

CENTRAL COUNCIL METHODS COMMITTEE

Results of the Consultation on the Proposed 2017 Updates to the Decisions

We published a new consultation paper on March 21, 2017, listing the areas where we thought updates could or should be made to the Central Council Decisions. We selected some of these updates as candidates for proposal at the 2017 Central Council meeting. We asked for comments on the 2017 proposed updates by April 7, 2017 and the responses we received are shown in the following chart:

As can be seen above, the responses in favour of the updates comfortably exceeded the responses against. Note that not all respondents expressed an opinion on every question – this is represented by the white sections of the chart bars.

In light of these results, the Methods Committee will propose all of the above updates at the May 2017 Central Council meeting.
