere thanks to all incumbents, local ringers and Mr. H. Peacock in particular for his great help with arrangements and the ladies for providing an excellent tea.

PARTICIPANT.

RYE, SUSSEX

The ringers outing on May 13th was to London with packed lunches eaten at the Tower of London, followed by a visit to the Whitechapel Bell Foundry, where Mr. Hughes explained the principles of bell-founding. On the journey to London, stops for ringing were made at Tonbridge (8) and Eltham (8).

After tea at Lewisham, there was more ringing at St. Mary the Virgin Church and finally at Bromley (8). This first full day outing was made quite unforgettable by the coach breaking down outside Lamberhurst. The journey was concluded in another coach, home being reached at midnight. Our thanks are extended to incumbents and tower captains for their hospitality and kindness.

INTRODUCING THE NEW MEMBER

By the Rev. JOHN SCOTT

ABOUT nine years ago, Paul Gallico, in one of the national dailies, derided the village of Widecombe-in-the-Moor because, though crammed with trippers, it alone among tourist spots kept its shops and cafés shut on Sundays. Widecombe was delighted, and shut itself even more firmly the following Sunday, in exactly the same spirit in which the men of Devon, 400 years before, had responded to the surge of popular feeling which had brought in the English Prayer Book with a fight to the death for the Latin Mass. It's no use trying to persuade us in Devon to do anything because everybody else is doing it; not only do we not mind being different, we enjoy it. So when, in the 1870's, Maitland Kelly, Acland Troyte and H. T. Ellacombe began to tell the round-ringers of Devon that their way was backward, sinful and out of fashion, they started a tremendous wave of enthusiasm—for round-ringing.

It seems to have begun as pure reaction. Round-ringing meant prize-ringing, prize-ringing meant cash prizes, and cash prizes meant good business for the pub and bad for the Church. There is no doubt at all that few parts of England were so badly in need of belfry reform as Devon, and the pioneers who founded the Guild of Devonshire Ringers saw it as a simple problem: do away with round-ringing and replace it with method-ringing, and all will be well. It never occurred to them that the round-ringing tradition could be Christianised, and one must not blame them too harshly, for no one had ever succeeded in doing it.

Though they were Devon men, they had not reckoned with the Devon spirit. It is plain now that there were men among the round-ringers who wanted belfry reform as badly as the Guild wanted it, but they were not going to have anyone telling them how to get it. They would get it their own way; and get it they did, though how they did it is as hard to discover as who they were. The Devon Association of Church Bell Ringers was founded in the '20's, but it was preceded by several smaller bodies, most of which survive under the D.A.'s ægis. And it seems to have been these smaller bodies which broke the back of the evils which beset round-ringing and brought it to the honourable state which it now holds. Money prizes are gone, the divorce between the belfry and the pew is gone, and round-ringing (or call-change ringing, as it is now) has attained an ever-growing reputation both with the Church and with the Exercise. The men of Devon, as they usually do, set out to do the job in their own way, and they have been triumphantly successful.

Needless to say, there was something like war for years. The change-ringers, certain of the righteousness of their cause and sometimes with more than a hint of self-righteousness (as one can see from the 'Bell News'), treated the round-ringers with condescension if they were polite, with superiority if they weren't, and almost always with scorn. The round-ringers, of one can believe the early reports of outings by Guild bands, were impressed and interested at first, but this gave way all too soon to suspicion and hostility. They were not allowed to forget that the Guild was bent on destroying for ever the kind of ringing which they enjoyed, and they set themselves to fight for it. For years a change-ringer in a call-change tower was not welcome, and seldom offered a rope; for years the visits of change-ringing bands to call-change towers were met with coldness and followed by complaints of ropes altered, bad striking and tenors turned in spite of specific requests to the contrary. And for years the name of Devon would bring forth from change-ringers 'up the line' scornful references to 'stony' and 'church-yard bob.'

Feelings, once roused, always long outlast the cause that aroused them, but they can't outlast it for ever; and when the scattered, unknown, unsung heroes of the call-change world had done their work, and the old prize-ringing had gone and the competitions really were aimed at the perfection of call-change ringing, people began to see that there wasn't, so much to fight about after all. The Guild of Devonshire Ringers removed from the book its ban on members taking part in competitions; talks were even begun with a view to amalgamation of the Guild and the Association. But far more powerful than these was the gradual change of feeling on both sides. There were men on the call-change ringing side whose standard of striking and rising and lowering in peal was as high as that of the call-change ringers; Ernest Taylor, who was highly respected as a competition judge, was one, and Harry Myers, with his superb bell-control and unstinted enthusiasm for good ringing of any kind, was another. There were, and still are, many more; and much is also due to those change-ringers from up the country who, coming to Devon with none of the local prejudices which beset us here, have freely given credit where it is due, and have enjoyed and learnt from ringing in call-change towers. On the other side it has been again the men who were real lovers of ringing—any kind so long as it was good—who have recognised the fascination of the change-ringing way, have been ready to commend it with real critical knowledge when it merited commendation, and yet have remained loyal to their own tradition, who have done so much to bridge the gulf—men like Bill Miners of Widecombe, Tom

Darch of St. Giles, Beric Bartlett of Upton, and others like them, who sometimes have tried method-ringing enough to know they could do it well if they tried, but still keep as their first love the way in which they were brought up. Their example has spread, so that now there are hundreds of method-ringers who cherish the memory of practice night with a call-change band; Guild bands like Newton St. Cyres and Babbacombe, which enter for competitions and don't disgrace themselves; and many call-change ringers who have visited the Cathedral, alone among strangers, and had the 12 set going to rounds so that they could have their share of the short and precious time on the monthly Guild practice night.

EDITOR: T. W. WHITE.

After listening to the 11 teams in the Derbyshire Association's striking competition, a correspondent gives these tips: 'Leave your weakest member at home. Choose a conductor who can count. Make sure which bell you are on and learn your start. Make sure you are ringing the same method as the majority of the band. Practice.'

The peal of Grandsire Cinques rung at Tewkesbury on May 20th was to the memory of Alfred B. Peck.

Miss Gillian Coker, from Harpenden, Herts, who is teaching for a year in Australia, attended a ringing practice at St. Paul's Cathedral, Sydney. Her present appointment is at Broken Hill.

Mr. W. T. Beeson, of Cranleigh, after three previous unsuccessful attempts, rang his 800th peal on May 30th. His first peal was rung in 1914. He has one ambition left—to ring a peal of Cambridge Surprise Maximus.

At the annual general meeting of the University of Bristol Society the following officers were elected for the 1961-62 season: Master, I. C. Maycock; secretary, Miss J. Atkinson; tower secretary, S. M. J. Young; treasurer, Miss J. Gambling.

The name of the ringer of the third in the peal of Cambridge Surprise Major at St. Peter's, Nottingham, on May 11th was Frederick A. Salter and not as printed. Mr. Salter informs us that this was the fourth time he had 'circled the tower' in the 86 peals he had rung at St. Peter's.

Regular Sunday service ringers at St. Michael's, Madeley, Salop, Mr. F. W. Jones and Miss D. B. Lewis, ascended the belfry on their wedding day to receive the good wishes of the band. As crinolines and bellropes don't go well together, the bride and bridesmaid were unable to ring. The happy couple received a travelling alarm clock from the company. Fortunately they are making their new home in Madeley so their valuable services will not be lost to the tower.

BELFRY GOSSIP

Mr. J. A. Underwood, who conducted the quarter peal at Chesham, Bucks, on May 21st (see page 362), in which there were five first quarters by the local band, is leaving for Coventry. Within living memory there had previously been no active change ringing at this tower. Mr. Underwood extends to local ringers his best wishes for more successes in the future.

The bells of St. Helen's, Abingdon are receiving attention from the bell hangers and are not at present available.

The Sussex County Association has 280 lady ringers. Is this a record for any County Association?

What bell at Cambridge has the inscription 'Glory to the Church, and damnation to all enthusiasts'?

We doubt if any ringer has rung a heavier bell for his first quarter than Mr. C. Gumm, who performed on the tenor at Wells Cathedral on June 4th. Weight 56 cwt. 1r. 14 lb.

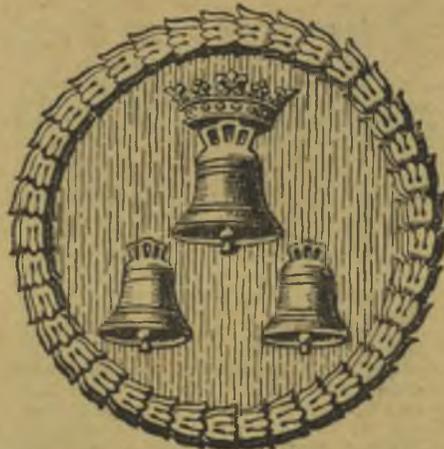

The advantages of the M1, as opening the Midlands to London ringers for their outings, was demonstrated by Hillingdon Guild. Including a break of half an hour for coffee they were ringing at Leicester within three hours.

St. Paul's Cathedral, Melbourne, has had a ringing romance. Mr. Graham Heyes, the deputy captain, and Miss Beverley Sayce, a former secretary of the Society, were married at the Cathedral on May 20th. A visitor from Sydney was able to take part in the congratulatory ringing.

On May 25th the Leatherhead and Dorking Deaneries held a service of Thanksgiving in the new Guildford Cathedral, and after the service, at the suggestion of the Rev. E. B. Wood, of Leatherhead, a course of Grandsire Triples on handbells was rung on the steps of the west doorway, whilst the congregation was leaving. On its completion, at the special request of the Bishop (Rt. Rev. G. Reindorp), a further course was rung. Those taking part were A. H. Winch 1-2, E. G. Coward 3-4, Rev. E. B. Wood 5-6, W. F. Oatway 7-8.

A NATIONAL RINGING DAY

Tuesday, June 27th, is to be a national ringing day to mark the enthronement of Dr. A. M. Ramsey as Archbishop of Canterbury.

Announcing this decision, at the Stoke-upon-Trent Central Council meeting, the president (Mr. F. Sharpe) said: 'This is an occasion, which I feel confident, all ringers will regard as their duty to recognise.'

'May I express the hope that so far as possible the bells of every church will be rung at some time during the day and that many peals and quarter peals will be attempted, either on the day or as soon afterwards as practicable.'

'I would urge ringers to see that all possible publicity is given locally, preferably beforehand to the ringing, thus bringing to the notice of the general public our part in this important event in the life of the Church.'

ELY DIOCESAN ASSOCIATION

The 2,000th Peal

THE annual report of the Ely Diocesan Association, presented at the annual meeting at Trumpington on Easter Monday, mentioned the milestone passed during the year of the Association ringing its 2,000th peal. During 1960 peals totalled 50—Major 10, Minor 26, Doubles 4, and in these 102 members took part.

Four members—Miss L. Allen, G. J. Mann, J. Wilson and M. Parker—called their first peal and 16 members rang their first peal.

The year had seen a steady increase in the strength of the Association. Subscriptions from resident members showed a slight increase over 1959, the peal total increased by two and the balance sheet showed an increased balance, thus making a satisfactory year.

A recent inspection showed that Houghton bells were unsafe and it was hoped to raise funds and rectify this. Brampton bells should be augmented to six during 1961, as all that was required was work of putting in the bell. The cost had already been raised. Little Shelford's bells were also in the hands of the foundry.

Ringings started at Great Gransden and Gamlingay at 10 o'clock, followed by the following towers during the day: Bourne, Ornell, Melborne, Meldreth, Harston, Haslingfield, Trumpington, Great St. Mary's and St. Bene't's, Cambridge and Histon. Although the weather was inclement this did not deter the usual number of resident and visiting ringers from going on a tour round.

The ringers service was held at 4.15 p.m. in Trumpington Church, conducted by the Rev. D. M. Maddox, of Trumpington, and the address was given by Canon A. L. Woodard, the Cambridge District president. Tea was provided in the School Room, opposite the church, served by local ladies, over 130 sitting down.

The business meeting followed, with Canon Woodard in the chair. The 1960 report was adopted, and all the Association officers were re-elected. For the next annual meeting it was decided to visit the Wisbeah District on Easter Monday, 1962.

There being no other business the meeting closed, with the usual thanks to all who had helped to make this a successful day.

Resident members were present from over 30 towers and visitors came from about 12 different Guilds and Associations.

A 50th anniversary peal of the first on the bells was rung at Holy Trinity Church, Barrow-on-Humber, on May 30th. The only survivor of 50 years ago, Mr. Arthur W. Hoodless, rang the treble.

AS a result of a gathering of ladies (and supporters!) in London, during January of this year, surprise was expressed that this occasion—the 35th anniversary of the first peal of Stedman Caters rung by an all-ladies band—was to honour the one and only ten bell peal rung for the Guild.

The strength and calibre of the ladies available for peal ringing in 1961 showed little doubt that this situation could, and indeed should, be quickly remedied.

Consequently, arrangements were duly put into operation and it was thought a good idea to make an attempt for Cambridge Surprise Royal on Whit Saturday.

At approximately 2 p.m., six keen tower grabbers (not ladies) climbed the stairs at St. John the Divine Church, Leicester, to pull up the beautiful ring of ten bells in readiness for this attempt, and at 2.24 p.m. the bells were set ringing to a first-class beat. This high standard was maintained throughout and the peal was brought round at 5.51 p.m.

The Rev. Basil Williams (Vicar of St. John the Divine), the local Ringing Master (Mr. Sidney Harrison) and the president of the Leicester Diocesan Guild (Mr. Peter J. Staniforth) came up into the belfry, together with a local paper photographer, to offer their congratulations on a performance that was described as one of the best peals on the bells.

During correspondence prior to this attempt a letter arrived at 'The Wayside, Leicester,' marked 'S.O.S. What's happening to the husbands on May 20th?' The outcome of this was a peal of London Surprise Major to be rung at Claybrooke—accommodating both husbands and boy-friends alike. This also proved to be a well-struck peal.

During the evening the two peal bands, plus other friends, enjoyed a well earned meal at the Victory Hotel, Leicester. This was followed by a touch of Stedman Triples on handbells by four members of the Ladies' Guild.

The band would like to offer their appreciation, through the medium of 'The Ringing World,' to the Rev. Basil Williams and Mr. Sidney Harrison for the use of their bells and their interest in the peal attempt.

THE LADIES' GUILD

Southern District

May 13th turned out to be a lovely spring day for the quarterly meeting of the Southern District, held at Alresford, Hants. Over 20 members and friends rang in the afternoon at Old Alresford Parish Church. The Rector conducted the Guild's service and also played the organ. At tea a collection, amounting to 10s., was made towards Guildford Cathedral bells, after which ringing in the four standard methods was enjoyed on the eight at New Alresford. Next meeting, July 22nd.

C. M. H.

Beds and Northants Branch

At the meeting of the Beds and Northants Branch on May 27th, only 7 members (all from Bedfordshire) were present. Visiting gentlemen assisted with and improved the ringing a great deal.

A short business meeting was held in the vestry, when Henlow was suggested for the next District meeting in September. As no arrangements for tea had been made the ringers adjourned to a nearby cafe for fish and chips! Ringing was then recommenced. Methods rung included Stedman and Grandsire Triples, Double Norwich, and Kent and Oxford Treble Bob. Miss K. Ravett was Ringing Master.

TOWER'S INTEREST IN CONDUCTING

Peter Chilton, aged 15, of St. John-the-Divine, Leicester, has conducted his first peal at first attempt—Kent Treble Bob Major at the Loughborough Bell Foundry. St. John's is fortunate in having six of the band able to conduct. In consequence, Mr. Harrison, the Ringing Master, very rarely conducts a touch himself. He feels strongly against a 'one man band.'

The band who rang in the quarter peal at Stratton on Whit Sunday, would like to associate with it the names of David Garvie, one of the local band, and Mary Lewis, on the occasion of their engagement.

SUSSEX COUNTY ASSOCIATION

THE 76th annual general meeting of the Sussex Association was held at Brighton on May 13th. The service was held in St. Peter's Church, conducted by the Vicar of Brighton (the Rev. J. N. Keeling). He gave a very interesting sermon. Having been born in a Vicarage, he had been associated with bells all his life. Most people do not understand the bellringers language, he pointed out. To them, Double Norwich Court Bob Major may be a new hair style, and Pudsey Surprise a new recipe for Yorkshire pudding!

The collection amounted to over £3 and has been donated to the Fabric Fund. The Bishop of Chichester was unable to attend owing to the induction of the new Vicar of Balcombe.

Tea was served in the Church Hall, and was attended by 94 ringers.

The business meeting followed tea, and was presided over by the Master (Mr. R. V. Johnson), who welcomed the visitors, who included Mr. and Mrs. A. Harman and Mr. Davies from the Surrey Association. Apologies were received from Canon H. T. Mogridge and Ben Barhill, who was convalescing at Arundel.

The Master requested those present to stand in silence as a token of respect to those who had passed on during the year; their names appeared in the annual report.

28 CONDUCTED PEALS

The various reports were passed by the meeting and the followed were the items of note:—

The treasurer (Mr. R. G. Blackman) pointed out that there was a balance of £10 excess over expenditure for the year. Only 57 peals had been rung during 1960, 15 being of Surprise, but 12 of these were conducted by non-resident ringers. There had been 28 conductors, which was very encouraging.

The secretary (Mr. R. W. R. Percy) pointed out that although several towers had been deleted owing to non-payment of the affiliation fee, membership had increased. There were now over 280 ladies in the Association. The annual report was proving very expensive and it might be necessary to consider printing the report every two or three years. After some discussion it was decided to carry on as before and rely on the general secretary to do his best to keep down the cost.

Mr. R. Overy proposed that all the officers for 1960 should be re-elected for 1961, to save time. This was carried by the meeting, but Mr. K. Knight questioned this action and hoped this would not be an annual occurrence.

LIBRARY CABINET

Mr. Armstrong gave details of the Association's library, which would be installed in the belfry of St. Peter's, Brighton. Mr. Ropley, a ringer and a skilled craftsman, was making the cabinet and the necessary permission had been given by the Vicar of Brighton. The cabinet would be made in sections and provision made for any extensions. The question of raising the necessary finance and the insurance of the library would be dealt with when the actual cost was known.

Mr. Albert Bond was elected librarian and he gave details of the books, etc., already given, promised and purchased. We would have one of the finest libraries in the country.

Mrs. Hairs mentioned that her daughter, Mrs. Barnett, would present a copy of 'Sussex Bells,' by A. J. Turner, when the cabinet was completed.

The General Committee had made a recommendation that the Association form of service be revised and a suitable belfry office be printed in the report for general use.

PERSONALITIES OF THE EXERCISE - 24

MR. NICHOLAS M. NEWBY,
Lancashire Association.

The Furness and Lake District Branch of the Lancashire Association covers a large area of about 200 miles. It runs from Millom on the Cumberland coast to Ambleside (where Alan Capstick keeps the flag flying) and Kendal, down to Beetham in Westmorland. Buses are not too frequent and travelling about is difficult, unless one has one's own transport. The consequence is, therefore, that maintaining and assisting local bands has to be done the hard way. Mr. Nicholas M. Newby, of Ulverston, Lancs, has been secretary of this Branch since 1936—25 years' service—and really tries his hardest to do the job with enthusiasm and efficiency.

In 1946 he started giving lectures, illustrated with slides provided by John Taylor's, of Loughborough, first to Church Fellowship groups, and later to County Adult Education groups. As a result of this work, and with the backing of the Lancashire Education Committee, evening classes in bellringing were started at Hawkshead, a delightful village situated between Lakes Coniston and Windermere.

The last item was the Alfred Pulling Memorial, and after some discussion it was decided to send a token amount for the time being, and a larger amount when the full ring of bells was installed. It was felt that it was a waste of money to mount the bell on a pedestal, electrically ring same and then do away with same.

The verger of St. Peter's, Brighton, brought 'best wishes' from the Norwich ringers, after attending a vergers' meeting there.

A vote of thanks was given to the Vicar of Brighton, the verger and the organist for the part they played during the service.

EPPING, ESSEX.—On May 27th, 1,260 Grandsire Triples: Mrs. D. G. Mayell 1, Miss B. M. McClelland 2, D. Hawkins 3, D. G. Mayell 4, M. C. Austin 5, J. Statham 6, H. Turner 7, R. J. Chapman 8. Rung for the visit of the Lord Mayor of London, for the opening of the Epping Town Improvement scheme.

and where 2 trebles were added to complete the octave in 1958. Later, another class was started at Broughton-in-Furness, and both are still going strong. A further two classes were commenced at Hornby and Scorton. When Nicholas first started at Hawkshead, he left Ulverston at 6.45 p.m. by bus to Newby Bridge, took a taxi to Hawkshead to commence ringing at 8 p.m. On finishing at 10 p.m., it was a taxi back to Newby Bridge, and the last bus home, arriving at 11 p.m.!

Nicholas (or Nick, as he is popularly known) is a blacksmith by trade, and was born at Ulverston on October 25th, 1910. He was educated at the local C. of E. boys' school and started learning to ring in June, 1924, at his local Parish Church of St. Mary's, where there are six bells. He scored his first peal on July 16th, 1927, at Hawkshead, one of Bob Minor, conducted by William Robinson. He is not very keen on peal ringing, as opportunities are difficult, and an afternoon practice meeting gives him as much enjoyment, if not more. His present total is 106, of which he has conducted 36. He believes, however, that peal ringing does help to make ringers, and he gets most satisfaction from those peals in which the band are all local service ringers, and particularly first peals by all the band except himself.

One peal of which he is rather proud is his only handbell peal, which was arranged on the spur of the moment. It was Bob Minor, rung at Dalton-in-Furness, with Dorothy Schofield, of Morecambe, now Mrs. Roland Eccles, and Robin Shuttleworth, of Hawkshead. It was the first peal 'in hand' by all, and the first handbell peal in his part of Lancashire for over 30 years!

Nicholas has served on the General Committee of the Lancashire Association since 1934, and was a vice-president for 1956-58. His wife, who in the past has given him every encouragement in his work of instruction, has recently started to ring herself, and now enjoys getting amongst ringers. His three sons, aged 11, 17 and 19, are also all able to ring as well, making five in his family to help man the bells at Ulverston.

Nicholas is one of Lancashire's main 'spade-workers,' working in a difficult area. Such men, though they do not do a lot of peal ringing, are the salt of the earth. The Lancashire Association is indeed fortunate in having someone active in this area, who by his own example of enthusiasm has helped to strengthen the ringing in North Lancashire and Westmorland.

NORTH SOMERCOTES, LINCS, RINGERS' OUTING

This outing, held on Whit Tuesday, will seem of little interest when it is said that ringing consisted of call changes. Grandsire and Plain Bob Doubles and Plain Hunt Minor, but the band consisted of fifteen ringers from a three bell tower, with two friends from Alford and the Vicar of Somercotes. Ringing took place at Willoughby, Halton Holgate and Old Bolingbroke, all very good sixes. Tea was taken at Old Bolingbroke, generously given by Mr. Riggall. The last tower, Raithby, was visited with some trepidation, and fears seemed justified when the treble rope broke on ringing up. But ringing continued on the back five, proving to be the best of the day, the bells going very well indeed. The outing proved very worth while and most encouraging to the organiser. Perhaps it will not be too long before the three at Somercotes are increased to six.

LETTERS TO THE EDITOR

PENALTIES OF RUSHING LEARNERS

Dear Sir.—How right Mr. John Pladdys is in his letter of June 2nd, when he says that learners are pushed along at an incredible rate and never master their bell or striking. It is only bewildering to the learner who, not only has to think of how to handle his bell, but think of the method also—not call changes mark you—at the same time. No wonder so many learners give up. I was ringing rounds and call changes for a long time before starting change ringing and my handling of a bell was not perfect even then. Well do I remember having to ring solo in front of some eminent ringers one practice night at a neighbouring tower, just to correct one fault. Even in my first peal I was often told to keep my back strokes in when I thought my striking was quite good, and that was after I had been ringing for three years or so.

Every learner must be able to ring call changes accurately and know in what place he is striking. The method used should be, where one bell only is told what to do, i.e., 'to 6' (from rounds). The 6th will have to use his ropesight to see which bell the 5th was ringing after, which may not necessarily be the 4th, so that the 6th can come down into 5th place. The method, where two bells are told to dodge, is a complete waste of time and sounds horrible, especially when four bells start doing this. It would be far better to use very quick call changes and to concentrate on one bell at a time as in Devonshire Call Changes.

Another thing which I have seen done is to start teaching a learner to raise and lower a bell before he can handle one properly. He gets into the habit of tugging and pulling away at the rope until the bell is up and even then he is pulling away like mad only having to check it at the other end and never getting out of the habit, with the result that his striking is all over the place. One can normally tell who are the good ringers by their effortless and graceful movements or style, and every beginner should study the actions of a good ringer and then try to do likewise.—Yours sincerely,

ALAN A. J. BUSWELL.

Bournemouth.

IRISH WELCOME

Dear Sir.—May I, through the columns of your paper, express my appreciation and thanks to the captains and companies of the ringers at St. Patrick's Cathedral and St. George's Church, Dublin.

Being only a semi-beginner, and consequently having limitations, nevertheless, during my short stay there during Whitsun, not only was I invited to take part in practice and service ringing, but a conducted tour of the city was laid on for me in one of the ringer's cars.—Yours sincerely,

S. E. DENBY.

Mansfield, Notts.

THORNCOMBE BELL RINGERS

Dear Sir.—The Thorncombe (Somerset) ringers are busy raising funds for a sixth bell which, I understand, will cost in the region of £600.

It has been suggested that there may be a Central Fund available from which monetary grants may be allocated for such a project.

Donations will be gratefully acknowledged by—Yours faithfully,

A. E. O. JORDAN.

COUNTING PLACES

Dear Sir.—I feel I must reply to Mr. Hall's letter in 'R.W.' dated June 2nd.

Like Mr. Hall and Mr. Aitch, I had no idea of how one 'counted one's place'. The obvious way was, to my mind, 3-4-5-6-6-5, etc. This, coupled with the knowledge 4652 (i.e., coursing order), enabled me to ring plain courses (only) of Bob Minor (only) on the 3rd (only). This state of affairs lasted quite a while (6 months). Then I read in a book, I forget which, that the best way to attain good striking was to get the 'beat' of six taps (one for each bell) running through your head and to emphasise the one which coincided with your position in any change. This made me aware of what people had meant by 'listen to it' and of my own bell being one among many to be listened to and for.

About this time the faculty of ropesight became something I suddenly found I had and this, coupled with the Society of Rambling Ringers putting up with me on tour for ten days, made me realise that I was gradually getting into rhythmical change ringing.

After the summer, my lifelong friend, 'Farmer,' recommended peal ringing as a means of improving one's faculties of change ringing, the only problem being to impress some local conductor and 'muscle in' on peal ringing. This done, progress became easy and rapid, but should follow definite stages.

Further, to any beginner who finds difficulty in getting anywhere, I recommend them to join the College of Campanology and read Part I of the 'Manual.' This also to Mr. Pladdys, so he can 'spread the gospel' of good teaching up in West Hartlepool.—Yours sincerely,

GILES B. THOMPSON.

Manchester 21.

55 MAJOR METHODS PEAL

Dear Sir.—It has been brought to my notice that two of the methods named for the peal in 55 Major methods, have already been named and rung. Method C.C.C. No. 263 should be Holland Bob. This is listed in the Central Council additional list of Major method names, but no C.C.C. number or method details are recorded. C.C.C. No. 261 should be Warminster Bob. This method was first published in a peal in March this year, after the Spliced composition was completed, and unfortunately I completely overlooked it.

Please accept my apologies for not detecting these inaccuracies before I sent the peal report to you.—Yours sincerely,

DEREK OGDEN.

Sale, Manchester.

THE PITSTOWS OF SAFFRON WALDEN

Dear Sir.—Mr. H. C. Stacey's article brings back memories of 1892, when I saw and heard the first half-pull ringing on Exeter Cathedral bells. It was in October that year that a touring band visited the tower, where rounds on the 10 by 16 men was only possible for a few minutes. A suggestion was made that a course of Grandsire Caters might be tried and to the surprise of everyone it was rung at the first attempt and very well struck. The first nine bells were rung by nine men as follows: H. G. Truin, John W. Taylor, Ernest A. Pitstow, Nathan J. Pitstow, Rev. F. E. Robinson, W. W. Gifford, Ferris Shepherd, Rev. G. F. Coleridge, James W. Washbrook and on the tenor were Rev. W. S. Willett, Edwin Shepherd, B. Mundy and J. W. Carnell. Nobody present wanted a second course!—Yours, etc.,

WILLIAM SHEPHERD.

Addlestone, Surrey.

NO DISSENSION ON 'R.W.' COMMITTEE

Dear Sir.—May I first of all congratulate you on some of your recent editorials. Your last two in particular (June 2nd and 9th) have been commented on favourably as giving an excellent 'Editor's eye view' of the Central Council and some of its work. But I hope you will allow me to correct the impression which may have been given by your first paragraph of June 9th and by the necessarily condensed report, on Page 385, of 'The Ringing World' discussion at Stoke.

There has been no dissensions in the 'R.W.' Committee. Since I was elected last year they have met once—in London last November—and one result of a very useful meeting was what most ringers have agreed was the highly successful Jubilee issue of our paper. Neither in meeting nor in correspondence has there been any committee consideration since then. There was no minority report for the very simple reason that there was no majority report either. The report that was submitted to the Council was signed and sent to the Council's secretary without consultation with the committee. And he who signed it was naive enough to tell the Council that he had not even written it.

Had the report been put to the several members of the committee for their comments, like the reports of other committees I have worked for, and had I been unable to persuade the other members of the committee to alter it, then I should have been happy to make it a unanimous report of the committee. That chance was not offered to us, however, which is why I must emphasise again that the report submitted was not 'of the committee.'—Yours, etc.,

WILFRID G. WILSON.

GERAT CHART ACKNOWLEDGEMENT

Dear Sir.—In your report of the annual general meeting of the Kent County Association Mr. May, in reply to a question by Mr. Hillis, started that no acknowledgement had been received from Great Chart for the £15 donation towards restoration of the bells.

We were considerably perturbed by this statement. An acknowledgement was sent, and as proof our Rector has a counterfoil of the receipt, which was sent with a letter of thanks on February 22nd, 1960. I have written to the general secretary, Dr. Hatcher, on the matter, enclosing a stamped, addressed envelope, but having no reply I am writing in the hope that you will print a correction of the erroneous report, as we feel this is a slur on our tower, and all concerned.

Thanking you in anticipation.—Yours faithfully,

KATHLEEN HOBDEN.

(Honorary Secretary).

INTERPRETATION NOT INTENDED

Dear Sir.—Mr. McLean, in his letter in the May 26th issue, has taken part of a sentence and twisted it to convey an interpretation that I did not intend.

Of course, photography in church or the belfry is not sacrilegious, but it is the subject of the photography one has to take into account and from Mr. McLean's first paragraph he apparently agrees that this subject was not normal church procedure.—Yours faithfully,

R. J. BROWN.

OUTINGS

UNIVERSITY OF BRISTOL SOCIETY

The University of Bristol Society was lucky to have a beautiful day for their summer term coach outing in the Cotswolds on May 13th. The first tower was Northleach (8), where we had our first experience of long Cotswold tail-ends. Tea followed in Bourton-on-the-Water, with time afterwards to join the crowds of sightseers in the model village, or even in a 'Witchcraft' exhibition.

From here we moved on to Stow-on-the-Wold (8), where the ringing did not do justice to a good ring of pleasant-sounding bells. For the last tower we returned to Bourton. Here the light ring of eight proved difficult at first, after the heavier preceding towers, but later produced some good touches of Plain Bob Major and Duffield. Stopping on the way back, handbell enthusiasts were cried down in favour of singing, which was appreciated by at least one 'old local' who removed his hat for the University song! Thanks are due to the incumbents and tower masters, and to the secretary for organising such an enjoyable outing.

SPALDING, LINCS

The annual outing of the Spalding ringers, along with friends from neighbouring towers, was once again arranged by Mr. E. T. Chapman, who decided to introduce us to some of his friends in Suffolk.

Leaving the Corn Exchange at 6.30 a.m. the first tower of the day, Diss, was reached on time. Unfortunately the 'go' of the bells was not all that might be desired. Over the border into Suffolk our first stop being Stradbroke, a pleasant 10, although the trebles are difficult to hear amongst the others. Dennington then provided some Minor ringing for the six bell men, the interior of this church being well worth the visit.

With rumbling stomachs we next visited the White Hart at Wickham Market to feast on a much needed lunch. No ringing here, but we did notice the unusual feature of the bell hung half way up the spire on the outside. The afternoon's ringing took place at Ufford and Woodbridge, both very good towers. Tea was provided for us at the Deben Tea Rooms at the latter place.

A short journey brought us to the delightful 10 at Grundisburgh to be met by Mr. Cecil Pipe, although he preferred to listen to us from his garden rather than ring, we hope our efforts were judged to be of good standard. At the remaining three towers, all well known to peal ringers. Helmingham, Framsdon and Debenham, we had the pleasure of the company of Mr. Leslie Brett. A large variety of methods were rung to suit all tastes from rounds to Cambridge Royal.

We left Debenham replenished with fish and chips and a glass of beer, to make the long journey back home arriving about 1 a.m. An excellent day with good weather, bells and company. Thank you, Suffolk.

AN EAST YORKS OUTING

Ringers from eight East Yorks towers participated in the Whit Monday outing, which started from Hessele. The first bells sampled were those of Sherburn-in-Elmet. A halt for sandwiches took place at 'The Lagoon,' a stretch of water on the Collingham-Otley Road. The beautifully toned bells at Otley were much admired by the ringers and doubtless by the crowds awaiting the Whit Monday procession.

Guisley and Barwick-in-Elmet followed. At the latter tower we were the first visiting band since the augmentation of the bells from three to eight on Palm Sunday. An adjournment was made to the White Swan Hotel, Tadcaster, for tea. Unfortunately Tadcaster bells were not available as a clapper had been damaged the previous day, but the fine eight at Howden was good compensation and concluded another enjoyable day's outing. Our thanks are due to the organisers and local ringers who met us.

PUTNEY RINGERS' WEEK-END

Putney ringers at St. Nicholas', Warwick.

In 1923 a party of Putney ringers visited Evesham for a weekend, and rang a quarter peal of Grandsire Caters and now 38 years' later Putney ringers have repeated the performance as reported on page 315 of the 'R.W.'

The ringing started on Saturday, April 22nd at Great Hampton, an octave much enjoyed by everybody. We then rang on the pleasant old six in the small village of Bishampton. Our next stop was made at Stoulton, to try the lightest ring in the world (6.56 lb.). These are hung in part of a cottage and we were very grateful to Mr. Jopp for allowing us to make such a poor exhibition of ourselves. Obviously one has to learn to ring again, to ring here.

After lunch, we rang at St. John-in-Bedwardine, Worcester, an old six, with two trebles added. Travelling southwards, we came to Upton-on-Severn, another good octave. Here certain members of the party had difficulty in moving their car as a local octogenarian, after giving her views on the

council's rates, demanded a sixpence! Defford, a four, was the next stop, where almost the whole village turned out to see what was happening. Great Comberton, a pleasant but noisy six, just below Bredon Hill, followed. Arriving back at Evesham we sampled the magnificent Taylor twelve in its equally magnificent perpendicular tower. Here, ringing with the local ringers, we even managed Stedman Cinques.

Sunday started with a Corporate Communion at Evesham and ringing for morning service, with the enthusiastic local band at Salford Priors (8). The next stop was St. Nicolas', Warwick, voted by many as one of the best octaves they had visited. At Rugby we had the great privilege of ringing in both rings at the Parish Church. We rang the five before tea and the grand eight for evening service. Finally, a quick visit was paid to Daventry's fine eight, before a trip down M1 to London.

Our grateful thanks go to all incumbents and Ringing Masters, who made such an enjoyable weekend possible.

BARNESLEY DISTRICT SOCIETY

This year's outing of the Barnesley District Society on Saturday, June 3rd was into Leicestershire. Everywhere the welcome was most cordial and the lunch at the Lodge Hotel, Barrow-on-Soar, and tea at Old John Cafe, Newton Linford, was so satisfactory that even the grumblers could find no fault.

Ringing took place at Warsop, Bulwell, Quorn, Barron-on-Soar and Bottesford.

Special thanks are due to the organisers (Messrs. Trevor Turbatt and Eric Stainrod) and the driver. Also to the incumbents and those who met us.

J. W. B.

BRISTOL RINGERS AWHEEL

Members of the University of Bristol Society and the Bristol Cathedral Society combined for a cycle outing on Whit Monday. The first tower visited was Chew Stoke, a ring of six originally cast in the village. From there we battled our way over numerous hills and through swarms of flies to Blagdon (8). At the third tower, Nempnett Thruwell, the bells showed a marked tendency to accelerate. From there, faulty map reading took us a mile out of our way to Butcombe, a light six.

A break for tea, and then on to Winford, a medium weight six with 'comfortable sallies.' A broken rope curtailed ringing after three touches. Methods rung ranged from Grandsire Doubles to Cambridge Minor, but striking was, at the best, indifferent. Our thanks are due to incumbents and tower secretaries for allowing us to ring.

S. M. J. Y.

RAVERS TOUR OF SCOTLAND

After ringing at St. Peter's, St. Albans, for the wedding of Miss Christine Pullen and Mr. Dennis Bowen on Whit Saturday, five members of the Raving Ringers left by road for Scotland. By travelling all night four of the party rang Plain Bob, Grandsire and Stedman at Paisley and were entertained to lunch by the tower secretary, Mrs. L. Caldwell, and allowed to doze on her lawn before going to Glasgow and ringing Cambridge Major and Grandsire Caters. The party then proceeded to their headquarters at Stirling.

Three days passed until the next tower, St. Cuthbert's, Edinburgh, where Ron Wilson, who helped with the arrangements, met the party and ringing included Plain and Little Bob, Grandsire and Stedman. The next day ringing took place at Fettes School and St. Mary's Cathedral.

Alloa was visited two days later, and with the help of Miss Willers, of Trumpton, Cambridge, and the local captain some Mixed Doubles were rung. Better ringing, including Double Norwich and Cambridge was enjoyed at Dunblane. The lovely bells of Dundee Cathedral came next and after tea the Old Steeple, Dundee, where permission to ring has to be obtained from a magistrate.

En route for home Keith was visited and in the evening Kendal. The night was spent at Settle and imagine our surprise in the morning at breakfast to see at the next table Mr. & Mrs. Cox and Mr. & Mrs. Bowden, of Bristol, en route for the Lake District. Their suggestion of grabbing a tower resulted in a quarter of Cambridge Surprise Major ringing out from nearby Giggleswick. Our thanks are accorded to all who made our trip possible, especially Ron Wilson, H. O.

OBITUARY

FUNERAL OF PREB. E. V. COX

The Bishop of Crediton and the Archdeacon of Exeter were among the large number of clergy at the funeral service at Axminster Parish Church on June 2nd of Preb. E. V. Cox, the president of the Guild of Devonshire Ringers. The night previous and during the weekend the bells of many East Devon churches were rung to his memory.

The funeral service was conducted by the Vicar of Axminster (the Rev. N. Carey Potter) and the lesson read by Canon C. Carew Cox, a cousin of Preb. Cox, who represented the Clerical Guild and the Salisbury Diocesan Guild.

The Rev. J. H. B. Andrews also represented the Clerical Guild and the North Devon Branch of the Guild of Devonshire Ringers, and the Rev. G. J. M. Scott, the North-West Devon Branch, the Rev. N. F. D. Coleridge (Tatworth). Other representatives of the Guild of Devonshire Ringers were: Messrs. H. W. Milford, treasurer; E. M. Atkins, secretary; W. L. Lavers (Plympton St. Maurice), T. G. Myers (Plymouth St. Andrews), G. L. Blagg (Emmanuel, Plymouth). The East Devon Branch of the Guild was represented by Messrs. G. C. Woodley, chairman; and W. Webb, secretary. Other towers were represented by W. A. Sparks (Cotleigh), G. E. Retter (Aylesbeare), R. C. Woodley (Sidbury), C. Joyce, P. Copp, P. Doble and J. Knight (Stockland), R. F. Loud, F. Gardner and Brian Gardner (Shute), C. J. Turner and E. Marks (Ottery St. Mary), H. A. Hodge (Honiton), F. H. Parr (Buckerell and Feniton), J. Board (Axminster), F. G. Barratt (Colyton). Clyst Honiton and Sowton ringers were represented by Mrs. G. E. Retter; Kilmington ringers by Miss D. Bindloss; St. Michael's Guild of Ringers, Lyme Regis, by Mrs. C. W. Powell; and Umborne Handbell Ringers by Mesdames V. Cox, J. Gillingham, R. Gorst and W. J. Page; Miss B. M. Boyle (Combe Martin), C. J. Stevens (West Buckland).

TO E.V.: A MEMORY

The official record will tell of the peals which he rang, the offices he held, the long tale of service and hard work. May an ordinary Guild member reminisce for a moment of things which are not on record?

The indefinable lift which it gave to any meeting, anywhere, when someone said, 'Prebendary Cox is here,' and we knew that he had come perhaps 70 miles and would have the same journey home, and maybe would be covering another 40 before he took the services at some vacant parish next day. And if he was there already when you came, the gay, delighted smile as though you were the one person he'd been waiting to see.

Such a chairman! It was so completely impossible to doubt his real love and thoughtfulness for every person in a meeting that he could say what he thought with the utmost firmness and candour and nobody could take it amiss. 'Mr. R.' we heard him say once at a branch meeting, 'I've been attending meetings of various kinds for the last 46 years, and I don't think I ever heard a more fatuous suggestion.' Yet, not because of any special tact of manner, but simply because it was E.V. and he loved us, I don't think Mr. R. would mind a bit if I gave his name in full.

And the apple pie made in his honour and dropped upside down on the carpet at his feet—E.V. on his hands and knees in a flash scooping the remains on to his plate and mine before its tearful maker (and dropper) could return with a floor cloth. The boyish enthusiasm and zest which never left him, whether it were a parish or a tower or a beehive he was concerned with. We have seen much tireder schoolboys than E.V. in his 70's. We thank God for him. He was a lovely person. ANON.

At St. Paul's Church, Honiton, a quarter peal was rung to his memory, with the bells half-muffled. This was 1,260 Grand sire Doubles (with 4, 6 and 8 behind), by Celia Hodge 1, C. Manley 2, A. Hodge 3, Jack Real 4, W. Saiter 5, Janet Real 6, W. Webb (cond.) 7 and M. Squire 8.

TRIBUTE AT DEAN PRIOR CHURCH

As a tribute to their late president, there was half-muffled ringing at Dean Prior Parish Church, Buckfastleigh, on June 3rd. This took the form of one extent and a number of six-scores of Plain Bob Minor and Grand sire Doubles. Those taking part were the Misses Sylvia Sims and Yvonne Porter, Messrs. A. L. Bennett, W. G. Lavers, R. Crocker, W. Whitehead, J. V. Parnell, Revs. P. Angold, P. Dowling and A. de Guingand.

Call changes were also rung for the less experienced ringers, and a visit was afterwards paid to Holne Parish Church for further ringing.

THE UMPIRE REPORTS ON 13,440 SPLICED SURPRISE MAJOR

Mr. Peter Laflin, the umpire to the peal of 13,440 Spliced Surprise Major rung at Norbury (Hazel Grove), Cheshire, on May 20th in 7 hours 11 minutes, sends us the following report upon the ringing of Mr. A. J. Pitman's composition:

The bells went into changes at 10.13 a.m., the first part end came up in 2 hours 25 minutes, the second in 2 hours 24 minutes and the third in 2 hours 22 minutes.

Every course end was ticked off as it came up, and all bob lead-ends noted. The bells ran round at 5.24 p.m.

The ringing was generally good, and fast for Spliced Occasional clip blows seemed to be more due to boredom or carelessness than from mistakes; it was evident that this band of conductors had no trouble with the methods.

In the 55th course the speed increased noticeably for some reason or other, and this must be the cause of the last part being rung in less time. Rounds came up beautifully, and the bells were lowered in peal without setting up.

The second part was beautifully rung. The third was a trifle unsteady for a time, due to brilliant sunlight from a high window almost blinding some of the band. Altogether, a creditable performance.

PETER LAFLIN.

BEDFORDSHIRE ASSOCIATION

The monthly meeting of the Bedford District was held on June 3rd at Harrold. Ringing began soon after 3 p.m. and a touch of Double Court, a special method for the day, was brought round before tea.

The service was conducted by the Rev. R. W. Collins (Vicar of Olney), in the absence of the incumbent. The ladies of the Mothers' Union kindly undertook to prepare tea and this was followed by our business meeting.

Next meeting, Turvey, August 5th, beginning at 5.30 p.m.

Bells Part Of Orchestra In Tchaikowsky's '1812' Overture

On Sunday evening, June 4th, Mr. Walter Judge, Ringing Master of the Oxford Society, temporarily gave up his command of the Cathedral belfry to Hugo Rignold, well known conductor in other than ringing circles, and the bells became twelve more instruments, augmenting the City of Birmingham Symphony Orchestra. The occasion was a promenade concert held in the Great Quadrangle of Christ Church in aid of the Oxford Committee for Famine Relief, the last item in the programme being Tchaikowsky's '1812' Overture.

Closed circuit T.V. provided the necessary link between belfry and conductor's rostrum, and following an afternoon's rehearsal of indescribable chaos—and much running up and down stairs—an acceptable signal was found for correctly timing the entry of the bells.

Thus it was that, in competition with the orchestra, the band of the Royal Hussars, trumpeters of 'The Blues,' the Cathedral organ, suitably amplified, and a seemingly unlimited supply of military thunderflashes, the bells were rung for two short periods at the climax of the Overture. It was decided to ring 'Queen's,' a formidable task for those of the band to whom twelve bell ringing by definition means Stedman Cinques.

The ringers wonder if this is the first concert performance in which a peal has been used in such a way.

In case the audience felt that they had not had value for money, they were played out to a touch of Grand-sire Cinques.

MISHAP AT KENT COUNTY MEETING

It is curious what a little the average individual seems to know about bell ringing. In describing the accident one of the London daily papers says:

Bell ringing is a somewhat tricky art. In the raising, setting and falling of a bell the ringer must stand perfectly straight, and pull from the shoulder. If he bends his head he is liable to be caught by the rope as the bell swings over, the rope giving a little twist and forming a loop a few inches below the 'sally' every time 'she' swings over.

GUILD OF MEDICAL RINGERS

The annual meeting of the Guild of Medical Ringers was held at Great Dunmow, Essex, on May 13th. Ringing took place during the afternoon at the Parish Church, and the Master (who arrived late because he allowed professional commitments to interfere with ringing—an unforgivable offence in the G.M.R.) heard some excellent Kent Minor being rung on these beautiful bells as he walked up to the church. Thereafter all eight bells were kept going, and as well as a goodly number of members, including the president, (W. R. Winterton) there were several visitors. Ringing in various methods (variously successful) went on until 4.30, when the service was held in the church, conducted by the Vicar.

The company then adjourned to Stebbing, where there is a useful and tuneful six (and a ringing incumbent—is this just a coincidence?). Here again the bells were kept going in various methods, even rising to the heights of London Minor and a touch of 'Spliced' (reduced to two methods eventually and shaking the president by coming 'round' at the back stroke snapping lead of the treble which he was ringing).

The largest company that has gathered so far for a G.M.R. meeting sat down to an excellent dinner at the 'Saracen's Head,' at Great Dunmow, and we were glad to have with us the Vicar of Dunmow and some local ringers as guests. By tradition no speeches were allowed, except a few words from the president. The business meeting, commendably brief, followed. It was noteworthy in reporting a peal, the second rung for the Guild, and the first of Major, at Stamford Hill in March, conducted by P. A. F. Chalk. The honorary secretary and treasurer reported that the usual summer meeting would take place by the invitation of Dr. Rowarth, in the Swindon area on July 1st, and the winter meeting in the City on November 25th.

Election of officers resulted in the re-election of the president, W. R. Winterton; the Master, D. J. Neal Smith; and the honorary secretary and treasurer, D. L. Gullick. One honorary member, J. Phillips, was elected, and several associate members. One associate member, Gillian Neal Smith, made history by being the first associate member to be elevated to full membership.

The meeting closed by thanks being expressed to the two incumbents, for the use of the bells, and to Dr. Castleden who made all the local arrangements.

INTRODUCING THE NEW MEMBER — PART II.

By the Rev. JOHN SCOTT

THE Devonshire Association of Church Bell Ringers is by general consent the senior body of a very loose federation of smaller bodies. To understand how this works it is necessary to realise one very great difference between the call-change societies and any others. The call-change ringers have put their faith almost exclusively in the competition as their means of encouraging good ringing. It's a hotly-debated belief, this; it is pointed out that competition-ringing tends to keep bands small, it tends to set so high a standard that a crack team will not tolerate lowering it to get learners in the band, and it tends to perpetuate the one-man-one-bell custom which has crippled many a good team which still had more ringers than ropes. Be that as it may, the Association has some 80 towers affiliated to it, and the smaller bodies cover a host more, so that the call-change ringers can point to some success behind their practice. However, it does mean that an Association exists almost exclusively to run competitions, with the result that if the ringers in one area found they wanted a local competition for their deanery or district, they set up a society to run it rather than a branch of the parent body.

Most of these local associations, in fact, preceded the Devon Association, which when it came into existence did not in any way supersede them, but did in the course of time attain an unchallenged leadership. It was presumably the coming of the motor-coach which, making it possible for ringers to move farther afield to competitions, brought the need for a contest for all Devon, and the Association provides this in the form of an 8-bell competition for the whole county, and three 6-bell competitions—one for North Devon, one for South, and one final in which the five leading teams from each take part. This last was on June 10th at Shirwell this year; West Down lead the North from their festival at Hartland, and West Alvington 'A' lead the South from theirs at Broadhempston. North Devon have held the Ross Shield for some years now, but after reading that W. Alvington got away with 17½ faults last week, they are not quite so cocksure as they sometimes are.

Members of the Central Council already know Beric Bartlett, who is one of the Association's four representatives on it. The others are the Chairman, the redoubtable Tom Darch, Albert Tapper and George Daw. The Secretary is E. J. Cole, of High Bickington, and the President is Mr. T. Oatway, of Morchard Bishop. But beside the officers the judges hold a very high position indeed in this part of the Exercise, and they deserve it. Imagine being shut away with two others in a cottage bedroom, a school, or even a car on a warm May or June afternoon, incommunicado and out of sight of the tower. Imagine then having to listen intently to perhaps five hours' ringing, maybe 10,000 rounds nearly, rise, changes and lower, and check not just the course-ends or even lead-ends, like the umpire in a record attempt, but every single blow—a dot for a quarter-fault for a blow mis-struck, a line for a half-fault for a clip, a cross for a whole fault for a bell out of place. Not till the last lower is done and all the marks checked, compared and averaged, can the judges emerge from their voluntary prison and announce the results, still not knowing which team has won until the captain of the second or fifth in order of ringing comes forward. These men are highly skilled and vastly experienced, and they do this work for the good of ringing over and over again, willingly, whether it be the Devon 6-bell or a little deanery affair with a large novice class to give them more work and less pleasure.

Will we ever see an amalgamation between the Guild and the Association? There was a time when it was much in the air, at least on the Guild's side, but more and more of us are wondering whether it would be such a good thing after all. Call-change ringing is such a very specialised and different art that it is probably better served by the organisation which it has itself called into being. Moreover, its demands from the Association are entirely different from the demands of change-ringing from the Guild, and no organisation based on an attempted compromise between them would serve either as well as they are served at present. Moreover, the federation of which the Association is the head is justly proud of a unique achievement—of taking a neglected, stagnant and unhealthy backwater of the Exercise and, without changing its essential nature and with very little official backing, infusing it with a new spirit, a new purpose, and the highest possible ideals. Such a body deserves better than amalgamation; and the Guild, so far from dreaming of a take-over bid, now seems proud to stand side by side with the Association for the cause of ringing in the diocese, and prouder still to be able to bring to the Central Council such an example of sturdy independence.

'It is a tragedy that in so-called Christian England it is not always possible to toll the bell every Sunday, to show that prayers are being said in the parish church.'—Bishop of Dunwich, at the annual meeting of the Order of Readers in the diocese of St Edmundsbury and Ipswich.

The time taken for the peal of Yorkshire Surprise Royal at Grantham on June 3rd was 3 hours and 28 minutes and not as published.

We regret to learn of the death on June 9th of Mr. Fred Adams, a past leader at St. Werburgh's, Bristol. A memorial quarter was rung on June 14th.

The dedication of the Parish Church of Stanton Harcourt is 'St. Michael and All Angels,' and not as published in the issue of June 4th.

The peal of Stedman Caters at St. Chad's, Shrewsbury, on May 20th (see 'R.W.' page 358), was the 50th together of Mr. and Mrs. Harry Poyner.

St. Cuthbert's, Darlington, ringers, when visiting Scarborough (see page 393), rang at St. Mary's, the only church in the town with a ring of bells.

We are informed that the peal rung at Benson, reported in the issue of June 9th, was rung for the Oxford Diocesan Guild and not the Oxford University Society.

Messrs. John Nicoll, the church bell rope makers, write assuring us that their business is not closing down. New premises are to be acquired about the end of August, owing to expiry of lease.

The bells of Totnes, Devon, will be heard on the Home Service on July 2nd at 9.45 a.m., previous to the broadcast of the morning service. Mr. James Browne is captain of the ringers.

Tuesday, June 27th, is a national ringing day, to mark the enthronement of Dr. A. M. Ramsey as Archbishop of Canterbury. Ringers are asked to let the public know the reason why they are ringing their bells.

BELFRY GOSSIP

Conducted by their Master, Mr. Dennis Beresford, the Society of Royal Cumberland Youths celebrated the 200th anniversary of the peal of Bob Major rung at St. Paul's, Bedford, by a visit to the tower and ringing a peal of Yorkshire Surprise Royal.

Pilgrims to Glastonbury tomorrow should note that there will be ringing at Street from 1.45 p.m.

The Misses Grace and Katherine Burchnall, with a royal wedding peal at Lincoln Cathedral on June 8th, completed Stedman from Doubles to Cinques.

The first peal has been rung on High Ham bells, one of the heaviest ringable fives in Somerset (tenor 20 cwt.). Afterwards the Rector, the Rev. E. Downing, most hospitably entertained the band to an evening meal, which was much appreciated.

Mr. W. J. Randall, who rang a peal at Hemel Hempstead for the royal wedding on June 8th, had not rung a peal for 16 years.

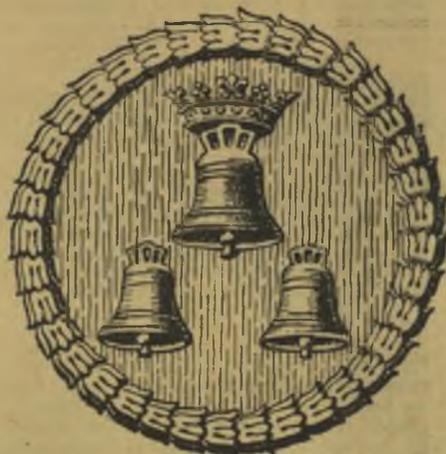

Miss Jennie Armstrong writes that the peal at Morpeth on May 25th was no compliment to the 81-year-old Mayor. He would rather have heard 'the curfew.'

Andrew T. Beckwith, of Coggeshall, Essex, has at last scored a peal on his own bells, a peal of London, three days after his 21st birthday. The band were very sorry that Mr. Frank Claydon, of Earls Colne, was unable to stand in the peal, but wish to congratulate him on attaining a very hale and hearty 80 years on June 6th.

The band who rang the memorial peal at Bray, Co. Wicklow, wish to convey a sixteenth birthday compliment to the tenor ringer, David Eames, of Gresley, Derbyshire, who, with some other ringers, had travelled to Ireland for this peal. The party also visited Christ Church and St. George's, Dublin, St. Mary's and Mount St. Alphonsus, Limerick, Doneraile and Kilkenny for ringing. In the three days they travelled 465 miles and also climbed Ireland's highest mountain, 3,414 feet.

ELEVEN TEAMS IN DERBYSHIRE RINGING CONTEST

None of the organisers, Messrs. Halls, Marshall and Carlisle, expected such a response from the Derby District to their striking competition, because on May 13th no fewer than 11 teams turned up at their appointed time nervously to perform on the excellent six bells of Horsley Woodhouse Church.

Perhaps it was the sunshine or perhaps it was the large number of pretty girls in summer frocks that created the cheerful atmosphere. No one except the judges (Roger Baldwin and David Friend, of the Nottingham University Society) seemed to notice how poor the striking was!

It would have been a bookmaker's holiday. A fancied team from Sandiacre crashed through a 240 of what they claimed was Kent. Then St. Peter's, the favourites, clipped through what was recognisably Little Bob. St. Andrew's 'B' team were present. The Cathedral experts were so pleased with their London Surprise that they celebrated with shots after every three leads. The Sawley conductor craftily switched from Stedman to call changes and, by this underhand trick, managed to come second in the contest. St. Andrew's 'A' and Duffield obviously set out for peals and had to be stopped after ringing about 500 of their 240 changes. Belper, Ockbrook and Etwell acquitted themselves well.

The shock crept on us slowly. Some team or other was ringing call changes nicely. Ears cocked as the rhythm settled and speeded up. This was good—even very good. What band was ringing? The truth slowly emerged that Alvaston, heart of the South Derbyshire and North Leicestershire Association, had had the audacity not only to enter our contest but to win it! We couldn't even claim that the judges were bribed as they had so obviously won.

We were consoled by tea. Eighty people were well catered for by the industry and hospitality of the Horsley people, led by our friend, Gwen Harrison. The Vicar welcomed us and the churchwarden, Mr. Else, told us a funny story and promised to buy us a silver challenge cup.

Our grateful thanks to the Vicar, the Horsley ringers, and Miss Gwen Harrison in particular, and churchwarden, Mr. Else. Our admiration for the judges, Roger Baldwin and David Friend. D. R. C.

SOUTHWELL DIOCESAN GUILD

Fifty ringers, drawn from 12 towers, attended the Mansfield District cup contest at Selston on May 27th. Unfortunately there were only two entries and the judges (Messrs. W. L. Exton and J. H. Pailing) had no difficulty in declaring Warsop the winners as Mansfield, the other competitors, rang out after 11 minutes.

A short Evenson was conducted by the Vicar, Rev. G. N. Pearce. This was followed by an excellent tea, kindly provided by the local ladies.

At the business meeting the chair was taken by the Rev. G. N. Pearce, who welcomed everyone to Selston. He expressed his regret that this was probably the last time that he would preside at a Mansfield District meeting as he was moving to Wilford in the autumn. He assured everyone that he would press for their bells to be augmented to six and encourage the local ringers to join the Guild.

It was confirmed that the next meeting—a joint one with several other local Associations—would be centred on Warsop on July 8th. Towers open would include Creswell and Cuckney in the afternoon and Mansfield and Mansfield Woodhouse in the evening.

The collection for the Bell Fund realised £1 7s. 10d.

After the customary votes of thanks, ringing was continued until shortly after 9 p.m. in a wide variety of methods, ranging from rounds to York Surprise.

PERSONALITIES OF THE EXERCISE - 25

MRS. F. J. MARSHALLSAY,
Winchester and Portsmouth Diocesan Guild.

Those ringers who visit Bournemouth for their holidays—and they are many—usually find their way to St. Peter's belfry on a Sunday or practice night. On most of these occasions they will be greeted by the cheery smile of Mrs. F. J. Marshallsay (née Marcia White), who has the distinction of being one of the three lady ringers who have rung more than 600 peals.

Marcia was born in Bournemouth in September, 1909, educated locally, and was taught to handle a bell by Harry Bennett, the late captain of St. John's, Surrey Road, Bournemouth West, joining the local band there on Palm Sunday, 1929. Her first quarter peal was Stedman Triples on Sunday, December 1st, 1929, at St. Andrew's, Well Street, London, W.1 (now completely rebuilt at Kingsbury), and conducted by that well known Stedman expert, the late Challis F. Winney. Her first peal was Bob Minor at Corfe Mullen, Dorset, on July 12th, 1930, conducted by Edward G. L. Coward. On September 28th, 1930, she made her debut as a conductor, calling a quarter peal of Grandsire Triples, and her first peal as conductor was in August, 1931, when she called a peal of Kent T.B. Minor from the 2nd at Corfe Mullen. Thanks to the help and encouragement she received

from the late William A. Cave and Joseph T. Dyke, she was able to ring her first peals of Double Norwich, Cambridge and Superlative in 1932.

Marcia has always taken a great interest in handbell ringing, having been taught by the late Frederick W. Townend, of St. James', Poole. Of her 616 peals, of which she has conducted 75, no fewer than 402 (conducted 65) have been rung 'in hand.' These have included two record handbell peals, 13,139 Grandsire Caters in 6 hours and 34 minutes and 15,840 Bob Royal in 8 hours and 2 minutes, both rung in 1953 and both conducted by that handbell expert, Daniel T. Matkin. He also called several peals of Spliced Plain Major, in which Marcia took part. Many of her peals on handbells as conductor have been Grandsire Triples, in which she has usually rung 3-4, and she is very proud of 3 peals of Stedman Triples, rung 'in hand,' conducted by the late Alfred H. Pulling and the late Clement Glenn.

On tower bells, Marcia has rung a wide variety of methods, including peals of Spliced Surprise Major from 2-8 methods, and these have been accomplished by the combined efforts of William E. Cheater and Frank L. Harris, the result of regular once-a-month Surprise practices at Ringwood, at which tower Bill Cheater is captain. She has rung Stedman from Double to Cinques, and Plain Bob and Kent from Minor to Maximus. She was also the first lady to ring 100 peals in a year, a feat she accomplished in 1949. Marcia has been a representative of the Christchurch Branch on the Central Committee of the Winchester and Portsmouth Guild for over 10 years.

In 1939 she married Mr. F. J. Marshallsay, who has an important position in the motor industry, and is not a practical ringer. In fact she is one of the few active married lady ringers whose husband is not also a ringer! She is employed in the tobacco and fancy goods wholesale business, and her car has always been at the disposal of any visiting ringers who want lifts for peals or meetings.

When the ban was placed on ringing during the war in 1940, she took up golf as a hobby, but this had to take second place once ringing was restored! Apart from the odd golf spoon, nothing more can be shown from this sport!

Marcia Marshallsay is an extremely neat bell handler, an excellent striker, and is possessed of a very jolly personality. Although married to a non-ringer, she has shown that it is possible to be as enthusiastic as the best and yet maintain a happy married life. Her many friends will wish Marcia and her husband long life and continued happiness. ASPACE.

FARNHAM DISTRICT STRIKING COMPETITION

It was a beautiful day and a beautiful setting for the Farnham District's 'Striking Competition' at Bentley Parish Church on June 3rd.

Eight teams of six ringers entered and the judges were Mr. W. Parker, of Sandhurst, who is Ringing Master of the Sonning Deanery Branch of the Oxford Diocesan Guild, and Mr. E. J. Bragg, of Aldershot, Ringing Master of the Farnham District. Each team was permitted two minutes' practice ringing and then had to ring for five minutes. The whole competition was recorded on tape by Mr. G. S. Joyce, of Farnborough.

Following tea, which was arranged by Mrs. A. Raggatt, the judges reported on the faults of each team and announced the results, which were: 1 Farnborough (17 faults), 2 Bentley (19), 3 Farnham (22).

This was the first competition of its kind in the Guildford Diocese. The competition gave much enjoyment and was of great benefit to the teams taking part.

WITNEY HOLD A STRIKING COMPETITION

There was a chapter of accidents at the striking competition held by the Witney and Woodstock Branch at Combe on May 27th. Three of the ropes were found to be frayed and a stay cracked. The ropes were put right and a warning issued about the stay. This, however, was soon knocked off and ringing stopped while a carpenter provided a new one.

While waiting for the stay the service was conducted by the Vicar. Again more delays; the new stay was too long and was fouling the track. Eventually the competition started and was completed. After an excellent tea, provided by the ladies of Combe, Mr. Diserens, who, with his son, judged the ringing, gave the scores and his comments. Results: 1 Eynsham 65 faults, 2 Woodstock 134, 3 Northmore 135; 4 Bampton 156, 5 Clanfield 178, 6 Northleigh 272.

The shield and certificates will be presented at the autumn meeting at Woodstock on September 30th.

SALISBURY DIOCESAN GUILD Increase in Guild Subscriptions

The annual festival of the Salisbury Diocesan Guild was held at Calne on May 13th. The annual general meeting was held in the Town Hall, the Master of the Guild, Canon C. Carew Cox, presiding, supported by the honorary secretary, Mr. W. C. West, Mr. F. S. Slatford (assistant honorary secretary) and Mr. L. A. Wilson, vice-president.

The chairman introduced the Mayor of Calne, Councillor L. M. Angel, and the Vicar of Calne, Rev. W. D. O'Hanlon, complimenting the latter on his appointment as a Hon. Canon of Salisbury Cathedral.

The Mayor in his welcome said it was a joy to see such a large gathering and commented on there being so many young people, which showed that campanology was holding its own in the Guild area and augured well for the future.

Apologies were read from the following: The Archdeacon of Wilts, Canon A. Wilkinson Markby, Rev. Roger Keeley, Rev. W. Uphill, Rev. G. C. Moore, Rev. and Mrs. Brinkworth, Miss Eloie, Mr. R. H. Duke, Mr. Alan Macdonald and Mr. G. S. Morris.

1,052 RINGING MEMBERS

In his report the honorary secretary stated a slight increase of membership, ringing members being 1,052, honorary members 9, associates 13, and 25 life members were elected.

Restorations had been made at Stourton, Warminster and Askerwell. The broadcast of Lyme Regis bells was commented upon, the honorary secretary congratulating those who took part.

The sub-committees responsible for the re-introduction of Belfry Prayer cards and the revision of the Guild office (used for the first time at this festival service), were congratulated and thanked for the work.

The honorary secretary and treasurer gave a résumé of the statement of accounts, stating the balance in the current actually had been reduced to £50 16s. 3d., owing to the extra expenses involved during the year. He thanked the West Dorset, North Dorset and Calne Branches for extra donation.

LOSSES BY DEATH

The following names of members who had passed away since the last annual meeting were read, the meeting standing in silence: Messrs. G. Norton, Frank Taylor, Harry Proat, Edward Marlow, C. Dickson, Charles Doel, Lord Shaftesbury (president), Martin Stewart (Past Master), M. Bailey and Alfred Peck, L.R.M. The adoption of the report and accounts were proposed by Rev. J. S. Arthur, seconded by Mr. E. J. Hitchens.

The election of officers resulted as follows: President, Canon C. Carew Cox (carried with acclamation); Master of the Guild, Rev. Richard Longridge; the honorary secretary and treasurer, assistant honorary secretary, auditors, Guild Committee and librarian were all unanimously re-elected.

The Guild and committee having carefully considered subscriptions, it was put to the meeting, proposed by Mr. C. Powell, seconded by Mr. E. J. Hitchens and carried—that ringing members' subscriptions be increased to 3s. 6d., with younger members, up to the age of 17 years, 2s. 6d., to take effect from January, 1962.

Grants were made from the Edwards Memorial Fund as follows: Yatesbury £3 3s., Abbotbury £5 5s. and Pewsey £5 5s.

The chairman reminded those present that 1962 would be the 80th anniversary of the founding of the Guild and it was decided to hold the next annual meeting at Salisbury on May 12th, 1962. It was also agreed that special ringing and, if possible, services be held on the Sunday nearest September 14th.

The Guild office was held in the Parish

UNUSUAL TOWER VISITED BY K.C.A.

S. AUGUSTINE'S CHURCH BROOKLAND

Church, conducted by the Vicar, there being five other robed clergy present. A course of Grandsire Triples was rung on handbells by the Lyme Regis ringers and appreciated by the large congregation.

Tea was served in the Town Hall, 105 sitting down, including the Mayor and Mayoress, who had joined in all the Guild's activities during the afternoon.

Canon Cox expressed hearty thanks to all concerned in helping to make such a successful and enjoyable festival.

The members then returned their various ways to ring in the 10 towers made available for their use.

CHILVERS COTON RINGERS' SUNDAY

Sunday, May 14th, was Ringers' Sunday at All Saints' Church, Chilvers Coton, Warwickshire. All ten bells were rung prior to the Corporate Communion service at 8 a.m., when fifteen ringers attended.

Evenson was especially devoted to ringers when special prayers were read and special hymns sung. Tunes on twenty-four handbells were rung by two members of the local band, assisted by ringers from Allesley. The preacher was Mr. T. Belton, a licensed lay reader from the Leicester Diocese and a member of an illustrious family of ringers from Barwell. His sermon sketched a history of ringing through the centuries, with particular mention of Fabian Stedman and Benjamin Annable.

Mr. Belton reminded ringers not to allow the fascination of ringing to outweigh the purpose for which they rang—to call people to worship and to remind those who did not attend that a service was being held.

The lesson readers were two fourteen-year-old girls, Christine Mason and Margaret Corcoran, recently promoted from probationers to full ringing members of the band. William Day and Peter Tallis, also aged fourteen, gave out the books and four senior members took the collection. Ringing on the tower bells followed the service, Mr. Belton joining the visitors from Coventry and the local ringers.

Ashford District

Some sixty ringers and friends attended the meeting of the Ashford District at St. Augustine's, Brookland, on May 27th. The church, with its leaning pillars, horse-box pews, twelfth century lead font, decorated with signs of the Zodiac and occupations of the months, and its ancient weights and measures in the Tithe Pen, is one of the most attractive and interesting in Romney Marsh.

The famous old belfry itself, with its conical roof of three separate portions, is rather like an extinguisher in shape, and stands quite apart from the church. It is built entirely of timber, said to have been collected from wreckage on the coast in the fifteenth century. One bell is of pre-Reformation date, and they have been a ring of five since 1685. The meeting was the first to be held here by the Association.

The service was conducted by the Vicar, the Rev. A. R. Jacobs. Mr. V. Preller, organist at St. Paul's, Brixton, and Brixton Prison, was at the harmonium. Afterwards tea was enjoyed at the Church Hall.

There was no formal business meeting, but six new members joined the Association, and thanks were expressed to the Vicar and organist for their kindness, and to Mr. G. Velvick, captain of the Brookland ringers, for making all the arrangements.

Many of the visitors took the opportunity of making the short journey to ring on the three little bells at Fairfield in the small isolated church lying secluded in its marshy waste.

QUENIBOROUGH RINGERS' OUTING

Queniborough ringers selected Warwickshire for their annual outing, which was held on May 23rd. Ringing started on the beautiful eight at Monks Kirby, which was followed by two sixes—Church Lawford and Newbold-on-Avon. After tea there was ringing at Southam (8) and at a newly augmented six bell tower on the Leicestershire border. Thanks are due to Mr. E. W. Parker, for making all the arrangements.

130 MINOR METHODS PEAL

Dear Sir.—May I offer my congratulations to the team who rang 130 Minor methods. It is a remarkable achievement by all the band, but that of the conductor, Mr. W. F. Moreton, must rank as one of the greatest feats of memory by any conductor on any number of bells.

One or two observations. The 'new' Little methods first appeared in 'Campanalogia' (1702), not in 'Clavis' as stated. The second paragraph should read, I think, 'unless methods with four places made at once are included,' i.e., methods with 'single' changes as an integral part of the method. If these, and irregular methods, were included the total would rise to between 140 and 150 in 7, 720s. I am in agreement with the 'objection on principle' by the band.

Both 720s, No. 2 and No. 7, can, by rearrangement, be made to contain 26 methods, although if either or both of these were included the overall number of methods in the peal would be reduced.—Yours sincerely,

H. CHANT.

HANDBELL RINGING IN RHODESIA

Dear Sir.—In a recent television programme (in Rhodesia), 'Watch the World,' I was delighted to see and hear a group of schoolboys from Sittingbourne ringing tunes on handbells. Can you tell me who was the teacher who appeared with them?

I have been considering approaching R.T.V. about a short (live) programme on change and tune ringing to enlighten Rhodesian viewers, and any practical hints would be most welcome.

Mr. V. Field, a ringer now in Rhodesia, gave a short talk last year on R.B.C.'s 'Young Rhodesia' programme, assisted by some Amandas (S.R.) school children, whom he had taught to ring on the handbells, belonging to Salisbury Cathedral.

As Amandas is 36 miles from Salisbury it became too costly on petrol to continue to borrow the bells each week, and the little group had to give up. But I hear rumours that a set of handbells is to be given to the school in the fairly near future, so I hope they will get going again soon.

I have a small group of girls and adults progressing slowly on my own set of eight bells, here at Umvukwes.—Yours sincerely,

V. GROSSMITH (Mrs.).

TO TOM LANE

Dear Sir.—The verses you published recently were not original. I thought I had read them somewhere before and sure enough a brief search brought to light a page from your issue of August 23rd, 1935. The page was headed:

RINGING'S WORST POET

The verses of Mr. JOHN BINQUES

(By Our Own Representative)

The verses were there, but each ended with 'The Bellringer!' and not 'Tom Lane.'

Binques claimed to be 'Ringing's Worst Poet' in your issue of August 16th, 1935, with his poem which started:

'A party of ringers, of real ding-dong dingers, who wanted a peal of Cinques, Travelled one day, with spirits quite gay, to the village of Surfleet in Linques.'

If it is necessary to dedicate verses to the memory of some respected ringer such verses should, at least, be original!—Yours sincerely,

HAROLD WALKER.

GUILD AND ASSOCIATION FINANCES

Dear Sir.—Within the last month I have attended the annual meetings of two well known Associations. At each of these meetings considerable time was taken up in deciding on ways and means of increasing the annual income. Amongst suggestions were the hardy annuals of peal fees and levying a cost for the yearly report. The obvious solution to these financial problems is to increase the amount of the annual subscription. An increase of two shillings, making five shillings per annum, would place the two Associations, whose meetings I attended, not only in a position to meet the costs of their annual reports with ease, but leave them with sufficient surplus to make grants to restoration appeals when called upon.

It is high time that ringers in general realised that subscriptions of a half-crown may have been quite adequate twenty-five years ago, but this amount is completely insufficient to meet the cost of running an Association in 1961. In any case what is five shillings—little more than the cost of twenty cigarettes and no one will convince me that in these days of high wages there is any ringer who cannot afford to pay that sum for all he or she gets out of their ringing.—Yours very truly,

F. C. A. BENNETT.

Claverley, Wolverhampton.

ST. DUNSTAN'S DOUBLES

Dear Sir.—Regarding Mr. Amos' query about St. Dunstan's Doubles, neither of the methods he submits is correct.

The correct method, as given in Stedman's Campanalogia of 1677, by Annable in 1730 and in Campanalogia Improved of 1753 is as follows:

Plain Lead is a Grandsire Bob,

Bob Lead is a Grandsire Extreme,

Single Lead is a Grandsire Single.

This method is very well known, and has been rung several times to peals, since it has 32 different callings, and with the ten callings of Grandsire, makes up a nice peal of 42 different extents.

Might I ask which is the correct St. George's Doubles? Some years ago one variation was published in 'The Ringing World,' it being All Saints' Doubles, rung with Grandsire Extremes. Now we have another variation, which is an extent of Spliced Winchenden, Wexham and Reverse St. Faith.

Doubles Variations cause enough trouble as it is, without using the same name for two different variations. Perhaps the ringers of the later variation will give it a more suitable name (might I suggest Spliced Winchenden, Wexham and Reverse St. Faith). Further, the later variation has 28 different callings. How many different extents were rung in the peal at Wootton on April 22nd?—Yours sincerely,

FRANK T. BLAGROVE.

Windsor.

TO THE LADIES

Dear Sir.—May I be allowed to congratulate, publicly, the band of ladies who rang the peal of Cambridge Royal at St. John's, Leicester, last month? I was able to listen to the last five courses or so, and can say that the standard of the ringing was very high throughout that time.

Whilst I hesitate to single out any one member of the band, I think it's fair to say that no man could have made a better job of placing the tenor with such precision than did the lady concerned. Altogether it is a performance of which the Ladies' Guild may be justly proud.—Yours sincerely,

PATRICK I. CHAPMAN.

Daventry.

SWANSEA & BRECON GUILD'S RINGING SHIELD RETURNS TO THE DIOCESE

Cefn Coed was the venue of the 1961 annual ringing competition, where six bands assembled outside St. John the Baptist Church on May 27th. A friendly and happy atmosphere prevailed, which may have been partly due to the weather being kind for once.

Ringing commenced soon after 3 p.m., the Newton Nottage band being late arriving. The order of ringing was as follows: Cadoxton, Newton Nottage, St. David's, Llanfaes, Sketty, Talgarth and St. Mary's, Brecon.

Tea which followed was provided by the ladies of the parish, and thanks were expressed in a manner justifiable for the occasion.

The Vicar, the Rev. O. Morgan, who gave a warm welcome to Cefn Coed, remarked, with laughter, that the local band was not competing because they wanted the others to have a fair chance. But all jokes aside, he continued, in the near future he hoped the Cefn Coed band would be able to enter for the competition.

The adjudicator, Mr. A. J. Pitman, gave his summing up of the proceedings. The order was: Sketty 16 faults, Newton Nottage 38, St. Mary's, Brecon, 46. The Vicar then presented the shield to the captain of the Sketty band, Miss Hazel Way. Mr. Michael Larder presented certificates to the Newton Nottage band, who came second, and to Mr. Michael Thomas, captain of St. Mary's, Brecon, band, who came third. J. A. H.

A NEW RING FOR ESSEX

On May 17th a new six was dedicated at Hatfield Heath, Essex. The tenor is approximately 4 cwt., and the bells are a delightful little toy ring and are a great acquisition to the Exercise.

There was previously a chime of 3 bells in the tower, the heaviest being about 8 cwt. The church authorities, showing great foresight, decided to scrap these and have a decent ring of bells. Their progressive attitude has been well justified and the general opinion has been more than favourable.

The work was carried out in fine style by Ernie Rowe for Mears and Stainbank, and he brought a band from Stamford Hill to try the bells out. The striking was immaculate and ranged from Stedman Doubles to London Minor. It is hoped that the local band will be able to emulate their ringing.

50 Years Ago

'R.W.' June 23rd, 1911.—

Many and strange are the places where birds build their nests. Recently a small hole in the window pane of the ringing room at the Oaks Church, near Whitwick, attracted the notice a peal of starlings. They built their nest just inside the window ledge, and notwithstanding the presence of the ringers several times each week, they have hatched out their young, and the fledglings have been fluttering about the ringing chamber.

The late Mr. William Collins, of Bagshot, Surrey, bequeathed £500 to St. John's Church, Herne Bay, for providing a ring of bells, conditional upon a tower being added to the church within five years.

GREAT SALKELD RINGERS WERE DECEIVED

We are pleased to publish this week the following letters concerning the taking of photographs in the belfry of Great Salkeld, Penrith. From the correspondence it seems apparent that these ringers have been exploited by irresponsible journalism. The letter below has been sent to the convener of the Literature and Press Committee of the Central Council.

Dear Sir,—My attention has been drawn to criticism by you and others, of some photographs of Great Salkeld bellringers that appeared in a Sunday newspaper. Might I be allowed to correct some of the facts that have been grossly distorted.

We were approached by a London Press Agency, who asked if photographs could be taken of our 6 teenage girl ringers, the suggested theme was [these girls being instructed in ringing by our leader, Mr. Tom Lambert, now 80 years of age. Many photographs were taken of these girls being taught ringing in the proper manner, although at this time they were all competent ringers.

Towards the end of our practice, and during a discussion on ringing, the photographer asked if he could take a picture of a girl being lifted off her feet, as would be the case if a stay broke, and the ringer failed to leave loose of the rope. I pointed out that this was bad ringing practice and had never happened to my knowledge in our belfry; but he prevailed upon me to attempt to obtain a picture of what he described as an 'action shot.'

I, therefore, asked two of the girls to ring down their bells, and when nearly down, to retain hold of the 'sally,' in which case they would be lifted a little way off the ground. Unfortunately, one girl retained her hold much earlier than was ever intended, resulting in the picture that was shown in the paper.

While regretting very much having made possible this type of picture, it did not occur to me at the time that this would be published as actual bell ringing practice, when it was nothing more than a photographer's 'stunt.' After all, many other good photographs of correct bell ringing were obtained and these were the ones we had thought would be published, if any, and not the rubbish that appeared in this Sunday 'rag.'

I can assure you that the general conduct in our belfry is above reproach, and that we try to teach ringing to the best of our ability. It seems very unfair that after 50 years' ringing in the case of Mr. Lambert, and 20 years in my own case, our efforts to help bellringers should be portrayed in this ridiculous manner.

It is easy to be wise after the event, but we were given no indication that these silly pictures would be published as bellringing.

The unfavourable publicity has caused great distress to all our ringers, but I trust that these few facts have gone some little way to answer the criticisms levelled at us by you as an official of a responsible body of bellringers.

—Yours faithfully,
J. L. CARRICK
Great Salkeld, (Churchwarden).
Penrith, Cumberland.

MR. EDGAR SHEPHERD'S REPLY

Dear Mr. Carrick.—Your letter has reached me this morning, and I thank you for writing at such length. As convener of the Literature and Press Committee of the Central Council of Church Bell Ringers, I held it to be my duty to write a letter of protest to the editor of 'Sunday Pictorial,' and if that letter has been correctly represented to you it will have been clear that my reproof was directed to the journal and not to the band at Salkeld.

Your band has, I fear, suffered the fate that has befallen other bands in the past, in that it has been unwillingly exploited by irresponsible journalism. Unless I am greatly mistaken this was the general feeling among members of the Central Council, when the matter was mentioned at the meeting at Stoke-upon-Trent.

It may be that you would welcome the publication of your letter, and if that is so, I will send it together with a copy of this letter, for publication in 'The Ringing World.' Will you kindly let me know whether or not this meets with your approval?

Assuring you of my personal sympathy with you at this time of such undesirable publicity.

—Yours sincerely,
EDGAR C. SHEPHERD.

NORTH WALES ASSOCIATION AT PORTMADOC

For the annual meeting of the North Wales Association on June 3rd at Portmadoc, a coach load of members and friends left the Wrexham area early. Others made the 60 miles journey by car and the bells were ringing merrily by 2 p.m. The Rev. Neville Thomas, curate, conducted the service and this was followed by an excellent tea provided by local ringers for a company of 60.

The Rev. Neville Thomas presided at the business meeting and Mr. Dennis H. B. Millward deputised for the secretary, Mr. W. Cathrall, who was away on holiday. Arising from the minutes, Mr. J. Evans (Rhyl) reported that Mr. J. Powell was recovering from his long illness. The report and balance sheet were adopted.

Officers elected were: President, Rev. J. Knighton Jones; vice-presidents, Rev. J. Humphrey Jones, Mr. J. E. Antiss, Mr. G. F. Hewitt, Rev. L. Hughes, Rev. D. R. Griffiths, Rev. Gilbert Wright; Ringing Master, Mr. F. R. Evans; honorary secretary and treasurer, Mr. W. Cathrall; District secretaries, Mrs. L. S. Griffiths (Bangor and Rhyl) and Mr. Dennis H. B. Millward (Wrexham); District instructors, Mr. L. S. Griffiths (Bangor and Rhyl) and Mr. F. R. Evans (Wrexham); C.C. representative, Mr. Dennis H. B. Millward.

Mr. Dennis H. B. Millward gave an account of the important items discussed at the Central Council meeting at Stoke-upon-Trent, and of the honour and welcome bestowed on the Council by the Lord Mayor and Corporation. He particularly stressed the need to increase the circulation of 'The Ringing World' and to support it in other ways.

In proposing a vote of thanks to Mr. Mill-

ward for his lucid report, Mr. Albert J. Hughes, of Bangor, added his support to the plea for 'The Ringing World.' He said he had taken it since the first issue.

The next half yearly meeting will be held at Bodelwyddan, on the first Saturday in September. For the annual meeting of 1962, a very cordial invitation was extended by the Llangollen ringers. It was unanimously agreed to accept the invitation and to hold the meeting on the second Saturday after Whitsun. Twenty-seven new members were proposed and accepted.

The acting secretary informed the meeting of the open day to be held at Hope, Flintshire, on Saturday, June 24th, and that the Hope ringers extended a cordial welcome to everyone.

The ladies of Portmadoc, who had so graciously waited at tea, were asked to come into the room and received a very hearty vote of thanks.

Towers represented: Llandudno, Bangor, Rhyl, Llangollen, Hope, Wrexham, Machynlleth, Buckley, Mold, Gresford, Chester, Dodleston, Portmadoc.

HAGLEY, WORCS.—On May 24th, 1,440 Plain Bob Minor: A. J. Roden 1, P. L. Bill 2, J. A. Tandy (first of Minor 'inside') 3, J. E. Lawley 4, M. D. Fellows 5, M. J. Fellows (first of Minor as cond.) 6. First of Minor by 1, 2 and 4. A compliment to the 3rd ringer's mother on her recovery from a serious illness.

HASTINGS, SUSSEX.—At 80, Park View, on June 7th, 1,260 Plain Bob Minor: A. A. Price 1-2, E. F. P. Bryant (first 'in hand' as cond.) 3-4, A. Jackson 5-6.

LANCASHIRE ASSOCIATION

For the annual meeting of the Lancashire Association held at Liverpool on April 29th, ringing commenced at 10.30 a.m., when the following towers were available: Liverpool Cathedral (12), Our Lady and St. Nicholas' (12), St. Francis Xavier (R.C.) (8), St. Mary's, Walton (8), Emmanuel, Everton (8). The annual service was held in the Lady Chapel of the Cathedral at 3.45 p.m., the preacher being the Rev. Canon F. H. Perkins.

Tea was enjoyed in the Refectory and the A.G.M. followed immediately afterwards. The president, the Rev. R. D. St. John Smith, presided, supported by Mr. S. L. Parry, who was called upon to act as secretary in the unavoidable absence of Mr. F. Dunkerley, who was abroad on business. The president remarked that it was a pleasure to see such a record attendance.

The Rev. R. D. St. John Smith was re-elected president for a further term of two years. Mr. S. L. Parry was again re-elected ringing secretary. The president expressed the good wishes of the meeting to Mr. Parry, who had been indisposed for the past six months, but was now happily recovering. Mr. John F. Wood was elected treasurer, and Mr. Peter Crook was thanked for his past services to the Association.

The reports of the committee and ringing secretary were taken as read and the balance sheet and auditor's report were approved.

The president told the meeting that the Association must, in the very near future, consider its finances, as the time had come when the annual subscriptions would not cover the cost of publishing the annual report. (The Association membership now stands at 1,058 members resident in the county, being a decrease of 56, whilst non-resident members total 97, an increase of 6.)

Mr. William Smalley, of Bolton, was transferred to life membership.

The president, on behalf of the Association, gave thanks to all who had in any way contributed to the success of the day.

THE ANNUAL REPORT

The annual report gave the strength of the Association as follows: Honorary life members 67, non-resident members 671, ringing members 1,058 (new 97). Peals rung during the year totalled 133, plus two peals for 1959, which arrived too late for inclusion in the last report. The year 1960 had been a record one for the Association in the diversity of methods rung.

Twenty-one new members rang their first peal, 170 their first in some particular method or on higher numbers, 256 members took part in peals. Conducting was shared by 44 members and there were five firsts as conductors. Leading conductors were Norman Smith 13, Cyril Crossthwaite 12. Leading peal ringers: Michael D. Fishwick 36, John P. Partington 33.

Congratulations were extended to: Arthur Tomlinson on ringing his 670th peal for the Association, Peter Cook senior his 450th, Laurence J. Williams his 325th, Roger Leigh his 275th, Edward Jenkins and Ronald Kenrick their 200th, Cyril Crossthwaite his 175th, Ivan Kay and John H. Gartside their 150th, Derek Ogden his 125th, George E. Braithwaite, Albert Greenhalgh, Nicholas M. Newby and Norman Smith their 100th.

LINCOLN DIOCESAN GUILD

A meeting of the West Lindsey Branch, held at Corringham on May 13th, attracted some 30 ringers to this fine old Saxon tower with its ring of six bells. Evensong was conducted by the Vicar (Rev. A. J. M. F. Cordes), and was followed by tea in the Village Hall.

The vice-president (Mr. C. H. Baker) presided at the business meeting, when the secretary (Mr. G. L. A. Lunn) gave final details of the Branch outing to Derbyshire on June 24th.

The Ringing Master (Mr. G. E. Feirn) called attention to the plans for a memorial to the late Mr. J. A. Freeman and his work as Master of the Guild. Members were asked to contribute through their tower captains, who would be circulated by the secretary.

At the Vicar's invitation, a number of members visited the neighbouring tower of Springthorpe, where the fine ring of four bells was much enjoyed.

SOME OF THE OUTINGS

GRANTHAM, LINCS

Those assembling at Grantham Market Place at 7.30 a.m. on Whit Monday would have witnessed the usual scramble for back seats as the coach filled to take Grantham ringers and friends on their outing.

Some very good towers were selected, but the first, Dunchurch, a six with a 19 cwt. tenor, caused some difficulty. Lunch preceded the ringing at Holy Trinity, Stratford-on-Avon (10), where the ringing was much enjoyed as were those at the next tower, St. Nicholas', Warwick (8, 14 cwt.). Finally, at Coventry, St. Michael's, Stoke, bells (8, 13 cwt.), were rung to various methods.

On the way home a stop was made at Melton Mowbray for the usual liquid refreshment for some and fish and chips for others.

Methods rung ranged from Cambridge and Yorkshire Surprise Major, Erin and Stedman Caters, Double Norwich to Plain Bob Minor and Grandsire Doubles.

Lastly, we would like to thank the incumbents, tower captains and others who helped to make this tour a success.

P. A. S.

ST. MARY'S, ROUGHAM

Rougham and district ringers had a 16 hours' outing on May 27th, into North-East Bedfordshire. They assembled at the Rectory at 6.45 a.m. and reached home at 11.45 p.m. after a happy day. Despite this, they were at their posts on the Sunday morning.

After breakfasting at St. Neots, Goldington, Bromham and Turvey were visited before lunch at Bedford. In the afternoon came Milton Ernest and Felmersham, and then Sharnbrook Village Hall, where Miss Parsons and her teenage ringers had prepared an excellent tea. An hour's ringing followed and with visits to Odell and Harrold, where three veteran ringers were waiting to join in the ringing. A well deserved vote of thanks was proposed by Mrs. H. Ivings to the organiser, Mr. L. Wright.

The company would also like to thank Mr. Piron, general secretary of the Bedfordshire Association, and also incumbents, Miss Parsons and all who helped to make the day so enjoyable.

CHESTER BRANCH ANNUAL OUTING

'Be outside our house at a quarter-to-eight and no later, then we can get off to a good start.' These were the instructions given by 'Sergt.-Major' Percy Swindley to those of us who were joining the annual outing.

So it was! Thirteen of us with three cars were duly 'on parade' at the stated time and within a few moments, on the lovely morning of May 31st, we were heading south along the A41 to Hinstock, near Newport. Here the light six, by T. Mears, 1808, were soon ringing merrily. Unfortunately after 20 minutes' ringing a broken rope brought a premature ending.

Unlucky 13? well, we hoped this mishap wouldn't set the standard for the day, and so it proved to be, for the rest of the programme really went according to plan.

Soon we were at All Saints', Madeley, where this lovely ring was put to good use: afterwards to St. Mary's, Bridgnorth. Lunch, then on to Holy Trinity, Much Wenlock, where we had been asked to be in time to ring for a special service, at which the Bishop was present: 45 minutes of lovely ringing ensued on this fine ring of bells. On to St. Nicholas', Montgomery, and after ringing, tea was taken at the 'Dragon' Hotel, where a 'Major' tea was provided at 'Minor' cost.

A long drive through lovely countryside brought us to Llanfyllin, where we found the six at St. Myllin's to be in poor order. This was compensated for by the cordial welcome given and appreciation of our efforts shown by the local ringers. Our last tower was Welshpool. Here local ringers joined us in Grandsire and Stedman Triples.

Our grateful thanks are due to the incumbents for giving us the use of their bells and to those, with their ringers, who met us.

BOLSOVER, DERBYSHIRE

In order to avoid clashes with holidays, the annual outing of the Bolsover ringers and their wives and friends was brought forward this year to May 13th and this proved to be a very fortunate decision, as the weather was really kind.

A very early start was made to pick up friends from Chesterfield, Creswell and Warsop, and the party was completed by Miss Perkins in Nottingham and Ian Frazer at Leicester.

At the first tower, Higham Ferrers, Mr. Deighton was waiting to meet us and, despite the long draught of rope, the bells were rung quite well to various Major methods for approximately one hour. The ladies were very much impressed by the floral decorations in the very clean and spacious church. It was only a very short run to Rushden, and here the conditions were much more to the liking of the ringers. It was a very pleasant surprise to meet John Mayne, who was passing through Rushden to a ringing meeting.

The admirable arrangements for the outing had been undertaken by Mr. S. Foskett and he was waiting to meet the coach at Bedford, where a very substantial lunch was enjoyed at the Dujon Restaurant. One of the Bolsover ringers had travelled from Chessington to join the party for the afternoon and evening. The non-ringers took advantage of the glorious weather to spend the afternoon in Bedford and the river was a great attraction. The ringers visited Kempston and Bromham and were greatly impressed by the quality of the bells and the very hearty welcome at both towers.

Tea was also taken at the Dujon Restaurant and after the meal Mr. Cooper expressed the thanks of the party to Mr. Foskett for his assistance. Mr. Rooke, of Warsop, thanked Mr. Cooper for organising the outing and Mr. Foskett said how pleased he was to help any visitors to Bedford.

The evening ringing took place at St. Peter's and St. Paul's, Bedford, and afterwards Mr. Foskett very kindly arranged light refreshments at the Olney Arms. The coach finally left Bedford at about 9.15 p.m. and the journey home was completed without incident by about 1 a.m.

PENN, STAFFS

Some 35 ringers and friends from St. Bartholomew's Church, Penn, held their annual outing on June 3rd, through Worcestershire and South Wales. Before lunch, at Chepstow, the delightful eight at Upton-on-Severn were enjoyed. A drive through Abergavenny led to Usk, where the ringers were loath to leave this perfect eight for tea at Hereford. At the last tower, Bromyard, the not so well experienced had difficulty in striking this lumpy six. Methods rung included Kent T.B., Grandsire and Stedman.

In addition to incumbents, we thank Miss A. Frost ('Frosty'), our secretary, for the excellent arrangements for coffee, lunch, tea and coach.

UNIVERSITY OF LONDON SOCIETY WHITSUN TOUR

THE annual Whit tour of the Society was this year centred on Guildford. A party of 14 stayed at a hotel nearby, and others came for odd days. The hotel was comfortable, and the food good.

The tour began on Friday evening with ringing at St. Mary's, Guildford, where rope-sight is obtained through the clock. Ringing here was unfortunately limited owing to the unexpected presence of the choir in full song.

The first tower of Saturday morning was Albury (6), where some of the party arrived a little late having mistakenly attempted to ring at a monastery on the way. From here we moved to Wonersh (8) and Cranleigh (8), which was generally considered to be the best ring of the tour.

Lunch was succeeded by a fairly strenuous afternoon programme, with ringing at Dunsfold (6), the light five at Hascombe, Godalming (8), Shalford (8) and S. Nicolas', Guildford (10).

Dinner had been arranged at a restaurant in Guildford, and from here the party returned to the hotel. A dance was in progress, which seemed unending when one tried to get some sleep.

On Sunday morning, some of the party rang at St. Mary's, Guildford, while the rest attempted a quarter peal of Stedman Triples. This was lost at about the half way point.

After lunch at East Clandon, eight hardy enthusiasts rang at Bramley (6), while the remainder of the party recovered from Saturday's exertions. A second quarter, this time of Bob Major, was lost at West Clandon in the evening, when a rope that had been shortened for the morning's attempt came untucked. The remainder of the party rang for evening service at Merrow, where during his sermon the Rector told of a bell at Cambridge, which bears the inscription, 'Glory to the Church, and damnation to all enthusiasts.' It was later suggested that this might be adopted as a Society motto!

After the service, an excellent meal was served in the Parish Hall, followed by a film of the summer tour last year, shown by Doug. May.

On Monday another full programme had been arranged, the first tower of the day being Puttenham (6), which was followed by Farnham (8) and Aldershot (8). After lunch, the traditional course of London Scholar's Pleasure was rung at Ash (6). The party then moved on to Worplesdon (8), where ringing was delayed by a wedding, so a leisurely cup of tea was enjoyed on the 'lawn' of a nearby hotel. The last two towers of the tour were Old Woking (8) and Send (6), after which the party split up and joined the Bank Holiday battle to reach home.

Sincere thanks are due to all the incumbents and tower captains and to Doug. May and his family for the preparation of the magnificent meal on Sunday night, and the packed lunches we had each day. To this we must add our thanks to Doug. May himself for a very pleasant and efficiently organised weekend, and to Jill Lane, his fiancée, for carrying out all the paper work involved.

HERTS COUNTY ASSOCIATION

St. Albans District

In spite of the typically miserable May weather and the fact that the meeting at Towin was held on Whit Saturday, there was a good attendance. During the afternoon standard methods, rounds and Cambridge were rung. The service was conducted by the Rev. B. Braemar-Brown.

Because of the absence of local eating establishments, the ringers picnicked in a nearby field. Some were rather disgruntled at not having their tea time lubrication, due to late opening times of local hostelleries!

A short business meeting was conducted in the church, Mr. S. Huckle being the chairman. Sandridge was decided upon for the next meeting, with Single Oxford Minor as special method. Ringing continued until 8 p.m.

OBITUARY

MR. F. W. BURNETT

The death of Mr. Frederick W. Burnett is announced with deep regret. For many years tower captain at Portsmouth Cathedral, he had until about a year ago maintained his interest in all local ringing. Then, taken ill with chest trouble, he entered hospital for an operation, from which he partly recovered, so that he was able to take his place in the tower again; although he had resigned from the office of leader. A relapse ensued and he recently entered hospital again, where he died on June 16th. Ringing to his memory is being arranged.

MR. A. E. GREENHALL

The death occurred on June 6th of Mr. Albert Edward Greenhall, who was a regular ringer for 38 years at Halesowen Parish Church until 3 years ago, when his ringing was curtailed by illness. He was a member of the Worcestershire Association and Dudley Society.

The funeral took place at Halesowen Parish Church on June 10th, when tower bells were rung half-muffled, and handbells at the graveside, as a last tribute from his fellow ringers. The Worcestershire and Dudley organisations were represented.

MISS MARGARET SMITH

As the result of a tragic accident, Abingdon bellringers have lost a friendly and keen member in Margaret Smith. She was a girl of many and varied interests—a member of the Church Youth Club, a Sea Ranger, member of the church choir, interested in music, she could play the piano and viola and took music as one of her advanced level subjects. During her last year at school she was captain of her house, and played in the hockey eleven and tennis six. In the six months before her untimely death she worked at the Atomic Energy Research Establishment at Harwell. A keen bellringer, she was just beginning to cope with the more difficult changes. Her kindness and friendliness were well known to us all. We shall miss her very much.

**LEICESTER DIOCESAN GUILD
COMPETITION RINGING IN
HINCKLEY DISTRICT**

Firmly established in the calendar of the Hinckley District is the annual competition, now in its third successive year. This year the eight bells at St. Catherine's, Burbage, provided the competitors with plenty of opportunity to prove their capabilities. This time Earl Shilton, the original champions, were successful and Stoney Stanton were placed second, a similar position to last year.

IMPORTANT NOTICE

I understand that owing to misquotations in a recent article in 'The Daily Telegraph' it was implied that I am to cease trading as a bell-rope maker.

In an interview I stated, 'I am moving the business to Dorset,' which was printed as 'moving to Dorset,' from which it could be implied that I was retiring. Also the sentence 'when I go' should have read 'when I die.'

Although the position was made quite clear in a television broadcast of June 16th, there still appears to be some misunderstanding amongst my customers.

Under the Town and Country Planning Act my premises are scheduled for eventual demolition and I am moving the business to Dorset about August or September, 1961, from where I shall carry on trading as in the past.

'The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

No. 2619 Vol. LVII

FRIDAY, JUNE 30, 1961

Registered at the G.P.O. for transmission as a newspaper. 8d.

REMEMBRANCE

THE jubilee of 'The Ringing World' was not confined to the issue of a special number. On June 17th there was an act of remembrance when a number of friends of John Sparkes Goldsmith, the founder and first editor of this journal, assembled in the quiet, peaceful churchyard at Pyrford to honour his memory. To Mr. J. Frank Smallwood, the convener of the Editorial Committee, in the absence of the president of the Council (Mr. Fredk. Sharpe) who was lecturing in Northamptonshire, fell the responsibility of saying what everyone felt of J. S. G.—'one of the finest figures who had ever graced our Exercise.'

And these are the special points of remembrance that Mr. Smallwood recalled. 'He gave us the means of communication to keep us together by the founding of "The Ringing World." Then there was his life as a journalist—his writings were brilliant; as a ringer, who as a conductor and composer was first-class; as a loving and tender husband, who took such care of his ailing wife with remarkable patience.' Concluding, Mr. Smallwood said: 'Most of all we remember him as a man of sterling character and as one whose example we would all do well to follow. We recall his memory and we thank God for his life.'

The quiet, homely tribute was followed by a prayer offered by the Rev. D. L. H. Head, curate at Pyrford, and the laying on the grave of a wreath on behalf of all ringers by Mrs. Hairs. The brief ceremony concluded with the solemn ringing of handbells by Mrs. Hairs 1-2, F. I. Hairs 3-4, J. F. Smallwood 5-6, E. A. Barnett 7-8. Slowly, three times rang out, and then came a course of Stedman Triples.

Many had travelled far to join the members of the Editorial Committee, the hon. secretary of the Central Council (Mr. E. A. Barnett) and Mrs. Barnett, and the hon. treasurer of 'The Ringing World' (Mr. A. A. Hughes) in this act of remembrance. There were Mrs. Richardson and her daughter, Mrs. Wayman, from Lincolnshire, who took part in 'The Great Adventure' with Mr. Goldsmith; Mr. Jack Bray, Master of the Lincoln Diocesan Guild; Mr. Frank Perrens, librarian of the Central Council, from Coventry; Mr. Leonard Stilwell, from Sussex; Mr. and Mrs. A. D. Barker (Oxford Diocesan Guild), Mr. and Mrs. Walter Dobbie (Tonbridge), Mr. A. E. Coles (Middle-

sex Association) and Mr. Douglas Hughes. The Guildford Diocesan Guild, which Mr. Goldsmith helped to found and was the first secretary of, was represented by Messrs. C. W. Denyer (Master), W. Viggers, Harold A. Pitstow, Roy Collins, Mrs. Hazelden and Miss Elisabeth Loveland (secretary of Chertsey District). It was also the great privilege of many old friends to meet Mrs. Renshaw, the daughter of Mr. Goldsmith, and her husband.

From Pyrford it is some eight miles to Guildford's new Cathedral of the Holy Spirit. The invitation to ringers to join in Evensong was widely accepted, and there were about 140 ringers in the large congregation. These included Mr. and Mrs. G. W. Fletcher, who did so much at the critical time when the Central Council acquired the journal and directed its affairs during the early years. The Acting Sub-Dean (Ven. Windsor Roberts) and the Precentor (Rev. E. O. Ware) conducted the service, which included a special prayer for ringers and choristers. The beauty of the building made a deep impression on the visitors. At the entrance to the Cathedral a number of the company shook hands with the new Bishop of Guildford (Dr. George E. Reindorp), who as Provost of Southwark has in recent years been a popular figure at College Youth dinners.

A supper followed at Ayers' Restaurant, Guildford, attended by a company of about 60. It fell to the lot of the Editor to welcome the assembly on behalf of the Editorial Committee and the Guildford Diocesan Guild. Through the foresight of Mr. C. W. Denyer, with the co-operation of Mr. W. Viggers, there were souvenirs of the occasion in the form of leather book-marks, embossed "'The Ringing World.' 1911-1961.' and also an illustrated menu card with a drawing of Guildford Cathedral.

An entertainment had been provided: the Farnham Girls' Choir sang; Mr. G. S. Joyce and Dr. W. Wright gave a novel handbell act, and Messrs. Colin Chinnery and D. George played musical numbers. Major E. J. Bragg gave one of his popular ringing monologues. The whole of the programme was arranged by Mr. C. W. Denyer, who was heartily thanked for his services. A very large number of ringers took advantage of the many towers open, and among those participating were visitors from Ireland, Liverpool, the West Country and Birmingham.

Among those who sent apologies were Mr. R. S. Anderson, a member of the Editorial Committee, who was detained at Stoke on account of a business appointment, and Mr. A. C. Hazelden who, to the regret of the company, had had to enter St. Luke's Hospital, Guildford.

Those who know Billingshurst, Sussex, will join with us in congratulating Mr. and Mrs. Raymond Wood, sen., on their golden wedding. For 60 years the former has served the church there as a ringer and chorister, and has rung about 40 peals. Taking part in the congratulatory peal on June 10th, conducted by his son Raymond, was Mr. Albert Harman, who rang in his first peal and also at his wedding.

Readers will note the footnote to the peal rung at St. Michael's, Southampton, on June 3rd: 'First and last peal of Grandsire Royal by all the band.'

This week we have received peals of Grandsire Royal and Grandsire Major. One footnote their performance 'the first and last.' We leave others to comment on the music.

'I once thought I should be able to write that the girls got ants in their pants, but they moved before the little blighters got that far.'—Observant scribe of outing report.

Two Ingrave, Essex, ringers, Donald and Philip Bedford, have rung their first peal on the bells. Peals on these five are rare, and while there is no local record of such an achievement, it is possible that a visiting band has scored a peal here.

Ringing in the peal at All Saints' Church, West Bromwich, in honour of the golden wedding anniversary of Mr. and Mrs. George Hayward were Messrs. E. A. Parish and A. Mills, who rang in a quarter peal for their wedding at Christ Church, West Bromwich.

Six members of the band who rang a peal of Grandsire Cinques at Walsall completed the Grandsire family, from Doubles to Cinques. They were Mrs. E. Marion Key, Messrs. R. J. Warrilow, J. S. Eastwood, J. K. Smith, D. W. Friend and C. W. Eye.

To have Mr. George W. Pipe with them for one of their new Surprise method peals, the famous Hertfordshire band decided to call it Springvale Surprise Major. It is at Springvale, near Melbourne, that George and Di Pipe have their home. A nice Australian compli-

BELFRY GOSSIP

The Australian and New Zealand Association of Change Ringers has come into being with Mr. Robert W. Ferris, captain of the North Parramatta ringers, as first chairman.

Five members of the local band, including Canon F. A. Sanders, rang in a peal of Triples at Overton, Hants, conducted by Mr. Geoffrey K. Dodd.

Encouraging news from Cumberland. A peal at Penrith and Kent and Oxford T.B. Minor and a 720 of Plain Bob at Workington on June 18th. Peal attempts are planned for the future and learners are progressing favourably.

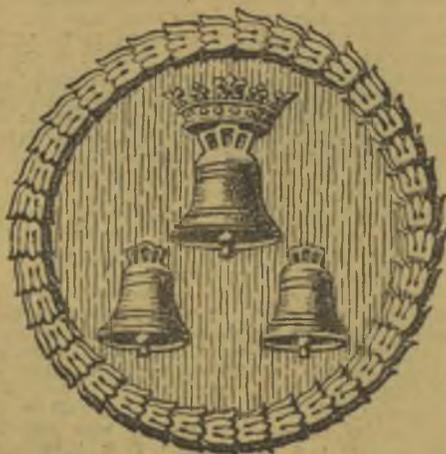

What might have been a unique peal came to grief last Saturday, just after the half way mark, when the sixth rope broke. It was St. John the Baptist's Day and a band of eight 'Johns' were ringing John Carter's composition of Bob Major at St. John the Baptist Church, Penshurst, Kent. They hope for better luck next time.

The peal of Double Norwich C.B. Major at Chobham, Surrey, was arranged as a tribute to the memory of John S. Goldsmith. Those taking part in the first peal of Double Norwich on these bells on Monday, June 12th, 1905, were: George W. Challice 1, Septimus Radford 2, Thomas W. Radford 3, Frank Blondell 4, Charles Hazelden 5, Robert J. Dawe 6, James Hunt 7, John S. Goldsmith (cond.) 8.

Growing concern exists among members of the Gloucester and Bristol Association at the number of towers where there is little or no Sunday service ringing. At a recent meeting the Rector in his address said: 'There is no church where a service is held tomorrow where the following words will not be said: "Lift up your hearts," and the response from the congregation will be: "We lift them up unto the Lord." What a pity that all the bells in those churches will not have been lifted up unto the Lord. You ringers are the only ones who can do anything about it.'

PERSONALITIES OF THE EXERCISE - 26

MR. & MRS. B. G. WARWICK, Leicester Diocesan Guild.

During the last few years, the peal columns of the 'R.W.' frequently contain the report of a new Surprise Royal method rung at the Loughborough Bell Foundry by the 'Monday' band. The mainspring behind these peals is usually Mr. Brian G. Warwick, of St. Thomas', South Wigston, Leics, who has rung 195 peals on the light ten there, and 'circled the tower' no fewer than 15 times. He is very keen on maintaining the Leicester Guild as the leading Guild for peal ringing, and the support he gets from his peal band has helped very considerably to do just this. Since 1955 he has been the Guild's general secretary.

Brian, who was born on March 20th, 1930, in Leicester, was educated at Alderman Newton's Grammar School in that city, went to the local University and later trained as a schoolmaster at St. Peter's College, Saltley, Birmingham. He learnt to ring at Leicester Cathedral in February, 1948, and rang his first peal on November 6, 1948—Grandsire Doubles—at Rothley, Leics, conducted by Ernest Morris, with whom he has now rung 313 peals. His first peal as conductor was on handbells on August 29th, 1949, being Bob Major with Daniel T. Matkin's band at Bournemouth. Up to May 20th this year he has rung 732 peals, of which he has conducted 463. Of this number 590 have been on tower bells (conducted 374) and 142 to call most methods from any bell, and prefers a light one. He has called Stedman Triples, Cambridge, Yorkshire and Superlative from every bell in the circle, and his ambition now is to call Grandsire Triples from the tenor to complete that circle as well! He has called peals on all numbers from Doubles to Cinques.

Amongst the many peals of interest in which he has taken part is one of the only two peals of Stedman Sextuples 'in hand' rung on November 29th, 1953, and conducted by the late Harold J. Poole, who did so much by his brilliance as a conductor to put the Leicester Diocesan Guild in the forefront of Societies. He also took part in peals of Cambridge Major, Royal and Maximus rung in one day on May 5th, 1951, for the Festival of Britain, and is proud of calling Ernest Morris' 2,000th peal—Morrison Surprise Royal—rung early this year. He remembers, with amusement, his first peal of Double Norwich rung at Wetherby, Yorks, in 1952, and admits he still finds some difficulty with the method! Many of his peals have been rung with the same band of ringers, and this

has enabled him to ring 273 peals with John A. Acres, and 231 peals with John M. Jelley, who is himself a very competent ringer and conductor.

In addition to being Ringing Master at St. Thomas', South Wigston (where the record 17,104 Double Norwich was rung in 1904 and where Brian has rung 61 peals, and 'circled the tower' five times), he is also organist and choirmaster and ringing instructor at Blaby, where the five bells have just been rehung. He is very interested in training new recruits for both churches, and obtains just as much enjoyment from a five-bell peal as from one of Surprise Royal with the 'Monday' band.

His wife, Winifred, whom he married in 1954 and with whom he has rung 210 peals, was born in Leicester on May 7th, 1930, and was taught to handle a bell at the Cathedral by her father, Shirley Burton, a well known ringer and composer, in April, 1949. One year later she rang her first peal, which was Stedman Triples, conducted by the late Harold

A Space Saver Over Peals

Chester Diocesan Guild have a space saver in regard to peals in their annual report. The peals occupy a line each. The ringers who rang for the Guild in 1960 are listed alphabetically and the number of the peal is recorded against the name. Footnotes are by a key. To print the peals (155) under the old arrangement would have filled 31 pages. This way 10. Other Guilds should study this report.

J. Poole. Greatly encouraged by her father's keenness, she attended meetings over a wide area with him, and made rapid progress. Within three years she had rung Spliced Surprise Maximus, completed 100 peals, conducted two and rung Cambridge from Minor to Maximus. In 1952, '53, '54, she was invited to join (with Brian) a peal ringing tour, and thoroughly enjoyed the ringing, scenery and friendship. So far she has rung over 300 peals, and is a member of 15 Associations. She took part in a married couples peal of London Major, and two 'all-ladies' peals. Her ringing career of late has been somewhat curtailed, through family responsibilities, as they have two children, Audrey, aged 5 and David, aged 3½ years old, but she is just as enthusiastic, and assists Brian at their practice every Tuesday, and once on Sunday.

Her thanks are extended to her father, who introduced her to ringing, and she remembers, with gratitude, the late Harold J. Poole, for his encouragement and the opportunities he gave her for ringing in a variety of methods on all numbers of bells. She also thanks her husband for his help, especially in his teaching of handbell ringing. Despite family commitments, she has found time to run a Cub Pack for the last 14 years, and is also secretary of the Midland District of the Ladies' Guild, and serves on the Glen Hills Memorial Committee. She is also an enthusiastic stamp collector, and is a keen gardener.

As long as Brian is general secretary of his Guild, ably assisted by his wife, and continues his remarkable enthusiasm, there is little doubt that the Leicester Diocesan Guild will be where he wants it to be—at the top.

A NEW SOUTH WALES CENTENARY

DESPITE inclement weather, the Queen's birthday week-end of ringing at All Saints', North Parramatta, was a huge success. The occasion was the 13th annual ring of the New South Wales Association and the centenary celebrations of All Saints' bells.

Three quarter peals were rung on Saturday, June 10th:—

1,320 Doubles (120 Southrepps, 240 Norfolk, 240 Old and 660 Plain Bob): Paul B. Gates 1, Linden R. Langshaw (first in four methods) 2, Keith M. Calvert 3, Graeme A. J. Langshaw 4, Ralph L. Clark (cond.) 5, David Langdon (first quarter) 6.

1,260 Plain Bob Minor: David C. Hughes 1, Graeme A. J. Langshaw (first Minor 'inside') 2, William D. Watson 3, Robert W. Ferris 4, Ralph L. Clark 5 John H. Fryer (cond.) 6.

1,320 Stedman Doubles: John H. Fryer 1, Audrey E. Peters (first of Stedman) 2, Ralph L. Clark 3, William D. Watson 4, Thomas W. Goodyer (cond.) 5, Ronald E. Miller 6.

The highlight of Saturday's ringing was the exceptionally well struck musical quarter of Stedman.

Saturday night there was a barbecue tea at Lake Parramatta, which was made more enjoyable by the antics of chief cook Warwick Munday.

Sunday's centenary peal was lost and the team had to be content with a good quarter of 1,440 Plain Bob Minor: G. A. J. Langshaw 1, W. D. Watson 2, K. A. Macqueen 3, R. W. Ferris 4, T. W. Goodyer (cond.) 5, R. L. Clark 6.

A TELEVISION FEATURE

Monday morning was THE RING itself and the start of the competitions was delayed by photographers, television crews and phone calls from the Press. Sydney at least knew what was going on even if it didn't know what it was all about. Patience was rewarded by a mention on the Channel 7 news that night (good shots of the church, tower, ringers ringing and the pioneers' memorial window were screened and the bells heard) and mention of results in both morning papers and on the national radio stations' early morning newscasts.

All Saints', Parramatta, St. Paul's, Burwood, St. James', Turramurra, St. Jude's, Randwick, and St. Mary's Cathedral entered teams for the Association Shield and each rang Plain Bob Doubles. Only one team failed to complete the course.

St. James', St. Mary's and St. Jude's competed for the Duncan Shield for Minor, Triples or Major. St. Mary's rang Kent, the others Plain Bob. A stay was broken and the final team rang with the bell shawls.

Evensong followed, during which the Tom Howell Memorial Peal Board was dedicated, members of his family being present. The peal board is rectangular of light brown polished wood, surmounted by a framed photograph of Tom Howell, and contains space for approximately 21 peals to be recorded.

The ladies had prepared a hot dinner in All Saints' Parish Hall, which was attended by the Mayor of Parramatta, Ald. A. R. C. Thomas and Mrs. Thomas, the local member of State Parliament, Mr. D. J. Mahoney, Revs. Crawford (Rector), Polain and Johnston (a probationary bellringer) and about 50 ringers and friends.

A feature of the official table was the white iced fruitcake topped with latticework bells and a church with spire, with marzipan bells in a double row down each corner, which the Mayores later cut. The inscriptions '100th Anniversary' and '10th Dinner' incorporated both themes of the dinner.

The loyal toast was proposed by Robert W. Ferris, captain of the local ringers and chairman of the Australian and New Zealand Association of Change Ringers. Regret was expressed that Bill Pitcher, of Adelaide, was absent through illness.

CENTENARY YEAR

'The Mayor of Parramatta' was proposed by the Rev. D. Johnstone and in reply the Mayor commented favourably on bells as a noise. He also extended a hearty welcome to the ringers who had gathered for the centenary celebrations of All Saints' bells, which also coincided with the centenary year of the city of Parramatta.

In a very witty speech Rev. Mr. Polain welcomed Mr. Mahoney.

Mr. Mahoney stated that he did not regard bells as noise, but rather as 'sounds from bells and I can't understand how anyone could object to them.' Each ringer was worshipping God, which they each did in their own fashion and if any church in his electorate applied for bells he himself would render every assistance to see that goal achieved.

The Rev. Mr. Crawford, proposing the toast of 'The Association,' stressed the fact that the Association was the only one he'd encountered which disregarded denominational differences entirely.

Replying on behalf of the Association, Tom Goodyer, secretary and Ringing Master, said that when had been achieved by the N.S.W. Association would continue and be strengthened by the addition of members from other States. The purpose of the Australian and New Zealand Association of Change Ringers was outlined and the fact that several of the other speakers had referred to bells as noise warranted quoting Dorothy Sayers' preface to 'The Nine Tailors.' The fact that any of the teams competing in the Association Shield would have won it on other occasions indicated the high standard of the ringing.

THE RESULTS

The Ringing Master then announced the results.

St. Paul's, Burwood, won the Association Shield with 14.5 faults, this being the first annual ring for the tower. Mr. Mahoney presented the shield to Laurie Bruce, captain of St. Paul's tower. The winning team were: G. Kerr, L. Bruce, L. Langshaw, P. Davis, G. Langshaw (conductor) and Bill Powell.

The Duncan Shield was won by St. Jude's, Randwick (25 points lost), for the second successive year. The Mayor made the presentation to vice-captain John Fryer, who stated that the team had not had their own bells since before Christmas and had not rung as a team for six months.

The inclusion of the home tower's 'star' ringer in the winning team aroused much derisive comment. The team stood: D. Hughes, Audrey Peters, Wendy Nichols, W. Watson, R. Clark and J. Fryer (conductor). (Just goes to show—a broken stay can't keep a good team down.)

The captain of St. Mary's (L. R. A. Curran) thanked 'the ladies' for the excellent meal provided and stated that all the effort required had been well worth while. The company stood and paid this tribute, which officially ended another highly successful annual ring.

Winning teams were photographed with their shields and as all the ringing had been tape recorded, a record is to be cut of the two winning touches.

After a final fling with the T.V. cameras all dispersed: the visitors homewards and the All Saints' contingent to the washing up.

Yes, the celebration of the centenary of All Saints' bells was very successfully observed. Long may they ring!

ESSEX ASSOCIATION

985 Members, Reports Annual Meeting

THE annual meeting of the Essex Association was held on Whit Monday at Chelmsford. Prior to the meeting the service was held in the Cathedral, and was conducted by the Provost (the Very Rev. G. E. Gordon). The lesson was read by the Master and the address was given by the Ven. W. N. Welch, Archdeacon of Southend.

Immediately after the service the annual business meeting was held in the Chapter House.

The report showed that the work of the Association had continued, with quite a degree of success through the year. Committee meetings had been held regularly and it was through the efforts of the committee that the work of the Association had taken effect. Ringing membership was now 985, an increase of 29, and there were 118 towers in union, as against 116 for 1959. There were 217 honorary members.

Peals rung for the Association totalled 123, the third highest in any one year for the Association. From the point of view of achievement the following peals were picked out for special praise: The record length of Bob Major rung at Kirby-le-Soken, the non-conducted peal of London Surprise at Halstead and a peal in 52 Minor methods conducted by J. E. G. Roast.

The Districts all reported a good year's work and endeavour.

The report was adopted and the editor congratulated on his efforts.

FINANCIAL POSITION TO BE EXAMINED

Financially the Association was still in a sound position, although the past year had seen a rather serious drop in the balance of the general account, chiefly due to the increased cost of printing the report. Suggestions varied from increasing the subscription to a payment for the report, but it was finally decided to leave it to the committee to examine the financial position of the Association. The Bells Restoration Fund continued to receive excellent support and a record amount had been contributed.

Under the agenda heading, 'Business as tabled,' there were two items. A proposition to alter the date and possibly the venue of the annual general meeting was proposed by the Northern District. This has been raised many times at annual meetings of the Essex Association, but once again the traditionalists prevailed and the proposition was defeated.

The other proposition, again from the Northern District, was one deprecating peals of Minimus. As the matter was down for discussion at the Central Council meeting at Stoke, the proposition was withdrawn, but a spot vote and check of those present who were against peals of Minimus showed that there were just as many in favour of them.

All the officers of the Association were re-elected and G. Waterman, of Harwich, was elected a life vice-president. The following were elected life members: J. Carrott (Hornchurch), L. Cordell (North Weald), C. Hughes (Leyton) and A. Madle (Fyfield).

Various items of a domestic nature came up under 'Any other business' and the meeting closed somewhat late.

The members then adjourned to the Cathedral Hall to enjoy an excellent lunch, prepared by members and their wives of the South Eastern District.

The usual towers were open and the excellent weather helped to make a very pleasant day.

LETTERS TO THE EDITOR

'NO ENCOURAGEMENT TO ENTHUSIASM'

Dear Sir.—Apropos the inquiry in the 'R.W.' regarding a bell inscription in Cambridge, Raven's 'Church Bells of Cambridgeshire,' 2nd edition 1881, gives the 7th at Whittelea, in that county, as being inscribed: 'Prosperity to the Established Church and no encouragement to enthusiasm. 1758.'

A poetic gem from the 6th in the same ring runs:

'The five old bells into six was run,

With additional metal near a tun. 1758.'

In parts, this book is enlivened by the author's own somewhat terse comments on people and places, e.g., Carleton—'This tower is a standing miracle of country builder's recklessness. Some day it will be a falling wonder.'—Yours, etc.,

W. E. BOX.

Harborne, Birmingham.

Dear Sir.—Raven, in his 'Church Bells of Cambridgeshire,' 2nd edition, records no bells in Cambridge proper with an inscription even like this. However, he gives Whittelea St. Mary's seventh of eight as: 'Prosperity to the Established Church and no encouragement to enthusiasm. 1758.'

This bell was cast by Joseph Eayre, of St. Neots. He also cast another bell with a similar inscription; this is the seventh of eight at St. Mary the Virgin, Welwyn, Herts, dated 1760.

I am glad to say I am the possessor of a long case (grandfather) clock by Joseph Eayre, which I picked up in an antique shop in Brighton, when I was working there. Though there must be a number of church clocks he made still in use. I have yet to hear of another long case one. Nor has Paul Taylor. Eayre's business ultimately became John Taylor and Co.—Yours sincerely,

RANALD CLOUSTON.

Radlett, Herts.

A MAIDEN'S FUNERAL GARLAND

Dear Sir.—Some members of the Lincoln Diocesan Guild, attending a recent West Lindsey Branch meeting at Corringham, were reported as ringing also at the neighbouring four-bell tower of Springthorpe.

It may be of interest to recall that in 1814 this church was the scene of a curious tragedy. A village girl, named Mary Hill, was killed through incautiously pulling a bellrope and being dashed against the belfry floor above.

A maiden's funeral garland of tattered paper rosettes still hangs as her memorial from an archway in the church, together with an account of the occurrence.—Yours faithfully,

M. L. MANN.

Lincoln.

CONGRATULATIONS TO THE SILENT FIVE SPLICED SURPRISE

Dear Sir.—I feel that congratulations are due to the band which rang five Spliced Surprise Major, silent and non-conducted at Silverdale on Whit Monday. This was no mean feat, even for a band of conductors, so congratulations, gentlemen!—Yours, etc.,

WILFRED W. RING

Ashford, Kent.

DOUBLES RECORD—A QUERY

Dear Sir.—I would congratulate Mr. Moreton and his band on their fine achievement, but I would like to know why methods with 'places made at once,' are inferior to the abortions of the Little Court species.—Yours faithfully,

P. W. SALTmarsh.

Danbury, Essex.

QUARTER PEALS AND THE LOCAL BAND

Dear Sir.—When one has been associated with ringing for some years and travelled about, one gets to know the state of ringing affairs in many districts, and when the quarter peal columns are perused and reports of a quarter peal of so and so having been rung at such and such a place these reports give one the impression that progress is being made, and the thought occurs that next time one is in a particular area it will be possible to join the locals in a touch of so and so. How misleading and disappointing this can be.

Upon reading the 'R.W.' for June 16th, I read that a quarter peal of Cambridge Surprise Major had been rung at Giggleswick-in-Craven, and with memories of ringing not being too healthy in that area when I was last there I thought here is new life and progress.

But disappointment struck again when I turned over a few more pages and read the report of a tour which contained the sentence, 'Their suggestion for grabbing a tower resulted in a quarter peal of Cambridge Surprise Major ringing out from nearby Giggleswick.'

I appreciate that space in the 'R.W.' is at a premium, but if it is desirable for ringers to publish these grabbed quarter peals in the 'R.W.' is it asking too much to add a footnote to the effect 'Not by a local band,' thereby removing any danger of misunderstanding.

In conclusion I feel that such such footnote could well have replaced the footnote to the effect that this particular quarter peal was rung as a wedding compliment to two people who were married 200 miles away nine days previously, which to me sounds so absurd, when in reality it was a tower grab.—Yours faithfully,

F. HODGSON.

Darlington, Co. Durham.

WERE ALSO IN 'THE GREAT ADVENTURE'

Dear Sir.—It was a surprise near to dismay to read in G. W. Pipe's report that only one member of the Great Adventure party was now living. The writer happens to know there is one, if not two more members, yet living and to use a 'horsey' term strong in wind and limb at the moment, one being the second oldest member of the Lancashire Association. The other member of the party is Mr. W. Linter, of Fareham, and a member of the Winchester Guild and these two met in the summer of 1953 for a chat about old times.

One recalls a practice night at the R.C. Cathedral, Sydney, previous to the peal attempt for Kent T.B. After a few touches the locals took hold and when they set up their bells the captain was asked what they had been trying to ring, the striking being terrible. The captain said they had been trying to ring Minimus in two sets, the back four of course leading from the last of the front four, a new idea to the party.—Yours sincerely,

C. S.

'PERSONALITIES OF THE EXERCISE'

Dear Sir.—I would like, please, to support 'Apace's' worthy tribute to Mr. and Mrs. A. D. Barker. Could I mention in addition the very large number of learners they have taught during their long association with Stoke Poges. They not only taught well, but imbued their pupils with a love of bells and ringing, and showed them by their own faithful example for forty years that Sunday service ringing must be a ringer's first consideration.—Yours, etc.,

'ONE OF THEIR FIRST PUPILS.'

32 TOWERS IN A DAY

Dear Sir.—In reply to Mr. John E. Cook's queries on the 32 towers in a day, his timing is pure fiction, and needs a little correction. At least 20 minutes' ringing took place in each tower, more in some. The band was in two halves though, one following ten minutes behind the other, which meant that an individual ringer spent only 10 minutes at each tower. Many of the towers were so close together that it took less than ten minutes to travel between them on a carefully pre-determined route.

Mr. Cook will now observe that timing even allowed for one or two short breaks, and still kept within the bounds of decent ringing hours.

Now I will answer his questions:

(1) The lighter rings were raised in peal and the heavier ones in odds and evens, which is not offensive to the ear. All bells were lowered in peal.

(2) There's always room for improvement in the standard of ringing on trips of this kind, as everyone knows, but we do not think we disgraced ourselves. The standard remained at a reasonable level all day, being helped by the use of relatively simple methods.

(3) The bells of the last tower were rung down in time for the clock to strike nine.

(4) All the local people meeting the band were offered a ring, though very few of them accepted. We were very careful over this point.

(5) Was it enjoyable? Yes. No participant complained afterwards. I feel the enjoyment was due largely to the sharing of responsibilities, and very careful planning and preparation beforehand. Finally no one got tired from or fed up with pulling bells up because they were rested from it by the bands changing positions, i.e., the leading band becoming the following band.

If Mr. Cook assisted with raising the bells in 17 towers in a row, then I don't wonder he got tired and fed up on his day out, and now prefers a humble 'six in a day.'—Yours sincerely,

RONALD K. RUSS.

Reading.

P.S.—Unlike Mr. W. T. Cook's unfortunate friend, the late P. J. Forbes-Smythe, my fellow tourists are all alive and ringing.—R. K. R.

PUBLISHING COMPOSITIONS

Dear Sir.—Over the past few years many compositions of Plain Bob, Double Norwich, etc., have been published in the 'R.W.' and followed a few weeks later by letters from eminent composers pointing out lack of originality, piracy, plagiarism, etc., due to the composers not having access to such collections of compositions as C.C.C., Parts I and II, which have been long out of print.

Would it not be possible for such collections to be 'serialised' in the 'R.W.' in abbreviated form, giving calls, number of parts, with code letters indicating musical qualities and the name of the composer in cases of originality beyond doubt?

A composition such as Pritchard's popular one could be set out:

4 part peals

5.056. W B 3H W B 3H W 2H W 3H: SS (2 and 4): J. R. Pritchard.

In such a way, anyone interested in calling the composition could work out the course-head, etc., for himself, which would be no more trouble than working out coursing orders, which I imagine most conductors do, anyway.

The C.C. Collections would take up no more than a page or so of 'R.W.' and spread over a few weeks would not unduly render 'R.W.' a 'text book.'—Yours sincerely,

GILES B. THOMPSON.

KENT RINGERS' TOUR OF OXFORDSHIRE

ON the evening of May 19th eight young enthusiastic ringers left their homes in Kent for a Whitsuntide tour of Oxfordshire. For transport, a dormobile was used, which was adorned by an artistically painted poster by Miss Margaret Ladd depicting the badge of the Kent Association. Headquarters were at the Elms Hotel, Iffley, where excellent hospitality was enjoyed.

Saturday dawned not very brightly, but a cuckoo in a nearby tree proved to be a reliable alarm clock. The first tower was the old Norman Church of St. Mary the Virgin, Iffley (10 cwt.), a very nice six. We gained our first glimpse of Oxford as we made our way to St. Peter's, Wolvercote (6, 6 cwt.), where the best striking was obtained, with a touch of Double Oxford. On to St. Mary the Virgin, Kidlington (23½ cwt.). Some excellent ringing was no doubt inspired by reading the peal board of 17,024 Double Norwich rung on May 22nd, 1899.

In spite of the belfry being a 'birds' paradise' the six at Weston-on-the-Green (8 cwt.), complete with new ropes, sounded and went well. After lunch at Bicester some good ringing was had on the musical eight at St. Edburg (15 cwt.). Through the countryside now to All Saints', Middleton Stoney (6, 9 cwt.), which is set in private parkland, where we were joined by ringing friends from Northampton.

The eight at St. Mary Magdalene, Woodstock (12½ cwt.), did not go at all well; then came our first heavy six at St. Bartholomew's, Yarnton (23 cwt.), and being anticlockwise they called for all our resources. After tea we travelled to St. Laurence's, Appleton (10, 14 cwt.), where we gazed in awe upon the brilliant craftsmanship of the White family. Some enjoyable ringing followed.

Sunday morning was full of expectation. At our first Oxford tower, the Cathedral Church of Christ (12, 30 cwt.), we were welcomed by Mr. Walter Judge. We later rang on the light eight at St. Martin and All Saints' (7 cwt.) and attended morning service.

After lunch, together with our Northampton friends, three five-bell towers were scheduled, at Stanton St. John (9½ cwt.), Beckley (11 cwt.) and Old Marston (5 cwt.), where we were fortunate in having Messrs. John Walker and Roy Jones as our escorts. Later we joined the University ringers at New College (10, 20 cwt.) and then at the University Church of St. Mary the Virgin (27 cwt.), where on this grand six we achieved some good short touches.

Monday morning came only too quickly. Our guide was Mr. Ted Venn, who met us at St. Giles' (8, 13 cwt.). Here our striking was far from our usual standard, and it was with a sense of relief when we made our way to St. Mary Magdalene (6, 8 cwt.), where

we were agreeably surprised at the tone of the bells. The Church of St. Ebbe was to be next and we were eager to tackle this renowned light eight (tenor 4 cwt.). A nice touch of Cambridge was brought round. The morning finished at St. Thomas the Martyr (6, 7½ cwt.). After a hasty lunch our first ring of the afternoon was at St. James', Cowley (5 cwt.), a beautiful 6 that was thoroughly enjoyed. Homeward bound we called at St. Mary the Virgin, Chalgrove (17 cwt.), St. Leonard's, Watlington (24 cwt.), and Henley-on-Thames (21½ cwt.). When Martin had rung the last note of the tour we enjoyed the superb view of the river from the top of the tower, before making our way home. It had been a very successful tour and for this our heartfelt thanks must go to Mr. Brian Jeffrey, for his excellent organisation; to Colin Tester and John Warner, for driving; and to all the incumbents and local ringers.

KENT COUNTY ASSOCIATION Tonbridge District

Set amongst some of the most picturesque wooded Kentish countryside are St. Lawrence's, Seal Chart (6, 10 cwt.), and St. Peter's, Seal (6, 12½ cwt.). These were the venue of a by-meeting of the Tonbridge District on June 3rd.

Ringings at both towers preceded the service at Seal, which was conducted by the Rev. A. S. Harryman, Vicar. The collection amounting to £1 13s. 0½d. was given towards the fund for augmenting Seal bells to eight.

An excellent tea was then enjoyed by a gathering of 24, being provided by the local ringers and their ladies. One new member was elected and a collection, which amounted to £1 12s. 6d., was taken for Dr. Fisher's Presentation Fund. Mr. P. A. Corby proposed the vote of thanks.

BARNSELY & DISTRICT SOCIETY

Five teams entered for the Barnsley District Shield Contest held at Kirkthorpe on June 10th. Mr. Harold Chant was the judge and the placings were Friezland 56 faults, Warsop 64, Silkstone 77, Cawthorne 89, Shelley 64. Mr. Joseph Burgess, who received the shield on behalf of Friezland, said he helped them to win it in 1939, when it was the same kind of day, raining all the time. Each member of the winning team received a brush, with polish and duster combined. The Vicar (the Rev. G. L. Barber) presented the prizes and the vote of thanks was proposed by Mr. J. Frank Smallwood.

At the business meeting it was stated that it was hoped to have Sandal, near Wakefield, for the meeting on July 8th.

COMPREHENSIVE 'DUAL' RINGING COURSE

PROFITING by its experience since its original course at the Somerset Education Authority's Dillington House early in 1959, the College of Campanology, invited to co-operate with the Buckinghamshire Education Authority at Missenden Abbey, in a ringing course of general public appeal, planned a comprehensive one of 'dual' type. The successful issue took place over the week-end, June 2nd-4th. The co-operation of the local ringing Association was invited, and the support given by the local tower band, Little Missenden, is gratefully acknowledged.

The problem was that the course had to be designed to suit not only those who knew nothing of ringing (and beginners), but also instructors—actual and would-be. Advertisement for this wide general appeal was made not only in 'The Ringing World,' but also in the national press. The syllabus was designed accordingly, with the four lecturers putting over their subject matter, illustrated with projectors and other interesting aids.

The ground covered included: (a) History and Mechanics of Church Bells; (b) Introduction of Practical Ringing—Action and Rope-handling; (c) Belfry Care and Maintenance; (d) Bell Control in the Elements of Change Ringing; (e) Demonstrations, Handling Practice and Change Ringing, in local tower; (f) Calling as an introduction to Conducting; (g) Method Structure in Change Production (elementary); (h) Handbell Ringing (beginners); (i) Composition (elementary).

Besides the various 'aids' used in the lectures and demonstrations there was a fascinating exhibition, in the gallery, of a very large collection of photographs; also a magnificent display of handbells—part of the second largest collection in the world—all brought by Mr. Frederick Sharpe—and ultimately put to good use in the course. In addition to the usual 'questioning' there was also a ringing Brains Trust period. In this the question master was the deputy warden, Miss D. M. Milnes, M.A., and the members of the team were the four lecturers—all officers of the college—Messrs. A. York-Bramble (principal), Frederick Sharpe (consultant, towers and belfries), Richard Speed (vice-principal) and Geoffrey Dodds (an honorary tutor).

The gathering closed with a 'concert,' given jointly by members of the course and those of a simultaneous one on recorder playing. The ringers' contribution featured the use of Mr. Sharpe's handbells, under his direction. Enjoyment was mutual. Mr. Sharpe also took the Sunday morning brief service.

Students expressed their satisfaction, especially those who knew nothing of ringing at all and later were bell-handling; and the college has since received confirmation from Missenden Abbey that the course was a recognised success. But apart from the satisfactory issue there is also the very pleasurable experience, on these occasions, of a delightful week-end in the charming setting of an historic country house in beautiful grounds, with good food and good fellowship.

SHEFFIELD AND DISTRICT SOCIETY CUP CONTEST

The June meeting of the Society was held at Wentworth, when the annual striking contest for the Society's Silver Cup took place.

The contest was keenly judged by Messrs H. Chant and J. Thorley and results were as follows: 1 Warsop, 2 Handsworth, 3 Sheffield Cathedral, 4 Wentworth. A pleasing feature was that for the first time Wentworth were able to enter a team.

Thirty-five ringers had tea and the business meeting which followed was presided over by Canon King, Vicar of Wentworth and also leader of the Wentworth ringers. Nine new members were elected.

Next meeting, a joint one with the Southwell Guild at Warsop, Creswell and Mansfield on July 8th. E. C.

CLERGY'S TRIBUTE TO PREB. E. V. COX

As a tribute to the memory of Preb. E. V. Cox, a former vice-president of the Guild of Clerical Ringers, eight members of the Guild travelled a combined distance of 1,660 miles to attempt a memorial peal of Cambridge Surprise Major at Drayton, Somerset, on June 20th.

Unfortunately, after some 3,400 changes had been rung in two hours, the seventh rope broke below the sally.

Those taking part were as follows: The Revs. A. S. Roberts (Carbis Bay) 1, J. B. T. Homfray (Leckhampton) 2, S. M. Evans (St. Laurence-in-Thanel) 3, P. T. Robbins (Lower Halstan) 4, J. G. M. Scott (Clawton, Devon) 5, C. J. B. Marshall (Crewkerne) 6, R. Keeley (Salisbury) 7, R. O. Fry (Yeovil) (cond.) 8.

It is hoped to make another attempt in the autumn.

DERBYSHIRE ASSOCIATION

Peak District

Eyam was the tower visited for the June meeting and the 3rd provided a warmer day than the recent cold spell for our visit to this pleasant, light six. Only four of the District towers were represented, but visitors from the Chesterfield District and Cheshire friends brought the attendance up to about 20.

Tea was taken at a local hotel and at the business meeting six new members from Hathersage were enrolled. The bells were kept going in a wider variety of methods than usual, until 9 p.m.

WINCHESTER & PORTSMOUTH GUILD

Despite the stormy weather, the quarterly meeting of the Andover District at Sydmonton on May 27th, was exceptionally well attended, ringers coming from a wide area to ring on the pretty six bells in the private church in the grounds of Sydmonton Court.

For one member the meeting was the end of a 15 years' dream. When first he looked on these bells in 1946, they were covered with twigs and rubbish up to the headstock. After a silence of 70 years the bells were first rung three years ago to the day—the writer then proving that the bells were not unsafe for ringing. For amusement there was also ringing on the three bells at Echingswell. (There is room in the bell chamber for six bells.)

Canon Sanders, of Overton, conducted the service, and tea and the meeting followed in the Old Burghclere Hall.

Mr. A. W. Allison was in the chair at the business meeting. The next meeting will be at Amport on September 9th, and the striking competition for the Aird Challenge Cup on Oct. 7th. Ringing followed at Burghclere until 9 p.m.

YORKSHIRE ASSOCIATION

Southern District's Annual Meeting

After a rather long lapse of time without a meeting the Southern District's annual May meeting was held at Wakefield and attracted a large crowd, 50 of whom enjoyed tea served by the local ladies in the Social Service Hall and many more who ate elsewhere.

In addition to the fine ring of twelve at the Cathedral, good use was made of the six at Crofton, where youngsters enjoyed their first experience of ringing in the middle of the church and at Felkirk, famous for Dan Smith, and from where some members were able to visit Ringing Master Mr. Harry Chant, happily enjoying a good recovery from his recent illness.

At the meeting a welcome was accorded by Father Beaumont on behalf of the Provost of Wakefield, who was unable to attend at the last minute. The chair was taken by District vice-president, Mr. Norman Chadcock, who, in his opening remarks, mentioned the presence of so many members from neighbouring Western District, also several out-county visitors. Apologies were received from Mr. H. Chant and Mr. J. W. Buxton. Mr. Geoffrey Goodall, of Dronfield, was elected an out-county member of the Association.

Officers elected for the next triennial period were: Ringing Master, Mr. Harold Chant; District Committee, Messrs. F. A. Staveley (General), F. Brunt and G. Townend, Mr. N. F. Moxon was elected to the General Committee to replace Mr. D. Cubitt, who had left the county.

Long discussions took place on a possible tower affiliation scheme and the controversial matter of peals of Minimus. It was proposed that the August meeting be held at Penistone, with two or three six bell towers also available, but it has subsequently been ascertained that Penistone are entertaining two other Societies around that time and an invitation to join the Barnsley and District Society elsewhere might be accepted.

SALISBURY DIOCESAN GUILD

North Dorset Branch

A quarterly meeting was held at Kington Magna on June 3rd, when some 25 ringers were present. The Rector (the Rev. H. B. Snelgrove) welcomed the Branch at the service and the new Guild office was used. This included a hymn written for the Guild by Canon C. Carew Cox, formerly Master and now president of the Guild.

Fourteen new members were elected to the Branch. These included a whole band from Horningsham, six from Kington Magna and one from Stourton.

The honorary secretary, the Rev. R. N. Longridge, was congratulated on his recent election as Master of the Guild. The chairman of the Branch, the Rev. R. C. Chaffey Moore, drew attention to the forthcoming enthronement of the Archbishop of Canterbury on June 27th. It was felt that ringers would need little encouragement to exercise their art on that day.

After the meeting ringing continued at Buckhorn Weston and later at Marnhall.

ST. MARK'S DOUBLES

Mr. P. Amos writes that St. Mark's Doubles, of which a peal was rung at Harpole, has been rung before, but not to a full peal. It was rung some 12-15 years ago by Mr. Alan Pink's band at Bodicote, near Banbury, in a multi-methods peal.

St. Mark's is similar to St. George's, with the exception that the three plain leads are St. Martin's plain leads instead of Winchendon Place leads. St. Matthew's is similar, with the three plain leads being St. Simon's—that too has been rung before in a multi-methods peal, but not to a full peal on its own.

St. Silvester also has the same calls—Original half-leads for a bob, and Old Doubles, Singles, with three plain leads of St. Nicholas—nine calls in each 120. Second and fourth only can be observation bells.

A QUARTER OF ERIN 'SINKS'

The ringers assemble in Redcliffe tower, The time is just five to the hour. Each takes his rope and adjusts his hold. The caller mounts his box and with faces bold The treble calls. The bells sound good, But with this band, after all they should!

The bells ring well for 5 minutes or so, Then the conductor calls into rounds they must go.

Apparently, bells 1 and 4 changed places; I thought I saw some weird grimaces. Again the ringers attempt the quarter, Determined to do each as he oughter.

The bells roll away into Cinques of the Erin kind,

And I can see concentration in every mind. The conductor has just called a single, It's clever how the sounds all mingle. To make this peal sound different from others, You read about on 'Ringing World' covers.

The peal now has been ringing half-hour long; Bellringers sure must be fit and strong. They pull on the sally and stretch at back stroke,

I often wish that I could give them a poke! It's wicked of me for they're trying very hard To get is it a blue little card?

I take a look at the handsome team, Supposed to be (dare I?) Bristol's bellringing cream?

But now they are nearing the end, I can tell, Each ringer really concentrates on his or her bell.

Twenty-four arms going up and then down, And nobody tiring or wearing a frown.

But what is that the conductor did call? Ah, now I know he said, 'That's all.' The quarter's to an end, the bells they stand, There are a few giggles from the band. They stand around and discuss their loss, Eager to find the fault as soon as possible.

They can't decide what really went wrong, But come on ringers we can't stay too long. You know, 'If at first you don't succeed,' Why not take home the method and have a good read.

But thank you ringers. I enjoyed the hour And no doubt once again I'll return to this tower.

For in less than three months I'll be a ringer's wife,

So I had better get used to a ringing life.

MARY J. CLARKE.

THE LADIES' GUILD

Western And South Wales Districts

A combined meeting of the two Districts was held at Penarth on June 10th, with ringing also at St. John's, Cardiff, during the morning.

At Penarth ringing commenced at 2.30 p.m. and after a variety of methods an all-ladies band rang a short touch of Grandsire Triples. A short service was conducted by the Rector, after which tea was very generously provided by the ladies of the Church Council, for which the members would like to place on record their appreciation.

In the absence of Mrs. J. S. King, who was unable to be present through illness, the arrangements for the meeting were taken over by the vice-president of the South Wales District, Miss Dilys Hubbert.

At the short business meeting an expression of sympathy was sent to Mrs. King on behalf of the two Districts, and votes of thanks were passed to Miss Hubbert for her help, and to all those who helped in the arrangements regarding opening of towers.

The experiment of holding a joint meeting was an obvious success, and it is hoped that a return visit will be made by the South Wales District for a joint meeting in Bristol in June, 1962.

OUTINGS

CHILVERS COTON

In the early afternoon of June 3rd a party of 29 ringers and friends set off from Coton for a tour of Oxfordshire and Berkshire. The first stop was at Hook Norton, where good use was made of a very fine octave (Lenor 20 cwt.). Tea was partaken of at the Sun Inn and the Rector called in to give us a welcome.

A few miles of travel through beautiful hilly country along narrow winding lanes brought us to Great Tew, reputed to be the most beautiful village in Oxfordshire, where there is at least one example of every tree which grows in the British Isles. The church is approached through a park and has a most lovely, peaceful setting. The Vicar welcomed us here and urged us to sign the visitors book. The lovely toned bells here were not too easily managed by the younger members, but the more experienced ringers derived great pleasure.

On through 35 miles of southern Oxfordshire to Appleton in Berkshire, to try our skill on the famous bells which have been used in several long lengths. We rang for an hour and then went to the Oriol Hotel, Abingdon, for a splendid dinner, followed by handbell ringing and a social hour before setting off in the coach for a two hour journey home which was reached at 12.15 a.m.

HILLINGDON

For many years St. John's, Hillingdon, Guild have been talking round the possibility of a visit to the Loughborough Foundry. Now the M.1 motorway has made this feasible and starting from home at 7.15 a.m. on May 27th we were ringing at St. John the Divine, Leicester, only three hours later, after a half-hour halt for coffee. Later we rang at the two Loughborough tents, and were entertained by an extremely interesting tour of the bell foundry. A call was made at St. Mary-de-Castro, Leicester, on the way home. Ringing ranged from Grandsire Triples to London Major and Cambridge Royal. Thanks are due to the incumbents and steeplekeepers, and particularly to Peter Stanforth and Paul Taylor for their help at the Leicestershire end. J. H.

HURST, BERKSHIRE

Hurst, Berkshire, ringers covered 250 miles during their outing on June 3rd, starting at 7.30 a.m. and arriving home in the early hours of Sunday morning. The 12 bell tower of Painswick was first visited and the band had to be content with Stedman and Grandsire Caters and rounds in 12.

After lunch at Gloucester, the usual Triples methods were rung at Lydney. A pleasant drive brought us to Chepstow and some very creditable Caters and Bob Royal were accomplished on these fine ten. We were loath to leave this well-kept ringing chamber.

Tea followed and then, en route for Monmouth, a visit was paid to Tintern Abbey. At St. Mary's, Monmouth, our last tower, some good ringing of Triples and Major took place. B. C. L.

TOTTENHOE, BEDS

St. Giles', Totternhoe, ringers had reached their first objective of their 11th annual outing, on May 27th, shortly after 9 a.m. and were ringing the fine eight bells of the picturesque village of Finchingham. Another well kept church was Sible Hedingham. After lunch, at Colchester, Helmingham, of Tolle-mache fame, was visited. St. Mary's, Framsdan, created a great impression on the younger ringers, by a peal board dedicated 'in remembrance of the perfect ringer.'

An excellent ringers' tea at Debenham was followed by ringing on the fine octave. The evening concluded by accepting the invitation to join in the practice at the Norman tower, Bury St. Edmunds. Apart from incumbents and District secretaries, special thanks are due to Jack Scott for the well organised day.

THE SHIELD GOES SOUTH

THE visitor approaching Barnstaple from the west, seeing the Yelland Power Station, the Army camp, the creeping fungus growth of bungalows, and finally the least attractive department of Barnstaple itself to the west of the bridge, might well think that in this gentle piece of land between the Torridge and the Taw more natural beauty has been overlaid with more artificial ugliness than anywhere else in Devon. But to the north-east, the Lynton road winds immediately out into a country of steep, wooded combes and quietness, and it is on this road that one sees the signpost pointing to Shirwell Town.

Now Shirwell has given its name to the Deanery and the Hundred in which it stands, and one might expect to find the church beyond the gasworks and across the market square from the Civic Hall. But a town in Devon is often a village and frequently no more than a farm, and Shirwell consists only of St. Peter's Church, a score or so of houses, a parish hall and a shop—and a yew tree.

It stands, this tree, outside the church door, its limbs polished smooth by generations of children who have joyfully accepted its invitation to be climbed. Such a close basketwork of branches are they that it would be impossible to fall out, and visitors to the church with children in tow might well think that such a tree should be standard equipment in any churchyard; a pity they take a thousand years to grow.

Outside, the church is singular in having its tower at the east end of the south aisle—a good little tower, though, bearing four portentously-crocketed pinnacles. Inside, there is a nice arcade of Devon pillars in fine white stone, and opposite it a single pillar of the same design—but made of oak. There is a Norman font, some good mediæval roofs, and an effigy of a lovely mediæval lady in a recess in the chancel, lying under a massive stone lintel so low that one fears for her nose should she wake suddenly.

This is very much North Devon, and when the Devon Association's six-bell competition was rung here on June 10th the bands from East Portlemouth and West Alvington came from the furthest south of the county, all of 70

miles, to reach this northern stronghold. The bells are a tunable six, but they tested the adaptability of the ringers more than this competition has tested it for a little while, for they are on plain bearings and the third and fifth are not 'square,' which is our way of saying they're odd-struck. The man who can ring a perfect peal on perfect-going bells is not always able to correct an odd-struck one right from the start of the rise, and this may be one reason for a certain upsetting of form this year.

It is ten years since the shield left North Devon, and lately it has been virtually a private war between the northern towers, with the South Devon bands to fill up the programme. However, West Alvington have always been in the running, and the news that they'd won at Broadhempston with only 17½ faults made many North Devon ringers take them very seriously indeed. They had the luck to draw last place in order of ringing, which may have helped them to learn from other people's mistakes the way these bells should be handled. Down St. Mary and West Down went in together, about halfway through, which was exciting; West Down rang first, and were clearly doing well; Down St. Mary went well until the end of their changes, and then had a bad upset which unsettled them for their lower.

West Alvington couldn't ring a peal like the Broadhempston one on these bells, but they did their best, and their best was better than anyone else's—40½ faults was very creditable indeed. The North took the next four places, West Down with 46½, and Bow, Colebrook and Down St. Mary all in the 50's: if this had been North v. South on aggregate, the North would have won it easily, for West Alvington 'B' had a very unhappy peal.

But that is not by any means to belittle West Alvington's achievement. Their village is not a very big one, just beside Kingsbridge; and Kingsbridge and Dodbrooke both maintain excellent bands of ringers themselves, so Alvington can't draw on them. Yet here is a place which for over 12 years has been running two separate bands of ringers, manning the tower twice a Sunday, and repeatedly getting not one but *both* teams into the top five in the whole of South Devon. And when, after the Archdeacon of Barnstaple (who is Rector of Shirwell) had conducted the service in a packed church, his wife, Mrs. Sanderson, presented the shield to the West Alvington 'A' captain, I am sure that no ringer from North Devon grudged him, his men and the parish they represent, the just reward of a fine tradition.

With the ringing of a peal of Zetland Surprise Major at Surfleet on June 19th, the seven 'inside' ringers completed their alphabet in Surprise Major methods, all having been conducted by Mr. R. C. Noon. It is thought that this is the first time that this has been completed by a complete band (with the exception of the treble ringer). The band feel indebted to Mr. C. J. Sedgley for his assistance with both methods and compositions.

Mr. Bryan Pattison left for Geneva this week, where he will be working for two months.

Mr. A. W. Coles, of North Mymms, was present at Pyrford on June 17th and not Mr. A. E. Coles.

The memorial to Mr. Frank Skidmore will be an oak credence table for use at the high altar in St. Ambrose's Church, Bristol, where Frank served for so many years.

Another fine achievement is the first peal of Spliced Surprise Maximus in nine methods. This was rung at Cheltenham on June 24th, conducted by Mr. Wilfred Williams. The composition is by Mr. George E. Feirn.

The magnitude of ringers' teas is noteworthy. New feature introduced at a Cheshire tea. Not content with full plates, paper bags were provided to take away the left overs!

In appreciation for his help and loyal service at King's Norton, the peal of Cambridge Major there on June 13th was rung for Roger Gray. The band wish him success in his teaching appointment in Devon, which he takes up in September.

Mr. Michael F. Amos, who is to be commissioned as a Church Army Captain on July 25th, wishes to thank the ringers of St. Augustine's Church, Kilburn, for 'the wonderful way' he had been received into 'the family' there during his two years at Church Army Training College. After being commissioned he is to work in a parish in Lancaster. He asks all who 'man the bells' for their prayers.

BELFRY GOSSIP

Members of the Tyneside peal band were delighted that, at Blaydon-on-Tyne on June 21st, they were able to help Stephen Thompson, of Whickham, realise one of his ambitions, to ring a peal of Surprise Minor. Stephen, now well over 70 years old, has always encouraged youngsters to progress in the Exercise and is at present training yet another young band at his home tower.

The Rev. G. H. B. Andrews, Vicar of Chittlehampton and secretary of the Guild of Clerical Ringers, is the new president of the Guild of Devonshire Ringers.

The peal at Chatham on June 24th was in honour of two weddings—Miss M. R. Bishop, daughter of the honorary verger and Mrs. Bishop, to the Rev. G. E. Jussup, and Miss Ann Dennis, daughter of Mr. T. Dennis, of Rainham, to Mr. Norman Humphries.

Five members of the Pipe family took part in a successful peal of London Surprise Major at Grundisburgh, Cecil and Sylvia had with them their sons, George and Roderick (who called the peal), and daughter-in-law, Diana.

Last Saturday a peal of Spliced Surprise Major in eight methods was rung at Stanmore, Middlesex, in honour of the engagement of Mr. John R. Mayne (Master of the Middlesex County Association) and Miss Rosemary Fleming.

Mr A. D. Barker, who for 25 years has been honorary treasurer of the Oxford Diocesan Guild, was elected a vice-president at the 80th annual meeting and festival. Two bishops and two archdeacons attended the function and there were 171 at the luncheon held in the hall of Christ Church.

The response to the special request of the Central Council that the bells of the country should be rung in honour of the enthronement of Dr. A. Michael Ramsey as 100th Archbishop of Canterbury has been most encouraging. Our part in this historic event was well publicised, and many towers secured prominent announcements in their local press.

VETERANS' DAY IN LONDON

MIDSUMMER day, June 24th, temperatures over 80 and England collapse at Lords! How did the veterans get on? Very nicely and no complaints, a day of happy variety, mingled with hearty reunions, an inspiring service, a splendid tea, and a unique social.

Seven of the company were at St. Clement Danes' to ring for midday service. At St. John's, Waterloo, ringing started well with welcome assistance from young students; a broken rope, however, restricted ringing to seven bells. Double Norwich just came round at St. George's Church, Borough. Here again the seven for Stedman were good for Len Stilwell's 'sixes.'

The short service at St. Botolph's, Bishopgate, was conducted by Mr. W. Grainger, a well known ringer from St. John's, Waterloo, who mentioned the good work the old ringers had done and his appreciation of their services.

After the usual photographic operation, a splendid tea was enjoyed and once again Mrs. E. E. Davis and her willing band of helpers knew how to cater for those whose ages ranged from 60 to 89! Expressions of our thanks were heartily given in the usual manner, mention being also made of Mrs. Sanders, Mrs. Tomlinson and Mr. and Mrs. Tomsett, and Mrs. Davis suitably replied.

IN REMEMBRANCE

The list of those who had passed on was considerable and tributes were paid by secretary John Euston to Messrs. F. Digby, G. Gilbert, J. Parker, J. Sharman, J. Freeman, F. Brinklow, F. Sinkins, C. Bird, F. Shepherd, A. Peck, J. Kentish and Preb. Cox.

A welcome for return to health was accorded to Messrs. W. Shepherd, H. Rumens, J. Chapman, E. Fenn and W. Hewett.

Apologies for absence were received from many friends and the news of Dicky Deal's illness was received with regret; sincere hopes for his recovery were expressed.

THE COMPANY

Those who were present, and their age, were: A. D. Barker 70, F. A. Barker 76, E. Barnett 76, H. W. Clark 68, T. Collins 73, J. W. Chapman 79, T. R. Dennis 77, H. J. Eldred 79, G. R. Goodship 73, E. G. Fenn 80, J. S. Hawkins 82, H. J. Hazell 61, W. H. Hewett 75, C. A. Hughes 74, A. Hunter 75, W. Inley 65, J. Marks 67, F. C. Maynard 74, C. W. Otley 67, W. J. Rawlings 66, H. Rumens 73, R. Sanders 87, C. J. Sedgley 74, W. Shepherd 78, E. D. Smith 76, H. Stalham 89, L. Stilwell 71, G. E. Symonds 85, N. A. Tomlinson 75, A. Turner 73, W. C. Wainwright 63, F. W. Wicks 73.

At the foot of the list there are names of three ladies, all well known throughout the Exercise. Mrs. Gladys E. Barker 60, Miss Evelyn Steel 82, and Mrs. Ethel M. Mitchell 71. The writer was pleased to meet Miss Steel again, the previous meeting being at Cubitt Town in 1912, after concluding the first ladies peal! Mrs. Mitchell was well known in the Reading district as Miss Goodship, prior to her marriage. The average age was rapidly worked out by Mr. A. D. Barker as 72½ years.

Laughter time came when some of the company responded to the request for amusing experiences, all fit to pass any censor. It was a real happy meeting and we desire to convey to everyone, clergy, ladies, church officials, laymen, in fact, everybody who, in any way, helped us to say 'This was our lovely day.'

PERSONALITIES OF THE EXERCISE - 27

MR. WILLIAM B. KYNASTON,
Gloucester and Bristol Diocesan Association

The Exercise has always had quite a number of good ringers who, having started off their ringing career with one Guild, and doing an amount of good work, have then moved away to another Association, and continued their activities there. Such a ringer is Mr. William Bertram Kynaston, of Rodbourne Cheney, Swindon, Wiltshire. Born in Oswestry, Shropshire, on August 23rd, 1903, and attending a Roman Catholic school (though not embracing that faith), he entered the service of the old Cambrian Railways Co. there. On the amalgamation of the railways in 1922, he was transferred to the Locomotive Department of the G.W.R. at Shrewsbury, and later went to Swindon in 1928. He now holds the position of regional running and maintenance auditor on the Western Region of British Railways.

Bert, as he is known in his family circle, learnt to ring at St. Oswald's, Oswestry, in 1920, and rang his first peal in February, 1922—Grandsire Triples—at Shifnal. In February, 1924, he scored his first peal as conductor, with Grandsire Doubles at Oswestry. He took part in the first peals rung by resident members of the Salop Archidiaconal Guild, of seven Minor methods. Stedman Triples and Double Norwich, and also the first peal of Minor in the county of Shropshire, in which Cambridge was rung, conducted by William Short. His present peal total is 222, of which he has conducted 84, and these have included Grandsire and Stedman from Doubles to Cinques, and Kent and Cambridge from Minor to Maximus. On handbells he has rung peals from Doubles to Maximus, except Cinques. In his early days, Bert owed much to the encouragement of the late Mr. Bob Evans, of Oswestry, and over the years assimilated much sound advice from the late Charlie Gardiner, of Swindon. He rang his first peal of Stedman Cinques at Wolverhampton in 1924, conducted by the late Herbert Knight, and his first peal of Maximus (Kent) at Shrewsbury, also in 1924, conducted by the late Charles R. Lilley, who always managed to live up any area in which he resided.

Amongst the peals in which he was very pleased to have taken part was a peal of Grandsire Triples, which he called at Oswestry, and in which his sister and two brothers took part. Also, more recently, a peal of Stedman Triples at Westbury, Wilts, in which Miss Enid Lloyd-Roberts, now of Adelaide, Australia, rang the 35 cwt. tenor in masterly fashion. He has been a Freemason since

1931, being a member of the Royal Sussex Lodge, No. 355, but has not held any office, and was delighted to have conducted the first Masonic peal in Wales—Stedman Caters at Cardiff, in 1954. Many of his peals have been rung in the more humble methods, helping others, and he has called 61 ringers' first peals, and 146 'first in the method' or 'first of Major.' However, he has also rung 27 twelve bell peals, in 14 towers, and including the first peal of Maximus in Wiltshire, rung at Trowbridge. His job takes him to all the Motive Power Depots of the Western Region of B.R., and he is very grateful to ringers all over the area for the welcome he usually receives. He has rung in over 1,000 towers, in all the counties of England and Wales, except Cambridge, Huntingdon, Anglesey and Radnor, and these have included 48 twelve bell towers, and 39 Cathedrals. They have mainly been visited 'just as they come,' and he makes no pretension to being a 'tower-grabber'!

From 1932 to 1959, Bert was secretary of the Swindon Branch of the Gloucester and Bristol Association, with a regular monthly meeting, and only resigned because his job took him away from home such a lot. He was honoured by being elected Master of his Association from 1948-50, and has been a Central Council representative since 1936, attending every meeting. He is now a vice-president of the Gloucester and Bristol Association, and also Master of the Railwaymen's Guild. He was a member of the band at Christ Church, Swindon, from 1928-1945, and since then has been a member of the Rodbourne Cheney band, where he also sings in the choir. He called his wife's one and only peal, but admits failure to turn her into a first class ringer! She just does her duty by assisting when required. He has very little time for any other hobbies, except railways and gardening—the latter compulsory in order to keep the place tidy!

In his quiet and genial manner, Bertram Kynaston has had a considerable influence in improving the standard of ringing in his part of the Gloucester and Bristol Association, and his wise words of advice are usually heeded. Outside the Bristol area, few ringers of his generation in the last 30 years have helped their fellow members of this Association as he has done. For this he is much respected, but would probably, being very modest, not admit to it.

APACE.

ANOTHER ATTEMPT AT EXTENT OF BOB MAJOR

Dear Sir,—By kind permission of Mr. Paul L. Taylor, I give notice that it is the intention of a band to attempt to ring the extent of Plain Bob Major at the Loughborough Bell Foundry on July 15th, commencing at 6.30 a.m. The composition is given below.

Loughborough,

GUILD OF DEVONSHIRE RINGERS

THE 82nd annual festival of the Guild of Devonshire Ringers was held in Exeter on June 17th, with an attendance of about 120. The recent death of the Guild's president, Preb. E. V. Cox, was very much in members' minds when they met for service in St. Mark's Church, and the Dean of Exeter, the Very Rev. Marcus Knight, referred to this in his sermon, which was based on a text from Psalm 145: 'One generation shall praise Thy works unto another, and declare Thy power.'

He said: 'The sound of bells praises God and declares His power and reminds people that the Church is alive. When we think of Preb. Cox and all that he did for Church and people, and all that he did for ringing, we have a connection with a past generation and this brings to mind the many generations who have rung before us.'

SOMETHING LARGE IN HISTORY

Bells, continued the Dean, were first used in the Church about the 6th century and in England about the 8th century, so they were carrying on a tradition which was 1,100 years old. He referred to the melodious jangle of Continental ringing and to the beautiful carillon which he had heard at the Riverside Church, New York; also to bells being a sign of joy, hope or sorrow, and to when they rang out again for the El Alamein victory in 1942 after the war-time silence. Hence, bells and ringers were part of something large in history.

There were three things they should cherish:

1 Ours is a sign of community life in which we all do something for each other, and a symbol of Christian life in which each one's skill becomes a part of the whole, and so ringing and fraternity are part of one another. Something of what we learn in the tower should be spread outside.

2 We are making a real contribution to beauty. Ringing can be regarded as part of the beauty of God, like a musical symphony.

3 Calling people to worship so that people are reminded of the glory of God and the reality of the permanence of God in a changing world. God was, and is, and is to come.

When we think of these things we are reminded that we are privileged to be part of a great community.

'PROFOUND LOSS'

The Dean took tea with the members and at the subsequent meeting, which was presided over by the Vicar, the Rev. C. G. Poulton, who is chairman of the Exeter Branch of the Guild, the first business was to pass the following resolution, which was proposed by the Rev. J. H. B. Andrews, and seconded by Mr. George Betts:

'This annual meeting wishes to place on record its sense of profound loss by the death of Preb. E. V. Cox, president of the Guild since 1933, and its appreciation of his unflinching interest in every member and Branch, and his great service to the cause of ringing throughout the country.'

The members stood in silence, and after the general secretary had read a letter received from Canon C. Carew Cox, Preb. Cox's cousin, expressing gratitude for the affection shown by the large gathering at his funeral, he announced that he had heard from the executors of his will that he had left his handbells to the Guild, to be sold for the benefit of the Guild Instruction Fund.

OVER 600 MEMBERS

The general secretary reported that membership, at 647, had apparently exceeded 600 for the first time in the Guild's history and

that the following had been confirmed as honorary life members: Mrs. A. Allin, Mr. C. G. Glass and M. G. H. Williams. It was agreed to hold the annual festival in Exeter again next year.

The Rev. J. H. B. Andrews, Vicar of Chittlehampton, and chairman of the North Devon Branch, was elected president, and the Dean of Exeter, the Rev. J. G. M. Scott, Mr. C. G. Glass and Mr. W. G. Lavers were added to the list of vice-presidents, who, together with the other officers, were re-elected. Mr. Norman Mallett was elected to fill the vacancy on the Central Council, caused by the death of Mr. J. L. S. Glanvill.

It was announced that Miss Lomas' legacy had been received and was being held for instruction and that a sub-committee had been formed for the same purpose.

POINTS FROM REPORTS

The report states that of the 111 new members elected, a large proportion were of school age, thus giving very good prospects for the future. Fifty proficiency certificates were awarded and more than 80 quarter peals were rung, affording an opportunity for about 20 ringers to ring their first quarter. Branch meetings had been well attended, the standard of ringing had been high and there had been some increase in Sunday service ringing.

Thirty peals were rung, allowing twenty members to ring their first peal, and four their first as conductor. Notable peals were: (1) a peal of Grandsire Doubles at Luppitt in which five rang their first peal, and C. Churchill his first as conductor, it being the first by a Luppitt band; (2) a peal at Belstone when five boys from Shebbear College rang their first peal, this being the first peal on the bells; (3) a peal at Buckfast Abbey in which three monks took part and three members rang their first peal. Two peals of Bob Royal were also rung in each of which all the band with the exception of two were resident members.

SOUTH SOMERSET GO WEST

Two carloads of South Somerset ringers had an enjoyable week-end, starting on Friday, May 12th, when they arrived at Plymouth at 10 p.m. to be greeted by their hosts, Mr., Mrs. and Miss Marks.

Awakened at 5.45 a.m. on Saturday they caught the first ferry from St. Budeaux and at St. Stephen's, Saltash, were joined by three more ringers from Plymouth and one from Herts. There was ringing at Liskeard and Lostwithiel before lunch at Charlestown, the china clay port.

St. Austell's bells went well to Stedman Triples and those of the stately tower at Probus to Kent T.B. Major. After a good tea at Truro, the bells of Kenwyn were rung to Triple methods. Bodmin was reached at 8 p.m. and it was here that two Cornish ringers joined in the ringing. Only two of the cars reached Saltash in time for the last ferry, the other having to go to Tor Point.

Sunday morning's ringing was on the fine bells of Emmanuel, Plymouth: in the afternoon the ground floor ring at Shaugh Point was found to go well. Back to Plymouth for tea and then an attempt to ring a quarter of Grandsire Caters at St. Andrew's, kindly arranged between Mr. W. Marks and Mr. T. Myers. Unfortunately this was lost after about 20 minutes.

We wish to extend our grateful thanks to Mr., Mrs. and Joyce Marks for arranging the outing and being our hosts and also to all incumbents and towers captains.

WORCESTERSHIRE & DISTRICTS

The Northern Branch held a well attended meeting at Oldswinford on June 17th, approximately seventy members and visitors turning up. A fine day blessed the proceedings and the bells, recently rehung by Taylors, were enjoyed by all.

The service was conducted by the Rector, the Ven. A. V. Hurley, Archdeacon of Dudley, who also presided over the business meeting, which followed an excellent tea. He extended a hearty welcome to the members and in expressing his great appreciation of the Association's work, referred to his own enthusiastic young band, almost all of whom belonged to the Stourbridge King Edward VI Grammar School Guild of Ringers. The school had held its Charter Day celebration service that morning at Oldswinford, and the Guild had manned the bells before and after that service. These young ringers, under their leader, Mr. A. Roden, had been entirely responsible for all the arrangements made for that meeting, including raking him out to take the chair. So long as we had young people of this calibre coming along there was little need to fear for modern youth.

The Ringing Master, Mr. Harold Shuck, replied, and in moving a very hearty vote of thanks said he knew he was speaking for everyone there when he expressed his great appreciation of everything these energetic young people had done in connection with that gathering—a fine example of what enthusiasm and team work could achieve. He was extremely pleased that the arrangements for the Branch quarterly peal were to be left in their hands.

Fourteen new members were elected, including five from the recently re-formed band at Rowley Regis.

The secretary informed the meeting that an invitation had been received from the Vicar of Bromsgrove to go there for the annual meeting of the Branch, and this was gratefully accepted, the date to be September 16th.

SHEFFIELD UNIVERSITY GUILD'S TOUR

The rapid departure from Sheffield on June 10th of a 'self-drive' car, with the Husky roaring in rapid pursuit was the start of the Guild's annual ringing week-end, held this year in Nottinghamshire and Lincolnshire. The six bell towers at Warsop and Orston were first on the programme, followed by a visit to Bottesford. Ringing on the fine octave here in the standard methods included a not so standard touch of Bob Major, which came round at handstroke.

At Barrowby (6) the party received a warm welcome, and the ringing was noted with interest, as it is hoped to re-form a local band here shortly. After tea, a short stop at Welby enabled most members to ring at their first four bell tower, and at Silk Willoughby the tuneful six made a good finish to the day's ringing. Saturday evening was spent in traditional manner at the party's resting place in Sleaford.

On Sunday morning there was service ringing on the octaves at both Heckington and Sleaford. Spliced Plain and Little Bob went well at the former tower, and after mastering the long draught at Sleaford a good course of Stedman was rung.

After lunch, Leadenham (6) and Brant Broughton (6, 23½ cwt.) were visited, and Spliced multi-Minor went well at these towers. Ringing for Evensong was at Newark, where, with the help of the local band, Grandsire Caters was found to be most suitable for these bells.

Our grateful thanks are extended to all incumbents and local ringers who welcomed us at their towers.

LINCOLNSHIRE MAXIMUS AT
BIRMINGHAM CATHEDRAL

Dear Sir,—The peal of Lincolnshire Surprise Maximus rung in Birmingham on June 22nd brings back interesting memories of the very first peal of Maximus in this method, which was rung by St. Martin's Guild twelve and a half years ago.

On December 11th, 1948, Mr. Albert Walker entertained to dinner a select circle of friends to celebrate his golden wedding; and during the meal copies of Lincolnshire Maximus were circulated with instructions to twelve men to prepare it for peal attempt at Walsall on the following Saturday. The enterprise was pursued, and on December 18th, 1948, the peal was rung on St. Matthew's bells at the first attempt, no one having previously struck a blow in the method. It was a creditable performance in every way.

I well recollect, after the peal, how two elated but thirsty ringers, seeking alleviation and celebration at a small hostelry in the precipitous street below the church (for not all ringers, be it known, are total abstainers), walked into the dimly-lit passage of the house, loudly discussing the merits of bitter as compared with mild. And I recall very vividly their astonishment when, from a suddenly opened door, a solemn and monitory voice was heard to say, 'This is the District Coroner's Office.' This *memento mori* introduced a sobering note and a realisation that something or somebody must be in the wrong place. The matter was satisfactorily adjusted by moving next door.

It is very pleasant to recall this occasion and to join John Pinfold and George Fearn (two of the 1948 band) in another peal in this interesting method.—Yours, etc.,

EDGAR C. SHEPHERD.

INTRODUCING THE NEW MEMBER

Dear Sir,—It was splendid news to me when I read that the Devon Association is now affiliated to the Central Council, but the Rev. John Scott is very wide of the mark in some of his statements regarding the history of ringing in Devon, during last century.

Half pull ringers and call change ringers were not, in the main, antagonistic to one another, and I have memories of happy hours ringing in company with those who prefer the older style of ringing. It is news to me that Rev. Maitland Kelly told the round ringers of Devon that their way was backward, sinful and out of fashion. Mr. Kelly was a practical ringer and a great pioneer, who could teach ringers to ring rounds correctly, whether a member of the Devonshire Guild or not, and there is no concrete evidence of this, or that the pioneers sought to do away with round ringing and replace it with method ringing.

'Church Bells' and 'Bell News' cannot be relied upon as a correct guide where Victorian ringing in Devon is concerned, and having associated with ringers of both styles in the county of my birth for a great number of years I still say that most of the writing regarding the conduct of ringers is grossly exaggerated. The difference of ringing mode did not alter or mar friendship and very few squabbles ever brought forth hostility.—Yours, etc.,

WILLIAM SHEPHERD.

ANOTHER OCTAVE IN SUFFOLK

ALDEBURGH DEDICATION

THOUGH Aldeburgh-on-Sea is one of the country's ancient boroughs it was not until this June that the residents heard Major from the tower of their Parish Church of SS. Peter and Paul.

Sixteenth century returns show four 'Great bells' and a sanctus, and in the fore part of the 19th century there were five; then in 1884-5 some recasting and rehangings was done by Warner, of London, and Days, of Eye, respectively and a sixth bell was added.

By the 1950's these six were, in general, of uninteresting tone and the wooden frame and its supports, though massive, were very old and decayed in many parts, so a general overhaul was decided upon.

The 1961 bell overhaul presented no financial problems. There is a periodical church fête at Aldeburgh, and each time the proceeds go to the most pressing need. Because of the requirements of overhaul of the heating system, new kneelers, etc., the bells had to wait until 1959, but then the fête provided over £600 for the work.

OVER SUBSCRIBED

Messrs. John Taylor and Co. were engaged and the bells went away in 1960. At first it was decided to put in new support beams and a frame for eight bells, but containing the overhauled six for the time being. Then two anonymous donors provided £188 for a new treble. The Vicar then asked for subscriptions for a new second, costing £196, and this was over subscribed for in a fortnight.

Today the eight bells, all new except the old second (1622) bell which is now the fifth, hang in an Iroko (Nigerian hard wood) frame, about 4 feet lower in the tower. The tenor is now G sharp and weighs 11 cwt. 2 qr. 20 lb.

Messrs. Taylors' hanger, Johnnie Walker, finished his work the day before the dedication service, which took place on Sunday, June 18th, at Matins. The service was conducted by the Vicar, Rev. Martin E. Ellingsen, and it was fitting that the dedication ceremony

PEAL AT BERRY POMEROY

Dear Sir.—The Rev. Canon C. Carew Cox informs me that he and his cousin (Preb. E. V. Cox) rang in a peal of Bob Major at Berry Pomeroy on January 27th, 1938, conducted by Charles R. Lilley.

The claim for the peal rung there on June 10th is therefore invalid, and I would be most grateful of you could, through 'The Ringing World,' correct this error and to thank Canon Cox for so kindly pointing it out to me so promptly.—Yours truly,

Plymouth.

CHICHESTER CATHEDRAL
BELLS

The bells of Chichester Cathedral were rededicated at a short service in the belfry on June 24th. The Dean took the service, which was attended by Canons of the Diocese, visiting clergy and some fifty ringers from various parts of the country.

After the service the resident band rang a short touch of Stedman Triples and visiting ringers rang a touch of Plain Bob Major. An interval for tea was followed by Evensong in the Cathedral at 5.15, after which the bells were rung to various methods from rounds to Surprise Major, until 8.30 p.m.

The local band were very pleased that the bells were ready in time for them to ring the first quarter on the bells for the enthronement of the new Archbishop, on the following Tuesday.

(during which rounds were rung) should be performed by Canon R. C. R. Godfrey, of St. Mary's, Bury St. Edmunds, as he had been Vicar of Aldeburgh for 13 years, leaving only two years ago. He also preached the sermon, taking his text from the new English Bible—Corinthians I, xiii. 1—'I may speak in tongues of men or of angels but, if I am without love, I am a sounding gong or a clanging cymbal.'

The large congregation at the church included the Mayor (Mr. Dudley Knowles) and members of the Borough Council, but not many ringers. However, John Blythe, secretary of the Suffolk Guild, was amongst those present. As Holy Communion followed the service, the tower was not open to ringers until the afternoon when a number arrived from various parts of Suffolk and from Norfolk.

It was immediately noticeable to those familiar with the sound of the old six bells that the new ones were in a higher key. Ringers remarked on how well they handle now and how well the job looked in the tower. Various methods were rung and there was a particularly nice touch of Bristol. Peter Bedford recorded this in the churchyard and played it back to the ringers as they came out of the tower.

One or two young ringers are coming along and, with eight bells (seven of them new and all new fittings except some of the old wheels which were found to be fit for further service), others should soon be attracted. One can always be certain of a good congregation at Aldeburgh church and it is hoped that the ringing chamber, now calling for two more ringers than previously, will match the nave. Congratulations and best wishes go out to Jack Pilgrim and his band.

THE BELLS

The weights and inscriptions of the new bells are as follows:

Treble: 3 cwt. 0 qr. 20 lb. Inscription: John Taylor and Co., Founders, Loughborough, 1961. In memory of N.A.E. and A.L.E.

Second: 3 cwt. 1 qr. 25 lb. John Taylor and Co., Founders, Loughborough, 1961.

Third: 3 cwt. 3 qr. 21 lb. Recast by John Taylor and Co., Loughborough, 1960. Cast by John Warner and Sons, London. Rev. H. Thompson, Vicar. John Harvey, N. F. Hele, churchwardens, 1885.

Fourth: 4 cwt. 2 qr. 2 lb. Recast by John Taylor and Co., Loughborough, 1960. Lester and Pack, of London, fecit 1764.

Fifth (old 2nd bell): 4 cwt. 1 qr. 7 lb. W. I. B. Anno Domini 1622.

Sixth: 6 cwt. 0 qr. 4 lb. Recast by John Taylor and Co., Loughborough, 1960. Recast by John Warner and Sons, London. Henry Thompson, Vicar. John Harvey, John Ing, Churchwardens, 1884.

KNUSTON HALL WEEK-END COURSE

THE Peterborough Diocese was the scene of a most successful week-end course held in June 16th, 17th and 18th, at Knuston Hall, Irchester, Northamptonshire. The course was arranged by the Sunday Service and Education Committee of the Central Council in conjunction with the Northants Education Committee.

A distinguished team of lecturers included: Messrs. Frederick Sharpe, president of the Central Council, C. K. Lewis, Wilfrid Moreton and Norman Chaddock. Every effort was made by the organisers to ensure that the course catered for every level of proficiency as far as possible, one of the greatest difficulties being that it was impossible to know the standard of the prospective students before the details of the course had to be settled and published. However, all the technical lecturers were able to adjust themselves to the capacity of the students quite well, and there is no doubt that everyone was satisfied.

The proceedings began on Friday evening with supper, the ample proportions and excellence of which was a feature of all the meals provided. After a welcome by the warden, Miss E. Smith, and from Canon Turner, the Peterborough Guild president, the first lecture, on the History of Bells, was given by Mr. Sharpe, who illustrated his subject with his own wonderful collection of slides, bells, founders' marks, and turning forks.

QUALITIES OF A CONDUCTOR

The programme for Saturday morning included a practical demonstration in Irchester tower of 'How to Teach Bell Control,' by Mr. Norman Chaddock. He was somewhat handicapped by not having a raw learner on whom to demonstrate; but despite this, even those of the students who have had experience of teaching were able to gain several useful tips which have proved themselves in practice. Back at the hall, coffee was followed by Mr. Kenneth Lewis's first talk on conducting. Mr. Lewis started by talking about the qualities required in a conductor, emphasising that it was not necessary to be particularly brilliant, but one must have the ability to take pains. Lead heads, lead ends, course heads, course ends and calling positions were explained in detail and the effect of calls expounded and illustrated.

The lecture before lunch was given by Mr. Chaddock and dealt with the teaching of elementary change ringing. The value of single handed handbell ringing was demonstrated very clearly, and the warden was taught how to hunt one bell in a very few minutes by the use of rhythmic counting.

Mr. Lewis, in his second lecture, continued the theme of conducting and went on to deal with the knowledge of course bells and coursing orders, explaining the transposition of the coursing orders through simple touches of Bob Minor and Major.

History of Bells. Part II, dealt with the development of bell-frames and gear, and again was profusely illustrated by Mr. Sharpe. Attention was given to the design of frames and the roping of the bells with its consequent effect on the construction of the tower.

Tea was followed by simultaneous practical sessions in the towers of Irchester on conducting and teaching elementary change ringing at Rushden. At Irchester, Mr. Lewis supervised the application of his previous lectures by giving each student the opportunity of conducting a simple touch and correcting deliberate (and non-deliberate) mistakes, whilst at Rushden Mr. Chaddock applied his systems and showed how the use of visual aid techniques can simplify the teaching of change ringing. Except for dinner at 7.15 p.m. this concluded the formal activities for Saturday, but handbell ringing, more slides, etc., kept most students up until a late hour.

Sunday started with early Communion, breakfast and a short service at the hall preceded a full morning of four lectures. For these, the students divided into two groups for each session. The first session included

'Conducting—More Advanced,' by Mr. Lewis, and 'Elementary Method Construction,' by Mr. Wilfrid Moreton. Mr. Lewis amplified his previous talks on the subject of coursing orders, etc., and demonstrated its applications to more complex methods, even up to Spliced Surprise Major. Mr. Moreton, in his discourse on method construction, showed how a knowledge of this was essential to progressive ringing and conducting.

A break for coffee preceded the next two lectures, which were again by Mr. Lewis and Mr. Moreton. Mr. Lewis gave a very full 75 minutes on 'More Advanced Composition' and explained the proof of Stedman Triples before going on to the proof of Treble Bob, both by the old method and by the half-lead method. Mr. Moreton dealt with 'Elementary Composition' and succeeded in helping the larger of the two groups to understand how touches are designed and pieced together.

In the final session, after lunch, the students were given the opportunity of questioning the panel of lecturers, and discussing the course with them. One suggestion for any future course which received strong support was that some instruction in the technique of handbell ringing would be appreciated.

Mr. Moreton expressed thanks to the warden, Miss Smith, for all her help in preparing the course and to all who had assisted in the running of it. The Master of the Peterborough Guild voiced the appreciation of the students to the lecturers and the Sunday Service and Education Committee of the Central Council, and expressed the hope that it might be possible to arrange another course in 1962. Altogether a most helpful and enjoyable week-end in comfortable and beautiful surroundings.

OBITUARY

MR. C. S. ARCHER

Captain of the ringers at Chisleton, Wilts. for some 45 years. Mr. Seward C. Archer was died, aged 83. When the original five bells were rehung in 1914 by Llewellyn and James, of Bristol, he was placed in charge and the bells have been heard with great regularity twice each Sunday.

First Bob Minimus and then various Doubles methods were mastered and quarter peals were rung regularly under his guidance and conducting. With the addition of a sixth bell, peals have been more numerous, but Mr. Archer only rang in one peal, a few years ago, which he managed without difficulty. For some years he was secretary of the Marlborough Branch of the Salisbury Diocesan Guild when it was very much larger.

Born in the village, he was a man of intellect and talent and a most sincere Christian. He sang in the church choir, was a Sunday school teacher, parish clerk, churchwarden on many occasions and clerk to the Parish Council for nearly 40 years. He was in business as a boot repairer. The village will mourn his passing as much as his family.

W. A. F.

MR. T. H. HUDDLESTON, G.M.

For many years a ringer at Driffild, Yorks. Mr. Tom Hartley Huddleston collapsed and died in his garden on June 24th, aged 57.

In June, 1959, he was awarded the George Medal for the arrest of a gunman while serving as a police sergeant. The incident took place at Skerne, near Driffild in September, 1958. After a running battle the gunman was cornered in a stackyard. Mr. Huddleston calmly went up to him and said, 'Give me that gun, lad.' The man handed over the gun.

After the war Mr. Huddleston did much to get the bells ringing again at Driffild and his enthusiasm was such that he also trained a band of handbell tune ringers, which collected a considerable amount of money for church funds. He was not a great peal ringer, only having rung three peals.

Two months after his retirement in November, 1958, he was stricken with thrombosis and for eight weeks was in hospital. He is survived by a widow and daughter,

MR. TOM MARSHALL

The Wigan Branch and the Lancashire Association have lost one of their most popular members by the death of Mr. Tom Marshall, of Boars Den Farm, Wrightington, who collapsed during the first touch after tea while ringing at the Yorkshire Association meeting at Skipton on June 17th. A doctor was summoned, but Mr. Marshall was found to be dead. All further ringing was then cancelled.

His ringing life started at Douglas-in-Parbold, about the time of the first world war. A keen pupil, he made it his business to delve deeper into the mysteries of change ringing, and he soon mastered the more complicated Surprise methods. His main role, however, was teaching others and scores of ringers have benefited from his help and wisdom. He will be sadly missed. The sympathy of a wide circle of ringers goes out to his widow and daughter.

The funeral on June 22nd was attended by many ringers and some of these acted as bearers. The bells were rung half-muffled for the service and later a peal of Cambridge Surprise Major was rung as a farewell to a dear friend and brother.

R. K.

MR. D. C. MORGAN

The tragic death in a road accident on June 19th of Mr. Dennis Cleasey Morgan, aged 18, came as a great shock to the Harlington, Middlesex, ringers and his many friends in the Middlesex County Association.

Dennis was taught to ring at Harlington, where he had in a short time rung and conducted a number of quarter peals, ranging from Doubles to Triples. He had been assured of a place at Nottingham University to read chemistry. In summing up his life we can only repeat the words of our Rector, that he had achieved a great deal in a comparatively short time. His pleasing and friendly personality will be missed by his ringing friends, particularly two of the band, Juliet Wooders and Colin Stephenson, who had also been his school friends.

The funeral service was conducted by the Rev. Ronald Barlett (Rector). The Middlesex County Association was represented by Messrs. F. W. Goodfellow, E. R. Gotham and D. Fowles and the London County Association by Mr. H. W. Rogers (honorary secretary). Grandsire Triples was rung half-muffled before the service and on Sunday morning a quarter peal of Plain Bob Minor was rung half-muffled to his memory.

L. G.

MR. PERCY C. SAYER

For more than 60 years tower captain at Great Totham, near Maldon, Essex. Mr. Percy C. Sayer died at his home on June 29th, aged 85 years. Until he was taken ill with chest trouble, a month ago, he rang regularly for Sunday services. He will be sadly missed by all the local band. 'Well done, thou good and faithful servant.'

SOME OF THE OUTINGS

LEEDS PARISH CHURCH

Pistyll Rhaiader and Wrexham Steeple, Snowdon's mountain without its people, Overton Yew trees, St. Winifred Wells, Llangollen Bridge and Gresford Bells.

These are the so-called 'Seven Wonders of Wales' and it was among these that the Leeds Parish Church ringers and supporters went on June 3rd.

Faulty navigation resulted in the promised hour's ringing at Gresford being halved, although in defence of the navigator it must be admitted that cross roads signposted only to villages not even on the map and cross roads without a sign post at all did not help matters.

After lunch came the second of the 'wonders,' 'Wrexham Steeple,' a massive, and in the opinion of some an over-decorated tower, containing the only ring of ten in North Wales, which might equally as well qualify as a 'wonder.'

A pressing invitation from the tower master at Ruabon resulted in a short but none the less pleasant call being, literally, squeezed in at this six bell tower on the way to Llangollen, the home of the world famous International Eisteddfod.

Llangollen bells commemorate the jubilee of Queen Victoria and the church is reached by crossing the river by another of the 'wonders'—a thirteenth century bridge. Passing yet another 'wonder'—the yew trees of Overton churchyard, we made for our last tower, Christ Church, Crewe, where Frank Stenson, George Packer and friends welcomed us. Here was enjoyed the best ringing of the day and we left these bells with real regret.

The 'expected time of arrival at Leeds, 10.30 p.m.,' stated on the programme, proved a little too optimistic, but no last buses home were missed and so the 13th annual 'L.P.C.' outing ranks among the most successful.

R. H. D.

PORTISHEAD AND WRAXALL

Such is the popularity of Portishead and Wraxall annual outing that the largest coach obtainable was barely big enough to take all who wished to make the trip this year. As it was, a party of forty set off for a tour of the Cotsworld country, with ringing arranged at four towers, in three different counties. On this June morning, it was cold up at Marshfield, first place of call, but conditions were ideal for a ring on the good handling and pleasant sounding eight bells.

On to Wootton Bassett, and a greeting by the 'grand old man of Wiltshire ringing,' Mr. L. A. Wilson. The ringing here was not of a standard that Mr. Wilson would be likely to approve of, but then about a third of the visiting band were his juniors by over 70 years!

Lunch at Lechlade, then across some lovely upland country to Chipping Norton, for a taste of ringing in Oxfordshire—which was found to be very palatable. The Warwick border was crossed before returning again to Gloucestershire and Chipping Campden. 'Queen of the Cotswolds,' who supplied a tea worthy of her royal status. O'er top of Cotswolds to the delightful village of Bibury, where the ducks and the fish engage in an exciting race for the visitors' titbits. At Malmesbury, the visitors were greeted by Mr. H. E. Blacker, an ex-Somerset ringer, now a naturalised moonraker, who gave full marks for the 'raise,' but, quite honestly, there would appear to be no excuse for bad ringing on these bells. It was a fitting end to the day's ringing that the party should receive such a warm send off from Malmesbury and to be assured of a good welcome there on any future visit. Altogether, a most enjoyable day out.

A. J. G.

BARKBY, LEICS.

Barkby ringers selected four Derbyshire towers for their outing on June 10th. At Darley Dale the visit was opportune as it followed immediately after a wedding, and on the ringing bells of Bakewell after tea they rang for a choral festival. The other towers were Baslow and Great Longstone. There was a stop for refreshments at Derby and home was reached at 11.45 p.m.

DUNHOLME AND SAXILBY IN NORTH NOTTS

When Joe Cheatham first rang at North Collingham they had only four bells and Victoria was Queen of England. Joe visited the church again on June 3rd, when the Dunholme and Saxilby bands had their annual outing. He was able to tell the Vicar (Rev. R. J. Stevens) that, though there had been many changes in the church since the days of the Gracious Lady, the vestry was still the same. The Vicar replied that they hoped to install some new curtains this year. There is much of interest in this lovely old church, quite apart from the six good bells in the Norman tower.

There is another grand old church, with some beautiful stained glass, at South Collingham. The fact that there are only five bells might prompt some parties to give it a miss, but the church is well worth a visit. Winthorpe's is comparatively modern, a brick church built about 1880. Its six bells handle well. Here we had a picnic lunch in the churchyard.

The day was now getting really warm, and we found the 12th century church at North Muskham refreshingly cool. It contains a remarkable 15th century oak screen and six good bells. The non-ringing members of the party sauntered across a paddock to bask in the sunshine on the banks of the Trent.

The dust on the floor of the spacious ringing chamber at Laxton did not appear to have been disturbed for some time before the advent of our shuffling feet. The six bells were the heaviest of the day, but they went well once we had eased the stiffness from the grease and even Double Oxford was well rung.

We found a good ring of eight at Tuxford. Many churches have at least one unusual feature—at Tuxford it is an altar in a side chapel, which faces east. At Gamston it is an entrance to the ringing chamber which is high up in the wall, so that you climb up stairs to the door and down stairs to the floor. Mr. Denman, the secretary of the North Notts District, met us here and joined us in a touch of Cambridge.

The day ended with dinner at the Markham Moor Inn. Thanks are due to the incumbents and those who met us at the towers, to those who provided transport and to Stan Smith, who, with assistance from Peter Burton, organised the outing.

KING'S LYNN, NORFOLK

Thirty ringers and friends from St. Margaret's Church, King's Lynn, set out at 8 a.m. on Whit Monday on their first outing. In perfect weather, they travelled through the very lovely Suffolk countryside. Ringing, before lunch at Sudbury, was at the Memorial Tower, Elvedon (8), Lavenham (8) and Long Melford (8).

We were, very surprisingly, ahead of our schedule at Bures St. Mary's (8), and from there we went to see East Bergholt's unique 400 year old bells in their cage. Tea was at Ipswich, and ringing took place immediately after at St. Mary's Church (8), where we were joined in the day's best ringing by Mr. Charles Sedgley. From there we went to the beautifully rich toned eight at Stowmarket, which are very pleasing to the ear. Ixworth's heavy ring of six, and our only six bell tower of the day, brought our outing 'round.'

During the course of the day a good variety of methods, including Hull and Cambridge Surprise Minor, Double Norwich Court Bob Major, Stedman, Grandsire and the inevitable Plain Bob Minor, Triples and Major were rung.

On the return journey at the 'Foldgate,' Stradsett, we were able to give our sincere thanks to Les. Houghton, our tower secretary, for all his hard work and excellent planning to make our first outing such an all round success. We also express our warm appreciation to all the many local ringers who welcomed us.

ST. STEPHEN'S SOCIETY, WESTMINSTER

The sun shone brightly on to the dusty Kent lane, and an old lady was just about to cross the road when ... zoom ... zoom ... two cars flashed past; she caught her breath, watched 'these mad young things' disappear into a cloud of smoke, and ... zoom ... the third car in our party nearly frightened her into eternity.

We rang at nine towers all told, on May 13th, and enjoyed the hospitable welcome we received, and the wide variety of bells. The ring at Edenbridge (8, 14 cwt.), with its central opening in the floor, was voted the best of the day, but more interesting were the eight at Chiddingstone (19 cwt.), the tiny ringing chamber and low ceiling at Seal Chart (6, 10 cwt.), and the long draught at Seal (6, 12½ cwt.).

Penshurst, Leigh, Shipbourne, Sundridge and Brasted (an anti-clockwise ring) were also enjoyed, and we must thank Brian and Frances Threlfell, who entertained us all to a splendid supper, making a perfect finish to a perfect day.

HECKINGTON AND SLEAFORD, LINCOLNSHIRE

Ringers from Heckington, Sleaford, Billingborough, Great Hale, Helpingham, Ruskington and Silk Willoughby spent a most enjoyable day in Norfolk on May 13th.

Our first stop was at Tilney All Saints', where we admired the hammer-beam roof and rang rounds and Plain Bob on the six bells. We were most interested to see the flint-covered circular tower at Great Ryburgh: Grandsire Doubles seemed to go very well on this light six.

At the eight-bell towers of Fakenham and Well-next-the-Sea we were welcomed by local ringers. The ringing included a course of Stedman Triples and touches of Kent T.B. Major and Grandsire Triples. Tea was taken at Hunstanton before going on to Dersingham, a village belonging partly to the Royal Estate of Sandringham.

At the end of the day, everyone agreed that the outing had been a great success. We thank, in particular, the Ringing Masters of Heckington and Sleaford, who arranged everything for us.

WILLINGDON, SUSSEX

The recently re-formed Guild of St. Mary the Virgin, Willingdon, held their first outing since before the war on June 17th. As most of the ringers are young ringing was restricted to three six bell towers and one of eight bells.

It was an experience to ring on the six at West Tarring, where the sway made ringing difficult. Triples were rung at Heene (Worthing), with the help of the local captain. The new ring of six at Findon, in the heart of the Downs, has an excellent 'go' and the young ringers gave a good account of themselves. Washington, the last call, is without a band of ringers and on the excellent ring of six visiting bands are always welcome. Home was reached at 10.30 p.m. after a most enjoyable day.

HIGHCLERE, HANTS

Towers in the Vale of the White Horse were visited by Highclere ringers for their outing on June 10th. Coleshill, listed in the Oxford Guild report as unringable, was found to have a perfect 'go,' although the tenor was cracked and could not be rung.

The heavy five at Uffington proved to be a big attraction, but a disappointment followed at Longcot, where the bells are unringable, due to frame trouble. At Bishopstone a broken seventh rope reduced ringing to seven bells, and at Wanborough it was only the tact of the organiser that enabled the visitors to have a quick ring on a six of real beauty. There was a grand finish in the local at Aldbourne.

SUSSEX RINGERS' WEEK-END IN THE WEST

ON Friday, June 9th, a party of us Sussex yokels put on our best smocks and shaking the straw from our hats, started a raid into the heart of the heavy-bell country. Gaffer Frank Hicks rang the first changes of the trip on the gears of the hired minibus—a faulty gear linkage caused much bother—and with bearded John (Atlas) Howard as map and Dove-reader turned the radiator towards Westbury, Wiltshire, our first call.

Here the band, accustomed in the main to the lighter bells of Sussex, soon settled to the steadier beat demanded by the 35 cwt. tenor and some excellent Triples and Cambridge Major were rung. George Francis led us down in peal and after the inevitable fish 'n' chips at Shepton Mallet we headed into Wells. Gwilym Salmon, secretary of the Bath and Wells Association, who had done much of the spade work in arranging the ringing part of the tour, was waiting for us, late as we were, and we were glad to make his acquaintance before seeking our beds.

Much later that night young Peter Howard roared in from Mitcham on his motor-bike, having cut short a maths exam, and travelled (apparently) at an average speed of 85 m.p.h. to catch us.

The following morning we began our ringing at Chewton Mendip (24½ cwt.), where possibly the best touch of the week-end, Double Norwich, was enjoyed. Then off we went, Alan Baldock already busy writing in his records book, to Evercreech of radio and television fame. We found this ten (21 cwt.) much to our liking, and Bob Royal and Stedman Caters were brought round. We were just in time to see the bride leave home for the wedding, which followed our ringing, before proceeding to nearby Ditchat where the octave, with its 24 cwt. tenor, was soon resounding through the delightful village.

QUEEN CAMEL AND SHERBORNE

Back to Evercreech for lunch, then on to Queen Camel's heaviest six. Alan and John relieved the heavy brigade for a spell on the 36½ cwt. 'big 'un,' and we managed a reasonable lower after a course of London.

Across the border to Dorset, where we found June and Denis Mitchell again waiting for us. (How did they manage to leave every tower after us, in their own car, and yet be waiting at the next stop, grinning, when we arrived?) Sherborne Abbey, another 'heaviest,' gave us some of our best touches, but with a 46½ cwt. tenor, Frank George and Leslie Waller, our tame back-enders, were kept busy.

To Somerset again for tea before meeting Mr. Thomas J. Setter at Yeovil. We had the pleasure of ringing with him in Stedman Caters when the bells and their 40½ cwt. tenor were heard to their best advantage, although the Sussex men were tiring after their day 'among the metal.' The fish shop at Shepton Mallet let us down rather badly, but a local cafe owner took pity on our pinched faces and gave us tea and sandwiches before we sought once more our bed and breakfast at Wells.

Awakened on Sunday morning by circus wagons rumbling down the main street we were all on time for service ringing at the Cathedral. Although the 2nd was out of action, we were able to ring the back eight, and

Leslie excelled on the 56½ cwt. tenor to Bob Major. Eddie Rapley also climbed on to a box at this tower (for the first time in his life!), but having tested the strength of the rope, he climbed down again to the cheers of his companions. This peal completed our trio of 'heaviest.'

We then joined the local band at St. Cuthbert's, Wells, on their eight (27½ cwt.) and Harold Reynolds alarmed everyone by expertly slipping the wheel on the treble before three leads of Kent.

Saying goodbye to our friends at Wells, we started the long journey home. Handbells were much in evidence, and with one 720 of Bob Minor the band remembered the golden wedding anniversary of Mr. and Mrs. Raymond Wood, of Billingshurst, Sussex. Each tower in sight of the road was traced on the map and in Dove, and many future outings were planned, many bells installed in empty towers, and the names of Bilbie, Rudhall and more modern founders were heard.

PUZZLED AT STONEHENGE

A quick look at Stonehenge (Evelyn Hicks, a staunch choir member, wondered on which side of the sacrificial altar sat Decani Druids and which side Cantoris) and we were at Winchester for Evensong ringing at 3 p.m. We inspected the 35½ cwt. tenor and its eleven companions, shed a metaphorical tear over the fate of St. Maurice's opposite, already surrounded by girders and spidermen, and sped on our way.

Arriving at Billingshurst (Sussex), we had a quick cuppa at Leslie's place and met the local ringers to join with them in service ringing. A really good course of Cambridge Major was scored on this pleasant eight (12½ cwt.), a fitting end to a trip which was, to ringers from a county somewhat starved of heavy bells, a welcome departure.

Thank you, Somerset and the West Country! Thank you, Gwilym Salmon, for all your hard work; thank you, local secretaries and captains, for your smiling welcomes and courtesies. But, above all, our gratitude goes to the indefatigable Frank Hicks who had the idea, arranged the trip, drove the car, struggled with the gearbox, organised the ringing and kept us all in order (more or less), and to Evelyn Hicks, who kept Frank in order (more or less). H. R.

MR. RICHARD WARD

Many visitors who have rung at All Saints', Ryde, Isle of Wight, will learn with regret of the passing of Mr. Richard Ward, probably the oldest member of the old Winchester Guild, of which he was a life member, and for many years leader of the Ryde band. In his 89th year, he only gave up ringing some three years ago, being unable to climb the stairs to Ryde's ringing room.

He was laid to rest on June 30th, having died the previous Tuesday.

HERITAGE

A PRIDE in one's heritage is very deep in most people. If a thing is worth while, then pride in being associated with it is fully justified, and as year succeeds year an additional lustre is added to it. This is particularly so of ringing societies, not merely the national bodies like the College Youths and the Society of Royal Cumberland Youths, but of our territorial associations with a strong affiliation with the diocese. This is the 80th year of the Oxford Diocesan Guild, and at the annual festival at Oxford on July 1st thoughts were very much in retrospect. Indeed, the theme of all the officers' reports was the past 80 years.

The birth of this Guild was on January 17th, 1881, and it had three objects, viz.: (1) To recognise the true position of ringers as church officers; (2) to cultivate the art of change-ringing; (3) to promote belfry reform where it was needed. The Guild started in a small way with some 22 towers in union with 314 members. The first Master, the Rev. F. E. Robinson, soon became a national figure. He had, as the present master (Rev. C. Elliot Wigg) reminds those who read the annual report, a great missionary responsibility. The majority of the members were call-change ringers, and his task was to convert those ringers from that traditional style of ringing to become efficient 'scientific' ringers, as change-ringers proper were often called. The Master travelled indefatigably throughout the length and breadth of the diocese, holding meetings, instructing beginners, and above all ringing numerous peals with picked bands in order to get a standard of first-class ringing. For 30 years he was Master, and by 1911 those 22 towers had increased to 149 towers and the membership from 314 to 1,800. A pleasing link with this period was the presence at the Guild festival of his daughter, Miss Robinson.

The second Master was the Rev. C. W. O. Jenkyn, who held the office for 22 years, and Mr. Elliot Wigg regards this period as one of consolidation. In the jubilee year, 1931, the Guild comprised no fewer than 209 towers and 2,478 members. Most of the present branches had been formed by then and the general 'look' of the Guild was

very much as today. Tradition had been established, and an example of this was the holding of the annual general meeting at Oxford; but with the revision of rules in 1958 the Oxford gathering became a festival, and an autumn business meeting is held in different parts of the diocese.

Few Guilds have a greater sense of awareness of the responsibilities involved by the Sunday Service Survey of 1958. Commenting on this the hon. general secretary, Miss M. R. Cross, states: 'Nearly all the branches are tackling the problem in one way or another, and in some great progress is being made. This does not mean that we have any reason for complacency. There are still areas where the problem is not yet being faced with any constructive plans. In some branches, such as the East Berks and South Bucks Branch and the South Oxon Branch, the problem is being tackled by holding day and half-day courses; others have allocated some of their better ringers to a weaker tower; in some cases (as with Wantage and West Hanney) an active tower has made itself responsible for a second band just beginning.' Another result of the Survey, in the opinion of Miss Cross, has been that the clergy are now taking a keener interest in their ringers. 'This is to the good, for during the post-war years there had been a falling off in interest as compared with the pre-war years when it was a common thing for the clergy to accompany their ringers to the branch annual meetings.'

The holding of a residential week-end course is commented upon by three of the officers. 'This new technique in teaching' is warmly praised, and the 1961 programme included three courses which have been or will be held. The present position suggests to the Master that this 80th anniversary year is on the brink of a new forward movement in the history of the Guild. He sums up the position thuswise: 'We look back, and we note a wonderful growth and expansion in the past both in the technical abilities of the ringers and also in their sense of responsibility, as officers of the Church. We notice also, in the more immediate past, a period of consolidation and acceptance of traditional ideas. Now the time has come. I fully believe, for a further advance, both in technical efficiency and in fellowships. Each of us Guild members should now look actively for opportunities of service, and often beyond the immediate range of our own towers. Let us resolve that this year, 1961, shall mark the beginning of new enthusiasm, new missionary endeavour, and fresh consecration to the task which God has called us, as churchmen and church bell ringers.'

By the peal at Milford-on-Sea, Hants, Mr. Ernest Morris, of St. Margaret's, Leicester, has now rung a full 5,000 on every date in the year, including February 29th, a record which very few have accomplished. By a coincidence the composition (Grove's transposition of Parker's) was the same as his first peal (in 1906) and he rang the second on both occasions, but at places many miles apart—St. Andrew's, Grimsby, Lincs, and All Saints', Milford, Hants!

We learn that Mr. Brian Price is joining the staff of Radley College next September.

Kent ringers will congratulate Mr. George H. Spice on ringing in a peal on the 50th anniversary of his first peal.

The Oxford Diocesan Guild has 72 members with over 50 years' membership. Oldest is Mr. H. Gregory, who joined in 1892.

The peal at Broseley, Shropshire, on June 24th—the first on the augmented eight—is believed to be only the second peal on the bells.

In the quarter peal at Little Missenden, reported on page 419, the ringer of the second bell was Miss D. Page. Our correspondent sends his apologies to the lady concerned.

Congratulations to Mr. R. H. Mills, of Farnborough, Hants, who was awarded the British Empire Medal in the recent Honours List. A congratulatory quarter peal was rung on June 18th.

The bells of All Saints' Church, Stamford, will not be rung again until the work of repairing the steeple has been completed. It was damaged during a gale in the early part of this year. Practices will go on as usual on Tuesday evenings only at St. Martin's Church.

The six bells of St. Peter's, Whetstone, Leicestershire, are being rehung on ball-bearings, fittings overhauled, bell frame repainted, etc., at a cost of £250. To raise funds for this a garden fête was held in the grounds of the Memorial Hall, opened by Mr. Ernest Morris, of Leicester. The gratifying sum of over £170 was raised.

BELFRY GOSSIP

Congratulations to Mr. G. W. Taysom on his 100th peal. Geoffrey moved to Cornwall from the Hereford area some 30 years ago and now rings regularly at both Gulval and Madron. It takes a long time for a peal total to rise in the extreme west, but he has gone on joining in attempts at every opportunity as well as loyally and regularly helping in every sphere of ringing; in fact he is one of those stalwarts of whom any Guild can be proud. The Truro Guild is of him.

Mr. James R. Lawson, carillonneur at Riverside Church, New York, has been in England and is now in Sweden. Next week he is giving a recital in Belgium, followed by a visit to Greece. He hopes to see some more of his English friends before returning to the States.

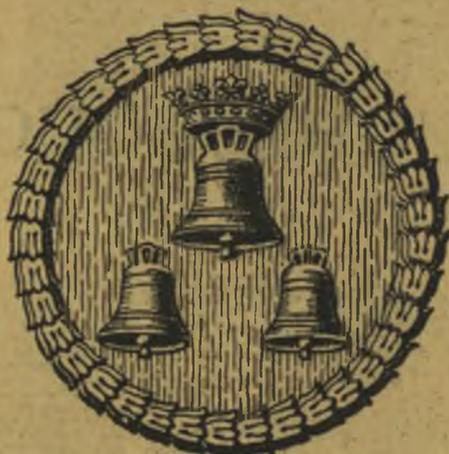

Although rung for Matins, the quarter peal at Writtle on July 2nd was in the nature of a belated 57th wedding anniversary quarter for Mr. and Mrs. Caleb Fenn, of Barking. Caleb, of course, is associated with St. Margaret's, Barking, and was a leading member of that most competent band of some years ago. Nowadays the stairs are a bit too much, but he maintains his interest through 'The Ringing World.'

Mr. C. Wiltshire, formerly of Guildford, who is now 95 years of age, has been living at Nansouville, Quebec. His daughter writes acknowledging a letter from the secretary of the Central Council and a copy of the jubilee issue of 'The Ringing World,' which gave him great pleasure. Recently he was removed to a nursing home, but he is still able to take an interest in things and remembers his old friends.

The ringers of the peal of Stedman Caters at Hillingdon on June 24th, arranged and rung to commemorate the 50th anniversary of the ten bells, would like it also to be associated with the life and work of Dennis C. Morgan, of Harlington. He was to have rung in the peal, but unfortunately he was killed in a road accident and was buried on the morning of the 24th. The conductor of the peal had the sad task of representing the band at the funeral.

RINGING FOR THE ENTHRONEMENT

A Great Response

NEVER before has there been concerted ringing to honour the enthronement of an archbishop. The enthronement of the Most Rev. A. Michael Ramsey as 100th Archbishop of Canterbury and Primate of All England was marked by the ringing of church bells in every diocese. At the Central Council meeting at Stoke-on-Trent on Whit Tuesday a request was made by the president of the Central Council of Church Bell Ringers (Mr. Frederick Sharpe) that the day, Tuesday, June 27th, should be honoured by the ringing of church bells.

31 PEALS

The response was most gratifying. At the time of writing no fewer than 31 reports of peals having been rung have reached this office. These included the Cathedrals of Canterbury, Oxford, Leicester, Bradford, Bristol, Manchester and the former Pro-Cathedral at Guildford.

At Canterbury a peal of Cambridge Surprise Royal was rung in the evening at the Cathedral by nine resident members of the Kent County Association and one non-resident member from Croydon, which is also in the Diocese of Canterbury. The Archbishop is ex-officio president of the Association, which comprises all the Diocese of Canterbury except the Croydon Archdeaconry, all the Diocese of Rochester and part of the Diocese of Southwark in that part of the South East London area which was formerly in Kent.

PERSONAL MILESTONES

In the 31 peals rung 35 of the ringers were ladies. Twelve of the ringers were ringing their first peal and for three others it was their 100th peal. These were Messrs. Geoffrey W. Taysom, the well-known Cornish ringer, who reached his century at Carbis Bay, Patrick W. Saltmarsh, of Danbury, Essex, who rang at Great Baddow, and Herbert W. Woolven, of Sussex, who was ringing at Heene, Worthing.

Two former Devon call-change ringers took part in a peal at East Budleigh. On the treble was Mr. Henry Luxton (64), who was ringing his second peal, and on the tenor Mr. Frederick Snow, who was ringing his first.

Ramsey Surprise Major was the appropriate method selected at Harrow Weald for the peal in honour of the enthronement.

176 QUARTER PEALS

Quarter and half peal ringing reached the splendid total of 176. Cathedrals in the list included St. Albans, Gloucester, Chichester, Worcester, Carlisle and Bath Abbey. London was represented by quarters at St. Mary Abbots, Kensington, and St. Ann's, Highgate.

In these quarters there were no fewer than 56 ringers who were ringing their first quarter, and among them was R. I. Roberts, aged 11, of Turners Hill, Sussex. At Wolvey, Warwickshire, A. D. O'Donnell, aged 14, was conducting his first quarter peal.

A very youthful band was performing at Holt, Wilts, where the average age of the band was 14 years and two were ringing their first quarter.

At Thorpe-le-Soken, Essex, it was intended to ring a peal. Towards the end of the fifth 720 one member of the company became ill, and the conductor called 'Stand' at the end of the extent.

The quarter rung at Woodford, Essex, on July 1st was a second attempt. The band made its first attempt at Loughton on the Tuesday but were thwarted by a gang of hooligans entering the church and meddling with the chiming apparatus.

ROPES UNRAVELLED

The quarter peal at St. Michael's, Stoke Coventry, was accomplished not without difficulties. Just before the half-way single a strand of the tenor rope broke at the tucking in the rope end. This quickly unravelled to six feet above the sally. It was only the importance of the occasion and the dexterity of the conductor (Mr. W. A. Stote) which restrained him from calling 'Stand'.

Another case of a disintegrating rope occurred at Workington, where a peal attempt of Plain Bob Major was going well and had to be curtailed to 2,528 changes.

PERSONALITIES OF THE EXERCISE - 28

MR. FRANK T. BLAGROVE,
Middlesex County Association.

If there were such an organisation as a Belringers' Trade Union, Mr. Frank T. Blagrove, of Windsor, Berks, would surely be frequently 'on the carpet'. He is a very competent 'double-handed' tower bell ringer, and in fact has rung more double-handed peals than anyone (including Washbrook), having scored 12 so far, and about 60 quarter peals. What is more extraordinary is that these peals have included 3 of Doubles, in 25, 45 and 72 methods, which he also conducted! He has rung Bob Minor with four officers of the South and West District of the Middlesex Association, and this year rang in the only triple 'double-handed' peal, with Tony and Frank C. Price—Bob Minor at Preston Candover, Harts. There are not more than eight ringers alive today who have rung even one 'double-handed' peal, but it should not be too difficult for four of them to get together, and ring a peal of Major—something worth doing.

The quarter peal rung at Twineham, Sussex, on June 27th was the first time the bells had been rung for over three years, as the state of the tower, which has now been repaired, rendered ringing inadvisable. During the 'silent' period the oldest ringer and tower captain, George Packham and Charles Wickens, have both died, and they were very much in the minds of those who rang. The ringers included a son of one and a daughter of the other.

The quarter on the Priory bells at Worksop, Notts, was the first on the bells for seven years. The team was entirely local.

The analysis of methods rung in quarter peals is Cinques 1 (Worcester Cathedral), Royal 3, Caters 6, Major 17 (no Surprise Major), Triples 48, Minor 39 (three Surprise), Doubles 62.

The bells of the Municipal Church of St. Laurence, Reading, were rung for an hour on June 27th.

At Emmanuel Church, Clifton, the conductor suffered a lapse of memory and 1,200 changes only of Grand sire Doubles were rung. This performance would have been the first quarter for two young members of the band—Peter Hyatt and James Alexander, who are both pupils at Clifton College and very promising young ringers.

To celebrate the enthronement, touches were rung on the bells of St. Michael's, North Cadbury, and St. Thomas a Becket, South Cadbury, Somerset, on the Tuesday evening.

Frank, who was born at Bedford, Middlesex, on June 17th, 1934, educated at Ashford Grammar School, Middlesex, and graduated at the Imperial College of Science and Technology, London University, is now a schoolmaster at Slough Grammar School. He started to ring at Stanwell in April, 1947, when Sydney Sabin started a band of young ringers to help the old call change band there. However, he gratefully acknowledges the help he received from that well known ringer, Tony Price, of Feltham, who taught him to handle a bell properly, and also change ringing. There are many ringers in South West Middlesex who owe a great deal to Tony's patient and skilful instruction.

In November, 1949, and aged only 15, he was asked to take over at Stanwell, and to teach a new band from scratch. As he had no assistance to teach change ringing, he found it more convenient to teach himself to ring two tower bells at the same time! The Stanwell Society, as then formed, rang their first local 120 of Doubles in May, 1951, their first local quarter peal in October, and their first local peal on February 15th, 1952, in 11 Doubles methods, which was rung fully muffled for the funeral of King George VI. The Society also provided opportunities for many other ringers in the District to learn change ringing, and ring their first quarter peal. One of their more recent members—Christopher B. Fynes—has also rung and conducted two or three peals of Doubles 'double-handed'.

Frank's first peal was seven methods of Minor, rung at Horton, Bucks, on February 11th, 1950, and conducted by Tony Price, and his first peal as conductor was also seven Minor methods at Stanwell on May 12th, 1951. His present peal total is 110, all on tower bells, and of which he has conducted about 40. They have been rung in many methods from Bob Doubles to Yorkshire Surprise Maximus. Amongst those he recalls with pleasure are London Surprise Major rung by officers of the Middlesex Association, the record peal of 113 Doubles methods, and the first peal on the 10 bells at Feltham, Middlesex, which he composed and conducted.

Frank was elected a member of the Middlesex Association in 1950, and has held offices in the South and West District since 1952. He has been Deputy Ringing Master, District Ringing Master, assistant District secretary, and is now District secretary. He was elected as a Central Council representative in 1957, and serves on the Records Committee and the Methods Committee. He is very keen on tracing a complete list of First Peal Performances, and a history of bell ringing in the 18th and 19th centuries. Towards this end he has so far collected about 8,000 peals rung before 1881—an amazing number! Serving on the Methods Committee, he is naturally very interested in new methods, and has produced two books; one on Surprise methods from 1821-1950, arranged in mathematical order of places, and also a collection of Little and Alliance Doubles methods, most of which have been rung at Stanwell.

In 1956, Frank married Monica Howard, who has rung a number of peals. They met at Clewer, Berks, which in the early 50's was a popular ringing centre. As they now live in Windsor, they ring at St. John's Parish Church and the Curfew Tower. They have one son, Mark Thomas, and his mother rang in a quarter peal at Stanwell 12 days before he was born. Frank's other interests are philately and gardening.

Still a young man, he has shown that good work can be done at an early age and he has set a fine example to all young ringers. His future, both in peals and research, will be watched with much interest. **APACE.**

A quarter peal of Little and Plain Bob Minor was rung at Woodhouse, Leics, on June 28th for Miss Pamela Dobson, who is to live in Cyprus for 2½ years. A peal attempt for her took place at Queniborough on July 1st and came to grief 960 changes from home, when the tenor rope broke. The ringers were Pamela Dobson 1, Michael Brown 2, Barry Brant 3, David Manship 4, Maurice Kirk (conductor) 5.

ARCHDEACONRY OF STAFFORD SOCIETY

Presentation To The Rev. H. H. Barker

ON June 10th the Society held its 71st annual general meeting at Lichfield. Unfortunately the weather was not up the standard usually enjoyed on these occasions and a steady drizzle persisted throughout the afternoon. It did not dampen the spirits of the ringers, however, and during the afternoon the fine 'ten' at the Cathedral and the 'eight' at St. Mary's were put to very good use. The new ring of five bells at Shenstone was also available during the afternoon, and in the evening Alrewas and Elford towers were opened to visitors.

The service was held at St. Michael's Church and conducted by the Ven. Basil Stratton, Archdeacon of Stafford and president of the Society. The address was given by the Rev. J. Ormiston, Vicar of Shenstone, who likened the Church to a lighthouse whose beams shone out into the darkness and showed the way to safety and peace. He liked to think that behind every team of bellringers there was a team of Christians, calling people to church.

After the service the congregation made its way through pouring rain to the Women's Institute Hall, where an excellent tea awaited. It had been provided by a willing band of lady helpers drawn from Lichfield and all quarters of the Archdeaconry. They had worked extremely hard from 2 p.m., and grateful thanks are extended to them and their many male helpers for providing such a first class spread.

REAL FEE ACCEPTED

The Archdeacon presided over the business meeting. Mr. Frank Brotherton, honorary treasurer, presented the accounts. The income showed a reduction, compared with the previous year, due to a smaller number of paid up resident members. On the other hand additional expense had been incurred in printing the annual report and this, together with losses at meetings and on the annual dinner, was causing an excess of expenditure over income. To try to remedy this difficulty a proposition was put forward that a peal ringing fee be introduced. It was argued that, as the main cost of printing the report was due to reproducing the peals after 'The Ringing World' style, it was only equitable that peal ringers should bear a fair proportion of this cost. There followed quite a long and heated argument as several members of the Society were most reluctant to see this idea introduced. The Archdeacon skilfully conducted the discussion and eventually the proposal was put to the vote and carried by a substantial margin. It was later decided that this peal fee should be fixed at 6d. per ringer for the time being and its collection would commence immediately.

The secretary, Mr. D. J. Tranter, presented the Committee's report and reviewed the previous year's progress and activities with satisfaction. Meetings had been well attended during the year and the average attendance over all the meetings was 90 people per venue. The Lichfield Diocesan Ringing Festival, held at Stoke-on-Trent, had been a great success and the Society looked forward to holding another this year in the Wolverhampton area. Peals rung for the Society during the 12 months totalled, to date, 41, a decrease of seven over the previous year. A high standard had been maintained and of the total 15 had been peals in Surprise methods.

PEAL NOT ACCEPTED

Messrs. B. G. Key and G. W. Hughes, the Central Council representatives, gave a report on the recent meeting held at Stoke-on-Trent.

They reported that a peal of Gainsborough Surprise Royal which had been rung for the Society would have to be withdrawn. It apparently did not conform to the Central Council's rules and would not, therefore, be included in the analysis of peals. The hospitality of the North Staffordshire Association on this occasion was first class and each representative was presented with a china ashtray as a memento of his visit to the Potteries. One of these beautiful ashtrays was passed around the assembly for all to see.

The president extended a vote of thanks to all the officers of the Society for their hard work during the past year. He also congratulated Mr. and Mrs. B. G. Key who were celebrating their 21st wedding anniversary that day.

The following elections for the coming year were made: Ringing Master, Mr. J. Eastwood; Deputy Ringing Master, Mr. J. Allen; honorary treasurer, Mr. F. Brotherton; honorary secretary, Mr. D. J. Tranter; assistant secretary, Mr. C. M. Smith; auditor, Mrs. E. E. Speake; Central Council representatives, Mr. B. G. Key and Mr. G. W. Hughes.

44 YEARS IN OFFICE

At the close of the formal meeting the president called upon the secretary, Mr. D. J. Tranter, to make a presentation to the Rev. H. Holroyd Barker, who resigned last September from the office of clerical secretary. Mr. Tranter gave an appreciation of Mr. Barker's services to the Society and said that it was with great regret that his resignation had been received after 44 years' service. A presentation fund had been started and the Society had responded magnificently, raising a total of £22 10s. in all. It was with the greatest pleasure that he now presented to Mr. Barker, on behalf of the Society, an Aldis Film Projector. In thanking the Society for its generosity, Mr. Barker recalled his many happy associations with past and present members. His son was abroad now and this projector would be extremely useful for viewing colour films of his family from time to time.

In recognition of 50 years' continuous resident ringing membership the following members were elected to become honorary life members: Edgar Marlow, Wood Green, and Edgar T. Smith, Walsall.

THE SUFFOLK GUILD

The meeting of the West Central District at the five bell tower of Badwell Ash on July 1st was a disappointment as only seven District members attended, supported by three from other Districts.

One wonders how many would have attended if there had been six or even eight bells. In the evening there was ringing on another five—at Great Ashfield.

Next meetings: Thornham Magna, August 19th (evening); Rattlesden and Drinkstone, September 2nd.

BEDFORDSHIRE ASSOCIATION

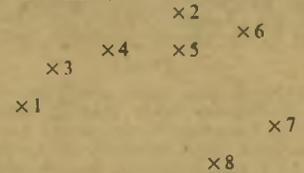

Mrs. Sinfield and helpers prepared a very enjoyable tea for the quarterly meeting of the Luton District held at Totternhoe on June 17th. At the business meeting it was decided, after much discussion, that the fate of the ringing competition should be settled by a committee, composed of a representative from each tower in the District. Evensong was conducted by the Rev. W. O. Sunman, who gave an acceptable address. In the evening methods rung included Little Bob Major and Cambridge Surprise Minor.

A NOTE ON WORCESTER CATHEDRAL BELLS

With the peal on the C sharp octave, all fifteen bells hung for ringing at Worcester Cathedral have been rung to peals.

The extra bells to the ring of twelve are a flat 4th, a flat 6th and a flat 8th. Thus two 'middle eights' are available, one with the ninth as tenor (20 cwt. 0 qr. 6lb. in E) and one with the eleventh as tenor (34 cwt. 3 qr. 4 lb. in C sharp). For the E octave the ropes fall in a semi-circle, but for the C sharp octave they fall as below:

It seems practical for this arrangement to be improved.

It is interesting to note that if the bourdon bell was hung for ringing and a flat tenth and flat third added a ring of twelve with a tenor of 82 cwt. 3 qr. 24 lb. would be available—97 lb. heavier than Liverpool Cathedral tenor. The total number of rings available would be two major twelves, two major tens, one minor ten, four major eights, two minor eights, six major sixes and five minor sixes.

HERTS COUNTY ASSOCIATION

A fair-sized crowd attended the St. Albans District meeting at Sandridge on June 17th, where the attractions were pleasant weather, an ancient church with a Saxon screen and Roman tiled chancel floor and anticipation of a good tea, although some of the company are still doubtful about the long, almost vertical ascent to the belfry.

After half-an-hour's ringing the bells had to be muffled because of complaints from local night workers. Standard methods were, however, rung.

The Rev. C. G. Woodhead, a ringer, conducted the service, and an excellent tea was provided by the local band. Mr. T. J. Southam presided at the business meeting, and the company stood in silence in respect for John T. Kentish, a Hatfield ringer, who died on June 2nd.

Next meeting, North Mymms, Special method, Double Oxford Bob Major.

SOUTHWELL DIOCESAN GUILD

It was a very warm, close day on July 1st for the meeting of the Newark District at Sutton-on-Trent. The bells were rung during the afternoon and evening to a good variety of Triples and Major methods up to Yorkshire Surprise, with rounds for the less experienced. This pleasant, light ring of eight sounds best when being tapped round briskly.

The usual excellent tea was served by lady ringers and helpers, followed by a short business meeting, presided over by Mr. J. W. Raithby, in the absence of the District chairman. A special welcome was accorded to Mr. Turner, of Anston, in the North Notts District, who has served 70 years as a ringer in his home tower. One new member was elected and the meeting was closed with thanks to the Vicar for the use of the bells and to the ladies for preparing tea. Next meeting: September 16th, Whatton-in-the-Vale.

INFERIOR DOUBLES METHODS

Dear Sir,—I would like to thank Mr. Saltmarsh for his congratulations first of all.

So that we do not argue at cross purposes may I take it that when he refers to methods with 'places made at once' he is thinking of methods with 'four places made at once.'

The point at issue is that of quality. We think these methods which include at least two single changes in each lead are rubbish. Mr. Saltmarsh thinks they are preferable to those of the Little Court variety. May I give an example of each so that a comparison is possible.

142635

The method on the left has from the third to the fourth change one pair of bells only changing, 1 and 6. From the seventh to the eighth change only 1 and 3 cross. There are thus two single changes in each lead. Now this method complies, as far as I can see, with the Central Council Decisions, but it has never been included in a C.C. Collection and this fact is very significant. I believe that in olden days some methods of this sort were rung and they were thought to be dead; the transient strain which appeared two or three years ago will, I fancy, last little longer than the time taken to ring the 'first in the method' of each of this type.

The objections to it are first, that it tends towards call change ringing, and second, that it sounds bad. I have no quarrel with call change ringing as such, but it would seem obvious that one of the purposes of 'scientific' change ringing is to change as many pairs of bells each time as possible. Admittedly, Cambridge Major and upwards, Yorkshire Royal and most Surprise Royal and Maximus methods as well as a number of 'once rung' Surprise Major methods, have this same blemish, as the Rev. C. D. P. Davies so firmly points out in 'Surprise Methods,' but the result in these cases does not sound as bad, for there are in Major two pairs changing at the crucial times, and in Cambridge at any rate the two pairs of places are separated by the dodging bells in 3-4. (New Cambridge is worse in this respect.) In Minor, however, three of the four places must be adjacent, unless fifths without the treble in sixths is allowed—and that would be the end, or next to it!

In comparison the only criticism that can be levelled against the method on the right above, Crayford Little Court, is that the treble does not hunt the whole distance. Otherwise there is just about as much movement of the bells from front to back as there is in Plain Bob and the music is very similar. Little Bob, Crayford's pair, is sufficiently popular to justify its existence.

There is, lastly, the important point of principle. During the last thirty or forty years the record in number of methods has been broken a good many times. In the 1930's, in particular, rivalry was strong and a number of unofficial rules were tacitly accepted. One of these was that there should be at least one plain lead of each method included; a bobbed lead only was to be avoided. In our recent peal we deliberately did not include a bobbed lead of Capel even though Ockley, its pair,

does not appear, but rang Sandal instead, as it appears elsewhere 'plained.' We have tried to follow suit in other respects and so avoided methods with four places made at once. To have included them would have been an easy way of breaking the record. If a county batsman knocked up 500 runs for an old boys' XI against his school team this would not displace Hanif Mohammed's record.

A record in bellringing, whether of endurance or intricacy, must not only be made but must be shown to be made: the new performance must be of higher standard in its particular sphere.—Yours faithfully,

WILFRID F. MORETON.

MR. BLAGROVE CONFUSED

Dear Sir.—Several words and expressions used by Mr. Blagrove ('The Ringing World,' page 423) shows he has got confused.

In the first place, his use of the word *neither* (which is generally taken to mean two of anything) is not in order. I quoted three known ways of ringing 'St. Dunstan's' not two: the one given in the Central Council, 1939, Collection on pages 2 and 5, which he himself admits is not correct; the one he gives with Grandsire Singles (which differs very little from Grandsire, and about which all the arguing was in the Central Council some years ago, and which J. Monk, the compiler of the 1753 'Campanologia Improved,' in his 1766 fifth edition rejected, as not the correct St. Dunstan's—note, he edited this 1766 book, fifth edition, corrected by J. Monk), together with the version he regarded as correct and from which I gave the figures in 'The Ringing World' recently.

So when Mr. Blagrove states 'neither of the methods I submit is correct,' he actually is challenging the authority of J. Monk and his own Central Council, and not Mr. Amos, as he tries to make it appear.

Having already given the figures from the 1766 book, may I quote what it states? On page 27 are these words (I repeat, not the words of Mr. Amos, but of J. Monk, the compiler):

'St. Dunstan's Doubles.—In this peal the changes are all double, except one single every second time the treble leads, there being six of them in the "peal"; the treble, as before, hath a direct hunting course, and every time it goes to lead, and leaves leading, the bell in thirds place lies a whole pull, and then goes down, and the two hindermost bells dodge ill treble parts them, except at three of the Single changes, and the bell in thirds place goes up behind (here is where Mr. Blagrove is getting confused) and the bell in fourths place comes down; but at other times they have a hunting course.

'When the treble leads and the second is in its own place it is a bob, Kz'L psj|Pho'.—second is in thirds place it is a Single.'

That is the St. Dunstan's we attempted for a peal (but lost) for the recent Festival of St. Dunstan, and which we, in this district, are accepting as the true St. Dunstan's Doubles and the least like ordinary Grandsire of the three, despite what Mr. Blagrove or the Central Council like to say to the contrary. The single is certainly not a Grandsire single, the bob is a Chace bob (or a Grandsire extreme, whichever one likes to call it) and the plain lead is not a plain lead of Grandsire. I suppose here, someone will want to rush in and say, 'No, it is a bob lead!' I hope they do, because that straightway goes to prove a point I raised recently: that all this baloney from certain Central Council members that they will not recognise a method which has a plain lead of one method and a bob

lead of another may sound all right on paper, but it does not work out in practice! You do not need to call bob (as in this case of St. Dunstan's) and it becomes a plain lead, or vice versa. St. Simon's and many more do not have a bob of their own—they employ a fourths place (Plain Bob-bob), and as for Mr. Blagrove's suggestion that we rename St. George Spliced Winchendon, Wexham and Reverse St. Faith here again he has got confused, for it is nothing of the kind.

True, the plain leads (only three in 120) are Winchendon, but the bobs are a half-lead of Original (in other words, every bell at a bob plain hunts), and the singles are Old Doubles bobs called as singles.

If a Saint's Day can be commemorated in the way we set out to do it, that is more in keeping with the real and true purpose of the bells than all the competitive spirit behind many of the peals rung, which, as Mr. E. T. Paul Field stated recently, have little or no spiritual value behind them whatsoever. In any case, we have no evidence of another method named St. George, and if there was one, was it rung to a full peal, and where does the Central Council ruling take effect, that the band who rings the first peal in any method shall have the right to name it, come into the picture? I noticed someone asked that very question on the same page as I gave the figures for St. Dunstan's Doubles.

One other point, Mr. Blagrove is not consistent when he suggests we rename the peal at Wootton Spliced Winchendon, etc. Why doesn't he admit that St. Nicholas' is Spliced St. Simon's and Reverse Canterbury—plain course or no, it is still a mixture of both. And what about Stamford Surprise Minor? Primrose, which is as near like Cambridge as anything, and dozens more I could quote, which are bits of one methods and bits of another. Why doesn't he call Biddendon a mere variation of Yorkshire?—Yours sincerely,
Weston Favell. P. AMOS.

WORCESTERSHIRE AND DISTRICTS ASSOCIATION

On July 1st, the Western Branch held its first meeting at Crowle since 1947. The bells are an old John Martin five (1667), augmented to eight in 1897 by James Barwell, not quite in tune and very loud. Touches in the standard methods were made more interesting, as the third bell rope slips wheel at regular intervals!

The service was conducted by the Vicar, the Rev. E. J. Owen, who, after welcoming us to Crowle, gave an interesting address on the text 'Serve the Lord with gladness.' An excellent tea was provided on the Vicarage lawn, where the business meeting was held, the Vicar taking the chair. It was decided to hold the next meeting at Hallow and Grimley, practice methods being Yorkshire and St. Clement's.

During the evening members tackled the flying sallies of the heavy six (17 cwt.) at Upton Snodsbury, where methods up to Cambridge were rung. The Crowle bells were lowered at 8.45 p.m.

Our visit to these two little known towers was much enjoyed, and thanks are due to Mr. Sidney T. Holt for his very capable arrangements. We hope it will not be another 14 years before we again meet to ring in the lovely half-timbered and thatched village of Crowle. P. C.

OXFORD GUILD'S 80th BIRTHDAY FESTIVAL

BRINK OF A NEW FORWARD MOVEMENT SUGGESTED — NEARLY 2,000 MEMBERS — GRANTS TO CHURCHES TOO MEAGRE — POOR MAINTENANCE WORK IN BELFRIES

THE Oxford Diocesan Guild's 80th birthday festival on July 1st was marked by not only a large attendance, but most of the proceedings were conducted under the patronage of two Bishops and two Archdeacons. Such is the close and intimate relationship held between members of the Guild and the spiritual leaders of the Diocese. This year there was introduced a Communion service at St. Aldate's Church, at which the Master, the Rev. C. Elliot Wigg, was the celebrant, and about 40 members attended.

The service in Christ Church Cathedral was preceded by a touch of Cinques. The choir of ringers was of substantial proportions and in the procession the Guild's banner was carried by Mr. F. G. Edmans. The service was conducted by the Master, and the Deputy Master (Mr. F. Sharpe) read the lesson. Mr. Harry Badger was the organist. The service was attended by the Bishops of Dorchester and Buckingham.

FELLOWSHIP OF WORSHIP

In his address, the Archdeacon of Buckingham said it was quite a humble thought as they called others to worship and to worship themselves that they were in company with such a fellowship coming down through the ages of giving glory to God. People came to their churches for three things—to worship and keep the glory of God in the forefront of their minds; to learn and to ponder the meaning of the life and death of Jesus Christ; to form a centre from which others might learn about the Divine Glory as revealed in Jesus Christ.

In the churches of the Diocese they had been thinking about the 80 years of their Guild. Suppose their remote successors of five or 10 centuries were to look back on this age. He felt certain they would note the preservation of the fabrics of their churches and the way new churches had been built. They would also note that 90 per cent of the people were completely out of touch.

Concluding, the Archdeacon said: 'You and I, as we go to our churches week by week, continually draw inspiration from the past that we can better serve the present and thus hand on to those who follow something worthy of Almighty God.'

The business meeting was held in the Chapter House, with the Master in the chair, supported by the Deputy Master, the honorary secretary (Miss M. R. Cross), the honorary treasurer (Mr. A. D. Barker) and the honorary librarian (Mr. H. L. Roper). The Bishop of Dorchester was also present.

MR. A. D. BARKER HONOURED

Early in the proceedings the honorary secretary said one of their officers had served for 25 years as treasurer, and she would like the Guild to honour him by electing him as a vice-president. The proposition electing Mr. A. D. Barker to the office was carried with acclamation.

The reports of the officers and the accounts were issued in duplicate form. The Master, in his report, reviewed the past 80 years. He wrote, 'Within the last few years we have seen two very helpful signs for the future. One is a new approach to the teaching of beginners, more efficiently and more rapidly than ever before. The highly successful weekend course at Radley, last May, admirably demonstrated the new technique of teaching. Secondly, I believe that there is a growing sense of responsibility among Guild members about the "black spots" in the Guild's territory. It may well be then, that we find ourselves in this 80th anniversary year on the brink of a new forward movement in the history of the Guild.'

The Deputy Master, in his report, mentioned that in response to requests he had made over 30 inspections and reports on conditions of bells and their gear in all parts of the Diocese. This work was of an exceptional nature, and would not continue at its present level, but was occasioned by the architects' inspection of churches under the recent Quinquennial Inspection of Churches Measure.

LOSSES BY DEATH

Mr. Sharpe's report recorded the passing of Miss Stella Davies, Messrs. Albert E. Lock (secretary of the North Berkshire Branch), Edward G. Foster (former secretary of the Reading Branch), Thomas Trollope (aged 90, who was a pupil of J. W. Washbrook), James Haynes (of Charlton-on-Otmoor, in a fatal accident), Canon C. E. Last, of Great Horwood, and the Rev. A. L. Gutch, of Kirtlington.

In a very comprehensive report the honorary secretary said in 1960 the total membership of the Guild was 1,937 ringing members, 37 life members and 82 honorary members, as against 1,854 ringing members in 1959. This showed a marked increase. They had elected 37 non-resident life members, among whom were nine boys from Groton School, Massachusetts, U.S.A., and Mr. and Mrs. W. Tufts, of Washington, U.S.A.

During 1960 restoration work had been carried out at Arborfield, Cumnor, Shipton-under-Wychwood, Enstone and Eynsham. Work at present was being done to Northleigh and would begin at St. Helen's, Abingdon, during the summer of 1961. This would give the Guild once again five good tens.

The honorary treasurer, in his report, said the general funds of the Guild amounted to £1,066 3s. 9d., of which £1,036 14s. 4d. was in the Bell Restoration Fund. During the year £104 3s. 1d. was contributed to the Restoration Fund by 100 Parochial Church Councils.

GRANTS, AN INSULT

Mr. Cracknell said the position of the Restoration Fund was quite pathetic. They were giving grants to P.C.C.s up to £50, which was rather less than four per cent of the cost. A contribution was an insult unless it was about 25 per cent. He would like to propose that all possible steps be taken to increase the Restoration Fund so that grants could be made of 25 per cent.

Mr. A. D. Barker said only just over 100 P.C.C.s had contributed to the Restoration Fund. The total was £104. There were not many who paid £1—some paid two or three years' subscriptions. He had had another donation from the Jenkyn family and that had been invested in Defence Bonds. He had also been entrusted with another sum of money for St. Peter's in the East.

Mr. Michael Hatchett wanted to know as to what extent Christian Stewardship was practised in the Diocese and would it have any effect on the Restoration Fund. At Rickmansworth the P.C.C. said they would meet the cost of repairs to their bells.

Miss Cross said she knew that Abingdon was not going to apply for a grant, because of Christian Stewardship.

Mr. Alan Pink said he thought the reports of the officers were more than ordinarily interesting and were of historical value. The report and accounts were then adopted.

The officers were then elected as follows and thanked for their services: Master, the Rev. C. Elliot Wigg; Deputy Master, Mr. F. Sharpe; honorary treasurer, Mr. A. D. Barker; honorary secretary, Miss M. R. Cross; honorary librarian, Mr. H. L. Roper; report editor, Mr. P. Walker; honorary auditor, Ernest Francis and Sons, Reading. Subject to confirmation at the next meeting, Miss M. Pollard was elected as assistant honorary secretary. Notice was given as to the necessary alteration of rules to permit such an appointment. Elected to the General Committee were: Mrs. A. D. Barker, Miss D. Fletcher, Messrs. A. Diserens, E. Pearson, P. Walker and F. A. White.

250 NEW MEMBERS

The honorary secretary reported that 250 new members had been elected during the past year. Their election was confirmed on the proposition of the Deputy Master.

Mr. Hunt proposed, and Mr. D. Smith seconded, on the recommendation of the General Committee, that the subscription remain at 3s. 6d. This was agreed to.

The meeting was in a generous mood when applications for grants from the Restoration Fund were under review: in practically every case the committee's recommendation was increased, that of Aston Clinton from £20 to £25, Northleigh from £20 to £40 and Cropredy from £20 to £25.

The Master said they had received an invitation to Bletchley for the autumn meeting on October 7th. A cordial welcome was promised the Guild by Mr. Edwards and Mr. Sears. The meeting agreed to Bletchley.

Two proposed alterations to rules were submitted. A resident ringing member may become a life member by paying a life subscription of 25 times the current annual subscription, and any member, after paying a minimum of 30 annual subscriptions and reaching the age of 65 and still an active ringing member, may, as a mark of respect, be allowed to continue his membership without any further subscriptions, provided that this was approved by a branch meeting.

The meeting approved of the honorarium of £5 being paid to Mr. Sharpe to help towards his travelling expenses in connection with his inspection of belfries.

Mr. D. Wheeler submitted a request for a new Branch to be formed to be known as the Chiltern Branch as from January 1st, 1962. This was placed on the agenda for the autumn meeting.

The meeting concluded with the usual votes of thanks.

THE LUNCHEON

There was a company of 171 present at the luncheon, at which the Master presided. Proposing the toast of 'Church and State,' Mr. F. Sharpe said he wanted to say something about the condition of their towers. He was a churchwarden of 29 or 30 years' standing and when they had a visitation and had the question 'Are your bells sound, properly hung and fit for use?' he answered 'Yes.' He went up once a month to tighten the nuts and bolts in the belfry and once a week to oil the bells. There were people who answered 'Yes' without making sure first. During the year he had visited over 30 towers and he found some terrible things, of belfries cluttered up with rubbish and solid brass bearings chewed up because of no oil. 'You pull a bell and a series of groans is the answer, suggesting a ghost. An examination shows that no oil has been placed on the pulley wheels for 25 years. A lot of inspection work would not be necessary if the maintenance work was properly done.'

Continuing Mr. Sharpe said they were keeping that day, their 80th birthday, and quite a lot had been achieved during that time. So far as Sunday service ringing went 80 years ago only 3 per cent of the towers in the Diocese were rung regularly. In recent years that had been increased to 70 per cent. They would never get 100 per cent, but they must aim to get as near to it as they could.

The Bishop of Dorchester replied.

The toast of 'The Visitors' was submitted by Mr. H. L. Roper, who gave a special welcome to the Bishops of Buckingham and Dorchester, and the Archdeacons of Buckingham and Reading. Among the ringers he welcomed were Mr. B. Kynaston, Mr. Lewis Cockey, Mr. Harry Miles and Miss Marion Lidger, Mr. Dermot Roof, Mr. Wilfrid Wilson, Mr. A. A. Hughes and Mr. T. W. White.

A. HAPPY INSPIRATION

The reply was by Mr. White who, mentioned that it was the happy inspiration of an individual member of the Oxford Diocesan Guild that resulted in a National Ringing Day, to honour the enthronement of the new Archbishop of Canterbury. He proposed 'The Oxford Diocesan Guild' and congratulated it on making 250 new members during the past year and in ringing 138 peals.

(Continued on page 477, column 1)

SWANSEA & BRECON DIOCESAN GUILD'S FESTIVAL

THE 33rd annual festival of the Guild was held at Brecon on June 24th. The Lord Bishop (Dr. J. J. A. Thomas) presided at the business meeting. Others who were present were the Dean (Dr. Edwards Jones), who, together with the Vicar of Swansea (Canon H. C. Williams), read the lessons. Rev. W. C. C. Williams gave the address at the Cathedral. Immediately before the service a course of Grandsire Caters was rung on handbells by members of the Diocesan Guild.

St. Mary's (8) and St. David's (6) bells were available for ring from 2 p.m. and quite a few rang at St. David's before lunch. Both Districts were well represented.

BUSINESS MEETING

The president, the Lord Bishop in opening the meeting, thanked the Rev. W. C. C. Williams for his interesting sermon, and the organist who gave his services. Apologies for absence were received from Mr. A. J. Pitman and Mr. D. J. Williams, of Gorseinon.

Arising out of the minutes, it was asked whether the donor's name had been written in the Peal Records Book? Mr. G. I. Lewis replied that it had.

The honorary general secretary thanked all officers, in his report, for their co-operation during the year. There was still no immediate solution of the non-affiliation of Knighton, New Radnor and Llanfihangel Rhydithon towers to the Guild. The ringing competition held at Cefn Coed was again proof of a competitive spirit amongst the ringers.

Concluding, Mr. J. A. Hoare said there were still a number of towers where there was no ringing, which was very disquieting. To increase membership he suggested that all ringers in 4 bell towers should be asked to join the Guild.

The statement of accounts was presented by the treasurer, who said expenditure had exceeded receipts, because certain expenses of 1959/1960 were received too late for inclusion in 1961 accounts.

Mr. J. T. Williams, the Ringing Master, was very concerned by the small attendances at some of the Northern District's quarterly meetings, and ended his report by hoping that every member would, in future, support the new secretary by greater attendance.

A report of the Central Council meeting at Stoke-on-Trent was given by Mr. G. I. Lewis, who was thanked by the chairman.

ELECTION OF OFFICERS

Mr. D. Bennett was elected Ringing Master, after Mr. J. T. Williams refused to stand again, holding the opinion that the office should be held alternately by the Northern and Southern Districts. The honorary general secretary and the honorary treasurer were both re-elected. As Mr. Magnus Peterson, the present auditor, was leaving the district shortly Mr. Stan Edwards was elected in his place.

Mr. Lewis gave a short account of peals rung during the year, and put the Peal Records Book on view for those present.

The names of each of the first three bands in the ringing competition were announced, and the chairman handed a ringing certificate to each captain in turn.

OXFORD GUILD — Continued

The Master in reply spoke of the great pleasure it gave them to have with them Miss V. Robinson, the daughter of the first Master of the Guild. The collection for the Bell Restoration Fund amounted to £12 7s. 3d.

The votes of thanks were proposed by Miss Cross who in thanking the college authorities for the use of the dining hall said it had been the Guild's privilege over the 80 years to hold its annual luncheon in that hall. She also mentioned the services of Mr. H. Badger as organist, Mr. P. Walker for making the ringing arrangements and Mr. Barker for looking after the seating.

A large number of towers were open and visited by ringers.

TERRITORIAL RULE

Mr. T. M. Roderick moved the adoption of the following, in place of the existing Rule 9: 'The territory of the Guild shall be the Diocese of Swansea and Brecon. Ringers at other towers within a radius of 15 miles of Swansea will qualify for annual membership during the period when they are members of their Diocesan Association. Ringers residing elsewhere will qualify for election to life membership by a majority of members then present, provided that the election is approved at the next Branch meeting of the Guild, and that the secretary has received a life membership fee of 5s.'

The seconder to this motion—Mr. G. I. Lewis.

Mr. Roderick, explaining the reason for this new rule, said the territory of the Guild was not now defined. Also since the formation of the Guild most of the members of the Southern District resided outside the Diocese.

Rev. J. Richards, in opposing the motion, thought it was a bad thing for the Llandaff Branch. The motion was then carried by a show of hands.

The invitation of Mr. Stan Edwards to hold the 1962 ringing competition at Talgarth was accepted. The 1962 annual festival is to be held at Swansea, the date to be decided later.

As a fitting acknowledgment of Mr. Peterson's work in teaching a band of ringers, and his loyalty to ringing in general, Mr. Edwards moved that he be made a life member. This was seconded by Mr. Stokes, and carried unanimously. The best wishes of the Guild go with Mr. Peterson when he leaves. Ten new members were elected, and the collection for the Bell Restoration Fund realised £1 15s. 6d.

The general secretary thanked the Dean for the use of the bells, and the arrangements at the Cathedral, and also the Lord Bishop for presiding.

Further ringing was then enjoyed at St. Mary's (8).

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing 'The Ringing World':—

THE CONTRIBUTION OF WATH-ON-DEARNE TO SIX-BELL RINGING THIS CENTURY

By HAROLD CHANT

WATH-ON-DEARNE bells were rehung and a quarter turned in 1902, and augmented from six to eight in 1935, and between these two events a fairly comprehensive record was kept of the extents and peals of Minor rung at All Saints', Wath-on-Dearne.' The pages of these records tell a remarkable story of a talented band of ringers maintaining a tradition of method ringing that must have extended for well over a century, for it was in 1816 that a band of ringers rang 21,120 changes in 21 different methods in the same tower.

Furthermore, a tiny board in the ringing chamber records that on December 25th, 1773: 'The following peals was rung at this church: Oxford Treble Bob, College Pleasure, College Treble, Crown Bob and 3 parts of London Scholars Pleasure. The changes that were rung was 3,060 in 1 hour and 42 minutes without a false stroke by the following persons: William Melard, William Denton, John Mawson, William Hilton, Jonathan Heeley, Thomas Hilton.'

ALL 720'S RECORDED

Apart from the two World Wars, when the entries are somewhat spasmodic, it appears that every 720 is entered together with the date it was rung, the ringers who took part and the person who conducted it. Among the early ringers were well known names such as Albert Nash, Walter Allwood, Josiah Panther and his son Arthur, Robert (Bob) J. Ricketts and lesser known ones, including J. Aaron, who rang only the treble, the Nicholls brothers and W. Lambert, who conducted the first two or three 720's.

A frequent visitor, so frequent in fact that one might be forgiven for thinking he was a local ringer if occasionally the information (Darfield) did not appear by his name, was William Woodcock. Sometimes William was described as 'Junior' or 'Young Bill,' a practice that had arisen in his younger days in order to distinguish him from two older William Woodcocks who also rang at Darfield.

Up to the outbreak of the First World War the repertoire consisted of about 25 methods and after the first two or three 720's all the conducting was done by Albert Nash, who also entered the extents, peals and date-touches in the record book.

It is interesting to note that Bob Ricketts, who rang in the first 720 on the rehung bells, continued ringing until after the bells were augmented. A minor, like many of his brother ringers, he had a light-coloured voice and was such a retiring individual that it comes almost as a surprise to realise on perusing the records that there is only a small percentage of 720's or peals in which his name does not appear. He was an excellent striker and method ringer. His eyesight, which was never good, deteriorated rapidly in later years until he finally became blind.

PRINCIPAL CONDUCTORS

During the First World War changes in personnel took place. Albert Nash, on account of a serious accident, disappeared from ringing for several years, his place as principal conductor (and scribe) being taken over by Arthur Panther, a position he maintained almost continuously until his death. William Bramham, whose name first appears in 1909, followed in the footsteps of John Aaron, in sticking exclusively to the treble. Charles Walsh from nearby Darfield became a regular member of the band as did Arthur Gill, who came from New Mill (via Ackworth). H. Chamberlain, G. Lord and J. Champion (who distinguished himself not only in ringing, but also by becoming a father of triplets) also became members. Willie Green, who still keeps the flag flying at Wath and who learnt to ring at Crofton, became a member of the company after a sojourn in Leeds during which, no doubt, he gave the ringers at Headingley the benefit of his Minor experience! Albert Nash rejoined the team in 1923 just

to ring a 720 in memory of Josiah Panther, who died on January 22nd after being a ringer for over 50 years. If we add that a William Ashworth joined the company in 1926 the scene is pretty well prepared.

IRREGULAR METHODS TO BREAK FRESH GROUND

The methods rung at Wath were drawn from many sources, many of them being, of course, traditional. No distinction was made between so-called regular and irregular methods, but very few in the period under consideration (Superlative being one) were rung that had 5ths place without the treble behind. Consequently, having exhausted their collection of Treble Bob Minor methods in 1927 and 1928 they named quite a few irregular methods in order to break fresh ground. They had little liking for Plain methods and Plain Bob was the only one mentioned, unless Original be included in this category. Sometimes, indeed, they even forgot to state the construction of the method so that occasionally a new name appears to which it is impossible to attach figures.

The system of classification at Wath was to take a 'backwork' (i.e., sections 3 and 4) and join it to as many 'frontworks' or 'leadends' as possible. Take, for example, College Exercise. Grouped under this heading are the methods London Scholars, Royston Delight, Gladstone Delight, College Bob IV, Queen Bess, Bocking, Vale Royal, South Kirkby and Newton. As can be seen from the above list the names do not always tally with those now used. Bocking, for instance, is now St. Albans. Neither should too much credence be placed on the appellations Delight Surprise, etc., that are found in many of these old methods as these are often labels of convenience used to differentiate between methods that would otherwise have the same name. For example, there are three Darfields (an Exercise, a Pleasure and a Surprise), two Nelsons, two Woodcocks, three Yorks, with similar appendages. In other cases the additions are merely fanciful descriptions added by the compiler.

HUNDREDS CLASSIFIED

It is evident from Albert Nash's note book that he must have had, at some time, access to various old publications, beginning with Stedman's Campanologia, from which he had obtained for instance College Bobs I, II, III, IV and V. There are also references by the sides of other methods to 'Clavis', 'Shipway' and 'Annable.' He prepared a table in 1928, now in Wath belfry, classifying hundreds of Minor methods and scrawled across the table are the words, 'many will reverse or double.' It is significant that on this table the traditional names are used; Marigolds, Foxgloves, Hyacinths and Fuchsias being preferred to the now more prosaic ones. In the note books of both A. Nash and A. Gill (who prepared many such note books) the system of reversing and doubling is used to describe many old methods, e.g., Cheapside is Reversed Whitley and Reversed Oxford. Arthur Gill sometimes supplies additional information such as 'Double London (Sheffield Bobs and Sheffield Bobs Reversed). Composed by Charles Severn. First rung at Anstone in 1912.' Sheffield Surprise is an irregular method and was 'composed' by A. Nash in 1903.

Darfield is but a short distance from Wath and was at one time hardly less renowned for its ringers. William Woodcock was fond of arranging Minor methods and it is therefore not surprising that Wath ringers should have drawn on these methods. There are no dates in Woodcock's note book, but judging by the names of some of the methods, Earl of Kimberley, Gordon's Delight, Lord Hershell, etc., it was compiled round about the turn of the century. (The second 720 in the Wath record book is 'On the occasion of the Declaration of Peace between the Transvaal and England.') Some of Woodcock's methods have melodious names: 'Hawthorn', 'Sweet

Bells', 'Merry Bells', 'White Rose.' He was not very systematic in his arrangement of methods and 'Hawthorn' appears several pages later as Queen Victoria, under which name it was rung at Wath. Later this method was named Balmoral by the Central Council, a fact never recognised by the Wath company. Wath Delight appears in Woodcock's note book, although Arthur Gill credits Arthur Panther with first arranging the method which was first rung at Wath on Sunday, November 6th, 1921, and has the following footnote: 'First 720 of Wath Delight believed to have been rung. No. 11 on page 23 in C.C.'; proving at any rate that Wath ringers were aware of the existence of the Central Council!

Woodcock's Victory appears in the records for the first time at Wath on December 25th, 1926, although it may have been rung previously at Darfield. It was never so firm a favourite, however, as Woodcock's Delight, an irregular method, which was made the basis of a group like the College Exercise, I mentioned earlier. The 'backwork' is the same as Morning Star and the 'frontwork' Violet.

THE YEAR'S RECORD

From 1920 to 1926 the method scope was gradually broadened until by the end of the latter year 55 methods had been covered by the band. 1927 was the year of greatest achievement. It is stated in the minutes of the Barnsley and District Society that: '119 extents in 92 Treble Bob methods' were rung at Wath during the course of 12 months. Analysis, however, reveals that these were for Sunday service only. The full story including extents and peals throughout the year is as follows:

197 720's were rung in 186 methods.

142 methods not previously recorded were rung.

Five peals were rung, each in seven methods, two of which were Surprise peals.

The number of different methods (720's only being recorded) since 1902 was now 55 plus 142=197, which by a coincidence was equal to the number of 720's rung during the year. Three of the 720's each contained one visitor, the remainder being rung entirely by the local band. One of the visitors was C. D. Potter, the president of the Barnsley and District Society, after whose house one of the irregular methods (Luda) was named. The bulk of the conducting was done by Arthur Panther although A. Gill and A. Nash each conducted a few 720's.

After 1927 the number of new methods declined as did also the number of 720's rung. Here are the number of new methods for each of the following years that the tower contained only six bells:

1928, 69 new methods, 1929, 8, 1930, 1, 1931, 12, 1932, 1, after which no new methods were rung. Altogether from 1902 to 1935 there were 288 different methods rung in 720's.

The last 720 on the old bells was rung for Sunday evening service, February 10th, 1935, the method rung being Norfolk Surprise, with the following ringers: W. Bramham treble, W. Green 2, J. W. Champion 3, G. Lord 4, A. Panther 5, A. Gill tenor.

The conductor was, appropriately, A. Panther, who had borne the burden and heat of the day.

In conclusion, it may be remarked that the first peal on the augmented eight was a peal of **Minor**, on April 20th, 1936.

The conductor? A. Panther!

CONSETT, CO. DURHAM.—On June 18th, 1,260 Minor (St. Clement's and Plain Bob): G. Wall 1, J. Vickery 2, M. Armstrong 3, W. Tyson 4, N. Errington (cond.) 5, R. Oliver. For Evensong.

EXETER.—At St. David's Church, on Whit Sunday, 1,260 Plain Bob Minor: Mary Hall 1, Kay Excell 2, R. J. Bowden 3, G. Skinner 4, F. D. Mack 5, P. Mehew (cond.) 6.

STORIES ABOUT THE OUTINGS

ST. MARY'S, READING

A warm but cloudy day greeted the ringers from St. Mary's, Reading, as they set off for Kent on June 17th, with friends from St. Laurence's and Thatcham, backed by a strong contingent from Reading University.

Leatherhead was reached rather late, but those grand old gentlemen, George Marriner and Alf Winch, had not given us up for lost. George, unfortunately, couldn't stay for a ring, but Alf joined in a half course of Cambridge Royal in fine style, and was still chattering merrily with our foreman, Albert Diserens, when it was time to leave!

Our coach was taken off the beaten tracks to reach Penhurst, the old Kentish village being much admired. Its fine church possesses a good eight, rung from the ground floor, which, although they are difficult to hear, went well to Bristol and Yorkshire.

After lunch in Maidstone, Lenham was visited, where the octave, recently rehung by Taylors, was set going at a brisk pace.

We then returned to Maidstone to ring the ten at All Saints', arriving in the wake of the Beddington band to find the bells up. Our first efforts to ring caused even those local ringers close at hand to laugh. There was no box under the tenor rope, only under the ninth. Alas, we pulled off thinking the 32 cwt. tenor was the treble, and everyone collapsed with laughter! We redeemed ourselves with methods up to Yorkshire Royal.

Following tea at Wrotham, Reg Silks met us for an enjoyable hour on the magnificent eight here. Our all too short visit to the Garden of England came to an end with the bells of Sevenoaks, which provided everyone with their fill for the day.

LOUGHBOROUGH

Loughborough Parish Church ringers' annual outing on June 24th was through Derbyshire and Cheshire and into Lancashire.

Ringling started at Fairfield, near Buxton, where as soon as possible the eight bells were raised. A delightful journey brought the coach to Mottram-in-Londendale, where the church stands on top of one of the North Cheshire hills. Due to its isolation many long peaks have been rung here. Leaving Mottram, Hyde was soon reached and we were in the cotton belt. From here to Manchester the surroundings were vastly different, and the conglomeration of dingy bricks and mortar had a depressing effect. The party debussed at St. Peter's Square, Manchester, and lunch was taken according to individual tastes.

The afternoon's programme included ringing at Eccles and Worsley churches. Ringing friend were awaiting us at Eccles, and several took advantage of a visit to the original 'Eccles Cake Shoppe.' It so happened that at Worsley the Lancashire Association were holding a meeting, thus many old friends were met and mutual ringing indulged in.

Returning to Manchester for tea, the route was on the new motorway over the Manchester Ship Canal, and to see a Manchester liner passing down the Canal added to the interest.

Taking the A6 out of Manchester and on through Stockport and Hazel Grove, we were soon climbing the Cheshire hills to Disley and Whaley Bridge, where the A6 was discarded and the road for Tideswell taken. Tideswell Church, known as 'The Cathedral of the Peak,' is famed for its carving, all done by local craftsmen. Whilst the ringers concentrated on their ringing, the non-ringers took advantage of viewing the church. This visit to 'Tidza' coincided with the Festival of Well Dressing, an added attraction that was appreciated by all, especially those who never had seen this ancient Derbyshire custom.

On through Bakewell and the Matlocks the travellers saw another varied example of the Derbyshire landscape, and just before 10.30 p.m. the coach pulled up at Loughborough Parish Church, and so ended another enjoyable ringers' outing.

ST. MARY CRAY

For their half-day outing on June 24th St. Mary Cray band were joined by friends from Eltham. At Chelsfield (6) some good Plain Bob, Canterbury and Single Oxford were rung, but Hayes (6) was only reached after our navigators had lost their way a few times. Here ringing was not up to standard; tea was enjoyed at Hayes Common. The striking could have been better at West Wickham, but a good time was had by the company. The last tower was St. John's, Sidcup. Special thanks to Eddie, John and Mr. Brownrigg, who provided the transport, and also to the secretary, incumbents and people who met us.

B. W. A.

APPLETON, BERKS

A large party of ringers, wives and sweet-hearts left Appleton on June 24th on the occasion of the annual outing, the first objective being a ring on the 12 bells at Christchurch Priory. This was followed by Stedman and Grandsire Caters at Wimborne Minster and a happy lunch of bread, cheese and beer.

At the very good eight at Warminster friends from Reading joined the party and remained with the Appleton folk until the end of the day. Ringing concluded with a well-struck touch of Stedman-Triples on the very beautiful eight at Westbury. A couple of happy hours were spent at The Bell at Broad Hinton, and for the villagers the evening was enlivened with handbells—Grandsire Triples, tunes and lapping Grandsire Caters.

It was a day of beautiful weather, good bells, good company and a good tea at Westbury. The next big function will be on March 4th, but before then we shall endeavour to ring our ten bells for Sunday services and entertain visiting bands.

C. H.

MAULDEN, BEDS

Malden ringers chose Leicestershire for their annual outing on June 24th, and at 6.30 a.m. a start was made for Ashby Folville, which nestles among the hills of this quiet, restful and beautiful part of England. Here time had brought little change; there was plenty to interest those to whom the art of change-ringing has not made any appeal (as yet!), whilst the rest of the party enjoyed the pleasant ring of eight at St. Mary's Church.

A short run brought us to Sibley, whose imposing and well-kept church (with bells to match!) was admired by all. At Quorn the party showed their versatility by doing a little ringing, a little sightseeing and a great deal of thirst quenching, in preparation for lunch at Leicester. Fortified by an excellent meal, the easy-going eight at Anstey proved to be a great delight. Afterwards came the only 6-bell tower of the day—Great Glen—and a very pleasant six, too.

The next item, a sumptuous tea, was most acceptable. The day's ringing concluded at Kibworth Beauchamp and Rothwell, two splendid octaves. It was at the latter place the best ringing of the day was enjoyed. London and Bristol being struck with almost mechanical precision.

In our thanks, which include incumbents and local ringers, we should like specially to mention R. J. Sharp and Keith Fleming, who jointly organised this excursion among the gracious beauty of the English countryside.

A. E. R.

SEAL CHART, KENT

St. Lawrence's ringers held their annual outing on May 27th. The district chosen being the Kent and Sussex border. Towers visited were Bodiam and Northiam. Owing to the death of the Rector of Beckley, ringing in this tower was cancelled. After lunch at Rye, ringing took place at Wittersham, Stone-in-Oxney and Kildown.

Thanks are due to the incumbents and local ringers who met us at each tower and helped to make the day's outing a success.

WORCESTER CATHEDRAL

Even the scheduled departure at 5.45 a.m. did not deter the enthusiasm of Worcester Cathedral ringers for their outing into Devon on June 24th.

The journey to Uffculme, the first tower, was not without difficulty, owing to the traffic congestion. The alternative route to Cullompton and Exeter was taken in the hope of getting relief, but this turned to consternation when the coach was brushing each side of the hedge of the lane. It was a mercy no other vehicle was met. Uffculme was reached half an hour late, but fortunately the programme allowed plenty of time—ringing ranging from rounds to Bristol.

Cullompton, and indeed all the remaining towers, was reached on time and the ten bells (19 cwt.) were soon ringing out to a variety of methods up to Cambridge Royal. Lunch was then taken at a hotel in the town.

The next tower was Heavitree, Exeter (8.25 cwt.), a fine early Taylor octave and the first touch was Stedman Triples, requested especially by the tower captain, for him to record on tape. It was with some pride that an excellent musical touch was brought round. Other ringing was arranged to suit all tastes from Grandsire to Cambridge and Bristol.

Then came Exeter Cathedral (12.72 cwt.) and probably everyone was a little nervous as to what standard of ringing might be achieved. The first task was to raise these great bells, a warm job at any time. The Ringing Master then called for a touch of Grandsire Cinques, which was brought round after some quite reasonable ringing. Rounds and Grandsire Caters followed and then three leads of Kent Royal were rung on the back ten, with Tom Lewis on the tenor. Ringing concluded with a touch of Stedman Triples on the middle eight, which was again recorded on Norman Mallett's tape recorder.

By the time Tiverton was reached everyone was ready for tea, before going on to the parish church with its lovely and famous octave (8.25 cwt.). The generally high standard of ringing was maintained and included Yorkshire and London.

Of the journey back to Worcester the customary stops were made and the traditional songs heard. Worcester was finally reached at 1.30 a.m. Grateful thanks for their help in the arrangements are due to incumbents, Mr. Norrish, Norman Mallett, Fred Wreford and Bill Ware, who did so much to make the outing so successful.

THURCASTON, LEICS

Five towers were visited by the Thurcaston Guild of Church Bell Ringers during their annual outing on July 1st. These were Lubenham, Hallaton, Medbourne, Alexton and Belton. The company numbered 38 and an excellent tea was had at 'The Horse and Trumpet' Inn, Medbourne. We thank Mr. Brindley for arranging the outing.

D. M.

HALIFAX AND DISTRICT

Although the ropes were only a week old, and one or two ringers remarked 'Like 'lasic,' some excellent striking was heard at the annual prize contest of the Halifax Association held at Penistone on June 24th. Six teams entered and the test piece was 600 changes, any method, and 120 changes practice.

Mr. T. W. Hilton was the judge and the order of ringing and faults were: Silkstone 76, Cawthorne 88, Meltham 42, Shelley 36, Warsop 96, Friezeand 28.

Friezeand, the winners, received the silver cup and each member of the team a set of cocktail glasses. Congratulating the winners, Mr. Hilton said there had been four minutes when he could not pick out a single fault; their test piece was as near perfect as he had ever heard.

The annual meeting followed and at this votes of thanks were passed to the Vicar and churchwardens, to Mr. and Mrs. Arthur Champion for local arrangements, including a lovely tea, and to the judge and his son, who acted as marker.

The officers were re-elected and the balance sheet adopted. The auditor, Mr. Joseph Burgess, appealed to all members to pay their subscriptions promptly and to recruit as many new members as possible.

Further ringing followed the meeting.

FURTHER INVESTIGATIONS ON CONDUCTORS BY THE PROFESSOR

'CONDUCTORS,' said the Professor, 'have always fascinated me, whether they be conductors of bands, buses or bells. There is, you know, a great affinity between conductors of peals and symphonies; both, if good at their job, have put in a great deal of work before the actual performance, which in turn depends to a large extent in its finished execution (as I shall endeavour to show) upon the proficiency, experience and personality of the conductor.'

'What factors,' I inquired, 'contribute to the making of a good ringing conductor?'

'As you know,' replied Mr. Dodge, 'I have done a great deal of research into this subject, as a result of which I have divided these qualities into two groups: Technical Ability and Personal Ability. Each of these groups I have again sub-divided into five parts. Let me deal with Technical Ability first.'

Here the Professor produced a list which I give together with some comments and explanations that he made at the time.

(1) **Knowledge of Composition.** 'Most composers are good conductors of their own compositions, but this (like the navy's dog) does not necessarily follow. I think it will be evident to most people that a knowledge of composition is a useful asset in memorising a composition.'

(2) **Ability to transpose mentally.**

(3) **Good grasp of method ringing.** 'A conductor should have a high R (Rectification Ability) and a high E (Error Avoidance Ability). He should be able to conduct with equal ease from any bell in the ring making his calls as much by observing what the other bells are doing as by watching what the observation bell is doing. No ringer who relies on the "blue line" for ringing a method will ever become a good conductor in that method until he has become proficient enough to discard it.'

'In Minor ringing,' continued the Professor, 'it is possible, with practice, to "see" all the bells at once. The whole pattern of the lead is visualised and one just fits into the pattern. There is no "blue line" and a good conductor will spot and correct immediately any bell that deviates from that pattern. The distance between calls being comparatively small, the conductor, who knows what each bell should be doing at these points, is observing the pattern of the bells not only within the leads, but within the extents as the ringing progresses, sometimes working backwards to the last call but more often anticipating the next. This, of course, happens on other numbers and so well is it sometimes done that I have known conductors forget to make the call and then be surprised when it was not carried out! They have, in fact, not forgotten the call at all but have simply forgotten to audibly announce it.'

'And what about the other factors?' I asked, ignoring his split infinitive.

(4) **Good Striking and Bell Handling.**

(5) **Knowledge of Method Structure.**

Here is the list for Personal Ability:

(1) **Good Memory.**

(2) **Personality.** 'A conductor must inspire the team with confidence. His dictum must be "Do this" and he doeth it" without (a) causing offence to seasoned ringers or (b) injuring the feelings of the less advanced.'

(3) **Versatility.** 'His ringing should not be confined to any one group of methods or, indeed, to any one number of bells.'

(4) **Concentration.**

(5) **Integrity.**

In order to assess the grading of a conductor the Professor has advised a series of tests for each factor, some of which are practical, some theoretical in the form of a questionnaire, some a mixture of both and some which are based to a smaller or greater degree on past achievements or performances. He has scaled the marks so as to give 10 for each factor,

(100 in all. In order that the reader may have some idea of the type of tests that the Professor has prepared I append one or two questions taken at random. Lack of space forbids any but a brief selection although I hope at some future period to give the tests in full.

Question No. 3. **Integrity.**

You are calling a peal of Minor with a team which, apart from yourself, are all 'first pealers.' Just before the end you suddenly realise that 4-2 have changed places. Your knowledge of ringing informs you that they must have 'swapped' the lead before in the slight 'jumble'; furthermore that at the next lead-end by calling a 'Single' when they are together in 3-4 you can put them back into their correct places. No one else would know that this was an 'extra' call (the 720 is full of Bobs and Singles). What will you do? Call 'Stand' and inform five deeply disappointed people (6 including yourself) that the peal is lost 5 mins. from the end; ring through and say 'I'm sorry but the last 720 was false'; ring through and say nothing (the bells were across only a lead away!).

Question No. 6. **Method Structure.**

In the first lead of a regular Major method the 4th is the pivot bell at the half-lead. Which pairs of bells should be crossing at this juncture?

Question No. 9. **Transposition.**

The bells in Bob Major are coursing in the order 36245 with 7-8 at home. Two Bobs 'Middle' are called followed by two Bobs 'Home.' What is the coursing order now?

Memory.

For this test the candidate is asked to quote a given number of standard compositions in various methods (e.g., Pritchard's, Middleton's, Thurstan's Four-Part, Parker's Twelve-Part, etc.); study a not-too-easy brand new competition for a given length of time and then repeat it from memory, although conductors who have already called difficult compositions such as Holt's Original or Carter's Odd-bob automatically receive high marks in this section.

As 100 is the maximum possible marks, the Professor has prepared the following grading formula.

$$C = \frac{110 - M}{10}$$

where C=Grading of conductor and M=Marks obtained in the tests (thereby giving a grading from 1 to 11, a grade 1 occurring, according to the Professor, 'once or twice every century!')

'Does the conductor affect the chances of success, or otherwise, in peal ringing?' I asked, bearing in mind his previous exposition on peal successes and failures.

'I'm glad you mentioned that,' replied the Professor. 'The formula I gave in the last report you made was, of course, incomplete in itself as obviously a conductor, good or bad, must have a tremendous effect upon the outcome of the peal. It is possible now to give the amended and complete formula. Here it is:

$$S = 10 \left(\frac{10 - (P + C - 2)}{2} \right)$$

Where S=The percentage of peal successes. P=Average Peal Potential of ringers taking part.

C=Conductor's grading.

'How does this work out with actual figures?' I demanded.

'Let us take one or two examples and examine them,' said Mr. Dodge. 'If it were possible to have a team with an average P equal 1 we should have 100 per cent successes with a conductor whose grading was also 1. As it is unlikely that this will ever happen it may perhaps be more interesting and enlightening to examine the effect a conductor has on the final results. A team with P=5 would, with a conductor C=5, score 60 per cent successes as can be seen by substitution

in the above formula, but with a conductor C=1 this would rise to 80 per cent successes and with C=9 fall to 40 per cent.'

'Aren't you afraid when these figures are promulgated of making more "enemies for life"? I asked (I'm afraid somewhat sarcastically).

'If I allowed my investigations to be influenced by the effect they might produce on certain ringers, they would be worse than useless,' declared the Professor with some asperity. 'Furthermore, I might add that these results have been deduced from, and may be applied to, actual ringers.'

'Of course,' he concluded, 'most people have two standards of execution, the real and the imaginary. If my investigations help at least some of them to realise this and to make some effort to narrow the gap between them they will have served useful purpose.'

And with this parting shot he retired to his cell.

H. CHANT.

30 Years Ago

'R.W.' July 10th, 1931—

One hundred and eighty years ago last Tuesday, Holt's famous 'Original' peal of Grandire Triples was rung for the first time. Holt himself called it from manuscript at St. Margaret's Church, Westminster, and it was rung by the Union Scholars.

50 Years Ago

'R.W.' July 14th, 1911—

The fine old ring of 12 bells at St. Leonard's Church, Shoreditch, was once again, after many years, kept going on Coronation Day. A volunteer society of ringers has just been formed, and although it is impossible to ring owing to the bad condition of the frame (a defect, which on account of finance cannot be set right) the society settled down to about two hours of chiming, and a touch of about 2,000 changes was chimed. Again on Sunday, June 25th, on the occasion of the visit of the Mayor and Aldermen of the borough, the bells were merrily chimed. It certainly seems a great pity that sufficient money cannot be obtained to put into proper order such a valuable piece of church property as a ring of 12 bells. Shoreditch, we believe, was among the first of the London churches to have a ring of 12 bells.

DURHAM AND NEWCASTLE ASSOCIATION

The Southern District meeting for June was held at Staindrop, Co. Durham, and visitors included ringers from Durham University, Newcastle and Ripon.

The octave at Staindrop is one of the pleasantest in the area, and there was enjoyable ringing throughout the afternoon and evening. Methods included Plain Bob, Grandire, Stedman and Erin Triples, Kent, Cambridge, Yorkshire, Superlative and Duffield.

At the meeting, after tea, a silence was observed in memory of Mr. W. Oliver, a ringer for many years at Holy Trinity, Darlington, who had died since the previous meeting. It was agreed to hold the next meeting at Shildon, if possible, and if not at Gainford.

MILDENHALL, SUFFOLK.—On May 14th, 1,260 Plain Bob Minor: J. Y. Parker 1, Mrs. H. Ivings 2, Miss D. M. Reeve 3, A. F. Ballam 4, H. Ivings 5, J. Paul (cond.) 6. For evening service.

OLDSWINFORD, WORCS.—On June 17th, 1,260 Grandire Triples: P. L. Bill 1, J. A. Tandy (first of Triples) 2, J. E. Lawley 3, J. R. Niblett 4, M. D. Fellows (cond.) 5, M. J. Fellows 6, A. D. Fellows 7, P. J. Brown 8. Rung by King Edward VI Grammar School, Stourbridge, Society, to commemorate the 40th anniversary of the granting of a charter to the school by King Edward VI on June 17th, 1552.

PORTSMOUTH, HANTS.—On June 21st, at the Cathedral Church of St. Thomas of Canterbury, 1,260 Grandire Triples: L. C. S. Smith 1, T. R. Taylor 2, W. A. K. Gray 3, L. D. Duguid 4, J. N. Haile 5, S. Kathleen M. Knight 6, H. A. Nobes (cond.) 7, F. G. Edwards 8. Rung half-muffled in memoriam Frederick W. Burnett, for many years captain of this tower, who died on June 16th.

OBITUARY

MR. F. W. BURNETT

As recently reported, Mr. Frederick W. Burnett, of Portsmouth, died on June 16th after returning to hospital when he suffered a relapse after an earlier operation. He had nearly reached his 60th birthday. He had to resign from the office of leader of the band at Portsmouth Cathedral when his health failed, after serving the tower well for nearly 40 years. Unfortunately he did not reach his 'century' of peals rung in the tower, having rung 39, but illness prevented him attaining this ambition.

While no complete record of his peals is available, it is understood that he had rung about 350 (most of which had been rung for the previous Winchester and present Winchester and Portsmouth Diocesan Guild), but he had done a good deal of travelling in all directions along the south coast, in quest of peals and in attending Association meetings.

He was a member of a ringing family, his father, mother and sister being all members of the tower when it was Portsmouth Parish Church and afterwards when it served as a Cathedral church. He was always willing to attend practices and meetings in order to assist bands and especially in the towers around Portsmouth and West Sussex which his loss be felt.

The funeral service was held in the Cathedral on June 21st when muffled ringing to his memory took place by a representative band of ringers from towers, in which he had regularly rung. He will be greatly missed in the Portsmouth district.

AN APPRECIATION

The Portsmouth area has lost a leading personality by the death of Fred Burnett. He had not been able to ring much in the last few months, due to the effects of the major operation he underwent a year ago.

With the lifting of the ban on ringing in 1943 and new faces starting to appear in the towers (the writer's included), Fred arranged the first peals for any ringers who approached him, including many serving in H.M. Forces, who were stationed in the area. With his father ('F.A.') and Josiah D. Harris, he formed the nucleus of the band which rang many peals. His favourite bells were those of Portsmouth Cathedral.

Fred was a good conductor of the standard methods, with an occasional Surprise peal as well, but was not selfish with the calling, and would be the first to arrange peals for any aspiring conductor who asked him.

An organiser of the first water, his outings were looked forward to with pleasure, and they produced most pleasant memories.

Fred Burnett will live on in the writer's memory as the one who helped him more than anyone else in peal ringing and conducting, as will also be the pleasure derived from over 100 peals rung together. J. H. H.

MR. RAYMOND C. SEAGER

We regret to announce the sudden death on June 28th of Mr. Raymond C. Seager, of Wilmslow, Cheshire.

Mr. Seager, who was 71, was born in Devon and apart from a period spent in London had lived in Bristol for many years, where he was employed on the staff of 'The Bristol Evening Post'. He retired in 1960 and moved to Cheshire to live with his daughter.

For thirty-five years he was a respected member of the SS. Philip and Jacob's Guild of Ringers, Bristol, where he was Deputy Ringing Master as well as serving as a sidesman and a member of the P.C.C.

A full list of his peals is not available, but he took part in some interesting performances for the Gloucester and Bristol Association, including the first handbell peals of Royal and Maximus in Bristol. His greatest single feat was in ringing Redcliffe tenor to the first peal of Kent Maximus on the bells.

R. J. B.

MR. JAMES BLUFF

All Saints' bellringers, Stamford, Lincs, lost another of their members last week by the death of Mr. James Bluff, uncle of Mr. J. H. Bluff. He had been a ringer at All Saints' Church for over 50 years, but he only took part in 20 peals.

MR. A. TURNER

The ringers of St. James' Church, Sutton Hull, lost an old and respected friend on June 29th by the death of Mr. A. Turner, aged 78 years. For the past 12 years he had not been able to get into the tower.

Mr. Turner joined the band about 1900, when great efforts were being made to get away from call-changes into method ringing, and although he never became a peal ringer he was safe and sure, and regular in his service ringing, which he finally had to give up in 1950.

The funeral service was on July 3rd, interment being in the churchyard. The Vicar (Rev. W. Richardson) conducted the service. A quarter peal with the bells half-muffled was rung later that day. His son and his grandson follow in his steps as ringers but have moved away to Somerset. C. R. R.

OSWESTRY, SALOP.—On June 18th, 1,260 Plain Bob Minor: D. B. Williams 1, Valerie Lee 2, F. Dickinson 3, H. Hughes 4, D. Mann 5, R. W. Powell (cond.) 6. For Evensong.

'DOWN OUR ALLEY'

On June 24th a representative sample of Bristol City ringers joined friends from Chew Deanery in an afternoon's ringing in North Somerset, followed by a challenge skittles match.

The Bristol men had already filled in the morning with a peal at Barrow Gurney, and the afternoon programme started when bands descended on Portbury, Clapton and Weston-in-Gordano to attempt quarter peals. Two were successful: at Portbury the band perspired through a quarter of Doubles, and at Clapton the band, with less physical effort, scored Kent. Trouble with rope ends precluded an attempt at Weston, but touches were rung as a curtain raiser for the church fête.

General ringing took place at Wraxall, but by this time thirsts, like the temperature, were rising rapidly and it was with much relief that a party of some 22 sat down to a first class ringers' tea in the Nailsea Parish Room, which had been prepared by Mary and Mrs. Powell.

Bands were then picked for evening quarters, one ringing Grandsire Triples at Backwell, another, under Len Derrick, ringing a highly creditable quarter of Doubles on the not too easy six at Tickenham, and the third at Nailsea adding a further failure to the growing list of attempts to score Cambridge for Mary Powell.

The ringing over, the scene of actions shifted to the 'Ring of Bells', Nailsea, where two teams, 13 a side, were picked, and battle joined on the bowling alley. The grace associated with some of the party in the belfry was not always reflected in the skittle alley, for whilst good throwers were putting the ball accurately between the pins, scoring 0 in the process, some of the ladies, by employing the Trueman 'bouncer' technique, dumbfounded the more experienced opposition players by their alarmingly high scores.

Local spirits dropped as the City ringers built up a good lead, due to some inspired scoring by F. Cecil Mogford (and others), but gradually the tide turned and, amid rising excitement, the two teams drew level. The home team won literally off their last ball by a most slender margin, the final figures being Chew Deanery 339, City Ringers 337. The rest of the evening was spent, as ringers will, with the usual chorus of songs, reminiscence and fixing future peal dates!

It remains only to thank those on both sides who contributed to a successful day, and to await with anticipation a further contest, where accurate striking, as in ringing, still wins the match.

THE LADIES' GUILD

Eastern District

On June 10th the revived Eastern District had a highly successful meeting at Higham, Suffolk. It was well attended by both ladies and gentlemen, and methods rung ranged from Plain Bob to Cambridge, with plenty of rounds and call changes for the learners.

After a wonderful tea the gentlemen departed to ring at Langham and Stratford St. Mary, and the ladies held their business meeting. The most important item was the election of officers: Vice-president, Mrs. C. W. Pipe; secretary, Miss A. E. J. Lester; committee, Miss E. Cansdale, Miss B. Matthews, Mrs. R. E. Lester, Miss P. Clarke. Eleven new members were elected.

Next meeting, September 16th, Cavendish. A. E. J. L.

TIME OFF IN EAST SHROPSHIRE

On June 24th members of the Shropshire Association from Oswestry, Shrewsbury St. Chad, Hodnet, Shifnal, Edgmond, High Offley and Albrighton went on a round trip to visit six towers in the east of the county.

At Tong, where ringing began shortly after two o'clock, the tenor rope broke just at the end of the rise. There is a long unsupported draught, the tower is a central one and the ringers stand in the chancel. While a knot was being tied, the Hodnet youths and some others went up to see the Great Bell of Tong, the two-ton bourdon only rung on special occasions. Ringing here was Grandsire Doubles, Plain Bob Doubles and Minor, and call changes, as it was at most other towers.

The next six was St. Mary Magdalene, Albrighton. The ringing conditions here are fairly standard. We were met by Mr. Binnersley, the local captain, and three ladies from the team, and the four of them led the convoy to the light five at Rytton, a church with no dedication where the ascent to the belfry is by vertical ladder. These bells are seldom rung. They are on ball bearings in a steel frame for six, and go excellently. It is a Gillett augmentation and rehanging job, and was done some time in the 1930's.

At Stockton, once the very steep and narrow staircase had been negotiated, and forgetting the atrocious rise, some quite fair ringing was done. We were pleased to hear that a new band of youngsters is being trained. A courting couple who thought they had found a quiet country lane made off on our arrival.

The five at Sutton Maddock are unringable as such. We found that there was a great deal of play in the wheels of the treble and second, and the treble was loose on its cracked headstock. The other three seemed to be all right, so we pulled them up; the frame itself did not vibrate unduly and two whole pulls of rounds were rung. There was a note missing on the third pull; lost clapper. Ten minutes later it was discovered neatly camouflaged in pigeon manure.

The last ringing of the day was on the beautiful eight at Madeley, where we were met by Mr. J. Stamier. A good touch of Grandsire Triples was rung, and the Ringing Master exercised his taste of Bob Minor with the tenors reversed. Thanks are due to all incumbents and to all members with cars, without whom the outing would not have been possible.

ANSWERING QUESTIONS

ALL ringers have to answer questions concerning their art. Some are relatively easy, but others are full of controversy. Mr. P. Amos, the Northamptonshire ringer and controversialist, was recently lecturing to the Northampton and Wellingborough Branch of Toc H on 'Church bells and the ancient art of campanology.' Here are some of the questions addressed to him:—

- (1) Why don't bellringers 'ring' hymns instead of changes?
- (2) What is the attitude of the speaker towards modern churches and modern synthetic bells?
- (3) Why are church bells considered to be outside the law? If they are, as some people think, a public nuisance, should not a magistrate have power to stop them being rung?
- (4) What is the point of trying to ring continuously for 24 hours, as was shown on T.V. recently? Is there any spiritual value in this?

Question (1) was answered indirectly by the speaker pointing out the difference between a carillon and bells hung for ringing, and the team spirit value of the latter as compared with the one-man effort of the former. 'We don't think in terms of a one-man choir, so why a one-man belfry?'

Replying to question (2), he described modern churches as 'packing cases,' and these reminded him of the cardboard modelling of his schoolboy days. An example was at Corby, where the 'tower' looked more like a factory chimney. Such planning would be regretted 50 years hence: 'The Lord deserves the best we can give, not the cheapest, or anything in the nature of a sham.'

Synthetic bells, he pointed out, could lead to experiments in other directions. The clergy shortage could be met by 'synthetic sermons,' the shortage of organists, which was particularly acute in country parishes, by synthetic music, until the whole service could be mechanised and personal worship would cease to have any spiritual value.

On the third question, Mr. Amos pointed out the dangers should an atheistic-minded or similar person sit on a Bench, saying it would be like having total abstainers as magistrates at Brewster Sessions, and their biased views need not necessarily be known beforehand. Bells had been accepted as a centuries-old British heritage; they were the voice of the Church speaking to the outside world, and before anyone branded them as 'a public nuisance which the majority were against,' they should be prepared to substantiate it with facts and figures. Speaking from personal experience, Mr. Amos said in a parish of 609 houses envelopes were delivered to the houses for a bell fund scheme. No fewer than 491 houses sent a contribution and refusals numbered only 118. If one did not like the smell of a fried fish shop or a brewery one did not buy a house next door and expect the proprietors to close down. In cases of serious illness or excessive noise ringers were always willing to co-operate, but not with those who were merely antagonistic to the Church and all it stood for.

In answer to the fourth question, he commented that 40,000 changes had yet to be rung by the same set of ringers, and in the past the attempts had been mainly in secular towers out of hearing—or almost—from outside. Few ordinary peals lasted much above three hours and, with the exception of Birmingham Cathedral and a handful of others, even these were not all that frequent in the same towers.

These are in no sense published as model answers to questions that frequently arise when we mix with people outside ringing circles. They are given as impromptu answers. There are better answers. The purport of publication is to think about such matters; in other words, 'What would you say, chum?'

KENT COUNTY ASSOCIATION

Ashford District

Mr. Edward S. Ruck, only surviving founder member of the Kent County Association, was the guest of honour at the meeting of the Ashford District held at Willesborough on June 24th to celebrate his 94th birthday.

The service was conducted by the Rector (the Rev. T. G. Williams), Mr. R. J. Carlton read the lesson, and Mr. W. P. Garner was at the organ.

Over 60 visitors, among whom were many officers and well known members of the Association from all over Kent, were the guests of the Willesborough ringers at tea. The excellent fare, which included a splendid birthday cake made by Mrs. Carlton, was served in the Old Schools by members of the Mothers' Union, under the direction of Mrs. Tomset.

Mr. J. Willis, of Folkestone, chairman of the Association, conveyed the congratulations of the members to his fellow vice-president. Mr. Ruck responded in his usual kindly but modest vein. Messages of congratulation and good wishes were then read from Mr. H. Baker, Mr. and Mrs. W. Everett, Mr. J. R. Cooper, Mr. H. Humphery, from the ringers of Great Chart, Stone-in-Oxney and Woodchurch, and from St. Mary's, Willesborough, Boys' Club and Youth Fellowship.

The honorary treasurer, Mr. B. W. May, asked the assembly to consider the question of raising the subscription. The chairman promised that they would at least think about it.

Mr. R. J. Carlton said that the Willesborough band would soon be losing the services of Mr. L. T. Pape. He added that the District appreciated the fact that Mr. Pape had often acted as Ringing Master, as on this occasion. However, it is hoped that the Willesborough tradition, begun by Mr. Ruck and now maintained by Mr. Mark S. Lancefield (tower captain) will be continued, as two promising new young members, Colin Trefler and Peter Richardson, were elected to the Association. M. Malcolmson, of Lympe, was also elected.

Mr. N. J. Davies, of Ashford, said he was working on new cards giving details of bells and items of interest of towers in the District. He was sorry he had forgotten to bring the prototype, but hoped to have the cards available soon.

Mr. Willis thanked all those concerned in making the meeting so successful.

Afterwards, ringing continued in the tower until 9 o'clock. Mr. Ruck himself standing in to several well struck touches.

A quarter peal of Kent Treble Bob Minor, in honour of his birthday, was rung the previous Monday, the ringers being Josephine Hardy (first in the method) 1, Rita Gower 2, Rosemary Gower 3, M. S. Lancefield (cond.) 4, W. P. Garner 5, C. T. Hillis 6.

JOINT MEETING AT WARSOP

Approximately 60 ringers were present at a very successful meeting held on July 8th, when ringing took place at Creswell, Edwinstowe, Warsop, Mansfield Woodhouse and Mansfield.

Societies and Associations represented were: Southwell Diocesan Guild (Mansfield, Nottingham and North Notts Districts), Sherwood Youths, Sheffield District Society, East Derbyshire and Notts Association, Derbyshire Association (Chesterfield District), and a feature of the attendance was the proportion of young people in the learner stage.

The Rector of Warsop, Rev. Mr. Habgood, conducted a short service in Warsop Parish Church and afterwards joined the company at a very substantial tea provided, at a nominal charge, by wives and friends of the Warsop ringers. The Rector warmly welcomed visitors to Warsop and Mr. Frank Smallwood proposed a vote of thanks to those who had provided tea and to the incumbents of the churches where ringing had been arranged. Mr. A. B. Cooper supported Mr. Smallwood and made particular reference to Mr. Douglas Rooke, who had been responsible for arranging the meeting. Mr. Rooke was unable to take part in the ringing, owing to a recent serious illness.

During the evening many of those present listened to a tape recording of Spliced handbell ringing, also a recording of bells at churches in and around Bristol, presented by Mr. Denby, of Mansfield.

For some time a light-hearted 'race' has been going on in the Leicester Diocesan Guild. The target?—the first person to ring a Surprise Royal method, beginning with each letter of the alphabet, the two leaders of the race being John M. Jelley and Brian G. Warwick, who are both members of the 'Monday' band. Unknown to each other, the result of the race was a tie. Both achieved the objective with the peal of Diseworth Surprise Royal at the Bell Foundry on July 3rd, and thus claim to be the first people to do so. The peal was the 100th by Richard J. Clifton. Congratulations!

The quarter peal attributed to Maidstone, on page 451, was rung at Mereworth, Kent, on June 8th. The error is regretted.

An omission.—The footnotes to the peal of Nutfield Treble Bob at Nutfield: Julian D. Duggan and Anthony S. Bishop were ringing their first peal and Ken Newman his first 'inside.'

No fewer than six of the band were ringing their first of Cambridge Surprise Royal in the enthronement peal at St. Mary's, Slough. It was J. Keith Ward's 25th peal and they have all been rung with his inseparable friend, Frederick R. Scott.

The two quarter peals rung at Finchley on July 1st were rung as a compliment to the tower's veteran ringer, Mr. F. A. Barker, who has been a member of the Finchley band since 1905. The occasion was also the marriage of his granddaughter, Carol Miles, to Mr. John Downs. One quarter was rung immediately before and the other immediately after the ceremony.

Ringling in a quarter peal at Gransden Hunts, for the enthronement were three local ringers. Mr. L. B. Jefferies was making his first attempt, and the other two were brothers—Mr. H. Sherman, now nearly 80, who will be remembered as a ringer in Bedfordshire, and Mr. F. Sherman, aged 73. The last quarter here is so far back that it is not remembered, but with this new burst of enthusiasm we hope to see Gransden mentioned frequently in our columns.

BELFRY GOSSIP

The contract for the construction of the 'Gloria in Excelsis' tower, the tallest section of Washington Cathedral, has been signed. When completed, the tower will rise 300 feet above Mount St. Alban, and will contain a 53 bell carillon and a ring of ten bells for English change ringing. The 1,860,000 dollar contract is the second to be signed in the Cathedral's current building programme.—'Living Church' service, New York.

We are pleased to learn that Mr. and Mrs. H. O. Chaddock, of Sheffield, are now better after their operations.

Miss Sylvia Sims, daughter of the captain of Emmanuel Church, Plymouth, band, and herself an experienced ringer, is entering Salisbury Teachers' Training College next September.

Two 'John' peals were rung on June 24th at Farnworth-with-Kearsley, reported in our last issue and at Mossley, which is given this week. Through one of those editorial 'mix-ups' we regret that they were not given together last week.

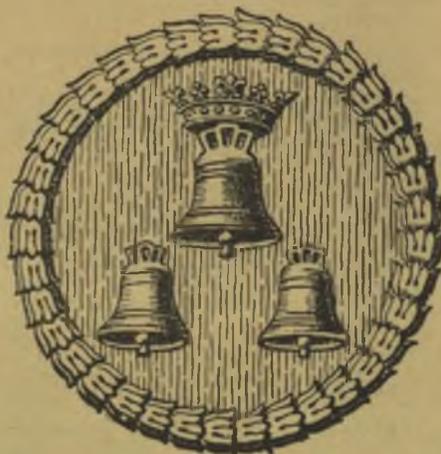

Will correspondents please refrain from (a) writing on both sides of a sheet of paper; (b) writing of two different subjects on the same sheet, i.e., peals and quarter peals. It makes extra work and when portions have to be copied when one is tired mistakes are liable to be made.

Ash, Surrey, the tower of the Surprise practices, has been the resort of Cupid of late. Two weddings have taken place—Miss Sylvia Christine Sherwood was married to Dr. G. D. Mackenzie, and after a honeymoon in Majorca they will be making their home at Wem, and Miss Audrey Eileen Goodchild to a fellow Ash ringer, Mr. C. J. Harwood.

The ringers of Goldhanger, Essex, and their friends send their best wishes to the Rector, the Rev. W. A. Randall, on his appointment to the living of Aveley, Essex. With thankfulness, the ringers remember Mr. Randall's efforts which resulted in the augmentation of Goldhanger's bells from six to eight, and his friendliness to visiting ringers.

LADY RINGER RECEIVES O.B.E.

The Hon. Barbara Gibbs has been a regular and faithful service ringer at Hunsdon, Herts, for many years. She is a member of the Ladies' Guild and the Hertford County Association.

It was therefore fitting that a band composed of members of both these Associations should meet together to ring a peal on hearing that Miss Gibbs had been awarded the O.B.E., in the Queen's Birthday Honours.

Arrangements were made through the local tower keeper, Miss Chitty, and the attempt was kept a secret from Miss Gibbs. The Hon. Rosalind Gibbs was informed and was able to tell her sister during the evening why the bells were ringing. Both ladies then drove from their home, Hunsdon Mill, near the church, and listened to the remainder of the peal. They were delighted with the success of the attempt and provided the ringers with very welcome refreshments, which gave the ringers the opportunity of adding a toast and good wishes.

Miss Gibbs is the second member of the Ladies' Guild to receive the O.B.E. The first was Miss Sylvia Thursfield, of Cranford, Kettering.

The Hon. Barbara Gibbs received her decoration for public services in Hertfordshire. She was chairman of the County Federation of Women's Institutes, chairman of the Executive Committee of the Diocesan Council for Women's Work, Diocesan Missionary Council (1932-48), Member of Church Assembly (1950-55), Diocesan Conference and a keen worker for the British Red Cross Society.

60th ANNIVERSARY OF FIRST SURPRISE PEAL 'IN HAND'

An interesting 60th anniversary peal was rung 'in hand' at Leicester on June 26th to commemorate the ringing of the first peal of Surprise 'in hand.'

The following is the record of the peal which appeared in 'The Bell News' of June 27th, 1901 (Volume XX, issue 1,003, page 103):—

Umpires, Henry R. Newton and Herbert Langdon, who ticked off every lead end as rung. Mr. Taffender also heard two hours of the ringing outside the room.

This is the first Surprise peal ever rung double handed and was rung at the twenty-fifth attempt, during which over 50,000 changes have been rung.

BARNSELY DISTRICT SOCIETY

Two new members—Roger Clarke and Patricia Gresham, of Kirkburton—were elected at the monthly meeting of the Barnsley District Society held at St. Helen's, Sandal. Ten towers were represented. The Vicar (Rev. R. D. Strapps) presided at the business meeting, and the vote of thanks was proposed by Mr. Noel F. Moxon. Next meeting, Penistone, August 12th, joint with Yorks Association (Southern District). Ringing also at Cawthorne and Hoylandswaine.

PERSONALITIES OF THE EXERCISE - 29

MR. RODNEY B. MEADOWS, B.A.,
Oxford University Society.

Scholar, wit, archæologist, railway enthusiast and a first class ringer—such are some of the interests which go to make up the fascinating personality of Mr. Rodney B. Meadows, of Kilburn, London. His after-dinner speeches at ringers' dinners are always listened to with interest and amusement, and his now well known piece of poetry, 'The Great Debunker,' recited at the Henry Johnson dinner this year, was a masterpiece! The fact that it was received with no adverse comment was a great tribute to his popularity and esteem. A lesser man would not have dared to deliver it!

Rodney was born in Norbury, South London, on September 28th, 1924, and was introduced to ringing through the Oxford University Society. When he had completed his army service, in late 1946, he returned to Oxford to continue his studies, and was taken along to New College belfry one cold Wednesday evening in January, 1947. He was told, 'There is no reason why you should not be taught to ring,' and he has been an enthusiast ever since.

His first peal was Grandsire Triples, rung at Badsey, Worcs, in the autumn of 1948, and his present total is about 175, of which he has conducted 13. They have been rung in all the usual methods from Minor to Maximus, with a good sprinkling of Spiced Surprise Major, but his favourite method is Grandsire Caters.

As a traffic costing officer with British Railways, he has been fortunate in that his job has taken him all over the Western Region, to live near some wonderful towers, and to ring with a variety of bands and make many friends. He is very grateful to the Birmingham ringers for applying the necessary polish to his ringing education, especially on twelve bells. Many other ringers, too, have much to be thankful for in their association with this recognised centre of tip-top striking.

Two extremes of performance are apparent when Rodney looks back on some of the peals of which he is justifiably proud. He recalls the peals of Bob Minor he has conducted, because as he says 'They have been hard work for all concerned,' and in which he has helped beginners over their first hurdles. And he is very proud of a peal of Bristol, rung at Bray, Ireland, in 1953. This was accomplished with the well known Cheshire touring party,

and was an example of concentration and unhurried ringing, by an expert band, on bells worth going a long way to hear. Rodney has enjoyed many hours of good ringing and good company with the Cheshire men in summers past, but not forgotten.

He is a member of St. Augustine's, Kilburn, London, and has rung there since 1948, with intervals away on business. He is a vice-president of the Oxford University Society of Change Ringers, and represented them on the Central Council from 1951-1959.

Rodney has wide interests apart from ringing. He was trained as an archæologist, holds the Diploma in Classical Archæology at Oxford University, and has excavated at sites under the direction of Professor Richard Atkinson and Sir Mortimer Wheeler. He is very keen on music and enjoys sport (in nearly all its forms). He has a great love of railway history, and in fact would have regarded a ride of the now disused Clogher Valley line, in Northern Ireland, as being just as rewarding as a peal attempt! He was only fortunate enough to see the site of this railway 'classic'—where the line runs through the centre of the villages—when on holiday there. He enjoys introducing his ringing friends to some of the scenes of early railway travel!

Rodney has a charming manner, and is a delightful companion—a man who never appears ruffled or bad tempered, and consequently one who has made many friends all over the country. To him good ringing is just part of the varied pattern of life, and though he is a real enthusiast, he also finds time for other pleasures, which makes him interesting in any company. In this approach he is probably very wise and sensible.

DEDICATION

ATHERSTONE, WARWICKSHIRE

St. Mary's Parish Church, Atherstone, Warwickshire, now has in place of its single bell a light but musical ring of eight bells, the tenor being 8½ cwt. The dedication of the bells and also a new electric clock, with quarter and hour chime, was carried out on June 24th by the Ven. L. J. Stanford, Archdeacon of Coventry. The service was conducted by the Vicar, Rev. A. W. Dodds, and the lesson was read by the president of the Coventry Diocesan Guild, Mr. F. W. Perrens. Rounds during the dedication service were rung by officers and members of the Guild.

Following the act of dedication the Archdeacon, in his address, congratulated the Vicar and churchwardens on adding such valuable equipment to the ancient Church of St. Mary.

After the service the bells were rung by members of the St. Mary's band of ringers, most of whom had been taught to handle a bell since these had been installed by Messrs. John Taylor, of Loughborough, and they performed very creditably.

Members of the congregation and the ringers present were entertained to tea in the Town Hall by the Vicar and churchwardens. Afterwards the bells were open to visitors, many of whom were from the St. Martin's Guild, Birmingham, the Leicester Guild, the Staffords and the Coventry Guild. Methods ranged from rounds to Spiced Surprise. The general opinion was that the county has gained a very fine ring of eight.

GUILDFORD DIOCESAN GUILD Farnham District

On July 8th the Farnham District held a meeting at Seale. After afternoon ringing about 30 sat down to an appetising tea in the Church Hall, arranged by Miss Nancie Bragg, an Aldershot ringer. Mr. E. J. Bragg, District Ringing Master, conducted the meeting and the Guild Master, Mr. C. Denyer, told those present of the Pulling Memorial Bell, at present standing in Guildford Cathedral, that is to be placed with other bells in the tower, likely to be completed in about 3 years. Ringing continued in the evening.

IN its short life of just over two years, the U.W.S.C.R., although it had visited over 50 different Welsh towers, had never before crossed the border into England, until this year, when we decided to hold our summer tour in Gloucestershire and North Somerset.

Our far-flung members met at St. Woolos' Cathedral, Newport, on June 23rd, and then, after an hour's ringing, retreated to St. John's, Cardiff. The following morning, rested and refreshed, we set off for the border, only pausing at St. Mary's, Chepstow. After a two-hour wait for the Beachley-Aust ferry, we finally loaded our minibus on to the assault-craft, and set off to establish a bridgehead on the far side of the Severn. We reached Bristol at tea time, having rung at Henbury and Stoke Bishop on the way. In the evening we rang at St. Michael's, the Bristol University tower. The next day, Sunday, we visited six more Bristol towers—St. James', St. Stephen's, the Cathedral, St. John's, Christ Church and SS. Philip and Jacob's.

Monday was a circular tour, starting at Emmanuel Church, Clifton, then going via the Clifton suspension bridge to Portishead. After an abortive peal attempt at Clapton-in-Gordano and an unscheduled visit to Weston-in-Gordano, we spent a most enjoyable hour on Yatton's fine eight, finishing the day with a visit to Twerton-on-Avon.

On Tuesday we went southward to Bridgewater, calling at Banwell, Wedmore, Ashcott and Shapwick. Wednesday became a day of rest, the shortage of ringers which beset the whole tour being then so acute that we were forced to cancel our intended programme.

A DAY WITH READING UNIVERSITY

A party from Reading University joined us for the day, on Thursday, when our first ring was on the lovely eight at Chewton Mendip. The other three towers visited that day were all sixes—Binegar, Marksbury and Radstock. In the evening some of us went along to the

practice at St. Philip's, Bristol, where we were made most welcome, and listened to and took which we went northwards to Dursley and took part in some very enjoyable ringing.

On Friday our first call was at Bitton, after which we went northward to Dursley and Painswick. It was a shame to visit this beautiful twelve with so few ringers, some of the party having been temporarily lost to us. In the evening we rang at St. Mary-de-Crypt, Gloucester. Saturday, July 1st, the last day of the tour, started with a visit to Barnwood. We then called at Badgeworth, the only rough ring of the tour, and went on to Cheltenham. After lunch we went to St. Mary's and rang Grandshire Caters with the help of two of the local band. As a result of ringing here, one of the party who thought eight bells the ideal number has been won over to 10-bell ringing. Our last two towers before disbanding till next session were Leckhampton and Prestbury, at both of which the local band turned out in force to welcome us.

We are very grateful to all who contributed to the success of the tour. B. J. C.

YORKSHIRE ASSOCIATION

Western District

The untimely death of Mr. Thomas Marshall, at the meeting of the Western District at Skipton, has already been reported in our columns. Previous to that sad occurrence several well struck touches were brought round on this fine octave. Over 60 members were present at a most satisfying tea provided by the Young Wives' Group.

The annual election of officers took place at the business meeting and the following were elected to serve for the next three years: Ringing Master, Mr. G. Benfield; committee, Messrs. T. W. Strangeway, J. Pearson and C. F. Sutcliffe. Mr. Strangeway continues to serve on the General Committee of the Association.

Next meeting, Guiseley, September 16th.

COVENTRY DIOCESAN GUILD RALLY

THE Coventry Diocesan Guild held their biannual rally on July 1st. On this occasion a number of towers were opened instead of organised ringing at one tower. Atherstone, Bedworth, Bulkington, Chilvers Coton and Nuneaton were available from 2 to 4 p.m., followed by a service at Chilvers Coton Parish Church, conducted by the Vicar, the Rev. R. R. P. Rigby, with the organist and choir in attendance. The lesson was read by Mr. A. H. Beamish, a past president of the Guild, and Ringing Master at Chilvers Coton.

The address was by the Lord Bishop of Coventry, who is patron of the Guild. The Bishop prefaced his remarks by saying how pleased he was once again to meet the bell ringers of the Diocese. He remembered with pleasure the two previous occasions, at Holy Trinity Stratford-on-Avon, and St. Mary's, Warwick. For his text he quoted from II Kings, viii, 9: 'This day is a day of good tidings, and we hold our peace.'

During the past week, he said, he had attended the enthronement of the Archbishop of Canterbury, at Canterbury Cathedral, which he said had been a most moving spectacle, with finally the great ring of bells of the Cathedral ringing out over the city and Kent marches. Secondly, he had inducted the new incumbent at Holy Trinity Church, Stratford-on-Avon, when at the conclusion of the service those lovely bells rang out over the town as the procession moved to the Town Hall. These were occasions when the bells rang out the good tidings and were an expression of great joy. He sincerely hoped that it might be possible to ring the bells of Coventry Cathedral, when that wonderful building was dedicated.

Tea followed in the Church Hall, ably organised by members of the Mothers' Union, and was much enjoyed by all.

The president (Mr. F. W. Perrens) thanked the ladies for providing such a delightful tea, which he assured them had been much enjoyed. He also thanked the Bishop for addressing them once again. He knew how busy he must be with the forthcoming dedication of the new Cathedral. The ringers looked forward to meeting him on these rallies, although the attendance on this occasion was not quite so large as previously, caused, he thought, by holidays and garden fetes at many villages. No doubt the next rally would be centred on the new Coventry Cathedral.

The Bishop in his reply said these meetings were a great pleasure to him, and it gave him the opportunity to express his appreciation to the officers and members of the Guild for the loyal service they performed in keeping the bells of our churches ringing out their message Sunday by Sunday reminding all that a service was about to commence and inviting them to attend. He knew they would continue with their work for the church as it no doubt gave them great pleasure to do so.

Following tea, the bells of Chilvers Coton and Nuneaton were put to good use until 8 p.m. A social had been arranged at a local hotel by Mrs. Beamish, and was enjoyed by those who attended. This concluded another biannual rally, favoured with glorious weather.

EASTBOURNE, SUSSEX.—On June 25th, at the Church of St. Saviour, 1,260 Grandshire Triples: Margaret Roberts (first quarter) 1. G. Pullinger 2. Mrs. B. Percy 3. A. R. Baldock (first as cond.) 4. H. Reynolds 5. R. Percy 6. R. Pankhurst 7. T. M. Barlow (first quarter) 8. A wedding compliment to the Vicar's daughter, Miss Teresa Hetherington, and the Rev. Christopher Ardagh-Walker, who were married here the previous day.

LETTERS TO THE EDITOR

GRANDSIRE MAJOR

Dear Sir,—As you have encouraged readers to comment on the music of Grandsire Major, having rung in the peal recently published these were my conclusions:—

The composition used contained calls at every Home, with the tenor lying 6 blows behind; unfortunately this cuts out the lead, which is equivalent to the Middle in Plain Bob, and thus eliminates many 867's and 857's, etc., etc.; when the 7 would be going behind 4 blows and 86 or 85 dodging in 6-7. This I found to be the only drawback, though it is not an insurmountable problem, with other compositions suitably arranged.

In favour were: Every course is a short one (at the most 5 leads), thus making it possible to obtain practically the extent of 4-5-6 in 6ths at course ends; also the Bob at Home brings up a series of very satisfying roll-ups. Then again, as in Grandsire on all numbers, when the 4th, 5th or 6th is in the hunt more roll ups seem to come up 'out of the blue,' when they are in 5th or 6th place hunting down to lead.

Unlike the band who rang the Grandsire Royal I would certainly not say it's my last of Grandsire Major; in fact I much prefer its music to many of these Surprise Major methods, with their false course end limitations.—Yours sincerely,

D. JOHN HUNT.

Whitehall, Bristol.

QUARTER PEALS AND THE LOCAL BAND

Dear Sir,—With reference to Mr. F. Hodgson's letter, on page 439, he is surely not serious when he suggests that all quarter peals not rung by a local band should have a footnote to that effect? In many instances, I feel that this would be misconstrued and taken to be an implied slight on the local ringers.

No one would deny that the quarter peal of Cambridge Major which we rang at Giggleswick-in-Craven was not in the nature of a chance tower grab, but it was worth while from several points of view, because: (a) we had good ringing on a pleasant new ring of eight; (b) we were able to renew old friendships; and (c) one of the local ringers joined us afterwards and we were able to ring some Bob Major for her benefit—her first touch of Major for quite some time. She then invited us to her lovely home and gave us excellent refreshments before we continued our journey.

Dare I pull Mr. Hodgson's leg and suggest that the tone of his letter nearly makes him fit G. K. Chesterton's definition of a 'Puritan'—a person who pours righteous indignation into the wrong things?—Yours sincerely,

R. J. BOWDEN.

Westbury-on-Trym, Bristol.

RINGING QUARTER PEALS LOCALLY

Dear Sir,—May I be permitted to reply to Mr. Hodgson's letter on page 439.

Firstly, after the wedding at St. Albans of two people referred to, five of us hoped to ring a quarter for this occasion on our way to Scotland, but time did not permit. So as it was a chance in a million, meeting four other ringers on our way back from Scotland, it was agreed upon to ring a quarter for the said occasion, being better late than never. Also may I add that it is the thought behind the action that counts, the distance being no object whatsoever.

I hope Mr. Hodgson has the facts straight now, without any more waste of paper.—Yours sincerely,

ANTHONY P. MANN.

Exning, Newmarket, Suffolk.

Q-SETS

Dear Sir.—Recently I discovered what Q-sets were and read with avid interest the papers produced by my namesake in Snowdon's 'Grandsire' (minus the doubtless fascinating diagrams).

My own interest in Q-sets lies, however, in 'ordinary' methods and not Grandsire. As stated the Q-set Law only covers bobbed and plained lead end/lead heads: Q-sets having singled leads are merely mentioned as being exceptions to the usual law.

The use of singles produces a six member Q-set, which may be represented by a forward or backward six and marked as follows:

234 + A
243 - B +ve members: 234-423-342

423 + C
432 - D -ve members: 243-432-324

342 + E
324 - F

Either of the +ve or -ve sets constitute a normal three member Q-set.

If the handstrokes and backstrokes of the treble's lead be examined at all positions of 234 and with plain, bob and single lead transits, the following table may be produced:

Backstroke	234	423	342	243	432	324
Handstroke						
Plain:	243	432	324	234	423	342
Bob:	324	243	432	423	342	234
Single:	234	423	342	243	432	324
	P	P	S	PBS	PB	PBS
	B	PBS	BS	PBS	PBS	PB
	S	PBS	PBS	BS	PBS	P

The letters beneath indicate what type of transit is true against any other, between any two or more lead heads (backstroke).

Thus, if L.H.: 423 is produced by bob, preceding L.E. was: 243 and so L.H.: 234 is false with it if plain, preceding L.E. was: 243 also L.H.: 243 is false with it if single, preceding L.E. was: 243

Thus a new Q-set may be set down, which has one member bobbed, one plained, and one singled, and all false against each other. For convenience, the five transpositions may be applied to any set, to produce the others, thus covering any combination of 234 and any transit.

Table of mutually false members of six member Q-set.

Transit:	Plain	Bob	Single
L.H.	234	423	243
	342	234	324
	423	342	432
L.H.	243	324	234
	432	243	423
	324	432	342

It will be seen that each horizontal row from the table above contains either two members of a +ve Q-set and one -ve, or two members of a -ve Q-set and one +ve.

It is also interesting to note that a regular octahedron may be constructed, showing the members of any Q-set (normal or singled). A regular octahedron is a solid figure having eight sides, all of which are equilateral triangles. The simplest way of constructing the model is to use two similar nets, each of which is a large equilateral triangle divided into four smaller ones (rather like the formation sign used by the Third Division in the last war), but leaving spare flaps round the edge for joining up. One large triangle should be marked with a large + sign in the middle of its central triangle and A, C and E marked on the apices, the adjoining triangles being similarly marked, with

all A's, C's and E's adjacent, the large triangle now being marked B, F and D at its apices.

The other large triangle has its central triangle marked - and the central triangle's apices D, B and F, the other small triangles marked so as to have all D's, B's and F's adjacent. The large triangle's apices being C, E and A. The two large triangles are folded along the boundaries of the smaller triangles, and stuck together by the flaps, so that on the complete solid, we have the 'top' marked + A, C, E, the 'bottom' - D, B, F and the 'sides' are: A, B, C; A, F, E; C, D, E; A, B, F; B, C, D, and D, E, F. It will be apparent that the 'top' and 'bottom' represent the 'normal' three member +ve and -ve Q-sets respectively, and that the 'sides' are the 'singled' Q-sets dealt with here, each having two apices adjacent to either 'top' or 'bottom'. The letters used in the marking of the solid are those put against the six rows at the beginning of the letter.

I don't know if any of my conclusions are original, and I should be grateful if any more perspicacious person would point out any errors I have made in my researches. If anyone can't follow my instructions for making the interesting little solid, I shall be only too pleased to show them how.—Yours sincerely,

GILES B. THOMPSON.

Chorlton-cum-Hardy, Manchester.

LONDON AREA MEETINGS

Dear Sir,—While we had a good joint meeting with the Middlesex Association at Edmonston and Tottenham on Saturday, July 8th, with some 50 ringers present, I feel that more could have been done with fuller collaboration between all the ringing Societies operating in London.

At the very time of our meeting our friends of the Society of Royal Cumberland Youths were holding a meeting at Putney. Some of us would have liked to have been with them, but they did not know sufficiently early about our joint meeting and we did not know of theirs.

Full collaboration and inter-Association programming for the London area could make for better and stronger meetings with an advance in ringing standards all round.—Yours sincerely,

HAROLD W. ROGERS,

Honorary Secretary.

London County Association.

RESTORATION APPEAL—ST. PAUL'S, BENDIGO, VICTORIA

Dear Sir.—An appeal has been launched for £2,000 to restore the fine ring of eight at Bendigo (Sandhurst), Victoria. These bells were cast at Whitechapel in the middle of the last century, but due to their hanging at the very top of a brick tower in a frame of rather inadequate design they have always been most difficult to handle and control. Indeed, neither a peal nor a quarter peal has been recorded on them.

The bells are to be removed, lowered some 20 feet in the tower and rehung in a steel frame to the bellfounder's specification and it is anticipated that this very valuable octave will then be one of the best in Australia.

I have been asked personally to recommend this appeal to all your readers in the hope that the very keen circle of ringers in Bendigo and in Victoria may receive help in their campaign.

Please support this worthy restoration appeal. Donations (per money order or bank draft) may be sent to either Mr. Warne Wilson, 18, Smith Street, Bendigo, Victoria, or to my Australian address: 67, Highfield Avenue, Springvale North, Victoria.—Yours, etc.,

GEORGE W. PIPE.

UNIVERSITY OF BRISTOL SOCIETY IN WYE VALLEY

THIS year's tour took place in the Wye Valley immediately after the summer term. The weather was good apart from the first day, but not quite up to traditional summer tour standard.

We started with 16 cyclists and were joined for the first day by two ringers doing it the easy way in a car! From Severn Tunnel Junction we cycled to Shirenewton, a small village near Chepstow, where the bells are not often used. We discovered a broken wheel and the ringing degenerated into an attempt at rounds.

At Chepstow we were joined by the Master's fiancée, who came with us for the week-end. Here we rang rounds on the 10, and other methods up to Stedman Triples. On the ride to Tiddenham we had our first puncture. The ringing here is from the ground floor and was of dubious quality. At Lydney no good ringing materialised and the striking was consistently poor, but on the five old bells at Hewelsfield the standard was better. So we cycled to St. Briavals, where the church and the Castle Youth Hostel are only a few yards apart, to our great relief, but probably not the warden's. We attempted some Grandsire and Stedman Triples.

On Sunday morning most of the party went to church before breakfast, after which we left the hostel in small groups as we finished our jobs. The Master left last; his 'easy job' of wedding a few feet of path turned out to be more difficult than anticipated! We rang at Newland for matins and had the best ringing of the tour so far, including Cambridge Minor and some Spliced Plain and Little Bob. It was a pretty ride through the forest to Staunton, where both the ringing and the local hostelry were of a high standard. From Staunton we went on to Ruardean to ring for Evenson, a marathon ride over the steepest and longest hills of the tour, but with some marvellous views from the top. It was here we had our only accident—one of our members, in her enthusiasm for the hill, hit the kerb and fell off. Luckily she was not too badly hurt, and after we had found an inner tube that could be persuaded to fit the wheel the bicycle was rideable. The night was spent at the Welsh Bicknor Youth Hostel.
