In 19454 the Guild tried, and failed, to get the original die back from the estate of George Stacey, the solicitors involved claiming that they could not find it. In the meantime Denton and Down had produced a new die at a cost of £5. This was used until the late 1950s when J. Taylor Ltd of London took over supplying the badges, which they continued to do until the early 1970s. Neither of these firms marked their products.
